3d No. 636.

From the Secretary to Government

Reviewing the difficulties enumerated by the Board in their Proceedings of 2nd February 1856 in computing the proper price to be charged for Salt sold for export at each of the shipping ports directly the Board call for information a fresh with a detail of the method by which the Cost may be accurately computed in each case and assuring them to report the result for the approval of Government stating the price which they would propose to fix.

Proceedings of the Board of Revenue

Monday the 17th March 1856.

Read the following Papers.

No 796.

Extract from the Minutes of Consultation in the Revenue Department under date the 22nd February 1856.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 2nd February 1856 No 327)

Extract Minutes Consultation 22nd Feby 1856 Para 14.

On the 31st May 1855

* the Government Requested the Board of Revenue to Compute the proper price to be charged for Salt sold for export at each of the Shipping places on the Coast according to certain principles then prescribed: On the 5th July † in Reply to some objections stated by the Board the Government Repeated the Request. The Board now Reply to that order but they have failed in their attempts to make the Computation in the mode prescribed and apply for further instructions.

2 The difficulties encountered by the Board in carrying the orders of Government into effect were three Fold. They did not obtain accurate or Complete informations from the Collectors

Second

second they find it objectionable to take the
facts of a single year as a basis and third they
find it difficult or as they say impossible
apportion the Cost of establishment to Salt
exported and for Home Sales in the mode direc
by Government -

3 As to the first difficulty you look
at the Statements received from the Collect
the Governor in Council finds indeed that
do not contain materials for a sure Compu
The Course proposed by Government* to be follo
by the Board was to obtain from Collect
Statements of all the separate Component
of the Cost of Salt, both for manufacture
Storage and Carriage &c at each place of resp
and from those materials, compute the proper
for each hundred maunds for export at each
place - This has not been done and the Governm
must observe that the terms of the Board's
=culer† order on the subject were too
explicit to be likely to elicit the de
Requisites It was explicit to also only
occasion delay in most Cases - It is
necessary that the Board should
call for the informations as fresh and the
best way as it seems to Government
of securing uniformity and Completen
will

* Extract Minutes Consultation 31st May Para 14.

† Extract Minutes Consultation July 21st 1855 No. 1810. Para 4.

will be to issue a form of statement in
which all the Chief items of Charge shall be
given as heading to Columns leaving it to Collectors
to add others if necessary. The whole quantity of
salt made in the year and the whole Charges
being thus ascertained the Board will be able
accurately to determine the Cost for a given quan-
=tity Collectors should be called on also to
Reply with much more promptitude than
on the former occasion -

4 With respect to the second difficulty
it was not at all the intention of Government to
Restrict the Board to the use of the accounts of a
single year That Course was followed in the Case
of Madras because only one years accounts were
before Government and because where the transactions
are so large a little variation is of small moment
But the Government fully approve of seven or
even ten years accounts being used for the districts
of the interior if they can be obtained - Adverting
to the Conclusion of para 3 of the Board's Pro-
=ceedings the Governor in Council would observe that
where heavy Charges occur in the way of Repairs
or for new buildings or platforms it will
be proper to take the interest of the sum rather
than to divide the whole Capital expenditure on
the

the limited time entering into the Calculation.

5 In paras 5 to 8 the Board enumerate the difficulties met with in applying the Rule laid down by Government as to the apportionment of the establishment Charges but the Government must observe that these difficulties appear to have arisen from the Board not having correctly apprehended the Rule or the mode of applying it. The Rule is based on the universal truth that property is guarded and cared for in proportion to its value. Instances of this principle may be seen on all sides in every day life, but one only will be given a Talook Treasury is guarded with vastly more Care than a Commissariat Straw Stack though in both there may be little difference between them. Such is the Rule it includes the whole Salt establishments not merely the watching peons because the whole whether Ameens Accountants Gollahs Treasurers Duffadars Peons or others are undoubtedly maintained with the ultimate object of securing the Salt or the Revenue on it from damage or Loss. The application of the Rule is very simple the Salt plus the duty being more valuable than the Salt without the duty in proportion as the

the former exceeds the latter in amount the Charges of establishment are to be divided between the Salt for Export and for Home Sales in that proportion. And to do that all that is necessary is after determining the total Cost per 100 Maunds excluding establishments at any given place up to the time of measuring for Sale to charge the Cost of establishments to the 100 Maunds of Export and of Home Salt respectively in the proportion above indicated. In making this division the actual proportion of Export and Home Sales may be taken, where there has been Export, and where there was not, a single hundred Maunds may be assumed for the purposes of the Calculation to have been exported. The subsequent Charges for Shipping &c must be added in the Case of the Export Salt.

6 Having Computed the Cost in each Case by this method the Board will Report the Result for the approval of Government stating the

the price which they would propose to
fix. Adverting to a Remark in Para 8
the Govt. in Council believe that it
will be necessary to fix a price for
each District only from the want of accounts
shewing the details of the charges at
the separate Salt divisions or Stations
If practicable however the Government
would prefer this more minute Calculation
for each place of Sale or Shipment -

To The President &
Members of the
Board of Revenue -

A true Extract
(Signed) J. D. Bourdillon
Secretary to Government

Ordered that the following circular
be sent -

(483-484)
Bd. No. 791

Circular
Sir
No. 791

Circular to all the Salt Districts -
and Madras Copy
to Commissioner
Northern Circars
and Register to
the Court of
Sudr Adalat

I am directed by
the Board of Revenue to forward
2 tabular Forms designed to shew
the

the items of expense incurred in manu-
facturing and exporting Salt - The want
of uniformity in the method employed by
different Collectors in Calculating the
cost of export Salt rendered the Returns
lately obtained unsuitable to the pur-
pose with which they were called for
It is Requested therefore that the forms
now sent may be Returned at an early
date with the different Columns accu-
rately filled in -

Total Rupees — 190,806

Estimates for Budget list No. 2.

4. The Collector of Rajahmundry expresses his approval of some plan for the Salook Cutcherries to be built in his District which he refers to as the standard plan the Chief Engineer who sent up no plan at all at first, has submitted in reply to a requisition a plan dated in 1846, and signed by the Civil Engineer of the 6th Division. Whether this is the plan intended by the Collector is very doubtful but at all events it is open to various objections. There is no Post office and no female Prisoners room

Rajahmundry Estimate V Rupees 11,000

Fort Saint George 17th March 1856.

room; there is no prisoners room at all, indeed, unless which seems probable the Police guard" is meant for it. That room is badly ventilated: is too small for the purpose and has an esternal window, lastly the Treasury is just in the position which was particularly condemned by the Chief Engineer in sending up at the same time a plan and estimate for a new Salork Cutcherry at Wallajanad in the Cuddapah District.

Report dated 11th January 1856 No

In Abstract Minutes of Consultation 6th August 1855 No 935 the Government required the Department of Public Works to consider the subject of Salork Cutcherries, their proper size and proper plans in Talooks of different requirements but as yet no notice has been taken of the order although the attention of the Chief Engineer has been more than once called to it. The Government have authorized the entry of the present Estimates in the Budget but this order is only conditional, and final sanction will depend on a suitable plan being furnished.

Bellary Estimate X Rupees 19,430

Do X " 24,380

43,810

5. The abstract estimates which accompanied these reports are written on paper of larger size the Government desire that in future all estimates shall be prepared only on foolscap paper.

Fort Saint George 17th March 1856

Tanjore Estimate TT Rupees 5,300

6. It will be pointed out to the Chief Engineer that no reference is given to the former order of Government alluded to in his report on this work Viz. C. M. C. 6th August 1855 No 935; such omissions it is requested may be avoided in future reports.

Tanjore Estimate OO Rupees 7,572

Do RR " 4,750

Do UU " 4,300

Do WW " 10,900

24,522

7. The estimates for bridging roads in the Tanjore District are in general accompanied by very scanty information as to the necessity of the works in future projects submitted with defective information will be rejected.

Bungalows

South Arcot Estimate AAA - Rupees 10,000

Tanjore " Do PP " 2,250

12,250

8. The plan of the Bungalows proposed to be built in these Districts is described as the "second class" and the "small standard plan" but it is totally different from the plan proposed for buildings of the same description in the Trichinopoly District though that also is called the "reduced standard plan" and though the cost of the two is about the same. Before the buildings now sanctioned are erected the most convenient plan should be determined and adopted for all instead of merely taking that plan which happens to be sent up by the

11 January 1856
PPP

be furnished if the estimate is sent up again.

Tanjore Estimate NN Rupees 10,830.
Do. 99 " 19,500.
Do. VV " 41,970.
72,300.

15. These are three estimates out of a great number for bridging roads in the Tanjore District which have been sent up to Government with very scanty information. No sketch maps have been furnished to shew the roads already in existence as well as those now proposed, and in the absence of this and other particulars to shew the necessity for incurring so large an expenditure the Government are not prepared to sanction the estimates. They believe that the works are not so emergent as to need early attention and that no material inconvenience will be experienced by their being deferred until full information is supplied.

Tanjore Estimate 88 Rupees 3,116.

16. Before sanctioning the construction of a traveller's Bungalow at Ammalpettah the Government would wish to be informed of the number of travellers entitled to use such buildings who annually travel on this road. It appears doubtful from the situation of the road whether it is much frequented by European travellers except perhaps by officers of the Collectors

Collectors or Engineers Departments who being provided with tentage have no claim to have bungalows provided for them. The Chief Engineer will be pleased to obtain from the Collector information as to the number of travellers not belonging to the two Departments above mentioned who halted during the year 1855. at the nesck bungalow Condamcherry. The distance of this last mentioned place from Tanjore stated to be too long for one stage is not specified as it ought to have been and it should be stated.

17. The Collector of Tanjore expressed the opinion that a small bungalow built with the old materials of the present building at a trifling cost would be sufficient to shelter travellers but the Civil Engineer apparently without making any enquiries on the subject prepared and sent in an estimate for building a new bungalow apparently a first class one without any deduction for old materials at a cost of Rupees 3,116. and this is submitted to Government by the Chief Engineer with his recommendation in its favour without any pains as it appears to satisfy himself that the building is required

Before

Trichinopoly Estimate ——— 000 ——— Rupees 2350. 18. Before sanction-
&c ——— PPP ——— 6,750. ing these bungalows
9,000. the Government wish
to have some infor-
mation now wholly wanting, as to the number of tra-
vellers entitled to bungalow accommodation using these
lines of road. The number of such travellers who halted
at the bungalow on each side the station where these
are proposed to be built, in the year 1855, should be
stated. It should also be explained what has been
or will be done with the now useless bungalows on
the old lines of road. ———

Tinnevelly Estimate ——— 888 ——— Rupees 3,070. 19. The jetties at
the Ports of Tuticorin
and Calasagarapuram being partly experimental the Government
defer sanctioning the one proposed for the latter
place until that to be constructed at Tuticorin
shall have been completed and approved. ———

General Estimate. ——— a — Rupees ——— 66,440 20. This is an
estimate for construct-
ing an Engineers
Office, Store and other sheds in every District of this
Presidency except North Arcot at an aggregate cost of
Rupees 66,440 In Extract Minutes of Consultation
4th December 1855, the Government sanctioned on the
recommendation

recommendation of the Chief Engineer the con-
struction of two small store sheds for each of the
five executive divisions of the North Arcot District
but no general store or buildings. In the Report on
the present estimate the Chief Engineer proposes
to have in Nellore and Cuddapah General stores
and offices, but no stores in each Division of these
District, and this is further proposed for all other
Districts except North Arcot. The Government
must observe that this proposition exhibits the
same want of full consideration observable in
many others emanating from the Public Works
Department. Both plans can scarcely be the best;
yet each is adopted and recommended as soon
as put forward. There is no evidence that the sub-
ject has been considered as a general question and
even as to the particular form, capacity, and
arrangement of the buildings now proposed they ap-
pear to have been accepted merely because they are offered
and there is nothing to shew that their suitability, or
the possibility of improving upon them has been at all
scrutinized in the Central Office

Fort Saint George 17th March 1856.

21. Under these circumstances the Govern: ment have deemed it expedient to defer granting sanction to the estimate in order that the scheme may receive fuller consideration. They request that the Chief Engineer will give his careful attention to the subject and after taking the opinions of the local officers report to Government as to the best method of effecting the object in view. This report should include all the points noticed in the preceding paragraph as well as the location of the buildings in each District and it should be laid before Government sufficiently early to allow time for estimates according to the plan finally approved to be entered in the Budget of 1857-58. The delay will be immaterial as there is no special hurry for these buildings and shelter for tools &c. absolutely required can be provided in a temporary manner at a very trifling cost.

Read a new report from the Deputy Engineer dated 5th December and entered in Cons. 10th January 1856. No. 31.

487.
B. No. 642
From the Collector of Madras
Reporting on the results of the Mylapoor Survey and recommending that the survey be carried to the other Villages.

To G. S. Forbes Esqre
Secretary to the
Board of Revenue

Sir,

For some time past I have been anxious to report to the Board the result of the Survey lately Completed in the Saint Thome division but the unfinished state of the Registry of Lands and of the Concomitant information Regarding the various titles under which the tenements are held has hitherto prevented me non shall I be prepared to Report for the next 3 months.

2 In the mean while as Mr. Walker informs me that he is now without occupation I will Reply upon the two former of the points Referred to in Para 2 of your letter of the 10th January 1856 and make such further Remarks as will I trust enable the Board to decide upon the expediency of Continuing the Survey in the other Divisions with the exception of Tondiarpetta

of

Fort St. George 17th March 1856

of which we already possess a Plan prepared on the Survey of the Inspector General's Department agreeably to the orders of Government in 1826-

3 Though Mr. Walker's Inspection were Completed about the middle of last year and a professional opinion expressing of the Value and Correctness of the Survey was passed in the Department of Public Works early in December last yet I believe that Mr. Walker put the work out of hand only 3 Weeks ago-

4 When I joined the Collectorate in July last the Registry of the Lands was much behind the Survey portion of the work Various Reasons may be given for the Registry not proceeding as was intended "pari passu" with the measurements. The Native Register had first to accompany the Surveyor and enter numerous data in his Rough Register on the Spot- This occupied the morning he then worked in his office getting out a fair information he could collect regarding the different plots

Fort St. George 17th March 1856

plots (for there are no Records for Reference) and Reporting to Mozzoor the several instances of lands newly brought to account and otherwise replying to numerous incidental calls made upon him by the Collector-

5 The Registry was three times written over in Consequence of the Surveyor as many times changing the number of the fields a Course which must be avoided in future as multiplying work and giving great additional labour-

6 The final numbers and their area were given only some 3 weeks ago. The Registries are nearly Completed and I must bear favorable testimony to the manner in which the Sheristas and Native Registers Departments have strived to finish them. When prepared they will form very full Record in detail of the lands over which the Survey extended and furnish a ready Reference in future for any information regarding possession title extent and quit Rent, which may be required

the

Fort St. George 17th March 1856

7 The obstacles thrown in the way of obtaining information can scarcely be conceived by those who have been accustomed to official work in the Interior Here one can only request attendance and parties generally shew their independence by presenting themselves at any other but the time named.

8 The Request to produce a title deed is Regarded as a personal affront, on something more and the aforesaid Officer is left to make out this Charge as he best may.

9 The Survey operations Commenced in March 1854 and the expenditure upon them from that date to the end of January 1856 was

Survey Establishment ——— 6082-14-11

Extra Charges ——— 99-4-0

Native Registers Establishment ——— 1848-8-4

8030-11-3

3109 Cawnies @ 2 F.D Chief Engineer 5th Dec.r 1855.

or about 2-9 per Cawnie on the area Surveyed.

10 The Consequent increase of Revenue cannot be known with precision until the accounts are Completed but the subjoined Amount may be considered a fair approximation to it.

Land held under Certificates &c. but hitherto escaping Assessment ——— 400

Lands in excess of certificate ——— 600

Unauthorized Inamings ——— 500

Fort St. George 17th March 1856

All lands formerly portions of grants for which fresh certificates are required and thereby enhancing the gist Rents. Examples given Marginally — 1800

Original grant one Cawnie Quit rent — 1-4-0

Four portions sold in proportions of one ground to each purchaser and assessed at one Rupee per ground 4

Remaining portion of grant 20 Grounds — 1-0-0

8-6-0

11 The Collection of arrears for five years as is the practice of the office would give 6000 Rupees (of which say 1000 will not be Realized) and the immediate Receipts may be taken at 8000.

12 The cost of Survey has been given above at 8030 Rupees to which Rupees 250 should be added as the probable expenditure in Completing the Registry as a total of 8280 Rupees.

13 The Survey is thus proved to have been Remunerative in a pecuniary view, and will be of incalculable advantage in another and an which I am sure the Board and Government will Concur with me in designating the more important in furnishing a correct description of public and private rights.

14 As this latter account I think it is advisable to Extend the measurements and Records to the other divisions hitherto unsurveyed or rather of the Surveys of which not a trace remains.

The

Fort St. George 17th March 1856

Para 3 To Col Cp. 15 10th January 1856

The Board alluded to a Memorandum which they suppose that the late Collector drew up on this subject, I can find none but as they may refer to a Memorandum apparently made by him on delivering over Charge of the Office in July last of the several Subjects Requiring attention, and in which Egmore is entered as the division to which the Survey should next be turned. I send the papers in the original.

10 I can find no other Record of Mr. Stokes preference to Egmore over the other divisions nor can any of the public Servants of the Office give a Reason for his opinion. If the survey is to proceed Continuously Either Ningambaukum Siruvallore Poodoopauk or Triplicane would be the next in order and I see no grounds for selecting Egmore before them. There will, I suspect be a good deal of Access land brought to account in all the divisions and all would equally cover the Expence of a Survey and Registry.

17 If the Extension of the Survey is decided upon I would Recommend an addition of 2 Peons to the Establishment which would stand as follows.

Surveyor

Fort St. George 17th March 1856

Survey Establishment	Surveyor	175	0	0	
	1 Assistant	50	0	0	
	Writer	20	0	0	
	Tidal	7	0	0	
	6 Lascars	16	8	0	
	3 at 6	15	0	0	283 8 0
Register Department	Register	40	0	0	
	Gomastah	21	0	0	
	Writer	20	0	0	
	2 Peons at 7 Rs each	14	0	0	95 0 0

18 Taking all the difficulties into Consideration I am of opinion that the Saint Thomes Survey progressed very Slowly. It is to be hoped that part practice will accelerate the measurements in future and doubtless the Department of Public Works will take Care that no unnecessary delay occurs.

19 Though I may be Relieved from all Superintendence of the Survey proper, yet I have to Request that Mr. Walker may be directed to present himself at my Office on Every Monday that I may satisfy myself that my Registry is keeping pace with his Measurements.

20 There has also been a want of that unreserved Communication which is so desirable between the Sheristas and Native Registers Departments and that of the Surveyor, that having Spoken to Mr. Walker on this subject I have no

Reason

Fort St. George 17th March 1856

reason to apprehend its Continuance I beg also that no alterations in the Establishments be made by him or fines imposed without my sanction-

21 Mr. Walker states that it will occupy him a week to draw up his Estimates for stationary and otherwise to prepare himself for commencing operations and that being engaged for six weeks or so in running his main and minor Traverses, he will not require the assistance of the Registers Department who will thus be enabled to complete the Registry of Saint Thome-

22 As the Board may wish to see it I send a Comparison of the measurements of the Surveyor and the Maistries of my Department in several instances in which the area had been separately Computed by these officers. No material difference is apparent-

23 Even at the more speedy rate at which we may expect the survey to proceed in future it will take many years I fear to map with the ones Establishment now Entertained the 6 or 8 Remaining Divisions-

24 If another Survey party could be formed the sooner would the now Concealed Lands be brought under demand and this Department the sooner provided with a Record of the particulars over which its supervision extends-

Proceedings thereon -

(487-488.)

Fort St. George 17th March 1856

Resolved that the above Re: -ported but the Registry of Lands which was intended to be Carried on Simultaneously with the Survey works is stated to be yet in progress and the Collector thinks

Fort St George 17th March 1856.

thinks that he will not be ready to report finally the extent to which the Revenue has been benefitted for the next three months but he has given what he considers a fair approximation to it which will be duly noticed -

Para 10

4 Mr Cunliffe attributes the delay in the Registers Department to the multifarious duties devolving on him and the uncertain nature of his work in the absence of Records from which to glean

Para 4 5 6 & 7

his information for Registry, Secondly to the changes made by the Surveyor in the number of the fields which obliged the Register to make three Copies of his Registry - Thirdly to the detailed character and Completeness of the Registers and Fourthly to the difficulty of procuring the punctual attendance of parties Connected with the lands and the production of their title deeds.

5 The Cost and Results of the Survey received in Connection with the benefit derivable to the Revenue by the undertaking

are

Fort St George 17th March 1856.

are very satisfactory -

Paras 9 to 12

6 The total Cost of the Survey and Registers Department is Rupees 8280 in-cluding an Estimate of Rupees 250 for Completing the Register and the assessment leviable in arrears for the last five years on lands which from Causes particularized by the Collector have hitherto escaped the payment of Quit Rent amounts as estimated by the Collector to Rupees 3000 of which he anticipates that about 1000 Rupees will be realized -

8280 X 1 Rs A P
3114 - 2-10-6

7 The Cost of the Survey has therefore been Covered by the amount due in arrear on lands newly assessed although the rate of expenditure per Cawnie is some-what high Viz Rupees 2-10 per Cawnie -

It is presumed however that both Departments will have acquired some experience during the past two years which is likely to render their future operations easier and more expeditious and Consequently less expensive -

Under

Fort St George 17th March 1856

8 Under the favorable results now laid before Government the Board do not hesitate to recommend the further prosecution of the Survey and would suggest that the Ningumu: Chakrum Division be taken up next as it adjoins the one already surveyed.

9 They would also support the Collectors application for an addition of two peons at 7 Rupees each to the Registers department.

10 With Regard to the Supervision under which the survey may be Conducted by Mr. Walker in future the Board are not desirous of altering exciting arrangements by which he is placed under the orders

Extract Minutes Con 25th Sept 1855
in Con 6th October 1855.
Board's Proceedings 6th October 1855

Bd. No. 437

From The Collector of Nellore.

Submitting a tabular Statement of a lapsed service Yeomiah in Nellore District for the orders of the Board.

Sir

I have the honor to submit herewith for the orders of the Board a tabular Statement of a lapsed service Yeomiah in this District.

The allowance in question lapsed so far back as January 1828, and the circumstance was duly reported to the Civil auditor under date 21st of January of that year, during the time of the late Collector Mr. Smith, and has not been since disbursed. In consequence of the different claims advanced to Yeomiah, the case appears to have been under inquiry for a long time; and the Statement not to have been sent up owing to some oversight, probably caused by the great extent of Enam business in this District. It has only very recently come under my notice.

Nellore District,
Collector's Office,
Cotah 4th February 1836

I have the honor to be
Sir
Your most obedient

Remarks thereon

489 490.

As the Service for which the Grant was originally made is still kept up, the Board of Revenue support the recommendation of the Collector that the Yeomiah and Enam land, Rupees 7-11-2 per mensem and 15/16 of a Goroo of Magany, may be continued to Goolam Nabee Saheb the Grand Nephew of the decreased, widow of the original Grantee, from the date of the last incumbents death, which took place on the 11th January 1848.

2 The Board regret that the case was not earlier reported, but observe that the delay is partly attributable to the numbers of applicants who laid claims to this Yeomiah and the numerous Enam cases requiring disposal in his District.

Bd No. 522

From the Acting Collector of Tinnevelly.

Sir.

1. With reference to your letter of the 8th December last, I have the honor to inform you that in consequence of the Cession to Travancore of the Village of Pooliary, as it was necessary to remove the frontier Chowkey which had been established there, and as the neighbourhood of Eluvjee in the Tencassy Taluk appeared to be a suitable place for the chowkey, a new building was erected at that place on an Estimate of Rupees 659-11-4 prepared by the Civil Engineer and sanctioned by Government under date 1st March 1833 and the chowkey was removed to it in February 1834.

I consider it desirable to continue the chowkey where it now is as a

2 guard to the pass.

3

Fort St. George, 17th March 1856.

3 I further beg to state that the precautions observed in permitting the transit of articles of "local consumption and petty traffic" from One part of Travancore to another through a Company's chowkey and which my Predecessor referred to in his letter of 18th October last are, that persons bringing such articles should produce to the chowkeydar of the Company's chowkey certificates from the Tahsildar or any other Officer in the employ of the Travancore circar to the effect that articles covered by those certificates are intended for consumption in the limits of Travancore, and that the chowkeydar should not allow to pass free of duty any articles that are not accompanied by similar certificates.

4 I fully concur in Mr. Bird's recommendation for the abolition of the petty duties referred to by him, which from the new position of the chowkey must be felt as vexatious.

I am &c.

Fort St. George

(493.)

B. No. 607.
From the Collr.
of Malabar

Submits a letter from Mr. Collett giving the result of his enquiries into the charges of corruption brought to against Eddathata Shangara Menon Tahsildar of Shernaad and for reasons stated recommends his dismissal from the Service.-

Dated 31st Jany. 1856.

Sir,

With reference to my letter of the 14th December last reporting the suspension of Eddathata Shangara Menon Tahsildar of Shernaad, I have the honor to submit a communication from the Sub Collector Mr. Collett giving the result of his enquiries into the Charges of corruption brought against the Suspended Officer.-

2. Mr. Collett is fully satisfied that the Tahsildar has been guilty of extortion that the amount extorted is much understated in his previous letter of the 19th November last.-

3. Of the 6 charges on which the Tahsildar was tried the Sub Collector considers that only in one Case is any legal

Fort St. George 17th March 1856.

legal proof procurable, Vizt. Case No. 4.

4. In this case 4 Moplas were summond by the Tahsildar on the ground of their being implicated in the Murder of the late Collector and detained before him until they paid Rupees 19. Of the sum charged to have been levied only 12 Rs. were proved to have been paid to the Tahsildar by the testimony of two of the sufferers.

5. The Sub Collector appears to me to have exercised a wise discretion in not committing the Tahsildar on this evidence to the Court.

6. Adverting however to the remarks of the Sub Collector in this letter and to the strong conviction formed by him of the guilt of the late Tahsildar together with the circumstances brought to light in my previous communication referred to in the first para I concur with Mr. Collett in opinion that it would not be advisable that Shangara Menon should be employed either in his former Office of Tahsildar or in any Subordinate situation and I therefore beg leave to recommend his dismissal from the service

Fort St. George 17th March 1856.

Service for which his evil courses, were there no other complaint against him render him in my opinion wholly unfit.

Calicut, 14th February 1856

/Signed/ T. Clarke
Collector

No. 1

No. 43
1856.

To
T. Clarke Esqre.
Magistrate of
Malabar.

Sir.

In continuation of my letters of the 19th and 24th November I have the honor to state that I have made every enquiry I could with regard to the conduct of the Shernad Tahsildar and especially as to the contributions levied by him from various Umshoms as stated in para 9 of my letter of November 19th I am now most fully satisfied as to the truth of this fact as also that the extent to which this species of extortion has been carried by him and his subordinates has been very much understated

understated by me in my former letter.

2. The Tahsildar by a letter dated the 2nd Instant requested a personal interview and I accordingly saw him the next morning. My examination was then in progress and he was uncertain of the result. His tone was almost abject. He said he came to ask for mercy he was prepared to admit that he had been remiss in his efforts to secure evidence as to the movements of the offenders in his Talook, he pledged though that he has been misled only by putting too much confidence in the Statements of others and especially of three or four of the principal Moplas whom he trusted he acknowledged that he now believed general contributions had been levied by his subordinates especially by his Peshcar and some of the Adigharries and that his own name had often been used in exacting them. He could only declare that he had not received a Rupee

out

out of these extortions, and from my objection that they appeared to have been too general to admit of his being ignorant of them, he took refuge in the lamentable defence of admitting that he was to blame for not knowing of, and checking the conduct of his subordinates. He finished up by intimating that he was prepared to resign the service at once. I took no notice to him of this last proposal tho' I communicated to you demi officially what had passed.

3. In the course of my enquiry into the extortions in the name of the Tahsildar I became satisfied that the Peshcar, a violent and disreputable public Officer, had also extorted considerable sums on his own behalf. I was able to secure proof which will I hope be deemed satisfactory in four instances of extortion. The sums received were small and I accordingly punished him to the full limit of the extended powers of a Magistrate.

4. In the case of the Tahsildar

tho

tho I have naturally experienced very much more difficulty in procuring evidence in the legal form. The extortions were of course much less directly made than by such a subordinate as the Peshcar and his Agents were Adhigarries and men of great local influence from their wealth and their position as Jenmies or landlords. They were further personally involved by having appropriated to themselves a very considerable share of what they levied on account of the Tahsildar. I am sorry to say that I am convinced that the sad habits of grofs intemperance into which the Tahsildar has of late years sunk have rendered him a despicable tool in the hands of other rogues and his own more clever boon companions. He has I am convinced become lost to all sence of self respect and propriety and is so ruined both in mind and body as to be incapable of an efficient discharge of his duty.

The

5. The more general contributions were, I believe, in the Umshoms of Melenary, Vengerra, Cunnamangalom Volakolum and Kodavagur. In the first the Adigharry and his Karnaven were the Agents. The former has only lately succeeded to the office, his Karnaven having resigned in his favor. The latter is a Nair of great wealth and unbounded influence being a very extensive land owner, He is a boon companion of the Tahsildar and I found the joint influence too powerful to allow of my procuring any evidence. tho I am perfectly well assured by my enquiries that the contribution was general and that the extortion began here, it having occurred in the latter end of September on the occasion of the Tahsildar visiting the Umshoms.

6. In Vengerra in like manner I am disposed to believe, tho my information is not so certain in this instance, that the Karnaven of the Adigharry, a very shrewd man, the

head

For. St. George 17th March 1856.

had of an influential family was the agent for levying the contribution. Of the Cases examined by me No. 1 and No. 4 were complaints from four or five of the inhabitants of this place. Of these No. 1 a charge of extorting 25 Rupees from a Mopla of some property, is, I believe, correct, though the occurrence was conducted so privately that the evidence falls short of legal proof, the man was sent for and compelled to dance attendance at the Tahsildars house and Cutcherry from morning till night for a few days. This annoyance and some significant hints of the possibility of further and more serious trouble had the desired effect. In No. 4 too the charge is also probably correct. four Moplas were treated in a similar manner and got leave to return home only on disgorging to the amount of Rupees 19. Of this though the actual payment of only Rupees 12 could be proved by the

For. St. George 17th March 1856.

by the testimony of two of the sufferers, and as this alone of the cases examined would admit of committal it did not appear to me desirable to send it up.

From Cunnamungalum I failed in procuring any evidence whatever though I am convinced that a general collection was made especially in the Ieheroor Deshom or division of the parish, the agent being a Mopla named Iakeer Rawrar a wealthy and influential person and the leading man in the Amshom.

Case No. 3 is from the Valakolum Amshom. I examined also verbally a large number of the inhabitants. The charge is undoubtedly true and the evidence proves that a very general collection was made in the name of the Tahsildar by the Adhigarry the threat held out being that otherwise the Mopla ryots would be sent in a body to the Talook and detained there. The Adhigarry though being the medium, the proof of the payment to the Tahsildar is wanting. The Adhigarry is a Nair.

Cases

Fort St. George 17th March 1856.

9 Cases marked No. 2 & 6 are from inhabitants of the Kadavagur Amshom The charge in No. 2 is. I think true, but the two men who paid the 13 Rupees paid it to the Adhigary (also a Nair) near the Tahsildar's house, and thus there is no proof of the payment of the money to the Tahsildar himself I am doubtful as to the truth of Case No. 6.

10. In Case No. 5 an inhabitant of another Amshom states that he was compelled to pay 13 Rupees in order to avoid being treated as some of his relatives were and charged with complicity There is no evidence at all in this case.

11 The sums in all the above cases / even if they are all true / are comparatively trifling in amount, but as the opportunity was afforded for making general Collections the total of such small sums would be great and the method of extortion used, the compelling a number of people to dance attendance at the Cutcherry for several days, from morning to night was only likely to be productive of small fees for for relief.

It

Fort St. George 17th March 1856.

It was too the safer method as there was in all cases a plausible pretext to allege for a compulsory attendance of a few days while the smallness of the sums extorted would be the best security against complaints being made. The Tahsildar did not probably feel himself competent to the more difficult but dangerous task of getting up false evidence with the view to make a few pay down some handsome bribes. I believe from enquiries I have now made that the sum named in my letter of November 19th does not probably represent a sixth part of the total collections made ostensibly on behalf of the Tahsildar.-

It is only necessary that

12. I should refer briefly to the perverse opposition of the Tahsildar to all attempts at procuring any evidence of the offenders having even entered his Talook till on the 16th October. I frightened him by a threat of immediate suspension - The indisposition of the Tahsildar before that to recognize the fact / now beyond all reasonable doubt / that the offenders passed through the

Melmurry

For. St. George 17th March 1856.

Melmurry Canamangalom, Vegerra and Kodavayur Amshoms may perhaps be now explained at least in part, by motives which were not at first so apparent.

I can only submit my opinion that it is for the advantage of the public service that the Tahsildar should be dismissed from his appointment and from a regard to the degrading habits into which he has fallen I would also recommend that he be declared incapable of being again employed in the service of Government.

From the Collector
of Madura }
O.S. No. 10 of 1856
on the file of
the Sub Court
of Madura

Sir,

I have the honor to transmit, Copy of a Plaint preferred against myself the Guardian of the Minor zemindar of Shevagungah and the zemindar's Uncle with a Copy of my proposed answer in behalf of myself and the Guardian.

2. The Minor's Uncle is the person who obtained an allowance from the estate under the sanction of the Court dated the 4th April 1843. This suit as regards the Guardian and myself is entirely vexatious.

Madura }
28th February 1856 }

/Signed/ R. D. Parker
Collector

Enclosure No. 1.

Translation of Original Suit No. 1 of 1856 on the file of the Sub Court of Madura.

Plaintiff.	Defendants.
Sataramien Son of Syatooryen a resident of Shevagungah.	1. R. D. Parker Esquire Collector of Madura 2. Ramier Guardian to the Minor Zemindar of Shevagungah. 3. Namasevayasawmy Perea Codiah Saven Uncle to the Minor.

The Minor's late Father was the undivided elder Brother of the 3d Defendant. Prior to the death of this his Brother in 1849 the 3d Defendant wrote to the Collector and gave the Plaintiff a Vakalutnamah, appointing him to be Vakeel on his behalf, in order to plead his/3d Defendants/ right to the zemindary. The 3d Defendant also executed

Fort St. George 17th March 1856

executed to Plaintiff an Agreement on Stamp paper on the 6th November 1849, promising that, in the event of his succeeding to the Zemindary, he would pay him /the Plaintiff/ for his trouble, Rupees 3,500, or, in failure of this, in the event of his success in any other way such as obtaining an allowance from Government, that he would pay him /Plaintiff/ Rupees 1500. The Plaintiff accordingly used his best endeavours for a length of time, to bring the matter to an amicable settlement, not only on behalf of the 3d Defendant but also on that of the 1st and 2nd /the Collector and the Minor/ who were then parties in the case, To the exertions of the Plaintiff is to be attributed, therefore, the satisfactory conclusion arrived at in that case, which has proved of advantage to all three Defendants Hence the 2nd and 3d Defendants /the Minor and his Uncle/ Common right to their ancestral property and the Zemindary, has been secured to them. The 1st Defendant /Collector/ accordingly reported in their favor to the Court of Wards, who authorized him to take the estate under his management, pay their Debts &c and grant them each an allowance from the funds of the estate proportionate to their respective claims and shares. The Plaintiff thereupon repeatedly requested the 1st 2d and 3d Defendants to pay him the promised amount for his trouble as the 2d and 3d are undivided relatives and the 1st Defendant their Protector. Their delay to pay is the cause of the institution of this suit. The Plaintiff therefore prays that the amount of the agreement, Viz. Rupees 1500 as also the interest accruing thereon from the date of this Plaint, may be ordered to be received from the Defendants and paid to him.

From the Collector of Trichinopoly

Sir

1. As directed by your Board's Circular

4435 Fort Saint George 17th March 1856

Circular No 3470 of date the 24th December 1855. I have the honor to submit for approval a Statement exhibiting the proposed minimum upset price at which the Melvany Farms and other smaller farms and licensis of this District may be disposed of at auction on rents for five years.

2. Your Board will observe that I have submitted all rents above 50 Rupees. Those below that sum I purpose to dispose of at my discretion through the agency of the Sahsildar, before whom the sale will take place and after Confirmation head from me made over to the successful Competitor. In every rent the period is to be for five years and the lowest price admissable to be equivalent to the average of ten years revenue previously obtained.

3. In the Statement now submitted for approval I shew the average rent for the past ten years, the rent of Fasly 1265 and the minimum upset price which last is so arranged as not to be too low or too high and such a rent as will give satisfaction.

4. The period is for five years, and the day of sale fixed for the 1st of June. By which date I hope to return to Trichinopoly from my Summabundy duties.

5. Should your Board accord their sanction to these rates. I request the notice of sale may appear in the Official Gazette, while the usual advertisements will be made here by me.

4440. Fort Saint George 17th March 1856.

№ 2.

Extract from a letter received from the Collector of Salem dated 20th February 1856.

2 The annicut was built in the Pambar river within the limit of the Karasulumpully Village for irrigating certain amany Villages and other Villages attached to the Moottahs Tandarully and Saladumpully It was breached in the year 1818, and has remained in a ruined state from that period. It is now proposed that the Government and the Moottahdars should Jointly defray the expense of rebuilding it Out of the Estimated sum of Rs 2550-—-, the share to be paid by Government will amount to Rupees 1570-8-5. The net return for this outlay from the Cultivation of Nunjah lands now waste, and Poonjah lands with wet produce, is estimated at Rs 507 from the former, and Rupees 225 from the latter, making a Total increase to the Revenue of Rs 732.-

3. Subsequent to the receipt of your Estimate, I reported on the Subject to the Board of Revenue, with reference to a Civil Suit preferred by the Moottadar of Tandarully regarding the required repairs, and the Case having been ultimately laid before Government, the Government decided that the repairs might be carried out, and they directed that the Estimate should be Submitted through the usual channel—

Bd. No. 674 From the Chief Sec. to Government. } Communicating the Observations and orders of Govt. on the opinions and suggestions contained in the Marine Bds letter dated 24th Decr. 1855 in reference to the application of the provisions of the Act XXII of 1855 for the Regulation Ports and Harbours and the levy of Port dues.—

No. 34.

Extract from the Minutes of Consultation Marine Department dated 21st February 1856.—

Read the following letter from the Acting Secretary to the Marine Board.—

/Here enter 24th December 1855./

In Extract Minutes Consultation dated 30th October last the attention of the Marine Board was drawn to the different Steps necessary to be taken Consequent on the enactment of act XXII of 1855 regarding the Regulation of Ports and Harbours and the levy of Port dues and the Board were desired to offer Suggestions and opinions on the several points raised

2. In the letter above recorded the Marine Board reply to this part of the Extract Minutes Consultation in question, and Submit Copy of a Circular addressed by them to the Collectors of the Maritime Districts and Lists of Ports to which that they are of opinion that the General and Special provisions of the act should be made applicable.

Sections

Fort St. George 18th March 1856

Sec. 41. "The several Ports within the said Territories" any such Port—

Preamble "Ports within the Territories in the possession and under the Govt. of the E. I. Company."

3. Sections II III XLI and XLII of the act render it necessary to declare all Ports to be subject to the operation of the act at which it is proposed to levy any Port dues, or fees whatever after 13th September next.—

4. Moreover act XIII of 1839 ceases to be in force in any Port river or channel from the time that such Port, river or channel is declared subject to the new act, it must be evident therefore that as supposed by the Marine Board a Port once placed under act XXII of 1855 cannot be replaced under the old act by which they are presumed to mean act XIII of 1839.—

5. In para 21 of their letter the Board propose that the existing rates of Port dues and Fees should be maintained under the new act "until time has determined the propriety of changing them." It will be pointed out to them that by section 12 of the new act the rates are limited to within a maximum to be hereafter fixed which precludes the possibility of maintaining existing rates where they exceed that maximum—

6. The Marine Board have been recently directed

Fort St. George 18th March 1856.

directed to collect the data on which to base the calculation for fixing this maximum rate for communication to the Supreme Government, and the Government desire that no time be lost in furnishing this information.

7. The Board do not explain by what principle they were guided in selecting the Ports enumerated in Appendix A of their report and which they propose to bring under the operation of the act.—

8. The Government observe that many Ports included in the appendix to the act VI of 1844 are altogether omitted and that others not included in that appendix and at which therefore merchandize cannot be shipped or landed / act VI 44 Section XXIV / are named in the Board's list.—

9. Among the omissions are the important Ports of Beypoor in the Malabar District and of Sedasheghur and Honore in Canara. Godafy which is included in the list of Canara Ports is an inland town.—

10. The Marine Board will revise the list of Ports submitted by them in reference to the above

above remarks and in Communication with the Board of Revenue. The Board of Revenue will also be called on to report to Government whether there are any Ports included in the appendix to act VI of 1854 which on Special grounds it is desirable to exempt from the operation of act XXII of 1855 Paumben was it is observed exempted on the 17th November last for three years by order of Government in Extract Minutes Consultation 27th.

11. The Government approve of the Boards

para 2. proposal that the Revenue and Engineer Officers of the Maritime Districts shall in Conjunction with the Master Attendant where there is one define the limits of the several Ports as required in Sections III and IV of the new act but it will be necessary that these parts shall be first settled as above ordered.—

12. The Board however in the latter part of para 2 of their letter do not seem to have caught the meaning of the reservation made at the end of Section IV of the act. This does not exclude any private land within 50 yards of high water mark from the limits of the Port as defined but saves the rights of private property

property in all land so included.—

13. The limits of the Port are to extend always up to high water mark. They may

See Preamble. also include any Piers. Jetties quays &c. made "for the Safety of Vessels and Convenience of traffic" whether within or without high water mark without reference to distance.—

14. They may further include any Portion of the Shore or bank within 50 yards of high water mark. Subject to the rights of private property in such land.—

15. The powers to be exercised over private property do not require to be defined. They are of Course those powers vested by this act in certain Officers for certain purposes. and which are either detailed in the act itself or will be set forth under the different heads of the Port rules which are to be prepared under Section VII.

16. With regard to the enquiry of the Board as to meaning of high water mark the only definition with which this Government are acquainted is that in act XI 1853 P. VIII Viz. "the ordinary line of high water at monsoon tides"

tides" but further enquiry will be made.—

17. In para 14 of their letter the Board propose that the Collectors of Maritime Districts should in Conjunction with the Master Attendant, frame Port Rules, as required by Section VII of the act and that "no vexatious rules" be introduced into the new Draft.—

18. The Government consider the Boards proposal to obtain from each Collector of a coast district a distinct Draft set of rules to be open to objection as calculated to cause unnecessary trouble and to be productive of no good result. A preferable plan would be for the Board to prepare a set of general rules which will admit of local application, and to circulate the draft to the several Collectors for their remarks. when finally, one general code may be framed and Special local rules added where necessary. They will of course submit their proposed Code of rules to Government whose orders are required to give them force.—

The

19 The Government think the Board should take the opinion of the local authorities on the proposal made in para 6 of their letter to extend the provisions of special clause XII of the act to the Ports named in Appendix C and submit their replies to Government, with a distinct application on the subject showing the reasons for its being made in regard to each Port.

20 Section XIII of the act does not appear to require to be extended in the mode proposed by the Board in para 7 of their letter - It makes mention of warps and warping generally and not merely of warping <u>into</u> port and appears to include already all that the Board deem to be desirable.

21 On para 8 of the Board's letter the Government would observe that, where there is a Master Attendant he is himself to be conservator under Section VI of the act and that, under Section XV to which the Board's remark refer he is authorized to cut or <u>cause to be</u>

Fort St. George 18th March 1856

be cut &c. Section LI and LII of the act also fully provide for all that the Board seem necessary and a careful perusal of them would probably have caused the omission of the observation contained in the para..

22 On para 7 of the Board's letter the Government remark that Section XVIII is undoubtedly and specially intended to be the compliment of Sections XVII and XVIII of the Act, and they also desire the Board's special attention to Sec LV LV LVIII and LIX of the act with reference to this and the other paras of their letter noted in the margin.. paras 12-13

23 These Sections provide ample powers for the recovery of penalties or expenses under the act and as the Advocate General has observed in the Extract from his letter which the Board submit in Appendix No 2 it is scarcely possible to use plainer language than that of the act itself..

24 With reference to para 15 of their letter it may also here be remarked

Fort St. George 18th March 1856

remarked that 6 months is the maximum amount of imprisonment which under act II of 1839 a Magistrate can award where no special term of imprisonment is provided in default of payment of any Fine In the case however referred to by the Board under Section XXV of the act, under consideration, the penalty might if necessary, be levied by sale of the vessel under Section LV

para 10 25. Undoubtedly this Government is such a local Government as is contemplated by Section XVIII of the Act and can pass either a general order to meet ordinary cases of the kind referred to in this and the two preceding Sections, or a special order when necessary, both being distinctly provided for in the act and the Board should after due consideration report what appears to them necessary in the matter.

para 13 26 The powers here stated to be desirable can, it would seem, be provided under the 2d and 7th Heads of the new Port Rules..

27 All that the Board state to be desirable can be effected under

under Section XVII of the Act and the 5th Head of the Port Rules.

para 16 28 The 12th Head of the Port Rules should provide what appears to the Board necessary in connection with Section XXVI of the act.

para 17 29 The Government observe that Section XXVII of the act does not render the act against which it is direct: ed / that of drawing off spirits by candle light and other artificial light) absolutely penal - but simply liable to punishment, leaving to the Magis: trate a discretion according to the circumstances of the case.

para 18 30 Section XXVIII is a special clause requiring to be extended to any Port by a special order of Govern: ment when any difficulty exists to conforming to its requirements, its ap: plication had better not be re: commended.-

31. The Government observe here that in paras 11 and 19 of their circular letter to the Coast Distric Collectors the Board appear to have lost sight of the special character of Section XII and XXVIII of the act.

The

paras 19. 20. and 24 32 The Board should ascertain clearly where it is desirable to erect buildings for storing Gunpowder under Section XXIX of the act, and make a distinct proposition in the matter - stating in each case the Officer who should receive charge of the powder before whom the declaration required by Section XXXI of the Act is to be m made Section LVII provides for payment of the necessary expenses for moving the powder. The Officers authorized to seize Powder are named in Section XXXV no special process seems re: quisite. It is probable that nearly all vessels arriving at this Presidency will deposit the powder at Madras itself.

para 21 33 The subject of this para was disposed of in the early part of these proceedings of Government.-

paras 22 & 23 34 Section XLIV of the act requires that all receipts and exc: penses connected with any Port exc: clusive solely of those regarding Pilotage should be entered in the account

Fort St. George 18th March 1856

account ordered to be kept but it does not appear necessary that all expenditure should be limited by the amount of available assets to the credit of each Port.

Para 25 35 There does not appear any need to define in the Port Rules the time and place for making the report of arrival required by Section XLVI of the act as proposed by the Board. The report is to be made within 24 hours after arrival and to the consignee or Consignee's Agent as prescribed in the Section and it may be made during the usual Office hours.

Read the following Extract from the Proceedings of the Board of Revenue -

Submitting a letter from the Collector of Chingleput reporting the death of Arunthavayen Moodeliy Shrotriemdar of Velapanchery and recommending that the Shrotriem be continued to the surviving children of the family for their lives. -

(Here enter 1st February 1856. - No. 318.)

1. This Shrotriem was granted for three lives, and the third natural life has now lapsed. The Board however recommend that in consideration of the short term of the several lives the Shrotriem may be continued to the four sisters of the deceased, for their lives -

2. In a former case of a Shrotriem on similar tenure it was held by the Pundits of the Suder Udalut that under the Hindoo law three brothers constituted only a single life, and this opinion was acted by Government. The present case differs from that in a material point, Viz. that the surviving issue are daughters and not sons. Admitting the Pundits opinion, therefore to be good law, it would not rule the present case. The Government fully recognize the claim which this case possesses to liberal consideration, but they are desirous in the first instance to ascertain what is the strict law of it. With that view they resolve to request the Board of Revenue to put the whole of the papers in the hands of the Government Pleader, for his opinion as to the right of the Surviving sisters of the deceased in point of law -

Read the following Papers:

From the Master Attendant ..... (Dated 7th December 1855.)

Extract from the Proceedings of the Government of India in the Financial Department ..... (Dated 20th November 1855.)

Para 17. With respect to the shipment of Salt from Ennore and the despatch of boats for that purpose from Madras to which objections are urged in paras 12 and 13 of the Master Attendants' letter it is observed that this subject was lately considered in the Revenue Department and that the greater part of the salt will be shipped for the future at Madras. -

Extract

Fort St. George 18th March 1856.

Extract from a letter from Captain Biden Master Attendant Dated 7th December 1855.

12. There is also an evil which has been much complained of and that is the re= =cent demand for the despatch of boats beyond the limit of the Port to Ennore for the purpose of lading Ships with Salt at Ennore Tenders are invited and accepted for the freight of Salt to Calcutta and unless boats are pro= =vided the contract cannot be performed - On the one hand the interests of Government are concerned and on the other the shipping and mercantile interests derive an advantage, Commanders of Ships and their respective Agents engaged in this lucrative trade press for the supply of boats and complain of their requisition is not complied with whilst other parties, suffering from the want of boats in the roadstead very justly urge their demand, and plead the delay an inconvenience occasioned thereby -

13. As an effectual remedy I would suggest the transport of Salt by land or water carriage from the Salt godowns at Ennore

Fort St. George 18th March 1856.

Ennore to some eligible spot for shipment at Madras. sending boats to that distance for the lading of each Ship. and their relief of boats when another ship is ready to receive Salt involves a considerable = expense which would very materially be reduced if that article could be stored abreast the roadstead.

(True Extract)
(Signed) T. Pycroft.
Chief Secretary.

---

1. Ordered to be communicated to the = Board of Revenue. The Government are very = anxious that both the storing and shipment of Salt at Ennore should cease as soon as possible. It appears from the letter from the Collector of Madras dated December 6th 1855 that this = consummation is likely to be delayed by the want of water in the Canal: but it should = be kept steadily in view. The Government = do not at all admit the reason for con= =tinuing shipment of Ennore stated by = the Collector in paras 15 and 16 of that letter. Viz. that it should continue till the mer= =chants will undertake the conveyance of

the

the Salt from the platform to the beach, in the case of shipment at Madras.

2. The Government resolve also to call on the Chief Engineer to report on the proba-bility of the navigation between Madras and Ennore being kept permanently open in future years, when the improvements in the Canal now in progress and contemplated shall have been completed.-

No. 271.

From the Secretary to Government — Extract from the Minutes of Consultation Under date the 7th March 1856.

Read the following letter from the Acting Secretary to the Board of Revenue.

Submitting correspondence from the Collector of Coimbatore on the subject of the Raders employed by

by the forest conservancy in the Annamalay Hills and suggesting with a view to secure the services of this tribe in watching the Forests that application be made to the Cochin Government to lease the strip of Jungle lately ceded to them. (Here enter 25th January 1856 No. 222)

1. With this letter the Board submit a correspondence with the Collector of Coimbatore on a proposition of the Acting Superintendent of the Annamalay Forest to rent for 600 Rupees a year the right of gathering wild cardamoms in the strip of Forest recently ceded to the Cochin Circar in order that a body of about 200 Raders who have hitherto marked for the Forest Department may not be induced by the loss of the liberty to collect cardamoms in that tract, by the sale of which produce it is stated they chiefly maintain themselves to settle entirely in the Cochin Territory.

2. The Right Honorable the Governor in Council observes that the Cochin

+ Extract Proceedings Board of Revenue 23d April inclos: 1st May 1856.

Cochin Circar+ have already declined to lease the forest in question to this Government, and he considers it extremely improbable with reference to the endeavours stated in the present correspondence to be made to induce the Raders to settle in the Cochin Territory that the Circar will accede to an application of the nature now recommended. He must therefore decline to make the application -

3. In their letter now before Government both the Collector and the Acting Superintendent of the Annamalay Forests indulge in expressions signifying the strong belief that the cession of the tract of Forest alluded to was a sacrifice of the just rights of this Government. The Right Honorable the Governor in Council regards such language as in a high degree unbecoming and improper, and he peremptorily prohibits it for the future in official correspondence - The merits of the opposing claims to the Forest tract in question were very

very carefully considered by Government and independently of the deliberate opinion given in favour of the Cochin by an able officer of their own, and one well qualified by local knowledge to form a judgment Captain Horsley they were fully satisfied themselves that the right lay on the side of that Circar - It is not surprising that local officers viewing only one side of the case, should conceive a strong opinion in favour of that side; but it is both arrogant and disrespectful thus to set up those one sided opinion in

Fort St. George 18th March 1856.

in opposition to a decision deliberately arrived at by impartial judges on a careful consideration of both sides of the question.—

Bd. No. 812

No. 272

From the Secretary to Government.

Extract from the Minutes of Consultation Revenue Department Under date the 7th March 1856.

Read the following letter from the Secretary to the Board of Revenue.—

Submitting with the Boards observations a letter from the Collector of Coimbatore regarding the Kaders and Mulcer Tribes who inhabit the Annamalay Forest, and recommending that sanction be granted for an outlay of Rupees 1550 to be appropriated towards reclaiming these tribes from their present state of degradation. . . .— (Here enter 6th February 1856 No. 537)

With this letter the Board submit a proposal from the Collector of Coimbatore that an attempt should be made on the part of Government to reclaim the Kaders and Mulcers of the Annamalay range from their present indolent habits and degraded condition, and to teach them agriculture with this view it is proposed to supply these people with the necessary tools and cattle, and with temporary means of subsistence while engaged in cultivation to dig wells for them, and to employ a Superintendent for two years on a salary of 12 Rupees per mensem to direct their operations. The total sum asked by the Collector for the experiment is 1550 Rupees. The numbers of the Kaders and Mulcers living within the Company's limits of the Forest are given at 164

and

Fort St George, 18th March 1836.

and 2167 respectively. The former who live on the top of the Hills are stated to be some what superior to the Mulcers who dwell at their foot, but both are tribes are ignorant of Agriculture and subsist on the produce of the jungle, enduring the usual privations of savage life.

2 The Right Honorable the Governor in Council observes that the experiment of endeavouring to induce ignorant and uncivilized tribes to settle down to cultivation has been tried both with the Cherrers in Malabar and with the rescued Meriahs in Ganjam, both in some degree familiar with agricultural pursuits. But the attempts failed after considerable expence had been incurred, and similar results it appears from the Collector's own letter, have attended previous attempts to reclaim the Hladers, owing as he himself says to their preference of a life of indolence. His Lordship wholly distrusts the effects of such forced and artificial endeavours to change social habits he regards with more satisfaction and hope the fact that these people are willing to work for the Forest Department and he would look to the gradual effects of such employment, rather than to such measures as

Fort St George, 18th March 1836.

as are now proposed, as holding out a prospect of their gradual reclamation to the habits of civilized life. He is unwilling however to discourage any efforts so benevolent in their object, and he accordingly grants the sum of Rupees one thousand five hundred and fifty to be expended in the mode proposed. Mr. Thomas will be requested to submit a report after the lapse of the first year of the measures which he may have taken and of the results.

1 The Right Honorable the Governor in Council proceeds to pass orders on the letter in this Department from the Honorable the Court of Directors dated 23d January 1856 No. 2.

In reply to letter forwarding a petition from Vuddavummal the widow of the late Soolochenum Moodeliar, and recommending that a life pension of fifty Rupees per mensem may be conferred on her,- Honorable Court are of opinion that it would not be becoming that the widow of an individual who has not only conferred public benefits on the country but has also caused by the expenditure of his own money a pecuniary saving to the Government should be left in destitution While therefore the Court regret the state to which Vuddavummal has been reduced, they have much pleasure in sanctioning the grant to her of a life pension of fifty Rupees per mensem, on the clear understanding that it rests on the fact of her present destitute condition and the character of the benefits rendered to the Government and to the community at large by the liberal expenditure of her deceased husband and they desire that measures may be taken to make the grounds on which it is granted publicly known.

2 Ordered that a Copy of this Dispatch be furnished to the Board of Revenue with reference to their Secretary's letter dated 23d August 1855 No. 2204 with instructions to communicate to Vuddavummal widow of the late Soolochenum Moodeliar that the Honorable Court of Directors have authorized a life pension of Rupees fifty per mensem to be granted to her which will commence from the 29th February 1856 the date of the receipt of this Despatch The Board will explain to Vuddavummal the considerations under which the Honorable Court have sanctioned this grant and will also take the necessary measures in compliance with their desire to make publicly known the grounds which influenced them in authorizing this provision.

From.

H. Young, Esqre
Chief Secretary to Government
Bombay Castle.

To,

J. D. Bourdillon Esqre
Secretary to Government of Madras.

dated 25th January 1836

Sir.

I am directed by the Right Honorable the Governor in Council to acknowledge the receipt of your letter No. 1098 dated the 29th September last, with enclosures, relative to the destruction of timber in North Canara by the Coomery System of Cultivation.—

2. In reply, I am desired to request the attention of the Government of Madras to the observations made in the annexed Copies of a letter from the Revenue Commissioner, Southern Division, No. 3723 dated the 22d Ultimo, and its enclosed Communications from the Superintendent Revenue Survey and Assessment, Southern Mahratta Country, and the Conservator

of

Fort St. George. 18th March 1836

of forests, and to urge on that Government, the advisability of further considering the Subject.—

No. 37 23 of 1836.

From.

Territorial Department Revenue

W. W. Reeves Esqre

Revenue Commissioner

Southern Division.—

To.

W. Hart Esqre

Secretary to Government

Revenue Commissioners Camp, Belgaum

Sir.

22d December 1835.

I am acknowledging the receipt of your Memorandum. No. 1625. dated 2d November forwarding Copy of a letter from Mr. Bourdillon, Secretary to the Government of Fort St. George, and of its accompaniments on the Subject of the timber in North Canara. I have the honor to request that the accompanying letters from Captain W.D. Anderson * and Dr. Gibson † may be laid before Government.

2

Knowing as I do that both Captain Anderson and Dr. Gibson are well acquainted with the forest referred to, I cannot but feel their remarks as deserving of serious consideration and

* No. 2313 of 30th Ultimo

† No. 2336 of 15th Instant.

I.

Fort St. George. 18th March 1836.

I do not hesitate to recommend them to the consideration of the Right Honorable the Governor in Council.

3 To the Correctness of Captain Anderson's remarks on the Beedee and Sadashapoor forests of Belgaum Collectorate, I can bear testimony having vainly endeavoured for several years to check by every means short of positive prohibition, the destruction of the timber of those forests which was occasioned chiefly by Coomery Clearings.—

4 The preservation of the forests in North Canara is a most important Subject, and appears to me to call for further attention. If it should hereafter be found that after all the measures adopted by Mr. Malthy are inappropriate or insufficient, and that they have resulted in irremediable loss to the State, the regret of both this and the Madras Government will be great, and Mr. Malthy will share in it, but it will be too late. If therefore the Right Honorable the Governor thinks it can be done, I would respectfully suggest that another reference be made to the Madras Government, with the view of procuring the

From Fort St George, 18th March 1856.

the further discussion of this Subject.

No 313 of 1855.

Assessment S.M.C.

To,

H. W. Reeves Esqre

Revenue Commissioner, Southern Division

Superintendents Office,

Mahabuleshwur, 30th November 1855.

Sir,

I have the honor to return the Correspondence noted in the Margin* as requested by your Memo: No 3253 of 1855, dated 7th November, and beg to be excused in offering the following remarks on the letters of the Secretary to the Madras Government, and Mr Maltby, Collector of Canara.

2nd The Secretary to the Madras Government states "that the provision which has been made for the "administration of North Canara, the great "improvements which have been effected in

* Supt.t letter No 32 dated 6th Feby. 1855
Supt.t letter No 51 dated 21st Feby. 1855
Secretary to Madras Government's letter No 1098 dated 29th September 1855
Canara Collectors letter No 57 dated 12th June 1855

From Fort St George, 18th March 1856.

"in it of late years, and its growing prosperity, all "shew that Captain Anderson's representations as to "the Condition and Management of that part of "the Country, are founded on incorrect information."

With all deference to the Secretary of the Madras Government, I beg to request attention to the fact that my letter in question contained not one word regarding the prosperity or otherwise of Canara, my letter was confined to a consideration of the waste and destruction of timber in the North of that Collectorate, a matter very nearly affecting the welfare of the districts situated to the eastward.

3rd I know not whether the Secretary to the Madras Government had other sources of information than those supplied in the letter of the Collector of Canara, I presume, not, as none other are alluded to; the Statements in my letter were entirely made from my own personal observation, and are by no means contradicted in any way in Mr Maltby's letter† who fully admits the great damage and waste which prevailed under the former System, and after in detailing the measures he has introduced for the prevention of this waste

† Para 13.

States

† End of paras 18 & 28.

States† that he cannot vouch for the strict observance of the rules in question. the necessity of additional strictness on this point is also fully admitted in para 3 of Mr. Bourdillon's letter.

4th I was fully aware that rules regarding the Conservation of the Forest had been made, this I had learnt from the Superior Native Officials in the district, from personal observation I learnt that these rules were not very strictly observed, beyond all doubt with the connivance of the inferior native Officials.* Shambognes Potells &c. and there is no doubt that notwithstanding all rules. the destruction has much increased of late years the main sources of destruction being the felling and lopping of trees for fodder by Gowlees to graze their Cattle on the tender branches, and the extension of Coomery Cultivation, the former cause of destruction, no light one, is not noticed by Mr. Maltby. rules have, I believe long existed in restriction of these depredations, the difficulty of securing the cooperation of

* Admitted by Mr. Maltby Para 11.

of the Native Officials in obtaining the observance of which was deplored by Mr. Poulton, Sub Conservator of Forests, two last year, it may have been accident that brought under my very limited scope of observation few such Cases of infringement of the rules but most of the new Coomeries which I can call to mind are situated in one or other of the localities in which Mr. Maltby states Coomery Cultivation to have been prohibited. —

5th Mr. Maltby appeals to returns to shew that Coomery Cultivation has much diminished of late years, Consequent on the abolition of the Bill Hook tax and the imposition of late years of a tax of one Rupee for every acre cleared, and two Rupees for every acre in excess. In the Beedee and Padshapoor Talooks of Belgaum, a similar result was looked for from the imposition of a 12 annas tax per acre and, if returns are to be believed, with effect an inspection of

of the Jungles however will shew that while the acres of Coomery and the revenue derivable therefrom has decreased that Species of Cultivation has increased. If Government demand 12 annas per acre, it is far Cheaper to pay 8 annas per acre to the Potel and Toolkurnee and the higher the tax is pitched, the greater the inducement to Concealed and fraudulent Cultivation, the ascertainment of the amount of Coomery Cultivation depends on the Statements of Native Officials, for the checking of which by trustworthy Agency, no provision can be made it is an axiom that there is no incentive to Smuggling like excessive taxation, knowing the effect of the higher rate in the Belgaum Collectorate. I trust I may without presumption doubt the efficiency of the high rate imposed in Checking Coomery Cultivation to the extent Mr. Mallby expects. Though I doubt not its effect in reducing the amount of this Cultivation brought to account. I have had some experience in the Ghat districts.

of

of Belgaum, and the only effectual remedy there has been found to be restricting Coomery Cultivation within certain fixed limits, where little harm can be done to valuable forest and where the returns of Cultivation are more Capable of being efficiently checked.

6th With reference to the transfer of the tract in question to Dharwar or Belgaum, the Justice of the reasons brought forward in my former letter appears admitted by Mr. Mallby in Para 18 "the greatest Consumption and waste of timber has been "on the frontier, and it is there that it is most "difficult to establish due Control." Distance from the Seat of authority appears to be the admitted cause of difficulty, and the remedy appears to be that proposed lessening the distance between the seat of authority and the place where its exercise is needed.—

7th Mr. Mallby has somewhat misunderstood my remarks regarding Conflicting interests being engaged, he admits + that till recently to turn the Jungle to account in any way was an unmixed good, of unmixed good perhaps to Canara but not

+ Para 16 of Mr. Mallby's Letter.

So.

Fort St. George. 18th March 1856.

So to the treeless districts to the east and North eatward where timber is yearly becoming more scarce and expensive. there is no want of timber in any part of Canara, or I imagine many parts of the western Coast of the Madras presidency. the ghats there being every where heavily wooded, and so therefore the necessity of preserving strictly what still exists is not very strongly felt in Bombay the case is different on the ghats from the Canara frontier to a line with Bombay itself. I doubt if any quantity of what deserves the name of timber remains. if any, so Such is wanted it has to be brought from forests to the Northward of from Canara. so the Strict Conservation of the Canara forest is becomming a matter of more vital importance to the Deccan than appears to be admitted even if it did consist of the million of acres at which Mr. Maltby estimates its area, somewhat largely it seems.

to

Fort St. George. 18th March 1856.

to me.

Sir. I should be obliged by your forwarding these remarks of mine to D. Gibson, that he may corroborate or correct any of the Statements I have made.

No. 1236 of 1855.

From.

The Conservator of Forests.

To. The Revenue Commissioner Southern Division.

Camp: Neelpbar. 15th December 1855.

Sir, I have had the honor to receive your letter under date 3rd Instant, No. 3538 (with Accompaniments) wherein you request from me any remarks or suggestions I may have to offer on the Subject of the Soonda forests

In reply, I beg respectfully to State, 2 that as Captain Anderson has fully discussed most or all of the particulars bearing on the question. I need do little more than State here my Cordial Concurrence in the view he has taken of this important question.

Our.

Fort St. George, 18th March 1856.

3 One or two points however Connected with the case appear to demand Separate notice In paragraph 11 of Mr. Maltby's letter it is stated that the Soopa Taloks. is one vast Jungle of a million of acres.—

now taking the extreme breadth say from Pitchulla to Woolver on the South and from Sambrane to Inggulpait at the Northern end I should doubt if we can throughout get a breadth of more than 20 Miles each way.—

Of this however a very large portion Consists of spaces. now open or filled merely with grass and bamboos, while an equally large space especially on the Eastern side in a line from Anoorla to Soopa eastwards Contains little or no building timber but only the smaller green leaved trees peculiar to the ghats.

4 The quantity of land Containing teak or other timber available for building must, in my opinion, be under 2,50,000 acres. to say nothing of the large tracts which have been recently burned and cleared.

I.

Fort St. George. 18th March 1856.

5 I cannot Concur in the opinion expressed by the Collector in paragraph 13th. that the Balaghat has not Come to that State where cultivation Should be checked and where it is very seldom decided otherwise than to give the land out for Cultivation.

6 Knowing as we do that it is only in the Soonda portion of the Balaghat Forest that Teak and Blackwood fit for Ship building are found in any quantity I cannot but most earnestly deprecate the indiscriminate and whole Sale destruction of these woods as here Contemplated particularly, when at the present moment we are put to every Shift to procure Superior timber at any price, for that in the Anamala Forest and Malabar Forest cannot be brought to the Coast in an entire state, under existing State of the Communications.

Even at the present time, when the Bombay

7 Railway managers are demanding of me Sleepers to the extent of 1,50,000 for present wants. I point out to them the extensive forest of Yeroor wood, which stretches from Soonda North towards Sirsee, and tell them of the extensive and apparently increasing destruction of what would have otherwise been an inexhaustible Supply. vide forest report for 1853-4. 1853. para. 18.—

It appears time then that we have strong

reason

8

reason to pause in our efforts at clearing away the best of those forests, for to the South in Canara neither Teak, Blackwood nor Yeroob are obtainable in any quantity or of any Size.

9 Still more important are the Poon Spars which may be observed standing in many places burned up and useless. If we consider that one of these Poon Spars Costs the Government from 600 to 850 Rs, the necessity for establishing some limit other than that afforded by the Judgment or conscientiousness of a Committee of Gowras (Patels) and Shanbogues, as to the destruction of Forest, will I think be apparent.

10 Mr Mallby in Paragraph 21. States, that Dr Gibson appears to have received a false impression as to the present state of the Coomery Cultivation but one which he might very easily receive in a hasty Journey through the Balaghat.

Now I beg respectfully to observe, that my impression has not been received in the Course of one Journey along a made road, such as that from Pitchulla to Sambrane, but I have repeatedly traversed the Forest by Jungle paths in different directions, and when I have seen in such hurry Teak Seesoo and other valuable trees lying about in a burnt state for miles, as for instance, I have had occasion to observe in route from Woolur to Goa I am at a loss to Conceive how the impression I received

Can

can have been a false one.

11 I now take leave of the Subject, earnestly hoping that the increasing wants of the Naval and Public Works Department may lead the authorities to pause in a Course which experience is daily showing us to be one of reckless waste, and which is ever now telling most materially on the price of Timber for Ships, Railroads, and Public Buildings to say nothing of the extending demands of the Ryots in our treeless districts of Dharwar and Bellary to the east.

/True Copies/
/Signed/ H. Young.
Offg Secy to Government

With this letter the Bombay Government forwards in reply to one from this Government of the 29th September last, Copy of a letter from the Revenue Commissioner Southern Division, and of its enclosures from Captain Anderson, Superintendent Revenue Survey and Assessment, and from Dr Gibson, Conservator of Forests, and urges on this Government the desirableness of giving further Consideration to the subject of the alleged destruction of timber in the Forests of North Canara by the Coomery system of Cultivation.

2 In his letter to the Revenue Commissioner Southern Division, Captain Anderson states with reference to Mr Mallby's letter to the Board of

Revenue.

Fort St. George, 18th March 1836

Revenue of the 12th June 1835. that although rules have been established for the preservation of the Forests, those rules are not very strictly observed, inconsequence of the Connivance of the inferior Native Officials. and that the destruction of timber has much increased of late years. The waste, he observes, is occasioned on the one hand, by the felling and lopping of trees by Cowlees to feed their Cattle, and on the other, by the extension of Coonery Cultivation. He remarks that the former source of destruction, though not a light one, is not noticed by Mr. Maltby. and that most of the Cases of new Coonery which he can call to mind are situated in localities in which Mr. Maltby states that species of Cultivation to have been prohibited.

3 From results which have followed a similar measure in the Beeder and Padshapoor Talooks of Belgaum Captain Anderson doubts the efficiency of the increased tax imposed by Mr. Maltby to check Coonery Cultivation, and he argues that its tendency is rather to encourage Concealed Cultivation and fraudulent returns. From his experience in the ghat Districts of Belgaum, he believes that the only effectual remedy is to restrict Coonery within Certain fixed limits, where little harm Can be done to valuable forest, and where the returns of Cultivation are more Capable of being efficiently checked. In Conclusion, he argues in favor of the transfer of the Soopa Jungles to the Dharwar District as the

Fort St. George. 18th March 1836

only means of duly preserving them.

4 Dr. Gibson expresses his Cordial Concurrance in the views expressed by Captain Anderson. He gives an estimate of the extent of land in the Soopah Talook containing teak or other building timber at not more than 250 square miles, and he earnestly deprecates the indiscriminate destruction of Teak and Blackwood which he supposes must follow the modes of dealing with the upper forests advocated by Mr. Maltby. With reference to Mr. Maltby's belief that he had received a false impression regarding the present State of the Coonery Cultivation, he states that his views are the result of actual observation while repeatedly traversing the Forest by Jungle paths in different directions, on which occasions he has seen Teak Seesoo, and other valuable trees lying about in a burnt state for miles together.

5 The Right Honorable the Governor in Council fully recognizes the great importance of checking the destruction of timber in the forests of North Canara, and as the statements made both by Captain Anderson and Dr. Gibson on

Fort St. George 18th March 1856

on their own personal knowledge are so strong and so plain. His Lordship in Council resolves to refer the foregoing letter and its accompaniments through the Board of Revenue to the Collector of Canara for his careful Consideration and further report as to the proper means to be taken both effectually to restrain Coomery Cultivation, and also to prevent the reckless waste of timber by the Gowlees, noticed by Captain Anderson.

Acting Secretary to the
Board of Revenue.

549

B. No. 228

From The Collector of Coimbatore

Forwards the Statements connected with the Land and Extra sources of Revenue for Fusly 1264 amounting in the aggregate to Rs. 24,33,876-6-9 and shewing a decrease of Rs. 104,502-15-9 below the past year.

Land Revenue
Result of settlement.

Sir.

I have the honor to transmit statements connected with the Land Revenue settlement of this District for 1264 / 1854/55. together with the accounts having reference to Moturpha Revenue and other items as directed in the Boards Circular No. 1553 of the 21st June 1855, and beg leave to notice each description of Revenue in the order in which it occurs.

2. The rental of the present Fusly year amounts to Rupees 22,29,627. and when Contrasted with the Settlement of last year shews a deficiency of 1,03,979 or 4 per Cent as exhibited in the Memorandum below. this decrease large as it is, has been caused by the relief granted to old Cultivated gardens and by remissions for waste lands, but the details in Connexion with these remissions will be given in their proper places.

Stems.

For. St. George 18th March 1856.

Items	Revenue of Fusly 1263	Revenue of Fusly 1264	Decrease
Ryotwar	230265 8 4	219728 6 3	10397 8 13 1
Shotriem Jodigay &c.	951 " 9	951 " 9	" " "
Quit Rent	3369 15 9	3369 13 "	" " 2 9
Total	230586 8 10	220160 7 "	10397 8 15 10
Poligars Peishcash	28019 9 10	28019 9 10	" " "
Grand Total	233306 2 8	222962 4 10	10397 8 15 10

1254	222,0060	5 3
1255	22,20,122	10 4
1256	215 7877	14 10
1257	23 3232	" 8
1258	234966	3 "
1259	2340902	7 9
1260	2348861	4 4
1261	23,20682	15 4
1262	23,33606	2 8
1263	2342182	" 1
Total	22966407	" 3
average per annum	2296640	11 3
1264	2229627	2 10
Decrase	67013	8 5

3. Comparing the present demand with the average one of the last 10 Fusilies, the decrease pointed out is reduced from 10397/9 to 67/014 Vide Margin - which with a very few good Seasons will be more than repaid by extended cultivation.

Where Conducted

4. In the Talooks comprising my Division and under the Head Assistant Collector, the Settlement was conducted at the Cusbah Towns, and the Puttahs distributed accordingly, excepting in two instances in Collegal the destribution was made both at Cusbah and at Honoor, and in Danaikencottah, Puttahs were given at Streenoor gah and Cotamungalum such an arrangement having been very desirable to meet the convenience of the Ryots the Sub Collector appears to have made the settlement

For. St. George 18th March 1856

settlement in two or three stations in each Talook, and to have distributed the Puttahs in the same way, as will be seen from para 2 of his report.

5. In Conducting the Jamabundy of the present year, the object and principles of the garden remissions, were explained to every Ryot, both by myself, my subordinates, and Native officials - and in fact they are so generally known and appreciated that I have little doubt that every piece of garden fit for cultivation, will in a short time be assiduously sought for and occupied to the advantage of Government and the Ryots.

Villages and Tenure

6. The following statement shews the number of Villages and hamlets whether Ryotwar, shotriem Jaghire or Poliput in comparison with the number in 1263.

Description

Fort St. George 18th March 1856.

Description	Populated or otherwise	No. of Villages 1263	No. of Villages 1264	No. of Villages Increase	No. of Villages Decrease	No. of hamlets 1263	No. of hamlets 1264	No. of hamlets Increase	No. of hamlets Decrease	Total 1263	Total 1264	Total Increase	Total Decrease

Paccoody.

7. A Village in Collegal which was paying a Motupha Revenue of 1 Rupee year on account of honey rent, was deserted this year inconsequence of the rent having been given up and one in Danaikencottah was newly peopled the revenues derived from lands brought under Cultivation amounting to Rupees 35—— 9 hamlets were altogether deserted in the said

Manthoray

Talook

Fort St. George 18th March 1856.

Talook the Ryots having proceeded to other Villages in the neighbourhood, which will account for the increase and decrease observable in the above Statement. the nature, description of the hamlets and the cause of their frequent relinquishment having been given in para 6 of my report on the settlement of 1263. further explanation seems uncalled for.

8. The Bechary or deserted Villages, in which their is neither Cultivation nor population, amount to 33 in number they are situated in Jungles in the Talooks of Danaikencottah, Luttimungalum, and Coligal, with an anyacut value of Rupees 13549- They are now what they were many years ago. a mere entry in the accounts, without any return whatever. every attempt to render them profitable

appears

Fort St. George 18th March 1856.

appears to have failed. There can be no doubt that some of them at least were in good condition long before our assumption of the country, and it occurs to me whether instead of Reping them useless as at present, it would not be advisable to give them up, on rent for a number of years, for an annual discretionary payment - I am not certain that by such arrangement, all such Villages will be rented, but I am inclined to the belief that some of them may be so, and gradually brought under the plough.

Irrigation

9. Detailed information in respect of the principal Sources of irrigation having been given in the report for Fusly 1263, a repetition of it seems unnecessary the annexed Memorandum merely

Fort St. George 18th March 1856.

exhibits the number of channels and Tanks in the District with their Cuyacut in the aggregate. the cultivation is less than the Cuyacut being about 13 per Cent but by a revision of assessment which is now in progress, I hope that Punjah lands lying waste in certain localities for years past, will be brought gradually under Cultivation - In many instances lands once temporarily watered in years of abundant Rain, have been improperly classed as Punjah and in others those which the assessors considered as capable of future irrigation were included in the same classification. It would be better to have all these lands reclassed into Punjah, which most of them really are. -

Rivers

4501 Fort St. George 18th March 1856.

Rivers	No. of Channels	No. of Tanks	
Cauvery	5	"	
Bhowany	4	2	
Amraivelly	22	3	
Noyell	28	35	Ayacut of 1264
Aniar	5	"	G. Assessment
Pennaar	2	9	66091-679-747.
Jungle Streams	107	151	Cultivation in Do.
Total	173	200	55703-593831 per Centage 13.

The Census taken in 1260 holds good for the present Fusly also. and a fresh one will be made in the ensuing year. the amount of population and other particulars were given in 1263 and do not therefore require further notice

The number of Ryots paying land and Moturpha pevenue, the number of Puttahs distributed

4502 Fort St. George 18th March 1856.

distributed this year as well as the number of ploughs and Cattle, are given in the Statements. in the margin - the decrease in the number of individuals paying Moturpha revenue, has arisen from some of them having taken up land and become land holders, while others left their Villages in Consequence of a Scarcity of food. the same remark applies to the decrease in Puttahs - the number distributed exceeds

Fort St. George 18th March 1856.

(Puttahs given over)

	Total No. of Puttahs	distributed				for
		New	Renewed	Total		
Collectors & Sub Collectors	17,357	1,358	10,588	11,946		31
	66,641	13,393	3823	17,216		26
	24,0168	2693	4411	7,104		29
		Fusly		1363		18
		Increase				11

exceeds that of last year. Caused by the revision of the garden taxation in consequence of which it became necessary to prepare many new Puttahs, which would not otherwise have been requisite the alteration or rather addition made to the Puttah as reported to the Board in my letter of 29th November 1850 having reduced them, at once 85 per cent, and nearly Converted them into permanent unvarying leases.

+ No. 130.

12. The number of ploughs and Cattle are more than those of Fusly 1263 the increase has arisen from many of the Parties paying Motapha having become land holders as explained above it must, however be observed, that the increase in Cattle would have been still greater, had it not been for the loss sustained from the failure of forage and from Sickness, by which about 10,000 head of Cattle died.

Fort St. George 18th March 1856

(All others not yet in to be accomb.)

13. New wells, 582 in number, are known to have been dug in this year under review, in Poonjah lands, in addition to the Number in 1263. whilst 94 old ones have been restored, and 41 more excavated in gardens - many others are half finished. This is very Satisfactory, and at once demonstrates the beneficial effects produced by the liberal orders on this subject. the increase of new wells would have been far greater this year, than is shewn, but for the unfavorable character of the season and the consequent scarcity of grain. there can be no doubt, however, that in a few years much will be done in this way of improvement the Ryots always knew the great value and Stability of well cultivation, he only required the heavy extra tax on his labour and Capital, to be removed, and that done, he has the necessary Stimulus, which is

(by which labour is paid)

Fort St. George 18th March 1856.

is rapidly producing most beneficial and permanent im-provements.

	Fusly 1263	Fusly 1264	Increase
Old wells	34.972	35.107	135
New wells	1414	1996	582
Total	36,386	37.103	717
Waste wells	6066	5.972	decrease 94
Total	42.452	43075	623

14. I beg leave to subjoin the rent roll of the Fusly in Comparison with that of the previous one 1263 as to the variations which are observable, any explanation

Fort St. George 18th March 1856.

is hardly required - Such variations being usual and of ordinary occurrence, viide para 14 of report on the Settlement of Fusly 1263.-

15 The orders of the Board conveyed in their Proceedings of the 18th December 1854 para 6, regarding the permanency of the Puttah to be granted and the offer of a certain quantity of waste as a "boons" to the Ryot, were communicated to the Cultivator at the time of settlement but their prejudice against any innovation, did not permit their taking advantage of these orders as readily as they should have done. I trust these prejudices will wear away and afford an opening for the full introduction of a permanent Ryotwar settlement.-

16. The season in 1264 was far favorable the usual rains were light and partial during the whole year, except in the months of October and November, and the average fall throughout all the Talooks amounts to about 2½ inches only as will be perceived from the accompanying

Fort St. George 18th March 1856.-

accompanying Statement. Punjah and Garden cultivation was less then in 1263 both in point of extent and produce the autturn in some places was as low as one-half or even 1/3 of an average crop. Punjah cultivation was carried on as usual, and was successful under the irrigation of the rivers, Cauvery, Bhowany, and Amravanty, but under Poyal, Pennalar, and Tanks, some of the lands were left uncultivated from want of water the produce was not abundant, but less than the ordinary quantity the high prices of Paddy however counteracted the deficiency in a measure so far as the interests of the Ryot were concerned cattle suffered greatly many were driven to Hills and Jungles in quest of pasture, from whence a few returned half famished the want of pasture was general and distressing numbers of cattle perished.-

17 The Sanatory condition of the District was also affected thereby Cholera prevailed in the several

of periodical rains and the con:
=sequent scarcity of food, in:
=duced many Ryots to appro:
=priate their Gardens to the
growth of common grain for
their subsistence.-

22 The price of Tobacco
remains nearly the same as
in 1263, and no material alter:
=ation has taken place a con:
=siderable quantity having
been imported into Malabar
from Salem Madura, &c., the
demand however is steady and
valuable.-

23 The annexed Tables
exhibits the different description
of cultivation in 1264 compared
with the extent for 1263 the decrease
in

Fort St. George 18th March 1856.

in the present year is 43,852 Cawnies
or 3 3/4 per Cent which considering
the nature of the season requires
no particular explanation beyond
the expression of the fact, that
the deficiency would have been
still greater had it not been for
the well lands which in a so
trying season like the present
are of incalculable advantage.-

| | | |

Fort St. George 18th March 1856.

Dittum 25 The extent of land actu-
:ally under cultivation amounted
in last year to Rupees 2114881- and
in the present year to Rupees 2015857,
the decrease being 99023.—

25 The decrease under the
head of Punjah is Rupees on
22503 caused by diminished
Cultivation.—

27 The deficiency in the item
of Garden is Rupees 7.307— pro-
:duced by the reduction of As-
:sessment at 12, and 15 per cent
under orders from Government the
deficiency is already in the course
of being made up by in-
:creased cultivation, and
will year by year, without a
doubt be recovered in a sounder

Fort St. George 18th March 1856

and more permanent footing-

28 The Punjah Revenue exceeds the amount
of last year by Rupees 836 from extended
Cultivation-

29 Waste land charged to Ryots in 1264
is in excess of the amount in 1263 in the sum
of Rupees 13176 inclusive of pasturage taxes-

30 The decrease in the Dittum Settlement
of the Tahsildars below that of the past
Fusly was Rupees 86217 and adding thereto
the Remissions granted during the Jamabundy
for Punjah Gardens and Punjah waste
lands the total deficit amount to Rs. 93252-

31 The Punjah waste was chiefly in Pul-
:lachy Coimbatore and Pulladum In the
former Talook in addition to the scarcity of
water there is also an unnecessary wastage
of a large quantity from want of proper
Sluices which will be submitted for the
Consideration of the Civil Engineer in the two
latter Talooks the want of water was greatly
felt and hence the large amount of waste for
which a Remission was necessarily granted.

In

Fort St George 18th March 1856

Remissions on Cultivation

32 In Consequence of the failure of produce in some of the Punjab lands Remissions were granted to the extent of Rs. 2060 which falls short of the Remissions in 1263 by Rs. 130-

33 In para 32 of my Report on the Settlement of last year I Recommended the discontinuance of the Small Charge of 1 and 2 annas a Rupee which is usually made on "Share" and I shall be glad to be favored with the orders of the Board upon this point the amount to be gained by such a demand is so small as to be not worth Consideration and as previously Remarked, it is only as "fractional" and oppressive tax on a Ruined and failing Crop "often affording temptation to Evasion and fraud.

"withered"

34 The amount given up on Lands Rendered unfit for cultivation is Rupees 1192 that is 697 at the time of Ditton and 495 during the Jamabundy Settlement it exceeds the

Total Rupees 1192 35

Fort St George 18th March 1856

Similar Remissions in last year in the same of 1857 the General items Comprising the same are given in the Memorandum in the Margin, and Require no explanation the lands taken up for sites of Houses and Villages are generally small and the houses or rather huts themselves are very badly built in groups so close to each other that they are very often liable to accidents by fire such has been the Custom especially among the agricultural Classes for years and nothing has been done to remove it. It would be advantageous if some Rules could be established with a view to introduce improvement by insisting on separation of Houses but I fear that without the interference of Government it is useless to expect any great change from the present practice In the year under review many houses have been Consumed by fire which in some instances extended to the whole Village Causing serious loss of property to the inhabitants to any Rule introduced by Government Regulating the space around and description of Building

Should advise a lighter tax on thatched than on tiled Huts of the usual Size

would

Fort St George 18th March 1856

would at first be felt perhaps as a hardship, but I have no doubt that it would be even=tually appreciated, when the advantages were generally seen.

35 The Enam lands granted to Village Sibbendy under the Circumstances set forth in para 35 of my Report for last year amount to Rupees 112 this class of servants are generally very ill paid in this District whilst the work to be performed by them increases annually the new forms of Village accounts ordered by Government are in course of introduction but I fear there will be some little difficulty in speedily accomplishing it. I propose submitting shortly for the order of the Board a statement of increased pay to Curnums Monigars Vecauliers such an augmentation seems desirable and I shall not therefore now trouble the Board with any Remarks in Connexion with this subject.

36 The Remission allowed this year for deficiency below the Survey measurement has been Rupees 121

The

Fort St George 18th March 1856

37 The Cowle Remissions amount to 30962 or 1176 more than those of 1263 caused by extended occupation of waste lands.

38 "Fasul Cummee" item exhibits a Remission of Rupees 35219 in favor of the pres=ent Fusly and upon this subject I beg leave to refer the Board to my previous Communi=cation Herein I disclose no prospect either immediate or Remote of realizing this amount in full and I see no advantage in permitting it to hang over the land the sooner it is struck off the better.

39 "Turrum Cummee" Rupees 187647 exceeds the amount of 1263 by Rs 109953 Caused by the Remission of 15 and 12 per cent and I would recommend that this nominal Remission be altogether struck off the accounts.

40 "Teerwa Cummee" shows a decrease of Rs 39057 arising from the transfer of large quantity of Baig Punjah lands or Gardens paying Punjah demands but nominally re=tained under their Garden head having been taxed with the first rate Punjah and transferred

to

Fort St George 18th March 1866

to that head-

41 With Reference to the increase of Rupees 20111 caused by alteration in the classifi:=cation of lands the same Remarks is applie:=cable. It is on Garden Lands Reclassed as Punjah this year under orders of Government having been Charged thereon Viz.t 9 Rupees the maximum Rate of Punjah assessment in the Northern Division of Combatore for every Bullock of Land-

42 The actual cultivation of the several descriptions of land in the year under review amounts to Rupees 2001796- exclusive of all Remissions being less by Rupees 106787 than the amount of 1263 and the Putcub waste brought to account is Rupees 43642 whilst the grass tax amounts to 33144 being in all Rupees 2078583 which falls short of last years Summa in the sum of Rupees 100647-

43 Indigo is not grown in this District a small quantity is produced in the Ardioor Talook from leaves of a

Fort St George 18th March 1866

a wild tree and is Consumed within the District. a Comparative Statement of the Cultivation of Sugar Cane and Cotton in the last and present Fuslies is annexed more detailed particulars being given in Statement No 19 The Culture of Mauritius Cane did not exceed 31 Cawnies which is less by 4 Cawnies than that of 1263-

Items	Fuslee 1263 Cawnies	Fuslee 1263 Fo.ment	Fuslee 1264 Cawnies	Fuslee 1264 Fo.ment	Increase Cawnies	Increase Fo.ment	Decrease Cawnies	Decrease Fo.ment
Sugar Cane	1050	8½	1081	11	4	6	838	4½
Cotton	9285	2	11				212	4
	1526	11	7					
Cotton	113919	1	1813	13	1	10	115528	4
	175986	2	11		1609	3		
	5356	14	11					

44 The decrease in Cane Cultivation is Cawnies 212¼ whilst the increase in Cotton amounts to 1609 3/16 Cawnies but the assessment falls short of the amount of the previous year in the sum of Rupees 5357 Consequent upon the occupancy for Cotton Cultivation of lands more favorably assessed than those taken up in 1263-

45 The produce of Jaggery from Cane is very small and Cannot be ascertained but that of Cotton is estimated at 37612 Candies of 500 lbs each which is more than the outturn of 1263 by 3663 Candies - of this about 13286 Candies was Consumed in the District leaving 24326 Candies available for foreign markets the names of places to which they were exported are inserted in the Margin - There is little demand for

	Candies
Bombay	200
Surrat	1300
Madras	100
Malabar	100
	38000

wool equivalent to 4700 Candies of Cotton the best 9126 sold for Retail.

Fort St. George 18th March 1856

for staggery the cultivation of which might be increased
Cotton might also be supplied to any extent if there was
any steady demand or European merchant in the Dis
=trict to afford a sure market for its sale-

Shenoy Summa- 46 The Shenoy Summa or Extra Revenue demand in
=clusive of arrears amounts to Rs. 23559 or 4726 more
than the demand of 1263 produced by increased sales of
Sandalwood and Teak and the disposal by auction of some
lands in the Talook of Suttimungalum Rs. 23047 were
Collected and 66 remitted under the sanction of Government
leaving 456 of this 9-1-10 are hopeless & I request that
sanction may be obtained to write off the same from the
Public accounts as Recommended in my Report for 1263
measures will be adopted for the recovery of the
amount Considered Realizable viz. Rupees 362-

Ready money Collection 47 Under the head of "Fixed Boundary ens" or
Ready money Collections there is a decrease of Rs. 3339
in the present year the details of this item are
given in Statement No. 15 and I have therefore only
to remark that the decrease above alluded to has
been caused chiefly by the discontinuance of some
Will Rents by the remission of the extra tax on
Palmiras and fruit Trees in Cases in which the land
also was taxed and by the abolition of the
system of crediting to this head the tax levied
on improvements effected in the Inam lands of
Village Sibbandy which is now carried to
the proper head of Land Revenue the Village
establishment being allowed to hold Rent free
only so much land as is equivalent to their pay-
48 The Shottrum Inam lands which were
under temporary attachment have all been
included in the Government assets with reference
to orders from the Honorable the Court of
Directors which will account for the
none entry in the Statement for 1264-

S Ewing

Fort St. George 18th March 1856.

49. Having offered such remarks as appeared necessary with reference to the Land Revenue Settlement, I beg leave, adverting to the Board's Circular No. 1553, 21st June 1855, to notice the item of Moturpha.-

Moturpha 50. The aggregate settlement for Fusly 1264 has been Rupees 2,00,010. or 1381 more than the amount of 1263 as will be seen from Statement A an abstract of which is annexed below to facilitate reference.

Items	Fusly 1263	Fusly 1264	Comparison Increase	Comparison Decrease

The

51 The increase in the rental of the Tea Farms has been produced from the same Causes as in last year, Viz. Competition among the bidders, Rupees 93960; a large portion of Demand of this Revenue 91592 was recovered within the Fusly leaving Rupees 2368 which has since been adjusted. —

+ Demand.

52. The item of Sundry Small Farms and Licenses shew a decrease of 83 caused by reduced Offers for Ferry rents. Collections to the 30th of November 1855 were Rupees 2694 and the residue of 22 was since realized and placed in the Taloo Treasury at Collegal. —

53. The above revenue consists of 2 items. Fish and Ferry rents. With reference to a Circular from the Office of the Accountant General issued under the Orders of Government, the latter item Viz. (Ferry rents) will in future be credited to the separate head of "Local Funds" to be eventually appropriated to the repair of roads and such other purposes. The Demand for Fish and Ferry rents is shewn separately as directed in para 11 of Extract from the Board's Proceedings No. 302. 5th February 1855. with the same distinction in point of Collections also. —

54. The revenue derived from the sales of Sandalwood and Teakwood Vea exceeds the

revenue of last year in the sum of Rupees 14,01 arising from the increased sales of Sandalwood and Teak, as well as by the disposal of certain Porumpoke lands in Suttimungalum. Taloo Teas explained in para 46 the following abstract exhibits the increase and decrease under each item. —

Items	Fusly 1263	Fusly 1264	Comparison Increase	Comparison Decrease
1 Sales of Sandalwood	30793 1	9896 5 9	62728 " "	" "
2 Sales of Teakwood	" 9	7420 9 3	" 4208 9 5	" "

Total	4408 9 11	18418 9 4	14181 1 9	171 24
		Deduct Decrease	171 24	
		Net Increase	14009 15 5	

55. The expenditure in Cutting Sandalwood Vea is Rupees 2219 or 2060 less than the expences of 1263. Caused by the non adjustment to this head of the charges incurred for Elephants employed in the working of the Anemalli Forests the charges for felling Sandalwood were also Comparatively small. the large quantity disposed of being that of Fusly 1263. Vide para 5 of report on the Moturpha Revenue of 1263.

The

Fort St. George 18th March 1856.

56 The Stamp revenue falls short of the Amount of last Fusly by Rupees 5648 Caused by diminished sales of Stamp Papers and Cadjans. The Law Suits were rather less in the year under review for which the badness of the season is perhaps the Cause. the charges shew a decrease of 768 from the same Circumstance, and therefore require no specific explanation.—

5 Feby 1855. 57. In para 5 of Extract from the Board's Proceedings No. 305 they notice a differentce of Rupees 3 in the item of Stamp Renenue between Statements 3 & 4. and 4. and I beg leave to point out that this differenc is the Amount due on three Certificates under Section IV Act No. XVII of 1848 which was returned in Consequence of the absence of the Parties entitled to receive the same all sums payable under such certificates are debited to the head of "Refunds of Stamp Revenue" and transmitted to Talooks for payment to the Suitors concerned if any of them are not forthcoming the amount is sent back and Credited to the same head and included in the general Collections of Stamp revenue in Statement Nos. 1 & 3. Statement No. 4 embraces only the "Sheroy Jumma" or Extra Collections and does not therefore include the extra receipt above adverted to hence the discrepancy. In the Collections for the Current Fusly a similar difference is observable, amounting to the small Sum of 1 Rupee arising under the same

Fort St. George 18th March 1856.

same Circumstances, and unless a different mode of adjustment is adopted. Such slight discripancies are unavailable.—

58. The Moturpha demand shews a deficit of Rupees 7,920. arising from usual Causes i.e. Casualties amongst the Contributors and the occupancy of land by some of them.

59 With reference to para 10 of the Board's Proceedings I have to observe that in my proposition to discontinue the multifarious rates of taxation on looms and to adopt an average one upon a moderate scale, I did not Contemplate the Augmentation of the payments now made by the poorer Classes of weavers; but as the Board are not disposed to take up the question for the present it is needless to enter on the subject.—

60. Adverting to the discrepancy of 14 noticed in para 4 of the Proceedings above quoted, I beg to explain that it is not a real discrepancy but has been Caused from the fact that the Collections were Compared with the demand in the Office of the Board of Revenue the former Comprises the recoveries of arrears, which the latter does not The Statement No. 4 which accompanied the Moturpha Revenue report for 1263.

61 The instructions of the Board conveyed in para 3 in regard to the entry of certain Specific items under the head of Extra Revenue Sewoy Jummah, and the exclusion of others now exhibited under it, will be Carried out in the ensuing year. In the present Fusly the former mode objected to by the Board was adopted in the preparation of the returns already transmitted to the Board, and it has therefore been found necessary to follow the same in making out

Fort St. George 18th March 1850

the account now forwarded.

62. I also take this opportunity of stating that in para 8 the Board remark as connected with the Abkarry Demand for 1263 that it should have been entered at Rupees 92,850 the sum given up as compensation for Closing an arrack shop at Kullor, being shewn as remission in its proper Column, these alterations being about to be made in the returns furnished to the Board they direct that similar Corrections be effected in my Office Copies. There is nothing to prevent the adjustment ordered, but from some over sight the demand of Fusly 1263 on account of the Abkarry Farms instead of being shewn at 92,850 in the various returns furnished to the Board the Accountant General and Civil Auditor at the close of Fusly 1264, was again entered at Rupees 92,083 and hence I have been obliged in other to maintain uniformity and obviate confusion, to adopt the same Standard also in the accounts now submitted otherwise revised returns will have to be furnished in lieu of those previously transmitted as well as to Correct the Journals in the Office of account and Audit. and as this will be attended with some difficulty perhaps the

Board

Fort St. George 18th March 1850.

Board will be good enough to permit the existing entries to stand as they are, for this time, but I shall be prepared to attend to such orders as the Board may deem it expedient to issue upon this point.—

63. The various items which compose the Moturpha revenue are specified in the subjoined Memorandum.—

Items	Fusly 1263	Fusly 1264	Decrease
House Tax	11923 9 "	10329 3 3	1595 5 4
Loom Tax	2697 2 13 "	2335 7 1 8	340 5 11 4
Bazar Tax	1071 5 8 0	98 10 12 10	904 11 8
Professional Tax	748 14 2	322 7 9 1	426 6 5
Total	74426 "	9 6 5 0 6 3	1 7 9 1 9 13 8

64. The small amount comprising the item of "Profits on Tobacco" has been realized from the recovery of a portion of the old balance, as well as interest thereon.—

The distribution of Puttahs referring to Moturpha and Sundry Small Farms and Licenses is as follows.—

Items	Fusly 1263 Total Number of Puttahs	Fusly 1263 Annulled	Fusly 1263 Distributed	Fusly 1264 Total Number of Puttahs	Fusly 1264 Distributed Remains	Fusly 1264 Distributed Issued	Fusly 1264 Distributed Total	Comparison between Col. 4 & 9 Increase	Comparison between Col. 4 & 9 Decrease	Comparison between Col. 2 & 5 Increase	Comparison between Col. 2 & 5 Decrease

Vide Statement No. 24

68. The arrears of Land Revenue at the commencement of Fusly 1264 were Rupees 23,999 - of which 16,386 " " were recovered to the 30th November 1855 and 5400 " " remitted under the direction of Govt. 16th Nov. 1854 which reduced the unadjusted portion of the arrear to Rupees 2213 " " the amount which appears recoverable as well as that found hopeless, and therefore requiring to be written off the accounts, have been clearly shewn in my previous Communication to the Board of Revenue to which I now beg to refer.

69 The arrears on account of Moturpha Revenue are Rupees 63 — " — of which 47 " — " will shortly be adjusted, leaving Rupees 16 — 4 — 5 which

which being irrecoverable, I beg leave to recommend that the Sanction of Government may be obtained to exclude it from the accounts, the difficulty of realizing the above small sum without pressing hard upon the Ryot, has been clearly ascertained at the time of Summabundy, and I am perfectly satisfied that its further retention in the accounts is useless.

Items and Fusles		Due by Ryots deceased			Due by Ryots who deserted the village			Due by Ryots in reduced circumstances			Total

7th. It will be seen from the Table of arrears inserted below para 18 of the Sub

Sub Collectors report, that the amount to be remitted in the item of Moturpha is given at Rupees 7 - " - " a small portion of it was recovered, reducing the net arrears to, 6 - 4 - 5 to which the irrecoverable arrears of Sundry Small Farms and Licenses Viz^t. Rupees 10 have also been added, and this will explain the cause of the difference between the amount specified in the above para and that mentioned in the Sub Collectors report

71 No system of making advances for Cultivation prevails now in Coimbatoor, the same having been discontinued some years ago.

72 No alteration has taken place this year in the Register of landed Property acquired by Public Servants.

73 A memorandum exhibiting the per centage of Charges incurred in the year under consideration is added the decrease in the percentage amounts to Rupees 1 - " - " produced Chiefly by the termination of the Fusly on the 30th. of June instead of the 11th. July in Consequence of which the expences of 11 months only appear in

in the accounts.

Particulars	Amount of Charges in 1264			Amount of Revenue for 1264			Per Centage

Fusly 1263							13	5	9
Decrease							"	15	4

74 The Consumption of Marine Salt in the District in the Fusly under report, is estimated at 211,597 Indian maunds of 3,200 Rupees weight each less by 24083 Maunds than the quantity received in last Year, or 48,000 Maunds less than what was required with reference to the extent of Population the average price per Garce has been Rupees 243 — " — " or 26 — " — " more than that of 1263.

As

75 As an example of the beneficial results of the new and liberal orders regarding wells, (allowing new wells to be dug in Ponjay at the Ryots Cost free of extra taxation, and relieving old wells, 12 and 15 per Cent) I would notice one Village in the Tung by Talook of "Audioor" above 30 new wells have been sunk in the last 2 years, since the permission of Government, and the stimulus imparted thereby. No new wells had been for years sunk in this village, under the old stringent Rules 367 Rupees were remitted in this single village 156 Rs at 12 per Cent on the old wells, and 213 in other items generally, and yet the cultivation has increased 462 Rupees, leaving a clear increase, from extended cultivation, of 93 Rupees most of this too being under wells, and therefore valuable and permanent, not temporary, a similar result, tho not to quite such an extend, might be shown in other villages, and if such be the benefit, to Ryot and Government, in so short a period, there is ample promise and grounds for extended and continued progress and increase arising from the late liberal, and just rules on well lands.

It

Fort St. George 18th March 1856.

76 It was found impossible to examine and relieve all the old waste or unprofitable Gardens at once, many are still coming to light To do away with discretionary remissions, (always objectionable) so far as possible, I have for several years made the chief test when remission on waste or unprofitable land is demanded, the leave to "throw it up" in fact to have no compulsory on buildings, but carry out real Ryotwar "freedom of Cultivation" the check against Ryots needlessly giving up land wholesale, is the tenacity with which a ryot clings to his paternal fields, even at a loss, rather than see them pass into other hands; it is a natural, sound, (and to Government) useful feeling.

77 The fact however I found of late to be, that in order to obtain relief from taxation, the Ryot often gave in his nominal resignation of any land he could not afford to pay for, but he did not really cede the land but kept his name and claim on it, so that others were deterred from taking it, first by the natural dislike to intrude on another's old patrimony, and also from the fear of the old owner reclaiming it, and

Fort St. George 18th March 1856.

and offering to hold it again so soon as the new comer should spend a little Capital and labour upon it to check this, I have now made it a rule, to carry out the resignations bonafide and strictly the new Comer to hold and Cultivate undisturbed, for one year if the former owner then repents of having thrown up his land, and is able to till it, and anxious to do so, he must pay to the new holder, half a years rent, to give it up again, if after 2 years lapse he must pay one full years Rent, as a sort of fine, to redeem his possession if the old owner does not come forward to reclaim what he threw up, within 3 years, his claim to redeem his land is considered lapsed, and the new holder is retained in permanent possession this makes the old owners chary of throwing up, and reimburses the new occupant if he happens to be turned out at the end of one or two years, since he enjoys the full occupation of the land and its Crops for the one or two full years and gets the ½ or full years rent in addition as a penalty paid by the former owner to redeem his field; this lessens the disappointment and dislike of the new holder to giving up

the

Fort St. George 18th. March 1856

the land again. The nominal Hookoonamah on Rule was, if land is left waste and tax unpaid, by any ryot, for one year he looses his right to it, however ancient, and the land is open to others, but this is much too harsh and arbitrary a Rule to act generally upon, and I have never done so; in a year of drought or murrain, a poor and hard working Ryot may thus lose his best lands (to his richer neighbour's profit,) without power of redemption; in fact many a Ryot does pay for a waste profitless field, at a loss rather than lose his hereditary holding, the rule I have established is generally acceded to it gives time (3 years) to the old owner to reclaim his field, if he has the wish and power to do so; and it encourages others to take up, temporarily, all resigned lands, as they get a douceur, if ousted within 3 years occupation, or they hold on, permanently, for good, if the old owner fails to claim within the given time.

78 In the Case of Errode, I beg the Boards consideration and indulgence for the Ryots most of the land is classed as 2 Croft though much of it yields only 1 it is higher than any other similar

Fort St. George 18th. March 1856

similar land in the District, some of it paying 22 Rupees per Cawney 1st Class, where like land elsewhere, in Dharapooram Tk. pays only 16 Rupees. I propose to reduce 15 per Cent on about 5229 Cawnies in 21 villages lowering all the 4 Classes in the same proportion, the whole loss to Government will be about 12762 Rupees. This reduction is a measure of both Justice and policy these lands are now over taxed, and their Cultivation year by year a matter of difficulty and doubt, and of small gain to the Ryot, one year the whole struck, and refused to Cultivate at all, tho' water was abundant the reduction will ensure their constant cultivation.

79 The report of the sub Collector on the settlement of the Talooks comprising the Sub-Division is enclosed.

80 I have since the last Fumabundy entrusted the Pulladone Talook to the sub Collector, Mr. Wal-house, in addition to his usual charge, as I really had not time to do it justice, with all the multifarious and heavy duties falling on me, and oftentimes one

one Assistant only to help me.

81 In reporting on my several Assistants I have much pleasure in testifying to their general Zeal and efficiency Mr. E. G. Thomas and Mr. Thompson, who have both left me are a loss to me, and to the District, in which they had acquired much personal and active interest. Mr. Sullivan who has since joined, is quickly making himself acquainted with his charge and will I have no doubt render me Zealous and able Co-operation. Mr. Alexander had but just entered on his duties, when compelled to leave on from illness, and I am now without any 2d Assistant.

82 In reference to paras 6 and 7 of the Boards Proceedings 18th December 1854, I would remark, that a form of the present Puttah was, I believe, before sent to the Board and is now again forwarded the brief but clear addition made to it viz. "this Puttah holds good till a change is wished," (by the holder) meets I think fully the wish of the Boards, the Ryot at least so understand it, as tantamount to a perpetual lease, binding on the Government tho' open

open to change or revision for the Ryots benefit it answers in fact I think, better than any fixed term of 20 or even 30 years, which might hamper both parties, now the Ryot feels that the Government is bound towards him while he is more free. I have little doubt, when the few remaining Garden remissions still requiring to be effected, are carried out that 90 per Cent of the Puttahs of this District, will become to all intents and purposes, permanent Leases freeing the Ryot from all official interference or scrutiny, or any need of personal attendance at the Cutcherry.

83 The Board wish paper leases to be substituted for the Cadjan I can do so if the Board still desire it, but have hesitated for several reasons, the Cadjan is simple, efficient, indestructible and preferred by the Ryot. Paper is more Costly, and not near so durable a Cadjan is not injured by water, or damp, nor by insects, will last with care 100 years, and more, Paper 20 or 30 at the most, unless of a superior and European make.

84 I would request the Boards consideration on 2 points, much connected with the welfare of the District.

Fort St. George 18th. March 1856

District namely early sanction for remitting the extra Drupina or Orchard Tax a most valuable species of Crop now discouraged and depressed; and for lowering the too high Nunjay rate in some villages in Errode, as per my letter Pc. 108 25th. August 1855.

85 Until Fusly 1258 the Puttut system, of charging all waste, in Garden and Poonjah, was in force. In 1259 the burden was lightened by restricting the charge to 15 per cent of a Ryot's holding; the waste above that, being remitted unconditionally. In Fusly 1262 still further relief was extended by reducing the charge on waste to 10 per cent of a Ryot's holding.

86 At present the charge for waste has entirely disappeared, except in particular and reasonable cases, all Ryots willing to give Kauzeenamah for their holding (waste) were allowed to do so. The "Puttut" System is in fact only a nominal term now in Coimbatore; free holding, and raw compulsory, being nearly carried out. No saddling of land, but a Ryot bonafide allowed to retain or throw up land, as he chooses. This is the only fair test, and sound system, is real Ryotwar, and greatly does away with all discretionary remission; for which formerly there was an annual or clamour, the answer to all such demands now is "Cultivate and pay, or throw up which you like; and the knowledge of this real freedom, is enough; no land that can be profitably held, is thrown up; and a compulsory holding; cannot be a sound or upright one. As regards nunjah, there is no particular change all

1516 Fort St. George 18th. March 1856

all real waste being remitted on sufficient grounds as was always the case here -

87 The Remission of 12 and 15 per Cent to the North and South has been effected on all actual Gardens the term Gardens including many pieces of land which the Cloposet and Lascar under the head of Gardens were never so Cultivated they paid (unfairly) as Garden but were Cultivated with Punjah Crops and unmolestered by any melt-

88 I greatly regret that a pressure of occupation this year has prevented my sending in my Report at an earlier date.

Average Settlement of the last 10 years — 7.18231-15-4
Fusly 1263 — 7.37568-14-11
" 1264 — 7.01373-6-6
Decrease 36195-8-5

Fort St George 18th March 1856

N°38

To E. B. Thomas Esqre
Collector of Coimbatore

Sir,

I have the honor to submit the Summabundy Report for the Sub-Division, together with the prescribed Statements according to the new forms for Fusly 1264. The Settlement shows a decrease under that of the preceding Fusly of Rupees 36195-8-5 and also falls beneath the average of the last ten years.

The Summabundy was conducted by myself at the undermentioned places, the figures over the names denoting the number of Villages settled at each —

In Caroor 58 at Caroor 15 Paramatty 10 Noil Khangyam. Khangyam 17 Vellacovil 16 Vodicoor 9 Dharapooram. Dharapooram 32 Panarpooram 9 Chackraghatty. Percyapatty 23 Vodoomullacottah 47 Comaralingum 19

27 Tanks	2575	15½	15866	1 3
Total	18982	5	181408	12 6

3 The number of Villages and principal sources of irrigation enumerated in last Faslys report no alteration having since taken place in any of them Short Tabular Statements would seem now sufficient. no deficiency occurred in the water supply of the Ambramutty and Cawery Channels or the Buddhamuttam Tanks. The wells now dug 175. have not been so numerous as was expected, but the long and complete drought which has dried up a large proportion of the existing wells has been against the making of new and indeed eligible sites have been almost universally re-occupied. The liberal terms on which

Fort St George 18th March 1856

which old wells are permitted to be restored were communicated by me personally to every Village and received with great satisfaction; when the usual quantity of rain returns they will be thankfully and extensively taken advantage of seventy two have been restored in the last Fasly. It is periods of lengthened and severe drought like this that the immense wrath of wells becomes conspicuous now when numbers are utterly dried up and the water in numbers more too scanty and brackish for use. the few remaining wells are the sole spots where a green blade is visible or water procurable over wide tracts on which every other vestige of vegetation has long been withered to the roots.

4 The excessive scantiness almost amounting to an entire failure of pasturage has caused a great decrease in the number of Cattle.

Cattle

5. There has been an increase in the number of Resident Ryots joint Puttahs and Ploughs, and a decrease in the non-resident ryots and the Moturpha the total of Puttahs also has fallen off still all those items show higher totals except in Moturpha than in the Fusly before last. The Puttahs actually distributed amount to 14517 and those unaltered and not distributed to 52,124 a large number of Ryots being thereby spared the trouble of coming to receive them a fresh.

6 The early rains in the past Fusly faild throughout the Sub Division. In April about an inch fell in half the Villages only of the Caroor and Chuckra-ghetty Talooks. This was in-sufficient for cultivation none of the least conse-quence fell else where. From April to September inclusive Six Months that one inch was all that fell in the Chuckraghetty Talook. It was not till October that

that all the Villages were visited by rain, and in even the following Month November the Khangyam Taluk received but 1½ in measure in only 2 Villages. In consequence of this great deficiency the out turn of crops was lamentably meagre the grains hardly yielding a third of the average produce, and the punjah may be set down as a failure for when the rain at last fell it came too late in the season to produce even average crops. The annexed table will show the extreme deficiency of rain, a deficiency unequalled. I believe, for a long period. The public health however continued good, somewhat better indeed on the whole than in the preceding July.-

7 The prices of grain as might

Fort St George 18th March 1856.

might be expected, rose high considerably exceeding the averages of any of the past five years, as well as those assumed in the original survey. It will be seen in the adjoining tables that the prices during last July of all the grains mentioned exceed those of other years with which they are compared by at least a third. a succession of three bad seasons, each worse than the foregoing, sufficiently explains the cause.-

10 The following Statements comprise the items of Sevoy Jumma and fixed Sournadayem - In the latter the increase of Rupees 814-6-11 arises from the transfer of waste punjahs to grass - The items of Revenue derived from Sibbendy Enam Land "Paddy rent" and "Hill Rent" will in future disappear from the accounts according to directions received from the Collector and Boards order of 25th July 1853 - The sum of Rupees 55 still retained under the last mentioned head of "Hill rent" arises from the Malsers of the Tallanjee Paddy situated in a distant jungle by the head springs of the ambramutty having been permitted to cultivate a patch of Jungle Land, as yet unmeasured at a nominal rent in the hope of inducing them to enter upon a regular and more extended cultivation -

The

12 The decrease in Poonjah arises from the failure of rain that in Garden chiefly from the remission on the Garden land assessment at 15 per Cent according to the Boards' order and that in Nunjah is the demand upon certain lands, under the Kullarpuram channel on the Ambrapoutty, which are always reaped and the Kist collected towards the end of the year, but the demand has heretofore been inserted in the accounts in anticipation before the close of the fusly. In future this will be brought to account after the crops are cut at the end of the year, and therefore in the current fusly.

13 The Rupees 48-1-10 remission on Shavi took place on paddy spoilt by being grown within the water line of the Buddhimuttans tanks. The increase in Dhag poonjah arises from the deficiency of water in wells, and some Garden lands that had long been waste having been given for poonjah cultivation. Being above or beyond the reach of water is the cause of Nunjah lands paying Garden or poonjah tax.

14 The decrease in Grass poonjah and Garden is caused by the lands having been taken for full cultivation.

15 The Moturpha shows a decrease off Rupees 2193-4-7 chiefly caused by death

change of abode or impoverishment - under the head of Mohturpha - there are a few local

Small local taxes on	Amount in the Talooks									and arbitrary imposts of trifling amount and some very obnoxious and pressing hard upon the poor. Of the former examples are given in the Margin. In the latter may be mentioned

17. The arrears remaining Uncollected at the end of the Fusly amounted to Rupees 829-6-4 the whole of which has been since realised. No legal compulsion was employed in collecting the Revenue of the Sub division for the past Fusly.

18. The annexed Table of old balances shows a small arrear of Rs 141-10-4 of which Rs 35-5-11 are recovarable and Rs 106-4-5 are regarded as irrecovarable I request that permission may be given to strike off the latter item, as well as Rupees 7-2-5 put down as irrecovarable in the Mohturpha Total expedient to be struck off Rupees 113-6-10—

Order thereon - (549-550) Ordered to lie over.

No. 9.

To, G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue.

(551)

B. No. 260.

From the Collector of Coimbatore

Forwards as directed in Extract from the Proceedings of the Board of Revenue No. 375 Copy and Translation of agreement entered into by the Durmakurtahs of certain Pagodas in the Caroor Talook.

Sir,

Para 1. I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue No. 3275, and as therein directed to forward Copy and translation of agreement entered into by the Durmakurtahs of certain Pagodas in the Caroor Talook.

2. It will be perceived that the dispute regarding the landed endowments in question, was once disposed of, the Parties on either side having amicably adjusted the matter in the presence of respectable individuals. but the present misunderstanding has been caused by the "saivites," who have receded from the terms of their previous agreement, and are determined to appropriate the whole Enam for their own use.

3. It appears that the lands in Carvor and Aucheemungalem were considered as

as the Joint estate of the 3 Dawastanums as named in the agreement the Enam accounts as well as the Puttah signed by Mr. Hurdis prove as this to be the case. The payments made to them as when Government had charge of the manage= =ment of the native Religious Institutions, as were also based upon the same data, for more than 40 years, without objection on the part of the "saivites", which may be considered as conclusive evidence.-

4. In the Statements submitted to the Board the whole Enam lands, are set down as the Joint property of the 3 Dawastanums, without reference to the particular portion appertaining to each which go as far to prove that all of them are entited to participate in the benefits of the endowment. Nevertheless Mr. Wroughton in order to save the necessity of any unnecessary interference on the part of Government, appears to have caused the dispute, which occurred as subsequently, to be disposed of by amicable adjustment in which the "saivites" were gainers.

Mr.

Order thereon -

5. Mr. Wroughtons' orders to carry out distribution of the Enam lands according to the terms of the agreement, have not hitherto been carried into effect, the "saivites objecting to the same - On the other hand, the "Vishnavas" are clamorous in demanding their portion of the Enam, whose claim to it is as good as that of their opponents.-

6- Mr. Wroughtons' decision or rather the agreement of the Parties, above referred to, appears to be just and conclusive in every point of view, supported as it is, both by official records and by previous usage - and may be carried out if ordered by the Board -

+ Colandavala pillay - 7. It appears that a Curnum of Carvar+ is the author of the exsisting misunderstanding as who is a gainer thereby.-

Coimbatore Collectors Office 14th January 1856. } (Signed) E: B: Thomas: Collector.

No. 1.

of

Fort St. George 18th March 1856.

of Sashathry Iyengar worshippet, trustees of Mayaprathe Ranganathaswamy and Janthany Venkataramanaswamy Pagodas, Saminengar[3] Son of Namagery Iyengar worshippet and co trustee of the Ranganathaswamy Pagoda, Ranjen[4] Moodelly- son of Coopparam Moodaly Coolandai[5] =vala Pillay son of Moottoocaroopa Pillay, co Curnum of the Village of Caroor, and a trustee of the last mentioned Pagoda, Seethapathy[6] Sastry- Son of Soobba Row trustee and co Monigar of Tandony, Terovengadum pillay,[7] Monigar of Tandony Pagoda. the Complainants on one part- and by Ramalingum[8] pillay son of Audaperooma pillay Curnum of Lutchimi Narayana Samoodrum and trustee of Pasoopathy Eswara Pagoda Soobbarayen,[9] son of Pasoopathy Coorookul Manigar of Caroor, Gurbapoory Iyen son of Pasoopathy Pundit trustee and Ap: =payah Coorookul, son of Pasoopathy Pundit co trustee and Coorookul and the Pasoopathy co Pagoda. Defendants in the Talook of Caroor in the District of Coimbatore dated 9th June 1848.—

During the original alienation of

Enams

Order thereon - (549-550)

Fort St. George 18th March 1856.

Enam lands for Devastanams, and also, when co ready money was disbursed for the same an co equal payment of allowance was allotted for the 2 Vishnoo and 1 Seva Temples alike-

Defendants having now claimed the sole and exclusive privilege of owning the co whole Enam for Seva temple the order of the co Board of Revenue to transfer the landed endow: =ments over to the trustees, has not as yet been carried into effect in Fusly 1257- The cause of the delay being the dispute between the co parties as above stated. For an amicable ad: =justment of the same, some of the parties co above named, have on the 14th February 1848 co presented a written document to the Hoozoor co expressing a desire to have the matter adjusted by arbitration, the members of which were to be composed of Vencata Soobbiah Monigar of Cushah Coimbatore and others - Now we the under signed with our full assent to the above arrangement name the following persons to be members on our behalf for the decision of our Cause Vizt.—

Vengatasoobbiah

Fort St. George 18th March 1856.

1 Vengatasoobbiah Moonsiff Mongar of Coimba= tore, 2 Sawma Row late Tahsildar of Coimba= tore, 3 S. Soobbajoseer 4 Soobbarya pillay & alias Cooppana pillay trustees of Paroor Pagoda and 5 Aumuta Naraniah Curnum of Gana= pathy - all disputes touching our Enams lands and Villages are now actually settled through the intercession of the said arbitrators as particularized below -

Before the assumption of the Country by the British Power, the Villages of Caroor and Auchimungalum were enjoyed as Surva Enam after the resumption of Enams and in Fusly 1212 when Mr. Hurdis disposed of Enam Cases, the 2 Villages in question were set down in the accounts as joint endowment for the 3 temples above alluded to this account is authenticated with the seal and signature of Mr. Hurdis the remark is again repeated in the Putta given by that gentleman under= date the 14th July 1802 nevertheless in the Settle= ment account of a subsequent year i.e 1214 the entire Auchimungalum Enam is stated to

Fort St. George 18th March 1856:

to belong to the Siva temple Durmakivita Rama= linga Pillay produced Copies of 17 inscriptions & said to have been taken from one of the walls of the Siva temple to the effect that the village above named was granted free for that temple at the time of Coolottoonga Cholalajah after the establishment of the British power, distinct enams were allotted for each Pagoda as follows in the villages of Caroor Lutcheminarayana Samoodrum and 30 others -

For the Pasoopathiswara Sawmy Pagoda at Caroor	Rupees	1,021-13-4
For Abayapradu Runganadee= Pagoda	"	18-8-7
For Tonthony Vencataramana Sawmy Pagoda	"	159-1-4
		1,199-6-11

Independent of this which is the whole esctent of petty Enams there was also another allotment of two entire Villages, Viz^t., Caroor and Auchimungalum for the above 3 Pagodas amounting to Rupees 3662-6-5 these combined sums in the aggregate amounted to Rupees 4861-13-4 the lands of which were brought under

Fort St. George 18th March 1856.

under Circar management and the Revenue so realized accordingly paying to the 3 Temples from Government Treasury the amount proportions to each according to previous Tusdeek. This + 44 years arrangement was inforce until Fusly 1252 under order from the Board of Revenue of date the 22d. March a Takeed was issued on the 4th of August 1847 directing the lands to be made over to the respective Trustees with preference to the previous Payments to each-

The trustees have not taken possession of them inconsequence of a misunderstanding among them that the affairs and transactions of the temples were not properly carried on-

In order to remove the misunderstanding a division of the lands of the 3 temples was made in the presence of us the trustees and other Davastanum establishment and a Statement of which is annexed with explanatory remarks with our signature which is now presented to the Hoozoor-

Lands to the extent of Rupees 1199-6-11

in

Fort St. George 18th March 1856.

in 32 Villages set apart distinctly field by field for particular temples, i-e Rupees 1021-13-11- for Pasoopathy Esavaravawny Pagoda Rupees 18-8-7 for Abayapradu Runganadu sawmy and Rupees 159-1-4 for Tondony Vencataramana sawmy are to be finally made over to the respeative temples from Fusly 1257 and we the trustees will undertake the management of their Cultivation and other affairs regularly-

With reference to the entire village Enam lands of Auchimunglem amounting to Rupees 835-11-10 notwithstanding the inscriptions in the stone walls and the subsequent trifle division half of the lands with its several fields Porompoke 8ca 8ca should be made over actually, or reserved for the use of the Pasoopathy Eswara Pagoda amounting to Rupees 417-8-5 and the remaining half to be again equally divided between Abayapradu Runganadu sawmy and Tandony Vencatramanasawmy in the same proportions the defendants being unwilling to cede more and the Complainants acceding to the proposed division - Of the Caroor Enam lands 2827-5-7

each

each of the three Pagodas as before is to
have an equal share Viz. for Pasoopathy
Eswarasawmy Pagoda, Rupees 942-7-2 for
Toudony Venkataramanaiyawmy Pagoda
Rupees 942-7-3 and for Abaya Prada
Runganadasawmy Rupees 942-7-2 as
agreed upon by the parties concerned - The
respective shares of Enam lands having
been, as above stated determined upon
we request that a Takeed be sent to the
Tahsildar of Caroor to carry the agreement
into execution by a proper and judicious
division of good and bad lands in equal
proportions to each Pagoda in the presence
of 5 persons, Chosen as members for the pur-
=pose of noting down and distributing
Justly the lands in the 2 Villages Autchi-
=mungalum and Caroor, consideration being
also had in effecting this division to the mode
and practice of dividing lands in Shrotriem
and Aggraharums these done we the trustees
will take possession of the lands and carry

on

on the usual Poojahs &c. regularly in the respective
Pagodas under the orders of the trustees. This
arrangement to be carried out from 1257 as
agreed upon by us.

The aggregate amount of Village and
field Enams as divided and settled above
stands thus i-e to Pasoopathy Eswarasawmy
Pagoda Rupees 2381-12-7 to Abayaprada Run:
=ganadasawmy Pagoda Rupees 1169-11-11 to Tou:
=dony Venkataramana sawmy Pagoda Rupees
1310-4-10 in all Rupees 4861-13-4 being the
amount shown in the Accounts submitted to the
Board of Revenue on the 2d February 1847 -
The disputes among the parties concerned having
been thus disposed of we bind ourselves, our
heirs and representatives &c. to abide by this
Razeenamah from Fasly 1257.

If any one or either of the parties or
his or their heirs, representatives &c. infringe the
provisions of this Razeenamah any wise, the
infringing party is not only liable to forfeit
his claim to the Enam above prescribed, but
also to remunerate the opposite parties for
losses they may have sustained and further to

submit

to submit to such penalty as the sirkar may be pleased to inflict, thus done execute this agreement in the presence of the undersigned as with our free will and consent-

Proceedings

B. No 810.

Proceedings thereon.

551-552

Under the further explanation afforded by the Collector in the foregoing letter regarding the landed endowments of the Pasha-pakasawmy, Ruganadaswamy and Venkata-ramanaswamy Pagodas in the Carroor Talook, the Board of Revenue are of opinion that the agreement entered into in 1847 by the Trustees for the adjustment of their claims should be carried out either by dividing the lands or by directing the Trustees to elect a joint agent to receive the Rents, and distribute them according to the agreement - When the lands are allotted, the Trustees of each Pagoda can levy their Rents by the usual process-

No. 333.

To, The Secretary to the Board of Revenue.

B. No 210.

Sir,

From the Deputy Chief Engineer Centre Division - Engineer, Department Public Works

I am directed by the Chief Engineer to acknowledge the receipt of the Proceedings of the Board of Revenue under date the 7th Instant No.

Fort St. George 18th March 1856.

No. 58 to observe that he considers the proposal made by the Board of Revenue well calcu= =lated to ensure the object in view Viz:t efficient execution of work in the Districts with the cordial co-operation of the Engineer and Collector, and requests that the Board will have the goodness to issue the necessary instructions to the Collectors for their guidance, and favoring the Central Office with a number of Copies sufficient to supply one to each Executive Officer.

2. The Chief Engineer did not intend it to be a guarantee absolute that works proposed by the Tahsildars, should be considered necessary when bearing the Collectors signature he only meant that such a check was not only desirable, but indispensable, in order to prevent the practice of thoughtless and unnecessary applications; for the Board must be well aware how frequently Tahsildars Manegars and others make inconsiderate and very inconvenient calls upon the time of the Civil Engineer and his Department.

Fort St. George 18th March 1856.

Department. A sifting of such requisitions by the head European Revenue authority cannot in the Chief Engineers opinion be safely dispensed with

Combaconum 15th January 1856. (Signed) J. M. Joseph. M. D. Zillah Surgeon.

(True Copy) (Signed) H. Forbes. Collector.

Inv

4651. Fort St. George 18th March 1856.

B. No. 808.

Proceedings thereon - (553-556.)

In the foregoing letter the Collector submits a Memorandum of Dr. Josephs professional attendance on the Minor Zemindar of Gundracottah and requests sanction for disbursing the amount charged, which for 10 Visits at the rate of 10 Rupees a visit, is shewn to be one hundred Rupees. The Collector also states that he has given directions to the relatives of all minors under his charge to refer to him in future before calling in the Zillah Surgeon -

2. The Court of Wards authorize the payment of Dr. Josephs Bill from the surplus funds of the Gundracottah Estate - but as in cases of emergency, there may be no time to obtain the Collectors permission before calling in the Zillah surgeon, the Court are of opinion that the directions referred to should be cancelled - The relatives of minors should

4652 Fort St. George 18th March 1856.

should be made to understand that when they consult Dr. Joseph they will be held responsible to him for his charges unless the funds the credit of the Estate are sufficient to meet the expense -

Sir,

With reference to Para 2 of Extract Minutes of Consultation dated 6th February 1854 I have the honor to submit for the favorable consideration of the Board and Government the accompanying Copy of a Communication from the acting Sub Collector offering to superintend a class for practical Surveying and Soliciting the Grant of the assistance authorized in the case of the Sub Collectorate of Rajahmundry

2. The importance of diffusing a Correct knowledge of the principles of land surveying independent of the prospect of the scientific Survey of the District referred to by Mr. Minchin is set forth in the Board's letter of the 22d December 1853 and has already been recognized by Government I only remains for me therefore to recommend Mr. Minchins proposition to their favorable Consideration.-

Collector of Nellore

Sir,

With reference to the Extract Minutes of Consultation 6th February 1854 published in the Circular Orders of the Board of Revenue for that year I have the honor to request you will be so good as to forward to the Board the offer on my part to superintend a class for practical Surveying if the Government will grant the assistance authorized in the Sub Collectorate of Rajahmundry.-

Considering the prospect of this District being one of the first Selected for the scientific Survey which is now under the consideration of the Supreme Government I have thought it would be particularly useful to make some local preparations by educating youngmen for the practical duties of land surveyors and have in consequence been emboldened to make this proposal which I should otherwise have hesitated to bring forward. I must explain however that my pretensions do not extend beyond a knowledge of the principles of surveying by angular measurement with a Compass and plan Measurement with

4657

Fort St. George 18th March 1856

with a Gunters Chain.-

I should wish to be furnished by the Department of Public works with the necessary instruments for the purpose if my proposal is approved of.-

Those supplied to Mr. Taylor would be sufficient for the class but the Students would require a few cheap instruments in addition for their individual use such as pairs of Compasses and plain protractors.-

I may however be permature in now entering into these details and have only to request you to be so good as to forward the above proposal for the Consideration of the Board.-

Bd. No. 699

From the acting Collector of Ganjam

In compliance with the instructions

instructions contained in your letter dated the 5th March last I have the honor to forward by this days Bangly a sample of the grain called Samaloo and two specimens of the Goomsud hemp properly so called and some made from the Roselle plants. The former is not extensively grown in the district excepting in the Subdivision where the Ryots cultivates it for his own use and to pay the poorer clafs of labourers employed by him during the harvest their hire. No traffic is carried on in it only small quantities are sold to the bazar people. There are two descriptions of this grain Viz. the Bulke chamaloo first sort grown in wet land and Dadee chamaloo the inferior kind grown in dry land being a second crop no Cist is levied on it nor does the Ryot depend upon the sale of this seed to enable him to pay any portion of his Cist. Balee chamaloo is sown in September and reaped in November the produce is about 20 Toams to an acre of land Dadee chamaloo is sown in the months of april and

3 Seers make one toam

reaping

Fort St. George 18th March 1856

and May and yields about the same quantity in the same extent of land in July and August. The former is sold at 24 to 28 Tooms and the latter at 40 to 48 Tooms per Rupee the largest quantity to be had in any one place is under 2 Rupees worth.—

2 The Goomsur hemp is sold at one Vhalf maunds per Rupee on the spot by the Cultivators of the Tunnamoor or Sumaplant and the Merchants who buy it off their hands sell at about one Maund per Rupee at the Several Sea ports and in the principal Towns of the district. The price of the roselle fibre is about 10 Annas per Maund.—

3. I have sent a Sample of the hemp to the Collector of Rajahmundry. Sarnaloo is Common in that district.—

Bd No 628
From the Collector of Madura.

Reports that a sum of 500 Rupees which were remitted to the Acting Sub Collector Mr Pauncefote at Dindigul on the 2nd Instant from the Huzzoor Treasury at Madura by Bronson the Sub Collectors Establishment was stolen and solicits the instruction of the Board of Revenue whether the loss is to be borne by Government or the Sub Collector

Mr Pauncefote requests the Cash. Keeper to send him by the Bearer Rs 1500— or five hundred Dindigul 30th January 1856

Sir,

I have the honor to transmit for the Consideration and orders of the Board the accompanying Copy of a letter from the Acting Sub Collector Mr Pauncefote.—

2. On Mr Pauncefotes receipted Bills for January, the Cashkeeper credited his private account with the sum of Rupees 1128 8 — and out of it, in accordance with the written order entered in the margin, delivered 500 Rupees into the hands of Shaik Mohideen, a Peon on the Establishment of the joint Magistrate, who made away with it or was robbed of it at Annanaikanoor on the road to Dindigul.—

3. To me it appears that the orders of Government cited by Mr Pauncefote constitute the Cashkeeper, as regards public Officers, bearing

Fort Saint George 18th March 1856.

leaving money in his hands, a Banker in contradistinction to an agent that is to say, he can be employed to pay a Cheque and note the payment in an account, but cannot be made use of to execute Commissions and settle bills. A Bankers responsibility evidently ceases when he has paid a Cheque. In the present case the cheques were made payable to the Bearer.

It should be noticed however that there was no amount to the credit of Mr. Pauncefote in the accounts in the Cashkeepers for January, and that the sum of 500 Rupees was disbursed on the day Mr. Pauncefotes receipted Bills came to the Cashkeepers hands. On the other hand, it will be borne in mind, that it was a portion only, not the whole of Mr. Pauncefotes salary and was paid on a Cheque, not on the Bills.

It

Fort Saint George 18th March 1856.

5. It seems to me clear that no responsibility attaches to the Cashkeeper, and that the question is whether the loss is to be borne by the Government, or Mr. Pauncefote.

6. The orders of Government present no obstacle to the Salary of the Sub Collector being drawn from the nearest Talook Treasury, but it has been the practice for him to send Peons for it for the Salaries of the Sub Division Establishment to the Hoozoor Treasury.

Jo

4669 Fort Saint George 18th March 1850

No. 1.

To

R. D. Parker Esquire

Collector of Madura

Sir,

I have the honor to inform you that Rupees 1500/ Fifteen hundred, which were remitted to me on the 2nd instant from the Hoozoor Treasury, have been stolen on the way here, and there are strong grounds for suspecting that the Circar Peons who had charge of it are implicated in the theft. I have deputed the Head of Police of the Sandscumboo Taluk to enquire into the matter, and the result of the investigation will be duly reported to you.

In accordance with the rules of this Office I have already granted a receipt for this money, but I need scarcely point out how hard it would be if on that account the Government held me responsible for the loss.

I beg to submit that when my monthly salary is disbursed at the Treasury it cannot be

4670 Fort Saint George 18th March 1850

be considered as having been paid over to me by Government until it reaches my hands because it is not delivered to a private servant authorized by me to receive it, but, according to a long standing custom, to Circar Peons who take charge of it as a Government remittance, and so long as the money remains in the custody of Government servants, it appears to me that the Government are responsible for it. In support of this, I beg to draw your attention to the Circular Order of the Board dated 14th April 1851, in which it is clearly laid down that the Cashkeeper is permitted to deposit the salaries of Collectors and their Subordinates in a private Cash Chest and to make payments therefrom upon their own notes and receipts, but, it not allowed to act in any way as a private agent, and it follows therefore that the Government are

on

are answerable for money sent through Circar Peons by the Cashkeeper acting as a Government Agent.

The Salary of the Sub Collector's Establishment is also remitted every month direct from the Honble Treasury in the same manner, and occasionally remittances are made through Circar Peons to the Military Detachment at this Station. In the event of these sums being lost or stolen, the Government would I should think make good the loss, particularly, if there should be as in the present instance, strong reasons for believing that the fraud or theft was committed by their own Servants.

Under these circumstances I beg that the amount may be refunded to me, but if should you entertain any doubts in regard to my claims to repayment I request you will do me the favor of referring the matter for the consideration of Government.

Bindigal, &c
9th February 1856

/Signed/ B. Pauncefote
Acting Sub Collector

/True Copy/
/Signed/ R.B. Parker
Collector

Bd of Rs 831
587-508
Proceedings thereon.

Submitting for the orders of Govt with an expression of the Board's view thereon a letter from the Collector of Madura forwarding one from his Sub Collector regarding the robbery of a portion of his salary while under charge of Govt peons and recommending Mr Pauncefote's application to be relieved of the loss sustained by him, to the favorable Consideration of Government.

It appears that the sum of 500 Rupees was paid at the Huzoor Treasury to a peon on Mr Pauncefote's Cheque; the money was a part of his Salary as Sub Collector for the month of January and was credited to his account on his receipt as usual. On the way to the Sub Collector's Station the money was stolen from the peons entrusted with it, and the peons are suspected of complicity in the robbery.

2. Mr Pauncefote argues that as this portion of his Salary had never reached him and was in the charge of Government servants up to the time of the robbery the loss should be borne by the Government and not by himself. He has requested that the orders of Government may be taken on this question and the Board therefore submit his letter with that of Mr Parker for the consideration of the Right Honorable the Governor in Council.

The.

3. The Board cannot go the whole length of Mr. Pauncefotes argument which would allow a subordinate officer to make the Cashkeepers at the Huzzoor Treasury his bankers, and hold Government responsible for the safe delivery of the sums for which he might draw from time to time

4. The Sub Collector can obtain his salary through the Collector either from the Huzzoor Treasury or from one of the Sabook Treasuries of his Division, and the Board do not consider that Government is answerable for the amount reaching him safely unless he is prepared to receive his full salary when it falls due in which case the Collector would take measures to send it to him under a proper escort.

5. But if the Sub Collector for his own convenience allows his salary to remain in a private box in the Treasury in the Cashkeepers

hands, and draws on him as on a private Banker, or for such sums as he requires from time to time the Board are of opinion that the responsibility of Government terminates when the money has been paid from the public treasury and that after it is placed at his private command all risk attending it belongs to him.

6. But while the Board take this general view of the subject they would submit Mr. Pauncefotes application for the favorable consideration of Government on this occasion because the Rupees 500 were sent for immediately on Mr. Pauncefotes salary becoming due and accompanied the pay of the Sub Collectors Establishment. If on these grounds Government should resolve to relieve Mr. Pauncefote of his loss on this occasion intimation might be given that the must receive his pay hereafter when it becomes due and that if he leaves it in the Cashkeepers hands, it is at his own risk.

The

Fort Saint George 18th March 1856.

7. The Board waited to see if the Collector was able to report the recovery of the money according to the intimation given in the postscript of his letter, but no further communication has been received. They now resolve to lay the case before Government in order that the principle involved in it may be decided, and if Government see fit to relieve Mr. Pannerselvam of his loss, care will be taken to ascertain whether any portion of the stolen sum has been recovered.

Fort St George 18th March 1856

No 25

To G. S. Forbes Esqre

Acting Secretary to the
Board of Revenue
Fort St George.

(369.)

Bd No 671
From the Collector
of North arcot

Reports on the subject of Lungerkhanahs and requests sanction for the amount therein specified.

Sir,

In Para 4 of Extract Minutes of consultation dated 16th May 1854 communicated with the Board's Proceedings of the 29th Idem, the Government direct that the charges for the Dispensaries at arcot and Vellore should be included in the Statement of the expenditure of the Lungerkhanahs annually submitted for Sanction: but as those charges were inadvertently omitted in the Statement forwarded to the Board with my letter of the 2d May last I have the honor to forward a revised Statement+ wherein the charges for the Lungerkhanas and Dispensaries in 1854 are separately shewn, and also to forward a similar Statement+ for 1855.

+Enclosure No 1

+Enclosure No 2

2 From the Statement now forwarded the Board will perceive that the expenditure

on

on account of the Dispensary at Vellore from the beginning of August the date it was first opened to the end of December 1854 has amounted to Rupees 791-10-2, and the expenditure from the 1st January to 31st December 1855 has been Rs 2361-14-3.

The dispensary at arcot was opened in January 1855 and the expenditure upto 31st December has been 2571-12-9 making a total expenditure in both Dispensaries for 1855 of 4933-11-

In his letter to the Board of Revenue of the 30th March 1854 No 32 Mr Bourdillon the late Collector estimated the expenses of the two Dispensaries at Rs 4776 per annum.

This estimate falls short of the actual expenditure by Rupees 157-11-

3.

Not only has the expenditure of the two Dispensaries exceeded the anticipated amount, but the savings from the two Lungir Khanah funds which were to support the Dispensaries have

have fallen much below what were calculated.

The calculated annual amount of savings from these funds and the actual saving in 1855 are noted in the margin.

	The actual total Saving	The Estimated total Saving
1854 —	686-7-3	487-7-
1855 —	473-3-3	4622-12-4

4 It appears therefore that there has been an expenditure in the two Dispensaries from August 1854 to 31st December 1855 amounting to Rs 5,725-5-2 and that to meet that expenditure there has been available only a sum of 460-10-6-

5 In explanation of the excess of expenditure in the Dispensaries above the estimates, I beg to annex the estimate of Monthly expenses submitted by Mr Bourdillon in his letter above quoted and the Statements of actual expenses for one Month, submitted by the Sub Collector and Head Assistant in whose divisions the Dispensaries are situated.

Enclosure 3.

Enclosures 4 & 5

6 The Statement of expenditure in

Fort St George 18th March 1856

in the Vellore dispensary shows a decrease in some of the items in comparison with Mr Bourdillon's estimate, but there is an increase in Contra charges &c and in one month a supply of medicines was brought which raised the amount to Rupees 231-2-4.

The average expenditure in the Vellore dispensary in 1853 was 19£ 13s 2d per mensem.

7 Mr Bourdillon's estimate was considered applicable to both Dispensaries but it will be seen from the Sub Collector's Statement of the monthly expenses of the arcot dispensary that the apothecary in charge receives 115 Rupees a month and not 50 as stated in Mr Bourdillon's estimate. In some other items the charges are less than the estimate.

The monthly average expenditure in the arcot Dispensary is 211-5-1.

The total monthly average of the two dispensaries is 411-2-5.

8 Mr Bourdillon's estimate of 410 Rs

Fort St George 18th March 1856

a month for the expenses of both dispensaries would amount to 4920 per annum he however as above stated estimated it at 4,776 Rupees a year on the grounds that house rent at Ranipett might be saved. This saving has however been counterbalanced by the entertainment at more than double the estimated cost of an apothecary to superintend the arcot Dispensary.

9 In explanation of the additional expenditure in the Vellore Zungerkhanah which has caused such a falling off in the amount of funds available for the Dispensary expenses. I beg to submit

Enclosure 6. Copy of a letter from my Head Assistant Mr Sullivan, dated the 30th January 1856 N 30.

10 The probable necessity of supporting the new Dispensaries at first partly by the accumulated savings from the Zungerkhanah funds amounting to 11385-13-5 was contemplated by Mr Bourdillon but it

Fort St George 18th March 1856.

it was never expected that the
expenditure in the two Despensaries
would in 1855 exceed the estimate
by Rs 157- 11- and that the savings
from the Lunger Khanahs funds
would in the same year fall Rupees
4,149- 9- 1 below what was calculated.
11 Unless measures are
taken to restrict the expenditure
in the Lunger Khanahs, the surplus
fund will soon be expended and
Government be called upon to support
the Dispensaries; it appeared to
me therefore if it be intended
to keep up both Dispensaries on
their present footing to be a
necessary measure to reduce
the number of the recipients of
charity at the two Lunger Khanahs
and I beg that I may be authorized
to carry out that measure as far
as is necessary to reduce the
expenditure

Fort St George 18th March 1856.

expenditure of the Lunger Khanahs
within the estimates.

12 The house at Ranneepett
hitherto available for the arcot Dispensary
is required by the Military authori-
ties, and a house must be rented for the
purpose. I have this day addressed
a separate communication to the
Board on the subject.

No 6.

To C. Whittinghame Esquire
Collector of
North Arcot

Sir,

I have the honor to acknowledge receipt of your letter of the 9th Instant No 9 calling my attention to the excessive expenditure on account of the Vellore Sungum Khanah in 1855 requesting me to explain the cause and to state the measures I would propose for reducing the expenses in the Current year.

2. The cause is simply this, that my estimate for the year 1855 is exhibited in the table annexed to my letter

of

of the 7th March 1854 No 29, has proved to be too low instead of too high as conjectured by the then Collector Mr Bourdillon as you will perceive by the annexed comparative Statement A

3 Although in Column 1 the number of recipients would appear to be 29 in excess of the number estimated, you will observe that the quantity of Puddies of rice issued is some 262 less than that estimated, and the apparent increase above noted is owing to my having gradually introduced a System of tickets for each recipient instead of 3 or 4 persons being included as before in family tickets

4 Although 9 7/8 Puddies per Rupee

January	10 1/2
February	10 1/2
March	10 43/64
April	10 49/64
May	9 25/64
June	8 25/64
July	8 49/128
August	7 61/64
September	7 17/64
October	9 01/64
November	9 21/64
December	9 9/64

Rupee is exhibited as the actual average for the year 1855, it will be seen by a reference to the Margen that for four months out of the twelve it was actually much below even this average.

5 As regards the current year I am of opinion that though it may eventually prove more favorable than the past, my estimate for this year also will be found too low, although pronounced unnecessarily so by Mr Bourdillon.

6 There are only two ways of reducing the expenditure which are both open to objection the one by turning off a certain portion of the recipients a very hard measure as there are none now but fit objects of Charity or a uniform reduction of

Fort St George 18th March 1856.

of the allowance but the present allowance I do not think admits of this consistently with the actual maintenance of the recipients

7 I thought not forming such an unfavorable anticipation as I did of the years immediately succeeding 1854. Mr Bourdillon seems to have anticipated a deficiency in the two first years at any rate and to have proposed to meet them from certain surplus funds in hand / Vide Para 8 of his letter to the Board of Revenue of the 30th March 1854 N 32 /

Ordered

Fort St George 18th March 1856.

Ordered to be submitted with the following letter.

To
The Secretary to
Government.

570.

B. No. 799.

To The Secretary to Government.

Sir,

Revenue Department,

I am directed by the Board of Revenue to submit for the information and orders of the Right Honorable the Governor in Council a letter from the Collector of North Arcot dated 22d February forwarding Statements for the Expenditure incurred in maintaining the Lunger-Khanahs and Dispensaries at Arcot and Vellore during the years 1854/55.

Submitting a letter & Statements from the Collr of N. Arcot of the expenditure incurred in maintaining the Lunger-Khanas & Dispensaries at Arcot & Vellore during 1854/55. Restricting the expenditure for the Lunger-Khanahs only in order to maintain the efficiency of the Dispensaries

Rec'd 18th March 1856

2. The total expenditure belonging to each of these Establishments is shewn in the Margin, In the year 1854 the Arcot Dispensary had not been opened and

For 1854	Vellore	Arcot.
Dispensaries	191	102 " "
Lunger Khanas	6960	3 3 1994 4 6
Total	7151	13 5 1994 4 6
1854 Dispensaries	236	4 3 254 12 9
Lunger Khanas	6976	15 1291 12 8
Total	9338	13 4476 9 5

and that at Vellore had only been in operation during the latter months In 1855 both the Lungerkhanaks and the Dispensaries were maintained in full efficiency the former at an expenditure slightly in excess of the preceding year and the latter at an average monthly cost somewhat beyond the Estimate originally framed by Mr. Bourdillon.

3. When the Sanction of Government was given for the Establishment of these dispensaries it was anticipated that the Surplus funds arising from the Lungerkhana endowment would be sufficient to defray all additional expenses, under revised Management the Lungerkhanaks had been maintained during three years at a total cost which left a large surplus in deposit. The amount thus accumulated was Rupees 11,385 13 5. and it was estimated that after allowing for increased expenditure during the Scarcity of 1854. the

Dated 16th in Cons 29th May 54.

yearly surplus would continue to be available at the same rate as before. This has not been the case and it seems doubtful whether the sums required for the dispensaries will be saved from year to year unless some decided steps are taken to limit the Expenditure of the Lungerkhanas.

4. The Expenses incurred in excess of Mr. Bourdillons Estimate as will be seen by comparing the accounts particular / No. 6 4 85 / with No. 3 the Estimate of monthly expenses are of no great moment the only exception to be taken to the additional items is in the case of the 2 peons retained on 7 Rupees in the Arcot Dispensary this charge is not incurred in the Vellore Establishment and its propriety seems questionable.

5. It is of far more importance that the Lungerkhana funds should be so regulated as to provide for the maintenance of both charities

Fort St. George 18th March 1856.

charities, for though the accumulated funds now in deposit will provide for the present deficit, amounting for the year 1855: and from August to December 1854 to Rupees 4,564-10-8 yet this surplus will be rapidly absorbed if such demands become frequent. The Board have therefore called upon the Collector to explain why the expenses of the past year have so greatly exceeded those of the three year during which a considerable sum was annually saved. they have also desired him to submit a Statement of the reductions which would be necessary in order to restrict the Expenditure to the limits Estimated in the original scheme.-

6.

These reductions may involve some hardship to individuals but it appears to the Board a wiser and more useful course to maintain the efficiency of the Dispensaries which are decidedly the most valuable charity

Fort St. George 18th March 1856.

charity of the two than to allow the Lingerkhanas to engross such a portion of the funds as to render the continuance of the Despensaries impossible.-

7. The Board defer proposing any definite arrangement for providing a house for the use of the Arcot Dispensary until the funds shall have been placed on a satisfactory footing.-

Revenue Board Office,
Fort St. George,
18th March 1856. . . .

(Signed) G. S. Forbes.
Secretary.

Ordered that the following letter be sent.-

(569-571.)

B. No. 800.

To The Collr. of North Arcot.

To
The Collector of
North Arcot.

Sir,

With reference to your letter of the 22d February explaining that the sum expended during the past year in supporting the Lingerkhanas at Vellore and Arcot has exhausted the current proceeds of the

Fort St. George 18th March 1856.

the endowment leaving no surplus to defray the expenses of the Dispensaries lately established at those places, I am directed by the Board of Revenue to request that you will furnish them with the particulars of expenditure for the two Lungerkhanas during the past year and also for the three years during which a large saving appears to have been effected by a revision of the Management of these institutions.

2.

The Board do not gather from your letter or from the explanation of your Head Assistant the causes which have led to an expenditure so much in excess of that of the three previous years. It is observed that in maintaining the Dispensaries the original estimates have been exceeded only to a trifling amount the increase has been entirely on behalf of the Lungerkhanas and it is a matter of regret to the Board that a rate of expenditure has been maintained in

Fort St. George 18th March 1856.

in these Establishments during the whole year, which was wholly incon-sistent with the success of the scheme on which the Government of India sanction-ed the dispensaries - an earlier reference regarding the relative proportion to be maintained between the sums allotted to each Establishment might have prevented this result.

3.

The sum in deposit 11,385—13—5, accumulated during three years of more economical Manage-ment must now be indented on to an extent which would if repeated exhaust this resource in a shorter time than was occupied in saving it The deficit for the present year will be thus provided for but it is absolutely necessary that the present system should be modified so as to prevent a recurrence of the difficulty.

4.

You will therefore submit for consideration a plan for

4699 Fort St. George 18th March 1856.

for limitting the expenses of the Lungerkhana to the amount calculated on in the original scheme Reduction may involve some hardship and the Board leave it to your judgment to mitigate this as far as possible but they desire me to point out that an adherence to the scale of expenditure at first contemplated would have prevented the necessity for discontinuing allowances which may now have been enjoyed during many months.

5.

In the Statement of monthly expenditure at the arcot Dispensary the Board observe that two peons are maintained on 7 Rupees a month this was not originally intended, and at Vellore no item of this kind appears in the accounts the Board desire that these functionaries may be discontinued.

6.

In forwarding the information now called for you will also state the amount expended on the Lungerkhanas

4700 Fort St. George 18th March 1856.

Lungerkhanas during the months of January and February 1856. The Board would also wish to know which of the two dispensaries is considered to be the most useful, as it may be necessary in the event of further pecuniary embarrassment arising to continue only one Dispensary.

Acting Collector of Madras
and Register of Government Grants

Sir.

15th August To Collr. of Guntoor 16th Do.

With reference to your letter of the 10th April last. I have the honor to forward herewith Copy of an application from the Reverend C. T. Heyer, a native of Germany, and a Member of the Evangelical Lutheran Mission at this place, established by a Society in the united states of america. to be permitted to hold certain lands now in his occupation in this District and to request you will have the goodness to obtain the sanction of Government to the issue of a permission certificate in Mr. Heyer's name for the lands referred to.-

2. I should mention that application was in 1849 made through the Board at the request of the same gentlemen to be allowed to hold a part of the land at the Village of Goorzal. Permission was granted by Government. as appears from the Copies of the correspondence now forwarded. but no Permission Certificate would appear to have been issued.-

To Board 30th March 1849. From Do. 7th May.—

3. The extent of land and assessment as entered in Mr. Heyer's

4713 Fort St. George 18th March 1856.-

letter has been ascertained to be correct.-

Sir,

I have the honor to submit herewith the Proceedings of the Court of Requests held at this Station on the 12th instant.

4727. Fort Saint George 18th March 1856.

=ings of the Board of Revenue dated 1st Instant, I have the honor to inform you that the practice of this Office in regard to the delivery of Petitions bearing Government Endorsements, was, till very lately, to return them to the parties on their applying for the same, and to send such petitions as were not asked for to the Taluk Officers once in 4 or 5 Months for delivery to the parties for whom they were intended.

All Petitions received are now sent immediately to the different Tahsildars for deli=very to the parties concerned.

No. 74.
To
G. S. Forbes Esquire
Secretary to the
Board of Revenue
Fort Saint George

600.
Bo. No. 907.
From the Collector of Chingleput.

Sir,

I have the honor to acknowledge the receipt of Extract from the Board's Proceedings of the 18th December last Communicating for my remarks Minutes of Consultation of the 8th Idem on the present condition of the Village Moonsiffs Courts.

I am

4728 Fort Saint George 18th March 1850.

I beg to state that the Village Moonsiffs in this District are probably as well qualified for their duties by education and intelligence as in most Districts of the Carnatic. Their Office is regarded as hereditary only so far as to entitle their heirs to succession if they are qualified, otherwise the most eligible Merasydar of the Village by extent of landed property and the influence he bears is nominated to the Office which frequently occasions a certain amount of party feeling among the different Competitors. The Office is only sought for the respect it confers on the holder which necessarily varies with his personal character and occasionally with the length of time it has been in his family.—

3.

The great drawback to the efficient working of the institution in the Revenue and Police as well as Judicial Departments is the want of interest on the part of the Village Moonsiffs themselves after their appointment arising from the absence of any special remuneration for the duties required of them, the Grama Mooneims which ought to have formed their remuneration being looked upon and enjoyed by them as private property in Common

4729 Fort Saint George 18th March 1850

Common with the other Merasydars according to their several shares in the Village, so that the Office by involving a responsibility without a remuneration is coveted more as a point of honor or personal exaltation than with any intention of making it useful. Mr. Freese in a report dated 19th April 1844 submitted at length for the consideration of the Board various propositions for remunerating the Village Moonsiffs which do not as yet appear to have been noticed.—

(608)
Bd. No. 902.
From the Collector of Salem

Transmits an application of Mr Cherry Sub Collector of this District for one months privilege leave and affords certain information:-

Sir,

I have the honor to transmit an application from Mr Cherry the Sub Collector of this District, for a months leave on private affairs.-

2 I regret that I cannot give my support at present to this application Mr Cherry has not concluded his Summahbundy. He has settled 2 Talooks, and is now engaged in settling the third & 4th Talook remains to be settled, and in the two first settled he has to revise his settlement in consequence of the recently granted remission of 12½ per cent.-

3 I entertain strong objections to his leaving his charge in the midst of the settlement, on the ground that a late settlement occasions much inconvenient delay, 1st as to the Collections, and 2dly, as to the Summahbundy accounts, on the early preparation of which I depend for sending in my Summahbundy report, by the proper date.-

In

Fort St. George 18th March 1856

4 In regard also to my own duties I do not think additional work ought to be thrown on my hands at this the most busy period of the year.

5 I am at present engaged in settling my own Division. Five Talooks out of 10 are still unsettled and in 4 of those already settled I have to make the remissions adverted to. I am also occupied with the special work of making compensation for land taken up by the Government for the Railway, and in addition to details of this kind, I have many important matters imperatively pressing on my attention and all more or less delayed because I was obliged to take on myself the Revenue duties of the Sub Division, and all the Head Assistants duties for 4 months, from October to January inclusive, while Mr. Cherry was acting in the Chief Court at Salem.

6 During Mr. Cherry's absence on leave, I must put Mr. Graime in charge of the Sub Division and take Mr

Fort St. George 18th March 1856

Mr. Graines work myself. If under the circumstances stated above I object to making this arrangements till the settlement in both divisions has been completed. I trust my so doing will not be considered unreasonable.-

Salem Collector's Office
