B/- No. 3875.

From the Collector of Madura

Sir,

1. With reference to the Board's Proceedings of the 14th September 1854, I have the honor to enclose Copy of a notice communicated by me to the Civil Engineer and Copy of his letter dated the 29th September last.

2. Captain Horsley construes the Boards Proceedings as requiring the Examination and approval of his Department of private Tanks only after their construction, whereas by me they were understood to intend the examination to take place before, in order that the danger of injury to previously existing Tanks might be avoided, but it will be seen that Captain Horsley forcibly advocates pre Examination both before and afterwards, without which I fear the liberty accorded will prove injurious to vested interests.

(Signed) R. D. Parker
Collector.

Madura
11th October 1854.

Notice

Notice-

Notice is hereby given-

If Ryots cultivate not more than 10 Cawnies of Poonjah Ayacut land with Kunjah by means of small Tanks dug within the limits of their own land, they will be called upon to pay Poonjah Teerwah only for such land. They will not however be accused the Teerwah of the land occupied by the Tank whether it be Kunjah or Poonjah-

If they wish to construct Tanks of greater magnitude at their own expence, they will be permitted to do so and to cultivate any Crops they like under them without any addition to the usual Teerwah, provided that the proposed Tank be first approved of by the Civil Engineer or one of his Subordinates and the permission of the Collector be obtained. But it is to be understood here also that the site of the Tank will be subject to the usual Teerwah as well as the land cultivated under it

(Signed) R. D. Parker
Collector of

No. 289.

To,

R. D. Parker Esqre
Collector of Madura.

Sir,

With reference to your letter No. 933, dated 25th Instant, forwarding for my perusal the accompanying 2 Eextracts from the Proceedings of the Board of Revenue dated 20th July and 14th September 1854 respectively, and annexing Copy of a Notice issued by you on the subject therein treated of, I have the honor to inform you, that the necessary instructions have been sent to the 2d Assistant Civil Engineer and Surveyors attached to this Division as requested by you-

At the same time, I beg to call your attention to what appears to me to be a discrepancy between the terms of your Notice and the instructions of the Board as contained in the above Eextracts-

It is evident from the 3d Para of the Eextract from Minutes of Consultation under date the 20th June 1854, that the Government had in view the inspection and approval of Tanks constructed by individuals

individuals at their private escpense after their completion, and the Board of Revenue, with reference to the above para, state that they will accord the escemption only in cases where the Tanks have been escamined and approved of by the Civil Engineer or one of his Subordinates - The notice on the contrary states that individuals will be permitted to construct Tanks (capable of cultivating more than 10 Cawnies) "provided that the proposed Tank be first approved of by the Civil Engineer or one of the Subordinates, and the permission of the Collector be obtained" - By the former, escamination by this Department is required after completion, by the latter before commencement -

It is my opinion that to prevent disputes and injury to other peoples' property, there should be an Escamination by some Member of this Department both before the commencement and after the completion of any such new Tank -

I do not know how it may be in the North Arcot District, but I feel perfectly satisfied that there are very few localities in either Madura or Tinnevelly where a new Tank, either large

large or small can be constructed on Poonjah land without calling off the drainage which now falls into some Tank or Yendul, and that any attempt to take advantage of the permission accorded by the Government in the above Ecstract will be the subject of complaint by the party or parties who now enjoy the said drainage - And further, that if such a thing were permitted, the result would be, that land which now pays Poonjah Tasc, would be thrown out of Cultivation to the loss of the present holders, and to the detriment of the Government revenue -

In the course of my service in this Division several complaints of this nature have been brought to my notice by the Collectors, and I have always given it as my opinion that no new tank could be formed immediately above an old one, so as to cut off the supply which from time immemorial the latter has enjoyed, even though the tank to be constructed was within the holding of the individual proposing to construct it at his private escpense - A case in point in the Ramagherry Taluk occurs to me at the present time, and may be within your recollection also, where an individual belonging, I think, to the Coimbatore District, constructed a tank on his own land situated

15194 Fort St. George 9th November 1854.

situated within the limits of that District, and so thereby cut off a Stream which had previously supplied a tank in the Ramagherry Taloob of Madura. Similar instances in Tinnevelly might be cited if necessary, but it must be clear to every one that a Tank for purposes of irrigation is a very different thing from a Well, and that the same rule cannot apply to both. The latter is supplied by springs from below the former by local drainage, Channels from rivers &c.a. The sinking of a New Well can injure no one, the construction of a New tank large or small may injure numbers.-

It is on this account that I advocate the examination by this Department of the locality before the proposed tank is commenced, as well as after its completion, and so important to the interest of Government as well as of the Ryots do I consider the right understanding of this matter, that I would suggest, if you see no objection, that the subject should be submitted to the Board of Revenue for further consideration and orders.-

Civil Engineer's Office,
8th Division Kuddyam

Bd's No. 2490
To the Chief Secretary to Government

Sir,

I am directed by the Board of Revenue, to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Madura, dated 11th October 1854, forwarding for orders Copy of a letter from the Civil Engineer 8th Division, advocating the Examination by his Department of private Tanks, before, as well as after, their Completion.-

2. The Board are disposed to think that in accordance with the spirit of para 3 of Extract Minutes, Consultation of 20th June 1854, the opinion of the Civil Engineer is required not only when a work of this kind is finished, but before it is commenced. Before however issuing the necessary orders on this point, they would wish to be favored with the construction placed.

In Con.n 20th July 1854.-

B. No. 3987
From the Collector of Tinnevelly

Sir

The Manager in Charge of the Minor Zemindary of Sauptoor in this District reports to the Head Sheristadar that 2 offers have been received for renting the Hills of the above Zemindary for the current Fusly 1264, one Amounting to Rupees 960 and the other to Rupees 1000 - but as the Government have in Extract from the Minutes of Consultation under date the 7th Ultimo, directed the immediate discontinuance of the Hill and Jungle farms throughout the Madras Presidency I have the honor to request the instructions of the Board as to whether under the above orders the relinquishment of the Hill farms should be extended to this Estate, and to other Poliputs generally in this District which include Hills, whether they are or are not, under Circar Management. -

Tinnevelly
Tencandy
17th October 1854.

(Signed) C. J. Bird.
Collector.

B. No. 2495.

Proceedings thereon -

(48-49)

The Board are of opinion that the orders of Government for the relinquishment of Hill farms do not extend beyond the Inam lands and should not therefore be enforced in Zemindary Estates whether under management or not. In cases however where the Collector may consider such extension desirable he is at liberty to bring the matter especially to the Notice of the Board. -

B. No. 4053
From the Acting Sub Collector in Charge of Coimbatore.

Sir

I have the honor to acknowledge the receipt of the Board's Circular of the 7th Ultimo on the Subject of Annual exhibition of Arts, Manufactures, and agricultural products of the Country. -

2. Having had no opportunity of consulting the Collector, I am not aware of his views, and intentions, on this point, but it appears to me advisable, as suggested by the Board, that the meeting for the first year for exhibition should be held at the Head Quarter of the Collector, and in all subsequent years in the Cuibah Station of the Talook at the time of Summabundy, when the ryots are usually present to receive Puttahs. -

3. The agricultural products, which in my opinion, are most fitted for exhibition, are, Tobacco, Foreign Cotton, Coffee, Hemp, Sugar cane and Wheat.

15201 Fort St. George 9th November 1854

wheat. the other articles so far as this District can produce are carpets, Silk / raw as well as manufactured Coarse chintz, Calico, or black cloth, and good wool of sheep / no other articles appearing fitted.

4. With regard to the description of prize to be offered, I am disposed to think that it may be made to consist of money, rings, shawls, or other ornaments, which will be found suited to the fancy of the individual entitled to receive it.

No. 116

(52)

To

The Secretary to the
Board of Revenue
Fort St. George.

B. of R. No. 4251.

From the Collector of Canara }

Sir,

I have the honor to submit my report upon the settlement of the Land Revenue of this District for Fusly 1263 — A.D. 1853/54. and to forward the accounts and statements noted in the margin, prepared in the forms suggested by the Board in their Circular letter of the 16th June 1853 and approved by them in their letter of the 19th September.

English	B. No. 1. 3 to 8. 12. to 15. 17 19 21 to 29 & C
Windewi	No. 25. D. — D. and D. No. 26 to 30.

2. The present report is drawn up, so far as the circumstances of the District permit in the form prescribed by the Board in their Circular letter of the 14th September last.

3. The Settlement of the three Balaghat Talooks was made by myself Viz. that of Soopah at yellapoor and that of Sondah at Sirey Moondagode, that of

and

and Bunawasy; and that of Bilghi at Seedapoor.

4 Mr. Hall settled the Talook of Aukola at the cusbah aukola and at Sedashigar.

5 Mr. Hudleston, the Assistant Collector, made the settlement of Honore at Coompta, Honore and Butkul. Some investigations regarding the losses sustained by the Ryots of a few Villages remained for Mr. Fisher's decision.

6 Mr. Fisher, the Additional Sub Collector then joined and made the Summabundy of the remaining 5 Talook of his division, Cundapoor, at Cundapoor and Byndoor.

7 Mr. Chanier who remained in charge in the South during my absence in the Balaghat, made the settlement of Bekul at Coasergode and Vittul, of Buntwail at Moodbidiry and Baltangady of Pootoor at Pootoor and Bellaripetta, and of Mangalore at Mangalore and Moolky.

8 The Assistant Collector Mr. Chase held the Summabundy of Oodipy at the cusbah Oodipy and of Barcoor at the cusbah Bramawer.

Irrigation.

9 In the order prescribed by the Board of Revenue, I have first to notice the sources of irrigation, but it is well known to the Board that these differ essentially from those of other Districts both as to their nature and as to the means by which they are maintained.

10 For the first crop the falling rain suffices, and when artificial irrigation is used for second and third crops, it is generally effected by the simple process of damming up the petty streams which abound in this mountainous country. For garden cultivation wells are extensively used.

11 The dams erected in the streams are maintained by the people themselves aided in numerous instances by a remission made from the assessment on their lands, and known as "Kutootar."

12 The only exception to the above description is found in parts of the Balaghat.

Fort St. George 9th. November 1854.

Balaghat, where tanks similar to those of the Carnatic are found, and are occasionally repaired by the Government.

13. In reply to a Circular order, calling for a return of the works of irrigation, accounts have been received from which the annexed † table has been drawn up. The account formerly submitted has been continued in the same form since the year 1824. That now submitted differs greatly from it, and includes a vast number of works since added by private enterprize. The works for which Kutootar is allowed are entered as repaired by Government, but they are really repaired jointly by the Government and the people, as the Kutootar is seldom equal to the whole cost.

† No. 3

Season

14. The season was on the whole, one of remarkable prosperity. The fall of rain was more than usually irregular commencing with a violent burst, which did serious damage to much of the low land on the river's banks and during the latter portion of the season it was in

parts

Fort St. George 9th. November 1854.

parts of the District scanty and barely sufficient for the second crop, but the first crop generally throughout the District was abundant, and it will appear below that any deficiency in the second, was more than compensated by the high prices which prevailed throughout the Season.

15. The deficiency was chiefly experienced in the coast

Taloks.

Talooks of Northern Canara and the annexed Register of the Rain guage seems to afford a correct indication of its extent. In the Baba-ghât Talooks less rain is required to mature the crops, and the crops were excellent.

16 The Cholera prevailed severely at the Northern and Southern extremities of the District. In or in the neighbourhood of Hullial the parties employed on the public works were attached and the works in several places had to be suspended. In Bekul the ravages of this disease were also severe. The number of deaths as compared with the previous year shews in consequence a great increase. From small pox the District was generally exempt.

The

17. The loss of cattle was also severe and a disease of the foot attached the Cattle of the inland traders to such an extent as to render carriage expensive and often difficult to be obtained.

Prices.

18. The scarcity on the Eastern Coast and failure of the crops in a portion of Malabar and Travancore, with other circumstances affecting the market, combined to raise the price of every staple article and to give remarkable activity to the trade carried on in the Products of this District

19. The price of rice was higher than has been known for 14 years, and as this high price ruled throughout a great portion of the season. It is very important to the small landholders of the District that their crops should command a good price at an early period, before they are obliged to sell to pay their rents. When this is the case the benefit is shared between the cultivators and the dealers, when prices rise only at a late period, the advantage is almost exclusively enjoyed by the dealers and the larger landholders. The present season was favorable to all parties.

The

20. The comparative prices of the last and present season, and the average of five previous seasons are given in the following table.

	Payenghât Taloocks. Average per Garge of Seera Rice		Average per Garge of Muscaty rice		Average per Garge of Rasoy rice		Balaghât Average per Garge of Paddy

1262	2,301,705	1,506	152
1263	1,664,751	412	62

23 The Statement in the margin shews that Cocoanut rose very considerably in price. In this article the price is regulated by that of Malabar, from which large imports are made, and I conclude that the Crop in Malabar was small, or that the failure in the rice crop increased the demand for Cocoanuts, as the imports in this District shewed a great falling off. The rise in price has been very advantageous to the garden Cultivators of the coast Talooks of this District.

W. Pitt

Under

Exports 24 Under the influence of the causes above alluded to, viz. a barren soil on the whole abundant, the failure of the Crops in Malabar and Travancore, and the scarcity on the Eastern Coast, and the high prices consequently prevailing the Exports of Rice from this District have exceeded those of any previous year. The harvest in that portion of Mysore which lies along the Crest of the Ghâts was most abundant, and the new Passes opened through the mountains have led to a great extension of Cultivation within the last few years. The Ghât roads, the navigable Rivers, and the Sea Ports, exhibited throughout the season all the signs of a lively & thriving trade passing along. Writing from one

one of the Ghats which he had not seen for three years, Mr. Silver observed that for one bullock that used to pass five were then passing along it, and on all the Ghats the same activity was visible.

25 The Exports in the aggregate exceed those of the past year by 1,452 Corges or a hundred and eighty six thousand nine hundred and eighty four Rooralu, being a hundred and thirty one thousand four hundred and sixty two above the highest export ever previously known.

Mooras Fasly 1255-14,57,444
" 1263-15,88,906
Increase 1,31,462

26 In the table which is annexed in the usual form, the increase in the Rice of Mysore and Coorg is shown to be very trifling, but this requires explanation. The rice from above the Ghats is consumed largely by the people of Canara, while their own rice is exported to Arabia where it is in great demand. Thus while the exports of Canara shew the principal increase, the increased production is perhaps chiefly in Mysore.

The

Fort St. George 9th November 1854

27 The increase is greatest in the trade of Malabar, Arabia and Bombay but more especially in that of Malabar, as shewn in the following Statement—

	1262	1263	Difference Increase
	Corges	Corges	
Malabar	5,086	10,364	5,278
Arabia	9,520	12,004	2,484
Bombay	5,918	6,942	1,024
	20,544	29,310	8,766

28 The Exports of Betelnut, Pepper and Cardamums by sea have been very large, of the Exports by land we have no information — of the Betelnut of the Balaghat nearly the whole is carried inland — The improved

1262	1917440
1263	1919283

30 The results of these causes upon the Settlement has been that the Land Revenue which has been in-
=creasing for 17 successive years has still exhibited a small but a steady increase in the year under Review - The disastrous floods at Honore, and on the banks of the Wurdah at Banawassy and other Causes, rendered it necessary to grant local remis-
=sions to a greater extent than is usual in this District, so that the increase is not as large as it would otherwise have appeared, but when it is remembered that the increase is due to the advance of Cultivation on the Jungles and is permanent, while the decrease is owing to temporary Causes, the result is, I think, very satisfactory -

31 The subjoined table exhibits the Settlement of the fusly with the additions and reductions in each Talook -

	3160	4	1

33 The Board are aware that nearly all the old Estates of the District have gradually been brought up to the full assessment now fixed upon them, so that the direct increase of the land Revenue can now be but small, but the effects of such a season as the past on the Condition of the people is almost incalculable and it is sure to lead to further demand for land and the improvement of the other sources of Revenue.

34 The Coonery Cultivation of the Government lands of the District has

Fort St. George 9th November 1854

has slightly increased as shewn in the Margin. Every endeavour has been made to enforce the Rules for protecting the Jungles in which valuable Timber is to be found, limiting the allotments of Coonery land to three acres per man and to the class of men who have hitherto subsisted by this Cultivation alone, but much still remains to be done, and I know no question regarding the District more important but more difficult than that of Regulating this Cultivation. This especially applies to the Betul Talooks where the hill lands afford the subsistance of a large proportion of the population.

	1256	14	10	1158	2	0	98	12	10	

Considered that it applies generally to the least favored Estates, and those Consequently the last to be brought up to their full assessment- The par-=ticulars are given in the margin-

39 I append in Conformity with the Boards instructions the table of Indigo, Cotton and Sugar Cane Cultiva-=tion, but the Board are aware that this is not to be so depended

No 19

Fort St. George 9th November 1854

depended upon as Correct. Sugar Cultiva-
tion has greatly extended both in the Bal-
-ghat and Payenghat, but more especially
in the Balaghat. In visiting portions of the
District which I had not seen for 14
years this was most obvious, and I
believe that this extension is beyond
what the tables indicate. The Exports
by Sea for the last five years are
given in the Margin, and perhaps
indicate the proportion of this
extension, supposing the increase
in this District and Mysore to
have been in the same ratio -

Fasly 1259 – 6039
1260 – 4548
1261 – 4562
1262 – 4259
1263 – 8633

40 The annexed table shews
in abstract the Revenue under the
head of Sea or Inland as given in
Table No. 23. The result is an increase
of Rupees 66,680-13-8, above the past
year - which is derived from the Jungle
Conservancy as explained in a
my Report* on the subject -

Net Increase	2704,320	1 7	2781,143	13 2	91,623	" "	14,799	4 5

Net Increase 76,823 11 7.

42. The variations in the Extra Sources of Revenue will be remarked upon in the annual Report, but as this is the first year during the whole of which the abolition of the Tobacco Monopoly has influenced the finances of the District I think that a few remarks upon the above table are called for and I beg here to notice, that as regards this District every source of Revenue exhibits an increase. The decrease under the heads of Salt and Sayer are upon the Salt trade of the interior - On the Salt of Home Consumption there is an increase of 16,584 Rupees - If this sum be added to the increase exhibited in this Table, I think that the resources of the District will be found to have made a considerable advance towards the replacement of the Revenue abandoned with the abolition of the Monopoly - From this calculation

		Rs
Total Increase		91,623
Deduct		
Amendive	10,169	
Sevoy Summah	66,680	76,849
		14,774
Add Increase in Home Sales of Salt		16,524
Total		31,358

the Sevoy Summah and Amendive cair should perhaps be excluded but omitting these there is including the home Salt

Salt Sales an increase of about 30,000 Rupees, and considering how few are the sources of Revenue and the very gradual expansion of which alone the land Revenue is susceptible this appears to me to be a very favorable result.—

43. To the people the boon has been immense and being followed by a season so favorable to all classes as that reported upon, it has certainly greatly improved the condition of the people The sum actually abandoned has been about 2,00,000 Rupees being the sum formerly levied over and above the value of the Tobacco and this is distributed over the whole District among the poorer working classes I reckon that the Exports of Rice alone in the last season have been in value about Rupees 677249 in excess of those of the previous season which was a favorable one, and when the high prices of all other articles are considered and especially of Cocoanuts, Cardamums and Pepper there

Canara Produce		Value
		Rupees
Fusly 1262	24,880	15,14,181
1263	29,122	21,91,430
Excess		6,77,249

there is ample proof that the owners of the Soil and the Cultivators of all classes have enjoyed very great advantages throughout the year.—

44. The signs of this cannot be mistaken, and among them the increase of Shops by the road side and the multiplied applications for fresh lands are the most striking.—

45. In making the Settlement of the Balaghat Talooks after an interval of 14 years I could not fail to be greatly struck by the change. In the frontier Mogannies the extension of cultivation is most striking and perhaps in no part of India is taxation lighter or the tenure of land more favorable. Since the abolition of the transit duties and of the Tobacco Monopoly all restrictions on their trade has ceased and a light land assessment the duty on Salt and the Abkarry are the only taxes which they pay. The land assessment is there in many Villages as light as in the North Western Provinces averaging little above a Rupee an acre, the weekly fairs are

Fort St George 9th November 1854

are now freely open to the people of Dawar, all search on the frontier having ceased. The cultivation of Sugar has greatly extended and the people told me that the number of labourers available was the only restriction upon the extension of their holdings. On each side of the road the fields are seen extending deep into the Jungle and between Pollah and Moondagode where the road formerly passed through a continuous jungle there is now almost uninterrupted cultivation.—

46. The new roads which are being opened through the dense Jungles of the Soopah Taluk with the increased activity of the Forest conservancy will soon extend the range of Cultivation in that Taluk also.—

47. In those Taluks the Survey made in Fusly 1232 (1822/23) is now the bases of the Settlement as defining the extent of the then existing wurgs, so that this extension of cultivation is bringing a steady increase to the Government Revenue—

Collections

48. From the above Statement it will appear that the Ryots means of meeting the Government demand were in the

Fasly

Fort St George 9th November 1854

the past season very sufficient and the Collections were very punctually made, of the total demand amounting to Rupees 19,19,283-12-5 Rupees 18,13,810-14-1 were realized before the close of the Fusly, leaving a balance of Rupees 1,05,472-14-4 which has been reduced by subsequent collections to Rupees 1575-6-10.—

49. The balance of this year was less than that of the previous one by Rupees 11,417-11-6.

Balance at the end of	1262	1,16,890-9-10
	1263	1,05,472-14-4
Decrease		11,417-11-6

50. The arrears of Land revenue outstanding at the beginning of Fusly 1263 amounted to Rupees 1,18,146-12-5 Viz^te.—

On account of Fusly 1262	1,16,890-9-10
Do of previous years	1256-2-7
	1,18,146-12-5

Of this amount Rupees 1,16,850-5-8

51. have been collected during the past Fusly leaving a balance of Rupees 1,296-6-9 of which Rupees 322-10-10 were collected up to 15th October—

52. The particulars of the balance as regards each Fusly are given in the annexed Table agreeably to the Board's order dated the 11th March 1852—

Arrears.

15232 Fort St George 9th November 1834

53. From the above table it will be seen that there is no balance of older date than the three last fuslies and that these are of the most trifling amount.—

54. The whole amount collected within the fusly on account of Land Revenue was Rupees 19,30,661-3-9. Viz.ᵗᵉ of the present fusly Rupees 18,13,810-14-1 of previous fuslies Rupees 1,16,850-5-8. For realizing this amount the power of distraint and sale was only exercised with reference to the trifling sum of Rupees 2,037-7-7 being at 3 per cent of the whole.—

59 Annexed is an abstract shewing the comparative result of the several charges in the Land Department classified according to the form received from the Board.

	Fasly 1262	Fasly 1263	Increase	Decrease
	Rs A P	Rs A P	Rs A P	Rs A P
I Charges Collection and Administration	197635 8 11	202185 11 0	4550 2 1	. . .
II Pagoda and Mosque allowances Pensions and Charitable allowances, Village Servants &c.	210501 6 5	217376 11 5	6875 5 0	. . .
III Works of irrigation	" " "	" " "	" " "	" " "
Total	408136 15 4	419562 6 5	11425 7 1	. . .

60 The increase appearing in the first item arises as follows.

From the Salary and tentage of M. M. C. drawn by the Assistant Collectors for 3 months of the previous fasly having fallen in the account of that year	2352 " "
From additional allowance to which the same officer became entitled at 75 Rs. per month from 2d May 1853	2444 " "
From increase of Establishment on the abolition of the Tobacco Establishment which commenced only in February in the previous fasly	1386 " "
From the Establishment of a Deputy Tahsildary at Sedashigur in Ankola and other additions in that Taluk which were carried out only in June in the previous fasly	1386 " "
From Sundry causes	1194 " "
Total	8767 " "
Deduct Decrease in payment of Deputation allowance	1974 " "
Salary of European Officers &c. not disbursed within the year	2343 " "
	4317 " "
Net Increase	4450 " "

Of

Fort St. George 9th November 1854.

61 Of the increase appearing in the 2d item Rupees 400 arises from payment of arrear of pension and Rupees 6119 from advances for cultivation In fasly 1262 the accounts of Cs Receipts and Disbursements in the Huzzoor Cs Treasury were closed precisely on the 11th of July in supercession of the practice which previously obtained of leaving them open until the Taluk remittances to that date reached the Huzzoor Treasury By this change of practice the advances made towards the close of fasly 1262 on account of 1263 fell in the year under report. Moreover the advances in this year on account of the current year have been comparatively larger. This accounts chiefly for the increase appearing in the 2d item.—

62 The annexed table shews the extent of land taken up for cultivation on the sides of the new Roads.—

Roads	Taluks	Moganies	Length of clearings on both sides of the Road	Extent of Cultivation Acres	Gy
Mercara Road	Pootoor	Soollea and Addoor	1617	25	25
Coonta and Banwar Roads	Ankola	Saiganally and Haritta	6457	110	5
	Sunda	Saloor and Kulyghi	3322	62	31
Bullial and Yellapoor	Soopah	Sambrany	5544	88	39½
		Total	16940	287	11½

Fort St. George 9th November 1854.

Marked A

63 I have the honor to annex Mr. Fisher the Sub Collector's report on the Talooks of Ankola, Honore and Cundapoor Mr. Hall having left the District and the settlement of the Balaghat having been made by myself, a separate report on that division has not this year been made

64 Mr. Fisher's report does not seem to call for any remarks from me, except with reference to the Villages of the Honore Talook which suffered from flood. The settlement of those Villages was made, I think, with sound judgment by Mr. Hudleston. The people were dissatisfied, it is true, and waited upon Mr Hall during my absence and afterwards upon myself. They complained of heavy losses, and such they had certainly suffered. But I explained to them that when the Government had surrendered all claim to more than an average assessment, and derived no advantage from the improvement of the Estates, they could not bear the occasional losses to which the land holders were liable. I stated that I would give to any special

cases

Fort St. George 9th November 1854.

cases due consideration, but that each party claiming this must give me a petition stating the extent of his several holdings, and requesting that they and their evidence might be examined. The result was that not one single person invited this examination. Among the body of Complainants were some men of wealth holding lands in many different villages, and I decline to attend. ing to any general complaint of the kind. To the poorer land owners Mr. Hudleston made such remissions as appeared to be necessary, and I believe that the demands of Government has been modified as far as under the system of this District it is right that it should.—

65 The Board will read with gratification Mr. Fisher's account of the state in which he found the north of the District, and will not I am sure consider his remarks out of place. The fact is that in the north of the District a large commercial city is growing up. The exports from Coompta greatly exceed those of the Capital Mangalore and this tells immediately on the land Revenue. I have within the last few days had an

Value Rs
Mangalore 2058768.
Coompta 3120470.

instance

instance of the immediate effect of the
works now in progress which is very striking
A respectable Land holder of Meejar,
a Village only seven miles from a
navigable river, situated on the Tomaishwar
road, informed me that this year the whole
of his rice is sent to the river on carts.
It was before sent on mens heads. The
former cost of carriage was 4 Rupees per
corge of 42 Moorahs, at present prices this
is equal to 6 Rupees The present paiety
carts is 3 Rupees If such is the saving
for seven miles, the Board will judge how
directly the roads which connect the
Villages at the foot of the Ghats with the
navigable rivers must tell on the Land
Revenue Where instead of 7 the distance is
25 miles, the saving effected is probably
equal to the whole revenue upon the lands
on which the grain is raised.—

66 I had myself the opportunity
this year of visiting the Gairsippa the Meelcond
the Davamunnay the Arbyle and the Singaware
Ghats, all now in progress and each (excepting
the last not yet made practicable) contri-
buting to improve the Cultivation and the
trade of North Canara, and saw the same
spirit of activity which Mr. Fisher describes.

Mr.

Mr. Fisher now Sub Collector,
67 is in charge of the Balaghat division
I am sure that portion of the District
will derive great advantage from
Mr. Fisher's labours The Forest
conservancy to which Mr. Hall's
attention was so usefully given is occupy-
ing much of Mr. Fisher's A speedy
disposal of all applications for land.
the improvement of the existing roads.
and their extension are the chief
wants of the Balaghat: and in these
respects much has been already done
by Mr. Fisher.—

Mr. J. D. Robinson the addl.
68 Sub Collector, is in charge of the Coast division
of North Canara. Mr. Robinson is most actively
employed both in the ordinary duties of his
office and in forwarding the extensive
improvements in progress in that interest-
ing and thriving division.—

I desire to express my sense
69 of the constant and cordial Zeal of
both those gentlemen in carrying out
every measure calculated to advance
the interests of the District.—

Mr. Chamier the Head
70 Assistant, was until his appointment
to

15246 Fort St. George 9th November 1854.

to the Court paying particular attention to the portion of the District least known that of the South of Bekul He has acquired much Knowledge of the Country and the people which he will I trust be able to turn hereafter to good account Mr. Chamier continued to pay the same unwearied attention to his charge as before.—

71 During Mr. Chamiers employment in the Court, Mr. Chase has acted as Head Assistant and held an extensive charge In spite of much ill health Mr. Chase has maintained constant attention to his duties.—

72 Mr. Binny who has just joined the District has commenced his Canarese studies, and will I hope before long be enable himself to take an active share in the duties of the Office.—

73 The Head Sheristadar Bojingo Row has been suspended from Office for reasons reported to the Board The nayib Sheristadar Boniface Fernandez lately, and is now again acting Head Sheristadar has continued to give me every satisfaction

Soorapa

15247 Fort St. George 9th November 1854.

74. Soorapa has again entered the Office as Acting Nayib Serishtedar, and I feel every hope that the character gained by him in his previous service will be maintained in his present position.—

15295 Fort St. George 9th November 1854.

No. 158.

To, F. N. Mallby Esqre
Collector of
Canara

Sir,

I've long myself the honor to report on the Settlement of the Talooks of Cunda-poor, Honore and Ankola, for the past Fusly, I must observe that I only took charge of the Division after the Jummabundy of Ankola had been made by Mr. Hall at Sedasheguer and Ankola, and that of Honore with the exception of a few Villages, by Mr. Hudleston, at Honore, Buttkul and Coompta.

2. With regard to these Villages, as Mr. Hudleston had directed an examination to be made in consequence of the almost total losses said to have been sustained in situations where most of the land yields no cartic crop (being under water during the early part of the rainy season) and failed to produce any return for the labor bestowed on the second crop, owing to the unusually early break up of the Monsoon, and consequent want of water—

3. The Settlement of Coundapoor and of the above Villages of Honore was made

15294 Fort St. George 9th November 1854.

Fort St. George 9th November 1854

made by me the people of the former Talook being assembled at Cundapoor and Byndoor, and those of the latter at Coompta.—

4 The Season under review was altogether an unfavorable one. The rains were, I am informed, at first scanty, and then so exceedingly heavy, as to cause destructive floods of greater or less extent along the banks of our larger rivers.—

5 Some of the land in the Moganies watered by the Guersuppah river, were submerged for upwards of 15 days, and the young plants consequently destroyed. A second Sowing suffered again from the same cause, and finally the want of rain towards the end of the Monsoon was destructive to the Soogy Crops.—

6 In some Villages of the Cundapoor talook, in the Moganies of Koteshwar and Oolootoor, the rice Crops were infested and destroyed by insects, the appearance of which was attributed by the ryots to the rain having fallen unseasonably both as to time and quantity.

7 Cholera, which can only be said to have shown itself during the preceding fusly in Cundapoor talook prevailed to some extent in all three, during the season under review. The loss of Cattle also in Honore and Ankola greatly exceeded that incurred in Fusly 1262.—

After

Fort St. George 9th November 1854

8. After what has been stated it is not surprizing that the land revenue of the three talooks should shew a small decrease as compared with the preceding fusly, and this extends to the Huckle cultivation, though there is an increase under the head of Coomery—

9. Though from the causes above stated agricultural operations were seriously interfered with, or contracted, the ryots had the benefit of high prices for every kind of produce, Jaggery excepted Rice was from 15 to 33 Rupees per Cent higher than in fusly 1262 Soojay was raised in value from 7 to 17 Rupees per Cent, Pepper from 16 to 32 Rupees per Cent, and Cocoanut from 19 to 24 Rupees per Cent, and it must be remembered that these prices are compared with those of a year in which they were higher than in that preceding it—

In

Fort St. George 9th November 1854

11. In the three talooks there is on the whole a decrease of Rupees 1694 6 8, which is chiefly owing to the effects of the Season— Rupees 2027 12 5 have been remitted for injured crops, whereas no claims on this head were allowed during the previous year either in Cundapoor or Honore, and the only remission in Ankola amounted to Rupees 7 2 5—

12 There is a small but steady increase of revenue derived both from Wurgdars under engagement to pay up their full assessment on their estates within specified periods, and from those estates which remain still under the scrutiny of the local Officers— These as they improve, gradually enter the ryotah Class which frees the owners from the interference of the subordinate revenue Officers as long as the instalments are regularly paid, and in fact places them in the independent position of Bhurty wurgadars, freeing them from all those evils of annual Settlements which the European Officer is least able to check—

13. Progress has also been made in extending cultivation by reclaiming waste lands and taking up virgin

Fort St. George 9th November 1854—

Soil (Hosagne) and the steadiness with which this occurs from year to year, though the advance made may not be great, is the best evidence we can have of the extending means and industry of the people—

14 The Soopary gardens of the Hunnur Mogany (Coundapoor) at the head of Cooloor Ghât, do not seem to have felt the relief afforded by the removal of the Hawlut duty, to the extent so apparent in the gardens of the Balaghât Division. This is attributed, I am told, to the following causes— In the first place these gardens are not so productive as the others, I refer to, and the Soopary is of inferior quality; add to which they do not produce any quantity of Pepper and Cardamums, which being Koomeky or Hootawully, sell so favorably elsewhere. This is said to be owing to their situation on the edge of the Ghâts, which increases the drainage and prevents the retention of sufficient moisture, whilst the hills between which the gardens are mostly situated, are bare and wanting in trees, the shade of which is so much required—

From

Fort St. George 9th November 1854.

15. From these and other causes this Mogany is far behind the other garden districts but if the Mysore authorities would carry on the Cooloor Ghât road into the inte the ryots of this Mogany would be in a much better position, as their pro duce goes inland, Improved means of communication would bring better prices and stimulate the Cultivators to greater industry and exertion. The Communi cations between the foot of the Ghâts the Coast, having been so well cared for the expediency of making these improvement available for more than local purposes; very apparent, and the fact ought, I think, to be pressed upon the Mysore Government both for their sakes and our own.

16 The reductions made and noted above, call, I think, for no further obser vations than have already been made but, I may add, that each case in which a remission was granted, received due attention and consideration.—

17 As regards the Honore talook the damage done by the floods on the Gairsuppa river had been fully inspected by the Tahsildar. The examination ordered by

W.P.H.

Fort St. George 9th November 1854.

Mr. Huddleston was conducted by the Monegar and Shanbogues, and the circumstances of the ryot were fully examined into and considered, in apportioning the remissions given.-

18. The total remissions for damage by floods amounted to Rupees 529-5-7 in the three Moganies of Gairsuppah Kanwah and Munky, and Rupees 565-10 was struck off the demand in four Villages of the Comptah Mogany, for the loss of the Sooge the only crop raised.-

19. Many of the ryots in these Villages have not usually been altogether dependent on their lands, as they have, until lately, derived a portion of their means from the Hygurs of the Balaghât, whither they were in the habit of going annually to assist in Managing the gardens and in securing the produce, acting moreover in many instances as family Priests- Owing however to a dispute between the Sonhully and Ramachendrapoor Mutts, they have of late been deprived of this means of livelihood, all

communication

having been interdicted, and as they do not cultivate their own rice lands, being Brahmins, this very unfavorable season told upon them with extreme severity.-

20. In Mr. Silvers' report for Fusly 1262, he gives a description of the features peculiar to the Koochelnad Mogany of this Taluk, and accounts for the fluctuation in the revenue derived from it.

21. There is no doubt that the resident population is greatly on the increase, and the opening of the Neelcoond Ghât for carriage traffic, which we may now look for at an early date, together with the lines of communication now open with Honore, and the head of the Trudri, opposite Dopenpatnum, will lead to a steady improvement in this part of the country, where the land is of good quality and water

generally abundant.-

22. As this Mogany is the property of Government, it seems to offer peculiar facilities for a survey and assessment of all the cultivable lands, for which there is otherwise good reason, as the present system of assessment is based on no intelligible principle. A careful assessment of this one Mogany would, I think, have the happiest effect, as the idea of a general survey is perhaps any thing but welcome, and the views of Government might here be practically illustrated to advantage in a position where their right to make their own could in no way be disputed, or their motives misinterpreted.-

23. The Marginal Statements give the state of the Coomery and Huckle cultivation in the three talooks, showing an increase in Cundapoor and Ankola to the extent of 900 Rupees, and a decrease in Honore to nearly half that amount. The Huckle Cultivation except in Honore is very limitted and varies in extent with every Season. The aggregate settlement on these dry land crops, shows an increase to the extent of Rupees 375-7-5, as compared with

with the previous fusly.-

24 Sugar cane cultivation is on decidedly increasing as shewn below, and it is satisfactory to know that improvements are going on in the manufacture of Jaggery, whilst that of sugar is, I believe, being tried.-

Comparative Statement of the Extent of Sugar cultivation

Annexed

Fort St. George 9th. November 1854.

27. Annexed is a statement of balances in the three Talooks for fusly 1262; amount-ing to Rupees 189-9-2 which I beg to recommend for remission- The circum-stances under which this recommendation is made, are as follows.-

Cundapoor 113-2-10

Of this, Rupees 70-12-9; is a balance against certain wurgadars of the Hunnur Mogany, the Collection of which was post-poned in consequence of their houses being destroyed by fire after the close of the Jumma-bundy of fusly 1262; and who are unable to meet the demand for the current fusly from the produce of their estate. Rupees 24-11-3 is due by a party for fuslies 1261 and 1262, who has given up his garden and left the District, no revenue having been realized in the latter fusly Rupees 17-10-10 is due by a ryot of the Bajoor Mogany, the best part of whose land is in other hands. These parties however now pay their proper proportion of the assessment,

and

Fort St. George 9th. November 1854.

and the wurgadar though quite unable to meet this demand, will in future be in a position to pay his share on the land still in his possession.

Honore Rupees 52-5-7

Of this, Rupees 3 though not properly speaking a remission, is entered on the following grounds. A double Jummah was collected on a Coomery on the borders of the Honore and Bilgki talooks, and on it's being known that the party had been charged in both talooks, an order was passed directing half the amount to be refunded from the outstanding balance - This having been paid from the collections on this wurg, the sum appears in the accounts as still due, though in fact paid by the wurga-dar- Rupees 42 are balances due for fuslies 1260-1261, and 1262, during which they stood over pending a pymash of the wurgin question which has been completed, and as it is found that the land cannat bear the amount of assessment on it, this sum is recommended for remission.-

Rupees 7-5-7 is Quit rent on building ground

Fort St. George 9th. November 1854.

ground at Honore. The bungalow built on this spot, the property of Captain Hutton 34th. Regiment L.I. has fallen down.-

Ankola Rupees 24--9

Of this Amount, Rupees 18-13-7 is Coomery benizy, which it is recommended may be struck out, as the spot lies near the sea-shore and within the limits in which Coomery has been prohibited. The remaining small sums are irrecoverable in consequence of the poverty of the parties, one of whom has left the District.-

28. After making the settlement of Cundapoor and the Villages of Honore referred to in this report, I was enabled before the setting in of the Monsoon to make a very extensive tour in Honore and Ankola, during which I saw most, if not all the roads under construction

Fort St. George 9th. November 1854

construction, and remarked with great pleasure the very considerable improvements that had taken place since I was last in North Canara.-

29. The Stream of the traffic towards Coomptah at the very close of a season which had not been a busy one, was very considerable, and it was most pleasing to see the Sadr at last made a high road for commerce, and the landing place at Kutgul (new to me) crowded with bullocks and carts delivering their loads for transmission to Coompta by water, whilst the Ferry at Deogah seemed to be in full activity, and the new outlet to be no more than was required to relieve the lower part of the Devimanny lines of a portion of the traffic which must otherwise be seriously impeded in crossing the Ferry. The opening of the road from Coompta to Anbyle, was evidently appreciated, as many of the carts return by that route, probably on account of the greater abundance of Forage; the existing difficulties on crossing

15319 Fort St. George 9th November 1854

crafsing Nullahs being easily overcome by light carts during the dry season.

30. The improved communications in the Ankola Talook, had also produced a good effect on the trade and appearance of the S cusbah, and on the country through which they run.

31. These observations, though not strictly called for in this report, have reference to a subject so important to, and so intimately connected with the prosperity of the Country that I have ventured to make them, the more so as the effects of the improvements in process are more striking after an absence of three or four years, than they would be to those who have watched them from season to season. Every day brings out more strongly the advantages springing from these communications, though most of them are yet imperfect; and we may soon hope to see the country along the foot of the Ghâts again becoming peopled and giving promise of regaining the cultivated aspect it once possessed, and of which the traces still remain.

Sir

From the Acting Coll.r of Madras.

Having perused the papers furnished to me with the Extract from the Board's Proceedings dated 10th July relative to the Land Rent of Calcutta, I have the honor to suggest that the further consideration of the redemption of the Quit rent at the Presidency may with advantage be deferred until the measure suggested in the correspondence noted in the margin for legalizing the sale of real property for arrears of Quit Rent shall have come into operation.

Stating that the measures to be eventually adopted for the redemption of Quit Rent might be deferred till the measure for legalizing the sale of landed property for arrears shall have come into operation.

To Do 30th December Do
To Do 30th January 1854
To Do 29th March Do
To Do 7th September Do
From Do

Should the proposed Act be passed

2

I entertain a sanguine hope that it will effectually obviate all such difficulties as are complained of by the collector of Calcutta, and which are already rarely

Fort St. George 9th November 1854.

rarely met with here. I think it will be easy to throw the onus of recording transfers on the proprietor by enacting that when land has been advertised for sale for arrears, payment can only be received from the registered proprietor, and that should he fail to appear, the sale will proceed.

3 I even think that by means of this Act the collecting Establishment may gradually be reduced to a great extent, by publickly notifying that a real property on which the Quit rent is not paid up by a specified date in each year, will be advertised for sale, leaving it to the parties to make their payments themselves at the Cutcherry.

4 At present I believe that in many cases the unoccupied lands are left in that condition from defects of title, by which those who might be able and willing to turn them to account, are deterred from purchasing.

5 The Sale of land for arrears will eventually supply fair datas for determining the number of years purchase at which the rent may be redeemed.

/Here enter 19th October 1854. No. 4189/

The Right Honorable the Governor in Council has no objection to the Board of Revenue making the alterations which they propose in the designation of some of the Servants in their Office as set out in the last para of the Sub. Secretary's letter. By this arrangement, as he understands it, the Officer who has hitherto been the "Manager" will become the Senior Uncovenanted Assistant but he will retain the management of the Office and his duties will continue to be those described in the Board's letter of 2d February 1835 and for the discharge of which a rate of Salary increasing with length of service in the grade was sanctioned by the Government of India 31st August 1835.

To, The President and Members of the Board of Revenue.

/A true Extract/

/Signed/ T. Pycroft

Secretary to Govt.

Order thereon.—

Ordered to be recorded.

9-10

Extract

15330

11

Bd. No. 4246

From the Secy. to Govt.

Fort St. George 13th November 1854.

No. 1447

Extract from the Minutes of Consultation in the Revenue Department under date the 7th November 1854.—

The Right Honorable the Governor in Council observes that, during the past year, the Board of Revenue have revised the forms of Statements submitted annually by the Collectors with their Settlement Reports. The revised forms, tho' they may perhaps admit of being further simplified and abridged are a great improvement upon the cumbrous and from their bulk and excessive minuteness, practically useless statements hitherto furnished. The Board have also introduced revised forms of the Demand Collection and Balance Statements forwarded to their Office Monthly from the several Districts.—

2. The Governor in Council would now wish to call the attention of the Board to the practice which is understood to obtain more or less in all Districts and is followed in the Native Department of the Board's own Office, Viz. that of keeping many of the

Native

Native revenue accounts in the mahratta language.-

3. The Governor in Council deems it unnecessary to discuss the causes which led originally to the adoption of the Mahratta tongue, as to a great extent, the Official language of revenue account throughout the Madras Presidency. It is at least evident and admitted as he believes, by all revenue Officers of experience, that those causes no longer subsist. that the system cannot be maintained, and that every day that it is allowed to continue, only enhances the difficulty of carrying out the change by adding to the accumulation of Maharatta accounts.-

4. That the fiscal records of a Country cannot be permanently kept in a language, which is neither that of the Governors nor the Governed - which is not the vernacular of any part of it, and is understood only by an inconsiderable number of its inhabitants needs no argument - It is further to be remarked that the use of Mahratta hitherto, has tended to confine the chief revenue Offices in the talook and Hoozoor Cutcherries to

to a small selection of the public Servants - This section as the Government have recently had occasion to remark, form in many Districts a perfect clique, connected by ties of blood and marriage and the result is not only unjust to the other classes of the people, who are thus deprived of their fair share in Government employ, but is most disadvantageous to the public interests.-

5. The Right Honorable the Governor in Council accordingly resolves to request the Board of Revenue and the Commissioner for the Northern Circars to report for the Divisions under their respective control.-

1 The extent to which Mahratta is employed as the language of account and correspondence in their Districts.-

2 The measures which should be taken for the gradual disuse of Mahratta, and its supercession by the Vernacular language of the District - and, as far as circumstances will admit by English.-

6 The enquiries of the Board and the

the Commissioner on these heads will naturally lead them to review the system of revenue accounts followed in the Mofussil and to consider whether it could not be improved. There can be no doubt that whatever tends to simplify the revenue accounts whether in the Village, the talook or the Hoozoor to make them more readily intelligible by the people at large as well as by the European Officers will be a public benefit.-

7. The Governor in Council would also wish to call the attention of the Board to the system of pointing off large sums by lacs and Crores, rather than by hundreds of thousands, and Millions according to the English system of notation. e.g. 3,75,00,000 instead of 37,500,000. The system of counting by lacs may be convenient, nor is the term objectionable either as a written or an oral expression, but the Governor in Council thinks that the Government should, at least in its printed reports, conform to the system of notation which obtains in Europe.-

In

In their late general report

8. dated 17th August 1854 on the settlement of the land revenue for the Provinces under their control, the Board have very properly employed the English terms Wet and Dry instead of Nunjah and Poonjah. The Board will give their attention to the expediency of substituting generally corresponding English Words for Native terms E.G. For Fasly might be substituted Revenue year &c.

North and South Arcot. 9. It is believed that in some few Districts the Collectors have established or are about to establish printing presses at the Hoozoor station. The Right Honorable the Governor in Council would wish for the opinion of the Board and Commissioner, whether it would not be an advantage that every Collector should have at his chief station a Press of a simple and inexpensive construction — where official papers blank forms and

15341 Fort St. George, 13th November 1854.

and statements with headings in the Vernacular, and in some cases in the English language could be struck off. The use of such blank forms should, he thinks, be encouraged as tending to neatness saving of time and uniformity of Statement, as also to reduction in the present establishment of writers.-

/A true Extract/

To The President & Members of the Board of Revenue.

/Signed/ J. Pycroft
Secy. to Government

W. P. W.

Ordered

15342 Fort St. George 13th November 1854

Ordered that the following letter be submitted to Government-

No. 543

To The Chief Secretary to Government.

Sir,

(11-12)

B. No. 2528-

To the Chief Secretary to Government --

Submitting the Board's views in respect to the measures to be adopted for the disuse of Mahratta as the language of account and requesting in order to carry out the proposed improvements in the system or form of the Mofussil accounts that a special Unencumbered Assistant be placed at their disposal as a temporary and special arrangement; as also a small Establishment not exceeding 100 Rs if such be found necessary

I am directed by the Board of Revenue to acknowledge an Extract from the Minutes of Consultation of Government in the Revenue Department dated 7th Instant No. 11647, calling the Board's attention to the practice of keeping part of the Revenue accounts in Mahratta, asking for information as to the extent to which that practice prevails and requiring the Board's opinion as to the measures to be taken for its abolition, and as to improvements to be made in the system and the form of the Mofussil accounts.

2 As the first point, viz., that which Concerns the extent to which Mahratta is now in use, the Board are able to reply at once- From a Memorandum prepared in their office, it appears that of the sixteen Districts now subordinate to the Board the Mahratta is used in thirteen for all the Revenue accounts,

both

Fort St. George 13th November 1854

both in the Talooks Cutcherries and the Collectors' Cutcherries, as well as for the Immanahundy and other accounts sent to the Board. In the remaining three Districts Nellore, Malabar, and Madras, it is in use at all, the accounts being in the vernacular language of the District Telugoo in Nellore, Malabaric in Malabar and Tamil in Madras, though the Language in which the Immanahundy & other accounts from those Districts come up to the Board is Mahratta. As respects Correspondence, the use of Mahratta appears to have wholly ceased already in several Districts, it prevailed up to Comparatively recent periods in Correspondence between the Collector and the Talookdar, but it seems to have been every where superseded by the vernacular language.

3 As respects the measures to be taken for the disuse of Mahratta as the language of account, it does not appear to the Board that any material difficulties will be met with, and in support of this opinion, I am directed to mention that they learn from

Fort St. George 13th November 1854

from one of their Members, lately Collector of North Arcot, that in that District, though included in the preceding Para among those still using Mahratta, that language has been discontinued since the Commencement of the present Fasly for all purposes except the Copies of accounts for the Board, and has been replaced by the local language, Tamil in some Talooks and Telugoo in others, with English figures. This Change was carried into effect after six months previous notice, means being furnished to the Talookdar and other Officers at the same time, for acquiring a Knowledge of English figures and notation. It was effected without difficulty or inconvenience, it can hardly be pronounced to be yet Completed, because there is still much more for improvement in the form of the English figures produced, and there is a strong disposition in some quarters to revert to Mahratta if permitted. But fully enough has been done to justify the Board in stating that no material obstacles to the exclusion of Change will

* S. E. since the 12th July

Fort St. George 13th November 185

will be met with if it be fully resol
ved, and be carried into effect with fo
forbearance- They believe that a mor
complete change and a more extensiv
substitution of English may be effe
=ed, but before speaking decidedly on t
point, they must make further and m
detailed enquiries as respects their ow
office, the Board are aware of no obsta
to the immediate & entire substitu
=tion of English for Mahratta, & the
will take steps to effect the alter
=tion without loss of time-

4 But Para 6 of the Minutes of
Consultation under reply open for us
field for improvement, and the Boa
are desirous to take up the whole
subject in a Comprehensive way
although very material improvem
has already been made, as the Go
=vernment remarks, in the forms of
Immediately accounts sent to them
yet they are fully alive to the very
defective and unsystematic Chara
of the accounts in use in the Revenue
Department generally from the villag
Curnum upto their own office, and t

Fort St. George 13th November 1854

as respects the Record of the occupation
of land, and the demand and Collection
of Revenue- Not only should the use of
the Mahratta language be discontinued,
but the Mahratta systems of accounts
should be discarded also in favour of
one more natural and simple, delighting
less in the multiplication of insignifi
=cant details, but affording a more
useful Condensation of details into
Results- This change is even more
important than the other, the two
together will greatly simplify and
render lucid all Revenue arrange
=ments, will check and discourage fraud,
and will facilitate the administra
=tion of affairs, they will also make
it practicable to dispense with a con
=siderable part of the account Esta
=blishments now maintained-

5 The Board are desirous to
enter upon this Reform, but it is one
which cannot be well effected by those
who have for many years been tied to
one undeviating System to which they
are naturally attached, and to revise
a system of vernacular accounts by
European agency alone, is equally im
=practicable- In order to set on foot

a

a reform in this important matter, it is essential that the Board should have efficient subordinate assistance such as shall be both able and also unprejudiced and uninterested in favour of existing systems, and with some experience of the kind of method the Board are desirous to introduce. They are anxious to receive in this capacity the services of one whom they know to be well qualified. This is Jayarama Chettiar, Head English accountant of the Collector's Cutcherry of North Arcot, who was the Manager of the office both of the Public work Commissioners and of the Commission on the accounts of the Presidency, which was dissolved in June 1853 before making any report. The Board have the means of knowing that the Accounts Commissioners had taken up the subject of the District Revenue accounts, and had made much progress in devising a regular uniform system both for village, Taluck and District, in which work their Manager was of very great service - after the

the termination of the Public works Commission, Jayarama Chetty returned to North Arcot, and he has since been employed in carrying into practical application part of the new arrangements devised by the Accounts Commissioners.

6 The Board trust that this statement of the services already rendered by Jayarama Chetty, combined with the thorough knowledge of his qualifications possessed by one of their members, lately one of the Commissioners both of Public works and of accounts, will be held to justify them in declaring him to be eminently competent to aid them in the tasks before them and in desiring his services. It will also be admitted that he should be placed in a respectable position and on a liberal salary and the Board beg to recommend that as a temporary and special arrangement, he may be made a special Unco-venanted Assistant in their Office, on a salary of 250 Rupees a Month, a small Establishment will be necessary under him, which the Board

15349 Fort St. George 13th November 1854

Board hope to be able to supply from the exciting establishments, but should further aid be found necessary, they solicit authority to entertain servants to an amount not exceeding 100 Rupees a month - They feel confident that the result of the alterations contemplated will be a material diminution of expenditure on establishments; but a temporary increase is necessary in order to avoid the derangement of existing systems before another is ready to take their place - Being only special and temporary, the Board apprehend that the outlay now asked for may be sanctioned without delay, as that was for the office establishment of the Accounts Commissioners -

The remaining matters touched upon in the Extract Register of Consultation under reply will be duly attended to - The Board only desire me to add with

15350 Fort St. George 13th November 1854

with reference to the Remarks on the subject of printing presses, that they hope to be able at an early date to lay before Government the results of the North Arcot Press - In South Arcot it is believed no Press has yet been established, one is about to be set up at Cuddalore, but in connection with the Provincial School, not by the Collector - Mr. G. N. Taylor sub Collector of Rajahmundry and Mr. H. Newill Assistant to the Commissioner in the Northern Circars, are both understood however to have printing presses in operation -

No. 177.

To B. Cunliffe Esqre
Sub Secretary to the
Board of Revenue
Fort St. George.

13
Bd. No. 4266

From the Acting Collector of Tanjore -

Sir,

With reference to the Extract from the Proceedings of the Board

15351 Fort St. George 13th November 1854

Board of Revenue under date the 16th March last, I have the honor to enclose a figured Statement, shewing the nature and amount of landed and money allowances in this district, for the maintenance of the swinging festival. This festival, I beg to observe is not as universal in this as in other districts. The chief place where it is performed annually is Vomerauilla, a village in the immediate vicinity of the town of Chicacole.

2 In obedience to the instructions received from the Government, with Regard to the abolition of this rite, I have issued orders to the Heads of Police to use every possible legal means to suppress it, and also directed that persons wishing to be the victims of this barbarous practice, should appear before the nearest Head of Police, and satisfy him that they are acting freely and of their own accord, warning parties present, that in the event of death ensuing they will be liable to be called to account

TBG

15352 Fort St. George 13th November 1854

account for the same. I would however beg leave to suggest that this and other such revolting spectacles be at once put down, they are not attended or countenanced by the higher classes of natives, Hindoos or Oryas and tho' the lower orders and idle vagrants might regret the loss of a holiday this would soon be forgotten.

Ganjam District -
Collector's Circuit Office
Berhampore 28th October 1854.

(Signed) W. Knox
Acting Collector.

List

Fort St. George 13th November 1854.-

List of the different descriptions of Enams in the District of Ganjam.-

Items.-	Portions of lands.	Entire villages.	Remarks.
Part I Falling under Regulation IV of 1831 and Act XXXI of 1836.-			
Hindu Deities.	1	1	For daily ceremonies and periodical festivals. They are usually enjoyed by one family hereditarily.-
Mosques	1	1	Do. Do.
Matams or religious institutions	1	1	Granted to religious recluses the poor are generally fed here, but scholars learning Hindu divinity and secular sciences are welcome to these for daily food, the Enams are made over by the professors to their initiated disciples.-
Sadavarties or almshouses	1	1	These are grants made by religious Hindu Zemindars and other chiefs. There are generally no grantees- one man is appointed to give alms to the poor, but he also maintains himself by it, hence he acquires a prescriptive title which enables him

Charitable Grants.

Fort St. George 13th November 1854.-

Items	Portions of lands.	Entire Villages.	Remarks.
			him to keep the office in his family- the duties are performed more or less.-
Tutelary Village Goddesses	1	"	For offering daily sacrifices and performing periodical festivals. Enjoyed by one family hereditarily.
Grants to Bramins for charitable purposes	1	1	Made generally during the eclipses of the Sun and Moon and during other religious observances- they are all hereditary, and entail no duties.-
Grants to others Consisting of lands, grants to Jugglers, Astronomers, Gymnasts, Coorties, Fans, Ropedancers &c.	1	1	These are grants made by all descriptions of persons enjoying any power or influence in the native Governments.- These are all enjoyed hereditarily. Many of these are granted by persons having no authority to do so.- All hereditary under the recent orders of the Board of Revenue and Government.-
Majoomdary Grants	1	"	Grants made during the native Government for Military Service, they were all hereditary, after the British assumption they have been continued conditionally.-
Kol Karnum grants	1	"	
Shroffi grants	1	1	
Sirdar & Peons.	1

B. No. 3405

From the Acting Collector of Nellore
} In acknowledging receipt of Extract from Minutes of Consultation under date 8 Ultimo No. 930 upon the subject of Sungerkhanas and with reference to Mr. Elton's letter to which allusion is therein made, I have

15363 Fort St. George 13 November 1854.

I have the honr. to enable me to carry out the orders of Government and being unaware as to how the matter is conducted in Districts where this mode of distribution already obtains to solicit information upon the following points

1st As to whether it is proposed that a building a Khana of some sort should be erected in Nellore as a general and fixed resort for recipients of the Lunger in the shape of cooked food and if so its nature and the extent of outlay that would be sanctioned upon it, there not such now existing

2nd As to what arrangements are in force and approved of elsewhere, as to Cooking, both with respect to cooks and number of Cooks as well as to what quantity of food, is issued out to each individual at Lungerdas daily.—

2 In Mr Eltons letter of April 7th to which these minutes have reference, he desired Salvers allotted in any way to the Sub Division of

15364 Fort St. George 13 November 1854.

this District to the circumstance of 1/3 of the total sum sanctioned for Lunger being allotted for distribution there or, to the report I furnished to and upon requisition from him, as to the mode and features thereof and Copy of which is hereto annexed.—

3 In apparent consequence of the above omission, Nellore is alone adverted to in the Minutes of Council on the subject. I presume however that had Government been cognizant of the actual state of the matter, a similar order would have been passed Ongole, as the chief Sunbah Town being the place for general distribution or site of the Lunger Khanah.—

4 I would, in conclusion and with reference to the observation upon the subject, in para 3 of the Minutes, beg to submit a Memorandum of the actual residences (as to Talooks) of the present recipients of Lunger in both Divisions of the District.—

Nellore
Collector's Office
12th September 1854.

(Signed) J. Rutliff
Acting Collector

Memorandum
in reply to the Collector's official
Memorandum

Memorandum No. 39 under Date 6th. Current calling for a report, upon the expediency of substituting cooked food for money, as Longer to the recipients of such in his Division, the Acting Sub Collector has the honor to observe, that such is now distributed in the shape of a monthly money allowance in sums, ranging from 8 As. to 2 Rs, each individual recipient residing in his own Village and his attendance being only required once monthly at the Talook Cutcherry to receive it, or even less often, if himself preferring, or obliged to postpone it, these recipients, being of various castes and, almost without exception, laboring under some bodily ailment or deformity.—

To administer cooked food as Longer to these individuals in lieu of money as under the present mode it would appear requisite, if the Acting Sub Collector rightly

understands the minutes of Government on the subject, which seems to point to a general Lungerkhana or Dispensing Choultry either for each Talook or for each i.e. Principal and Sub. Division of the District only) that they should all permanently reside together or wherever their Talook or Division Khana is established. as those living at a distance could not attend, whilst many of those in the Comparative vicinity would probably from bodily infirmity, experience great trouble or pain in doing so, daily to receive daily supplies of food.—

Under these circumstances the proposed substitution would appear to be attended with considerable difficulty. That the recipients themselves would individually prefer the present system, there seems no reason for doubting

Tranquebar Sub Collector's Circuit Cutcherry 9th December 1853

I Signed J. Ratliff
Acting Sub Collector

15367 Fort St. Georges 13th November 1854.

Nellore
Collrs Office
12th September

/ Signd / J. Ratliff
Acting Collector

15368 Fort St. Georges 13th November 1854.

B. No. 2513.

Proceedings thereon

(19-20)

The Board observe with reference to the remarks of the Acting Collector in Para 3 that there are 96 Sungardars at Nellore and 24 at Angole and that the Sungar Khana should be established at the former place They have after further consideration decided that rice shall be daily distributed, and for this purpose a Choultry may be fixed upon as the place of distribution.—

2 In some Districts the Sungar Khana is also an Hospital and the food is given cooked In North Arcot raw rice is given out in three proportions together with 2 pice per head for firewood and 3 condiments.

+ Adults — 60. Rupee weight
Children above 12-40
Do: under 12-20

3 Destitute persons and those incapable of earning their livelihood are alone the fit objects of this charity and the commencement of a new system of management, and the assembling the recipients to one station should be made the occasion for a rigorous inspection of the condition of each one, and the expulsion of all not strictly coming within the above description.—

In the Districts of Coimbatore North

Fort St. George 13th November 1854.

North Arcot and Tanjore. the Lungar Funds maintain Dispensaries and Hospitals the expenditure in the distribution of food and Salaries of household Servants, is not great, some 500 Rupees yearly.—

5 The Nellore Lungar Funds are about 3000 Rupees annually. This will be expended if necessary in the manner above pointed out and the surplus, if any, carried to the credit of Government. A local Committee composed of the Collector, Judge, and one or two respectable natives, might be constituted. each member in rotation making it his duty to see that the funds were properly applied and at the end of 1855 a report should be made upon the working of the plan now directed.—

6 As the new arrangements will set aside the old System of monthly payments which has proved productive of so much abuse. they will be doubtless unpalatable to former recipients, and to influential parties in the Town, let the Board look to the Collector, or to the Committee if appointed, for firmly carrying out the orders of Government as expressed in Extract Minutes of Consultation of the 8th August 1854. and for economically working the Lungar Funds.—

Fort St. George 13 November 1854.

B No. 1016.
From the Asstt Collr of Nellore
10th July
+ Letter returned

Sir

In reply to your letter dated last requiring information as to the terms and date of the Shrotrium grant alluded to in the Endorsement on Petition No. 982 of 1854, as well as to whom the alienated portion was restored; I have the honor to report, that, from the Sawry Registers and Statements prepared during the ongoing institution into all the Shrotrium grants in this District, in Fuslies 1211 and 1212, it appears, that the one in question was given by one Davanyee, to Comandoor Venkatacharloo upon a Beriz of 190 Pagodas, but that the Summud, had been lost, that Mr Bighton subsequently gave it upon a Beriz of 175 Pagodas; the Summud so given by that gentleman having been likewise lost; in consequence of which, it is not known when, and upon what terms, the Shrotrium was really first granted. There is however a Copy of a grant on Record, from which it appears, that one Streenivasa Venkatachellum made the Shrotrium in perpetuity to Comandoor Venkatacharloo

1537/1

Fort St. George 13th November 1854.

Endorsement referring a Report of 30th October 1854 on the petition of Vaigoonda Nainar dated 16th October 1854 praying for remission of duty on Salt manufactured by him at Kanagapuram in Tinnevelly District.

Read the following Report from the Board of Revenue dated 30th October 1854 and the Petition of Vaigoonda Nainar dated 16th October 1854 praying for remission of duty on Salt manufactured by him at Kanagapuram in Tinnevelly District.

Resolved that the Petitioner be informed that the Government see no reason to alter the decision communicated to him in Board's Proceedings dated 21st December 1853 and that he be informed that the Government are not prepared to remit the duty on Salt manufactured by him at Kanagapuram.

A Extract Petition
B Extract Letter
C Extract Proceedings

Ordered, that Copies of the Petition and Report be transmitted to the Board of Revenue for their information and guidance.

To the Board of Revenue.

By Order,
(Signed) H. Stokes
Secretary to Government.

Proceedings thereon. The Petitioner in August 1853 complained of certain Land Revenue taken from his wife's family and requested that the Pattah might be granted in her name. The Petitioner was informed that the Land belonged to Government, as the Collector's Endorsement of the 21st June 1837 states, until the Proprietor of Kanagapuram had established his claim to it by a Decree of Court. The Petitioner has not done so, and the Government see no reason to alter the decision communicated to him in Board's Proceedings of the 21st December 1853.

From the Actg Collector of Nellore, in Charge of Forwarding the Statement shewing the total extent of Land cultivated with Cotton in his District for Fasly 1263.

Circular Orders noted in the Margin, have the honor to forward the Statement shewing the total extent of Land Cultivated with Cotton in this District for Fasly 1263 from which it will be seen that it has in Common with that of other Products considerably decreased owing to the want of rain. The yield is not supposed to have exceeded ¼ of the Ordinary full return, from the Cultivated Lands.

C. O. 18th Sept 1849	
" " 25th July 1860	
" " 20th Sept 1854	

2. A small quantity of American Cotton seed has been sown; but the yield, owing to the same cause, has proved unfavorable. From an opinion however, I have recorded by the late Mr. R. Taggart, it would appear that it might be advantageously introduced into this District, provided due care and attention were extended.

3. A general Statement of the Cotton cultivated in the Zemindary Villages will be forwarded with the Zemindary Report.

4. The Cotton shown in this District is, I may observe, wholly insufficient for the use of the people; the deficiency being supplied, by Merchants from the neighbouring Districts.

31

Bs. No. 4311
From the Collector of Cuddapah.

Affording information required in the Board's Circular letter dated the 7th Sep-tember last, concerning certain points with a view to establish-ing premiums in each dis-trict for the purpose of improving the manufactures and other staple pro-duce of the country.

Sir,

Para 1. I have the honor to acknowledge the receipt of the Circular letter from the Board of Revenue under date the 7th September last, requiring information concerning certain points, with a view to establishing premiums in each district, for the purpose of improving the Manufactures and other staple produce of the Country.

2. The principal exports from this district are Cotton, Indigo and Sugar, the Second of which is the most valuable and grown to the greatest extent - the Manufacture of which continues until June and July, whilst the other two are gathered in and manufactured by the end of March and April. I am therefore of opinion that the best month for having an exhibition would be in June, and I would beg to add that during this month the abKarry rent is sold for the succeeding Fusly which collects a number of the most wealthy persons from each taluk, who intend to become purchasers of the abKarry of their respective divisions - these individuals would

would, if they could be induced to exert themselves, greatly facilitate the endeavours of the Collector to carry out the intentions of Government, by inducing the parties from their neighbourhood to bring for competition the various staple products, which are produced in their portion of the district. The place of meeting ought in the first instance to be in the Cusbah of Cuddapah, which is about the most central place of the Zillah.

3. In the former para; it has been stated that the three staple products of the district are Indigo, Sugar and Cotton; besides which there is a considerable quantity of Coarse Cloth manufactured and fine Muslin if ordered. Small Carpets for sleeping on; toys and painted leather are also to be found. Sealing wax of the best quality is also to be purchased for these and for the best samples of the different species of grain, prizes might be awarded, and I would beg to suggest, in order to improve and encourage the breed of Cattle, that prizes might be awarded to the finest shaped Cows of different breeds and heifers from 1 to 3 years old, which have been bread bona fide in the district.

4. With regard to the prize to be awarded, ready money would be much more preferable than a medal, but as some of the

the wealthier classes might prefer an honorary distinction instead of money, a gold bangle, ring, or a handsome turban might be substituted, and in order to improve the agricultural instruments now in use, a better Shaped plough might be forwarded from Madras and awarded as a prize for the best "Javary" or "Cholum" - when, should this implement upon trial be found more serviceable than that at present in use, it would induce other Cultivations to adopt the same pattern as that forwarded from Madras and thereby gradually improve the agricultural implements, which are now so commonly used in the district, and which are of a very rude nature, though they answer the purpose exceedingly well.

5. It might be beneficial to the trading community as well as to those inhabitants of the Mofussil, if large fairs be established at the stations and time when such exhibition takes place. The agents for the principal mercantile houses at Madras and other places would probably attend, in order to make their purchases of Indigo, Sugar &ca for exportation to European markets, and the smaller traders might be induced to bring different species of Cloths, blankets, Cuttery &ca for disposal at those general fares - and thus cause

a greater demand for English articles of commerce. Such fares cannot at once be established, but with proper Management they might in time be made very useful, and beneficial not only to the traders at Madras, but also to the inhabitants in general.

6. The following are the particles for which prizes might be awarded.

Indigo 1st 2nd and 3d quality.
Sugar Candy best.
Sugar best quality
Roupoo Ditto
Rice of the finest Kind. Viz.t
Mooradally
Kristnaneelaloo
Chittee Moottialoo
Bungaroo teegaloo
Peshanum &c.
Turmeric best quality
Cholum Do.
Cotton indegenous Do.
Ditto - foreign - Do.
Cloths
1st Sort turban
Dovaty Cloths
Muslin
Bead Cloths
The best Cotton Carpet.

Sealing wax.
Finest shaped Cow of different breeds.
Heifer 3 years old.
Ditto 2 Do.
Do 1 Do.
Finest Bull
Paintings on leather.
Salt petre.

No. 271

To

B. Cunliffe Esqre

Sub Secretary to the Board of Revenue

(35)

Bd. No. 4,130

From the Agent &c. of Chingleput ....

Requesting that the especial sanction of Govt. may be obtained for the enclosed Bill of costs for the Extra Peons employed in the Sydapet talook

Sir

In compliance with the instructions conveyed in Para 2 of Extract from the Board's Proceedings of the 7th ultimo. I have the honor to forward a Statement of expences incurred on account of certain Extra Peons entertained in the Sydapet Talook, to aid the Police Force in that portion of the Chingleput District. The entire expence incurred amounts in the aggregate, to Rupees 501 4 9 and for this disbursement the especial sanction of Government is now requested.

The Board of Revenue are aware that it was contemplated by Messrs Cochrane and Ellis to entertain a large additional Police Force in this District in may last, at the charge of 385 Rs. per mensem to preserve

order

order consequent on the then disturbed state of the District and the number of outrages on property arising from the high price of provisions in the past season. That on taking charge of the District in June. I considered it unnecessary to embody the increased constabulary force, and that I availed myself of the services only of the Peons – whose expences are now reported, and whose entertainment had been ordered by Mr. Elliot in anticipation of sanction of the whole force proposed by him to be enlisted.–

This temporary force consisting of one Duffadar and thirty Peons, was stationed at Sydapet, and was found most useful in that locality, which from its situation in the immediate vicinity to Madras, and close to the large cantonment of Saint Thomas' Mount was the favourite haunt of professional thieves, and other depraved characters. During the four months from June to September inclusive, crimes of all sorts largely diminished, numerous offenders were

were apprehended and twice the number of cases were forwarded to the criminal court in that period beyond those sent from February to May – many gangs of thieves were thus brought to Justice, or — broken up, and order has been — gradually reestablished.–

Under these circumstances the additional force was dispenced with as proposed from the 1st October and with this short explanation the Bill of Costs a very moderate one is now submitted for sanction.–

Bd's No. 1,292

From the Coll'r of Chingleput

Stating that 327,579 Maunds of Salt can be expected from Covelong by the end of April 1855

Sir

Referring to Extract from the Proceedings of the 26th Ultimo, I have the Board's honor to state for their information, that there are 153,003 Indian Maunds of Salt at Covelong which can be supplied to Calcutta on Government Indent at 15 Rupees per 100 Maunds. Of this Maunds 26938 have been already stored at the Beach, and the remainder can be removed thither as soon as intimation is given of the quantity which the Board may authorize for export from this collectorate.

2 There is a farther quantity of 57,576 Maunds on hand out of the past year's Indent, the cost of which, inclusive of shipping charges will some what exceed 15 Rupees as shewn in the Margin. This Salt was stored in the Platforms at the Beach under the Board's orders of the 13th April 1854 offering 25 Rupees per 100 Maunds. It cannot be turned to.

Maunds Rs as &
1,51,39½ at 15-10-10 per Maunds
9136½ at 22-2-3 per 100 Dt

Fort St. George 13th November 1854.

to account for inland sale owing to the difficulty of access for carts, and I beg therefore that permission be granted to export this Salt at the present opportunity. The actual loss may be written off or otherwise adjusted.

3 By adopting early measures for the manufacture of the ensuing year 120,000 Maunds may possibly be manufactured at Covelong before the end of April. The manufacture of this quantity can only be relied on provided the season be favorable. but if so the Board will observe that on the whole 327,579 Maunds may be expected from this collectorate at the Port of Covelong by the end of April.

4 I beg to add that no shipping can be procured through my agency for transport of the Salt to Calcutta.

2 The Esclensive Enams attached to the Triputty Pagoda for the support of the Services were

were not attached by the British Gouernment as was done with the large Pagodas in Tanjore and elsewhere, they have always remained in the possession of the numerous Officers to whom they were originally assigned. The offerings only which amounted to a very large sum have always been carried to the Credit of the Gouernment, a portion of about a third of the whole value being disbursed from the Treasury for various Charges Connected with the Institution.

3 This is an arrangement peculiar so far as I know, to the Tripetty Temple, but far from being of recent origin I believe prevailed under all the successive Governments that have Ruled the Province in which it stands, since the very foundation of the Temple. I remember many years ago meeting with a old mythical fable which purported to be the cause and origin of it, and which may at least be taken as proving its antiquity. The Gouernment of the day whether Hindoo, Mussulmen, or English took part of the offerings as its own and

maintained the temples, so well pursuing this under-stood that it was a Regulation existing from the times of the Mussulman Gouernment at least, that if any votary wished his offering to be really devoted to the Service of the Idol, he gave also its equivalent value in money which became the property of the Gouernment- so little were the great officers of the Temple, being the persons most concerned in the question, inclined to quarrel with its antient Constitution in this respect, that they offered the most decided opposition to the withdrawal of Government Patronage, although aware that with that the appropriation of the offerings to the Gouernment would cease also-

See from Principal Collector to Board Septr. per 29th 1841 Para: 7.

4 Such are the main facts of the case- The receipts from the Temple formed a part of the Revenue of the Country, when it came under the English Gouernment, and they certainly formed a legitimate and unquestioned part of it, in every respect, except that of the peculiar character of the nominal and ostensible object of the offerings- The Gouernment

did

did not at all profess to be trustee of the Temple as the Mahant now asserts, they took the offerings as made to themselves, as in truth they were. The Mahant is a trustee indeed, but that is because he is constituted such by the Government, who when they renounced their own ancient and recognized and lawful interest in the offerings, transferred it to the Pagoda and appointed him to administer the income.

5 Under the foregoing circumstances, I cannot look on the present Request as having the slightest foundation in reason. The Pagoda offerings did not belong to the Pagoda, till voluntarily surrendered by the Government, and then only so much passed to it as was so voluntarily surrendered. If the Mahant's argument to the Contrary on this point is good it should be carried much further, if the British Government is bound to give up all that it has received itself from the offerings, the obligation cannot stop there, it must follow also that it is bound to make good all that has ever been received by the former Government whose successor it is, and whose assets came into its hands with all their liabilities. If the

appropriation of the offerings the secular Government was wrong as regards the Temple, it was so under whatever form or nationality of Government, and the whole wrong ought to be repaired, but if on the other hand there was no wrong as regards the Temple, but only as regards the Character of one particular Dynasty, then neither the restitution of arrears nor even the surrender for the future can be claimed on the part of the Temple, and if the latter is conceded it is all pure gain.

6 If however this view is not thought correct, I would observe that what: ever part of the alleged plunder of ages past the Government may feel itself bound to give up, whether the forty five lacks now asked for or ten or twenty times that sum, it ought not to be given to the Mahant as to the Tripulty Temple. The treatment of the accumulations in Tanjore and elsewhere affords a precedent, such funds should be regarded as devoted to beneficial and

and Charitable public objects generally
and should be applied to the improvement
of the roads, the promotion of education,
or other Kindred objects -

7 The Honble to plea that the funds
asked for are necessary to put the Tem-
-ple and its Connected buildings in good
repair, or rather to preserve them from
ruin to which they are rapidly hastening
may be briefly noticed - While the Temple
was under the officers of Government the
buildings were all kept in good repair
and yet the annual Charges on the offerings
fund did not exceed 30 to 40 Thousand
Rupees a year - and the buildings under
are of such a character, chiefly solid
granite structures, as to be very little
liable to decay - When the management
was transferred to the Hindus, a Rev-
-enue was placed at his disposal amount-
-ing on the average to Considerably more
than a Lack of Rupees yearly, to meet
Charges which had only amounted to

to about 35,000 Rupees - It
is sometimes said that
since the discontinuance
of Government Connection
with the Temple, the
offerings have declined in value,
but I have never heard that they
have fallen nearly to one half
or even three fourths of their pre-
-vious amount, and even if they were

to

15398. Fort St. George 13th November 1854

to sink to one half only they would still be much more than sufficient to cover all the charges including the Repairs and preservation of the buildings. Thus the Inhabitants appeal ad misericordiam appears to be no better founded than his pleas of right.

North Arcot —
Collector's Cutcherry —
Chittoor 23d October 1851.

Ordered

15399. Fort St. George 13th November 1854.

39-40

No. 541.

B. No. 2542.

Proceedings thereon. Ordered that the above letter be forwarded for the information of Government with reference to Extract Minutes Consultation 5th October 1854.

2. It will be observed that the Collector meets the claim of the Mohunt with the Statement that the offerings to the Triputty Pagoda have from the earliest times been considered a portion of the revenues of the State. He is therefore of opinion that Petitioner has no just title to the claim he prefers.

3. Admitting however the accuracy of Petitioner's Statement, that the offerings were the property of the Pagoda, it is clear that the Government having charged themselves with the repair and support of these Institutions were entitled, these conditions fulfilled, to the proceeds of their endowments and to the surplus arising from them.

4. Petitioner is incorrect in declaring that the Pagodas in question enjoyed no endowments

In Cons. 16th October 1854

Pf.

endowments from the State, as the Collector declares "extensive Enams" to be attached to the Triputty Pagoda which were never resumed.

5. The buildings were made over in good repair, the annual receipts are far above the sums considered sufficient for their due maintenance, and the Board can see no good foundation for Petitioner's claim to the surplus offerings, which together with the surplus Davastanum Funds in other Districts have become the undoubted property of the Government.

B.r No. 4283.

From the Collector of Salem, dated 1st

Sir,

Adverting to an Extract from the Proceedings of the Board of Revenue dated 6th July last, forwarding copy of a letter from the Officiating Secretary to the Government of India relative to the "expediency of suppressing the cultivation of

Adverts to Board's Proceedings dated 6th July last relative to the expediency of suppressing the Cultivation of the Poppy and levying an excise duty on Opium and other intoxicating drugs.

"of the Poppy" and levying an excise revenue on "Opium and other intoxication drugs", and calling for a report upon the proposition of the Supreme Government, with returns shewing the extent of Poppy cultivation and of the sales of Opium and other intoxicating drugs, I have the honor to state that the cultivation of the Poppy is not carried on in this District. Ganja or Hemp is raised in some parts to a very limited extent, but this extent cannot be accurately ascertained, as it was not the practice to Keep accounts of that cultivation. Opium and other intoxicating drugs are imported into this District chiefly from the Mysore Province.

2. On searching the old records the Sayer accounts for one entire year, Fusly 1252, have been found. The quantity of opium and other drugs imported in that year, as exhibited in those accounts, is shewn in the Margin. Under the Sayer System two descriptions of toll were collected on these drugs as well as on tobacco, betel leaves and betel nuts. Viz.t the "frontier" and the "town" duties. When the former had been collected it was deducted from the

15407 Fort St. George 13th November 1854

No 175.

To B Cunliffe Esqre
Sub Secretary to the
Board of Revenue
Fort St. George

(43)

Bd No 3870.
From the Collector of South Arcot

Sir,

I do myself the honor to forward for the orders of Government, as required by the Circular form the Board of Revenue dated 5th February 1852, four Statements showing the number of cases in the Talooks of Trinomallee, Ellavanasoor, Virdachellum and Tricullcor, where Maniem lands attached to Pagodas in which no service is now performed, and I beg to recommend that those lands should be declared as escheated to Government, where the period since which any service was performed exceeds twelve years.

According to para 105 of the Tookumnamah Rules of the District, the teervah on such lands is brought into the Summabundy accounts immediately it is discovered that no ceremonies are performed, but it is usual to restore them, without any reference, as soon as the service is recommended, unless in the mean time they have been resumed by order of Government. In many cases now submitted, the Pagodas themselves have long ceased to exist.

Cases of the kind are exceedingly numerous in this District, and with a view of obviating the necessity of frequent applications regarding them, I would suggest that a General Rule should be established by which all such lands would, as a matter of course, lapse to Government when the service for which they were originally granted has been discontinued for a period of twelve years, which is the term laid down in Section IV. Regulation XXXI of 1802 as limiting the admission of claims for exemption from the payment of Revenue on land.

South Arcot, Collectors Cutcherry,
Cuddalore, 12th October, 1854.

/ Signed / A. Hall
Collector.

Proceedings thereon -

Submitting a letter from the Collector of South Arcot and recommending that the Lands attached to certain Pagodas be resumed on behalf of Govt -

Fort St George 13th November 1854

No 534

Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council -

2 With this letter the Collector submits four Statements detailing the names and other particulars of Pagodas in the Talooks of Trinamallee, Ellavanasoor, Virdachellum and Treecalloor, which have been allowed to fall to decay for periods varying from 14 to 50 years, and in which no pooja is at present performed, and recommends that the endowments assigned to them be resumed.

3 - The total extent of the Enams is 794 - 5¼ Cawnies and the total assessments Rupees 3568 - 4 - 4 under the orders of Government dated 13th January 1852 para 5 the Board beg to support the Collectors recommendation -

4 They also approve of his suggestion that all services Enams wherein the service for which they were originally granted has been discontinued for a period of twelve years should be

15428

Fort St George 13th November 1854 -

be resumed by the Collector as a matter of course The period named is that which by Section IV Regulation XXXI of 1802 forms the limit to the admission of claims for exemption from the payment of Revenue on land, and by clause 4th Section XVIII Regulation II of 1802 bars the right to sue in all private transactions.

5 If this proposition is approved by Government, The Board propose to issue a Circular Order to all Collectors in modification of that of 5th February 1852 directing them to incorporate with the Government lands Enams of Pagodas appearing from to time to have been abandoned for the period specified, without applying for special sanction but to state the amount and circumstances of such resumptions in their Summary Reports for the year - The rule should also in the opinion of the Board be made applicable to money allowances for the service of Pagodas -

Bd No 1284

From the Collr of South Arcot

Sirs

I have the honor to acknowledge

receipt

15429 Fort St. George 13th November 1854

receipt of the Extract from the Proceedings of the Board dated 16th March last forwarding Copy of Para 3 of the Extract from the Minutes of Consultation of Government under date 24th February relative to the Swinging Festival

There are no Maniems granted in this District expressly for the performance of the ceremony in question, but the accompanying Statement shows the extent to which religious Institutions wherein this rite is performed, receive endowments from Government

These maniems amount to A P 3-7 in value and belong to 28 Devastanums. Besides the foregoing places there are several others where the swinging Ceremony is occassionally performed but they enjoy no maniems from the State.

Short of a legal prohibition the only method of putting a stop to this objectionable rite, seems to be to induce the people themselves to discontinue it. With this view, I have had the chief persons belonging to the institutions where the rite is celebrated sent for. All those who have come have entered into written agreements not to allow the performance of it again and I have reason to think that the people who are yet to

15430 Fort St. George 13th November 1854

to appear will readily assent to the same.

It was my intention to report on the subject when I had seen all the parties summoned but as the Board desire a speedy reply I have thought it best to write at once and state what had been done in the matter.

As it is now becoming generally known that the Government disapprove of the rite in question, I do not apprehend that it will be practised for the future in this District. I should I have reason however to believe that it is likely to take place on any particular occasion I shall use my best endeavours to prevent it.—

No. 201

To

B. Cunliffe Esqre
Sub Secretary to the
Board of Revenue
Fort St. George

(47)

Bd. No. 2293.

Sir

From the Collr. of South Arcot &c. &c. &c.

With reference to Extract from the Proceedings of the Board of Revenue dated 26th Ultimo forwarding Extract from the Minutes of Consultation under date 19th September, and calling for information on the subject of the Moturpha taxes, I have the honor to state that Quit Rent on land has been kept in this District quite distinct from the tax imposed on Shops and houses. The former is brought to the credit of Government in the regular land settlement, under the head of "ready money Collections", while the latter form items of the Moturpha Collections"

2 Upon referring to the Statement of the Moturpha settlement for the past Fasly it will be observed that the Shop and house taxes amounted together to Rs. 12234-7-7 a. p.

3. I find that these taxes have no reference whatever to the extent or kind of land upon which the houses or shops stand, but that

Fort St. George 13th November 1854.

they are imposed because the owners of the houses are engaged in trade and that their continuance or otherwise is dependant upon whether the party carries on his dealings or ceases to do so.

4. In the large towns of Cuddalore Tripapalore, and Bandepollium there are no taxes on houses or Shops existing but a permanent Quit Rent is charged on a good deal of land in them.

5 It would therefore appear that the taxes on Shops and houses, as levied in this District, are properly classed under the head of Moturpha

Sir

From the Collector of Tanjore &c. &c. &c.

I have the honor to reply to the second and third paragraphs of the Board's Proceedings dated

Explaining the nature

nature of the teerwah entered in the 24 Column of the Statement of irrecoverable balances—

Para 2—

Fort St. George 13th November 1854

dated the 25th Ultimo

The teerwah entered in the 24th Column of the Statement which accompanied my letter of the 21st of July, was not assessed on the banks of the paddy fields after they had been formed. the land was originally poonjah and on being converted into Nunjah by the ryots, was assessed as such according to its area when poonjah; the ryots subsequently claimed the usual remission for such land as was occupied by the banks formed when the nunjah cultivation was made and as its amount was entered in the Summabundy for that fusly, its collection was suspended and its remission requested of the Board for subsequent

para 3 fusles it has been omitted from the settlement

The conduct of the Village officers of Toondicutlay Vo. Villages was not considered blame worthy. It has as a general rule been thought inexpedient in Tanjore for the Govern=ment servants to interfere in any way with the harvest of any land not brought under a division of the Crop by the ordinary rules of the settlement, and as in the case now in question, the ~~Meerasidars had agreed to reap~~ their fields; no measures were taken to conduct the harvest on account

Fort St. George 13th November 1854—

account of the Government on their failing to make good their engagement—

A Meerasidar in Tanjore is con=sidered to be answerable for the whole demand on his land, if by bad cultivation, or by his own neglect in any way the Crop should be deficient, but if, whenever such were the case, on his omitting to reap it the Crop were to be cut by the Circar and proved to be less than 70 per Cent of the stand=ard, it would be difficult under the terms of the rent, to refuse the usual remission, and thus the Government would lose by a neglect which should fall solely on the meerasidar who caused it—

It is true that in the case now in question the loss has fallen on the State, but that has been because from the circumstances of the Meerasidars, its amount could not be collected from them, except by resorting to distraint. By the rule which now obtains the loss though generally falling on the Meerasidars, sometimes comes on the Government while the adoption of a contrary practice, would cause the Government always the loser.—

Sir

From the Collr. of Trichinopoly in Parat

As directed by Extract from the Proceedings

15437 Fort St. George 13th November 1854

Proceedings of the Board of Revenue dated the 26th Ultimo. I do myself the honor to furnish the information required respecting the Motarpha Revenue on Shops and houses taking a form of a Quit Rent.—

2 Your Board are aware that in this District of Trichinopoly an immunity from all imposts of this description was granted by the Nawaubs Government to the City of Trichinopoly and in fact to nearly the whole Province. This tax on Bazars only exists in four places and amounts to Rupees 737—10—5 cwo

Always excluding the Moottah of Cantapoottoor which has only recently been annexed to the Zillah from Salem

15438 Fort St. George 13th November 1854.

Salem. The Bazar tax of the Moottah is Rupees 118-10-3 per Se

3 The loom tax is consider-

-able and I beg to furnish a Statement exhibitting the demand of the Moturpha for the past Fusly of 1263/1853/54. The item of Bazar tax your Board will observe is in only two Talooks that of Conand and Vittoocutty, and why these two divisions should pay the impost, and that too in four Villages only, I am at a loss to explain unless it be through the means of the Carnemo and Talook servants Years ago I should be glad to see

15439 Fort St. George 13th November 1854.

see these Villages relieved of this tax, particularly such small places as Eloopoor, Palayyatullay and Lalla Pettah, where the sums paid are but small.

4 The Mylenshunthay is the great Vegetable Market at the South gate of the Trichinopoly Fort and there appeares no just reason for taxing the Bazars there, when the whole Fort itself and the entire ... adjacent suburbs are free

5 The Bazar tax here is not ... of the nature of a Quit-Rent

Bd No. 3721

From the Collector of Tinnevelly

Sir,

I have the honor to forward for sanction an application for reward to Informers of concealed Cultivation &c., and to state that the protracted delay in transmitting the same has been caused chiefly by the time taken up in completing the Taloork investigation and in recovering the amount of fraud, and partly by the accounts received from Taloorks for preparing the application in question having been necessarily returned more than once for amendment.

Tinnevelly.

of 15th November 1844, a Warrant of 50 Pounds the
maximum amount Claim allowed i.e. be
commended to be paid to the Informer.

No 4 The Complainant in this Case
accused the Common of having stolen cattle
omitted to enter in the public account of Cattle
1259 certain Unpaid Collection made in the
Catharine of that year, and punished in-
-jurious information regarding it- The Document
of Deed proved on inquiry is Dubbed 23-7-6.

This Deed which affects to have
been willfully committed by the Common would
not have been detected, but for the in-
formers complaint which was frivolous
by him without delay.

Bd. No. 4315

From the Collector of Tinnevelly

Forwarding 2 Statements of the Revenue and Police Establishments and a supplementary one of the armed force &c. required by the Board in their Circular of 4th September 1854

Sir,

Para 1 As directed in the Boards Circular of the 4th September last, I have the honor to transmit to you herewith 2 Separate lists Shewing the Revenue and Police Establishment of the District and a supplementary one exhibiting the extent of the Armed force permanently maintained and the number of Cavilgars, Dottics with the Amount of annual fees &c. enjoyed by them, and trust that the lists are drawn up in the form required.

2 The Amount of the armed Establishment now entered in the Supplementary list as per instructions contained in the above Circular having been hitherto included in the Moyenzabitah, the Total of that Establishment added to the Amount of the Revenue and Police Sibbendy will correspond with the total of the Moyenzabitah.

3 With regard to the concluding Para of the above Circular, I have the honor to state, that no persons of the description therein mentioned are now on the Establishment of the District.

Signed C. J. Bird

Collector

Tinnevelly 6th November 1854

(63)

Bd. No. 3634.

From the Collector of Canara. - Forwards an account particulars of expenses incurred in supplying Teak and Junglewood to the Bombay Government and requests the special sanction of Government -

Sir,

I have the honor to forward an account particular of expenses incurred in supplying Teak and Junglewood for the service of the Bombay Dockyard from the year 1849/50 to 1853/54 as per Amounting to Company's Rupees 76,824-7-9- and request that the same may be submitted for the special sanction of Government.

2. The wood thus supplied was brought to the coast by means of Contracts sanctioned by Government under date the 6th December 1848 which were extended for three years, i.e. 1850-51 and 52 with the concurrence of the Bombay Government conveyed in their Secretary's letter of the 24th March 1849.

3. The whole of the supply has been charged according to the practice which then obtained at the cost of felling trimming and shipping, except that sent during the last season - This Consignment has been debited to the Bombay Government.

15461 Fort St. George 13th November 1854

Government at the Market Value under instructions of Government Conveyed in their Extract Minutes of Consultation dated 18th April 1854.-

4. The Board will find that some of the Timber is charged for conveyance at rates differing from those stated in the estimate which accompanied Mr. Blane's letter to the Board of the 28th July 1848. This timber forms part of such as has been procured under previous contracts and shipped for Bombay during the years under report.-

5. Mr. Blane had proposed an Extra Establishment for superintendence at a cost of Rupees 2,160. This was not found necessary and the working of the Jungle was conducted by the fixed Conservancy Establishment in common with other forest operations.-

6. The last mentioned logs of wood were supplied for oars for the use of the Dock Yard at Bombay at the requisition of Mr. Poulter the Bombay

Government

15462 Fort St. George 13th November 1854.-

Bd. No. 2507.

Proceedings thereon.

(63-64)

No. 536.

Resolved that the foregoing letter with its Enclosure be submitted for the Orders of the Right Honorable the Governor in Council with the Board's recommendation that Sanction be granted for debiting to the Bombay Government Rupees 76824-7-9 (Seventy Six thousand eight hundred and twenty four, Annas Seven, and pice nine) incurred in Supplying Teak and Jungle wood for the Bombay Dockyard from the year 1849-50 & 1853-54.-

2. It will be seen that the Extra Establishment, proposed by Mr. Blane, for Superintendence, has not been entertained, as the working of the Jungle was conducted by the fixed conservancy Establishment.-

No. 113.

To,

B. Cunliffe Esqre.
Secretary to the
Board of Revenue
Fort St. George.

Sir,

I have the honor to report for

(65)

Bd. No. 4214.
From the Collector of Canara.-

15466 Fort St. George 13th November 1854.-

for the information of the Board of Revenue that in consequence of the retirement of the Sub Division Shere-stadar Govindaya, I have appointed Roodrapa the Tahsildar of Soopah.-

2. Roodrapa has served for 29 years in the Revenue Depart-ment, and has always been con-sidered a most efficient ac-countant. He has served in the Sub Division Cutcherry as Moonshee for

15467 Fort St. George 13th November 1854.

for many years, and in December 1851 was appointed by me to the Tahsildarship of Soopah.—

2. As Tahsildar of an extensive Talook, he has proved himself a very efficient Officer.

4. I have the honor to request the Board's confirmation of this appointment.

Collector's Cutcherry, Mangalore 30th October 1854. } (Signed) F. N. Maltby Collector

B. of R. No. 2501.

Proceedings thereon.— The Board of Revenue see no objection to the appointment of Rodrapah Tahsildar of Soopah, to the office of Sub Division Sheristadar. It was however fully competent to the Collector to have made the appointment without reference to the Board...

DBG

15468 Fort St. George 13th November 1854.

No. 127

To B. Cuniffe Esqre.

Sub Secretary to the Board of Revenue in charge.

Sir Fort St. George.

B. of R. No. 3637 (67)
From the Collector of Malabar.

I thought the Board would like to know what progress had been made in the settlement of the Betulnaad Rajah's property and desired the second Sheristadar who has been especially appointed to conduct the enquiry, to furnish me with an account of his proceedings during the last season.—

The Sheristadar's report is appended

2 The work it will be seen has turned out on actual trial to be more important and advantageous than was surmised.

3 In my letter to the Board of the 3d November 1852 No. 125 I gave reason to hope that the Government would gain about 60,000 Rupees by the resumption of rights which had hitherto been in abeyance. The gain it now appears will be nearly double that sum.

4 The careful and protracted enquiries of the 2d Sheristadar whose character for integrity and moderation secures him particular influence have led to the discovery of many cases in which the

the Government rights were unknown to or conceal-
ed from the comparatively inferior servants on whose
statement my original estimate was based.

5 The determination of the Government
to accede to my proposition of selling the land
Lord's share on the estates in question has no-
doubt induced many individuals to come forward
and allow Government rights which might otherwise
have been disputed if not kept altogether in
the dark. The certainty of an unquestionable
title has been a great incentive to an honest
and open course.—

6 The sales as hitherto conducted have
met with general approval.—

I have been on the spot myself and gave over
many of the Gardens &c. which have been disposed of.
I believe that every thing has been done in the fairest
and most public manner, and in strict accordance
with the liberal views espressed by Government
in their orders of the 19th February 1853.—

Board's Proceedings dated 7th March 1853

7. The Landlords share has always
been offered in the first instance to the actual
possessors of the ground on which it is due and

with

with a few exceptions has been readily purchased
by those possessors. Here and there a man has not
felt inclined to have any thing more to do-
with the Government lands and in these cases
alone the Government rights have been offered
for public competition.—

8 The second Sheristadar shews that
the 500 Rupees allowed for Contra Establishment
is nearly spent and urges a further sanction of
1000 Rupees. I beg that this be allowed and that
the indulgence be granted as suggested in his-
30th para of the servants drawing Battas so long
as they are bonafide engaged in any particular
locality. At present they only draw it for 10 days
under the usual rules.—

Malabar Collector's Office
Calicut.....
25th September 1854.....

/ Signed / H. V. Conolly
Collector

Encl Nil

To H. V. Conolly Esqre
Collector of Malabar
Verze of the Second Sheristadar
Chowria Ramaren.

I beg leave most respectfully to lay
before your Worship my report connected with the
disposal

Fort St. George 13th November 1857

Disposab of some of the escheated property of Government at Betutnaad in last Fusly.

2 The total property disposed of consisted of 227 gardens and 96 lands valued on the whole at 38072 Rupees as hereunder.

	Rs a p	Rs a p
227 gardens	31857-4-	
96 Lands	6217-12-	38072--
Deduct		
Portion of the value of the Trees payable to the persons by whom they were planted according to the local usage	17756-4-	
x For particulars Vide memo: marked A — x Mortgage amount	4360--	
x Sundry claims	449-8-	
		17565-12-
Balance or net amount payable to Government		20506-4-

Payable in Fusly
1263 Rs 8155-8-
1264 " 11102-4- "
1265 " 1248-8- "
Total 20506-4- "

3 Certain respites have been allowed for the payment of the aforesaid sum. This was done in consideration of the pressure of the time when the sales were made.

4 The Government will however sustain no loss whatever from the grant of this respite because the property itself is held as security for the amount and no Deeds of conveyance will

Fort St. George 13th November 1857

be executed until the full amount is paid. The purchasers have besides bound themselves to pay interest at the rate of 12 per cent per annum, in failure of payment whithin the stipulated time

5 Of the Rs 8155-8-0 shewn in the margin opposite to Para 3, Rupees 3798-2-2 was realized upto the date of this report which with a further sum of 947 Rupees on account of the portion of the escheats sold in Fusly 1262 gives a total of Rupees 4745-2-2.

6 A Balance of Rupees 3410-5-10 is still due out of the said Rupees 8155-8-0. This could not have been paid at the stipulated time owing, I regret to say, to the scarcity which has prevailed on the coast; but as this calamity has commenced to vanish thro' Divine mercy I am led to suppose that the sum in question will be forthcoming in October and November next according to assurances lately given by the purchasers to the Tahsildar.

7 If the payment be made according to their promise, I would beg that your Worship will be pleased in consideration of the disadvantages they had

From Ft. St. George 13th November 1854.

will be done

had to contend with during an unfavorable season to extend your indulgence towards them by remitting the interest.

8. Of the 227 Gardens and 96 lands which have been sold 39 of the former and 7 of the latter were newly discovered. Their aggregate value amounted to Rupees 5710 from which the mortgage amount viz. Viz. Rupees 2516 being deducted leaves to Government a net sum of Rupees 3161.

9 Most of the Gardens in Betutnaad which are situated on the sea board are very productive. It is owing to this that the abovementioned 227 Gardens occupying an area of 251/8 Cawnies and on which Rupees 207-13-9 may be leviable as Jemabogom or proprietors share fetched to Government as proprietor the sum of Rupees 1556 1-12-

† According to the rule framed in Fasly 1260

The percentage which this sum bears to the Jemabogom of Rupees 207-13-9 is Rupee 1-5-9½.

The Government share for each Cawney comes to Rupees 65-15-6 and the total value of the gardens being Rupees 31854-4- gives Rupees 126-13-6½ per Cawney.

10 Nothing in the shape of Proprietors share

From Ft. St. George 13th November 1854.

share has been hitherto enjoyed by Government on account of the lands which have now been disposed of. At the time that Tippoo commenced to fix an assessment on the lands the Betutnaad Rajah was absent, he having taken refuge in Travancore in consequence of which most of his lands were heavily assessed particularly those the soil of which was of an unproductive nature. From these causes some of the lands would not yield a higher rate than 30 Rupees per Cawney, whilst those of the better sort fetched from 80 to 140 Rupees per Cawney.

11 The 96 lands which have been sold measured 78½ Cawnies and fetched Rs a 6217-12 giving an average of Rs a p 79-3-3¼ per Cawney.

12 The valuation of the property was made by Arbitrators in accordance with the practice observed in transactions of this nature between the Hindoo Land holders but I am persuaded from the result of my inspection that

that the price was rather moderate It was fixed so in order not to disturb the posession which the holders have enjoyed for a series of years - All the property was inspected by me personally - In a few cases were I found it necessary I made some alterations in the price - Almost every day / Sundays excepted / from 6 or 6½ to 9 or 10 A.M. and in some instances 1 or 2 hours of the evening also were devoted by me for making the requisite inspection.

13 In the 5th & 6th paras of the letter addressed to the Revenue Board on the 5th December 1843 the sum payable to the holders of property on account of the mortgage claim on the whole of the escheats was stated at Rupees 1,303 as 12 ". The mortgage on a small portion which has been sold by me alone amounted to Rupees 1,360 - As this large increase seems to require some explanation I beg to subjoin the same.

Rs. a. p.
By Gardens 475-8 "
" Lands 828-4 "
1303,12 -

14 The amount specified in the said letter was taken from an account prepared in 1836 by

by an extra Gomastah Chappoo Meiron. The inaccuracy of his statement would seem to have arisen from most of the holders of property not choosing from the inferiority of his post to make their appearance at the time of his enquiry or to produce their documents.

15 The above conclusion is supported by the fact that the mortgage claim of a single individual amounts to Rupees 2074-9 as was shewn in the 7 Documents produced by him and which I forwarded for your Worship's inspection on the 25th May last.

16 It further appears that it was impossible even for the late Principal Collector Mr Warden to obtain the Documents from all the Tenants.

× In 1813 or 40 years ago

From an account made in that Gentleman's time bearing the signature of the Tookeedy Sheristadar Kelloo

Fort St. George 13th November 1854.

Helloo Coolly Nambiar and —
which was found amongst the
Huzzoor records, it appears —
that the amount claimed by
a few tenants amounted to
Rupees 21,285 — 12 as — The state-
ment exhibiting the names and
claims of each individual must
it is presumed, have been —
destroyed when the Betutnaad
Talook cutcherry was, as is —
supposed, set on fire.

17. The Hindivee accounts discovered

Fort St. George 13th November 1854.

amongst the Huzzoor Records and which were
prepared at the time of the collector,
Mr. Smee, shew that the mortgage claim —
on the property at the Packatory Village alone,
where I sold some property amounted to Rupees
1592. But this account does not embrace the
claims of all the Tenants in that Village. The
best part of the escheated property is situated
in other Umshoms. —

In 1798 or 99
35 years before

18. The accounts of Betutnaad —
Rajah, prepared by his own people, which
came into our possession are but few. The —
mortgage amount on some of the property therein
specified greatly exceeds the sum mentioned in
the letter to the Board. —

19. The above evidently shews how it
happened that the real amount of mortgage
was not mentioned in the letter which was addres-
-ed to the Board on the 5th December 1843 -

20. The exact amount, however
can only be ascertained on the conclusion of
the present enquiry. —

21 Besides the disposal of the aforesaid
property

property, some additional works were performed during my stay at Betutnaad, which will facilitate future operations they are as follows.—

Valuation

412 Gardens — 15709 " — "
265 Lands — 11228 " — "
59637 " — "

Deduct

Portion of the value of trees payable to the holders — 17243 " — "

Balance — 42393 " "

22 The property noted marginally was also appraised by the Arbitrators. To test the correctness of their valuation I inspected each property myself and fixed the price according to the result of my inspection. A short respite has been allowed to the holders of these properties to produce their Documents in support

Brought over — 42393 " " support of their mortgage and other claims. These will be disposed of immediately on my next visit to Betutnaad. About a hundred Gardens and Lands hither to not borne on any public accounts have been discovered. They are included in the above figured abstract. The profit derivable by Government therefrom can only be determined on the Conclusion of my enquiry.

225 Gardens 17778 " — "
275 Lands — 9754 " — "
27532 " — "

Deduct

Portion of the value of the Trees payable to the Holders 7962.

Balance 29170 " — "

Total 62863

23 The properties shewn in the Margin have likewise been appraised, but have not been disposed of, further enquiry appearing necessary before a final Settlement can be made respecting them. —

24 The existence and extent

extent of the mortgage and other claims brought forward by each individual cannot, as your Worship is aware, be determined without a careful enquiry. The omission of keeping accounts &c. of the Escheats for these 60 years, which would have been of great use now, renders it necessary, in almost every case to make searching enquiries of one or more parties, and to send for and refer to the Documents connected with these claims. To procure these Documents great delay takes place, as some are to be searched for and brought by the Tenants and in several instances they are only obtainable by applications to the Courts, they having been produced there as Exhibits in Civil cases at various periods.—

25 Independently of this, the rule for determining the valuation of Gardens, and the Tenants shares observed in Belutnaad is different from those obtaining in other Districts. It is not the ground but each Tree that is valued there The value of each tree is fixed with reference to

its produtive state and age, and then the Proprietor's and Tenants shares are respectively determined. A higher rate is given to the share of the former and a lower one to that of the latter, in proportion as the Trees are advanced in age, and hence it becomes necessary to inspect and classify each tree according to its age and productiveness and to have the accounts prepared with these particulars which form the basis upon which the Government and Tenants claims are fixed. This is a work which consumes much time and attention.—

26 The above causes account for a greater number of properties not having been disposed of during the last Fasly, but as preparatory measures have already been taken in respect to a large amount of the property, as shewn in paras 22. and 23, a better progress will it is expected be made in the current year.—

27 I feel bound to state that a large amount of business was performed in last Fasly, and this is owing to the assiduity with which the Establishment

Fort St. George 13th November 1854

Establishment allotted to me have conducted their duties. Even during the whole of the hot season they had to go about the Gardens and Lands to make the inspection, and I consider it therefore, incumbent on me to bring their exertions to your notice.—

From beginning of October to the end of May

28 I think that if this Establishment who have acquired sufficient experience of the business, and a few hands more be exclusively employed on this work, a speedy termination of it may be looked for. I humbly hope that your Worship will be pleased to give a favorable consideration to the exertions of those who may continue to discharge the laborious duties imposed on them in a faithful manner.—

29 Adverting to the amount of business which have to be gone through in each Umshom, it appears that the same cannot be brought to a close in 10 days

According to the tenure of the Government letter dated 9th February 1810

30 Where concealed property exists

Fort St. George 13th November 1854

exists greater delay is unavoidable as it is necessary to trace and bring them to light, I therefore venture to request, as a temporary indulgence, that your Worship will be pleased to obtain sanction for the payment of Batta to all persons employed in this business not only for 10 days but for as many days above 10 as they may be obliged to remain in each Umshom.—

According to Board's Circular order dated 1st May 1826

31 Of the 300 Rupees sanctioned for the Extra Establishment 100 Rupees has already been spent.—

32 The present state of business is quite different from what was anticipated when sanction for the said sum was applied for. The responsibility and trouble are indeed very great.—

33 I am therefore of opinion that

15485

Fort St. George 13th November 1851.

that a further sum of no less than 1000 Rupees will be necessary for the expenses of the Establishment until the conclusion of the business.—

3d. I therefore request that sanction may also be obtained for the said amount

35 It was supposed at first that the whole of the Escheated property would realize a sum of 60,000 Rupees but it appears from the results of the sales and enquiries already made that the expected amount may be reckoned at upwards of a lac of Rupees

Calicut
7th September 1851.

17

15486

Fort St. George 13th November 1851.

67-68

B. P. 2531

Proceedings thereon

No. 542.

Resolved that the letter above recorded be Submitted for the consideration and orders of the Right Honorable the Governor in Council.—

In Cons. 2 December 1852

In his report of the 3d November 1852, the Collector of Malabar showed that there remained to be settled.—

Gardens ——— 1575
Rice lands ——— 2459
Dry lands ——— 303

belonging to the Estate of the late Betutaad Rajah, and it was estimated that the sale of the Jenm right in these would realize about 60,000 Rupees—Under the Sanction of Government granted on the 19th February 1853, the Settlement

In Cons. 7th March 1853.

of the above property was begun by the Naib Sheristadar of Malabar, and successfully prosecuted under his Superintendence during the last Season—Up to the date of his report to the Collector, there had been Settled

227 Gardens
and 96 lands

which realized a sum of Rupees 38072—,

but deducting charges thereon to the extent of

Fort St. George 13th. November 1854

of Rupees 17,565 – 12, the Net amount payable to Government is Rupees 20,506 – 4. It thus appears that the Sale of the landlord's share on the whole of the escheated property is likely to realize a much larger sum than the original estimated amount.—

3 In paras 29 and 30 of the Nair Sheristadar's report he brings to notice, that the amount of business which has to be gone through in each Unshom cannot be brought to a close in 10 days, and that where concealed property exists much greater delay is unavoidable – Under these circumstances he requests that batta may be allowed to all persons employed in the work for the number of days they may be bonâ fide engaged in any particular locality, and that a further sum of Rs. 1000 may be sanctioned on account of Extra establishments, the 600 Rupees already granted being nearly spent.—

4 Considering the successful manner in which the duty entrusted to the Nair Sheristadar has been executed, and the Amount of labour involved therein, the Board would support the recommendation

Fort St. George 13th. November 1854

of the Collector that Sanction might be granted for the additional expenditure solicited by the Nair Sheristadar – both in regard to batta and extra Servants.—

Acting Collector of Madras

Sir,

1 With reference to measures adopted for the conveyance from Ennore to Madras of the 1,400 Indian Maunds of Salt to be shipped per "Scotia" and to Messrs Bambridge & Co's assent to pay the Charges incurred for bringing the same to the Madras Beach, I have the honor, with reference to your ex Official Memo, of the 3d April 1854, to request orders whether the usual weighing and Shipping charges which would have been incurred (if this presumed at the cost of Government if the Vessel had been at Ennore) and would have amounted to Rupees 59 – 8 – 4 as follows

	Rs	as	P
Four Boats for going and returning same day to and from Ennore at 3/0	14	4	"
Twenty four trips at 1/7	34	8	"
Batta for Boatmen for 1 Day	2	12	"
Hire for Shipping G. m. P. 11 – 266 – 5¼ at 6 annas per Garce	4	6	"
for weighing Do. at 5 annas per Garce	3	10	4
	59	8	4

Fort St. George 13th November 1854

is to be deducted from the Amount Total of charges that will be undergone on this account for bringing the Salt by the Canal to the Basin and from thence on Board the Ship "Scotia".—

2 The charges by the Canal and Shipment from Madras will be

		Rs	as	P
Boat hire for conveying 11 – 266 – 5¼ at 1/8 Rs as per Garce		17	8	"
Canal Toll on the same quantity at 2¼ Rupees		26	4	"
Hire for unloading Boats and lading Carts at 8 annas per Garce		3	13	4
Bandy hire for conveying the Salt to the Beach at 2 Rs per Garce		23	5	4
Twenty four trips at 1/8 as each to the "Scotia" in Madras Roads		36	"	"
To 565 New Bags supplied by the Circar, those of Messrs Bambridge & Co being insufficient at 19/8 per 100		110	2	10
		219	1	6

× Note This charge need not be paid for, if the Bags are returned.—

Or whether the entire amount of Rupees 219 – 1 – 6 is to be reconvered with the first menteoned

15495 Fort St. George 13th November 1854

Rs. 59—8—4
Ds. 34—8—0
28—0—4
219—1—6
244—1—10

mentioned sum of Rupees 59—8—4 deducting the charge for Twenty four Trips Rs. 34-8-0 charged for in both accounts? This would then make the Total charges Rs. 244—1—10 as recoverable from Messrs Bainbridge & Co.—

Supt of Salt.—

Proceedings thereon

(73-74)

The Acting Collector is requested to adjust his accounts with Messrs Bainbridge & Co upon the following principle.—

1st The Charges relating to the weighing and Shipment of Salt (such as would even have been incurred by Government if the Salt had been shipped at Ennore) to be charged to Government.—

2d All expenses of conveying the Salt from Ennore to Madras (and which would have been saved had the Salt been shipped at Ennore) to be debited to Messrs Bainbridge & Co.—

2. The Original Enclosure will be returned herewith, as requested, but the Acting Collector will be so good as to forward

15496 Fort St. George 15th November 1854

forward in future copies of such original documents as he may wish to preserve on his Records.—

From the Ag. Collector of Madras --

Sir I have the honor to request the Board's Orders on an application received to day from Venket Reddy of which Copy is forwarded, to be allowed to take in Salt as ballast at Madras in two Vessels to be filled up at Ennore, to which I am not aware of any objection, provided the Superintendent can effectually watch the Salt on its transit from the Stores to the boats. I am not aware that any similar application has been made heretofore.—

To,

H. Stokes Esqre

Acting Collector of Madras.

Sir,

I humbly beg to inform your honor I have engaged two Vessels here to Export the remaining Mds of Salt at Emore, but as they could not proceed towards the port in question without having on each board the weight of 200 Tons for ballast, being required to go against the wind I earnestly request that if you will be so good as to grant me the indulgence required from the Madras Catours to Keep the Vessels steady, I will not only cause the rest to be exported from Emore, but also undergo the Charges of the Cart here &c. here provided the Government defray the Ordinary Charges attending upon them

B. No. 4278.
From the Government Pleader

Sir,

I have the honor to forward you Copy of an order passed by the Court of Sudder Udalut on the 19th October in the matter of S. Mis: Petition No. 225.-

Upon receiving your letter of the 9th October, I put in the accompanying Petition, and attended in Court when the case was posted for

Fort St. George 13th. November 1854.

for hearing, but the Judges being satisfied with the case as stated in the Petition, passed their order without calling upon me for further argument.-

Madras 8th November 1854.

(Signed) J. B. Norton.
Government Pleader.

No. 1.

To,
The Judges of the Court of Sudder Udalut.

The respectful Petition presented by J. B. Norton Esqr. the Government Pleader on behalf of H. Hood Esqr. Collector of Guntoor.

Sheweth,

That your Petitioner being dissatisfied with the Decision of this Honorable Court on his M. P. No. 122 of 1853 passed on the 12th September in that year, prays this Honorable Court to reconsider its Judgment, as it is one of the general character and importance, materially affecting the Government's Security for the whole land Revenue of the Country.

That if the decision in question be

Fort St. George 13th. November 1854.

correct, it is in the favor of any fraudulent Ryot in collusion with a third party at any time to deprive the Government of all the portion of its revenue, which is not "in arrears" at the time of the sale under a Decree of Court, so that where, upon a fictitious claim which has been allowed to go ex parte by a Ryot in a Suit against him by a fraudulent and not bonafide Creditor, the Government being no party to such Suit, and utterly incapable of protecting its rights, the produce of land is ordered to be sold under a Decree of Court, the Government must, if the reasoning upon which the Decision referred to be correct, lose its lien upon such produce, so far as it concerns all rent not already "in arrears," and thus a premium is offered to the expedition with which fraudulent and fictitious claims can be pushed forward through the Courts, since in proportion to such expedition will be the amount of the Government Security for its revenue, which and fictitious Creditor will be able to sweep off with impunity.

That this Honorable Court has treated the case before it, as though the original

original application had been on behalf of the Government to sell a portion of the produce, and as though the question had been, what portion of produce the Government was entitled to sell, in which case your Petitioner admits that under Section 17 of Regulation 28 of 1802 so much only could have been sold as would be "sufficient" to make good the arrear of rent or revenue due by the Ryot to the Government, and that this Honorable Court would have been correct in referring to Section 2, Clause 2 of Regulation 27 of 1802, to ascertain and fix what the Legislature had declared should constitute "An arrear of revenue".

But in the present case, your Petitioner's application to the Court below was of a very different character. He had originated proceedings in that Court; he had not distrained nor attached the produce; but a decree having been passed in favour of a Creditor of the Ryot for the sale of such produce, your Petitioner stepped in to claim the benefit of that lien which the Law by Section 14 of

Regulation 28 of 1802 gives him on such produce, which is emphatically declared to be "the undoubted right of the owner of the land to consider as mortgaged to him for the rent" (not the arrears of rent) "of the land in the first instance".

The Government therefore is the mortgagee of such produce for its rent, and stands precisely in the position of any other mortgagee, and your Petitioner confidently submits that where a subsequent mortgagee or other Creditor obtains a Decree of sale against the property of the Mortgagor, he can only have the advantage of such sale subject to the rights of the 1st Mortgagee. If the produce be not sufficient or only sufficient to cover the claim of the 1st Mortgagee, he will take the whole; only if it be more than sufficient for such purpose, will the 2d Mortgagee or other execution Creditor come in for the surplus, after payment of the 1st Mortgagee's claim, and it was therefore the undoubted right of your Petitioner, as he respectfully submits, to stop the

the sale or to act for a release of such portion as will cover his interests, or to enquire that so far as his lien extended the proceedings of every sale should be applied in the 1st. instance in liquidation of his claims-

Nothing turns on the present case upon what shall constitute an "arrear of rent of revenue" as your Petitioner submits; if the above view of the case be the correct one, but he would submit that the present claim of him is not only founded on a positive enactment but has the prolification of commercial usage,- The "landed estate" which this Honorable Court has ruled by its Proceedings held on 13th. June 1853 to mean "the land and its produce" is pronounced by clause 1 Section 6 Regulation 27 of 1802 to the Security of the public Revenue Clause 2 of Section 2 of the same Regulation does not profess to fix what constitutes the demand of Government, but after what period of delay an undischarged demand may be considered in arrears, making the defaulter

defaulter liable to the attachment of his property- The point now to be decided is, not when a Ryot may be considered in arrears, but what is the total demand of Revenue against him- The Government may have a legal demand against a person taking up land for cultivation, and yet they may not be authorized to attach his property till a certain period of non-payment has elapsed; but the specification of this period does not define the actual demand of the Government-

A Ryot takes a puttah for a year, and there can, your Petitioner submits, be no doubt, but that he thereby renders himself liable for the whole annual rent, nor can he get rid of such liability by throwing up his land during any portion of such year- It is the simple case of two parties to a contract whereby in consideration of a payment of a certain sum by **B** to A. A lets his land to **B** for one year. No act of one only of such contracting parties can alter the contract, and although he should throw up his land after a single day, he would

would still be liable for the entire sum which he contracted to pay since the breach of contract is solely on his side.

The Money rent payable to the Government represents that portion of the produce which the Government is entitled immediately on the crop being reaped; and though Government has allowed land holders to pay this commuted money rent by Kists or instalments, and has passed laws securing their private property from distraint, while the instalments are regularly paid, the rent of the year does not thereby cease to constitute a sum actually due to Government; nor has Government given up its "undoubted right" to hold the crop or produce of the land as mortgaged to it for the payment of the public Revenue in the first instance. Thus after a Money rent had been introduced, it was the general custom not to permit land holders to remove their crops until they had given Security or made arrangements for the prospective payment of the grain revenue; and

although this practice may have been relaxed for the relief of the Ryot, it is still followed whenever the circumstances or character of the land holder render the precaution necessary; nor so far as your Petitioner is aware, has the legality of such a course ever been questioned in any Court of Law.

Thus your Petitioner has endeavoured to shew what constitutes the Government demand, and as the produce is expressly made liable as security for the whole of such demand by Section 17 of Regulation 28 of 1802, your Petitioner respectfully prays this Honorable Court to reconsider its Judgment and modify the same as the circumstances of the case may render expedient and just, and he prays to be heard by his Council.-

19th October 1854.-

Read again Miscellaneous Petition presented on the 28th July 1853, by J. B. Norton Esqr. Government Vakeel on behalf of A. Purvis Esqr. Acting Collector of Guntoor.-

(Here enter S. M. P. No. 255 of 1853.)

Read gain also return under date the 20th September 1853, from the Civil Judge of Guntoor to the Precept of the S. U. dated the 12th September 1853, conveying their orders in the foregoing Petition.-

(Here enter S. U. No. 1957 of 1853.)

Read again also return under date the 17th October 1853 from the Civil Judge of Guntoor to the Precept of the S. U. dated the 12th October 1853, directing the Civil Judge to carry out the orders conveyed in their Proceedings of the 12th October 1853.-

(Here enter S. U. No. 2118 of 1853.)

Read also Miscellaneous Petition presented on the 14th September 1854, by J. B. Norton Esqr. Government Vakeel, on behalf of the Acting Collector of

Fort St. George 13th November 1854.

of Guntoor.-

(Here enter S. M. P. No. 410 1854)

On consideration of the arguments advanced by the Government Vakeel in the foregoing Petitions, the Court of Sudder Udalut see no reason to modify their order of the 12th September 1853, in so far as to declare that the crop of a Ryot or tenant brought to sale in satisfaction of a decree of Court is liable in the first instance for the full liquidation of the rent or revenue due in the Court according the terms of the Puttah upon which it is held, and not merely for the arrears of kist due up to the date of sale.

1.

The right of the Collector to distrain and sell only esctends to arrears of kist, but the lein on the crop holds good to the full amount of the annual rent.

2.

Ordered that Esctract from these Proceedings be sent to the Civil Judge of Guntoor, for his information.-

Ordered also that Esctract from these Proceedings be granted to the Petitioners.

From E. Balfour Esquire.

Gentlemen,

I have the honor, by desire of the Right Honorable the President and Members of the Committee for the Madras Exhibition, to annex copy of a resolution of this date, by which you will observe that it is proposed to form a collection of all the works, in all languages, which have been published in the Madras Presidency or in the neighbouring states of the French and Portuguese Possessions of Mysore, Tanjore Cochin, Travancore, Hyderabad and Nagpore.-

The Right Honorable the President and Members of the Committee believe that such a collection will be interesting

Fort St. George 13th November 1854

interesting to all and I am therefore requested to solicit you to aid the Committee by presenting or disposing of to them, or by sending for exhibition copies of all the works, in any language which yourself or the Societies and Associations that you belong to may have published. From the very short time remaining for gathering in Copies of all the works that have been published in Southern India, (for the Exhibition is to open on the 20th February next) it has been deemed advisable, to apply direct to all acquainted with the literature of the Country, in the hope of securing such a collection as will do credit to the Exhibitors and it may facilitate the transmission to me of your consignment, if I mention that all letters, parcels &c. to my address are received free by the letter and bangky posts.
