To. The Chief Secretary to

Sir

1

To the Chief Secy to Government. Submitting with reference to an extract from the minutes of Consultation of the 15th February last information regarding the appointments and emoluments possessed by the Party holding the Office of Tahsildar Cauzee of Guntoor with the Board's sentiments on the subject.

Para 1. I am directed by the Board of Revenue to acknowledge the receipt of an Extract from the Minutes of Consultation of the 15th February having reference to the Appointment and emoluments possessed by the Party holding the Office of Town Cauzee of Guntoor requiring the Board's sentiments generally on certain propositions of

thereon and calling for certain information in regard to the Jaghere Village of Mavale.

2 The Judges of the Sudr Adalat state in Para 3 of their letter of the 29th January the allowances of the Caujees of Guntoor under the Mahomedan Government, and the fact there brought to notice correspond with the information on the Board's Records. The Enam lands in different Villages however appear to have been resumed and the ready Money payment of Rupees 35 per annum discontinued since the establishment of the British power from what cause it is not distinctly known but most probably from the confusion arising from the transfer of these territories to the Company's Government and the non attendance of the parties interested in the Grants.

3. As regards the alleged Jaghere Village of Mavale, I am directed by the Board of Revenue to request you will lay before Government the correspondence noted in the margin which will serve to shew the tenure under which possessed by the present holders. It appears that they are the sons of the late Mahomed

From W. Scott 23rd April 1841

Ditto 19th June 1833

who held the Office of Cauzee in 1831 and in whose room the present holder of the Office was nominated in 1835, until one of his sons should become competent by age and learning to fill the situation.

4 The Right Honorable the Governor in Council will observe that Mr. Bruce considers the Village in question to be Jagheer granted for the personal maintenance of the family by whom it is held and totally independent of the Office of Cauzee. The reasons which influence him in this Judgment are detailed at length in his letter of the 27th December 1831. there can be no doubt that the Village and its Revenues were in the first instance granted by the ruling power for the support of the Office of Cauzee. it was so held by Cauzee Mahomed Accrun Khan on a Beimucta Rent of 50 Pagodas annually, but it is argued that this disposition was changed by a new Sunnud on Hizery 1178, conferring the Village on Mahomed Munneer Son to Mohomed Accrun for his subsistence. This Purwanah is relied upon as showing that

that the Grant was intended to be independent of of the Office of Couzee altogether:-

5. The Board think this interpretation extremely doubtful and are not disposed to regard the claim as of much weight. The Office of Couzee seems to have been continued in hereditary succession in the family and the grant of the Village of Movala to Mohomed Munnim in the life time of Mohomed Accrum the then incumbent was probably nothing more than an acknowledgment of the right of succession by the Sovereign. Mohomed Munnim is in that instrument specially designated "Couzee of the Circar," and there is no sufficient ground for supposing that the Grant was intended to be personal only.- Endeavours are constantly made to convert Official endowment into private property but these attempts the Board think, should be discountenanced unless supported by unexceptionable proof.-

6. Under these circumstances the Board are of opinion that the selection of the party for the Office of Couzee should be made

made whenever practicable from the family of the last incumbent Mohomed Shayeb and as the present holder of the situation is only a locum tenens till a son is competent the Board see no reason to recommend the Grant of a salary from the treasury for the performance of the duties which has been discontinued for nearly half a century. The Revenues of the Village of Mavale should they think be considered as an Endowment for the Office of Cazee of Guntoor and appropriated as such with the ordinary fees and perquisites of the situation.-

From the Chief Sec. to Government---

Para 1. In the foregoing letter is conveyed a request from Mandava Row late

late Head Sheristadar of the Southern Division of Arcot for a reconsideration of his claim for a Shrotriem for three lives.

2 The Board of Revenue observe that up to the period when Madava Row made his application for permission to resign the service and for the grant of a Shrotriem, "it had been customary to confer such grants without deduction for a term of three lives," and that he retired from the service "in full confidence that the same indulgence would be conceded to him, and in proposing their recommendation for an extension of the grant to the next two lives on a reduced value, they remark that Madava Row is "almost the last remaining of that school, so many of whom have received this distinction for their faithful services."

3 The length and nature of the services rendered by Madava Row to the State are already known to the Honorable the Court of Directors and it is needless to recapitulate them in this place, but His Lordship in Council considers it due to that individual to observe that

as Head Sheristadar and the Chief Revenue Officer under Mr. Dent he appears to have evinced considerable Zeal and ability and to have been instrumental in a great measure in promoting those results in the Revenues of the South Arcot District which were considered by the Honorable Court of Directors and the Government to be highly satisfactory and very creditable to Mr. Dents exertions during his administration of that District, and as the Honorable Court have also had occasion frequently to notice with high approbation that Gentlemans Management this circumstance and the expectations under which Madava Row retired from the service afford in the opinion of His Lordship in Council good grounds for the claims of that individual receiving the favorable reconsideration of the Honorable Court.

Para 1

In obedience to the orders of the Board of Revenue conveyed in their Proceedings of 26th November last I have the honor to afford the further following explanation of my reasons for dismissing from his situation Chetrapoo Chelmiah the Sumeen of the Cottapilly Talook.-

As I stated in my letter

of 29th October last, the principal cause was his fostering the disturbances in the Rampah Country, and magnifying them as an excuse for a decrease in the settlement and the non realization of the revenues in the Cottapilly and

necessary for their suppression, and giving
courage to the inhabitants by example instead
of depressing their spirits by being the first
to allow the feelings of cowardice to prevail
over his duty as a man.

3 Disturbances in the Hills are
of a very serious nature, and they can only be
met effectually by means of information as to
the correct cause of their origin and the source
from which they are supported. These under con-

a bad feeling towards the present Zemindar

Chief commenced to gather round him as many
followers as he could find to support him

hands on and as so poor a Country as Rumpah

allow a state of anarchy of this description
to prevail, and the only course left was to en-
deavour either to bring the Country back again
under its legetimate Ruler or to bring it entirely
under the Jurisdiction of Government. The former

Proceedings

The Board of Revenue proceed
to dispose of the case of Soondaraghery Ra-
-manaja Row Head Sheristadar of Nellore
which forms the subject of Mr. Stonhouse's Report
of date the 17th & 19th June last.

/Here enter/

1. In the former of these communication

Fort St. George 1st April 1841

the conduct of the Head Sheristadar is impugned in reference to his having retained certain Lands for cultivation in the Nellore District in express violation of a distinct promise to his Superior to relinquish them; the second letter involves charges of the corrupt receipt of money in three separate instances adduced.

2. It would seem from the documents before the Board that Sowdaraghery Ramanoja Row from a remote period was possessed of Lands and carried on Cultivation in certain Villages in the Nellore District. Whether these were his ancestral property or more recent acquisitions does not appear but he held the Lands while employed many years back as a Servant in the Zillah Court, and retained them when transferred to the Revenue Department of the Public Service. The Cultivation was chiefly in the Villages of Reddypolliem

Fort St. George 1st April 1841

Reddypolliem in Talamunchelle Taloog, Codoor in the Nellore Taloog and in one or two other places and it was held not indeed in his own name but in that of dependants & other cultivators.

3. Mr Stonhouse the Principal Collector of Nellore in nominating S. Ramanja Row to office expressly stipulated that the Head Sheristadar's connection with the land cultivation in the Circar Villages should cease but upon a representation that its immediate relinquishment would be inconvenient it was arranged that the Land should be given up from fasly 1246. The Principal Collectors knowledge of the Head Sheristadar's connection with the cultivation of Land in Circar Villages was it is stated confined at that time to the case of Reddypolliem, as Ramanja Row represented that in Codoor he only possessed a Cocoanut Garden, and grazed his Cattle on the Lands of that Village, paying the usual Rent; an arrangement to which as no objection was

his own name yet at his risk and on his Responsibility, after his nomination to this Office, being established, it remains to determine the degree of culpability and blame which is attached to this Officer and the question naturally divides itself into two Heads - First the propriety of Native Servants being permitted to hold Lands at all in the Districts where they serve, and Secondly the criminality of S. Ramanoojа Row in continuing to possess an interest in the Cultivation of the Land when peremptorily required to sever his connection therewith by his immediate Superior -

As regards the first point the Board are of opinion that the possession of Land should form no Bar to the employment of its owners in the public Services, and further that it is unnecessary to require of public Servants who may be in the situation of Land holders, to give up their property as the condition of their retention of or promotion in the public Service - If there a reference had

had been made to them in the first instance by Mr. Stokes they would in all likelihood have permitted S. Ramanoojа Row to have retained his Cultivation under any restrictions that might have been thought expedient which no native will almost ever relinquish voluntarily even at the occupation of the Land has little or no market value. It is well known to the Board that Lands are extensively held throughout the Provinces under this Government in almost every District by Native Public Servants - The Land is almost universally registered in the name of some dependent for a public Servant thinks it wrong to hold a Puttah, but still the fact of their ownership is a matter of notoriety and no Complaint has been made or inconveniences found to result from the system as it exists - The question was discussed at some length in reference to abuses that had sprung up in Tanjore from the collusive purchase of Lands sold

sold for arrears of Revenue by the Public
Servants - That was condemned and prohibited
by order as it was already by Regulation, &
but the acquisition of Land by private
purchase was specially permitted under
certain restrictions and the holding of
land previously acquired or inherited was
properly declared to be no bar to public
employment - The undue influence that
public Servants might exercise to prospect
themselves of Land by purchase while
in the Service of Government was the
object chiefly sought to be checked in these
Proceedings

8.

While therefore the call upon
Ramanoja Row in 1835 to relinquish his
private Cultivation was perhaps unnecessary,
the conduct he has since pursued not
only in retaining his former connection
with the Village Cultivation notwithstand-
ing his positive assurances to the
contrary in the deception thereby of his
immediate

immediate Superior for a Series of years
and in the equivocation which such a course
necessarily involved him is a Proceeding ex-
tremely culpable and unbecoming in a Servant
of such standing and responsibility - It has
been properly characterized by Mr Stonhouse
as calculated to shake confidence in his
honesty and veracity and to damage
his reputation as an upright Public
Servant of Government -

As regards the charges involved
9- in Mr Stonhouse's second letter of the 19th
June, the Board will only observe that after
a careful review of the whole of the Papers
they do not consider them to have been
established.

Under ordinary circumstances
10. the Board would not have thought it
proper to visit with removal from Office a
Servant of L. Ramanoja Row's Character and
previous services under the qualified extent
of culpability which they have attached to
his

Fort St George 1st April 1841

his conduct in the instances before them, but upon an attentive consideration of all the circumstances which have attended the production of these charges, they are inclined to think that the interests of the public service will be best served by the removal of this person from Office in Nellore where his future employment it is feared would be little likely to be useful. They are pleased therefore to permit Mr Monkhouse to remove his Head Mistadar from Office from the date of the receipt of these Proceedings and to nominate another competent Native Officer in his room.

11. Ramanoja Pow will be eligible for employment in any other District when an opportunity offers for his entertainment. He will receive his salary in arrears up to the date of his authorized removal from Nellore.

12. The original papers referred to in Para 80 of the Principal Collector's Letter of the 19th June are ordered to be returned with these Proceedings.

In reference to these instructions I beg to give a particular account of the system of Police in this District and of the mode in which they are remunerated for their services. The duty of watching Villages rests in this District exclusively upon the Talaries, Toties and Antigoomes amounting

2

With reference to the instructions of the Board dated 8th February 1841 reports the extent to which the system of remunerating Police Peons by assignment of land prevails in his District states also his opinion generally on the propriety of making a direct payment in money & submits a statement shewing the present payment in land to the Peon in Burpoonkully Talook as well as the proposed commuted payment.

amounting to 4112 who can be called upon for services but these do not embrace the whole of the hereditary Police there being also a Mili= tary Police denominated Kundachar and Cuttobady Pens for the maintenance of all these Enam land and Rassom (the latter being called Marah and Vartanah) is formally allowed but to shew what quantity of Enam land is actually cultiv= vated and what is waste with a detailed account of actual profits would necessarily require a longer period and more detail than the present enquiry imbraces.=

3 Colonel Munro in his report to the Police Committee dated 10th april 1806 recom= =mended that in those villages where there are no Taliar Enams or where they fall= short of affording the means of subsistence, the deficiency should be made good= "that they (the Taliares) constituted the most essential part of a Police Establishment and therefore "that it is important that their number= "should be left complete and that their "ancient Fees which from the variety of causes "have been discontinued should be restored and

"and that their allowance ought not to be "less than three Rupees Monthly to each Taliar. "where it is below this sum, the difference= "should be made up, where it is more it should re= =main as it is" and it was distinctly pointed out by Mr. Chaplin in his report dated 28th April 1814 that this could not be done by transferring the Enams in those Villages where they exceed the prevailing amount of remuneration, as he states that these Enams and fees have been considered from time immemorial (though in fact service Enams) as a kind of Meeras little differing from fee simple Hereditary property To distirb this arrangement would produce a feeling of insec= =rity and discontent among the whole body of Enamdars He also observes that in carry= ing into effect any plan of this nature, it= will be expedient with a view to economy as well as to fix an adequate subsistence to the Taliaries to place several petty adjoining villages under the superintendance of the same person those places which have Taliaries and those that have not are so indescriminately mixed toge= =ther that this combination would no doubt be

a

a matter of considerable difficulty and cannot be entered upon in the present communication.

4 Under the circumstances of the confusion which occurs, the undecided nature of the duties they are bound to perform and the circumstance that where their Enams have from various causes become obsolete and abandoned, the performance of their duties also have ceased. It has been suggested that the resumption of their Enams and the entertainment of them as a Police might be attended with advantage. The opinion of Colonel Munro, Mr. Chaplin and almost every one who has entered into this enquiry is decidedly opposed to this arrangement, the Police Committee appointed in 1805 and to which Colonel Munro's report was addressed apparently made it their object to search and trace the "original Institutions of the country in preference to the employment of a Stipendiary Police" "accustomed" says Mr. Chaplin, "as the Talliaries have been to the possession of Enam land and to transmit that possession from Father to Son, they naturally feel

feel strong attachment to this hereditary property and would not willingly relinquish it for any pay however high, the mode of remunerating them therefore partly in Fees and partly in land would seem preferable to any other system.

5 I have before mentioned that independant of the village watchers called Taliaries &c. there are Village Peons distinguished as Cattabadies and Candachars who are some times called upon for their assistance in Police duties when urgently required. These Peons are not invariably attached to a Village or Talook. Some have and others have not got them. Of these two Classes of Peons, the Cattabadies are allowed Enam lands and the other Candachars a deduction in the Putta they respectively hold. The former are 3167 in number attached to all of the Talooks where they reside in 494 Villages. The assessment of their Enam land is Rupees 95,684 of which the amount of land cultivated is Rupees 71613 and the Estimated Revenue is about 38257, deducting the amount of Jodeyy payable by them to

Circar

Circar Rupees 7,432, leaving Rupees 30,825 averaging as their nett emolement 13 annas each per Month upon the grand total, and if the highest rate is taken in each Talook, their allowance does not exceed 1-14-0 R a. p. There are 1,540 Cundachar Peons in 107 villages under 5 of the Talooks. The assessment of their Pettah land is Rupees 33,637 and the remission they are allowed would amount to nearly one half or 9 annas to each per month. If calculated on the Total of each Talook, the highest rate does not exceed 1-14-0. These two descriptions of Peons are not distributed and stationed according to the size and population of villages, for there are no Peons attached to some villages where their services are much required. in fact they remain as arranged under former Governments. These People were not originally called upon for the performance of Police duties.

It appears to have been Colonel Munro's opinion that ... efficient Service

Service could be got from them and that they should be allowed to enjoy they Enams gratuitously until by failure of Heirs they should revert to Government, but it has been subsequently stated by Mr. Chaplin "that after a minute enquiry and scrutiny into their "actual condition" he was of opinion "that a considerable "number of them actually do contribute the aid of "their services in the Police Department & though "their employment is neither so general nor so "useful as that of the Talaries, yet as they enjoy "considerable Enams they may" he thinks "continue "where it has been customary to act as auxiliaries "to the Police system."

Vide correspondence To the Chief Sec.y to Gov.t dated 21st April 1840. Extract from the Proceedings of the Board of Revenue dated 23d July 1840. To the Board of Rev.e dated 15th August 1840 From the B.d of Rev.e dated 10th Dec.r 1840.

It has in latter days been customary to call upon them on all cases of necessity, and they have frequently proved themselves a brave and efficient body of men. On a late occasion in the Hosoorbadagally Talook a Cundachaur Peon was dreadfully maimed while attempting to resist a band of Robbers near the Soondaor Valley where he and some others had been stationed by the Amildar. he lost his

his hand by the cut of a sword and it was during an enquiry that was instituted with a view to a recommendation to Government in his favor that the following facts were elucidated "The Cundachar Peons who are cultivating "Ryots in this Village hold Government Land "on which formerly they enjoyed a remission "of Rent. But small services are still exacted in the Village, their Enams not being sufficient for the performance of services beyond their "own village. The total Cundachar land in the "Village is 275 acres assessed at 107 C Pagodas. Of this, 238 acres assessed at 98 C Pagodas is new cultivated and pays Government Rent of 70 C Pagodas, leaving to the Candachars 28 C. Pagodas from which 2 Cantery Pagodas is deducted as Payamalie or destroyed land and the rest 26 C. Pagodas is the net remission on the assessment for the service of the Cundachar "The remission that would be given as general remission of one fourth Amounts to 24 C. Pagodas so that in reality the Peons only get 2 C. Pagodas "for their services. no important services can be effected

*Garagum in Kaveripadagam by Talook.

"effected for such a remuneration."

8 I have entered into this detail with a view to at once disclose the varying and irregular condition of this force. at the time that Mr. Chaplin wrote, the deduction of 25 per Cent was not in existence and the tenure upon which these people held their Enams was very different in value. It seems advisable unless some further remission is given to revert to the opinion of Colonel Munro to allow them to hold their Enams upon such service as can be got from them and rather to turn over rid- vided attention to the amelioration of the Talaree system, the Cuttackadies are very unequally placed. in some villages there will be found upwards of a 100, in others where they are just as much required none at all. They would be probably unwilling to remove to other villages as they are generally cultivating Ryots. They are in fact a Military Police, the remains of a feudal system. They are useful in guarding the Fords of the river in times of internal commotion. they would, I have little doubt, be found faithful to the Government, but their service

does

does not extend to watching a village by night, protecting the Baggage of Travellers, apprehending thieves and other offenders, guarding Grain, assisting in providing supplies to Troops and Travellers &c. &c. which from time immemorial has been considered the duty of the Talaries.—

9 I have entered into an account of the mode in which it was formerly the custom to remunerate the Police, because I think the advantages and defects of the system are best exhebited by so doing - the actual extent of land assigned as remuneration to Bliss Rens is very small, and with reference to the desire of the Board that I should report on the Propriety of continuing this system in preference to a direct payment in money, I am of opinion, that a Payment in money is preferable. I have given considerable attention to the subject wishing to call upon the Military Police for a more efficient assistance than has been hitherto the custom to demand and I have been met by the following important objections -

10 In the first police, these Rens state the impossibility

impossibility of their attending to Police duties and their Cultivation at the same time, in the next place they state that they are too poor to leave their homes as they have no means of subsistence when away from their Families, in the third place, they deny the right of the Government to call upon them for Police duties, and in some instances where I have urged that as the Enam amounts to a considerable sum, they ought to say how many of their number they are willing to give for duty, they have stated (particularly the Cundachar) that they would rather resign the remission than commence performing Police duties. There can be little doubt that a paid Police have not that interest in the well being of a village that a hereditary Enam Police has, but they are more efficient, can move in any direction and for such duties as that in the Kurpenhully Talook - I am decidedly of opinion that less confusion is likely to arise and more efficient service would be obtained from a regular Establishment paid in money - I have the honor to submit a Statement shewing the charge which will have to be incurred by a payment in money - From which it will be observed that the allowance if paid in money as proposed would be about double the amount granted in land.

and manner in which the Government is supposed to be pledged to the entire or partial continuance of these yeomiahs, I can afford no positive information, but would beg to call attention to the Board's letter to Government of the 31st July 1806 from which it appears the original registers fixing the allowances of these yeomiahdars were procured from the Duftars of the Durbar of His Highness the Nabob of the Carnatic, with a view of having some standard by which to regulate the pretensions of people claiming under this pretext.—

4 In Column 14 it will appear that many of the service yeomiahs have been continued "as per order" of the Collector for the time being.— The Board of Revenue took occasion to notice this in their letter to Government dated the 13th July 1829 and directed that "on all occasions

occasions of a lapse it will be the duty of the Principal Collector to submit a special report, stating his opinion whether or not the pension is one which with reference to the nature of the service to which it was annexed it would be proper to continue". Subsequent to the receipt of this order, the Government sanction has always been obtained previous to a renewal of a service yeomiah.

I have the honor to return the accompanying petition* and to state that the claim which is therein put forward forms the subject of the correspondence noted in the Margin- and is now to be decided on by the Civil Court. The power to take lands from the possession of one person and transfer them to another not being vested in the Collector by the Regulations and as the land has been lawfully made over to the party now in possession by myself as Collector however great may be the blame imputed to me for doing so, I am bound by the laws as a Magistrate to maintain the present occupant in his possession until he is deprived by a competent tribunal and I therefore again request the Board will represent the case to the Government

2. It will be perceived from the orders which have been already passed on this case by the Board that they have been all along unwilling to exert any direct control over the Poligar in this matter unless it should be proved to be quite unavoidable but as it appears from the Arzee enclosed in Mr Ashtons letter of the 13th Ultimo that the Poligar has refused to attend to the advice which he has received from the Principal Collector and persist in withholding from his Minister the maintenance to which he is entitled the Board have no alternative but to recommend the adoption of the course suggested in Mr Ashtons letter of the 3d August 1839 Viz. that sanction may be granted for making an allowance of (10) ten Rupees per Mensem to the Petitioner Loobbaroya Loorabeddy from the ready Money payment made annually to the Poligar from the Treasury of the Principal Collector Southern Division Arcot -

No 1607 of 1840.

I have the honor to return the accompanying petition* and to state that the claim which is therein put forward forms the subject of the correspondence noted in the Margin - and is now to be decided on by the Civil Court. The power to take lands from the possession of one person and transfer them to another not being vested in the Collector by the Regulations and as the land has been lawfully made over to the party now in possession by myself as Collector however great may be the blame imputed to me for doing so, I am bound by the law as a Magistrate to maintain the present occupant in his possession until he is deprived by a competent tribunal and I therefore again request the Board will represent the case to the Government

Proceedings thereon,

29-30

The question involved in the correspondence referred to in the foregoing letter is one of Revenue only unconnected with Police, Viz. the right of occupancy of certain waste or unoccupied lands and the Point to be determined is which of Party was entitled by usage to the preference. The Board of Revenue decided in appeal from the order of the Principal Collector that the Coleondy Ryot of Thundeetorapoor were the Parties to whom the lands should have been granted if these were willing to occupy and pay the authorized teerwa thereon and they directed that the Ground should be made over to them accordingly at

Fort St George 1st April 1841-

at the earliest convenient opportunity It was Mr Ashtons duty to have paid a ready obedience to these orders and he has incurred serious responsibility by his neglect.

The allegation that his duty as a Magistrate precluded his giving effect to the orders issued for his guidance in this matter the Board consider of no weight, for as already stated, the Point was one of fiscal arrangement only which the Board were perfectly competent to decide -

It is hardly necessary to add that the Board see no occasion to address Government in this matter

In Cons 24th Sept 15 1840-

The letter of the 12th September 1840 and 16th of the same Month from the Principal Collectors Office have already been laid before the Right Honorable the Governor in Council and the application for the defence of the suits therein referred to at the Public expence refused-

Translation of a Plaint preferred in the Adalut Court of Salem by Rawmon son of Nullapunnadee by Caste Pullon and by profession Ryot. 2 Royen son of Vullee punnadee, and 3 Palany and 4 Maurce sons of Veeron residing in the Village of Pareaggraharum in the Errode Talook; against Lt. D. Drury 1 Esqr. Principal Collector of Coimbatore, 2 Seroomul Roa Tahsildar of the Talook of Errode, 3 Parea Innavien son of Bhawaswamier a Ryot of the Village of Veerapiahs Chattrom and his son 4 Sreecuntien.

This Suit is instituted for the recovery of 72½ Coontahs of Nunjah and ½ Ballah of garden land assessed at Rupees 125-11-6 and yielding produce to the amount of Rupees 110-8-- per Annum together with the 23 Mangotrees grown thereon- the land is situated in the Village of Annance Palaver pollium of the said Talook extending East to the field of Sashummahl Vauneeandy, west to the field of Royenum Cooppandee, South to Comb and North to the field of Vunneyandy Palany, and being of the 4th Class was charged with a permanent assessment of Rupees 32-5-1, the Mangotrees situated thereon being

being 23 in number were charged with a tax of 3 Rupees 6 annas- The 1st. and 2nd Plaintiffs and Rawmon the father of the 3d. and 4th Plaintiffs, and also the 3d Plaintiff obtained Puttahs for this land in Fusly 1242, which they were allowed to hold on grass tenure for a sum of 8 Rupees 1 Annas and 3 Pice being one fourth of the Survey assessment, and also for the Mangotrees in question, and continued to occupy them- the father of the 3d and 4th Plaintiffs died 4 years ago, since which period they themselves continued to occupy the land &c.a- The 3rd Defendant required the Plaintiffs to give up the land, but as they declined doing so, he harboured an enmity against them, in consequence of which and from the influence which he possessed in holding the Office of Maniagar, he procured the favor of the 2nd Defendant with a view of appropriating the land in question, and misinformed him that

that the 1st Plaintiff died and that the 2nd and 4th Plaintiffs emigrated- The 3d Defendant also brought before the 2d Defendant a woman named Groothe Maurse, who was the widow of another Rawmon, stating that she was the heiress of the 1st Plaintiff and another individual named Palany in the room of the 3rd Plaintiff and caused a Razeenamah to be filed by them, and procured a Cowle in Fusly 1248 in the 4th Defendants name for the land- The Plaintiffs being informed of this preferred a Complaint on the subject to the 2d Defendant who having delayed to make an enquiry, through the instigation of the 3d Defendant they carried their Complaint to the Assistant Collector who gave an Endorsement to the 2nd Defendant directing him to institute an enquiry on the subject- Notwithstanding this he again neglected to do so, and the Plaintiffs therefore

therefore complained of it to the Head Sheristadar who had been there for the settlement of the Summabundy of Fusly 1248- He instituted an enquiry into the case, and understanding that no Razeenamah was presented by the Plaintiffs, directed that no Puttah should be issued in the 4th Defendants name- Upon this, the 3rd Defendant upon competition proposed to hold the land for ½ rent, the Plaintiffs also presented to the Sheristadar a Durkastnamah proposing to hold the land for Runjah rent and to hold the land for the same, but he produced a Security for the same, but he went away after informing the Plaintiffs that as the settlement of the whole Talook was then completed he would have the matter settled in the presence of the Gentleman (Principal Collector) The 2d Defendant by some fraudulent means or other addressed an Urzee to the Auzzoor

Bayyoor and got a Puttah for the land in the 4th Defendants name for half Garden rent in Fusly 1228- In Fusly 1249 2/4 of the 2 3/4 Ballahs of land being converted into Nunjah which amounted to 722/4 Goontahs, it was Charged at Rupees 119-6-5 the Nunjah Assessment, the remaining quarter Ballah of Garden land was Charged with grass rent Viz. Rupees 2-15-1, and the 23 Orangetrees thereon situated were Charged with a tax of Rupees 3 and annas 6- The 3d Defendant obtained a Puttah for the same in the 4th Defendants name who in conjuction with the 3d Defendant is now in the enjoyment of the produce thereof. A Complaint was preferred on the subject to the 1st Defendant who without taking any notice of these fraudulent Actions, and placing reliance upon the Urzee of the 2nd Defendant granted an Endorsement to the Plaintiffs on the 3rd November 1840 stating that no order will be passed thereon Under these circumstances, as the Plaintiffs are entitled

entitled to be put in possession of the said Lands, they pray the Court will be pleased to put them accordingly in possession of the abovementioned Nunjah lands, yielding annually Rupees 130 and of the Poonjah land, and Orangetrees respectively, yielding 3 Rupees 8 Annas- and to pass a decree to the effect that Puttahs should be issued in their names for the same.-

Draft of Answer to be presented to the Zillah Court of Salem on behalf of G. D. Drury. Esqre Principal Collector of Coimbatore, 1st Defendant in Original Suit No. 288 of 1840, instituted by the Plaintiffs Ramen and others residing in the Village of Pareaaggraharum in the Talook of Errode.-

The land referred to in the Plaint was Government waste land, in Fusly 1242

Fort St. George 1st April 1841.

1242 Four individuals, named Ramen, Rayen, Palany and Veerun proposed to hold it in lieu of the payment of house tax, and they were accordingly allowed to occupy it on grass tenure for the sum of Rupees 8-1-3 a.p. The Mangotrees therein situated, 23 in Number, were also rented to them for the sum of Rupees 3-6-- amounting in all to Rupees 11-7-6. for which a Puttah was issued to them in their names respectively. They continued to hold the land in question until 1244 fasly

In fasly 1248 the 4th Defendant proposed to cultivate it upon an increase of rent. Ramen one of the Puttadars abovementioned and Veerun who is stated to be the father of the 3d and 4th Plaintiffs died, the former leaving a widow, and the latter without heirs, as reported by the Tahsildar under date the 30th May 1838. the widow named Veeree the 2nd Plaintiff Rayen, and the 3d

Fort St. George 1st April 1841.

3d Plaintiff Palany (called Palany Gounden) in all three persons, appeared before the Tahsildar on the 28th May 1838. the 2d Defendant (predecessor) and executed a Document to the effect that they were not willing to hold the land on the terms proposed, and that they would give up the land to the proposer. This being brought to the notice of the Mayoor by the Tahsildar under date the 30th May 1838, an order was issued under date the 19th June 1838 that a Cowle Puttah should be granted in the name of the proposer the 4th Defendant, for the land which was accordingly charged with a half Garden Assessment Viz. Rupees 16-2-6 in that year, and made over to the 4th Defendant together with the 23 Mangotrees therein situated, and charged at 3-6-- a.p. In the following year

year, Fusly 1249, one quarter Ballah of the land being unfit for Runjah Cultivation, the remaining 2¼ Ballahs consisting of 7 3¾/16 Cawnies were charged with progressive Cowle or half Runjah rent Viz.t Rupees 59-11-3. and in Fusly 1250 with three quarter rent, Viz.t Rupees 89-8-10. to be increased as usual. The Defendant has cultivated the land for the period of three years and paid the rent to Government.

The Plaintiffs after relinquishing the land which they could not cultivate, and for which they could only pay one quarter of the Garden rent and which they were allowed to hold in order that they might be exempt from the payment of house tax, have now brought this suit into Court in the vain expectation of obtaining possession of the land which has become more valuable, having been first cultivated with Garden produce, and subsequently with Runjah by the 4th Defendant Streecunitiah,

who offered to Cultivate the land when it was waste, and who has improved it at his own expense.

The Plaintiffs were at liberty to retain the land now claimed, and to improve it in the same manner as the 4th Defendant has done, paying the increased rate of Assessment, but this it is evident they were unable to do, and having since relinquished the land and given their deposition to that effect, it will be obvious to the Court that the Claim of the Plaintiffs after a period of three years, during which time the 4th Defendant has with considerable labour and expence restored the land to an high state of cultivation, is not just and tenable.

The Plaintiffs never tendered a proposal to the Head Sheristadar and

and produced security as stated in the Plaint.-

Proceedings

Read again letter from the Acting Principal Collector of Canara noted in the margin, containing his report on the Settlement of the Land Revenue of that District for Fusly 1248.-

(38)

Proceedings-

1 On the land Revenue Settlement of the year there was a Net Increase of Rupees 4,915-12-2 extending over every Talook except two, Vizt.

Total Increase	7,909-1--	
Decrease in Soopah and Soondah	2,993-4-10	
Net Increase	4,915-12-2	

Soopah and Soondah.-

2 The season was favorable as regards the Rice Lands below the Ghauts and although the cultivation of the higher lands was partially impeded, the rains were sufficiently abundant for both the first and second crops. In Soopah and Soondah the draught was felt to such a degree as to render remissions necessary.-

Para 4.

3. With the exception of Pepper the Garden produce of all descriptions was abundant, and above the average of former years.- There was little sickness or disease throughout the season in

in the District either amongst the popu-
=lation or Cattle.—

Para 6. 4. The usual biennial cens-
exhibits an increase in the three great
divisions of the population amount-
=ing in the aggregate to 8½ per cent abov
that of 1245 or in the following Subordinate
proportions.

In the Hindoos——— 8

In the Xtians——— 2 2/4

In the Mahomedans——— 11/4

Para 7. 5. Mr. Maltby's observations
on the obstacles thrown in the way of the
manufacture of Salt owing to a suc-
=cession of heavy falls of rain, more-
properly belong to the usual report
on the Extra sources of Revenue and
should have been noticed therein.—It
is only necessary in this place to ob-
=serve that the deficiency of production
below the estimate Viz: 1646 being caused
by the accident of season it would-
not seem to have been possible to-
foresee or obviate the mischance.—

Para 8. 6. The Exports of Rice were
unusually large owing to an active
demand

demand in the Arabian and Bombay-
Markets. These Exports consisted partly
of Rice the produce of Canara, and-
partly of Rice which found its way to
the Coast from Mysore, owing to the in-
=crease of price caused by the demand-
abovementioned. the beneficial effects-
of the favorable state of the Market were
felt throughout the Province.—

An abundant crop of

Para 10. 7.
Cocoanuts was followed by high prices-
and it is very satisfactory to learn as
stated by Mr. Maltby that Dry Cocoanuts
and oil are in demand for the English
Market and that the cultivation of the
Cocoanut Tree is yearly increasing—

The Exports of Betel Nut

Para 11. 8.
and Cardamums were considerably larger
than in the preceding year, whilst-
there was a decrease in those of Pepper,
partly ascribable to the inferiority of
the Crop and partly to the unwillingness
of the Cultivators to dispose of their-
stock in expectation of better prices—

The price of Betel nut-

Para 12. 9.
was much more favorable-

than

than in the previous year and in noticing the progressive depreciation in the value of Cardamums, the Principal Collector attributes the falling off chiefly to an increase of production and the heaviness of the Hawlut duty. The Tariff value of this spice is Rupees 1,000 per Candy whilst the Bazar price seldom exceeds 650. so large a difference is obviously oppressive and opposed to sound principle, and the Board accordingly resolve to direct the Collector to reduce the Tariff value to such a rate as will place it on an equitable footing with the Current market rates.

Para 14. 10. The Cultivators of this spice in Canara labour under a great disadvantage as regards its export by land. the greater portion of the produce is conveyed to the Deccan, Hyderabad and Nagapore, where the Rowannah of the Madras Collectorate affords no exemption from the local demands. The Merchant, consequently, deduct from the price the difference in the Canara and

and Mysore Hawlut, in order to ensure an equality of price with Mysore. another evil attending the pressure of the Hawlut duty is the smuggling to a large extent of the Soonda and Belghi produce into the Mysore Country, from whence it is exported as the produce of that Country.

Para 15. 11. Mr. Maltby observes that he would have recommended measures for the assimilation of the duties by Land of Mysore and Canara, were it not that such a step would seem ill timed pending the decision of the General question of the retention of the Inland Customs, and because it would involve a loss of Rupees 8,460 which would hardly be made good by any other arrangement. It is true he adds that a portion of this sum might be recovered by duty realized on the produce now smuggled across the Frontier, yet the amount is uncertain, and might be counterbalanced by a loss in the Sea Customs.

12. For the reasons given, the Board concur with the Principal Collector

Collector in considering the present not a fitting opportunity for the further consideration of the assimilation of these Export duty by Land in Canara and Mysore but the subject being one of much local importance, should not be lost sight of, and they will be prepared to resume the consideration of it so soon as the intentions of Govt. are known regarding the abolition of the Inland duties throughout the Madras Presidency.

Para 16. 13. The natural effects of an abundant season, and of favorable Markets are observable throughout the Settlement, and there was an increase in all the Talooks as regards the staple products of Rice and Betel Nut except in Soondah and Soopah where the destruction of the Rice Crops was owing to these Magunis lying too far below the Ghauts to enjoy the benefits of the South west Monsoons, and notwithstanding the disadvantages under which these Magunies are stated

stated to labour, it is satisfactory to understand that the richness of the soil and lightness of assessment prevent the Cultivators being hurt by the effect of an unfavorable year.

14. The additions and reductions in the settlement for the present Fusly amount to Rupees 16,568. 1-3 and Rupees 11,652-5-1. respectively. Para 7 & 8. Of Rupees 10,976-5-. which were to have been added "towards raising Estates to the Maximum standard" Rupees 9,013-1-3. have been collected, but the remainder has been postponed on account of the lands which were expected to yield the additional assessment remaining uncultivated. Rs. 1463-3-9.

15. From the comparative statement given in Para 19 it will be seen that the general result of the changes is an increase of 276 Estates paying full Beriz, and an addition of 535 to those "remaining under enquiry" whilst the different alterations in the classification of the Estates will be distinctly seen by a reference to the

Paras 21 to 26

16. The explanations of the Acting Principal Collector contained in Paras from 21 to 26 on the subject of the transfer of Estates declared to be the richest in the Province and uniformly able to bear the Jarrow assessment from the head of Bhurty to khaun Bhurty and regarding which information was sought in the Board's Proceedings on the settlement of Fusly 1247 are more full and satisfactory than any which have been hitherto submitted for their consideration.-

by him, or sanctioning any material alteration in the present system, they desire to receive Mr. Blair's sentiments in detail upon the suggestions offered in these paras and upon the general question after the further consideration which the subject was promised by the Officers in the Provinces.- Meantime with a view of facilitating the decision of the question, the Board are desirous of having a separate account prepared for each of the three descriptions of Estates, mentioned in para 22, in the accompanying form with any additional information which it may be considered desirable to offer.- With these statements the Board would at once be able to distinguish in each part of the District the Estates paying the full Jarrow Beriz from those on which remissions are yearly granted under the peculiarities of each case.-

the Memorandum annexed to Para 20.- In comparing the additions and transfers in the current Fusly, the result upon the whole is an increase of 41 Estates arising out of the subdivision of Estates and additions of waste land brought under cultivation.-

16. The explanations of the Acting Principal Collector contained in Paras from 21 to 26 on the subject of the transfer of Estates, declared to be the richest in the Province and uniformly able to bear the Jarrow assessment from the head of Bhurty to khaun Bhurty's and regarding which information was sought in the Board's Proceedings on the settlement of Fusly 1247 are more full and satisfactory than any which have been hitherto submitted for their consideration.

Paras 21 to 26

17. The Board are well pleased to observe the pains which Mr. Maltby has bestowed upon this important question, but before passing any opinion upon the changes proposed by

by him, or sanctioning any material alteration in the present system, they desire to receive Mr. Blair's sentiments in detail upon the suggestions offered in these paras and upon the general question after the further consideration which the subject was promised by the Officers in the Provinces.- Meantime with a view of facilitating the decision of the question, the Board are desirous of having a separate account prepared for each of the three descriptions of Estates, mentioned in para 22, in the accompanying form with any additional information which it may be considered desirable to offer.- With these statements the Board would at once be able to distinguish in each part of the District the Estates paying the full Jarrow Beriz from those on which remissions are yearly granted under the peculiarities of each case.-

18. With reference to the information contained in Para 28 regarding Ho.sogamy or land newly taken

taken into cultivation, and the accounts thereof commencing with Fusly 1245, the Board would remark upon the great and unusual length of time over which the Cowles extend, in some cases to 12 years. The necessity of so long an exemption is by no means apparent and the Board desire to be informed of the circumstances under which it is granted. It is also observable that the full number of Estates the Cowles for which have expired are not regularly brought to account in each succeeding year. For instance the number to be brought forward in Fusly 1247 is 34, whereas 32 only are entered, and in Fusly 1248 the proper number was 18 whilst 14 only are brought forward. Again in Fusly 1249 the number of Villages is stated to be 15 with an Turrow Beriz of Rs. 177-15-3 whilst in Fusly 1248 the number of Vurgs increased to 17 with a diminished Turrow Beriz of Rupees 100-8-0. The natural order of Cowle progression is here reversed, and requires explanation. In order to ascertain

ascertain where and how this diminution of Beriz falls on an increasing number of Vurgs with a previous high Beriz the Board have drawn out the annexed abstract comparative statement from the accounts received in the Native Language. The decrease exhibited therein will doubtless attract the attention of the Principal Collector, and he will be good enough to explain the apparent inconsistency.-

The Principal Collector

19

is unable to furnish the accounts required by the Board's Proceedings under date 20th March 1837 shewing the Hoosagamy from the commencement of the Company's Government as many of the accounts have been destroyed and those which remain do not afford the necessary particulars, but the Board are glad to observe that since Fusly 1244 an account of Hoosagamy has been regularly kept and the Principal Collector will give his careful attention to see that all lands of this description

are

are brought to the Circar account and that a proportionate assessment is fixed thereon.

Para 29. 20. In reply to the observations of the Board in their Proceedings for July 1247 on the want of system in giving away waste Lands, the irregularity which prevailed in fixing the rates of assessment is explained as having been owing "to the Government Servants considering themselves bound to accept the highest offers" and a discretionary authority is sought for to enable the local authorities to reject in future all unquestionably high tenders and to grant the land to the cultivators

Para 30. in a manner equally beneficial to the Government and to themselves.

21. The Board see no objection to the exercise of a full discretionary power on the part of the Revenue Officers of Canara in issuing bowles for the reclamation of waste land, provided always that their Proceedings are based on approved principles. It is desirable that these should be clearly laid down in a Hookummah prepared

for the purpose - and they will be happy to receive from Mr. Blair at his earliest convenience for their sanction such a set of Rules as may be best suited to the peculiarities of the District under his charge.

Para 30 22. With reference to the Drafts of two Moolputtahs submitted by Mr. Maltby, the Board desire to be informed why it should form a condition of the Puttah that the Proprietary right which quoad waste Land is vested in Government should be conferred upon the Cultivator - Unless the reclaiming of waste land would be impeded by the absence of this concession the Board think the right should remain in the Government - as regards applications for pieces of adjacent waste land they should be treated exactly in like manner as Durkhasts for other Waste Land. In the event of the Ryot occupying Waste Land without the permission of the Collector, the full Seerwa should be demanded.

Para 32 & 34. 23. Mr. Maltby recommends to the favorable notice of the Board the suggestion made by the Acting Sub-Collr. Mr.

Mr. Lushington regarding the Tank repairs in the Talooks of Soopah, Soondah, and Bilghi; the dilapidated condition of which is attributed to the poverty of the Ryots, and the changes which have taken place in the rights of the soil since the Establishment of the Company's Government and subsequent to the date of which the Cultivators in the different Villages in these Districts have become independent Proprietors to the exclusion of the Head Trans of Lessee who generally held the entire Village on Lease and was answerable to Government for the payment of the other Ryots under the old System. In the Division of interests, which the creation of a number of independent Proprietors under the present system has introduced into the Villages, the repair of the Tanks has been lost sight of, and there is no individual Proprietor of sufficient influence to make the Villagers unite in repairing them, and the Revenue authorities have little power

power to compel the whole body of Ryots to unite for the common good - and therefore Mr. Maltby considers it advisable that Government should afford the necessary aid.

24. Under the circumstances stated, the Board are willing to give their support to Mr. Maltby's proposition - at the same time it will be necessary that in submitting Estimates in the Department of Public Works for the repair of Tanks and other sources upon which the irrigation of rice Lands depends in the Talooks abovementioned, it will be necessary to supply the fullest information on all points connected with the usage of the Country as regards the repairs of those reservoirs. their size and capacity. the extent and description of Wet land under each, whether assessed to Revenue or Enam, and if the former, the amount thereof.

25. As regards Tanks of Public utility situated on Public Roads, the Board direct these Cas well

Maltby who has been in charge of the Province the greater part of the year.

Para 37. 28. With reference to the orders of Government sanctioning the remission due in lower Coorg Fusly, the Acting Principal Collector states that in consequence of the absence of detailed accounts and the confusion which prevailed during the year of the war, it was impossible to ascertain what portion of the arrears ought to be collected.

33. The Board notice with much satisfaction the favorable mention made of the Sub Collector Mr. J. A. Maltby and of the Acting Sub Collector Mr. Lushington.

Ordered that a Copy of the foregoing Extract from the Boards Proceedings be submitted to Government and a transcript of the same be forwarded to the Principal Collector of Canara for information and guidance.—

From the Asst Collr of Malabar — Sir,

Submitting Summabundy Report for Fusly 1249.— No 1 to 3.

I have the honor to transmit herewith the usual Statements of the Land Revenue Settlement of Malabar for Fusly 1249.

Season and its effects upon Cultivation and Produce — 2.

Para 1.— The S. W. Monsoon set in rather early, i.e. on the 18th of May 1839, from which period down to the end of August there was an abundant supply of rain, which conduced in a great degree towards relieving the Gardens from the injury they sustained by the Drought noticed in the Report on the Settlement for 1248. The season was favorable also to the first Crop of Paddy, which was plentiful throughout the District but the excessive quantity of Rain much of which fell at unseasonable time materially injured the Garden Produce.

Quantity of Rain fallen to the end of August

1839	159 3/16	"

Para 3.— 3. The second Crop of Paddy reaped in January and February suffered considerably by

by a failure of the After-rains which had like-
-wise the effect of causing a great deficiency
in the produce of Pepper, Ginger and Ellu (Sesamum)

4. The favorable prices which Rice
and Cocoanuts bore in 1248, continued, with
little or no variation, throughout the Fusly
under report - in fact, they may be stated
to have been a little above than below
the per centage quoted in the 5th and 6th
Paras of Mr. Underwood's Report particularly
as regards the produce of the Cocoanut
Tree, a circumstance which has in some
measure, compensated for the diminution
of Produce, for the Cocoanut and Betelnut Trees
still require a few years of good seasons to re-
-gain their former flourishing Condition.

Settlement.-

10. The total number of Gardens as per the Summabundy Accounts for Fusly 1252 has, I find, been hitherto stated at 27,819 1/6.— as their inspection drew to a close, a more minute examination of the Accounts followed, the result of which is that in the Majority of the Taloks there have been found more Gardens than the number included in the former Accounts, in the others, fewer. The particulars are specified in the State- ment herewith submitted, by which it will be further seen, that out of 283,895 Gardens, 233,817 were inspected between 1213 and 1218 inclusive, and that the inspection of 1249 embraces 38,575 Gardens- total 272,392 Gardens- leaving 11,503 as per ac- count, Gardens to be inspected.— With the exception however of the 4,240 Gar- dens in the Calicut and Nedinganaad Taloks, all the rest are more or less bar- ren and the greatest part being situate in the Midst of jungles, contain few or no trees- Upon the whole the number of productive Gardens remaining to be inspected, (including Calicut and Ned- inganaad) will be about 6000. the survey

survey of which will be done in the course of Fusly 1250.—

11. The Garden survey may be said to be almost completed. When its introduction was first proposed, it was apprehended— there would be a loss of Revenue to the ex- tent of 10,000 or 12,000 Rupees, but the result has proved otherwise: for, instead of any loss, the measure has been attended with an increase amounting to Rupees 20325-7-3. This is the more satisfactory when it is remembered that the System without unfairly preying on any has had the effect of relieving a great many poor Ryots from an undue share of taxation.—

This excess is mainly attributable to the Quit Rent realized on new Grants issued to Occupants of lands on the Neilgherries, as also to the circum-

Outstanding Balance. 20.— By the accompanying Statement it will be perceived that the arrears

arrears on account of Land Revenue of Fusles anterior to 1249, outstanding at its commencement amounted to Rupees 1,390-14-5, of which Rupees 1,121-13-9 was realized in the course of it, leaving still a small Balance of Rupees 269-0-8, part of which amounting to Rupees 309 is supposed to be recoverable, and the remainder Rupees 100-0-8 has been classed as doubtful pending the enquiry necessary for its final disposal.

Waste Lands - 21-

No. 10

Estimated Amount Rupees 280-13-1-

During the late Fusly 130 Cawnies of waste land have been taken up for Cultivation - the terms upon which they have been reclaimed are specified in the Statement herewith submitted, which, likewise shews that the Assessment hereafter leviable upon 34 lands measuring 117 Cawnies and 638 Square Rolls has already been fixed. From the peculiar Nature and situation of the other 13 lands entered in the Statement (amounting to 12 c 963 s.k.) it has been found indispensible to

to accede to the proposal of determining the Assessment at the expiration of the Cowles given.-

22

The Aggricultural returns received from the different Talooks shew that 49,694 Cocoanut, 70,634 Betteenut, and 8,212 Jack Trees have been planted in the course of the late Fusly, in 337 Gardens, of which 231 only were newly formed - the rest are all old ones the Trees planted being in replacement of those that had gone to ruin or had become unproductive.-

23

I have little in the shape of general remark which I think would be interesting to the Board. It is satisfactory however to be able to state that the District, so far as I am able to judge, exhibits the same marks of prosperity which it has done for some years past. I have visited a large portion of it and have found throughout with a few exceptions, the features of wealth and

and comfort. The only Taluck that appeared to me strikingly inferior to the others was Wynaad which is depressed by want of popu= =lation, want of Capital and insalubrity of Climate; the last evil resulting, I presume in a great measure from the first. It is to be hoped that the present exertions of European Gentlemen to introduce the Cultiva= =tion of Coffee into this Country may have the effect of restoring, if not adding to the Comparatively flourishing state in which it appears to have been 40 years ago.

24 I have met with very cooperation from my Sub Collector Mr Goodwyn, whose Report on the 5 Taluks under his charge accompanies. Mr Silver the Head Assistant has been detached on other duty till within the last two Months but is now prosecuting his duties to my great assistance at Talghaut I have found my Second Assistant Mr Monckton very willing to perform any thing entrusted to his charge.

Of

4th Several parties have already commenced ope= =rations and one Mr Barry and Co on a very large scale 3 Thousand, I believe, about to settle there.

Of Mr Platel my other Assistant, I have to speak in equal terms of commendation with what have been used by my Prede= =cessors. His knowledge both local and general has been particularly valuable to me coming as I did into the Dis= =trict with little Revenue experience.

25 I have every reason also to be satisfied with the services of my Sheristadars. Kistna Row and Davasegamoney Pillay are both well known by name to the Board and I need only say that they have fully kept up the high character which they have indi= =vidually established for themselves.

As P. 63-13-6- and correct accounts obtained by inspection of the exact extent of the estate and average annual produce— The land has been given to the Ryots on the above terms on perpetual lease, and in fact a proprietary right to the land

land conferred on them, which will, I trust, induce them to improve the cultivation of their farms.

Rupees 1-2-11- increased half landlord's share on lands of the same kind. the other half has been temporarily remitted, as these fields are situated in the midst of dense jungles where they are extremely exposed to the devastations of wild animals.—

Rupees 95-11-" tax at the established rates on concealed cultivation.—

Rupees 108-15-8. Tax on 38½ cawnies of land cultivated on Cowle.—

Gross Decrease on Paddy Land Rupees 655-6-3.

The gross decrease amounts to Rupees 655-6-3. and arises from the remission of Rupees 440-7-3. on salt marsh lands whose Jummah is fixed, but on which it has been found necessary to lighten the Government demand when the Crops have been totally or partially injured by the eruption of salt water.

Rupees 1414-6-9- is the decrease in

on the tax on Salt marsh Lands which are cultivated or waste as the prospect of the season or means of the Ryot may prompt to, or dissuade from cultivation.

The tax is fixed on inspection of the Crops, and hence it's amount both depends on the extent of cultivation and success of the crop. Rupees 15-15-2. decrease on paddy fields converted into Gardens, the tax on which will eventually be increased -

Rupees 54-9-1- decrease in the tax on the escheated lands in Cartanaad surveyed this year. Vide Para 3.

Garden Survey- 5.

The total number of gardens in the Talooks of Cavaypakum, Cotiote, and Cartanaad as per Jummahbundy account for Fusly 1249 is 83,382. of this number 68,441 were surveyed from 1243 to 1248- 14,109 in the past year- and 832 gardens have still to be inspected- of the latter 612 are in Cotiote 128 in Cherkul and 92 in

6. All the other unsurveyed gardens are at present untaxed and hence unentered in the Village accounts by which the Pymash is conducted, their existence was merely discovered by comparing the Village with the Pymash accounts for Aundas 1000 these gardens are

are generally situated close to the Hills in thick jungle and are believed to have gone entirely to decay. in case it is found on inspection that they can be fairly taxed their Jummah will appear as clear increase in next Fusly's accounts.-

Decrease	. . .	. . .	120 9 3

The increase in Ponnum is considerable and has arisen both from extended cultivation and fair Crops, a great quantity of lands was prepared for cultivation by cutting down and burning the jungle, but the very early and heavy rains in

in May (38 inches in Sellichery and much more near the hills) prevented the sowing of many fields. The Ellos (Sesamum) crop has decreased as the rains in August (when this seed is sown) were so heavy that much of it was severely injured and the Crops suffered Subsequently in October from drought as the North West Monsoon did not Commence till late in November.

16 The above Table shews that the fall of rain during the Early under review, as compared with previous years, was unusually heavy, the Monsoon Commenced on the 18th May and rain Continued to fall in Considerable quantities till the end of August, hence the first Crops of Paddy were abundant and all kinds of Pulse throve well up to this time. Little rain fell in September and October and hence the Second Crops of Paddy the Pasperums and Ellos, particularly the latter, suffered. But taking all Circumstances into account the past Season may be Considered as a very favorable one.

(8) Proceedings thereon. Ordd. It seems to the Board that the amount of Peishcush to be assessed on the Ayeshuttoor Mootah, must be fixed with reference to the Accounts of the produce of the Struepermatoor Zemindary for not less than three Years antecedent to that in which the subdivision was first made. The Accounts on which the subdivision were framed in 1830 having been found [illegible] to be fabricated, and the proportions of the assessment on the several Divisions materially affected thereby, it only now remains to revise that Assessment rejecting what is now found to have been fraudulent in the former accounts.

2 The retention of the Mootah and the Umanee and the knowledge thereby gained of its resources during the Current Year will not materially tend to shew the incorrectness of the former Accounts or enable those to be amended, and besides, the measure of sequestration is of doubtful legality. It seems therefore desirable that when the accounts of the present season are closed, the Mootah be released from Zuft and made over to the proprietor.

3 The present demand for Peishcush will of course be enforced, until a new apportionment on the Mootah is sanctioned.

Proceedings Relative to the Settlement of the Land Revenue of the District of Coimbatore for fasly 1249.

The Board proceed to take into consideration the report of the Principal Collector of Coimbatore upon the settlement of the Land Revenue of that District for Fasly 1249.

1 The season was generally favorable and in those Talooks where the rain was scanty it was more than made up by its abundance in others and the result was an increase of every description of cultivation and a Net amount in the Settlement of Rupees 39,370-12-4 the settlement of 1248 being Rupees 19,27,842-8-5 and that of 1249 - 19,67,213-4-5 prices were generally a trifle below those of the preceding year and the District was throughout healthy for man and beast except in the Sub Collector's Talooks where a Murrain broke out amongst the Cattle & many perished. —

2 In the Poonjah Cultivation there was a net increase of Rupees 22,634-10-10 arising from a gross

gross increase of Rupees 3,3960-10-- and and a gross decrease of 31,323-15-2--

3 In the garden lands there was also a Net increase of 4,163-1-8, the result of a gross increase of 13,412-7-1 and a gross decrease of 9,249-5-5.

4 In the Punjah Cultivation in like manner there is a Net increase of Rupees 10,920-12-11 resulting from a gross increase of Rupees 35,554-1-9 and a gross decrease of Rupees 24633-4-10.--No particular remark seems to be called for with reference to the items of increase or beyond somewhat is given in the Principal Collector's report with the exception of the decrease under the head of Poonjah.

5 This gross decrease in the Poonjah Mr. Drury explains to comprize chiefly the items of 2,770-2-2 being the assessment lands left waste by death desertion or insolvency of the holders & ca of Rupees 8,634-11-4 on lands reduced to grass rent and of 1,715-14-5 on lands brought to the head of garden and Punjah. There is another item, adds the Principal Collector of

of Rupees 34-12-4 being the amount of B 26-8- of Shaing and or Forest land situated in the Village of Yethanady and Seervoomalumpollium in the Talook of Coimbatore which were first cultivated and brought to account in Fusly 1246. These lands were afterwards and for the first time claimed by the Poligar of Pooraneepollium in Fusly 1248, together with Bullahs &c 8-- -½ the survey assessment of which is 199-12-½ held on Cowle which had always been included in the range of Jungle pasture and Tamarind Rent collected annually on account of Government and the right to which was never disputed by the Poligar. The whole extent of land thus claimed by the Poligar was transferred to him by an order of the Acting Principal Collector on the 3rd December 1839, but as no reference had been made to the Board

Stat. 6
Col. 485

Board and no sanction had been obtained for the transfer the item is carried to the head of "Extra Revenue" and the Principal Collector proposes to institute further enquiry into the Poligar's claim and to submit the case for the consideration of the Board. Pending the promised Report, the Board can offer no opinion upon the claim of the Poligar but the land having been once included in Ayen, it was obviously irregular and unauthorized in Mr. Babington to make it over to the Poligar without previous sanction. As the teerwah 54-12-4 upon the cultivated portion Bullahs 26½ had up to 1248 been included in the Ayen and carried to the Gunnahlundy account, the Board think the same course should have been followed in the Fasly under review pending the investigation into the Poligars claim. It is observed that upon the 85 Bullahs the Survey Assessment on which is 199-12-7 held under Cowle

no assessment is credited nor any collections made on account of the Sa-maund Trees. The Board will be glad to know for what period the land has been given upon Ryot's Cowle and whether the 85 Bullahs comprize the entire extent of land claimed by the Poligar.

Para 18 6 Mr. Drury reports that no alteration has been made in Fasly 1249 in the "Kayem" and "Discretionary Cowles" "the orders of the Board," he observes "conveyed in their proceedings on the Cowle "settlement of Fasly 1248 and received "on the 11th April last will be carried "into effect after a minute investigation "into the circumstances under which "these Cowles respectively of every "description are now held in reference to individuals and Villages "and all those cases which seem to "require consideration will be reported "to the Board for their decision where "the stipulated conditions have not "been fulfilled, where the Putcut lands "have been neglected or given up, or "where the privilege has been given "by an authority manifestly incompetent

B. Rec. 6th April 1841 6-17

the

"the Cowle will be discontinued at once,
"as laid down in the Board's Proceedings."
The Board will be glad to hear that
this course has been followed out.

Para 22 4 Reference is here made to the
Para 5 Board's Proceedings 29th October 1835 and
Para 25 28th November 1836 in respect to the
assessment hereafter to be levied on
garden land cultivated with Poonjah
Produce from the failure of Wells or
other just cause and the Board entirely
approve of the suggestion of Mr. Drury
to assess such lands again at its original
Poonjah teerwah. If the land was as-
sessed at the survey with garden
rent to charge the rate of the corres-
ponding class of Poonjah land in
the Village and direct it to be adopted
from the current Fasly.

Para 27 8 In Para 27 Mr. Drury remarks
"under the different heads of settlement
"it will be observed that lands have
"been transferred to Village Sibbendy
"in exchange for other lands, which
"they had held as Enam. I am appre-
"hensive that these exchanges may
"be viewed as involving a change in the
assignment

assignment of the lands which were
originally made for the remuneration
of the Village Sibbendy and therefore
requiring the special sanction of Govt
the Board.

If the land given to Village
officers as Enams for services is de-
stroyed or actually rendered unfit
for cultivation, there seems no ob-
jection to the Principal Collector
giving other circar waste in exchange
reporting the circumstance for the
information of the Board and Govt
ment for unless the lands assigned
to Village officers are productive, they
cease to be what they were originally
intended for a remuneration for
services performed.

37-33-34 10 No particular observations
grass lands seem to be called for by these Paras
as the Principal Collector has since
submitted a Modified Hookoomna-
mah in which the practice of allowing
grass lands to be held in excess of
one fifth of the Putcut rent of the
Ryots upon the payment of one half
the assessment is especially pro-
interdicted

interdicted and all Ryots holding such lands for the future are to undertake the cultivation of them either on the payment of the full rent or on Cowle as the case may be &c.

35 to 38 Para 7616 In their Proceedings 16th September 1839 the Board discussed at length the system under which the cultivation of Droopyre or garden cultivation is conducted and concluded by recommending the adoption of the system introduced into the Bellary District by Colonel Munro as defined in the rules drawn out by that Officer for the guidance of his subordinates 21st September Fusly 1214 extract from which was forwarded for the Principal Collectors information Mr. Lowry is not satisfied that the introduction of this system into Coimbatore is either for the benefit of the Ryot or the Government and has argued at some length to shew this.

Para 36 He observes that "in Bellary no additional tax is levied on Punjah "lands on the culture of Plantain Sugarcane

"Sugarcane, Betel, Vine, Turmeric "&c and lands planted with Cocoanut "and Areca nut trees are liable to no "demand until the trees arrive at "maturity unless any other description "of Crop shall be raised upon it and "then the Teeroah fixed on land is "charged. - In Coimbatore if Plantains "Betel Vines &c are planted in Cy "Punjah lands, they become liable to "two Crop rent or to one and a half "of the fixed Survey Assessment, or "and when these lands are planted "with Cocoanut and other trees they "are liable not as in Bellary to no "demand until the trees arrive "at maturity unless any other descrip- "tion of crop shall be raised upon "it, but to the demand of the Teeroah "fixed upon the land when Crop- "ped with rice, whether any or "description of produce is or "raised upon it, or not. - This "assessment is levied from the time

"time the land is first converted into
"Droogye until the plantation comes
"to maturity, when the additional
"assessment of two Crop rents is fixed
"upon the land as long as the Dru-
="gye lasts or for fifty or sixty years."-

12 It is true as Mr. Drury ob-
serves, that in Bellary if no ob-
other cultivation is carried on
in the same ground with the
young Garden plants, the land is
is altogether exempt from Teerah
until the trees begin to bear or
which may be estimated at 10 years,
but he appears to have overlooked
the fact that the plantation on
becoming productive is taxed
with double the full Punjah
assessment until the amount of
rent the collection of which was
suspended, is recovered, after
which the full Punjah assessment
only is collected, whereas in
Coimbatore

Coimbatore single Teerah is collected
from the day the plants are put into the
ground with liberty to the Ryot to make
any other cultivation he pleases along
with the plantation and full Punjah
Teerah only after the plants have pro-
-duced and during the period they con-
-tinue to produce.- The evil of this was
16th Sept 1839 forcibly pointed out in Para 13 of the
Board's proceedings where it was ob-
-served that a Ryot who holds such a
"garden on Cowle pays only single tax on
"produce exactly the same as that of
"other Ryots whose gardens cultivated
"with Plantains and Betel leaf only
"are paying double tax.- And when it
"is considered that the perennial produce
"to which such indulgence is accorded
"is in the end far more profitable, a
"certain, and lasting, there does not
"appear to be any reason why Government
"should forego its right to any portion
"of the public revenue derived from land
thus
"appropriated".-

2 The object of the Board was as far
13 as practicable to promote uniformity
of practice and to see that the conditions
regulating

Assignment will be the same in both Districts Viz.t 30 Rupees. —

16 The Kooroomnamah submitted by the Principal Collector in January last, and since sanctioned by the Board appear to contain all the provisions necessary to secure freedom of Cultivation to the Ryots. No further notice of the subject is now necessary. —

17 The total amount of the settlement, it has been observed, was Rupees 19,67,213-4-5 of which Rupees 19,44,981 — 6 were collected within the Fasly, leaving a balance of Rupees 19232 . 3-11 since reduced to Rupees 6331-12-8, a result which is considered highly creditable to the officers entrusted with the management of the District. —

18 The Board observe with much satisfaction the punctuality with which the Collection in the Sub Collector's Division have been made and the favorable mention of this Gentleman by Mr. Denny which they have much pleasure in bringing to the notice of the Lordship in Council. —

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Pl. Collector of Coimbatore for his information and guidance. —

This suit was instituted for the recovery of the putta to 2½ 1/16 1/32 hullahs of Garden land called Attenaraincunnemaur bottom yielding

yielding annual produce valued at 85 Rupees and for the prevention of the 1st Defendant from interfering with the property.

Plaint. states that the land in question was for a long time in possession of Plaintiffs ancestors, but subsequently was left waste about 20 years ago; under these circumstances 1st Defendant made a proposal in the Talook to cultivate the land on progressive Cowle commencing with quarter rent in the first year 1838 upon which the Plaintiffs being the hereditary proprietors offered to pay full tax commencing with Fusly 1249 which circumstances were reported to the Talook by the Village Authorities. In the month of Chittray 1839 at the commencement of the cultivating season of Fusly 1249 the Plaintiffs expended 200 Rupees in the repair of the Well and other improvements and prepared the land for cultivation, when the Defendant in order to deprive them of the property offered to pay full tax for Fusly 1248 and was placed in possession under the orders of the Acting Principal Collector

Collector, who is therefore included as 2nd Defendant notwithstanding that Plaintiffs subsequently offered to pay full rent for Fusly 1248.

The answer of the 1st Defendant states that the Plaintiffs obtained possession of the land by the undue apperstance of the Village Authorities and the order of the 2nd Defendant placing him possession was therefore correct and just.

The answer of 2nd Defendant supports the Claim of the 1st

Decree of the Court.

The merits of this case require little comment. It is perfectly clear that the only reason why Plaintiffs made any proposal for the land, was to frustrate and defeat the intentions of the 1st Defendant who had previously done so and that the former gained by some means, unauthorized possession of the property. If they executed the repairs they state, it was on their own responsibility and at their own risk for no grant of the land was sanctioned, it is however to be observed that it would seem from the documentary evidence that the repairs at the time the subject was under investigation amounted only to 25 Rupees in value. Under these circumstances the 1st Defendant is unquestionably the party entitled to the property and the Court accordingly dismiss the Claim of Plaintiffs with Costs.

8.

In Paras 47 of their proceedings of the 31.st December last, the Foujdaree Udalut have promised

Fort St. George 8th April 1841.

promised a special report of the state of the Police in the District of Cuddapah, which His Lordship in Council desires may be furnished without delay with a report shewing the present state of those Districts where Gang robbery extensively prevailed, and particularly of Cuddapah, Bellary and Rajahmundry. In the event of Gang robbery in these Districts, or in any others now prevailing to a considerable extent. His Lordship in Council directs that orders may be issued for increasing the Police force in those Districts respectively without awaiting further orders, and that the extent and cost of the temporary Establishments may be reported for sanction and that the Judges will immediately suggest any other measures which they consider the necessity of the case may demand, in order that the crime of Gang robbery may be put down in the Districts as it has been, in a great degree by the energy of the authorities in Tanjore.

Vide para 11 of the Rs. Judicial Dept. 9. It must not however be overlooked that the Village Police in this District has been placed under the sanction of the Supreme Government upon

an efficient footing and led, as has been represented by the Board of Revenue in their Secretary's letter of the 28th March 1839 No. 119. amongst other advantages, to a great diminution in the number of Gang Robberies. The results of the measures adopted in Tanjore were brought to the notice of the Government of India in a communication to the Officiating Secretary

Jud. Dy. 16th April 1839 Nos. 1 & 9. grant dated 15th April following, and sanction solicited for an extension of those measures to the other provinces where the Village police continues in a state of inefficiency, but as no reply has been received. His Lordship in Council feels that he cannot do better on the present occasion than again press the importance of the subject upon the attention of that Government.

10. The want of co-operation on the part of the Village Servants in the Police Divisions of the Veneatagherry Zemindary as brought to notice by the Magistrate and Joint Magistrate of Nellore and adverted to in the paras of the Courts Proceedings noted in the Margin is much to be regretted, and as recommended by the Judges His Lordship in Council purposes to require

the Board of Revenue to state what has been done in pursuance of the orders conveyed in para 8 of the Minutes of Consultation of the 15th November 1836 and the extent to which effect may have been given to the instructions they may have issued thereon.

11. His Lordship in Council is not prepared to adopt the suggestion conveyed in the 32nd Paras, but he desires that the magistrate may be instructed distinctly to explain to the Zemindar of Venkatagherry that by the terms of the Pyrawanah i. Milkpatt between him and which he holds possession of his Zemindary as well as of his Cabooliat, he is bound to aid and assist the officers of Government in apprehending and securing offenders of all descriptions and to enquire and give notice of robbers or other disturbers of the public peace who may be found or who may seek refuge in his Zemindary and that as his attention has been on more occasions than one drawn to this subject without any advantage, the Government will resume the police of his Zemindary without further warning unless he takes steps for enforcing an

and effectual reform into the system of Police in his Zemindary at an early period.

Paras 40 & 43 14 The Government has already recorded its sentiments as to the inexpediency of fixing a high rate of taxation on arrack, and Today but as the Judges have again adverted to the subject, the Board of Revenue will be requested to obtain the sentiments of the local Revenue Officers under this Presidency as to the probable effect on the public Revenues and on the Morals of the people were the tax so raised as to render these liquors available only to the wealthier Classes. His Lordship in Council is aware of the apprehensions of the Board that the proposed remedy is liable to greater evils from an increase of the Crime of Smuggling, but it will be for them to consider whether the local Officers will not have the means from their united functions of Collector and Magistrate of effectually preventing this. Their attention will also be directed to the suggestions communicated in para 3rd of the Courts Proceedings in view that of such practicable instructions for giving effect to them

Extract from the Proceedings of the Court of Foujdaree Udalut dated the 31st Dec. 1840.

Northern Division 28 Nellore.

Both the Magistrate and the Joint Magistrate of Nellore have brought to notice in their respective Police reports the want of co operation amounting almost to refusal on the part of the Village Zemindars throughout the Police Divisions of the Venkatagherry Zemindary to afford any assistance to the Government Police Officers.

Fort St. George 8th April 1841

29 The Magistrate states that the Zemindars "attention has on more occasions than one been drawn to this serious infringement of one of the stipulations of his summud Istemrar and Cabooliat and promises are made by him without any serious intention of acting up to them"

30. The only course which appears to the Magistrate likely to remove the evil would be in a clear case of misconduct to require him to dismiss the Officer: but the Magistrate is of opinion that it would be a "species of interference that it would be very questionable in its general policy, and most grating "to the feelings" of the Zemindar. The Joint Magistrate however suggests that "an injunction to the Zemindar to endeavour to induce the Villagers to render active assistance to the Police Officer might perhaps lead to some improvement"

31. It would be remembered that in consequence of Mr. Stonhouse having in his Police Report for 1835 recommended that the Police Establishment in the Venkatagherry Zemindary should

there may be issued.

Extract from the Proceedings of the Court of Foujdaree Udalut dated the 31st Decr 1840.

Northern Division 28.

Nellore.

Both the Magistrate and the Joint Magistrate of Nellore have brought to notice in their respective Police reports the want of cooperation amounting almost to refusal on the part of the Village/Zemindars/ throughout the Police Divisions of the Venkatagherry Zemindary to afford any assistance to the Government Police Officers.

Fort St. George 8th April 1841

29 The Magistrate states that the Zemindars "attention has on more occasions than one been drawn to this serious infringement of one of the stipulations of his summud Istimrar and Cabooliat and promises are made by him without any serious intention of acting up to them."

30. The only course which appears to the Magistrate likely to remove the evil "would be in a clear case of misconduct to require him to dismiss the Officer." but the Magistrate is of opinion that it would be a "species of interference very questionable in its general policy, and most grating "to the feelings" of the Zemindar. the Joint Magistrate however suggests that "an injunction to the Zemindar to endeavour to induce his Villagers to render active assistance to the Police Officer might perhaps lead to some improvement."

31 It would be remembered that in consequence of Mr Stonhouse having in his Police Report for 1835 recommended that the Police Establishment in the Venkatagherry Zemindary should

Fort St George 8th April 1841

should be withdrawn on the grounds of it being nearly removed and perfectly useless, the Right Honorable the Governor in Council in Para 8 of the Minutes of Consultation under date the 15th November 1836 directed the Board of Revenue to address a communication to the Magistrate of Nellore to the same effect as they were directed in Para 7 of the Minutes of Consultation of the 18th November 1836 to address to the Magistrate of North Arcot on the subject of the Police in the Zemindaries of Calastry and Venkatagiry.

37. If the measures therein directed have been fully carried out by the Magistrate of Nellore little benefit would appear to have resulted either from the periodical residence of one of the Magistrates European assistants within the Zemindary of Venkatagiry or from the revisions proposed to be made in the Police establishment of the Zemindary. Should the Court of Foujdaree Adalut would therefore recommend that enquiry be made as to what was done

Fort St George 8th April 1841

done under the orders in question, and as suggested by the Joint Magistrate of Nellore that an injunction be issued to the Zemindar, and in view to render such injunction more effectual, The Court of Foujdaree Adalut would suggest that such be made from the Right Honorable the Governor direct, warning the Zemindar that the Government will resume the Police of the Zemindary if he fails to introduce an effectual reform into the system of Police in his Zemindary.

40. The Joint Magistrate adds that herefers only to an established and well known fact when he says, that crime would be much diminished if the sale of liquor in this District was more restricted.

41. On this subject the sentiments of Government have already been communicated to the Court of Foujdaree Adalut in the Minutes of Consultation of the 12th March 1839 to the effect, "that, the Right Honorable "the Governor in Council concurs with the "Board of Revenue that it would be inexpedient "to fix any higher tax on arrack and Toddy and "that nothing short of actual prohibition appears likely "to put a end to the consumption of these baneful liquors."

The

42. The Court of Foujdaree Udalut are of opinion however that good Government in all Countries, renders it advisable, that intoxication should be taxed, so as to render it a luxury beyond the ordinary means of purchase by the lower and more vicious, orders, and incline to think that both the Morals of the people and the Revenue of the state, would be hereby augmented. A trial of the measure can alone ascertain it's result, and the Agent in view appears to justify the attempt. Fermented intoxication altogether is hopeless. Should it move expensive must check it and may add to the Revenue or if the revenue falls, it must be from reduced consumption and less intoxication

43. The Foujdaree Udalut would also solicit attention to the other suggestions offered by the Joint Magistrate in Paras 7 and 8 of his report as to the better selection of places for the sale of liquor, and to a modification of the Coolies so far as relates to the earlier hour of the night after which the contractors should be prohibited retailing liquor, and the Collector generally should in the opinion of the Foujdaree Udalut be required to give attention to these suggestions when the Abkary lease is next for out.

Cuddapah. 47. On the state of the Police in the Cuddapah District the Court of Foujdaree Udalut will have occasion to address the Government separately.

Tinnevelly and Trichinopoly. 62. The Police Reports from Tinnevelly and Trichinopoly do not appear to call for remark from the Court of Foujdaree Udalut. The proposections of the Magistrate of Trichinopoly for the improvement of the Cavil System and for the better remuneration of the Village Police of the District under his charge, the Court of Foujdaree Udalut conclude have been ere this submitted to Government.

A The Police of the District of Tanjore appears to be in a very creditable state of efficiency and the Acting Magistrate acknowledges with pleasure the Zealous assistance he has received in the Magisterial Department from Mr. Cook and Mr. Gordon Fraser the Head Assistant and the Assistant Magistrate of the District, and in forwarding the Report of the Joint Magistrate

Mr.

Mr. W. Forbes, the Acting Magistrate records his sense of the able manner in which the Joint Magistrate conducts the Police duties of his Division.

Western Division & Malabar

The Provincial Court of Circuit in reviewing the reports received from the Magistrate and Joint Magistrate of Malabar have observed that the number of Deaths by drowning (124) reported to have occurred in that District during the year 1839 may be attributed to the "attempts made to avoid the very high tolls for ferries and bridges".

69 Mr. for the Government in Communication with the Board of Revenue to determine whether these tolls might not under the circumstances represented by the 1st Judge of the Provincial Court of Circuit be entirely abolished.-

From the Chief Sec.y to Government.

Para 1.

Communicating observations and Orders on the Board's Proceedings relative to the Settlement of the Land Revenues in the District of Chingleput for Fusly 1248.-

Land Revenue
Fusly 1247 ——— 9,74,161.
1248 ——— 9,04,886.
Decrease ——— 69,275.

The Land Revenue of this District exclusive of the "Sundry Small Farms and Licences" when compared with that of the preceding Fusly exhibits a falling off of Rupees 69,275.-

2

Permanent Beriz including Sundry Small Farms Y.ca 10,98,043.
Rev.e of 1248 including D.o 9,18,150.
Decrease ——— 1,79,893.

The Permanent Beriz of Chingleput is inclusive of "Sundry Small Farms Y.ca" and was fixed at 1,98,043 Rupees being 1,79,893 above the Revenue of 1248 when the above item (amounting to 13,204 Rupees) is included.

3

There appears to be but little hope of the Permanent Beriz ever being realized in this District except in extraordinary seasons in the

Margin

Margin is exhibited the Revenue derived in each year since Fusly 1233 inclusive, from which it appears that the average Returns of the last 3 years is higher than that of the 13 Fusles preceding and of which 13 Fusles there are but 3 in which the Revenue exceeds that realized in the one under Review.

In the total amount 9,04,886 are included Jahgy Zemindaries 147,910 and Shotrium 4,212. these items being of the same amount as in the preceding Fusly.-

5

The Season is stated by the Collector to have been "generally unfavorable" a term which appears to the Right Honorable the Governor in Council to be hardly suitable, when the records of the last 30 Seasons are taken into consideration. The small quantity of rain has never been reported for so many consecutive years that the exception has grown into

into a rule and the present fusly notwithstanding the partial deficiency of water in the Southern Talooks may be considered on the whole an average season.-

6.

The Decrease in the extent of cultivation amounted to 12063 Cawnies, being chiefly confined to the Nunjee or Wet lands.-

	12063 Decrease	

It is also observed that the Decrease occurred almost entirely in the 1468 Villages under the Ryotwar Settlement into 649 of which this Settlement was introduced this fusly for the first time. In the 70 rented Villages there was an actual increase.-

to the rates of the Survey & Assessment lately carried on by Mr. Maclean but to which final sanction has not yet been given -

9. It is true, as Mr Freese shews that the revenue derived from these 649 Villages fell short of that of the preceding year, when they were rented by 2¾ per Cent only, whereas the other 819 were deficient by 15 per cent yet the Right Honorable the Governor in Council quite agrees with the Board of Revenue that such comparison is not to the point the Renters' profit not having been taken into consideration -

10. Moreover it would appear that these newly settled Villages are chiefly situated in the Northern Talooks whereas there was no deficiency of rain a deficiency of Revenue was left to be expected -

11. His Lordship in Council is enclined to consider the heavy amount of this 42763 was for the newly settled Villages Remission in 1847 1265-3 1248 5040 of Remission which the premature settlement of the Collector rendered

it incumbent on him to make as one of the main causes of the decrease of Revenue It is however to be hoped from the nature of the case that such a charge will not again occur -

12. Under the head of Remission for "shave" or crops destroyed by want of rain, it appears from para 21. of the Collectors letter that the total amount of these on lands suffering this evil in the old assessed Villages was 5,619 - Rupees, whilst in the newly settled Villages it was 10485 it is not easy to reconcile this with the fact that there was no want of rain in the Northern Talooks in which the newly settled Villages are situated Mr Freese attempts to do so by attributing it to the discouragement to industry caused by the introduction of Shavee remissions along with the new settlement To remove this impression the Board of Revenue have properly forwarded to the Collector the extract from the letter from the Secretary to Government alluded to in para 2 of their proceedings, Shavee remissions are by no means Limited as a necessary adjunct to

Remission on Acct of Shavee
in 1247 — 1256-5-10-
48 — 13186-0-4-

to the Rules for a Ryotwary settlement and the Right Honorable the Governor in Council considers that Mr Freese has in this instance acted upon an erroneous principle —

13. It is the great desideratum in a Ryotwar Survey & Assessment that it shall be made in reference to the average produce of both good & bad years so that the profits of one may counterbalance the loss of the other thereby at once obviating any claim for shavee Remission. If therefore Mr Freese was satisfied (which it appears he was) with the correctness of the late Survey & Assessment, all claims for shavee Remission should have been strenuously resisted. This admission would only tend to destroy the future security and punctual realization of the Land Revenue —

14. The Remission under the head of Shanlet Bunjer or forfeiture of fields left waste is very high.

Remission for the Shanlet Bunjer in 1247 — 113-15-4
1248 — 1,765-11-11

it is however a necessary consequence if the hasty manner in which the settlement was introduced —

15. Concerning the Remissions on Cowle no remark will be offered till the Report about to be furnished by the Board in accordance with para 22 of their Proceedings is received —

Remissions for Cowle.
in 1247 — 4,230-7-6.
1248 — 5,550-12-9.

16. His Lordship in Council is of opinion with the Board of Revenue that Mr Freese's explanation of what he assumes to be an apparent rather than a real remission is by no means satisfactory —

17. These remissions which as before stated appear to be the main cause of the decrease of the Revenue this year as compared with last and which were an unavoidable consequence of the sudden manner and late period at which the new Settlement was announced render it incumbent on the Collector to shew that such a Settlement based as it was on a Survey & Assessment, the result of which

which is yet unknown to Government and of course totally unauthorized was the best that could be adopted and that any other would have failed.

18. His Lordship in Council does not consider that Mr. Freese has absolutely proved this to be the case. A difficulty in obtaining rents would hardly warrant his taking a step on his own responsibility involving so materially the rights of Government and the future expectations of the Ryots.

19. It is however but due to the Collector to acknowledge his laudable endeavours when once the measure was adopted of carrying it

Sir,

1 I am about in obedience to the orders of Government to proceed to Nellore I have directed the additional Superintendent Totah Brummiah Naidoo appointed to assist in the Settlement of the boundary disputes to place himself under your orders. He may be usefully employed during the interval in searching the old records of your office both English and in the

the native language for evidence affecting the disputes remaining to be disposed of.

2 Captain Pyresleys opinion of this individual is stated in his letter to your Predecessor in April last in which he shews how important it is to the interests of the Company's Zemindars that his services should be secured to them. In these sentiments I at that time fully concurred, and further experience has tended only to confirm me in the opinion I then entertained. I have the highest opinion of the integrity and ability of Totah Brummiah Naidoo as a Public Servant and I permit myself to hope that when from the disputes being all disposed of his services are no longer required in his present appointment he will meet with the reward to which his services will justly entitle him in being nominated when opportunity offers to some suitable permanent appointment—

To H. Chamier Esqre.

Chief Secretary to Government.

Fort St. George.

Sir,

In accordance with the instruction contained in your letter dated 11th December 1838. I have the honor to forward for the information of the Right Honorable the Governor in Council of Fort St. George, the accompanying Report upon the disputes between the Zemindars of the Masulipatam District, and the Zemindars of the adjoining Territories of His Highness the Nizam, regarding the "Poollery" Sax.—

Hyderabad, 10th March 1841.

(Signed) Franc. Gresley. Capt.

H. H. Nizams Cavalry.

Poollery Sax.—

A Sax called "Poollery" is levied throughout the Nizam's Districts in Telinganah from persons whose cattle or sheep are brought to Graze in the waste lands of a Village.

It

It is sometimes levied upon the Cattle of the non cultivating Villagers such as Shopkeepers, Weavers and so forth, and is carried to account by the Putwaree as a part of the Village Revenue, but it is never demanded from persons whose Cattle are used in cultivating the Land belonging to the Village.

2 In parts of the Country where the population is small and the Junglis afford good pasturage, the Collections on account of Poolley from persons who bring Cattle from a distance amount to a considerable Revenue.

Amount varies. 3 The amount of the Tax varies according to circumstances in populous parts of the Country and in seasons when forage is scarce it is sometimes as high as 2 Rupees per Mensem per 100 head of Cattle, in other parts as low as 2 Rupees per Annum per 100 head of Cattle. Sometimes a certain extent of land is rented or a sum is paid by the owner of the Cattle for permission to

to graze ad libitum in a certain District for a specified length of time, and very frequently the owners of two contiguous Zemeendaries agree to let their Cattle graze in each others Junglis without any demand being made on either side, various other arrangements are made. The Tax necessarily falls heaviest upon such Villages as from their extent of cultivated lands or other causes have little or no pasturage within their own Boundaries.

Former disputes regarding it. 4 The disputes regarding this Tax which have occasioned so much trouble on this Frontier for the last twenty years or more, have been occasioned by the Nizam's Officers demanding and the company's Villagers refusing to pay Poolley for Cattle or sheep belonging to the latter which have grazed in the Nizam's Territories. The consequences have been that the Nizam's Officers have on some occasions seized the Cattle belonging to the Company's Villagers in default of payment affrays have been caused which have been reported in exaggerated terms to the Company's Collector. Complaints founded upon exparte Statements of the case have been made

Consequences.

to

to the Nizams' Government through the British Resident at Hyderabad and until lately, the case has invariably been terminated by concession on the part of the Nizam's Minister, and an order for the unconditional surrender of the Cattle seized, or compensation for the loss incurred by the Company's Ryots.

5. Disputes have occurred all along the frontier at various former times, but at present the only questions of any consequence are between the Zemindars of Lingagerry and Moonigala and the Zemindars of the Neighbouring Nizams — Purgunnahs of Amuntaghery and Nagoolpar. The tax if levied, falls heavy upon the former in consequence of the Villages of their Zemindaries being comparatively populous and extensively cultivated, so that they have not sufficient pasturage within their own Zemindaries to subsist their Cattle, while the Amuntaghery and Nagoolpar Purgunnahs are thinly inhabited and have much more pasturage than the Inhabitants require for their own Consumption

Present disputes

the

6. The Zemindars of Moonigala and Lingagerry claim a right to send their Cattle and sheep to graze in the adjoining Districts of the Nizam without paying any Poollay Tax, the Nizam's Zemindars deny that they have any such right, and insist upon being paid for the forage, which they consider their own property.

7. From the correspondence in the office of the Masulipatam Collectorate the following seems to be the history of these disputes.

8. In several Urzees dated 1830-31 the Lingagerry Zemindars complained to the Collector of Masulipatam that horrible acts of cruelty (Women burnt &c.) had been inflicted upon the Inhabitants of their Villages by Sheshadree Nayroo one of the Zemindars of Nagoolpar who had also exacted 317 Rupees from them on account of Poollay for Cattle which had grazed in his District. Sheshadree Nayroo in an Urzee to the Collector stated that he had demanded the customary Poollay from the Lingagerry people

Lingagerry Zemindars.

for

for the Cattle which had grazed in his Lands &c
excepting from such Ryots as cultivated as Pykasts
in his Villages and requested that enquiry might
be made Regarding the Lingagerry Zemindars &c
statements he denied that his Cattle had ever
grazed in the Lingagerry Purgunnah, in as much
as there was no pasturage there, and stated that as
he had to pay Poolley for his Cattle when they
grazed in Penguncby-prole and Beetavole Pur-
gunnahs (of the Company) it was unreasonable
to expect him to allow the whole of the Cattle
belonging to the Ryots of Lingagerry, which was
a foreign Country, to graze in his lands the
greater part of which consisted of pasture
Lands yielding a large amount of Annual
Revenue to the Nizams Government. Gondoo
Pundit the Amil of Kulgondah Circar wrote
to the Collector stating that certain people
belonging to the Lingagerry Purgunnah had
insisted upon sending their Cattle to graze
in the Nagoolpur Lands during the last
yea

year, and refused to pay the Customary Poolley.
Whereupon the Zemindar (Sheshadree Nayroo) had
sent for them and received what was due, and
requested that an order might be given to the
Lingagerry Zemindar preventing his interference.

The Complaint of the Lingagerry
Zemindars was forwarded to the Nizam's Minister
at Hyderabad through the Resident, and an
order was issued to Sheshadree Nairoo directing
him to desist from molesting the Lingagerry
people.

Sheshadree Nayroo subsequently
brought an Action in the Sudder Ameen's Court
against certain inhabitants of Lingagerry for
the recovery of Rupees 187-3-3 "being principal
and Interest due upon a Kararnamah" given
"on account of the Poolley Tax of the pasturage
grazed upon by the Defendants Cattle in the
Villages of his Zemeendaree" and gained his Cause.
The grounds in support of the defence were &c
Considered by the Sudder Ameen "false" &c

9 Various other disputes have since taken place between the Zemindars of Singapoory and those of Anuntapoory in consequence of the former refusing to pay Poolley and the latter detaining their Cattle.

Moonegala Zemindars.

10 In August 1831 the Collector of Masulipatam wrote to the Resident at Hyderabad stating that he apprehended some serious affray in consequence of the Anuntapoory Zemindars demanding the Poolley Tax from the Zemindars of Moonegal, that the demand was entirely new and that the Moonegal Zemindars had always been allowed to send their Cattle to graze in the Nizams Territories without any Tax being levied on them, in consequence of there being no pasture lands in the Company's Villages in question, and requested that a person might be deputed to enquire into the matter. The Resident applied to the Nizams Minister who sent a person to the spot to enquire upon what grounds the Anuntapoory

Zemindars

Zemindars made their claim, and ordered that during the enquiry the Anuntapoory Zemindars should remain quiet. at the request of the Resident, the Moonegal Zemindars were indemnified by the Nizams' Government for the loss they stated they had sustained, on condition of certain Cattle which they had seized in retaliation being returned to the people of Anuntapoory and shortly afterwards Mahomed Azem Ali, who had been deputed to enquire into the matter (as requested by the Collector) sent in his report, the substance of which was as follows-

11 That the former Zemindars of Anuntapoory had allowed the Moonegal Zemindars to send their Cattle to graze in the Jungles of the Anuntapoory Villages on condition of the Ryots of Moonegala Cultivating lands on the Anuntapoory Villages but that in 1832 Fusley the Moonegala Zemindars having failed in this part of the agreement, the Nizams Ammil had demanded Poolley and with much difficulty

9 Various other disputes have since taken place between the Zemindars of Singapetty and those of Anantagerry in consequence of the former refusing to pay Poolley and the latter detaining their Cattle.

Moonegala Zemindars.

10 In August 1831 the Collector of Masulipatam wrote to the Resident at Hyderabad stating that he apprehended some serious affray in consequence of the Anantagerry Zemindar demanding the Poolley Tax from the Zemindars of Moongal, that the demand was entirely new and that the Moonegal Zemindars had always been allowed to send their Cattle to graze in the Nizam's Territories without any Tax being levied on them, in consequence of there being no pasture lands in the Company's Villages in question, and requested that a person might be deputed to enquire into the matter. The Resident applied to the Nizam's Minister who sent a person to the spot to enquire upon what grounds the Anantagerry Zemindars

Collected

Collected it for a few years, that lately in Conse-
quence of the connivance of one of the principal
Zemindars of Anuntagiry, the payment had
been evaded and that when the Nezams Aumil
seized any of the Cattle which were brought to
graze in his District, Complaints were made
by the Moonegal Zemindars, in consequence of
which the Aumil had not made any demand
for the Sase, but that it was fairly due as the
Moonegal Zemindars had prevented their
Ryots from cultivating the Lands in the
Anuntagerry Villages, that the Moonegal Zemin-
living in the Company's Country were able to do
whatever they pleased and considered that their
Complaints would be attended to by the English
Gentlemen without fair enquiry being made on
both sides -

12 The Nezams' Minister wrote to the
Resident saying that the Poolliay Sax was
levied in the other Districts upon Cattle
coming

coming from beyond the frontier, or some other
arrangement was made for permission to graze,
and that the Moonegal Zemindars had no
right to be exempted from it, he requested that
the Rights of the Nezams' Zemindars might be
enquired into, that if the Sax was Customary it
might be paid, and that if it was not Customary,
he would relinquish the demand -

13 A few Months afterwards the
Collector of Masulipatam wrote to the Resident
at Hyderabad Complaining that the Nezams'
Aumil had seized some Cattle belonging to the
Moonegal Zemindars in default of payment
of the Poolliay Sax, and had Maltreated the
persons who were with the Cattle and taken a-
way from them certain Articles of property, and
requested that the Cattle and property might be
restored and the affair enquired into -

Statements of the case by the Zemindars on each side.

14 The enclosures Nos 1 and 2 Contain the sub-
stance of Statements given by the Lingagerry and Moongab
Zemindars, setting forth the grounds upon which they claim
exemption

exemption from the payment of Poolley-

15 Enclosure N.3 is the substance of a Statement by the Zemeendars of Anuntagerry, shewing the grounds upon which the demand is made-

16. I have made enquiries upon the subject all along the frontier and from the best information I could procure it appears- that-

Poolley levied in that Purgunnah on the Frontier.

17. In the Kunnukghery Purgunnah (Nizams') which is but little Cultivated and Contains extensive Jungles yielding good pasturage large herds of Cattle are constantly brought from the Company's Neighbouring Zemeendaries and their owners pay Poolley to the Zemeendrs or to the Aumil of Kunnukgerry- during last year about 600 Rupees were collected on account of Government Revenue in this Purgunnah upon Cattle brought from beyond the Frontier, besides other sums paid to zemeendars or Pulwarees of Villages-

18 In Maddra Purgunnah which

which is populous and well cultivated, Poolley has seldom been collected, as there are few waste lands and consequently Cattle are not brought there from a distance, but the Inhabitants of that Purgunnah have frequently on former occasions sent their Cattle into Penguncky-prole and Betavole Purgunnah (Company's) to graze, and have paid Poolley to the Company's Zemeendars or Ameens-

19. In Anuntagerry and Nagoolpar Purgunnahs (Nizams') Poolley has been constantly levied, from Cattle brought from beyond the frontier and the Inhabitants of these Purgunnahs always have to pay Poolley when they send their Cattle into the adjoining Purgunnah of Beelavole (Company's)-

Other arrangements have sometimes been made-

20. Temporary arrangements have frequently been made between the Zemeendars of Anuntagherry and Nagoolpar (Nizams') and Lingagerry and Mongal (Company's) whereby both parties have agreed to allow each others' Cattle to graze without any demand for Poolley being made-

For

21 For several years the Zemindars of Moongala or their dependants rented most of the adjoining Villages of Anuntagurry Purgunnah and during their lease no extra demand was made for Poolley by the Nizams Officers, the demand has frequently been relinquished on consideration of the Ryots from Moongal and Anuntaghurry Purgunnahs cultivating lands in the adjoining Nizams Villages, but whenever the right to levy Poolley has been relinquished it has been as a matter of favor, or in Consideration of some Corresponding advantage.

22 Had there not been long standing Jeadu and other causes of dispute between the Moongal and Lingaghurry Zemindars, and those of Anuntaghurry and Nagoolpar, I have little doubt that this question would never have been brought forward.

23 In former days when the Lingagur and Moongal Zemindaries were with regard to Cultivation, about on a par, with the Anuntaghurry and

and Nagoolpar Purgunnahs, mutual permission to graze in each others' Jungles was a fair arrangement enough, but at present under such an agreement the advantage would all be on the side of the Company's Zemindars, because they have no surplus forage nor even enough for their own Cattle within the limits of their own Villages.

24 If it be admitted that the Grass which grows in the lands of the Nizams Villages is the property of the Zemindars of those Villages, it is clear that they have the Right to use it for their own Cattle or to sell it to their Neighbours, and I do not see upon what principle the Company's Zemindars claim for it, can be supported.

25 It would be difficult any specific Rate to be paid for grazing, nor indeed does it seem desirable, but should the two Governments coincide in this view of the question, I beg to suggest that strict orders should be issued to the Zemindars and

Local

Local Officers on each side of the frontier not to permit their Cattle or sheep to graze beyond their own boundaries without having previously obtained the permission of the party to whom the forage belongs-

26 The interests of the respective parties will then soon cause the usual arrangements to be made, where the Inhabitants on each side of the frontier are on good terms with each other and when they are not on good terms it is much better that the Cattle should be kept within the limits of their respective provinces, to prevent Collision-

in the lands of those Purgunnahs and never since the Villages were first founded has it been the custom to demand Poolery from the Villagers of our zemindary. The zemindar of Anuntagherry lately seized our battle and sheep and exacted a sum of 316 Rupees from us.

The Nagoolpar zemindar has entered into an agreement with us that neither shall demand Poolery and has repaid to us certain sums formerly extorted.-

As regards the Villages of Veerabad Purgunnah, Poolery is not demanded, but their Cattle graze in our lands, and ours in theirs without any hindrance, the Cattle of Anuntaghurry Purgunnah constantly graze and drink in our lands. We enclose statements given by people of the Nizam's Country which prove that there has never been any demand for Poolery made upon us. We therefore pray that we may be relieved from the urgent demands and receive back the money which has been extorted. Accompanying the above State-ment were twelve papers containing declarations given

given by certain Putwarees and other Inhabitants of the Nizam's adjoining Villages, to the effect that Poollery had never been collected on either side-

Substance of a statement given by the Zemindar of Moonegal Purgunnah-

Since the formation of the Moonegal and Anuntgherry Jeer. Purgunnahs no Poollery Tax has ever been collected by the Nizam's people from the Ryots of our Villages, or by our people from the Nizam's Ryots, nor has any dispute ever occurred about grazing until the year 1831, when the Amil of Khummum began to demand it, we then represented the matter to the Collector of Masulipatam, who forwarded our complaint to Hyderabad and the Nizam's Minister issued orders prohibiting such unusual demands-

Thus it is evident that no Poollery has ever been levied from us, and we pray that the long established custom which has always prevailed may be continued in

in force-

No. 3.

Substance of a statement given by the Zemindars of Anuntagherry and Nagoolpar-

When our Ryots take their Cattle to graze in the Company's Districts, they always have to pay Poollery to the persons to whom the grass belongs, and in like manner the Company's Ryots who bring their Cattle into our Purgunnahs and into Khunukgherry and other Purgunnahs of the Nizam's Circars purchase the forage which they consume-

The Moonegal and Lingagerry Zemindars have sent their Cattle to graze in our pasture lands and we have frequently been obliged to seize the Cattle, as the only way to enforce payment from them- Of late years these Zemindars have taken advantage of our Talooks being in Amanee and with the connivance of the Government Ameen have evaded payment- The grass in our lands is of the same value as the grass in the Company's Country- Why should we not be paid for the

the forage which the Company's Zemindars consume in our Purgunnahs when we have to pay for the forage, we consume in the Company's Country. especially while the Company's Zemindars of Tiroor Vca. pay Poollary to the Zemindars of Kunnukghirry Vca. without making any objection. We pray that a fair settlement of the question may be made.-

Resolution thereon.-

A perusal of the very able Report which accompanied the above letter on the "Poollaree tax" and on the disputes arising therefrom renders it essential that some decision should be come to at an early period. The question at issue resolves itself into one of Comparative simplicity, Viz. "whether the grass which grows in the land of the Nizam's Villages" is the exclusive property of the Zemindars of those Villages, or whether, there is a right of common, the custom of the Country in this respect must be depended on in a great measure, but as the papers are not explicit on this point, it is desirable that

that Captain Gresley should furnish more particular information.-

From the Statement of

2

the Zemindars of Lingagherry in the Company's Territory it would appear that the "Poollaree" tax is not demanded and from the declarations referred to in the note to that document to the effect "that Poollaree had never been collected on either side," it would seem that there has been from time immemorial a sort of right of Common over the waste lands. The statement of the Moonegal Zemindars leads also to the same conclusion.

The Statement of the Zemindars

3

of Amuntaghirry and Nagoolpar in the Nizam's Territory on the other hand, tends to shew that the tax in question is collected in the Company's Districts from parties bringing their Cattle to graze from the opposite Purgunnahs, and if this be proved it would be an argument against the right claimed on the part of the Company's Ryots; this point however the Right Honorable

the

Fort St. George 8th April 1841.

the Governor in Council requests Captain Gresley will ascertain by a reference to the local authorities. If it be proved that there is no right of common then the Ryots of the Company's District will have to pay, when from a deficiency of pasture in their own lands they convey their Cattle to graze on the Nizam's Villages, and the Course suggested in the 25th Para to the effect that strict orders should be issued "to the zemindars and local Officers on each "side of the Frontier not to permit their Cattle "Sheep to graze beyond their own boundaries "without having previously obtained the per= "mission of the party to whom the forage "belongs" would be a proper measure.

From the Chief Secy to Govt communicating observations and orders on the Board's Proceedings relative to Management of the Extra Sources of Revenue of the Rajahmundry District for Fusly 1249.

Para 1. Deteriorated as were the Revenues derived from Extra Sources in this District in the foregoing year, the Fusly under review exhibits a still greater loss attributable chiefly if not entirely to the disastrous Hurricane & Inundation in November 1839. Under every head there is a decrease as compared with Fusly 1248 its amount, and the per centage on the Revenue of Fusly 1248 is shewn below.

Items

Fort St. George 8th April 1841.

9- There were anticipations that the Revenues from these Sources would in the Fusly under review tend to retrieve the lamentable decay exhibited in the accounts of former years and though they have not been realized his Lordship in Council considers it due to Mr. G. Smith to record his opinion that the result is not imputable to any mis-management but to the calamitous occurrences of the Season.-

2 The Board of Revenue observe in para 17 of their Proceedings that the Collections made after the close of the year on account of current Balances made the Revenue on account of Fusly 1249 considerably in excess of that of 1248.

3. The heavy increase in the item of "Charges" took place entirely under the head of "Salt" the disbursements being required on account of an increased manufacture:—

Home and Inland consumption amounting to Rupees 18450 It appears to be chiefly owing to the practice which obtains in this District of selling the Salt to the Traders by the Heap of 10 Garce His Lordship in Council concurs with the Board of Revenue in their remarks upon this subject, as expressed in para 3 of their Proceedings but if the proper precautions are taken to secure the — correctness of the

the 10 Large heads, the falling off of the sales in Nellore — caused by the preference of the Traders to Guntoor cannot be looked upon as an actual loss.-

5 The amount of sales for consumption within the District has been gradually increasing, and is as pointed out in para 5 of the Collector's letter a fair criterion of the value of the free sale since the late calamities by which they have been visited.- in connection with this is the increase in the value of Cloths consumed within the District.-

the large proportion of Balances due at the end of the Fusly - 3 3/4 by a decrease in the amount of collections of former arrears.-

7.- The decrease in the Demand amounted to 4216, and under the circumstances brought to notice in para 14 of the Boards proceedings his Lordship in Council is pleased to sanction the extended modification of the Tax on Sheep and Goats as recommended by them in their letter of the 17th February 1840 that in lieu of the Rate of Rupees 6 per 100 the tax should be assessed at 3 3/4 Rupees only.-

8.- The amount of Balance of current arrears has (as was before observed) been considerably reduced by collections since the close of the Fusly.-

From the explanation furnished by the

the Board of Revenue in the foregoing letter the Right Honorable the Governor in Council is perfectly satisfied that there was nothing unusual or irregular in the sale of the Carakavulsa Estate on account of the balance of Rents outstanding against it, and he is of opinion that the failure of the late Proprietor to fulfil the terms proposed by himself for the liquidation of the arrears, without Interest, which were acceded to by the Board deprives him of all claim to favorable consideration. His Lordship in Council accordingly resolves to confirm the sale of the Estate in question to Ayyapala Pummiah for twenty thousand Rupees.

Ordered that the following Endorsement be communicated to the Petitioner Rajah Bandoobaary Mulleraja now Boodumee Row.

The Petitioner is informed that from the report of the Board of Revenue on the subject of his several Petitions there appears to have been nothing unusual or irregular in the proceedings of the Collectors of Canara in respect to the sale of the Carakavulsa Estate, on which there was an arrear of nearly two years Peishcush due at the date of the sale; and that under all the circumstances of the case Government see no grounds whatever to comply with the prayer of his Petition.

Reporting the death of Dauntala Venkata Putty Rauze and his Son Sectaramrauze and of their Widows as heirs as having unconditionally withdrawn the Suits preferred by the late Venkata Putty Rauze against the Collr in the Provincial and Zillah Courts recommending that Polapilly be continued under the widows for the present and submitting a proposal of Mr Young for renting 3 Villages of the Vizianagrum Zemindary

Sir

Para 1. I have the honor to report for the information of the Board of Revenue that in consequence of the death of Dautla Venkatapuilly rauze and his son Dautla Seetaramrauze their Widows have succeeded to all their property.

2. I have much pleasure in stating that they at once unconditionally withdrew the complaints which had been preferred against me before the Provincial and Zillah Courts.-

3 Although I am satisfied that they have consulted their own interest by this proceeding, as it would have been entirely out of their power to have supported the very absurd pretensions made by D. Venkatas Putty rauze, and which could only have been maintained by procuring false evidence. Still I am willing to give the widows credit for their good intentions in seeking to conciliate

the

the favor of the Rajah of Vizanagrum who has always manifested a very friendly disposition towards the family.

4. Dautla Venkatapathy Ranze held three Permanent Havaul Villages Viz.t Pola-pilly Taudetoor, and Vellunky peddy pollem, which are of course now liable to be resumed. In Polapilly he has built a very Large dwelling house Indigo factory and extensive storehouses and in consideration of the conduct of the widows, I beg leave to recommend that this Village may for the present be allowed to remain in the hands of the wid-ows, on the old rent, which is a very low one. I do not propose granting a lease for any term of years but merely from year to year.

5. The other Villages I propose to resume as they also have been rented out much below their value.

6. I take this opportunity of submitting to the Board of Revenue Copy of a proposal on the part of Mr. Young to rent three Villages

Villages including Taudetoor one of those mentioned above. It was rented to Dautla Venkatapathy Ranze for Rupees 2,020 of which he obtained a remission for Rupees 80 on account of a Mocasah land included in it leaving a net rent of Rupees 1940. Mr. Young offers Rupees 2,800 for it and the Indigo factory, which the late renter has built on the Jeroyetty land and which of course now becomes the property of the Rajah of Vizeanagrum the owner of the land.

7. With regard to the other Villages the following Statement exhibits the Jowle and Collection during the last 5 years. As Mr. Youngs proposal is some what above the latter, and as the manufacture of Indigo is advantageous both to the Government and the Zemindar, I beg leave to recommend that I may be permitted to accept of his proposal, on Mr. Young furnishing adequate Security, for the due fulfilment of his engagement.

1. Being engaged in the Manufacture of Indigo and finding it highly desirable for the better cultivation of the Indigo plant to have a certain portion of land under my own control. I am led to make the following proposals.

2. I am desirous to rent the Jeroyetty Lands and Enams Kattubadies in the Villages of Tarloor, Coradah and Dakmurry belonging to the Vizeanagram Zemindary and as my object in not to make a profit by the rent but to obtain facilities for the intended cultivation of Indigo. I am enabled to offer the following sums which will be found to be considerably above the average Collections Viz.t

For Tarloor (Rupees 2,800) Two Thousand eight hundred Rupees
For Coradah (Rupees 1,600) one Thousand six hundred
For Dakmurry (Rupees 2,600) Two Thousand six hundred
In all (Rupees 7,000) Seven thousand Rupees

which sums I will engage to pay by the following instalments Viz.t

" 15th October 2000 Two thousand "
" 15th December 2000 Two thousand "
" 15th February 1500 Fifteen hundred "

and if you consider it necessary I am prepared to give good Security for the regular payment of these instalments.

3. It would be highly desirable to enter into an engagement for a term of years but as I understand that leases of this kind are considered objectionable, I will be content to take the Villages from year to year.

4. There is an Indigo Factory &c built without authority or grant from the Circar on the Jeroyetty Lands in the Village of Tartoor which I conclude will become the temporary property of the renter, and it is on this consideration that I am induced to make so large an offer for the Village.

I have the honor to acknowledge the receipt of your letter dated 11th Ultimo, desiring certain examination of Salt Heaps to be made at the Cotaurs in this District, with reference to the falling off of the sales of Salt in the Cotaurs in the Northern part of the Nellore District. The Principal Collector of Nellore, is of opinion in respect to the Salt stored in this District, that each Heap must contain a considerable larger quantity of Salt than is shewn in the accounts.

Submitting the result of his examination into the Salt Heaps in the Cotaurs subject to his jurisdiction

2. The management of the Salt has had considerable attention from me, and I was disappointed to find that, the Board did

did not dispose of the case on the information afforded in my reports on the Extra Sources of Revenue for the last three years and on the Statements of wastage on Salt submitted for sanction. The desire of the Board "to cause several Heaps to be measured under the Superintendence of an European Officer was immediately attended to. I proceeded to the Chinna Ganjam and Pedda Ganjam Cotaurs, and selected 4 different Doddies, and a Heap in each, indiscriminately, and had the contents measured in my presence. The following exhibits the results.

Number and name of Doddy	Number of the Heap	Contents when Stored		Contentson examination		Increase or Pelson		Decrease or wastage

selected indiscriminately in four different quarters of the Ganjam Cotaurs, and the results as exhibited above, shew that there is a wastage in each Heap; thus, the opinion entertained that, "each Heap must contain a considerable larger quantity of salt than is shewn in the accounts," is proved to be untenable. Further, the report from the Salt Cotaurs, shewing the outturn of each Heap on its sale by measurement, invariably exhibits a wastage with the trifling exception noted in the Margin.

In Fusly 1247 164 Heaps containing 20 Garces each, were sold by measurement, and the wastage on these was Garces 287 - M 298 or G 9 - M 45 pr Ct.

In Fusly 1248, 182 Heaps of 20 Garces each were sold, of these, 2 Heaps without measurement. The wastage on the 180 Heaps sold by measurement, was 3 Hds - G 199 or G 1 - M 36 pr Cent.

In Fusly 1249, 263 Heaps were sold, 156 Heaps contained 10 Garces each, and 107 contained 20 Garces each, being the remaining Heaps of the stock of 20 Garce Heaps. Of the 263 Heaps sold in Fusly 1249 - 149 Heaps

Heaps were sold without measurement, and 11 Hds on measurement - the wastage on these 11 Hds Heaps, was G Mr G. M. 17 - 82 or 399 pr Cent. The wastage is less on the abovementioned quantity for the 3 years stated than in the 11 Hds Heaps lately examined in my presence. This arises partly from greater attention on the part of the measurers in filling the Mercals and partly because fresh hands were employed as the measurers became wearied. The Board are aware that, without pressing, the Mercal will not contain the full quantity of 12 Seers the labour of measuring is very considerable and it is not to be expected that the measurers will be as careful at all times as before me. Even the Mercals filled in my presence at the recent examination, fell short of the required quantity of 12 Seers. the contents of several Mercals, as filled before me, were examined and were found to contain 11¼, 11½ and 11¾ Seers. Without considerable pressing the Mercal will not contain 12 Seers. this pressing is impracticable as it demands more time, and physical exertion than can be given. The

4. The Salt is not stored with reference to its being disposed of without measurement. It is not known before hand, what Heaps will be taken without measurement. The Heaps are stored and numbered successively as required by the Salt rules.

5. It is for the advantage of the Lumbady, to take the Salt by the Heaps without measurement, so far as regards the Cotaurs of this District, as they are at present managed. The Lumbady has a confidence that the quantity to which he is entitled is contained in the Heap and he has learnt that his interests were attended to, when the old worn Mercals were repaired, and regulated according to the standard Mercals received from the Board. He is relieved from the vexatious interference which is incidental to measuring, for before the Salt is given to him, a bargain has to be struck under the system of measurement to secure good measurement. Again, after receiving his Heap, the Lumbady

Lumbady measures it with the Circar Mercals, in order to distribute the salt to his party. His measurement is very careless and the out-turn as exhibited by his measurement, accompanied with the circumstance that a reduction of Rs 5 pr Garce was made to him, convince him that he is no loser rather that he is a gainer. It is this that makes that Trader prefer a Heap without measurement, and not because an undue advantage has been held out to him.

6. In further proof that, an undue advantage is not obtained in the Cotaurs of this District, certain Lumbadies, who resorted to the Chinna Ganjam Salt Stores last year, have proceeded this year to the Nellore Cotaurs. The value of the Salt taken by the said Lumbadies is 21,763 Company's Rupees. The following shews the Particulars.

7 It is the opinion of the Principal Collector of Nellore that selling by the Heap "removes the greatest check upon over storing namely the remeasurement when the Heap is sold." This opinion would appear to be unsound. The interests of the manufacturer will always stand in the way of an excessive quantity of Salt being stored and the interests of the Trader will look to the Heap containing the quantity to which he is entitled. The interests of the two parties thus act powerfully in regulating the contents of the Heap. The manufacturers is the more powerful of the two & there is always a greater probability of the quantity stored being deficient, rather than excessive. The measurement is no test the measurer can always make the out turn to be more or less according to the orders he receives. The power of the measurers in this respect is incredible, to those who are not conversant with these details. This re-measurement confers a power on the Salt servants to make their bargain with the Trader, and it is for this reason, that the system of selling by the

Heap is objected to by him. It is most desirable that this system should be general, but its introduction depends on the character of the public Servants. The former Tanadar has been removed at his request to a land Revenue charge - the present Tanadar is Sheikhan brother of Joyerkhan the Sumeen of Innacondah. I trust the Management will be equally successful under him.

8 The Salt examined by me, the subject of this communication, was the manufacture of Fusly 1248, and is the Salt to which the objections of the Principal Collector of Nellore, have reference. The manufacture of fusly 1249 is being received into store this year. it was unnecessary to examine any Heaps of this Salt, nearly one half of this manufacture had been received into store when I was at the Cotaurs, and the remainder was being taken into store.

Para 1. It is observed that in the Statement of Salt sold in Guntoor from the 12th July to 30th September 1840 dispatches on the 30th October in the Chinna Ganjam & Cotaur eight heaps were disposed of in the quarter there referred to. The wastage on these was only 35 Mercals in the whole whereas the average wastage on each Heap now reported to have been measured by Mr Goldingham is not less than 333½ Mercals. These results are widely different.

2 It appears to the Board that upon the whole it would be more advisable to return to the practice that seems to have prevailed till recently in the Guntoor Coast of selling the Heaps by measurement to the Lumbadies. By this uniformity of system is preserved, that being the method ordinarily followed in other districts and under proper supervision it certainly affords more efficient means for checking overstoring than when the practice of selling by the Heap is chiefly followed. It is hardly necessary to notice the Statement of Lumbadies being induced

induced to frequent the Pans of one District in preference to another but it must be evident that no proper objects is attained by the enhancement of the Collection from this source at one Point by the detriment of the Revenue in another district. Uniformity of system and a fair method of selling with a standard measure will best secure the dues of Government and tend to correct the evils that unavoidably result from undue competition.

From the Coll[r] of Guntoor - Returning the Petition N[o] 283 of 1841 presented to the Board by Hoo-chebutloo Venkatasastry and forwarding copy of a deposition taken from the said individual with the necessary remarks on the subject of frauds said to have been committed in the Salt stores.

Para 1. I have the honor to acknowledge the receipt of your letter dated 18th ultimo, with Petition N[o] 283 of 1841 from Hoo-chebutloo Venkata Sastry, late Salt Nevesindah at Pairlee Cotaur, and in reply to submit copy with translation of a deposition solemnly affirmed given by this individual before me. placed before the Board in my letter dated 20th Instant, further remarks on that point are unnecessary.

2. The Petitioner is the individual who was appointed Samoodar at Goorzal in the Palnaud, on the removal of Doggy Venkiah. On that occasion, Doggy Venkiah pleaded before the Board that, it was owing to the friendship that subsisted between the Petitioner and S. Venkatakistnarow, that he (Venkiah) lost his situation, in order to provide for the other. On the present occasion, Hoo-chebuttlo Vencatasastry maintains in his Petition to the Board that enmity has subsisted for a long period between him and Venkatakistnarow. This is noticed in this place, to shew that Petitions are prepared to accomplish a certain object, and in the present case at the instigation of others, and not with reference to what is true.

3 Hoo-chebuttlo Vencatasastry was removed from Goorzal to Harempoody as he was unable to do the duties of the former station. The Ameen of Datchapilly requested his

2 Where was you service?

A At Pairlee Cotaur.

2 On what date did you arrive in that Cotaur, How many days were you absent on leave, and how long were you in the service?

A I do not consent to give deposition in answer to this question. The circumstance of frauds having been committed in the Cotaurs as mentioned in the Petition is false. I shall give in an Arzee accordingly.

2 In which Post Office did you deliver in the Petition addressed to the Board?

A I delivered it in at the Incole Post Office I myself went to Incole and having delivered the Petition returned.

2 Whose hand writing does this Petition Bear?

A I cannot recollect. some Brahmin prepared it, and gave it to me at Incole, I recollect that I caused it to be written by a Brahmin at Parchoor, and paid him 8 Dubs. Then, I carried and delivered it at Incole.

2 If there were not frauds, why have you addressed

addressed a Petition to the Board that frauds existed?

A. I have written it by stupidity.

2. You say above that you have written the Petition at the advice of some persons. At whose advice have you written it and what are their names?

A. Some travellers told me, but they are not particular persons.

2. At what Village did the travellers tell you, and what have they said.

A. Some travellers in Chinna Poolemurroo and some in Moolpoor having heard from me that I lost my situation told me that I can have my situation back, If I would give a Petition to the Board that frauds were committed as mentioned in the above Petition consequently I addressed it.

2. Chinna Poolemurroo is your native place the advice was given to you in that Village and at Moolpoor, What is the cause of your going to Purchoor, for causing the Petition to be written, and then to the Inole Post Office for its delivery instead of to the nearest Post Office at Guntoor?

A. I have done so not knowing whether

it would be received or refused in the Guntoor Post Office.

2. What made you to fear delivering it at the Guntoor Post Office, while it is customery neither to refuse nor ask the contents in the Post Office?

A. Being seized with fear I carried it to Inole.

2. Have you ever been before to Purchoor which is not subjected to this jurisdiction?

A. I have not ever been there.

2. What made you to go to Purchoor in the Nellore Zillah and get the Petition written there?

A. As Purchoor is situated on the way to Inole, I went thether and got the Petition written.

2. you have passed a large tract of the District subject to this jurisdiction situated between your native place and Purchoor, and then proceeded to Inole in the Zillah what is the cause of your passing over this portion of the District and causing the Petition to be written in Purchoor belonging to another Zillah.

As

4801 Fort St George 8th April 1841.

A. As Purchoor is situated near Incola I remained there for one day and caused the Petition to be written-

2. Have you ever been to Channa Garyam before the Petition was written?

A. I went once four years ago, I entered the Public Service, but have not ever proceeded thither since that time-

2. You stated above that you know of the frauds as you were in the service- Of what Justice Heaps do the frauds refer to- In what Doddies and in what Heaps?

A. What I do know- What can I say.

2 If you did not know how did you venture to write this Petition-

A. I wrote it through my misfortune- Must

From the Coll.r of Guntoor } Paral.

I have the honor to submit a Mogey Jabitah for the current fusly 1250 amounting to Rupees 8650-8-0, shewing a net decrease of Rupees 339-4-0

The abolition of the Layer Chowkies at Vellatoor and Collepara, has led to a decrease of Rupees 48- there is a decrease of Rupees 27 in consequence of the adminis-
-terers of Oaths being no longer required, and a decrease of Rupees 50 on account of Peons from a diminution in the number of convicts under the Collector. There is also a decrease of Rupees 214. on account of the Establishment in charge of the convicts, this charge not being included elsewhere, according to the or-
-ders of the Board. Thus, the items of real decrease are Rupees 48 for abolished Chowkies and Rupees 27 for administerers of Oaths. A modification has been made in the Mogey Jabitah, in order to provide for an increase of Salary to the Naib Sheristadar,
which

which is very inadequate, and ought never to have been reduced from its former amount of Rupees 120, and also for an increase to the Salary of the Head Sarabnevis under the Moonshee in the Land Revenue Department, from the responsibility of that situation. To effect these objects the situation of assistant under the Moonshee Rupees 7 the situation of Sale Head Sarabnevis Rupees 28, and that of the Goozoor Sayer Peshcar Rupees 35, being an agregate of Rupees 70, have been abolished, and this amount has been distributed as follows. Rupees 35 to the Nair Sheristadar, and Rupees 35 for the Head Sarabnevis in the Land Revenue Department, the former from 1st February 1841. and the latter from 17th November 1840 — 2o

3 To the situation of Nair Sheristadar, as already stated, a salary of Rupees 120 was formerly fixed, but subsequently it was reduced to 70 Rupees, since which, in consideration of the smallness

of this salary, the Pay of another situation has been added to it, as this appeared objectionable, an increase of 50 Rupees to this situation, was recommended to the Board under date 10th November 1838, but objected to. The Nair Sheristadar has been in the receipt of Rupees 105, composed of Rupees 70, the Salary of Nair Sheristadar, and Rupees 35 that of Sayer Peshcar. as this arrangement of holding 2 situations would seem objectionable, the situation of Sayer Peshcar is abolished in the Moyen Jabetah now submitted, and the Pay incorporated with that of the Nair Sheristadar from the 1st February 1841.

4. Adverting to the foregoing explanations, I beg to recommend that, the Moyin Jabitah proposed for fusly 1250 may be sanctioned.

Sir

Para 1. I have the honor to acknowledge the receipt of Extract from the Board's Proceedings of the 11th and 21st Ultimo respecting the yeomiahs of the late Abdool Hoospain Khan and Syed Meer.

2. The delay in making these applications is not attributable to the parties. As regards that of Abdool Hoospain Khan an application was received for a renewal of the yeomiah in February 1838, three months after his father's death, which was sent to the proper department in the Cutcherry for the necessary papers to enable me to judge of the case. There it seems to have remained

remained unnoticed till the commencement of my enquiries into the abuses in the Yeomiah Department in August 1838. and as that enquiry threw so much suspicion upon Yeomiah matters generally, it necessarily prevented this case as also others being taken up. The enquiry was not completed till towards the close of 1839 - The subsequent delay is attributable to neglect to my Cutcherry Servants who allowed the papers to remain unnoticed till upon a Petition from the party in September I had them brought up, enquired into and disposed of by a reference to the Board -

3. The yeomiah enjoyed by Syed Meer was for service at a Mosque, and a few days after his death, an application was received from Bannoobee for a renewal of the Yeomiah and she has presented several Petitions since, which, from the same causes as occasioned the delay in the disposal of the case

case of Abdoob Hoossain Khan, has not been submitted at an earlier period to the Board. I have taken such notice of the neglect on the part of my servants as will I trust prevent a recurrence of such delays -

was reported in Mr. Stonhouse's letter of
the 1st December last to have occurred
on the 13th November 1837. He was in the en-
joyment of a subsistence allowance of
Rupees 15 per mensem and left a family of
a Son and two Daughters in indigent cir-
cumstances. The Principal Collector states
that he considers them fit objects for the
bounty of Government and recommends that
a reduced Yeomiah of 10 Rupees per Month
be continued in the name of Abdul
Mohomed Cawn from the date of the death
of his father.

3. As it has been generally the practice
to renew at a reduced scale the allow-
ances of deceased pensioners to their families
and as the class of Mussulmen Yeomeah-
dars in Nellore is known to be extremely
indigent, the Board of Revenue desire me
to recommend for indulgent consideration Mr. Stonhouse's
suggestion, on the distinct understanding that the grant
shall altogether lapse on the death of Abdul
Mahomed

Mahomed Cawn.

4. The other case referred to in the
Papers now submitted is that of Syed Meer
a Service Yeomiahdar in the mosque of
Runganaickpett who for his duties received
an allowance of Rupees 4-11- per mensem.
This person died on the 12th December 1837
and Mr. Stonhouse recommends the grant
be continued in the name of the eldest
Son Syed Hoosein from the date of his
father's demise, the service in the mosque
continuing to be performed by a member of
the family.

5. The Board of Revenue recom-
mend this arrangement for sanction. The
Right Honorable the Governor in Council
will observe from the Principal Collector's

From the Collr. of Chingleput — Sir,

Reporting on the subject of Petition Number 271 of 1841 from Soondara Moodelly requesting that certain waste lands may be given to him to Cultivate.

Para 1 With reference to the Endorsement on Petition No. 271 of 1841 from Soondara Moodely, I have the honor to report for the information of the Board of Revenue that under date the 28th October 1840 the Petitioner presented to me a proposal to Cultivate 40 Cawnies of waste land lying on the North side of Valoovadoor in the Chingleput Talook, on the 20th November his son Umbalavana Moodely together with another person named Saumyanada Moodely tendered a Second proposal to the Head Assistant Collector for 10 Cawnies situated on the same direction, and the Petitioner on the 21st December presented likewise to that Officer, a further proposal for 110 Cawnies on the South side of the Village, making in all Cawnies 160.

On receipt of the first Durkast on

Fort St George 8th April 1841

an order was sent to the Tahsildar under date the 9th November calling upon him to report whether there was any objection to grant a boule for the Lands therein specified In the report received from the Tahsildar on the subject under date the 2d December he states that the land included within the limits mentioned was found to comprise only 20 Cawnies of which a portion was Sheigal but that the whole had been previous to his arrival at the Village ploughed and prepared for seed by the Merasdars I therefore requested the Head Assistant Collector in whose charge that Taluck is situated to suffer the lands to remain in the possession of the Merasdars but to collect from them the full Teerwa without Cowle remissions

3 In regard to the 10 Cawnies alluded to in the next proposal the Land was found to be included in an Area of 30 Cs for which a separate Durkast had been delivered by a relation of the Merasdars to the Tillahdar 2 or 3 days prior to the date of the proposal

Fort St George 8th April 1841

proposal of the Petitioners son The land therefore could not be granted to him

4 With regard to the last proposal the Merasdars came forward on the 11th December, 10 Days prior to the last proposal of the Petitioner, and stated that his proposals originated solely in a private feud, that he was not an Inhabitant of their Village and that they were unwilling, any of the land in it should be given to him, as it would only give rise to future dissensions and ultimate loss to all parties, and they offered to execute an engagement binding themselves to bring the whole of the lands as yet waste, under the plough within three years. The Statement of the Merasdars on enquiry appearing correct, and they having already extended the cultivation of their Village and possessing the means of fulfilling the engagements they proposed entering into, I did not consider it expedient to give the land to the Petitioner

To the Chief Secty to Government

Submitting information called for in regard to the state of certain Agraharum Villages in the Salem District, and recommending that authority may be granted for writing off the irrecoverable balances outstanding against them, amounting in the aggregate to Rs 11901-15-2.

Sir,

Para 1 I am directed by the Board of Revenue to request that you will submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter from the Principal Collector of Salem, containing certain information in regard to the state of the Agraharum Villages in that District called for by the Board with reference to the orders of Government conveyed in an Extract from the Minutes of Consultation dated the 24th March 1838.

In the Extract from the Minutes of Consultation above alluded to it was observed with reference to a recommendation by the Board that certain Agraharums which had fallen in arrear to Government should be resumed and incorporated with the Aumanee lands that as the arrears in question would appear to have been

been occasioned by the Jodigee or quit rent having been originally too high it would be but equitable that it should be reduced and the Board were desired to reconsider the subject and report "whether any inconvenience is likely to "result from resuming the Villages and granting "a Money allowance to the proprietors "in the manner proposed by the then "Principal Collector" - A further report was accordingly called for regarding the state of Cultivation and outturn in the Seven Agraharums which formed the subject of the first reference to the Board during any former years that they or any of them might have been under Amanie as well as of such shares of those Villages as had lapsed to Government and been managed entirely distinct from the rest in the same manner as the other Amanie lands in the District - The Principal Collector was desired also to state whether

whether the Jodigee fixed on the other Agraharum Villages in the District, in which no balance had accrued was greater than that fixed on the seven Villages under discussion or whether any other circumstances had operated to enable them to discharge the dues of Government -

3.

From the information contained in the report now submitted, as regards the 7 Agraharums attached for arrears of Jodigee, the names of which are entered in the Margin, there appears no reason to doubt but that the assessment upon them was fixed in the first instance at a disproportionately high rate - The deterioration in the cultivation of these Villages shewn by the Memorandum Annexed to Paras 3 and 4 to have occurred between the period Fusly 1205 anterior to the Assessment of the Last rent and the 5 years preceding their attachment, is

5. Under the circumstances represented above and adverting to sentiments expressed in a letter from the Honorable Court of Directors, an Extract from which was forwarded to the Board under date the 16th February last, the Board would recommend that sanction be granted for writing off the balance now outstanding on the Agrahars under Zuft amounting as above stated to Rupees 9956-7-2 and that the Principal Collector be authorized to take the Villages under Amanie management on account of Government making an allowance in money to the Agrahara-
-dars for their subsistence equal to 1/3d of the Net Collections as suggested by him.

In Cons. 25th July 1841.

Para 13. 6. With regard to the remaining Agraharum Villages in the District 142 in number, the Principal Collector observes that "the best proof that the holders are "better off than those of the Villages under "Zuft is their being able to retain their "holdings profitably." The fact of these Vil-
-lages, with three exceptions which will be noticed immediately, being free from Arrears notwithstanding sums of them are more highly assessed than those under Zuft is attributed to their having Channels of irrigation from the Cavery in consequence of which the profits are generally greater and more certain than in Villages in which the Lands are dependant on tanks for their supply of water.

7. The three Jaeed Agraharums on which there are balances of Lodigy still outstanding are Iremulamoodrum, Sirkalay & Natamungalum the Arrears due on which amount to the sums noted in the Margin. The Balance of Rupees 664 due on account of the Village of Iremulamoodrum.

Iremulamoodrum	664-0-0
Sirkalay	1799-12-0
Natamungalum	145-12-0

Fort St George 8th April 1841.

From the Sub Collector the Principal Collector states will be recovered in full, but the Arrears upon the other two Villages are represented to be irrecoverable the Amount due on Sriculay having accrued in consequence of the bursting of a Tank in Fusly 1228, the repairs of which were estimated at Rupees 14,781 of which Rupees 2595-14-3 was the share to be defrayed by the Agraharundars, and which they have never been able to disburse in consequence of this, it appears that the Mottadar in whose possession the Agraharum was in Fusly 1228 when the Tank burst, made an annual remission of Rupees 381-8-. and the sum now standing as a balance Viz.t Rupees 1799-12-. is the Amount of the annual Deficit which has occurred since the Mottah came under Amanid management, calculated at Rupees 354-9-. per Annum & which under the circumstances above set forth is recommended for remission-

8- The balance due on the remaining

Fort St George 8th April 1841

remaining Village Nattamungalum Amounts to Rupees 145-12-. being the Amount due from Fusly 1241 to 1245 inclusive, by the holder of a 3/16th share of the Village, who absconded in Fusly 1241 and is reported to have since died, & his family are supposed to be living at Seringapatam- the Land relinquished by him was brought under cultivation again in Fusly 1246- As the family of the late share holder is represented to be unable in consequence of their poverty to make good the balance it is recommended that it may be written off-

9- The total Amount of remission for which the sanction of Government is recommended in the letter now submitted is as follows.

Balance due on 7 Agraharums Rupees	9,956-7-2
Do. on the Jaury Village of Sirkalay	1799-12-.
Do. on Nattamungalum	145-12-.

From the Pr. Coll.r of Tanjore. Sir,

I have the honor to enclose Copies of a correspondence with the Collector of Trichinopoly on the subject of a boundary dispute between the Villagers of Coviladi in this and Kelliacoody in the Trichinopoly District.

It is difficult to say when and how this plot of ground which evidently must have belonged originally to these District fell into the possession of the Villagers of Killiacoody in Trichinopoly. It is as the Board will observe by the Plan enclosed on the Tanjore side of the Collerom river and it is also the only patch of Land not belonging to Tanjore East of the Grand Annicut, and the only reason that can be given for its having fallen into the hands of the Killiacoody Meerasdars is the supineness of the Coviladi Meerasdars in allowing them

Fort St. George 8th April 1841.

them in the first instance quietly to take possession of it at a time when it was not considered of any Value, or when the possession of it imposed on the owners attention, to repairs of the Cavery bank near the Annicut, or perhaps frequent calls by the Revenue authorities of that day for labor at the Annicut itself, both of which the Inhabitants of Killiacoody were able to escape by residing beyond the Jurisdiction of Tanjore. The Land is however included in the Survey accounts of this District as well as in those of Trichinopoly. It is not intended to deprive the present possessors of it, but merely to retrain for the Revenue authority to Tanjore so that the river may be as it naturally should be the boundary of the two Districts Mr. Onslow who has as well as myself inspected the place approves of the transfer, but having doubts of the propriety of finally making it

it without the sanction of the Board, has suggested that I should represent the case and request authority for the measure, to which there appears no reasonable objection.

2.— The Government will be aware from the letters noted in the margin that Rama Rau was summoned to Madras in August 1837 to officiate temporarily as deputy Serishtadar in the Revenue Board Office, the purpose for which his services were required having been accomplished he was ordered to return to his station in April 1840, as stated in Para 34 of the Board's proceedings dated

3. —— The Board cannot of course entertain the claim of 100 Rupees advanced by Ram Rau as the amount of expence to which he was put in coming to and returning from Madras, but they think that he is fairly entitled to the sum amount of travelling batta which he would have drawn under existing Rules in attendance on the sub Collector on circuit in his own district, the amount of which allowing him 40 days for his Journey to Madras and the same for his return would be Rupees 74 — 10 — 8 — for which the Board recommend the sanction of Government may be granted. —

Read the following letter from the Acting Collector of Coimbatore

Submits explanation on the subject of the remuneration made to Taliarries in his District.

To the Secretary to the
Board of Revenue
Fort St. George.

66

Sir,

Para 1. — With reference to your letter dated 9th May 1839 requiring explanation on the subject of the remuneration made to Taliarries in this District, I have the honor to state for the information of the Board, that the amount of remuneration granted to persons denominated Taliarries, by Land holders and by individuals paying Melurpha tay was not determined by the Government. In fasly 1214 or 1804 / 5 / accounts were prepared in the Talook of Dattimungalum, and in some other Talooks, shewing for a few villages, and in the lands of some Ryots in each, the gross produce, the charges of cultivation, and the profits to the Ryots on an average of five years. These accounts would appear not to have been

been intended to show the date on which the survey assessment was fixed; but the process, and principle by which it was paid. In these accounts a deduction is made from the gross produce on account of the remuneration of several villages servants, including Taliarries. This deduction corresponds with that shewn in the Memorandum prepared by direction of Colonel Munro, with reference to the agricultural process carried on in the Taluk of Sattimungalum, was received with the Extract from the Proceedings of the Board, bearing date 5th December 1839.

2.— The remuneration to Taliarries is not paid by all Ryots, nor is it restricted to Ryots paying land rent to Government. It is also paid by parties charged with Nunjah or Garden a Taliarry is not employed in every village separately. In some villages there are

are from one to four Taliarries; and in some instances, one Taliarry receives his fees from ten different villages.

3.— The Total number of Villages in this District amounts to 1571 — in 992 villages remuneration is paid to Taliarries in grain, in money, and in sheep; and is more or less every year according to the will of the parties by whom the donation is made. In 579 villages no Taliarry whatever is employed. Under these circumstances it will appear to the Board, that the payment granted to Taliarries, is neither obligatory or general and being indefinite both with respect to Taliarries, and to Cultivators, to whom it will be observed a remuneration is also made for services rendered, particularly in garden culture, it cannot be expected that the Ryots will consent that the amount of remuneration which according to circumstances they

Sir,

Para 1. I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue dated 11th February 1841. transmitting copies of the Extract from the Minutes of consultation bearing date the 9th January last, and of the Papers which accompanied it, and requiring me to report my sentiments on the expediency and advantages that may be expected to result from the introduction of further supplies of Merino Rams and Ewes to cross the Breed, with the native Sheep of the Country, and also what success has attended the experiment as far as it has been already attempted

attempted in this District.—

2.— On a consideration of this subject, I am of opinion that any experiment for the improvement of the breed of sheep in this Province with a view to produce wool of such texture as shall be fit for the Market, will not be attended with success and solely on account of the heat in ordinary seasons, which would render it necessary to shear the flocks at least twice in the year and with the utmost care, the fleeces could not attain that length, fineness and general quality which are essential in any attempt to raise a valuable description of wool.—

3.— Of the [35] thirty five sheep received from Ofsoor in July 1839 with reference to the Extract from the Minutes of

of Consultation dated 16th July 1839 which accompanied the Board's Proceedings of the 25th of the same month, five died on the road. Eighteen have since died in the hands of the Ryots. Twelve remain, and the produce is only two lambs. The eyes of nine heat is stated to be the cause of the casualties which have occurred in this flock.—

70 From the Collr of Coimbatore } Sir, Para 1.— I have the honor to acknowledge the receipt of the Petition from Calapully Soobbiah bearing the endorsement of the Board of Revenue dated 6th August 1840.

2.— In my letter to the Board dated 27th February 1833 reporting the removal of Calapully Soobbiah from the Office of

Fort St. George 8th April 1841.

of Sheristadar in the sub Collector's Division for incapacity to transact the duties required of him. I had the honor to state that I had nothing to urge against the character of Soobiah. He had never been employed in a higher grade than that of Sarabrenavees previous to his appointment as sheristadar, and I proposed to place him in charge of a Talooke, if he was not unwilling to undertake the duties of a Tahsildar. The Board of Revenue will observe that the Petitioner was unwilling to become a Tahsildar in consideration, as he has stated, of the rank to which he had been advanced compared with that of a Tahsildar. He desired a pension, which under the Rules, he could not claim, a period of seven years had since passed, and with his years his infirmities are stated by the Petitioner to have increased.

Fort St. George 8th April 1841.

The consideration of rank has not deterred Trimulraw, who was sheristadar in the sub Collector's Division from rendering services to the Government as Tahsildar, which Office he now holds in this District, and the length of the services of the Petitioner affords I think grounds to believe that in charge of a Talook his services might still have been useful. He however preferred a pension rather than being a Tahsildar if it could be granted to him under the circumstances I do not feel myself authorized to recommend in reference to the Pension Rules, that the Petition of Calapully Soobiah may be complied with.

of Sheristadar in the sub Collector's Division for incapacity to transact the duties required of him. I had the honor to state that I had nothing to urge against the character of Soobiah. He had never been employed in a higher grade than that of Savabrevis previous to his appointment as Sheristadar, and I proposed to place him in charge of a Talooke, if he was not unwilling to undertake the duties of a Tahsildar. The Board of Revenue will observe that the Petitioner was unwilling to become a Tahsildar in consideration, as he has stated, of the rank to which he had been advanced compared with that of a Tahsildar. He desired a pension, which under the Rules, he could not claim, a period of seven years had since passed, and with his years his infirmities are stated by the Petitioner to have increased.

Where

there

these latter operations duly attended to, there can be no doubt that an increased quantity of Teak of large size and good quality would be obtained, and a succession of young trees secured. Unfortunately the Natives universally are extremely averse to cut down Trees of any value except with a view to immediate profit. It is therefore most desirable on this account, that the forests should be placed as is proposed, under the superintendence of a European as Sub Conservator, who will of course be selected for his knowledge and experience in the management of forest Trees.

6. Another duty of the Sub Conservator will be the guarding against injury to the Teak Forests from fire which at present, it is to be feared, destroys annually much of

of valuable Timber. This sometimes happens from the Forests igniting spontaneously and also from the grass being accidentally fired by Travellers, but more frequently by the firing of the Jungle by the Ryots for the sake of the growth of the grass for grazing Cattle, and clearing the hills for the Cumeri or Dry cultivation. Orders have already been given by me to the Tahsildars to prevent the firing of the Jungles in the neighbourhood of the Teak trees, but the object might be more effectually attained by stationing some of the Conservator's Department at the season for firing the grass and Jungle, in those situations where the Teak Timber is most exposed to danger from fire.

2.

The above mentioned individual is recommended by Mr. Blair as the fittest person he had been able to find, for the situation of Sub Conservator, and although he is represented as possessing, as might be expected, little or no knowledge of the Culture and management of young trees, there appears no reason to doubt that he is fully competent to perform the duties which will be required of him whilst in temporary charge of the Canara Forests, the particulars of which are laid down in the 5th and following Paras

The examination by the Government Officers shewed that the planks measured considerably more than the Owner had stated, and as it was believed that an attempt had been made to defraud the Government Revenue, it was recommended that this excess should be confiscated.-

Stating that the American Cotton Planters under his superintendence have been located in a House in the Fort of Palamcottah since the 15th January last at a rent of 15 Rupees a Month, and that owing to the non receipt of any definite instructions from the Board no employment of any importance has as yet been assigned to them.

Sir,

Para 1. In reply to your letter of the 25th Instant, I have the honor for the information of the Board of Revenue to acquaint you, that the American Cotton Planters under my superintendence have been located in a House in the Fort of Palamcottah, since the 15th of January last, at a rent of 15 Rupees a Month, and that owing to the non receipt of any definite instructions from the Board, no employment of any importance has as yet been assigned to them. -

On my arrival in the District I immediately placed myself in communication with the Acting Collector to ascertain what had been done by that Officer in rendering the services of the Planters immediately available, as also to inform myself of the Board's orders in regard to their future employment. -

6. On the return of the Planters the report of this experiment I regret to say was not unfavorable. On the view of the fields pointed out by the Cultivators to the Planters, they in the first instance informed themselves of the system in use with the Natives in gathering the Crop, which being defective in every particular, the Americans proceeded to rectify, by instructing the Cultivators in the method of picking the cotton practised in America. but which, although they acknowledged its vast superiority to their own the Cultivators at once declared their inability to adopt by reason of the greater trouble and greater expense attending its operation, unless the Government would purchase the cotton as produced at a fixed valuation, which if impracticable, they the Cultivators

Cultivators said that they desired the introduction of no new method of Cotton Cultivation or use of American seed which they decline to use.

7th From enquiries I have since made, I fear these sentiments are very general among the cotton growers of the District, and that it will be vain to expect any beneficial result to the Cotton cultivation of the Country from the skill and knowledge of the Planters until they are trained on Land entirely and from the commencement under their own Management.-

This statement shews the produce of 9-18-18 as the produce of refined from Candies 26-4-6 of crude, or about 38½ per cent whilst the average of the whole results only 53½ per Cent, the rate adopted by the Board being equal to 66⅔ per Centum of refined in comparison to the crude.-

Under these circumstances, a further modification of the Tariff & Regulations we hope may not be deemed unwarranted.

In conclusion we are happy to say that the Reports upon the quality of our first

Fort St. George 8th April 1841

first shipment to London last year, is highly favorable. the Saltpetre being the best ever imported from Madras, but notwithstanding that, the price obtained was very high owing to the extraordinary demand then current in Europe, it yet barely pays its cost.

This may in part we hope be remedied by the present revision of the Tariff, but there is one circumstance, which we are unable to account for, and to which we would beg to call the attention of the Board, and that is the apparently serious decrease of late years in the annual produce of Saltpetre in the districts before named. With an expensive establishment this is a point of no small moment, as our object of course must be to refine as large a quantity as possible and thereby reduce its cost.

Relative to the Management of the Extra Sources of Revenue in the District of Coimbatore for fusly 1249—

/ Here enter 2 2d February 1841 No 85 /

Para 1.

The total Demand for fusly 1249

1249 amounted to 3,17,758 Rupees, falling short of the Demand for the previous year by 698 Rupees only—

Net Revenue— 1248 - 306522.
1249 - 302827.
3695.

2

The Net Revenue however exhibits in comparison with fusly 1248 a decrease of Rupees 3,695.

3.

This decrease was occasioned partly by there having been less arrears to collect than in Fusly 1248, partly by diminished demand and fall in price of Sandalwood, and partly by there being no sale of Elephants within the Fusly—

Old arrears Collected in	1248 -	3951.
	1249 -	657.
		3294
Sandal wood Sales	1248 -	33943.
	1249 -	24,259.
Decrease—		9,683.

4.

The total Decrease in the "Current Collections" amounted only to 668 Rupees, the falling off in the items above alluded to being nearly compensated by an Increase under the Heads of Sayer and Abkarry Rents—

	Net Revenue. 1248 -	1249.	Increase.
Sayer —	1,45,102.	1,52,375.	4,273.
Abkarry —	39,235.	41,601.	2,366—

5

The Increase in the Sayer was Chiefly in the Betel and Tobacco Rents, and the Collections on account of Tobacco supplied to the Governments of Travancore and Cochin,

of

of the Total Demand 3,16,89, Rupees-537 Rupees only were outstanding at the date of the Report. This small sum is the balance of arrears under the Head of Moturpha, and was then under adjustment.—

If your Court will perceive that endorsement, it will be very clear that the Collector refused to give copies of the Documents required by me, because they are substantial ones for my case, that he sent only 4 Original Documents but not the other 11 consisting of

I beg leave to observe that the said Padmanabaranje was a minor of 6 years old up to the year 1804, but not a qualified person, nor has he dismissed me from my office. If your Court will perceive the Extract from the Proceedings of the Zillah Court of Rajahmundry Dated 6th August 1806 passed in reply to my joint Curnum Packerlah Padmaranje's Arzee) which I had filed as a Document in this case, as well as the 4 documents of Fasli 1197, 1208 and 1211, forming those said to have been sent from the Collector's Office, and bearing the official signatures of myself and my joint Curnum, the said Padmaranje, it will be proved solely by the said order or Proceedings of the Court, that the List of the year 1804 was not approved. The Decision of the Zillah Judge also signifies that the said List is not a regular one. With regard to the observation in the Decision of the Judge that

In reply to the above, the Collector begs leave to state, that the Appellant conducted the duties of Curnum from July 1197 to July 1211, when he abandoned that duty himself, and his paternal uncle's son Packerlah China Sarabharauje, was in consequence obliged to be appointed in his place by the then Proprietor, according to the power vested in him under the existing Regulations. The said China Sarabharauje having died on 26th September 1835, his son Bramanah was admitted to succeed him, by Mr. Dumergue, who as Head Assistant Collector then in charge of the District was an Agent for the Court of Wards also in charge of the Pillapoor Jemindary, to which the said Village of Covoor was attached. From the Collr. of Chingleput

Para 1. I have the honor to request you will lay before the Board of Revenue the accompanying Petition to my address from certain Native Merchants of Madras with whom also I have had an interview on the subject. They have stated to me that they are prevented entering into the speculation of exporting Salt to Calcutta by the clause lately introduced into the advertisement requiring them to enter into an engagement that "in the event of a Cargo turning out less than the quantity noted in the Madras Certificate, it shall be at the option of the Board of Customs, Salt and Opium in Calcutta to make a deduction from the freight at the rate of 1 Rupee for each maund so deficient," more particularly as no allowance is hereafter to be made for wastage.

Proposing certain alterations in the terms of the advertisement published regarding the Exportation of Salt to Calcutta.

2 The Board of Customs, Salt and Opium in Calcutta in their letter to the Governor General of the 10th November 1840 merely express a desire that the condition in question should be introduced, if found practicable, by the

authorities

authorities at Fort S.t George with the object I believe of preventing persons engaged in the Trade illicitly and clandestinely disposing of a portion of their cargoes, but as the restriction is lookg so materially to impede the exportation of Salt that not one single Maund has yet been shipped, whilst it appears also not well calculated to meet the object in view, because the persons engaged in the trade might if an opportunity offered as easily dispose of their whole Cargo as any material portion of it bulky an article. I would take the liberty of suggesting the recession of the clause in question.—

3.— Another point the merchants have urged is the necessity from the lateness of the season of extending the period for the exportation of Salt to Calcutta from the end of May to the end of June, which point also might, I think, be conceded.—

4.— Should these suggestions meet with the sanction of the Board and Government it would be advisable that the alteration in the terms of the advertisement be notified in the Gazette as early as practicable.—

Collector of Chingleput.

Sir,

We the undermentioned Merchants residing at Madras with due deference and respect humbly beg leave to bring to your favorable consideration the following case, under the impression that it will meet with its redress, that in pursuance to the advertisement published in the Fort S.t George Gazette dated the 19.th January 1841 "that the Salt for exportation to Calcutta, on British or Native Bottoms, is required to be imported in Bengal by the 20.th May next and that it will be supplied at the rate of Rupees 35/ Thirty five per 100 Bengal Maunds and received at the rate of 65/ Sixty five Rupees on delivery at the Sulkea Gollahs, at an even scale, without any allowance for wastage and that the parties engaging in the exportation of the above supply will be required to enter into an engagement

to

to the effect, that in the event of a Cargo turning out less than the quantity noted in the Madras Certificate, it shall be at the option of the Board of Customs, Salt and Opium, in Calcutta to make a deduction from the freight of one Rupee for each Maund so deficient. We beg leave to state that it was always Custom and we were in the habit of exporting the Salts at the rate of 35 Rupees per Garce of 120 Maunds and that we should receive ab.t 72 Sicca Rupees per 100 Bengal Maunds on delivery at Calcutta and in case of any deficiency found, we are allowed to pay at 33 Rupees per 100 Maunds as valuable at Madras, without fixing any limited time for the delivery of such articles but the Government being by the advertisement above referred to allowed no wastage, which if we agreed to accede by entering into an agreement we will without doubt sustain a great loss by exsudation, the articles being to be exported on Sea and in the event of happening any damage

damage to the Vessels, it will then be required to land the Cargo in order to make the necessary repair and to re-export the articles on which occasion there will be undoubtedly deficiency found as the Salt being of the watery nature.

We humbly therefore request your Honor will be highly pleased to accede to us to pay at 35 Rupees per 100 Maunds of Salt in case any deficiency found as above stated agreeably to the former Rules and without any limitations for Consignment and delivery of the goods.

The various Goods which are exported from Calcutta on English and Native Vessels and if delivered more or less than 2½ Maunds per 100 we will receive the price at the Market rate at Calcutta for the deficiency. The deficiency is found from the quantity of Salt from the Salt Collars where the Salt is heaped up which is perfectly aware to your kind notice as well as to the

Merchants

Merchants in general.

From the former rate allowed to us and of the present rate we are to sustain the loss of 11 and odd Company's Rupees between the rate of Sicca and Company's Rupees. Consequently the Merchants are considering the inconvenience for such loss in undertaking the exportation of Salt. The Merchants at Masulipatam Vizagapatam and Coringa as well as the Merchants at Madras are waiting here for the purpose of exporting the Salt there to get considerable profit in the various kinds of articles. We therefore humbly entreat your Honor will be pleased to grand us a speedy redress to our prayers above alluded to, as we will incur a great loss should we not be favored with speedy redress on the above subjected.

Proceedings thereon.

(14-15)

Under the circumstances represented in the foregoing Communication the Board think that it would be inexpedient to insist on the conditions specified in

the 2d Para of the Salt Advertisement bearing date the 11th January 1841; and they resolve accordingly that this Para be omitted for the future.

With reference to the 5th Para of the letter from the Board of Customs Salt and Opium dated the 10 November 1840, the Board do not consider themselves at liberty to extend the period for the exportation of Salt to Calcutta from the 20th May to the end of June.

The Sub Collector has the honor to return Petition No. 194 of 1841 together with the Proceedings in the case of Peer Sahib late Armor of Tyagavully who was dismissed for penalties for having false and fraudulent accounts and giving a Rowannah with a false entry &c.

The Sub Collector considers it unnecessary to enter into the details of documents herewith sent, as his guilt will clearly appear on their perusal by any unbiased person.

With regard to the character under the Principal Collectors Memorandum dated 2d March belonging to Peer Sahib the Sub Collector begs to state, there is none of them worth a straw, as they merely state he made himself useful in furnishing troops with supplies.

When the said Peer Sahib performed the duties of Police Armen at Port Nove he got himself embroiled with the inhabitants so much so that from the numerous Complaints preferred against him, his removal was found necessary - shortly after his Appointment

Dated 30th Sept. 1820.

The "fatal fever" as Mr. Vaughan expresses it in a letter to the Board some years ago, acts as an incubus to almost all improvement, and it is no wonder therefore that this Taluck is below the rest of Malabar in wealth and general advance. I am not aware of any particular fiscal rule which should prevent its arriving at as much prosperity as it is capable of. The people are very lightly assessed — they are exempted from one of the taxes which presses most heavily on their fellow subjects of Malabar proper, that of Tobacco, and are otherwise I think as freed from any real grievances or obstacles to improvement, as any people can well be.

3 Mr. Baber has been as I trust greatly misinformed on the subject of the Police of Wynaad. He speaks in a loose way of the number of Murders that have been committed without any

any discovery being made of the perpetrators. So far as my records enable me to judge there is but one Murder of this description which occurred about a Month ago, and which I have every hope of tracing out —

4 Mr. Baber has dwelt at some length on subjects which seem to be very irrelevant to the matter in question, and I do not think the Board would wish me to take this opportunity of entering into any discussion on the views advanced by that Gentleman.

5 I may mention in conclusion, that this Correspondence commenced I presume from a suggestion which I made to Mr. Baber personally to offer to rent the Cardamom Farm of Wynaad which as the Board are aware, is put up for sale every year.

Sir

Para 1. Pursuant to the provisions of the Law as enacted in the Concluding part of Clause 81 Cap: 86 of the 3 and 4 year of William the Fourth, I have now the honor to report that I took up my abode in my House at Tellichery in the Month of October 1839, for the purpose of Settling forwards an only remaining Son, born in this Country, as a Planter and Merchant, and that I have accordingly Sd. acquired in his name and for his use, and such his Gentlemen as may be Co=partners with him, several tracts of uncultivated and unappropriated Forest land, with which the Country both above and below the Great Mountains abounds especially here at Peria and Wynaad &c.

4943 Fort St. George 12th April 1841.

2. I have also to report that I have embarked in Trade on my Sons account chiefly in the article of Cardamoms, my Speculations in which unfortunately have been attended hitherto with Considerable loss from several Causes, but Chiefly the great fall in the price, the heavy Government duties and other Custom House charges and the last not least, the mismanagement of my Bombay Agents and hence it was that I was induced to join the Principal Native Dealers, in making the tender conveyed to you in my letter dated the 28th January for the current years' Cardamom Farm.

3 As however it would appear to be the wish of Government to let the Cardamom Farm for a term of years. I should have no objection to take it for a period of three, four, or five years, provided that the rate of

of division of the Crop be so regulated as to prevent all grounds for reasonable Complaint on the part of the Proprietors or actual occupants of the Wells, and so that effectual means are taken to check Collusive dealings between them, and especially the Coorchers and Radars, and the Smugglers who Swarm in those parts of Wynaad during the Cardamom Season, and which can only be done by the Strongest disposition of the local Authorities. Revenue and Police, to co-operate Zealously with the Farmer and his Agents.

4 Did it Suit the Policy of Government to extend the farming System to the Land, as well as the Sayer Revenue, this object would be at once attained, and Considering this question in all its bearings on the present and hitherto State of that peculiar

peculiar Country, there can Imagine, be little doubt that such a mode of administering the Revenue and Police thereof, if Committed to the charge of a European Gentleman of great experience, established Character and tried integrity, holds out advantages which are not likely to be realized, where the interests of Government and their Subjects are more or less in the hands of a Native Functionary, as must be apparent from the little progress hitherto made in reclaiming waste lands, improving the Communication so as to enable the Police to act with efficiency - or the Ryots to carry their produce to the nearest Markets, both above and below the Ghats, with the least possible escpence and delay, and in a word, in ameliarating the condition of that uncivilized, and I fear, still disaffected, portion of our Malabar Subjects - as would appear from the Number

that period of life when rest is usually
sought for and indeed needed by most
men, specially those who have devoted
their best energies as I have, nearly a
period of forty years to the Public weal,
I am happy to say that my Constitution
has so far survived the ravages of time,
and an Indian Climate, as to make me
feel the want of nothing but the
buoyancy and elasticity of my younger
years - and therefore it is that I feel myself
sufficiently bold to make the tender of my
services to Government in Capacity of a Revenue
Farmer of the Salooks of Wynaad, for
a term of not less than five years, on
such terms as may be considered commensurate
with

with so difficult and hazardous an under-
taking, in a Climate so unfavorable to
human life, as experience has proved it -
provided, that is, that I am vested with
the full powers of an Aumanee Manager
and that it be quite discretional with
me to select the agents I may employ,
European or Native, to assist me, so that
the aggregate of the present charges fixed
and Contingent, be not exceeded engaging
on my part that the Civil rights,
privileges and usages be continued to the
people under the same remedies - methods
of suit and penalties as the law has
provided, and that the full dues of
Government be realized, and duly
accounted for under such rules and
limitations as may be laid down for
my guidance, under the authority of the Bd of Revenue

6 Should the Right Honble
the Governor in Council assent to this latter
proposal, the only stipulation I would ask
is that I be not required to enforce
Contracts

Contracts of sale and transfer of Slaves
even tho' sanctioned by the Decrees of our
Courts of Judicature, considering all such
acts in Contravention of a positive Law
since at least act 57 Geo. III Cap. 23 was
erected into a Regulation [III of 1826] by
the Government of Fort St. George, which
Law is declared to be the offence of &
Carrying away or removing from any Country
or place whatsoever any person or persons
as a Slave or Slaves for the purpose
of being sold or dealt with as a Slave
or Slaves and which applies in the
opinion of the Honble Company's legal
advisers, to all persons residing within
the Kings or Company's Territories. It
follows then that all interference on
the part of the Courts and Cutcherries
in the restoration of Slaves to those,
who may call themselves their Masters, is
a direct infraction of the above quoted
Law, and on the same principle, I am

of opinion, it is the bounden duty of
a Magistrate to liberate Slaves, who
Complain of being forcibly kept in
their Master's Service - It has ever been
the first and dearest wish of my heart
to wipe away this stain upon our
Country's name and Character, and I trust,
I have successfully Combated the injurious
doctrine as maintained by the advocates
of Malabar Slavery, that it is not in
the power of man to alter the Slave's
relative Station in Society - and that
once a Slave always a Slave, may be
Considered a Motto to be prefixed to
the Subject of Slavery. Even admitting
that Slaves are a Caste, are they, any
more than the numerous Castes and
Sub divisions of Castes, to be deprived
of the Common rights of Mankind? there

Sir;

I had the honor to receive your letter of the 9th instant, just as I was setting out for this place where my presence was called for in order to arrange some impediments thrown in the way of a Plantation, I had set on foot on a spot of waste land by the branch of the Paria Nair family called Vaddakkedam, or I would have answered it sooner. You have requested me to be more explicit in regard to my intentions by my offer to take upon myself the management, or executive administration of this remote and insulated Taluk from the rest of your extensive charge, in reference to the novelty of my proposal in this part of India.

2 In my letter in question you will have observed that my proposal arose out of the practice long obtaining in Wynaad, of farming out the Sayer Revenues, and of the belief in the advantages of carrying out the same mode, or at least principle of managing the Land Revenue as far as regarded a separate European agency which the low ebb of its

its Fiscal and Police administration for many years past, seemed so urgently to call for, and as it seemed to be your wish that I should take upon myself the Cardamom Revenue Farm for a period of years, I so far responded thereto as to offer to devote the few remaining years of active life, since I had taken up my permanent abode in Malabar (as long at least as my presence could benefit an only & remaining Son, who has selected the Profession of a Coffee Planter in the Country of his birth and the scene of his Father's long and faithful services to his Employers to the affairs of a part of Malabar, in which I must ever feel the deepest interest, from the conspicuous share I had in suppressing the former rebellions which as the Commissioner Thackeray reported "were not objects of Police, but Civil wars, which burnt with a raging

See page 933 Appendix to the 8th Report on India affairs.

"or smothered flame ever since the Company "got the Province."

3. Novel as such an offer may appear, coming from a retired Civil Servant at my advanced age, it will be no argument against its acceptance in reference to so peculiar a Country as Wynaad is in the extensive uncultivated and unappropriated wastes pervading it in every direction, and the disinclination of the people to come forward themselves, or to assist strangers, particularly Europeans, from whose intelligence and Capital, they would bring, so much might be expected to settle amongst them - but rather in favor of the adoption of such a measure, coming from one, possessing my long experience and intimate knowledge of the habits and Character of the Inhabitants - one who is able to stimulate and direct the industry and energies of

of the lower orders and above all who has made such strenuous efforts to improve the condition of the servile classes so long as the present difficulties exist in the way of a ready and direct channel of communication and intercourse with their European Rulers.

4 Although my letter was a mere outline of the views I contemplated, I conceive it to have been sufficiently explicit to shew the general principles I intended pursuing, which in no way contravened those rules and maxims of policy laid down by the Legislature, either in the administration of the Revenue or Municipal Police, as all that I asked for was the selection of my own executive Agents, a power so necessary to the efficient and successful discharge of the laborious task I volunteered of removing the local impediments to the welfare and order of the Country, in the extension of

of cultivation, and in the improvement of the moral and intellectual condition of all classes of its Inhabitants.

5 After these further explanations it will be unnecessary my saying more than it was and is my intention should Government accept the offer of my services, to leave all details to be filled up in the instructions the Board of Revenue may deem it their Province to draft out for my guidance and as regards compensation for my labours it was and is my wish to leave that question wholly to the liberality of the Government, as all that I at present should ask for, would be the payment of my expenses; on honor not doubting that my future remuneration would be proportioned to the progressive augmentation of the public Revenue, which may be reasonably expected to flow from my exertions and great influence when supported by the authority
