A La Seigneurie,

Le Très Honorable

Gouverneur de la Présidence du

à Madras.

Monsieur le Gouverneur,

Le droit de passage de la rivière de
Mahé est perçu par l'autorité Anglaise et

Fort St. George 13th December 1841.

½ de ce droit est annuellement versée dans
la Caisse de Mahé

Mr. le chef de Service a Mahé
me fait connaitre que ce versement a
lieu en effet, mais que cette regulari-
sation ne s'opère que très tardivement,
en ce moment l'année fazely 1250
n'est pas payée, et seulement sur un
ordre de la Presidence de Madras
que le Collecteur de Malabar est
obligé de solliciter tous les ans.

Au fond, cette affaire n'est
pas de nature a devoir soulever aucune
question. Il me parait seulement que
les formalités imposées au Collecteur
du Malabar, avant qu'il ne puisse payer
entrainent des retards inutiles, et
que, quoique sans importance, occupent
chaque année votre Gouvernement. Je
vient proposer à votre seigneurie de faire cesser
ces petites difficultés, en prescrivant, une
fois pour toutes, au Collecteur du Malabar
de faire dresser le Compte du droit de
passage à la fin de chaque année, et
d'en verser la moitié a la caisse de
Mahé

Mahé sans autre ordre du Gouvernement
du Fort St. George.

Veuillez agréer Monsieur le
Gouverneur l'assurance de la haute consi-
deration avec laquelle J'ai l'honneur
d'être

Le très humble et très obéissant serviteur

Capitaine de Vaisseau,
Gouverneur des Etablissemens
français de l'Inde.

To the Right Honorable
the Governor in Council of
Fort St. George.

My Lord,

The toll on the ferry at Mahé
is collected by the British authorities,
and a moiety of the amount is
annually paid into the treasury at Mahé.

The Chief at Mahé has intimated
to me that this payment is actually
made, but indeed very irregularly.
(the payment for fusly 1250 not yet
being made.) upon an order of the

the Government at Madras which
the Collector of Malabar is obliged
to request every year.

This subject is not however
of a nature likely to involve any question.
This unnecessary delay appears to me
attributable only to the formality in
official proceedings of the Collector of
Malabar, which however unimportant
in itself, is in this instance observed
each year by your Government.

I have to propose that your
Lordship will do away with these
petty difficulties, in ordering, once for
all the Collector of Malabar to adjust
the accounts of toll at the expiration
of each year, and to pay a moiety of
the amount into the treasury at Mahé
without the necessity of awaiting en
orders from the Government of
Fort St. George.

Accept, My Lord, the assurance of
the high consideration with which Vre &c.

Resolved that the foregoing letter and translation thereof be referred to the Board of Revenue, who will ascertain and report, at their earliest convenience, the cause of the delay, if any, in the payments to the French Government on account of the Farm of the Mahe revered to His Lordship in Council. If there appears no reason why the revenues of the Farm in question should not be distributed immediately on the close of each year and sanction obtained for the actual payment afterwards, and he is of opinion that if there be no objection to this course, the Board should instruct the Collector

Consultation Under date the 29th November 1841.

Read the following Extract
from the Proceedings of the Board of Revenue
(Were enter 21st October, 1841. No. 445.)

The Right Honorable the Go-
Governor in Council is satisfied
from the details given in the foregoing
letter and its enclosures, of the utter
hopelessness of recovering any
portion of the large balance
of Land Revenue of the Collec-
=torate of Madras which has
been recommended to be written off
and he accordingly authorizes the sum of
Rupees (62785-2-11.) Sixty two thousand
Seven hundred and eighty five, annas
two and pice eleven, to be struck off
the publick Accounts.

Pro-

The Board will impress upon the Collector the necessity of adopting measures as well for the early adjustment of the outstanding balance of Rupees 28,629-15-4 reported to be reconcileable as to prevent similar accumulations.-

Transmitting Extract from the Proceedings of Government in the Revenue Department of the 30th November 1841 Recording orders on the Board's Proceedings relative to the management of the resumed Jaghire of Woodiagherry in the Nellore District for Fusly 1249.-

Extract from the Minutes of Consultation under date the 30th November 1841.-

Read the following Extracts from the Proceedings of the Board of Revenue.-

(Here enter 13th Sept. 1841 No 376)

Para 1.- The mode of regulating the assessment in the Jageer of Woodiagherry seems to have depended chiefly on the will of the Jageerdar and consequently not being guided by any fixed principles it was generally arbitrary and fluctuating.-

2 The Right Honorable the Governor in Council approves of the judicious alterations introduced by the Principal Collector of Nellore in fixing the commutation price of the revenue paid in kind at the current instead of the ancient excessive rates, in relieving the ryots from waste which they were unable to cultivate in discontinuing the collection of arbitrary fees, in modifying the Poolley or Grazing Tax and the Mohturfa, and in settling the rate of remuneration to be allowed to Village Officers on the same grounds as in the other parts of the dist

Fort St. George 13th December 18[illegible]

3. The settlement thus concluded amounted to Rupees 7,70,47-3-3 of which Rupees 6,79,95-9-8 were collected up to the 15th February last. His Lordship in Council approves of the suspended demand pending further investigation of those items of the balance which are alleged by the Ryots to have been already collected from them by the late Sazeedar. He observes that the absence of vouchers under a system of management so loose are irregular as that described in the opening paras of Mr Stanhouse's report should not be construed as proof of the ryots' pleas being unfounded, but that whatever circumstances they may be able to adduce in support of it should receive the most indulgent consideration.

4. His Lordship in Council will not object to the alterations in the rates of assessment suggested by Mr Stanhouse in Paras 30, 34 of his Report which indeed as temporary expedients for facilitating the annual settlements are highly desirable. But he would observe that with reference to the general question of the reform

Fort St. George 13th December 18[illegible]

reform of the assessment of the Nellore District, the proposed rates will hereafter be subjected to more careful revision and settled upon more definite and better ascertained data.

5. His Lordship in Council grants special donations for the sum of Rupees 618-14- 3 on account of the pay of 79 peons retained for the general duties of the new Talookas from the resumption of the Sayeer in November 1839 to the months of February last.

6. The attention of the Board of Revenue in the Department of Public Works will be given to the neglected state of the works of irrigation noticed in Para 61 of the Principal Collector's report.

7. It remains to His Lordship in Council to record his satisfaction with the manner in which Mr Stanhouse has fulfilled the task of arranging the affairs of this Estate at the late period of the season in which the duty was imposed upon him.

Read the following Extract from the Proceedings of the Board of Revenue Relative to the Management of the Extra Sources of Revenue in the District of Bellary for fusly 1250.—

(Hereon the 18th October 1841)

Para 1. His Lordship in Council has much satisfaction in observing the result of the Management of this Branch of Revenue in the Bellary Collectorate during the fusly under review the particulars of which are exhibited in the subjoined comparative Statement.—

2. The excess under the head of Sayer arises from the increase in the Demand of the year over that of the previous fasly, which resulted as observed by the Board, from the large increase in the Amount of Sundry Exports & Imports, the latter principally from Mysore & also from the competition amongst the bidders for the purchase of the Betel and Tobacco Farms. His Lordship in Council will be happy to have before him Mr. Mellor's report upon the decline of the Sugar cultivation in his District alluded to in para 2 of these Proceedings.

3. To the Demand on account of all branches of Extra Revenue for the year under consideration considerably exceeded that of the foregoing fasly, the Collections were made without difficulty & with creditable punctuality. The increase upon the year as shewn in the margin being Rs 22,768-4-2 a result which His Lordship in Council concurs with the Board of Revenue in considering very satisfactory.

Adverting

4. Adverting to the concluding para of Mr. Mellor's report and to the recommendation conveyed in para 12 of the Board's proceedings, His Lordship in Council directs that the sum of Rupees 101-9-1 one hundred and one, Annas nine and pice one, being the irrecoverable portion of Veesabaly balances due for fasles 1247 & 1248 be written off to profit and loss.

From the Chief Sec. to Govt.

Read the following Extract from the Proceedings of the Board of Revenue (Here enter 8th November 1841 No.)

Para 1. The result of the management of the Revenue derived from Extra Sources in the Districts of Trichinopaly during the Fasly

Fort St. George 13th December 1841.

Fasly	Demand
1250	179187-11-6
1249	176194-4-9
Increase	2993-6-9
Net Revenue	
1249	173203-1-6
1250	169347-13-7
Decrease	3855-3-11

Fasly under review is exhibited in paragraph 7 of these Proceedings from which it appears that altho' the demand in account of all branches was in excess of Fasly 1249 the net revenue fell short of the amount realized in that year owing partly to a trifling increase in the charges but chiefly to the collections of the last mentioned Fasly having included a much larger amount of Arrears than those of the Fasly under consideration.—

2 The observation of the Board with reference to the various items comprising the Extra sources of Revenue are considered by His Lordship in Council to be satisfactory it is desirable however that the Collector should be called upon to afford the necessary information with respect to the increase on the charges under the head of Stamps which has been omitted in the present report.—

3.— His Lordship in Council is happy to observe that of the arrears due for Fasslies antecedent to Fasly 1250 so large a portion

Fort St. George 13th December 1841.

portion has been realized; and approves of the instructions issued by the Board in the concluding para of their Proceedings to the Collector, with reference to a balance of Layer for Fasly 1243. which appears to have been uncollected for a period of 8 years. altho' security for its realization had been taken.

Syed Shumshuddeen the late Jeomeadar died on December 2nd 1839. leaving a Son the present Claimant, and 3 daughters, one married two unmarried. The late Jeomeadar was the son of Shahajadabee one of the Sharers of the Jeomeah entered as No. 63. in Mr. Travers' original Register & as No. 45. in that framed by Mr. Fraser in 1812. The family have no other means of subsistence and the Son is said to be some what weak in his mind & hence unable to earn his livelihood. It is recommended that a reduced Jeomeah of 3 Rupees per mensem be continued in the name of the Son Syed Moolatanny Saheb without arrears, & to cease entirely on his decease. The delay in submitting this Claim for orders is not attributable to the party claiming.	No. 1. This being a Subsistence Jeomiah must be considered to have lapsed to Government on the death of the last Incumbent and the Board in reference to recent orders from Government in similar cases cannot recommend its continuance.	No. 1. Referring to the Orders of the Government of India dated the 17th of May 1841. in the Case of the Jeomahdar Abdul Hoosain, his Lordship in Council does not consider that there are sufficient grounds to recommend to that Government the continuance of this Jeomiah.

The late Jeomadar died February 22d. 1841. & the Jeomeah is claimed by his son Syed Kayamooddeen, the original claimed is in the name of the late holder Syed Boorahanooddeen, granted for performing the annual ceremony (words) at the tomb of his father's priest. In the Register of 1804. the Jeomeah is entered as a yearly pension in the name of Syed Boorahanooddeen "for Charity." In the subsequent register framed by Mr. Fraser in 1812. it is entered in the name of the same person & as granted for performing an annual ceremony at the Durgah of Syed Abee Boollah Shaw who came from Delhi with the Nabab Wallajahs father & for subsistence. The Durgah ceremonies are still kept up and will be continued by the present claimant if the Jeomeah be granted him. Besides himself there is the wife of the deceased Jeomadar & two unmarried daughters. The Principal Collector recommends that a reduced Jeomeah of 5 Rupees per Mensem should be granted in the name of Syed Kayamooddeen from the date of sanction, but without the payment of the Arrears.	No. 2 The Board recommend, as suggested by the Principal Collector, that a reduced pension of 5 Rupees per Mensem be granted in the name of Syed Kyamooddeen son of the late incumbent from the date of Government sanction.	

No. 243. The Board of Revenue will obtain and furnish the Original Grants for these grants with translation.

Four. The late Jeomeahdar Chandshaha died on the 24th April 1841 leaving one son (the present Claimant) and elder brother's son and two daughters. In the Register made in 1804 the Jeomeah is entered in the name Buddeen Shah the father of the late Jeomeahdar (as is like all in that Register) a charitable Jeomeah. In the Register 1812 it is entered in the name of the last holder, Chund Shaha for keeping a light in the Sakiah at Dogvoor in the Sungum Taluck which his father had kept for the accommodation of travellers. It has been ascertained from enquiry that the Sakiah was kept up by the Claimant's father and his son engages to continue it. Under these circumstances and as there are four individuals dependant on the Jeomeah who have no other means of livelihood, the Principal Collector begs to recommend that the grant of Rupees 1 — 14 — 11 a Month may be continued in the name of Mohuddeen Shah, the son of the deceased Jeomeahdar, with arrears from the date of decease.

From the Asst. Collr. in the Nth Divn. Subject. Reporting on the subject of Petitions Nos 307, 601. of 1841. and No 557. of 1840.

Sir,

Para 1. I have the honor to report upon the Petitions enclosed No 307 of 1841, No 601 of 1841. and No 557 of 1840.

2 The first Petition is from the Widow of the late Notagar of Anaputtoor a Village in the Srivaltur Talook. The Sub Collector went fully into this case last year and decided upon it, after a perfect enquiry. The facts are as follows: Some generations back there were four Brothers equal sharers in the nattum meras. Two of these died without issue, and of the other two, Plaintiffs' deceased husband and his three cousins (one of whom he adopted in default of issue) are the Grandsons of one, and the Defendant

Fort St. George 13th December 1841.

Defendant and his two Brothers, the sons of the other. This is according to the statements of the parties, and each is thus entitled to a moiety of the meras. Petitioner's party however claim two thirds of it, asserting that the husband of Petitioner was adopted by one of the two Brothers, who, as above said died without issue. Of this alleged adoption stated to have taken place some generations ago no proof whatever is offered, it was therefore disallowed, and the shares of the two parties declared to be equal. Both parties had been living up to the time of this dispute in a single undivided family.

3. Petitions 557 of 1840. and 601 of 1841. are from Nuntavaravisiah late Surfdar in the Srivaltur Talook.

Sir.

1895 Fort St. George 13th December 1841

This is a case of embezzlement, and was punished accordingly by the Sub Collector fining the Petitioner and dismissing him from office. It appears that in Fusly 1249 — unassessed immemorial waste to a large extent was brought under Cultivation in the Village of Anthoor. The Sub Collector knew the land, and he describes it as rich and well watered. The Village being in Petitioner's Sirkar, he was specially deputed to obtain a correct account of the land, the quantity of produce &c. &c. to fix the assessment. Instead of fulfilling the trust faithfully he was wilfully and grossly negligent of it, and connived at the destruction of part of the produce before reaping and the misrepresentation of the quantity reaped. The offence was fully proved and the sentence,

Order thereon.

Ordered to lie on the table.

Read the following letter.

To,

The Secretary to the,
Board of Revenue
Fort St. George.

Sir,

28

From the Coll. of Timevelly. } Para 1. I have the honor to state that The Tahsildar of Santoor, Cona-
my Row was appointed to that Talook on
the 4th July 1840 having previously for
1 year, 5 Months and 27 days served as a
Mozoomdar, with the sanction of the Board. I propose
to take an early opportunity of removing him
to a situation of a grade inferior to that
of Tahsildar, the duties of which he is not
capable of performing.

2 There are now in that Talook up-
wards of seventy orders unanswered and
my endeavours as well as those of the Head
Assistant by whom the details of that Talook
are conducted, have been unavailing to procure
the Tahsildar to exertion. Some of these
orders

orders were sent him in the year 1840 and one, the subject of an especial complaint made to me by the Head Assistant Collector, directed in January last an enquiry into certain charges brought against a Kurnum which after 6 Months delay was replied to in so careless a manner as to require reinvestigation up to this date not afforded. It does not appear necessary that I should enter into detailed charges of neglect of duty and incapacity against this Officer. His utter ignorance of the state of his Taluk and his total want of Authority in it render him quite incapable of carrying on the duties with advantage either to the Government or the people.—

3. I regret to add that there are other Tahsildars in this District whose incompetence will I fear oblige me unwillingly to make similar reports to the Board unless the example which I doubt not will be made under the Board's approval in

in the present instance has good effect on their conduct. The necessity of having efficient Heads of the Talooks is peculiarly urgent in this District at the present time when the survey and a new system of management are about to be introduced. —

Tinnevelly, 26th November 1845. } Signed H. C. Montgomery Collector.

Proceedings thereon. — The Board of Revenue are pleased under the statement furnished in the foregoing letter of the incapacity and inaptitude for the performance of his duties exhibited by Canary Row, Tahsildar of Sautoor, to permit the

Minutes of the last Meeting read and approved.

Read the following Extracts.

(1)

From the Chief Secy to Government.

Extract from the Minutes of Consultation under date 27th November 1841.

Read the following Extract from the Proceedings of the Board of Revenue Relative to the Settlement of the Land Revenue of the District of Chingleput for fusly 1249.

Para 1st

The season during the fusly under review seems to have been considerably above the average, in fact to have

Fort St. George 16th December 1841.

have been far more favorable than any of those of recent years. to this cause chiefly may the improvement noted to have taken place in the fusly of 1249 be traced, as the Board allow in para 9 of their Proceedings.

2. The number of Villages included in the Settlement based on the Survey is observed to have been 1,565,97 Villages more than were held under Ryotwar during the preceding year, the Basis on which is stated in para 7 to have exceeded the Basis of the fusly of 1248 by Rupees 2,10,752-3-8, the result of the Settlement upon the whole District however is represented as 2,10,642-5-7 or rather more than 23 per cent above the Settlement of Fusly 1248.—

3. In para 8 of their Proceedings the Board state that the Settlement of the formerly and recently assessed Villages taken together exhibits upon the whole a net Increase of a little more than 3 per cent above the Permanent Basis, - adverting however to

Fort St. George 16th December 1841.

to the Tabular Statement appended to para 12. of the Collectors Report, it is observed that the Basis of the Villages settled by Mr. Vincash is ½ per cent below the Permanent Basis and 29. per cent above the Settlement of fusly 1248, but in the Villages newly settled by Mr. Freese. the Basis is observed to have been entered in the account as 7½ per cent above the Permanent Basis yet only 32 per cent above that of fusly 1248 - a fact which shews that the difficulty cannot have been very great, and as the quantity of land under Cultivation has not been taken into Consideration, the result of the comparison drawn by the Collector and adopted by the Board founded on the Basis alone cannot be depended upon.

The Comparison instituted in para 10 of the Board's Proceedings appears to His Lordship in Council equally fallacious, because the Demand only has been assumed without reference to the extent of

Cultivation

Fort St. George 16th December 1841.

Cultivation at the different periods quoted.—
In the opinion of His Lordship in Council
no definite conclusion can be arrived at
with respect to the true result of the survey lately
introduced into this District, until that
measure has undergone the careful revision
of the Board of Revenue, and the data on
which it is founded have been thoroughly
examined previous to ultimate confirmation
by Government.—

4. The discrepancies between the
present and former Beriz in the several Taluks
entered in the figured Statement annexed
to para 10, which are observed to vary so much
from the old standards, may probably be
explained by further enquiries being directed
by the Collector to these points.—

5. It is satisfactory to observe
that the amount of remissions granted
during the fasly under review fell short
of the sums relinquished under this head
for the previous year. The explanation

Connected

Fort St. George 16th December 1841.

connected with the items of remissions, noted
in paras 11 & 14, do not appear to call for any
particular remarks. It is desirable however
that further information should be furnished
by the Collector descriptive of the land for
which so large an increase of remission was
allowed on account of cowles granted in
the past year. Mr. Freese does not
appear by the observation contained in
para 18 of his report to have satisfied
himself as to the description and
circumstances of cultivators to whom the
lands in question were granted; His
attention it is observed has been directed
to these points by the Board of Revenue.—

6. With reference to the future
demand which may be deemed proper to
require from the holder of the hamlet in
Streeperumatoor who appears to have obtain-
ed an extent of land under circumstances
of questionable validity, and to whom a
remission under the provisions of a Cowl
have been granted by the Collector

This

Fort St. George 16th December 1842.

His Lordship in Council desires that previous to any definite instructions being issued with regard to the lands in question, the Board will submit the report required from the Collector with their own sentiments thereon, together with a copy of the Cowle under the provisions of which the land was originally alienated.—

7. With respect to the second case alluded to in para 17. of these Proceedings. His Lordship in Council considers the grant made by Mr. Smalley as unauthorized and directs that the details called for from the Collector in para 18. should without delay be also furnished for the orders of Government. The Board will be pleased to direct Mr. Freese to state the value and extent of improvements of all kinds executed by the holder since the commencement of the Cowle.—

8. At the close of the fusly the outstanding balances are stated at 1,06,898-4-3. equalling 9 1/16 per Cent but by the end of the month of May this balance was reduced

Fort St. George 16th December 1842.

+ 7598-2-9. due end of May.

⊕ 272-6-7. Extra Revenue due end of May.

reduced to the sum entered in the margin at which date the balance due on account of extra Revenue is also observed to have been for the most part realized.—

9. It is satisfactory to His Lordship in Council to observe that the collection and demand for the year under review stand prominently forward amongst the best years of any on record, a result considered highly creditable to Mr. Freese's management.—

10. On the recommendation of the Board of Revenue conveyed in Para 22. His Lordship in Council sanctions the sum of Rupees (2,028-1-8) two thousand and twenty eight, anna One and pice eight, being written off the Public Accounts, as an irreconcilable arrear of Land Revenue due from fusly 1244 to 1248 inclusive.—

11. His Lordship in Council observes with pleasure the terms of commendation recorded by the Collector in favour of Mr. Swinton's usefulness as a Public Servant.—

12. His Lordship in Council would in conclusion direct the attention of the Board of Revenue to the great delay, amounting in the present instance to a period of little less than 11 (eleven) Months which has been permitted to intervene between the receipt of the Collector's report by the Board, and the transmission of their Proceedings thereon to Government, and would observe that the values of the Revenue Reports are in a great degree rendered nugatory by their being permitted to remain with the Board for so considerable a time before they are submitted for the information and orders of Government. His Lordship trusts that the Board will be pleased to adopt measures in future to obviate as far as practicable the delay which has called for these remarks.

Sir,

Before quitting my station, I beg to request the attention of the Court

Court of Foujdaree Udalut to the present system of granting Abkary contracts as the great cause of half the crimes that are committed in this and I suppose every District. For one shop that is entered in the Cowle, there are ten or twenty that are not. If the present system of granting contracts for Abkary licenses for whole Talooks were abolished and separate licenses granted to each Shop Keeper for the sale of arrack only at these places now included in the Cowle each Shop-keeper would have an interest in preventing the Establishment of Shops in his vicinity whereas at present the renter establishes as many as he can induce persons to take Cowles for and the connection of the Revenue and Police duties under the same Officers prevents any interference with the practice. I have it on my records that the Head of Police on an Abkary

Akkarry Farm being attached for arrears of revenue made regular collections from keepers of Shops not licensed in the original Cowle, and I suppose the practice is general. If the Judges consider the subject deserving of their interference I cannot but think that they will confer a great benefit on the Country - my opinion formed on experience is that there is at present no check whatever on the conduct of keepers of shops established by renters I have seen quotations of the opinions of others as to the evil tendency of the system and cannot suppose my testimony necessary to that point, should my suggestion that separate licenses be granted be enforced, against all opposition on the plea of inexpediency, I feel assured that it will be of benefit to the morals of the Country.

From the Collector of Masulipatam suggesting arrangements for the withdrawal of the interference of Government in the administration of the affairs of the Religious institutions of the Hindoos.

Para 1. I have the honor to Acknowledge the receipt of Extracts from the Proceedings of the Board under dates 10th and 24th June last, annexing Copies of letters from the Chief Secretary to Government dated the 21st April and 17th June of the same year, respectively, the former requesting me to furnish a statement exhibiting the annual revenues of the Pagodas and other places of Native worship in this District at the time of the assumption of the Country by the Company's Government, and the Money allowances that have since been assigned for their support, stating at the same time if there are any and what number of Native Institutions capables of being entrusted to the Superintendence of Native Managers, and the latter

latter directing me to report in detail the arrangement I would propose for each religious institution in this District explaining the present extent of interference and control, and shewing how far it's withdrawal may take place by the future mode of administering the affairs of such Establishments.

2 In this District there are a great many small endowments in land, grain and money under the denomination of Agraharum sqnnud or Doombala Maniums, Cuttoobody Maniums, Kanezoolo, and variety of Charitable allowances which were granted before the assumption of the Country by the Ruling power or its representatives for the time being, and which are now continued by the British Government for the support of Religious Institutions, but in no instance has a

fixed

fixed assignment in Money been made by Government in lieu of such alienations, with the exception of an annual sum of Rupees 780-6-8.-0. commuted for Salt Roopeens. 8 Cs. nor is any direct interference exercised by the Collector in the Administration of the Revenues or other affairs connected therewith, with the exception of those belonging to two Pagodas whose lands have been placed under the temporary Management of the Circar officers.

3 One of them is called the Vadaly Davustanum, and the other Ulloor Davustanum, from the circumstance of these Pagodas being situated within the limits of the Villages whose names they bear. The lands belonging to the former were attached in the year 1818. under the provisions of Regulation VII. of 1817. in consequence

of

of a dispute between the Officiating Brahmins and the Manager and director of Ceremonies respecting the appropriation of the Revenues. Those belonging to the latter were also attached under the same Regulation in the year 1821 - in consequence of an attempt made by one Dass Gungrauze joint Superintendent of the Pagoda to appropriate to himself its lands and revenues by destroying the summuds by which the lands appertaining to it were held.

In Madaly half of the lands and revenues arising therefrom belong to the Brahmins of the Village, and the other half to the Pagoda as also 4 Cuttles of land in the Village of Motoor. In Ulloor, the whole lands and revenues belong to the Pagoda, with the exception of a small Quit rent payable to the Zemindar

Zemindar of Vinnacottah and Goodewadah.

As it is the intention of Government that all interference with the Administration of the revenues of Native Temples and places of worship should be withdrawn, I would propose that the Zemindar of Vinnacottah and Goodewadah, in whose Estates these Pagodas are situated, should be vested with Authority to select, from the Most respectable inhabitants of the said Villages, fit persons to act as Managers for the general Superintendence of their affairs, and to take care that the endowments are duly appropriated according to the intentions of the original founder or Patron of these institutions.

6. It appears to me that according to the principle of non-interference and to render

its

Fort St. George 16th December 1841.

its withdrawal as complete as possible, it should be left to the Village community to remove Managers for the abuse of their trusts, and to nominate others in lieu of them, the Zemindar having merely power to confirm such removals or Nominations. Should this course be followed the Necessity of applying for redress in Religious Matters to Courts of Law will be obviated, and the affairs of Hindoo Establishments will be exclusively entrusted to those who have the greatest interest in preserving order and conducting them with regularity.

Submitting report on the Settlement of the Minor Estates for Fusly 1249 in the Zillah of Masulipatam.

Sir,

Para 1. I have the honor to submit the following Report on the Settlement for Fusly 1249 of the Estates noted in the Margin attached on account of minority, together with the following Statements viz.

No 1. - - Jamabundy Abstract of Fusly 1249.
" 2. - - Comparative Statement of Fusles 1248 and 1249.
" 3. - - Statement shewing the increase and decrease between the Settlement of Fusles 1248 and 1249.

rain and require but little moisture to bring them to maturity. The improvement in the sources of irrigation, which consisted in repairing the Tanks, and clearing out the water courses of the Deevy Estate. also enabled the Ryots to take advantage of the freshes of the Kistna and to cultivate wet land to a considerable extent, but the crops were not so good as were expected in consequence of the late Rains not having fallen earlier, and of the supply of water in the Tanks having gradually become exhausted during the intermediate period between the early and late Rains when the Crops were advancing towards maturity.

4. Statement No 3 to which the Board are referred, shews in detail the extent of land cultivated, the quantity of the produce, the Circar share thereof, and the Settlement in the Deevy Estate for Fusly 1249 Compared with those of Fusly 1248.

6. It will be observed that there was a net increase to the amount of Rupees 16,580—8—" there being a decrease of Rupees 20,669—14—8 in the revenue derived from the Dry land in the Decoy Estate, while there was an increase in the wet land and other items co amounting to Rupees 37,317—10—2.

7. The above decrease would not have been so great, and the increase in the wet lands would have been much great-er, had not prices fallen off to the extent of Rupees 7—3—3. in the produce of the Dry and Rupees 15—15—2 in that of the wet land in comparison with fasly 1248, as shewn in Cols: 6 and 11 of Statement No 3.

Rupees 9,287—8—8 in the collections within the fusly, and Rupees 6,386—6—11 in the collections after its close, leaving a balance of Rupees 2,223—10—4 which has since, in great part, been collected, and is in progress of immediate realization.

10. The amount due on the Estate of Moonegal for fusties 1248 and 1249 has been collected in full, and the surplus above the Peishcush &c. for both years amounting to Rupees 7,984—3—6 has been paid to the principal Creditor Sutta Vencata Charloo who obtained a transfer of the claims of all the other creditors, and who has duly executed a receipt to the Sircar for the amount, thus reducing the private debts due by the Minor to Rupees 14,986—12—11 as shewn in the Margin.

Fort St. George 16th December 1841.

11. The rent amount fixed on this Estate is exceedingly large with reference to its capabilities, and could only be realized in good seasons. It consequently happened that in fusties 1248 and 1249, which were very bad years, the balances remaining unliquidated at the close of those years amounted to the large sum of Rupees 8,344—7—1. Of this sum, but little could be realized from the actual resources, so that the renters who paid the money into the Treasury must have borrowed a considerable part of the amount.

12. It appears necessary here distinctly to observe, that the greatest indulgence was shown to the Renters, who, being men of credit and respectability, had preferred discharging the amount to being subject to any demand for the same by the Officers of Government.

14. It will be observed that the total demand in the Decoy Estate including arrears up to the end of fusly 1249 amounted to Rupees 117261—10—7. and that by the large payment on account of current and arrears in the latter fusly, the balances up to the end of the fusly were reduced to Rupees 69307—11—7. while there is a balance in hand as shewn by the account Current No 4. amounting to Rupees 2108—4—7. The Poishcush in the Moregal Estate has been paid in full.

15. The transmission of this Report has been delayed by my anfious dessire and the most sanguine expectations which I was led to entertain that I should be able, before closing it, to conclude a final arrangement with those creditors of the Decoy Estate, whose claims had hitherto remained unadjusted. In Para 22 of my Report dated 4th September 1840, I had the satisfaction of informing the Board that, by an advantageous

Fort St. George 16th December 1841

advantageous compromise effected with a great many creditors, claims including principal and interest amounting to Rupees 136373—14—6. had been reduced to Rupees 42,625—11—0. and I was in hopes that an equally advantageous arrangement might be effected with the remaining creditors on condition of an early payment by Government of the amount of compositions.

16. The whole amount due to these creditors, including principal and interest, amounts to the large sum of Rupees 2,07,878—5—9 and on the supposition of a similar compromise being effected with them, the whole amount to be paid to them would be reduced to Rupees 50,680—5—6, making the whole payment on account of the private debts to amount to Rupees 93,306—0—6.

To

Fort St. George 16th December 1841

17 To effect this object my most constant and reiterated efforts have been directed but without success, and finding all overtures hopeless, I determined to offer them a Lac of Rupees / subject to the confirmation of the Board and Government / as the ultimate limit to the composition, on condition of their binding themselves to accept the amount in satisfaction of their claims, and arranging amongst each other as to its' division and appropriation. Finding that no settlement could be effected by themselves Collectively, I endeavoured to enter into an arrangement with each creditor individually. and the result of this conference was, that the greater part of the creditors had agreed to accede to such terms only as might be accepted for their own individual claims by two Vakeels of the Provincial Court who ranked as among the principal creditors, on whose judgment they placed the greatest

reliance

Fort St. George 16th December 1841

reliance, and by whose example they were determined to be guided.

18 I regret to be obliged to state that, notwithstanding much personal exertion in endeavouring to effect a satisfactory compromise and to reconcile contending interests, / in which duty I have been ably assisted by my Head Sheristadar Ramakistna Pundit. / the composition which the above creditors declare their willingness to accept cannot be estimated to fall short of Rupees 74,000, the consequence of which has been that the 4 creditors whose claims had been reduced to Rupees 42,625 — 11 — and whose engagements to accept that amount had expired by the 31st August last, and who are no longer bound by their agreements, now insist on being paid according to the same proportion, thus making the whole estimated composition amount to the large sum of Rupees 136,000.

This composition tho' reasonable and

19

liberal on the part of the creditors with reference to the large amount of their claims amounting in the aggregate to Rupees 346781 — 4 — involves a much greater advance than the value of the Estate

of Decoy, or its prospective returns, considering the present diminished agricultural resources of the County and the large arrears of Peishcush now outstanding. Viz. Rupees 49,727 — 11 — 7. (all which had accrued during the life time of the late Zemindar) authorize me to recommend for the sanction of the Board and Government. It is my opinion, therefore, that the only way of bringing the creditors to more favorable terms, or of relieving the Estate from its incumbrances, is to be prepared, and to shew a readiness to permit the Estate to be sold in execution of the warrants of the Court. to raise the Government demand as high as possible by charging interest according to the Regulations on the above balance, as also on subsequent arrears which accrued during the Minority, and to resist, as the Board have the power of doing under Section V. Regulation XXVI. A.D. 1802. any attempt to subdivide the Estate and sell it by separate portions.-

+ Up to 14th October 1841.

20. Should the entire Estate be thus brought to sale, the surplus which would remain after discharging the Circar demand, as shewn in the Margin, would be so inconsiderable, that the creditors would find it to be for their interest to accept the terms originally offered to them, or to enter into an arrangement to receive the amount of their claims from the surplus revenues of future years after the present balances shall have been liquidated in full.-

21. Should any warrants issue from the Courts at the instance of the Creditors, I shall make each case, as it may occur, the subject of a special application to the Board.-

Order thereon

(13-14)

Ordered to be brought forward at a future day.-

Read the following letter.

To The Secretary to the
Board of Revenue
Fort St. George.

(15)

From the Collr of Guntoor.- Reporting that he has selected Chungamoory Lutchemenarroo for the situation of Head Cheristadar and that he has removed Mr. Sashagherry Row also Rait to the situation of Ameensat Datchapully and Rachoor respectively.

Sir,

Para 1. I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 11th instant, and with reference to the orders therein contained, beg to state that I have selected Chungamoor Lutchemenarroo for the situation of Head Cheristadar in this Cutcherry- Lutchemenarroo I believe, is at present at Madras- I have communicated to him the circumstance of his having been selected for the office in question, and have requested him to join his station immediately- As the services of this individual are well known to the Board, it appears unnecessary to advert further to the subject, I am waiting for the testimonial of the person whom I have

1980 Fort St. George 10th December 1841-

have selected for the Office, of Nazir, and shall communicate the same as soon as they are received - Naputty Sashagherry Row, has been nominated to the Office of Ameen at Datchapilly, which is the highest paid Office at my disposal, but with reference to the correspondence that has passed in regard to the postponement of the balances in Palnaud, Sashagherry Row, has been directed to take charge of the Innacondah Sarah - Subraiyer Venkata Kistna Row has been nominated to the Ameen of Rachoor -

2- In regard to the remarks of the Board, in Para 9 of the Proceedings under reply, it will be admitted by the Board that I have repeatedly brought to their notice that it was urgently necessary that a fit and efficient person should

Fort St. George 10th December 1841

be appointed to the Head of the Office as the whole duties of the Department had devolved upon the Nail. It is but due to the Nail to state that he had solicited me to adopt an arrangement that would relieve him from the whole duties of the Office, but this was impracticable until the permission of the Board had been obtained for the appointment of an efficient Head Sheristadar.

3- The Nail being no longer in the Hoozoor, and two new individuals having been selected for the offices of Head Sheristadar and Nail, it is but just to Vencatakistna Row to state that he has discharged the duties of the office fully to my satisfaction, and the improved state of the district and the general confidence that has been secured, afford ample testimony to his character

Fort St. George 10th December 1841.

The Board are aware of the peculiar circumstances of the district 4 years ago when I took charge. I should perhaps be open to blame were I not to state distinctly in this place that Vencata Kistna Row had nothing to say to the criminal charge alluded to in Para 10 of the Extract under reply.

4- It has given me much pain to observe the tenor of the Board's observations as regards the course that has been taken. I hope that it will be deemed sufficient that I should assure the Board that the conduct of all the parties concerned was noticed at the time, although no formal proceedings were held. In regard to the postponement of the Collections in Fusly 1248, I was unwilling to

ORIGINAL DESTROYED

18803. Fort St George 16th December 1841

to hold formal proceedings, or take further notice of the case, as the correspondence connected with the filling up of the situation of Head Sheristadar had only recently closed - It was on a representation of a similar attempt at postponement in fusly 1249, with other circumstances which have been explained, that compelled me to bring the whole subject before the Board. -

In regard to the removal of the two Ameens, one was removed upwards of 2 years ago - and the other would have been removed before, but for the difficulty of making a suitable arrangement without injury to the other Tanahs. -

Proceedings thereon - 1 -

15-16

The Board of Revenue having exculpated N. Shaskagherry Rows from the charges noticed in the Extract from the Proceedings of the 11th November and having besides, reason to consider him competent for the adequate discharge of his duties, did not intend that the provision adverted to in the concluding Para of his Proceedings, should consist in his removal to the subordinate situation of an ameen in the District of which he had been the Head Sheristadar - The Collector of Guntoor has misunderstood their orders upon this point, which indicated employment in a situation of similar Rank in some other District. -

He will therefore be reinstated on the receipt of these Proceedings. -

To

Fort St. George 16th December 1841.

3. To the nomination of Moory =moory Luchmenarsoo the Board would not have offered any objection had the office of Head Sheristadar been permanently vacant, but this is not at present the case.—

4. The Party selected to be Nail Sheristadar in the succession to Subbreniss Veeraturu Pistna Row should be reported to the Board of Revenue. If willing to ac=cept the appointment and the arrangement is agreeable to Mr. Goldingham Mr. Luchmenarsoo may be nominated for the present to the latter office.—

17

Order thereon submitting a letter from the Pl. Coll. of Nellore on the subject of certain Durwa Caum and Shrotriem Villages in the resumed Zyghire of Woodagherry and recommending that certain arrangements recommended by the Pl. Coll. may receive the sanction of Government.

Ordered that the fore=going letter be submitted for the inform=ation and orders of the Right Honorable the Governor in Council, with reference to the Minutes of Consultation dated the 17th August last.—

The Board recommend that sanction may be granted for the arrangement proposed by the Principal Collector in regard to the four Villages enter=ed in the Statement which accompanies his letter. Viz.t that the Village of Rajahvole may be resumed, and a pension of Rupees 70 per mensem granted to the present incum=bent Durwa Mahasahiba, the said pension to be inclusive of an allow=ance of Rupees 15 per mensem of which she is already in the receipt, and that

Fort St George 16th December 1841-

that the Villages of Caukoottoor, Arvatepully & Kistepooram may be continued as at present i.e. the first to Syed Abdul Khader Hoosainy on a peshcush of Rupees 500 per annum, and the two last to Syed Khajah Ahmud Saib Hoosainy on an annual peshcush of Rupees 184- The allowance of Rupees 7. per mensem at present enjoyed by the former of the above mentioned parties to be of course discontinued-

Under the circumstances represented in Para 6. the Board recommend the continuance of a reduced pension of 10 Rupees per mensem for life to Mahasaiba the wife of the individual who had the Villages of Arvatepully and Kistepooram, as it appears that the share which her husband would derive from those Villages will barely suffice for his own maintenance-

It will be observed on reference to the 7th Para of Mr Stenhouse's letter as well as on reference to Para 17. of his letter of 27th February last. that all he had in contemplation by the small Survey Establishment he proposed was the mere measurement of the waste and unoccupied Lands (the Cultivated Land having been already measured) and not a regular Classification and assessing of the waste.

Inform 18th March 1841.

Fort St George 16th December 1841-

Read the following letter-

To

The Secretary

to the Board of Revenue

Sir,

Fort St George-

From the Coll. of Bellary Report on Government Plantations in Bellary District.

Pursuant to the promise contained in Para 34 of my Report on the Settlement of Fasly 1219. and with reference to the Board's Proceedings thereon dated 18th March 1841. I have the honor to submit the following details of the Circar Topes planted in this District during the administration of the late Mr Robertson-

2 On referring to the correspondence which passed between my Predecessors and the Board regarding Topes when these Plantations were first contemplated, it appears that the plan was originally adopted at the recommendation of A. D. Campbell Esq one of my Predecessors on the 12th July 1825- the Government were pleased

23d September 1823.

to

to authorize an annual outlay of 4,000 Rupees for planting Palmira and other Trees in this District, what progress was made has been clearly explained by Mr. Robertson in his Summabundy Report for Fusly 1239. in which that Rincipal Collector proposed to continue this work upon a more extensive Scale, with a view not only to form new Topes, but also to renew the old Plantations which then yielded an average Revenue of Rupees 12,786 per annum, but which were gradually decaying or past bearing and with this object in view, he proposed that the Rents of the old fruit Trees of the District should for a period of 5 years be appropriated to forming new Plantations and restoring old ones.

Paras 31 to 69.

3. To these propositions the Board demurred, not being inclined to recommend such an

Para 27 of the Proceedings dated 4th March 1831.

an expense before being fully satisfied that the Ultimate result in a financial point of view would compensate for the present outlay, the Board transmitted forms of Statements, & desiring that Mr. Robertson would furnish accounts made up accordingly, with such observations as he might think fit to offer.

4 Mr. Robertson having in conformity thereto furnished the statements and entered into detailed observations on this subject in his Report for the subsequent Fusly 1240. the Board in their Proceedings &

Para 33. dated 7th August 1831. Recommended the further annual outlay of 4,000 Rupees as proposed by the Rincipal Collector, and it was

Para 24. accordingly sanctioned in Minutes of Consultation under date the 25th October of the same year. With this sanction the

Government

Government directed Mr. Robertson to submit an Estimate shewing how the sum authorized was to be expended, and the progress which he calculated would be made yearly in extending the Plantations, together with the financial results that might be expected but it does not appear that any further report in answer to this requisition was made by that Officer. I will now therefore endeavour to afford the information which the Board and Government have required.

Accompanying are four Statements of those Circar plantations which the late Mr. Robertson has so successfully introduced into a District where no such thing had hitherto existed; where in fact it was

was almost supposed that Trees would not grow. The first of these statements shews the number of Villages and of Topes planted in them, the extent and survey value of the Land on which the Trees are planted, their kinds, also the expence incurred in each year for the Trees planted during that particular year up to the end of Fusly 1249: and the further charges estimated till the Trees shall have arrived at Maturity. distinguishing the number of Topes which still require water and care, and the number in which all charges have already ceased, the Trees having attained an age no longer requiring tending, also the average expenditure per Tree. The same Statement

shews

Fort St. George 16th December 1811.

shews the number of Topes planted in each year from Fusly 1236. The second Statement exhibits those Topes of which the Sebbendy charges are still to be kept up, and the expence incurred on them to the end of Fusly 1249. with the Estimate of further charges from Fusly 1250 to Fusly 1259. being the extreme period calculated for their full growth, as the limit within which the Trees will have attained maturity. The 3d Statement explains the number of fruit trees already become productive up to the end of Fusly 1250. and the number and kinds of those which are expected to bear fruit in each year between Fusly 1251 and 1260. and the fourth or last Statement particularizes the annual expenditure on account of these Plantations, as entered in the English accounts and as comprising the actual expence as per Sabook accounts.

It will be observed from the aforesaid Statement No. 1. that in 13 years from Fusly 1236. to Fusly 1248 - 665 Topes have been planted in 523 Villages occupying 1,012 Acres of land assessed at Rupees 1,982 and of which the quantity of waste land being Acres 2206 Assessment Rupees 2,934 the remainder is cultivable land. Of the whole extent of land planted with trees, two thirds is Dry land, and Mr. Robertson having in Para 54 of his Report for Fusly 1240. explained his using cultivable land for the Plantations, I need only refer to that report. The whole number of growing trees in the above mentioned Plantations is 1,73,813 they consist of fruit Trees 1,64,246. and other Trees 9,567. The following Abstract exhibits how many of these Trees still require attendance, how many are grown up & demand no further charge, and how many are of such kind as have required no tending, and in the planting & rearing which no charge has been incurred from the beginning, it besides gives a detailed description of them. together with the total expence up to Fusly 1249, and the Estimated further charge.

7. The whole expenditure on the 665 Topes amounts to Rupees 12,535 19. being Rupees 7541 6 in Cash and Rupees 4810 3 the assignment and Remissions on lands of these 81 Topes containing 15,919 Trees having come to maturity, their attendants have been discharged and the Trees put under charge of the Village Officers, and on their responsibility the Cost of these 81 Topes amounts in all to Rupees 12,180. being in Money Rupees 8,582. and Land in assignment &c. Rupees 3,598. A few Topes (116 in number) containing 10,123. Trees were managed from the beginning Solely by the Village Servants and no charge was incurred on their account excepting a trivial sum of Rupees 27. In 138 Topes having 14,7471 Trees. Sibbindies were found requisite, the outlay amounts to Rupees 1,11,312. being in money Rupees 66,507 and in Remission and assignment of land Rupees 44,805. Regarding future charges the Taksildars having furnished their Estimates it appears that the farthest period for which any portion of the Sibbindies need be continued, is the tenth year to come or Fusly 1259. The Estimate entered

in the statement No. 2 is made up for each year with reference to the number of growing trees and the necessity of watering them, which if added to the total charges already incurred on account of these 138 Topes up to Fusly 1249 will amount to a grand total of Rupees 1,49893. which averageing at 1 — 3 Rs. A P upon 14,7471 Trees enables me to state, that the actual expence after all will not exceed one Rupee per tree — but for a general average it was thought best to calculate rather above than below that may be incurred —

Charges already incurred Rs. 111312.
Estimates of further charges Rs. 38581.
Rs. 149893.

8 It may be observed that a few of the Plantations in which it is still proposed to retain the attendants, are Topes which were planted in the early period of this undertaking I must therefore explain that the cause of continuing their Sibbindies is in consequence of their still containing young trees planted to replace dead ones, or where any augmentation has taken place as opportunity has offered and they are exhibited in Col. 36. to 39. of the Statement No. 1.

9 The Number of Fruit Trees becomes productive up to Fusly 1250, and the number that are expected to bear fruit in each year is shewn in the following Abstract of the Statement No. 5.

1841

18819 Fort St. George 16th December 1841.

The expectation expressed by Mr. Robertson in Para 52 of his Report for July 1240. that the Tamarinds would begin to bear fruit in 12 years, and other fruit Trees in 10 years - has I am sorry to say been found too sanguine; the cause can only be attributed to unfavorable years, or to the Plants having been bad, not to want of care on the part of the attendants - it will be found also that in one or two bad years the Cost has run above others -

10. I shall now proceed with the financial prospect that may be looked to as the result of all the labour and expence employed in these Government Plantations - The Tamarind, Mango, and Iffi or Bassia latifolia, are the principal fruit Trees yielding Revenue to the Circar. Mr. Robertson in Para 52 of his Report above alluded to Estimates the annual rent at 4 annas per Tree and other fruit trees at 3 annas each. The Estimate in question having been founded upon many detailed averages and Comparisons and the Revenue at present realized from the few Trees which have began to yield fruit Equalling the Estimate, evinces the truth of the opinion -

18821 Fort St George 16th December 1841.

Mr Robertson adds in Para 54 that "as the trees will not yield their full produce at once, the whole expence incurred by Government may be expected to be recovered within ten years after they begin to give fruit, after which they will last at least one hundred years." Looking at the subject therefore merely in a financial point of view, the result are thus favorable, but I confess I deem it equally desirable to prosecute the work as contributing essentially to the comfort of the people and ornament of the Country," in these liberal and enlightened sentiments it will be almost unnecessary for me to state how fully I concur.

11. In Para 34 of my Report on the settlement of fusly 1249. I stated that some unauthorized disbursements were made, and that I had discontinued them, and I hereunder subjoin a Statement shewing what charges were put a stop to, and what substituted in their stead, together with the remissions allowed on account of Plantations in fusly 1249 and 1250.

The sum of Rupees 1903- entered as Lodeje in the above Statement was what I ceased to allow in fusly 1250. as being unauthorized - Of the said sum, Rupees 1756- is inserted in Col. 67. of the Summabundy Statements No. 2. I beg to add that independent of the foregoing, there is another item of Rupees 403 which was remission granted on land for watering Trees, and which has since been discontinued inconsequence of the trees having attained an age not requiring water - Thus the total amount discontinued is Rupees 2306 and the remission on land still found requisite amounted to Rupees 1315 at the Summabundy of fusly 1250. as inserted in Col. 87 of the Statement No. 2 making in all Rupees 5745 as per the Nundree Statement No. 13 which accompanied my Report for that fusly --

12- Independent of Government Topes thus far reported on, there are some Trees (Palmyras in particular) planted at the Circar expense, and in a few instances without Cost - Their Number and Condition are herewith exhibited -

Of the sum of Rupees 9,700-14-3- inserted in Col. 5 of the accompanying Statement No. 4. as entered in the English accounts, Rupees 9,463-3-1- has been actually disbursed, leaving a balance of Rupees 237-11-2, in the Talook treasuries, and the particulars of the actual disbursements are Rupees 7,516-11-2 the charges incurred on account of new Plantations Rupees 7,516-11-" being the amount entered in Col. 10 of the Statement No. 1. whilst the remaining Rupees 347-7-" being the charges defrayed for preparing pits &c. to transplant the trees also the price of the plants, trimming &c. and Rupees 15,699-1-1- is the amount expended for forming Palmira Topes and for planting trees behind Tank Banks, and on the High Roads for avenues, every other particular of the expenditure, the rates at which the Government Sanction was obtained will be found in the Statement No. 4—

14- Having submitted what

what information was called for on account of the Circar Plantations introduced by late Mr. Robertson in this District, I beg to propose completing the intention of the late Principal Collector by planting a further course of Topes in those Villages still in need of them, and there are still many, before the original design will be complete, with this hope I beg the Board will pass their recommendation for a yearly outlay of a sum of Rupees 6,000 for 10 years. which is of course to include the Estimated charges for the present Topes amounting, on the average, to 2,268 per year. I do not make this proposition without keeping in view the Circar advantage in actual Revenue. The Survey Assessment of the land occupied by the present new plantations averages Rs. A. P. -1-4-4- per acre, and as each of no acre holds 48 Trees, the average rate of annual rent now relized per Tree is Rs. A. P. @ 0-3-10- making therefore a total rent per acre of Rs. 9-12-2 but

Average for the present number of Topes -- 2268-
for the proposed additional 3732-
CRs. 6000-

but giving a deduction of one fourth for the probability of a few trees failing to bear fruit there will still be more than 7 Rupees as a realization per acre, and the land assessment deducted therefrom at Rs A P 1-4-0 the net unquestionable profit will be Rs A P 5-12-0. I must not omit to assure the Board that in the event of my proposal meeting the Board's approval, I shall endeavour to select waste lands for that purpose out of the immense tracts which are uncultivated and out of the lowest rated Lands.—

15- In conclusion I beg to state, that I consider it altogether unsafe to trust to the Estimate received from the Talooks which it will be observed, reduces the probable charges in ready money for the next 10 years to Rupees 22,682-15-0 instead of Rupees 66,383-10-3 which according to the past expenditure for 10 years up to fasly 1249, it has amounted to, it also reduces the remission on

on land to Rupees 15,898-2-0 this reduction however, I by no means consider unpracticable, and I shall endeavour strictly to adhere to it, at the same time the Board will I think agree with me, that to confine the sanction to that amount would place the very existence of all these Plantations in jeopardy, as years may occur in which from excessive Drought, the whole calculation may be found unpracticable to be acted up to- I have stated the sums upon as good data as can be procured for a prospective Estimate of this nature.—

16- My proposal amounts to this, that no charges whatever, either land or money, will be incurred for the Plantations now in existence beyond 10 years, that the amount in money shall be reduced from 8,000 to 6,000 Rupees, and that the further progress to be made in forming new Plantations, when required, shall be dependent upon the saving obtained from the sum of Rupees

Fort St George 16th December 1841

Rupees 6000, and at the expiration of that sanction, only such a sum will be required as may then be found necessary to keep up the Topes planted within that period, on it's being found practicable by the growth of the Trees to discontinue the remissions on land at present granted to those who take care of them, I will do so, this great reduction I propose as conceiving it to be the object of the Board to check the expenditure under this head, - but I trust that the amount I still recommend will be continued in consideration of the admirable object in view -

17. These Plantations are an undertaking beyond the reach of any private Individual, even if he possessed the money, and could afford to wait for a series of years for the return, the influence the necessity of the cooperation of the whole village would be wanting - They are the work of one of the most indefatigable men not hastily resolved upon or upon slight grounds abandoned but persevered in with a degree of skill and

Fort St George 16th December 1841

and steadiness that only those acquainted with the difficulties he had to contend with can properly appreciate and even with all this the attempt would have failed, but for the signal confidence with which every act of Mr. Robertson was regarded, which enabled him to obtain from a liberal Government the permission to make so large an outlay for which the advantage to be gained could only be looked for when years should have crowned the effort with success, the immense return now anticipated of upwards of Rupees 40000 per Annum is not I believe exaggerated every Tree in this District produce is Rented with avidity and I see no reason why these Plantations should not be they are the admiration of all strangers they are looked upon with the greatest satisfaction by the Inhabitants they are in fact the undertaking of a great Government not looking to the present hour only but to the happiness and comfort of the People and every Justice has been done them by the late Principal Collector whose name will long be remembered on these arid Plains as having introduced them

Fort St. George 18th December 1849.

Order thereon— Ordered to be brought forward at a future meeting.—

(Read again in Cons. 13th January 1842.)

Read again letter from the Acting Collector of Cuddapah, Dated 10th October 1840. reporting upon the settlement of that District for Fusly 1249.

20

Proceedings Relative to the Settlement of the Land Revenue of the District of Cuddapah for fusly 1249—

Para 1. The season of 1249. was on the whole very favorable, the early rains which fell abundantly enabled the Ryots to cultivate in July the black lands in Jamalmadgoo & dry Talooks, which had failed the preceding year, with Jonna Grain, and the heavy rains which fell in August and September filled the Tanks in Muddenpully, Goorumcondah, Royachotty, and Poolevendla, Talooks and encouraged the people to carry on their wet cultivation to such an extent that there was not water sufficient to bring it all to maturity, so that it became necessary to make some trifling remissions for perished Crops.

2. The District was generally very healthy for men and cattle, and the

the price of food moderate— There was a great increase in the quantity of every description of land engaged to be taken up at the beginning of the Fusly and the extent of land actually cultivated in 1249 exceeded that of the preceding year by

preceding year by Rupees 4,43,218-7-10- Of the net demand in Cuddapah proper Rupees 2,032,740-12- u were collected within the Fusly leaving a balance of 17,479-6- u which has since been reduced to Rupees 3312-5- u the recovery of any part of which seems very doubtful-

3- Of the net Demand in Bunganapilly Rupees 10,336-12-5 were realized within the Fusly leaving a balance of Rupees 13,066-10-4 which has since been reduced to Rupees 1,843-12-7 the chief portion of which is considered irrecoverable-

4- The principal items of remission in which there has been a decrease are "lands left waste" and "loss of crops" which like all the others, are to be ascribed entirely

entirely to the favorableness of the season this would call for no further remark from the Board, but that Mr Lavie had found it necessary, as explained in Para 10 to make remissions both on account of loss of Crops and lands left waste subsequently to the close of the Fusly the amount thus remitted is not considerable but exceeds that allowed on the same account in 1248-

For the reasons explained in their Proceedings on the settlement of 1247 the

Para 10- Board are desirous as far as practicable to do away with the necessity for any after remissions, they see no good reason why all claims to indulgence could not be brought forward during the time the European Officers are in the Talooks on the spot to hear the Ryots representations and they desire

to

to impress upon the Authorities in Cuddapah the desirableness of getting rid of this item altogether from the Accounts.-

5. The modification of the Assessment on certain one and two crop lands referred to in the concluding part of Para 10 and the following Para of the Acting Collectors Report has formed the subject of a lengthened correspondence and has been disposed of in a separate communication to the Collector.

6. In reference to the balances generally from Fusly 1240 to 1248 remaining outstanding both in Cuddapah and Bungana pilly the Board will defer their observations until the receipt of the final Report promised in Para 21 but regarding the sum of 855 Rs. 4 as the amount due for 1242 from certain Reddies in the Poolevandala Talook it is necessary that distinct and positive instructions

instructions should be given. If this amount, as has been acknowledged, was collected by the Reddies from the people and misappropriated by them instead of being paid into the Circar Treasury the mere circumstance of the Reddies being unwilling to pay would seem no good reason why the demand should not be enforced by the Collector agreeably to the Boards orders nor does the fact of the money being misappropriated at so remote a date now preclude the Board from directing its recovery which they desire may be immediately done.

7. The measures reported in Para 22 in respect to the recovery of 1749 embezzled by the Goomastah Ram Row are by no means satisfactory this individual having been committed to Jail on a distinct charge of embezzlement should not have

have been so immediately released except upon the discharge of the full amount or upon his giving the most ample security, which would seem not to have been required for as far as the Board can judge the produce of his Enam Land, the only tangible security he gave amounted in two years only to Rupees 83-10-9. The Board desire to know whether this is the full value of the Enam and whether this individual has any other available resources as he would seem entitled to little indulgence.

8. The Board concur generally in the observations contained in these Paras as to the advantages which have already resulted from the 1/3 and 1/4 reduction in the Assessment in this Zillah and the further benefits which may be expected.

Para 26-27-28.

9. The Board proceed to notice the five propositions appended to Para 28 of the Acting Principal Collector's

Collector's report.

The first is to determine upon a just and reasonable mode of taxing new Wells. This is a subject of great and general interest affecting all Districts more or less and will be taken into Consideration and disposed of as soon as answers to the references which have been made to the different Zillahs have been received.

The second is to introduce certain fixed rules for the Division of service Enams whereby the "Mirasdar" "Curnums and Reddies" may be checked in their vicious practices of writing false Accounts and concealing Cultivation &c., and receive a more equitable portion of the Enams at present enjoyed by the useless and ineffective Co-sharers.

The Regulations in force appear to be sufficiently stringent, to

to check the practice of writing false accounts &c. In reference to the new distribution of the Manium which Mr Lavie has proposed the Board are not aware from any Complaints which have reached them that the present mode of distribution is objected to by the Mee= =rasidars generally, or that the Mirasdars are inadequately remunerated it is believ= =ed that the Mirasdar in addition to his share of the Manium enjoys distinct and entire the Meerah and Roosums attached to the Office for the period he performs the duty and as this comes to each Co-sharer in suc= =cession it is presumed gives general satisfaction. The same practice obtains in Bellary and in many other Districts and the Board would be unwilling to disturb it without full and satisfactory information on the subject, they will however be happy to

to receive the sentiments of the present Acting Principal Collector should he be of opinion that any modification is necessary.

The third proposition sug= =gests that orders should be given for the effectual repair of Duvvundum Tanks &c.

The rules laid down by Sir Thomas Munro regarding Duvvun= =dums amply provide if duly en= =forced for all that Mr Lavie requires to be done and render any further orders unnecessary.

The fourth proposition is to the effect that the Collector should be empowered to reduce the Assessment on lands long left fallow which no one will cultivate on account of the high land tax.

Mr Lavie's experience in Cuddapah was very limitted but he appears to have readily

fallen

fallen into the too common error that because land is left waste it must necessarily arise from the Assessment being too high, without adverting to many other causes that may have operated to keep the land out of cultivation.

The highly and lowly cultivated lands have been assessed upon the same principle, Viz^t. with reference to their productive powers. In instances may occur where an error has been committed and the Board will always be glad to rectify such inaccurancies when they can be satisfactorily shewn, but the proposition to empower the Collector to reduce the Assessment according to his will and pleasure cannot be entertained for a Moment.

In reference to the last proposition submitted by Mr. Lavie the instructions of the Board have already

Board's Proceedings 17th Nov.r 1840.

already been furnished.

10. Referring to the points noticed at the conclusion of Para 11 of the Sub Collector's report the Board observe that as the high and low lands under the Cummum Tank were assessed with reference to their positions and the facilities of irrigation they see no occasion whatever for reducing the Assessment on the higher lands.

11. In Para 17- 18- and 19 the Sub Collector details the rules under which he has collected Teerwah agreeably to the instructions of the Board upon lands Cultivated in Fusly 1249 under Wells dependent for the supply of water on Tanks it is presumed that the same rules have been adopted in the principle Division that this is not stated and being of new introduction should have been noticed

In

Fort St. George 16th December 1841.

12- In reference to Para 22 of the Sub Collector's report there cannot be a question of the individual therein preferred to holding a Puttah for Lands assessed at 162 Rs. cultivated only Coorkky to the amount of 6 1 11 under new Wells leaving the remainder waste he should be charged garden Teerwah for the portion so cultivated and the remainder if the original holder still declines to cultivate should be made over by the Collector to any Ryot who is willing to do so.

13- The Board desire to express their satisfaction at the attention with which Mr Lavie applied himself to the discharge of his duties during the period he conducted the Revenue management of the District of Cuddapah.

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a Transcript of the same be forwarded to the Sub Collector in charge of Cuddapah for his information and guidance.

Proceedings thereon.- 1. The Board proceed to take into consideration Paras 10 and 11 of Mr Lavie's report upon the Settlement of Cuddapah for fusly 1249. the subject discussed in these Paras relating entirely to the classification and assessment, it is considered desirable to forward the Collector instructions thereon distinct from their Proceedings on the Summabundy Report generally.

Commencing instructions on the subject discussed in Paras 10 & 11 of Mr Lavie's Report upon the Settlement of the Cuddapah District for fusly 1249. Extending the Classification and assessment of Land.

10th Oct 26 Oct 1840

In Para 8. of the Report upon the Settlement of fusly 1240. a former Principal Collector, Mr Lacon, submitted a proposal for modifying the classification and assessment of lands classed at the Survey as 1 Crop lands, which when cultivated with a 2 Crop were found unequal to bear the additional Jeervah, and which was in consequence directed to be entered in the Summabundy subsequently remitted. Mr Lacon observed

16th August 1834 In Govt 22d "

Para 8. "That wherever it appears that the classification of the Lands of any Village

Mr. Lacon according-
ly on the 10th August 1832 submitted
a Report of his proceedings ac-
companied by Statements shew-
ing the particulars of the
alterations, but in carrying out the
plan he seems to have essentially
departed from the principle originally
advocated by him, and sanctioned

Para 2 in Cons. 20th Aug. 1832

by the Board, for in place of reducing the assessment on Lands classed as 1. Crop which tho' cultivated with a 2 Crop were unequal to bear the addition of half Teeruk, he has classed such lands at once as 2 Crop land. This will be apparent on reference to the Statement A submitted with the Principal Collectors' letter. In the Village of Tungudoopilly in the Canala pooram Taluk for example the lands of the 1st and 2d Class are entered in the Survey accounts as 2 Crop Lands whilst those of the 3d 4th and 5th Class are stated to be one Crop lands. but the whole of these three latter Classes have been entered as 2 Crop Lands. If the assessment on these three last classes was so high as to be unable to bear the addition of the half Teeruk when cultivated with a 2d Crop the course to be pursued according to the plan originally

Fort St. George 16th December 1841

originally proposed by Mr. Lacon and sanctioned by the Board would have been to reduce the original assessment to such a standard, as with the addition of half Teeruk when cultivated with a 2d Crop should not raise it above that of 2 Crop land of the same description, the principle observed in regard to the Tungudoopilly Village pervades the whole Statement, and the Board cannot give their sanction to it -

5 The modification of the assessment will only be required in a very few Villages, but if it is to be carried into effect it must be done on the principle and in the manner approved by the Board in their Proceedings of November 1831; they accordingly desire that the Present acting Principal Collector will be pleased to give his attention to the subject and submit at his early convenience a detailed Statement of the results -

request that they will submit it as
a special case, for the consideration
of the Government —

and there is no European Medical
Officer attached to the Department
who has an opportunity of forming
an opinion on this point, from
frequent communication with him,
but three years experience has fully
proved to me that he is not only
unfitted for
the arduous duties of the office he
fills. It is indispensable that the
person holding the situation of

activity of mind and body whereas
added to his other infirmities it is
evident the memory of the individual
in question has considerably failed him

Proceedings thereon,

(22-23)

The Board of Revenue have already intimated to the Collector of Chinglepet that they are precluded from submitting any claim for a Superannuation Pension to Government except supported by the prescribed certificate. They are moreover unwilling to sanction the removal of an Old Native Public Servant from Employment without provision, unless his absolute unfitness for duty be fully establish-ed -

This arrangement has been completed with regard to 393 of them, and is in progress with the remaining 41.

7. There are still 193 Pagodas, the Annual Amounts of whose Revenues exceed 200 Rs under the immediate management of the Government Officers, and for the future management of which no provision has yet been made.

8. Of these the 17 Pagodas detailed in the annexed Statement

the rest as "Athinam" that is, those, the right of appointing the Local Managers of which belonged to certain Mutturns or Colleges of Tumberans. This right has been respected during their superintendence by the Government Officers, and its complete acknowledgment by abstaining from all interference in these Pagodas is all that is required.

9. For the future management of the remaining 176 Pagodas, whose aggregate Revenue is Rupees 14,933-3-4 per Annum and to the control of which no predescriptive, hereditary or other right seems to be lodged any where but in the Government, the least objectionable scheme seems to be that which

has

has been adopted by the late Acting Principal Collector in regard to the Pagodas whose Revenues are above 30 but do not exceed 200 Chk. per Annum, Viz. the appointments to exceed Pagodas are by the Punchayets of the most respectable inhabitants of the sect or sects connected with it of the Village or Town in which it may be situated.-

10 Some such Rules as the following seem desirable for the guidance of these Punchayets.-

1st Each Punchayet to consist of not less than 3 or more than 5 Members

2d To have authority, and within 3 Months of their occurrence to compellable by suspension of all allowances to the Institution to fill up vacancies which may occur in their own body from amongst the Inhabitants

of the Town or Village in which the Pagoda is situated and of the sect of the individual who has made the vacancy.-

3d To exercise absolute control over the internal economy of the Institutions, its receipts and disbursements.-

4th To have power to dismiss and appoint all servants on the Establishment of the Institution and to regulate their salaries or perquisites.-

5th All payments to be made quarterly, in advance, from the Treasury, on the receipt of all the Members of the Punchayet or of such person or persons whether of their own body or not, as may be deputed on stamp paper by the majority.-

11 The arrangements to be proposed for carrying into effect the orders

orders of the Court of Directors will I have reason to believe, be the least distasteful to the Public in this Province as far as the future conduct of these Institutions is concerned. But other points of vital importance to the prosperity of the District in connection with the proposed abandonment of the Pagoda remain to be considered.

12. The most important of the Revenue derived from lands is

86724 Acres. The whole of these lands have not for 29 years been completely under

Fort St. George 18 December 1841

under the Management of the Revenue Authorities and it is satisfactory that the continuation of that Management is considered to be due as a measure of justice, to the agriculturists whose contracts and engagements have been made in anticipation of it. It will not however be easy to fulfil, to the letter, the intention of Government, "that the Net proceeds of the "land should be paid without reservation "to the Native administrators of the Institutions to which they belong;" and at the same time to establish that entire severance, which is desired between the Revenue authorities and the Native administrators.

13. It is obvious that under every description of settlement the net proceeds of Land must vary considerably from year to year with the produce price, and cost of Cultivation, charges of repairs and

and management &c. Minute accounts of which must be kept with reference to every piece of such Land, whether it comprize an entire Village or a single acre in order to ascertain the "net proceeds" and a separate Jummabundy as it were, must be made annually of the Land Revenue of each of the 627 Institutions endowed with land for the information of the Administrators to whom, it is presumed the Collector must be prepared to render an account of his management. At present such accounts are kept to a very considerable extent and an + Establishment maintained for the purpose at the Pagoda the Cost of which Rupees 5,256 is assessed at a per centage upon the aggregate receipts of all the Institutions.—

+ Vide annexed Statement No 2

is entertained at an annual Cost of Rupees 13,107-1-2 which is assessed in like manner, but its duties are not strictly confined to the Management of the Pagoda lands — Where these bear a large proportion to the Government lands a Curnums, Peshcars or Deputy Tahsildars Establishment according to circumstances is maintained at the expence of the Pagoda Funds who superintend both the Circar and Pagoda lands but on the other hand in those Sub Divisions of Taloks in which the proportion of Pagoda lands is trifling they are superintended by the regular Government Establishment without any charge to the Institutions.—

15. All the inconveniences and irregularities attendant on this double

double Establishment all necessity for keeping separate accounts of Pagoda lands as such, all room for future complaints of mismanagement from the administrators of the Institutions against the Revenue authorities, will be obviated, and all communication between them be much more effectually cut off, and with perfect justice to the Institutions if as has long since been the case in Tinnevelly and other Districts, the average Revenue of their respective land endowments for a series years were made the basis of a fixed Annual Money Commutation the whole these lands amalgamated with the Circar lands and the Establishment entertained for their Management with the Circar Establishment and the connection between the Government authorities and these Institutions thus reduced to a simple periodical payments.

16.

It remains to be shewn that the Government would be no loser by the arrangement It will be seen from the marginal statement that the average Revenue of the lands in question during the last 5 years, has been Rupees 19,047 13-6 and the annual charges including Hoozzoor and District Establishments Narraunt &c. are Rupees 20,363-1-0 leaving the net proceeds Rupees 170,684-12-6 to ensure the periodical payment of which to the Institutions and itself from loss Government might in perfect journey demand a percentage which in fact it has hitherto, and at present enjoys in another shape viz the use without payment of interest

this provision, which might in more
than one account, be deemed objection-
able Government will be protected from

themselves, the interests of which are
at present, in every thing considered
secondary to, and postponed in favor
of, those of the Government Lands

17. Another point of nearly
if not quite equal importance, is the
disposal of the annual surplus of
Institutions, and of the accumulated
plus now in deposit belonging to the several

required as to the expediency of
making over accumulated amount

advisable to keep it still in deposit
to be drawn from time to time, as
may be required for the purpose
of those Institutions respectively" as
all interference on the part of the
Government authorities as to cease,
it follows that the administrators
will be the sole judges of what and
when, it may be required for the purpose
of the Institutions under their
respective control whether therefore
the money be kept in deposite at

to any one interested in the welfare
of this fertile, populous and thriv-
Province it would be grievous indeed to
think that a Fund which has hith-
herto ministered so largely to its
improvement, in the construction of
Bridges the formation of roads
the repair and cleansing of Public
Tanks, the construction and repair
of Ghâts on the banks of the
Rivers, the support of Lunger-
khanas for the reception of the
indigent poor, and of Establish-

minor works and matters tending
to promote the cleanliness

of the population, and facilitate the traffic
of the District, should now be annihilated.

18. Whatever regret the people
of Tanjore may feel at the prospect of the
Superintendence of their Pagodas being
relinquished by Government, it would
certainly be increased many fold, if they
understood that it included the abandon-
ment of their Surplus Funds, which
they have seen for the last 10 years em-
ployed in transferring a fertile bog into
an accessible Garden, and I pledge my-
self upon my long experience in the Province
that its Inhabitants may be considered as
addressing the Government as follows. "We have
been informed that you purpose withdrawing
"the Superintendence you have for nearly 30 years
"afforded to our religious Institutions, the perfect
"good faith with which their Revenues have

been

"been administered during that period, and
"your expressed intention of making
"over to their future administrators
"the whole proceeds of the lands and
"other Endowments of their respective
"Institutions, as well as the accu-
"mulated surplus, satisfy us —
"that the motives of your withdrawal
"are perfectly disinterested. The ex-
"perience of your management has
"shown, that after abundantly pro-
"viding for the wants of each In-
"stitution, as far as their respective
"endowments admitted, there was, in
"several of them a large annual —
"surplus, and the various useful pub-
"works which, with your permission, ha-
"been executed, some at our own sugges-
"tion, others by the spontaneous care of your
"officers, are a proof that you had looked upon

this

"this surplus as the public property of
"the Province, to be spent for their benefit,
"as occasion might require or opportunity
"offer. The existence of such a
"fund to any thing like the same extent
"at least we believe to be peculiar to
"Tanjore, and seems to have been provi-
"dentially provided, to meet the —
"peculiar circumstances of this Dis-
"trict, whose fertile soil and abundant
"irrigation, the very sources of its —
"wealth, by the alluvial nature of
"the one, and the endless ramifications of
"the other, would during half the year inun-
"date its teeming population within the
"sites of their respective Villages, and at all
"times render the transit of produce and
"Merchandize exceedingly difficult w-
"out so large an annual outlay in roads
"and bridges, as the Government cannot

&c

"be expected to disburse from the Ordina
"Revenues. Several lines of road have
"been completed by means of this
"Fund, but many more remain to be
"done, and all must require frequent
"repairs. We therefore request, that after
"having made provision for the Seven
"Institutions according to the expenditure
"under your management, you will be
"pleased to preserve the surplus already
"accumulated, and that which may here-
"after accrue, to be disbursed as hereto-
"fore, in such secular objects as may ap-
"pear most conducive to the welfare of the
"Province, instead of allowing it to
"be dissipated in superogatory ce
"remonies, which is the most fa-
"vorable result to be expected
"from their surrender to the Ma-
"nagers of the Institutions."

In

19. In the hope that this appeal,
in which I have pledged myself to convey
the general wish of the people of Tanjore
will not be considered unworthy of
the attention of the Board and Govern-
ment, I venture to submit, that to
admit it, would not only be in conso-
nance with the expressed opinion of
the Court of Directors, that "when the funds
arising from endowments are more than
adequate to the purposes for which
they were originally appropriated
they should be applied to
purposes of general utility, taking care
that the particular District, in which the
endowments are situated, should derive full
benefit from the new appropriation of the
surplus" but also in perfect accordance
with the spirit and object of the
present instructions.

x General letter from the Honorable the Court of Directors dated 4th May 1838 para. 48

It

20.

It is obvious that these in-
structions have their origin in re-
ligious feelings. It is intended, "to
"leave the people the Management of
"their own religious Institutions,—
"without interference on the part of
"the Revenue Officers of Government"
not because that interference is sup-
posed to be distasteful to the people,
who notoriously desire its continuance
but because it is supposed to tend to the
support of Idolatry, and therefore is
inconsistent with the character of a Chris-
tian Government. Every thing therefore
which implicates, or appears to implicate
the Government in such support, is forbidden
all interference with the internal arrange-
ments of Idolatrous Institutions, or with
the administration of their Revenues
or Funds, is forbidden all

P.

participation,

participation in offerings made to
them [whence it has hitherto been cus-
tomary] is to be relinquished, and
the immediate transfer of these Funds
to the management of the people
of the Country is directed. But it is
clear from the reservation of the
Management of the lands attached
to religious Institutions for the pro-
tection of those who cultivate them,—
that the Government considers itself
bound by the Spirit and not by the
letter of these instructions. The people of
Tanjore, to whom the Management of the
Superabundant Pagoda Revenues of the
Province are about to be transferred,
whilst they most reluctantly undertake
their management to the extent required for
their religious Institutions, beg the Government
to accept that of the accumulated and
ascertained annual Surplus
not for the benefit of Idolatrous

tempted

temples or any thing else, directly or indirectly connected with Idolatry, but as what may be termed a municipal Fund for the improvement of the Province. Can it be pretended that to accept this trust would in the slightest degree either in reality or appearance implicate Government in the support of Idolatry; will not its refusal be practically to support Idolatry, by forcing into its service an accumulated sum of nearly 5 lacs of Rupees and an annual Revenue of Rupees 17,000 in perpetuity which the people, who have the acknowledged right to its disposal are desirous of appropriating to the most laudable objects, but which appropriation can only be made thro' the Agency of Government.

21. It is difficult then to conceive on what plea Government can refuse to continue to be the depository of the accumulated surplus paying interest upon it at the Current Interest on public Securities and becoming the Agent for the administration of the Funds arising from this source and the annual surplus

when the incalculable benefits which may be conferred upon this Province by the judicious outlay of Rs. 42,000 per annum on public Works and Institutions are considered, and that this Splendid Fund, if once made over to the future administrations of the Pagodas, is for ever lost to every public purpose: but Idolatry, it is earnestly to be hoped that the Government may be induced to pause before it refuses to become the agent of so much good, and determines upon being the abettor of so great an evil.—

Interest at 5 p.c. upon the accumulated surplus (in round numbers)	5,00,000 =	25,000
Annual Surplus		17,000
		42,000.

22. Should the suggestions which have been made for the management of the lands, and of the Revenue of these Pagodas meet the approbation of your Board and Government. I shall be prepared to submit a revised Mogenjabitah for the Province and a Statement of the Amount to be paid annually to each Institution based on an average of the expenditure during the last 10 years.—

To

The Register to the Court of Wards

Fort St. George.

Sir,

Para 1.

With reference to the Extract from the Proceedings of the Court of Wards of the 15th March 1841 sanctioning the expenditure of Rupees 26,550-0-4 for the liquidation of Claims against the Zemindary of Oodiarpaleem from the surplus funds of the Estate: I have now the honor to submit a Statement exhibiting the payments actually made, including principal and interest, on account of the particular claims for which the above amount was sanctioned.—

2. Of the sanctioned amount Rupees 158-7-1. were deducted from the demands of the Creditors in Consequence of some Jewels pledged to two of them on behalf of the Estate, not having been proved, making the amount disbursed under sanction Rupees 26,391-9-3. The sum of Rupees 1,419-4-11 has been disbursed without sanction on account of interest on the Claims proved making the total disbursement Rupees 27,840-14-2. there being a net difference between the amount sanctioned and the sum disbursed of Rupees 290-13-10. In my report of

26

From the Collr. of Trichinopoly.— submitting a Statement of the payments actually made to the Creditors of the Minor Zemindar of Woodiarpaleam exhibiting an excess of Rs. 61-7-11 above the sanctioned amount & requesting sanctions for the same.—

Fort St. George 16th December 1841

the 10th Instant Rupees 229-5-11 were included in the application for sanction leaving Rupees 61-7-11 still unauthorized and for which I now solicit sanction.

Para 11.—	
Sum originally sanctioned Rupees	26,550-0-4
Deduct on account of Jewels lost	158-7-1
Paid under sanction	26,391-9-3
Add paid without sanction	1,419-4-11
Total paid	27,840-14-2
Sanctioned	26,550-0-4
Difference between amount sanctioned and amount paid	290-13-10
Sanction solicited in report of 10th November 1841	229-5-11
Remaining to be Sanctioned	61-7-11

3.— The above amount would have been included in the general accounts submitted with the report just alluded to but it was only discovered, to be due to the Creditors upon a representation made subsequently to its despatch.

From the Coll.r of Madras—

Sir,

I have the honor to report for the information of the Board of Revenue the seizure on the 28th Inst.t at 6 P.M. of 4-1-37 V. P. of Ganjah valued at Rupees 116-5-8 and of 3 V and 34 P of Bang valued at Rupees 7-7-10. The duty leviable on the Ganjah is Rupees 116-15-6 and that on the Bang Rupees 5-15-10.

Recommending the anticipation of certain Ganjah and Bang which were seized for an attempt to defraud the Revenue—

2. The seizure was made by two of the Duffadars and three Peons on my Establishment from one Rangaven and his wife. It appears that in Consequence of information having reached one of the Duffadars that Ragaven was in the habit of bringing Ganjah clandestinely from the interior, and selling it to retail Dealers

Fort St. George 16th December 1841

Dealers at Madras his House at or Common beyond the Jurisdiction of the Supreme Court but within the Sayer limits of Madras was searched in the persence of the Village Moonsiff and others, and that the quantity now under seizure was found to be there, part of it having been tied up in several small parcels of about 2 lbs each ready for being secretly conveyed into Madras.

3. Raugaven Confessed before me that the Ganjah was brought from Punyenty Moredry Paukum a Village situated at the distance of 10 miles from the Madras Mettoos, that to evade detection it was conveyed by 4 Coolies and himself at a recent date at 3 Oclock in the morning that he did not obtain a rowannah at the place of export, and that it was purchased from a Cart Driver.

4. I have referred the case to the Police Officer with a request that

Fort St. George 16th December 1841

that certain other individuals who are represented to have connived with Raugaven may be apprehended.

5 This seizure as well as that reported upon in my letter under yesterdays' date would seem to bear out the opinion expressed in Para 19 of my report under date the 25th Instant on the Extra sources of Revenue for Fusly 1250.

6 The attempt to defraud the revenue in the present case is I think fully proved I beg leave therefore to recommend that sanction may be granted for the Confiscation of the articles and the destribution of the proceeds according to the Regulations.

Madras

1892 Fort St. George 16th December 1841

To the Principal Collector of
North Arcot.

39

To the Principal Collr of North Arcot. &

Sir,

With reference to your Return of Fines & Stoppages for the Quarter ending 30th September 1841. I am directed by the Board of Revenue to bring to your notice the stoppage of the whole of the pay of Christna Row Tahsildar of Mundiwash in the Sub Collector's Division, together with a fine of 20 Rupees imposed upon him, and their disapprobation of this measure.—

29th Octr in Corr. & 4th Novr 1841

If the Tahsildar's conduct was of so culpable a nature that the customary fines were deemed insufficient, you should have required a particular Report of the Case from the Sub Collector, and of you concurred with him, submitted the same to the Board. It is desired that this may now be done.—
