a small quantity of land has this year been cultivated with Punjah, and the Village has in consequence been added to the money rented Villages. Two Poroopoo Villages were transferred in Fusly 1250 to the Collector's Division.

3 — The Carr season commenced in a promising manner, but on the rains usual in July and August failing the Carr Cultivation suffered considerably and the extent of unproductive land and land yielding a scanty produce was much greater than in the preceding Fusly. —

4 — The Peshonnee season on was on the whole a favorable one but the failure of the usual rains in September deterred the Cultivators from employing Poonjah land to the same extent as in last Fusly and there is consequently a decrease in

5. The Statement No. 2 shews the particulars of Carr Cultivation as compared with Fusly 1249 and exhibits a decrease in Punjah of S.C. 430 - 12 - 5 1/2 it will be seen however by the statement in the Margin, that it has not fallen below that of Fusleis 1247 and 1248 the Carr season of which last Fusly commenced in a most promising manner. The increase in the extent of unproductive land is to be attributed to the failure of rain towards the conclusion of the Carr season. — Peshonnee

In the Peshonum Punjah Cultivation (Vide Table No. 3) under Channels and tanks supplied by Rivers there is a decrease of S.C. 44-5-7/8 but as the extent of land which suffered from drought was less by S.C. 349-1-6/4 than in last year the extent of productive land was greater by S.C. 304-17-5/8 than in the former year. The Punjah Cultivation exceeds that of the preceding year by S.C. 7-36-13-2 3/4 the season was peculiarly favorable for the description of Peshonum Punjah Cultivation and a greater proportion than usual of the land cultivated yielded crops which came to maturity. The increase in both descriptions of Peshonum Punjah Cultivation is S.C. 1113-3 1/2 In Punjah mail Punjah there is an increase of

Fort St. George 22nd. Nauember 1841

and in Tompye of S.C. 289-7-7/8 The decrease of 1340-35/64 Chains in the Punjah Cultivation was occasioned as has been observed by the unfavorable commencement of the Peshonum season.—

17311 Fort St. George 22d November 1841

8. The Net Warapuk Jummah of Fusly 1250 compared with that of Fusly 1249 exhibits a Net decrease of Rupees 2,466-12-11. The Gross decrease attributable to the lowness of the Commutation prices amounts in G. Collahs 145,328-3-3/4 the Malwaram of last Fusly to Rupees 38,726-11-7. From this amount must be deducted Rupees 8,296-3-11 being the value of G.C. 3,128-7-3/4 the Malwaram of G.C. 638-17-5/2 which is the extent of increased Cultivation as compared with last Fusly as there is an increase in the average rate of Malwaram of 5 15/64 measures per GC of land amounting on G.C. 29,857-7-5 3/8 the extent of Cultivation in Fusly 1249 to Grain Collahs 929-8 7/8 Commuted according to the average prices for Rupees 2,463-9-8 this amount also should be deducted from the gross decrease and the result will be a Net decrease of Rupees 2,466-12-11 as stated

17312 Fort St. George 22nd November 1841.

Rupees 52-7-4 in consequence principally of a decrease in the extent of Cultivation

No. 9 Nunjahmailpoojah

Fusly	Extent of Cultivation	Average Jeermah per GC.	Jummah Amount
	GC. m m	R a p	R a p
1249	2,826 20 1/2	4 4 9 15/16	12,691 4 2
1250	4,630 1 5/8	4 8 11 20/32	21,122 6 11
Increase	1,803 1 1/8	" 1 12/32	8,431 2 9

10. — Of the total amount of decrease of Rupees 3915-6-1 under the head of Cowlepottom the decrease of Rupees 3,475-9-10 was occasioned by the lowness of the prices a small extent of cultivation and a trifling decrease in the rate of Malwaram will account for the remaining defalcation.

11. — The revenue derived from the lands held on a Poroopoo tenure have fallen short of

12. — This increase in Nunjah Mail Poonjah may be attributed partly to the very favorable nature of the Peshcomm season and partly to the withdrawal of some restrictions regarding the employment of Nunjah land for this description of Cultivation which were found to operate injuriously, by inducing the Cultivators to leave entirely waste, lands which they had formerly cultivated with Nunjah Mail Poonjah, and which the uncertainty or insufficiency of the means of arrigation deterred them from cultivating with nunjah. The order remaining these restrictions was issued late in the last season of fusly

fusly 1249 to produce any effect during that year & the Seshoonum season was too unfavorable for Nunjah Mail Poonjah to induce an extension of this description of Cultivation.

13. A Statement shewing how much land under the head of Nunjah Mail Poonjah was cultivated from Wells and how much from Channels and Tanks is annexed.

	Nunjah Extent of Land	Nunjah Mail Poonjah Rent
	Ch m m	Rs a p
Cultivated from Channels and Tanks	2,415 16 5/8	11,139 1 2
From wells	2,154 7 6 3/8	9,813 7 7
By rain falling on the Spot	59 18 5/8	199 4 2
Total	4,630 1 8	21,122 0 11

Report from the Sub Collector dated 21st September 1841.

Report to the Secretary to the Board of Revenue dated 3rd November 1841.

/Signed/ H. C. Montgomery.

Collector.

Ordered

17331. Fort St. George 22nd. November 1841.

Order thereon.- Ordered to be sent again in Circulation.

(37-38)

To The Secretary to the Board of Revenue Fort St. George

(39)

Sir

From the Collector of Tinnevelly - - - - } Para 1. I have the honor, in reply to your letter of the 30th. September last, to state that there is no system in this District which prescribes the imposition of fines under the designation of Sharana, or answering to it in cases of clandestine abstraction of Grain from the heap before a Division of produce between the Ryot and Government has taken place.

Stating in reply to Board's letter of the 30th Sept. last that there is no system in his District which prescribes the imposition of fined under the designation of Sharana in case of clandestine abstraction of Grain from the heap before a division of produce but that the practice is to hold the Cavilgars, under whose charge the Grain is placed, responsible for any loss.

2. It appears however to have been the practice in Tinnevelly to hold the Cavilgars under whose

17332. Fort St. George 22nd. November 1841.

charge the grain was placed, responsible for any loss that might occur, and to punish for theft. Persons convicted of the offence of taking Grain heaped under such circumstances whether or not the owners of the land producing it.

It must be observed

3.

that cases of this description seem to have been very rare in this District, and that the number of Villages is now reduced many to 18 Situated in one small Talook.

Tinnevelly, - - - } [Signed] H.C. Montgomery
17th. November 1841. } Collector.

Order thereon:- Ordered to lie on the Table.

Read

17333 Fort St. George 22nd November 1841.

Read the following letters.

To The Secretary to the
Board of Revenue
Fort St. George

(41)

From the Pt. Coll.r of Coimbatore.

Sir,

I have the honor to acquaint you, for the information of the Board of Revenue, that Annajee Row, the Naib of this District, has accepted the Office of Head Seristadar in the Salem Cutcherry, and with their permission I propose appointing Streenevasa Row the present Tahsildar of the Taloog of Coimbatore to succeed him. He is a Servant of 28 years

Vide return of Tahsildars attested on the 1st May 1841.

17334 Fort St. George 22nd November 1841.

2 Months and 28 days standing, and qualified to hold the appointment.

Coimbatoor, Princ.l Coll.rs Office, 8th November, 1841.

/Signed/ J. C. Wroughton
Principal Collector.

Proceedings thereon.

(41. 42)

The Board of Revenue are not aware of any objection to the selection of Streenevasa Row, Tahsildar of Coimbatoor, to be Naib Sheristadar vice Annajee Row, promoted, and his nomination by Mr. Wroughton is approved accordingly.

To The Secretary to the
Board of Revenue
Fort St. George.

(43)

From the Princ.l Coll.r of Coimbatore

Sir,

Adverting to your letter of the 28th Ultimo, I have the honor to state for the information of the Board that, with the exception of the cases noted in the margin, no judgment has as yet been passed in any of the suits against the Principal and Sub Collectors of this District, referred to in the Statement which accompanied my

O.S. No. 9 of 1838.
O.S. No. 160 of 1839.

ch were filled

In

4 In Doopaud Talook rains fell in June, July and September, Some Tanks received a full supply, others half, some a quarter.

5 In Budwail Talook rains fell in June, July, August, September and October. The large Tank of Budwail and the Poornamilla Tank received a supply. The Tank of Calasapaud filled. Some Tanks received very little water. In Doopaud and Budwail there was towards the end of the season a failure of rain for the crops, and on an average the Cooshky harvest for the three Talooks may be reckoned at 3/4 of a full one. The Bagayet lands yielded a full crop. Lands depending on Tanks and Nullahs Poonasa and Turry produced good crops in Cumbum Talook. Some crops died in the other two Tanks for want of water and the Paddy may be supposed to have reached an average of 3/4 of a full harvest. Ragee

thrived well. Indigo and Turmaric suffered from blight, and averaged half a full crop.

Statement A

The statement A is comparative of the vilavary for Fuslies 1249 and 50. There appears an increase in every description of land, Cooshky to the Amount of Acres 2,389-2-4/4. Turm 2,981-4-5 does not appear under that head, having been included under Neraurumbhum In Cumbum the favorableness of the season induced the Ryets to agree for additional lands assessed at to 3702-4-1. Fusul Jasty was cultivated in Cumbum and other Villages a second time to the amount of 2475-10-5. Cooshky and other lands were cultivated for Teerwa Jasty under Tanks and old Wells to the Amount of Rupees 1039-4-11. Lands in Doopaud discovered by Carkoons to have been cultivated in 1249, lands voluntarily undertaken by the Ryets. Lands discovered during a jamabundy of 3 Months in this Talook

Talook to have been cultivated tho not agreed for lands found to be in excess of the Py: mash measurement in a greater ratio than 12½ per cent for Cooshky, and 10 per cent for Sury Vau. amounted to Rupees 5,232-3-5. There is decrease 159-4-11- in comparison of Fusly 1249 in consequence of Fusul Jasty not having been cultivated for want of water Cooshky under old wells cultivated for Teerwa Jasty Amounted to Rupees 611-4-10 In Budwail Talook the Ryots voluntarily agreed for additional Sury and Cooshky to the amount of Rs. 2,673-9-4 There is an increase of Teerwa Jasty on Cooshky cultivated under old wells amounting to Rupees 322-1-10. Owing to the deficiency of water there is decrease under Fusul Jasty of Rupees 2,968-13-10. The increase of the Iyen Turm of the three Talooks is Rupees 11,608-1-3 of the additional Turm is Rupees 2,625-3-6

Statement B

B is a Statement Comparative of lands sown in Fusilies 1249 and 50. Cooshky- There appears an increase of 7,086-13-10. very little water remained in the bed of the large Tank at

Cumbum at the beginning of Fusly 1249 and consequently in the early part of that Fusly a portion of the bed was cultivated. The greater part of this flooded in Fusly 1250 This land is heavily assessed and the Ryots cultivated instead of it more lightly assessed Cooshky in other Villages an increase of 2,429-38-12/4 acres cultivated is exhibited while the amount of assessment is diminished Rupees 172-5-8. ——

In Doopaud and Budwail, the Ryots were able to cultivate in the beds of Tanks owing to the smaller supply of water in Fusly 1250 and there appears an increase of acres 10,012-4-„ assessed at 7,259-3-6.—

Bagayet. The lands depending on wells in the Tanks of the Goondlacummah and Jumpalair were generally flooded this year, and the decrease on this account is acres 314-21-1/4 assessed at Rs. a. p. 2,100-3-6.—

In Doopaud and Budwail more lands were cultivated, and the increase of assessment Amounted to Rupees 933-12-7. The net decrease is Rupees 1,166-6-11

Sury

Fort St. George 22nd November 1841

Tuny and Poonasa in Cumbum Talook the increase is acres 345-5-4- Turm 3,416-12-2 and additional Turm 2,497-3-8-

Poonasa lands of Cheru:lapully and other Villages lying in the bed of the Poormamilla Tank flooded in 1249 and cultivated in 1250 amount to acres 5-19-¼ Turm 46-7-9-

In Doopaud and Budwail there is a decrease on account of want of water in the Tanks by lands Amounting to Acres 641-13-4½ Turm 7,472-1-3- The additional Turum exhibits a decrease of 3120-2-8- The net decrease in the three Talooks in Tuny Poonasa and Fasul Jasty is 4,631-12-2 The Poonasa cultivated in Cumbum is lightly assessed and the Bunger left in Doopaud is more heavily assessed and there is an increase of Acres Cultivated-

In Cumbum owing to the abundance of water the increase of Turum

Fort St. George 22nd November 1841

jasty is great, and in the other two Talooks and old wells, Tanks and new Tanks, amounting together to Rupees 2,139-3-11. In Budwail there is a decrease on the whole

Statement C. The Statement C compares the remissions granted in Fuslies 1249 and 1250. The Bunger remitted in 1250 is greater than in 1249 by Rupees 1682-9-8- In Cumbum Talook there is an increase in 1250 of 3517-9-4 under the head of Pany. Boodty in consequence of the beds of the Tanks not having been flooded from which is to be deducted lands Bunger in Fusly 1249 and lands in Doopaud and Budwail Talooks flooded in Fusly 1249 Cultivated in Fusly 1250.—

Statement of Bondoo and Vittoo Pandoo remitted in Fusly 1249 and 1250.—

Fort St. George 22nd November 1841

There has been a decrease in Cumbum owing to the greater supply of water In the three Talooks. There has been an increase In Doopaud and Budwail the Ryots hoping for a future supply of water Cultivated in October and November, but as the supply did not arrive the crops dried up The whole assessment had to be remitted for this land, and the Amount of Fusul Justy remitted on land under the Tanks of Budwail and other Villages where Indigo and other seeds had not grown, and when there remained no water to cultivate again under the Hakurlah Tank in Cumbum Talook the crops on the high lands dried for want of water under some other Tanks Indigo seed failed In Doopaud the Tahsildar examining Bondoo and the Sirustadars and other Public Servants examined the rest in the three Talooks, and furnished accounts at the Jamabundy on which after due consideration

Fort St. George 22nd November 1841

of the circumstances in each case the Bondoo and Vittoopaudoo under 10 per cent of the amount of cultivation was struck out, and the remainder remitted In Budwail after the conclusion of the Jamabundy on complaints of Ryats after inspection of the ground a small remission was made for Vittoopaudoo

In Parava Boodetie in Cumbum Talook only there has been a remission under this head Amounting to 1375-5-6.

There has been a decrease on this remission in the three Talooks Amounting to 1926-1. when the water came to the Tanks of this Talook the Carkoons and Hoozoor Goomastahs were to examine the lands sown and flooded, Deducting the assessment on that portion of those lands afterwards cultivated 1375-5-6 has been finally remitted This remission has been diminished for Fusly 1250 in consequence of some of the land remitted under it in Fusly 1249 having been left Bunjer in Cumbum Talook and having been partly cultivated and enjoyed

enjoyed and partly left Bunjer in Doopaud and Budwail.—

In Paymaly Raity there is an increase in this on Fusly 1249 which has partly arisen from the large Cumbum Tank having run over for 15 days. The Tahsildar and Head Gomastah examined the lands. The same lands were cultivated for the second crop. The Iyin Turm has been collected, and the additional assessment remitted wherever after due attention to the condition of the Ryot, the crops destroyed amounted to more than the tenth part of this entire cultivation. In the Cumbum Talook the remissions are greater in Fusly 1250 but lands enjoying the remissions for Fusly 1249 in Doopaud Talook have been reaped in Fusly 1250.— The net increase amounts to Rupees 72-8-4.—

Sagoo Bunjer Raity

usual remissions. There is an increase for Fusly 1250 of Rupees 30-2-11 in the 1/3 remissions all the Bagayet was not cultivated. There was an increase of Seerwa Jasty Cultivation under wells

and by machinery on the banks of the Rivers. There was also more Cabo. laity Bunjer unremitted in Fusly 1250. There is an increase of 69-15-5 pr. A & B in the 1/4th remissions There has been a greater cultivation of land benefited by this remission, and in addition it has been granted this year for the first time on Land and musub lands above 1 fanam and under 2 fanams.—

Manoal Raity Cuttoo-

gootta Guddateeroo and Sary, having been less cultivated in Fusly 1250 in Doopaud and Budwail there has been a decrease of remissions Rupees 210-11-7.—

Sugavaut and Nisp Raity

these two items in Doopaud and mucta Caule in Cumbum having been more largely cultivated for Fusly 1250 the increase of remission is 153-12-6 some lands enjoying these remissions have been entered in the Parvary as Cuttoogutta in some Villages, in other Villages they are classed amongst the

Jegoolidee

Fort St. George 22nd November 1841

Segoobandy as all circar Numbers but the lands in question have all along apparently enjoyed remissions under these heads, I was informed by my Serristadar, that, some Numbers included as Bunjer in the Tarvary had been brought into cultivation in subsequent years, and entered under Nunnool remissions, and I sent for the accounts relating to the subject.—

In Onnagoodepalum certain numbers described as Bunjer in the Tarvary have been enjoying a Nisp Rate

No grounds appeared on examination for this and it was discontinued, but the Chotai granted on lands entitled to it Orders have been sent to the Talooks to enquire on the subject, and it appears highly advisable that it should be deligently examined as well as the Turun Cummee as at present Continued.—

Shanelat, Dasavundhum and Shatriumdar Rate. The increase in this

Fort St. George 22nd November 1841

This remission is on account of larger Cultivation in Shotrium Villages to 214-13-6

Bunjer Cowle Tarvy lands obtained this remission in Fusly 1249 under Cowle which has expired in Fusly 1250 owing however to a small supply of water they have not been cultivated.—

Pymaish Cummee The decrease is accounted for by less land of this description having been cultivated in Fusly 1250.—

Teerwa Cummee There is a decrease of 309-6-5 For the same reason as given in my last report Rupees 517-4-4 is entered under the head on account of the second crop in bonasanoodrum in Budwail Talook.—

Comparative Statement of the Amount of Bunjer unremitted in Fuslies 1249 and 1250.—

	Fusly 1249 Collections of Tarbooram rayzi	Bunjer unremitted	Centage	Fusly 1250 Collections of Tarbooram rayzi	Bunjer unremitted	Centage

Fort St. George 22d. November 1841

The wording of this para. is just as it is in orig.
S.B.

The increase of Bunjer unremitted in the three Talooks amounts to 5,656-8-9 notwithstanding the larger supply of water earlier with reason and therefore state more advantageous the Ryets without any reason omitted in Cumbum Talook to Cultivate much Cooshky and Tuny they had agreed for.—

In Doopaud the Ryets keep large quantities of Sheep and Cows, and reserve Bunjer in their Puttahs to feed their Cattle, they derive much benefit in the same way from the great extents of Bunjer unappropriated In many instances I found the Ryots claiming on examination of sheep, that a greater number belonged to them than the number often large itself, which the Curnums had entered in their accounts, the continuance of the universally acknowledged fraud yearly taking place in the entry of Sheep under the Ryets names at which

Fort St. George 22d. November 1841

which do not belong to them but to shepherds is a great evil to the morals of the people as well as a loss to the Circar the Collection of the sheep tax bears a shew of great unfairness to the shepherds, for by the Custom they are taxed for their flocks whatever extent of land they may Cultivate, while a Ryet however small his Patta is liable to no tax for any number of sheep in his possession.—

In Doopaud, the Bagayet is very lightly assessed and in Cunneghirry the Ryets have dug great numbers of new Wells, and desert the old Bagayet which is more heavily assessed, the Cooshky and Bagayet Bunjer agreed for by Ryets is greater in Doopaud than in Cumbum or Budwail, and affords them a profit, the amount of Bunjer charged for was determined after particular pains, in enquiring into the circumstances of the Villages and Ryets the Amount of new Raity unexpectedly allowed this year to them, and the Assan

and

Fort St. George 22nd. November 1841

and Sooksan. The cultivation of the Ryots I found much less than it should have been

Statement D

D is a comparative statement of the Collections of the Vossooly Bariz of the Jodie Vea. for Fuslies 1249 and 1250 —

The centage in Fusly 1250 exceeds that for Fusly 1249 Rupees 1-13-5 per cent

The increase of cultivation is

	Rupees
D. D. of Jodie Vea.	6460 - 3 - 1
	129 - " - 4
	6589 - 3 - 5
From which deduct the net increase of the different remissions on lands in the possession of the Ryots in both Fuslies	244 - 4 - 6
Net increase	6344 - 16 - 11

There is a decrease of 639-7-10 in Doopaud Talook in the Amount of the Jodie, which is not permanent and the lands paying it were left Bunjer in 1250 on account of small supply of water in some Tanks

In Budwail Talook the Jodie is

Fort St. George 22nd. November 1841.

is permanent, but there is a decrease of 69 -14-5 in the amount of Collection on account of Dashayee Enams, and some of the Canneecum Enames of Budwail were not fully cultivated this year from a failure of water.

In Cumbum Talook there is an increase of Rupees 334 - 6 - 7 -

Excepting lands enjoying Mamool remissions the following are particulars of Bagayet -

Bagayet lands assessed at one Pagoda are not allowed any remissions -

Under Dasawundum wells if the Dasawundundar carries on the cultivation he enjoys no remission -

If other Ryots Cultivate, 1/4th remissions are granted, the Dasawundundar is obliged to keep his well in repair.

The other Bagayet lands enjoy 1/3 remission

The repair of the wells in

in each case should devolve on the Dasawundum-
-dars and the Ryots, according to each of the
above cases. In Doopaud Talook Ryots hold
Bagayet lands in their Puttahs. The repre-
-sentatives of the person who originally dug
the well demand from them a portion of the
produce as a well share, if not paid they
bring Suits in the Courts and obtain decrees
in their favor, and take out Warrants for the
sale of the property of the Ryots. Sir Thomas
Munro when he fixed the assessment on
Bagayet lands if there had been a Custom
brought to his notice of thus allotting a
portion of the produce as the well share would
have set a part a Dasawundum as in the
cases of Shawelat and Cunda Dasawundums
in other places or he would have Calculated
the well share among the items of the Ryots
expenses as he has done the Mamahs of the
Cummums and the other Costs of the cultivation.
In general the descendants of the person who
dug each well hold the

their Puttahs, but in 27 Villages of this Talook
the Ryots holding the lands are not all
descended from those who dug the well, and
the Custom now obtains to give the well-
share. It is not to be supposed that in these
cases as in Dasawundum, Bagayet, where a
Ryot cultivates, that the Ryot enjoys not
less than his ¼ remissions, and is free by
mutual agreement from the responsibility
of the repairs, for in some Villages the Ryots
themselves repair the wells, but it is evident
that the well share is collected against their
consents and contrary to their conviction of
justice. The practice is found in one or two
spots only in Cumbum and not at all in
Budwail, it would be advisable either the
Collector alone should entertain Suits on this
subject, and that the Ryot should be admitted,
and the possessor made responsible for repairs to
the Circar or that the well share should be discontinued.

Jodie Dasaie Enamsin Budwail

at

at Poormanilla amounts with sunna Dasaie
Enams, to 2,661-13-3 of which the Jodie or Quit
rent is 1,575-- Dasaie Chellputty reddy gave
them up and the Circar has Managed since
Fusly 1221. the cultivation and taken the --
collections in part payment of the Jodie, But-
Enams have not been resumed and added
to the Circar Ayacut, they were rented out in the
Dufsala from Fusly 1223 to Fuslie 1230 Rupees
1312-8-, since Fusly 1231. the heavily assessed
portions and the less fertile have been left
uncultivated. The remainder has been cultivat-
=ed by Ryots. Discretionary remissions above -
the 1/3d and 1/4th have continually been allowed on
the very heavily assessed portions, but the Jodie
has never in any year been filled up to grant
greater remissions to the Dashaie Enams than
to Circar lands is irregular. There is for 1250
a decrease upon the preceding Fuslie of 51-
Rupees 11 ax 8 2 Pice from want of water. --
Ramereddy & Latchmereddy's sons of Chella-
=putty reddy possess the following Enams -

Anna Raitie on 6 Shrotram Villages — 607-12-9
Gudda Seer Raitie — 705-14-4.
Dasavundum Enams 8 — 775-6-2
Reddy Enams — 669-11-5.
Curreekum Enam — 272-9-11.
Total Rupees 3,031-6-6.

It would seem hardly right to allow the Dasaye Enams to have been relin-=quished while there remained so large property in their possession. I send for Dasaye Ramreddy and recommended him to take the Enams for the customary Quit rent. His answer was that the Jodie is 61-2-11 per cent on the Assessment and that his ancestors were unable to pay the Quit rent, and relinquished the -- lands to the Circar, but he verbally agreed at the Jamabundy that if the Quit rent was -- diminished to 1,66-10-8. and permanently fixed at that, he would take up the Enams again. The average receipts from Fusly 1231 to Fusly 1250 being 20 years is 1,075-4-- and it would be advantageous to the Circar if the proposal of Ram-=reddy is accepted, or if the original Jodie was made Hungamee with the condition that Fury and Poonasa left Bunjer for want of water should not be charged for-

Statement E. — **E**, is a Statement of the Circar and Enamuty Ayacut and Cultivation of each for Fusly 1250.

Statement F. — **F**, is a Comparison of the Enamuty Ayacut & Cultivation.

There is a decrease of Rs. 8-8 per cent in the Enamuty Cultivation in comparison with that of last Fusly on the Enamuty Ayacut.

In Cumbum Talook the season was favorable and there was an increase of 3-1-9 per cent. In the other two Talooks the supply of water was less and at the Enamuty decrease per Cent is not so great as the Circar

Doopaud — 4 — 15 — 1.

Budwail — 5 — 15 — 1

But on Poonasa and Tuny it is.

Doopaud — 7 — 13 —

Budwail — 5 — 3 — 5.

An order was sent to the Talook in Fusly 1241 founded on an order of the Board that the Circar under Tanks should

be cultivated before the Enamuty. In their letter dated 16th June 1831 the Board say after mentioning the prescriptive Rule which provides that water shall not be allowed to Enam land until all the Circar land has been supplied, that when the water in a Tank may be sufficient to water only a part of the land dependent on it, the rights of Government can only be secured by vigilance and actively in the Collector and the European Officers under him, and an efficient control over other Servants. These instructions are not strictly followed. I should desire to be informed whether when the water in a Tank is sufficient to water the average quantity of Circar Cultivations it is the intention of the Board that any water should be allowed to Enams. The Custom is to fix limits for Cultivation and all the Enam and Circar within it are cultivated. Under some Tanks the Enam occupies the portion immediately under the Bondoo [illegible] lie at a distance [illegible] higher

levels, some times an Enam may be surround-ed by Circar it would then be difficult to prevent it's cultivation as it would require almost no direct supply of water. In some places now the water only comes to the Circar fields after the Enam fields have been — saturated, but if these last should not in an unfavorable year be permitted to benefit by the water the Circar can only be watered by making a temporary channel across the Enam — field. Enamdars frequently now bring Suits against the Cumums and Public Servants in the Civil Courts and the fear of Prosecution deters the Servants from much exertion. The Enamuly is cultivated much more than it should be. It would be desirable to ascertain the Custom of the Bellary District and to introduce any better plan than the present.

Statement of Demand, Collection & balance

	Demand.	Collections. By the Up to the end of Fusly.	Up to the end of August.	Total.	Balance.
Cumbum —	147316. 14 8.	123056. 11 4	23205. 2 6.	146261. 13 10.	1055. — 10.
Doopaud —	93993. 8 7	93506. 12 2	421. 12 7.	93928. 8 9	64. 15 10.
Budwail —	11019. 2. 14 8	10347. 5 2	11. 5. 3 2 3. 6	5.10879. 9 4	139. 4 9.
	35150. 3 5	4 32093. 10	5.2850. 5 6.	3148938. 15 11	2514 5 5

There appears a considerable balance on the Cumbum and Budwail Talooks. The price of grain is very low and some difficulty in collecting arises — " from the circumstances. The Tahsildars have reported that 434—15—8. due by persons fled or poor or dead cannot be collected. The balance is 2079—5—9. In the present month 1056—2—6. is expected to be collected. The remainder in October.

Statement G

G Statement of balances of years 1248 & 1249 Recommended for remission —

The Tahsildars have reported these balances desparate and on Examination I am of the same opinion & recommend they should be remitted.—

There is a general in-
-crease except on the article of
Stamp Papers.-

I beg to state in
conclusion that I have derived on
every occasion the most satisfactory
assistance from Narsingarow the
Sheristadar of this Cutcherry. His
extensive and ready knowledge
on every subject connected with
the Talooks is always brought
forward to promote the interest of
the Government.-

(29)

From the Pt. Coll.r of North Arcot

Sir,

Para. 1. I have the honor to acknowledge an Extract from the Board's Proceedings dated 30th. September 1841. transmitting Copy of a Draft Act for authoritatively defining the boundaries of Villages within the Territories of the Bombay Presidency, and requiring my opinion as to the applicability of the provisions to the circumstances of this District.

Affording opinion on the provisions of the Copy of a Draft act for defining boundary disputes.

2. In the Bombay Presidency, I am inclined to think, the Villages bear high revenues, the Ryots possess extensive Puttiem land, the Meerasy rights considerable, and Boundary disputes frequent. It is not so here, generally speaking the husbandry is poor and boundary disputes unimportant except perhaps, and that very seldom, where Zemindary or Enam land is concerned.

3. I have always found the mode of determining the validity to disputed lands easy of adjustment by following the present system of settling the matter by sending the parties, as prescribed, before a Village or District Punchayet, and it very rarely happens that either plaintiff or defendant object to this reference.

4 The Bombay act seems to me too unwieldy a measure and likely to embarrass, in place of freeing from difficulty, the speady settlement of a disputed boundary. A reference to the Governor in Council to Appoint a Commission is scarcely needed, the Collector himself might be authorized to Conduct the proceedings, in the manner directed, with such of the public Officers under him as are Competent for the task, without the necessity of the appointment by Government. Adjudging that the expenses incurred in procuring witnesses, fixing boundary Marks, and other charges necessary in the

Course of the proceedings to be borne by the Villages contending, is, I presume, that the whole community should be made to contribute to the payment of such a Charge. This measure if carried, I think, would prove oppressive because the Murasi-dars of the Villages here are few and generally poor, the Ryots, are not all permanent Ryots, many of them are emigrants, and it may naturally be expected that they will not readily consent to assist in the payment of a charge they have no manner of interest in.

5. I think the Average boundary disputes in this District is not more than three or four in the year, and I observe for the last three years they have been confined to the Poligar's Villages, the land in dispute has always been a mere trifle, and nine cases in ten a reference to the Pymash accounts has brought the matter to an amicable Settlement.

17171 Fort St. George 22nd November 1841.

To
The Secretary to the
Board of Revenue
Fort St. George

Sir,

37

From the Collr. of Tinnevelly - Reporting upon the Settlement of Land Revenue of the Tinnevelly District for Fasly 1250 and forwarding the usual accounts relative thereto.

Para 1. The settlement of the Land Revenue of Tinnevelly for Fasly 1250, the accounts of which I have herewith the honor to submit to the Board, was conducted under the Superintendence of the late Acting Collector Mr. Ogilvie. My recent arrival in this District and consequent inexperience in the various details of the existing modes of Settlement, suggest to me the impropriety on this occasion of confining my remarks to such matter only as seems absolutely necessary in explanation of the system and results of the management of the past year.

Season.

2 During the first two months of the season for cultivating Carr, the rivers depending on the S.W. Monsoon afforded an ample supply of Water, and the Cultivation of the Agaput lands proceeded successfully but during the Months of July and August the rains on the Hills abated, and the Rivers failed to irrigate more than the crops in the immediate vicinity of the Hills, causing a diminution in the extent of land Cultivated with

with Carr and an excess in the quantity injured by drought in comparison with the year 1249-

3- In the Northern Talooks the rain being unusually scanty, the Carr Cultivation was very trifling so that throughout the District the Carr Season appears to have been very unpropitious.-

Peshanum 4 The Peshanum Season was on however more favorable - Notwithstanding the Rains in September were but partial, thereby causing a reduction in the Cultivation of both Wet and Dry grain - the months of October and November brought with them plentiful and timely rain, and occasional showers at subsequent periods aided in producing abundant Peshanum Crops - The Poonjah Cultivation though impeded by the failure of rain at the early part of the Season, was much benefitted by the later rains and the Crops of the lands cultivated were more than usually productive -

The

Decrease	"	"	"	"	4	20/64	"	3	4 32/64
Centage	1	24/64	"		10 30/64			7 5/64	

The Current selling price of grain in Fusly 1250 was Annas 64 Pice 9 61/64 or 13 1/8 per cent below that of the preceding year, but the commutation price by the gain in the Settlement of prices according to the principles in practice is for Carr 8 Pice or 1 24/64 per cent above, and for Peshanum 4 - 11 15/64 or 10 30/64 per cent below and for the two combined 3-4 31/64 or 7 5/64 per cent less than that of Fusly 1249.

The slight increase in the Price of Carr grain was the result of the failure of that Crop - The abundant Peshanum Crops have caused prices to fall to the extent quoted, and have rendered the disposal of grain, even at this reduced rate of price a matter of difficulty to the Ryots.

The-

Fort St. George 22nd November 1841

Denomination of Villages.

6. The other two Dawasselapoorum in the Streeygountaw Talook, and Valada-narcolum in the Kangeycherry Talook, were Punjah Villages in the previous year, but 1C1-2-5 m 1/2 in the former Village and 1C 10-4 m m in the latter having been cultivated with Punjah, it has become necessary to

Fort St George 22nd November 1841.

9.

From the foregoing Statement it appears that the Settlement of Wolungoo rented Villages exhibits a Net decrease in comparison with Fusly 1249 of Rupees 19,901-14-2. This has occurred partly from reduced Cultivation (Rupees 44,038-14-2) but mainly from a falling off in the price of grain (Rupees 77,033-7-8) during the year under report amounting together to Rupees 121,072-5-10 which gross sum is reduced by a gain of Melevarem Produce (Rupees 1,170-7-8) to the above stated net amount. The deficiency in the Cultivation has occurred mostly in Carg, of which S.C. 2824-1-" were less than in the former year, owing to a scanty supply of Water generally and it may be almost said, to a total failure of rain in some Talooks as accounted for under the Head of Season

Fusly 1249	21,010	7	2/4
" 1250	18,186	6	2/4
Decrease	2824	1	"

Fusly 1249	6,499	14	1/8
" 1250	6,111	3	3/4
Decrease	388	10	7 3/8

The decrease in Peshcaush amounts

Fort St George 22nd November 1841.

amounts to S.C. 388-10-7 3/8 making the total decrease of Cultivation S.C. 3212-11-7 3/8

Statement C. Col-5- Summary 10

In Eighteen Villages in Chocknumputty, the only Talook where the Amany System still prevails, the Cultivation of wet grain

Fusly 1249	2,251	15	2 5/8
" 1250	2,332	5	7/8
Increase	80	10	6/4

amounts to S.C. 2382-5-7/8 for Fusly 1250 exceeding by S.C. 80-10-6/4 the quantity actually brought under the Plough last year. The gross produce of the extent of land is C. 20,582-12-2/4 exceeding the produce of Fusly 1249 by C. 5,451-10-1/4

1249	2469	20	1 32/64	4	3	1 56/64	10367	5 11
1250	2476	5	5 16/64	4	6	3 43/64	10880	14 8
Increase	6	6	3 43/64	-	3	1 51/64	513	8 9

chiefly by the Cultivation in the
present year of land paying higher
rates than that Cultivated in the past.

The

Fort St. George 22nd November 1814.

11 The Revenue derived under this Head is Rupees 7764-

12- The slight increase in the item of Poroapoo of Rupees 513-8-9 is caused

13- The instructions of the Board contained in the 11th Para of their Proceedings of the 7th June 1814 regarding the examination of the titles under which Pantem and Poroapoo Lands are held generally throughout the District were not received till the settlement for the year under report was near conclusion, and too late to afford on this occasion the information required further than the Pantem and Poroapoo Villages of Chockumpetty, which particularly attracted the attention of the Board, are concerned- The lands in the four Villages in this Talook under these tenures are not held under grants by the Zemindar. In two of the Poroapoo some trifling further remission beyond that to which they are entitled appears to have been made by the Zemindar since the permanent Settlement was fixed which.

Vyravencolum Cumbanary- Poodoocoody

Vainagaram which in future will be discontinued, and
Coonagoody. in the remaining two, the full remission
admitted by the Permanent Settlement,
has not been conceded to the holders.
These lands are entered in the accounts
of Fusly 1213, the oldest extant, as in
Pautem & Porooperoo, and though the
possessors are unable to produce any
regular document to establish their
right, their long and undisturbed as
possession prevails to the assumption
of the Country by the Company is un-
doubted in

Nunjanaid. Punjah. 14. In accordance with the instructions contained in Para 19th of the Proceedings above referred to, the Cultivation and Produce of Nunjanaid. Punjah has been arranged under the different heads prevalent in the District. The Gross Revenue of this Crop, has yielded a surplus in land of £ 2,461-7-4 3/8 and in

Increase.....	2,461	7	4 3/8	"	"	3 57/64	8390.	"	10. the Margin. The

Settlement of the lands comprised under this head was made on the principles hitherto inforce, as explained in the 25th Para of the Report on the Settlement of the District for Fusly 1249. The orders of the Board in reviewing that years Settlement were received too late to be acted upon in the past fusly.

Without meaning to impugn the propriety of the decision of the Board on this subject, it seems proper that I should bring to their notice the probability of the falling off of Cultivation, which will follow the strict observance of the rules now laid down. The following Statement will shew what, had they been in operation in the past fusly, would have been the demand on those lands, as they appear entered in the accounts of Cultivation rendered.

Sundry small rents, call for no particular remarks -

21. The total demand on account of Land Revenue for the year amounts to Rupees 18,37,405-11-8. less by Rupees 1,24,664-3-1. than the Baiz of the Previous year -

From this Demand the following deductions have been made on account of remission on drought and short produce, Cowl, Devastanum, Maniems. &c. -

Remission. - 22. The Sentiments of the Board on the subject of remission as expressed in their Proceedings Para 17th bearing date the 7th June 1841, having reached this Office just about the close of the Fasly under report, the adjustment of the remission on Crops perished and yielding short produce during

year under review. The increase in Topes, Todbundu and Woodungaudu, and the slight decrease in Sundry small rents, call for no particular remarks -

21. The total demand on account of Land Revenue for the year amounts to Rupees 18,37,405-11-8. less by Rupees 1,24,664-3-1. than the Baiz of the Previous year -

From this Demand the following deductions have been made on account of remission on drought and short produce, Cowl, Devastanum, Maniems. &c. -

22. The Sentiments of the Board on the subject of remission as expressed in their Proceedings Para 17th bearing date the 7th June 1841, having reached this Office just about the close of the Fasly under report, the adjustment of the remission on Crops perished and yielding short produce during

15. So largely increased a demand it is anticipated by those possessing more experience than myself in the District, will have the effect of injuring the resources of the Ryots if enforced, and ultimately of throwing out of cultivation much land now yielding Nunjah and Punjah Seerwah.—

16. That the Government is entitled to exact the higher rates of Assessment on lands benefitted by works of irrigation preserved at its expence is a principle which I do not pretend to question, but there will I am inclined to think in the present case, be found, when the rules are carried into practice, necessity for modification of certain parts of them. A strict examination of all lands entered in the Cultivation account of the year 1254 is now in progress and my attention will be given to this particular description of culture with a desire to follow as closely as practicable the instructions of the Board

Vanpyre Fusly.	Extent of Cultivation.				Average rate of Seerwah.		Bairz.		
1249. . . .	6,503	19	6.	8	v	9/16	52,344	12	2
1250. . . .	7,882.	10	25/64	7	4	11 39/64	57,632.	10	9.
Increase ———	1378.	11	57/64	v	v	v	5,287.	14	7.
Decrease ———	v	v	v	v	11	23/64	v	v	v

17. Although there is a slight decrease in the average rate of Seerwah in this year, the demands for this branch of Revenue has yielded an increase of Rupees 5,287-14-7. in consequence of the Cultivations of the different Plantations under this Head having exceeded that of the preceding fasly by ₹ 1378-11-4 50/64. The quantity of land producing in the 2nd year, Sugar Cane from the stock of the year preceding, is shewn in the following Statement.—

One Crop land on which the stocks of Sugar Cane remained in Fusly 1249 and produced Canes in fusly 1250.	Seerwah leviable according to old rate.			Seerwah levied and brought to account in Fusly 1250 according to the Board's order.

1/195

Fort St. George 22nd November 1841.

28

I have the honor to forward the accompanying report from Mr. Whittingham, the sub Collector, who only joined the District at the end of March, on the result of the settlement of the Talooks in his charge for Fasly 1250. Mr. Pringle the Head Assistant conducted the settlement of Streevelly-pootore & Sattore Talooks. and I am authorized by Mr. Ogilvie to communicate to the Board the expression of his satisfaction with this Gentleman's performance of the duties entrusted to him.

Tinnevelly 3rd November 1841.

(Signed) H. C. Montgomery
Collector.

Block 7
Rack No. 47
Shelf No. 1273
Serial No. 1781
General N 15987

1781

1692 Fort St. George 22d. November 1841.

Order thereon. Ordered to lie on the Table.

(14 - 15)

To the Secretary to the
Board of Revenue
Fort St. George

From the Pt. Coll.r
of Nellore....

Sir,

Stating that it does not appear that the public would be benefited by a remission of Tax on Salt used in Curing Fish and that he is of opinion that the measure contemplated is uncalled for.

(16)

Para 1. I have the honor to acknowledge the receipt of your letter of the 11th. February last directing me to report the quantity of fish annually cured in this District, and desiring an opinion whether the Fisheries would be largely extended and the public benefited by the remission of Tax on Salt used in curing fish.-

2. The average annual quantity of fish cured in this District during the 5 years from Fusly 1245 to Fusly 1249 has been 331 Candies of which all excepting about 24 Candies exported by Sea has been sent into the interior. The total quantity sold for inland consumption during the above period was 1629 Candies which was exported to the following Districts.-

	Candies
Madras	156
Cuddapah	142
Bellary	28
Chingleput	80
Chittoor	173
Hydrabad	123
Home Sales	927
	1629

of this, the quantity purchased and exported by the Lubbay Merchants was 345 Candies - and the rest by other traders.-

3. The curing of salt fish is very profitable and I consider any remission of the Tax on Salt quite uncalled for such a measure would make profits larger but I very much doubt its having the effect of reducing the price of salt fish to the Consumer. The result of the experiment of reducing the Monopoly price of Salt with the view of making cheaper so necessary an article of life altogether failed. The Government in directing a return in the year 1828 to the old Monopoly price of Rupees 105 per Garce observed that it had been "clearly shewn that "the information before the Government when "they ordered and the Honorable Court of Directors "when they approved the reduction of the Monopoly "price in 1820 was erroneous, that while a considerable

Minutes of Consultation 20th June 1828

"sacrifice of revenue has been made, little "or no benefit has been derived to the consumer "by the reductions of price".-

4. The profits of the Fishermen are even now very considerable. The purchase of Salt at the Monopoly price for curing the fish they catch is the only tax they pay with the exception of a small one levied in some Ports on their Nets. From the returns which I have received from the several Salt Superintendents it appears that the average quantity of Salt required for curing one Candy of fish is something under 9 Seers, the cost of which at the Monopoly price is two Rupees, while the average price at which they sell the Canty of cured fish to the Merchants is 18 Rupees and that which is taken from the Southern portion of the District to the Presidency by the Fishermen themselves sells there for 30 Rupees per Candy. Independently

N.B. The tax paid in the whole District by Fishermen amounts to 220 Rupees or less than 1/4 Rupee for every Candy of Salt fish.

Independently of this large profit, they derive quite sufficient from the loading and unloading of Vessels and other employment of their Boats Viz.t the conveyance of firewood &c.a to Madras to subsist themselves and cover the wear and tear of their Boats and Nets and the net tax. I am therefore decidedly of opinion that the measure contemplated is uncalled for and would fail altogether in bringing about a reduction in the price of salt fish to the community in general.

Nellore,
Pt. Collr.s Cutcherry,
13th. November 1841

(Signed) J. V. Stonhouse
Principal Collector

Order thereon.

(16. 17)

Ordered to lie on the Table.—
Read the following letters.—

(18)

To
The Secretary to the
Board of Revenue
Fort St. George

From the Pt. Collr. of Nellore

Sir,

I have the honor to

Detailing his

his opinion in regard to the Draft of an Act for the adjustment of disputes regarding possession of Lands, Crops &c.a to be substituted for Regulation V of 1822 and submitting Draft of an Act in explanation of his views on the subject.—

acknowledge the receipt of your letter of the 12th. August last, forwarding the Draft of an Act for the adjustment of disputes regarding the possession of Lands, Crops &c.a which it is proposed to substitute for the provisions on that head contained in Regulation V 1822 of the Madras Code.—

2.

The object of Regulation V 1822 was three fold Viz.t to afford a summary redress to Ryots against the arbitrary and injurious Acts of Zemindars and other landed proprietors, to provide a prompt and effectual means for the prevention and punishment of dispossession by violence of Lands and Crops in the possession of others, and lastly to modify Regulation XII 1816 by extending its provisions to all disputes respecting the occupying, cultivating and irrigating of Land in unsettled Districts.—

3.

It is almost superfluous to point out that the first object has failed save and except in

in two particulars the ejectment of a Ryot from his Lands which the Zemindar under the provisions of Regulation V 1822. is not competent to do, without the Collector's permission and the veto which it empowers the Collector to put on the sale of a Ryots property. Both these provisions are in the highest degree salutary, and have been I am satisfied attended with the best effects and, could not be rescinded without injury to the Ryots.-

4. By Section II. Regulation V 1822 Collectors are empowered to take primary cognizance by summary process of all cases which under the provisions of Regulations XXVIII. and XXX of 1802 were summarily cognizable by the Zillah Courts with the exception of the cases referred to in Section XXXV and XL Regulation XXVIII. of 1802 but the Sudder Adawlut have ruled that Collectors under Regulation V 1822 are not authorized

summary suits the only such suits existing being those specified in Section XXXIV. Regulation XXVIII. of 1802 which under Section VI. Regulation V 1822 continue cognizable by the Zillah Judge.-

5. I see no objection to the provisions of Regulation V 1822 which relate to the violent seizure and dispossession of Lands or Crops though I think them open to improvement. It is not this part of Regulation V 1822 which is defective but that which relates to the summary enquiries referred to in Regulations XXVIII and XXX 1802.-

6. Though I am of opinion that parts of Regulation V 1822 might be allowed to stand and that it would only be necessary to rescind the particular Sections noted in the Margin it would be more advisable I think to rescind the entire Regulation and substitute a new enactment in its place.-

Section II. VI. VII. IX. XV. XVII. XVIII. XIX. XX. XXI.

7. Sections XI XII XIII XIV are suited to cases of forcible dispossession of Lands or Crops but the defect in them lies in not providing

for similar disputes regarding the use of water which is perhaps a much more frequent cause of violent alteration - nor do they provide sufficiently clearly for disputes regarding grain and other products or cattle the latter are not unfrequently driven off and forcibly taken possession of -

8. I will proceed to state what occurs to me on the Provisions of the Act which it is proposed to substitute for those part of Regulation V 1822 which relate to the violent dispossession of property -

Section II I think the course of proceeding here laid down is altogether unnecessary and objectionable. It letters the Magistrate in the exercise of his Magisterial powers and prescribes a course which circumstances might render it inexpedient and perhaps impossible to adopt. In fact the course laid down partakes more of a civil adjudication upon the matter than of a Magisterial interference for the prevention of an affray which is the object of

the enactment. On occasions of a threatened breach of the peace a Magistrate should be left to act under his general powers according to circumstances as he is frequently called upon to do in caste and other disputes. The first information which the Magistrate receives of an intended affray is from the Local Police Officers whose report forms part of the public Records and I do not comprehend what proceeding a Magistrate has to record beyond issuing such orders as appear to him called for to avert the evil. A summoning of the parties perhaps a hundred Miles off, is not likely to be attended to with alacrity; and the attendance of witnesses would be extremely irksome to many if they had to proceed far from their homes. If the course of proceeding is left to the discretion of the Magistrate he can determine according to circumstances whether local enquiry by himself an Assistant or his Police Officer is suited to the nature of the

case and the immediate measures required to prevent an affray - all enquiries by a Magistrate under this Presidency even for the pettiest assault must form matter of record and any proceedings under Regulation V, 1822 or act enacted in its place must be matter of record also.

Section III. This section seems to proceed upon the supposition that as in Bengal the Collector and Magistrate are distinct authorities which is not the case under the Madras Presidency but the power of attachment which the clause gives of the thing in dispute is necessary.

Section V. This section I conceive alludes to Lands formed in rivers by alluvial deposites and has I believe already formed matter of judicial enquiry and decision at this Presidency and I rather think that it has been laid down as a general principle that such formations should be considered to belong to the Village to which

appertaineth the nearest main land and if the boundaries of two or more Villages cut the new formation that there boundary lines should be extended, and the new land apportioned accordingly. I am not aware however that any separate provision is requisite for disputes regarding new formations. They are as much disputed lands as others not newly formed, and might be dealt with in the same way.

Section VIII. The Magistrate has now the power to punish resistance to any of his orders or process to the extent of fine of 50 Rupees or imprisonment for 15 days and in aggravated cases to forward the offending parties to the Criminal Court. but I think the extent of punishment which he is personally empowered to adjudge is insufficient in these cases.

Section IX. This appears to me to be a mixing up of an adjudication of the Civil question of right

with an Act which professes in its preamble to be enacted for cases of forcible dispossession unless it is intended by it that at the time the Magistrate may refer it to an Arbitrator or Arbitrators as a temporary measure like his own decision to secure the peace. There cannot of course exist any possible objection to such a power being vested in the Magistrate but as a practical measure in my opinion is that it would be altogether inoperative.

9. On the whole I am of opinion that Regulation V 1822 in regard to disputes about lands, Crops or water is with a few additions and modifications preferable to the Act which it is now proposed to substitute for it. It provides for the punishment criminally of the party or parties guilty

of disturbing the peace which is highly necessary, and which the proposed Act does not provide unless it be intended that he possesses that power in virtue of his general authority as Magistrate in which case no special provision is of course necessary. The proposed Act merely restores what was unlawfully taken. It does not provide for compensation to the injured party for the loss of his property should it not be forthcoming, which not unfrequently occurs in the case of grain, and must occur in the case of water. I cannot but consider these otherwise than as very serious defects in the proposed Enactments.

10. The Civil adjudication of disputes regarding lands, Crops, water, fisheries &c. &c. form a distinct branch of the subject. I have recently

received a Draft Act transmitted by the Supreme to the Madras Government for authoritatively defining the Boundaries of Villages settling Boundary disputes and preventing their occurrence and I shall report my opinion on that subject in a separate communication.

11. The provision I made in the XVIII Section of the Draft which accompanies this is most necessary. The unjust detention of a Ryots grain produce on the fields is one of the most common means of oppression resorted to by Zemindars against their Ryots and is no where guarded against in the Regulations and Acts now in force. I have myself known instances of its having been thus detained for two and three years and the Board may well imagine what a grievous oppression it must

be and the infinite loss and inconvenience it must occasion to the Ryot. The Zemindar leaves his own grain in the field with the Ryots but the loss is to him a trifle compared with what it is to the Ryot. It is a sacrifice he willingly makes to ruin the individual who is the object of his displeasure and it is seldom resorted to for any purpose but this.

12. I am laying myself open to a charge of presumption in submitting the Draft of an Act which I think might be

be substituted with advantage
for Regulation V 1822, but
have been induced to do so
as it will better explain
my own views than is possible
in the form of a letter.-

13. The Return
of summary Suits called
for in Para 3 of your
letter of the 12th August last
is herewith transmitted.-

Nellore Pl. Collector's Cutcherry 15th Nov. 1841. /Signed/ T. V. Stonhouse Pl. Collector

No. 1.

An Act for more effectually securing due protection to Renters, under Renters, Ryots and their Sureties against the acts of Zemindars, Talookedars and other Land holders and farmers of Land Revenue and for the Settlement of disputes regarding the forcible possession of Lands, Crops, grain produce, or other products, premises Water Fisheries and Cattle within the Presidency of Fort St. George in Madras.-

1 Whereas it has been found that Regulation V of 1822 of the Madras Code contains inaccurate assumptions in respect to the provisions of the law which it was intended to modify and does not convey with sufficient clearness and precision the intentions of the Government in some of its enacting Clauses and contains moreover provisions of an injurious tendency and whereas it is expedient that summary and effectual means should be provided by law for the due protection of Renters. Under Renters Ryots and their Sureties and for the

punishment of parties taking possession by force of disputed lands, Crops, grain produce or other products, premises &c water fisheries or Cattle.

II

It is hereby enacted that Regulation V 1822 of the Madras Code together with so much of any Regulation as extends the said Regulation or any parts thereof to any places within the Presidency of Fort St. George in Madras be repealed.

III

And it is hereby enacted that no property of any Renter, Under Renter, Ryot or of his or their Sureties shall be attached by any Zemindar Talookdar or other landed proprietor or Renter for any arrear of Rent or Revenue under the Provisions of Regulation XXVIII of 1802 of the Madras Code unless the arrear shall be due on account of the renters revenue of any of the two Fusslies immediately preceding

attachment takes place.

IV

And it is hereby enacted that no Zemindar Talookdar or other landed proprietor or renter is competent to attach the property of any renter under renter or Ryot or of his or their Sureties for any balance of rent or Revenue due for a period antecedent to the two Fusslies preceding the then current Fusly without having previously served a demand upon the said Renter, Under Renter or Ryot and obtained from the Collector of the District a permission in writing to make the attachment.

V

And it is hereby enacted that where property may be attached contrary to either of the foregoing rules it shall be competent to the Collector of the District to make a Summary enquiry into the cause upon Petition from the party whose property may have been attached provided the Petition of Complaint be presented to him within 30 days from the date of the attachment.

VI

And be it enacted that if

on the Summary enquiry aforesaid it shall be shown to the satisfaction of the Collector that the property was attached in violation of the rules as aforesaid prescribed by this Act it shall be competent to the Collector to order the property to be released from attachment and to recover the value from the distrainer of such of it as may not be forthcoming or be damaged and to adjudge him to pay such further sum as damages as may appear equitable under the circumstances of the case not exceeding one fourth of the value of the property attached such value to be determined by the Collector.-

VII

And it is hereby enacted that on the attachment of any property of a Renter, Under Renter or Ryot or their Sureties by a Zemindar, Talookdar or other landed proprietor or Farmer under Section III of this Act he shall give immediate notice of the attachment to

the Collector of the District.-

VIII

And it is hereby enacted that no property so attached shall be sold until the expiration of 30 days from the date on which the notice of attachment is received by the Collector till when the Defaulter shall be at liberty to appeal to the Collector against the attachment and sale of his property.-

IX

And it is hereby enacted that if no appeal be made within the aforesaid period of thirty days the Distrainer shall apply to the Collector for permission to sell the destrained property and upon the receipt of such application the Collector shall issue in writing a notice to the distrainer granting permission to proceed with the sale in conformity with the Regulations and Acts in force relating thereto.-

X

And it is hereby enacted that if the Defaulter should prefer an appeal against the attachment and sale of

his property within the aforesaid period of thirty days it shall be competent to the Collector to institute a Summary enquiry into the correctness of the demand for which the property has been attached and if it shall appear that the amount claimed is justly due he shall issue a notice in writing to the distrainer authorising the sale of the distrained property. If a sum less than the amount demanded shall appear to be due the Collector shall authorise the sale of so much property only as may be sufficient to recover the amount justly due. If no portion of the demeand for which the property may have been destrained shall appear to be due it shall be competent to the Collector to order the property to be released from attachment and to adjudge the distrainer to pay such a sum in damages as may appear equitable on a consideration of the circumstances of the case not exceeding

and to adjudge the distrainer further to pay the full value of any of the distrained property which may not be forthcoming or may be spoilt or damaged in consequence of such distraint such value to be determined by the Collector.

XI

And be it enacted that where the property of any renter under a renter or Ryot or their Sureties may be attached and sold without the notice of attachment as aforesaid having been given to the Collector or without the Collector's permission in writing as aforesaid it shall be competent to the Collector to declare the defaulter discharged of the demand for which his property was attached and sold and to compel the distrainer to pay the value of the property so sold such value to be determined by the Collector besides such further sum as damages not exceeding one fourth of the value of the property sold as may appear equitable.

XII

And be it enacted that

in Section XXI Regulation XXVIII of 1802 of the Madras Code shall be calculated from the day on which the notice of the Collector granting permission for the sale may be received by the distrainer.-

XIII And be it enacted that the lands of any renter under renter or Ryot shall not be granted to other persons by Zemindars Talookdars or other proprietors of land or farmers under the provisions of Section X Regulation XXX of 1802 of the Madras Code until such Zemindars Talookdars or other proprietors of land or farmers shall have made application to the Collector and obtained his leave for that purpose.-

XIV And be it enacted that on the receipt by the Collector of such application to eject a renter under renter or Ryot the Collector shall pass no order thereon for a period of thirty days from the date of its receipt

if the renter under renter or Ryot make no appeal to the Collector against his ejectment within the said period of thirty days the Collector shall issue an order authorising his ejectment but in the event of such appeal being made it shall be competent to the Collector to make a Summary enquiry into the merits of the case and pass such decision as may appear to him equitable and proper.-

And be it enacted that

XVI previously to making an application for the ejectment of a renter under renter or Ryot the Zemindar, Talookdars or other landed proprietor or farmer shall serve a notice of the intended ejectment upon the party to be ejected which shall be duly endorsed by the said party and such endorsement attested by at least two witnesses and the Zemindar Talookdar or other proprietor of land or farmer shall transmit the said original notice so endorsed to the Collector with the application for authority to make

the ejectment.

XVII And be it enacted that if any Zemindar Talookdar or other proprietor or farmer of land eject any Renter under renter or Ryot from his lands or with the same purpose prevent him carrying on the Cultivation of his lands without the previous authority of the Collector for the ejection of the said person or persons it shall be competent to the Collector to restore the party if ejected to possession and remove any impediments to his Cultivation of his lands till ejected by due cause as provided by this act and to fine the party so ejecting in any sum not exceeding 200 Rupees.

XVIII And it is hereby enacted that on complaint made in writing to the Collector of the District by any renter under renter or Ryot against a Zemindar Talookdar or other proprietor of land or farmer of unjustly preventing

his Crops or threshing or removing his grain produce and detaining it on the fields to his manifest damage and loss it shall be competent to the Collector to make a Summary enquiry into the case and on proof of the said matter of charge to cause the said Crops to be cut or such portion of the grain produce delivered into the possession of the party so complaining as may appear to be justly his due.

And it is hereby enacted

XIX that whenever a person or persons by virtue of a claim thereto shall forcibly take possession of any lands, Crops, grain produce or other products premises watery fisheries or Cattle it shall be competent to the Collector of the District to make a Summary enquiry into the case.

And it is hereby enacted

XX that if upon the enquiry so made it shall be proved to the Collectors satisfaction that [illegible] forcibly taking or attempting

to gain possessions of the property in dispute has been resisted by force by the other party beyond what may be necessary to defend their own persons if attacked, and that an affray has taken place it shall be competent to the Collector to attach such property without placing either party in possession.-

XXI

And it is hereby enacted that if it shall be proved to the satisfaction of the Collector that one party took possession by force, or with the intention to use force if resisted and that the other peaceably submitted to such dispossession, it shall be competent to the Collector to place the party so ejected in possession of the property in dispute, and maintain him in it till the question of right is determined by law.-

XXII

And it is hereby enacted that if the property of which the party has been forcibly dispossessed be not forthcoming or be damaged it shall be competent to the Collector to adjud

forcible possession to pay the full value of such property as may not be forthcoming or be damaged and such further sum as damages as may appear equitable under the circumstances of the case not exceeding one fourth the value of the property in dispute such value to be determined by the Collector.-

XXIII

And be it enacted that whereas under the provisions of Regulation VII 1828 Subordinate or Assistant Collectors in charge of particular divisions of a District shall ex-officio have authority to exercise within the divisions under their charge all the powers granted to Collectors by the Regulations in force or which may be enacted unless the contrary shall be expressly declared in order or decision under this Act of a Subordinate or Assistant Collector shall be carried into effect without the previous sanction and authority of the Collector

his modification or reversal..

XXIV And be it enacted that any sums adjudged and recovered as damages under this Act shall be held in deposite in the public Treasury till the time prescribed for appealing against the decision is passed or till the case in the event of such appeal being finally disposed of.

XXV And be it enacted that the Courts of Civil Judicature are not empowered to interfere with or stay the Proceedings of Collectors or Subordinates or Assistant Collectors under this Act..

XXVI And be it enacted that parties considering themselves aggrieved by any order or decision of the Collector under this Act are at liberty to appeal to the Board of Revenue of the Presidency of Fort St. George in Madras or to bring the matter by a regular Suit before a Court of Civil Judicature provided that such appeal be made, or such Suit be instituted

from and after the date of the Collector's decision..

XXVII And it is hereby enacted that it shall be competent to the Board of Revenue of the Presidency of Fort St. George in Madras to modify or reverse the decision of Collectors under this Act..

XXVIII And it is hereby enacted that an appeal to the Board of Revenue as aforesaid shall not bar either party in the case from instituting a regular Suit in a Court of Civil Judicature should they be dissatisfied with the decision of the said Board of Revenue provided such be instituted within 3 Months from after the date of such decision..

XXIX And be it enacted that it shall be competent to Collectors to employ Native Persons to aid them in the investigation and decision of the cases contemplated in the foregoing provisions of this Act..

XXX And be it enacted that the Collectors shall be enforced in

the same mode as is prescribed by the Regulations in force for the enforcement of orders and decrees of a Zillah Court.-

XXXI And be it enacted that it shall be competent to the Collector in investigations under the foregoing provisions of this Act to punish either by fine as far as 200 Rupees or imprisonment in the Collector's Cutcherry or the Zillah Jail for a period not exceeding 3 Months any person or persons guilty of disobedience or resistance to any order process or decision of the said Collector or of other contempt of his authority.-

XXXII And it is hereby enacted that where an affray has taken place, or where parties may assemble in numbers with or without offensive weapons for the purpose of using force for the possession of any property in dispute it shall be competent to the Collector to enquire into such cases as Magistrate and to act according to the authority vested in him

in force or which may hereafter be enacted of the Madras Code according to the circumstances of the case as they involve an intended or an actual breach of the peace or in the latter case have been attended by the violent beating or wounding of any person or persons or the actual killing of any person or persons.-

XXXIII And it is hereby enacted that all persons aiding and abetting the usurpation by force of property in dispute shall be liable to be dealt with by the Collector as Magistrate in the same way as those by whom the violence is actually perpetrated.-

XXXIV And it is hereby enacted that the provisions of this act shall be applicable to persons of every class or description whether British born subjects or others.-

From the Coll[illegible] of Chingleput

Stating his opinion regarding the Draft of an act No IX of 1840 proposed to be Substituted for the Provisions of Regulation V of 1822 and Submitting a Statement of Summary Suits of filed under that Regulation during the last 10 years-

Sir,

Para 1 I have the honor to acknowledge the receipt of your letter of the 12th August transmitting for my consideration and opinion a Draft of an act proposed to be substituted for the Provisions of Regulation V of 1822 under which the Proceedings of Collectors in cases of forcible ~~dispossession~~ are now conducted.-

2 The provisions of the proposed act appear to me generally well adapted to the end in view, but there are a few points, where the provisions of it might, I conceive, be extended with advantage-

3 By Section II and IV of the proposed act it is rendered incumbent on the Magistrate to Summon all the Parties in every charge of forcible dispossession before him, a course that

might in many instances be extremely inconvenient to the parties themselves & and cause unnecessary trouble to them and their witnesses in having to proceed a distance from their homes to the & Magistrates Court, and I would therefore & suggest that those sections be so ex = tended as to authorize the Magistrate where it seemed to him expedient, in lieu of Summoning the parties, to com = mission by an order under his hand and official Seal, the Tahsildar or Na = tive Head of Police to investigate the matter in dispute submitting his Pro = ceedings with the original depositions for the final order of the Magistrate, and it appears to me also necessary to add to the Properties specified in the same Sections "Leases and farms of Revenue," regarding which disputes

of a similar nature not unfrequently arise.-

4 It further appears to me & advisable that the Magistrate should by the provisions of the proposed act, be distinctly empowered as the Collector is under Section XI of Regulation V of 1822 to restore to the complainant the value of crops forcibly taken away & and which may be damaged, destroyed or not forthcoming and to award against the offender such damages and Costs & as may be equitable.-

5 Section III of the proposed act provides that in cases where the Magistrate shall be unable to satisfy himself as to what party was in possession of the subject in dispute when the dispute arose, he may attach the & same until the rights of the parties be determined by a competent Court,

of Government in the responsibility, it appears to me advisable to put such party in conditional possession as may seem under the existing circumstances appear best entitled to the same, in like manner as is directed with regard to uncultivated lands in Section V.-

6 In the latter part of Section IV of the Draft, it is provided that no complaint of the forcible dispossession of any land &c. shall be admitted unless it be preferred within 1 Month from the time of such dispossession, an exception to this rule should I think be made in cases where good and sufficient cause is shewn for the delay, as otherwise parties who may have been prevented by unavoidable causes from making the complaint within the prescribed time would be unjustly injured.-

7. Section IX authorizes the reference of matters in dispute

difficulty of obtaining the consent of both parties will often render this provision useless in operation, and I would therefore suggest for consideration whether references to arbitrators, if either party agree to such mode of settlement, might not be insisted upon with advantage, as provided for in respect of references to District Punchayets by Clause 7 Section V Regulation XII of 1816.-

8. I beg also to forward a Statement shewing the number of Summary Suits filed and decided in this Office during the last 10 years for the recovery of arrears of Rent as required by Para 3 of your letter under reply.- The small number of these Suits may be attributed I think partly to the prevailing system of taking the Proprietors' share in kind and partly where money rents exists to the control of the Proprietors Proceedings by the existing Regulations.-

Chinglepat District
Collectors Cutcherry

1960

Fort St. George 22d. November 1841.

Statement of Summary Suits filed by Mootadars and others regarding the recovery of arrears of Revenue in the Zillah of Chingleput from Fusly 1241 to 1250.

Names of the Parties	Date and Substance of the	Date and purport
Canapah Reddy Naick Naick Razen Razen Naick Sureties Defendant. Chetty Mootadar Cauveloor.	2-8 on the plea that there was a balance of Rent due against him on account of Fusly 1240. whilst the lease of 7 years from 1232 to 1238 taken by him had expired at the close of the latter year and that the attachment of the properties of the other Plaintiffs valued at Rs. 508-13- was for the same reason unreasonable..	1239 to 1245 as stated by him (Defendant) the attachment was ordered to be removed.
Plaintiffs. Moodely Pillay Renters of the Villages of Eacaud of the Mootah of the Eacaud. 3 Permal Reddy 4 Veerasawmy Reddy 5 Pistnapah Naick Sureties Defendant. Chetty Mootah- dar of Eacaud.	Date unknown 1832. Stating that as the Mootahdar had from time to time collected the Revenue of the Village of Eacaud by means of his own Servants, not withstanding it was rented to the 1st. and 2d. Plaintiffs the latter were not responsible for any balance of rent, and therefore that the attachment of the Mootahdar of the properties of the Renters and their Sureties was improper and that the property of persons who were unconcerned in the Rent was also attached..	15th. December 1832. It was proved on enquiry that the Rent given to the 1st. and 2d. Plaintiffs was resumed by the Mootahdar and as the latter failed to render a satisfactory account of the balance alleged to be due to him, the attachment was ordered to be removed.

Plaintiff

8. Statement of the Demand, Collection, and Balance.—
9. Statement of outstanding old balances.
10. Comparative Statement of all sources of Revenue.—

Statement.

From the Sub Collr in Charge of Cuddapah.

Submitting the usual Statements relative to the settlement of Land Revenue for fusly 1250. in the District of Cuddapah.

No. 1

I have the honor to forward the accompanying Statements relative to the settlement of the Land Revenue in the Cuddapah District for fusly 1250. Viz.t—

1. Detailed Jamabundy Statement for Fusly 1250.
2. General Revenue Statement Talookwar.
3. Register of land held under Cowl.
4. Do of land held under progressive Cowl.
5. Comparative Statement of the land held under Cowl during Fusles 1249 and 1250.
6. Statement shewing the Survey Rent &c.a of the Enam lands.—
7. Summah and Kistbundy Statements.—
8. Statement of the Demand, Collection, and Balance.—
9. Statement of outstanding old balances.
10. Comparative Statement of all sources of Revenue.—

Statement.

Fort St. George 22nd November 1841.

11 A. Statement of remission granted for cr
failure of Wet Crops during the Jamabundy.

B. Do. Do. after the Jamabundy.

12. Abstract Comparative Statement between
the charges of Fusles 1249 and 1250.—

13. A. Statement of the Extent and Survey ass:
=ssment of each description of land Cultivated
and left Waste.—

B. Detailed Statement of the Survey assess:
=ment of each description of land and the
remission allowed for.—

14. Statement of average prices of Grain..

15. Statement of the particulars of Tenu
Cannee or lands on which a reduction or
has been made.—

2. The settlement of Coilcoontla
and Bunganpilly was made by W.
Lavie Esqre. the Acting Collector and be:
=fore he had completed the Jamabundy
of Doovoor and Jamulmudgoo he was
appointed Judge of Canara and Do. or
Mayne Esqre. the Head Assist

Fort St. George 22nd November 1841.

took up the duty and finished the settlement
of these Talooks, as well as that of Chittewail
and Poolevendlah. The Talooks of Sidhout,
Chennoor, Comalapoor, Goorrumcondah,
Muddenpilly and Rayachoty were settled
by C. H. Hallett Esqre. the Acting Collector.
The 3 Talooks composing the Sub Division
Viz. Cumbum, Doopaud and Budwail
were settled by J. Skelton Esqre. the Sub
Collector and the Talook of Poonganoor was
as usual settled by the Poligar.

3. Upon the whole it does not
appear that the season was so favora:
=ble as that of Fusly 1249. The rains
which fell in the Months of July,
August, and October were not suffici:
=ent to induce the Ryots to Cultivate
the whole of their dry lands nor was
the supply of water in the Tanks
inviting enough to make them com:
=mence with their Cartiga Wet Crops,
Heleb the heavy rains that

fell in November as well as in September com-
-pletely filled the Tanks in the Cumbum
Talook and many in the other Talooks re-
-ceived also a sufficient supply of Water to
enable the agriculturalists to cultivate
their soils generally. However, several of
tanks especially in the Goorumcondah, &
Muddenpilly and Poolevendlah did not
even benefited by these, and hence the Wet
Cultivation falls short, as compared with
that of the preceding year.

4. The Chitta Jonna Crop afford-
-ed a favorable return on all black dry
soils, but the other Crops such as Cotton,
Bengal Gram, wheat &c. only yielded
from 1/4 to 3/4 of a full harvest owing to
blight which attacked them. The Crops
in the red and mixed soils in the
Goorumcondah and Poonganoor
Talooks which are usually Cultivat-
-ed with Bajra, Raggy, Conjony, Codroo
and Horse Gram were [illegible]

in all the other red soiled Talooks, the same
Crops suffered from the want of timely Rains.
and only yielded from 1/8th. to 3/4 of an average
return. All the Wet Crops, where the Tanks
were adequately supplied, were fully produced,
except in a few places where the Crops were
attacked with blight. In cases where the
Tanks had but a scanty supply of Water
and the Ryots had carried on abundant
Cultivation exceeding the proportion that
the supply actually received by the
Tanks would admit, such portions yield-
-ed from 1/4 to 3/4 of a full production where
there was a supply of well water to
irrigate them, but in all those places
where there were no Wells, the Crops en-
-tirely perished and remissions were
granted on that account as follows.

Dorpaud, Budwail and Shidaut Rupees	2,731.	2 10.
Doovvur, Chennoor, Cumbum and Poolevendlah Rupees	477.	1 1.
	3,208.	3 11.

Fort St. George 22nd November 1841.

also produced from 1/4 to 3/4 of a full harvest owing to the insufficiency of Water in them, as also on account of blight. In all other instances where the above impediments did not exist, the lands yielded an average return.—

5. The health of the people has been in general very good. In the months of November and December, Cholera prevailed in the Canalapoor Taluk, but the deaths were very inconsiderable, Viz.

25 Cases.

Fort St. George 22nd November 1841.

some time in the District, but was not frequently fatal.

6. There has occurred a great loss of Sheep and Cattle more especially occasioned by the unusually violent tempest that visited the District in the Month of May in the Goorrumcondah, Muddenpully, Royachoty and Poolevendlah Taluks and partly from other diseases.—

7. The subjoined Statement exhibits the average prices of the chief kinds of Grain during the last five years with a comparison be-

16976.

Fort St. George 22nd November 1841.

From the above Statement it would appear that there is a decrease in the price of all sorts of Grain.

8. The following Statement shews the extent and description of land which the Ryots agreed to Cultivate at the beginning of the season with the assessment thereon.

16975. Fort St. George 22nd November 1841.

As per Survey Accounts.

As per actual Cultivation.

From the above Statement it will be seen that there is an increase of distribution in every species of Land with the exception of Peishcajasty and Fasuljasty. The decrease in the former arises partly from the failure of rain and partly from the additional tax levied last year, on lands of new Wells situated under the Tanks not being imposed.

this year as per order of the Board of Revenue and that in the latter item of Fasuljasty, owing merely to the failure of rain.

9 The subjoined Statement shews the actual Cultivation of lands for Fuslies 1249, and 1250.

As appear from the foregoing
Statement that the decrease
in the items of wet Fasulgasty
and Teervajasty arises chiefly
from the insufficiency of
rain and partly from to
the non imposition of the
additional tax on lands
under

under new wells which was
charged last year.

10 The following
Statement exhibits the amount
of remissions granted after
due enquiry both at and
after the Jamabundy.

Net Increase 97860 12 10

The increase in the Caboolaty Bunjer arises from a great quantity of land which was Cultivated last Year having been this year left Waste from want of rain. The decrease in the Established remis=sions arises from a large portion of land (subjected to this remission) which was Cultivated last year having this year been left uncultivated for the same reason. and had not there been an addition to it of the reduction of 1/4 as before mentioned which was extended this year, in confor=mity to the instructions of the Board of Revenue, to Poonjah lands assessed at so low a rate as 1 Canteray Fanam per Acree, the remission under this head would have amounted to a large sum than what it now exhibits.

In the items of Customary Seervo Cummy, and Pymash Cummy the decrease is attributable to certain lands of their respective descriptions not having been Cultivat

the decrease in the Bunjer Cowl arises in consequence of the period of Cowl having expired. That from loss of Crops results in consequence of a greater portion of these Crops being saved this Year than in the last. In the Pounaly and Paniboodty it arises from the fact that neither Crops nor lands were inundated in the same manner as in last Year.

The Amount of remissions granted after the Jamabundy is Rupees 8,373— 10— 10. exceeding the preceding Year by Rupees 2,290— 1— 7. The particu=lars of which are as follows—

The remission on one Crop land Culti=vated with a second Crop is Rupees 2997-9-2.

This consists of a deduction given on one Crop land Cultivated with a 2nd Crop in the Doovoor, Camalapoor, Budwail, Chittevail and Coilcoontla Talooks in consideration of the extreme highness of the assessment. The subject was brought to

to the notice of the Board of Revenue in Fesly 1242 by Mr. Lacon and it was recommended that the original Assessment should be altered and although no distinct orders have been yet received, they are assessed with a 2nd Crop like all other similar lands at the time of Jamabundy but the same has been always afterwards exempted.—

Customary ready Money allowances to certain Reddies, Cutbuddies and Curnams 266-4-8

Waste lands entered in the Accounts of Jamabundy under hope of their being Cultivated afterwards but which were not ——— 1,386-10-1

Crops which were alive at the time of Jamabundy were entered in the Accounts under the

their coming to maturity by the subsequent rains but failed. ——— 311-8-4

These remissions were not made until the actual loss was ascertained by the public Servants. The remaining sum was for dry land brought under Wet Cultivation which the Ryots denied having irrigated at all with Circar water and for their Waste lands which had entered as Cultivated and also for certain 2nd Crops added which were not really Cultivated on them. In these instances also the public Servants were deputed to ascertain the real facts and after this was done, the remissions were granted to the Amount of Rupees ——— 411-7-7

8373-10-10

11 The Abstract Account of the settlement with its different heads of remission as compared with Fesly 1249 is shewn below.

Fort St George 22nd November 1841.

Net decrease in the Old Talooks										102156		
										20417		

S.C.B

Fort St. George 22d November 1841.

The Net decrease is attributable to the unfavorable nature of the season of the year under review, to the recent reduction of 1/4 assessment extended to all the Red and mixed Poonjah lands assessed at so low a rate as 1 Cantoray Fanam per acree, as per the order of the Board of Revenue, and to the exemption of the additional assessment on lands cultivated under the new wells which were taxed last year in consequence of their being situated under bands of Tanks.

12 The following Statement exhibits at one view the different items of Increase and decrease in Fusly 1250 as compared with the preceding one.

16992 Fort St. George 22d November 1841.

The decrease arises from number of Banks failing in the supply of water in consequence of insufficiency of the rains, and partly from certain lands which were Cultivated last year by Ryots from Curnool, having this Year been left waste, in consequence of their return to their former places of residence.-

14- The amount of Circar and Enam land Cultivated in each year since Fusly 1238 will be seen in the following abstract. It will appear that the Cultivation of Fusly 1250 exceeds that of Fusly 1238. However the percentage of Enam Cultivation greatly exceeds that of the Circar lands Cultivated.-

Remaining Balance	7,758 10 9.	12,564 7 2.	1,832 3. 1 11

Fort St. George 22d November 1841.

Of the Balance of Rupees 7,758 in the Old Talooks, it is supposed that one half will be recovered and the remainder is outstanding against the indigent Ryots, and that of the Bunganpully Jageer 1/3 only will, it is imagined, be realized and the rest stands against those whose circumstances will not permit them to pay it.

17. The undermentioned Statement exhibits the particulars of the balances outstanding at the end of last year, the amount collected on this account and the balance still due.

16998.

Fort St. George 22d. November 1841.

The balance of Fusly 1242 is doubtful under reasons stated in Para 16 of the report on the Settlement of the last Year. That of Fusly 1247 will be realized hereafter. as for the balances of Fusslies 1248 & 1249. a particular enquiry will be instituted at the neset Jamabandy into the circumstances of each individual ryot, and all irrecoverable balances will be recommended for remission.

The following extract from para 18. Statement exhibits the particulars of the old balances outstanding against the ryots of the Bunganpully Sircar.

16997

	1,749 7 9	" "	1,749 7 9

The amount of Rupees 1,749-7-9- for Fusly 1246- is the sum which was purloined by the late Nagade Goomastah, the co recovery of which is doubtful as explained in Para 18 of the last report.-

Although there is very little prospect of any of the balances for Fuslies 1248 & 1249 being collected, yet a particular enquiry will be made into the circumstances of the Ryots by whom it is due, & all irrecoverable balances will be recommended for exemption.-

19- The result of the settlement of all branches of revenue for Fusly 1250. is exhibited in the subjoined statement, by which it will appear that there was a decrease of Rupees 1,02,725-12-0. from which sum the increase in all the extra Sources of revenues amounting to Rs. 39837-15-9- being deducted, it leaves a Net
