Bd. No. 1230
From the Collr.
of Bellary

Sir,

In reply to the Board's

Circular of the 1st March last forwarding Copy of an Extract from the Minutes Consultation under date the 22nd February 1856, requiring to be informed as to the practice that exist in regard to the delivery of Petitions bearing the endorsement of Government to the parties for whom they are intended. I have the honor to state that on their receipt Petitions forwarded by Government in order to be returned to the Petitioners are endorsed, if decision has previously been given in the matter with the decision and returned to the Parties at once if present, or if not present at the Station the Petitions are sent to the Tahsildars to deliver them on their giving acknowledgement

for

Fort St. George 15th April 1856.

for the same. If the matter of the Petition has to be investigated, orders are sent to the Tahsildars directing reports to be submitted after enquiry; on receipt of which decision is given, and the Petition is endorsed, and returned to the Party, such Petitions as bear Government endorsement, declining interference, are simply returned to the Parties.

No. 79.

To
G. J. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George

(517)
Bd. No. 1234
From the Collr. of Madura

Sir.

With reference to the Board's Circular No. 2204, dated the 29th August 1853, I have the honor to furnish a statement of yeomiahs in the prescribed Form. —

2. I beg to draw their particular attention to No. 57 service yeomiah, payment of which is suspended until their orders are received. —

3. All the yeomiahdars except women under 50 years of age are inspected and compared with the certificate by a covenanted civil servant once in 6 months and the men every month by the cash keeper of the Hoozoor Treasury where alone they are paid. Women are inspected monthly by the cash keeper or if they are Goshah by women sent by him.

4. A great number of grants originally for life only have been continued wholly or partially to descendants: but the sanction of Government was in each instance obtained; and it may be presumed that the gradual discontinuance was preferred to a full resumption at each lapse from motives of policy and humanity.

5. I am unable at present to affix the required note of the ratio of lapses. but if possible will submit a separate Memo: hereafter.

(Signed) R. D. Parker
Collector

Madura
10th April 1856.

Bd. No. 1238

From the Ag. Collector of Guntoor ---

Sir,

1. I have the honor to state in reply to the Board's Circular of 25th February, that there are no Pagoda Funds currently accruing in this District.—

2. The remainder of the surplus Pagoda Funds set a part for expenditure on public works amounts to Rupees 790-9-4 as shewn in the accompanying Statement.—

3. I beg to request sanction for appro=priating a portion of this not exceeding Rs. 500 for the purpose of purchasing a convenient site for the new Dispensary at Guntoor which has been sanctioned thro' another channel, as it is found impracticable to find a good situation for it on any unoccupied ground.—

4. The remaining portion may be spent in making a well or in opening out streets thro' some of the more crowded parts of the Town of Guntoor.—

From the Collector of South Arcot ---

Sir,

In reply to your circular letter No. 849 dated 19th Ultimo, I have the honor to state that it is only usual in this District to supply the Jemadar and the five Duffadars of the Deloyets with cloth Belts. all other Deloyets wear cheeta-skin belts and the Talook peons provide themselves with belts, chiefly of leather. —.

It seems to me unnecessary to make any change in the present arrangement- cloth suitable for Duffadars Belts can be procured at Pondicherry at about 8 Rupees a yard and upwards, according to quality- supposing therefore that it takes 3/4 of a yard for each belt, the cost of the cloth would be Rs 6 to which may be added Rs 1-8-0 for making up with edging. —

A handsome belt for a Jemadar could not be made, I should say, for less than 10 Rupees. —.

I do not think it would be necessary to renew such cloth belts as I refer to, oftener, than once in three years at the least. —

Extract from the Minutes of Consultation
in the Revenue Department under date
the 7th April 1856.

Read the following letter

From.

A. R. H. Lascelles Esqre.

To. J. D. Bourdillon Esqre.
Secretary to Government
Fort St. George.

Sir.

I have the honor to acknowledge the receipt of your letter of the 11th Instant, informing me that the Government would recommend that I should withdraw my letter of the 23d February, and further pointing out that the prescribed course in appealing against the acts of a Collector is, in the first instance, to address the Board of Revenue.

The enclosed copy of a letter received this day from the Collector will, I humbly trust be considered sufficient cause for my again most respectfully but urgently

urgently soliciting that my charges
against the Collector of wilful and contin-
-ued misrepresentation and falsehood
in his official correspondence may be
investigated.

I would wish to disclaim
any intention of imputing any motive
which cannot be capable of proof and
in "suggesting" for his Lordships con-
-sideration those which I named as the
probable causes of the Collectors conduct,
I was actuated by the consciousness that
I could prove not only Mr. Thomas' bitter
personal animosity (of which I believe
the accompanying letter is sufficient
proof) but also his having reprehended
the sellers of the land for not having
offered it to him, and thus evincing
his own desire to possess the land himself
and his disappointed at my having
forestalled him.

The letter from the Collector of
the 12th Instant now forwarded, compels me
to appeal to the Government for such an
enquiry into this case as may enable me
to clear my character from the imputations
cast

cast upon it by the Collector in his official
capacity, and whilst I again beg that the
whole case may be the subject of a searching
investigation, I would wish to rectify
my former error and to place my charges
against the Collector in a distinct and
concise form. I charge the Collector with
wilful misrepresentation in the follow-
-ing instances -

In stating in his letter of the 26th Decem-
-ber that the land purchased by me "was
once the site of the public bungalow", he not
having the slightest grounds for such a
statement. Secondly, in stating in the
same letter that there are the "clear remains
of a Todar mund on it," there being none,
and he having been told by competent
persons that it was once a Burgher Village.
Thirdly, "that it had been long a public
spot and only a few years under culti-
-vation", when the puttahs for more than
15 years had been handed into the cutcherry.
Fourthly, in stating that "there are old
paths across it which could not be
stopped up." This being untrue as any
person can see who visits the land and ask the
Villagers regarding it.

I

I further charge the Collector with falsification of the facts and suppression of the truth, first imputating, that "I had informed him that I had purchased from the Burghers 31¾ acres of arable land for 100 Rupees" I never having done so, on the contrary, I requested he would be so good as to inform me what extent of land the Burghers had a right to dispose of adding that they claimed a right to sell 10½ Bullahs, and I beg leave to forward the original Deed of Sale* in support of my statement. Secondly, in stating that the Sodars had been offered 500 Rupees for one Cawny &c. The facts of the case being that the whole of the land around this Cawny has been taken up by Europeans, and the Sodars presence is a nuisance, the first offer made to the Sodars was made conjointly by several of the neighbouring Proprietors who were willing to pay a large sum simply to get rid of the Sodars, who were inhabiting the mund with houses Kraals &c. actually standing not in "remains" and the Sodars having the right of actual possession, which the Burghers have in my case.

An enquiry on these points would further

* Which they may be returned.

further elicit the fact that every endeavour has been made to induce the Burghers who signed the Deed and sold the land, to recede from their part of the engagement, which they have hitherto refused to do, and further that their actual evidence has been falsified and not correctly written down. Most humbly do I entreat an investigation into this case, and I would beg that my peculiarly painful position with imputations and accusations cast on me which I have no opportunity of disproving may be taken into consideration. I pledge myself to prove the charges against the Collector made above and that his imputations against me are wholly without foundation.

I would wish to represent with all respect that if the case had involved a simple proprietorship of land, or question of transfer, I should have addressed myself in the first case, to the Board of Revenue, but the conduct of the Collector having been throughout the whole case, such as I conceived should be represented to higher authority, I trust I may be pardoned for appealing direct to the Government.

The

The Collector was doubtless justified in refusing to confirm a sale, if he was of opinion it was "unfair or forced" but he was not, in my humble opinion, justified in stating first, that the land was the site of the public bungalow. Secondly, that the Todars had the strongest right, and that there were the clear remains of a Todar mund. Thirdly, that the land had been only a few years under cultivation and long a public [illegible] spot. Fourthly, that there were old paths across it which could not be stopped up. These were not matters of opinion or errors of judgment but one and all susceptible of demonstration or disproof, and I am prepared to prove one and all to be misrepresentations and that the Collector knew them to be such when made, as he had the evidence of his own "personal inspection" besides that of the villagers in the vicinity. When moreover the Collector conceives himself entitled to fix the sum at which parties may sell or transfer their right in land, to state "the purchase was a forced and unfair one, for less than the land was worth, and by unfair influence over the Burghers &c &c" all of which are mere matters of

of opinion, susceptible of no proof and disputing motives, of which he had not only no evidence but no reasonable grounds, I humbly trust that I may be excused for again appealing to Government, and requesting that one of the local officers be ordered to receive and transmit the evidence I can adduce, in support of my charges and in refutation of the Collector's statements. I would wish with all submission, in conclusion, to call attention, first, to the simple fact that the assignees of the land, holding Puttahs for and cultivating it, is not disputed, for in fact, the transfer is only of such lands as is "held on Puttah". Secondly to Mr. Thomas having ignored the sale because "he cannot understand" the Burghers selling land cheap to me whilst they have been overpaid in other cases, and attempting to draw a parallel between cases which as I have shown have no resemblance. Thirdly, that his "full conviction" and statement of serious fraud and misconduct on my part is arrived at after an enquiry, as knowledged by himself to have been "hastily conducted", "in the midst of much other business". And lastly I humbly conceive I shall be considered justified in bringing forward Mr Thomas' attempt to bring into the matter a case which occurred in

in the Civil Court nearly four years ago and was decided against the Burghers and which has not the remotest connection with the matter in dispute as illustrative of the animus which dictates his conduct.

I would wish to express my sincere regret that the tone of my letter should be disapproved of, and respectfully to state that it was penned, whilst smarting under injuries for which I have no redress and in the knowledge of particulars of the Collector's conduct which cannot be brought forward in a letter of this description; and would further solicit a perusal of the Collector's letters and a consideration of the language which, in his official capacity, he has applied to me.

Ootacamund
17th March 1856

/ Signed / A.R.W. Lascelles

No 55

From,

C.B. Thomas Esqre
Collector of Coimbatore

To,

A.R.W. Lascelles Esqre
Ootacamund.

Sir,

I beg to acknowledge yours of the 19th Ultimo, and to observe that it contains as is usually the case in your letters, several misstatements. It is always usual, but

but not from courtesy (which I do not expect at your hands) but officially, to send to my office, for examination and registry, originals and not Copies, of such professed "deeds" as you sent me; every body, but yourself as you are quite aware, sends me, constantly such. It was retained pending an enquiry and for no other purpose and that enquiry, which was made (in the midst of much other business) with as little delay as practicable, has fully convinced me, that the alleged purchase by you, of so much land for so inadequate a price, was a forced and unfair one, for less than the land is worth in infraction of the Todars just rights; and by unfair influence over the Burghers whom you employ on your Coffee estate, and by misrepresentations to these ignorant classes, of your supposed influence in high quarters in advancing their interests which you do not really possess.

You still evade the only simple point to which I have endeavoured to bring you a straight forward denial or admission, of the underlining alluded to; that it is your own, I have no hesitation in stating my entire conviction; from your previous Style of correspondence, your present and usual evasion, your known litigious character, and

the

the very obvious similarity of the ink in your signature and no one on the Hills, Knowing you, would hesitate to come to the same conclusion.

3 As to your "opinion" that the "underlineation was made for an unworthy pretext by myself" I can afford to make very light of such opinion; my character and your own are both too well Known on the Hills I believe, to leave it doubtful, as to whose the underlining is most likely to be; but I am able without evasion or insinuation, (which you dont as yet seem to be) to declare that it is not mine.

4 With regard to any "charges" that you may think right to send to Government, I shall be happy to meet them and trust they may not recoil upon yourself.

5 I really regret to condescend with you in any degree to a style I have not hitherto allowed myself to use, having ever treated you in my official acts and correspondence with a courtesy you do not deserve; you have now compelled me to speak plain truth, not probably palatable to you, but not the less fact. The Burghers still allege, that there are nearly two Rupees, an old amount of wages Kept back by you, due to them for work done years ago on your Coffee plantation.

6 I beg to return the professed deed of Sale you allude to.

Parindoor ray camp 17th March 1856

Bd. No. 855.
From the Collector of Sea Customs Madras.....
Reporting as requested in Pro. Board of Revenue dated 25th Ultimo that no Establishment was entertained connected with the Registry Department while in his charge —

Sir,

I have the honor to acknowledge the receipt of Extract Proceedings of the Board of Revenue of 25th February and Mins: Consultation of Government No. 48 dated 16th February 1856 in which that authority observes that the duties of Registrar of shipping have devolved upon the Master Attendant and it seems proper that such part of the Collector's Establishment should be transferred to the Master attendant as was employed on this duty.

2. I enclose a Statement from which it will be perceived that very little duty devolved on the Collector as Registrar of shipping for the Port of Madras in fact under Act X of 1841 on an average of 10 years 10 Certificates are granted per year and under the Imperial Act 3 per year. The principal duty of the Registrar consisted of personal labour in Examining all Certificates granted and

Fort St. George, 18th April 1850.

and answering references. The Returns of ea
Port are made out by the Registrar in ea
and transmitted by the Registrar of shipp
when issued under the Imperial act, to the
Home authorities. There was no Establishme
for the purpose and in referring to Mr
Williamson's report dated 2d February 184
Government will perceive that no Clerk ca
be spared from this Department and since
this was penned the Trade of the Port
has increased considerably and the duties
of every officer been enhanced. The Master
Attendant has apprehend duties to
perform under the New Act of a characte
wholly new. With reference to the Minutes Con
sultation of Government where it is obser
ed that some arrangement should be made
between the two Officers which should as far
as possible obviate increased expence to Gov
ernment. I beg to observe I will willingly unde
take to prepare for Captain Biden all the
returns required to be sent to the Home
authorities as required and to fill in the
certificates

Letter to Govt
from Collector
Sea Customs
Feby 1849 Para 2

Fort St. George, 18th April 1850.

Certificates of Registry for him, and copy
them into his book of Registry these being
the duties performed by me as Registrar
of shipping. I think however the Registry
would be simplified if Forms were bound up
and them filled in lieu of writing each in
full as is at present. That course might
be followed with advantage at all Registering
Ports, and further that the Copies required
to be transmitted for the examination of the
Registrar of shipping might also be filled
in printed copies in lieu of being written.
This would necessitate the printing of a
much larger number of forms for each
Port than are now struck off.

Collector Sea Customs

Number

Fort St. George, 18th April 1856

Ordered to be submitted with the following letter.-

(608-609)

Bd. No. 1159.

To the Secy. to Government

Submitting a letter from the Coll.r of Sea Customs reporting that no portion of his Estatelishment can be transferred to the Master attendant for the performance of the duties of Registrar of shipping and stating that the arrangement by which the Coll.r proposes to assist Captn. Biden will provide for the despatch of business on the Registrar's office and obviate increased expense to the states-

In Cons.n 18th April 1856 No. 30

To, The Secretary to Government

Sir,

With reference to para 8 of Extract Minutes Consultation dated 7th February 1856 I am directed by the Board of Revenue to submit for the information of the Right Honorable the Governor in Council, the accompanying letter with its enclosure from the Collector of Sea Customs dated 10th March 1856, reporting that no portion of his Establishment can be transferred to the Master attendant for the performance of the duties of Registrar of shipping

2. The Collector states that the principal duty which devolved on him as Registrar of shipping consisted of personal labour in examining all certificates granted under Acts X of 1841 and XI of 1850 and on answering references &c. appears from the Statement submitted by the Collector that on an average of 10 years only 10 certificates were granted at the several Ports in each year under the local Acts and 3 under the Imperial act. The Returns of each Port the Collector states, are made out by the Registrars in each and transmitted by the

Collector Sea Customs

Returned

by the Registrar of shipping when issued under the Imperial Act to the Home authorities.-

3. From this it will be perceived that very little additional work was imposed on the Collector as Registrar no separate Establishment was sanctioned and the duties of the office were performed by the servants of the Collector's Department.-

4. It seems however that some of the Clerks of the Collector's Office can be transferred to the Master attendant as the Trade of the Port has considerably increased of late years and in consequence the duties of every Officer have been enhanced. But the Collector undertakes to have prepared in his office all the Return Certificates &c. which were drawn up by him previous to the passing of the merchant shipping act. He at the same time suggests that the forms of Registry be bound up and then filled in lieu of writing each in full as at present and that Copies required to be transmitted to the Registrar of shipping for examination be printed.-

5. Under these circumstances the Board &c. hope that although a reduction or transfer of

Establishment is impracticable the arrangement by which the Collector proposes to assist Captain Biden will provide for the despatch of business in the Registrar's office and obviate increased expense to the state.-

B. No. 1282.

From E. Maltby Esqre. Second Member of the Board of Revenue.

Minute on the Draft act for the Collection of the Revenues and of the Rents.

Minute of the Second Member on the Draft act drawn up by Mr. Stokes "for the collection of the Revenues and Rents."

1. The Draft act has evidently been prepared with great care, and it gets rid of much that is cumbersome and useless in our present laws - but I am of opinion I st that a clear distinction should be made between Revenue and Rent, and between Zemindary and Ryotwary Lands and II that on some important points relating to the process for enforcing payment of revenue and rent the draft should be made more detailed and comprehensive.-

2. On the 1st point it appears to me that

that the confusion and uncertainty of our present laws arises from the distinction between rent and revenue not having been attended to, and from the rights of a Zemindar not having been distinguished from those of a private landowner leasing out his land to private tenants. The consequence has been many legal anomolies and much practical inconvenience. Thus although the Zemindars who came into existence under our Regulations only fill the place which Government holds in a Ryotwary District (excepting of course when they hold pieces of lands in their character of private individuals) they have been declared to be vested with a proprietary title to the lands included in their estates and the real landowners are styled the Zemindar's tenants, though in fact they are independant proprietors merely paying to the Zemindar that portion of the crop or its equivalent in money which constitutes the due of the Government.-

See Regulation XXV of 1802 Preamble.

3. In consequence of this indistinctness of ideas the law makes Government look to the

land

land for the recovery of an arrear of revenue while a Zemindar forfeits the balance due to him if he attaches the real property of a defaulting proprietor, though the land owners ought to be subject to the same proces in both cases. Again Government cannot proceed[x] against personal property in the first instance, though a Zemindar can distrain and sell it at once, other inconveniences arise with respect to landlord and tenant from this confusion of the law, mistrusting apparently its act of vesting Zemindars with a right in the soil Government passed subsequent regulations limiting the extent of a Zemindar's demand against parties holding lands within his estate and directing the officers of Government to hold an examination and fix the amount of payment according to what was customary and equitable when a dispute arose between a Zemindar and a party holding land within his estate. The Zemindar was also directed by law to enter into written engagements with his ryots and he was forbidden to disturb their possession as long as they paid the assessment due on their lands.-

4. But however just and necessary these rules are for regulating the position of a Zemindar towards

[x] This construction has been put upon the law and Govt has ordered it to be acted upon. But the Board viewed the regulation differently as to this point.-

towards his ryots when Government have transferred their rights to him they are quite unsuited to the case of a private landowner and his tenant. It is evidently an improper interference with the rights of property for Government to fix or limit the rent for which a private proprietor is to lease out his land or to declare that he is not to oust his tenant on the expiration of the lease and give the land at his pleasure to a new party or retain it for his own cultivation- yet this has been done. From our regulations not distinguishing between revenue and rent and providing clear laws for landlords and tenants those regulations which were intended to prevent a Zemindar from exacting more than the legal assessment from the ryots of his Zemindary have been often applied to the case of private landowners leasing out their lands to tenants under voluntary agreements. A check has thus been given to the beneficial relations of landlord and tenant, and the value of property has been injured by landlords being fettered in their just right of letting out their land on their own terms and taking it back when the lease expires.-

5. I am however anxious to be brief on a subject, on which so much has already been written, and will

Fort St. George, 18th April 1850

will therefore only observe that in my opinion advantage should be taken of the present opportunity to improve the law on this very important point. To effect this end it appears to me that distinct provision should first be made for the collection of Revenue - meaning by the term, that portion of the crop or its equivalent in money which represents the due of the state whether it is paid to Government, or on behalf of Government to a Zemindar, Jaghiredar, Shrotriemdar or Enamdar. For the realization of this revenue I consider that the land of the defaulter as well as his personal property should be always responsible. Zemindars giving notice to the Collector as at present when they issue any attachment. Distinct rules should then be made for the collection of rent properly so called. In these cases the land on which the arrear is due already belongs to the landlord and I would limit his summary powers to the distraint and sale of the personal effects of his tenant. Any real property which a defaulting tenant may possess should I conceive be recovered by the landlord through the agency of the Civil Courts.

6 It appears to me that when carrying out this arrangement, clear laws could be laid

Fort St. George, 18th April 1850

laid down to show the position of landowners in Ryotwary and in Zemindary Districts and that separate rules could follow to ensure to private landholders the full rights of their property and define the law of landlord and tenant. The rules for the process to be adopted in the attachment and sale of land and personal property would form a distinct part of the code and measures could be taken to clear up another point on which the present regulations are confused by making a distinction in the forms of sale according as Government is selling the proprietary title to land as in the case of a defaulting landowner in a Ryotwary District or the right to collect the Government assessment due upon land as in the case of the estate of a defaulting Zemindar.

In connection with this part of the code I will here point out that our present law does not permit the holder of rent free (Sewa Inamem) land to collect his dues from his tenant or the under cultivator, by summary process and the only method to be pursued against the Defaulter is the tedious one of a regular suit before the Civil Courts. This

state

state of the law appears attributable to oversight and not to design. It arises from the wording of the Regulation which gives landowners the power of distraining and selling the property of under cultivators. The preamble states that the power is given to facilitate the "punctual collection of the public revenue" and the Sudr Adalut has ruled that it cannot therefore be exercised in the case of land exempted from all payment of public revenue. Mr. Stokes does not propose to amend this part of the law and observes in a note attached to Section 19 of his Draft act that he sees no reason for doing so. But in this opinion I cannot concur, I fail to see that Cultivaters of land should be exempted from the ordinary process when they fail to discharge their just obligations because Government has assigned its right of receiving the assessment to another party or in other words has given the land on Enam and the present state of the law causes much injustice and inconvenience. Government pays a very large number of its servants by Enam lands instead of salaries these servants have often neither ability nor leisure to cultivate these lands themselves

° Reg 28 of 1802.

and it seems unjust to them and detrimental to the public service that they should not have the same summary power of collecting their dues as other landlords. The want of this power reduces the value of their lands and thus diminishes the remuneration which it was intended they should receive for their official services.-

8. I now come to the IInd point connected with my preliminary remarks upon the Draft act. It appears to me that in some points it is wanting in comprehensiveness and detail and I will proceed to notice the most important instances.-

I The draft does not show when its provisions are intended both for Zemindary and Ryotwary Districts or for the latter only on many points of administration such as land registers forms of engagement with ryots Village Officers &c. &c. separate rules would be required and I consider that the proper course is to frame distinct and detailed laws for each such a course would entail some repetition but this disadvantage would be more than counterbalanced by the clearness of the law.

II It is very necessary for the proper administration of

of the revenue and the security of landowners — that rules should be laid down for keeping it careful - Register of those occupants of land with whom the Officers of Government have dealings and who are primi facie acknowledged as proprietors. These rules should detail the occasions on which it is allowable to alter the entries in this register such as the voluntary application of the parties concerned the death of the Registered proprietor on his absence for a certain period leaving the land unoccupied a public sale of the land for arrears of revenue or an order of a Civil Court - In Section 2 of the Draft act the maintenance of a Register is ordered but the subsidiary rules are left to the orders of Government, and the Revenue Officers, I do not see objections to this plan if the rules are duly published but as the act declares that the entry of a man's name in the Register makes him liable to pay the assessment it should in my opinion also state distinctly how the registered individual can free himself from this liability and describe the notice which he is to give for the purpose. —

III Distinct rules seem desirable to define the law of landlord and tenant in all that relates to rent and the occupancy of land by a party under a voluntary agreement with the

the registered proprietor. These rules should provide not only for land used for cultivation but for land given for building purposes in towns and villages. For lands of this latter description the present law is altogether vague and imperfect —

IV Some points connected with the process for collecting revenue and rent remain to be provided, for such as —

1st Rules for holding lands in attachment preparatory to a sale, collecting the rents and appointing an establishment to manage them —

2d An enactment making distrainers — answerable for the acts of their Agents as in Section 39 Regulation 28 of 1802 —

3d Rules for preventing and punishing obstructions to attachments and sales - The Bengal law makes it a punishable contempt to bid at a sale and not make the prescribed deposit on demand. This rule seems useful —

4th Provisions for cases when persons authorised to distrain, die or wish to transfer their power to others (See Regulation 28 of 1802 Section 30 and 42) as also for the continuance of process against the heirs of a deceased defaulter —

V Having offered these preliminary observations to

to show what appear to be dificiencies in the plan of the Draft act I will now allude to those of its Sections or Clauses which seem to call for remarks—

1st 2nd 3d and 4th Sections

10. The first 4 Sections appear to me clear and well suited to their intended purpose. In the 3d Section it might perhaps be advisable to alter the sentence "The rates of assessment on land whether leviable in money or kind shall continue to be settled as heretofore, into "shall continue to be settled by Collectors under the orders of the Board and Government" This would accord with the old Regulations and with actual procedure—

11. The 5th Section provides for the exchange of written engagements between the revenue officers and the ryots, alluding to the Puttah and Muchilka of our old regulations But in practice Muchilkas are not taken by Collectors except when parties apply for waste land on Cowle. This section should therefore be altered as far at least as Ryatwary Districts are concerned for it would be almost impossible, as well as useless to make every ryot given a Muchilkah and if the Act directs them to be taken it would be a question whether the payment of the revenue could be legally enforced without them—In Zemindaries it may be considered advisable

See Reg 30 of 1802 S 2 & 4 of 1822 S 8 & 2

advisable to continue both Puttahs and Muchilkas and if so this forms one of the instances which show the advisability of legislating distinctly for Ryotwary and Zemindary Districts—

8th Section

12. It is necessary that a Revenue officer should have the power of demanding security for the payment of the public revenue though its exercise would be limited to cases of necessity—If the security is not given the 8th Section proposes to authorise the Collector to transfer the land to another party, but objections exist to this course on the ground of the growing crop—I therefore consider it preferable to hold the crop responsible for the assessment and to forbid its removal until security is given or the dues of Government are satisfied—This agrees with the ancient usage of the country and with the system now in force in Bombay—

9th Section

13. I am not aware whether the 9th Section is intended for Zemindary as well as for Ryotwary Districts and it seems advisable to prevent doubt on this point—

11th Section

14 The 11th Section describes the different processes to be taken against Revenue Defaulters and removes the difficulty now felt in distraining and selling personal property—It appears to me however that the Section is

is too much condensed and that more detailed rules are wanted. It would be advisable to specify for example what length of notice is to be given to a defaulter, what constitutes the serving of a notice what process is to be adopted in attaching an estate and collecting its rents and what public servants alluded to under the term Revenue officer it being highly essential to show distinctly what powers are entrusted to Tahsildars and their subordinates—

13th Section

15. Section 13 relates to the sale of Defaulters lands. In continuance of the present law, the sale must be advertized 30 days previously and the arrear is to be accepted, if tendered up to the moment of the sale. Thus the people assembled to bid, never know if the sale will actually take place. The Bengal sale law prevents this inconvenience by fixing a day within which the arrear must be discharged if the defaulter wishes to prevent the sale of his land and I am inclined to recommend the adoption of this system here. By Section 11 I understand that a defaulter can be imprisoned previous to the sale of

of his land- otherwise it might have been desirable to empower Government to shorten the notice of sales with a view to make an example when necessary and break up combinations to delay or prevent the collection of the revenue, such for example as have occurred in Canara. The section directs that a plan of the land is to be published with the sale advertisement when practicable but I would leave this as a subsidiary rule instead of making it a substantive part of the law—

Section 14

16. Two additions are suggested to this Section. To prevent personal property being destrained under attachment, a limit of time should be fixed as in Regulation 28 of 1802 Section 21- 2d. If a purchaser does not immediately pay for and remove the property he has bought he should be declared answerable for the expense of its keep from the date of the sale as well as for such loss as may occur on re-selling it— as well as for such loss as may occur on re-selling it—

Section 15

17 This section is the more important because by Section XI a defaulter can be imprisoned at once instead of only after his property has been put up to sale as at present. This course makes the law for the recovery of arrears more efficient and seems unobjectionable if due notice of the arrear is given and he is allowed a fair opportunity to discharge it. It must be borne in mind that in proportion as

as the legal means of recovering arrears are stringent and summary the resort to illegal and violent method of collecting the revenue will decline.—

I would however observe of this section that the Collectors duly is spoken of in it. The power which Tahsildars and their Subordinates are to have of summoning defaulters and keeping them in attendance till the Collectors orders are received should be distinctly laid down. When also an arrear of revenue is disputed it appears advisable that Revenue officers should have defined authority to summon any witnesses and procure any papers necessary for examining the point.

Section 16

18. The advisability of fixing a time for discharging the arrear has been alluded to in Paras 9 of this Minute. The object in view is to prevent people assembling uselessly under an impression that land is to be sold and thus to guard against these sales becoming objects of mistrust and being ill-attended. I would extend the opportunity of discharging the arrear as long as possible and fix the latest time of payment near the day of sale, allowing only

only sufficient interval for it to become known in the neighbourhood that the land has been released from attachment. With regard to the wording of the latter part of this clause I would observe that if the defaulter shows that he is no longer connected with the land on which the arrear is due the section ought to declare that process against him is to be stayed but I do not see that process against the land itself is to be abandoned.—

Section 17

19. I quite concur in the first part of this section considering it necessary for the public interests that Government should have as hitherto a lien on all the landed estates of a Defaulter. In Ryotwary field assessed Districts especially where the land owners hold many fields all separately assessed it would lead to difficulty and delay to note the particular fields to which the payment belongs when a Kist is tendered and opportunity would be given for retarding and thwarting the realisation of the public revenue if sales of land are to be stopped to enquire into claims suddenly

suddenly advanced by asserted Mortgagees. For these reasons I would retain the broad principle that all the land registered as the property of a defaulter is primarily answerable to Government for any arrear of revenue due by him and I do not consider that this rule would act with injustice to mortgagees. The land registers are expressly kept to show to whom Government is to look for payment of the land Revenue and when therefore a mortgagee receives land into his occupancy and is to pay its assessment he ought to take steps in conjunction with the mortgager to have the land registered in his name as the real occupant. Government would then deal with him and the land on which he has advanced his money would cease to be answerable for any arrear of revenue due by the mortgager. But I am not of opinion that Government should have a prior claim to all property distrained upon the land. Such a law exist for Madras & there the land is principally occupied with houses and is not allowed to be sold for arrears. In the Provinces the land can be sold and the defaulter

defaulter be imprisoned. This sufficiently protects Government and I object to this part of the section as endangering the property of tenants and casual residents on the land.—

Section 18

20. Now that advances for public Works are made by another Department and not by the Revenue officers, this section must be altered, or else it must be expanded to show on whose authority and responsibility Revenue officers are to act when distraining and selling property for the recovery of such advances.—

Section 19

21. This section gives strength to my opinion that it is advisable to distinguish between the process for recovering revenue and rent. As respects the latter I deem the rule now in force a sound one that a landlord should not be allowed to take summary process against a tenant unless he holds a written engagement from him.—

Section 20

22. I do not consider this section necessary and would wish it dispensed with on account of the harshness to which it might lead. It has been proposed to

to give Zemindars a power of proceeding against the lands as well as the personal property of their ryots and if they as well as private Landlords have the power of demanding security before the produce is removed from the land when there is reasonable ground to suspect the cultivator or tenant of a design of absconding with it their interests will be sufficiently protected in my opinion.—

18th April 1856 /Signed/ E. Maltby

Second member

Minute

Dt. No. 1283

From F. N. Maltby Esqr. Acting third Member of the Board of Revenue

Minute on the Draft act drawn up by Mr. Stokes for the Collection of the Revenues and of the Rents

612

Minute of the Acting third Member on the Draft act drawn up by Mr. Stokes for the collection of the Revenues and of Rents.

Having concurred with the second Member in all the remarks upon Mr. Stokes's draft above recorded except two, I have only to note those points upon which my views are not in conformity with his.

2 The first is contained in the 5th and 6th Paras of the above Minute. I fully concur in the Statement made of the confusion that resulted from the want of distinction between rent and revenue at the time of the Zemindary Settlement, and from treating the Zemindar or Mootahdar as a Landlord when, as far as the occupied land was concerned, he was only a party to whom the Government gave over their right of collecting the revenue. The consequence has been that the law as regards Landlord and Tenant is in extreme confusion as the 2d Member has strongly pointed out. But I do not concur as to the remedy proposed. Instead of the distinction between Revenue and the Rent proposed by the second Member I would now term all that is payable to

to Government revenue, and all that is paid to private individuals rent-

3- Rents are of two Kinds quit rents and rents at will, such rents as the Landlord has not the power of raising may be called quit rents. Such are the fixed rents /formerly assessment/ payable by Ryots, to Zemindars, Shotriemdars, Enamdars &c.

4 I think therefore that Mr Stokes arrangement of the law first into provisions for the Collection of Revenue and Secondly into those for the Collection of rent is good, and all that is necessary is to insert clauses which shall empower the Landlord to realize his rents by the sale of the tenants right in the land-

5- This I think will be better than providing one Law for Government, Zemindars, Enamdars, Shotriemdars &c and a second for ordinary Landlords-

6 I consider that the Landlord ought to have the right of putting up to sale whatever is saleable in his tenants right. It will I think be sufficient to provide that on the application of any Landlord to sell the right of his defaulting tenant the

the Collector /or Tahsildar &c/ shall proceed under the rules in force for the sale of land for arrears of Government Revenue-

7 It may perhaps be argued that when a tenant fails to pay rent, the land lapses ipso-facto to the Landlord, and the old Regulations have been framed on this principle, but I am satisfied that where the tenant has a right in the land beyond a yearly lease, that right should be brought to sale publicly rather than be superseded by the Landlord-

8 The Second observation that I have occasion to make has reference to Section XVII and the observations of Mr Stokes and the 2d Member- They are of opinion that Government should have a priority of claim not only on the land on which an arrear may accrue, but on all the landed property of the defaulter

9 I am of opinion that the interests of the state are sufficently secured by the provision that the claim of the state for an arrear of Revenue shall have periority over all other claims on the land on which the arrear has accrued or property of the defaulter distrained upon that land To go beyond this I think renders an investment of money in land unnecessarily insecure

Fort St. George 18th April 1856.

ensecure and consequently depreciates its value — I consider that if a person investing money satisfies himself that the Revenue of Government has been duly paid, or if he is prepared himself to pay it, he ought to be safe and not liable to loss because some assessment on some other land has not been paid. It does not appear to me that practically any inconvenience will arise as the holder of the land will be bound to prove that the assessment on that very land has been paid. As the clause now stands in Mr Stokes draft even the personal property of the Mortgagee or other occupant, will be liable to summary sale for any arrear on any other land that the Landlord may possess, and on which he may allow an arrear to accumulate, but even if the latter portion of the clause were omitted, I should prefer limiting the Law to the plain statement that all land is security to Government for its own assessment." of course the real and personal property of the owner is also liable to distraint, but the Government will not have a priority of claim on other lands as they have not, I believe on the personal property.

Regulations of the Madras Presidency and submitting the minutes of the two members of the Bd as respects the provisions of the Draft act for the Collection of the Revenues & of Rents"

To Govt 10 Sept. Cons. 18th April 56

Consultation dated the 20th June last Mr H Stokes was directed by Government to revise the laws relating to the recovery of revenue and rent in this Presidency, and under subsequent instructions his task was extended to the preparation of an entire new code embracing all subjects connected with the occupancy and assessment of land the collection of rent and revenue, and the different branches of our fiscal administration. The details of Mr Stokes' labours including his reports to Government and the draft acts which he has drawn out, have been forwarded to the Board of Revenue in a printed Volume, for their opinion and the Board now proceed to lay their views on the subject before Government.

+ Extract Minutes of Consultation 8th Jul 12th October 55

2 The Board will first observe that as the subject is so very extensive, and the papers are already so voluminous, they have thought it advisable to make their remarks as brief as possible, and limit them to the most important points. But this course has not lightened their own task because they have not the less given careful attention to all parts of the subject, besides endeavouring to ascertain in what degree the laws of the other Presidencies could be introduced into our code with advantage.

Acting

3. Acting upon this view the Board will obstain from detailed comment upon Mr. Stokes's preliminary reports. They will only remark that the observations which they contain generally meet their concurrence more espe-cially those in † Paras 38, 39, and 44 of his second report dated 15th November 1855 and then proceed at once to express their views upon the draft acts which he has sub-mitted to Government

† The subjects here discussed are as follows.
P. 38 The abandonment of all the old rules declaring lands forfeited to Government on their owners resisting process
P. 39 allowing all persons to bid at sales of land for arrears of revenue — Government servants being still subject to the rules respecting their acquisition of land in the Districts where they serve.
P. 44 In Ryotwary Districts Collectors to have power to sell land for arrears; sending an annual Statement to the Board.

4. To lessen delay the Board will submit their remarks in succession on the different draft acts instead of waiting until they have fi-nished their formal analysis of the entire code

E. M. of C. 5th Oct. 1855 Pt.

His first division which relates to the collection of the revenue and rents is not only the most im-portant, but as observed by Government requires the earliest attention because it embraced an in-conveniently defective part of our law the amend-ment of which was the primary object to which Mr. Stokes' attention was directed. The Board allude to the want of power in our present Regulations

† Dated 25th January in 26th February 1855

Regulations as interpreted by the Government to plead to sell the personal property of a defaulter in the first instance for the recovery of an arrear of public revenue.

5 The Board will therefore consider in their present proceedings the drafts of the "Preli-minary act" and of the act "for the collection of the Revenues and of Rents."

Preliminary act

6 This act consists of 6 short sections drawn out in clear language and embodying useful provisions. The only part of it to which the Board need refer is the first Section by which it is in-tended that all previous Regulations and acts are to be rescinded.

7 With respect to the repeal of all the old Regulations, the Board after full considera-tion are disposed to concur with Mr. Stokes. Our revenue laws of 1802 were framed for the Zemindary system which Government then intended to intro-duce universally, and the enactments subsequently passed to accommodate these Regulations to Ryotwary Districts are awkward and inefficient Numerous difficulties and inconsistencies also pre-vail from the nature of their warding as to the pro-prietary right in the soil and the mutual position of Landlord and tenant. The Board therefore consider

consider it the best plan to sweep away these Regulations altogether, and revive their sound parts in the new Code but in adopting this course it will be necessary to take especial care to re-introduce all those clauses which affect the rights granted to Zemindary by sunnuds i-Milkeut Istimrar and to defer the formal repeal of the different Regulations until the entire new Code is ready for promulgation.—

o Note The Board are inclined to think that Regulation 2 of 1821 has been entered in Mr Stokes' list by an error as it does not relate to our revenue Administration. Regulation 3 of 1828 also appears in the list by some mistake, probably by a clerical error

8 Among the Regulations thus proposed to be rescinded the Board would however draw attention to Regulation 3 of 1831 and Regulation 7 of 1817. In proposing the total repeal of the former Regulation Mr Stokes appears to have overlooked the circumstance that one of its Sections vests Magistrates with general authority to disperse Mobs and others prescribe the punishment to be inflicted by the Criminal Court upon persons concerned in riots and disturbances of the peace. Instead therefore of annulling the whole Regulation it seems proper to repeal only the 5th Section the powers given by it to Revenue officers having

x See the second Draft act for regulating the powers and duties of Revenue officers Section XLI

having been + provided for by Mr Stokes in his new Code. With respect to Regulation 7 of 1817 Mr Stokes expresses an opinion in Para 48 of his third Report that no legislation is necessary in its place but the Board do not share this view. They consider that Government should provide distinct laws for the protection of the property of the community which they have lately transferred from their own charge to that of trustees.

9 The acts of the Supreme Government which Mr Stokes proposes to repeal are six in number. Two of them (act 36 of 1837 and act 7 of 1839) might in the Boards opinion be advantageously rescinded, as they merely amend Regulations and will not be required under the new Code. Three of the other acts embody important principles of general policy, and being applicable to all the Presidencies should retain their place in the Statute Book. The sixth act (X of 1829) gives the Madras Government the power of deputing a Member of the Revenue Board in Circuit as a Revenue

+ Act IV of 1837 - allowing all subjects of Her Majesty to hold land in India

III of 1839 Declaring all persons subject to the Revenue Courts in matters of rent

XXX of 1841 Repressing obstructions to justice in Revenue and other Courts

Revenue Commissioner with the powers of the Collective Board and the Board are doubtful as whether advantage would arise from rescinding it, for the purpose of introducing its provisions into the new Code.

10 The Board observe that some other Acts which concern Madras alone and are connected with the Regulations about to be repealed have not been entered in Mr Stokes' list now under notice. These might be rescinded when the new Code is ready but all the acts of the Supreme Government which apply to the whole of British India or which though expressly enacted for this Presidency embody distinct parts or branches of Law and require no modification should in the Boards opinion be retained on the principle of not altering known laws without absolute necessity. In illustration of the latter class of acts here refered to the Board would cite Act X of 1849 authorising the Madras Government to depute a Member of the Board into the Provinces as a Revenue Commissioner. Act XX of 1855 for the Settlement of Boundry disputes in this Presidency

† Act 31 of 1836 explaining Regulation 23 of 1838 & IV of 1831.
Act 8 of 1840 - explaining the power of the Majority of a Punchayet
Act 36 of 1837 - extending the provisions of Regulation II of 1822 to embezzlement of public property as well as of public money.

Presidency - If it is necessary in the new Code to allude to the subjects provided for in these acts the Board conceive that the acts might be quoted as constituting the law by which the general community and the officers of Government are to be guided.

11. In the principle which the Board here recommend that the laws regarding particular parts of the Revenue administration should be allowed to remain in their present detached state instead of being rescinded for the purpose of being embodied in the new Code Mr Stokes has apparently concurred to a considerable extent. For example he leaves untouched the Regulations X of 1804 and X of 1831 ° laws which constitute the Court of Wards - and also those Regulations, with their Subsidiary acts which relate to various branches of the Revenue such as the Customs, Salt, Stamps, Abkarry including the manufacture of rum and the licensing of European, Distilleries Motur-pha &c.

° See his draft act - regarding the duties and Powers of Revenue officers - Section 8.

12. Having thus expressed their views regarding the Preliminary act the Board proceed to the Draft act "for the collection of the Revenues and of rents" but as the opinions of the two Members are not in accordance respecting all its provisions their Separate Minutes are laid before Government with

With these Proceedings.

B. No. 876

From the Collector of Madras 8th July 1855. Read statement of charges not estimated but actually incurred in Fusly 1264 requiring the sanction of Government.

615

B. No. 877.

From the Collector of Madras. 1st July 1855. Read statement of Charges incurred under estimate for Fusly 1264 requiring the sanction of Government.

Ordered that the following letter be sent.

To

The Collector of

Madras.

614-16

B. No. 1173

To the Colr of Madras

Sir,

I am directed by the Board of Revenue to return for revision the following accounts Particular of Charges incurred under and without Estimate in your district for Fusly 1264.

a/ No. 9 inst. No. 877 & 878 Tessawy 1 July in 18th April 1856

b/ No. 10 Rect. No. 476 of 1856 D. D.

C/ No. 8 inst. No. 1/6/56 D. D.

a/ No. 13 of Extra Charges in the stamping Department.

b/ No. 16 of Arrack repurchased from Arrack Shopkeepers on relinquishing their Contracts.

c/ No. 8 of Charges for Boat hire for shipping Salt.

2 In No. 13 the total of the charge for Cutting letters or Dies on the 30th June is given at Rs. 3-8-2 whereas it should be Rs. 2-8-2 This error should be Corrected.

3 In Nos. 8-9 16 the amounts of the items Marked thus + in pencil Calculated at the given rates appear to be incorrect and require explanation.

G. S. Forbes Esquire
Acting Secretary to the
Board of Revenue
Fort Saint George.

617

B. No. 3562.

From the Collector of Nellore

Sir.

With reference to the Boards Circular of the 21st June last No. 1353. I have the honor to report on the Land and Extra Sources of Revenue, and on the Cotton Cultivation in this District for Fusly 1264 A.D. 1854-55. and beg to submit the usual explanatory Statements as per accompanying List. The Acting Sub Collectors Report is also forwarded, and a letter from that Officer showing the period that he has passed in the Principal Division.—

Villages at which the Settlement was made Statement No. 4.

2. The Officer by whom, and the Stations at which the settlement of the several Jalooksums made, are shown in Enclosure No. 4. Having quitted the District early in August 1854. and resumed charge thereof only on the 31st July last, the Settlement was not conducted by me.

Number of Villages and the tenure under which they are held.

3. The number of Villages and Hamlets comprised in the Nellore District is exhibited in Statement

York Saint George 18th April 1865.

Nature and extent of the principal sources of Irrigation Statement No 3

356 In repair
95 out of Do
451

5. The nature and extent of the principal sources of Irrigation are detailed in Statement No 3. In the return for Fasly 1263, 451 Wells were entered as Government ones, but as under the orders of the Board dated 19th March last, Para 43, these Wells are also to be viewed as the private property of Ryots, there is no corresponding entry in the Statement now submitted, and the whole are merged under the head of Private

York Saint George 18th April 1865.

9404

Private Wells. Of these, 3605 or nearly 38% are out of repair, but the late reductions in the Garden Assessment will, it is hoped lead to the re-occupation of the old Bagayet / Garden / lands and to the restoration of these neglected Wells. Measures are being taken for providing for the repair of

111

the large number of Government Tanks shown in the return as "out of repair"

General Statistics

5. The Population return being founded on a quinquennial Census does not call for any remark. There is a diminution in the amount of Agricultural stock as shown in the Margin, which is to be attributable to the effects of the adverse season of Fasly 1263.

	Fasly 1263	Fasly 1264	Increase	Decrease

Rent Roll. —

The Rent Roll being also a quinquennial return is the same as that submitted with the last Report and does not require particular notice.

Season and Sanatory state of the District

The season, though superior to that of Fasly

Fusly 1263, was on the whole considerably below an average one. The total fall of rain according to the Pluviometer kept at the Moozoor Station, amounted to but 28-59 Inches and 20-95 in the antecedent Fusly, which I have reason to believe is below the average of the District. In May, the beginning of the early cultivation season there was no rain. In June and July there were light falls, but following as these did a season of unusual drought, they were far from sufficient for any extensive cultivation of the 1st. Series of Wet and Dry Crops, in which there was accordingly a decrease compared with Fusly 1263, the season of which though in itself disastrous, had the advantage of being preceded by the heavy rains which characterized the latter part of Fusly 1262. In the second series of Crops however, which are by far the richest, it was more propitious. In addition to the rains in August September, October and November there were freshes in the Pennar in those months, and the

Decrease	1,850	382

the cultivation of both the 2nd and 3rd Series is on the whole accordingly in excess of that of Fusly 1263, as indicated in the margin, though a deficient North East Monsoon, and want of rain in February and March led to the failure of the Crops in some cases, especially in Villages devoid of River irrigation. But the difference in cultivation above pointed out does not represent all the difference in the two seasons. The extent of perished Crops in Fusly 1263 was very considerable, whilst it was comparatively trifling in that under report and the Crops both Wet and Dry yielded on the whole a fair return, with the exception of the Moodooroo Sonna in the Sub Division which suffered from excessive rain early in the season.

	Wet	Dry

Increase	39	57
or	47 3/10 or 61%	

11. The Dittum or Cultivation engagements for the year amounted to Rupees 1235,776 or Rupees 49,379 less than that of the previous Fusly. The bulk of the Net decrease above shown viz. Rupees 43,480 is but nominal, arising from the reduction of the Sarcab Assessment sanctioned by the Board for last Fusly. The fluctuations in the different descriptions of land taken up with the Causes of Increase and Decrease respectively, as Compared with Fusly 1263 are exhibited in some detail in the subjoined figured Abstract.—

Net Decrease	11265	2579	2465	33070	49379

The

12. The largest item under the head of decrease is land relinquished from various causes such as the exhaustion of soil from continued cultivation, the fields becoming Chavara or impregnated with salt &c. As regards the latter cause, their appears to be something peculiar in the soil of portions of this District which causes lands to become unfit for agricultural purposes; and bad farming, and insufficient manuring are Sregret but too common, partly attributable no doubt to the poverty of a very large portion of the Cultivators. This decrease is more than made up by Cultivation in Amount or unoccupied land, forming the first entry under the head of Increase. Another item which, with reference to the description already given of the season, may seem to require some explanation, is land entered as given up, because liable to be submerged. Owing to the unfavorable season of Fusly 1263. lands in the beds of Tanks were allowed to be cultivated with Dry grains, at Dry land Assessment for that year, but this was not the case in the year under review, and as from their

their situation, they are liable to be submerged in ordinary seasons, they have been given up again.

Cultivable Waste. 13. The waste deducted from the Dittum was Considerably less than in Fusly 1263. It amounted to Rupees 234269 being a decrease of Rupees 159261 and consisted of the following items.

	Fusly 1263 Rs.	Fusly 1264 Rs.	Decrease Rs.
Dry	32768	12882	19886
Wet	347939	217316	130623
Mooloom	7022	3076	3946
Sareb	5801	995	4806
Total	393530	234269	159261

Items.	Fusly 1263 Rs.	Fusly 1264 Rs.	Increase Rs.	Decrease Rs.
1 Lands under water in the beds of Tanks	8331	4347	"	4184
2 Lands left waste by Ryots poor	2876	12560	9684	"
3 Do. by Do. deceased	135	588	453	"
4 Do. by Do. deserted	896	1691	795	"
5 Dittum lands left waste in lieu of others cultivated	97	992	895	"
6 Lands left waste from want of water, unfavorable situation &c.	380484	212605	"	167879
7 Do. from Wells being out of repair	189	706	517	"
8 Lands cut up by floods and covered with accumulations of sand	322	780	458	"
	393530	234269	12802	172063
	Nett Decrease			159261

The chief deduction in excess of last year was on account of land left waste by pauper holders, the number of whom was necessarily larger in Fusly 1264, in consequence of the previous year of Scarcity. There was a large deduction also from want of water, the Tanks not having been properly filled from the scantiness of the Monsoon rains, the amount of this last item is however considerably less than that deducted from the same cause in Fusly 1263.

Actual Cultivation. Statement No. 10

14. There is an increase in the actual Cultivation over the previous year to the extent of which, the amount of Cussoory or Waste charged to the Ryot, and the amounts of Fasul and Searwah Taxes are exhibited in the annexed Table.

Fusly

Increase	135243
Add remission of Sarcab assessment.	25462
	*1,60,705

Thus the actual cultivation amounts to Rupees 9,45,841 being Rupees 135243 above that of Fusly 1263 or more properly Rupees *1,60,705 allowing for the difference in the Sarcab assessments of the two Fuslies. Though an improvement on the previous bad season, the cultivation is less than that of any former year since Fusly 1254, and is nearly a lac and a quarter of Rupees below the average of the last 10 years, which is chiefly attributable to the causes mentioned above in Para 13.—

	Rs.	
Average cultivation of 10 years from Fusly 1254 to Fusly 1263.	1096117	
Deduct Sarcab remission in Fusly 1264	25462	
Cultivation of Fusly 1264		1070655
Decrease		124814

15. The waste charged to the Ryot in the Fusly under report amounted to Rupees 16,815 and is Rupees 7272 more than that assessed in Fusly 1263. The greater portion of this charge is merely nominal, being on Dry lands habitually retained for pasture chiefly in the Sub-Division.

Habitually Waste engaged charged to the Ryot Statement No. 11.

Vide Boards Proceedings 19th March 1855 Para 43.—

It is considerably less than the sums brought to account in former years.—

Remissions on the Cultivation Statement No. 14.

16. As regards the amounts of Jusal Jastee and Jurwah Jastee. The former or 2nd Cop assessment being about the same as that brought to account in Fusly 1263 does not call for particular notice. The large diminution in the Jurwah Jastee or extra tax levied on superior products grown on inferior descriptions of land, is owing to the reduction in the Garden assessment temporarily sanctioned, and the late liberal orders regarding improvements.—

17. The deductions on cultivated land were small compared with Fusly 1263, and amounted to but Rupees 5,1860 against Rupees 29,3598 in the previous year. The items are noticed seriatim below.—

Shamilat Bunjer.

	Rs.
Fusly 1263	45394
" 1264	27059
Decrease	18335

18. Shamilat Bunjer, or the assessment remitted at the time of settlement on fractional portions of fields left waste from various causes, such as the poverty of the holder, the deterioration of the land the size of fields, amounted to Rupees 27,059 and is considerably

considerably below the corresponding remission in Fusly 1263.—

Sooky or perished Crops.

19. Sooky or remission for perished Crops, which is trifling Compared with Fusly 1263.—

	Rupees
Fusly 1263	125392
" 1264	8,678
Decrease	116774.

The total failure amounted to Rupees 13734, but more than one-third of this or Rupees 5116 having been absorbed by the profits obtained by the Ryots on their other cultivation, in consequence of the high prices, the amount actually remitted was but Rupees 8,618, which is 116774 Rupees below that of Fusly 1263. Considering the depressed State of the District owing to many years of low prices, and the previous adverse season, I consider it might have been judicious to have applied for sanation to remit the full amount without reference to the high prices and I fear there will be some difficulty in collecting the money.—

Extract Minutes Consultation 19th August 1854 Para 6

21. The more favorable character of the season compared with Fusly 1263 reduced the remissions under the heads noted in the Margin. In some of Mr. Travers's alienations lately resumed, the lands improved at the expense of the owners having been rated at the Dry assessment, only under the authority noted in the Margin, the difference of assessment remitted is merged in the amount of Seerwah Commee there shown.—

22. The particulars of this remission for the reclaiming of Waste are exhibited in Statement No. 17, and present nothing for special remark.—

Monasub Commee or discretionary remission

23. There is a very considerable diminution in the amount remitted under this head. In Fusly 1263

Fusly 1263	105646
" 1264	5878
Decrease	99768

100,061 Rupees was deducted on account of the failure of Dry Crops, and this swelled the amount of the

	Rupees.
1. Remission in reimbursement of cost of Wells	570
2. Remission to poor Ryots in cases of Short Crop &c.	1,065.
3. Reduction from the Mucturah — Poolbery	1102
4. Remission for deficiency of produce	1,597
5. Reduction of assessment allowed on abandoned lands	597
	5131

the Discretionary remission, and constitutes the saving shown in the margin. The chief items composing the sum remitted in the year under notice are those Noted in the Margin.

24. The first is the remission given in reimbursement of outlay on old Garden Wells according to the rules heretofore prevailing, but which will cease from the Current Fusly, under the late orders.

25. The next item is remission given at the discretion of the Settling Officer, chiefly to meet cases of extreme poverty, or misfortune calling for special indulgence.

26. No abatement from the Mucturah or fixed Poollery is ordinarily allowed, but in proved cases of any great falling off in the numbers of the Cattle, or any considerable diminution in the extent of land available for pasture, a reduction of the usual demand is rendered necessary, and this was the case in the

the year under review. The decrease in the number of Cattle has been referred to in para 6 of this Report.

27. The 4th item of remission refers to those cases of failure which do not strictly fall under Shavy or whithered Crops, and yet yield so little that to enforce the payment of the full assessment would be a hardship. In these instances the difference between the actual out turn and the fixed assessment of the land was remitted.

The last item consists of abatements from the tarum Assessment of the nature of those reported by the late Acting Collector in his letter of the date noted in the margin.

Vide to Board 4 April 1855 P. 8.

28. This remission consists of a prescriptive deduction in favor of certain Non-resident Ryots, and for monnal labor involved in the use of Picotahs in cases of deficient irrigation as usual, and is slightly in excess of that of Fusly 1263, with reference to the increased cultivation of the year

Palavasay. — 29

year under report. —

Extent of land Cultivated with Sugar Cane Cotton and Indigo — Statement No. 19.

30 Statement No. 19 shows the extent of land cultivated with Sugar Cane, Cotton and Indigo. The assessment on the first of these products has till lately been almost prohibitory and sufficient time had not elapsed for the reduction of the demand on the article to produce any perceptible effect on its cultivation, besides which the District is supplied by importation, and the use of Palmyra and Date Jaggery. —

	Rs
Fusly 1263 —	5181
" — 1264 —	5064
Increase —	883

31. The breadth of Cotton Cultivation is likewise small, and the article is of an inferior description, and grown entirely for Home Consumption. —

	Rs
Fusly 1263 —	47944
" — 1264 —	38614
Decrease —	9330

32. Indigo is grown much more extensively than either of the other two products in this District, but in the Fusly under report the cultivation fell short of that of the previous year by more than 9000 Rupees. This may be owing to a decrease in the demand, and the high prices of grain in the year under review. —

Sayer Summah or Extra revenue Statement No. 23

33. Sayer Summah or Extra Revenue consists Chiefly of fines, sale proceeds of Palmyras, Stamp Penalties &c. as particularized in Statement No. 23, and was less by Rupees 334 than that brought to account in Fusly 1263. —

	28	15194	10362	6602	1425	200	4977	6602	3760	10217

Rupees 604 will be collected hereafter, and being credited to the respective Shrotriums, there will still remain Rupees 3,679 of the Jodee outstanding, which is irrecoverable and will be reported on hereafter.—

54. Of the balance of Rupees 310 remaining to be recovered on the actual out turn in the 16 Amany Villages, 1,773 Rupees have been since collected, leaving Rupees 1,383. It is expected that this will also be realized, and being credited to the respective Shrotriums, there will still be left Rupees 4190 which must

must remain uncollected for want of resources.—

55. Of the small balances appearing under the heads of Amaniums, Cuttoobadies, and Nuzzer Roofsoums, the greater portion has been subsequently collected, and the amount outstanding at present is but 18 Rupees, which will be collected hereafter.—

56. Measures are in progress for recovering the Abkarry Balance still outstanding.—

57. Of the balance appearing under the head of Maturpha, Rupees 261 have been since recovered, and much as is practicable of the residue as Rupees 1778 will be realized hereafter.—

	Rs. a. p.
Principal Division	851-8-6
Sub Division	926-6-3
	1777-14-8

58. Rupees of the Balance on account of Sundry Small Farms and Licences having been subsequently collected, the full balance now due is but 77 Rupees, which will most probably be recovered, as also the small sum remaining under the head of Sevoy Jummah.—

Extent of coercive process used in the Collection of Revenue Statement No. 32

59. A Statement in the prescribed form is submitted showing the extent of coercive process used

Fort St. George 18th April 1856

used in the collection of the revenue due for the year under report. No lands have been sold in the Principal Division as I felt that during the severe drought that prevailed during the Months succeeding the close of Fusly 1264, it was not the proper time to offer lands for sale. This cause being no longer in operation, Advertisements for the purpose have lately been commenced to be sent up for sanction, and some of the chief ryots will be remonstrated with, should they still withhold the just dues of Government.—

60 Out of the aggregate balance of Rupees 68,999 on account of Fusly 1263, under all heads, outstanding at the dates of the Land and Extra Revenue reports for that year, Rupees 18,270 have been since collected to the end of September last, leaving a balance of Rupees 50,729 which from the enquiries made at the time of the last Jummabundy &c. may be thus classed.

Recoverable

63 There is also a Ryotwar balance of Rupees 994-7-2 classed as Doubtful, consisting of the items noted in the Margin which will be enquired into at the ensuing Jamabundy and included in a report which will be submitted on the whole of the remaining outstanding balances in the District up to Fusly 1262 in view to their final adjustment with reference to Extract from the Proceedings of the Board of Revenue dated 31st May 1866.—

64 The Doubtful Sevoy Jummah balance is the assessment on some disputed land claimed by certain Circar Ryots on the one hand, and by the Vencatagherry Zemindar on the other, and will be adjusted on the settlement of the dispute.

The Maturpha balance noted in the Margin must remain as doubtful, the necessary information to enable me finally to class it not having been received in time.

65 The particulars of the Irrecoverable Balances are shewn below.—

Fort St. George 18th April 1866

Maturpha Rs. 1144-0-8

Irrecoverable Balance Rs. 14,209-4-11

	Due by Ryots Dead	Due by Ryots Deserted	Due by Ryots Poor.	Takavee	Total

	500 3 5	657 12 0	7,966 1 10	15,161 15 6	24,275 0 9

The sums under the three first heads do not call for special remark, and having been in= =quired into at the last Summabundy, are clased as Irrecoverable accordingly. The amount however under the last head demands separate notice and explanation.—

Rs a p
Wontawar - 2843-9-7
Chittalyoor 1093-9-1
3937-2-8

67 The Peishcush balance of co= Rupees 3937-2-8 is due by the Wontawar and Chittalyoor Polygars, and is considered irrecover= =able under the following circumstances. The collections on account of the Roojsoonis payable to these Polygars have generally of late years co= fallen short of the Peishcush and the Sibbendy charges, and it has been usual to remit the balances, but if any surplus should accrue co= there are outstanding balances for Fusly 1264 to which it should be credited. It seems co= therefore to be of no use to retain in the account the balance in question of Rupees 3937-2-8 due for the previous Fusly.—

× Peishcush - Balance for Fusly 1264-8

Rs a p
Wontawar - 1394-4-7
Chittalyoor 1496-6-8

68 The sum of Rupees 19-7-3 under Rs. 18-4-3 Anaing consists almost entirely of Sanks Merahs on Village Servants Enams, and is usually co= allowed to outstand, and eventually written off. The remaining small sum was erroneously co= Rs. 1-3-4 charged.—

The

The amount under Ryotwar, Stala Curnums, and Sevoy Jumm= =mah amounting together to co= Rupees 10891-8-1 comprises the items noted below.—

In the correspondence noted in the Margin the Board authorized the co= suspension of a balance of Rupees 2084- on account of deficient produce, but Rupees 463-1-8 having been collected prior to the receipt of their Orders, the remainder is now recommended to be written off.—

In consequence of the drought of Fusly 1263, it was necessary to remit por= =tions of the demand on account of Poollary, where such was urgently called for, and this together with a sum of Rs. 143 due from certain privileged clases, and which is usually suspended, constitutes the amount shewn in the Margin.—

This amount consists of balances outstanding in the accounts on Cundregas under attachment, and is the difference be= tween the actual outturn and the fixed Jodi; also of quit rent on Jodi and Cuttoobady Enams, which

which, were left either wholly waste, or proved unproductive owing to the adverse character of the season.—

Rs. 317-2-3

73 This sum is due by Ryots whose cases were considered to merit indulgent treatment in consequence of loss of produce by fire, short crop, and other cases of mis-fortune, and is classed accordingly as irrecoverable after due inquiry.—

Rs. 166-15-4

74 This is the usual remissions on certain lands highly assessed.—

75 A balance of Rupees 5,284-4-7 inclusive of Rooposms is out-standing on what are called the Rayen Puttah Villages noted in the Margin, referred to in para 87 of the last Land Revenue Settlement Report, and Para 12 of Board's Proceedings of 12th June 1856. As these Villages have suffered in common with others from the severe drought of Fusly 1263, and the floods of the previous year as reported by Mr. Ratleff, and as the Board have sanctioned the peculiar tenure under which they were held being cancelled, and their being placed on the footing of

	Rs. a p

Dundigoontah	1347-12-9
Maumidi-goontah	255-10-1
	5284-4-7

of other Circar Villages, and settled on individual Puttahs, the balance in question is classed as Irrecoverable and recommended for remission.—

Rs. 582-9-8

76 The remaining amount of Rupees 582-9-8 consists of the demand on account of withered Crops, cultivation inundated, and Teerwacummer at first included in the Jummah, but afterwards suspended on due cause being shewn, and also of other petty items classed as irrecoverable after due enquiry.—

To Rs. 24th Oct. 1854
From Rs. 11th June 1855
To Rs. 3d July 1856
From Rs. 24th Do.

77 The Abkarry balance of Rupees 308-7-6 has already formed the subject of the correspondence referred to in the Margin.—

78 The small balance Rupees 5-6-0 under the head of Maturpha is irrecoverable consisting of small sums erroneously included in the Jummah, on parties not properly liable to the demand.—

79 The aggregate sum of the balance irrecoverable as above stated, amount to Rupees 24,275-4-9 as shown in the Table in para 66, and I have the honor

honor to request that the authority of Government may be obtained for writing it off in the accounts, together with the amount of Chittawar and Wortawar on Roopoorns noted in the Margin, which is also irrecoverable owing to the above causes, and the unfavorable nature of the past two seasons.—

	Rs a P
a	646-12-1
b	311-15-6
	958-11-7

Tuccavy 80 Of the amount of Tuccavy sanctioned for last Fusly, viz Rupees 5,500, but Rupees 2,442 were disbursed, of which Rupees 2,327 have been recovered, leaving a balance of Rupees 115. Of this amount 40 Rupees are due by a Ryot to whom an advance of 60 Rupees was given for the repair of his well on condition of being repaid in 3 yearly instalments, and will be recovered in this and the ensuing Fusles. The remainder (Rupees 75) will probably be collected shortly.—

81 The advance sanctioned for the salt Manufacture was Rupees 2,000 but only

only Rupees 450 were disbursed, which will be recovered from the payments to the Manufacturers.—

Charges Statement No. 30 82 A Statement of the Collections and Charges is submitted, and compared with Fusly 1263, the result is as follows.—

	Collections Rs	Charges Rs	Percentage Rs
Fusly 1263	18,44,943	486,582	26.33
Fusly 1264	21,34,238	443969	20-77
Increase	2,86,295	"	"
Decrease		42613	5-5-6

The reduction in the percentage is but nominal, the collections for the interval between the 16th and 30th June, and the charges for the whole of that Month, being merged in those of the current Fusly 1265. The fluctuations in each item are explained below.—

	Fusly 1263 Rs	Fusly 1264 Rs	Decrease Rs.
Silbendy charges	168575	153081	15494
Collectors Salary & Commission	72516	60463	12053
	241091	213544	27547

83 There was a diminution in the amount of Salary and Tentage drawn, in consequence of the ex Collectors absence on sick Certificate and from the fact

fact of no unemployed Civil Servants allowance having been paid, as was the case in Fusly 1263.—

Maramut Charges—

	Rs.
Fusly 1263	114690
" 1264	100189
Decrease	14501

84 A decrease in the expenditure upon Irrigation Works, and the accounts of the Fusly including the Sibbendy charges of but 11 Months, cause a diminution in the Maramut Charges also.

Pagoda & Mosque allowances

	Rs.
Fusly 1263	21482
" 1264	20459
Decrease	1023

85 The latter cause occasions a diminution in the Pagoda and Mosque allowances likewise. as shown in the Margin

Extra Revenue Charges

	Rs.
Fusly 1263	3063
" 1264	6275
Increase	3212

86 The increase in this item arises from an increased expenditure on the construction and repair of Revenue Buildings. in Batta to Public Servants on Circuit, and other sundry charges.—

Salt Sibbendy &ca

	Fusly 1263 Rs.	Fusly 1264 Rs.	Increase Rs.
Sibbendy &ca	33756	35450	1694
Manufacturers Share	65181	56990	Decrease 8191
	98937	92440	Decrease 6497

87 The charges under the head of Salt comprise the Sibbendy &ca. and the payment on account of the Manufacturers' share. In the former there is an increase, notwithstanding that charges of establishment for 11 Months only are brought into comparison with

with those of the entire year in Fusly 1263 this is because a portion of the charges of storage incurred in Fusly 1263 was debited in the accounts of the year under report, and also because there was an increase in the shipping charges for Salt exported to Chittagong and Calcutta. The decrease in the Manufacturers share is owing to a smaller quantity of Salt having been received in store than in the previous Fusly.—

Ab Karry

	Rs.
Fusly 1263	334
" 1264	308
Decrease	26

Sea Customs

	Rs.
Fusly 1263	1559
" 1264	1450
Decrease	109

The decrease in the charges on 88 under Ab Karry, and Sea Customs arises from the charges for June not having been incurred within the Fusly.—

Stamp Charges

	Rs.
Fusly 1263	3166
" 1264	3994
Increase	828

In consequence of the increased 89 sale of Stamps, the commission paid was larger than in Fusly 1263, and the refunds of Stamp duty under Act 17 of 1848 having also been larger, cause the increase shown in the Margin.—

Tuccavy

	Rs.
Fusly 1263	2260
" 1264	5310
Increase	3050

The advances for cultivation 90 in Fusly 1264 exceeded those made in Fusly 1263 by 4,100 Rupees but the advances to Salt Manufacturers having been 1,050 Rupees less, the Net increase is Rupees 3,050.—

In

Remarks on the conduct of the Subordinate officers

91 In conclusion I beg to report in the highest terms on the conduct and efficiency of my Sub Collector Mr. Minchin and Head Assistant Mr. Morris, the latter of whom on resuming charge of his Office, after his return from leave, has had charge of the Talooks of Ravoor and Calegherry, and latterly of the Talook of Woodiagherry in addition, in consequence of the 2d Assistant Mr. Forbes being employed on other duty at Madras. I have also derived advantage from the great experience of the Head Sheristadar Vanaganty Venkatrow a Servant of very long standing, and have experienced the most valuable aid from the Deputy Sheristadar Vembakum Ramiah lately appointed to that situation from the Chief Secretary's Office at Madras. These remarks are of course hardly applicable to the year under review, during which I was absent almost from its commencement, but are formed on subsequent experience and my general Knowledge of the parties resides
