Fort St. George 11th August 1856.

Proceedings of the Board of Revenue.

Monday the 11th August 1856.

398

After B. No. 2579. From the Sect. to Government

Read the following Papers.

Extract from the Minutes of Consultation Revenue Department dated the 10th July 1856.

Forwarding a communication from the Bombay Government regarding the internal regulations of the Custom House.

See No. 712 in Separate Volume. P. 19.

Ordered that the following letter be sent

To,

The Chairman of the Chamber of Commerce.

398-399

B. No. 2529.

The Chairman of the Chamber of Commerce

2nd Sec. 20 June 1856.

Sir

Adverting to your letter dated June 16 in which you communicate for the information of the Board of Revenue the steps taken by the Chamber of Commerce preparatory to their proposed report on the working of the Sea Custom House regulations, I am directed to forward for the consideration

In Con. 11th August 1836
2579.

consideration of the Chamber Co's
of an Extract Minutes Consultation &
under date 10th July 1836 No. 712 together
with five Memorandum which accom
panied it and which exhibit the
practice of the Custom Office in Bombay.

2 The Board have thought
that a Comparison of these rules &
with the Madras System which
they understand to be now under &
the consideration of the Chamber
of Commerce may be found useful
and suggestive. There are differ
ences as the Chamber will observe
in the details of the two Systems
though much pains has evidently
been bestowed on both with the
object of ensuring the accurate &
identification of goods and their
assessment at the prescribed Cus
toms.

3 The Board have however
deferred a close comparison of
the Bombay rules with those &
of Madras until they shall
have had the benefit of
such suggestions as the experience
and judgement of the Chamber
may

may offer them. The internal rules
of the Calcutta Office are stated not
to have been reduced to writing.

Revenue Board Office,
Fort St George,
11th August 1836

Extract

B. No 2530

From the Secretary to Government

403

Extract from the Minutes of Consultation Revenue Department under date the 26 July 1856.

Requesting the Board to state the reasons why the head quarters of the Sub Collector of North Arcot were transferred from Arcot to Vellore, and to submit the correspondence on the Subject.

See No 769. in Separate Volume. P 23

Ordered that the following letter be sent in reply.

403-404

B. No 2524.

To The Secretary to Government Revenue Department

To The Secretary to Government Revenue Department

Sir

I am instructed by the Board of Revenue to forward the correspondence noted in the Margin, regarding the transfer of the Head Quarters of the Sub Collector of North Arcot from Arcot to Vellore, which was called for in Extract Minutes Consultation 26 July 1856 No 769.

From the Collr 20 February to 10 March 1856
From — Do — 22 — Do — to 10 — Do —
Proc to Do 10 — March — 1856.
From — Do 15 to 26 March — "
To — Do 26 March — "

2 It will be observed that on the Collector making some new arrangements for the charges of his Subordinates preparatory to his under-

taking

14396

Fort St. Georg 11 August 1856.

taking the revision of the Assessment a Talook was to be added to the Sub. Division, and Mr Whittingham proposed that it should be the Talook of Villeve as it appeared to him advisable that an officer of standing and experience should have his head quarters in the town of Velleve which was selected for the purpose both on account of its size and its central situation in an important part of the District. On such a point the recommendation of the Collector and Magistrate of the District was entitled to weight, and the Board sanctioned the arrangement, because besides being supported by adequate reasons it accorded with the general rules laid down regarding the residences of Sub Collectors and entailed no new expense on government.

B. d. No. 302.

From the Collector of Madura Forwards Statement

No. 185

To,
G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir

With reference to the Proceedings

14397.

Fort St. George 11 August 1856.

Statements shewing the present Emoluments and numbers of the Village Natamgars &c &c reports the measures he would propose to render the Establishments more efficient.

of the Board of Revenue dated the 21st November 1853 I have the honor to forward for the Govt. Talook Abstract 1/2 Statements shewing the present emoluments and numbers of the Village Natamgars, Curnums Cavilgars Tandulgars, and Tolies and the measures I would propose to render these Establishments more efficient.

2 It will be seen that it would be exceedingly difficult in Madura to divide the Village Police from the village Officers in general. The former Head is usually considered to comprize Natamgars. Taliars and Cavilgars, but there are no Servants under the denomination of Taliar in Madura; and while in some Villages there are many Cavilgars in others there are none. There is not one in the whole Talook of Tellacottah, and only 40 in the 4 large Talook of Meyloor. Tenkurry Tadicomboo and Tempully. Police duties have therefore been performed by the Tolies and Tandals who are properly Revenue Servants quite as much as by Cavilgars; and as Curnums also always did the Head of Villages, and are at present very unequally paid, it has appeared to me desirable to take the opportunity of reviewing the condition of the Village Establishments in general.

In

3 In doing so I have omitted the Zemindaries In Ramnad and Shevagunga the Village Officers are for the most part remunerated by Swatantrums or in grain fees proportionate to the gross produce in each year. In the others I do not perceive how the Government could with any convenience to itself resume Enams and substitute Money payments considering the almost impossibility of managing little patches of land in various Estates.—

4 In general the Natanmyars from which body the Heads of Villages are taken, are fairly remunerated in this District, and as I entertain a strong opinion that a substantial Ryot from the influence conferred by his property, is in general much more efficient than a stranger on the small salary which the state could afford for the service, I do not propose to make any change in respect to them. For several years past pains have been taken in this District to induce the Heads of Villages to fit themselves for their duties by a Knowledge of reading, writing and the regulations which

which apply to them; and where the Meerasidar is very ignorant, it has been the practice to put in a Monigar to act for him till he shall have rendered himself competent. I will not say that the Heads of Villages are as well instructed as could be desired but they are certainly improving and are preferable I think to needy men, have no state in the Village. If the Board will glance over the Smaller Villages they will perceive that a money allowance, fixed on the percentage adopted in South Arcot would be altogether inadequate to obtain the services of competent persons. In large villages some degree of intelligence on the part of the Head is secured by the practice I have alluded to above.—

5 The Enams of Curnums Cavilgars, Tumdulgars and Totties. I propose entirely to resume and compensate by money allowances. It is desirable that the time of these Classes should be wholly given up to their public duties, and that their remuneration should be sufficient for their maintenance. At present about ⅓ of their Enams are uncultivated and from some Talooks I receive intimation that the Tumdals and Totties refuse to do duty on the very just plea that they receive nothing

for

Fort St. George 11 August 1836.

for it. Their Enams being left uncultivated either on account of their bad quality or their want of time to attend to it. Suppose the land be good and they let it to others nothing is more common than for the tenant to refuse payment of what he had agreed to give and in that case they have no resource but to sue in the Civil Court. The Curnums suffer from these causes, as well as the lower Officers and they speculate to live.

6 The substitution of a Money Salary for land will remedy these evils and the further one of a great disproportion in the emoluments to the labour in several places.

Where I have assigned more than 5 Rupees per mensem to a Curnum I have done so from a consideration that he will require some assistance for which he will have to pay from his own Salary. In general the rate proposed is 4 Rupees up to a Beriz of 1000 Rupees 4½ Rupees for 1000. to 2000. 5 from 2000 to 3000. When the revenue is higher than that, either more than one Curnum is allowed, or the Salary is raised so as to enable the Incumbent to procure occasional or partial assistance. Some variation from this rule is caused by the circumstance of the greater extent of Poonjah land required to yield these amounts of Beriz and the amount of the Enams enjoyed at present.—

The

Fort St. George 11 August 1836.

8 The Cavelgars I propose to remunerate uniformly at the South Arcot standard 2½ Rupees a month or 30 Rupees per annum. I should prefer the Establishment being fixed for each Talook rather than for each Village in order that we may benefit by experience in their location. It is out of my power at this distance of time to explain the apparently capricious grant of Canal Enams by the native Governments bearing in many cases no proportion to the importance of the places in which they are situated. In explanation of the small number of Cavelgars proposed for the Talooks of the Sub Division I beg to state that they contain large Zemindaries particularly Villacottah.—

9 It will be observed that the proposed Number of Totties and Tundergars falls considerably short of that now registered. But it must be considered that they are at present not only unequally distributed but that where there are more than one in a Village they only do duty in turn. The

number

number of effective servants will be greatly
under the proposed System. So small
are some of the Villages that I am
unable in all cases to adhere to
the principle of making the allowance
suffice for the maintenance of the
incumbent. The highest rate proposed
is 2 Rupees a Month the lowest 8 Cs
the small Villages the incumbent
will have time to work on his
private account

10 My propositions involve an
apparent excess charge of Rupees 1457.
9-8 But in reality it is much greater
for a good deal of the land to be
assumed is waste and somewhat less.

11 The pay of the Curnums and Cavil-
gars can be issued on Monthly Indent like
that of the Talook servants; but to avoid
great trouble I would propose that the
salaries of the Sundulgars and Tolies
should be deducted from the Village
Baiz at the Jummabundy
and retained in the Talook

to

to be distributed quarterly or half yearly
without coming into the Government accounts.

12 It will be evident from the
large amount of Cavel Enams held in some
single Villages, that the Office has
been in many instances a mere sinecure.
Some dissatisfaction will be felt when
this abuse is done away with but I
propose to obviate discontent, as much
as possible, by employing the shazees
dispossessed, in other places where the
office is newly created.—

13 I would strongly recommend
that the Cavulgars may be paid wholly
in money for the reason I have already
alluded to viz: the difficulty they have in
securing a safe income from land.—

Madura ---
11th October 1836

[Signed] R. P. Parker
Collector

11th October 1855 }

E E ym (Signed) R. D. Parker
Collector

14448 Fort St. George 11th August 1856.

Bd's No. 2537.

Proceedings thereon- (405-406)

In Cons: 21st Nov: 53.

In the above letter the Collector replies to the Board's Proceedings of the 21st of November 1853, which transmitted to all Collectors an Extract from the Minutes of Consultation Judicial Department dated the 6th of October preceding No. 387. requiring them to report on the present State of the Village Police of their Districts, and measures they would recommend for putting it in the efficient footing which was desired by the Government.—

2. These orders of Government referred particularly to the Talliary Office which had lately been recognized in South Arcot and it was the system that had been acted on in that District which the Government desired to see generally adopted.—

2. In his present letter Mr. Parker reports not on the Village Police only but on the whole class of Village Servants, and as the Government when reviewing the Board's Proceedings submitting a similar report from Canara expressed their wish that the Village police only should be at present referred to, the Board will

dated 20th in Cons: 27th October 1855.

will confine their present notice to such parts of Mr. Parker's letter as refer exclusively to that class of public servants.-

para 2 -- 4. It appears from what the Collector says that there are no Taliaries in Madura, that the Cavilgar is the servant who fills the place elsewhere occupied by the Taliary, and that in consequence of the paucity of the number of Cavilgars their duties are in many villages performed by the Toties and Tunduls who are properly revenue servants.-

5. There are 812 villages in the Government Talooks of Madura and 380 Cavilgars, a number which the Collector proposes should be raised to 472, but as no reference is made to population in Mr. Parker's letter, or in the Statements which it encloses the Board are not at present able to offer any opinion on the sufficiency or otherwise of the number of Servants pro:
= posed.-

6. The Board are of opinion that every Village containing 500 inhabitants should have a Cavilgar, and that an additional man should be

attached-

attached for every additional thousand inhabitants- This general rule will in practice need of course in some way to bend to circumstances- it is necessary that a proportion be fixed, but it is not necessary that that proportion should be too rigidly adhered to- it is not for instance, the Board's intention that a Village situated apart from others with 450 or even 400 inhabitants should be without a Cavilgar, nor on the other hand will it be necessary to insist that a separate servant should be attached to each of three or four Villages contiguously situated because each contain a population of 500 persons.-

7. The Collector is requested to prepare a statement, at present for only the Government Talooks, in accordance with the above remarks shewing at the same time the assets available for the payment of the number of Cavilgars that may be required, either from rent free lands, fees, or ready Money allowance, and the Sum that will be required to make up their remuneration

to

Fort St. George 11th August 1856.

to 30 Rupees per Annum.

8. The Government have in the case of South Arcot approved of the system of remunerating the Village Police partly in Money and partly in rent free land - the Collector advocates the entire payment being in Money, and the Board are of opinion that the plan has some advantages - a ready Money Salary paid in the presence of the Collector at the Annual Settlement, will be a form of remuneration that will be highly appreciated by its recipients, and opportunity will be afforded of ensuring activity in the performance of public duty, by the power that will be in the Collector's hands of making stoppages from the Cavilgars pay, if, in enquiry held on the spot, it be generally understood from the Villagers that their interests have not been attended to, weight also attached to the Collector's remarks regarding the time that is occupied in looking after their cultivation, if Village Servants are remunerated in land, and the difficulty

para 5.

Fort St. George 11th August 1856.

difficulty experienced in realizing their dues if they give their Enam on rent. Lastly the Board consider it desirable to avoid in future the difficulties which have always hitherto been experienced, from the Sub Division although wholly unauthorized of Service Enam lands among the heirs of deceased holders, until but a fraction is left in the enjoyment of the party who really perform the duty. -

9. The Board entirely approve of the measures adopted by Mr. Parker to make the Natamgars efficient and do not enter more fully into the questions raised by the Collector regarding them and other Village Servants, only because the subject is unconnected with a reform in the Village Police which is the matter on which the Government have now desired information. -

To

14453 Fort St. George 11th. August 1850.

No. 173.

To,

The President and Members
of the
Board of Revenue.

(407)

B. No. 2094

From the Ag.
Acctt. General

Gentlemen,

In compliance
with the request contained
in your Secretary's letter
of the 23d. Ultimo I have
the honor to transmit
herewith a Statement
shewing in detail the Balances
of Arrears of Land

Revenue

14454 Fort St. George 11th. August 1850.

Revenue for the last 15 years
which were embraced in the
abstract Statement furnished
by me to Government on the
17th. April last.

Fort St. George,
Acctt. Genl. Office,
9th. June 1850.

Signed G. L. Prendergast.
Ag. Acctt. General.

General.

Fort St. George 11th August 1856.

Order thereon. Ordered to lie over.
407-408 No 301

To

G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George

409

Bd. No 2383
From the Collector of Chingleput.

Sir

Para 1. I have the honor to report on the accompanying Petition No 94 of 1855 bearing the Board's endorsement of the 4th December last.

Reporting on Petition 94 of 1855 bearing the Board's endorsement of the 1st December 1855 from Rookmaney nummall and Sadagopa Chary of Streeperooma-door Mattum

2. The Petitioners claim the Shrotriem Village of Vasenambut in the Manemengalum Talook now attached to the Mattum of Streeparoomatoor in Virtue of a Purwanah dated the 7th Chettery of the Vejiah year in Fusly 1123.

3. The circumstances under which the Shrotriem was granted will be found in Mr Freeses' letter of the 14th October 1841 when the claims of the Petitioner as the 9th Iyers 2d widow both to the Mattum and the Shrotriem were rejected in favor of the present incumbent the nephew of the 11th or last Iyer then deceased. whose nomination by his uncle had

Fort St. George 11th August 1856

had met with the approval of his followers or disciples in the Muttum, and obtained the confirmation of the Board in their letter of the 11th of the same month and year.—

4 It will thus be seen that Mr. Freese and the Board both considered the Shrotriem to be attached to the Muttum and inseparable from it. A reference to the Purvanah will however shew that the Shrotriem was granted to Streeparoomatoor Muttum Ramanoojah Chariar his sons and grandsons and that it would therefore seem to have been intended as a personal grant to remain in his family, and be quite distinct from his spiritual functions in the Muttum. Its possession by the Subsequent spiritual heads of the Muttum, except in so far as they were the lineal heirs of Ramanoojah Charriar would therefore seem to have been irregular and their / Ramanoojah Charriars heirs / extinction or withdrawal from the Muttum

Fort St. George 11th August 1856.

Muttum would seem to require the separation of the Revenues of the Shrotriem from that institution.

5. I am therefore of opinion that the Petitioners should be permitted to sue for the recovery of the Shrotriem and its separation from the Muttum before the Civil Courts.

6. It will be observed that if they establish their claims by detaching the Shrotriem from the Muttum, and vesting it in their family, its reversion to Government will follow on the extinction of their descendants.

7. With reference to Paras 5 and 6 of Mr. Freese's letter that Rookmaney Ammall was to enjoy the Proceeds of the Shrotriem for her natural life with the consent of Satagopa Charry the newly appointed priest of the Muttum and the nephew before referred to, I have honor to report that owing to an oversight in this Office on the receipt of the Board's letter of the 11th October 1851, Orders appear to have been issued placing Satagopa Charry in

Fort St. George 11th August 1856.

in possession of the Shrotriem and its proceeds notwithstanding his agreement that the Proceeds should be enjoyed by Rookmaneyammall in Virtue of the agreement exceeuted to her by the last Seyer Pomady Eaterayah Seyer on the 11th April 1832, and that she has consequently been deprived of them ever since although her undoubted right.—

Chingleput District
Collectors
Cutcherry
Sydapet 27th June 1856.

/signed/ Le. J. Shubrick
collector

(409-410)
Bd. No. 2531
Proceedings thereon

Submitting with the Boards observations a letter from the Collector of Chingleput together with certain Petitions relative to permission to sue for a Shrotriem Village hitherto attached to the Straperumatoor mutt viz

No. 1898 of 1856 7th July from Muttuve Satagopa charry

No. 1922 of 1856 9th July from Rookmany Ummal.—

Read also the Petitions noted in the margin presented by the contending parties in the case reported on in the above letter

The Board resolve to submit the foregoing letter and Petitions for the orders of the Right Honorable the

Fort St. George 11th August 1856.

the Governor in council with the following remarks.

2. The Petition No. 94 on which the collector now reports prayed for permission to sue — muttum Sadagopa charry Petitioner in No. 1898 of 7th July 1856 for possession of the Shrotriem Village of Vasenambut in the Mavenungalum talook and hitherto attached to the Streepermatoor mutt.

3. Mr. Shubrick considers that the Petitioner Rookmany Ummal may be allowed to sue as she desires because the original grant does not specify that the Village was designed to form an endowment for the mutt but is worded as though it were a personal grant to the first grantee and his descendants.—

4. From the petition No. 1898 of 1856 with its enclosures presented to the Board by Sadagopa charry the present head of the mutt it will be observed that the petitioner Rookmany Ummal and her alleged adopted son disputed the right of succession to the mutt and its endowments in a civil suit which was carried through appeal and special appeal and that it was decided by the Sudr Court that Sadagopa charry the present head of the mutt was the rightful

Fort St. George 11th August 1856.

rightful holder of that office and of the endowments attached to it and throughout those suits this village is treated as an endowment attached to the mutt.

5. Had the question of the Shrotriem being a personal grant unconnected with the mutt been then mooted it would necessarily have been disposed of: it is evident however that the grant has always been regarded as inseparable from the mutt and the Board cannot concur in the new construction which Mr. Shubrick gives to the Purwana because / as will be seen from the genealogical table accompanying Mr. Freese's letter of the 4th October 1841 which is herewith forwarded for reference / the ancestors of the grantee as well as his descendants were hereditary priests or Sunyassees of the mutt and whoever has succeeded to the office has held the Shrotriem also thus shewing it to have been granted and held in connection with it.

Unless 4th October 1841.

6. as ample opportunity was afforded to the petitioner Rookmany Ummal to moot this point in the course of the litigation which has already taken place the Board are unwilling to recommend that

Fort St. George 11th August 1856.

that she should again be permitted to file a suit with the object of proving the Purwanah to have been a personal grant and not one of endowment.

No. 761.

To G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir

With reference to the Extract from the Proceedings of the Board dated the 14th April last No. 1114 I have the honor to state that in the Madura District no charge is levied on Timber and Fuel cut in Government Forests and that the only regulation existing is a prohibition of felling in the Government Forests in the Cumbum Valley without an order from the Collector in each case.

2. The best of these Forests lie towards the bottom of the Valley and run up from the foot of the Hills to the Travancore country which extends to the crest. They formerly contained a considerable quantity of good Timber and supplied not only Madura but Trichinopoly and

From the Collector of Madura . . .

Sir

With reference to the Extract from the Proceedings of the Board dated the 14th April last No. 1114 I have the honor to state that in the Madura District no charge is levied on Timber and Fuel cut in Government Forests and that the only regulation existing is a prohibition of felling in the Government Forests in the Kemburn Valley without an order from the Collector in each case.

Reports that in the Madura District no charge is levied on Timber and Fuel cut in Government Forests and transmits a statement shewing the charge of the Establishment recommended with reference to Extract Proceedings of the Board of Revenue dated 4th September last No. 1114.

2. The best of these Forests lie towards the bottom of the Valley and run up from the foot of the Hills to the Travancore country which extends to the crest. They formerly contained a considerable quantity of good Timber and supplied not only Madura but Trichinopoly and

and the Northern part of Tinnevelly. I am afraid that fine trees are now scarce within the Companys limits.—

3. The greater portion of the remaining Forest growing at the foot and on the slopes of the main range of Mountains belongs to Poligars. Here and there there may be some tolerably good timber on Government lands. It is certain however that timber is growing scarce, dear and indifferent in the Madura market.—

4. Besides the main chain separating the District from Travancore there is a Secondary range of Mountains enclosing the Cumbum Valley to the East and there are hills of less magnitude in other parts of the District west of Madura. The sides of these are for the most part clothed with wood. The best timber is situated within Zemindary limits but rafters suited to native houses, and wood for the purposes of agriculture and fuel can be obtained in those which remain. There are some Jungles of less importance also in the Plains.—

5. I would propose that the following charges be levied.—

	Rs	A	P
For large timbers per bandy load	1	"	"
For small D^o for rafters and other purposes	"	8	"
For Fuel per D^o	"	3	"
For D^o per booly load	"	"	3

6. To collect this I calculate that it will be necessary to establish 25 mettoos at the foot of the Hills. each furnished with a burnam at 3 Rupees and a Cavulgar at 2½ Rupees a month In the Cumbum Valley which contains the best Forest I would also propose as stated in my letter of the 10th April last to entertain a Superintendent and 4 Peons to prevent indiscriminate felling and collect information with a view to future planting. For each wood in the Plain I would recommend the employment of 1 Cavilgar on 2 Rupees a month to aid the Head of the Village in the collection of the tase.—

7. I have no data on which to offer an Estimate of the receipts. The calculation of the Tahsildars exhibit little more than 2000 Rupees but this is obviously very far too low. if firewood is tased. I would allow no exceptions because the judges must be a low class of servants not to be depended on in such a matter.—

Enclosed

Fort St. George 11th August 1856

8. Enclosed is a Statement shewing the charge per month and per annum of the Establishment recommended. It is desirable I think that for one year it should be borne on the accounts as temporary to admit of amendment on fuller information before application is made to the Supreme Government for a fixed charge—

9. I would recommend that the power of issuing permission orders for felling large timber be confined to the Collector and the covenanted Servants to whom he may delegate it and for cutting rafters to the Tahsildars and Peishcars; but the Heads of Villages be allowed to grant tickets for cutting fuel to be withdrawn if the holder be shewn to have evaded payment. It appears to me that the great poverty of the class which gains a livelihood by cutting fuel forbids

Fort St. George 11th August 1856-

forbids the exaction of prepayment; but that each person should be obliged to bring his bandy or load to the Village Choultry or other convenient place to have it registered as a charge against him. In large Villages there should be more than one such place.—

No. 1.

Report of Persons apprehended in the Zillah of Nellore and delivered to the Joint Magistrate in the month of July 1850.

No. of the case.	Names of Prisoners.	Abstract of the Crimes or charge	Date of Apprehension	Date of Leaving the Talook	Date of Arrival	Reasons for punishment or Explanation of release or date of Commitment delay and Remarks.
10 of 1850.	1. P. Permaul 2. G. Amaryah Village Woodum. 3. M. Jagadyah 4. D. Mootadoo 5. D. Bungarigadoo 6. T. Ramoodoo 7. K. Ayena 8. R. Ramoodoo 9 T. Permaul.	Torture. With having on the afternoon of the 7th June 1850 on the suspecion that they had committed a theft from 1st Prisoner's house of some ornaments belonging to his daughter fixed the Prosecutor and his Companion with a branding iron, in order to extort confession of their guilt in the Village of Koniyadoo in the Talook of Ongole	18th June	22-24th July.	July.	The Prisoners deny the dit. The case was examined into by the Head of Police on the charge of theft against the Prosecutor together with the alleged torture to which he had been subjected. He reported it to the Joint Magistrate The Prosecutor deposed that he was begging in the Village of Koniyadoo with two Companions. when a cry of thieves was raised, and the 2nd Prisoner with others apprehended them, and accompanied by a great crowd took them to the Back yard of the 1st Pris: =ner's house, when they were beaten on the 11th July excusing =tor became senseless. He was then burnt on the thigh of which he felt the sharp pain, but knew nothing more. He can recognise none of the Prisoners as having been in the crowd except the 2nd he was aware from the words of people in the Crowd that they were to take to 1st Prisoners yard, but did not indentify him as present. Does not know whether his Companions were burnt. He and his Companions escaped from the =hood Mr. Kotyah. On the receipt of this report orders were issued for the parties to be forwarded to the Hoozoor. country

No. of the case	Names of Prisoners	Abstract of the Crime or Charge.	Date of Apprehension Leaving the Fort Arrival	Reasons for punishment or release or date of Commitment.	Explanation of delay and Remarks.

Chaultry that night but he was again apprehended. — The Prosecutor has the mark of a firing iron on the inside of his left thigh to the length of about 2 inches and the breadth of half an inch. —

The 1st witness a peon deposes that he was on revenue duties in the Village when about 3 O'clock in the afternoon he was told by one Lushminarsoo that the villagers were firing some suspected thieves in 1st Prisoner's yeard. He at once went there, and found a great Crowd who dispersed on his arrival amongst them were the first five persons. One M Thotya was taking the iron heated from the brazier. but declared to witness that the parties had been fired by the 3d prisoners whom witness saw also at hand 1st Prisoner was sitting in the gate of his yeard. The Prosecutor and one Companion had been fired, the others escaped owing to the arrival of the witness. Witness took them before the Village Officers and reported the matter to the Head of Police. —

The 2nd witness the Peshcar deposes that on the afternoon in question the 1st witness and the 3d Prisoner brought the Prosecutor and his Companions before him stating that they had been fired by the Villagers. They, the prosecutor and his Companions said they knew not who had fired them. The lad who has not since appeared was fired in three places, on his rump, thigh and foot. Witness gave them in charge of the village Officers, and they all went together to 1st Prisoner's — Backyard, where they found a brazier and fuel, the ground round it was burned by the irons that had been thrown down. —

The 3d Witness Pedda Kapoo deposes to the same effect as the 2nd. —

The 4th witness a Curumun, while bathing at noon, heard a cry of thieves, and going to the north of the Village saw the 2nd and 6th Prisoners, apprehend the Prosecutor and his Companions. There was a great Crowd they did not ill treat them while witness was present. Witness told them to make them over to the Village Moonsiff, and returned to his house. In the evening he heard they had been tortured in 1st Prisoner's Backyard

The 5th witness denies all knowledge of facts alleged. —

The 1st Prisoner denies that there had been any theft on his family or that he was present when Prosecutor was tortured. The 2nd Prisoner and 6th ac knowledge that they apprehended the Prosecutor, but each alleges that he was away when the torture took place. The 4th Prisoner was only employed in guarding the Chaultry from which the Prosecutor and his Companions escaped. —

No. of the Case	Names of Prisoners	Abstract of the Crime or Charge	Date of Apprehension. Leaving the Fort &c. Arrival	Reasons for punishment or release or date of Commitment	Explanation of delay and remarks.

The 5th. Prisoner was in charge of some door Keys near the 1st. Prisoner's yard saw the Crowd Collected there but not what went on inside.—

The other Prisoners deny all Knowledge of the transaction.

It was on account of the loss of the ornaments belonging to the 1st. Prisoner's daughter that the prosecutor and his Companions were apprehended and afterwards tortured in his backyard at which time the evidence of the 1st. witness shows that he was present.

The 1st. witness also deposes to the presence of the 2nd. 3d. 4th. and 5th. Prisoners the 3d. having been named to him as the perpetrator by one M. Kotyah not yet appre-hended who was caught with the irons in his hand.—

The 2nd. and 4th. Prisoners are proved to have apprehended the Prosecutor and his par-ty and taken them to 1st. Prisoner's yard the 2nd. Prisoner is the only one indentified by the Prosecutor who was apparently so much frightened that he hardly Knew what passed.—

With the exception of the 1st. witness no one in the Village appears willing to give evi-dence on this case which was the act of a large body of the Villagers any of whom proved to have been present must be considered guilty of the Torture.—

There is no reason to double the evidence of the 1st. Witness as to the person of the first five prisoners, who together with the 6th. are each sentenced to six months imprisonment in Jail with hard labour under Section VIII Regulation X of 1816.

There being no evidence against the 7th. 8th. and 9th. prisoners, they are released 22nd. July 1850.

After No. 2916.

From the Collr. of North Arcot

Sir,

In continuation of my letter of the 8th May last No. 73, I have the honor to state for the information of the Board of Revenue, and of Government that Ragavachary, who brought before the Torture commission certain charges of corruption against the Nabob Sheristadar of this District, has at length made his appearance and been examined by the Acting Additional Joint Magistrate, a copy of whose letter reporting the result of the enquiry is herewith transmitted.

The Statement made by Ragavachary before the late Torture Commissioners is herewith returned.

North Arcot Collector's Cutcherry Chittoor 30th July 1856

I Signed I C. Whittingham

Collector.

No. 1

To Charles Whittingham Esqre.

Collector of North arcot.

Sir,

I have the honor to report the result

result of the enquiry made by me regarding the alleged charge of Bribery brought against Soondara Pillay, the Nauk Sheristadar of this District, by one Ragavacharry before the late Torture Commission.

2 The enquiry was first taken in hand by Mr Elliott, the late Assistant Collector before whom the complainant was examined on oath, and stated that one Boochah Chetty, a resident of ayavaday had told him that the bribe of Rs 200 had been given to the Nauk Seristadar, and other in order that the kervah of certain lands charged in excess of their actual content should be reduced to that of their actual measurement. That he Knew nothing about the matter of the Bribe personally, and had given no money to any one himself that Boocha Chetty was since dead.

3 In order to ascertain whether this latter point was correct, I sent for 2 Managars and 2 respectable Ryots of ayavaday; they all deposed that the said Boochah Reddy died nearly a year ago.

4 It appears that the complaint in

in the kervah formerly improperly charged upon the lands in question was granted in fusly 1263, to the Ryots of Melmah as stated in the original petition presented by Ragava charry. I therefore summoned three of the most respectable Ryots to be found in that Village and upon my examining them on oath they all deposed that they never paid any thing for obtaining the boon in question, and that no one ever asked for any money on this account. One of the deponants states that he is of opinion that Ragavacharry lodged the complaint in order to obtain daily batta from the Committee then sitting.

5 No proof whatever is adduced in support of the charges, and I have not deemed it necessary to call upon the Nauk Seristadar, for any answer thereto.

6 A delay of nearly 10 months has taken place in the disposal of this case, and arose from the extreme difficulty experienced in finding out the complainant. Several Summonses were sent to different places, and the Collector of Madras communicated with on the subject. The complaint

complaint was presented before the Assistant Collector on the 11th June, the necessary witnesses were summoned, as abovementioned at soon as the case was put into my hands.

The original records are herewith forwarded.

The

4 The Talook Serishtadars, all the revenue officers, perform the Police functions, also in the absence of the Tahsildar, and they have therefore been included in the return.

N° 2. 5 The District having been under the Zemindary System in 1813 and the Police authority vested in the Zillah Judge it is impracticable to ascertain the number of dismissals of village officers exercising Revenue, and Police functions jointly.-

N° 3 6. The number of contributors to Land Revenue in 1813 cannot be clearly ascertained as the accounts of the Zemindars do not furnish this information.

7 The dismissals of Police servants unconnected with the revenue are not exhibited in return N° 2 nor are those of Revenue servants unconnected with the Police as it is presumed from the analogy of the other returns that this is not required tho' the punctuation of the printed Circular would seem to

to indicate that the dismissals of all native officers for malversation &c. were intended. Should the above view not be correct the marginal figures will perhaps supply all that is needed in the dismissals of Servants who are Revenue Officers without concern in the Police.

Servants dismissed for the offences in question.

Bd. No. 3065
From the Collector of Madras
Reporting his opinion on the working of the Dittum arrangement Contained in the Bds General Report of Fasly 1263 to which the attention of Collection is directed in the Boards Circular of the 12th July 1856 No. 1264.

Sir,

In reference to the Boards Circular of the 12th July last No. 2164 I have the honor to observe that I fully agree with them in their remarks on the instability and inconvenience of the System of Dittum Containing in para 21 of their General Report of Fasly 1263, and I have the honor to submit my suggestions with regard to the arrangements to be adopted in lieu to which the attention of Collectors is directed in para 22.

2 It will be necessary I think as proposed by the Board to make Ryots responsible

responsible for the tax on all land which they do not relinquish by a certain date.—

3 According to the orders in force in the Madura District this date is the 15th April for Poonjah and 31st July for Nunjah With a view to simplicity the latter date might be fixed for all descriptions of land.—

4 It should be carefully considered whether by such relinquishment a Ryot is to be held to have abandoned his right to the land permanently or only temporarily and a Form should be determined to preclude all doubt on this point. At present in the Madura District a Ryot thinks he has a right to his former Nunjah land however long it may have lain waste, and it is by

by no means Certain that the Courts would not admit the claim The Form of relinquishment therefore if the Board intended it to be complete should be such as will be of avail in the Courts. A Similar feeling prevails also as regards Poonjah but it is not quite so settled.—

It will be necessary moreover, to furnish Collectors with clear instructions relative to the grant of remissions I am disposed to think it desirable that they should be altogether denied as regards Poonjah and Garden, but the supply of water being so uncertain and the enhancement of rate on

accounts

account of irrigation so considerable remissions cannot it appears to me be dispensed with in respect to Nunjah.—

6 I would propose that relinquishments of land to be valid should be made to the Zelladar or Tahseldar making them recevable by the Village Officers would leave too wide an opening for frauds.—

7 The Government expresses an opinion that transfers also should be notified.—

8 At present in this District no change of Puttah can take place without an order from the Collector given after registry.—

9 In general this order is not issued

issued without a razeenamah by the previous holder of the Puttah or in case of his death — the application of his Heirs. But the heirs sometimes from apathy or jealously of each other omit to apply and the Puttah is continued for a long time in the name of a dead person notwithstanding stringent orders to the Cummums to report the death of all Puttahdars. When this is by any means discovered an enquiry is made and the name of the person appearing to have the best Claim is entered. Another case in which a change of Puttah is ordered without a razeenamah is when possession is in the hands of one Party and the Puttah in those of another, and the Possessor complains that the Puttahdar will not give a razeenamah although by Sale or otherwise he has ceased to have a right to the land On enquiry is made into such complaints

complaints and if it be found that the Possessor pays no Swamy bogum and has a Colour of right notice is given to the Puttahdar to sue in the Civil court for ejectment within 3 months failing which the Puttah is transferred to the Possessor. In Cases of Mortgages Puttahs are changed or otherwise at the option of the Parties.—

10 Such are the Rules — but they are not effectual to Secure all transfers being notified and none unaccompanied by a legal penaltty for neglect can it appears to me be so ultimate liability for the tax is found to possess

very

very little terror for the Puttahdars land being generally saleable nothing is more common than for a Ryot to sell his land and give over possession and then Keep back his rageenamah with a view to extortion—

11 The above remarks apply to transfers by sale gift inheritances or mortgage but the Government perhaps mainly allude to the taking up by other Ryots of lands relinquished At present the Collector is dependent for a Knowledge of such transfers as in the case of Waste in general on the Puttahdars or the Monthly accounts of cultivation by Village Officers It is certainly desirable that there should be some further check but if the permission of the Tahsildar or Zillahdar were made indispensable to the acquisition of waste I fear that considerable loss would accrue to Government

Fort St George 11th August 1856

Government A casual shower a sudden influse of water to the Tank or some other circumstances which cannot be accurately foretold is the usual inducement to a Ryot to take up more land and the opportunity of cultivation will in many cases be lost if he is obliged to wait on the delatory Proceedings of the Talook.

12 In reality though orders are against it a Ryot cultivates what land he likes in his own Village provided he is not opposed by any other person on plea of ownership and the only innovations I would venture to make are to require that he should obtain the previous written permission of the Nattamgar and Curnum and that the latter should furnish to the Talook an account separate from the cultivation account once in 15 days.

of Nor th arcot

Sir,

I have the honor with reference to the Extract Proceedings of the Board of Revenue dated 21st July 1855 No 1822 annexing Copy of Extract Minutes of Consultation of 10th Idem to State for the information of the Board that the detailed yeomiah or Register prescribed in circular order of the Board of Revenue 18th January 1861 has been duly Kept in this District in the prescribed form and that in accordance with Circular order 25th Febuary 1850 the Register is Kept in the Custody of an assistant so as not to be accessible to any of the Establishment and that

Fort St George 11th August 1856

that a certificate is required from the Assistant to the effect that each pensioner has been carefully compared with his description before the order for payment of the yearmah is issued by me.

2 I beg to submit a statement of Pensions granted hereditarily besides those allowed to dispossessed Polygers and Pensioned Rajahs.

3 The Statement contains several yearmahdars both male and female whose ages

Fort St George 11th August 1856

ages are not given and one or two are said to have died but on what date it is not mentioned I am out on Circuit I have thought it preferable to submit the Statement as it is rather than delay its transmission any longer. The information omitted will be supplied as soon as obtained from Chittoor.

The Collector of

South Arcot

Sir.

I am directed to point out that you have omitted to mention in your Season Report for the month of July whether a Copy of it had been transmitted to the Chamber of Commerce. The Board of Revenue desire me to request that you will be careful to furnish this information in a foot note in future Reports.

Bt N. 2548

Proceedings thereon.

Stating the views of the Board on the measures proposed by the Collector of Bellary connected with the reform of the village Police of his District and desiring to have more detailed information to enable them to judge of the best means of placing the Department on a proper footing.

Read again letter from the Collector of Bellary of 26th May and entered in Consultation 4th June 1855.

The Collector has prefixed to the above report a very useful abstract of the correspondence which has already passed on the subject of the village Police of the Bellary District. It is unnecessary for the Board to review this part of Mr. Pelly's letter and they will therefore pass at once to the question of reforming the Police Establishment as now existing.

2 The number of Villages in the District is stated to be 2758 exclusive of 695 dependent hamlets of present 2216 villages are provided with the 4584 Talaries "performing duty"

3 The Collector considers that of the total number of Villages 560 are too small to require separate Talaries and proposes to entertain 3219 Officers of this class for the remaining 2198 Villages. The number of Talaries required for a Village must depend not

not only on its population but on its size - the number of hamlets dependent on it, and other local considerations of which the Collector must necessarily be the best judge - on this point therefore the Board will only remark that generally one Talary for every Village with 800 inhabitants would appear to be sufficient - In such Villages as contain 8 or 10,000 inhabitants it seems preferable to have a certain number of Talaries and to establish a Tannah of regular Peons in aid of the Talaary Establishment than to increase the latter force to the extent that the population might otherwise seem to require -

4 The Survey assessment value of the existing Inams and the Meerah amounts to Rupees 208,612 or Rupees 164,389 for the former and Rupees 44,223 for the latter - Of the Inams however a large portion (Rupees 37,255) is stated to have been long left uncultivated and on a portion a

jodey

jody of Rupees 8754 is collected moreover the Survey assessment is independent of the established reduction of 25 per cent since granted on all Circar lands. These reductions bring down the ascertained value of the Enams to Rupees 87819 while the actual receipts of the Salaries from these lands is estimated at only Rupees 52851, their value in like manner being believed to yield only Rupees 32639. Thus the actual emoluments of the present Salaries are supposed to be Rupees 76,771.3-

5 Mr. Pelly proposes to make the Salaries emoluments equivalent to 30 Rupees per annum and estimates the extra expence to Government at Rupees 62758.

6. The Board observes however that the payment fixed by Government in South Arcot is only Rupees 30 per annum of which 12 Rupees is given in money and 18 R- in

in good arable land and they are inclined to consider this a sufficient remuneration for the same class in Bellary. The Board desire to have the Collectors opinion on the question of whether payment wholly in cash or partly in cash and partly by rent free land would be the more desirable system in Bellary and in the latter case what means could in Mr Pelly's opinion be adopted to ensure a continuance of the system which has hitherto been so common of sub-dividing some Enams among the heirs of deceased holders, until but a small fraction is left for the party actually performing duty. at the rate sanctioned for South Arcot the entire Emoluments of 3219 Salaries would be Rupees 96570 of which sum Rupees 38628 would be in money and Rupees 57942 in land. The Extra expense would thus be about Rupees 20,000 supposing the Estimate of the Salaries present Emoluments to

jody of Rupees 8754 is collected moreover the Survey assessment is independent of the established reduction of 25 per Cent since granted on all Circar Lands. These reductions bring down the o[r] assessed value of the Enams to Rupees 87819 while the actual receipts of the Talaries from these lands is estimated at only Rupees 52858. Their Inam in like manner being believed to yield only Rupees 32639. Thus the actual emoluments of the present Talaries are supposed to be Rupees 76,743-

5 Mr. Pelly proposes to make the Talaries emoluments equivalent to 35 Rupees per annum and estimates the extra expence to Government at Rupees 62758.

6. The Board observes however that the payment fixed by Government in South arcot is only Rupees 30 per annum of which 12 Rupees is given in money and 18 R[s] in

in good arable land and they are inclined to consider this a sufficient remuneration for the same class in Bellary. The Board desire to have the Collectors opinion on the question of whether payment wholly in cash or partly in cash and partly by rent free land would be the more desirable system in Bellary and in the latter case what means could in Mr Pelly's opinion be adopted to prevent a continuance of the system which has hitherto been so common of subdividing some Enams among the heirs of deceased holders, until but a small fraction is left for the party actually performing duty. at the rate sanctioned for South arcot the entire Emoluments of 3219 Talaries would be Rupees 96570 of which sum Rupees 38628 would be in money and Rupees 57942 in land. The Extra expense would thus be about Rupees 20,000 supposing the Estimate of the Talaries present Emoluments to

to be correct which however is very doubtful. The Collector it is observed states in Para 51 "that the surplus in some Villages cannot be made available for the deficiencies in other places" but he assigns no reason for this opinion and the Board, are not prepared to abandon the right of Government to dispose emoluments of this nature in such manner as the public service may require a fair degree of consideration may well be shewn in special cases where a sudden change would be productive of hardship but it is undoubtedly part of the Government plan to make the surplus Emoluments of one Village meet the deficiencies of another, and their right to do so seems unquestionable.

7 It is also part of the Government scheme wherever practicable to realize the fees now paid by the people and carry them to the general fund for the payment of the Village police.

8 Mr Pelly will specially notice these two points in his next report.

There

9 There is also another subject on which the Board request full information viz: the enjoyment of the Enams &c by persons who perform no service. In Statement No 3 enclosed in Mr Mellors report 27th June 1844 the Board find it stated that the Salary Enams are shared by 10981 persons of whom only 4740 perform the service for which the Enams were granted. It is unnecessary to point out the evils of such a system or the necessity of applying an effectual remedy to it. The Board are not unaware of the difficulties that may present themselves to an immediate resumption of Gyrmingal Enams, but while they would request the opinion of the Collector upon the best means of making available to the public service all the Emoluments which have been set apart for its support they are of opinion that now that the village police is to be put in a state of efficiency advantage should be taken of all future lapses among Gyrmingaldars to appropriate the Enams they held to the purpose for which they were granted.

Inlosure 22nd July 1844

The

10 The Board concur with the Collector that the Potail should have considerable control over the Salwary but they cannot go so far as to vest the Potails with such powers of punishment as Mr Pelly suggests. The Potail can always complain to the Collector if the Salwary neglects his duty and if his representation is correct it will be supported by the Village communities on whose expression of dissatisfaction it will generally be safe to rely. The Board agree also in much that the Collector urges in para 53 but this part of his letter does not require consideration here. His suggestions in para 54 regarding the testimony of approvers do not fall within the Boards province.

11 The Board also agree with the Collector that the services of the Head Salwaries and Cavilgars should be retained only when it may be necessary to employ them as Salwaries as regards the Cuttoobadies the Collector will be requested to report more

	Number of Men doing duty	Emoluments of Men doing duty	Number of Men not doing duty	Emoluments of Men not doing duty
Head Salwaries	630	5,730	456	4,823
Cavilgars	776	9,560	449	7,557
Cuttoobadies	3,837	36,408	2,746	18,481
	5,243	51,698	3,651	30,855

Number of Men not doing duty	Emoluments of Men not doing duty
174	907
327	2009
1091	7,927
1592	10,843

more particularly. The Board are under the impression that these men still retain a vivid recollection of having been Military retainers that the objection to be employed on many of the duties which Peons ordinarily perform such as conveying Messages or letters and it is desirable that their feelings in respect to the performance of the duties of a Salwary should be correctly ascertained before they be incorporated with that class of Servants If required as Guards at any particular Station the Board think it will be preferable to place them on the permanent Establishment as Peons on fixed pay. This is however a question of detail which can be settled hereafter. The number of each class and their emoluments is shown in the Margin.

It

It will be seen that of 3837 Cuttoobadies 109 do no duty and yet on an average receive as much as those who are required to serve.

12 The Board have passed orders separately regarding the Cundachar peons. In consequence of those orders all of this class the remission on whose lands does not exceed the ordinary Chowtage will at once be dispensed with, and the same course may probably be followed with regard to the remainder whose Emoluments are stated to be little in excess of the Chowtage the consideration of Service being withdrawn.

Proceedings to Collector 19th July 1855

No of Cundachars—1315
Total Emoluments — 13216 of which exceeding Chowtage Rupees 6331-

13 The Collector has not stated whether the Emoluments of the Kaud Talaries &c include what they would receive as Chowtage, but the Board presume this is not the case.

14 From the above the Board perceive that the entire Emoluments of

Talaries Inams — 87,819
Marah — 44,223
Kaud Talaries &c — 41,698
Cundachars — 6,331
1,80,071

of the Village Police as now established amount to about Rupees 1,80,071 as shewn in the Margin.

15 The reference to which the Collectors present letter is a reply was entended to be limited only to the village police and not to the regular Establishment. The efficiency of the village Establishment depends however materially on the support they receive from a well trained and paid body of regular peons placed at Judicially selected Stations and affording them ready and without in any way encroaching on their proper functions. The number of police peons certainly seems very small for so large and populous a District as Bellary but more detailed information is necessary to enable the Board to judge of the best means of placing this Department on a proper footing.

16 considering the many points on which careful enquiry is necessary before the Board can submit a well divided scheme for the reformation

It will be seen that of 3837 Cuttoobadies 109 do no duty and yet on an average receive, as much as those who are required to serve.

12 The Board have passed orders separately regarding the Cundachar peons. In consequence of those orders all of this class the remission on whose lands does not exceed the ordinary Chowtage will at once be dispensed with, and the same course will probably be followed with regards to the remainder whose Emoluments are stated to be Cattle in excess of the Chowtage the condition of service being withdrawn.

Proceedings to Collector 19th July 1855

13 The Collector has not stated whether the Emoluments of the Rand Talaris &c include what they would receive as Chowtage, but the Board presume this is not the case.

14 From the above the Board perceive that the entire Emoluments of

No of Cundachars—1315
Total Emoluments —— 13216 of which exceeding Chowtage Rupees 6331.

Talaries Enams	87,819
Marah	44,223
Rand Talaries &c	41,698
Cundachars	6,331
	180,071

of the Village Police as now established amount to about Rupees 180,071 as shewn in the margin.

15 The reference to which the Collectors present letter is a reply was intended to be limited only to the village police and not to the regular Establishment. The efficiency of the village Establishment depends however materially on the support they receive from a well trained and paid body of regular peons placed at Judicially selected Stations and any way encroaching on their proper functions. The number of police peons certainly seems very small for so large and populous a District as Bellary but more detailed information is necessary to enable the Board to judge of the best means of placing this Department on a proper footing.

16 Considering the many points on which careful enquiry is necessary before the Board can submit a well devised scheme for the reformation

reformation of the Village Police for the consideration of Government they think it best to adopt the plan proposed by Mr Pelly, Viz: to authorize him to organise one Taluk as a model without however carrying his measures into effect until duly sanctioned. They therefore request that he will follow this plan as soon as possible making the careful enquiries pointed out in para 52 of his letter particularly into the real value of the Inams and fees of the Salaries &c and following the principles laid down in paras 6- 7- 9- & 11 of these Prot.

Sir,

I have the honor to submit the following Statement with reference to the Board's Endorsement on Petition N: 526 of 1856 in which the Board with

to

to the Board by certain Ryots of Calastry Zemindary.

to be informed whether the Zemindar of Calastry has followed the suggestion reported in Para 9 of my letter to the Board N: 16 dated 7th March 1855-

2 Since the letter referred to above was written the Ryots have appeared before me several times and demanded that I should obtain for them Compensation for the loss sustained by them thro the illegal detention of their share of the grain by the Zemindar-

3 I have on each occasion as pointed out to them that the proper Course for them was to bring a Suit before me under Regulation V of 1822 against the Zemindar for the loss they had sustained by his acts and I advised them as they had not a single document to prove their claim that they should demand puttahs from the Zemindar to enable me to put in force the Regulations against him as he had not Conformed to my suggestion that he should himself Compensate them for their

Fort St George 12th August 1856

their loss-

I further informed them that in order to enable them to prove that they had demanded puttahs I would on their application direct the Head of Police of Inandarpank to be present when they made the demand.

4 The last time that the Ryots appeared before me was on the 28th December 1855 upwards of two months ago they promised to Consider my advice but I have neither seen nor heard from them since-

5 I am Convinced from the above and from all that has occurred on the subject that Mr. Bretts statement Contained in his letter dated 6th October 1852 is perfectly Correct and that the Ryots are as unwilling to demand puttahs as the Zemindar is to grant them. Until the Ryots feel that the demand of puttahs from the Zemindar made in the manner I suggested to

Fort St George 12th August 1856

to them is absolutely essential to their obtaining Redress it will be impossible for me to give them the protection which the Regulations would afford them if they enabled me by this single demand to put its provisions into operation-

North Arcot — Collectors Cutcherry Chittoor 18th March 1856 Bd No 2544

Signed C. Whittingham Collector

Proceedings thereon-

Communicating instructions to the Collector on the subject of the adjudication of the claims to compensation preferred by certain Ryots against the Zemindar of Calastry for the loss which they sustained by the latters detaining their crops in deposit pending a dispute respecting certain money Rofsoums and directing Petitioners in No 526 of 1856 to appear before the Collector who will enquire into their Complaint.

(437-438)

Inv Cond. 26 Novr 1856.

A dispute arose between the Zemindar of Calastry and the Ryots of some of his Villages in consequence of his demanding certain money Rofsoums in addition to a share of the Crop. The parties at last came to a Compromise on this subject but the Ryots now claim Compensation for the loss which they sustained by the Zemindar detaining their Crops in deposit pending the dispute-

It appears from the Collectors previous letter of 7th March 1855 Para 4 that the Zemindar on the

14527 Fort St George 12th August 1836

the Collectors order released the Ryots portion of the produce which he had improperly detained but that the Ryots have refused to take it away unless Compensated for the loss which they state they sustained by the Zemindar keeping their produce in deposit—

3 In the present Petition the Ryots Repeat this Claim and Request that the Collector may be instructed to adjudge them Compensation The Collector was accordingly called upon to state what steps he had taken in the matter and Mr. W Pettingham now Replies that he has felt himself unable to Resort to Regulation V of 1822 under which alone he Could adjudicate the Claim because the Ryots will not follow his suggestion and apply to the Zemindar for Puttahs for their lands—

4 On this point the Board Consider Mr. W Pettingham to be under a Mistake—They are not of opinion that the disinclination of the Ryots to ask for

14528 Fort St George 12th August 1836

for Puttahs in the present year has any Connection with the alleged illegal detention of their produce by the Zemindar 2 years ago—It is certainly desirable that written engagements should be exchanged between Zemindars and Ryots—But where both parties by material Consent have adhered to ancient Customs and abstained from exchanging written engagements, the Board do not see that a Collector is debarred from settling a claim like the present for Compensation for the illegal detention of produce under Regulation V of 1822—

At all events they think

5 Mr. W Pettingham's proper Course is to hold an enquiry as to whether Petitioners have sustained loss at the Zemindars hands and if so what the amount of the loss is—He should then pass a decision negativing the claim should it be unsubstantiated or otherwise either awarding suitable damages against the Zemindar or stating the Reasons which prevent his doing so. Petitioners will then be able should they see fit

but

Fort St. George 12th August 1856

fit to prefer an appeal to the Civil Court when the Construction of Regulation V of 1822 will come under judicial Review - The Board Resolve to send a Copy of these Proceedings to the Collector and to pass the following Endorsement on Petition 326 of 1856

"The Collector has been instructed to enquire into the Complaint and Petitioners are therefore directed to appear before him and produce any proofs which they possess of their having sustained loss by the Zemindar Refusing to let them Remove their Share of the produce of their lands."

Fort St. George 12th August 1856.

No 43
1856

439

To G. S. Forbes Esqre
Secretary to the Board of Revenue

Bd No 1742
From the Collector of Malabar
Reporting on the views laid down by Government in Extract Minutes of Consultation dated 8th September 1855 in regard to tasing pasture Lands in Malabar

Fort St. George

Sir

I regret the delay which has occurred in replying to the call made on me for a report on the existing cases to which the views of Government laid down in the Minutes of Consultation dated 8th September 1855 No 1026, in regard to tasing pasture lands would be applicable to this District.

2. I found that a tax of Rupees 2,986—5—8 was levied on Bullocks in this District in Fusly 1263 and entered under the head of Moturpha.—

Of this sum Rupees 1169—8—0 were collected as a professional tax on draught bullocks the rates per head being 1 and 2 gold fanams or 0—4—7 and 0—9—2.—

3. I also found that a tax of 16 Rupees per annum was collected on the Roundahs or Buffaloes, but

but I could not learn either from my Servants nor the records on what principle this tax was levied whether as was asserted as a profeſsional tax on the traders in Milk and Ghee or on the head of the animal as a grazing tax. After much fruitleſs search. I determined on making a reference to the Collector of Coimbatore to ascertain whether the records of his Office would throw any light on the subject.

On the 17th March I received a reply from Mr Thomas in which he informs me that the tax in question is imposed on the buffaloe as a pasture tax.—

"The right of grazing in the Neilgherries "is secured to the ryots by a graſs renting system "as in the plains fixed at one fourth of the regular "aſsesment of the land appropriated for pasturage."—

"There was formerly no graſs tax on the "Neilgherries and now it is entirely optional; those "only who ask for graſs Puttahs hold any, many "Burghers and even a few Sodars hold such, their

"real object being as land becomes yearly more "scarce and valuable on the Hills / to establish their "occupant right and claim on it by a Puttah at "a light rate rather than risk the loſs of grazing "tracts by Europeans and others seeking land."

4. The Board perhaps are aware that the Koondah Villages are attached to the Talook of Valloovanaad. No curnums are allowed to these Villages. but the Manyagars receive a percentage of the collections which gives them about on an average Rupees 12 a year. These Villages are seldom visited by the Officials from the Talooks and the settlement is made solely on the statement of these manyagars. The revenue is derived from Table and Ponom lands cultivated with the common dry grains and a capitation tax on Buffaloes for grazing.—

Dated 3 Feby 1855. 5 The accompanying report from Mr Collett while in charge of the Talook of walloovanaad will put the Board in poſsesion of more information than can be gathered from the Records of the Office.—

It does not exhibit a very satisfactory state of the affairs. a settlement conducted in the way

but I could not learn either from my Servants nor the records on what principle this tax was levied whether as was asserted as a professional tax on the traders in Milk and Ghee or on the head of the animal as a grazing tax. After much fruitless search. I determined on making a reference to the Collector of Coimbatore to ascertain whether the records of his Office would throw any light on the subject.

On the 17th March I received a reply from Mr. Thomas in which he informs me that the tax in question is imposed on the buffaloe as a pasture tax.—

"The right of grazing in the Neilgherries
"is secured to the ryots by a grass renting System
"as in the plains fixed at one fourth of the regular
"assessment of the land appropriated for pasturage."—

"There was formerly no grass tax on the
"Neilgherries and now it is entirely optional; those
"only who ask for grass Puttahs hold any, many
"Burghers and even a few Todars hold such, their

"real object being as land becomes yearly more
"scarce and valuable on the Hills to establish their
"occupant right and claim on it by a Puttah at
"a light rate rather than risk the loss of grazing
"tracts by Europeans and others seeking land."

4. The Board perhaps are aware that the Roondah Villages are attached to the Talook of Valloovanaad. No curnums are allowed to these Villages. but the Manyagars receive a percentage of the collections which gives them about on an average Rupees 12 a year. These Villages are seldom visited by the Officials from the Talooks and the Settlement is made solely on the statement of these manyagars. The revenue is derived from Table and Ponom lands cultivated with the common dry grains and a capitation tax on Buffaloes for grazing.—

Dated 3 Feby 55. 5 The accompanying report from Mr. Collett while in charge of the Talook of Valloovanaad will put the Board in possession of more information than can be gathered from the Records of the Office.—

It does not exhibit a very satisfactory state of the affairs. a Settlement conducted in the way

way it is in this Village cannot be depended on. The lands should be measured annually as in Poonja Villages on the other coast and assessed at some rate the Ponam cultivation being also measured or taken at so many hatchets. The Table land if not measured might be assessed at so much the Plough.

6. It has been resolved that the Roondahs should remain attached to the District of Malabar and if these reasons still prevail it would seem necessary that some system should be introduced in the collection of the Revenues, I have not yet been able to visit this part of the District. but hope to do so during some part of the present year when I will do myself the honor of submitting my views of the agency to be employed &c.

7. The settlement of the walloovanaad Taluk has been completed for Fusly 1265 on the principles which have hitherto obtained. I would therefore recommend that no alteration be made in the tax on the Roondahs till my visit. when I would propose that the grass tax be made optional and fixed on the land.

In

8. In regard to the tax levied on draught bullocks I presume that is not affected by the orders of Government now under reply and is to be continued till further orders for the abandonment of the Moturpha tax are received.

Calicut. 12th May 1856. } /signed/ T. Clarke Collector

Enclosure No 1.

To R. V. Mondlly Esqre Collector of Malabar

Sir,

I have the honor to submit for your consideration some suggestions respecting the Burghers of Keelkhundah and milkundah which places I have lately visited.

2. I completed the Jimabundy of these and other Villages attached to them but the accounts not having yet been prepared I will not here go into details further than to state that my settlement is necessarily imperfect the Total Revenue is between 500 and 600 Rupees per annum but the whole has hitherto been divided into seven puttahs only. There is no account of each Burghers share this I have now ascertained by questioning each

each man paying Revenue and I propose issu-
:ing puttahs to all accordingly.—

3. In A. D. $\frac{1021}{1818/9}$ the Arkurushi Adighary
/to whose amshom this portion of the province is
attached/ made a Survey by measurement of the
lands occupied by each Burgher. This had never
been tested or acted upon. The cultivation of
the Burghers is distinguished into two classes
Erkad /ploughed fields/ and kotukad fields
otherwise titled, or incapable of being ploughed/
The former are permanently and regularly
cultivated the latter are constantly abandoned
and left to be fallow.

4. As regards the former description of
lands I tested the accuracy of the Pymash of
1024 by personally visiting almost every village mea-
:suring a few fields in each and questioning
other Burghers as to the reality of their being
in the occupation of lands entered in that
account. I am satisfied as to the general ac-
:curacy of this Pymash and propose to act upon
it by entering the number of Erkad lands in each
puttah

puttah in accordance with it. The quantity of
Kotakad lands held by each Burgher might
be approximately ascertained from the same
accounts and from each Burgher's own statement
of the amount he annually pays their own accounts
as to the quantity of land held by each are not
found to be in the least trusted. though the
amount of Revenue paid by each is doubtlessly
more correct. The general result of my settlement
will be a slight increase from remissions brought
again to account and a few new lands taxed
the amounts on which I was compelled to deter-
:mine upon verbal enquiry from the Burghers
themselves.—

5. The Burghers are yearly altering the
number and limits of their fields. The advantage
they derive from the present inaccuracy of the ac-
:counts and the difficulty experienced by us in having
annual surveys is the cause of the strenuous opposition
they offer to their being attached to the Coimbatore
Zillah. The appended table will show how the
Revenue has been hitherto distributed and will
also be alluded to in my subsequent remarks.—

6. There are at present four Monegars re-
:ceiving pay. Originally there were only three the change
in

in number and amount of pay having been made in 18. The three original monegars were Picha Ma: thau /in No. 4 in the list/ Donan No. 3/ and Melkundayil Villanjee /No. 1/ Picha mathau was previously the Head Monegar and re: ceived 36 Rupees per annum two shares in which he gave to Donan and Villanjee. The monegar: ship has for generations been in his family. The fourth Monegar is Mullimala hadan /No. 2/ He receives 6 Rupees per annum but collects only Rupees 29 — 2 — 2 of revenue. —

7. The Arikurishi Nair and Eralpad Rajah have through their agents Vella Rounden and Rama Rounden both residing in Atti- pady asserted claims and exctracted from the Burghers annual payments which seems to me unauthorized and improper. The amounts are small neither receiving more than 10 Rupees per annum, I have informed the Burghers that such payments are quite unauthorized and have issued orders for the appearance of the above agents to answer for this and other improper interference with the Burghers. —

The

8. The late divisions among the Burghers I impute entirely to the intrigues of these two men. In former times the symbol of the authority of Monegar was the possession of a ring which the Eralpad Raja and Arikurishi Nair gave to those on whom the situation was conferred. —

9. Lately Villa Rounden the agent — /I believe/ of the Eralpad Rajah endeavoured to extort a fee from Picha Mathau on account of two rings which he thus possessed in virtue of his monegarship. Picha mathau refusing to pay this bribe, the rings were taken from him and given to another Burgher named Kool- lundah Hadan who resides in one of the Vil: lages within Picha Mathau's range. He stated to me openly that he paid 10 Rupees for the trans: fer of the rings. This is the origin of the party now endeavouring to get Picha mathau turned out from his Monegarship, I verbally enquired into the complaints brought against him. They were in the last degree frivolous and vague and nothing specific was advanced though his opponents were individually questioned. The only exc: eption was a charge of extortion brought forward by a Burgher

Burgher lately employed by Picha mathan and this was admitted by an occurrence of three years date. When I asked whom they would like as monegar. the party was immediately clamorous for the appointment of the present holder of the rings of Office the above mentioned Reelkandah Radan—

10. Picha Mathan is a man of a mild disposition. if any thing is to be urged against his fitness for Office it is this.—

11. The monegar Villanjee was lately turned out of Office on the strength of the complaints of a number of the Burghers in one of the Villages within his range backed by an unfavourable report from the late Manarghat Peishcar Rama menon, I am now of opinion that the charges were unfounded and that the Peishcars report was probably made in collusion with the party complaining. The person appointed in his place is Radan the son of Vellan The daughter of the latter was married (though it is an unusual occurrence) to Rama Rounden before mentioned I found that this man had taken the rings of Office from Villanjee and given them to-

to Radan and I have not any doubt that this is the sole ground for the complaints against Villanjee, I will submit the result of my examination when I have procured the attendance of Vella and Rama Rounden—

12. I thought it proper to retain possession of the two rings which I found in possession of Radan son of Vellan, I have also stated to the Burghers my intention of recommending to you the restoration of Villanjee to his Office no charges of a definite nature were urged against him it was stated that he was in the habit of keeping back the hire for coolies furnished by him to travellers and also himself employing them without paying them, as each of the persons complaining was questioned this was the burden of his charge but no specific instance of oppression was ever named.—

13. The number of Burghers paying Revenue who are opposed to Villanjee is greater than those for him but the Revenue is about equally represented by the two parties. Villanjee is apparently a

a man of an indifferent temper but as the clamour against him is clearly the result of an intrigue, the success in which has given rise to the party against Picha Mathan, I beg to recommend his restoration to his Monegarship.—

14. I found that Donan was also in possession of a ring from the Arikurishi Nair. This I returned to him as also two rings, I found in possession of Keelkundah Kadan mentioned in para: 9. under the impression which I subsequently discovered to be incorrect, that they required them (as they stated) for certain Daily religious ceremonies.—

15. As already stated these Burghers are attached to the Arikurishi Amshom the Adighary resides at monarghat a considerable distance and he has no better means of information regarding what occurs among the Burghers that the Peishcar who is stationed there and within whose division these Burghers reside. The Adighary collects the Revenue or rather sends his Peons at the stated periods to receive the money from the Monegars. He does not himself visit their country except for some special reason more than perhaps once in the year for a few days previous to the Summabundy. Their being attached to this Amshom is therefore without

without any advantage.

16. Some complaints were made to me regarding this Adgharays conduct, but though from their nature I am not prepared to say that I can give to them much credit yet, I think they are not to be entirely disregarded. The charges were of extortion on his own account and for their higher Talook Officials including the Tahsildar I did not proceed to any formal investigation. The instances all occurred more than a year ago, and I did not think any proof would be obtained or benefit derived by such an enquiry.—

17. The Adighary is a man of property and great influence and is also an extremely shrewd man. But I would recommend that as there is no advantage from it he should be deprived of all pretence for interference in the affairs of the Burghers. With the exception of the Burghers who pay the amount of Revenue entered under Puttah No. 5 in the appended table, and to whom on account of the situation of their Villages it would be a grievance not to be allowed (in accordance with their request) to pay as heretofore their revenue in the Arikurishi Amshom and to remain attached to it I would recommend that the other Villages be formed into a separate Amshom to be called the Keelkundah and Milkundah Amshom.—

In

a man of an indifferent temper but as the clamour against him is clearly the result of an intrigue, the success in which has given rise to the party against Picha Mathan, I beg to recommend his restoration to his Monegarship.

14. I found that Donan was also in possession of a ring from the Arikurishi Nair. This I returned to him as also two rings, I found in possession of Keelkundah Kadan mentioned in para: 9. under the impression which I subsequently discovered to be incorrect, that they required them (as they stated) for certain daily religious ceremonies.—

15. As already stated these Burghers are attached to the Arikurishi Amshom the Adighary resides at monarghat a considerable distance and he has no better means of information regarding what occurs among the Burghers that the Peishcar who is stationed there and within whose division these Burghers reside. The Adighary collects the Revenue or rather sends his Peons at the stated periods to receive the money from the Monegars. He does not himself visit their country except for some special reason more than perhaps once in the year for a few days previous to the Summabundy. Their being attached to this Amshom is therefore

without any advantage.

16. Some Complaints were made to me regarding this Adgharays conduct, but though from their nature I am not prepared to say that I can give to them much credit yet, I think they are not to be entirely disregarded. The charges were of extortion on his own account and for their higher Talook Officials including the Tahsildar I did not proceed to any formal investigation. The instances all occurred more than a year ago, and I did not think any proof would be obtained or benefit derived by such an enquiry.—

17. The Adighary is a man of property and great influence and is also an extremely shrewd man. But I would recommend that as there is no advantage from it he should be deprived of all pretence for interference in the affairs of the Burghers. With the exception of the Burghers who pay the amount of Revenue entered under putteh No. 5 in the appended table, and to whom on account of the situation of their Villages it would be a grievance not to be allowed (in accordance with their request) to pay as heretofore their revenue in the Arikurishi Amshom and to remain attached to it I would recommend that the other Villages be formed into a separate Amshom to be called the Keelkundah and Milkundah Amshom.—

In

18. In this event the monegarship of Mullimala Kadan /No 2 in the table/ might be abolished and the small sum he at present collects be in future collected by Villanjee /No 1/ as was the case before. There would then be three monegars Picha matham Donan and Villanjee. To Donan I could propose to give the pay of the abolished Monegarship making him Head Monegar with the authority of an Adighary or Village Moonsiff. The amount of the Revenue and the situation of the Villages would not render more than one Monegar necessary but as the abolition of the two other monegarships would be greatly opposed to the feelings of the people I would recommend their retention and the proposed distribution of the pay among them.—

19. The amounts of Revenue entered in puttahs No 6 and 7 in the table might in future be collected by the Head Monegar to whom also the two subordinate monegars might also make over their collections. Instead of as at present the adighary sending a holkar to receive the lists from the different monegars I would propose that the Peishcar should be ordered to send one of his holkars to the Head Monegar for this purpose.—

20 As none of the Burghers can write or keep accounts I would propose that the Revenue accounts should be made over

over to the Peishcar they are very short and simple and will afford him very little trouble to keep. Regarding Police matters the Head monegar would be required to afford verbal information to the Peishcar. At present the Police Officers are entirely dependent upon such information.

21. I have ascertained that the plan above proposed for their separation from the arikurishe amshom and the erection of their Villages into a district amshom under the immediate superintendence of the monerghat Peishcar would be in accordance with the wishes of the Burghers generally.—

22. Picha Matham in virtue of his hereditary right might have been selected for the Head monegarship but he is decidedly inferior to Donan who is by far a more intelligent and independent character and much more regarded by the Burghers generally.—

From the Collector of South Arcot.

Sir.

With reference to Para 2. of Extract from Minutes of Consultation No. 317 dated 31st March last received with Extract from the Proceedings of the Board of Revenue of the 8th Instant No. 395. I have the honor to explain that the Extra Duffadars and Peons alluded to are those which were employed at the time of the manufacture of Salt at Merkanum which is during the hot season of the year.—

2. As the Estimate is sent up at the early part of the Fusly it has not been usual to include any provision in it for the entertainment of Peons for the purpose of guarding the Salt during Manufacture and preventing Smuggling.—

3. The ordinary practice has been for a Supplemental

Supplemental Estimate to be submitted which has hitherto been sanctioned by the Board of Revenue without being laid before Government. Hereafter the charge shall be entered in the regular Estimate

4 With reference to Para 17. I beg to observe that the charge for the Boat at the Tegavelly Salt Pans may be entered hereafter as a fixed one. It is for the hire of a Boat employed for the use of parties frequenting the Pans to reach which from the interior it is necessary to cross the Paravernaur river. This Boat cannot well be dispensed with in fact it is required during the whole year.—

From the Collector of Tanjore . . .

Sir.

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board dated 8th May 1856 No. 1395 requiring explanation regarding the items objected to by Government in Extract from Minutes of Consultation under date the 31st March last No. 347 in the Estimate for extra Establishments.

As regards this District the Government remark in Para 10 of the extract above referred to that "the causes assigned in the statement" for an excess expenditure of 480 Rupees for Fusly 1265 over what had been incurred in Fusly 1264" are insufficient and request further explanation as to the necessity of entertaining more hands than were required in the previous Fusly for the same purpose."

I would beg respectfully to refer the Board to Mr. Forbes' letter of the 7th November last in which this explanation has been already fully given and the reasons for the required increase of expenditure clearly set forth.

Fort St. George

447

Bd. No. 2313

From the Collector of Madura

Sir.

In reply to the Board's circular of the 6th May last No. 1387 I have the honor to state that it has been the practice of this District to hold the Shroffs responsible

Fort St. George 12th August 1856

Shroffs responsible for all bad Coins admitted by them but that this Rule seems never to have been formally laid down in writing.—

Madura

Fort St. George, 12th August 1856.

(449)

No. 70.

To G. J. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George.

Bd. No. 2318.
From the Acting Collr. of Guntoor.

Sir,

I have the honor to acknowledge the receipt of the Board's Circular No. 1569 of the 23d May 1856, and to forwarde a Statement of the fees of Motorpha Cummums in this District.—

2. The Motorpha allowance of 10 per cent upon the Collections of the Village was fixed so far back as the year 1817/18 by Mr. Oakes former Collector of this District, but it does not appear that it was ever finally sanctioned by Government. This arrangement does not prevail throughout the whole District, but only in 124 Villages as indicated in the Margin. In all the others, the fees are levied at different rates varying from 4 to 8 annas a loom at 1 anna a Rupee in some items and at 4 annas a man in others. The amount of fees

Taluks	No. of Villages
Nungalaghery	41
Banpetta	1
Rapully	40
Tenally	40
Guntoor	2
	124

Fort St. George, 12th August 1856.

fees shewn in the Statement cannot be taken as strictly correct. It will be observed that it bears a proportion of about R. 12 a. 4 P. 11. per cent to the Motur=pha revenue.-

3. That these fees are a Source of great exaction and oppression is not to be denied, amounting as they do some=times to as much as half of the Motupha paid by persons from whom they are levied.-

4. As a general proposition for placing the emoluments of the Curnums of the District including those engaged in the Motupha revenue has already been laid before the Government by the Commissioner for the Northern Circars, it seems unnecessary to pursue the subject further in this place.-

5. The views of Government contained in

Fort St. George 12th August 1856

in paras 5 and 6 of the Minutes of Consultation are already carried out in this District, new Puttahs being given only where there is a change of circumstances, and the attend=ance of the Motupha payers being dispensed with except in these exceptional cases, and in these again if the par=ties should be numerous the distribution of the puttahs takes place in the Village itself by the Village Moonsiffs to whom this duty is assigned.-

From the Collector of Rajahmundry —

Sir,

In reply to your letter of the 24th June last No. 1941 returning the Statement of salt sold for Home and Inland consumption from 1st May 1853 to 30th April 1856 and requesting me to forward an amended one including the sales to the French Chief of Yanam in the consumption of foreign States and to explain to what foreign States the existing entries refer, I have the honor to forward herewith the amended Statement as desired and to inform you that the "foreign States" now included the Nizams Dominions and the French Town of Yanam. A small quantity of salt exported to the Nagpoor country is also included. Under the instructions of the late Commissioner for the Northern Circars Salt for the province named is still entered as for foreign States.

From the Collector of Tanjore ---

Sir,

With reference to your letter of the 1st Ultimo, I have the honor to inform you that the Statement returned by you was prepared with reference to the amount actually credited in the Huzzoor Treasury up to the end of April in the 3 years of 1853/54. 1854/55 and 1855/56 while the accounts with which the Statement in question was compared, contained the amount as per Collection made in different depots, without reference to the sum credited in the Treasury. Hence arose the discrepancy referred to, I therefore beg to submit a fresh Statement prepared as per Collections made in the several depots ---

Proceedings

14566 Fort St. George 12th August 1856.

Bd. No. 2541.

Proceedings thereon (459-460)

The Board of Revenue authorize the sale for arrears of revenue of the lands alluded to in the foregoing letter and direct the publication in their office of the advertisement forwarded by the Collector, Wednesday the 17th of September next being fixed for the day of sale.—.

To

C.R.

14567 Fort St. George 12th August 1856.

No. 94

To

G. S. Forbes Esqre.
Secretary to the
Board of Revenue
Fort St. George.

(461)

Bd. No. 3087

From the Actg Collector of Guntoor

Stating with reference to Board's Circular No. 2515 of the 3d Ultimo that there is no objection to act XXII of 1855 being made applicable to five of the Ports in the Guntoor District.—

Sir

Para 1

In reply to the Board's Circular No. 2015 of the 3d Ultimo I have the honor to state for their information that I am not aware of any objection to act No. XXII of 1855 being made applicable to five of the Ports in this District in common with those of other Districts tho' in the absence of a Master Attendant it would not perhaps be easy to carry out all its provisions which appear to be more specially adopted to more important Ports.

Nizampatam
Epoorpollem
Cottapollem
Mottoopully
Chinna Ganjam

2. The Nizampatam and Cottapollem Harbours need some attention, and I take this opportunity of forwarding Copy of a Memorandum regarding them which has been submitted this another Channel as the subject may be viewed in connection with the Revenue and Maritime Departments as well that of Public Works.

3. The 2 other Ports referred to in the list appended to the above enactment have fallen into disuse and there appears no advantage

advantage in bringing them under the act inquisition.

Guntoor District
Collector's Office
Condaveed 6th August 1856.

/Signed/ H. Newill
Acting Collector

No 1

Memorandum regarding the Nizampatam Bay and its Harbours in the Guntoor District.—

1 The condition of these Harbours viewed in connection with the extensive irrigation of the Delta under the kishna Anicut Channels and the increased production of grain and other articles that may shortly be expected becomes a matter of much importance to the interests of the District.—

2. The following remarks descriptive of the present state of things and suggestive of some hints for further investigation under professional direction with the view to determining what is practicable or expedient to be done will it is hoped introduce the subject to that notice which it deserves.

3. The inland communications of this and the adjacent Districts at present offer serious difficulties to the transport of goods during great portions of the year, but however much these may

may eventually be improved and aided by navigable Canals the importance of facilitating the export by sea will still remain.—

4. The introduction of the kishna water into the District will also have an important influence in supplying a more a complete scour for the Nizampatam estuary and the connecting one of Cottapollem about 8 miles from it.—

5. The sea board trade of the District at the several Ports from the last few years is given below.

	Fusly 1260		Fusly 1261		Fusly 1262		Fusly 1263		Fusly 1264		Total	
	Imports	Exports	Imports	Exports	Imports	Exports	Imports	Exports	Imports	Exports	Imports	Exports
Nizampatam	29131	25056	28464	47144	13223	66555	29607	107392	22509	91455	113934	337602
Epoorpolem	196551	107476	317087	121221	202913	134521	66744	142307	79960	80359	854225	578884
Motopully re opened in 1853	"	"	23534	410	26510	23	29485	5180	34630	1716	114159	7329
Cottapolem	4563	2202	9019	3522	14344	2757	14855	10070	4576	9509	47357	28060

6. The port of Epoorpollem it will be observed stands higher than that of Nizampatam in its maritime traffic and possesses the advantage of a good open roadstead with deep water near the shore and on this account it may still retain its position tho it has had a great drawback in the whole of the merchants houses having been burnt down in 1855 but the great advantage at Nizampatam and its neighbouring port

of

Cottapollem is the harbour that is afforded for shelter and for the repairs of Vessels.—

7. The Native craft belonging to merchants at Nizampatam and Cottapollem are specified below.—

	Nizampatam.	Cottapolem	Total
Below 100 Tons each	9	5	14
" 200 Do	Do 3	12	15
" 300 Do	Do 5	11	16
" 400 Do	Do —	1	1
	17	29	46

and the following table gives the tonnage of Vessels that have touched at the several Ports in the last 5 years. They have numbered from 150 to 250 annually.—

	Fusly 1260	Fusly 1261	Fusly 1262	Fusly 1263	Fusly 1264
	Tons	Tons	Tons	Tons	Tons
Epoorpolem	8025	11328	8363	6781	4259
Motoopully	"	1327	1025	1312	1345
Nizampatam	8749	3199	3500	4663	4678
Cottapollem		8212	10339	9103	5737
Total	16774	24066	23227	21859	16019

8. The present consideration embraces not only the Nizampatam harbour but also the neighbouring one at Cottapolem which in many respects is far superior to the former for it possesses the advantage of a greater depth of water on the bar viz about 8 feet at ordinary high water with a soft muddy bottom while the bar at Nizampatam which has in the last

last few years been shifted nearly 2 miles has only about 5 feet at ordinary high tide and presents dangerous hard sand in the passage.

9. The relative use that is made of the two harbours may be fairly illustrated by what has come under my own observation during the last month. Cottapolem I found to have about 30 good sized dhonies of which several had put in for shelter during the turbulent weather generally experienced in May. Of these 10 have recently put out to sea 5 for the port of Epoorpolem to take in Cargo while the other 5 are now anchored off the Nizampatam bar and are shipping Cargo by means of boats. Again the Cottapolem harbour seems to afford a more perfect shelter as Vessels easily get up the estuary by a circuitous route of about 6 miles to Cottapollem which is distant in a direct line about ½ miles from the shore. In the Nizampatam estuary the violence of the weather is more severely felt.—

10. The neck of land stretching out to the extremity of what may be called the Nizampatam Bay presents advantages and disadvantages as respects the Cottapolem harbour in screening Vessels entering it or anchoring outside from the easterly storms and also in rendering it more difficult for Vessels

Vessels under some circumstances to get clear out.

11. The local facilities for repairs seem equally good at Nizampatam and Cottapolem tho the former being a populous town and the latter only a hamlet the resources are in a great measure drawn from Nizampatam as occasion requires but the distance between is not considerable.

12. A reference to the accompanying sketch which is traced from the Map of the survey of 1818-1820 will shew more clearly the relative positions of the two harbours and also the drainage nullahs by which they are scoured, a part of the Nizampatam Coast has been surveyed and a further portion has been sketched in from observation to show the great changes that have taken place within the last 35 years. The present features thus ascertained are distinguished by dotted lines and will be here noticed in contrast with the former outline.—

13. It will be seen that the former mouth of the Nizampatam eastwary has been entirely closed & that another outlet has been formed to the Eastward which again is screened by a sandbank recently formed

formed and rapidly extending eastward. This sandbank marked S is mostly covered at high water and breaks the surf in all tides. The position of the present bar is also roughly given. Another new feature will appear in the connection of a branch of the backwater with the new channel as shewn at the locality marked A. Thus a new and important influence has been introduced in the direction of the currents and the channels and this would seem to be of no little moment judging from the colour of the adjacent formation of sand on the east side of this outlet and the deep cutting going on the land joining on the other side as well as the projection of the opposite sandbank nearly in front of this new junction

14. The rapidity with which these important changes have taken place is very remarkable for when I was here 6 years ago the former outlet in a direct course from Nizampatam was in existence and the greater part of the sandbank alluded to has risen up in the same interval.—

15. The causes by which these changes have been effected will probably be traced in the influence which has been brought to bear upon the streams which conduct the drainage of the

the country to this outlet into the sea.

16. It will be seen that the estuaries of Nizampatam and Cottapolem are joined together by a backwater D running between them. This is not deep throughout but forms a complete communication. The Nizampatam estuary receives the large stream marked A and a smaller one B the former carries the drainage of a considerable part of the Delta in a line from the Kishna at Seetanagrum along the old Toongabhadra water course and has had great accessions first in 1841 by the connection of the Toongabhadra with the Kishna and subsequently by the more continuous streams from the anicut. It also receives the surplus from the Baupetla and other tanks fed by large streams from the westward.

17. The other water course marked B has also had considerable additions made to its supply in the Kishna water introduced by the Vellatore channel since 1838 for the surplus of which it forms a drain.

18. How far these increased currents has contributed to effect the changes above described may more properly belong to the professional Department to determine but the fact appears clear that with the

the additional means of scouring the backwater and thus improving the Nizampatam harbour it is now in a much worse state than formerly or even 6 or 7 years ago, the entrance being now circuitous and uncertain instead of direct from the south and probably with less depth of water.

19. It remains then a serious question as to how far the influences above described may now be directed so as to secure an improvement in the present unsatisfactory state of things and also whether it may not be expedient to re-open the former outlet and secure a proper scour for it by auxiliary works for regulating the direction of the streams.

20. While however it may be argued that with the superior advantage in some respects possessed by the Cottapolem harbour it may not be desirable to incur any considerable outlay for Nizampatam still the latter should certainly not be entirely neglected even if the preference is given to the other specially when the state of things appears to be rapidly getting worse every year.

21. The Cottapolem harbour is scoured by a stream C which catches a share of the Kistna water introduced by the Vellatore channel and also by the drainage and river floods of the adjoining part of the Delta. The anicut channels will provide a further additional quantity in their surplus.

Various

22. Various minor improvements will doubtless be suggested by an examination of this harbour but one appears particularly desirable in connecting it with the Kishna. A direct cut marked E to Yetimoga would only require an excavation of 3 miles I am informed that a channel in a more circuitous direction does already exist for some part of the distance. This with some little clearing of the backwater between Cottapolem and Nizampatam would open out a water communication between the latter place and Masulipatam by a branch of the river at Avenigudda a few miles above Yetimoga and the Chinnapuram Canal which there is being improved. This line of communication deserves the better consideration as the land transit is almost impracticable during some parts of the year. It may probably be effected at a very moderate cost compared with the advantages to be derived.—

23. It may also be considered in a still more important light as an extension of the proposed Eastern Coast Canal which I gather from the sketches recently sent to me is intended to terminate at Nizampatam where it will connect with the Kishna Channels from the anicut at Bezoarah. The latter may perhaps be the better line of communication to Ellore & Rajahmundry but would necessarily

necessarily involve a very circuitous route to Masulipatam which may be obviated by the more direct route now suggested.—

24. It appears also very necessary that the Cottapollem harbour should have some direct connection with the ancient channel to run along the right bank of the Kishna and perhaps this may be made in a line somewhat higher up than the direct cut to yetimoga above suggested which falls into the river several miles below the branch now connected with the town of Masulipatam.—

25. As changes are now rapidly going on and the influence by which these are effected are being increased by the drainage from the Kishna irrigation works it is highly important that an immediate examination should be made of these harbours with the view of determining what is expedient to be done for their improvement.—

26. In connection with the above subject it may not be irrelevant here to notice a small inlet at Chena Ganjam lower down the Coast which affords facilities for the shipment of salt from the stores at that place. This is the more necessary as the Nizampatam salt works have been ordered to be abolished and Chena Ganjam alone will supply

salt

Fort St. George 12th August 1856.

salt for export by land or by sea. The creek at this place runs up to the vicinity of the salt yards which are about 2 miles from the sea and it is intended to construct 2 new yards on its bank to provide at the same time for the deficiency occasioned by the discontinuance of all the other salt works as well as for export by sea. The Creek has about 6 to 10 feet depth of water at half tide and about 8 feet on the bar at high water and about 4 at low water. Boats can thus even now convey salt to Vessels anchored in the road stead but the creek should be dredged and deepened so as to admit boats of a larger size and this could probably be done at a small cost as the distance to be cleared is small.—

Guntoor Collector's Cutcherry Dindy 30th June 1856.—

B. R. 2542
Proceedings thereon. The Board of Revenue authorize the Sale, for arrears of revenue, of the lands alluded to in the foregoing letter and direct the publication in their office of the advertisements forwarded by the Collector Monday the 15th Septr next being fixed for the day of sale.—

2. It is observed that some of the entries in the advertisements are hardly intelligible in consequence of too little space having been allowed in the column for writing the particulars of the land.—

Resolved that the following letters be despatched.—

Statement.

14588

Fort St. George 12th August 1856.—

Bd. No. 2536.—

465 Statement shewing the State of the Season in the undermentioned districts during the Month of July 1856.—

District and Date.	Rain fall.	State of the Crops and the Cultivation operation.—	Prices whether high or low falling or Stationary.—	Further Remarks.
May Nos 1841. Malabar 4th August 1856 in Cons: 12th August	The fall of Rain had been plentiful and continuous—	The Grain and Garden produce were very fair and promising— The Grain was chiefly in the year which was full and heavy— In some places the maddon upland Crops here been harvested, and the yield has been very good and much above the average.—	Had fallen Considerably.—	
May Nos 1842. Tinnevelly 5th August 1856. in Cons: 12th	Rain had fallen on the Hills but not in the plains—	The Cultivation under the Tambra-poorny and other rivers was promising— Wet grain had been extensively Cultivated, but	The same as in the Month of June	Paddy and Rice were being exported to Travancore.—
5.13	The Rivers had been in fresh and the Tanks and Channels dependant on Rivers had received a good supply of water. The Rain fell Tanks had received no supply	the Cultivation of dry grains such as Cholum, Raggy— Gingelly Oil Seed &c. had only been undertaken to a limited extent Sugar Cane and Indigo were also cultivated to a trifling extent— some of the Cotton Crops raised in last year, and which still remained on the ground were being gathered in small quantities.—		
May Nos 1873. Vizagapatam 4th August 1856 in Cons: 12th	There had been constant showers of rain during the month.—	The Cultivation of the early dry Crops was progressing— The indigo Crops has partially failed from badness of seed. The Gingelly Oil seed Crop was deficient from want of sunshine and dry weather— all the other Crops were good.—	Stationary—	
May Nos 1874— Ganjam 1st August in 12th	Rain had fallen but not throughout the district—	The transplanting of rice plants had commenced in many places Gingilly Oil seeds and other grains were in a thriving condition Sugar Cane promised to yield a good Crop.—	The price of the staple articles was stationary but that of rice had fallen.—

Proceedings of the Board of Revenue

Wednesday the 13th August 1856.—

498

Read the following Papers.—

Bd. No. 2994.

From the Chief Secy. to Government } Detailing the arrangements prescribed by Government for the management of that branch of the Revenue relating to the Collections from the Grass and Cowdung Contracts.

No. 903

Extract from the Minutes of Consultation in the Public Department Dated 5th August 1856.—

Read the following letter from the Chief Engineer.—

Submits an account Current of the Grass Lands and Cowdung Collections upto 30th April 1856, and states that the Promissory notes and Deeds of Contracts were forwarded to the Superintendent of Police before the receipt of Extract Minutes of Consultation of 29th Ultimo No. 622, Recommends that in future the cowdung Collections be made by the Superintendent of Police instead of the Collector of Madras and that both funds be retained by the former Officer and the accounts rendered by him Quarterly to the Sub Treasurer.—

/ Here enter 14th June /56.—

1. With the foregoing letter the Chief Engineer Submits an account Current of the Collections from the Grass and

and Cowdung Contracts and of the esependiture on repairs to the railings &ca of the esplanades closed apparently to the 30th April 1856 exhibiting on that date a balance of Rupees 5,067 10 11 in favor of Government. This balance it is stated would have been larger but for the default of the contractors in consequence of which the sums due on account of the Grass Contracts for three months of the period embraced in the account Current have not been received and credited No loss however is anticipated from this default as the Security deposited by the contractors will it is said meet all demands against them.—

February March and April.

2. The Government observes that as the contracts of Connea Lallah and Codeychund Lallah have been made through the chief Engineer the matter should be finally disposed of by him especially as the parties have failed to fulfil their engagements and that it was not necessary to have forwarded

to the Superintendent of Police the Promissory Notes and the deeds of Contract esecuted by them. These should therefore be recalled and retained in charge of the chief Engineer.—

Order 30th Octr 1855 No 2931 Military Department.

3. With respect to the Suggestion submitted in para 4 it is observed that when the Government authorized the charge of the esplanades being transferred to the chief Magistrate it was on the condition "that the contract for the grazing of the cattle thereon should be undertaken by the Collector of Madras it being an actual source of revenue in like manner as the contract for cowdung on the public carstand on the western esplanades" and "further that the repair expences should remain with the Engineer Department the Police being in future held solely responsible for the conservancy of the esplanades."—

Vide letter from the late chief Magistrate and Superintendent of Police to the chief Engineer Dated 7th Septr 1855 No 307.—

4. It appears however that subsequently under date 12th May last No 532 the Government at the Suggestion of the chief Engineer who had

had apparently overlooked the conditions of the transfer above noticed directed that the collections hitherto made by his Department should be in future made by the Superintendent of Police and that an annual statement of the sums realized on the above account and the authorized disbursements made therefrom should be submitted by him.—

5 Upon a Consideration of all the circumstances connected with the arrangements proposed by the chief Engineer the Government are of opinion that as suggested by the late chief Magistrate and Superintendent of Police the contract for the grazing of cattle on the esplanades should be undertaken by the collector of Madras and the collections made by him in the same manner as the contract for the cow dung on the public carts[illegible] and is managed by

by that Officer. The receipts from these sources should be brought to account like all other items of revenue and the Collector will merely submit for the information of Government in the Public Department an annual statement of the receipts on the above account and of the disbursements made therefrom.—

6. As the esplanades are under the charge of the Superintendent of Police all ordinary repairs to the Railings &c. should be executed when ever necessary under the directions of that Officer and advances for the purpose obtained from the collector of Madras upon his receipts the actual expenditure when within 100 Rupees being passed by the Civil auditor under the notification of the 9th May 1850. No 206 Financial Department whenever larger repairs may be required to the esplanades estimates for them should be submitted by the Superintendent of Police and on their receiving the sanction of Government the requisite advances

advances will be made by the Collector of Madras upon them from the funds in his possession and the actual disbursement if within the amount of the Sanctioned Estimate will be passed by the Civil auditor and adjusted in the Collectors' accounts.

7 The arrangements now sanctioned will supercede all existing ones and will be carried out at once.—

To
The President and
Members of the
Board of Revenue

/signed/ T. Pycroft
Chief Secretary

Enc. 1.

Public Department

Extract from a letter from the Chief Engineer
Dated 14th June 1856.—

Para 6. As these Collections from a Fund like some of the Local Funds in the Provinces and are applied to a special purpose, I would beg to suggest that the Collections in question be retained by the Superintendent of Police and

and that repairs to the esplanades whenever required be at once made by him and the surplus transferred quarterly to the Sub Treasurer instead of the present course of lodging the Collections monthly into the Paymasters Treasury and receiving advances therefrom upon sanctioned estimates whenever large repairs to the esplanades are required.—

I would further recommend for the orders of Government that the Cow dung Collections now being made by the Collector of Madras be hereafter made by the Superintendent of Police who will thus have not only the entire charge of the esplanades but will receive all the revenues derived therefrom Annual accounts current will of course be submitted

14601

Fort St. George 13th August 1856.

Submitted by that Officer to Government as directed in Extract Minutes of Consultation Dated the 12th May 1856 No 532.

14007 Fort St. George 13th August 1856.

P.3 4 In this paragraph you state that the Board do not clearly understand why you have in the 15th paragraph of my former letter represented the total Collections on account of the resumed Sotuntrums to be Rs. 29511 I only allow that half of it or Rs. 17831-9 is a Charge on the ryrasoodars, nor why when I take only half of the resumed Sotuntrums as a Charge on the Landowners I assume that they contribute the whole of the Collections made on account of the nat Curnum fund, or Rs. 30794. The Sotuntrums being deducted from the gross produce before it is equally divided between the State and the Landowner, the amount of the deduction must diminish equally the share of both parties, but as the State Collects the resumed sotuntrums as well as its own share of the net gross produce the diminution its share suffered by the deduction

i

is made good while at the same time it appropriates the amount of the diminution suffered by the Landowner's share. The State therefore not only receives its share of the gross produce without any deduction on account of the resumed sotuntrums, but credits itself also with the amount of the deduction made on the same account from the meerassdar's share. Supposing the gross produce to be ——— 100

and the resumed sotuntrums to be ——— 3

The remaining produce to be divided will be ——— 97

and the share of each party will be ——— 48½

so that, although the whole sotuntrum has been three Cullums, one and a half Cullum, or only half of it has been contributed by the meerassdar. From this I hope

hope that the Board will see that I was not incorrect when I stated that, although Pds. 295.11 were credited to Government half of that sum only was a Charge on the meerassdars.

5 The reason why I added the whole amount of the Rat Currums' fund to half of the resumed sotuntrums was, that the Rat Currumms fund is not a sotuntrum deducted from the gross produce before it is divided between the Government and the Landowner, but a charge upon the Cooly: currum alone. If the Board will refer to the 4th paragraph of my former letter, they will see that I there said that the Rat Currums were formerly paid by the meerassdars, and that on their payment being undertaken by Government in 1830, its amount was

was collected from the meerasdars, and added to the jumma of the district.-

6. The amount of revenue therefore which under the Board's orders, that all extra cesses should cease, it is proposed that Government should forego, is half the amount of the resumed soluntrums or Rupees 14,755, and the whole of the collections on account of the Mat Cannums fund, or Rupees 3079 4- the total being Rupees 17834 9, as before stated by me.-

P. 4. 7. The whole amount of soluntrum on account of the pagodas is Rupees 2353 7, and under the explanation offered above, it follows that half of it only, or Rupees 1176 8 is actually paid by the meerasdars. the remaining half is a deduction from the Government malcarum, the substitution for which of a fixed payment from the treasury, if the soluntrum be abolished, will have no effect whatever on the exchequer of the state-

P. 5 8. The amount payable on account of each soluntrum is not entered in the meerasdar's puttah, which contains only the aggregate demand, without specification

of

of how much of it is on account of the teerwah on the land, and how much on account of the resumed soluntrums. a form of puttah is enclosed for inspection in accordance with the Boards desire-

P. C. 9. When in the 6th paragraph of my former letter, I reminded the Board of the peculiar manner in which the grain beriz had been fixed in Tanjore, I referred to the aloongoo and tarum settled villages alike- if the Board will refer to the 17th paragraph of the Principal Collectors In Con. 7 June 30. letter dated the 25th May 1830, they will see that in introducing the tarum settlement, the aloongoo standard grain beriz was assumed as its foundation, any reference therefore made to the mode in which that standard grain beriz was fixed, must be applicable to the whole Province. When the aloongoo settlement was introduced, it was perhaps not customary for Collectors to report their proceedings to the Board in the same detail as they now do- general results were given, and the means by which they had been obtained were not always particularly described- I cannot therefore point

point to any particular reports explaining to the Board all the various steps that were taken to arrive at the standard grain beriz, but they are well enough known in Tanjore, and at the risk of being somewhat tedious, as the calculations are rather intricate, I will endeavour to save the Board trouble, by attempting to describe the plan that was followed by Mr. Cotton.

First. A gross grain amount was assumed by instituting a comparison between the four following quantities.-

Village of Vadatarogoody in Mannargoody

	Cal	m
1. Settlement of fusly 1229	1184.	8
2. Average of the two highest of the four amanny years from fusly 1210 to fusly 1213	1503.	"
3. The above average modified by deduction of 10 per cent.	1352.	10
4. The Dubeermooree or amount fixed by the Sirkele Dubeerpunt during the Rajahs Government	1705	"
Second highest assumed	1503	"

Second. The malwarum on the gross produce thus assumed was converted into money at the average price of the five years from fusly 1225 to fusly 1229, and the

the result having been tested by the four following rules, was adopted for the second process.-

1st. When the result shewed an increase above the beriz of fusly 1229. the latter was adopted, provided the increase was within 10 per cent.-

2nd. When the increase of the result above the beriz of fusly 1229 exceeded 10, but was within 20 per cent, the excess above 10 per cent was added to the beriz of fusly 1229, and the total was adopted.-

3rd. When the result exceeded the beriz of fusly 1229 by more than 20 per cent, half the amount of the whole excess was added, and the total adopted.-

4th. When the result was below the beriz of fusly 1229, it, or the beriz of F. 1230, whichever was the higher was adopted.-

Vadasarangoody in Munnargoody

Beriz of Fusly 1229		Beriz of Fusly 1230		Malwarum at 50 per cent on 1503. cal. cums converted into money at the average price of the 5 years from Fusly 1225 to 1229.		Comparison between Colum 1 and Col. 3 increase	Centage	Beriz assumed under rule 1st.
C.	F.	C	F.	C.	F.			C F.
190	9 11/16	175.	6 15/16	202,	1/8	11 7/16	5 3/4	190 — 9 11/16

14014. Fort St. George, 13th August 1856.

10. The two processes above described Board will find reference to in the Principal Collector's letter of the 8th of December 1821, in their own letter to Government of the 24th of December in the same year, in the Government's reply of the 11th of January 1822, and in the report on the settlement for Fasly 1232, and their proceedings thereon, but for a description of the final process of reconverting the money beriz into grain, I have not yet been able to find any record.

11. A money beriz of Chuckrums 190–9 11/16 having thus been obtained by certain calculations made in connection with the gross produce of fasly 1229, or columns 1184–8., the commutation rate being 3 31/32 Dft the money beriz was reconverted into grain at 3 Dft the cullum, the Cooderwaram was lowered from 54 to 50 per cent, and the grain beriz fixed at 1,421 cullums.

14015. Fort St. George, 13th August 1856.

Memorandoody.–

Vadias arangoody. ... Summabundy grain beriz of Fasly 1229. ...

Proceedings	Goods = warum	Goods = warum after deducting = ing 50 = tum.	Commutation = tion = price	Beriz as above in Statement No. 2.
1184	6	6	Dft.	
1184	54	4 81	3 31/32	190–9 11/16

Note. 190 Chuckrums beriz, reconverted into grain at 3 Dft the cullum produces 63 Scullums, which is the maluwaram deducting 50 per cent deducting Cooderwaram, or 1421 cullums, which was finally fixed as the woolloogoo adawaram.

The

Fort St. George, 13th August 1850

12. The gross produce of Fusly 1229 or 1184 cal: —8, was thus converted into money at the high prices of 3 31/32 Ds and then reconverted into grain at the low price of 3 Ds, and the result fixed as the sloongoo gross produce, as I stated to the Board in my former letter had been done on the introduction of the sloongoo settlement. But my assertion was within the fact, because by referring to the four rules which I have given above, as having been applied under the second process as tests to the money beriz, into which the gross produce obtained under the first process had been converted, the Board will find that an addition was always made to the money beriz of Fusly 1229 under the second and third rules, and sometimes under the fourth rule to that of fusly 1230, so that, while in all villages my former statement is true, that the money

Fort St. George, 13th August 1850

money beriz obtained under high prices was converted into grain at a low price, in many villages an addition was alsso made to the money beriz, before it was converted into grain.

Para 6. 13. At the close of the 6th paragraph of your letter the Board say that they are not aware why the introduction of a tarum settlement should be, as I had said I anticipated that it would be, more full of difficulties here than elsewhere. I will not put my opinion in opposition to the Board's, and if they are satisfied that Tanjore presents to the introduction of a tarum settlement no more than the ordinary difficulties, I admit the probability that I am wrong. Setting aside however the fact that the attempts hitherto made to introduce a tarum settlement have been considered as failures and anticipating that the instructions which

which the Board would give upon the subject would be so full and plain that no room for error would be left, it has certainly hitherto appeared to me, that the change could be even more difficult to effect now, than when it was formerly attempted - when the tarum settlement was introduced by Mr. Kindersley it was a novelty, and no man could tell by experience whether he should gain or lose by the change - in the five and twenty years that have passed, this experience has been gained, and I do not believe that any meerasidar who now holds under the woloongoo system, would consent to a tarum settlement, on the terms of that introduced by Mr. Kindersley - I request that the Board will refer to the 21st and three following paragraphs of my letter [illegible] of the 13th of February last - and they will perhaps see one cause why the meerasidars of woloongoo rented villages should object to a tarum settlement. But further in woloongoo rented villages, remission is granted by the crop being divided, when the produce falls below the

the standard to the extent of 30 per cent, while under the field assessment all remission is refused if the land produce ten cullums to the valy, the loss which is necessary before the claim can be allowed being, on an average produce of 150 cullums to the valy, about 94 per cent in the fields assessed to compare with 30 per cent in the woloongoo rented villages - But besides this, there is the great question of price - under the woloongoo rent the Meerassdar is certain that he can never lose more than 5 per cent by any diminution of price, and under past circumstances, and with future prospects, this is considered a far more tangible benefit than the prosspect of profit by prices rising more than ten per cent above the standard - In fusly 1251 - the current price was Rs. 1 — C. 23 3/4 per cent below the standard - in fusly 1252, it was Rs. 2 — C. 13 3/4 per cent below it, and in fusly 1258, it was Rs. 2 — C. 15 7/32 per cent - The whole loss in each year falling in

the

Fort St George 18th August 1856

the Meerasidars of tanum settled Villages while those under the woloongo rent were saved from the loss of all but five per Cent. The above are the chief reasons that have led me perhaps erroneously to believe that the completion of the tanum Settlement in Tanjore would be attended with more than ordinary difficulties.

para 7. 14 The dates of the correspondence regarding the alteration in the mode of paying the Nat Cummums for which the Board ask, I am not able to give because I cannot find that any correspondence ever passed upon the subject the change appears to have been carried into effect by Mr Cotton without reference to the Board and his order to the Tahsildar regarding it is the only thing on record Regarding the date of the Board's sanction to the system which now obtains of striking off land unfit for cultivation when renting the

Fort St George 13th August 1856

the Amany Villages I have to request that reference may be made to the 4th paragraph of the Board's Proceedings dated the 19th of August 1847 in review of the report on the Settlement for Fusly 1255 and to the 14th paragraph of their Proceedings dated the 15th of May 1851 reviewing the Settlement report for Fusly 1259 and contain explanations of the mode pursued in renting the Amanny Villages given in the 7th paragraph of the Collector's letter dated the 9th of October 1850. In the former the Board remarked with reference to the difficulties that had been experienced in renting the Amanny Villages that it would be advisable to exclude from the Dittum land which had been improperly included in the standard extent and quoted Sir Henry Montgomery's opinion that the main cause of the Meerasidars refusing to accede to the terms of the woloongo rent was, that land unfit for cultivation was included in the standard dittum and in the latter the Board express their conviction that the interest of Government had

had not been overlooked by the deduction made from the Puttum by the Collector of Land either unfit for cultivation or beyond the ability of the Meerasidars to retain. In Connection with this subject I may remind the Board that under the Wolcongoo System as administered in Tanjore generally the Settlement is made not as in Tanjore according to the standard Puttum but according to the cultivation only. -

para 8. 15 When the Wolcongoo System was introduced I believe that no very correct record was taken of the extent of two crop land the object mainly kept in view appears to have been to ascertain and record the gross produce of each Village and details were not inside our, at the survey of Fusly 1238 a correct record was made and the Board will find the Principal Collectors proceedings connected the assessment on two crop land detailed in the 42d paragraph of his letter of the 26th of May 1830. The Board appear to consider that the proportion of two crop land to the whole* Nunjah cultivation is very small considering that Tanjore is a well irrigated country they will however recollect

C. R.

* 3159 Values
† 107393 Values

recollect that water is not stored in Tanjore, that the cultivation is carried on from the rivers, and that when they cease to flow irrigation is for the season at an end. It is only consequently in the most western talooks, which the freshes reach the soonest, and leave the latest, that there is water to be had for a sufficient length of time, to make the rearing of a second crop practicable. If the river water were stored in Tanks, as is done in other districts the second crop would be irrigated after the rivers had ceased to flow and two crop land would probably be more common but we have no tanks in the Veerambum talook, and it would be a most unprofitable speculation to make them, as the expence on the land they would occupy, which must be foregone, would be far greater than any

pasul

Fort St George 13th August 1836

[illegible] that could be collected But besides the want of water there is not much land in the Province that would bear such ceaseless cropping. The soil of Tanjore is by no means a rich one and the meerasedars do not manure it. it will not compare with the soil of the Godavery delta and I am informed by those who have seen both. that the crops in Mannargoody and Chellumbrum of the taluks next district, are much heavier than ours.

Para 9

15 In this paragraph the Board desire to know the nature of the baghayet lands in Tanjore. whether they are irrigated by wells or channels, and what constitutes a baghayet. To give this information I believe I cannot do

Fort St George 13th August 1836

do better than quote from the 5th paragraph of Mr Hindersleys letter to the Board of the 26th of May 1830 "The assess-
"ment of baghayet in Tanjore has re-
"hitherto had reference, not to the
"situation of the land as denominated
"with respect to irrigation but to the
"nature of the crop. It has been
"understood to comprize all lands
"in which any of certain articles

Fort St George 13 August 1836

"as on garden ground" and Mr Kindersley then proceeds to detail the measures he proposed to introduce with the Tanum settlement; in supersession of the

P. 57. system he described. These measures were simply that, for the future. Such lands only should be assessed as baghayet, as had the means of artificial irrigation by manual labor, and that any crop except puddy, and any number of crops might be grown without any addition being made to the fixed baghayet assessment. These measures were entirely disapproved by the Board and the Government, in the 31st and following paragraphs of the Boards proceedings dated the 2d of May 1831 and in the 17th and 18th paragraphs of a letter to the Board from Government dated the 29th of November in the same year. The system introduced by Mr Kindersley has continued to obtain in all fields assessed villages, while the old system is followed in the wolungos rented talooks and in the villages grop settled, or rented for one year, both systems obtain, the old system

Fort St George 13 August 1836.

system being however the more general.

P. 10. 17. In the 3d paragraph of my former letter I said that, in fields assessed villages, the prescribed mode of giving remissions on unnjah land in unfavorable seasons, was to remit the demands on all lands left absolutely waste, and on that which had proved unproductive, adding that land was accounted unproductive only, when it yielded no more than ten cullums of grain to the valy and the Board desire to know if I referred to the average of a whole village and if not how it is ascertained that a fields has yielded no more than ten cullums of puddy to the valy. The Board will recollect that in the passage of my letter referred to I was speaking of the mode of granting remissions in fields assessed villages and that therefore, what might be the "average of the whole village" could not enter into the question. In fields assessed villages when remissions are needed they are granted by remitting the

Fort St. George 13th August 1856

"as on garden ground" and Mr. Kindersley then proceeds to detail the measures he proposed to introduce with the tarum settlement, in supersession of the

P. 57. system he described. These measures were simply that, for the future, such lands only should be assessed as kayhuyet, as had the means of artificial irrigation by mannal labor, and that any crop except puddy, and any number of crops might be grown without any addition being made to the fixed kaghuyet assessment. These measures were entirely disapproved by the Board and the Government, in the 31st and following paragraphs of the Boards proceedings dated the 2d of May 1831 and in the 17th and 18th paragraphs of a letter to the Board from Government dated the 29th of November in the same year. The system introduced by Mr. Kindersley has continued to obtain in all fields assessed villages, while the old system is followed in the wolungos rented tanks and in the villages not settled, or rented for one year, both systems obtain, the old system

Fort St. George 13th August 1856.

system being however the more general.

P. 10. 17. In the 34th paragraph of my former letter I said that, in fields assessed villages, the prescribed mode of giving remissions on unnjah land in unfavorable seasons, was to remit the demands on all lands left absolutely waste, and on that which had proved unproductive, adding that land was accounted unproductive only, when it yielded no more than ten cullums of grain to the valy and the Board desire to know if I referred to the average of a whole village and if not how it is ascertained that a fields has yielded no more than ten cullums of puddy to the valy. The Board will recollect that in the passage of my letter referred to I was speaking of the mode of granting remissions in fields assessed villages and that therefore, what might be the "average of the whole village" could not enter into the question. In fields assessed villages when remissions are needed, they are granted by remitting the

the demand on all uncultivated land and on all that producing less than 10 cullums to the valey. the district terms being tarus and Natapal. It signifies nothing to the meerasidar, who having some high land has been unable to irrigate one part of it at all, and able to irrigate another part so scantily, that the produce is less than the seed he sowed, that is more fortunate neighbours have, on their lower lands, raised abundant crops. and there would be no justice in refusing him remission, because the average of the whole village, was greater than would bring its lands within the established rules. each meerasidar's case stands on its own merits, and if remission be necessary, it is given, as explained above, by remitting the demand on each field, or number, either waste or unproductive. all land being classed as unproductive, if yielding less than 10 Cullums to the acre.

18. When a claim for remission is made the land for which it is made is examined by the Curnums and Puttamanigars,

who

who make their report to the Tahsildar, stating what in their opinion is the quantity of grain produced. further estimates are made under the Tahsildar's order, by the Peshcar or Sist Curnum, and a report is made to the Collector, from whose office sanction for the remission is given, if the scanty produce be satisfactorily accounted for, or a trustworthy servant is sent to make another examination and estimate. The Board must be aware that not an acre of any amanny village is ever reaped without three or four estimates of produce being previously made, and that therefore the practice of estimating standing crops is one with which the servants of Tanjore are more or less familiar.

The Board desire further to

19. know on what data I supposed that ten cullums of grain was the quantity annually expended for sowing one wely of land. The Collector of Tanjore has every year to conduct the estimation of some thousand acres of land in the amanny villages, and experience has shewn that the quantity of grain I specified, was that annually required for seed. but the

Fort St George 13th August 1856

the matter is one of notoriety, and it is not possible to have intimate intercourse with the meerasdars, without learning these rudiments of the expenses of cultivation. If the Board will refer to Mr Wallace's report to them of the 8th of June 1810, they will see that in the 12th paragraph, he also represents the seed required for a wuly to be ten cullums, and the other expences of ploughing, sowing, transplanting and weeding, to be ten cullums more.

20- At the end of the 10th para of your letter I am directed to inform the Board what is considered a fair crop in cullums for a car, and what for a peshanum crop, and also to state the average selling price of each during the past or present fusly- The only means at my disposal of saying with any accuracy what is an average crop, is to state what has been

Fort St George 13th August 1856.

the outturn on the Amtamy Villages, and that, for thirteen years, from Fusly 1250 to Fusly 1262, both inclusive, I find to have been as follows:-

Statement

14634

Fort St. George

13th August 1856

Statement shewing the annual average Cuddapacar and Sumbapesh per annum produce per valy. with a comparison between them, in the amany villages of Tanjore from Fusly 1250 to Fusly 1262.

Fort St George 13th August 1856

21 I must at the same time remind the Board that the among villages never afford the best specimens of cultivation, and that the average given above is probably somewhat below the average of the whole pro: vince. The Summahbandy price, as the Board is aware, is not fixed until after the village returns up to the 20th of May have been re: ceived, so that I cannot state the prices of this year, and as in last year they were un: usually high, it would not afford the Board any know: ledge of the average value of produce, to state only the prices that ruled in the year you have named. In the ten years, from Fusly 1254 to Fusly 1263 the following have

Fort St George 13th August 1856

been the rates at which grain was sold.

Fusly	Average prices for November, December & January for Cadapacar		Average of prices from February to 20th of May for Sumbapeshanum	
1254	3	15 3/4	3	12 5/16
1255	4	3 1/8	4	22 1/2

Average	3	7 11/16	3	16 13/16
1264	5	17 1/2	not fixed	

Para 11 22 In this paragraph you say that the Board conclude that my remarks and figured statements in paragraphs 35 & 37 of my former letter, refer

refer to Cadarumbum villages, and that they are inapplicable, in consequence of the orders passed by the Board on the 29th of last March - but, if the Board will again refer to my letter they will find that in paragraph 35, I said that "no "remission is allowed in Tanjore on "poonjah or bagayet land left waste in "Neerarumbum villages," and that I added a statement to shew the large proportion of dry and garden lands in some villages, and also, that, in the following paragraph, the 36th, I admitted that the cases I had adduced were exceptional, and that I therefore added another statement, still of Neerarumbum villages, to shew in classes, the percentage of dry and garden land, on wet. In paragraph 37, I did not specify Neerarumbum villages again by name, but I submit that the context of the passage shews sufficiently, that I was continuing the

the same subject that I had treated of in the two immediately preceding paragraphs, in which no allusion whatever was made to Cadarumbum lands.

Para 12 23 In this paragraph I am desired to say if the Board are from the 39th paragraph of my former letter, to understand that, in Molongoo settled villages, where lands produce some 300, some 200, and some 150 cullums to the valey, the meerasdar who holds 50 valies of one, pays exactly the same as he who holds 50 valies of the other; whether this average rate applies to tarum settled villages, what kind of land I referred to as unfit for cultivation, and what land I meant when I spoke of the average rate of assessment. In that part of my letter to which these questions refer, I was speaking of the system which obtains in the Molongoo rented and gross settled villages, and in those rented for one year, of adding permanently to the

ditium

Fort St. George 13th August 1856.

ditium all extra cultivation, and of never deducting land which might be unfit for cultivation and I accounted for the practice by saying that, as the gross grain beriz only had been fixed, and had not been distributed on the fields, a deduction from the demand on account of unfit land, could, it was supposed, be given only, by a deduction at the average rate of the assessment on the whole village. just as extra cultivation is assessed at the average rate; If in the village of A, containing 50 valies of wet land, assessed in the gross at 7,500 cullums, a meerassdar undertakes to cultivate 5 valies of hitherto uncultivated land, the average village assessment at 150 cullums the valy. or 750 cullums, is demanded on it, and on the same principle it has been supposed that, if in the same village 5 valies of unfit land were to be thrown up, a proportion of the gross assessment at 150 cullums

the

Fort St. George 13th August 1856.

the valy. must be remitted and this has been hitherto objected to, because, as I attempted before to shew the Board, the average of the village being 150 cullums the valy. the proportion contributed by the worst land, that namely which would probably be thrown up will be something less, and the Government would be sacrificing a greater proportion of the gross beriz of the village, than the particular land thrown up had contributed. In talking of the wolongoo system it must always be kept in mind that, when it was introduced it was the gross produce only of the village that was supposed to have been ascertained. whether in a village of 50 valies, that gross produce had been obtained by large returns from 20 valies, moderate returns from 20 valies, and small returns from 10 valies, or whether it had been obtained from an equal return on each of the whole 50 valies, was not at all ascertained,

a

Fort St. George 13th August 1856

a knowledge of the gross produce of the village was all that was sought, and the division of the gross assessment among the meerassdars was left entirely to themselves. I did not in that part of my letter now under question intend the Board to suppose that the meerassdars holding land which returned 150 cullums to the valy, paid the same teerwah, as he who holds a similar quantity returning 300 cullums to the valy; all the land in a wolongo rented village is classified (by the meerassdars themselves) according to its fertility and means of irrigation, and is divided into shares or pungoos. Each pungoo containing land of every class. every meerassdar therefore according to the number of shares or pungoos he possesses, has, generally speaking, an equal proportion of good and bad land, and all can equally afford to pay the rent according to the village average. I say, generally speaking, because some differences may in course of time have arisen in the value of land from good and bad farming.

In

Fort St. George 13th August 1856

24 In reply to the Board's second question, of, whether "the average valy rate applies to tarum settled villages", I would remark that it does, as far as regards the gross settled villages, and villages rented for one year, as I have already said in the 39th paragraph of my former letter, but not as regards field assessed villages. The Board are no doubt aware what these different denominations mean. When the field assessment was introduced by Mr Kindersley, he reported his proceedings to the Board from time to time, and as a difference of opinion arose regarding the propriety of his measures, he was directed to stop all further proceedings, although the Board and the Government declined to rescind any part of the settlement that had been already made. When these orders reached him, Mr Kindersley had already fixed the tarum on a large number of villages, but had not distributed it on the fields, (and it was on this point of fixing the village beriz first, and then dividing it on the fields, instead of

fixing

fixing the beriz on the fields, and thus arriving at the village beriz, on which the great difference of opinion arose), and the Board directed that these villages should remain as they were, and they have ever since been known as gross rented gross beriz fixed - or notumfyesul villages - Mr Pinderskey in the mean time addressed the Board in reply to these objections to his settlement, requesting to be allowed to complete it, and did actually continue to fix the tarum on a further number of villages. the Board however adhering to their determination, the settlement was brought to a stop, and this second batch of villages has ever since been denominated, "rented for one year", or ikkal ejarah. both have continued to pay the teerwah fixed by Mr Pinderskey, which is unaffected by current prices, but they can claim no remission on account of waste and unproductive land, as can the fields assessed villages, and if their produce be short, they come under a division of

the

the crop, as do villages wholly rented, and pay for half of the actual produce according to current rates. I need not detain the Board long in replying to their third question. When speaking of land as unfit for cultivation I preferred to such as, from changes in the irrigation, received more than its due supply of water, and being very low, could not be drained, so that no crop could be planted on it. to such as, owing to rivers breaching was too full of sand to be productive, to such as, from circumstances had become too much impregnated with salt to be of any value, and to such as, at a very little depth was found to produce Cuss Kunker. I hope I have already above succeeded in explaining to the Board what I meant in speaking of the average rate of assessment. I used the expression when recommending that a deduction should be allowed from the demand in wholly rented villages, on account of land wholly unfit for cultivation, and I limited the recommendation to one half of the average assessment because it was obvious that, as bad land had never yielded an average share of the whole village produce, it was not entitled to a deduction at an average of the whole village assessment.

The

Fort St George 13th August 1856

Para 13.

25 The last question put to me refers to the commutation price, and I believe that the following statement contains the information required. but I must inform the Board that the Jummabundy average of $3\frac{2}{3} - 3\frac{6}{32}$ is not, as they appear to suppose, the average of the standard price of all the 114 maghamums, but is obtained by commuting the mailvarum grain of each maghamum, into a money heriz according to the standard price, and then dividing the total heriz of all the maghamums by the total mailvarum grain.

Standard price		No. of maghamums in which the price in column 1 obtains.

Bd No 2035

From the Collector of Trichinopoly

Fort St. George, 13th August 1856

No 94.

To G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George.

Sir,

I have had the honor to receive your letter No 1629 of the 29th Ultimo, calling upon me to explain how it is that the Cutlay levy is collected in direct contravention of my Statement made in the 19th paragraph of my letter of the 25th October 1854 No 102.-

2. I beg to submit that, the extra imposts on account of Sadelwar there mentioned are very different to the Cutlay levy now under consideration. The former was one of those impostsamounting to 6¼ per Cent on a Ryots' holding added to his land tax, inserted in his puttah and collected from him for the benefit of the Government. Whereas the "Cutlay Shellavoo" or levy is as I have explained in my letter of the 5th April a trifling amount, entered in the Puttah in some Talooks, and not in others, collected by and paid to the Curnums for their expenses incurred during the annual

Settlement

Fort St. George 13th August 1850

Settlement and in keeping the accounts.-

3. When the Curnums of the District get a fixed salary this Cutlay levy may be discontinued.-

Trichinopoly.....
Collector's Office
3d June 1850.

/Signed/ I. Bird.-
Collector

Bd. No. 2545.
Proceedings thereon
505-506

The Board are of opinion that the Cutlay Shellavoo, which is a charge upon the ryots over and above the rent on their lands and is exactly one of those Extra cesses which Government intended should be discontinued should be abolished entirely; and the Collector is requested to adopt the necessary measures for discontinuing its levy altogether.-

To, G. S. Forbes Esqre
Secretary to the Board of Revenue.
Fort St. George.

509

Bd. No. 2768.

From the Collr. & agent to the Govr. in Vizagapatam.-

Sir,

In compliance with the instructions conveyed in the Extract Minutes of Consultation of the 10th May, I have the honor to state that orders were immediately issued to stop the manufacture of Salt at the Nellimookoo Cutaur one of

States that the manufacture of Salt at the Nellimookoo Cutaur had been immediately stopped agreeably to Extract Mins. Cons. of 10th May and suggests that an uncovenanted assistant be appointed for the suppression of illicit manufacture of Salt and the expenditure of

of a few thousand Rupees in order to collect the legitimate revenues of Government.

of the two Stations proposed to be abolished. At Curaipsah no manufacture had been made in the course of the present season.

2. The Salt in store at Carrassah on the first of July may be taken at 74,880 maunds. At Nellimookoo the old Salt on hand is 33,240 Maunds and the probable amount of this seasons manufacture is 15,000 Maunds more. At the average previous rates of sale it will take 18 months to dispose of the Stock remaining at Carassah. The quantity on hand at Nellimookoo will possibly be disposed of in twelve months from the present date.

3. The greatest quantity of Salt ever heretofore manufactured at Coopilly and Conadah has not exceeded 55,000 maunds in each Cotaur or little more than half the amount which it is now desired to store there for the use of the District. To ensure a large manufacture in the present season every possible exertion was used, but owing to the heavy rains in the months of February, March April and May the aggregate

manufacture

manufacture does not exceed 34,000 Maunds. The manufacture in the preceding year had in like manner fallen greatly short of the estimate required by reason of the unseasonable falls of Rain in the season, when alone Salt can be made.

4. As it is proposed to retain these two Pans only and to manufacture there sufficient Salt for the supply of the whole District a reference has been made to Mr. T. I. Knox who is in charge of this Department. His letter dated the 25th June is herewith forwarded. It will be seen from Mr. Knox's report that there is no hope of manufacturing any thing like the quantity of Salt * estimated to be required from Coopilly and Conadah without an outlay of about 4,500 Rupees, and even with that disbursement Mr. Knox thinks that difficulties would occasionally arise which would prevent the manufacture, and that the Salt could not be had at Conadah for at least two years.

* 200000 maunds

5. The average Sales in this District from Fusly 1261 to 1265 have been 168,790 Maunds. In 1264 and 1265 much more would have been sold if there had

had been a supply on hand at Coopilly, but the manufacture there in the two last years has been singularly small and the whole was sold in the first six months. There is a great demand for Coopilly Salt by traders frequenting Chicacole and a large portion of the increased supply will be exported to Nagpore.

6. Thus even supposing that 2,00,000 Maunds be produced there is little likelihood that this will suffice for the supply of the population of this District, and Vizagapatam will be exposed to great risk of an entire want of Salt, in the event of any unexpected failure of manufacture nor do I see how, as it is desired, a two years supply is to be at all times in store. For there is no provision for a stock in hand.—

7. Coopilly and Conadah are in the North East corner of this District. In the event of Carafsah and Nellimookoo being abolished as Cotaurs, the nearest Pan to Conadah to the South will be Pittapoor in Rajahmundry; and the population South of Vizag will be sans without the establishment of Depôts in some

some convenient spots, be driven to illicit manufacture to supply their wants.

8. The Carafsah Pans situated in the swamp adjoining the Town of Vizagapatam produce a Salt of a very inferior quality. I fully concur in the propriety of their suppression. Nellimookoo Salt is better in quality. The station is ten miles South of Vizagapatam and the sales now average 50,000 Maunds annually. If Carafsah Cotaur be suppressed the sales at Nellimookoo under proper management would be doubled.

9. In lieu of the Sketch establishments shewn by Government for the two Cotaurs of Coopilly and Conadah, I would suggest the following, retaining Nellimookoo. The arrangement would only entail an excess expenditure of Rupees 70—8—0 a Month

No.

No.	Designation.	Nellimookoo No. of men	Nellimookoo Amount	Coopilly No. of men	Coopilly Amount	Total No. of men	Total Amount
1	Superintendent	1	100 " "	1	100 " "	2	200 " "
2	Peshcar	1	15 " "	1	15 " "	2	30 " "
3	Shroff	1	10 " "	1	10 " "	2	20 " "
4	Duffadar	1	6 " "	1	6 " "	2	12 " "
5	Peons	16	64 " "	16	64 " "	32	128 " "
6	Doorgapoloo	2	5 " "	2	5 " "	4	10 " "
7	Saderwared	"	5 " "	"	5 " "	"	10 " "
	Total	22	205 " "	22	205 " "	44	410 " "
	One Hoozoor Goomastah					1	20 " "
	Deduct						430 " "
	Amount already Sanctioned						359 8 "
	Net Increase						70 8 "

10. But if the Government still desire the suppression of the Nellimookoo Cotaur and the substitution of the plan of Mr. Walter Elliot in its entirely, immediate measures should be concerted for improving the Pans at Coopilly and Conadah for without a considerable outlay at both these Cotaurs, the manufacture of Salt cannot be much increased.-

11. Besides the frauds necessarily arising from the insufficient Pay of the Servants

Servants now in charge of the Salt Pans noticed by Government, there is a vast extent of illicit manufacture of earth Salt, as well as of Salt spontaneously produced in many places in this District and this illegal traffic will in my judgment increase if the supply of Salt is confined to the two Pans of Conadah and Coopilly only unless an establishment be organized with some responsible Head for its suppression. An uncovenanted assistant like the Officer attached to the Madras collectorate is greatly needed to visit the Pans during the period of manufacture and storing, and generally to move about detecting and suppressing the smuggling of Salt and its illicit production.- If as it is calculated little more than half the quantity of Government Salt is sold in these Districts that the population actually consume, surely it would be a wise policy to expend in each District a few thousand Rupees annually, if only for an experiment beyond the present expences of the Establishment to endeavour to obtain the legitimate revenues of Government.-

Under

Fort St. George 13th August 1850

12. Under any circumstances the new arrangements cannot come into operation for 12 Months from this date, until the stocks in hand at Carrafsah and at Nellimookoo are disposed of.

Vizagapatam,
Colls. & Govt. Agents Office
11th July 1850.

(Signed) P. B. Smollett
Collector.

No. 1.

To
P. B. Smollett Esqre
Collector and Agent to the Governor
Vizagapatam.

Sir

1. In answer to your communication forwarding proceedings from the Commissioner Northern Circars dated 19th May 1850. I have the honor to state that as soon as the weather permitted I proceeded to the Salt Stations of Coopilly and Conadah, and I endeavoured in every way to acquire accurate information regarding the matter on which I was required to report.

2. Before entering into details I would bring to your notice that the quantity of Salt entered in Para 5 of the Minutes of Consultation for consumption in this District

is

Fort St. George 13th August 1850.

is totally inadequate if the population of the District is numerically considered. I have no means of knowing the amount of Salt the 4 other Districts under the Commissioner Northern Circars may export yearly but with the largest population Vizagapatam is allowed the smallest quantity of Salt.

3 If 18 lbs is a fair allowance per annum for each individual, with a population of 12,55,000 Souls we require a yearly of 2,76,000 I. Maunds, or 2,300 Garces, whereas 1,666 Garces or 2,00,000 I. Maunds are proposed, and I have no hesitation in saying that the illicit Salt trade in this District will never be kept under till there is an ample supply of Government Salt which there is not now, and has not been for years very much because the two stations from which it is now proposed to supply the whole District have not once in the last 18 years produced the share of the whole supply that was allotted to them.

4. I was very anxious in November when arranging about the manufacture now completed to secure at least 700 Garces from these stations and the outturn will not be more than 300 Garces, this season has however been very unfavorable.

5. I may also here remark that the

Salt

Salt at Coopilly cannot be sold fast enough to the Merchants who come from Chicacole in the Ganjam District and the bridge just finished will greatly facilitate a trade which must increase tenfold if their own proper Station at Woomaravilly is to be abolished.

6 The question now is whether these Pans, hitherto so uncertain and unproductive can be made to produce from 1,888 to 2,300 Garces and that before June 1857.

7. The Comadah Darogah reported to the Commissioner Northern Circars in 1853 that the productiveness of his Pans could be greatly increased and secured permanently at an outlay of Rupees 2,000 which would fix the yearly supply of Salt at 1,000 Garces. With the sum he proposed first to enlarge very greatly the reservoir for supplying with Sea water the present Pans, the cost would be about Rupees 500, and this expense I think must be incurred at any rate, and I was anxious to effect it last year.

8. He then proposes to excavate 3 large reservoirs, to level and lay out the necessary Pans and to raise suitable platforms.

His

His estimate, as far as I can judge, is very fairly made; but I doubt very much the scheme answering, because it rests on the high tides in October filling these 3 new reservoirs. The rains that might fall in November would in my opinion seriously affect the chemical properties of Sea water in reservoirs from 3 to 6 feet deep, of course it is easy to arrange that every high tide should reach these reservoirs by deepening the supplying channel, but the expense would be greatly increased. I will not enter however into further details, for I think the proposed plan of reducing the number of Salt Stations cannot possibly be effected this year, because that newly made Pans hardly yield any Salt the first year and very little the second, and the uncertainty as to what they might produce is so great that the supply of a necessary of life for a large population during 2 years must be drawn from some surer source, and this delay necessitates the maintenance of the present System.

9. In Coopilly the supply of Salt water is abundant, and at an expense of Rupees 2,100 for making new Pans and platforms for the increased quantity made 800 Garces could assured be produced each year.

10 All enlargements in any year must be effected

Fort St. George, 13th August 1856.

effected before the month of November as in December preparations for the manufacture are commenced, I can supply more detailed estimates as made in 1853 if required, but no very accurate estimate can now be made, the country being under water.

11 Allowing for sundry expenses such as additional shelter and roads for purchasers, I am of opinion Rupees 4,500 will be required to make the Conadah and Coopilly Salt Pans able to produce Salt sufficient for the District say 1,800 Garces but there is no certainty of their producing this quantity till the 3rd year, after the necessary enlargements have been made by which time Mr. Plowden's report may effect some change and I may be allowed to notice that more inconvenient places for the whole District to resort to, could hardly be chosen. In rainy weather Conadah is almost inaccessible there are neither roads for Bandies nor Bridges nor ferry boats for travellers, and I believe that sooner than travel to the Government stores at Conadah or at Curtapah in the Rajahmundry District a Distance in either case of 50 miles, a resident in the Surwasiddy Talook on the Southern parts of this District will be ready to buy from the illicit dealers whom, if there is a market open, no Police can ever effectually control.

B. No. 2894
From the Collector
of Tinnevelly

Sir,

I have the honor to forward a Statement shewing the names of 372 persons against whom there is a demand of Rupees 538--2 on account of Moturpha tax due by them for Fasly 1264, and to request you will be good enough to furnish me with the necessary Sanction for the sale of their moveable property mentioned in the Statement now under attachment, the value of which, it is reported by the Tahsildar would be equal to the amount due by them.

2 There is not the slightest probability of these parties paying the demand against them till they see that their property will really be sold, if they still persist in their present course.

Tinnevelly
Collector's Cutcherry
23rd July 1856

(Signed) J. Silver
Collector

536
Bd. No. 2560.
Proceedings thereon. Submitting explanation with respect to the arrears of Land Revenue outstanding in certain Districts up to the Close of Fusly 1264.

Read also again Extract Minutes Consultation dated 5 and entered in Consul= tation 23 May 1856.

On receipt of the first Extract above recorded the Board applied to the Acting Accountant General for a list of the Districts in which the balances entered in his Abstract had accrued and for other particulars.

2 The arrears shown by the State= ment which he furnished in reply amount= ed to Rupees 3,60,714 as previously stated by Government and explanation was sought regarding the nature of this balance from the districts in which it had accrued in the mean while however the operations of Fusly 1264 and the remissions sanctioned during the year materially reduced the amount requiring explanation, and upon the further receipt of the second Extract Minutes Consultation above recorded forwarding another abstract (for Fusly 1264) from the Acting Accountant General, other particulars were called for from that Officer and his reply being now before the Board they proceed to compare

Compare his statement with the information furnished to this Office from the several Districts.

3 By a statement drawn up in the Boards Office from the Demand Collection Balance Statements on Record the Balance at the end of Fusly 1264 appears to be Rupees 1365088 and not 1576996 as shewn in the Abstract and Statement of the Acting Accountant General. The difference between the two statements is distributed over the arrears of the different districts in the manner shewn in the annexed Memorandum and is explained as follows.

Districts.	According to the Accountant General's Statement.	By the Boards Statement	Increase	Decrease
Vizagapatam	15491	9907	"	5584
Rajahmundry	80796	80976	180	"
Masulipatam	1,17,832	2,71,713	"	17,6119
Nellore	94811	96708	1897	"
Kurnool	33,003	17,638	"	15,365
South Arcot	21,204	21,293	89	"
Tanjore	180859	1,65,339	"	15,520
Madura	5229	3723	"	1,506

4 The increase in Rajahmundry was caused by Rupees 180 being included in the Acting Accountant Generals Statement which the Tahsildar had collected under a mistake this amount was ordered during the Settlement in Fusly 1263 to be remitted and was subsequently retained as a balance under direction from

from the Board, In Nellore the excess arises from the omission of the Acting Accountant Generals Statement of the Stalled Cummum Rossoomes which amounted to Rupees 1818/- In South Arcot it is owing to certain discrepancies between the two Statements in the Balances shown for Fusly 1250, 1257 and 1256 to 1259 the amount now entered Viz. Rupees 89 is the net result of those discrepancies. The Sums entered under the head of Decrease are accounted for as follows.-

5 In the accounts of Vizagapatam the balance of Peishcush of Fusly 1257 has been retained in the Acting Accountant Generals Statement though realized in Fusly 1264.—

6 In Masulipatam the accumulated arrears from Fusly 1248 to Fusly 1260 amounting to Rupees 17,119 should have been written off in the Acting Accountant Generals Statement as remitted in Fusly 1264 instead of which they still appears as a balance.

7 Of the difference of Rupees 15,365 in the account for Kurnool Rupees 15,362 appear in the Acting Accountant Generals Statement as the Ryotwar balance of Fusly 1250; the Boards list does not shew this arrear because it was reduced by Collections and remissions to Rupees 5096—10 at the close of Fusly 1254.-

and

and subsequent collections and remissions were made until no part whatever of it stands as a balance in the accounts of Fusly 1257.-

8 The amount of Rupees 15520 shown against Tanjore appears to be the rented balance of Fusly 1249 which by subsequent remissions and Collections particularly in Fusles 1255 and 1261 entirely disappeared from the accounts so that the Boards statement exhibits no balance for any Fusly upto 1249.-

9 In Madura the Excess of Rupees 1506 is composed of Rupees 1296 the Peishcush balance of Fusly 1261 which has been recommended for remission, and Rupees 209. of the Ryotwar Balance of Fusly 1259 which the Collector explains is nominal in asmuch as this amount was porcupor or quit rent collected from certain Villages and subsequently under the orders of the Board, made over to the Sorroomhoor Devastanum and accordingly deducted in the annual abstract of Collections and disbursements submitted to the Accountant General for Fusly 1259 but which was reincluded afterwards in the accounts by desire of that officer "in order that the aggregate might correspond with the Quarterly abstracts".

10 In the earlier Extract quoted the

Board were called upon to explain the nature of the arrears exhibited specifying whether they were composed of Ryotwary alone or whether they included Zemindary and other balances also the Board observe that the arrears are whole on account of Land Revenue, and that of the total amount of Rupees 1365068. the balance on account of Peishcush was Rupees 115745 and the remainder Rupees 1249623 were the Ryotwar arrears.-

11 Subsequent to the period at which the Acting Accountant Generals statement closes Collections have been made and remissions granted* to a considerable extent leaving the Balance due on account of Peishcush Rupees 40033 and Ryotwar Rupees 798284. making a total of Rupees 838317.-

*Calculated upto 31st Jany 1856

12 Adverting again to the orders of Government above quoted enquiring what portion of the balances was fairly recoverable and what portion it was expedient to relinquish. the Board observe that in their General Report for Fusly 1264

To Govt. 23d. July 1856. further remissions have been recommended on account of deaths desertions poverty and other causes amounting to Rupees 21413 which if sanctioned will reduce the balance

to

and subsequent collections and remissions were made until no part whatever of it stands as a balance in the accounts of Fasly 1257.-

8 The amount of Rupees 15520 shown against Tanjore appears to be the rented balance of Fasly 1249 which by subsequent remissions and Collections particularly in Faslies 1255 and 1261 entirely disappeared from the accounts so that the Boards statement exhibits no balance for any Fasly up to 1249.-

9 In Madura the Excess of Rupees 1506 is composed of Rupees 1296 the Peishcush balance of Fasly 1261 which has been recommended for remission, and Rupees 209 of the Ryotwar Balance of Fasly 1259 which the Collector explains is nominal in as much as this amount was poroupos or quit rent collected from certain Villages and subsequently under the orders of the Board, made over to the Sorroomhoor Devastanum and accordingly deducted in the annual abstract of Collections and disbursements submitted to the Accountant General for Fasly 1259 but which was reincluded afterwards in the accounts by desire of that officer "in order that the aggregate might correspond with the Quarterly abstracts".

10 In the earlier Extract noted the

the Board were called upon to explain the nature of the arrears exhibited specifying whether they were composed of Ryotwary alone or whether they included Zemindary and other balances also the Board observe that the arrears are whole on account of Land Revenue, and that of the total amount of Rupees 1365068, the balance on account of Peishcush was Rupees 115445 and the remainder Rupees 1249623 were the Ryotwar arrears.-

11 Subsequent to the period at which the Acting Accountant General's Statement closes Collections have been made and remissions granted* to a considerable extent leaving the Balance due on account of Peishcush Rupees 40033 and Ryotwar Rupees 798284 making a total of Rupees 838317.-

*Calculated up to 31st Jany 1856

12 Adverting again to the orders of Government above quoted enquiring what portion of the balances was fairly recoverable and what portion it was expedient to relinquish, the Board observe that in their General Report for Fasly 1264

To Govt. 23d July 1856. further remissions have been recommended on account of deaths desertions poverty and other causes amounting to Rupees 214134 which if sanctioned will reduce the balance to

how little more than Six Lacs of Rupees and those arrears as being at present either doubtful or recoverable the Board propose to reserve for remarks in their future Reports or as occasions may require under the explanations of Collectors.

Government
Sir

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes Consultation dated 5th July 1836 No. 157 Public Department calling upon them to furnish such information as the records of their Office may afford regarding

regarding the cause of Apparoo Moodelly's being without employ for 2 years in Tanjore and one year in Tinnevelly during his period of Service..

2 In reply I am desired to report that the Boards Records have been searched and the following particulars traced with regard to the break in this individual service.

3 From a return from Tanjore of persons charged with offences under Regulation IX 1822 for the Month of October 1827 it appears that Apparoo Moodelly was suspended on the 30th May preceding charged with committing frauds in the Maramut department and receiving bribes from the workmen employed in it and the Merasseidars. The result of this trial cannot be ascertained although a careful search has been made. The statement alluded to is forwarded herewith.

Dy 27th March in Con. 3d April 1828.

4 In a return from Tinnevelly of Public Servants suspended or dismissed from 1st January to 31st March 1826 the following entry appears against the name of Apparoo Moodelly.

"Suspended for one year for palpable supineness and apparently criminal connivance in allowing the escape of one of the ringleaders deeply

Dy 28th April & 7th May 1836.

deeply implicated in more than one of the gang robberies committed in the vicinity of Kodiem Village in his (Bramadasum) Taluk."

5 This return from Tinnevelly is also submitted herewith..

6 A copy of this letter has been communicated to the Collectors of Tanjore and Tinnevelly for their information..

B. No. 2609. To Henry Ricketts Esqr. Inform. 14 Augt. 50

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 6th May 1850 requesting to be furnished with Memorandum showing the powers exercised by each class of Officers European and Native under the Board the powers of the Board and the cases which they cannot dispose of without reference to the Government.

2. In reply I am desired to observe that in a Statement forwarded from this Office to you through the Government under date the

the 14th June 1850, a detailed account was furnished shewing the powers and duties of the Board of Revenue. A similar Statement is now under preparation here relating to the duties of the Covenanted Civil Officers in the provinces which will also on completion be transmitted to you through the Government as required by that authority.-

3. As regards the Native Subordinates, Officers in the Provinces I am directed to forward to you herewith a Memo shewing the duties performed by each of the more important classes. There are other Miscellaneous Offices which are not specified in this list but are included in the one which accompanied my letter of the 13th Instant.-

4. On a recent occasion Mr. Stokes, who was appointed by Government specially to revise the Madras Revenue Code drew up a report "on the Laws regulating the powers and duties of the Revenue Officers in the Madras Presidency." This report has been printed by Government with others from the same Officer, in a folio volume a Copy of which is forwarded herewith, and I am instructed to refer you to page 57 for the report in question in which you will find a complete summary of the powers vested by the Legislature in the various Classes of Revenue

Officers

Officers in this Presidency.

Revenue Board Office
Fort St. George
14th August 1850.-

Signed G. L. Forbes
Secretary

A.

Memorandum Shewing the duties performed by each Class of Native Officers in the several districts of the Madras Presidency.-

The Chief Native Officer in the Hoozoor Cutcherry is the Head Sheristadar whose duty it is to examine all accounts stated in conducting the annual Settlements and keep records of all accounts connected with the land and other branches of revenue &c. &c. He is at the head of the Collectors whole establishment and is his adviser in all matters connected with taxation and the improvement of the revenue. He is in fact the Native Collector of the District and on him rests the responsibility of bringing to the Collectors notice every matter of importance that occurs within the Province.-

2. Next is the Naib or Deputy Sheristadar who assists the Head Sheristadar generally Superintends the affairs of some Talooks and Conducts their Settlements &c. &c. In addition to these the Naib Sheristadar in some of the Salt manufacturing Districts has the Superintendence of Salt transactions. Both these Officers are selected for their Character talents abilities for their general Knowledge of revenue affairs and their intimate acquaintance with the

system

System of the District in which they are employed and they can be employed by the Collector to examine charges of malversation brought against Native Servants of the District. These Officers are assisted by Goomastahs.

3. Moonshies or Jawabnavises read aloud to the Covenanted European Officers the Native Correspondence and Reports &c. addressed to them both in the revenue and Magisterial Department and write Tahkeeds or orders in reply for the Collector's signature according to the instructions which they have received. Other miscellaneous duties are also entrusted to them, such as abstracting and endorsing petitions under the instructions of their Superiors, and in Revenue and Police enquiries they take down depositions.

4. The Cash Keeper has the immediate charge of the Treasury and with his Goomastahs keeps accounts of all receipts and disbursements of Money and prepares the Monthly Statements forwarded to the Board, Accountant General and Civil Auditor.

5 Writers in the English Department transcribe the whole English Correspondence, draft replies for approval on simple subjects and prepare in English the Statements transmitted to the Board &c. in accordance with the prescribed forms.

The

6. The Head Native Officer of a Taloog is the Tahsildar whose duty it is to visit the villages comprised in his Taloog to ascertain their state & the extent of their cultivation to see that the irrigation is effective and to dispose of applications for new lands. He is charged with the Collection and remittance of the Revenue from all sources Amounting in some Taloogs to 4 lacs of Rupees the disposal of all petty Complaints, both revenue and police the maintenance of the peace within his range the apprehension of offenders, and the Committal to the Criminal Court of such cases as by law should go before that tribunal. A great variety of Miscellaneous duties also fall upon him such as the attachment and sale of the property of revenue defaulters the supply of troops on their march, the execution of minor Maramut works and the supply of materials to the Civil Engineer's Department. The duties of a Tahsildar thus form a very onerous charge, and aid and information are expected from him on all occasions.

7. The Taloog Sherishtadar is subordinate to the Tahsildar, and has more especial charge of the accounts of the Taloog during the absence of the Tahsildar the Sherishtadar fills his place.

8. Goomastahs under the instructions of

of the Tahsildar and Sheristadar prepare from the Village Returns all accounts relating to the cultivation and revenues of the Taloq & the collections and the receipts and disbursements at the Tahsildar's Treasury. They are also employed in preparing such statistical returns as are required by the Collector in addition to the ordinary periodical statements and they take part in the Miscellaneous duties of the Taloq, such as the examination of crops the inspection of petty Maramut works & ca.

9. The Peshcar may be regarded as an assistant Tahsildar and has revenue and police charge of a Division of the Taloq & though he is subject to the Tahsildar's control and superintendence several Zilladars or Carcoons generally between 4 and 10 are attached to a Taloq. Each has a certain number of Villages under his charge. He superintends the Cultivation and collections & ca of those Villages and is sometimes vested with Police Authority so far as to apprehend offenders and take depositions but not to punish. Previous to the settlement he examines the cultivated lands in his Village & and from time to time scrutinizes the accounts of collections received from each ryot

ryot. He acts under the immediate orders of the Tahsildar to whom he reports on all occasions.

10. In those Districts where Salt Cans and Depôts exist, there are Superintending Peishcars and Ameen with subordinate Servants under them who superintend the manufacture and sale of salt, transmit the collections to the Taloq & and forward to the Collector certain periodical Statements.

11. In places where there are Sea-ports or frontier Chowkies Officers of a similar grade are employed who collect the Customs duties, prepare Statements showing the Exports and Imports, and transmit the collections to the Treasury.

12. Potails or heads of Villages in some districts styled Monegars, have the duty of collecting the revenue payable by each ryots of the Village. The Office of Village Moonsiff is almost invariably held by one of the Monegars or potails of the Village. The Monegar however has usually one or more colleagues.

13. Curnums are the Village accountants.

14709

Fort St. George 14th August 1856.

accountants co-operate with the Head of the Village in conducting its affairs. They Keep registers of lands taken up by each ryot, prepare the puttahs, Keep the whole of the Village accounts; and prepare and transmit to the Taloor Monthly returns of cultivation and collections. The Curnums also Keep a Diary of Police matters and have other minor duties so that they form practically a most important class of public servants.

From the Officiating Agent to the Governor at Burnood

Sir,

In reply to your Circular No. 1569 under date the 23d May last, I have the honor to report that the practice, alluded to in the latter part of Para 3 of the Extract from the Minutes of Consultation under date the 3d March last, is not countenanced, and when brought to notice the demand and payments are prohibited.

Estimated roughly altogether at about Rs. 8000 throughout the District without any fixed rate Fees on land Revenue in kind. Do on Do in ready money. Do under the pretence for religious purposes.

2 The very objectionable Custom of Fees, a sort of oppression, under the denominations of Mara Warthanah, Kuntain and Gudapoyah, has been put down in few of the principal Villages and it would be desirable to abolish it in all the other Villages.

Dated 8th March 56.

the receipt of Extract from the Board Proceedings dated 23d Ultimo No 1569 conveying Extract Minutes of Consultation No 243 and in reply beg to state for their information, that no fees are collected by the Curnums in this District, from the contributors of Moturpah Tax; Salary having been fixed for them; and also to the Manigars, by the Grant of lands with reference to the total assets of the Villages including Moturpha tax.

As regards the instructions contained on paras 4 - 5 and 6 of the above Minutes of Consultation I beg to state, that the mode of issuing Pattahs in this District is in observance as approved of by the Board in their Proceedings of the 2d January 1857 Receipts being granted to the payers of Moturpha tax, by the Manigars for payments made by them as per instalments; I am of opinion that there is no necessity for entering the same again in the Pattahs.

Bd No 2310

From the Collr of Nellore

Replying to Boards Proceedings of 14th April 1856 regarding the Taxes levied on Fuel and Timber Cut in the Government Jungle

Sir,

With reference to Extract from the Proceedings of the Board of Revenue under date the 14th April 1856, Calling for a report on the Taxes levied on Fuel and Timber cut in the Government Jungles and directing to propose regulations for placing the Forests under proper Control I have the honor to report as follows. -

Taxes on Fuel
1 Sydapooram
2 Sungum
3 Tonnumultalpoo
4 Rawoor
5 Gowdanoo

In the Western Talooks of this District specified in the Margin no tax is levied, nor is any thing charged for the privilege of cutting firewood in the Jungles, but in the Coast Talooks of Cotah Durvapully Cavaly and Buddapoody, as well as in the inland Talook of Calegherry there are Jungles from which firewood is cut and sold on behalf of Government The

Fort St. George 14th August 1856

The Villagers themselves pay nothing for what they Cut, either for their own use, or for Consumption in the District but firewood intended for exportation is paid for. It is of three Kinds 1st 2d & 3d and is sold at rates varying from 6 annas to 1½ Rupees per 1000 pieces, wood used for making Charcoal is also sold at these rates.—

Timber

3 There are hardly any extensive Jungles in this District yielding useful Timber Trees. Even the wood requised for ordinary building purposes is for the most part brought down the River from beyond the limits of the District or through the Pampoor Pass from Cuddapah.

4 A small quantity of timber is however felled in the Jungles in the Taluk of Gondavedi, no tax is levied on it but the price is high notwithstanding and timber scarce, Under these Circumstances it is improbable that any Considerable

Fort St. George 14th August 1856

Considerable revenue can be levied from this source. With this exception Trees on Government lands are not allowed to be Cut without permission, and when applied for a Moderate Charge is made for the wood

Palmyras

5 The Palmyra is the most valuable timber trees which is found in any Considerable quantity in the Nellore District. The demand for them is considerable and the prices charged are as follows.—

For Good Palmyras to individuals generally per tree 8 as Ditto to the Ryots for agricultural purposes as irrigating the fields 4

For Choultries or places of public resort . . . Gratis

Inferior trees according to their value.—

Proposed Regulations

6 Little remains to be said on this head the Firewood Cut for exportation is already sufficiently taxed and it appears Government are opposed to levying any tax on what is cut by the Villagers

Fort St. George 14th August 1856.

Villagers for their own use in the Jungles belonging to their own Villages To levy any tax on firewood Cut for Local Consumption would be a great hardship to the poor, and be likely to check the means of livelihood of a very poor class of persons who bring it is besides the probablity that it would lead to vexations interference if not to oppression on the part of peons, and subordinate native authorities I cannot therefore recommend any new regulations beyond those now in force on this head.—

7 Timber trees whether in forests or scattered in Government lands are legitimate objects of taxation but as they vary so much in value, I cannot lay down any uniform rule beyond proposing that a fair valuation should be put on the trees which may be applied for applications being few each might be disposed of on its own merits.

8 The existing rules for Palmyras seem fair and I would suggest that they be Continued.

There

Fort St. George 14th August 1856

Conservancy.

9 There is no Establishment in this District for the preservation of Forests, and as I am not aware that it is in Contemplation to create one, I can only suggest that the Tahsildar of each Taluk and their subordinates be directed to look after the Jungle within their respective ranges and see that the trees are not Cut without orders, and that when permission has been given, those only of mature growth should be felled.—

10 The planting of Palmyras in the place of those cut should also be encouraged.

From the Collector of Coimbatore

Sir

Adverting to the Extract from the Proceedings of the Board of Revenue under date the 6th Ultimo No. 1773. I beg to forward Copy of letter from Captain D. Hamilton Acting Superintendent of Animallee Forest dated the 8th Instant I quite concur with that Officer that it is not Correct to compare the large Sound very inferior Timber of the Animallies with the small inferior Teak of Segoor the one fit for the Dockyard, unexceptionable and becoming yearly scarce, and more valuable; and the other the ordinary small and youngwood of the Native market. The Bombay Dockyard would I believe be willing to pay any price now rather than lose the Animalli Teak, the size and quality of which is unequalled.—

Coimbatore, 11th July 1856.

(Signed) E. B. Thomas
Collector

To

Fort St. George 4th August 1856.

— Enclosure No. 1. —

To,

The Collector of

Coimbatore.

Sir,

With reference to para 3 of Extract of Proceedings of the Board of Revenue dated 9th June 1856 No. 845 pointing out the difference of price in the Animallie Teak Timber, and that brought up & the Segoor Ghaut and sold on the Nilgherries. I have the honor to inform you that I charge the current market price for the timber I dispose of at the foot of the Slip that is I charge the price I could obtain for the timber were it sent down to Ponany less the expense of carriage and floatage.

2 I consider it hardly fair to compare the small Teak Timber from the Segoor Forest with the Teak of the Animallees: the finest in this part of India. It may be that

Fort St. George 11th August 1856

that for House and Bridge building the Segoor Teak is equally as serviceable as the Animallie sent for Dockyard purposes. As I opine the Segoor Teak would find no market hence the higher market value of the Animallie teak moreover the Civil Engineer of the 7th Division has graded the price of my superior Dockyard timber, and not the rejected planks which latter even I maintain are much superior to the Segoor Teak.

3 I read the Extracts of Minutes of Consultation of the 22d March 1853 No. 349 para 4. to mean that the Animallie Teak is to be priced at its value in the best market less the expenses of carriage to that market Ponany is at present the best market and hitherto I have been guided by the rules there superior teak for ship building is becoming so scarce on the western Coast that its value is increasing every year

B. No. 2558.

Resolution thereon. Resolved that the foregoing correspondence be forwarded to Government with reference to para 3 of Extract Minutes of Consultation No. 846 P.W. Department dated 3 June 1836.

557-558

Ingr. 9th June 1836

2 In the Government Extract cited above it was observed that the Civil Engineer remarked that superior Teak could be bought above the Legoor Ghaut for half the price paid for Annamullay Teak at the foot of the slip and the Board were instructed to report whether the prices charged for the latter were in accordance with the previous instructions of Government.-

3 It will be seen from the letters of the Collector and the Superintendent, that the Annamallay Teak is considered by both those Officers to be far superior to that of Legoor and that the price charged for it is regulated by what it would fetch at Ponany, the best Market at present less the expense of Carriage and floatage.-

4 If the Legoor Teak is really as good for the purposes required as that of the Annamullay and can be procured at Cotaicamund for 50 per cent less than the latter can be supplied at the foot of the slip, it would be better to receive the latter for the Bombay Government to the full extent of their demand. At all events the Civil Engineer might on all occasions inform Captain Hamilton at what price he can obtain Timber suited to his purposes, on the Spot.

and

Fort St George 11 August 1836

and ascertain whether he can be supplied at equally favourable rates by that Officer. It is clearly bad economy to use wood worth 2 Rupees to the Bombay Government for purposes where Timber half as valuable would answer every purpose merely because the expense is nominal and not actual.-

Sir

I have the honor to acknowledge the receipt of Extract from the Board's Proceedings dated 15th May last N°. 1464 conveying Extract Minutes of Consultation N°. 467 and in reply beg to state as follows for their information as regards the advantages resulting from the use of Goa paper instead of Common country paper.-

2 Goa paper is now used generally for all Tamil correspondence in this District with the Talook authorities; for all Tamil accounts and for English drafts the material is not only easy and light to write upon for Tappal, but also good for packing

and

and binding. It is not subject to the same injury by insects as is the case with the Common country papers. The price of the paper in question is cheaper than that of the Country; and it is procurable at Coimbatore at all times and in a sufficient quantity. Two Merchants of Coimbatore have entered into an agreement to supply the requisite quantity of Goa paper at a price not exceeding 2 — 3 — 0 a ream which is about the price at Madras and save the carriage. As regards the quantity required for Consumption in the respective Talook Cutcheries Tahsildars have purchased Similar paper themselves as usual within the amount allowed for contingent Charges of their Cutcheries.

Country paper — 8½
Goa paper — 10.

3 They is forwarded a Statement showing the quantity of paper actually consumed in the Kuzzoor Cutcherry during the Fusly 1265 compared with that of the previous year and its price per Rupee the quantity consumed this year exceeds that of Fusly 1264 by 6,000 Lures as shown in the said Statement consequent on the issue of paper for accounts of Canarese as per new Form under orders of Government.

4 Under the foregoing reasons the

the use of Goa paper for Official business seems preferable in every respect. A specimen of the paper now in use is forwarded herewith as called for.

B. No. 3115.

From the Collector of Chingleput

Proposing certain modifications in the administration of the Salt Revenue of his Collectorate.

Sir,

Agreeable with the instructions conveyed in Extract from Minutes of Consultation No. 571 of the 4th June 1856, relative to the introduction of improvements in the administration of the Salt Revenue in this District similar to those ordered to be carried out in the Northern Circars by abolishing the Manufacture and sale at some of the Cotaurs and increasing the efficiency of the Establishments at others, I have the honor to forward herewith 3 Statements as Marginally noted, containing the information required by Government on the subject.

No. 1 Statement of the present and proposed number of Cotaurs of the Establishment &c.
No. 2. Statement of Temporary Establishment required for the sale of the Salt at the Cotaur proposed to be abolished.
No. 3. Statement of Compensation to be paid to the Manufacturers of the Cotaurs proposed to be abolished.

2. Statement No. 1 shows the number of Cotaurs, the average quantity of Salt manufactured

manufactured, and sold during the last 10 years, and the detailed establishments maintained at each, as well as the modifications proposed to be introduced under the new system conformably with the views of Government. There are at present 7 Cotaurs in the district where, about 4,09,281 Maunds of Salt have been manufactured on an average every year and 3,04,207 Maunds have been sold under the Heads of Home, Inland and export sale the Establishments for which amounted to Rupees 10,092 per annum. It is now proposed to reduce the number of Cotaurs from 7 to 3 but to manufacture the same quantity of Salt by proportionately increasing the make and to retain the Establishments at the same cost though an altered scales of payment and numerical strength. The details of the alterations are fully shewn in the Statement and the Cotaurs proposed to be retained are those commanding the greatest advantages of position and the readiest access to the trade by

14733 Fort St. George 14th August 1856.

by their proximity to the nearest trunk roads the sea and the canal: so that no interruptions to the general supply of the country will ensue.

3. Should the arrangement be approved of, it would be necessary to provide for the disposal of the Salt now in store at the four Cotaurs proposed to be abolished amounting to 2535 Garces at a charge of Rupees 3636. The detailed establishments required for that purpose and the period during which they will have to be employed are entered in Statement No. 2, from which it will be seen, that Rupees 1,932 can be met by detaining a portion of the Establishments intended for the Cotaurs to be retained, till the Salt has been disposed of; and that 1,704 Rupees only will be required for sanction to meet the deficiency. It will be observed that some of the servants at the retained Cotaurs will be on smaller salaries than they are proposed to draw when those Cotaurs alone are allowed to remain, but as the sales at those Cotaurs will have to be stayed

stayed till the sales are completed at the abolished Cotaurs and which may probably be effected within a year, the objects of Government can scarcely be said to be in any way frustrated by the necessity except temporarily - The export sales at Coielong will of course be allowed to continue, at the end of a year when the whole or nearly the whole quantity of Salt will have been disposed of, the new Establishments with full rates of pay will be brought into use and should any small quantity remain unsold arrangements can be made for its speedy sale for a few servants being left in charge and withdrawn only after it has been cleared off -

4. The nexct and last question for consideration is the subject of compensation to be given to the manufacturers at the abolished Cotaurs. As they are the Village Meerassdars and the suppression of their business will subject them to very serious losses their claim to indulgence appear to

to be deserving of consideration. Statement No 3 exhibits the amount of annual compensation to be awarded, calculated on the average sales of the last 10 years after allowing a moiety of the Goodewarum or the wages of the labourers engaged in the Manufacture - The amount Rupees 9929 - 15 - 7 is large, but will scarcely be felt when the improved receipts under the new system are fully realized, considering the facilities for fraud under the old system with the well known connivance of the Government servants at the Cotaurs, it is calculated that no less an increase than a Lac of Rupees may be anticipated from the more effective Superintendence now about to be introduced - Though the population of the District is calculated

at

Fort St. George 14th. August 1856.

at 5,83,462 souls the home consumption amounts to only Rupees 28,716 while at 10 Seers each soul per year which is supposed to be an average consumption it should have reached Rupees 1,45,865, the difference having been smuggled, obtained spontaneously from the earth or privately purchased from Government servants, an absolute and positive loss to the state. This contemplated increase does not include the receipts anticipated from augmented Inland sales and as they may be fairly expected to rise in an equal or certainly or very considerable ratio the sum to be paid for compensation will soon cease to be viewed in any other light than a necessary means towards an improving Revenue.

J

I beg to submit the arrangements to the favorable consideration of the Board.—

Chingleput District,
Collectors Cutcherry,
Sydapet, 9th. August,
1856.

(Signed) C. J. Shubrick.
Collector.
