No 1.	Tirputty Pagoda Coubah Poonjah 2 9¼ 9 2 1 Nunjah 2 13¼ 10 8 9 5 7 19 10 10	It is not known when and by whom granted Causu ram Hazaurn is the original grantee according to the enam Register of Fusly 1219 in the Hoozoor records. 1. Copy of Swastaputtrum or deed executed by Podawencatadry Vencherroo Havildar and others to Causeeram Hazary in the year 1696. 1. Copy of Deed of Sale executed by Nuppen Ramanoojah Iyer to Causeeram Hazary in the year 1703. 1 Bill of Sale granted by the Zillah Court to Hanoomandoss dated 16th September 1837.	Rhy: patee	1 Hanoomandoss purchaser died date unknown.	Nunjah as 2 13/16	Vysnavadoss son executed a Will to Savadoss Mahunt and died in 1853	There is no Document in the possession of the parties Concerned to Show whens by whom or for what this maniem was granted. Two copies of deeds are however found in the Records of the Collectors Office		
	Deduct Jody on the Nunjah Land 8 13 9			2. Mennaroo Lutcheemipaty chetty purchaser died on the 2d Pungoony year Sandarana.	Poonjah 71 4/8	1 Soobbaraya dos. Son 2 aurapully Vencatroya chetty brother of the deceased			
	Remaining 71 13 1			3. Vinoor Baulish purchaser	1 4/8	Living			

connected with Mr Grames enam Register prepared in Fusly 1219 one dated in the year Salewahanasakum 1618 A.D. 1696 and the other ie Salwahanasakum 1625 A.D. 1703 the first referring to Nunjah maniem and the second to Poonjah. The Nunjah appears to have been granted by the Superintendents of the Tirputty Pagoda to the original Grantee for repairing a public work the Poonjah Maniem is of uncertain origin In 1837 the entire Nunjah and half of the Poonjah Maniems were put up to sale by order of the Zillah Court in execution of a decree of the Provincial Court in appeal Suit No 31 of 1835. The Nunjah maniem was purchased by one Hanoomandoss, and the other half maniem by

Fort St. George 14th January 1856.

1 Diary Extract furnished by the Zillah Court under Date the 11th November 137

1 Will executed by Vistnovadoss to Savadoss mahunt under Date 11th December 1853.

1 Bill of Sale given to Munnaroo Lutchmupaty etty by the Zillah Court Dated 6th September 1837.

1 Deed of Sale executed by Bauboorum to Nynar Baulah under Date the 9th February 1852.

I

by Lutchmiputty chetty on the decease of Kanooman

Doss the maniem descended to his son Vystnava doss who again bequeathed it to Savadoss the present incumbent Vystnavadoss and Savadoss were both pupils of a certain Byraghee and according to the tenents of the class, he was fully entitled to make this bequest - The half maniem (Pooyah) is now possessed by Soobraya chetty, son of the purchaser. The Order of Government are solicited for registering these maniems in the names of their present holders Savadoss and Soobraya chetty (Para 9. C. C of Board of Revenue July 27th 1848) The other half of this maniem while in possession of the great grandson of the original grantee, was left in charge of one Mohunsing. The possessor having died Mohunsing alleged that the lawful heir to the moniem was one Davising employed in the Police at Madras In 1852 a person from the Madras Police Office calling himself Banpooram alias Davising appeared and claimed the maniem but he has not as yet established his claim. It appears that he sold the maniem for Rs 70 in February 1852. to one Munnaroo Baulien who now enjoys it this Sale and purchase being contrary to the notification circulated with the order of the Board, of July 27th 1848 - The Collector therefore solicits the Sanction of Government for resuming this Pooyah half Enam. —

2

No Document exists of the Original grant of the maniem One of the original grantees appears to have been one Ragava chetty and it descended to his great grandson Potte Setty. In 1853 this maniem was put up to auction by the Court in Consequence of a decree passed against the said Potty Setty. It was purchased by one Armoolingappen, who sold it to one Soobbana charry.

The maniem having passed out of the hands of the discendants of the original holders, the order of the Board of Revenue is solicited to register the same in the name of the present holder Soobana charry.—

Translation of a Will or Deed of bequest executed by Vystnava doss Banyagee of the Kateeram mutturn on the 1st Margaly year Pramadeecha Corresponding with 11th December 1853 as follows.—

That having been this day taken ill of the Cholera morbus, and entertaining the conviction that I shall not survive the disease I make the following arrangements with regard to the property in my possession:—

Having no disciples, and being under the

the asylum of my Goorooobayee or brother disciple Savadoss Mahunt of the Hateeram muttum, Thereby bequeath to him the Nunjah Bataverutty maniem known as Cavaseeram maniem enjoyed by me and situated under the Tirputty large tank and the charity tope planted by me on the west of Tirputty Tairvanee goontah three cows and four calves belonging to me, and all the Debts due to me, as the said Savadoss Mahunt has a right to these my property after my death. The Documents and bonds connected with the landed property and Debts aforementioned I have given into the hands of cataree Hareedoss a disciple of the said mahunt Savadoss, who when I am no more shall be considered as the proprietor of all my property, and he shall enjoy them as such performing the obsequies of my funeral.-

This deed of bequest has been drawn up of my free will and consent.-

Remarks thereon.. In consideration of the munjah and
Coss No 1
half of the Poonjah portions of this Enam having been purchased in good faith at a public sale held by the civil court in execution of a decree, and on the ground of the early dates of the documents produced in support of the Grant, the Board recommend with the collector that they may be continued to Soobroy and Soobroy Chetty.—

2. With reference to the other half portion of the Poonjah the Board recommend its resumption on the grounds advanced by the collector

No 2 This Enam being supported by a document of early date and having been purchased in Good faith at a sale ordered by the civil court the Board recommend as proposed by the collector that it may be registered in the name of Soobanachary the last purchaser

No 227

To G. S. Forbes Esqr
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

131
Bd. No 3623
From the Collector of Nellore—
Transmitting the Return of the yeomiahs of the District that was called for by the circular of the 29th August last reporting upon the classes &c. existing and the measures adopted for checking imposture and promising to send a separate Memorandum hereafter shewing the rates of lapses classed by decades

I have the honor to furnish the Return of the Yeomiahs of this District that was called for by the Board in your Circular of the 29th August last, prepared according to the form therewith circulated.

2 The Yeomiahs of this District may be said to be divided into three classes only— 1st Hereditary or Service yeomiahs, which are considered to be renewable on lapses so long as the services for which they were conferred are continued to be performed, though lapses have to be reported: 2ndly Service Yeomiahs restricted to one life: and 3rdly Subsistence or Life Yeomiahs. which, either wholly or in part, were adjudged to the nearest relatives of the original Grantees, and regarding which, as upon those of the 2d Class, the final decisions of Government have been passed Yeomiahs of these last two classes are subject to resumption on the death of the present incumbents— The return now co
submitted.

submitted contains 111 Names of which 51 belong to the class of Hereditary service, 2 to that of service Yeomiahs for one Life, and 58 to that of Subsistence or Life Yeomiahs, which three classes comprise the whole of the Yeomiah allowances payable from this Treasury on the 1st July 1855. The annual amount thereof is Rupees 7,739—1—0 of which Rupees 5,203—13—0 are of the 1st Class Rupees 180 of the 2d and Rupees 2355—4—0 of the 3d. Such of the Yeomiahs as have been divided or subdivided have received the sanction of the Revenue Board or Government.

3 With reference to the measures adopted for checking imposture and their results. I beg to state that a complete descriptive Roll of the Yeomiahdars has been prepared in the Form laid down by the Board in their Circular of 18th January 1841 and is regularly kept up. Certificates were issued to all the incumbents which are regularly produced by themselves or accredited Vakeels Monthly and their Stipends are disbursed to them under efficient supervision, and the whole of them

with the exception of the Gosha Women, have been repeatedly inspected before one of the Assistant Collectors, and their identity compared with the Register which will be done again on shortly for the current half year.

4 Efforts were made to append to this letter a Note of the rates of lapses among Males and females at Ages classed by decades, as requested by the Board, but as it is not yet completed, and as it would necessarily involve some further time before it is, this information will be forwarded hereafter in a separate Memorandum as suggested by the Board.

5 With regard to the foot Note annexed to the Return. I have to observe that owing to the circumstance of the confused Classification of the Yeomiahs as handed over on the assumption of the Country the List of that period will not admit of a comparison with the classification now existing. For it will be seen that while there were 3 Hereditary Service Yeomiahs

Fort St. George 4th January 1856

Yeomiahs then, there are 51 now. Notwithstanding the necessary diminution by Lapses, and while there were 40 Hereditary subsistence yeomiahs then, there are none now, nor do any such appear to have ever been since recognized. This wide discrepancy can only be accounted for by the circumstance of the great alterations brought about by subsequent investigations. Hence several of the subsistence, or Life yeomiahs of that time must have been found to be service yeomiahs: while many, if not all the Hereditary Subsistence yeomiahs are simply life Grants for the lives of the Members of the respective families under these circumstances the particulars now produced cannot be considered, a fair comparison in that form, but if any real comparison be tween the present list and those of former years be now made, the aggregate amount, and the Total number of individuals only must be taken, and especially

** Note Neither can the number be taken as a fair criterion when it is observed that so many of the yeomiahs have been divided.-

Fort St. George 4th January 1856

especially of the amounts payable then and now. Thus if the Yeomiahs of A. D. 1801 are compared with the List as it stood, on 1st July 1855, the total lapses will be found to be 399 and to amount to Rupees 40136, as shewn in the margin and in the foot note of the Statement.-

In 1801. 510. 47875

Nellore Collector's Office
10th December 1855 (131. 132)

(Signed) F. B. Elton
Collector.

Ordered to lie over

Order thereon -

To
The Chief Secretary to the
Board of Revenue,
Fort St. George.

(133)

Sir,

R°. A°. 3223.

I have the honor to submit for
From the Collector the consideration of the Board of Revenue,
of Nellore. the letters noted in the margin from Mr. Co
dated 19th & 24th ult. lector in this Letter of the 19th Idem are
Enclosures 1 & 5. Collett together with a translation of the enc:
= closures, called for from the Tahsildar of
Kovur and suggested on the 1st Inst. Para of the
letter of the 24th Novemb:-

2. The Chief points dwelt on by Mr Collett in his letter of the 19th Idem are the want of energy displayed by the Tahsildar in taking measures against the fanatics. his disingenuous conduct in denying their having ever been in this Taluk and the mv: = proper proceedings of the Tahsildar towards the parties brought before him in the enquiry referred to in his 5th para. These grave charges are fully related to the various counts of this Officer's report

Recorded

render him in my opinion unfit for the high & and responsible post he now occupies and I should at once have recommended his dismissal from Office, but it appears to me advisable for the ends of justice that an enquiry should be made into the Charge of Corruption made against him in Connexion with the murder of Mr. Conolly. Until this enquiry is concluded and which Mr. Collett kindly undertakes to make, I have deemed it my duty to suspend Eddathata Shangara Menon from his situation of Tahsildar of Shernaad. The explanation of the Tahsildar in regard to his treatment of the witnesses the Charge of Corruption and his intemperate habits appear to me far from satisfactory.-

3. This man it appears has borne a high Character for efficiency and zeal but it is impossible to see him without feeling that he is given up to a course of intemperance, his bloated and sodden face. his dull and heavy eyes. clearly proclaim that the reports so

so rife regarding his habits and the disgraceful scenes into which they lead him are neither exaggerated nor untrue.-

Calicut 14th December 1855.

(Signed) T. Clarke.
Collector.

Enclosure No. 1.

No. 238.

To,
T. Clarke Esqre
Collector and Magistrate of
Malabar.

Sir,

I think it my duty to bring to your notice the conduct of the Shernad Tahsildar with regard to the enquiry upon which I am now engaged. I have not indeed to allege against this Tahsildar that degree of gross negligence to a Charge of which the Betutnad Tahsildar has, I consider laid himself open, but still I regard the Shernad Tahsildar's conduct as so markedly efficient in energy and carelessness that I have on the whole deemed it necessary to bring it to your notice.-

The

2. The course of my enquiry has proved on what I consider perfectly satisfactory evidence that the offenders entered his Talook on the morning of the 23d August visited the Houses of some of the relatives of the offender Chumbam Moidun Cootty, prayed at the tomb of the Tarumal Tangal (which stands on the opposite bank of the River to the town of Serurangady) and after passing the remainder of the night of the 24th and day time of the 25th August at the house of a Moplah about six Miles from the Talook Cutcherry, finally left the Talook during the night of the 25th.—

3. I do not especially blame the Tahsildar on account of the offenders having passed through his Talook and their movements not having immediately become known to him. Some allowance is doubtless to be made for the fact of his being a Nair, and the movements of the offenders were secret and not open and daring as in the Betutnad Talook. But the

the Tahsildar allowed himself to be deceived by the two or three principal Moplas in whose information he placed too much confidence and whose assertions he was too ready to accept and hope that they might be true.

4. Up to the 15th October when I first visited the Talook he maintained that the offenders never entered his Talook and in an interview argued strongly that the report made by the Adigary at the time that they had been seen on the 23d August on the Urote hills was a mere surmise and undeserving of notice. Now this was simply absurd and proved so determined a disposition to believe only what was agreeable, that it appeared to me hopeless to expect any thing but hindrance from a Tahsildar in such a temper. I had, too experienced a decided opposition from the leading Moplas of the Talook, so that I felt it necessary to be very plain with the Tahsildar, and after showing him that it was certain that the offenders must have passed through his Talook, threatened to suspend him at once unless he

he exhibited a better disposition to assist-

5. This had to some degree the desired effect, and I was subsequently enabled to trace the movements of the offenders to a certain extent. I had some reason to suspect that they had visited the house of a Mapla in the town of Tiruvangady and ordered his appre-hension. I was then compelled to visit Calicut for three or four days. and in the interval the Tahsildar procured and offered to me the evidence of a female servant and a Child of the family. This did not appear to me satisfactory, and within an hour they retracted and stated that they had been ill-treated by the Police A Copy of his explanation is herewith submitted. It appears to me very unsatisfactory. The Peshcar on whom the Tahsildar seeks apparently to throw all the blame is a man of very rough manners and the Tahsildar, if he did not use him as a tool, allowed too much latitude to a man of his known Character. I found it impracticable to procure any evidence to the ill treatment, but

but I made considerable private enquiry and also took an opportunity of privately questioning the Woman and Child as also another Child who retracted its Statement. I am of opinion that the actual ill-treatment was very slight consisting I think of a blow or two with a switch but threats of ill-treatment were I believe certainly used and the Statements extracted in this manner-

6. I have been careful to warn all whom I suspected of being likely to err, not to allow their zeal to lead them to permit of any illtreatment to suspected parties as a part from its impropriety it would be sure to damage my cases. This has been the result in the present instance a general suspicion has been thrown on other evidence which is the more to be regretted as I have in the pre-sent enquiry often derived very valuable in-formation from the female and younger members of families by whom the offenders have been received. I doubt whether the depo-sitions of the woman and Child are not false. tho I have reason to believe that the offenders

offenders did actually visit the House, though what passed was not as described in their Statements before the Police. Had only the fair plan of eliciting the truth by questions been pursued a patient examination would have probably led to its discovery - In the instance of the other Child alluded to the Statement was no doubt true, tho now of no value -

7. Undoubted evidence was obtained as to the offenders having stayed in the House of a certain Mopla on the night of the 24th and day time of the 25th Without the slightest call for receiving any such inconclusive testimony even if true, the Tahsildar subsequently examined three men who are neighbours and who state as that on the day in question they severally had occasion to go to this Moplas house saw one or two strangers and heard the talking of several persons in the upper room - It appeared to me on verbally questioning these witnesses that their Statements were altogether false - The Tahsildar must or ought to know that

there

there is no more effectual manner of damaging a true case, than by introducing some false evidence -

8. What was the Tahsildars object in setting himself so decidedly against the supposition that the offenders passed through his Talook, I cannot certainly say. As far as I can ascertain by enquiry, he was at the time very anxious to prevent their entering or creating any disturbance in his Talook, and I believe exerted himself to a considerable extent with this view both before and after Mr. Conolly's murder - He is not to be greatly blamed that they nevertheless evaded his vigilance. In such a Country as Malabar and with a population so bound together as the Moplas and so influenced in favour of such offenders as lower classes at least undoubtedly are it would be almost a physical impossibility to have prevented the men secretly passing through his Talook. Some of the principal Moplas exerted themselves laudably & no doubt compelled the offenders to be wary - but for these men to assert that they did not very soon become aware of the offenders having passed

through

through is simply absurd I cannot bring my
mind to believe that the Tahsildar did not
himself also become well convinced of it.
They did not see that honesty was the best
policy, but afraid of the trouble of the en-
enquiry and possible consequences of the
truth being known, adopted the crooked
policy of endeavouring to hide the fact
altogether and brazen it out by a stout
denial. Such people must though be reckoned
with and be taught to feel that it is the better
policy to be truthful -

9. Though I am loath to bring any
accusation which I am unable to support by
proof, I think I ought not to conceal a report
which has now reached me from so many and
apparently independent quarters that I have
felt inclined to give it that credit which I
could not at first place in it. I have been
informed that after the disturbance was over, the
opportunity was taken to make it an excuse
for levying a regular collection from several

Amshams

Amshams or parishes on behalf of the
Tahsildar. This is stated to have been done
through one principal Hindoo and two Mopla
inhabitants of the Talook who are in the
Tahsildars confidence. About Rupees 500
is the amount stated to have been thus collected.
This if true, would no doubt furnish a suffi-
-cient explanation of the Tahsildar's deter-
-mination to deny that the offenders entered
his Talook. But putting this out of con-
-sideration. I think the Tahsildar's conduct
be speaks either great want of capacity or
zeal. I used to have a good opinion of his
capacity, and indeed I believe his promotion
to the situation of Tahsildar was due to my
recommendation I regret to be compelled to add
that I fear his too notorious habits of in-
-temperance have tended greatly to injure his
capacity for his present Office -

Calicut, 19th November 1855.

Sub Collr and Joint Magistrate.

No. 146.

To,
C. Collett Esqre
Joint Magistrate of
Malabar

The Urzee of Shangara Menon the Head
of

Fort St. George 4th January 1856.

of Police of Shernad Talook.

I have received the order No. 42 of
dated 23d October.—

I beg to state hereunder the real
facts of the enquiries held and caused to
held at this place on the matter therein
alluded to.

1. It was the Sub Officer the Peshk
Fakheer Mahomed who first apprehended
Offender Shemban Moideen Cootty's sister
Verachooma and her daughter the girl
Mamachoo at their dwelling House at
Coddoorayoor on the 6th Instant and
brought them to the Talook. They denied
all knowledge when first interrogated—
As no information was then gained as to
the Offenders having left Urote and come
to these places I had no other alterna-
tive than to believe the Statement
of the aforesaid females without
putting to them any questions which would

tend

Fort St. George 4th January 1856.

tend to shew that the truth of the case was
known. However after hearing the statement of Terramel
Coonhy Ceya's son, who is a little boy, I was assured
that the offenders had come to this place, and from
various circumstances was led to believe that the
House of the aforesaid female must have afford-
ed a facility to the offenders to proceed from
Urote to Mambrom. I therefore with a view of elicit-
ing the truth, held a long conversation with, and
put questions on the subject to the said female and
girl first at the Talook Cutcherry through the
Peshkar, and subsequently in my presence at
my dwelling House on the 20th October at 10
A. M. when the female denied in toto, while
the girl of her own accord gradually disclosed
the truth. Thus proof was elicited.

2. The girl Irayee the daughter of
Ayoovallappil Mootha Cootty, and her other
relations and slave Tatooma were first apprehended
throagh the Peshkar at their House in the
western end at Tiroovangaddy at 5 P. M. on
the 18th pursuant to the order No. 28th dated
the 17th October; and as the

Cutcherry

Fort St. George 4th January 1856.

Cutcherry was closed that and the following days in consequence of the Navaratry Holidays. I had them detained at the Taloork Cutcherry and questioned through the Peshkar, but as they Confessed nothing and having had no leisure then to send them to you at Parparangaddy I detained them in the Taloork, and on the following morning they were questioned by the Peshkar, brought to my House and questioned in the presence of the Police Gomastah and myself when the aforesaid girl and the slave commenced to disclose the truth.

I therefore separated them from and questioned the others, but as they persisted in their denial they were sent to be placed in custody at the Taloork, and again questioned the aforesaid girl and slave separately, when as they willingly represented the facts of what had occurred in a manner sufficient to belive them I took their deposition and recorded a yadasht, and informed the particulars of to the Head Moonshee and others who had then

Fort St. George 4th January 1856.

then come to my house. The Head Moonshee then sent for two younger children and questioned them, when they reiterated the Statement they had made before me, Further than this, violence was not offered to them. Thinking that some indulgence will be allowed if an accusation that violence was offered is made their Karnavan made use of that expression in their hearing, and made use of signs to remind them of the same. These Children possessing wit enough to call to mind and make use of such expressions, and having had in the interval some bad advice to aid them, they made the representation which is not true. I therefore beg to state the same for your information.

3. I am Confident that you will be satisfied that the statements and manners of the Moplas sufficiently indicate the unanimous disinclination of most part of them to disclose the truth of what had occurred in this case and that the obstinacy of their disposition displays an unwillingness to speak the truth

altho

For. St. George 4th January 1856.

altho they may, by means of reasons and prece-
dents, be convinced of the facts of a true case.
Hence it is certain that such people will not
fail to give their Children an advice to the
above effect and insure success. If therefore
simple questions consisting of two or four words
are merely put to them without in any manner
pressing them, they would adhere to the instruc-
tions they first received by stating "I know nothing"
thus, this manner of proceeding will prove of
no avail.

I therefore held a long conversation
with these Children, and thinking that if they are
spoken to in low and high tones they would
be induced gradually to reveal the truth, I spoke
to them accordingly recorded in the shape of a
yadast and deposition the statements, which
seemed to be trustworthy, which they willingly
made as to the facts they had witnessed, and
requestioned them as to whether they /statements
were correct, and on the strength of their
declaration confirmed the accuracy thereof.

After

For. St. George 4th January 1856.

After this confession, an attempt was made to
question the Karnavars /Maternal Uncles/ of these
Children, when some of them cried aloud to
the hearing of the Children that what the
Children had represented are not true, and
that must have made the statement from
having been flogged and intimidated.

I beg to state in the presence of God
that so soon as I succeed in my endeavours
to bring to light; thro certain elderly persons con-
nected with them, the facts of the case you will
be satisfied that some of the Children taking
advantage of the examples given to them
as above, retracted their confession while
those who could not, or had not an
opportunity to understand the wits so display-
ed allowed their confession to remain unaltered.

Collector and Magistrate of
Malabar.

Sir.

In reply to your letter of the 23d Instant I have the honor to state that if the Shernad Tahsildar has no further explanation to offer, I should consider it for the advantage of the public service, that he should be reduced to an inferior appointment. his general character since he has held the situation of Tahsildar not having been such as to entitle him to expect leniency on the present occasion.

Should there be any truth in the general report alluded to in para 9 of my letter of the 19th instant, I could not recommend any punishment short of dismissal. Want of leisure has prevented my following up this matter so closely as it deserves; I have myself no doubt of its accuracy. but whilst the Tahsildar continues in the Taluk it will be exctremely difficult to procure any direct evidence on the subject.

For

Fort St. George 4th January 1856.

Enclosure No. 2.

No. 109.

To

T. Clarke Esqre
Collector of Malabar.

The Umzee of Shangara

Menon the Tahsildar of Shernad.

I have received the order No. 116 dated 3rd December, accompanying translation of para 9 of a letter dated 19th November from the Joint Magistrate, calling upon me for an explanation.

I beg to offer hereunder my explanation on the two points alluded to in the letter Vizt.

that after the assault was quelled a subscription was made by several individuals to give me money and that I had rendered myself still more disgraceful by having been intoxicated.

1. I did not as mentioned in the said letter, in any way render myself guilty of any irregularity, nor cause any irregularity to be carried on, I shall never be guilty of such an act, nor have I a confidential person for the purpose, I declare in the presence of God that in consideration of the respectable position of my family and the

fact

Fort St. George 4th January 1850.-

fact of Government having allowed me a very liberal pay I as far as I am able, perform my duties truly and in conformity to the Judgment which God has blessed me with, and that there is no necessity for my committing any irregularity with a guilty conscience or to acquire wealth unlawfully.-

2. The accusations contained in the aforesaid letter injurious to me are unsupported by evidence and were brought against me during an enquiry. I was therefore led to consider as to what should have induced that Gentleman to entertain the suspicions expressed in that letter, but can find no other reason than that the accusation in question originated from the deceitful representation of certain persons who being dissatisfied with me, have induced others to speak in support thereto.-

3. Whether the parties who had given the information were uninterested ones, and what was the position in which they stood with me, rested

Fort St. George 4th January 1850.-

rested with that Gentleman to determine. Unless their names are given I am unable to know the same or offer an explanation.

4. Altho' the accusation was brought by dexterous persons who likewise brought several others to support the same, the circumstance that it was relied upon and was deemed sufficient to be written about is a matter of great regret.-

5. I am confident that you will be satisfied that the people of this place do not hesitate to speak any thing against those who do not favor their views, and to produce untutored evidence in support thereto, and that without in the least sympathizing with others they resort to severe measures. The disposition of the generality of the people in Malabar is such as entices them to reserve ill feeling against one who, being in charge of a Talook faithfully enquires into, and without favoring their views, decides upon several cases occurring

and

Fort St. George 4th January 1856.

and, in case of dissatisfaction resulting on any account, to watch an opportunity easily to bring accusations against him aspersing his character. I am therefore induced to believe that the representation made by one party is insufficient to form a judgment, that the parties who had given the information to Mr. Collett are uninterested ones, and that the people so accusing are interested and evil disposed ones.

6. Had money been received from several persons publicly in the shape of a collection without the least fear, would one individual at least have failed to come forward and represent the same to the aforesaid Gentleman when he remained in this Taloork on three or four different occasions. This single circumstance will make it apparent that the party in whose favor the supposition is based is deprived of certainty and truth.

7. As it was probable that the offenders were frequenting within the limits

of

Fort St. George 4th January 1856.

of the place occupied by Moplas. I thinking that correct information would easily be got if enquired thro' the Principal Moplas, endeavored to procure information by causing enquiries to be made; but as all unanimously stated that the Offenders did not come to this place, I reported the particulars in the first instance. However from the information gained by my subsequent endeavours, I was made acquainted that the offenders had come to this Taloork. I therefore came to a conclusion that nothing what the Moplas represented is true, set on foot a very strict enquiry and succeeded in obtaining proof the facts of which I reported to Mr. Collett. Further than which, the delay in procuring the proof did not occur because I was interested in favor of Moplas or others. Had I received money from the Moplas and instead of procuring proof, suppressed the facts, would I afterwards have been able to procure proof against them.

Even

Fort St. George 4th January 1856.

Even supposing I had done so they would have pro-claimed the profits I had derived from them and thereby exposed the same this circumstance will, if taken into consideration, make it apparent that the whole of that accusation is false.-

8. The duties which I as Tahsildar had performed during a period of 6 years will shew that I was not guilty of having indulged myself in liquor, or in consequence of drunkenness neglected my duties or endeavors and verbal interviews on several occasions having moreover made it apparent that I was not addicted to that despised vice, it was reasonable at once to conculde that I am not addicted to that vice.-

9. This does not imply that I did not hitherto drink liquor, nor does that affect my caste. However I have only used it on certain occasions in the light of medicine for the benefit of my health; further than which I

Fort St. George 4th January 1856.

I did not indulge myself as do people addicted to drinking or in a manner to neglect the due performance of my duties. but I have always behaved myself in the manner in which respectable people behave themselves That my enemies should have shamelessly reported these particulars to my masters is a matter of regret. I think it necessary to add that the accusations brought by those calumniously disposed should be considered true before I was informed of the accusation verbally or by means of writing and an explanation demanded, must be attributed to my bad luck as there is no other sufficient reason to warrant this conclusion.-

10. There is a rumour here that certain evil disposed persons are endeavoring to make enquiries whether people could be got at this place to be tutored for evidence to aggravate the accusations brought against me, and to hold out hopes to such as expected a return, that suitable employ will be conferred, if such

proofs

proofs are given, and to make use of soft and intimi-
-datory expressions calculated to introduce the fea
of punishment into the minds of the inhabitants
of the place If this rumour is true it will
not be difficult to convert falsehood into truth
and considering the fact of my innocence
I must only hope in God for protection
I feel confident that you will Judge whether
the accusation brought against a respecta-
-ble and innocent person who has done
nothing with a guilty conscience, or is not
aware of my thing / having been done / is not
a matter of great regret.-

11. I therefore beg you will, after perusal
of the aforesaid explanation, be pleased
to pardon me if I am guilty of any
errors done without my Knowledge.-

Causeboogah 18th December 1855 } /Signed/ W. Knox
Acting Collector.-

Enclosure No. 1

Ganjam.

The land measurement in the Talooks of

Fort St George 4th January 1856.

of Poobbacondah and Moherry is as follows.-

8 Cubits 1 Rod

100 Square Rod 1 Burnum of Dry land

50 Square Rods 1 Do of Wet land.

If the Cubit be taken at 19.5 English inches which is Major Jarvis standard and agrees very well with what is found in practice the rod is exactly 13 Engl

	Square feet	
$13^2 \times 100$ -	16,900	389 acres for the burnum of Dry land
$13^2 \times 50$ -	8450	194 acre for the burnum of Wet land

Mr Onslow estimated these at 16 and 8 Goontas or 4⁰ of an acre The above calculation makes them 15- 6/-8 Goontas / In the Ithapore Talook the rod is 7/2 cubits which would make the Dry burnum 344 acres. In Goomsur the rod is 16 Cubits and 16 figures 13 English inches and 25 square Rods 1 Mano for both Wet and Dry lands

1 Rod $27\frac{1}{12}$ English feet

$27\frac{1}{12}{}^2 \times 25 = 18,678$ Square feet 42878 acres

In Wadada and Purla Remedy the Garce is in all as a land measure.-

It is thus Computed.-

1 Rod ——— 8 Cubits.

1 Square Rod — 64 Square Cubits.-

600 Square Rods 38400 Square Cubits 1 Garce.-

If the Cubit is assumed at $19\frac{1}{2}$ inches this would make the Garce $2\frac{1}{3}$ acres.-

No 337

To

G. S. Forbes Esqre

Acting Secretary to the

Board of Revenue

Fort St George

137

Bd No 3711

Sir,

From the Collector of Chingleput

Suggestions as measures for the preparation of Current Returns of Prices of Grain.

I have the honor to acknowledge the receipt of your Circular Letter of the 21st ult on the Ultimo, on the preparation of the Price Returns of Grain. The Returns made from this District exhibited till recently the average of the wholesale prices obtained by the grain Dealers at the Stations of Conjeveram, Tirevellore, and Chingleput. Inasmuch 1262, these Stations having been considered too few to give a sufficiently fair average for the whole district their number was increased and the Returns thenceforward submitted with the Demand Collection and Balance Statements have embraced the Cusbah Towns of all the Talooks.

The prices represented in

2

these

Fort St. George, 1st January 1856

them were the Merchants wholesale prices and not the District Prices realized by the Ryots other Returns shewing the latter were therefore required from the Tahsildars for each Thagil or Villadars Division and the average of these for the year and for each Taluk was stated in a Statement No. 6A accompanying the Statement Reports.

3. The elements of incorrectness in these Returns or three inequalities in the measures in use in different parts of the District, carelessness on the part of the local Officers in taking the prices, and the inaccurate results proceeding from making averages of the prices of different places of different Months and of different Kinds of the same article without reference to the Sales actually effected of each Kind at each place and at each period.

4. The Standard measures Viz.ts the Imercall and Puddy are in use in all the Market Towns of this District and so far no conversions of them need be made by the local Officers or in my own Office; but as they are not required by Law to be

Fort St. George, 1st January 1856

be stamped and are at some places heaped and at others struck there are slight inequalities in their Cubical Contents for which no remedy exists save that of rendering the use of stamped measures Compulsory by a legislative enactment; any attempts for correcting and allowing for these small inequalities in the price returns would I fear lead to great confusion as the measures in use even at the same place, are not all of equal size. A Statement shewing the Cubical contents Viz.a of measures taken from the different Cusbah Towns of the District was submitted[x] to the Board in reply in their Circular instructions of the 24th March 1837. but it does not distinguish the measures used struck from those used heaped which latter process would diminish the amount of inequality therein apparent. I would therefore in obedience to the orders now conveyed again test the measures as they are actually in use heaped or struck, and state the results in the first Return.

5. To provide against the second source of

[x] With Letters dated 29th January 1837 and 19th March Do

of error I would at once discontinue the District Price Returns as the preparation of too many Statements leads to carelessness and inattention and leave them to be inferred from the Merchants wholesale prices The latter will be taken at the following places which are the principal towns of the several Talooks where responsible Officers of the Rank of Tahsildars and Peishcars are located and some of which are situated on the principal lines of trade from adjoining Collectorates.

Caraugooly	Chief Town of the Talook on the Southern Trunk Road
Chinglepet	Do Do
Triperoor	Do on the Southern Coast Road.
Ootramaloor	The Cusbah of the Talook.
Conjeveram	The Cusbah of the Talook and a populous Town of great trade near the High Wn Road
Sirvallore	The Cusbah of the Poddapollium Talook on the Road from Cuddapah and Nuggury.
Ponnary	The Cusbah of the Nayer Talook.
Puliat	A seaport of the above Talook.
Poonamallee	The Cusbah of the Talook and a Military Station on the High Western Road.
Streeperumatoor	Cusbah of the Manimungalum Talook on the High Western Road.
Sydapet.	Cusbah of the Talook on the Southern Trunk Road.

I would further obtain price lists from the Collector of Madras where a great portion of the agricultural produce of the District is consumed which would be a useful check on those Returned by the Tahsildars. These and careful scrutiny and comparison in my own Office will I have no doubt ensure faithfulness in the Returns.

6. The staple grains of the District are noted in the margin, together with the proportion of Revenue derived from each in Fusly 1262 for which accounts were specially taken. Paddy is subdivided into two principal sorts. The various Kinds of Cumbu forming considerably more than one half is placed in the 1st Sort and the several descriptions of Car and Saveray in the 2d Sort.

	Revenue Rupees
x Paddy	7,85,884
Raggy	50,632
Varagoo	35,188
Cumbu	11,521
Total Ryotwary Land Revenue inclusive of other kinds of cultivation.	93,609

7 I apprehend no difficulty in obtaining returns of the Merchants wholesale prices with care and attention on the part of those entrusted with the Duty, as there are generally distinct rates of wholesale and retail prices obtaining in all large Bazars which can be easily ascertained The Tahsildars and Peishcars will be required

required to take them down from personal enquiry as they actually obtain in the Markets on the 15th and the last day of each month which being averaged will be submitted to the Board monthly from this Office Weekly Returns are uncalled for in Markets where the fluctuations of prices are slow, and would entail additional labor and confusion.

8 Inaccuracies resulting from the average of the prices of different Towns being taken without reference to the Sales at each are not likely to be considerable in a District with a comparatively small area and good and accessible Roads which tend to equalize prices, but material errors arise in obtaining the price of the year from averaging those of several months in which the extent of sales is greatly different, which has a tendency to shew higher prices than were actually obtained by the Ryots grain being cheapest in those months where the Sales are large. The months in which the bulk of the Ryots Sales takes place is readily determined by

by the Collections In Chingleput 90 per Cent of the Collections are made from January to July as shewn in the margin[x] in a good year I would therefore take the average of the prices from January to June inclusive to represent the price of the year to the Ryot which will be sufficiently accurate for all useful purposes and as nearly true as they can be obtained. the Ryots who pay their Rists from other means and reserve their grains for higher prices being very few.

Months Collection		
January	5	2 per cent
February	7	10 Do
March	8	9 Do
April	13	11 Do
May	15	2 Do
June	21	6 Do
July	15	2 Do
	86	3

9 I am not aware of any advantage that would arise from the establishment of Public markets other than the existing Bazars of the Country the more so as after allowing for the wants of the District the remaining portion of the Ryots grain and which is also by far the smallest, finds its way to the Presidency.

Sir.

With reference to your Circular of 6th Ultimo No. 2960. I have the honor to inform you that in this District there are 8 Descriptions of Pensioners, most of whom draw their pensions monthly, but among the remaining number some being residents of Villages remote from the District station or temporarily absent in foreign Countries, are in the habit of drawing their pensions once in 3 or 4 months, while others, who reside nearer to the station, and whose Pension is very small such as 3½ annas. 6 annas &c., follow the same course. Excepting however in these few cases in which the Pensioners are residing at Hydrabad or other foreign places. I do not see that any difficulty will be experienced in ensuring the regular payment of pensions monthly.

1 Superannuation Pensions
2 Native fund Pensions
3 Pensions of Nabob family
4 Carnatic Pensions
5 Zemindars &c. allowances
6 Roofsooms to Pagodas and Mosques
7 Roofsooms to Bramins and Cazees
8 Pendary Pensions and Pensions to the heirs of individuals who died near Aparow Channel.

0 - 27$^{25}/_{+}$ of an acre

Sir,

With reference to the Circular from your Office, dated 14th September last and the subsequent correspondence noted in the Margin relative to the Grant of rent free back yards I have the honor to state that the rule of the District is to allow one Coontah of land to be enjoyed free of assessment if Cultivated with Superior Garden products and to bring all excess beyond that to account if the Back yards are not cultivated they are not

not assessed and the above limitation does not apply when the Cultivation is Confined to Vegetables. The extent of land so occupied and its assessment cannot be stated with accuracy without actual measurement which has been put a stop to under instructions from the Board, but the Number of the holdings May be set down at 94850 in the portion of the District under direct Government Management having been calculated on the number of houses at one to each house

Collector

Translation.

Fort St. George, 5th January 1836

No. 1

Translation of a Sunnud addressed on the 11th of Arpisy of Velumby year in Aundoo 954 by Streemuttu Dalavoy Tirumalie appa Moodaliyar Avergul to Swasayilanadu Moodeliyar Mouroiw of Brummadasa Vaviden wishes him all manner of Good.

That is to say, an extent of 3/8 of a Seed Cottah of land belonging to Saitheerayen Juttie, and continued to Palaur Iyengar employed in computing Almanacs for the benifit of the country from Aundoo 939 to 962 was extended to 3/8 of a Seed Cottah of land from Aundoo 943 to 951. This latter extent has been afterwards allotted in Thiruvalee Swarem Village and continued as Survamaniem for Aundoo 954. In addition to this we have from the present Carr Season, given him, on Survo Enam tenure, in perpetuity one Seed Cottah of land per Fussul in Brummadasem You are therefore to continue to him this extent of 1 Seed Cottah of land for the Current Carr and the ready money Enam of 10 Pons in Brummacottah Village Jarried to him from Aundoo 939 to the end of Aundoo 953. The total amount of Enam now Ordered to be continued to Palaur Iyengar for the Current Carr is in Seed Cottah 15/8 and in money 10 Pons You are to take a Copy of this Sunnud and give the Original to the Grantee. Thus you are to continue the Survamaniem of 15/8 of Seed Cottah of land and the ready money enam of 10 Pons belonging to Palaur Iyengar for the present Carr Season.

/ Signed / Coomarendoorey

You are to carry the Survamaniem of 15/8 Seed Cottah of land and the ready money Enam of 10 Pons belonging to Palaur Iyengar.

No. 218

To

G. S. Forbes Esqr.

Acting Secretary to the

Board of Revenue

Fort St. George.

167
Bd. No. 3146

From the Collector of Nellore.

Sir

Adverting to para 5 of Extract from the Proceedings of the Board of Revenue dated 29th Octr.

Fort St.George. 5th January 1850.

Ultimo calling for certain explanation respecting the Yeomiah held by the late Sakeenabee in this District. I have the honor to report that on reference to the Office Copy of the Statement of claims to the Succession of Yeomiahs submitted with Mr. Fraser's letter of the 9th January 1819. the age of Sakeenabee is entered at 30 years and not 5 and a Document of that date found on the records goes to establish the same fact. The entry too in the Columns of remarks of Mr. Frasers Statement Viz that "the claimant (Sakeenabee) has neither husband nor Children" would be wholly inapplicable as regards the latter clause at any rate to a girl of 5 years old, while the advanced age (61 years) at the date of her death of Tatna Bee the elder sister of Sakeenabee, and to whose Yeomiah the latter succeeded likewise renders it apparently impossible that she had a Sister of 5 years of age. at the same time, it must be noticed that the age of Sakeenabee as given in certain recent documents does not exactly correspond with that (30 years) above noticed In the Standing Office Register of Yeomiahs prepared about 1841 in conformity to the Board's Circular of the

Fort St.George. 5th January 1850.

the 18th January 1841. the age is stated at 64, whilst in the detailed list of Yeomiahdars furnished to the Civil Auditor for the year 1852/53 it is entered at 72 neither of which precisely corresponds with the age of 50 in 1819 The fact too elicited by the enquiry after Sakeenabee's death that she has left 4 Sons, throws very considerable doubts on the correctness of the assertion in Mr. Fraser's Statement of 1819 that she then had "neither husband nor Children" if she was then really so advanced in years as to be 50 Owing to these irreconcileable differences it is difficult at this distance of time to arrive at the truth which appears to have been withheld as the facts have turned out however the decision of the Board that the allowance "may be granted to her until she attains the age of 16" was clearly inapplicable to her case and in the order issued by Mr. Collector Fraser on the receipt of the Board's Orders on his Statement. Copy of which is now forwarded, it is directed that the stipend should be paid to her for life. and it accordingly continued to be so till nearly the time of her death on 12th April 1853.

Under.

Fort St. George, 5th January 1836

2 Under these circumstances
since brought to light. I do not
recommend that the arrears now claimed
should be disbursed.

/Signed/ T. B. Elton
Collector

Proceedings thereon.

Mr. Elton explains that the
age of Sakiemabee is entered as 50 years in the
Register of 1819 which also states that she
had then neither husband nor children.
The Board agree with the Collector in
considering that the truth regarding her
age and condition must have been
withheld at the time of the grant
and they therefore approve of his
present recommendation to refuse
payment of the arrears claimed.

To

To

G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue.

Fort St. George

Sir

I have the honor to acknowledge
the receipt of the Extract Minutes of Consultation
No. 1128 under date 9th October accompanied with
the order of the Board of Revenue No. 2772 of 20
idem returning the List of various classes
residing in the Brance Pettah of the
Town of Bellary cumming under the
head of Military followers for revision.

The Right Honorable the Governor in
Council observed that in my letter
(of 23d July last) I treated as a matter
of probability whether certain classes were
subject to Military law or not and
remarked "that the conditions which
constitute the liability are very clearly
defined

169
Bd. No. 3664
From the Collector of
Bellary.

Forwarded revised List obtained from the Military authorities shewing the names of Persons amenable to Military Law under Regulation VII of 1832 resident in the Eastern Pettah of Bellary with his remarks thereon.

Fort St. George 3rd January 1836

"defined in Causes first and second
"Section XIII Regulation VII of 1832 and all
"that I had to do was to determine whether
"the parties to whom I referred came
"within the terms there stated" and
"I am directed to make a more accurate
"investigation in accordance with
"the Regulations quoted and to
"report the result The Government
"did not suppose that it would
"be necessary to incur the trouble
"and delay of an individual
"renumeration of the inhabitants of
"the Pettah a reference to the rolls
"and registers of the several
"Military Departments with an
"enquiry as to the place of
"residence of the various parties will
"the Government thought probably
"secure the object in view
"more easily and expeditiously".—

J.

Fort St. George 3rd January 1836

2 I would beg permission
to remark that I endeavored before
I made my report of 23d July last to
prepare a List in the basis now suggested
by Government from the Rolls and
Registers of the several Military
Departments but Major General Valdegrave
was unable to supply the List. On
receipt of the orders of the Board now
under reply I immediately addressed
Major General Macleod Commanding
the Ceded Districts (in a letter dated
Encl.e No.1 24 Ultimo+ copy Enclosed) for a
Nominal List Extracted from the
Rolls and Registers of the several
Military Departments and in reply
Encl.e No.2 I received the List / Copy of which
accompanies this letter / which was
forwarded to me by General Macleod
on the 17th Instant.—

3 Wishing to ascertain
further information respecting
the.

Fort Fulgeorge, 5th January 1856

the 1500 persons who are entered in that list Again on the 19th Instant wrote to General Macleod requesting him to inform me whether Several of the individuals entered under the Commissariat and Engineer's Departments were entered in the Rolls of the Departments or were registered persons; or if neither, to inform me on which principle they had been entered in the List as it appeared doubtful to me as whether many of these people properly came within the class of Persons noted in Section XIII Regulation VII of 1832. In reply the Brigadier (in temporary command Major General Macleod being absent on leave) stated that he "was entirely of Major General Macleod's opinion, that all the names the List contains belong to the classes described in

Fort Fulgeorge, 5th January 1856

in Section XIII Regulation VII of 1832", but he did not state the principle that had been observed in entering them in the List, as requested by me.

4. I have now to beg reference to this List It contains a Nominal List of 1500 Persons residents in the Eastern Pettah, who in the opinion of the Officer Commanding the Ceded Districts are amenable to Military law under the provisions of Regulation VII of 1832.

5. As affecting the question of the transfer of these Eastern Pettahs from the Cantonment of Bellary I have first to observe that there are 189 Persons, "Commissariat Public Drivers and Public Dooly Bearers" entered as residents in the Northern Side of the Fort. It was never contemplated to transfer this portion

portion of the contonment, and consequently these 189 Persons must be deducted.—

There remains 311 Persons and I must still question whether the greater portion of these persons can properly speaking be said to be subject to the Military law of the Regulation It will be observed for instance that there are about 127 "New coolies" and 351 "women coolies" and 78 Hired Brick layers occasionally "employed" entered under the Engineers Department, Now these Coolies I presume, are not entered in the permanant Rolls of the Department but are merely hired as occasion requires for public Works and (as I would interpret the Regulation) they can only be liable to trial by Court Martial under the provisions of clause first Section XIII of 1832 while

while in actual receipt of pay or being actually hired in the service of the Engineers under the provision of that part of the clause which makes "all Natives receiving pay "or being hired in the service of the "Artillery Engineers or Pioneers" liable to trial by Native "Courts Martial" For not being registered under the provisions of Section V of the Regulation as "persons having houses shops or "other buildings, or fixed places of "abode within the limits of the Bazar "in which they carry on trade or "otherwise supply or serve the Troops" I am of opinion that, except during their occasional actual service in the Engineers Department, they cannot be made amenable to Military law under clause 1st Section XIII Vide: ther in the same manner under Cl. 2nd Section XIII unless they are registered according to Section V, can, many other Natives

natives entered in the List to be made liable to punishment by the Officer in immediate charge of the Police under the Regulation in question, who only receive public pay drawn by an Officer in charge of a Public Department appertaining to the army beyond the period during which they are actually in receipt of such pay.—

7 And any native, whether hired from the Brinjaree Pettah or from any neighbouring village of Bellary, would under Section XIII be equally liable to punishment by Court Martial or the Superintendent of Police while in actual employ in any of the Military Departments enumerated therein but surely not at any other time.—

8 But whether my opinion is well founded or not, is not of much moment in the question which

which the Government are desirous of disposing of The principle on which the List now sent has apparently been prepared being known, it will I trust, be acceptable as it gives the result sought for according to the views of the Military authorities of Bellary.—

9 The population of the Eastern Pettahs is about — Persons. 20,000

The Number of Persons amenable to Military law as shewn in Major General Macleod's List referred to is — 1300

Deduct those on North of Fort whom it is not in contemplation to remove from the Jurisdiction of the Military cantonment as mentioned in para 5 — 189

Actual No on Eastern Pettahs on 6/2 per cent only of the whole population — 1311.

1311

Deduct

Fort St. George 5th January 1836

Persons

Deduct probable number in List as they are only temporarily Subject to Military Law, viz. hired coolies and such like as suggested by me and are not generally Subject to Military Law (See Note in List) — 1311 — 1194

Remains probably number of Persons in the Eastern Pettahs permanently Subject to Military Law under Section XIII Regulation VII of 1832 — 117

or 1/21 one half per Cent of the whole population.

10 It may be as well to observe that I do not think an individual enumeration of the Inhabitants of the Pettah would elicit a result so much at variance with the result given in my letter of 13th July as that result was obtained by an examination of the Population returns. The difference between

my

Fort St. George 5th January 1836

my former List and that now submitted by the Military authorities arises from the entry in the present List of the names of a large number of persons, such as men and women coolies occasionally employed on Public Buildings and who may in one month amount to Several hundreds (if such a work as the new Military Barracks for instance is on hand) and in another month not amount to 50 or 100 persons whether I am right in a general enquiry as regarding the number of Inhabitants of the Eastern Pettahs subject respectively to Civil and Military Law in stating my opinion that these classes are subjects of the Civil Law as destinguished from the Military, I must leave for the decision of higher authority. But should even the whole number resident in the Eastern Pettahs as shewn in Major General Macleod's List be accepted it amounts to

6.

Fort Fulgeorge 5th January 1836.

to only about 6½ per Cent of the Population of these Pettahs.

Bellary Collector's Office
on Circuit at
Narrunnahully,
29th November 1835

/Signed/ C. Pelly
Collector

To
Major General Macleod.
Commanding C. D. District
Bellary.

Sir,

On the 23d July, I had the honor to submit in obedience to the order of Government a report on relative proportions of Inhabitants of the Bruce and Meller Pettahs at this Station Subject to Military and Civil Law respectively in which I also forwarded the List with which I was favored by the Officer Commanding the Garrison in his letter of the 26th June together with a Register of Persons prepared in my Department of persons inhabiting those Pettahs who were

Fort Fulgeorge 5th January 1836

were subject to Military Law.

2 The Right Honorable the Governor in Council has returned for revision the List furnished by me as it appeared doubtful to him whether it was prepared on a proper basis. The Governor in Council observes "that the conditions which constitute the liability" (to Military law) "are very "clearly defined in clauses first & second Section "XIII Regulation VII of 1832 and all that I had "to do was to determine whether the parties "whose Names I preferred could truly be said "there stated and I am directed to "make a more accurate investigation "in accordance with the Regulations "above quoted. The Government do "not suppose that it will be necessary "to incur the trouble and delay "of an individual enumeration of "the Inhabitants of the Pettah; "a reference to the rolls and "registers of the several Military Departments

Fort St George 5th January 1856

Department with enquiry as to the plan of residence of the various parties will probably secure the object in view more easily and expeditiously."

3 The List sent by me was compiled from an individual enumeration of the inhabitants of the Eastern Pettahs of Bellary. Major General Galdwyn in his letter of 21st July informed me that he was unable to supply what I required, and I therefore sent to Government the List referred to as being I believed sufficiently correct to answer the end in view. But as the Governor in Council has directed the List to be revised "by a reference to the Military Rolls and Registers" I have the honor to request you will do me the favor to cause all the Rolls and Registers of the Military Department to be examined and the place of residence of the respective parties to be noted therein and favor me with an abstract of each Department for submission to Government.

I have

C Burton

Fort St. George 5th January 1856

4 I have taken the liberty to enclose a Form which I think will embrace all that is required to be ascertained. It will be necessary only to give a nominal List of those who reside to the eastward of the Fort. The remainder of each Department may be shewn in the Gross.

5 The Governor in Council trusts "that I will endeavour to submit the "information now called for without "avoidable delay" and I have accordingly lost no time in addressing you on the subject, and shall feel much obliged if you will cause the Return called for to be made with all practicable expedition.

6 I beg to enclose the list which I sent to Government (to which I have referred above) in case it should be of service and request it may be returned to me again.

Esq. Secretary to Government

Sir

I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council a letter from the Collector of Bellary dated 29th November 1855 furnishing the information called for in Extract Minutes Consultation of the 9th October regarding the Eastern Pettahs of the Bellary Cantonement.

2. Mr Pelly has explained in this letter that in framing his former Statement shewing the number of persons residing in these Pettahs who are subject to Military law he was guided by the tenor of Regulation VII. 1832.

3 In the register of persons furnished to the Collector by the Brigadier as subject to Military law and comprising in all 1500 souls a considerable number of temporary labourers are entered whose services

Ordered that the following letter be sent

To The Secretary to Government

(169-170)

Bd's No. 39

To the Secretary to Government

Sir

I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council a letter from the Collector of Bellary dated 29th November 1855 furnishing the information called for in Extract Minutes Consultation of the 9th October regarding the Eastern Pettahs of the Bellary Cantonement.

2. Mr Pelly has explained in this letter that in framing his former Statement shewing the number of persons residing in these Pettahs who are subject to Military law he was guided by the tenor of Regulation VII. 1832.

3 In the register of persons furnished to the Collector by the Brigadier as subject to Military law and comprising in all 1500 souls a considerable number of temporary labourers are entered whose services

Submitting with the Board's observations thereon a letter from the Collr of Bellary furnishing the information called for by Government regarding the Eastern Pettahs of the Bellary Cantonement

services must be available to any employer these people as Mr Petty observes are only subject to Military law which actually em= =ployed by Military authorities and in receipt of pay from them. He considers that 1194 persons come under this description and makes a further deduction from General M.Leod's list of 189 persons who are not resident in the Pettahs concerned in the present re= =ference - If the question regarding persons who are only subject to Military law from time to time during irregular periods be warned and a deduction made from the list of the 189 persons above alluded to the remaining number of 1311 persons is only 6½ percent on a population nearly 20,000 residents in the Eastern Pettahs

4 It appears unnecessary with this disproportion of civil and Military residents to com= =ment on the nature & degree of subjection to Military law to which part of the number regis= =tered by the Brigadier may be held

held liable I am accordingly direct= =ed to submit these papers without further remark for the information of Government.—

Bo. No. 3712

From the Collector of Madura

Sir

I have the honor to submit the Bill for the repairs of the house of the Minor Zemindar of Shivagunga at Madura situated on the Ramnad Road and occupied by Mr Fischer The Estimate which was sanctioned on the 18th September 1854 amounted to Rupees 309 11 — and the cost of repairs to Rupees 295 11 . leaving a balance of

of 24 Rupees which I have delivered to Mr. Fischer to repair a broken Pandal The work has been exceedingly well executed under the Superintendence of Mr. Fischer himself.

2 Mr. Fischer has also without sanction except as regards 2 small Items erected building and executed repairs specified in the enclosed account No. 3 and amounting in the aggregate to Rs. a P. 703 - 12 - 9 The expense of these he proposes to divide with the Estate being repaid Rs. a P. 347 - 6 - 7 I consider his Offer very fair many of the repairs being very necessary and the well a permanent improvement, and I request sanction to disburse the Same above mentioned.—

3 During the time these repairs were under execution Mr. Fischer did not quit the premises, but lived part of the time in a tent and part in a separate room built from his own funds at the cost of Rs. 8½. Under these circumstances he has asked for remission of house rent without any

any additional Compensation for the new Building The sum due for Rent from the 1st January 1854 to 31st December 1855 is Rupees 720 - which I have no hesitation in recommending the Court to remit A considerable portion of it is not properly chargeable being for a time in which he had not the full use of the house, and the new building is not only a substantial but a very valuable addition to a small ill designed and ill built Bungalow

184
Bd No 28
From the Collr of South Arcot
herewith returned

Sir.

With reference to the Boards Endorsement dated 9th Ultimo on Petition No 2246 of 1855 presented by Rungah Reddy

Fort St George 5th January 1855

Reddy and others the Mocktahdars of the Village of Madagapatt in the Cuddalore Talook setting forth that in consequence of the temporary reduction which has been granted in the ayen villages of the Talook they are unable to collect the full heriz from the ryots of the village in question and praying that they may be allowed to resign the village, receiving back from Government the sum they paid for it. I have the honor to state that the Mocktah right of the said Village was purchased by the Petitioners in the year 1853 for Rupees 3550 when it was put up for sale, at public auction for arrears of revenue due by the former Proprietor. Doubtless the remission of assessment which has been allowed in the Cuddalore Talook by Extract from the Proceedings of the Board of Revenue dated 12th October 1854 has made it difficult for the Petitioners to realize the old rates in this village. But

To Board 11th Feby 1853

To Dr 28 Dr

Fort St George 5th January 1855

but it does not seem to me admissable to comply with their request that the Government should repurchase the village for the sum they paid for it.

They are not willing to concede to their Ryots the same temporary reduction which has been granted in the ayen villages and they cannot of course be compelled to allow it, while they are to pay the full Peishcush as originally fixed.

Under these circumstances they must either enforce the payment of the old rates or else the Government must give up a proportion of the Peishcush equivalent to the reduction which has taken place in the ayen villages upon condition that the same is extended to this one, or purchase the village in question from the Petitioners

Fort St. George 5th January 1856

Petitioners at a fair valuation.

If the Board will be pleased to furnish me with instructions I could ascertain the Exact sum for which the parties would be willing to relinquish their rights over the village.

No. 1.

Advertisement.

1. It is hereby notified that the undermentioned lands have been attached in Satisfaction of arrears of land Revenue due by the holder and that unless those arrears and further arrears up to the day of sale with interest, charge of management and other charges lawfully incurred, shall be previously paid, the said lands will be Sold by public auction at the Village of Ayalum in the Taloog of Sholigum on the 26th day of February next. The sales will commence at 10 O'Clock and the lands will be Knocked down to the highest bidder without reserve.

2. The Amount payable on the lands for the current Fusly exclusive of the arrears is Rupees 18 A. 2. P. 2 as shown in the detail in the Statement at foot.-

3. Purchasers will be required to deposit 15 per cent of the purchase money at the time of sale and where the remainder of the purchase money shall not be paid within 30 days from the day of sale, the money so deposited shall be liable to forfeiture.-

4. When such deposit shall not be made, nor the remaining purchase money paid up, the lands shall be resold at the expense and risk of the first purchaser.-

5. Purchasers having made the necessary deposit shall be placed in immediate possession. But parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Collector within thirty days from the day of sale, and the purchase shall be conditional on the final order on such appeal.-

It is hereby notified that the undermentioned lands have been attached in satisfaction of arrears of Land Revenue due by the holder and that unless those arrears and further arrears up to the day of sale, with interest, charges of management and other charges lawfully incurred shall be previously paid the said lands will be sold by public auction at the Village of Vellatoor in the Taloot of Davagudoor on the 20th day of February next. The sale will commence at 7 o'Clock in the morning and the lands will be knocked down to the highest bidder without reserve.

2 The amount payable on the lands for the current Fusly exclusive of the arrear is Rupees 226-11-3 as shown in detail in the Statement at foot.

3 . Purchasers will be required to deposit 15 per cent of the purchase money at the time of sale and whether the remainder of the Purchase money shall not be paid within 30 days from the day of sale, the money so deposited shall be liable to forfeiture.

4 When such deposit shall not be made, nor the remaining purchase money paid up, the said lands shall be resold at the risk and expense of the first Purchaser.

5 Purchasers having made the necessary deposit, shall be placed in immediate possession, but parties deeming themselves aggrieved by the sale shall be at liberty to appeal to the Collector within 30 days from the day of sale, and the purchase shall be conditional on the final order on such appeal.

B. No. 42

Proceedings thereon — The Board of Revenue authorize the sale for arrears of revenue of the lands alluded to in the foregoing letter and direct the publication in their office of the advertisements forwarded by the Collector, Thursday the 20th February next being fixed for the day of sale.-

No. 196

To G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

192
Bd. No. 72
From the Collector of North Arcot

Sir,

With reference to the Board's Circular dated 25th June last states opinion as to whether Sugar Cane could be more extensively planted if rated as a single rice Crop instead of two as is at present the case.

Adverting to a Circular from the Board of Revenue No. 1597, dated 25th June last, calling upon me to report whether the cultivation of Sugar Cane is checked by the rule under which it pays the assessment charged for two crops of rice, when grown upon irrigated Circar land and whether it would be more extensively planted, if rated as a single rice crop - I have the honor to state for the information of the Board that the result of my enquiries does not lead me to anticipate any great extension of Sugar Cane Cultivation in this District, Should the Sugar crops be rated

rated as one rice crop, instead of two as is at present the case.-

2 The Sugar is cultivated in all the Talooks of this District, with 3 exceptions and the reports I have received from the Tahsildars generally agree in stating that over taxation has not been the cause of the limited extent of this description of produce - In the 5 Southern Talooks as the Board are aware, there is no distinction between one and two crop lands, yet it is not found that exemption from the additional taxation imposed in the Northern Talooks has operated in extending Sugar cane cultivation.

3 The causes of the limited cultivation of the Sugar Cane appear to be the much greater care and labour its cultivation requires than rice culture demands, the expense and delay of its manufacture, while rice is immediately available, the limited demand for the article when prepared for sale, and lastly the great risk that always attends the crop from

from the fact that it requires irrigation in April, May and June, a period when the sources of irrigation are in this District apt to fail. abundant and constant irrigation is more material than Low rates of assessment

4 As regards the quantity of water required for a crop of Sugar Cane cultivation as compared with rice, it appears that the consumption for a crop of Sugar Cane varies according to the nature of soil, but in general it equals the quantity of water expended for raising 2 crops of rice. I am not able to furnish any exact data for this opinion, which is the result of general enquiry. The cane also requires irrigation at the hottest period of the year, when the evaporation of the water is the greatest.

5 The practice followed in Shrotriem and Enam Villages is not uniform, and the extent of Sugar cultivation is very limited. In some instances, the produce is divided in others the te: -ruen teerwah of the land is alone levied, in other cases a stipulated sum is paid which is some: -times more sometimes less than the fixed teerwah.

To Govt. 18th June 1855
From Dy. 2nd in Con 22nd August 55.

Sir

I am directed by the Board of Revenue to submit the information called for in Ex: -tract Minutes of Consultation dated 2nd August last — regarding the experimental introduction of half bred Merino Sheep into eight of the Districts of this Presidency.

The Board have already reported the unsuc: -cessfull result of the ex: -periment in Bellary; — and the Government have expressed their concur: -rence in the propriety of abandoning it. This step has been fully justified by the Collectors attempt to sell the remaining flock. The shepherds who attended refused to purchase the Sheep or even to accept them gratuitously alleging that they were expensive to keep and that owing to the unfavour: -able nature of the season pasturage was deficient.

The

The Sheep, the Collector states have passed into the posession of persons who are likely to give the experiment a fair trial, but it is much to be regretted that those most interested in its result should be so indifferent to or so hopeless of its success.

3. The Sheep realized an average price of Rupees 1-13 each or Rupees 133-12-. for the flock.

4 The entire expense of the experiment after deducting a small sum (Rupees 46-3-10) realized by the sale of wool &c. has been Rupees 512-7-1 of which Rupees 443-3-6 have been sanctioned by Government. The Board now request sanction for the balance Rupees 68-14-7 the sale proceeds will be credited to Government when realized.

From Govt. 2d in Con 22d aug. 1855

5 The Government are also partially aware of the result of the experiment in Salem and Coimbatore.

6 In the first mentioned District (Salem) Mr. Gleig had previously distributed a flock of half bred Merino Sheep among some of the Ryots who continued them to rear with success, and Major Hill had also succeeded in introducing some from Mysore. The failure of the subsequent trials was reported by Mr. Phillips in

Dated 29th Augt. in Con. 15th Sept. 1851.

in 1851 and Mr. Britts present account in continuation of that report is equally unfavorable and discouraging.

7. The flock when Mr. Phillips wrote consisted of 141 Sheep Viz. 125 remaining from the original flock and 16 the produce of the Merino rams with country Ewes.

From Salem 8th in Con. 13th Oct. 1855.

8 In July last the additions to the original flock were only 69 while the deaths were reported to be 112 or 43 in excess of the increase. In like manner an addition of 15 to the cross breed was neutralised by 18 deaths. The whole flock was thus reduced to 95 head or 46 less than at the date of Mr. Phillips report.

9 Mr. Brett concurs in his predecessors opinion that the failure of the experiment is owing to the neglect of those to whom the Sheep were entrusted.

10 The Sheep supplied in 1849 were, it will be seen, distributed among the Mootahdars and Ryots of Six Talooks the climate of which was thought favorable for the purpose in view.—

Note. Mr. Phillips stated that 4 were retained by Mr. Lockhard with his own flock.

11. In Coimbatore, the first importation of

Coimbatore

From Government 3rd in Con 26th July 1852

distributed 20 among respectable and substan-tial Ryots.

12 The result in every instance as Government are aware has been a failure.

North Arcot. 13 The number of Sheep sent to North Arcot was 50 Viz. 30 Rams and 20 Ewes.

14 Of these 34 were given to the Polgar of Bungarypollum and are said to have increased to 84 while the deaths have been 52, the number now surviving being thus 2 less than that originally re-ceived. The produce of the Merino and country sheep has been 75 of which 39 died. The present Stock there-fore is 32 half and 36 cross bred sheep. The latter

of Sheep in 1839 was distri-buted among influential Ryots and cattle breeders the second supply in 1842, 1843 was returned by Mr. Wroughton in his own charge and of the last supply in 1850 — Mr. Thomas kept 30 under his own Management and

it is stated have little or no resemblance to the Merino — breed and their wool is either red or black.

15 Two of the original flock were given to the Poligar of Goode paty. The increase has been four of the Merino and 2 of cross breed. Two have died and the remaining four have red hair, though in some respects they resemble the Merino.

16 Six Merino Sheep were also given to some villagers of Vareegay pally in Chittoor Taluk. Five of these have died but a mixed breed numbering 35 — have sprung up, which resemble the Merino in the length of tail whitish color and woolly hair.

17 Of the remaining 6 sheep two were given to Mr. Pereira, Hoozoor record keeper and four retained by Mr. Bourdillon. The — former have both died and of the latter Mr. Binning cannot give any information.

18 Mr. Binning reports that the ryots evince no interest in the experiment and — even refuse to accept the sheep under the sup-position that they will be held answerable for their safety.

The

S. Arcot. 19 The Collector of South Arcot reports that 12 Rams and as many Ewes were sent to that District in 1852 of these Mr. Wood, then Sub Collector took charge of 8 which he kept with a flock of country Sheep at Virdachellum 10 were distributed with suitable instructions among the ryots of three Talooks and the remaining 6 were given to three respectable inhabitants of Cuddalore who expressed a wish to try the experiment. —

20 The produce of Mr. Woods stock was 9 Rams and 3 Ewes. but not with standing every care the deaths among them have been numerous and the entire flock now consists of only 11 of which 7 formed part of the original importation. The Collector does not detail the result of the attempt by the ryots and others, but mentions that the only lamb at Cuddalore, though some what resembling the Merino breed has the hair of the country Sheep.

21 Mr. Hall does not see any use in prosecuting the experiment in south Arcot. The grazing lands of the District are entirely in the Western Talooks.

Talooks on the Salem frontier the ryots generally evince no interest in the undertaking and the breeding of Sheep is in the hands of the poorer class — ignorant of the value of wool and indifferent to the improvement of their Stock.

22 If the experiment is continued Mr. Hall thinks the most advisable course would be to maintain a Government flock in the Western Talooks and distribute the stock and the produce to such applicants as may really have the means of fairly testing the experiment. —

23 The only expense incurred in this District was a sum of 19 Rupees disbursed to a peon and shepherd sent to Mysore for the sheep.

Trichinopoly. 24 In Trichinopoly the result of the experiment has been equally unfortunate.

25 Ten Rams and Five Ewes were originally sent, and were given to Ryots, familiar with the treatment of Sheep with the exception of two which Mr. Bird retained and associated with six Country Ewes. —

26 Of the original stock, 6 Rams and 2 Ewes have died, and of their produce 2 young Rams and 3 young Ewes alone survive and of the cross with the country sheep there are a few lambs but not many.

Mr. Bird.

27 Mr. Birds own experiments has been very discouraging he has only one pure and 5 or 6 cross bred lambs.

28 The young lambs he states die generally within ten days of their birth. The Ryots evince no wish for this breed and Mr. Bird considers the heat of the District too great for Merino stock.

29 In the two remaining Districts, Chingleput and Nellore the result of the experiment though not successful has been rather more encouraging.

30 To the former District 30 Rams and 150 Ewes were sent, among these 3 deaths occurred on the road, but there was an addition of 13 lambs so that altogether 190 Sheep and lambs were introduced into the District in January 1853. The present stock is 183 or 7 less the additions having been 86 against 93. which have "perished from disease." —

31 The Sheep were distributed among 12 respectable ryots in the Saraingoly and Vedravalloor Talooks, who however received them on this condition, that they should restore any number of them on demand. —

The

32 The ryots consequently felt little interest in the matter and undertook the care of the Sheep "rather with the view of obliging Government than hoping to reap any personal benefit." —

33 The Collector however thinks that the introduction of the Sheep even under this disadvantage has not been without benefit and he proposes to send some of them to Chingleput to be placed under the care of his Head Assistant under those personal superintendence the experiment will at least have a fairer trial than it has yet received. —

(From Chingleput Wt. Dept. in box 7 Dec. 55)

D/7 Dec. 55.

34 Mr. Shubrick has forwarded 12 3/8 vis of wool from these Sheep and the Board have requested the Collector of Sea Customs to have it valued by competent persons. The Board intend to return the wool to the parties from whom it was received in order that if so disposed they may exhibit it at the agricultural Meeting. The valuation placed on it will also be made known to them.

35 The charges incurred in this district were Rupees 143.13.0 expended in bringing the.

the sheep from Mysore.—

36 The number of sheep received in Nellore was only 17. which were given to three ryots. The additions to stock have been only 10 while the deaths have been 15 leaving therefore only 11 or 6 less than the original number.—

37 The parties to whom they were entrusted made no attempt to cross them with the indigenous breed and to this circumstance as well as the adverse nature of the last two seasons, the want of success is attributed. The climate and soil is however considered favorable by these parties and they are desirous of receiving a further supply of the Sheep

38 Mr. Elton also recommends that the experiment be continued in the manner proposed by his acting Sub Collector Mr. Minchin, whose report he encloses.—.

D/4 Sept 55 Enclosure in Ltr: 24 Oct 55.

39 Mr. Minchin states that there are very large flocks of Sheep in the Northern and Western portions of the subdivision but the breed is very inferior The Shepherds care neither for the wool nor flesh but derive their subsistence from the milk of the Ewes which they make into ghee. Mr. Minchin proposes to attempt the improvement of the Sheep solely for the Butcher disregarding the wool He suggests that a few suitable rams from Australia or Bengal, be distributed on certain conditions, and Volunteers to superintend the experiment.

The Merino breed is ill adapted to the purpose suggested by Mr. Minchin and it is scarcely necessary to remark that the practice of milking the Ewes would be fatal to any material improvement in the Sheep either as regards wool or Butchers meat.—

40 The expenses incurred in Nellore have been only Rupees 42-0-1.

41 It is with much concern that the Board lay before Government this unsuccessful result of an experiment the importance of which they cordially recognize. It is indisputable that in the five Districts Bellary, Trichinopoly, South Arcot, North Arcot, and Coimbatore the experiment has failed In Chingleput and Nellore the result, though unfavorable is not so discouraging.

The

42. The Board however while fully admitting this unfortunate result, cannot consider the ex=periment conclusive. —

43 In several of the districts the number of Sheep introduced has been limited, these were only half bred and fresh stock has not been regularly supplied to prevent deteriora=tion of their produce. The Merino breed though adapted to bear great changes of climate are known to require considerable care and attention and although they would doubtless become more hardy by judicious crofsing with the indigenous breed this result would not be immediately attained and their comparative delicacy would be very apt to beget a preju=dice against them at first as has been the case in Bellary. The ryots more over seldom have sufficient capital or enterprise to prosecute an undertaking of this kind, involving some expense and trouble and holding out no

Note Mr. Smith states as one of the results of the Mysore experi=ment that Runs 4/5 bred are not safe to crofs back again with the country ewe or her offspring for the tendency to deterioration or return to the Country stock has yet to be overcome."

Those supplied from Mysore in 1852 were only half bred

no immediate prospect of a return. Lastly the experiment has not been tried for a sufficiently long period and there are still several districts in which apparently it has not been tried at all.

From these reasons the Boarden

44 consider that the experiment has been but partial and that its failure more or less complete as it a has been in the districts mentioned in this report does not necessarily lead to the conclusion that the same result would follow in the other dis= tricts or under different arrangements. This point can only be determined by careful trials which the importance of the matter would cer= tainly justify.

But before recommending to

45 the Government any further trials, the Board would desire to possess accurate information as to the result of the experiment in Mysore up to the present time. The latest information before them is only down to 1846. The experi= ence of 9 years from that date may now be ca brought to bear upon the subject and upon the result

result of the measures adopted in Mysore must, in their opinion depend the question whether any further experiment can now be undertaken in the Madras territories with any reasonable hope of success.

46 Enough experience has been gained to satisfy the Board that any desultory endeavours to introduce the Merino breed by distributing stock to the ryots will not be successful at any rate to such an extent as to render the pursuit of this measure worthy of the attention of the Government.

47 Whether a more systematic experiment on a larger scale, conducted at the expense of Government, would be more successful the result of that already made in Mysore will best determine.

48 The Board therefore resolve to lay the accompanying papers before the Government and to request that they will be pleased to obtain information regarding the result up to the present time of the experiment there made of

in that country it has been successful, the Board conceive that it should be extended on the principle there adopted by establishing branch Government farms in the most favourable localities But as until this information is received the Board do desire to postpone proposing any further measures.

At the same time they would re-

49 propose to make it known through the exhibition Committees, that if any private parties are willing and able to carry the experiment further, and on a scale likely to prove a fair trial the Government will be prepared on the recommendation of the committee to that effect to furnish stock as far as practicable for the purpose; If this is done at the solicitation of the parties themselves there will be reason to hope that care will really be taken to procure and augment the breed.

The Board also request that

50 they may be furnished with samples of the Mysore Merino wool for exhibition at the meetings on behalf of Government.

These allowances have been paid for 100 years or since the time of the Reddy Rajah and other Proprietors for the performance of annual festivals such as Calayanas Wottchavan Dwarah, Pongal feast &c and for Constantly Keeping a Lamp –

This allowance has been paid for 80 years for Keeping a lamp in the months of Cartegah every year –

These allowances have been paid for 120 years or since the time of the Zemindar Reddy Rajah and other Proprietors for the performance of annual Ceremonies Vide Remarks in No. 2 of 1842 –

Do for 70 years for Keeping a lamp in the months of Cartegai every years –

Do for 110 years or since the time of the Zemindar Reddy Rajah and other Proprietors for the performance of annual Ceremonies Vide Remarks in No. 1 and 2 –

These allowances have been continued since the time of the former Zemindar Rajah Cal=dindy Seroopatarazo for Calayanas Wottchavan &c annual Ceremonies and for Constantly Keeping a Lamp. It is unknown from what year they have been paid upto July 1262 they were paid by the Ryots in the Villages but they have since been remitted to the Tannah and paid into the hands of the Worshippers for disburse=ment with the knowledge of the Villagers –

Government, are first whether when Ryots take up land at the Dittum and leave it waste apparently for grazing, it is expedient to levy only 1/4th or the full assessment and secondly on what terms persons engaged in the carrying trade should be allowed to hold lands for grazing-

4- A Statement of the Ayacut and Cultivation in the Talooks in which the Grass tax is levied will be most useful in the consideration of the above questions- such a one is accordingly enclosed- I beg also to accompany it by a copy of the Rules already on the Records of the Board, but which may not be at hand-

5. It will be seen that the area of Tadi-comboo Iyempully and Ramagherry comprizes no less than 562916 Cawnies of which in Fusly 1263 only 129123-7/2 Cawnies Az were cultivated- Of the remainder 289970-4 3/4 are considered fit for pasture of which 24995 Cawnies only paid a grass tax- It seems evident therefore, that, on the whole the allotment of lands on a lower tax for grazing cannot stand in the way of Cultivation- What is required for the extension of the latter is a larger population-

Till

Till this grows up, there seems to be no alternative but for Government to forego revenue from the waste lands altogether or to obtain something in the shape of a grass tax-

6- Notwithstanding however the great extent of waste land, it does happen that in some localities Ryots desirous of obtaining particular spots for Cultivation are kept out of them by others accustomed to use the same for grazing- This may be the case in respect to land near the Village or near other Cultivation- It is under such circumstances that Ryots have an inducement to engage for a larger extent for Cultivation than they intend to till- To prevent such a practice the more correct proceeding would as observed by Government to be require them to pay the full tax- At first however the orders issued from the Hoozoor Cutcherry were insufficient to induce the Ryots to confine their engagements within the limit of their ability to cultivate- The absence of a Dittum, and the indiscriminate remission for waste had been so long the practice of the District, that the fact of responsibility for the tax of all lands engaged for was not easily realized- The native public servants did not,

not, it seemed to me, thoroughly comprehend it c∞ themselves, or endeavour to impress it on the Villagers. As a temporary measure therefore and for fear of trenching upon Capital, such lands as could not with propriety be struck out as Cabooleyat Bunjer were for one or two Fuslies assessed with with the gross tax. The measure has not been c∞ repeated since Fusly 1261. Pains were taken to c∞ make the Ryots more fully acquainted with their liabilities, and the proportion of waste in c∞ Fuslies 1262 and 63 was not thought greater than might be referred to ordinary causes. On the c∞ understanding that balances on account of uncultiv= vated land which it may be difficult to collect will be remitted, I think that to enter for the full tax Cabooleyat Bunjer which may appear to have been taken at the Dittum ostensibly for Cultivation but with the real intention of using it as pasture c∞ very much preferable to transferring it to the Head of Grass lands on the reduced tax, and this will continue to be the course pursued unless otherwise ordered.

7. On the second point, Viz^t. the occupa= tion of lands for grazing by traders to the c∞

esclusion.

esclusion of persons requiring them for Cultivation, I must express myself with considerable diffi= =dence owing to the want of the minute informa= =tion which it was the duty of the Sub Collectors to have supplied. From conversation with the Sub Division Sheristadar however, I am led to suppose that Mr. Clarke's observation that the influence of these traders renders it impossible for poorer Ryots offering to cultivate any part of the lands they have enclosed to obtain any footing in the Village, must not be taken in the literal sense in which c∞ Government have understood it, though essentially c∞ correct. I could not learn from him that any of= =fers made had actually been refused. The Rules provide otherwise, and the influence of the traders is exerted more in intimidating the Poorer Ryots from making offers in the proper mode, than in c∞ preventing their acceptance. Since Mr. Clarke's c∞ remarks were written many enclosures have, c∞ I understand been abandoned and the obstacle to cultivation so far removed.

8. I am not inclined to recommend the adoption of the measure proposed by the Board of allowing traders to hold their present enclosures on Patent at a lower rate of assessment, c∞

because

because many of them lie near Villages in conv=enient situations for culture - The traders have ample means of procuring other waste for Grass by taking separate tracts on Durkast or bids - And this is quite as much as the necessities of the Cattle trade seem to me to demand - For whatever co land they require near the Village they can well afford to pay the teerwa levied from Ryots in general -

9. In his report on Fusly 1264, not yet submitted, the Acting Sub Collector Mr. Child co objects to the grass tax without assigning any co reasons, and Mr. Walhouse found fault with it in Fusly 1262 because the Public servants, he co supposed sometimes entered waste lands against the names of Ryots without their knowledge, and because a Grass tax however modified is a co grievance unless the rule that waste should be first set a part for ploughing Cattle and Milch Cows is fully and fairly carried out, which had not been found been done - These observations co amount to a confession that the Sub Collectors had not taken care to see that the Talook and Village Officers observed the rules sanctioned by Government, and cannot I think be accepted co as

as good arguments against a Grass tax in co general - When owing to inferiority of soil or want of population, a small portion only of a country can be cultivated, there can be no reason why the co remainder should not be turned to account for grazing nor why Government should obtain no revenue co whatever for it because it cannot pay at the co. full rate -

10. The real objections to a Grass tax, co in my opinion are the great difficulties in carrying it out, and the insignificant amount of Revenue obtained in proportion to the trouble it entails co Owing to the great extent of waste, watching on the part of Government Officers to prevent unautho=rized pasturing is nearly impossible, and such as I observed in Para 17 of my Summabundy co Report for Fusly 1261 is the "combination among "the Ryots that persons who have been accustomed "to graze lands near their cultivation will continue "to enjoy them unopposed tho they may refuse to "offer for them" - The consequence is that when co in Fusly 1258 the tax produced more than 11,000 Rupees in Ramagherry alone, it now yields only half though extended to Tandicomboo and Tyempully - In Ramgherry the quantity taken up

up on 1/4 Teerwah is next to nothing. All the Revenue there collected for Grass is from Tracts rented on offers which are very inadequate compared with the value of the pasture. It has been remarked both by the Sub Collector and myself that the Renters realize large profits by feeding the cattle of others.-

11. This Ramgherry System, however, which has established itself from the advantage taken by the Ryots of circumstances to obtain their grass as cheaply as possible, appears to me on the whole to be preferable to a plan imported into this District from Coimbatore of allowing them to hold 1/5th of their farm in Grass or 1/4 Teerwah - Inadequate as is the population for the Cultivation of the whole land fit for the purpose in these large tracts of Country, yet it seems to me very desirable that our fiscal arrangements should as far as possible, secure that the portion used as arable should be that which will yield the most profit, either from relative position or superiority of soil, and this object may be defeated by allowing the privilege of holding lands

lands for Grass or a lower assessment - If they will yield a greater profit undergrass than under Cultivation the Government seems entitled to the full tax, and this I recommend being enacted, whether they are held by traders or by ordinary Ryots - To enforce the rule it is necessary that the Dittum Bunger be scrutinized very closely, and no portion remitted, that seems to exceed a fair allowance for adversity of season and other contingencies -

12- I would also suggest the continuance of the rule allotting lands free of tax for the ploughing Cattle and Milch Cows, and that the remainder be let out annually to the highest bidders in convenient lots -

13- Under these provisions a considerable proportion of the Villages will be exempted from the Grass tax, as is practically the case now in Ramgherry and there will be obstacles I know, in realizing it in others owing to the difficulty already mentioned of preserving from trespass the tracts set a part for rent, but nevertheless I think it worth while

while to maintain the tax as a protection, if not a great contributor, to the Government as Revenue - It will compel the Talook Officers to keep an eye on the proceedings of Graziers, and they will be prepared therefore to put in as force the rules laid down to prevent grazing as taking altogether the place of agriculture - as That precautions against this are by no means unnecessary the Government will have concluded from the observations of Mr. Clarke which as gave occasion to one of the questions now as answered, and when I mention that only two days ago, a Gentleman stated in my presence, that a single Ceylon Coffee Planter had as commissioned him to obtain 100 pairs of as Bullocks, and that every year large purchases are made for the Market of that Island, as they will be convinced that a time may as arrive when the profits of grazing may as offer very strong incentives to the appropriation of land for that purpose to the exclusion of agriculture

agriculture, and when therefore, it may be proper to treat both alike in point of taxation - I as hope that in the course of time the rents of the reserved tracts may rise considerably by competition, and that lands to a moderate extent near as Villages, if appropriated for Cattle may pay the full teerwah without involving any hardship to the Ryots - The plan I have proposed will adjust itself to this state of things without requiring any modification -

14. Since the above was written I have received some Proceedings of the Board and as Government regarding Poolary, which I have not had time to read through - but which as far as I could discover by a cursory glance does not as contain any thing very adverse to the views exp= =pressed above - As therefore this report has as been long due I will not detain it, but furnish any further information that may be required as soon as it is in my power -

Madura
25th October 1855.

Madura 25th October 1855. E. E. Jr. /Signed/ R. O. Parker
Collector
Rules

No. 2.

Rules for levy of Grass Tasc in the Talooks of Ramagherry Taudicomboo and Iyempully.—

Each Ryot shall be allowed to hold Poonjah land for grazing to the extent of 1/6th his entire Holding on a tasc of 1/4th Poonjah Rate provided there is waste in his Village available for the purpose.

1st. Of Rocky Hills Beds of Rivers Burial grounds the Gramanattum or Village site and Topes sufficient will be reserved for the free grazing of Ploughing Cattle, Hackery Bullocks and Milch Cows kept by the Inhabitants for their own use. If such lands do not suffice the Tahsildar will propose setting a part for this purpose a further portion of the waste adjoining the Village.

2d. The grazing of the waste land so which remains after deducting the Portions so appropriated under clause 1st and 2d will be let out on Proposals or sold by auction a preference will be given to the Inhabitants of the

the particular Village if they make a suitable co proposal-

4th Ryots both of the Madura and co other Districts grazing their cattle on Government waste in the Rangherry Talook without authority will subject themselves to a taxe of 4 annas for each Head of Cattle so grazing-

5th Any Ryot enclosing or otherwise appropriating to himself land for Pasture in co excess of 1/5th of his Holding which he has not obtained on proposal or at Auction will be co liable to the full Teerwa. The Collector has co discretion to relase this Rule under particular circumstances-

6th If any Grass land held by a Ryot co is required for Cultivation the Government Officers are at liberty to grant it for that purpose unless the occupant is willing to pay full Teerwah co and it is to be understood that land is given on Grass tax for one year only.-

Madura, mm
25th March 1855-

(Signed) R: D: Parker.
Collector.

(211. 212)
Order thereon-

Ordered to lie over-

No. 168.

To,
G: S: Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

213
B: No. 3422.
From the Collector of Trichinopoly- } Para 1.

Sir,

As directed by your Boards co order dated the 25th Ultimo, on Petition No. 2936 of 1855. I do myself the honor to submit a co fuller report on the subject matter of complaint-

2. In this present Petition and in a previous one† the Petitioner affirms he has been deprived of half his Maniem lands unjustly by my orders. Such is not the case. The portion he claims never was in his possession, and the half of such portion has been resumed on the demise of the late occupant under the precedent laid down in Extract from the Proceedings of the Board of Revenue dated 28th January 1850.

† No. 1039 of 1854

3. The circumstances of the case are these.-

During the Carnatic dynasty an co Enam consisting of 30 Chays of Punjah land in the village of Valacoorchy, in Laulgoody talook and

Fort St. George 7th January 1855.

and 10 Chays in the Village of Virpachee poorum in Conaud Taloob was granted to the Petitioner's family-

To Petitioner's father, on the division of the Enam came 10 Chays, and on his demise these 10 Chays were thus divided between his two sons. Viz^t. to Petitioner 3 3/4 Chays in Valacoorchy and 1/4 Chay in Virpatchee poorum - To his brother's son Ristnachary the same quantity of land in each Village, making the 10 Chays-

4. Now Ristnachary died without issue on the 28th January 1855, and the Widow was allowed for her life to enjoy one half of her late husband's share of the original Enam, while the other half was resumed - The orders and precedent of the 28th of January 1850 quoted above being brought to bear upon this lapse, the Enam being the same-

5- The decision was not passed under Regulation V of 1822 - The original papers are herewith returned-

Bd. No. 3500
From the Collector of North Arcot

Sir,

Adverting to your letter of the 22d September last calling for certain information regarding the Village of Condapollieum in the Cavetenugger Zemindary, I have the honor to report for the information of the Board of Revenue, that the half share of the Village was comprised in the Zemindary, when the Summud for the latter was issued by Government and that the Village has always been under the Collector's management, as far as the Settlements was concerned.-

2. When the total beriz of the Village had been fixed the Government Servants collected half of the dues, and left the Zemindar to collect the other half - This was the practice until Fusly 1262. -

As

1830

Fort St. George 9th January 1830

2. Do regarding Para 2 of the letter under reply Shave the honor to inform that the Meerasidars and their Cultivators on a/c rear to the grain allotted to each, otherwise the subject of the transfer of the Villages to the Zemindars management. The Meerasidars have, 4th in number, forfeited no right whatever to the land, but have always cultivated them, and have effected improvements on them. On the event of a transfer taking place they apprehend that the Meerasidars who now enjoy as Canam the high Shares which belongs to the Zemindar would subject them to vexation and Loss, such as are levied in other parts of the Zemindary. The Meerasidars in number are perfectly willing that the transfer should be made. Do Menn. Shewing the extent Ayacut Paniyah and the Amounts of Assets Land of the Village enquired into herewith do remarked.

(215. 216)

B. No. 62.

To the Secretary to Government

Submitting correspondence regarding the Village of Condapollium attached to the Cavetnuggur Zemindary in North Arcot and with reference to G. M. C. 24th April 56 recommending that it would be preferable to revert to the practice which obtained up to F. 1263. whereby the Collector settled the Village annually and Govt. & the Zemindar shared the proceeds. –

Sir,

With reference to the Board's Proceedings dated 8th April 1854 para 7 and Extract Minutes Consultation 24 idem para 7. No. 6. I am directed to submit for the consideration of the Right Honorable the Governor in Council the accompanying correspondence regarding the Village of Condapollium attached to the Cavetnuggur Zemindary in the District of North Arcot. –

From N. Arcot 8th Sept 1855. In Cons 22d Sept 1855.
From ..... 22d Dec
From ..... 28th Nov
In Cons 7th Jan 1856.

2. The village in question up to Fusly 1263 was held in equal shares by Government and the Zemindar, the Settlement being conducted by the Collector who left the Zemindar to realize his moiety of the Settled beriz. –

3. The case was treated as a deduction from the Peishcush and it was decided in the Extract Minuted Consultation above quoted on the Boards suggestion, that a yearly reduction of Rupees 175 should be made in the Zemindars Peishcush in lieu of his share of the Village. –

4. But on Mr. Binning proceeding to carry out these orders, the Zemindar demurred to

Fort St. George 7th January 1856.

to the arrangement, and proposed that the Village should be entirely made over to him an addition of Rupees 175 being made to his Peishcush. –

5. Mr. Whittingham in his letter which accompanies, states that the half share of the Village has comprised in the Zemindary when the Summud was issued, and it would therefore seem questionable whether Government can resume it against the wishes of the Zemindar. The objection is further strengthened by the fact that the new arrangement is not founded on any breach by the Zemindar of his engagements with the Government or his misconduct towards the occupants of the lands, but is proposed merely to attain greater facility of checking the payment. –

6. Mr. Whittingham states that the Merasidars (18 in number) who enjoy the Zemindars moiety as Enam are perfectly willing "that the entire village should be transferred to the Zemindar but their Subtenants (43 in number) are opposed to such a measure as they apprehend that the Merasidars would in that event "subject them to vexatious taxes such as are levied in other parts of the Zemendary." –

7. Mr. Whittingham asserts that these parties have no right whatever to the lands but they have always cultivated them and

have

have effected improvements on them.

8. Whatever the rights of these parties the Meerasidars may be and the Courts alone can lawfully determine these. the Board think these tenants' long occupancy and improvement of their holdings clearly entitles them to a voice in the present question which is not to adjudicate on their rights but to decide whether an arrangement of long standing acquiesced in hitherto by all concerned and affording them a degree of protection which their present objections show that they appreciate and value, shall be departed from or not.—

9. Under all the circumstances the Board consider that the preferable course will be to revert to the practice which obtained up to Fasly 1863 whereby the Collector settled the village annually and Government and the Zemindar shared the proceeds.

Sir,

I have had the honor to receive a

217
B. No. 3645.
From the Collector
of Tanjore
Reporting upon a
petition No. 310 of 1855.

herewith enclosed. a petition No. 310 of 1855 on which I am directed to report.—

2. The Subject of the petition is a water dispute petitioner is a meerasidar of Cotallum Talook, and his opponent of Combaconum talook in 1848 the question now under discussion arose, when it was decided in petitioners favor by the then Sub Collector, Mr. Clarke, on a report made by the Cotallum Tahsildar, who took no evidence on the opposite side and without any reference whatever being made to the Tahsildar of Combaconum. There being no want of water in the interim and it is only in times of scarcity that dispute is likely to arise matters went on quietly until last year, when petitioners opponent having need to claim what he imagined to be his right of irrigation, applied to the Deputy Tahsildar of Combaconam on the subject and that Officer, and the Tahsildar, believing the claim to be just, supported it before the Sub Collector. For doing this they were as the Board will see on Mr. Cadell's decision severely censured and Mr. Clarke's decision based on evidence

was.

642

Fort St. George 7th January 1856.

was confirmed.

3. An appeal was then made to me and as my decision forms part of the record submitted by Petitioner it is not necessary for me now to trouble the Board with a recapitulation of the view under which I decided against petitioner and reversed the Sub Collector's decision.—

4. It is not my opinion that the Tahsildar or his deputy erred in bringing the case again to the Sub Collectors notice. it had been decided without either of them having a voice in the matter all the question arose within their jurisdiction and it appeared to me that under any circumstances, if it were not done from factious motives, it was quite within the Tahsildar's province to request a reconsideration of a case which he had reason to believe had been originally erroneously decided.

5. The petition is now returned.

From the Deputy Chief Engineer Centre Division

Irrigation

Sir

I am directed by the Chief Engineer Department Public Works to request that you will lay before the Members of the Board of Revenue for their consideration the accompanying correspondence between the Collector of North Arcot and the Civil Engineer of that District.-

2. The matter referred for their consideration is whether the Civil Engineer shall repair works of irrigation &c. not of an emergent nature on the district application of the local Officers or whether their application shall go through the Collector's Office.-

3. The Chief Engineer is of opinion as are the Deputy Chief Engineers that the interests of Government would be better served by the latter course considering not only that it is advisable that the Collector should be directly cognizant of all works going on but that this signature should be a guarantee that unnecessary repairs calling the Engineer department perhaps miles out of the way to no purpose were not forwarded for execution.-

Proceedings

Burton

Fort St. George 7th January 1856

Bd. No. 58 221. 222

Proceedings thereon

Expressing the Boards views on the question revised by the Chief Engineer relative to the repair of Works of Irrigation on direct application from the local officers and stating that if they are concurred in by that Officer the Board will issue instructions in accordance with them to the Collector of North Arcot.

para 1 The Board of Revenue experience some difficulty in replying to the question of the Chief Engineer in consequence of their possessing very imperfect information as to the organization of the present Department of Public Works and the relative position to be held by the Revenue and Engineering Departments being still undefined. They observe also that Lieutenant Maynes letter does not accompany the correspondence now received.

2 Pending however the preparation of fixed rules for the guidance of the two Departments the Board will state their views in reply to the Chief Engineers call on the particular point which has now been raised.

3 In the opinion of the Board the Collector has still the protective superintendence of all Works of irrigation in his district and it is his duty to keep himself informed through the Tahsildars and other revenue servants, including the heads of Villages of the state of these Works which so immediately affect the welfare of the people of his province and the Revenues of the Government.

4 The Department of Public Works has now been greatly strengthened and to the officers of that department all works of construction and repair have been entrusted; but beyond the actual execution and repair of the works the Collector is

is not relieved from any duty, and the Civil Engineer is viewed by the Government as his Colleague and executive of his views.—

5 It seems therefore advisable to the Board that business should proceed on the following principles.—

I It is expected that the Civil Engineer will satisfy himself of the state of the works by occasional personal inspection and through his own subordinates without waiting for applications from the Revenue Officers. When he discovers in this manner that repairs are necessary, he will prepare estimates for them, and the Board conclude that these estimates, with explanatory details will be forwarded to the Collector for his concurrence and Countersignature.—

II When the Civil Engineer is thus on Circuit it should be allowable for the Tahsildars whom he meets to bring to his notice the state of any works requiring repair as also any projects for useful improvements. The Tahsildar should report briefly to the Collector the subjects of these direct communications and the Civil Engineer should give them due attention.—

III When the Civil Engineer is at a distance, a Tahsildar should not address him direct except when emergent repairs are necessary. In other cases the Board consider that he should, as the Chief Engineer proposes report to the Collector who

who will forward on the reports for the Civil Engineers perusal and consideration, with any remarks which he may have himself to offer.—

6 The Board hope that under this arrangement there will be a check on Tahsildars making unnecessary recommendations as these officers may be expected to be more careful in their proceedings when acting under the immediate cognizance of the head of their own Department. But the Board cannot concur in the expression which occurs in the Deputy Chief Engineer's letter that the signature of the Collector when forwarding on these reports is to be regarded as a guarantee that useless recommendations are not made. The Collector has now no paramut servants whom he can employ in inspecting works, and he can merely lay before the Civil Engineer the information which he himself receives. If his servants unnecessarily urge repairs either from Carelessness or some improper motive, the only course which he can adopt is to inflict punishment when the Civil Engineer brings the misconduct to his notice. But the Board hope that under the arrangements proposed by which the Tahsildars will act under the orders of their superiors, their requisitions will be made with due care.—

7 Should the Chief Engineer concur in these views the Board will issue instructions in accordance with them to the Collector of North Arcot.—

No. 383

To

G. S. Forbes Esqre.

Acting Secretary to the

Board of Revenue

Fort St. George

Sir

I have the honor to acknowledge your letter of the 3d. Instant conveying the instructions of the Board regarding the Exhibition to be opened at Tinnevelly on Wednesday the 2d. April next —

2 Pursuant to the instructions of the Board, I placed myself in communication with the Civil and Sessions Judge, the Sub Collector, Civil Engineer, and Zillah Surgeon, and a meeting attended by the above named Gentlemen, was held at my Cutcherry on the 17th Instant —

3 At this meeting, I was requested to take on myself, of Office of President, and Mr. Clementson, the Zillah Surgeon, was named Secretary of the Committee we then proceeded to choose the European and Native Gentlemen who should be invited to join the Committee and letters were addressed to the following Gentlemen, all of whom have agreed

agreed to take a share in the Proceedings —

European Gentlemen

The Revd. Mr. Sargent

The Revd. Mr. Thomas — Absent from the District but shortly expected

Captain Robertson

The Revd. Mr. Huxtable

H. R. C. Coeg Esqre.

Native Gentlemen

Venatachelliah, Principal Sudr Ameen

V. Venkata Row, Head Sheristadar of the Collector's Cutcherry

Veerabadra Pillay, Nath Sheristadar of Do.

Venkata Row, Sheristadar of the Civil and Sessions Court —

Meeranjee Meah

Woaredud Zemindar Coottaelinga — } No reply has been received

Sathoorayer — — — — — }

Theethurappa Moodeliar of Streemully poottoor

Coonjoo Meracoir —

We then discussed the site of the temporary building to be erected for the exhibition, and drew out a sketch of the different products for which prizes should be offered, reserving the same for fuller consideration and discussion, when the other members of the Committee should have joined us —

At

4 At an adjourned meeting held at my Cutcherry, on the 21st Instant a list of products and scale of prizes, were drawn out and at a third meeting of the Committee on the 24th Idem, the accompanying list was finally determined on—

5 The Board will observe that the amount of prizes we have as yet determined on offering amounts to Rupees 1717 and after deducting cost of the building and incidental expenses, there will still Itrust remain with the Committee, tolerable sum to be distributed as prizes for products other than strictly Agricultural, which the committee may consider worthy of honorable notice. The Exhibition building will be erected on the open ground between my Cutcherry and the Court, having the advantage of a range of godowns belonging to my Cutcherry which will serve as store rooms.—

6 The highest prizes will be offered for the most important product of the District, Cotton, Coffee, Senna, and Tobacco. I have taken the necessary steps to make the intention of Government and the object of the Exhibition, widely known throughout the District, and in this I am ably supported by the Reverend Mr. Sargent, from whose extensive and local

local knowledge, and the warm interest he takes in the welfare of this Province, I trust to derive much aid; and it is gratifying to me to be able to assure the Board, that the Native Gentlemen associated with the Committee, all appear to take a lively interest in the success of the Exhibition, and I trust to their using all the local influence they possess, in promoting the object Government has in view—

7 As it is of great importance that the different products for which prizes will be offered, should be made publicly known as early as possible, I have given directions to have the lists, Copy of which accompanies this letter, translated into Tamil, and when a sufficient number of Copies have been struck off at the Mission Printing Press, they will be circulated throughout the District—

Remarks

Enc: 1

Remarks on the fluctuations in the Revenue for the months of October 1855—

Land Revenue Current

The cause of the decrease in Nellore is not stated by the Collector—

Land Revenue arrears—

The increase in the Collections of arrears of Land Revenue in the several Districts is chiefly owing to the balance at the beginning of the Fusly being greater than in the preceding year and to the alteration in the termination of the Fusly from 11th July to 30th June

Season Report—

There were heavy falls of Rain during this month in most of the Districts and partial Showers in the others. Cultivation both wet and dry on the whole was promising and the early Crops were reaped. Prices rose in Rajahmundry and fell in Guntoor and Kurnool—Some of the Tanks received a full supply and in others 1 to 4 Months water—There were freshes in the Godavery in Rajahmundry in

in the Pennar in Nellore in the
Canary and Calerroon in Trichinopoly
and in the Vighay in Madura -

Official Memorandum

Official Memorandum
to Government -

On examining the Jew wooden
Printing Presses and Printing Materials which
were received at this office and intended
for despatch to the various Collectorates
I have discovered the following defects.

" Some of the Bars of the Presses
are not properly adjusted to the spindles
and all of them require smoothening -

Nine Platens are cracked and
one is pieced -

The surface of the stones occupying
the Coffins of the Presses are not sufficiently smooth -

The Frisketts are too thin and are
Consequently too weak none of them are of
the proper length -

These Presses are on the whole very
Coarsely finished -

Printing Materials

40 Benches -
40 Damping Boards
10 Imposing Stones with
Stands and Troughs
} Good -

Stands

40 Stands for English Cases
5 Pairs of Telugu Cases each in 4 parts
10 Stands for Ditto
5 Pairs of Tamil Cases
5 Stands for Ditto
} Good

100 Wooden Gallies indifferent
60 Do Composing Sticks Comparing one
with the other none are true -

20 Mallets
20 Planers
} wood not strong enough

2500 Quoins - Good

10000 Reglets. These are of unequal
Lengths and the small ones must be rejected

60 Dozens Head Foot and side sticks good -

Very little Care and attention seem to have
been bestowed in making up of the above Presses "

The American Washington Foolscap
Printing Press which I have fitted up
is Complete in its several parts and
will answer the purpose very well -

B. D. No. 50

To the Deputy Surveyor General and Superintendent of Revenue Surveys } Sir,

I am directed by the Board of Revenue to request you to be good enough to inform them whether a 7 inch Theodolite can be spared from the Survey instruments in Store for the use of your department A Theodolite of this class is required by the officer in charge of the Revenue Survey now in progress in the province of South Arcot the instrument is not procurable in Madras and if it can be supplied from your department without occasioning inconvenience or purchased at Calcutta the loss of time attending an order to an English manufacturer would be avoided -

2 Should it be in your power to send the Theodolite I shall be obliged if you will do me the favor to mention its cost and in what way the sum can most conveniently be paid either by debitting the South Arcot Survey

Survey in the accounts or by a Bill for the amount -

Therein with } 1855 requiring a report upon the arrears of
reference to the } Land Revenue remaining unadjusted in their
subsidiary to } Balances in the Cuddalore Division -
Balances in the }
Cuddalore }
Division -

The arrears of Land Revenue at
2.
the close of Fusly 1263 amounted to Rupees
3,702 - 3 - 8 as shewn in the General Collection
and Balance Statement forwarded to the
Board for the 11th of July 1864 Since then
Rupees 329 - 3 - 1 were received and Rupees
5,400 - 6 - 2 were remitted under the sanction
of Government dated 9th November 1854,
leaving a balance 1972 - 10 - 5. Of these,
Rupees 542 - 4 - 11 require further investi-
gation and will be disposed of during
the next Fusly Settlement and the
remainder

remainder which appears hopeless amounts to Rupees 1430-2-6 Viz. Rupees 412-1-3 due by Ryots, and 1018-1-3 by House holders on the Neilgherries as explained in the accompanying Statement **A** the former sum hardly requires explanation being due by Ryots, who died, or have deserted their villages or are reduced in circumstances and incapable of paying and with reference to the latter, I beg leave to enclose List **B**, and to furnish the following particulars.

No. 1 Southdowns. 3. This porperty was formerly owned by Mr. W. Harrington on his demise it was disposed of by auction, by Mr. Serle, the Administrator of the Estate in which, it was purchased by the Lord Bishop of Madras the amount due from the date of purchase that is 2d. December 1831, has been paid by his Lordship and the previous demand from 1st. January to 1st. December 1857, remains

remains unadjusted. The accounts connected with Mr. Harrington's Estate having been closed Mr. Serle has no means of meeting it. On the other hand, it does not appear fair to call upon the Lord Bishop to pay Quit rent due for a period anterior to the date of his purchase of the Premises.

No. 283 Captain Gledstanes. 4. Rupees 20-12-11 are due upon these Properties for 1847. Captain Gledstanes was written to in 1848, but no reply was received from him. On his death the said Properties were purchased by Mr. Harrington by whom the subsequent payments were made. I have no means of recovering the amount due for 1847, neither do I think that there is any use in retaining the demand in the accounts.

No. 4 Prison House. 5. This was formerly the property of Captain Coventry of the Madras Army. On his demise, Lieutenant W. W. Hitchens of the Engineers

Engineers bought it, and on being applied to, for the payment of the rent due for 1848, declined paying on the score of his having purchased the Premises in the 30th June 1848. the demand was modified accordingly and Lieutenant Hitchens portion paid by him Viz.t Rupees 4-14-10. For the balance still due 3-2-3. a bill was furnished to Mr. Serle the Administrator of the Estate in December 1849 that Gentleman then stated that he had registered the claim of this Officer against any assets that may be eventually recovered, but in a subsequent communication he intimated that he made no further recovery neither is there any probability of his making any. It is now more than 6 years since the amount became due, and the Property has passed into two different hands.

No. 5 Saint Stephens Hill

6. A sum of 15-6-6 is shewn in the accounts as due upon this Property - In consequence of some mistake in the names of Houses owned by Mr. & Mrs. James

James, five Houses were charged for in 1846, and 1847 instead of 4. Hence there was a double entry as regards the "Saint Stephens- Hill" this mistake was subsequently discovered and rectified, but the extra demand for the two years referred to remains unaltered. it should now be expunged from the accounts.

No. 6 Cotton Houses
No. 7 Waste Land
No. 8 De Batts House
No. 9 Relia House

} J. H. Crawford Esq.r B. C. Service

7. No. 6 was the Property of a Major Ross and purchased by Mr. J. H. Crawford of the Bombay Civil Service in 1843, from which period, the demand is annually paid by that Gentleman - the balance exhibited in the list refers to 1842. and is due by the previous occupant, who, I am informed, is no more Perhaps under existing Regulations, the Premises both in this and in other instances, may be held to be security for the Government dues, but the resort to such an extreme proceeding does not appear fair towards the present owners.

* Rupees 31-4-10.

No.

8. Nos. 7 and 8. the same observations apply to this Property also. It originally belonged to a Reverend Mr. Stewart and subsequently transferred by sale to Mr. Crawford who pays the Quit rent from the date of purchase. the amount due Rupees 14–3–" is for 1852.

No. 9 Rela House.

9. Rupees 23–2–2 are due upon this property for 1841 and 1842. the late Proprietor Mr. J. Hay died long ago, and Mr. Crawford the present owner refuses payment of old arrears. with reference to the item of 4–1–8 which stands against the said Premises in the accounts of 1847. it is not actually due the Quit rent for 1847 was charged as usual at 11–9–1, but the House having disappeared the amount as regarded one Cawny was reduced in the Bills from 5–4–" to 1–2–4 or 4–1–8 less than usual a similar reduction was not made in the accounts, but it should now be so.

Rupees

No. 10 Near Lacelles.

10. Rupees 4–11–" are due for 1846 and 1847 upon this piece of Land. Mr. Broughton considered the occupancy of this ground by Mr. Lacelles as unauthorized and illegal, and apprehending the levy of Quit Rent would confer a right Mr. Broughton ordered the demand to be kept in abeyance Subsequently the said land has otherwise been disposed of and Mr. Lacelles seems not bound to pay the rent referred to.

No. 11. Near South downs

11. The Balance of 28–a–1 shewn in the list B does not appertain to this District but probably to Malabar. It is, however, fictitious, and must be struck off. the amount originally demanded with reference to the accounts received from Malabar when Ootacamund was reannexed to Coimbatoor, was Rupees 47–9–7. Major Lawe objected to it as incorrect which formed the subject matter of correspondence between this

To B– 10th July 1848 No. 53.
From Dt. 31st July 1848.

this Office, and the Board of Revenue in 1848, and under their instructions, the demand was modified and reduced to Rupees 19-9-10, of which 7-2-11 were paid by Major Lawe and the rest 12-7-6 by Mr. Hodges the Agent of Mr. Groves who purchased the said Property.

No. 12 Prisoners Line

12- The balance of 1-14-4 against this Property is incorrect Mr. Hollock having taken a Putta for the land has paid for it in common with the other Ryots of the Village, and the entry of that demand again in the Quit rent Register is a mistake.

No. 14 Salmon House

14- Three houses were owned by Mr. James, but in consequence of the alteration of one of their names an Exctra one was inadvertently charged in 1849. In 1850, the requisite alteration was made in the register but the entry of 1849 has not been disposed of.

No. 13. Near Ootacamund Lake
No. 15 Near Neaves House.

15- The circumstances under which a balance appears against these Properties

are

are exactly similar to those in the case of Mr. Hollock and no further explanation therefore appears called for.

No. 16 Kotah Hall Mr.

16. Rupees 105-12-11 are shewn in the accounts as due upon this Property and consists of two different items the 1st is Rupees 91-9-1 for 1849 which had its origin in an erroneous entry of the demand on the land recently taken up by Major General Gibson at the quit rent of 1-2-4 Pr. Cawny, whereas with reference to the nature of the Soil and other local circumstances, the Land did not appear capable of bearing more than the Survey rate of the adjoining fields hence the Survey assessment only was levied from General Gibson the difference between it and the Quit rent demand remains in the accounts unadjusted, and being merely nominal requires to be struck off. The 2d. item of Rupees 14-3-10. is on Land formerly held by Mr. G. F. Cockburn,

and

and subsequently transferred to General Gibsons the latter has paid the amount from the date of transfer but the former is gone home, & and I have therefore no means of recovering the demand, Mr. M. D. Cockburn declining payment on the plea that he had, had & nothing to do with the land when it was in the occupancy of his son the previous Proprietor-

No. 17 Belhara Coffee Plantation } 17. Rupees 155-1-1 are said to be due in two items of 67-13-6 for 1847 and of 87-3-7 for 1849. the former is precisely of the same character as that described in the & latter part of the preceding para, the & plantation having previously been Mr. G. F. Cockburns Property, and with & reference to the latter item, the same & remarks that were made in the Case of General Gibsons lands are equally & applicable, the balance having accrued in consequence

consequence of an overcharge at the Quit rent rate whearas the usual payment consisted merely of the Survey Assessment.

No. 18 Kanavahully Plantation } 18. Rupees 16-2-5 are due for 1846, and 20-7-1 for 1849, the latter was caused under circumstances above explained. & Adverting to the former I would state & that the Plantation formerly belonged to Mr. T. Cockburn Subsequently it was & transferred to Messrs. Lacelles and & Mackenzee, and ultimately to Mr. & M. D. Cockburn. Some of the transfers were communicated to this Office, and & some were not, hence the apportionment & of the Demand on the respective trans- & ferrees did not take place. Mr. & M. D. Cockburn objects to the demand & made upon him for the period during & which he had no concern in the Property,

and

Fort St. George 8th January 1856

and the parties from whom the amount is actually due, have proceeded to England the amount is small, being only 16-2-5, and as I am therefore of opinion that it may be struck off.

Property No. 19.

There is nothing on the record explanatory of the circumstances under which the amount due by Mrs. McLeod for 6 years was not recovered. I have been unable to ascertain where that Lady is, neither are there any Agents of hers the present owner pays the demand from the date of purchase, and cannot fairly be held responsible for the previous dues, as it appears therefore useless to retain the amount in the balance Sheet.

Property No. 20

20. The Quit rent upon this Property was charged according to the old Register for 1850, but in the measurement made by the Survey Department the extent was proved to have been less than usual, and as the

Fort St. George 8th January 1850

the demand was accordingly modified the difference of Quit Rent on the deficient quantity of land by a remission.

Property No. 21

The House upon this Land 21. has disappeared long ago and the land itself is unoccupied. Mrs. Hopley and Mrs. Lawless died several years before and the balance is Consequently hopeless.

Property No. 22

22. Mrs. Hawes since deceased merely applied for the land in question in 1849 but did not actually occupy it in that year a portion of it is rocky and unfit for cultivation the plantain sub-sequently made was formed but by hut in each year at Considerable expense and labor and I do not therefore think it expedient to enforce the demand for 1849 in which Mrs. Hawes has not even cleared the ground. the Cultivation which has actually since taken place amounts only to the small sum of 20-5-4 Mrs. Hawes not having been disposed to take the rent of the land on account of its sterility.

Repeat

Fort St. George 8th January 1856

Property No 23

23 Rupees 153-14-11 are said to have been due upon this land for 5 years from 1842 to 1846 inclusive. Mr. Broughton Considered this ground to have been occupied by Major Minchin which that officer denied. Whether it is right or wrong it is now difficult to ascertain. There can however be no doubt to the fact that the land was waste during the period for which Quit Rent is demanded. Major Minchin also appears to have since gain up the Land—

Property No 24.

24 The Complaint of Major Minchin as to what he Considered an overcharge upon this property, has already been the subject of Correspondence between this office and the Board of Revenue in 1847 and 1848 Vide Margin The Board of Coms justly decided that Major Minchin should pay for the land till he Relinquished it which he has not done to the end of Fasly 1255 but taking into Consideration the

Sir,

Fort St. George

From the Agent to the Governor at Rurnool — —

With reference to the Extract from the Proceedings of the Board of Revenue dated 31st May 1855 No. 1331 calling for a Report upon the nature of the balances outstanding in this District at the end of Fusly 1263 I have the honor to state that of the balances Rupees 25577-7-9 therein referred to the sum of Rupees 15362-4-11 is a balance of Land Revenue appertaining to the Bungenpully Jaghire which remained outstanding against the Ryots on account of Faslies 1246 and 1248 when the Jaghire was under the management of the Collector of Cuddapah and that this amount was credited by adjustment in the accounts of this Office for the Month

From Pr. 2nd March Genl. dated 4th March 1844 No. 2885

Do. Pr. Collr. of Cuddapah dated 20th March 1844 -

696 Fort St. George 8th January 1858

Month of June 1844 as per letter noted in the Margin in Consequence of the Jaghier having been transferred to this District and the amount I beg to state is irrecoverable. Of the remaining balance amounting to Rupees 10215-2-10 the sum of Rupees 7230-12-3 has been Recommended for remission in the Immunabundy Report for Fusly 1263 and the sum of Rupees 2541-14-2 outstanding as against certain Enamdars has been written off in the Public accounts as Remission as per Extract from the Minutes of Consultation dated 5th September 1855. Of the remaining balance Rupees 277-9-7 have been Collected leaving a balance of Rupees 164-14-10 and which being irreconcilable I beg to Recommend may be Remitted -

Exclusive of the balance of Rupees 25577-7-9 entered in the Boards

To C. I. Bird Esqre
Collector of Tinnevelly

Sir,

As required by your Memo. of the printed Circular No. 2325 Revenue Department I have the honor to forward a set of statements taken from several of the Manufacturers at the salt Pans in this District with the view to ascertain the manner in which they would view the adoption of weights instead of measures in their delivery of salt, the Manufacturers are adverse to the plan of weighing the salt unless the price to be given them for it be greatly increased. The Manufacturers of Koilpatnam say that they will consent if seventeen Rupees instead of ten as at present be paid per Garce and those of Tutacorin and Arasady ask for twenty Rupees per Garce

Bd No. 372
From the Collector of Nellore

Sir

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date 8th December 1855 regarding the Sub Collectors residence at Ongole and to state in reply that as it appears to be the wish of Government that for a Considerable portion of the year, Ongole should be the Principal residence of that Officer, I consider that it should be the Sub Collector's Head Quarters from 1st November to 30th April and Ramapatam from 1st May to 31st October.

2. It will still I consider be desirable that the Talook of cavaly should be transferred to the Sub Division on the grounds mentioned in my letter of the 10th November 1855, and as the Board do not object to the arrangement, and the settlement of the District is just commencing which would be a suitable time to make it over.

I

Fort St. George 8th January 1856

I shall proceed at once to do so.

3. The information required regarding the other points mentioned in the Board's letter of 18th October will be found in Mr. Minchin's 2 letters of the 10th October, & 5th November last, but for facility of reference I beg to annexe copy of Para 3 of the former which bears especially on these points.

Nellore District . . .
Ramnoor . . . .
Collectors Office . . .
18th December 1855

/ Signed / F. B. Elton
Collector

3. With reference to the subject of the 1st Para I have the honor to state that the Sub collector has never regularly resided at Ongole during any period of the last five years, there being no dwelling house at that station except those occupied by the Commanding Officer & District moonsiff. There is however a cutcherry Bungalow employed to hold the Records, which has one Hall & two bath Rooms in which the Sub collector has always put up on his visits to the station. I have myself thus visited Ongole twice during the time I have been in charge of the Division to investigate important cases, besides having halted there when I settled the Talook in the neighbouring Village of Pernamettah.

249. 250

Bd. No 63
Proceedings thereon.

in Con. 18 Oct/55.

Fort St. George 8th January 1856

In their minutes of consultation of the 12th October, the Government having under Consideration a proposal of the magistrate of Nellore to invest the District moonsiff of Ongole with criminal Jurisdiction in the Talooks of Ongole Chendalore and Enamanamellore, observed that although these talooks were remote from Ramiahpatam, Ongole and not the former place was the fixed station of the Sub collector and that his residence at Ramiahpatam was an indulgence which ought to be limited, the principal part of his time being spent at Ongole as the most central Spot in the division.

2. The Board were directed to ascertain what periods had been spent in Ongole during the last five years and to suggest an arrangement for carrying out the wishes of Government. They accordingly addressed the collector of Nellore on the 18th October enquiring whether the cutcherry at Ongole was in a State of repair and what had been the practice of the district as regards residence there.

× 10th Nov.r
Inbound 8th Dec.r/55.

3. Mr. Elton in reply forwarded an Extract of a letter which he addressed to the Government direct enclosing an application from Mr. Minchin to be allowed to Consider Ramiahpatam his head quarters

quarters as heretofore; the Board deferred expressing an opinion on the points referred to them as Mr Elton had already addressed the Government direct being however now in receipt of Extract Minutes of Consultation dated 27th November shewing that the Government await their report on this question. The Board resolve to forward Mr Eltons letter of the 10th November x
ber together with his subsequent Communication of the 18th December for the information of Government.—

x Subons 8th Dec. 155

Subons 8th Jany 156 No 3701.

4. Mr Elton suggests that the Talook of Cavally lying South of Ramiahpatam (the police of which is already under the Joint Magistrate) should as a permanent arrangement be attached to the Sub Division, it appears to have been in contemplation at a former period to make this transfer and it is now urged by Mr Elton both on the Ground that the Collector would be relieved of work which presses heavy on him and that Ramiahpatam would be more nearly in the centre of the division when thus enlarged. The proposed change would not the Board observe make Ramiahpatam more accessible to the inhabitants of the northern and western parts of the Division but they are not opposed to the arrangement under the considerations stated by Mr Elton.—

5. On the subject of the Sub Collectors station Mr Elton now recommends that Ongole should be that Officers Head Quarters from 1st November to

to 30th April and Ramiahpatam for the other 6 months of the year. To this arrangement the Board see no objection it being understood that the Sub Collector is not to be always in those two places but to pass half the year in the three northern talooks of his Division and half in the Southern. of course on an emergency arising the Sub Collector will be authorised to move to any place where his presence is required.—

6. The Board observe that the Collector has still failed to give precise information as desired by Government regarding the length of the Sub Collectors residence at Ongole during the last 5 years, but as he sends an Extract from a letter addressed to him by Mr Minchin which shews the number of visits which that Gentleman has paid Ongole since his appointment to the Sub Collectorate they resolve to lay the papers at once before Government without making another reference to the Collector on this point.

251

Bd No 83

From the Collector of Coimbatore.

Affording information relative to the preparation of returns of the price of grain in Coimbatore.

No 169

To G. S. Forbes Esqre
Acting Secretary to the Board of Revenue

Sir

I have the honor to acknowledge the receipt of the Boards circular No 3089 of the 21st November 1855, forwarding Extract from Minutes of Consultation and requiring information relative to the preparation of returns of the prices of grain in the District.—

2. Adverting to para 2 I beg to state that

that so far as the Public accounts are concerned, a Puddy or Mercal is uniform throughout the District, and does not vary the prices set down in the returns periodically received from Talooks are not based upon the mere statements of Bazar men; every enquiry is made by the local officers to ascertain their correctness both in the Cusbah Town, and in the Villages and markets in the neighbourhood. In calculating the average price in my office the prices of the 14 Cusbah Towns in the District are taken into calculation, and not of a few particular Towns only, as formerly; this practice having been discontinued from 1854 under orders from the Board of Revenue vide correspondence noted in the margin

Para 3 Consultation Report 7th July 1863 Letter 30th November 1852 No 101 Proceedings of the Board dated 19th December 1853

the 3d and last point noticed by Government however

however, affect this District; the prices entered in the lists which are prepared in the beginning of every month, being of a prospective character, and therefore open to objection on the score of their not being a record of actual facts- whilst the average given is an approximate one, calculated upon the number of prices stated and ascertained without reference to the quantity sold at each price.-

3. Regarding the 1st point Viz.t the determination of the number of places at which prices should be taken, it appears to me that the present arrangement is as efficient as can be expected all the Cusbah stations in the District, with very few exceptions, are Towns of importances; the other Towns appertaining to them, being Secondary ones- and they are sufficiently numerous

to

Fort St. George 8th January 1856

to afford fair data for prices - they also possess the requisite advantages in point of position; and have the Talook Establishment on the spot - with reference to the proposition to establish Public Markets / similar to weekly fairs / the Board will perceive from the accompanying list that such already exist to a Considerable extent either in the cusbah Stations or in the immediate neighbourhood - the Establishment of additional markets will be advantageous to the people but such new markets should be so established as not to prejudice those now held, the same list also shows the number of important Towns appertaining to each Talook. —

4. I have not included in the list the Neilgherry Talook, such in fact is not done in calculating the average prices - In Consequence of the peculiar position of that Talook and the high prices which prevail there generally; I do not consider it advisable to take it into account in the calculation of the average prices as

Fort St. George 8th January 1856

as such would unnecessarily raise the average and render the price returns untrue - upon the whole I am inclined to the belief that as already observed, the principle now adopted is an efficient one, and requires no modification.

5. In reply to Para 5 I beg to observe that duplicates of Standard measures were furnished to every Talook some months before, and they are generally in use throughout the District the returns from Talooks are made in the Standard measures which saves the necessity of a conversion as pointed out by the Board - there may however be exceptions, in Villages, but such exceptions do not affect the price lists.

6. The names of the grains which chiefly form the food of the people are given in the margin, they are cultivated in large

Paddy
cholum
Cumboo
Raggy
Samay
Horsegram

quantities and any fluctuation in their prices would exercise influence on the prosperity of the people - the extent of land appropriated

Lies

Fort St. George 8th January 1856.

appropriated to the culture of each of them and the proportion which it bears to the aggregate quantity of cultivation in 1264 are specified in the annexed Memorandum, as directed in Para 5 of the above circular.

7. On the subject of para 6 I would observe that retail prices are better than the whole sale ones as calculated to show the real sale of the market - their attainment and scrutiny involve no difficulty which is not the case with the wholesale prices and any information received from Merchants upon this point cannot be much depended on - In the returns received from the Talooks, both the prices are exhibited, but the retail prices only are shown in the Statements furnished to the Board - the whole sale prices not being considered sufficiently accurate -

The

Fort St. George 8th January 1856

8. The Nerrick prices hitherto inserted in the returns may be safely taken as the actual prices there being little or no difference between them - In fixing the Nerrick it is not done ad libitum, but care is taken to ensure correctness - the prices in the preceding Month both at the Cusbah and in the neighbourhood, are taken into consideration and the Nerrick rates are not departed from except under peculiar circumstances in which case a fresh Nerrick is determined - but as it may be considered an Estimate and not a record of actual facts, I have given instructions to all the Tahsildars to adopt the principle now pointed out by the Board in the latter part of para 6 -

9. Referring to para 7 I apprehend that the object of Government cannot be attained

attained without interference on the part of Circar Officials - which it is very desirable to avoid, the present principle of calculating average prices, appears to me less objectionable; whilst the average prices themselves are sufficient to show the probable state of the market the collections of Kist would not prove a fair Criterion to Judge of the quantity of grain sold at each price; the collections vary in every Month according as the Kist is more or less, and any Estimate to be made upon it would only affect the quantity to be assumed as having been sold in particular Months - but not to quantities sold in the same month at several places, at different prices - There is no doubt, that as observed by Government, the price in one place is 50 Rupees, in another 60, and in the 3d 60 Rupees a Garce - but they will

will be found nearly equal when the cost of Conveyance &c. is included - and all that can be done is to adopt an average, any attempt to descend to minutia would I fear lead to mistakes, and render the price lists less correct than otherwise -

10. In reference to para 8 I beg leave to submit that price lists are furnished monthly to my office in ordinary years - I think it would be sufficient to have them sent either by monthly; or thrice in a month, if necessary. as I am of opinion that their weekly preparation and transmission, would cause needless extra work to the Talook Establishment, which has already much to do, and render the document itself a mere matter of form. -

11. The orders of the Board conveyed in para 9 of the Circular under reply will be duly attended to.

Coimbatore 21th December 1855 } / Signed / E. B. Thomas

Proceedings of the Board of Revenue

Wednesday the 9th January 1856.

Read the following Papers.

No 6.

273
B. No 69.
From the Chief Secy. to Government } Extract from the Minutes of Consult-ation in the Public Department Dated the 3d January 1856.—

Read the following letter.

No 1648.

To, J. Pycroft Esqre
Chief Secretary to the
Government of
Fort St. George

Home Department

Sir,

I am directed to acknowledge the receipt of your letter No 116 dated the 31st October last, and in reply to state that the Most Noble the Governor General in Council has been pleased to confirm the authority given by the Right Honorable the Governor in Council for

		Rs.
18 Districts at 3,000 Rs. each		54,000
Canara		4,000
Total Rupees		58,000

the expenditure of Rupees 58,000 for

Fort St. George 9th January 1856

for holding Agricultural Exhibitions during the next year in nineteen Stations under the Madras Presidency.—

Fort William
The 14th December 1855 } / Signed / J. W. Dalrymple
Under Secretary to the Govt.
of India.

Ordered to be communicated to the Board of Revenue, and to the Offices of Account and audit, with reference to Extract Minutes of Consultation No. 1110 dated 31st October 1855.—

/ True Extract
/ Signed / T. Pycroft
Chief Secretary

(273. 274)
Order thereon, Ordered to be recorded

No. 209.

To,
G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue

(275)
Bd. No. 3140.
From the Acting Collr. of Madras

Sir,

With reference to the Remarks of

Fort St. George 9th January 1856

of the Board of Revenue on the Statement of Contingent Charges incurred in the District of Madras for the Month of April 1855 dated 30th August 1855, I have the honor to state that the charge being unusual, some explanation should perhaps have been given in the Statement, but the necessity of the Expenditure was very apparent. The Cutcherry is now shut up in a small Bungalow, and the Principal room admits the full rays of the setting sun making the carrying on of business almost intolerable without some protection.—

Madras, ——
30th October 1855 } / Signed / B. Cunliffe
Acting Collector.

(275. 276)
Order thereon — Ordered to be recorded.—

No. 100.

To
G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.—

(277)
Bd. No. 3665.
From the Collector of Sea Customs, Madras } Sir,

I have the honor to reply to

to the letter of the Board of Revenue relative to weights and measures and other papers.—

2. The Standard of the Office in enclosed several Bengal Bags were obtained, these were filled, measured and weighed, with different kinds of grain, and its weight ascertained, as also the measurement. The Bengal Bag was taken as the 2 Maunds, and the Board will observe that Grain and Pulse are liable to duty, either by the Maund or by the Bag, and that grain is never weighed, unless the Size of the Bag× is suspicious, in which case a certain number are weighed, to prevent the fraudulent introduction of Grain.—

× Schedule A act VI of 1844

× Enc. A

3 I enclose the× Standard taken on the passing of Act VI of 1844. This was ascertained from filling Bags with Grain and then weighing and measuring several, the average of each being taken, as the weight and measurement of each sort of Grain. This Statement contains the weight of the Bag. The Board do not seem to have been× aware of this.—

× From Bd of Revr dated 22 Jany 1852 Para 3.

I

× Enc B

× From Dr de Para 4.

4. I also enclose a Statement× framed, the Grain being weighed and then measured with the Mercal× approved by the Board of Revenue, compared with the Office Standard. The difference between these is given, the Net weight being given in either case.—

Enc. C

5. I also transmit a second Statement× exhibiting the weight of Grain taken by Mr. Cochrane, it corresponds in every essential particular with the former× taken by Mr. Atkinson.—

× Vide Encr B

6. The practical working of the system will always be, to charge the duty on the Bag 1 Anna per Bag care being taken the Bag is according to Rule in Size. In cases of dispute the Bags might be weighed, and the matter adjusted by the new Scale framed on the weight ascertained from Grain measured in a true Mercal.—

7. Our Rules provide, that in all cases 10 per Cent shall be allowed above and below the Standard, which has hitherto been sufficient to meet all difficulties.—

× d/ 22 Jany 1852

8. Referring to para 5 of the Board's letter in which the Board seem to doubt the correctness of Custom House weights. This being a subject of importance the Assay Master kindly reported upon a 1/4 Cwt× and stated it to be 27 lbs 15 Oz. 15 Drams less by one dram than the Standard weight.—

× Encr D
× Letter d/ 15 March 1851
To Bd of Trade d/ 13 Jany 1821
From Dr " 28 Feb 1821 the Assay Master's Report

9. Referring to para 6 of the Board's letter I have the honor to refer to the papers noted in the Margin relating to the abolition of the measuring of Grain and the cause which led to the decision.—

Sea Custom House, Madras, 11th December 1855.

No. 1.

To G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

281
Bd No. 94.
From the Collector of Tanjore

Sir,

Para 1. I have the honor to reply to the Board's proceedings of the 13th of October last No. 2657—

There is no such thing

2nd. in Tanjore as grazing tax collected by Government, there are no pasture lands in the Nevarumbum Talooks, and the Cattle are fed chiefly on straw neither is there any tax on Cattle, Sheep or Goats, and the sole items of Moturpha are the house and the loom tax. The wild chayroot rent is already brought to account under the head of ready money collections—

Fusly 1254 to 1258 - 500
1259 to 1262 - 1000
1263 to 1264 - 1500

The Poodoopuram jungles in

3. the Shealy talook have for many years been leased to the Porto Novo Iron Company and at present an annual rent of Rupees 500 is

Fort St. George 9th January 1856

is received. The only other jungle rents in the province are that of the woods at Point Calimere, of certain small rattan jungles in Tritrapoondy, and of some jungles now non existent in Keevalore the annual rent of the first is Rupees 271 of the second Rupees 264 and of the third Rupees 36—

4 The renter of the woods at Point Calimere is restricted to taking only dead wood, and is not allowed to fell living timber. he sub rents his privileges to the neighbourhood, at from two to eight annas a house per annum, according to the members of the family and twelve annas a head to those who collect wood for sale. all persons are free to collect manure and the leaves of these woods form a very valuable manure for the tobacco lands in the neighborhood without paying any tax, and the cattle of the villages in the immediate neighbourhood are also free to graze on

Fort St. George 9th January 1856

on cattle brought from a distance, the renter demands four pice a head per Mensem, and two pice on each sheep—

5. The rattan jungles of Tritrapoondy are annually rented to the Meerassidars of the Village in which they are situated, and are by them subrented to basket makers—

The jungle rents in Keevalore are of very old standing they are collected from five villages, and the demand is apportioned by the Meerassidars among themselves, according to the extent of cultivated land they hold the jungles have wholly disappeared and the land is unfit for cultivation With the Board's permission I will remit the demand in future—

(Here enter 19th Decr 1855 No. 3372)

The Irishmakkal tenure is

Fort St George 10th January 1856

is understood to be that under which the land owner pays only two thirds of the Regular Jarom assessment and enjoys the other himself it is doubtful in the opinion of Government whether lands on this tenure Come under Regulation IX of 1831 any more than lands subject to Peeazgary which is the similar remission of one tenth to the Ryot. Further the ground of the present action is not a claim to a share in the so called Enam the decision of which claims is reserved by the Regulation to Government but only the enforcement of certain Rights of purchase and Mortgage. On both these Considerations the Right Honorable the Governor in Council doubts whether an order of Government is necessary to enable the Plaintiff to sue, but as the Court requires such an order he has no hesitation in declaring that so far as Government is Concerned the Plaintiff is at full liberty to sue in the Court for the Recovery of his alleged Rights in the

From the Deputy Chief Engineer D. P. Works
Reporting upon the Revenue Survey of Saint Thomas by Surveyor Walker stating that he has successfully performed as valuable work and is ready to go on with

To The Acting Secretary to the
Board of Revenue

Sir,

I am directed by the Chief Engineer Department Public Works to Report for the information of the Board of Revenue that the Survey of the District of St. Thomas upon which Revenue Surveyor

Fort St. George 10th January 1856

with the Survey of any District which it may be deemed advisable to undertake.

Surveyor Walker has been employed is now completed.

The Secondary traverses Contain } 3110-6-1937-42

The Main traverse — 3100-9-2238.

Shewing an Excess in the Secondary traverse of } 9-20-2099-42

The Register of the Holdings is as follows.

The Southern division Contains — — — — } 1306-11-2184 5/10

The Northern — — — } 1079-6-1994-27/32

2385-21-1779-5/32

Register of Roads and Channels — — — } 728-16-1924

Grand Total — 3114-14-1303 5/32

Thus shewing between the Contents of the Secondary traverses and the Registries a difference of 4 Cawnies 7 grounds 9366 Square feet but from the Registered Measurements there have to be deducted 4 Cawnies 20 grounds 1215 Square feet which are

Fort St George 10th January 1856

are not entered in the traverses/because they were inconveniently situated on the opposite bank of a stream/thus leaving the Contents of the traverses according Regis: =ters 3109-18-893/8 Cann Pds Feet whereas according to traverses they are 3110-6-19 Cann Pds Ft a differnce of less than 1 Cawny in Cannies 3110- and on upwards of 4000 holdings each of which have been surveyed and Calculated a degree of accuracy almost too great but which it is believed is not open to suspicions from the fact of the traverses having on Calculation been found to be Correct, tho' not Cor: =Responding with the main traverse, two sides of which have been taken over most uneven and difficult ground.

3 The work has been twice tested by actual measurement each time with different results but with a differnce of measurement of no appreciable value and not affec: =ting the general area a couple of Cannies one way or the other-

4 With Reference to the twice which

Fort St George 10th January 1856

which this Survey has occupied it must be urged in Mr Walkers justification that many of the holdings are very small and frequently subdivided into smaller holdings and subtats so that some are of only of few Square feet in extent and that from the habits of the people he frequently encountered much opposi: =tion he has however Successfully performed a valuable work-

5 The Calculations are not all Complete but he is Ready to go on with the Survey of any district which it may be deemed advisable to undertake.

(314)
BE No 75
From the Collr of Coimbatore } Sir In forwarding the enclosed testimonials of the Tahsildar of Dotaca-mund, I beg to request the Board's recommendation of the pay of that Officer being increased from 50 to 100 Rupees.

2. When first the scale of pay was fixed 30 years ago, it was a subordinate and important appointment not held by any Official of standing or claims since then, the work, responsibility, and importance of the Office, has increased ten fold the incumbent needs to be not only one of the most intelligent of the Tahsildars, but he must know English well, have frequent and often difficult intercourse with Europeans, of all grades, from a private to a Soldier from

from Jack Kalla to the Governor General literally the Case in Ootacamund

3 Living is also expensive, clothing the same and the climate as irksome to a native of any family and rank as the hotest and worst stations below are to an European Indeed I do not believe he can live on his present pay in a reputable manner, as the Head Revenue and Police Officer on the Hills he must Keep a Pony / to visit the distant Burgher Villages, as well as Coonoor and Kotergherry / and occasionally Bearers - he has also not frequently to go down to Legoor, and beyond it, to look after Sandalwood, Coffee Estates, and other land applied for and not a Traveller from any quarter joins or quits the Hills but ap= =plies to the Tahsildar by day

and night, if he experiences the slightest difficulty in supplies bearers, or aid of any Kind -

4 In fact the post is really and truly a most troublesome and important one and no ordinary Official will take it, or can give satisfaction in it. the Circumstances since its first creation are entirely changed and I feel assured the Government itself cognizant of the facts will on the Board's re= =commendation raise the salary to the Just and necessary scale of 100 like other Tahsildars - and in Soondra Moodelly's case / the present Tahsildar / I would beg that it may be sanctioned from the 4th date of the Governor Generals arrival on the Hills when the Tah= =sildars extra work especially began, and from which date he really spared himself neither by day or night.

I am

17th March 1856

a translation of the Tahsildars Urgee is enclosed.

5. I am also compelled to ask a Cutwal at Coonoor, under the same circumstances and for the same reasons as at Ootacamund, simply that the work and responsibility and charge has increased immensely, since a mere Duffadar was sufficient for the place, a Cutwal, on 20 Rupees / as at Jacktalla with infinitety less duty / is required and if the Police Force, a Cutwal and 6 Peons have been found insufficient and lately increased, as I learn in the circumscribed limits of Jacktalla a Cutwal, and 4 more Peons is far more necessary at Coonoor the therefore is constant and heavy and the duties most arduious having to contract the Ghaut the Police the Market / on which Jacktalla greatly depends /, supplies and Coolies for all Travellers with various other miscellaneous duties.

6 I might appeal to any

of the Governor Generals staff or fal=lowers who has been at Coonoor and Ootacamund to say what the duties of both places are, and I only take this opportunity of bringing forward what I must shortly have done no such August visitors lately been on the Hills, as the Most Noble the Governor General and the Right Honorable the Governor of Madras.

Coimbatore

Translation

Fort St. George 10th January 1856

No 2

Translation of an Urzee addressed by Soondra Moodelly Tahsildar of Dotacamund to E. B. Thomas Esqre Collector of Coimbatore dated the 18th of December 1855.-

The construction of the Jackatalla Barracks near Coonoor, has greatly increased the population of Coonoor, Bricklayers, Carpenters, Masons, and other Artisans, working in the Barracks have their abode in Coonoor, each having constructed a house of his own the number of Houses amounts to about 1,000, there are also about 30 Bungalows of European Gentlemen. European Travellers, to and from Dotacamund who visit the place, may be calculated to be about 30 or 40 in a month - each requiring supplies and 25 or 30 Bearers and Coolies. Each European Regiment or Detachment to and from Jacktalla, is to be supplied with 5 or 600 coolies and the Gentlemen residing in

Fort St. George 10th January 1856.

in Coonoor, are also constantly assisted in procuring their supplies. Cross roads and other Maramut works, are to be superintended at night the place requires to be patrolled, and the peace preserved on market days - and many other miscellaneous duties are to be looked after.-

At Dotacamund and Matapollim where there are duties of a similar nature, Cutwals are appointed at 42 and 40 Rupees each - but no provision is made for Coonoor similarly circumstanced in all respects - I therefore beg to suggest that a Cutwall may be appointed to Coonoor, on 15 Rupees payment to look after all the above duties - Shick Ebram the Duffadar located at Coonoor is not empowered with sufficient responsibility and if a Cutwal is

is appointed he will do well. I have been at Coonoor on duty lately, and know well that the duties are of a very arduous nature I have therefore proposed these. Besides the above duties, many Gentlemen that come from Ootacamund and resort to the Public Bungalow at Coonoor, require Coolies and Bearers and supplies. I therefore respectfully request that the appointment of a Cutwall may be carried into effect Sheik Ebram the Duffadar is qualified having performed all the duties in the place from a long time, and beg to recommend him as the fittest person for the proposed appointment.

Proceedings thereon

The Board of Revenue confirm the sale, for arrears of revenue of the lands entered in the Statement which accompanies the foregoing letter, and authorize the Collector, after carrying to the credit of Government the amount of arrears against the late Proprietor, to disburse to him the remaining sale proceeds.

To No. 2
G. S. Forbes Esqr.
Acting Secretary to the
Board of Revenue
Fort St. George

B. No. 103

From the Collector of Trichinopoly Sir Para 1

As directed by your Board's Circular No. 3089 of date the 21st November 1855 I do myself the honor to furnish the information required by the Circular under acknowledgment as well as by the Extract from the Minutes of Consultation dated the 11th June last regarding the preparation of returns of the Prices of Grain in this District of Trichinopoly.

2 There can be no question but that the

774 Fort St. George 10th Janaary 1856

the objections enumerated in Para 6 of the Government Minute do in some considerable degree apply to the Price Lists transmitted periodically from this District and I am inclined to believe that no one Province under the Presidency is exempted from such exceptions, for the reason that it is most difficult for all the Officials of the Government to ascertain what the actual ruling prices of the Market may be from week to week or even from day to day.—

3 The "Paddy" or the "Mercal" of the South, or of this Trichinopoly Zillah signifies different quantities in different parts of the Province. The "Paddy" in use at the remote Village Bazars, that of this great City and its neighbourhood, and that used at the thrashing floors are all different in quantity. While the Standard Stamped Measures of the Government differ from all, though their names may be identical.

4 There is no immediate remedy for

Fort St. George 10th January 1856

for this nothing but time and constant perseverance on the part of the Government Officials will make the people give up their time worn local measures for the en Government new Standard ones. To introduce these, I have constantly endeavoured and directed my native District Servants to do the same.—

5 In arranging the Price Lists, it is not the practice here to insert a en fixed struck rate. The actual selling prices of the day as stated by the Bazar men when the Lists are made up in the Talook, are taken as the ruling rates. But as stated before these rates are fluctuating daily.

6 Returns of the prices of all grain are received in my Office from the Eight en Talooks of the Province. But it has been here to fore customary to submit the Lists to the Board on the prices actually obtaining at the Port of Trichinopoly, at the period of despatch. This City being the great Centrecal mart of the District, and where nearly the whole products of the Country consists

The

Fort St. George 10th January 1856

7. The only suggestion I am prepared to offer for the preparation of these important Returns is, that, populous towns and places of considerable trade should be selected, and in which a resident Government Official should take down the wholesale and retail prices of the day, as well as of the weekly market days, if any and then an average of rates per week struck and forwarded to the Collectors Office where an average en should be struck of all the returns so sent in, and that should be considered as the en Ruling price Current of Grain for the en Month of just come to a close.—

8 As regards the number of places at which prices should be taken, I beg to propose the following Towns.—

Trichinopoly
Vitticutty
Moosery
Cattaputtore
Laulgoody
Munnechanellore
Torriore
Parembalore
Arrealore
Dahuncundasholla poorain and en Shullachery

Sullacherry - At all these places trustworthy Agency is available

Public Markets, or rather Market Places where market is now existing and the days on which the market assembles. -

Taluk	Village	Day of the week. —
Vitticultty	Worriore	Sunday
	Elloopoor	Saturday
	Poonganoor	Monday
Vittecutty	Erookpoody	Saturday
	putty	Tuesday
	Colathoor	Wednesday
	Sergumputty	
Moosery	Moosery	Wednesday
	Kantoopatoor	Monday
Laulgoody	Lerogamboor	Friday
	Lamiaveram	Saturday
Torriore	Cunnanoor	Thursday
	Torriore	Saturday
	Chettecalam	Sunday

Fairs are common throughout these Country - The accompanying Marginal Statement shews the places where such Fairs are held in this District. —

9 The wishes of the Board as conveyed in Para 2 of the Circular under reply shall have my best attention. But I must again repeat it is very difficult to get the Standard Measures in general use in the Villages. —

10 The Subjoined exhibits the grains extensively cultivated and as per Centage of the cultivation of each is shewn, obtained in comparison on the whole total of Land occupied. This return is taken from the accounts of Fusly 1265

Description

Description of the grains. —	Extent of Land cultivated with each of these grains. — Cawnies	Gorlas	annas	Per Centage of Cultivation Cawnies
Pethanum	69. 482	46	1	22 7/16
Caur	21. 389	81	2	6 7/8
Vaulan	2.094	78	4	1/16
Raggy	42. 252	44	7	13 11/16
Cumboo	59. 086	23	1	19 1/16
Tonnaloo	25. 658	13	2	8 5/16
Varagoo	43. 578	77	7	14 1/16
Oalundoo	164	6	1	1/16
Horse grain	10. 007	64	2	3 1/4
Total	273. 654	24	11	88 7/16
Grains other than those above enumerated and not of much importance	35. 868	85	16	11 9/16
Grant Total	309. 523	10	10	100

11 With reference to whose prices should be taken, I would advocate, where it is possible, as in large towns, the wholesale Merchants prices should be Criterion - But where such men do not exist, the ruling Bazar rates be entered - In fact I would take down both as most advantageous - At present the Bazar prices are given in our returns not the wholesale grain dealers. —

12 I am free to acknowledge that I cannot suggest any method by which to obtain the quantities sold at various prices at different places - This would lead to inquisitorial visits to grain heaps and thrashing floors which would be distasteful to

779 Fort St. George 10th January 1856

to both the Ryot and the Merchant.
