reply to this I beg to inform you —
that at 3 Copies of my replies
have been [illegible] from my Office —
and in a l[illegible] from the Acting Post
Master General to whom I applied
for information he informs me that
those first sent had been received
and forwarded to the Revenue Board
Office — but this is not a singular in-
= stance of my letters having been —
intercepted — none of my Accounts —
have reached the Trichinopoly Pay-

9.- There is no other point that

that I wish to bring to the notice of the Government, that in the Canarese Zillah, there are several passes also leading into the Goa State, one in particular at a place called Tenai, which is only about seven Miles from our station of Dulhawaddeer, at which I have reason to believe a most imperfect system is pursued, and I am told that they continue to follow the same mode that used to exist in these Districts, which is simply, the Cutcheens intimating what duties should be levied, without weighing, or correctly ascertaining the amount, and paying to Government as much of the sum levied as they think fit, for, if they have not a greater check, than there now exists, it is pretty much a matter of conscience- and in saying so much of the station at Tenai I merely repeat current reports, and information which I received

Fort St. George 6th September 1841.

received from two Officers who passed from Belgaum by that route to Goa, who told me, that after leaving the Belgaum Districts they had not met any Bean or seen any thing like a Nake until when near the bottom of the Ghauts they came upon one belonging to the Goa Govern-ment.-

From the Coll.r of Vizagapatam

Sir

Fort St. George

I have the honor to

(28)

acknowledge the receipt of an Extract from the proceedings of the Board of Revenue dated the 17th June last, and to state in reply that I do not see any objection to the substitution of the Bengal Maund instead of the Guree in the sale of Salt. The Native traders indeed generally sell by weight, not by measure.

(29)

From the actg. Coll.r in the Jr. Br. of Arcot submitting his opinion on the proposal of substituting "Weight"

Sir

Para 1.

I have the honor to reply to the Board's Proceedings of 17th June 1841.

2. In substituting "Weight"

for

"Weight" for "Measure" in the sale of Salt.

for "measure" in the sale of Salt, there will occur some difficulties which will occasion inconvenience at first, probably both to the seller and to the purchaser.

3. For instance, the different kinds of Salt at the extensive pans at Markanum in this District vary very considerably in weight, tho equal in measure. Five Mercals measure of a best description of Salt will weigh 136 lbs. of a worst description 117½ lbs. and twelve intermediate qualities vary progressively in weight. This will give an average of 125¾ lbs. at the rate mentioned in the Board's letter of 22d September 1828 Viz.t 10,102½ lbs. to the Guree of 120 Bengal Maunds. Five Mercals would weigh 120¼ lbs. and thus, on the average, the difference is almost nothing. But it will be observed that the manufacturer of this best Salt will, if it be taken by weight, thus be

be a gainer, and the manufacturer of the worst a loser—in either case between 7 and 8 per Cent.

4. Again tho' it is desirable always that Salt should never be received into store from the Manufacturer unless perfectly dry, it is absolutely impossible to adopt this in practice. therefore when Salt is received by weight damp, and resold by weight after becoming dried in store, during some weeks or Months, the consequence must be considerable "wastage."

5. The Merchants and carriers, too, will object to the introduction of a new system, because they cannot tell with any certainty how it will operate and they assert that they will lose by retailing by weight, as the Salt will have become more dried and consequently more light. This of course will find its level—the public indeed

are more likely to suffer, as this circumstance will furnish the retailers with an excuse for arbitrary charges.

6. I do not think that much attention need be paid to any objections on the part of the merchants, if the public are found to suffer by the change, such might be considered hereafter: The "wastage" must be anticipated and calculated for: and the variations in the weight of the several qualities of the Salt will naturally cause the favorable result of the best sort of Salt being manufactured—additional strictness will be called for as to the reception of Salt only when well dried, which will occasion some little opposition probably by the Manufacturers.

7. If the change be so desirable as to counterbalance these

these principal, and some other smaller, objections, I think it can easily be adopted.

8, But it occurs to me, on reading the Extract from the Court's letter, forwarded with the Board's Proceedings above alluded to, that if the accounts alone were made out in this Presidency in Indian Maunds, all would be done that they require. This might easily be adjusted by establishing the rate of 120 Bengal Maunds per Garce. agreeably to the Board's letter of 22nd. September 1828, or any other rate uniform with those at Calcutta and Bombay, still actually selling

selling the Salt by measure, but making out all the accounts for report and reference at such rate of substitution.

From the Collr. of Tinnevelly

Sir, In reply to the question put to me in the Extract from the Proceedings of the Board of Revenue dated 17th. June 1841, I have the honor to report my opinion that the only objections to the substitution of the Indian Maund for

for the Ginee measure are, —
first that Salt will not be
measured to the Merchants as
speedily, as at present, as of course
in selling by the Maund —
it will be necessary that the
Salt should be weighed in
Scales; and secondly that
an increase of expence —
will be incurred in (32)
furnishing Scales and —
Weights at the different
Salt depots

From the Collr. of Rajahmundry
No. 1

In submitting the accompanying actual Account of Expenses incurred in collecting and destroying spontaneous Salt during the last hot weather, I beg leave to explain that the actual expense has exceeded the amount of estimate sanctioned by Government under Date 7th April 1841 in the sum of Rupees 200

Para. 1.

Amount as per Estimate — Rs. 200 0 0
actual Expense 200 13 10
Excess — 200 13 10

As 13 P. 10.

2. In consequence of the total failure of the last N. E. monsoon, the production of spontaneous Salt commence unusually early, and the large quantity collected, shows at once how capable this production was of interfering with the regular sales. Although, however, the quantity collected has exceeded the quantity estimated by Garces 156 — 166 Md. the cost has fallen short of that estimated by 13 Annas a Garce and no Extra charge whatever is being incurred for its custody. In Comparison of the cost of manufactured Salt, the decrease per Garce is Rupees 3 — 13 — 5, and as this kind of Salt is much sought after by persons coming from a distance inland, it is better that it should be turned to the advantage than to the loss of Government.

Quantity as per estimate — Mds. M. M. 138 " "
Do. actually Collected — 294 18 "
Excess — 156 — 100 "

Prime Cost of manufactured Salt per Garce — 6 8 "
Charges incurred in collecting and storing the spontaneous Salt per Do. — 2 10 7
Decrease 3 13 5

Reporting with reference to the Boards order, the circumstances under which a Pension was originally granted to Yarlagudda Venkatadry Naidoo from the Estate of Davercotah and the demise of his wife which rendered the interference of Government at present in the case unnecessary.

Para 1. I have the honor to acknowledge the receipt of your letter under date the 3rd December last transmitting an Extract from the Minutes of Consultation together with copy of the Proceedings of the Court of Sudr Adalut, as also the accompanying Petition No. 867 of 1840 from Yarlagudda Venkatadry Naidoo and requesting me to report the date and circumstances under which a monthly allowance was granted to that individual, and whether he cannot be induced to comply with the Decrees of Court without the interference of Government.

2. In reply, I have the honor to state that an allowance of Madras Pagodas 50 or Rupees 192-8-0 was granted to this individual for his maintenance according to the recommendation contained in Para 3rd of an Extract from the Proceedings of the Board of Revenue dated 9th July 1798, which received the sanction of Government on the 28th of the same

3. This allowance was afterwards reduced to Pagodas 42 or Rupees 161 as. 11 p. 2 by his free will and consent and this amount only is now charged to the Estate.

4. At my requisition, both parties appeared before me on the 26th. May last, Viz.t. Venkatadry Naidoo in person, and Kistnamah by her Authorized Vakeel, and these persons having agreed to refer the matter in dispute to the arbitration of Sirnamilla Venkata Rama: =nah, the Maternal Grand father of the Minor Ze: =mindar of Davercottah, I was preparing to effect an arrangement accordingly, when accounts reached me of the demise of the said Kistnamah.

5. It appears that Venkatadry Naidoo is the legal heir to the deceased, and as he declares his willingness to satisfy any well authenticated claims that may be brought against him as her representative, I am of opinion that any interference on the part of Govern: =ment in the present stage of the affair will be unnecessary.

From the Collector of Chingleput. Offering his Sentiments as to the probable effects the proposed measure of raising the tax on intoxicating Liquors would produce on the public Revenue and on the Morals of the people.

Sir,

Para 1. I have the honor to acknow=
=ledge the receipt of your Circular letter
of the 20th Ultimo, requiring me to state
my Sentiments as to the probable effects
the proposed measure of raising the
Tax on intoxicating Liquors would
produce on the public revenue, and on the
morals of the people.

2 Were it possible to check
intoxication by rendering the means of
intoxication more expensive, the pro=
=posed measure would no doubt tend
materially to diminish crime, but
with the simple means within the reach
of almost every man in this country
of manufacturing intoxicating
Liquors, the measure of rendering
it so expensive as to be beyond
the

—. the reach of the lower Castes—
amongst whom drunkenness and
other crimes are most prevalent, —a
would I conceive tend to the contrary
effect, as well as to a serious —
decrease in the public Revenue,
because those classes whom
it is intended to control by
the proposed measure would
then resort to illicit means
to obtain that which from
habit they are almost unable to
do without, and which at a greatly
enhanced price they could not otherwise
procure.

3 Although the minimum
Price of Arrack and Toddy in the

District may perhaps be considered
rather low, being Rs. A P. 1 — 8 — 10. per Gallon
of the former and — " — 1 — 8 per —"
Measure, of the latter, drunkenness —
and its consequent evils arise rather
from the System under which the abkar-
ee Farm is managed, than from
the cause above alluded to, for the renters
of the District generally under rent the
numerous licensed stills to individuals
who though bound to sell only at a
fixed price and within certain —
limits, secretly supply the venders beyond
their respective ranges below the —
regulated rates, but to detect which
practices and bring them home by
legal proofs can seldom be effected.

In

4 In some places the stills are retained by the Head Renters' themselves, and the shops rented to those engaging to dispose of the greatest quantity of spirits per diem, to effect which and to guard themselves against loss, the Vend=ers are compelled to resort to every kind of artifice.

5 A reduction in the number of stills and shops so as to do away with this kind of competition leaving the prices as they now stand or only slightly raised might be attended with advantage and without any great loss of revenue.

From the Principal Collector of Tanjore stating that he considers the diminution of intoxication by raising the tax on liquor to be hopeless, unless Government employ its servants as direct venders of intoxicating liquors.

Sir,

With reference to your Circular of the 29th Ultimo, calling for my sentiments as to the probable effects on the Public Revenues, and on the morals of the people, of raising the tax on intoxicating liquors, so as to render them accessible only to the wealthier classes, I have the honor to inform you that I consider the diminution of intoxication, by any such measure, to be hopeless unless the Government is prepared to degrade its servants by employing them as direct Venders of intoxicating liquors, so long as the right of vending them is farmed, the farmers will sell at the lowest price which will remunerate them for the prime cost of the article and the charges of superintendence &c. whatever the minimum prices fixed by Government may be, and which never can be enforced in opposition to the interests of both parties to the bargain, except by a system of espionage no less

less degrading to the executive, than the alternative of amauny management.

2 The real cause of the acknowledged increase of drunkenness amongst the Native popula-tion, is it's being a source of Revenue to the State. The right of Vending being sold to the highest bidder, competition enhances the amount, and the successful candidate is political economist enough to know, that his profits will be far greater with the increased consumption, attendant on low prices than by any increase in the price of the article. His consumers are not found amongst the wealthy and even if they comprized them all, the rich are a very small proportion of any population. His sole object then must be to encourage drunkenness by every means in his power. The most obvious is reducing the price. The difficulties of preventing this where both buyer and seller are interested in it's continu-ance are manifest, and if the Board will consider for a moment the trouble which the failure of any farmer of the Public Revenue entails upon the native local authorities in the shape of Arzies, orders, amauny management &c, it is no wonder that they are not very anxious

anxious to bring about their ruin by too rigid a scrutiny especially in a Department any the most remote connection with which is considered defilement by every respectable Native, and it may be doubted whether if so devoted an advocate of temperance were to appear, he would find favor in the eyes of his superior, who as the Board are aware, would have his share in the disagreeable consequences. As an auxiliary means of promoting the sale of liquor, the Renter will do his best to encourage gamblers, Jugglers and dissolute characters of any, even the worst description.

3 If Government is really desirous of putting down intoxication, it must be prepared to sacrifice the Revenue derived from it, it will then find every respectable Native prepared to assist it, whereas at present they feel that every attempt of the kind is in opposition to Government.

4 I entirely agree with the Board and Government, that nothing short of actual "prohibition appears likely to put an end to the "consumption of those baneful liquors." "Arrack and "Toddy." But what possible objection, other than the loss of Revenue, can there be to the prohibition.

by

by the legislature, of articles, the use of which is — already prohibited to all Bramins, all Soodras and all Muselmen by their religion and Caste to a population, in fact, with whom it's permission is considered the greatest disgrace of Christianity and it's adoption as a source of Revenue the most, perhaps the only, odious and disgraceful feature in the comparison of the Christian and Mahomedan Dynasties.—

5 I have no hesitation in saying that the manufacture and sale of Indian Arrack might at once be completely put down, and so heavy a duty put upon the imported article, as would place it beyond the reach of all, but the most wealthy.—

6 From the very simple process by which Toddy is made, and the very general growth of the trees from which it is produced, it's prevention would be more difficult. It is however a comparatively harmless drink, and when the temptations held out by the renters to it's manufacture, and the annoyances to which by their interference, they subject those who prefer consuming the

the juice in it's unfermented state or manufacturing it into Joggry, are removed, there can be no doubt that it's manufacture would speedily diminish even without any penalty being attached to it. Much more so when liable to a penalty, heartily enforced by the Police without any misgivings as to the consequences in the Revenue Department.

7 The question is simply whether the diminution of Crime, and the improved health, morality, and industry of the community, which have universally been found to be concomitant with — decrease of intoxication, are worth the amount of the Abkarry Revenues or not, and it is to be hoped that the day is not far distant when, by their relinquishment, Government will give the people a much more convincing proof, to them — at least, of it's Christian conscientiousness, than by it's withdrawal from connection with Heathen Temples.—

2 The special Moochilka taken from the Zemindar of Cavelnuggur now sent with translation was not received in time for despatch with my report of the 12th October 1840 and I could not at that time report the stipulations finally entered into by the Zemindar.

3 I had not overlooked the instructions of the Board of Revenue, to obtain this document. It arrived late on the day on which my report was sent off, and had the stipulation not been executed to the full extent and agreeable to the tenour of the Boards' instructions of the 17th August 1840. From the Pl. Col. 10th of North Arcot.

I have the honor to acknowledge your letter of the 9th Instant, requiring explanation regarding case No. 487 of the Conditional Pensions of Chittoor, Submitted in the Statement of Casualties, reductions and transfers in the Yeomiah Department of North Arcot for Fusly 1249.-

2. The Sum entered in Column 10 of the Statement is the amount of Yeomiah granted in that Number and to be continued for Fusly 1250.-

3. Rupees 22-2- as per Column 11 is the amount enjoyed by the Individual who is alive and whose Name will not, in consequence, appear in this Statement.-

Rupees-

4. Rupees 22-2, as per Column 12 is the sum to be sanctioned for the Heir of the deceased as per remarks set opposite to No. 487.

5. The same explanation will apply to No. 491, 501 and 603.-

6. With respect to the No. 487 and 550. being precisely the same they are so, in as much, as being both conditional pensions, but there is only one incumbent to No. 550, where as to No. 487 there are two incumbents. The successor in No. 550 becomes therefore entitled to the whole yeomiah inserted in Column 12.-

From the Pt. Collr. of North Arcot.

Reporting that the Complaint preferred in the accompanying four Petitions is false and Worthless.-

Para. 1. I have the honor to acknowledge the receipt of four Petitions presented by Goolzar ally Shaw, in which he notices the fraudulent enjoyment of a certain lapsed yeomiah and prays enquiry. He also brings to notice irregularities in the yeomiah department.

2 The Petitioner has been long known in this District as an individual of the very worst stamp. The condition of the charge he brings forward now of Katiza bebee yeomiahdar No. 85, being dead and her yeomiah enjoyed by another under the same name, is precisely what he stated to my Predecessor 10 years ago and which was proved to be false. He had the assurance to present a Petition to me three years after Mr. Roberts's co-

left

left the District that he was prepared to prove that one Anipha bebee, a Moosa-mut yeomiahdar No. 58 was still alive, when Mr. Roberts had struck her name from the list as dead four years previous. The Petitioner was her Vakeel when Mr. Roberts instituted his enquiry, and it was proved that the Petitioner had obtained the Cauzy of Arcot's signature to the Seyatnamah when aware that the yeomiahdar was dead. He was committed and tried by the Court of Circuit for fraud and Embezzlement in this very yeomiah and although the Embezzlement was not fully proved to the satisfaction of the Judge, he had strong cause to suspect him guilty and sentenced him to find securities for his good conduct or to be imprisoned for three years. His dislike to

the Cauzy of Arcot in consequence of that Officer detecting the imposition he had practiced upon him in the case of Anipah Bebee, is still continued. He requires him to be removed from Office, and then he states that he will produce evidence that Katiza bebee, Moosamat yeomiahdar No. 85 is dead.

3. To remove the Cauzy of Arcot, a most respectable public Officer upon such grounds and at the request of so worthless an individual, as the Petitioner has been proved to be, will not, I am sure, be expected. I believe there is no truth whatever in his assertion, that Katiza bebee is dead, there is evidence sufficient to prove to the contrary, besides the fact of Mr. Roberts having already fined the Petitioner for preferring the same charge on a former occasion, when it was proved to be entirely false.

letter of 29th July, and the Board's endorsement on 466 of 1841. enclosed in your letter of 19th Instant, I have the honor to address you.

2. These Fifty Nine cm Monigars were fined by the late Principal Collector in February last

+63. same time with Twenty one fresh parties at 3 +Rupees each.-

3. The two talooks adjoin and all the Villages in which these Monigars reside are within a few Miles of each other, and very much connected. The Offence was the same throughout, and there can be little doubt but that the Board will on being petitioned therefore give one order to affect all.-

4. I am going immediately into these two Talooks as I think my presence there may be of service and I venture to submit to the Board that if I be granted a discretionary authority to reduce these fines, on being pronounced excessive, to one Rupee or half a Rupee each in the place of a total remission which at times has the bad effects of inducing the people to under- value the authority

of the Collector, the result co-
might be favorable.-

5th There is consider-
able discontent in these two
talooks, and tho' I shall be
glad to pay every attention
to all that is complained
of, I think it should be borne
in mind that they persist-

From the Coll.r of Trichinopoly- Reporting the removal of Arogyum Pillay from the Tahsildary of Tirriore to that of Odiarpolliam on a salary of 70 Rupees per Mensem. 2d August Ryot

Para 1. Adverting to the orders contained in the Board's letter Noted in the Margin, I have the honor to report that I have removed Arogyum Pillay from the Tahsildary of Tirriore the Monthly pay of which is 85 Rupees to that of Odiarpolliam, the pay of which is Rupees 70 per Mensem-

2 The immediate cause of this transfer was that Arogyum Pillay submitted to me false reports regarding the progress of a new tank which was in the course of formation

formation, but besides this I consider Arogyum Pillay to be utterly unworthy of being distinguished by receiving the highest scale of salary allowed to Tahsildars in this District, for his qualifications for that important Office are in my opinion of the very lowest grade, and the meanness he has exhibited in the transaction to which I more directly allude, confirms me in the bad opinion I have for a long time had of him.-

3- Under these circumstances I should not have hesitated to propose that he should be altogether removed from his situation as Tahsildar, but for the strongly expressed wishes of the Board that such a measure should be as much as possible avoided, and I beg they will confirm the proceedings now reported.-

It was not the intention of the Board's Circular order of the 3d August 1840 to require that all transfers of Tahsildars from one Talook to another should be reported, whenever the movement caused a diminution of Pay to the Officer so transferred. It was only wished to require that transfers of Tahsildars from their own line of service to less lucrative employment in another Department should be reported, as also all retirements and resignations of Native Officers from Tahsildarships, with the reasons of their relinquishments of Office.

In reference to the case now before them, and Mr. Onslow's concluding observations, the Board deem it only necessary to state that they will be at all times ready to

The Civil Auditor having retrenched a charge of Rupees 19925-13-4- in the accounts of this office for fasly 1249 on account of the co. Salt manufacturers share, which was incurred under the authority contained in the Board's Proceedings of the 27th June 1816. and having required the sanction of Government, I have the honor to request that the Board will be pleased to procure the requisite sanction for the payment of the same.—

From the Collector of Tinnevelly.- Stating in reference to the Board's letter of the 11th February last the price at which Salt can be supplied from his District for exportation to Bengal.

Sir,

Para 1.- I have the honor to suppy the information called for in your letter of the 11th ult. February.-

2. The Manufacturing cost of Salt in Tinnevelly is fixed at 7 Rupees per Garce of 120 Bengal maunds. The expense of Sibleendy repairs of Plat forms and other charges may be calculated at 5-8-0 Rs. a. per Garce, making the total cost to Government of a Garce 12-8- Rs. a. The cost of Shipping this quantity on export is estimated at 3-14-11 Rs. a and this

this charge must be borne by Government so that the prime cost and charges combined shew the cost of a Garce to be 16-6- Rs. a. when it reches the Vessel for exportation.- at this rate the cost of 100 Bengal Maunds would be 13-10-0 Rs. a.

3. Several Merchants of Coilpatam have expressed their readiness to take Salt for Calcutta and sell it there under the regulations in force provided it is placed on their Vessels at the cost of Government, they paying for it at the rate of 25 Rupees for 100 Maunds and receiving 65 Rs. at Calcutta. But these persons do not possess the description of Vessel which the Bengal Government require Salt should be imported on.-

4 The price of 25 Rupees per 100 Maunds will allow of a trifling profit to Government over the actual cost to them of Rupees 10-6-0 and if the

Fort St. George 6th September 1841.-

the Board approve of that rate being fixed, and instructions are given in time, any quantity under 60,000 mds can

This Suit was instituted for

for the recovery of Rupees 23,129-9-4.

2 The original Plaintiff Enoo=
=guntty Sooriah set forth that he and the original Defendant on the 15th December 1819 purchased the Mootah of Nagaram in the Zillah of Rajahmundry at public sale for Rupees 36,100 which they paid in equal Shares - That soon afterwards they divided the Mootah into 3 Shares, one of which they allowed to Row Venkataraw to hold - That on the 3rd November 1819 the Plaintiff purchased the said share from Row Venkataraw for Rupees 12,000 and on the 24th of the same Month sold his own original share to the Defendant for Rupees 12,100 -

3 That subsequently disagree=
=ing they divided the whole of the Villages into three portions and drew lots for them when the portion consisting of 8 Villages called Cavuba Nagaram fell to the Plaintiff, and the remaining two lots consisting of 11 Villages to the Defendant

4 That on the 20th November 1819 they exchanged Cararnamahs and Sunnuds between them by which they bound themselves to hold the Vil=
=lages which had fallen to them and

and to pay the rents to the Circar according to their Shares, and on the 19th December following they exchanged documents agreeing to the adjustment of the accounts of their joint manage=
=ment, and to the discharge of whatever might on that adjustment be found to be due by either of them. - That on examination of accounts accordingly took place when a considerable balance was found to be due by the Defen=
=dant which he however refused to pay. -

5 That in July 1231 the Defendant fell in arrear to the Circar to the extent of Rupees 25,941 of which he discharged Rupees 9948 and for the balance the Collector attached the whole Mootah and notwithstanding that the Plaintiff had paid his portion of the public demand, sold it on the 5th August 1832 for Rupees 36,100, from which the balance due to the Circar was deducted, and two=
=thirds of the remainder paid to the Defendant and 1/3rd or Rupees 5,041-5-6 to the Plaintiff. -

6 The Plaintiff having been thus deprived of his share of the Mootah by the default of the Defendant and having more=
=over thereby been prevented from collecting the balances due to him by the Ryots of it claimed from the Defendant

as

as follows.—

Difference between Rs. 5041-5-6 paid by the Collector & Rupees 12,033-5-4 being one third of the sum for which the Mootah was sold	6991-15-10
Interest at 12 per Cent from 25th November 1822 to the 15th July 1826	3076-4-6
Balance due by Defendant on account of Joint Management	2,100-0-0
Interest thereon at 12 per Cent from 26th November 1819 to 14th July 1826	1659-0-0
Balance due by Ryots	6200-0-0
Interest on Do. from 6th May 1822 to 1st July 1833	3100-0-0
	23,127-4-4

7 In this Answer the original Defendant Rajah Row Vencatah Neeladry Row admitted the joint purchase of the Mootah by himself & the Plaintiff & the subsequent agreement that he should hold 2/3rds of it & the Plaintiff 1/3rd but he contended that the Plaintiff had taken 8 Villages exceeding in value 1/3rd of the whole given him 11 Villages of less value than 2/3rds he denied that they had cast lots for their shares or that he had executed any Kararnamah engaging to hold according to the

Division

Division made by the Plaintiff he averred moreover that he had paid the full demand against him according to the proportionate value of the Villages he held & that the Mootah had been sold for a balance justly due by the Plaintiff.—

8 Separate opinions were recorded by three of the Judges of the Provincial Court (Mr. Garrow, Casamajor & Parke) and the present first Judge ultimately passed a Decree dismissing the Plaintiff's claim with costs on the ground that he had not satisfactorily proved the execution of the Kararnamah dated 26th November 1819 (No. 35) said to have been executed by the Defendant in favor of the Plaintiff, whereby it was agreed that the Plaintiff should hold 8 Villages exceeding so much in value the proportionate value of those held by the Defendant.—

9 Being dissatisfied with this Decree the heirs of the original Plaintiff appealed from it to this Court & the son & heir of the original Defendant having appeared by his Guardian & made answer to the appeal the Court proceed to record their Judgment on the case.

The Court of Sudr Audaulut

10 see

see no ground for doubting the genuineness of the Kararnamah (No. 35) filed by the origi-
=nal Plaintiff which purports to have been executed in his favor by the original Defendant on 26th November 1819 wherein it is set forth that the parties had cast lots for the Villages which they were respectively to occupy & that 8 Villages having fallen to the Plaintiff, the Defen-
=dant agreed that the Plaintiff should hold them paying to the Circar 1/3rd of the Bareeze fixed on the Mootah. -

11 The Defendant positively denied that any such Kararnamah was entered into by him. -

12 The Plaintiffs 17th 18th & 19th witnesses however distinctly swore to having been present when the Defendant ex-
=ecuted it on the date in question - Be-
=sides in the Enayetnamahs addressed by the Collector to the Plaintiff on the 2nd & 22nd May 1820 (Nos. 18. 19) it is distinctly stated that the Defendant had pro-
=duced before the Collector the Counter Kararnamah executed in his favor by the Plaintiff bearing the same date as that filed by the Plaintiff (26th November

November 1819) wherein it was stated that a division had taken place be-
=ween the parties in which the Plain-
=tiff had obtained 8 Villages & the De-
=fendant 11, that they had mutually a-
=greed to hold the Mootah according to that division, the Plaintiff paying 1/3rd & the defendant 2/3rds of the whole Bereeze that Kararnamahs to that effect had been exchanged between them. -

13 The Defendant averred the impossibility of his ever having consented to such a division since the 8 Villages held by the Plaintiff produced so much more in proportion than the 11 held by himself the Enayetnamahs above referred to must however remove all doubt as to the Defendant's having actually agreed to these terms while it is equally evident that during Fusly 1230 at last the Plaintiff held 8 Villages & the Defendant 11 without the Defendant having offered the slightest objection to the arrange-
=ment. -

Document

14 Document No. 70 being a Statement of the Demand Collection and Balance of the permanent Assessment of the Mootah for Fusly 1231 shewn the Government demand on the Mootah for that year to have amounted to Rupees 45,971-11-11 & that the Plaintiff paid Rs. 14,578-2-6 which was only Rupees 712-6-7 less than the 3rd of the Assessment (Rs. 15,290-9-3) which he should have paid, it is therefore clear that the arrear on account of which the Mootah was sold was due by the Defendants & not by the Plaintiff.

15 The Court of Sudr Adalut are of opinion that the Plaintiff is entitled to one third of the amount for which the Mootah was sold in 1822, minus the Balance that was at that time owing by him, & deducting the amount which he acknowledges that he received at the time of the sale interest being calculated on it from the date of the sale until that of this Decree, the following is a Statement of

of what is due.-

One third of the amount realized by the sale of the Mootah (36,100)		12,033-5-4
Balance due by Plaintiff to Circar at time of sale	712-6-7	
Received from Collector from proceeds of sale	5041-5-6	
		5753-12-1
		6279-9-3
Interest from the 25th November 1822 to the 21st December 1840 being 216 Months & 29 days at 1 per Cent per Mensem		13619-10-11

16.- The Court of Sudr Adalut are of opinion that the Plaintiff has failed to prove the amount due to him on account of the Joint Management of the Mootah, and with respect to the balances said to be due by the Ryots, the Plaintiff should recover them from the individuals by whom they are due.-

17. Costs should be borne by the Parties in proportion to the amount allowed and disallowed.-

To The Secretary to the Board of Revenue Fort St. George.

Sir,

(13)

From the Prin. Collr. of Nellore— Para 1. I have the honor to acknowledge the receipt of your letter of the 29th July last, on the subject of a suggestion that a more restricted Sale of Liquor would lead to a Considerable diminution of Crime, and I am directed to state my sentiments as to what would be the effect on the Morals of the people and the public Revenue, if intoxicating liquors were rendered only available to the Wealthier Classes.—

Submitting his sentiments as to the effect which the rendering intoxicating liquors available only to the Wealthier Classes will have on the Morals of the People and the public Revenue.

2 As far as my experience enables me to judge. I do not think the Natives much addicted to drunkenness. The Wealthier Classes do not use liquor even as a luxury. The consumption of it is confined, almost exclusively to particular Castes. Those most habituated to the use of it

it are Boatmen to whom it may be considered a necessary of Life, Pariahs and Cucklers, firewood Cutters, Yanahoola People and Lumbadies travelling Blacksmiths and Snake Catchers and other roving Tribes, Palankeen Bearers, Cultivating Laborers, Toddy drawers and Ryots, drink it but not habitually and the same may be said of Peons. These are the Classes to whom the use of liquor is almost exclusively confined. To many of them it is a necessary of life.

3 The Theory propounded by the Court of Foujdarry Udalut of imposing a high rate of taxation on liquor to repress Crime and intoxication has been proved by experience in other Countries to be unsound in practice and even in Countries where it is certainly more

more applicable and more likely to be in practice beneficial as respects the Revenue. In European countries liquor is used by all Classes and if by raising the taxation it were possible to restrict the consumption to the Wealthier Classes, it would probably be not attended with any very material loss of Revenue, but in this Country the wealthier Classes are not consumers of liquor, and the raising the Tax would probably lead to a considerable loss of Revenue, because recourse would immediately be had to obtaining it illicitly by those who must have it, and cannot afford to pay a high price for it, at the same time I do not think it correct to assume as the Foujdarry Udalut have done, that a diminished Consumption must necessarily lead to less intoxication. A family may have been in the habit of Consuming a bottle

bottle of arrack daily, the increase of price may oblige them to limit the Consumption to half a Bottle, the first quantity may have been no more than necessary for their Comfort, the last is insufficient and there is no intoxication in either Case. Experience in other countries has shown that high duties on spirits with the view of placing them beyond the reach of the lower Classes have signally failed in their object, and the theory has grown obsolete — We have no warranty that what has been found practically wrong where it has been tried, will be otherwise in India. If illicit manufacture and sale cannot be prevented, which I believe it cannot, liquor will be cheaper than it now is, and what with the evils of an illicit manufacture and

and cheaper liquor, more mischief and more crime would ensue, attended with loss of Revenue than by leaving liquor as at present liable to a moderate tax which holds out little incentive to illicit manufacture, and in- -duces the consumption of that — only which is legally manufactured and sold. The object in taxing liquor is to prevent it's being taken in excess, but is there at present any reas- -onable ground for supposing that it is so taken by the lower orders of Natives, that it is a national vice I think not, I am not satisfied that intoxication is by any means a fruit- -ful source of crime in this Country, certainly not of the more serious crim- -es and I am therefore very far from agreeing in the postulate which appears to have been adopted by the Court

of

of Foujdary Udalut that crime would be much diminished in this Country by a more restricted sale of liquor. I scarcely ever met with an instance where any crime beyond an ordinary assault or abusive language was attributable to the person committing it having been in a state of intoxication. Heinous crimes in this Country are almost invariably committed with Cool premeditation. It is notorious among the Natives themselves that Drunkards are seldom thieves, while thieves are very rarely drunkards. Drunkenness is the prevailing vice of the one Class thieving and the commission of crime of the other. If the Drunkard does steal it is only in a petty way sufficient to enable him to procure liquor, and when he has got that, he is satisfied. The Yanadies who

are

are among the greatest thieves in the Country never touch liquor. The travelling blacksmiths drink more than any other Class and spend the greater portion of their earnings in drink. The work they have to do requires it, and there is scarcely ever an instance of their being brought before the Police and they are notoriously known as persons not addicted to thieving and such practices. On the other hand again, the Moottaraucha, and Boya Castes are among the greatest thieves in the Country, and that Class of persons who usually commit Gang and highway robberies, and there are few Classes so little addicted to liquor as they are. Intoxication is chiefly to be found in Towns not in Villages, and yet compared with the population of each, I think it will be found that Crime / I do not allude to petty

Offences

Offences of Assault, abuse, calumny &
and such like / is far less frequent in
the former, than in the latter -

4 Making liquor dear will not
destroy the appetite for it in those
who have been accustomed to it. We
cannot uproot in such persons habits
which have grown with their growth -
and strengthened with their strength.
Liquor they have always had and Liquor
they must still have, and if placed
beyond their means of honest livelihood,
they will have recourse to depredations -
on the property of others to obtain it, or
obtain it cheaper still by illicit means -

5 By far the greater num-
-ber of those who consume liquor
use it without excess, but as
a necessary restorative under
the laborious and toilsome life -

they

they are obliged to lead to gain a subsist-
-ence. I have already instanced the Boat-
-men & travelling Blacksmiths. to whom
this remark particularly applies. I
may further instance Palankeen
Bearers and firewood Cutters. The latter
Could not go through their work without
a daily dram on their return home,
and Palankeen Bearers fly to the arrack
Shop as soon as they have set down
the traveller. Are such persons to be
debarred the use of it or a larger
portion of their scanty means be taken
from them to procure what is so
necessary to their existence, and as
regards those who have given
themselves up to a course of theft
and robbery, the rendering liquor
expensive would be wholly
nugatory. They pay for it with
other men's property, and they would

Continue

continue to have it at any price. In short it appears to me that where the habits of life as with many Clases in this Country render liquor indispens-able, the farther you place it beyond the reach of the ordinary means of honest livelihood, the greater inducement you hold out to obtain it by means which are criminal.

6. In dependently of these Considerations the measure — would be but nominal under the present system of rents. We may fix a minimum rate of sale but we cannot make the abkaree renters adhere to it. It is notorious that even the present established rates are not adhered to, but it is next to impossible for the police to detect cheap Sales of liquor — Whatever rate the Government may determine

determine on, the abkary Renters will sell at prices which will insure them a large consumption and afford them a very moderate profit, for if a — renter aimed at More, the Neigh-bouring renter would immediately undersell. I have rarely however been able to bring a case of Cheap selling home to the renter or his shop keeper. If the sale of liquor were kept exclu-sively under the Officers of Government and not rented out, as it mostly — now is, the end as respects an adher-ence to the legal sale price might be attained, but we should then — have to guard against illicit Manu-facture which is perhaps more difficult of prevention in this — than in European Countries. both from the nature of the Country and the character of the people, though —

there

there would be no great incentive to this, unless the present prices of liquor were materially raised.-

7 Supposing however that raising the price of liquor would be followed by a reduced Consumption of it, still it could have little effect in preventing intoxication or the commission of Crime, so long as intoxicating drugs can be cheaply obtained. Those I allude to persons of bad habits and character, who we will suppose to be addicted to drinking liquor to excess would have recourse to Bang, even if it were practicable to place liquor beyond their reach. In fact I believe Crimes are much more frequently committed under the influence of Bang and Opium than of liquor, and the former is far cheaper than liquor even at its present price.

8 I may in conclusion observe that the suggestion of raising the tax on liquor with the view of repressing Crime does not appear, from his Official reports in this Office, to have emanated from the Joint Magistrate of Nellore, as supposed by the Board.

Para 1. With reference to Mr Halletts' letter dated the 15th June last and the Boards' Endorsement on Petition No. 1194 of 1840, I have the honor to state that a Petition has now been presented to me by Sheik Meerah claiming the allowance.

2. As this man has been for years absent from this part of the Country and no allowance has been made for the purpose of

of the Ashoorkhana from Fusly 1227 - it cannot be considered necessary - that the allowance should now be restored - It would be, as Mr Hallett observes impossible now to obtain - correct information on a claime which has been dormant for upwards of twenty years -

3 I therefore recommend that the claims to the allowance be rejected but that the flags which belong to Sheik Meerah be restored to him -

(22)

From the Coll. of Chingleput submitting Statements of Summahbundy Settlement for Fusly 1250 & affording explanation to the variations of Increase & Decrease -

Sir,

Para 1. - I have the honor to request you will lay before the Board of Revenue the accompanying Summahbundy Statements of the Land Revenue of this District for Fusly 1250 together with this Report on the result of the Settlement -

2. The Summahbundy of the two Talooks of Chingleput & Carangooly, which form the Head Assistant's charge, were completed under the supervisions of Mr Peters, whilst the Settlement in the remaining 8 divisions was conducted under my own superintendence. -

3. The season generally speaking was but an average one, for though a greater quantity of rain actually fell in most parts of the District than in ordinary seasons

seasons, still the rains neither fell when most required, or at favorable intervals.

4 In the early part of the cultivating season when the Punjey lands are generally sown, the supply of rain received during the south west Monsoon was scanty, owing to which, and the parched condition of the soil from the past unusually hot season, there was a very considerable decrease in the cultivation of those lands.

4 5 On the change of the Monsoon light rains commenced falling in most parts of the District during the Month of October, which was followed by a very heavy fall lasting almost without intermission from the 3rd to the 11th November in all parts of the District, except on the Western frontier, where it only rained North Arcot. The reservoirs & Tanks generally having thus been suddenly filled at a

a period when the Monsoon could not be considered as closed, the ryots were compelled for the security & preservation of the Tanks to let off a portion of the water then collected in them, but no additional supply having been subsequently received, through this unusually early and entire cessation of the Monsoon, the cultivation of the Wet lands likewise could not be carried on to the same extent as in the preceding year.

6. It may also be noticed that many of the reservoirs and particularly those in the Northern Talooks, are very shallow, and require replenishing several times to enable the Cultivators to bring the Navary Crops to maturity and there too there was not only a decrease in the cultivation, but an actual loss in many places of the Crops sown.

In

7.- In the western parts of the District where there was, as I have before mentioned, a failure altogether of the rains, there is a decrease of cultivation and revenue from the inadequate supply of water both under the Tanks usually filled from the falling rains alone and from those fed from the Palar, the freshes in that neighbourhood not having extended beyond the Converesaunk Tanks.-

8.- In detailing the nature and results of the past season, I cannot but also allude to the gale in May, by which considerable damage was caused to the Navery crops then almost ripe for the sickle, situated under the large reservoirs on account of which and from the nature of the early part of the season, and the low price of grain, it was necessary, in

in order to avert suffering to the cultivators and loss of future revenue by injuring the resources of the country to grant some remissions.-

9.- The annexed comparative Statement exhibits the extent of cultivation during the past and preceding Fusslies in the 1565 Villages under Ryotwar settlements, the result being a decrease of 1420 Cawnies in the Nunjey 1st crop lands and 2325 in the 2d crop lands, with a corresponding diminution of revenue amounting to Rupees 22,169-- as also 12,363 Cawnies of Punjey land assessed at Rupees 23,408.- There is also a trifling decrease of 35 Cawnies of garden cultivation.-

ment exhibiting in detail the
number of Villages and the respec-
tive modes of Settlement adopted in
them, with the Revenue derived under
each head during Fusslies 1249
and 1250, it will be observed that
there is a nett decrease in the Land
Revenue of the past Fusly when
compared with that of Fusly 1249
of Rupees 47,235-15-9 or about
4 per Cent, the aggregate revenues
respectively being Rupees 11,14,172-10-10

11 There is a decrease of 4 Villages under the head of Jary Zemindary consequent to the purchase on account of Government under the sanction noted in the Margin of the two Mootahs of Agharum* and Poontundlum* then assessed with a Permanent Berij of Rupees 611-3 and 2,364-7-4 respectively. The aggregate Permanent Peishcush of the remaining Mootahs amounts to Rupees 1,44,960-14-11

12 No change has occurred in the number of Villages held on Shrotriem Tenure it being as in the foregoing year 332, but there is a decrease in the amount of Jodigy or Quit Rents of Rs. 30-3- inconsequence of the resumption of 1/48th share of the Shrotriem Villages of Tenumbaukum. The actual amount of Quit Rent payable under this Head is Rupees 74,164-3-4-

13 Under the head of "Muckta and Permanent Rents" there is an increase of Rupees 178-11-4 being the teerwa of certain waste lands redeemed

redeemed under the terms of the Cowle in the Villages of Munjumkurney and Coorumbaukum, and which was transferred from the Ryotwar to this Head according to the Board's instructions contained in the Proceedings on the Report of the Settlement for 1248, the net amount of Revenue under this Head is Rupees 2,180-14-5-

Dated 4 Feby 1841 Para 28

14 In the Settlement Accounts of Fusly 1250, I was compelled to reopen the Head of "Double Rents" in consequence of the produce of the Villages of Poontundlum and Agharum Mootahs lately purchased by Government as stated in Para 11 having been rented to their respective Menigdars on Estimates of the Crops. The Lands of these Villages have however since been surveyed and assessed in communication with the Cultivators, and due notice has been given them of my intention of acting upon the Survey assessment in the Current Fusly, under the same terms as in the lately surveyed

Villages

Villages, and a detailed Report regard-
:ing the rates of the proposed Survey
Assessment will be submitted in a
few days for consideration.—

15 In respect to the
decrease of Rupees 688-7-7 in the
Revenue derived from these Villages
as compared with the Permanent
Peishcush assessed on them, and
which has been entered as the
Revenue realized last year, I beg
to subjoin a small Statement shewing
the extent of Cultivation, the a-
verage gross produce per Cawney
the average price, and the commuted
value of the Nailvaram accord-
:ing to that rate, with the average
per Cawney, and the Revenue realiz-
:ed in Fuslies 1249 and 1250 from
which it will be observed that
the above decrease arises chiefly
from a net decrease in the ex-
:tent of cultivation amount-
:ing to 39 Cawnies of Nunjey
and 18 Cawnies of Punjey Land,

averaging

averaging in the gross produce 4¼
Mercals per Cawney. Another cause which
has materially affected the Revenues
of this Mootah is the very low
price at which grain was selling
in the neighbouring Markets, vs
and at which rate the estimated
produce was commuted for a money
payment. The price of grain in
F.
1249 when grain was at an average
price being Mercals 15 3/8 whilst
F.
in 1250 the price was so low as
Mercalo
18 15/16 per Pagoda. The Reservoirs of
these villages have now been re-
:paired and arrangements as
effected under the Ryotwar
system for extending the as
Cultivation, and I think
there is fair reason for anticipat-
:ing that the revenues in future
in lieu of being below or only
on a par with the Permanent
Settlement will exceed that
standard—

16 On comparing the result of the settlement in the Villages under the Ryotwar system with the Permanent Berij and of F. 1249 it will be noticed as exhibited in the subjoined Comparative Statement abstracted from the Summary Statement No. 2 that there is a net decrease of Rupees 27,664-14-5 or 3 3/16 per Cent as compared with the former, whilst in the details there is a decrease of 34,476-1-" or 7/2 per Cent in the Villages formerly assessed and an Increase

Increase of Rupees 6,811-2-7 or 1 5/8 per Cent in those lately brought under that system by me upon the survey conducted by Mr. Maclean, as compared however with the revenues of the preceding fusly there is a net decrease amounting to 46,381-13-" or 5 1/4 per Cent, an amount which cannot be considered very great when the difference of the two seasons is taken into consideration.—

The decrease in the 1st crop wet land cultivation under the large tanks of Damul, Calletto or Carivadoo, Govindavady &c. situated in the Conjeveram Talook consequent to their not having received a full supply of water as before noticed amounted to Cawnies 1,716. whilst about 700 Cawnies that had been cultivated in Fusly 1250 by means of the Cheambrumbaukum Tank, in the Poonamalee Talook were for similar reasons left unsown.

18. I now beg to submit a Comparative Statement exhibiting the total amount of remissions granted in fusly, 1250. compared with the preceding year from which it will be observed that the remission of the Cutter mentioned fusly were Rs. 366-10-11 below the former - in details however there are considerable variations, for in the fusly under review, there was a material decrease in the remissions granted under the heads of "Shamlat Bunjer and Shavi" or Crops withered from a failure of the means of irrigation with an increase under the heads of "Phalamustum & Cowles" Statement-

19. The remissions granted during the settlement of fusly 1250 on account of Shamlat Bunjer or parts of fields left waste amounted to Rupees 2401-6-3. being a decrease compared with fusly 1249 of Rupees 2174-2-4 The necessity of remissions under this head have during the last two years gradually decreased under the explanations pointed out to the Ryots of the principles under which the survey of the Assessment has been framed and on which remissions are granted. The remissions have been chiefly called for in the Ramanjairy Mottah of Peddapollam and Streeharicotah in the Nayar Talook where the Ryots are in more indigent circumstances than in the other parts of the District. Each sum remitted has been granted after a particular enquiry into

into the circumstances of the case, and I am in hope that the necessity of granting them will continue to diminish.-

Rs 2954-15-7 20 There is a considerable excess in the Amount of remissions necessarily granted on the fusly under review on account of Thalanastanam or loss of produce compared with the amount remitted on the same account in Fusly 1249 the sums being respectively Rupees 1519-5-1 and Rupees 1435-4-8 This excess is solely attributable to the injury sustained during the Gale which occured in May and which fell most heavily on particular Villages. In the Villages of Callattoor* the extent of Bunjey cultivation is 590 Cawnies of which 330 Cawnies were during the last season

Chengleput Talook

season cultivated with Navary Crops
and which were nearly ripe when
the Storm set in, a rush of water
caused by the bursting of the bund
of a tank situated in the vicinity
of the low lands of this Village -
with the great flow of water which
fell during the Gale washed away
a considerable portion of these Crops
and so injured the others that a
remission of Rupees 538 was due
alone unavailable. In the Ponnamal
Talook likewise the remission of the
large sum of Rupees 2,418 was rendered
necessary from similar causes, the loss
being chiefly in the Navary Crops raised on
the low lands of the numerous Villages
watered from the Chembrumbaukum -
In the other Talooks but little damage was

sustained and the consequent remissions
were comparatively small. -

21 The remission on account
of Shavi or Crops that have failed from
a deficiency of the means of irrigation
amounted to Rupees 6,473 - 4 - 0 being less
than the amount granted for the same
causes in Fusly 1249 by Rupees 6,134 - 11 - 5.
These remissions were chiefly confined to
the Conjeveram Peddapollium and Nayer
Talooks in the former from the general
failure of the Monsoon, and in the
latter two from the extent of the
Manavary lands or those on which
wet Crops are raised by the falling
rains alone and the loss in the
Navary Crops under the smaller reservoirs
which require to be replenished several
times to bring the Crops to maturity.
In granting these remissions due con-
sideration was given to the condition of
the Ryots by whom the losses were sustained

and to the produce they had reaped from other lands as also to the principles laid down in the orders of Government dated 4th March 1825 furnished to me by the Board the Net Teerwa of the lands, the Crops in which failed owing to the above mentioned causes was 8,879—13—9 of which Rupees 2,405-9-9 were brought to account and realized.

The remissions allowed on account of the redemption of waste lands in Fusly 1250 Amount to Rupees 14,059-3-7. being Rupees 4,342-12-7. in excess of Fusly 1249 and may generally be ascribed to the greater extent of waste lands cultivated under Cowles on a progressive scale of Rents than in Fusly 1249. These Cowles were obtained by the resident Meerasidars and Poygarries of the respective Villages and in some instances by the neighbouring Inghawady Ryots also, and were granted according to the terms and conditions of the Cowles annexed sanctioned by the Board. Under this Head is also included the sum of Rupees 134-2-7 in account of

of 5 Cowles granted by Mr Vereash and Mr Crawley to the late Ramaseway Chetty of Madras and others for certain lands in the Village of Saturvaudoo in the Sydapett Talook. The parties who obtained these lands have continued to pay annually the stipulated Teerwa for them. During the Survey of this Village in Fusly 1248 I directed these individuals to produce their Cowles and which after a long delay they have lately done and I have now informed them that the question of their Cowles will form the subject of a separate report to the Board and that they must be prepared to abide by their decisions. I have also included these remissions under the head of Permanent Cowles the following Statement shews the extent of land granted with the amount of Teerwa paid thereon according to the Cowles, the Survey Assessment fixed on them the Remission now granted together with the cultivation of Fusly 1250.

The subject of these Cowles will be shortly submitted to the Board in my separate Report on the Cowles now under preparation, agreeably to the Board's instructions conveyed in Para 22 of their Proceedings on the settlement of Fusly 1248.

From the Sr Collr in the Nd Dn of Arcot
Submitting Copy of the Proceedings of the Sad Sr Court bearing date the 15th Jany 1841 pending at present for disposing off the deposited Revenue Rupees 6148-13-8 of Conapatam Village in the Calastry Zemindary under Attachment.

Para 1. I have the honor to lay before the Board of Revenue the following circumstance with Copy of the papers connected with the case. and to request instructions thereon.

2. The Village of Caurapatam in the Calastry Zemindary, was given by the present Zemindar's Ancestor Damara Venkatapah Naick in the year 1791, to one B. Venkataramiah for the purpose of maintaining a Charity to supply Pilgrims and Travellers with rice and other necessaries on their Journey, and another Village named "Canamanambaid" was in like manner alienated to Venkataramiah as an Enam.

3. Venkataramiah was sued in the Supreme Court by one Pacha-ghery Condaliah for a debt of 4,0000 Pagodas

Pagodas and in the year 1800 it was decreed that the amount should be paid, by Venkataramiah's adopted Son Narsimiah to Condaliah's sons Sashachelliah and Venkatachelliah.

4. In the year 1815 it appears there was a suit going on in the Provincial Court by Narsimiah against the Zemindar to recover back these Villages which the Zemindar had improperly Sequestered, and it was decreed that the Zemindar should restore them. Upon this Sashachelliah and Venkatachelliah claimed the Villages on the ground that as judgment Creditors of the deceased Venkatramiah they had the prior claim to that of his son Narsimiah.

5. It will be seen by the Extract from the Proceedings of the Sudder Adalut under date the 15^th January 1839 that the Judges ordered the Villages to be sold in satisfaction of the Recorder's Judgments in favor of the

Sashachelliah and Venkatachelliah. The Villages as before observed were Carapaukem and Canamanambaid. The latter Village was sold accordingly, but Carapaukem being for the support of a Charitable Endowment was not sold, but ordered to be kept under attachment and mutually handed over, together with the surplus funds, by the Sudder Adalut, to the Management of the Principal Collector. It has now been under Management for 13 years, Seven years of which it has been under Arrance and six under rent, and the surplus fund in my Treasury has now increased to £1126 13 4 The average Rent during these thirteen years being 323 Rupees.

6. The Village was, it is true, originally granted for the support of a Charitable Endowment but it becomes a question now that Venkatarama the original grantee is dead his Son Narsimiah dead and no Heirs

or successors forthcoming whether it can be considered a Charitable indowment any longer, or whether the whole of the surplus funds should not be made over to the Zillah Court for payment to Sashachellah and Venkatachellah the Judgment Creditors.

7. The Sudder Adalut in the 10th para of their Proceedings direct the Village with the surplus funds at that time amounting to 2192 Pagodas to be made over to the Principal Collector, "and that the same may be "appropriated to the purposes for which "they were destined by the grant, and "that if any surplus may remain "after such appropriation, that it "may be annually transmitted to "Sashachelah and Venkatachellah "until the demand be liquidated."

8. From the commencement of the long litigation until now, the Charity indowment has been in disuse, The surplus fund

of 2192 Pagodas in 1829, has not been appropriated to the purpose for which it was destined by the Grant, It has never been asked for by Narsimiah or his Heirs, and they having long since died off, the Charity has ceased altogether to exist.

9. The Village having been once alienated for the support of a Charitable Endowment, the general opinion is that it should be continued as such, Heirs and successors being all dead, the Zemindar himself claims the Village and the right of restoring and Managing the Charity requiring at the same time, to effect this the surplus fund amounting as before stated to 6146 13 0 to provide a commodious Choultry to furnish Brass Vessels and Cooking utensils for its use, and when the Choultry is completed he will engage to keep it in repair, Manage the Charity himself, and perform all

all the Stipulations required by the terms of the original endowments.

10. I am in doubt what opinion to offer on the case of large sum of Money is still due by the Original Grantee to Sashachelliah and Venkatachelliah the representatives of Condaliah and again there seems to be some question whether the surplus funds of this endowed Village can be given to them. The Sudder Udalut in the 6th para of their Proceedings state that the sale of Cauraipauttum has been delayed because it was granted for the support of a Charitable endowment, they do not expressly forbid the selling of it and the reason of this may be that at the time they decreed, Narasimmah, Son of the original Grantee, was alive He is now however dead, and there appears no lenial descendant of his to claim the Village in right of its being for support of a Charitable endowment.

11. I am not aware that either

either Sashachelliah or Venkatachelliah are alive if it is decided that the surplus fund by right belongs to them.

August 1828.

1st This last communication has reference to the Proceedings of this Court, dated the 17th April last, requiring an explanation of the Zillah Court of Chittor having continued to hold under attachment the Village of Carapaukum, & its revenues.

2. In the year 1800 the Recorder's Court at Madras issued a decree against the Estate of Venkataramiah deceased for Ld 3000 and odd Pagodas in favor of his creditor Condaliah

3. In 1815 the Provincial Court in its Centre Division at the Suit of Narasimiah adopted son of the said Venkataramiah against the Zemindar of Calastry decreed that the Village in question with another had been alienated by the Zemindar of Calastry to the said Venkataramiah and had since been improperly sequestered by him and at the suit of Venkataramiah's heir Narasimiah, they directed them to be restored.

4. Upon this Condaliah, the judgment Creditor of the late Venkataramiah, and after his decease his sons and heirs Sashachellah and Venkatachellah at various periods addressed the

the Provincial Court of the Centre Division claiming the said Villages, on the ground that, as judgment Creditors of the deceased, they had a claim preferable to that of his son.

5. After various Proceedings in the Provincial Court, it was finally, resolved by them to attach all the property of Venkataramiah descended to his adopted Son Narasimmiah, in satisfaction of the Recorder's judgment, in favor of Condaliah now represented by his Sons Sashachaliah and Venkatachaliah, and this Court, on the 1st May 1823 not only approved thereof, but directed that they should be sold in satisfaction of their demand.

6. Accordingly one has been sold, but it appears that the sale of the other has been delayed, because it was granted for the support of a Charitable endowment, and the Zillah Court have continued to hold it under attachment, and have now in deposit on this account Rupees 192 the Village, as well as this deposite is claimed 1st by the Zemindar of Calastry 2nd by Narasimmiah son of the late Venkataramiah, the original grantee. 3rd by Venkatachaliah and Sashachelliah the representatives of this judgment creditor, in whose favor this Court directed the Village to be sold.

7. The claim of the Zemindar

of

of Calastry to the Village having been rejected by a regular Decree of Court when he formerly resumed it, the Judges deem his demand for it and its produce in deposite to be entirely inadmissible.

8. If the revenue of the Village had been barely sufficient to support the Charitable endowment for which it was granted, its management alone might be justly claimed by & examined the representative of the Original Grantee, but if any surplus remains appropriable the Court have already decided that it belongs not to him but to the representatives of his father's judgment Creditor Sankachaliah & Venkatachaliah.

9. That a surplus has been derived is clear from Rs 1,000 being in deposite in the Zillah Court but it seems highly probable that a considerable amount of this sum may have arisen from the Charitable endowment, for which the Village was granted, having been neglected during the long litigation that has taken place and

and possibly by the Zillah Court since its attachment.

10. Under all the circumstances of the Case the Judges are of opinion that the most expedient mode of settling this matter will be for the Zillah Judge to make over the management of the Village in question, with the surplus Funds in his hands to the Principal Collector in the Northern Division of Arcot, requesting that the same may be appropriated

to

to the purposes for which they were destined by the grant. Copy of which should also be forwarded; and that if any surplus may remain after such appropriation, that it may be annually transmitted to the Zillah Court for payment to Sashachaliah and Timbalachaliah

Ordered that Extract of these Proceedings be forwarded for the information and guidance of the Provincial Court for the Centre Division.

Murkanum is about 20 miles North of Cuddalore at which place the Collector's Cutcherry is situated. The Coast is open and the Surf runs high, and Boats are frequently upset in landing. The Collector has therefore directed that a Temporary Flag Staff be erected on the Beach and the Union Jack kept flying from sun rise to Sun set as a signal for Boats to come on shore.

Applications for Salt to be addressed to the Collector at Cuddalore superscribed "Calcutta Salt Export" It is requested that the probable date of the arrival of the Vessel at Murkanum may be stated. It will be optional for parties taking Salt to pay for the same at the Collector's Cutcherry or to the Tasildar at Murkanum.

Requesting instructions on certain points connected with the rights of Meerasdars over the waste lands of their respective villages.

To The Secretary to the
Board of Revenue

Sir

Para 1 I have the honor to request that you will take the instructions of the Board on the following points connected with the rights of Meerasdars over the waste Lands of their respective Villages.

2 The only recorded definition of those rights with which I am acquainted is contained in the 71st and 72nd paras of the Board's Minute of the 5th January 1818 and is as follows.

Para 71 "The Tarrus or waste lands are subdivided into the Anadee Paramboke or immemorial waste and the Sheyeal Paramboke or waste land that has at some time been cultivated each of these consists chiefly of tracts of common, on which the Meerasdars graze the Cattle employed by them in agriculture, & of jungle in which they cut the firewood used by them for fuel, and both are held free from taxation should the Meerasdars however, propose the

the means they are vested with ample right to extend their Cultivation to these lands though it is understood that the consent of Government is necessary before they can break up the Anadee Carumboo ti land that has never been under the plough but the moment any part of either the Sheycal or Anadee Carumboo is reclaimed the nature of the land is changed. It ceases to be Jarivee or waste and no sooner is it converted into cultivated land than it is transferred as such in the Village Accounts to the head of Warapa or Seerwapat and in common with all lands of that description becomes for the plain reasons already given liable to tax.

Para 72 "The tax on waste land or rather the terms on which the Cultivation of waste is undertaken are well known and in general regularly followed in every Province, but a specific exception is always claimed from the standard rates established for the Cultivated lands before the Cultivation of waste is undertaken - The tax on waste is low at first and rises gradually

to the general standard rate."

3 Here it is clear that the Meerasdars have a right to Cultivate waste with the consent of Government and on undertaking to do so are entitled to the temporary remissions of assessment customary or prescribed for each Province

4 But it does not appear 1st whether in default of means or desire to exercise this right on the part of the Meerasdars their consent is necessary before Government can grant the land for cultivation to a Stranger.

2dly Whether supposing them to be able and willing to exercise the right according to the customary or prescribed terms of the Cultivation of waste, Government can grant waste to a Stranger who may undertake it on more favorable terms.

3rdly Whether the right of the Meerasdars in the waste land whatever it may be is transferrable by sale or otherwise to Strangers.

5 The answers desire to

proposs

possess land in Tanjore and the facilities which several important works of irrigation more or less advanced towards completion have or will afford to reclaiming extensive tracts of waste have already brought these points under discussions and the early decision of the Board upon them is highly desirable.

The sale of waste land by Meerasdars to strangers was I believe formerly almost unknown in the Province but more than one instance has occurred within the last year or two on lands circumstanced as above described. I suppose as I conceive to be the case the right of granting the waste to strangers on failure of the Meerasdars to cultivate it on the usual terms to be vested in the Government on the one hand and the right of cultivating the waste on the usual terms in preference to strangers who may offer more favorable terms to be vested in the Meerasdars on the other hand there appears to be no objection to allowing to the Meerasdars the

the privilege of transferring their right by sale or otherwise as a means of protecting themselves from the intrusion into their Community of persons distasteful to them whether by Caste or otherwise which could not but be a fruitful source of dissentions unfavorable to the prosperity of not to the peace of the Community without affecting the right of Government thus permission would tend materially to increase the value of the Meerasdars tenure and considering how much the Meerasdars have it in their power to encourage and still more to discourage new settlers it appears to be desirable to interest them in the extension of the Meerasdars tenure by allowing them to dispose of the waste land subject of course to all the claims of Government.

To The Pr. Coll.r of Tanjore calling for further information on his letter relative to the rights of the Meerasidars of Tanjore over the waste Lands of their respective Villages.

Acknd. 9th September

To The Principal Collector of Tanjore

Sir,

Para 1 I am directed to acknowledge the receipt of your letter of the 26th Ultimo requesting the instructions of the Board on certain points connected with the rights of Meerasidars over the Waste Lands of their respective Villages.

2 The right of the Government to the disposal of waste has been every where acknowledged and this would not seem to be questioned in Tanjore save that the Meerasidars in consenting to the Circar making over their Lands to Paracoodies or strange Ryots for cultivation stipulate for the payment of their regulated Toondawarum the Board are not aware what has been the practice in Tanjore in this respect, but it would seem in direct opposition to the 7th Clause of the Cultivation Rookunnamah forwarded from Tanjore for Fusly 1244. In this it is expressly stipulated, that if a Meerasidar leaves any portion of his cultivated Land

Land Waste, it shall be the duty of the Revenue Officer to get the same cultivated by means of any other Ryots who shall be allowed to retain the Lands and enjoy the Toondawarum thereof so long as they continue to pay the Circar duties. If such be the rule which the Circar exercises over waste land that has at some time been cultivated by the Meerasidars, there can be no doubt as to its right to exercise the same control in respect of waste, but before passing any orders upon your Letter under acknowledgment, the Board desire to know what has been the rule in practice in regard to the disposal of Lands temporarily thrown out of cultivation according to clause 7th of the Rookunnamah above referred to, and they would also wish to be informed distinctly what has been the practice of the District in reference to each particular point upon which you require instructions.

3 In conclusion if any case has occurred which has suggested the

the reference now made by you, the Board would wish to be informed of the particulars.-

For the Madura or water distributor of the Village no maximum was allowed in the said fusly but as his services are indispensable, I beg to

Reporting on the success with which the rules of the Sudder Adalut have been attended in preventing forgeries on Stamp.t paper.-

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter of the 15th July, calling upon me to report whether it has been found practicable

to

Fort St. George 9th September 1841.-

to carry into effect the Rules framed by the Sudr Udalut for preventing forgeries on Stampt papers; and with what success.-

2.

In reply, I beg to state for the information of the Board, that no difficulty has been experienced in carrying into effect the rules in question; but as they have been so short a time in operation, I cannot offer a positive opinion on the measure of success which has attended them. The general impression however, is, that they are well calculated to check the fabrication of fraudulent deeds on Stampt paper, a practice which unfortunately has prevailed in this District to a lamentable extent.-

3.

I beg to forward herewith a copy of a letter from the additional Sub Collector on the subject in question whose suggestions appear to me to be deserving of consideration, especially with regard to the identification of parties applying for Stampt paper without

some such precaution, there seems nothing to prevent a person, intending to fabricate a deed in another's name, procuring a Stampt paper, and having it endorsed under the assumed name of the party intended to be defrauded.-

To,

Canara.

Sir,

Para 1. I have the honor to acknowledge your letter of the 30th Ultimo, requesting me with reference to a letter from the Board of Revenue to communicate to you my opinion whether the rules of the Sudr Udalut prescribing a system to be pursued in the sale of Stampt paper circulated by the Board on the 27th January 1840 have operated to check the crime of forgery in this District.-

2. In reply I beg to state that

Fort St. George 9th September 1841.

that I am of opinion that as far as the system has yet been tried its operation has been successful but it appears to me that in order to ensure the full benefit which the system was intended to effect some further rules are called for. It cannot be doubted that there is at this moment in the hands of private Individuals in Canara a large quantity of unused Stampt paper which was purchased before the new Rules were framed. It is almost unnecessary to remark that purchasing Stampt paper and retaining it until a high price is offered for the purpose of fabricating a false deed is known to be a thriving trade in Canara, and the value of Stampt paper sold long since which is still unused is materially enhanced by the new rules.

3. It cannot be expected that all blanke Stampt papers would be delivered up to the Government Authorities on an order being issued calling upon all persons in possession of any

to

Fort St. George 9th September 1841

to deliver it up, and informing them, that they would receive from the Government the price originally paid; but I think that by an order to this effect, and the rendering it penal to be found in possession of such Stampt paper after a certain period from the date of the order, some at least might be drawn out of the Market. Should there be objections to this plan I would suggest that after a given date, no deed having reference to an engagement alleged to have been concluded after that period should be admissible in a Court of Justice unless it was written on Stampt paper, the entry on which showed that it had been sold subsequent to the enactment of the new Rules. This arrangement would hereafter render all old blank Stampt paper useless except for the fabrication of deeds dated at a period antecedent to the new rules, whereas without some rule of that character, the old unused Stampt paper now in existence can be made use of at any future period by any party who

wishes

Fort St. George 9th September 1841.-

wishes to fabricate a deed in support of an engagement alleged to have taken place after the enactment of the new rules, and when questioned regarding the ancient date of the purchase of the paper he has the ready plea that he did not incur the expense of purchasing fresh paper having an old sheet in his possession and that there was no order against this making use of it.-

4. You will be aware also that several cases have recently occurred in this District in which parties have been brought to trial for assuming false names, and presenting Petitions in the name of the persons whom they falsely represent themselves to be, and at this moment an individual is under trial before the Court of the Principal Sudder Ameen of Seerci for having given evidence on Oath before that Court under a false name. The endorsement on the Stampt paper of the name of the purchaser, "for whom purchased" and for what purpose is calculated

Fort St. George 9th September 1841.-

calculated in some degree to afford intrinsic evidence of the document being genuine when produced in a Court of Justice, and to throw suspicion on the veracity of a party who denies it; and in the generality of cases this entry will assuredly assist the cause of truth against falsehood,- but to guard against the possibility of this indirect evidence in support of the genuiness of a deed being procured under false pretences with the real object of adding weight and obtaining credence for a forgery, I think that it would be advisable on all occasions where Stamp papers are applied for under the plea of being required for the purpose of executing engagements regarding land or other real property or indeed generally in any transactions affecting the interests of another, that before the endorsement is made, proof of the identity of the applicant should be obtained.-

5. The delay in acknowledging your

Sir,

I am directed by the Board of Revenue to transmit to you the accompanying address from Mr. A. A. Para. 1. A Statement of this individual's case is entered in detail in the Register of Petitions received from your district

district for the Month of November 1838.-
From this it is seen that Shunmoogas=
=soondara Moodelly was declared by Mr.
Bannerman in 1824 the rightful Ma=
=nager of the Chuttrum, and that this
decision though temporarily set aside by
Mr. Munro, was alternately confirmed
by subsequent Collectors, and by the
authority of the Board of Revenue.-

3.

Mr. Thompson, however, the
Acting Collector observes that neither the
present claimant nor his opponents
proposed a Summud to prove their claim to
the Village in question which yielded a
considerable Revenue after payment of
the Government demand of Rupees 590
per Annum, and intimating the proba=
=bility of the larger portion of this being
appropriated from the charity to private
uses, proposed at once to assume the
management of the Choultry and conduct
it under the direction of the Officers of
Government. This suggestion was
approved of by the Board of Revenue
under date the 13th December 1838
and hence the Petitioner was ejected from

the management.-

The Board of Revenue

are now disposed to doubt that adequate cause
existed to warrant the course pursued, the
interference of the Collector was only
required on one of two grounds. either
that the Revenues assumed were
improperly alienated, and actually
belonged to Government or that the
owner and founder's family mismanaged
and embezzled the funds properly
applicable to charitable purposes.-
5.
Neither of these suppositions
seems to be correct, the Revenue is not ap=

maintained. and again no enquiry
was made, or complaint received of
the mismanagement of Shunmoogasoondra
