Comp. P.R.

From the Chief Secy to Govt. containing observations and orders on the Proceedings of the Board of Revenue relative to the settlement of the land revenue of the District of Malabar for fasly 1248.

Extract from the Minutes of Consultation under date 15th December 1840.

Read the following Extract from the Proceedings of the Board of Revenue.—

Relative to the Settlement of the Land revenue in the district of Malabar for fasly 1248.—

(Here enter 9th November 1840 No 430)

Para. 1.—The account given in the foregoing proceedings of the season of fasly 1248 is far from favorable.—The monsoon set in very late and the falls of rain were then so scanty as to cause considerable injury to the wet crops

16

Many Cocoanut Betel trees were either destroyed or so much injured that many years must, it is stated, elapse ere they recover.—Sickness also prevailed among the inhabitants to an unusual degree in

in consequence of which great mortality ensued.—

2 Prices continued high throughout the season being for grain 15 per Cent and for Cocoanuts 51 per Cent above fusly 1247.—

3 Fortunately however there was no want of grain in the Country as is evident from the value of the quantity exported having exceeded the same in fusly 1247 in the sum noted in the Margin, His Lordship in Council moreover notes with satisfaction "that the exportation of Betel nut had resumed the position it held previous to its declension in fusly 1247."

+Rs 233086

4 Notwithstanding the unfavourable nature of the season as above described a comparison between the land revenue of fusles 1247 and 1248. exhibits on the whole an increase of Rupees 3,136-6-8 in favor of the latter

+1247 Rup. 16,22,883-2-2-
1248 Rs. 16,26,039-8-10-

latter year to which if be added the last instalment due by the Canna-more Beetlee improperly excluded from the account, the result will be still more favorable

+3000 Rs.

Para 5 the order passed by the Board on the latter point in this para is approved.—

5 Of the settlement amounting to Rupees 16,26,039-8-10 there remained uncollected at the close of the fusly Rupees 2138-7-5 and subsequent collections reduced the balance outstanding to Rupees 283-2-6.—The gross collections from all sources within the fusly exceeded those of 1247 by Rupees 17,387-6-3 and those of 1246 by Rupees 43,625-3-9. This result is considered very satisfactory and extremely creditable to the officers under whose management it was obtained.—

Para 27

6.— The Right Honorable the Governor in Council has also

also observed with pleasure the great reduction that has been effected during the period under review in the arrears for former fasulies and desires that such portion of the remainder as may be deemed irrecoverable be submitted to Government for the purpose of sanction being obtained for its being written off from the accounts.—

7. His Lordship in Council concurs in the observations of the Board of Revenue contained in † Paras 6-7-8 these 1st Cts 9-10 Cts and approves of their having prepared and rendered to forward to the Principal Collector, forms of Statements calculated to supply the information required on the several points noticed to be submitted by him with his Cts reports on the Settlements of future years.

8.— Although the System of annual rents and remanie Cts management to which the Cts Board have directed the Principal Collector to revert for the realization of

of the revenue from the escheated estates, Ernaad and Trimulpooram is by no means desirable being equally opposed to the interests of the Government and the Ryots, yet His Lordship in Council considers with them that the survey and assessment of detached portions of a district is at all times, but more especially when the introduction of a general measure of the kind is under contemplation, very objectionable, and that at any rate it ought not to be commenced upon without a previous reference being made to and sanction obtained from the higher authorities.—In para 34 of these Proceedings the Board of Revenue, have it is observed, stated that they anticipate no difficulties in the introduction of such a measure in the Government estates and that they are

read

ready to sanction the same so soon as the Principal Collector may express his ability to undertake it. Under these circumstances therefore and as the survey and assessment of these estates is stated to have been conducted in a manner by no means satisfactory and to require much explanation before it could be sanctioned His Lordship in Council is disposed to concur with them in the propriety of not acting upon it at present. The requisition that has been made on the Principal Collector for information on various points connected with this subject in para 43 of their Proceedings is entirely approved; and the attention of that office is directed to the same with the view to its early submission considering the

Fort St. George 4th January 1841.

+Para 18 the progress that has been made in the inspection of the gardens since the last report before Government, it is fair to presume that that work has been by this time nearly completed and adverting to the many disadvantages arising from the inequalities known to prevail in the assessment of the Rice lands in the Malabar district, His Lordship in Council trusts that its revision based on actual survey will be taken into consideration at an early period by the Board of Revenue.

Paras 15-35 The orders passed on the various subjects noticed in these paras are approved of.

The Governor in Council also concurs generally in the observations of the Board of Revenue on the several subjects discussed in the paras noted in the Margin, and approves of their having called upon the Principal Collector to furnish further information on those points where the explanation has been deemed defective. He will be prepared to sanction as recommended by them the employment

Paras 16-19-20-21-22-23 & 27-30 & 34

+Para 23

employment by the Principal Collector of additional Servants for the purpose of examining and estimating Cumum and other dry grains, and will be &c
glad to have before him the †report
† Para 26 that has been called for on the &c
schemes proposed for remedying the defects of the present mode in &c
which the Revenue is realized from lands of that description.—

Paras 36 and 42 11 The paras noted in the &c
margin contain a long discussion relative to the proportion that waste lands bear to those cultivated in the Malabar district and the best plan for reclaiming the former from their present state.—The remarks recorded by the Board on the former head would appear to be extremely pertinent but without fuller information than at present submitted it is impossible to arrive at any just conclusion.—As regards the

the second point His Lordship in Council will only observe, as has been done on more occasions than one, that Government will be most ready to give full consideration to any proposition that may be considered likely to further an object so desirable as the conversion of waste into parallel land.—

His Lordship in &c
12 Council has observed with great satisfaction the favourable mention made by the Principal Collector of the services of his Sub Collector Mr. Goodwyn, of the Head Assistant Mr. Silver, and of the &c
Assistant Mr. Patel, as also of those of his Acting Head Sheristadar, the Deputy Serishtadar and the Sub Collector's Serishtadar.—

The Board of Revenue have not noticed the observations submitted in Paras 28. to 32 &c

of

Fort St. George 4th January 1841.

of the Sub Collector's report of the 2nd September 1839, but as His Lordship in Council is of opinion that the restraints and impediments on the internal communication of the country, arising from the oppressive nature of the Ferry tax and the impassable state of the roads and Ghauts therein noticed demands their immediate and serious attention

Sir,

With reference to a letter from this Department of the 1st ultimo, and to an Extract from Minutes of Consultation thereon of the 14th I have the honor, by desire of the Commander in chief, to annex for the information of Government, Copies of letters from the Officers mentioned in the Margin, on the subject of the

the employment of Public Cattle in the conveyance of Treasure from station to station. From these reports it appears, that about 50 Draught Bullocks in the Ceded Districts may generally be made available for the conveyance of Treasure within the limits of the Division, without inconvenience to the Public service in other respects.

In the Centre Division Public Cattle can rarely be supplied for the conveyance of Treasure beyond the Monthly remittance from Chittoor to Vellore and those mentioned by Brigadier Burton, from Chittoor to the Presidency.

With the Hyderabad Force, Treasure has not for several years past been required to be transported to or from any station, within the Command.

No Public or Permanently hired Cattle can be supplied for the Carriage of Treasure in the Province of Canara, but it would seem by

General

General Patty's letter of the 24th ultimo, copy of which is annexed, that 6 Carriage Bullocks can be supplied, for the conveyance of Treasure, in Malabar from those held available, by special authority for the Equipment of the Field Force, ordered to be there maintained.

From Bangalore the transport of Treasure is reported by Major General Sir Hugh Gough in his letter 7th November, copy of which is annexed, to be of rare occurrence, and recently when an Escort was required to take charge of Treasure in Transit the Carriage was supplied by the Mysore Government.

In conclusion I have the honor, by desire of His Excellency the Commander in Chief, to report, that no Public Cattle are ever maintained with the Troops in the Northern Division of the Army. Carriage Bullocks being hired when required for their service. In the Southern Division

the

the same practice most generally pre-
vails, as Trichinopoly is so very
unfavorable a place for Camels, and
the Casualties amongst them, when
stationed there, so very great that none
are retained except where a Cavalry
Regiment forms a portion of the Troops
in Garrison, which is not the case at
present.

Sir,

I have the honor to acknow-
-ledge the receipt of your "Circular" letter

its Enclosure, and in reply to state for
the information of His Excellency the
Commander in Chief that I do not
think it would be advisable to
detach more than fifty Draught
Bullocks from the Head Quarters
of the Division, at any one time,
for the conveyance of Treasure from

this District, and they should not be
sent to a greater distance from Bellary
than Cuddapah.

Treasure being carried
upon Bandies, I have not noticed
any other description of Cattle, but
I would not recommend the Employ-
-ment of Elephants or Camels for
this purpose, as the number of those
present is not greater than the exigen-
-cies of the service might require.

It may be proper to observe
that if Draught Bullocks be emp-
-loyed for the Carriage of Treasure,
Bandies will still have to be hired,
the saving to the state will therefore
be but very trifling.

only route in the Centre Division on which I think it advisable the Public Cattle should be used, for the transport of Treasure, are from Chittoor to Vellore, and from Chittoor to the Residency as about 1,50,000 Rupees is forwarded from Chittoor, to Vellore Monthly, and about 2 Lacs from Chittoor to Madras annually, in two remittances. This is as much I think I shall be able to accomplish with a due regard to the efficiency of the Troops under my command, for I think it expedient that Public Cattle equal to move, 1 Native Regiment of Infantry and 1 of Cavalry should be retained in readiness.-

There are no Carriage Bullocks at Caunerypauk, and in the event of Draught Bullocks being used for the conveyance of Treasure, I beg to observe we have no Carts. In reply to your letter No. 485 bearing date 10th Instant, forwarding a circular from the Qr. Mr. General of the Army on the subject of public Cattle being employed for the conveyance of Treasure &c. I have the honor to acquaint you that it has been made known to me by the Principal Collector of Malabar that the average number of Bullocks required monthly for the conveyance of Treasure in that Province will only amount to sixty, which could easily

easily be supplied from Cannanore without deteriorating the efficiency of the Field Force. Establishment ordered to be there maintained, as a similar number might be procured on emergency.-

In the Province of Canara the Collector reports that remittances of Treasure by land are very rare, none having been so made since 1830 and the Officer Commanding the Brigade in that Province deprecates the use of the Public Cattle for that purpose, Carriage Cattle being there difficult to procure.-

Fort St. George 4th January 1841.

with copy of Minute of Consultation of the 8th September 1840, regarding the employment of Public Cattle in the conveyance of Treasure from one station to another, and in reply beg to state, for the information of His Excellency the Commander in Chief, that the very smallest allotment of Public Cattle I consider it advisable to be held at all times available for the immediate service of the Troops at this station is as follows:-

10 Elephants.
40 Camels.
103 Draught Bullocks.

the number required to be held in readiness for a portion of the Troops by special Orders dated 1st May 1840. only 71 Draught Bullocks are necessary for the Troops but the services of the remainder are required in their own particular duties. Viz. in the Arsenal, for Road Carts &c &c under these circumstances little

assistance could be given in the Transport of Treasure, more particularly as the Public Cattle consists of Elephants, Camels and Draught Bullocks, animals not frequently used for that purpose. No Public Carriage Bullocks are retained here, those required for the Force being hired at the reduced rate of 2 Rupees each per mensem.-

I beg however to point out that the transport of Treasure from this Station is very rare, only one Escort having been supplied for several years past and that within the last 2 Months, on which occasion, Country Carts were supplied by the Mysore Government for the Carriage of the Treasure.-

With reference to the Provinces of Malabar and Canara, I beg to annex copy of a letter received from Major General Paty on the subject.-

I beg further to add that the

the few Camels and Bullocks granted for the special Work at the Remount Establishment at Cossoor (when not required for Military purposes) cannot be spared for the transport of Treasure without detriment to the particular service for which they are required.-

of the Zemindary and Shrotriem lands has been completed in 527 out of 663 not 644 as inadvertently stated in my last report. Villages, and that it is progressing in 95 others with every prospect of being completed by the close of this Month.

3. In the course of the survey of the Zemindary Villages no accounts have been demanded contrary to the provisions of Section XIII. Regulation XXIX of 1802, whilst every effort has been made to meet the wishes of the Zemindars, notwithstanding which the Proprietors of 43 Villages continue to object to the lands in them being surveyed.

4. These Persons are chiefly residents of Madras, and though seemingly well aware of the futility of the objections they had urged, continue their opposition to the measure from an evident disinclination to recede from a point which they had so warmly taken up. It must, however be left eventually Iconceive to the discretion of Government

to determine whether the objections of the Proprietors of these few Villages to having the lands in them measured, is to impede the completion of the Register of all the lands of every description in the Jaghire. Besides which by Section XI of the Regulation above quoted, it is specifically laid down, that detailed accounts and Registers of the extent and description of every description of land are to be kept by the Cumums, but which they are unable to do, as the only Register in the unsurveyed Villages at present existing; are Bernard's Survey accounts prepared about 67 years since, and which shew the lands of each Village in estimated quantities, without that regard to correctness or detail which a survey alone can effect.

Para 1 In reply to your letter of the 10th Instant transmitting for report two Petitions, I have the honor to state for the information of the Board that C. Vencatachella Chitty having complained to Mr. Hallett when acting Collector that the Shrotriemdar of Moray had thrown impediments in the way of his reaping the produce of certain Lands which his Predecessors had purchased 40 years since from the Shrotriemdar of Moray, and

and which had been in their uninterrupted possession for that period, that Gentleman instituted an enquiry when it appearing that the Statements of the Petitioner were correct and were moreover substantiated by being distinctly noticed in the partition agreement executed between the Members of the Moray family, he ordered the produce to be made over to Vencatachella Chitty, and that the Petitioner to your Board should be desired not to interfere with the produce again referring him at the same time to obtain repossession of the lands by a regular suit if he deemed it expedient. subsequently C. Vencatachella Chitty Complained to me that notwithstanding Mr. Hallett's Decision, the Shrotriemdar had sent a party of his dependents and carried off the produce to his house. I then sent a summons to the Shrotriemdar to answer to the charge, when he deputed an authorized Vakeel to reply for him, who acknowledged that the produce had been taken by the desire of the Shrotriemdar who

who grounded his proceedings on his former claims, but which point had as above stated, been previously disposed of. I therefore for this gross contempt and resistance to the constituted authority fined the Shotriemdar 50 Rupees, and ordered him to restore the grain he had caused to be carried away. The Shrotriemdar then paid the fine through his Vakeel and stated that he would restore the grain in a few days when he returned to his Village, but having neglected to do so for some time, I deputed one of my Deloyets with instructions to see my orders carried into effect, the Shrotriemdar then stated to the Peon that he could not restore the grain as he had expended it, on which I had the value of it calculated at the price of the day, and again deputed a Deloyet with instructions to levy the amount from him, or to bring him in person to me, in order that I might enforce my orders according to the provisions of the Regulations.

With

With reference to Petition No. 1889 I have no doubt your Board will consider, as I have done, that consideration to an individual's station should be paid only as long as his Conduct deserves it and that be his rank what it may, it should not interfere with the due exercise of constituted authority.—

To

The Secretary to the

Board of Revenue

Fort St. George

Sir,

From the Asst. Collr. of Tanjore. Reporting on the Settlement of the Land Revenue of his District for Fusly 1249.

I have the honor to submit the Jummabundy Statements of the Province of Tanjore for Fusly 1249.

The season opened with unusual promises. The rains from the West and South West commenced early and continued at regular intervals till the beginning of the Month of October, when they were succeeded by those from the N.E. The supply of water in the Rivers was also regular and abundant during the Months of July and August, and was not deficient in September. Till the end of October the prospect of a very fine harvest was general and the Crops wore a most flourishing aspect. From that time to the termination of the season, rain was unknown in all but a few spots of the District near the Coast where some partial Showers alone fell, and the total failure of the N.E. Monsoon from the usual period of its commencement considerably

(34)

Season

considerably destroyed the hopes that had been previously raised. So unexpected was this cessation of the customary rains, and so great was the probability of more falling after the Showers at the end of October, that the Cultivators neglected the precautions which they would have adopted at a later period of the year, of securing in their fields as much as possible of the latest rain and purposely let off the supply then obtained, fearing an overflow from it in addition to what they naturally looked for.

Annicut 3. It is in a year of scarcity of water in the rivers depending on the South West Monsoon that the Colleroon Annicut proves eminently advantageous. In the year under report the rivers were, as before observed, regularly and abundantly supplied for the first two Months of the Cultivating season, and therefore during that time the effects of the Annicut were not

not so decided as in some previous years. It must not however be inferred that but little benefit was derived from it, for the advantages of an uninterrupted supply of water in the Cauvery and it's dependant streams must in some degree be attributed to the obstacle it forms to the passage of the waters into the river of lower level, at times when the freshes fall, thus allowing the wet lands to be so completely saturated by continual irrigation, that they retain their moisture for a length of time after the rains and freshes have stopped, and to this end in the past season the Annicut must have greatly assisted. The following Statement gives, as far as can be ascertained, the money results of its effect in Fusly 1249, and the two previous years, and will shew how they have been arrived at.

4. The commencement of the season being so favorable the extension of Cultivation was to be expected and measures were early adopted for ensuring the due registration in the Accounts of all newly cultivated lands. 10. The orders of the Board on this subject reached me early in the season when the promise of an extraordinarily productive harvest was so great that I resolved on waiting till the first crop had been cut before taking offers for the rents under the "Durkast System". By at once attempting to carry the new system into effect, I feared preventing the renting of Villages under Woolung, but as the season advanced, and the state of the Crops became altered by the failure of the N. E. Monsoon rains, it was evident that that standard could not be reached; and I therefore proceeded to invite the Meerasidars to rent their lands on the System proposed by the Board.—

11 The actual produce of former years of Fusly 1248, especially the actual outturn of the last Crop, if any, and the state of the Crops on the ground

ground at the time, as far as could be ascertained, were my guides in accepting or rejecting the terms with very few exceptions, the agreements in the Talooks are noted in the margin, with the Meerasidars, were entered into by them before myself in the Division before the Sub Collector, and in Tritarpoondy before the Asistant Mr. Gordon Forbes who was deputed by me with detailed instructions for the purpose to that Talook.—

The total remissions, it will be observed, amount to Rupees 54371 - or 1½ per Cent on the Settlement of the year. These were chiefly given in the 4 Talooks noted in the Margin. In Trivady, with a very trifling exception, on lands not dependant on River irrigation and for c perished Crops. in Trivalore and Manargood mainly for short produce in Woolung rented Villages depending on the Vennar and the riv branching from it, and in Tritarapoondy partly in Villages irrigated by the Vennar, but chiefl on land left waste from the failure of rain, during th season in that Talook.

15. The necessity of these remissions wa carefully investigated and ascertained and is traced t two causes, a partial failure of the supply in the Vens and the want of the falling rains at the end of the season these causes operating in the 6 Talooks here named th

amount of remissions given in them has been considerable - In Villages under Field assessments no deduction has been allowed except for waste and unproductive lands in conformity to the positive orders received on the subject - In all other rented Villages according to the provision of the rents, it has been given for short produce by division of their Crops.

16 In the aggregate Jummah from all sources of Revenue there is a net increase of Rupees 16,920.—

29 Of the Balance of Rupees 18,897-2-10. outstanding up to 31st October Rupees 13,168-9-6 is the demand in certain Cadarumbum Villages. Woolungas rented on land left waste by failure of rain which by the tenure of the engagements of the Woolungs rent, under which the Government have decided that these Villages should be clapsed. I am not empowered to remit, but the Collection of which has been suspended in this as in several preceding years from the impossibility of its realization without the ruin of the Meerasidars following. Rs. 1043-15-4 are outstanding in Meerarumbum Villages for land unavoidably uncultivated, or trees unproductive

and on Land destroyed by River Sand. Items which were not remitted because the claims of remission had not been fully ascertained when the annual accounts were closed. Deducting the abovementioned sums the actual balance outstanding at the end of October is Rupees 4,084-10-or 7/64 per Cent on the demand for the Fusly.

30 In submitting the Report of the Sub Collector Mr. Forbes I have much pleasure in bearing testimony to the ability, uninterrupted zeal, and judicious arrangement with which he conducts the duties of the Division of the District entrusted to his charge, and in having this opportunity of acknowledging the advantages I derive in my official connection with him.

31 Mr. Cook, the Head Assistant has during the whole year had the Revenue management of the Talooks of Heevalore and the Departments noted in the Margin have been under his immediate control. He also aided me in superintending the harvest in the

To

The Principal Collector of
Tanjore.

Sir,

Para 1. I have the honor to report upon the Settlement in the Sub Collectors Division for fasly 1249.

2. The season opened most favorably, and continued so until the setting in of the North East monsoon, and there was every anticipation of a corresponding outturn. but the Monsoon which commenced in the end of October lasted but a few days, and from the 1st of November, to some time even after the close of the harvest, there was not a single fall of rain to assist the maturing of the crops. The harvest would consequently have been very scanty but for the fulness and regularity of the freshes, which thoroughly soaking the lands, enabled the young plants to obtain a vigor, and

draw

draw a sustenance from the ground, which in some measure supplied the place of falling rain.

3 There was but little variation in the commutation prices which were $3\frac{15}{32}$ per cent below those of the preceding year, and $9\frac{3}{8}$ per cent above the standard as shewn in the annexed Statement.

Standard Prices.		Fusly 1248.		Fusly 1249.	
Rs.	a.	Rs.	a.	Rs.	a.
3	$1\frac{1}{8}$	3	14.	3	$11\frac{3}{16}$.

4. The following table exhibits the revenue from all sources, compared with Fusly 1248, the particulars of its distribution on all descriptions of

of Villages, and the various items of increase and decrease. The total Jumma was Rupees 1,56,1,735-9-$\frac{8}{5}$ in excess of the previous year by Rupees 7,860-4-$\frac{8}{5}$.

8 There were 41 Villages under Aumanie management, the harvest in which was conducted according to the usual principles.

9 There were altogether 99v - m - 6½k in 9 Villages which, according to the terms of their Settlement, came under a division of the crop. Of this, 29v - 1m - 9½k the beriz of which is 1R 7a - 8p - 8. were in 3 Villages in which the gross beriz only has been fixed - 69v - 8m - 7½k whose beriz is 2R 39a - 3p - 11 in 5 Woolungoo rented Villages, the actual produce of which was 57¾ per cent below the Jummabundy, and 9m - 9k 2⅞. with a beriz of 1R 1a - 0p in one Village rented for one year.

10 In the 3 Villages in which the

the gross beriz only has been fixed, the standard grain amount on the land entitled to remission was 5,410 cub. m. 5 m. m., and the actual outturn 2,147 cub. m. 8 m. ¾ m., being a falling off of 60¼ per Cent.

11 The standard grain amount in the 5 Woolungo rented Villages is 11,646 cub. m. 1 m. ¼ m. and the measurement of the actual produce gave 4,928 cub. m. 7 m. 1¼ m.

12 In the Village rented for one year, the actual produce was 14 cub. m. 11 m. ¾ m. to meet the Jummabundy grain amount of 82 cub. m. 3 m. 1 m.

13 There are 918 Tarum settled Villages in the Division, in only one of which was it found necessary to remit the amount due on 1v - m - 71¾k of land, as totally unproductive.

From J. W. Tyerge 4th January 1841.

14. The condition of the Tanjore settled Villages, noticed in by Mr. Scott in his report for fusly 1248, continues satisfactory. The Statements therein forwarded shewed a steady advance of Cultivation from Fusly 1240, and in the year under report there is again an increase of Pv 176- 18- 7½. The continuation of the South Rajah Voykal, and its dependent works, which have been in progress during the year, & having convinced the Merassidars that water will not be wanting for irrigation, jungle and waste lands are being redeemed for the plough, - and as these works, now only commencing, year by year, extend the benefits of the lower annicut,

continued

continued increase of cultivation will return to Government the expences incurred in preparing them.

15. The Sayer collections amounted to Rupees 90,655- 12a- 7p. being Rs 2,120- 10a- 4p below those of the previous year - The chief falling off being in Tobacco and cloths.

16 The collections within the fusly amounted to Rs 15,60,564- 0a- 9p. leaving at its close an outstanding balance of Rupees 1,171- 8a- 3p. of which 318- 10a- 6p. has since been realized - of old balances Rs 5788- 14a- 9p were collected - This making the total collections amounted to Rs 15,65,752- 14a 10p.

Board of Revenue
Fort St. George

(36)

Sir

From the Coll. of Trichinopoly
Submitting an Abstract Statement relative to the Coll. report on the defalcations in the Rock Pagoda at Trichinopoly with reference to the Board's letter dated the 12th Nov. 1840.-

12th Novr. 1840

Para. 1.- I have the honor to acknowledge the receipt of the communication noted in the Margin, and to transmit the accompanying abstract Statement relative to my report on the defalcations in the Rock Pagoda of Trichinopoly.-

2.- In my letter of the 14th Febru-
ary last, I mentioned that "according to the Accounts there ought to have been about 800 Rupees in the Cash Chest" at the time of examination, and that "a balance of Rupees 1,272" was "not accounted for." I beg to express my regret that any ambiguity of expression should have tended to perplex the Board. It was my intention to confine the charge of defalcation more particularly to the sum of 800 Rupees which according to the documents and accounts of expenditure

that

Fort St. George 4th January 1841.-

kept by the Pagoda ought to have been in the Cash Chest as being the difference between the amount received and the amount expended during the year commencing on the 15th July and ending on the 7th December 1839 in the items of receipts for that period according to the Pagoda Accounts and the Statements of the Pagoda Servants is included the sum of Rupees 1272 above alluded to but although included in the receipts there is no account whatever of the manner in which it was expended - and there is great reason to suspect that it is in fact had been misappropriated before the period commencing on the 15th July 1839.-

3.- Surpassing however the sum of Rupees *1272-5-8 to have really formed an item of receipts as it is supposed to have done by the Accounts, the sum of Rupees ⊕872-15-2 ought to have been in the Cash Chest on the 7th December whereas there was only Annas 8 paid in

*Col. Cl. 2 & 21.

⊕Col. 25.-

Fort St. George 4th January 1841.-

4 In my report of the 14th February I only alluded particularly to the deficiencies in ready money the accompanying Statements shews the value of the deficiency in the article of grain also the total amount being Rupees 1,080-10-2.

†Cl. 26.-

°Cl. 27.-

5.- If the Board do not consider it clearly made out that there was any defalcation, it must at all events be admitted that the Tumberam has been grossly negligent of his agreement by which he bound himself to render faithful accounts of his receipts and disbursements- But his accounts, such as they are, exhibit a defalcation- and it seems to me that to say that a defalcation has not been proved because no regular accounts were kept would be to put a most lenient construction on the transaction-

Ordered to be brought forward at a future meeting

To The Secretary to the
Board of Revenue
Fort St. George.

Sir,

With reference to the standing order of the Board communicated to me in their proceedings of the 3d August 1840. I have the honor to report that I have deemed it necessary to remove the Tahsildar of Conandawilliam Boalth, from his situation.

My reason for this proceeding is the inability of William Boalth to perform the duties assigned to him in a satisfactory manner, arising, not from want of zeal and attention to business, but from the peculiarity of his situation as an Indo Briton, and I have great pleasure in bearing witness to his integrity and assiduity.

The consequences of his maladministration however are obvious in the accumulation of large arrears - and in other instances regarding which it is not necessary I should trouble the Board.—

As Mr. Boalth is an old servant of the Circar I have appointed him to the situation of Deputy accountant, removing an individual only lately appointed

From the Pro. Coll.r of Coimbatoor ---

Sir,

I have the honor to acknowledge the receipt of your letter of the 6th July last, forwarding Petition No. 508 of 1840 and its enclosures, for explanation on certain points in the endorsement of the late Acting Principal Collector dated 28th April 1840.—

*Acknowledging the Receipt of the Secretary's letter dated 6th July last on the subject of Petition No. 508 of 1840 and submits explanation on the several points noticed by the Board viz. the manner in which the dispute regarding a pathway between Hetanaick & Appavoo has been disputed of and Returns to Petition with its Enclosures.

2.— With reference to the 2nd para of your letter under reply, it appears that no regular Suit was filed by Appavoo in the Sudr Ameens' Court at Coimbatore in 1837. a Suit was filed by Appana naick in the Auxiliary Court in 1834 which was referred to the Sudr Ameen and disposed of by that Officer under date the 15th December 1834. an appeal was afterwards made to the Auxiliary Court, and the Auxiliary Court passed a decision under date the 26th November 1835. confirming so much of the decree of the Sudr Ameen as went to declare the spot sued for to belong to the Circar, but amending it as regarded

the

the right of way which it pronounced — the Respondent / Appana naik / to posses, a cross the ground leading to his house — such right of way not having been claimed by the Plaintiff in his original Plaint — The Petitioner Appavoo having purchased the house from Appana naik, he presented various Petitions to the Auxiliary Court, to the southern Commercial Court of Appeal, and to the Judge on Circuit and in the Petition of Mootia Pillay and appavoo to the Board No. 508 of 1840 — the Petitions thus given by them are described as suits, and hence it would seem the mistake in the Endorsement of the Acting Principal Collector has occurred —

3 With reference to the 3d. para of your letter, I beg to state that in the decree of the Auxiliary Court in appeal the land in dispute was not assigned without reserve to Ketanaik, as stated by the Acting Principal Collector. it was declared to belong to the Circar and not claimable by individuals — The Court of Appeal further ruled that all interference with

the land in question by the Court should be with drawn —

4 The Petitioners claim to the ground on which Ketanaik had built a house, was thus disposed of, one Party being declared to have no more claim to it than the other — the injury however sustained by the Petitioner in the right of way was still the same — Ketanaik built his house a cross the pathway leading to the house of the Petitioner, and to a well used by the inhabitants generally — It was represented that this house and well were accessible by another path which the Petitioner had used, and it was expected, as Ketanaiks' house could not be removed, that the neighbours of the Petitioner would settle among themselves some means of securing access to the well, in the benefit of which they all participated — this expectation was not realized — The Petitioner M. Appavoo came late in the evening about the 12th September last, and stated to me that one of the members of his family, an aged woman, was dangerously ill, and that in the event of her death there would be no

pathway

pathway for the removal of the deceased — I accordingly went to the spot on the 14th September, and found the path stated to have been given to him was only allowed through the backyard of another party, and was altogether insufficient for the use of his house. Ketanaik had not only built over the usual pathway of the Petitioner, but had enclosed a very much of ground to the very door of his house. on examination of the spot it was observed that a piece of waste ground had been enclosed adjacent to the house of Ketanaik, and of the Petitioner, without any authority whatever, and that by opening a passage through this ground the convenience of all parties, and particularly of the Petitioner, would be secured, accordingly directions were given to appropriate so much of the ground as was required for a pathway for the use of the Petitioner, allowing at the same time ample space to Ketanaik for his backyard. This arrangement has not interfered with any individual rights. The Petitioner was satisfied

satisfied, and every difficulty in the matter is now removed.

5 On calling upon the sheristadars of the Office to state on what grounds they reported that the right of Ketanaik to the land had been admitted by the auxiliary Court, they have explained that it was not their intention to convey this meaning but that by the Tahsildars report witnesses having appeared to shew that a verbal order had been given by Mr. Sullivan to the effect

Sir.

I have the honor to forward an appeal preferred by Goomastah Soobraw against a decision passed against him by the Subcollector Mr. Maltby under Regulation IX of 1822.

The proceedings in the case being too voluminous to admit of an early translation, I beg to transmit herewith a Copy of the decision passed by Mr. Maltby - as Should the Board, after a perusal of the decision deem it necessary to refer to the proceedings which contain a full detail of the circumstances out of which the case arose, the translations shall be submitted as soon as they can be prepared.-

On a review of the whole proceedings in the case, I am of opinion that unless the circumstance of the appellant's sickness be considered any extenuation which however it is to

effect that Ketaniaik might occupy certain ground, and believing that such verbal order was given, they considered that Ketaniaik might build on the ground, at the same time there were no accounts of any kind to confirm the grant.-

Mangalore, ... } Signed / H.M. Blair
3rd December 1840 ..... } Principal Collector.

A

Subbah row Goomastah of the Buntwal Talook is placed on his trial on the following Charges—

1st Count

1st With embezzling the sum of 8 Rupees.
2nd With falsifying the accounts to Conceal the above embezzlement.—

2nd Count

1st With embezzling the sum of 20 Rupees
2nd With falsifying the accounts to Conceal the embezzlement.—

The defendant is included in the 1st Class of Servants described in clause 3 Section 2 of Regulation IX of 1822, and he is charged with the 3rd & 4th description of Offences entered in

in clause 2 of the same section of the same Regulation.

1st Count.—

In consequence of the accounts of the Buntwal Talook having been prepared & with great disregard of rule and without proper inspection on the part of the superior Talook Servants, they were carefully examined in the Huzzoor Cutcherry at the close of the Fusly, when attention was attracted to an entry of a Charge of 1½ Rupees in the Saudeewaried department for Coir taken from the stocks purchased for packing the Chunam required on the new Mercara road. Had this charge been fair credit ought to have been given in the accounts of the Mercara road for a like sum but no such Corresponding entry appeared. The Talook Katharadah or journal of the day in question was therefore closely examined when it appeared that the Goomastah had embezzled Rupees 8 in the following manner.—

In

In the receipts of that day an entry appears of 8 Rupees as received from Devapah the Shanabogue of Buntwal on account of Land Revenue — but as these 8 Rupees are not entered in the Book kept by the Shroff of the Coins received and paid from the Talook Treasury the Shanabogue was examined —

In his deposition the Shanabogue states that on the 22nd or 23rd February he had lent the defendant Subahrow 8 Rupees which debt Subah row agreed to discharge by paying a similar sum to the sircar on account of the estate of Kherum shetty in the Shanbogues district that on the 1st March when he Shanbogue attended the Talook Cutchery with his accounts and the money collected by him on account of the kists Subah row gave him a receipt for the 8 Rupees stating that he had paid this sum into the treasury according to his engagement. In support of this statement the Shanbogue showed his account book

book in which a receipt appears in Subah rows writing for 8 Rupees entered as previously received at the Talook treasury and not as brought by the Shanbogue on that date —

It thus appears that Subah row to discharge his debt to the Shanbogue made an entry in the Talook accounts that 8 Rupees had been received on account of land revenue but as this would have caused an apparent deficiency of 8 Rupees in the contents of the treasury, he made fraudulent entries of disbursements to a corresponding amount —

The detail of these entries is exhibited in appendix No. 1 and shows that of the eight rupees embezzled by the Shanbogue Rupees 1 — 8 — " were embezzled from the Government and Rupees 6 — 8 — " from the pay of the Talook servants. It may be observed that in consequence of the extent of the

Talook

Talook and the great distance of some of the stations from the Taluk Cutchery, the Police and Village peons are obliged to receive their pay at irregular intervals in arrears for several months. The Goomastah was thus enabled to practise his frauds as these persons are generally too ignorant to dispute the precise amount of pay due to them, and they can be easily made to give receipts for larger sums than they actually receive.

The Goomastah in his defence denies the debt to the Shanbogue Dewapah, and states that the sums entered by him in the accounts were actually received from the Shanbogue. To explain the reason of the difference in his accounts and those of the Treasury Shroff and credit not being given for the 1½ Rupees in the accounts of the Mercara road he states that he was ill at the time.

The Sub Collector considers the charge proved for the following reasons.—

1st The positive testimony of the Shanbogue Devapah which is supported by his accounts. This book shews the receipt of the Talook Sheristadar for the sum actually paid by him on account of the Kists on the 1st March. But the receipt for the 8 Rupees which is in the Hand writing of the Goomastah Subah now bears no signature although it is strictly ordered that the Tahsildar or Sherishtadar do give receipts for all sums received at the Talook treasuries.

2d The difference between the Cutchery journal and the accounts of the Treasury Shroff who keeps a book of the Coins received into and disbursed from the Treasury. The Balance of Cash is the same in both these accounts, but the entries in the journal exceed those in the Shroffs book by 8 Rupees both in the receipts and the disbursements.

3d The proof which the journal affords

affords of the Defendant having made
false entries of disbursements to prevent
a deficiency appearing in the Cash in conse-
quence of his having fraudulently credited
8 Rupees to the land Revenue Collections
without such a sum having been received

Second Count -

Towards the close of the fusly
1248 the Talook Goomastah Balcrishapah
was ordered to prepare a detailed statement
of the expenses in the Tobacco Department
for submission to the Huzzoor. On his examin-
ing the advances made in the Talook on
account of the expenses attending the transit
and sale of the Tobacco and comparing them with
the sums for which sanction had been receive
from the Huzzoor a discrepancy appeared
of Rupees 7-6-10 without any explanation
and the journal was consequently closely examined
by the Tahsildar and Sheristadar. This scrutiny
showed that the Defendant had embezzled the
sum of Rupees 20 in the following manner - -

An

An account particulars amounting
to Rupees 53 - 3 - 4 of expenses incurred in
the Tobacco Department had been forwarded
by the Tahsildar to the Huzzoor and an order
was received on the 25th March 1839 sanctioning
the outlay which had been thus made -
On the receipt of the above order the sum
in question ought to have been charged
in the journal to the Tobacco Department
as expended by the Principal Collector's order
and at the same time credited under the
head of recovery of advances - But the
Defendant credited only Rupees 33 - 3 - 4
to the head of "recovery of advances" and entered
the remaining Rupees 20 - as received from the
Potteguey Dewastan Shanbogue on account
of Land Revenue Collections. In thus
acting the Defendant expected to be able
to make good the 20 Rupees in the Tobacco
Department by false entries before the
Tobacco accounts were scrutinized and he
had succeeded in making good Rupees
12 - 9 - 2 before the fraud was discovered -

Had

Fort St. George 4th January 1841

Had opportunities occurred of completing
Rs. A. P.
remaining sum 4—6—10. the Defendant w
aware that detection of his embezzlement w
have been almost impossible—

The principal party examin
in this case was the Pooliguey Shanbogu
who positively avers that he paid the 2
Rupees at the Cutchery on the day in
question—This statement is doubtless fals
as the fraud could not have been committe
without a mutual understanding between
the Goomastah and the Shanbogue who
it may be observed are of the same cast
It is also to be remarked that the
evidence of the Shanbogue does the Defenda
no service, since if the 20 Rupees had bee
really paid they would have appeared in t
Treasury Shroff's book amongst the actual
Collections and there would have been a
difference of 20 Rupees between the Cash &
the accounts—

The Sub Collector considers the
fraud to be fully proved gainst the
Defendant

Fort St. George 4th January 1841

Defendant—

1st By the entry in his hand writing
Charging Rupees 53—3—4 to the Tobacco
Department and Crediting only Rupees
33—3—4 instead of a like sum to the
head of "Recovery of advances"—

2d By the false entries made by
him in the accounts to make good
the above 20 Rupees in the Tobacco
accounts. A full explanation of these
entries is exhibited in appendix No. 2—

The principal defence offered
by the Defendant is that he was ill
at the time. He states that 20 Rupees
were paid by the Pooliguey Shanbogue
on the day in question in satisfaction of
his lists and that his own omission of
20 Rupees in the sum be credited to
"Recovery of Advances" was a mistake But
he cannot explain why in this case there
did not appear a surplus of 20 Rupees on
examining the balance of Cash and comparing
It

it with the accounts.—

The Defendant being found guilty on both counts is sentenced to replace the sums embezzled by him amounting to Rupees 28 to pay a fine of 15 Rupees and to be dismissed from his situation. The sub-Collector considers that the system of fraud practised by him, the extent of which is yet unknown, make him quite unfit for public employ and that his dismissal is necessary as an example to other servants.

In conclusion it is proper to remark on the lax superintendence of the superior Talook servants by which the Goomastah obtained opportunities of falsifying the accounts. The Sheristadar has been in consequence reprimanded and removed to another talook. With regard to the Tahsildar it appeared sufficient to administer a reprimand and caution for the future as the great extent of the Talook obliges this Officer to be constantly absent from his head station and he has lately had extra calls on his attention.

Such a vague entry in the Accounts could not be made except for fraudulent purposes, and would under any circumstances be inadmissible a reference to the Treasury or Shroffs Book, shews the manner in which he was able to credit this sum. The actual sum disbursed from the Treasury on that date is less by 4 Rupees than the amount entered in the Journal. The Defendant thus took receipts for 4 Rupees more than was actually paid from the treasury and credited this sum to the Tobacco Department. The parties on whom this fraud was practised appear from the Shroffs book to be Cogram Dooga and Poojaree Bramaya. Reporting the Result of the Experiment of introducing Civilization among the Sodawars by means of Education.

Sir,

I have the honor to acknowledge the receipt of the Extract from the Minutes of Consultation of date the 19th October in which I am directed to report if any and what results have attended the experiment of introducing Civilization among the Sodawars by means of Education, with reference to orders received on the subject in 1837 and 38.

I regret to have to state that hitherto nothing has been done. The subject seems to have met with every consideration from Mr. Clementson and it appears from numerous Notices that are to be met with in my records that he used every exertion to obtain the services of some individual who should be qualified to act as a Schoolmaster to the Sodawards, but without success. I have myself made some enquiry since I have been

in

in charge of the District, but have
understood that the same difficulty
is to be experienced as heretofore.

3 I was informed by Mr. Sullivan
during a late visit to the Hills that
one of the German Missionaries who
are located on the Western Coast had
offered his services a short time ago to
educate the Todawars, but that they
had been declined by Government
on the ground of his being a clergyman.
I sincerely trust I shall not be
considered disrespectful or as over
stepping out of my place in suggesting
a doubt whether this objection should
prove altogether fatal to the proposal.
In this Minute received with the
Board's Proceedings of the 24th September
1835, Mr. Sullivan observed "that the
the Todawars were totally free from
all religious prejudice, that there
therefore which the Government has
so wisely laid down not to interfere
with the religion of the Natives could

"not apply to them, and that it would be a
great blessing to them, and one for which
they would be very grateful, if the
Government would step forward and
establish schools amongst them and
endeavour to instruct them in religion
and Civilization." It appears to have
been in consequence of this very Minute
that the Court issued their instructions
that the Court issued their instructions
to establish schools among the Todawars,
and as they offered no opinion on
Mr. Sullivan's suggestion as to what was
to be taught, it may be presumed from
their very silence that they did not
object to the views taken by that
Gentleman. I believe the experiment of
instructing the Todawars in "religion and
Civilization" might be tried without the
slightest danger, and I believe further that
it will require the energy and high moral
feelings of a European to attempt the
experiment of instructing them, in any
way with a due prospect of success. The
climate of the Hills, the wandering
and desultory habits of the Todawars,

the difficulty of their language, all the
present great obstacles in the way of
the Native who can hardly be expected
to be actuated by a higher feeling than
that of earning his monthly Salary.

Relative to the Settlement of the Shevagunga Zemindary in the Madura district under attachment for fusly 1248.-

/ Vide Letter 23d Novr 1840 No 453 /

1. Although the season was not so favorable as in the preceding year, yet the superior prices of Grain more than compensated for the deficiency of produce, and a Comparison between the Settlement of Fusles 1247 and 1248. exhibits an increase in favor of the latter year of Rupees 10,130-13-8.-

Rs.
Fusly 1247-42,130-9
" 1248-52,261-6-5

Rs 8713-3-7

2. A portion of the increase above shewn is stated to be owing to the resumption of certain Dharmasanum Villages by

by order of the Sudr Udalut the items of increase and decrease are explained in paras 3 and 6 of these Proceedings.

3. Of the Amount of Settlement already entered, there remained outstanding at the close of the fasly 1283 02-15-1 subsequent collections up to the end of September reduced the balance to Rupees 89,985-14-8 of this latter sum Rupees 86,031-5-4 were due by certain Merchants for grain purchased and were to be paid in December, and the rest with the exception of 1277-5-1 stated to be a Remittal balance was expected to be realized in the same Month.

Para 6. The Estate is now clear of all arrears of Peishcar, but is stated to be still under the Management of the Principal Collector "in virtue of an order of the Sudr Udalut and pending the decision of Her Majesty in Council in the appeal by

by Bodagaroo Sawmy roya Woodia Saver against the Decree of that Court in favor of the Rajah Singanacotoo Natchyar"

5. The Board of Revenue have properly directed the attention of the Principal Collector to the discrepancies noticed in these paras.

6. The Right Honorable the Governor in Council has much pleasure in expressing his approbation of the Management of this estate by Mr Blackburne, during the period under review, and considers its present improved state and resources to be highly creditable to his conduct as a public Officer.

To

The Collector of

Madras.

Sir,

To the Coll.r of Madras

(17-18)

From 22 Dec.r 1840 in cont.d 7th January 1841.

I am directed by the Board of Revenue to transmit to you the accompanying Copy of a letter from the Principal Collector of Nellore with its enclosure, regarding a Yeomiah-dar of his District who wishes to draw his Yeomiah from your treasury. As it appears that the Yeomiahdar in question resides at Madras you will be pleased to make the necessary enquiries and report whether there is any objection to a compliance with his request.-

Decree of the Provincial Court

The Suit is instituted for the recovery of 9,999-14 as sum claimed as damages arising from the Plaintiffs property being sold under the provisions of Regulation IX of 1822.

2. The Plaintiff was a Stamp Darogah and in consequence of a defalcation of Stamps, his property was sold by the Collector. He states that his Stamps were stolen from a Coolly who was on the road to

to Poonamalee that subsequently under the instructions of the Board of Revenue he was sent to the Criminal Court whence he was committed to the Court of Circuit and sentenced to 2 years imprisonment. He states that after he came from Jail he presented a Petition to the Board of Revenue the sentence expired on the 20th December 1838 which they returned with an endorsement refusing to interfere in the matter his plaint is dated 6th April 1840.—

5. The Plaint concludes with a detail of the property on which he founds his claim.

4. The Government Vakeel has presented a motion to the Court praying that the Suit may be struck off the file, or that the Court will pass an order to relieve all the Defendants save the 2d from the Suit.

5. The motion states Runga Row "being a Stamp Vender was entrusted by the "1st Defendant the late Collector of Chingleput with

with Stamp papers to a large Amount and in consequence of a defect in that Stock of "Stamps to the Value of 10,268 12 - 6 - as ascertained "from the accounts of his Office Mr Maclean "the then Collector proceeded under instructions "from the Board of Revenue to recover the "Amount by the sale of the Complainants "effects, as provided in Section VI, Regulation "IX of 1822. Runga Row was also committed "for trial for the embezzlement and was "sentenced by the Court of Circuit, before "whom the sale of some of the very paper which "he falsely stated had been stolen was proved, "to two Years imprisonment. The facts having "been as thus stated, I (the Circar Vakeel) "am directed to urge that it is not competent "for the Court under the provisions of Section "XVI. of the Regulation above quoted to admit "the suit on their file, and therefore to request "that it may now be struck off."

6. The Provincial Court resolve to strike the suit off their file and to adjudge that

that the Plaintiff bear the costs which have been incurred.

7. Section XVI. Regulation IX of 1822 enacts that "no suit grounded on the "summary proceedings of a Collector under "this Regulation either on the form of an "Original Complaint against such Collector on account of any supposed injustice in "conducting such proceedings or of an Appeal "from his Judgment shall be received by any "Court of Adawlut, unless the plaint or "Petition is accompanied by the Order "referred to in Clause 2d Section VI, Regulation "VII of 1828 under the hand of the Secretary of "the Board of Revenue and is preferred "within 3 Months from the delivery of "the Order (Section II, Regulation III of "1832) remitting the party complaining "to seek redress in the Courts of "Adawlut." Campbell's Regulations "Page 432.

8. The Suit was admitted on "in

in forma pauperis, its admission in that form not having been opposed the circumstances on which it is founded are of themselves a sufficient objection to its remaining on the file in that form independently of the legal objection above quoted against the Suit itself. It is obvious that the Plaintiff has no other view in introducing so many high public Servants than to annoy them. He is a person undeserving of the least consideration and not of such description as should be allowed to avail himself of the Pauper Regulations.

To allow a convicted Criminal

9

who has robbed the Government to avail himself of an indulgence held out to the distressed and to them alone as a means of enabling them to advance unexceptionable claims and for the purpose of filing a Suit against the Servants of the Government is little short of an absurdity.

The Plaintiff is non suited with Costs.

Sir,

From the Pt. Coll.r in the Northern Division of Arcot. } Para. 1. There is a ruined build-

Reporting that a ruined building formerly occupied as a Godown for Cloth situated in the weavers Street at Pulicat being in complete decay may be disposed of

-ing in this Town formerly occupied by the Dutch East India Company as a Godown for Cloth, and now the property of the British Government.

It is situated in the Weavers Street and on a small piece of Ground which might be laid out in erecting a house or two for their better accommodation, as the Street is exceedingly confined and rendered unhealthy at times in consequence.

2. The Building is in complete decay and cannot be made available, in its present condition for any purpose. The only room standing will in all probability fall into the

3. The Ground measures North to South 120 feet, and from east to west 50 feet. The inhabitants of the Street are desirous of purchasing this Ground and the house materials that they may erect something more substantial on its site, and I would beg to recommend to the Revenue Board compliance with their request.

4. The materials and the Ground together, may perhaps be valued at 150 Rupees.
