Read the following letter from E. Maltby Esqre Member of the Board of Revenue
Here inter 21st November 1851 No 2803
Para 1. From the above letter from Mr Maltby it would appear that his late enquiry into the assessment of

Fort St. George 7th March 1855.

Collr of Bellary regarding the Goollem reduction and within what period their own report will be laid before Government.

of the lands in the Goollem Talook and in other parts of the Bellary District has led him to the conclusion that the land tax on some at least of the lands dry, wet, and garden, is excessive and will require to be reduced. The Collector it is stated has to furnish some additional details which he is now preparing under instructions sent him by the Board of Revenue in their Proceedings of 31st August last Mr Maltby would defer giving any definite opinion as to the extent to which the reduction on the over assessed lands is to be carried until he has before him these statements but he says that he has brought to the collector's notice the importance of giving the subject his early consideration, and that on his report being received, the Board will be anxious to guard against any avoidable delay.

The Right Honorable the Governor in Council observes that the fact of some of the lands in Bellary being overassessed has now been placed beyond doubt by Mr Maltbys' recent visit and that it is the desire of the Honorable court of Directors as expressed in their Despatch of 2. June 1852, Para 10. that in such instances immediate relief should be afforded, the collector being directed to suspend the levy of excessive demands pending

Boards C.O. Supplement Pages 113. 114.

Extract from the Minutes of Consultation in the Judicial Department Under date the 9th February 1855.

Read the following letter from the Member of the Legislative Council for the Madras Presidency. —

No. 1.

Extract from a letter from the Honorable Mr. Elliot, Member of the Legislative Council for the Madras Presidency, dated 25th January 1855.

Para 4 Take this opportunity to transmit for the information of your Lordship in Council, Copy of a Bill for the establishment and maintenance of Boundary marks in the Presidency of Fort St. George, which was read a first time on the 13th instant with a printed Copy of the Statement of objects and reasons which accompanied it, and of the papers thereto annexed. —

5. It will be observed that the 4th Section differs from the Draft sent to me by providing that the costs shall be charged upon the revenue of the Village instead of being apportioned among

Fort St. George 1st March 1855.

among the ryots of the Village in proportion to their puttahs. This alteration has been made to obviate an objection which I anticipated. I have not altered the provision in the same words in the 5th Section, because I think that there will be no objection to holding the Ryots answerable generally in the case provided for.

6. In the case of a person fined by a Magistrate under Section 5 of the Bill it will be at the discretion of the Magistrate to commit the party to prison with or without labor in default of payment under Act III of 1839.

7. In the 6th Section, I have limited the penalty to a fine apprehending that objection would be taken to investing a Revenue Officer with power to imprison with labor in such a case.

8. The second reading of this Bill is to be moved on Saturday the 27th Instant.

Secretary to Government.

No 2.

Bill

For

The establishment and maintenance of Boundary

Fort St. George 1st March 1855.

Boundary marks in the Presidency of Fort St. George

When as it is desirable with a view to the better definition and security of landed property the prevention of encroachments and disputes, and the identification of lands assessed to or exempted from the public revenue in the Presidency of Fort St. George that provision should be made for the establishment and maintenance of permanent marks to distinguish the boundaries of fields, holdings, estates and Villages; It is enacted as follows.

It shall be lawful for Collectors of Land Revenue, or persons exercising the powers of Collector or such other Officers as the Government may appoint for the purpose to fix the boundaries of fields, holdings, estates or villages, and to require that marks be formed and maintained by the owners or occupants on the boundaries of such materials, and in such number and manner as may appear to such officers sufficient for distinguishing the limits of such field, holding, estate or villages whenever they may be of opinion that such demarcation is necessary for the prevention or adjustment of disputes.

Notices

II. Notice shall be served on the persons owning or occupying the contermineous fields, holdings, or states, or villages, requiring them to form or repair such boundary marks within ten days from the date of the notice, and in the event of these persons not being found in their villages, the said requisition shall be posted in a conspicuous place in the village which shall be held to be a sufficient service notwithstanding it may afterwards appear that the owners or occupants were not correctly named or designated in the said notice.

III. In default of the owners or occupants of the fields holdings, states or villages complying with such requisition the said Officers may give directions for the erection and repair of such boundary-marks, and may order the costs to be equitably apportioned on the fields, holdings estates or villages which they serve to distinguish and the same shall be charged to the persons possessing a right of ownership or occupancy in such fields holdings, states, or villages, and shall be levied in the same manner as

as arrears of Land Revenue.

IV. In the case of unoccupied fields, of which the ownership is not at the time claimed, the costs shall be charged upon the revenue of the village in which the fields are situated, and no person subsequently claiming a right of ownership or occupancy in such fields shall have possession of the same, until he makes good the costs so charged on account thereof.

V. Any person convicted before a Magistrate of wilfully and without lawful excuse erasing, removing or injuring such boundary marks, or any Survey-marks fixed by an officer of Government with a view to the ascertainment of boundaries, shall be liable to a fine not exceeding Fifty Rupees for each mark so erased, removed or injured, one half of which fine may be awarded to the informer, and the other half shall be chargeable with the cost of restoring the mark. Whenever it may not be possible to detect the person who erased, removed or injured such boundary or Survey marks as aforesaid, or the party who-

who may have been convicted if such offender is unable to pay the fine awarded against him, the Collector or other Officer authorized in that behalf may order the costs of erecting or repairing the marks to be charged to the owners or occupants of the adjacent lands or apportioned among the ryots of the village in proportion to their puttahs, as he may consider just and equitable and such costs shall be levied in the same manner as arrears of land revenue.

VI Any occupant or owner of land refusing or failing to attend when summoned by the Collector or other Officer authorized by Government, as the measurement and demarcation of his field, holding, estate, or of the village boundary in general shall be liable to a fine not exceeding Fifty Rupees by order of the Collector or other such officer, which fine shall be leviable by the same process as an arrear of land revenue.

VII. The proceedings of Officers imposing charges under Section III and V or fines under Section VI of this Act shall be

be recorded in writing and shall be subject to appeal to the Revenue authorities to whom they are subordinate.

No. 2.

Statement of objects and Reasons.

Provision has been made by Acts III of 1846 and I of 1847 for the establishment and maintenance of boundary-marks in the Presidency of Bombay and the North Western Provinces respectively. The Bill now submitted is intended to provide for the same object in the Presidency of Madras. A Survey is now in progress in a part of that Presidency which will probably be extended to other parts. One of the objects of the Survey is to determine the boundaries of fields and holdings consisting of several fields and larger estates, and the boundaries of Villages. It is of great importance to provide for the establishment and maintenance of permanent marks to denote the boundaries so determined.

The provisions for this object are contained in the 2d 3d and 4th Sections of the Bill. The 5th Section provides for the punishment of persons removing or injuring such boundary marks as are set up by the Survey.

who may have been convicted if such offender is unable to pay the fine awarded against him the Collector or other Officer authorized in that behalf may order the costs of erecting or repairing the marks to be charged to the owners or occupants of the adjacent lands or apportioned among the ryots of the village in proportion to their puttahs, as he may consider just and equitable and such costs shall be levied in the same manner as arrears of land revenue.

VI

Any occupant or owner of land refusing or failing to attend when summoned by the Collector or other Officer authorized by Government, as the measurement and demarcation of his field, holding, estate, or of the village boundary in general shall be liable to a fine not exceeding Fifty Rupees by order of the Collector or other such officer which fine shall be leviable by the same process as an arrear of land revenue.

VII.

The proceedings of Officers imposing charges under Section III and V or fines under Section VI of this Act shall be

be recorded in writing and shall be subject to appeal to the Revenue authorities to whom they are subordinate.

No. 2.

Statement of objects and Reasons.

Provision has been made by Acts III of 1846 and I of 1847 for the establishment and maintenance of boundary marks in the Presidency of Bombay and the North Western Provinces respectively. The Bill now submitted is intended to provide for the same object in the Presidency of Madras. A Land Survey is now in progress in a part of that Presidency which will probably be extended to other parts. One of the objects of the Survey is to determine the boundaries of fields and holdings consisting of several fields and larger estates, and the boundaries of Villages. It is of great importance to provide for the establishment and maintenance of permanent marks to denote the boundaries so determined.

The provisions for this object are contained in the 2d 3d and 4th Sections of the Bill. The 5th Section provides for the punishment of persons removing or injuring such boundary marks and also

Survey

Fort St. George 1st March 1855.

Survey marks, that is marks set up in the course of the Survey with a view to the ascertainment of boundaries, or left fixed to serve as tests of the correctness of the boundary marks. It has been found that the ryots are prone to disturb the Survey operations by removing the temporary marks set up by the Surveyors to guide them in their work, a practice which it is necessary to check. The preservation of the permanent Survey marks by which the correctness of the boundary marks may be at any time tested, is obviously of much importance.

The Sixth Section is intended to enforce the attendance of the owners or occupants of land on the occasion of the definition of their boundaries, which is very necessary for the prevention of future disputes. In the Draft transmitted from Madras, it was proposed to empower the Collector to award imprisonment for one Month instead of a fine, as allowed by Section V. Regulation III of 1831, in the case of ryots refusing to attend at the annual Settlement

Fort St. George 1st March 1855.

-lement of revenue. I have thought it expedient -able to omit the alternative penalty.

(Signed) D. Elliott.

No. 1515. Revenue Department.

Extract from the Minutes of Consultation of the Madras Government, under date the 21st November, 1854.

Read the following letter from the Sub Secretary to the Board of Revenue

(Here enter 23d October 1854, No. 506)

In their letter of the 27th February last, on the subject of the Survey now in progress in the District of South Arcot, the Board of Revenue drew attention to the measures requisite for the establishment and maintenance of boundaries, field and village, and recommended the adoption for this Presidency of an Enactment similar to Act III of 1846 or Act I of 1847, and this Government in reply (Extract Minutes of Consultation 3d July 1854, para 9) desired the Board to submit a Draft, which they have accordingly done with their letter of the 23d Ultimo, above recorded.

Para 20.

2. The Draft prepared by the Board follows.

follows closely the two Acts to which they had
referred. It however applies not only to the boun-
daries and boundary marks of "fields, holdings, estates,
or Villages," but to "marks used in surveying
erected under the orders of Government Officers."

Section VII It further contains a provision for
enforcing the attendance of "ryots or proprietors
of land at the measurement or demarkation of
their fields, holdings, estates, or of the Village
boundary in general."-

3. It does not appear to Government
that many remarks are called for on the Board's
Draft, which seems generally well suited to
its purpose. It is however observed, that
Sections V and VII of it both provide for
the punishment of persons convicted of
wilfully erasing, removing or injuring boundary or
survey marks. The first of these two sections,
taken from Section IV, Act I of 1847, appears
to apply to such offences committed by the owners
or occupants of the fields or holdings whose
boundary marks may have been injured or
removed; the second, not taken from either

Act

Act to such Offences committed by parties not
being proprietors of or holding puttahs for such
fields &c. It does not appear to Government
why this distinction should be made. Again
it is not specified in Section V before what
authority the conviction is to be - in Section
VIII it is to be before a Magistrate - nor what
is to be done if the party convicted be unable to
pay his fine. In Section VIII it is commutable
to imprisonment, with labor for a period not
exceeding fifteen days. Moreover, the provision
contained in the concluding clause of Section V
"wherever it may not be possible to detect the
"person who erased, removed or injured the boundary
"marks as aforesaid, the marks shall be
"re-erected or repaired at the charge of one or
"both parties, as the Collector or other Officer authorized
"to make the demarcation may consider just and
"equitable" applies well enough to the object
aimed at by the Act from which it was taken;
viz. the preservation of the boundary marks
of Contermineous fields, but not to that of survey
marks which is an addition to the Section
as.

as it is an Act I of 1847. It appears to Govern=
=ment that these two Sections V and VIII
may with advantage be recast and thrown
into one, and they have therefore drafted
a revised paragraph to be substituted for them.

4. By Section VII taken from section
VI Act III of 1846, authority for the assessment
and realization of all sums due under the pro=
=visions of the Act is to be vested in the Revenue
Officers authorized to provide for the
erection and maintenance of field boundary
marks, whose proceedings are to be subject to
appeal to the Revenue authorities to whom they
are subordinated. This provision would seem
applicable only to the realization of sums due
for the expense of erecting, repairing or restoring
boundary marks, not to the recovery of the penalties
awardable under Sections V and VIII or under
the revised Section V, such penalties would
naturally be recovered under the
usual process by the authority by e
whom they are imposed, viz. the
Magistrate. The Government have inserted
some words to this effect in the Section.

With

5. With these modifications the
Government approve the Board's Draft,
and they resolve to forward it thus revi=
=vised to the Member of the Legisla=
=tive Council for the Madras Presidency
that it may be laid before the Council

(A true Extract)
(Signed) T. Pycroft
Secretary to Government

Draft Act for the establishment
of boundary marks in
the Presidency of Fort St. George.

Whereas it is desirable, with a
view to the better definition and security
of landed property, the prevention of en=
=croachments and disputes, and the identi=
=fication of lands assessed for or exempted from the
public revenue, that provision should be made
for the proper demarcation of occupances and
and properties in the Presidency of Fort
St. George, and for the establishment and maintenance
of permanent marks to distinguish the boundaries
of fields, holdings, estates, or villages.—

It is hereby enacted that it shall be
lawful within the Territories subject to the Presidency
of Fort St. George, for Collectors of Land Revenue
or

or persons exercising the powers of Collector, or such other Officers as the Government may entrust with that authority to fix the boundaries of fields, holdings, estates, or villages, and to require that marks be formed and maintained by the owners or occupants on the boundaries of such materials and in such number and manner as may appear to such Officers sufficient for distinguishing the limits of such fields, holdings, estates or villages whenever they may be of opinion that such demarcation is necessary for the prevention or adjustment of disputes.-

II And it is hereby enacted that notices shall be served on the persons owning or occupying the conterminous fields, holdings, estates, or Villages requiring them to form or repair the said boundary marks within ten days from the date of the notice, and in the event of those persons not being found in the Village, that the said requisition shall be posted in a conspicuous place in the village, which shall be held to be a sufficient service, notwithstanding it may afterwards appear that the owners or occupants were not correctly named or

or designated in the said notice.-

III And it is hereby enacted that in default of the owners or occupants of the fields, holdings, estates, or Villages, complying with the requisition, the said Revenue Officer shall give directions for the erection and repair of such boundary marks, the cost of which shall be equitably apportioned on the fields, holdings, estates, or Villages which they serve to distinguish and shall be charged to the persons possessing a right of ownership or occupancy in such fields, holdings, estates, or Villages, and shall be realized in the same manner as arrears of Land Revenue, and if no owners or occupants shall be forthcoming the cost shall be apportioned among the ryots of the Village in proportion to their puttahs.-

IV And it is hereby enacted that no person being out of possession and claiming a right of ownership or occupancy in fields the cost of erecting or maintaining whose boundary marks has been charged to the ryots of the Village in consequence of his neglecting to defray the same, shall have his claim allowed until he marks good all sums so charged. And

V And it is hereby enacted that any person who may wilfully erase, remove or injure boundary marks or marks used in surveying, erected under the orders of Government Officers, shall on conviction before a Magistrate, be liable to fine not exceeding Fifty Rupees for each mark so erased removed or injured one half of which fine may be awarded to the informer and the other half shall be chargeable with the cost of restoring the mark; every such fine in the event of non-payment being commutable to imprisonment with or without hard labor, for a period not exceeding fifteen days. Whenever it may not be possible to detect the person who erased, removed, or injured, the boundary or Survey marks as aforesaid, or the party who may have been convicted of such offence is unable to pay the fine awarded against him, the marks shall be erected or repaired at the Charge of the owners or occupants of the lands adjacent to such boundary mark or Survey mark, or the cost shall be apportioned among the ryots of the Village in proportion to their puttahs as the Collector or

Officer authorized in that behalf may consider just and equitable.

VI Any ryot or proprietor of land refusing to attend when summoned by the Collector or other Officer authorized by Government at the measurement and demarcation of his field, holding, estate, or the Village boundary in general, shall be liable to a fine not exceeding 50 Rupees or one Month's imprisonment with or without hard labor at the option of the Collector.

VII And it is hereby enacted that authority for the assessment and realization of all sums due under the provisions of this Act, excepting only the fines awarded under Section V, which shall be recoverable by whom they may have been imposed, under the usual process by the Magistrate shall be vested in the Revenue Officers authorized to provide for the erection and maintenance of field boundaries by them in conformity with the rules prescribed for the assessment and realization of Revenue demands in general, and that the proceedings of the Revenue Officers shall be

3166 Fort St. George 1th March 1855.

be recorded in writing, and shall be subject to appeal to the Revenue Authorities to whom they are subordinate.-

(Signed) T. Pycroft.
Secretary to Government

Para 3. Ordered also that Copy of paras 4 to 8. of Mr. Elliot's letter with the printed annexure on the Bill for the establishment and maintenance of Boundary marks in the Presidency of Fort St. George, the latter to be returned, be furnished to the Board of Revenue, who will lay before Government, at an early date, any remarks that it may occur to them to make on Mr. Elliot's Draft Bill.-

7

B2 No. 490

From the Secy to Govt.

Forwarding communication from the Honorable D. Elliot Esqre and requesting the Board's opinion upon the several points therein noticed in submitting their remarks upon the draft Act for the Establishment and maintenance of boundary marks in the Presidency of Fort St. George.

No. 135.

Extract from the Minutes of Consultation in the Judicial Department under date the 19th February 1855.

Read the following letter from the Honorable D. Elliot Esqre

No. 1.

To The Right Honorable Lord Harris
Governor in Council
Fort St. George.

My Lord-

With reference to my letter of the 25th Ultimo I have now the honor to state that the Bill relating to Boundary Marks was read a second time without discussion on Friday the 2nd Instant But though no demur was made to any part of the Bill on that occasion, notice was given to me that exception would be taken to the 4th Section when the Bill should come to be considered in a Committee of the whole Council Your Lordship in Council will be aware from my letter of the alteration which I made in that Section to obviate an anticipated objection. The objection made to the Section as it stands I believe

I believe is that it is impolitic to oppose any impediment to the reoccupation of lands which have fallen out of Cultivation; and I am rather inclined to yield to the objection tent I wish to be favored with the opinion of Government on the point. It is not unlikely that exception will be taken also to the provision of Section 5 for apportioning the cost of restoring boundary marks erased, removed or injured among the Ryots of the Village. As at present advised, I think this provision should be maintained tent I shall be glad to know the opinion of your Lordship in Council.—

It has been suggested to me that there should be a Section indicating how disputed boundaries are to be fixed, as in Section 5 Act I of 1847. I presume that disputes that may arise regarding boundaries in the course of a Survey as generally will be referred to Punchayets under Regulation XII of 1816 I observe that the Madras Government in answer to a reference made to it by the Government of India in 1841 upon a proposed act for authoritatively defining the boundaries of Villages, settling disputes and preventing their recurrence expressed an

† To Govt. of India 19th April 1841.

an opinion in concurrence with the Sudder Court and Board of Revenue that the object was already attainable by the Regulations in force in that Presidency and that no separate law was required for the purpose The Regulations referred to are not particularly cited tent I presume that Regulation XII of 1816 as partially extended by Regulation V of 1822 was meant.

I was called upon by the Government of India to report upon the Draft Act above referred to, and as in my report I took occasion to point out some defects in Regulation XII of 1816 which, I thought, rendered it less effectual than it ought to be, I take leave to submit a Copy of it to your Lordship in Council.

If your Lordship in Council shall think it advisable to introduce into the Bill some notice of the manner in which disputed boundaries are to be fixed, which I would recommend, it may be well to take the opportunity to amend Regulation XII of 1816. If it shall be determined to add a new Section to the Bill for this purpose I beg to be favored with a Draft of the Section proposed to be inserted.—

Calcutta 7th February 1855

(Signed) D. Elliot
Member of the Legislative Council

Fort St. George 1st March 1855.

No 1 in Encls. 1.

To

T. H. Braddock Esqre

Secretary to the Government of India
Legislative Department.

Sir. Agreeably to the requisition conveyed in your letter of the 2nd received on the 14th Instant I have the honor to submit the observations that have occurred to me on the Draft of an Act proposed by the Government of Bombay for authoritatively defining the boundaries of Villages settling boundary disputes and preventing their recurrence which I have considered particularly with reference to the Presidency of Madras, as I conceive was intended.—

The proposed Act I observe is meant to be substituted for Regulation X of 1827. of the Bombay Code by which the Governor in Council is authorized "Whenever a Revenue Survey is undertaken in a Zillah or any part of the same" to appoint a Commission for hearing and deciding disputes between Villages regarding their boundaries "This Regulation it appears has been found inconvenient in practice; and one object of the proposed Act

Fort St. George 1st March 1855.

Act is to make a better provision for the settlement of such disputes during a Survey Another object and a most important one is to make a provision "for authoritatively fixing and marking all village boundaries during a Survey so as to guard against disputes arising in future" It is further contemplated that the Act shall be "applied to the settlement of disputes where no Survey is in progress" But this is a secondary purpose and the Act may be considered as designed primarily to serve for the settlement of boundaries in Districts where Surveys are in progress. This indeed is not indicated by the terms in which the Act is drawn, but it is plainly expressed in the correspondence which accompanies the Draft. And such being clearly the intention, it may be remarked as somewhat strange that there is no reference to a Survey in any part of the Draft.—

It appears to have been understood by the Revenue Commissioner at Bombay who prepared the Draft, that the Regulations under which the settlement of the N.W. Provinces is conducted provided for the conclusive determination of the boundaries of all the Villages that are brought under the

Para 2 letter from the Revenue Commr. Enclosure No 8 in the letter from the Chief Secretary to Government dated 28th May 1841

Fort St. George 1st March 1855.

the Survey as well when not disputed as when disputed. I cant I apprehend that it is only where there is a dispute at the time of the Survey and a settlement is made by means of arbitrators or a Punchayet, that the boundaries defined according to such settlement are held to bee determined conclusively; and that in other cases the boundaries described in the Survey Records and marked off accordingly are open to question at the suit of any dissatisfied party, though they must be observed until altered by the decision of such Court.

It would seem however that they are generally laid down at first with such accuracy that when the settling Officer comes to mark them off he finds that "half the disputes are anticipated and prevented, and another portion stifled in their birth."

Despatch of the Governor General to the Court of Directors 18th August 1858 Para. 11

In the Madras Code there is no provision giving an authoritative sanction to the Survey Records of the boundaries of Villages even temporarily. But it was a main object in all the Surveys to ascertain and define the boundaries not only of Villages but of fields and special instructions were given for the guidance of the Surveyors when they found them to be disputed.

The

Fort St. George 1st March 1855.

The boundaries finally settled were carefully marked off and precisely described in the Survey record. And though wanting a legal sanction, it is stated by the Board of Revenue that "in the Ceded Districts in the two Arcots in Coimbatore and in Salem, the accounts of the Survey in all cases of boundary disputes disputed Enams &c. are on all occasions appealed to even by Courts of Judicature, and are considered decisive."

I entirely agree with the Bombay authorities that it is an object of very great importance to give an authoritative sanction by Law to the boundaries of Villages settled at a Survey with the view of preventing future litigation regarding them. But in general it is only a small proportion of the Villages of a District the boundaries of which are disputed. And with respect to the rest, it appears to me to be quite unnecessary to appoint a special Commission, as proposed in the Draft for formally defining and recording boundaries which are not disputed. It should be the established order that the boundaries should be traced out by the Surveyors in concert with the parties concerned in both sides, and it would then be sufficient I conceive, to prescribe by

by law that the lines defined by them accordingly having been duly published in the contermin- Villages for a certain time and no objections having been made within that time they should be recorded as the true boundaries, and no exception to them should be after- wards allowed. I think that the Officer conduct- ing the Survey whether he be a scientific Officer with a separate establishment, as in the Bombay Presidency and in the N.W. Provinces, or the Collector of the District as in the Madras Presidency, should be charged ex officio with the duty of making the record of the Survey complete in this respect and of fixing the necessary landmark either in person or by subordinate Officers under his discretion.—

It is proposed in the Draft that the Commission to be appointed for the purposes stated in it shall consist of <u>one or more</u> members. It was originally proposed that it should consist of one member only and apparently it was intended that in general the Offi- conducting the Survey should be that one. It is still meant that the Commission shall consist ge- generally

† From Chief Secretary to Government Bombay 28th May 1851 Para 6.

generally of one Member but the Bombay Government considering that "it may be sometimes expedient to have more than one Member, particularly where the Villages contending are of different Collectorates or Zillahs in which case each party would view with satisfaction the appointment on such a Commission of a Revenue Officer of his own District" have modified the Draft to admit of such an appointment occasionally. Here the <u>settlement</u> of disputes is the object in view. For <u>this</u> purpose it appears to me that it is <u>only</u> in the cases alluded to that is when the contending Villages are in different Districts that there is any reason for the appointment of a Special Commission. In ordinary cases it is better in my opinion, that the Collector or an Assistant deputed by him should have authority to bring the dispute to a settlement as at present in the N.W. Provinces and in the Presidency of Madras.—

Throughout the Draft thus ap- pears to me objectionable in transferring to a Commission to be appointed specially on occasion duties and functions which ought I think to be performed ex officio by the proper Revenue or Survey Officer I may observe however that if the proposed Act should be passed without alteration in this respect

respect, and made applicable to the Madras Presidency it would probably cause no difference in practice since, unless a separate Survey Establishment should be formed there would be no Officers available for the Commission but the Collector and his Assistants

Subject to the above general objection and supposing the Collector blee vested with the authority which the Draft gives to a Commission I think that the provisions for the settlement of disputed boundaries are applicable to the Madras Presidency and also that they would be more effectual than those of Regulation XII of 1816 which are now in force.—

This Regulation requires complaints regarding boundaries to be brought before the Collector who is authorized to refer them to Village or District Punchayets; to a Village Punchayet if the parties mutually agree to such a reference; if one objects to a District Punchayet. If neither shall agree to the reference to a District Punchayet the parties are left to seek a settlement in the Court of Adawlut. The decision of a Punchayet may be annulled for gross partiality in which case the parties may have recourse to a second Punchayet or any other competent tribunal. When a second Punchayet

is resorted to if its decision agree with that of the former Punchayet, it is final. This Regulation though it has been useful is less effectual than it ought to be because of the restriction which prevents the Collector from referring a dispute to a Punchayet when neither of the parties agree to such a reference; and because the Collector is not authorized to assemble a Punchayet himself for the determination of such disputes but is directed to issue an order to a Village or District Moonsiff as the case may be to assemble one when there is occasion. The Regulation is further objectionable in not authorizing the Collector to take cognizance of disputes except when complaints are made to him and in not providing for the decision of disputes which from particular circumstances it may be inexpedient to refer to a Punchayet or for the decision of which an impartial Punchayet could not be found.

Section VII. The Draft Act provides for the settlement of boundary disputes wherever they are found to exist, without an application from any of the parties as observed by the Government of Bombay† it specifies three modes by which a boundary dispute may be settled.

† Letter to Chief Secretary. p. 9.

By

Section VIII & XI

1 By the production by the parties of an award of a Punchayet without the intervention of the Commission.—

Section X

2 By the decision of the Commission in person.

Section XI

3 By the decisions of a Punchayet assembled by the Commission for that purpose.

The provisions here referred to, if modified as suggested by the Substitution of the Collector for a Commission in ordinary cases, are calculated to remedy the defects I have noticed in the Madras Regulation. I would only observe, with respect to Section X that it would be better in my opinion not to make it obligatory to require from the contending parties written Statements.—

I approve entirely of the provision in Section XII of the Draft that decisions passed in any of the modes above specified (those of Punchayets having the Section of the Commission or the Collector according to my view) should be held as final and not open to appeal.—

Section XIII

The Draft provides as is also provided in Regulation XII of 1816 of the Madras Code that the decisions of Punchayets may

may be set aside for partiality and that the dispute may be brought for decision before a second Punchayet.

XIV

If the decision of the second Punchayet is disapproved by the Commission for the same reason, it is also to be set aside, and the Commission is to decide the case finally. It may be better perhaps to provide that the authority disapproving of the award of the first Punchayet should at once proceed to decide the case.—

XV

When the boundaries of a Village are settled during a survey, the record thereof should form part and parcel of the survey record.—

XVII

It is reasonable that any extraordinary expenses incurred by persons called to give evidence should be defrayed. But in general, the expence and trouble will be no more than is incurred by persons attending for the purpose of the Jummabundy. They will commonly be persons residing near to the disputed boundary, and it is not expedient to encourage claims to compensation by such persons when called upon occasionally to afford their aid in this way, for a public purpose.—

Where

Fort St George 1st March 1855.

XX and XXVII

Where the Magistrate is referred to in this Draft, some modification would be necessary in applying the provisions to the Madras Presidency to adapt them to the existing System.—

XXV

Under the modification I have suggested, this provision for vesting Commissioners with the authority of an Assistant Magistrate would be unnecessary.

By this section a District Police Officer is authorized to take cognizance offences against Section 42 Regulation of XIV of 1827 of the Bombay Code. It appears that only the offences specified in Clause 3 of that Section are intended and that it is not meant that the District Police Officer shall inflict a punishment for such offences to the extent there specified, but only to the extent allowed by the general Regulation for his guidance This should be more clearly expressed; and if the act should be made applicable to Madras, it will need to be generalized.

From Chief Secretary P. 24.

It appears to me that there is a defect in the Draft Act. as there is in Regulation XII of 1816 of the Madras

Fort St George 1st March 1855.

Madras Code in not providing for cases in which there is a boundary in dispute between two Villages of which only one is subject to the British Government. In paragraph 8th of his letter dated 30th March 1820, the Revenue Commissioner at Bombay observes that "where the Villages between whom the boundary is disputed are one of them in the British Territories and the other in that of an independent native Chieftain it will be necessary merely to intimate to the chief to whom the one Village may belong, that on a certain day the Survey Officer will proceed to determine the boundary in conjunction should the Chief so wish, with any person appointed by him; but that should no one be appointed, the Survey Officer will decide as between two Government Villages and that Government will on no account suffer a boundary so settled to be subsequently infringed either by its own subjects or those of the other state" This mode of proceeding however though it may perhaps be suitable to the relations of the British Government with some of the Minor chiefs, would not I conceive be proper when

Ordered

3183 Fort St George 1st March 1855.

Ordered that the following letter be sent in reply—

To,

The Chief Secretary
to Government.

6-8

Bd's 482.

Sir,

To the Chief Secy to Government.

Submitting with reference to Extract Minutes Consultation dated 9th and 19th February 1855 the Board's remarks upon the Draft Act for establishment and maintenance of Boundary marks in this Presidency.

Sec Corr 1st March 1855

I have the honor by desire of the Board to acknowledge the receipt of Extract Minutes of Consultation under date 9th and 19th February respectively relative to the proposed Act for the Establishment and maintenance of Boundary-marks in this Presidency together with certain observations of the Legislative Member bearing on the same subject.

2 Mr Elliot states that to meet an anticipated objection he had made an alteration in Sect VI of the Bill by which the cost of fixing the boundary marks was to be charged upon the revenue of the village, instead of being borne as first proposed by the general body of ryots. The Board have only to suggest on this point that the words "Government in the first instance" shall be substituted for those of "the revenue of the village in which the fields are situated."

3 As to the objection which it is apprehended may be taken to the latter clause of this section the Board are decidedly of opinion that the text should stand as at present. If the Government is made to bear the expense of placing boundaries on all unoccupied land, many ryots will be induced to throw up temporarily their holdings during the progress of the survey, with no other view

view than of relieving themselves from the impending cost should they retain them. The Survey completed they will resume their lands, there appear more over no greater hardship in taxing with this charge a future proprietor than a present one, who is called upon to pay under Sect III.

4. Upon the second point to which exception may, it is said, be taken viz. the apportioning the cost of restoring boundaries in certain cases among the ryots generally, the Board concur in the opinion of the Legislative Member that "the provision [illegible] will be difficult to prove individual responsibility; but if the village community be made generally answerable, the offences treated of will but seldom occur.

5 Mr Elliot next proceeds to state that it has been suggested to him that the procedure to be followed in fixing disputed boundaries, should be laid down, as is done in Section 5. Act 1 of 1847. The Board had supposed that the course was sufficiently indicated in Section 1 of the present Draft act, and that the Collector, or other officer would under it summarily decide as to the proper boundary, after holding such enquiry as he deemed fit for the elucidation.

dation of the matter at issue. This he might do by village Punchayet under Reg XII of 1816 if both parties agreed to such reference; or he might direct the village watchmen to run the boundaries (a mode of settlement which in this Presidency at least is supposed to be conclusive, and to admit of no dispute) or shape his procedure according to circumstances.

6. Mr Elliot supposes that the Government officer will proceed under Reg. XII of 1816 and V of 1822, and recommends that opportunity be taken of the proposed Act, to remedy certain defects which he justly represents as existing in those Enactments.

7. The Board would be glad to see the Amendment carried out, but think that the correction should be postponed to a future period.

8. The Regulations quoted embrace so many other matters, claims to land, Crops, irrigation &c. that a remodelling of them would require much time and consideration, and if entered upon now would probably occasion a delay in the passing of the present Act which the Board would much regret on account of the impediment which would thus arise to the survey operations now in progress. To remove difficulties they would prefer to add another section, which might run as follows.

view than of relieving themselves from the impending cost should they retain them. The Survey completed they will resume their lands; there appear more over no greater hardship in taxing with this charge a future proprietor than a present one: who is called upon to pay under Sect III.

4. Upon the second point to which exception may, it is said, be taken viz. the apportioning the cost of restoring boundaries in certain cases among the ryots generally, the Board concur in the opinion of the Legislative Member that "the provision should be maintained" It will be difficult to prove individual responsibility; but if the village community be made generally answerable, the offence treated of will but seldom occur.

5 Mr Elliot next proceeds to state that it has been suggested to him that the procedure to be followed in fixing disputed boundaries, should be laid down, as is done in Section 5, act 1 of 1847. The Board had supposed that the course was sufficiently indicated in Section I of the present Draft Act, and that the Collector, or other officer would under it summarily decide as to the proper boundary, after holding such enquiry as he deemed fit for the elucidation.

dation of the matter at issue. This he might do by village Punchayet under Reg. XII of 1816, if both parties agreed to such reference, or he might direct the village watchmen to run the boundaries (a mode of settlement which in this Presidency at least is supposed to be conclusive, and to admit of no dispute) or shape his procedure according to circumstances.

6. Mr Elliot supposes that the Government Officer will proceed under Reg. XII of 1816 and V of 1822, and recommends that opportunity be taken of the proposed Act, to remedy certain defects which he justly represents as existing in those Enactments.

7. The Board would be glad to see the Amendment carried out, but think that the correction should be postponed to a future period.

8. The Regulations quoted embrace so many other matters, claims to land, crops, irrigation &c. that a remodelling of them would require much time and consideration, and if entered upon now would probably occasion a delay in the passing of the present Act which the Board would much regret on account of the impediment which would thus arise to the survey operations now in progress. To remove difficulties they would prefer to add another section, which might run as follows.

Fort St. George 1st March 1855

"In cases of disputed boundary the Government Officer shall proceed in the manner prescribed in Reg XII of 1816 and V. of 1822 and in such other Regulations as are now in force or may hereafter be enacted."

This will permit the question of the improvement of these Regulations being taken up at some future season, and remove, the Board trust, any obstacle to the speedy promulgation of the act.

9. A part from all questions of contested boundaries which are rather "doubtful" than "disputed" in this part of India, the Bill, I am directed to observe, is urgently required for the enforcement of its main object, the establishment of boundary marks to fields, estates &c.a for arranging which, the Revenue Survey Offers, such an excellent opportunity.

10. The Board believe that in the localities where the Survey is now in operation, disputed boundaries may be settled by existing Regulations but

Fort St. George 1st March 1855

but as it extends difficulties may arise, and the Board are prepared should the Government desire it, to take up the subject of Regulation XII of 1816 with a view to its revision after the present act has passed.

To Collector of Rajahmundry

Bd No 475.

To the Collector of Rajahmundry.

I am directed to acknowledge the receipt of your letters dated 24th November last, and 20th February and to forward for your information the accompanying circular instructions regarding agricultural exhibitions in general.—

D. As the names of the Committee of gentlemen referred to in Para 2 of your letter are not given, the Board instruct you to request the Judge, the Sub Collector, and Civil Engineer to form with yourself a Committee of management, and to forward for submission to Government a list of European and Native Gentlemen to be invited to join in this duly. The Commissioner of the Northern Circars if present, will of course be the President. The Committee are requested to elect a Vice President, and in anticipation of their formal nomination by Government to adopt at once the necessary measures for holding a meeting as proposed in this month.—

3 The Board do not intend that the circular

Fort St George 1st March 1855.

circular instructions forwarded herewith should interfere with the arrangements already made— Considering how little time remains for consideration the Board think it will be best to abstain from change, except in declaring the competition open to all classes. The more liberal Measures contemplated in their circular should however be duly notified to the assembled people.—

4 The Amount of prizes already offered, amounts to about 800 Rs and the Board in anticipation of the sanction of Government place a further sum of 200 Rs or in all Rs 1000 at the disposal of the Committee for the purposes of the present Exhibition. This sum will be duly accounted for after the close of the exhibition when the Board request the Committee to favor them with a full report of their proceedings for publication.—

Resolved

3199 Fort St. George 1st. March 1855.

Bd. No. 483.

Proceedings. Resolved that the letter above recorded with its inclosures be submitted for the orders of the Right Honorable the Governor in Council.-

(13-14)

2. It appears that duty was levied upon Tobacco imported into the Ports of the Nellore district from other Indian Ports under the impression that the Notification of the Government of India, dated 14th. October 1848, published in the Fort Saint George Gazette of that year, superseded Section III Act VI of 1848 in respect of this Article. Under these circumstances, the Board support the Collector's recommendation that sanction may be granted for the refund of the duty levied

† Page 1067.

3200 Fort St. George 1st March 1855.

levied from Fusly 1258 to 1263, Viz t.
Rs. 53-2-6. upon the parties interested preferring their claims to the same.

3. The misapprehension as to the intent of the Notification of October 14th 1848 which has prevailed in the Nellore District, appears extraordinary. But as it is possible that the same may have existed elsewhere, the Board propose to publish a Notice in the Official Gazette, pointing out the true meaning of that Notification, and acquainting Collectors and others concerned that Act VI of 1848 applies to all commodities whatever.

A

Notification.

Some misapprehension having occured as to the intent of the Notification of the Government of India, dated 14th. October 1848, published at page 1067 of the Fort St. George Gazette for that year, it is hereby declared for general information that that Notification was intended to assimilate the duty in Calcutta and Madras upon Tobacco imported from Territories not belonging to the Honorable Company.

Tobacco

3201 Fort St. George 1st March 1855.

Tobacco imported into the Ports of this Presidency from other Company's ports, is free under Act VII of 1848.

Fort St. George 1st March 1855

4 The Board will observe that the number of Aumanie Villages has in the year under report fallen from 33 to 13, some reduction having been made in the terms hitherto demanded, to meet the repeatedly expressed wishes of the Board and the Government for the abolition of the Aumanie System - notwithstanding the reduction made from the standard however, thirteen of the Villages given on a reduced Beriz came under a division of the crop - The number of these Villages would have been further reduced, had the season been less unfavorable. Some of the Meerasidars of Aumanie Villages wait until the putturn of the harvest is pretty accurately seen before they will rent their Village, and this has been invariably the case with the large village of Cullemode in Tritrapoondy in which the entire want of water after the middle of November, so injured the prospects of the harvest, as that the Meerasidar refused to rent. -

5 Tanjore is chiefly irrigated by channels taken from the rivers, and of these there are 4,635 - some of the Cadarumbum lands of Trivadey and Munnargoody and all the Nunjah lands in Puttocottah are irrigated from Tanks, of which there are 908, but none of them are extensive works; there are also 9959 wells, but

Fort St. George 1st March 1855

but all are small, worked only by the hand, and are the means of irrigating only gardens, and are the means of irrigating only gardens produce, as many as 124 of these small wells have been sunk by the people since the promulgation of the Board's orders granting to them the full profit from improvements made at their own expence. -

The following figures represent the general statistics of the province under the heads given by the Board. -

Agricultural stock

Ploughs	122588	
Bullocks	190252	246237
Male buffaloes	55985	
Cows	430200	189106
Female buffaloes	58906	
Sheep	170735	

Population

	Adults	Children	Total
Cultivating	713715	331343	1045058
Non-cultivating	447429	183899	631028
	1161144	514942	1676086

Ryots and Puttahs

Residents	62056	101025
Poyacaries	38969	

In the year under review no ryot was required to attend the settlement, unless some change having taken place in his holding, an alteration was required in his puttah and accounts to those who did not attend no fresh puttah was issued, but a chit only was sent through the Village Officers, on which was written the

the grass demand according to the last years settlement — as many as 7,852 chits were thus issued in the Trevady talook alone, and the number would have been larger had not the storm of March 1853, rendered necessary, trifling alterations in the puttahs of many ryots, to whom remissions were made of the tax on fruit trees destroyed, and had not the nature of the season changed the demand against those, to whom remission was given on account of waste and unproductive land —

8 The rent roll of the District is submitted in a separate statement, but I cannot tell the Board that it affords at all an accurate view of the holdings of the Tanjore meerasidars, the extent of land held by any man in any single village is of course known and recorded, but when, as is the case here, the holdings are comprised in four or five different talooks, it is not easy to recognize the individual and to give one general statement of his possessions — I am endeavoring to make the rent roll a more perfect statement than it is at present, by adding the total extent of the estates held by the larger land holders, and to shew their total holdings instead of only as at

at present, the greatest extent of land they hold in any one Village, but for the great = mass of the ryots, this will be impossible — It is in consequence of the rent roll hitherto having shewn the holdings only village wise and not Zillahwar, that the Board has been led in their late report to Government, to represent Chendragasha Moopen of Cabisthalum as the largest proprietor in Tanjore, his = estate is almost entirely in one talook, and in the rent roll his payments appear large, but he owns by no less than 600 values of land, while = there are other Meerasidars whose total estates rise to near, and even above 700 values —

I entered so fully into a description

9 of the season in my report to the Board of the 7th of June last, that perhaps I need not = dwell upon it here, cholera prevailed through = out the whole province from November to July, and I did not hold my office in a single village during the whole of that time, in which the disease was not active, no less than 22,110 deaths were recorded out of 25592 cases that occurred —

From the nature of the season =

10 prices were of course unusually high — The = standard

3209

Fort St. George 1st March 1855.

From the Principal Collector of Chittoor

Standard rate of Assessment Rs. 2 per Cent

By Co. the Commutation rate for the year 1854-55 is Rs. 2 per Cent

I forward herewith the Statement of Standard and Jirayat Jamabundy for Fusly 1264 as required by G.O. 4th Jan. 1855

If prices submitted with this report, the Board will be pleased to observe that contrary to what would be anticipated the price of grain in the towns is reported and left than that in the Villages, the discrepancy can be accounted for from the local circumstance, that town prices are taken every Saturday & Village prices are taken from Mussulman Shandy & Chetty Bazar the Cash, and from Tobacco to the 20th of Villages for the Kundaderdamum, and it was not considered Desirable that prices should be sent to revise the Average of the town prices included all the Months from July during which the Prices rule low, while the average of Village prices is exceedingly Moderate, as the latter for those Months during which prices were considered high.

I have the honor &c &c

A statement of the Cultivation, the Assessment thereon, and the Balance at the settlement per Supplementary Abstract for Fusly 1264 is submitted herewith.

I have the honor &c &c

Signed

Affected by fprice

Not affected by fprice

16 This large balance was reduced in the sum of Rupees 31,867 by collections to the 10th of December, and still a further by the sum of Rupees 4,080 10 written off by permission of Government, 18th September 1854 in consequence of the losses sustained by the people in a year, which combined a short produce with very high prices. The balance actually remaining uncollected is thus left at Rupees 9,015 to which further reference will presently be made.—

17 Accounts are under preparation regarding the balances of fusly 1262 and will shortly be submitted to the Board — the following is an abstract of them and of the balances of former years.—

Fusly	Arrears at the commencement of Fusly 1263	Collected in Fusly 1263	Remitted	Total	Balance
1262	4,26,933	92,005	2,60,877	3,52,882	74,051
upto 1261	46,067	1,675	23,192	24,867	21,200
	4,73,000	93	2,84,069	3,77,749	95,251

Explanation as to what extent coercive process was employed in the collection of the Revenue shewing what Lands were sold for arrears of Revenue and what prices they fetched.

18. No coercive measures were resorted to for the realization of the current revenue, and no land was sold. Application was made to the Board for leave to put up some land to auction on account of the balance of former years, but in all cases but two, the demand was paid before the sale was held — in one of those two cases, as the balance had occasioned from fraud, and no bidder came forward for the land, the defaulter was committed to jail in the other, no bid having been made, the balance is still outstanding.—

Collector to 03d of Revenue 4th August 1854

15 Particulars of the amount recommended to be Struck off

19 The remissions granted under the head of Veerachadum amounted to Rupees 7,25,608 according to the following Statement, to which being added Rupees 90,21 the demand on Poonjah and Cagayet waste

3216 Fort St George 1st March 1855

waste in field assessed Villages, the

Total remission under this head amounted to Rupees 7,34,629 and the nature of the season sufficiently explains their necessity, and the cause of their being greatly exceeding the remissions of the past 5 years.—

20 The unusual mode of

settlement adopted in some Villages

25th Feb 1854. having been acted on by the Boards

permission, and the results detailed

in my report of the 7th of June,

I need not here very particularly

refer to it. The following State

-ment will however put the

Board in possession of one fact

connected with the Settlement,

which has not been hitherto

brought to their notice.

Detail

3219 Fort St George 1st March 1855

Detail of remissions granted in Villages paying Cowgas rents. Cowgas rented both assessed and unassessed for one year.

Name of Individuals	Standard Gross Produce	Remission Gross Produce	Remission Gross Produce	Remission Gross Produce	Centage of Remission to the Standard. One on Gross Produce	One on Gross Rents
	Nos	Nos	Nos	Nos		
1 Came under division of the Crop	7,525	17,1322	59,8394	106,226	34,1455	62	57
2 Realized by the Mussulmans of Cowgas rents, and reproduction land from deducted	6,751	13,4084	3,69,350	69,364	18,7310	52	51
3 Made over to the Mussulmans on Estimate of the Standing crops for Cowgas Villages	34,25	108099	24,529	104,524	23351	91	95
Total	17,701	316292	99273	1865744	552116	59	56

of

21 Of the land that came under a division of the crop, nothing need be said, that mode of Settlement being in accordance with ordinary practice - on that which was reaped by the Meerassidars after waste and unproductive land had been deducted, it is also unnecessary to remark, as the Board have already sanctioned the proceeding as an exceptional case, and of the third item only is it requisite to take any note. The Board's acquaintance with the nature of the Cadavanum - dependance in falling rain for its irrigation, will have assured them that in the past season the Lands must have suffered severely - a division of the crop is a very tedious process and it can never be carried on at all without extensive assistance from the labour of other Villages - one paracoody to each valey of land is the usual proportion of labour kept up by a Meerassidar, while at the actual reaping of a crop by the Circar from 50 to 70 persons are summoned for each Valey - this labar is remunerated by an allowance of four

four percent on the grain actually threshed, and the Board will perceive how impossible it would have been to have reaped the Cadavanum Villages with no better remuneration to 70 hired labourers, than would have been their due from the very short produce that was gathered - further the people in that part of the country were very much distressed for food, and it was impossible to prevent their stealing the standing crops - I was therefore led to consider that the best arrangement I could make, both for the Government and the people, was to make over the crop to the Meerassidars on estimate and leave the harvest to them - The system has been followed occasionally with the Boards previous sanction - for this sanction there was this year no time to ask, the interests at stake were very small, and in a year of very considerable difficulty I considered that I might be held excused if I acted on my own judgment - When the estimates were made it was found that in the greater majority of Villages the produce was less than ten Cullums to the Valey, and on this, according to the usage of the province no demand was made -

22 Sudden abandonment of the Ryotwary holdings, which are the remissions granted under the usual terms of the Government, per 18th Decr 1854.-

Referred to Collector of Chingleput for report.

23 The Board recommend the remission applied for, as above shown.

The Board recommend the remission applied for, as above shown.

	Collections	Remissions granted	Balance outstanding
	Rs	Rs	Rs
Increase by Price	2,87,659	2,85,959	1,700
Sooraick water	1,05,691	95,931	9,760
20 Tenements on the canals	8,561	7,512	1,049
Short produce per Cash Rents remitted	17,648	18,608	960
	4,19,559	4,08,010	11,549

The Board would also recommend a discretionary power being given Revenue Servants for the Accounts now sent, remitted

Fm

the Statement which accompanied my letter of the 7th of June, the commutation rate for the year had not been fixed when that letter was written, and the calculations were made on estimate - the precise information, subsequently obtained, shews that the net sum carried to the credit of Government under this head, after all remission have been allowed for, is Rupees 159039, and not Rupees 135860 as I formerly, on estimate, stated.-

Upon above, that I should again advert to the outstanding balance of the total sum Rupees 49082 is the assessment on the Cadarambum Lands which were wholly, or nearly wholly, unproductive - The Puttahs for these Villages in the Trivady Talooke were given in April at Ortanaad, and I was made fully and personally aware of the losses the ryots had suffered - The appearance of the people bore evidence to the privations they were suffering, and I could not hesitate at once to suspend the collections in all Villages which had suffered from the severe drought. I caused careful examinations to be made in all the Villages and

and found that land assessed at Rs 9764, although cultivated, had produced literally nothing, while a further quantity, assessed at Rupees 39318 had produced only from 20 to 30 per Cent of an average crop, and I have satisfied myself that these amounts should be at once remitted - the Board is aware that the Cadarambum ryots are very generally poor and hold individually but small portions of land - the returns of an average year are not more than sufficient to meet its burthens, and if the balances of previous years be demanded, the means of future production will be checked. These sums would have been included in the recommendation I made in my report of the 7th of June had the accounts connected with them been then prepared.-

25 The total remissions granted under the terms of the Settlement were Rupees 73462 9 - while the extra remissions sanctioned by Government were Rs 48010 - making a Total of Rupees 121472 9, which with the sum recommended for remission the Cadarambum Villages will make Rupees 119721 - - - -

49082

In

26 In Fusly 1263 Rupees 83,000-- were advanced for cultivation, and Rupees 78862 were recollected within the Fusly - a further sum of Rupees 3,482 have been since collected, and the balance now, amounting, to Rupees 656, will be now shortly realized.

(6 Advances of Cultivation, the amount recovered and balances with explanation

27 The Marginal Statement gives the Charges as compared with the receipts, and the centage of one upon the other - it also shews the centage of the Maramut expenditure upon the revenue from irrigated Lands.

Of the 63rd Fusly

	Expenditure Rs	Receipts Rs	Centage
Salary of the European Officers together with the Huzzoor Silbendy's allowance and Saderward	261293	3585485	7 9/32
Village Silbendy allowance including the Salary of Curnums and peullamanieums	186424	3585485	5 7/32

The

3230 Fort: St. George 1st March 1855

30 The great anxiety that there is at all times to secure Land in Tanjore leads the Meerasidars to offer for it in anticipation of the result, whenever any new Maramut works are projected and in consequence they are sometimes disappointed. they not only fail to derive a profit from the cultivation, but lose even the money they have laid out upon the land, and are unable to pay its rent. I believe that I am in accord with the Board in considering it most impolitic to force upon the Meerasidars a retention of Land, which having thus been taken upon speculation has proved wholly unremunerative. the land is always entered as waste and its rent is always in balance. I have accordingly struck out of the Summary of Fasly 1263 Land assessed at Rupees 2,781, Viz, Rupees 1858 on cavele Land for which full Teerwah is due and Rupees 923 on Land on which a quarter, half or three

quarter

3231. Fort St. George 1st March 1855.

quarter teerwah is due - and as further applications have been made, which are now under enquiry, I propose to follow a similar course in the Settlement of the current year.-

Tanjore 19th December 1855.

(Signed) H. Forbes
Collector.

To,
H. Forbes Esqre
Collector of Tanjore

Sir,

1 I have the honor to submit the usual Statements No 1 and 2 exhibiting the Settlement of the Division for Fusly 1263 A.D 1853/54.—

Talooke - - Town - - -
May - - Cusbah - - -
Cool - - - Cusbah - - -
Comb - - - Venayaken-
-peroo - - -
Shoal - - - Cusbah & - -
cavery patam - -
Parel - - - Colamangoody-

Total number of Villages.—

2 The Villages in which the Settlement was made are noted in the Margin.—

3 The total number of Villages in the Division is 2,011— and the following abstract shews the tenures under which they were held during the past and present Fuslies.—

	Tenure	Fusly 1262	Fusly 1263	Increase	Decrease
I	Mangoo rented	442	448	6	-
II	Field assessed	919	919	-	-
III	Mottum Fysel	458	458	-	-
	One years rented	184	184	-	-
	Grain rented	1	1	-	-
IV	Amany	7	1	-	6
	Total	2,011	2,011	6	6

N.B. Besides the one Village held under Amany, a small portion

portion of another was finally kept under that tenure as will be shewn hereafter.

Nature and extent of Irrigation

4 The irrigation of the Division is, as you are aware, mainly derived from the River Cavery - Of the 40,000 Vallies of irrigated land in the Division, upwards of 25,000 Vallies are dependent on the Cavery and the channels and rivers flowing therefrom, the remainder being watered by the Coleroon, and the Streams and channels taken off from that River -

Season

5 The season, as is now well known, has been a most disastrous one, and coming so immediately after the great damage and losses sustained by the hurricane of the past July, its effects have been doubly severe - In the month of July, the freshes in the rivers were higher than have ever been known for many years past, and about the 20th of that month, a large breach took place in the South bank of the Coleroon, about a mile to the westward of Kanikaran Chuttrum, by which a large part of the Coorrum and Atchapooram

Atchapooram Magharams in the Sheally - Talook was inundated - Upto the middle of October however, the season may have been considered favorable, but from the 20th of that month up to the 11th of November, the rain fell in torrents - the Channels and rivers became unusually swollen, and owing to many of them having burst their banks, a large part of the country was submerged, and the crops entirely destroyed - This was more especially the case in the 3 eastern Talooks, where the rain was at the same time the heaviest, and where from the accumulation of drainage water flowing from the westward being checked in its course by the high tides, and being therefore unable to find a vent, spread over a large extent of country - This heavy inundation was unhappily succeeded by a severe drought which lasted for upwards of 6 months, and the combination of these two adverse causes in one season, has, as might have been expected, led to a very considerable deficiency in the supply of food, and hence to much distress among the

the poorer clafs of the people.-

The lofses by the drought have again fallen much more severely on the eastern than on the western Talooks, the latter having the first command of water secured the little that remained in the river for themselves, while the former were totally deprived of their usual supply, and hence it will be seen that by far the larger amount of remifsions has been made in the Talooks of Sheally, Mayaveram, and Parellam.-

Sanatory state 6 In addition to the great defici-ency in the supply of food, Cholera was very prevalent and fatal in the Months of December and January, and again in the months of May and June, its ravages in were very considerable.-

Prices 7 From the great deficiency in the supply of produce, prices have necessarily rated very high, from the commencement of the Fusly till the 30th November, the average sell-ing prices throughout the Division was F 3- 23 3/4 but C after that date prices rose rapidly, and the average up to the end of the Fusly was F 5- 22 7/16 C The commutation prices according to the terms of

of the Olungoo Settlement is for the Fusly un-der report F 5- 3 C 11/32 or an increase of 69½ over that of the preceding Fusly and of 67 per cent above the standard price. By this increase in price, the de-mand on the Olungoo rented Villages alone is augmented by the sum of Rupees 2,0832-5-1 or deducting the decrease in the extent of cul-tivation of Rupees 1229-11-5, the net increase is Rupees 188538-9-8.-

Cultivation 8 The annexed Statement shews the extent of Cultivation in the present Fusly compared with that of the preceding one.-

	Fusly 1262		Fusly 1263		Increase		Decrease	
	Land	Assess-ment	Land	Assess-ment	Land	Assess-ment	Land	Assess-ment
	Valies	Rs	Valies	Rs	Valies	Rs	Valies	Rs
Nunjah —	39866	14,32559	35582	14,84880	-	52,321	4284	-
Poonjah —	7153	70385	7131	69789	-	-	22	596
Bagayet —	2742	68724	2746	68770	4	46	-	-
	49761	15,71668	45459	16,23439	4	52367	4306	596
					Net Rs	51,771	4,302	-

It will be observed that there is a considerable decrease in the extent of Land Viz^t^s Vulis Co 4,302-8-32, but an increase in the Beriz of Rupees 51,770-9-6. The decrease in the cultivation is owing to the large amount of land deducted on account of Tarroos and Nattoopaul, and the increase in the Beriz is explained by the increase in the Demand on the Olungoo Villages as noted in the preceding para. There is a slight decrease also in the extent of Soonjah owing to Lands having been converted into Nunjah, and also to the destruction of Lands bordering on rivers by alterations in their courses. The increase in Bagayet land is very small and does not call for particular remarks.

9- In the 2011 Villages comprising the Division, the harvest was made as follows.-

Villages reaped by the Merassidars without remissions - - - - - - - - - -	1304
Reaped by the Merassidars after making remissions - - - - - - - - - - - -	576
Villages of which Curdoomoodul was made by the Circar - - - - - - - - - -	130
Ditto - - - - - - - - - - - - - -	1
	2011

Wolungoo rented Villages- 10 Of the 448 Villages entered under this head, 358 Villages were reaped by the Merassidars without remissions, 1 was reaped by them after deducting waste and unproductive land, and 89 were harvested by the Officers of Government- The return of these 90 Villages will be found under the head of Varalachadum or droughted Villages- The Beriz of the 358 Villages, specified as above in the two Fuslies, is shown below-

Total	919	532020 5 9	446590 " 6	85430 5 3

The

3391 Fort St George 1st March 1855

The decrease in the present Fusly is very large, but it has been entirely owing to the adverse nature of the season, and the necessity which arose for making very large remissions in the Villages lying to the extreme east - In Fusly 1262 remission was given in 51 Villages to the extent of Rupees 6,387, but in the present season, it was found necessary to make remissions in no less than 476 Villages and to the extent of Rupees 86891 - 11 - 10 -

12 The following Statement exhibits the amount of Beriz remitted under the head of waste and Nuttapaul land in these Villages during the present Fusly -

	Fusly 1262		Fusly 1263		Comparison	
	No of Villages	Amount	No of Villages	Amount	Increase	Decrease
Moyaveram	"	"	107	Rs 16501	Rs 16501	"
Coottalum	2	Rs 1094	20	Rs 2449	Rs 1355	"
Sheally	49	Rs 5293	291	Rs 58818	Rs 53525	"
Parellum	"	"	58	Rs 9123	Rs 9123	"
Total	51	6387	476	86891	80504	"

The

Fort St George 1st March 1855

The remissions in the Sheally Talook alone it will be seen amounted to more than $\frac{2}{3}$ of the whole, and in that Talook alone $\frac{1}{3}$ of the whole cultivation may be said to have entirely perished.-

Five years waste in Sheally

Besides this, a further extent of 13 Vuclus 100-16-26 yielding a Beriz of Rs 2,575-14-7 has been deducted from the demand of the present Fusly- This land, which is situate entirely in the Sheally Talook, has been taken up from time to time on favorable terms, but much of it has never been brought under cultivation at all- and none of it for at least 5 years, it has been struck out of the Jummabundy of the present Fusly as stated in the 12 para of my report of last year, and in accordance with the views of Government noted in the Margin.-

Mins of Consn 28th Septr 1852.

Mottumfysel Villages-

The total number of these Villages is 643, of these 504 were reaped by the Meerassidars, and the remaining 139, having suffered from drought, will be found under the head of Varalcharum.-

The

Fort St George 1st March 1855

15 The annexed Statement shews the outturn of the above 504 Villages compared with that of the preceding Fusly and shows a decrease of Rupees 3,571-7-9, which is chiefly owing to the diminution of Topes produce caused by the destruction of Trees by the hurricane of March 1853.-

	No of Villages.	Beriz of Fusly 1262	Beriz of Fusly 1263	Increase	Decrease
		Rs

Fort St George 1st March 1855

Of these 99 were reaped for the Mussulman Year 1263 Fusly, an increase of Rupees 23558-1-7 over the Fusly 1262, and 130 were harvested under Amany. Of the latter number 89 were rented out for the Fusly, 34 under the Mottumfysel, and 7 under one years rent. The Fusly Standard Jumma of the 89 was Rupees 156639-8-5, and the Fusly 1263 Jumma Rupees 121806-6-8, being a decrease of Rupees 34832-2-9 on the Fusly Standard Jumma. Of the 34 under Mottumfysel, the Fusly Standard Jumma was Rupees 39060-8-10, and the Fusly 1263 Jumma Rupees 32668-14-5, being a decrease of Rupees 6391-10-5 on the Fusly Standard Jumma. Of the 7 under one years rent, the Fusly Standard Jumma was Rupees 10238-2-0, and the Fusly 1263 Jumma Rupees 5877-9-4, being a decrease of Rupees 4360-8-11 on the Fusly Standard Jumma. The total number under Amany was 98. The total Fusly Standard Jumma was Rupees 111851-14-6, and the Fusly 1263 Jumma Rupees 79916-12-10, being a decrease of Rupees 31934-1-8 on the Fusly Standard Jumma. Of the 98 under Amany, 1 was rented out on allowing remission, and 97 were entered the Mottumfysel.

The return of the 229 villages in the Fusly Standard Jumma is above is shown below:—

Mandalam Beriz	Rupees	318131 5 6
Actually realized	Rupees	240563 1 -
Deficiency	Rupees	77568 4 6
Percentage of Do		24 3/8
Do released below the last Fusly Standard	Rupees	14486 14 11

Amany

18 Of the only entire villages held under Amany, on the Fusly 1263 was the village of Chandragiry to the Zemindar of Kalahasty, belonging to the Zemindary

family of Sjara Pillay formerly well known as the largest and most affluent Merasidar in the Province, but now in very reduced circumstances - This Village lies close to Combaconum, and having an early supply of water, it may be said to possessvery advantage, and when properly cultivated, is quite capa = ble of producing its full grain amount.—

19 Besides this part of the Village of yeroomolay in the Coottalum Talook was finally also Kept under Amany - This Village consists of 2 Shaities or Divisions one of which consisting of 26 Vs 15 Ms 59 Gs belongs to the Merasidars, and was rented during the present Fusly on reducing the grain rent from 8039 to 7000 cullums. The other shaity consisting of 7 Vs 14 Ms 26 Gs belongs to the Pundanellore Pagoda, and was rented out 3 years at a rent reduced in the same rates as in the shaity. The term was however objected to by you and as the Merasidars refused to rent

rent the lands for one year, they were necessarily retained under Amany - The particulars of the 6 Villages which were under Amany in the last Fusly but were rented in the present are annexed.—

Combaconum Talook.

1 Agaramolalay — Rented on remitting the double crop tax on 17 Ms 35 Gs Viz.t Rupees 28 - -

2 Tarayooteroo-boo = vunam cookady
3 Devastanums Teroo = boovanumwookaday — Rented on remitting the tax on 6 vailies of Poonjah and Pagayet land represented as unfit for cultivation Viz.t Rupees 120 5 -

4 Cailacharay - This village which had been under Amany for 10 years, was lately the property of Sjarapillay but has now changed hands It was rented out for 5800 cul = = lums being 1150 cullums above the average of the years it was under Amany, but below the standard by 1000 cals 5 Ms

Coottalum Talook

5 Samisastry cookaday — This village was 3 years under Amany but was rented this Fusly on reducing the grain amount from 1236 to 900 cullums -

6 Yeroomolay coody shaity — Rented on reducing the grain amount as stated in preceding para :—

Grand Total Rupees		1,098,303		12	6		

Demand collection and Balance

22 Of the total Demand for the Fusly under review Viz.t Rupees 16,64,230, the sum of Rupees 13,84,914 was realised within the Fusly /up to the 11th of July/: since that date and up to the end of October a further sum of Rupees 1,38,330 has been collected making the total sum collected to this date Rupees 15,23,246. The balance is therefore Rupees 1,41,004 but of this amount Rupees 12,5013 has since the conclusion of the Fusly been written off under the orders of Government noted in the margen, so that the actual balance outstanding at the present moment is Rupees 15590——"

Minutes of Cons dated 7.th Sept.r 1854 Para 3.

The particulars of the special remissions granted by Government are noted below.

Addition of 20 per cent to the carcrop usually made in draughted Villages	Rs	701—"
Tax upon Poonjah waste lands	Rs	29765—"
Increase above 10 per Cent in the Demand on Olungoo villages	Rs	94457—"
Do in Grain rented Villages	Rs	90—2"
Total	Rs	125013—"

23 The balance of the present Fusly is some

somewhat larger than usual, but it is still only 6/64 percent on the total Demand, and considering the adverse nature of the season, is not to be wondered at. Of this sum, the collection of Rupees 7398 has been specially delayed on account of the severe losses sustained in several Villages, but it will be collected with the Rest of Fusly 1264, as also I trust nearly the whole of the remainder.—

Old Balances 24 The amount noted in the Margin has also been realized on account of old balances, so that the actual collections realized and paid into the Treasury in the present Fusly amount to the sum of Rupees 15,4207 8.—

Fusly	Rupees	As	P
1257	26	14	7
1258	56	13	"
1259	158	14	8
1260	420	6	2
1261	213	12	6
1262	17965	8	6
Total	18832	5	5

25 In my report of last year Para 19 I stated that the amount of Rupees 128483 had been temporarily suspended on account of losses sustained by the hurricane of March 1853 This sum, as you are aware, was made up of a percentage at the rate of 10 and 15 percent on the Beriz of each Talook for the past Fusly, and the

Fort St. George 1st March 1855

Stoppage was made in accordance with the principle adopted in your Division In your yadast of the 23d December last I was given to understand that as recommended by you Government had granted the full remission of 10 and 15 per cent only in the Talook of Velungamon, and that in the remaining Talooks of the Division the remission granted was only at the rate of 5 per cent or half of that granted throughout the whole District / with the exception of the Talooks of Puttoocottah and Tranquebar / - I was therefore directed to collect the remaining 5 percent with the Rists of the current Fusly. —

3d January 1854

26 In my letter to you noted in the Margin I took occasion respectfully to re- = monstrate against the distinction thus made on the measure of relief afforded to the Division, and I then submitted my opinion that owing to the very adverse state of the present season I did not think the balance ordered to be realized could be collected. In your yadast of the 23d February last, you have intimated your intention of applying to Government for the

W.P.W.

Fort St. George 1st March 1855

the extension of the full amount of remission to the other 5 Talooks in the Division and I have only alluded to the matter, as all omission of it on my part might seem strange. I should be sorry indeed if the interests of the Division should have in any way suffered since I assumed charge thereof and although the accounts which I had the honor of submitting last year did not show the same proportion of losses throughout the Division as in the rest of the District my further acquaintance with the Division and the experience I have gained in the course of a second adverse season, lead me to believe that the further remission of the remaining 5 percent is both a politic as well as a necessary measure. —

27 I have only to add that no coercive measures whatever have been resorted to in the collection of the Revenue in the Fusly under review, and. —

28 That no infringement of the rules regarding the acquisition of property has been brought to notice within the same period

To B. Cunliffe Esqr
Sub Secretary in Charge
Fort St George.

BR No 3751.

From the Collector of Trichinopoly

Sir

Para 1 In obedience to the orders conveyed by Extract from the Proceedings of the Board of Revenue dated the 11th Ultimo I have the honor to submit the special report called for by Government in reference to the Pagoda receiving a Tusdeek disbursement from the Treasury.

Submits the special report called for by Government with regard to making over villages to the Pagodas receiving a Tusdeek disbursement from the Treasury.—

2 The allowances in Money payable to the various Hindu Religious Institutions of the District amount to an annual sum of Rupees 5,298-13-7, and are disbursed on account of lands and Villages peenmed many years ago by the Nawab Wallajah long prior to the cession of this Province to the British Government.—

3 I have caused the records to be searched for a clue to state where these lands may be situated, but without success. The only papers to be found bearing on the subject are those lists of Villages obtained from the Pagoda Officials themselves

themselves by Mr H. Dickinson as submitted to the Board with his report of 14 February 1828 And which list Mr D. now for the reasons assigned by him considered unworthy of credit and not to be relied on. In this report I would beg to refer your Board as affording every information on the first arrangement of Inadequate payment.—

4 I beg also to furnish an abstract ment shewing the actual allowances paid and giving the grounds on which the payment are granted.

5 I am of opinion that it would be impolitic for the State to almost wrest to the people in occupancy. to make over more of Villages and large tracts of land the Pagodas as new assignments Impolitic because as of necessity lands made over in place of the present payments must be within the vicinity of the Institutions the and these being situated as they are among the most valuable highly cultivated as well as part of the Province would immediately place the Trustees in possession

W. P. W.

Fort St George 1st March 1855.

possession of many of our best hydraulic works and improvements, which have cost large sums of money and in the keeping up of which we may still have a joint interest as Co. irrigators But without the power of making either repairs or further improvements because the works themselves such as head Sluices of Canals &c are in possession of the Pagoda people, unjust. as transferring the Ryots and inhabitants to the immediate fiscal control of utter strangers, whose only interest can and will be to get as much income out of the Village and assignments as possible.—

6 I cannot advocate any change and would continue the present payments in cash.—

7 The Trustees of the large Institutions near to this station seem to prefer the money payments and aver that if lands are assigned them, they will be exposed to great difficulties in realizing their revenues while the feeling of the people themselves is averse to being transferred to the Davisticum Managers. On the plea that their irrigation works will be neglected, and they themselves deprived of that protection and indulgence always shewn them by the Government in adverse seasons by the permissions for shari flood or Waste.

Pd. No 472

To

The Acting Collector of Madras

To the Acting Coll.r of Madras

Dated 31st January inclosure 12th Feby. 1855

Sir

The Board wish some further particulars regarding the item "Amany" entered in the Demand Collection and Balance Statement for January 1855.

2. The amount Rs 9850 seems large for this mode of Settlement, especially as the Samoodayam Dewarm which apparently is the only one in the Collectorate regulated by an Estimate of Produce is so small. The Board wish therefore to know the particulars of which the "Amany" is composed.
