To, The Chief Secretary to Government

To, the Chief Secy to Government
Stating reasons why the Board are averse to the passing of an enactment proposed by Mr Sullivan declaring every thing warranted by the usage of the Country in revenue administration legal that is not repugnant to express Statute and to make the people through the organ of Punchayets the Judges of what is and what is not established usage.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation of the 21st November forwarding Extract of a letter from the Junior Secretary

every thing warranted by the usage of the Country in revenue administration legal that is not repugnant to express Statute and to make the people through the organ of Punchayets the Judges of what is and what is not established usage.

to the Government of India dated the 5th October last and Copy of a Minute by Mr Sullivan proposing in reference to a recent decision of the Zillah Court of Salem that an act be passed declaring every thing warranted by the usage of the Country in revenue administration legal that is not repugnant to express Statute and to make the People through the organ of Punjahyets, the judges of what is and what is not established usage.—

2. This suggestion has its origin in a decision passed by the Zillah Judge of Salem in a suit brought by the Mootahdars of Cantoo: poolloor against Mr Blair Collector of Trichi: nopoly. The Complaint of the Mootahdars was that the officers of Government had unreasonably and to their damage widened a channel leading to the Jyaloor village through their lands and by throwing the earth excavated therefrom on their Fields had rendered a certain Portion of wet land unfit for cultivation. The judge who tried the cause was of opinion that the Plaintiff had just reason to complain; he decreed a certain amount on account of damage done to the land and farther directed that the channel be henceforth

Fort St. George 25th January 1841

henceforth restored to its original state. This decree
was not appealed from and the Board believe it has
not been carried out from the inability of the
Collector to execute the Courts instructions.

3. In a letter from this department
of date the 2nd May 1839, it was suggested that
the decision of the Salem Court should be brought
in review before a higher tribunal. Admitting fully
the right of Mootahdar to Compensation for the
loss of land, it was suggested that objection only
should be made to so much of the original decree
as directed the restoration of the Channel to
its former limits. The Board were of opinion
that the decision of Mr. Bannerman on this
Point was erroneous and objectionable; and
its legality and equity questionable, but Govern-
ment determined that the suit should not
proceed farther and hence no authoritative de-
cision has been passed in the case.

4. Such being the circumstances
and reference being had to the fact that the
whole question has arisen from inadvertence to

Fort St. George 25th January 1841.

the right of the Mootahdars in the first instance and
the absence of an attempt to avert their opposition
by the Officers of Government, the Board are on
the whole averse to the passing of an enactment
such as that proposed by Mr. Sullivan. The want
of such a measure has never heretofore been felt
nor would in all likelihood any difficulty have
arisen in this case if proper precaution had been taken
by the Collector before commencing the work.—

5. But if Government should
determine that some Enactment is necessary to
enable the Officers of Government to obtain land
or other property for public purposes and
to decide the manner in which the claims of
parties shall be adjusted, the Provisions of
Regulation I of 1824 of the Bengal Code seem
all that is required to be extended to the
Madras territories.—

To, The Chief Secretary to Government

To the Chief Sec.y to Government

Submitting information called for regarding the restrictions in the territories under this Presidency.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation dated the 1st December desiring the Board to furnish the information indicated in the 2nd Para of the Revenue Commissioners letter at Bombay therewith transmitted having reference to certain proposed restrictions on money transactions arising between Banians and Agricultural Ryots.—

2. In reply, the Board direct me to state that there are no legal restrictions on money transactions in the Madras territories other than those contained in the Provisions of Regulation XXXIV of 1802 which prescribes the rate of interest

interest on loans capable of being adjudicated by Courts of Udalut. With this exception, there are no regulations relative to usury nor do any seem to be called for in the Districts under this Government.

3. The Poorer classes of Ryots have heretofore and in most districts are still assisted in the agricultural operations by an issue of Tuckavy at the beginning of the season which in some degree has relieved them from having recourse to money lenders but this assistance though still granted to some extent has of late years been much restricted.

(14)

Proceedings thereon.

The question to which the foregoing communication refers has already formed the subject of so much discussion and been considered so fully in all its bearings that the Board feel it unnecessary to notice at length the various topics brought by Mr. Ashton under review more especially as the Boards views and orders have received the entire approval of the Governor in Council.

Their orders were simply that small parcels of land acquired by purchase or long occupancy enjoyed with or without payment of assessment by individual ryots and desirable rather as affording convenient sites for cattle, grain &c. than for purposes of cultivation should not be summarily handed over if temporarily left

Informing the Principal Collector of South Arcot that the Board cannot prepare to sanction the publication of the Rules suggested by him for the disposal of Waste Lands generally, leaving him to follow the orders issued by the Board in this respect which are equally suited to local usage and the feelings and wishes of the people.

left waste to the first proposer who expressed his willingness to pay Nuzrah without the option having been given to the ancient occupant of retaining the ground and paying the Government demand if such was properly demandable. Reason and equity seemed to require that this course should be pursued to prevent cases of individual hardship and injustice. For it appeared to the Board from an attentive examination of the several cases which had become the subject of litigation that the proposer to whom the spots of land had been made over were actuated more by motives of private pique than public principle in seeking to deprive their opponents of land long in their enjoyment, convenient to them from its situation and on which in some instances much cost and labour had been applied.

3. The course pointed out was known to have been that practically followed both in South Arcot and throughout the Southern Peninsula as shewn in the absence of all litigation until recently in Mr. Ashton's District. If any local Rules inculcating an opposite practice had been at any time promulgated, these had, at any rate, been suffered to be inoperative.

4. The practice indicated above is generally followed in all districts, is of easy enforcement and is besides agreeable with local usage and the feelings and wishes

wishes of the people. The details are best left to the discretion of the local Officers before whom each case will naturally come in Review, and the usage does not regain, the Board think, to be fortified by strict regulation or local Enactment. Many of the rules of procedure suggested by Mr. Ashton for future promulgation are exceedingly objectionable and unnecessary and the Board are not disposed to sanction their publication.

5. As before observed the course pointed out by the Board has no reference to the disposal of Pramboke or immemorial waste, and is therefore in no respect calculated to restrict cultivation or injure the extension of the Government Revenues - for none of the spots of land, the subject of actions before the Court, are properly describable as immemorial waste.

6. With these impressions, the Board must decline submitting any farther reference to Government on the subject of the actions which if pursued must be done at the Principal Collector's own risk and on his responsibility. It matters little whether the course he has pursued is still to be legally justifiable or not. In the opinion of the Board it is not so, but even if it was, the system seems fraught with individual hardship and injustice and the cases brought before the one not such as they would recommend to be defended in a Court

Rain. 2- Heavy rain commenced to fall in August and continued in abundance till the 10th of November, after which it ceased entirely. The Sheragunga Zemindary and the adjoining talook of Meylor in Madura were the most bounteously advantaged by the season; Dindigul generally much the least, and partially unfavored at all - The freshes in the River Vighay were moderately sufficient, filling all the Tanks in its course through Madura, and many in Sheragunga, but insufficient in its further course through Ramnad they were also late, the first not reaching Madura till the 3d of November - The Punjah grain Crops

were very productive, but the pulses, sown with them, much less so from want of rain in December, and this was particularly felt in the Crops of Bengal, and of Horse grain which proved exceedingly poor - The finer kinds of rice grown under the small tanks withered but to a small extent; and though the large tanks contained abundance of water, the rice plants under them suffered deterioration from want of a few showers in December, which are always deemed necessary to secure a full and healthy Ear - the Ryots obtained a good price for their produce at the commencement of the harvest, but the value soon fell - The average price of paddy from January to June of last year was Rupees 96-6-8. per garce, in the year under report it has fallen to Rupees 74-10-1. per Garce, being a decrease of 22 9/16 per Cent.

Cholera.

I am happy in being able to speak favorably of general exemption from sickness, but Cholera has shewn itself throughout the Collectorate at different periods of the whole year, and was more severely felt amongst the pilgrims to Ramaswaram in the Month of February, both along the Coast and in the inland routes. In the Board's records will be found the dreadful havoc occasioned by fever in Dindigul in 1812 and the two or three following years, which so greatly depopulated the Country. A Medical inquiry was instituted, the result of which has not been recorded in my Office, and the only paper, I have seen seems to detail the fact and extent, and to look upon the Government providing better dwellings, and more nutritious food, and better clothing as the only remedy for the endemick. In Aktoor of Tandicombo taluk

taluk, and Carputty, Veerakal, Shevel=
=sergoo and Vakumputty with 25 others of
Nellacotay taluk, which, as well as Tandi=
=combo, forms portions of Dindigul, a fever
prevailed in December × and January that
I believe was of the same description,
and which I greatly feared would have
extended further. Had there been an
Assistant Surgeon in the revenue
department, whose daily routine did
not afford reason to decline leaving
the Convicts at Madura, I should have
thought it my duty to have urged
strongly his personal enquiry into the
nature and progress of this disorder.
as it was, I satisfied myself with
sending the able native dresser attach=
=ed to my own Office, there - the
one attached to the Sub Collector not
being willing, or able to stay, partly
from indisposition, partly from
momentarily expecting relief, and to

join another station, and with being aware that though the Assistant Surgeon did know the state of the Villages from his communication with the Native Dresser and by any indents for Medicine, that he he did not feel inclined, or had not the power, to go there personally. The four villages that I have named were those that may be said to have suffered severely, and the other 25 only very slightly. Out of a population of 5,910 souls in Aktoor and Acraputty, a hamlet of Acraputty, no less than 4,011 were attacked by fever at the same time, of whom 1,363 died; those who recovered were long greatly debilitated and enfeebled, and all that could, sought safety, or recovery, from an immediate departure to other villages, where they were obliged to remain some weeks. In consequence I should have been ready to recommend remission even on account of their Punjah Crops, but I am happy to say it was unnecessary as the Lands were productive

and, tho' left unwatched, were not injured by the devastations of Cattle.-

4.- The Settlement has been made on the same principles as in last fusly; it was commenced early in March and concluded in May;- The scrutiny of the settlement of the Theroomungalum taloob was made at Madura - all the others under my immediate control in their respective taloobs. and pottahs were delivered in my presence in a succession of stations in each taloob, in a way that no Ryot was kept more than from 6 to 24 hours from his usual avocations - It was satisfactory to me not to receive any Complaints-

Settlement, where made.

The subjoined table of land tax payable by each Ryots in the whole Collectorate may be found interesting as affording fair grounds to judge of the relative poverty of cultivators - Out of the whole number of pottah holders, Amounting to Souls 81,290, those whose annual payments do not exceed 50 Rupees are 78122.

Cent were used to borrow money at 25 per Cent per Annum, and obliged, besides, to deliver their produce at a fixed price, generally so low that these inconsiderate people never could benefit by accidental demand in the market; and scarcely ever could emancipate themselves from poverty and debt. During the last few years that extortion, oppression, forced labor, and forced attendance for frivolous causes has been so greatly suppressed, and a taste for economy introduced; the numbers following this ruinous practice is supposed to be reduced to about 20 per Cent; and I am sanguine that in a few years more there will be no necessity even for them. It may be argued that I ought to have saved them from such usurious and ruinous loss, since I knew their condition, by continuing to make them advances

for

for Cultivation. But I had long convinced myself of the real impolicy of such a means, and I think the result is justifying my opinion that advances should never be given as a matter of course, but only under special cases of necessity, and no one should ever be allowed to think he could obtain it by pertinacity. To detail all the objections to the issue of advances would be to take up time unprofitably, perhaps my Superiors may agree with me. its effects were here to induce a foolish expenditure in the pretty certain hope that the last kists of the year would be paid from the money received for advances, and this may be inferred from the dates of issue of former years and the retarded recovery of arrears.

On the 18th April I was furnished with Copy of the 12th para: of

a

Director's disapprobation of the mode in which advances were made for Cultivation here, and approbation of the mode adopted by Mr. Dent in South Arcot.-

a letter from the Honorable the Court of Directors of the 10th April 1839 which I had the mortification to see circulated to all other Collectors disapproving the mode in which I was in the habit of making advances, and greatly approving that in practice under the auspices of Mr. Dent in South Arcot, where all advances were distributed personally, as far as possible by the Principal Collector and his assistants; and approving of the Government having called my attention to the improvement of the system prevailing here. When the Government called my attention to this subject about the middle of 1837 disapproving of what I was then doing, I would be glad the Court of Directors should be apprised. I had not a single Assistant in this the most extended Collectorate under the Presidency. To have followed Mr. Dent's plan in more than a very few villages was physically impossible, but I was doing

what

what I thought much better. I was using my endeavours to teach the Native authorities, and the Ryots, how the necessity for advances could be altogether dispensed with, and had been paying such attention in supervision of the Native authorities that after a gradual annual decrease, I succeeded in my object, and for two years have had no occasion to issue advances at all, with exception of £1,000 rupees in a single Village where every house, with the Fee grain of the Cultivators, and property of Merchants to a large Amount, was destroyed at once by fire. I hope the Court will not be the less satisfied with the result, thought obtained by a different process than that followed by Mr. Dent in South Arcot; for even in the last case in question, with its, and the Government's, wishes before my Eyes, I could not have distributed the money in person without neglect of infinitely more important business, and a considerable

delay

Directors approbation of the settlement of fusly 1245, the highest on record.

7. On the 19th April, the day after the Courts disapprobation of my judgment in respect to advances had been circulated to the revenue service, the 19th para. of the Honorable Courts dispatch of the 25th July 1838, shewing their general satisfaction with my Settlement for fusly 1245, was communicated to me, under most other circumstances it would have afforded me pleasure.

There must be kept in mind the Government order of the 14th June 1839 for restoration of the estate of Edicotary to the Poligar on the reduced peshcush of rupees 7,000; which caused the increase. And the increase in the "unsettled zemindaries" is by the restoration of Mannbaray to the Poligar on the reduced peshcush of 1,500 Rupees (the Amount of increase) under the above cited order of Government of the 14th June 1839.

Hill rents.

The hill rents are confined to the Sylvey hills. Since rejection of the land renter and acceptance of the Hill men, though without security, at the same rate of rent, their prosperity has commenced and progressed; and I am very anxious to continue this system for two years more, when if I have leisure, I hope to be able to introduce a successful ryotwar settlement capable of increase as far as a light tax shall

shall ensure an increasing population. The inhabitants of the low Country are eager to give a higher rent, but no permanent advantage can possibly accrue from listening to their offers; and they have been given to the hill people on an advance of 9 Rupees for the ensuing Fusly, and, but that the engagements were completed by the Sub. Collector, who was not informed of my wishes at a sufficiently early period, I should have preferred the former to the increased rate of rent.

The following Abstract Comparative in detail, will shew at one view an increase of 3 10/16 per Cent in the irrigated and of 5 3/16 per Cent on the punjah lands Viz.

1 Of the Eight Government Talooks, Thiruvannungalum, the largest and richest is the only one that does not exhibit an increased revenue above last Fusly. It shews a decrease of Rupees 1763 less 1 Pice, of which Rupees 356-0 was from the non-cultivation of second Crop land because of want of water in the tanks, and from the greater remission in the year under review than in the preceding one, necessitated by the same want of water, I beg leave to offer particulars of the settlement and remissions in this one Talook.-

The increase in the other 7 talooks is in every item except on 2d Crop Cultivation and in garden land in Dindigul; and is attributable to the favorable state of the season.-

The following table shows the comparative remission in the two Fuslies and I will venture once more to express the importance I attach to this subject and the anxiety I feel that no fair claimant should go away dissatisfied. If the Government demand falls in one talook or in one District it rises in another and no inconvenience even is felt. but if a Ryot's crop dies, and to this be added

Comparative remission.

added the misfortune of not proving, or not obtaining the amount of remission to which he is entitled, it often brings with it utter ruin and converts an useful husbandman into one who must prey upon society for his maintenance. In this Collectorate I would venture to urge strongly the advantage of remission for perished — wet land — crops without reference to the rest of the pottah.—

Advantage of remission for perished Crops without reference to the general cultivation.

Fort St. George 25th January 1845

The above table comparative of each item of remission is so entirely on the the principles annually reported and dependent on the season that I should not enter into any explanation but that I deem it is in obedience to standing orders.

1st The remissions for withered crops is less by Rupees 9492, owing to more favorable season; and further details are shewn above in para 5.

2nd The increase of remission for betel gardens, to amount of 51 Rupees, is from the very heavy rains of october proving detrimental to this particular species of produce.

3d The less remission of 161 Rupees for waste land is owing to the great care with which curnums have abstained from bringing to account as cultivated land that was in fact waste.

4th The increased remission of 423 Rupees on inundated lands is explained by the heading itself; and is consequent on the too heavy falls of rain in October.

In

Fort St. George 25th January 1845

5th In the same manner this item is clearly explained by its own heading and the cause of the land being cultivated with inferior products is to be found in its temporary exhaustion from which it may quickly recover. the remission on this account is Rupees 205 more than in the preceding year.

6th The increased remission of 11 Rupees on Punjah Cowle follows the extended cultivation of the Permanent old Cowle granted to the Ramnad armed Sibbendy on the suppression of that body.

7th The increased remission of 8 Rupees for Punjah Cowle is for a new one granted in Inamdy for conversion of punjah into garden land.

8th This is a new remission of half a Rupee entered in the accounts of both the Villages disputing the boundary.

9th This is also a new remission of 6 Rupees from an oversight of the Boodwaipathy Curnum in Shiroomungalam entering

entaing the amount as tax on second crop = cultivation in the settlement of the Faisly under report, although it had previously been collected and carried to account as extra Revenue, for the preceding Fasly 10" and 11th are established remissions fluctuating with the increase or decrease of Cultivation - each increase of remission being correspondent with the increase cultivation and of course increased revenue.

12th The preceding remarks on Items 10 and 11 are equally applicable to this. The increase of remission of 14 Rupees follows the increased cultivation of this privileged class.

13 The decrease of Rupees 159 on the Charges of Collection is consequent on the restoration of the Edaceetay Pollium to the proprietor. The Carnums may had been deducted from the amount of Settlement.

14th Rupees 378 are annually deducted

deducted from the Settlement of the Combay Village for the support of its Devastanums.-

15" The small decrease of Rupees 79 in the Nidamanium head is in consequence of accidentally decreased Cultivation.-

16 The Commission to dispossessed Zemindars fluctuates with the Cultivation - Last year there was paid to them only 21890 Rupees - In the one under report they have received Rupees 21999 being a net increase of Rupees 109 - But the lands of Edaceetay and Maunegary, to the proprietors of which in the preceding Fasly had been paid a sum of Rupees 708 had not been under management this year. Thus in a smaller quantity of land there was a net increased cultivation of Rupees 817 - and thus many of those entitled to commission received a surplus beyond that of last year.-

17 The difference in comparative Statement

Fort St. George 25th January 1841.

Statement No 6 of the Number of Villages, hamlets population &c.a &c.a &c.a is almost solely owing to restoration of the estates of Edivanthy & Maumbary to the proprietors.

12 The following abstract will shew the whole revenue of the year at one view.—

Land Revenue	1783646-5-3	
Salt	261242-8-8	Gross Revenue
Sayer	274745-2-10

Stamps	22140-1-6	Rupees. July 1840-2,32,143 Increase 7,617
Total	2498226-2-5	

and I trust it may be deemed satisfactory that it is an increase of Rupees 7,617-0-11 over the gross revenue of July 1248 although that also shewed an increase of Rupees 44,534 over the settlement of the preceding July (see para 10 of my report of 31st July 1839. and that the entire demand has been realized within

Fort St. George 25th January 1841.

within the Fusly and without the necessity for resort to any harsh measures; with exception of Rupees 2528-4-3 the balance against the surrendered Poottah of Calaymunthie the minority of the Collections of which lands under the head. Ryotwary induced the Board to return my report for alteration, with all the statements and several monthly ones of Demand Collection and Balance, and as there is no longer a proprietor to the estate and no person from which to recover the Balance I hope the Board will not hesitate to recommend the amount being written off.

I have by vigilance and attention succeeded in being able to forward my monthly returns of Demand Collection and Balance with the third page perfectly blank. I felt gratification in being able to shew that during the year no balance of any kind had accumulated for I could not but think that a surrendered estate, so far at least surrendered as

as to leave no person whatever answerable for a nominal Peshcush was properly entered under the Amany head and if it be objected that it was not settled Ryotwary, yet it was managed in accordance with general practice, the engagements of the former proprietor being confirmed for the first year of assumption. But since the Board rule otherwise I am sorry to be obliged to enter it as a Peshcush balance and to be content in thinking no care of mine could prevent and that it is in fact only nominal. This and the balance due from Puntamanaikmoor which accumulated many years back and before I had charge of the Collectorate and which the Board have hitherto declined to pay attention to, till the Minor a Boy of 10 years of age, shall attain his majority are the only sums that prevent me keeping the first page of the Demand Collection and Balance statement

statement also clear of balance and half clear of entries.—

13 The total demand including the extra branches of Revenue from Fasly 1263 — when I was first intrusted with the Collectorate to this period amounting to Rupees 15,19,453-1-11 has been realized without a cash balance outstanding, which, when taken into consideration with the following table of Demand and Balance of land revenue in three last Fasslies under the management of my two immediate predecessors and myself, will I trust prove the gradual and satisfactory progress of improvement.—

There

Fort St. George 25th January 1861.

There is shown an increasing revenue with a decreasing balance in inverse proportion till at last there is no outstanding balance at all except that which is irrecoverable because of the accepted surrender from the Mootah of Calimunthai alluded to in the last para: and I have not a doubt the interference of the public Servant with the Ryot is out of all proportion less now than in former years to his great comfort. It must not be forgotten that in the two last Fusslies the demand is increased by incorporation of Devastanum with the din land.

4 The adaptation of the Kist-kindly to the seasons seems to me an object of very great importance to the large Zemindaries and almost equally affects the interests of the Government. That formed for Ramnad and Shevagunga at the Istemerar

Proposed alteration of Kistbandies in Ramnad & Shevaganga.

Fort St. George 25th January 1861.

Istemerar settlement no longer meets the necessities of the Estates when there are no means of raising money, the Kists are high, when the means are abundant they are low; and instead of the profits being laid aside for future wants, it is lavished in the idle pageants to which natives of rank are so prone; and when the high Kists come balances accumulate, or are liquidated by ruinous usurious loans. There is no record of the Zemindary passing away without leaving balances except for the last few years in Ramnad and for Shevagunga since it fell under my temporary management. Feeling the great importance of the subject, I have in my own cognizance of the affairs of Shevagunga and in communication with the manager for Ramnad prepared a revised Kistbandy which I venture to recommend for approbation. It will be received as

as a boon by the proprietors of the Estates and I am confident will be greatly conducive to the due realization of the Government demand. Its present and proposed Amount is shewn in abstract as follows.—

Month	Ramnad present Kist	Proposed	Shevagunga present Kist	Proposed
November	"	24,600	"	25,000
December	35,000	34,000	17,500	25,000

15 The Ramnad Zemindary has been much less favored with rain, and river water than in the preceding July. The settlement is hardly yet commenced and the Estimate (Duly) is Rupees 3,11,510. The amount laid out on

on tanks and irrigation channels is estimated at Rupees 23,000; and that on roads at Rupees 3,000— Remission of the old Balances has not yet been yielded. The public servants are not always paid in money or Monthly. but by perseverance in my advice on this subject I hope in time conformity to the true interests of the estate will be obtained; as also greater care in the selection of Servants; less frequent changes from station to station; less summiary dismissals, and a somewhat higher rate of pay Established. The Zemindary has been afflicted by the death of the young Rance, and the subsequent renewed altercations between the guardian of the remaining heiress, dumb and a minor. and her brother, the manager under the machinations of a disappointed and artful Brahmin, which, however have now been set at rest, the Government order of the 1st of June transferring the guardianship from

the Dowager Ranee to the mother of the minor. The turbulent boundary dispute between this Zemindary and that of Ettiapooram in Tinnevelly, which had attracted the attention of the Court of Directors, and which Trustee had been set at rest by a decision of mine in the character of an umpire in 1834, has been reagitated by the late Acting Judge having determined that the consent of the Ettiapooram Zemindar recently deceased was obtained by violence through the Collector of Tinnevelly, and because my decision itself was intrinsically illegal, and I am given to understand he reversed my decision shortly before going over charge to the newly appointed Judge a month ago. Two preceding Acting Judges had rejected the petition for review, and admission of a regular suit, and their opinions had been approved by the Provincial Court of Appeal. I beg to express my general satisfaction with the administration

administration of the Manager, and he is particularly deserving of praise for the unvaried punctuality with which he has discharged each kist as it became due.

Shevagunga. Shevagunga is under a high state of progressive improvement in every point of view - but as being under attachment I must hasten to prepare a separate report. I will therefore only in this place state that its arrears to Government are fully paid up, and the kists of the fusly duly realized. and I will add one proof of its improvement. The estimate / Dowle / of the year under review gives a return of 55,9000 Cullums of grofs produce averaging 22½ Cullums per chay of land. The preceding year the produce did not exceed 35,651 Cullums, and the average of the former years per chay did not exceed 18¼ Cullums. The return of the year under review is the highest on record - and I have

little

Fort St. George 25th January 1842.

little doubt improvement may and will be carried much further if time be left me.

Gumtamaikmoor.

There is no balance against the Gumtamaikmoor Estate for any period since the Collectorate has been entrusted to me. The Board will recollect the arrears of Peshcush previously due were allowed to lie over for future consideration, when the minor now 10 years of age should come to his majority, and they will recollect also the separate letter addressed them on this subject, on the 14th December last advocating a more early consideration of the propriety of at once remitting the balance or of taking the Estate under the Court of Wards.

Ammianaikmoor.

The Ammianaikmoor Zemindary next in size yields a handsome surplus revenue; and leaves me to attribute to the senseless obstinacy of the proprietor, the monthly recurring trouble to which he exposes me in securing payment of what-

of this

what is due from him.

Pollipuls generally.

The other petty Poligars have paid their kists with punctuality - and though I am happy in speaking very favorably of most of them, there has not occurred any thing of sufficient importance to make special mention of them.-

16.- In obedience to the requisition of the 3d para of the Boards' Proceedings of the 21st June 1838, and letter of the 21st of October 1839, the Villageway book, and the detailed settlement of one Village in Maratta, and one pottah in Tamil, are herewith forwarded.-

17 Accompanying is the report of the Sub Collector, Mr. Davidson, and though his explanations may be considered brief, the statements themselves shew the success with which he has administered the division, where no balance is left outstanding, and where nothing has been omitted or overlooked

Fort St. George 25th January 1841.

overlooked that should tend to the prosperity of the Ryot and the Interest of Government; and for the gratifying manner in which he has conducted his duties, and the invariable aid he has ever willingly afforded me I feel greatly indebted to him. I trust that a sufficient explanation may be gathered from my own report to any portion of his which may from its brevity be considered obscure.

18. I would fain renew the expression of satisfaction that I have on all occasions endeavoured to communicate to my superiors with the public and personal character of my Sheristadar Sashagherry Rao, and I have not omitted to offer proofs of the propriety of my judgment in his favour in hopes to procure him some extra pecuniary indulgence, but it has ever been in vain: and I will therefore content myself on this occasion with begging

Fort St. George 25th January 1841.

begging attention to the 13th Para of this report which I feel must be another strong argument in proof of his ability and industry, and specially when compared with the heavy balances of former periods.
