My attention was first called to this subject by a Magistrate case in which the late Zemindar and others were defendants charged with having falsely imprisoned a

man for the non. payment of his Moturpha, the case broke down, but in answer to a call for further information Mr. Foord reported that the Zemindar had rented out the Moturpha from 1261 to 1269 inclusive nominally to his own servants, but in reality to himself, as his seal and the signature of his Shoristadar were found on Orders for payment produced in the above mentioned case. The Zemindar Gopenadeva also wrote me a letter stating that the Dhurmaraydoo Petitioner, was not a bonefide renter, but had been put in without his consent by his brother and cosharer and was the son of a man who had made away with a large sum of money I have at different times found that illegal Exactions had been made in Jeypore, and therefore it appeared to me taking the whole matter into consideration, that it would be the proper course for the benefit of the

Paras of Appeal Petition

2nd It is assumption only that the Lands of the village of Ravoolapollem lie only to the north of the boundary line noticed No such boundary has ever been defined. In whatever direction the land in dispute lies with reference to the Appellants villages it

is no proof it belongs to him. Boundaries of Villages especially in the river take every imaginable direction vide also Para 3 of answer in Original Suit.

3d All formations within the bed of the river are islands although it may only be at the season of the freshes that they are separated by water from the main land. I confess I do not myself think that the argument that all land forming in the river is by consequence the property of Government is tenable we argue that the land has not been thrown up within the limits of Cowarungelunka but within those of Ravoolapollem.

"Forming a valuable intervening tract between your Petitioners Estate and the river."

4 Not between Petitioners estate and the river considering as is usual all the ground covered by water in the season of ordinary freshes as part of the river although

at

at other times there may be no water separating the tracts.

7. The report of the Pengoonda Annuem was not admitted as being partial and one sided and being opposed to the evidence recorded by himself and to the Settlement of the boundary come to by the former Proprietor Cochelakota Venkata Row.

8. There is nothing except the opinion given by the Annuem referred to show the Comaramzelunka Ryots river cultivation the lands in dispute therefore the late Collector did not nearly 5 years afterwards eject the Appellants tenants Certain Ryots were fined for paying as they alleged paid a bribe to the Tahsildar but it is not shown that the money was so paid to induce him to make a false report The Collector personally inspected the localities more than once and passed his decision

The detailed Appeal
Petition of Seer Rasalu
Oopparla pauly Joghee
Jagunnadha Ranze
Plaintiff in original suit No 287
of 1854 on the
file of the Civil
Court of Rajahmundry.

That on the 19th of March 1856
the Civil Judge by his decree dismissed your
Petitioners suit & that he is aggrieved thereby on the following grounds.-

1st. On an inspection of the plan of the Lunka land in dispute it appears that it is bounded on the east and South

south by a Sandy tract shelving gradually towards the bed of the Godavery on the west by a channel or water Course Separating it from another Sandy Spot part of the Plaintiffs property and on the north by a boundary line running due east from the tufts of grass spoken of which if produced would strike the left bank of the river a little north of Alamoor.

2. The lands belonging to the village of Ravaalapallem the property of Government lie north of this boundary line but the Collector claimes now to come South of it and to deliver over to the Ryots of Ravalapallem the land in dispute although it lies due east of your Petitioners Village lands and between them and the river and is in fact only separated from them by a Narrow channel which is for the most part dry and almost imperceptible

3. This claim is grounded 1st upon a supposed principle that all lands thrown up by the action of the river in the bed of the Godavery are Government property Even this however is sustained by no proof and is doubted of by the Civil Judge, but it is submitted it does not apply in this case. The disputed lands land is a part of the accretion

accretion of the right bank of the river and can only be called an Island at all, because at certain seasons a stream from the river makes its way through the channel mentioned in the low sandy ground at times the action of the river has been such as to wash away land on its right bank, and thus (as your Petitioner alleges) has been the case in former years with regard to a portion of the land in question, by a different action however in later years, and which is still continuing the Godavary has pressed upon and undermined its left bank and consequently in many instances land has been recovered on the right bank. Indeed this is the Collectors argument so far as he claims this land as having been lately thrown up and becomes fit for cultivation.

But your Petitioner submits that

4 these changes in the condition of this portion of his property caused by the action of the river cannot affect his rights i.e that it cannot be equitable that when his land is washed away he is to be the loser, but when it is reclaimed from the river and becomes profitable, it is to be taken to be the property of the Government.

It is clear from the plan that

5 supposing the land in dispute to be still covered with

with the water the southern boundary of the Village lands of Ravoolacpollem would be the line running due east from the point agreed upon to the river, but if the present decree be upheld the lands of that Village will be extended southwards and in fact from a valuable intervening tract between your Petitioners estate, and the river which used to be his eastern boundary.-

6. In addition to the arguments drawn from the natural fixtures of the District and locality it is submitted that the records and the evidence support your Petitioners claim.-

7. One of the earliest authentic records though seemingly unnoticed or unappreciated by the Civil Judge is the document E which is the report with a summary of the evidence then given sent by the Aumeen of Pengondah to Mr. Smith the then Collector, under date the 18th July 1842 From this it is evident that at that time the lunka land was in the possession and cultivation of the Ryots of Comarangelunka, as it was the interference and violent conduct of the Ravoolapollem Villagers which gave rise to the complaint The boundaries were then carefully examined and a decision past in favour of

of the Proprietor of Comarangelunka.-

8. Unfortunately for your petitioner no decision was passed on this report by Mr. Smith, as he left the District and on the 30th. March 1847 Mr. Prendergast on a different report by a different Officer and on other considerations past the Ryots of Ravoolapollem in possession - that is the representive and agent of Government decided in favor of Government and having ejected your Petitioners tenants, referred him to a regular Suit. It is a matter of observation as to this enquiries that the Ryots of Ravoolapollem were heavily fined for having bribed the Tahsildar of Rally and others to make a false report as to their rights to the Collector See document G.

9. The argument drawen from act 9 of 1847 as to the right of Government to certain lunka lands is of no avail for the Defendant in that its provisions do not extend to the territories subject to the Government of Fort St. George but the very fact of such an act being required to confer such a right shows that without a

Special

Fort St. George 1st March 1858.

special enactment the Government have not the right set up.-

10 Lastly it is submitted that evidence of the witnesses for your Petitioner is conclusive in favor of your Petitioners rights on the grounds of former possession the question of boundaries and the fact of usurpation on the part of the ryots of Ravoolapollem. To all which evidence as well as the exhibits, your Petitioner craves leave to refer through his pleader when this case shall come on for hearing.-

Therefore your Petitioner prays that the original decree may be reversed with costs, and that his council Edward Sadlmon Esqre may be heard orally in support of this Petition

1 This suit is brought to recover the proprietary right to certain Lunka lands called Voola Lunka which the Plaintiff asserts form part of his proprietary estate, and are included in the lands within the boundaries of the Village called Komarazelunka but which said Lunka lands have been usurped by the Ryots of the adjoining Village Ravoolapolem belonging to the Government, and in which illegal usurpation, the Collector the Defendant has supported the said Villagers.-

2. The amount of land claimed is 10 Pootties more or less with the "pullum" Rist or Proprietors share from Fusly 1255 to Fusly 1263 amounting to 13,000 Rupees Viz: produce for 4 years from Fusly 1255 to 1258 at 2,000 Rupees per Annum as the Lunka was at this time a rich soil and yielded Tobacco Vce and 5,000 Rupees for the five subsequent

subsequent years at 1000 Rupees per Annum when the soil became sandy and poor, total Rupees 13,000 together with subsequent produce and costs of suit.-

3 The boundaries of the land in dispute are given by Plaintiff as follows

On the east and South by the sandy hill situated between the river of Plaintiffs Village. On the West by the channel situated between the dry Lunka of Plaintiffs Village and the disputed Lunka land. On the North by the boundary of dry Lunkas which are situated between Plaintiffs Village (Komaranzelunka) and Ravoolapoliem.-

4 The Defendant denies the claim alleging that the Plaintiff has no title to the Lunka land in dispute or to the produce claimed - It is not true that the Ryots of the Plaintiffs Village have ever enjoyed the disputed ground.-

5 The disputed Lunka formed within the boundaries of Ravoolapaulem Village in Fuslies 1246 and 1247 gradually increasing in size and was conventable for cultivation in Fusly 1248 and since that date the Villagers of Ravoolapaulem have enjoyed it &c (as detailed in the answer.)

On

6 On the occasion of a dispute when both Villages Ravoolapaulem and Komaranzelunka were under one Proprietor Cocherlacotah Venkatrow a dispute arose regarding the boundaries of dry Lunka lands of both Villages when the said proprietor in Fusly 1236 fixed a fig tree near Tantapoody in the South East direction and tufts of grass were planted all on the South of this line was to be considered as pertaining to Ravoolapaulem and that on the South to Komaranzelunka and this boundary to which both Villagers agreed is now in force.-

7 The Plaintiff filed a reply.-

8 No rejoinder was filed.-

Points

9 The Plaintiff has to prove that the Lunka land in dispute forms part of his proprietary Estate within the Village of Komaranzelunka, and has been enjoyed as such by him through the Ryots of the said Village.-

Defendant to prove that the land in question has since its formation as a lunka been attached to the Village of Ravoolapaulem, and cultivated and

enjoyed

enjoyed by the Ryots of the latter Village.

10. Exhibits filed on the part of Plaintiffs

A Petition addressed to the Board of Revenue with the Endorsement of the said Board confirming the Collectors proceedings rejecting the Plaintiffs claim to the land in which Petition the Collectors grounds for his decision are shown to be or alleged to be erroneous.—

13. In order to facilitate the disposal of this case an Ameen was deputed to survey both the Villages of Ravoolapaulem and Komaranzelunka according to the boundaries as at present existing ie defining separately those acknowledged by the Defendant and the Villagers of Ravoolapaulem and those submitted by the Plaintiff a map accordingly prepared and sworn to by the Ameen has been duly filed on the Record.—

14. The Civil Judge also has himself inspected

inspected the lands in dispute.—

Judgment.

15. According to the Boobundy accounts of Fusly 1208 it appears that the total area of Ravoolapaulem was 150 Putties more or less say 1205 Acres of which under cultivation 1148 waste &c. 57.

For Fusly 1264 the same accounts show a total of 1922 acres of which 1760 under cultivation waste &c. 162.— By the Survey now made the total Area is 2206 Acres of which cultivated 1843 waste &c. 362 Acres exhibiting a very great increase in the Accounts of Fusly 1208 Viz 1001 Acres of 695 of which are under cultivation and 306 waste &c.—

16. According to the Boobund Accounts of Fusly 1208 the Actual area of Komaranzelunka was 130 Putties or 1040 Acres cultivation 974 Acres waste &c. 66 being still a proprietary estate no similar Accounts existi of a subsequent date.— By the present Survey the total Area is 1118 Acres of which under cultivation 825 waste &c. 293.—

17. The Plaintiff admits that much of the land in his Village has been

been washed away by the river and this was evident on inspection the river appearing still to be making in roads on its right bank at this spot.—

18. Out of the 1001 Acres in Ravoolapauleem it is observed 115 only are claimed as within Plaintiffs boundaries and of these about one fifth only is cultivable the rest is sand or the bed of the river.

19. It may be correct in principle as noted in the Collectors decision that islands thrown up in the bed of the river cannot be claimed by any one but the Government, on the other hand it cannot be said to have been uniformly acted on in this District. It is evident that prior to this estate ie the Village of Ravoolapauleem falling in, the former Proprietor did enjoy much of the Lunka lands within the main bank of the river and probably portions of the islands now in dispute and their boundaries were as admitted in the answer set by him between the two Villages in question deciding which portion of the Lunka lands as they existed should be considered as belonging to each respectively

Now.

20. Now as touching the boundary thus said to have been laid down in 1826 by the late Proprietor so far as the Civil Judge can find there is nothing authentic to trust in deciding this point. There is no evidence in support of the assumption by the Defendant that the boundary line of the two Villages, eastward was laid from the tuft near the right bank (a mark No 1 in the Map admitted by the Ryots of both Villages as well as by Plaintiff) towards a Banyan tree at Tandapoodyon the left or east bank of the river ie from No 1 to 3 in the Map. This fig tree is ignored by the Plaintiff and does not appear to have been alluded to in any previous record connected with this dispute except as hearsay by the 1st 5th & 20th Defendants in depositions given by them before the Ravly Tahsildar on 12th June 1842 on which proceedings no final order appears to have been passed by the Tahsildar's opinion was in favor of the Konarawzelunka Ryots.—

21 On the other hand there is no evidence to be depended upon to prove the line.— Plaintiff points out (nearly due east) to be correct as having been laid

laid down by the former Proprietor in 1826. is from 1 to 2 on the Map one point in favor of this allegation is the fact that the boundary line of the two Villages Westward from this tuft; and which is undisputed takes a parallel direction i e the admitted boundary line from the westward if projected would take the exact line Plaintiff has given it. but Plaintiff has nothing to show that his boundary ever extended direct eastward beyond No 1.-

22. To return to the point as to the extent of the Plaintiffs' Village it is shown by the present survey that the total area within the boundaries allotted to the Plaintiffs Village by the Defendants exceeds that of the accounts of Fusly 1208 by 78 cs Acres but that the number under cultivation is at present less by 149 Acres that it was at the date referred to.—

23. There certainly is no evidence that the Island now in dispute existed in Fusly 1208 AD 1798 there is not a tree or shrub of any kind to indicate its

its existence, as is almost invariably the case with the old Lunkas - On the other land there are visible marks of the river having as Plaintiff admits made inroads upon his land.-

24. The Defendant alleges that the Lunka in dispute began to form in 1846 and was first cultivated in 1848 that it is comparatively a recent formation especially all the Southern end of it the Civil Judge as just remarked saw grounds for deciding.

25. Since 1848 the evidence for the Defendant shews that the land has been cultivated under him by the Ravoolapaulem Ryots and the Plaintiffs evidence to shew that the prior to this date the late Proprietor enjoyed the land cannot be depended on.-

26. The accounts as well as the survey show that the lands under cultivation under Ravoolapaulem have been and are increasing and this is accounted for by the increase of the Island Be that as it may it is only in one direction that there

there is any opening for Plaintiff's plea ie to the Eastward and in the bed of the rivere no other point in the boundary of his land is questioned either by himself & others and this eastern boundary Plaintiff has been unable to prove.—

27. The Village of Komaranzelunka has not by many acres the same amount of land under cultivation as formerly but it is shewn that much has been wasted away.—

28. Plaintiff has failed to prove enjoyment of the disputed land by the former owners of Komaranzelunka, he has been unable to establish the boundary he claims finally it is shewn that the total area of his Village is not less than the former accounts made it therefore his claim must be considered as not proved.—

29. Plaintiff's suit is accordingly dismissed with all costs except those of the Amicus which will be borne by the Plaintiff and Defendant in equal portions

the receipt of your Proceedings of the Board of Revenue dated 11th November 1857 and I write to ask the Board to favour me with instructions as to the principle on which the Government formed its decision—

2 The Matter of lapsed Enams is one about which every Collector must wish to hold the clearest views and I must trust to the Board's indulgence to enlighten me on a principle of great importance and involving a matter constantly before me and apparently the Board's Remarks submitted to Government are decisive and satisfactory—

3 The doubt I feel is why the decision is pronounced strictly to the purchased landed property and not to the ancestral—

4 Moreover it appears to me that this decision implies that a Childless widow is not heir to her husband and without further explanation I feel that this Ruling can hardly be acted upon without Clashing on the Ruling of the Sudr Court that every Childless widow has a life interest in the immovable property

property of her deceased husband and in Circula
order of Board of Revenue dated 9th February 185
It is stated that the Circumstances of the ly

This last Census exhibits a decrease of 48512 individuals the Cause of this decrease is attributed to the famine that occurred between the two periods but I am not satisfied entirely with this explanation and am more inclined to attribute the decrease to want of accuracy in taking the Census-

The increase is attributable to three Causes Viz^t to the taking up waste lands to share holders dividing and taking separate Puttahs and

to

to Ryots who had relinquished their land taking them up again the entries from Col.s 9 to 12 in the said statement of the Cattle belonging to cultivating Ryots have been made in reference to the Memorandum in Para 5 of my Settlement Report of last year because I am not satisfied with the account taken this year and which I have returned to be re-examined.

It will be observed that the number of smaller holdings that is those under 30 Rs. have increased while the larger holdings have decreased which is indicative of poverty as it may be partly accounted for by shareholders splitting their Puttahs and to the liberty of throwing up land lately acceded to the Ryots about one half the Revenue is paid by holdings under 30 Rupees—

Season

8 The Poongaree or early Rains were more abundant in this year than in the preceding year but the Kengaree or later Rains were less than fell in Fusly 1265 on the whole the Rain fall was more than last year—The description of Crops suffered from the want of Rain, both the Dry and wet Cultivation was good—The quantity of Rain Compared with Fusly 1265 as ascertained by the Rain gauges is shewn in the annexed Memorandum The total fall being 20 4/10 in. the year against 17 16/10 in the preceding year—

10 The prices of grain exhibited in statement No. 2 were less by about 20 to 37 per Cent than the rates at which grain was sold in the two preceding years this is attributable to the favourableness of the season in this year - The following is a Statement of the prices at which Merchants purchased grain per Madras garce in this and the two premises years—

Dittum

11 In this year also as in the last the Ryots were allowed the full privilege of relinquishing such lands as they did not Choose to retain.

In my last Report I mentioned that two thirds of the lands which had at first been relinquished in fusly 1265 had again been taken up in the present year a very small quantity of land was thrown up and that was Chiefly the highly assessed well lands. The Ryots have taken up much new land in this year to the extent of 307072 acres bearing an assessment of Rs. 386538 over last years Cultivation of this increase the extent in the Dry lands is Rupees 233520 and of this the portion taken on Kayam Cowle amounts to 90,000 Rupees The privileges granted to the Ryots of relinquishing whatever lands they do not wish to retain does not appear to have operated detrimentally to the Government interests as for a large extent of lands of old has

has been taken up and the land occupied in this year is not very much below the extent occupied in fusly 1264 in which year the privileges had not yet been Conceded. The high price of produce a favorable year and the expectation of an immediate reduction of the assessment have Combined to cause this increase in the Cultivation aided also by the operation of Cowle-Buttai as long as prices remain Remunerative there is no fear of any serious loss to Government by the Concessions

Cahoos Laty Bunjer

12 Since the Ryots have the full privilege of relinquishing land they are equally bound to pay the full terms of the lands they take up whether they cultivate them or not but as it is only two years since the Concession has been made and as the Ryot did not fully Comprehend his Responsibility to pay for all land he retained having for so long been accustomed to demand & obtain remission for portions left uncultivated I could not at once enforce this new rule, and accordingly Remission has been granted for lands left uncultivated

uncultivated either through ignorance of the Rule or from other causes according to the Circumstances of the Ryots - But as the same privilege has not yet been conceded to the Reddies Remission has been granted to them in the usual manner according to their Circumstances as their assamies lands left waste and Remission was also granted on some Tank lands which were left uncultivated unavoidably from want of water which of Course must always be given the Remissions granted in this year on account of lands left uncultivated is less than a quarter of the amount of Collections late Remissions granted in the last 10 years - I have taken pains to have the Ryots made thoroughly acquainted with the Rule, that Remissions will not be granted on lands left uncultivated unless

unless it be from failure of rain and I propose to enforce the Rule in future. The Cahoolat Remission granted in this year is Rupees 106574 and is below the amount granted in last year by Rupees 30733 as shewn below - To have insisted on the Ryots paying for this amount of wastes in addition to that actually assessed (see para 14) would have been Ruinous to them in many cases -

the largest amount of Cowle remission is under the head of Rayem cowle, and the greatest portion of the lands on which this remission is granted is in the Goolliem Taloob. Encouraged by the favorable season the high price of produce, and in expectation of an early reduction

of

of the assessment as already observed the ryots of this Talook have greatly bestirred themselves. and have broken up a great deal of new land without any aid in the way of Tuccavi which used formerly to stimulate their exertions.-

Para 7. 17. The second item of increase under the head of occasional remission in the Fusul Jastee on sugar cane Cultivation amounting to Rupees 2820-14 -and was granted in this year only- In Extract Proceedings of the Board of Revenue dated 12th April 1856, it is directed that Fusul Jastee should not be charged for the year in which cane is planted but that the Iyen assessment together with Fusul Jastee should be collected in the second year these instructions have been generally applied. But the above remission was granted to some of the Ryots of the Kumply and Hoovinhudgaly Talooks upon claims preferred by them which were just as the following amount will explain.-

For[t] St. George 1[st] March 1858.

At the Vysac[k] Cultivation of Fusly 1265 an extent of 769 acres of land was occupied with sugar cane, and according to the foregoing account a portion[x] of it which had been waste at the Cartickra season was charged as customary with the full Teerwa, and remaining portion[÷] which yielded a crop in the Cartecka season, was charged with a half of the Teerwa the cane planted that year remained in the fields till the month of March in Fusly 1266, and such fields were therefore charged in this year with a half Teerwa, in addition to the full Teerwa according to the orders of the Board above alluded to, but the Ryots complained that having paid a half of the Teerwa on their fields in Fusly 1265 for the cane planted in that year, if subjected to Fussul Jastee on the same in this year, in the event of its being left waste after the cane is cut, would make the charge on the one crop of cane amount to one full Teerwa, and two Fussul Jastee Teerwas; and they petitioned to be exempted in this year alone

from paying Fussul Jastee on the fields left waste at the Carteeka season; a remission therefore of Rupees 2821 being Fussul Jastee was granted on an extent of 508 acres left waste at the Carteeka Season, as shewn in Column 10 of the foregoing Statement this being but just to them will I doubt not meet with the Boards approval.

18. The second head of remission is the Customary remissions comprising the general remission granted on the survey assessment under the designations of Thesaye, and Chowthayee, and Bharee Deed Moonasib, or remission granted on highly assessed lands. According to statement N[o] 4 the Thesaye or one third general remission granted in this year is below what was granted in last year by Rupees 744; this is attributable to the relinquishment of some highly assessed well lands by the Ryots. there is an increase of Rupees 32054 in the Chowthayee or one fourth general remission

remission in this year, owing to extn
Cultivation. In the third item under
this head of remission on highly as
-sessed lands, there is an increase
of Rupees 28036 as shewn below.

A separate report was submitted by me on the 7th July 1857, on the subject of the third item of the foregoing Memo-randum so that the subject needs no comment here the other two items are not new. These remissions will all dis-appear as soon as the revision of the assessment is completed but until that is done they must appear in the accounts.-

19. The third head of remissions Viz.t Miscellaneous, needs no explana-tion. Of the amount of remission granted under this head on account of Enam Vazah Viz.t Rupees 278-3 " the sum of Rupees 70 was on account of the lands held by the family of the Jarymala Poligar, but this remission will not have to be granted in next year, as the lands will be brought to the full assess-ment according to the order of Govern-ment dated 22d October 1855 commu-nicated by the Board in their Extract of Proceedings of the 30th October 1855.-

The Balance at the Close of fasly was Rupees 116027 of this sum Rupees 98072 has been Collected up to the of September and the amount still uncollected is therefore Rupees 17955 being on account of Land Revenue ——— 15182
Moturpha ——— 2773
17955

It is probable that about 6300 of this sum will have to be remitted and the Remainder may fairly be expected to be Collected—

34 The Statement &c. 13 shews the Collection of arrears of all sources of Revenue for former fasles: the amount of arrears at the end of June of fasly 1266 according to Column 7 of the Statement is Rupees 23730-9-4 of this the amount that has been Collected up to the end of September is Rupees 674-11 and the Remainder is Rupees 23055-13- of which the sum of Rupees 3405-6-4 Recoverable and the amount to be remitted is Rupees 19650-8-8— The

The sum drawn by the Ryots and the sums to be returned on account of Deccan Cummeh accounting to the orders of Government dated the 15th April 1857 — 2500
The Remainder — 3800

Fort St. George 1st March 1858

35 The sanction of Government has not yet been Received for striking off that portion of the above sum of Rupees 19650-8-8 which has already been Recommended for Remission in which however there has been an alteration since the Recommendation was made as shewn below—

Item	Amount before Recommended for remission	Amount thereof Since Collected	Amount now requiring to be remitted from the sum then stated to be Recoverable	Actual Amount to be remitted
The sum to be Remitted from the amount stated to be Recoverable in my settlement Report for fasly 1263 is ———			86 5 1	86 5 1
The sum Recommended in my Report for fasly 1264 together with the sum of Rupees 1.5-8-- on account of the Revenue of fasly 1263 Recommended in my Report for fasly 1264 is ———	6887 7 5	18 8 2	-- -- --	6868 15 3

and Inoturpha the Collections on those branches are made by the Land Revenue establishment— The Land Revenue Charges amount to Rupees 10-8-7 per cent on the Land Revenue Collections but if the Collections of Albarry and Inoturpha also is also included the Land Revenue Charges will be only Rupees 8—4—4 per cent on the Collections, the Charges for the Collection of Stamp Revenue is Rupees 5223-7-7 which amounts to

Fort St. George 1st March 1858

to Rupees 15-10-2 per cent on the Collections of stamps Revenue - The total amount of Charges is Rupees 22361.8-2 9 which amounts to 8-10-6 per Cent on the gross Collections the Charges of fasly 1266 are below the Charges of fasly 1265 by Rupees 17298, which is attributable to there not having been so many assistant Collections in this year as were in the previous year and to other causes -

37 I have already explained the part taken by the Sub Collector Mr. Arbuthnott and the Head assistant Collector Mr. Goldingham in the Settlement Enclosed is Mr. Arbuthnotts Report - The late Head Sheristadar Neelacunta Row conducted

No 60

To

C. Pelly Esqre

Collector of Bellary

Sir.

I have the honor to submit my Report regarding the settlement of Land Revenue of the five Talooks of the Sub Division for fusly 1266, together with the accompanying statements prepared agreeably to the forms received from the Secretary to Government on the 23d August 1836 and 21st March 1837

2 In accordance to the views of the Board of Revenue conveyed in their Circular dated 3rd October 1833 the settlement of the Dhamaveram Taluk was conducted by the Collector and the Jamabundy of Maduckseerah Taluk in the Collectors Division together with the remaining four Talooks of my own were settled by me in the Cusbah of each Taluk between the Months of January and the early part of May last the particulars are contained in the statement No 1

3 Although I am unable to discribe minutely the state of the Taluk of the Collectors Division

Division settled by me on the fusly under review as required in the 4th Para of the Boards Proceedings dated 9th August 1855. I have noticed in the Report the quantity of rain Beriz and such other facts as come to my knowledge during the settlement of that Talook

4 The number of Villages in the five Talooks of the Sub Division and the tenure under which they are held is shown in the subjoined abstract as directed by the Board in their Circular dated 14th September 1854

Fusly	Ryotwar Villages	Shrotriem Villages	Khoyem Jody Villages	Surva Enam Villages	Service Jaghire Villages	Total
1265	528	66	12	13	2	621
1266	528	66	12	13	2	621

It will be observed from the above that no change has taken place in the number of Villages between the last and present fusly. Forms of accounts were received on the 21st March 1837, of which the statement No 15 will shew the number of Villages and Hamlets of each Talook. The Shrotriem Villages and Ryotwar Villages are entered in the 5th heading and Khoyem Jody Surva Enam, Jahagheer &c Villages including Shrotriem and Enams are contained in the 11th Column of the said statement

5 The particular of the said Villages are required to be prepared more fully and forwarded quinquenially according to the forms as mentioned in the latter part of the Memo of the Secretary to Government dated 23 August 1836 (the said forms having been received on the 21st March 1837) the Statement No 15 has been prepared according to the form and is submitted herein for your information Nevertheless it was necessary to add somewhat more as hereunder shown.

	Talooks	Villages Mouzahs	Inzeahs	Total	Average for each Talook Mouzah	Mouzahs	Total
On account of the whole Dns Track	5	17	2758	1694	4452	162	100	262
Of which Sub Collectors Dewsum	5	621	943	1564	124	188	312

By

Fort Saint George 1st March 1858.

By the above it appears that although the average number of Villages in the Sub Division is less than that of the whole District yet the number of hamlets is greater. The whole of the Shrotriem Villages in the Sub Division are held on hereditary tenure and not limited to a certain number of generations.

6 The total No of square miles of the whole District as entered in the statement No 15 is 1366 of which the number of Do in the Sub Division also is 3596.

Average of each Talook Viz:

On the whole District — 768 On the 5 Talooks of the Sub Division 719 From the above it will be observed that the average of the Sub Division is somewhat less than that of the whole District

7 As there is an order to forward the statement shewing the principles of Irrigation &c quinquennially and to submit the Statement for the Fusly under review the Statement No 18 has been prepared according to the form sent on the 21st March 1857 the details of the cultivation and the supply of water received are given below.

3592

Fort Saint George 1st March 1858

Fusly	Supply of water: No. of tanks received full supply	No. of tanks received 3/4 supply	No. of tanks received 1/2 supply	No. of tanks received 1/4 supply	No. of tanks received less than 1/4 supply	Total	Inundation; canal and other supply	Grand Total	Cultivation: Acres	Cultivation: Assessment
1265	135	133	97	72	24	461	52	513	32937	26,823
1266	381	56	36	16	5	495	19	513	35199	30492

From the above it will be seen that the cultivation of Fusly under review exceeds that of the preceding one owing to a larger number of Tanks having received a full supply and the annexed abstract exhibits the extent of cultivation and the quantity of water received into the Tanks of Madhuckseerah Talook of the Collectors Division

Fusles	Supply of water: Tanks received full supply	Tanks received 3/4 supply	Tanks received 1/2 supply	Tanks received 1/4 supply	Tanks received less than 1/4 supply	Total	Inundation; canal and other supply	Grand total	Cultivation: Acres	Cultivation: Assessment

By the above an increase in the cultivation of this Taluk also is shewn

8 Adverting to the 4th Para of the Proceedings of the Board of Revenue dated 9th August 1833. I beg to report that in the Rivers Ponnar and Chittaravatee in my division heavy freshes occurred between May and October 1836 in the former from 1 to 5 and the latter from 1 to 4 yards of water, and these freshes proved favourable to the cultivation of lands under the Channels of those Rivers—

1 The statement of Population and of cattle which is to be forwarded quinquennially has been prepared according to the form received on the 21st March 1837 and numbered 17 and submitted for your information. The annexed abstract will shew the decrease on comparing the present statement with that of the one sent in fusly 1260.

This decrease has arisen chiefly from the emigration of persons of the Carpenter Coorooba Gollah Boyah Hudder Sumbadee and Chuckler castes from the Talooks of Anatapoor, and Dharmaverum during the scarcity in fuslies 1263 & 1264

10 The statement shewing the number of Puttahs &c. which was ordered to be forwarded quinquennially has been prepared according to form 17 received on the 21st March 1857 No 16 and as the Boards order dated 14th September 1854 directs that the particulars regarding the Puttahs and Ryots are to be entered in the Jamabundy Report of each year. they are given below

The increase in the number of Ryots in fusly under review is owing to the season having been favourable and to the

the removal of all restraint or interference with the Ryots in cultivating their lands. A slight decrease has occurred in Gonchee Puttahs by the reversion of some of these lands to single Ryots.

11 The statement of the classification of Ryots paying land Revenue was ordered to be prepared quinquennially which for the fusly under review has been prepared according to the form received on the 2nd March 1857 marked No 19 and submitted for your information The result is hereunder stated.

The Tanks of my Division being numerous, the increase and decrease in cultivation solely depends on the supply of water and hence any classification of this nature must be liable to great fluctuation.

12 I shall now proceed to remark on the state

3592 Fort Saint George 1st March 1858.

state of the season. Although the rains for the Moongary crops in May and June were insufficient yet the Ryots ventured to sow with different kinds of grain and as no rain fell subsequently they dispaired of their Crops until the latter part of July when the rains commenced and continued to fall till the end of August. This rain saved the Moongary crops. The time for Hungary sowing is September and October during which rain having fallen abundantly horse gram and other grains were sown. Some Tanks and Coontahs having been filled up the early rains of April and May of last fusly a part of the water from them was used in watering the Vysak crops of that fusly and the remainder was used for the cartack crops of the fusly under review. The Tanks &c having received ample supplies from the rains of September and October of the fusly under review the Ryots carried on the Vysak cultivation under them. The crops under some large Tanks were attacked with a disease which caused a scanty produce but as the prices of grain did not fall much the Ryots were able to pay up their Kists without much inconvenience. The Rajah Tanks

lands of Tandpulry are sown with Tanaloo Cotton, and Carraloo and the outturn thereof was favourable to the Ryots I am happy to add: that there has been a better yield also in Maduckseerah Talook of the Collectors Division both in dry and Wet lands

13 Cholera Regret to report prevailed in all the Talooks of the Sub Division from March to June especially in the Dhurmaverum Talook and the Ryots of that Talook were much alarmed. The following is an abstract shewing the casualties and the number of cases in each Talook

It will be observed that the total number of persons attacked was 920 and of deaths 712 or 77 per cent Cholera prevailed also in the Maduckseerah Talook, the number of cases is subjoined

The above gives 9 as the precentage of deaths. The fever I am sorry to report prevailed throughout the Talooks from October to June and was of an unusually severe and fatal Kind. The deaths however are chiefly confined to the extremes of life infancy and old

From the above there appears a considerable fall in prices for fusly under review as compared with the prices in the previous year. Upto February of Fusly 1265 prices continued high and from the month of March they began to fall but the difference in prices between the end of fusly 126 and the end of fusly 1266 is but small These prices however were higher than the prices for the same periods previous to fusly 12 and were doubtless of great benefit to the ryot

of irrigated lands under Tanks Wts which received their full supply in the fusly under review 3rd ditto Though Ryots relinquished some of the lands under Wells they have occupied most of the lands irrigated from other sources in consequence of the favorable orders of the Board of Revenue dated 26th October 1854 giving them full liberty in occupying whatever lands they wished and 4th from the orders of the Board of Revenue dated 29th September 1857 fixing 18 Rupees as the maximum rate of an acre irrigated land the Ryots were induced to cultivate some of the irrigated lands in addition to these usual holdings.

Inconsequence of the season having been favorable the cultivation of the fusly under review was in excess while the Bunger remission fell short of that of the previous fusly. Although as a Rule Ryots should be held responsible for land left waste out of their holdings, deductions are unavoidably allowed whenever the failure of the early rains has been the cause of the land being left

Fort Saint George 1st March 1858.

left waste, and also where the lands in the beds of Tanks are left uncultivated from being covered with water for part of the Bunger lands under Nullahs depended on Ponnar River in Nellore and Valamakoor in Sandputty Polock which have gone out of order and lastly deductions must be made for part of the Bunger of the Appanum lands of Potails respecting which no final orders have as yet been received and as many of them are too poor to cultivate their entire Appanums a part of the Bunger has been remitted.

The whole of the Bunger so remitted amounts to Rupees 33,805 but most of these Remissions I trust will be gradually diminished.

The particulars of the increase and decrease of cultivation made out according to the Rules for the fusly under review done will be found in the Statement No 3.

The cause of this increase is attributable to the season being favorable and to all restrictions having been removed from the Ryots and also to the large supply of water in the Tanks which caused the most of the Wet lands under them to be brought into cultivation Shamlat Bunger to the amount of Rupees 1100 has been included in the said Abstract inconformity with the orders of the Board of Revenue dated 18th March 1850 and of the 2d Para of the Proceedings dated 22d January 1855. This however will cease hereafter when the large fields are divided into small ones.

The increase is in favor of the fusly under review The imposition is chiefly on those occupied lands which were left waste without sufficient reason—

24 The increase and decrease arose in different Items on account of remissions granted and the cultivation as particularized in the Statement No 4.

1st The decrease on account of Shamlat Bungar Rupees 617 is attributable to the relinquishment of lands by Ryots from their Puttahs

2d The decrease on account of Pauncebodily or distruction of crops by floods amounted in last fusly to Rupees 303—— but in the fusly under review there was no loss under this head.

3rd The decrease in the Item of Shavy or loss of produce amounted in last fusly to Rupees 346—— but in the fusly under review there was no loss

4th The decrease in the Item of loss of crops was Rupees 157 in last fusly which was not the case in this

The

5. The decrease of remission in Fusulcummi Items Rupees 167 - - is caused by the cultivation of two crops in the present year in consequence of the favorable state of the season whereas in last Fusly only one crop was cultivated.

6th The increase in the Item Mooruasul Cannum allowed to poor Ryots inconsequence of having cultivated their lands in excess of last Fusly is Rupees 39 - -

7th The increase on account of Cowle lands Rupees 77 - - is occasioned by the occupation of Cowle lands in excess of last Fusly.

8th The decrease Rupees 575 - - in the Remission arose from 1/5 Remission having been given in Fusly under review instead of 1/3 given in last year from the lands under Wells having been watered by Tanks &c.

9th The increase in 1/5 Remission Amounting to Rupees 13,335 is caused by the increased cultivation.

From the above there appears an increase in the Item for the reasons before given. In fasly 12 measures will be taken to reduce the rates throughout the District according to the orders of Government dated 22d June 1854 but I beg to bring to your notice that no orders have been received for the reduction of the assessment of poor red soils below 1 Rupee. You are well aware that almost the whole Sub Division consists of red land and poor that it has to be left fallow for 3 years after two or three years cropping. 1 Rupee per acre is far too high for such land

Fort Saint George 1st March 1858.

I therefore request you will bring this to the notice of the Board and Government with a view to a reduction being made.

11 The increase on account of Shamlat Dasawandum deductions Rupees 76 - - is caused by an increased cultivation in the lands under Dasawundum Tanks.

12 The increase of Throtreim Remissions Rupees 180 - - is occasioned by an increased cultivation in those Villages.

13 The increase of Cuttoobady Remissions Rupees 12 - - is too small to require remark.

14 The increase of Seeva Cummi remission Rupees 38 - - has arisen from the increase of Cultivation of lands of this description.

15 The increase of Pymaish Cummi Remission is very trifling.

16 The increase of Enam land deductions Rupees 4 - - is caused by enam lands left waste in the preceding fasly having in this year been brought under cultivation.

17 The increase of remissions granted to Village Potails

Fort Saint George 1st March 1858

Petails and Curnums Rupees 11 - - was occasioned by their lands being left waste 25 The causes of the differences between last and present fuslies under the head sundry Revenue, entered in the enclosure of the Statement No 1 are detailed below.

1st The decrease on account of Jody or Dust Rent payable on Enam lands cultivated Rupees 110 - - is attributable to remissions granted to some parties / chiefly shecklers / who have no means of paying their dues.

2d The increase on account of Dry Enam lands connected into Wet by means of circar water Rupees 752 - - is occasioned by this description of cultivation having been carried on in the fusly under review in excess of the fusly.

3rd The increase of Enam tuffrick Rupees attributable to Ryots having cultivated Enam in excess of the quantity allowed.

4th The Revenue under the head Sundry Small Dues and Licences having been transferred to that of Land Revenue as per instructions of the Secretary to Government dated 5th August 1856 and of the Collectors' Yadast dated 23d of the same month

Fort St. George 1st March 1858.

the increase and decrease of Sundry Items to which they belong are here under stated -

Under the head Cuddeem Amarayee or old plantations and Condacavalee some decrease arose from the following causes - The Tamarind and Mango trees did not yield good crops and many thorn trees perished. There is a small increase in other Items which require no remark - The cause of increase in the Revenue of fruit trees under the Government plantations arises from increased competition amongst the

the renters.—

26 An account No 3 has been prepared for loss of produce. This account shews that the loss sustained in the fusly under review is small.—

27 The Statement No 8 containing the particulars of Chedity bowls in the progressive Cowle held upto last fusly and that occupied in the fusly under review and the deductions made thereon will appear in the account. 28 The Koyem Cowle account has been added as an enclosure to the above with reference to a note written at the foot of the form of Chodity cowle Account - The lands on which Koyem Cowle has expired continued upto last fusly are carried to the head Sagoobadi or full tax. No fresh Cowle has taken in the fusly under review.-

29 With reference to the order of the Board of Revenue dated 17th July of fusly 12 an account / added as an enclosure to the / progressive cowle account mentioned in the preceding para / has been given of the lands distroyed by the storm of 5th and 6th May of 1261 and by the rains in September and October of fusly 1262. By this will be seen the expired cowle up to last fusly which has reverted to the Head Sagoobadi the deductions made on account of Bunger and the lands newly occupied.- From

30 The cultivation of Sugarcane, cotton and Indigo is shewn in the account No. 7 the comparative abstract of last and present fusles is annexed.—

	Fusly 1265		Fusly 1266		Comparison Increase		Decrease	
	Acres	Assessment	Acres	Assessment	Acres	Assessment	Acres	Assessment
Sugarcane	1162	12938	921	12449	..	..	241	489
Cotton	17903	18543	21600	20589	3697	2046	..	..
Indigo	559	1737	3020	5321	2461	3584	..	..

1st The decrease is attributable to the Ryots who generally cultivate sugarcane, not returning to plant it from the great fall in the price of Sugar during last fusly. The change in the assessment levied on this cultivation as per order of the Board dated 12th April 1856 will shew its effects in future fusles.

Fort St. George 1st March 1858.

The canes grown in some of the low lying land were injured by the excessive Kingovy rains of this fusly whilst those on higher ground escaped injury.—

An abstract of the prices of Jaggery and Sugar produced from the canes in the fusly under review is mentioned hereunder.—

Fusles	Price of Jaggery per Maund	Price of Sugar per Maund.
1265	.. 10 ..	1 12 ..
1266	1 6 ..	2 .. ..

2d The cause of the rise of prices in the fusly under review is attributable to deminished cultivation.—

2d The cotton cultivation exceeds that of last fusly inconsequence of more abundant rains in the fusly under review.—

3d The same remark applies to Indigo cultivation

31st The statement No. 8 exhibits a comparison of

Fort St. George 1st March 1858

of the Mohaturpha Beriz for the last and present fusles The 1st is the Veesabady tax levied in this District on Merchants under Regulation IV of 1818 a decrease of Rupees 540 — under this head in the fusly under review arises chiefly from deaths emigration, and poverty.—

The 2d is the Baghire Veesabudy levied on Manufactures the decrease of Rupees 391 — is occasioned by remissions granted inconsequence of poverty and by emigration and deaths.—

The annexed abstract shews the Beriz comparing the last with present fusly.—

32 The Statement No. 9 shews particulars of the Beriz of the Extra Revenue and comparison of last with present fusly. The annexed is an abstract from the above shewing the irrecoverable balances.—

	Fusly 1266	"	2694	2694	1747	608	2355	339	319	20

By the above it will be observed that two sums of Rupees 72-8-6 and 96-10-0 on account of Fuslies 1263 and 1264 having been proved during last years Jumabundy to be irrecoverable and a requestition was made by me to have them struck out of the accounts. Of the balance of Fusly 1264 a sum of Rupees 25-2-11 caused by death &c. has also proved to be irrecoverable I therefore request that steps may be taken to have these sums struck off.

33 The Statement A:10 shews the particulars of the Deriz of all branches of Revenue in Maduckseerah Talook of the Collector's Division settled by me in the Fusly under review and the one marked A shews the comparison of all branches of Revenue in last and present Fuslies. The annexed is abstract of it.—

Wet Land

Fort St. George 1st March 1858

From the above abstract although it appears that the assessment of Dry lands is generally light yet you are aware that owing to the exhaustion of the productive powers of the Red lands (of which the Sub Division is almost entirely composed) the Custom of exchanging those lands once in three years is prevalent as I have already stated in my opinion in the 24th para of this Report that the Reduction of Rates sanctioned by Government in their order dated 2d June 1857 is insufficient for poor Red Soil it is unnecessary for me to dwell more on the Subject—

40 The Subjoined is an abstract of Statement prepared according to Board's order dated 29th August 1849 exhibiting the particulars regarding the extent of land acquired by permission this year by public Servants and of lands in the possession of those who have this year in entered the public Service.—

Fort St. George

Bd. No. 516
From the Collector of Salem.....

Affording the information called for in regard to the Memorial presented by Venkatrow Canamma of Peonjaholly

Sir,

I have the honor to acknowledge the receipt of one Extract from the Proceedings of the Board of Revenue dated the 4th Septr. last December 1857 No. 2963 forwarding Extract from the Minutes of Consultation dated the 18th August 1857 No. 830 regarding the Memorial presented to the Honorable the Court of Directors by Venkatarow Canamma of Peonjaholly, and requesting me to report on the subject of Venkatarows memorial.

I beg to refer the Board to the report which I made by Endorsement on Petitions No. 1517 and 1920 of 1856 under date the 18th September 1856

2. At

It will appear from that report that the petitioner Venkatarow was dismissed from the Office of Curnum for having conspired with another person, named Maudee Nagadoo from the possession of certain land and trees, and that he assisted in the same course, tho he was once warned and Suspended from Office.

3. As regards the claim of the petitioner that the Office from which he has been dismissed is hereditary, and that on such ground it ought to be conferred on his brother or on one of his near relations. I beg to state that the Office was given to a person who not related to the petitioner, but to confer it on a member of the same family would in effect be no

no punishment to the petitioner. The petitioner had done his utmost by indirect means to defeat my orders in regard to the person named Maudee Nagadoo, and it is I think most necessary for the due protection of the ryots that Village Officers who attempt such practices should be effectually checked. The personal enquiry which I made at the Settlement in July 1263 perfectly satisfied me that Annien was merely the petitioners tool in the matter.

21st November 1853 4 The very circular Order, that the petitioner has adduced in his support vests a discretionary power

power in Collectors either to continue the
place to the same family or to
transfer it to others.-

Encl
Endorsement on Petitions Nos 1517 and 1920 of
1856 addressed to the Board of Revenue by Vinc
now Curranny of Poonjaholly in the Dewkincotta Talook
in the District of Sorel under date the 26th May 1858

1 The petitioner states that he was unjustly suspended
by the Collector for a period of 6 Months on a false charge
of having given a poonjah land containing certain tim-
mered trees held on puttah by a person named
Maudee Nagadoo, to one Annien, for cultivation, with-
out the consent of the trees puttadar, and that he
was subsequently, on the 12th January last, dismissed
from his hereditary Curranny Office on another false
charge of having been privy to the bringing of a
Suit

Suit by the above mentioned annien against Nagadoo
the trees puttadar for the recovery of the land and the
timmered trees above referred to.-

2. The petitioner prays that orders may be given to
restore him to his hereditary Curranny Office.-

3. A complaint was preferred to the Tahsildar
in the Month of August 1853, by Maudee Nagadoo, holder
of certain timmered trees, to the effect that the petitioner
with a view to deprive Maudee Nagadoo of his timmered
trees and the land on which the trees were standing, had
persuaded annien to institute a Civil Action based
upon a forged Curranny roll or agreement.

4 This complaint was enquired into by the
Tahsildar, when it appeared that the timmered trees in question belonged to Maudee
Nagadoo, and that the Petitioner had au-
thorized annien to cultivate the land
to the exclusion of Maudee Nagadoo, contrary
to the special orders of the Board, under
date

date the 20th November 1846, which provides that
if a discount be made for a waste land contain-
ing trees, the tree puttadar shall be at
the option of taking it for cultivation, that
the Petitioner was necessary to the fabrica-
of a Cowarmanah by one Kistnien, the peti-
ners uncle, purporting to have been execute
by the above Maudee Nagadoo, transferring
both the land and the trees to annien, and
that annien, subsequent to Maudee Nagad
Complaint to the Tahsildar had instit
a civil action for the recovery of the tamar
trees and the land on which they were
standing on the strength of the forged instru-
ment above referred to.-

5 Maudee Nagadoo also preferred a complain
to the Collector in October 1853 prior to the receipt
the Tahsildars report This complaint was referr
to the Tahseldar, who sent for Maudee Nagad
and his opponent for further enquiry, when th
two parties appeared before the Tahsildar and stat

that the matter had been compromised, and that
annien, having promised to withdraw the suit filed
against Maudee Nagadoo in the Court Maudee Nagadoo
the tree puttadar desired that a puttah might be
issued for the land and trees in their joint names.-

6 The Tahsildar reported this circumstance
and reserved the case for the Collectors decision
at the Settlement for fusly 1263.-

7 At the time of the Settlement both the
parties came before the Collector, who personally
enquired into the matter. It then appeared that
Maudee Nagadoo was not willing to have a joint
puttah issued in his own anniens name, and in conse-
quence the Collector Ordered that the land should
be made over exclusively to the tree puttadar, and
the petitioner was suspended for a period
of 6 Months for his wilful failure to allow
the tree puttadar the option of taking
the

Fort St. George 1st March 1858

the land for Cultivation.

8. In December 1854 Maudee Nagadoo again appeared before the Collector and complained that through the instigation of the petitioner Annien had not withdrawn the suit but persisted before the Tahsildar. On this the petitioner was summoned by the Collector, and on a review of all the proceedings connected with the case, the Collector was of opinion that the Petitioner had conspired throughout to cheat the complainant Maudee Nagadoo and that in consequence of his persisting in the same course he was unfit to hold the Office of Curnum he was therefore dismissed.

Sir,

Bd. No. 58
Strom the Acting Collr of Sth Arcot
Submits certain information regarding Dutta Enam Cases in Mannargoody and Chellumbrum as required by Board.

I have the honor to submit the following information required by the Board in their Remarks which accompanied your letter of the 19th Instant with reference to certain Dutta Enam cases in the Talooks of Chellumbrum and Mannargoody in the Talook of Chellumbrum.

Case 4 Nacoora Mundumgoody No. 3 Fo. 33-12-9

2. From Mr. Hall's enquiry it appears that the present Claimant and his late brother were members of an undivided family at the time of the resumption. Mr. Hall seems to have recommended a sum equal to three years income of the enam this being the period which elapsed between its resumption and the elder brothers death. In the event of the Board considering it proper to continue the full amount of the grant to the present

present claimant for life the arrear due to him up to Fasly 1266 will amount to Rupees 506-15-3, the annual allowance being Rs 33-14-

Case 21
Same Village
No 1 Rs 12-8-4

3. Under the view taken by the Board of this grant the present claimant will be entitled to receive a sum of Rupees 4-2-9 for a period of 4 Months & 15 days the original grantee is said to have survived the resumption of the Enamindar

Case 23
No 1-12-Rs 4

4. From the Statement of the Canongoe before the Collector the land appears to have been entered in the name of the Canongoe from Fasly 1240 to 1250 but in the account of Fasly 1251 first before the resumption it is entered in the name of one Shunkoo

I can find no grounds for the supposition that either the present claimant or his father have held offices which would give them easy access to the public accounts It appears further that this claim was

was brought forward and registered like all similar claims soon after the resumption of the Enam in his name appears in the account originally submitted by the Talook officers in the beginning of 1842 containing the names of the parties and the nature of their claims.

Case 55 Conjeveram No 2
Rs 23-a-a

5. The present claimant as well as the Village Monigar deny that the eldest son of the Grantee ever enjoyed the Mamiem after the death of his father which occurred some 25 years ago. They state that the land in question according to a division of the family property fell to the share of the present claimant but there is nothing to prove the fact of the alleged division. The eldest son died in the year 1856 or 14 years after the resumption of the Enam. As the tenure of this Grant is of the nature of a religious endowment Mr. Hall considered it proper to dispose of the claim accordingly by

paying

paying the parties a sum equal to 3 years in
cause of the Enam. If the Board are still of
opinion that the indulgence of Government
may with propriety be further extended & think
under the circumstances it would be the
the amount of arrears calculated to the date of the deed
of the oldest tenure which is said to have taken place
last year The sum is Rupees 322—0—0 In the
Talook of Mannargoody.

Case of Canavasel
No 2 82-19-12-6

The Alienation said to have been enjoyed
Pooja of the Poolliah Pagoda is according to the
old accounts and Statements of the Village office
accounts to 8½ Annas bearing an assessment of
Rupees 5-4- Vide statement forwarded with
Mr. Hall's letter and not 10½ annas as stated
ted by the Board and inadvertently stated in
Collector's letter. Under these circumstances the sum
due to the claimant for 5 years will amount to
Rupees 26-4-0

3 I have sent orders for the receipt of the articles of furniture on their arrival at each station, but as the servants now kept up at these Bungalows are illiterate persons I am afraid that it will be a matter of great difficulty to ensure the Collection of Fees and the keeping of correct accounts through their means. I therefore venture to request that

B. No. 586
From the Agt Coll.r of South Arcot. }

Sir,

As required by the Board of Revenue in their Proceedings No. 516 of the 23d Ultimo, I have the honor to Report on the application submitting to Government by His Excellency the Governor of the French Establishments in India, regarding the Import duty levied at our frontier, on thread produced at the two Manufactories Established at Pondicherry:—

Submits in reference to Boards Proceedings dated 23d Ultimo No. 516 contains information regarding the Import duty levied at the frontier on thread produced at the two Factories Established at Pondicherry.

2. The statement of His Excellency Monsieur Dubraye that the thread Exported from Pondicherry when accompanied by a certificate of origin was formerly allowed to pass free of duty into our Territory is correct — but this privilege was granted in consequence of

of the regulated duty being then levied on the wool from which the thread was manufactured, and this article has since been altogether exempted from duty in pursuance of the orders of Government dated 1st. [illegible] 1848.-

3. On the introduction of Act VII of [illegible] and under the Special Sanction of Government conveyed in Para 3 of Extract from Minutes of Consultation of the 2d October 1844 an ad valorem duty of 14 percent was Collected on thread imported into our Territory but this was reduced to 7 per Cent on the promulgation of Act VI of 1848, at which rate it now continues to be charged.-

4. Most of the thread woven at Tondiserry is sold to the Manufacturers of cloth on the spot, and very little is introduced into our Territory

Territory as will be seen from the Marginal Note, which exhibits the amount of duty Collected on this article during the past 3 Fasties. I must observe also that Cotton twist Imported by Sea into Pondicherry from the European Markets is included in this Statement.-

Fasly	Rs	a	p
1264	466	15	8
1265	521	2	4
1266	1073	13	6
	2061	15	6
Average	687	5	2

5 A Candy of thread is valued at 175 Rupees and the duty upon it at 7 per Cent is Rupees 12-4 A Candy of thread will produce 6 Corges of Cloth valued at 250 Rupees the duty upon which at 3 per Cent amounts to 7-8-0 The import duty levied upon the thread is thus Rupees 4-12 per Candy higher than the export duty paid by the cloth into which it is manufactured- so far therefore as our Revenue is concerned it is desirable to exempt the

the cloth rather than the thread, it from duty.-

6. Should the Right Honorable the Governor in Council be pleased to allow the cloth manufactured in our Territory from the thread imported from Pondicherry, to pass free of duty on it's being re-exported to that settlement, I would respectfully suggest in order to prevent abuse and to secure our Customs Revenue, that the indulgence should be made applicable only to those Exporters who can produce a Certificate testifying that the regulated frontier duty has been paid by them on the importation of the thread from Pondicherry.

Bd's No 868 - From the Collr. of Madras - - - 3.

I have the honor to forward for the orders of the Board a point upon which the Commissioner of Police has asked clearance and to which the enclosed Correspondence refers -

2 In Consequence of the discovery of Certain frauds in the issue of Columbos and Putlam Arrack in which some of the servants of the Dramshop Godowns and the licensed Shop Keepers named in the Margin, were by a full and Regular enquiry found Concerned the former have been furnished and the licences of the latter have been suspended for the period of 3 Months -

An

subject had not been Consulted -

Shops to be opened I must explain that
I had been informed that all the shops had b
closed but 4 were subsequently opened by th
Commissioners orders though the two und
references remained shut -

6 The Commissioners then wrote me
that unless his licence to the first party
was returned he could not issue a licen
to other individuals -

No 5

7 I informed him that I had no power
to enforce the returns of his licence and exp
plained that my licence being recalled his per
mit to the same party was no longer enforc

8 The Shop Keeper Complained on the
23d that he was still kept out of his sh
and this brought about letters Nos 8 and 9

9 It appears to me that the

Commissioner

Commissioner in taking his first objection had
over looked the fact of the transfer having been
brought to his notice and then in his letter of the 20
instant starts an objection never before made
though transfers of Toddy Shops constantly take
place and he obtains the licence issued from
his office in his own way - An arrack shop
is a valuable property and no transfer of one
has been made since the incumbencies of the
present Commissioner - the Toddy Shops however
differ only in name as far as this argument is
Concerned and transfers of them often take place -
10 His abrupt and summary manner
of procedure on the part of the Commissioner
may however seriously affect the Revenue if
persisted in -

11 I must again declare that I Cannot Conc
=ive such Shop Keeper dismissed or suspended to give
up the Police licence unless indeed it were by
an action of trover in the Supreme Court the man
might abscond or might declare the document
missing and as it is not produced the shop cannot
under the Commissioners present dictums be
again Rented Consider also the power of thus
=ing this office just into the hands of the rejected
Shop Keeper he has only to retain his Police licence
and

and the shop is permanently closed-

12 If my license is Revoked that of the Commissioner becomes inoperative and as he may just so forth what may prove a Complete bar to the Renting of a shop I request that the Board will if they agree with me in case the Government to direct the Commissioner to issue his license to a party producing mine for the same spot as previously licensed when no other obstacle exists than the none production of the Commissioners former license.

13 As he is the licensing officer the permit is Returnable to him if to any one but on the Revocation of my license it is not in my opinion of much importance what becomes of his

In reply of the official Memorandum of the Commissioner of Police of yesterdays date the Collector of Madras has the honor to observe that the two Puttah Licences granted to Aurokeasaumuny Chitty were in

Fort St George 1st March 1858

in substitution of others granted to Narrayan Moodelly and Vydeo Pillay whose licences had been suspended for misconduct -

2 Information of this change was given to the Commissioner in letter from this Office of 16 instant and as the shops were opened in the same place as those temporarily discontinued the Collector does not see how objection can be taken to them and regrets that his arrangements should have been thus summarily interfered with -

3 Four other shops have been licensed in the same manner but not opened as the Collector is informed in consequence of the Acts of the Police with Regard to the shops now under Reference -

4 As there is a loss to Government of 60 Rupees daily which will have to be accounted for to the Board of Revenue the Collector has to Request the Commissioner to state his objection to the opening of these shops -

2. The head Sheristadarship of Vellore became vacant from 1st November 1857 and continued so until the 11th January 1858 on which date the new Head Sheristadar Joint and from which his appointment dates.

Sir,

As the question of the Head Sheris-
tadarship is now settled I beg leave to submit for your
consideration my claims for officiating allowances for
the times I have officiated and may officiate in the

the appointment since the date of its becoming perma-
nently vacant on the 1st. November. A person officia-
ting in an appointment which is not permanently
vacated will draw half the salary of the appoint-
ment officiated in and half the salary of his
permanent appointment. But as in the pre-
sent case as the Head Sheristadarship became
permanently vacant and as no one officiated for
me as Nail the duties of both the Head and
Nail devolving on me perhaps it will not be
deemed objectionable to allow me to draw the
full pay of Head Sheristadar that of my
own office being a saving to Government.-

III of 1857 I have the honor to state that it the orders
of Government for the discontinuance of the practice
of levying fines on trespassing Cattle having been
communicated to the Rajah of Venkatagherry the
owner of the most important estate in this Dis-
trict, I received a reply last Month in which
the Zemindar strongly urges that it will be

to deprive him of this source of Revenue
which likewise affords protection to cultivation
in his Zemindary where the system of Amany
or the division of the crop prevails to a large extent

2 The Peishcush of this Zemindary was
not fixed like most others upon any ascertained
assets The Peishcush paid by the Zemindars
in the days of the Nabob was continued with-
out addition on account of his being relieved from
the charges of Keeping up a Military force There
seems no reason to doubt that the Zemindars exer-
cised the right of levying Banday from a long
time past.-

3. Mootah pond or less important Zemindary is somewhat similarly circumstanced the
Peishcush paid in the days of the Nabob having
been continued without any enquiry into its assets
The question must therefore be disposed of in
accordance

Fort St. George 2d March 1858

accordance with the instructions which may be considered proper to issue with regard to the Venecatagherry Zemindary - at a subsequent period when the assets of Mootial pandoo came under enquiry in

Report to Board of Revenue dated 1st October 1819 Para 67

Bundary is distinctly mentioned among its assets.

4 With the exception of a part of Calastry which estate should be reported lowly the Collector of North arcot, the only other Zemindary in this District is Choondy - Its Peishcush was fixed at a comparatively recent period on the average Beriz of 9 years from 1237 to 1245 in two of which a sum of Rupees 76-7-11 viewed for trespass of cattle is included in the assets.

5 The owners of the numerous Shrotriem Villages in the District and certain Poligars might also lay claim to compensation in the event of being deprived of this source of income.

6. Under these circumstances and with reference to the established customs of the country which is undoubted by to shew that Bundary has long been levied in this district, I consider that it would be better to exempt the lands of Venecatagherry, Mootial pandoo and Choondy for

from the operation of the act, except in cases of cattle trespassing on high Roads or other Government works, the existence of which might render such protection necessary.—

7. I am also of opinion that there will be considerable difficulty in checking the practice of levying fines on trespassing cattle in Shrotriem or other Villages which are not under Ryotwary management but perhaps it may not be considered necessary or desirable specially to exempt these small tenures from the operation of the act.

8. In conclusion I beg to bring to the Board's notice that the proposed arrangements for erecting pounds in the different Villages have not as yet been sanctioned A letter was addressed to the Sessions Judge on the 20th May last by the late acting Magistrate forwarding with reference to Extract Minutes of Consultation under date 4th April 1857 a list of the number

B. No. 641
From the Collr of Canara } Sir.

I have the honor to submit a report on the Salt revenue of this District for the quarter ending 31st December 1857.

2. There has been a decrease in the sales both for home consumption and for inland trade during the period under review as compared with those effected in the corresponding quarter of 1856.—

	31st December 1856		31st December 1857		Decrease.	
	Mds	Rs	Mds	Rs	Mds	Rs.
Home Consumption	53,502	53,605	47,829	47,834	5,673	5,771
Export	64,207	67,115	54,800	54,820	9,407	12,295
	117,709	120,720	102,629	102,654	15,080	18,066

The

3. The falling off amounts to about 11 per Cent in the home market and 19 per cent in export trade.

4. The former was experienced chiefly in the Town of Mangalore and in the Talook of Anekola – In Mangalore the falling off may probably be connected with the exceeding high prices of Grain and all necessaries of life. The poorer classes in this large Town were at one time during the Monsoon suffering considerably and they are consequently unusually badly off – Rice has reached a price which makes the fortune of the Merchants and the former but presses very hard on the labouring classes who after all pay a large proportion of the Salt tax.

5. The decrease observable in the Anekola sales are partly owing to the state of the Devamunny Ghaut which has now been closed for repair. By this road much of the Soudah Talook was supplied with salt but it must be added

Imports from Goa 1856 Ind. Mds. 7083 / 1857 Ind. Mds. 9054 –

added that the importation by land along the Goa frontier has increased considerably and the deficit is not really so large as it appears to be.

6 Among the apparent causes of the decreased export of salt during the quarter the absence of Bombay salt at Pane Mangalore and the state of the Devamunny Ghaut stand foremost.

7. In the South, Merchants bought Canara salt at first when nothing else was to be had but they do so no longer. Whether they have gone to Malabar or Bombay salt can be discovered probably from the sale returns of that District but certain it is that the demand for Canara manufacture has fallen off greatly at Pane Mangalore.

8. The large sale depôt at Kutyne below the Devamunny Ghaut has been closed I may say with the Ghaut itself and I cannot discover that a fair proportion of salt has yet been sold at the more northern depôt at Lunacullah near which the Coimpla trade now passes via the Arbyle Ghaut.

Fort St. George 2d March 1858.

Ghaut. This is owing probably to the change of route which being new perhaps to most or many of the traders arrangements were not made by them early in the season for procuring return loads of salt. On this head I cannot however speak with any degree of certainty but as I know that the trade current though diverted flows down the new channel as strongly as it did down the old one I anticipate different results during the present quarter and a more complete transfer for the time of the salt sales from Kutgal to Saunkutta.—

9. Imports (by sea) of Goa salt have fallen off in consequence of the importation of that Salt by Government or the establishment of new fiscal arrangements in Goa.—

Imports by land have increased. The proportions of increase and decrease under the above heads are shewn in the accompanying figures Statement:—

Imports

Fort St. George 2d March 1858

	31 Decr 1856		31 Decr 1857		Increase	Decrease
	Md. Mds	Rs	Md. Mds	Rs	Rs	Rs
Imports by sea	3602	2,889	919	804	"	2,085
Do by land	7083	5,313	9054	6691	1378	"
	"	8,202	—	7595	1,378	2,085

10. The stock of salt on hand is unusually small owing as the Board are aware to, two successive seasons unfavorable to its manufacture. The importations during the period under review are double those of last year— Then they consisted of Bombay salt now of that brought from Goa.—

The following table gives the quantity actually received and that which ought to have been received within the quarter according to the contractors engagement:—

October

Fort St. George 2d. March 1858.-

	Quantity of Salt Contracted for	Ditto received	Balance
	Ind. Mds.	Ind. Mds.	Ind. Mds.
October	"	"	"
November	36000	36,960	53,641
December	54.600		

From this it will be seen that the contractor is far behind hand. He asserts that the full supply contracted for cannot be procured in the Goa territory and I have addressed the Portuguese Government requesting information that will enable me to test the truth of this statement - This subject will probably be brought before the Board shortly and I will only now advert to present stocks and supplies with reference to our being able to meet future demands. Salt of this years manufacture will not be available until December

Fort St. George 2d. March 1858.

December next 1858.-

Present stock amounts to 338,737

Add expected imports from Goa — 76,025

Total — 414,762

Probable sales to December 1858. 307,427

Amount by which stock must be increased to meet demand 92,665

Sales have been estimated by reference to those of the past year allowance for wastage being included. The quantity of Goa salt contracted for was 216000 Ind. Mds. - The importations are put down at 96000 Mds. the quantity the contractor represents as obtainable - Part of this has been already received and entered here as stocks.-

11. According to the above calculations we shall still require 92,665 Ind. Mds. of Salt to meet probable expenditure up to December 1858.-

12. If then Goa salt cannot be procured and the outturn of the last two seasons has been so bad that stocks are probably low I must lay Goa salt as soon

soon as manufactured or fall back on Bombay — Here however my hands are tied by the Government proclamation on faith of which Bombay salt has lately been imported by private traders.

13 If these importations were of a character which promised a fair supply the object of Government would be attained and the probable failure of the contract for Goa salt would be of little importance but whilst I am obliged to admit that the opening of the ports has taken effect it is only to an extent which embarasses me by creating a difficulty in applying for cancelment of the orders of Government above alluded to and at the same time failing to secure any adequate supply of salt.

14 Up to the 22d instant 38 11 Maunds of Bombay salt has been landed but in consequence of the price placed on it (8 Annas per Mercal) none was sold for some time. By last advices 904 Maunds have

have been disposed of at the above rate equal to 7 Gorces 226 Mercals of 120 Indian Maunds per Garce. Government Salt sells at 4a 7p per Mercal. The highest price ever charged for Bombay Salt was 5As 9p per Mercal and it is surprising that Merchants can find Customers when their demands are so exorbitant.—

15. The rates demanded and paid show the comparative value of Bombay and Canara salt in the eyes of the native dealers and although the importers may have overshot the mark in the present instance so large a Margin for profit is still left that I hope others may enter the trade before the season is too far advanced.

My only chance of escape from a dilemma in which a combination of circumstances has placed me is in the development of private trade or the purchase of Goa salt of this years manufacture as soon as it is made for the prejudices of the people would prevent their taking other salt than

that.

Fort St. George 2d March 1858.

that procurable on the western Coast could I get it Goa Salt is manufactured earlier and the crystals form more rapidly than with us. A supply can be obtained in March and April, but the wastage will be great and unless brought to the Southern Ports only endless frauds would be committed at our Salt pans. Should the present contract prove the failure I anticipate I may however be obliged to allow the contractor to furnish new salt to complete the quantity required.

16. Under these circumstances the necessity of closely watching the progress of events is sufficiently evident and I shall anticipate my nexct quarterly report and keep the Board informed of the arrangements I may from time to time find it necessary to make.

Sir

I have the honor to forward Copy of a letter from Mr. Walker in charge of one of the parties on the Madras Survey applying for the balance remaining undrawn from the sum of 175 Rupees allowed to the Surveyor in the amount sanctioned for the survey party first appointed

2 Mr. Walker drew a salary of 175 Rupees monthly from 1st March 1854 to 12th June 1857 on which date the Establishment of the Department of Public Works was reformed

3 He has since drawn Rupees 96-1-4 Military Pay as Sub Conductor and Rupees 85 and 15 travelling allowance Rupees 100 as Overseer in the Department of Public Works which last sum has been debited to the survey leaving a balance undrawn of 75 Rupees monthly and which from 13th June 1857 to 25th January 1858 amounts to Rupees 555:7:8.

4 On the 25th January he was temporarily transferred to the Survey, promotions taking place

place in his room in the Department of Public Works, and since that date he will receive the full allowance of 175 Rupees as Surveyor, together with Rupees 96-1-4 as Military Pay.

5 Mr. Walker having worked hard and well at the Survey for 4 years, is worthy I think of the additional recompense, which it appears to me, it is now in the power of the Board to grant him, and I therefore recommend that it be passed to him.

Sir

I beg leave to refer to you again with respect to the arrears of pay to which I consider I am entitled, with a request that you will be kind enough to bring my claim to the notice of the Board of Revenue, with the view of its being finally adjusted. The appointment I received in March 1854 to the General Survey of Madras was a mere temporary one, and did not remove me from the Department of Public Works, and I should therefore consider that my Military pay and promotion could not affect, or be affected by the

the Civil allowance; more especially as the latter was a special allowance, granted for a special service - I was not in the receipt of any Military pay when I was first appointed to the Madras Survey, as I was then employed as an Assistant Revenue Surveyor, but I do not think that this invalidated my claim to the Military promotion I was entitled to by length of service and when the present establishment was framed, had I been employed in the District as an Assistant Revenue Surveyor I should have received both Military and Civil promotion as a comparison between myself, and men of about my own standing in the service, I give below the present receipts of a man who landed in this Country at the same time that I did and of one who was appointed to the Survey Department long after I was attached to the Department Public Works.

Since my appointment as Overseer in the Department Public Works I have drawn 100 Rupees (pay, and 15 Travelling allowances) per month, as Civil Salary from that Department. The survey allowance was 175 Rupees consequently by charging the former to the survey account and not to the Department Public Works there is a balance of 75 Rupees per month undrawn. It is for this balance that I make the claim, and to which I trust that you will give your kindest consideration.

Weights

4 Goony Seeds = 1 Chinnum (6 English Grains)
9 Chinnums = 1 Pagoda weight (54 grains)
2 Pagodas weight = 1 Dub = 1⅕ Tola.
16 Dubs = 1 Tunkum
1¼ Tunkum or 20 Dubs or 80 Pagodas
1 Cutcha Seer = 2½ Tolas.
5 Seers = 1 Viss = 120 Tolas.
10 Seers = 1 Gettoo
20 Seers = 1 Maund = 960 Tolas.
20 Maunds = 1 Candy

The above is called the "Chinna puddy" or small measure scale and is most used but there is a "Pedda Puddy" or large measure scale, in use at Masulipatam and in the Goodewada, Deevy and Sullopally, Talooks

Talooks (as well as the Chinna Puddy scales according to which seer is 22½ Dubs, or 90 Pagodas or 27 Tolas. In this case the Pedda puddy 'Viss' is 135 Tolas, and the Maund 1080 Tolas. There is also a Pucka Pedda puddy seer of 64 90 Dubs or 256 Pagodas, but the multiplies of this seer are not used

The weight of the Pooty or Candy varies in different Talooks as follows.

(weight) (capacity).

Masulipatam (the nominal Pooty)	800	Cutcha Seers
Masulipatam (the usual Pooty	960	a a
Cundapilly	800 / 1200	a a
Mylaverum	1120	a a
Juggiapett	1088	a a
Nundegam	1020	a a
Noonastalum	1000	a a
Ralunghy	900	a a
Sirwoor	850	a a

Grain Measures.

4 Giddas = 1 Sola = 20 Tolas of rice when heaped.

2 Tolas = 1 Tavva or Puka Seer containing 80 Tolas of rice when heaped.

2 Seers

2 Seers = 1 Manika (sometimes called Adola)

2½ Pucka Seers = 1 Coonchum = 360 Tolas

12 Seers = 1 Guercal

28 Seers = 1 Toom

20 Tooms, or 960 Seers = 1 Pooty or Candy

All the measures are supposed to be heaped according to the experiments made in 1852 the heaped Coonchum contained on an average 2½ Pucka Seers or 360 Tolas weight of rice but varied between 320 and 400 and when it struck it averaged 280 Cubic inches, but varied greatly -

In the Returns to the Circular of 1855 a Coonchum of 12 Seers is mentioned (but the seers are probably the old seers of 22½ Dubs or about 27 Tolas each, or a Total of 320 Tolas corresponding with the 2½ Pucka Seers Coonchum of Rajahmundry) There is no such Coonchum now, though in accounts the Pooty is still divided into 80 lbs called coonchums or in Land Measure, 213 percent coonchum = 1 Pooty -

This does not apply to this district at all and therefore it had better be omitted altogether

In

In the above returns, mention is made of the Tuvva, as equal to ½ a Manika of 2⅛ Seers - The present ½ Manika Tuvva is considered the same as a Pucka seer -

In the Talooks of Palunghy and Neddavole, the Pooty or Candy is considered 900 Seers weight of rice instead of 960*

* It is believed that it differs also in other Talooks according to a fixed rate in each -

In the "Price lists" the Madras Garce is reckoned at 5 Pooties or 4800 Pucka Seers of 80 Tolas each -

Liquid Measures

In the Town of Masulipatam the Seer of 22½ Dubs weight (27 Tolas) is used for (Milk) oil and Ghee, and is supposed to contain 27 Tolas weight of each of those articles -

In other parts of the District the Grain Measure known as the Pucka Seer is used for liquids -

B[d] No. 265
From the Collector of Bellary ———

Sir,

In my annual report on the local Fund I was unable to send the statement of the proposed operations for the current year required by Rules III of Rules for manage-ment of Ferry and other Local Funds in consequence of not having received estimates from the District Engineer for works that we could recommend. I have now the honor to submit an estimate amounting to Rupees 1710 for a road to the important Ferry at Hunsagar on the Toombabadra river and I purpose expending

placing that sum at the District Engineer's disposal for the immediate execution of the work.

2. The balance of the Ferry fund in hand was at the commencement of the Official year Rupees 11382 — 5 — 1 of which none has yet been expended I am in daily expectation of receiving other projects from the District Engineer for the improvement of the Ferries, which shall be hereafter submitted to the Board for approval if necessary. For not having previously apprized the Board of the proposed operations I think it probable that their special sanction may be necessary on which I beg to receive the early order of the Board.

A Plan and estimates of the work proposed at Humsagur is enclosed for the Board's inspection which I request may be returned as not being required, I believe in the Board's Office.

From the Actg Collr South Arcot

Sir,

In obediance to the directions of the Board conveyed in the letter from the Acting Secretary dated 5th September 1857, which I very much regret to find has remained so long unanswered, I have the honor to forward the required Statements exhibiting the duties and responsibilities of the Tahsildars in this District.-

2 Besides the Statement of the duties &c. of Tahsildars, and the detailed Statement of Establishments of every description in each Talook of the District which are forwarded in the forms required by the Board, I have added a third which exhibits at one view the entire Establishment of the District and the Total number and Salary of those officers who are considered to be transferable to the Police in the event of a Separate Police Force being organized.-

3 I trust that these Statements with the annexed explanatory remarks will afford all necessary information.-

Statement exhibiting the duties and responsibilities of Arcot Tahsildars in the District of Southern Division

Number of Tahsildars	Average Number of Revenue cases to all sorts disposed of in a year by each Tahsildar.	Average Number of Criminal cases disposed of each year by each Tahsildar.	Number of cases of all sorts referred by the Collector or his covenanted Subordinates to the Tahsildars for Report in each of the Years 1854-1855 and 1856	Number of cases finally disposed of by the Collector or his covenanted Subordinates after report from Tahsildar in each of the years named in Column 4	Number remaining undecided at the end of each of the years entered in Column 4.	Longest period for which any case had been lying over and the average age of all cases lying over at the end of each of the years entered in Column 4	Remarks
1	2	3	4	5	6	7	
			1854/55 2289	1569	720		It is impossible to make any entry in Column 7 from the returns furnished by the Tahsildars-
13	1906	311	1855/56 2893	1987	906		Most of the cases not disposed of are of a trivial nature and lie over partly by neglect of the Officials but chiefly owing to the non attendance of Parties themselves. It is probable that more than one half of the number of cases entered in Column 6 was subsequently disposed of in each succeeding year.-

Acting Secretary to the

Fort St. George

Bo. No. 334
From the Collr. of
Vizagapatam

Sir,

With reference to Extract from the Proceedings of the Board of Revenue under date the 3d. November 1857, stating that the amount realized by the sale of the dilapidated Government building, its site and the adjacent Lands in the Village of Settoor referred to in my letter of 4th. December 1856. should be carried to the credit of Government but if there is any work of special utility in the Village which can be carried out with the said sum and with other Voluntary contributions from the residents, or if it can be made the commencement of a Fund for local municipal purposes, the Board will not object to apply to Government for permission to appropriate it to

for

for such an object, I have the honor to inform you that inspected the locality and it having been represented to me that construction of the following works Viz.t a well guarded stance for the proper Security of carts, and 15 bazars with a well and a Mosque should try in its vicinity would be of great utility to the Public and that the works appeared to me to be highly desirable not only to promote the convenience of the people but to render the Village secure, I have marked out places for the same, and for a Public market on a portion of the Government land remaining unsold.

2. The Estimate submitted to me by the Sub Collector for the works in question amounts to Rupees 1,100, but as the sum in deposit being the sale proceeds of the grounds Viz.t already sold amounts to only Rupees 791.1.4 I am of opinion that the deficiency of Rupees

Rupees 209 should be made up by the disposal by public auction of the remaining vacant ground which is 14334 13/32 Carpenters square yards in extent exclusive of the portion assigned for the Market &c, stance for Carts and Bazars enumerated above.

3. I therefore request you will be good enough to procure the sanction of the Board for the sale of the above extent of waste land, and for appropriating a portion of the sale proceeds together with the amount in deposit, for the construction of the works proposed if the Board approve of the same.

4. A small sum such as may not be felt as burdensome, will be collected from each Cart taking advantage of the Stance, besides the rent that may be paid by persons who make use of the bazars. The amount thus derived will be appropriated for the improvement of the works, and for

for maintaining an Establishment required for guarding the same.

5. With reference to the latter part of para 2 of the Board's Proceedings under reply, I have the honor to inform you that the sales of the Lands &c.a referred to in my letter of 4th. December 1856 have been outright and no sum is paid by the purchasers either as Swamibhogum or other wise.

Sir,

B. No. 683
From the Supte. of Stamps

I have the honor to inform you that Messrs. Commiade Martins and Co. having tendered 400 Reams of Portuguese paper at Rupees Five per Ream for the use of this Department, I addressed them on the subject requesting them to state with reference to Para 2d. of Extract from Minutes of Consultation dated 30th September last, communicated with the Boards Proceedings of the 30th idem whether they could not make some reduction in the price. A Copy of their reply is annexed for the information of the Board

I beg to add that as paper of this description is not to be had in the Madras Market and a supply will soon be urgently needed in the Office and further as the Commission of the Hyderabad Assigned Territories indents for Stamps on paper of this description, I request to be favored with the instructions of the Board whether the tender is to be accepted or not.

The sample of paper marked A. is the quality now tendered and that marked B. formerly purchased

Superintendent of Stamps

We beg to acknowledge the receipt of your letter of the 5th instant requesting to be informed if we could make any reduction in the price of the 400 Reams Portuguese paper we have offered for sale to your Department at Rupees 5 per ream.

In reply we beg to inform you that in the present state of the market this paper

Fort St. George 3d March 1858

paper is worth the price we have fixed on it and we are not prepared to accept a lower figure. But if it can be of advantage to your Department to secure thro' our agency your Annual supplies we can on future transactions make a small abatement in price - considering that such supplies will not be exposed to the risk of an uncertain market - we have extensive dealings in the Import and sale of Foreign Papers and on enquiry you will doubt not be able to ascertain that we are in a position to execute your orders with ease - A master Ream of the Paper we have now for sale is herewith sent to enable you to ascertain the actual quantity in each ream. On close examination you will find the 400 Reams contains about 10 per Cent more serviceable sheets than what is generally found on taking delivery of similar Paper. If it is your intention to secure these

Br. No. 488
From the Ag. Coll.r of Madura } Sir

With reference to an Extract from the Proceedings of the Board of Revenue dated the 6th May 1857, I have the honor to submit the following remarks. –

2. What is held to be Dry Gardens in this District is no more than that explained by the Board. Wet lands when cultivated with Bette, Plantain and other superior products were called, Wet Gardens, which term no longer appears in the accounts, as observed in former letters. –

3. As regards Gardens under Tanks and Channels, it was suggested by the Acting Collector Mr. Sullivan, that they should remain under

Fort St. George 4th March 1858

under the same heads, as they do not consume the same quantity of water as Wet lands and as the water is not kept stagnant by ridges - These lands are situated indiscriminately among Nunjah lands close to, or at a distance from the Tank or channel, as the case may be but no regard seems requisite to be paid to this point. The means of irrigation are certain and the Board seems inclined to class the land as Nunjah with an assessment proportionate to its advantages - This can be carried out, and the assessment to be so fixed, should be the Nunjah maid & Poonjah or 1/2 a Nunjah tax for the Principal Division, where the Nyaout is but 2 Cawnies, and 1/2 of the rate levied on the adjoining Nunjah fields for the Sub Division, where such half is less than the existing Garden tax the same being retained.—

para 12. 4. As regards "Tiervey Garden converted

Fort St. George 4th March 1858

converted into Wet" it is the custom of the District to levy Teeruvah Jastee on all lands converted into Wet under any sources of irrigation save those coming under the new rules - As the Government in para 11 of Minutes Consultation dated 21st April 1856 expressed disapprobation of the system and observed that to levy Teeruvah Jastee unless the land receives Government water is at variance with the principles now recognized, Mr. Sullivan stated in the concluding para of his letter to the Board, 3d April 1857, that the Tax on the 15 Cawnies (vide 18 as observed in para 14 of the Proceedings under reference) under wells will be remitted when sanctioned, on the supposition that the whole of the lands received irrigation from Wells as at Survey and that no Government water was used but present enquiry only partially confirms this supposition, because only 6 Cawnies are found to be under Wells and the remainder

remainder is made Tanks and Channels
The Jastee on the former portion alone is
now requested to be remitted.—

5. In reference to para 14 of the Boards
Proceedings, it is to be observed that the
amount by which the Nunjah Tax is less
than that of the Garden is 3-6-3 in the
Principal Division and 1-5-4 on the Sub
Division— These sums arise from the
42 Cawnies under Tanks and Channels
The Board are of opinion that a
transfer to the head of Nunjah with
a Tax proportionate to the advantages of
the particular land is desirable This can
be effected in the same manner as suggested
for Gardens.—

6 The Nunjah Cultivation on these
lands is casual as is known from experience
The measure recommended would cause a decrease
in some cases, in the present assessment, in the
Principal Division, but nevertheless it should
be sanctioned subject to renewal, if the result
after 10 years prove that these lands can be
permanently

permanently classed as Nunjah should the

Furnishing the information called for in Para 1 of the Board's Proceeding of the 15th October 1857 regarding the issue of Puttahs in the names of Pungalies and when Sawmybohgum was first claimed by them.

With reference to para 1 of the Board's Proceedings of the 15th October 1857 desiring to be informed when Puttahs were first issued in the names of the Pungalies, and when Sawmybohgum was first claimed by them and for what period such claim has been admitted by the parties to Petition No. 388 of 1857 (herewith returned) I have the honor to inform you that the system of granting Puttahs to land holders was first introduced into this District in Fusly 1235. A reference to the records and the Tahsildar's report on this subject shew that Puttahs are from the above Fusly being issued in the names of the Pungalies for the Village in question.

2. The origin of the claim for Sawmybohgum cannot be traced. It has been

Fort St. George 4th March 1858.

been ascertained that in Aumboo 1013 corresponding with A D. 1834, the ryots had entered into an agreement with the Pungalies to pay them Sawmybohgum at the rate of two fanams per chain of Poonjah land. Subsequently in 1843, the Pungalies had instituted a Suit in the Principal Sudr Ameens Court for the recovery of Sawmybohgum and obtained a Decree in their favor which was confirmed by the Zillah Court on an Appeal preferred by the ryots. But since then, the Sawmybohgum has been reduced to 1½ fanam per chain by mutual arrangement between both parties as appears from the Urzee of the Tahsildar. The appeal Decree referred to above was passed in 1848, and from the circumstance of no steps having been taken for a further special appeal that year, it must be reckoned as the time from which the claim for Sawmybohgum has been admitted by the

3 With reference to the 2nd para of the Boards Proceedings under reply. I have the honor to state that from what is mentioned above, it will be seen, that no evidence is furnished by the accounts and Tahsildars report in proof of the petitioners assertion, to the effect that the Demand for Sawmybohgum and grant of Puttahs to the Meraasidars, is of recent introduction -

Should the Petitioners succeed in establishing the original transactions upon which they base their claims, and also prove the present illegal possession of the shrotriemdars they will be entitled to

Sir,

In reply to Paras 1 of Extract from the Boards Proceedings No. 3612 of the 24th October last, I have the honor to inform them that the course therein observed to have been proper, would have been followed by the late Mr. Cocke in the enjoyment of his farm, or had he worked the Quarries during the period intervening between the date of its sale to him, and that of his default to furnish the requisite security. But as he had not been actually placed in possession of the farm, or worked the

the quarries, it was considered expedient to put it up to sale for the same period for which it had been originally knocked down to him, and which as observed in Para 3 of my letter No 419 of the 9th December, was in accordance with the prevailing practice of the District where leases for a whole year are often taken in the middle or towards the end of the year without the period for which they are taken being ever questioned the amount of produce being the point on which the profits of the lease are calculated. The Board must be well aware, for instance, that mangol Gardens are often leased at the Summabundy when perhaps three quarters of the year have expired.-

2. The Board Remark at the end of the above Para that "the terms of the advertisement actually issued leave the Parties a colourable pretext for ascertaining that they understood the Rent to be for 3 full years." In the advertisement issued the word Fusly year was thought used and as the termination of the Fusly year was on the following 12th July that date was necessarily

necessarily the conclusion of the first Fusly year of the lease- leaving it appears to me, the Petitioners no right whatever of viewing the years in the light put by the Board.-

3. As regards the Claims for remissions which the Board seem to find difficulty in disposing of, I beg to observe that on my agreement executed by the Petitioners binding themselves to liquidate the Kists of the two Fusslies 1263 and 1264 in certain instalments under a Penalty of the forfeiture of the rent in default has been discovered among the Records of this Office. Copy and translation of which are herein enclosed. From this document it will be seen that the remissions now sought is wholly uncalled for and would have been claimed by them at the time, if they had sustained any real loss. The conditions of the agreement deprives them of all claim to remission

4 Copy of the advertisement issued as well as a translation of it in English is herewith

herewith forwarded as required by the Board. No orders of any kind were passed by the late Lt. Colo. Cochrane and those of Lt. Col. Smallett, I am informed were merely verbal.-

To the Board 14th Decr. 1853 From Do. 5th January 1854

5.- In respect of the amount forfeited by the first Renter Veeravengada Ramanoojiah, I beg to refer the Board to the correspondence marginally noted from they will perceive that the Amount of his deposit Viz.t Rupees 955 was ordered to be carried to the credit of Government and that he was relieved from all risks attendant on the resale of the farm under the circumstances therein set forth.-

2. Petitioner, one of the 3 Minor Proprietors of Oottoocoondoo, in whose behalf it was ordered by the Court of Wards to be taken under their manage- ment in their Proceedings dated the 15th November 1852 requests that he may be placed in posse- ssion of the estate in consequence of his coming of age.-

3. The other 2 Proprietors, as well as the Mother and Guardian of the Petitioner, demurr to a com- pliance with this request urging that in the event of this application being acceded to the Property would be likely to be ruined, and the whole family lose all benefit in it.-

4. From enquiries instituted their apprehensions seem

seem to be well founded as the Petitioner is not reported to be likely to manage the property to advantage and it remains therefore for the Court to consider whether they will put it in his hands against the consent of the other Proprietors or not.—

Board of Revenue
Fort Saint George

B. No. 585
From the Collector of Tinnevelly

Stating that the certain lands enumerated were waste when they were originally granted to Mr. Young with the exception of a little portion of the same which was under cultivation as shown in the accompanying Statement and reporting in whose names Pattahs for the lands should be made

Sir,

With reference to Para 1 of Extract from the Proceedings of the Board of Revenue under date the 2d October last annexed to Extract from the Minutes of Consultation under the 17th August, observing that in order to decide the question whether or not Coopchund has a preferential claim to hold the lands therein referred to on Ordinary Pattah at the usual ryotwar rate of assessment, it is necessary to know distinctly whether the land was waste when Originally made over to Mr. Young. I have the honor to inform you, that from a Statement annexed to Para 7 of a letter addressed by Mr. Hepburn

a

Fort Saint George 6th March 1858.

a former Collector of this District to the Board of Revenue, under date the 7th May 1808, it appears that of the 206 chains of land originally granted to Mr Young, 196 chains were unfit for Cultivation.

2 From Paras 10 and 11 of the foregoing letter it would appear that out of the remainning extent of 1970 chains of land, 116 chains only were actually under cultivation, and that the remainder with the exception of 6 chains which were prepared for cultivation, was waste, and was overgrown with bushes.

3 From Para 17 of the above letter the Board will observe, that the amount of Tarwah levied on the cultivated portion of the land was 189 Chuckrums or Star Pagodas Rs 22-73 and that Mr Young got this land relinquished in his favor, on payment of certain compensation to the Ryots who held the same.

4 From the enclosed Statement No X

Fort Saint George 6th March 1858

it will be seen, that when the lands were originally made over to Mr Young a small portion only was cultivated, as above mentioned and even this portion appears as stated by Mr Hepburn to have been relinquished by the ryots in favor of Mr Young on receiving from him certain compensation for the same. The Razeenamah executed by the Ryots on the occasion is on the records.

5 With reference to para 2 of the Board's Proceedings under reply requesting me to give my opinion as to the party entitled to the Puttah, with the reasons on which it is founded, I have the honor to state that in 1837, when a renewed lease was granted to Ramsing and Chundoolaul, 1130 52/64 chains only were included in the lease the remainder having been carried to Iyen.

6 Though only 1130 52/64 chains of land out of 1970 originally granted to Mr Young, were leased to Ramsing and Chundoolaul in 1837 and the remainder or 539 12/64 chains carried to Iyen

10 No enquiry has yet been made as to the genuineness or otherwise of the said documents- I am therefore of opinion that if the documents prove to be true ones, and if no objection is made to them by any one, the waste land entered opposite to the 3 Villages abovementioned, in Column 13 of the accompanying Statement, being a portion of those referred to above as having been sold to the late Mr. Hughes in 1810 and 1812, should be granted to any Ryots for cultivation, in the event of Coopchund not consenting to take them on up himself, conformably to the practice observed in regard to the disposal of waste lands in the Zyen Villages of this District-

Statement

Fort Saint George 6th March 1858-

Zyen, Yet Puttah for the land cultivated out of the 539 17/64 chams which had been carried to Zyen as abovementioned, and for the Cultivation raised on the Porombokke lands referred to in Columns 4 and 5 of the Statement in the Margin of the Cowlenamah granted in 1837, is still given to Coopchund-

7 Out of the 485 29/64 chams of land exhibited in Column 11 of the accompanying Statement, a portion having been under cultivation at the time when the lands were originally made over to Mr. Young, I am of opinion that Puttah for the same should be made out in the names of the heirs of the ryots at in whose expense it was brought under the plough, and that Puttah for the remaining extent of land should be granted to Coopchund, in consideration of the Capital laid out by his ancestors in bringing the land under cultivation, securing to the ryots the right of occupancy which they now enjoy-

8. The extent of waste land shewn in Column 13 of the Statement should be incorporated with the Zyen lands and let to those ryots who may offer to undertake its cultivation-

9 As I concluded this letter Coopchund produced among other papers, 3 documents on Stampt papers, purporting to be the deeds of sale of the Cowle lands in the 3 Villages

From the Collector of Tinnevelly

Sir,

I have the honor to report for the information of the Board that I have suspended Teyagaraja Moodeliar ex Salt Peshcar from Office, for having on the 6th Instant, addressed an English Petition to me, in a highly objectionable and disrespectful style, when called upon to put in writing certain charges which he said he had to make against Narrainsamy Moodaliar the Jewabnevis reading the Urzees in the Salt Department, in the Collectors Cutcherry.

2. The subject of the Charges is at present under investigation by my

my Acting Head Assistant Mr Ames, and on the enquiry being completed, a final order will be passed in the Peshcar's case. The Peshcar has sent his English Petitions to me, expressing his penitence for having addressed me in an improper and disrespectful manner, pleading as sickness as his excuse, and he has also appeared in Cutcherry personally to beg pardon but pending the result of the investigation at present being made by Mr Ames, I have informed him that no order can be passed in his case. as far as the disrespect offered to me, I am willing to accept the Peshcar's expressions of regret for the same, he having intreated my pardon.

3. There is no Circular order to

to report to the Board the suspension of the Salt Peshcar, but as he is an Officer of the same rank as a Tahsildar, and I am about to deliver over charge of the District and proceed on leave to England, I have briefly reported the Circumstance to the Board. A decision in the case will be passed by my Successor, on receipt of the Acting Head Assistant Collector's report, with all the papers.

from the Acting Collector of Malabar

Sir,

With reference to the Board's Resolution, dated 5th Instant, No. 24, on the orders of Government dated 23d Ultimo No. 1343, on the subject of the building lease granted to Mr. Oughterson of Cochin, I have the honor, as directed, to furnish a Sketch of this as well as all other Ship Building lands at Cochin, together with a Statement containing the terms on which they have been leased. It will be observed that the leases vary from 2 to 25 years, at the end of which period they may be re-let or resumed at will.—

The only correspondence that has passed between the Board & this Office has reference to the lease granted to Mr. Oughterson, & is, as desired, quoted in the Margin.—

3 There are several other building yards in the Cochin side of the River and much eligible land for that purpose at Vypeen in the opposite side It may be advisable to reserve one or two of the Yards still Vacant for Public Building Yards & to prevent their erection of permanent buildings But it is obvious that Mr Oughterson's, on which so large a capital has been sunk, cannot form one of them. I trust therefore that the obnoxious condition may be cancelled

Sir,

Bd's No 868 - From the Collr. of Madras - - - 3.

I have the honor to forward for the orders of the Board a point upon which the Commissioner of Police has asked clearance and to which the enclosed Correspondence refers -

2 In Consequence of the discovery of Certain frauds in the issue of Columbos and Putlam Arrack in which some of the servants of the Dramshop Godowns and the licensed Shop Keepers named in the Margin, were by a full and Regular enquiry found Concerned the former have been furnished and the licences of the latter have been suspended for the period of 3 Months -

that unless his licence to the first party

plained that my licence being recalled his per
mit to the same party was no longer enforc

8 The Shop Keeper Complained on the
23d that he was still kept out of his sh
and this brought about letters Nos 8 and 9

9 It appears to me that the

Commissioner

Commissioner in taking his first objection had
over looked the fact of the transfer having been
brought to his notice and then in his letter of the 20
instant starts an objection never before made
though transfers of Toddy Shops constantly take
place and he obtains the licence issued from
his office in his own way - An arrack shop
is a valuable property and no transfer of one
has been made since the incumbencies of the
present Commissioner - the Toddy Shops however
differ only in name as far as this argument is
Concerned and transfers of them often take place -
10 His abrupt and summary manner
of procedure on the part of the Commissioner
may however seriously affect the Revenue if
persisted in -

11 I must again declare that I Cannot Conc
=ive such Shop Keeper dismissed or suspended to give
up the Police licence unless indeed it were by
an action of trover in the Supreme Court the man
might abscond or might declare the document
missing and as it is not produced the shop cannot
under the Commissioners present dictums be
again Rented Consider also the power of thus
=ing this office just into the hands of the rejected
Shop Keeper he has only to retain his Police licence
and

and the shop is permanently closed-

12 If my license is Revoked that of the Commissioner becomes inoperative and as he may just so forth what may prove a Complete bar to the Renting of a shop I request that the Board will if they agree with me in case the Government to direct the Commissioner to issue his license to a party producing mine for the same spot as previously licensed when no other obstacle exists than the none production of the Commissioners former license.

13 As he is the licensing officer the permit is Returnable to him if to any one but on the Revocation of my license it is not in my opinion of much importance what becomes of his

In reply of the official Memorandum of the Commissioner of Police of yesterdays date the Collector of Madras has the honor to observe that the two Puttah Licences granted to Aurokeasaumuny Chitty were in

Fort St George 1st March 1858

in substitution of others granted to Narrayan Moodelly and Vydeo Pillay whose licences had been suspended for misconduct -

2 Information of this change was given to the Commissioner in letter from this Office of 16 instant and as the shops were opened in the same place as those temporarily discontinued the Collector does not see how objection can be taken to them and regrets that his arrangements should have been thus summarily interfered with -

3 Four other shops have been licensed in the same manner but not opened as the Collector is informed in consequence of the Acts of the Police with Regard to the shops now under Reference -

4 As there is a loss to Government of 60 Rupees daily which will have to be accounted for to the Board of Revenue the Collector has to Request the Commissioner to state his objection to the opening of these shops -
