14993 Fort St George 10th September 1858

I declined also the Petitions to the Board in the results of these repeated failures An enquiry into the Petition shews that the Petitioners are not the original Inamdars but obtained the Village on the strength of a Cowle of Intr. Plan which he gave them on the Refusal of the true Inamdars to leave the Village at the Rent he asked them to pay & on their giving him a Rajeena. enamb disclaiming their full Inamdary Rights in the Village -

3 The Petitioners in No. 615 object to the issue of Inamdary Puttahs to the Parties under Reference & declare that suits for the acknowledgement of the whole Inamdary of the Village have been brought before the Courts by the Petitioners in No. 2056 but threwn out for various petty defects on their part They also depart themselves Capable of proving that the Petitioners in No. 2056 have attested their Bills of sales for Lands in the Village & thereby acknowledged in point of fact that they did not Consider themselves to be in the exclusive possession of the Inamdary -

4 Under these circumstances Considering that it is more than 30 years since the Duties were passed it appear to be the most advisable Course to direct the Petitioners in No. 2056 to apply to the Civil Court to enforce them by the issue of a Dowl Roobrunamah or to file fresh suits if they wish to hold the Inamdary Rights in addition to the Grama Maniam -

From the Collr of Chingleput

With reference to the Board's endorsement on Petitions 2056 of 1857 and 615 of 1858. I have the honor to furnish the following detailed report relative to the Complaint of the Petitioners against the Collector for refusing to grant them Inerasoy Puttahs in the face of the Court's Decrees which they allege secured them the Inerasoy of the Village -

2 The Decrees referred to by the former Petitioners had reference to some grama Inaeiem lands which they adjudged them to possess and further added that they appeared to be Inerasoidaroons, the

Fort St George 10th September 1858

the strength of a Cowle issued by Mr. Place with these Decrees in their hands the Petitioners applied for the grant of Inerasoy Puttahs to Mr. Fullerton the Head Assistant Collector who gave them an Endorsement that the Court's Decrees did not appear to adjudge them the Inerasoy and on the Petitioners afterwards appealing to Mr. Cochrane they obtained no better success as that gentleman gave them no answer & his Successor, remained satisfied with the advice of the Sabordar who suggested that the Decrees had been passed many years before and that a Precept should be taken out by the Petitioners, if they wished them to be enforced in their favor. A further Petition to myself was met in the same way - viz. that my Predecessors having declined interfering

To

at the quarries he also like the payments public servants was made to disgorge towards its recovery the tools were Gramotics & Baskets required for loading the boats-

3 Referring to Para 3 the names of the Culpable officers will be found above and the degree of their culpability may be taken at the rates they were made to Contribute towards the Revocamation of the Shells making due allowance of Course for differences in their salaries The Peishcar (Since deceased) as the local officer on the spot must be Considered the most Culpable but I am of opinion with reference to the Board's observation that the whole transaction will be unfavorably viewed by Government that the late Head Sheristadar as still more remiss in his duties and that much if not all that now has to be Remitted might have been Collected if he had at once applied to Dr. Smallett and sold the shells on the ground at the time of attachment instead of arguing with the Renters about Remission and leaving the Quarries and shells to their fate- It may however be

so said in his behalf that he was old & inefficient & found it advisable to retire on his Pension within a few months afterwards-

4 Draft of a proposed Moochulkah is enclosed as called for in Para 4-

5 In Para 3 of my letter of the 7th November last I stated that no arrangements were made for the excavation of new shells while the Farm Remained under attachment from October 1854 to June 1855 but this was a mistake as 9 Garees & 37 Parahs were reported to have been excavated during that period by one Venkiah- The amount due from him to Government Rs. 49-3-4 has been recovered reducing the sum to be written off to Rs. 1316-3-10.-

Fort St George 10th September 1858

delisted to the Public Servants more Reasonable from them in Monthly instalments till the whole was realized - The allusion to the excavators having been paid their hire in "shells" was an inadvertence, arising from my having some indistinct Recollection that an application had been Received from some of the excavators that they would prefer being paid in shells rather than in money & my thinking that I had allowed it in their Case Before sending off my letter to the Board - I particularly enquired of the Head Clerk whether this statement had been verified by a Reference to the Records & he assured me that it had but he never informed me that he did not look back to the Records, but spoke to the Goomastah who had Charge of them & that this Goomastah trusted to his Recollection instead of an actual Reference to the original Papers and the order passed on it & told him that the Statement was all right - It was in this way that the statement found admission into my letter, and I am not surprised that it should have attracted the Board's attention Contradicting as it apparently did

Fort St George 10th September 1858

did, my other statement to relative to the shells being dug up at the expense of the Public Servants The Contradiction however the Board will perceive with this explanation was more apparent than Real as the transaction if it had been allowed which it was not would have been a different one altogether -

2 In Regard to Para 2 the Goomastah was employed for 4 Months in 1855 from March to June Consequent on the order that had been given for the Shells present at the quarries being made over to Colonel Atkinson's Contractor - The object of his appointment was to accompany the boats to Madras & Collect the Value of their Cargoes at the basin as it was not till they arrived at the basin that Colonel Atkinson's Contractor would Consent to pay for them The quantity of shells found at the quarries then amounted to only 15 and odd Garce instead of the 117 Garce and 13 Parahs Reported to be at the quarries at the time they were attached and as the deficiency had partly occurred during the employment of the temporary Goomastahs

This course suggests the question whether the land transit also should not be conducted by the Shipper, and the price to him be restricted to the actual cost of the Salt on delivery at the Cotaurs, as must be the practice under the Excise, but as he has hitherto been relieved from undertaking the conveyance of the Salt, the Shipping of it may perhaps be a sufficient burden to impose upon him at the present.-

Statement

wood &c. more than three days.

3 Within this period the wood must be cleared or the Rent is levied.

4. In accordance with this practice the charge, complained against, was made, and if the Board are inclined to remit it, I think it can only be done for the reason that no such demand had been previously made, and that Petitioners might not have been aware that they were incurring it, but that hereafter Ground Rent will be collected.

5 They have occupied the ground since May, but the Rent was demanded from July, and the amount has been kept at the request of Petitioners in deposit, pending their reference to the Board.

6. I find that three other parties had paid on demand Rupees 73-2-1 as Ground Rent for portions of Beach occupied before Petitioners complained to me against the levy in their case. This sum has been carried to account, and I request the Board's orders for its remission if the request of the Petitioners is granted.

From the Collr.
of Madras.

Sir.

With reference to Extract Board's Proceedings 14th Instant No. 3082. I have the honor to state that the expenses of Cart hire, Twine, and sewing up bags, are the same on all occasions, but those of Peons and other incidental charges vary according to the period occupied in shipping.

2. They average about Rs. 2-6-0 per 100 Indian Maunds, and therefore it would be as well to adopt the proposal of the Board that export Salt be charged 15 Rupees the 100 Indian Maunds, the Government conveying it to the Beach, and leading the further transport to the means and at the cost of the shipper.

This

Fort St. George 9th September 1858.

the assistance of the Bombay authorities who in September last despatched a steamer to the Islands with a supply of rice, the charges on which, including Cost price, amount to the sum stated above.-

3. In consideration of the general poverty of the Islanders, and the circumstances under which the aid was afforded them, I trust that the indulgence shewn on the occurrence of a former misfortune of the same kind may be again extended to them by the sanction of the arrangement I have proposed.-

Reporting upon Boards Petition 2348 of 1858 complaining against the collection of Ground Rent on the Ground occupied in the Beach for storing wrecks.-

1. I have the honor to report upon Boards Petition 2348 of 1858.

2. The Petitioner have pretty correctly stated the facts of the case. Of course there was no supposition of a fraud on their part. Ground Rent was simply levied for the temporary occupation of Government land, and though, as far as I can learn, no similar charge has been before made for portions of the Beach taken up in the disposal of the Material obtained from wrecked vessels, it is probable, that the charge does not fall altogether unexpected upon Petitioners, who are Lubbay merchants of Madras, and who are well aware from their purchases in trade, that the Sea shore at the North Beach is charged the usual rate of 1 Rupees per Ground, when occupied by wood

Acting Collector

To

No. 48.

To

G. L. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George.

B. No. 2511.
From the Collector of Canara ...

Sir.

I have the honor to bring to the notice of the Board the circum- stances under which an outlay of Rupees 6377-8-5 was incurred in supplying the Ameen deevi Islanders with rice during the last Monsoon, and to request that I may be allowed to recover the amount from the Islanders in three equal annual instalments as their means are not such as to enable them to repay the Government outlay at once.

2. In consequence of the bad weather experienced on this Coast in the early part of May 1857, many of the Island boats when on their return with cargoes of rice, and other neces- saries, were obliged to put back to the Ports on the main land, leaving whole fami- lies without their usual supply of food. Under these circumstances Mr. Robinson then Acting Collector, applied to Government, and obtained

the

Fort St. George 9th September 1858

Collection and Balance.

2. Under the System which obtained previous to the 1st of July 1858 no items of receipts or Disbursements that were not entered in the Huzoor Treasury accounts were shown in the Returns Submitted to the Board or the Accountant General. but under the present Rules and forms both the Talook and Hoozoor accounts are the basis for the preparation of all the accounts to be forwarded to the higher authorities consequently the general Statements cannot be completed before the accounts from all the Talooks are received at the Hoozoor in each month.

3. The time prescribed for the dispatch of the accounts from the Talooks is the last day of the month to which they refer, and many Tahsildars cannot

Fort St. George 9th September 1858

cannot be punctual to this time Even supposing that they are sufficient time must be allowed for the transit of the Tappal Colligal is the remotest Talook in this District at a distance of 112 miles from Coimbatore on the Mysore frontier. The road runs through thick jungles infested by wild animals and the Tappal takes 9 or 10 days from Colligal to Coimbatore. The accounts of that Talook cannot under any circumstance reach the Huzoor station before the 11th or 12th.

4. Under these circumstances I fear I shall not be able to forward my monthly Statements of Demand Collection and Balance before the 15th.

5. The accounts due for July 1858. have been received from some Talooks. and are under examination. This being the first month

Board of Revenue.

B. No. 3799.

From the Acting Collr of Coimbatore ... } Sir

States that in consequence of the new forms and Rules of Treasury accounts both in the Mazoor and Saloks being brought into operation from the 1st July 1858 it will be impossible for the future to conform to the Board's Circular of the 20th May 1857 in respect of sending the Statements of Demand Collection & Balance.

The new Rules and forms of the Treasury accounts framed by Messrs Harrison and Brooks & sanctioned by Government in Extract Minutes of Consultation of the 12th May 1858 (copy of which I presume has been furnished to the Board of Revenue) as well as the Manual and forms of Salook accounts sanctioned in Extract Minutes of Consultation of the 19th April 1858 No. 499 being brought into operation in this District from the 1st of last month. I have the honor to state for the information of the Board that it is impossible for me in future to conform to the instructions contained in their Circular of the 20th May 1857 No. 1692, in respect of transmitting to them the monthly statements of Demand & Collection

Fort St. George 9th September 1858

To

G. N. Taylor Esqre.
Acting Collector of South Arcot

Bd. No. 4055
From the Collector
of South Arcot.

Sir,

I have the honor to Request that you will be so good as to forward my application for three months Cumulative leave of absence under Section XII of the absentee Rules to proceed to Madras and the Neilgherry Hills.

The last time leave of absence of my description was allowed me, was in Since 1855. I have therefore served the prescribed period and I shall feel greatly obliged if in forwarding this application you would recommend that my Request may be Complied with.

Acting Collector.

To D. Mayne Esqre.
Acting Collector of
Tinnevelly

Sir,

I have the honor to Request you will apply to Government to grant me

1852 was actually expended, but the 3d item of Rupees
120 sanctioned in 1856 was only partially incurred, as
in the meantime it occurred to the District Engineer
that the Estimated repairs would soon be rendered
useless unless the walls were rebuilt with stone in
chunam - The District Engineer accordingly prepared
another Estimate for 800 Rupees, which was sanctio-
ned by the Chief Engineer - But as the old Cut-
cherry is situated in a very inconvenient corner the
present estimate of 400 Rupees has been framed for
building a new Cutcherry in a central position in
front of the present Ameens Cutcherry.

2. Ramandroog is a poor little Village
and has no accomodation usually found at stati-
ons where the Collectors Cutcherry make annual
tours - And when the Ramanenally were being
made the site of that beneficial sanitarium which
has since been Established, it was found necessary to
make some place of the kind for the Cutcherry.

3. During the Collectors annual stay in hot weather

weather at Ramandroog the presence of the Head-
Sheristadar with a few Gomastahs to conduct the
current duties is indispensably required, and the want of
a small building for his Cutcherry people and records
is much felt independant of the accommodation af-
forded by the Collectors Tents - I therefore beg to re-
commend that the Estimate may be sanctioned -

From the Collector
of Bellary

Sir

I have the honor to acknowledge ~ the receipt of Extract Minutes Consultation No 1449 of 26th July last communicated by the Board under date the 28th Idem, wherein I am called upon to report why any separate Cutcherry is required for the Head Sheristadar at Rumondroog-

	Rs	
Construction of a small Cutcherry out of extra collection in 1848.	69-	In reply I beg to report for the information of Government that in the year 1848. a small building was erected for the use of the ~ Head Sheristadar's Cutcherry at a trifling expense of Rupees 69 from the Extra collections, and there were occasional repairs as noted in the Margin - The 2d item of 60 Rupees sanctioned in 1852 -
Amount sanctioned by Government under date the 12th January 1852 for the repairs of the above	60	
Do by the Chief Engineer on the 11th February 1856 for repairs &c for the same	120	
Do by Do in addition to the above sum for erecting walls with stone in Chunam	300-	
Amount of the present estimate for which sanction is now requested	1,400-	

3. Under the Head of Irrigation works no Knew works of any kind were undertaken, the Palaur Amicut and a few others Commenced when the Executive was in this Department having been stopped for want of Funds. The total amount of Expenditure under this head amounts only to Rupees 5825.

4. The greater expenditure seems to have been made in the Construction of Roads and Bridges. The sum Expended on which Amounted to Rupees 39,710 the major portion being laid out on the Adyar Bridge and on Amicut Trunk Road No. 6 from the Red Hills to Goomediproondy and Trunk Road No. 8 between Vellamundoor and Madooranthakum Branch Roads are being formed connecting different towns amongst which the road between Poonamally and the Railway station at Avady may be mentioned.

5. The only structure which appears under

under the head of Revenue buildings is the head Assistant Collectors Cutcherry which was commenced in 1855 and completed in the year under review at a cost of Rupees 2,323.

6. Under the head of Ecclesiastical buildings, the burial ground at Saint Thomas Mount was enlarged at an expense of Rupees 1,709.

7. The Military buildings at the Mount absorbed a good portion of the Funds placed at the disposal of the Public Work Department. The Hill on the Mount was fortified at an expense of Rupees 819 a double row of Gun Sheds was built for Rupees 16,332 a terraced Gun Shed for Rupees 1,039 and the married Men's Quarters now in progress have consumed Rupees 13,385.

8. These are the works which have been constructed or in progress during the

objection to its continuance

No. 108.

To,

J. D. Sim. Esqre
Secretary to the
Board of Revenue
Fort St. George.

Bd. No. 3935.

From the Collector of Rajahmundry.

Sir,

In reply to the Extract from the Proceedings of the late Commissioner dated 20th December 1855. I have the honor to state that the term "Tallah Motupha tax" is the name given to a tax paid by the Toddy drawers for the right of drawing toddy from such palmyara trees standing on jeyapty and Enam Vcs. lands as are called "Motupha Tallas," I have not as stated in my letter of the 24th Ultimo been able to ascertain how it has happened that certain trees are thus classed as subject to tax.

2. The trees, in the case under reference are mostly situated in what are called the asulmanaha tracts that is lands not included in the ordinary Cultivable area of the

village and in certain otherwise private gardens, at Narsapoor, and it is for these trees that the Toddy drawers have paid 110 Rs. for a considerable length of time, the sum forming a part of the total amount of the joint rent of the village. They do not pay any separate Motupha tax.

3. The Orders of Government referred to in the Commissioner's Proceedings under reply, do not I apprehend apply to Cases of the Nature under remark.

4. The Petition No. 951 of 1854 is herewith returned.

Rajahmundry District
Collectors Office
Cocanada 23rd August 1858.

/ Signed / A. Purvis.
Collector.

To,

G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George.

Bd. No. 2758.

From the Collector of Chingleput

Sir,

I have the honor to report on the progress and effect of Public Works in this District for the past Official year 1857/58.

2. Of the sum of Rs. 3,27,014 authorized to be advanced Rupees 2,23,321. were actually disbursed Rupees 1,04,196. on account of new works and Rupees 1,19,125. on account of Repairs.

Under

Fort St. George 9th September 1858.

2. Gopalkristamah is a very aged and
inform man, while Latchiah the Petitioner is about
50 and both active and intelligent, his claims
might therefore be considered on the demise
of the former on event which cannot be
far distant, mean while it would be a
hardship to turn out Gopalkristamah —
merely because of his informity, since as in
so many other cases of the kind those —
about him are able satisfactorily to —
carry on the duties in his name.

Signed/ W. Knox
Collector.

Fort St. George 9th September 1858.

is called Modoma Mohanapore granted by the Zemindar 1838 for the support of a Religious institution. The grant gives an Extent of 240 acres with a quit Rent of Rupees 5 — — per Annum 80.

	Land	Cess
Dry	50 —	6 4 —
Wet	30 —	18 12 —
	80 —	25 — —

acres of this extent have been reclaimed from Jungle and now bear a Cist of Rupees 25 — — The Exe Zemindar has begged me that Government may be requested in his name to leave this for the support of the Religious institution to which it is attached on the quit rent be fixed Rupees 5 — — with reference to para 15 of this letter &c. I beg to Recommend that his prayer may be submitted for the favorable consideration of Government.—

21. Besides the above there are 13 Agraharums 8 Almanices and 3 Mokasas granted before the Permanent Settlement they

Jody as per permanent accounts	11.01 — —	
Jody as now collected	13.11 — —	
Decrease	90 — —	

Nothing is known as to why this decrease was made—

Fort St. George 9th September 1858

they are described in the accompanying Statement marked D From this Statement it will be seen that the land under Cultivation now Greatly exceeds that Mentioned in the old accounts the figure is that which has been furnished by the village accountants. I have not the means of testing its accuracy, as there is a &c Chance of Survey in this

Regard to the Nature of the service required and the Custom of the Country round in every case no more was allowed than what seemed Actually requisite and all above this was resumed, but in some instances where the Enam was obviously an inadequate Return for the service and in Excess of the Enam was not resumed the whole of this however was only 880 Burrums: 136 acres. The Entire question of the Village servants in this district is to undergo Remodelling and pending the completion of the enquiry and the final order which may be passed upon the subject I think it advisable not to disturb the present Settlement The entire area of cultivated land in Mohurry which is now subject to full assessment is according to the nearest Estimate 32133 acres and the land which has been alloted for the Village service of all kinds bears a Ratio of 10 per Cent.—

19. With regard to the Six new agraharums alluded to in para 8 of the Commissioners Proceedings under date the 9th

9th April 1854 No 197 I beg leave to state that all of them have been resumed In Para 9 Mr. Elliot required further information with regard to one of the Resumed Agraharums named Nursinga pore. It was a grant made in the Year 1811 by Bundaru Balakristamah who was then proprietor of Mahurry. on a favorable quit rent of Rupees 50 per Annum. The whole Ayacut of this Village as described in the Grant is about 1,123 acres about 391 acres of this Extent

	Land		Cist		
Dry	138	"	40	8	"
Wet	249	24	175	12	"
Garden	2	32	"	12	"
	390	16	217	"	"

have been reclaimed from jungle and bears a cist of 217 Rupees this cist has been fixed on the average of the surrounding land and as will be seen is far from heavy the parties have held the land for 40 Years at a very low figure and have doubtless paid their expenses and made a profit though I cannot say to what extent these Expenses Amounted.—

20. Another of the New Agraharums is

will be submitted for the orders Government.

15. The Exzemindar of Mokerry granted about 340 Burruns: 68 acres of land to 5 Religious institutions established by himself the period of the grant of the Enams which this Extent comprises extends from 1834 down to 1841 He is anxious that these several grants should be left to be used for the purpose for which they were originally made all these have been resumed. and the portion already under cultivation Viz. 260 Burruns: 52 acres have been assessed at a sum of Rupees 126—8—0 with reference to his former positions as a personal favor and act of graceful consideration for a fallen family They to recommend that his prayer may be submitted to the favorable consideration of Government. If the Government see fit to accede to this prayer a Cuttoobady of 4 Annas a Burrun=or 1—4—0 an acre may be assessed upon the Gross Extent of the Enams. the Gross Amount of Cuttoobady thus assessed will be Rupees 85—0—0 which

I.

I think the Exzemindar will gladly pay it being fully explained that these should revert to Government if alienated from the purposes of or which they are now granted.

16. It now remains to speak of the service Enams which form a portion of each of the above mentioned four classes. The Gross Extent of land under the head is 18908 Burruns: 3781 3/5 acres of this Extent 16176 Burruns: 3235 1/5 acres have been left to Remunerate the men who perform the village service and the remaining 2732 Burruns: 546 2/5 acres have been resumed.

Service Enams

	Continued	Resumed	Total
Granted Anterior to Permanent Settlement	3586	515	4101
Granted Posterior to Do Do	528	32	560
Time of Grant Unknown	10214	1858	12072
Unsupported	1848	327	2175
Total	16176	2732	18908
Measured	16139	2732	18871
Not Measured	37	"	37

17. The largest item in the four descriptions of Enams under this head is that the date of the grant of which cannot be ascertained but which is Mentioned in the accounts of 1817/1226 —

18. The present Settlement under this head has been made Chiefly with

Regard

=9 3/5 acres on which the late Mother of the Exr. Zemindar of Mohery planted a Mangoe Tope has been continued to him as I felt sure such would be the wish of Government and it was felt he Exr. Zemindar has a personal interest in the Tope.—

An Enam unsupported by any document or entry in the public accounts of 11 Burnums= or 2/5 acres has been continued to a very old man for his life as he has been in Enjoyment for a long series of years as has been ascertained by Telugu Doombalas which he produced and the signature in which was stated to be Genuine by the son of the Native Official who signed it 199 Burnums=39 4/5 acres have been resumed as being in Excess of the Extent to which the holder were entitled 6889 Burnums 1377 4/5 acres are individuals Enams of the 778 Burnums. 155 3/5 acres belonging to Six religious institutions.

In

In one Set of Returns of 1817/1226 these Enams are mentioned with a remark to the effect that the date of their grant could not be ascertained and with the other part of the return on which the figure of Extent was given off In another set which gives the incomes alone, the income of these Six Grants is stated to be Rupees 357. These Six Enams may therefore be taken as being of the same Category as those which are adverted to in para 12 of this letter and may be treated in precisely the same manner the Remaining 611 Burnums= 122 1/5 acres have been resumed as being Enams unsupported by any Authority

Vide Statement marked C

In regard to the Extent of Enam land resumed in each of the four Class above described I Request that Authority may be granted me to enquire into any Cases of Enams for which documents of a Reliable Character may hereafter be produced. the Result of which enquiry

will

12. I confess I am some what at a loss to deal with these Enams. The note page 463 of Revenue Board's C.O. and the orders of the Board to which it refers lead me to the conclusion that Enams Entered under the first head in Column 5 should be left in the possession of the present holder, as representatives of the original institutions, the some may be said of the 172 Burnums: in 2d column but nexertainty can be attained to as to the land under private parties and I am unable to say now that they are in the families of the original grantees how long they have been enjoyed previous to 1226 and as Government have decided that no length of possession can give a title when the nalidity of the enamed can be impeached I am of opinion that the Enams mentioned in Col: 6 and all those under the 3d head should revert to Government as the nalidity of their titles is decidedly unpeachable.

1st Class. 13 The 1st Class of Enams are those which

which are not supported by any authority and comprise 7729 Burnums: 1545/5 acres of the 641 Burnums: 128/5 acres have been left to be enjoyed by the Enamdars and the remaining 7088 Burnums: 1417/5 acres have been resumed.

11. Enams Continued to the holders on the strength of the Persian Doombalas and Certified Copies of the Original puttahs produced since this enquiry was set on foot amount to 557 Burnums: 111 2/5 acres the remaining 84 Burnums: 16 1/5 acres have been continued to the holders on the following Cases.

a piece of land of 25 Burnums: 5 acres upon which two individuals have planted a Mangoe Tope for the benefit of the public has been left to be used for that purpose.

Another piece of land of 48 Burnums:

9.

14928

Fort St. George 9th September 1858.

Burnums: 332/8 acres which has been
resumed on this Ground Vizt. the uncertain-
ty of the date of Origin. There are however
borne on the returns of 1817/1926 and in those
taken in the subsequent years the Returns
of 1817/1926 were taken about 40 years ago
and it appears that it was then found
impossible to ascertain who made
these grants and when they were made
The majority of these Enams are attached
to religious institutions of ascertained
Antiquity. There are also some vague en-
tries mentioned that the lands were
given by the Nasendrades "given
by the Rajee" given by the Renter &c.
The following tabulated State-
ment which contains detailed
information on this subject
may be deemed acceptable
as tending to Elucidate the
question

| 14928 | | |

Fort St. George 9th September 1858.

the extent given in the puttahs 2114 Bur=
=runns: 422 4/5 acres have been resumed
being composed of Enams held without
any authority or circumstances in their
favor.

3d Class 9 The 3d Class consists of Enams
borne on the face of returns taken in
1818/1226 and in 1831 but the date of the grant
of which cannot be as=
=certained The Extent
of land under this head
is 2304 Burrunns 1,60 4/5
acres of this 1,1,4 Burrunns:
88 1/5 acres have been con=
=tinued to be enjoyed by
the holders and 1860 =
Burrunns: 372 acres have
been resumed. the Causes
which led to the continu=
=ance and resumption of the several Enams
which this Class comprises are as follows
272 Burrunns: 54 2/5 have been continued to the
holder on the Strength of Persian Doomba las
of the same Nature as is already adverted to dated
before. Permanent Settlement 102 Burrunns 20 2/5
acres

acres have been left to the holders it having
been ascertained from the returns taken in
1817 and in some succeeding years that the date
of their grant was long anterior to the Permanent
Settlement 50 Burrunns 10 acres have been left
to be enjoyed during the life time of the pre=
=sent holder a judicial decree dated in
1814 having shown that the documents
in support of the Enam mentioned in
it were produced in Court: 20 Burrunns:
5 acres have likewise been continued to
the holder for life it having been ascertain=
=ed that he purchased the Enam in a
public Auction held by a Judicial Court.—

10. 79 Burrunns 15 4/5 acres have
been resumed as being in Excess of the
Extent given in the documents 1781 Bur=
=runns: 356 1/5 acres have been resumed. in
consequence of the date of the grant of the
Enams which this Extent is composed
of not having been ascertained and on
this point I beg the orders of the Board
of Revenue.—

11 After deducting 120 Burrunns=
or 24 Acres resumed because it is entered
only in the Accounts of 1831 there remain 1861
Burrunns:

Fort St. George 9th September 1858.

continued on the cease of long possession.

6. In the Register in which some of the Enams of this grant are entered it is mentioned that one Pakala Adi: Narasina Pater who was at that time exercising some sort of power in Mahery confirmed a grant of 64 Burnums: 12 1/2 acres 1803 to one Kondalum Teroomala Charlos - Irrespective of the date of the grant being prior to the Permanent Settlement the inference to be drawn from the word confirmed is that the grant was still older - This Enam was purchased by one Koorossittee Ramasawmi in 1827 for Rupees 310 and appropriated to a religious institution - The purchaser is now dead and the grant has been left in possession of the Officer in charge of the institution and will be treated as a lapsed Enam.

7. From the accounts of the 1817/1858 it is seen that Kistna Reyadavi made a grant

Fort St. George 9th September 1858.

grant of 50 Burnums. 10 Acres to the Shrine of Choilanya Swamie in Conkarapore. There is a Cadjan puttah dated in 1808 and as the Enjoyment Extends over a long series of years it has been continued to the Officiating priest to be enjoyed by him during his life time.-

8. A Cadjan puttah has been produced which gives 5 Burnums 1 acre to Balaje Swamie a Hindoo God in Lole: The grant was made in 1817 by Kristna Reya. The present enquiry shews that on this piece of ground there once stood a Religious temple and that after its demolition a topie has been planted upon it this piece of land was formerly included in the site of the village. It has been continued to the present holder being under 2 Cawnies.-

Land measuring 20 Burnums: 4 Acres has been resumed being excess over the

Cash cash balance

by a Civil Suit-

3. A Cadjan puttah was produced which gave an Enam of 100 Burnums = 20 acres to a Man in a Village called Dasciapore the Cadjan is dated in 1805 the granter being the Kristna Prayadavi a former Zemindar This was a grant first made in 1789 to one Jogata puttah has also been produced and my inquiry Elicited the following circumstance, Kristna Preyadavi obtained possession how it could not be ascertained and granted it to the father of the present holder with a new puttah- The certified Copy of the Original puttah was also made over to the second grantee This Enam being so far a genuine one has been left in possession of the present holder-

4. The said Kristna Preyadavi also made a grant of 100 Burnums = 20 acres in the Village called Pote in 1805- The antecedants of this grant appear to be as follows- There was a grant of 300 Burnums = 60 acres

acres of land for the Office of Kulkurnum in the said Village held by the gattoo family In the ameens accounts of 1831 there is a remark to the effect that 200 Burnums = 40 acres of the above grant were resumed and that the remaining 100 Burnums = 20 acres were granted to the father of the present holder by Keristana Preya in 1805 under these circumstances the Enam has been left in possession of the present holder-

In the Year 1793 a grant of 100 Burnums = 20 acres was made to a religious shrine in the village of Inahada- Of this 30 Burnums = 6 acres were purchased by Kristna Preya in 1805 and granted to another religious institution with a fresh puttah in 1809 the Origin of the Entire Enam being genuine and the purposes to which it is applied the same in both the Second grant has been

continued

Fort St. George 9th September 1858.

of the four Classes the orders of the Board of Revenue are solicited a figured Statement marked A containing detailed information on this subject accompanies this letter.

2 Class. 7. The 2d Class Post Settlement tenures consists of Enams granted after the completion of the Permanent Settlement the period of the Grant of these Enams extends from 1805 to 1839 and they are supported by Cadjan pattah and Entries in the public accounts only - the Extent under this head is 2584 Burnums = 5 1/5 acres

	Contained In perpetuity	Contained For life	Total	Resumed.	Total.
	Burnm	B	B	B	B.
Supported by Cadjan pattahs	315	a	315	1686	2001
Supported by entries in the public accounts	85	50	135	448	583
Total	400	50	450	2134	2584

Not measured	280	50	330	2114	2444
Total	400	50	450	2134	2584

Of this Extent 450 Burnums = 90 acres have been continued to the holder and the remaining 2134 Burnums = 426 4/5 acres have been resumed The Enam land under this head has been continued to the holders in the following 8 cases.

Burnums

Fort St. George 9th September 1858.

1 21 Burnums = 5 1/5 acres an Enam Situated in the Village of Golabunda which altho a grant made previous to Permanent Settlement i e in 1782 as proved by a reference to the register of Enams was erroneously classed as a part Settlement grant made in 1805 the Enam has owing to this circumstance been left to the present holder.

2. An Enam of 80 Burnums = 16 acres Situated in the Village of Payatoris was also classed as Post Settlement on a pattah produced by the present holder but one Bhema Naick produced a Certified Copy of a pattah which gives the origin of the grant in A.D. 1790- and stated that the Enam was mortgaged to the father of the present holder - this circumstance placed it beyond a doubt that the grant was made before Permanent Settlement and it has therefore been left in posession of the present holder leaving the descendants of the Original grantee to establish their claim to it by

been resumed the entries of this Extent in the public accounts and the documents produced in support of them being to the best of my belief unworthy of credit as it was plain that the former at all events had been tampered with 583 Burnams = 116 3/5 acres have been resumed as the only documents in support of this Extent were Cadjan puttahs without any corresponding entries in the public accounts - This step may at first sight appear hard but was rendered necessary as it was seen that Cadjan puttahs could be easily forged while these Existed no means to test their authenticity The Enamdars produced a number of Coombalas or permits written in the native languages and signed by native Officials but as it was likewise apprehended that these also could be easily forged they were not taken as reliable authorities - An Endowment of 77 Burnams = 15 2/5 acres to a religious institution has been temporarily resumed on the Ground that the Extent of the land of which this figure is

is composed - could not be ascertained although there was little doubt with regard to the authenticity of the detailed information with regard to this was forth coming only in the returns of 1817/1226 but that part of the papers which contained the Extent is torn off the remaining portion shows that the grant was anterior to Permanent Settlement There is on the records another Set of Accounts which seem to be the Counterpart of the abovementioned one and in which the income of this grant is stated to be Rupees 50 but it must be remembered that these Inamo Accounts are not verified by any European Officers Signature they have however been acted on when supported by other Documents or Accounts - The land in question would Yield about 80 Rupees at the present time - With regard to the final resumption or continuance of grants of this nature which occur in every one of

1st Class.

The 1st Class of Enams

I have styled the oute settlement tenures because they are grants made before the introduction of the permanent settlement into this District in 1804 - These grants are supported by Cadjan puttah or title deeds with corresponding entries in the public accounts; by registered puttahs or certified copies of puttahs granted with the Seal and Signature of the former Collectors; and by Persian Doombalas containing sometimes the seal alone. sometimes the Signature alone and sometimes both the Seal and Signature of the former Collectors - The extent under this head is 2219 Burnums = 1583 1/5 acres of this extent 1865 Burnums = 3733 acres have been left to be enjoyed as Enam - the remaining 425 1/4 Burnums = 850 1/5 acres

acres have been resumed on the following grounds.

249 Burnums = 589 1/5 acres have been resumed because it was found that this was in excess of the extent given in the title deeds in possession of the Enamdars 155 Burnums = 31 acres have been resumed as it was found that the service for which this land was originally granted was no longer required nor performed and that it had passed to a family totally unconnected with that of the original grantee, the granter in the second case being one who had no athority whatever to alienate land 344 Burnums = 68 4/5 acres have been resumed because the holder of the Enams which composed this extent relinquished them of their own accord unable to pay the quitrent to which they were subject, 126 Burnums = 29 1/5 acres have been

that which has been allotted for Village service of every kind is 16176 Burnams 3235/5 acres making in the aggregate 36376 Burnams = 7275/5 acres of this 12502 Burnams = 2500 acres are rent free and 23574 Burnams = 4714/5 acres are subject to quit rent of Rupees 1615-13-- the remaining 18068 Burnams = 3613 3/5 acres have been resumed and assessed at Rs 5000 according to local rates of assessment of the total Extent which has been left to be enjoyed as Enam 35470 Burnams 7094 acres have been measured by native Official as such a Step was rendered necessary for the purpose of reconciling the conflicting accounts given by the Enamdars and by the Village accountants by no means reliable authorities with regard to the Extent of each individual Enam - There were moreover numerous cases in which the Extent exhibited in the public accounts or in the title deeds did not agree with that under actual enjoyment - In all those cases in which the

	Continued		Resumed		Total		
	Measured	No of Measured	Measured	No of Measured	Measured	No of Measured	Total
Unconditional Enams	12331	869	3162	12174	22493	13043	35536

Total	35470	906	5894	12174	41364	13080	54444

the Extent under actual enjoyment did not exceed ten percent the excess has been left in possession of the Enamdars but those in which it exceeded this limit the whole excess has been summarily resumed - In those cases again in which the actual enjoyment was short of that Shewn in the public accounts as borne on the face of the title deeds no alteration has been made the Enamdar having been permitted to hold only the extent held by them before this inquiry commenced -

5. In dealing with enams granted for Village service I allowed myself greater discretion and allotted to each Village servant such extent as I thought was required with reference to the nature of the service required of him - The subject of the service enams will be further noticed in the concluding remarks of this report.

The

J. S. Forbes Esqre.

Secretary to the

Board of Revenue.

Fort St. George.

Sir

3d. No. 1608.

From the Collr. of Ganjam - - - } Paral. I do myself the honor to sub-
mit the following report on the Enams situ-
ated in the Talook of Inoherry which has reverted
to Government by sale - as the questions which
required enquiry were numerous and as every
one of them required an attentive consider-
ation before a final decision could be passed
and as many other matters of moment
required constant attention the preparation
of this report has necessarily been delayed.

2 In 1853 Mr. Onslow instituted an inquiry
into the state of land enjoyed as Enam in
Inakerry and the result was reported to Mr.
Walter Elliot in his letter of the 18th July of
that year The orders of the Commissioner were
communicated to the Collector in the Proceedings
of the Commissioner under date the 19th April 1854.
In the latter end of 1854 I acted upon these orders
but finding that many cases required a fuller
enquiry

enquiry than had been made before I requested
Mr. Goldingham the then Commissioner permission
to revise my work. this was accorded me in his
Proceedings under date the 4th July 1855 No. 262 and
the result of all is embodied in this report.

3. The gross Extent of land enjoyed as Enam

	Burnums	acres.
As per accounts furnished to Mr. Walter Elliot	51698	10339 3/5
Excess as ascertained during the recent enquiry by measure-ment &c.	2746	549 1/5
Total	54444	10888 4/5

under every denomi-nation as 54,444 Burnums 10888 4/5 acres

This is subdivided into four Classes, viz

Ante Settlement tenures 2dly Post settle-ment tenures 3dly Enams the Date of the Origin of which cannot be ascertained and 4thly Enams unsupported by any authority of the abovementioned gross Extent 18551 Burnums 3510 1/5 acres are rent free and 35893 Burnums - 7178 3/5 acres subject to quit rent 18,908 Burnums 3781 3/5 acres are Enams granted for Village service-

4. according to the settlement which I am about to describe the land that has been left to be enjoyed as unconditional Enam is 20,200 Burnums = 4040 acres and

that

From the Chief Secretary to Govt.

Extract from the Minutes of Consultation in the Revenue Department under date the 19th August 1858.

Communicating

a letter from the Govern-
-ment of India proposing
a certain arrangement for
the employment of the
number of Deputy Col-
-lectors originally applied
for, for the Madras
Presidency and request
the Board to state their
opinion as to the mode
in which it should be
carried out.

(See No. 1156 in Separate Volume)

To

pay the 30 Pagodas or give up possession
of the land -

I am however of opinion that from
long acquiescence the Parties interested in
the Pagoda have relinquished their right
to the possession of the land so long as
the 30 Pagodas are paid & that in a
decreeing to the Plaintiff the lands sued
for the Decree of the Civil Judge
O. S. No. 105 of 1855 is Erroneous - I
observe however that the Honorable
Company directed that land should be
given to the Managers in lieu of the
Money payment, It may therefore be
deemed by His Lordship worthy of
Consideration whether under all the
Circumstances it is desirable to appeal
from the Decree referred to -

From the Collector of Cuddapah - Season
Report

Fort St. George 8th September 1858

have perused all the papers forwarded to me by the Board of Revenue & given the subject much Careful Consideration-

2 From the Decree passed by the Moonsiff of Tuticorin in O.S. No. 859 of 1824 (which was not forwarded to me originally & necessitated an application for it) it would appear that that Suit was brought by the same man who is the Plaintiff in original Suit No. 105 of 1855 (Referred to in the Minute of Consultation noted above) against the then Possession of the Goodoor Estate-

3 I observe from the Minute of Consultation of the 28th April 1856 para 2, & the answer filed by the Collector in O.S. No. 105 of 1855 that the Government purchased that Estate-The Circumstances of that purchase are not mentioned I am not aware whether they were Circumstances which would alter my opinion as to the law of the Case-

4 I entertained Considerable doubt on the Case but after mature Consideration

I

Fort St. George 8th September 1858

I am of opinion that as Purchasers of the Estate-The Honorable Company have taken the estate subject to all the liabilities to which the vendor was liable in respect of that Estate & that as Purchasers the Regulations referred to are not applicable-

5 A question then arises as to the effect of the Decree in O.S. No. 859 of 1824 this question is involved in much difficulty I am of opinion however that the fair Construction to be put upon that Decree is that thereby the grant of the 4½ Cuttiés of land to the Pagoda was established, & that the payment of the sum of 30 Pagodas per annum is thereby Decreed as an equivalent for the occupation of those 4 & half Cuttiés of land, & that in the event of the 30 Pagodas being withheld the Manager of the Temple is entitled to resume possession of the land-

6 That Decree is final it was never appealed against & if the opinion I have expressed in paras 4 & 5 be Correct, it follows that the Honorable Company as the Purchasers of that estate, must either

pay

14904 Fort St. George 8th September 1858

or any other Commodity Were the exercise on salt is introduced if not before of Course all such accommodation will cease. I Regret therefore that I Cannot forward your application to the Govern: ment being unable to perceive upon what just ground the claim rests.

surf - I lost a great deal likewise by the surf in its coming to the ship -

(Signed) T. C. Gibson

Madras 26th August 1857.

To Messrs Binny & Co.

Gentlemen -

I have the honor to acknowledge the receipt of your letter of the 25th Instant Requesting me to submit for the favorable Consideration of the Government the Request of the Commander of the "Statesman" to be allowed Compensation for the loss of salt occasioned by Rain during the Course of shipment to his vessel -

2 You state that the Bombay Government make some allowance to Exporters of salt for loss in transit but I do not gather from your letter what the indulgence is you are of. Course aware that the Bombay Government levy a duty of 12 annas the Candy on Export salt

Fort St George 8th September 1858

salt and that such salt is provided in this Presidency at the actual Cost price -

3 The practice first named may be the cause of the alledged allowance made for wastage but I cannot see that any is claimable here for an article which is the property of the Shipper from the time it leaves the Scales and upon which no profit whatever is made by the seller -

4 Any damage occurring to it should I apprehend fall upon the purchaser as in the Case of trade in other articles -

5 The Government indeed have hitherto shipped the salt for the purchaser levying only the actual Charges incurred but I could never learn upon what principle this assistance was rendered, or why it was not extended to the transport of Cotton, grain, seeds or

14900 Fort St George 8th September 1858

To B. Cunliffe Esqr.
Collector of Madras

Sir

We have the honor to hand you annexed Copy of a Note received from the Commander of the "Statesman" which you will observe sets forth that there was Considerable loss upon the Salt taken into his Vessel here as the shipment was owing to the time its shipment was retarded by the high surf and to the heavy rains that fell while it lay waiting for shipment upon the Beach and under the Circumstances we trust that you may feel yourself authorized to Recommend Captain Gibsons application to the favorable Consideration of Government.

We are aware that the Chamber of Commerce has recently addressed the Board of Revenue asking that the same Concession may be made to

14901 Fort St George 8th September 1858

to the exporters of salt from this Coast as is allowed by the Bombay Government to exporters from that Port with the view of meeting loss in Transits and looking to the justice of that application and to the Conviction we feel that it will be fairly met by this Government we cannot doubt that the present claim which we regard as stronger will be sanctioned also and awaiting your Reply hereon

Madras
25th August 1858

(Signed) Binny & Co.

To Messrs. Binny & Co.

Gentlemen-

I Request that you will be kind enough to make an application to Government to make me some allowance upon the Salt shipped in the Statesman in Consequence of its lying on the Beach during several days Rain and we could not ship it on account of the high Surf

Fort St. George

Bd's No. 4037

From the Actg Collr of Malabar

Sir

With Reference to an Extract from the Proceedings of the Board of Revenue dated 20th July last No. 2702 I have the honor to report that in Consequence of the several Salt Gollahs in this District not affording sufficient space it has not been practicable to bring up the stocks to the average Requirements of even one year—

2 The Capacity of the several Gollahs amounts to 360000 Indian Maunds while the Sales on an average of the last 5 years amount to Indian Maunds 395000 being Indian Maunds 35000 in excess of the formed the Requirements of the District are however kept up during the

14897 Fort St. George 8th September 1858

the 8 Months of the shipping season September to april by large Importations of Salt from Bombay and the stock at the Close of the season is generally more than ample to meet the demands during the four Months May to August) in which the ports are closed in Consequence of the South West Monsoon—

3 Adverting to the Board's remarks in para 3 to the effect that a Regular decrease since Fusly 1262 in the Home sales and a Corresponding increase in the two last Fuslies 1265 & 1266 in the Inland sales is observable—I beg to state that the formed as Regards this District is applicable Chiefly to Fuslies 1264 and 1266 and was occasioned by a large amount of Salt having (as noted in the Margin) been Cleared on the payment of Import duty in those years—

Fort St George 8th September 1858

5 The accompanying Statement Contains the information called for by Gouvernment in para 4 of Extract from the Minutes of Consultation of 7th June 1858 in regard to those Chuttrums where food is distributed to Travellers-

6 The Chuttrums No. 18 and 20 shall be Repaired when the Surplus funds in favour of those Chuttrums will admit of its being done No. 12 is undergoing Repair on an Estimate of Rs. 200-5-6 prepared by the Tahsildar agreeably to the orders of Mr Sellers-

7 The Private Chuttrum No. 45 which was built by Gouvernment in 1843 and which had neither endowment nor establishment was entrusted to the charge of the Trustee of the Pagoda at Trichendoor in the Tinchanahh Talook he having agreed to Keep it in good order and to entertain an establishment at a Monthly Cost of Rupees 6 1/2 for attending to

Fort St George 8th September 1858

to the Garden belonging to it and for distributing water to the Travellers during the festival days-

8 The estate to which the Private Chuttrums No. 56 belongs having been made over to the Proprietor its Charities are now paid for from the private funds of the owners-

9 The proprietors of the Private Chuttrums No. 43 & 46 have been required to Repair such portions of these Institutions as are Reported now to Require it-

10 The two Government Chuttrums in which food is now partially distributed being situated on the Roads frequented by Travellers- I do not think it advisable to disturb their existing arrangements-

11 The remaining Government Chuttrums do not require any particular notice-

Sir,

With reference to Paras 2-3 and 7 of Circular Extract from the Proceedings of the Board of Revenue dated 11th July 1858 No. 2611 Requiring information on the several points therein mentioned Regarding the Government & Private Chuttrums in this District I have the honor to report as follows -

2 Of the four Chuttrums sanctioned by Government on the 6th July 1852 and 19th December 1853 to be Constructed at the places

14885

Fort St George 8th September 1858

an improvement to the Rules were a Copy of No. 5 at least made for the use of the Talook Cutcherries this account is of itself nearly sufficient to furnish the Kind of information usually called for by higher authorities and I think the Curnum and the Talookdar should each have a Copy - At present the Curnum retains the original during the Fasly and after the Conclusion of the settlement deposits it according to the Rules with the Talookdar -

8 The Clearness and accessibility of the new accounts do certainly in my opinion ensure greater promptitude in preparing the puttahs at the Innamalundy -

Sir

With reference to para 2 of Extract from the Proceedings of the Board of Revenue under date the 21st Instant I have the honor to refer you

Fort St. George 8th September 1858.

the adungal account / No 4 / was writ=
=ten out on paper in the language with
which the Officer deputed to make the
azzamaish was most conversant.

4. The same observation apply
to account / No 3 / and others connected with
the collections. If the collections in
any village are slacke, the Tahsildar can
now by a simple inspection of No 3 satis=
=fy himself who are the individual default=
=ers. Under the former plan he had to trust to
the statements of the Curnums.

5 Fully appreciating the advantages
of the new system I am nevertheless of opini=
=on that in some points it is defective. I
think that the preparation of No 5 from which
the puttah is drawn up, being now left entirely
to the Curnums affords less check under the new
than under the old system under
which the additions of Bogajastee and
deductions of remissions were made
by Goomastahs in conjunction with the
Curnums.

Fort St. George 8th September 1858

Curnums. The preparation of this account
by one person instead of two in conjunc=
=tion gives greater facility for fraud.
I do not however much insist on this
objection as the Expectation of the usual
remissions will greatly weaken it.

6 An objection of more
weight is that the present accounts do
not enable the Collector to perform the
important duty of watching the pro=
=gress of the Cultivation and the Collec=
=tions in each Village. Nor knows
only the state of each Talook in these
respects. I do not consider this suf=
=ficient, & as it is of importance that I
should watch the progress made in
reaching that area of Cultivation which was the
anticipated result of the Recent Reductions
I have had these detailed accounts furnish=
=ed to me monthly. The trouble en=
=tailed on the Talook Servants is
very trifling and is given only once
a Month.

7 I Consider it would be
an

District, I had an opportunity of seeing what advantage the Collector himself derived from the circumstances of the accounts being written on paper. It was a year of distress, and the failure of crops had been considerable I deemed it advisable to incite the chief Talook Officers to a careful discharge of the duty of inspecting the failed crops, by examining some fields in several Talooks myself. The paper accounts enabled me to do this with facility, and as rapidly as I could walk from field to field. Had cadjan accounts only been available not only would personal inspection of the accounts have been impossible but not one quarter of the work done could have been got through on account of the length of time required to find in the cadjan, fields whose numbers are foreapart. It is scarcely possible to rate too highly the advantage of having the accounts thus readily accessible to the Tahsildars or

or other Talook Servants

3 This last remark applies in an especial manner to the account No. 1. the monthly accounts of cultivation a simple inspection of this book and a comparison of its entries with the fields before him enables a Tahsildar or other Talook Officer to detect any omission and so well do the curnums know this that unless they are looked after, the cultivation of the past month is not written up in the book; it is entered only in a cadjan account kept by the curnum. I have more than once detected and punished this offence. When wishing to see whether a certain field had been entered in the proper month which the age of the crop would have enabled me to decide, I found that the book had not been written up for the last 2 months. Under the former system, the details of cultivation remained a sealed book to the greater part of the Talook servants, until late in the season when the

14879 Fort St.George 8th September 1858

2 It has been explained to the petitioners that their puttaday Runjab land has been brought to Runjab and has now become liable to the charge for a second crop in precisely the same manner as all the puttaday Runjab land in the several Northern Talooks of the District.—

Submits the report on the practical working of the new forms of Village accounts called for in the circular letter of the Board dated 23rd July 1858 No 2773.

Sir,

Para 1 I have the honor to submit the report on the practical working of the new forms of Village accounts called for in the circular letter of the Board dated 23rd July 1858 No 2773.

* The accounts of two Villages are forwarded as directed

2. There is nothing in the system of the new accounts which is directly calculated to give a more efficient check on the cultivation Returns sent in by the Curnum than was furnished by the old forms. The circumstance however of these accounts being now written on paper enables the Tahsildars and other Talook Officers to exercise a control over them by personal scrutiny which their general inability to read Cadjans formerly rendered impossible soon after my arrival in this

version that the changes referred to are the changes to be made in future commencing with the introduction of the new forms. In some cases the original Survey accounts has been lost and in many instances it would be impossible to ascertain all the changes that had occurred in "tenure Kind class and irrigation whatever labor or time might be devoted to the attempt. The Talook Servants will be urged to get the Statement A completed by as early a date as possible.—

7. There is but one other point on which I have to make any remark. Statement No. 6 shows only the number of the land and it is observed on this subject in note 2. Page 77 that "if in any District the fields "have no numbers they should be numbered "at once in the Regular A and used in the "new accounts" In the Salem District the fields "were not numbered at the Survey In the Balaghat "Talooks of Ossoor and Denkencottah the lands were measured

measured and numbered in Fusly 1235 but in the Talaghat and Baramal Divisions they were not numbered till Fusly 1240 when a number was entered against each field in the accounts but the field themselves were not examined. There is therefore much confusion in the number in all the lower Talooks on this account I have ordered that the names of the field shall be entered for the present at the back of the Puttahs chiefly for the purpose of enabling the Ryots to identify their fields.—

8. After consulting the Head Sheristadar in my Office, I do not find that he can suggest any other alteration or any improvement in the accounts as they now stand.

Salem Collectors Office Ossoor 4th September 1858

Signed F. A. Brett Collector

List

Fort St. George 8th September 1858.

"and exactness" The Board also request that the original accounts of 2 complete Villages may be sent for their inspection.—

2. I beg to forward the original accounts of the 2 Villages name in the margin for Fuslies 1266 and 1267 according to the enclosed list.—

1 Sommathapoor in the Oopoor Taloork

2 Calangany in the Warreul Taloork

× Sent by 3 Bandy parcels.—

3. I informed the Board in my report dated the 9th September 1858 (No. 119) that the new Village forms had been introduced into one Taloork only in Fusly 1265 Viz. the Daramposry Taloork and that they were brought into use in the remaining Taloorks from Fusly 1266.—

4. The new forms have enabled the Curnums to prepare the Puttahs with promptitude and exactness when one Statement No. 5 has been prepared there is no difficulty in preparing the Puttahs for the Puttahs are in fact extracts from that Statement.—

With

Fort St. George 8th September 1858.—

5. With regard to the Cultivation returns (Monthly Statement No. 1) the Officers employed in examining the fields find in that Statement all the details they require for the work. as yet the new System is not worked with full effect but that is not owing to any defects in the Accounts I have no doubt that the new accounts after a little experience will be found on all hands to be a great improvement on the old.—

6. In respect however to Statement A I may mention that this Register has as yet been prepared in only a few Villages. This is ascribed in part to a material difference between the English version of Rule 7 Page 8 and the Tamil Translation according to the latter the changes to be noted in the Register should include all the Changes that have been made from the time of the Survey but it seems from the English

Statement

Fort St George 8 September 1858

the present scarcity-

2 At the same time I beg to bring to your notice how inadequately your District is supplied with Members of this Department & those that are sent to me are the refuse of the other Districts of this Presidency - one was recalled on a Charge of fraud, another has been transferred to this District on account of his having been twice reported for inefficiency another has been found guilty of Culpable negligence and not only is he sent to me but I am directed to send an efficient man to fill his vacancy in the District from which he has been sent away-

3 I have but one officer in this District the largest in Southern India two officers whose services I had been deprived of by their absence on sick leave were immediately on their return to Madras transferred to another District-

4 As no good object is to be gained by these measures & it is more than probable that the interests

Fort St George 8 September 1858

interests of both the Government and the people will suffer by them I have the honor to bring these Circumstances to your notice and to request you will be good enough to lay the matter before the Government so that they may take steps to prevent this District being neglected-

5 Not only is this the largest District of Southern India but it has more irrigation works than any other scattered over an immense area & besides what few other Districts have a large Cantonment in which Constantly buildings & Repairs are being Carried on and for all these works except when an inefficient man can be found, I am not allowed even the limited Establishment sanctioned by Government.-

Encl. No. 2.—

Translation of an Urzee presented by Cundusjah Naick inhabitant of Sadayancoopom of the Sydapet Talook under date the 28th June 1858 offering Dusbast for waste land.—

I have been requesting for the last 3 years to grant me a Cowle for a piece of Nunjah waste in extent about 20 Cawnies situated to the west of the Village east of Dachangoly of the Nayer Talook south of the water Cut and north of the Nunjah immemorial waste The land was never cultivated and is of high and low ground inundated by the freshes of the Cortellar and during the time of the late Tahsildar Rungachurry it was inspected & an account prepared tho no Cowle has as yet been granted. The land is of a nature as would entail much expense and trouble in reclaiming it before it can be actually cultivated I request therefore that the Cowle in question will not only be speedily granted but also I will be allowed of a certain extent of land rent free for the erection of houses to me & Ryots connected with me The Villagers have agreed to Cowle being granted to me and if my present request is conceded to I will have the entire waste at the spot cultivated which is nearly 100 Cawnies in extent.—

Encl. 1.

Translation of Cowle to be granted to Cundasseah Naick inhabitant of Sadayancoopsum of the Sydapet Taluk.—

Upon your offering to cultivate a portion of the Nunjah waste in the Village alluded to an inspection was made of it and it appeared to be an immemorial waste of high and low ground and of Saltish Soil thus entailing much labor on reclaiming it.—

The land offered for is situated to the east of the limits of Cadapakum South of the larger Tank in Sadayancoopsum west of the Nunjah immemorial waste in the same Village and north of the rest of his Bunger.—

The Durkast land is an immemorial Nunjah Manavary waste of a single Crop of the 4 Class assessed at Rupees

Fort St. George 8th September 1858.

Rupees 3-8-0 per Cawny and is composed as follows.—

No.	Cs.	a.	Cs.	Rs.	a.	P.	No.	Cs.	a.	Cs.	Rs.	a.	P.

Memorandum.

The enclosed is as correct a Sketch as I can make of the land applied for by Lieutenant Mullins and the Race course without preserveying the ground or having any previous survey by me to refer to, The race course is

14856 Fort St. George 8 September 1858.

is marked out by a double dotted line and the land applied for by Lieutenant Mullins by the dark line within From this sketch it will be seen that the latter does not include the whole of the land within the Race course but that a portion equal to about 5 acres I believe at the southern end is not applied for. The reason of this piece being excluded was an objection raised by the Villagers of Kondiapollem that there was not sufficient space left between the boundary of the land & their Village for the cattle to pass freely to and fro. Mr. Morris made a survey of the land applied for according to the accompanying Sketch after the piece at the southern end had been cut off and as this survey was made carefully with the Theodolite there is every reason to believe it correct.

The first measurement was by one of the Talook servants the measurement entered in the application was made by

Mr.

as to all Brahmins without any such limi-
tation as is contended for. The term
"priest" it has to be observed as the text
may show has been used in the translation
of the 5th Clause of the Section of the Attachcham
above referred to, as convertable with the Brah-
min the words used in the Original being
Brahmanna Drawyam or the wealth of a
Brahmin.

The Court finding thus a positive
prohibition in the Hindoo Law to the assump-
tion in escheat by the ruling power of the
Estate of a Brahmin and it being allowed
that the property now in question is a
Brahminical Estate the Court resolve
to set aside the Decree of the Civil Judge
and dismiss the suit with Costs.—

given

Fort St. George 8th September 1858.—

the Civil Judge a question (among others) was put by him to the Pundits of the Sudr udalut in such a form as to elicit from them an answer to the effect that the Estates of Brahmins could not escheat to the Government but the point appears to have escaped the Civil Judges attention as it is not noticed by him in his Decree.

The objection is rested on the part of the Plaintiff by the plea that the law which would ultimately assign the Estate of an heirless Brahmin to other Brahmans, and these virtuous ones is of too vague and uncertain a nature to be dispensed. That this law must be considered obsolete as are other parts of the institutes of Menu from which it is derived and that if to be put in force it can have respect to none but Sacerdotal Brahmins.

The Judges have considered these various pleas and do not find them sustainable It is true that there may be difficulty in dealing with the ultimate provisions of the law of succession to Brahminical Estate

Fort St. George 8th September 1858.

Estates devoid of natural heirs but there can be none in upholding the primary declaration that the property of a Brahmin shall never be taken by the King" which it is added emphatically is "a fixed law" (Menu 9/189) and it is with this primary declaration that the Court have now to deal. That this law is an obsolete one there is nothing to show It is re-enforced in the current law books and prominently in the Mitach Shara (LVII) which is the authoritative and prevailing declaration of Law in this part of India and it is obvious that while Brahmins Exist in the integrity of their estate the law regulating inheritance among them and unchanged must in like manner be in continued Existence. The plea that the law now in question relates merely to Sacerdotal Brahmins is founded in misapprehension whatever the occupation of a Brahmin he is as much a Brahmin as one who devotes himself to the Office of the priesthood and the Law is general

as

Fort St. George 8th September 1858.-

the father of the Defendant and upon execution being taken out by the defendant after his fathers death entered into an arrangement with him the effect of which was that the Zemindary was assigned to him in discharge of the said obligation Lutchmeedamah however continued in possession up to her demise after which by process of Court in fulfilment of the above arrangement the Zemindary in question has been made over to the Defendant.-

The Plaintiff objects that the assignment as made by a widow was void in Law and that the said Widow having left no representatives the Zemindary hence falls to the Government as ultimus hares.

The Defendant affirms the goodness of the assignment and pleads that the Estate is of such a nature as could by Hindoo law under no circumstances escheat to the Government.-

The

Fort St. George 8th September 1858.-

The Civil Judge ruled that the debt of Lutchmeedamah might have been met without the necessity of alienating the Zemindary and as a widow can only alienate under necessity he declaired the assignment made by her in defendants favor void. His decree was that the Zemindary should be subjected to sale for discharge of the Judgment debt in question and that any balance of proceeds remaining should go to the Government as an escheat.-

Against this decision both parties have appealed. The Plaintiff has been represented by C Dale Esqre and the Defendant by I. D Mayne Esqre Barristers at Law.-

Judgment.

The Defendant objects that the Estate in question as belonging to a Brahmin can never escheat to the Government and to this point as being one of a conclusive nature the hearing of these Appeals has been confined.-

On the trial of the suit before the

Fort St. George 8th September 1858.

to the Appeal Petition was Rupees 1000 and that the amount of Pleader fee as there stated is correct.—

5. I have therefore the honor to request that you will forward to me at your earliest convenience a bill on the Accountant General favoring myself for Rupees 999-4-0 instead of Rupees 398-1-7 as requested by my letter of the 5th June 1858. No. 54.—

C. R. Baynes.

L. S.—

In Appeal No. 103 of 1857.

Appellant — Versus — Respondent

Canaly Vencata Narranapah — Collector of Masulipatam

In Appeal No. 130 of 1857.

Appellant — Versus — Respondent

Collector of Masulipatam — Canaly Vencata Narranapah

This suit has been brought up by the Collector of Masulipatam on the behalf of the Government for the Zemindary of Pissannapettah as having escheated to the Government from default of heirs.

The last Occupant was a female named Lutchmee = davamah widow of the last zemin= dar who incurred a judgment debt to the

papers called No. 135 while your cross appeal which was really No. 135 was there called No. 103 and inclosing my letter of the 5th. June I had only those printed papers for my guidance.—

3. I solicit your attention to the statement of Costs entered at the foot of the Decree you will observe that in A.S. No. 103 of 1857 the Pleader fee for the Respondent is there set down at Rupees 398-1-7 the amount you remitted to me by your letter of the 21st. January 1858. No. 21 while in the appeal suit No. 136 of 1857 the Pleaders fees are stated to be Rupees 999-4-11—

4. You will remember the correspondence

correspondence which took place on the subject of the Stamp and fee. I have drawn the attention of the authorities at the Sudr Adalut to those Circumstances having been under the impression that the Amount of fee and Stamp should have been the same in both appeals and I left the Copy of the Decree for Correction if erroneous. The Copy has been since returned to me and I have been this Morning informed by the Manager that although in A.S. No. 103 of 1857 the amount of Stamp was properly reduced to Rupees 350- yet that as in your cross Appeal you appealed against the whole Decree the proper Stamp to be appended

to

Fort St. George 8th September 1858.

entitled to a fee of Rupees 398-1-7 in respect of the appeal suit instituted in the Sudr Udalut by Cavaly Venca-ta Narrainappah and No. 136 of 1857 appealing from the Decree passed by the Civil Judge of Masulipatam in Original Suit No. 103 of 1855 in addition to the fee of the same Amount remitted to me in your letter of the 21st January 1858 noted above in respect of your appeal suit No. 103 of 1837. I therefore do myself the honor of soliciting that at your earliest Conveniencence you will forward to me a bill on the Accountant-General favoring myself for Rupees 398-1-7.

of Juggupetta as bribe and that upon his (Tahsildar) enquiry the said Sarabhiah he admitted that he paid to the Jewalry merits in order that he (Jarabhimiah) should assist him in case then pending before the Head of Police This sum was kept in deposit and was robbed by Robbers This should be struck off under the head of "profit and loss.

It appears from a letter from the Moonegal Post Office Writer and Dy. Post Master of Berzarah to the Incharge Tahsildar of Juggupetta that A-15 was put in the box of Dawk by Writer at Juggupetta and was robbed by Robbers This was reported to the Inspector who ordered the same to be kept

643-8-4 /No. 10/ being Money lodged in the Salook Treasury to meet the requirements of the Engineers The sum of Rupees 109-10-3 /No. 9/ being Salary of Revenue and Post Office Servants has to be refunded—

3 From No. 11 to No. 23 are all items of deposits which have to be adjusted in the Salook accounts only of them only 4 appeared to be of a repayable Character No. 11-16-22 & 23 particulars of which are as follows

No. 11-a-17 is repayable to a Member of the Moonegal family No. 16 Rupees 36.

This item is unclaimed property eventually to be credited to the State if nobody is found to claim it No. 22 Rupees 163-8.

The

14827 Fort St. George 8th September 1858

Sub Collector thinks the value is Exaggerated and does not recommend repayment The claimant is unable to prove the value of the property nor can he say who made them. his Mother inlaw also claims a share of these Jewels as however there can be no doubt there were Jewels found on the deceased I think Government will not object to pay 100 Rupees as their Value with respect to the money found it is clear that 160 of the Hydrabad Rupees were not the property of Government the others may or may not have been and as it would not be impossible to restore them to their owners I would suggest that they be laid out in digging a good well water being much wanted at Duggirapett—

No. 109

To

J. D. Sim Esqr.

Secretary to the

Board of Revenue

Fort St. George

Sir,

B.R. No. 3934- From the Collr. of Rajahmundry &

I have the honor to bring to the notice of the Board that out of the Curnam and Meravoy inam, lying in the enjoyment of Irumchevanzo Pedda Papiah and Bhogaranzo now working Curnums in the Village of Amaravalasa 1/2 Pootty was sold by public auction in satisfaction of a balance due by an abkarry Renter, for which the latter of the two Curnums stood security in fusly 1227 and was purchased by one Paulacotty Narsimloo on the 28th January 1824 for Rs. 120

The inam was in the enjoyment of the purchaser during his life time, and since his death about 25 years ago, has

14823 Fort St. George 8th September 1858

been held by his widow. The sale took place prior to the promulgation of Regulation VII of 1831.

2 The present working Curnum has lately laid claim to this portion of the inam urging that it cannot be enjoyed by any but those who actually perform the duty. This is of course quite correct in principle and his in accordance with late orders but as the land was sold by the officers of Government and on bonâ fide purchased by the present holders husband, I doubt the Justice of depriving her of it and refer the matter for the orders of the Board. I would myself recommend that under the circumstances of the case she be allowed to retain it during her life.

From the Collector of South Arcot.— Account Current for Salt for July 1858.

My No 2134
From the Collector of Coimbatore— Actual charges incurred on account of the Sibbendy employed for cutting Sandalwood for Fusly 1266.—

From

11.814 Fort St. George 7th September 1858

2 The accompanying Memo shewing Sales for both home and inland Consumption for the five years will prove - that in this District there has not been a regular decrease in Home Sales since Fusly 1262, although the home Consumption of Salt has fluctuated very considerably during that period.

3 It will be observed that increase and decrease of Sales both for home and inland trade has usually been simultaneous.

To,

J. D. Sim Esqre
Secretary to the
Board of Revenue
Fort St. George

B. No. 3992
From the Collr of Canara } Sir,

In acknowledging receipt of the Board's Circular No. 2675 under date 8th July 1858 R. D. I have the honor to state that all Enams in this District Consist of remissions of the herj appearing in the individual accounts between each Ryots and the Government - The death of every recipient is reported to the Collector, who then deals with the case according to circumstances; either continuing the payments to the heirs, or reporting on the subject to the Board where doubts are entertained or there is reason for resuming the Enam It does not appear that the Government are defrauded of their just dues, for the process is simple enough where resumption is necessary, as it merely amounts to charging the Estate, from the herj of which the enamdar was paid, with the amount he drew or by carrying the same to

14813 Fort St. George 7th September 1858

to the credit of Government in those instances in which it had been collected from the Wungdars and paid to the Enamdars.

Secretary to the Board of Revenue
Fort St. George.

Bd No. 3994.
From the Collr of Canara ... } Sir,

I have the honor to acknowledge receipt of Extract from Proceedings of the Board dated 20th July 1858 (Circular No. 2702) and to state with reference to para 2 of the same that the salt pans of this District are not capable of producing much more than one years Supply of Salt at the present rate of Consumption - Measures were taken to increase the Manufacture to the extent of five hundred Garces the utmost additional quantity which could at present be manufactured, but my efforts failed completely in Consequence of a succession of unfavorable Seasons which have rendered me altogether dependent on foreign Supplies -

From the Acting ... Coll.r of Tinnevelly

Sir,

With reference to para 2 of extract from the Proceedings of the Board of Revenue dated the 20th ultimo requesting to report whether measures have been adopted to bring the stock of Salt up to the average requirements of two years and when the Supply is likely to be completed I have the honor to inform you that since the receipt of the Boards Circular of 9th April 1834 on the Subject the Salt manufacture of this District

14799 Fort St. George 7th September 1838

Fusly	Quantity actually Sold	Balance in store at the close of the Fusly	
	Indian Maunds	Indian Maunds	
1265	340431	887986	
1266	346390	711563	
1267	328901	624629	

District has been conducted on such a Scale as to leave two years Supply always on hand as shewn in the Margin.

2 Adverting to paras 3 and 4 of the Boards Proceedings under reply, I have the honor to State that

	Fusly 1262	Fusly 1263	Fusly 1264	Fusly 1265	Fusly 1266	Fusly 1267
	I M	I M	I M	I M	I M	I M
Home Sales	307716	302104	316367	318196	317848	312392
Inland Sales	43689	42328	30141	22234	28342	16309

Home Sales have not fallen off to any considerable extent in this District as will be seen from the Marginal Statement.

J.P.

the Stringency of the enactments in force
This opinion is founded partly on the
insignificant character of the articles
shown by the return furnished you to have
been Smuggled or rather attempted to be
passed through the Customs without the
payment of duty during the past three years
and partly from the checks which already
exist in Bills of lading rendering the
evasion of Customs difficult without the
Connivance of the Custom House officers

3 As regards Salt the enactments
are even more Stringent and appear to me less
to require alteration. The value of the Ban
dies in which Salt must almost necessarily
be transported from the Coast is but insignifi
cant when Compared with the fine which
it is possible to inflict.

Sir,

B.d No 4001

From the Acting }
Collr of Madura }

In reply to the 2d para of the Board's Circular dated 20th ultimo No 2702 I have the honor to inform you that from the enclosed Statement the Board will perceive that the balance of Salt at the close of the Fusly 1266 as compared with that of 3 years previous to Fusly 1265 has exceeded 4 years consumption a result that may be attributed to the exertions made by the manufacturers

Fort St George 7th September 1858

manufacturers in obedience to the instructions given them.

2 The gradual augmentation in the Stock of Salt and the encouragement afforded to the Ryots proposing to construct fresh pans lead me to suppose that in the Course of a few years a quantity equal to two years Consumption will be manufactured.

Fusly	Home sale Inland sale I. Maunds	Inland sale I- Maunds.

Revenue Department

Extract from a despatch from the Honorable Court of Directors dated 22nd March 1837.

37 Compensation granted to Certain individuals for Loss Sustained by the destruction of a quantity of Fish imported into Madras

Para 31 The Loss which has been incurred both by your Government and the Importers of the Fish - which had been rendered unsaleable from the delay in adjusting the rate of duty Confirms the Strong objection we have to levying a duty on Fish which is no less an unfit object for taxation that [illegible] on which we are happy to find you no longer levy a duty.

Ordered that Copy of this Parable furnished to the Collector of Sea Customs at the Presidency with reference to the previous Correspondence on the Subject Mr Ashton unless previously instructed on this point by Government will take Steps to give effect to the opinion of the Court of Directors by Striking out of his Tariff the Article Salt Fish.-

Bd's No 3982
From the Coll[r] of Tanjore . . .

Sir,

With reference to Extract from the Proceedings of the Board of Revenue dated the 18th of May last No 1790, I have the honor to State that Carvirice is generally classed as the 3d Sort in the Price Lists- There is no reason for supposing that its price is less accurately given than that of other articles included in the Statement and no Special means therefore are taken to ensure a Correct return of the price and quality of the third Sort of rice.

2. It appears however that the proper classification is not uniformly adhered to in all the places where the prices are taken and that kinds of rice other than Can are also classed under the 3d Sort - This irregularity I have now taken means to prevent whenever there is any Striking error or discrepancy in the returns received from the Local Officers due enquiry is of Course made before forwarding the Statement to the Commissariat Department

therefore violently resisted consequently the managing committee of the Association has been obliged to abandon those Divisions and confine their operations to the other portions of the Town where the inhabitants have evinced a greater willingness to assist the Society.-

Four Scavengers carts are now working in the Town, and the monthly cost of the Establishment entertained by the Association amounts to Rupees 26.-

In conclusion the committee direct me to add that as the above sum of 350 Rupees has been contributed by the public Servants and Merchants they have every reason to believe that the support will be continued for succeeding years.-

Bd's No. 3562
From the Collector
of South Arcot

Sir,

I have the honor to request I may be favored with the orders of the Board on the following point

2 Since the introduction of Act IV of 1844 no article is allowed as a general Rule to pass free of duty in this District except those Specially exempted in the Schedules which accompanied it Salt fish not being included among those articles has hitherto been subjected to duty when exported to a foreign Port but having heard that it was not so at Madras I addressed the Collector of Sea Customs on the Subject and beg to submit Copy of

about 350 Rupees has been collected for twelve months beginning from October last, chiefly from the public servants and Merchants residing in the said 3 Divisions of the Town, as the other inhabitants were either too poor to pay even the lowest rate or unable (in consequence of the Multiplicity of Motorpha taxes that they pay to Government and the Mootuhdars) to contribute any aid in furtherance of the objects of the Association.-

The other 3 Districts of the Town are occupied chiefly by weavers and the labouring classes- many of them already pay a variety of imposts designated Motorpha some to the Salem Mooduliar and the others to Government. The addition for the rates imposed by this Association was looked upon as a great hardship, and

Therefore.

the streets of Salem with Boards indicating their respective names making numbers. on Houses constructing a Depot for the custody of the carts tools &c. and making a variety of other Petty improvements to the Town.-

As the poorer classes objected to the payment of the monthly rates they have been introduced only in 3 of the 6 Districts into which the Town has been divided by Committee for the sake of convenience. At first the subscriptions were collected for each month: but the Committee finding that the expenses incurred in levying them absorbed a great portion of the sums realized & directed yearly rates to be substituted. offering at the same time a remission to the rate payers of one third of the amount which they would otherwise be liable to pay annually according to the monthly scale. By the exertions of the Native Members of the Committee

about

Tax for keeping Calves & Buffaloes.

* Tax on looms D^o on Carts D^o on pots used for dying cloth & Sundry advances or as the term imposts a tax for paying the Establishment Employed in Collecting the fore mentioned imposts.

2. The Cost of carrying out this project would be between 60,000 and 70,000 Rs.

3. The Survey and Levels* for which Rs 180 were Sanctioned by Government (Ec. M. C. No. 654 of the 4th June 1857) are now completed, but in the absence of instructions from the Chief Engineer I have not commenced the preparation of an estimate and Plans in detail of the Scheme of drainage.-

* Of the Town of Salem

Memo

The Salem Sanatary Association has been organized pursuant to a resolution of the Community of Salem declared at a general meeting of its inhabitants in February 1857 The immediate object of the Association was the devising and Carrying out by means of Voluntary Contributions measures Calculated to improve the Sanatory Condition of this Town. For this purpose it was agreed at the said meeting that

that a Scale of rates should be levied from the Proprietors of Houses Monthly the highest rate being 4 Annas and the lowest ½ Annas with the intermediate rate of 2 and 1 Annas

The management of the affairs of the Society was entrusted to a Committe of 15 Members who have been empowered to add to their numbers if necessary and fill up vacancies among them.

Immediately after the formation of this Society a fund was raised by donations for defraying the cost of making the required number of Carts and tools as well as the expenses attending the removal of the heaps of filth and rubbish existing in different parts of Salem, preparatory to Commencing the daily cleaning of the Streets, From this Source Rs 1580 — — was realized of which upwards of two thirds has been expended in buying the required number of carts tools &c providing

the

Fort St George 7th September 1858

required for local purposes raised entirely in that way - But under present circumstances, it is vain to reckon upon voluntary contributions as a permanent or at least a sufficient means of meeting such charges.-

11 More than one attempt has been made to induce the people of Salem to adopt the provisions of Act XXVI of 1850- A strong resistance has always been offered to these attempts, though the Committee are very glad to state that the efforts of the Voluntary Association which was formed in February 1857. have been attended by no mean results- The total sum Collected by the Association up to the present date amounts to Rupees 350-- -- -- A memo prepared by the Secretary shewing the operations of the Association up to the present date is appended to this letter.-

No. 504

To

The Collector
of Salem.

Sir,

In reply to your letter dd. 11th

x With reference to the drainage of the Town of Salem.

of the 7th instant Subject as per Margin, I have the honor to inform you that I propose to drain the Town of Salem by 2 main drains, one on each side of the River (the course of which they would generally follow), and each about 2 Miles in length into these 2 main drains all the Street and house Sewage of Salem and the noicpett would be Conveyed by Subdrains to which again small drains would run from the house &c and at regular intervals from the side gutters of the principal Streets. The main drains would have an outlet into the river at some Convenient place not less than ½ a Mile below the Anicut near Hankey's gardens in Noicpett a small but Constant Stream of water would flow through the main drains from wells, dug in a Suitable place above the Town and worked by pumps (which can be procured from England cheaply enough.

Of 2 or 3 sizes the largest following generally the direction of the principal thoroughfares & communicating directly with the main drains

The

Collr

discretionary power to expend that sum in carrying out the several objects specified above. If the Government should accede to this request the Committee will take care that the work of whatever kind which they undertake shall be carried on in an economical manner and that bills shall be attentively submitted for the sums actually expended.—

8 The Committee think that Voluntary contributions alone will not suffice at present for keeping up carts and a scavanger Establishment. They therefore wish that a part of the Pagoda funds should be expended at first towards meeting this expense. They suggest that the Government should allow from the funds for the maintenance of Carts and an Establishment an annual sum equivalent to that raised among the inhabitants themselves for the same object.—

9. The Committee would urge in support of this proposal that the Government have never treated the Surplus Pagoda funds as Public Revenue, but as an accidental resource for conferring local benefits on the inhabitants of the District in which such funds have accumulated.—

10 If any law existed under which taxes for Municipal purposes could be enforced, the Committee would prefer to see the funds required

which formed the Fort a Salem should be removed. Sixthly that certain portions of land should be purchased and appropriated for markets and handy enclosures or yards. An enclosure of the kind was built a few years since at the Government expense at Shevapett† and has been found most useful Seventhly the ground now occupied for topes plantation gardens and Betel gardens within the town should be cleared and compensation given where necessary Eighthly that a new bridge be built over the Salem river for the convenience of the inhabitants. The Committee hope that a new bridge at a certain site will induce the people on one side of the river to extend the town one the other.—

† One of the Salem Suburbs.

The Committee are unable to

7 Submit before hand estimates in detail for all the object now proposed. The Surplus Pagoda funds from the capital to which they must look for defraying the cost of new works. These funds amount to Rupees 39,468. The Committee hope that the Government will allow them a discretionary

to be Worked by pumps - The District Engineer estimates the cost carrying out this project at between 60,000 and 70,000 Rupees - A copy of his letter is appended to this report.

Note

Mr G. F. Fisher did not attend when the Committee agreed to the report now Submitted - He has since offered objections to some of the Measures proposed in this report - It may be observed however on this point, that every measure may be reconsidered as soon as the Government have invested the Committee with the discretionary power referred in Para 7 -

6 The Committee now beg to Submit their own views on the Subject - They are satisfied that so expensive a project as the one proposed by the District Engineer could not be entertained by the Government - It it is also doubtful whether two wells would Suffice to furnish a constant supply of water to the main drains - The plan they would recommend may be less complete in principle but it will be within the means which the Government are willing to devote for the proposed object - They recommend first that the Street of Salem should be furnished throughout with side gutters, similar to those which already exist in some of

of the principal Streets and that every house should have a connecting drain with the side gutters - They propose that the refuse thus conveyed into the gutters should be from time to time, conveyed away in Carts Secondly that public privies should be built at proper places within or at the outskirts of the town - The Committee think that public privies might be tried as an experiment - The Sanatory Association have already built one of the kind which has been found to answer their expectations - From this fact and from general information, the Committee believe that this measure would be approved of by the people - Thirdly that certain Streets should be widened and houses which impede Ventilation removed due compensation being given when claimed - If the Committee should find reservoirs necessary, as places of temporary deposit for sewage till removed they would build such reservoirs - Fourthly that certain improvements be made in the Salem river, by filling up holes and confining the water during the hot season to a small channel to be excavated in the middle of the bed - Fifthly that certain portions still standing of the old wall

which

their desire that the Committee should report "not only on the sanatory requirements" of the town, but on the mode in which the assistance of Government could be afforded most beneficially and in such manner as, while it effected the greatest amount of immediate improvement, would carry with it the cooperation of the people.

5. On the 19th May 1857 the District Engineer laid before the Committee a Memo in which he stated that levels must be taken and a careful and accurate Survey of the whole town and Suburbs must be made and plotted on a Scale of about 4 feet to the mile, before the Committee could properly discuss the details of any System of drainage. When this Memo was laid before them the Government Sanctioned in E. M. C. dated 4th June 1857. No 654, an outlay of Rupees 180 from the Surplus Pagoda funds to cover the estimated cost of the Survey and levels.

letter dated the 10th November 1857, No 504 of the Collector of Salem that the Survey and levels have been Completed. In the Same letter he writes as follows. "I propose to drain the town of Salem "by two main drains one on each Side of the river "the course of which they would generally follow on "and each about two miles in length. Into these "two main drains all the Street and house on "Sewrage of Salem and Shevapett would be "conveyed by Sub drains of two or three Sizes "the largest following generally the direction of the "principal through fares and communicat- "-ing direct with the main draines to which "again Small drains would run from the "houses and at regular intervals from the "Side gutters of the principal "Streets". He proposed to empty the main drains into the river at Some convenient point below the town, and to supply these drains with a Small but constant Stream of water from wells dug in a Suitable place above the Town

bank appears to me an admirable position be-
hind which to post a strong detachment to
cover a retreat along the causeway The
fort itself though in a shocking state could
not with ordinary precautions be easily taken
without guns, and its abandonment and the
concentration of the defence of the station in
the pettah would be tantamount to re-
linquishing all communication with the Sea.—

4. I also have the honor to differ from you
regarding the destruction of the Juggiahpett
walls if the walls be made up, you may depend
that on an attack the Seebundies will abandon
their barracks and other buildings which are only
to have an earthen wall round them as a pro-
tection; if Juggiapett be to be defended and the
Seebundies unable to meet the enemy in the field,
better fortify the newly designed Military buildings
this could be done cheaply from the circumscribed
nature of their locate and their not even the Rohillahs
are likely to assail the town and so leave an armed post in their rear.—

Sir.

In reply to your letter of the 14th Instant
N.137 and its Enclosures, on the subject of replacing
the existing talook treasuries by buildings more
suitable to the purpose for which they are used
and more defensible, I regret that my personal
acquaintance with these treasuries is too limited
for me to give any decided opinion regarding
them, but as far as my experience goes, I fully
concur with you that they are badly planned
and badly situated, and quite unfit for
the safe keeping of treasure —

2 In my opinion these buildings should
invariably be isolated not removed so far from
the Cusbah as not to be succoured from it
at need, but certainly beyond musketry range,
say 200 or 250 yards; they should also be
somewhat

* N.3. herewith returned.

somewhat bastion shaped, so that some
kind of flanking fire might be brought
to protect their faces, the plans of talook
Cutcherries lately circulated by the
Chief Engineer which conbine Post Offices
Prisons, treasuries &c. grouped round
a Square, with castellated loopholed
towers at the corners, are, though I am
afraid far too expensive to be generally
introduced, admirable in conception and
well suited for the two weak points
of your District, Inggiapett and Raghapore

3 The main treasury of Bunder,
I think should be in the fort, your objection,
that the road to the same is commanded
by the canal banks, does not to me
seem a grave one, on the contrary, the canal
bank

14761

Fort St. George 7th September 1838

very ruined State however upon the principle advocated by Colonel Cotton of removing all vestiges of native power and rule they might be entirely removed and the material usefully employed, the Stones of the walls of Inggialpettah might be turned to good account either in building the barracks and fortified post proposed or in constructing an ancient or dam across the river which flows past the town so as to form a large reservoir of drinking water of which there is great deficiency at Inggeelpetta and which has been urged as a reason for not locating the Head Quarters of the Sibbendy Corps at that Station.

Chintalapoody of about 7 Miles. The Cutcherry at Tirmoor is used by the Sub Police officer and will be a useful office for the Police Ameen proposed by you and a new building at Chintalapoody for a Talook Cutcherry has more than once been recommended for Sanction to Government. This building could be so constructed as to form a fortified post and would prove of the greatest value in that part of the country, but a question arises whether the detachment, should be removed from Rajapore where are barracks a hospital and every accommodation for a full Company of Sepoys to Chintalapoody where no Such accommodation excists or whether the new Cutcherry Should be built at Rajhapore a Village of no importance and not So centrally Situated as Chintalapoody It would perhaps be better to have the fortified post at the former place which is nearer the Frontier the barracks &c will not be Sacrificed and Chintalapoody will at the Same time be defended from attacks

attacks from the Nizams Territory.

7 With regard to the Treasury of Nundigamah as also that of Bezawah, I would not recommend their removal badly as they are at present, Situated in the heart of native Towns and ill Constructed as they are for all purposes of defence; for I consider that fortified posts of Inggiahpettah and Rajhapore with a Strong Detachment of of the new Silladdy Corps at the former would protect the whole District from attack from the Nizams Territory. It is however of importance to guard these two Treasuries, from attack of gang robbers and ill disposed persons within the District I would therefore recommend that the present buildings be altered in Such manner as may be necessary for the purpose.

Nundegamah Bezawah

8 There are no native Strong holds within the Sub Collectorate, except at Gondapilly the town of Inggiahpettah is Surrounded by a Square wall with bastions but tho these works are in a very

in the Town broken into and plundered - These facts speak for themselves The treasure of the Tirwoor Talook is usually kept at Rajahpore where a Company of Sepoys is stationed and it has Consequently escaped plunder, but there is no proper building at Rajahpore for its reception the Officer Commanding usually assigning one of his Conjee houses for this purpose

The Cutcherries of these three Talooks are built on one uniform plan, a drawing or ground plan of which is subjoined. It Consists merely of a building with three sides, the fourth being quite open. The records are kept in a small room built in one Corner and the treasure in a similar room in the opposite Corner in addition to having to defend a large open front a guard within these treasuries as happened during the late attack at Juggiahpettah is liable to be taken in rear and fired in upon through the small windows behind and as observed by Colonel Roberts and other Officers of 9th Regiment N. I. who inspected the Juggiahpett Treasury after the attack it was the very place they would wish to drive their enemy into."

Juggiahpett 3- In my report of the 9th dated 18th November 1837 I recommended that the windows behind should

should be moved to a height sufficient to prevent persons from the out side climbing into or firing into it and that a wall in front of it should be constructed but something more than this is necessary - I would recommend the removal of the Juggiahpettah Cutcherry or at least of the Treasury from its present position in the Town to the vicinity of the new barracks sanctioned by Government for the Silhendy Corps these barracks should form a fortified post near the Town and the Treasure with the Post Office should be kept within it.

Tirwoor 6) It is more difficult to provide for the protection of the Treasure of the Tirwoor Talook the present Cutcherry is in a remote corner of the Talook in the Zémindary portion of it, and for all purposes of business is so inconveniently situated that the Talsildar has rarely occasion to visit it and usually carries on all his duties at Chittalapoody a large Town in the Centre of a Punganah of that name, but the building here used as a Cutcherry is merely a mud one and Consequently the Treasure for security has to be kept at Rajahpore a distance from Chittalapoody

escpense this might be repaired and held against
any ordinary attack by Rohillas, and as it is
a very rich town the residents of which have
extensive dealing all over the Country we
may safely reckon that their own interest
will tend to keep them faithful to their
allegiance.

16 In Conclusion I have the
honor to submit some remarks on this letter by
the District Engineer to whom I have sub-
mitted it for any suggestions he might have
to offer. It will be for the Military
authorities to decide on the fortification of
Jagiahpettah and the keeping up of the Fort
at this station.

1 In reply to your letter No 37
dated 24th instant enclosing Boards Printed
Circular No 2633 dated 15th July 1838 and
Extract

Extract Minutes of Consultation No 852
dated 28th June 1838 I have the honor to forward
the following remarks on the Talooks Trea-
suries within the Sub Collectorate.

2 The subject has before engaged
my attention and I brought forward the
necessity of defending in some manner
+ the Treasury at Juggiahpettah in my + letter
No 99 dated 18th November 1837 reporting on the attack made upon it
by a large gang of Rohillas in November
last.

3 The Treasuries which it is of the
greatest importance to place in a State
of defence are those of Hundejemah,
Juggiahpettah and Tinnar. The three
latter are close upon the Frontier and
are liable at any time to be plundered
from the Nizams Territory. The Hundejemah
Treasury was attacked in January 1834 when
Rupees was carried off. The Juggiahpett Town
was attacked on 1st July 1835 when Rupees
3.948 1/4 was carried off and again on 7th
November 1837 when Rs 1934-4-9 was carried
off a Havildar 2 Naicks and a Sepoy
killed and 78 houses and shops
in

Detailed

building - The present Cutcherry at Kykaloor
is in a Compound and built of brick and
tiled the house at Anked is a thatched
building formerly Zemmedars Cutcherry. it is
not a safe place for Treasure no thatched
building can be so.

7 In Pentapaud there is no Cutcherry
the Tahsildar holds office in a thatched house
formerly the Zemindars.

8 The Pondaka Salt Cutcherry
in Buntoomilly is a brick house tiled
it is very desirable that this building should
be put into a defensible State as large
sums of money are paid into it when
the Lumbadies Come for salt it has a street on
one side and houses on the other three - if it
had a flat roof instead of a tiled one it could
easily be made a strong position.

9 Goodemadah Cutcherry is a good one
with streets on three sides with a walled
Compound.

10. Padana has a good Cutcherry at the
end of the Village, but the Compound has
no

no wall &c.

11 The Challapully Cutcherry is in
the middle of the Village has streets on two
sides and a Compound wall.

12 At Ellore the Cutcherry is close
to the old Fort by which it is Commanded. the
building is a good one, but has no Compound
it is surrounded by houses I have as a pre-
caution removed the treasure except what
required for daily expenditure to the barrack
Guard where the officer Commanding the
Depot allows it to be kept.

13 The Palmyra Cutcherry is also
in the Village it is a tiled house has a com-
pound and mud wall.

14 There are no Forts or other fortified
buildings into which the treasuries could be
removed.-

15 On the treasuries in the Sub division
Mr Chase has sent in a full report which
I beg leave to forward agreeing cordially in
his views except in that of removing the wall
at Jagiahpetta, Captain Ansley in Command
of the Silladies tells me that it a little
expense

distance about a mile was found to be a great hinderance to business and generally most inconvenient. The Fort too is in a very delapidated State the ditch is filled with mud and the Rampants are all falling down besides there would be danger in removing the treasure and making the Fort a rendezvous in case of an outbreak the road to it being Commanded by the Canal banks, behind which assailants would find good shelter, An Estimate has Immediately been prepared for a new Public Cutcherry and I would suggest that this be altered to a fortified building and made the centre of a good defensible position in the Cantonment. The pay office Pension office and Station Staff Office might be placed under the same roof or closely, and one Guard would do for all I mean that the Commander in Chief is likely to pay this Station a visit and I would suggest that this proposition be

Submitted

Submitted to his excellency.

4 The Tahsook treasury is situated in a good central position in the Town of the Hoozoor Cutcherry is fortified but little need be done to this one. its situation at an angle where four roads meet is good.

5 In Dewy the Cutcherry is commodiously at Codoor amount of the way place The Tahsildar however resides at Aunaure gudda in a house belonging to the Zemindar it is a central position and there the Cutcherry should be built. The building at Codoor is in the Village in a small Compound surrounded by houses it is of brick and tiled.

6 The Kykaloor Tahsook Cutcherry in the Town of that name has not been used for five years it is so inconvenient the Tahsildar holds office at Aukeed which should be the site of any new fortified building

Circular

1 Whereas it has been determined that when Palmyra trees grown on the Government Sarvy Vea lands are required for the Public Works Department, and for the use of the Ryots Vea a tax at the rate of 8 annas per tree and 1 anna per 100 Leaves shall be levied by the Circar it is directed that when the Engineer Officers require trees in future the same shall after collecting the tax be supplied to them without any detriment to the Toddy drawing the hire payable for cutting down the trees Vea being defrayed by the Engineer Department The Money so collected should be credited to the Head of "Sayer Jama" and remitted - A report as to when for whom, and how many trees were granted and what amount of tax was levied should also be sent immediately -

2. As regards the trees that may be required by the Ryots Vea the same course should be adhered to such applications being subject to the previous Sanction from the Hoozoor -

3 In the event of the leaves of the Palmyra trees paying Motunpha tax being cut - the same to be levied at the rate of 1 anna per 100 leaves should be paid to the payer of the Tax -

4 If leaves be required to be cut down from trees grown in private gardens orders have to be previously obtained from the Hoozoor as has been hitherto the usage - On such occasions you will report the particulars thereof upon full enquiry

Dr No 4025
From the Collr of
Masulipatam ...

Sir, Fort S.t George

I have the honor to submit the following remarks on the State of the trees Sunnes in the District, their position as far as their defence is concerned and the possibility of removing them to any fortified Post -

2 The Collectors Cutcherry treasury at this Station is in a small rented Bungalow quite unsuited to resist any determined attack the treasury was formerly a Godown and consists of a long room with two smaller ones at each side at the end in these are the Cash chests of the Revenue and General treasury, the Guard room is what was the Stable at the rear of the house and quite away from the entrance.

3 Last year when great expenditures were entertained the greater part of the money was removed into the Fort but the distance

From Board 30th March 1815 N°31
To Dº 16th April 1815 N°38
From Dº 31st Augt 1815
To Dº 20th Decr 1815 N°251

is the virtual owner of Palmira Trees growing on his estate, in the same way as Government are on theirs.

4 A reference to the Correspondence noted in the Margin will show the Board that there was formerly much discussion on the question of the right of Zemindars to Palmyra Trees growing on their Estates as I do not find any orders on my Records since Mr Russels last letter I am led to presume that the point has not been Conclusively settled as far as this District is Concerned. The opinion expressed by the then Board of Revenue in para 4 of Mr Secretary Haulmys Letter of 31st August 1815 was in favor of the right of Zemindars, except in such Cases as were provided for by an express reservation to the Contrary in the present Case as in fact in this District generally there was no such reservation

5 The rent on account of the Palmyra trees called the Kalabe Mottumphar is paid to the Zemindars having been included in the assets.

6 No doubt Mr Frasers order did

did not contemplate the Collection of the tax in Zemindaries but in practice it has been extended to them I am of opinion there are not sufficient grounds for authorizing the levy of the tax on Palmyra trees of Zemindary Estates and would therefore recommend its discontinuance.

7 The tax will of course continue on the Government Talooks as the trees there are the bonafide property of Government.

8 The usual right of Control over the Cutting of the trees and leaves in Zemindaries as well as in the Government estates which has been from a long time exercised by Collectors in Connection with the Security of the Abkarry Revenue will of Course continue.

Bd. No. 23771
From the Collector
of North Arcot

Sir

I have the honor to acknowledge the receipt of your letter of the 30th Ultimo No. 2890 requesting me to inform the Board when the Summabundy of my District for fusly 1267 was completed and what Amount of Ryotwary Arrears for the recovery of which Proceedings had not been commenced under regulation XXVII of 1802 before the 1st July were outstanding at the close of that fusly

2 I beg to state in reply that the Summabundy Settlement of this District has not yet been completed and that I am therefore unable to afford the information required by the Board

3 I have settled the Talooks of Sholinghur Caveripauk Timellum and Satyhur and have all but completed the Talook

14997 Fort St George 10th September 1858

Taluk I have still 3 Taluks to settle in consequence of my having relieved the Acting Head Assistant Collector of his share in the Summabundy from a wish to superintend personally in all but the Sub Division the introduction of the new rates The Sub Collector has reported the completion of the Settlement of 4 of his 5 Taluks He as well as myself considered it advisable to be at Head Quarters during the Inchaurim immediately after which we resume operations

4 The Settlement of the District will be concluded as speedy as practicable and the information required by the Board will then be supplied

Fort St George

Sir

B. No 2753.
From the Collr of Salem

I have the honor to acknowledge the receipt of the Board's Circular letter No 293 dated the 30th January 1856 annexing Extract Minutes of Consultation dated the 8th Idem on the subject of Dasaye Enams & Requesting me to report whether Dasaye Enams or Enams of the description alluded to by Government by whatever name Enams in the District have been regarded as hereditary & whether in my opinion such a mode of their tenure can be maintained

2 No Enams in the Salem District are known by the name of Dasaye Enams but there are certain

Fort St George 10th September 1858.

760 certain enams known by other names
for which no service is now performed
16 tho they were originally granted as
78 remuneration for service of this
kind there are two descriptions, the
one termed Zemindary Enams" and
½ the other Gouda Enams-

Zemindary Enam. 3 The Zemindary Enam was origi:
:nally granted to a Class of Revenue
servants in the Baramahl denomi:
:nated Zemindars who were employed
in preparing the District accounts
and Reporting on the state of the sea:
:son and the annual Cultivation-

4 During the Government of
Tippoo Sultan the Zemindars were
deprived of their emoluments which
Consisted of Rent free lands and
fees. The same persons were not
Reemployed under the present Gover:
:ment but in the year 1801 the Board
of Revenue Recommended to Government

Letter to Govt dated the 30th June 1801.

that

Fort St George 10th September 1858

that the Zemindars then living
should be allowed pensions for
life, and further that 2500 acres of
waste Poonjah land and 250 acres
of waste Nunjah land should be
granted them in perpetuity on favorable
tenure for the support of their dep:
:endents-

5 This Recommendation was
made "in Consideration of the period
"for which they had held their offices & the
"poverty to which they were Reduced by the
"extortion of the Mysore Government
"under the late Sultan"

Letter from Government to Bd dated 22nd Augt 1861

6 The Government sanctioned the life
pensions and the grant of waste lands on
easy terms in perpetuity-

7 The extent and Value
of the alienated lands now
in the possession of the
Zemindars is shewn in
the Margin- The gout Rent
Charged to the Zemindars
was originally fixed
at

	Extent	Assessment
Histnagherry	81-9 30	2 1112 7 8
Tripatore	1262 3	15 2652 13 7
Tongaricottah	630 4	5 929 " 9
Total	2741 38	6 4794 6 "
Deduct Sadiqy	———	471 12 "
Remaining	———	4322 10 "

at 138-32-7 or Rs. 185-9-4 which was
5 per cent on the value the Renumed Boom
on fees amounted to Pagodas 2012-37-8 which
is equivalent to Rs. 7046-11-4

Gouda Enam- 8 It appears that the Gouda Enam
was originally granted to persons employ-
=ed as heads of Villages. The holder of the
Enam conducted the duties now performed
by the Monigar in collecting the Renums

9 This Enam consists in the fo
Talook Rs
=llowing as detailed in the Margin- Inclo-
=sed a Statement showing the extent to
which the Enam is enjoyed in each of those
Talooks- In the Ammy portion of the
District lands are held as Gouda
Enam to the extent of 182 Rupees, and
in the Jaury portion to the extent of
289 Rupees making a total Enam
of Rupees 471-

Tripatore
Vistnaghierry
Akroon
Razeepoor
Shankerydroog
Trichingode.

10 In the Tripatore Talooks in-
=cluding the Ammy and the Jaury por-
=tions there are 7 cases in which lands
are held as Gouda Enam- In only
one case service is performed Viz. in

in the Village of Calendra- The Enamdar
in that Village who is also the Monegar has
no other pay for his services than what the
Enam affords- In the remaining 6 cases
no service is performed nor are any summuds
forthcoming- It is said that the sum-
=muds have been destroyed or lost- In
the Survey accounts the lands are entered
as Gouda Enam- The several Enam-
=dars themselves state that the Enams
were given to their ancestors for the
service they rendered as the heads of Villages

11 In the Vistnaghierry Talooks
there are 2 cases both in the Jaury por-
=tion- It is stated by the Enamdars &
the Curnams that the Enams were
given to persons employed in Collecting
Renums and in looking after Tanks and
Channels also that the Enamdars now
render the same service to the Ryotab-
=dars- No Summuds or any other documents
are forthcoming to shew when or by
whom or for what purpose the Enams
were granted- The Enam lands are
entered

entered in the survey account merely as Gowda Enam, without any allusion to the service—

12 In the Shenkerrydroog Taloork there are 2 Enams both of them in the Rent free Agrahars. They appear to have been granted for the same kind of service but no document is forthcoming to throw any light upon the point. one of the Enamdars appears to render service to the holder of the Agrahar (in this Case a single person)—

13 In the Remaining 3 Taloorks, there is only one Case in each In the Aktoor Taloork the Enamdar performs the duties of Monegar in the among Village of Chockanoor - In 1843 the Enamdar was appointed Monegar of the Village at his own Request the Receives no other pay for his duties than the Revenue from the Enam lands - In the Trichen: -go de Taloork the Enamdar, who

has his Enam lands in a Rent free Village does service to the holders of the Village - In the Razeepoor Taloork the Enamdar performs no service - In this Case it appears that the Enam was given by the for: -mer Government in Remuneration for Police duties - In the survey account the Enam is classed as a Gowda Enam but the Enamdar was designated the Coondachara obly Parapatyam" which signifies the Police officer of a Division—

14 These Enams tho origi: -nally granted for the performance of certain public duties are now enjoyed (with a few exceptions) without any service they ought therefore to Revert to the Government - But as the lands have been en: -joyed by the Enamdars for a long thened period without question -

I

Fort St George 10th September 1858

I would Recommend that in they should not be resumed till after the death of the present incumbents-

15 In the two cases in which the holders render service to Government as Enams: - gave the value of the Enams exceeds the salary they would be entitled to if they were placed on the same footing as other officers of the same class in the Rest of the District - The Enams enjoyed by the person who holds the Monegars office at Choolaturoor in the Ahtoor Talook is 83 Rupees If this Eenamdar were paid in Ready money at 13¼ Rupees per Cent on the Cultivation, he would get a money payment of 14 Rupees a year - In the other † cases the holder of the Enams is a female without issue - The Monegars duty

† Vide para 13

† In the Tripatoor Talook Vide Para 12.

Fort St George 10 September 1858

is performed by a Gomastah. His Enam Consists of 14 acres Valued at 16 Rs. If paid in ready money at the usual rate of 13¼ Rs per cent the Salary would amount to 3 Rs per annum The Beriz of the Village is only 155 Rs. This Enamdar possesses Zemindary Enams to the Value of 43 Rs & some other Enams in the North Arcot District -

16 Out of the Remainning 12 cases 7 cases are included in the Dary Mootahs & Agraharums I would treat these in the same way as the cases in the Amany portions for the service is not one Rendered to the Government - In these 7 cases it does not appear that the Enams were included in the assets when the estates in which they are severally situated were permanently Settled -

17 Some other Enams termed gowdas and also some Stulla Chetty Enams have not been included in this statement as it appears in those cases that the Enams were granted to the founders of Villages as free Enams and this Kind of Enam has been regarded as hereditary by Government Vide Boards Proceedings dated the 19th June 1848 No 313 - When lapses occur among the others, due attention will be given to the Subject, and the Enams will be treated as the Enam Rules prescribed -

Fort. Saint George 10th September 1858.

Enclosure No. 1.

The Decree of the Civil Court in the
Zillah of Salem Subordinate
Judges Court O. S. No. 400 of 1852.

Plaintiff	Defendant
Kylasa Gounden	H. A. Brett Esquire Collector of Salem

Civil Judge Court A. S. 132/55.

Appellant/Plaintiff/	Respondent/Defendant
Kylasa Gounden	H. A. Brett Esquire
By Vakeel Veerabudriah.	Collector of Salem.

For original Pleadings and Decree
vide Decision of the Zillah Courts, for July
1855, Page 7 to 11 Zillah Salem.—

1. The Plaintiff dissatisfied with the Decree of the Subordinate Court, appeals on the following grounds.—

That the rejection of the claim under the statute of limitation, after proofs had been put in in reference to the merits of the case in accordance with the points was contrary to the 3d Para of the paper of points and to the C. C. S. No. 126.

That the lower Court while admitting that Plaintiff was applying to the Collector for redress, has brought the statute of limitation to

15002

Fort. Saint George 10th September 1858

to bear on the case, on the ground that the Defendant from the beginning had repudiated Plaintiffs claim, which argument is opposed to the Regulations, and to the spirit of a letter from the Collector of the District to the Board of Revenue under date the 9th Februa-ry 1847 as well as to the practice in the Revenue Department; and lastly.

That there were several potent grounds to shew that the lands claimed were fraudulently appropriated; and the present rejection of the claim is opposite to the principle observed in this Courts decisions in Appeal Suits No. 60 to 63 of 1843 - 38 of 1848 - and 167 of 1851, and to the rules laid down in Morley's digest.—

2. Therefore Plaintiff prays that the decree appealed from may be reversed.—

3. The Respondent was declared ex-parte on the 15th September 1856.

Decision.

4. On a consideration of all that is urged in the Appeal Petition, demurrer to the original Judgement, the Court is of opinion that the suit is clearly barred by the statute of limitation, and that consequently the dismissal of the claim by the Court below on that ground was strictly correct.—

The

15003

Fort Saint George 10th September

5. The special Appeal Suits Nos 44 of 1854 and 6 of 1855 before the Sudr Udalut are somewhat analogous to the present, and the decisions in those suits offer a satisfactory precedent in support of the applicability to this claim of the Law of limitation.—

6. The Appeal is therefore dismissed and the costs in both suits will be paid by the Plaintiffs.—

Talook to Trichinopoly with exception of the Ramaghetty Pollam and that Tenkurray Talook was made over to the Sub Collector under the orders of Government dated 9th May 1856 No 475 and that in consequence all Statements save No 14 have been so prepared as to exhibit the transactions of Fusly 1265 in the present state of the District as it now stands with a view to facilitate the drawing out of comparisons.—

3 The places at which Puttahs were distributed is shewn in Statement No 1 in the packet.—

I

Fort St George 10th September 1858

4 I annex a Statement shewing the Villages and hamlets of the District and beg to observe that this and and another statistical Return No 16 are not due for Fusly 1266. No 15 as they were submitted in Fusly 1264 had I not been required to submit them by the Mem^rs of the Revenue Secretary to Government dated the 21st March 1857 and the Statement referred to above exhibits a comparison between the last and the present Returns.—

5 Of the increase of 29 hamlets in Ryotwar Villages one is a nominal addition to the Madacolum Talook the site of a Village having

having been found to be situated in the limits of another Village it was in Fusly 1265 annexed to the latter- Two were formed in the Teroomungalum Talook to be in the vicinity of cultivation 3 in Meylore by Emegrants from the neighbouring Zemin-dary and Iyen Villages to enable them to have accgs to Extensive waste Lands and 23 in the Sub Division of which 5 have been explained in para 8 of the Sub Collectors Report and the remaining 18 are in the Ramagherry Division of the late Ramagherry Talook and were formed with a veew to live close to cultivation.-

6 The increase in rented Villages and hamlets is occasioned by

by the escheat to Government of the Erackekanaiknoor Pollicum under the

B3rd Boo 25th Septr 1858 No 2489 Orders of Government dated 18th September 1855 No 1055 and the decrease of a si-milar number will of course appear under the head of Polipats &c to which however 25 hamlets have been added in the year under reference of which 23 are more omissions in the ac-counts of previous years and 2 were newly constructed in the Gunlaneanackroor Zemindary by emigrants from Tencassy in Tinnevelly District and from the neighbouring Zemindary of Bodi-nackenoor.-

7 Statements Nos 18 and 20 which are now under preparation will be forwarded at the earliest convenience.

No 17- 8 The last Return of po-pulation was submitted in Fusly 1260 and the 2nd census was therefore obtain-ed in 1265 when no Form having been received the detail is no now furnished. It would appear that within the five years the population has increased about 9 per Cent which I attribute solely to the natural in-crease.-

F 1260 - 1756791-
" 1265 - 1907490
Increase 150705

9- The cultivation season com-menced favorably throughout the Dis-trict for dry crops. Good rains fell in April and May by the aid of which

which and the scanty falls in June and July lands were cultivated to a greater extent than in last year but the Sub Collector reports that the crops withered in some localities owing to the dryness of the weather in the following Months.-

10 The supply was abun-dant in August and October for wet Cultivation. September brought down a moderate quantity in the Principal and none in the Sub Division with exception of the Small Talook of Nella-cotay slight freshes came down the Vigay in May and October consequent-ly the cultivation of this description of land also was considerably in excess of last year in the Principal Division which more than counterbalanced a falling

falling off in the Sub Collectors Talooks but after November very little rain fell merely a few showers not suf-ficient to revive the withered crops. In consequence the yield was generally indifferent and is sup-posed to have been about half the average Crops also failed to a con-siderable extent and the remissions granted on that account amounted to Rupees 25355.-

11 Subjoined is a State-ment of rain which fell in the Dis-trict according to the guages.-

15014 Fort St George 10th September 1858

12 People were generally healthy but Cholera and fever existed not however with such vigour as is usual in times of Scarcities - During the latter part of the year cattle suffered from an epidemic and the result was great mortality among them -

Statement N: 2.

13 Prices of all sorts of grain were high as in last year and considerably exceeded those of the Survey and the effect was on one hand advantageous to the cultivating class who had a gain almost sufficient to cover the loss sustained

sustained by the falling off in the Crops and hardship on the other upon the non cultivating - The District appears to possess grain in stock for its own consumption --

Statement n°3-

14 The actual cultivation of the year under review amounted to 567171 acres which was the highest extent that ever came under tillage and the land Revenue also not only exceeded all the previous years but was higher than Fusly 1262 the highest year on record by Rupees 38268 notwithstanding that a considerable remission was granted on account of withered crops. -

15 I annex a short Statement

Statement to shew the Cultivation Remissions and the net Settlement as compared with last year - The apparent decrease in the assessment of Dry Garden and Wet lands is owing to the reduction to the former allowed under the Sanction of Government dated 21st April 1856 and the exclusion of Hooloos Mauf and N. Peters discretionary remissions on the latter from the accounts according to the Board's Proceedings 2nd December 1856 N° 4059.

Do remitted on review of Proceedings	3	7	4
	53	7	5
Total	203	8	5

The

Sundry Items No 4

21 The result of the year under this head amounts to Rupees 58789 being Rupees 994 less than the year preceding. The chief items of decrease are Tree tax and water rate on Enam lands. In the former it was owing to the tax on trees situated in back yards and occupied lands having been remitted ~ ~ ~ under the orders

B. of Circular 29th October 1855. No 2902.

of Government 31st May 1855 No 65 and in the latter owing to less extent of Enam lands having been cultivated with the aid of Govern-ment water.-

22. Subjoined is an abstract of Gross tax to shew how it was levied The small decrease calls

Fort St George 10th September 1858

calls for no remarks.-

Talook	Nos of Ryots	Cultivation of the Ryots paying Grass tax Land	Jeerwah Land	¼ tax on ⅕th of the Puttah Lands Full tax	¼ Tax	Grass tax on lands taken in Darkast	Grass tax levied according to Custom	Total

Total	24243981510	2489869 10 3

Fort St George 10th September 1858

24 It will be observed that the Revenue of the District in the pre-sent state from all branches exceed-ed that of Fasly 1265 by Rupees 6547 and when compared with the same year without excluding from it the por-tion of the late Ramagherry Talook transferred to Trichinopoly in the year under report it falls short of Rupees 18066. But if the present Revenue is contrasted with Fasly 1262 the previ-ous highest year on record the differ-ence would be in favor of the former by Rupees 23537 notwithstanding the al-teration above referred to. This would indicate that the District is gradually prospering.-

27 cts regards the balance on the Government Talooks all with the exception of a Sum of Rs 210 cts of which the demand has been suspended under the orders of +Government in certain 7 of the several Villages in which Mr Peters discretionary reduction

29th April 1857 No 393 Bd Roo
15th May 1857 No 1592

of

Fort St George 10th September 1858

of the original Assessment has been re-imposed is under realization.

28 Of the old balances out-standing at the end of August 1857 a Statement is appended

Fysly	Recoverable			Doubtful			Irrecoverable		
	Rs	a	p	Rs	a	p	Rs	a	p
— " — 1261	"	-	-	7	-	-	153	8	3
— " — 1262	"	-	-	"	-	-	38	4	-
— " — 1263	9	13	1	"	-	-	33	5	11
— " — 1264	502	2	1	133	10	1	109	4	9
— " — 1265	3341	6	6	353	3	5	441	5	1
	3853	5	8	486	13	6	706	1	-

29 The recoverable balance will be collected in due course by resorting to coercive process where it is necessary.-

30 Of the doubtful Balance Rupees

Fort St George 10th September 1858

Rupees 12-7-5 is due in the late Ramagherry Talook and will be reported on by the Collector of Trichinopoly - The remainder re-lates to boundary disputes com-plaints of excess Tecrwah and measurement and the like which are under enquiry.-

3 With regard to the ba-lance classed as irrecoverable I beg to state that a Sum of 1,519-13-- was recommended for remission in para 27 of the Settlement report of Fasly 1265 of which Rs 3-1-4 have since been collected leaving a balance of 1516-11-8 to be written off - It only re-mains for me to explain the further sums of

Fort St George 10th September 1858

of 547-5-4 now added to it.

32. Rupees 226 is part of Fish rent of certain 2 Channels in the Maducolum Talook. On the represen-tation of the Renters and upon en-quiry it was found that in conse-quence of repairs to some works on the channels effected at the interval of the term of the lease they were pre-vented from fishing and thereby sub-jected to a loss the Collection of the sum in question was therefore order-ed by Mr Parker to be postponed with a view to give them an al-lowance proportionate thereto. The sum of Rupees 154 is made up of Enam and Ryen Lands cultivated

Fort St George 10th September 1858

cultivated from private sources of irri-gation erroneously charged and of im-poverished and deserted Ryots. The Remaining Rupees 167-5-4 relates to the Sub Division and under the circumstances explained by the acting Sub Collector in paras 60 @ 67. I beg also to support his recommendation for remitting the same.

23 I beg to point out here that the amount of the 3 items referred to in paras 57 @ 59 of the Sub Collectors report is a repetition of what was re-commended for remission in paras 34 and 35 the Collectors Report of Fusly 1265.

A in No 13. 34 It will be observed from this enclosure that the property of 214 Ryots were

were sold in satisfaction of Rs 1357 which fetched a price of Rs 4590 and the surplus obtained above the arrears were paid to the parties concerned..

35 The Balance of Taccavy referred to in Para 37 of the Report of 1265 was fully realized in the year under review..

Statement No 14.

36 The transfer of a portion of the Ramagherry Talook be Trichinopoly accounts for the deficiency in the Current Collections of the Land Revenue At the end of Fusly 1265 the balance was small and in consequence the Collections on account of arrears were less in 1266. The other items of Collections require no explanations.

The

37 The causes of increase in the charges of Collectors Salary and Deputation allowance are too numerous to be explained. I beg to remark generally that it arises chiefly from the pay of the Head Assistant Collector having been wholly charged to the Revenue Department instead of 2/3rds as in last year under the instructions from the Accountant General the Pay of the Assistant Collector Mr Longly by having been disbursed for about 6 Months at the higher rate of Salary the appointment of a new Assistant Mr McGregor with the advantage of an additional allowance, for the 3rd language and the payment of Deputation allowance to the acting Collector for about 7 Months and to the acting Head Assistant

Dated 22nd April 1856

Collector

Fort St George 10th September 1858

Collector for 12 Months in the year under reference whereas in the year preceding he drew the same for 7 Months only.—

Hoozoor Establishment.

38 The pay of the Head Sheristadar having been raised to 700 Rupees from 21st March 1857 and that of the Sub Collectors and the District Establishments having been in some instances disbursed for 12 Months in the year while they were paid for 10 Months in Fusly 1265 account for the increase.

39 The only other items which calls for remark is the Law charges. Fees to the amount of Rupees 697 due to the late Government Vakeel on account of several Suits against the Collector

Fort St George 10th September 1858

Collector were paid to his heir as also a sum of Rs 590 to the Special Respondent in suit N: 97 of 1855 of the Sudder Adalut adjudged to be paid to her being costs incurred in the original and appeal hearings.—

40 The Board will perceive that the charges in the whole amount to 9 per Cent on the Collections.—

41 In commencing to notice the Revenue from Extra Sources. I beg to enclose 4 Statements relating to Salt and to subjoin an Abstract of the Home and Inland consumptions as well as the Salt imported from Tinnevelly.

42 The discrepancies arising on the Home and Inland consumptions cannot be accounted for satisfactorily as we have no means but on the whole there was a slight excess above Fusly 1265 of Rs 275

No 6 - 1267

With

Fort St George 10th September 1858

Letter to Bd of Revs dated 9th June 1857 No 112-

44 With reference to para 7 of the Manual for the preparation of Salt accounts. I requested the instructions of the Board as to the manner of entering the Salt obtained subsequent to the expiration of the Fusly but not being favored with an answer I have taken the liberty to frame my accounts by crediting the Salt manufactured from January 1856 intended according to the former practice of the District for Fusly 1266 to the end of the year and that received between January and June 1857 to the accounts of Fusly 1266 leaving the quantity which

which may be had after June to be brought forward in the accounts of Fasly 1267 the 2 kinds of receipts above referred to have been distinctly shewn in the preceding para.-

N=6
Sibbendy Charges
1018-9-5

4 5- The increase arises from the pay of the District Establishment having been disbursed for 12 months in the year under report including May and June of the year preceding.-

Coodgewatrom
Dec. 7521-10-10-

4 6- The 2nd item of the receeipt of Salt of F 1266 entered in para 4 3 of the report i.e, 136,770 mds not having as yet been paid for the difference is occasioned.-

Sea Customs
F 1265-19,950-14-6
-1266-17920-3-2
Dea. -2030-11-4

4 7 The falling off in the receipts of Sea Customs is chiefly owing to a

a decreased export of Paddy to Ceylon and import of bodd Nuts.-

Charges-
F 1265-2310-13-5
" 1266-1952-4-10
Decrease 358-5-7

4 8 Dis-continuance of an English writer in the Collectors office to supply the Press Establishment and the absence of any Maramut in the year under report causes the decrease.-

4 9 The increase in the receipts of stamps is attributable to act IX of 1853 in consequence of which appeals from the Decision of the Civil Judge are preferred in that Court for transmission to Sudder Adaulut and Stamps required for the purpose are purchased from the provincial Stocks.-

50 The trifling receipts and charges in the Sayer call for no remarks.-

It

Fort St George 10th September 1858

51- It remains for me to add with regard to the settlement that all the Village accounts were prepared by the Curnams on paper according to the new Forms and in few instances where they could not afford to undertake the task the accounts were drawn out on Cadjan. This Proceeding was approved by the Board in their Proceedings of the 25th April 1857 № 1278 and the warnings therein setforth have been duly Communicated to the Curnams - The orders of Govetnment in this respect have had such an effect that many of the Curnams unable to write on paper get their accounts neither by hired Gormastahs-

52. As I have been acting in this District for only 11 Months I am not competent to give an opencon on the merits of the several junior Offices in this District Mr Cockrell has conducted hises duties zealasly and well as also has Mr Longly the acting Head Assistant and Mr McGregor who joined in April last has shawn every anxuty to learn his work and will make a valuable public Servant -

53 The Sheristadar and Sheristadar and Sub Division Sheristadar have fully sustained the high character they respectfully bear and the

Fort St George 10th September 1858

two first have given me personally great Satisfaction.

Acting Collr

15070 Fort St. George 10th September 1858.

To,

R. J. Sullivan Esqre
Acting Collector of
Madura.

Sir

I have the honor to submit my Report on the Settlement of the Sub Division for Fusly 1266.

2- Owing to the alteration that took place at the commencement of the Fusly in the composition of the Division the substitution of Tenkarai for the greater part of the Rangherry Talook transferred to Trichinopoly - the comparisons drawn in the following Statements are necessarily drawn between the outturn of the Division and the outturn of the same Talooks for Fusly 1265 not between the outturn of the Division of the Fusly under review and the outturn of that of 1265- The result shown in the Margin exhibits a Net increase of Rupees 1421- 1 -

Fusly 1265 - 48967- 6- 2-
do 1266 - 49388- 7- 2-
Increase — 1421- 1 -

The

Fort St. George 10th September 1858.

3. The subjoined Statement shews the places where the Settlement was conducted the Number of Puttah — distributed at each place and the date on which Settlement was closed.

A. P. Cockerell Esqr. acting Asst. to

In

Fort St. George 10th September 1858.

4. In selecting the above places care was taken to avoid those where ample accomodation could not be found for the numbers likely to be assembled and where water & provisions were not to be had in abundance. Precaution was more more necessary this year as owing to the unfavorable nature of the season, — Cholera and other Epidemics prevailed in many parts of the Taloks.

5. The Dresser accompanied the Cutcherry at the Settlement and was active and Zealous in vaccinating as many Children as could be collected at my Camp. The numbers I regret to say were not so numerous as I could have wished owing chiefly to the Epidemics mentioned in the preceding para which deterred parents from bringing their Children as readily as usual.

The

Fort St. George 10th September 1858.

6. The subjoined Statement shows the Villages and Hamlets in the Division — No additions have been made to the former during the fusly under review.

7. The number of Hamlets has been increased by five - The Hamlets set down as additions to the Zemindaries are not new constructions. They are merely Hamlets omitted by the Curnums in the accounts of preceding Fusslies.

8. The newly formed ayen Hamlets are situated in the Talooks of Tenkaray and Pallacottah two of them are in the former Talook the remaining three in the latter - The Hamlets in Tenkaray are situated one near Combay the other South of the Village of Goodaloor - The first consists of Emigrants

Fort St. George 10th September 1858.

Emigrants from the Zemindary of Yaunaikoor who have removed from that place with a view to obtaining for themselves the advantages enjoyed by ryots directly under the Government. The Hamlet South of Goodaloor has been formed by some of the inhabitants of Cumbum for the purpose of being in the vicinity of their Cultivation and for the sake of readier access to drinking water. Of the Hamlets in the Pallacottah one consists of Emigrants from the Cummedy Zemindary who have removed for advantages of Cultivation to the vicinity of Chenkatumputty - The other two have been constructed by the inhabitants of Cotoor and are Ambatary on account of the restricted area of the parent Villages.

9. The Villages and Hamlets entered opposite

No. III

Statement shewing the nature and Extent
of irrigational Sources for Fusly
1266, Sub Division of Madura.

Description.		Fusly 1265 Total irrigational Sources.	Deduct irrigational Sources unfit for Cultivation.	Net.	Fusly 1266. In repair	Out of repair	Total.	Comparison. Incr:	Decr:
		2	3	4	5	6	7	8	9
Tanks		2201	405	1796	1512	291	1803	7	"
Channels		490	232	258	239	19	258	"	"
Wells		12704	1126	11578	9576	2042	11618	40	"
Constructed under the new Rules.	Tanks	20	"	20	25	"	25	5	"
	Wells	948	"	948	1199	"	1199	251	"

The Tanks entered in Col: 8
Statement No. III are not fresh addi-
tions to the Sources of irrigation in
the Division - They are small
Tanks which the Canungo have
omitted to bring to account in
former

former years - The same remark applies to the Wells entered in the same Column.

11. The Tanks constructed under the new Rules which are five in number are in the Tandicombos in Taluk - They are small works not capable of irrigating each more than from 2 to 2½ Cawnies of land, but are encouraging as showing a disposition on the part of the Ryots to avail themselves of the benefits offered them by the Government.

12. The number of wells sunk in the Division during the year is larger than could be expected in some favorable a Season and evinces the general well doing and prosperity of the people. It should be remarked however that the Sub Division is essentially a

a well country - owing to the peculiar description of the Soil which adopts it for Tobacco Cholum &c. precluded from. Many light Soils and that therefore any Capital sunk in this way generally turns out a profitable measurement - The wells were destributed in the Taluks as per Margin -

Cattle ... Sheep	166,749	159,501	"	7,248

Fort St. George 10th September. 1858.

The increase in the number of Meerasidars and Puttahs exhibited in the Statement is attributable no doubt in some measure to the comparative lightness of the land tax in the Division and the improving condition of the Ryots but chiefly I believe it to be owing to the favorable opening of the season inducing many persons to take up land which from the failure of the Monsoon subsequently yielded little or no crop.

14. The custom also generally prevailing of deviding their landed property at the demise of the Head of the family tends to increase the Numbers of both Meerasidars and Puttahs.

15. The Number of Poyacarries

Fort St. George 10th September 1858.

is entered as 3818. It is not assumed that these numbers are perfectly correct, as the Poyacarries have never been entered in previous accounts and owing to the confused nature of their accounts kept by the large Puttahdars, it has been found impossible to ascertain how many under tenants they really have. Moreover not unfrequently Land-holders have been found unwilling to give any precise information upon the point from some fear that any specification of their under-tenants might give the hold over their land which if they took advantage of, they might have to recover by process in the Civil Courts.

16. The increase in the number of Roughs and Open is perhaps the best criterion

Fort St. George 10th September 1858.

certain there can possibly be of the improving condition of the Ryots. Notwithstanding their Cattle has been visited by a Murrain which it will be observed has carried off considerable numbers of them and the general unfavorable nature of the Season they have found means to replace their lost Oxen and to add to their former stock.

Fort St. George 10th September 1858.

It will be seen that there is a general increase in the Rent Roll annexed. The increase is chiefly in small holdings. It is attributable in a great measure to division of property becoming more minute, perhaps, from the more general diffusion of wealth. Many speculators also take advantage of favourable openings in the season, such as was the case in the Fusly under review, to cultivate small patches of land labouring for their neighbours in return for the loan of their plough. It is questionable whether such persons are of advantage to the country depreciating as they do the labour of the richer Ryots though their numbers swell the Rent Roll.

The season promised fairly at the commencement - In April and May of the preceding July when the cultivation of the year begins they were heavy rains - In August also considerable showers were experienced throughout the

Fort St. George 10th September 1858.

the Division and the consequence was that large breadths of land were taken up for Poonjah Cultivation which occurs in this Month In October they were also a few fair falls in the Talooks of Vaudicumboo and Iyempully but after this first burst the North East monsoon almost entirely failed - The results were disastrous to the cultivation - The Poonjah which only required a few showers to bring it to perfection dried in the husk and as early as December in some places the pyots were supporting the Paddy by baling - In Vaudicumboo where the drought was less complete than elsewhere, much of the Poonjah produced from a half to a three-quarter Crop; but in Iyempully where it occupied a very large extent of land, the bulk dried up completely and in many instances was not worth cutting for the cattle - In Tenkaray the Poonjah Crops also almost entirely failed - in

Fort St. George 10th September 1858.

in Nellacottah from a quarter to half crops were obtained - The area of Nunjah in the Vandicombaco Talook was contracted - and such as it was though generally in favorable localities for irrigation near the banks of the Codavanaur river, which is seldom entirely dry, it did not yield more than from ½ to a ¾ crop - The Nunjah under tanks in the North of the Talook almost entirely failed - In the Nellacottah Talook, where the land lay near the river, in general, three quarter crops were obtained. The same was the case in the Tempully and Tenkaray Talooks, but crops depending upon Tanks not fed by mountain streams in all these Talooks almost invariably withered - In the latter Talooks however as might have been expected from the means of irrigation it enjoys, the area of Nunjah was some what greater than last year

19. The season has been far from healthy

considerable

Fort St. George 10th September 1858.

considerable numbers of persons in Nellacottah and Tempully have been swept away by cholera, and the deceased has been more or less virulent all over the Division, small pox made its appearance but its ravages soon ceased, and Fever prevailed during the latter part of the Fasly -

20. The Cattle in consequence of the drought have been visited by a murrain, which has destroyed large numbers of them, and they are still suffering from it and from the continued want of fresh water -

21. The natural effect of the season has been a great and increasing rise in the prices of grain, and were it not that the food of the people consists chiefly of dry grains, of which, except perhaps in Tempully, where the dry crops entirely failed, the cultivators obtained a partial crop, there must have been great distress amongst the poorer classes -

Statement No. VII

15088

Fort St. George 10th September 1858

The prices of Paddy as compared with the commutation prices are shewn in the enclosed Statement- It will be seen that in most instances they almost double the latter- The fact is to be attributed in a great measure to the season, but it is also owing to the scarcity of grain in the district, the supplies of which have been constantly drawn on for the last two years to meet the wants of those surrounding it- The high comparative prices of the Dry grains is owing to their being the staple food of the people in this Division, as mentioned in the preceding para-

15090

Fort St. George 10th September 1858.

Sir,

I have been directed under the Fasly 1268 to submit a statement shewing the extent of the Waste charged to the Ryots of the Sub Division of Madura for the Fasly, the extent of lands now taken up for the same, and the amount of Assessment thereon.

Fasly 1268

2. In reply I am directed to state that the Board are not prepared to sanction the cultivation of Waste lands on the Garden Tax, as the Garden Tax is levied on all the Garden lands which are watered by Channels, whether the supply be constant or occasional.

3. The Board have been glad to observe the extension of Cultivation in the Dry lands, and they trust that the Collector will encourage the Ryots to bring into cultivation as much of the Waste land as possible.

4. I am to request that the Statement may be returned.

I have &c.

(Signed) C. Trevelyan

Secretary to Government.

To

The Collector of Madura.

15091

Fort St. George 10th September 1858.

1094

Extract

In consequence of the unfavorable season detailed above, the remission on account of withered crops have been considerably larger in amount than usual and there are increase of Rupees 1345 over the Remissions of last year or a Percentage of Rupees 0 - 14 - 9. upon the whole Beriz cultivation.

The largest remission was in the Tandicomboo Talook, being Rupees 813 - 5 - 6 upon an area of cultivation of Beriz a Cost of Rupees 23,122 - 5 - 4 or a Percentage of Rupees 3 - 9 - 10 as has already been stated compared with its Beriz it embraces an area of 940 square miles - the wet cultivation in this Talook is small, owing to the deficiency of irrigation - The chief irrigation is derived from the Cadamanaar River and the cultivation under this river yielded a crop though a deficient one. In the North of the Talook where the Runjut is watered by Tanks fed by streams running from the small violated mountains of Hills which the rest of the crops depend, the country, the crops almost without exception failed, though remission was not granted

granted for some of them, owing to the owners not having left the stalks for inspection or reported the circumstance of the failure in proper time - There were a few exceptions however where 1/4 to a 1/2 crop was obtained - Much of the Shaver in this Talook was withered before the ear had time to form..

28 The nexct Talook in which there was the largest remission, amounting to Rupees 363 - 6 - 10 or . - 7 - 5 per cent upon the whole cultivation was in Tenkaray - The remissions were chiefly on lands deriving their irrigation from Tanks: those watered by the river and by the large mountain channels yielded in many instances fair crops, though in many others they were but scanty & unremunerative

29. In Iyempully the remissions were Rupees 198 - 4 - 5 or 2 - 6 - 7 per cent on the cultivation, In this Talook the great spreads of wet cultivation depend upon the streams from the Pulney Hills, which are seldom dry and afford a constant and in ordinary seasons abundant supply to the tanks into which they debauch - The whole of the crop obtained in this Talook was this year inferior in quantity and some of it damaged

damaged owing to the grain having been visited by disease consequent on the supplies of water not having reached it in proper season - The remission was generally on the lands at a distance from the tanks..

30 In Nellacottah the remissions were Rupees 111 - 10 - 6 or Rupees 4 - 14 - 7 per cent upon the entire cultivation - The cultivation in this Talook is chiefly in Battalagoondoo and near Nellacottah - In the former place the crops were saved by the large Hill stream that flows there - The river was empty during the whole season - The crops here as elsewhere were deficient the remission was granted mostly for the cultivation at Nellacottah which has not the advantages of the Battagoonda wet land..

31 The decrease under the Head of Teerwa Cummee is the result of two items that were formerly entered under it, namely, Faysal Poonjah converted into Wet and Garden and reverted to Poonjah, being withdrawn and added to the amount of Poonjah cultivation..

32. The impetus given to cultivation by the reductions in the land tax

tase that have taken place and the benefits of their own improvements that have been accorded to land-holders already adverted to sufficiently explains the fact of their being this fusly a greater number of cowles than usual and therefore of an increase under the item of cowl manf.

33 Item No 8 is the usual deduction on a Garden in Nellacottah which is situated near the bed of a tank and becomes submerged during part of the season so that the owner is unable to cultivate it with a second crop.

34 Item No 9 is the Teerwa Cummee on four Gardens in the Talooks of Tandicomboo and Dyempully which are occupied for the present at the Poonjah rates, under the provisions of the orders of Government recently promulgated in regard to old Gardens the wells of which are out of repair.

35 The Mahajanum Manf is customary. It is a remission granted to a small Village near Nellacottah consisting of 486 acres, occupied by Brahmins.

No other Village in the Division enjoys a similar advantage.

36 Subjoined is a Statement shewing the land cultivated with Sugar cane, Cotton and Indigo - As might be expected Ryots were not from the aspect of the season willing to place their whole trust on an expensive crop and on one the failure of which could not be ascertained until the time for putting down another was past, and there is consequently a diminution observable in the cultivation of Sugar cane - This species of product is raised for the most part in the Talooks of Tandicomboo and Dyempully It is also grown however, though sparsely, in Tenkaray - It is the ordinary description of cane and is used chiefly in raw state; in which it is sold in bazaars - It is also however manufactured in Tenkaray and Dyempully into the common Country Sugar - As regards Cotton there was so little rain, in Dyempully, where it is chiefly cultivated, in November, that compared with what

is

is usual but a small quantity of land was sown with it. There was no cultivation of Indigo but I believe one of the sons of the Renter of Ammani Kanoor. Mr. Fondeclair proposes trying an experiment with it next year, which, if it succeeds, may lead to its extensive introduction. Mr. Fondeclair is of opinion that much of the land in the Division is as favorable for its cultivation as Cuddapah where it is now so largely produced.

The

The Enam Jodee fluctuates with the extent of cultivation - It will also be understood that the extent of Enam land being fixed - when a greater quantity is cultivated in one year a loss must be expected to be so in the succeeding one, as it is requisite that some of the land should be kept fallow to allow of its recovering its strength exhausted by successive crops.

Topes & Trees 39 The increase under this item is mainly attributable to the high prices which have ruled throughout the District for some time past for tamarind and which particularly in the Iyempally Taluk stimulated competition in the biddings - It was also in some respect owing to the favorable flowering of the trees which promised to bear more luxuriantly than usual I may observe that this result is in the face of the fact that many trees have been with drawn from the contract and made over to the owners of the lands in whose land they stand, under the orders of the Board of Revenue.

The

40 The Decrease here is trifling compared with what might have been anticipated and what is usually the case in bad seasons, when the Ryots throw up their purgasts for grass altogether. In prosperous years it is customary with them to occupy much more grass land than they are compelled to hold with their Puttah lands and they make use of it for grazing their cattle, for which there is a regular market in Ceylon while the hardness of hoof and activity of the cattle of Tandicombo Taloork, in which the grass lands lie is fully appreciated. The cattle also meet with ready sale in Tinnevelly and Coimbatore. This year the ryots occupied

	5640	17,810	20299 11 8	5714 12 11

occupied little more gross land than was attached to their Puttahs. The enclosure shews the particulars.

41 The decrease in this item is the result of the small supply received by the Tanks during the Fusly.

42 The deficiency on the other hand operated to raise the Fish rents. The fish rents may generally be considered barometers of the season. When the fall of rain has been considerable they decline - the abundance of water operating against the taking of the fish.

43 This item is usual. It is the ground rent of two Bungalows at Batlagoonda and Tenkaray the property of the american Mission.

44 In the following account shewing the general result of the Fusly as compares with Faisly 1266, it has been thought better to enter first the change that has taken place in the composition of the Sub Division since the close of last fusly in order that it may be seen how great the change has been. The items of cultivation and comparison

begin

Fort St. George 10th September 1858

begin below with the lines headed Dry, Wet &c. It is needless to add that the comparison is drawn on the same principles as in the other State: ments, namely with the Talooks of Fasly 1265 now composing the Division - not the Division as it stood in that Fasly.

45 By order of the Board of Revenue dated 2d December 1826, the Hoolook maaf and other fix: ed remissions have not been entered in any of the accounts this year, but to avoid a difference being perceptible with the account sent up with the last Report, it has been considered advisable to retain these headings in the account now about to be esc: plained as far as regards 1265. The headings and lines explain themselves - The lines from 6 to 11 are

Fort St. George 10th September 1858.

are the items comprised in the total in line five Col: 5 as will be seen from line 11 in the same Column.

46 The necessary remarks on the items contained in the lines from 6 to 15 inclusive have been already made above in esplaining Statements VIII, X & XIII - No further esplanation seems necessary.

47 The allowances to the Ze: mindars fluctuate with the cultivation

48 The same remark applies to the Hill Natamgars, who are paid by a percentage on the collections - The increase in the collections on the Hills, notwith: standing the liberal deductions in the taxation made by the Government under their order dated 30th June 1854, of which the people have had the advantage this year according to the desire expressed at the conclusion of the order is Rupees 988-7-10 in excess of those of Fasly 1265 which amount: ed to Rupees 8,389-6-5 - thus satisfactorily de: monstrating the policy of the reduction in every point of view -

Fort St. George 10th September 1858

Circumstances Desired

49 This is customary for a Pagoda at Combay in the Tenkaray Talook, the management of which has been under Government management for the past twenty years.

50 This Zemindary was rented by the widow of the late Zemindar Chinnammall to one Chockalingum Pilly of Shevagunga for 9 years for a Sum of Rupees 1400 in addition to the Peshcush of Rupees 2061-15-8. Chinnammall died in 1853, when a correspondence took place with the Board of Revenue regarding some doubts as to the succession, who directed amongst other things that the Zemindary should be taken under management at the termination of Fusly 1264 and the rent due from the renter under his contract realized from him until the expiry of his lease at the close of Fusly 1266, when the Zemindary was to be managed on the same principles as the Cayen lands. These orders have been carried out.

51 The next Statement exhibits the demand for Land Revenue and Exctra Sources. The items composing line 10 are those referred to in the Sewoy Jumma Statement No. XII. The Abkarry contract was given for five years in Fasly 1265. The auction took place in May 1858.

Statement

52

The Demand Collection and Balance of current Revenue Talookwar will be seen in the first portion of the annexed Statement. The Balance is hardly 1/60 of the demand and will be realized without any remainder. It is necessary and excusable that under the unfavorable circumstances of the season, the Ryots should be allowed a short time to liquidate all that is due from them. Measures have been taken to realize the balance outstanding against the Cunnemady Zemindary & it will be collected before the commencement of

Fort St. George 10th September 1858.

of September.

			Total for 3 Faslies	335	8	"
			Amount recommended in preceding Faslies and pending Sanction	49	"	11
			Grand Total	384	8	11

Rs 157-12-9 57 This arrear is due on land in the Iyempully Taluk near Pulney it accrued in 1263- Although there was a yield on the land in the year in question which disentitled the holder to Shause remission it was not sufficient to cover his tasc- Narasimma Naick has no moveable property which could be distrained upon and is in such poor circumstances that nothing can possibly be realized from him.

Rs 7-0-4 58 This demand was made for water which the Curnum reported that Mundaladipady Naick had made use of in cultivating the manium lands attached to the Vailoor Chuttrum in Iyempully- On enquiry it has been found that the Curnums Statement was erroneous and that the water that was employed was private water the property of Mundaladipady Naick- the demand must therefore be withdrawn.

Rs 3-5-9 59 This item is due for Fasly 1264 upon a field in the Tadicomboo Taluk- The defaulter is a very small Puttahdar

15117 Fort St. George 10th September 1858.

Puttahdar, having a Puttah of Rupees 4-7-7 only and no other resource - It will be impossible to recover this sum from him.

Rs 89-9-2 60 This item is due from the late Natamgar of the Virupatchy Hills Yacob Pilly - The Natamgar reported that his house had been broken into by robbers and a sum of Rupees 249- the collections of the village carried off by them - An enquiry was instituted on the subject and a person whom the Natamgar accused of being one of the robbers was committed to the Court to take his trial on the charge, The case was however dismissed Proceedings were then taken to recover the money that was missing from the Nattamgar and his property which was sequestrated and sold produced Rupees 159- 10-7 - The balance 89-9-2 he has no means of paying and I would therefore recommend

15118 Fort St. George 10th September 1858.

recommend it to be written off.

Rs 7-14-5 61 This arrear was demanded on the authority of the Curnum - On enquiry, however it was found that it was in excess of the proper assessment of the land on which it was alleged to be due - Its remission is therefore equitable.

Rs 14-2-5 62 The person from whom this arrear which is the case of a piece of land in Davadanapatty in the Tenkaray Talook is due made a durgast offering to cultivate the land for one year only, Fusly 1264- He fulfilled his agreement and the land was left waste in the fusly ensuing - The case, however, owing to a misconception of the terms of his agreement was demanded from him for this fusly also - It should now be remitted.

Rs 13-14-8 63 The person from whom this arrear-

arrear is demandable constructed a small tank in Carengatankoolum in the Tin: -Karay Talook under the new Rules for such works - He shortly found however that the Poonjah tax of the lands, which had not been waste for 10 years and was therefore to charged for- included, in the bed of the Tank formed, in the aggregate, a greater amount than it suited his small operations to pay. He there: -fore expressed himself willing to re: linquish the advantages of the Rules pro: -posing instead to pay the full Nunjah tax on so much land as he should cultivate. This proposal was entertained and hence it will be necessary to remit the arrear now sought to be recovered from him.-

Rs 1-1-a 64 This item is a small sum entered in excess of the correct heiz due from the Village of Poolamunda: -poorum, in the Tenkaray Talook by a clerical mistake on the part of the Curnum.-

Rs 2-13-6 65 This sum is due on a Puttah in

in Pulney in the Jyempully Talook. The ex: Puttahdar who held a Puttah of 50 Rupees died before it could be realized from him leaving no property, and his widow and children are now reduced to seek their livilihood by begging. The sum should be struck off the accounts.

Rs 12-1-9 66 The Defaulter cultivated cucumber in the bed of a Tank in Co: -lempoottoor - Before the plant fruited, the tank filled and the cultivation was submerged with water - The arrear should therefore be remitted.

Rs 1-7-5 67 This Defaulter was a resident of Jyempully - His Puttah consisted of the sum due from him - He is now dead and has left no effects behind him. His wife and Children have quitted the country and no means exist of recovering the arrear.

68 The following Statement shews the charges on the Re: -venue in the Dindigul Division for Fusly 1266.

15723 Fort St. George 10th September 1858.

To

I have great pleasure in acknowledging the valuable assistance I have received from my Sheristadar Venkata Rao, since I took charge of the Division in October last. His long experience has been of essential aid to me in making the Settlement and his services have on all occasions been zealously and faithfully rendered.

Dindigul
10th August 1858.

Board of Revenue
Fort St. George

Sir

B. No 3812

From the Asst Collr
of Malabar

I have the honor

2 Copies of a treatise on small Pox with Telugu Translation

to acknowledge the receipt of the Book

1 Do. of the administration Report of the salt Department during the year 1856/57

noted in the margin

1 Do. of the Report on the financial Results of the Albany administration of the Lower Provinces in 1856/57

which were forwarded with your Memorandum dated 2

1 Do. of Reports of deaths in Madras during 1856.

Telugu Ilag to.

I state that Telugu is a language so little known in this District that the distribution of the Treatise on small Pox in it is of little use whereas had Malyalum the language of the Country been used in any peoples interest would have been glad to Receive

the

15728 Fort St. George 10th September 1858.

the Pamphlets and the principles of Vaccination would be known more or less of living diffused -
