From the Asst. Collr. of Ganjam

Sir,

I beg to state for the information of the Board that on the 17th. March 1792, an allowance of Rupees 1000 - - per Mensem was granted to Gopeneid Bhoonjoo son of Veerama Bhoonjoo residing in the Village of Hingeleecutt, and to his dependants, of whom one Bramaravaroo was in the receipt of 15 Rupees per Month, and after his death his son Deenabundoo received the same allowance up to the date of his death, Viz. the 8th. November last. He has left a Brother named Dasaradhee Bhramaravaroo aged 8 years and other four dependants. This family posses no other means of livelihood than the allowance granted consequently

Resolution thereon. The Board observe that on the recommendation of the Sub Collector in charge of Ganjam dated 15th. August 1837 the pension enjoyed by one Bramaravasuntoo was under the Authority of Government dated 6th. December of that Year continued to his son Denabund Bramaravara Bury. The Board wish to know whether this is the person whose death is now reported. If not, the Acting Collector will be pleased to state when and under what Authority the person of 15 Rupees was continued to Deenabundoo and give also the ages of the several Members of the family.

Sir,
Para.1

To, E.b. Lovell Esq.re
A.t Secretary to the Board of Revenue.

In reply to your letter of the 22d.

Fort St. George 26th. February 1844.

upon the Causes of the inefficiency of the Village Moonsiffs-

22d. January, requiring me to state whether the jurisdiction of Village Moonsiffs has in my estimation afforded satisfaction to the people and been productive of advantage, I have the honor to forward a Memorandum of the operations of those Officers in this District during the Years 1842 and 1843.

2. It appears from this that there are only 3 Villages in which Causes have been tried by Village Moonsiffs. Being as yet unacquainted with the District, I am unable to state why so few controversies have been brought before the Village Officers but from the enquiries I have made since the receipt of your letter, I think that the people are not disposed to look upon them as fit persons to decide their disputes. The Village Head is their equal. His praying a few Rupees more must to Government does not invest him with the qualifications necessary for deciding what they consider a very important Cause and on the other hand he feels himself incompetent to distribute justice, unwilling to venture upon the untried difficulties of a Law Suit and to incur the ill will

illwill of a neighbour by deciding against him many of them are too lazy to act and some few are incompetent, and as they are not compelled to act they will not take the trouble of doing so.—

3. It has been suggested to me by several persons whom I have consulted on the subject, that it is requisite that some emolu: ments should be attached to the Office, in order that the people may be led to look upon the Moonsiff as an employe of Government. The effect would certainly be that of giving him some consideration among his fellows. but emolu: ments should not be bestowed on Officers who do nothing to earn them. I think it would be more advisable in the first instance to subject them to a small fine for neglect of duty: and thus to compel them to carry into effect the objects of Government throughout the Country. The infliction of a fine upon a Village Head who refuses or omits to try a cause brought before him will not appear un: reasonable when the injurious tendency of his neg: lect of duty is considered. For the dispute is either left rankling in the minds of the parties, tending to

to dissension and disunion among the Villagers or it compels the aggrieved party to undergo the loss of time and money inseparable from a resort to the regular tribunals.—

4. It is observed in this District that contending parties are more ready to submit their Cause to the decision of a man from another Village than to one of their own neighbours, who has in most Cases a bias towards one or the other and has perhaps heard the Cause prejudged I think that when a neighbouring Moonsiff has been selected by mutual consent, the parties ought to have the privelege of referring their Case to him.

5. It is my intention during the Summabundy to make further enquires and to Cause some of the Village Moonsiffs to examine and decide Causes in my presence It is necessary to shew them that they are mistaken in supposing [illegible] that an unlettered man is incompetent to make a full enquiry and an accurate decision on a matter to which evidence of the best description can be adduced They require also to be shewn that the examin: nation of Witnesses is not necessarily tedious and perplexing and that the difficulty of carrying their deci: sions into effect is merely imaginary.

6. From these remarks it will be obvious that I consider that ignorance and want of education are the Chief impediments to the beneficial operation of a system, which appears to me to be calculated to increase the welfare and happiness of the people.

3- On reference to Statement No 1 it will be observed that the quantity of Salt sold in Fusly 1252 in the Pondrace A/D. 1842-43. and Innoogoodoo Cotairs for inland and home consumption, amounted to 3116 Mg 335 M 0 S and the Collections to Rupees 327 2 67 P. 15 - - The Collections of Fusly 1251 A/D 1841-42 are inclusive of the proceeds of a small quantity of smuggled Salt as shewn in the Margin, which being taken into account make the Net increase for Fusly 1252 in A/D. 1842-43 the quantity and Collections amount to 615 Mg 390 M 1 S and Rupees 64 0 6 79 P respectively above those of the preceding Fusly:—

4- In the Pondrace Cotaur there was an increase in the sale of manufactured Salt for home consumption to the extent of 25 Mg 325 M 0 S Valued

Valued at Rupees 2710 - 5 - 0. There was likewise an increase in the quantity of Spontaneous Salt sold for inland consumption of 538 Mg 120 M 0 S and of Rupees 56521 - 8 - 0 P in the Collection on that account - This large increase is attributable to an abundant supply of Spontaneous Salt of a superior quality having been gathered during Fusly A/D. 1840-41 and 1251 A/D. 1841-42 and the great number of Lumbadies who have resorted to this District in consequence of there being a sufficiency of water and forage for their cattle - The total increase in the Sales for inland and Home consumption at the Pondrace Cotaur amounted to 564 Mg 45 M 0 S and Rupees 59231 - 13 - 0 P

5- In the Innoogoodoo Cotaur there was also an increase in the Sales for Inland and Home consumption to the extent in the former of 5 Mg 125 M 0 S valued at Rupees 557 - 13 - 0 and in the latter of 47 Mg 200 M 0 S and

It will be observed on reference to the Marginal Statement that the Collections under this head in fusly 1252 A.D. 1842-43 are greater than those of any in the preceding 27 years noted in the Margin.—

6. In conformity to the instructions conveyed in Mr. Secretary Elliots letter of the 22d June 1807, I have the honor to forward herewith 2 Statements the one shewing the quantity and Value of Salt produced and sold at Colaur, and the other exhibiting the quantity and Value of Salt sold for Inland Consumption and

and the different places to which the article was exported.—

7. The Marginal statement shews a comparison between the manufactured and spontaneous salt produced in fusly A.D. 1251 1241-42 and 1252 1842-43.—

8. The Manufacture of artificial salt in the Pondaca Colaur was discontinued on the 1st February 1841 in consequence of the large stocks of that article in Store as already reported to the Board—

The swamp salt produced in fuslies 1250 A.D. 1840-41 and 1251 1841-42 was more than sufficient to meet the demand, consequently the production in fusly 1252 A.D. 1842-43 exhibited a small increase of 5-65 mds. The spontaneous salt in the swamps has suffered much from the Gale which

It is satisfactory to observe that the Collections shew an increase of Rupees 3034-1-1 in consequence of the large quantity of these articles imported by Merchants - If from this the amount of decrease in Bezoara &c other Divisions amounting to Rupees 170-0-9½ be deducted, the Net increase on those articles amounted to Rupees 2864--3½.

15. In the Collection of duty on Ganjah in the year under review there was an increase of Rupees 137-8-3½ and an increase of Rupees 428-1-7 under the head of Oils, in consequence of the great demand for these articles in the Town of Masulipatam &c - 16. There was likewise an increase of Rupees 459-1-10½ in the Collection of duties on Tamarinds, owing to there having been a large importation in Juggiahpett and other places by Dumbadies &c Merchants from the Nizams' Country - In Lamp Oil seed there was an increase of Rupees 219-13-9 in consequence of the increased production of that article - The collection of duty on Cumblies likewise shews an increase of Rupees 248-7-11. in consequence of the great demand

demand for them in Packing up commodities.——

17. The Collection of duty on dying flowers exhibits an increase of Rupees 202-10-1 in consequence of large purchases made by Merchants in the Guntoor District for dying Cloths. In Paddy and other articles there was an increase also of Rupees 140-8-8. The total increase in the Sayer Collections amounted to Rupees 6407-5-9½.——

18. The decrease under the Head of Painted Goods and white Piece Goods arises from their diminished exportation to Bushire and Muscat. The decrease in Betel is owing to the removal of the families of Troops from Ellore and that on Ghee and Gingely Seed is owing the former to the Mortality among Cattle, and the latter to the scanty produce of these articles and limited importation. The decrease in Iron and Timber is attributable, the former to its non importation to Tallaroor in the Rajahmundry District, and the latter to there being no

no demand. There was no exportation of Cotton or Thread to the Nizams Dominions in the Fasly under review.——

19. The total decrease in the Collection of duties on the above articles amounted to Rupees 1811-7-2½ which being deducted from the increase, leaves the Net increase at Rupees 4595-14-7.——

Rupees 21,705-7-4 be deducted as exhibited in the margin, there remains a Net revenue of Rupees 75,645-10-6 shewing an increase of Rupees 7,118-2-8- above that of the preceding fasly.——

21. Statement No 3 will shew a decrease of Rupees 286-12-3 in the Revenue derived from the Sea Customs during the Fasly under review.——

22. The Principal decrease is in export duties, Viz. Rupees 2,317-11——1— received

occasioned by a diminished exportation of Painted Goods by Moguls to Bushire &c and of snuff, Ghee, Gingely Oil, Coriander Seed, &c by Merchants to different places. There was an increase of Rupees 1771—13—9 in the duties collected on blue cloths exported by the Commissariat Department, Cadjans, Rides, Toys &c by Merchants, making the Net decrease Rupees 545—13—4. In imports there is an increase of Rupees 989—1—7 on account of Cocoanuts, Liquors, Metals, &c imported at this port to a large extent from Ceylon &c and a decrease of Rupees 664—2—9 in Silk Cloths, Stationery, Sugar, Pepper, and sundry other Articles, the Net increase being Rupees 324—14—10—

23. The Collection of Hire for accommodation Boat, shews a decrease of Rupees 65—13—9 in consequence of the limited number of passengers who have disembarked during the year by the Vessels.

24. From the Gross decrease of Rupees 3047—11—9 the increase 2760—15—10 being

being deducted left a Net decrease of Rupees 286—12—3—

25. The total Sea Custom Collections including Arrears and Extra items within the year amounted to Rupees 6960—4—6 being Rupees 544—5—6 less than those of the preceding fusly.

33. In conformity to the instructions conveyed in Mr Secretary Elliots letter under date the 24th October 1838 I have the honor to submit herewith 2 statements Marked A and B explanatory of the Causes of increase and decrease in the receipts under the several Heads of Revenue.

34. On reference to Cols Nos 7 and 9 of Statement A it will be observed that of the

the Demand of Rupees 5,07,680-9-10 including extra items the sum of Rupees 69,275-5-9 at 8 as was Collected within the fusly leaving a balance of Rupees 9,405-4-1 at 8. Of this the sum of Rupees 695-9-5 at 8 on account of Salt, Sayer and Sundry small farms and licences was collected in full, leaving a balance of Rupees 2,450-10-8 at 8 on account of Abkarry and Moturpha. Of this, the sum of Rupees 1,291-11-4 at 8 on account of Abkarry, and Rupees 1085-10-6 on account of Moturpha has subsequently been realized, thus leaving a balance still outstanding of Rupees 10-12-10 on the former, and Rupees 134-5-4 at 8 on the latter making a total of Rupees 145-1-10 at 8

	Rupees at 8

Sayer	10072-5-9
Abkarry	6363-8-9
Sundry small farms and Licences	1-12-4
Moturpha	1108-5-8
	19853-6-2

33. On reference to Statement B the Board will observe that the arrears due up to the Close of fusly 1257 / A.D. 1846/47 amounted to Rupees 19,855-6-2. The particulars of which are shewn in the Margin.

36. Enclosure No 1 in Statement B will shew that of the balances noticed in the

the Margin of the foregoing Para, those due on account of Salt and Sundry small farms and Licences have been realized in full, and Rupees 4552-5-2 at 8 have been collected on account of fusly 1251 / A.D. 1841/42 of the balance of Sayer which amounted to Rupees 10572-5-9 at 8.

37. The Sayer balance is thus reduced to Rupees 6018-11-7 at 8. The remarks appended to each item will afford the necessary explanation as to the cause of the non-realization of this balance and it does not therefore appear necessary to add any comments at present except on No 2, in which I would recommend that a remission should be made under the following circumstances.

38. Toorlapaty Sobiah rented the Sayer Revenue of Weyore, Chullapully and Inuntapully Divisions for fusly 1241 / A.D. 1831/32, for the total amount of Rupees 13,765-12-8 of which the sum of Rupees 11647-15-8 was paid by him but having failed to make good the remainder the property belonging to him and his brother who stood security for him, both of them living together and professing a joint property, has been

Sold

Sold, but the sale proceeds, which Amounted
at 8
to Rupees 150—13—3 only were not suffe-
-cient to discharge the whole of the arrears
which is Rupees 1140—3—3 in consequence
of a depression in the value of the pro-
-perty which was originally offered as se-
-curity—

39 During the last 10 Years en-
quiries, have been made as to whether the
renter and his surety have become possessed
of any other property which could be made
available for the balance, and it has been
ascertained that there is none—The renter
having been employed as a Pleader in the
late Auxiliary Court, and Principal
Sudr Ameens Court, the Government Vakeel
has been called upon to state whether any,
and what part of the renters emoluments
could be applied for the discharge of the
balance—From his reply, it appears that
the income from the Fees in the suits for
prosecuting which he has been retained,
did not amount on an average to 12
Rupees per Month during the last 20
Months which is hardly sufficient for

for the support of himself and
family—

40 Under the foregoing cir-
-cumstances I am led to think that
the recovery of the balance, is utterly
hopeless, and therefore beg to recom-
-mend that it should be written off from
the public Accounts—

Sanction re-
-quested for
writing off Rs.
1140—3—3.

41 From Enclosure No. 2 of
the same Statement, it will be seen that
of the arrears of Rupees 4263—13—8. on
account of Abkary Revenue a sum
at 8
of Rupees 23—0—11 was Collected upto
the end of December 1843, leaving a balance
still due being Rupees 4240—12—9—

42 The remarks appended on
each item will sufficiently explain the
Causes of the balances still remaining
due;

from me unnecessary except in the
case of Narriah Apparow the Ellore

for fusly 1247 / AD 1837/38 for the sum of Rupees
11,000 of which he paid only Rupees 7803 10 1 leaving the remainder a balance.
No property belonging to the renter was
forthcoming, that belonging to the surety,
personal and real, was sold by Order of
the Court and Government, the former
for the debt to Birjee Mohundoss and
the latter for arrears of Peishcush
of which the Board are fully
aware, consequently there appears
no prospect at present of the
balance being recovered from

either, and I accordingly beg to
recommend that it should be re-
mitted.

Sanction requested for writing off Rupees 3194-5-11

43 It will also be observed
on referring to Enclosure No 3 of
the same Statement that there was
an arrear of Rupees 406-3-8 due
at the close of fusly 1252 / AD 1842/43 of which
Rupees 8-9-0 were collected up to
the end of December 1843, leaving a
balance of Rupees 397-10-8 which
will also be realized at an early

Ordered to be sent again in Circulation.

Read the following letters—

To E. C. Lovell Esqre
Acting Secy. to the Board of Revenue
Fort St. George.

Sir,

11

From the Collr. of Bellary. Forwarding a Statement of arrears due to Nasirully Shaw requesting sanction for the payment of the same & to continue in future the Pensions as usual.

With reference to the correspondence noted in the Margin, I have the honor to acquaint you for the information of the Board of Revenue that in consequence of a dispute in the Family regarding the division amongst themselves of the Pension of Company's Rupees 23—11—2. sanctioned by Government under date the 7th January 1837 in the name of Nasirully Shaw of the Goollem Taluk of this District the Pension was not drawn from November 1842, and the Parties having subsequently appeared before me with their complaints, and agreed to abide by the decision of a Punchayet to be chosen by them from among their own Caste, they were referred to the Amildar with instructions to get the Punchayet named by the Parties, and have the matter adjusted in his presence. But previous to this being done, both Parties appeared before the Amildar and

To Nasirully Shaw	6	13	9
" Kasim beg	5	9	10
" Moorad beg	5	9	10
" Ashub ally shaw	5	9	9
C. Rupees	23	11	2

2. The other Share holders have agreed to allow to Nasirully Shaw (in whose name the Pension is always disbursed from my Treasury under the sanction above quoted) the sum of One and a quarter Rupee more than their respective Saloks & Cutcherry station to draw the money Yrs. Yrs.-

3. The arrears due on account of the above Pension which were not charged in my monthly accounts from the period the dispute arose is from 1st November 1842 to 31st January 1844 at Company's Rupees 23-11-2, per Mensem and amounting to Company's Rs. 355-7-6 as per enclosed Statement. I have the honor therefore to request, that the Special Sanction of Government may be obtained for me to pay the above sum to Nasirully Shaw continuing the Pension in future as usual.-

Resolution thereon.

(11-12)

Under the above explanation the Board of Revenue beg to recommend that the Collector of Bellary may receive the sanction of Government for disbursing the arrears of Pension referred to from 1st November 1842 to 31st January 1816 amounting at the rate of Rupees 23—11—2 per mensem to Rupees 355—7—6, and for continuing the Pension in future. The Board observe that the Pension is in lieu of a resumed Jaghire and granted to Nasirully for the support of himself and the other members of his family.

Sir,

Para 1. I have the honor to acquaint you for the information of the Board of Revenue, that the Yeomudar named Maroopshaw of Adwany Taloork in this District who was in the receipt of a Pension of Rupees 5—13—6 per mensem died on the 12th July 1813, which was duly reported to the Civil Auditor and payment of his Pension stopped from that date.—

2. The Mother of the deceased enjoyed during her life time an annual fee of 1 Dub per House in the Soosa of Adwany and its suburbs under a Perwannah dated 5th Jeleawd of Heyjree 1,188 Corresponding with A.D. 1773 granted by the then ruling Power Rajah Dawce Chund. On the Cession of the Country to the British Government Colonel Munro appears in March 1802 to have directed this fee to be discontinued and in lieu thereof granted in the Name of her Son (the deceased Maroopshaw) a monthly allowance from the Circar of 5—13—6. which the latter continued to receive. It will be observed, that this Mans Name has been entered in the List of Yeomnidars marked ‡ submitted to the Board by a former Collector (Mr. Chaplin) in 1814 and previously sanctioned by Government on the 27th August 1813. He accordingly enjoyed the allowance up to the time of his death.—

The three Sons of the deceased appeared before me and preferred their claim to the continuance of the allowance for the support of the Family. stating that they have no other means of livelihood except the bounty of Government, and that it would be agreeable to all the Members of the family if it were renewed in the name of Hoosainkhan their Brother.-

5. Under these circumstances and as there appears to be no Pension or other income for the support of the family. I have the honor to recommend that the Monthly allowance of S. Rs. 13-4 so long enjoyed by the deceased Maroophoan may be renewed in the name of his 2nd. Son Hoosain Khan from the date of death as requested by the claimants.-

6. It is however necessary to remark that under the Head of "Terms of Yemiah" in the Certificate it is stated "Manual" terms not being specified in the Summud.-

of Vellore and proposing that these limits & with them the limits of the Military farm be accertained & accurately defined.—

Commissary General on the subject of a complaint of Mr. Turner the Civil & Military Renter of that District for the past July that certain Arrack Shops had been Established within the proper limits of his farm by the Military Abkary Renter of Vellore.—

2. It has not been shewn that the Military Renter established Shops in the past July at any place beyond what had been hitherto considered the extent of his farm, but it is stated that in former years a common interest an good understanding existed between the Renters of the two farms which prevented any question being raised on the subject. It is stipulated in the Military Abkary Renter's Cowle that his farm should extend as far as four Miles in accordance with the Minutes of Consultation of Government under date 11th June 1822 by which it is ordered that "the manufacture and sale of Spirituous and fermented liquors at the 3 General Military "Bazars" (of which Vellore is one) "and within "four Miles around them will be conducted by the "Commissariat Officers stationed there" but it is seen

Fort St. George 26th February 1814.

seen from the correspondence that doubts exist as to what are the exact Military limits.—

3. The Board would propose therefore that these limits and with them the limits of the Military Farm should now be ascertained and accurately defined for the purpose of preventing all future question on the subject and as a preliminary step towards a decision being passed on the present claims of the late Civil Abkarry Renter to compensation for loss which he alleges he has sustained from the Military Renter having been suffered to establish shops within the limits of his contract.—

An action brought for the recovery of Rs. 731-14, as. value of green Indigo leaves and profit arising therefrom.

Plaintiff states that the 3d Defendant took from him (Plaintiff) on Varum tenure (i.e. land lord and tenant enjoying ½ share) for two years, Viz. Vecaury (1839) and Sarvaree (1840) 1 13/16 of Coolies of Varum land South of the road leading to Seray pettah east of the Fort Sketch and Tippanjammen Pagoda and

Fort St. George 26th February 1844

north of the Muselmens' street; and east of the road leading to the water Pundal attached to the Salem Cusbah. That the said 3d Defendant obtained a Pottah and executed a Moochilkah on the 11th Vyasy (May) of Vecaury (1839) stipulating therein to deliver over to Plaintiff the entire produce of the land on receiving the value of the Cultivator's share; that about 20 days after, on 3d Defendant preparing to cultivate the land, the 2d Defendant prevented his doing so. That in Vecaury (1839) the land would have yielded 400 Candies Pars of green indigo leave, had it been sown with indigo seeds and had not 2d Defendant prevented 3d Defendant from so doing, that if the above 400 Pars of Indigo be reduced to powder they would produce 14 Maunds value of which at Madras is 612-8, Rs as That labourers hire and costs of cultivation would have amounted to 371-9 Rs as that the value of 400 Pars of green indigo leaves, is 250 — Rupees, half of which would fall to Plaintiff; that Plaintiffs profit on this for one year — would have been 240 Rupees 15 Annas. total as — 15 and that consequently the profit for Rs as the two years would have been 731-14, that Plaintiff twice advised the 1st Defendant that the

Fort St. George 26th. February 1844

that Government credited to the Mootta-
dars the sums collected from Poromboke
lands and of the Fort from Fusly 1239 (1829)
to 1244 (1834) during which period the Mootah
was under attachment that when Mr. Walton
engaged to cultivate some of the lands attache
to the Fort and failed to pay Cundayam Plain-
tiff sued him in No. 126 of 1836 and the
Court gave it in his (Plaintiffs) favor that
is not mentioned in the Ayacutes (general divi-
sion) Accounts made up in Fusly 1211 (1801)
that the ground did not belong to the Moota-
dars that 1st. Defendant in order to avoid
having to pay the loss incurred has filed
his present Answer.—

1st. Defendant in his Rejoinder
states that the Chief and only foundation
on which the Mattadar rests (his claim
appears to be the letter written by the Board
of Revenue to Government dated the 8th. No-
vember 1824, that to this 1st. Defendant's
answer, that it (said letter) does not bear
on the question at issue. That the former
Collector Mr. Cockburn, considering that
Government were entitled to all Poromboke
lands not included in the Accounts on which

permanent

Fort St. George 26th. February 1844

permanent assessment was fixed proceeded to
collect thereon; a proceeding at variance with
the instructions of Government, and they
(Government) made known that Mootta-
dars had a right to make such profit as
they could from such Poromboke lands, par-
ticularly specifying the beds of tanks and
the land in old Forts. That he (1st. Defendant)
is prepared to allow the Mootadars of Salem
all the intended benefit of those orders of
Government, that the Poromboke lands ad-
verted to by Government are evidently those
which are not appropriated to any special
purpose and available for cultivation, for
it will not be presumed that Government
(particularly that of 1824) would by a general
and sweeping order make over to any Mattadar
all lands within the boundary of his Mootah
denominated Poromboke without knowing
or caring what individual interests were
therein comprised. To give those orders that in-
terpretation, which it must do if Plaintiff
is to carry out his intentions would make
Village sites liable. Ryots Backyard
but would be taxed, even the streets of the

Village

Fort St. George 26th. February 1844

Village and the roads in the District might be ploughed with a Moottah for they are all Parumpokoo.—

That this being the interpretation (i.e. in 1st. Defendants' opinion) of the order of Government referred to by the Moottadar 1st. Defendant considers himself justified in laying it before the Court as far as the general term Parumpokoo is concerned.— That the old forts mentioned by Government are not those of most ancient date, but those which are now dilapidated and deserted, cultivation of which would not interfere with any one's rights, that in such situations 1st. Defendant is prepared to allow the Moottadar's claim; but that he reserves for Government the power of resumption when they deem fit. That such being (1st. Defendant) views, he denies that the land in question is Parumpokoo within the meaning thereof, and that the Fort of Salem is an old Fort, that the ground now in dispute was deducted from the accounts as part and portion of the Salem Fort, which is always has been, an inhabited fort and as such

Fort St. George 26th. February 1844.

has been made over by the late Principal Collector to the inhabitants as building sites.—

That Mr. Walton having allowed the Court to be misled from want of information in his case, does not militate against the right of Government. Mr. Walton should have applied to Government for the ground.

That in conclusion as the ground in question was appropriated for the use of the Town of Salem before Moottahs were formed and having at the time of formation been excluded from the Accounts, the Plaintiff has no power over those lands to turn them from their original purpose.—

1st. Defendant since submitting the above rejoinder having discovered in his records an Extract from the proceedings of the Board of Revenue dated 20th. July 1835 which bears materially on the point at issue requests the Court to admit this his supplemental rejoinder.—

That the said Extract has the following—

"In the Statement ordered to be published for the information of persons intending to purchase estates after the permanent settlement was formed, the lands to be conveyed

=sers were to make themselves acquainte

That with reference to the abo
1st. Defendant submits that the different
classes of land as therein entered are know

1st. Cultivated lands as Sagoabady.
2d. Land cultivated at former period

3d. Waste lands V.ca V.a as Annad

That the term Parumpoke
is never used except for lands supposed
incapable of cultivation and which were
at the time of the Mootah Settlem.t
deducted as such from the Account.

The

That the ground now claimed
by Plaintiff is entered in the Accounts as
Parumpoke and in consequence deducted.
1st. Defendant at some length proceeds
to give the opinion of the Board of Revenue
and Government and his (1st. Defendants)
own on the cases of two other Mootadars
(See document for 1st. Defendant No. 5)
but which the Court considers unnecessary
to enter here at length.

The Court is of opinion that
2d. and 3d. Defendants ought not to have been
included in this suit as such, the 2d. De
=fendant because he acted by 1st. Defendants
orders whose orders he is bound to obey; and
the 3d. Defendant because Plaintiff cannot
sue both him and 1st. Defendant also, and
as he (Plaintiff) sues 1st. Defendant for
the loss 3d. Defendant is of course exempted.

Fourteen Witnesses were ex=
=amined on behalf of Plaintiff and six
for 1st. Defendant. Plaintiff filed five
Documents severally marked A.B.C.D.E.

The first two are copies of
decrees in the late Zillah Court of Salem
and the third a decree in appeal from the
late Zillah Court of Salem by the

Provincial

Fort St. George 26th. February 1844

Provincial Court Southern Devision D is the Summudee Milkeat Istmerar granted by Government to the 1st. Moottadar of Salem E is an Extract from the Board of Revenue to the Chief Secretary to Government dated 8th. November 1824 - 1st. Defendant filed Eight documents severally numbered from Nos. 1 to 8.-

No. 1 are the Ayacuttas Accounts of the year Doormooty (1801)

No. 5 Extract from the Proceedings of the Board of Revenue dated 20th. July 1835 together with Extract from the Minutes of Consultation dated 7th. August 1835

No. 6 Copy of a Statement Shewing the extent of land cultivated and uncultivated Vca Vca in the Cusbah of Salem

The remaining documents do not require noticing any further.-

After a careful perusal of the pleadings and consideration of the various documents advanced in this suit it appears to the Court that the point at issue is, whether the land in question now that the Fort walls have been levelled belongs to the Moottahdar of Salem or to Government

Plaintiff

Fort St. George 26th. February 1844

Plaintiffs document E has the plain and forcible words "that any revenue "which a Moottahdar might be able to derive "from the beds of tanks or the ground within "the walls of Forts was clearly his right "The Government sanctioned this opinion "by their orders on the Board's Proceedings Vca

On referring to Plaintiffs document D Para 4. there is no mention whatever made of Forts or lands within those Forts - the only lands mentioned as exempt are "Lockeray lands and of all other alienated "lands paying a small quit rent; and of all "lands and rusoomes heretofore appropriated "to the support of Police Establishments.-

1st. Defendants document No. 1 states that there are so many Gyantahs of land in the Salem Cusbah described as Parumpoke and free from kist: amongst them is Salem Fort.-

1st. Defendant urges in his rejoinder that Plaintiffs document E does not bear on the question at issue. In this opinion the Court cannot concur, nor in that of 1st. Defendant where he declares that Plaintiff is allowed to hold the land in question as Parumpokoo on his (Plaintiffs) interpretation

interpretation thereof, roads. Streets and Ryots backyards might be ap=propriated thereunder.—

After well weighing 1st. Defendants objections his docu=ment No. 1 and those of Plaintiff Viz. E. D. and his arguments found thereon the Court comes to the following conclusion that as long as the Salem Fort was a Fort, the land within its walls was the property of Government, but when it ceased to be one, that then it came under the 3d. head of land mentioned in 1st. Defendants docu=ment No. 6. i. e. no longer Gover=ment land, but under the Mosttahdar 1st. Defendant asserts that it is still a Fort, but surely a Fort without walls is no Fort. What constitutes a Fort is

in the general sense are its walls; — take those walls away and it is no longer one. Let Government rebuild those walls and then — the land within them again be=comes Government property. For — the mere demolishing of the walls does not deprive Government of the right of rebuilding them, should exigencies of the State require such a measure, but as the land was held exempt from rent only by its being a Fort, it of course became liable to — rent on its becoming no Fort. The very day therefore that Government le=velled its walls they lost all power over it; its site became waste land such as proprietors alone can give away as laid down in

Section

Section XV. Regulation XXIX of 1802 The former Principal Collectors order (1st. Defendants document No. 4) thereof for permission to build on the said ground (after the walls had been levelled) the Court decrees illegal.—

To the supposed consequences raised by 1st. Defendant should Plaintiff carry his point, the Court would remark that long as the roads streets &c. in each Mosttah are kept as such the Mosttahdar can have no right over them, but Should the roads, Streets or backyards, nay even sites be wholly unfrequented and deserted: doubtless the Mosttadar might plow them up and cultivate them - they would in every plain sense of the word be waste, yet susceptible of cultivation which Mosttadars in their Turns are urged to cultivate, this reasoning in the opinion

the Court applies equally to buildings that may have been erected before the walls were levelled and were standing on that occasion. That with such buildings Plaintiff cannot interfere but that those subsequently erected are liable to be taxed by him.

1st. Defendant seems to think that Government at its will can grant land in defiance of a decree of the Court, and under that impression doubtless asserts that Mr. Walton ought to have applied to Government for the land, but such reasoning, such advice, no honest Government would listen to for a moment, and even supposing Government had granted that individual the land; the Courts in this country could and would have ejected him from the same, on legal proof being given that Government had no right to give it away.

As Plaintiffs document D enumerates positively all lands exempt from the power of the Mosttahdar and yet 1st. Defendants document No. 1 enumerates many spots of Ground as Pennimbokes, and yet free from rent, it would appear at 1st. sight that the two documents contradicted each other — though

though emanating from the same authority.
But it appears to the Court that the appa-
rent discrepancy is satisfactorily explained
and done away with by concluding that
the lands mentioned in document **D** were
to remain exempt under all circumstances
but not those mentioned in Document No. 1
which might in the course of time come under the
Mootahdar - as for instance the case in question -

1st. Defendant in his rejoinder
adverting to Plaintiff's Document **I** says
"Old forts" but the abstract of proceedings in
question simply says "Ground within the
walls of Forts" there is no mention of "old"
and the "Ground within the walls" without
any reservation of any kind is declared to
be the right of Mootahdars for the pur-
pose of deriving revenue. This opinion of
the Revenue Board standing by itself
would not of course be taken, as, conclusive
evidence in favour of Plaintiff but it is greatly
strengthened, if not authorized, established,
by what follows "that Government sanc-
tioned this opinion by their order" "you"
Taking therefore this extract

it

in conjunction with the Summed **D** the decrees of
the Salem Court and Southern Provincial
Court (**A B C**) and the fact of the Salem Fort
being no longer in existence; it forms in the opi-
nion of this Court, a series of proofs in favour
of Plaintiff's claim to the Ground not to be
Light thrown on one side.

Before closing this part of the
question the Court would remark upon the great
stress laid by the 1st. Defendant on Plaintiff —
suing for the land as Perumboke instead of
Annady Bunger, arguing therefore that as
Plaintiff sues for the land as Perumboke
which (as Plaintiff asserts) as "never used
except for land supposed incapable of Cultiva-
tion" he (Plaintiff) can have no right to —
the land which by renting, he shews to be
capable of cultivation and is therefore —
"Annady Bunger". The terms "Perumboke" and
"Annady Bunger" are in the opinion of the Court
are conventional terms, capable of bearing more
interpretations than one: and that therefore
using the one for the other in establishing
a claim cannot be considered as a bar to
the claim. This assertion is borne out by
1st. Defendants Document (No. 1) where

the

the land in question and many other spots of Ground capable of high cultivation are denominated Parumbake. 1st. Defendants argument therefore on this point of necessity falls to the Ground. 1st. Defendant also in his rejoinder argues to the following effect - is it likely Government would have done this or that. The only reply that can be made to this is, that it is not for the Court to take into consideration what Government might have done, or what their intentions were, but what they actually have done, and what they have recorded of their intentions on this or any other subject.

The Court having thus fully given its reasons for considering Plaintiff entitled to rent out the land in question it only remains to decide the question of damages.

Out of the 4 witnesses examined for Plaintiff regarding the quantity of indigo leaves that the Ground in question would have produced if cultivated in favorable season and the value thereof, the 3rd. states it at the lowest Viz. 862½ Candies at Rupees 226 Ans 9. the 4th at the highest rate

rate Viz. 443 Candies or 276 Rupees 14 Ans. being in excess of what Plaintiff states it would produce.

The 3rd. witness for Plaintiff is his indigo maistry and served him for the last 20 years, and the 4th. his Goomastah in the Indigo factory and served for 4 years and that from their holding these situations they are of opinion that the land would have produced so much if cultivated.

Plaintiffs 1st. Witness who was formerly Plaintiffs partner in Indigo transactions, and now rents an Indigo factory from him estimates the produce at some thing less than stated by his 3rd. witness.

1st. Defendants 2d. Witness on this point states that he heard from a Candy man that it would produce only so much a year Viz. 8½ Candies.

His 3rd. witness that it would on his opinion produce only 54 Candies, because he (3rd. witness) has carried leaves as manure to his own (3rd. witness) land.

His 4th. witness that his (4th. witness) land produces so much per Goomtah and therefore concludes that the land in question would only produce as much.

1st. Defendant

Fort St. George 26th February 1844.

1st Defendant does not bring evidence to disprove the cost of cultivating and manufacturing; the price at Madras, and bandy hire. Plaintiffs' statement on that head therefore is taken for granted. To give any weight to 1st Defendant's 2nd and 3rd witnesses as to the capability of the land would be absurd, and to reject the evidence of Plaintiffs witness on the subject on the single testimony of his (1st Defendant's 4th witness, would be manifestly unjust. The land belonging to 1st Defendants's 4th witness may be inferior to the land in question he (4th witness) may not manage it as well yet on the other hand Plaintiffs' 3rd and 4th witnesses are experienced men and although the 1st witness was formerly his partner and is still connected with him and the 3rd and 4th witnesses are his servants yet these circumstances cannot be supposed altogether to nullify their testimony.

After due consideration the Court determines to take the testimony of Plaintiffs' 3rd witness as to what the land would have produced being the lowest. This reduces Plaintiffs claims

No. 2.

Draft of an appeal proposed to be fi
in the Civil Court of Salem against the de
sion of the Acting Subordinate Judge of
Salem in O. S. No. 203 of 1841 by the Acting
Principal Collector, appellant, on be
half of J. D. Gleig Esqr. Principal
Collector.—

1. The original suit was for
loss sustained by the appellant preventing
a person cultivating land which was alle
ged to belong to respondent, and which the
pellant holds to be the property of Gover
ment. His reasons for appeal are as follow
But before proceeding to give these it may
be necessary to state for the information of
the Court the mode in which the permane
Settlement was made—after the
Survey had been completed Statements
were published for the information of
persons intending to purchase Mootahs
and the lands to be sold to the Pu
chaser of each Mootah were therein
specified, and from this schedule it was
that purchasers were to make themselves ac
quainted with the extent of land to which
they became entitled, the lands were specifie
in the aforesaid schedule under 3 distinct
heads

Fort St. George 26th. February 1844.

heads—1st. Lands cultivated in fusly 1211 or
entered in the Native accounts as sugwady—
2nd. Land Cultivated in former periods known
as Podagul, and 3rdly Waste Lands that
were never cultivated but capable of Cultivation,
the Revenue term for which is Anady Bunger—
Porumpoke lands, or lands supposed in-
capable of Cultivation, were not entered
in the above schedule, and therefore were not a
part in the bargain between the Government
and the purchaser, but reserved for whatever
purposes the Government might see fit. That
such was the case appears on the schedule
of which extract No. 6 was forwarded to the
subordinate Judge in which no Perumpoke
lands are entered as those lands which
were to be conveyed in the sale and purchase
of the Mootah.—

2. In making defence to the
O. S. the chief point urged by the appellant
was that the ground claimed by the Respond
was that the ground claimed by the Respond
ent, not being entered in the schedule at
the time of sale having been elapsed in
the Survey account as Perumpoke, did not
become the property of the purchaser—but further it is
alienated as may be seen by the Ayacut account of the
year Doonmate to another purpose, Viz. for the use of
the Fort and Town of Salem. The term in which the
ground is entered in these accounts is
the first being the Fort and the latter the place of

Fort St. George 26th February 1844.

place or ground for parade belonging to the
and Town of Salem.

3. The Subordinate Judge in his De
sets this most important point for consideration de
aside, and declares that the terms Annady Bun
and Porumpoke are conventional, as such they are
known to Revenue menor in Revenue accounts
are perfectly distinct terms - it is not for the Court
consider in what state land entered as Porumpoke
time of survey may now be, it is sufficient to Kno
that lands at that time entered in account as Porump
were deducted from the account of lands sold to the
Moodahdar on the Establishment of Mootahs, and b
the time of sale. Had the Subordinate Court been mo
cognizant of Revenue affairs no discrepancies would
have appeared between the accounts and the Istimarar
sumed as stated by the Subordinate Judge this
document is not calculated to shew the state and
extent of the Mootah lands in detail, it is a docume
furnished after agreement had been entered into
on accounts previously made up and to know the
-fore the rights it conveys, reference must be had to
the accounts on which it was formed.

4. But the appellant further
affirms that the land in question having been
exempted from revenue and alienated to a
particular purpose prior to the formation of
Mootahs, comes under the provision of Sectio
XII Regulation XXV of 1802 where it is
ruled that the lands as specified

therein

therein or any other description of exempt
-ed land described under the general
term of Lakeraj shall not be resumed
nor any assessment fixed by any Pro
-prietor without the consent of
Government has been previously ob
-tained for that purpose.

5. The Sudr Adalut in their
Circular order of the 18th of August 1827
declare "the words Mulgoozaree land or
land paying revenue to Government have
been declared by this Court to signify
all lands not Lakheraj, and Mulgoozaree
and Lakeraj lands are frequently used
in the Regulations as comprising between
them all lands whatever: the word La.
-kheraj is composed of 2 persian words
which means without Peeroah, under
which denomination the land in dispute
undoubtedly comes.

6. The Subordinate Court seems
to have been very much guided in its
decision by an Extract from a letter
from the Board of Revenue to the Se
-cretary to Government dated 8th of
November

713v

November 1824, entered by the Respondent marked E, in which it is stated that any revenue which the Mootahdar might be able to derive from the beds of Tanks the ground within the walls of [illegible] was clearly his right; and that the Government by the orders sanctioned the opinion. The appellant affirms that the order does not bear on the question at issue in the present dispute; the appellant regrets that the subordinate Court could not concur in his opinion; but as no reasons were given for this nonconcurrence he can only reiterate that general opinion

such as there entered cannot effect lands deducted from the Mootah at the time of sale and appropriated to other purposes besides those orders given in 1824 were cancelled by the orders of Government dated the 7th August 1838 which direct in reply to the Proceedings of the Board of Revenue dated 20th July of the same year, that the same principle which had guided their decision on the occasion specified in that document might be applied to all other similar cases in which the right of Government to such lands

lands had been disputed
The subject of dispute
as shown in the docu
=ment No 5 was a

the orders of Govern
=ment thereon passed

7. The conclusion that the
Court arrives at, that as long as
the same fort was a fort the lands
within its walls were the property
of Government but when it ceased
to be one that then it came
under the third head of land
mentioned in the appellants docu

Government land will strike the
Civil Court as a doctrine some
thing new. the turn was fixed
at the time of survey and no
authority except the Ruling power
can change its date, having been
withheld from the profession

of the Mootahdar of the time of sale: no act of the Government in doing what it will of its own except a Voluntary re-quishment can give the Mootah-dar a right which he never posessed. The Fort is still a Fort but a small portion of its walls one side has been levelled upon the sanc-tion and expence of Govern-ment for the purpose of increasing the salubrity of the town; and even if the whole were removed the right of the Government and the people to the site of Salem would not be affected. That the idea entertained by the Subordinate Gov^t that

Fort St. George, 20th February 184[illegible]

that ground held by Government within Mootahs on becoming unnecessary for the purpose to which it was originally applied becomes the property of the Mootahdar is erroneous will be best exemplified by the Salem Mootahdar himself the Respondent in the present appeal, who at this present moment holds land, and on which land his own house is situated, being within his Mootah and for which revenue to Government is paid; this ground was originally deducted on ac-count of the commercial Establishment when that was abolished the Government granted it on the usual revenue terms; it was never claimed ^ nor does it belong to the Mootahdar. The appellant does not consider the decisions entered by the Respondent calculated to influ-ence the Court in the present enquiry, if the Court had the same evidence as he now produces, and the parties the same knowledge of existing circum-stances, a different result might have obtained. it appears in Mr. Bird's decision that he had no evidence whether the

Fort St. George, 20th February 1844.

the lands in dispute were deducted from the assets on which the permanent Bariz was settled and his supposition that the Government did not intend reserve to itself land, so stated at the time was erroneous, as shown in the documents now entered in the list as well as other of much earlier date. Mr. Walton is without information and the power of an efficient defence therefore the decision passed by the Court in his case is not worthy of consideration. The appellant will further prove by the Proceedings of the Board of Revenue dated 20th July 1840 and 23rd December 1841 that the Mootahdar has no claim to lands reserved by Government and deducted from the assets on which the permanent settlement was formed and held by them without any demand of rent.

8- The appellant would beg to draw the attention of the Court to the nature of damages awarded, it does not appear that any documents were

Fort St. George, 20th February, 1844.

were entered in the Court shewing the nature of agreement between the Respondent and his intended Cultivator, but as is stated that he was to pay a warrum share, the damage even if claimable from appellant ought to have been the Value of half the produce as removed from the ground, the Indigo leaves bearing a marketable value and capable of Estimation, whereas the Court in its decision has included the manufacturers profits on the probable outturn from the Indigo derived therefrom on sale at Madras with this latter amount the appellant has nothing to do; as well might a party in England claiming a loss of crop Estimate the value thereof after being baked into bread.

9- Under the above explanation the appellant submits to the Civil Court the decision of the Subordinate Judge is opposed to the documentary evidence produced and prays that it may be reversed and costs given.

Sir

With reference to your letter, I have the honor to state for the Board's information that I have selected the persons noted in the Margin as Trustees for the management of the Trinamalay Pagoda, with whom the Board will observe are associated, two of the Gorkulls of the said Pagoda. They have unanimously agreed to the arrangement, and expressed their willingness in writing, both before the Tahsildar and myself, to undertake the trust. I am satisfied of

Informing the appointment of the new Trustees to the Trinamalay Pagoda and requesting instructions for the same.

as to their efficiency and capability in managing the affairs of the Pagoda, so as to the satisfaction of all classes of the people.

2. The Poligar of Vatavalum applied also to the Tahsildar and myself to appoint him as an exclusive Trustee, independent of any other person; but his interference in the affairs of the Pagoda does not appear agreeable to the generality of the inhabitants of the District; he being personally unable to attend to the business, will create disputes regarding the extent of respect due to the different visitors, and in other matters connected with the Pagoda, I have therefore rejected his Offer.

3. As the selection above mentioned seems to be in accordance with the wishes of the whole Establishment of the Pagoda, as well as of the Community in general, I request the Board will be pleased to approve of my selection, and favor me with their early sanction

In consequence however of certain arrangements in regard to the disposition of Pearls for the prevention of smuggling, which have been introduced towards the end of the Fasly, the Collector anticipates an improvement hereafter. From the table annexed to Para 18. it would indeed appear that the average gain paying duty, (especially of that brought from Chingleput) in the months following the introduction of the measures alluded to by the Collector is considerably in excess of the average of that on which duty was realized during the months which preceded it.——

Extract from the Minutes of Consultation under date the 16th February 1844.-

Read the following letter from the Acting Secretary to the Board of Revenue.

Submitting a letter from the Collector of Masulipatam reporting the arrangements he has concerted for the settlement of the private debts due by Rajah Narian Apparow late Zemindar of Nedadavole with the Board's sentiments on the subject - (Here enter 4th Jany 1844 No 9)

The Most Noble the Governor in Council is pleased to sanction the Arrangements reported and recommended in the foregoing letter for the adjustment of the liabilities of the late Zemindar of Nedadavole, it will however be distinctly

distinctly understood and be explained to the parties concerned that the subdivision of that portion of the Estate which is to be restored to Rajah of Narrieh apparow will be held answerable for the Peishcush which may be apportioned on it, in event of the Zemindar failing to pay the Government Demand, notwithstanding the temporary assignment to his private Creditors.-

or 2,274-.-3 below the preceding year. at the end of September the balance stood at Rupees 3361-14-2.-

The only subject calling for remark is the scheme originating with the Principal Collector in 1839 of allowing a drawback on Marine Salt when arriving at a certain direct distance in the interior. The Boards arguments are conclusive in the matter. Such a plan could alone be expedient, if the internal communications admitted of such easy transit as to cover by sales at lower rates and consequent increased consumption, the immediate loss to the Revenue by the Drawback allowed on the Monopoly price. These objects are at present unattainable.-

Proceedings.- Requesting the attention of the Acg Collr of Ganjam to certain remuneration to be granted to the Village Officers in his District with a view to his submitting at an early date full particulars on the subject.-

1. The Board of Revenue in their Proceedings of the 19th December 1842, with an Extract from which the Collector of Ganjam was furnished, observed that it might be better for the Collector to submit the general outline of the plan for the remuneration of the Village Officers of that District without waiting for

the result of the further enquiry which he considered necessary regarding the extent and value of existing Enams available to meet a portion of the Charge - and in a letter to the Collector dated 9th March 1843 they intimated their wish that he would select some Estate of moderate extent to enable him to report on the arrangements which he would propose for it to enable the Board to gain some insight into the detail of the proposed measure as applied on a small scale.- The period which has since elapsed has been sufficient the Board would hope to enable the authorities in Ganjam to obtain the requisite information, they therefore resolve to request the attention of the Acting Collector to the communication in the Margin with a view to his submitting at an early date full particulars on the subject - It being desirable to keep distinct the consideration of the best means of improving the efficiency of the Village Police from the means of providing for the remunerations

respect to what may be most advisable in order to ensure this end being already on the records of the Collectors Office, the object at present is to recall attention to them especially as the Board are desirous of submitting to Government for the information of the Honorable the Court of Directors full information regarding the state of the Village Police in the Northern Circars - They therefore request that the Acting Collectors Report may be, in itself as complete as possible, embracing a review of so much as can be ascertained of the past state of the Village functionaries in Ganjam, with a report on their present circumstances and proposals for improving their efficiency - In doing this it is desirable that all the points adverted to

in

in the Circular dated 18th July 1831 should be particularly noticed. The instructions therein conveyed were accurately to ascertain what emoluments in Land, grain fees or otherwise were possessed by the Village functionaries at the time of the permanent Settlement, the object being to restore such as might be found to have been since taken from them, and to devise measures for protecting them in the free enjoyment of their rights for the future, the basis of the enquiry being the accounts of the period at which the permanent Assessment was fixed on the valuation of the Committe of Circuit.-

To. The Secretary to the
Board of Revenue
Fort St. George

Sir,

9

From J. A. Anstruther Esqr
Actg Collr of Ganjam } Para 1

In preparing to act upon the orders of Government for the immediate withdrawal

withdrawal of all Military Guards that can be spared, I have been led to consider as fully as I can where with reference to security and cheapness of guarding the Treasury can best be placed.-

2 If the Military Guard be removed from this place, I with my Establishment and the Officer commanding the Sappers and Miners with his detachment are here which gives the place the appearance of being well cared for but as it is not impossible that the Detachment and the Officer may both leave the immediate neighbourhood and as I must leave it, it will be entirely denuded of all, but one Police Officer and the newly contemplated guard of 40 Peons.-

3 I will not say that these 40 Peons are unable to protect the Treasury but it is evident that the Treasury would be more secure at Berhampoor than in Chettrapoor when so deserted.- In January 1816 Mr. Spottiswoode removed the Cutcherry and Treasury from Ganjam on account of its unhealthiness to Munsoorcotta; in December of the same

same year, he removed the Cutcherry again from Munsoorcotta which proved unhealthy to Berhampoor, where it remained till 1835 when Mr Stevenson recommended Chatterpoor chiefly on account of its central position, its being a Government Village in a Government Talooka and a healthy place.-

5 For the security of the Treasury there can be no question that Berhampoor is preferable to Chatterpoor, and I venture to express the opinion I have formed that as a central position it is equally advantageously situated if not more so being at the junction of the Roads to Chicacole Ganjam and Russellcondah or Goomsoor.

6 In size, importance, and trade it is far superior to Chatterpoor where supplies even are not to be had, and where there is no proper accommodation for the native servants. I believe Berhampoor is a healthy place enough. there are neither complaints nor fears on that score. If the wishes or comfort of individuals are

consulted

consulted I unite with my whole Cutcherry in desiring the change and the great amount of fever that has prevailed at Chatterpoor of late induces me to think that as a permanent residence Berhampore is the healthier of the two.-

7- The keeping the Treasury at the station of a Regiment unites the greatest security with the least scattering of the Troops. a Military Guard might then probably be placed over the Treasury without any of the inconveniences contemplated by the Government order. which were perhaps not the employment of the Troops on Revenue duty so much as their removal to a distance from Head Quarters for that duty.-

8. Should however, the employment of the Military to Guard the Treasury be considered objectionable even when at the Head Quarters of the Regiment still a much smaller number of armed Peons would suffice to guard a Treasury in a Town

Town where there is a Regiment than one
in an outlaying Village like Chettrapoor-

9 The objection to the propos-
-ed change that the expence of the building
of the Cutcherry at Chettrapore will be thrown
away may be answered by stating that the
Cutcherry will still be available at the
Collector's annual town, and if it were
lost altogether the value of the additional
security of the Government Money and
the actual saving by the smaller num-
-ber of armed Peons required to replace
the Military Guards if the Treasury be
removed to Berhampoor would repay that
and the cost of establishing a new Treas-
at Berhampore or fitting up the old one

10 Mr Stevenson's remarked
on the in-security of the building at
Berhampore were correct, but it should
have been added, that there was one
apartment

apartment built of brick and tiled in perfect
order and quite fit for a place of Money-
which it is still-

11 The Zemindary of Mohery in
which Berhampore is situated is so largely
in arrears of Peishcush that it must come under
attachment and I expect that it will eventually
with the consent of the Zemindar come into the
hands of Government- This would obviate one
main objection stated by Mr Stevenson-

12 I hope that the recent orders
of Government and the paramount necessity of
considering the security and economy of the
Government Money, added to the fact of Chettra-
-poor having lately become less healthy than
formerly, and the other considerations above
detailed will excuse my forming so soon after
joining this District, an opinion contrary to
that of Mr Stevenson for whose opinions I have
very great respect-

Resolution thereon. The Board are of opinion that sufficient reasons have not been shewn by Mr Anstruther in favor of his proposal that Berhampore should be made his principal station instead of Chettrapoor where buildings have been erected for the accommodation of his Establishment. Chettrapoor had been the usual residence of the Collector for some time before the Cutcherry and Treasury, at the recommendation of Mr Stevenson were built there, and the Board are therefore unable to give their support at present to Mr Anstruther's proposal to remove his Cutcherry to Berhampore.—

Fort St. George

Sir,

(13)

From the Acting Collector of Ganjam 31.

Submitting the annual accounts of the Hawalee Talooks in the District of Ganjam for Fusly 1252.

I have the honor to submit herewith the annual accounts of the Settlement of the land Revenue of the Hawalee Talooks of this District for Fusly 1252.

2nd The favorable rains of May and June induced the Ryots to commence cultivation, but scarcity of rain in July injured the rice fields where not irrigated. Rain fell well in August, and cultivation recommenced but there was again a very injurious drought in September which diminished the outturn of the crops. The cheapness of the grain of arracan has driven away much of the trade which relieved this District of its chief produce. In consequence prices have fallen even below those of Fusly 1251. as is shewn in the subjoined Table.

This Establishment is absolutely required for the purpose of watching the different Salt-farms to prevent the smuggling of Salt during the season of manufacture.

The Increase is owing Chiefly to the necessity for returning the manufacture of Salt at Manarcoddy Estuary during the current Fusly.

6th In Goomsoor an Increase of Rupees 254-12-6 occurred in 153 Khond hamlets assessed at Rupees 1938-7-" of which Rupees 1119-"-5 was collected within the Fasly- Those Khonds are improving their dry cultivation and are buying the rice, they enter the Villages in the plains to dispose of the products of the Hills- Turmeric &c. and in some instances take subrents the terms which they punctually fulfil- They are losing their timidity and it is hoped they will eventually largely increase cultivation- These Khonds and the Sowrahs being wild races are encouraged to rent their own Villages among themselves in order that the actual profits of Civilization and extended cultivation may go to them instead of to strangers from which much good may be expected.

7th The great fall in the price of grain made the renters slow to discharge their rents and to incur fresh ones- The Acting principal assistant with difficulty settled some rents which in Fasly 1250 stood at Rupees 18559-10-10. at Rupees 9527-2-9. shewing a decrease of Rupees 9032-8-1- most of the other rents were taken on the terms of the previous Fasly.

8th In Palatalagum from similar causes a decrease of Rupees 712-2-5 occurred but in Wadadah and Itchapoor there was no

The existence of so large a balance outstanding is solely attributable to the remarkable fall in the price of Grain and also to the total cessation of demand for it and to the diminished exportation by sea much grain remains unsold but should an increased demand arise much of the balance may yet be recovered and until this be ascertained I purpose to defer reporting particularly on these arrears.

16- With reference to the 28th Para of the Board's Proceedings on subject of the survey in this District I beg to state that the whole of the Talook of Itchapoor and Wadadah and Poobbacondah all summary Villages with the exception of the Agraharams and there have been surveyed, Goonsoor and Soorodah being wild and waste, it was thought advisable to suspend the survey for a while. In Palatalagum heavy rain having lately fallen the survey was postponed for the last four Months owing to the inconvenience caused by the water. The Establishment is now measuring the Agraharams of Ponnias and Mokasal Villages in the Poobbacondah Talook.

Proceedings Para 1. The whole of the lands in the Guntoor district being now under the immediate management of the Collector, the opportunity is peculiarly favorably for obtaining information respecting the existing state of the Village Police throughout the Province. In 1833 the Board received a report on the subject of the Village functionaries with various other particulars relating to the Heads of Villages. Since that period it is probable that changes have taken place which render a review of the existing Village Police necessary, and the Board will be glad to receive from Mr. Cotton a full report on the subject, with his opinion as to the best means of reviving the efficiency of the Village Police.

Requesting the Collr. of Guntoor to furnish a detailed report respecting the existing state of the Village Police throughout his district.

Mem. Mr. Collr. of Guntoor 8th. July 1833

2 Mr. Blackburne, in 1833 attached much importance to making the

Fort St. George 29th. February 1844.

the office of Village Moonsiff "an object of eligibility to the inhabitants" and the necessity of adequately remunerating all Village officers has been admitted on various occasions. — Amongst these officers are obviously included the Village Watchers under whatever denomination.

The Board are desirous of

3 ascertaining in how many Villages there are Village Moonsiffs, whether, as was the case in 1833, any of these are not Heads of Villages, what may be the amount of remuneration allotted to them generally, and the nature of it as well as whether any of their emoluments are separate from those derived by them as Heads of Villages in cases where they are such. The Law requires the union in all cases of the office of Heads of Villages and Village Moonsiffs in the same persons, and prescribes the manner in which in certain circumstances a selection shall be made, to this the Collector will give his attention.

The Board would wish for

4 detailed information respecting the Village Watchers

Fort St. George 29th February 1844.

Watchers, both as to their numbers and emoluments, together with any suggestions for increasing the efficiency of this useful class of public servants.— It is observed that their Monthly payment was stated to be from 2 to 3 Rupees from the Renter or Pyemeindar as the case might be in Villages where no free lands were appropriated to them, but it is not known whether this was determined on any established principal as is usual in the case of Meras or whether the amount of this payment depended on the goodwill or caprice of those who made it.—

5. The Collector in submitting the information now called for is requested to forward separate Statements distinguishing the Village Monsiffs and their emoluments however derived, and the Village Watchers with their fixed emoluments whether in land or money or grain as received by them from either the Government or the Ryot, independently of voluntary and fluctuating payments made to them by the inhabitants

Fort St. George 29th February 1844.—

inhabitants for special services.—

6 In proposing any plan for general amendment the Collector will be pleased to exhibit the present available sources for remuneration to the Village Police, and the additional expence which such a plan would involve.— As the information now requested is intended to enable the Board to comply with orders from Government consequent on a requisition from the Honorable the Court of Directors for information respecting the state of the Village Police in the Northern Circars, the Board request that the Collector's report may exhibit the whole state of the case as it affects his District past and present at one view, and that the statements to accompany it may be in themselves complete.

Ordered that a copy of the foregoing proceedings be transmitted to the Collector of Guntoor.—

From the Collr. of Nellore } Sir,

Reporting on the loss of prices to the Ryots in Fasly 1253 and proposing that remission be granted to them at 20 and 25 per Cent on the dry Rock. = ment of the Principal and Sub Divisions, and at 12 per Cent on the Shaggary Assessment of the Principal Division.—

1. The circumstances of the present season as regard the price of grain are such as to oblige me to bring the subject under the consideration of the Board with the view of some substantial relief being afforded to the Ryots in the settlement of the current year.— In Para 12 of my Jumabundy Report on Fasly 1252 I pointed out the distress which the low state of prices during that and the preceding year had occasioned to the Ryots, and I then stated that unless there should be some amendment in this respect, some relief in the present year would be absolutely called for, so far from amendment, matters have become worse, prices are as low as ever with a certainty of a further fall on the grain produce of the Current year coming into the market.— Ryots in good circumstances may bear up for one, or two seasons against losses by prices but not for a succession of years, and even this only where the increase of produce is in some degree commensurate with the fall of prices. The Board may feel assured that I would not have brought the subject under their consideration were it not a measure indispensable to the well being of the Ryots and to the integrity of the future

Fort St. George 29th February 1844

future revenue of the District and it is desirable if the Board and Government should be induced to accede to the extension of relief, that their order should be received before the commencement of the settlement of the current year - that it may be exhibited in the Ryots Puttahs as the only effectual means of its reaching them to its full extent.-

2 The Board are aware that the commutation price of wet grain in this District is 20 Rupees per Pootty for both fine and coarse paddy although the price of the latter is usually from 2 to 4 Rupees per Pootty less than the former. The commutation price for dry grain is 30 Rupees per Pootty excepting in those Villages settled on Mr. Fraser's tarrums, where it is only 9 Madras Pagodas or 28 Rupees. - The principal dry grains are of 3 descriptions, Vizt. Jonna, Natchany and Varega.- These comprize with the exception of about 1/8th the whole dry grain cultivation in this District.-

3. The following have been the prices of the wet and 3 principal dry grains since fasly 1245. - I beg to submit as also a Calcherry Statement of the price of the 5 principal grains in the month of December last.

Aglance

Fort St. George 29th. February 1844. —

4 Aglance at the foregoing Statements will shew that the prices of the last 3 years are not of mere ordinary fluctuations. — It will be observed that those of the wet grains up to fusly 1250 kept steady and did not vary from the commutation or price more than what may ordinarily be expected. — The low prices of fusly 1251 entailed a loss on the Ryot of about 22½ per % in the Principal Division, and a little more than 16 per % in the Sub Division. — In the following year the loss in the Principal Division was still greater, and in the Current year prices are as they were last year, and will most assuredly not fall lower on this year's grain coming into the market. — It is difficult even now to find purchasers for fine Paddy at 12, and Coarse Paddy at 10 Rupees per Pootty. —

5 As regards the dry grain, the depression of prices and loss is still greater. — It will be seen that in one year only, since fusly 1245, Jonna reached a price exceeding the commutation price, and that was in the Sub Division, owing to particular causes explained in the Jonna Gundy report of that year. The average price of Jonna, Natcheny and Varega for the 9 years from fusly 1245 to fusly 1253 may be seen in the following Statement, in which is exhibited also the loss sustained by the Ryots by prices during the same period

I think the Board and Government must be satisfied that no body of Ryots be they ever so substantial can bear up against such continued losses year after year as the foregoing Statements of prices exhibit.— It is idle to suppose that the produce of the lands can have been so much under rated as to make up for such depreciation in the value.— It is idle also under such circumstances as these to argue that Ryots ought should make up losses in one year by their profits in another.— It is well known that they seldom do so even under ordinary fluctuations of season; and that it is not in their nature to do so. But even supposing that this doctrine could be practically enforced in India it can only be intended to apply to ordinary fluctuations of price and produce never to a long continued depression of prices and that to an extent ranging from 25 to more than 50 per %.—

8. I may mention further that the prices given in the foregoing Statement are taken at the most favorable

amount.— They are the merchants prices, and not those at which they purchase from the Ryots which are usually 2 to 4 Rupees per Candy less.— The prices also of July 1253 are taken at the Current Bazar prices.— Prices will be still lower when the years grain comes to the market.— The contract prices between the merchants and the Ryots for this years grain are not generally settled but some contracts have been made and the prices named are for Fine Paddy 12 and 11 Rupees per Candy. Coarse Paddy 10½ Rupees per Do. Nateheny ... 4 Rupees per Do.

*Principal Division	Sub Division
Fine Paddy 13	18
Coarse Do. 11	16

I do not expect that the prices of grain this year will exceed what I have noted in the Margin.—

9 Having explained the grounds on which I am led to consider some measure of relief to the Ryots

Fort St. George 29th February 1844

Ryots called for in the current year's settlement.— I will proceed to state the mode in which I would recommend its being granted, and the extent.—

10 I think the preferable mode is by a per centage on the Wet and dry assessment of each Ryot included in the Gunnahuny.— We have no means now of ascertaining the actual produce of the lands of each Ryot, and if we had the accounts could not be trusted, a per centage therefore remitted on the Ryots assessment on account of loss by c/y prices can lead to no abuse, and c/y will be the simplest and most c/y effectual mode of extending relief.—

11 The present years cultivation is not yet completed, and it is impossible therefore to state precisely its extent but a tolerable accurate c/y estimate may be formed of it, and it

Fort St. George 29th February 1844

it seems likely that it will correspond nearly with that of fusly 1251.— I do not think therefore that the calculation founded on the Cultivation of fusly 1251 would be far wrong and I propose therefore taking that as the basis of a calculation intended to shew the probable amount of loss by prices in this current year.— For this purpose I beg to transmit a statement **B** which exhibits the estimated per centage of loss to the Ryots by prices in the current year, and the probable amount of the remissions which I would propose to give for their relief.

12 The heavy losses sustained during the two last fusslies have trenched so much upon the resources and substance of the more wealthy Ryots, that they are now as much in need of relief as the poorer classes.— The latter have been unable to pay from the beginning the former

are

Fort St. George 29th. February 1844.

are reduced nearly to the same state by having paid for two successive seasons and sufficient has been written to enable the Board to form some judgment of the extent of the Ryots losses in Fusly 1251 and 1252 and what they are likely to be in Fusly 1253.—

13 I beg therefore respectfully, but earnestly to recommend that a remission may be granted on the assessment of the wet lands of the Principal Division included in the Gunnahuny of 12½ p/c and a remission of 20 and 25 per c/c on all dry lands in the Principal and Sub Divisions respectively, known with either of the 3 principal grains of Jonna Nalehany and Varega. The Talooks of Woodiagherry and Sydapoor are excepted the former having a different commutation price and the latter being settled Annamic.

I have

Fort St George 29th Feebruary 1844

14 The estimated amount of the whole Magany assessment of the Current year in the Sub Division is about 69000 Rupees and the loss by remission is about 5000 Rupees giving a percentage only of about 8 per c/c. I do not therefore think any remission called for on the Magany of this Division. The amount on a rough Estimate which will thus be remitted will be as follows

Principal Division wet land at 12 per c/c — 69000—

Do dry land at 20 per c/c — 26250—

95250—

Sub Division on dry land at 25 per c/c — 5906-8-

Grand Total 151312-8-

15 I can assure the Board that were I not fully convinced of the indispensible necessity of substantial relief being extended to the Ryots under the present ruinous depression of prices, I would not recommend a measure which must lead to the present relinquishment of this amount of Revenue, but if relief be not extended to them, we must be prepared I fear to lose more hereafter.

16 I shall esteem it a favor if early orders can be passed on this reference as them annuies that they should be received before the commencement of the Immaluady.

The

Fort St George 29th February 1844

The Board proceed to take into consideration the following letter from the Principal Collector of Nellore—

Here enter 5th February 1844
in Cont. 29th ——— Dr

(24-25)

Proceedings thereon Para 1

The Principal Collector of Nellore in the above communication brings prominently to notice the loss from low prices which the Ryots in the Nellore District have sustained during the last three Fasslies, and urges that some substantial measure of relief is necessary and recommends that such relief in the Current Fasly be afforded to the Ryots by giving a Remission in the Principal Division of 12% in the assessment of all Wet and 20% of all dry lands included in the Summabundy, and in the Sub Division of 25 per Cent in the assessment of all dry lands included in the Summabundy—

No remission is recommended for the Wet Lands in the Sub Division—

2

From the details which Mr. Stonhouse has given and the earnestness with which he has pressed the measure the Board are quite satisfied that some temporary relief is necessary but they cannot concur with

Informing the Principal Collector of Nellore that the Board are of opinion that instead of granting to the Ryots in his district any fixed amount by remission as recommended by him it would be better to proceed as usual with the Settlement regulating the demand according to the established assessment subtracting from the rigid enforcement of this demand in the Latter Kists with such parties as in his judgment may be absolutely necessary suspending the amount so suspended for special sanction

Fort St George 29th February 1844

with him in considering the mode in which it is proposed to afford this relief, the best—

Whilst a remission of 25 per Cent is proposed in the assessment of the dry lands of the Sub Division, 20% only is proposed on the same description of Lands in the Principal Division, and again whilst 12% of the assessment on the Wet Lands of the Principal Division is proposed to be remitted, no remission at all is recommended on the same description of Lands in the Sub Division—

These distinctions could not fail to give cause for much dissatisfaction throughout the District, and could the necessity for them be satisfactorily explained (and without further explanation it is difficult to understand how within the same District such anomalies in respect to prices should exist in the Principal and Sub Division) there would still, in the opinion of the Board be other and serious objections to the adopting Mr. Stonhouse's plan—

First, the Board may notice the difficulty if this remission were allowed, of ever again reverting to the former assessment, second, the occasion that it would afford for

similar

similar demands from the neighbouring and indeed all other Districts (for in all the price of Grain has fallen in the last two or three years much below the average) and were the measure acceded to, on the grounds urged by Mr. Henderson it could not consistently be withheld from other Districts.

4 The Board are of opinion therefore instead of granting any fixed amount of remission as proposed that it will be better to proceed as usual with the settlement regulating the Demand according to the established assessment but abstaining from the rigid enforcement of this Demand in the Latter lists with such parties as in the Principal Collectors judgment may be absolutely necessary, reporting the amount so suspended for the special sanction of Government. The end in view will be equally answered by this course of proceeding and will be free from the objections which have been pointed out, and with this modification the Board trust that Mr. Stonehouse will have no difficulty in making the settlement.

I have the honor to report for the information of the Board of Revenue the death of a Yeomiahdar, Saukel Naubee which took place on the 1st September 1842. This individual was in the receipt of two Yeomiahs, one amounting to Rupees 7-11-2 per Month for performing service in the Mosque at Servapally in this District and the other a subsistence Yeomiah amounting to Rupees 2-5-6 per Month. Two individuals have laid claim to the service Yeomiah but on enquiry her adopted son Mahomed Dawood aged about 23 years appears to be the rightful claimant and as he is performing the requisite service at the Mosque. I beg to recommend that only the Service Yeomiah of Rupees 7-11-2 per Month may be continued to him retrospectively from the 1st September 1842 the date on which the last incumbent died.

Sir,

From the Collr of Chingleput

Para 1

I have the honor to acknowledge the receipt of your letter under date the 18th Ultimo with transcript of the Minutes of Consultation dated the 28th November and in obedience to the requisition contained in the 2nd Para to submit a statement shewing the different classes of weavers pursuing their occupations in this District, the description of Cloths woven, the value of the cloth supposed to be produced in each loom annually, the estimated cost of manufacture and profit together with the rates of tax recently imposed -

Reporting on the condition of the weaving classes in the District of Chingleput.

2 This table was prepared in my Office at the time of the introduction of the tax upon the best information that could be obtained, though from the Combination amongst the weavers but little information could be obtained directly from themselves -

3 The subjoined table exhibits the number of looms of each class in the Principal weaving Towns and the remaining portion of the District together with the nett amount of the impost -

4 With regard to the condition of the weaving classes and their ability to meet the demand upon them, it must be evident that the very great increase in the importation of British manufactured Cloth has materially affected the condition of the weaving classes of the country and in some Districts that the demand for the peculiar description of cloth therein woven has been extinguished. but this does not appear to have been the case with the Jaghire, the demand for the cloth of the country from its vicinity to the Presidency having been maintained and it is probable that to this cause the actual increase in the number of looms during the last 7 years may be traced. The number of looms in the District when Mr. Maclean reported on the subject to your Board in 1834 being 3867 and last year when the loom impost was made general throughout the District 5410

In

Fort St. George 29th February 1844

5 In introducing the loom tax generally I continually kept in view the necessity of moderation in fixing the demand and in several conversations with the weavers at Conjeveram they allowed that it was not so much the rates of the tax they objected to, as to the imposition of an impost, grounding their objections chiefly on their having been exempted from taxation for so many years. It is however possible that the tax has pressed heavily on individuals arising from their combination and their absenting themselves during the Settlement with the view of withholding all information they possibly could from me, but this will be corrected during the ensuing Summahbundy when each will no doubt be anxious to come forward and assign grounds for remission of his quota of the tax.

6 Generally speaking all taxes on productive labour are objectionable and in such light a loom tax must be viewed, but under the circumstances of the case I am decidedly of opinion that any orders affecting the realization of this tax would now be attended with most injurious effects. The tax can not at the present moment be remitted in this District without having the effect of making the weavers in every other District combine in the hopes of obtaining a similar result and with the tax on looms the whole of the Moturpha tax intimately connected. I trust in stating thus much I am not going beyond my due limits, but the real question appears to me to be whether the Government can afford to relinquish the whole of the Moturpha or taxes on trades amounting annually I believe to about 12,00,000 of Rupees for to such a termination must the abolition of the tax lately imposed tend.

From the Collr. of Chingleput

Sir,

Submitting replies to the observation of the Board and Govern:ment on the Land Revenue Settlement of Fusly 1251 A. D. 1841/42

29th Feby. 1844
24th Decbr. 1843

Para 1

With reference to the Proceedings of the Board of Revenue on the Settlement of Fusly 1251 A. D. 1841/42 and the observations of Government thereon, I have now the honor to submit the further information therein called for.-

2

At the conclusion of Para 2 the Board observe that the circumstances under which the Renter of Terooverkaudoo was absolved from the terms of his lease should have been explained the proceeding being unusual; I beg therefore to state that the Renter was neither a Merasidar or a Resident in that Village but that he originally rented it from the late Shatrumdar with the view of extending therein the cultivation of Indigo he being connected with a factory in that neighbourhood. He then sub-rented the lands to the Cultivators at fixed money assess:ments for a period of 5 years or from Fusly 1244 to 1248 inclusive, but which leases they refused to renew at the termination of that period.-

3

The renter being thus compelled

to

Fort St. George 29th February 1844.-

to retain the Village during fusly 1249 and 1250 under his own management became involved in disputes with the Cultivators and sustained considerable loss through which he fell into arrears to Government, and which were subsequently realized from him with much difficulty.-

The Renter then begged to be relieved from the remaining period of his lease, with which request, in consequence of the difficulty and uncertainty of realizing the rent I complied. The amount of the Rent for fusly 1251, according to the lease would have been Rupees 549, whilst the actual revenue derived amounted to Rupees 535-5-4. The arrangement made by me was therefore in the season under review profitable to Government.-

5

In Para 7 of the Board referring to the explanation offered by me relative to the decrease in the average of the assessment per Cawney in the lately assessed Villages, remark, that although the explanations submitted did appear to be satisfactory as far as they went that the question in the absence of detailed data they were unable to say whether those causes were sufficient

Fort St George 29th February 1844.

sufficient to account for the whole of the anomalies adverted to," and referring to the comparative abstract statement appended to the same para state that the results therein exhibited prevented them entirely divesting themselves of the idea they had previously formed and under which they penned their former observations; "drawing particular attention to the fact that according to the abovementioned statement the extent of Cultivation in Fusly 1210/1800/01 and 1257/1841/42 was almost exactly the same, whilst the disparity in the revenue derived, was very considerable, and consequently that the average rate of assessment per Cawney evinced marked difference."

5. The abstract Statement exhibited by the Board is not, however, I would submit, a criterion by which to judge of the effect of the survey in the lately assessed Villages, as it is a general Statement of the whole District, and not of these Villages only, I beg therefore to submit a more detailed Statement in which the Villages are divided into 2 Classes, being those in which the Survey was introduced by Messrs Hepburn Ellis

Fort St George 29th February 1844.

Ellis and Smalley; those in which a survey was introduced by Mr Vincash, those in which the survey was lately introduced, and the Villages transferred from North Arcot, shewing respectively the extent of wet land Cultivated, the assessment on the first and second crop, the average assessment per Cawney realized on the first crop in Fusleis 1210-1232, and from 1248 to 1257 inclusive, the same information relative to the dry land, the ready money Collections, the total revenue leviable and the Beriz after deducting all remissions.

6.

Referring to this Statement, it will be observed that in the Villages lately assessed the cultivation of 1st Crop wet land amounted in Fusly 1210 and 1232 to 64,267 Rs and 66,[illegible] whilst the similar description of cultivation in these Villages in Fusly 1257 was 61,963. the assessment on these lands for those three years respectively was 396[illegible] Rs 405680 and 378294 or on an average 6-3-6 6-6 per Rs a c 6-1-8. Fanam. The extent of cultivation in Fusly 1257 is therefore not only considerably below that of Fusly 1210, but in the average rate of assessment on the wet land no great difference exists. The main causes of the decrease in the revenue derived from these Villages compared with Fusly 1210 has been decrease in the extent of land cultivated with a second crop and in the collections included under the head of Nagdee

7.

The decrease under these two heads has been accounted for from time to time, but it may here generally be remarked that the favourable nature of the season in Fusly 1210 combined with the high prices prevailing induced, in that year, the ryots to extend their cultivation to the utmost limits in their

Fort St. George 29th February 1824.

power, whilst very low prices and other causes have of late years, tended to check such efforts. The system of a survey and fixed field assessment, although I am most favorably inclined towards it, has I must allow a tendency to limit this description of cultivation, because from the demand being fixed the Cultivator cannot sow any crop except such as would give him a remunerating price, and therefore if there should not be sufficient water to ensure such crops being brought to maturity will generally allow the land to lay fallow, whereas under an amany system, the ryot, should there not be sufficient water for a wet crop, would often sow an inferior crop on the wet land, as he would then only have to pay the waram or value of the Government share of the produce at the current market rate. This with the circumstances of the Villages having been rented to the Merasdars in Fusly 1210 no doubt materially increased the extent of land cultivated with a 2nd crop in that year.

8.

The apparent decrease in the Nagdeit or Ready money collections arises from the Assurpha and sundry other ready money

Collections

collections which in fusly 1210 were incorporated with land revenue, having since been entered under separate heads —

9. Two other facts will be apparent from the Statement above given- first that since the introduction of the Survey assessment in fusly 1248 in the lately assessed Villages the extent of cultivation of 1st crop wet land has increased with the nature of the season and until it has nearly reached the extent of cultivation in fusly 1210 which tends to prove that the assessment is not too high, whilst the decrease in the average of assessment per bowa the average in the latter year being Rs. 6-3-6 and in Rs. A. P.
fusly 1257- 6-1-8 is of small amount- Secondly that in comparing the accounts of these Villages with those of the Villages formerly assessed by Mr Vincent the results are different: the extent of the 1st crop wet land cultivated in fusly 1257 exceeding the similar description of cultivation in fusly 1210 by 1930 Cawnies with a decrease of Revenue amounting to 37,306 Rupees whilst the average assessment per Cawney was Rs. a 6-10- and Rs. a. p. 5-9-7 respectively a circumstance substantiating the arguments adduced to your Board in my report of the 8th February 1841.

1841 on the Survey assessment of those Villages —

10. In accordance with the requisition conveyed in the 8th Para of the Proceedings I herewith submit a detailed Statement* shewing the extent of the lands under each rate of Seerwa in the Maneumungalum, Talook, the extent of cultivation in each fusly from 1248 to 1252 inclusive —

11. An abstract of the Sheigal lands is also submitted in the Margin, on referring to which it will be observed, that at the same time that there has been a progressive increase in the cultivation of the less productive and lower assessed lands that those bearing higher rates of assessment have been fully occupied —

12. In Para 9 the Board have remarked that from the detailed accounts of the Villages of Lombrum they

* Vide Enclosure 4 with Maharat. to Statement

they are led to believe that the demand on portions of fields left unsown is abandoned too easily, and that as the fields of the Jaghire are generally believed to be small, there is the less necessity for so foregoing the demand- The total claims at the Summakbundy from the Ryots of Tambaram for remission under this head amounted to Rs 2-1-3- of which 1- Rs 6-9 were remitted in consequence of the bank of the Tank having been extended over a portion of a field, the assessment on which amounted to Rs 15-9- and 7 annas, on account of a small portion of a field occupied in the opening of a supplying channel- The remaining portion of the claims was rejected- Every attention to carry out the orders of the Board will be paid, but from 7/10ths of the cultivation of the Jaghire being wet lands, it is sometimes necessary to remit the rent of portions of highly assessed land left waste, even tho' the entire number be not of great extent-

13- The remarks of the Board relative to the remissions under the head of Shavi. will be kept in view, and every effort made to reduce them as far as practicable without impoverishing the ryots-

General

Fort St George 29th February 1844

Several circumstances however tended to increase the amount of remissions granted under this head in the season under review, amongst which the very low price at which every description of grain was selling may be prominently noticed, and in some cases also altho' the crop that had entirely perished did not form more than one tenth of the cultivator's produce, from a large portion of the remaining crop being deficient on bulk- The standing orders shall however be acted up to as far as possible without causing eventual loss to the State-

In Para 12 the Board allude to the Balance of Fusly 1251 which according to the Demand Collection and Balance Statement for August last, amounted to Rs 23,493-5-11 but which has since been reduced

Para 1

In reply to your letter Shaw the honor to State that the Reservation of the sum of Rupees 16-10-8 per mensem, out of the Pension allowance continued to Fuzel Ali Shaw for the support of himself and other followers was intended, as appears by a Memorandum of my Predecessor, to meet the claim of any other individuals of the sect, who having heretofore received support from this Pension, and being inadvertently or otherwise excluded from the List furnished by him, may come forward within a year, and demand maintenance from it.—

Mr. Tim Letter dated 8th Decr 1842.

2 In the event, however, of no claimant appearing I understand it was not the intention of Mr. Hallett to recommend a proportionate dividend of this sum among those already on the List. Referring therefore to the 2d Para of the Minutes Consultation as the present Date 21st January 1843. period has elapsed without any body seeking the right of support from the Pension, I consider that the amount in question has reverted to Government.

Sir, Acting Secretary to the Board of Revenue
Fort St. George
I have the honor to acknowledge
the

receipt of the Board's letter of the 18th Instant, and respectfully solicit a subsidiary decision on the subject of the revised Moyen Zabitah.

Fort St. George 29th February 1844

I have the receipt of your letter of the 18th Instant communicating the concurrence of the Board in the opinion I have expressed of the expediency of increasing the pay of the Tahsildars of Ganjam Jarrione and Conaud, and their willingness to recommend the measure if I can suggest a corresponding reduction. and informing me that certain other alterations in my Moyen Zabitah which I proposed are not considered necessary.

I must respectfully solicit

2

a reconsideration of the Board's decision on this subject. the necessity of an increase to the pay of the Tahsildars in question is admitted, and I put it to the Board whether they think it possible that I can propose a reduction of equal amount in other parts of the Establishment without impairing its efficiency. I would not make the proposal with a shadow of reason having only just endeavoured to make it appear that the establishment is as it now exists, insufficient. no reason therefore remains for rejecting my proposal to increase the salary of

Fort St. George 29th February 1844

of the Sahsildars but the unwillingness of Government to authorize any increase in the expence of Establishments - but as this unwillingness cannot of course be intended to extend to cases in which necessity is proved, I submit that there can be no reasonable objection on the part of Government in the case in question - and as Government* have repeatedly declined to sanction the increase of pay in one Department, from savings effected by dispensing with the services of Parties no longer required in another and I can not even dispense with the services of any parties or reduce their pay without affecting their efficiency - and as I have in the Board's opinion (as regards the Sahsildars) made out a good case, I most earnestly request that my proposal may be submitted to Government on its own merits.

3 In regard to that part of my proposal alluded to in the 3rd para of your letter under reply, I cannot sufficiently regret that I have not succeeded in impressing the

*Ext. Pro. B. of Revenue dated 8th April 1840.

Fort St. George 29th February 1844

the Board with a belief of its necessity - I would ask them whether any Increase of Salary is not on a much poultry scale compared with that of other Districts - Is it not obvious that some arrangement is necessary to provide for the performance of the important duties of the Treasury in some other manner than by abstracting servants from other offices already too scantily supplied with hands and is not the English department clearly on too limited a scale to admit of a due attention to the Custody of the Records -

4 No one can be more alive than I am to the inexpediency of proposing an increase in Establishments on insufficient grounds, and were I unduly desirous of obtaining the favor of Government I should abstain from making proposals which I know, unless made on due consideration, would procure me its displeasure - I have now had experience of the inefficiency of this establishment for nearly five

five years and should long ago have proposed an increase but that I wished to be able to greater experience in support of my propo-sals. I can only say further that I cannot reconcile it with conscien-tious discharge of my duty to refrain any longer from stating my opinion that in regard to the pay of the Tasildars and the strength of the Hoozoor Esta-blishment and the English depart-ment the Moyen Zabitah is not on a sufficiently liberal scale for the performance of the duties requir-ed of it, and as regards the Hoozoor Gomastahs I beg particularly to call attention to the increased labor imposed on them consequent on the Board's orders of the 11th April 1839 on the preparation of individual Chittahs.—

5 It occurs to me that on the Board in considering the per centage which the charges of the District bear to the Revenue have not observed that the Police Establishment is included in the Moyen

Moyen Zabitah. If this be deducted the Charge on account of Establishment will be reduced from 6-14-5 per cent to 4-11-11 per cent on the revenue as shewn in the Margin but I do not mean to insist on this point any proposal for an increase is made on the full assurance that the Public good requires it.—

Average Annual amount of Revenue for the last ten years is Rs. 15,75,876—11

The Moyen Zabitah now proposed would amount to Rupees 92,979—11

Translate of an address No. 921 of the 29th December 1843 from Syed Ismail, Ma-

I was favoured with your
order No. 872 of the 19th Instant, bearing
an answer to my address to you regarding
the proposed marriage of Dhorarajah
Nachyar, Minor Zemindar, observing
there was no mention in my address of
the

the person selected for the husband of the Minor - that an amount not exceeding 15000 Pagodas was sufficient both for Jewels and Marriage expenditure and that on a report shewing the proportions to be appropriated to the respective purposes of Jewels and marriage expenditure it should be submitted for the approbation of the Board of Wards and that my application for 90000 Pagodas should not be taken into Consideration -

In answer I beg to state that yesterday the 28th Instant I went to the Zemindar's Palace in order to select a proper person for the match, and with the exception of such of the Minor's Relations as are at variance with her I have called upon the rest Viz. Vanee Paroo-vatha Varthiny Mudaly her Mother, Mulnaatar Pudaty Mudaly her Grand Mother Rauttanal Varaspaya Pummanmal widows of the late Annasawmy Saithoo-sputty Vanee Purvatha Varthiny Mudaly a Lawful widow of the late Muttoorama-linga Saithoosputty all of whom being notified of advanced years of the family as well as upon both Tavers and Ramasawmy Tavers

Tavers her Maternal Uncles, as Sithanarayana Tavers the husband of Mungalaginary Mudaly the Minor's paternal Aunt and Daughters of the late Annasawmy Saithoosputty, as also certain others acquainted with the customs and manners of the Zemindary to state their opinions who was fit to become the husband of the Minor. It was represented that two of the sisters of the Minor's Mother were married to two out of six brothers, the sons of one Mootoosawmy Tavers, her maternal Uncle. That of the two unmarried sons of the above named Mootoosawmy Tavers one named Mootoo Vejya Regonatha Tavers aged 24 years was a fit person to be chosen for the Minor, that the Kelay or tribe of the Minor Zemin-dar is Marat Vay Kilay - and that of the proposed bridegroom is Pitchay Kilay - that the Union of the two was in perfect Conformity with the custom of the family, and he was accordingly selected as bridegroom - I then visited the propo-sed bridegroom who is already at the palace and find he understands to read and write Tamil and Telugu, that he is studying Hindoostanee and is a fit person to be married to the Minor -

The

Fort St. George 29th February 1844

The Minor Zemindar and Rance Parvvatha Vurthany Nachyar, her mother look to you alone for protection, and as the Zemindary of Ramnad is one of great celebrity and of distinguished eminence amongst all in Madura, Tinnevelly and Trichinapoly notice of the proposed marriage of the Minor heiress of a throne will no doubt be so spread far and wide as to bring considerable number of learned and other Brahmins &c. and with reference to these probabilities, compared with the expenditure for the marriage of the Minor's Elder sister, the late Mungalaswamy Nachyar, celebrated in 1839, I have not been able to reduce the estimate of the proposed marriage expenditure below 25,000 Rupees.

In consideration of the utter absence of jewels to the Minor at present I cannot but take advantage of the present favorable opportunity of the intended celebration of her marriage to recommend that 15000 Rupees may be allowed for that purpose 13,000 of which for the Minor and 2000 for the bridegroom.

Should

I think the ceremony of the proposed marriage can be celebrated with all proper magnificence and solemnity, and I would wish you to bear in mind that any cost for Jewels is not money expended but only a change in the form of the property. I beg therefore to submit for your information my sense of what ought to be done, and shall be guided by any instructions which on careful consideration you may be pleased to favour me with.—

Translate of an address dated 29th December 1843 from Rance Parvvatha Vurthany Nachyar widow of the late Rajah Vijaya Regonathia Ramasawmy Saithoopully and Mother and /so disant/ Guardian of Dhoraiyah Nachyar Minor Zemindar of Ramnad

Ramnad. to the Principal Collector of Madura.—

I was favoured with your order of the 21st Instant observing with reference to my former application for 90,000 Rupees to defray the expenses of the intended marriage of my daughter, the Minor Zemin-dar, that Rupees 15,000 is sufficient for the Marriage expences and for jewels, and re-quiring a report as to what portion of it was proposed to be appropriated to the respective purposes of marriage and jewels and who was the proposed bridegroom.—

In answer I beg to state that in my addrss of the 15th Instant I applied for 40,000 Rupees only on account of the marriage. The 90,000 Rupees includes the estimate for Jewels, and you will know that money so expended is not lost but is in itself part of an Estate in effects, and be-cause the Minor is an only daughter much endeared to me. Mistrss of 7 lacs of Rupees, I applied for that sum, this anxi--ety to see her richly embellished with all sorts of Jewels. should you still think it too much I request that 15,000 Rupees at least

may be devoted to that object, (13,000 for c— Jewels for the Minor and 2,000 for the bride-groom) as per list herewith submitted.—

The Zemindary of Ramnad is one of great celebrity and Distinguished c— amongst the Hindoos as a Saithooputty Sa-—vastanams—The proposed marriage of the Minor, the proprietrix of a Shukith or throne will, no doubt be so spread throughout c—, Tinnevelly, Tanjore, and Trichinopoly that multitudes of Bramens will attend, whose entertainment added to the performance of certain ceremonies to our deity, the entertain--ment &c— to our relations and distribution of Boosithetohanay or alms to the Bramins and presents to the learned, to relations and to the Stanegals who may come from different Devastanums with the usual respect of Stalangom will require considerable expenditure. For instance, the wedding of Sevagana-ya-Nachyar was consummated at the expense of one lac of Rupees during the time of the late Mootooramalinga Saithooputty whilst those of my father-in-law Mootoo-Vijaya Ragoonatha Saithooputty and of Mungalaiswary Nachyar, my eldest daughter

daughter were consummated at Seventy and forty thousand Rupees respectively.— Furthermore the marriages lately performed in the Zemindaries of Shevagunga, Etteaporum and Elavarisanaindel were at an expence of not less but more than 50,000 Rupees each— Anxious as I am to celebrate the Minor's marriage with a solemnity due to the rank of a Chief of such an Estate/ yet under your objections to allow a large expenditure/ I am obliged tho' with reluctance to reduce my application for at least 40,000 Rupees, of which 25,000 Rupees only to be appropriated for the marriage and which can be defrayed from the annual interest of money vested in Company's Paper

When you see that my application for 15,000 Rupees for Jewels and 25,000 Rupees for the marriage can be met from the interest of vested surplus I trust you will appreciate to my fear of offending you, my acquiescence in so reduced an expenditure especially as you are not unacquainted with Carnatic customs and manners— I therefore trust you will far from making any further objections, be good enough to recommend

recommend my prayer for the kind consideration of the Court of Wards and procure their sanction.—

I have determined on the union of my Daughter with my maternal uncles son. Mootoo Vijaya Regoonatha Tavery, now 24 years old, a sensible and competent man and understanding to read and write in Tamil and Telugoo under his desire I received him into the palace last year, and caused him to be instructed in Hindoostanee, which he now understands to read and speak and I intended him to be instructed in the English language also.—

Yesterday the present Manager came to the palace, saw the proposed bridegroom, inquired the opinion of my mother and other relations, and approved our intention of marrying the Minor to him, and returned after promising to bring the propriety of the measure to your notice.

No. 3

To

John Blackburne Esqre

Pt. Collector of the

Zillah of Madura

The humble Petition of

Vezzya Regoonada Mo-

-toochella Saver, late

Manager of the

Ramnad Zemindary

Most Respectfully Sheweth—

That the Petitioner begs leave to state that your honor is well aware that Ramasawmy Sadoopady Brother to Petitioner and Father to the Minor of the Zemindary- did at the time of his death appoint the Petitioner and Rawney Mos- -tooveroy Natchyar, the Puttumstree to the late Mootoo Vezzya Regoonada Sadoopady adoptive Mother to the late Ramasawmy Sadoopady and Grand Mother to the Minor and Sister to the Petitioner to bear all responsibilities in case of having his Minor Daughter married to suitable Spouses.—

That Petitioner's opponent Annaswamy Ayen who was dismissed his situation of Government Vakeel of the Zillah Court

Fort St. George 29th February 1844.

Court of Madura for misconduct has pro- -ceeded from Madura to Ramnad and staying hither has joined the Minor's Mother Purvathavarthaney Natchyar, her Brother Cottay Saver and some other disturbers in devising an evil Council contrary to the Will of the Minor's Father and without the assent of Mootooveroy Natchyar and the Petitioner.— In course of the said devise the Petitioner is informed, Purvathavartha- -ney Natchyar and the present Manager of the Zemindary addressed your honor that a sum of 90,000 Rupees is requisite for the expences of the marriage of the Minor and your honor has replied that the sum of 15,000 Rupees would answer that purpose and that the party have determined to have the Minor married to a native of the Village called Memmindy and that Pur- -vathvarthaney Natchyar and the present manager have addressed Urzees to your honor to the same effect.—

That neither the Petitioner nor his relations had not known whose son the proposed man is, and of which branch he is— No intermarriage has ever been before made

made between his family and that of Petitioner As far as the Petitioner can judge of the circumstances of him after he has been brought from Mennandy Annaswamy Syen Cottay Saven& Co. he is not a distinguished one in the family is not of a handsome feature is not of any virtues or merits and that he is not of course fit to be chosen for the Minor Proprietrix of the Zemindary - The men of Mennandy, a stranger cannot have any rights to be married to the Minor without making a breach of our relational terms and caste bounds.—

That there are Maupully (or husband) of the late Minor who is of engaging features and of good merits and virtues and who has the first and best claims to the present Minor and the sons of three Sisters of the late Ramasawmy Sadoopady named Sevayoga Natchyar Mungalasoovarey Natchyar and Ponnethal Natchyar all of good features, virtues and merits — and it is essential that the Minor should be married to either the said husband of the late Minor or to one of the late Ramaswamy Sadoopady's Sisters according to the terms of our Caste

That

That when Petitioner was at Madura under the trial of the Circuit Court, the said Annasawmy Syen and others attempting against our consent, to have the Minor married to such an unsuitable one and beginning to perform the ceremony of Seroothaly Kuttal (a sort of private wedding) Petitioner stated the said improper attempt to G. D. Drury Esquire who was Commissioner at Madura and he, in reply, issued an order to the present Manager to the same effect. An Urzee of Petitioner to the Government on the same subject was referred to the Board of Revenue who have endorsed on it, on the 7th September 1843 - that it appears from your honor's Report on it that your honor is not aware of any such intended marriage of the Minor heiress of Ramnad as the Petitioner complains of.—

That I beg to enclose hereinto for your honor's perusal the English Translations of the said Endorsement of the Revenue Board and of the order issued by the above-said Commissioner, Esquire, to the present Manager on the 1st February 1843.—

That altho' the Petitioner's Management

Management of the Zemindary is at present removed from Petitioner to the Court of Wards and justice whereabout he has great hopes to obtain from your honor still that responsibility in procuring a suitable spouse to the Minor who is the heiress to the Zemindary has not been removed from Petitioner and Mootooveroy Natchyar who are the heads of the family and who are related to the Minor by consanguinity Nay it is not a thing which can at any time be removed or withdrawn It is the Petitioner who is the best concerned in finding a suitable spouse for the Minor and getting the marriage carried on with pomps and in being entitled to perform the ceremony of Sharyvarthal (a relative ceremony) as the Paternal Uncle of the Minor There is no other one bearing such responsibility than Petitioner.—

That it is Customary when a Miss of our royal family is to be married, that her parents, Grand Parents, Uncles, Aunts, and all other relations will unanimously consider which bridegroom has the immediate termes and dams to the proposed bride and then choose one for her and get the

the marriage performed.—

That there being the Manpulley of the late Minor and the sons of the Minor's Paternal aunts—How is it that Purvathavarthaney Natchyar one dwelling in the Saraglio and having no commanding sense of her own and knowing nothing of the Zemindary affairs, she alone can under the instigations of disturbers undertake the marriage business and propose the said unsuitable stranger for the Minor, notwithstanding there are Petitioners and Mootooveroy Natchyar.—

That when the case is considered your honor may come to well understand that Purvathavarthaney Natchyar and others having determined to have the Minor, married to the abovesaid unsuitable man of Mennandy and having Urzee to your honor and they having thus attempted of themselves at the business without the assent of Petitioner and Mootooveroy Natchyar against the instituting of the late Ramasawmy Sadoopady and against the order of G. D. Drury Esquire are improper at all.—

That

3895 Fort St. George 29th February 1844.

That Petitioner gave information of the above particulars to the present Manager desiring him not to agree to the irregular and improper undertake of Annasawmy Syen and others but pay due regards to the order of G. D. Drury Esqre and report on the case to your honor but he having given no direct reply, appears to accessary in the above matter which is highly improper.—

That the Petitioners under the above circumstances, prays that your honor would be kindly pleased to make a personal inquiry into all the foregoing particulars and that the Minor may not be marrica to the abovesaid man of mannandy who has not right whatever to the marriage who is not of handsome features and who is destitute of all virtues and merits according to the improper wishes of Purvathwar thaney Natchyar Annasawmy Syen, Cotta Saven and other and that the Minor should be married to the Maupulley of the late Minor or to one of the sons of the late Ramasawmy Sadoopady's sisters, according to the wishes of Petitioner and Mootoweroy

 Fort St. George 29th February 1844.--

Mootoweroy Natchyar who have the first responsibilities in case of the Minor's marriage according to the instituting of the late Ramasawmy Sadoopady, and according to our caste Rules and Customs and that your honor may please send this his Petition with your honor's letter to the higher authorities on the Subject of the marriage.--

For which act of Justice and benevolence the Petitioner shall as in duty bound Ever Pray.--

To

John Blackburne Esqre
Principal Collector of the
Zillah of Madura.

The humble Petition of
Ramasawmy Saver
husband of the late
Rawney Mangla
vary Natchyar
Minor Zemindar
of Ramnad.

Sheweth,

That the Petitioner begs with profound Submission to State to your honor.

honor that he has heard that Purvathavar-
thaney Natchyar and the present Manager
of the Zemindary addressed to your honor that
the Marriage of the present Minor Zemindar
Doryrajah Natchyar, sister of the Petitioner's
wife is to be celebrated and that a sum of
90000 Rupees is requisite for the expenses and
that your honor replied to them that the
spouse is to be ascertained and that Rupees
15000 would be enough and that they have
now determined to have the Minor Zemin-
dar married to a man, not hitherto known
to any body by a name, of the Village called
Mennendy and have addressed Urzees to
your honor to the effect thereof--

That the Minor Zemindar
being young and rendered incapable by nature it
becomes an important duty of your honor to choose
for her a Spouse who is related to her by blood- who
has rights to be married to her and who is possess-
of good education, virtues and talents. The man pro-
posed now by Purvatharaithaney Natchyar is not
only void of all the said gifts, and unfit
to have a place in the seat of the Zemin-
dary and unworthy to be bowed or treated with

with politeness by the Minor Zemindar and
ill favored with awkward features but also
he is related neither to Rawney Mungala-
soovarey Natchyar nor to her husband Rama-
sawmy Saver of Ethumbaudel nor to their
adopted son Mootoovezya Rayoonada Sadoo-
pady nor to Rawney Mootooveray Natchyar
the lawful wife of the latter nor to her adopt-
ted son Vezya Rayoonada Ramasawmy Sadoo-
pady, Father of the present Minor, who are
the late Zemindars of Ramnad. In a word
he is one who has not been, at any time
connected with the race of the Zemindars.

That it is better, if your honor
make a personal examination into the parts
or merits of the proposed Spouses and then Choose
one for the Minor Zemindar who is under the
direction and support of the Court of wards.
If your honor be pleased to do so the man
of Mennendy nominated by Purvathavar-
thaney Natchyar will undoubtedly be found
to be of no use. The present Manager and other
wicked ones do jointly instigate the Petitioners
Mother-in-law Purvathavarthaney Natchyar
who dwells in the Seraglio, purposely thinking
that

that they, having such a one, an unfit one -- married to the Minor, can plunder the Zemindary by diverse ways and that the present Manager may remain in his Office for a time longer --

That the Petitioner's wife Rawney Munglasoovary Natchyar the Chief Proprietrix of the Zemindary said on her death, to her mother the Petitioner's mother in law that her younger Sister ought to be married to Petitioner who was her husband and who is in every way the suitable and eligible Spouse and who is the head of the Minor's family and received assurance from her to the same effect and the mother accordingly desired the Petitioner to perform the funeral ceremonies such as Caramam &c. for her deceased Daughter according to Hindoo Shastrums and she was promising her Daughter and the Petitioner that she will give her younger Daughter Dorayajah Nachyar, in Marriage to Petitioner - and her determination to perform her promise may have been expressed in some of her Letters addressed to your honor during the time in which there existed a

difference between her and the late Manager or at the time of her daughters death - and your honor knows well that the Petitioner was of course joining her party --

That notwithstanding the Petitioner is entitled to such rights - the above said instigators are now attempting to dispose the matter in an improper way and thus to disappoint the Petitioner - such an attempt is a violation of the Hindoo Shastrum in regard to which the proposed Minor cannot be married to any one but the Petitioner, since she was once promised to be given in marriage to Petitioner by her mother and her elder sister who is equal to a Mother and who was the Chief Minor of the Zemindary --

That the Petitioner craves therefore that your honor will be graciously pleased to order the present Minor be married to Petitioner agreeably to the wish and request of his wife the late Minor and to the promises of her Mother - In the event of any refusal the Petitioner and family shall not only be left at a loss to all their connections and relationships which they have -

Fort St. George 29th. February 1844--

have been with the Zemindary from genera-
tion to generation but shall also be obliged
to be gone to any strange lands - The Petitio-
ner has the sanguine hope that your gene-
rosity would never incline and such a
cruel act that shall certainly be attended
by the above consequences--

That the Petitioner, in conclu-
sion, begs that if your honor perhaps needs re-
port on the subject to the Court of Wards, your
honor may forward to them this Petition
with a letter of your honor's recommendation
and cause a favorable order according to the
desire and prayer of the Petitioner--

No. 1

I hold 10 acres more connected with this spot by Puttah from the Moothoonaud (the legal) Native Renter, and 54. and odd acres from the Native Renter of Moganaud which latter not being litigated my sons are settled there, and are clearing and breaking up grounds for the reception of 30,000 Coffee Plants, which they have in a nursery on this Ground - These Grounds having been obtained free of Rent for 3 and some for 5 years, we operated on them calculating on this advantage, and having but slender means at command I am unable to pay rent till the Plantation yields - The Acting Principal Collector of Salem has on my absence, served a Notice of demand for rent with the threat of sequestering my property which if carried into effect must ruin my industrious sons. I beg to entreat therefore

therefore, of the Boards kind indulgence to allow me the 5 years exemption which was proclaimed to all Coffee Planters by the Salem Officials, as it was relying on this proclamation I laid out my small Capital on clearing Jungle, breaking up Grounds & building &c. I beg this indulgence for my five sons, and hope the Honorable Board will grant them this boon, since Government can be subject to no loss thereby, as I bind myself to pay the Rent /even for the 5 years exemption/ if the grounds are not all cultivated within that period, and offer my immoveable and truly valuable Plantation as Guarantee to Government for whatever Rent may be justly due to them at the expiration of the 5 years exemption -

To The Acting Pr. Collector of Salem
