24. Information furnished to the Government of Bombay relative to the duty on salt used in curing fish.

With reference to your reply to the Government of Bombay in which you state that very little Salt paying duty to Government is used in curing Fish at your Presidency, we wish you to ascertain the quantity of Fish which is annually cured by the application of Sea water, or earth impregnated with saline particles, and subsequent exposure to the Sun, and also whether the Fisheries would be largely extended, and the public benefitted by the adoption

adoption of the System which prevailed in this Country under the former Salt duties, namely, the remission of the Tax on Salt used in curing Fish

25. Further correspondence relative to the discharge of a Revenue Defaulter under the Insolvent act, transmitted.—

10 We concur in the opinion expressed by the Government of India that it is not expedient to legislate for the special protection of Government from the ordinary operation of the Insolvent act. The State must rather look for protection from loss to the discretion of its Officers in not accepting either as farmers or as sureties, persons whose means are insufficient to enable them to fulfil their

23. As the conditional authority to defend the original suit at the public expense was only granted on Mr. Hallett's assurance that he was prepared with evidence to shew his interference in the case to have been warrantable, which the result has shewn not to have been the case, we approve your decision.—

7 The Board of Revenue will be instructed to furnish a copy of this para to Mr. Hallett for his information.—

29 And Secretary's Letter dated 7th April (No 2 of 1840.) A correspondence relative to an over-payment to the amount of Rs 3,944-13- lately discovered to have been made in the year 1829 to the family of the late Jagheerdar of Sundrapooram in South Arcot transmitted.

41. This Jaghire was resumed by Government in February 1829, when pensions were granted for the support of the Members of the late Jagheerdar's family. The pensions were paid to the parties from the date of the resumption of the Jaghire from which date also the revenues should have been credited to Government, instead of which the Collections up to

to the close of the Fusly were inadvertently remitted to the credit of the Cause then pending in the Supreme Court, and finally distributed among the parties interested, by which means a double charge to the extent of Rupees 31944-13- has been incurred.—

42. The discovery has been recently made by Mr. Ashton, the Principal Collector of South Arcot, in the course of an investigation which he had occasion to make into the accounts of the Jaghire at the period of its resumption. The princi=pal portion will be recover=ed by deductions at the rate of 10 per cent from the pensions payable by Government; but as the pensions are not hereditary, and some of the parties to whom

whom the double payment was made, are since de=ceased, the recovery will not be complete.—

43 It appears that the Board of Revenue did not posses the means of detecting the error, either at the time of its commission or subsequently, and that their duty was completed when they had ascertained that the revenue of the Jaghire had been realized, and no imputation can consequently attach to them for the irregular mode of its appropriation. The chief balance must manifestly rest with the Collector of the district, Mr. Cunliffe, who after assuming the Jaghire on behalf of Government in pursuance of the orders of the Board of Revenue, con=tinued to place the revenue to

~ ~ ~ to the credit of the cause pending in the Supreme Court, instead of carrying it to the head of the land revenue of Government. The failure of the Accountant General to detect the error committed by the Collector does not appear to us to be satisfactorily accounted for. The omission to communicate to that Officer the order of Government directing the resumption of the Saghier till more than five months after its date although irregular, does not appear to have been of any consequence, as after its receipt it was not acted on, and it would further appear that the resumption of the Saghire by Government was known to him from some other source, as, in his orders to the Sub Treasurer directing him to credit the remittance in favour of the Estate to the head of "Deposits

"Deposit on account of the Supreme "Court of Judicature," he designates it as "the assumed Saghire of Sun- "crapooram." It is possible that by the word "assumed" he might merely have intended to imply that it was under the Collectors' management in trust for the Saghiredar, and to decide this point, we desire that you will refer to the similar orders issued to the Sub Treasurer previously to the resumption of the Saghire by Government. If he was aware of the resumption of the Estate, he must also we presume, have been aware that pensions had been granted to the Saghiredar and his family in lieu of the revenues, as both measures were effected under the same order of Government and the Collectors' continuing to Credit the Cause in the Supreme Court with the Revenues of the Saghire after its resumption; would naturally we

we should have imagined, have excited a suspicion of the posibi=
=lity of a double payment having been made.—

44 The facts of the case are not sufficiently clear to warrant us at this distance of time, in holding the Officers con=
=cerned personally liable for the eventual loss, but we fully agree with you in the observation, that, the circumstance of the error "not "having been discovered or discoverable "would appear to throw discredit "on the arrangements of the Collectors "Office, and still more on that of "the Accountant General, an Office to "which Regular Accounts of the "appropriation and disbursement "of the revenue Collected are furnished "periodically— If such a misappro=
="priation of money as the one now "detected is not ascertainable from "their accounts, it is quite time "that

"that new arrangements should "be made to correct the evil."—

45 You have referred for our decision the propriety of making recoveries from the re=
=presentatives of parties deceased, who could not have shared in the overpayments— We are of opinion that it would be unjust to place these individuals under retrenchments and that we must submit to the eventual loss which will have been occasioned by the negligence of our own Officers—

Sir,

Para 1. I have the honor to acknowledge

acknowledge the receipt of the Minute in Council under date the 8th of December.—

The only alteration I would suggest in Mr Thompson's plan for the protection of the Pearl banks, is the substitution of doneys for Vessels— for these last, every diver and fisherman on the Coast would discern at a distance far more than sufficient to enable him to escape, if he thought it advisable— in lieu I would employ tow small doneys which can always put to sea when the Chank doneys and fishermen are out. from being lightly built they are also more manageable, being equally adapted for pulling or sailing— and in the event of bad weather, can be hauled on shore with the greatest ease.—

A good bank pilot ought also to be employed for each boat the wages I have put down for one I am aware, are rather high, but they will induce respectable and responsible men to under take the Charge.—

In my former letter on the

the subject, I advised the employment of a European in each boat. I am still of the same opinion; but I fear great difficulty would be found in procuring one fit for the situation, from a want of Knowledge of the language— I think therefore that this might be held by a Country-born, who should be entrusted with the whole Charge of his own boat and be empowered to board and search all doneys, Canoes or Catamarams found near the banks.—

The expenses of the Establishment would be as follows.—

making in all (364) three hundred and sixty four Rupees per month, boats included.—

6 With respect to the examination of the banks, this season I hardly

Conceive

conceived that a full one would sufficiently repay the time lost to the Survey - the next three months constitute the finest time of the year, an I am anxious to take advantage of it particularly as I can with the assistance of a bank pilot and divers, whom I have already procured, carry on the Survey, map the banks, and partially examine them at the same time - Should however this be objected to, there is still sufficient time before the fine season commences to send me final instructions respecting them - whether the partial examination which I have suggested shall be continued, or a full and minute one similar to the last carried on. -

From the Asst. Coll.r of Tinnevelly - Submitting Copies and Translation of 4 Proposals made by Mr. I R Cary of Tuticorien for renting the Chank Fishery -

To the Secretary to the Board of Revenue Fort St. George.

Sir,

I have the honor to report for the information of the Board of Revenue, that in pursuance of the advertisement published in this District, a Copy of which accompanied my letter of the 8th Instant, the Chank fisherry on the Coast of Tinnevelly was yesterday put upto public auction; under four distinct terms Viz.

No. 1. To rent the fishery for the broken period beginning from the 5th of February to the end of the season of the Current fusly 1250. -

No. 2. To pay the Government a certain sum for every thousand Chanks actually fished during the broken period exclusive of all Charges, which are to be borne by the Renter.

No. 3. To rent the fishery during the present broken period and the two following years. -

No. 4. To pay the Government a certain sum for every thousand Chanks during the present broken period and the

the two following years.

All persons present were made distinctly to understand the restrictions under which the Chank Fishery would be renewed, as the arrangements however regarding the intended restrictions have not been concluded and sanctioned, a condition has been introduced into the terms to the purport that the Fishery should not be commenced until the receipt of the Board's orders, but that with reference to No. 1 & 3 a remission, calculated upon the average Fisheries of former years, should be allowed upon the number of days that might elapse between the 5th of February and the date on which the Fishery is permitted to be commenced upon.—

I have now to submit for the consideration and orders of the Board, Copies and Translations of 4 proposals made by Mr. Cocq of Tutacorin, who was the highest Bidder at

at the sale.

Proposal No. 3 was made conditional upon the usual remissions being allowed on occasion of a Pearl Fishery taking place either at Mannar or in this Coast. this remission has been granted on all former Rents but the last.

as these tenders have been received in anticipation of the arrangements, regarding the restrictions suggested by Mr. Franklin being established, I have to request final instructions on that point, so that the Establishment may be prepared before the Chank fishery is commenced. —

Reporting on the proposal received for renting the Chank fishery on the coast of Tinnevelly stating that the Board are inclined to accept the offer marked No. 3 to fish from the 5th February fusly 1250 to the end of fusly 1252 on payment of Rupees 22,200 subject to certain conditions also recommending with a view to the protection of the Pearl Banks, that the Collector may be authorized to entertain an establishment of Boats and Crew estimated at Rupees 4,368 per annum. —

In Cons.t 11th February 1841.

Sir,

Para 1. In compliance with the orders conveyed in the Extract from the Minutes of Consultation of the 8th December last, the Acting Collector of Tinnevelly was instructed to invite proposals for renting the Chank Fishery on the Coast of that District. The highest offers, it will be seen, are said to have been made by Mr. Cocq of Tuticorin, whose proposals are submitted in Mr. Ogilvie's letter of the 21st — January. —

2 The offer which the Board are inclined to accept is that marked No. 3 to fish from the 5th February Fusly 1250 to the end of Fusly 1252, on payment of Rupees 22,200 subject to a regulated deduction in the event of a pearl Fishery taking

taking place, which in the present state of the Banks is not likely to occur. The last rent, it is observed, was at the rate of 5,000 Rupees per annum.—

3 But the Government are aware that the Chank Fishery is only permitted to be renewed under the restrictions suggested by Mr. Franklin in his communication of the 15th April 1840. These consisted 1st. in a Peon being placed in every Chank boat as a cheque on Oyster Fishing and 2d. in the Employment of two guard Boats with adequate Crews to keep the chank Boats within their proper limits, and distant at least one quarter Mile from the Pearl Banks.

Mr. aff. 1st. inf. 28th May 1841

4 Mr. Thompson, the late Collector of Tinnevelly, to whom Mr. Franklin's suggestion was referred, proposed the purchase of two Vessels of 30 tons each, the Cost of which he estimated at Rupees 8,000 each, and the

From Coll. of Tinnevelly— 22d. October 1840 in Cons. 19th Nov.r

Monthly disbursement for the Crews of each Vessel Rupees 155. in all Rupees 310 per Mensem.—

From Chief Sect.y to Govt. in Cons.n 11th February 1841.

5 Mr. Franklin on the other hand has stated his opinion that the Purchase of two Vessels of this size is inexpedient. He has proposed that two Dhoneys be hired in preference, and the expense of Establishment, including the hire of Dhoneys he has estimated at Rupees 182 per Month each, or Rupees 4368 a year.—

There is little difference between Mr. Franklin's and the late Collector's Estimates save in the item of the hire instead of the purchase of Vessels, and defering to Mr. Franklin's professional experience in these matters, the Board would recommend that his suggestions be sanctioned, and that the Collector be empowered to entertain an Establishment at a Charge not exceeding that specified in the preceding Parah for the protection of the Pearl Banks

Banks. the exact amount with — detailed accounts to be reported for sanction when the Establish — ment shall have been organized.—

7 The expence incurred must not be reckoned a charge to be deduct — ed from the profits of the — Chank Fishery. but one necessary, for the protection of the Pearl Banks, without which there is little likeli — hood of their ever again becoming of any Value to the state, and an early decision by Government on this reference is requested to enable the Chank renter — to commence operations.—

between the Demand and the Collection is owing to arrears of payment amounting at the end of the fusly to 2,289-3-7- of which 703-15-9. has been Collected and about 700 considered by the Collector recoverable.—

8 With respect to these Balances and the State of the Moturpha in this District, the Right Honorable the Governer in Council would draw the attention of the Board to para 7 of Minutes of Consultation 12th March 1839 and para 6 of Minutes of Consultation 4th June 1840. The Balances are not great being only about 900 Rupees, but it is desirable to Settle the point of personal nonliability to the tax, which is the ground adduced for non-payment— The Board in para 18 of their Proceedings dated May 21st 1840 state that the subject is now under their consideration.—

2 The Statement annexed to Para 7 of your extra revenue report for Fusly 1249. Shews that the increase of upwards of 15,000 Rupees exhibited in the Salt revenue of that year was derived entirely from the sale of Salt by the heap of 10 or 20 Garce.— without measurement at the time of Sale, the increase under this head being rather more than 1,70,000 Rupees whereas in the amount value of Salt Sold by measurement there was a decrease of Rupees 155,000.— This circumstance of itself would lead the Board to attach some weight to the inference drawn by Mr. Stanhouse, that there must be some well known advantage accruing to the merchant, either from excess of measurement or otherwise, which leads

Sir,

With reference to a letter from this Department under date the 25th November last, upon the Minutes of Consultation by Government of the 15th of the preceding Month, directing the employment of

of Public Carriage for the conveyance of Treasure from one station to another, and more especially to that part of my communication relating to the Province of Malabar.- I have now the honor, by desire of his Excellency the commander in chief, to transmit the annexed Copy of a letter from the Officer Commanding Malabar and Canara, in reply to a query from this Department as to the distance the 60 Bullocks reported as available would require to be detached, by which the Right Honorable the Governor in Council will perceive, that the cattle hired expressly for the Equipment of the Light Field Force at Cannanore, cannot be made available for the conveyance of Treasure without entirely defeating the object for which they are maintained.-

In conclusion I am directed to express His Excellency's regret, that the local authorities did not fully acquaint themselves with the practicability of furnishing the cattle, prior to reporting them

them available.-

Transmitting for the Board's consideration and report Copy of a letter from the Magistrate of Trichinopoly on the subject of providing Carriage for the march of Troops.—

The Chief Secretary to Government
Fort St. George

Sir,

Para 1. A duty I have lately performed in providing carriage for the march of a number of troops from Trichinopoly to distant stations was attended with so many circumstances of an objectionable nature that I feel called upon to solicit the attention of Government to the existing system under which carriage is provided, with a view to its being put upon a footing less oppressive to the community at large, and more efficient for public purposes, and as the subject is certainly one of importance, I trust that I shall not be considered as unnecessarily troublesome in bringing it forward.—

2. The duty of providing carriage belongs properly, I believe, to the

the commissariat Department, but as the Government are of course aware, the means at the disposal of the Commissariat Officer are rarely such as to enable him to procure more than a small quantity of Carriage, so that upon occasions of large bodies of troops marching, the assistance of the Collector and Magistrate is almost invariably applied for.

3. The System then as far as my observation enables me to state it, is as follows. The Commissariat Officer secures as many Bandies as he can, as his servants enter into contracts which for the most part are not binding. the Mess of the Regiment follows the same plan. and the Collector is called upon to supply the remaining quantity required. and it almost invariably happens that when the latter Officer supposes he has completed his task, that a complaint is made that he has seized Carriage for which the Mess and the Commissariat Office

Officer had contracted. and he is obliged to set about procuring an additional supply of Carriage which has, by the time the necessity for more has been made known to him, become an exceedingly difficult matter.

4 Proper arrangements however between the several local authorities would prevent the inconveniences above detailed. and need not, if there were no others, be brought to the notice of Government. But the system appears to me to be bad from the beginning. In the first place, the mere circumstance that compulsory seizure is necessary to procure carriage shews that the system is oppressive, and that it should be amended, if possible. and secondly, if compulsory seizure should be unavoidable, the measure is rendered unnecessarily severe by the custom which now prevails of taking the same carriage the entire distance of the march to whatever length it may extend.

5 I would then respectfully suggest

suggest for the consideration of Government that, where compulsion may be unavoidable, the Commissariat Officer should be instructed to make arrangements with Collectors of the neighbouring districts thro which the troops may have to march to procure a relief of carriage. The inconvenience which may arise from taking the same carriage the whole way may be easily imagined from the instance which has principally been the occasion of this communication - Viz^t. the march of the 30th. Regiment N.I. to Mangalore - a distance of 390 Miles. It is not necessary for me to dilate upon the hardship to which the Bullock drivers are subjected by being compelled to go such a distance and to a country which many of them regard with dread the inconvenience and loss to which owners are subject by the death of Cattle on so long and tedious a journey and the serious obstacle thrown in the way of trade by the removal

of

of so large a portion of the medium of traffic - all these and many other objections to the system will not fail to present themselves to Government, and will I trust obtain for my suggestion their favorable consideration.

6. Another measure which would considerably alleviate the compulsory system would be the restriction of the supply to the smallest possible quantity of Carriage - and in order to attain this object, I would suggest that rules should be laid down to fix the quantity of Carriage to which each individual in the Regiment shall be entitled, and that if possible the number of Bandies &c. required for the carriage of any public stores belonging to the Regiment and of the Mess and Officers baggage should also be fixed by rule - it being left to Officers to make their own arrangements of course if they please. nothing short of fixed rules upon the subject will I am convinced effect this object - to leave the quantity of

of Carriage to be indented for to Comman-
ding Officers would I am convinced afford no
relief.—

7. But it seems to me that
it is far from being impossible to
supersede in a great measure if not
altogether the system of compulsory sei-
zure. The carriage and cattle which are
now appropriated to the use of troops are
not used in agriculture or for local purposes
but are let out for hire, and it is
clear that their owners would be just
as ready to let them to Government as
to any individual, provided they were suffici
ently remunerated - and one reason why
they are unwilling to supply Carriage for troops
at the same rates at which they supply it
for Merchants and others is sufficiently
obvious in the circumstance of the car-
riage being obliged to proceed at a
restricted rate of progress instead of
being at liberty to make the best of
its way.—

All

8. All these difficulties
might, it seems to me, be obviated by
contracting for public carriage - and I beg
respectfully to suggest the adoption of
the measure in all cases in which
it may be possible - It does not appear
to me that any greater difficulty would
be experienced in procuring a contract
for public carriage than for public
stores — The commissariat is much
better supplied with grain and straw
under a contract than it possibly could
be by the compulsory seizure of those
Articles by a Collector - and the same
advantages I feel convinced would be
the Result of a contract for public
carriage.—

9. I cannot conclude these
remarks without bringing to notice the
inconvenience to which a place like
Trichinopoly is peculiarly exposed under
the prevailing system - At Trichinopoly
a large number of troops is always
stationed - a portion of which are removed
from

from it every year — and the annual supply of Carriage falls entirely upon it — at times the supplies required are so great as to cause very great inconvenience — and as an instance of this, I will mention that lately 366 Bandies were supplied by me to different Regiments marching within three or four days of each other, besides what were obtained without my intervention. It is quite clear that if there be a remedy applicable to such a state of things as I have described, it ought to be applied — and this consideration will I trust plead a sufficient excuse for my troubling Government upon the subject. —

To the Chief Secy. to Govt. Submitting the Board's sentiments on a letter from the Magte. of Trichinopoly bringing to notice the inconvenience experienced at that station from the existing system of providing public carriage for the march of Regiments and other Military purposes —

Sir,

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation of the 23d. January, submitting for consideration and report copy of a letter from Mr. Onslow Magistrate of Trichinopoly on the inconvenience experienced at that Station from the existing system of providing public carriage for the March of Regiments and other Military purposes. —

2. The interference of the Collector and Magistrate in supplying Carriage

carriage is only, it would seem, had recourse to when the resources of the Commissariat are exhausted and sufficient Carriage has not been found. Then the Magistrate whose more ample Establishment gives him more extended opportunities for procuring Carts and Cattle is applied to, and the whole number is procured, if possible, thro' his intervention.

3 To a certain extent the compulsory seizure of Carriage, must, the Board think, be unavoidable. When an emergency arises and the immediate march of a large body of Troops is necessary from a station, it is idle to suppose that Carriage will be supplied voluntarily or in such abundance as to meet the wants of the public service. In England even it is believed recourse is had to the impressment of carriage on an emergency, and the troops are compulsorily billetted on private families.

The

4 The remedy for the existing evil suggested by Mr. Onslow is the contract system, but how far this would obviate the inconveniences now felt, the Board cannot well determine. It seems to them a means well adapted for ordinary occasions when the moving of Troops has been long contemplated and arranged; But upon an emergency or a sudden requisition being made for Carriage, it is feared that recourse must be had to the old system and it is believed that its adoption to any extent would be attended with a very heavy expence.

5 That some amendment of the existing system is capable of introduction is very possible, but the details of these would seem to fall more properly within the scope of the Commissariat and Quarter Master General's Department, than the Board of Revenue. None so matured as to be capable of immediate adoption are contained, the Board think, in the Magistrate of Trichinopoly's

Trichinopoly's letter.

6 Cases of individual hardship and inconvenience will constantly & unavoidably occur; but it should be the care of all the servants of Government to see that the wants of the public service are supplied with as little detriment as possible to the community.—

three modes of settlement were pursued in the proportions noted in the margin. The Board of Revenue have, it is observed, contrasted in detail the results obtained under each in fusles 1247 & 1248 as far as has been practicable or useful, it is unnecessary therefore to repeat the same in this place.— Paras 4-9-11-

3 The entire demand under all Heads of settlement on the Government lands was Rupees 3,66,832-11-6,- of this, there remained outstanding at the end of October 9,2272-11-4. The statement annexed to para 17 of these proceedings shews a large decrease in the Collections of this fusly as compared with fusly 1247 and a still greater defalcation of Revenue when contrasted with the Permanent Peshcush.—

4 Results so unfavourable and unsatisfactory in every respect may be partly attributed to the nature of the season of fusly 1248 which is represented to have been unusually adverse, and had it not been for the

the abundant importation of grain from Arracan would have been one of absolute famine- but other causes must have operated more or less to produce them- From the remarks of the Collector in para 7 of his report, it would appear that even if the evils attendant on the present mode of management are removed, the full amount of Revenue, according to the permanent assessment, cannot be realized in-as-much as the resources upon which it was fixed were over-estimated. If this be the case, the necessity for it's early revision based on an active survey of the lands becomes the more urgent- Although more than a year and a half has elapsed since a small establishment was sanctioned for the survey of some Villages, as an experimental measure, in the Woondy Talook, no report has yet been received upon the subject- The Board of Revenue will be pleased to call upon the Collector to state what progress if

if any has been made in the work-
in question and his sentiments as to the
period at which its general Introduc-
-tion into all the Government lands
may be commenced upon, and in the
mean time Mr. Smith will attend
to the instructions of the Board on the
subject of transferring as many Villages
as possible from the systems of Ryarah
and Vissabuddy to that of rents, &
reporting all cases for their previous sanc-
-tion in order that the realization of
the revenue may be better secur-
-ed.—

report which the Collector has been
called upon to furnish on the sub-
-ject of providing an allowance for

4 The Board take this oppor=tunity to observe in reference to the Collectors

in Cons 17th Decr. 1840.

Collector's communication of the 20th November last, submitting rules for the Regulation of the Cultivation of Enam land in Rajahmundry, that the expe=diency or otherwise of enforcing those proposed will in great measure depend upon the practice that has heretofore been fol=lowed in the district. If the practice of the district has been to interfere and restrict the Cultivation of Enam when undertaken to the prejudice of the Govern=ment revenues, the amount and nature of the interference should be succinctly stated. Rules which run counter to local prejudices and feelings are more likely to meet with opposition and give rise to litigation than the continuance of practice based on ancient usage.—

5 The Collector should there=fore clearly explain the nature & extent of the restrictions that have hitherto by Custom been exercised in this matter in Rajahmundry. He should at the same time

time state what is the extent of mawnneem land generally in reference to the Circar land in the Government Villages, and whether any interference or restriction in the Cultivation is necessarily required.—

Para 1. Under the circumstances represented in the foregoing papers, the Right Honorable the Governor in Council abandons the projected arrangements for the preservation of the woods on the Neilgherries, but with a view to prevent their wanton destruction, he desires that the Acting Principal Collector of Malabar may be instructed

instructed to allot from time to time spots of Jungle in which wood shall be cut for the use of the inhabitants, and to take care that the Cutting and resort to the woods is restricted to those spots.—

2 His Lordship in Council is satisfied that the destruction of the woods has in a great measure resulted from the permission heretofore granted to individuals, to cut decayed or dead wood in the Jungles, as this has led them to injure thriving trees in order to cause their decay. In every woods trees are to be seen scorched by fires, lighted for this purpose—the destruction caused by these fires is more extensive than can be conceived—with this view also the practice of cutting a ring round the bark of the tree has been resorted to, heated stones are placed in the cavities of trees, and other expedients to produce or accelerate decay are adopted, but by the rigid enforcement of the Rules now established, it is hoped that the further wanton destruction of the woods will be effectually

effectually prevented.—

3 His Lordship in Council concludes that the special establishment sanctioned under date the 21st November last—№ 1298 for the preservation of the woods on the Hills, will now no longer be required, and he desires that it may accordingly be discontinued.—

4 The Right Honorable the Governor in Council cancels so much of the G.O.G of the 1st June 1832 № 139 as constitutes Cotacamund a General Bazar Station, and desires that this Resolution be communicated to the Military Department from whence it will be notified in a general order.—

10th The Decrease exhibited under the heads of Home and Inland Sales at Ganjam, Itchapoor, and Womaravully Ports has resulted from the effects of the extraordinary and lengthened drought which prevailed-

Fort St. George 11th February 1841.

prevailed in all parts of this District during the past fusly which materially interfered with the trade in this as well as all other commodities. The Increase that appears in the Sales at the Munsoorcottah and Nawpadah Pans is Chiefly ascribable to the circumstance of the greater facilities for procuring forage and water in the neighbourhood of these places having induced the Brinjaree Merchants to resort to these Cauntars in preference to those of Ganjam and Nowarawully although there was a Decrease as above exhibited in the aggregate Sales of Salt in the year under review below those of Fusly 1248. it will be remarked that in that year there was a considerable Increase in this branch of Revenue, and notwithstanding the extremely adverse nature of the past Season, the result of the Sales for Fusly 1249 some what exceeds the average revenue yielded from this Source during the last ten years.—

Decrease 3903-7-"

24. The Decrease in the sale of stamps compared with those of Fusly 1248. as per margin, is attributable to sales of Stampt Paper for legal Proceedings having greatly fallen short in consequence of the removal of the Zillah Court from Chicacole to Vizagapatam, and the Decrease in the amount of Sayer and Sea Custom Rowanahs sold is referable to the depressed state of Trade owing to the scarcity and distress which had prevailed in this District during Fusly 1249.

Penalties

26. The Decrease that appears in this Branch of Revenue compared with Fusly 1248. as per margin is ascribable partly to Dwarabadah & Co.s Taxes in Gomsoor having been transferred to the head of Land Revenue, and partly to the Trade of the Moturphas Ryots of Chicacole and other Stations having fallen off owing to the scarcity and distress which has prevailed owing to the extensive failure of the harvest during the past fusly.

27. In respect to the above Balance, a detailed Report will be submitted hereafter

28. The Balance of Fusly 1246 Viz.t Rupees 105-6-" was recommended to be written off from the accounts, in Para 34. of my Report of 15th January 1839.

29. The Balance of Fusly 1247 is Rupees 732-"-10 of this sum Rupees 202-6-1 only were stated in my report dated 15th January 1839 to be irrecoverable but owing to the scarcity and distress which have prevailed in this District for these last two years and the distressed condition of the classes who contribute to this Branch of Revenue, the whole Amount is now considered, desperate, and I request that sanction may be granted for writing off the Balance from the accounts.

Purchase of Salt	10,611	5	5	14,889	7	6	6026	10	5	1748	8	4	The Increase that appears under the head of Purchase of Salt attributable to the Manufacture of Salt at Ganjam, Nowpadah and Womaravully Pans having been carried on to a greater extent in the present than in the previous Fusly. The Decrease in the purchase of Salt is ascribable partly to a smaller Quantity of Salt having been manufactured at Munsoorcottah Pans in consequence of there having been a sufficient stock on hand to meet the expected Demand of the year and partly to the Manufacture of Salt having been suspended at the Itchapoor Botaurs.
Servants' Wages	4,302	12	4	4,614	14	5	332	1	2	219	15	1	The Increase in the Servants Wages is attributable to the circumstance of the Wages of the Establishment having been drawn in full in the Current year whereas certain situations were vacant in the previous year. The Decrease in the servants wages of Ganjam, Itchapoor, and Nowpadah Pans Establishments is owing to certain situations having been kept vacant for some time during Fusly 1249

The Abkarry Revenue and Sundry Small Farms and Licences and Moturpha Revenue being Rented no Charges have been incurred on this Account.—

The Decrease in the Collections of Salt Revenue is attributable to the extraordinary drought and adverse nature of the Season in Fusly 1249. The Increase in the Charges for Manufacture, Superintendance & Sales &c. is ascribable partly to the Manufacture of Salt having been carried on to a greater extent in certain Pans of this District, to the consequent larger Amount of Advances for Manufacture, extensive Repairs for Pans, Encumbrance of additional Pans combined with arrears during Fusly 1249 and partly to a part of the Servants Wages only having been charged on account of the discontinuance of Munsoorcottah Establishment for some Months and on account of some Situations not having been filled immediately on their becoming vacant in the Pans in the previous Fusly.—

The Decrease in the Collections of Land Customs is attributable to Trade in Berhampore, Aska, Subalayah, Poorshottapore &c. Chowkies of this District having been carried on to a smaller extent owing to the Scarcity and distress prevailing during Fusly 1249. The trifling Decrease in Charges requires no Remark.—

The Decrease that appears in Sea Custom Duty is ascribable to the discontinuation of the Export Trade in Grain &c. owing to the failure of the harvest in this District. The trifling Decrease in Charges requires no Remark.—

The Increase that appears under the head of Abkarry Revenue is owing to the greater Competition for some of the Farms during the current Fusly.—

The Decrease in Sundry Small Farms and Licences is attributable to emigration and numerous Casualties among the Fishery Ryots of Aska &c. Taulooks.—

The Decrease in Stamp Revenue is attributable to the Sales of Stamp Paper, Sayer and Sea Custom Rowanahs having greatly fallen off on account of the removal of the Tillah Court to Vizagapatam and on Account of the unfavorable nature of the Season in Fusly 1249.—

The Increase in Charges is ascribable partly to Arrears of Commission to Stamp Venders having been charged and partly to a larger Amount of Stamp duty having been remitted during Fusly 1249.—

The Decrease in Moturpha Revenue is attributable to Devarabadah &c. Taxes of Goomsoor having been transferred from this to the Head of Land Revenue and to Trade of the Merchants at Chicacole and other Stations having greatly fallen off owing to the unfavorable nature of the Season during Fusly 1249.—

Rents for fusly 1248 — 30,402 1 "
Do for Do 1249 — 31,056 " "
Increase — 653 15 "

The Increase in the rents is attributable to the greater Competition for some of the Farms for Fusly 1249.

Collections in fusly 1248 as follows
Rents — 25,909 8 3
Fines and Forfeitures — 217 6 1.
26,126 14 4.

Collections in fusly 1249. as follows
Rents — 26,139 5 8.
Fines and forfeitures — 204 14 11.
26,344 4 7.
Increase — 217 6 3

The Increase in Collection is also ascribable to the above cause.

The Decrease in Fines and forfeitures arises from a smaller amount of fines having been imposed during the Current fusly.
