Bd. No. 1942 Sir,

From the Agent to the Governor at Kurnool } I have the honor to

transmit the Statements Marathi and English, which should have accompanied my Settlement Report for Fusly 1262 forwarded to you under date 16th May 1854.

Para 49 of the Settlement Report. The cause of Seriaya Summa Balances amounting to Rupees 274—10—1 is explained in the Column of Remark in Statement No. 23 and as these Balances are irrecoverable, I have to request the sanction for writing off the amount from my accounts. I request also that in Para 46 of my report the word "inclusive" may be substituted for exclusive—

Kurnool, 31st May 1854. Government Agents Office, } (Signed) T. Conway Agent to the Governor

Order thereon. — Ordered to this one. To

(37-38)

From Coll.r 24th December 1851 inclo.s 8th Jan.y 1852.

at Rupees 38–4 and at the Collector's recommendation sanction given by the Board on the 8th January 1852 for its sale at the Talook Cutcherry on the 12th February 1852.—

6. The sale however actually took place on the spot but not till the 2nd September 1852 and the property was purchased for 18 Rupees by Ananta Naraiener.—

7. The late owner / Petitioner / has kept possession of the land to this day, the purchaser vainly endeavouring to obtain entry.—

Even From Collector 4th October.

8 In the Tabular Report of sales dated 1st October 1857 forwarded for the Board's confirmation and which received their sanction in the 25th ideim no mention is made / by an oversight as stated / of the 208 Cocoanut trees and pond within the boundaries sold, or the announcement of such having been sold for 18 Rupees might have attracted the attention of the Board and further information required on the subject.

Para 2 From Coll.r 14th January 1854.

Note in the English advertisement no mention is made of Trees or Building. In the Tamil copy 103 Cocoanut Trees and a Building are entered.—

The

9. The land has been recently revalued at the desire of the Board by the Collector's establishment and is estimated to be worth 510 Rupees.—

From Collector 6th May & 5th June 1854.

10. The Board have to request the cancelling of this sale if indeed the sale of the land on the spot on the 2d. September 1852 when advertised with the Board's permission for sale at the Talook Cutcherry on the 12th February 1852 does not render the transaction illegal.—

Petition sent to the Coll.r 26th April 1853 endorsed by the Collector 12th Nov.r /53.

11. The Board look upon the Proceedings in this case with much displeasure, The undervaluation of the Garden in the first instance and the delay in bringing the circumstances of the case under the consideration of the Board on the Petition of Juraiu evince culpable neglect to say the least on the part of the Talook authorities as also defective check in the Hoozoor Cutcherry. The Collector from his acquaintance with the spot which is also near his residence ought to have

From Collector 14th January Paras 3 & 4.

have seen that the valuation of the Garden made by the Tahsildar could not be correct and the Board think that he cannot with reason appeal to the Public sale as a proof that the land had brought its probable value—

12. In recommending to Government that the sale may be cancelled the Board resolve at the same time to request that the Acting Collector will call upon the Tahsildar who first valued the property, as well as the Tahsildar who subsequently assumed charge of the Talook and who is stated to have reported that the property was not saleable for the amount at which it had been valued, to explain the part they respectively took in this transaction and that he will state what notice should be taken of the conduct of these Officers under the circumstances of the case that may be elicited—

C.O.B. Page 278 Dt Nov 11—337 Note 4 Para 2.

13. The Board would express their regret that a sale of property, which

which should at all times be resorted to with much forbearance, should have been exercised on the present occasion with so little consideration and enquiry—

Ordered that a copy of the foregoing Extract be submitted to Government and a transcript of the same be furnished to the Collector of Chingleput.

D. 1787 for the perform=ance of certain ceremonies at the tomb of Sutte=yadee Raja Swamy Gooroo of the Mudvasect and for feeding Bramins resorting to the Muttum attached to the Tomb. The allowances were con=tinued by the British Government in the name of Anuntacharry.- 2. In 1845 a dispute arose be=tween Anuntacharry and Sutteyadee Rungaswamy as gooroo of the Madva sect, respecting the right to the manage=ment of the Muttum. A suit was filed in the Sub Court of Chittoor by Sutteya Pauruyanaswamy and a decree was passed by the Sub Judge declaring that the mut was proved to have been built by the former holders of the office of Gooroo and of right belonged to their suc=cessor, and that Anuntacharry was merely a Goomastah to superintend the affairs of the Mut. This decree was confirmed both by the Civil Court and the Court of Sudr Udalut.-	Extract from the Nabob's Pharist in support of the Yeomiah are trans=mitted with transla=tion.-

3. In 1849 when the suit was pending before the Court of Sudr Udalut, Anuntacharry died and the Goomastahs of the Gooroo presented a Petition to the Board praying that the yeomiahs might be continued in the name of the Gooroo. The Petition was forwarded to the Collector for disposal and he gave an endorsement dated 11th February 1850, that it appeared proper to defer passing any order on the claim till the suit before the Sudr Court should be disposed of. The suit having now been decided as above said in favor of the Gooroo he prays that the Yeomiahs may be continued to him and the arrears of the allowance from 11th October 1849 / that date of last pay ment / as well as the future annual allowance may be paid to his Goomastah Soobbacharloo..

4. The Tahsildar reports that the heirs of the deceased Anuntacharry continued to perform the services of the Mutt up to 10th September 1853, on which day the Mutt was made over to the Gooroo under the decree of the Court of Sudr Udalut, and they claim the allowance up to that period. It is also reported that service has been regularly performed on the part of the Gooroo from the time when the Mutt was made over to him..

5. Under the foregoing circumstances the Collector begs to recommend that the allowances amounting to Rupees 352 per annum may be continued in the name of the Gooroo Sutteya Paurayanaswamy and that sanction may be granted for the payment of arrears to the heirs of the deceased Anuntacharry from 11th October 1849 to 9th September 1853, and to the Gooroo from 10 September 1853..

× No. 2292 of 1849

7882

Fort St. George 5th June 1854.

No. 1

Extract from the Nabob's Sayer Pharist of the Vellore Talook for fusly 1210.

A yeamiah of half rupee per diem, fifteen Rupees per month, or One hundred and seventy Seven Rupees for twelve months, that is deducting Rupees three, out of One hundred and Eighty Rupees on account of the difference between the Solar and lunar Months, is to be allowed to Ananta Charry, a disciple, under the Enayetnamah bearing date the 25th Rubbeesawmy Hizree 1201, for defraying the expences of Sutteeyadeeraja Swamy's tomb, and for the subsistence of the followers of his creed.

Fort St. George 5th June 1854.

B. No. 1172

No. 241

Remarks (47-48)

thereon, Under the circumstances explained by the Collector, the Board are of opinion that the heirs of the deceased anuntacharry are entitled to draw these yeamiahs up to the date to which the prescribed service was performed by them, Viz: 9th September 1853; and that the Goroo should be considered the incumbent thereto from that date, under the decree of the Sudr Udalut.

2. Adverting however to the nature of this grant, which is for the support of a tomb and the orders of Government requiring the reduction of personal allowances as lapses occur, the Board think that from the date of the decease of the late incumbent, the allowance should be reduced to 240 Rupees per annum.

C.O. 29th Augt 42 P. 329.

291	Abdool Cauder	88 8	11th December 1838 - 21st June 1842.	For the performance of the Service of Mosqueur in the Mokhery of Begum Saibah at Ranneapet.	From 4th Kist of fusly 1262 to 2d Dr of Fusly 1263 or 12th april to 28th october 1853.	28 48	This yeamiahdar died on 29th October 1853 and it is reported by the Tahsildar of Cauvery-pauk that the required service was duly performed upto 28th of that month. Ayeejah Bee mother of the deceased, has applied for the arrears of pension due to her son upto 28th October 1853. The reason of her not having preferred this claim earlier is stated to be in consequence of her having been in great sorrow for some time on account of the loss of her son & of her having found some difficulty in procuring a Vakeel to apply for the money, being herself a Goshah. The Collector therefore begs to recommend that the arrears of yeamiah due may be paid to Ayeejah Bee, who appears to be the proper heir of the deceased.

of power which it claimed: and that any money subscribed to it would be an useless expenditure.

3. On the receipt of the Board's instructions a proclamation was circulated by me throughout the District cautioning all parties against collecting money from the ryots under the pretence of obtaining an abolition of taxes, and notifying that any persons who pursued such a course would be forwarded to the Criminal Court for trial on a charge of embezzlement and fraud. I also made enquiries to ascertain whether any agents of the association were at present in the District and it appears that an attempt was lately made to levy subscriptions in the Manargoody Taluk but no positive evidence was obtained and the project seems to have been abandoned in consequence of the notice taken of it.

4. I also learnt that a person named

named Samiamooty Iyen was travelling about the Ellavanasore taluk and collecting money as an agent of the association, which intelligence led me to call for information from the Tahsildar. A Copy of that Officer's report is now enclosed and he has been desired to furnish more particular information as to where Samiamooty Iyen now is and why immediate notice was not taken of his proceedings by the Taluk authorities.

5. While waiting for the Tahsildar's report regarding this individual my nomination to a new appointment has made it necessary for me to deliver over charge of the District to the Sub Collector Mr. Wood, but as the matter referred to in the Board's proceedings occurred while the District was under my superintendence I have thought it incumbent upon me to answer the call for

No 1.

Translation of Urzee from the Thasildar of Ulavanacore, dated 25th May, 1854.

I beg to acknowledge the receipt of your order No 124 under date the 10th Instant, enclosing a proclamation to prevent parties connected with the Madras native association from going about & holding out false hopes to the ryots and levying contributions from them and directing me to examine and forward to the Hoozoor any parties who may hereafter be guilty of such acts and to report whether any thing of the Kind has previously occurred in my Talook.

From the enquiries I have now instituted I learn that about 2 Months back a Bramin calling himself

Fort St George 5th June 1854.

himself Sambooroor Roy Iyen & Meerasidar of the Sheally Talook came to the Villages of this Talook representing himself as an agent of the associations and holding out hopes that he would cause a re-investigation of resumed Jaghiers, Shotriem and Cavil incames; that he took copies of the Purwanahs & connected with the Jaghiers of Reshevumdum and Aslundoor pollam and the Gangaroor and Kalmungalum Shotriems, receiving at the time some fees for his promised services. I am also informed that the said individual stopped at Teravanapulloor for a few days and having sent for some villagers in the vicinity told them that he would obtain remissions of the land tax and other cesses such as Poturpha &c and also procure relief in other ways and that he received Petitions on those subjects to the address of the Parliament. I have however now Circulated Copies of the Proclamation enclosed

enclosed in the Moozoot Tahsildar throughout the Villages with instructions to send to me any persons who may carry on such practices in future and I forward them to your Moozoot after investigation according to the orders issued to me.

No. 84.

To,

B. Cunliffe Esqre

Sub Secretary to the

Court of Wards.

Fort St. George.

65

B. No. 1768.

From the Collector of Madura

Sir,

In reference to the Proceedings of the Court of Wards of the 17th October 1853, I have the honor to point out, that what is entered in the account of Istimirar Afsets is a certain favorable quite rent on the Village in question not the full afsessment thereon, and that the difference between the two is a valuable property to which the Zemindar has at present no title and which, under ordinary circumstances would be susceptible of sale. The purchaser would purchase his land subject to the quit rent due to the Zemin: dar who would therefore be no loser by the sale.

The

The quit rent is 1 Pon or Chuckrum per 1 Cullum Verayadee of which there are 42 in the Villages. The aggregate Quit rent is therefore 42 Pons. The full afsessment may be estimated at 5 Pons per 1 Cullum Verayadee or 210 Pons in the aggregate. The difference 178 Pons does not at present belong to the Zemindar but to the holder of the property.

Equivalent to Rs. A. P. 66-10-4

The question seems to be whether a Jeeveedum or Grant for maintenance is alienable or liable to sale for the debt of the grantee. If it is the income of this Village over and above the quit rent entered in the afsets of the Zemindar can be sold and I am informed that the Courts have sold the interest of the Jeeveedumkars in some instances, but should the Court of Wards deem it expedient to obtain a specific ruling of the Court in the present case I will instruct the Guardian to petition against the sale and inform them of the result.

Madura, Buttagoontah 19th May, 1854.

(Signed) R. D. Parker

Collector

The

Bd. No. 1157.

Proceedings thereon- The Court of Wards adhere to the opinion expressed in their Proceedings of the 17th October 1853, that a grant for maintenance is not liable to be sold for the debts of the grantee since the alienation does not confer any proprietary right on the latter- They would however wish to have a specific ruling of the Civil Court in the case under discussion and accordingly authorize the Collector to instruct the guardian to petition against the sale and inform them of the result-

To The Collector of Madras-

Sir,

With reference to para 4 of your letter dated 18th April 1854, I am directed by the Board of Revenue to request you will inform them whether you have adopted any measures with a view of cancelling your agreement with Vencataradoly as regards the Salt remaining unimported by him at that date and with what results-

In any case the Board are desirous that there should not be, if possible, any restrictions as respects the sale of Salt, either wholesale or retail at the Government Cotaurs-

B.- No. 1464.

Fort St. George

70

Statement shewing the particulars of the Case of Coolsum Beebee who was in the receipt of a Pension from the Office of the Collector of

5th June 1854

Grand daughter and only surviving representative of the late Fatmah Begum Madras.

Cases.	Taluk and Villages.	Extent and Value of the entire Enam or Pension.	When and By whom Granted.	Summary or abstract Document in Sufs: = part of the Grant.	Nature of the Grant Charity or Service, nature of the service, duty performed by the Grantee.	Name of the original Grantee.	Name of the last holder and the relation which she bore to the Grantee and date of her decease.	Share enjoyed by the deceased and that held by the other Members.	Family applied by the deceased and name and age of the Parties.	Their circumstances and the manner of their subsistence forfeited by the family.	Recommendation and ground thereof.	Remarks of the Board of Revenue	Orders of Government.
1	2	3	4	5	6	7	8	9	10	11	12	13	14
1.	Sawtumpaub and Poondy formerly belonging to a Jaghiredar.	1050 Rupees per Mensem.	Granted by the British Government on the 23rd June 1818 as per letter from the Board of Revenue dated 2nd July following to the Collector of the Northern Division of Arcot.		For the support of the Jaghiredar family.	Ghoolam Ally Khan son of the late Mahomed Nazerbooden Khan, Jaghiredar of Sawtumbaub 88nd.	Fatmah Begum died on the 28th February 1842.	Rs. 8-5-4 per Mensem.	Coolsum Beebee grand daughter aged 31.	The Applicant appears to have no other means of subsistence having been dependent on her late grandmother for support.	Fatmah Begum and two others mentioned in No. 9 of the Statement submitted to the Board of Revenue on the 24th February 1821, were on the receipt of an allowance of Rupees 25 per Mensem, i.e. Rupees 8-5-4 Each. Fatmah Begum died on the 28th February 1842 leaving a Grand daughter as her sole representative who now claims 2/3d of the allowance (Rupees 66-10-8 per Annum) enjoyed by her deceased Grand mother, as prescribed in the instructions of Government dated 20th March 1821 the terms of which were that at the death of the several incumbents the shares which they respectively received were to be reduced one third, at the death of their successors two thirds, and at their death to entirely cease. The Acting Collector recommends that on this ground 2/3rds of the original allowance Rupees 66-10-8 per Annum be continued to the Applicant, and that the sanction of Government may be obtained for the disbursement of the arrears due Vizt. From 1st March 1842 to 30th April 1854 at Rupees 66-10-8 per annum is Rupees 811-1-8.		

(Signed) H. Stokes.
Acting Collector.

Madras
5th May 1854

Fort St. George 5th June 1854.

Bc. No. 1174.

Remarks thereon-1

70-71

In Cons: 27th June 1853

This case is exactly similar to that submitted by the Acting Collector of Madras on the 3d June 1853 and forwarded to Govern: =ment with the Board's remarks of the 27th ditto - Under the interpretation put upon the terms of the Grant dated 20th March 1821 in that case and concurred in by Government in their orders of the 11th July 1853, the Board recommend that the arrears due to Coolsum Beebee from the date of her Grand Mother's death, amounting to Rupees 811-1-8 may be ordered to be paid to her, and that two thirds of the allowance enjoyed by the latter may be continued to the former as the 2d life under the Grant quoted above-

2. It is necessary to explain that the non-submission hitherto of Coolsum Beebee's case for the orders of Government arose from a misapprehension of the terms of the grant by the Collector of Madras, and that it is now submitted under the orders passed by the Board on the case being brought to their notice by petition

B. No. 1910
From the Jt. Collector of Ganjam

Explaining in reply to the Board's letter of 11th Instant the weight in tolahs of a country seer and forwarding Mr. Fraser's replies to the queries respecting salt dated 5th April.

Sir,

I have the honor to acknowledge the receipt of your letter of the 11th Instant and in reply to state that the "Country Seer" alluded to in my letter of the 25th April contains as nearly as possible 80 tolahs weight of rice, or 90 of Well water. The difference in the cost to which you refer may from your calculation being based on the quantity sold, mine on the amount taken into store as shewn in the margin.

	Average quantity of Salt stored during ten years first from July 1353 to 62.	Cost as per Statement No. 3.	Cost per Garce.	
	Mds	Sr. Garce	Rs.	As.
Last mentioned in my reply to the 12th Query	323920	38 2699	136	17240 . 9	6 6 2
	Quantity	Sold		
Cost as calculated by you	303902	. 2532	17240 . 9	6 12 4

2 I have now the honor to forward Mr. Fraser's answers to the Board's queries. His suggestion as regards the

6th April 1854.

the heading the Salt under European Agency I consider a very valuable one, but the sales should also be conducted by an European or Indo Briton. Many old Non commissioned Officers pensioned would I am sure be glad of the employment.

3 I may mention as a proof of the difficulties one has to contend against the discovery of smuggled Salt, that several pits in shape like a large Chatty about 3 feet deep and 1½ feet in diameter were pointed out to me, in the Ganjam small evaporating pans, in which Salt had been concealed; the pit was made and well tamped down, its mouth was small about 8 inches in diameter and was filled with strong stiff clay over which the water was 2 or 3 inches deep. I have seen many Salt pans but never before heard of such pits, they may however be common, and so I notice their existence here. —

Ganjam District. — Collector's Cutcherry — Chitterpore, 31st May 1854

Signed W. Knox
Acting Collector

No

No 1

Mr. Fraser's. Repies to Queries regarding Salt.

1 The nature of the Country in and adjoining to which the manufacture of Salt is carried on, the average annual produce of the district, and the extent of land occupied by pans, and the quantity that can be made on a given area of land, also what additional land there is capable of being converted into pans, supposing the manufacture not to be limited to particular localities: —

The pans in the Ganjam District are at 4 localities, Viz, Ameravilly, Nowpada, Monsorretta, Ganjam. They are all situated on low sandy flats near the sea, from which, at Ameravilly & Nowpada, the salt water is led to the place of manufacture by artificial channels. At Monsorretta there is a bank water open to the Sea from July, till the end of December or January, during the rest of the year, closed by a bar of Sand. When water is required for manufacturing purposes a Channel is cut through this bar, if high for its ingress, or if it is low, the sand on the ridge is shovelled away, so as to allow the sea at full tide to wash over it.

At

At Ganjam there is a natural channel leading to the Salt pans from the river, Rooshekoliah close (ie within a few hundred yards of) its mouth; and the supply of water comes and goes with each flow and ebb of the tide.—

The Country in the immediate vicinity of the pans is flat, partly salt waste, partly wet crop land, and generally destitute of trees or jungle. The rice cultivation, at Nowpada, Monsoorcotta and Ganjam, comes up to the very edge of the pans on one or more sides. The Monsoorcotta Estat is the worst situated in this respect, for the pans about, in some places on the Villagers' back yards. And are almost entirely surrounded by cultivation. At Omeravilly and Nowpada the pans are separated from the sea by low hills of shifting sand, such as line the whole coast of this District. The average annual produce as shown by the account, is given by the Acting Collector, and I therefore need not advert to it.—

The

The extent of land under pans is estimated at

	Acres	Coottahs	Guzes
Ganjam	200	15	0
Monsoorcotta	92	10	10
+Nowpada	678	5	"
+Omeravilly	444	3	2

x Of this the ground under pans with their channels, evaporating tanks, &c. is estimated at Nowpada to be acres 282 1/2 and at Omeravilly acres 170 3/8.

I attempted to estimate the crop from a given amount of surface, by the actual quantity of Salt produced in one pan from one supply of brine ie measuring the crop, and the area of producing surface, but found I could base no calculation on these data that would give any thing like the actual gross crop in any one year. I made enquiries at Omeravilly which I thought would have afforded a tolerable approximation to correctness, these gave 50 Garce per season as the produce of an acre of pans, excluding ridges and supply channels.

This quantity is salt dripping wet as it is taken off the pans, but allowing even 1/8 for wastage before it is stored. The crop from acres 170 3/8 on this calculation should be 5,412 1/2 Garce of which from 1/8 to 1/4 is the usual contturn.

x half this ground is calculated to be taken up in ridges, tanks, channels of supply, &c.

There

Fort St George 8 June 1854

There is land available for Manufacture at Nowpada and Ganjam to an extent, that would double the average present Crop at each - at the other two spots there is no extra land to be had - If it be contemplated to establish separate Cotars at new localities, one might be formed at Ichapore, and one at Shree Coormum within 5 Miles of Chicacole, where a crop as large as that at Ganjam at present, could be depended on and of good quality -

2. The manufacturers who they generally are, their rights and privileges and the arrangements and terms upon which they carry on the Manufacture

The Manufacturers are with few exceptions the pyots of the adjacent Villages and in consideration of their exclusive employment at the Salt Pans, they have no peculiar rights or privileges. The shares in this employment generally descend by hereditary succession, in precisely the same manner as Jeroyetty puttahs, and when from any fraud or breach of the Salt Laws on the part of the holders they lapse to the Circar, they are matters of keen competition because the Manufacture being conducted during the month when there is little field labour is

Fort St George 8 June 1854.

is going on, and being such that children of seven 7 or 8 years of age can be profitably employed in it, is looked on by the pyot as a great help towards paying his land Cist. The Salt pyots in the months of December† January & February‡ sign Moochilkas binding themselves to deliver into Store, at each Cotar, a certain quantity of Salt (which is determined on at the Cowgot with reference to the probable demand) in consideration of a certain fixed price per Madras Garce of 120 Measures. The price at each locality is noted in the margin. At each, except Nowpada, they receive Incharee, which varies according to the quantity of Salt to be delivered, but has generally amounted to the per centage noted marginally on the whole sum to be received by the pyots - At Ganjam only the Government price does not cover the outlay in labour for shaping and thatching the heaps, which amounts on an average to 12 as per heap of 10 Garces. The straw for thatching is supplied at all the Cotaurs, by Government (and forms a separate item

† at Nowpada
* at Omerilly
‡ at Monsoorcotta & Ganjam

† Ganjam at 6 Rupees, Monsoorcotta at 7 Rs. Nowpada at 4 Rs. Omeravilly at 5 Rs.

† Ganjam between 7 & 8 per Cent
Moonsoorcotta 11 to 13 per Cent
Omerelly between 6 & 7 per Cent

item of account. The value of this for each heap varies from Rupees 2½ to 3½ according as straw is cheap or dear. The price of the Manufactured Salt is always paid to the ryots in the presence of one of the Covenanted Assistants to the Collector.—

3 The extent of Manufacture of earth Salt & of spontaneous or swamp Salt, its selling price and mode of Manufacture—

There is, generally speaking no earth Salt or spontaneous or swamp Salt Manufactured or collected on account of Government in this District, some times when the Salt swamps in the vicinity of the pans dry up, the spontaneous Salt thus left is gathered, simply to prevent its being taken by the surrounding ryots, which would interfere with the Government Sales. It is never calculated on as a source of revenue and its formation in any quantity is not common.

The process of Manufacture is as follows.—

4 The process of Manufacture of Sea Salt, the plans and mode of storage and the method of keeping an account of the produce so as to

At Nowpada, Omiruilly, and Muneeoorutta, the ground for pans is laid out in small parallelograms of from 6 to 8 by 2 to 5 yards. These are

to secure the whole being accounted for.—

are divided one from another, by ledges of about a span high and 9 inches to a foot wide. The Salt water is led from the sea into flats near the pans and a dam of earth and straw well rammed and faced with turf is thrown across the channel of supply to prevent its return with the ebb of the tide. An opening is made in this dam, and fresh supplies of water are admitted as occasion requires, but not oftener than twice a month at the high tides at full and during the new moon. The object of thus storing the water behind the dam is to allow the brine to concentrate somewhat before it is admitted into the pans. To every 30, 40, or 50 of these, there are attached one or two or three square or oblong shallow evaporating tanks, which are fed by trenches cut to the main store. From these tanks, narrow channels of supply are led, between the dividing pidges among the pans, into each of which water can—

can be admitted by a narrow cut or small hole made in its bank. Immediately before the cropping season commences, which is generally in February at Nowpada about 15th January the ledges are repaired, the beds of the pans are wetted and trodden by men, till the mud becomes a stiff smooth paste, which is then spread evenly, and well beaten down with wooden pammers till it becomes hard enough for a person to walk on, and leave scarcely any traces. The salt water is drawn from the store behind the dam, by pacottahs or other mechanical means into the evaporating tanks to a depth of from 12 to 15 inches, where it is allowed still further to concentrate from 5 to 7 days, and then let, by the small channels, into the prepared pans to a depth of from 2 to 5 inches. Here the brine remains till the crystals of Salt form. It is never allowed to evaporate to dryness, but while still moist, is scraped from

from off the pans with tooth less wooden rakes like road scrapers. At Omercilly the Salt is removed once in 5 days, for the salt forms slowly there. At Nowpada where the process is quicker, once in 3 days. At Monnoorcottah once in 3 or 4 days. Crop is however gathered every day at each Cotam, as different pans are kept in degrees of forwardness.

After salt is collected from any one, its surface is again rubbed smooth, brine again let in for a second Crop and so on to the close of the manufacturing season which lasts 4 or 5 months. At Ganjam, the process differs in some respects from that just described. There is no dam thrown up to retain the main supply of water, which comes and goes with the tide. The pans also after being smoothed and pammed as at the other Cotars are thinly strewn with sand. The brine is then let in early in the morning to a depth of not more than 1½ or 2 inches. By 3 P.M. the Salt that has formed is removed, the sand

* N.B. The speedy or slow formation of the salt depends partly on the intensity of the solar heat and partly also on the nature of the soil. Hence the difference in time between the several localities.

sand preventing it from adhering to the mud below. The salt thus made is tolerably clean looking, but is very friable and contains a great deal of sand, nor does it bear carriage well.—

The salt is stored on platforms of earth, raised in some central situation, and surrounded by a ditch and stormy bridge. Of these there are two at Nowpada and one each at Ganjam Monsoorcottah and Ommilly. The salt is received in the first instance, as it comes from the pans, by estimate, and each pyot or set of pyots make a separate store of his or their produce, each store is labelled with the producer's name, and when it is finally measured, a receipt for the actual quantity is given to the party; this he has to produce when he comes to receive the price for his crop. To receive the salt into store at first by measure, as it comes from the pans, and as the previous

PLG

Salt rules, enjoin is simply impossible. The estimated produce of each day is reported by each Salt Gomasta to the Shroffs, and entered by him in a book supplied for that purpose. In this also are entered an account of the daily sales, and the wastage in each heap; transcripts of these are sent to the Shroffs for registry in the Sheristadar's Department. At intervals during the season the crop is measured in the presence of a European Assistant or some native servant deputed for the purpose into heaps of 1200 Maunds each which are thickly thatched with straw to protect them from the rain.

5 Whether Salt is ever actually sold by weight and on what occasion ---

Never has been within my experience.

6 The mode of protecting the Revenue.

By Rowanahs or permits issued at the time of sale to each purchaser. These are valid for a certain number of days entered on the face of each, and calculated according to the distance the salt has to be carried. At the expiry of this time they ought to be renewed before the nearest Revenue or Police authority on fit cause being shown. This however (the renewal) is by no

no means strictly attend to, and the time allowed for the carriage of the Salt to its destination, is generally much too long, so much so as in short distances, to permit of two or three trips being made under the same Rowanah. All Salt in transit unprotected by a Rowanah is liable to confiscation.

The Acting Collectors replies give a full answer to this query, on which therefore I need say nothing more.

7. The entire agency, covenanted & uncovenanted and all Establishments ministerial, in manufacturing and preventive, employed in each district with description of the duties of each class of officer.

A good deal of Smuggling is known to exist. The ryots and others steal by night from the pans. This they do for their own consumption, but also to store for clandestine sale. When as is constantly the case, from the want of old, new Salt is sold to Merchants at the same time as it is being manufactured, those who have stolen hoards, do not fail to take advantage of such a good opportunity to dispose of them. In these cases I have reason to believe, that some times

8 The extent of Smuggling and the modes in which it is principally carried on with the grounds for believing it to be great or small.

times Rowanahs, which have already covered a purchase of Government, are used to protect a second venture of stolen Salt.

As long as old Salt only is publickly sold, clandestine sale of new would be dangerous to attempt, because the difference between what has just been made, and that which has been a year in store is perceptible at a glance to a practised eye.

The illicit manufacture of Salt has hitherto existed to a considerable extent at the abandoned pans at Ketvapore as also that of earth Salt by boiling and evaporation. This is notorious; and not only was the country all round supplied entirely from this source, but an export trade to the Mulliahs, believed in some years to amount to several thousand Rupees worth, was carried on, and the Salt was of course sold at a much lower price than the Government article. In June 1852 the then Tahsildar of Ketvapoor was dismissed for gross carelessness in (and suspected connivance at) permitting this manufacture to go on under his very eyes. Since then it is believed to have almost entirely

† N.B. That of salt in pans certainly has but there is still some mode by boiling for local consumption.

entirely ceased. Last year there were considerable sales from the stores at Ganjam and Monsoorcottah to merchants from the neighbourhood of Ichapore, which was quite a novelty. The renters of the fisheries at Ichapore are however, by a strange anomaly, permitted to make earth salt to cure their fish with. This privilege is of course profitably abused, and must be till it is withdrawn. There seems no necessity for its continuance there, as it is not accorded to the fishermen in the other parts of this district.

9. The mode in which and the persons to whom the internal consumption is supplied the quantity of salt indigenous and foreign consumed internally and the amount of revenue derived from each kind, the purity of the salt supplied by the dealers for internal consumption. The estimated consumption of salt per head per annum and on what data it is framed.

Salt is sold at the pans to all applicants for any quantity not less than 5 Marcals (value Rupees 1¼) when purchasers take it by the heap, they are allowed a deduction of 5 per cent on the price of that quantity. The principal buyers are Bruinjaries, who resort to the Nowpoor pans in preference to any, as producing the salt that bears carriage best. Next in order comes the Oonerally salt for

for which Bandy Merchants are the chief customers. At Monsoorcotta Bruinjaries from Chota Nagpore purchase largely and if the Salt there is all esteemed at Ganjam the produce of which is least in favor with Merchants of all classes as being the most perishable. No foreign salt is consumed in this District i.e. such as is legally imported. There is reason to believe that a little smuggled comes from Cuttack, but the Salt of that District is not liked by the natives here. They believe it to be unwholesome and consequently are prejudiced against it. All venders of rice and pulse and other common articles of food except vegetables, sell salt also by retail, and on market days salt is often sold by people who come for that purpose alone. It is difficult to draw the line of demarcation between foreign and home consumption; since much that is purchased for the former is sold on route for the latter purpose. The returns of revenue so far, as the accounts shew them

them, are given in the Acting Collector's reply to this Query and therefore I need not repeat them. The same source also supplies the information called for regarding the consumption per annum per head.

The per centage by weight of impurity in the Salt of each Cotar, is noted in the † margin, as obtained by actual experiment on average Specimens from each.

† Ganjam 60 per cent
Monavarretta } 34 per Ct
Omerab by † Nowapada } 28½ Ct.

No export by sea from this District.

10 The mode in which the persons thro' whom and the arrangements under which exportations by sea are carried on, the places to which the exportations are made. the quantity exported and the amount of Revenue derived from the export to each place, the quantity supplied to the French Government and the terms on which it is supplied.

The average wastage cannot be positively stated. It has been assumed, quite arbitrarily for this District, that five per Cent is the proper amount to be allowed. My experience leads me to believe that this may be assumed to

11 The average wastage upon each parcel of Salt Manufactured in the District after it has been measured and carried to account.

to be correct; for the best, or Nowpada Salt, but in the Ganjam Salt I think if the Storing were conducted on precisely the same manner as the Sales, i.e. the Measure accurately struck, and no pressing or shaking of them allowed, that 10 or even 12 per Cent is not too large a margin. These two rates may be taken as the probable extremes of wastage. The new Salt rules have been in force for but a comparatively short period, and this they do lay down that the Measure is to be struck and not heaped at all, this is not strictly attended to. I think too much stress has been hitherto laid, and too indiscriminate censure passed, on large wastage, without enquiring whether such be genuine or fictitious. The natural consequence is, that no native Subordinate will no matter what orders are given, strike the Measure accurately some excess, be it large or small, is measured into each heap. If the Subordinate is honest,

this

this is accounted for by an unusually small amount of wastage, if otherwise, he carries it to his own account, and writes off the usual amount of wastage in the Sale account.

The only remedy for this, and the only mode of fixing a certain standard to test the sales by (as far as I can see) is the heaping under European superintendence of a considerable portion for several days of the crop at each set of pans, as a rate of wastage must be fixed for each. This superintendence must be very close. The measurement of each Morcal into each heap, must be scrutinized with as much care as if it were being sold instead of stored. When the Goomastahs see that care is thus taken to fix a genuine, in place of a fictitious rate of wastage, they will no longer fear to be honest. The loss to Government will not be so great under this system, as at first sight would seem certain, because a given quantity of Salt will measure more in this manner, than in that now in vogue.

The

12 The average cost to Government of each Garce of Salt and the particulars of the same, each item of charge with the amount being shown distinctly.

10 The cost at which it could be made were it left entirely to the people without any Government interference.

The answer to this Query is given by the Acting Collector as shown by the accounts and therefore I need not restate it.

I have caused enquiries to be made on this subject at the different Salt pans. at Ganjam; and Monsoorcotta the ryots, if left to themselves entirely offer to deliver Salt to Government at 10 Rupees a Garce; at Nowpada at 20 Rupees at Omerolly at 15 Rupees. These two latter I consider preposterously high rates. I calculated that at Nowpada the rate of profit to the ryots, on the present Government price, is 40 per cent, at Ganjam 30 per cent and the profits at Monsoorcotta and Omerolly may be assumed to be the same as at Ganjam and Nowpada respectively. Those are very high, amply so were they shared by only a few individuals, but when divided among a great number (at Nowpada 1000 people) there is not a larger sum for each person than is sufficient to induce him to undertake the labour of production. I think however that Salt might be contracted for free of all Government interference, as from 7 to 10 Rupees a Garce throughout the District.

The

Fort St George 8th June 1854

11. The names of the places where salt is manufactured the average extent of ground cultivated at each with the outturn and sale and the distance each set of pans is from the other.

The distance from Onnerilly to Nowpada is about 25 miles from Nowpada to Monsoorcotta about 65 and from Monsoorcotta to Ganjam about 15. The rest of the information required in this Query is contained in the replies already given.

Principal Assistant Collector's Office, Chicacole, 25th May, 1854

/Signed/ J. Fraser
Acting Pr. Asst. Coll.r

/True Copy/
/Signed/ W. Knox
Acting Collector

Ordered that the following letter be sent in consequence.

(3-4)

TO, The Acting Collector of Ganjam.

B.R. No. 1188

Sir,

To the Acting Collector of Ganjam

In Cons. 8th June 1854

With reference to the enclosure in your letter of 31st May, the Board observe that Mr. Fraser states as follows

"To receive the Salt into store, at first by measures "as it comes from the pans, as the present Salt "Rules enjoin is simply impossible."

The

Fort St George 8th June 1854

The Salt Rule is as follows "The Salt shall be delivered into store by measurement only, and not by Estimate." The Board are aware that Salt must remain some time to dry, before being received into store; and it may happen that Salt is brought to the Government store faster than it can be measured; but there is nothing to prevent the Rule being carried out, which is simply this that no Salt shall be heaped and stored on the Government Platforms till it has been measured. This rule is essential and must be enforced. The Board believe that it is fully carried out without any difficulty in other Districts.

Mr. Fraser also mentions that the Fishermen of Kalingapore are permitted to manufacture Earth Salt to cure their fish. The Board wish to know who gave this authority and request that you will lose no time in putting a stop to the privilege.

In the first place the only concessions made in favor of Earth Salt are in the ceded Districts which are very far from the coast, and where Sea Salt is dear and 2dly there can be no doubt that under pretence of making Earth Salt, the fishermen manufacture and sell Sea Salt.

Revenue Board Office, Fort St. George, 8th June, 1854.

/Signed/ B. Cunliffe
Asst Secretary in Charge.

14 Rs. No. 1661

Tabular. Report on the lapsed yeomiahs in Fort St. George 8th June 1834

District of Nellore for the 1st Quarter of 1834.—

case No.	Taloob and Village extent and value of the entire Enam	When and by whom granted name of the original grantee Sunnuds or other Documents in support of the grant	Nature of the grant charity or Service If service nature of the duty prescribed by the grant	Name of the last holder date of his decease and the relationship in which he stood to the grantee	Share enjoyed by the deceased and that held by the other Members—	Family left by the deceased and name and age of the Parties Their circumstances and the means of subsistence possessed by them—	Recommendation of the Collector and the grounds on which it is made	Recommendation of the Board of Revenue	Decision of Government
1	2	3	4	5	6	7	8	9	10
1	Nellore in the Taloob of Nellore 30 Rs. 7 fs. 2 mensem divided among four Members of the family.—	On the 9th Rabelawul of Hejeree 1192 by Nawab Wallajah.—	For ansaur service in the Mosque at Nellore	Syed ameer noodeen son of Syed Hussainally one of the original grantees died on the 7th January 1833.—	The monthly yeomiah held by the family was Rs. 30 but Mr. Fraser a former Collector acting on a conditional sanction of Government dated 27th December 1812 distributed the allowance as follows.— Syed ameer noodeen deceased ——— Rs. 20 / 10 Syed Booddeen who died on the 28th March 1822 and whose share ultimately lapsed to Government ——— 10 2/4 / 5 Abdul Caudur on whose death on the 6th November 1823 his share lapsed to Government ——— 5 Abdul Gunny who died on the 9th March 1833 and whose case is also now under reference in the following page ——— 5 / 30	1 Syed Mausoom the eldest son aged 9 years. 1 Syed Chingee shaw=ge=get son aged 4 years 1 Buckoma alias Bukshu Bee the mother of the deceased last holder aged 70 years.— Besides the yeomiah there are Enam lands belonging to the family viz.— 1 Wet land sowable with 3 Loams of seed at Vedasaloor 1 Wet land sowable with 7 1/2 Loams at Varanee in the Tolamunchy Taloob Ditto Ditto with 3 Loams of seed at Soma=vaypully in Allen Taloob 3	On the death of Ameenoodeen the last holder his mother presented a Petition to the late Collector requesting that the yeomiah may be re=newed to the deceased eldest son Syed Mau=soom. From the report received from the Cauzee and the further enquiry instituted it appears that Syed Mausoom is the rightful heir to succeed to the yeomiah and that the ansaur ser=vice for which the yeomiah was granted is kept up by a Naick on behalf of Syed Mausoom		

Under these circumstances the Collector begs to recommend that the yeomiah be renewed to Mausoom and that he be allowed to perform the service by a mail during his minority, and that the payment of the arrears from the date of the last holders death may be sanctioned.—

Copy of Sunnud granted by Nawab Wallajah in the Month of Rabelawul of Hejeree 1192 bearing the Seal of the Cazee

A. D. 1778

A. B. Copy of the Sunnud and its translation to be sent to the Board with the Statement dated 17th September 1830.—

1957

Fort St. George

8th June 1834

case No.	Talook and Village esclent and value of the entire Enam—	When and by whom grantee Name of the original grantee sunneds or other Documents in support of the grant—	Nature of the grant Charity Service If service nature of the duty by the grant—	Name of the last holder date of his decease and the relation ship in which he stood to the grantee—	Share injoyed by the deceased and that held by the other members—	Family left by the deceased and name and age of the Parties Their circumstances and the means of subsistence professed by them—	Recommendation of the Collector and the ground on which it is made—	Recommendation of the Board of Revenue—	Decision of Government—
1	2	3	4	5	6	7	8	9	10
	Nellore in the Talook of Nellore 30 Rs 7 2 Inensem Divided among four members of the family—	On the 9th Rabelawul of Hejeri 1192 by Nawab Wallajah—	For ausaur service in the mosque at Nellore—	Abdul Gunny nee adopted son of Cateejabee one of the original grantee Died on the 9th March 1833	Vide particulars in the preceding page— The Share held by the deceased abdul Gunny was Rs 58 that by the other members Rs 25	1 Aumeen Bee adopted Daughter of the deceased aged 7 years 1 Besides the Yeomiah there are Enam lands belanging to the family sowable with 13½ Soms Viz— 1 Land sowable with 3 Soms of seed in Varuma in Talamunchy Talook 1/2 1 Land sowable with 3 Soms of seed in Semarauzepully in Nellore Talook— 3	The last holder during his life time addressed an argee to the late Collector on the 21st October 1850 requesting that at his death (which subsequently took place on the 9th March 1853) his Yeomiah might be renewed to his adopted daughter Ameenbee.— The Caujee States that adaption is not permitted by the Mahomedan Law, but that the deceased appears to have adopted Ameenbee according to custom and usage, and that Goolam Allyes Ameenbees father is performing the service for which the Yeomiah was granted. another claimant has also come forward named Mahammud Rahaim Atoollah the step brother of the husband of the late Cateejabee one of the original grantees his claim is, however also pronounced invalid by the Caujee. Under these circumstances the Yeomiah appears properly to have lapsed to Government but if it is thought proper to renew it the Collector recommends that it be granted to Ameenbee her father performing the service and that arrears be paid to them.—		
	1 Cateejabee } Daughters of Syed Boodun 1 Jarabee }	1 Meer Hussainally son of Syed Booddeen 1 Syed Booddeen son of Goolam Mahammud—

22-23

24

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

Bd. No 1620

From the Collector of Bellary

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue dated 9th of February 1854, it is stated in the 2d Para "under the instructions now circulated the Collector's will continue without report to the heir of the last incumbent, all Enams in which their title to succession may not be affected by any other circumstance in their present or prior to transmission than the fact of its being derived through a female line"

In the 2d Para of Extract from the Minutes of Consultation under date the 25th January 1854 which accompanied the Board's Proceedings it is stated "the circumstances of the legal heir being a female or of the succession having formerly descended through a lineal female

female heir shall not henceforth be held to be a bar to continued enjoyment of Enam lands"

The second Para of the Board's Proceedings in which Collectors are directed to continue without report "to the heir of the last incumbent" seems to refer only to cases when the succession is derived through the Female line No allusion being made to that part of the order of Government which states that the circumstance of the legal heir being a female is no bar to succession.

I have therefore the honor to request information whether or not it is competent to Collectors to continue Enams which have descended either through the male or Female line to the claimant who is a female as in the case of an Enamdar dying and leaving only a widow or daughter or daughter in law, or other Female relative, which appear to have been contemplated by the order of Government above quoted

I have also the honor to request information as to the degree

of

of relationship in which females are to be considered legal heirs and their orders of precedence—

Bellary District—
Collector's Office on circuit at Ramanadroog 27th April 1854 } (Signed) C. Pelly Collector

Bd. No. 1184.

Proceedings thereon— The Board of Revenue observe that it is competent to Collectors under the Circular order of 9th February 1854 to continue to female heirs without reference to higher authority all Enams which may now be so continued to male heirs—

(24-25)

2. In regard to the question in the last para as to the degree of relationship in which females are to be considered legal heirs and their orders of precedence the Board think that the Circular order of the 11th May 1854 supplies the necessary information—

No. 32

(26)

To, W. H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George

Bd. No. 1911.

From the collector of Bellary— } Sir,

With reference to Extract from

from the Minutes of Consultation under date the 21st February 1854 which accompanied the Board's Extract of Proceedings of 16th March 1854 requesting that if there are any Enams allowed for the performance of the Siddee Ceremony I should furnish a statement of the same and report my opinion regarding the discontinuance of the Ceremony, I have the honor to state that no such Enams are enjoyed in this District nor do the accounts show that any were granted for that purpose—

The Siddee Ceremony is performed at certain Pagodas by men and Women of the lower classes of Soodras in performance of vows made to the Deity—

There are two sorts of Siddees the cumbum Siddee and the Bandy Siddee of which the cumbum Siddee is the most dangerous, as if the skin should give way or the hook break and the person fall, death would probably be the consequence considering the height the person is suspended, I have issued orders to the several Tahsildars to prevent the performance of these dangerous

Sub Secretary to the
Board of Revenue
in charge
Fort St. George

(28)

Bd No. 1904

Sir,

From the Agent to the Governor at Kurnool } I have the honor to forward a statement prepared in the prescribed Form shewing the offers which have been made for the rent of the Abkaree Farms of this District for the ensuing Fusly

2. The Board are aware that the whole district, was farmed out to one individual from 1261 to 1263, inclusive; at Rupees 70,000 for the first year and Rupees 71,000 for the succeeding ones. The speculation appears to have been a profitable one, to the renter as regards the

J.C.B.

two first years, but the loss which he has sustained in the present year, owing to the great decrease in the consumption of spirits, occasioned by the high price of food has made him unwilling again to undertake the rent of the whole district for a like period; and no other eligible offers having been made I was obliged to put up each Talook separately.

3. I allowed several days to elapse before closing the biddings as on the day first fixed they amounted only in the aggregate to Rupees 64,860. The final result is a small increase above the amount obtained under the late arrangements and the several parties whose offers are now submitted having tendered good security for their engagements I beg to recommend that their offers be accepted.

Kurnool
Government Agents
Office 31st May
1854. } /Signed/ T. Conway
Agent to the Governor

Statement

7975

Fort St. George 8th June 1854.

Proceedings thereon.

28-29

The Board of Revenue sanction the acceptance of the offers for the abkarry Farms of the District of Burnool for Fasly 1264, exhibited in the Statement which accompanies the foregoing letter amounting in the aggregate to Rupees 71139, and authorize the renters being placed in possession of their respective farms on their making the necessary deposits and giving the required security. The offers for Dhone and Goodoor being considerably below the average, the Agent should have explained the cause of the difference. He will be pleased to supply this omission at an early date.

B.d. No. 1583.

Sir,

From the Acting Collector of Chingleput.

In the Tabular report of Mr. Cochrane dated the 12th December last, it is observed that he recommended the continuance of the 1/3rd share of the Shrotrium Villages of Tundlum and Streedaree Coopum to Rajah Charry &c. on the grounds of the alienation of the

Enam in favor of their deceased father, being of a longer standing than 20 years. Should the reference which in Extract from the Proceedings of the Board of Revenue under date the 20th Ultimo is stated to have been made to the Honorable Court, bear entirely, on the above view of the case, I have the honor to request the reconsideration by the Board of the claims to succeed to the Enams of Ragavandra Charry and his brother Soorna Charry, who being grandsons in the Female line of descent to the last legal Incumbent Narrayana Charry a Member of the family of the Original grantee, must be regarded as his legal heirs

*B.d C.O. 9th February 1854 under Circular instructions recently received from the Board.

Chingleput District,
Collector's Cutcherry,
Pullecarney 11th May 1854.

/Signed/ G. Ellis
Acting Collector

B.d No. 1186.

Proceedings thereon.

30-31

The Board of Revenue observe that the reference to the Honorable Court alluded to in the foregoing letter is on the subject of allowing Enams of long standing supported by limited sunnuds to be treated with the same consideration as is now extended to grants unsupported by formal documents

documents, so that the question will have to be decided generally irrespective of the particular case whence it originated - should the decision of the Honorable Court be in favor of the hereditary continuance of such Enams. The orders of Government dated 12th April 1854 will permit of Ragavandra Chary's share in the tundlum and Streedavicoopum Shrotriums being registered in his name without any limitation as to his tenancy for life.-

(32)

Dd. No. 1634.

Sir,

From the acting Collector of Chingleput.

I have the honor to acknowledge the receipt of Extract of the Proceedings of the Board of Revenue under date 15th May 1854 and in reply beg to state that the in communication with the Chief Magistrate and

Superintendent of Police at Madras, I have not yet, as the parts of the district said to be infested by dacoits are at some distance from the Madras limits, considered it necessary to avail myself further of his assistance than to request him to send me two Tallians acquainted with the locality which the gang of dacoits is reported to frequent; and the information they may give will I trust enable the Police of this District, now that the Boards have not taken objection to my having entertained 30 Peons in anticipation of their sanction, either to apprehend these dacoits or at least to put a stop to their depredations.-

No. Upon the Assistant - Magistrate is now actively engaged in conducting an investigation on the spot frequented by this gang of thieves, the result of which shall be reported to the Board. The first intimation of any robbery having been committed in that locality was brought to the notice of this office by the Acting Collector of Madras on the 23rd March, and I can only account for no complaint having been made before the Magistrate of this district by the supposition that the Collector being on Circuit the parties

who

who were robbed thought they were likely to receive earlier attention to their com-plaints if made to the Chief Magistrate in Madras.-

In conclusion I would beg to observe that for the efficient working of the police by which the security of Travellers on Cochrane's Canal is to be attained it will be necessary to establish a large police force on the road from Trivattore to Pulicat, whose special duties shall be to exercise an active surveillance both on the canal and over the places about Trivattore and Manally, and I consider that the greater number of the 30 Peons I have entertained will not be too numerous for that service at present, or at any rate until a permanent water police can be organized regarding which I propose shortly to address the Board. It is evident that if the Peons from the Sydapet and adjacent Talooks are to be detached from the performance of other to these duties, those that remain will be totally inadequate for the services of their respective Talooks.

Returns of the names of each station, the duties connected with it, and the Peons employed therein shall be forwarded to the Board without delay.-

41

Bd. No. 1470

From the Collector of North Arcot —

Report on Petition No. 2361 of 1853.

Sir, your letter of the 26th January conveys the opinion of the Board of Revenue that if the assertion of Sashiengar Petitioner in 2361 of 1853 is true, Viz. that he was the son of the hereditary Meerasidar of Aravoor, and that he has been removed in favor of the son of the late Monigar, he ought to be retained rather than the latter.

In reply I beg to state for the Board's information, that Seenevasiengar the Father of the Petitioner held the Office of monigar prior to the year 1832 when he died and his own son being absent, the office was given to a nephew Chinna Sreenevasiengar, and after a short time was transferred on his Razeenamah to his own brother Vencatasiengar, also nephew to the first Seenevasiengar. The latter held it till 1852 when he resigned it in favor of his son Vencatramiah=charry and the Petitioner jointly: but the two having been at first appointed by the

sub

Sub Collector, the Petitioner was removed by the late acting Collector, on the ground that it was undesirable to increase the number of Monigars, the established number in the village being two.—

3. It will thus be seen that Sashiengar's assertion, that he is the son of the hereditary Meerasidar, is untrue in the sense that the present holder has an inferior interest in the Meeras. Both are equal sharers in the Meeras, and I consider the claim of Vencatanurseemmahcharry to the maniem office to be better than that of the Petitioner because he directly succeeds his Father. Further he is far better fitted for the Office. Shashiengar was formerly employed as a writer in the Military Department and returned to his Village a few years ago on being dismissed from that situation. Since he came back the village has been in constant quarrels through his mischief making disposition. His character is quite enough in my opinion to disqualify him for the Maniem office even if his title were the best in point of merit.

Bd No 1648

From The Collector of North Arcot

Sir,

With their Proceedings of the 1st Instant, the Board of Revenue communicate forming information the order of Government, dated the 21st Ultimo, wishing to be informed distinctly whether Sherfoon Sahebah, in whose behalf an application was made for payment of arrears, is one of the four childern of Ameen Sahebah mentioned in the Acting Collectors letter dated August 1847, and if not, who she is, and what authority there is for her pension

2. In reply I have the honor to state that Sherfoon Sahebah is the grand-daughter of Ameen Sahebah, and is one of the four heirs mentioned in the Acting Collectors letter just referred to. The allowance of Rupees 7-6-10 is paid to her under the authority conveyed by Government in their Secretary's letter

to

to Board Dated 27th August 1824.—

3. In regard to the point whether Sherfoon Shahebah could not procure a fresh Vakeel in a shorter time than four years, I beg to state that the Cawzy of Vellore has reported that as she is a gosha woman, and cannot in consequence directly manage her affairs in this respect, the delay in procuring a fresh Vakeel was not owing to any indifference on her part but to circumstances beyond her control.—

Proceedings thereon.
(49-50)

The Board sanction the Employment of the several Establishments exhibited in the foregoing Statement at an aggregate charge of Rs 178-8-0 per mensem, for the management of the Mootahs attached for arrears of revenue for the current Fusly.

No 41

To,
W.H. Bayley Esqr
Secretary to the
Board of Revenue
Fort St George

Bd No 1887.

Sir,

From the Collector of Salem - - -

Adverting to the correspondence noted in the Margin, I have the honor to inform the Board that the Bagalore Poliput has been again advertised for sale on account of the Decree in st No 9 of 1843, and that I shall deem it

it my duty, with reference to the orders of Government conveyed in

Extract from the Board's Proceedings dated the 10th March 1851 to be present at the sale, and to take the opportunity of purchasing the Estate on behalf of Government, if this can be effected at what I may think a fair value.

The date appointed for the sale at the Civil Court house at Salem is the 15th Instant - In explanation of the apparently late date at which this communication is made to the Board, I beg to state that I did not

2

not receive a copy of the advertise-
-ment till the 1st Instant, owing, as
I am informed by the Civil Judge,
to an oversight of one of the Civil
Court Servants.-

53

Bd No 1613
From the Collector
of South Arcot.

Addresses the Board regarding the maniem lands attached to Comaty Chut-
-trum which is disputed between the family of the founder & that of the Brahmin who was appointed to look after the Chuttrum affairs.-

Sir,

I have the honor to address the Board, under the provisions of Re-
-gulation VII of 1817 regard-
-ing a Choultry at Coo-
-dicaud, known by the
name of Comaty Chuttrum and its endow-
-ments regarding which a dispute exists
between Nanar Chetty the present
head of the family which built the
Chuttrum and Sooboocooty Ayen a Brahmin
whose family has long resided in it under
the founder's appointment to attend to
travellers and Superintend the details
of the establishment.

2. The endowments of the Chut-
-trum consist firstly of 3 Cawnies
annas 10½ of Nunjah and Poonjah land
assessed at Rupees 36-8-5 which were
granted to the Chuttrum before the
assumption of the Carnatic and appear
in the Dufter maniem accounts and

secondly

+ In the Cuddalore Talook on the Sou-
-thern Coast road

secondly of 15 Cawnies, assessed at Rupees 159. 12. 6 which were granted by Mr. Hyde on 10th October 1824 under the general authority then vested in Collectors for endowing institutions of this Description by the Government order dated 28th December 1821.

3. Gooroomoorty Syen and his late brother Sooboocooty Syen have long quarrelled with the Chetty's family, and in 1830 the former of them was fined Rupees 2 by the Joint Magistrate for improperly carrying off some of the Manniem produce. Since then or in 1844 Gooroomoorty Syen advanced a regular claim to the 3 Cs — 10 as. ½ of Manniem land first assigned to the Chuttrum, and an enquiry was commenced - but as Gooroomoorty Syen would not agree to the proposal of assembling a punchayet, and Munnarchetty said he would institute a Civil Suit, Orders were passed for keeping the produce in deposit pending the settlement of the dispute, and the case has since

remained in abeyance as Munnar Chetty's absence at Madras prevented his resorting to the Civil Court.

4. Both parties have now addressed Complaints to me. Gooroomoorty Syen prays that the 3-10½ Cawnies of Manniem land with its accumulated produce may be given to him, while Munnar Chetty claims all the Enam land, with its produce and asks that Gooroomoorty Syen may be ejected from the Chuttrum for neglecting the duties which he was placed there to perform, and instead of obeying his orders even obstructing him when he wished to repair the building.

5 In his examination before me Gooroomoorty Syen admits that the right of the Chuttrum belongs to Munnarchetty by whose family it was built and has been recently repaired, and he denies having offered any opposition to Munnarchetty. But he claims

the

Fort St. George 8th June 1854.

the right to live in the Chattrum and enjoy the 3-10½ Cawnies of Maunieu on the authority of a Shasanum or deed on Copper now produced by him / which he asserts was execut:ed in favor of his ancestor Rungien by one of the Chetty family.

5. Munnar Chetty denies the authenticity of this deed which bears a date corresponding with 1750, and much suspicion attaches to it. It is not mentioned in the Duftar Enam Register prepared in 1775, nor was it produced in 1830 when Goorooamoorty's brother was fined for carrying off the produce of the land. To account for this latter circumstance Goo: :rooamoorty Iyen states that it had escaped recollection having been deposited for security with one Sambien of Cuddalore / now dead / who gave it to him in 1849 on hearing that there was a dis: :pute about the Mauniem land.

7. There is no doubt that

Fort St. George 8th June 1854.

that Goorooamoorty Iyen and his family have long lived in the Chattrum to perform under its founder the usual ministerial offices for persons resorting to it, and even if the Copper deed pleas a genuine one, it would only give them a right to enjoy the income while they ful: :filled those duties, which they have not done but have disobeyed and opposed the proprietor of the Chattrum. Deeming therefore that the alleged alienation of the Enam land would be not only in itself improper but is wanting in due proof I propose, with the Board's approval, putting the Chattrum and its endowments in the hands of Munnar Chetty, the heir of its founder, with whose permission alone Goorooamoorty Iyen can then continue to live in the building.

8. One point which remains is the extent of land assigned to this Chattrum. It will be observed that Mr. Hyde assigned the maximum of 15 Cawnies then al: :lowed for these institutions.

Goorooamoorty

Goorroomoorty Iyen has referred to this circumstance as a proof that the pres:ent endowment had been alienat:ed in the manner he asserts, but al:though my records afford no light on this point, it appears that the previous Maunieem of 3—10½ could not have been brought to Mr Hyde's notice, and the Board may deem it proper that the total endowment should not exceed 15 Cawnies /or 6 of Nunjah and 9 of Poonjah/ especi:ally since that extent surpasses the maximum endowment of Pag:pees 60 allowed under the present Chattrum rules of 20th August 1829.

South Arcot—
Collector's Cutcherry
Cuddalore 11th May 1854. } (Signed) E. Maltby
Collector

Bd No. 1185
Proceedings thereon
(53-54)

The Board of Re:venue entirely concur in the pro:priety of the arrangement suggested in para 7 of the foregoing letter, and authorize the Collector &

to carry the same into effect by plac:ing the Coodicaud Chattrum and its endowments in the hands of Mannarchetty the heir of its founder, leaving it optional with him to ap:point whomever he pleases to su:perintend the details of the Establishment.

With reference to para 2.
8, the Board think that it is not expedient at present to alter the extent of the endowment granted to the Chattrum.

From the Collector
of Tanjore —

Fort St. George

Sir,

I have the honor to reply to your Circular letter of the 24th ultimo.

The difference between the

Fort St. George 8th June 1854.

the two accounts of receipts noticed by the Board arose from Rupees 13, the price of a garce of Salt sold to the French Government, but for which payment was not received within the year, having been included in the Statement sent to the Board from Price & having been overcharged in the accounts by a clerical error, and from Rupees 88-6-10, the amount of fines collected from the Salt Servants having been erroneously omitted, as also Rupees 2-14-8 the amount of refund of Servants pay for broken period.

The difference in the two accounts of charges arose from Rupees 190, the advance made for brass Mercals having been erroneously twice entered in the Accountant Generals Statement, and Rupees 262-14-0, the cost of repairing Salt Cutcherries having been erroneously omitted, while Rupees 84, the charge for Hungamy Sibbendis was twice entered in the Board's

Translation of an order issued by the Collector of Tinnevelly to Konary Row— Acting Tahsildar of the Tencausey Talook under date the 18th September 1845.—

Syed Abdul Raudar, in whose name Nunjah and Poonjah land in the Village of Vadagaray amounting to seed Cottahs 32-4m-2m and chains 64 7/16 respectively, are entered in the accounts under Pattom tenure, continues to enjoy the same; but in Mr. Lushington's List only seed Cottahs 9-1-2 are entered nevertheless the extent of Cultivation in Fusly 1213 amounts to 10-7-4- Of this the former extent Viz. Seed Cottahs 9-1-2 was traced up to Fusly 1232 and 3/4 grain Cottahs per seed Cottah and the additional land resulting from measurement at three fourths of the above Pattom assessment— Subsequently it was discovered that a Pattom of 2 1/2 grain Cottahs per seed Cottah has been entered in the accounts since Fusly 1233 without any

Fort St. George 8th June 1854

any authority and an order sent under date 29th March 1839 directing the Tahsildar to enter in the name of Pauchamiah son of the Cowlder seed Cottahs 10-7-4 and to assess 9-1-2 thereof when cultivated at the old rate of 3/4 grain Cottahs per seed Cottah, and the additional land at three fourths of the above assessment— Contrary to this, an order was issued under date the 12th August of the same year, cancelling the above order, and directing to conform to, custom— These 2 orders have been referred to, and as there is no sufficient reason for cancelling the 1st order and as this Pattom is entered in Mr. Lushington's List under the head of Chillara, it is according to the orders of the Board liable to be attached, but in consideration of long enjoyment you are directed to register the land in the name of the said Pauchamiah who is the eldest son of the Original Pattondar and continue the grant to his life, you are further required to send a descriptive roll of the person mentioning his name place of residence, age colour and height—

No. 252.

Bd. No. 1226

Remarks thereon. Case No. 1. As Thimmanachary (B) divided his holding among his 4 Sons the Board are of opinion that his sons Venkata ramanachary and Narasayachary have no right to succeed to the shares lapsed by the decease of their brother. The Board would therefore recommend that the shares held by the latter be continued in the names of their surviving widows for the term of their lives, and then resumed by Government.-

(61-62)

No. 2. There seems no reason to doubt the genuineness of the Cowlenamah by which this grant is supported, but the term Be turuf ek Diwan translated "For ever," appears to refer to the continuity of the rate of payment and not to the perpetuity of the gift and the whole context of the deed shows that it referred to the rate of Quit rent and not intended to extend the grant beyond the life of the original holder. The Board therefore think that the Enam was merely a personal one and as the late Collector had given orders that its enjoyment should be restricted to the life of the last incumbent (C) the Board are of opinion that it should now be resumed.-

No. 3. As life certificates were issued to B & C on the partition of the Enam held by their father the continuance of the share of C to B on the death of the former was irregular, so was also the continuance of the entire Enam to D after the death of his father B. Under those circumstances and as the Enam is not of such Value as to enable the three claimants to live upon it without recourse to other means of Subsistence, nor the service rendered. It is stated the for "reading Punchangum," but the Board suppose it is rather for compiling the Punchangum or Native astrological almanac, such as to give it a claim for continuance in perpetuity, the Board recommend that it may be resumed.-

69

B.d No. 1838.
From the Actg. Collector }
of Madras. -

Sir,

In reply to your letter of the 27th Instant, I have the honor to explain that, the Retail Prices of Salt entered in the Monthly Price Currents which accompany the Demand Collection and Balance Statements from this Office

Office are obtained from the Ground Rent Conicapillay who furnishes every Month a Statement in the Subjoined form. It will be observed that the price ranges according to the distance from the Stores, being per Cadi 9 piece in that Black town, 10 at Triplicane and 11 at St. Thome.

2. The rice in 1262 above the preceding year is ascribed to the short stock during some part of that year in consequence of which the inland sales were limited, and there was barely enough for Home Consumption.-

3. The high retail price shewn in the returns noticed by the Board attracted my attention some time ago, and I requested the Superintendent to make independent inquiries which he did but the result thus obtained did not differ materially from the other.-

Madras - - - }

No. 76

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

I have the honor to solicit that the sanction of Government may be obtained for me to refund to Captain B. R. Teixeara of the Brig "Emulous" the sum of Rupees 25- 2 Re exported from Chittagong 24.99-13-10 of Rice, duty free, declaring it to be laden for the Port of Madras in lieu of, which he landed 800 Maunds at Pondicherry. On arrival here this having been ascertained and he having no clearance or other Papers from Pondicherry I refused him permission to enter under the authority of Section XXVIII act VI of 1844, until he produced the Clearance from Pondicherry, giving him the option of entering upon paying the export duty he had evaded. He paid the duty and I permitted him to enter and carried the money to account. The duty was charged at 1 anna per Maund according to the Madras Customs act, but the export duty under the Bengal act, leviable at Chittagong is only half that amount, and accordingly I have informed him I will Recommend Government "to permit me to return "

to

B. of R. No. 1623
From the Collector of Sea Customs Madras
Soliciting sanction to refund to Capt. B. R. Teixeara of the Brig "Emulous" the sum of Rs. 25, being the difference between the Bengal and Madras Customs acts of duty Charged him on 800 Maunds of Rice landed at Pondicherry and bringing to notice the practice at some ports of Peninsula depositing on goods declared for a free Port with a view to instructions being issued to discontinue the practice.

Offg. Collector

Madras 1st June 1854. C. C. Ram

71-72 Ordered that

Fort St. George 8th June 1854

Ordered to be published in the Fort St. George Gazette.

to him the sum of Rupees 25, being the differ:
=ence between the sums paid here and that
which would have been levied at Chittagong.

3 I take this opportunity of noticing that
in order to prevent the fraudulent practice
of shipping goods at one Port declaring them
to be for, another which entitles them to
pass free, intending at the time to take them
to a Port which if declared on exportation
would subject the goods to the Charge of
export duty, a deposit is taken, and upon the
production of a Certificate that they have been
landed at the Port declared, the deposit is Re:
=turned. This no doubt prevents fraud, but is
I conceive unauthorized by Law. It could
not be enforced if the party Refused to
make the deposit, and I respectfully Re:
=commend that the Board of Revenue be
instructed to issue instructions prohi:
=biting the practice wherever such a
Rule is enforced.

(25) Twenty five to Captain Veiscara of the
Brig "Emmeline" being the difference between
the Bengal and Madras Customs act of duty
Charged on 800 Maunds of Rice landed at
Pondicherry.

3 With Reference to the subject alluded
to in para 3, the Board are not aware that
the plan of requiring deposits is practised at
any of the Ports under this Government.
Int. Underwood will however be called upon
for further particulars on this point, and if
it is found that the practice exists, the ne:
=cessary instructions will be issued for its
discontinuance.

4 It is observed that in their Proceedings of 13th
February 1851, the Board disapproved of the measure

From Govt. 29th July
in Cons 7th Augt.
1851

in which the Government Concurred.

(75)

To W. H. Bayley Esqre
Secretary to the
Board of Revenue.

B. No. 1928

From Dr. J. Mayer
Chemical Examiner

Forwarding the results by the quantitative analysis of samples of sea salt sent for examination.

Sir,

I have the honor to forward herewith
the results obtained by the Quantitative Analysis

of

Fort St. George 8th June 1854

of 22 samples of Sea Salt - that is to say of all those samples of Sea Salt which I was instructed to examine. The place from whence each sample was sent, with the Number placed on the Case Containing it, are given in a separate † List. The Number belonging to each Sample is also placed at the head of the Results of the Analysis for that Number, so that each Kind of Salt can Readily be identified. The methods employed in the Analysis of these Salts, as well as those of calculating and checking the results are also given, together with a Table shewing the Formulæ and Atomic Constitution of the Compounds obtained in Analysis, by the aid of which the Calculations referred to will readily be understood. The per centage Calculations originally included the moisture found present, but for the advantage of Comparison the same Calculation on one hundred parts of dry Salt has been added.

† Z

In laying these results before the Revenue Board I beg leave to assure them that I have spared no exertion or labor to Complete up to the point the task assigned me, but the minimerable processes required, the care and time occupied in Conducting them

Single

Fort St. George 8th June 1854

Single handed, have prevented me from bringing the work to a close at an earlier period —

Madras 7th June 1854.

(Signed) J. C. Mayer
Chemical Examiner
No. 1

The Methods of proceeding in Conducting the Analysis now to be given were as follows.

Moisture was determined by drying at 212° F. and keeping it at that temperature till the Sample ceased to lose weight —

Sand &c. was determined by separation on a weighed filter and a Reweighing.

Soluble Organic Matters were determined by allowing a solution of the Specimen to stand for a few days, separating the films or precipitations formed by a weighed filter and Reweighing in most Cases however they were imappreciable by the Balance tho' very evident to the sight.

The formula by which the Lime has been Calculated is $Ca\,O.C_2O_3.H_2O$ by making use of it the ignition ordinarily practised may be dispensed with the Results thus obtained are not quite so exact as those obtained by ignition, which drives off the H_2O & C_2O_3 the Lime being left in the state of Carbonate $Ca\,O.C_2O_3$ i.e. if the heat is not carried too far, in that case CO_2

is

is also driven off, and Ca A. Caustic Lime remains
it is true that by subsequent processes the
Lime may be brought back to the state of
Carbonate and as such determined, but it
was not thought necessary to increase the labour
really requisite, to avoid the chance of error
shewn by Fresenius page 567 not to exceed
07 per cent - The example given at the Conclusion
of these Remarks, will shew every method of
Calculation adopted, not merely for Lime
but for each Base and acid -

Magnesia was Calculated from the
weight of the Pyrophosphate obtained
in the usual way -

Soda was determined as sulphate after
the separation of Insoluble impurities the
separations of Lime and Magnesia by Baryta
water (excess) filtration to get rid of the
Lime and Magnesia precipitated, the addition
of Carbonate of Ammonia (excess) to get rid of
the Baryta evaporation and ignition to get rid of
Ammoniacal salts, and the addition of
Sulphuric acid, the sulphate of Soda thus for-
med was evaporated to dryness and fused in
a platinum Crucible, allowed to cool and weighed.

The results set down are the mean
of several determinations - The salts under

Examination

examination are not altogether homogenous, the
amount of insoluble matters chiefly sand -
varying in different parts of the same sample,
in one instance to the extent of nearly 4
per cent. The amount of moisture contained also
varies according to Circumstances, a sample of Soil
examined about 6 weeks since showed a per Centage
of moisture = 7.8190 it now gives 6.3801, in other Cases
the difference has exceeded 2 per Cent -

The Tables A & B give direct Results, and
sufficiently explain themselves, a mere per Centage
Calculation of the simplest Kind being Required -

The Tables that follow B give indirect -
Results in as much as the substances to be
determined is not separated alone but in Combi-
nations. The Compounds however being in every
instance of Known Constitution, that is to say,
numerous experiments made by different
Chemists in different Countries have shown
that a certain and unchanging weight of one
of the Constituents of these Compounds is united
to the other or others, each of which also has
its unchanging proportional weight - Thus in the
first of these Compounds, Ca O, C O2, H, O, Hydrated
Oxalate of Lime - a weight of Lime indicated
by the Number 28 united with a weight of
Oxalic Ā indicated by the Number 36 and it

has

has been also ascertained that until a high temperature is employed these proportional weights of Lime and Ascalic a are united to a weight of water indicated by the Number 9 the total of these figures gives 73 as the proportional Representative Number of Hydrated Ascalate of Lime-

The use made of these Numbers in Calculation is founded on the fact that whether it is a ton or a grain the proportions of Lime, Ascalic acid and water will still be the same in Hydrated Ascalate of Lime. the calculation then proceeds thus-

Table C shews that 50 Grains of the substance give 2,085 of Hydrated Ascalate of Lime 100 parts Consequently give 4,170 of the same Compound, and if 73 parts of Hydrated Ascalate of Lime Contain 28 of Lime, then 4170 will Contain a proportional quantity which is found to be 1600-

Table D shows that the Magnesia is not obtained in a separate form, but as the Pyrophosphate the Constitution of this Compound is also well known it has the Formula 2 Mg A P. O. and the proportional Representative Number or equivalent of this is 112-4 of which 40-4 Represents the Magnesia,

Magnesia and the Phosphoric a the Calculation then proceeds as before but with different factors- The weight of 2 Mg A P. O. found as shewn in this Table p3 (from 50 Grains of substance) .6315 and the per Centage p3 1.2730 and the quantity of Magnesia Contained in this weight is 1.5h.o- for if 112-4 Contain 40.4 1.2730 must Contain a proportional quantity- For the remaining substances it will only be necessary to refer to the Table E II shewing the Formula and Constitution and proportional Numbers of the substances obtained in these analysis- this will enable any one to Check the ultimate results with the greatest facility-

The absence of Potash in these specimens of salt was proved by the use of the Bichloride of Platinum aided by the use of Alcohol and Hydrochloric acid- after standing 24 hours these Reagents failed to give any precipitate, with any one of these samples of salt- It is nevertheless very possible that minute quantities of Potash may occasionally be present in any one of these salts- the degree of Care in preparation or the period of the season at which the sample was Collected, the salt pans having been recently formed,

formed the quality of the soil of which it was formed, its having been in use for some time Decs will all, to some esctent no doubt, influence the quality of the product obtained, and therefore tho' the average quality of salt from the same place will be nearly the same, minute differences will be found to exciot- The acids and the Bases have been arranged as far as possible according to well known affinities the strongest Bases being supposed to exciot in Combination with the strongest acids- A useful Control by the aid of alcohol might, had time permitted, have been adopted, as the insolubility of the sulphates and the solubility of the Chlorides would have afforded a means of ascertaining with Considerable precision the actual grouping of the acids and Bases in question-

Order thereon — 75-76

To,

Ordered that the following letter be sent in answer

Dr. J. Mayer

Chemical Examiner

B. No. 1180

To Doctor J. Mayer
Chemical Examiner

Sir,

With reference to your letter of the 7th June 1854, I am directed by the Board of Revenue to observe that all the analysis seem, from the list 2 to be of salt from the Cuddapah district, whereas samples of Sea Salt from Bellary and Kurnool were sent to the Medical Board from this Office, under dates the 27th October and 20th June 1853 respectively.—

2. You will be pleased to state if any of these samples have been received by you.—

Revenue Board Office,
Fort St. George,
8th June 1854.

Signed B. Cunliffe
Sub Secretary in charge

Resolved that the following letter be despatched.—

No. 2454

77

To,

The Chief Secretary to Government.—

B. No. 1177

To the Chief Secretary to Government

Sir,

With reference to the Extract from the Minutes of Consultation dated 14th October 1853, I am directed by the Board of Revenue to submit for transmission to the Government of India the Statements of Bullion and Specie Imported into and Exported from the Ports under this Presidency from and to places not Subordinate thereto for the Month of March 1854.—

Revenue Board Office,
Fort St. George,
8th June 1854.

Signed B. Cunliffe
Sub Secretary in Charge.—

absent on duty (as Commissioner Northern Circars)

Minutes of the last Meeting read and approved.—

RR

8098 Fort St. George 12th June 1854.

Read the following Papers

No. 361

Extract from the Minutes of Consultation in the Judicial Department, under date the 20th May 1854.

Read the following letter from the Secretary to the Board of Revenue.

Rd. No. 1724. From the Secretary to Government. Calling upon the Collector of Trichinopoly for further information on the subject of remunerating the Village Police of the District.—

11

/ Were enter 30th March 1854 No. 130 /

1 In his letter of 10th February last submitted with the above communication, the Collector of Trichinopoly, in reply to the call made upon him by the Board of Revenue under the orders of Government 6th October 1853 reports upon the measures necessary for placing the Police of his District on an efficient footing, and the expense that will attend its reform. The Establishment to be considered, consists of Cooly Cavilgars, or Village Watchers and Village Monsiffs.—

2. The number of Cooly Cavilgars to be entertained is the same as originally proposed. Viz 1,652 exclusive of the two who have been already sanctioned for the Village of Monigundum, the aggregate charge at 2 Rupees per Mensem will be Rupees 39,648 Annually.

3 The means available as a partial

Fort St. George 12th. June 1854.

partial offset against this charge are

Statement in Collectors

letter 13th. February 1854.

	Pr.	A.	
Value of Cavil lands to be resumed	2,254	14	10
Cavil fees in Grain	20,715	-	9
Do. in ready Money	8,799	1	7

Emoluments of the 186 Arasoogars in the Areyaloor and Woodiam = =polliem Talooks proposed to be dispensed with.

Land	2,439-4-8	
Fees	3,463-4--	
		4,902-8-8
		31,671-10--

4. These sources of emolument, sup= =posing that they could all be realized to the full extent at which they are set down, would reduce the Net additional expenditure on account of the Trichinopoly Cooly Cavilgars to Rupees 7,977 a year

39,648
31,671
7,977

5. There would seem to be no objection to the withdrawal of the Arasu= =gars from Areyaloor and Woodiarpolliem as proposed by the Collector and supported by the Board on the introduction of the

Fort St. George 12th. June 1854.

new system. The Arasoogars are 186 in number. The Cavilgars to be newly entertained for the two Talooks will be 275 + 229 = 504. It will be proper to transfer from the present Arasoogars to the Cavilgars all who are fit for Service. If there are any who are not fit, they might be allowed to retain their existing emoluments for life or a Kinsman or near relative might be ap= =pointed to the new Office.

6. The Village Moonsiffs will be 534 and their allowances at 12 Rupees per Annum will amount yearly to Rupees 6,408 of which Rupees 2,124 to the Moonsiffs of Shrotrium, Enam, and Istimrar Villages will have to be disbursed in Money - the remainder Rupees 4,284 by remission of Assess= =ment on their puttah lands. The Offset available towards meeting this charge is the resumed Teriff Monegars fees Rupees 2,388-8-- which presuming that they could be realized in full would leave a Net additional expenditure of

Report P. 19.

Rupees 4,019-8--

7. Thus the entire net Cost of revising

revising the allowances of the Trichinopoly Cooly Cavilgars and Moonsiffs in the manner proposed by the Collector, will be Rupees 7,976-6-2 + 4,019-8- - - 11,995-14-2 Rs. on the assumption that all the items are mentioned by the Collector as offsets against the charge could be realized in full on behalf of Government - But it would seem from what is admitted by the Collector himself in Para 15 that this will scarcely be the case.-

8. The Collector strongly recommends that the existing emoluments of the Cooly Cavilgars in land fees, in grain, or money, be left to the present incumbents who can alone realize them the Amount wanting to make up the prescribed standard being paid by the Government in Cash or by assignment of land. The Board however consider that this would be incompatible with the assimilation of the plan for the remuneration of the Trichinopoly with that prescribed for South Arcot

and give it as their opinion that the only Method which appears available to ensure the realization of these sources of income by Government is "to include them in the Putta, to be collected as far as practicable at present and to merge ultimately in the assessment on the land on a revision of the same."-

9. The Right Honorable the Governor in Council observes that it appears to have been contemplated throughout the previous discussion of the subject - Extract Minutes of Consultation 29th May 1850 Paras 6 to 9 that the fees, in grain or Money hitherto enjoyed by the Cavilgars would, on the introduction of the new system, be collected from the ryots by the Government - It is evidently very desirable that these Police Servants should be in the enjoyment of fixed and certain emoluments, and that no plea for exaction should be afforded them on the one hand, nor on the other, their receipts be left to fluctuate according to the liberality or good disposition of the principal

Ryots

Ryots in the Village. It is not imp
probable that these sources of income,
collected by Government, will bring
the full amount at which they are set
in the Collector's statement: but it
be for the Government Officers to rea
as much of them as they can for the pres
(recording the sums due and those col
respectively) and eventually, on the eff
-ching revision of the Trichinopoly
-ment, they would merge in the land
settlement, it being a leading princi
of such revision to fix at one sum
that the Ryot is to pay for his lan
in supercession of all previous
Before however coming to a fin
decision on this point, the Right
Honorable the Governor in Coun
it of importance that the wishes
the parties who will be most affec
by the proposed arrangement - eith
as payers or recipients of the fees shou
known - He therefore desires that the C
will place himself in communicati

with the principal Ryots of the several Talooks,
and with as many of the Cooly Cavilgars, as
possible, and will ascertain from each class
respectively, whether they would prefer, that
the remuneration of the Village watchers
should be wholly in land and money, Viz.,
by an uniform rate of Rupees 24 per
annum, half by assignment of good arable
land and half in Cash, the fees in Money
and grain now paid being collected on
behalf of Government; or that the watchers
should continue to collect their fees from
the Ryots as hitherto, and have the amount
whereby these may fall short of the above
standard made up to them in money
and land. The Collector will also
give his opinion on the mode of realizing
these fees suggested by the Board, or that
of including them in the Ryots Puttah to
be collected as far as practicable until
the revision of the land assessment into
which they would ultimately be merged.

It would be well too if he could give
some proximate Estimate of the Amount of the
fees

fees which would thus be realized.

10. As respects the Cavilgars and Arasoogars' Mauniums assessed at 1/ 2,254-14-10 × 2,439-4-8 = 4,694-3-6, has been suggested that the remuneration to the Cavilgars might be given in part in land. Extract Minutes of Consultation 29th May 1850, Para 10, the lands, if of fair quality might as far as they go, be made available for the purpose

11. The standard of remuneration for the Cooly Cavilgars assumed the Collector is 1/ Rupees 24 per Annum being that advised by two previous Collectors, Messrs. Blair and Ano and approved by Government Extract Minutes of Consultation 12th April 1844 Para 11, and by them recommended to the Government of India. This is the rate which was assigned to the Arasoogars of Arrealore and Woodiapolem on the resumption of their lands and fees in 1837- The Board however presume it to be the intention

By Mr. Pro 16th November 1843

of Government that in each District in which a late reform of the Village Police has not been introduced, the watchers shall be remunerated in a manner similar to the plan now in progress in South Arcot, Viz.t, 1/ Rupees 30 per Annum, of which 18 shall be in good Arable land and the remainder in Money. This would raise the gross charge for the 1,652 Cavilgars from 1/ Rupees 39,648 to 1/ Rupees 49,560 per Annum, and the net, supposing the offsets available as before, from 1/ Rupees 7,977 to 1/ Rupees 17,889- Adding the net charge on account of the Village Moonsiffs the total expense involved in the revision of the Trichinapoly Police on this scale will be 1/ Rupees 17,899 × 1/ Rupees 4,019-8-0 21,918-8 1/ Rupees. His Lordship in Council must remark that although the orders of Government 6th October 1853 Para 17 notice the standard of remuneration now being adopted in South Arcot Viz.t, 1/ Rupees 30 per Annum, 18 in good Arable land and 12 in Money, as one

which

which might with advantage be introduced generally, it does not follow that it need be adopted inflexibly in Districts where another, but not a materially different rate has already been recommended by the local Officers, and approved by Govern- -ment as above stated the rate of 2 Rupees per Mensem for the Trichinopoly Cody Cavilgars has been recommended by two Collectors and approved by Government To adopt the higher scale of Rupees 2½ would involve an increased expenditure of Rupees 9,912 - nearly 10,000 Rupees per Annum, On the whole, the Governor in Council is disposed to adhere to the standard rate as originally proposed for Trichinopoly, Viz.t Rupees 2 per Mensem with the understanding that it is to be open to enhancement hereafter if the Collector after due trial should find it to be insufficient. This allowance or the difference between it and the present fees supposing these to continue will be made good, half in Cash and half in grants of good cultivable land the

12. The Right Honorable the Governor in Council desires that the Collector will furnish the informa- -tion above called for in para 9 without delay that the subject may be closed and the arrangements for the remune- -ration of the Trichinopoly Village Police be submitted to the Government of India as early as possible.-

No. 359.

From the Secy. to Govt. Extract from the Minutes of Consultation in the Judicial Department, under date the 20th May 1854.

Read the following letter

No. 392.

To,

T. Pycroft Esquire

Secretary to the Government of

Fort St. George

Sir,

With reference to the letter from this Department, No. 214, dated 18th March 1853, I am directed by the Governor General of India in Council to forward the accompanying Extract [para 17] from a Despatch from the Honorable the Court of Directors No. 1, dated 15th February last, and to request that the explanation therein called for, regarding the difference observable in the number of Armed Police maintained in each of the several Districts of the Madras Presidency, may be furnished as early as may be practicable.

2. I am desired at the same time to draw the attention of the Madras Government

F.P.C.

Fort St. George 12th June 1854

Government to the remarks of the Honorable Court as regards the form in which the Annual comparative Statements of the armed Police should be prepared.—

Fort William,
The 7th April 1854

[Signed] C. Allen
Offg. Secy to the Govt. of India.

Extract from a Despatch from the Honble the Court of Directors to the Government of India in the Judicial Department No. 1 of 1854 dated 15th February.

Letter dated 25th May [No. 71] 1853.

Miscellaneous

(11 to 13) Comparative Statements of the strength and cost of the armed Police under the Madras Presidency from 1851 to 1852.

17. Abstract Statements would furnish the requisite information regarding these Establishments in a better form than is done in the Statements forwarded to you by the Madras Government. We find by adding together the particulars that the Strength of the armed Police in 1852 was 1126 besides 221 Horsemen in Kurnool and the cost was Rupees 1,48,094 per Annum. You have pointed out that some reduction may be practicable in Coimbatore and Malabar in consequence

J

Fort St. George 12th June 1854.

of the abolition of the Tobacco Monopoly. It is observable that this armed Establishment is confined to Five Districts, in two of which, Viz.t, Coimbatore and Kurnool, 913 out of the entire number 1346 are maintained. It requires to be explained whether this peculiarity in the five Districts in question and specially in the two which we have named arises only from a difference in the mode of bringing Police charges to account, or from any real difference in the actual Establishments, and whether in the latter case there be any valid ground for the difference which exists. We request that the attention of the Madras Government may be drawn to this view of the subject.—

/True Extract/

/Signed/ C. Allen.

Offg. Secy to the Govt of India

1. With the above letter the Government of India forward an Extract from a Despatch from the Honorable the Court of Directors Judicial Department No 1 dated 15th February last, calling for explanation as to the difference observed in the number of Armed Police maintained in each of the

Fort St. George 12th June 1854.

the several Districts of the Madras Presidency and remarking upon the form in which the annual Comparative Statements of this force should be prepared.

2. The Right Honorable the Governor in Council observes that on reference to the comparative Statement of armed Police for the years 1851/52 and 1852/53, furnished to the Government of India on the 6th December last, it will be seen, that the entries in that Statement apply only to five Districts, Ganjam, Vizagapatam, Kurnool, Malabar and Coimbatore - the aggregate yearly charge incurred for each District for the two years being as shewn in the subjoined abstract.—

	1851/52		1852/53	
	No of men.	Cost	No of men	Cost
Ganjam	181	11,989 15 5	181	13617 4 3
Vizagapatam	154	14.386 6 11	154	13,492 - 4
Kurnool	235	87,761 - 2	235	87767 5 10
Coimbatore	457	20,063 2 7	426	18,880 - 3
Malabar	102	6594 - 8	102	4920 4 9
Total	1129	140774 9 9	1098	138576 15 5

The

Fort St. George 12th June 1854.

The Armed Police in Malabar, the charge for which in the year 1851/52 was Rupees 6,594 has been wholly discontinued in consequence of the cessation of the Tobacco Monopoly, and application made to the Government of India for a small[x] addition to the ordinary Police Establishment of the District.

[x] 14 Peons
2 Duffadars at Rs 10 per Mensem.

4 The Armed Police in Coimbatore for the year 1851/52 or that preceeding the abolition of the Tobacco Monopoly, was of a Strength of 464 Men at a charge of Rupees 29,063-2-7. From the Collector's letter of 30th September 1853 it would seem that the amount sanctioned for this Establishment in 1837 was Rupees 20,226 per annum. Reductions to the extent of Rupees 3,600 have lately been made in consequence of the discontinuance of the Monopoly leaving a remainder of Rupees 16,626. The Right Honorable the Governor in Council would wish to be furnished with a clear Statement shewing the number, and grade of the parties by whom this amount is drawn, the nature of the duties on which they are employed - whether these differ

Estb: Mins: Cons: 1st February 1853

Fort St. George 12th June 1854.

differ from the duties performed by the ordinary Revenue and Police Peons in the Districts - whether any further reductions can be made in these Servants - and lastly whether there is any object served by bringing them separately to account as armed Police - and whether they might not, after any reductions have been effected that may be practicable, be classed among the regular Police and Revenue Establishment of the Province

5 If this be done the Statements of armed Police annually rendered will be confined to the Sebbendi for Ganjam, Vizagapatam, that sanctioned for Malabar and the Kurnool irregular Horse - all of whom are on the same footing being armed Police Corps employed in Districts where from the peculiar features of the Country or character of the people the Civil power requires to be supported by a trained body of irregulars, acting under Military

The Vizagapatam Sibbendi are under a Commanding Officer and Adjutant from the Line - The force about to be raised in Malabar will be Similarly Officered. The Kurnool Horse and Ganjam Sibbendi are under the Military Assistants to the Agents.

Bd. No. 1955
From the Collector of Salem }

Sir,

I have the honor to report for the Board's information, that the period for which the Ab Karry Farm in this District is now rented, being about to expire, the Farm was put up to auction on the 5th Instant at this place, pursuant to a previous advertisement, and that the persons noted in the margin + who are the renters under the present lease, have made the highest bid viz an annual rent of Rupees 101,100 for the term of 3 years, which gives an annual increase of Rs. 5,090 compared with the rent for the 3 years now expiring. As these persons are of unexceptionable character and men of substance, I recommend that the terms they offer be accepted.

+ Ahtoor Nuthed Sail ——— 1
Salem Gopaul Chetty —— 2
Bangalore Thoppa Moodely 3.

In consequence of their having
2 made a deposit of 25 per Cent or Rs. 25,275, on their offer of which, the sum of Rs 18,275 has been paid in ready money, and the remaining Rs. 7,000 by three drafts on Messrs Binny & Co. I have not thought it necessary to take any other security from them.

A Comparative Statement shewing
3 the offer now made and the average rent of the preceding five years is enclosed.

B.R. No. 1208

Proceedings thereon, The Board of Revenue sanction the acceptance of the offers for the Ab.Karry Farms of the District Tanjore for Fusly 1264, exhibited in the Statement which accompanies the foregoing letter, amounting in the aggregate to Rupees 120,880, and authorize the renters being placed in possession of their respective Farms on their making the necessary deposits and giving the required security.

2 The Board also sanction the acceptance of the offer for the Chayrent rent for Fusly 1264 for Rupees 950 on the same terms as above.

No. 166

To W. H. Bayley Esqre
Secretary to the
Board of Revenue,
Fort St. Geo.

26-27

28

B.R. No. 1944

From the Collector of Tinnevelly

Sir,

I have the honor to

to report the sales of Ab.Karry and of the Still rents of the District for the ensuing Fusly 1264 which took place on the 25th Ultimo before me at Tinnevelly.

2 The accompanying Statement exhibits the amount of the rents for Fusly 1263 in comparison with the offers now made for Fusly 1264 with the names of the Renters.

3 The highest offer made by the Individuals named in the enclosed Statement for the Arrack rent of the whole District amounts to Rupees 18800 and falls below the sum for which it was sold last year by Rupees 7360 For the general Toddy rents of the District, the highest bid is Rupees 7,400 which exceeds that of last year by Rupees 370.

4 The increase under the head of Toddy being deducted from the decrease under that of Arrack, the

the net decrease stands at Rupees 6,990, which is owing to the absence of any competition among the bidders, and besides the Fusly 1263 is with regard to Attack, the highest of the 10 years noted in the margin and the circumstance of the Renters of that Fusly having sustained loss in consequence of the prevailing scarcity is also considered to have some what influenced the decline of the offers for the next Fusly.

Fuslis	Attack Rent cRs.
1254	19,300
1255	19,700
1256	19,950
1257	20,900
1258	22,200
1259	19,000
1260	19,000
1261	24,200
1262	16,600
1263	26,160

5 The Hills rents of Tencauay Bremmadaeum, Nawgoonary, and Vullyoor, were disposed of for the sums set down opposite each in the Statement, making in all Rupees 3,950- and showing a net decrease of Rupees 645 below the sum for which they were sold last year, Viz:, Fusly 1263. The above decrease is attributable to want of

competition and diminished expectation of profit in consequence of the late drought on the Hills.

6 The Chayroot rent not having worked well under the System adopted this year. I have not offered it for competition for next fusly, and intend to address the Board on the subject shortly.

No. 53

(32)

To W H. Bayley Esqre
Secretary to the
Board of Revenue

B/d No. 1931.

Sir,

From the Collector of Coimbatore — Forwards the usual statement of Cotton Cultivation in his District for Fasly 1262.

1. Adverting to the orders of the Board of Revenue of the 18th January 1849, I have the honor to forward the usual Statement of Cotton Cultivation in this District for Fasly 1262.

2 The total quantity of land appropriated for Cotton Culture in the year under review amounts to 14,150 acres or 12,301 above the number of acres in the past year. The amount of assessment and settlement thereon as well as the increase in each class of Land, whether Government or Enam, are shown in the following Abstract Comparative Statement. It will be perceived that the Cultivation is chiefly on dry lands the Garden, and wet Lands in which Cotton has been grown, being very small and not exceeding 6 1/2 and 9 1/2 / 16 per cent respectively.

Fort St. George 12th June 1854

3 American Cotton was grown in Coimbatore and Pulachy. none in others the extent of land cultivated was 131 10/16 Acres. or 204 5/16 Acres less than the number in 1261 the produce with seed was 52 Candies 1 lb or 26,025 lbs at the average rate of about 198 lbs ℔ Acre which is 130 lbs more than in the past year—

4. The other kinds of Cotton produced amounted to 45823 Candies or 2291151b lbs being at the rate of 16 lbs ℔ Acre, and this exceeds the produce of 1261 by 13 lbs the acre—

5. Of the agregate return for 1262, Viz.ts 45,875 Candies, 15889 were consumed within the District, leaving 29986 available for other markets nearly all of which was exported to Tinnevelly, Madras, and Bombay as indicated in the margin—

Bombay	550
Tinnevelly	6,000
Madras	200
	6750 Candies

of wool equivalent to 28687 Candies of Seed Cotton—

October 1852	47 6.
Novr.	47
Decr.	51
	145
Average	48 7/2

The price of a Candy of wool rose from 46 to 48½ Rupees a Candy or about 5—7—℔ cent from increased demand

St

Fort St. George 12th June 1854.

7. It will be observed that the Cultivation of American Cotton has considerably fallen in this year, which I can only attribute to absence of demand for that description of produce.

8. The Gin Machinery at Coimbatore remains useless since the death of Mr. Campbell, which is a serious drawback to improvement in the quality of Cotton—an European Merchant, and Resident and a demand, with prompt payment, for the Cotton, would soon produce any quantity of American Cotton—the native Merchants will not buy it—

Ootacamund
29th May 1854—

(Signed) E. B. Thomas
Collector

To,

W. H. Bayley Esqre
Secretary to the
Board of Revenue

36

B. No. 1926

From the Acting Collector of Madras

Sir,

Para 1 I have the honor to report for the information of the Board that the Salt manufacture has been greatly impeded by the want of water, and the difficulty of removing the Salt made.—

Reporting that the Salt manufacture is greatly impeded for the want of water—

From a letter received today from the Superintendent it appears that only 1,556½ Pans as noted in the margin continue to be worked.—

Attipute	525⅞
Ennore	332¾
Vulloor	57¼
Voyalore	186⅝
Porthesauk	454
	1,551½

2. Until the Canal becomes navigable, it seems rather desirable that the Manufacture should be checked, as there will still be with an ordenary season, ample opportunity of completing the required supply within the next three Months.—

3. At the latest return up to 4th Instant, the total manufacture since January was estimated at 6,743 Garces. of which 3,133 Garces. has been stored and 3,610 remains at the Pans.—

I

The Collector of
North Arcot

B. No. 1202.
To the Collector of North Arcot
No. 1062.

Sir,

In reference to the Endorsement dated 21st January 1854, furnished by you to Baubu Rao, I am directed to state that by the Boards Proceedings of the 10th November 1853 it was intended that the Enam Village of Neelacuntapooram should remain in his professon until his decease, and that a report should then be submitted for orders.- upon

Fort St. George 12th June 1854

2. Upon a further examination of the Perwannah of the British Gouernment dated 22d October 1803, and the liberal interpretation which has of late been put upon the term "heir" the Board are of opinion that Baboo Row is entitled to succeed to the Shrotreum as the legal representative of the Original grantee.—

See C.O. Book. page 406 Letter. paras 13 & 14.

3 you will accordingly be pleased to make over the Enam Village in question to Baboo Row, and consider these orders as superseding the Board's Proceedings of the 10th November 1853.—

Fort St. George.

1

BR No 1999.

From the Agent to the Governor at Kurnool } Sir,

Dated 5th June 1854. I have the honor to enclose for the information of the Board Copy of a letter which I have this day received from Mr. Assist. ant Surveyor Kempt, reporting the occurrence of a heavy flood in the Tummarazpilly Valley on the night of the 4th Instant, by which se several lives have been lost.—

2 About 2000 people are employed in constructing a road from the foot of Tummarazpilly ghaut to Bannien, under the superintendence of Mr. Kempt and 2 Overseers, and when passing thro the Valley myself on the Morning of the 4th I observed se numbers of them encamped on the bank and in the beds of the various streams

streams which run thro' the valley, and I am apprehensive that the loss of life has been very considerable.—

Kurnool District,
Govt. Agent's Office,
On circuit, Sirvella,
7 June 1854.

/Signed/ T. Conway
Agent to the Governor

To T. B. A. Conway Esqr.
Agent to the Governor of
Fort St. George
at Kurnool.

Sir,

I beg to report that last night a heavy flood occured along the whole of the Tummaraz pilley valley, the ground between the 2 hills was one sheet of water to the depth of from 6 to 10 feet, the 2 Overseers' things with their tents, papers, &c. were swept away entirely as well as many of my own things and we had consequently no asylum to fly to, but to climb up the trees that were adjacent to us, and this we effected after a severe struggle of our lives.

I observed this morning no less than 8 or 9 corpses, and besides which there are a good number of men, women and Children supposed to have been, at the same time,

time, swept away with the flood.

Assistant Overseer Duffy is very badly off, having no clothes whatever to put on, and he has been all this morning dressed up in a native's cloth.—

Sir,

I am directed by the Honble the Governor General in Council to request you will call the attention of the Right Honorable the Governor in Council to the circumstances attending the introduction of

Fort St. George 15th June 1854.

of the inhabitants of their districts in respect to the adoption of the Act.—

of Act XXVI of 1850 into the town and suburbs of Vellore and the subsequent necessity which arose for abandoning the measure.—

2 The Act in question and the orders which accompanied it under date 21st June 1850, require that every practicable publicity should be given to the proposed introduction of the Act, and that every precaution should be taken that it be not put in force in any place contrary to the general wish of the inhabitants.—

3 All that was required by the terms of the Act and by the orders was strictly attended to at Vellore, every publicity was given to the proposed measure, its intentions were fully explained, and every facility rendered for the free expression of the sentiments of all interested in it, and the result was that out of 7724 householders 3590 voted for the introduction of the Act and only 135 against it.—

4 But when, in compliance with the votes of this large number of householders the

Act

act was introduced, the demonstration against the measure became almost universal, it was found necessary to abandon it.—

5 I am instructed to observe that the occurrences at Vellore show how difficult it is to ascertain the real wishes of the inhabitants of a Town regarding the introduction of the Municipal act, and how necessary it is for the Magistrates and local officers to exercise extreme care before recommending it. They should endeavour to discover if the wish expressed for the measure is real and general, and also if there be no large & body of influential persons, who are, it may be silently, but resolutely, opposed to the act.—

B. No. 1788.
From the Sec. to Government.

Noting that no returns are furnished from the several Provinces under the Presidency respecting the quantity of grain in stock for the food of the population, and directing the attention of the Board and the Commissioner to the means for the adoption of the best means for keeping the Government fully informed on this subject.—

Revenue Department.

No. 601.

Extract from the Minutes of Consultation under date the 27th May 1854.

The Right Honorable the Governor in Council observes that no returns are at present furnished periodically from the several Provinces under this Presidency, showing the quantity of grain in stock for the food of the population.

1

He considers it to be very desirable that the Government should be in possession of such information, and he thinks that returns approximating at least to correctness might be obtained from the Collectors.

2

The extent of land under tillage in each year might, he presumes, be ascertained, with the probable quantity of grain grown on it—that remaining from previous years and that imported during

3

during the year if the District be an importing District; the quantity exported & consumed being deducted, there would remain the residue in store.—

4 Such returns on their first introduction could give only a very general idea of the true state of things, but they might be expected gradually to improve in accuracy

5 The Right Honorable the Governor in Council is aware that the present is not a favorable opportunity for instituting such enquiries and that it would be judicious to defer them until the existing pressure shall have passed. He resolves however to direct the attention of the Board and of the Commissioner for the Northern Circars to the subject in view to their endeavours being given with judgement and in due time towards the adoption of the best available means for keeping the Government fully informed on a matter which cannot but be of much interest and importance

importance to the State.—

Sir,

Adverting to Extract from Minutes

Minutes of Consultation of the 3d Instant No. 637, and to the letter from the Marine Board of the 31st of the previous Month therein read, noticing that there were several vessels in the Roads available for the conveyance of Salt to Calcutta if immediate steps were taken to secure them, I am now desired to state that they have all sailed for Calcutta direct.—

2 In making enquiries on the subject, the Board learned that there existed an objection on the part of traders to load Salt on account of Government, and that they preferred taking it on private account. It appears that when taken for Government it has to be landed at a particular place called the Saltgolahs, not only at the expense but at the risk of the Ships. The Salt is taken charge of by Government servants, and payment being made on their receipts,

the percentage of loss on a Cargo is invariably found to be more than when landed by private individuals. This is one objection

objection. Another is, that Vessels have to undergo the risk and expense of two removals; the first to the Saltgolahs, the second back again to the ordinary moorings. No Vessel can be moved off Calcutta without having the Harbour Master or one of his Assistants on board.

3 When on the other hand Vessels take Salt on private accounts, they at once proceed to the berth they intend to occupy during their stay at the Port, thus escaping one removal. Purchasers weight the Salt on board the Ship and remove it at their own expense and risk. The advantage is evidently on the side of the transport of Salt on private account, the more particularly as the price charged for it on the coast under such circumstances, is only 15 Rupees per 100 Indian Maunds, while 25 Rupees is the cost of the same quantity when taken for Government, the difference in price being about equivalent to the average difference as the Board understand between the price given by the Bengal Government for the indent Salt (60 Rupees) and the market price at Calcutta. Vessels loading on private account therefore, avoid the risks,

Fort St. George 15th June 1854.

risk, delay and expence of moving a
twice in a river with a dangerously
rapid current, as well as the loss on
the putturn and the risk and ex
expense of landing their Cargoe
Yet with all these advantages it is
still seen that there is not suffi=
cient inducement for Vessels to
convey to Calcutta as much Salt
as is required for that Presidency.
The Board would suggest therefore
that the cost on taking it in
should be somewhat lowered,
if only as an experiment, during
such time as a scarcity of the
article prevails at Calcutta.—

The

Talooks respectively; and they would be under a clear and definite responsibility to make the payments to such persons and to no other - In the case of Gosha females exempted from personal appearance precisely the same rules would be adhered to as at present, no Vakeel being admitted without the special approval of the Collector - In one respect the identification by the Tahsildar would be more effectual than that at the District Treasury; for the number of recipients in each Talook being small, all would be personally known to the Chief Officers of the Talook. And it must be remembered that no more than one Kist would ever depend on this Talook identification, as the payment of the next following Kist would still be preceded as at present by the formal half yearly muster before a European Officer. The Tahsildars are trusted to pay the whole of their own

3 I presume that it is not the wish of the Board of Revenue or of the Government to subject these people, many of them very poor and not a few infirm, to any inconvenience not necessary to secure the Government from imposition; and it seems to me that the present practice of this District might be made more convenient to the recipients, without compromising the interests of the Government. Retaining the half yearly inspection as at present, I would propose that their identity having been so ascertained, the parties might be permitted to go home, and to receive both that Kist and the next intermediate quarterly Kist from the Tahsildars of the Talooks in which they reside.

4 It does not appear to me that under such an arrangement the guarantees against fraud would be weakened. The Tahsildars would be furnished with lists and descriptive rolls of the persons to be paid in their Talooks

own establishments, numerous as they are; without any guarantee from an identification by any other authority. They also pay pensions of various kinds, Civil and Military, under a check similar to that which I now propose in the case of the yeomiahdars, Viz^t, a half yearly inspection by a European Officer, the intermediate payments monthly or quarterly, being made by the Taksildar on his own responsibility; in the Satghar Taluk the number of Military Pensioners thus paid is no less than seventy six, to the amount of 477 Rupees monthly. It appears to me that the same kind of guarantee would be sufficient in the case of the yeomiahdars and Dehat Enamdars also.

For

5 For the foregoing reasons, I beg to solicit authority to pay the yeomiahdars &c^a in the Talooks instead of at the Honorable Treasury, under the same rules as at present, so far as respects muster by a European officer, and the appointment of Vakeels. I am not sure, as already said, that the rules forbid or discountenance the course which I now propose. I might perhaps adopt it of my own authority, but in a matter of this nature, I am unwilling to make a change without the previous sanction of the Board.

Bd. No. 1989.
From the Collector of Trichinopoly

Sir.

Respecting the sale of Rent Farms of the Dis trict for Fusly 1264.

I have the honor to report for the information of your Board that agree able to the advertisement circulated the 6 Rent Farms of this District were put up to public competition and sold this day to Trichinopoly.

In conformity

2. practice the several Talooks were put separately, and the result terminated with a Net Decrease of Rupees 4,140. below the past Fusly 1263 1853/54. making up de mand for the ensuing Fusly 1264 of 1854/55.

Rupees 23,030.

3. As directed by Circular Order dated 28th April 1825, I beg to enclose a Statement according to form which will put the Board in possession of the bids for each Talook.

Page 32

The present Offers fall below the average of the past years by Rupees 2,099.

Average of 5 years 25,129
Present offer 23,030

5. The Decrease in six Talooks of

Fort St. George 15th June 1854.

of the District is owing to the unfavorable state and excessive drought of the present Season, as also from the high selling prices of grain in the Market

The increase in Vellovcutty and Moosery Talooks was obtained by rival bids, and in the case of Moosery partly from the Cauliflowertore Mootah & Ferry coming under this Province; the lease granted by the Salem Authorities having expired -

6- The successful bidders engage to make the usual deposit of one Months instalment and to tender Security in the Amount of one fourth of the Rents. I beg to recommend the acceptance of these Offers, and to solicit instructions to put the renters in possession of their several farms on the 12th Proximo, the day on which the new Fusly year commences

The privilege of grazing the Fort ditch has also been submitted to competition and realized a Sum of Rupees 820, being an advance of Rupees 365 of the last fusly, which is attributed to

Fort St. George 15th June 1854.

to competition among the bidders on account of the value of green grass at this dry period -

Sir.

B. of R. 2000
From the Collector of Canara

I have the honor to submit for the approval of the Board tenders received for the Abkarry & Ferry farms of the District for the ensuing Fusly 1264, with the exception of three Talooks of the Balaghaut division, which have not yet reached me, and the Abkarry farm of the Talook of Mangalore regarding which I shall address the Board in the course of one or two days.

2. The Offers for the Abkarry farm of the 8 Talooks now reported exceed the amount of the Current Fusly by Rupees 4140—2—. Heads for the Ferry Rents fall short by Rupees 1016.

Increase	4571-	10
Decrease	431-	8
Net Increase	4140-	2
Decrease	1945	—
Increase	29	—
Net Decrease	1016	—

3.

The Abkarry tenders require

Fort St. George 15th June 1854.

little observation. In many of the Talooks in which the Revenue is now stationary, a considerable increase lately occurred. The increase in Cundapore and Bucvor arises from local contentions among the Toddy drawers rather than any marked increase in the consumption.

4. The Decrease in the Ferry farms is due principally to the sudden decline of the Cotton trade in the North of the district, and probably in part to the opening of the Redcoond Ghaut by which the pressure at the Deogah Ferry leading from the Dooranmanay Ghaut will be considerably diminished. In the South of the District the construction of two bridges near Buntwal and the increasing influence of the Salt Cotays South of the river at Pane Mangalore have led to the diminution of the rents in the Buntwal Talook.

5. The slight decrease in Mangalore prices from the unusually high rates at which the ferries were competed for last year.

To,
The Collector of
Nellore

73d No. 1240.
To the Collector of Nellore

Sir,

Para 1 You state in your Endorsement on Petitioner No. 481 of 1854 that Petitioner was the first to bring the salt heaped in excess to the notice of the authorities, but that he only did so, upon the allore Pyguit shewing his determination to bring the same to light, and you refer to Petitioner's Urzee to the assistant Collector under date 17th March 1853, translation of which is forwarded with your reply, in proof of this supposition.

2 The Board upon a perusal of this letter alone, have some difficulty in coming to the conclusion that Petitioner knowingly retained heaps in excess of the standard.

Endorsement 19th August 1853.

3 The heaps were stored by the Nasinda, and Petitioner admits in his Urzee that the Pyguit on hearing of the order for his removal to another division appeared before him, and gave information regarding the excess in the heap. This intelligence he conveys

to

to the Assistant Collector requesting at the same time permission to examine the heaps...

Had the Pygust been resolved to bring to notice the fact of the heaps in excess, no there would appear no obstacle to his doing so direct to the Huzzoor at any time, and not waiting until he was about to be changed to another station - It seems too that he has remained for 7 or 8 Months after the staking of the Salt, without disclosing the matter, and that he did not communicate it to the Sub Division Sheristadar, who had a short time before examined two heaps in that very location - It appears to the Board that your orders regarding the Pygust should be reconsidered. -

5 As according to Petitioners declaration, he is an old servant of 31 years standing, the Board cannot recognise the circumstances reported, sufficient grounds for his dismissal - They desire therefore to be furnished with further information shewing his guilty participation in the fraud. -

Revenue Board Office
Fort St. George,
15th June 1854.
