Bd's No 1743.

From the Secretary to Government

Resolving to adopt the Boards suggestion that the new forms of Village accounts be at once distributed to the several Collectors giving them discretionary in respect to their adoption directing the Collectors to Communicate with the Board for submission to Government any objections which may occur to them in any parts of the new forms and requesting the Board with reference to para 8 of their letter to Govt of 21st June 1860 to Continue the examination of the forms and submit the result at their earliest Convenience.

Fort Saint George 10th July 1855.

Read the following Papers

No 779.

Extract from the Minutes of Consultation in the Revenue Department under date the 28th June 1855.

Read the following letter from the Secretary to the Board of Revenue.

(Here enter 20th June 1855 No 1538)

In this letter the Board of Revenue reply to the order of Government of the 15th Instant, requesting their opinion on certain new Forms prepared in the Government Office for the Village Accounts. The Board state that an examination of the Forms such as would enable them to pronounce an opinion upon them, would occupy three or four Weeks, even if reference to Collectors were not found necessary, and, being unwilling to delay the introduction of the Forms into use, they at once notify the circumstance, in order that if the Government see fit, they may immediately be sent to the Districts, suggesting however that in that case Collectors should be allowed to adopt them in Fusly 1265 in only a part of their Districts, if they should find it inexpedient to introduce them generally.

2. The Government concur in the expediency of the Course thus suggested by the Board and resolve to adopt it. They had hoped

evidence

Fort Saint George 10th July 1855.

indeed that it would have been practicable to introduce the new Forms universally in the approaching Fusly, but the time is now too short, as the Board truly remark for the necessary preliminary steps to allow of that being done, The forms will however be immediately circulated to Collectors in sufficient numbers to be distributed to all the Cumums of their Districts. The two Memo upon them prepared in the Government Office, and the Extract Minutes of Consultation of the 15th Instant will also be printed and Circulated to all the European Revenue Officers together with an English Translation of the Manual drawn up to guide Cumums and others in using them. This manual will also be printed in the Vernacular language, and a Copy will be supplied to every Cumum at the price of four annas.

3. The Right Honorable the Governor in Council does not doubt that by a diligent use of these means all parties Concerned may speedily become familiar with the new Forms It will be at the discretion of Collectors to adopt them in actual use during Fusly 1265 over only such parts of their Districts respectively as they find

Fort Saint George 10th July 1855.

find expedient but the Governor in Council hopes that in every District they will be in use either in one or more whole Talooks or in Ten or fifteen Villages of each Talook, where the most intelligent Cumums are met with. A full discription of the Forms will be found in the Papers, which will be circulated, and the Governor in Council Commends them to the careful Consideration of all Revenue Officers. even Collectors should make themselves acquainted with them and their European Subordinates who have more leisure, and especially the Junior of them, should study them minutely. The Government believe that the exertions of these Officers especally of the Head Assistants and the assistants in Charge of one or more Talooks, may be very useful in effecting the early introduction of the new system in their Talooks and familiarity with the accounts cannot but be of much value to themselves as Revenue Officers.

4. The Government Consider the proposed Change in the system of accounts as an administrative reform of great value, and they rely on the zealous exertions of the Collectors to carry it into effect, Opposition will certainly be encountered not only from timidity and aversion to Change in

the

the Curnums, but also from more culpable motives in the part of some of them, and on that of the Talook Native Officers, and even of those of the Collectors own Cutcherry, many of whom will view with dislike the introduction of simple and perspicuous accounts in place of those hitherto in use, But all such opposition is to be overcome by firmness and tact. In the approaching Fusly is already said the efforts of Collectors may be limited to introducing the new system into actual use in parts of their Districts, and to the general dissemination of familiarity with them, but in the following Year Fusly 1266, His Lordship in Council Confidently hopes that it will be practicable to adopt them universally in their present or in some modified shape.

5. Adverting to the late period of the year when the Forms will reach the Curnums, it may be observed that there is only one of the number, Viz^t, the Cultivation Statement which would properly be used early in the season and even that may be easily filled up from the Curnums, ordinary accounts for the months anterior to its receipt - all the forms relating to the Collection of Money would under any Circumstances hardly come into use at all before October.

6 Uniformity being essential to a good system of accounts, because without it Combination and Condensation of details into general Statements become difficult or impossible, Collectors are requested to observe that alterations are on no account to be made in either the headings or the arrangement of the Columns of the forms. Should any particular occur in any District for which no appropriate place can be found in the forms, an additional Column may be added, but before taking or authorizing this course a Collector should fully satisfy himself that the forms as they stand really afford no place for the item in question.

See para 6 of Memo, by the Secretary.

7. As it is highly probable that difficulties and questions will occur in Connection with the new forms and new system to which a ready solution or answer may not be found, Collectors are authorized and requested in such cases to address the Secretary to Government in the Revenue Department, by Official Memo. all such references will receive prompt attention, but the Governor in Council would wish

wish to impress on Collectors the propriety of their using forbearance in making them, and of their satisfying themselves previously that there is really a cause. It is requested also that Collectors will report in the same way any additions which as noticed in the foregoing para they have thought it necessary to make to any of the forms. They will Communicate to the Board of Revenue for submission to Government any objections which may occur to them to any parts of the new forms or system.

8. Adverting to Para 8 of the Board's letter, the Government requests that they will Continue their examination of the forms and submit the result at their early Convenience. Any reference which may be received from Collectors in consequence of the orders given in the foregoing para will be Communicated to the Board together with the replies sent.

To the President and Members of the Board of Revenue

Bd. 1st. 1851. No. 801.

3.
From the Secretary to Government

Extract from the Minutes of Consultation in the Revenue Department under date the 5th July 1855.

Read the following letter from the Secretary to the Board of Revenue.
(Here enter 25th June 1855. No. 1598)

Para 1. On the 26th March last, the Board of Revenue submitted a letter from the Collector of Malabar in which that Officer reported that a certain Hill in Wynaad had been taken possession of by Mr. Chatfield the late Sub Collector, under the impression that the hill in question was escheated property, and some timber cut on it sold on behalf of Government, but that the ousted party had brought an action in the Principal Sudder Ameen's Court at Tellicherry and gained a decree. The Collector also requested authority to disburse the value of the timber awarded in the decree being 73-5-7. and also the costs of the suit amounting, as then stated to Rupees 41-3-2. Before passing orders on the application Government called for information on certain points Connected with it, especified in Extract Minutes of Consultation of the 5th April last, and this is furnished in the letter from the Collector now submitted by the Board.

2. The Collector states that Mr. Chatfield Considered the hill to belong to Government because the Wynaad forests are Government property but.

Fort Saint George 10th July 1855.

but he thinks that Officer erred in looking on the hill as a forest, it being merely a detached eminence with a good number of trees, but in parts cultivated and built on. He further states that he did not appeal against the decree of the Principal Suder Ameen, because it could not be discovered from the records that the hill was, as he supposed might be the case escheated property. He admits that it would have been better had he acceded to the Claim instead of allowing the case to be tried ex parte. The Collector adds that there is a Mistake in his former letter respecting the amount of Costs to be paid by Government which he states will be about ten Rupees instead of Rupees 41-3-2 though he is unable as yet to specify the exact amount.

3. Under the explanation now furnished the Right Honorable the Governor in Council sanctions the disbursement of Rupees (73-5-7) seventy three annas five and pice seven, being the value of the Wood sold and credited to Government and desires that the Collector will ascertain and report for sanction without delay the exact amount of the Costs of the suit to be paid by Government.

5.
Dd. 1860
From the Revenue Secretary to Government

No. 812

Extract from the Minutes of Consultation in the Revenue Department under date the 6th July 1855.—

Read the following Extract from the Minutes of Consultation in the Military Department.

(Here enter 27th June 1855)

Read the following

No. 27/176

To Lieutenant Colonel C. H. Browne
Secretary to Government
Military Department

Sir,

I am instructed by the Honorable the Commander in Chief to request you will be good enough to lay before the Right Honorable the Governor in Council the accompanying Letter from Major General Lowdy's Commanding the Northern Division of the Army, on the Subject of a requisition recently made by the Magistrate of Rajahmundry for a Jemadar's Guard of Native Infantry being detached

Fort St. Geo.e 10th July 1833

detached for the greater Security of the Ingumpurty Talook Treasury &c.a

The Second Para. of Genl. Sandy's Letter shows that on account of a successful attack by a band of Robbers, during last year on a Talook Cutcherry in the Masulipatam District small Military Guards were called for, by the Collector of that District for the greater Security of other Talook Treasuries.—

General Sandy's Letter contains in its 3rd. Para a suggestion that these small Talook Treasuries should be withdrawn from Village Cash Chests to permanent stations &c.a His Excellency desires me to say, that he entirely concurs with General Sandys in this proposition. It appears to the Commander in Chief that the maintenance of small Treasuries in many of the Villages of the District offers to the evil disposed too easy a prey to be neglected, and must therefore constantly give rise to requisitions for Military aid of a description highly prejudicial to the

Fort St. George 10th July 1833

the discipline of the Army and His Excellency would beg that the Right Honorable the Governor in Council will take the matter into Consideration, in order that if possible some arrangements may be made with regard to these Talook Treasuries which will render this breaking up of Regiments into small Guards in every direction, unnecessary.—

His Excellency finds that the Detachment at Rajapore, in the Northern Division, furnishes a Guard over a small Treasury at Terroor and the Condapilly Detachment furnishes small Guards over the Talook Treasuries of Simodygaum, and Bezoarah, and a Native Officers Guard over a Treasury at Juggiahpet, besides a small Guard over the Civil Engineers Office at Bezoarah.—

The Strength of the Condapelly Detachment is 1 Company 1 Subt 31 Rank and File were added to it last year, to assist in giving these Talook Treasuries Guards.

of

10973 Fort St. George 10th July 1858

Of Condapilly itself as a place for a Detachment His Excellency desires me to take this opportunity of attaching a Copy of a letter received from Dr. Miller in Medical charge of the Civil Engineers Department, Kistnah Division.-

It is therein described as Extremely unhealthy, both for Europeans and Natives of the latter Lieutenant Colonel Wight Commanding 8th Regiment Native Infantry which lately furnished the Detachment, states that more than one third of the party which rejoined from that post in February last were unable from weakness and debility, brought on by repeated attacks of Fever to undergo the ordinary fatigue of Guard and — Parade and that on all occasions the Detachment returning from there have been more or less crippled by Fever.

I &c.

10974 Fort St. George 10th July 1858

It would appear that the prevalence of Fever may be mainly attributable to the overgrowth of jungle &c. in the vicinity of the Barracks at Condapilly and it has been found necessary to remove the obnoxious Vegetation more than once on one occasion the Cost of doing so appears to have been Rupees 478.-

The Commander in Chief is not aware what importance is placed on this post by the Civil authorities in a Military point of view he sees none and would prefer seeing it abolished altogether but if it be found necessary that a Detachment of Native Troops shall be continued at Condapilly, he begs you will solicit the Government to adopt measures for the permanent removal of all jungle and rank vegetation in its vicinity, which in the opinion of the Officer Commanding the Northern Division, as well

10975 Fort St. George 10th July 1855.

well as the Medical Officer reporting on the station, is the Cause of the sickness which prevails there.-

Head Quarters
Octacammund
21st June 1855

Signed J. S. A Reid
Quarter Master Genral.

No. 297.

To,
The Quarter Master General
of the Army
Octacammund.

Sir,

I do myself the honor to report for the information of His Excellency the Honorable Commander in Chief that the Magistrate of Rajahmundry has stated that a gang of freebooters, headed by one Madakinn Bootchunnah who last year committed depredations in the Hill Talook of Jeddengy is now disturbing the peace of that part of the Country and that he considers it necessary that the Singumpurty Talook Treasury situated at Puttepaud should be more securely guarded

10976 Fort St. George 10th July 1855.

1 Jemadar
1 Havildar
2 Sergnes
18 Privates

than is at present the case. On his requisition, therefore a party, strength as per margin has been detached from Samulcottah to Puttepaud for the above purpose.-

2 I would here observe that in the Month of January last year a very daring and entirely successful attack was made by a band of Robbers on the Amudegama Talook Treasury in the Masulipatam District, who broke open the Cash Chest and carried away the Contents Viz. 9000 Rupees. The Collector upon this applied for small Military Guards in order to place the other Talook Treasuries in a state of safety. The Circumstances were brought to your notice at the time.-

3 I trust that His Excellency the Honorable the Commander in Chief will be pleased if he sees no objection to submit to Government whether it would not be advisable that the Collectors in this

Division

Fort St. George 10th July 1858

Division should be directed to with-
draw their Treasures from Village
Cash Chests to permanent Stations
There would not be then that occasion
for these small detached parties
the public property would be secured
and the Continual Drain of Military for
Civil duties obviated.-

Signed J. G. Sandys, Major General
Commanding Northern Division

To
The Officer Commanding
8th Regiment N.I.
Sir, Masulipatam

I have the honor to inform
you that Ensign E. Maclean of your
Regiment has lately suffered
from frequent and severe attacks
of fever, and that I consider it
necessary for the preservation of
his health that he should be
relieved as soon as possible from
Detachment duty at Condapilly.

I take this opportunity of
bringing to your notice the extreme
unhealthiness of that station in
the

Fort St. George 10th July 1858

the hope that something may be
done either to do away with the
Detachment there altogether or to
change it to a more salubrious
locality. During the last two years
four Officers have at different
times been in Command of the De-
tachment at Condapilly all of
whom were attacked by the In-
termittent fever for which the
station is notorious and it was
my duty to recommend their removal
in order to save their lives. I have
not had the means of becoming
personally acquainted with the
Sanatory state of the natives, but
I am informed by the Medical Sub-
ordinate who was formerly in
Medical charge there, that at
certain seasons, almost every Sepoy
of the Detachment was prostrated
by the fever. The cause of the pre-
valence of the disease is sufficiently
apparent. Extremely filthy in habits
for the most part by the lowest clases.

situated

10979 Fort St. George 10th July 1858

situated in a hollow and imbraced nearly on two sides by high hills which are covered with dense jungle pregnant with Malaria, it is no wonder that Condapilly is proverbial as being the hot bed of Cholera small pox and chiefly Intermittent fever.—

/Signed/ J. D. Bourdillon
Secretary to Government

Para 1. Resolved that the letter from the Quarter Master General of the army with the Correspondence accompanying it be Communicated to the Commissioner in the Northern Circars, and that he be requested to obtain from the Collector of

10980 Fort St. George 10th July 1858

of Rajahmundry for the information of Government an explanation of the reason of his requiring a Military Guard for the Palcole Treasury at Dingumpetty. The Commissioner will also obtain similar explanation from the Collector of Masulipatam as to his requiring such Guards at the Palcole Treasuries in that District, and from the Civil Engineer of the Kistnah Division as to the necessity of retaining a Military Guard at Bezwarah. In all these cases the strength of the Guards should be mentioned as well as the period from which they have been usual.

2 The Right Honorable the Governor in Council entirely Concurs with His Excellency the Commander in Chief as to the great impropriety of breaking up Regiments into these small detachments and he wishes the Collectors of these two Districts to reconsider the necessity of having Military Guards at Palcole Treasuries a practice which

which is almost unknown he believes elsewhere. He desires to be informed of the amounts usually lodged in the Taluk Treasuries independently of the Collections and remittances of the month, and requests that a statement shewing the daily contents of each Taluk Treasury in both Districts for the month of June 1856 may be submitted. The whole receipts, disbursements and balance of each day under all heads being stated, but without any details. The same for the Civil Engineers cash Chest at Bezoarah is also required.

3. With reference to the remarks of His Excellency the Commander in Chief respecting the Detachment at Condapilly the Commissioner will also be requested to explain whether that Detachment is maintained for Civil objects and if so what those objects are and whether the Detachment is still unnecessary.

The

4. The Collector should likewise be requested to state the number of Peons, Revenue and police respectively in each Taluk, and whether they are furnished with arms and how many from the Cutcherry Guard and they should be requested to state what measures they would suggest for dispensing with the Military Guards and they should immediately dispense with those Guards in all Cases wherein they are of opinion that it can be properly done. The Commissioner will also be pleased to call on the other Collectors under his Control to state whether any Military Guards are employed over the Taluk Treasuries in their Districts respectively and if so at which of them and respecting all such they should furnish particulars similar to those above called for as to the

Rajahmundry

10983 Fort St. George 10th July 1855

Rajahmundry and Masulipatam Districts.-

5. Government observe - that General Sandys is under a mistake in speaking of Treasuries in small Villages. There are no Treasuries except at the chief Stations of Taluks where Revenue is collected for transmission to the District Treasury and where a small sum is necessary to meet disbursements. These Treasuries cannot be dispensed with, but measures will be adopted to keep the funds in them as low as the requirements of the service will permit.

6 Ordered that a Copy of the above Resolution be forwarded to the Commissioner in

To The President and Members of the Board of Revenue

10984 Fort St. George 10th July 1855

in the Northern Circars and that he be requested to furnish a reply as soon as possible - Ordered also that a Copy be furnished to the Board of Revenue with the request that they will obtain from the Districts under their authority and cause for Government, the information particularized above respecting any - Military Guards now employed at the Taluk Treasuries

Ordered also that a Copy be furnished to the Military Department.-

great

Fort St. George, 10th July 1855

great use the small Press in question has been in facilitating public business both in the Collectors and in the Subordinate Division — Mr. Taylor is just now employed in printing elementary books and papers for the vernacular schools lately established under his superintendance I trust the Board will feel themselves justified in recommending that the cost of the Press and the expence of working it from the 16th January 1854 to the end of March last, shown by Mr. Taylor to be Rupees 678—15—11 — may be reimbursed to that Gentleman from the public money; and that for the present at all events, — the cost of working the same which will not exceed 50 Rupees per mensem may be borne by Government

Fort St. George 10th July 1855

No 67

To, The Collector
of Rajahmundry

Dated Inrsapoor 30th April 1855.

Sir,

On perusing the printed correspondence forwarded with the Circular from the Board of Revenue dated 22d Ultimo on the subject of the introduction of Printing Presses into the Offices of Collectors in this Presidency, which reached me a few days ago I observe it stated in the 2 Para of the letter to Government from the Secretary to the Board of Revenue No 298, that no official information has been received by the Board on the subject of the Press employed by me for the last year —

2. In my letter to the Commissioner for the Northern Circars, written when I was in charge of the District and dated in October 1854, I proposed the establishment of a Printing Press on an adequate scale for the Collectors Office submitted an Estimate

of

of its probable cost and pointed out the advantages which had resulted from the one already in operation in my own. From the tenor of the 2d Para of the Extract from Minutes of Consultation under date 8th ultimo I am led to believe that neither this letter, nor that subsequently addressed by yourself to the late Commissioner in which you advocated the superiority of the Printing over the autographic Press, were forwarded to Government with the papers which were written in favor of the latter instrument.

3. I beg therefore to recommend that my former application may be now forwarded to the Board of Revenue for submission to Government together with the brief detail which I now propose to give in regard to the amount of work that has been done by the Nursapoor Press and with regard to its cost and maintenance.

4. Before my visit to Madras on leave towards the close of 1853 I arranged with Major Cotton Civil Engineer of the Godavery Division, to procure if possible

possible at a moderate expense, printing materials which could be made available for both our Offices while at Madras; I made inquiries whenever information was to be obtained and after seeing the work both of lithographic and typographic presses, decided upon the superiority of the latter and purchased at second hand a small quantity of English[x] and Teloogoo types. Having divided this into two sets of cases and also procured a few of the requisite materials which could only be got at the Presidency I engaged the services of an experienced compositor in both languages at the American Mission Press, who joined me with his materials at Dowlaiswaram in the 2d week of February 1854. He was employed in the workshop for upwards of a month in superintending the making of two wooden presses, and in instructing natives in the business of printing. He commenced work with the new Press

in

x about 220 lbs & 300 lbs respectively

Fort St. George 10th July 1855

in the beginning of April 1854, so that calculating to the end of last month, the Nursipoor Press has now been in operation one year.

5. The amount of work that it has done is shown in the accompanying memorandum. The subject has been too fully discussed in Mr. Bourdillon's minute on the working of the establishment in North Arcot for me to add another word in regard to the advantage of a district Press. It will be seen that the Nursapoor Press has been found useful in most of the various instances enumerated by Mr. Bourdillon and which were more briefly noticed

Fort St. George, 10th July 1855.

noticed in my previous letter. Information has been circulated regarding the new Post Office rules, the Local exhibition of Fibrous substances, the practice of Torture and the establishment of museums and notifications have been issued to the Ryots, and village officers, on matters affecting their interests and their duties — which might otherwise never have been communicated to them. Forms of accounts and periodical statements and returns, endorsements mustarpha puttahs and ryots receipts

Fort St. George, 10th July 1855

receipts have been printed in large numbers and made available for your Office as well as for my own. I must not be understood to say that the Nursapoor Press has done the work accomplished at Chittoor - the sphere of Sub-Collector's duty is limited compared with that of a Collector and my printing materials are on a smaller scale while on the other hand I think it will be admitted that the uses to which this press has been applied are neither few in number nor unimportant.

Fort St. George 10th July 1855

important.

6. The accompanying memorandum gives the number of copies of each paper actually struck off within the year, but as some of the subjects extend over from 2 to 12 pages, and in the three instances given in the margin to 23, 28, and 83 pages respectively the total number of impressions would amount to about 150,000 or to an average of nearly 500 per diem for the whole period of 12 months reckoning 26 days to a month - My experience of the speed in working quite corresponds with what is stated in the 25th para of Mr. Bourdillon's minute 1200 copies have been obtained in the Nursapoor Press in one day by employing three persons, one press man one boy to place the sheets and another to ball.

1 Pamphlet on the Joint Renting System of the S. C.
2 2d annual report of the Nursapoor School.
3. Daily Lesson Book English and Teloogoo.

*26 X 12 = 312 / 150,000 / L. 80

Note For the last few months I have also worked one of waterlows autographic presses and have found it very useful for diagrams illustrations plans sketches and cards for Educational purposes.

7. I now pass to the cost of my press establishment. The annexed memorandum shows the entire Cost of the printing materials which are sufficient as I explained in

wooden Press	70 " "		
English and Teloogu type	119.13 -		
Bandy hire from Madras	12 " "		
Sundries	107 " "		
		338 13 "	
Salaries			
Head Printer and Compositer from 16 January 1854 to 31st March 1855	350.11.7		
Press man Ballers and learners for various periods to 31st March 1855	132 L 1		
		482 15 8	
Deduct Government pay received by Head Compositor for 11/2 Months	121.12.9		
By Press man for 3 months	21 " "		
		142.12.9	
		678.15.11	

in my letter of October last to compose four pages of Octavo in english, or about ½ form of foolscap size, and 6 pages in Telugu The types, as before stated, were purchased second hand. and as most of the materials were manufactured in the District, the prices are very moderate, Quoins rigletts rules, spaces &ca were made by a carpenter on the spot whom I employed for 5 Months on monthly wages of 8 Rupees. The total expense therefore Connected with the Press amounts to Rupees 821—12—3, and the monthly charges for workmen and sundries to Rupees 182—15—2 or about 16 Rupees a month

8. An acting vacancy having occurred in the Sheristadar's department, I appointed my Compositor as Sheristadar Muddutgar, and it will be seen that he has received for the last 11/2 months a portion of his Salary from Government. The same with respect to one of the Press men, who since January 1855. has received the [illegible]

Note. a detailed statement of the expenditure and of the Salaries paid to every person is entered on a separate paper.—

Sanctioned as usual to assist in the preparation of the Summabundy accounts.—

9. If my letter to the Commissioner be referred to it will be seen that my estimate for a Collectorate Press, was almost precisely that which is appended to the 8th para of the Government proceedings of the 8th Ultimo. It differs only in the amount of type, the cost of Sundries, and the omission of a proof press— But to the 29th para of my Memorandum on the establishment of Vernacular Schools, I appended a more correct estimate which included Stationery and binding materials and deducting the cost of the latter amounted to 1550 Rupees. The Subject of a Printing Press was introduced into that paper with the view of showing how enormously the establishment of a local press would assist the work of Vernacular education. This District will Doubtless be one of the first to be provided with an americans Iron Press, such as is described in the 6th and 8th paras of the Government proceedings above quoted. This Press will of course be established at the Collectors Office and it would be too much to expect that Government would Consent to have another

Fort St. George 10th July 1855.

another worked at the public charge in the office of the Sub Collector for administrative purposes nor would a second Press be necessary, one in the Collectors Office being quite sufficient for the ordinary District work as well as for all the uses enumerated by Mr Bourdillon.—

10. But there is another sphere of usefulness open to the Nursapoor Press in which it might be exclusively and constantly employed I mean for the advancement of the education of the people. The printing of books, papers, cards, periodicals, treatises upon various subjects, all of which would be available for the Provincial School at Rajahmundry, would fully occupy the educational Press. The establishment of a Press in a Provincial School is advocated in the 6th para of the Board's letter to Government No. 298 and there can be no doubt of its great utility. The cordiality with which the Government have been pleased to accede to my proposition in regard to the establishment of District and Village Vernacular Schools

Fort St. George 10th July 1855

encourages me to hope that if upon the arrival of the ten Iron Presses from America, it should be found that one is not immediately required for the use of a Collectors Office, it may be spared for employment in the educational Department at Nursapoor, with the requisite type and materials which are estimated to amount to 1,500 Rupees.—

11. The general spread of intelligence and the advancement of the Provincial school at Rajahmundry, and of all the educational establishments in this, and neighbouring Districts will be the object proposed to all those who are employed to supply, to work and to supervise the press, and I need scarcely say that every care shall be taken by myself to ensure effective Superintendence.—

12. Until the Collectors Office is provided with a Press of its own, the Nursapoor Press will continue to afford it aid as heretofore, and if the Government are unable to sanction a press of a better description as suggested above for educational purposes,

10999 Fort St. George 10th July. 1855

purposes, my present instrument will be beneficially employed to spread instruction among the people, when it is relieved of the ordinary district work, which will more properly be performed in the collectors offices.

13. The actual outlay for the past year amounts as shown in para 7 to Rupees 678-15-11 and the monthly expenses of working the press though they may be stated at about[x] 50 Rupees are already partly met by a reduction in the office establishments. The question as to whether the nursapoor press shall be henceforth worked entirely at the public charge I leave for the consideration of higher authority.

14. I send the few specimens enumerated on the annexed paper for submission to the Board of Revenue and to Government and I beg that a copy of this letter may also be forwarded to the commissioner for the Northern Circars.

Dated Nursapoor 30th April 1855. } /Signed/ G. N. Taylor

(Signed) G. N. Taylor
Sub Collector

To

Fort St. George 10th July 1855.

No. 159.

To,
The Commissioner
Northern Circars
Vizagapatam.

Sir,

Dated Dowlaiswaram 2d October 1854.

Although Mr. Purvis may be expected to arrive at Rajahmundry a few days hence, I venture, while yet in charge of the District, to submit for your consideration an estimate for a Government Printing Press for the use of the Collector's Office at Cocanada, feeling sure that whoever may be called upon to conduct the administration of this Province will acknowledge the value of so powerful an auxiliary for the more satisfactory fulfilment of his various duties, and in his efforts to improve the Condition of the Country and people which Compose his charge.

2. It is unnecessary in this present day to urge the recognition of the Printing Press as the mighty engine for the promotion of civilization. It has been aptly called the "Tongue of nations" but it has scarcely made itself

its self heard to the mass of the people in this land. The efforts of the Mission=aries and of Religious Societies have indeed done much towards the general distribution of the Scriptures and such books and tracts as are descriptive or explanatory of the truths of the Bible; but, it is never the=less true that we if still pass from Village to Village without meeting with one inhabitant who possesses or has even seen a printed book of any kind - and yet I believe their interest can be easily roused and even when ignorant of letters themselves they are eager listeners to any one who will take the trouble to read to them - years must elapse before any large Section of the people can be in a position to profit by the means of general literature put within their reach, but the thirst for Knowledge will advance as education progresses. Meanwhile a some limited, but still a most important sphere of usefulness is open to the operation of every local printing press however diminutive its

its size or ill supplied its font.-

3. I believe that very great ignorance prevails among the population of every District in regard to the real opinion and views of this.-

4. Upon all subjects affecting their prosperity - the Collector may be accessible to all classes, and yet social to caste influences are found to deter many from approaching him. The press may be the means of conveying to the people what they would never otherwise learn - District matters affecting the Condition and prospects of their own Village as compared with others - all subjects of local interest are infinitely more secure to the Ryots than any topic of public discussion and of general literature which may occupy the attention of the world without.-

5. That printed Circulars issued to every Village put them in immediate possession of changes in fiscal or police arrangement of proposals for reform or of rules for their future guidance

Fort St. George 10th July 1855.-

guidance which might otherwise never reach them or be Communicated too late to be of any use. Such papers would be kept by the Head men and would form a Village record for Constant reference.-

6th The Amount of information which might be thus circulated among these people and the good which would be eventually produced is incalculable. It would be found that the work to be performed would necessarily occupy the engine employed and the demand would soon exceed the possibility of supply.-

7. But another great result for the establishment of a Printing Press would be the reduction in the Amount of Manual labor, but in the Cutcherry and in the Talooks Circular Orders, notices, instructions in the Police and Revenue and every other depart=ments, Statements, Accounts and Statistics multiplied to any extent and made available and accessible to all. The labor of preparing the Summabundy accounts and the number of Statements which have to be supplied for each Village in the same form is too well

Fort St. George 10th July 1855.-

known to you and it will be admissable that for this above the press will be a most valuable auxiliary. Much of the Extra work which devolves in the Sheristadar's Cutcherry will be saved, that of the Curnums will be considerably lightened, their expenses will consequently be less, and the Ryot who pays them will benefit by the change. The press will naturally interfere with the occupation of many Curnums, Bramins and petition writers, to whom it has hitherto proved a source of gain, and there will be found some who from education, prejudice and other causes, are opposed to the publicity which printing would introduce; but these will be observed as reasons in favor of the Press.-

8. Nor have I taken upon myself to recommend the purchase and establishment of a Press in the Collector's Office without some personal experience of the valuable and which even a small

Fort St. George 10th July 1855.-

guidance which might otherwise never reach them or be Communicated too late to be of any use. Such papers would be kept by the Head men and would form a Village Record for Constant reference.-

6. The Amount of information which might be thus circulated among these people and the good which would be eventually produced is incalculable. It would be found that the work to be performed would necessarily occupy the engine employed and the demand would soon exceed the possibility of supply.-

7. But another great result for the establishment of a Printing Press would be the reduction in the Amount of Manual labor, but in the Cutcherry and in the Talaiyari Circular Orders, notices, instructions in the Police and Revenue and every other department, Statements, Accounts and Statistics multiplied to any extent and made available and accessible to all. The labor of preparing the Summabundy accounts and the number of Statements which have to be supplied for each Village in the same form is too well

Fort St. George 10th July 1855.-

known to you and it will be admissable that for this above the press will be a most valuable Auxiliary. Much of the Extra work which devolves in the Sheristadar's Cutcherry will be saved, that of the Curnums will be considerably lightened, their expenses will consequently be less, and the Ryot who pays them will benefit by the change. The press will naturally interfere with the occupation of many Curnums, Brahmins and petition writers, to whom it has hitherto proved a source of gain, and there will be found some who from education, prejudice and other causes, are opposed to the publicity which printing would introduce; but these will be observed as reasons in favor of the Press.-

8. Nor have I taken upon myself to recommend the purchase and establishment of a Press in the Collector's Office without some personal experience of the valuable and which even a small

small instrument of the kind is calculated to afford.-

9. You are aware that I have worked a small private press of my own for the last few months and have seen a few Specimens of papers, accounts, notices, &c. which have issued therefrom- I have now the honor to forward a few proofs of various kinds which will convey an idea of the sort of work which can be performed with the comparatively small means at my disposal and of the constant use to which a much larger establishment might be put in the Collector's Office.-

10. This press has been in operation nearly 6 Months, but in consequence of my absence from Nursapoor and the delay in moving it from place to place, much of the time has unavoidably been

been lost- Notwithstanding these drawbacks and the novelty of the introduction, the numbers of Copies struck off of Telugu papers is little short of 20,000 and of English paper 4,000- The largest size capable of being printed is the Demy sheet of Bengal paper of which the Teerwah Jas the notice is a Sample, and thus one page occupies about two thirds of any limited quantity of type.

The description of type I have used is English, Long primer and Telugu small pica, and I have nearly 100 lbs of the former and about 150 lbs of the latter which is sufficient to print 4 and 6 pages Octavo respectively. the press was made in the Dowlaiswaram factory from the pattern of a small English Parlor

Fort St. George 10th July 1855.

Parlor press imported by Mr. Master is more than double its size.

11. For the Collector's Office I would recommend a small or a still larger scale in order to avoid the delay caused by the constant distribution of the types which so limited a quantity

Fort St. George 10th July 1855

quantity entail.

12. An American Iron Press can easily be obtained in Madras either new or second hand and if the size suited for the object in view and capable of printing 8 pages octavo the quantity of Types which would keep such a Press in constant work would not be less than a complete font both Telugu and English and estimating the prices at the rate generally obtaining at the Presidency the cost would be as follows:-

Iron Press	400-"-"
A font of Telugu type containing about 300 lbs at 1¼	375-"-"
Do English Do containing 200 lbs at Do	250-"-"
Sundries including Cases, extra types, Capitals Telugu and English figures Composing stick, rules, Ink &c.	250-"-"
	1275-"-"

I have included the small-
est quantity of types to which I think
the Press ought to be limited but it
can be increased according to future require-
ments. It might be quite possible to obta
or to manufacture a wooden press of the
same dimensions at a smaller charg
than the sum estimated for the Iron one
but the latter is preferable on many
accidents and is more universally used.

13. I have said nothing
about the expence of working the Press
because this can be done almost without extra
charge to Government. Compositors can
be obtained at Madras willing to
proceed up country on a salary drawn
by the Cutcherry Goomastahs whose
duties will be more efficiently performed
two men would be sufficient for the
constant work of such a press as
I have proposed, and the small sum
that would be required for cleaning &
sporting &c. can be defrayed out of
the

the ordinary Cutcherry Sundrwares.

Established at Cocanada

14. the Government Press would be avail-
able for the Public, and I have no
doubt that extensive use would be made
of it when the work of the Cutcherry was
slack and admitted of its being em-
ployed for the community. The same
charges might be fixed as those which
obtain at the Government Press at Madras.

For so great an object I

15. trust that the expenditure of 1200 Rupees
or even a larger sum will not be
considered excessive and that if my pro-
position meet with your approval you
will recommend it for the sanction of
Government.

/Signed/ G. N. Taylor.
Sub Collector in Charge.

No 179.

To, The Commissioner
Northern Circars
Rajahmundry.

Sir, I have the honor to acknowledge
the

Fort St. George 10th July 1855

the receipt of a letter from your Office of the 16th October last calling for further information regarding the propositions of the Sub Collector in charge to establish a printing press in this Office as well as the letter of the 13th Ultimo forwarding copy of a communication from the Acting Collector of Ganjam and other papers containing informations as to the working of Watelow's autographic press.

2 While admitting the utility when in competent hands of a press of the last named description, I cannot think that it is in any way to be compared to an even moderately efficient printing press - I gather from the papers referred to, that the Autographic press require greater skill in working is less certain in its operation, while the number of impressions taken from it are necessarily limited - such a press would doubtless be an useful adjunct to a printing press but should not be thought of as a substitute.

The

Fort St. George 10th July 1855

3. The advantages to be derived from establishing a printing Press in this Office are so obvious and Mr. Taylor in his letter of the 2nd October last has so fully detailed there that it is unnecessary for me here to repeat what has been said I will only add that in my opinion the utility of a press in facilitating public business and disseminating throughout the country useful information on all objects is almost incalculable and I trust you will give your support to the proposition and obtain the sanction of Government for the necessary outlay which is estimated by Mr. Taylor at Rupees 1275-"-"

4 The work in every Department of this Office is now very heavy but I do not think there will be any difficulty as soon as the Press is fairly started in dispensing with the services of one of the English Writers, and perhaps of one of the Goomastahs in the Jaivabneviss department, causing a saving say of 20 Rupees per mensem or 240 Rupees per annum, a sum which looking at the project simply in a financial point of view will more than cover the interest of the money sunk in the Press.

Brd No. 1782

From the Acting Collector of Nellore

Sir

With reference to the Endorsement on Petition No. 830 of 1855 from one Coratoor of Chenchooramoodoo, I have the honor to explain that the joint Curnum appointed for Coorvogonda is the son of the sister of the deceased Curnum Venkatapatty and was nominated as the nearest heir alive. It is true he is a Minor, being 10 years old, but a deputy was at the same time appointed to do the duties for him until he should come of age. The boy is a resident of the Village, and has some cultivation also standing in his name. It appears, however from a recent report of the Tahsildar that the Deputy aforenamed has neither visited the village nor done any duty since his appointment and orders have therefore been issued to appoint another in his stead.

Bd. No. 1881.

From the Acting Collector of Nellore

Sir

In returning the accompanying Petition bearing the endorsement of the Board I have the honor to state that a similar complaint from the Petitioner was received in this Office on the 18th of January last, and on the same date not only was the Tahsildar called upon to make an immediate enquiry and report, but, as the annexed copy of the letter will show, I wrote to Captain Watts requesting him, if the Petitioners allegation was true, to suspend operations; and the result was, that the matter was settled

Fort St. George 10th July 1855.

amicably between the parties themselves and I have since had no complaint on the subject.

2

It will thus be seen that the Petitioner's case, on its being brought to my notice, was attended to as promptly as possible, and yet without awaiting the result of his appeal to me, on the 19th of January or the day following that on which his Petition reached me, he complains to the Board that he had not met with redress from the Collector.

3

Such and similar complaints are frequent and I would beg to solicit reference to my endorsement on Petition No 742 of 1855 as explaining another most ungrounded appeal to the Board. The time and trouble involved in replying to such Petitions are considerable and it would appear to be a matter of regret

Fort St. George 10th July 1855.

rule for summary punishment of such Petitioners who would now seem to be perfectly free to make such unfounded and vexatious complaints with impunity.

To

B. Cunliffe Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir.

I have the honor with reference to the orders of the Board of Revenue noted in the margin on the Subject of Printing Presses to inform you that I have been in Correspondence with the Reverend Missionaries of the London Missionary Society established at this Station for the purchase of some Presses which they are desirous to dispose of and which they have advertised for public Sale on the 20th July next. As the Mission has ceased its printing operations at Bellary. These are good Iron Presses / Columbian & Albion / with a great quantity of Canarese, Telugoo and English Type in good order. I have the honor to enclose a List accompanied by Copy of a note from the Reverend Mr. Valett giving full particulars of these Presses Dear which I think the Government may be willing to purchase. The Cost for which the owners would sell the whole Establishment it will be seen is about Rupees 5000, each Press is valued at 400 Rupees, which is 25 Rupees less than the estimated

19.

Bd No. 1866.

From the Collector of Bellary.

Informing that there are two good Iron Printing Presses for Sale in Bellary and requests the Boards permission to purchase them at the Auction sale to be held on the 20th Proximo.

No. 911 dated 25th Ulloor 1855.

* See List
Rupees 4866-12-..
133-..-..
5021-12-..

11033

Fort St George 10th July 1855

besides apparatus not estimated

estimated Cost of the Press at Madras. but the Press would have to be brought to Bellary and would not cost probably less than 800 Rupees before it was set up so that we should obtain the Mission Press at 25 percent Cheaper than a new one from America.

The Type / of which there is a great quantity 4845 lbs or about four times the weight of that Estimated for in the Government Estimate for two Presses / is valued at 35 per cent less than it would Cost at Madras it is as follows.

600 lbs each Press

		lbs.
1 English Type	in 34 cases	365
1 Canarese	in 24 Do.	2436
1 Telugoo	in 10 Do.	604
Total Second hand		3405 lbs

New Type undistributed in packages

English	187	lbs
Canarese	562	"
Telugoo	90	
Total Type	939	
	4845	lbs

The Cost of which is at 12 annas per lbs Rupees 3633 or 25 per Cent below the estimated Cost at Madras.

There are some articles Viz^t^a standing Press 200 Polished Pasteboards and Almyras

11034

Fort St George 10th July 1855

Almyras all very useful appendages to the Printing Press put down at Rupees 155 & apparatus for recasting Type. the prime Cost of which the owners have not a Memo of but which they offer at half the Cost they could be procured for at Madras. as these are very useful appendages to the Press it might be as well to purchase them also. The Board would be able to have them valued at Madras.

The Mission has also several Reams of good paper used for printing the Societies Bibles. This Cannot be sold but they would exchange it for a similar quantity being given to the Society at Madras an arrangement which, if the Board approve of it, might be made with Mutual advantage.

The Society are desirous of selling the whole Lot at once and do not seem disposed to divide it. The great quantity of Type makes the Cost considerably more than the amount estimated for two presses at Madras. Viz^t^ 1500 Rupees each. but I think if the items are examined & compared at Madras it will be found that the Government would

Fort St George 10th July 1855

would be gainers by at least 25 per Cent in the purchase and the surplus type might be sent to Districts where it would be wanted. The Type consists of different sizes: it might therefore be usefully employed as occasion required at Bellary. It would be necessary to have Type for two languages in this District, Canarese and Telugoo, besides English and to the Government Estimate must therefore be added the cost of one set of Vernacular Type estimated at 330 Rupees which would raise the estimate to 1830 Rupees independent of carriage and Sundry Charges which would probably swell the Bill to above Rupees 2,000 for one Press with only 900 lbs of Type. In purchasing the Mission Press the calculated Cost is 2,500 Rupees for one with 2,420 lbs of Type which is at once available with every requisite the 1500 lbs of Extra Type beyond the Government allowance being valued at the reduced price of only 3/4 Rupees per pound would be worth 1125 Rupees or more than double the difference between the estimated Cost-

	Rs.
Madras Press	2,000
Missionary	2,500
Excess of Missionary	500
Value of Extra Type	1125
Gain to Government	625

Fort St George 10th July 1855

cost of the Madras and Mission Press leaving a clear gain in valuation to Government of 625 Rupees. I mention this in order to shew that in reality though we purchase more Type than we require, we lose nothing but rather gain. But the Type which is chiefly Canarese Cannot be made available for the Cutcherry Presses of Districts other than of Bellary and Canara.

The second Press I would propose should be purchased for Kurnool or Cuddapah.

I should be glad to be favoured with the Board's instructions before the 20th July as to making a bid for these Mission Presses at the sale or should they not find another purchaser them to make an offer for them to the Reverend Missionaries.

If the Presses are bought they may be put in operation at once as I have reason to believe that I can procure Compositors and also a man Competent to Superintend the Press at once from among the men lately employed for many years by the Mission Press. The only difficulty I shall feel is the providing them a place on my public

11037 Fort St. George 10th July 1855

public establishment at once as a Vacancy must first be created, but I will endeavour to do so as soon as possible and I think it a pity that so good an opportunity of at once furnishing my Cutcherry with a Press should be lost. I beg the early instructions of the Board on the subject.

I have the honor to acknowledge the receipt of the Boards letter of 21st Instant, this morning received calling for this report which has been unavoidably delayed awaiting the information from Mr Valett Bellary Collectorate.

Office, 25th June, 1855. } Signed J. C. Pelly

Collector

MC

11038 For. St. Saints George 10th July 1855.

No. 1.

My dear Mr Chase,

Enclosed I give myself the pleasure to send you a list of the things which necessarily belong to a Printing Office of two Presses, and which we are therefore anxious to dispose of in one lot and on that account would let you have on very reasonable prices. There are also a number of other things, which should be in a very efficient establishment of that kind, but which, as they do not form a necessary part of it, we would leave at your option whether you would like to purchase them with the Office together or not, as we might dispose of them in some other way. Let me first state to you candidly that we would prefer to sell the Presses to a private individual who would set up an office at Bellary as in this Case, we would be enabled to have books and tracts printed at the place. It is on that account that we have offered the Presses for public auction, to see if there would not come forward parties, who whould take the establishment on that Condition. This auction will take place,

as

Fort Saint George 10th July 1855.

as you will know on the 20th of July should no person come forward on that date with acceptable offers, we would then be ready to dispose of it at the very reasonable terms stated on the list if Government would be ready to take the whole in one lot. For although there are parties wishing to purchase portions of the establishment, if we would parcel it out still as some things might remain on our hand and it would in all events put us to Considerable inconvenience to send portions of it to different places, we would rather lose on some articles if we could sell the whole on reasonable terms in one lot, without making our society who is the owner of the establishment too great losers by the transaction on the first view you will think that the Cost will run much above the Government estimate, which amounts only to 3000 Rupees for two Prepses, but on Comparing the particulars of both estimates, you will perceive that all our things are estimated very Considerably lower than those of the Government estimate and that the difference is accounted for by the great weight of Type, which amounts in our Establishment to four times the weight, which has been calculated

Fort Saint George 10th July 1855.

for Government Prepses, for while the amount of Type for two Government prepses has been calculated at about 1200 lbs our Type weighs 4800 lbs of this nearly a 1000 lbs is quite new and the remainder is quite serviceable. If Government had to purchase this amount of Type it would Cost 4800 Rupees without Carriage or the Cost of distributing it into Cases &c while we offer the second hand and the new Type promiscuously at 25 per cent reduction or at 12 annas a pound which will be a clear saving to Government of 1200 Rupees. If Government wishes hereafter to distribute this type over different districts the type may be seperated by these Compositors into different sets, and so be transmitted to different stations, The estimate of our prepses Compared with the estimate of new Iron Prepses in the Government estimate may appear rather high that of the new Preps being only 425 while ours are estimated at 400. Our Prepses however altho' second hand are good and in full working order, and I should much wonder if those Prepses would not Cost when at Bellary Considerably more than 500 Rupees by Carriage and other expences Connected

Fort Saint George 10th July 1855.

with it not calculating the loss of time before it would be ready for use at Bellary. One of ours I learn did cost 50 ℔s at Bombay some years ago and we had to pay the Carriage besides which is very Considerable. Besides you will perceive that along with our Press there go a number of things which are estimated separately in the Government estimate. The standing Press whereby the printed sheets are pressed to make them appear smooth. I do not find in the Government estimate, It is not perhaps so quite necessary furniture still a very acceptable one, and if books are printed Cannot well be dispensed with However if Government were not disposed to take the standing press and the Almira we may deduct them from the Estimate for we can dispose of both Articles otherwise.

The cases, stands, imposing stones &c. &c. you will all find put down at half the price stated in the Government's estimate.

On the end of the list you will find enumerated number of Articles forming an apparatus for casting new type. These also do not form an absolutely necessary part of a Printing Office, and we would therefore also leave this quite at your option whether you would purchase them together

Fort Saint George 10th July 1855.

together with the Office. They form however a part of a fully efficient printing establishment, not so much in order to cast full sets of new type as to make up for deficiencies, if as it happens in Course of time single letters should either be worn out or should have been lost in some way or the other. In this Case if you have casting apparatus you need not to procure whole sets of new type, which causes often great loss of time and money, but cast just those that have become deficient and at those occasions the old worn type Comes in use for casting new type. Among the work people who were formerly in our Office there are some, that know to Cast type. We do not know the prices of either the matrices or punches, where of there are as you see a large apartment, but if Government are willing to purchase them, we would offer them for half the price, they Cost new at Madras. There are also some Bales of very good Demy Printing Paper belonging to the Bible society. The Bible society never sells paper as they get it free of duty from Government on declaration that it will only be used for printing scriptures. But if Government would give the same short of paper to the Bible depository at Madras it would be a saving and accommodation to both parties

At

Fort Saint George 10th July 1855.

It would save the whole carriage of the paper from Madras to this place and would furnish you at once with some good paper.

These are all the observations, which the circumstances of the case suggest to me, If you would require some more information. I shall be happy to give it, if I can as I shall also be happy, if possible to accede to some other reasonable terms, that may suggest themselves to you provided that the interests of your Society would not thereby be seriously compromised.

/Signed/ L. Valett.

P. S. Rs Mr. Cole's is just now not very well, and I have had to do of late some what more with the Office than he. Mr. Cole has requested me, to write to you on the subject in his stead.

Received

Bd. No 721

Proceedings Submitting a letter from the Collector of Bellary containing the proposal to purchase one of two good iron printing presses about being sold by the London Missionary Society and stating that the replies of the Collectors on the subject of Printing presses will be laid before Government as soon as the whole have come in.

19-20.

thereon.- Resolved that the above letter and its enclosure be Submitted for the early consideration and orders of the Right Honorable the Governor in Council.

2. The Collector reports that he has been in Communication with the Reverend Missionaries of the London Society regarding the purchases of the Presses &ca now in use in their Printing Establishment at Bellary which they are about to relinquish.—

3. Mr. Pelly States that they are anxious to dispose of two Good Iron Presses / 1 Columbian and 1 Albion / with a large quantity of Canarese Telugu and English Type, and materials in Good order. The enclosure in his letter Contains a list of all the articles with their prices annexed. The Presses are valued at 100 Rupees each which appear sufficiently moderate. The type / new 939 lbs and 2d hand 3905 lbs / is offered at 12 As. per lb or Rupees 3633 making with the Presses Rupees 4133 which is raised to Rupees 5021-12- by the addition of various other necessaries.

4. The price of each Press will thus be Rupees 2512- while-

Fort St. George 10th July 1855

while one of the kind recently ordered by Government, with the addition of a set of types for a second vernacular languages. Carriage escpences &ca would probably cost Rupees 2000 or about 500 Rupees less than each of those for sale at Bellary. Mr. Pelly however points out that this difference is more than counter-balanced by the large quantity of type belonging to the mission Presses which divided equally would give 2120 lbs to each Press. Mr. Pelly proposes that one Press should be retained for his District and the other sent to Kurnool or Cuddapah.

5. With regard to the means of working the Press, he states that he expects to be able to procure Compositors and a competent Superintendent from among those lately employed by the Missionaries. The expense of the establishment required is not stated and until vacancies occur the charge will be additional, but there is no reason why some of the Collectors present establishment should not be trained to perform the duties.

Fort St. George 10th July 1855.

6. The Board are unable to judge of the merits of these Presses compared with those of the kind ordered from America but on this point as well as in regard to the separate establishment necessary at first, and the utility of the materials attached to the Presses the Superintendent of the Government Press will doubtless be able to give sufficient information. The Board bring Mr. Pelly's proposal to the notice of Government mainly because if the Superintendents report of these Presses be favorable they might be set in operation immediately and some months delay be thus obviated, and they Consider it very desirable to enable the Collector to secure the services of the parties who have been trained to use these Presses, which in a short time may not be available.

7. The 2d Press might be sent to Cuddapah as proposed. The Collector of that District has not yet replied to the Boards reference but there can be little doubt that a Press would be as useful there as in Bellary. The Collector of Canara has reported that much of his office work has been done

done well and cheaply by the German Missionaries press at Mangalore, and that one is consequently not required at present in his Office. In this view the Board Concur. the Surplus Canarese type would therefore not be required in that district but a moderate quantity of it would form an useful appendage to the press in Salem and other districts where Canarese is spoken by a portion of the people.—

8. The ten presses Ordered by Government will still be required and applications for them have already been received from the districts noted in the margin.

In Vizagapatam the collector states that one is not required in Tinnevelly and Canara there are Mission Presses available with advantage

Chingleput is so near Madras that one is scarcely required there, and the collector of Guntoor proposes to indent on the Masulipatam press. But if the Districts noted in the margin are each supplied with one the remaining 3 can be employed in Guntoor. Coimbatore Kurnool or Ganjam from which districts no reports have yet

been received Two of them might also be set apart for North Arcot and Rajahmundry in exchange for the less efficient Presses in use there which might again be sent to the smaller districts where the work would be lighter.

9 The Board beg to repeat that it is chiefly on the ground of these Presses being available immediately that this reference is based and they regret that there is not time previous to the Sale to refer to the Collector for further information than his letter affords. In the event of the Presses being purchased it would be Convenient to take the Societys' printing paper on the terms Offered and also the apparatus for casting Type, if on enquiry from the Superintendent of the Government press it is found that this is likely to be of use and can be easily worked by such Servants as are ordinarily procurable in the Mofussel.—

10. The Reports of the collectors on the Subject of Printing Presses will be laid before Government as soon as they are all received.—

Fort St. George

B. No. 1800
From the Collector of Chingleput
Sir

I have the honor to forward the enclosed Original letter No. 88 dated the 28th June from Lieut. Smith Joint Magistrate at the Mount, relative to the arrears of Salary due to two Moonshies whom he dismissed from their situations in his Office on the 15th April and who were restored by him to the same under date the 26th May on their preferring an appeal against his Proceedings. —

From the accompanying correspondence forwarded with his letter by Lieut. Smith, the Board will perceive that he appealed to Government direct against my order restoring the Moonshees, and that the Government, though they pointed out the irregularity of Lieut. Smiths appeal which ought to have been submitted to the Board of Revenue, passed orders upon it, declaratory of their being unable to consent

Submits for orders the appeal of the Joint Magistrate against the disbursement of the Salary of his Moonshees reinstated by the orders of Government for the period during which they were kept out of employ. —

× C. O. B. of Revenue Page 530 Judl Ext Mis. Cons. 1 June 1860 No 345. —

Lieut. Smith complains that this will put him out of pocket as he will have to defray the salaries of the substitutes he appointed in their stead a proceeding to which he says he ought not to be subjected, forgetting apparently the injustice he is endeavouring to inflict on the Moonshees by depriving them of their ex ex salaries on grounds which the Government have declared to him they could not sanction, and which had left the Magistrate no alternative but to overrule.—

Lieut. Smith, the Board will perceive, preferred appealing to Government direct, to obeying my orders, or applying to me for the Services of other parties, and I cannot see how he can claim to be relieved from the consequences of his own acts, when they have been disapproved of. If any grounds whatever had been shewn by him or allowed as suffecient in appeal, to justify the Moonshees' suspension (setting aside their dismissal) he might have had some claim for the remission he is seeking, and the Moonshees, even if restored, have

"consent to Public servants being deprived of their Employments on no better reasons than those ex advanced in the present instance" "and that "with these statements only before him the Ma=gistrate had clearly no choice but to overrule the orders of his Subordinate, and restore the men to the Service, nor, have the Government any ex alternative but to approve of his having done so."

The Government having thus entirely disapproved of Lieut. Smith's Proceedings, and further stated elsewhere that no proof whatever had been offered by him in support of his accusations, on any one of the charges he had advanced against the Moonshees, it appeared to me that they were fully entitled to all ex their arrears of salary as having been fully acquitted of all the charges he had brought against them, of which in fact he had not advanced a single proof or any thing beyond an assertion in support and I accordingly directed them to be paid the same "from the date of their dismissal upto the ex present time."—

Lieut.

have been considered to have been not improperly punished by the loss of their Pay - but in the present instance he has no such excuse or explanation to produce, and his only plea, is the mulcting it will be to his own pocket, which, I believe, will scarcely be considered by the Board sufficient grounds for mulcting the Moonshees instead, the injured and acquitted parties as he would seem to wish. —

As for Lieut. Smiths statement, that the parties were not reinstated in his Office by Government, but transferred to appointments elsewhere, the Board will perceive that this was solely out of tenderness to his feelings and the impracticability of their doing their duty satisfactorily under him, after the opinion he had formed of their characters, and not for any demerits or faults his Proceedings had been able to establish against them, and that so far from the exegencies of the public service having forced him to discharge the Moonshees and employ others to do their work as an unavoidable act on his part, the Government have already

already decided that he was without any justification whatever in the matter. —

The Board will perceive that in addition to the question of salary, Lieut. Smith places the question of Patronage before them, confining it, however, to the event of a vacancy taking place. On this, I have no objections to offer - A vacancy occurring in the natural order of events should, I think, be filled up by the Joint Magistrate; but a vacancy caused by dismissal should be open to appeal to the Magistrate and the Patronage only allowed in case of Confirmation. Lieut. Smiths Proceedings will not, I think, induce the Board to relieve him from responsibility in that respect, the Government having in fact subjected him to it in their Minutes of Consultation under review. —

No. 88

To
B. Cunliffe Esqr.
Secretary to the Board of Revenue

Sir

I have the honor to forward for the opinion

11059 Fort St. George 10th July 1855

opinion of the Revenue Board Copy of an Extract from the Proceedings of the Magistrates Court of the Zillah of Chingleput under date 19th June 1855. With a view to place the Revenue Board in possession of all circumstances of the case I beg to forward Copy of my appeal to Government with its enclosures and the order passed thereon.—

(a) Bearing No. 214 date 19th June 1855

By the present Extract I am ordered to remit the amount of pay improperly disbursed to the parties whom I employed between the period of their dismissal Viz. 17th to the 30th April for which period their salaries were drawn and paid to other writers entertained in their stead.—

They are further declared by the Magistrate entitled to receive their entire pay from the date of their dismissal up to the present and the Collector has declared to forward my bill for the Pay of the two Writers whom I employed for May last, as appears by Copy of a letter No. 189 under date 8th June 1855 herewith forwarded.—

If this order is carried out, I shall be mulcted in the whole of this sum:

the

11060 Fort St. George 10th July 1855

the writers whom I employed must of Course be paid: and if I have to remit what they have received from the 17th to the 30th April and I am not allowed to draw pay for them for May and June, both these sums must come out of my pocket. This I submit I ought not to be subjected to. I was compelled to dismiss the writers for what appeared to me sufficient cause. They have not by the result of my appeal to Government been reinstated in my Office though transferred to employment elsewhere. Public business compelled me to employ Writers to do the work of those I was forced to discharge and I trust I shall not be held responsible out of my private pocket for an act which was unavoidable, and which the exigencies of the public Service Compelled me to adopt.—

I would further request the opinion of the Revenue Board, that in the event of any vacancy taking place in the Joint Magistrates Office whether the Patronage lies with him or the Magistrate, the Minutes of Consultation Revenue

Department

11061 Fort St. George 10th July 1855

To C. J. Shubrick Esqre.
Magistrate of
Chingleput

Sir

I have the honor to acknowledge the receipt of your Extract No. 142 of the 3d Instant regarding an appeal made by two Writers, who have been recently dismissed by me, inconsequence of my not being able to repose the slightest Confidence in them as Public servants independantly of this, I beg to inform you, that they have during the last few months, on sundry accasions, absented themselves without leave, and have been generally very irregular in their attendance at Office

Vurdacharyar & Ramanujah Jgr.

Office; in addition to their neglect I have reason to know them to be guilty of graver Offences, Viz.t. that of receiving bribes and clandestinely conveying Official information from the Records of the Department to interested parties, in matters of importance at the very time under investigation, these were reasons which left me no other alternative but to summarily dismiss them, it is impossible for me to discharge my duties when I find a tribunal set up against me by the Subardinates of my own Office; it is true I was aware at the time, of the Minutes of Consultation quoted by the Petitioners, altho' not received in my Office, but owing to the Salary of one of them exceeding only 8 annas above 10 Rupees together with the circumstance already stated particularly that of abstracting Official information from the office without my knowledge, induced me to remove them at once from their Situations without a reference to higher authority in order that the ends of my Magisterial duties should be no longer defeated by their highly improper conduct.—

Saint Thomas Mount
10th. May 1855 — — — 8

/Signed/ C. Smith
Joint Magistrate

No. 155

Extract from the Proceedings of the Magistrate of the Zillah of Chingleput dated the 18th. May 1855.—

Read letter No. 65 dated the 10th. May 1855 from the Joint Magistrate at Saint Thomas' Mount in reply to Extract from the Proceedings of this Court under date the 3d. Idem calling for the Record connected with the dismissal of the Moonshees on his Establishment.—

Read again appeal Petition presented by the said Moonshees Complaining of their dismissal from their Situation.—

In the letter above recorded the Joint Magistrate merely reiterates the Charges set forth in his order of dismissal Viz.t. "Laxity in the discharge of their duties" and "Communication of the contents of the Official Record to interested Parties" and adds a fresh charge, "corruption".—

The First imputation is not of that serious nature as to call for any thing beyond rebuke, or if repeated, a moderate fine; and the second, unless explained, the Magistrate cannot understand how an offence can

Fort St. George 10th July 1855

can be made out of it - all parties before the Joint Magistrate are entitled to know every thing he may do in regard to the Cases they may have before him and except the issuing of summonses and warrants and like ministerial duties, ought to be present throughout the whole Proceedings - If these Proceedings are conducted in the manner laid down by the Regulation, there can be nothing for the Moonshees to convey clandestinely, as the Parties themselves must be present and thoroughly acquainted with every thing that takes place before them leaving nothing to conjecture, or subsequent revelation - The Magistrate therefore requests the Joint Magistrate will be good enough to instance a case of "conveying Official information" which the Petitioners, in their Official capacity, ought to have withheld that he may judge of the weight that should be attached to it - As regards "corruption" no specific instance is adduced in which they have been charged with that offence, nor of the measures adopted by the Joint Magistrate to

EBG

Fort St. George 10th July 1855

to bring it home to them - Aspertions are made affecting their characters, but no proof or probability leading to proof is offered to convict them - The Petitioners appeal against the act of the Joint Magistrate dismissing them from their situations, and by so doing require the grounds upon which it was made to be substantiated, or at least that there should be sufficient inference to shew that it was not without foundation, but that reasons really existed, and could be adduced and established in support of it - The Magistrate is therefore compelled to call upon the Joint Magistrate to furnish him in detail with the circumstances which led him to consider the parties guilty of bribing and corruption, and to their summary dismissal in consequence. -

(True Extract)
(Signed) C. J. Shubrick
Magistrate

No. 69

To The Magistrate of
Chingleput

Sir,

I have the honor to acknowledge the

Fort St. George 12th July 1855

the receipt of your Extract No. 155 dated the 14th Instant, and in reply beg to state that I consider myself fully competent to judge whether Public servants in my Office are worthy of employment or not. I find on referring to the records of my Office, that the Writers who have lately been discharged have been fined by one of my Predecessors for lascity in the performance of their duty, and they likewise have been warned on more than one accasion by myself for the same thing which reason alone in my opinion is sufficient for dismissal.—

I beg further to add that on receiving Petitions from various quarters, I have found some to be written by a connection (a boy) of the Writers and that the contents of those Petitions were dictated by themselves, and moreover I have perceived that in the Petitions, Numbers and dates of other Public communications with my Office have been so accurately inserted that I at once sent for the Writers as well as the boy,

Fort St. George 10th July 1855

boy, and on questioning them they gave me such prevaricating answers and not being able to account for their conduct to my satisfaction I found I could not with any safety repose any further confidence in them, independently of this although the charge of Corruption cannot be proved against them by the testimony of witnesses still I am perfectly convinced in my own mind that they have received bribes, and it is natural enough to conclude they would not have given assistance to parties who were petitioning without getting some remuneration for their trouble.—

From the foregoing circumstances, I cannot consider them trustworthy and should be sorry to recommend them to any Department as candidates worthy for employment.—

Saint Thomas' Mount, 22d May 1855.— } (Signed) C. Smith
Joint Magistrate

No. 172

Extract from the Proceedings of the Magistrate of the Zillah of Chingleput under date the 26th May 1855.—

Read letter No. 69 from the Joint Magistrate

Magistrate at Saint Thomas' Mount under date the 22d Instant in reply to Extract from the Proceedings of this Court underdate the 14th Instant, calling for further explanation of the grounds on which the Moonshees on his Establishment were dismissed from their situations.—

The Explanations of the Joint Magistrate in the above letter do not come up to the requisitions of the Magistrate in his Proceedings of the 14th Instant, and he is therefore obliged to cancel the Joint Magistrate's order of the 14th Ultimo, dismissing the Petitioners from their situations.—

If the Joint Magistrate intended to found any accusations against the Petitioners such as he describes, he should not have confined himself to a verbal enquiry into them, but should have taken down the examinations of the Petitioners in writing, and recorded his opinions on the merits after a full hearing of every thing they might have had to advance in explanation or defence.—

The Joint Magistrate was not justified in urging his "private convictions" against the Petitioners in a Public letter when he

he had nothing to rest them upon before him, and his having done so has necessarily placed him in a disadvantageous position towards them which is very much to be regretted, but unavoidable under the circumstances and his mode of procedure.—

The Magistrate would desire to call the Joint Magistrates attention to the impropriety of advancing the self-sufficiency of his opinions regarding the Petitioners being employed as public Servants, when those opinions which resulted in their dismissal were undergoing enquiry and required explanation.—It was for the Joint Magistrate to justify his Proceedings to the appellate Authority over him and not to answer that he "considered himself fully competent to judge whether public Servants in his Office were worthy of employment or not," which was not the matter at issue.—

The Joint Magistrate instances that the Petitioners were fined by one of his Predecessors for laxity in the performance of their duty and had been warned on more than one occasion by himself for the same thing, which alone, he considers sufficient reason for their dismissal, but the Magistrate observes that the Petitioners were strongly

recommended

Fort St. George 10th July 1855

recommended for promotion by the Joint Magistrate in his letters of the 4th April and 31st August 1854, and also by his predecessors in 1848 and 1851 when "their cheerful and diligent discharge of their laborious duties" were specially commended and "their zeal and attention" described as "fully meriting reward" — The Magistrate is therefore unable to concur in the Joint Magistrates view of the "unworthiness of the Petitioners for employment" —

The Petitioners are restored to their situations. —

Ordered that copy of Extract from these Proceedings be forwarded to the Joint Magistrate for his information and guidance —

Ordered also that copy hereof be furnished to the Petitioners on their application —

No. 74

To C. J. Shubrick Esquire
Magistrate of
Chingleput

Sir,

I have the honor to acknowledge the receipt of your Extract of the 26th Instant — The position in which your decision places me is such, that I feel I cannot satisfactorily discharge my duties so long as it remains in force — I waive all personal feelings in the matter; but if Servants of the grade of writers in whom I can repose no confidence, and whom I know to be guilty of dishonesty, and whom I discharged on that account, and surreptitious practices, are to be forced back upon me, it is apparent, that I must be not only be impeded in my duty by suspecting those about me, but that in the eyes of the Natives of the Cantonment my authority will be much shaken, by the supposed triumph of my subordinates over me; this I conceive a position in which I ought not to be placed, and I shall take the necessary steps for taking the opinion of

Fort St. George 10th July 1855.

of the higher authorities upon the propriety of your order. The tone of your Extract is, I regret to say, unnecessarily Offensive; I do not concede that you have any right to apply the term "self sufficiency" to me, when I am endeavouring to the best of my abilities to explain to you the grounds of my conduct. It is not the language which the Courtesy of one Gentleman to another permits in the common communications of life; and I do not think that the accident of Office can justify a license, which the usages of Society do not permit.—

It only remains for me to point out, that my dismissal of a servant after he has been detected in gross breach of duty and has entirely lost my confidence, is not in any way inconsistent with a previous recommendation of that person for promotion at a time when I had every reason to believe him what I then represented him to be.—

Saint Thomas Mount, May 30th 1855.—

/Signed/ C. Smith
Joint Magistrate.—

No.

Forb. St. George 10th July 1855.

No. 182

Extract from the Proceedings of the Magistrate's Court of the Zillah of Chingleput dated the 2d June 1855.—

Read letter No. 94 from the Joint Magistrate at Saint Thomas Mount dated the 30th May 1855, complaining of the application to him of the term "self sufficiency" in Extract from the Proceedings of this Court under date the 26th Instant, when he endeavoured to the best of his abilities, to explain the grounds of his conduct in the dismissal of the Moonshee on his Establishment.—

The Magistrate has nowhere applied as his own, the term "self sufficiency" to the Joint Magistrate in his Proceedings above adverted to. He stated that the Joint Magistrate had "advanced the self-sufficiency of his opinions regarding the Petitioners being employed as Public Servants," and he instanced in support of it, the Joint Magistrate's own words "I consider myself fully competent to judge whether

whether Public servants in my Office are worthy of employment or not; and they have been warned on more than one occasion by myself for the same thing, which reason alone, in my opinion, is sufficient for dismissal."

The Magistrate consequently cannot allow that he took advantage of the "accident of Office", and was guilty of discourtesy, or went beyond his duty in pointing out to the Joint Magistrate the impropriety of his Language when it conveyed a disallowance of the Magistrates independant judgement in the case appealed to him.

/True Extract/
/Signed/ C. J. Shubrick
Magistrate

To The Right Honorable
the Governor in Council

The Respectful Memorial of Lieutenant Charles Smith
Joint Magistrate of Chingleput

Shewth,

That your Petitioner submits herewith a Copy of a correspondence which has lately passed, between him and the Magistrate of Chingleput, by which he feels himself aggrie-

aggrieved and for which he has no remedy other than to submit this statement to his Lordship in Council - That he discharged the two servants from his employ, because he found that they were intriguing, writing petitions against him, furnishing information out of his Office, and altogether so conducting themselves as entirely to forfeit his confidence - He submits that this was ample to justify his resolution, and that there must necessarily be vested in the Head of every Office some discretions in matters of this nature.

But if, for the sake of argument, your Memorialist was not justified in this Proceeding, the contrary whereof he respectfully submits to be the case, then he would respectfully ask the opinion of his Lordship in Council as to the propriety of restoring the discharged Servants, in spite of his opinion of their demerits; since it is abundantly clear that he is thereby placed in a most embarrassing position; he is compelled to carry on his duties with servants whom he must always suspect; his authority will be necessarily weakened

11077 Fort St. George 10th July 1855

weakened in the Cantonment Bazar. —

The Native population will regard the restoration of the discharged servants as victory over your Petitioner, while it embol-dens them to a further pursuance in those courses which have already been marked by his displeasure, & which will hencefor-th be seen to be merely illusory. Lastly, he respectfully submits to the opinion of his Lordship in Council whether it is proper and proper, that the Magistrate should address him in the terms which he has chosen to employ. Your Memorialist has simply striven to discharge his duty, he sought to furnish the Magistrate in the fullest and frankest manner with those matters, which had weighed with him in forming his opinion; and he feels deeply mortified at finding his honest expressions of opinion characterized & reprimanded, as "self-sufficiency" a species of observation in which gentlemen

11078 Fort St. George 10th July 1855

other, and for the use of which he humbly submits Office gives no warrant. —

He prays that his Lordship in Council will be pleased to take this matter into consideration and pass such order upon it as the justice of the case may seem to require. —

/ Signed / C. Smith
Joint Magistrate

Mount — }
31st May 1855 }

№ 434

Extract from the Minutes of Consultation Judicial Department under date the 15th June 1855. —

Read the following letter from Lieutenant C. Smith, Joint Magistrate and Justice of the Peace of Chingleput. —

/ Here enter 31st May 1855 /

Para 1 Lieutenant Smith, Joint Ma-gistrate of Chingleput, and stationed at Saint Thomas' Mount, dismissed two of the Moor-shees attached to his Office. The dismissed parties appealed to Lieutenant Smith's Superior,

Fort St. George 10th July 1855

superior, the Magistrate of the District, who after calling upon him for explanation cancelled his order of dismissal, and directed the reinstatement of the Moonshees in their situations. —

2 Against this decision of the Magistrate Lieutenant Smith has made an appeal to Government direct. —

3 The Governor in Council must observe that this proceeding is irregular. Lieutenant Smith if desirous of appealing should have sent his appeal thro' his Official superior the Magistrate. —

4 Neither has he been correct in addressing his appeal to the Government. It should have been to the Board of Revenue who are vested with the general Superintendence, control and revision of all Native Revenue and Police Establishments.

7 C.O.B. of Revue Page 530 Jun 22 Ex. McCont 1st June 50 N. 346.

5 The appeal however being before Government, they proceed to pass orders upon it.

6 The reasons originally assigned by Lieutenant Smith for the dismissal of the Moonshees were

Note These men are borne on the Establishment of the Collector and Magistrate of Chingleput

Fort St. George 10th July 1855

their duties, and suspicion of having communicated the contents of Official records to interested parties. To this was subsequently added a graver charge, that of receiving bribes. —

7 Of these accusations however no proof whatever is offered. It is not explained how often the Moonshees had absented themselves from Office and whether their irregularity in attendance was such as could not have been sufficiently visited by a moderate fine and required the more serious punishment of dismissal. —

8 The charges of furnishing Official information is very vague and no evidence has been offered in support of it. It is not shown what proof there is that the Moonshees did furnish the information, nor what the information was, whether it might not have been obtained from others and whether it was such as ought not to be divulged. —

9 The charge of corruption does not seem to have been brought forward until

until after the dismissal of the servants, the it clearly furnished a much stronger ground for their removal than those for which they were dismissed - If believed to exist, it should have been fully investigated, the specific Acts of corruption should have been set out circumstantially, evidence entaken in writing, and the defence of the accused recorded. —

10 No proceedings, however, appear to be held in this or indeed in any of the Charges - The Joint Magistrate admits that the charge of corruption cannot be proved - still he is perfectly convinced in his mind that they have received bribes. —

11 With these Statements only before him, the Magistrate had clearly no choice but to overrule the orders of his subordinates and restore the men to the service - nor have the Government any alternative but to approve of his having done so. —

12 Lieutenant

of the term "self sufficiency" applied to his opinion by the Magistrate - The Magistrate may have meant "all sufficiency", but the phrase which he did use is certainly objectionable, and the Government think he will see that he was wrong in employing such a term - The phrase certainly should not have been used - At the same time it appears that Lieutenant Smith when called upon by the Magistrate for detailed explanation of the causes why he had dismissed the Moonshies, stated that "he considered himself fully competent to judge whether Public Servants in his Office are worthy of employment" a remark which he was not justified in making, and which in fact implied an erroneous view of his position as regards his superior in Office. —

13 Although however, the Government cannot consent to public servants being deprived of their employments on no better reasons than those advanced in the present instance, they are nevertheless convinced that with the opinion that Lieutenant Smith has formed of these Moonshees, it is not possible that

Fort St. George 10th July 1855

that he can again have confidence in them, or that he can perform his work satisfactorily with them - The Governor in Council would therefore wish for the Magistrate to arrange at once for their transfer to some other appointments of not inferior emoluments in the District, and for giving Lieutenant Smith other servants in lieu of them. —

No. 214

Extract from the Proceedings of the Magistrate's Court of the Zillah of Chingleput under date the 19th June 1855. —

Read Extract from the Minutes of Consultation under date the 15th June 1855, conveying the orders of Government on the appeal preferred to them by the Joint Magistrate at Saint Thomas Mount, complaining of the Proceedings of this Court, directing the reinstatement in their situations of the Moonshees on his Establishment whom he had discharged on charges of basicity &c. —

Ordered that Copy of the above Extract from Minutes of Consultation be forwarded

Fort St. George 10th July 1855

forwarded to the Joint Magistrate at Saint Thomas Mount, and that he be informed that orders have been issued for the transfer to his Department of the parties named in the Margin in lieu of the Moonshees dismissed by him, whose restoration the Government have fully approved of. —

V Ramachendrier 10-8-a
Verasawmy 10-- --
Iyer 5

The Moonshees will receive all their arrears of Pay from the date of their dismissal up to the present time, and the Joint Magistrate is therefore requested to remit the amount of Pay improperly disbursed to their substitutes in the Month of April from the 17th to the 30th both days inclusive. —

The Observations of Government recorded in Para 12 lead the Magistrate to infer that Copy of his Proceedings dated the 2d Instant did not accompany or follow the Joint Magistrate's appeal. —

25-26.
B. P. 1726.
Proceedings thereon

The Board observe that there are no fixed rules for the pay of Office Servants during absence, but as a general rule

rule Government pay cannot be claimed except for the performance of Government work.

2. The Board also remark that although the Moonshees dismissed by the Joint Magistrate have been acquitted of any proved offence, they have been greatly deficient in one very important part of a Public Officer's duty, Viz., in securing the confidence of their Superior by strict obedience and regularity.

3. Under all the circumstances of the case, the Board are of opinion that the servants in question will receive all the consideration they merit or can justly claim if one half their salaries be allowed to them, the remainder being disbursed to the parties who acted for them. The Board are not aware what remuneration has been actually paid to the officiating servants, but if the Joint Magistrate has given them the full salary, he should not have taken this step without a reference to the Collector and Magistrate, and the

Fort St. George 10th July 1855

the Board feel unable to pass any furth
order in the matter than the one now given

4 Their period of suspension, it
is remarked, would have been curtailed, if
the Magistrate had adopted the course,
subsequently ordered by Government, of
removing them to another office at the
same time that he restored them to the
service - The ends of justice would thus
have been attained equally well and a
proper degree of consideration shown to
the Joint Magistrate -

5 When vacancies occur hereafter
the Joint Magistrate will nominate
to them, subject only to the general
controul of the Magistrate -

From the Collector of Salem — Sir,

Requesting to be furnished with a printing Press.

Adverting to an Extract from the Proceedings of the Board of Revenue Dated the 22d March last, circulating Copy of a correspondence relative to the introduction of Printing Presses into the Collector's Office, I have the honor to state that a printing Press in my Office would be of the greatest service and to beg in consequence that one of the 10 Iron presses which the Government have ordered may be allotted to this District.

2. I may observe that the public establishments are on a smaller scale in the Salem District than in most others, and that very great difficulty is now experienced from the want of a sufficient number of writers both in the English and

Fort St. George, 10th July 1855.

and Native Departments.

3. I have also no doubt that all the benefits which Mr. Bourdillon refers to as likely to attend the introduction of Printing presses in the Collectors Offices would be fully realized in the Salem District.

4. If the Board should be pleased to name my District as one of those to which a Press should first be furnished, no exertion will be wanting on the part of myself and the other European Officers in the Revenue Department to render it as useful as possible.

Bd. No. 1267
From the Collector of South Arcot.

Submitting further information on certain points connected with the assessment of the Villages in the Pollicum cottah Jaghire.

Sir,

I have the honor to acknowledge receipt of Extract from the Proceedings of the Board of Revenue dated 23d Ultimo calling for further information on certain points connected with the assessment of the villages in the Pollicum Cottah Jaghire reported on by my letter of the 12th February last.

2. I beg to state that in fixing the assessment I calculated the produce and the selling price by the Rayajee Cullum /Holding 32 Madras Measures./ which it has been customary to use when making the annual settlement of the many villages of this Jaghire, and in commuting the Sirkar share of the produce of the Nunjah lands, into money. The same Cullum was I believe used in the Hoolooks Talooks when converting the grain produce into money.

With

Fort St. George, 10th July 1855

3 With reference to the method by which I tested the accuracy of the produce of each class of land, I would observe that as I adopted only four turrums for Nunjah and the same for Poonjah I endeavoured to fix a fair average rate of produce which ought be applied to each turrum. To effect this however I did not attempt to test minutely the yield of each of the numerous kinds of Crops which are grown on land of the same turrum, deeming it sufficient to base my calculations upon the four principal grains noted in the margin. The course I followed in order to determine the average amount of produce per Cawny was to make local enquiries as to the general productive powers of the land in question and then to compare the result of these enquiries with the settlement accounts of the Revenue which has been derived from the same lands under the old system and with all available records.

Varagoo
Cumboo
Natchinny
Cholum

Fort St. George 10th July 1855

4. I would here observe in case the Board are not aware of it, that by the former fiscal arrangements in this Sagluire it has been the practice to levy a tax upon Poonjah land varying according to the quantity of the soil, the description of Crop, and the class of Cultivator, and to divide the produce of Nunjah between the Government and the Ryots in different proportions, as shewn in the accompanying Table marked A.

5. When using the term "Poonjah Produce" in my Report, I intended to indicate the average of the principal grains and not one or other of them in particular.

6. The Board will observe in Statement A that the following are the average rates of teerwah obtained from the Poonjah lands of this Sagluire.

	average per Cawny Rs.	as	P
Black Soil	3	"	7
Sandy	2	2	"

7. As regards this Estimated produce of the Poonjah land, I would observe

Fort St. George 10th July 1855

observe that in the Statement of the dry grain produce, in the 10 Hoobes of Talooks, which was submitted to the Board of Revenue on the 8th February 1854 by my Predecessor, the following are entered as the out turns of the 4 principal Crops.

	Produce per Cawny Rayajees Cullums	Merkal
Cumboo	12	6
Varagoo	20	"
Nachiny and Cholum	12	1/2
Average	15 Rayajees Cullums per Cawny.	

8. With reference to Para 4, I beg to point out that I assumed the same selling rate both for Nunjah and Poonjah grain, as Mr. Ravenshaw did in settling the assessment in the Hoobes Talooks, as may be seen by a reference to his Report dated 10th May 1808.

9. In the Pallicottah Villages Poonjah produce has been occasionally raised on Nunjah lands although not to

Fort St. George, 10th July 1855

to any great extent. such produce has however always been brought under the division and commuted into money, at an average rate, as shown by the accompanying statement marked B, not materially differing from what I have taken it to be.

10. I think that this assumed average selling rate of 6 Cullums of produce to the Pagoda may be very fairly applied to the Poonjah as well as to the Nunjah lands.

11. I beg to submit a statement marked C. shewing the average Collections for the last 5 years from the three† villages sent up to the Board, in comparison with the gross demand which there will be on them under the proposed assessment. There can, I think be no doubt but that the entire extent of assessed land will be at once brought under cultivation in these three and in all the other villages, if the proposed rates are sanctioned. so that the immediate gain to Government will be considerable.

† Valashakadoo
Coorinjeegoody
Varatagoody

The

x D and E.

Fort St. George, 10th July, 1855

12. The accompanying two Statements x exhibit the difference between the old Pymash measurement and the new Survey in the villages of Vullashakadoo and Coorimeegoody. I am unable to give the same for the village of Varahagoody owing to my having omitted to keep abstract accounts of Captain Priestley's Register Book which I forwarded to the Board.

13. It would occupy much time to prepare such abstracts as, I think, the Board require, for all the villages, and I beg to request that in case the Board desire me to prepare them, I may be furnished with a Form in which the information should be furnished.

14. I regret that I omitted to note in the Margin the different papers sent up with my letter of the 12th February.

15. Accompanying I beg to forward an offset field Book belonging to the Village of Varahagoody, which is the only remaining document I can find appertaining to any of the three villages.

On

Fort St. George 10th July 1855

16. On referring to Captain Priestley's letter handing over to me the survey papers of them, I find that he sent me the following:-

Varahagoody- { 1 Field Book. 1 Land Register 3 Traverses and 1 Map.

Vatashakadoo- { 1 Field Book, 1 Land Register 1 Traverse, and 1 Map

Coormeegoody- { 1 Field Book 1 Land Register 1 Traverse, and 1 Revenue Map.

17. I beg in conclusion to submit a Statement marked F exhibiting the last 10 years average Cawny rate of Teerwah derived from Nunjah and Poonjah in the 13 villages of this Saghire, to which my former letter alludes.-

Advertisement.

11114

Fort St. George 10th July 1855.

Advertisement

1 It is hereby notified that the undermentioned Lands have been attached in satisfaction of arrears of Land Revenue due by the holders and that unless those arrears and further arrears, up to the day of sale with interest charges of management and other charges lawfully incurred shall be previously paid, the said lands will be sold by Public auction at the Village mentioned below and in the Talook of Tindevanum on wednesday the 15th day of August 1855. The Sale will commence at 8 o'clock and the lands will be knocked down to the highest bidder without reserve.—

2 The amount payable on the lands for the past Fusly exclusive of the arrears is Rupees 216 — 9 as shewn in detail in the statement at foot.—

3 Purchasers will be required to deposit 15 per cent of the purchase money at the time of sale, and where the remainder of the purchase money shall not be paid within 30 days from the date of sale, the money so deposited shall be liable to forfeiture.—

4 When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.—

5 Purchasers having made the necessary deposit shall be placed in immediate possession. But parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Collector within 30 days from the day of sale, and the purchase shall be conditional on the final order on such appeal.—

No. 121

To B. Leuliffe Esqre.
Secretary to the Board of Revenue

37.

Bd. No. 1893.

From the Collector of South Arcot.

Recommending the relaxation for the present of the Rule by which a single Crop of Sugar cane is to be rated with the assessment chargeable for two crops of rice when grown on irrigated Sirkar land.—

Sir

Fort St. George

1. With reference to Circular No. 1597 dated 25th Ultimo regarding the Cultivation of Sugar cane in this District as affected by the tax levied upon it. I have the honor to state that the rule under which a single crop of Sugar Cane is to pay the same assessment charged for two crops of rice, when grown on irrigated Sirkar land, has not yet been actually applied in this District.—

2. Until recently the Assessment on all land throughout the district was consolidated and

Fort St. George 10th July 1855

levied accordingly, whether one or two crops were raised.—By the revision however all land has been primarily rated with the assessment for only one crop. and it has been declared that second crops are only to be paid for at the rate of half the tax on the first crops, when actually cultivated on Nunjah lands classed as "Double crop" and "Doubtful of two crops". It is to this latter kind of land therefore alone amounting to about 21,000 Cawnies that the Rule can at present be regarded as applicable in this District.

3. The question thus resolves itself into whether a Single Crop of Sugar Cane grown on such land should be made to pay the same assessment as would be levied if two Crops of rice were raised or whether it should only be charged as a single crop.—

4. It is evident to me that the effect of the Rule. if enforced will be to deter the

Fort St. George 10th July 1855.

the Ryots from Cultivating Sugar cane on
double crop land and to lead them to
so on that rated as single crop, where
Course the risk of bringing the cane to
maturity must be greater than on the
double crop land, owing to the smaller supply
of water supposed to be available.—

5. As soon as a rumour got abroad in the District, which it did a few months ago just at the planting time, that a single Crop of Sugar cane was to be rated the same as two crops of Paddy, the Ryots stopped, in a great measure, the planting, giving out that they would not carry on the cultivation under such a Rule.—

6. They did this however I conceive, under an erroneous idea that Sugar Cane on whatever land grown was to be charged the extra assessment.

7. The cultivation of Sugar Cane is

Fort St. George 10th July 1855.

carried on only to a very trifling extent in the Mootah, Shrotrium, and Enam Villages of this District. The Ryots there pay for it as garden produce, which was also the practice in the Sirkar Villages under the System which prevailed before the Board of Revenue directed[x] in 1837 that in them the cane should be treated as an ordinary Nunjah Crop.—

[x] By circular Dated 13th Novr. 1837

8. I am sorry to say I have no reliable Data to lay before the Board in order to show the relative quantity of water required for Sugar Cane and Rice Crops, but from all the information I have been able to gather on the subject, I am led to the Conclusion that a crop of Sugar Cane does not require much, if any more water to bring it to perfection, than an ordinary single rice Crop, of the same extent does.—

9. It is true that the former is on the ground about 11 months while the latter is reaped on an average in about 5 months from the time the seed

Fort St. George 10th July 1855

seed is sown but Sugar cane will flourish with much less frequent watering than rice will.—

10. It is extremely difficult indeed almost impossible, without minute and careful experiments to determine with a satisfactory degree of accuracy the quantity of water required to raise Sugar cane and Paddy respectively.—

In his Report dated 15th December 1837 on the Irrigation Department.—

11. Colonel Cotton × calculates that including rain it takes 12000 Cub. yards of water to bring a Cawney of rice to maturity. This however seems to me to be rather too low. an Estimate. Sugar cane I believe under ordinary circumstances requires watering once in six days for the first four months and once in ten days for the last six months during which it also receives the monsoon rains.

12 There is also considerable risk attending the cultivation of Sugar cane chiefly caused by the uncertainty of procuring water from it for the first three months after the cuttings are put into

Fort St. George 10th July 1855

the ground, which in this District is done in Febuary and March as there is but little water to be had then from the Sirkar tanks or channels till the Monsoon Comes on, the Ryots are obliged to sink Wells or clear Springs to bring the required quantity of water.—

13. It appears to me that a want of suitable land is at present more likely to restrict the cultivation of Sugar cane in this District than the absence of demand for such produce for all the land classed as "Double Crop" or "Doubtful of two crops" may be available, it does not follow that a sufficient quantity of water will be procurable for the whole 10 months, during which the cane requires it.—

14. Besides being a more precarious crop than rice the cultivation of Sugar cane involves also greater labour and outlay. The profit must therefore be a high one to tempt the Ryots to incur so much risk and trouble.

trouble. If they find that they are called upon to pay the same rate of assessment for the land when they raise a single crop of Sugar Cane, that they would have been charged if they had Cultivated two crops of Rice upon it, they will I apprehend prefer keeping to the latter, unless they are guaranteed an ample quantity of water for the whole period during which a crop of Sugar cane is in the field.—

15. As far as regards the quantity of water Consumed for Sugar Cane in Comparison with Rice / supposing I am correct in my Conclusion that it is about equal / there seems no reason why a single crop of the former should be Considered as equal to two of the latter, at the same time it must be

remembered that when Sugar Cane is grown on Double crop land it precludes the probability of a second Crop being raised, and therefore if rated as only a single crop may be said to be the means of Causing a loss of Revenue.—

16. There can be no doubt but that if Sugar Cane is declared liable to only the same rate of assessment as a single rice crop, it will act, as a great encouragement to the people to cultivate it on the "Double crop" and "Doubtful Double

Fort St. George 10th July 1855.

Double Crop lands" and Considering the vast importance of increasing this Cultivation I have no hesitation in giving it as my opinion that it is advisable to relase in this District / at least for the present. / the rule by which a single Crop of Cane is to be rated with the assessment chargeable for two crops of rice when grown on the same ground and I would beg to recommend the question for the favorable Consideration of the Board.—

No. 158

41

To B. Cunliffe Esqre
Secretary to the Board of Revenue
Fort St. George

Bd. No. 1316.
From the Collector of Trichinopoly.

Sir

I have had the honor to receive your Boards Proceedings of the 22d March last No. 717 on the subject of Printing Presses being furnished to the several Collectors of this Presidency.—

Replying to the Boards Proceedings of the 22d March last No. 717 on the Subject of Printing Presses being furnished to his Collectorate.—

2. There can be no question on a Press being of the utmost utility and advantage to a public Officer and Trust with reference to Extract from

Fort St. George 10th July 1855

from the Minutes of Consultation under date the 8th March No. 287. this District may be one of those to be early favored with an American Iron Press.—

3. Such an acquisition would be a most valuable adjunct to my Office, and would enable me to dispose of my business—orders and circulars in the vernacular of the Province /Tamil/ with the utmost rapidity and success, and would ensure that as such Circulars were indeed and in truth sent to every Village. By giving me the power in a short space of time of sending such circulars or notices to each Village and Talook without the intermediate channel of the Talook cutcherry.

4. In English also much advantage and saving would result by giving me the power of printing off all forms and accounts not only for my own Office but for the Courts of the Zillah also.—

5. The establishment of this Collectorate in every department is so small and limited that I cannot propose

Fort St. George 10th July 1855.

propose any reduction of the Servants either at the Kuzzoor or in the District Cutcherries. and therefore if I am to be allowed a Press the working of it by intelligent men as Compositors and Pressmen must be an extra charge. Such work people, I fear it will be necessary to send me from Madras, for I am unable to hear of any person at Trichinopoly Competent to superintend a Press either in the English or Tamil Languages.—

6. Ninety five Rupees per mensem is not a heavy charge to incur, when Compared with the relief to be obtained therewith for an over-worked and over burdened establishment as mine is at present in every department especially, the English Revenue and Maramut.—

Trichinopoly District
Voitallay goodalore.

41-42 Order thereon.— Ordered to be over.—

No. 181.

To. B. Lemuliffe Esqre
Secretary to the Board of Revenue
Fort St. George

Sir I have the honor to reply to Extract from the Proceedings

43.

Bd. No. 629
From the Collector of Tinnevelly.
Submitting the

Fort St. George 10th July 1855.

the information called for in Extract from Proceedings of the Board of Revenue regarding the Establishment of a printing Press.—

Proceedings of the Board of Revenue Dated 22d March 1855.—

2. I consider it exceedingly desirable that Circulars Proclamations and all papers and writs Commonly in use according to set forms should be Copied by means of the printing Press— I am not however Convinced that this kind of work is likely to be so well done by setting up a Press in the cutcherry as by employing a regular printing Establishment when there is one available.—

3. With this impression I have Communicated with Mr. Bensley the Superintendent of the Church Missionary Societys Printing Establishment at Palamcottah, who informs me that he has the permission of his Committee at Madras to undertake all the work I may wish to have done. Mr. Bensley is unable to say exactly what the charges will be but estimates if paper is supplied that any No. of Copies up to a thousand may be struck on Duodecimo sheets at 12 annas if the form is on a single page but 12 Pages Duodecimo or 8 octavo may be printed for

Fort St. George 10th July 1855

for 1 Rupees up to a thousand Copies.— Forms required in smaller type or containing rule work as neater in Columns &ca would be charged at a higher rate.—

4. Presuming that the above charges are reasonable I beg permission to make use of the Mission Press for multiplying Copies of Documents and forms of every kind.—

5. I hardly know how to propose a sufficient reduction in the establishment of this district to meet the expense which will amount probably to not less than 50 Rupees a month.—

6. As mere copying is now almost entirely done by unpaid hands the change of system will not lighten the work of the writers and Goomastahs in any appreciable degree. Indeed the facility of multiplying Copies by printing will more likely lead to a greater number of Circulars & proclamations &ca being issued and thus rather increase the business of the Kowzzoor Establishment.—

7. I must look therefore elsewhere for the means of effecting reduction.— The

8. The Head Hurcarrah or Hoozzoor Duffadar of the Peons borne on the Sayer establishment which now amount only to 3 may perhaps be dispensed with. and thus 10½ Rupees a month will be gained.—

9. The Tencausey Talook has now three Duffadars while every other Talook has but one. The Difference was I believe owing to the Dangerous character of the Poligars of thereabouts in former times but the Tencausey Talook is now as quiet as any other. Two Duffadars may therefore be spared and their pay amounting together to 10½ Rupees per mensem made available for the purposes under Consideration.—

10.— There are two Talooks in which the lists of Gomastahs are in excess of other Talooks Streevygoontum has 6 marrahatta Gomastahs while no other has more than 4— It is a rich Talook but the reduction of one Gomastah whose pay is 10½ Rupees a month will probably not leave more work on the rest than those of other Talooks have to do. In Tencausy Talook

there are three Tamil Gomastahs whereas all other Talooks have but two one therefore whose pay is 5 Rupees a month may be taken away.—

11.

x Head Hurcarrah		10½
2 Talook Duffadars		10½
1 Talook Hindooveey goomastah		10½
1 D° Tamil	D°	5
2 Turfdars		11
Rupees		50¼

To make the sum up to 50 x Rupees a month two Turfdars may be discharged and this is all the reduction I can venture to recommend at present - no Shroffs can well be spared in this District and the wants of the Police suggest rather an increase than a decrease in the Establishment of Peons. Hereafter if it is found that an improved System of accounts, the abolition of the use of the marahtta language, the transfer of marrahmut Duties to another Department and other reforms materially lighten the work of the

11128.

Fort St. George 10th July 1855.

the Taluk and Hewzzoor Cutcherries further savings may be appropriated to pay for printing

12. If therefore the Board and Govern-ment approve I propose to make trial of the plan of employing the Church Mission Press at once to the extent of the abovementioned reductions, and should it be found to answer it can be carried on and enlarged upon by effecting further reductions. But should it appear that it would be better economy to set up a Press in the Cutcherry it can still be done when one is available.

No. 49.

To
The Secretary to the
Board of Revenue.
Fort St. George.

B. No. 1543.

From the Collector of Canara

Sir,

Para 1. I have the honor to acknowledge an Extract from the proceedings of the Board under date the 22d March 1855.

Reports on the subject of Establishing a press in the Cutcherry for printing Circulars &c. and forwards letters from the Reverend G. Weigle of the German Mission on the subject.

2 The accompanying letter from the Reverend G. Weigle the head of the German Mission at Mangalore will shew to the Board the very great advantage which this office possesses. Without any interruption to the duties of the office I can have any papers beautifully printed in type or lithograph, at most moderate terms. I have in fact the use of a press managed by a German gentleman whose typography is equal as I think to that of any press in India. So long therefore as the Mission press can undertake the duties of the office, it is not desirable to establish a press in the Cutcherry,

and

and when they are unable to do so, it is probable that there will be several persons who have practised under Mr Pleblat who will be competent to manage an office prep.

3 I have yearly made increase of the Prep.t lent I propose now to do so still more freely. I propose to keep in the office a supply of transfer paper and chemical inks, in the use of which a Gomastah and Writer will be specially instructed, all circular orders will be prepared to them and written on transfer paper and carried to the Press. The charge for Lithographing are so moderate that I hope in this way to convey the orders of government and my own to the subordinate Servants and the people far more effectually than has hitherto been done.

4 I beg to forward Specimens of the Forms and other papers heretofore printed. I am sure that the Board will be much pleased with the beauty of the Typograph.

Mr Weyles letter contains the

31st May 1855.

Signed J. N. Malthy
Collector

No 1

My dear Mr Malthy.

Accept of my best thanks for your kind note of April 27th and for the Minute, which Mr Pleblat and I have attentively perused.

We rejoice in the proposal of Government to spread information among the people by means of the Press. This cannot fail to be beneficial in a variety of ways; especially the Gazettee and Almanac will be most useful.

But it seems to us, that the realization of Mr Bourdillon's plan will not be quite so easy, as might be expected from the success, during ten months of the Chittoor experiment.

Government has justly rejected the wooden Presses, for they could not be

Minutes of Consultation of 8th March 1855.

Para 5.

be expected to keep in order for any length of time. But the same observation must we think apply to many or most of the "Materials which can be used both for Tamil and English language" in Mr. Bourdillons list, for they appear to have been purchased at so very low a price, that they can hardly be serviceable.—

Yet the very inferiority of the materials used explains in a great measure the success of the Chittoor experiments. Wooden Press will work some how under circumstances when iron Press will refuse to work, and inexperienced, or unimperialended Native workmen will contrive to squeeze together a form of ill composed types into a yielding "chase" (iron or wooden frame) while they could not accomplish the same with mathematically correct Materials.

It would be very interesting, to see Specimens of the Printing done at Chittur, and we should feel much obliged, if you could procure some for us.

Now

Now, if the government furnishes iron Presses (and if the other Materials are of a correspondingly superior description) the diffinulties of working the engine will be greatly increased. The inking apparatus especially (which in the Chittur experiment is the same that was used when the art of printing was invented, Viz., Balls) will on account of the circumstances of climate alluded to in Mr. Bourdillons para 27 require the greatest attention & much more than in Lithography as we are daily experiencing in our Office.

Mr. Bourdillon says (para 20) that he does not expect the Articles provided in the estimate to be sufficient for all the uses of such a Press enumerated above. That is, he is aware that he cannot with his Establishment print periodical returns or Table work. How then will he print an Almanac. The construction of a table such as the custom Returns in our Mangalore Almanac requires hours and even days of the most careful adjusting which I at least can hardly believe a Native would be bestow.—

But

But Mr. Bourdillon proposes to get the more complicated work done at Madras and transmitted in the same manner as the paper on which such tables are now written in the Office (para 21) I do not know to how many Collectorates this last remark applies, but believe I am correct in supposing that there is no paper sent from Madras to your Office for most of that which was supplied to us for printing purposes, was purchased in the Mangalore Bazar.—

Mr. Bourdillon has, on his own showing been peculiarly fortunate in the choice of his Superintendent; (para 32) I very much doubt of the capability of superintending a press will [illegible] to see "an almost necessary qualification" of future uncovenanted Deputy Collectors or Head accountants. I have had much to do with presses, typographic and lithographic, for the last twenty years, yet there are many things of almost daily occurrence in which I should be helpless without Mr. Pelot, and if we both happen to be absent even for a day our Printer - though tolerably

tolerably good workmen are sure to make some sad blunder.

These reasons, and others of a similar nature, induce me to believe that under ordinary circumstances and without a person like Jayavanna, a Press will be rather a source of annoyance and trouble than of gratification to a Collector who can of course not lose his own valuable time in studying and superintending its operations.—

A lithographic press would be far more likely to be worked with tolerable efficiency by Natives, nor is this means of spreading information so defective as Mr. Bourdillon represents it to be. It would be the very thing for all those Circulars of which 20, 30. 60. 80. Copies are required (para 4) Our lithographed books and papers have (with but few exceptions) been very legible and neat. though the Native Printers have been left almost entirely to themselves (I purchased a Lithographic Press and began to get it worked at this place in 1842 From that year till 1852 we have

have always had two and sometimes three lithographic Presses at work.) As for the difference between the printed & and written Character, the latter will at least in this part of the country, be preferred to the former for many years to come. The number of Copies obtainable is not so small as represented in para 25. We consider 800 Copies an average days work, employing four labourers two of whom are common Bazar Coolies, and our stones yield from 1000-1500 impressions without material deterioration, under favorable Circumstances they will yield as much as 2000.—

At Bombay several lithographic Presses have for many years past been worked by Natives on their own account and they have produced very creditable books, but I have never seen, or heard of any Native Printing Press that produced a decent book.—

However I sincerely wish that the plan of government which is doubtless conceived with a view to the intellectual and Social improvement of the people may have a better success than I can anger for it.—

you

you kindly express your opinion that it will be better for your Office and the Court to get your work done by our Establishment In thanking you for your confidence which we shall endeavour still farther to deserve, I beg to say that we intend to increase the efficiency of our establishment, especially for the Kind of work you require, by getting out a second superior Press which has already been purchased & and is expected here immediately after the Monsoon.—

For very large editions our present Press is all that can be desired (our men strike off with ease four thousand Copies a day); but in elegant Table work &c. we hope to manage still better when we shall have the new Press, which is of the same description as those ordered by Government only of a larger size.—

At the same time I think it right to state that we could not, of course, promise to undertake so very large an amount of work, as would prevent us from doing that which we consider as

Fort St. George 10th July 1855.

as our first object, Viz.t the issuing of religious and educational publications and if it should appear that the exigencies of the Collectors Office are sufficient to occupy a Press all the year round (as M. Bourdillon seems to think) we must rather wish that his plan of having Presses in the Collectors offices may be carried out. But I have no doubt that if the required forms and tables are permitted to be printed at once in great quantities (at least all those in which this is practicable) the work will be much simplified and cheapened.

I have the pleasure to enclose a statement of the work done by us and paid for by you (or by Mr. Channier acting for you) during a period of two years and eight Months and also a list of our printing charges.—

No. 2

My dear Mr. Maltby

Mr. Plebot has reconsidered his list of charges for lithographic Printing and finds that he can reduce the price for editions below a hundred copies if work of this Kind is demanded so frequently as it is likely to be in your office. This amended list is the following. For One hundred Copies of a paper (one stone) the size of two pages foolscap, he charges (as hitherto)

2 Rupees

For fifty Copies — 2 — "
For 25 Copies — 1 - 12 "
For one hundred copies of a paper the size of one Page Foolscap — 1 - 12 "
For fifty ditto — 1 - 8 "
For 25 ditto — 1 - 4 "

Fort St George 10th July 1855.

For one hundred Copies of a paper the size of a quarto Page Foolscap — 1-4

For fifty ditto — 1-2

For 25 ditto — 1-1

Chemical ink we can furnish to you at the rate of four annas for a Rupees worth and Transfer paper at Rupees 1-4 a per quire

I think your plan of having the lithographic writing done in your office is quite feasible, especially if you appoint an intelligent young man to direct him to learn the use of the chemical ink and paper underpaying for a month or six weeks

I think you would find it answer to lithograph every paper of which you require fifteen or twenty Copies

My paper of the 5th is entirely at your service if you wish to send it to the Board. I hope you received a second letter which I dispatched some days later, with an enclosure for Mr Maltby — With our united kindest regards

Statement of Printing Charges

A Typographic Printing

Size of Page	Edition	Rs	A	P	Edition	Rs	A	P
One Page 8vo	1000	2	2	6	500	1	12	6
One Page 4 to	1000	4	11	4	500	3	15	4
One Page Foolscap Folio	1000	6	4	4	500	5	1	4

B. Lithography.

For each stone the first hundred impressions 2 Rs

Each succeeding hundred up to five — 1 Rs

From the six to the 10th hundred — 1/2 Rs

Editions of upwards of 1000 copies have usually been printed with types for the sake of cheapness smaller papers, such as passports for Pattamars and Notices regarding roads &c. were likewise printed in types, for the sake of greater neatness though in smaller editions, but in the latter case the charge was higher than it would have been for Lithography. —

The

1144.

Fort St. George 10th July 1855.

The above prices are of course exclusive of the cost of paper, which always been supplied to us from the Centre

In the charge for Lithography, pay of the writer is not included.—

Short notifications or forms with but a few words and lines, in a small edition can be lithographed very cheaply

The cost of notices of the size of 12mo pages, will be two or three Rupees for a hundred copies according to the nature of the work, Single words will be charged 8 annas per hundred.—

Table-work is always more expensive than plain printing and is charged for according to the difficulty of composition.

Pd. No. 1549
From the Collector of Malabar

Forwarded with Extract from the Board's Proceedings No. 417 dated 22d March 1855.

Sir,

I trust that one of the 10 Printing Presses which I observe in Extract from the Minutes of Consultation dated the 8th March last No. 287 have been ordered from America will be placed at the disposal of the Collector of Malabar.—

There will be abundance of work for it.—

2 Independent of the many objections enumerated by Mr. Bourdillon in his Minute of the 17th January 1855 for which a Press is desirable there are others connected with the Sea customs Depart-ment which will make its efficiency still more felt in Malabar than it was in North arcot.—

3 I make use at present of a Lithographic Press the property of the German Missionaries at Tellicherry but the aid is far less than would be afforded by a printing Press and that in my one Office.—

No 109

To

B. Cunliffe Esqre.

Secretary to the

Board of Revenue

Dr No 1548

From the Acting Collector of Madras ..... } Para 1. Sir, I have the honor to

acknowledge the receipt of your letter dated 4th Instant calling for explanation of the decreased collection of the Extra Sources in this Collectorate in the Month of March last and adding that the call for the explanation is of frequent occurrence and the Board hope they will not again have occasion to call my attention to it.

2 I received from the Board two letters both dated the 26th April calling for such an explanation on the returns for January and February - In my reply to the first on the 30th of that Month, I gave the best account I was able of the decrease in the Extra Sources to the end of January, and in a Second letter on the same date I stated that the same remarks applied to the return for the Month of February.

3 I now annex a Comparative

Table

Fort St. George 10th July 1855.

Table of the Extra Collections for March April and May respectively.

4 The diminution in the receipts from Arrack Toddy and Stamps proceeds &c. I have reason to believe from the same causes that I have already referred to. In Sall there has lately been an im = = provement as regards wholesale trans = = actions.

5 It had not struck me that by the instructions circulated on 8 & 9 January and 26th April, the Board wished an explanation once given to be repeated from Month to Month in the periodical return of the Demand Collection and balance -

Forwarding two Statements one of Salt sales during the Fs 1261-62-63 & the other of the amount of Import duty levied on the article during the same period. 10 July 1855

Sir,

With reference to your letter dated 8th June 1855, I am directed by the Board of Revenue to forward to you herewith

Imported by sea, is 12 annas per Indian Maund, but during the period under notice importations took place only in the two Western Districts of Malabar and Canara The Importations are almost entirely from Bombay and Goa.

4. The population of the Madras Presidency according to the last census taken in Fusly 1260 was 22391697 Souls but a correct average of the Consumption of Salt per head cannot be made, as salt purchased ostensibly for Consumption within the limits of this Presidency is often taken beyond it, and vice versa. This Board has no means of correctly knowing the destination of the Salt purchased from Government, and they are entirely dependant for this information upon the simple State= =ment of the Buyer at the time of pur= =chase and according to his wishes, the destination is inserted in the Rowanahs. There is nothing however to prevent purchasers from conveying Salt when bought whithersoever they may think proper.

Revenue Board Office
Fort St. George
10th July 1855.

(Signed) J. D. Sim
Sub Secretary in charge

herewith, two statements, one shewing the sales of Salt at the Government Depots in this Presidency, during Fusleen 1261-62-and 63. and the other the amount of Customs duty levied on the Import of this Article during the same period-

2. The price charged for Salt Sold by Government for consumption within the Madras Territories, and for transport across the Frontier, is 120 Rupees per Garce, or one Rupee per Indian Maund. The charge for Salt Sold for exportation by sea ranged during the period embraced in the State= =ment, from 15 to 35 Rupees per 100 Maunds, but by a recent order of Government a uniform rate of 15 Rupees per 100 Indian Maunds has now been established. Salt is supplied to the French Government under treaty at its prime cost, and in a few places on the West Coast under special circum= =stances at low rates. These however are too trifling to affect your enquiries.

3. The excise duty on Salt

No. 259

To The Secretary to the Government of Fort St. George

Mis. Revenue
Salt

Sir

In Continuation of this Office letter No. 238 dated the 30th Ultimo I am directed to forward herewith for the information of the Right Honorable the Governor of Fort St. George,

No. 662 18th June 1855

Copy of a further Communication from the Board of Revenue of this Presidency regarding the Proposing Salt Sloop "Three Ramboo"

Fort William
the 16th June 1855

(Signed) G. G. Morris
Under Secretary to the Government of Bengal—

No. 662

To The Secretary to Government of Bengal—

Sir,

With reference to para 4 of my letter No. 580 dated the 28th Ultimo, I have the honor by direction of the Board of Revenue, to solicit that the following Report from the

Salt

W. Dampier Esqre

11160

Fort St. George 11th July 1855

Salt Agent of Poree relative to the wreck of a Vessel which may probably have been the Stree Ramloo "may be communicated to the authorities at Fort St. George -

2 The Agent writes "a Salt Sloop was wrecked on the heads a little to the west of the Circuit house here on the 12th September last, and all the Crew swam on shore, save one who was drowned in the attempt. In the deposition of the Serang given before the Darogah, I find that he stated that his Vessel had been laden with Salt, and was bound from Cossipore to Calcutta, but the name of the Sloop is not upon record - I have no doubt that the Serang told me the name of the Vessel in the course of the Conversation I had with him, but I cannot now recollect it, though I think it very probable that this was the "Stree Ramloo" alluded to by the Board -

Sir,

I have the honor to acknowledge the

1162

Fort St George 11th July 1855

the receipt this day of your letter No 82 of the 13th
Ultimo and to state in reply that a Salt Sloop
was wrecked on the beach here on the 12 September
last and all the Crew save one got safely to
shore. In the deposition of the Serang I find
that he stated that his Vessel had been laden
with Salt and was bound from Coringa to Cal-
=cutta but the name of the vessel is not upon
Record. I have no doubt that the Serang told
me her name in the Conversation that I had
with him but I cannot now recollect it.
It is very probable that this was one of the
Vessels mentioned in your Letter under
acknowledgment.
2 Two other Vessels are reported to have
been lost on the Coast during the last 6 mons
but their names or destination are not known here

Fort St George 11th July 1855

The increase of 6 in the Government Villages is owing to the purchase of the Vaniambaudy Mootah comprizing 4 Villages, and to the resumption of the service Enam Village of Bunnapully and the Jodigy agraharam of Nakraputty, the last in the Razeepoor Talook. In regard to the Nakarapatty agraharam, which was resumed for arrears of Jodigy in accordance with the provisions of Section 32 of the Rookoomnamah, a report was submitted on the 10th July 1854. The decrease of one in the 3rd Item under the head of "Amany" is owing to the incorporation of the Jodigy "agraharam" abovementioned with the Government Lands. The decrease of 4 in the "Jaury" Villages is owing to the acquisition by Government of the 4 Villages comprizing the Vaniambaudy Mootah: and that of one in the 3rd Item, under the head of "Polipet Villages" is owing to the resumption of the service Enam Village of Bunnapully attached to the Arkoosagherry Polliput.-

Nature and extent of the principal sources of irrigation - Statement No 3.

6 The subjoined abstract exhibits the number of Tanks, Nullahs, Wells and other Sources of irrigation in the District.

Net 7558

The above Statement exhibits im-
-portant variations between the account for
Fusly 1263 and the account for the previous
Para 6 Fusly- In my last report it was stated that
the correctness of the accounts hitherto furnished
could not be depended upon and that more
accurate returns would be prepared- The
account for Fusly 1263 has been drawn up with
care and is more accurate than preceding ones
but whether further corrections may not be re-
-quired will be ascertained at the ensuing
Summabundy- Tanjals which are entered for
the first time as distinct from "Tanks" are a
small description of Tanks which it is usual
to distinguish from larger tanks by the term
now given. In general they may have no
regular sluice, are raised at a small cost
by the Ryots themselves, and are not repaired
at the Government expense. It will be useful
to place these under a separate head in future,
that the Board may see the effect of the re-
Board Pro: 20th July 1854 & 2 -cent order to allow the Ryots to enjoy free
of assessment such minor Tanks, when watering
less than 11 Cawnies, and dug by a Ryot within
his

his own holding- If the number of Tanjals
is added to the number of Tanks the excess
now brought to account amount to upwards of
2,000- The greater portion of this excess must
consist of Tanjals- The present Statement
exhibits a large decrease in the number
of the Cauvery Channels. This proceeds from
an alteration in the mode of preparing the
accounts, for previously it was the practice
to enter one continuous channel as separate
Channels according to the number of Villages
which shared in its irrigation.-

The increase in the number of
Wells is owing chiefly to corrections in the pre-
-vious accounts- The same remarks applies to
"anicuts" but certain points connected with wells
are explained in Para 71 in reply to the remarks
of the Board on my Summabundy report for Fusly
Pro: dated 2nd October 1854- 1262.-

The subjoined 2 abstracts
7-
shew the number of Cattle, Ryots, ploughs and
Puttahs, compared with the past year, the number
of the Population, and the number of houses,
according to the census returns of Fusly 1260.-
Amount of agri-cultural stock; Population, Houses, number of Ryots and Puttahs- Statement No 2. Enclosures A & B

2 Females	582970	582970	-	-
Total	1190264	1190264	-	-

The decrease in the number of Ryots, Puttahs and Ploughs, is owing to a decrease in the cultivation of the present year, and the increase in Cattle to a more careful preparation of the accounts for this Fusly.—

Rent Roll Statement №5

8 The following Statement shews the number of Puttahs in the entire district, with the corresponding Beriz for Fusly 1263.— The amount of bill Revenue p.ca has been added as required+ to make the Puttah Beriz correspond with the Settlement amounts.—

Fort St George 11th July 1855

Season and Sanatory State of the District.

9 The season in July 1863 was not very favorable. There were some falls of rain at the commencement in many but very little fell in the greater portion of the District during the months of June and July. The falls in the succeeding months to the middle of November brought good supplies to most of the tanks and assisted the Punjah crops, which from the total failure of the rains from November to January would otherwise have fallen short even of an average yield. In consequence of this supply it was only in a few places that the wet crop altogether failed in coming to maturity. The outturn of the dry crops which are entirely dependant on the rains was below the

The

Fort St. George 11th July 1855

Note

At the Survey the commutation rate for the Poonjah assessment was 15¼ canteys Sanams per Candy = 90-6-8 which equals per Garce, and for the Nunjah 10 canteys Sanams per Candy, which equals Rs 9-7-4 per Garce. These rates were based on an average of the General average price of different Kinds of Grains, but what Kinds of Grains were included in the price lists is not Known.

10A.

The prices that prevailed in the present Fusly exceeded those of Fusly 1262 by Rupees 50-5- per cent and those of the preceding ten years by Rupees 38-5-6 per cent. The entire produce both wet and dry of the District during the year under report was sufficient for local consumption and prices would not have risen so high had it not been for the unusually large exportation of grain which were made to the neighbouring Districts, particularly to Coimbatore from the lower Taloks, and from the Baramahl and the Balaghaut Taloks to Bangalore Bellary and Cuddapah.

Dittum Statement No 9.
Fusly 1262 - 1378009-13-11
Fusly 1263 - 1367526-8-3
Decrease - 10483-2-8

11 The entry in the margin exhibits the result of the dittum for Fusly 1263 as compared with the past Fusly. The Dittum Beris of the present year was Rupees 10483-2-8 below that of Fusly 1262 in consequence of the failure

Fort St. George 11th July 1855

failure of the rains at the proper season -

Kuboolaty waste -

12 The want of rain during the early part of the season having prevented the Ryots from sowing their lands to the usual exctent, the amount remitted under this head exceeded that of the past year by Rupees 15,439-3-1 -

Fusly 1262 - 12023-3-4
Fusly 1263 - 27462-6-5
Increase - 15439-3-1

Actual cultivation Statement No 10-

13 The subjoined comparative Statement exhibits the particulars, Taloo War, of the different descriptions of land, Dry, wet and garden, brought under cultivation in this and the last Fusly -

Dry

14 The extent of dry cultivation in the Paramuttys, Sen Kerrydroog and Rayeepoor Talooks was above the quantity cultivated last year by acres 1149-18-5- but in the other Talooks there was a decrease of acres 29400-5-11, which gives a net decrease of acres 28250-27-5-

Garden

15 In the Garden cultivation there was a decrease in almost every Talook, amounting in the aggregate to acres 817-39-13-

Wet

16 Under this head there appears a decrease of acres 1859-32-11 in the Tengricottah Kistnagherry, Ossoor, and Denkencottah Talooks, against an increase of acres 2,632-6-1- in the remaining Talooks

Talooks, there is therefore a net increase of acres 772-13-6- of which acres 479-10-2- appertains to the 2 Villages of the Vanniembady Moottah and the Nekaraputty agraharum-

Statement No 13

17 The following Statement exhibits in a comparative Form, under its several heads, the total quantity of cultivation from which the land revenue of the year was derived- The Beriz of the current Fusly is less than that of the preceding Fusly by Rupees 2371-13-6-

18 "Under this clafs of cultivation there is a grofs increase demand amounting to Rupees 77,688-15-3, including Rupees 1199-12-7 the increase occasioned by the annexation to the amany of the Vanieambady Mootah, the Bunnapully Village and the Nekarapully agraharam. On the other hand there is a grofs decrease of Rupees 106,758-15-3- from land relinquished on various grounds, from the transfer of lands to other heads and from the remiffions made for Kaloolutty waste-

1

2

Garden -

19 The Berij for the year from this description of cultivation exhibits a net decrease of Rupees 3965-12-8- the grofs increase and decrease being respectively Rupees 3956-2-1 and Rupees 7921-14-9- The bulk of the grofs decrease, Viz^z Rupees 3373-14-3- appertains to other items which had hitherto been erroneously included under the head of "Tyrul Bagayet" but have now been entered under their appropriate

Fort St George 11th July 1855

heads of "Poonjah" Bagayet and "Nunjah Bagayet"

Net. 20. Under this clafs there is a net decrease of Rupees 21,047-3-7 derived from a grofs increase of Rupees 21,53-3-2 against a grofs decrease of Rupees 45,500-6-9. Rupees 24161-6-11 of this decrease is owing to the transfer to other heads of certain items which had hitherto been erroneously clafsed as "Tyrsul Nunjah. The remaining decrease comprizes lands relinquished for various reasons.-

Wet Garden 21 Under this head there is a grofs increase of Rupees 638-1-10 of which Rupees 160-11-. is the increase drawn from the resumed Villages, and the remainder is owing to the imposition of double teerwah, and of the Tyrsul or Survey rate for the first clafs wet land, on those lands on which Cocoanut or betel nut trees have recently become productive. On the other hand there is a grofs decrease of Rupees 1144-2-4 from lands.

from lands relinquished on various grounds.
The net increase is Rupees 193—15—6.—

22. The increased demand under this head is owing to an increase derived from the resumed Villages, but principally from the transfer to this head of items which have been hitherto erroneously included under the heads of "Fryaul Bagayet" and "Fryaul Nunjah".
The net increase amounts to Rupees 30,840—9—2 derived from a gross increase of Rupees 42,294—2—8. against a gross decrease of Rupees 11,453—9—6.

† Dry cultivated with wet and Garden
† Rupees 822—8—10

‡ Rupees 27,579—3—9

Garden cultivated with wet.—

23. In this class there was a gross increase of Rupees 3,612—"—4 against a gross decrease of Rupees 1,581—6—3, which leaves a net increase of Rupees 2,030—10—1. of which Rupees 1,507—"—4 is owing to the transfer to this head of items which have been hitherto erroneously entered under the head of "Fryaul Nunjah"

24. Referring to the several items of increase and

and decrease exhibited in the five foregoing paras, the net decrease of demand amounted to Rupees 23,717—13—6. This is derived from a gross decrease of Rupees 1,72,460—6—10 against a gross increase of Rupees 1,48,742—9—4. Of this latter sum Rupees 5,328—7—2 form the portion derived from the five resumed Villages.

Statement No 13. 25. The particulars of the gross increase and decrease, amounting respectively to Rupees 1,48,742—9—4 and Rupees 1,72,460—6—10 are given below

28. Of the gross increase of Rupees 3,887—3—2 in the above Abstract Rupees 2,586—5—11 appertains to Shavy remissions which owing to a deficiency of the rains during the present year were made for perished Crops. These remissions were granted after careful enquiry according to the Board's instructions Conveyed in their Circular and Proceedings dated the 19th January and 20th February 1854, respectively. The increase of Rupees 727—9—5 in the item of pasture lands is owing to larger tracts having been taken up this year for grazing Cattle and to the consequent deductions out of the faisul assessment on the land.

Statement No 17. 29. Among the items of decrease shewn in the preceding statement the amount appertaining to Cowle remissions is given at Rs. 2932—1—8 From the abstract appended below it will appear that this

is the net decrease derived from a gross increase of Rupees 1307-9-4 against a gross decrease of Rupees 4239-11-. Of the gross increase Rupees 1102-1-. belongs to lands occupied under progressive bowle and the remainder Rupees 205-8-4- is owing to the annexation to the amany of the Vanniembady Moottah and the consequent continuance for one year of the bowles which originated with the Moottahdar. Of the decrease a sum of Rupees 4,068-2-7- is owing to the imposition of the full assessment on certain lands in the Samoodrum Moottah &c. for which the Moottahdar's bowle was continued in the last Fasly and the rest amounting to Rupees 171-8-5- is owing partly to the imposition of full assessment on lands occupied under Mr. Cockburn's permanent bowles in consequence of deaths and changes or transfers of Puttahs, and partly to remissions granted at the settlement for lands, the holders of which had absconded or were in reduced circumstances.

Enam Tysul Jodee

The increase of Rupees 130 14-3 in the Tysul Jastee levied on Enams is owing to the greater extent of these lands converted for the present year into Nunjah and Bagayet

by

by the aid of Government water -
Against this there is a decrease of
Rupees 60-14-6 on certain lands charged
with Fusul Jastee in the last Fusly,
for which Government water was
not used during the present year.
The net increase amounts to Rupees
69-15-9.

Neercooly 41 under this head there is an
increase of Rupees 529-15-7 against
a decrease of Rupees 43-12-2, the
net increase being Rupees 486-3-5.
The increase is owing to the levy of
this tax from certain Ryots who
had irrigated their dry lands with
Circar water when their dry crops were
in danger from a failure of the rains.-

Grazing tax 42 The variations in the grazing tax are
shewn below.-

			Net		1,832 9 9

44 In the amany portion of the demand in the above Statement there is a decrease of Rupees 1891-15-", owing to the failure of the rains in June and July, and to the demise, desertion or indigence of the Ryots; and in the Jaury portion of the Beriz, to a decrease of Rupees 115-"-", in consequence of no offers having been received for the Teroomanoor Malay in the Salem Taluk, making a gross decrease of Rupees 2,006-15-"- Deducting from this an increase of Rupees 174-5-3 which was obtained from two Hill Villages in the Vaniembady Moottah, there remains a net decrease of Rupees 1,832-9-9 in the Hill Revenue for the present year. The Beriz derived from Teroomanoor Mullay which was held under amany, amounted to Rupees 77-5-8, which is included in Rupees 6,445-7-1, the revenue for Fusly 1263 of the Shervroy Hills.

Amany demand 45 The entire demand of the year on the amany portion of the District

Statement No. 15

District, inclusive of Nagadyat is Rupees 14,02,105-2-4 or Rupees 24,956-1-3 below that of Fusly 1262. This net decrease is derived from a gross decrease of Rupees 62,493-14-" against a gross increase of Rupees 37,537-12-9. A portion of this increase, amounting to Rupees 5,628-14-7 is consequent upon the recent incorporation of certain Villages with the Government lands.

46. The demand in these Villages amounts to Rupees 5,628-14-7- Deducting from this sum Rupees 278-8-9 the charges for Sibbundy, the remainder is Rupees 5,350-5-10, the particulars of which are as follows.

Vide Statement No. 27.

Peishcush of Moottahs Statement No. 16.

47 The total permanent demand for the year on the estates in the hands of the Proprietors is less than the same item of Revenue in the preceding year by Rupees 3101-12-2. This decrease consists of a gross decrease of Rupees 3238-3-8 owing to the purchase of the Vaniem-
:bady Moottah, against a gross increase of Rupees 136-7-6 being the addition made to the Peishcush of the Salem Moottah

Moottah in consequence of the incorpo-
:ration of the lands occupied by the Commercial buildings with those of the Moottah.-

Abstract Statement shewing the general result in comparison with the pre-
:ceding year Statement No. 16.

48 The aggregate land Revenue demand on the entire District for the present year, inclusive of the Amany Beriz, Permanent Beriz, of Saury-
Moottahs, and Pallipat Peishcush, is Rupees 17,47,994-5-6 or Rupees 29,990-2-5 below the preceding year.

51 The aggregate amount of Peshcush due on Saury Moottahs as entered in Column 7 of the foregoing Statement, was Rupees 2,150 — 1 — 10 Of this sum, deducting Rupees 312 — 12 — 4 and Rupees 1,499 — 8 — 1 which were collected before the 25th October last, the date appointed for the sale of the several Moottahs from which the money was due, there remained a balance of Rupees 337 — 13 — 5 This arrear which is outstanding against the Coondarapully Moottah in the Kristnagherry Talook now under attachment, as per decree of the Salem Civil Court, will be recovered hereafter.

× Vide letter from Civil Judge dated 27th August 1852.

52 The amount outstanding against the Government Villages / Vide Column 7 of the foregoing Statement / is Rupees 15,995 — 9 — 5 or a percentage of Rupees 1 — 3 — 10 on the total demand of the year.

× Column 2

year - Of this the sum of Rupees 10,495 — 9 — 5 which is considered to be recoverable being deducted, the balance amounting to Rupees 5,500 — 0 — 0 is due chiefly from deceased absconded or indigent Ryots, and partly from the Ryots of Teroonalanamasamoodrum in the Sub Division for Nunjah lands of which the Fysul assessment is considered excessive - The matter of these balances will undergo careful enquiry at the approching settlement and the result will be duly reported to the Board.

× Note The assessment has since been reduced under the Board's Orders conveyed in 2nd para 10 of an Extract from their proceedings dated 31st August 1854.

Abstract Statement of arrears Statement No. 24.

53 The arrears up to Fusly 1261 and those of Fusly 1262 as they respectively stood at the end of the latter year, the reduction effected in them by remissions and Collections in the year under review, and the balance now actually due are detailed in the subjoined statement :-

Mysore 1
47

62. Statement No. 28 in the last report was prepared to shew the number of Government plantations but since that Report was made it has been discovered

Para 67 Settt Report for Fasly 1262

discovered that it only exhibited the ~~ex~~ public and private Topes planted by private individuals, the number of Government plantations being altogether omitted. This error has been notified in the present year - Statement No. 28 A appended to this Report exhibits the correct number of Government plantations. As required in the note at the foot of the Board's Form No. 28, a separate account No. 28 B is submitted to show the details for public and private Topes, from which it will be observed that there has been an increase of 2 in the number of such plantations, above that of the past year.

Reply to the Settlement Proceedings of the Board of Revenue for Fusly 1262.

Para 2- 63 It is observed that "four Villages are entered as rented "in Statement I Column 6 while in Statement 27 Column 3 "the

"the beriz of three only appears to "be included; and that in the state- "ment of "Hill Revenue annexed to the "Hindoovee Summabbundy Report "for Fusly 1261 the three rented Villages "were stated to be under permanent "rent- but in the Hindoovee Statement "No. 27 of the present year, they are "entered as rented for 10 years while "according to the Demand Collection "and Balance Statements for 11th July "last, the revenue of all the four rented "Villages appears to have been brought "under the head of Amany."

64- In reply to these remarks I have the honor to state that in Fusly 1262 three of the 11 Villages referred to were held on rent for a term of 10 years and one for a term of one year (Fusly 1262) As there are two Columns in Statement 27 (3 and 5) for Village rents, the one for more than one

one year" and the other "for one year"
three of these Villages were entered in
Column 3 and one in Column 5. In
Statement No 1 there is only one Column
16) for Village rents, the beriz of the
same 4 Hill Villages was therefore
entered in that Column.

65. As to the seeming discrepancy
between the Hindovee Summabundy
Report for Fusly 1261 and Statement No 27
for Fusly 1262, the three Hill Villages
belonging to the Moonoor Hills in the
Athoor Talook were held on permanent
rent till Fusly 1261, when that rent
was annulled and three Villages were
rented out for 10 years, commencing with
Fusly 1262. they were therefore entered in the
Statement of Hill Revenue annexed to
the Hindovee Summabundy
Report for Fusly 1261 as permanently
rented, and in Column 3 of the
Hindovee statement No 27 for
Fusly

Fusly 1262 as rented for 10 years. In
the Demand Collection Balance
Statement the item in question
was brought under the head of
"annony" according to a long prevailing
practice of including the entire Hill
revenue both rented and awnamy
under that head.

66. The Board desire to know
how many of the 4 Villages in
shares in the Classified Statement
of Villages given in Para 4 of the
last Report are partly Shotrium
and partly Mosttah & the Villages
referred to are not either Shotrium
Villages or Mosttah Villages, they
consist of "Trishvakum" "Chatosbha
=gum" "Punjum Hissah" "Shund
Bhugum" and other Hissah shares
Villages of whose beriz a certain por
=tion is alienated and the remaining
portion is carried to the Credit of
the Government. The number of
Villages belonging to every kind of
Hissah Village is given in Statement
No 1.

Fort St. George 11th July 1855

No 1 for the present year.

67 The Board remark that "the Statements A and B in No 2 which "give statistical returns of the Cattle "ploughs and population have been "so prepared as to shew the return "for each Taluk in the gross the "aggregate amount being afterwards "separated into the two heads of "Amany Villages and Sanjy Mootahs "& that the Statistics of the Amy Vil "lages may hereafter form Talookwar "y entries and the Statement be com "pleted for the whole District by a "separate entry below shewing the "addition to be made to the Total on account "of Sanjy Mootahs, Shotrium Villages &c."

The accounts in question have been prepared afresh for this year in the manner required by the Board. These are quinquennial Statements but advertising to the alteration now proposed in the mode of preparing them I submit a revised Copy for the year under report.

Ans

Fort St. George 11th July 1855

68. In regard to the Ploughs in use in this District, only "Kutcha" (Ploughs drawn by two bullocks) are used, but for several years past it has been the practise to reduce the number of Kutcha ploughs to half & and enter the Moiety under the head of Pucka in the Hindoovee accounts. This entry appears for the first time in the Summabundy returns sent to the Board in Fusly 1230 and has been continued ever since, but what grounds actuated Mr Cockburn to convert "Kutcha" Ploughs into "Pucka" before entering them in the statements cannot be ascertained at this distant period.

In the English Copy of the accounts the heading does not shew that "Pucka" Ploughs are intended.

Pard 4

69. As promised in my last settlement Report (Para 6) more accurate returns of irrigation sources have been furnished this year.

The Board remark in regard to the

Fort St George 11th July 1855

the Statement furnished last year that "it seem unquestionable "that a large portion of these works "are now in an inefficient state". This remark would equally apply to the entries in the same Statement for Fusly 1263. I will therefore confine my reply to the present returns. Column 26 Statement 3 shews that the total number of works of irrigation "out of repair" in that amany Villages of the District amounts to 9,132 of which 7,466 consists of Government wells.—

70. The term "out of repair" is not confined as might be supposed to works entirely disused for want of repair — It embraces all works supposed to be in need of any repair, whether they are still used to irrigate the lands attached to them or not — Deducting 7466 the number of Government wells, and 118 private wells from 9,132 or the total number of

Fort St George 11th July 1855

of works requiring some sort of repair, the balance is reduced to 1548 of which 704 are works which are usually repaired by the Ryots themselves, Deducting this last item, the number of works for the repairs of which the Government alone is responsible is reduced to 844, including both works totally out of repair and works partially out of repair. Every exertion will be made to place all these works in an efficient state, and to ascertain from further enquiry during the present year what is actually required in each case.—

71. The total number of wells, Government and private, in the amany Villages, as entered in Statement No 3 for Fusly 1263 amounts to 36,253. of these 7584 are described as out of repair, of which 7466 are Government wells and 118 Private wells, under "Government wells" is comprised the Tysul wells" or wells for which a garden assessment was imposed at the survey, in which case the assessment is unfixed

Fort St. George 11th July 1855

fixed portions of land, and is not liable to variation whether the land thus assessed with the Garden rate be cultivated with garden produce or not and 2d "Ileeur" wells, or wells dug subsequently to the Survey in which case the extra cess termed "Fusul Sasty" is charged only on the actual extent of land cultivated year by year as Garden. In this instance the Ryot, should he revert to Ponjah Cultivation, is charged with the Ponjah rate only. "Ileeur Garden" may be distinguished into two Classes. Class No. 1 will embrace Land irrigated from wells which were dug previous to Fusly 1230, up to which year all garden cultivation was liable to an extra Cess. In Fusly 1231 Mr. Cockburn introduced in the Salem District, apparently of his own authority, the rule which is now extended over the whole country, viz that wells dug at a Ryots own expense should be enjoyed free of extra charge. This rule was adhered to without restriction

Fort St George 11th July 1855

of any kind up to Fusly 1248, when Mr. Lyeig modified it by an order requiring 1st. that permission for digging the well should be first obtained to exempt the owner of a private well from extra charge 2dly. that the well should not be situated at a nearer distance than 100 yards from an existing Government work, and 3dly that the cost of the well should be above 20 Rupees. And a further restriction was imposed by rule 15 of the Cowlenamah which was introduced in Fusly 1254. This rule required that a Ryot should keep up his mamool patent as a condition to his enjoying his private well free of charge.

Class No. 2 will embrace those lands which have been charged with garden rates on the ground that one or other of the above mentioned rules has not been observed. The number of "Ileeur" wells as compared with "Fysul wells" will be given in my separate report on Garden lands.

"Ileeur"

Fort St George 11th July 1855

72 "Ileeur" wells and "Fysul" wells are classed together as "Government wells" because the lands in both cases are liable to an extra Assessment, and in regard to repair the two classes are on the same footing. No wells of any kind have ever been repaired by the Government but the Ryot is not under greater obligation to repair "Ileeur" wells than he is to repair "Fysul" wells. The wells which the Government have no direct interest in keeping in repair are private wells only, & wells enjoyed free of extra cess. I have therefore confined the entries in column 24 of Statement No 3 for Fusly 1263 to this class exclusively. In the same Statement for Fusly 1262 all the wells requiring repair both "Government wells" as now distinguished and "private wells" were described as "Private" and were entered under the head "Repaired by Ryots" because all repairs according to the practice of the District

Fort St George 11 July 1855

District have equally fallen on the Ryot, whether the wells were "Fysul" "Ileeur" or "private".

73 The Board have observed in Para 5 that "from the remarks "in Statement No 3 8,686 new wells "have been sunk while the number of "wells in actual occupancy free from "Tirwajady is given in Para 45 of "the Collector's report at only 3714. They "desire to know why so large a "number of new wells as 4,972 have "been thus apparently abondoned".

The number "" "" "" of wells given in the Statement referred to included wells belonging to Sowcars Mootthahs. Polipats &c. while the number of private wells (3714) entered in the abstract appended to Para 45 of the Report as enjoyed free of Fysul Jasty consisted of private wells in Among Villages only. These two classes have been entered separately in the Statement for Fusly 1263.

Para 6. 74 The instructions of the Board in

in regard to the exemption of private wells from Teerwah Jasty whether the lands in which they are situate have reverted to Government or not, so long as the Government is at no expense for their repair, will be duly notified to the public

Para 7 75 The Board desire to know the cause of the decrease in the garden Cultivation shewn in Statements 9 and 10 and enquire whether the decline is of a temporary or permanent nature. The decrease in the Dittum & Beriz of Dry garden under wells in Fasly 1262 amounting to Rupees 487-10-1 is small and does not call for remarks. The Dittum Beriz of Nunjah in Poonjah lands shews a decrease of Rupees 930-5-7 as compared with Fasly 1261. This was owing to the Ryots cultivating poonjah produce in land which the previous year they had cultivated with Nunjah. This is a matter in which the Ryot exercises his own discretion. The falling off in the Beriz of Nunjah under wells is Rupees 4311-4-9 or Rupees 1810 per cent below the Beriz

Beriz of Fasly 1261. The beriz from this source in Fasly 1251 was 19.916. For the 3 ensuing years there was a progressive decrease, till in Fasly 1254 the beriz fell to Rupees 14654. Leut from Fasly 1255 to Fasly 1261 there was a progressive & increase, till the Beriz in Fasly 1261 reached Rupees 23147. It would not therefore seem that the decrease in Fasly 1262 was owing to causes of a permanent character. In Fasly 1263 there is a decrease of Rupees 3723-2-1 under the head of Tyrul Nunjah and Rupees 3683-15-7 under the head of Fasly garden. Some allowance in this kind of Cultivation must be made for variations in the seasons, and in some measure the great fluctuations must be ascribed to over assessment. This subject will be attended to in considering the garden lands & generally.—

76 As directed by the Board, Poonjah cultivation in Nunjah and garden lands, and vice versâ will be entered from Fasly 1264 in under

under the different heads in which they appear in the Survey accounts, the alterations in the assessment caused by temporary changes of cultivation being brought to account under the heads of Teerwah Jasty and Teerwah Cunny.

Para 8 77 On the subject of garden lands the separate Report called for by the Board will be duly submitted; and the entries under the head of wet garden cultivation will be included with Nunjah in the accounts for July 1264.

Para 9 78 The Board's instructions to enter the deductions on account of Village Sibbundy, Agraharam and Dasawundum shares, in Statements Nos. 10 and 12. and to shew each item of remission, Talookwar in the latter account have been duly attended to in the preparation of the returns for the present year. The net settlement shewn in the Statements will be found to correspond with the Demand collection Balance sheets.

Para 10 79 In this para the Board remark that "in Statement 16 the Teerwah Jasty and Fyaul Jasty are entered respectively at Rupees 574 and 4750 Cr. and that the amounts appear to have been transposed by a clerical error" The entries, they beg to state, have been correctly made under the two heads in question. The term "Teerwah Jasty," as used in the Salem District is applied to the extra assessment levied for the second crop raised in one crop lands, and Fyaul Jasty to the additional cess collected on Garden and Nunjah cultivation in dry lands. The sum entered under the head of Teerwah Jasty (Rupees 574) was collected in Oramendoor a Village recently transferred from Trichinopoly to this District.

80 The Board desire that their Form No. 16 "should in "future be followed as the "deductions which have to be made "in Statement 15 can be specified "in an independent or separate "entry in Statement No. 14" The deductions

deductions for the Village Sibbandy on account of the Beriz specified in the Statement No. 15 cannot be exhibited as a distinct entry in Statement No. 14. for the pay of the Village Sibbundy consists of a certain percentage struck upon the entire revenue of each Village embracing land, Hill, and Extra revenue, tree tax &c. The amount of this percentage varies in different Villages in the 8 Balaghaut Taloks, and is a uniform rate in the 6 Taloks in the Baramahal and 2 Balaghaut division. In the preparation of Statement No. 15 the Board from has not been departed from.

Para 11 11 The Board observe "that "Statement No. 13 may in future "be framed upon the Dittum and "not upon the Cultivation that "the assessment entered in it should "not consist of the Summabundy "amount but of the original assess- "ment including besides Fusly "Jusly. the remissions made on the account

"account of Cowle and Poolvary, "which can be afterwards entered "by separate entries." As most of the Summabundy Statements for Fusly 1263 had been compleated according to the course pursued last year previous to the receipt of the Board's Proceedings under reply the instructions on this point will be carried out in the current Fusly 1264—

Para 12 82 In this Para the Board remark "that they "are not aware why lands "assessed for payment of the Sotias "and left waste have been brought "into the Dittum account" and they "wish to be informed "if any parti- "cular reason exists for this course."

The lands referred to are entered in the Summabundy Chittah every year as patent, and are held on Puttah as other Patent lands. the Salary payable to the Sotij being deducted from the assessment. If the lands are left waste, the cause of it is enquired into at the Summabundy. If reasonable grounds can be shewn for it the assessment

assessment is permitted in the accounts and a ready money allowance is made from the Village levies. If the lands are allowed to lie fallow thro' the negligence of the Ryots they are charged in the accounts and no ready money allowance is made.—

Paras 13 83 The revenue derived from Poliems will hereafter be entered under the head of "Zemmdaries" uniformly in all the statements. In the Demand Collection Balance returns ending 11th July 1854. however it has been inadvertently included under the head of "Amany" Due care will be taken to prevent the recurrence of this error.

Para 14 84 In accordance with the instructions of the Board, Rule 25 of the Rookumnamah will be altered so as to relieve all trees from separate taxation when they grow upon lands for which Teerwah is paid, without any reference to the proportion which a tree tax as would bear to the Teerwah of the land, and due notice of this alteration will be published in the several Taluks.

In

In regard to the taxation of Nunjah Garden Cultivation a separate Report will be submitted hereafter.

Paras 15 85 In statement No. 5 "the particulars to shew its correspondence with the settlement account" have been entered at the bottom and Statement No. 22 "has been prepared so as to exhibit the Mootahs and their Peishcush separately instead of entering them "Talookwar" In Statement No. 28 the rented Beriz on Government plantations has been shewn in a separate column 18. The 2d item in Statement No. 23 having been included in the head of Land revenue in the Demand Collection Balance sheets ending 11th July 1854. the same arrangement in regard to that item has been followed in account No. 23 now submitted. The instructions of the Board for entering it

it under the head of extra &
revenue will be duly considered in
the preparation of Statement
No. 23 for the current Fusly (1264).

Para 16

86 The number of ploughs
entered by the Sub Collector in Para 7 of
his last report, Viz. 17178, is the &
number of "Kutcha" ploughs + in Amany
Villages only. One half of that number
amounting to 8589 plus 6192 the
number of "Pucka" ploughs in
Jaury Mouttahs and Poliputtis &
making a total of 14781, was entered
in Statement A in No. 2 which &
accounts for the increase of 2397. ploughs
alluded to by the Board.—

+ Vide explanation in Para 68.

87 In Para 15 of the Sub.
Collectors Report, the Akkarry
Revenue of the Cantpoottoor &
Mootah which was transferred
to the Trichinopoly District in
Fusly 1261 was not deducted
from the entire Akkarry &
Beriz of the Sub Division for
Fusly 1262. In Statement No. 27

the

the entry under that branch of
revenue was made exclusive of the
Cantpoottoor Akkarry farm. This
accounts for the increase of Rupees
540 in the Sub Collectors Report

Para 17

88 As stated in para
62 of this Report, a separate
+ Statement of the plantations
made under the new Tope
rules is submitted, as &
required in the footnote attached

+ Pp. 28 B

to Boards Form No. 28

89. The several &
subordinate officers have &
rendered me important &
assistance during the year &
Mr Cherry the Sub Collector
at all times displays much
interest in the management
of his Division, and is both
active and intelligent in
the discharge of his duties.
The two junior assistants
Messrs Dalyell and Davidson,
have not served long enough

to

11254

Fort St. George 11th July 1855.

to qualify them for a separate revenue charge but they were very useful in the Police Department Messrs Hodgson and Lewin who each held the Office of Head Assistant during part of the year had the management of two Talooks and were zealous and useful. Seroomula Row the Head Sheristadar is a valuable Officer on account of both of his long experience and his natural capacity, but owing to failing health, he was not able to give so much attention to his duties as he would have done under other circumstances. Vadajee Row the Naib Sheristadar, who has very superior talents is equally distinguished for indefatigable industry in all that he undertakes. The conduct of both these Officers during the year is deserving of favorable notice.—

5-6 Exps. (Signed) H.A. Brett
Collector

11351.

Fort St. George 11th July 1855.

No. 78.

To H. A. Brett Esqre
Collector of Salem.

Sir,

From the Sub Collector of Salem — 1. I have the honor to report upon the Settlement of the Land Revenue for Fusly 1263 of the four Talooks of Kaveul, Paramutty, Trichingode and Senkerry droog, placed under my charge, and which form the Sub Division of this District.-

2. The accompanying 27 Accounts are prepared in the forms adopted in the past year.-

Settlement- 3. The Summabundy of the fusly under report was conducted by myself- In the Talook of Paramutty the Ryots were assembled at Vayloor on the banks of the Cavary- In Kaveul, at Massanoor and at the Cusbah station- In Trichingode at the Cusbah station and at Senkerry droog- And in Senkerry droog at the Cus-bah station, Comara pollium and at M.r Donald's Poultry.-

Villages- 4. The number of Villages and Hamlets under

Fort St. George 11th July 1855.

under Government is 845 and that under the Landed Proprietors is 467, the same number as in the past year as exhibited in the next abstract:-

	Fusly 1262.			Fusly 1263.		
	Villages	Hamlets	Total	Villages	Hamlets	Total
Amany.						
Air Ryotwar	173	607	780	173	607	780

Total	138	329	467	138	329	467
Total	344	968	1312	344	968	1312

Sources of irrigation.

5. In the annexed abstract the number of Channels &ca which irrigate the lands of the whole Division are shown. During the present year the sources of irrigation were regularly numbered and accurate accounts of them have been formed accordingly in the Talooks. There is an increase of 275 Tanks and Cooltys (small reservoirs) and 1446 in wells; in this year 105 wells were sunk by the Ryots, the remaining 1341 and the above said number

Fort St. George 11th July 1855.

number of Tanks appear to have hitherto been inadvertently omitted to be entered in the accounts. Under the head of Cavary Channels, there is a decrease of 18, this is owing to the Curnums of those Villages through which a single Channel runs each putting it down as a Channel in his return, and thus multiplying the number.-

	Fusly 1262.			Fusly 1263.			Comparison.

Population.

6. According to the censuses taken in fusly 1260 and to the accounts submitted in the past year, the Total number of Population of the whole Sub Division is 326899 the particulars of

of which appear below. As no census will be taken until fusly 1265, that taken as above will appear in the accounts.-

Males	165956
Females	160943
	326899

Particulars.

Cultivating classes	264300
Non-Cultivators	62599

Cattle.

7. The number of Cattle possessed by the Cultivating classes and others, in the Amany and Jaury Villages of the Division is shewn below.-

	Tilling Cattle.			Cattle not used in ploughs.				
	Bullocks	Buffaloes.	Total	Cows	Buffaloes.	Sheep.	Total	Grand Total

Puttahs & Ryots.

8. The number of Ryots in the fusly under report is 44769, puttahs 30986 and of Ploughs 17916 which on comparing with the past fusly exhibits an increase of 1358 in the number of Ryots, 537 in

in Puttahs, and 738 in Ploughs. This increase is attributable to a greater number of Ryots having taken up lands than those who relinquished their patent, and to the occupation of lands by those who had newly settled in agricultural pursuits. The particulars appear in the next Table.-

	Ryots	Puttahs	Ploughs
	43411	30449	17178

Gaunchy or Joint Puttahs	8132	118629	14	4
Total	30449	368417	9	.

The

Season.

10. The season of the present fusly proved more unfavorable than the preceding one. The rains having continued to fall from the months of March to May—the Tanks received an early supply of water, and it enabled the Ryots to commence with the Cultivation of their Poonjah Garden, and Nunjah lands, but it was impeded from want of rain in the months of June and July; however the Crops came up in a thriving condition from the subsequent falls of rain from August to the midde of November, after which period there was a total failure, consequently the dry Crops suffered from drought, and the supply of water to the wells being insufficient the dry Garden Crops shared the same fate. Tho' the Nunjah benefitted by the supply received in the Tanks in the preceding months, yet a decrease occurred in the Nunjah produce also in some places from scarcity of water. The land irrigated from the Cavary Channels received a full supply of water. It however was not the case with the land of Oravundoor where a large decrease has occurred in the Cultivation of the 2d Crop, owing

owing to the head of the Moyanoor Channel which supplies the land having been in an impaired state.—

Vide Para 38.

Sanatory state of the Division.

11. This year has proved unfavorable also to the people. Fever and Cholera were very prevalent throughout the Division—the former disease especially causing many casualties.—

Price of Grain—

12. The following Abstract exchibits the prices of a few descriptions of grains, which are the principal products of the Division which on Contrasting with the preceding year shows a great rise—This is chiefly attributable to the partial Crop reaped, and to the great demand for grain in the market by the merchants of the adjoining Districts.—

Description of grain—	Rate of price at the time of the Survey	Average price of 10 years from fusly 1252 to 1261.	Fusly 1262.	Fusly 1263.	Comparison between Col: 4 and 5. Increase.	Decrease

Cultivation including the waste Charges to the Ryots.

17. The exctent of land which formed the Summabundy of the present year, both the actual extent brought under Plough and the waste charged to the Ryots, is Acres 16,2888-17-2. assessed at Rupees 35,1428-10-6, showing an increase of Acres 640-21-13 assessed at Rupees 7,759-12-1 as per subjoined Table. The increase is owing to the greater exctent of land taken up by the Ryots for Cultivation in this than in the preceding year.-

Land. Assessment

| | | | | | |

Fort St. George 11th July 1855.

Remissions on the Cultivation.

18. The remissions made on the Cultivation in the fusly under report is Rupees 16,462–3–10. which on contrasting with the past year shews a net decrease of Rupees 2,705–4–0. During the present year, as the lands of the Mootah and Agraharums which came under Amany management in the past one, have been given at the Survey rate of assessment annulling the Cowle on which they were held before, and in certain Amany Villages as some of the Cowle lands were brought under the head of "lands paying full assessment" a gross decrease of Rupees 3,304–13–11 has been thereby occasioned. Owing to the unfavorable state of the season, a remission having been made on certain lands the crops of which perished from drought, and on 2 Crop land, on which the 2d. Crop was not raised, a Gross increase of Rupees 599–9–11 has also occurred as exhibited in the nexct abstract.–

Sugar Cane, Indigo and Cotton Cultivation.

19. The subjoined abstract shews the Cultivation of Sugar Cane and Cotton in the Sub Division. There is a decrease in the present year of Rupees 2,192–11–8 in the Cultivation of Cotton, and a small increase of Rupees 43–15–10 in the Cultivation of Sugar Cane. Indigo is not Cultivated in any part of my Division.–

In

Corrections according to the Survey Standard

31 In corrections made were deviations from the rate of original Survey Assessment have been discovered a gross increase of Rupees 130 1 9 and a gross decrease of Rupees 194 10 8. and a net decrease of Rupees 64 8 11, have been occasioned. The Tahsildars of the Talooks of Namcul, Paramutty and Senkerry droog were directed at the commencement of the fusly, to measure and number in reference to the Survey accounts the lands of the Jodigy Agraharums and Jaivy moottah situated in their Talooks, which were resumed by, and reverted to Government in the past year, and to produce the accounts of the Villages at the time of the Settlement of their respective Talooks Agreeably to the said orders The Tahsildar of Namcul having produced the account of the resumed agraharums of Valyaputty and Andapooram, and the Tahsildar of Paramutty having done so in regard to the Agraharum of Serkaly, the corrections were made according to the Survey Standard where increase and decrease were found in

Fort St. George 11th July 1855

in the assessment of the lands of the said Villages,
× Tagarayapilly but the Tahsildar of Senkerrydroog having neglect-
ed to measure and number the lands & to produce
the accounts of the reverted Moottah of Samoodrum
I regret that I was unable to make a similar
Correction in the assessment fixed on the land
of that moottah.

Neercooly or hire for water

32. The amount of Neercooly collected in the present year is Rupees by 5 4 which is below that of the past one by Rupees 1 4 5 In this year the arrangements of the Moottadar made by him during the time the Agraharum of Andapoorum in the Talook of Namcul remained in his hands, having been changed the amount of hire for water collected in last year from the Ryots of the Agraharum agreeably to the practice observed by him also ceased, and a decrease is thereby the result.

Changes of cultivation in Enam lands.

33. The changes in the mode of Cultivation of Enam Lands have caused a net increase to the revenue of Rupees 36 " 11 as shown below

Fort St. George 11th July 1855

	Rs	a	P
Increase from certain Enamdars having improved their Enam land to a Superior Cultivation by the use of water from Circar Sources	45	1	9
Decrease from certain Enamdars having discontinued the use of water from Circar Sources	9	"	10
Net Increase	36	"	11

Revenue from Hills.

34. The bariz of the cally mally Hills for fusly 1263. is Rupees 705 9 11 which on Comparing with the preceding one shows a decrease of Rupees 299 1 2 The storm which occurred on the 27th march 1853. having caused great loss among the cattle of the Malyalies of these Hills and rooted out a good number of Jack &c. fruit trees, upon which teervah was collected by the Government some of the malyalies were reduced in their Condition and became unable to bring their land under cultivation and the decrease is solely attributable to the above causes.

Village Establishment.

35. The amount deducted from the total demand of the fusly under report is Rupees 23,113 — 13 — 5 which shows an increase of Rupees 312 — 6 above the past year. The fluctuation depends upon the amount of the bariz in which there being an increase in the present year a corresponding increase also results in the amount deducted from the bariz under this head. —

Sookavasy or Remissions to Bramins and mudeliers.

36. The remissions granted under this head for the present year is Rupees 80 — 6 which stands the same as in the past one —

Remission on Cowle Nunjah lands. —

The sum of Rupees 30 — 9 have been remitted during the fusly under report on Nunjah Cowle land for which the supply of water failed. —

37.

Settlement of Vaivundoor Village

38. During the present fusly the settlement of this Village has been made on the number of crops, Viz^t. 1^st and 2^d raised respectively on the lands in accordance with the practice hitherto.

Fort St. George 11th July 1855

hitherto obtained and the amount of Cariz is Rupees 2464—11—8 which is below the past year by Rupees 302—7—8 About December last in which month the 1st crop is generally reaped and the Cultivation of the 2d Commenced with in Consequence of the Cavary river having damaged the head of the Moganoor channel upon which the lands of the Village depend, the course of the river in Consequence of the accumulation of Sand was turned to a Contrary direction and the usual quantity of water failed to enter the mouth of the channel and this evil not having been remedied till the month of March last, the Surplus water which reached Cravendoor a distance of about 15 miles from the head of the channel was scanty and Consequently some of the land Situated on high ground were not cultivated with a 2d crop and on some of the lands the 1st and 2d crops became entirely Shavy and the assessment leviable

Fort St. George 11th July 1855

leviable on the 2d crop, Rupees 236—10—10 and Rupees 158—15—2 being the assessment payable for the 1st and 2d crops which perished, have in Consequence been remitted — The particulars are shown in the following abstract. —

The

Collections Land Revenue

40 The Ryetwary Demand for the fusly under report is Rupees 356947-4-9 of which Rupees 339740-12-5 were collected within the fusly, and the balance was Rupees 17206-5-4 the sum of Rupees 12678-12-8 were collected up to the end of October which reduced the balance to Rupees 4527-8-8. of the amount Rupees 1084-11-5 is reported by the Tahsildars to be irrecoverable.—

41 The particulars of the last mentioned amount are as follows— The sum of Rupees 715-14-2 is due upon the lands of the villaige of Irrumbunamadavadrum, the collection of which is suspended as was in the past year, and which shall be remitted in accordance with the orders conveyed in the proceedings of the Board of Revenue under date 31st August 1854.—

42 The sum of Rupees 369-3 stands against deserted, deceased, and indigent Ryots regarding which inquiry will be made at the ensuing settlement.

43 The recoverable balance amounts to Rupees 3442-10-3 of which

Rupees 3152-7-11 is due by the Ryots holding lands under the Maganoor Channel in the Talook of Nameil, and the remaining is due by the Ryots of other villages and most part of which is expected to be recovered.

Arrears of fusly 1261.

44 The balance which stood at the end of fusly 1262 was Rupees 4952.12.2, the amount collected up to the end of fusly 1263 was Rupees 1031-14-1, and the sum remitted according to the sanction of Government is Rupees 1884-5-11, total Rupees 2716-4-0 which reduced the balance to Rupees 2236-8-2 of which Rupees 89-6-6 was collected up to the end of October of fusly 1264. leaving a further balance of Rupees 2147-1-8 of this Sum Rupees 48-15-7 is considered recoverable and the remaining Sum of Rupees 2098-2-1 irrecoverable, the latter amount was included in the Sum of Rupees 3766-5-2 recommended by me to be struck off the accounts in para 50 of my report for the last year.

A1

Arrears of fusly 1262.

45. At the end of this fusly the sum of Rupees 17,943—6—4 was in arrears. Rupees 14,824—7—9 was collected within fusly 1263, leaving a balance at that period of Rupees 3118—11—7 of this sum Rupees 139—11—11 was collected up to the end of October of fusly 1264. leaving a balance of Rupees 2979—2—8 of this amount Rupees 263—4—" is considered recoverable and the remaining Rupees 2715—11—8 irrecoverable. During the Settlement of the fusly under report personal enquiries were made by me in regard to the last mentioned sum which I consider should be struck off the accounts.

46 The Items of the above mentioned Sum are as follows.

The sum of Rupees 792—2—6 is due by the Ryots holding lands under the Mayanoor Channel. the Collection of which is suspended after due enquiries were made about the condition of the Ryots individually. The loss sustained by them in fusly 1262 was fully rep

42 of my report for the preceding year. Rupees 717—1—1 is due by the Agraharum-dars of Tirumalnamasamoodrum. the collection of which amount is yearly suspended (and ultimately struck off the accounts Rupees 406—4—" stands against the Jodigy Agraharumdars of Valuputty, which was resumed by Government in fusly 1262. the collection of which amount was suspended by the orders of your predecessor as explained in Para 39. of my report for the last year Rupees 175—13—7 is the amount paid from the Collections made from the Agraharumdars to the Sibbundy employed for collecting the arrears in the resumed Jodigy Agraharums of Valuputty and Serkaly during the time they were under attachment and the amount credited on account of interest. And the remaining sum of Rupees 624—9—6 is due by the indigent deceased and deserted Ryots.

Motorpha

47 The Motorpha bearing for the

the present year amounts to Rupees 19718—10—1 of which Rupees 19369—9—2 were collected within the fusly leaving a balance of Rupees 349—0—11 The collections made up to the end of October was Rupees 324—6— which reduced the balance to Rupees 24—10—11 of which Rupees 16—4—1 is reported to be irrecoverable and the remainder Rupees 8—6—10 recoverable.—

Abkarry. 48 The revenue under this head amounts to Rupees 13681— the amount collected within the fusly is Rupees. 13581. the remaining sum of 100 Rupees has also been realized subsequently.—

Sundry small farms. 49 The amount of this Revenue is Rupees 4555—3—7. the amount collected within the fusly was Rupees 1672—8—5, leaving a balance of Rupees 2882—11—2; Rupees 2664—3—2 were collected up to the end of October leaving an outstanding balance of Rupees 218—8— which shall also be realized.—

The

Revenue from Estates. 50 The amount of barrij of the Estates under Landed Propietors amounts to Rupees 243392— the amount Collected within the fusly was Rupees 236753—3—9 the amount credited on account of Instirpha is Rupees 3874—3—2 and total Rupees 240627—6—11 (and the remaining sum of Rupees. 2764—9—1 was also realized Subsequently.

Collections of Revenue made by Coercive process. 51. By attaching and selling the personal and real property of the Ryots the under-mentioned sums have been realized during the year.

Sevoy Jummah of Fasly 1262 as shown in para 21.	1	5 8
Total	4925	9 9

I beg that Sanction of Government may be applied for writing off the accounts the above mentioned sum of Rupees 4925 9 9 which from due enquiry appears to be irrecoverable.-

53 Adverting to Para 16 of the Extract from the Proceedings of the Board of Revenue dated 2d October 1854. I beg to State that the number of Ploughs as shown in Para 7 of my report for the past year was correct.- under letter A in No. 2 Statement of my Division 8589. were entered as Puckah which were converted into Kutcha and shown as 1778 in the report. and I am not aware upon what grounds 2397. ploughs were decreased in your accounts.-

54 The sum of Rupees 540 remarked by the Board to be in excess of the amount entered in Statement No. 27 under the head of abkarry Revenue was the abkarry Renty of the Mootah of Kattyoottoor transfered to the District of Tuticorin Poly in Fasly 1261, which

which amount was included in the total heavy of the Division and collected in the Namut Talook and remitted to the Huzzoor Treasury and therefore it was by a separate entry carried under the head of Arrears revenue of this Division in the last year as it was in the year before last. As it would appear that the amount was remitted to the Collector of Trichinopoly and excluded from your account it is accordingly removed from the accounts of the Sub Division for the present year.—

53 Adverting to Para 2—7—9—11 and 15 of the above mentioned proceedings of the Board, I beg to state that before a Copy of it reached me as the whole of the accounts of my Division had been prepared and the Maratta ones transmitted to your Office, I did not alter my account for the present year, in accordance with the instructions of the Board, as it would be attended with a great

great additional labor and inconvenience and cause a delay in the transmission of this report and the accompanying accounts.—

56. Agreeable to the orders conveyed in the Board's Proceedings of the 6th July 1854 I have to mention that the period I have presided within the limits of my Sub Division during the Fasly reported on, comprised on the whole about four months but I beg to observe in regard to this point that the Head quarters of the Sub Collector have for a long time been fixed at Salem, in accordance with the sanction of the Government under date 25 August 1838, and the proceedings of the Board 21st December 1843, in consequence of there being "no building available for the accommodation of either him or his Establishment within the Talook in his charge".—

57 I have much pleasure in repeating the good opinion recorded last year of the qualifications and conduct of my Sheristadar Krishnaw Row at present officiating as your Head Sheristadar.

I have &c

To B. Cunliffe Esqre
Secretary to the
Board of Revenue
Fort St. George.

Bd. No. 1260
From the Acting Collector of Nellore

Sir,

With reference to an Extract from the Proceedings of the Board of Revenue dated 16th ultimo, I have the honor to state that orders have been issued for making over to Poondlah Appiah, with the proceeds in deposit, the Enam in Cheemalapentah.—

2 I have not been able to ascertain that there are any precedents to warrant the admission of Appiah's claim to his brother's share of the Enams, which should I think in consequence, lapse to Government.—

3 The Camapully wet land was sold in March 1839 by order of the Nellore Civil Court in satisfaction of a Decree for a private debt due to one Vijoola Sudappah, when it was purchased for 70 Rupees by Betragoontah Sashappah, who, however, having borrowed the

the amount of the purchase money from Chaguty Chendrapah made over the land to him on an annual Rent of 10 Rupees which was applied in liquidation of the loan.-

4 The purchaser, it appears, is now dead and the claims of his heirs to the mauniem will be disposed of separately under the existing rules.

Nellore District,

Acting Collector

78-79.
Order thereon

Ordered to be recorded.

No. 114.

80.

To B. Cunliffe Espe
Secretary to the
Board of Revenue
Fort St. George

Bd. L. 1698

From the Acting Collr of Nellore, 31 May

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 4th Current, reviewing the settlement of the Land Revenue of this District for Fusly 1263, and to furnish replies to the points upon which explanation has been called for.

Furnishing replies to the points upon which the Board called for explanation in regard to the Land Revenue settlement of the District for Fusly 1263.

Para 3 of the Pro.

2 Of the large number of Tanks and other sources of irrigation noticed as being out of repair, I beg to explain that a portion only belong to Government, the remainder being the private property of Ryots, to be by them repaired and which with reference to the recent reduction in the Garden assessment there seems every reason to hope will be to a great extent shortly accomplished.-

Para 4

3 In this para the Board remark that on comparing the statistics given in para 7 of the Summahbundy Statement with the census return of Fusly 1261, there is an excess of 22,616 persons in the residents of Government Villages. The number of these is quoted by the Board at 567442, but this figure includes, it will be observed, the population of Surva Enam, Amanum, Shrotrium and Cuttoobady villages. Deducting the excess on this account, the population of the Circar portion of the District is 501036 which minus the 78 European, and East Indian Residents, who from a misapprehension in the Cutcherry were excluded

Surva Enam Villages — 4,511
Shrotrium Do. 58,422
Amanums — 2968
Cuttoobadies — 516
66406

excluded from the number given in the report / 5,09,958, the number quoted in para 7 of my Report; tho' in the Proceedings it is set down, apparently by a clerical error, at 5,90,058.

Para 5

Cauvaly Taluk

	Ryots	Puttahs
Fusly 1252	4528	1242
1263	1,542	824
Increase	14	
Decrease		418

4 The fluctuation referred to in this para is that indicated in the margin - Cauvaly having been one of the Taluks that suffered most from the drought last season, the entire cultivation of some Ryots perished altogether, rendering the issue of Puttahs in such cases unnecessary - and consequently diminishing their number, without affecting that of the Ryots themselves.

Para 6

5 The unfavorable nature of the season is again the cause of the variation noticed in the 6th para of the Proceedings. The 4th Class referred to by the Board namely Puttahs for "250 Rupees and upwards" refers only to such as are between that amount and the sum / 500 Rs / indicated by the upper class, and does not therefore comprise the three preceding classes, the absence of

of any Puttahs in which is to be accounted for by the small amount of cultivation in Fusly 1263 as compared with that of Fusly 1262; and the still smaller amount which yielded any return to the Ryot - and which alone enters into his Puttah To show the striking difference in this respect between the results of the two Faslis, one or two individual cases are noted in the margin.

Para 7

6 The 77,300 Rupees of land referred to, consists of fields which tho' long and probably compulsorily included in the Dittum were more or less either wholly uncultivated and paid for or remitted upon annually as Caboolaty or Cussiory Bunjer, or cultivated with but very indifferent return to the Ryot - The abolition of compulsory Dittums during

during the last season and the consis-
-quent freedom accorded to the Ryot
as to enlargement or contraction of his
holding has necessarily led to the
abandonment of such lands.

Para 9

7

The amount of Dry Poon-
-jah Shaw remarked by the Board
in para 9, was Rupees 100059. Remis-
-sion of such was accorded only where
the total ascertained loss of the ryot
exceeded 30%, and under special
sanction previously obtained from
the Board.

Vide to Bd 7th Jany 1854
From Do 19th Do

Para 9

8

As regards the enquiry on
what principle Shamilut Bunjer
remissions are made in the District,
I beg to refer the Board to the cor-
-respondence noted in the margin;
from which it will be seen that no
rule is in force except in the Poymash
Village of Nellore. Of the amount
remitted on this account in Fasly
1263, Rupees 33572-7-4 were in the
Principal Division and Rupees
11821-7-0 in the Sub division.
In consequence of the disastrous
nature of the season, this like other
usual

To Bd 3d December 1853 para 1

15th March 1855
paras 1 & 2

× Rs 45393-14-4

usual remissions was more liberally
accorded than would have been
thought necessary under ordinary circumstances.

Para 11

9

The Board, in para 11, enquire
what are the causes of the large de-
-falcation in the Revenues of Talamunchy
and Cavaly compared with Fasly 1262.
I am myself of course personally igno-
-rant of the causes which may have
operated to produce so marked a di-
-minution in the results of these
portions of the District, but, if the
account of the fall of rain register-
-ed by the Pluviameters kept in the
Talook Cutcherys be of any value, the
quantity of rain which fell in Tala-
-munchy was but 762 inches, whilst
in the other surrounding wet Talooks,

Inches
Nellore 17-6862
Singom 12-8312
Cavaly 13-4937

it exhibited a striking contrast as
indicated in the margin; and which,
following as it did a season
characterized by almost an unpre-
-cedented flood, proved so destruc-
-tive to property as to produce
a diminution in the cultivation
alone of Rupees 48242; whilst
owing to failure of irrigation
afterwards

Fort St. George 11th July 1855.

afterwards, the crops that were put on the ground are said to have perished so extensively, as to necessitate a remission on this account of Rupees 45,843 constituting the chief items of the decrease noticed by the Board. In Canady the Rain Register shows indeed a greater fall than in Talamunchy; but far from enough to induce any extensive cultivation or to mature existing crops. This Taloork is also partly dry and partly wet, and the decrease accordingly in the actual cultivation with the Shavy remissions amount together to Rupees 50,294.-

Decrease in Cultivation — Rs 33,495
Wet Shavy 12,907
Dry Do. - 3892
50,294

10.

With reference to para 12 of the Proceedings, I beg to state that orders have been issued for placing the Cayem Puttah Villages in Talamunchy on the same footing as other Government Villages from the commencement of the ensuing Fusly 1265.-

11

I regret that the wrong date referred to in the last para of the 10th Proceedings

Fort St. George 11th July 1855.

Proceedings should have caused any inconvenience in the Board's Office.-

Nellore, Collector's Office, 19th June 1855 — (Signed) J. Ratliff, Acting Collector

80-81. Order thereon — Ordered to be recorded

No. 115

To B. Cunliffe Esqre, Secretary to the Board of Revenue, Fort St. George

82.

Bd. No. 1697 — From the Acting Collr of Nellore —

Solicits the favor of the Board's reconsideration respecting the very heavy retrenchment against him on the score of Extra Tentage.-

Sir,

Receipt of the Civil Auditors' Audit for Fusly 1263, having again brought to notice the very heavy retrenchment against me on the score of Extra Tentage, which the Board was pleased to order, under date 25th January 1855. I shall, I trust, be held excused, if venturing once again ere the matter is finally disposed of, to resubmit a single point, in connection with it - and to which alone, without at all presuming to re-discuss anything bearing upon the general question which

which the Board has definitely decided, I would respectfully solicit the favor of re-consideration

2

A period of one month within each Fusly has been laid down by the Board in their letter dated 5th March 1855, as the limit within which every Sub Collector's absence from his own Division, and presence at the Collector's Hoozoor Station, inclusive of time occupied in journeying to and fro and irrespective of individual distances between the respective Stations, is to be confined, i.e. with the benefit of Extra Jentage such time being held to be ample for all needful communication between the Cutcherries as well as to permit the Sub Collector to keep himself currently and fully acquainted with the multifarious correspondence of the Collector's Office.

3.

This restriction and calculation however is, I presume, intended to apply to ordinary circumstances, and not to totally preclude

preclude exceptional cases. Under the former, one Summahkhundy would alone be concluded within a Fusly and one subsequent junction of the two Cutcherries alone become necessary. If there: fore under any very unusual circumstances, a second should also happen within one and the same Fusly and a second junction of the Cutcherries become consequently involved, such would I venture to suggest, appear to form a legitimately exceptional case. This did occur during the Fusly in point: as explained in para 3 clause 1st & 3d of my letter under date 29th January and No 24 and it is under the hope that the Board will in consideration of this fact, be pleased to modify its decision to such extent, as may to it seem proper with reference to presumed needful time for halt at the Hoozoor for the object in question, and that for journeying

Fort St. George 11th July 1855.

journeying to & fro 190 miles/. that I have taken the liberty to again bring the subject, thus partially to its consideration.-

Nellore,
Collector's Office,
21st June 1855
} (Signed) J. Ratliff:
Acting Collector

Bd's No. 1743
Proceedings thereon
82-83.

In consideration of the Statement of the Acting Collector of Nellore that a second visit to the Cushak Station was made on public grounds, in consequence of a second Summahundy being held within the same fusly- the Board of Revenue will not object to reconsider their previous order so far as to pass Mr. Ratliff's Extra Tentage for a second month as a special and exceptional case.-

From the Acting Collector of Guntoor

Sir

Fort St. George

I have the honor to acknowledge the receipt of your letter of the 25th Instant and to state in reply that the Telugu language and figures have been in use in the accounts of this District from time immemorial the Marattah indeed never prevailed.—

2. I regret from the enquiries I have made amongst the Servants at the Hoozoor and in the District, that their knowledge of "English figures and notation" is very limited.—

3. From the information gained in reply to my Circular [x] order it would appear that very few indeed are acquainted at all, with English figures.—

[x] Dated 15th Decr. 1854.

4. I have no doubt that I shall find the native Servants very willing to learn and to adopt the new System. It is possible that they will not fashion their—

figures,

Fort St. George 11th July 1855

figures so well or so clear, as desired in till they have had perhaps, a years practice: and it might be prudent, in order to avoid mistakes that they should be instructed to keep a "rough Copy" in Telugu figures also; of the accounts they send in.—

5 I take the opportunity of mentioning to the Board that the Guntoor collectorate has had no English primary schools such as have been established at Masulipatam and Vizagapatam, for many years. Consequently the natives here have less knowledge of English than in other Collectorates.—

33.

Bd. No. 1267
From the Collector of South Arcot.

Submitting further information on certain points connected with the assessment of the Villages in the Pollicum cottah Jaghire.

Sir,

I have the honor to acknowledge receipt of Extract from the Proceedings of the Board of Revenue dated 23d Ultimo calling for further information on certain points connected with the assessment of the villages in the Pollicum Cottah Jaghire reported on by my letter of the 12th February last.

2. I beg to state that in fixing the assessment I calculated the produce and the selling price by the Rayajee Cullum /Holding 32 Madras Measures./ which it has been customary to use when making the annual settlement of the many villages of this Jaghire, and in commuting the Sirkar share of the produce of the Nunjah lands, into money. The same Cullum was I believe used in the Hoolooks Talooks when converting the grain produce into money.

With

Fort St. George, 10th July 1855

3 With reference to the method by which I tested the accuracy of the produce of each class of land, I would observe that as I adopted only four turrums for Nunjah and the same for Poonjah I endeavoured to fix a fair average rate of produce which ought be applied to each turrum. To effect this however I did not attempt to test minutely the yield of each of the numerous kinds of Crops which are grown on land of the same turrum, deeming it sufficient to base my calculations upon the four principal grains noted in the margin. The course I followed in order to determine the average amount of produce per Cawny was to make local enquiries as to the general productive powers of the land in question and then to compare the result of these enquiries with the settlement accounts of the Revenue which has been derived from the same lands under the old system and with all available records.

Varagoo
Cumboo
Natchinny
Cholum

Fort St. George 10th July 1855

4. I would here observe in case the Board are not aware of it, that by the former fiscal arrangements in this Sagluire it has been the practice to levy a tax upon Poonjah land varying according to the quantity of the soil, the description of Crop, and the class of Cultivator, and to divide the produce of Nunjah between the Government and the Ryots in different proportions, as shewn in the accompanying Table marked A.

5. When using the term "Poonjah Produce" in my Report, I intended to indicate the average of the principal grains and not one or other of them in particular.

6. The Board will observe in Statement A that the following are the average rates of teerwah obtained from the Poonjah lands of this Sagluire.

	average per Cawny Rs.	as	P
Black Soil	3	"	7
Sandy	2	2	"

7. As regards this Estimated produce of the Poonjah land, I would observe

Fort St. George 10th July 1855

observe that in the Statement of the dry grain produce, in the 10 Hoobes of Talooks, which was submitted to the Board of Revenue on the 8th February 1854 by my Predecessor, the following are entered as the out turns of the 4 principal Crops.

	Produce per Cawny Rayajees Cullums	Merkal
Cumboo	12	6
Varagoo	20	"
Nachiny and Cholum	12	1/2
Average	15 Rayajees Cullums per Cawny.	

8. With reference to Para 4, I beg to point out that I assumed the same selling rate both for Nunjah and Poonjah grain, as Mr. Ravenshaw did in settling the assessment in the Hoobes Talooks, as may be seen by a reference to his Report dated 10th May 1808.

9. In the Pallicottah Villages Poonjah produce has been occasionally raised on Nunjah lands although not to

Fort St. George, 10th July 1855

to any great extent. such produce has however always been brought under the division and commuted into money, at an average rate, as shown by the accompanying statement marked B, not materially differing from what I have taken it to be.

10. I think that this assumed average selling rate of 6 Cullums of produce to the Pagoda may be very fairly applied to the Poonjah as well as to the Nunjah lands.

11. I beg to submit a statement marked C. shewing the average Collections for the last 5 years from the three† villages sent up to the Board, in comparison with the gross demand which there will be on them under the proposed assessment. There can, I think be no doubt but that the entire extent of assessed land will be at once brought under cultivation in these three and in all the other villages, if the proposed rates are sanctioned. so that the immediate gain to Government will be considerable.
