No 83

To B. Cunliffe Esqre
Sub Secretary to the
Board of Revenue
Fort St George.

58

Bd No 3820 Sir.

From the Collector of Salem } The Civil Court of Salem having required me by a Precept dated the 7th September 1854, in conformity with the instructions from the Court of Sudr Udalut in Appeal Suit No 9 of 1843, to execute the Razeenamah filed in that Suit, by taking the Bagalore Pollipat under my management. I have the honor to transmit a copy of the Civil Court's Proceedings with a copy of, an Extract from the Proceedings of the Sudr Udalut which accompanied it, and translation of the Razeenamah, and to state that I have attached and taken the Estate under Government management, as the Court requir-ed.

With reference however to the circumstances under which the Civil Courts

States that the Bagalore Pollipat has been taken under the Government management. In compliance with the Order of the Court of Sudr Udalut and forwards copies of the Proceedings of the Civil Court of Salem and of the Sudr Udalut with Translation of Razeenamah on the Subject.

Fort St George 19th October 1854

Courts have required me to assume charge of this Estate, I beg to submit to the Board's consideration whether the Courts have any legal sanction for this mode of proceeding and to request, if the Board have any doubt on this point, that they will permit me to take the opinion of the Government Pleader on the question, and eventually, to move the Sudr Adalut to relieve me from the imposed duty.

3 The sum for which the Defendant is liable under the terms of the Razeenamah is Rupees 32,506, with interest at 9 per Cent. It is proposed to place the estate under the Collector's management till this sum shall be discharged from the annual proceeds. The average profit from the estate is Rs 6000 after deducting ordinary charges, so that the time the estate must be held under management to allow of its paying off the entire debt not be less than about 10 years.

4 As this arrangement is adopted solely as a measure of private

Fort St George 19th October 1854

private commence to a person who is legally qualified to retain charges of the estate, and as it is certain to entail considerable extra labour on myself and my Establishment who have already full occupation in attending to the Government interests, I would strongly recommend that the charge should be declined if the Sudr Court has no legal sanction for requiring the Collector to undertake it.

On this point I am aware

5 that the Courts have the power of calling upon the Collector to undertake the management of a landed estate in certain instances till a suit shall be decided, but I am not aware that this course can be followed for the mere purpose of saving such property from sale in satisfaction of a Court's decree, when it would be otherwise liable to that measure.

In the meantime I request the Board's sanction for disbursing on account of the estate a monthly sum of Rs 69-- for the Establishment entertained for its management

Enc: N° 2.

To The Court of Sudr Adalut.

The Razeenamah filed with unanimous consent by Streemathiny Jaleingherry Gojayee Bavajee as heir to Jagadavaglherry Gojayee to whom the Appellant in A.S. N° 9 of 1843 had transferred his right, and by Pattayenmary Nunjapah Naidoo Zemeendar of Bagalore and Respondent in the above suit is as follows.

The whole of the Respondents Talook viz: Bagalore Zemindary should be held under the attachment of the Court. The lands capable of yielding an assessment of Rupees 500 — " — which are situated in the Cusbah Village of

Fort St George 19th October 1854

of the Zemindary in question and are under the Zemindars own cultivation should be enjoyed rent free by the Zemindar himself.

2 The annual Peishcush and the Sibbendy charges should be paid from the annual revenue of the Zemindary which will be attached as aforesaid, also Rupees 1000 should be allowed to the Zemindar out of the same for his household expenses and the remainder thus left should be credited towards the discharge of the balance now due according to the terms of the decree in question amounting to Rupees 32,506 inclusive of the principal with interest and law costs. From this day interest should be calculated on the above amount at the rate of 9 per cent per annum. At the end of every year beginning with the current after making the above deductions the remainder should be first credited towards the payment of the interest accruing at the rate of 9 per cent and the last balance if there be any, should be applied to the discharge of the abovementioned sum of Rupees 32,506 until this amount is

is paid in full with Interest.

3 After the balance now due Viz: Rupees 32,506 is discharged in full with interest as aforesaid, the Zemendary should be released from attachment and restored to the Respondent.

I Pattyem mary Venjapah Naidoo who is the Respondent and the Zemindar of Bagalore and my heirs agree to matters being conducted according to the above arrangements and I Streenahunt Jalunghary Gosseyee Bava who is the Appellant and owner of the decree and my heirs and relations agree to receive the amount of the decree under the above arrangements. We therefore unanimously request your Court to order the Zemmendary in question to be held under the Court's attachment until the decree amount is discharged in full, and the amount of annual profit arising from it to be credited towards the payment of the debt.

We

We further solicit that you will require the Civil Judge of Salem to remit to your Court every year that portion of the annual profit of the Zemmendary which will go to liquidate the amount of the decree and will cause the same to be disbursed to the appellant through your Court.

Ordered also that the following letter be sent in consequence.

(5860)

To The Government Pleader Sudder Udalut.

B. No. 2309.

To the Government Pleader Sudder Udalut

Sir

I am directed by the Board of Revenue to forward for your consideration the accompanying letter from the Collector of Salem reporting the circumstances under which he has been called upon by the Sudr Udalut to attach the Bagalore Estate and assume the management thereof, and to request your opinion as to the legality of the above order.

2 The Zemindar of Bagalore would appear to be indebted to one Streamanant Jalungerry in the sum of Rupees 32,506 inclusive of principal, interest and law costs in an original suit which was decided against the Zemindar, and an appeal preferred upon that decision. For the liquidation of the above sum by instalments with prospective interest at the rate of 9 per cent per annum, both parties executed a Razeenamah on 19th August 1854 and while the appeal was pending, moved the Sudr Udalut to give effect thereto. an order was accordingly granted in the Court's Proceedings of the 7th September 1854, copy of which accompanies the Collector's letter.

3 The terms of the Razeenamah are that the lands should be held under attachment that a portion of the same assessed at 500 Rs. should be enjoyed rent free by the Zemindar, with a further allowance from the Revenues of the Estate of 100 Rupees for his maintenance that the Peishcush and Sibbendy charges being duly discharged, the remainder of the proceeds should be appropriated first towards the payment of the interest due to the creditor, and then towards the

11th in Cons
19th October 1854

14081 Fort St George 19th October 1854

the liquidation of the Principal and that the attachm
should continue till the whole debts is thus liquidated,"
according to the present Rate of the Collector will req
about 60 years time -

4 The Board observe that the Under Ud
do not quote any Regulation in support of t
order and they are at a loss to discover any a
-thority for the same in the Regulations note
in the Margin, which, tho' empowe
the Courts to issue an order of attac
-ment in default of securities dur
the progress of a Suit, or in execution
of a decree, seem no where to sanction their
requiring a Collector to act merely
in the capacity of an Agent or Manage
to a debtor or his creditor, or to put in
force a Razeenamah between parties the o
of which is apparently merely to evade a fin
judgment or the sale of the Estate in pursu
-ance thereof, and particularly when, as in
present instance, it is certain to entai
considerable extra labor on the Collector
and his establishment.

6th q Section XII Regula-tion IV of 1802
6th 10 Section X Regulation V of 1802.
6th 1 & 2 Section V Regula-tion II of 1811-

5 Should you be of opinion that the
Under Udalut should be moved to cancel
the above order, you will be pleased
to communicate the same to the Board,
in order that the instructions of Governme
may be obtained on the Subject,
and they would wish to Know if you
are able to inform them under what Regula
the Under Court have called upon the Collecto
to manage the property.

B. No. 3815.

From the Collector
of South Arcot

Sir,

I have the honor to acknowledge
receipt of Extract from Proceedings of the
Board, of the 21st Ultimo, forwarding Extract
from the Minutes of Consultation of Government
dated 28th August last, and calling upon me
to report on the proposal made by Doctor
Balfour to depute one of the Native servants of
the Museum, on an increased Salary, to carry on
a geological Examination of the soils of that
part of the District which is now being surveyed
by Captain Priestly.

2. In my letter to the Board of the 2d August
last I did myself the honor to point out that it
would be almost impossible to obey the orders of
Government in respect to this geological inspec-
-tion unless the services of a more qualified
person than either Captain Priestly or I had
or our establishments could be obtained for
the purpose.

3. As yet we have been able to discover
nothing

States that it is desirable to adopt Dr Balfour's proposal of sending a Competent person to collect the existence of mineral wealth & suggests to select a piece of any fossils he may find and to keep the same for deposit in the Central Museum

+ Dated 2d July

14083 Fort St. George 19th October 1854

nothing to further the object in view, and I am of opinion that it is desirable that the proposal of Doctor Balfour to send a competent person, should be adopted - I think he should be attached to Captain Priestly and placed under his immediate orders.

4. The assistance given by such a man is ought be very valuable in leading us to a correct judgment upon the nature of the soils with reference to agricultural purposes previous to the lands being classified and assessed, and he could, at the same time be able from his practical knowledge, to detect the existence of any mineral wealth, and to select proper specimens of any fossils he may find most of the soils for deposit in the Central Museum, and preservation in this District as directed by the Government Order of the 3d July -

5. I beg to submit for the information of the Board, the accompanying copies of correspondence which has passed between Captain Priestly and myself on the subject -

Proceedings thereon Resolved that the foregoing letter be submitted for the information of the Right Honorable the Governor in Council, with reference to the order of Government No. 1024 dated 29th August 1854.—

3. The Board of Revenue would also express their opinion that the suggestion of Doctor Balfour to attach one of the Native Servants of the Museum to Captain Prestleys Survey establishment, would be very desirable, if a person can be found capable of giving a trustworthy opinion as to the soils, and general geological features of the District in detail; they would advocate this more for the purpose of obtaining that information of the physical character of the country which every Government

14086 Fort St. George 19th October 1854

Government should possess, and not in any expectation that it will facilitate or correct the operations of the survey or assessment. With regard to the examination of soils, the Board are inclined to believe that together with information as to their appearance and position in site; they should be subjected to chemical analysis.— _____

From the Collector
of Tanjore — }

Sir,

I have the honor to enclose a Statement of the progress of the cultivation in Tanjore up to the 20th ultimo.—

The freshes this year have not once been high, and have now fallen so considerably as to occasion a check to the progress of the cultivation.—

The eastern talooks are still very backwards, and the annexed statement of the cultivation under some of the rivers in Trivalore, Kevalore, Coolatum, Sheally, and Parellum, will shew the Board how inadequately they have been supplied with water.—

No. 178.

To

B. Cunliffe Esqre

Sub Secretary to the

Board of Revenue.

(67)

B. No. 3866.

From the Collector of Madura

Sir,

Fort St. George

I have the honor to report for the information of the Board of Revenue that in the Sub Division Mr. Clark reports a slight improvement. In Nellacottah there had been considerable falls of rain and in Ramghur the Crops did not seem to have suffered much. The other two Talooks had been less favoured.—

2 In the principal Division there has been rain in Meylore in which the season may be said to be favorable, but none has fallen in the last 10 days elsewhere, and the drought in Teroomungalum and Tenkurray must be pronounced severe.—

3 The Northern Talooks of Shevagungah are in good condition, but those to the South have had less rain.

4 The Head Assistant Collector reports unfavorably of Ramnad, and even states for the first time that the supply of rice for sale has ceased.—

5 This is the season for sowing Cotton, and the prospects of that Crop are at present very bad for it is in the Cotton Country especially that the rain has failed.

6 The Decrease in all sorts of Cultivation in the aggregate amounts in Cawnies to 10,666 - and in Teerwah to 6,715 below last year.—

Madura

B. No. 2586

From the Collr of Coimbatore

Sir,

I have the honor to acknowledge the receipt of the Board's Circular dated the 8th November 1852 requiring information on several points connected with the bearing of the commutation rates on the condition of the people of this District.

This is a question of importance and requires careful research into the foundation of the Survey Assessment. In order to arrive at a satisfactory conclusion, it is desirable that the most authentic information should be derived from Official records. Such to be had from other quarters, being often calculated to lead to wrong presumptions and erroneous conclusions. Unfortunately the records of this Office connected with the process of the Survey are incomplete. So far as they have been found, they consist chiefly of loose Notes - Memorandums and Estimates unauthenticated by any Public Functionary, and

consequently

consequently do not afford clear or authenticated information.

3 Adverting to the brief period within which the Survey and assessment of Coimbatore were completed, the description of Establishment on which this duty devolved, the magnitude and importance of the work, and the fact that the process was conducted by two different Officers with two distinct Establishments, it may naturally be supposed that the accounts were not so complete as might otherwise be expected. With such imperfect materials as can be gathered I beg leave to reply to the Board's queries, Seriatim.

The commutation rate in the Northern Division of Coimbatore has been uniform throughout, as explained in Statement No 1 - Columns 3 and 4 show the price of Paddy which averages 6 Rupees a Podie, or 32 Company's measures per Rupee, and apply exclusively to wet lands. Columns 5 to 8 contain the value of Cholum and Raghee amounting to 5 - 8 - 0 and 4 - 12 - 0 for a similar quantity or 35 and 20½ Company's measures respectively per Rupee, and refer to dry and Garden lands, and those from

from 9 to 14 point out the prices of the several grains indicated marginally, and have exclusive reference to dry lands. In the Southern Division the commutation price for Punjah is the same throughout, being 6 as 8 for 7 for a Moodah of Grain or 48 Measures per Rupee; Vide Statement No 2 & 3. It is the same in respect of Gardens also so far as Cholum and Raghee are concerned, but for all other produce Viz. Cummu seed, Garlick, Chillies, and Tobacco, a different price has been assigned. Wet, Punjah Grain, and Coriander Seed, grown on dry lands also bear a different valuation, as will be seen from Statement No 3. In Punjah, there are 8 different rates, and these are exhibited in Statement No 2 subsequent to the Survey, a deduction of demand was made on Punjah lands in the same division, and the commutation price calculated at this time is given in Statement No 5, this differs from the former price, but the details of calculation are not discoverable on the records. A similar reduction took place in the Northern Division on Punjah, Punjah and Gardens, but the data upon

upon which it was effected, are also not procurable, the local terms made use of at the time of Survey, to distinguish the quantity of produce, are shown in the above accounts with their appropriate value, at so many Madras measures per Rupee. The Commutation rates in the Northern Divisions were drawn from the average price of 7 years, and those in the Southern upon that of 12 years immediately preceding the period of Assessment. With reference to the former, the average estimates appear to have been obtained from the Curnums of the Villages and Towns, whilst the average selling price of a few places only, seems to have regulated the rate of taxation in the latter Division, their being no regular Returns of price on the records. Mr Sullivan states that the commutation rates, or rather the Cist Kar Share in the rice lands of Erode were fixed on the average prices of 13 years, but there is nothing on the records to support this Statement. The principles upon which the commutation rates were determined are pointed out in the preceding para Viz. upon the average prices of 7 and 12 years. The principal grains

Grains taken into calculation in Coimbatore are 6 in number Paddy for wet lands; Cholum[2] for Gardens, and Raghee[3], Cumboo[4] - Varagoo[5] and Horse Gram[6] for Punjah. The more valuable products, such as Cocoa and areca Nuts. Sugar cane, and Betel &c. have been omitted in Punjah, whilst a similar omission occurred in Garden and Punjah lands. In reference to Tobacco, Cotton &c. I am not aware of the circumstances which led to the selection of the said grains to the exclusion of the more valuable products enumerated - neither does the records afford any information on this points; but I presume that they were considered as the chief and ordinary produce of the land, which every ryot, whether poor or affluent, can grow with the least trouble and expence, and that the superior crops referred to were supposed to be expensive, and therefore beyond the reach of the generality of cultivators. It appears however that although they were excluded

excluded from calculation, the advantages arising from their culture were not entirely lost sight of, for the assessment on nearly all the lands is about as much as what the lands yielding a superior crop can pay. It will be observed from Statement No 6 that there are only 24 rates of assessment determined upon a calculation of the produce and its price - but the rest have probably been discretionary and depended upon the nature of the soil, the character of the sources of irrigation, the proximity of Markets and the number of population, and so on.

Mr Sullivan in speaking of the Punjab assessments in Erode and Sattimungalum remarks that there was some reason for making them so high - because the lands "are more secure "of receiving supplies of water. In seasons "of the greatest drought, and when other streams "of water are dry, the Bhowany river retains "a large body of water. However the "assessments are very much "higher than they ought to be". In a subsequent part of his communication, he observes that "in those times, large bodies of Troops were "stationed

"stationed both in the Province and in its "neighbourhood, besides a considerable "number of Hundachaun Peons permanently attached to the Forts, and "besides these, there were other Establishments, all to be fed from the produce "of the Country, these Markets have "long since ceased to exist, and there "appears to be no prospect of their "re-establishment".

In the Southern Division the commutation rate was calculated in a manner different from that in the Northern Division viz. With regard to Punjab the principal grains Viz: Cholum, Cumboo, Raghee and Horse Gram were taken into calculation - and the average price thereof was applied to all other Punjab products - Coriander Seeds, Bengal Gram and Cotton excepted, the price of these 3 articles also appears to have been calculated upon the average of a given number of years - but no specific information is obtainable from the records. During the subsequent modification of the Survey assessment

assessment they were altogether struck off the calculation, and the Ordinary Grains taken to account. Vide Statement A. in No 5.

2nd ly For Gardens, the following articles were taken into calculation, Viz:, Cholum 1, Raghee 2, Chillies 3, Aniseseed 4, Garlic 5, and Tobacco 6. the price per Moodah of Cholum and Raghee is — Rs. — as. 10 — p. 7 — as in the case of dry lands that of other products has been assumed upon the Bazar rates.

3rd ly For Nunjah lands 7 different rates were adopted as the data for the formation of the assessment.

There is no doubt that the prices of different Talooks were considered in fixing the average, and the several rates adopted with reference to Nunjah land in the Southern Divisions, show, such has been the case. but no regular Returns of price can be found on the records and it appears to me that the information as to prices was obtained from Village Curnums.

In

In the Northern Division the proportion of the produce taken for the assessment of Government was 1/3 for Gardens 4/10 as for Punjah, and 1/2 for Nunjah. In the Southern Division 1/2 for Punjah and Nunjah, and 1/10 for Gardens. when the assessment was subsequently modified, 2/5 were taken for the assessment with reference to Punjah lands, the proportion in respect of other classes of land not having been interfered with, whatever may be the advantages arising from a favorable price to the Grower, the demand of 50 per cent would not fail to press hard upon the Ryot in particular cases.

No account of cultivation of the nature adverted to has ever been Kept in the Office, and consequently the information required cannot be furnished. any Estimate now to be framed, would only prove erroneous and useless for reference.

A Statement Shewing the cultivation of the several descriptions of Grain is enclosed No 13, It would appear that several products not included in

Fort St George 19th October 1854

in the calculation of the commutation rate, are now raised, their names are specified in the Margin. The cultivation of Nos 1 is limited, Plain Sugar Cane, Cocoa and Areca Nuts, Betel and Saffron pays a higher rate of taxation (2 per cent) and the expenses required to raise them are also great. Mulberry No 8 was grown on the Neilgherries chiefly, but is now given up and remains chiefly in Cole gal. Nos 7 & 24 are raised in small quantities and made use of by the growers for reasons & are not generally brought to the market to any considerable amount

Nos 2-3-4-and 5 are Cheria grown to a limited extent. The cultivation of Onion is insignificant, all the other products are raised on the Neilgherry Hills. Potatoe Coffee, and Mulberry being grown by Europeans

RHL

Fort St George 19th October 1854

Europeans and new Settlers not by the Burgher Inhabitants. There can be no doubt that the increased value obtained for the new products referred to has benefited the Ryot but at the same time it must be remarked that these products require more labor and expense than what the generality of the inhabitants can afford. They also require favorable seasons, all these are of course beyond the means and control of a common Ryot.

The produce at present grown by the lower classes is what it was 50 years before, Viz Paddy in Nunjah and Common Grains in Garden and Nunjah, the names of these are exhibited in the Margin. It will be observed from Statement No 2 that the increase in the present price of the principal Grains, Paddy, cholam, Raghee and Cumboo, is not very great, the per centage of the increase varying merely from 5-7-5 to 24-6-10. Horsegram gives

gives a profit of 60 per cent, and the price of others is also favorable to the Ryot. Tobacco is a profitable crop but the sale of it having hither to been prohibited to any, but the Government, the advantages to the grower were limited. the abolition of monopoly will no doubt benefit him prospectively. the price of labor and cattle has increased in all parts of the District and has proportionately affected the profits of the Ryot.

Two Statements are submitted Nos 15 and 16, the one shewing the prices from 1212 to 1221, Fasli 10 years immediately succeeding the period when the Commutation rates were fixed. This has been deducted from several

several incomplete returns for broken periods, than which there are no other data. It may be considered to have been drawn out nearly on the same principle on which the said rates were assumed, the other exhibits the prices from 1251 to 1260 as submitted to the Board with the Jamabundy reports in each year. Having this information on the records, it was not considered expedient to set it aside, and to attempt the preparation of another upon imperfect materials - adverting to the principle upon which the price lists furnished to the Board are drawn out, the requisite explanation is given in para 7 of the Settlement report for 1262, and further remarks are unnecessary, and although the two Statements in question were prepared on principles somewhat differing from one another, yet I believe that both of them may be considered as correct as possible, and a sufficient Standard of comparison, the difference between the two not being very material. The profits obtained by Ryots from the favorable prices now obtained in comparison with the commutation rate are pointed out in Statement No 16. The products not

Fort St. George 19th October 1854

not included in calculation are grown in a limited quantity only, in particular localities, and it is therefore difficult to explain with any degree of precision, the extent to which the Ryots may have benefited themselves thereby - There can however be no doubt that the subsequent increased prices have bettered the condition of a majority of the Ryots

4 With advertence to par 2 of the Circular under acknowledgement, in which I am directed to state if I am of opinion that the circumstances of the Ryots are such as to require relief, in what way and to what extent the exigency should be met - I beg leave to observe that the assessments in this Districts, as the Board will perceive, have been determined merely upon an Estimate - the produce of a few lands in certain Villages were taken

Fort St. George 19th October 1854

taken to account and priced at the average value, and this formed the data for the whole District - in some cases the demand is fully as much as the lands can bear, in others it is more - again in a few others it is favorable - this is pretty clearly shown by the large quantity of waste land to be found in every Talook, and requires no lengthened explanation. —

Mr Thackery observes, "that the Survey "rates are doubtless unequal - but in general "they afford a good Standard of assessment - "Considered individually perhaps moderate, "in particular cases certainly much too low "in a few, high." Since it appears that the assessment is not equal in all cases it is not my intention to propose any general revision of the rates of assessment, which in fact is inexpedient, but it appears to me that reductions may be justly made

in

Fort St. George 19th October 1854

in particular localities, where such an arrangement is most requisite. For one instance, in Velakaity Village in the Errode Talook, which is inferior to no others in its neighbourhood, either in point of healthiness or population, is a tract of land assessed at Rupees 760. It has never been brought under cultivation for the last 50 years, nor appropriated as pasture ground. It bears 13 different rates of assessment as shewn marginally. These rates are low when compared with those on the adjoining lands, but they are unquestionably high when applied to the tract in question- all inducements held out for its occupation in the shape of cowle and other similar expedients have proved useless to bring it under the plough, the land being bad, there is no

Fort St. George 19th October 1854

no prospects of its cultivation at any future period unless the amount of assessment is reduced to about 1. 12 per Bullah which is equivalent to the demand on lands of a similar character Again the Village of Mankenaikenpully in the Pullachey Talook is decreasing annually in the scale of revenue consequent on the relinquishment of land by parties reduced in circumstances by over assessment. Here the assessment is not much higher than in the adjacient Villages but as applied to it, it is in certain cases exorbitant. The Ryots rather than continue losers in the occupancy of their Farms give

there

them up and clear Jungle and cultivate other new lands, instead in the same Talook or in the Cochin Limits. There are many instances of a like nature all of which require an abatement of the present demand — in one case (Punjah lands in Nellitoray and other Villages) the late Principal Collector recommended a reduction of assessment, but it was objected to by the Board, upon grounds setforth in Extract from their Proceedings of the 1st June 1853. — The land is consequently waste to this day. I would request the Boards sanction for a just and necessary reduction in these and like cases, the result would be the early cultivation of such lands, to the benefit of the Ryot and Government without any relinquishment of other lands.

5 The present orders of the Court and Government interdicting the practice of charging additional rent on new well lands is encouraging and advantageous to the Ryot and if

if to this were added the modification of the Garden assessment solicited in my previous communications no further concession will be necessary so far as dry Gardens are concerned

6 With reference to Punjah lands a revision of the Survey taxation in the cases pointed out by me and in some others will be great relief. I do not see cause to apprehend that any sacrifice of Revenue made on this account would permanently or eventually affect the resources of the District. on the contrary, I have good reason to believe that it will be amply repaid by the cultivation of many lands now lying waste and useless.

7 The same remarks apply to Punjah lands in Bolampatty, Nellitory, and other localities - and here the loss to be incurred will be merely nominal - almost all lands of which the assessment should be reduced being waste unoccupied, and paying nothing to Government. —

No.

Fort St. George 19th October 1854

8

No particular and minute enquiries have hitherto been openly made, as it was considered that any attempt to revise the assessment might produce anxiety and doubt among the inhabitants, and consequently create unnecessary alarm but should in the Board approve

R.M.L.

Fort St. George 19th October 1854

approve of it, I shall during the course of the year institute minute enquiries, and submit propositions of the necessary reductions, for their consideration.—

Coimbatore, 6th July 1854

To The Secretary to the
Court of Wards
Fort St. George -

71
Bt No 3657

From the Collector of Coimbatore ...

Communicates having put up to public auction 13 pieces of Land in the Village of Kuttor Pulachy in the Pulachy Palook, the property of Sobbee Chetty Revenue Defaulter for Rs 310-8-0 as per annexed Memorandum, and states that the residue due by him will be recovered in due Course and proposes to recommend for remission Rs 146-9-2 a further sum due by him -

Sir

Adverting to Extract from the Proceedings of the Court of Wards dated 26th June last, I have the honor to state for their information, that the 13 pieces of land referred to, in my letter of the 25th May last, were put up to Public auction and Knocked down to the highest bidders, whose names are given in the accompanying Memorandum, for the sum of Rupees 310-8-0

2 The purchasers have paid the usual deposit of 15 per Cent, and I request the ratification of the sale by the Court of Wards to enable me to place the parties in possession of the lands purchased by them

3 The residue of the purchase money will be recovered in due course.-

4 The expences incurred in the sale of the above lands will be realized from the sale proceeds as directed in the Boards Circular of the 21st June 1854

5 Every effort was made to realize the amount without the sale of Land, but without success.-

6 Deducting the sale proceeds above shown, a further sum of 146-9-2 is due, exclusive of interest chargeable, this is not recoverable, and will therefore be recommended for remission in the next Sumabundy report -

(Signed) E. B. Thomas
Collector

Bd. No. 2202

From the Collector of Malabar . . . .

Sir

There are some 560 Gardens in the Dhurmapatam Parish at Tellicherry, which, as is shewn in Commissioner Graine's Report dated 14th January 1822, belonging to Government in fee simple.—

From some cause or other, which is not now explainable no Landlords share has ever been levied on these gardens, the demand having been limited to the Government tax paid on gardens every where.—

In 1847 the tenants of these gardens complained to Mr. Chatfield that the rate of tax was excessive.—

Mr. Chatfield allowed that this was true, but pointed out that any loss felt on that score was met by the exemption from the payment of the Landlords share

to.

14167 Fort St. George 19th October 1854.

to which, in right, the tenants should be subjected.—

The matter has been laid by since that time partly in consequence of a search into the records to see if any thing was to be found to throw additional light on it, and partly from want of recollection. there was nothing of a very pressing nature in it.—

I wish however, now to have the point disposed of, and in this view beg for the orders of the Board.—

I have no doubt that the case on the Gardens in question needs revisal and that revisal will lead to a diminution of Government receipts. I do not see why this diminution should not be made up or partially so by enforcing the Government claim to the Landlords share, as in the case of the Belutnand Rajah. There is nothing to shew that this claim was ever abandoned. It is most likely that, as in that case, it lapsed from want of attention; objections, of course, will be raised against the imposition, but I am aware of none that deserve particular attention

The number of Gardens in question is 556

The present amount of tax is Rs. 2228-4-0

The

14168 Fort St. George 19th October 1854.

The probable reduction on a new survey will be about Rupees 650.

The amount of Landlords share may be taken at Rupees 570.

Calicut 21st June 1854 } /Signed/ H. V. Conolly Collector

Bd No. 2308 No. 1491

Proceedings thereon

(73. 74)

Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council

2 The Collector states that it cannot now be ascertained why the Government right to the landlords share was never enforced on these lands*, but it is most probable, as he subsequently adds, that it may have escaped attention, or been allowed to remain in abeyance in consequence of the excessive character of the assessment which was acknowledged by Mr. Chatfield in 1847, and is also admitted by the Collector in the letter under consideration.

3 The number of gardens thus situated is 556, on which a tax of Rupees 2228. 4-10 is levied at present. The probable reduction on a revision of the assessment is estimated at Rupees 650 which the Collector proposes

* They are shown in Commissioner Graeme's Report of 14th January 1822 to belong to Govt. Government in fee simple

14169 Fort St. George 19th October 1854.

proposes to make up by the enforcement of the Jeum right on behalf of Government, calculated to yield Rupees 570 per annum.

4. It appears to the Board however that the levy of a new impost to the extent nearly of the proposed reduction of assessment would afford but nominal relief to the tenants. They would therefore recommend that as was done in the case of the Beliuna ad estates, the Jeum right should be sold to the present occupants for specified sums, and that the assessment should be revised independently of the above question, with which it is not necessarily connected.

To Government 18th January 1853
From Government 19th February
in Con. 7th March 1853

5. The landlords right or fee-simple in lands is held in such estimation in Malabar that great sacrifices are made to obtain it, and it is a much coveted honor, but the disposal of the right will not in any way compromise the interests of Government who would continue to realize the usual tax as in the Estates generally of the District, while from the lands becoming private property and therefore better attended to remission would be less frequently called for than is the case at present.

From Collector 3d November
in Con. 2d December 1853

Bd. No. 3740

From the Acting Collector of Madras — Sir, With reference to the Boards Endorsement on Petition No. 1868 herewith returned, I have the honor to explain that the land in question containing G. 1—2 assessed at Rs. 1—2 as has only been purchased by the present proprietor about two years ago, and that it has never been exempted from Quit Rent. Several burial Grounds are exempted, and in this instance Petitioner having allowed some graves to be made in this land, applies for exemption. I see no good reason to recommend it. Indeed, I think no land ought to be newly appropriated for either the burning or interment of bodies, without the permission of the Public Authorities.

79

Bd. No. 3909.

From the Collector of Sea Customs, Madras — Sir, I have the honor to forward for submission to Government a small portion of fibre. I should not take the liberty to do so, but that I see reason to hope it is a description, the discovery of which may lead to beneficial results. It is procurable in large quantities and. Extracted at a very trifling cost. and a single leaf will produce 40 Bundles of the sample sent. I should not trespass upon the valuable time of Government with the information, had not this sample been Extracted by a practical weaver who is now employed in weaving it into cloth. So soon as

the

1417/4 Fort St. George 19th October 1854

the fabric is completed. I hope to lay it with a large sample of the fibre before Government with a proposition to make the fibre practically useful. I believe that it will be cheaper than Cotton in fact I see no reason to doubt it.

2 I have also succeeded in converting another fibre into Pulp. It promises well and it also in the hands of a paper manufacturer samples of the paper made I hope soon to lay before Government. Natives are not usually sanguine respecting new projects especially when they consist of materials which are foreign to their experience but in these two instances they express no doubt of success not only as to the possibility of the manufacture but that when made it will pay.

No. 488.

(79.80)

Bd. No. 2298.

To the Chief Secretary to Government.—

Dated 18th inst. 19th October 1854.

To The Chief Secretary to Government

Sir,

I am directed by the Board of Revenue to transmit to you the accompanying letter and enclosure from Mr. Underwood. Collector of Sea Customs.

2 The printed circular of Government Extract Minutes of Consultation 19th September 1854 was sent to Mr. Underwood as to other Collectors. with directions that they should if practicable send in the returns called for by Government in Para 13 of their Circular.—

3 This communication from Mr. Underwood seems to be one which comes more within the province of the central Exhibition committee as being the result of private and not official research, as in the case of Communications from Dr. Hunter and

and other individuals who have pursued the subject.—

4 The Board are not aware that they have any authority to act in the matter, or if it is necessary for Mr. Underwood to make them the channel of communication to Government in a matter of this kind.—

5 It will be perceived that Mr. Underwood's letter is in fact a letter to the Chief Secretary to Government through the Board as a means is merely of transmission.—

6 As the Board have not been favored with any reply to their Proceedings of 21st September 1854. submitted to Government in which their position as regards Mr. Underwood is discussed, they refrain from further noticing the view which the Collector of Sea Customs evidently takes of the

14177 For St. Georgé 19th October 1854

Order thereon 88.82 to be recorded.

Resolved that the following letter be dispatched.

No. 489.

(83)

To The Chief Secretary to Government

B. No. 2300

To The Chief Secretary to Government

Sir

I am directed by the Board of Revenue to request the sanction of Government to a proposed alteration in the designation of a few of the employés in their office, which alteration does not induce any change in the amount of salary, and is merely of office convenience. From experience of nearly 3 years the Secretary has found it very desirable to have as little variety of designation as possible in order that there may be no misunderstanding when any individual is put upon a duty differing from which he is specially employed for. Thus in the event of the Manager being absent, it might be advisable to leave

for such adjustments.

14177 For St. George 19th Oct 1854.

place an uncovenanted Assistant in charge of the office instead of the Deputy Manager as at present. In like manner it may be necessary to employ the Assistant Manager on duties quite distinct from the Management Department.

The proposed change of designation is as follows.

Manager and Deputy Manager to be classed with the other uncovenanted Assistants and arranged according to their rates of salary, and the two Assistant Managers to be designated Head clerk and Assistant Head clerks being on a scale of pay above the other clerks of the Office.

Revenue Board Office, Fort St. George. 19 October 1854.

Signed B. Cunliffe Subsecretary in Charge

To

B.d No. 2305

Sir,

To the Officiating Agent
to the Governor of Fort St. George
at Kurnool

From your Dpsd
Endorsement on Petition
No. 1127 of 1854 the Board learn
that Petitioner's father Sachida
was removed from the
Cummumship of Beegam
remala for granting false
receipts. Sent as no reasons are
given to shew why Petitioner was
not allowed to take his father's
place as nearest heir. I am desired
to request that you will be
pleased to state briefly
what the objections were which
precluded Petitioner from succeeding to the

for such adjustments.
