

221 Fort St. George 3rd January 1842

From the Secretary to the Board of Revenue Fort St. George.

Sir

I do myself the honor to submit my report on the settlement of the Land Revenue of the Southern Division of Arcot and Cuddalore for the official Fasly 1250 accompanied by the usual statements.

2 As I did not join the Districts till after the commencement of the present Fasly I shall confine myself to a few remarks and shall draw the comparison with the immediately preceding Fasly 1249.

Statement of Crops 3 The season appears to have been somewhat unfavorable to dry cultivation for part during the months of June and July 1840 when partial showers prevented any extension of Cultivation in abundance of Crops for Rabi but since then one or more copious supply except in the Southern part of Trichinopoly which has since

unfortunately affected the finishes in the Cuddalore and caused a loss to the last Cultivation dependant on that source of irrigation. Drain the Months of December and January ensuing fell to the great disappointment of growers of Indigo and late dry Grain Crops. The season on the whole was very favorable to Punjah Cultivation.

Price of Grain. The price of Grain throughout the Fusly was unprecedently low more especially piece Grain. The average falling off has been in comparison with the preceding Fusly 1249.

this was even more remarkable.

Which I was able to account satisfactorily for this great change affecting so many interests in so many ways. Sanctioned

to consider that the Export trade has had some influence towards this result.

The season was extremely healthy over the whole District.

18. In the Trinamalay taluk the industry of the people in working their mills made up for the Loss of grain — The loss in Trivandypooram took place in the Sagbire in the Jaghire

Jaghire of the Saddatum alluded to previously. The decrease in Chellumbrum must be attributed to the people having taken up, to secure possession of it more land in the preceding fusly than they were able to retain in cultivation. The land in this Taluk has become suddenly so valuable from well arranged irrigation that from want of sufficient capital, the first impulse may naturally have been expected to receive such a check a few more years will I hope shew greater extent of valuable land (of which there is much at present waste) yielding a rent to the Government —

19. It will be observed that in South Arcot and Cuddalore exclusive of the Jaghire Fusly 1250 exceeds in Runjee Cultivation not only the average of the 5 five preceding years but every single year during that period —

22 The Lands classed as totacal are waste to the extent of 30 per Cent. At the establishment assessed the inhabitants are unable to find encouragement in cultivating these lands tho' mostly situated close to their Villages. I am very anxious both for the benefit

benefit of the Government and the people, that the experiment should be tried of demanding the Teerah in this description of soil rarely in conformity with the cultivation made. The still classed as totacal, and liable to that rate of Teerah if Garden produce be raised, I would suggest that it pay Nunjee or Poonjee Teerah when corresponding crops are grown on it. My letters of the 5th September and 11th November Bd have fully represented this subject to the Board.

to Rupees 23,21,694-13-8 which in comparison with the Fusly 1249 exhibits a decrease of Rupees 36609-1-6 for the whole District. The want of rain in the early part of the year, and the low price of grain relatively affecting the Ryotwar cultivation in the Sudur, and the sale proceeds of the Circar share of grain produce in the Sagbirs and also the indulgence alluded to in Para 24 explain this decrease in Comparison with 1249.

27. In the Fusly under review 31 Sagbirs of the assessed Sagbirs were held under Kumamis which had been previously rented. It is necessary that this circumstance should be borne in mind as affecting all the preceding calculations in some degree for they were in Fusly 1249 rented for 14,536 Rs and it may be considered in the prospect that 1250 in comparison with 1249 gets credit by this means for about 2703-9-0 Rs 13,820 which of course renders the difference in reality greater than explained in the last Para.

Arrears. 28.

The arrears due for Fusly 1250 at its close amounted to 2,67,998-13-10 Rs the details of which

of that portion of the Fusly and the interception to those months of the Fusly and the interception to those of May this very large balance must be attributed chiefly this no doubt the low price of grain would have caused this item to the usual amount. In one Taluk where the outstanding balance was 38,000 Rs the Collection during the months of Fusly were but 10 Rs therein this no proof that the Ryot stood and not their inability was the cause. From the commencement of August however a greater confidence and better disposition began to display itself and without entering into further particulars I am able to state up to this date the total arrears for the Fusly do not exceed 24,218-15-6 which is a more favorable condition than I anticipated.

29. Of this Munnargoody owes 12,777 Rs 1-3 and in alluding to the more comfortable feeling of the people, and their present confidence and better disposition I much regret that I am forced to exclude this one Taluk favored beyond any other by abundance of water conducted in well arranged irrigating Channels at a great

great expence by the Government the inhabitants of Mummargoody should be the last to fail in payment. I have considered any possible disadvantage under which they had labored and personally took an opportunity in September of making particular enquiries into all their complaints and claims, I have two tenants, seldom selling any property and never were the smallest disposition to discharge arrears was evinced but in the end finding the Sum of Rupees of Fusly 1251 just falling due, and that kindness on my part was only met by a dogged obstinacy and contumacious passively to resist my advice and authority I came to the conclusion that an example was imperatively called for in that the lands of some of the chief defaulters of all must be exposed for sale in order to establish that respect for the Superior Officer which they had learnt to disregard.—

30 The great advantage of outlay during the last few years in works of irrigation Continues apparent and points out the propriety in all suitable

suitable occasions of conducting public to the benefit of the people and the Government in undertaking well devised projects with the view of rendering available all natural resources. There are towards opportunities in South Arcot most especially deserving of notice. Some are manifest on a very slight inspection of some very old works, the remains are now to be seen distinctly shewing what art had rudely done long ago, and how fine cultivation long since lost from a want of repair, is now only to be restored by new works. Of the many works I would wish to see in hand I really believe that few would pay less than 30 per Cent many 80 and some much more. The absence from the District of an Engineer, has delayed by the necessity of such an Officers supervision the commencement of several which have been reported on by a Surveyor.—

2 The Amanie Land Revenue in the preceding Fusly is Cawnies 13,930.- 1/2 amounting to Rupees 7,62,228 - 2 - 6. Deduct the following Reyahuts Cowle, Manawaree, Remission to the Ryots for drawing water by means of Pecotta and Poligars Punnyum (or Halsteerwal) amounting to Rupees 3,986 - 11 - . The Remainder Rupees 7,58,241 - 7 - 6. is the Bariez of Fusly 1249.

In Fusly 1250 the Amanie Land Revenue including Punjah, Runjah and Totacab is Cawnies 11,096 - 10 - 11/16 amounting to Rupees 7,68,316 - 4 - 10. Deduct the 4 Reyahut Items as above stated of Rupees 3,835 - 9 - 10, the remainder sum of Rupees 7,64,480 - 11 - . is the Bariez of Fusly 1250, the Net Increase in the Amanie Land

Fort St. George 3.d January 1842.

Land Revenue in the present above the preceding Fusly including Punjah, Runjah and Totacab is Cawnies 1,662 - 9/16 amounting to Rupees 6,239 - 3 - 6 - as shewn in the annexed Comparative Statement.-

3. 32 Villages of Sagbire of Suncara-poorum in the Cullacoorchy Talook were rented in Fusly 1249 and in the present Fusly 1250 - 31 Villages are kept under Amanie producing a Revenue of Rupees 14,303 - 12 - 10. which is now added to the Amanie Bariez of the present Fusly 1250 - consequently the above sum of Rupees 6,239 - 3 - 6. appears only an increase, there being a decrease of Rupees 8,000 and odds in the Bariez of the present Fusly.-

Of the 39 Villages comprising the Jaghire of Lunearapoorum in the above Talook 32 were rented in Fusly 1249 at Rupees 14,959-1-5. Deduct the Revenue of 1 Village of Tirkanumkoor, which is actually rented over in Fusly 1250 at Rupees 425-1-5. The Bareez of the remaining 31 Villages while rented in the preceding Fusly is Rupees 14,534-"-" consequently there is a decrease of Rupees 230-3-2 the Bareez of the above 31 Villages now under cultivation in the present fusly is Rupees 14,303-12-10.

5 The season in the commencement of fusly 1249 was so far favorable that there was an increase of cultivation above the preceding Fusly. Owing to the want of the periodical rain in the Month of Audy for Poonjah cultivation as well as in the Months of Alpisy for Nunjah Cultivation in the present Fusly the cultivation fell short. The following is a Memorandum shewing the extent of Cultivation in each month compared with that of the preceding Fusly.—

6 The Puttahs were distributed in person in each Talook and an opportunity afforded to every Ryot of making any objection he might think fit to the Government demand against him. The Village accounts having been previously tested by a careful examination on the part

of

of the Taloke authorities and subsequently by Hoozor Servants deputed for that purpose.-

7. The Total amount of Land Revenue of Fusly 1249 as per Comparative Statement C amounted to Rupees 7,43,735-15-6. and that of Fusly 1250 Rupees 7,30,632-2-4 Showing a Nett decrease of Rupees 13,103-13-2 of which the sum of Rupees 7,522-15-4 a decrease, is to be ascribed to the want of seasonable rain, whereby the Cultivation fell short the remaining Sum of Rupees 5,580-13-10 is to be attributed to the Remission both in Grammanutteem as well as Seervahpub; Land under the order of the Commissioner Mr. Dent.-

8 There is an Increase in the Extra Collection of Rupees 372-10-11. being Rupees 150.- 4-4 in Fusly 1249 and Rupees 522-15-3 in Fusly 1250.-

9. The abstract Revenue of Fusly 1249 was Rupees 10,895—-—- and that of Fusly 1250 Rupees

Rupees 10,845—-—- Showing a decrease of Rupees 50 in Consequence of the tenders for the same having been less in this year.-

10 There is an Increase in the Sundry Collections of Rupees 12-13-5. being Rupees 5 20 1-10. in Fusly 1249. and Rupees 532-15-3. in Fusly 1250.-

11. In the Sayer Collections there is a decrease in the present below the preceding Fusly of Rupees 14,106-7-6. being in Fusly 1249. Rupees 6,624.6.8 and in Fusly 1250. Rupees 50,517-15-2. in consequence of the failure of Indigo Crops from the want of early rain in this Fusly, which occasioned a decrease of Rupees 12,741-5-2 in Indigo alone.-

12 There is an Increase in the proceeds of the sale of Salt of Rupees 7,601-9-4 being Rupees 1,777-1-8. in Fusly 1249. and Rupees 27,592-11-— in Fusly 1250.-

13 The subjoined Abstract Statement will shew the Nett decrease in all the Sources of Revenue.

Fort St. George 3d January 1842

In forwarding the foregoing
14 Report I am sorry to observe a deficiency of
Rupees 13103-13-2. this sum is however small
in comparison with the large increase of
the preceding Fusly amounting to Rupees
53277-11-2. and a yearly increase is not
to be looked for however in order in future
to prevent a decrease and cause an
augmentation to the Revenue I would
beg to call your attention to the large rivers
which either bound or intersect the Sub-
-division. These are the Vellar, which
bounds it on the west, the Ponnar on the
East and the Munnymooketah intersects it
nearly in the middle, of these the Vellar,
is the largest and could be turned
to the greatest benefit by throwing an
annicut across it, thereby water would
be supplied to 69 Villages and some of
the largest Tanks in Bowangherry Talook
would be kept constantly supplied with
water the Vellar from the strong springs
in its bed never being completely dry as
most

most other rivers are a constant supply of water would be yeilded.- Proceeding along the banks of the Vellar we come to the junction of the Mummymooktah and Vellar rivers a little above which were an annicut thrown acros the Mummymooktah river at a Village called Kinnanoor no fewer than 28 Villages would be benefitted and an increase in cultivation be effected to the amount of Rupees 11570-4-3- again proceeding higher up the river there was formerly an Annicut at Village called Pennadum which is now in a perfect ruin and few traces of it to be found, these were they surveyed and restored would add considerably to the public Revenue the last named river is not like the Vellar, at certain seasons the bed is dry yet were these works erected a supply of water would be thrown into the tanks in May or June, which would enable the Ryots to commence cultivating and again in September a further and a most plentiful supply would be obtained, which if it did not afford the means of two Crops would increase the cultivation

cultivation.

From the Pennar river there was formerly a large channel formerly cut by a Minister of the Nabob of Arcot named Rajaview, which channel still bears his name but on account of the war which desolated the Carnatic after it was constructed was allowed gradually to fill up. A country born Surveyor, Surveyed the bed of this channel took the levels and made an Estimate for clearing it out, which amounted to a little more than Rupees 29000 and the annual revenue which would accrue from it would amount to upwards of Rupees 13000- Thus in the third year the work would reimburse the outlay and afford Government a large yearly Revenue Public works are much required to enable the Ryots to cultivate the better Sorts of grain and pay their Kists in this over-assessed District.-

In the Tanks also a considerable outlay

is

Fort St. George 3d January 1842

is required a number of the Channels which feed them are choaked up and a great portion of the water which ought to fall into the Tanks is lost. the Estimate for these being considerable a European Engineer is required to Survey and have them sanctioned — I am informed upon good authority no European Engineer has been in the Sub Division of South Arcot for 6 or 7 years and to this I would beg to call your attention.—

In conclusion I have only to state I have received great assistance from the abilities of my Seristadar Kistna Row to whom I am much indebted for information The Tahsildar of Verdachellum has been most active in his Collections and he is the only one of the four under me who has not an outstanding balance against the Taloke over which he presides.—

To The Secretary to the
Board of Revenue
Fort St. George.

From the Coll.r of Trichinopoly
Sir, Parat.

Forwarding several Statements and recommending Old Balances to be remitted.

I have the honor to submit for the orders and consideration of the Board of Revenue, the undermentioned Statements connected with the outstanding balances of Revenue in the District of Trichinopoly Viz.t.

A Statement (A No.1) of outstanding balances of land revenue from Fusly 1232 to Fusly 1249 inclusive.

A Statement (A No.2) of some of the balances in Statement A No.1 which it is proposed to recover by selling the lands of the defaulters.

A. Statement (A No.3) of the balances in A No.1 which it is proposed should be remitted.

A. Statement (A No.4) of balances of Quit rent proposed to be remitted.

A.

A Statement (B No. 1.) of outstanding balances on account of miscellaneous items.

A Statement (C No. 1.) of the old outstanding balances on account of Tuccavy.

A Statement (C No. 2.) of Tuccavy balances which it is proposed to recover by the sale of lands.

A Statement (C No. 3.) of Tuccavy balances which it is proposed should be remitted.—

2

The minute investigation necessary to prepare Statements of the above balances with sufficient accuracy to enable me to lay them before the Board must plead my excuse for having so long delayed them. It will be perceived that they embrace a period of 18 years Viz. from fusly 1232 to fusly 1249 inclusive. and the Board will perhaps be enabled to form some idea of the tediousness of the process necessary to

to reconcile the discrepancy noted in them, between the Hoozoor and the Talook accounts.

3

The discrepancy in question appears upon examination to have been occasioned by the omission of proper means in the Serishtadar's Department to adjust the accounts between the Hoozoor and the Talook Cutcherries at the close of each fusly, and consists entirely in the erroneous incorporation of Extra Collections with the Collections made on account of the Summabundy Settlement, and under circumstances precisely similar to those of which I will endeavour to describe a particular instance for example. Viz. The first item in the general Statement is a balance according to the Hoozoor Accounts of Rupees 5-1-3. and according to the Talook accounts Rupees 5-4-11 or Annas 2-9 more than the Hoozoor Accounts. The discrepancy was thus occasioned, when individual demands consists of fractions of piece, an entire

piece

price is always taken in payment and the excess Collections thus made ought not to be entered in the Iyen or Summabundy demand, but should be brought to account as Sewai Summa or Extra Collections. In fusly 1238. the Extra Collections thus made in the Village of Pandamungalum, Conaud talook, were annas 2-9. this trifling item when remitted to the Treasury was brought to account in the Hoozoor Cutcherry as part of the Summabundy Collection instead of being entered in Sewai Summa hence the difference in question. The actual balance remaining unpaid according to the Summabundy accounts is 5 Rupees 4 Annas, and will be found explained in Statement A N. 3/individual N.o 62./ as being due by a Curnum who had caused it the be entered in the Summabundy accounts improperly. I have thought it right to be thus particular in order to shew the Board that great pains have been taken to arrive at accuracy.

The

4. The total actual balance of land revenue and quit rent on account of fusslies previous to fusly 1250. or up to the end of fusly 1249. was at the close of fusly 1250. Rupees 14237-1-1/2. Viz.t on account of land Assessment, Rupees 12969-12-10/2. on account of Quit rent Rupees 1267-4-3 of the former, it is proposed to remit Rupees 7319-12-1 3/4 and of the latter Rupees 1170-15-4 under the explanations given in the detailed Statement Rupees 1490-1-2 3/4 can be collected without difficulty, and for the recovery of Rupees 1200-3-10/2 it is proposed that the defaulters lands should be sold, a measure which I should not venture to suggest as being repugnant not only to the wishes of Government, in cases in which it can be avoided and to my own feelings, but that I conceive it to be absolutely necessary for the due realization of the just demands of Government, that

that a few examples should be made, and to prevent as I stated in my letter of the 28th November 1840. the supposition that Government have resolved not to exercise their power in this respect, the mischief which might ensue from which I need not attempt to describe. In all the instances selected, the defalcation has been brought about by mismanagement on the part of the defaulter and from disputes among relations as to who is to pay which will certainly remain undecided as long as the Collectors' demands are not insisted on. I trust therefore the Board will support my recommendation for the sale of the lands in question.

5 In the Statement of arrears of land revenue proposed to be recovered by the sale of lands is included an arrear of Rupees 442-9-3. due on account of fasly 1250 due by individuals who are also defaulters on account of former years, making the total amount of arrears thus

to be recovered Rupees 1,642.-13-1/2 Viz.t

Rupees 1,200-3-10½ on account of years previous to fasly 1250. and Rupees 442-9-3. on account of fasly 1250.

6. The balance outstanding on account of miscellaneous items amounting to Rupees 542-13-0. I propose should be wholly remitted for the reasons mentioned in the Statement.

No. 3. List of Outstandings balances in the District of Trichinopoly from 1st July 1232 to the end of July 1249. recommended to be remitted.—

Remarks.

No. 5. Name of the Defaulters:— Name of the Village. Study. Amount of Balance.

Conard Salok.

1 Soorawadeddy ——— Aeshgapooram — 1249 10 13 5.

Charged by mistake on a mala portion of ground which was under the orders of Government dated 11th November 1834 given to the Trichinopoly Hortieultural Society.

This Account must therefore be struck off

						from the Ar[illegible] This individual purchased [illegible]
2	Marsoolanoygumpillay	Arcamungalum	1241	10 " "		the produce of the Village while it was under Ama= =nie in fusly 1241. and was unable to pay the Amount of Rupees 10. His Thatched House was attached in Fusly 1248. and before it could be sold. was accidentally burnt down= This individual is now actually poor and unable to Pay.—

The individuals belonging to Nos. 5. 8 are now dead, their relations are surviving these as well as those belonging to the Numbers 6. 7 and 9 are in very poor circumstances, and their lands subject to inundation from the river Vinnaur. This was particularly the case in fusly 1248. and 1249. and hence the balance to circar. These individuals did not receive their Puttahs in the Jamabundy and consequently the produce of their Village was sold by the circar Servants, and yet it did not fully meet the demand of their Kists. There is also a Balance of Rupees 348—1—2. in fusly 1250. They have no means nor any property except their land.

This individuab deserted in fusly 1248. his brother-in-law Shatanaden cultivated his land in fusly 1249. and deserted likewise in fusly 1250. leaving a small balance of Rupees 3—5—8. and it is not known where he has gone to.

Fort St. George 3d January 1842.

							These individuals are very poor they have no property.
11	Rutteyen	Arasengoody	1248.	2	8	1.	This individual deserted in Fusly 1248. the land he cultivated was not his own, but as he cultivated it in fusly 1248, the Curnum wrote the Puttah in his name. The land is now taken up by the proprietor.
12	Thathapillay	Do.	1248.	2	2	10.	This individual deserted & has no property. His land is taken up and cultivated by another.
13	Thotta Venkatachella Chetty	Warriore	1246	3	1	8	This Demand is the assessment of a portion of land included in the Compound of a house which having been remitted in fusly 1245 and 1247. and even subsequent year under the sanction of the Board, ought also to be remitted for fusly 1246. in the accounts of which fusly it was entered by mistake owing to an error in the Talook Cutcherry
14	Sooria Narayen Kistnyen.	Sholaganellore	1242.	29	2		This individual is gone to Travancore, the produce of his land did not meet the demand of the Kist in the above fusly. Besides he is poor. his land is now cultivated by other individual related to him, called Moottoosawmy Iyen, who is likewise poor. this amount therefore must be written off in the accounts.

Fort St. George 3rd January 1812

15	Soobien, Son of Koottien	Sholaganellore	1249.	23	15	11.

This individual is very poor & hence the balance besides there is also a balance of Rupees 3 4 — 4 — 8 — for fusly 1250. Nor has he any moveable property. Nor will the Amount be realized should his land be exposed even for sale. This sum is therefore recommended to be written off in the accounts.

16	Iyahvyen	Kauchecoorchy	1248	22	3	8.

This individual is poor, he was likewise unable to cultivate in fusly 1250 and inconsequence his land was deducted in the Jamabundy of fusly 1250. besides there is a balance of Rupees 50. for fusly 1249. which he is unable to pay, and if his land is sold it will produce only the said Rupees 50. Consequently this balance should be struck off.

This person has for Sometime been gradually becoming poorer and poorer, a portion of his land has already been sold in satisfaction of the Government Demands and he has no moveable property, he has still some land remaining, and it is recommended that he be allowed an opportunity of retriving his fortune by being relieved from balance outstanding against him.

This

Fort St. George 3d January 1842.

							This land from bad culture &c. is not capable at present of yielding a sufficient return to meet the Circar Demand.— There is also a balance of Rupees 744-7-" for fusly 1250, nor is it probable that the land now under attachment will produce this sum.—
18	Sawmy deechadar.—	Nauchecoorchey.	1249.	1891			This individual was very poor and is now dead nor has he any property. His land where he cultivated was strictly watched by the Circar Servants and the produce sold to realize the demand. The balance is
							therefore to be attributed to short produce.

Name of the Talook	Number	Name of the Individual	Name of the Village	Fusly	Amount of Balance	Remarks.
					Rs. a. p.	This Village was kept under amanie in Fusly 1236 and the Balance is the result of a sum of money advanced for the purpose of purchasing seeds &c. for Cultivation. But the whole produce was subsequently brought to Sumabundy without reference to the amount advanced for Cultivation and hence the Balance. It is mentioned in the accounts sent from the Talooks in Fusly 1237 that Mr. Dickinson issued an order dated 22d September 1827 No. 148 to have this amount deducted from the produce of Fusly 1237. But this order seems to have escaped the notice of the Huzzoor Servants ever since. This sum should therefore be struck off from the Accounts.

From Mr. Blair late

Sir.

Submitting information called for in the proceedings of the Board relative to the charge brought against the Naib Sheristadar of Trichinopoly for corruption in the settlement of the Illipoor Mahanum of Conaud Talook-

Para. 1. I have the honor to ac-
=knowledge the receipt of your letter of the 9th
September last, forwarding Copies of the
proceedings of the Board and a letter from
the Collector of Trichinopoly, relative to a
charge brought by the latter against his Naib
Sheristadar of making certain unauthorized
alterations of the prevailing rate, and metho-
of assessment in a number of Villages
in the Mahanum of Illipoor in the
Conaud Talook, during the Summabundy
of July 1247 when I was Collector of the
District- and calling upon me for the
information on the subject as I may have
it in my power to afford-

2. In reply I beg leave to submit
for the information of the Board all the
particulars which my recollection of the

Fort St. George 3d. January 1842

the circumstance enables me to give.

3. In July 1247 the Naib Sheristadar Chellapah Moodeliar was ordered to prepare the Summabundy accounts of the Conaud Talook, it being customary as the Board will be aware, for the Huzoor Sheristadars in Trichinopoly, to make the preliminary Settlement in the Talooks, which in most other Districts is done by the Tahsildars- while preparing the Dowle accounts of the Illipoor Mahanum, the Naib Sheris-
=tadar represented to me whether per-
=sonally or in writing I cannot now re-
=collect that the mode of Settlement pre-
=vailing in that Division, namely of as-
=sessing newly cultivated lands according to the average rate of teerwah of the whole lands of the Village was attended with loss to the Circar; and suggested that the tur-
=rum rates which formerly prevailed in the Mahanum should be introduced. The exact instructions I then gave to the She-
=ristadar I cannot now recollect, but I perfectly remember that his suggestions on the subject generally were approved of by me, as

I

I was desirous of introducing a Turrum assessment in that as well as in other parts of the District in lieu of the loose uncertain System which is so general in Trichinopoly.

4. I have a most distinct recollection of the Naib Sheristadar meeting me by appointment at my Tents a short distance from Trichinopoly for the purpose of submitting for my examination the accounts he had prepared of the lands to be assessed with the Turrum teerwah when final orders were given to him on the subject, I did not myself visit the Illipoor Maharum at the time, which is inconveniently situated in the Tondiman Country but it was my full intention to have proceeded there in the ensuing July, and so far as I could, to have carried out the Turrum assessment which originally obtained, and appeared to have been departed from without any authority from the Board.

5. Whether the Naib Sheristadar was guilty of Corruption in favoring Certain lands in the revision of the Settlement I am unable now to form an opinion, but I can safely say that the alteration of the assessment, as far as it went, in July 1841 was

was made by my authority. It is indeed impossible to suppose that a measure of the kind could have been made by any public Officer without the Knowledge and Concurrence of his Superiors.

6. Of the propriety or otherwise of the measure, it is not perhaps necessary that I should now enter into any discussion, but I may observe that as the rates of Teerwah to be fixed on the several Turrums or Classes of land, were not new, but were the same, which were originally entered in the Accounts, no great difficulty could be experienced in Carrying out the proposed assessment, as the Turrums were perfectly Capable of Classifying the new Cultivated lands, my Chief object at the time was, to shew the Ryots that the principle of a turrum assessment, which had been unauthorisedly departed from, would be returned to, and of Course where necessary a regular Survey of lands made. As fully explaining my views on the subject, I beg to refer the Board to a Report of mine proposing an alteration in the mode of assessment prevailing in the dry Talooks of the Trichinopoly District.

Para 1. I am sorry to inform you no steps whatever have been taken by me towards giving effect to the wishes of Government as shewn in the Chief Secretary's letter of the 3d and Communicated with the Board's orders on the 19th October 1835, respecting the publication of the Regulations throughout the province.

Fort St. George 3d January 1842.

2. I imagine I first postponed attention expecting Government to enable me to give effect to the notice by supplying me with the Chief regulations for disposal, and that the matter was afterwards forgotten from their never being received.

3. If it is still the Government wish I would beg to be supplied with 5 Tamil Copies for each of the 36 Talooks including the Zemindaries in the Collectorate. Total 180 Copies; besides the Tamil and English ones to be left on hand for sale when required. But at the same time I must observe the Tamil of the present Acts is scarcely intelligible to any but men of the highest education this Collectorate affords and is by them generally contrasted with the Tamil translates of the Regulations of 1802 with which whether from subject or language, they are much more familiar if however the new Code for all India is about to be published, it may be worthy of consideration if it is not better to postpone the further publication of the Regulations

Order thereon. Ordered to be brought forward

To The Secretary to the Board of Revenue Fort St. George

From the Princl Collr of Madura offering objections to the adoption of the forms of statements directed by the Board to be substituted for those hitherto accustomed to be forwarded with the Settlement Report & requesting specific instructions on the subject.

Sir

Par. 1. In reference to the List of Forms accompanying your Letter of the 29th July directed to be substituted for those hitherto accustomed to be forwarded with the settlement report, I beg leave to offer the subjoined objections and to request specific instructions upon them.

93

Form 1- Maroongapoory Talook has hitherto formed part of the Dindigul Division by the substituted form it will be included with Madura. This is probably an oversight?

Form 2. The substitution would reduce these Statements to two, Viz.t one for Madura and one for Dindigul.

By the old form the old divisions of the Country were shewn, for instance the Talook of Madacolum comprised also that of Sholavandan and the Valagapaty Polliam. Each other Talook was similarly sub-divided.

J.

It is understood the Abstracts are now to be confined to Madura and to Dindigul and the abstracts by talookas to be omitted.

Form 3. In Madura there is no Putcut land, hence it is understood the form in substitution will have only the head "Cultivation" Cabooleyat being considered as inapplicable. The Putcut System was abolished by the orders of the 4th December 1819. In Madura the Settlement is made on the Cultivation, Dry Lands cultivated with Garden produce pay the Garden rates; and where Garden Lands are cultivated with Dry grain, the latter rates are collected.

Form 6. This form would seem applicable only to Putcut districts and may I trust be dispensed with here, where there is no Putcut land.

Form No. 16.

There are no less than 200 Mauniem Villages in the Madura Talooks, the Proprietors of which have granted Cowle tenures ad-libitum. - And some receive in money some in kind. The Servants of the Meenachee Pagoda

Pagoda hold their Mauniem Villages in hereditary tenure; and their Settlement with the Cultivator is very varying. The preparation of this account will be a vexatious scruting into the private rights of the Mauniakarar - it appears to me utterly profitless to Government and will take up my time most unnecessarily - and cannot but delay the conclusion of the Settlement considerably. I hope the account may be altogether dispensed with.

2. Formerly the accounts of this Collectorate were prepared by Villages; under the Boards repeated orders, last year affected the detail of each Cultivator's account in two of the Talooks and proposed to carry it thro' in the Current Fusly; The same Canoums must be employed in the Ayn and Mauniem Lands; and if the Board consider they are now requiring the subjoined 4 Statements in addition to those substituted for the old ones, I think they must agree they are in error in

in supposing they are reducing the total Amount of work require from me, even not taking into consideration the difficulty of substituting new tho' clearer forms for old customary ones 7/12th

From the Collector of Madras.— Stating that to offer a correct opinion as to the effect which the proposed substitution of the Indian Maund for the Garce Measure would have upon the salt trade, it would be requisite to make a series of experiments with the same salt when new and when it had been kept for some time in store, and that if these admitted of the removal of all difficulties, a change of System would be objectionable on account of the delay and increased expense which would attend all deliveries and receipts of salt under it.—

Sir,

Para 1. I have the honor to acknowledge the receipt of the Extract from the Proceedings of the Board of Revenue — dated 17th June last, transmitting an Extract from a General letter from the Honble the Court of Directors dated 16th December 1840, No. 18. Para 41. and calling for an opinion as to the probable effect which the proposed substitution of the Indian Maund for the Garce Measure would have upon the salt trade, and to observe that to form a correct opinion on this point, it would be requisite to make a series of experiments with the same salt, when new and when it had been kept for some time in store— because salt when new contains much moisture, and is then heavier than it is some time after its manufacture salt

salt also, after evaporation has taken place, if much moved and restored, is apt to lose a portion of its bulk from the Crystals breaking, and the whole becoming more compact.—

Weight of 100. Measls of new Salt. lbs	Weight of 100 Measls of old Salt. lbs	per Centage. Difference.	A few experiments were made
10,017	9,733.	3 13/100	by this Office
9,931.	9,785.	1 49/100.	with Salt
10,758.	10,522.	2 37/100.	manufactured
30,736.	30,038.	6 84/100	at different
Average 10,245 1/3.	10,012 1/3.	2 27/100	Dates, the

interval between these being only a few Months, as will be seen by the particulars entered in the Margin, which shew that the difference on 6 Garces Amounts to an average of 2. 27/100. per Cent— It will also be observed that whilst a Garce, formerly considered equal to 120 Maunds, was entered in the former Permits for salt exported to Calcutta as 9,256 1/2 lbs. the Weight of a Garce has been found to vary from 10,758 to 9,733 lbs.—

3. There is reason to believe that — at times, in Consequence of Varieties of Soil, a difference will be found in the Weight of any given quantity in bulk of either old or new salt of one Village, Compared with

with the weight of the same quantity in bulk, the produce of another Village, accordingly as the Grains may be larger or smaller: this indeed may occur with salt manufactured at different Seasons in the same Village, much de- pending on the state of the Weather at the period of manufacture.—

But supposing that a series of experiments admitted of the removal or adjustment of the difficulties adverted to above, a change of System such as the one in contemplation would be liable to the objection of the delay and increased expense which would attend all deliveries and receipts of salt under it: for whilst 30 Garces might be received into Store by measurement in bulk in one day by the employment of only two Measurers and at an expense of Rs. 3-1. per Garce, no more than 1,200 Maunds equal to only 10 Garces could well be weighed in a day with two scales in use and at an expense for Coolies of Rs. 7 for 120 Maunds or about one Garce—

Expense of measuring 30 Garces per one day } Rs. 5-13-4.

Expense of Weighing lbs 2,77,695. Considered equal to 30 Garces per 3 days } Rs. 13-2-0.

Para 1. I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 1st Ultimo transmitting Copy of a Correspondence with the Orders of Government thereon, relative to the Roman Catholic Burial Ground in Vepery, and calling for a report as to whether any spot can be conveniently assigned in lieu of it.

2 The present Burying Ground contains C.r.s. 1186. and is situated on the North side of the Roman Catholic Church at Vepery, the distance between them being about 600 yards. I have been unable to select any Ground of the same extent in a retired and unobjection- able situation, but there is an unoccupied spot containing 16 Grounds and 1619 Square feet which is well adapted for the purpose and which is part of the Ground purchased under the Grant No 801

Regarding the terms on which a spot of Ground has been offered to be appropri- ated as a new place of Burial for persons of the Roman Catholic per- suasion of Vepery

From Board of Revenue 19th December 1833.

Sanction of Government of date the 10th December 1833.

1833 and appropriated as the Burial Place for the inhabitants of Ulpery. It is on the West side of the Roman Catholic Church and the intervening distance between them is not greater than that between the church and the present Burying Ground. The owner has made a tender of it to me on the same terms as those on which the transfer of the adjoining Ground was effected before, that is at Rupees 63 per Ground vide Rupees 1050-8- for Ground 16 and Sept 1819-

3

I beg leave to enclose a Survey Enclosure A plan of both the Site of the present Burying Ground and of the spot now selected as a new place of Burial for persons of the Roman Catholic persuasion.

Remarks of the Collector of Madras.	Remarks of the Board of Revenue.	Decision of Government.
It is recommended that sanction may be granted for the lease applied for in this case being issued at the rates of assessment and subject to the condition suggested in Column 9.	No. 1 to 8. The Board recommend that the Leases applied for be granted at the rate of assessment and subject to the condition proposed by the Register of Government Grants.	No. 1 to 8. The Right Honorable the Governor in Council grants authority for the issue of leases to the parties herein mentioned at the rate of assessment and subject to the conditions proposed by the Register of Government Grants, but observes that any application which may be made for a remission of Quit rent on the premises in No. 8 being applied to the building of a Chapel will receive the same consideration as may be given to other applications of a similar nature, and that the appropriation of land to any religious purpose does not necessarily constitute a right to exemption from taxe.-
