Board of Re

1794

No.

Vol. 1794

Fort St. George, February 1842.

Diary.

15th February. Received the following letter

(1) From the Chief Secy. to Government.

To The President and Members of the Board of Revenue

Gentlemen,

I am directed by the Right Honorable the Governor in Council to call your attention to my letter of the 8th of June last No. 704. transmitting a Petition from certain Coffee Planters on the Shervaroy Hills in the Salem District, and to request that the report therein called for 8 Months ago on the subject matter of complaint, and the information which you were at the same time required to furnish on certain points, may be submitted at an early period. –

Fort St. George, 14th February 1842. I have &c. Signed/ H. Chamier. Chief Secretary

Sent the following letters in consequence.

(2) To the Principal Collector of Salem.

To the Pl. Coll. of Salem –

Sir,

I am directed by the Board of Revenue

Fort St. George — February 1842.

In Cons. 21st June 1841.

Revenue to call your attention to an extract from their Proceedings dated the 21st June last, accompanied by a copy of a letter from the chief Secretary to Government dated 8th June 1841 - and an original Petition No. 630. from certain Coffee Planters on the Shevaroy Hills, and to request that you will furnish the information and report therein required with the least possible delay - The Board desire at the same time that you will explain for the eventual information of Government the causes which may hitherto prevented you from furnishing this information:-

To The Chief Secretary to Government,

Sir,

1-3

To the Chief Secy to Government. Para 1.

With reference to your letter of the 14th Instant I am directed to state for the information of Government that

Fort St. George — February 1842.

In Cons. 21st June 1841.

the Petition therein alluded to was forwarded for report to the Principal Collector of Salem under date the 21st June last, with instructions to furnish information on the several points noticed in your letter of 8th June last, which accompanied it, at the earliest practicable period, but that the information thus called for has not yet been furnished.-

2.- The Principal Collector has been again called upon to submit his report upon the petition in question forthwith, & to explain the causes which may have hitherto prevented his so doing, and his reply will be laid before Government as soon after its receipt as possible:-

Extract from the Minutes of Consultation in the Revenue Department under date the 15th February 1842.-

Read the following opinion of the Civil Auditor.-

/ Here enter 9th February 1842 /

His Lordship in Council is not prepared at present to grant the leave of absence solicited by Mr. Mellor, unless there is an urgent cause for his visiting the Residency, which is not stated in his application.

/ A true Extract /

/ Signed / H. Chamier.
Chief Secy

To the President and Members of the Board of Revenue.

Order thereon.

4-5

Ordered that a copy of the foregoing extract from the Minutes of Consultation be communicated to Mr. Mellor, with reference to his letter dated 31st January last

At

2043 Fort St. George 17th February 1842.

At a Meeting Present.

Thursday 17th February 1842.

John Dent Esqre. Senior Member.
L. D. Drury Esqre. Second Member.
Walter Elliot Esqre. Third Member.
and
Alexander Maclean Esqre. Temporary Member.

Minutes of the last meeting read and approved.-

Read the following Extract.

Extract from the Minutes of Consultation under date the 26th Jany 1842.-

Read the following.

6

From the Actg Secy to Government.- Transmitting for the Board's consideration copy of the Proceedings of the Fuyidaree Adalut respecting the propriety and practicability of improving the condition of Village Watchers

Extract from the Proceedings of the Fuyidaree Adalut under date the 30th June 1841.

Read the following Returns received from the Four Provincial Courts of Circuit.-

Para 1. In the proceedings of the Fuyidaree Adalut laid before Government on the 9th March 1840, it was resolved to circulate to the several Magistrates Copies of Paras 39- 40-47 and 48 of Mr. Haig's Circuit Report, and to call on them to report their opinions, respecting the propriety and practicability of improving the condition of the Village Watchers

Fort St. George 17th February 1842.

Watchers, and the expediency of requiring the Heads of District Police to keep Diary books, with the Pages signed and numbered by the Magistracy, so as to compel them to record therein in succession, a short Abstract of every proceeding held by them, with the view to check subsequent fraud and misrepresentation of their actual proceedings in each case.-

2. The object of such Diaries is that these original books should be forwarded monthly to the Magistrate, in order that a revision may thereon take place of all the proceedings held by his native subordinates, and if necessary, orders issued thereon, should none have been sent intermediately; and also that an authentic record may at all times be forthcoming for reference, as to each official act of the District officers of Police, shewing where each was, and what he did on every day.-

3 In Ganjam, periodical transcripts of some of their proceedings are, at present, occasionally forwarded and

Fort St. George 17th February 1842.

and to a limited extent, answer this purpose. But a very recent case of Murder by Torture, against one of the Heads of Police in that District, in which he pleads an alibi when the torture occurred, shews the great importance of such a record, as it would have at once fixed, beyond a doubt, his presence, on the day stated, at that, or some other place.-

4. In Vizagapatam and Rajahmundry, the usefulness of this check never has been subjected to experiment.-

5. In Guntoor and Nellore, it is strongly advocated.-

6.- In Madura it exists in the Revenue Department alone.-

7. In Tinnevelly, Tanjore and Combatore, it has been beneficially established for years.-

8. In Trichinopoly it was at first supported by Mr Onslow as desirable, but afterwards deprecated by him as troublesome.-

9.- In Salem its expediency is

is doubted.-

10.- Opposed to the speculative opinions of the Magistracy in Canara, the experience for 13 years of the system in Malabar, enables the Magistracy there, and the 1st Judge of the Provincial Court of Circuit, to support the arrangement, as "most expedient."

Mr. Vaughan says that the Diaries should be light and concise, to the effect noted in the Margin.+

11.- In the Northern Division of Circuit, and in Chingleput, no objection is offered to this arrangement; in the Southern Division of Circuit it is apprehended as troublesome.-

12.- In Cuddapah like many other things, which depend on the supervision of the European Authority, it is stated to have been "allowed to fall into neglect and disuse. owing

to

+ "Received Complaint from A. B. of C. "Charging D. E. and F. G. of H. with "a Robbery, Recorded his examination "and numbered it as Complaint No. 58 "of 1840."-

"Recorded examinations of I. J. K. "and L. (4 witnesses) in support "of said charge."-

"Issued Warrant for apprehension "of both the accused."-

"to the frequent changes of Collectors "during the last 5 years."- and in Bellary its expediency is doubted.-

13.- The Tanjore Judge is of opinion that the adoption of this system, universally and systematically, would be an improvement.-

14. In Malabar, Tanjore and Coimbatore, where it has long been established. the Police practically works better, than elsewhere; and if confined to entries of a very brief kind barely stating what has been done during each day, in concise terms, such as are suggested by Mr. Vaughan, it can be troublesome to none; whilst it will operate as a material check, against imposture, too often practised by the Head District Police Servants, merely to cloak their own idleness, neglect or irregularities, but which occasionally has the effect of perverting justice in a manner, possibly never contemplated by them.-

with

Northern Division
Village Watchers.

15. With respect to the Village Watchers, it is stated that in Ganjam 127 Villages, belonging to the Aumanie Talooks, are entirely without them, - and that in 1836, on the 9th September, a plan for the completion of the establishment was submitted by the Collector to the Board of Revenue, the result of which is unknown. -

16. - In Vizagapatam the Magistrate dwells on the great mistake committed at this Presidency, in transferring from the protective hands of the ruling power itself, to the Zemindars, all control over the Curnums and other Village servants, whereby the state has deprived itself of the sole efficient means of preserving order, and has surrendered that power into the hands of those who it is feared, by their + reduced means, are now too often induced to join in organizing violence, turbu=lence and rapacity. -

+ Vide Trial of the Ellore Zemindar.

17. - The Magistrate of Vizagapatam

in a return which accompanied the Boilani Circuit Report of the 11th February 1841. (laid before Government with the proceedings of the Sudder Adalut of the 19th April 1841.) stated that he had lately submitted to Government thro' the Board of Revenue a plan for remodelling the Village Police and the Police Establishment generally, and he added, that if the proposition should be approved of the Police will be ren=dered generally much more efficient. -

18. - In Rajahmundry the Magistrate states the Village Police in the Government Estates to be "under consideration," but on enquiry he is inclined to think that it will be found generally both in those estates and in the Zemindaries, that the original provisions made on this account are nearly sufficient where those allowances are appropri=ated to their legitimate purposes. -

19. - In Guntoor, the allowances are recommended to be raised to 2 Rupees per Mensem where they are

Fort St. George 17th February 1842.

are less than that amount, and that it will probably be found desirable to commute the customary grain fees into a money allowance in cases in which such commutation is wished for by the Ryots.

20. The District of Guntoor being almost entirely composed of Zemindary Estates, this measure would not in the opinion of the Fouzdaree Adalut render them efficient Police servants, unless they are relieved from the Control of the Zemindars, by whom they are at present entertained and employed also in Revenue duties.

21. In Masulipatam, the Magistrate dwells on the total inefficiency of the Village Watchers. He observes that the average allowance of the Naik Cavalier seldom exceed one Rupee per mensem, and that of the Cattiers does not amount to more than half that pittance - and on this inadequate remuneration they have to perform double duties both of revenue and Police, the former under the Zemindar, the latter under the Collector he adds that, like all servants under two different Masters, they give to neither any satisfaction, being

distracted

Fort St. George 17th February 1842.

distracted from the duties they owe to the one, by the other requiring their attentions to those under himself.

22. And in a return dated the 23rd February 1841 the Magistrate of Masulipatam states that in that District the very elements of a well ordered and duly organized Police are wanting - "There are no heads of Village Police nor Village Watchers duly constituted and remunerated as in unsettled districts, whose services can be depended upon to aid in the suppression of crime and the apprehension of Criminals, and how can it be expected that the utmost exertions of the Magistrate should be successful when the means and instruments which are essential to efficiency are not placed at the Magistrates disposal."

23 In Nellore, the pay of the Village Watchers is stated to be 2 Rupees per mensem, and the Magistrate refers for information to his report for 1835.

Western Division. 24. In the Western Division no Village Watchers exist - except above the Ghauts in Canara, and no immediate change appears

there

there required.

Southern Division. 25. In the Southern Division, the Magistrate of Madura takes a proper view of the allowances to the Village Watchers, which he regards rather as a robbing fee, than as full remuneration from Government for the various duties they perform.

26. In all districts, it is desirable that they should partly earn their livelihood by agriculture, for this connects them more intimately with the people. They also receive fees from the inhabitants themselves throughout the Southern Districts for their services in the Revenue Department, and he does not deem any increase called for, considering it sufficient to prevent them being harrassed with unnecessary duties, such as carrying the District Tappal, acting as guides to Travellers, or collecting firewood and pots in the Talooks Cutcheries. Any such practice in them, which, would reduce the Chief Native Civil Officer of a province into a seller of pots and wood cannot be too strongly or too soon suppressed.

In

27. In Tinnevelly "the Village Watchers are the thieves," and in Trichinopoly their condition, which needs orders from Government, is stated to be under consideration, is not very different. The black mail levied in the latter District where the remains of the old Cavelly system have not yet been eradicated has been occasionally noticed, and no where is the Village Watch so full of abuse, as in these two provinces. whether as this is owing to the defects of the Cavelly system not yet there eradicated, to the great number of Cullers in Trichinopoly [thieves by caste and profession] and Maravers in Tinnevelly or to other causes, the Magistracy alone can best ascertain. But the improvement of the Village Watch which is in a lamentable state should be earnestly pressed upon their attention.

28. In Tanjore, the best effects have resulted from the improvements in the Village Police carried into effect by Government and no immediate further change seems requisite.

In

29. In Salem Mr. Greg states that "the subject of the minor Officers unprovided "state was brought to the notice of the Revenue "Board by my predecessor and is under consi- =deration" - He advocates strongly their remu- =neration by land, instead of by money allowances. But the Foujdary Adalut deem this a matter requiring consideration by the Revenue De- =partment, or the Government itself, and not calling for any remarks from them, unless their opinion on it should be specially required by Government. -

Centre Division Chittoor. 30. In this District the emoluments of the Village Watchers are stated by the Magistrate to be ample if they can only se- =cure them, but like the Managers and other Village authorities they complain frequently of the difficulty they experience in receiving regular- =ly their stipulated allowance - The Maravs cannot be increased as that depends upon the number of Ryots in a Village from whom it is received and to give them more Maniums would not benefit their condition, as they could neither find time nor means to cultivate it - all that

that is necessary is to give Maniums and Maravs to those who have it not, and the Board of Revenue are now considering how this can best be effected -

Cuddapah 31. The Court of Foujdaree Adalut =believe that the Government and the Board of Revenue have now under their consideration the identical plan for improving the situation and efficiency of the Village Police of the District of Cuddapah, referred to in the Acting Magistrate's return now before the Court. -

Bellary. - 32. As observed in the Proceedings of the Foujdaree Adalut of the 11th Instant, the measures proposed by the Magistrate of Bellary in view to a reform of the Village Police of that District is matter for the consideration of the Board of Revenue. -

Chingleput. - 33. The Magistrate of Chingleput in his return of the 6th April 1840 states that the Vil- =lage Watchers generally are inadequately remune- =rated and therefore are not so effective as it is =desirable - This circumstance as well as the means of rendering the Village Moonsiffs a more effici- =ent body has for some time past attracted his notice and accounts are under preparation of all

incomes

incomes derivable from lands or fees by the Village Servants of every description in order that he might bring the subject to the notice of Government in a practicable form but the enquiry is one that will take considerable time and labor.

Magistrate of South Arcot.

34. The Magistrate of South Arcot states that the condition of the Village Talaries in South Arcot is in general most deplorable and he trusts that some means may be devised of giving them a suitable remuneration.

35. The Right Honorable the Governor in Council in the Minutes of Consultation under date the 8th Instant No. 332 intimated that on the 9th of March last the attention of the Government of India was drawn to the necessity of extending the arrangements introduced for improving the Police of the Tanjore Province to the other Districts where the Village Police continues in a state of inefficiency; and that this subject was still under consideration, the Judges therefore would suggest that the several returns which accompany these proceedings be referred for the consideration of the Board of Revenue

Revenue whenever the orders of the Supreme Government on this subject may be received.

Ordered that Extract from these Proceedings together with the original returns of the several Magistrates within this Presidency be forwarded to the Chief Secretary to Government for the purpose of being laid before the Right Honorable the Governor in Council.

(Signed) W. Douglas

No. 1.

Return from the Magistrate in the Zillah of Vizagapatam to the Courts precept of 30th March 1840 No. 291.

In conformity with the exigency of this precept the Extract of Proceedings accompanying which furnishes me with paras 39 40 47 and 48 of the report submitted by Mr. Haig Circuit Judge and requires me to submit my opinion regarding the propriety and practicability of improving the condition of the Village watchers and rendering them more efficient as well as regarding the expediency

expediency of requiring the Head Police Officers to keep Diary Books of the nature referred to in paras 47 and 48 abovementioned, the Magistrate has the honor to state his opinion that the situation not only of the of the Village watchers but also of the other village functionaries should if possible be improved. at the same time there are considerable difficulties on the point which are to be met with in this District to which only the following remarks refer though he imagines there are several others similarly situated.—

It must be sufficiently apparent that Village watchers can never be efficient unless a proper control is exercised over them by the superior Village functionaries. in this District it is a very rare thing to find a Village Naidoo or Monsiff who can either read or write. The Village Curnum is therefore the person who in reality exercises a supreme control in all matters connected with the Revenue and Police administration of the Village. These persons look on themselves as more the servants of the Zemindars and

and Proprietors than of the Government nor are they liable to dismissal for misconduct in the discharge of Police duties except by an order of the Court.—

It appears to the Magistrate that a great mistake was made at the time of the permanent settlement in granting remission to the proprietors and Zemindars for service lands. It would have been much better to have included therein the assets of which the Peishcush to be paid to Government was fixed and to have substituted a ready money allowance to the village Police functionaries who would thus have been entirely independent of the Proprietors and would therefore have been wholly under the control of the Magistracy. At present it is so much in the power of the proprietors to harrass and annoy them that they are always more disposed to act in conformity to the wishes of the Proprietors rather than in obedience to the orders of the Circar.—

It will be found that considering the

the Class and description of persons from which the Village watchers are selected, their allowance is sufficient to support them.— What is wanted is an independant superior Village functionary and in settled Districts this could only be obtained by granting an adequate ready money allowance.—

There is no objection to the other suggestion of Mr. Kay, Visp. that the Heads of Police should be required to keep diary books. This could be very easily done when the Head of Police has no revenue charge— It might occasion some trouble and inconvenience when the Head of Police is also a revenue Officer and constantly moving about, but even in this case it might be inserted upon.—

Given under my hand and the seal of my Office at Vizagapatam this 15th day of April 1840.—

(Signed) W. Blackburn
Magistrate
Return

Return from the Magistrate of Rajahmundry to the Court's precept of 30th March 1840. No. 290.—

Para 1. In reply to the exigency of this precept and the Extract from the Proceedings of the Provincial Court of 30th March which accompanied it calling for my opinion on the propriety and practicability of improving the condition of the Village Watchers and rendering them more efficient, also on the expediency of requiring the Head of Police Officers to keep Diaries in books furnished from my Office with the pages signed and numbered, I beg leave to offer the following remarks.—

2.— The condition of the village servants in the Government Estates in this District is already under consideration but on enquiry I am inclined to think that it will be found generally both in those Estates and the Zemindaries that the original provisions made on this account are nearly sufficient where these

these allowances are appropriated to their legitimate purposes. The 1st Judge complains of the hardship of a man only receiving two Rupees or one Rupee and half a Month but it requires to be taken into consideration that few labourers earn more than that a Month, and that it is ample for their maintenance in ordinary seasons in this District.

3. With respect to the proposal of Diaries being kept on Books with pages numbered, and signed by the Magistrate I beg leave to state I am not aware of the advantage to be obtained by this measure while I certainly think it would be a hindrance to that quick despatch of business which is so essential in all Police Offices.

Given under my hand and the seal of the Magisthacy at Coconadah this 4th day of May A. D. 1840.

(L.S.)

(Signed) G. A. Smith
Magistrate.

Return from the Magistrate of Guntoor to the Courts Precept of 30th March 1840 No. 288.

With reference to the Extract from

from the Proceedings of the Provincial Court of Circuit dated 30th March last forwarding Extract from the report of the 1st Judge which accompanied this precept calling upon the Magistrate to submit his opinion regarding the propriety and practicability of improving the condition of the village watchers and rendering them more efficient as well as the expediency of requiring Heads of Police to keep Diary Books of their Proceedings the Magistrate has the honor to state that the Village watchers in this Jurisdiction, who are called Kotty men, are in some villages possessed of Enams free of assessment and in some they have land favorably assessed besides the customary Village fees such as Meirahs &c. allowed by the Ryots in grain. In some Villages the possess no Manuums having only the customary fees alone alluded to. The emoluments thus enjoyed by them varied before the famine of Fasly 1242 & 1243 from 8 Annas, to 2 Rupees with reference to the quantity of the

the province and to the number of watchers
subsequently the above allowances have decreased
These persons are employed on revenue duties
sometimes they assist the Village Monsiffs
and the Police Establishment in Police matters
They have much to do in the Villages situated
on the high roads as well as in those
situated near Jungles. The allowances
should be made up to 2 Rupees where
they are less than that amount. It will
probably be found desirable to commute
the Customary Grain fee into a Money
allowance in cases in which such com-
mutation is wished for by the Ryots
In the Government District of Palnaud
the village watchers generally have mon-
-ies when their monies are below 2 Ru-
-pees a Month it will be easy to make
up [illegible] that amount either by reducing
the Badega thereon, or by granting waste
land in addition thereto. The Guntoor
District being composed of Zemindaree
Estates the assignment on such land as
may

may be granted must be remitted in favor
of the Zemindar.

Mohotads are chiefly Revenue
servants though liable to assist in Police
duties, they should have a remuneration of
2 Rupees where their allowances are less
than that amount, they are entertained by
the Zemindars as they are chiefly employed
on revenue duties and no remission in
favor of the Proprietor is called for
on this account.

With respect to the 47th Para
of the Report of the 1st Judge in regard to
issuing Diary Books to the Heads of Police the
Magistrate begs to state that he fully concurs
in the opinion therein expressed in regard to the
benefits to be expected from this measure.

Given under my hand
and the seal of the
Magistracy this 6th day of
May A.D. 1840.

No. 2.

North (Ld.) Arcot
Magistrate's Office.

In reply to this Precept the Magistrate has the hona to acknowledge an Extract from the Proceedings of the Provincial Court of Circuit for the Centre Division under date the 23d May 1840 calling his attention to the opinion in the return of the 16th instant of his opinion to the expediency of requiring the Heads of Police to keep Diary Books.

The Magistrate never saw the Diary Book issued to District Magistrates and not understanding how they are kept he is unable to say what benefit they are likely to be of as a Check against frauds. Mr Hays suggestion no doubt is a useful one and the Magistrate has nothing to urge against it.

Given at Palmanair under my hand and seal this twenty ninth day of May in the year of our Lord one thousand Eight hundred and forty.

No. 4

Magistrate Madura.

The Magistrate has the honor to acknowledge the receipt of the foregoing precept with extract from the proceedings of the Provincial Court of the same date, Copy of the proceedings of the Zuyidaree Udalat of the 7th of the same Month, and paras 39. 40. 47 and 48 of the report of the 1st Judge of Circuit in the Northern Division for the 1st half of 1839, regarding the propriety and practicability of improving the condition of Village Watchers and rendering them more efficient; and the expediency of requiring Head Police Officers to keep Diary books of all their proceedings.

The Magistrate begs to submit his opinion that the pay of Village Watchers, tho' always low, varies in every Collectorate in the presidency, and the duties exacted or required from them varies still more; If they are to be considered as to be always at the command of the Revenue and Police officers generally employed in the transport of official correspondence, in running before travellers where

there

there are no roads or avenues to mark the route; in Watching standing crops and the grain threshed and unthreshed on the threshing floor. - Making others bring firewood, Chatties &c. &c. to the Talook Cutcherries, used in nightly watch of the Houses of superior Native Servants &c. to the exclusion of gaining their own livelihood by manual labor, the Magistrate thinks there is little doubt but their fees should be convert-ed into a fixed money payment &c. varying from three Rupees a month upwards according to the average price of food in different districts. - But the Magistrate is more inclined to look upon their existing emolu-ments as a kind of retaining fee and in a well policed Collectorate, he thinks the duties required from a Village Watcher should not be such as to prevent them easily obtaining &c. their own livelihood by Manual labor. - In this Collectorate the &c. Magistrate thinks nothing more is

is necessary than a continued jealous care that unnecessary duties are not ar-bitrarily exacted from them. -

With respect to the requisition of Diaries from Head of District police the Magistrate is of opinion it would be more desirable to leave it at the discretion of the European District officer than it should be made into a standing rule when it might often be attended to, to the neglect of more urgent duties and might often be vexatious. The Magistrate thinks the circumstance of the subject having been thus specially brought to notice is quite sufficient. - In this Collectorate the Magistrate has in his revenue Capacity required Diaries from all his Tasildars. -

Given under my hand and Seal at Meyloor in Madura this 30th March 1840. -

(Signed) J. Blackburne
Magistrate.

Magistrate Tinnevelly

The Magistrate has the honor to acknowledge the receipt of an Extract &c. from the proceedings of the Southern Provin-cial Court dated the 2nd March which accom-panied this precept with its enclosures from

from the Foujdary Udalut regarding the propriety and practicability of improving the condition of the Village watchers and rendering them more efficient; and the expediency of Head Police officers keeping Diary books of all their proceedings.-

With regard to the first point regarding Village Watchers, the Magistrate would refer to the constant representations made by his predecessors and himself on the subject, showing the almost impracticability of doing any thing with this class of people as long as the powers of the Magistrate are so circumscribed and limited. In Tinnevelly the Village Watchers are the thieves, and as no theft can take place without their privity and knowledge, so likewise is their powers and means of avoiding all detection and discovery, equally confined to themselves.-

The System of Cavelgars or Watchers was handed down to us by the former Hindoo and Mahomedan rulers, but instead of retaining the same laws and adopting the same

same means by which the system was kept together by those people we have established others and are surprized that the Village Watchers have become the greatest thieves and the most dissolute Vagabonds in the whole country.-

With regard to the 2nd point that the Head Police Officers should keep Diary books of their proceedings the Magistrate would observe that this plan has been observed in Tinnevelly for some years.-

Given under my hand and the seal of the Office this 4th day of June A. D. 1840.-

(Signed) C. P. Thompson
Magistrate

Magistrate Trichinopoly. The Magistrate has the honor to reply to the exigency of the foregoing precept accompanied by Extracts from the proceedings of the Foujdary Udalut and the Southern Provincial Court of Circuit under dates respectively the 9th and 27th March 1840 regarding the propriety and practicability of improving the condition of Village Watchers and rendering them

more

more efficient and the expediency or requiring Head Police Officers to keep Diary books of all their proceedings. -

In respect of the former of these two measures, the Magistrate begs to acquaint the Court that the better organization of the Village police is under orders received from Government, now engaging his attention - and that the subject would have been reported ere this, had not serious delinquency on the part of the Head Native officers of his Cutcherry prevented him. - A report however will be submitted he trusts in the course of a short time. - but he cannot hold out any hopes that he will be able to suggest any means by which the Village Watchers can be remunerated at a much higher rate than that which the 1st Judge of the Provincial Court in the Northern Division considers so much below their deserts. - the portion of the revenues which Government are willing to assign for this purpose not admitting of it. - But the Magistrate is of opinion as far as the District of Trichinopoly is concerned, that the sum allowed

altho

altho. not sufficient to provide for the entire wants of a large family will, being paid in ready money and with regularity, be a very desirable addition to other means of subsistence, and sufficient to render it an object not to forfeit it. - A sum sufficient to provide for the entire maintenance of the whole family would in his opinion have a tendency to keep many in idleness whose proper province is labor. -

The suggestion of the 1st Judge of the Provincial Court Northern Division that Head Police Officers should be required to keep Diary books is in his opinion, the Magistrate beg to state highly deserving of attention and altho' it may be complained of by these Officers as causing additional trouble in the first instance, it is calculated he is convinced in the end to save much trouble and time as now frequently occupied in searching bundles of records and much confusion. -

Given under my hand and Seal this 30th day of March A.D. 1840. -

(Signed) A.P. Onslow
Magistrate

To

To The Register to the Court of Circuit Sn. Dn.
Trichinopoly

Sir,

Para 1 With reference to my return to the Courts precept of the 27th. Ultimo, I find that I have made a mistake in regard to the 47th. and 48th. paras of the Extract from the report of the 1st. Judge of the Provincial Court of Circuit Northern Division transmitted with the above precept.—

2 My opinion in regard to the measure proposed by Dr. Haig in regard to requiring Head Police officers to record all their proceedings is, that if these officers could be made to record all their proceedings which would be a matter of considerable difficulty they would be recorded very imperfectly and would tend rather to confuse than aid an investigation. Nor do I think that such a labour ought to be expected of them without making the situation one of greater emolument than the funds (I speak as regards this district) that are likely to be set apart as their wages will allow

allow of.

Magistrate Tanjore.—

In return to the precept from the Southern Provincial Court of Circuit annexed, dated the 27th. March 1840, the Acting Magistrate has the honor to submit the following Memorandum.—

In the year 1832 the system of Police of the Tanjore District underwent revision and a Village Police was established on the model of that in Coimbatore.—

In 1836 the Government sanctioned the payment annually of Rupees 68,146 for the maintenance of the establishment of Moonsiffs and Puttah Monegars, and for increased allowances to Salluries.—These allowances were calculated at 3 per cent of the gross Standard Berij of the District.—The Salaries receiving a share equal to 58 per cent of that of the Puttah Monegars Amounting in gross to the value of 41,750 per annum

The number of Village watchers

watchers in this District is 6,084 - The highest rate of fixed pay is 15a - 5p and the lowest 5a - 8p the average being little more than ½ Rupee per mensem. - In addition to this, the Talaries enjoy emoluments &c from the Inerazedars for assisting them in the usual occupations of husbandry, and for other especial services to individuals, and they also in many cases hold land of their own. - To convert them totally to the service of the Government &c would in a great measure destroy their use- -fulness as Village Police officers, as it would remove them from that constant connection with the interest of their respective Villages, and from acquiring that minute know- -ledge of the affairs of each person in the Village by which they are enabled to afford information so valuable to the higher Officers of Police. - At present their &c allowances though small are consi- -dered sufficient with the addition of the emoluments of their office for their livelihood as their duties seldom &c require their absence from their homes. -

An increase to their pay on its present footing to an extent which would

would enable them to relinquish all other &c pursuits for the service of Police would greatly increase the cost to the State, and it does not seem advisable to adopt that mode of se- -curing their more complete and undi- -vided services. -

The granting of waste &c lands free of tax which in other Districts might be suggested as an advantageous and cheap mode of payment, would not answer in Tanjore. - In many Villages there is no waste land, and in many where there is, the demand for it for the purpose of bringing it into Cultiva- -tion is annually increasing any such plan could not therefore be generally adopted. -

With reference to the expediency of requiring Heads of Police to keep &c Diaries of all their proceed- -ings the Acting Magis- -trate has the honor to add that this practice has obtained in Tanjore for many years. -

Given

Given under my hand and
seal this 12th day of May 1840.

(Signed) H. C. Montgomery
Actg Magistrate

Magistrate Salem. — With reference to the exigency
of this Precept I have the honor to state &c
that I quite coincide in opinion with the
1st Judge of the Northern Provincial Court
that the Village officers require to be
placed upon a more respectable footing
in order to render them efficient for
the purposes for which they are required
Regarding the practicability there is no
difficulty if the Government will au-
thorize a sufficient remuneration,
there will no doubt be an ample supply
of effective men. —

The subject of the Onimar
Village Officers unprovided state was
brought to the notice of the Revenue &c
Board by my predecessor and is &c
under consideration, but the heads
of the Villages in Salem are also &c
very poorly remunerated, I think it
was an error in the Settlement of
Salem to resume the Village &c
enams

Enams and in lieu to give a money &c
payment more particularly so small a pit-
-tance as to make the situation not worth con-
-sideration lands are always more &c
highly prized and the holder will make
more exertion to retain them than a &c
monthly or yearly stipend. The first thing
in my opinion required to improve the
condition of the Village servants I speak
only of my own District is to grant them
a sufficient remuneration in land &c
would not make any additional &c
grant of this nature hereditary and
subject to the laws of Division of &c
property but would declare it a Service
Enam for Police purposes to be en-
-joyed during good conduct and &c
liable to Resumption on any remissness of
duty. — The Enams on account of Village
Officers in Cuddapah are very large
sometimes equalling the Govern-
-ment Salary and that District also
possesses a very extensive establish
-ment of Cutcheries but their Officers
being considered hereditary, the rules
for Division of property have so &c

decided

deuded the reuenue set apart for these purposes, that the parties who actually perform the duties often have but a very small portion of the allotted pay and hence their inefficiency when Mr. Ross was Collector in that District he issued an or= =der giuing only a quarter share of the income to those claimants who did not perform any of the duties of the situation this gaue full remuneration to the Active parties and by keeping small portions in names of the different Meraseedars se= =cured the acknowledgment of their rights and it would haue been well for the efficiency of the Police had this sy system been adhered to — In any ad= =dition that the Gouernment may grant therefore for the better maintenance of the Village Police I would recommend that it should be declared inalienable from the persons employed in the ac active duties of the office and that these should be chosen from the nearest heirs of the former posse= =ors only when they should be ac well competent for the performance of

of the duties required —

I do not anticipate any benefit from the proposal of issuing monthly blank books to the Tauildars nor am I aware what frauds it may be proposed to check by the adoption of such plan I adopt this method with the Village Ser= =vants in their first Collections but I do not experience the benefit I anticipated the proposition of the 1st Judge would I think only add to the duties of an al already ouerburdened Establishment ac without a corresponding benefit. —

Given under my hand the Seal of the Magistrates at Ootacamund this 7th day of May 1840 —

(Signed) J. D. Gleig
Magistrate

Magistrate Combatore. —

The Acting Magistrate of Coim= =batore has the honor to acknowledge the re= ceipt of the foregoing Precept accompanied by an Extract from the Proceedings of the Southern Provincial Court of Circuit of the same ac date requiring him, with reference to the Extract from the Proceedings of the Court of Sanydary Adalut dated 9th March 1840 and to the

Extract

Fort St. George 17th February 1842.

Extract from the report of the 1st Judge of the Provincial Court of Circuit in the Western Division thereto annexed to submit his opinion on the propriety and practicability of improving the condition of Village Watchers and rendering them more efficient as well as on the expediency of requiring Head Police officers to Keep Diary Books of all their Proceedings.

In reply the acting Magistrate has the honor to state that on there can be no doubt of the propriety of improving the condition of the Village Watchers. The practicability of the measure appears to depend upon, whether, the state of the Government finances will admit of the necessary charge being incurred in the District of Coimbatore, the Village Watchers receive scanty Voluntary fees from the Ryots but nothing whatever from the Government. Their condition would not be at all improved by an agreement

of

Fort St. George 17th February 1842.

of Inam land. - I mean such an assignment as might be considered equivalent to 3 or 4 Rupees a month. Their occupation as Watchmen would prevent their cultivating it themselves and in many instances they would get bad seasons they would get no one to cultivate it for them. - This is at present the case with the Village Police in the Coimbatore District of whose Inam land a very great, if not the greater part has for years in consequence of a succession of bad seasons been left uncultivated. -

With reference to the expediency of making the Head Police Officers on Keep Diaries of all their Proceedings the Acting Magistrate has the honor to report that in this District they are made to do so and

to

Fort St. George 17th. February 1842

to forward them month=
=ly to his Office for ex=
=amination, but the Diary
Books are not issued from the
Magistrates Office signed
and numbered. —

Given under my
hand and the Seal of the of=
fice at Metapolicum this
2nd day of April A. D. 1840.

(Signed) W. Babington
Acting Magistrate

North (L.S.) Arcot
Magistrates Office

In reply to this Precept the
Magistrate has the honor to acknowledge
Extract from the Proceedings of the
Provincial Court of Circuit for the Centre
Division under date the 25th March 1840.
transmitting an Extract from the Proceedings
of the Foujdaree Adalut dated the 9th
of the same Month annexing a copy of Paras
39 and 40 of Mr. Hagg's report, and requiring
the opinion of the Magistrate regarding the
propriety and practicability of improving
the condition of the Village watchers and
rendering them more efficient. —

The monthly value of
some of the Salaries emoluments which includes
Inam and hereditary grant of land to
their Office varies in every Talook and in
every Village. These emoluments in some
are as high a Twelve Rupees Eleven Rupees
Nine

Fort St. George 17th February 1842.

Nine Rupees, Eight Rupees, and so on, and as low again in others, as one Rupee, four annas, Two annas, six pice and one pice. The average rate of Emolument is about 3 Rupees 9 annas, which is ample pay for a Village watcher.

The rates above are as we found them on the British assumption. It is ridiculous to suppose that a Village watcher can exact upon six pice, but where these low rates are entered, there is now no Village at all, and consequently no Village watchers. I never knew of a Talier complaining of his low condition. It constantly happens that he does not receive from the Ryots in grain what he is entitled to, and that his Manium land has by some means fallen into the possession of some other person, but it is the duty of the Magistrate to see him put in possession of what he has a legal right to,

Fort St. George 17th February 1842

and if he does receive the full amount of his Marah and Maniam, I never knew an instance of his complaining.

In this District their Emoluments are ample if they can only secure them, but like the Monigars and other Village authorities, they complain frequently of the difficulty they experience in receiving regularly their stipulated allowance. The Marah cannot be increased as that depends upon the number of Ryots in a Village from whom it is received, and to give them more Maniam would not benefit their condition, as they could neither find time nor means to cultivate it. All that is necessary is to give Maniam and Marah to those who have it not, and this the Board of Revenue are now considering how it can best be effected.

Given at Palamanair under my hand and Seal this sixteenth day of May in the year

Fort St. George 17th February 1842.

year of our Lord One thousand eight hundred and forty.

(Signed) G. M. Ogilvie
Magistrate.

In return to the fore-going Precept forwarding an Extract from the Proceedings of the Court of Foujdary Adalut under date the 9th March 1840 together with an Extract from the report of the 1st Judge of the Provincial Court of Circuit in the Northern Division for the 1st Half year 1839 and requesting to be informed regarding the propriety and practicability of improving the Condition of the Village watchers and rendering them more efficient and also desiring to know whether it would be expedient to require the Head Police Officers to keep Diary books, the acting Magistrate in the Zillah of Cuddapah has the honor to offer the following observations.

2 There can be no doubt that wherever the Village Police is in a sound state, it will be the

Fort St. George 17th February 1842.

the most effectual means of checking if not altogether preventing Gang Robberies and other heinous crimes. It is the laxity of the native heads of Police in not enforcing strict enquiries into the conduct and character of the Reddies, Curnums and inferior Village Officers that has caused an increase of crime and a difficulty in detecting and punishing Criminals. Formerly the Village police was held responsible for any robbery committed in their Village and it is greatly to be lamented that this salutary rule has been in any way departed from. The effect has been not only to render the Village watchers most negligent and indifferent in the discharge of their duties, but, from the ease and impunity with which the most daring robberies have been committed, to tend not unfrequently to league the Heads of Villages and their subordinates with the gangs of Robbers who have so long and fearlessly

fearlessly perpetrated their depre-
-dations upon the property of the
peaceable inhabitants.

3. Although the acting
Magistrate has been little more
than six Months in this District
and might be supposed not to
have acquired a sufficient know-
-ledge of the Country and people
to speak so confidently upon such
a subject: yet having been two
Months employed in the Court
and having been subsequently
engaged in the annual State-
-ment, which brings the Magis-
-trate into a close intercourse
with the inhabitants, and if he
has had any previous experience
will soon give him an insight
into their habits and conduct he
cannot be altogether unqualifi-
-fied to judge. He has also
had to write reports and
Returns to the Precepts of the
Courts of Circuit which have
necessarily obliged him to make
himself

himself well acquainted with the Police in
all its branches and although he did not
in his late report enlarge so much as
he might have done upon this and other
subjects, considering that the Court of
Circuit and Foujdary Adalut had only
recently been reviewing the Report of
Mr. Blane for the year 1838 in
which he had dwelt at great length
thereupon, yet it was not from the
want of information or any difference of
opinion with Mr. Blane except in
charging the Chief blame of the present
extent of Crime and the disproportion of
persons punished upon the Judicial
system, the acting Magistrate concurs
with the views, sentiments, and opinions ex-
-pressed in that Report.

4. With this explanation of
the weight to be attached to his opinion, the
acting Magistrate declares his firm conviction,
that

that it seldom if ever happens that a robbery is committed in a Village without the knowledge and aid of some of the persons who receive emoluments for protecting the property of the people- It has often been supposed that the Gang Rabberies in this District were the work of persons residing in other Zillahs or in the Mysore Country, but the acting Magestrate has come to a different conclusion and this not upon mere conjecture but from the events which have transpired and are daily bringing to light the connection of some of the chief Reddies in the Royachoty and Poolevendla Talooks with the Gangs which assaulted and robbed the houses of two Public servants in the Town of Royachoty in the end of January last, The booty was brought from Royachoty to the Villages in the Poolevendla Talook and there secreted, doubtless with the knowledge

knowledge and desire of the Heads of the Village and the inferior police- These two Talooks, as also Sidhout and Chitwael have been long infested with robbers who have been in most cases encouraged and assisted by the Reddies- It has been publicly stated during the settlement that a Reddy of most respectable appearance, and better manners than many of his class, who is employed in two Villages in the District and also in the Bellary District, has been long and closely connected with Gang Robbers and from the facility of securing the stolen Property in one or other of his houses from his influential situation and from his caution and cleverness in avoiding every thing which might expose him to danger or trouble, he has doubtless greatly enriched himself and although pointed out and generally believed to be an extensive receiver of

Fort St. George 17th Febuary 1842.

of stolen property and an aider and abetter of crime, yet he has hitherto and may still continue to escape any direct charge and its consequences. In this respect the acting Magistrate has been given to understand that this reddy is by no means singular for it is said, that many persons who holds a large estent of rich and profitable land and enjoy many privileges as Head of their Village nevertheless lend their influence and support to the more hardy and needy classes in the perpetration of Gang Robberies and other heinous offences.

5. When men so independant in their rank and circumstances and so far removed from any of those causes which often lead to crime, engage in these evil practices it must be from the sole apparent motive of amassing ill gotten wealth. Looking at these men and conversing with

Fort St. George 17th February 1842.

with them, it would seem almost as improbable that they should be concerned with Gang Robbers as that the wealthy landed proprietors in England would share the profit of pickpockets and common thieves. This lamentable state of things is the more extraordinary when it is considered that the ways and means of expending superfluous wealth in this Country at least among the native inhabitants, is so limited. nevertheless it is a sad truth that the Chief Robberies in this District are committed by the advice and assistance of such men & that were it possible as it may perhaps be hereafter considered proper to return to the old system of making the Heads of the Village and the other Village police responsible for the robberies committed in their Village some check might be put to such crimes. The practice still prevails in the Carnool Country and in consequence

robberies

robberies are little known there.

Having the evil examples of their Superiors continually before them, and being influenced by the fear of offending and desire to do their bidding effectually, it cannot be matter of surprize that the Cuthuddy Peons and other village servants should not only be the instruments of pointing out property to be stolen in their own village and of securing the plunder brought from other parts of the country, but also themselves often joins the Gangs which have infested this Country and caused so much mischief. From their intimate acquaintance with all the persons and affairs of their village, they can have no difficulty in directing the robbers to the house of the most opulent man not usually a merchant or long established dealer who are not unfrequently objects of hatred and dislike to the agricultural

population

population from their harsh and usurious Conduct in money matters. Property is concealed and great precautions are taken to secure it from Robbers, but torture of the most dreadful Kind is resorted to on such occasions and the poor Victims to escape the torment and perhaps save their lives are Compelled to give up their hidden wealth.

It may also be taken for granted that in most instances the Reddies and Ryots might be able to resist attacks of robbers with success and they have indeed done so in several Villages lately, and Mr. Casamajor in his report on the State of the Police for the year 1836 mentions with approbation the defeat of several attacks made by Gangs of robbers in the Tummaulmudgoo, Poyachoty and Polevendla Taluks. The reddies and Cuthuddies ought to be well aware when

any

any Strangers or Suspecious Characters come to their Villages and if they watched the direction in which they went after leaving their Village, information might be given to the Police and Gangs prevented from assembling and committing their depredations. The reports of former Magistrates will confirm these Statements and any Knowledge of the people and Country would show their Correctness - There can be no question that the elements of a sound and excellent preventive police exists more or less in all the Villages in this District and it only requires attention and obedience to well considered and clear orders which may either be prepared under the direction of the Magistrate or sent from the Court of Circuit to bring system into the fullest and most beneficial effect -

In

In his report under date the 23d May 1836 Mr Casamajor remarks "The Village Police is the "chief thing if this did its duty and "was seconded as it ought to be by "the inhabitants the greater part of "the District Police might be dispensed "with and the Magistrate would have "little to do but decide petty cases -- "But the Village Police do not do their "duty completely nor will nor are they "properly seconded in the far greater "number of Villages." It is this want of Cooperation among the inhabitants and the negligence of the Village Police or what is even much worse their connivance and support afforded to the Robbers which renders nugatory and abortive one of the best institutions in the world for the peace and security and prosperity of a Country - If the inhabitants see that no care is taken to enforce Punishment

Fort St George. 17th February 1812.

Punishment in case of gross neglect or abandonment of duty on the part of these regular paid functionaries. and when they consider that they may become objects of their hatred, and revenge if they oppose their evil designs, it is not surprising that they should be indifferent, to any outrage which did not affect their own persons or property - In the 2nd Paragraph of the above mentioned Report for 1836. Mr Casamajor describes the bad conduct of the Village Police in attack made on the Doroor, Cuddapa and goes on to state the measures he had taken to punish their offence and prevent any recurrence of similar misconduct in other Villages. He observes - "I never yet conversed with "an experienced and intelligent Native, "and I have conversed with many upon "this subject, who did not say that dis "missing the Village Police and segregating

J.B.

Fort St George 17th February 1812

"segregating the emoluments of their Offices "is the only course to produce the necessary "spirit in the Village police, and I am con "vinced that this course impartially "and uncompromisingly pursued and "accompanied all along by a friendly per "sonal intercourse on the part of the "Collector and Magistrate, by encou "ragement and distinction to the Head "Police Servants and inhabitants of "Villages who act well and discoun "tenancing those who act ill or "not at all which there are many ef "fectual ways of doing together with "the deliverance of the Service Pauninine "from incumbrances and dissipation "among a number of Sharers who do no "public duty - I am convinced that by "these means the Village Police might "in 3 or 4 years be made altogether "a new thing and the District "Police be almost or altogether "abolished, a consummation which "I wish to see, for the more I observe "the Proceedings of the latter, the "more I am satisfied that they are

not

"not an instrument by which any mate-
"rial good is or ever will be effect-
"ed in this Country and that they depress
"and weaken the Village Head
"Police which is the alone instru-
"ment for effecting the good desired.
"The grand object should be to try to
"keep the responsibility for preventing
"Crimes, especially robberies and apprehend-
"ing Criminals upon the Village Police
"who beyond every other class of the
"Community are qualified to fulfil
"it- this was done under the native
"Government by making them answera-
"ble for the Amount robbed unless
"they produced it under our Government,
"this practice has been discontinued
"and no doubt rightly tho' all natives
"disapprove the discontinuance and
"wish the former System restored
"The course however above reported
"to have been adopted in the case of
"the late robbery at Doovoor would
"answer nearly as well if strictly
"pursued."-

Q- The acting Magistrate in

in the foregoing pages has expressed opinions in strict concurrence with Mr. Casamajor's remarks whose acts have received the sanction of the higher Courts and the Government, and he has no doubt that the best effects would result from making the Village Police in some way responsible for the robberies committed in their Village and by making it generally known that whenever it was clearly proved that any Reddy Curnum or other Village Officer had been concerned in robberies themselves or had received and secreted any stolen Property, they should forfeit all the benefit of their Enams. a case or two treated as that above described by Mr. Casamajor would soon produce the desired result, but it should not be left to the option of the Magistrate to enforce or not as he thought proper the penalty of such Offences- it should be clearly

clearly understood that such punish-
ment would invariably follow any
serious dereliction of duty without
the certainty that the order promul-
gated would be strictly carried
into effect, no lasting good would
result, for them, there would be
opportunity of evading or altogether
disregarding it, of which the in-
habitants of this District would
not fail to avail themselves. The
mode of proceeding must be
clear as day light and never
departed from, except under
very peculiar circumstances. The
proof of guilt should be convic-
tion before the Court or Magistrate
in cases of Crime, and be of such
a nature as regards neglect of
duty as to be within the rules
provided for the dismissal of
Tafsildars, that is, an abstract
of the grounds of dismissal
should be submitted to the
Board of Revenue, and a
full report with the Proceedings

be

be forwarded, if called for.

10. The accompanying copy
of a report addressed by Mr. Blane
to the Board of Revenue enters most
fully into the subject of the Village
Cuians and seems to convey so
much information that it is only
necessary to remark that there
is so great an extent of waste
land in most Talooks, more par-
ticularly in the Poolevendla Talook
where the services of Village Peons
are greatly needed that there
would be no difficulty in as-
signing certain portions on such
favorable terms as might ensure
the active and willing services
of able bodied guards. By this
means the want of Village Police
may be supplied without any
additional charge and this point
is of great importance. Perhaps
however there might be some
difficulty in applying any
general rule. The entire

abandonment

abandonment of the quit rent might in some instances be found necessary and in others such a distribution of the new or old Enam lands as would satisfy the Cutbud dies and occasion little loss or injury to the Government. The details might be left to the Collector who should use his best efforts to prevent the new Enams from being perverted and rendered useless by being divided among several claimants or vested in women or others unfit for the duty. The Enams resemble any other allowances bestowed

J.G.B.

bestowed for services performed, and they ought only to be received by those persons who do the duty. Such must doubtless have been the original design of all emoluments of this kind and it is much to be regretted that so many and great abuses should have arisen to destroy those wise purposes and occasion the evils so clearly pointed out by Mr. Blane. During the present settlement the Acting Magistrate has had the fullest opportunities of confirming all that Mr. Blane has stated, and he considers that no time should be lost in applying those sound and lasting remedies which are so peremptorily required.

11 The plan of keeping diaries is by no means new or difficult to be placed upon a good footing. Like many other things which depend upon the superintendence of the European authority, they have been allowed to fall into neglect and disuse owing to the frequent changes of Collectors.

Collectors during the last few years, but may be easily revived and rendered useful by clear and particular instructions and orders to the Tahsildars to see that they are properly obeyed.— Previous to the receipt of the Precept under reply, the acting Magistrate had been counselled to introduce such an arrangement throughout the District under his charge and he only waited for sufficient leisure and opportunity to ask the advice and opinions of his chief native Public servants preparatory to issuing the necessary Orders.— These he will now withhold till he be informed what measures may be adopted by the Court of Circuit and Foujdary Udalut.—

Given under my hand and the seal of the Magistrate in the Zillah of Cuddapah this 18th day of April A.D 1842

(Signed) W. Lavie
Acting Magistrate

1. With reference to the Court's Proceedings under date the 25th Ultimo

I.

have the honor to submit for the information of the Court of Foujdary Udalut my opinion regarding the propriety and practicability of improving the conditions of the Village watchers and the expediency of requiring Ameldars to keep Diary Books.—

2. The Duty of watching Villages rests in this District exclusively upon the Taliaries, Tolies, and Aukayawars—but these do not embrace the whole of the hereditary Police, there being also a sort of Military Police denominated Rundachar and Cuttoobady Poins for the maintenance of all these, Enam land and Rooooms (the latter being called Inarah and Turtandy) is formally allowed—but to shew what quantity of Enam land is actually Cultivated and what is waste with a detailed account of actual Profits would require a longer period than that allotted by the Precept now under reply.— The accompanying abstract is prepared from the Statements in the records.—

3. See Col 14 of the Abstract the

the average monthly allowance to each individual is stated to be 2 as 2, and which if distinguished by Talooks amounts to 2 Rupees and upwards in 10 Talooks, whilst in the other 7 it is below the average of Rupees 2 each the amount of the emoluments is small but the statement of the 1st Judge of the Provincial Court in the Northern Division on the condition of the Village watchers in that division does not I think apply to the condition of the Talaries of this district when he declares that they are generally starving.

4. To augment their allowance to 3½ Rupees each per month would require Rupees 7117 Vide Col. 17 or if calculated at 3, would as shewn in Col. 21 amount to Rupees 49778 in addition to the sum at present allowed them. I consider that either of these two rates would induce them to take upon themselves the responsibility of maintaining an efficient Police in their Villages as they would be provided with the means of maintenance and would be free from the temptations incident

to poverty. On the other hand, when the long period during which they have been called upon to perform their duty on their present Enam is remembered, it becomes a matter of serious consideration whether such an increase can with propriety be recommended if the present system can be modified so as to afford protection to life and property by the prevention of crime and the apprehension of offenders.

5. I have stated in Para 3 that in 7 of the Talooks their Emoluments are below 2 Rupees per month this is certainly too low a scale, but should their allowance be raised to two Rupees in those talooks this would require a sum amounting to Rupees 14,123 as appears in Column 29 should this be sanctioned by your recommendation and the approval of Government it would be necessary to enter into a detailed examination of the Mozawar accounts to bring up those that may be found below this standard

6

to the general limit of 2 Rupees - But I do not consider the measure one of necessity I have pointed it out at the order of the Court as a means of bettering the condition of the Talliaries of the district, before however I could feel myself justified in recommending such an increase I should require time for a more strict examination into their actual condition. The following is a measure which I consider would be of the greatest assistance and which I feel confident in recommending Viz^t that Government should provide Village Choultries to be appropriated as a shelter for the Talliaries and as a place where the Inhabitants of a Village on any attack of Robbers or other police occurrence taking place may know where to go to during the night or day. Choultries of this description would afford accommodation and greatly facilitate the watch and patrol of Talliaries - The aggregate number of Villages both Mogaby and Ramlet in

in this District is 3099, of these 1,618 are already provided with Choultries while in the remaining 1,831 there are none - Out of this number 1380 never have had a Choultry at all being small Villages chiefly inhabited by the poorer class of people and where from there being no inducement for the attack of thieves it does not appear necessary that they should be provided with Choultries but the remaining 471 Villages have formerly had Choultries now in ruins - the Costs of erection is estimated at 30 Rupees each, of which one third might be borne by the Inhabitants leaving the other two thirds or Rupees 20 - to the Circar - This expenditure would be amply repaid by the efficiency it would give to the Talliaree system of Police and to the general convenience

and

and benefit it would afford to the people.

6. Colonel Munro in his Report to the Police Committee dated 10th April 1806 recommended that in those Villages where there are no Taliari Enams or where they fall short of affording the means of subsistence the deficiency should be made good "that they / the Taliaries / constituted "the most essential part of a Police es "Establishment and therefore that it is "important that their numbers should be "kept complete and that their ancient "Fees which from a variety of causes have "been discontinued should be restored "and that their allowances ought not "to be less than three Rupees monthly to "each Taliarie where it is below this "sum the difference should be "made up, where it is more it should "remain as it is." and it was distinctly pointed out by Mr Chaplin in his report dated 28th April 1814 that this could not be done by transferring the Enams in or those

those Villages where they exceed the prevailing amount of remuneration, as he states that these Enams and Fees have been considered from time immemorial (tho' in fact service Enams) as a kind of Inam, little differing from fee simple hereditary property, to disturb this arrangement would produce a feeling of insecurity and discontent among the whole body of Enamdars - he also observes that in carrying into effect any plan of this nature it will be expedient with a view to economy as well as to fix an adequate subsistence to the Taliaries to place several petty adjoining Villages under the Superintendence of the same person, those places which have Taliaries and those that have not are so indiscriminately mixed together that this combination would no doubt be a matter of considerable difficulty and cannot be entered upon in the present reply to the Court-

Under-

7 Under the circumstances of the confusion which occurs, the undecided nature of the duties they are bound to perform and the circumstances that where their Cnams have from various causes become obsolete and abandoned the performance of their duties also have ceased, it has been suggested that the resumptions of their Cnams and the entertainment of them as a Police might be attended with advantage - The opinion of Colonel Munro, Mr Chaplin and almost every one who has entered into this enquiry is decidedly opposed to this arrangement - the Police Committee appointed in 1805 and to which Colonel Munro's report was addressed apparently made it their object to search out and trace the "original constitutions" of the Country in preference to the employments of a "Stipendiary Police" accustomed says Mr Chaplin as the Talaries have been to the possession of Cnam land and

and to transmit that possession from Father to Son they naturally feel strong attachment to their hereditary property and would not willingly relinquish it for any pay however high - the mode of remunerating them therefore partly in Fees and partly in land would seem preferable to any other system -

8. I have before mentioned that independent of the Village watchers called Talaries &c there are Village peons distinguished as Cuttoobadies and Cundachars who are some time called upon for their assistance in Police duties when urgently required - These peons are not invariably attached to a Village or Talook, some have and others have not got them - Of these two Classes of peons the Cuttoobadies are allowed Cnam lands and the other Cundachars a deduction in the Puttah they respectively hold - The former are 3167 in

in number attached to 11 of the Talooks where they reside in 191 Villages - The assessment of their Enam land is Rupees 95,684, of which the amount of land cultivated is Rupees 71,613 and the estimated Revenue is about 38257 deduct the amount of Jody payable by them to Circar Rupees 7432, leaving Rupees 30,825, averaging as their net emolument 13 annas each per month upon the Grand Total, and if the highest rate is taken in each Talook Rs a their allowance does not exceed 1-11 — There are 1510 Cundachar peons in 107 Villages under 5 of the Talooks - The assessment of their Puttah land is Rupees 33637, and the remission they are allowed would amount to nearly one half or 9 annas to each peon Month if calculated on the Total of each Talook - the highest Rs a rate does not exceed 1-14 - There two descriptions of peons are not distributed and stationed according to the size and population of Villages

Villages; for, there are no peons attached to some Villages where their services are much required, in fact they remain as arranged under former Governments - These people were not originally called upon for the performance of Police duties.

9. It appears to have been Colonel Munro's opinion that no efficient service could be got from them and that they should be allowed to enjoy their Enams gratuitously until by failure of Heirs they should revert to Government. But it has been subsequently stated by Mr Chaplin "that after a "minute enquiry and scrutiny into "their actual condition" he was of opinion "that a considerable "number of them actually do contribute "the aid of their services in the Police "Department and though their employ- "ment is neither so general nor so "useful as that of the Talaries, "yet as they enjoy considerable "Enams they may be thinks customs "where it has been customary to

act

"act as auxiliaries to the Police systems"

10 It has in later days been customary to call upon them on all occasions of necessity and they have frequently proved themselves a brave and efficient body of men on a late occasion in the Nooninhaddy Taluk a Cundachar Peon was dreadfully maimed while attempting to resist a band of Robbers near the Soondur Valley where he and some others had been stationed by the Amildar, he lost his hand by the cut of a sword and it was during an enquiry that was instituted with a view to a recommendation to Government in his favor that the following facts were elucidated.—

The Cundachar peons who are cultivating ryots in this Village hold Government land on which formerly they enjoyed a remission of rent. But since the general Remission was granted their state is little better than common ryots — But small services are still exacted.

exacted in the Village, their means not being sufficient for the performance of services beyond their own Village — The Total Cundachar Land in the Village is 275 acres assessed at 107 C. Pagodas, of this 238 acres assessed at 98 C. Pagodas is now cultivated and pays Government rent of 70 C. Pagodas leaving to the Cundachars 28 C. Pagodas from which 2 C. Pagodas is deducted as Payamaly or destroyed land and the rest 26 C. Pagodas is the net remission on the assessment for the services of the Cundachars. The remission that would be given as general Remissions of one fourth amounts to 24 C. Pagodas so that in reality the Peons only get 2 C. Pagodas for their services — no important services can be expected for such a remuneration.—

11 I have entered into this detail with a view to at once disclose the varying and irregular condition of this Force at the time that Mr Chaplin wrote the deduction of

of 25 per Cent was not in existence, and the Tenure upon which these people held their Enams was very different in value. It seems advisable unless some further remission is given to revert to the opinion of Colonel Munro to allow them to hold their Enams upon such service as can be got from them and rather to turn our undivided attention to the amelioration of the Talari system the Cuttoobadies are very unequally placed in some Villages, there will be found upwards of 2 100, in others where they are just as much required none at all, they would probably be unwilling to remove to other Villages as they are generally cultivating Ryots they are in fact a Military Police, the remains of a feudal system they are useful in guarding the Fords of the River in times of internal commotion, they would scarce little doubt be found faithfully

to Government but their service does not extend to watching a Village by night protecting the Baggage of Travellers apprehending thieves and other offenders guarding grain, assisting in providing supplies to Troops and Travellers &c &c which from time immemorial has been considered the duty of the Talaries.

12. The only remedy I can point out for this state of things is that the erection of choultries be sanctioned and that the cuttoobody peons be informed that as there is now no probability of their services being required as a Military Police that it is expected that in those Villages where they have Enams they should relieve and share the Police duties of the Talaries that a Statement be prepared showing the number of Villages placed under the various Talaries an account of their Enams cultivated and waste prepared and an endeavor made to equalize as far as

as is practicable the duties required of them. This report does not pretend to give an exact account of the Crams, duties, numbers, and condition of the Talaries of the District it is founded upon statements drawn out so long since that great changes may have taken place but it will I think enable the Court to judge of their general condition and of the propriety of the measures I have proposed. —

13. Regarding the keeping Diary Books I cannot believe that any advantage would be derived from it, it is impossible to suppose that an Amildar would make any entries that would tell against himself and as the Book must necessarily be entirely under his control it is much to be feared that it would not be an actual Epitome of each days occurrences. I think it of the greatest consequence that a Police Officer should not look upon a Police case as a thing which

which he must get out of without the infringement of certain rules and Regulations but that as in reality the Police of his Talook and the well being of the Royots must in a great measure depend upon him that he should be instructed and induced to look upon every infringement of the law not as an act which is likely to bring disgrace upon himself but as a part of his duty which he must strictly and fearlessly investigate not with a view to escape the notice of Superior Authority, but as incumbent upon him as the Head Native authority with great powers at his disposal to exert every effort in the speedy apprehension of offenders and the fearless discharge of his duty. —

Given under my hand and the seal of office at Bellary this 25th day of April 1840. —

that the Village watchers generally
are inadequately remunerated and
therefore are not so effective as is

Given under my hand
and seal at Conjeveram this sixth day of
April in the year of our Lord one thousand
eight hundred and forty.—

/Signed/ A. Freese.
Magistrate

The

From Fort St. George 17th February 1842.

(LS)

The Magistrate of South Arcot has the honor to acknowledge the receipt of this Precept with accompanying Extract from the Proceedings of the Court, and in reply to state that the condition of the Village Talaiaries in South Arcot is in general most deplorable and he trusts that some means may be devised of giving them a suitable remuneration. He begs leave to refer to para 28. of the Police report of the District dated 25th April 1839 and its Enclosure No 3.

The measure proposed of issuing Diary books to the Head of Police does not appear to the Magistrate of South Arcot calculated to have any beneficial effect, but rather to impede than expedite the course of justice by throwing an additional labour on the Police Establishment.—

Given under my hand and the seal of the Magistrate, at Veridachellum this ninth day of April in the year of our Lord one thousand eight hundred and forty.—

Magistrate

(True copies)
(signed) A. B. Hawkins
Registr

Fort St. George, 17th February 1842.

No. 6.

Extract from the Proceedings of the 1st Judge of the Provincial Court of Circuit in the Western Division / the 2nd Judge being absent on Circuit and the 3rd not having joined / under date the 28th May 1840.

Read Returns of the Magistrates of Malabar and Canara to this Courts Precepts of the 28th March last, calling upon them to submit their opinions regarding the propriety and practicability of improving the condition of the Village watchers and rendering them more efficient.—

1. The Magistrate of Malabar intimates that there are no persons in Malabar, such as those contemplated in Section XVII Regulation XI of 1816.

2. It should however have been noticed that each Deshadhikary has one or two peons paid by Government at the rate of 2 Rupees each, who correspond in the nature of their office with the Aogranies of Canara.

3. The Magistrate states that Diary Books, sealed and with pages numbered, have

have been kept by the Heads of Police for the last 13 years, and with good effect.

4 Here is experience of considera= =ble time, in opposition to the opinions of the Magistrate and Joint Magistrates of Canara; and the observations made by the 1st Judge when lately on Circuit / which he is about to lay before the Sanjdaree Udalut shortly, in his Circuit Report / satisfy him that it is most expedient that the safety of the Head Police Officers in Canara should be checked by such a Record.

5. The entries need not be long, nor the books heavy, so as to incommode the Sahsildars in their travels and duties. Books of a quire or two only would in fact be the best, as their transmission, when com= =pleted, to the Huzzoor, would afford speedy check to their irregularities. And as for the entries, it is presumed that it would be sufficient to make them in some such form as the following, Viz.

Received

Received complaint from A. "B. of C. charging D. E. and F G. of H, with co "Robbery. Recorded his examination and numbered

No. 55 of 1840. "it as complaint No. 55 of 1840."

"Recorded examinations of I. J. "K and L / 4 Witnesses / in support of said co "charge."

"Issued warrant for apprehension "of both the accused."—

and so forth.

6. For convenience of reference, the number of the Case may be inserted in the co Margin opposite to each day's record of pro= =ceedings in it, as shewn above.

7. With regard to the proposed increase of pay to Village Peons, it is obvious that 2 Rupees would be too small a remuneration for the constant services of one man; and increase should therefore be made for such only as it may be necessary to to entertain on great thoroughfares, or in parts which are in= =fested by roving parties of thieves, in order that intelligence may be conveyed to the regular Police. But it would hardly appear so desirable

to

Fort St. George 17th February 1842.

to augment the pay, as to increase the number of persons, so as to extend auxiliaries to a Well organized regular Police, for furnishing local information.—

8. The whole of the Country ought not to be viewd as a vicious town requiring a constantly vigilant Police. The pay of the Village Peon should be considered rather as a retaining fee which may be followed by occ. reward for meritorious service under Section X Regulation XIII, 1832. a provision that should be liberally applied / for Acting as a Police or Officer when the appearance of suspicious strangers or the commission of an offence may require it, and for devoting a few days of each Month to collection of arrears; so that he may still have time to attend to his land in season, and thus eke out a tolerable maintenance. The money payment is a great consideration to a Villager. As further encouragement, vacancies among the general Police and Revenue Peons should be filled up from those of the Villages.—

It

Fort St. George, 17th February 1842.

9. It is clear that the increase of number proposed by the Magistrate of Canara, on estimate and not data, would by no means suffice to insure efficient Police for the areas shewn. Consequently detailed information appears to be desirable.—

Ordered that the said Reports be forwarded to the Sowdarce Adalut together with Extract from these proceedings.

A true Extract

/Signed/ J. Vaughan

1st Judge Officiating

1. The Acting Magistrate has the honor to acknowledge the receipt of the cor Extract from the Proceedings of the Provincial Court of Circuit in the Western Division, under date the 28th March last and to submit the information called for by the Sowdarce Court in their Proceedings dated the 9th of that Month.—

P. F. D. Para 19 Village watchers.

2. There are no Village Watchers in Malabar, such as those contemplated in Section XVI Regulation XI of 1816, the Village Police is accordingly under the surveillance

surveillance of the Deshatheekars or paid em-
heads of Villages, who are, when requisite, assist-
-ed by the Mookeiestars, or principal persons
of the Village these latter are not, however, in
the enjoyment of any Pay or emolument from
Government. The system, as it exists appears
to have been, hitherto, considered quite suf-
-ficient to meet the ends for which Village
Watchers are contemplated in the Regulation
above quoted.-

Para 20. Diary Book. 3. It appears that the practice of requiring Head Police Officers to keep Diary Books was introduced in this District so far back as in the year 1827. It has been attended with all the good contemplated by Mr. Haig. Blank Books, with the pages num-
-bered, and the number of Pages certified under the Magistrate's Signature and Seal in the first Page, are, as they are required, supplied for this purpose from the Magistrate's Office.

Given under my hand Seal at Calicut this 3rd day of April 1840.

(Signed) H. V. Conolly
Jr. Magistrate.

The

This Paper is not numbered by the Provincial Court.

The Magistrate has the honor to acknowledge the receipt of the accompanying Re-
-cpt together with an Extract from the proceedings of the Provincial Court of Circuit under date the 18th March, calling upon him, by order of the Sowdaree Adalut, to submit his opinion on the subjects connected with the Police, referred to in the report of the 1st Judge of the Provincial Court of Circuit in the Northern Division.-

In reply the Magistrate begs leave to state in reference to Para 39. of Mr. Haig's report, that the Village Peons in Canara called Ooganies, though from the peculiar local circumstances of the Province, not exactly corresponding with the Village watchers, under different denominations existing in other Districts have very similar duties to perform. That is they are required to give notice of all crimes committed within their limits, to apprehend robbers, trace stolen property, and to perform generally whatever other police duties may be required of them by the Patail or Head of Police.- They are also em-
-ployed in the various Revenue duties which

are

are performed by the Village Peons in other Districts.—

3. A Statement is herewith submitted shewing the average rate of pay of the Ooganies throughout the District. All those who receive less than 2 Rupees per Mensem are of course unable to gain a subsist=ence without employing themselves in the Culti=vation of land, or in some other occupation. The consequence of this is that they are often not available when required for public duty on any sudden emergency, and they cannot in fairness be punished for such ne=glect, while their services are so inade=quately remunerated by Government.

4. The Magistrate is of opinion that there should be three rates of allowances for the Ooganies; the lowest to be not less than 2 Rupees, the second 2 Rs. 8 As. and the highest 3 Rupees per Mensem. The highest rate to be given in large Villages where the du=duties are heaviest.

5. The disproportion at present of the

the number of Ooganies to the sphere of their duties, will be perceived in reference to the accompany Statement.—

6. The Magistrate is not prepared to state at present the exact number of additional Ooganies which it would be desirable to appoint in each Taluk; but from the best data at hand he has estimated the probable number required, as entered in Column 11, of the Statement.—

7. The increase to the expense of the Village Police by the measure now pro=posed will amount to about 3,638 Rs. 8 As.

8. Of the practical advantage of the measure by bringing the services of the Ooganies more completely under the disposal of the Police Authorities, and render=ing them more alert and efficient in the performance of their duties there cannot be a doubt. The only objection that can be urged against its adoption is the expense; but in a matter essential to the security of life and property within the District, it is hoped that this will not be considered any argument against it.

The

Fort St. George 17th February 1842.

The Magistrate perfectly agrees in the opinion expressed by the Joint Magistrate in his report herewith forwarded, respecting the class of Village Servants existing in a portion of the Balaghaut Talooks. It is never desirable that the Village Peons should be dependent on the Villagers for their support, and the Magistrate is of opinion that the system of Gogramies paid by Government should be introduced into those Villages above the Ghauts where the Talivaries and Shete Seindes are now found.

With respect to the measure recommended in the 47th Paragraph of Mr. Haig's Report, the Magistrate is of opinion that with the mass of business both Police and Revenue now on their hands its adoption is quite impossible, and if it were not, he is inclined to think it would be unattended with any practical advantage.—

The Reports of the Joint Magistrate and the additional Joint Magistrate on the subject of Mr. Haig's report

Fort St. George, 17th February 1842

report are herewith forwarded.

The Magistrate begs to apologize for not having made this return within the prescribed period, but he has been prevented doing so by a press of other business.

Given under my hand and Seal at Mangalore this 22nd day of May A. D. 1840.—

(L. S.) (Signed) W. M. Blair
Magistrate.

To the Magistrate of Canara.

Sir,

1. I have the honor to acknowledge your letter of the 2nd Instant requesting me to state my opinion on two subjects connected with the Police.—

2. The question of strengthening the Village Police in this Province has been already brought forward, and I am of opinion that much advantage would arise from increasing the number of Ugeranies or Village Peons and assigning to them and the Potails more suitable salaries than they now receive. The measure would however

be

be attended with an increase of expense, and this I presume to be its only objection.

3. You are aware that in the Salooks below the Ghauts, Millage Watchers have never existed, and the scattered manner in which the inhabitants live not in Millages, but each on his own land, appears to prevent their being useful. In a portion of the Balaghaut Salooks a class of hereditary Millage Servants called Talaries and Shate Saindes are found, who perform duties as guards and guides, and are rewarded by the Millayers with a portion of their produce and exemption from particular Offices. They formerly also held small portions of land exempt from the usual Government tax, but this indulgence has been withdrawn, and they often Petition for its renewal. It appears however to me questionable whether it would be advisable to re-establish this class of Servants who know no superior but the Head of the Millage and I am inclined to think that it would

would be preferable to assist the Potails in their Police duties by adding to the number of Ugeranies or Millage Peons, who are appointed by the superior Authorities and receive fixed Salaries.—

4. On the proposed measure for directing Tahsildars to keep diaries of their Police proceedings I beg to observe that in my opinion the Tahsildars are already so burdened with business, and so often on Circuit that I consider this measure impracticable. It also appears to me that the present checks against frauds are sufficient: as the Tahsildars note the hour when depositions are commenced and finished and the records of their Offices contain other detailed information, in the warrants, summonses, bills for batta to Prisoners and Witnesses, and for the conveyance of the dufters which accompanying the Tahsildar when absent from his head station.—

Canara,
Belle Kerce,
18th April 1840.

[Signed] E. Maltby
Joint Magistrate.
To.

To

The Magistrate in the Zillah of Canara.

Sir,

1. I have the honor to acknowledge your letter of the 2nd Instant forwarding copy of the Proceedings of the Provincial Court under date the 28th Ultimo.

2. With reference to the 1st of the points therein alluded to, you are aware that we have no Village Servants exactly corresponding with those specified by Mr. Haig the question is therefore hardly applicable to this district. Our Togramies, however though not employed as watchers on have important Police, as well as Revenue duties, to perform, and it has always appeared to me that they are very inadequately remunerated. They are generally the first called upon to aid in the discovery of crime, and the apprehension of parties suspected; and also in the search of their premises, whereas their pay is inferior to that of the lowest grade of Police Peons.

3. With regard to the second

question namely the practicability of requiring the heads of Police to keep diaries of their proceedings, I beg to express my belief that the attempt would only tend to add to the heavy pressure of their duties without securing the object aimed at. A Moonsiff is stationary, and can arrange his work so as to ensure some degree of regularity in the order in which cases are called upon. An Officer of Police on the other hand is required to move at a moments notice and to take up cases at very irregular intervals. Under these circumstances I think that the attempt to keep a diary would embarrass and delay his proceedings where celerity is most required and that it could not possibly be kept with such regularity as should render it an efficient check.

Canara, Bellikery, 10th April 1840.

No. 9.

Copy of Return from the Magistrate of Ganjam to the Courts Precept No. 292 of the 30th March 1840.

The Magistrate of Ganjam has the honor to acknowledge the receipt of the foregoing Precept, together with Extract from the Proceedings of the Provincial Court for the Northern Division dated the 30th March last, and transcript of certain Paras from the report of the 1st Judge late on Circuit and in conformity with the instructions therein contained, begs to submit the following observations—

The defective state of the Village Establishments in this District has been repeatedly brought to notice, and a scheme for their improvement was prepared and submitted by the late Collector and Magistrate for the consideration of the Board of Revenue under date the 9th September 1836, upon which final orders do not yet appear to have been passed. The object of the arrangement then proposed was, chiefly to provide for the remuneration of the different classes of Village Officers,

Officers, where they do not exist, and where there are no Official Enams or other emoluments available for the remuneration of their Services. The Statement therein submitted shewed that in 127 Villages belonging to the Aumanie Talooks, there were no Dundasies, and I concur with my predecessor in thinking it very desirable that some arrangement such as has been recommended should be carried into effect; at the same time the Magistrate cannot at all concur in the inference drawn by the 1st Judge late on Circuit, that because the pay and allowances of a Village Dundasy do not exceed one and a half, or two Rupees a Month, "they are generally starving" In ordinary times grain of all kinds is so cheap in this District, that a man of that Class may support himself and his family, with the aid of the earnings of the females by spinning or in various other ways, on an income of 2 Rupees per Mensem. The rate of Pay allowed to the Peons in the Salt Department

Department it may be observed only exceeds the latter sum by eight annas, and the Revenue Peons throughout the District receive only three Rupees per Mensem— The remuneration proposed by the late Mr Stevenson to be assigned to the watchers to be newly appointed under the arrangement proposed by him was at the rate of from 7 to 8 Rupees per annum, which is certainly a very small pittance, and scarcely I think adequate for the remuneration of the office.—

In reference to the suggestion that blank Books to be used for recording the diary of their Proceedings, should be issued to the several Heads of Police, the Magistrate does not see any particular objection to its adoption, but it seems to him that as simple and perhaps a more effectual Check, is already in force in this District by requiring these Officers to forward to the Magistrate's Office periodically transcript of their Proceedings

Proceedings at stated periods.—

given under my hand, and the Seal of the Magistrate's Office at Ganjam this 30th day of May 1840.—

(Signed) R. A. Bannerman

Magistrate

Copy of Return from the Magistrate of Masulipatam to the Courts Precept No 289 of the 30th March 1840.—

In return to this Precept directing the Magistrate to state his opinion regarding the propriety and practicability of improving the condition of the Village Watchers and rendering them more efficient and likewise as to the expediency of requiring the Head Police Officers to keep Diary Books of their Proceedings, the Magistrate has the honor to submit the following observations—

There can be no doubt that it is highly desirable to raise the condition of the Village watchers denominated

denominated Naikwadies and Vetties in this District but the means by which this measure is to be effected is involved in considerable difficulty—

In the first place it is to be observed that the allowances granted to these Village Servants whether in Grain or in land is exceedingly small and the duties which they are required to perform are not confined merely to matters of Police but extend to the protection of the Crops, and the revenue affairs of the Village generally—

The average Monthly pay of the former seldom exceeds one Rupee and that of the latter is not more than ½ a Rupee per Month— Now as a permanent Settlement has been effected in this District, the expence of bettering the condition of these people must be exclusively borne by the Government while they must serve under two Masters Viz^t the Zemindar in respect to Revenue details and the Magistrate in regard to all operations connected with the

the Police—

Section V, Regulation XXV A. D. 1802 declares that Government having charged itself with the maintenance of the Police, all lands or Rupsooms heretofore appointed to the support of Police Establishments, should be disposed of in such manner as Government should think fit— There are no lands of Rupsooms in this District which have exclusively been appropriated to the maintenance of the Police, though there are Manuems allotted to the persons abovementioned who perform both Revenue and Police duties— The Naikwadies and Vetties are constantly liable to be taken away from their Police duties by the calls of a Revenue nature and this evil is more particularly felt in Zemindary Districts from the anomaly already adverted to of the divided authority under which they act under these circumstances unless Government shall be pleased to incur the expence necessary to put the Village Police on a proper footing and, to make

make it a separate and independent Establishment it appears expedient to adhere to the present system as long as the Estates shall continue in the hands of the Proprietors and to amend the system gradually as the Estates may happen to lapse to Government on account of arrears.

When the time shall arrive for revising the Village Police Establishments and whether the duties of the Municipal Officers be declared to be restricted entirely to matters of Police or otherwise as at present the Magistrate trusts that the inefficiency of the Heads of Villages so often pointed out will not be forgotten.

With respect to the 2d point, the Magistrate is of opinion that checks of the description indicated in Mr Haig's report would be attended with very beneficial results.

Given under my hand and seal of this Court, at Good=door, this 6th day of June 1840.

L.S.

(Signed) P. Grant
Magistrate

Copy

Copy of Return from the Magistrate of Nellore to the Courts Precept No. 287 of the 30th March 1840.

The Magistrate of Nellore has the honor to acknowledge the receipt of the Extract from the Proceedings of the Provincial Court of Circuit for the Northern Division, dated 30th March last, which accompanied this precept and to state that the Magistrate fully coincides with the first Judge in opinion, that any improvement in the circumstances of the Village Mohatandes would be beneficial tho' so far as relates to this District the pay is invariably 2 Rupees Monthly. The Magistrate submitted his sentiments regarding

Para 6-7. the Village Police in his annual report for the year 1835 which renders it unnecessary to enter again into the subject on the present occasion.

As regards the suggestion that Heads of Police should be required to keep Diaries for the purpose of recording all their Proceedings. I would observe that it has hitherto been the practice in this District for all Heads of Police to keep Diaries of their proceedings which are transmitted Monthly to the Magistrate

L.S.

Extract from the Minutes of Consultation under date the 4th February 1842.

Read Extract from the Minutes of Consultation in the Public Department dated 12th January 1842.

Read the following papers

Extract from the Proceedings of the Board of Revenue. (Here Enter 2nd Dec. 1841.)

Letter from the Secretary to the Board of Revenue. (Here Enter 6th December 1841.)

Para 1. The Board are of opinion that the inconvenience arising from the recent combination amongst the Toddy and Arrack Shop keepers, as also many of the irregularities brought to notice in the above papers, are attributable to a long and systematic disregard by the Collector of Madras and by the Superintendent of Police of the Regulation for granting Licenses to "Venders of Spirituous and other intoxicating Liquors" in the Town of Madras. In this particular, the Right Honorable the Governor in Council

Council considers the conduct of those Officers to have been highly reprehensible and now directs that Licences, required by Police Regulation 4, be issued, and that the provisions of that Regulation be strictly enforced so long as it may remain unrepealed.

2. His Lordship in Council does not consider the information given on the subject of the Establishment of Enam Toddy Shops satisfactory and directs that the expediency of continuing the indulgence be considered in the Revenue Department.

(Signed) Robert Clerk
Secretary to Government

Ordered to be communicated for the information and guidance of the Board of Revenue.

The Board will resume the consideration of the subject of Enam Toddy Shops and submit their sentiments on the expediency of continuing the

Fort St. George 17th. February 1842

From the Chief Sec. to Government communicating observations and orders on the Board's Proceedings relative to the Settlement of the Extra Sources of Revenue in the District of Tanjore for Fusly 1250.

15

Extract from the Minutes of Consultation

Under date the 8th. February 1842.—

Read the following Extract from the Proceedings of the Board of Revenue

/Here enter 13th. January 1842, No. 1/

Para 1 The result of the settlement of the Extra Sources of Revenue in the District of Tanjore for the Fusly under review as compared with the preceding year exhibits a decrease of Rupees 20,455-10-9. The Gross Collections amounted to 1007-381—14—3 whole during the last Fusly they amounted to Rupees 1027,837—9—. A reduction however was effected in the Charges of management to the extent of Rupees 9541—2—6 in Fusly 1250 so that the Actual deficit on the Net Revenue was only Rupees 10,914—8—3.—

2 The Statement entered in the Margin gives the current Collections under each of the items comprising the Extra Revenue in both Fasles from which it will be observed that the loss occurred for the most part under the head of Salt The sales of this article for inland Consumption are those in which the greatest falling off has taken place in consequence, it is stated, of the Merchants having resorted to the pans in South Arcot in

in this year when in the last there was no Salt in Store and also on account of the very heavy rains which fell in the Months of October, November and December and prevented all access to the pans in the Southern Divisions by the usual purchasers. It is satisfactory to observe that the measures adopted by the authorities in Tanjore have checked in some degree the Clandestine supply of this article to Tranquebar through the Parrical Government and it is trusted that the same vigilance will continue to be exercised by them to the same effect.—

3 The increase under the head of Sayer was obtained for the most part in the duties on Betel and Tobacco, which were rented in all but one Taluk, where the Amany management appears to have been equally successful.—

Paras 13-14 — 4 Of the total demand amounting

amounting to Rupees 10,05,825-9-6 there remained uncollected at the close of the Fusly Rupees 24,500-14-7 the whole of which has been since realized with the exception of Rupees 273-13-11 due by the Renter of the Chank fishery This result cannot but be considered satisfactory and creditable to the Officer under whose management it was obtained. His Lordship in Council has observed with pleasure the high testimony borne to the services of Mr. Cook in the concluding para. of the Principal Collector's report.

From the Coll.r of Rajahmundry—
Submitting report on the management and the present state of the Rumpah Hill country in the District—

2 Paras

I now have the honor to submit my report on my management and the present State of the Rumpah Hill Country in this District—

Vide correspondence.
To Do 4th October 1839
From Do 17th Dec.r Do
To Do 3d January 1840
From Do 7th Do Do
To Do 8th February Do
From Do 3d Do Do
To Do 8th April Do
From Do 7th May Do

This country was first taken under management on the Month of January 1840, and though, as stated in my letter of 4th October 1839, I considered the measure undesirable, still I had no doubt whatever of the absolute necessity of it, under the circumstances of the wild tribes, which inhabit these Hills having rebelled against the Zemindar plundered his property and threatened his life, which was only saved by his retreat into the low country after which, not Content with confining themselves to the Hills they had commenced attacks on the low country Villages and threatened consequences of the most serious nature, if allowed to continue their depredations with impunity—

Jon

3.

In the Month of June 1840, after the first attachment of the Country my management met with a serious reverse in the murder of the Manager, and a considerable number of his Peons, which formed the subject of the correspondence noted in the Margin, and though I felt assured that that measure was to be attributed to an over confidence and imprudence on the part of the unfortunate deceased, still I was very anxious about the consequences and the effects of it on my future management. My first orders to my Servants were to confine their exertions to resisting any aggressive attacks, and my exertions were immediately directed to Separating the Hill part of the disturbance from that which was supported by low country intrigue and Cooperation. In this, I was perfectly successful, and with the assistance I received from the Magistrate of Vizagapatam, on the part of the Rumpah Hills bordering on his District, I was enabled to deprive the disaffected of all their supplies of Salt, Opium and Tobacc, as well as Ammunition,

To Rs. 13th July 1840
From Do 9th Sept. Do
To Do 22 Dec. Do
From Do 14th January 1841

besides

besides their means of obtaining information as to what was going on in the low country, I continued these measures until I received a tacit acknowledgement that no disturbances should be committed, when I considered it prudent to desist and not unnecessarily drive them to any acts of desperation, and I then opened negociations for reestablishing my authority and the rights of the Zemindar.

4. The next great difficulty I encountered was regarding the resources of the Zemindary, which exaggerated as I thought them in the first instance, I found much lower than I had ever contemplated, and I saw very clearly that unless I could be satisfied with receiving a Moderate revenue quietly and meeting the exigencies of the Zemindary by retrenchment, which a peaceable Settlement of the country would allow me to do, I should run the risk of losing all and keeping the country in continual excitement.

5. By Statements formerly made, it was supposed that the Rumpah country would yield fifteen thousand Rupees and I thought it might yield ten, but the

experience

Fort St George 17th February 1812

Escpences 11526-4-7
Collections 3569-2-3
Balance due to Circar 7957-2-4

experience of the last two years has satisfied me that about five is as much as I can ever hope to derive from it The accompanying account current will shew that, up to this period, only Rupees 3569-2-3 have been realized from it, while the escpenses have been Rupees 11526-4-7 although the Minor Zemindar has only received from me fifty Rupees a Month, or six hundred Rupees a year, and no additional escpense was incurred by me after the murder of the Manager, except the Pension to his Widow, although at one time it appeared probable that that could hardly be avoided With the hope of only such diminished means at my disposal, the present Establishment Could not possibly be kept up, neither does it appear necessary as the nineteen Chiefs of the different portions of the Zemindary, whose names are noted in the accompanying Statement No 2 have entered into Moochilkas for the payment of two thousand Rupees annually, and for the Preservation of the peace of the Zemindary, I therefore beg leave to submit Statement No 4 reducing all escpenses to

No 3 Copies & translations of an Arzee and a Moochilkah enclosed

Fort St George 17th February 1812

to Rupees 307 a Month, or Rupees 3684 annually, which will leave a surplus of about sixteen hundred Rupees, to repay the escpenses incurred in restoring peace to the Country, and I trust the measures which have been taken to accomplish this purpose, will be approved of by Government—

Pr Annum. Expected receipts from the Estate	C.Rs. a. P
Of 19 Chiefs entered into Moochilkas	2000-0-0

Tax on Manium land	200-0-0
Sayer abbary &ca Sources	1000-0-0
As per Statement No 2	5300
Deduct escpences above shown	3684-0-0
Remaining	1616-0-0

My efforts in this case have been most Zealously seconded by Vellum Vencanah Padal, the Manager of the Totapilly Hill Country on behalf of the Zemindar, who is also a Minor, and I have promised him that should the Lingamputtoo Estate be purchased by Government, I will recommend his being allowed to hold the Village of Rowtoolapoody on rent on the terms of the Permanent Settlement, as it was formerly held by the Totapilly Family This Village is situated near the Hills at a part where it is most desirable to have some qualified influential person to mediate in cases of emergency—

7 In my letter of 30th June last I proposed the employment of a Police Establishment for the preservation of the peace of the Rumpah Country. This has been objected to, on the ground that it would be dangerous to interfere with the people of that Country. If I had intended to interfere with the interior of that Country, my proposition would be wrong but that was not the Case, and my whole conduct has shewn that I cannot interfere effectually with the interior Management of that Country. My object in proposing this Establishment was to have a small Police force, suited to the Country on the Frontier, to watch and by timely Mediation prevent any sudden feelings arising to an outbreak, and I still hope that Government, when the purchase of the Cottapilly Estate is confirmed will allow me to propose an Establishment to effect this purpose in Connection with the Management of that Estate. In this Case, the expences of the Rumpah Management might be rather more reduced,

and

and the Government advance recovered, and the Country placed in a position to be Managed by the Zemindar, at an earlier period than the present arrangements will admit of. At whatever period however the Country is made over to the Zemindar my firm opinion is, that Government will require to have some Strength of Police Establishment to watch it and protect the interests of the low Country. In former times, the inhabitants of these Hills were accustomed to respect one head, but the tie appears now to be broken, and I do not think any individual will be able to exercise any Control over them hereafter.

8. In conclusion, there is one point which I must notice. When I reported on the Petition presented to Government by Geodauda Mulloo Bhoopaty, a final observation was made on my report that that individual had died at Ongole. The said Mulloo Bhoopaty of this District is certainly not dead, nor is he a Man who would have been at all likely to quit his own Country, there appears therefore some mystery about the Case. I have endeavoured to ascertain, whether any Vakeel had been deputed by Mulloo Bhoopaty, and whether he had died at Ongole, but I have not been able to ascertain that this was the case.

No 3

To G A Smith Esqre
Collector, in the Zillah of
Rajahmundry

An Arzee from Merterdah Vamereddy and Varemereddy of Rumpah Country.

We have received the notice you issued to all of us under date the 5th May 1841 stating that during the life time of late Rajah Rambhoopaty Davoo the Chief of Rampah country we used to pay him every year partly in Money and partly in Articles upon the Villages held by us respectively, and as it appeared that after the death of that Chief, we, the Hill rangers &ca thereof, paid our obedience towards his son Rajah Rambhoopatty Davoo for some time under former engagements, and then fell in dispute by failing the payment of Money according to our former engagements, the Government placed the Country under attachment and employed the Manager &ca Establishment for conducting the affairs, in consequence of the Minority of the present Rambhoopaty Davoo who

who is selected by Government as heir for the said Country, and that it is not just to keep the Villages &ca under us without tase, but we should continue paying annually, upon the Villages &ca now under us, a tase of Rupees 3540 which was fixed with reference to the present State of the season.

In consequence of the above we beg leave to inform you that under the present circumstances of the Villages &ca held by us we are unable to pay the amount of tase fixed by you as above, but as we find that we should not be allowed to hold the Villages &ca without the assessment of tax, and we shall meet the displesure of Government, unless we pay the tase, we beg to apprize you that we cannot afford to pay more than 2,000 Rupees per annum, consequently we agree to pay annually the above sum of Rupees 2,000 from fusly 1251 without fail. We shall not henceforward commit any kind of disturbances &ca but submit ourselves to the orders of Government.

& We

We shall also pay our obedience towards the present Minor Rambhoopaty Davoo by considering him as Chief to the said Country as he has been admitted to that effect by the late Ramboopaty Davoo and afterwards by the Government- you will therefore be pleased to pardon us for whatever trespasses we have heretofore committed and protect us by annually receiving from us according to our said proposal the tax of Rupees 2,000 from fusly 1251 upon our Villages and the other emoluments and continueing them under us as usual.—

We further beg leave to inform you that we, who are in attendence here, and who affixe our signatures underneath, present you this Aryze on our part as well as on the part of all others who are liable to pay the said tax, and we hereby agree to proceed now again into our Country and submit you regular Mutchilkahs both from ourselves and from other Hillrangers &ca (liable to pay the said tax) with certain conditions to pay such sum of the tax above proposed, as would be discharged upon the Sumuts &ca held by each party and to obey the orders of the Sircar- We shall therefore perform accordingly without fail—

To G. A. Smith Esqre
Collector in the Zillah of Rajahmundry

A Mutchilkah presented by Stree Veera-
-bhoopaty Davoo and Stree Sakha Bhoopaty-
-Davoo, inhabitants of Gotah Taloofe attached to
Rumpah Country—

You have issued us a Notice under date the 5th May 1241 stateing that during the life time of the late Rajah Rumbhoo-
-paty Davoo the Chief of Rumpah Country, several Hill rangers &ca of the said Country used to pay him every year partly in Money and partly in Adeeabpon the Villages &ca held by them respectively, and as it appeared that after the death of that Chief the Hill rangers &ca thereof were obedient to his son Rajah Rambhoopaty Davoo for sometime &c under former Engagements and then fell into disputes breaking their former engagements, the Government placed the Country under attachment and employed the Manager &ca Establishment for conducting the affairs, in consequence of the Minority of the present heir Rambhoopaty Davoo- and that it is not just to keep the Villages

Villages &c^a under us without tax but we should continue paying annually upon Colah Talook now under us, a tax of 600 Rup^s which was fixed with reference to the present state of the season and circumstance. you have also issued Notices to all the other Hill rangers &c^a in the said manner, by fixing the amount of Cuttoobady of 3540 Rupees upon the Villages held by them including those held by ourselves—

In consequence of the above we beg to inform you that as our present circumstance did not permit to pay the amount of tax fixed by you, we sent to your Hoozoor Mutevadah Comereddy and Paremereddy on behalf of all of us in order to represent you our circumstance. They accordingly apprized you our circumstance in life and presented an Arzee under date the 21st July 1841 on behalf of all of us offering the tax of 2000 Rupees to be annually paid by all of us from fusly 1251 upon our Villages &c^a with reference to the present state, you have accepted this proposal and gave leave to the said two persons. In proportion to the amount

amount above proposed we are bound to pay every year from fusly 1251 without fail upon the Colah Talook now under us a sum of Rupees 339- according to the Instalments below noticed—

Fusly 1251.	Rs	A	P
On 1st March 1842	169	8	"
On 1st May 1842	169	8	"
Total	339	"	"

We agree to pay the amount of each instalment as above with punctuality— We shall not henceforward commit any kind of disturbances &c^a but obey the commands of the Circar. We shall moreover pay our obedience towards the present Minor Ramabhoopaty Davoo by considering him as Chief of the said Country, as he has been admitted to that effect by the late Rambhoopaty Davoo and afterwards by the Government. This Muchilka is presented with full of our concurrence— Please to peruse—

Order

25 - 26

Order thereon.

Read Again in Bont. 24th February

Ordered to be brought forward at a future day.

Read the following letters

To,

The Secretary to the
Board of Revenue
Fort St. George.

Sir,

27

From the Collr. of Guntoor

Stating that all interference by Government has been withdrawn from the Pagodas and other religious Institutions

1. I have the honor to acknowledge the receipt of your letter dated 17th Instant and to state that all interference by Government has been withdrawn from the Pagodas & other religious Institutions in this District. The detailed statement shewing the number of Pagodas and emoluments attached is still delayed from certain information from the Palnaud not having been furnished. These institutions are inconsiderable int his District.

2. The Dhurmakarata or Trustee of the Institution will nominate his successor or an arrangement will be made by the Family among themselves. The interference by Government hitherto did not esclend beyond paying the

Collections

Collections in the Treasury on the application of the parties through the Ameen. As the application passed through the Ameen that Officer would of course feel himself more or less responsible for the propriety of the application and disbursement of the amount applied for. This degree of interference will however cease for the future.

3. The sums in deposit in this District on account of the institutions in question up to the end of December 1841 are as follows.

Pagodas at Macherlah	} 4089 — 12 — 7	
in the Palnaud		
Do at Singarcotlah in Do	3906 — 5 — 7	
	7996 — 2 — 2	

The Pagoda at Singarcotlah is in a decayed state and it has not been found practicable to induce any person to become the Dhurmakarta thereof. The amount in deposit must continue as it is, till it can be determined whether it can be laid out in a way to benefit the people. It is not considered

considered proper to pay over the Pracheriah Deposit to the Dhurmakurta of that Pagoda. The amount must therefore remain in Deposit for the present.

Guntoor Collector's Cutcherry 28th January 1842. } Signed J. Goldingham Collector

Proceedings thereon.—1 The Collector is requested to forward the detailed Statement alluded to in the first Para of the foregoing letter, with the least possible delay, to enable the Board to submit the matter in a connected form for final disposal by Government.

27. 28

2. No sums remaining in deposit on account of religious institutions are to be made over without the special sanction of Government being first obtained.

To

To

The Secretary to the Board of Revenue

Fort St George.

Sir,

29

From the Coll.r of Guntoor.— Letter from the Coll.r of Guntoor reporting that Vaseereddy Ramanadhabooboo broke into a Room under the Custody of the Public Peons & removed the Contents thereof and submitting information relative to the Conduct of N. Sashagherrow in regard to the Course pursued by the Zemindar.

Para 1. On the 8th Instant, I had the honor to report the attachment of the Wasereddy Estate. On the occasion of the attachment I deputed Mr. Newill and the Head Serestadar to Amaravaty to secure the Duftars in order that opportunity might not be afforded to the Zemindar to remove any portion thereof or to substitute fabricated accounts. My orders were duly executed. Information was given to Mr. Newill and the Head Serestadar that some Duftars and a sum of money were concealed in a small Room adjoining the public Hall. but the Zemindar refused to open this room on the ground that it contained his own articles, and among other things the "Linguim" which he worshiped. as the presumption, that the

Room

Room contained Duftors connected with the Estates and Money, was strong; seals were affixed to the door of the Room — and guards placed to prevent the — abstraction of the contents — on the follow- -ing day the Zemindar still declined to open the door and the seals, and guards were kept as before — On the morning of the third day it was discovered that the Room had been entered during the night from the Roof, the Timbers having been burnt and cut through, and with the exception of certain immaterial — articles, the contents had been taken away — The object of the Zemindar having been effected he was of course very willing that the door of the Room should be opened and search made —

2. I was anxious that Rama- -nadha Bauboo should understand exactly

exactly the position in which he stood in regard to the offence he has com- -mitted, and at the same that he should be afforded an opportunity of giving full explanation of his conduct in order that it might be ascertained if any grounds existed on which indulgence might be shewn in mitigation of the penalty provided by the Regulations — He was accordingly addressed on the subject his replies, † are herewith submitted. From these it will be seen that he has acted throughout from ill advice. In regard to the conduct he pursued in withholding the collections it will be seen that he acted under the advice of Namutty Sashagherry Row who expect- -ed daily to be reinstated in the Office of Head Serishtadar. It is to be regretted that the Zemindar yielded up himself so readily to

† With Transla- -tions.

Room contained Duftors connected with the Estates and Money, was strong; seals were affixed to the door of the Room and guards placed to prevent the abstraction of the contents - on the following day the zemindar still declined to open the door and the seals, and guard were kept as before - On the morning of the third day it was discovered that the Room had been entered during the night from the Roof, the Timbers having been burnt and cut through, and with the exception of certain immaterial articles, the contents had been taken away - The object of the zemindar having been effected he was of course very willing that the door of the Room should be opened and search made -

2. I was anxious that Ramanadha Bauboo should understand

exactly the position in which he stood in regard to the offence he has committed, and at the same that he should be afforded an opportunity of giving full explanation of his conduct in order that it might be ascertained if any grounds existed on which indulgence might be shewn in mitigation of the penalty provided by the Regulations. — He was accordingly addressed on the subject his replies are herewith submitted. With Translations.

From these it will be seen that he has acted throughout from ill advice. In regard to the conduct he pursued in withholding the collections it will be seen that he acted under the advice of Namutty Sashagherry Row who expected daily to be reinstated in the Office of Head Seristadar. It is to be regretted that the zemindar yielded up himself so readily to

to ill advisers to defraud the Government who had shewn him so much indulgence at a time when his Estate was so deeply in arrears, and it will be manifest to the Board how impossible it is to carry on the management at all when the Individual who filled the situation of Head Seristadar was Acting in the manner stated. This will at once shew the Board that the interests of the District would have been altogether sacrificed had N. Sashagherry Row continued in office.

3. The subject connected with the zemindaurs entering the Room and taking away the contents will be further reported on when the examination is closed, as well as the result of the examination of the accounts. the accounts as far as they have been examined up to this date shew an Embezzlement of the public Collections amounting to Rupees 87,567 — 12 — 10.

In

Letter from N. Sashagherry Row to the zemindar with Translation. Envelope with Do. 2. Depositions of Serista Muddut. =gars with Do. Do. of N. Sasha. =gherry Row with Do.

4. In connection with the part taken by N. Sashagherry Row. I have the honor to submit the Papers noted in the margin found among the zemindars Duftars. together with the explanation of N. Sashagherry Row. The Enclosure refer. =red to has not yet been found. it cannot therefore be determined whether the explanation of that individual, that he wrote to the zemindar, requesting that he would provide for certain Volunteers is true or otherwise, as Sashagherry Row came to this District from Rajahmundry to be employed as Head Assistant to the Seristadar it was obviously improper that he should address the zemindar at all. But as the Papers discovered bear no date, nor the name of the zemindar except on the Envelope, and as the request made of the zemindar is contained in a separate Paper, the explanation of N. Sashagherry Row must

must be viewed with suspicion till further information is obtained, adverting to these circumstances and to his conduct in regard to the Wasereddy affairs. I am compelled to say that much injury and embarrassment would arise if he is appointed Nail in this Cutchery as indicated in my letter under date the 24th Instant.—

Guntoor, Collectors Cutchery, 31st January 1842.

Signed J. Goldingham
Collector.

No 1.

Deposition of Saskaghery row, fathers Name Veneata croostna Row, House Name Naiputtywar of the Bramin Caste religion maurdhavum, aged 53 years occupation service, inhabitant of Nellore and present residence Guntoor; on Saturday the 29th January 1842 or 2nd decreasing moon of Poorhem year Plavah—

2. Look at these papers i.e. a cover to the address of Rajah Vasereddy Ramanadabauboo Bhahadar zemindar, and the paper in it containing the

the following words "Maharaujestry Garoo should peruse this" and bearing the signature of Naiputty Shashaghery Row and state why you wrote these papers and when?—

A. I do not recollect that I have ever written any kind of letters or Notes to the address of Rajah Ramanadhabauboo, or any account whatever. but on looking to the paper in the cover which is now shewn to me the handwriting resembles mine, I therefore will bring to recollection. I observe the contents of this paper are "I have written a request and have enclosed it. you will peruse it and favor me accordingly." If you shew me also that enclosure, I will recollect on what account and when it was written, and the fact will be clear to you.—

Therefore I request you will shew me that paper. I recollect that about the time I came to this zillah from that

of

of Rajahmundry. Ramanadhabauboo was put in posession of his Estate and that as he was newly appointing Servants to the several Tanahs, I mentioned in a paper the name of one or two Woomadooware who followed me from Rajahmundry, and solicited in the same paper, that they might be provided for with any service in the Tanahs. I recollect that that paper might have been sent, being enclosed in the Note which is shewn to me. at that time, the situations of Samoodar &c. were given to several persons. He / Ramanadhabuboo / was then at Guntoor I was not yet employed so that I could not recommend to the Collector and procure situations for those Woomadooware, but visited the Collector as a candidate after I returned from Rajahmundry. Under these circumstances the paper on which the

the names of the Woomadooware who came with me for employment, were mentioned might have been sent accompanying the paper which you have shewn to me. as the circumstance took place in august Fusly 1246, it is about 5 years and upwards back. Except at that time and except on that account, I have never written on any account whatever and. I do not recollect that I have written so. where this paper which is now shewn to me was found, there also the enclosure which is mentioned in that might have been found. If this be also shewn, the fact will be clear. I therefore beg that if it is found, it will be shewn to me.

/ Signed / N. Sashagherry row.

Before me this 29th January 1842.

/ Signed J. Goldingham
Collector.

Deposition

Fort St George 17th February 1842.

No 2.

Deposition given by Ramasawmy - House name Polarauzewar, father's name Ranoomiah of the Braminn Caste, religion Smartanum aged 35 years. Occuption Sheresta Head Muddutgar attached to the Mulrauze Estate in the Collectors Cutcherry at Guntoor, and at present resident of Guntoor, on Saturday the 29th January 1842 or 2nd decreasing Moon of Poorhem your Plavah

I solemnly affirm in the presence of God. that I will declare the truth and all the truth - I will declare nothing but truth.—

Q. An Envelope to the address of Rajah Vasereddy Ramanadhabauboo Bahadar zemindar with a paper in it containing these words Vizt. "Maharauzestry Gauroo should peruse this" and bearing the signature of Naiputty Sashagherry Row under it is now before me, by whom was it found and where?—

The

Fort St George 17th February 1842.

A. The Estate of Vasereddy Ramanadhabauboo having been attached, the Duftors containing certain accounts &c. which were in his possession have been sent for to Guntoor and secured in the room on the South side of the Hall in which the Collector holds his Cutcherry - I and Anuntabhatta Narsimloo a Sheristadar Muddutgar both have been appointed to search all those Duftors and assort accounts - Yesterday that is the 28th instant, at 5 O'Clock P. M. as we were carrying on this business a China paper which had been in the envelope mentioned in the above question and bearing the signature of Sashagherry Row was found by me, in a bundle containing letters &c. useless papers belonging to the Javeloneuss of the zemindar which I immediately took and delivered in to Moongamooty

Lutchonenurroo

Fort St George 17th February 1842.

Lutchmenurseo Suntooloo, the Head Seristadar again to day, while we both were looking to the said business, the Envelope itself was found by the said Anuntabhotla Nursimhooloo the Serista Muddutgar, in the Duftery in which the bundle wherein the paper in question was found, was secured, which envelope was immediately taken and delivered in by him to the Seristadar.—

2. Look at the hand writing and that of the paper kept in it - as well as the signature of Naiputty Sashagherry Row, are all these different from one another or do they resemble one and the same hand writing? If they resemble state whose hand writing you think it is.?

A. I have looked. There is no difference at all between the handwriting of the Cover & of the paper in it, and of the signature of Sashagherry row. The hand writing of all these is that of Naiputty Sashagherry row himself. there is no doubt of this.—

/Signed/ Peraugie Ramasawmy.

Solemnly affirmed before me this 29th January 1842.

/Signed/ I. Goldingham.

I am very happy by your honors favor.

On the 8th of this Month the Collector having been pleased to send you and Head Sheristadar to sequester my Talook under ground that the payment of Kists of my Talook was not as much as from the Mulrauze Estate and sent for Duftors &c. to the Kuzzoor your honor came and

came and caused same Duftars to be sealed when suspecting that there are some more Duftars and public money in a Room on the South of the Mahaw=dravelasum or large Hall you were pleased to direct me to shew also that Room, and I remonstrated against opening it as it contained articles of food and Jewels belonging to me and to my woman &c. whereupon you ordered the Room to be sealed and a guard placed over it you asked me in regard to the breaking of the roof of the Godown at midnight which you said had come to your know=ledge, and I denied having any know=ledge of it as it had not come to my hearing before that time also I gave a deposition in the subject suppossing that it was committed by Umbaty Poody Sastroolu &c. persons

persons belonging to Runganna who is my enemy subsequently there is a rumour that it was committed by Umbaty-poody Sastroolu Tola Kristanamah Tamadar of Bampattah &c. and by some others But it is out of my power to ascertain it. The truth will be discovered by degrees and my endeavours are directed to this end.—

You have sent for to the Godown some of my Duftars after causing them to be sealed and the Sheristadar &c. Servants and the examination thereof is now taking place through the Head Sheristadar of your Cutchery. My Servants inform me that some Accounts are wanting in those brought here to give all the explanation required. There are some other Duftars at Jmaravitty put in Almaras and sealed up by you which I request you will direct to be

be brought to the Kuzzoor. Should it be your pleasure to send my Moot-suddies with me. I will cause them to look for some other Duftors if there are in my upstair house and produce them also. I will cause the Accounts to be prepared by my Servants and produce them I shall be answerable for any sums that may be found from the Accounts thus prepared, to have been appropriated for my own use.—

If it come to your notice that my Servants appropriated any sum to their own use, you are vested with authority to recover from them, holding them responsible for the same.—

I employed Tota Kistana-mah under me with an idea that he was rich and that he has served

served in this Zillah long since but he has spoiled all the Revenue affairs of my Talook, telling me some circumstances as advised by his particular friends who are principal persons at Tantore and neglected to collected the Revenues from my Talook. He did not remit forthwith even the Amount realized by him which is the cause of my disappointment, and of the Talook being put under an attachment.—

Owing to my bad luck I incurred the displeasure of the Collector, without cause who under ground that the Collection of my Talook was not as much as from the Malvaize Estate bequestered my Talook, Therefore request your honor will have m[illegible] towards me & recommend [illegible] Collector so that he may

Fort St. George 17th February 1842.

possession of my Talook. In that case I will pay by the end of this year according to the proportion of money collected from the Mulrauze Estate. Besides this from the time I was put in possession of my Talook I increased the Sist as much as possible year by year, in the same manner I will in future bring the District under Cultivation by the consent of the Ryots and collect the permanent assessment in full to obtain the favor of the Government and to enjoy the Zemindary from generation to generation. I am not at all disposed to pass my time like those who have not an inheritance, I request your Honor will with kindly towards me recommend me to the Collector so as to restore me to the possession of my Talook.

Signed J. S. Goldingham
Coll.r

Ordered

S.G.B.

of the several items composing the settlement for Fusslies 1249 and 1250.

2 The Mulrauze Estate comprises 323 Villages which are classed as follows.

Seven Villages settled according to Mustah	249
Seven Villages under share	7
Villages rented for a definite period	2
Permanently rented — Do.	2
	260
Shrotriums, Agraharums &c.	63
	323

Season. 3. The season was characterized by a deficiency of rain - At the commencement of the season in June a seasonable fall took place but no seasonable rain fell after that till the end of August. The Poonassa lands were not consequently fully sown - The Jonna yielded an outturn above an ordinary produce - The Pyra or late crops fell short from want of rain - The Mayany cultivation was a failure, except where a supply of water was received from the Kistna, which is not

not considerable in this Estate.

Prices. 4. The prices in Fusly 1250 were about the same as in the preceding Fusly with the exception of Jonna - This last mentioned grain fell in Fusly 1250.

Jonna Rs. 1-8
Fusly 1249 24-4-0
Do. 1250 21-4-0

Principles of the settlement. 5. The settlement of this Estate has been conducted on the principles before explained Viz.th a fixed rent on the field and non interference with the Ryot. When the assessment on each description of soil has been finally fixed in all the Villages the subject will be fully reported on. The observations recorded in Para. 14 of Extract from the Proceedings of the Board dated 20th August 1841. will be attended to - By introducing the Mustah at once the evils and expences of the sharing system were removed, as has been explained in former reports, and the estate has greatly improved in consequence - At the Summahbundy such lands as were not cultivated from want of rain are deducted, and if from poverty a field has been uncultivated,

the

the rist of such field is also de-
-ducted - The description last mention
-ed is rare, because at the time
the lands were taken up the Ryot
regulated the extent he undertook
with reference to his means - When
the Mustah was fixed 4 years
ago, considerable quantities of
land, left waste after the
famine, were taken up on cowl
Terms - These are fully cultivated
and additional waste to a certain
extent has been taken up in each
year subsequently - Claims for
relief from deficient produce
are enquired into by the regular
Establishment and checked by
the Collectors Cutcherry - No
Extra Establishment is entertained
on this account -

Manchavarum 6
Nowkalapully. 7 There are only 2
Villages under rent for a definite
period

period - One of these will fall
in in Fusly 1251 - The other Village
was in a depopulated state and
as it was held under share by
Pycarees it was considered
better to give it in rent for a
term, from Fusly 1248 to Fusly
1252, at the expiration of the
rent the assessment will be fix-
-ed on each field as in the other
Villages - The 7 Villages permanent-
-ly rented were given by the late
Zemindar and continue as
heretofore The seven Villages in
which the sharing System prevails
will also it is hoped be
settled on the Mustah
principle -

Coorgallor
Coconoodoola

7 The following
Statement shews the amount
of settlement for Fusly 1250 in
each Tanah -

Fasly

Fort St. George 17th February 1842.

Dry Land.

See Statement accompanying

There is an increase of 111 Coochels 0 Parahs 13 1/16 in the dry land under cultivation in the Fusly under report, and of Rupees 18,109-1-7 in the assessment - The total extent of dry land under cultivation was Coochels 7,353-5-13 12/16 1/32 inclusive of 191-15-3 under rent, and 168-9-3 under share - of this quantity 7192-12-13 10/16 1/32 were settled on the Mustah principle of the last mentioned extent of land 5,468-14-11 16/16 1/32 yield the full assessment - and 1723-11-2-2/16 are held on the terms of the cowl, the full assessment to be paid hereafter - The cowl varies from one to 4 years according to the condition of the land and of the circumstances of the Ryot who undertakes the cultivation - The full assessment on the extent 7192-12-13 10/16 1/32 is Rupees 2,42,984-0-3 - of this Rupees 17,934-12-5 were not collected in Fusly 1250 under the terms of the cowl - There is not an established Cowlnamah for Gunjoor proper as the Zemindars make their terms according to

Fort St. George 17th February 1842

to caprice and circumstances - In the Palmaud the full assessment is taken in the 4th year for land waste upwards of 10 years - in the 3rd year for land waste above 5 years, and a favorable assessment is not allowed for land waste below 5 years - This is fair for a District in a state of ordinary prosperity but the condition of the District had been disturbed by the late famine and sickness and large tracts suddenly abandoned from Ryots having been either swept off or their means greatly diminished - Under these circumstances a cowl extending to 4 years was deemed suited to the exigencies of the case - In fact the Ryot could not, in his depressed state have undertaken the cultivation on other terms -

Jareeb.

There is an increase of 10 3-9 3 4/16 in the extent of land entered as Jareeb and a decrease of Rupees 86-0-0 of assessment - This increase in the land and decrease in the assessment arises from the following causes - In some Villages where the Wells were decayed, the highly assessed land under them

there was not cultivated and in some a single crop only was sown as the fauna harvest was sufficiently abundant. where two crops are sown the full assessment is payable, but if one crop only is obtained, the full assessment is not demanded. Further in certain low lands it is customary to sow red paddy and Cotton together. In the Fusly under review the red paddy perished from want of rain, hence a deminution in the Sist.

Magany 11 In the wet cultivation there is a decrease of 43-9-8 12/16 in the Cand and a decrease of Rupees 19883- " -8- The extent cultivated during the 2 Fusles under comparison was 324-7-7 in Fusly 1249 and 280-13-11 4/16 in Fusly 1250 - The disproportion between the decrease in the land and Sist in the last-mentioned Fusly arises from the want of rain to bring the seed sown to maturity. At the early part of the season the rain was abundant but by the subsequent failure the crops perished for the most part

part except where a supply of water was obtained from the Kistnah. As a proof of the advantages of river channels it may be observed that in the Wolsereddy Estate 2 Crops were obtained under Tanks supplied by the Kistnah. But for this the deficiency of local rains in the Fusly under report would have occasioned the failure, either complete, or for the most part, of the crops under these Tanks. The experience of each year suggests the importance of carrying out the projected improvements in the irrigation from the Kistnah.

Sundry Items 12. There is an increase of Rs. 1,333 - 6 - 7 in the sundry items. The following comparative statement exhibits the particulars.

13

The early fall of rain was favorable for the pasture lands cattle from other districts were brought to graze and there is an increase in the Cattle of this District hence pasture lands were taken up occasioning the increase of sist under this head. The tamarind produce was good in Fusly 1250. which led to the increase under the item "Topes." there is a decrease of Rupees 32-14-5 under the head of Enams and Agraharums. Of this Rupees 26-0-- were reduced from the Badegah demanded on the Agraharum of Goorooviudapully, which had been increased in this amount by Mulrauze Lutchmiah. The remainder occurred on Enams.

Collections current 14.

The following statement exhibits the Dowl for Fusly 1250, the Collection within the year and subsequently to the 15th December and the balance outstanding at that date.

Fort St. George 17th February 1842—

15

It will be seen that the Balance uncollected at the close of the fusly was Rupees 30,092-4-6. of which Rupees 10,434-3-3 were realized up to the 15th December, leaving an outstanding Balance at that date amounting to Rupees 19,658-1-3. Of this Rupees 10981-4-11 are against Muctah Ryots, whose condition rendered a postponement, to this extent expedient in cases in which the produce had fallen short. It is expected that about Rupees 5,000 of this amount will be collected. The remainder may be considered irrecoverable The small outstanding Balance of Rs. as. P. 1-14-6 on account of land held on share will be speedily realized. In the rented Villages of Coornoolah and Coragalos, there is an outstanding balance of Rupees 1773-13-6 which arises from the full extent of land not having been cultivated owing to a paucity of Ryots This balance can only be realized by degrees. The Balance of Rupees 5812-9-6 under the head

Fort St. George 17th February 1842

head of Enams and Agrahrams arises from Enam land not having been fully cultivated, and from the increased amount of Badegah demanded by Mulrauze Sutchemiah on certain lands held on favorable tenures. This increased amount is included in the Dowle, but is not collected. On the sundry items, the outstanding balance is Rupees 654-10-4. The principal item composing this is on account of Poolay due by poor ryots, the greater part of which will be realized by degrees. The balance of Rupees 433-13-0 on account of Magany is outstanding as the price of grain fell at the time when certain ryots were thrashing their grain, this however will be duly collected.

16. The centage of collection within the Fusly is Rupees 89-9-2. The particulars of the collections within the Fusly, in comparison with the preceding year, are exhibited in the following Statement.

Fort St. George 17th. February 1842.

18 It will be seen that

the collection of arrears is con-

fined almost entirely to the ba-

lances of the preceding year, ex-

cept in the case of Enams. This

course of not demanding old

balances has been steadily pur-

sued during the Fusly under

review and the advantages are

apparent in the improved con-

dition of the Estate.

The

Fort St. George 17th. February 1842.

The total balances

against this Estate from

Fusly 1220 to Fusly 1249,

both inclusive amount to

Rupees 11,87,580-10-11 the

particulars for each Fusly

are shewn in the margin.

In the Summahbundy re-

port for Fusly 1249 dated

21st November 1840, Paras

43 to 46, it was recommended

that the balances against

the Ryots on account of

Sist and Succavy and

against renters up to Fusly

1246 should be remitted as

irrecoverable from lapse

of time and from the fact

that many individuals

against whom these ba-

lances stands were swept

off

off during the famine and pestilence of Fusles 1242, 1243 and 1244. The Board in Extract from their proceedings dated 26th. August 1841 Para 12, are of opinion that the subject should be further enquired into particularly as regards that portion of the balances due from rented Villages from Manavarte Enams and Agraharams with the view of ascertaining to what extent these could be recovered without infringing on the resources of the agricultural population. The amount recommended to be struck off in the report for last year above quoted was confined to the balances against ryots on account of Sist and Tuckavy and rents for certain limited periods. The recommendation was not extended to the balances due by Enamdars and Renters holding Villages on a permanent rent. There would be no advantage from instituting any further enquiry regarding the balances which have been

recommended to be struck off, for supposing that the fullest information could be now obtained on the subject, no practical result could follow as so many ryots by whom they are due have perished during the famine and it would be altogether impracticable to collect any thing from such ryots and renters as have survived the calamities of the years stated without destroying confidence and undoing the measures that have been in progress during the last 5 years for the amelioration of the ryots of this Estate. It is as much as the ryots can do to pay up current revenue. The mere institution of further enquiry would tend to unsettle their minds and it would be impossible to assign a definite period within which such an enquiry could be concluded, even supposing the practicability of it established. For these reasons I beg to recommend that the balances

balances in question amounting to Rupees 1,39,578-3-9 to Fusly 1246 inclusive may be struck off. The Balances due by Enamdars Agraharumdars and Renters holding Villages on a permanent rent will remain in the accounts to be realized as far as is particable. arrears of Tuccauvy to be struck off amount to Rupees 2,153-3-5

See Paras 4th & 5th of last years Report. Amount recommended to be struck off as per Statement No. 8 forwarded with the Jummabundy Report for last year 1,39,581-1-11

Advances for Cultivation	6,652 12 0		
		11,890	7 3
Subsistence of the zemindar		11000	0 0
		2,84,828	9 5
Balance in hand		426	2 8
		2,85,254	12 1

The

21 The payments into the Government Treasury on account of Peishcush and Collectors' Commission are Rupees 8722-3-4 above the payments of the preceding Fusly, the particulars of which are shewn in the margin.

Peishcush including Collectors Commission		
Fusly 1250	2,35,261-2-11	
do 1249	2,26,538-15-7	
Increase		8722-3-4

Fixed Establishment including Sunderwards		
As per Sanction	20,892--	
Expenditure for Fusly 1250	21,088-12-7	
Increase		196-12-7

22 In the fixed Establishment there is an increase of Rupees 196-12-7 above the expenditure of Fusly 1249 arising entirely from the pay of certain servants for last year having been charged in the current Fusly -

Extra Establishment

23. In the Extra Establishment there is a decrease of Rupees 13--7-6 on last year - The expenses on account of Tarams Subsidy were less in the Fusly under report by but about Rupees 400--- belonging to last year were charged in

the current The Extra Establishment is kept down under the measures explained in Para 50 of the report for last year.

24. There is a small increase of Rupees 106-12-6 as charges for tank repairs and an increase of Rupees 340-4- for Tuccavy, the latter arising from less Tuccavy issued for Wet cultivation from the deficiency of rain.

25. The other items do not call for remark. The allowance to the widow is charged for 11 months.

26. The Tarams of the Yedlapillay Tanah are in progress the work has been much impeded from the incapacity of the late Head Sheristadar, but the work is again in active operation since the appointment of Mungamoor Lutchmeenursoo as Head Sheristadar. Information in regards to the observations recorded by the Board in Para 14 of Extract from their Proceedings on the Jumma abundy report

report for last year will be submitted with the report on the Sarvay assessment generally.

Concluding observations

27 The result of the year exhibits an improvement in the conditions of this Estate. The failure of the web produce caused a large diminution in the amount of settlement under that head but this was made up by an increase in the revenue from dry lands. The web cultivation is fluctuating and contingent, the improvement of the Estate is to be tested by the extension of dry land cultivation. The waste lands which have been taken up during the last 5 years will for the most part yield the full assessment in future. The attention is now drawn to two points 1st the completion of the Sarvay assessment and 2dly to what extent the ryots are desirous to extend their Tarams. The latter has an immediate connection with the former unless the

assessment is fixed, & that on moderate data the ryot will have no inducement to extend his Taram particular attention should therefore be given to this if the assessment is such as to afford a profitable return to the ryot, and the demand for the produce of the land holds out an inducement he will gladly take up more land. The profits of the ryot are at present much affected by

by the fall in the price of grain, the prices this year being less than ever known before. The Estate in its present condition exhibits a striking contrast to what it was 5 years ago, both as it regards the extent of land brought under cultivation and the condition of each individual Ryot. It is unnecessary to enter into detail in this place it will be manifest that improvements could not have taken place had there not been the fullest confidence on the part of the ryot in the presiding management and I must admit that

that the present results could not have been brought about without the able assistance of the late Naib, Subbaweyah Venkatachristnarow: every thing has been done by him and his character has imparted that confidence to which the present improved condition of the Estate is to be attributed. The strongest corroborative testimony in regard to the character and exertions of the late Naib is afforded by the accompanying† copy of an Arzee from Mulrauze Lutchmiah, in which she requests that the whole Estate may be placed under his charge in order that the measures which have succeeded so well in Pauchoor, Jedlapilly and Poloor, may be carried out in the other portion of the Estate.

† with Translation.

=condah, Innacondah the
Talook of Rauchoor and
Cadaly, and Sydapoor Circars
Moortoojanagur Moostoo=
=phannagur Rajahmundry
and Nellor Vca. Vca. Vca.

Inconsequence of the famine which happened in Fusly 1242 and 1243. in this Country and of the Sickness in Fusly 1244. my Estate came into an extremely deteriorated state and the lands were left waste to a great extent. Since you arrived in this Collectorate in Fusly 1247 the affairs of the Estate having been conducted according to your orders, several of the Villages subject to the Tanahs of Rauchoor and Poloor were with reference to the Demand fixed and Collection made on account of each Village in each of the former
Fuslies

Fort St. George 17th February 1842.

Fuslies, and to the number of Cattle and of the
population in former years and at the present time,
settled according to a gradually increasing demand,
so that the sists may reach their full standard in
3 or 4 years. the Villagers have been required to have
the lands of their respective Villages surveyed and
Turms have been fixed with reference to those
Sists, Villages under the sharing System have been
settled under Muctah. Also necessary arrangement
was made so that the Ryots of the Bellunconda
and Innacondah Tanahs, the Villages of which
were not settled in the above manner, might
undertake and Cultivate lands to such an extent
as their ability might permit them. Channels
have been dug in such directions where
it is convenient to supply the Tanks from
the River Kistnah. In the Village of Evany
subject to the Rauchoor Tanah an irri=
=gation Tank has recently been con
=structed and Cultivation has commenced
under it. Thus the necessary Arrangements
having

having in every way been made, the Estate has already improved to agreat extent, moreover resources are developed, so that little more or less, the full Peishcush may be paid from the ensuing year. but I greatly regret that the other Talooks of my Zemindary have not enjoyed the benefit of the pains taken by subnevis Vencata Croostnarow Pantoolo. who has heretofore greatly labored for the improvement of my Estate.—

I understand that you have appointed him (Kristnarow Pantoolo) to manage the Affairs of the ChilKaloorpaud Estate also which has recently (that is in last July.) been attached. All the Talooks of my Estate having been greatly improved by the Arrangements made by him heretofore, and he having been fully acquainted with the Affairs of my Estate, I humbly solicit that you will

will be pleased to appoint another person for the management of the Affairs of the Chilkaloorpaud Estate, and place the other 3 Talooks of my Zemindary; Viz^t: Bellumcondah, Innacondah and Poloor under his management, and appoint him Head Auneen to the 4 Tanahs including the Rauchoor Tanah. If this is done my Estate will be soon improved, the Peishcush of the Honorable the Government will be easily paid; and resources will be developed for the one. third which is my right, and the Estate will thus be fully improved within the time you may be pleased to give over the Zemindary to Venkata Condulroydoo at present a minor, who is my Grand Son and heir to succeed to my right. By the time you may be pleased to put him in possession of my Estate after his minority shall have expired, the Estate, I trust will be fully prosperous. After the expiration of his minority, the management of the Estate will

Fort St. George 17th. February 1842.

will be easily conducted. I therefore humbly beg you will be pleased to grant my request as above, and inform me of the same. Be pleased to perus[e] 4th. Fe[b]ruary 1842. Friday the 10th. decreasing moon of Poosheem. Year Plavah.

(41)

To the Chief Secy to Government

Submitting a letter from the Collector of Chingleput representing the dilapidated state of the sources of irrigation belonging to the Shrotriem Village of Paukum & the consequent falling off of the revenues of that Village & recommending the adoption of certain measures for the due repairs of the Reservoirs of the Village

abovementioned letter be submitted together with the following address—

To the Chief Secretary to
Government

Sir,

1. I am directed by the Board of Revenue to request you will submit to the Right Honorable the Governor in Council the accompanying letter from the Collector of Chingleput representing the dilapidated state of the sources of irrigation belonging to the Shrotriem Village of Paukum and consequent falling off of the Revenues of the Village from an average amount of 3289-13-8 upon the period of ten years from 1226 to 1235 to Rupees 2692-12-8 during the last 10 years. In Fusly 1232 the Village yielded no less a Revenue than 4714-5-5 and the amount

Fort St. George 17th February 1842

amount of Tank Nursah unexpended on the Reservoirs of the Village at the close of Fusly 1250 was 3015-9-4—

It will be seen how-

2. ever that the non adjustment of certain disputed claims between the Shrotriemdar and the party who holds the Village on mortgage prevents the necessary Repairs (amounting to 1197-10-2 being made to the reservoirs in question and accordingly the Collector suggests that they be made at the Government expense and so maintained and that a sum of Rupees 250 per Annum be added to the Peishcush—

3. The first duty of the Collector in this as in all cases in which public funds are set apart for the due repairs of the means of irrigation in any Village is to see that they are so disbursed and the Board propose calling upon the Collector to report by whom they have been collected and

and in whose hands the unexpended portion of the Tank Marak remains, and what obstacle exists to their immediate application to the purposes for which they were intended -

4. The Board will also with the concurrence of the Right Honorable the Governor in Council be prepared to direct that in case there be any further hesitation on the part of the Mortgagee in possession to do the needful as regards these Reservoirs the Village be temporarily resumed by the Officers of Government that the repairs be executed under their orders and that the Village be not reported to either party till the amount expended be recovered from them, or out of any profits that may accrue after payment of the public demands -

Read

J.G.B.

Read the following letter -

To
The Secretary to the
Board of Revenue
Fort St. George

Sir,

(42)

From the Pr. Collector of North Arcot.

Reporting on the subject of a complaint preferred by the Arrack renter with copy of a letter from the officer Commanding at Arcot.

Para 1. I have the honor to return the papers, as directed, which accompanied your letter of the 8th instant -

2. The question to be decided is, has Mr. Potter, a registered Military Bazar Shopkeeper, permission to disposed of Colombo Arrack in any quantity to any person within the Military limits of Ranneepett except to the Renter, my opinion is that he has not, Major Laurence differs in opinion -

3. Sections XII and XIII Regulation I of 1820 Confines the retail sale of spirituous liquors exclusively to the Officers of Government or to Renters authorized to sell the same, and grants liberty to demand from those who keep spirituous liquor security that the same shall not be disposed of in any quantity less than two leaguers, except to the Government Renters. In fact there can be no removal or sale of it except to the Renter -

I

4 I submitted the Renters Petition to the Board (and I may here remark the Petition is not drawn up in the most courteous language) to Major Lawrence for his explanation of the charges alleged against Lieutenant Curtis the superintendent of the Military Police, and Copy of the Majors reply I have now the honor to forward.-

5 The Authorized certificate required by Lieutenant Curtis to prohibit the sale of Colombo Arrack, is Regulation I of 1820. The Regulation quoted by him to the Renter, VII of 1832, does not refer to the sale of Colombo Arrack.-

6 The Messrs. Potter have certainly in their possession Colombo Arrack and this the Government Renter objects to. It does not appear from Major Lawrences' letter that they retail this Arrack in less quantities than one Gallon, and that only by a permit from the superintendent of Police. I certainly think if they had retailed this liquor as stated by the renter, he would have been able to have detected the illicit sale, there being

being a sufficient number of his Peons at all times around the premises of Messrs. Potter, as observed by Major Lawrence.-

7 The only thing to be decided is, has Mr. Potter any right to a license to sell Colombo Arrack, the quantity does not signify, has he a right to sell it at all? The Regulations, I am of opinion, prohibit granting him a license, though his right to possess one has not been questioned for a number of years.-

North Arcot, Principal Collrs. Cutcherry, } Signed } G. M. Ogilvie
Chittoor, 28th January 1842. } Principal Collector.

No. 1.

To The Principal Collector
Northern Division of Arcot
Chittoor.

Sir,

With reference to your letter dated 19th January 1842 No. 4 and the accompanying Petition from the Abkarry Renter to the Board of Revenue, I have the honor to inform you that the Renter did complain to Lieutenant Curtis regarding the sale of Colombo Arrack and that Officer told the Renter in person that as the Regulation VII 1832 did not prohibit the

the sale of any particular spirituous Liquor by Licensed shopkeepers, he did not feel himself authorized to prevent the sale of Colombo &c. arrack, but that if he (the Renter) would produce any authorized Certificate prohibiting the sale of that particular Liquor, means would be taken accordingly; he was also told that every assistance should be afforded him.--

Mr. Potter and his late Father have sold spirituous Liquors of all sorts for the last 45 year at Arcot and since 1820 under a License for Arrack granted by Mr. Roberts a former Collector, but not in less quantities than one gallon, and as he has now become a Registered Military Bazar shop keeper he has under Regulations VII sections XLIV, XLV and XLVII obtained from the Superintendent of Police. G.O.G. 27th September 37 a License to sell spirituous Liquors (Pattah arrack excepted) in quantities not less than one Gallon, and although the Regulations allow as small a quantity as one Bottle still for the Protection of the Abkarry Renter (and at the suggestion of Mr. Bourdillon the Sub Collector) it was limited to one Gallon, and that only by a Permit from the Superintendent of Police. Mr. Potter has been prohibited from selling any spirituous Liquors whatever to any Natives

without first obtaining the special Permission from the superintendent of Police, and the only Native who has been allowed to purchase Colombo arrack is a Pensioned Subidar who has taken the Liquor medicinally for the last 7 years &c. the rest has been sold to European Officers for the use of their sick Horses, and some was sold to Mr. Morris on Christmasday for the Consumption of himself and family, and this has been sold at the rate of 1 Rupees 2 annas 8 per Gallon.--

One or two Bottles of Brandy have also been sold by Mr. Potter but only by the Special Permission of the Superintendent of Police after strict enquiry into the respectability of the Natives and the reasons why required, which were Cholera.--

I do not think that less quantities could have been sold, as the Renter has &c. kept 12 or 13 of his own Peons constantly watching round every shop, and was moreover told by the superintendent of Police that if he could only prove that any quantity less than that allowed by the License had been sold, the person so offending should be punished &c. according

Fort St. George 17th February 1842.

according to the Regulation, this he has been unable to do, or has never done.-

Some time during last Month Mr. Potter received 2 Leaguers of Columbo arrack. Protected by a Permit from the Collector of Madras which I have the honor to enclose, also with a receipt from the Collector of the Customs for the Government duty levied upon it which is also forwarded - but not by the authority or even knowledge of Lieutenant Curtis - As that Officer was not informed by some mistake or neglect of Mr. Potter's of the Circumstances until some days after the Liquor had been received.-

I beg to enclose a statement from Mr. Potter and request that the above Documents may be returned.-

The only orders issued in the Bazar referring to the Pullah arrack were that the Vendors were to act in strict accordance with G.O.G. 30th October 1839 and that no shop was to be opened before 6 O'Clock in the Morning nor to be kept open after 8 O'Clock at Night agreeably to the usual practice in Military Bazars.-

Arcot, 24th January 1842. } [Signed] A. W. Lawrence, Major Commanding Arcot

No. 2.

Statement of Messrs. D. Potter & sons.

We beg to represent that we

Fort St. George 17th February 1842.

we have carried on business for the last 45 years and have hitherto never met with any obstruction in our business from the Abkarry Contractors.-

We keep a supply of Columbo arrack on hand for sale to Officers & respectable East Indians according to the strict terms of our License, but never retail it as represented by the Contractor: had we done so he would no doubt have detected us and we should have rendered ourselves liable to the Fine expressed in our License - We have also occasion for a Considerable quantity of this Liquor in the Composition of varnish for the numerous Articles of Furniture Manufactured by us.-

The renter has now held the contract for a period of 6 Months and during that period if we had carried on any Retail Trade his numerous spies who are continually on the look out around our premises must have discovered some instances to prove the truth of his assertions which is not the case, or it would certainly have come to your knowledge.-

With respect to the Liquor received by us in December last from Madras we can only say that we have never had occasion

Fort St. George 17th February 1842.

occasion for the last 45 years to apply for the Permit now required, not having been aware that it was necessary —

Arcot, 17th January 1842. /Signed/ D. Potter Y clonr.

No. 3.

To G. M. Ogilvie Esqre.
Principal Collector of the
Northern Division of Arcot.

Sir,

I have the honor to inform you that it having been brought to my notice during my stay at Arcot, that two shopkeepers within the Cantonment as well as four others without it were vending Columbo arrack, I preferred my Complaint to the Sub Collector who was pleased to refer me to Captain Cumberledge the Officer then in Charge of the Cantonment, with a letter on the subject matter of my complaint; Captain Cumberledge said that he was unwilling to have any personal interference in the matter, but that he would give me a note to Lieutenant Curtis in charge of the Military Police there about it, which he accordingly did. search being made under the orders of Lieutenant Curtis in Two shops within the Cantonment 18 Bottles of Columbo arrack were found in one

Fort St. George 17th February 1842.

of them which belongs to one Mr. Potter. These 18 Bottles were seized, sealed and detained by Lieutenant Curtis, with directions to me that I should call on him the next day to be informed of Captain Cumberledges determination thereon. On my attending on Lieutenant Curtis I was told by him not to interfere with the shopkeepers within the Cantonment or keep any watch Peons about their shops but to go and seek redress of my complaint with a Higher Authority than the Sub Collector. The seals were of Course removed and the Bottles returned to Mr. Potter in whose shop they had been found —

I have the honor further to inform you that being obliged to return to Poonamallee on very urgent business, I desired my Partner Poodoonay Parcanawmy Moodelliar to bring the last mentioned circumstance to the notice of the Sub Collector who it appears was again pleased to write about it to Major Lawrence, the Commanding Officer of the Cantonment who sent for my Partner and enquiring into the nature of the assistance or redress he required from him, and being informed of the same as well by my

Fort St. George 17th February 1842.

my Partner as by Lieutenant Curtis who also, it appears had at the desire of Major Lawrence met the Sub Collector on the subject, told my Partner that he (Major Lawrence) had granted the shopkeepers within the Cantonment license to sell (but not less than one Gallon at a time) Brandy, Gin, & Rum, and that my Partner could, as usual place watch Peons about their shops, so as to be able to detect any sale made by them of Columbo arrack. Soon after Major Lawrence's departure to Vellore, Lieutenant Curtis appears to have sent for my Partner and ordered him to withdraw his watch Peons kept about the two shops within the Cantonment. He appears to have said also, that if my Partner could adduce documentary evidence that no Columbo arrack was sold by the shopkeepers within the Cantonment of Vellore, Lieutenant Curtis would then stop the sale of that article by the shopkeepers within this Cantonment also; on the next day my Partner produced the accompanying copy of a Moochilkah entered into with the Officer in charge of the Commissariat Department at Vellore, by one of the shopkeepers within the Cantonment

there,

Fort St. George 17th February 1842.

there, and moreover complained of a Permit, or Pass having been given by Lieutenant Curtis, to a Pensioned Subidar residing within the limits of, and therefore subject to the Civil Power, to purchase three Gallons of Columbo arrack from one of the shops within the Cantonment, Lieutenant Curtis replied that he would grant Permits, or Passes to those who required Columbo arrack, because the shopkeepers within the Cantonment refused to sign such Moochilkahs as the one produced by my Partner. He further added that my Partner might if he pleased make his Complaint to the Proper Authority. I leave you to consider Sir, how much encouragement was held out, by this means, to the shopkeepers within the Cantonment, to sell Columbo arrack, what loss the sale of that article would bring on the Abkarry Renters, and how impossible it would be for them to pay their Kist to Government; the Amount of Kist for the present year being greater than the Amounts of Kist for the former years. It is however evident that as a Police Authority Lieutenant Curtis is not affording any Assistance to the Renters in the way he ought, to enable them to pay their Kist to Government, and that the reason adduced by

Fort St. George 17th February 1842

by him for granting Permits or Passes to those &c who would require them. for purchasing Columbo Arrack, is any thing but just and proper.

I have the honor further to inform you that my Partner reported what passed between himself and Lieutenant Curtis, to Major Lawrence and shewed him also the Copy of the Moochilkah produced to Lieutenant Curtis as well as the endorsements that no Columbo arrack could be sold by the shopkeepers subject to the Civil Power made by you on the arzees presented to you by the Abkarry Renters. Major Lawrence promised to write to the Commissary General on the subject of my Complaint and to give me an answer so soon as he should receive a reply from that officer.

Under the above circumstances I have the honor to request that as the immediate proper authority who could and ought to enquire into and redress Complaints of this nature, you will be kindly pleased to do so and also give the Abkarry Renters your support so as to be the means of preventing the sale of Columbo arrack in the shops within as well as without the cantonment of Arcot and of enabling them to pay their Kist to Government. They are perfect strangers in the Zillah and as such claim your particular attention and protection

Fort St. George 17th February 1842

protection, and for which they will always feel very thankful and grateful.

[Signed] Thos. Turner for self and P. Pareadawny Moodelliar Abkarry Renters of the Zillah of Chittoor.

Poonamallee, 24th October 1841

To Mr. J. Turner
Abkarry Renter North Arcot
Poonamallee

Sir,

I have received your letter of the 21st Instant bringing to my notice certain illegal Proceedings in the sale of Columbo arrack within the Military Cantonment of Ranneepet, and complaining that your Agent does not receive the support that he is entitled to from the Military Authorities in preventing the illicit sale of the liquor in question.

I request you will be good enough to direct your Agent to come to my Cutcherry and to state before me, what hinderance he suffers. & I then shall be better able to understand the matter and will take immediate measures to place you in the full possession of all your privileges, as the arrack renter of the District.

[Signed] G. A. Agilvie

North Arcot, Dy. Coll. Cutcherry, Palmanair, 27th October 1841.

Agreement

Fort St. George 17th February 1842.

Agreement.

I A. Soobaraya Pillay, do hereby bind myself to conform to the following conditions and such others as Government may from time to time prescribe.-

1 That I will not sell any Batavia or Columbo arrack or any spirituous or fermented liquor manufactured in the Provinces subject to the Presidency of Fort St. George.-

2 That I will not receive from any Quarters any Brandy, whisky, Holland &c Rum or other foreign spirituous liquor without it's being accompanied by a regular permit (detailing the quantity and &c &c quality of such spirit) signed by the Commissariat &c Officer.-

3 That I will not dispose of any foreign spirituous liquor as above described, nor any description of brewed Malt liquors, and liquors, in a less quantity than one quart Bottle at a time, and which may be removed from my shop without permit.-

4 That I will not sell any sort of spirituous or fermented liquors in any quantity whatsoever to any European Non Commissioned Officer, Private soldier, or European woman or Child unless with the permission in writing of the Commanding Officer and

Fort St. George 17th February 1842.

and the privity of the Commissariat Officer.-

5 That my sales of spirituous and fermented liquors wines, Beer, &c shall be confined exclusively to European Gentlemen, Commissioned and warrant officers, Indoo &c Britons, Indoo Portuguese and the more respectable class of Natives accustomed to purchase their wines and liquors from the shops, but that I will not sell any wine, &c Beer, Brandy, whiskey, &c or any other foreign spirituous or fermented liquors to any native whatsoever of the ordinary class.-

6 That the breach of any of the above conditions shall subject me to the immediate forfeiture of my license for &c which I will give such security as the Commissary General may require.-

Vellore, January 1840. } Signed A. Soobaraya Pillay. Shopkeeper

Ordered that the following address be submitted together with the foregoing letter and the previous &c correspondence on the subject.-

To

Fort St. George 17th February 1842.

To

The Chief Secretary to
Government

Sir,

(42-43)

To the Chief Secy to Govt. Lre No. 6 dated 17th January 1842. Submitting a letter addressed to the Board by Mr. J. Turner Abkarry Renter of the North Arcot District complaining of the loss to which he is subjected in Consequence of licences being granted to Mr. Potter & others for the sale of Columbo arrack within the Contonment of Arcot with the report of the Pl. Collr on the subject, and suggesting that the licences which may have been granted to Mr. Potter & others may be withdrawn.

Para 1. I am directed by the Board of Revenue to request that you will submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter addressed to them by Mr. J. Turner Abkarry Renter of the North Arcot District together with the report upon the same furnished by the Principal Collector under date the 28th Ultimo.-

2 Mr. Turner complains of the loss to which he is subjected as Abkarry renter in Consequence of licences being granted to Mr. Potter and others for the sale of Columbo Arrack within the Cantonment of Arcot. The said licences being granted by the Officer in charge of the Police at that station.-

3 It appears to the Board that the Staff Officer at Arcot is not authorized by any of the Provisions

Fort St. George 17th February 1842.

Provisions of Regulation VII of 1832 to issue licences for the sale of Columbo arrack, the only case in which licences of any kind can be given by the staff officer appear to be provided for by section XLIV of the above Regulation, in which it is laid down that licences so granted are to be issued "under such rules and Con-
"taining such Stipulations as from time to
"time may be issued by the Commissary General
"under the written sanction of the Government"-
The Abkarry at Arcot is not under the charge of the commissariat but rented to the Contractor who hold the general rent of the District under the Principal Collector. Moreover the Board are given to understand that in the Agreement generally made with parties receiving licences under the Commissariat in cases where the Abkarry is managed by that De-
partment the sale of Columbo & Batavia arrack

arrack is expressly prohibited.-

4 Under these circumstances the Board think that Mr. Turner who pays a high rent for the Abkarry of the District inclusive of the Military station of Arcot, has reasonable grounds for his applications for the interference of Government to protect him from the injury to which he is exposed by the continuance of the present System of granting licences at that station, and who suggest that licences for the sale of Columbo or Batavia arrack which may have been granted to Messrs. Oetter or any other Merchants at Arcot should be withdrawn.-

Revenue Board's Office,
Fort St. George,
17th February 1842

Read the following Letter.-

To,
The Acting Secretary to the
Board of Revenue
Fort St. George.

(44)

From the Sub Collr. in Charge of North Arcot.-

Sir,

Para. 1.- I have the honor to enclose copy of a Letter which I addressed on the 24th Ultimo, to the Principal Collector of this District, soliciting the sanction of the Board of Revenue to put to sale the lands of some Revenue Defaulters in the Sub division; Copy of the State=ment which accompanied that letter is also enclosed.-

2. Mr. Ogilvie detained this letter, as he informed me when I took charge of the District, in order to make at the same time a similar applica=tion regarding some balances in the Principal Division. As it will require some time yet however before the accounts of those balances and of the attachment in satisfac=tion of them can be prepared, I think it

it better to forward these without a waiting for them, and I beg that I may be authorized to put the lands to Auction. The Advertisements prescribed by Section XI, Regulation XXVII of 1802 are enclosed.—

North Arcot,
Prin.l Coll.r Cutchery,
Chittoor, 5th February 1842.

/ Signed / J. D. Bourdillon.
Sub Coll.r in Charge.

To, The Principal Collector in the Northern Division of Arcot

Sir,

Para 1. I have the honor to enclose accounts of some balances of land Revenue for Fusly 1250. for which I solicit the authority of the Board of Revenue to put to sale some of the land of the Defaulters. The particulars of the land attached in satisfaction of the balances are given in the same Statement.—

2. The first case in the list is that of Cooposamien of Edigay in Arcot Taluk.— His total Beriz in Fusly 1250 was as Rs. 229 — A. 12 — P. 3, of which he paid Rs. 145 — A. 12 — P. —, leaving

a balance of Rs. 84 — A. — P. 3, the whole of which is for productive land, without Shawey or Waste. He refuses to make any arrangements for the liquidation of this balance, and his personal property is sheltered from attachment by Mortgages. His landed property too as is shewn in the Statement, is hypothecated in the same way; but the land being made by law the security for the land Revenue, it is attached notwithstanding, for the balance due on it. Besides the balance for Fusly 1250, there are old balances outstanding against Cooposamien for Fusles 1242, 1243, 1245 and 1246, amounting to Rs. 161 — A. 1 — P. 7. in addition to which, former old balances against him to the amount of Rs. 335 — A. 14 — P. 6. were struck off under the order of Government which cancelled all balances prior to Fusly 1240.

3. The next two defaulters are Chinna Vurdien and Anantunmaul of Ayhivaditaimghy in Sivatoor Taluk, against the former there is a balance of Rs. 68 — A. 12 — P. —, out of a total demand of Rupees 112 — 14 — being nearly two thirds;

and

and against the latter a balance of 30 Rs 13 A 5 P, out of a Beriz of 101 Rs 11 A 6 P, being nearly one third. These two heavy balances are the only sums outstanding in the Village. Chinna Verdien is long known as a troublesome character. He was formerly Monigar and was dismissed for misconduct; the balances due by him since July 1240 are trifling, only 21 Rs 4 A 0 P.

4. In Yellapauttum of the same Salook there are two defaulters, although the balance appears in the names of a number of persons, who are their Children or dependants. The Beriz of Seenevasiengar in Fusly 1250 was 188 Rupees, of which he paid 96 Rs 12 A 3 P, leaving due 91 Rs 4 A 0 P. Chuckratiengar's Beriz amounted to 51 Rs 10 A 2 P, of which he paid 24 Rs, leaving a balance of 27 Rs 10 A 2 P. Agreeably to the Rule followed in Fusly 1250, and explained in Para 12 of my Report on that Fusly, Seenevasiengar's Puttahs contained 22 Rs 10 A 3 P, and Chuckratiengar's 4 Rs 11 A 0 P, for Shawy; but the assessment in the Village is light. These Individuals petitioned the Board of Revenue in June last, praying to be allowed

allowed time to liquidate their balances. They had also addressed me to the same purport, and I gave them permission to pay the amount in two equal instalments, one on the 30th Kartikay (12th December 1841) and the other on the 30th Pungony (10th April 1842.) They failed to keep to their engagements, Chuckratiengar having paid only a portion of the first instalment, and Seenevasiengar no part whatever. I therefore according to the terms of their Mochilkas, put to sale some articles of their personal property (though they had been permitted to make away with the greater part of what had been attached) and so realized 15 Rs 14 A 0 P out of the sum due by the former, and 6 Rs 7 A 0 P out of that due by the latter. For the remaining balance I have attached part of their land, and beg permission to sell it.—

5. Both these individuals who are own Brothers, are long notorious as troublesome and disreputable Characters both in the payment of Revenue and in other ways. Both of them, have formerly been Monigars, and have been dismissed. They are at present residing

deserving of no indulgence whatever, and my only reason for shewing them any on this occasion, was a wish to see whether mildness and leniency would have any good effect upon them. It will be observed that both these individuals have been systematically in the habit of retaining balances; the whole amount due by Seenevasiengar for Fusles 1240 to 1246 inclusive is Rs. 25 A. 1 P. 11 and by Chuckratiengar for Fusles 1240 to 1245 inclusive Rs. 65 A. 4 P. 7. Both too had old balances cancelled by the General Order of Government above referred to Viz.t the former Rs. 65 A. 8 P. 1 and the latter Rs. 54 A. 9 P. 5.

6. For the Character of these two persons, I may refer to Para 2 of my letter to your address dated July 1st 1839 in which I described a class of individuals of which they are specimens. There beg leave to quote the passage. "In several Villages "of the Trivettoor Talook there are a num- "ber of Ryots who habitually use every "means to avoid paying their Rists. The "practice of the District is to retain a

"sufficient proportion of the produce under "charge of the Village Talliary as Security "for the Rent of the Land. the persons of "whom I speak are in the habit of defying "such detention, and carrying off and dis- "posing of their grain, and then professing "to have no means of discharging the Circar "demand against them; to avoid the con- "sequences of such misconduct, they threaten "the Tahsildar and other Talook Servants "with accusations of bribery &c.a and as it is "known by the actual experience of former "instances that they do not scruple to execute "these threats, and as such charges whether "true or false must occasion much trouble "and anxiety to the accused, this method is "usually sufficient to keep the Talook autho- "rities from vigorous measures against them- "selves. Thus the object of the defaulters is attained; "and the sight of their success and a sort "of jealousy or competition lead other and "more respectable people to withhold their "Rists likewise, since they very naturally "judge that they have as much right to

evade

"evade payment as the others. Thus the
"trouble of the Revenue Officers is much in-
"creased, and large balances remain outstand-
"ing."—

7. The next case is that of Samta Nainar of Memmeany in Palaco Talook. The balance due by him for Fusly 1250 is Rs. 55 A. 3 P. 8. out of a total Beriz of Rs. 131 A. 15 P. 4. being above two fifths of it. Besides this balance, there are other sums outstanding against this defaulter in three former years, to the amount of Rs. 74 A. 8 P. 1, making a total of Rs. 129 A. 11 P. 9. There is nothing in the circumstand of the land to account for these balances, which are owing solely to the extravagance and improvidence of the defaulters.

8. Against the next defaulter Meenatchien, there is only a small balance for Fusly 1250, Viz. 15 Rupees out of 61—10—2. for three former Fusles, there are balances amounting to Rs. 68 A. 9 P. 8, making a total of Rs. 83 A. 9 P. 8. This man is brother to the Punchanadien of the same Village, whose character I had occasion to

to describe in my letter of the 1st July 1839. Para 8; but his character is not quite so bad. He has the Punchaungum meerass in a number of Villages, and is well able to discharge the small balance of Fusly 1250 if he wished; but instead of doing so, he has absented altogether from the Village for some Months. He has no house or personal property there, and there is therefore no other resource for realizing the demand against him, than the sale of part of his land.—

9. Against Mundiwagar of Saitaray in Mundiwash Talook there is a balance of Rs. 31 A. 7 P. 8. out of a Beriz of Rs. 77 A. 3 P. 5, the sum paid by him was Rs. 30 A. 1 P. 6. and Rs. 15 A. 10 P. 3. was collected by the sale of personal property. Against Perid Sashadrien-gar of Mailind in the same Talook

there

Fort St. George 17th Febuary 1842.

there is a balance of Rs. 34 — A. 7 — P. 6, out of a Beriz of Rs. 169 — A. 12 — P. 11; and against Mencadachary of the same Village, his whole Beriz amounting to Rs. 18 — A. 11 — P. 3. is outstanding, besides Rs. 2 — A. 7 — P. 3. for Suckavy. All the personal property of the two last mentioned defaulters, and all that of Murdiengar except what has been sold, is under mortgage. Their land too is mortgaged, but is attached in satisfaction of the balances due on it, for the reason given above.

10. The total amount of the balances of Susly 1250 for which I request authority to sell the land of the defaulters, is Rs. 437 — A. 8 — P. 2. A considerable proportion of this sum will most likely be paid if the sale is ordered; for the remainder it will not be necessary probably to sell the whole of the land attached, as

Fort St. George 17th Febuary 1842.

as it seems to be appraised very low. As for the heavy old balances due by some of the same individuals, I merely wish to bring these to the notice of the Board for consideration, not knowing whether they may think it proper to enrealize them by the same proceedings after they have been allowed to remain outstanding so long. It is with unwillingness that I advocate this extreme measure even in the case of the last years balances, but I see no alternative between this and the virtual abandonment of all claim to them, and I cannot willingly consent to hold out a premium to misconduct and fraud, by allowing to the dishonest and disorderly exemption from demands to which the respectable and honest are constrained to submit. I mention the cancelled balances only as an indication of the character of the Individuals.

North Arcot District,
Sub Coll.rs Cutchery,
Arcot, 24th January, 1842.

2342 Fort St. George, 17th February 1842.

Proceedings thereon. (44. 45)

Under the circumstances set forth in the report which accompanies the foregoing letter, the Board authorize the publication of the Advertisement for the sale of the lands entered in the Statement which accompanies it; with a view to the recovery of the arrears of Revenue due by the parties therein mentioned for Fusly 1250. The date of the day of sale has been altered to the 21st March.—

2. The Board desire that they may be duly informed of the result of the measures proposed by the ex-Sub Collector in charge, to be adopted for the recovery of these balances, and that they may be furnished with the opinion of the local Authority as to the steps which it may be thought proper to take, in regard to the balances due by some of the parties for Fusties prior to 1250.

Read the following Statement.—

2343 Fort St. George 17th February 1842

Order thereon.

(46-47)

Ordered that the necessary remarks of the Board be inserted in the proper Column of the foregoing Statement and submitted for the orders of Government.

Read again letter from the late Principal Collector in the Southern Division of Arcot, dated 12th and entered in Consultation 26th April last.—

Ordered that the following address be submitted together with the foregoing letter and the previous correspondence on the subject.—

(48)

To the Chief Secretary to Government.

To the Chief Sec.t to Government.—

Recommending the resumption of Cavelly lands and allowances enjoyed by certain principal Cavilgars in the Talooks of Mannargoody & Chellumbrum in the Sn. Divn. of Arcot and the grant of an allowance of 15 per Cent to the incumbents in perpetuity.—

30th Dec.r in Cons. 9th Jany. 1837.
12th in Cons. 9th Feby. 1841.

Sir

Para 1 I am directed by the Board of Revenue to request that you will submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letters from the late Principal Collector Southern Division of Arcot, with their respective enclosures.—

2. With his letter of the 30th December 1836 Mr. Ashton furnished a Statement

shewing the unresumed Cavelly Lands and allowances enjoyed by certain principal Cavilgars in the Talooks of Munnargoody and Chellumbrum, the immediate resumption of which was recommended on the principle suggested in Mr. Ravenshaw's letter of the 10th May 1806. an allowance of 15 per % being continued to the incumbents in perpetuity.—

In Cons: 19th May 1806.

3. As it appeared that the lands in question were held exactly on the same tenure as the Enams held by the Woodiarpolliam Zemindar in the same Talooks, regarding which enquiries were then pending, and which formed the subject of a recent reference to Government, it was not considered necessary to bring the question separately to the notice of Government immediately on the receipt of the Statement abovementioned.—

Taom S. Arcot

2 Pur Cons: 19 Dec.r 1838.

Proceedings 2nd Dec.r 1841

From the Sub Coll.r in Charge in Cons: 26th Oct.r 1840.

4. Under date the 30th September 1840 a Report was made to the Board, of the death of Ramabadra Doorapah Sholaganor, one of the Pichavaram

Fort St. George 17th February 1842.

Pichavaram Cavelgar, the party whose name stands at the head of the list submitted with Mr. Ashton's letter of the 30th December 1836. The extent and value of his Enam lands, and the alienations made therefrom by himself, and his predecessors, are exhibited in the Statement which accompany Mr. Ashton's letter dated the 12th April 1841. The Board recommend that this Enam, which has been under attachment since the death of the late incumbent may now be permanently restored, and that the Collector may receive sanction for making an allowance of 15 per % for the support of the family, which consists of the individuals noted in the Margin.

2 Sons
1 Daughter
3 Minors.
Mother of the late Cavilgar.

5. The Statement [No. 2] of Dittos Manniems granted by the late Cavilgar and his predecessors exhibits alienations to 29 Individuals amounting to Rupees 863—13—4 and grants to 10 religious establishments to the extent of Rupees 434—14—4 In addition

+ In letter 12th April 1841.

Fort St. George 17th February 1842.

to which it is stated that the two Villages of Vajapootoor, and Radahvalagam have been for many years held upon Ardhamanimum tenure by certain Brahmins to whom they were granted by a former Cavelgar. The Board would suggest that these grants be continued as recommended by the Principal Collector to the present incumbents for their lives, a register being made of the share to which each is entitled, and that on the demise of each share holder, his share be subjected to full assessment. As regards the alienations to individuals, and religious institutions, the Board conceive that the Collector should be instructed to dispose of them in the manner laid down by Government in the Minutes of Consultation dated the 31st Ultimo conveying the decision of Government upon the subject of the Woodiarpolliam Enams. The Board recommend also that the Collector be referred to the same instructions for his guidance in making arrangements

In Cons 11th Feby 1842.

arrangements for the immediate resumption of the remaining Cavely Enams entered in the list which accompanied Mr. Ashton's letter of the 30th December 1836.

/Signed/ R. J. Porter
Ag. Secretary.

Read the following letters.

To the Secretary to the
Board of Revenue
Fort St. George

(49)

From the Ag. Coll. in the 1st Div. of Arcot.

Sir,

With reference to the latter part of the Extract from the Board's Proceedings of 13th Instant. I have the honor to state, the practice of registering goods at the Chinglepet Chowkies in transit has of seldom been observed, and this has come about in all probability from an unwillingness to create more delay or vexation than is absolutely necessary. During November and December out of 93 Rowannahs from the land Custom Office at Madras, 10 only have any Chinglepet

Chinglepet endorsement.

I was satisfied in my own mind that my Sayer Servants were not ignorant of the fraud under notice, but as the transaction took place at night, and they might have been deceived, I was not disposed to punish them with such severity as ascertained guilt would have called for. I accordingly moved all the Servants at the conclusion of the enquiry to other Chowkies where they receive inferior pay.

Cuddalore,
Coll. Office,
27th Jany. 1842.

From Do. 5th March 1838. No. 25.

Fort St. George 17th Febuary 1842.

money or that his Inamum land may be placed under my authority, and the proceeds paid to him.

I believe Chunda Hussain has rendered considerable service to the Govern-ment and still holds a high situation in the Mysore breeding Establishment. He unfor-tunately selected a location where the Cultivators, being ill disposed, are only too ready to avail themselves of his absence and all other opportu-nities, to evade payment.

Up to the time of his appearing before me, for instance, last Month, he had received only 10 Rupees out of his due for the expired fusly 1250.

I would therefore recommend his case to the favorable consideration of the Board, for reference if necessary to Govern-ment; and would suggest that either the grant be commuted to a ready money allowance or that I be authorized to take it under my charge and pay to him the proceeds.

Cuddalore, Coll.rs Cutcherry, 28th January 1842.

(Signed) C. H. Hallett.
Acting Collector.

53-54

The Board authorize the Collector of South Arcot to register the portion

Fort St. George 17th February 1842.

portion of the Mootah of Nullatoor left by the late V. Tumboo Reddy, in the names of his sons Leenooadjea or Reddy, and Narain Reddy. The parties will of course be made aware that the Government will hold them, and the holder of the remaining portion of the Mootah, jointly and severally answerable for the Peishcush.

Read the following Letter.

To, The Secretary to the Board of Revenue Fort St. George

55

From the Ag. Coll. of Tanjore.

Sir,

With reference to Mr. Kindersley's letter of the 18th December on the subject of the Sheally Jungles leased to the Porto Novo Iron Company and forfeited by non payment of the demand within 6 Months of it's having been made under provision of the 8th Clause of the Lease, I have the

Fort St. George 17th February 1842.

the honor again to call the attention of the Board to the subject, in consequence of a letter from the Sub Collector reporting his having received a Bill from the Company's Secretary in payment of the amount due for the rent of the Jungles up to 31st December 1841.

Rs. 484 — A. 15 — P. 6.

The Company thro' their Secretary were repeatedly called upon for the payment of their dues to Government and had clearly forfeited their lease by nonobservance of it's condition. Acceptance of the bill therefore remains under abeyance.

Vide the enclosures which accompanied Mr. Kindersley's letter of the 18th December.

Connected with this subject I have the honor to inform the Board that the extensive works dependent on the South Rajah Vykal, lately sanctioned for the Sheally Talook which will be completed before the freshes enter the Cullerroon, have led to large offers

Fort St. George 17th February 1842.

offers on the part of the Meerasdars to cultivate the Jungle lands, and their offers have been accepted to such an extent as will lead to the immediate redemption from waste of the three Jungles of Poodoopatnum, Codyempollam -and Sandeemungalam, together with portions of Mahendrapully -and Allacoody formerly leased to the Iron Company.

Tanjore, Vellum, 31st January 1842.

/ Signed / J. L. Bishop. Asst. Pr. Collector.

Order thereon.

(Read again in Cons. 7th March)

(55-56)

Ordered to be brought forward at a future Meeting

Read the following report.—

To

(57)

From the Coll.r of Trichinopoly — Reporting on the Settlement of the Land Revenue of his District for fusly 1250.

To The Secretary to the Board of Revenue Fort St. George.

Sir,

Para 1. I have the honor to forward the usual Accounts and Statements connected with the Settlement of the Land Revenue of the Trichinopoly District for fusly 1250 — as under-mentioned.

A Statement shewing the Settlement made with the Inhabitants.

2. Price Current of Grain.

3. Abstract list of population for fusly 1250.

4. Detailed Statement of Items of Increase and Decrease.

5. Statement shewing the extent of Land Cultivated with Sugar Cane and the amount of Revenue according to the former Sugar Cane Seerwah and the present Nunjah Seerwah.—

Statement

6. Statement of Nungah Shavy remitted.

7. Statement shewing the amount of Faram Teerwah and the actual out-turn of the Villages and Lands plac'd under the Superintendence of the Circar Servants.

8. Statement shewing the Demand Collection and Balance of land Revenue of fusly 1250.

9. General Comparative Statement of the whole Revenue from the land and from other Extra Sources of Revenue of fusly 1249 and 1250.

10. Statement of Demand Collection and Balance on account of arrears of land Revenue at the close of fusly 1250.

11. Statement Comparative of Charges.

12. Statement shewing the Particulars of lands cultivated from waste and brought into the accounts of Settlement.

13. Statement shewing the particulars of waste lands remitted in the Settlement.

14. Statement shewing the particulars of Faram and Coody Jastee Vs. Vc. of Streepoorundam Village in arreadore Talook.—

15. Statement of lands held on favorable Assessment.

Venoyagenteroovoo a Village situated on the Island of Coleroon in the Talook of Woodiarpolleem was under the orders of the Board of Revenue conveyed in the Extract from the Proceedings dated 13th July 1840, incorporated with the District of Tanjore. The arrangement made with respect to a tract of land separated from the Ayacut of the Villages of Coroor and Calarumpetty in the Torore Talook, and which constituted a new Village in fusly 1248 having been considered by the Board objectionable the said land was re-annexed to the Villages to which it customarily belonged there is therefore a Decrease of 2 Villages in the total number of Villages.

Villages.

†Coroy Board's Proceedings dated 26th Octr. 1840.

The

3. The Meraſſy right of two Villages in the Conaud Talook belongs respectively to two Pagodas and it has been hitherto customary to manage them under Cumamee the proceeds being equally divided between the Circar and the Pagodas and as the Circar share has not under this mode of management ever yielded sufficient to pay the amount aſsesſed on the Villages, the deficiency has been accounted for under the head of Swaz Cummee in the season under report—this irregular practice was discontinued—the Villages were cultivated Ryotwar and the amount of the Aſsesſment collected on account of Government, the surplus being of course appropriated to the Pagodas—This causes an accession of two to the number of Settled Villages, and another has been added in consequence of a portion of a Waste Village in the Talook of Wodiarpolliem having in the fusly under report been taken up for

for cultivation—one Village was transferred from the list of settled to that of rented Villages in consequence of the Ryots of the Village of Aſsoor in the Conaud Talook having deserted and failed to return till the proper season for dry cultivation had paſsed. and as they agreed to undertake the cultivation of 80 Cawnies of wet land, that extent was let to them rather than allow the Village to remain entirely uncultivated. Their desertion was caused by a partial failure in the productiveneſs of their land and impoverishment arising from various causes.

4. The following is an Abstract Comparative Statement of the Mouzas and Muzrahs &c according to the account of Fuslees 1249 and 1250.

Season.

5 Towards the end of May and during June and July light rain fell at intervals, but from the end of August up to November, there was no cause for complaint on this score, and the season upon the whole, may be pronounced to have been better than the of the preceding year and was throughout the year remarkably healthy

6 The supply of Water in the River Cauvery did not admit of the early Crop of Paddy termed Valan being carried on to the usual extent and it became necessary at the Tummakbundy to make a remission on this account

7 But the principal freshes commenced in good time, and the supply of Water continued sufficiently long to bring the main Crops to maturity without any complaints deserving of notice on account of withered Crops except in the Village of Arasengoody

Arasengoody in Coimbatore in which alone it became necessary to grant remissions under this head and this indeed arose not from want of water, but in consequence of its having been found impracticable to get the intricate works of irrigation in the vicinity of the Village in a proper state of order in time to carry off the surplus water. There has been great difficulty in managing these works for some years, but it is hoped that what was amiss in them has now been set to rights. After the subsidence of the waters an attempt was made to rear Crops but the season was too far advanced to allow of their coming to maturity.

8 A small remission on account of Shavy became necessary in the wet lands of two dry Villages in the Vittiauttu Taluk in consequence of the supply of water

2363 Fort St. George 17th February 1842

Water in a Tank partially failing while the Crops were growing.

Price. 9 In the price of Grain as compared with that of fusly 1246 there was a falling off from 2 to 38 per Cent, this of course occasioned some distress and embarrassment and operated as a considerable offset to the advantages of the abundant harvest. It is satisfactory however to observe that the Rents were paid with great punctuality.

Settlement. 10 The Summabundy Commenced in the Month of [illegible]

-and was conducted -on the general principles hitherto prevailing a few irregularities which had crept in from the want -of sufficiently -detailed instructions to the Tahsildars hereafter to be noticed having been set aside- All the general -and most of the individual Puttahs were delivered by myself -a few of the latter were distributed by the Tahsildars-

11. The Settlement of each Talook was supervised by myself My Head Assistant Mr Woodgate having been absent -on Medical

Medical Certificate -Mr R. R. Cotton who was -appointed to act for him not having joined till towards the close of the Set-tlement-

12. The Settlement -of fusly 1250 -amounted to Rupees 14,68,871- 7- 2. being -an increase -of Rupees 30,133- 4- 10. -above the Settle-ment of fusly 1249. the result of an increase of Rupees 30,333- 11- 9. and a decrease -of Rupees 200- 6- 11. as exhibited in the Annexed Abstract Statement-

From

13.

From the annexed Abstract Statement of the Settlement of each Talook it will be perceived that in the Wet Talooks, there was upon the whole a decrease of Rupees 6855-3-4, and that in the Dry an increase of both places in every Talook, amounting to Rupees 25925-1-10, above that of fusly 1249. The decrease in the wet Talooks is mainly to be attributed to the deficiency in the extent of early Crops already noticed. The Increase in the Dry Talooks arose from the favorableness

favorableness of the season. It will further be perceived that in addition to the increase in the Dry Talooks there was an increase of Rupees 10266-10-10. in the Dry Villages of the Wet Talooks the net result of the whole being an increase of Rupees 30,133-4-10.

Fort St. George 17th February 1842.

15. The Statements Nos. 12 and 13. exhibit a comparison between the extent of lands which being cultivated in fusly 1249 were left waste in fusly 1250 and the lands newly taken up in the latter fusly exhibiting a Net excess of Rupees 26311—8—11 in the assessment of lands newly taken up above the assessment of the lands thrown out of Cultivation.—

* Assessment of lands newly taken up — — — — Rupees 84483 3 12
of lands thrown up — — — — 58171 10 11
26311 8 11

16. It will be seen on reference to the Statement 12 Column 9 that Rupees 35377—7—4½ were newly taken up by ryots in exchange for a portion of the land held by them in fusly 1249. which were laid waste in fusly 1250. the portion laid waste will be found in the corresponding Column of Statements Nos. 13 Viz.t Rupees 29,421—4—6— leaving an increase of Rupees 5,956—2—10½ in favor of lands newly taken up.—

17. The increase of Rupees 35275—8—7— in

Fort St. George 17th February 1842.

in Column 17 of No. 12 is the assessment of lands newly taken up by ryots in addition to the extent of land held by them in fusly 1249.—

18. An extent of land assessed at Rupees 13880—3—10½ was newly taken up by Ryots who for various reasons relinquished a portion of lands held by them in fusly 1249. the assessment of the portion so thrown up being Rupees 24714—2—11— as per Column 25.— Statement 13. the result being a decrease in the holdings of these individuals in fusly 1250, as compared with their holdings in fusly 1249 of Rupees 10883—15—½.

* No. 12 Col. 25

* Statement 13

19. The extent of land occupied in fusly 1249 thrown up in fusly 1250. by ryots who altogether relinquished Cultivation in Consequence of poverty was Cawnies 1,827—76— assessed at Rupees 4036—3—6— ½

Statement 13. Col.s 16 and 17.

20 In addition to the lands thrown out of Cultivation for the reasons described in the foregoing paragraphs Cawnies 47—24—12— bearing an assessment of Rupees 149—8—7—

Statement No. 4 Col.s 52 and 53.

were

were left waste in consequence of deaths and — Cawnies 414 — 17 — 13. assessed at Rupees 1495 — 2 — 7 — in consequence of desertions. The total amount of the difference between lands — newly taken and those left waste from — whatever cause being — Rupees 24,666 — 13 — 9 — in favor of lands — newly taken up.

21. The practice of taking new lands in exchange for, or rather in substitution for, old lands alluded to in para 16 formed the subject of my letter of the 13th July 1841. and it seems now only necessary to state that according to the practice in question a ryot wishing to abandon his lands or any portion of them is allowed to take up other lands yielding an equal amount of assessment, but no entry is made in the accounts by which it can be discovered that the — change has taken place. so that, for instance, a ryot who in 1250 might relinquish 10 Cawnies of land assessed at Rupees 31 of his last

last years holding and take up instead of them 10 Cawnies assessed at only half the above amount, would still have to pay the assessment fixed on the lands thrown up and no alteration would be made — in the accounts to shew that any alteration in his actual holding had taken place. Other anomalies have existence under the system in question but this does not seem the — proper place to detail them.

22. In the settlement of Fusly 1250. I have not hesitated to disregard this practice and have entered in the — Accounts the actual holding of each individual and the assessment fixed on it. the demand against the ryot being of course the latter that is the actual assessment of the land according to its classification.

23. From what has just been said, it will be seen that the — accounts of former Fuslies have in point of fact been fictitious having shewn neither the exact extent of land laid waste

and

Fort St. George 17th February 1842.

and of that newly taken up - nor the assessment of the lands actually occupied.-

24. In exemplification of my meaning. I beg to point out that under the system which I am condemning the sum of Rupees 5956 - 2 - 10½ mentioned in para 16 of this report as the net result of lands thrown up and lands newly taken up by certain ryots, would alone have obtained an entry in the accounts. in which it would have appeared as the result of increased Cultivation from lands newly taken up while the fact that lands were newly taken up to the extent of Rupees 3537- "——" - and that lands to the extent of Rupees 29,421 —" —" were abandoned by the same individuals would have been altogether kept out of sight.-

Emigrants 4

25. The number of ryots who emigrated is 242 of whom 220 were Coolcoody or resident ryots and 22 Paracoody or strangers the extent of land given up by them was Cawnies 524 — 8 — 7½ bearing an assessment of Rupees 2012 — 8 — 8 - of which Cawnies 109 - 90 - 10½ - assessed at Rupees 517 — 6 — 1 — were taken up by other ryots - The places to which the emigrants are supposed to have gone are mentioned in the annexed Statement-

28. The necessity for remeasuring these lands was occasioned by there being very great reason to believe that the complaints of the Ryots that some portions of the lands were not entered in the Summabundy Accounts and that in some instances lands were entered in those which had no existence were true and from the circumstances of many of the spots bearing different names from those entered in the Accounts.-

29. The difficulties attending the measurement of Villages in the Wet Talooks have been explained in my letter of the 12th July 1841 and I beg to state that.- in conducting the measurement of the Villages in question the instructions contained in the Board's Proceedings of the 26th October 1840- were, as far as they are applicable attended to, and Accounts were prepared in Hindoovee as nearly as possible in accordance with the form which accompanied them.-

Fort St. George 17th February 1843.

Mistakes in Accounts.

30. The next item to be noticed is that of Increase and Decrease in the Statement appended to para 14 under the designation of mistakes in former years."- This was the result of the close inspection rendered necessary to prepare "Individuals Chittahs"- In fusly 1249 an attempt was made to introduce this very necessary ingredient in a Ryotwar Settlement but from a variety of causes was attended with no success as long as no individual Chittahs were prepared, I need not explain to the Board the Summabundy Accounts could be made up without that strict attention to detail involved in the preparation of individual Chittahs. for in their absence there was nothing by which the former could with accuracy be tested- but as the accounts prepared for the Summabundy must where Individual Chittahs are prepared, tally with the latter, the comparison necessary to effect this end led to the detection of the errors now under notice- In short under the

the old system the actual liabilities of individuals as required by the principles of a Ryotwar Settlement were not exhibited in the Summabundy Accounts- now they are.

31. To enter into minute detail upon this subject would extend my report to an inconvenient length- the following suppositious Statement will perhaps suffice to shew what I mean. According to the Summabundy accounts of fusly 1249- there is an entry of.

	Cawnies	a/sgt. Rs.
Cursub turrum	15	220-"-
Shevub turrum	15	180-"-
	30	400-"-

whereas according to the individual Chittah, the account ought to be thus.-

Fort St. George 17th February 1842

35. The only item seeming to require explanation is the small sum of Rupees 1–14–8 the difference in excess between the garden tax of Cawnies 1–39–14– of land and a higher rate to which it became liable according to the usage of the Talook in consequence of the Season having admitted of it's being cultivated with a superior description of crop. The excess is carried to the Head of Poonjah according to custom as "Kuttavut Nunjah" which may be called occasional irrigation.

36 The following Statement shews an increase of Rupees 68–6–8 under the head of Lands let on Lease.

Land

2387 Fort St. George 17th. February 1842.

| | | |

to which, by the Board's orders, the indul-
=gence is to be restricted, but the lands to which
I am now alluding do unquestionably belong
to the usual holdings of the Mahajanums
and at all events their transfer to Ryots on
any terms but the payment of "Ryots" teer-
=wah was highly irregular. In one instance
however a quantity of land which the
late Collector had refused to allow the
Mahajanums to hold on any condition
but that of paying full teerwah and
which they had in their possession on
those terms for some time and actually
paid full teerwah for, was made over to
the Ryots at the reduced rate of teerwah.-

39 The circumstances connected
with this Village having been fully laid
before the Board in my letter of the 15th Sep.
=tember 1840, it is only necessary now to state
that I have demanded from the Ryots pay-
=ment of the teerwah which the Nair.
Serishtadar, the Native Officer entrusted
with

with the details of the Settlement in the
season when the irregularities under notice
occurred, stated had been fixed on the lands
transferred to them- Viz "Coody" or "Ryotteerwah
which means, in the most strict and absolute
sense according to the acceptation of the terms
in the District, full teerwah- The result
of the Settlement under these arrangements
was an increase of Rupees 155-7-8, the
difference between "Coody" and "Mahajanum"
teerwah- There was also an increase of Rupees
84-9-8 in consequence of some of the above
lands having in the preceding fusly been
entered in the Accounts in a wrong Class- from
this latter amount the sum of Rupees 20-5-6 is
to be deducted, according to customs as Ashtashaw-
gunm (one eighth share) the dues of Brahmins
on lands cultivated by Soodras- leaving a
total Net Increase of Rupees 219-11-10.-

Jarum pasty or increases from alteration of the classification of lands- Col. 24.-

40.- The total increase under
this head is Rupees 197-12-5 regarding Rup-
=pees 84-9-8, of which explanation has
been given in the foregoing paragraphs.

Of

Of the remainder Rupees 56–8–8, is the result of a transfer of certain lands from an inferior class, in which it was discovered they had for some fusles been entered in a superior class– a further increase of Rupees 56–10–1, was occasioned by the cultivation of lands in Moosery and Landgoody with a description of crop which according to usage renders them liable to the assessment of a superior class.–

41– Under this head there is an increase of Rupees 364–14–8 of this Rupees 155–7–8 have been accounted for in para 39. Of the remainder, Rupees 131–13–3 resulted from lands in which were occupied by non-resident Ryots in fusly 1249 being taken up by resident Ryots in fusly 1250 and being consequently fully assessed– Rupees 40–12–3 is the addition of the difference between Mahajanums & and full teerwah on lands sold by Mahajanums to Ryots– and Rupees 36–4–9, the difference between Paracondy and

Condy justy or increase from the demand of full assessment on lands on which in the preceding fusly indulgences were allowed.– Col: 25

and full teerwah on some lands which resident Ryots had managed to obtain on the indulgent rate of teerwah allowed to non-resident Ryots– The remaining trifling item of Rupees – 8–9, is the increased rate of teerwah on a small spot of land at the foot of the Hills in the Taluk of Volcondapooram which was formerly, according to usage cultivated by the Hill people at a low rate of teerwah, and was in fusly 1250 cultivated by Ryots.–

Increase on lands transferred from the Management of Government Servants to rent– Col: 25.–

42.– The small sum of Rupees 6–12–8 appears as an increase on lands which having in fusly 1249 been managed under the superintendence of the Servants of Government were in fusly 1250 farmed to renters.–

Quit Rent Col: 48.–

43.– Two buildings belonging to the Estate of the late Colonel Lennon having been purchased by Government, as public offices, the demands on account of

of Quitrents to which they were liable
under the orders of Government commun-
=icated in the Extracts from the Proceedings
of the Board of Revenue dated 3 Septem-
=ber 1840. Viz.t Rupees 1130–2–8 was included
in the demand on account of Land Re-
=venue for fusly 1250– and appears in the
Accounts as an item of increase.–

44 The items of increase adverted
to in the foregoing paragraphs amount
to Rupees 11048–4–9 the remaining
amounting to Rupees 1216 3–8–3½ do
not seem to require explanation– The
total amount of increase it will be
Col: 49 observed is Rupees 12321–13–½.–

Decrease Statement N.o 4 45 The items of decrease com-
=prized in Column 8.th of the Comparative
Statement N.o 4 coming under the heads
of Parumpoke– measurement Ashtabagum
or Brahmins dues– and mistakes and
Bungar, amounting altogether to Ru-
Col: 64 pees 8,729–10–4 have already been ex-
=plained in paras. 29, 26, 27, 30 and 39– I will
now

now proceed to offer explanations re-
=garding such of the remaining items* as
seem to call for them.–

*amounting to Rs. 2,434 8 13 10½

Fusly Current Col: 65.– 46.– Under this head amounting
altogether to Rupees 873–8–1½ Rupees
311–1–1 were deducted in consequence of
third crops not having been cultivated
in some gardens and Nunjah lands in
fusly 1250– In the Talook of Woodiur-
=pollium a portion of land on which
in fusly 1249 there was an increased
demand in consequence of its having in
that fusly been newly cultivated with
Sugar cane, in fusly 1250 reverted to the
Poonjah or dry Assessment– hence a re-
=mission of Rupees 10–13–3 became necessary.–

47.– In the Talook of Valconda-
=poorum in consequence of a failure
of water in some tanks at the proper
season, a few portions of land were cultiv-
=vated with an inferior description of
crop to that which was cultivated on
them in the preceding fusly– ascertaining

Vampire Cummee Col: 55.-

A deduction of Rupees 880-2-1 was rendered necessary in consequence of certain lands which in fusly 1249 were cultivated with Plantain Turmaric and other valuable Articles of produce liable to a high assessment being in 1250 otherwise cultivated.-

Valady Cummee Decrease in second crop assessment Col: 69.-

50.- The total decrease under this head is Rupees 14,982-8-10½ of this sum Rupees 7,376-2-7, occurred from a diminution in the cultivation of the Valair or early crop, which is assessed with second crop teerwah, in consequence of a deficiency of water in the river at the proper season. A further deduction of Rupees 4990-14-10 occurred in the Wet talooks in consequence of the non-cultivation of second crops, owing to various reasons- and in the dry talooks there was a decrease under this head of Rupees 2,615-7-5½ making as stated above a total of Rupees 14,982-8-10½.-

Compt. I.R.

Sir

In the Statement appended

51.

Col: 70 Decrease from garden land cultivated as Poonjah-

to para 14 a trifling decrease of Rupees 2-a-6. will be perceived. This was occasioned by a small portion of land which in fusly 1249 was cultivated with garden produce by means of a well belonging to the cultivators neighbour having revated to Poonjah in 1250 in consequence of a refusal of the use of the water by the proprietor of the well.-

Turm Cummee Decrease from alteration of Classification- Col: 72

52 The small sum of Rupees 14-13-8 was deducted on this account inconsequence of certain lands in Torriore and Saulgoody having been discovered to have been entered in the wrong class for some previous fusles.-

Coody teerwah Cummee Decrease from bringing lands from full Assessment to favorable assessment

53 Under this head, Rupees 29-4-9 were deducted from the demand on the lands of one Pommiere which, upon enquiry, were found to have been improperly assessed with full instead of Mahajanum teerwah. This arrangement was sanctioned in the Board's Proceedings of the 5th November 1840.-

In

54. In the talooks of Vol:
-endapooram a class of persons called
"nautars" are, as the Board are aware,
allowed to hold lands on payment of
half the usual amount of Teerwah
one of these persons having fallen into
arrears his lands were attached and full
teerwah was levied from the parties who
cultivated them: The individual in
question having liquidated his arrears,
his land was in fusly 1250 made over
to him at the usual favorable rate
of assessment - hence a deduction of
Rupees 67-8-.

Shave-withered Crops. 55. As explained in paras 7 and 8 of this report some crops in certain Villages in the Coraud and Vitticutty talooks did not arrive at maturity owing to peculiar circumstances the remission allowed on this account was Rupees 837-13-4. being the total amount of remissions for withered crops in fusly 1250 and being Rupees 3929-5-4 less than

Col: 89

than those made in fusly 1249.

Ivaze Cummee 56. The remission under the head of Ivaze Cummee amounts to Rupees 1160-9-0 - and is composed of the following items - Rupees 340-13-6. the difference between the amount for which certain Villages were rented and the full assessment fixed on them. & Rupees 819-11-6. the difference between the actual out-turn of some lands cultivated under the management of Government servants and their full assessment -

Col: 90

57. In regard to lands cultivated under the immediate management of Government Servants, I beg to state that my best endeavours shall be used to procure tenants for them, but I cannot undertake to say that I shall succeed - In my letter of the 12.th July 1841, I promised the Board a report regarding these lands, and I beg now to offer a few remarks upon the subject - The lands managed under aumany are not, with one or two

exceptions

exceptions, the some every year. they are ex-
lands which from a variety of causes the
Meerasidars refuse to cultivate, leaving
the revenue officers to obtain the
Government dues to which they
are liable as they best may if they
cannot be let, and it is frequently
very difficult to procure a tenant, they
must be managed under aumany or
the revenue must be foregone.—

58. The lands in question
are, the Board are aware, in common
with the rest of the wet lands in
the wet Talooks of Trichinopoly con-
-sidered to be Hereditary property
and inalienable from the proprietor
by the revenue servants except by
sale in the event of the Government
demand on them not being paid.—
Under the present system the risk
is entirely on the part of Government—
the Meerasidar has nothing to lose if
he declines taking a puttah, and can resume
the

the occupation of his lands at his conve-
-nience - and it is no wonder that advantage
is occasionally taken of this state of
things - Further it will be obvious to
the Board that persons will not readily
be found to rent Lands so thrown up
by proprietors for the full amount of
assessment - for the cause of the aban-
-donment is, frequently at least, the
prospect of a bad season - and though
a person might be found willing to
undertake the cultivation of the land
for a series of years in hopes of re-imb-
-bursing himself in good years for
the losses of bad ones, he will not of
course be willing to bind himself
to pay full assessment for one year.

I have now endeavoured
59
to lay before the Board the state
of things as they are - a remedy for
the evil in question under the pre-
-sent Revenue regulations does not
occur to me, unless the Board should
think fit to expose the land to sale
at-

at the close of each fusly I am aware of the objections entertained to this measure- but cannot devise any other.

Accounts- 60- The Board are aware that the assessment of Trichinopoly is formed upon several different grounds- which may be comprized in the following items.-

1st. Turm or classification of land with reference to the description of crops grown on it.-

2d. Turms alone.

3d. Different descriptions of Grain.

4th. In some Villages all the lands bear an equal assessment without reference to classification or crops.

5th. Discretionary teerwah that is to say a certain teerwah fixed on a certain portion of land in the gross- without reference to any general standard.-

61- Instead of the lands assessed according to the three last methods

methods being entered in the accounts as they really are- an attempt has been made in the accounts hitherto transmitted to the Board to make it appear that the demand upon them has reference to Turms or classifications- as Turms have not been fixed on the lands in question this method of entry is of course altogether fictitious- the accounts herewith transmitted have therefore been prepared in strict accordance with the Village or actual accounts- the Goshwara and the individual chittahs corresponding with each other.-

In allusion to the State-

62- ment of lands cultivated with Sugar cane I have the satisfaction to state that during the fusly just closed I succeeded in introducing the manufacture of good moist sugar into the District- and that the prices obtained for it were so good that

2405 Fort St. George 17th February 1842.

That Major [illegible] will deliver the enclosed Duty Statements to the several Collectors.

Statements (3) [illegible] of the Board regarding [illegible] Revenue Accounts for the Official Year 1249 and 1250 Fusly.

Detailed

I have &c.

(Signed)

in favor of Fusly 1250 for Rupees 33,126.11.7.

Fort St. George 17th February 1842

Detailed Statements of the Extra sources of revenue will shortly be submitted as usual.

65. Of the Net Settlement of land revenue for fusly 1250 amounting to Rupees 14,68,871-7-2. the sum of Rupees 14,48,031-2-3. were realized within the fusly. and a further sum of Rupees 6,434-3-1. has been collected since its close, leaving a balance at this date of Rupees 14,406-1-10. being 15 as. 8 p. per Cent on the demand. a large proportion of this balance will I fear remain uncollected in consequence of the low price of Grain.

66. The amount of old balances outstanding up to the close of fusly 1249 was Rupees 27,656-4-6 of this sum Rupees 7,925-12-10 were collected during the current fusly. The sanction of Government was granted for the remission of Rupees 6,911-3-3 but previously to the receipt of orders a small sum was collected and the amount actually remitted was Rupees 6,247-1-9. the fact being proclaimed in

Fort St. George 17th February 1842

in the most public manner throughout the District.

67. In concluding this report I must be allowed to bring to the Boards notice the valuable assistance I have derived from my Head Sheristadar Runga Row whose assiduous attention to his duties has given me the greatest satisfaction.

68. Of the conduct of Chella-pah Moodelliar who stands appointed Naib Sheristadar I have frequently stated my opinion and the Board are aware that I consider him to be exceedingly corrupt and faithless and utterly undeserving of my confidence. I suspended him the 6th January 1840 and have not since employed him being utterly averse to the admission of so desire-table a person into my Cutcherry in a capacity in which good example is so ne-cessary the duties of his office have been conducted in an exemplary manner by my Sayer Tahsildar Raghavaindha Rao.

Trichinopoly Collectors Cutcherry 10th September 1841.

Signed A. D. Onslow Coll.r

Order thereon

57-58

Ordered to be sent again in Circulation.

Read the following letter.

59

From the Collr. of Tinnevelly

Submitting an estimate of charges for a Survey Establishment and stating the mode of Measurement he proposes to adopt.

To The Secretary to the Board of Revenue Fort St. George

Sir,

Para 1 In obedience to the Instructions contained in the 1st Para of your letter of the 9th August last, having reference to the more detailed views of the Board as expressed in the 32d Para of their Proceedings of the 2d March 1840, I have the honor to submit for the approval of the Board the accompanying Statement of an Establishment to be entertained in this District for the purpose of introducing an entire and Complete New Survey.

2. The Establishment proposed in this Statement has been estimated on a comparison of the State and extent of the lands at Tinnevelly and the revenue they yield, with those of the ceded Districts, Tanjore and Chingleput, where the actual cost of the Survey and Assessment Establishments has been ascertained from experience. The Board will perceive that the average charge per

per square Mile is less by more than one half than in the two latter Districts, and the Percentage on the Collections — less than that of the Ceded Districts, which is lower than the other two.—

3. The rates at which it is — proposed to pay the Pymash &c maish and Tarundars are also shewn and compared with the rates of the other Districts mentioned — It will be seen they are fixed on the most moderate scale.—

4. The Establishment proposed for the Boozoor it has been calculated — will be required for three years, but it — will not be necessary at first to entertain it to its full extent — according to the progress of the work so will the Establishment be increased, and the average for the entire period having been taken, provision is made — for the employment should it be found necessary, of extra servants at any one time — on proportion to

the number employed at first.—

5. The total estimated expence for the proper completion of this important — undertaking is Rupees 119564 and it may — be expected to be divided on the following years— thus—

1/2 of	Fusly 1251	17000 — 0 — 0
	Fusly 1252	50000 — 0 — 0
	Fusly 1253	35000 — 0 — 0
1/2 of	Fusly 1254	17564 — 0 — 0

6. With regard to the standard to be employed as the basis of the — Measurement, to which my attention is particularly directed by the 3rd Para of your letter, Three modes present — themselves— First that by Cawnies — 2d. by Cotahs and Chains, 3d. by Acres—

7. The only advantages of adopting the first are the assimilating the accounts of this District to those of Madura and Coimbatore, the two — Neighbouring Districts, with which the people of this District are — partially acquainted and the facility of

One puttah Cotah Makes 1 Cawny 22 Gontahs and 330 Square feet-

of making the conversion of Cotahs into Cawnies- The advantages of the 2d are that the Cotah for Nunjah and the Chain for Poonjah are the Standards in use in the District and consequently familiar to its Inhabitants.

8. After much consideration and consultation with those qualified to form a correct judgment I am inclined to the adoption of the 3d mode of measurement viz. by Acres for the following reasons.

If any change be made in the present measurement, it is better that it should be at once to that of Acres, the Standard adopted in most Districts- To maintain the present Standards of Cotahs and Chains would continue a scale of measurement peculiar to Tinnevelly and perpetuate a measure different for Nunjah and Poonjah lands- Another objection to the adopting of Cotahs for Nunjah is that the rod with which the lands were formerly measured varied in length in almost every Talook

from 19 feet to 21, and thus the Cotah of each Talook is different from another- The best mode of regulating this inequality of Measurement is the introduction of an entirely New Standard.

I therefore propose to measure the lands both Nunjah and Poonjah with a rod of 33 Feet 40 of which Square make an Acre- The Meerasdars were at first desirous that the old measures should be used, but they are now satisfied that their lands should be measured by Acres and as the Board in their Proceedings above quoted have recorded their decision in favor of the Acre being taken as the standard of Measurement for the wet as well as the dry lands, and the Government, though not disapproving of this decision, have considered it expedient that it should be left to the Collector to determine whether this or the old Standard should be adopted, I anticipate the confirmation by both authorities of any preference of the

Measurement

Fort St. George 17th February 1842

Measurement by Acre.-

10- As it is not my object at present to solicit any particular directions for my guidance from the Board, I need merely state, with reference to the remarks in the 2. Para of your letter, that the rules there pointed out with such modifications as local peculiarities may demand will be adhered to in my future proceedings.-

11 I have to request the indulgence of the Board for not having before this date addressed them on this subject- I was unwilling to do so till I had gained some little experience in the District, and had become acquainted with the influential land holders in it, and had ascertained their wishes on the mode of conducting this important undertaking- & I am speedily favored with the sanction of Government for the entertained of the Establishment, the delay will not be felt, as I shall be able to commence operations as soon as the crops of the present year are off the ground

Fort St. George 17th February 1842

previous to which the measurement of the land could not have been attempted without detriment to the Current Revenue and to the interests of the Ryots. In the meantime I am proceeding with such preliminary arrangements and preparations as appear requisite and I shall be fully prepared by the middle of February to carry into effect the instructions I may receive in reply to this communication- I have to solicit them at the earliest possible period.-

I am &c

Read the following letter.

61

From the Collr of Coimbatore — Forwarding Copy of Letters from the Collr of Malabar and British Resident of Travancore & Cochin — regarding the quality of Tobacco supplied from Coimbatore with his remarks.

To The Secretary to the
Board of Revenue
Fort St. George

Sir,

In prosecution of my determination expressed in the concluding Para of my letter to the Board dated 16th November last. I forwarded samples of Tobacco to the Collector of Malabar, and to the British Resident of Travancore and Cochin, and I have now the honor to transmit copy of letters received from them dated 18th and 22d January respectively the opinion therein expressed is directly conflicting and I cannot come to the conclusion as regards Malabar, and the Board may probably do the same either that there were no grounds of complaint in the first instance against the previous consignment of Tobacco, or that the cause is kept out of sight which in reality is not the quality of the article, but the Monopoly price which Mr. Conolly proposed to reduce in his letter to the Board dated 6th October last.

Para 9

2. I am merely left to remark that the sample of Tobacco objected to by the Collector of Malabar is precisely the same as forwarded to the Board by Tappal consisting of 1-2-3-4 and Kalbundy in the following proportion.

† Vide my letter to the Board 16th Nov. 1841.

Description of the article	No. of Bundles
1st Sort	4
2d Sort	4
3d Sort	4
4th Sort	4

Collr

Fort St. George 17th February 1842

No 1

To The Principal Collector of
Coimbatore

Sir,

The Mahazurnamah which accompanied your letter of the 17th November last does not specify the quantity of each sort in the 20 Bundles sent as samples of the consignment dispatched ex cattle Railway No 19. It merely states that the sample is composed of the 1st 2nd 3rd and 4th Sorts and Kalbundy, and that the consignment sent is not of an inferior quality to the sample.

I have had the sample sorted and examined at two principal stations, Calicut and Tellicherry, and beg to forward the result. Result of the sorting at the Mayor Office of the said 20 Bundles by four licenced Venders of Calicut Talook.

1st Sort	None
2nd Sort	2 Bundles
3d Sort	7 Bundles 2 Bundles very small
4th Sort	11 D. 5 D. 3 D.

Result

Fort St. George 17th February 1842

2. Result of the sorting of 10 Bundles of the above sample by the Tobacco Lascar & Tenders.—

1st	Sort	None
2.	Sort	3 Bundles
3.	Sort	5 Do.
4th	Sort	2 Do.

Vide also accompanying Copy of a letter from H. Brennan dated the 14th December 1841

The Tobacco which is now being sold in the District is of a more seasoned quality than this sample. Tobacco like the sample will not be saleable after there is a fair portion of the 1st Sort in it. The 4th Sort must be rejected.

The following is the result of the sorting at Paulghaut of the consignment which accompanied the Rubdary No. 19.—

	Quality as per Rubdary	Quality as per sorting at Paulghaut
1st Sort	3040	276
2d Sort	760	1232
3d Sort	2874	3804
4th Sort	3500	1809
unsaleable		60

From the Collr of Canara

I have the honor to acknowledge your letter of the 17.th Ultimo calling upon me to submit an early report on the arrangement requisite for carrying out the intentions of the Honorable Court of Directors by withdrawing all Government interference in the management of Religious Institutions in this District.

In reply I beg to state

2.

for the information of the Board the causes which have operated, and still operate against the early transmission of the report on the subject.

3. The information required on this subject from the Talook authorities is so extensive that it

Print.e Coll.r

Ordered

Fort St. George 17th February 1842

it has not yet been furnished from all the Talooks. Strict orders have, however, been sent for the immediate transmission of those Statements not yet received.

4. From the Statement herewith sent it will be perceived that there are no less than 3689 Pagodas and Mosques in this District the funds of which have been under the management of the Circar. The claimants to the management of most of these Institutions, are numerous, and the decision as to whose claim is preferable, will necessarily occupy considerable time. As my establishment, whose services are necessary for the determination of all disputes of this kind is now employed in the preparation of the Jummabundy accounts, I fear it will be several months before I shall be able to submit the report required. I beg however to assure the Board that no unnecessary delay shall occur in its transmission.

Read Abstract Statement shewing the number of Persons charged, convicted, acquitted & forwarded to the Criminal Judge and the number of appeals preferred and disposed of under the provisions of Regulation IX of 1822 and VIII of 1828 from 1st July to 31st December last.-

65-66

Order thereon.

Ordered to lie over until the receipt of the Returns from other districts when an abstract of the whole will be prepared and submitted for the orders of Government.-

Read

S.G.B.

Fort St. George 17th February 1842.

Read the following Letter.

To

The Acting Secretary to the Board of Revenue Fort St. George.

Sir,

67

From the Coll.r of Madras Reporting that with reference to the present orders of Govt. the Arrack and Toddy shopkeepers within Madras &c. have been required to take means by application to the Police Authorities for Compliance with the requisitions of Police Regulation 4. stating that it is not considered now proper to recommend the discontinuance of the few remaining Cuan Toddy shops, and observing that the total loss of grass revenue in consequence of the procedings of the Police in September and the refusal to allow the opening anew of any arrack or Toddy shops is Rupees 1,42,6-10 &.-

Para 1. I have the honor to acknowledge the receipt, yesterday of an Extract from the Proceedings of the Board of Revenue under date the 24th Ultimo, with a Copy of an Extract from the Minutes of Consultation, and of the letters therein recorded, relative to the closing of the Arrack and Toddy Shops within the limits of the Supreme Court in September last and the continuance of the Cuan Toddy shops in Madras.-

2 Government having directed that Licenses required by Police Regulation 4 be issued, and that the provisions of that Regulation be strictly enforced as long as it may remain unrepealed, obey Leave to report that as the Regulation vests in "the Superintendent of Police and one or more of the Magistrates of the Rotation or Police Officers" alone, the power to regulate and issue "Licenses to Venders of Spirituous and other Intoxicating Liquors

Fort St. George 17th February 1842.

"Liquors," and confers no authority on the Collector either in his Revenue Capacity or as a Justice of the Peace to enforce any part of its provisions. I have now intimated to the Arrack and Toddy Shopkeepers within Madras, that they must take means by application to the Police authorities for compliance with the requisitions of the Regulation in question.-

3 With regard to the question of the expediency of continuing the few remaining Enam Toddy Shops, I cannot say that I consider their continuance indispensable; but, as the loss of revenue is not now great from this cause, as the Enams were conferred for past services and with a view to advantages which at different times have actually been derived from their establishment, as the services of one or more of the Enamdars might still be found desirable, and as the withdrawal of their privileges would be an unpopular act amongst their class I am not prepared to recommend at present the discontinuance of

Fort St. George 17th February 1842.

these Enams, particularly when it is borne in mind that our Madras Toddy Collections are made under rules which have Custom and a tacit understanding chiefly for their basis.-

4 I take this opportunity of stating that on resuming charge of this office I did not consider it proper to enforce the payment of any revenue which was uncollected in consequence of the closing of the shops as the question of remission had previously been submitted by the Acting Collector. The total loss of gross revenue in consequence of the proceedings of the Police in September and the orders of Government under which the Officiating Superintendent of Police declined to allow the opening newly of any Arrack or Toddy shops is up to this date Rupees 14230 — 10 — 8

To the Prin. Coll. of Salem &c.

To The Principal Collector of
Salem.

I am directed by the
Board of Revenue to acknowledge the
receipt of the Statement of smuggled
goods recommended for confiscation
for the Month of October last & to
communicate to you the following
observations in regard to the seizure

No. 1 of Palmira Jagery weighing 1 Candy
& 11 Maunds valued at Rupees 27 — 2 — —

It appears that the
article was seized while exposed for sale
at the Market of Darampoory in con-
sequence of the quantity in possession
of the owners exceeding that specified
in the Rowannahs in their possession —
This seizure of Stuff goods is at variance
with the provision of clause 11 Section
XVII Regulation I of 1812 in which it is
declared that "no duty is to be demanded

For 1841 in Fort
to 3d Jan. 1842

Fort St. George 17th February 1842.

on goods exposed for sale in Coorg or places situated within the limits of a Pykey; it being to be presumed that such goods have been charged the duty on transit. You will therefore be pleased to return the article to the owner or the value thereof if already sold. The Board request you will issue such instructions to your Sayer Servants as will prevent in future the recurrence of similar illegal seizures and they are of opinion that if the vigilance of the certain servants is properly exerted in superintending the transit and importation of Gruff goods on the road and to the Chaukies a stop will be put to their being smuggled into Markets.

3 I am also directed to take this opportunity to request in reference to your Statements of goods released on payment of Extra duty for the Months of October and November

6th Dec. 1841 despatched
5th Jan. 1842

Fort St. George 17th February 1842.

last that circumstances under which the seizure was made in each case may be explained in the Columns of Remarks.

Revenue Board Office
