Sir,

From the Coll. of Rajahmundry (11) With reference to my letter of 2d Instant, I have the honor to submit an Estimate of the expense necessary to be incurred in collecting some of the spontaneous Salt which has accumulated in the swamps in the neighbourhood of the Mouth or Pans, and request that sanction may be obtained for the sum of Rupees 196-10-. I regret to observe that this Estimate is higher by Rs. As. P. 7-2½ per Garce than that for which was awarded on the 5th March 1841, but I find that the distance of the beds of Salt from the places where it is proposed to be heaped is somewhat greater than on the former occasion and the increase is therefore unavoidable.

Season. 3

The season of Fasly 1252 A.D. 1842/43 proved on the whole unfavorable to the Estates under report. In the early part of the year, that is to say from 5th June upto the end of July, the failure of the usual rains not only impeded the Cultivation of Coonsah, or the first dry Crops of the year, as well as that of Varadum or Black Paddy but also distructed the sowing of Paddy seed for transplantation in Wetlands. The rains during the Months of August and September were scanty, and the cultivation of both the Dry and Wet lands in those Months

Fort St. George 25th April 1844.

was consequently contracted. Trans-plantation was however carried on, in some low Lands where the sup-ply of rain which had fall could be turned to account, and these, notwithstanding the failu of rain during the early part of the Month of October, produce some extent was yielded. The season was tolerably favorable for the Cultivation of Pyra, or the last Crop of the year, but the Co-na suffered much from heavy rains at a time when the Crops were about to come to maturity.

Statement No 3 an exhibit the quantity of produce in the Dry and Wet Lands set-tled on a division of produce, the value of the Circar share thereof, together with the reve-nue from Money rented, and Garden Lands, as well as an ac-count of Ready Money Col-lections of which an Abstrac is given below.

of the season, and exhibited a decrease to the extent of Rupees 248-10-7 while the cultivation of Onions and Chelagadum gave a small increase of Rupees 9-7-10. In the other species of Crops there was a decrease of Rupees 343-4-9 shewing a net decrease of Rupees 333-12-2. This decrease has chiefly arisen in Natchany / Chodaj / Chay-root, and Chillies which are cultivated in Garaipal or Sandy Soils irrigated from small Ponds in which the supply was scanty from want of rain.

7. The Items under the head of ready Money Collections exhibiting a decrease of Rupees 254-13-4 in the year under review are noted in the Margin. This decrease is to be attributed to the falling off

in the Collections of "Durbary Charges" and "Colagaram" on the value of the Circar share of the Grain on account of the Measurer's fee, arising from the scanty produce of Wet lands during the year under review as well as in those on account of Tax levied from Toddy Drawers who are reduced to poverty. There is also a decrease in Collections from Fisheries consequent on the small supply of water in Ponds.

8. With reference to the orders of the Board conveyed in Para 9 of their Proceedings Dated 29th January last it is to be observed that the Tax on Indigo works having been rented out in Fusly 1252 / A.D. 1842/43 and 1253 / 1843/44 the revenue from this source which has been nearly realized in full will of course be credited in the Summabundy accounts of these Fasties but the Monopoly will be discontinued from the commencement of the ensuing Fusly and persons Establishing dying works as before with Moturpha as in the case of those paying Professional Taxes

progress for want of irrigation, and caused the large decrease above noticed.

In Para 5 of their Proceedings of the 29th January last the Board observe that the average rate of produce per cutty of Aunjah land for Fusly 1250 A.D. 1840/41 was less than that for Fusly 1248 A.D. 1838/39 notwithstanding that the extent of cultivation in the former year was more than the latter and that the effect of an adverse season is rather to diminish the extent of wet land brought under culture than affect the outturn of that cultivated, and that this circumstance fully bears out their observations in the Proceedings of 17th November 1842 as in Fusly 1248 A.D. 1838/39 the average cultivation in Pudanah and Kytapully is 2 - 14 - 3 which yields C. T. P. an average produce of 6 - - - 22 per cutty, while in Fusly 1250 A.D. 1840/41 the cultivation is 30 - 4 - 1/2 giving a produce C. T. P. of 2 - 19 - 16 per cutty only - This will of course at first sight appear unaccountable considering the variation in the nature and effects of the season in the two years, but

but I beg to state that in fasly 1245 ths
A.D. 1838/39
the wet cultivation in the Padanah
Talook was limited from the extreme
drought of the season, yet the crops
raised in lands which possessed
the means of irrigation gave a good re-
turn - In fasly 1250 however, the case was
A.D. 1840/41
different as at the beginning of the
year and subsequently there were
seasonable falls of rain which enabled
the ryots to cultivate lands to a great
extent and the crops raised were
in a most promising condition, but
the entire failure of rain during
the Months of October and November
of that fasly when they should
have come to maturity impoverish-
-ed them and caused a scanty
return as the Board were already
informed by the several reports
on the Settlement of the Estates
under management for that
fasly; another cause for the dis-
-crepancy in the average, rates of
produce per Cutty between the 2 fasles,
is to be traced to the circumstance
of the quantity of the Produce in
fasly 1250 - in these estates having
A.D. 1840/41
to be apportioned on the large
extent of Cultivation in Kistafasly

which

which became unproductive and
which otherwise instead of being
C. F. P. as it now is, would have been
2 - 13 - " as it now is, would have been
nearly one half of the average rate
if fasly 1248. It is also to be observed
A.D. 1838/39
that in adverse seasons not only the
cultivation of wet lands but also
the return therefrom fluctuate
in an unequal ratio according
to the means of irrigation they
may possess at those particular
periods at which they were to come
to maturity - The fluctuations
under the circumstances
amounts to 1/2, 1/4 and 1/8 th and so
on below the full return in the
most favorable seasons -

In reference to Para 8
of the Board's Proceedings dated 29th
January last, calling for explana-
-tion relative to the amount of Deman-
-d on account of Maramut which it is
remarked instead of being one half
C. P.
of the sum of Rupees 582 - " - 7 shewn
in the account Current, or Rupees 291 -
Rs A. P.
is only 8 - 5 - 10, I have to state for the
information of the Board that one
half of the amount disbursed on acco-
-unt of Maramut can never be expected

to

Fort St. George 25th April 1844.

to constitute a demand on account of Maramut Nisf because to this Head are chargeable only those particular repairs for which one half of the expence is borne by the Ryots, the others being exclusively defrayed by Government. Full explanation as to the nature of works of irrigation the repairs of which are executed exclusively at the expense of Government as well as those for which a Moiety of the charge is recoverable from the Ryots &c. whose lands may receive benefit is given in Paran 50 of my report dated 20th October 1843 on the settlement of Estates under attachment for arrears of Revenue. In the Government Estates of Kytapully the whole expense of repairs is borne by Government and no part thereof is recovered from the Ryots under any of the heads of "Maramut Nisf" "Guttoo Soimoolo" or "Davabhagum". The lands of Padapatam are situated in the immediate vicinity of the sea by the Currents and tides of which they are liable to

Fort St. George 25th April 1844.

to be inundated. — To prevent this it has been found necessary to enclose them by an embankment without which they would be rendered useless for the purpose of cultivation. In this case the expence is entirely borne by Government the work not being a source of irrigation to the lands. The disbursements for Maramat in Fusly 1251 in A.D. 1841/42. the Estates under report amounted to Rupees 582- a. p. 4 - 7 - from which the expence of the embankment Viz. Rupees 565- a. p. 4 - 11 - being deducted as shewn in the Margin, left a sum of Rupees 16 - 11 - p. 8 - on account of those repairs of which a moity is

13- The current collections from all the Estates in Fusly 1252 A.D. 1842/43 exhibit a decrease of Rupees 461-4-7 and in the total collections to the 31st January there was a decrease of Rupees 5,321-12-8 as compared with the collections to the corresponding date in the preceding year- This decrease was occasioned by the falling off in the settlement already noticed-

14- From the above Statement it will also be observed that there is still a balance of Rupees 230-5-10 outstanding against all Estates of which the sum of Rupees 75-9-8 is due on account of tax on Palmira Trees which are unfit for Abkarry purposes and the remainder Rupees 154-15-10 must be recovered from the resources of Fusly 1253 A.D. 1843/44

With regard to the arrears outstanding against the Estates up to Fusly 1251 A.D. 1841/42 I beg to refer the Board to the Statement B which accompanied

accompanied my report dated 6th July last- which shews that a balance of Rupees 862-1-3 was outstanding up to April 1843 of which the sum of 257 Rs 6-2 is due from distressed Vcas ryots, and the remainder Rupees 604-11-1 must be recovered gradually from the resources of the ensuing fusles- Of the above a sum of 230 Rs 5-7 has subsequently been realized up to 31st January last, and the remainder Rupees 374-5-6 consisting of arrears of Settlements and Maramut Rists, the former being 185-13-10, and the latter 188-7-8 must be recovered from the resources of future years, for the realization of which prompt measures will be adopted-

adopted.

15. Referring to Para 10 of the Board's Proceedings dated 29th January last, requesting — that the amount which may ultimately prove to be irrecoverable on account of the balances outstanding on the Village of Hytapully should be specified, in order that sanction may be obtained for writing off in the Public accounts, I propose to submit the result of my further enquiry relative to these balances in my report for fusly 1253. A.D. 1843/44 on which occasions such portion of the balances which may be ascertained to be irrecoverable, will be recommended for remission.

16. From the following Statement it will be observed that the Settlement of Padanah & Padasatano Mootahs as well as that of Cuppaladoddy for fusly 1252 A.D. 1842/43 has fallen below the amount of its stipulated Peishcush by Rupees 4182-10-11 while that of Madaka Roodraveram and Hytapully has decreased by Rupees 2762-13-2 below the average Settlement of 10 last years prior to fusly 1242 A.D. 1832/33 making a total deficit of Rupees 6945-8-1.

The decrease referred to above is mainly attributable to the scantiness of wet produce in these Estates as well as the great falling off in prices in the year under reviews.

17. On reference to the Account current No 4 the Board will observe that the collection for fusly 1252 A.D. 1842/43 including Extra items

Items amounts to Rupees 12700 11as 5ps from which after deducting Rupees 2552.10as 1p on account of Sibbundy charges, advances for cultivation, repairs &c., the net collection amounting to Rupees 10148-4as-4ps have been carried to the credit of Peishcush. Pursuant to the instructions of the Board, arrangements were made to effect rents throughout the Estates for one, or more years, in preference to re-taining them under the System of a division of produce and offers have been received for some, but the amount being far below the average revenue of former years, they were returned with instructions to the Sah--ibdar to invite fresh proposals.

18. The Village of Singarayapollam appertaining to Padapatam Mootah which is composed of entirely dry land has however been settled for a trien-nial rent from fusly 1253 up to 1255 to S. Pydaya inhabitant of Padanaik, at a gradually increasing list noted in the Margin in which the average list of former years is also shewn, from this the Board will

will perceive that the amount of rent in-question exceeds the Settlement of the pre-ceding fusly by Rupees 62-3as-0p while the average of 10 and 20 years immediately preceding fall short of the present rent - the former by Rupees 49-6as-3p and the latter by Rupees 26-14as-7p. The accounts of the office shew that this Village was rented in fusly 1241 A.D. 1834/35 for Rupees 145 but that in the subsequent years it has been managed under Amara tenure, and that from this mode of Settlement the revenue between fusly 1245 A.D. 1835/36 and 1252 A.D. 1842/43 has fallen to an average of Rupees 113-7as-0p only, the lands in this Village having to be cultivated by Poyatary ryots. The rent now offered appeared in all respects favorable, and it accordingly recommended for the confirmation of the Board.

19. Of the Estates which were in possession of their Proprietors up to the close of fusly 1251 A.D. 1841/42 as stated in Para 26 of my report dated 6th July last, the Estates specified in the Margin have been subsequently attached for arrears of revenue as reported to the Board under date

Fusly and subsequent thereto were Rupees 1.88.237-4-6 leaving a balance of Rupees 42.226-3-3- particulars of which are shewn in the Margin.

32. There was a balance of Rupees 4.62.19-11-3 Current and arrears outstanding against the Wuyore Zemindary up to March 1843 which the Proprietor Sobanadry Apporow having failed to discharge a portion of his Estate consisting of Noonnastalum Purgunah was attached as reported to the Board under date 20th April last. The subsequent arrear on account of Peishcush for Fusly 1252 / A.D. 1842/43 being Rupees 36.750 has swelled the arrear to CRs 82.969-11-3 from which the sum of CRs 56.942-12-10 paid by the Zemindar

23. With regard to the balance of Rupees 27.142-14-7 outstanding against the Estates of Bezoara & Coosoolloor the Zemindar and her surety the Zemindar of Nuzeed have been repeatedly called upon to pay the arrears, but as they have failed to conform to their engagement, instructions have been issued to the Tahsildar to ascertain and report on the resources of the year with the view of judging whether the payments made by the Zemindar are proportionate to the resources of the Estates under notice, an Abstract of the accounts furnished by the Tahsildar for the Fusly under review is given in the Margin which exhibits a great falling off below the amounts of Peishcush due thereon. The punctual realization of the large amount of Peishcush

the Estates of Bezoara, Soodjoor and Coosoollor depends entirely on abundant dry produce in the two former, and wet produce in the latter accordingly paired with good prices. These have failed in Fusly 1252 (A.D. 1842/43) which has been the cause of great diminution in the Payments of Peishcush. The report called for by the Board in their Proceedings dated 20th May 1839 conveying the orders of Government on the question mooted by the Honorable the Court of Directors as to the propriety of modifying the Assessment by a permanent or temporary abatement of Peishcush will be submitted shortly.

24. The Mootah of Mooteen belonging to Vellumby Ramakrishnarow has been attached for arrears as reported to the Board on the 4th July last. The Balance outstanding against the other Estates 4. 5. 6 and 7 enumerated in Para 19 of this report will be recovered as early as possible.

25. Statement B will show the payments on account of Current and arrears on account of

of each Estate in Fusly A.D. 1252 / 1842/43 in comparison with those of the preceding Fusly. It will also be seen that there was a decrease of Rupees 13027-15-10 in the payments of Fusly A.D. 1252 / 1842/43 on account of Nundegamah Zemindary below that of the preceding Fusly. The Settlement and Collections of the said Estate during Fusly A.D. 1251 / 1841/42 and 1252 / 1842/43 as well as the net sums carried to the credit of Peishcush together with the result of the management of these Estates by Ramanader Bauboo, will form the subject of a Separate report. The aggregate receipts on account of the remaining Estates for Fusly A.D. 1252 / 1842/43 exhibit a decrease below that of the preceding Fusly of Rupees 27,985-11-9-

but if each Estate is separately considered, there appears an increase of Rupees 10,540-8-8 in some, and a decrease of Rupees 38,533-9-2 in the other particulars

particulars, of which will be found on reference to Statement B which will shew a falling off. Rupees 31.850-12-4 in the payments on account of Wuyore Zemindary, that in others being only Rupees 6.682-12-10. The said decrease has been more than made up by the payment of Rupees 39.689-9-2 made by the Zemindar of Noozeed since the close of the Fusly, so that the balances outstanding against the Wuyore Zemindary for Fusly A.D. 1252 / 1842/43 has been reduced to Rupees 13,255-3-10. This balance will be collected within the close of the current Fusly.

of that year has subsequently been collected. The remaining sum of CRs AP 1155-15-3 consists of arrears of Fasly 1254 / 1834/35 which has been reduced by subsequent payments to CRs AP 1080-15-3. This Estate has been transferred by V. Venkatanarsumah adoptive Mother of V. Sobanadry Row to Venkata Gopaulrow and Venkatarow who entered into an arrangement on the 12th November 1840 for the discharge the same by four annual instalments, which was accordingly sanctioned on the 20th September 1840. These instalments have been paid with the exception of Rupees 1080-15-3 on account of five last instalments which will be hereafter recovered-

The arrears outstanding against the several Estates up to February last. is particularized in the following Statement-

From the Collector of Guntoor ... Para 1.

Reporting on the traffic between his district and the Nizams Territories and the rates of duty applicable thereto —

I have the honor to acknowledge the receipt on the 15th instant, of your letter dated 4th idem. calling for a concise Report of the Imports and Exports from, and into the Nizams Territories for the last three Years, with my opinion, as to whether the duties provided under Act VI of 1844 for Goods conveyed by British Bottoms, or those provided for Foreign Bottoms, would be suitable to this traffic —

2. The accompanying Statements Nos 1 and 2 furnish as far as can be procured within the prescribed time the information called for. It will be observed that the Chief Exports from this District, are Cloths, Tobacco, Yarn, Iron, Cotton, Silk and Grain; The Chief Imports are Cloths, Dyeing bark, Tamarind, Oil Seeds, and Hides. There are no accounts for the incoming

Fort St. George 25th April 1844.

coming of Articles, except Salt, which were free of duty up to the passing of this Act. Among them however Sattfish and Chillies are exported to the same extent —

3. It appears that schedules A and B will require some modification to render them applicable to the frontier traffic, whether the higher or lower rate of duty be adopted. With respect to Imports, grain and pulse, other than Rice and Paddy, under Schedule A are free; whereas the same Articles when Exported are under Schedule B, liable to a duty of 1 or 2 Annas per Bag. I would recommend that the low rate of duty be adopted, for these Articles, both on Export and Import —

4. Tobacco has hitherto paid a duty of 5 per Cent. To raise this duty to 20 per Cent. on exportation, would I conceive be decidedly inexpedient. Ten per Cent is at least as high as it can bear. —

5. On piece goods the higher rate of duty, videlicet 6 per Cent on Export and 7 per Cent on Import, would I think be suitable, being little higher, than that now paid. Some modification would however appear necessary of the present rules for stamping Cloths and levying the duty on them. As connected with this subject, I forward —

the accompanying Copy and translation of a petition received from certain Cloth Merchants.

6. On cotton I think that one Rupee and Two annas per Maund would be considerably more than has been hitherto levied.

7. On other articles I am of opinion that the duty of 6 per Cent on exportation and 7 per Cent on Importation will be proper.

8. It would seem advisable to provide for the passing the frontier of Chowkies, free of further duty European Liquors and provisions which have paid the prescribed Sea Custom duty on landing at the Sea Ports, and that other Goods first Imported by Sea should only

on the frontier be liable to the difference between the duty paid, and that liviable under the frontier Tariff.

Guntoor Zillah Collectors' Circuit Cutcherry Dindy 18th April 1844. (Signed) H. Stokes Collector

is, that one responsible person remains at the place where the coloured cloths &c. are caused to be made, carefully packed in bales, and on bandies, and sent under the care of confidential bandy men, to the places consigned, where another copartner stays and receives the goods; Therefore, how is it possible for us to pay duty, as proposed, at the frontier stations while as stated above one owner is in one part of the Country and the other partner of the firm in another part. what store houses can we at present have along the road? How is it possible for the numerous bandies to be unpacked by the bandy men themselves, who are few. and where can proper Coolies be got at the time. Therefore, we cannot in the least countenance the present mode of paying duty on the road. We beg to add that heretofore, after all the Circar duty was levied from us at this station, we used then go the expense of baleing and packing, the bandies with an Establishment under Sowcar of about 20 or 30 Men, on pay to look after sundry minor business of

of the firms, and even then in some instances not satisfactorily done, while it is thus, How can the bales and bandies be unpacked, and packed again on the line of March, merely for the purpose of paying duty. While we have no trust worthy men and other proper people to secure the goods, with no places to keep them in, and no proper and required number of men procurable at all times If we were to settle our affairs at this place and then proceed to the frontier station and there be detained, all our affairs will undoubtedly be spoiled. The bales being unpacked there, would be injured to all intents and purposes; therefore, for this, and many other reasons which can be assigned, it is utterly impracticable for us to go to the frontier Ghauties, and there pay the duty leviable by Government. We were at first very glad that the transit duty had been abolished by such Gentlemen as your honor the emblem of Justice and attributed this to our good fortune but the mode suggested of Collecting duty at only certain spots at

Fort St. George 25th. April 1844.

at a distance from the places where the Arti-
cles are packed &c. proves highly detrimental
and quite grievous to us. We pray that all the
circumstances explained by us in this petition
will meet with your honors' favourable, and
deliberate consideration, and that as the pay-
ment of duty has been abolished; we may
also be allowed the privilege of participating
in the boon. for if we have really to pay
duty at the Chowkies at a distance we
beg that duty may be taken from us here
at the Town, and that a Dookoom may
be issued accordingly. If it were only once
we could by any manner of means comply,
but in a year we generally make 6 or 8
consignments whenever articles are in the greatest
demand. The goods now to be sent are ur-
gently required at the up countries, and should
they not reach in time we will be put to
much loss; Therefore we solicit your honors'
assistance in this instance and trust
our petition will be duly perused and
that in this instance your honor will

be

question as to whether the rate of duty on Imports and
Exports should be that fixed for British of Foreign -
Bottoms has been determined by the Proclamation of 10th.
April 1844. No order can be given regarding Para 5
and the petition therein referred to. If the Merchants
were to take out their certificates from the Collector at
the Town of Guntoor or other place contiguous
to their weaving Establishment they would still be lia-

taken Rowanahs at the Frontier -

Read the following letter

To C. C. Lovell Esqre

Acting Secretary to the
Board of Revenue
Fort St. George

(19)

From A. Frazer Esqre
Collector of Chingleput

Sir,

Reporting on the subject of the emoluments of the Village servants and submitting statements for the same

Para 1. I have the honor to request you will lay before the Board of Revenue the subjoined report and accompanying Statements relative to the emoluments enjoyed by the five most useful and necessary classes of Village Servants in this District, Viz, the Putta moneagars, the Curnums, Notta gars, Taliars and Vettiams.

2. The experience of the Board and the well known fact of the whole of our Police and Revenue administration being based on the employment of the Village servants render it unnecessary for me to enter into any lengthened arguments to prove the necessity of these classes being maintained on an efficient footing to render them responsible to the Government Officers for the due execution of the trusts imposed, and that deprivation or suspension from Office should be an actual punishment.

3. This subject has for some time occupied my serious attention and I regret to say

I

Fort St. George 25th April 1844.

I have found the establishment of the Village servants generally inefficient, arising chiefly from the insufficiency of the remuneration accruing to the persons by whom the duties should be performed, caused in some cases by there being no established sources of remuneration whether in rent free lands or grain fees, and in many cases from the minute portions into which the rent free service lands and emoluments of the Office have been divided under the Hindoo Laws of Partition, and in some cases from the lands and emoluments originally set apart for that purpose having been assigned away by the ancestors of those to whom the duties have now devolved by inheritance.

4. Although the remarks, accounts and Statements now submitted refer more particularly to the Villages under Circar management, there can be no doubt that whatever arrangements are made to assist to the efficiency of the Village servants therein, should hereafter be likewise carried out in those held under Zemindary and Shrotriem tenure as the Police duties in them remain in your hands.

Fort St. George. 25th April 1844

I now beg leave to solicit the attention of the Board to the accompanying 5 Statements marked as per margin, the former of which exhibits the Ayacut Beriz of the Sheiegal or cultivated and arable lands, the extent of the Village maneums, and the estimated value of Coopattum, Swatumtrum and other grain fees enjoyed by the Merasidars in 1358 out of the 1575 Villages now under Ryotwar settlement, (the remaining 17 Villages having been transferred to this District from that of North Arcot,) and the remaining 4 Statements shewing the incomes derived from Maneums and grain fees assigned for the remuneration of the following 4 classes of Village servants, Vizt. Curnum, Kolagar, Tookery, and Veltiam.-

6. The first of the five classes of Servants whose cases require consideration is that of the Puttamanegars or Head Ryots. The Revenue duties required from persons of this discription, are to exercise a general superintendence over the cultivation of the Village, to aid the Tahsildar in arranging with the Merasidars for the cultivation, to obtain Poy Karry cultivators for such lands as they

may

may abandon; to settle annually a report to the Collector any disputes that may arise relative to the occupancy & irrigation of lands; to superintend under the native Servants to the execution of repairs to the Tanks and watercourses; to keep a careful watch over the public works and means of irrigation, sending all trivial repairs requisite for their protection to be immediately performed by the body of cultivators, to see that true accounts of the cultivation &c are prepared monthly by the Curnum, and forwarded to the Tahsildar, to attend at the Cutcherry during the period of the annual Settlement, prepared to furnish correct information on any point relative to the cultivation, States of Crops, rights of occupancy and distribution of water, to superintend the realization of the revenue of the Village, granting to the Ryots receipts for the sums collected, and finally to exercise a general control over all the Village Officers.

7. One of the Attamangars of each Village, in the capacity of Village Monsiff is specially required to watch over the Police of his jurisdiction, to detect and punish all persons guilty of petty thefts and affrays, to report to the Heads of Police the commission of more

serious

serious offences, to aid and assist in the detection of the perpetrators, to apprehend and send to the District Police all persons selling property suspected to be stolen and to take charge of all strays.

8 In his capacity of Village Monsiff he is also authorized to decide suits for money or personal property not exceeding 10 Rupees, or as an arbitrator by the consent of both parties, under certain restrictions, suits to the value of 100 Rupees, to superintend the assembly and proceedings of Village Punchayets and finally to cooperate in the execution of all orders of his superiors relative to the Village.

9 No special remuneration whatever for these important duties is enjoyed in the 1538 Villages by the Persons officiating as Attamanegars and Village Monsiffs, they merely participating in the Granca Manneam, Swatantram and grain fees, according to their respective shares in the Monagay right of each Village. That the duties should not be efficiently performed under such circumstances is not a subject of wonder, and it is therefore necessary to examine whence the remuneration should come, the extent and value of Manneam Lands that might fairly be made available for these purposes and

what

may chuse him, to settle annually a report to the Tahsildar any disputes that may arise relative to the occupancy or irrigation of lands, to superintend under the native Servants the execution of repairs to the Tanks and watercourses, to keep a careful watch over the public works and other means of irrigation, causing all trivial repairs required for their protection to be immediately performed by the body of cultivators, to see that true accounts of the cultivation &c are prepared monthly by the Curnum, and forwarded to the Tahsildar, to attend at the Cutcherry during the period of the annual Settlement, prepared to furnish correct information on any point or relative to the cultivation, state of Crops, rights of occupancy and distribution of water, to superintend the realization of the revenue of the Village, granting to the Ryots receipts for the sums collected, and finally to exercise a general control over all the Village Officers.

7 One of the Attamongars of each Village in his capacity of Village Monegar is generally required to watch over the Police of his jurisdiction, to detect and punish or persons guilty of petty thefts and offences, to report to the Heads of Police the movements of strangers

serious offences, to aid and assist in the detection of the perpetrators, to apprehend and send to the District Police all persons selling property suspected to be stolen and to take charge of all strays.

8 In his capacity of Village Moonsiff he is also authorized to decide suits for money or personal property not exceeding 10 Rupees, or act as an arbitrator by the consent of both parties, under certain restrictions, suits to the value of 100 Rupees, to superintend the assembly and proceedings of Village Punchayets and finally to cooperate in the executions of all orders of his superiors relative to the Village.

9 No special remuneration whatever for these important duties is enjoyed in the 1558 Villages by the Persons officiating as Attamonegars and Village Moonsiffs, they merely participating in the Grama Manneam, Suratum Cum and grain fees, according to their respective shares in the Monaiy right of each Village. That the duties should not be efficiently performed under such circumstances is not a subject of wonder, and it is therefore necessary to examine whence the remuneration should come, the extent and value of Manneam lands that might possibly be made available for these purposes and

to that

what additional burden ought to be borne by the State with the view of placing the persons performing these duties on a more respectable and efficient footing.

10. In the Districts of North and South West the Gramanamaneem and Meerasy fees were formerly resumed by Government, and a fixed money allowance regulated by the Revenue derived from the Village granted to the Puttamangaru and which system of Police, still continues in force in the latter District; whilst in the former the payment of money allowances has nearly ceased, and the resumed lands and Meerasy fees are enjoyed.

11. The total Ayacut Beriz assessment on the cultivated and arable land in the 1558 Villages above alluded to, amounts to Rupees 3,42,718. but in 331 of these there is no Gramanam whatever in the remaining 1227 the extent of manam comprises 5,403 of Dry wet and Garden land, annually estimated at 9,803 or 3¼ per Cent. The highest per Centage of the value of the manam compared with the Ayacut Beriz of the Villages being 13 per Cent and the lowest ½ per Cent

but dividing the income derived from the Gramanamaneem of these 1227 Villages upon the general Ayacut Beriz of the 1558 Villages the average per Centage is reduced to 2 1/8 per Cent.

12 The estimated annual value of the grain fees in the whole of these Villages is Pagodas 1,032, which being divided upon the general Ayacut Beriz gives an average of 3/8 per Cent, the emoluments therefore derived by the Meerasdars from these two sources amount to 6 per Cent.

Fort St. George 25th April 1844.

Pros 4398.

13 In the 33 Villages in which there is no Grama monaeum, are included 32 Rakedayam Villages situated in them the Town of Conjeveram, the revenues of which consist entirely of ready money collections, such as tax on trees mettotarkha amounting to about on Pagodas 1/2 annually. The duty of collecting the revenues in these Villages is at present performed by a Villakolar under the superintendence of the Tahsildar, and there seems no reason to alter the arrangement or to appoint Kattamonegars to them.

The extent of remuneration which should be granted to the persons performing the duties of Kattamonigars and Village Monneyff ought not, themselves, to be less than 2½ per Cent of the revenue of the Village, whether it be derived from ready money payments or by means of rent free land, a scale that cannot I imagine be considered exorbitant, when contrasted with the responsible duties required from them.

14 Four modes of remunerating the services of this class recommend themselves to me.

1st By the grant of money allowances from the Government treasury.

2

2nd By

Fort St. George 25th April 1844.

2ndly By the resumption of the whole of the Grama Monaeums and grain fees as has been done in South Arcot, and the payment of a money allowance to the Officials filling the situations of Village Officers.

3rdly To resume the Grama monaeums only, granting a ready money remuneration to the Kattamonegars.

4thly Wherever the Village monaeum exceeds 2½ per Cent of the revenue of the Village, that a portion equal to that per centage should be set a part for the remuneration of the Village Kattamonegars, leaving the remainder and the grain fees to be enjoyed as hitherto; and that in those Villages where there is no Village Monaeum, or where the Village monaeum is of less extent and value than 2½ per Cent of the Village revenue, rent free Lands to that value in the one instance, and Lands in the other with an addition to make them up to the same value be set a part for the same purpose.

15 On the most deliberate consideration that I have been able to give to the subject, the last mentioned of these plans

plans appears to me that most deserving of adoption, as, in acting upon it, the cost to the state for the attainment of so desirable an object will be comparatively small, and the interferences with property, which though originally conferred for public purposes long custom has led the Meerasdars to consider as private rights, will be less momentous.-

17. The more great annual expence would appear to be an unfortunate objection to the first suggested mode of remuneration and the hardship of resuming the whole of the emoluments so long enjoyed by the Meerasdars of the Villages, with the discontent it would occasion render the 2d plan equally objectionable.

18. With regard to the 3d mode of arrangement proposed, it will be observed on referring to the Statement appended to Para 12. that should the whole of the Grama Manaeum be resumed amounting to 2 7/8 per Cent of the Ryacut Rent, and a monopoly Commission of 2½ per Cent be granted to the persons officiating, there will be a saving of

9/8

3/8 per Cent to the Government, but in adopting that plan, the Meerasdars of those Villages in which the Grama Manaeum now enjoyed greatly exceeds 2½ per Cent. might have grounds for complaining of the excess of Manaeum resumed in other Villages being expended on their Villages. Should however the 2d mode of settlement lastly proposed be adopted the cost to Government would be Pagodas 2,563. or ⅞ per Cent on the Rent, and which might be met by the assignment of waste lands to that value.

21.

On referring to the foregoing statement it will be remarked, that with the exception of the Backerauk or uninhabited, and the three Villages alluded to in the last Para, the percentage of remuneration enjoyed by this class of persons varies from 2 to 15 per Cent of the Rents of the Villages, and which would be ample for the purpose were it enjoyed by the persons upon whom the duties devolve - but these emoluments and grain fees have been so divided and subdivided that it often occurs, that the common & the most needy will arising from the system that has been adopted of permitting the offices and the remunerations not merely to be hereditary, but to be considered as the private property of the whole family so that each member has a claim with his share of the produce, the right of sharing the accounts in turn, whereby the frequent change of accountants, loss of records inconveniences, and want of responsibility arise the invariable answer when any error or fraud is discovered, being that I was not here time to work the account & that person or that the error has remained through the

ignorance of what had previously taken place - The only remedy to be adopted for such a system, is to select and nominate any one or more members of the hereditary family for the performance of the duties, and that a portion of the Emoluments and grain fees not exceeding 5 per Cent of the Rents of the Village, should be set apart for the remuneration of those nominated to do the duties, leaving the overplus to be enjoyed in portions as hitherto, and no further changes should be made without the consent and permission of the Collector.

22. For the three Villages before alluded to, the average revenue of which is stated in the margin, a yearly Money allowance should be granted to the persons executing the duties of Canoon and which might bear the rate of 6 Rupees per Measure, or 48 per annum, on account of the trifling exceeding the other Rents but considering the necessity to the Residency, and the constant calls on the Canoon, the emoluments are more than requisite - With respect to the 4 Backerauk Villages alluded to in Para 3 the Canoon & Peons do not receive any income from the lands are cultivated but they will claim the usual grain fees when they are brought under plough

24. The emoluments of the Notagars in 938 of the above noted Villages comprizing 413 Cs. of Rent free lands valued at 1594 Pagodas and grain fees estimated to produce Pagodas 3324 annually amount to 2¾ per Cent of the Rents of those Villages, whilst in the remaining 246 Villages in which there is no Maneum but grain fees, the latter are estimated to produce Pagodas 511 annually or 1¾ per Cent, the percentage in all varies greatly, the highest being 13 and the lowest 5/8, the very high rate of percentage however only exists in 7 very small Villages, excluding which the highest per centage is 8¾.

The office of Notagar as in the case of the other Village servants, is hereditary, and the duty to be performed by the persons officiating consists, on being furnished by the Cunnum with the detailed list of the demand for the year on each ryot, to collect under the orders of the Head of the Village the amount of instalment due, to grant receipts for monies received, to have the temporary custody of the revenue realized, and eventually to accompany the Collection to the Taluk Treasury being answerable for any base Cans received. The Notagar has also to keep detailed accounts of all the Money transactions connected with the revenue of the Village.

Fort St. George 25th April 1814

26. An income of 1 per Cent would I conceive be sufficient for the remuneration of the Village Notagars, and I would therefore suggest that additional maneums equal to that per Centage be granted to the Notagars of 37 Villages wherein their present income does not exceed 5/8 per cent; and of 76 Villages the income in which falls under ¾ per Cent - new maneums should also be granted in 347 out of 374 Villages in which the Notagars enjoy no incomes whatever. The remaining 27 are Rockadayem Villages included in the Town of Conjeveram.

27. The subjoined Table exhibits the actual receipts, with the value of the additional lands proposed to be given. In the 27 Rockadayem Villages above referred to, the duties being transacted through the Zillahdar, no Notagar is requisite, in the Statement therefore no remuneration is proposed - Should the suggested grants be approved of the annual value of the Lands now waste that would be given up would be Pagodas 790.

in 1297 Villages there are assigned to
them 4412 Cawnies of land the value
of which upon the Ayacut Beriz is
Pagodas 5714 — or 1/8 per Cent,
whilst the value of the grain fees
amounts on an estimate to Pagodas
13762 or 4/8, making together 6/8 per
cent. In the detail however the ave-
-rage varies from 1/8 to 13 per Cent. In
239 Villages the Sookeries have no
Maneam lands, but certain grain fees
yielding from 5/8 to 13/2 per Cent.
In 22 Villages there is no remunera-
-tion whatever for that Officer. The per cen-

the revenue of the Village is large, but a
still higher rate of per centage on a small

Villages in which there are no Manieums, Merah &c

Fort St. George 25th. April 1844.

29. It is necessary that person so employed should be adequately remunerated, and I would therefore suggest that small additional Maneums be granted to those individuals of this class in 113 Villages in which the income from Manieums and grain fees together, fall short of 3 per Cent, and also in the 81 Villages in which they enjoy grain fees only.

30. Manieums should likewise

likewise be set apart for these classes in 19 of the 22 Villages in which there are neither Manaums nor grain fees allotted, whilst in the other 3, there being no lands to assign, a small ready money payment should be granted amounting to about

32 The last class of Village servants
are the Vetteans, who like the Talliars, are required to be
constantly in attendance in the Village to perform such
duties as may be required of them by the Moonsiffs
and Puttamanecagars, they have likewise to watch the
various sources of irrigation, and during the period
of the Monsoon, or when the freshes in the rivers are
expected, to remain on the Banks day and night
in order to give notice to the Village authorities
should any danger be impending, they have also to
attend to the distribution of water to the fields
according to the respective Shares of the Merasdars,
and likewise to be in attendance at the Threshing
floors to measure the grain when beaten or trodden
out. There is generally one Vettean in each Village,
but in the larger Villages two or more.

* Dry land 1077-6/16 as
Wet land 527-5 5/16
Garden land 3-10 3/16
1853-6/16

Pags 54.15 or 2 7/16 per Cent.

This class of Servants at present enjoy
33 Maniems in 875 Villages comprizing *1853 Cawnies
yielding on an average Pagodas 1912 or 13/16 per Cent
upon the Beriz of those Villages, but they have
also grains fees by which their receipts are augmented
to 3 1/16 per Cent. Some portion of the Maniems are how-
-ever assessed with a quit rent varying from 1/2 to 1/4 of
the Government share of the produce, and some of the
lands are of that inferior kind, which can only be
cultivated each alternate year.

In 639 Villages there is no Maniem, but
34 grain fees amounting to 2 per Cent upon the Beriz,
whilst in the remaining 44 there is neither Maniem
or grain fees, and consequently no Vetteans.
The details of the above are shewn in the subjoined
Table.

Villages in which Sotics are Manicou Land Merah Do.

35- It will be observed from the foregoing Statement that in 139 Villages the incomes of the Vettean derived from both sources do not exceed 2 per Cent which considering that their whole time is devoted to the Services of the Village is insufficient, and I would therefore suggest such an addition to their Maniem in waste lands as would raise their incomes to 2½ per Cent.—

36- In 494 Villages, in which there are no Maniems at present, rent free lands to a certain extent

extent should be allotted, so that their income with the grain fees should be equal to those abovementioned, and in the 44 Villages in which there are neither Maneems or grain fees, and consequently no Vetteans, Men should be appointed, and Maneems according to the extent and revenue of the Village allotted except in the three Villages of Sydapet, Saurney, and Wiss Mylapoor, for which a Monthly pay of 3½ Rupees should be allowed. In the remaining Villages the remuneration in lands and fees is sufficiently high already.—

38- In considering the subject of this report it must be borne in mind that although there are certain grain fees allotted in most Villages for the remuneration of the Village Servants the value of which were deducted from the gross produce in forming the accounts upon which the Survey assessment was founded, the Village Servants have much difficulty in realizing their dues from the ryots and those of the lower Classes such as the Tallairs- and Vetteans in particular. Formerly when the Villages were under Aumany Management and the rent was received in produce, the Government servants were always present when the grain was measured and they had then no difficulty in obtaining their dues, but the introduction of fixed Money rents having left the Cultivators at greater liberty to thrash and measure their grain when best for them even a portion of their fees- and I think it would therefore be advisable that the fees should be included in the Puttahs, collected by the Government Officers, and paid to the Village Servants—

39- A general abstract of the Maniams proposed to be granted to the five several classes of Village servants is subjoined, from which it will be observed that the Survey value of the Waste lands proposed to be allotted for this purpose amounts to Rupees 23,668 per Annum, and the payment in Money to Rupees 132, making an aggregate of 23,792 Rs per Annum- The Maniam lands proposed to be allotted being entirely of Waste lands the actual Revenues will not be affected, and the proposed arrangement as conferring the means of forming efficient Village Establishments will tend equally to the benefit of the people and the state—

40.

Since the preparation of the accounts herewith forwarded, and the drafting of the foregoing report, a Copy of the Act XI of 1843 of the Supreme Government has reached me, and I cannot but take this opportunity of expressing my conviction of the advantages that would be derived from extending the provisions of that regulation to the Madras territories, the tenor of the Act is most applicable to the state of our Village Servants

Fort St. George 25th April 1844.

and much good, I am sure, would arise from its being acted upon in the Districts under the Madras Government, the provisions of it also are much in accordance with the Sentiments I have embodied in this report.

Thereon Resolved that the foregoing letter with its enclosures be submitted for the orders of the Most Noble the Governor in Council with reference to the Resolution of Government dated 11th June 1839 No. 764 - The Board recommend that sanction may be granted for the charges incurred from the surplus Pagoda Funds of Tanjore on account of the Lungur Khanahs established at Nagapatam and Combaconum amounting in the aggregate to Rupees 740-2-4

(25)

From T. Blackburne Esqre Pre Collr of Madura - Forwarding return of deficiency & surplus in salt heaps for 1844 and begging sanction for Employ of Cavilgars to prevent the carrying off spontaneous salt.-

1st June 1839.

Sir,

1. In reference to the 18th para of the Standing rules for conduct of Salt Pans I have the honor to forward Statement of the Surplus and Deficiency in one heap of each of the pans of this Collectorate.-

2. I beg to refer you to my letter of the 1st January 1842 regarding a cut in the Pombarary Tharavay in vicinity of Valuvoor Rum Pans by which

which I hoped to have prevented the formation of Spontaneous salt of a deliterious nature, and thereby removed the uncontrollable incitement to theft and great loss of revenue, and beg to report it, from the information of my head assistant, who has just visited it, and of the Salt Amildar, who has watched it from its commencement, so entire a failure that I no longer wish the Civil Engineer to be troubled with inspection of it.-

See Collr to Board D. P. W. 15th Jany 1844

But as the evil is so crying and in the current year likely to be so much more prejudicial from accident of the season, than usual, I hope the Board will procure sanction for a small expenditure I have authorized, in anticipation, and which may be recommended hereafter as a permanent expence or abandoned for trial of something else, as soon as the result of the present year is known. It is, to grant to each of 4 Villages a Monthly pay of 3½ Rupees

Saloovarow Brea Colum Mareyoor & Peedarow

Fort St. George 25th April 1844

Rupees for Maniagars. For though it would be physically impossible for them to drive away depredators they may have influence to prevent the attempt. No force of peons that I can afford would have the slightest chance of success without ball cartridges which the Board have prohibited. and much as I disapprove of this kind of payment of black mail I cannot at present think of any other method.

and surprised the Chokee at Kumbum on the border of the native state of Travancore, because I deemed its continuation illegal under the authority of the act to which I was referred, till such time as the Most Noble the Governor in Council availed himself of the power given him by Section VII and X to declare if Travancore was to be considered a foreign Country by notification in the Fort St. George Gazette, and by whom the duties were to be received.

3. Yesterday I gave orders for the re-establishment of that Chokee with directions to levy at the rate fixed for British Bottoms, pending the Boards future instructions.

The Country of Travancore is divided from the Dindigal valley by woody mountains, over-run with Elephants and very feverish; and has only one bullock pass at Goodaloor which is the route that should be fixed for the admission and exit of goods under Section XII of the act. It is 6 miles from the Custom House at Kumbum.

From the Princ.l Coll.r of Madura

Reporting the state of traffic with Travancore & submitting returns for last 3 years & stating opinion of impropriety of imposing the recommendation for levy of duty at the rate fixed for Brit.h or Foreign Bottoms

In answer to your letter of the 4th received on the 11th Instant requiring within 4 days of its receipt a report on the Traffic with the Native state bordering on this Collectorate, its imports and Exports for the last 3 years and my opinion if it can bear the duty leviable on goods imported on foreign Bottoms, as provided for in Schedule A annexed to act VI of 1814, I have the honor to inform you the country of Travancore is divided from the Dindigul Valley by wooded mountains, overrun with Elephants and very feverish and has only one Bullock pass at Goodaloor at the very top of the valley the imports from Travancore are almost exclusively Cocoanuts and prepared betel nut, the growth of that country, whilst the exports from Madura are, as almost exclusively

piece goods manufactured in Madura — for the consumption of Travancore, and under this consideration I cannot but recommend the lower rate of duty or that on British Bottoms: but in ignorance if the sea ports of Travancore belong to the Company, or the rate of duty that would be imposed upon imports by sea by the Native state of Travancore I cannot judge of the propriety of conforming the present small traffic to the lower rate of duty:

To E. C. Lovell Esqre

Acting Secretary to the Board of Revenue

Fort St. George

(36) Sir,

From J. A. Huddleston Esqre Collr of Madura } I With reference to the orders of Government on my Statement of proposed Tuticory advances bearing date the 23 November last, I have the honor to bring to the Notice of the Board of Revenue that the quantity of Salt manufactured up to the 7th Instant is estimated at Garce 825-350— of which G. 37-200— have been already removed to the Madras Golahs for Home consumption.

2 From the shallow state of Cochrane's Canal, although certain parts of it have been deepened at

a recent period, and from the great difficulty of getting Boats on reasonable terms for the Conveyance of Salt to the place of store, on which subject it is my intention to address the Board at an early date, it appears to me desirable that part of the Salt referred to above should be removed to the platform at Tuticorin, the navigation of the River between that Village and the Pans being perfectly easy at this time of the year. I would accordingly beg leave to submit, for consideration that of the G. 788-180— now heaped in the vicinity of the pans, only G. 300 be conveyed for the present to Madras, and that the residue, G. 488-180— be removed for the purpose of being deposited on the Beach at Tuticorin from the quantities produced subsequently to the 7th Instant, and there is every appearance of the manufacture being carried on to a sufficiently large extent the difference to make up the full quantity for Home consumption.

825-350—
37-200—
788-180—

sumption can be brought down little by little, or as soon as the free passage of Boats on the Canal is found to be practicable, whilst at the same time, the further supply required for export to Calcutta can be stored at the proper place in such proportions as circumstances may render requisite.

3. The adoption of the arrangement suggested by me will render the small platforms near the pans, on which salt is now so fully heaped, available for such additional quantities as may be scraped from time to time during the season of manufacture.

4. Of the quantity ordered to be exported from Madras to Calcutta for 1843, Viz. B. Maunds 350000 that actually shipped was only B. Maunds 62250 3/10, in consequence of a deficiency in store, and the Balance of the Bengal Indent was thus B. Maunds 287749 4/10. This may have been

assigned to some other Maritime Districts; but as I find that, of the quantity allotted to this Agency, B. Maunds 298180, have not been shipped from, I presume, a sensible cause; perhaps the Board may deem it unobjectionable to authorize any quantity allowed to be removed to Cuddalore immediately by being supplied on application for exportation to Calcutta, on account of the said B. Maunds 298180, pending the receipt of the usual Indent from the Supreme Government for 1844.

Mr Freese will be pleased to give effect to the orders of Government regarding the increased rate of remuneration to be allowed to the Ganadias for procuring the jungle products and to report whether in his opinion any feasible plan can be adopted for ameliorating the condition of this class of people with a view to improve the condition of a somewhat similar class in the District of Malabar called Paraiahs the Collector recently proposed that they should be trained to habits of industry and made agriculturists, and that lands should be given to them for cultivation on easy terms and it occurs to the Board that some such measures could be adopted to improve the condition of the Ganadias.

Read the following Extract from the Proceedings of the Board of Revenue.

On the subject of improving the Village Police in the District of Trichinopoly.-

(Here enter 16th Nov. 1843. No. 5845.)

Bd's Proceedings Para 3.

1. Sir reviewing the foregoing proceedings of the Board, with the voluminous correspondence to which they refer, the Most Noble the Governor-in-Council observes that throughout the Province and the neglect to carry out the provisions of Regulation XI of 1816. caused the existence of the Cavelly System of Village Police and the defects of the Cavelly System are declared by all authorities, compatible only with a weak and inefficient Government, unable to protect its subjects; and there can be no doubt that in it is to be found the root of the evils which it is now sought to remedy. This system it is probable has been also more fruitful of evil in Trichinopoly than elsewhere, not only from the long

2. period

Fort St. George 29th April 1814.

period during which it has there prevailed: but from the character and predatory habits of large numbers of its population and from the fact that they as well as the great body of the subordinate Officers of Police are allied by ties of caste and of hereditary allegiance to the Head men Cavilgars. It is to be expected therefore that the system will only give way gradually as we more adapted to the circumstances of the Province under British rule is efficiently worked. And His Lordship in Council does not look for any very great and immediate improvement whatever may be the measures pursued.

3. It is however obvious to him that the first step to be taken, is to eradicate as far as practicable this vicious system and with this view he desires that the Orders of Government of the 5th April 1809, may be immediately and fully enforced. Under these orders the Enams and the Fees of the Head Cavilgars have been resumed; but the Compensation thus directed to be allowed at the same time has not yet been given. No explanation has been

Bds Proc. 22 para 11

afforded

Fort St. George 29th April 1814.

afforded of this omission and it is, in His Lordship's opinion sufficient to account for the fact stated by the present Collector and Magistrate that he has in vain endeavoured to prevent the collection of fees by the Head Cavilgars.

Bds Proc. 22 Para 49.

4. Before any further measures are adopted the Board in communication with the Collector and Magistrate will now determine the amount of Compensation to be awarded in each case, and the parties entitled to receive it in accordance with the views expressed in the 47th and following, and in the 61st paragraphs of their proceedings.

5. The long period during which these Enams and Fees, however unauthorized by the British Government, have been held by the Cavilgars, has conferred on them, not only in the eyes of the holders, but of the people generally the character of rightful dues, and if they are withdrawn, and a fair equivalent not granted, there can be no doubt that the parties who suffer will redress the injustice done to them by their usual systems of plunder and robbery.

In carrying out these orders the Board will therefore

therefore bear in mind, that the objects to be kept in view in adjusting the compensation, are first, to see that it is given to all parties now actually enjoying the Emams or the fees and secondly, that it be of an Amount to preclude their being induced or compelled by a diminution in their means of subsistence, from resorting to their past System of exactions from the inhabitants. The Government will be prepared therefore to modify their former orders by which the Amount of Compensation was limited to 15 per cent and to a life interest. Should the Board see cause to recommend in any case a higher rate or a longer period.—

5. It will be for the Board also to specify the conditions to be attached to the grants, as proposed by them in para 58. The Government will only remark, that these conditions should be stated with precision and care taken that the grantees are made fully cognizant of them.

B. of Rev. Para 58.

7. His Lordship in Council is averse to sanctioning the employment of any of the influential Cavilgars in-

* B. of Rev. Para 58.

in the Police if this employment is to be given solely to obviate the demand for compensation. He is of opinion that it should be left entirely to the Magistrate, to offer to them Office or not, as he thinks best for the peace of his District.—

8. The Most Noble the Governor in Council concurs entirely in the view taken by the Board of the illegality of the practice which has hitherto prevailed in Trichinopoly of constituting a distinct Revenue and Police authority in the same Village, by allowing the head inhabitant to be the Puttadar or Chief Revenue authority, whilst the powers of the Village Moonsiff were placed in other hands. He deems it imperative that the provisions of Regulation IV and XI of 1816 be strictly applied; and the Puttadar, who is evidently the head inhabitant contemplated by the law, be invariably appointed Moonsiff; and required to execute the Office.

He observes that this has been done to a great extent recently, and He looks with confidence to the present Collector who is fully alive to the error of the former practice.

practise to carry out this necessary reform with the least practicable delay.

9- The Board have recommend= =ed the remuneration of the Moonsiffs to to be fixed, as in Sanjore, at a per cent= =tage, not exceeding 2 per cent, on the gross Revenue of the Village and they coincide in the view taken both by Mr. Blair and Mr. Onslow, that the emoluments of the Office should be ap= =portioned in reference to the popula= =tion, as well as to the revenue. They also propose, that the Moonsiffs should be remunerated by a deduction from the assessment, in preference to a grant of waste land, or any other mode. And the Government would be disposed to agree with the Board in this view, as it offers a more certain and better re= =gulated remuneration, and is calcu= =lated therefore to induce more effi= =cient services. But they observe, that the grant of waste in Inam has been proposed by Mr. Blair, and that the present Collector states distinctly that he does not consider it of importance to attach a high, or indeed any Emoluments to the Office of Moonsiff, whilst the Board of Revenue have also remarked, that the

Office

"Office of Moonsiff is generally sought for "really less on account of its emoluments than "for the influence which it confers." Mr. Onslow has likewise noticed this pe= =culiarity in the Trichinopoly District, that the duties of the Village Moonsiffs, are there in some degree provided for and performed by the Ameens of Police and he has expressed an opinion generally that "the object the Govern= =ment have in view in endeavouring "to provide measures for paying Moonsiffs "a salary and for increasing the Salary "of Cavilgars might be better effected "by increasing the regular Police Establish= =ment." Under these circumstances His Lordship in Council would for the present adopt the measure recom= =mended by Mr. Blair, and accord= =ingly desires, that a grant of immemo= =rial waste be made in Inam to each Moonsiff on the principle already stated. These grants should be con= =fined with a judicious distribution of the Huttay-Hurrah and Saruff-Maniems, and the measure would then, His Lord= =ship in Council is led to hope from the papers before him, be found sufficient

to provide for the Mooniffs, without adding to the burdens of the state by an increased annual charge, of which the efficacy is doubtful.—

10. The Board will accordingly carry out these measures without delay, and should any special cases exist, where the grant of waste would be found as they seem to think, to be no remuneration, these cases should be reported for the orders of Government, with both the Collectors and the Board's opinion, as to the nature and the amount of remuneration required.—

11. His Lordship in Council concurs entirely in the view the Board have taken (Paras 60 to 64) of the importance of granting a fixed and adequate salary paid directly by the Government, to the watchmen or subordinate Officers of the Village Police. The Board have justly remarked, on this subject, that "a fixed pay is to be given in most cases to persons, whose duty will be to counteract the violence and extortions of those whose agents have been in acts of the kind they have too often been" and His Lordship in Council considers the absence of a remuneration

Fort St. George 29th April 1816.—

of this nature, an essential defect of the existing System. He hopes that the regular payment of salary by the State will be found to weaken the tie which now unites the new and Village Cavil-gars, and gradually undermine the pernicious influence of the Cavelly System itself. His Lordship in Council is disposed therefore in order to effect these ends, and in reference to the Board's remark in para 71 to fix Village watchers salary, as in Salem, at 2 Rupees per Mensem and to authorize the addition to their numbers recommended by the Collectors. The extra charge upon the State for the whole District under this head will not, he observes, exceed Rupees 21,273.—

† Bds Proct. para 88.

12. The Government also sanction the measures submitted by the Board in para 82. regarding the resumed Cavil Enams and Fees in the Talooks of Arrialore and Woodiarpolliem, and desires that these Talooks be placed upon the same footing as the rest of the District.—

13. The Board's propositions in paras 74. and 75 of their Proceedings, on the subject of the Puttavally and Pongevally

Enams.

Fort St. George 29th April 1844.

Evans have the concurrence of Govern-
=ment and they will issue the neces-
=sary instructions to the Collectors-

14- The financial result of
the measures now brought under consider-
=ation, deducting the sum of Rupees 21126
proposed by the Board for Salaries to the
Monsiffs will be an annual charge
on the State of Rupees 37060 or a net
increase in a ready money payment
of Rupees 21279 to the Village Cavilgars
to which is to be added to Evans pro-
=posed to be granted as a remunera-
=tion to Monsiffs and the compen-
=sation to the new Cavilgars.-
With reference to the Amount sanction-
=ed for Salaries and comparing the
two Provinces, this charge (Rupees
37060) is high, but taking the Average
revenue of 5 years as given by the
Collector at Rupees 187426 it does
not however Amount to 2½ per cent;
and as it is of great importance, as
that the Police of Trichinopoly should
not remain longer in the inefficient
State in which it has hitherto been

=ly recommend it for the sanction of
the Supreme Government considering
the measures proposed the best and only
available means for finally eradicating the
Cavilly System with its attendant evils.-

The opinion of the
Board and the orders of Government
contained in these papers are so full
and explicit that little is necessary
beyond the transmission of Copies
of them for the information and
guidance of the Collector of Trichi-

views of Government as effectually
to eradicate the remaining evils of
the new Cavil System.-

the information regarding the Men Havil=
=gars which is necessary to enable the
Board to give that consideration to
their respective claims which the
Government requires.

It is observed that Mr. Onslow has al=
=ready stated the difficulties
which opposed his reporting
with much pre=
=cision on the condition of
the several Men Ha=
=vilgars referred to in the
Statement (No. 7) which accompanied
his letter of the 18th August 1840 but
it is hoped that his further enquiries
will now be attended with better
success. He will bear in mind the
objects which Government
have directed to be kept in view
in adjusting the compensation which
may be recommended "first to see that
"it is given to all parties now actually

secondly that it be of an Amount to

"preclude their being induced or compelled by
"a diminution in their means of subsistence
"from resorting to their past system of exactions
"from the inhabitants." Mr. Onslow will also
be pleased to observe the remarks of the
Board on the subject of employing some of
the influential Havilgars in the Police, but
such employment as the Board contemplat=
=ed will not, under the opinion of the Most
Noble the Governor in Council, effect
their claims to compensation. It was the
wish of the Board as it is now the order
of Government, that the offer of employment
to any of these persons should be entirely
the free act of the local authorities.

Para 7 Minutes of Consultation

3 It will be necessary to take
measures to apply strictly the provisions
of Regulations IV and XI of 1816, and should
be done with the least practicable delay.

4 The Collector will further direct
his attention to the remuneration of Village Moonsiffs
in the mode prescribed by Government by the grant
of waste land &c. where Moonsiffs may already be
in the possession of a sufficient extent of land
or in the receipt of sufficient emoluments
from other sources in their Capacity of Heads
of Villages, there would not appear any occasion

to

to appropriate to them a portion of immemorial waste for their services merely as Village Moonsiffs, and in those cases where remuneration may be considered necessary, but in which a grant of waste land would prove of no advantage, the Collector will report any such special case together with his opinion as to the nature and amount of remuneration which should be given.-

5. Government having been pleased to fix the salary of the Village Watchers at Rs. 2 each per mensem and to authorize the increase in their numbers recommended by the Collector, he will carry out this arrangement at once and place the Watchers in the Talooks of Arcot and Wandiwash upon the same footing as the rest of the District. The lands and fees lately restored to the Watchers in these two Talooks will be immediately and finally resumed.-

6. Mr. Onslow is requested to give effect to the Board's propositions with respect to the Puttavally and Pongenally Grants of which Government are pleased to approve.-

7. The Board hope that Mr. Onslow will be able to submit a report respecting the compensation which he would propose to be given to each of the Ten Havilgars at an early date when

when the other arrangements are completed they will be glad to receive a Statement shewing the financial result at one view.-

From the Asst. Coll. of Ganjam- Sir, 1st

Submitting certain points with reference to Boards orders to raise the price of Salt to 180 Rupees a parce.-

I fear, it is useless my attempting to suggest any alteration of an Act passed by the Supreme Government, and it may be improper for me unasked to presume to offer an opinion on the matter, in which case, I will cancel this letter if so ordered.-

2nd. Under the above reservation I beg leave to point out the serious injury caused by the extreme suddenness of the change in the price of Salt, ordered by the Act No. VI of 1844, which has this day reached me. On the 4th Instant, I received the Boards' orders to stop the sale of Salt to Merchants of the District from the 1st Instant, which orders very considerably permitted the continuance of the sale of Salt, as usual to Merchants from a distance. Two days afterwards arrived the Order to raise the price of Salt from 105 to 180 Rupees.-

3. Most of the Brinjarries who buy Ganjam

Fort St. George 29th April 1844.

Ganjam Salt come from Chutteesghur, Sumbhulpoor & Nagpoor &c. All their arrangements for the purchase of Salt have been made on the faith of the price existing as before. they have come this immense distance Commissioned probably to buy a certain quantity, and as some of their number have been fortunate enough to complete their purchases before the order to raise the price reached the Pass, the Story of the others less fortunate would not be believed on their return to their Country with so small a quantity as they can now buy with the money they brought - they are consequently going back empty.-

4th. In consideration of the very long journey these Merchants have to come, I venture to suggest that for 3 Months or so they be allowed to purchase at the old prices, and after that period that the price be raised universally. It must take much time for the rise in Salt to be made known in the remote Talooks of the Chutteesghur & Nagpoor Territories from whence these Bringarries come, and if they could have had the slightest warning that there was any possible instability in the price they could not complain of the rise, but to find all their arrangements founded on an implicit and surely well grounded faith of the

constancy of the price entirely destroyed by so unexpected an order, is a very cruel hardship. If they do purchase the quantity they originally meant at the enhanced price, the Government will gain solely by having taken these men by surprise, a sort of proceeding which the Government may not be quite satisfied with.-

5th. If the measure I venture to suggest be considered as too open to abuse, Government might be disposed at least to look more favourably on the case of those Merchants who shall have passed Goonipooram of Jeypoor of Vizagapatam or the Frontier of Goomsoor towards Nawagudda to buy Salt in this District on any day before the 15th of this Month. If this could be conceded, I would endeavour to prevent abuse as much as possible - indeed very little needs be feared on the Goonipooram Road, ie the Purla Kimedy road where the Country is under management and much could not take place on the Goomsoor road as the trade will generally have crossed the Frontier on or before that date.-

6 Abuses in the Salt Department may of course be expected to increase, and the Government Servants will be importuned much

much more earnestly and weightily than before to connive at thefts to meet which the Board, I trust, will not be surprised at recommendations for increase of pay to the persons on whose fidelity the Government Revenue depends.-

7 The increase of price will of course drive the poor to deny themselves the use of good manufactured salt, and they must therefore have recourse to the earth salt, natural salt, residium of saltpetre &c. the use of which must be checked by much more severe measures than have been hitherto used, the increase of severity being accompanied by a decrease in the right to inflict it.-

of Government to close the Accounts of the rents of Betel &c. for the unexpired period of the terms under which they are held, and recommending for certain reasons that the balance due Viz. Rs 525-11-2 may be remitted.-

Fort St. George 29th April 1844.

Extract from the Minutes of Consultation and desiring me to take immediate steps for closing the accounts of the Betel and Tobacco rents for the unexpired period of the contracts under which the Farms are held.-

2. The Betel &c. Farm was rented out in this District for Rupees 3810.-

3. The Kists which had expired up to the 31st March according to the Cowle, including half of the Kist which would fall due on the 15th April, amount to Rupees 2703-13-. of this amount Rupees 2222-8-. have been realized, leaving a balance of Rupees 481-5-.-

4 But perhaps the more correct mode of calculation will be this- The renter was to pay Rupees 3810 for 366 days, therefore from the 12th July to the 31st March being 264 days he ought to pay Rupees 2748-3-2 Pf. from this sum be deducted the amount realized Viz. Rupees 2222-8-, the balance will be Rupees 525-11-2.-

5. The renter most strongly protests against his being made to pay any portion of this sum for the following reasons

1st. That as no condition for the resumption of the rents within the period

For

for which it was granted was provided for in the Coule, he sub-rented the Farm to different individuals, and that he will be unable to realize the Balances due by them, in consequence of the sudden and unexpected termination of the rent.-

2nd That in consequence of the Severe Storm in October, many of the Betel gardens were totally destroyed, and others seriously injured, in consequence of which he could realize nothing during Several Months.-

3rd That the Months in which the principal profit is derived are April and May - the period during which according to the religion and Customs of the Hindoos the marriages amongst the more wealthy classes all take place and that he anticipated by his profits during these Months recovering the losses which he has up to this time sustained.-

6 I am bound to admit that I do consider the objections of the renter to pay up the outstanding balance are well founded, and I beg to recommend that the amount Viz.t Rupees 525-11-2- be remitted.-

was made some Enamum lands and Jeroyettee land were under the enjoyment of 12 Curnums at Nedoovoor the extent of which lands is particularized in the accounts, but their boun=daries are not defined, 10 Candies and 2½ Soams of Enamum and Jeroyettee lands is in possession of the Plaintiff as he is heir to one of the 12 Curnums. The whole Cist of the above land was Rupees 137-9-8 a/c with reference to the Permanent Settlement, but subsequently the Plaintiff himself fraudulently redu=ced the Cist to 20 Rupees although it appears by the accounts that the Cuttookhady have of the 8 Candies of Enam land is Rupees 37-15-8 a/c and that of the 2 Candies 2½ Soams of Jeroyettee land, is according to the permanent Settlement Rs. 119-10 a/c yet the boundaries of the above two descriptions of lands are not defined, so as to shew which of them is Enamum and which of them is Jeroyettee but the said reduced Cist of 20 Rupees has been collected from him upon the whole quantity of the land undefined=

The Plaintiff, with an intention of deceiving the Zemindar, re=linquished cultivating 2 Candies and 2½ Soams of his land in Fasly 1250 saying that the land be retained on his Profession

is Enamum land and that he must pay a smaller Cist and that the lands which he threw up was Jeroyettee land, but such orders could not be given. Moreover it was the duty of the Collector and not of the Plaintiff, to determine which or what quantity of land is to be considered as Jeroyettee and which and what quantity was Enam=

It was ordered that the Plain=tiff should pay the Cist upon the whole land according to the Enamnaal, because the Plaintiff had irregularly and fraudulently thrown up the land,

The Plaintiffs objection to the new rules framed regarding the Cultivation of the Enam lands and void of truth is useless, for they were not applicable to the Plaintiff but only to the Ryots who cultivate Enamem lands of other persons and not to the per=sons who cultivate their own lands.

The 1st Defendant trusts that from the above circumstances it will be apparent to the Court that the Plaintiff is bound in justice to pay the amount fixed to be paid by him, Defen=dant, and requests the Court to nonsuit the Plaintiff after examination. as the

2d. Defendant is a servant on behalf of the Collector, this answer will be accepted for him also

Briefly stated as follows. In &c. Fasly 1260 the Plaintiff cultivated his own Enam land having relinquished cultivation of the Jeroyettee land. The 2d. Defendant collected the rules tax from the Plaintiff in Fasly 1251 saying that the 1st Defendant (Collector) had issued him a Hookum to that effect. The Plaintiff therefore brought this suit for recovery of the tax. Though the 1st Defendant is aware of this, yet he stated in his answer (in that Plaint) that the Plaintiff stated, that the second Defendant demanded from him the payment of the tax, therefore it may be considered that all the 1st Defendants other Statements in the answer are such as above as it will be proved by the evidence, as well as by the receipts furnished to the Plaintiff by the 2d. Defendant, that the sum of 38 Fanams paid by Plaintiff were received as the "rules tax" and as the 1st Defendant admitted that the order about the "rules tax" is not applicable to the

Fort St. George 29th. April 1844

the Plaintiff but to the persons who cultivate the Enam lands of others, it will be known that Defendants alone are responsible to the Plaintiffs claims.

2 Pottries and 2½ Tooms of Jeroyettee land which had been cultivated by Plaintiff up to Fasly 1249, having been thrown up by Plaintiff in Fasly 1250, in which the Village was under rent, the 2d. Defendant exonerated the Plaintiff from the responsibility of the Jeroyettee cultivation, and included the said Jeroyettee land in the Statements of the rent of the lands which had been left waste in Fasly 1251, in which the Village was under arrang, and caused the said Statement as well as a Moochilkah which he had taken from the Plaintiff and others about the waste lands, to be signed by the Plaintiff and the Villagers and forwarded them to the Collector under his hand. It will therefore be known to the Court that the land which the Plaintiff relinquished was included under the head of waste lands, because it was Jeroyettee land. That the Jeroyettee lands having had boundaries the 2d. Defendant and the Villagers ascertained upon a reference

to

to the accounts that it was 2 Pottias and 2½ Jooms in extent yielding Cist of 102 Rupees and that since the Fasly 1250 the Plaintiffs responsibility about the Jeroyettee cultivation ceased. It will likewise be known to the Court that the 1st Defendants Statement that there are no boundaries to the Jeroyettee and Manieum Lands, and that therefore although the Plaintiff relinquished the Jeroyettee in Fasly 1250 yet he is bound to satisfy the demands made by him are useless.

The first Defendant admits that the Enam and Jeroyettee lands are separated by the accounts, but that there being no boundaries to these lands 12 Cumrums have paid Cist upon both Jeroyettee and Enam lands. The Court and the Collector including the 1st Defendant caused some of the Enam lands belonging to some of those 12 Cumrums to be sold by auction. The persons who purchased these lands have been enjoying them as Enams according to the accounts and in Fasly 1243 Mr Crawley the then Collector caused 7¾ Candies of the Plaintiffs Enams Land to be attached according

according to its boundaries and released it afterwards. Consequently it will be clear to the Court from that record that the Enams of the Cumrums have no connection with Jeroyettee lands. On perusal of the accounts of every Village it will be explicit to the Court that they contain only the extent of lands but not boundaries. Should the Court send for and peruse the accounts shewing the Collections and also other accounts which were presented in the Office of the Collector from Fasly 1237 in which the said Village came under Amany and the original Documents (8 in Number) such as Pattahs &c. which were executed about the Plaintiffs Enam lands and which the Plaintiff presented to the 1st Defendant (Collector) during the examination of witnesses in a summary case which arose between this Plaintiff and Pomada Nursimloo in Fasly 1250 it will be clear to the Court that the Plaintiff has 3¼ Candy of lands on which Cuttoobady of 18 Rupees will be paid Annually and 7¼ Candies of Enam lands that these lands were required by the Plaintiffs Ancestors and that therefore the Statement

of

(of 1st Defendant) that 37 Rupees as do Cuttorkady is payable on the 8 Candies of lands is not true. If the Statement of the 1st Defendant that the Plaintiff had paid a reduced amount of Cist than that of the Permanent Cist is true, there is no reason for the 1st Defendant and the late Collector not to collect the full Cist. By this the 1st Defendants Statement is not to be considered as true. The Plaintiff further states that this claim being about the "Rules tax" he states no more than the above. In conclusion he prays that as the 2d Defendant Collected from him (the Plaintiff) 28 Rupees, Vizt. 12 Rupees on 20th January 1842 and 16 Rupees on the 20th March 1842 out of 37½ Rupees from the payment of which the Plaintiff prayed in the Plaint he may be exonerated, and caused to be given him Receipts, this sums of 28 Rupees, as well as 38 Rupees (which he stated in the Plaint to have been already collected from him by that time) which make up 66 Rupees may be decreed to be remitted to him by the Defendants together with costs, and that he may be exonerated from payment of the Remaining 9½ Rupees.

The 1st Defendant in his Rejoinder states that the Contents of the Plaintiffs' reply are not at all true. The limits of Plaintiffs' Jeroyettee and Enam lands are not defined as has already been stated by the 1st Defendant in his answer. Plaintiff fraudulently attempted to relinquish part of the lands which he held and pretending it to be of an inferior quality as Jeroyettee. He states that he has got receipts for the Amount of Rules tax, which he alleged was collected from him. The 2d Defendant (Amildar of Andafoor) without making a perfect enquiry concerning the Plaintiffs lands, having reported to the 1st Defendant stating that Plaintiff was cultivating solely his Enamem lands having relinquished the Cultivation of his Jeroyettee land upon Order was issued to collect from Plaintiff the "rules tax" as well as from other Ryots agreeably to the rules sanctioned by the Board of Revenue. afterwards the 1st Defendant on perusing the record in his office found that there are no boundaries to define the Plaintiffs' Enam and Jeroyettee lands and consequently he placed on Plaintiffs the responsibility of the whole Cist of the lands Jeroyettee

Jerogettee and Cuttubady Enams. The Plaintiff
wherefore gave a Petition to 1st Defendant com-
=plaining of the assessment of the "rules tax"
but without waiting till it was answered,
he preferred a complaint in repugnance to
Clause 2d Section II Regulation I of 1823, and
stated in his reply that he possessed receipts
for the money which he alleged to have been collected
from him as "rules tax." Your Court will there-
=fore be convinced that the receipts are of
no avail and that the amount which had
been collected from Plaintiff was credited on
account of the Cist of the Jerogettee and Cuttu-
=bady lands which he is
=ment. Had the amount been collected from
Plaintiff as "rules tax" he would have with
=ed for the 1st Defendants decision on the
Petition presented by him, and would have
then presented its Copy with his Bill of
Plaint consonant to the Provisions of the
Regulation above quoted. The Plaintiff further
states in the reply that in Fasly 1251 when
the Village was under management the 2d Def
=dt entered the Jerogettee land (which he had
relinquished) under the head of waste land
in the Amaraccaps form and submitted it to 1st
Defendants Office with Moochilkah obtained and
his and other Villagers signatures. The Plaintiff and
other Curnums with fraudulent intent got
their waste lands entered in the Sadar
Retuns

6233- Fort St George 29th April 1844.

Statement under the head of Jerogettee, but
the limits of those lands are not defined
and consequently the Statement and the
Moochilkas are not available to the
Plaintiffs case, for if the boundaries of
the Jerogettee and Enam lands belonging
to the Curnums of Nadoonoor were defined
the Plaintiff and the Curnums of Nadoonoor
would have entered into details of the
boundaries of their Jerogettee and Manieum
lands in the depositions given by them before
the Head of Police, copies of which were
filed by the Collector in suit No 98 of 1832
lodged by one Nadoomony China Venkanah
their depositions clearly shew that no bounda-
ries were defined. Your Court will perceive
that the Curnums intended to relinquish
the inferior description of land as Jerogettee
out of the lands in their possession and with
this fraudulent design have brought forward
false complaints. The Plaintiff argues that
how could the Court and the Collector sell the
Enam lands belonging to some of the 12 Curnums
of Nadoonoor if the limits of those
lands

fraudulently formed boundaries of the lands which were sold but no limits to their Jeroyet. tee and Enam lands are defined in the Per. manent accounts as stated above Defend. ant prays the Court will upon examination dismiss the Plaintiffs suit adjudging to pay all Costs which have been incurred by him.— Plaintiffs Documents 2.—

lands were not defined. It was the mistake of the late Collector who allowed the lands of that description to be sold without examining the permanent accounts. In such cases it is necessary to proceed agreeably to the perma. nent accounts in which the out limits of the said Curnums lands are not defined. The Curnums are therefore bound to pay the cost on the lands of all description belonging to them according to the permanent accounts. as the Collectors were not parties in the Causes where in the lands were sold by order of the Court, they could not have an opportunity of conduct. ing a defence in them as regards the lands which the late Collectors caused to be sold in auction. the Curnums who had rented lands Custom Vizt tendered them as security and consequently the lands of some of them were sold in satisfaction of the balance struck against them. Yet the Curnums are responsible about the remaining Enam lands as well as also the Jeroyettee and Cuttoobay lands. The Curnums

The Acting Subordinate Judge has perused the somewhat Voluminous proceedings

Fort St. George 29th April 1844.

proceedings in this case together with those in 98 of 1842 / which suit has been finally decreed /

It is very evident that the object sought to be gained by Plaintiff is not that which appears on the face of his plaint. The real question at issue is one of considerable importance as effects the Plaintiff as well as many others and the Government

The main point for consideration is whether the land alluded to, Vizt. the Jeroyettee and Enam is seperately defined or not, and capable of being held one without the other.—

It is evident to the mind of the Acting Subordinate Judge from the documents that have been filed by the Defendants. that the land, as the Permanent accounts at present stands is not devisable and was never intended to be so— Vizt. that the parties holding those lands cannot relinquish any portion thereof at their pleasure. This point has already been decided by the late Zillah

Judge

Fort St. George 29th April 1844.

Judge Mr. Anstruther in the Decree in suit No. 98 of 1842 wherein one of the Heirs of the 12 Curnums alluded to, in these Proceedings holding Jeroyettee and Enam land in the same Village, sued for 118 Rs. value of produce of Enam land illegally Zuftied for the recovery of balance due on Jeroyettee land. which Plaintiff had thrown up. The point there, as in the present suit for discussion and decision was whether Plaintiff had a right to throw up the Jeroyettee land. the opinion recorded in the Decree above alluded to was unfavorable to the Plaintiff

Upon the evidence then produced. it was there argued as a general principle. that the Custom of the Country was opposed to the practice relinquishing Cultivated Jeroyettee without permission of the Zemindar or Collector.—

The Acting Subordinate Judge does not consider it necessary to argue the general question of the right of Royats to relinquish Jeroyettee

Fort St. George 29th April 1844.

Jeroyettee land as that would involve a difficulty which does not exist in the case now before the Court for it is clearly shewn from the proceeding that the Jeroyettee in question cannot be relinquished at the Plaintiffs will — it being held together with Enam neither of which are defined in their Extent.

It appears to the Court that the Plaintiff aware of the weakness of his cause, has caught at and endeavoured to dwell upon an error which as affects the real point at issue is quite immaterial. It is not as Plaintiff would endeavour to shew whether he Plaintiff ought or ought not to pay "Rules Punnas" the 1st Defendant admits that the collection of the Money now sought to be recovered under the Head of "Rules taxe" was a mistake and on discovery of the Tahsildars' error it was rectified in the accounts and the same credited under the proper head, Viz.t Kist of Jeroyettee and Enam Lands. By the documents produced

Fort St. George 29th April 1844.

produced by the 1st Defendant it is shewn that the Total kist payable by Plaintiff according to the Permanent accounts is Rupees 157 as. 9 P. 8 that he fraudulently himself reduced this sum to 120 Rupees as asserted by the Defendant, there cannot be a doubt which fraud was not discovered till fusly 1251.

The evidence for the Plaintiff does not effect or invalidate the defence at all.

It does not appear that a demand was made on Plaintiff for 75 Rupees 8 as. but only the amount which has been fraudulently reduced Viz.t Rs. 37 as. 9 P. 8. In conclusion it has been clearly shewn that no demand has been made against Plaintiff, which the Defendant was not warranted in making that Plaintiff has no right to throw up the Jeroyettee as he pretended he has, and therefore his suit is dismissed with all costs to be borne by Plaintiff.

No. 2.

To The Adalut Court of the Zillah of Masulipatam.

A Complaint filed by Nadoonoory Boochannah Merasdar of Nadoonoor Plaintiff in case 82 of 1843 against J. G. St. Smith Esqre Collector in the Zillah of Rajahmundry 2. Degavilly Siminarauze Kumuldar of Amlapoor Taloob, 3 Nadoonoory Soobanah Merasdar, 4 Motoory Pada Moosalayah Village Moonsiff of Nadoonoor, and 5 Panasah Venkanah the peon of the Amuldar of Amalapoor Taloob at present residing at Amlapoor.—

Ihold in the Nadoonoor Village 7 Pootties and 5 tooms of Lakerauze Enam Land and 15 Tooms of Mulguzary Enam in all 8 pootties paying an annual Cuttoo=bady of 18 Rupees. This is my ancestral property and is entered in the accounts Yea Ihold the Office of Curnum enjoy=ing the said Lands with the other Casto=mary Emoluments, Having a large family and having found a difficulty in Maintaining them by means of the said lands Yea Ihave cultivated for

Fort St. George 29th April 1844.-

for sometime past about 2 Poolies & 2½ Tooms of Zeroyty land bearing the Cist of 102 Rupees which I have discharged with punctuality. In fusly 1249 I cultivated the said Zeroyty land and paid the Cist in full to Ponnadah Narsimlo the renter of the Village and at the end of that fusly I quitted the said Zeroyty Land informing the said renter in presence of mediators that I could not Cultivate it for fusly 1250 Being unable to settle the said Zeroyty Land under amarany for fusly 1250 the renter kept it as pasture and fed his Cattle thereon; but through enmity towards me he presented a false petition to the 1st Defendant pretending that the Sist of the said Zeroyty Land should be paid by me for fusly 1250 and attached a part of the grain produced on my Enam Lands by order of the said 1st Defendant. Thereupon I presented an arzee to the 1st Defendant under date the 8th December 1840 stating that I did not hold any Zeroyty Land

Fort St. George 29th April 1844.-

under the renter, nor Cultivate any for fusly 1250 and as no Puttahs and Mutchilkahs had been exchanged I begged he would examine my witnesses and documents and release my property from attachment. I chose 10 Witnesses and produced before the 1st Defendant during the examination of my witnesses 8 Original Puttahs, & Doombalahs &c which were granted to us by former Zemindars to shew that my Enam lands were situated Separately from my Zeroyty lands, my witnesses and documents having proved the truth of my arzee the 1st Defendant said that he would give orders for the release of the attached property but he has not yet issued such orders.-

For fusly 1251 the term of the rent having expired and the Village being placed under Amany management the 2d Defendant (after having misrepresented the case to the 1st) told me that the 1st Defendant had issued an order to him under date 11th October 1841. No. 67 to reject Certain Curnums of the said Village including myself, from the

Mutchilkah (shewing the detail of the Cist &c. of the said Lands under the Signatures of the Villagers inclusive of myself) attested by himself and examined by his Peishcar &c. When the pastures were put up to sale by auction for the realization of the Poollary tax the Grass and the Mango &c. of the said Zeroyty land which I had quitted were sold amongst them by the 2d Defendant.- I have filed a Complaint against the 1st and 2d Defendants in case No. 783 of 1841 on the file of your Court for having Collected from me the "rules Punnoo" Contrary to the Orders of the Board of Revenue. One Gorty Puttabheramanah rented from me 5¾ Pootties of my said Lokierauze Enam lands for fusly 1252 for a sum of Rupees 130. but as he failed to pay me I prosecuted him in the District Moonsiff's Court at Aulapoor in Case No. 439 of 1842- whereupon he entered into Razeenamah with me under date 1st October 1842 engaging to pay the amount in three Instalments but as he refused to pay the

the Zeroyty Lands held by them, and to charge Contrary to the Maumool upon our Enam lands a tax called "rules Punnoo" recently Sanctioned by the Board of Revenue. The Second Defendant then demanded under that head 7½ - 8 - 0 - upon my 8 Pootties of Enam land for fusly 1251 and not only Obtained from me by force a Security for the payment of the Same but also Collected from me part of the Amount and granted me receipts Stating that it was paid under the said "rules Punnoo"- In the Amaraeum Statement and other accounts attested by the Villagers including myself the 2d Defendant Struck out my name, as Cultivator of the said Zeroyty lands (being the Cist of Rupees 102) and included them among the waste pastures lands for that fusly. He also entered in the Amaraeum Statement the Amount of Cist of the whole pasture Lands and had them all examined field by field including among them the lands quitted by me as above said He sent to the 1st Defendant the Mutchilkah

the first instalment: the said Court upon my application placed under attachment the Paddy produce of the said Enam land rented by the said Puttaberamanah. But the 2d Defendant having made a report to the 1st Defendant accompanied by a false Ba Kear from the 3d Defendant who is my relation and enemy and the 4th Defendant who bears ill will towards me the 1st Defendant thereupon filed a motion before your Court in No. 2349 of 1842 stating that there was a balance of Rupees 145-1-8- Due from me on account of the Zeroyty and Cuttoobady lands above and beyond what was paid by me for the Current fusly 1252, Your Court then issued a Precept to the said District Moonsiff in Obedience to which he released from the attachment the property of the said Yorly Puttaberamanah on the 8th December 1842. But I was desired if I was aggrieved to have resource to a regular Suit although I have not Cultivated the said Zeroyty land of Rupees 102 from fusly 1250 to fusly 1252 and Puttahs and Mutchilkahs have not been exchanged, the said Defendants having attached my said property and detained the Pyra produce of my

To

The Subordinate Civil Court

of Rajahmundry.-

Proposed answer to be filed by T. Pendergast Esqr. Collector

Fort St. George 29th April 1844.-

Collector in the Zillah of Rajahmundry 1st Defendant in case No. 82 of 1843 on the file of the late Masulipatam Zillah Court transferred to the Subordinate Court at Rajahmundry.-

Plaintiff States that he held a certain quantity of Nanieum and Cuttoobady land and another quantity of Zerooty or Iyen land in the Village of Nadoono or; that being unable to Cultivate the latter he surrendered it to the renter in due form but as the 2d Defendant, the Amuldar of amlapoor Talook, prefsed him to pay for fusly 1251 Rupees 75-8-0 for the Nanieum land under certain new rules which impose a charge on ryots relinquishing Zerooty land and Cultivating Nanieum, he filed a Complaint in case No. 783 of 1841 against the 1st and 2d Defendants; that for fusly 1252 the Defendants having demanded from him Rs. 157-9-8 on account of the Cist of his Cuttoobady and Zerooty lands which latter he denies having held, he now files the present complaint for the recovery of his grain, which has been attached

for

Fort St. George 29th April 1844.-

for the recovery of the said Sum of Rupees 157-9-8.

The 1st Defendant begs to inform the Court that all this is a total misre=presentation of the case, the true facts of which are as follows. At the Permanent Settlement 12 Persons (the Village Curnums) held Some Monieam and Jeroyty land in the Village of Nadoonoor attached to the Pittapore Jemindary the extent of each of which kind of land respectively was ascertained in the accounts, but not their relative Situation. From one of these 12 persons Plaintiff is descended and he now holds 10 — Pattas- 2 Coms - 8 Mc of Monieam and Jeroyty land, of which the total assess=ment at the permanent Settlement was Rupees 157-9-8, Since reduced fraudulently to Rupees 120, and though it is borne on the account that 8 Pattas of this land is Enam bearing a Cuttobady or Quit rent of Rs. 37-15-8 and that 2 — Pattas 2 Coms - 8 Mc is Jeroyty bearing an assessment of Rupees 119-10-4 at the time of the settlement. Yet the

Fort St. George 29th April 1844.-

two Species of land have never been defined or marked out, but the whole joint assessment fraudulently reduced as above said to 120 Rupees is levied on the whole joint extent.-

With the view however of defrauding the Jemindar Plaintiff in fusly 1250 neglected to cultivate 2 Pattas - 2 Coms - 8 Mc of the worst part of his land and refused to pay more than a very small Sum for the land he retained saying that that was Enam, and that what he had given up was Jeroyty. This could not be permitted - it was not compe=tent to Plaintiff himself to deter=mine what part of his land should be considered Enam and what Jeroyty, but the point was to be decided by the Collector. &c. Plaintiffs relinquishment of the land was thus irregular and fraudu=lent. Your Court, on consideration of the defence of the Collector in the former Suit No. 783 of 1841. passed a Decree on the 28th February 1844. dismissing the claim of the Plaintiff

Fort St. George 29th April 1844.-

Plaintiff and requiring him to pay the Cist of the whole land as usual.-

The cause of action in the present suit No. 82 of 1843. in which the Plaintiff seeks to evade the payment of the Circar's Demand for fusly 1252 being precisely of the same nature as that in Suit No. 783 of 1841 in which he sought to withhold the payment of the Demand for fusly 1251, the 1st Defendant begs to refer the Court to his answer and rejoinder and the documents filed by him in that case, and trusts that the Court will in like manner dismiss the present Suit with Costs.-

In addition to these explicit terms of the Purwanah, I should also refer the Board to the sentiments of Government recorded in Mr. Secretary Hill's letter

letter to them under date the 17th October 1820. quoted at full length in my communication to the Board dated 28th August last; by which grants of land or allowances of this nature would appear to have been considered hereditary. This is confirmed by the correspondence noted in the margin between the Board and Government in 1824 in the identical case under reference, wherein the Government have authorized the substitution of the annual payment of 100* C. Pagodas (which consists of the present claim) to the family in lieu of 100 C. Pagodas Land in the Purnavarum Taluk resumed by the Circar. The Board stated on that occasion, that it was formerly left to the option of the Poligars to receive the bounty of Government either in Money or in land.

The event is stipulated in No. 5 Gabagan's Cowmah in the present case, Vizt "failure of heirs," which would only warrant the lapse of the allowance to Government, has not occurred. 5. Under the reasons above set forth the distinct terms of the Purvanah, and the several circumstances urged by the present claimants, added to the fact of their being Brothers and legal heirs of the deceased Kristnapah Naid, and as the widow of the Dalavoy Jeevapah Naid (their mother) alluded to viz the Minutes of Consultation dated 3rd May 1842 still surviving, it will be for the Board to decide, whether the circumstance of the Division of the Pension into shares is to affect the claim or not; perhaps it would be dealing severely with them to construct it, under all the circumstances I am inclined to recommend the continuance, in the name of the 2 surviving Brothers, of the entire Pension of Company's Rupees 24-4 10. per mensem, for the support of the family with arrears of the portion of the deceased retrospectively from the date of death, and that the Enam land under temporary sequestration be restored.

Sir,

(36) Transmits Abstract of Petitions of Bellary Requesting specific instructions in regard to which Territories shall be deemed foreign as contemplated in the VII Article of the Act No. VI of 1844 & stating his opinion for the reasons urged that the Nizams Dominions Mysore and Sundur be considered foreign and the Bombay Peninsular Hon. most under Establish Company's territory.

Para 1. In continuation of my letter of the 1st Instant, I have the honor to state that the preparation of a regular Plan shewing the boundaries of the District and the places where Frontier Chowkies are at present kept up requires some, there being nearly 1000 Miles of foreign Frontier

2. Some points however occur to me as requiring immediate consideration and decision Viz as to which territories should be deemed "Foreign" as contemplated in the VII Article of the Act No. VI of 1844.

3. The Board are aware that a variety of opinions prevailed in regard to Foreign States in the Sugar question, and as these should be clearly laid down before the Provisions of the Act are brought into full operation, I request they will do me the favor of furnishing me with specific instructions on the subject.

4. The territories bordering on this District are 1st Southern Mahratta Country

6280 Fort St. George 29th April 1844.

2nd the Highness the Nizam's Dominions. 3rd the territories of the Highness the Rajah of Mysore; 4th the Kurnool Province, and 5th the Jaghire of the Rajah of Soondoor. The 1st I should imagine can hardly be called foreign except that there are several Principalities of Native Chiefs such as the Rajah of Hollapoor, and the Jagheerdar Chintamany Row &c &c immediately on the Frontier. The Nizam's Dominions and Mysore are foreign States, while Kurnool in consequence of the late arrangements and administration in that Province could not I believe be elapsed as foreign though it is not under the Jurisdiction of our Courts. Soondoor is a small independent Province ruled by the Rajah a Prince of Mahratta Family not amenable to the Jurisdiction of our Courts.

5 It would appear therefore that Soondoor though on the former occasion considered a part of the District should now be called Foreign as there is no reason that I am aware of why the Imports and Exports of that Petty State should not Pay duty. As regards Bombay territory it was ultimately resolved on the former occasion that those Provinces should be considered Foreign because as admitting Foreign Sugar they came under the Act; but on that occasion I imagine it will be necessary to reverse the order, for, as part of the Company's Territory they cannot be called foreign in that sense. Kurnool though not under the Courts is also Company's Territory On this date I shall consider if the Boards approve, the Nizam's Dominions, Mysore and Soondoor Foreign. The Bombay Provinces, Kurnool, and Cuddapah Provinces Company's Territory.

Forwarding Statements of Import and Export Trade with the Native States bordering on the Bellary District as required in the Board's letter of the 4th April 1844 and Submitting his opinion for their orders as to the rates of duty to be adopted for the future.

Sir,

Para 1. I have the honor to acknowledge the receipt this day of your letter bearing date the 4th Instant, and considering the important and urgent nature of the reference, I lose no time in laying before the Board such information as the short space of time will admit of.

2. The Board having called for a concise report embracing a Notice of the Imports and Exports from and into the Native States bordering on this District for the last 3 years, I beg to forward two Separate Statements marked Nos 1 and 2 exhibiting the extent of traffic in each of these branches, which I trust will afford the required information. The Accounts of Trade being always closed to the end of the Official year Viz.t 30th April, and the current Official year 1843/44 not having as yet expired, I have taken the past 3 Official years 1840/41 1841/42 & 1842/43 to frame the Statements an abstract of which is subjoined.

3 Hence it will be observed that in our Commercial relation with the Native States the value of Imports is more than double the amount of our Exports, arising chiefly in the supply of Cotton, Cotton Thread, and Dyes from the Nizam's Dominions, and Betel nut, Dry Cocoanuts, Silk Thread, Jaggery, Sugar and Pepper from the Mysore Country.

Submitting therefore my 4th opinion (as required by the Board) upon so important a question as to whether the "Salt can bear the imposition of the "duty leviable on Goods imported on Foreign "Bottoms as provided for in Schedule "A annexed to Act VI of 1844, or whether "it would require the encouragement of "being assessed with the lighter duty "imposed on Goods when imported on "British Bottoms," I should solicit the attention of the Board to the comparison which I have drawn in the accompanying Statement No. 3 between the Rates of duty per Cent on each important article as adopted when the Custom Regulations now repealed were in force, and those leviable on

that in our Commercial relation with the Native States the value of Imports is more than double the amount of our Exports, arising chiefly in the supply of Cotton, Cotton thread, and Dyes from the Nizam's Dominions, and Betel nut, Dry Cocoanuts Silk Thread, Saggery, Sugar and Pepper from the Mysore Country-

Submitting therefore my opinion (as required by the Board) upon "an important a question" as to whether the "traffic can bear the imposition of the "duty leviable on Goods imported on Foreign "Bottoms as provided for in Schedule "A annexed to Act VI of 1844, or whether "it would require the encouragement of "being assessed with the lighter duty "imposed on Goods when imported on "British Bottoms" I should solicit the attention of the Board to the comparison which I have drawn in the accompanying Statement No 3 between the Rates of duty per Cent on each important article as adopted when the Custom Regulations now repealed were in force, and those leviable

on

on the same article when imported on British and Foreign Bottoms that they may at once see the amount of difference and Judge which of the two rates the Foreign Traffic of this District would stand with reference to the present generally depressed state of the markets.

3- Bullion, Treasure, Precious Stones &c. Horses and Cattle &c. would appear to have always been free from duty and should continue so. But Grain including Paddy and Rice and all other kinds have heretofore been exempt from duty on importation from foreign States. But liable to 3 per Cent duty, if exported from the Company's territories to those States. The Schedule A now provides for the payment of 2 Annas per Bag not exceeding 2 Maunds (each Maund supposed to be the Madras Maund of 25 lbs) of Rice and Paddy, and 1 Anna if otherwise than in a Bag, when imported on British Bottoms and double this amount if imported on Foreign Bottoms, while Grains and Pulse (other than Rice and Paddy) are therein made altogether free. As however circumstances have changed from the time when

Fort St. George, 29th April, 1844.

when all these articles of Grain were originally declared free of all Impost on Importation, but liable to 3 Per Cent on Exportation. It remains to decide whether Grain and Pulse should not be exempted altogether from Payment of duty as laid down in the Schedule, and that the Rate prescribed for Rice and Paddy be adopted. The circumstances which I allude to are that it was the object formerly to ensure supplies to the Troops and to prevent the possibility of scarcity in the country, the object now appears to be to ensure a remunerating Price to enable the land to remain under cultivation.

6- The next items in the Schedule are Sea, Coal, Coke, Bricks, Chalk and Stones now made free from all Taxation.

7- Books Printed in the United Kingdom and Foreign Books. Marine Stores British and Foreign. These articles are scarcely ever Imported or Exported from this District. Should there be any transaction thereon in future they might be taxed as laid down in the Schedule.

Metals

Fort St. George, 29th April, 1844.

8. Metals wrought or unwrought Iron is manufactured in this District and conveyed chiefly to His Highness the Nizam's Dominions and Mahratta States on payment of 5 p.c. Cent duty There is very little trade in Iron.

9. Woollens consisting of Cumblies and Carpets are manufactured in this District and conveyed chiefly to the Mahratta States paying 5 per Cent duty. The rate specified in the 2nd Col.n No. 24 per Cent may be adopted as it is still one Per Cent less than the tax they have been used to pay and the 8 per Cent paid upon Foreign Woollens will be a protection to our Trade.

10. The next article requiring notice is Cotton. most part of the plains of Bellary consists of Cotton soil producing abundantly. They are conveyed to the Coast on the Company's territories for shipment free of duty. It has heretofore been the practice to levy 8 per Cent duty when exported to Foreign States. but none whatsoever when Exported from those States for consumption in the Company's territories

Fort St. George, 29th April, 1844.

territories. At this rate the duty per candy Maund did not exceed 4 Annas. while the Schedule now prescribes 9 Annas per Maund, on British Bottoms and 1-2 Rs as per Maund, on British Bottoms and 1-2 on Foreign Bottoms. In fixing a rate consequent upon the present change it is my opinion that due regard should be had to the encouragement of the produce in the District and this object could only be attained by establishing the highest rate on importation. I would therefore propose under the supposition that the above mentioned rates are unalterable that 1-2 Rs as per Maund be fixed.

11. Cotton and Silk Piece Goods and Cotton Twist and Yarn the produce of British Possessions it is proposed by the Act, to be taxed at 3½ per Cent and 7 per Cent and the Produce of any other Place at 7 and 14 Per Cents. These Piece Goods, have heretofore been subject without distinction as to place of manufacture, to the payment of 5 per Cent duty on both occasions of Imports and Exports. But our Exports to Foreign Countries are greater than our Imports from those countries

Fort St. George, 29th April, 1844.

countries as will be perceived by the in-
Statement No. 2 and it being a matter of
paramount importance to encourage this
Branch of trade, I suggest that 7 per Cent
be adopted.

12. Cotton thread otherwise-
called Cotton Twist and Yarn is as I ob-
serve included in Piece Goods. It al-
ways paid the same duty 8 Per Cent
when exported as on the Cotton. The
observation which I have above submitted
in regard to the latter are equally ap-
plicable to the former Article.

13. Opium. The rate for this
Article of Leuary being fixed at 24
Rupees per Seer of 80 Tolas requires no
comment. Its importation Chiefly from
Mysore is not larger than 2,000 and odd
Rupees per year on average.

14. Salt. Regarding this neces-
-sary of life and the manufacture of
Earth Salt in the District contrary to
the Regulations, an explanatory report
is under preparation with reference to
the Proceedings of the Board dated 7th
December 1843 and the Extract from the Minutes of
Consultation

Consultation dated 27th January 1844, upon
my annual Extra Revenue Report for
Fasly 1252. In the mean time the rate
being the same in both both no question
arises.

15. Alum 20 per Cent there
is little or no Trade in it.

16. Betel nut Raw and Boiled.
Bellary as well as other Districts look
for supplies to the Nuggur Country in
the Mysore Province. The value of Import
in this Article is very considerable. I am
informed there is no produce within the
Company's territories.

17. Coffee and Pattans. No trade
in this Article with Foreign States.

Pepper

Fort St. George, 29th April, 1844.

19. Pepper. According to the
view taken in respect of the above
mentioned 10 Articles the rate for Pepper
would be 30 per cent. but it is appre-
hended the tax will bear hard upon
the people and in fact affect the
trade. I should therefore be inclined
to propose an exemption in favor of this
necessary of life to the general rule if
it could be done and subject it to only 10
Per cent duty. The article is supplied
chiefly from the Mysore
20. Country.

All articles not included
in those enumerated in the Schedule A.
The rates of duty on important articles
being separately noticed, the trade in
the rest of the articles of Merchandize
must be considered trifling. Of these
remaining articles there are some not
liable to duty at all, according to
practice heretofore obtained such as
Fruits and other Petty articles of a
perishable nature and vegetables and
Garden produce which with the Board's
permission will be excluded from

the guidance of the Frontier Chowkedars.
In conclusion, I have
21.
the honor to state, that as the Frontier
Chowkedars are retained as reported in
my letter of the 1st Instant, it is ne-
cessary that they should be furnished
with Tables of rates of duties to be levied
by them, for their guidance, as soon as
possible, as otherwise confusion will
ensue. Several of the Chowkedars have
since the promulgation of the Act ap-
plied for orders as to whether duty
should be levied upon certain articles
which they named as having come to
their Chowkies and if so at what rate.
I have, pending further instructions from
the Board directed them to observe the
former practice until further orders. I
therefore request the Board will take
early measures to my being furnished with
specific and final instructions on the
subject of the present reference.
The List of routes, the

dars and proposed increase to their emo-
luments &c will be submitted in my reply (now

under preparation) to the Board's further letter of the same date viz. the 4th Instant.

23. " It is presumed that the order regarding the collection of duty being confined to 30 Articles is now superseded, and it will I conclude be required that even these free from duty by special reference such as Carpets, Chillies, Dates 9ca 9ca shall now be entered under the closing entry of the Schedule A. It appears that though the rates in the 2nd Colm are high yet that they do not to affect the trade of this Province and after a careful comparison with the existing rates with the nature of the articles and consideration of the class of People who consume them, and the effect of an advance in Price certain upon the adoption of these rates, I nevertheless am under no apprehension of any reduce pressure or any falling off on the trade in consequence. Cotton is the item of most importance. I consider that by adopting a Duty of 1-2 as on each Maund, we in fact exclude Cotton altogether it appears from the Statement that above 8 Lacs

of Rupees worth of Cotton have been imported into this District into a Province in fact where the Soil is peculiarly adapted to the growth of Cotton, and where no possible reason exists against producing it in any quantity except the want of a remunerating Price, any Protection that can be given to the Cotton grower I consider an advantage. As regards Cotton thread the same arguments hold good, it is not as though all our Cotton Lands were occupied, there are vast Plains of the finest Regud Land never yet broken by the Plough.

The articles upon which 24. the higher Duty will fall heavy are not absolute necessaries, and the reduction that has taken place on the Town Duties will enable them to bear the levy - for instance, Betel nut, the present duty being only 5 per Cent the addition on that article by the rate I propose to adopt will be 15 Per Cent, but on the other hand the Betel leaf used with the nut being relieved of the heavy Town duty, I consider the impost a very fair one

for

+ Boiled.

for the consumers of the articles on great quantities are those who can afford it. I have looked through the list carefully, compared the proposed with the present, and could if it were necessary shew in detail the propriety of adopting the higher rate in almost every instance, but in consequence of the extensive Frontier the variety of points that suggest themselves and the importance of the subject altogether. My report has already become longer and more detailed than I intended. I have however laid before the Board data on which the point may be decided by them greater experience having given my opinion that it would be a great folly to give up a large amount of Revenue when the import appears just bearing upon the Lasses who can afford it, and no Foreign power a protection rather than otherwise to the Trade of the Country. I am of opinion, that whatever duty has been an oversight which will be remedied by the present enactments.

25. A calculation has been made of the

Fort St. George 29th April 1844.

the Import duty that will be collected on the 36 articles on this scale, and the Board will be surprized to hear, that it will amount to something very like the old "Sayer Collections, Viz^t. 3 Lacs. If other items and the Exports were included, there can be no doubt that under the new arrangement the Sayer will exhibit an increase. It will be for the Board to decide whether such a result was ever contemplated. I have not recommended it because the Revenue will be maintained by adopting it, but because it appears to me that no injury to trade can be anticipated. I can if the Board wish furnish these further Statements upon which calculation has been made.

P. S.

Kurnool is now Company's Territory and would be so considered if the Board approve as suggested in my letter of the 17th. Instant. That Province having been Foreign Territory and entered as such in the Accounts of Trade during the 3 years of which the Board have now called for Statements is accordingly exhibited in this Report; but it will not in future come under the head of native States.

Ordered that the following letter be sent in reply.—

(36-38)

To The Collector of Bellary.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of 12th April 1844 - requesting instructions as to the Territories which are to be deemed foreign under the late Act VI of 1844 - as also of your communication of April 15th forwarding Statements which exhibit the extent of Traffic between your District and the surrounding Native States for the last three years - and submitting observations on the principal Articles of import and export - and on the rates of duty which may properly be imposed upon them.—

2. Since the dispatch of these letters you will have been apprized by the Notification in the Fort St. George Gazette dated April 16th 1844 that the only territories adjoining your District which are to be considered Foreign are those of Hyderabad and Mysore and the duty which is henceforth to be levied on goods passing from or into the territories of those Native States is the same as that which under schedules

Fort St. George 29th April 1844.

A and B annexed to Act VI of 1844 is chargeable on similar commodities imported or exported by Sea on British Bottoms. All the questions discussed in your letter respecting the states to be deemed Foreign and the rates of duty to be hereafter levied will have been set at rest by this Notification, to the exigency of which you will be pleased carefully to adhere. It will remain only to advert briefly to a few points on which some observations seem called for.—

3. In Para 3 the Board find Sugar entered among the Articles of import from the Mysore Country. This is of Course to be understood as referring to the import of that commodity prior to the opinion given by the advocate General under which Mysore Sugar is to be considered as Foreign produce and its importation into the Madras Provinces altogether prohibited. The Board think it scarcely necessary to remind you that the late Act XI of 1842 Still continues in full operation.—

Act XI of 1842

Fort St. George 29th April 1844

4. In reference to Para 5 of your letter the Board beg to press on your particular attention that the Maund intended throughout Act VI of 1844 and its schedules is not as you suppose the Madras Maund of 25 lbs but the Indian Maund of 3200 Tolas (or of 40 Seers each of 80 Tolas) which for practical purposes may be rated at 82½ lbs Avoirdupois. the Seer being also very nearly 2 lbs 1 oz. the great difference in weight between the Madras and Indian Maund as above shewn makes the distinction one of primary importance.—

Indian Maund is equal to more than 3 Madras Maunds.

5. The Proclamation of 17th July 1837 has been virtually rescinded by the late Enactment. The collection of frontier duty will not therefore be limited to the 36 Articles therein specified but will be extended to all Articles of trade or consumption. It is not however intended that commodities such as those mentioned in Para 20, Common fruits, Petty articles of a perishable nature. Vegetables or garden produce should be taxed. These should as you suggest be excluded from the Tariff, now under preparation for the guidance of the frontier Chokeydars.

Acting Secretary to the
Board of Revenue.

(41) From L. Scott Esqre. Agent to the Governor of Fort St. George at Kurnool

Para 1. Sir,
I have the honor to acknowledge the receipt of your letter of the 4th Instant, requesting me to submit draft of Rustkundy to be adopted in the Current year.

Same time ago I called on all the Amildars to give their opinion as to the Rustkundy that would be most advantageous to the Ryot, but the opinions varied so much that I have thought it best to adhere to the one adopted from the commencement, Statement of which accompanied my Immanikundy report for

Subscribing a draft of Rustkundy to be adopted in the Current Year pointing out the disadvantages of the present mode of individual Settlement and recommending that Village Leases for 5 years on moderate terms be sanctioned.

Fusly 1252. and of which I have now the honor to forward a Copy.

2. I am not quite sure that I understand the Board's meaning rightly in supposing that they consider that an alteration in the Rustkundy would have the effect of decreasing the demand upon the people and would prevent the Rists from falling into arrears, but I apprehend that substantial relief can only be afforded by an actual reduction of the land Assessment: and I shall take the opportunity now afforded me of reviewing the present condition of this District.

3. The Board are aware that the demand for the year is regulated by the quantity of land which the Ryots engage to cultivate, which engagement is known by the name of Villavari. Under the Moyalye system the cultivation was kept up to a certain height through the instrumentality of the Village and Talook Officers, to whom in the main the Government looked for the realization of certain fixed sum. The formers were Heads in a measure individually ex-Officio, as well as jointly as Members of the Village Community responsible for the Revenue, and as it could only be realized by

by the cultivation of a sufficient quantity of land they were interested in forcing it to the utmost extent of the means of the Villages—

It is true that they are still supposed to be responsible, but it is little more than nominal, for they know very well that the responsibility will not make themselves personally liable for any deficiency, whereas under the Ryotwar rule it did.—

4— The plan of forcing, or to use a milder expression, of "persuading" the Ryots to engage to cultivate is still persevered in, but with this most important change in the plan that every man now engages for himself instead of being one of a body, which as I shall presently explain is (as it appears to me) one of the secondary causes of the present depression of the cultivating classes— This artificial system has been followed up under the impression (and a perfectly correct one generally speaking) that the Ryots derived great profits from the cultivation of Enam lands, and it has helped considerably, (as I conceive) to cripple the resources and paralyze the efforts of the Ryots for the last two Fusleis exhibited a large quantity of land, which has been agised for left waste,

with perhaps as much just scratched over with the plough and sown at random, and heavy balances uncollected—

"balances uncollected—

In Fusly 1250 the system of joint responsibility was only beginning to be broken up & and had not entirely ceased.—

5— Had it so happened that the price of grain remained as it was under the late Nawab (who helped by his various imposts and exactions to keep it up) the struggle might have been continued under the old system some time longer but it happens that ever since the assumption of the Country prices have been ruinously low, even from 30 to 50 per Cent below what they were before. But even with this immense disadvantage, I doubt if the depression would have been so great if the individual had not been substituted for the joint responsibility. This year numbers of Ryots have been obliged to give up their land entirely and fall back on the

condition

condition of day labourers, then under the most adverse circumstances would scarcely ever have occurred under the Ryotwar rule, for the whole Village being equally liable to the burden, which could only be borne by getting a sufficiency of land cultivated, the self interest of the whole body would be enlisted to preserve one of their Members from sinking into a condition which would entail an increased burden on themselves; but now no such community of interests exists there is no reason why the more wealthy should lend a helping hand to the poorer, but rather the reverse, for the fewer the farmers the more the labourers and therefore the easier for the rest to get their lands cultivated—

I am well aware that the practice of all Native Governments has been to force the cultivation of land, and I have nothing to object to that part of the system as practised by them, because it did not increase the demand against a Village but it helped to pay the demand already fixed, whereas under the present system the demand goes on increasing with the cultivation. It was not often that they allowed the resources of

the land to be very seriously trenched upon; for the demand against a Village was generally regulated by its actual condition, and if that was much reduced it was allowed a little breathing time to recover— The Ryots were kept poor, it is true, but their agricultural stock was seldom touched. The assistance too of the ruler was often of a very substantial nature in times of difficulty, and there is an instance even of the late Nawab of Kurnool having purchased bullocks for the Ryots to the Amount of 70,000, on the occasion of a mortality among the Cattle. Formerly also the bullock Merchants would supply a Village with Cattle on the bond of the Reddy, but now the Reddy will no longer incur such a responsibility, because the joint stock system is broken up, and that sort of fraternity of which mutual interest was the bond of union, and to which the fable of the bundle of sticks would have aptly applied, no longer exists—

But the pressure (if I may be allowed the expression) to get the land cultivated at all events was, as much from within as from without, for the most influential Villagers were the most interested in

in the process, knowing that on them would fall the brunt of the defalcation, but now it is a struggle between the Circar, on one hand and each individual on the other.—

8.

Mr. Thackeray lays great stress on the necessity of obliging the Circar Ryots to cultivate the usual quantity of Circar lands before they touched the Enam land, but the Native Government of Kurnool did not trouble themselves about that: they knew well enough that the Circar demand could not be paid without the help of Enam lands, and as long as that demand was forthcoming they cared little how it was realized. Under our present system also as in many cases, the Circar demand could not be realized without the aid of Enam lands which are rented to the Ryots by the Enamdars on easy terms, I am not quite sure that it would mend the matter to attempt rigidly to insist on the practice, (though it is understood to be the rule) first because the cultivation of Enam land is necessary to help out the Circar heists, and secondly, because half the season would be spent in squabbling between the Reddies and

and the Ryots, if the former proceeded to insist on a strict observance of it. It must however be enforced after the survey assessment is introduced.—

9.

The amount of land for which engagements were made, up to the 30th of November was less by Rupees 90,861-10-0 than in last year, and the amount of Seed sown less by Rupees 83,294-6-11. For this appalling decrease there are other reasons than those above alluded to. The season for the early Crop has been unfavorable. a great part of the first sowing was destroyed by locusts, or more properly speaking by grasshoppers, which in several parts of the District quite covered the face of the Country, for many weeks; the second sowing failed generally, from the want of rain from the beginning of August to the 22d of September, these disasters were followed up by an extraordinary mortality among the Cattle and the Ryots were completely disheartened, or to use their own expressive term they were "be Lil" so that up to the 30th of September the land sown amounted to only Rupees 24,806-15-8 instead of as in the year before to Rupees 3,45,561-10-9.

10.

I have before mentioned that Numbers of Ryots have given up their whole farms,

I

I have had several of them before me in order to ascertain from them personally the real cause, the answer has been invariably the same, the low prices for a succession of years had obliged them to sell all their Stock to meet the Circar's demand, first one bullock then another, till all were gone, and there was not a man among them who did not feel a sense of shame and mortification at having been reduced to earn a subsistence as a day labourer.

11. If bad farming, heavy balances year after year, lands which has no saleable value, and a universal struggle to reduce the size of the farms, are proofs of poverty or symptoms of over-taxation, then assuredly Kurnool can produce abundance of them. The Board will naturally proceed to draw comparisons between this and the neighbouring Districts of Bellary and Cuddapah, but there is in fact nothing in common between them, except a similarity of soil and Climate, on which a fair comparison of the existing condition of each can be grounded. Those Districts have for years enjoyed a comparatively fixed and generally speaking, moderate Assessment (moderate as aided by the extensive

extensive Enam lands,) Kurnool has for nearly the same period been exposed to exactions which were only limited by positive inability to pay more without actually touching on the agricultural resources of the Country. In those Districts, the Cultivation on a large scale, of Indigo, Cotton, Sugar cane and other valuable products enables the Ryots to pay their rents without much difficulty, and even to make head against a bad season, but in Kurnool, there is very little of this sort of aid. the Crops being generally white and Yellow Jowari with which the market is glutted. The soil of Kurnool is as fine or even finer than that of the neighbouring Districts, and nothing is produced in them which could not be produced equally well here, but the condition of the Ryots must be greatly improved before we can look for the good farming and rich products of Cuddapah.

	Percentage of Wet and garden Cultivation	Per centage of dry Cultivation.
Bellary —	43 1/2	56 1/2
Cuddapah —	58	42
Kurnool —	14	86.

The comparison is for Fasly 1250.

I am sanguine, and so is 12. every one, that the survey Assessment will be a

a great step to improvement; but it will be at least three years before that can be introduced throughout the District, and two more before its effects are really felt and if in the mean time the present system is to go on, my firm conviction is that the distress and difficulties of the Ryots will increase unless indeed some extraordinary rise in prices without the accompaniment of short produce should take place and that is not to be expected.

13. Mr. Blackburne proposed that the Villages should be rented for a term of years, but it not having been at that time decided that Kurnool should be annexed to our territories the Government declined to sanction the proposition. I know the various objections that exist to a lease of this sort, and that they have generally failed, but that has in most cases been owing either to the rent having been too high or the Villages having been rented to a Middleman instead of to the Ryots themselves. A Moderate rent for five years ought always to be advantageous to the Ryots, and it is such a

6310 For't St. George 29th April 1844.

a rent that I now beg to recommend. It should be so moderate as to ensure the Ryots a handsome profit in good seasons and to enable them to meet the demand in a bad one.

14. Unless the Board are prepared to sanction such a rent it had better be let alone, as a high rent would entirely defeat the object I have in view, which is to increase the Agricultural Stock of the Country, and to give a stimulus to agriculture by holding out an inducement to good farming and the cultivation of the more valuable products.

15. The rent should be somewhat on the principle of that settled in Bunganapilly which is generally considered advantageous both to the people and the Jaghiredar. The Cultivation of waste should be limited to land left so for five years only; all waste of a longer period than that should have an extra assessment and the rent of wet lands under large tanks should be conditional. In fixing the amount of the rent I would take as data the Collections during the last seven† years of the Nawab's rule and the Collection of the three years under ours if the Survey assessment could be finished in a day, with the

† (As far as they can be ascertained)

the stroke of a pen, I should prefer that to a five years rent, but under the circumstances I urgently recommend this latter plan to the Board's consideration. It is much more in character with the Revenue system hitherto in force, it will, unless I am much deceived, be a great relief to the impoverished Ryots, it will put a stop to their manoeuvres to get rid of highly assessed land, in detecting which half the time of my Cutcherry is consumed, and which has a very bad moral effect on the people, for it leads them to practice every deceit that ingenuity can suggest to defraud the Circar; and it will also defeat a system that has been gradually growing up and which (if long possession is allowed to constitute a right to Enam land) is calculated to affect the Revenue. It having been found, soon after the assumption of Kurnool was decided on that much land entered in the old Zemin-Jadah Accounts as Enam, but to which there was either no Enamdar or only a personification of one, who received an occasional trifle from the Peddies and Cummums who were enjoying the land, an order was issued directing that every Enamdar should take possession of his land, which order has evidently been interpreted to mean that

whenever the Enam investigation may commence no land will be considered as Enam which is not actually in the possession of the Enamdar. Such lands are being fast occupied by real or pretended Enamdars who will have no difficulty in persuading the Villagers to swear to their long possession, on the promise of letting them have them on easy terms if they help in getting it confirmed. These and similar subjects require my incessant care and attention and require more leisure than I shall be able to bestow on them when I am engaged in conducting the Assessment, and the investigation of Enams besides the additional call on my time that is required for Judicial matters which by the new Rules have been in a great measure transferred from the Cazees to myself.

In conclusion I beg to be favored with the answer of the Board so as to reach me if possible by the 15th of February as the latest in order that if my proposal should be approved of, I may personally superintend the renting of as many Villages as practicable before the cultivation season begins.

From the Actg Collr of North Arcot—

Submits the accompanying Revised Statements of certain lands held with or without Government Grants by Europeans and others called for in letter of the 20th March 1843.

Sir,

With reference to your letter of the 20th March 1843 conveying the remarks of the Board of Revenue on Statements Nos 1 and 2 of lands held with and without Government Grants forwarded to the Board with Mr Goldinghams' letter of the 9th March 1843, I have the honor to submit the accompanying Revised Statements Viz.—

Statement No 1 of certain lands held under Government Grants by Europeans and others.—

Statement No 2 of lands occupied by Europeans without Government Grants.—

2. In Statement No 2 forwarded by Mr Goldingham of lands held without Government Grants, many lands were included which are the property of Natives—the reason of so including them appears to have been that these lands had once been

been the property of Europeans and that on some of them the assessment was not levied on account of their being occupied by Native Public Servants. I have excluded all these lands from Statement No 2 and with reference to the orders contained in Para 2 of your letter under reply have caused the full assessment to be levied on such Lands as were hitherto exempted. As there is now no peculiarity in the terms of tenure the circumstances of these Lands having formerly been the property of Europeans appears to be no reason for including them in the Statement and I have excluded them accordingly.-

3.- In Statement No 2 submitted by Mr Goldingham were entered as "encroached" certain lands held by Mr Groves. On this Mr Goldingham remarks "Collection is made "to the extent cultivated. The remaining land "if cultivated will be liable to the demand" and in Para 3 of your letter under reply it is observed with reference to Mr Goldingham's remark "under the orders of Government -- (Minutes of Consultation 13th August 1839. No 1003 Para 4) you will see that the "land in the occupation of an individual

is liable to the payment of the assessment whether cultivated or not.-

4. I am of opinion that the land referred to ought not have been included in the Statement I have however included it in the Statement No 2 now submitted pending the orders of the Board. It is the same land with a very small addition for which Mr Groves made an application in his letter to the Board dated 7th January 1840 and which they directed to be granted to him by Extract from their Proceedings under date 17th December 1840. The reason why it was entered in Statement No 2 was that it adjoins Mr Groves' compound which he holds under a Government Grant and that no fence separates the lands. The rules for the levy of assessment or of Quit Rent on compound lands held by Europeans are not in my opinion intended to apply to lands occupied by an extensive farmer like Mr Groves for the express purpose of Cultivation. such lands are liable to pay assessment according to the rules established by the Hookoomnamah of the District. In the instance in question those rules have been somewhat modified by the Boards' orders above quoted. This land ought I think to be treated as a part of Mr Groves' farm not of his compound. If there were a fence between them there would be no doubt on the subject.-

who commuted the sentence of dismissal
for Six Months suspension at the end of
which time Mr. Goldingham
offered to make the Petitioner a 1st Class
Peon which appointment he declined and
he prays to be restored to his
former situation.

11 The cause of the Peti-
-tioner's dismission was this. A Gang
Robbery had been committed in the
Sholinghur Talook Mr. Bourdillon who
was in charge ordered the Petitioner
to proceed forthwith to Sholinghur.
Instead of doing so he went
straight

straight to Vellore where his family were
residing. The assertion in his Petition
that he had information that some of
the robbers were at that place is
utterly false, he left Chittoor on the
same day that the report of the robbery
arrived.

12. The Petitioner was formerly
cutwal at Vellore and deprived of that office
for misconduct and appointed to the lower
office of a Muctusper, but I do not consider
him fit for it, for it is an office for the
due performance of the duties of which
great activity and intelligence is required.

The Petitioner states that having been dismissed without cause from the office of Police Superintendent by Mr. Bourdillon when that Gentleman was in charge of the District he appealed to Mr. Goldingham who commuted the sentence of dismissal for six months suspension at the end of which time Mr. Goldingham offered to make the Petitioner a 1st Class Peon which appointment he declined and he prays to be restored to his former situation.-

11 The cause of the Petitioners dismission was this a Gang Robbery had been committed in the Shelinghur Talook Mr Bourdillon who was in charge ordered the Petitioner to proceed forthwith to Shelinghur instead of doing so he went straight

straight to Vellore where his family were residing. The assertion in his Petition that he had information that some of the robbers were at that place is utterly false; he left Chittoor on the same day that the report of the robbery arrived.-

12. The Petitioner was formerly Cutcherry at Vellore and deprived of that office for misconduct and appointed to the lower office of a Muctesser, but I do not consider him fit for it, for it is an office for the due performance of the duties of which great activity and intelligence is required.-

No. 1866 of 1843. 14. With regard to the Statements made in this Petition I beg to refer the Board to my letter of the 27th September 1843 forwarding copy of an endorsement made by me on a Petition of Casembur Dowlah Bahadur one of the Parties referred to in the Petition under report. The circumstances of the case are fully explained in that endorsement, and the Board in reference to it, determined not to interfere. The complaint of the Petitioners is that

they are compelled to pay the kists to Pusahully Ishan instead of to casumbur Dowlah Bahadur who claims to be put in possession of the Village - as the latter person is not in possession of the Village the kists cannot be paid to him.

No. 1992 of 1843. 15. The lands referred to in this Petition which the Petitioners claim to hold as Inam were all of them for=merly Amarum or Kuttoobuddi lands - that is lands held on a reduced assess=ment on the condition of the holders performing Military service - In 1802 the Military service of the Zemeendary of this District was by order of Govern=ment commuted for an equivalent in Money - In a letter conveying this order Para 11 occurs this passage - "You will particularly explain that this "measure adds nothing to their (the zemin=dars") disbursements, but that on the "contrary it leaves an additional "source of Revenue at their disposal "which they have never yet derived "from the Amarum and Cuttuddy "lands." In a letter addressed by Lord Clive to the zemindar dated 24th August 1802 Para 11 he observes with

with reference to the same subject, I am "aware that many adherents and connexions "of your family have claims on "your bounty, which may be incompatible "with the entire discontinuance "of their stipends, and it is for "this reason that I have not included "in the calculation of your equivalent "the whole amount of the revenue "granted for the support of the amarem "and cuttuddy peons." It is evident from these passages that the Government fully recognized the right of the zemindar to the Cuttoobuddi and Amarem lands, and they contemplated the possibility of his obtaining from exercising this right to its full extent as a matter entirely optional, as an act of "bounty." The successive zemindars of Cavaterruggur have al=lowed a great part of these lands to be held as Inam but their right to resume them has been recognized by decrees of the Civil Courts - The present zemindar exercised this right very extensively - Mr Goldingham adverts to this subject in Para 29 of his report on the settlement of the

Statement. It is proposed to maintain at the Kistnapoor Chowkee 1 Pygust at 8 Rupees and 6 Colegars to prevent trade passing by that route.

To the same reason, that the inducement to smuggle across the frontier is now much increased, the inducement to bribe the frontier Servants to connive at smuggling is also increased, it therefore appears expedient to increase the emoluments of the higher servants attached to the Chowkees. The particular of the proposed increase is shewn in the accompanying Statement. I do not propose to increase the pay of Colegars. It is true that their present pay is quite insufficient for their support, but so is the pay of all the Talook Peons throughout the District and there appears no reason why the Sayer Peons should be put on a better footing. The total amount of the Monthly Cost proposed to be incurred on account of the pay of the Frontier Establishments is Rupees 307-8-0 being in excess of the present cost in the sum

Circular letter of the 28th Ultimo, directing
with reference to act VI of 1844, received
Regulations of the Madras Code
imposing Inland Transit, and Town
Duties from the 1st Instant, to discon-
tinue from that date, the several Sayer
Establishments in the Talooks and on
the Bhyzee Cutcherry. In reply I have
to state, that the necessary orders
were issued to the Talooks on the

out the District, as directed.

With reference to the

No 1 Sd to George 29th April 1844

a List of the Frontier Chowkies, shewing also the names of the Chowkidars and the extent and cost of the Establishment.

3. As it is necessary to maintain a small Establishment in the Buzzoorg Cutchery from the 1st Instant to examine and check the accounts of the Frontier Chowkies, I submit for the consideration and sanction of the Board and Government, a Statement of the proposed Establishment being Rupees 69 8 = per Mensem or Rupees 840 per Annum. I recommended a similar one viz one of the Statements I forwarded to the Board in my letter of the 5th September 1843 No 83, and as it is of importance to keep a check over the accounts of the Frontier Sayer which has hitherto yielded a Revenue of upwards of 18000 Rupees per Annum, I do not consider the Amount recommended

recommended beyond what is actually necessary.

4. As Betel and Tobacco the given in rent are two of the Articles on which duty has been hitherto levied, I request to know whether the rent is to be discontinued immediately, or continued till the end of the present Duty.

Read letter from the Collector

10 in Cons 18th Feby 1844 of South Arcot submitting his Report on the Settlement of the Extra Sources of Revenue of his District for Fusly 1252.

53

Proceedings thereon.

Relative to the Settlement of the Extra Sources of Revenue in the Southern Division of Arcot for Fusly 1252.

AD. 1842/43.

From the table given in it appears that the Total Settlement of all Extra Sources of Revenue for Fusly 1252 exceeded that of the previous year by Rupees 22605. 12 — the result of a Decrease in the Sayer Sea Customs, small Farms and Mawpha and of an increase on Salt, Abkarry and Moturpha. The Collector has included in the same table (No. 8) the Extra Items or Collections which fall short of those of 1251 by Rupees 3003 — 6 — thereby reducing the Increase above given to Rupees 19602 11 6 but of these Extra Items no explanation is afforded throughout the Report — and they do not appear to have been correctly introduced into a table purporting to exhibit the Basis of the Year under review and that preceding it. In the Abstract Account as it now stands the Grand Total for 1252 Rupees 83,414 — 2 — 9, given by the Collector, is made up

In Para 1 the table is called Statement of the Amount derived from each Source of Revenue during Fusly 1251 and 52 but this is also inaccurate in as much as a portion of the Demand Entered in it is still outstanding.

measurement of Salt in his District and those employed in Chingleput but as the provisions of the late enactment Act VI of 1844 require that Salt shall henceforth be sold by weight instead of measurement, it will not be necessary to pass any orders upon this subject.

Sayer 5. In the Amanie portion of the inland Customs there has been a decrease of, Pc. A. P. 26358 13 2 which has occurred on piece goods from decline in the trade in Dyed Cloths in Gingelly Oil Seeds from the unfavorable nature of the Season. to which cause is also ascribed the considerable falling off in the duty on Indigo as compared with that realized during Fusly 1251. The Board however remark that the Amount of Sayer duty collected on Indigo during this latter Year was in some degree augmented by the forced sales of that commodity in the opening months of the Fusly adverted to by the late Collector in his report on the Extra Sources Para 9: The Board observe with satisfaction an increase in the Duty collected on Sayer and Jaggery occasioned by the recent establishment in the District of

The increase in the rented Sayer 3620 Rupees has in some small degree compensated for the decrease in the other branches of this source of revenue. but the decrease on the aggregate still amounts to Rupees 29757 8 1 a diminution of 1658 6 2. in the Charges reduced net Deficit to Rupees 25613 11 10

Sea Customs 6 The Sea Custom Collections have fallen Rupees 2282 12 8 below those of Fusly 1251. the Articles on which the decrease has occurred are the same as those on which a falling off was observed in the land Customs Viz.t Piece goods and Indigo. some part of the decrease is also attributed to the reduction in the Tariff value of Tobacco and to the frauds carried on in the Portonovo Sea Custom House The Parties concerned in these Mal. practices have been punished and dismissed. but as the

the whole of the frauds which were shewn to have taken place were committed prior to Fusly 1262 and as the Collection of the Sea Custom duties at Portonovo was in the hands of these same parties throughout the whole of Fusly 1257 and but for 8 Months of the Year under review when they were suspended and more trustworthy persons substituted in their room it does not appear to the Board how the frauds alluded to by the Collector can have contributed to the decrease observable in the Sea Custom Collections of Fusly 1252 as compared with those of that which preceded it.

1251	60700	— —
1252	64770	— —

7. From a similar competition the Abkarry rents have realized 4070 above those of Fusly 1251. while from an opposite cause the revenue from small Farms and Licences exhibits a decrease of

1251	4373	1 5
1262	3756	1 10
	616	15 7

8. The decline in the inland and export trade has produced a proportionate falling off in the sales of Stamp Pos warrants and the Stamp Revenue consequently falls below that of 1257 by Pfns 1336 3 6.

9. The trifling increase in Moturpha 62 — 7 — 10 does not call for remark.

Old Arrears 10. In Para 16 of the Report the Board are referred for an Account of the balances of former Years to the Statement B from which it appears that the Sum of Rupees 1174 — 13 — 10 is outstanding on account of foregoing Fuslies from Fusly 1248 to 51 as arrears of Sayer Abkarry, small Farms — and Moturpha — Of these balances it is simply said in the Column of remarks that their recovery is "doubtful" The Board request that the Collector will at his early convenience submit a detailed report on these arrears — distinguishing those which may eventually be realized from those which are clearly desperate in order that the sanction of Government may be obtained for writing off these latter in the Public Accounts — The balance for the Year under report was only Rupees 321 — 7 — 11.

11. The total gross Collections during the Year under review current, extra and Arrears Amounted to Rupees 825329 11 5 the Charges to Rupees 78009 — 9 — 8. leaving a Net Revenue of Rupees 747320 1 9 which exceeds the net outturn of the previous Fusly by Rupees 47335 — 11 — 3. This result is satisfactory —

Ordered that a Copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections and Net Revenue be Submitted to Government, and a transcript of the same be furnished to the Collector of South Arcot for his information and guidance.

which it is possible might afford a clue to enable me to ascertain the Circumstances of the Case.

Sir,

In your letter of the 7th received on the 19th December last, the Board direct me to have Mr. Elliot's charge against Shaik Rao, suspended Tahsildar, of evident fraud to a considerable amount, and of having obtained secretly an interest in the Cumsawy Estate by unjustifiable means, regularly investigated unless I deemed them untenable and therefore endeavoring of further notice.

When I considered the severity of charges against him, the length of time the man had been under suspension without any conclusion being come to, and the manner in which the suspicions had been insinuated into the Sub Collector's mind, I did deem them untenable and took no further notice of the matter, intending to consider it when ever he should finish his investigation against this man, and when I received his

letter of the 21st March I had quite forgotten the one in question from you: as it is now recurring to my memory I hasten to forward Copy of the Subs without comment, which I purpose reserving till he brings to a final close his investigation against the above Sham Row, whom he has sent on 3 Counts to the Criminal Court, which have been committed to the Court of Sessions.

To
The Principal Collector
of Madura

Sir,

I have the honor to acknowledge the receipt of your Memorandum dated the 7th of December last, requesting me to afford every means in my to bring the charge of professing a secret share or interest in the Cunneevady Estate, home to the suspended Sahukkar of Tengare Sham Row, in reference to the hints contained in my le

Fort St. George 29th April 1844.

of the 30th of October previous.-

2. In reply I beg respectfully to state that the evident fraud more immediately referred to the Estate being mortgaged to comparatively penniless individuals, & particularly Karrichariah who has always had the credit of acting as pounder to Sham Row and who must in that transaction have been agent for some person, the price of lending his name being the Harbari of the Estate. In order therefore to bring the above stated charge home to Sham Row, it will be proper first to shew the connexion between the suspended Sahukkar of Tengare and the Mortgagees individually and collectively.-

3. With respective to Sham Rows connexion with Karrichariah, I am not prepared to urge much further than is to be found in my letter to your address dated 27th September and 30th October 1843 on the subject of the Cunneevady Estate, particularly the 11th Para of the former and 7th Para of the latter. But in support of those statements &

J

Fort St. George 29th April 1844.

They to submit copies of a few Petitions &c. which contain both those names.

A 1st Copy of an English Petition presented by one Pernal Setty of Dindigul to the Board of Revenue, dated 20th of April 1841 about 8 Months previous to my joining the District. This Petition is against the frauds and mal practices of Sham Row, and mentions in the first, second, third and seventh Paras the name of Harrichariah who was dismissed from Coimbatore at the same time with Sham Row with whom he had ever since lived. allusion is also made to him in the 4th Para.

B 2nd Case No. 60 upon the Joint Magistrates' File for 1843 shews that on one Vembarapatty Soobba a Native applying to Sham Row the then Tahsildar of Sadiambu, for the return of money /100 Rupees/ extorted from him, he was assulted by Harrichariah acting as Berberus at the Tahsildars House. The Magistrate was pleased to consider the Complainant as the aggressor in demanding the money

money from Sham Row. Both the assault and the extortion have been proved.

C 3rd One Nannaseroyen Setty complains in his Petition dated 9th of August 1843 No. 1675 that one Govindeen a dependant on Harrichariah, had beaten and abused him for giving evidence against the said Harrichariah for assaulting Vembarapatty Sooba Naick when he come to demand the restoration of the money extorted from him for Sham Row. Case not completed.

D 4th One Ayaroode Soobba Govindeen in his Petition dated 9th of February 1844 /No. 199/, mentions the names of Sham Row, Harrichariah and a certain Curnum for extorting 17 Rupees from him not to send him to the Criminal Court, the said extortion being proved.

E 5th One Parasuramiah in the deposition on solemn affirmation dated 16th January last stated that whilst Sham Row was Tahsildar of Sadiambu, he knew that Harrichariah was accustomed to frequent his house; but

but since the Kannieswady Estate had been given over to Appiah Naick, he / Pa-
=rasuramiah had served under Harri-
=hariah the Barber who had given him
40 Rupees for his Marriage about in
April last / before the Estate was re-
=linquished by the Circar / It was
on the 17th of that Month I deemed
it necessary to change Sham Row to
another Talook. Two Circar servants, ex-
on the 20th Ultimo, deposed to Parasu-
=ramiah being accustomed to write under
the Tahsildar Sham Row in the Talook
Cutchery. How this Parasuramiah was
discovered to have forged the name of
one Firma Gounden, to a Petition
dated 29th May the following Month,
/ No. 831 of 1843 / declaring a former one
presented to the Sub Collector
against Sham Row and Harrihari-
=ah, to be false, having been got up
at the instigation of others. Firma-
Gounden having declared the Petition
a forgery and having fully establish-
=ed an alibi the above said Parasuramiah,

on his confession, has been forwarded to
the Criminal Court. Three other Witnesses
also deposed to Harrihariah being pre-
=sent when that forgery was committed.
Copies and Extracts from these Depositions
H & J are herewith forwarded.

6th In Petition No. 1416 of
1843, presented by one Coomara Narsimmah
K Naidoo, it is stated that the Zemindar
was sick, that Allaghery Sawamy Vetty
Sham Row and Harrihariah were about
to take the Cunneswady Estate on mortgage.
7th Petition No. 1364 of 1843, on
state the salaries two of those individuals
were to receive on account of their services,
and that the Zemindar was paying the
Interest on Bonds which were not as
yet even drawn up.

8th Petition No. 1632 of
M 1843, dated 3rd October, from one Brianoi-
=gum, makes mention of Sham Row
and his man Hurrihariah in connexion
with the money intended for the Cun-
=neswady Estate, was last at Dindigul,
where Sham Row was at the time of

the

of robbery.

Should the above not be consi-
dered sufficient, Depositions could be taken
from any number of individuals required, —
as no one in the Zillah can be really igno-
rant of the connexion or its evil effects.—

4 The connexion between Ha-
richarah and the Dunnewady Estate,
requires no remark, as the Zemindar request
-ed him to be recognized as Karbar, &c.
and he has already addressed the Princi-
-pal Collector in that capacity.—

5 The relationship between
Sham Row and Allaghersawmy setty
the other Mortgagee, may be gathered from
the above stated Petitions particularly
1364, 1416 and 1632 of 1843. It may be
further observed in the 10th Para of my
letter to your address dated 27th September
last that this individual was amongst
those who were unwilling to produce his
accounts required to bring to light other
points of fraud against the Dindigul
Chowkedar, had they been produced, —
the money transaction between Sham Row
and

and himself, would have been doubtlessly
discovered.—

6 The connexion between Sham
Row and the Mortgagees, collectively, may
be learnt from the impossibility of the true
interest in the mortgage being divided. The
Bonds themselves shew the real Mortgagees
to be neither of the ostensible ones, for had
the same been vested in either, there could
be no necessity for the mention of another
person. Had the Estate been mortgaged
to two persons having an equal interest,
one bond was sufficient, if to two persons
of separate interest, there could be
no necessity in particularly referring to
each other as they were both registered on the same
day each was for 10,000 Rs professedly lent to pay conjoint-
-ly less than 8000 Rs in the names of persons known to
be without any money of their own, but equally known
as the agents for Sham Row, and whilst each
pretends to hold half the Estate in mortgage,
neither document states which half, or a single
boundary, village, or estimated value of the
moiety or any other particular whatever connect-
-ed therewith, although therefore the duly registered
Mortgage Bonds appear in two names, it is not too
much to consider the interest but one and that vested

in

in Shaw Row.

7. The above proceeding does not appear in a more favorable light when it is known that up to this time not a Rupee for which those two Bonds were extorted and registered under false promises had been advanced; and for which one of the Mortgagees Allaghery Swamy Setty was according to Coomara narsimma Naick, to receive a Monthly pay, and for which Harrichariah is Barbar: on the contrary, the whole transaction betakens a pre-determination to swindle the Zemindar out of his supposed Estate. The money with which the balance of the Zemindary was really paid, is said to have been made up of the un-expended portion of the Zemindar's allowance, and about 10,000 Rupees borrowed from one Nolan Sah of Madura, at present residing in Punnaswady to protect his own interests on that account. Should any further information be required, I shall be happy to afford it.

Sir,

I have the honor to acknowledge the receipt on the 2d Instant of your letter of the 28th Ultimo communicating the rescission of all Regulations of the Madras Code imposing Inland, Transit, and Town duties, and directing the discontinuance from the 1st Instant of the several Sayer Establishments in this District.

Communicating that orders have been sent for the discontinuance of Sayer Requesting instructions regarding the Betel and Tobacco rents &c.

2. Pursuant to the order the requisite

requisite instructions have this day been sent to the Tahsildars and other officers concerned; and the orders of Government have also been published for general information. As the Customs will be levied as usual previous to the above orders reaching the Tahsildars, I propose to defray the Charges of Sibbendy from the 1st Instant from the amount of such Collections, carrying the Surplus to the credit of Government.

3. At the same time I would beg to be informed as the previlege of Collecting duty on Betel and Tobacco &c, has been rented up to the end of the Fusly which terminates on the 11th July next, whether the rents should be allowed to continue till the expiration of the Fusly or whether they should be demurl & comcondly cancelled? In the latter case I apprehend a very great confusion in the adjustment of remissions to the several Renters, doubting also the legality of doing so, the rents having been given for the whole year and consequently not resumable.

4. The levy of duty on Ganjah, Bhang, and Goodaukh is included in the rent of the Abkary Farms, and for the disposal of which also, I request the instructions of the Board.

5. List of the Frontier Chokies, and the extent and Cost of the Establishment required to be maintained is submitted herewith as required in para 2 of the communication under reply.

6. It will be observed that two Frontier Stations are now added to the number shewn in the Statement transmitted with my letter of the 9th September 1843, at a monthly Cost of (63) Sixty three Rupees. The one at Kulhutty I propose to establish immediately as being requisite

requisite to command the trade on the Mysore Frontier with Olacamund and Elsewhere. I am informed that goods are imported and exported from and to the Mysore Provinces in large quantities via the Seegoor Pass and the proposed establishment would not therefore prove an unnecessary charge. The other at Kabanoor will take effect from the period of the completion of the Road over the Binkenhully Ghaut sanctioned by Government under date 9th March 1844. which there can be no doubt will supercede the Guzzlehully ghaut eventually.

7. I have retained two Goomastahs in the Kuzoor on a Monthly pay of (28) Twenty eight Rupees. They are required for the purpose of examining and Checking the Accounts from the Frontier Stations and also for the preparation of those connected with the levy of duty on Tobacco supplied to the Native States of Travancore and Cohim which on an average of the last three years amounts to Rupees 32,057-12-3.

The total Cost of the Establishment Kuzoor and District amounts to Rupees (218-8-0) Two hundred and eighteen, and Annas eight exclusive of the Charges of Sibbendy proposed to be entertained on the completion of the Road over the Binkenhully Ghaut, which bears a proportion of 6-3/5-7 per Cent on the average Collections of the last three years as shewn at the foot of the list and for which, I request should the Board consider the arrangement unobjectionable, the sanction of Government may be obtained.

find employment, where they are now
unemployed, and they would have no
occasion to wander from their own homes
as they now do for employment, if the
culture of cane and manufacture of
Sugar was encouraged throughout your
Zillah, the Ryots would at all times
find a ready sale for their Sugar at
Madras at prices that would fully
compensate them for their labour, and
carriage of the Sugar to whatever part
of the country they wish to convey it to.
Any house of Agency at Madras would
purchase Sugar that is fit for the
Europe Market from 75 Rupees to 80
Rupees per ton, delivered at Madras
free of all expense, the price that the
Sugar is sold at now in its raw state
does not exceed 20 Rupees per ton, you
will perceive by this low price that the
Ryots can pay the Government duty and
Bandy Hire to Madras and them have a
profit from 20 to 25 Rupees per ton in excess
to that which they are now selling it for—

vessels to contain more saccharine matter
than the cane grown at Timmery or Vencata=

strong proof that all that is required in your
Zillah is a person of experience and capital
before the Ryots can Cultivate cane and
Manufacture Sugar fit for the Europe and

I find on enquiry that there is not one
person in your Zillah that can Manufacture
Sugar fit for the Country Market, this I
presume is an inconvenience felt by all clases,
and the well thinking inhabitants of your
Zillah, I am convinced must feel hurt when
they see Sugar brought from Bungalore and
other foreign parts into their Zillah for sale
which finds a ready sale at 50 or 60 per

have not got one among us that can shew us, therefore our labour is lost, as the culture of cane for we get little or nothing for our labour, in consequence of our Sugar being of an inferior quality to that brought from other parts of Country for sale in our Zillah. I have made particular inquiries with a great number of the Ryots and Inhabitants of yours Zillah and they all express their willingness to grow cane and manufacture Sugar if any will pay them for their labour, and shew them how it is to be made.—

Under the above explanation I have been induced to address you under the impression that you are at all times an advocate for improvement in your Zillah, under this impression I have taken the liberty of making the following proposition, soliciting a loan of 15,000 Rupees for a time of 3 years from Government, for the purpose of establishing a Sugar Manufactory in your Zillah, for the security of which said above mentioned sum of 15,000 Rupees, I will

will make over my landed Property at Cotacamund and Poonamallee, should you think this proposition worthy of your support and encouragement. I will feel particularly obliged if you will forward it to the Board of Revenue. I flatter myself that the Board of Revenue cannot for a moment doubt my integrity, for they are aware of my abilities and unceasing exertions in the Zillahs of Chingleput and North Arcot for these last 4 years in the Abkarry Farms of those Zillahs and the large amount of Revenue that has been paid by me in excess to any previous years or Renters, this is well known to the Board of Revenue, which I am led to believe will tend to facilitate the object I have in view. and I flatter myself that I cannot offer any stronger proofs of my integrity and unceasing exertions than those on record in the Zillahs above mentioned.—

I beg also to remark if I had not already established a Sugar Manufactory at Vencatagherry Cottah in the Northern Division of Arcot, I should have had no occasion to solicit

solicit the loan mentioned / the erection and establishment of which, with a still and other utensils from Europe, I am sorry to say has taken all the Ready Money I have at command at present / The sample of Sugar and Sugar Candy I sent you the other day manufactured &c under my own superintendance at Venca-taghery Cottah is I presume sufficient guarantee of my capabilities to carry out my proposal.—

With reference to your letter of the 26th Ultimo, requesting for reasons therein set forth a loan of 15000 Rupees for three years to enable you to commence the manufacture of Sugar &c. &c. it appears no advertence is made to the interest you are disposed to give for the accomodation without this is supplied it will not be in my power to forward your application with that recommendation which

which may possibly be necessary to its ultimate success- Perhaps you would have no objection to pay the usual interest of 5 per Cent, in which case, I would be obliged by your writing to me to that effect when I shall lose no time in placing your proposition before Government.

3. Fully impressed of the great importance which would attend the succes-ful introduction of the manufacture of Sugar &c. in this District, I have for the last two years endeavoured to draw people from Nundedroog, Pondicherry, and other places to settle at Coimbatore, but without success. The present appears a more advantageous opportunity from the fact of Mr. Turner being completly conversant with not only the manufacture of Sugar, but also of Sugar Candy, and being possessed of Capital and experience there is every reason, without being to sanguine, to anticipate that his exertions will meet with complete success.—

4. Without looking however, quite so far as Mr. Turner to the prospective advantages he holds out, it is not difficult to predict that such an undertaking, in a commercial point of view must produce most decidedly beneficial effects to the District, and under this impression

impression, I beg respectfully to recommend that this accomodation to him may be viewed favora-
-bly by Government. I would at the same time remark that I believe that the loan thus temporarily sought is of less importance to Mr. Turner's views, than the advantages which must attend this demonstration of the Government confidence to him. A stranger comparatively, in the field of his proposed undertaking.—

Sir,

Rs. as. Rs. as. Rs. as.

I beg most respectfully to address you on the importance of the Culture of Sugar Cane and the Manufacture of Sugar in your Zillah fit for the Country and Europe Market. I presume Sir it would be superfluous on my part to point out to you the everlasting good and increased amount of Revenue that would be realized, if the culture of cane

and

and the Manufacture of Sugar was encou=
=raged in your Zillah, thousands would
find employment, where they are now
unemployed, and they would have no
occasion to wander from their own homes
as they now do for employment, if the
culture of cane and manufacture of
Sugar was encouraged throughout your
Zillah, the Ryots would at all times
find a ready sale for their Sugar at
Madras at prices that would fully
compensate them for their labour, and
carriage of the Sugar to whatever part
of the country they wish to convey it to.
Any house of Agency at Madras would
purchase Sugar that is fit for the
Europe Market from 75 Rupees to 80
Rupees per ton, delivered at Madras
free of all expense, the price that the
Sugar is sold at now in its raw state
does not exceed 20 Rupees per ton, you
will perceive by this low price that the
Ryots can pay the Government duty and
Bandy Hire to Madras and them have a
profit from 20 to 25 Rupees per ton in excess
to that which they are now selling it for—

I

vessels to contain more saccharine matter
than the cane grown at Timmery or Vencata=

strong proof that all that is required in your

I find on enquiry that there is not one
person in your Zillah that can Manufacture
Sugar fit for the Country Market, this I
presume is an inconvenience felt by all clases,
and the well thinking inhabitants of your
Zillah, I am convinced must feel hurt when
they see Sugar brought from Bungalore and
other foreign parts into their Zillah for sale
which finds a ready sale at 50 or 60 per

see this they at once become down hearted,

have not got one among us that can shew us, therefore our labour is lost, as the culture of cane for we get little or nothing for our labour, in consequence of our Sugar being of an inferior quality to that brought from other parts of Country for sale in our Zillah. I have made particular inquiries with a great number of the Ryots and Inhabitants of yours Zillah and they all express their willingness to grow cane and manufacture Sugar if any will pay them for their labour, and shew them how it is to be made.—

Under the above explanation I have been induced to address you under the impression that you are at all times an advocate for improvement in your Zillah, under this impression I have taken the liberty of making the following proposition, soliciting a loan of 15,000 Rupees for a time of 3 years from Government, for the purpose of establishing a Sugar Manufactory in your Zillah, for the security of which said above mentioned sum of 15,000 Rupees, I will

will make over my landed Property at Cotacamund and Poonamallee, should you think this proposition worthy of your support and encouragement. I will feel particularly obliged if you will forward it to the Board of Revenue. I flatter myself that the Board of Revenue cannot for a moment doubt my integrity, for they are aware of my abilities and unceasing exertions in the Zillahs of Chingleput and North Arcot for these last 4 years in the Abkarry Farms of those Zillahs and the large amount of Revenue that has been paid by me in excess to any previous years or Renters, this is well known to the Board of Revenue, which I am led to believe will tend to facilitate the object I have in view. and I flatter myself that I cannot offer any stronger proofs of my integrity and unceasing exertions than those on record in the Zillahs above mentioned.—

I beg also to remark if I had not already established a Sugar Manufactory at Vencatagherry Cottah in the Northern Division of Arcot, I should have had no occasion to solicit

solicit the loan mentioned / the erection and establishment of which, with a still and other utensils from Europe, I am sorry to say has taken all the Ready Money I have at command at present / The sample of Sugar and Sugar Candy I sent you the other day manufactured &c under my own superintendance at Venca-taghery Cottah is I presume sufficient guarantee of my capabilities to carry out my proposal.—
