Extracts from the Minutes of Consultation under date the 1st November 1841

Read the following Letter

From the Sub Secretary to the Board of Revenue dated 7th October 1841 No 407

The Right Honorable the Governor in Council concurs generally with the Board of Revenue in approving of the arrangements detailed

1

From the Sub Secy. to Government Communicating orders on the arrangements proposed for the withdrawal of the interference of Government in the Management of the Pagodas in the Nellore District

Para. 1.

detailed in the foregoing letter.

2 The constitution of the body of Trustees for the Management of the Pagodas particularized in the 3d para seems well adapted to the purpose in view with the exception of the clause empowering the remaining Trustees to fill up vacancies in those cases in which the office is not hereditary, which requires modification either by vesting the choice in the Village Community or by causing the duty to devolve ex Officio on the Individuals invested with the office of Head Canjoo Curnum &c. His Lordship in Council also directs that a form of the Trust Deed or Summud by which the Management is to be transferred to the Committee be submitted to Government which should provide for the Accounts being kept open to the inspection of all interested

3 Mr. Sconhouse's proposition of retaining the custody of

of the Pagoda Revenues in the Public Treasury is contrary to the spirit and intention of the orders of the Honorable Court of Directors, and the power of the Collector to interfere summarily in charges of Malversation must be re-limited by the authority exercised by him as a Magistrate under the Regulations.

4 The surplus funds remaining in the Collectors charge to the credit of the different institutions, including those of the Pagoda of Villeparam which must be considered in the light of a deposit belonging to the Pagoda will continue for the present under the care of the Principal Collector pending further orders.

(3) From the Sec.y to Government — Communicating Observations and orders on the Board's Proceedings relative to the management of the Extra Sources of Revenue in the District of Salem for Fusly 1250.

Extract from the Minutes of Consultation under date the 16th. November 1841

Read the following Extract from the Proceedings of the Board of Revenue at Fort St. George 26th October 1841

Para 1 His Lordship in Council observes with much satisfaction that there has been an increase in every branch of which the Extra sources of Revenue is composed in the District of Salem during the Fusly under review and that the Net. Revenue exceeded that of the preceding year by Rupees 111137-12-8

2 This result is the more creditable to Mr. Gleig's management when it is observed that the amount of Revenue of the year with which the above comparison is drawn considerably exceeded that of the Fusly immediately preceding as shewn in the Margin—

To The Chief Secretary to Government

Sir

I am directed by the Board of Revenue to acknowledge the Receipt of Mr. Elliots letter of the 18th Instant adverting to the rumours of popular discontent in South Arcot and desiring to know whether any such exhibitions have occurred since the Commissioner quitted the district

2 In reply I am directed to state that the only exhibition of feeling on the part of the Ryots in South Arcot that has been reported from the district occurred so far back as

7. In my letter of the 11th November last I reported the very unfavorable nature of the season. There was a complete failure of the Monsoon throughout the district, the distress has not however been so great as I anticipated owing to the very large importation of Arracan Paddy. The Board of Revenue are aware that this district generally exports to Madras a considerable quantity of Rice, but in the past year Paddy to the Value of Rupees 220000 has been imported in the Vizagapatam port alone as the scarcity did not extend beyond the immediately adjoining Districts the price of grain continued moderate but as is usual in years of scarcity there was a great deal of disease throughout the district and small pox and Cholera made great ravages amongst the population. We have now experienced five years of severe distress but the present season is a remarkably favorable one and I therefore am disposed to hope that our calamities from this source are at length at an end.

Aumany. 8 I have frequently remarked in former reports that the Revenue of the Palcondah Talook

Talook is generally good in a year of general scarcity as the difference in price there, always compensates for the deficiency of crop, which is seldom very material as a fine River passes through the centre of it which following from the Hills always receives a supply of water even when more falls in the plains. There has been a considerable decrease in the Southern Talooks as they do not possess the same advantages.

9. There was a net decrease of Rupees 22313-4-3 in the Pycotah demand in the Government Estates of which the following are the details, Vizt:-

Decrease in the Southern Talooks from a deficiency of rain	23306-1-3.

18. I hope to be able to recover the greater part of the balances outstanding against Gol=gondah and Palconda[illegible] within the present fusly —

19 — A balance amount=ing to Rupees 1455–4–1. was outstanding against the Surva=diddy Estate the close of fusly 1250 of which Rupees 153–13–3 have since been realized leaving a balance of Rupees 1301–7–1. of this Rupees 1039–0–3 are on Cuttoobady maneims and Rupees 262–6–10. on Jeroyettee lands this latter sum is recover=able. With regard to the balance on Enams I beg to state that almost all the lands have been thrown out of cultivation and the Estate is nearly depo=pulated in consequence of its being deprived of the means of irrigation to which it has a right under these circumstances I see no prospect of realizing

Fort St. George 22d November 1841.

realizing these balances. The Estate does not now produce more than 30 per Cent of the Peishcush and I regret exceedingly that the Board of Revenue have seen reason to object to the proposal sub=mitted with my letter of the 22d September last —

20 Until the Surveyed=dy and Royavarum Estates are united there never can be a sa=tisfactory settlement of the pre=sent disputes. The Civil Engineer has now great doubts whether the plan formerly proposed by him would effect the desired object even of Narrain Row would consent to it as the channel of the river is constantly chang=ing and it is only by the two Estates being under one Proprietor that justice will be done to both.

29 The trifling sum of 8 annas due by the Andrah Zemindar is the amount of a coin rejected as uncurrent in the last remittance and will be shortly realized.

Woorattah 30 The small balance outstanding against Woorattah has been realized since these accounts were closed.

Dimlay 31 There is a balance of Rupees 5940-15-1 due by the Dimlay Proprietor. His Estate is by no means a profitable one and the succession of bad seasons have greatly reduced the circumstances of the Proprietor who purchased the Estate in 1832. He has however promised to pay off the present balance by the end of the year and under these circumstances I refrained from bringing his Estate to sale.

Madigole 32 There was a balance of Rupees

Rupees 26236-2-7 outstanding against the Madigole Zemindary at the close of the fasly of the sum Rupees 11597-11-2 have since been paid leaving a balance of Rupees 14005-7-5 still due.

33 The Board of Revenue are aware that the Zemindary was brought to public sale on the 4th September 1833 for the balance of Rupees 56,856-4-6 and that it was purchased on account of Government for the small sum of Rupees 1000-"-" that it was subsequently restored to the Zemindar on the balance being discharged. For several years the Peishcush was regularly paid but I regret to state that for the last 2 or 3 years this has not been the case. The Zemindary is a very fine one and it is only the extravagance and incapacity of the Zemindar that have again involved him in difficulties.

34 I did not think it would be advisable to bring any Estate to sale in so adverse a season as the last, but I have distinctly warned

1807 Fort St. George 22nd November 1841.

warned the Zemindar that if his Peishcush is not regularly paid in future his Estate will undoubtedly be brought to sale.—

Coorpam 35.— At the time of the death of the late Zemindar there was a balance of Rupees 8,057 which has been reduced by subsequent collections to Rupees 3,744-12-4 Had the Zemindar lived, this sum would have been made good from the early collection of the present year for more than the amount is now in my Treasury. The Estate is a profitable one and I have no doubt but that the Balance will be discharged during the present year. I shall shortly submit a separate report on this Estate to the Court of Wards.—

Velchoor Codoor, Cottoor and Condakerlah 36.— The Estate of Velchoor Codoor, Cottoor and Condakerlah have been under attachment during the past Fusly, and as I led the Board of Revenue to expect in my letter of the 26th October 1840 the result has been an addition to the balance Condakerlah is a very fine Estate possessing ample means of irrigation. But the other two Estates even in favourable seasons yield but a very small profit and in a season like the last considerable loss is inevitable.—

37 The following demand Collection and balance exhibits the individual settlement in these Hoondahs.—

40. I beg leave to submit a brief account which shews the total receipts and disbursements on account of these Tallooks during fasly 1250.

Fort St. George 22nd November 1841

41 The above balance of Rupees 538-4-6 was required for the payment of the Establishment and other incidental expenses. There remained therefore a balance of Pechkeush due on account of Pelchoor Codoor amounting to Rupees 2,659-8-0 and on account of Cotoor of Rupees 3,363-8-0 making a total of Rupees 6023-0-0 which I trust will be made good in the present year.

42 With reference to the Boards proceedings of the 23rd September last, I beg leave to observe that the season is now too far advanced for Estates to be put up to sale as a considerable portion of the present year's revenue has already been realized and this I fear will be the only measure by which any portion of the Government balance can be recovered. It is extremely probable however that the Estates will be brought to sale by an order of the Courts before the close of Fusly when of course the Government balance will be realized from the proceeds. If not I shall again bring the subject to the notice of the Board of Revenue when preparing the annual Advertisement for the sale of Estates in arrears.

44 The balance due by the Chauncheperulah Zemindar is of very old standing and no portion of it can could be recovered during so unfavorable a season as the last.-

45 With regard to the other balances all on account of Fusly 1248. I look upon myself to postpone the realization of the 1/3rd of the balance which ought to have been paid in last year as I was satisfied that the Proprietors would find sufficient difficulty in paying up their current revenue, which I must do them the justice to say they made every exertion to do in proof of which I may refer to the small amount of current balances.- The present season is a very favorable one and I have given the Proprietors warning that all the payments will be credited partly on account of

of current revenue, and partly on account of the one third of their balance which they must pay during the present year and I shall spare no exertion to realize the whole of both.-

46 I avail myself of this opportunity to explain with reference to paras 23 and 24 of the dispatch from the Honorable the Court of Directors conveyed in the Minutes of Consultation dated 28th April 1841 desiring information as to the mode in which the ryots are made aware of the portion of their balance remitted by Government that on the receipt of the sanction the amount of the arrears is struck out of the Hoozoor accounts and orders issued to the Tahsildars and others to do the same and to intimate the circumstance to the ryots.- Afterwards at the time of Jummabundy when all the ryots are assembled accounts exhibiting the demand collection remission and balance of arrears of each ryot are prepared.- These accounts are explained to the ryot in the presence of the Tallook servants so that if any frauds had been committed by the

the latter they would undoubtedly be detected.

47 Before concluding this report I trust a few remarks on the working of the agency in this District will not be considered out of place.

48 The agency has been established under circumstances every unfavourable to the introduction of a new system. The District has been suffering from a famine of great severity and of almost unprecedented duration. In this state of things the benefit it has derived from the change of system is incalculable. The numerous gangs who used to collect in great numbers for the purposes of plunder, and who formed a ready material for any insurrection have been almost entirely suppressed and a gang robbery is now comparatively an event of rare occurrence.

49 The remark of Sir Thomas Munro that "the affairs of the circars can never "be well administered, nor the great body "of the people be protected against oppres- "sion nor the country be secured from "disturbance and the incursions of plun- "derers until our Government becomes "more respected in these Provinces "than it is at present" has been fully justified by the result of the late measures in this district. The hands

hands of the local Officers have been strengthened and the Government has become more respected. Tranquillity has been permanently restored and there is little chance of future insurrections. I do not mean to say that disturbances may not hereafter arise in these Zemindaries where the authority of Government has not been fully established but decision and firmness at the commencement of such disturbances will soon bring them to a close and the spots where this display of the power of Government is exhibited will become as Paleandah and Gol- -gondah have already become the most tranquil portions of the district.

50 But a very important task still remains that of introducing an improved revenue system in those parts of the District which have reverted to Government and which will I trust never again be permit- -ted to pass from their own hands.

51. In those portions of the District which have from various causes fallen into the immediate temporary management of the Collector it is impossible to intro- -duce an improved permanent revenue system and much will always depend on

Fort St. George 22nd. November 1841.

on the ability and industry of the local Officers but in the Zemindaries the case is very different.- By the introduction of a survey and assessment the revenue which is now vague and uncertain will be definite and permanent and I trust that mutual confidence will be established between the ryot and the Government which can never be the case under the present imperfect mode of settlement.-

52 I have made every preparation for the commencement of a survey so soon as the present years crops have been removed from the ground.-

53 The Police of the District also stands much in need of reform, but this never can be effected until a village police is established and this cannot be done in the permanently settled Zemindaries so long as the village functionaries are the servants of the Zemindars not of the Government. Something however may be done by improving the condition of the Police Establishments and especially of the peons but my views on this subject have already been submitted to the Board of Revenue.-

54 The passes between Palcondah and Nimedy have been considerably opened during the past year and a good deal of additional land brought under cultivation.

In

Fort St. George 22nd. November 1841.

55. In conclusion I beg to bring to the notice of the Board the assistance which I have received from all my Assistants especially from Mr. Conway who relieves me from the details of the Southern portion of the District the management of which reflects great credit on him.-

Read the following report.-

To the Secretary to the
Court of Wards
Fort St. George.

(9)

Sir,

From the Collr. of Rajahmundry

Submitting Summabundy report of the Pittapore Zamindary for Fusly 1250 and up to the 27th August 1841 of Fusly 1251 the date on which the minority of the Zemindar expired together with the necessary information for the orders of the Court of Wards.

Para 1. I have the honor to submit, up to 27th August 1841, the date on which the Minority of the Zemindar of Pittapore, Rajah Row Sooriarow expired, the accompanying Statements which exhibit the Settlement of his Estate for Fusly 1250.-

No 1. Showing the Demand, Collection and Balance up to 27th August 1841 Fusly 1251. and since the Estate came under the Management in Fusly 1237.-

2. Showing the particulars of former balances for the years in which they accrued viz from Fusly 1238 to 27th August in Fusly 1251.-

3. Showing the Account Current of Receipts and Disbursements since the Estate came under Management.-

Showing

No 4. Showing the Permanent Summah, Collection and Balance both for arrears and Current.-

5. Showing Comparison of the Summah-bundy Settlement for Fusslies 1249 and 1250.-

6. Showing the Settlement of the Amanicut Vijeabady Villages for Fusly 1250.-

7. Showing the Comparison of the Settlement of Villages under Vijeabady for Fusslies 1248-1249 and 1250.

8. Showing Do Do under rent for Do Do

9. Showing Comparison of the Settlement of the Villages under Vijeabady for Fusslies 1249 & 1250.-

10. Showing Comparison of the Settlement of Villages under rent for Fusslies 1249 and 1250.-

2. The commencement of Fusly 1250 was most unpropitious, being marked by a complete failure of the early rains, which sadly interfered with the Poonasah Cultivation- Such a commencement of the Season after the two disastrous years of 1248 and 1249, threw a complete damp over the District, as the Ryots were deprived of the supply of early cheap Dry Grains, which they usually live on, while the principal Cultivation is going forward. Although the rains were thus late in setting in, the commencement of the South west Monsoon was decidedly favorable and

4. The terms of rent of many Villages formerly let out having expired during Fusly 1249 and no further offers having been made for them 130½ Villages had to be settled under Vifsabady and 65½ under rent in the Fusly under review, the Settlement of the former was made at the following Stations. 4½ Villages of Cadayem Taloke at Vizzaswaram in the Month of March 9 of Attely and Cundavilly Mootahs at Cundavilly in April 15 of Penogondah Taloke at Penogondah in the same Month 2 of Chullapilly and Bheemanapilly Mootahs at Amlapoor in May 58 of Cocanada Taloke at Cocanada in May and June and 42 of Pittapoor Taloke at Cocanada in June last.

5. The following Abstract will show the number of Villages settled under Vifsabady and rent in Fusly 1249 and their transfer to other systems in the Fusly under review.

Of the 65½ Villages settled under rent as above quoted 7 were transferred from Vijsabady under which they had been settled in Fusly 1249 with reference to their average Cist and Collections during the five past years 36½ whose term of rent had expired were rented out to the inhabitants themselves for one year and 22 whose term had not yet expired were retained in the same position. The 69½ Villages whose term of rent expired at the beginning of the Fusly under review and for which no offers were made for their further rent had been very much injured by the late calamitous seasons and the renters had suffered much loss they were in consequence obliged to be settled under Vijsabady along with the 61 Villages which had been settled under the same system in the preceding Fusly making in all 130½ as above particularized.

6. The distinction of Dar and Radar Ryots was abolished in the preceding Fusly but two such seasons as the last have rendered it impossible to form a judgment of the working of the new system substituted the principle of which is proportioning the Ryots engagements to his means of fulfilling them and insisting on their fulfilment unless under adverse circumstances of season indulgence is necessary which system holds forth the fairest prospects of answering every expectation though it requires a fair season to establish its practical working capabilities.

7. The following Abstract will show the Amaraeum Cist the usual remissions and those rendered necessary by the season and the Act Summabundy Settlement of the Villages under Vijsabady.

Thus

Thus out of an Amaraucum Cist of Rupees 2,4,906-8 a remission of Rupees 56,431-4 was allowed under the following heads.

	Cha. a.
Usual Village Charges	4,212-11-
Usual remissions to Village Servants	5,410-4-
Remission on account of Land not cultivated	461-3-
Remission on account of failure of produce	46,347-12-
	56,431-4-

The remissions under the first three heads do not appear to call for any remark but the latter requires explanation. That a remission of this kind was necessary under the circumstances of the season it is impossible to deny but the claims to it were so general and so indiscriminate and were in many instances attended by such a reckless determination not to pay the Revenue even where the resources were ample, that the greatest caution was necessary in the selection of the claims which really merited attention and in consequence of the difficulty there is no doubt but that in the fear that a too general admission would involve an unnecessary sacrifice of Revenue many items of demand have been retained which are really irrecoverable. In consequence of the conduct of the Cocanada Ameen in abandoning the realization of his revenue from the commencement I was obliged to remove him as reported in my letter of 15th April 1841 and though his conduct has not involved a criminality to render him unfit to be employed in another situation his removal from this was absolutely necessary. The Pittapoor & Cocanada Talooks adjoin

adjoin and though the circumstances of the latter were the worst, still they barely justified so great a difference as follows. In Pittapoor out of a Fysabady settlement of Rupees 98,147-6-9 the remissions were Rupees 20,390-4-7 In Cocanada out of Rupees 99,779-13-1 Rupees 26,50-6-2. In Pittapoor out of Rupees 17,757-2-2 the Act. Fysabady settlement Rupees 46,558-16-11 were realized within the year In Cocanada out of Rupees 64,129-5-11 Rupees 37,840-4-7 only were realized. The Penogondah Talook was received by the Zemindar Cty from Chintapullah Venkatarow in the year 1837 in a state of depression from which it has not had a chance of recovering.

8. In consequence of the adversity of the preceding and the lateness of the season under review the Fysabady Amaraucum was so short from the commencement that it was desirable to comply with the requests of the Ryots

Fort St. George 22nd November 1841

Ryots to be allowed to carry on some cultivation on Aswarah settlement on division of the produce and nothing can be a stronger proof of the unfortunate turn of the season than the failure of this source which under ordinary circumstances was calculated to yield Rupees 35,897-13- instead of Rupees 2001-15-1.

Fort St. George 22nd November 1841

It will be seen by the above that there is a decrease of Rupees 13,931-5-10 in the settlement of the Villages, which were held under Vistabady both for fusly 1249 and 1250 and Rupees 53,509-8-9 on the settlement of those which were held under rent for fusly 1249 and under Vistabady for fusly 1250 making in all a total decrease of Rupees 67,440-14-7

10 The following abstract shews the settlement of the Villages under rent for the fusly under review, compared with their settlement for fusly 1249.—

It is shewn by the above that there was a decrease of Rupees 3,039-11-4 under this head, but as the rents were only for one year, it was much more advantageous for the Zemindary to submitting to this trifling sacrifice under the adverse circumstances of the seasons, than bringing more Villages under Vistabady than was absolutely necessary— The following statement shews more distinctly the decrease under this head—

as irrecoverable under the Head of Rents. With respect to the remaining rented balances Rupees 219807-8-5 I have always considered that a great part of them must be remitted, but my efforts at a fair and amicable adjustment have been met in such a spirit of vexatious and litigious resistance involving so much proceedings in Court that it appears to me they must stand until an arrangement is come to with the Zemeendar. With respect to the Annamie balances of Rupees 494141-13-7 I beg leave to recommend that Rupees 463447-4-8. be written off, the portion of it formerly retained under Hurruff Rupees 35548-7-7 having never been intended to be recovered and the desperate nature of the last three seasons having rendered it hopeless to suppose that the balances under the head of Chellanemayem to the

end of fusly 1248 Rupees 20898-12-11. can ever be recovered. A considerable portion of the balance of fusly 1249. Rupees 30694-8-11. may still be recovered I have therefore classed it recoverable. Of the Sundry balances I have classed those of fusly 1249 Rupees 2311-6-11. as recoverable, and I beg leave to recommend that the rest of Rupees 9564-7-5. be written off with reference to the accompanying Statement No 11. Thus out of Rupees 812311-4-11. I have recommended that Rupees 559497-12-8. be written off and Rupees 252813-8-3. be retained besides Rupees 78747-4-10. on account of fusly 1250.

16. The following Abstract, which corresponds with the accompanying Statement No 3. shews the receipts and disbursements, both in fusly 1250 and subsequently upto the 27th. August 1841. when the Minority of the Zemindar expired —

By the above it will appear that including the sum in hand at the end of fusly 1249, the available assets of fusly 1250 were Rupees 3,33,662-7-2, of which Rupees 2,34,717-13-5. were carried to the account of the Government Peish=cush, and Rupees 96,374-9-10. were ex=pended in the ordinary charges both of fusly 1250 and to the expiration of the minority leaving a balance in hand of Rupees 2,569-15-11. to be further car=ried in full or in part to the credit of Government as soon as the accounts are finally settled among the receipts are the proceeds of a Bond for Sicca Rupees 8,200- which with its interest was realized through the Account=ant General in the fusly under review and the charges include the Commission for fusly 1249-1250 and to the expiration of the Minority which latter charges however require to be approved in the Office of the Civil Auditor -

Besides the above balance there is another demand of Rupees 98,691-7-10. on account of money advanced to the Zemindar to

to meet the Decrees of the Court - For the discharge of this balance, the Zemindar is willing to give a Bond, as explained in the Petition which accompanied my letter of 25th Septr = tember last and I accordingly beg leave to recommend that I should be allowed to make over the Zemindary to him on his executing such a Bond for Rupees 98691-7-10 repayable in 4 years at the rate of Rupees 24672-13-11½ per Annum, with interest at the rate five per cent - I confidently believe that the Zemindar will pay this amount back much sooner but it must be borne in mind that since the famine years of fusly 1242 this Zemindary has not experi= =enced one good season & the three last have been most calamitous to it and no part of the District was so seriously affected by the storm and inundation

J.R.B.

inundation of the Sea in November 1839 as a considerable portion of this Zemindary, he is therefore naturally unwilling to pledge himself to more, in the actual depressed state of the resources of the Zemindary. My reason for not expecting to recover a portion of this balance in the current fusly is, that though the season is as favorable as I can possibly wish, the Zemindary is so crippled in Ryots and Cattle, that I do not think the current Revenue can exceed Rupees 4,50000 to which may be added Rupees 40000. out of the balances to be handed over to the Zemindar according to Para 15 of this report, and without the recovery of a portion of which the future demands against the Zemindary could hardly possibly be met. From the re= =sources thus estimated by me for fusly 1251 - at Rupees 4,90000. Rupees 387,111 - 0 - 4 are required on account of the Government Peish= =cush, and Rupees 53248-13-1 on account of the two Court co= Demands as explained in my letter of the 28th Ultimo. leaving Rupees 49640-2-7 for the expenses of Management and the co= =provision of the Family.

I have not included as Saccaverum in my Calculation it being merely an advance recoverable within the year.

From the Sr. Collr. of Nellore. ——

I have the honor to transmit

Reporting on the settlement of the District for fusly 1250.

herewith the Summahbundy and Kisthbundy

transmitting various accounts connected therewith.

2. Statement for fusly 1250. with a detailed Summahbundy Statement in English and

3. Maratta and a Comparative Statement of the Beriz of that fusly and the previous one.

2. Eight of the ten Talooks which compose the Principal Division were settled by myself the remaining two by my Head Assistant Mr. Swaine. The

6. The Season for the first cultivation, wet and dry, was extremely unfavorable, and the same may be said of the second series of crops. In the Months of April and May the chief period for the cultivation of the Caur, there was no rain, and a fall of not more than 4 from one to 2 Inches in June, and that only in partial showers not sufficient for ploughing - In July the Principal season for the cultivation of the 2d Crops there were only some partial

partial showers and a small supply of water in the rivers - In august the fall was not more than two Inches and but a trifling fresh in the rivers and there was a failure also in the September rains In fact the petty monsoon which is the grand supply of water for the second series of crops almost entirely failed - The N. E. Monsoon set in the latter end of October, and the rains were very heavy till the 10th November when they entirely ceased and there was no subsequent fall excepting a few showers in January. The total quantity of rain which fell in October and November was above 28 Inches - The Cultivation of the year was chiefly confined to the 3d crop and the season generally may be considered as much more unfavorable than that of fusly 1249 - The produce of the 1st and 2d series of crops, wet and dry of such lands as were cultivated was generally scanty, from the want

want of water, and in several Villa
the crops altogether perished - In the
3d. Series of crops the dry lands yield
an average produce, and the wet crop
not more than half the produce
of an ordinary year, from the insuffici
of water in the latter period of their gro

others it was a little higher, but within

decrease in the price of dry grains range

District for the last 3 successive fusla
for which, excepting in fusly 1248 -
there has been little external demand,
and it is this which occasioned the
low state of prices in fusly 1250.

notwithstanding the unfavorable-
-ness of the season.-

8. The Marginal statement exhibits the extent of land of all descriptions occupied at the commencement of the year, compared with the previous fusly - In the Prin-cipal Division there was a decrease in the extent of Maganie lands of 211 Goortoos upon nearly 36,000 Goortoos - and in the Metta lands of Goortoos 454 upon upwards of 29,000 Goortoos - In the Mooloom, there was an increase of one Goortoo - The chief falling off was in the Sareb lands comprising Tobacco, Sugarcane, Chillies,

Sub Division. Principal Sub Division.

Lands occupied for Cultivation -

9 The relinquishment of the Maganie and Metta lands is partly owing to their having been cut up or washed away by floods, partly to their having become from one cause or another unproductive, and partly to the changing circumstances of some Ryots from the loss of Cattle, or other accident which obliges them to curtail their cultivation. The relinquishment of the Sareeb is connected with the subject adverted to in Paras. 6 7 and 8 of the Board's Proceedings on the Settlement of Fusly 1249 - on which a separate report will be furnished as directed.

10. In the Sub Division it will be seen there was an increased occupancy in the dry and wet lands, while there was a decrease in Moolooms of 16 and in Sareeb of 30. Gortoos below that of Fusly 1249 -

11 From the greater unfavorableness of the season, the Board will be prepared to find a considerable decrease in the extent of wet lands actually brought into cultivation. A comparison of the actual cultivation with that of last year is exhibited in the Margin. In the Wet lands in the Principal Division there was a decrease of 4,555. Gortoos. the actual cultivation being about 70. per % of the land occupied in the Sub Division - The decrease was Gortoos 1,483. and the actual cultivation did not exceed 34 per % of the lands taken up at the commencement of the Fusly -

12 - I should explain with reference to the Board's remarks in Para 12 of their Proceedings on the Settlement of Fusly

fusly 1249 - that in some Villages the great portion of the wet lands are adapted only to the cultivation of particular descriptions of rice included under the general designation of Codavaree which constitute the 3d. Series of crops, while in others almost the entire lands are adapted to the Cultivation of other descriptions termed Peddavaree, and which constitute the 2d. Series of Crops - Codavaree lands will yield but a scanty produce if cultivated with Peddavaree and the result is the same, if Peddavaree lands are cultivated with Codavaree - they have each their peculiarities in respect to soil and the period of Cultivation is different. The Peddavaree Cultivation is from July to September, while the Codavaree Commences from early in November and extends to the end of December - In those Villages consisting chiefly of Codavaree lands the rains of September even though they filled the Tanks would not be required for the wet Cultivation till

some time after, & not sufficient for a tank simply to fill to ensure full Cultivation, but to be full at the particular season when the water is wanted - A tank may fill in September it may fill again in November, yet if the Monsoon rains which usually fall till the middle or latter end of December should fail, the water of the tank is of necessity expended for the irrigation of lands and crops which would otherwise have been saved and thus at the usual period of the termination of the N. E. Monsoon the tank is perhaps left only half or ¾ full and the extent of Land which can be cultivated is proportionably diminished - In fusly 1249 - there was no rain after the middle of November and the water in the Tanks was necessarily used during a period of upwards of a Month, when with

an

an ordinary monsoon it would not only have been kept but added to. The Number of tanks which breached in fusly 1249. was 55 and of supplying channels 9.

13. The Cultivation of the dry grain lands was nearly as in the preceding year in both Divisions. In the Principal Division there was an increase of 192 Gortoos, and in the Sub Division of 73 Gortoos.

14. In the Mooloom or garden lands in the Principal Division, there was an increase of 46 Gortoos on 2,600 Gortoos on the actual Cultivation of the Preceding year, occasioned by the repair of some old Wells which had fallen in the previous year, and by the formation of some new wells. In the Sub Division there was a decrease of 20 Goortoos.

15. The extent of Sareeb land cultivated was two Gortoos in excess of last year in the Principal Division

Division, while in the Sub Division there was a decreased cultivation to the extent of 10 Gortoos.

16. The following is a Comparison between fusles 1249. and 1250 of the percentage of the wastage on the lands taken up at the commencement of the year omitting fractions.

Fort St. George 22d November 1841.

18. The Gross Settlement amounted to Rupees 15,87,613 — 2 — 5. the deductions to Rupees 2,94,793 — 9 — 9 — The Net Settlement was Rupees 12,92,819 — 8 — 8 — being Rupees 1,23,907 — 4 — 7 — below the Net Settlement of the previous fusly. — of this amount Rupees 82,878 — 14 — 9 — was the decrease in the Principal Division and Rupees 41,028 — 5 — 10 — that in the Sub. Division.

19. I proceed now to explain the deductions from the gross Settlement of the Principal Division amounting to C Rupees 2,24,178 — 9 — 8.

20. The increase in the deduction under this head compared with the previous fusly was Rupees 564 — 12 — 8. which does not seem to call for particular remark. In the Sub Division the deduction under this head was very large, compared with the previous year.

The circumstances of the

season as already detailed sufficiently explain

explain the cause of the large deduction for Maganie waste – The cauv cultivation was almost entirely prevented this year, and that of the 2d crop was very limited – Some portion of the Magany waste was occasioned by the breacking of Tanks and supplying channels, by the sudden and heavy fall of rain in the early part of November – Every possible exertion was used to repair these damages so as to secure some water for the remaining cultivation, but there was no rain afterwards, and they consequently remained nearly empty and put a stop to any further cultivation under them. The banks of 22 tanks and 5 supplying channels were breached.–

23– The deduction for Mettah Bunjer in the Principal Division in Fusly 1249. was Rupees 2,691–10–11– in Rs. A. P.

The

Fort St. George 22nd November 1841.

The remaining two items composing the sum of Rupees 6730-11-6 are Rupees 242-10-5. on account of lands in lieu of which other lands were in the course of the year cultivated and Rupees 47-5-10. on account of lands washed away by floods.

24. The deduction for Mooloom and Parcel Bunjer was on Rupees 3304-12-10. In the previous year it had been Rupees 3661-3-4. It was made only for such lands as had been unavoidably left waste from a failure in the sources of irrigation or actual inability of the Ryot from unavoidable causes to cultivate the land. There were as there always will be instances of substantial Ryots leaving lands untilled from one cause or another, which they might have cultivated had they thought

thought fit. The assessment on such lands was included in their Pottahs the particulars of which in the Principal Division are as follows.

Inundated Lands-25

The 3rd Item of deduction from the Gross settlement was for inundated lands which Amounted to Rupees 15,739-7-6. in the Principal Division, while in the previous year it had been Rupees 47860-14-6. This was occasioned by the nature of the Season as explained in my previous remark. The deductions were on

26. I entirely concur with the Board in the expediency of making under this head all lands whether cultivated or waste, that shall in future adopt the suggestion made in their proceedings on the settlement of Fusly 1249-7 confining them to such lands as have been actually sown and bringing the deductions for waste mandated lands under the head of waste.

Cowle Remission 27. The next Item of deduction was for Cowle lands. In Fusly 1249- it amounted in the Principal

Principal Division to Rupees 2562-14-4 and in Fusly 1250 to Rupees 1962-11-3- giving a Decrease of Rupees 600-3-1

In the Sub Division there was a considerable increase as exhibited in the Margin. Of the deductions made in the Principal Division amounting to Rupees 2562-14-4 Lands assessed at Rupees 382-3-11 came upon full assessment in Fusly 1250 Rupees 208-12-8- were deducted under special circumstances which will be presently explained while the deductions for Lands which came upon a higher rate of assessment was proportionately reduced.

On the Cowle Lands therefore which received a Cowle remission in Fusly 1249- of Rupees 2562-14-4 a remission of only Rupees 1169-1-4 was made in Fusly 1250- That granted in lands newly taken up on Cowle in Fusly 1250 was Rupees

The increase in
the Cowle remission in the
Sub Division is owing to
the new occupation of Lands
upon which a Cowle remission of Rupees
1051-3-10. was allowed.

28 The Board in Para 10 of
their Proceedings on the Settlement of
Fasly 1249 have directed me to explain
under what circumstances it was considered
necessary to grant remission on Cowle
Waste. The amount of the deduction referred
to by the Board was Rupees 395-1-8. This
deduction was made partly on account of
Land which the Season did not permit
the Cowledar to Cultivate, in
the principle of which a former
Board concurred. The deduction
however on this account in Fasly

+ Proceedings on the Settlement of Fasly 1244 Para 10.

1249. was small Viz. Rupees 18-12-
The chief deduction was on account of
Mettah Viz. Rupees 376-5-8 Of this
Rupees 218-14-5- was on account of
Ryots who had absconded, Rupees 127-
12- on account of Ryots whose
extreme poverty and want of Cattle
had prevented them from cultivating
the lands they had prepared for and
from whom there was no means of
recovering the amount even had it
been imposed upon them. Rupees 15-1-3-
was on account of lands washed away
by floods, for which the Ryots Cultiva-
-ted other lands bearing full assessment.
Rupees 14-10-11 was on account of Ryots
who from the time of their first pro-
-posing for the lands had never Cultivated
them declared they could not Cultivate them
and wished to be relieved of their engage-
-ments. Most of the lands taken up
on Cowle remission in this District are

Fort St. George 22nd November 184

are taken up by the poorest Ryots for
the sake of the remission and it seldom
happens that they retain them after the
Cowle period expires. The Board will
observe that a similar remission was made
in Fusly 1250 to the amount of Pagodas
208-12-8 the particulars of which
are as follows.

Maganie Waste	Rs.	50-4-0
Maganie Sookkee		30-9-0
Total Maganie		80-13-0
On account of Ryots who had absconded		41-1-0
On account of Ryots who had not Cultivated in the previous years or paid the Assessment and who wished to throw up the Lands		67-10-0
On account of Land which from being liable to inundation the Ryots wished to throw up and for which they mostly Cultivated other Lands bearing full Assessment.		19-3-8

29. As a general principle
I conceive that a Cowle dar has no right

Fort St. George 22nd November 184

to expect remission on crops which
have perished from want of water, and
if the sookkee in the cases above noticed
had been partial no remission would
have been given but it was not so and I
therefore thought a departure from
the general principle called for. The
Crop upon the whole Land he had
brought into Cultivation was entirely lost
by drought and it did not appear to
me that there was any difference between
that of loosing his entire Crop by drought
and of his having left the Land waste
from a want of Water to Cultivate it.
The difference if any existed told against
him for he got nothing in either case
and in the former he lost his seed and
labor. I am not aware that any precise
rule has been laid down in cases of sookkee
in Cowle Lands and I shall be glad there-
fore to be favored with the Boards
instructions how they are in future to be dealt
with but I think the principle laid down
in Para 17 of the Board's Proceedings on the
settlement

Settlement of Fusly 1244 was meant to
apply to these among other Cases.

Palwashee 30 The deduction for Palwa-
-shee amounted in the Principal Divi-
to Rupees 943-10-6. being Rupees 60-9-8
below that of the preceding Fusly. It was
given on the same principles as in the
preceding years and which have been
explained in my former reports on this
Payatkarry Palavashee amounted in
Fusly 1249 to Rupees 371-1-6 and in
Fusly 1250 to Rupees 298-12-9. The Pala-
Palwashee in Fusly 1249 was Rupees 633-2-8
and in Fusly 1250 Rupees 644-13-9.

Discretionary Remission. 31. The deductions under this
head in Fusly 1249 amounted in the Principal
Division to Rupees 566-13-9. and in the present
year to Rupees 499-11-7. There was also a
decrease of Rupees 607-6-5. in the discre-
-tionary remissions given by the Sub
Collector compared with the preceding
Fusly.

Fiscal Cumnee 32 The only remaining Head
of deduction from the Gross settlement
is that Fiscal Cumnee in which in the
principal Division there was an in-
crease of Rupees 123-5-9. Of this

In the Sub Division Fiscal Cumnee was re-
allowed to the amount of Rupees 12-11-9. there
having been no deduction under this head
in the previous Fusly.

33. The Net Settlement of the

These results do not seem to call for remark.

38 Of the Net Ryotwar Bariz of the Principal Division of Rupees 876827-13-11 there was collected within the Fasly Rupees 823662-1-6. The subsequent collections up to the 15th September amounted to Rupees 2,607-15-1 leaving at that date an outstanding balance of Rupees 27157-13-4 or Rupees 3-1-6 per % upon the Bariz. This balance as arises principally from a deficiency in produce in some Villages, for as the Board are aware, if Lands yield any produce however small they are

are included in the Settlement while in such cases to collect the full assess=ment could have no other effect than to distress even a substantial Ryot and to ruin a poorer one. The outstanding balance also includes the assessment on Bunjer Lands wet and dry which were assessed on the Ryots in conse=quence of their neglect to cultivate them though they had the means. It is difficult to make the Ryots sensible of the justice of this practice. They consequently procrastinate and with=hold payment as long as they can and I am averse if it can be avoided to resort to harsh proceedings for the realization of the assessment upon lands from which they have had no return. It includes also sums due by poor Ryots, The Ryots independently of a scanty produce upon many of their lands have had to contend with prices 25. to 30 per % lower than the settlement

46. The net Decrease in the Land revenue is Rupees 1,32,276-3-2. The decrease of Peishcush arises from the resumption of the Woodiagherry Jaghire, while two Fasts in Fusly 1249. were realized and credited to the Peishcush of that year. The decrease in the Shrotreums is owing to the 5 Villages held as Shrotreums by the late Sheristadar of Woodiagherry having been resumed and transferred from that head to the head of Coorg Villages. The State Currency Rent fluctuate with the Beriz, and the decrease of Revenue from this source arises from the decrease in the last Revenue of fusly 1250.

47. The Sub Collector has not as yet furnished his report, and as the utmost limit for the transmission of my own has already exceeded I have thought it better not to wait but to transmit his report when received, separately, with such remarks as may appear called for. The late period at which my own report has been sent in has been occasioned by the heavy press of business entailed upon myself and my Sheristadar Department in the formation newly of a Ryotwar field Settlement in the resumed Jaghire of Woodiagherry. This engaged me and my Servants after the Settlement of the Government Talooks for a good portion of the time which otherwise would have been given up as in former years to the preparation of the Summahbundy Accounts, and which was thus unavoidably delayed.

48. In regard to my omission to notice the point in the Sub Collectors report in fusly 1249. referred to in Para 16. of the Board's Proceedings on that fusly. I have to explain that an excess of lands discovered by measurement is a circumstance

more or less of annual occurrence. It did not therefore appear to me necessary to remark upon this point. The Sub Collector has been requested to furnish the information called for by the Board, which shall be submitted with a separate letter. The other point, namely the assessment imposed by the Sub Collector on account of fraudulent charges in the turums of the lands of some Villages. I would have noticed had I been able to do so in the only way in which it would have been satisfactory to the Board, but I had been and was still, on Petitions from the Ryots of several Villages in the Sub Division in communication with the Sub Collector on the subject, and was not prepared to offer an opinion on his proceedings in this respect, at the period of transmitting my Animadversion report. I adopted however at the time the measures which

which appeared to me called for, the result of which has given me reason to think that his proceedings have been somewhat questionable and that the change of turums which gave rise to the additional assessment imposed has been in some cases not satisfactorily substantiated. The Sub Collector has the subject now under re-consideration but I have requested him except to his turum subsist assessment to adhere to the classification and assessment which has been hitherto in force, till I am able on his further consideration of the matter to come to a satisfactory conclusion on the subject. For these reasons I am not at present prepared to lay my sentiments fully before the Board, and I am obliged to request their permission to make it.
