2 In the Statement of actual charges incurred without Estimate in the Revenue Department there is a charge for 12 Remittance Boxes for the

the use of Ootthapedaroum and Nangonany Talooks Amounting to Rupees 31-0-4 This charge ought not to have been incurred without submitting an Estimate and obtaining Sanction. The Board of Revenue will call the attention of the Collector of Tinnevelly to this remarks for his future guidance.—

3 Some arrangement should be made by the Board for expediting the transmission of these accounts, for the Government observe that it now only wants a week to the close of Fusly 1264 and only 18 days to its close according to the old mode of reckoning, and still the Statements of charges for Fusly 1263 are due for ten Districts.—

Proceedings thereon

The Statements submitted by the Acting Collector with the foregoing letter were called for in the Board's Proceedings of the 15th February 1844 (para 14) with the view of having before them in a Comparative

the alienations that had occurred in the Sydapoor Zemindry then recently purchased by Government for arrears of public revenue, and also for the purpose of obtaining the orders of Government on each case. Since the above date however, the present Enam rules have come into force, under which each Enam will have to be reported for orders on the occurrence of a lapse; and as the alienations included in the Statements, do not differ in their nature from other Enams in the District, it appears to the Board that they ought to be treated like the latter. The Acting Collector will therefore be guided by the Enam rules in respect of their disposal for the future if they have not been already subjected to them.

having been Safely Constructed at Addunky by the Cusbah of the Chandalore Talook the old building is no longer required for any Circar purpose. It is in a very dilapidated Condition and it is Estimated that the materials would not fetch more them about 46 Rupees In Consequence however of want of accommodation for travellers at Addunky the Ryots of the Village are willing if it seems if made over to them to undertake to put the Building in thorough repair and Convert it into a Choultry The Village being on the High Road to Hyderabad the want of a Place of resort for Native travellers is said to be much felt and I would beg under all the Circumstances to recommend the appropriation of this Building in the manner Proposed.

2. The subject of all these Petitions to Government is one and the same. The Petitions appear to have been received by Government

Fort St. George 2d July 1855.

Government about the same time, viz^t on the 13th and 19th February and 2d March. The prayer of the Petitions is that Government would interfere to remedy the evils alleged as resulting to the inhabitants of the Bellary District from the intimate relationship existing between the influential Government Servants.

3. My Report which I am directed to submit must be divided into two distinct parts. First, with reference to the Persons who have signed the Petitions, and their competency to represent the Inhabitants of the District, and to be the declaimers against a system under which they are said to be so oppressed, and secondly, with reference to the general subject of the evil resulting from the official influences possessed by the class of Servants, who for the most part occupy the public offices.

4 With respect to the Petitioners whose names appear to the four Petitions, I would remark that the same signatures are in many instances attached to

Fort St. George 2d July 1855.

to the several petitions, though the subject of each petition is the same with no other view I can conceive than to deceive the authorities at Madras. The Total sum of names to the four Petitions amount to 71 Signatures. The actual number of Individuals however who signed the Petitions appear to me to be only 31 persons. For instance in the Petition № 41 there are 22 names attached and 12 of these names again appear in № 33 and 14 again in № 39. and so on.

| In Petition | Signatures |
|---|---|
| № 33 | 13 |
| 39 | 20 |
| 40 | 16 |
| 41 | 22 |

5 An analysis also of the parties who have signed the Petitions will not be out of place, for it appears to me that the value to be attached to the Statements contained in the Petitions (which are drawn out in the usual exaggerated style) and the amount of deference to be given to the prayer of the Petitioners must depend upon the respectability and standing of the subscribers. a list of the names of the parties whose signatures appear in the several Petitions is enclosed. †№1. officer was dismissed- Hence may be
traced the cause of his signature being
attached-

Nos 12 to 18 These seven Signatures
are of parties from neighbouring Villages
in the Raidroog Talook, of which Nara-
:sapah is the Curnum and against whom
their Complaints have been directed and
have been disposed of already- But they

the Prosecutors in a case of Murder committed in that Village and may have some grievance to complain of in connection with that case.

No 23 Appears to be a Talary of some Village who cannot be supposed to have much interest in the matter complained of.

No 24 May be classed with the class of persons above alluded to, viz 4 to 11.

No 25 26 27 are persons unknown who they are. They do not appear to be persons of any influence.

No 28 Is a Brahmin, an ally of the ex-Tahsildar of Bheema Rao.

No 29 and 30 have already been noticed in the first number.

No 31 is some unknown individual.

6. From this analysis of the Petitions, the Board will be enabled to form a correct estimate of the value to be attached to the Statements of the Subscribers. The Board will observe that the Petitioners do not complain of any specific

wrongs that they individually have sustained, but come forward as the representatives of the aggrieved and oppressed people of Bellary. I will leave it to the Board to judge how far the persons whose names are attached to the Petitions as analized above may be considered fit representatives of the inhabitants of the Bellary Province, and, as such, have ventured to approach the Right Honorable the Governor in Council to request that the family and caste relationship existing among the Public officers of Government may be broken up.- Have these Petitioners or the Party at Bellary who no doubt are the real instigators of these Petitions a plan prepared by which they propose to remedy the evils complained of.- Have they men at hand competent to discharge the business of the Government in a satisfactory manner, for whose honesty, integrity and disinterestedness they will vouch and upon whom they and the people of the District, whom

Fort St. George 2d July 1855.

whom they pretend to represent will place confidence - Can the Petitioners whose names are attached to these Petitions be expected to have such a remedy? I think not - These Petitions may be traced to the private quarrels and enmities existing between a few persons at Bellary, and the Court - and some of the Cutcherry Servants - The Petitioners or rather their employers have heard that the Government have expressed a strong opinion in the system of Caste pervading the public offices of Government and have made this a handle whereby they hope to revenge themselves on their enemies - and I look upon the Petitioners whose Signatures have been obtained to the four documents merely as the tools of this party - It is believed they had agents about the District employed to get up signatures to petitions; and to bring a body of Ryots to Madras to

Fort St. George 2d July 1855.

to make a show, if such was the case their success seems to have been most lamentable judging from the result as exhibited by the signatures to the four Petitions which I have the honor now to return -

The second part of this report which I propose to submit will more fitly form the subject of a distinct letter, and it will be submitted accordingly in another communication -

prevails not only in the Bellary but also in other Districts of family influences among the Native Officials—I thought it better to submit my report in a Separate letter and not to mix it up with the report on the subject as it immediately affected the Petitioners—and accordingly I have the honr. to submit the following observations in reference to the orders of the Board of Revenue of 2d January 1855 No. 48 and also of their Circular No. 494 of 5th March last.—

2 The Right Honorable the Governor in Council expressed his opinion that the state of official influence exhibited by the connections with each other of the Public Servants, and the strong tie or bond of caste pervading the whole was not only prejudicial to the public interests but unjust to other classes, and that it was not surprising that this Monopoly of Government employ by one class should have given extensive dissatisfaction—But his Lordship did not wish to embarrass the Collector by insisting on any specific changes, but expressed his desire to see the introduction

10323 Fort St. George 2d July 1855

of all classes into public employ so as to leave no special one predominating, and was willing after this intimation of his Lordships views to leave me a discretion in carrying them out.—

3 In accordance with the expressed wishes of Government, I have been considering how the views of the Right Honorable the Governor in Council could be carried out. I proclaimed at once my wishes to entertain volunteers of other classes than Brahmins in my Office to enable them to acquire a knowledge of the duties of the Office—But this notice has not been attended with the effect intended—The fact is that in Bellary there are few persons, not Brahmins, who are qualified to discharge with efficiency the duties of the District; and if other castes are to be introduced they must be sought for elsewhere—Much stress seems to have been laid on the supposed relationship existing between the public Servants of this District—It did not strike me from the List I forwarded to the Board that the relationship was very close or strong and

10324 Fort St. George 2d July 1855

I do not think that the evils are to be attributed to the relationship existing between the higher public Servants and between them and the Subordinate Servants; neither does it appear to me that the dissatisfaction arising from this Monopoly of Government employ by the only class generally fitted to discharge the duties is so extensive in Bellary as His Lordship seems to suppose. I think I am borne out in the truth of this last observation by the few signatures and the characters of the parties who have signed those petitions. I have just reported* on, and which appear to have been the result of the endeavours of the party to get up a strong manifestation on the subject - and it is a notorious fact that there are not in the District or its neighbourhood, as far as I am aware, people of another class ready to occupy the higher or subordinate situations with efficiency, who might naturally to press their claims and present themselves as instances of the injustice done to their respective classes by their exclusion from Office. It

* in letter of yesterday's date. -

10325 Fort St. George 2d July 1855

It may be a question whether the breaking up the present clanship of Bellary would be attended with the expected benefits. I consider other classes of the Natives, as classes not superior to the Brahmins in honesty and integrity and generally inferior in all other respects as Government Officials; and until men of Official competency can be procured, the introduction of other castes to any great extent will only be attended with detriment to the public service. But the experiment must be made; and I have already expressed my readiness to carry out the wishes of Government; and the Government have left in my hands the responsibility of doing this. But I must, I fear, look beyond the District, and seek the aid of the Board to assist me in carrying out to its proper extent the orders of Government. Vacancies in the Public Offices are few - and when they occur the claims of deserving subordinates have to be considered. Here and there I

10326 Fort St. George 2d. July 1855

I have been able to introduce another caste to subordinate situations where they must be left to their own exertions to recommend themselves for promotion — But this is not in my opinion a sufficient measure — I feel it to be my duty to adopt or at least to suggest more vigorous measures to give effect to the wishes of Government, as upon me, in a particular manner, has been laid this responsibility — and the Board of Revenue have declared that it "must in a great measure rest with ea "Collectors themselves to remedy this evil, "the ill effects of which, "they observe," are "so palpable that the Board trust no effort "will be spared at once to diminish and "eventually to remove such influences" — Though at the same time the Board admit that "it would probably be found impracticable "to supply the place of the favoured class "at once to the desirable extent by other ea "castes without prejudice to the public interest "but the Board hope that in a short time "I shall find no difficulty in securing "efficient men from all classes and in "proportioning fairly my patronage among them

See para 3 of Circular Board of Revenue No 59 dt. 5th March 1855.

10327 Fort St. George 2d. July 1855

I am afraid the object will 5 not be gained in so short a time as the Board anticipate, unless one of two ea measures, which I have the honor to e propose for the consideration of the Board is adopted. —

To give early effect to the 6 orders of the Board and Government, I think it will be necessary either to trans fer a number of the present Officials to other Districts and to receive in their place men of another caste — This measure, I apprehend, it will be difficult to carry out; because it may be found that other Districts have not men of other castes ea available who would be competent to discharge the duties of a foreign district. There would also be some injustice in = transferring men from their own Country. —

Or else to have recourse to pen 7 sioning off a number of the older Servants both in the higher and lower grades; and to supply their places at once with men of other castes — This measure would be attended with some degree of hardship, but if a liberal pension was allowed,

the

Fort St. George 2d July 1855

the hardship would not be very great. But to carry out this plan, I should still have to trust to the assistance of the Board in procuring the new men, and I apprehend that some difficulty would be found in at once procuring competent persons to fill the Subordinate Situations of Goomastahs in this District, though for the higher situations of Tahsildars or Talook Sheristadars the Board may know many persons whom they deem qualified for those Offices.—

8 If neither of these plans are approved of by the Board, I shall feel at a loss to know how to carry out to the proper extent the wishes of Government in a matter on which they place so much importance. For the process of mixing the classes in the public Service must from the want of competent persons, from the slow progress of promotion, and from the claims of other men when vacancies do occur, necessarily be very slow in Bellary. Fearing lest I should

Fort St. George 2d July 1855

should appear to be neglecting rather than forwarding the wishes of the Right Honorable the Governor in Council, if I confined myself to the slow process of filling up situations as they fall in with men of other pastes so difficult to be procured in Bellary, I have thought it right to bring to the notice of the Board the difficulty I experience and to await their orders.—

9 With respect to the situation of the Hoozoor Sheristadar, it is probable that a vacancy will occur in a very short time, and I shall then have the honor of bringing the subject of introducing a man of another paste into this Office before the Board.—

Offg. Secretary to the

Court of Wards

Fort St. George.

Sir

Rd. No. 695.

From the Collector of Madura.

Reports on the Statement of the Minazemindary of Shevagungah and submits that of the Sub Collector's on that of Ayacoody for Fusly 1263.

I have the honor to submit my report on the Settlement of the Shevagungah Zemindary and the Sub Collectors' on that of Ayacoody for Fusly 1263 Rd. 1855/56.

2 The Jummabundy of Shevagungah was conducted by the Manager.

3 In forming the Settlement, Poonjah lands to the small extent noted in the Margin in the 2nd line which paid a Warum or share to the Zemindar till Fusly 1262 inclusive were assessed with a Money tax in Fusly 1263 at the rate prevailing

| | Land | | Tax | | | Average per Cawney | | |
|---|---|---|---|---|---|---|---|---|
| | Cawneys | as | Rs. | a | ℘ | Rs. | a | ℘ |
| Lands previously paying Teerwa in Money | 23928 | 8 | 29772 | 7 | 11 | 1 | 3 | 11 |

prevailing for other lands in the same or in the adjacent Villages for the sake of uniformity and to avoid the inconveniences attending the System of dividing the produce. —

† As in the Government Talooks so in this Zemindary the season was unfavorable. Previous to September, the falls of rain were partial, and the Manager reports that in the Zemindary generally the quantity was scanty in September, October and November; but the Rain Reports shew that in Cusbah Shevagunga itself the supply was considerable in those Months. It ceased however in the middle of November and was succeeded by a drought to the end of the Fusly. The Crashes in the Vigay river were shewn in my Report on the Ayn Talooks to have been scanty, a circumstance which always tells greatly against this Estate which obtains its irrigation therefrom only after the Government Talooks are served

† 31st Decr. 1854

In

In consequence of the above there was a decrease both in the extent of land Cultivated and the quantity of Grain Vca. produced. A considerable portion of the Crops also were withered. —

5 An increase of 2 Villages will be found in Statement No. 2. One of them is Sackalianandel in Parthepanoor Talook consisting of about 11 Cawnies, which was granted by a late Zemindar on permanent Cowle to an individual, who deserting in Fusly 1251 when the Zemindary was under the Collectors management on a former occasion, Mr. Blackburne directed that in default of the appearance of the Cowle Holder and payment of the Balance within a limited period, the Village should be incorporated with the Zemindary. This order however was not acted upon at the time and escaped notice till recently. The Cowledar has not returned. The accumulated arrears of Quit Rent upto Fusly 1261 inclusive, have been recommended to be remitted in my report

on

on the Jumma bundy of Fusly 1262 and that for Fusly 1263 is included in the Statement of proposed remissions now submitted. —

6 The other Village Kottoyandel, situated in the Caliarcoil jungle, is formed out of lands which neighbouring Cowledars, were found to have cultivated beyond their limits. —

7. The Settlement of the year amounted to Rupees 4,34,819 – 11 – 8 a/P exceeding that of Fusly 1262 by Rs. 21,018 – 3 – 11. —

8. This increase is wholly owing to the enhanced price obtained from the Zemindar's share of Paddy consequent on the drought in the neighbouring Districts; the breadth of Cultivation, and amount of production per Cawny having, as before observed in treating of the Season, fallen short of those of the preceding Fusly as will be seen from the annexed abstract, where it is shewn that notwithstanding a decrease of

Culls Att. Mea.
58,397 – 0 – 1 in the quantity he realized in this Item Rupees 37,584 – 15 – 6 more than 1262, in consequence of an augmentation

of about P. in the Price – Under all the other Heads of Settlement in Kind, the falling off in Cultivation and e= produce more than balanced the ad= =vantage from price – and there was e= decrease also in lands assessed in Money and ready Money Collections, so that the Net Increase was reduced to the amount stated in the pre= ceding Para. —

Recoverable Balance

Paddy ——— 10,153 — 15 — 2

Ready Money ——— 3,137 — 8 — 5

13,291 — 7 — 7

Rupees 2,206-9-5 is due by Mootoo-sawmy Pillay a Paddy contractor of Fusly 1258 referred to in Para 16 of my Report of Fusly 1261. I have not been able to discover any property belonging to this person to meet the Decree passed against him by the Courts, but shall move for his confinement in Jail in order that, if he has any concealed, he may be induced to produce it, or

or any rate suffer some punishment for his dishonest conduct which may deter others. The sum of Rupees 1,027-13-4 is due by Abdul Kader Mercay the Paddy Contractor of Aroorvuttagay Talook for Fusly 1259 for the recovery of which a plaint is under preparation to be filed in the Civil Courts. A further sum of Rs. 681-1-6 is nominal only, being the value of a portion of some Paddy paid for by a Chetty, which stands as a Balance in account till the delivery is complete which it soon will be. The remainder is under collection. —

Of

14 Of the ready Money Balance, Rupees 1,879—2—1 are to be recovered from the proceeds of certain Porcupoo Villages under attachment, and the remainder is in process of realization.—

Doubtful Balance 1,464—13—1

15 This is under investigation.—

16 This is Composed of Rs. 1,342—11—10

Irrecoverable Balance 2,299—8—8

remaining after deduction of Rs. 3—6—0 subsequently Collected from the amount recommended to be written off in Para 16 of my report for Fusly 1262 and Rupees 874—12—10 belonging to Fusly

Fusly 1262. For the reasons detailed in the remarks to Statement No. 10 which accompanied my report for Fusly 1262 and which apply equally to the irrecoverable Balance of 1263, I beg to recommend that the whole may be remitted.—

Statement No. 12.

17. As regards the arrears prior to Fusly 1250 forming the subject of Paras 17 @ 20 of my report of Fusly 1262, I beg to state that of the total amount of recoverable balance entered in Statement No. 12 of Fusly 1262 Rupees 10,107-7-3 have been since realized and the remainder, mostly consisting of Items requiring mere adjustment, will soon disappear from the accounts.—

Statement No. 13.

18- Of the Doubtful Balance entered in Statement No. 14 of Fusly 1262 Rupees 302-4-9 have been since recovered.—

19. I would repeat my recommendation for writing off the irrecoverable balance in Statement No. 13 of Fusly 1262 with the exception of Rupees 18—0—11 since collected of the

| | |

the 1st. Item of the Statement.

20- The Manager makes a request, &c which appears to me to deserve support, Viz. that Batta may be allowed to his Establish=ment when on Circuit, as with exception of himself and the Head Gomastah who are &c respectively in receipt of 210 and 40 &c Rupees a Month, the pay of the Servants is small, the highest rate being 14 Rupees.

21- I beg to draw the attention of the Court to the large amount received by Government on account of Commission for the Management of the Estate. This is a clear profit, no disbursement whatever being made from it, but indirectly the Government pays a good deal, a large portion of the &c time of the Head Sheristadar and other servants being taken up in examining &c Shevagungah accounts and the attention given to the Government Talooks being &c proportionally decreased. Owing to the various Government enquiries now on foot this is a

serious evil and it seems to me both reason=able and very desirable that the amount &c received for Commission or a portion of it should be expended in maintaining an &c Assistant Sheristadar and Establishment, who would perform the duty subject to the &c general control of the Head Sheristadar. &c At present the Zemindary pays for a Hoozoor Establishment which is very insufficient for the work, consisting not simply of the examin=ation of Ordinary Revenue Statements but also of long accounts relating to debts &c rendered extremely complex by their connection with grain Contracts &c. &c. the Chetty being in one a lender and in another a borrower.—

At the same time the Manager complains &c loudly and with some reason that he is not provided with sufficient servants. I would therefore propose to add servants to the present Sibbundy in the Zemindary to the amount now taken by the Hoozoor and to appoint another more efficient than the present

to

to the Hoozoor, and if the Court view this sug-
=gestion with favor I will submit the de-
=tails - The advantage of the arrangement co
will be much increased by its being speedily
made -

22. I have examined the Minor and am
unable to state that he does justice to the co
exertions of his Tutor Mr. Fletcher - He co
can read English, Tamil and Telugoo and
has some knowledge of Geography and co
Arithmetic, but lags considerably behind his
class fellows whose attainments prove that
the fault lies in the Minor's abilities and not
in Mr. Fletcher's attention - He is particularly
deficient in memory, but as I have stated
in former reports he is attentive and his
behaviour very respectable. Two younger co
brothers share Mr. Fletcher's care with him
and seem to be doing well for their ages -

23. Neither the Manager or Guar-
=dian have given me entire satisfaction -
Their zeal in the performance of their duty co
is

is less conspicuous, than a desire to maintain co
their own power - The Manager is well acquainted
with the affairs of the Zemindary, and has co
laborious duties to perform and what I have
chiefly to complain of in him is a very prolixe
dilatory manner of doing business; a want
of clearness in his explanations, and an apparent
desire to turn out Servants on insufficient co
cause to put his own dependants in their co
place - The Guardian is deficient in temper
and has an inflated idea of his importance -
His behaviour has been frequently complained
of by Mr. Fletcher and the Minor, and the co
little he has to do has not been done well -
The Tutor's house at Madura, the construction
of which was committed to his charge, though
sanctioned in 1853 is not yet half done -

24. Mr. Clarke's Report on Aya-
=coody cannot be abbreviated and transferred
to this with advantage - I content myself
therefore with requesting the Board's particular
attention to the 58th. and following Paras, in
which

which he combats certain petitions which have been given against his Management as compared with that which preceded it- I am quite sure that those Petitions do not express the genuine feelings of the body of the Ryots, but are got up to serve the purpose of the Malle of the Zemindar, who is dissatisfied with his loss of power- The observations in Para 64 the Court may perhaps construe as an intimation of Mr. Clarke's opinion that the Minor's Education would be conducted with more advantage at Madras than Madura; but I have ascertained that this is not his meaning- He approves of Mr. Fletcher's management of his pupil, and is only anxious that the boy should be kept as much as possible from people who come from his Zemindary to tempt him to vice and idleness- It is impossible to prevent intercourse with such people altogether while the boy lives with his friends, but the endeavours shall be made.

25- Under the orders of the Board dated the 9th June 1853, the Minor Estate of Velliagoondum, paying a Peshcush of Rs. 2,183-11-8 as. p. is in the hands of a Renter, whose management does not call for any particular remark except that he does not agree well with the Ryots.-

26. Jothelnaikinoor, paying a Peshcush of Rupees 1070-3-11 as. p., is managed by the Mother and Uncle of the Minor and I hear of no complaints.-

27. The very large Zemindary of Ramnad is (as the Court are well aware) in the hands of a female Zemindar, who manages it by means of her Brother- I have no reason whatever to change the unfavorable tenor of the Reports I have, for several years, made of the administration of this Estate- The Tanks continue unrepaired, and the servants unpaid; the Ameens are constantly changed, and it is said that the appointment is put up to the highest bidder, who must of course plunder

10377 Fort St. George 2d July 1855.

plunder his employer or the Ryots in
order to live, as his Salary is not
regularly paid. Some Talooks withhold
their Kists altogether. In short
the Zemindary is nearly dis-
-organized, and as the Zemindar
is a very sickly Woman, and
the Government would appear to have
the best claim to succeed her, I would
strongly recommend that as soon as an
Extra Sub Collector or a Special
Assistant can be spared
the Estate may be taken
under the Court of Wards.

No. 11.

To,

R. D. Parker Esquire
Collector of Madura.

Sir,

I have the honor to submit, with 13 Statements as specified in the margin, a report on the Estate of the Minor Poligar of Ayagoody at present under the Care of the Court of Wards.

2. This Estate Comprises the Poliapat of Ayagoody which is Charged with an annual Peshcush of Rupees 16785-2-3. and the Mittah of Rettiembady paying a annual amount of Rupees 11978-11-2. to Government, making a total annual Summa of Rupees 28763-13-5.

3. The late Poligar Komara Kondama Naick died on the 15th April 1851. In consequence of the minority of Sanaka Rama Komara Kondama Bommi Naick the only Son of the Poligar, the Estate was on the 28th April 1851. placed under attachment by the late Acting Sub Collector Mr. Levinge until

until the orders of the Court of Wards and of Government could be ascertained in regard to the will of the late Poligar who had therein appointed his youngest brother Obalacondama Naick the Guardian of the Minor and the Manager of the Estate.

4. By their Proceedings of the 11th July 1851 the Government on the recommendation of the local authorities and of the Court of Wards sanctioned the arrangements proposed in the will of the Minors late Father.

5. But the Manager having been found incompetent was, on the 28th June 1853, removed from his office and Sungamoo too Pillay the Sahsildar of Ayemputty appointed to it on the same date. This officer died on the 20th April 1854 and has been succeeded by Soobbien the present Sahsildar of Ayemputty who was appointed to the office on 24th April 1854.

6. At the time the Estate was first assumed there were found to be in the Treasury Rs. 4987-4-- in gold coins and bullion, Rs. 13938-7-0 of jewels and vessels and also property in the shape of household furniture and Cattle amounting to Rupees 876-8-- making a total of Rs. 37632-3-

10420 Fort Saint George 2d July 1855

and an outstanding balance of kist amounting to Rupees 7,180-5-9.

7. Large debts were stated to be due by the late Poligar and sums of money have since been found to be owing to him.

8. The former have been fully enquired into and with the exception of a small claim of Rs 283-8-- said to be due, have been discharged under authority from the Court of Wards.

9. The latter are at present under investigation and a Separate report on them will be submitted when the enquiry is Concluded.

10 From the date of assumption till the Estate was made over to the charge of Obalacondama Naick on 6th September 1851. Rs. 6982-3-1. were collected from the Ryots of Ayagoody &c. and Rs 5419-9-9 were disbursed in payments of kists, for the maintenance of the Minor and his relations, for the Salary of the establishments of public and private servants and for Sadarwad.

11. The Receipts and Disbursements during the short period the Estate was under Government management as well as the amounts paid over to Obalacondama Naick are shewn in the following Statement.

15. The Summabundy of Fusslies 1261 & 1262 was settled by Obalacondanna Naick of the revenue of those years amounting in all to Rs. 17,515-11-11 he Collected Rs. 6791-4-9 leaving at the period the Estate Came under the charge of the Court of Wards a balance of Rs. 9602-7-2. uncollected on account of those fusslies.

16. Having made these preliminary remarks I shall proceed to report on the settlement of fusly 1263 as much as possible in the order laid down in the Boards letter of the 14th September 1854.

the Village at which the settlement was made. 17 The settlement of all the Villages of Ayagoody was completed by me at Pulney only 3 miles from Ayagoody Cutcherry. The difficulty of obtaining supplies at Ayagoody led me to remove my Cutcherry from it to Pulney.

18. The Mittah of Pittiembady was rented by the deceased Poligar to 3 parties for different periods of 10-13 and 20 years for Rs. 17537-10-- including Peshcush and small Charges amounting to Rs. 389-2-2. The following Statements will shew these particulars more clearly

Statement

19. These leases having been undoubtedly given by the late Zemindar have not been disturbed and I have much gratification in bearing testimony to the able manner in which Koollapa Naick manages the farm entrusted to him and the liberal and enlarged principles which guide him in his dealings with his Cultivators who exhibit substantial marks of increasing wealth and prosperity. The Poonjai and Wet lands of his farm are devided into small estates which are rented for long periods on favorable terms to the Cultivators, who enjoy all the benefits of the improvements they may introduce either in the mode of Cultivating their lands or in the produce they may raise.

20. There are belonging to the Poliput of Ayagroody 11 Villages with 16 hamlets attached as specified below. one of these Villages Combapuddy was granted in perpetuity by the late Poligar for the support of his brother Obalacundama Naick free of all tax – an alienation which appears to me clearly to Contravene the letter as well as the Spirit of Sections VIII and XII Reg. XXV of 1802.

23. The season was, as has been shewn in my Report on the Sub Division, far from favorable. The rains were scanty & late and though the tanks received a full supply of water in Oct., the subsequent failure of rain not only prevented an extension of cultivation but the crops which had been planted suffered greatly from the drought and the outturn was much below the average.

Season

24. The villages attached to this Poliput suffered in common with other parts of the District from the prevailing epidemics of cholera & small pox.

Prices of grain

25. The prices of all grains ranged high especially during the latter part of the season & generally compensated the ryots for the loss of produce.—

26. During the life time of the late Polgar it was customary with him to rent out most of the villages on rates a little above the assessment fixed on them at the Tyzul to some of the chief villagers or to some of his servants or hangers on. In the one or two villages retained under his personal management, it was customary with him to confer on favored ryots & others tracts of land on Cowl tenures & also to grant remissions on the holdings of others. These remissions were made on no fixed principles but varied from Rs. 70-1-2 per cent to Rs. — 13-7. They were

10431

Fort St George 2d July 1855

were not carried to any one village must be extended to all the Ryots alike, & none but those who were made to encourage improvements in or extension of cultivation, & others more favorably circumstanced, afford to have extracted the enhancement. The greater portion of the land in dispute of the village is the bleak & barren soil and was, with the exception in the village of Ayagoody, at the Fusl rated at 3 fanams per Cawny or Rs 1-2 per Cawny.

The profits of the cultivator from the said land are generally large and more certain than those obtained from the best soil which is heavily assessed at 10, 12½ & sometimes 15 per Cawny or other village the best soil is denominated. The whole land mentioned village is customary to grant leases = including on the said soil & to allow the cultivators to take upon lands for grazing, keeping at the rate of Pagoda Rs 1-4 to 1-8 per Cawny as it was either included or not in their holdings. The Collector was more liberal in his remissions than even his Father, as usually to a certain several years.

It was also a practice with the late Dubash when farmers would not yield to his terms to obtain from them lands of inferior description for lands, which were then taken up by the Dubash & entered in the accounts as his private lands or Punnay. These lands were rented out for one year, either on the names of share tenants or some few cases, these lands of inferior description do not appear to have been obtained in the most advantageous manner, but the practice seems often to have excited objections & one to the discouraged.

Except where cause the lands during the last year were given out on the full rate

The following table gives the particulars of Land assessed for last year Compared with the holdings of the 3 last Fusl Cist-

31 In three villages where it was found that the waste land agreed for had been used for pasturage a tax of ½ fm. per Gooly of Poonjai and 1 fm. per Gooly of Totam was imposed.

32 During the lifetime of the late Poligar and the management of his brother, the lands were held on Putcut, that is, the ryot paid for the whole land in his possession whether cultivated or not, but to enable him to do so, large remissions in the rate of tax became necessary. In fusly 1263 the full tax was generally demanded for the land brought under cultivation, but remissions were granted for waste lands except in the case of pasture lands.

33. It will be seen that the outturn of the Settlement of the present year is Rupees 73-14-1 in excess of the outturn of the last fusly and Rs. 259-13-9 and 931-3-10. above those of the two preceding fusles.

34 The whole amount of land included in the villages composing the Poliaput of ayagoody, the quantity fit for cultivation with the extent brought under cultivation during the last year and the average rate of assessment paid on each County on the different classes of cultivated land, together with the proportion the cultivated land bears to the waste are shewn below.

Poonjai converted to punjai Rupees 171 13 3

40 The next item of reduction is the difference between the full tax originally imposed by the Poligar on certain lands converted from Poonjai into Nunjai and that which has for years past been collected by him on these lands. As this remission was by the accounts shewn to be customary it was continued this year.—

41. The next item amounting to Rupees 1 10 3 was granted on certain lands converted from Cerumbokie into Poonjai and which during the Poligars time had enjoyed the Maaf remission granted by Mr. Hurdes on the adjoining Poonjai.—

Poramboke converted into punjai 1 10 3

42. This is the remission granted by the late Poligar on the Puttahs of several ryots for fixed periods; which periods have

not yet terminated. These remissions were only granted where Puttahs bearing the signature of the Poligar and fully proved were produced.—

2d crop of cotton Rs. 8 2 2

43 A remission of Rupees 8—2—2 was granted for cotton in the 2d year of bearing.—

44. The remaining items of remission amounting in all to Rupees 526—13—8 appear to call for no remark.—

Sugar cane

45. No sugar cane has been grown in the Poliput during the present year.—

49. It was customary with the Poligar to rent the Villages to one of his servants who again subrented them to the Hill people for a further sum of Rupees 61 11 "

50. The manadies of each village rented the villages in Fusly 1263 for the amount they were accustomed to pay the Subrenter.

51. In regard to the land used for the manufacture of Salt petre it was customary with the Poligar to rent out certain lands to the manufacturers for 50 Rupees per annum and half a candy of Salt petre. In the present year the parties consented to pay the price of Salt petre or 8 Rs instead of making any payment in kind.

52. The late Poligar it appears purchased some lands from a cultivator in the Ayen Village of Ayempully which he either cultivated himself or rented: during the management of his brother the lands were rented out to one of his attendants on Sawny bogum tenure for 20 Rupees per annum. As another tenant could not be got on more favorable terms this arrangement has been sanctioned for the present.—

53. The General Abstract shows notwithstanding the quantity of land agreed for and left waste a net increase over the preceding years Settlement of Rupees 73 11 1.—

55 The Balance remaining at the end of the fusly amounted to Rs. 4,125-9-4; this has been reduced by Rs. 100-1-2, but a large balance of Rs. 3,125-7-10 still remains uncollected - This arrear is owing to the late date at which the Settlement was concluded. The illness of my Pheristadar and the necessity of examining into many years accounts & of making enquiries into the nature & usage of the late Poligar caused much delay & prevented an earlier settlement of the several questions raised during the Summahundy -

56 The old balances extend over a series of years as shewn below; several have already been adjusted and the others will I trust, all be disposed of before the close of this year -

58 In forwarding the accompanying Petition from the Ryots of Agragoody, you desired that it might be noticed in my report- The Petition is signed by 178 out of 1,040 Ryots- They Complain that, though the Talooq put was ably and advantageously administered by Oolaconda Ruck the uncle and Guardian of the Minor, it has been with= =out any apparent Cause transferred to the care of the Court of Wards & and that the Consequence of this transfer has been a falling off in the Revenue to the extent & of 3,000 Rupees- a diversion & of their water from the Meen= =paraie annaie to the Villages & of Pulney and much annoy= =yance, oppression and injus= =tice from the officials & appointed

appointed to the Charge of the & Estate who alone prosper at & the expense of the Minor, the & uncle and the people- on the & receipt of this Petition I sent for the people who signed it and questioned them Regarding it- They almost all admitted their Signatures but alleged they & Knew nothing of the Contents & of the Petition, further than that it Complained of the & diversion to the Pulney Vyapoory tank of the water which & had been for several years & enjoyed by them by the Construc= =tion of the works perfected in 1852-53 in the Meenparaie & Channel- This Petition I have every reason to believe, has been got

10453 Fort St. George 2nd July 1855

got up by the late Manager and some of his immediate dependants and favorites who have doubtless suffered by the transfer of the Estate from the management of the uncle to the care of the Court of Wards—

59 In regard to the water, I believe the question has been fully considered and disposed of—the matter was originally brought under the Cognizance of the late Collector Mr. Davidson who passed a decision on the matter in accordance with a decree of the Punchayet under Regulation XII of 1816—His decision was never appealed against nor objected to by the Ryot or his under or his party, as

10454 Fort St. George 2 July 1855.

It was carried out by the construction of a calingulu with 5 sluices but it having been discovered that the people of Ayagoody had scooped out that part of the rock over which the water flowed to them & that thus lowering the level of a part of the foundation, had deprived the people of Pulney of large portions of water to which they were justly entitled under the decree, a regulating sluice was built which prevented the Ayagoody people from continuing their fraud. It is against the erection of this new work the Petition chiefly aims—

60. That there has been no loss to the Minor by the transfer notwithstanding the extremely adverse character of the season may be gathered generally from the report and the subjoined Statements will also clearly shew that this advantage has not been gained at the cost of the people generally. I have reason to believe that they are perfectly satisfied with the settlement & that already they appreciate the advantages of a liberal & just policy—

61 The general statement regarding oppression & illtreatment are altogether without foundation. Enquired particularly of every ryot whether he had any charge of oppression to bring or whether any had been in any way illtreated. Only one man formerly a dependant of the Zemindar complained he had been made to stock because he did not pay his kist but he could not substantiate his charge at all. The only other complaint the people had to make was that they were compelled to attend occasionally at the Cutcherry at Polney 3 miles from Ayyoty when any disputes occurred & if they had any representation to make to the authorities. that no advances in the shape of Taccavee were given and that they could not borrow money as formerly from the Zemindar.—

Regarding

10458 Fort St. George 2d July 1855.

62 Regarding the disbursements though there have been during the year and a half the Estate has been under the management of the Court of Wards, been some heavy drafts on the Treasury to meet the debts of the late Zemindar and the marriage expenses of two of his daughters and though a larger amount has this year been expended in Marahmut than was disbursed during the whole of the period the Estate was under the late Manager there is a balance of Rupees 3056-5-9 up to 31st January 1855 in the Treasury without any further claims upon it than the ordinary expenditure for Sibbundy charges and Maintenance.—

63 Regarding the former of these charges I hope to be able

able shortly to report a reduc-
tion in them in consequence
of the discharge of the Sibbundy
establishment entertained to
examine the lands and ad-
adjust the accounts.—

6th The most important advan-
tage gained by the transfer of the
Estate to the Court of Wards
and the one which is most irritating
to the Guardian has been the removing the Minor
from Agagoody and the placing
him under the instruction of
Mr. Fletcher in Madura, a
where the little boy seems,
under judicious and valuable
training to be making good a
progress in his acquirements
and where he may I hope
imbibe such principles as a
may prove of essential a
service to him hereafter in
the management of his estate
and in his conduct towards
and treatment of his Ryots. a

13th No. 756.
From the Collector of Madura

Sir;

With reference to the Proceedings of the Board dated the 25th September 1854, I have the honor to state that the Tasildar of Tenkurray having in consequence of my instructions endeavored to convey the wishes of Government in regard to the abolition of Hill Tascco and the levy of a petty tribute as a token of fealty to the wild tribes of the portion of the Pulney Hills in Rio Talook, reported to me the names of certain persons who consented to pay small sums in lieu of a Rent for Honey, wax &c. valuable as it was evident to me from the amounts proposed that the object was misunderstood and that acceptance of these offers would reestablish the rents under another name, I deferred giving any order regarding them till I should see some of the wild people who inhabit the Forests on the sides of the Pulney Hills -

2 With considerable difficulty three Individuals of them were induced to come to me, who represented themselves to

be

Fort St. George 2d. July 1855

the heads of families in Hills above Combums Combay and Pauromuntenpully - They were diminutive in stature and very slender in limb, but not so deficient in intelligence as might be supposed and spoke the Tamil language with more purity than many of the lower Castes in the Plains -

3 I could not discover from these persons that there is any such Cohesion amongst the families as would Constitute a tribe - I know not therefore where to look for Chiefs with whom to enter into engage-ments for a tribute; each family or rather Collection of 3 or 4 families related to each other, must be dealt with separately and as they live in Caves and Trees in Forests nearly inaccessible and will run away when sought for, I can name no time within which per-sonal intercourse could be obtained with the Heads of families - The Board will find their habits well described in Mr. Clarke's letter of the 14th January 1853 which was submitted in mine of the 16th February following

4 The 3 Individuals I have mentioned would have Consented to give in tribute any thing or sum I chose to ask - I think a quarter of a Rupee from each for the persons Connected with them will be sufficient and I recommend that the Sub Collector and myself may be authorized to settle for this sum with any Heads of families who may be able to find-

Mr. Clarke who has seen more of the Hills than any other officer reckons the number of families at be-

I spent a Considerable time in endeavouring to im-press on this people that in future they were at full liberty to sell any thing they might Collect for their own advantage, and that no one possessed the right to take it from them -

B. No. 1769
From the Collector of Madura —
Submitting the Statements called for by Circular No. 115 dated 15th January 1855 —

1 I have the honor to forward the Statements called for by your Circular No. 115 dated 15th January 1855 -

2 The Causes of delay in its submission have been the difficulty in obtaining infor-mation of sundry Enams in Villages wholly alienated and the late receipt of accounts from the Sub Division -

3 The Statements do not embrace Enams situated in unreserved Zemindaries - Previous to my arrival in the District it seems to have been supposed that Govern-ment had no concern with these, and the Records Contain no accounts shewing the sundry Enams in the hands of Incumb-bents as regards any Zemindary - In res-pect to the large Estates of Ramnad and Shevagungah, we have no accounts of the Enams at the Tyaub - Two or three years ago I sent Circulars to all Zemindars to furnish accounts, but

From

from many including Ramnad, they have not yet been Received. It seems to me quite clear that to Enfeoff Enams in Zemindaries excluded from the Assets on which the permanent Settlement was fixed, the Right of Government is exactly the same as to Enams in Government Villages, but to enforce this Right is nearly if not quite impossible, particularly as regards such large Zemindaries as Ramnad and Shevagungah, for how are they to be managed where there are no Government Servants, or if any only a few entirely employed in Police and unequal in Strength even to that duty—

4 In Statement No. 1 - 14 Entire + Villages are entered, the Sundry Enams included in the Ayacut thereof being deducted and carried to their respective heads in Statements No. 1 and 2 - In the same manner are entered 207 # entire Villages enjoyed by Dasastanams and Dasastanams Sibluns: =dies which come under the head of "Endow: =ments on Pagodas" in Statement No. 2 -

5 Of the Ayacut Lands shewn in Statement No. 2 those Cultivated in 1261 have

have their net assessment exhibited after deduction of the remissions "Hoolooo mauf." and "Moonasib Cummee" from their Jaram assess: =ment, and those made have their Jaram = assessment only shewn, because as regards the latter, the Ayacut Statement of that Fusly does not particularize the remissions "Hoolooo mauf" and "Moonasib Cummee" and not assess: =ment, but only exhibits the aggregate as Jaram assessment - The entry of the Ayacut of Fusly 1261 has been necessitated by the Ayacut Statement for Fusleis 1262 and 1263 being still under preparation from difficulties arising from the intro: =duction of new Forms -

From the Collector of Madura —

In reply to your letter of the 21st. Instant, I have the honor to state that I fully appreciate the advantages of a printing Press, and consider that in no District is one more needed than in Madura on account of its great size and population, and the excentrical situation of the Capital, which hinder the diffusion of information by the means hitherto available, a task of much difficulty. I have refrained from applying for one, but I have refrained from applying for one hitherto, because no one pos my Establishment knows how to work it, and have at present no room in the Cutcherry to place it in - The latter difficulty, however will be removed when an upper room under repair is completed, and if as I hope an uncovenanted Assistant is allowed to this District, he could make himself sufficiently acquainted with a Press before leaving Madras to superintend its operations here -

B No. 772
From the Collector
of Tinnevelly
Explaining the
Cause of the
disproportion
between the
cultivated and
uncultivated
lands both in
Punjah and
Poonjah

I AM directed to refer to Extract from the Proceedings of the Board of Revenue dated the 21st September last, I have the honor to forward the accompanying Statement from which you will perceive that the entries in Col. 6 & 7 of the Statement which accompanied the Honorable Court's Dispatch as Concerns this District are Correct, but include the extent of Tolady or 2nd Crop cultivation, which is shewn distinctly in the Statement now forwarded with the Columns 8-9-&10 duly filled up as required. The area entered in Col. 11 being only that of the Government Inam lands and not inclusive of the Poliput lands, it differs from the amount entered in the Honorable Court's Return.

2 With regard to the explanation required respecting the

Fort St. George 2nd July 1855

the disproportion between the Cultivated and uncultivated lands, I beg to inform you that about 1/3 of the arable Punjah ayacut in this District lies waste owing to General Causes, Viz. 1st To lands which are so Circumstanced as to lie beyond the Reach of Tanks or Channel irrigation having been originally included in the Punjah ayacut - 2d want of sufficient Repairs to works of irrigation - 3d some of the lands included in the Punjah ayacut being quite unfit from the bad nature of the soil &c. to be cultivated with wet produce and to the present Punjah rates bearing heavily on lands in some localities, but the indulgences already granted by the Board in Extract from their Proceedings of 2d August and 28th September last, and their anticipated favorable orders on the suggestions about to be Submitted in a Report under preparation for

Fort St. George 2d. July 1855

for a general Reduction of assess-
-ment both on Punjah and Poon-
-jah lands, together with the aug-
-mented outlay now making on
works of irrigation, will, it is
expected, operate to produce a
better Return of Cultivation under
both Heads in future years.

3 With Regard to Poonjah
Lands, I have the honor to state
that the large extent Returned
as uncultivated under this Head
includes for the most part, Sandy
tracts to the East of the District
bordering on the Sea Shore—the sites
of Sand Hills, and the forest lands
at the foot of the Hills to the west,
as well as Lands entirely unfit
for Cultivation from Badness
of the soil; all which were originally
measured and entered as Punjah
ayacut, instead of being Returned
as barren Lands. High Rates on

of

Fort St. George 2d. July 1855

of Cultivation in some Localities
and distance from habitations in
others also tend to diminish
the extent of Cultivation. Some
kinds of soils more over will
bear to be Cultivated only once
in 3 or 4 years and are necessa-
-rily allowed to lie fallow during
the intermediate periods.

Ordered to be entered on the Proceedings of the 27th Inst.

Fort Saint George 2d July 1855.

South Canara is chiefly supplied from Mysore, the principal Stock being brought to the annual fair of Soobramanya in December - These buffaloes are not equal to those introduced into North Canara - They sell at about 12 to 24 Rupees a pair for males, while the females sell at from 20 to 40 Rupees each.

It appears to me that the best Course which you could pursue would be to send a trustworthy Sirnadar of your establishment on a tour to purchase the best he can find in Mysore and the Southern Mahratta Country But it is sometimes really easier to purchase at the fairs to which Cattle are brought, than by going to the Country where they are bred and if you should direct your Servant to visit Sirsi and tell him to shew his proposed purchases to the Sub Collector there that Office would give him every possible help by consulting experienced persons of the place - The same assistance will, I am sure, be given by the Superintendents

Sir,

In reply to your letter of the 2d April, I have the honor to forward the result of the enquiries I have instituted with reference to the Concluding para of the Board's letter under date the 5th March.

2. There are several varieties of Buffaloes in North Canara, Darwar and Mysore, all of which Can be obtained here - At this time of year, when the people from the Coast who have been working in the gardens during the season, return to the Balaghaut, they take numbers of Buffaloes with them, and I am informed that five or six hundred of these animals are brought into Sirsi on each market day to meet this demand - They Come Chiefly from

Horsby

Hobly and Chitledroog, and sell it is said, at from 12 to 36 Rupees each for Cows and Rupees 6 to 20 for male Buffaloes, Chitledroog Buffaloes are Considered, to be inferior to those brought from Hobly.

3. The average price in Bilghy for a Buffaloe for the plough appears to be 16 Rupees. A large description used for Carts, are brought from Aloor in Darwar, and as much as 30 Rs per head is paid for such Cattle.

4 The Dangarah Gooles of Soopa possess very fine breeds of both buffaloes and other horned Cattle, but will only part with the males. These however / Buffaloes / are said not to thrive when removed from the Jungles, are very slow in their movements and are principally used I believe in Mudder Carts for the transport of timber. They sell for as much as 30 Rupees each. The Common breed of Village buffaloes in Soopa / Hagany / sell from 14 to 16 Rupees Goolee Ditto 12 to 26 Rupees.

5. The Country in the neighbourhood, of Belgaum furnishes a large description of Buffaloe known as Searlie, the Cows of which breed are much esteemed, for the quantity of Milk they yield.

6. The most valuable breed / Pagoté / Comes from Comaravattee — The Cows are said to yield from 18 to 25 Seers of Milk daily, and prices vary from 50 to 100 Rupees. The male buffaloes bring from 50 to 60 Rupees each.

7 Of these breeds the Hobly Buffaloes. I should imagine, are the best suited for agricultural purposes, but much must depend, when improvement of any particular description is to be attempted, on the peculiar faults of the breed — A cross with the heavy and larger kinds of Buffaloes might be an advantage in one instance but strong, active and firmly built, though smaller animals, might answer better in another.

It

10484 Fort Saint George 2d July 1855.

8 It is much to be regretted that more attention is not paid to Cattle breeding in this Country. Nothing can be more wretched, than the Common run of Village Cows and Bullocks in Canara and I cannot learn that even the smallest idea of improving them by attention to breeding exists among the population.

and to acquaint You, in reply that the sums hitherto paid by this Government, in part of the four lacs of Sicca Rupees annually due to the French Government under "the Convention" of the 7th March 1815. between Great Britain and France "for preventing differences" between their respective subjects and Agents in the Trade in Salt and Opium in India, have been debited to the Bengal Presidency — agreeably to the Orders of this Government as Contained in a letter from the then Chief Secretary Mr J. Strachey dated the 30th December 1816. I beg to forward herewith for your information, and for Communication to Mr Plowden Salt Commissioner in Bengal a copy of the said letter as well as a copy of the Convention above referred to dated the 7th March 1815.

* The sum to be paid annually to the French Govt being a supposed equivalent for an advantage principally if not wholly derived to the Govt of Fort William by the Monopoly of Salt and Opium. The Governor in Council Considers it to be proper that all advances on that account should be debited to that Presidency.

2. The instalments for the 3d Quarter of 1850 and the succeeding Quarters, up to the present date, have been paid under the order of this Government of the 6th November 1849 founded on a letter

letter from the Secretary to Government of India of 20th October 1849) in moieties at Calcutta and Madras.

3. From the circumstance of your furnishing me with Copy of Mr. Plowden's letter to your Board of the 3d May 1855. it would seem as if you expected me to state my sentiments on the point, whether or not the four lacs is rightly debited to Bengal.

4. Mr. Plowden evidently views the charge as one debitable to Madras alone. Undoubtedly the immediate advantage appears to be to Madras in respect to Salt. But it must be borne in mind, that the Convention, under which the payment is made has reference not only to "Salt" but to "Opium". It is true that the payment of the four lacs is said to be on account of "Salt", but the Convention, I imagine, must be taken as a whole, for there are other points, besides Salt and Opium, adverted to therein, and the object of the Convention is

Fort Saint George 2d July 1855.

distinctly specified to be not for the promotion, or protection, of the Sale of Salt in the Madras Territories but for "preventing differences" between the Subjects and Agents of Great Britain and France in the Trade in Salt and Opium in India," is in all India and further for "removing every Cause of dispute between their respective Subjects in that part of the World" Add to this, that the then (1816) Government at Madras regarded the Charge as debitable to Bengal on the ground that the four lacs were a supposed equivalent for an advantage principally, if not wholly derived to the Government of Fort William by the Monopoly of Salt and Opium", and that such ground was acceptable to, and accepted by the then Government of Fort William and further that it has been acquiesced in ever since, up to the date of Mr. Plowden impugning the propriety of the Charge

5. It occurs to me to suggest that, in as much as the debit to Bengal was originally made under the orders of the Madras Government the matter should be laid by your Board before the Right Honorable the Governor in Council, before your Board reply to Mr. Plowdens letter.

3. This arrangement to which you will give immediate effect, has been Communicated to the Supreme Government, but the Governor in Council does not observe that the form of the Receipt to be given by the Count Du Puy can in any manner depend on the adjustments of an account between the two Presidencies.

4. You will observe by the terms of the Convention Concluded at London on the 7th of March 1815. that a sum of one Lac of Sicca Rupees will become due to the French Government in India in the Course of the next ensuing Month, and that it is payable either at Fort William or at the Presidency on Bills drawn at Ten days sight. with the three years preceding the date of the present Convention.

The price of Salt at Chandernagore to be determined in the same manner by the charges incurred by the British Government for the Salt manufactured in the Districts nearest to the said Settlement.

Article 3.

It is understood that the Salt works in the Possessions belonging to His Most Christian Majesty shall be and remain under the direction and administration of the Agents of His said Majesty.

Article 4.

With a view to the effectual attainment of the objects in the contemplation of the High Contracting parties His Most Christian Majesty engages to establish in His possessions on the Coasts of Coromandel and Orissa and at Chandernagore in Bengal nearly the same price for Salt as that at which it shall be sold by the British Government in the vicinity of each of the said possessions.

Article 5.

In consideration of the stipulations expressed in the preceding Articles His Britannic Majesty

10493 Fort St George 2d July 1855

Majesty engages that the sum of four Lacs of Sicca Rupees shall be paid annually to the Agents of His Most Christian Majesty duly authorized by equal quarterly instalments such instalments to be paid at Calcutta or Madras ten days after the Bills that may be drawn for the same by the said Agents shall have been presented to the Government of either of those Presidencies it being agreed that the Rent above stipulated shall commence from the 1st of October 1814.

Article 6.

With regard to the trade in Opium it is agreed between the High Contracting parties that at each of the periodical sales of that article there shall be reserved for the French Government and delivered upon requisition duly made by the Agents of His Most Christian Majesty or by the persons duly appointed by them the number of Chests so applied for provided that such supply shall not exceed three hundred Chests in each year and the price to be paid for the same shall be determined by the average rate at which Opium shall have been sold at every such periodical sale it being understood that if the quantity of Opium applied for at any one time shall not

10494 Fort St George 2nd July 1855

not be taken on account of the French Government by the Agents of His Most Christian Majesty within the usual period of delivery the quantity so applied for shall nevertheless be considered as so much in reduction of the three hundred Chests hereinbefore mentioned.

The requisitions of Opium as aforesaid are to be addressed to the Governor General at Calcutta within thirty days after notice of the intended Sale shall have been published in the Calcutta Gazette.

Article 7th

In the event of any restriction being imposed upon the exportation of Salt Petre the Subjects of His Most Christian Majesty shall nevertheless be allowed to export that article to the extent of eighteen thousand Maunds.

Article 8th

His Most Christian Majesty with the view of preserving the harmony subsisting between the two Nations having engaged by the 12th Article of the treaty concluded at Paris on the 30th May 1814 not to erect any Fortifications in the Establishments to be restored to him by the said treaty and to maintain no greater

number of Troops than may be necessary for the purposes of Police. His Britannic Majesty on his part in order to give every security to the Subjects of His Most Christian Majesty residing in India engages if at any time there should arise between the Hiegh Contracting Parties any misunderstanding or Rupture (which God forbid) not to consider or treat as Prisoners of war those persons who belong to the Civil Establishment of His Most Christian Majesty in India nor the Officers non Commissioned Officers or Soldiers who according to the terms of the said treaty shall be necessary for the maintenance of the Police in the said Establishments and to allow them to remain three months to settle their personal affairs and also to grant them the necessary facilities and means of Conveyance to France with their Families and private property.

His Britannic Majesty further engages to permit the subjects of His Most Christian Majesty in India to continue their residence and Commerce so long as they shall conduct themselves

themselves peaceably and shall do nothing contrary to the Laws and Regulations of the Government.

But in case their conduct should render them suspected and the British Government should Judge it necessary to order them to quit India they shall be allowed the period of Six Months to retire with their effects and property to France or to any other Country they may choose.

At the same time it is to be understood that this favor is not to be extended to those who may Act Contrary to the Laws and Regulations of the British Government.

Article 9th

All Europeans and others who-soever against whom Judicial Proceedings shall be instituted within the limits of the Settlements or Factories belonging to His Most Christian Majesty for offences Committed or for Debts Contracted within the said limits and who shall take refuge out of the same, and shall be delivered up to the Chiefs of the said Settlements and Factories and all Europeans and others who-soever against-

against whom Judicial proceedings as aforesaid shall be instituted without the said limits and who shall take refuge within the same and shall be delivered up by the Chiefs of the said Settlements and Factories upon demand being made of them by British Government.

Article 10th

For the purpose of rendering this agreement permanent the High contracting parties hereby engage that no alteration shall be made in the Conditions and stipulations in the foregoing articles without the mutual consent of His Majesty the King of the United Kingdom of Great Britain and Ireland and of His Most Christian Majesty.

Article 11th

The present convention shall be ratified and the ratifications shall be exchanged at London in the space of one Month from the date hereof or sooner if possible.

letter dated 3rd May 1855, calling for certain
information regarding the payment made to
the French Government under the convention of 7th
March 1815.-

2. The Board being unable to furnish
you from their own records with the required
information made a reference to the Accountant
General whose reply is furnished herewith.-

Dated 11th June in consultation 2nd July 1855.

3. From this it will be seen that the
whole amount of the Four lacs of Rupees
referred to by you is debited to the Government of
Bengal agreeably to orders issued by this
Government in 1816. The Board do not
deem it necessary to forward to you a Copy
of the convention of 7th March 1815, as it
forms an enclosure to the Salt Memorandum
already furnished to you from this Office.-
A transcript of Mr. Chief Secretary Strachey's
letter of 30th December 1816 is however forward-
-ed herewith.-

4. The Board will not offer any
opinion upon the question raised by you, as it
would rather seem to be a matter for discussion

Bd. No. 1775

From the Collector of South Arcot.

Sir

Reports the Sale of the abkary Farm and requests Sanction for the same.

I have the honor to report for the information of the Board that the abkary Farm of this District was put up on the 12th Instant to public auction by Mr. Forbes, the Acting Sub Collector in charge and that the highest bid for it was Rupees 101,900 made conjointly by the three persons noted in the margin.—

1 Davasegamany Pillay
2 Lutchmana Odian
3 chinna Goorooppah
Naick

2. The sum bid on this occasion exceeds that which was given for the current year by Rupees 19,900. The Competition was very great owing chiefly to rivalry and ill feeling among the parties who attended to bid.—

3. In Consequence of a quarrel which has sprung up between the Renters of the Farm for this year, they opposed each other at the Sale and run up the bidding while there was at the

same time an attempt made by the bidders of the District to prevent those who came from North Arcot from getting the lease

4. The persons who have jointly offered the highest bid are arranging to give the requisite security. They have already lodged Rs. As. P. 13703 — 6 — 6 out of the Rs. A. P. 17183 — 5 — 4 which by the conditions of the Sale they are under obligation to deposit.—

5. Two of them are residents in this District and have before held the Farm the third is a man from Chittoor of reputed substance and respectability.—

6. As I see no objection to the Farm being given to these parties, I beg to request that the Board will be pleased to confirm the Sale of it to them for the sum bid Viz.t 10,900 Rupees.

7. The circular from your Office Dated 9th Instant No 1114 regarding the alteration in the fasly year only reached Mr. Forbes just after he had concluded the Sale He immediately offered

offered to put the Farm up again for the altered period when the three highest bidders gave in a writing to say that they were willing to keep to their bargain and to Consent that the lease should expire on the 30th June 1856.—

8. Mr. Forbes did not deem it necessary or expedient to offer the Farm for competition, Talook by Talook, as has hitherto been usually done but at once put it up for the entire District.—

The Board Consider the transfer of yeomiahs objectionable, as defeating the conditions possible on a lapse. The Government however see no objection in this case, as the transfer is in favor of a Son, and supposing that Son to be the rightful heir, the case being dealt with as a lapse. The Board are requested therefore to state the arrangement which they Consider proper in that view with reference to the nature of the grant. Sir

With reference to the remarks of Government Dated 5th June 1855 in case No. 354 of the tabular report of lapsed service yeomiahs submitted by the collector of North Arcot under date 29th March 1855. I am directed by the Board of Revenue to state that as the nature of the Grant in that case is precisely the same as in No. 512 of the same report. the allowance should be reduced to Rupees 60 in the event of the present incumbent wishing to transfer it to her son, but they think with Government that she should have the option of withdrawing her request and so of retaining the present allowance without diminution.—

Abstract of replies to the Board's Circular of 24th March 1851. relative to the Country Weights and Measures.

Ganjam.

From Ganjam 28th June & from 31st July 1851.

The Collector of Ganjam states in reply to the Board's Circular of 24th March 1851, that no steps were taken to introduce generally the standard weights and Measures received in 1842. He apprehends

Circular 2d May 1842.

that those individuals who might be influential in effectuating the change were not favorable to it, although the irregular system which obtains in the district is attended with inconvenience and trickery - no two measures of the same capacity being found even in the same bazar. He is however of opinion that a better system might be introduced through the medium of the Commissariat Department by requiring all persons at Cuttack town to sell according to the standard fixed, subject to a penalty in default. by issuing the measures at a cheap rate; and by a determinate demonstration on the part of Government. Mr. Onslow suggests, that if it be thought proper

Fort St. George 5th July 1855.

to introduce uniformity, the third capacity of the standard referred to in the Board's Circular of 20th July 1840 should be adopted, with its aliquot parts as approximating to the Soom most generally used at Ganjam.

+ 5¼ inches diameter and 6¼ Do. deep.

Vizagapatam.

The Collector states that the standards had not been used, except by the Merchants who supplied the Commissariat Department, and in the periodical price lists. They were objected to, on the grounds of complexity. The chief Merchants of that place are favorable to a change, and some of them furnished a table of measures which they considered suitable to all classes of the community and such as would be readily adopted. Mr. Robertson hopes to be better able to ascertain the views of the principal traders on this point while on a tour through the district which he intends to make in December. He recommends the introduction of a uniform yet simple system. —

Rajahmundry.

10517 Fort St. George 5th July 1855.-

## Rajahmundry.

From Rajahmundry 5th inst. No. 14 dated February 1853.-

In forwarding the Statement called for by the Board giving the Contents &c. of the measures in use in the principal Talooks, the Collector of Rajahmundry states, that the Standards received† from the Military Board were retained at the Hoozoor Cutcherry, and the Tahsildars directed to send the merchants there for the purpose of taking Counterparts - Those of them who complied with this requisition do not appear to have employed them in their transactions, nor made the slightest effort to introduce them generally nor do they entertain any wish to do so now - Mr. Prendergast suggests that if it be found impractible to induce the people to adopt the Government measures those in use should be so far modified as to be easily reducible to ours them - There is no doubt that an inconvenience is experienced by the present irregular System.-

† in 1842.

Masulipatam

10518 Fort St. George 5th July 1855.-

## Masulipatam.

†13th Oct. 1852 in Con. 17th Jan. 1853.

From the report of the Head Assistant Collector, which accompanies the Collector's letter of 22nd December 1852 it appears that the several Tahsildars of the Masulipatam district were instructed to bring into operation the weights and measures referred to in the Fort Saint George Gazette 20th October 1840, and that Counterparts were furnished them on the 8th of June 1848 - The records of the Cutcherry do not afford any information as to the extent to which this order had been carried out, although the Revenue Subordinates were directed to adjust the measures then in use according to the Standard and to report their proceedings. In the Town of Bunder, however, the Standard measures were fully employed in all the dealings of the merchants, and were examined and sealed at the Police office. Mr. Lushington attributes this unsatisfactory result not so much to any real disinclination on the part of the Tradesmen to adopt the Standard, but to an unwillingness to accept an innovation, the advantages of which were not prominently placed before-

Fort St. George 5th July 1855.-

before them, and Mr. Tweedie's enquiries shew that in many instances there exists a strong feeling in favor of a uniform System. The Collector is of opinion that such a System may be introduced.-

## Guntoor.-

From Guntoor 17th June in Cons 24th July 1855.

The Collector of Guntoor states that no counterparts of the Standards sent in 1842. appear to have been taken for use, nor have they been generally put in requisition for testing the weights and measures of retail dealers. He suggests that as there is an universal dislike to their adoption, they may by degrees be introduced, if a supply were furnished for sale at a low rate. He considers the change of great importance and advantage, and suggests the desira=ableness of passing an enactment against the employment of any other than these.-

## Nellore.-

From Nellore 7th Oct. in Cons 1st Nov. 1852.

The Collector of Nellore states that when a proclamation was issued in December last, requiring the Merchants to have their weights Compared with the Standard, they readily

Fort St. George 5th July 1855.-

readily responded to the call. and that ever since those used in the Bazars within the Town of Nellore were tested and stamped. He states that these men have also acque=esced in the proposal to adopt the Stand=ard measures; and that he sees no reason for supposing that a contrary disposition would be evinced on the part of those in the other portion of the district. Mr. White concurs in the expidiency of introducing a uniform System, as the want of it is a source of much inconvenience to the commu=nity and renders it almost a matter of impossibility to compare the Talook Price Lists with each other, which are also, for the same reason, worthless as documents for purposes of check. He approves of Board's Sug=gestion to sell the Standard measures at a cheap rate with a view to their introduction among the people.-

## Cuddapah.-

From Cuddapah 8th in Cons 19th Nov. 1851.

In answer to the same Circular the Collector of Cuddapah states that on the receipt of the order in 1846, requiring the introduction of certain Standard weights and measures.

measures he purchased 15 sets of them for the use of the Talook Officers with the exception of the Mercal and Maund, which were omitted in consequence of their size and weight, and called upon all Merchants and tradesmen to make similar ones for their own use, the poorer classes being permitted to make theirs in wood or bamboo. He informs the Board that at that time these measures were in very general use, and that although the Accounts are kept according to the old System, and the Merchants purchase grain from the ryots by the pootee, still they always gave it by the Standard.

## Bellary.

From Bellary 20th Novr 1852 in Cont. 19th Jany 1853

The Collector of Bellary states that the Standards received from the Commissary of Ordnance were reserved for the purpose of testing the weights and measures of Native dealers as occasion required. He says that no Counterparts were taken for actual use and that he did not observe any disposition on the part of the people to adopt them

them in preference to the one extensively used among the principal Merchants, and which was introduced by proclamation in 1812. He adds that the Commissariat Department however received and issued every thing, excepting oil and grain, by the Imperial British, whereby there obtains in the district, three standards, bearing the Stamp of Authority. He believes that an attempt may be made to introduce the standard by abolishing the old one, and Compelling the merchants as well as the Commissariat and other departments to adopt the new.

## Kurnool.

From Kurnool 9th December 1852 in Cons 3rd March 1853.

The Agent at Kurnool states in reply to the Board's Circular that, excepting the Puddies - the measures generally in use in his district vary in form as well as Contents, but that they are supposed to correspond with the Madras Standards. Counterparts of these were distributed to the Talook Authorities, and they directed to encourage its introduction among the people.

The

Fort St. George 5th July 1855.

The Merchants and dealers are not now opposed to the adoption of a uniform system, provided they are allowed to keep the measures as hitherto. Mr. Conway considers that this might be conceded and recommends that if the introduction of such a system be politic and just it should be enforced by law. He notices that from measures were obtainable at a moderate rate price.-

From Chingleput 29th January in Cont. 5th February 1852.

## Chingleput.

The Collector of Chingleput informs the Board that it did not appear that counterparts of the standard sent in 1842 were taken for actual use, but that the Tahsildars were supplied with them, in order to regulate any weights or measures that might be voluntarily brought to them for that purpose. He observes that although the measures generally in use at the several Cutcherry towns are of the same description as are specified in the Government Notification, still on testing them, he found that

Fort St. George 5th July 1855.-

they not only varied in point of capacity to a trifling extent, as compared with each other, but in most instances were in excess of the standard. The Collector is of opinion that, as the leading members of the Mercantile community were evidently opposed to a uniform system, a change could only be effected by a direct interference on the part of the executive, in requiring the principal merchants to adopt the standard under a severe penalty and affording them every facility for its procurance at a cheap rate. He further suggests the nomination of two Officers who shall itinerate the villages and adjust and stamp the weights and measures found in each.-

From N. Arcot 21st inst. 27 July 1852.-

## North Arcot.

Mr. H. A. Brett states, that on the receipt in 1845, of the weights and measures adverted to in Board's Circular of 2nd May 1842 the Collector then in charge of North Arcot, applied for instructions regarding their introduction

introduction into the district, and was informed that they would be hereafter furnished. But the records of his Office do not shew that any subsequent Communication had been made on this subject. No effort appears to have been made to put these standards into requisition as Comparisons for testing, nor have Counterparts of them been taken for actual use. Mr. Brett thinks that the intelligent and influential part of the Native Mercantile Community deprecate the inconveniences arising from the present loose System, but that any modification of it would be naturally met with Suspicion by petty and more ignorant traders. He suggests that the only effectual course to be adopted in order to induce them to employ the standard would be by a legislative enactment.—

South Arcot

## South Arcot.

From S. Arcot 22d in Cons. 28th June 1852

The Collector of South Arcot states that the standard Marcal had been adopted at the Sea Custom House, but that the old salt marcal continues to be used at the land Custom from an impression that no difference existed between them. He anticipates great obstacles to the introduction of the standard generally among the people unless it could be so modified as to suit their strong preference to heaped measures. As regards the weights however, he apprehended no difficulty as they generally agreed with those in use.

## Tanjore.

From Tanjore 21st Octr in Cons. 15th December 1851.

Mr. Goodwyn states that the standard does not at all obtain in Tanjore, and that the local measures are tested at the Salooks by ascertaining whether they contained a certain quantity of Oolundoo and that they are then stamped. He says moreover that he finds by enquiry, that the standard ½ puddy may be introduced without much difficulty among

among the merchants although the retail dealers strongly deprecate any change, which he also considers unnecessary, as a uniform system obtained.

From Trichinopoly 15th Oct. in Cons. 3rd November 1851.

## Trichinopoly.

The Collector of Trichinopoly informs the Board although great unwillingness was at first manifested, and still continued to be, to the adoption of the standard weights and measures - still within the last two months of his writing / October 1851 / they were in general use not only in the large bazars of the city, but also in the more considerable towns of the interior. He does not think it expedient to offer them for sale, as they were likely to be gradually adopted by the natives themselves, and as the revenue Officers in the Talooks were enjoined to urge it upon the merchants.

From Madura 11th in Cons. 17th Nov. 1851.

## Madura.

The Collector of Madura states

states that in January 1849 he had counterparts of the standard measures taken, except the mercal, and distributed to all the public Chuttrums, whose funds defrayed the expense; and that by this means, and the Sub Collector and he having desired the Tahsildars to encourage the merchants and inhabitants to adopt it also, the puddy had come into most general use.

From Tinnevelly 12th Febry in Cons 8th March 1852.

## Tinnevelly.

The Collector of Tinnevelly states, that the standards were never put in requisition for testing the weights, or measures of Native dealers; nor were counterparts taken, except for the Sea Custom and Frontier Choukeys - as from various communications it appeared that they were not intended to be brought into general use; nor was it found practicable strictly to adhere to them even in Government transactions. He believes, that although it is not impossible for authority to introduce them

them. Still it would be attended with extreme difficulty and perhaps some danger, inasmuch as the public complained of no inconvenience and the intelegent Merchants shewed no anxiety for their adoption. He however thinks that the standard may be used in all Government transactions, and in keeping of accounts; with the exception of those relating to the Mailwarum in settling the Revenue of Coloongoo villages, and that an attempt may also be made to introduce it among the people.

## Coimbatore.

From Coumbatore 12th in Cons 29th September 1851.

The Collector of Coimbatore states that, although he had furnished all the Tahsildars with a set of the standard measures in 1847. and had directed their exclusive use in all the villages, still they did not thier appear to be so extensively used as might be expected. He notices the discrepancies observable in the measures in different parts of the district and suggests the introduction of

of the standard by selling it at cost price to the Bazarmen. Mr. Underwood adds that standard measures were made on the pattern of those in the Collectors Cutcherry for distribution to each Talook but the Board having refused to sanction their cost they were soldto private individuals.

From Coimbatore 20th Feby in Cons 9th Augt 1852.

## Salem.

From Salem 8th in Cons 18th March 1852.

The Collector of Salem states that no authoritative arrangements appear to have been made to introduce the standard nor is he able to identify and trace that sent by the Military Board in 1846. He observes that the weights in general use are regulated by those received in 1842. but that the measures remain unaltered except in a few of the principal towns and in a considerable portion of some of the Talooks where the standard obtained. He apprehends no difficulty in effectuating a change by enactment as the merchants are favorably disposed towards it provided Government supplied the measures at a low price.

## Canara

From Canara 3rd Cons 1st June 1852

The Collector of Canara states

states that the price lists furnished to the Commis-
=sariat Department are invariably made out with
reference to the standard, and that it is also employ-
=ed in the accounts and transactions of the salt
and Tobacco monopolies. He is of opinion that its
introduction among the people, if not altogether
impracticable and undesirable as regards local
interests, could not be effected without greatly
disturbing the trade and confusing by gone tran-
=sactions, although a very great diversity of mea-
sures existed throughout the district not less in
nomenclature than in contents, and although there
could be no doubt that inconvenience is experienced
and continual opportunities are afforded for fraud.

From Malabar
20 in Cons. 29th
Nov. 1852.

## Malabar

The Standards adverted to in
Boards Circular of 2nd May 1842 have not
been put in requisition as tests in Malabar,
nor have counterparts been taken of them for
actual use. The Collector is of opinion that
a uniform system can only be introduced
by an express order from Government for
although

although the intelligent merchants admit that
inconvenience and irregularities arise from
the present practice under which each division
of the district has its own peculiar weights and
measures, they evince no hearty desire to put
down the old Mamool. He suggests
that time should be given to prepare for the
change, and aid afforded by retailing the
standard at easy prices. So far as has been
practicable, the standard measures have
been introduced into the Price Lists fur-
=nished to the Board and Commissariat
Department, but the accounts of salt,
Tobacco and Sea Customs have
been kept in Indian Maunds and Cwt.

Secretary to Government
Revenue Department

I am directed by the Board of Revenue to forward for the information of the Right Honorable the Governor in Council the enclosed Statements No. 1 to 28 exhibiting the settlement of the Land and Extra Revenues of this Presidency for the Fusly year 1263 / a.D. 1853/54. In accordance with the instructions given by Government in the final Para of Extract from Minutes of Consultation dated 6th November 1854 the Statements received from the Commissioner of the Northern Circars are blended with those prepared for the Districts under the Board's management as far as the differences in their fixed Systems permit so that the general state of the Revenues may be seen at one view and observations will be offered on the causes by which they have been affected in the Districts under the Board's control.

3. In their Last report the Board gave a short account of the revenue system which

which prevails in each District and of the principal sources of irrigation upon which their cultivation depends. They will therefore limit themselves on this occasion to describing the season under review with its effects on the revenues, and then offer such explanation and remarks as the various Statements now submitted require.

4 The season in Fusly 1263 was of a peculiarly unfavorable nature throughout the Districts in the centre and on the Eastern side of the Peninsula. The early showers which are expected in May and June from the S. West Monsoon proved so scanty that the first dry crops were limited in extent and gave a partial yield. These crops consisting principally of Cumboo Cholum and Ragy, are sown in June and reaped in September, and as they furnish the principal food of the lower orders their deficiency seriously augmented the distress which the extensive failure of the principal harvest afterwards caused. In October the N. East Monsoon

commences

commences, but though it brought at first an average supply and enabled cultivation to be actively undertaken, it suddenly ceased early in November leaving the crops on the dry land to perish from drought while the tanks, and in some instances the river channels also received supply of water insufficient to bring the wet crops to maturity. of

5 Of the two Districts on the western coast where the S. West Monsoon is never known to fail entirely Canara enjoyed a favorable season, but in Malabar the rains were less timely and regular; its 2d. crop which depends chiefly on the N. E. Monsoon yielded, in particular, a short outturn, and the season was regarded on the whole as unusually adverse. Throughout the remainder of the Presidency, commencing with Tinnevelly at the Southern apex of the Peninsula and extending to Nellore on the coast, and Bellary and Kurnool on our Northern frontier the annual rains were

were seriously deficient. The Ceded Districts, the Carnatic and the Collectorates situated in the centre of the Peninsula all suffered from drought though in unequal degrees. In Madura, Salem and Coimbatore the crops were generally secured and high prices compensated the ryots for short produce, but the other districts were less favored and Tanjore, Bellary and Nellore were conspicuous for their losses. Distress was also great in the two divisions of Arcot, Chingleput, Tinnevelly and parts of Kurnool and Cuddapah prices rose in some places to a famine height and loss of life as well as much additional suffering would have ensued but for the liberal measures of Government in opening the ports, giving employment to the poorer classes on public works, and sanctioning remissions in the land revenue.

6 The Board have added to the statements submitted last year, a register of the monthly rain returns for each District which in a season like the one under review possesses peculiar interest. It shows that the annual fall in each

N. 8.

district

district was as follows.

| Districts | at head station Inches | average throughout the District Inches |
|---|---|---|
| 1 Chingleput | 21.782 | 15.311 |
| 2 Salem | 26.186 | 23.531 |
| 3 Madura | 29.551 | 29.881 |
| 4 Nellore | 17.549 | 9.857 |

according to the Register kept at the Madras observatory from 1813 to 1854 the annual average fall on that part of the Coromandel coast is 49 inches. On the Western Coast 120 inches is considered an

an ordinary monsoon though a less gran= tity suffices for the cultivation if the rains are timely in their commencement and fall at successive intervals at Bellary the regis= ter kept at the Garrison hospital during the last 13 years gives an annual mean of 18 Inches.

It will therefore be observed = that in all the Districts except Canara the rains were scanty, and that an extensive and long continued drought commenced in November, the critical period of the year when the main harvest of the country is at stake. But in some places the rains were even more deficient than this statement shows. and in parts of the Bellary District where the drought was most severe the fall did not exceed 3½ inches. The season was also marked by its capriciousness. In Kurnool some heavy temporary rain filled the chief tanks, while in the adjoining Districts of Cuddapah and Bellary they were left unsupplied. The rivers also exhibited a similar irregularity. The Cavery which irrigates Tanjore and Trichinopoly came down in an almost unprecedented flood

Tanks which received full supply 1263 — 1263
Bellary 776 — 21
Cuddapah 3687 — 317

in

in July, and afterwards had only scanty freshes. The Kistnah which like the Cauvery &c flows from the Western Ghauts — brought a destructive inundation to Hurnool in the same month while the other rivers and especially those which depend on the N. E. Monsoon, the Pennaur in Nellore, the Palaur in Chingleput. the Guddelum Ponneaur and Vellaur in South Arcot and the Tambraporny in Tinnevelly all failed to furnish the usual amount of irrigation. One alleviating feature marked the season. The early rains of the N. E. monsoon in October and the beginning of November were sufficient in the Southern Districts to prevent the wells failing until the principal crops dependent on them had been secured. In Tanjore indeed they were injuriously heavy but as from the middle of November to June a general drought prevailed interrupted only in North Arcot by a severe hail storm in March which did much damage to the crops then on the ground.

8. The character of the year being so exceptional, it was to be expected that

that its sanitary state would not be favorable. Cholera, fever and small pox were prevalent even in places where no want of rain had been experienced as in Canara and on the Neilgherry hills though most virulent in the Districts where the drought and scarcity were most severe. Full statistical details on this subject are not before the Board and objections might be entertained to making a minute enquiry with the only agency which is now available, but in Tanjore the deaths by Cholera are computed at 22100 and in Bellary at 15269. The Collectors' reports show that they paid attention to Vaccination and successfully extended its benefits by the aid of the subordinate medical Officers who accompanied them on their circuits. Among the agricultural stock of the ryots extensive losses occurred from murrain as well as from a want of fodder and water. In Bellary where the greatest loss was sustained 248734 head of Cattle or 31 per cent of the stock of the District are calculated to have perished.

Population according to last census
Tanjore 1,676086
Bellary 1,229599

9. The Board cannot omit adverting

adverting in this place to the signal proof which the year under review affords of the value of works of irrigation and of the encouragement which has been recently given to land holders to sink private wells by exempting them from any extra taxation. Besides the additional produce and revenue which is obtained from irrigated land and which is computed to exceed that from unirrigated land in the proportion of 5 to 1 the greater security of its cultivation in unfavorable seasons makes its aid invaluable in averting or mitigating times of dearth and famine, while the forage which it supplies for the live stock of the ryots is another important benefit. In Cuddapah and the Southern and Northern Divisions of Arcot where private wells have hitherto been either free or taxed indulgently, much produce was saved by their aid, to the enrichment of the cultivators and the relief of the general distress. The same remark applies to tracts of wet land under some of the various river channels and aircuts, for example the river Palaroo in Trichinopoly and the lands under the

great

great tanks supplied by the lower Coleroon and Vellaur aircuts in South arcot, and though periodical years of distress from the occasional failure of the monsoons must always be looked for, it may confidently be expected that under the improvement which has already been made and is yearly extending, times of dearth and suffering will both be rarer and less severe.

10. As the state of the grain markets will be alluded to in a further part of this report it will only be observed here that the average prices of the principal grains taken for the entire year and throughout the whole Presidency exhibit a rise of from 41 to 62 per cent. But in many places the ordinary food of the people was double its usual price and in some instances during the greatest pressure of the scarcity it rose to nearly treble its usual rate. On the whole the distress was borne with patient endurance, but it was necessary in some places to take extra precautions to protect the bazars and grain when in transit, and food riots occurred in Nellore, Trichinopoly Madras and some other towns.

The

11 The disastrous nature of the season attracted the early attention of Government and the Board, and on the sudden cessation of the N. E. monsoon in the middle of November measures were taken to prevent and moderate as fas as possible the anticipated distress. Reports were obtained of the agricultu-ral prospects of each District; and the stock of Grain on hand. the ports were opened and periodical statements showing the range of prices in the dif-ferent Districts and their exports and imports of grain were published for the information of the mercantile community arrangements were also made for the em-ployment of the distressed part of the population on public works and Collec-tors were empowered to grant those ento a indulgences in the settlement of the Land Revenue which their reports showed to be requisite under the peculiarly unfa-vorable state of the season. after the comple-tion of the settlement also the two Districts which sustained the greatest loss Tanjore and Bellary

12. It will be remarked that the land revenue exhibits an increase in the 3 Collectorates of Canara, Madras and Tanjore. In the first the favourableness of the year maintained the revenue at the high pitch to which it has gradually risen and in the second the assessment fluctuates little with variations of season, consisting as it does principally of a quit rent levied on ground occupied with houses. But the fact of an apparent increase of land revenue in Tanjore when that District has been named as one which suffered most from the distress of the year calls for explanation. The cause is to be found in the peculiarity of the Ryotwar system under which a large portion of its villages are settled. In them the assessment is raised or lowered according as the price of grain sinks below or rises above the standard price and in the present year when rice rose 66 per cent Government were entitled on this account to an increased revenue of Rs. 666.688, which sum is accordingly included in the settlement but in consideration of the losses which the land owners sustained in this and the preceding year when Tanjore was visited by a destructive hurricane Government were pleased to remit Rupees 4.08.010 of this demand and this practically instead of an increase of Rupees 12,5209 the land revenue fell off in this District also to the amount of Rupees 2,82,801.

13. In examining how far the unfavorable nature of the season has diminished the Land Revenue the following Statement has been prepared shewing a decrease of Rupees 39,45,989.

This account does not include the Rupees 4,08,010 specially remitted by Government in Tanjore, because this item and such portion of the revenue arrears as it may be necessary hereafter to write off are left to balance the gain which has occurred to Government from the Anicut system in Tinnevelly and Tanjore, and from the extended cultivation under wells and channels which was called into activity by the exigency of the season wherever irrigation was found available. In the "Extra Sources" of revenue a decrease amounting to about two and a half lacks under the head of Salt, Frontier customs, Exports by Sea in the provinces and Motupha is also attributable to the unfavorable nature of the season, which checked trade by causing a deficiency of water and forage for carriage cattle, and as far as the Board have at present information, all the Bills not having yet come in, the expenditure in providing employment

for the distressed population amounts to Rupees 17,68,027. In the Departments therefore what come under the Boards cognizance, the drought appears to have affected the finances of Government to the amount of sixty lacs or £600,000 sterling.

4 Remarks will now be offered on the Statements which are submitted to illustrate the details of the settlement under review but it seems proper first to notice briefly the occasions upon which the ordinary rules were departed from for the purpose of affording the landholders relief under their unusually severe losses.

The remissions for withered crops were granted on a more liberal scale than in ordinary years, and were allowed on unirrigated as well as on irrigated lands. It is not usual to give remission for the failure of dry produce because the assessment is fixed only for a single crop and generally when the first sowing

sowing fails the ryot is able to raise some other produce during the course of the year but on this occasion the season was so disastrous and the produce was so scanty on those lands where the crops were harvested that remission was allowed for failure of produce on both irrigated and unirrigated lands. In Tanjore full remission was granted in some of the irrigated Villages for the unproductive and uncultivated fields on condition that the Meerasidars paid the Assessment on their other lands instead of leaving the crops to be reaped and divided by the Government Servants as they have the power of doing in bad seasons, and the exercise of which privilege on this occasion would have overwhelmed the Collectors establishment, and in some of the dry Villages the crops were made over to the landholders on estimate for a similar reason.

In the two districts of North and South Arcot besides the remissions for withered crops a percentage reduction was allowed, with the

the sanction of the Board on all the wet and dry lands on account of the general scantiness of produce. In Tinnevelly permission was given to the ryots to raise dry grain crops in the rice lands for which water was deficient paying only a portion of the usual assessment.—

With the above exceptions the Settlement was conducted in the usual manner, though more than ordinary liberality was shown in allowing reductions for cowle lands left waste and for fields only partially cultivated.

Statements Nos. 1 & 2.

15 Statement No. 1 details the Districts under the management of the Board with the number of their talooks, and Statement No. 2 shows their Villages and hamlets. The latter is prepared in a slightly different form from that of the preceding year, villages under one years rent being separated from the ryotwary Villages in accordance with the instructions of Government, In comparing it with the Statement of last year some fluctuations are apparent giving a net increase of 10 Villages and

1st November 1854 No. 1 of Wide Printed Report Fusly 1262.

and 845 hamlets. In the previous statement some of the Tanjore Villages were alone entered, their Subsidiary hamlets being inadvertantly omitted, and the number of Government or Ryotwar Villages is always liable to vary, as what are termed Villages in the thinly inhabited and fully districts consist often of tracts of land without a single permanent house and they are brought into or taken out of the statement according as they are partially cultivated by temporary settlers or left entirely waste. The decrease of 1 Villages and 4 hamlets in Malabar arises from their transfer to the French Government for whom they had been held under management since the peace in 1815, in consequence of a dispute regarding their boundaries. The decrease in the number of Permanently settled Poliput and Shotriem Villages is owing to resumptions on account of lapses on their falling into arrears.

16 Statement No. 3 contains a summary of the works of irrigation in each District, Being a quinquennial

quinquennial return, its entries are the same as in the preceding year except that the Board have been able to add to it the details for Tanjore. It is still an evidently imperfect statement and exertions will be made to have it prepared with fullness and care on the next occasion. It is a document which will possess much interest as shewing the additions made to the resources of the country by the increase of private wells under the new rule which allows the landholders who incur the outlay of sinking them to reap the entire benefit. The privilege has already come into active operation and its benefits are specially alluded to by the Collectors of Madura, Coimbatore, Tanjore, Salem and Trichinopoly. With reference to the remark made by Government on the little difference in the number of wells and tanks entered for the Chingleput District the Board are led to believe that the entries may not be erroneous as that District contains an unusual number of small tanks and ponds / tanglesfan the

the landholders have been discouraged from sinking wells by the additional taxation hitherto placed on lands thus brought under irrigation

17 The next three Statements Nos. 4 5 and 6 furnish statistical details of the agricultural stock, the general population, and the number of land holders or Puttadars in each district. Being prepared quinquennially, these statements correspond with those which accompanied the last report except that the details for Tanjore are newly given in No. 3, Information is still defective for some districts and will be hereafter supplied.—

18 The rent roll of the different Districts North Arcot excepted, is given in Statement No. 7 and as this is also a quinquennial return it is founded on last years data, but have been expanded for the purpose of showing the different classes into which the cultivators are devisable according to the size of their holdings. The instructions given by Government in Para. 16 of their remarks on last

years

Fort St. George 5th July 1855

years report have been followed as closely as the information at the Boards command allowed and in the ensuing year the details for North arcot will be included. The present Statement shows 12,84,972 single Puttahs or separate holdings, the average payment on each being Rupees 18, but no less than 7,86,765 Puttahs are under Rs. 10 and give an average payment of only Rupees 3. The Districts which contain the largest number of substantial proprietors may be thus ranged.—

The Board would however report that in reality large properties are more numerous than this return shows as many individuals and families possess several estates or holdings for each of which

a

a separate puttah is entered in this return, and it may also be observed that although the ryotwary system is supposed to lead to small holdings, the principal cause of the minute subdivision of land is to be found in the Hindoo law of inheritance which enables any member of a family to call for a division of his ancestral estate, and would therefore have influence under any revenue system. That small holdings are not inconsistent with a value attached to land and may be accompanied by prosperity and comfort is shown by the three districts of Canara, Malabar and Cuddapah, where the revenue is collected with facility and the ryots are generally in easy circumstances.

The Collector of Tanjore observes that there are several larger proprietors in his District than E. Moopen who was instanced in the Boards report last year as the most extensive land owner, and he hopes in his next return to be able to show the aggregate holdings of the chief families.

Statement

19 Statement No 9 exhibits the prices of the principal grains which rose considerably as was to be expected under the adverse state of the Season. In accordance with the instructions of Government the statement shows the current prices in contrast not only with those of the previous fusly but with the average of the 10 preceding years. The following Table gives the general result.

| | Price per Garce. | | | Percentage of increase in 1263. |
|---|---|---|---|---|
| | average of 10 years | 1262 | 1263 | |
| Paddy 1st Sort | 87 | 73 | 103 | 41 |

| Raglay | 90 | 76 | 121 | 59 |
| Horse gram | 120 | 110 | 159 | 44 |

On examining the Statement it will be found that the grains which form the ordinary food of the people rose to the greatest height in Bellary, South and North arcot Nellore Chingleput, Cuddapah and Kurnool.—

It is also to be observed that though a

Statement

Statement prepared in this form gives a fair general comparison between one year and another, it does not show the full pressure of the dearth on the people, because it only exhibits the average rate for the entire year and for entire districts. Both these points are of importance as prices vary much at different periods of the year and our Districts are so immense, averaging 6,76 square miles in extent, that the state of the crops and markets is often entirely dissimilar in dif=ferent parts of them. Thus in Bellary, it has been shown† that in places not more than 90 miles apart the prices of grain varied 80 per cent in consequence of the ordinary expense of conveyance enhanced in this year by the heavy loss of carriage cattle.

† Report from 2d Member to Government - 13th November 1854 Para 9.

The great rise in the markets is un=doubtedly due principally to the peculiar unfavorable=ness of the season but as prices did not fall in proportion as this influence was modified, and as the rise was general and extended to articles little affected by the accidental circumstances

of

of season, other and perhaps more permanent causes seem also to have had influence, such as a change in the value of money and probably also an increased circulation caused by the larger expenditure upon public works, including the Madras railway.

20. Statement No. 10 shows the Dittum or the extent of land under occupation in the Districts under ryotwary management. The details for Canara, Malabar, and Madras are necessarily left blank inconsequence of the nature of the revenue system in those dis=tricts and the entries for Trichinopoly, and Tinnevelly consist of the actual cultivation of the preceding year according to this Statement the Dittum engagements for the 13 Districts noted marginally consisted of 783,363 cawnies of land (wet dry and garden) bearing an assessment of Rs. 25,867,265 thus falling below the preced=ing year by 4,2892 Cawnies assessed at Rupees 12,53,685 - a decrease equivalent to 4 14/18 per cent

The Dittum Statement as

21

at

at present prepared has so little use or trust=
=worthiness that the Board will offer no re=
remarks upon it. In theory the Revenue Officers
collect the ryots at the commencement of the
fusly or agricuttural year to enquire what lands
they wish to retain give up or newly occupy
and take engagements from them accordingly.
But it is manifestly impossible with the pre=
=sent limited agency that this should be done
even imperfectly before the actual time for
cultivation has passed and the account is
therefore practically useless, while the form
of going through it occupies unprofitably the
time of the public servants and has more
serious disadvantages. It summons the ry=
ryots from their Villages at an inconvenient
season, exposes them to petty exactions, and
prevents their enjoying full liberty of cultivation
since native revenue Officers are ex=
=verse to shewing a decrease in the land
under occupancy. The Board therefore
propose

propose altering the Dittum arrange=
=ment and establishing the rule that
each ryot is answerable for the hold=
=ing of the preceding year unless with=
=in a fixed time he presents a
writing detailing any fields which
he wishes to resign or any new=
=land which he wishes to occupy.
All these representations are to
be promptly settled and on their
completion the cultivation returns
of the year showing the land under
occupancy will be drawn out.
The Board have already sanc=
=tioned this change of system
in Nellore and South arcot and
now that the Assessment is in
process of being placed on a mo=
=dified and sounder basis, they hope
that

that the ryotwary system will gradually receive its intended development and display a series of estates held by substantial proprietors with little annual change.—

22 Statement No 11 shews in a brief form the result of the Dittum engagements, or the portion of the land under agency which was Cultivated

cultivated, or which (speaking here of entire fields) was left waste. The Lands left uncultivated from unfavorableness of season are deducted from the Settlement under the head of "Cabooleat Bunjer" and the failure of the rains impeded agricultural operations on this occasion, the deduction for waste amounted to Rupees 17,44,409, being an increase over this item in the preceding year of 6,53,530 or nearly 60 per Cent.—

| Dittum Waste or Cabooleat Bunjer | |
|---|---|
| Fasly 1262 — | 10,90,879 |
| 1263 — | 17,44,409 |
| Increase — | 6,53,530 |

The next Statement,

23 No 12, exhibits the cultivation of the different Districts in the Villages under Ryotwary Management and as the details of the wet, dry and Garden lands are not distinguished in the accounts of Malabar, Canara, and Madras, a comparative view of the cultivation in the 16 Districts embraced in this report can only be shewn in their revenue result.

The

The comparison is as follows — and exhibits a decline of 3 per Cent.

assessment on cultivated Lands

| 1263 - - - - - - | 2,79,88,896 |
| Rupees - | 9,03,143 |

The above "cultivation" consists principally of land which was actually sown, but it also includes some waste for which it was not proper to grant the holders remission, and which is therefore brought under the nominal head of cultivation in the Settlement accounts. The amount of waste thus charged in the year under review amounts to Rupees 1,56,166, being less by Rupees 5,1816 than in the preceding Fusly. This waste consists principally of lands taken up by Ryots either at the Pattum or on Cowles and left uncultivated without due cause, such as a want of water or agricultural Stock. In the Ceded Districts Circar land is charged for when its occupant leaves it waste and employs

employs his stock in cultivating rent free Enam land — another portion of the waste brought into the Settlement consists of land occupied as pasturage. The Marginal note shows the Districts where the largest amount of waste was charged, and it will be observed that it bears a perfectly insignificant proportion to the general Revenue.—

*Note-

The decrease of Revenue is small on the wet Lands compared with the decrease of Cultivation- This arises from the assessment having been raised in Tanjore and Tinnevelly under the Colcongoo system by the large increase in the price of Grain.-

## Fort St George — July 1855

It will be observed that the cultivation of the irrigated lands (wet and garden) is not greatly below the preceding year, advantage having been taken of such rain as fell to sow them, and the chief loss which occurred to Government under their heads consists of the extensive remissions which it was necessary afterwards to grant for short or failure of produce from drought. But on the Poonjah lands the scarcity of rain diminished cultivation as well as destroyed a large extent of the crops which were actually sown.

The net result of the cultivation gives a decrease of Rupees 897483, of which nearly the whole is on the dry lands. The districts in which cultivation fell off most considerably were.—

As the average rates of the assessment levied on the cultivation of the different districts possesses interest the following Table is given.—

For example, the average assessment actually levied on dry lands in Bellary is not as 12-11- per acre, but rather under 10 Annas. — From Govt Sec to Mr Cond 11th Sept 1820. |

It has been thought most useful to give the above Statement in acres, though the Cawny is still the principal land measure of the Presidency and is used for the accounts which accompany this Report according to the practice hitherto followed.-

25. The next Statement No. 13 exhibits the remissions which were allowed in the assessment of the cultivated lands during the Settlement. They are divided into two heads, fixed and occasional, the former of which requires no remark, being sufficiently explained by the entries in the Statement. The "occasional" remissions are contingent on the season and consist of several items, the principal of which is the loss of crops by drought or flood. In the present year, Government will be prepared for heavy remissions on account of Shavy or withered Crops and the Total sum, including remissions for short produce, amounts to Rupees 20,43,123, while in the preceding year it only slightly exceeded

half

half a lack of Rupees. The districts in which the principal portion of this remission was granted are exhibited in the Margin, and it will be observed that in the Districts with little irrigation, Bellary for example, the disastrous nature of the year is chiefly shown by a decrease of cultivation, which in the irrigated Districts the failure of the rains is most apparent in the remissions allowed for withered crops.-

| | |

| Chingleput | 1,19,845 |
| Nellore | 2,25,453 |

| Tinnevelly | 3,70,697 |
| Bellary | 1,12,379 |
| Kurnool | 51,388 |
| | 19,88,176 |

26 In seasons of ordinary unfavorableness it has not been usual to allow remissions for the loss of dry crops by Drought, for the reason explained in Paragraph 14.- But on this occasion, the season was so disastrous, and the produce was so scanty on those lands where the crops were harvested, that remission was allowed for withered crops on Poonjah as well as on Nunjah land. This remission however met only a portion of the loss which the

land

land holders sustained from the adversity of the season. In South Arcot alone it was calculated that they lost eleven Lacks of Rupees from inability to sow their indigo lands. The total sum of Rupees 20,43,123 which was remitted for withered and scanty produce was distri-buted on the different descriptions of land in the following proportions.—

| Wet - - - - - | 15,88,162 |
| Garden - - - - | 3,745 |

The "occasional" remissions granted under the three heads of Fields partly left waste "Second Crop not cultivated" and "Miscellaneous" also exhibit an increase over the preceding year. It is usual only to allow re-missions for portions of fields left uncultivated when the waste

waste exceeds the Cultivated portions to a certain extent, but in the present year it was necessary to be more indulgent, and the Rules on this point were tem-porarily Relaxed in some Districts — under the head of Remissions for loss by inundation, there is a Saving to Government of Rupees 1,02,270 — The sums Remitted on this account in the year under Review was Chiefly in Kurnool, where a flood in the Kistnah injured the adjacent Villages —

After the explanations given in last year's Report, the remaining items of Remission do not appear to require re-mark, and it seems sufficient to observe that the Minha or percentage Remission to Brahmin and Mahomedan Cultivators is being abolished as opportunities occur in the Revision of the Assessment —

28 The extent of Sugar Cane,
Cotton and Indigo Cultivation is given
in Statement 15, and in accordance with
the desire of Government, the average
assessment of the land on which these
products are grown is detailed in its
enclosure D- The Cultivation in the 16 Districts
for which alone Returns are procurable
was as follows-

| | Fasly 1262 | Fasly 1263 | Difference |

| Indigo — | 153,519 | 120,314 | 33,205 |

Sugar Cane which is planted on lands
supplied with irrigation shows a slight
increase, but when it is considered that
the irrigated lands under Cultivation,
speaking here of Punjab only and omit-
-ting Zemindary and Enam Villages, is
Comprize 1,33,2776 Cawnies, its extent
must be looked on as highly unsatisfactory.

10591 Fort St. George 5th July 1855

In Kurnool where the rate of assessment
evidently acts as a prohibition, measures
will be taken to effect an immediate
Remedy, and in other districts also the Board
believe that the present Revenue System
Restricts the Cultivation- Under the Rules
now in force, the extra rate charged for a
second Rice Crop is levied when Sugar
Cane is grown, and the Board incline to the
opinion that it would be advantageous to
Government and the people for this practice
to be abolished- Sugar Cane undoubtedly
occupies the land and requires occasional
irrigation as long as two Rice Crops,
but the Board are led to think that the
amount of water which it requires is not
equally great, and Government may deem
it advisable to alter the present rule, although
not unjust in itself, if it is found to
check the Cultivation of a valuable and
important article of export- The Board
propose to address the Government again
after collecting information on this subject-

29 The large decrease in the Cotton
and Indigo Cultivation was caused by the
drought- These products are raised princi-
-pally on dry lands and the want of rain
prevented

presented the usual Sowings - The principal decrease in the Cotton Cultivations occurred in Bellary, South Arcot and Cuddapah, and the two latter districts shew also the largest falling off under the head of Indigo -

30 Statement No. 16 exhibits the general Settlement of the Land Revenue in its various branches, Rayotwary, Ready money Collections, Rents, and the Peishcush on Zemindary, as permanently assessed estates - The result gives a decrease of Rupees 28,05,647 in Comparison with the preceding Fusly -

The decrease under the heads of Rayotwary and Ready Money Collections is attributable to the adverse nature of the season, as has been already explained - The revenue derived from Rented Villages shows an increase of Rupees 11,226 which is only nominal, having been caused by some additional Villages in Nellore being brought under this head - Under the head of Peishcush a small decrease of Rupees 8,360 was caused by some small Mootahs reverting to Government in the Chingleput and Salem Districts - The adverse nature of the season did not effect the demand on the lands under permanent Settlement, which, as its name implies, is not liable to vary - The proprietors of these Estates undoubtedly felt the effects of the prevailing drought, but as they usually receive their Revenue in Kind, and possess stores of grain the profit derived from high prices enabled them to meet their engagements, though in some instances indulgence was shown in allowing them extra time to discharge their Kists -

In Madras to which an increas-
-ing amount of the inland trade
is being attracted by the superiority
of the roads which Connect it with
the interior, there was an increase
of Rupees 124,117, and in Malabar
also the sales exhibit a slight advance
over the preceding year, but in all
the other Districts there was a decline
which is attributable to the unfavour-
-ableness of the season, the dearness
of food, checked Consumption, and
traders were prevented resorting in
their usual number to the Depôts
by the unhealthiness of the Country.

and the scarcity of forage and water. As full Statements of this branch of revenue are laid before Government on another occasion the Board limit themselves to observing that the home and inland Sales fell off to the extent of 8 per Cent on those of the preceding year. The chief cause of this decline was undoubtedly the temporary unfavorableness of the season, but a rumour of the approaching abolition of the Monopoly may have had some influence in checking the purchases of large traders, as observed by the Collector of Madura.

33. The small decrease of Rupees 7,282 in the Land Customs which are now levied only along parts of our foreign frontier does not appear to require observation.

34. The Abkarry revenue which, except at the Presidency is managed on the renting system, gives a net increase of Rupees 94,233. The Districts in which the revenue rose are shown in the margin and the result is owing to increased competition for the farms, except in Madras where the movement of troops on their way to and from Burmah increased the Sales at the licensed Shops. In Malabar there was a slight decline of Rupees 217 in the highest offer

offer on the farms being put up to auction and in the four Districts of Chingleput, Salem, North Arcot and Kurnool, there was no change, the contracts of the previous year remaining in force.

35 The next item of Revenue "Sundry small Farms and Licenses" shows a net increase of Rupees 24,833. The principal fluctuations under this head occurred in the Districts of Madras and Canara. In the former there was a decrease of Rupees 12,535 Caused partly by a diminution in the fee for stamping the weights and measures used by Shopmen, and partly by a temporary want of water in Cochrane's Canal which impeded the traffic and diminished the receipts on account of toll to the extent of Rupees 7,737. In Canara there was an addition of Rupees 17,475 to the receipts under this branch of revenue Caused by high offers being made for the privilege of felling timber in the Government forests and by a larger export of Ameeandeay Coir to Bengal. This branch of the Extra Sources of Revenue seems to require revision and the Board will take an early opportunity of attending to it with a view to striking off such petty items as are vexatious to the people and little remunerative to Government.

36. The Motirpha revenue shows a slight decline of Rupees 25,476. In most Districts the variations are insignificant and the principal part of the decrease occurred in Bellary where the prevailing distress led many of the small traders and artisans to leave temporarily their Villages and occupations in search of means of subsistance. It is hoped that this branch of revenue which tends to Cramp the industry of the Country while it yields a Comparatively inconsiderable result will soon be abolished by Government.

37 In the Sea Customs there was a small net increase of Rupees 2,9,451 as other returns are laid before Government to illustrate the external Commerce of the Presidency, the Board will limit themselves to observing that in consequence of the unfavorable harvest in Tanjore, its export of rice to Ceylon fell off so much as to cause a decline of Rupees 16,954 in its Custom House receipts. The additional expence to that Island which in consequence took place from Madras added Rupees 5,649 to its Sea Custom revenue and at the Presidency and in Malabar the receipts under this head also exceed those of the previous year.

38. The abolition of the Tobacco Monopoly in Malabar and Canara from 1st January 1853 caused the decrease of Rupees 4,40,334 under this head. The small sum of Rupees 1840 which is entered in the present Statement will in future be brought to account under the head of Sundry small farms and Licences. It forms part of an annual sum of Rupees 2507 paid by the Travancore Government for the Village of Tangachery which they rent from us, and of which Rupees 1840 have hitherto been carried to the Credit of the Tobacco Monopoly and the remainder to other heads of revenue.

39. The Stamp revenue exhibits an increase of Rupees 45,434, and its fluctuations are ascribable chiefly to the state of business before the various Civil Courts. In some districts this revenue has been slightly affected by an Order of the Sudr Udawlut, dated 10th April 1854, directing all petty Suits to be filed in the Courts of the District Moonsiffs where stamps are not required for the pleadings and other papers. Hitherto these suits were often filed in the Superior Courts by which practice the parties sued were put to extra and unnecessary

expense.

40. The extra items under the head of Sewoy Jummah are detailed in Statement No 6, and shew a net decrease of Rupees 12,005. In Canara there was a large increase of Rupees 69,549 on account of the timber cut and sold under the Agency lately established for the Conservancy of the Government Forests, but this was counterbalanced by a falling off in the receipts of other Districts. In Coimbatore there was a decrease of Rupees 39,852 as little Government Sandalwood was disposed of, and the sales of confiscated Tobacco have ceased since the abolition of the Monopoly. In Tanjore likewise there was a decrease of Rupees 2,1973, but this was nominal, the Collections on account of some Enam lands resumed for want of heirs having been transferred in the present year to the proper head of Land Revenue. In the remaining Districts the receipts under this head also declined in consequence of the state of the Season though not to an extent Calling for particular observation. The total revenue under this head amounted to Rupees 24,73,336 being Rupees 12,005 less than in the previous year.

See Extract from Mr. of C. 8th Jud. Cons. 30th Nov. 1854.

Fort St George 4th July 1855

Of the total demand of the year the portion realized before the close of the Fusly amounts to Rupees 33,42,0316 or 93 per Cent, and the present outstanding balance is limited to Rupees 7,84,611 or about 2¼ per Cent. Last year the per centage of the Balance at a similar period was only 1¼ but under the adverse state of the late season the Board are of opinion that the realization of the revenue shows a satisfactory result. Some details of the Collections under the different heads will now be offered.

43 It has been shown that the Demand under the head of Peish-cush on Zemindary Estates Amounts to Rupees 2,70,542 and only falls below the preceding year by Rupees 8,360 being the Assessment of some Estates which have reverted to Government.

Of the above total demand the present unrealized portion amounts to Rupees 9,857 and is due in the Districts noted in the Margin. As Zemindary Estates are under a Permanent Settlement their assessment is not influenced like ryotwary Districts by variations of Season, and as the proprietors generally receive their rents in kind and have grain in store the favorable state of the markets enabled them, notwithstanding short produce to meet their engagements. In two Districts only is the balance considerable. North Arcot and Malabar. In the former the collector obtained the Sanction

of the Board for the Zemindars of Calastry, Cauetnuggur and Bengaroopolliem to pay their last kist by instalments in Consequence of the unfavorableness of the Season, and in Malabar the balance is due by the Beebee of Cannanore against whom the demand was not prefsed by order of Government pending the consideration of some ulterior arrangements.

44. The Ryotwary Collections and arrears in the different Collectorates are detailed in Statement 18 and show a present balance of Rupees 6,66,976 being a per Centage of 2 2/3 on the total demand of Rupees 24,76,633. The Districts in which the largest amount is outstanding are shewn in the margin, but with respect to Tanjore the quarter part of the arrear is now nominal as Government Sanctioned the remission of Rupees 40,800 on the 7th September last in consideration of the heavy loss which fell upon the land holders in the present season immediately after the damages caused by the hurricane of the preceding year.

of "Rents for more than one year" Extra Sources and Extra Items require no observation on this occasion. The total amount is small and measures are being taken for its Collection in the different Districts where it exists.

46. All the Collectors have not shown in their reports the extent to which legal process was resorted to in the Collection of the revenue. Measures will therefore be taken to supply this defect in the Report and furnish a full Statement in the ensuing year. An abstract is given of the returns received from the undermentioned Districts and the Board believe that coercive process was not more frequently resorted to in the other Collectorates.

In Tanjore one fraudulent defaulter whose property was unsuccessfully put up to sale, was temporarily imprisoned but the last returns show that no individuals are in confinement for arrears of land revenue. In Nellore it was found necessary to imprison a defaulting Abkary renter and his security, and their cases are under the consideration of the Board.

47- The arrears of former years will now be advertted to. Those under the heads of "Peishcush or Zemindary and Rents for more than one year" are shown by Statement No. 30 to amount respectively to Rupees 44,742 & Rupees 1361, but these sums will be adjusted hereafter and it is unnecessary for the Board to make any recommendation now on their account. The Peishcush arrears consist principally of a balance of Rupees 39,750 due by the Beebee of Cannanore which has remained unenforced in Conformity with the orders of Government dated 20th May 1853.

In Dy Cons: 6th June 1853.

48- The Ryotwary arrears amounts to Rupees 3,55,291 and are Classed under the following 3 heads.—

| | Rs |
|---|---|
| 1 Recoverable | 180,818 |
| 2 Doubtful | 30,416 |
| 3 Irrecoverable | 144,057 |
| | 3,55,291 |

The first and second items will be left for future disposal and out of the arrears entered under the

10609 Fort St. George 4 July 1855

the third head a portion amounting to Rupees 78,670 is included in the remissions sanctioned by Government on the dates specified in the margin and will consequently be struck out of the future accounts. The irrecoverable balance which the Board have therefore now to recommend for remission is limited to Rupees 65,387. The details of this arrear and the Districts among which it is divided are given in Statements 21 & 22, and it will be observed that the period for which it is due ranges for fasly 1257 to 1262 / 1847 to 1852. The causes which have led to that portion of the arrear now recommended for remission are as follows.—

| | Rs |
|---|---|
| Death of defaulters | 582 |
| Absence of Do. | 1,104 |
| Poverty | 29,831 |
| Permanent injury to the lands and other causes | 33,870 |

The Board also request sanction

49- for writing off Rupees 2,094 on account of Extra Sources of revenue and Rupees 4,863 under the head of Extra items or Sewoy Summuk. The details of the arrears under these two heads are shown in Statements 23 & 24, and under the explanation furnished by

by the Collectors it seems desirable to clear the accounts from the above hopeless balances.

50. The advances for Cultivation were confined to 3 Districts as shewn in Statement No 25 and amounted to Rupees 15,1376 of which Rupees 14,9687 have been recovered, leaving a small outstanding balance of Rupees 1689.

1 Nellore 760
2 Tanjore 83000
3 Trichinopoly 39998

The largest advances were made in Tanjore and Trichinopoly and were granted on account of the damages done by the Hurrisane in March 1852. Except on special occasions of this description the practice of making these advances has been latterly discouraged and its total extinction in some Districts has been found to be attended with no inconvenience.

51. A general Statement of the Collections Current and arrears is given in Statement No 26 and exhibits the following Contrast.

| Particulars. | Fusly 1262 | Fusly 1263 | Increase | Decrease |
|---|---|---|---|---|
| Land Revenue | | | | |
| Arrears | 14,22,951 | 15,31,361 | 1,08,407 | .. |
| Current | 283,15,667 | 252,77,773 | .. | 30,37,894 |
| Total | 297,38,621 | 268,09,134 | .. | 29,29,487 |
| Extra Sources | 87,01,356 | 81,40,350 | .. | 5,61,006 |
| Total | 384,40,977 | 349,49,484 | .. | 34,90,493 |
| Sewoy Jummah | 2,58,631 | 2,36,394 | .. | 22,237 |
| Grand Total | 386,99,608 | 351,85,878 | .. | 35,12,730 |

The decrease in the Current Collections of the Land revenue has been already ascribed to the unfavorableness of the season and it has been pointed out that the Chief falling off in the Extra Sources of revenue is owing to a similar Cause especially in the branches of Salt and Customs, and to the abolition of the Tobacco Monopoly. In the land revenue Collections on account of arrears the accounts shew an increase of Rupees 1,08,407. In the preceding year the storm which visited the Southern provinces in March 1852 Caused some delay in realizing the last Kists, a larger amount than usual was thus remained outstanding at the close of the fushy and was Collected in the present year.

52. The Revenue Charges of the year are detailed in Statement No 27 and amounts to Rupees 9,67,379 being an increase of 1,75,207 over the preceding Fushy.

The 4 heads into which they are divided give the following Comparative results.

| | 1262 Rs | Per Centage Rs a | 1263 Rs | Per Centage Rs a | Increase Rs |
|---|---|---|---|---|---|
| 1 Charges of Management | 34,97,453 | 9 – 15 | 35,29,046 | 10 – 1 | 31,593 |
| 2 — " — of Irrigation | 9,47,900 | 2 – 5 | 12,59,243 | 3 – 9 | 3,11,343 |
| 3 Jeemiahs and other allowances | 148,88,329 | 38 – 4 | 150,73,356 | 44 – 4 | 1,85,027 |
| 4 Extra charges | 15,62,808 | 4 – 1 | 28,71,334 | 8 – 3 | 13,08,926 |
| Total | 74,16,1729 | 3 | 9,67,379 | 26 – 1 | 1,75,207 |

Under

Under the first head the increase principally occurred in the Salaries drawn by the European Officers. With the exception of the additional Sub Collector employed in South Arcot on account of the Survey no recent additions have been made to the ordinary Establishment but owing to absences and other causes the sums drawn for Salary within a Fusly are always liable to vary, and in the year under review the prolonged period necessarily occupied by the Land revenue Settlement increased the amount drawn for detention allowance.

Under the second head the additional expenditure arose from the execution of a larger number of public Works, and as all the new undertakings received the previous Sanction of Government, no detailed explanation appears called for in this place.

The third head also requires no remark. An explanation of the 4th head, a detailed account of the Extra Charges has been appended to Statement No. A in 27 in accordance with the instructions given by Government in their remarks on the Board's last Report. These charges exhibit an increase of Rupees 13,08,926 over the preceding year, but it will be

observed that 8½ lacs of this sum consist of the advances made within the Fusly to furnish employment in road making to the Starving population of Bellary, and that the advances under the head of "the Service of Government" in Coimbatore for Barracks and roads on the Neilgherry Hills exceed those of the previous year by Rupees 90,790. The advances in aid of Cultivation (Tuccavy) and in the manufacture of Salt show an increase of Rupees 88,000 and Rupees 1,90,078 respectively, but these sums will be recovered and obviously form only a nominal increase of Charge. Under the head of Refunds there is an increase of Rs 1,89,161 occasioned by the repayment of Moturpha collections to certain Zemindars in Tinnevelly according to the orders given by Government on 22nd November 1853.

In Cons: 28th Oct: 1853.

In the year under review the administration of the revenues was rendered peculiarly difficult by the unpropitious nature of the Season and the heavy weight of labor and responsibility which is always involved in the management of our extensive Collectorates was thus much

53.

much increased. It is gratifying to the Board to report that the Collectors and their Subordinates, European and native, have generally shewn an active and successful zeal under this extra call on their exertions and it is due to Mr. H. Forbes and Mr. C. Pelly to bring their names more particularly to notice. The Districts of Tanjore and Bellary which have been placed under their Superintendence are of the first importance in extent population and revenue, and therefore always form an onerous charge. In the present year they were visited by a drought and dearth of almost unprecedented severity, and the success with which these Gentlemen carried on their duties under these difficult circumstances appears to the Board to merit the approval of Government.

54 - It has fallen upon the Board in the present instance to record the results of a year, remarkable for its general unfavorableness throughout the Presidency as well as for the great distress which it caused in particular localities. A temporary decrease of revenue to a considerable

considerable amount has been the inevitable result, but the Board see no reason to doubt that the loss will be speedily repaired. The manner in which our Districts have passed through this severe ordeal shew the value of the recent liberal measures of Government in abolishing the land Customs, freeing private wells from taxation and improving the Communications and irrigation of the Country. This Course of improvement is in active and extended progress. Arrangements are being carried out for modifying the land tax establishing at the same time district road funds for the improvement of internal communications. The next most important reform as perhaps the rule which fixes a moderate assessment on the land according as it is irrigated or unirrigated from any Government reservoir, without reference to the description of Cultivation which the proprietor may undertake. thus encouraging the growth of superior products and the planting of valuable timber and fruit trees, by abolishing the old and injurious system under which they were liable to extra taxation.

In

Fort St George 4th July 1855

In Canara and Malabar the abolition of the tobacco Monopoly gives much relief to the people benefiting alike the producing and the consuming classes, and in other districts several petty farms and hill rents which fettered industry and gave opportunities for exaction have been swept away. Improvements in the Revenue administration including the establishment of a Survey Agency have also occupied the Board's attention. The use of the Mahratta language in the Official accounts has been superseded by the vernacular dialects and a simpler and better form of accounts is now under preparation. The more extensive employment of an Uncovenanted agency, the establishment of printing presses in the Collectors' Offices to facilitate business and spread the Orders of Government among the people, and the improvement of the law for the Collection of the revenue and the adjustment of disputes between landlord and tenant are other contemplated improvements.

55 It will remain for future reports to detail the results of these measures, but of their favorable effect on the value of land the prosperity of the Country and the finances

of Government the Board can entertain no doubt.

2. The total number of persons charged was 100 or 66 less than in the previous half year. There was a considerable decreade in the number arraigned in Rajahmundry, which is attributed by the Commissioner to strict attention having been paid to the orders of Government of the 16th July 1853, prohibiting the trial of persons under the Regulation on inadequate grounds.

3. The greatest number of trials took place in Cuddapah 26 and South arcot 12 In Ganjam, out of 10 persons arraigned 3 were convicted, and 7, or more than two thirds acquitted. The Commissioner proposes to call the attention of the acting Collector to the orders of Government above quoted. No trials were held in Vizagapatam, Masulipatam, Coimbatore, Malabar and Kurnool.

2 From other Correspondence which has passed on this subject, we are in a position to inform Government, that the Collector of Coimbatore is of opinion that these Premises would rent for about (30) Thirty or (35) Thirty five Rupees per mensem and that the sale of them would be inadvisable.-

3. But there is another point which requires the Consideration of Government that is the claim put forward by pensioned Sergeant Holmes for Compensation for the improvements he made in the Quarters. Sergeant Holmes states that he expended in such improvements all his savings for about a period of 4 years and that they cost him Rupees (300) three hundred and fifty but the assistant Civil Engineer has appraised the improvements at Rupees (300-4) Three hundred

Bd. No 1779
From the Collr.
of Vizagapatam

Sir,

I have the honor to ac-
-knowledge the receipt of Extract
from the Boards Proceedings
dated the 4th Instant requesting
to know why no data has yet been
fixed for an agricultural exhibition
in this District in 1856.-

In reply I beg to state that
the reasons are.-

1st. When I took charge of this
District in March last I found that
no arrangement had been made
by my predecessor on this account.-

Secondly. The people here both
European and Native seem to regard
the matter with very little interest.-

3 The Lands and Roots in this
District are chiefly at the disposal
of

1069 Fort St. George 5th July 1853

of the Zemindars and unless they
exert themselves, the Revenue au-
thorities have no influence, besides
there exists in Vizagapatam an
intense feeling of Jealousy between
the principal Zemindars families —
none of whom will exert themselves
if the exhibition be held in any
other Zemindary which would ne-
cessarily be the case in choosing
a Central position.—

3 Besides these reasons, from
the absence of my Principal and
one of my Junior assistants now
since the beginning of this year a great
amount of Civil and Criminal duties
has devolved on me. The Proper dis-
posal of which with other more im-
portant matters — has prevented my
attention being directed to the subject
of agricultural exhibition and Cattle
shows.—

Bd. No 1834.
From the Collector of Rajahmundry
23d January
26th May
21st June
1853.

Replying to letters of the 22d January 26th May and 21st June calling for statement of irrecoverable costs of Civil suits against Govt. Officers in the Collectorate.—

With reference to your letters noted in the Margin calling for a Statement of the irrecoverable costs of Civil suits, I have the honor to state that on the transmission by my predecessor under date the 11th July 1853 of the Statement of unrecovered Costs a further reference was made to the Government Vakeel to ascertain from him the amount of Costs due for earlier years, the Confused state of the records having not permitted him to furnish Complete information in the first instance — The Statement subsequently submitted by him has shewn a total outstanding of Rs. 347-11-3 including the sum of Rs. 143-11-3 entered in the Statement sent by Mr. Prendergast.—

2. Steps were taken on receipt of your letter of the 22d January last to realize the recoverable portion thereof and to obtain such information as regards the remainder as would admit of the disposal of the same. The amount being

10671 Fort St. George 5th July 1855.

being dis. by several individuals and scattered over 25 years, all the information required to bring the matter to a satisfactory settlement has not yet been obtained. The following is the present state of the matter.-

| | | | |
|---|---|---|---|
| Amount actually Collected | | 37 | — — |
| Do. which the parties have agreed to pay in course of Collection | | 68 | 11 — |
| Do. stated by the parties to have been already paid by them and consequently under further reference to Government Vakeel | | 58 | 12 — |
| Do. due by individuals who have since died and left no heirs or property | | 3 | — — |
| Do. due by parties whose place of present residence it has not yet been possible to trace | | 9 | — — |
| Do. still under inquiry | | 171 | 4 — 3 |
| | | 347 | 11 — 3 |

3 Every endeavour shall be made by me to submit the Complete statement required with as little further delay as possible.- The Board are perhaps aware that the sums in question are not still standing under the head of advances in the accounts of this office, but were debited at the time of disbursement to the head of "Law charges" the recoveries now being made are credited to "Recoveries of Law charges."-

No. 1407
From the Collector of Masulipatam

Sir

With reference to the Extract from the Proceedings of the Board of Revenue dated 19th October last, I have the honor to transmit herewith a Return in the prescribed form of the oils of this District, from which you will observe that the Gingely and Lamp oils are the only staple oleaginous products of this District under the system of cultivation existing in this District it rarely happens that either of these are cultivated separately- They usually form one of several products raised in the same field and thus the exact extent of their cultivation is not on record and has been only guessed at in the present Return. The other oleaginous oils mentioned in the list are to be had in but limited quantities the demand for them being equally limited- I am aware that the list will appear very meager but the enquires which I have made, lead me to believe that these are all the Oleaginous products of this District.

=vied in this Collectorate on the previ-
=lege of sifting the ashes from the fur-
=naces of Goldsmiths independently of a
Moturpha on the Goldsmiths them-
=selves-

2- In compliance with the in-
=structions conveyed in the 3d Para
of the above Circular, I beg to for-
=ward a statement shewing the vari-
=ous Items of Moturpha which
fall on labour only or are levied
from Parties in indigent circum-
=stances. The designation of these taxe-
=s together with the remarks ap-

=nerally explain their nature. For
more detailed information on several

3 It may be objected that
in several of these cases the Parties
liable to the tax cannot be strict-
=ly regarded as labourers, but the trades
carried on by them and the Capital
employed are so inconsiderable, that
their incomes cannot be regarded
otherwise than as the returns of
labor. I therefore venture to recom-

2 The Ulcabarry Farms for 1265 were sold previous to the receipt of the Circular which the Renters have taken upon the understanding that the July was to terminate with the 11th of July 1856 instead of the 30th June as now ordered. It is difficult to make a deduction for the 11 days without loss of Revenue for it is probable that the Renters would take advantage of this opportunity and claim large remissions on the score that greater quantities were sold on those days than on others. It is a mein to carry out the orders of the Board and at the same time to prevent the unnecessary sacrifice of Revenue, I propose remitting the

Sir

With reference to the Extract from the Proceedings of the Board of Revenue dated 19th October last, I have the honor to transmit herewith a Return in the prescribed form of the oils of this District, from which you will observe that the Gingely and Lamp oils are the only staple oleaginous products of this District under the system of cultivation existing in this District it rarely happens that either of these are cultivated separately- They usually form one of several products raised in the same field and thus the exact extent of their cultivation is not on record and has been only guessed at in the present Return. The other oleaginous oils mentioned in the list are to be had in but limited quantities the demand for them being equally limited- I am aware that the list will appear very meager but the enquires which I have made, lead me to believe that these are all the Oleaginous products of this District.
