receipt of your letter of 2<sup>nd</sup> inst, dated the 8<sup>th</sup> instant,  
with Enclosures, relative to the levy at Bombay  
of the full excise duty on salt exported to ports  
under the Madras Presidency and to state for  
the information of the Most Noble the Governor  
of Port St George in Council, that a reference  
has been made by this Government to the  
Government of India on this subject.

Under the urgency however of  
the request contained in your letter the  
Governor in Council has, pending the receipt  
of the instructions of the Supreme Government

Port St. George 11<sup>th</sup> November 1892

Resolution thereon

8-9

Resolved that the foregoing letter be submitted for the orders of the Most Noble the Governor in Council

As it appears that the pension of 50 Rupees per mensem enjoyed by the late devaram Dunge, a Member of the family of the former Rajah of Coonoor was on his death in October 1896 continued to his legitimate son Poorooshottam Dunge. Mr Russell altho omitted to be reported at the time, the Board beg to recommend that this arrangement may now receive the special sanction of Government and that the retrenchment by the Civil and Public Accounts Department on that account in July 1892 amounting to Rupees 550 may be cancelled.

Read the following letter to Mr. C. C. Lovell Esq.

Acting Secretary to the Board of Revenue

Port St. George

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 10<sup>th</sup> October forwarding an Extract from

10

From the Collyer's Par. 1

with reference to the inscription of the Cindakulak Velchoor, Co-door, and Ootoor.

14993

Cotton and Poyarum are States with the Survasiddi Talook that the Dindigul State has been recently purchased on account of Government and proposed to be incorporated with the Survasiddi Talook. The entire revenue of the State of Survasiddi is to be included in the Talook and the property of the Government is to be included in the Talook.

Port St. George 11<sup>th</sup> November 1892

the Minutes of Consultation under date the 1<sup>st</sup> idem, in which the Most Noble the Governor in Council confirms the purchase on account of Government of the Estates of Cindakulak Velchoor, Co-door, and Ootoor.

In reporting the sale of the above Estates, I proposed to incorporate them with the Survasiddi Talook, and I submitted a Statement of the Establishment which I recommended should be entertained for the Revenue and Police administration of the new Talooks, but have not as yet received any instructions on the subject.

Since the above period, the Most Noble the Governor in Council has sanctioned the purchase of the entire Cindakulak Estate which had fallen heavily into arrears.

These Estates may also with much advantage be incorporated with the Survasiddi Estate, but some additions and modifications of the Establishment formerly proposed

14994

Fort St George 11<sup>th</sup> November 1841

proposed will of course be necessary.

5.

The Summabundy Tallook<sup>4</sup> present constituted, comprises 2 Proprietary Estates, the permanent Peshkash fixed at amount to Rupees 24013-8-0 whereas the new Tallook will include 7 Proprietary Estates which at the time of the permanent settlement a permanent Bairy of Rs 99918-8-0 was imposed.

6. The Establishments now existing in the Revenue and Police administration of this tract of Country, (including the temporary Gaft Establishment entertained for the Revenue administration of the Condahislah, Velchoor, and Catoor Estates,) involve an expense of Rupees per Mensem, but in this no provision is made for the Revenue Management of the Rayanah and Dinlay Estates.

7. If temporary Establishments, even if the additional servants absolutely required for this purpose, were separately entertained and sanctioned for a combined Establishment could be received, the cost to the State would be less, the superintendence would not be so great, and consequently the Estates would be less productive than if they are at once thrown into one Tallook, and a suitable Establishment entertained.

14995

Fort St George 11<sup>th</sup> November 1841

8.

I propose therefore to carry out this measure at once, and to entertain the new Establishment from the 1<sup>st</sup> Proximo. The details of this Establishment are fully exhibited in the accompanying Statement. I am thus it will be observed that the cost of the new Establishments only exceeds that of those now entertained in the sum of Rupees 52 per Mensem, and I believe they will be much more efficient.

9.

It will probably be better that the Condahislah, Velchoor Catoor, and Catoor Estates should be regarded as the property of Government from the commencement of the present Fydy. If so, it will be necessary for me to submit for sanction as well a Statement of the expense incurred on account of them from the 12<sup>th</sup> July to the 1<sup>st</sup> November. The account with the Proprietor will then be closed up to the end of last Fydy, and the Balance which has accrued since the sale, will be recommended for remission in the Summabundy Report now under preparation.

10.

I trust that the measures which I have adopted will meet with the approbation of the Board, and Government, and that sanction for the Establishments which I propose to entertain from the 1<sup>st</sup> November, and which are detailed in the accompanying Statement may be conveyed to me as early a period as possible.

from the acting chief clerk. I have the honor to forward  
the collection of the papers of Mauritius Sugar Cane  
Commission in the District which I promised in  
my letter of 10th of November last.  
Mentioned in that letter  
the failure of the experiment which was made  
in the present year in consequence of your  
communication dated 10th April 1843. Had  
then ascertained that four only out of 100 of  
the cane given and have since been informed  
that all the remaining would be mentioned also  
that an attempt had formerly been made to  
introduce a new variety cane into the District  
and received the letter of 9th Decem-  
ber 1842 and promised to report to the Board  
as early as I should be able to what extent  
the introduction from those cane had spread.  
I have now been able to mention that  
the cane had been received from Madras and dis-  
tributed among the 100 cane of which how  
ever only three have been taken from the  
cane and the Board Assistant subsequently  
received the cane from the Board Assistant.

received and distributed about 200 of which 200 were sent to Amalapur Talook. These all died. 80 went to Nagarum Talook. 50 to Mogallur Talook and the others were divided between the Pittapur Zemindar and the Proprietors of Juggumsettah and Burlumpetty. These all succeeded with the exception of the Burlumpetty Proprietor's share, they having been neglected, it appears, during his absence from home.

4. The Canes which Mr. H. have imported were of two descriptions, one a great deal stouter than the Country Cane and the other somewhat slender. The latter description of which there seems to have been only 20 found no favour. They were tried by two Ryots in Mogallur Talook who agree in declaring that the Jaggery made from them was of no worth, a description that nobody would buy and they accordingly condemned and uprooted all the thin Canes.

5. The stout Canes on the other hand are spoken of by all the persons who have planted them as very excellent and that they are prized in the District is proved by the fact that notwithstanding the failure in Amalapur of the 200 sent to that Talook the Mauritius Cane has been subsequently reintroduced by a Ryot who procured some cuttings from the Nagarum Talook and set them.

6. After all however there is no great extent

15000

Fort St. George 11<sup>th</sup> November 1844

extent of land occupied as yet with this description of Cane. all that can be said is that the people approve of it and will extend the Cultivation as much as their opportunities allow.

7. The table in the Margin contains an abstract of the localities and extent of this Cultivation. The surface of ground employed is only about 4 1/2 acres. But considering that the original stocks from which the existing Canes have multiplied in 3 years was only about 175 and that a good many have been used in

4. The Canes which Mr. K. have imported were of two descriptions, one a great deal stouter than the Country Cane, and the other somewhat slender. The latter description of which there seems to have been only 20 found no favour. They were tried by two Ryots in Mogallur Talook who agree in declaring that the Jaggery made from them was of so worthless a description that no body would buy it and they accordingly condemned and uprooted all the thin Canes.

5. The stout Canes on the other hand are spoken of by all the persons who have planted them as very excellent and that they are prized in the District is proved by the fact that notwithstanding the failure in Amalapur of the 200 sent to that Talook the Mauritius Cane has been subsequently reintroduced by a Ryot who procured some cuttings from the Nagaram Talook and set them.

6. After all however there is no great extent

extent of land occupied as yet with the description of Cane. all that can be said is that the people offer of it and will extend the Cultivation as much as the opportunities allow.

7. The table in the Margin contains an

But considering that the original stocks from which the Canes have multiplied in 3 years was only about 175 and that good many have been used in making trial of the produce perhaps no more could have been looked for. |

Cane produced a beer of juice, and in Regaltor it was not much left. The Jaggumpattah Proprietor manufactured a small quantity of sugar with the juice of these Cane and also with that of the Country Cane, which he sent to me and I have the honor to forward samples of each for the inspection of the Board. By reporting upon them he says that the jaggery made from the Country Cane is sweeter and therefore preferred by the Natives, but the price it sells for is not higher than can be obtained for the Mauritius while the produce is so much greater from the latter as to render it far the most profitable. The Regaltor and the Teyarame Ryots however agree that the Mauritius Cane jaggery is better than the Country in every respect. In the poor no jaggery having yet been made from the Mauritius Cane. All the reports concur in saying that the profits of the Mauritius Cane are the greatest. Have

on one toom of land which in English measurement would be about  $\frac{1}{8}$  acre.

9. The experiment I think is well worth repeating and there are a great many respectable and intelligent Proprietors and Cultivators in this District who are very desirous of having the Mauritius Sugar Cane in their gardens. The last lot of Cane are said to have perished from too long exposure before setting and I have also heard it suggested that they were cut too ripe. Attention should therefore be directed to this point in case a new supply is sent for, and it is very advisable that they should be forwarded by sea at the season when the passage is made in two or three days.

10. With respect to the thin description of cane which was said not to produce good Jaggery I am of opinion that the Ryots were precipitate in condemning them and that the experiment was not fairly tried. In some respects they seem to have excelled the stout kind, for one of the Ryots in Regaltor

15003

put down ten plants of each description upon the same extent of land. The stout ones produced 79 Canes. the thin ones 200. The other Ryot in the same Taluk set ten plants of the slender kind and cut 100 Canes. Perhaps if these Canes had been ground at Piddapoor or at Suggumpetta were they understood the manufacture of Sugar better than elsewhere in the District, the result might have proved more satisfactory.

11. The Canes now growing will be ready for cutting in January and February, and I will cause fresh experiments to be made of the Saggery and Sugar which can be produced from them and use my best exertions to encourage the continued increase of their cultivation.

From the actg. collr. Sir,  
of Rajahmundry.

In further reference to a letter of 30<sup>th</sup> Ultimo and enclosing copy of a copy of Extract from the Proceedings of the Special Commissioner's Court, P. D. Dated 30<sup>th</sup> Ultimo just received and requesting instructions respecting the answer to be filed in the case therein alluded to in time to save the judgment proceeding against the Collr. of this District.

In further reference to the subject of my letter of 30<sup>th</sup> Ultimo I have the honor to enclose copy of a copy of Extract from the Proceedings of the Special Commissioner's Court for the Northern Division dated 30<sup>th</sup> October 1844 which reached me today from the Government Vakil in that Court, and to request that I may be favored with the Board's instructions respecting the answer to be filed in the case alluded to in these Proceedings in time to save the judgment proceeding against the Collector of Rajahmundry on default.

Rajahmundry

Petitioner.

Read Motion No 207 of 1844 presented  
by Special Government Vakil in behalf of  
C. S. Bird Esqre Acting Collector of Rajahmundry  
supplemental Respondent in N. D. No 207 of 1844 in  
the file of the late Provincial Court, praying with  
reference to the Courts Proceedings of the 17<sup>th</sup> September  
last upon his Motion No 182 of 1844 by which an extension  
of 6 weeks was granted to file his answer in the  
above suit that as the time allowed will expire  
this day 30<sup>th</sup> October 1844, and as the Petitioner  
has been in expectation of the sanction of the  
Board of Revenue for filing the proposed answer  
which was submitted to them on the 1<sup>st</sup> Inst. on that account the Court will be  
pleased to allow him sufficient time to  
file the same after he shall have received  
the authority of the Board of Revenue as

15006

Fort St. George 11<sup>th</sup> November 1844requested in the two Instructions herewith  
presented.

The Vakil substitutes a motion  
for the answer explaining the cause why it has  
not been tendered as directed this day.

In the 1<sup>st</sup> instance 15 days time was  
allowed on the 19<sup>th</sup> of August last, and upon refer-  
ence to the Court of Sadr Mdalat 6 weeks in exten-  
sion was granted an application of the same  
Party for the like purpose from the 18<sup>th</sup> of  
September, which is completed this day.

The Court for the reasons set forth are wil-  
ling to allow a further reasonable latitude  
but owing to the fact of this case being the  
only one to be disposed of and no other busi-  
ness in arrears and adverting to the injunction  
of the Sadr Mdalat in their communication  
to him of the 19<sup>th</sup> Instant with the knowledge  
of this being the sole suit now pending that  
they trust the special Commissioner will  
not relax in his efforts to bring the work  
of the Commission speedily to a close, he  
cannot, as the answer might have well  
put in by the period last given, pro-  
crastinate much longer, & therefore resolves  
that

15007

that the Government Vakil be directed to inform his client that the Court will wait for the proposed Defence to the 15<sup>th</sup> Proximo, and if it be not then presented, judgment will proceed in default against the supplemental Respondent.

showing a net increase of Rupees 42389 - 7 - 10.

2. The gross revenue derived from the sales of salt exceeds that of July 1252 by Rupees 59705. 12 - 3. there has been an improvement in every class of sales, in those for home consumption of Rupees 27136 - 13 - 8 for inland consumption of Rupees 6604 - 7 - 7 and in sales for sea export of Rupees 25706 4 - 9. In Paras 4 and 5 of his Report Mr Bishop has introduced statements showing the diminished quantity of salt sold for home and inland consumption, as compared with the previous year in the period subsequent to the enhancement of the monopoly price in April last. The recent reduction of the price of salt

to nearly its original rate renders any notice of the remarks of the Acting Principal Collector on this subject unnecessary.

3. The inland customs which is the only branch of Extra Revenue on which there has been any material decrease, have fallen below

Sayer

1252 ..... 106825 - 2 - 2

1253 ..... 83015 - 14 - 8

Decreased 23809 - 3 - 6

those of July 1252 by 23809. 3 - 6. but solely in consequence of the Sayer having been abolished three months before the close of the July. If the Collections up to the date on which the levy of Inland duties was discontinued be compared with those of the corresponding period of the previous year, there will be found to be an improvement of Rupees 4746 - 6 - 10.

Collections from 12<sup>th</sup> July to 31<sup>st</sup> March

1252 - 23219 - 2

1253 - 21238 - 8

1980 - 10

4. The Alkarry settlement from more favorable offers exceeds that of the year preceding by Rupees 1980 - 10. The increase in the Sea Customs Collections is both on Imports and Exports in the latter from larger export of grain in the former from the enhanced rate of duty levied under Act VI 1844 on a considerable quantity of raw paddy and rice imported from Rangoon.

The

Settlement.

1253 - 20727-4-4

52 - 20684-13-9

42-6-3

5. The demand on account of Mortar is greater than that of 1841 by Rupees 42-6-3. The Acting Principal Collector states that the information required by the Board in their Proceedings of 13<sup>th</sup> January 1843 for the formation of the table of Mortar rates is under preparation and will be submitted as early as possible. It is important that this should be furnished with all practicable dispatch.

Stamps.

1253 - 14039-6-4

52 - 13191-6-4

Increase 848-

6. Notwithstanding the decrease (Rupees 1765-2-) in the sale of Sayer Romanahs consequent on the abolition of the inland duties there has been an increase on the whole Current Stamp Revenue of Rupees 848 resulting from the augmented sales of Stamp paper for legal purposes and of Sea Custom Romanahs. The trifling decrease Rupees 6 in the small Farms does not call for remark.

Charges.

1253 - 10700-10-1

52 - 144934-12-2

Decrease - 44929-2-1

7. The charges have been lower than those of 1841 by Rupees 44929-2-1. This decrease has occurred principally in the Salt and Sayer in the former in consequence of a smaller quantity of Salt having been received into store than in the previous year.

Small Farms 716-2-0

716-2-0

Of the total Current demand in all sources Rupees 2-10- were outstanding at the date of the 13-13- on account of small Farms and 702-8-10- for Mortar. Of the latter balance 362-1-3- is in the Principal Division, it is expected that about 200 Rupees will be recovered - the remainder Rupees 340-7-7- is in the Sub Division and will be explained in the Sub Collectors Summary Report. This report has not yet been received and it would have been better, if the nature of this balance and the recoverable and irrecoverable portions of it had been ascertained from the Sub Collector and exhibited in the report on the Expenditure now before the Board as well as that outstanding in the Principal Division.

Old arrears 9-

Mortar 6744-11-8

9. The arrears due for former years are wholly on account of Mortar and amount to Rupees 6744-11-8- on those from 1245 to 1248 inclusive Rupees 3107-11-8- the Principal Collector reported in his

It will be observed that  
1. the outturn of M. G. 6921.140 - of salt on  
being disposed of came to M. G. 6674. 213-2/4  
and the wastage to M. G. 246. 326-5/4  
or M. G. 3. 216. 3. 7/4 Cent; which exceeds  
the percentage of the wastage in fuslies  
1249 - 1250 - 1251 - 1252 as shown in  
a. D. 1830/40. 1840/41. 1841/42. 1842/43  
the margin. The increase in the percentage  
of the wastage is to be attributed to a  
large portion of the salt disposed of in  
fusly 1253 having been old salt stored  
in fuslies 1250 & 1251.  
I request you will obtain the  
Sanction of Government for writing off the above  
wastage as also sanction for C. P. 2. 1250 being  
the hire paid for conveying to the Platforms  
on the beach a part of the salt lost by  
wastage as shown in the statement.

11.10 Comparative statement of  
for July 1843.

11.11 General assistant comparison  
of the whole Revenue for  
from extra services for the

statement of the whole Revenue for  
the year 1843.

comparing the District of Chittoor for the year  
was made as follows - The 12 Talooks under  
own more immediate management were  
settled by myself as usual, and out of the  
other 5 Talooks comprising the Sub Division  
were settled by Mr Pelly the Sub Collector. The  
Talook of Annulapoor by myself owing to that  
officer having obtained leave of absence.

3 The beginning of the season of July  
1253 was unfavorable - The first rains having  
failed much of the usual quantity of land  
taken up for the Moongar Crop was not sown  
and even for the Pingari the rain did not set  
in till the sowing season was far advanced.  
Rain fell about the 21<sup>st</sup> September most abund-  
ly. The Ryots worked hard but were much ham-  
pered in their sowing and could not finish before  
the land began to dry again becoming  
too stiff for the Plough, in fact the season  
had expired - of this the Ryots of Chittoor  
Goollem

Port St George 11<sup>th</sup> November 1844 -

Goollem complained to me at the Jimmahbundy  
in the month of January, in the Northern  
Talooks the Crops looked so bad, that I felt  
convinced that heavy losses would be sustained.  
I refused however to allow examination  
to commence at so early a period and  
a favorable East wind setting in  
steadily almost immediately all fears for  
the season were removed for such is con-  
the influence of this cold wind on the  
chance that it is considered by Ryots the  
certain harbinger of a heavy crop.

4 It would generally appear that the  
Tanks of the District received a larger supply than  
in former years, but the supply was not seasonable  
for Kartick only a very few Tanks were filled, and tho  
the rains that fell in the latter end of September were  
abundant, and filled several Tanks at once, yet being late  
they were only of avail for the Typack Crop, much land  
left waste in the Kartick for want of an adequate  
supply was cultivated and the full rent levied.  
The practice of taxing full rent on lands not  
cultivated in Kartick has this year raised the  
Rent even above last year - when both crops  
were sown very generally - The subjoined is a  
Tabular account exhibiting the quantity of  
water received to the several Tanks in the  
District during the last 5 years excluding July 1843  
1248 (being the year of famine) by which it will be  
seen that we have an increase in the year under report  
July.

The Cultivation under nullahs and wells is nearly equal to last year, and the Ryots have had the usual return. Notwithstanding the Ryots have had a fair return their disinclination to cultivate keeps pace with the continual fall in the prices of Grain. The Board are aware that the prices have been remarkably unfavorable to cultivators in last year, and I regret to say that I look forward with serious misgivings to the future should these calamitous prices continue as instanced in the annexed abstract.

Fusly 1252  
1591  
22,675

I am happy to state that during the year we have been freer than usual from Cholera only 1591 Deaths being reported, and the disease having shewn itself only in 96 Villages. There has not been any great Mortality in stock except in one or two places in the Sub-Division.

The Lands included in the Nullahs of Ryots for this fusly are Acres 21,32,677 assessed at Rupees 31,62,597 falling short by Acres 76,954 Assessment Rupees 46,235 of last fusly 1252. The usual abstract statement shewing the extent and assessment of lands held and cultivated together with deduction both in the present and last year here follows.

Under Wells - 1,181 - 9669  
196,506 - 134,845

The decrease in the Dry Land is solely  
attributable to the failure of a regular  
rain in the dry season and the decrease in  
in lands under Willahs and Wells is  
owing to some Ryots of the Poorer class  
having relinquished their holdings - However  
ever this is counterbalanced by the  
increase in Land to Land by the heavy rains  
which

15031

Fort St. George 11<sup>th</sup> November 1844.-  
 which filled the reservoir in the end  
 of September as already noticed and the  
 increase amounting to acres 5,370 assessed  
 at Rupees 48,264 (being 1/2 per turn Rupees  
 39,205 and 1/2 per turn Rupees 9,059) has  
 reduced the decrease to the pre-aided  
 of Rupees 56,581. It will be observed  
 that in the foregoing statement the  
 settlement is distinguished under two  
 heads - First, Land paying full rent  
 amounting to acres 17,66,343 assessed at  
 28,34,587. Second, Land still under Cowle  
 being acres 22,739 assessed Rupees 37,381.  
 In the latter head there is a decrease  
 below last year of acres 26,181 assessed  
 Rupees 51,022 owing to the usual transfer of  
 expired lands made to the former head  
 and notwithstanding this transfer the  
 of cultivation amounts to acres 16,905 assessed  
 Rupees 35,559.

9 The subjoined is an abstract  
 of the Land Revenue for the full year  
 and the decrease therein entered, viz. Rupees  
 46,235 or the net settlement Rupees  
 averages 1-1-8 Cent below the total  
 of last year.

The greater proportion of this decrease of Rupees 24,408 or 1-1-<sup>a</sup> per Cent has occurred in the Sub Division, the decrease in the Southern Talooks amounting to Rupees 9,011 or 1-9-<sup>a</sup> per Cent.

10 I now proceed with Statement No 2 in which the net decrease of Ryotwar statement contrasted with the last year is stated at Rupees 24,408 being the result of a gross increase of Rupees 170,030 and a gross decrease of Rupees 194,438.

11 The different items composing the Gross increase (Rupees 170,030) will in the place be explained. The first item increase in cultivation, is Rupees 86,991 being Rupees 18,771 derived from new Ryots who held no land the same Village last year, and Rupees 68,220 of old Ryots who augmented their holdings in consequence of a Tank having received a full supply of water for Vyasa or who took fresh tracts in lieu of old Calagets ones thrown out. The next item Rupees 78,127 the increase of Rent upon Lands which were occupied both in the last and present

Fort St George 11<sup>th</sup> November 1841

The Board will perceive that there  
 Fusly within the last 20 years in which  
 land was so moderately taken up by the  
 this District, as in the present year, as  
 Cowle expires the Ryots experience much  
 in the due payment of their rents.

The accompanying Com-  
 statement of Cowle land No 9 shows the de-  
 below last Fusly at Rupees 50947 being  
 result of a Gross increase of Rupees 2324  
 2134 by old waste newly taken up and the  
 Rupees 190 by lands taken up in previous  
 but not entered in last year's Register) and  
 a Gross decrease of Rupees 53271 of which the  
 amount of diminished Cultivation is Rupees  
 584 whilst the remainder Rupees 52687 is  
 portion transferred to land liable to  
 rent, but of which the amount of land

term of Cowle has actually expired is  
 52209 being Rupees 48806 Ryot Cowle  
 Regud Cowle Rupees 17900 (Dumput  
 Garden) Rupees 917, and the residue  
 or progressive Cowle. Out of the  
 Regud Cowle land, or Rupees 17900  
 abandoned by Ryots at the begin-  
 season as

and the rest valued at Rupees 41975 is still in-  
 included in the Puttahi. I shall hereafter  
 transmit the particular Statement according  
 to the Board's Form marked A furnished  
 with their proceedings dated 18<sup>th</sup> March 1841 and  
 in which every other particular shall be  
 elucidated with the requisite remarks.

The assessment of land on  
 which the Revenue was realized in the Fusly  
 under report being Rupees 2871888 consists of  
 two items. The 1<sup>st</sup> of which or what was entered  
 as land Cultivated up to the time of making  
 the Jummabundy is Rupees 275590 being Rupees  
 2719344, lands ascertained to be actually sown  
 and Rupees 36636 waste land included in the  
 Puttahi and assessed and the other item Rupees  
 115908 is the land which remained to be sown

on account of the Uysak Crop. To these is added a sefment Rupees 2,90,709 deducted on account of land occupied but which could not be cultivated the total Gross sefment will be Rupees 3,16,257. In this the survey sefment Rupees 36,636 on waste (as above stated) being included, amounting Uasooly to Rupees 27,386 being about one fourth or Rupees 7,874 sefment on Appanum lands neglected to be cultivated by Potails, and the amount on those Ryots who have thrown up part of their puttah lands and cultivated Enamdars land is Rupees 6,117 and the remainder taxed upon certain cultivators who left waste part of their Farms cultivating only the highly profitable portions is Rupees 13,395.

21. The total remission upon the actual Collection of the year is Rupees 7,74,069, of which the established remission is Rupees 7,31,262; The remainder Rupees 42,807 being the usual discretionary remissions. The Chief portion or Rupees 29,269 is moonasib Cummee and a great part of this or Rupees 27,164 is what is styled Hayem Moonasib Cummee, always allowed to lands highly sefment as well as to coconut trees past bearing, and the rest Rupees

Fort St George 11th November 1844

Rupees 1828 is Hayem Moonasib Cummee or temporary abatement allowed to poor Ryots. Every information as regards this moonasib Cummee has been perfectly elucidated in paras 25 & 26 of my last annual report.

22. The survey sefment on land cultivated both last year and this amounts to Rupees 30,42,120 of which Rupees 10,24,94 is what changed hands, the rest being retained in the holding of the same occupants. The Revenue in that year amounted to Rupees 20,37,857 and the demand for the present year is Rupees 20,14,686 exhibiting a decrease of Rupees 23,171 below last year and the general cause is that rain failed at the proper season. To which if Rupees 86,990 is added being sefment on land which was waste last year and is cultivated this year, the total revenue amounts to Rupees 21,01,676.

23. The Enam land cultivated both in Circar and Enam Villages in this Fusly amounts to Rupees 15,49,252 being less than last by Rupees 16,990 or 1-1-1 per Cent the greater part of this decrease

Out of the balance of Fusly 1252 which amounting to Rupees 9079 the Collection made up to September 1844 being Rupees 3764 leaves a balance still outstanding — Rupees 5315. Of this Rupees 300 — — is ascertained to be recoverable hereafter and the rest Rupees 5015 being irrecoverable balance. I shall request in a separate letter to be allowed to remit the same. With regard to the balance for the present Fusly 1253 (Rupees 8772) I have reason to think that nearly one fourth will shortly be recovered leaving the rest as doubtful.

Out of the balance of Fusly 1252 which amounting to Rupees 9,079 the Collection made up to September 1844 being Rupees 3,764 leaves a balance still outstanding as Rupees 5,315. Of this Rupees 300 --- is ascertained to be recoverable hereafter and the rest Rupees 5,015 being irrecoverable balance. I shall request in a separate letter to be allowed to remit the same. With regard to the balance for the present Fusly 1253 (Rupees 8,742) I have reason to think that nearly one fourth will shortly be recovered leaving the rest as doubtful.

26. The subjoined is a General Abstract comparative of the whole Revenue from the Land as well as from the Extra branches for Fusly 1253 exhibiting a decrease of Rupees 64,223 compared with last Fusly.

Fort St. George. 11<sup>th</sup> November 1844

The increase of Rupees 11,544 in the Ordinary charges arises chiefly from the salaries of 2 additional Assistants being disbursed for the whole of this year and partly from an increase in works. Public Reservoirs.

The decrease of Rupees 5,413 in Extraordinary charges is to be attributed both to the advances for cultivation distributed this year being smaller, and to the arrears Payment to Zemindars. Pensions which swelled the charges last year.

The usual Statement of Government Plantations now forwarded No. 12. will shew that independent of 667 Topes entered in last year's account there are 4 more planted this year making a total of 671 Topes containing 179,412 Trees being Fruit trees 169,415 and other trees.

In obedience to the Board's instructions I have the honor to transmit herewith the accounts of one village "Daditah" in the Taluk of Taidputry for the year under report.

This Report is shorter than any I have yet had the honor to submit, the Board having

on one or two occasions alluded to the detail entered into and mentioned some other of my reports as elaborate. I have therefore confined myself to a more explanation and summary of the statements and have excluded several subjects of discussion which I could have wished to have introduced as connected with the settlement, but which I understand it to be the desire of the Board should be separately submitted.

Mr. Telly the Sub Collector is about to leave the District. The Board will be aware that I have always spoken highly of his services, and I have now only to state that his attention to business has always been unremitting and that he leaves the District bearing a high character amongst its inhabitants. Mr. Fisher has been absent on sick leave during the past year. Mr. Robinson who has acted for him has acquitted himself to my entire satisfaction. The Honorable D. Arbuthnot has generally accompanied me on my tours of duty and has lately been employed in the Sayer Report. I am happy to be enabled to say that has been of the greatest assistance to me. Mr. Tweedie who lately joined the District was for some time employed by me in the Post office and has been otherwise useful.

fell and some of the early cultivation of the dry crops was commenced. but the rain failing from then to September the sowing was stopped and a great deficiency of cultivation of dry crops has been the consequence. The rains which fell however in September and October gave a promise of a fair harvest from such of the latter dry crops of grain which could still be sown. But in this case the expectations were not realized. Unusual rain fell in December and greatly injured the crops which were in consequence very deficient and grain which last year sold at 5000 the average price was owing to this deficient crop 6000 this year. The tanks did not receive a good supply of water till the latter rains set in. There was not consequently an extensive cultivation of the cartee crops. As the Mysae crop was good there being a tolerable supply of water though not so large as in the preceding year except in Madagascrah where the Tanks were better filled and an increase of revenue equal to one third of the decrease sustained in the other four Talooks was procured. But the continued low prices have the effect of keeping the cultivation in some way lower than it might otherwise have been and the increasing difficulty from low prices

paying their rents will doubtless have the effect of deterring the ryots from taking up their usual cultivation unless considerable assistance in the way of remission is afforded them. The Tahsildars, one and all complain of the difficulties they meet with in keeping up the cultivation but though no doubt the disinclination of the Ryots to continue their usual cultivation is partly general, it is more particularly confined to heavy & assessed Well lands and to large tanks where the cultivation depending entirely on the supply of water is not regular. and when the tank is full is generally carried on with the aid of Payaary Ryots from the neighbouring villages but they now the returns are so unprofitable, refuse to take it up and prefer going in some instances to the Mysore Country where they can obtain plenty of cultivation on the easy terms of sharing the crop, without a money assessment with the owner.

The division though not free from cholera did not suffer so much as last year the deaths reported were 116. The deaths among the agricultural stock were also less than in the preceding year.

Annexed are the average prices of grain during the three last years. -

in this but in the neighbouring Territory of Mysore. But Paddy it will be observed was even below the average of the preceding year. I beg to note in the margin the average prices of the same grain in these Taluhs during the years

|       | July 1259 | July 1260 | July 1261 | years 1259-1260 and 1261 in reference to which prices Mr. Robertson the late Col. gave it as his opinion that if they continued at the then low state he saw no remedy but to give another general remission. The prices now are still lower. The great scarcity and famine throughout the Madras Presidency in the year 1858 raised the prices in Bellary District and they never have fallen so low again till during the late years. If the present prices too are compared with the rates at the time the agreement was made by Col. Munro and for several years after there will appear ample cause to believe the truth of the general complaint of the Tahsildars of the difficulty of keeping up the cultivation and of the increasing pressure upon the Ryots from 1804 to 1858. |

1854/55 during which time the agreement was made including the prices of 1852, 1853 and 1854 years of famine the average prices for the whole Bellary District was of—

Paddy 120 Ropes per garra  
Jumma 120 do

15132

Fort St. George 11<sup>th</sup> November 1864

and during the years for July 1219 to 1231 it appears from the accounts in existence, that the price of the four kinds of grain principally mentioned as those of more general growth in the Southern Taluhs was on the average for the whole of Bellary—

Paddy — 180 Ropes per garra

Jumma — 140 do

Ragi — 148 do

Gram — 136 do

In comparison of the present prices with those of former years I have given as illustrative of the present state of the division and to show the necessity that existed in making the settlement of guarding against any severity in pressing the Ryots too hard on account of deficiency of cultivation. The subsequent state of the balances at the end of the year and the difficulty in realizing them have impressed me that too great leniency was not shown at the Jaminahuddy and had greater remissions been allowed than were actually granted it would have been better. but there is great difficulty in satisfactorily giving remissions at that time to any great extent and as the Cult. Tow crop (a head under which a subsequent remission to poor Ryots was formerly granted and amounted to in these 3 Taluhs Rs 1,000 Ropes.

 every year that cannot without much difficulty  
 be realized in the present state of the Treasury Balances  
 and in such balances are never permitted to  
 remain except in cases of absolute necessity  
 the poor Ryots are frequently put to consider-  
 able difficulty to pay their balances - But  
 I have invariably ordered whenever the  
 Tahsildars have with good reason recom-  
 mended it, that the balances should not be collected  
 for the present and they will hereafter sub-  
 mitted for remission. With these general  
 remarks which for the benefit of the Government

The item of Calabate Banjar or remissions for waste lands entered in the Pultah is larger this year by 6776 Rs than the same item last year. The greater part is on account of dry land left uncultivated by the ryots owing to the want of rain mentioned before, partly also is for irrigated land. The item of remissions for losses of crops &c have been larger this year than last. They were granted to ryots at the Jummahandy whose particular cases seemed to require the indulgence for losses of crops heavy assessment. Poverty &c. The item of increase 520 Rupees from Enam Cultivation arises from increase of the cultivation of dry Enam land with a wet crop derived from Cicular water almost entirely in the Madugserah Taluk were during last year owing to the deficient supply in the tanks it was not so cultivated. The other items seem to need no remark. The net Revenue after all the deductions amounts to 5,75,551 Rupees which is a decrease of 9,018 Rupees below the revenue of July 1842.

In Statement N<sup>o</sup> 2 the actual Increase and Decrease is fully entered as usual. The Increase of Cultivation is 45,673 Rupees and the Increase derived from lands occupied in both last and the present year 22,969 Rs. The Increase of Rent and other items included makes the total Increase 70,488 Rs. The greatest increase will be observed

Col 86 to be in Madugserah. The Decrease of Cultivation was 33,115 Rupees and the Decrease of Rent on land occupied in both years 15,062 Rupees. The decrease on Enam Cultivation being added makes the gross Decrease 48,177 Rupees. It will be observed that the Increase of Cultivation is greater than the Decrease. The Increase is in the tank lands while the Decrease is chiefly in the dry and well lands. The greater Decrease on account of Calabate Banjar retained in the Pultah (4,427 Rupees) is principally for dry land left uncultured from failure of seasonable rains. But also for wet lands not sown.

Increase of  
July 1842  
Decrease of  
July 1843  
By Rs 1011

There is a Net Decrease of 10,111 Rupees. Ryots chiefly of Pajenay Ryots who I have before said to have been very backward to take up cultivation out of their own villages this year. This increase is chiefly under the head of separation of partners (Col 88) which has arisen in part from more care being taken to give in some instances a separate pultah to ryots who actually cultivated separately but had been included in a common pultah with others. The Cultivation in partnership is shown in Statement N<sup>o</sup> 6. The general revenue statement exhibits the usual details of the Settlement of the year in Col 125 and 126 will be found the amount

amount of land sown up to the time of making the  
 Jummabundy - 703767 Rupees and the Cysac Dule  
 or estimate for wet lands remaining unsown 33981  
 Rupees. This was chiefly in the Perinacondah and  
 Dhurmavaram Talooks the two Talooks in which  
 the Jummabundy was commenced. The Nellypode

Col 153

demand on that sum was 24,395 Rs and the subse-  
 quent accounts received show that 18798 Rupees of  
 land have been sown leaving an amount of  
 5597 Rupees unsown. I regret that so much  
 should have been left unsown, the more so as  
 particular attention was paid to this point at

the Jummabundy and care was taken to exclude  
 from the Estimate Land for which there not only was

water but which for other causes there seemed  
 a probability of its not being cultivated. But

the determination of the Dyots to cultivate and  
 perhaps a want of sufficient attention on the part

of the Dhurmavaram Talukdar (in which Talook  
 two thirds of the unsown Cysac or

estimate to this duty may account for so much  
 Cysac writes after the case that was taken to  
 make the estimate correct. This may be explained

in the fact that the estimate given in by the  
 Dhurmavaram Talukdar for the Cysac of

at the Jummabundy amounted to 25,188 Rs  
 of which only 18,598 was confirmed by me - 11

is more to be regretted because in the present  
 hard times the payment for waste which issues  
 falls heavier on the ryots.

The deductions on the gross settlement

 statement from Col 127 to 168 and amount to 24,161 Rupees

of this sum 4,691 are remissions on account of  
 cultivated Land. I have already observed that the  
 item on account of dry land was larger than

last year. The amount deducted on account  
 of dry waste this year is shown in Col 135 to

be 5773 Rupees. The corresponding item on  
 last year's account was 39998 Rupees.

 the actual cultivation was 18,416 Rupees. Those  
 for heavy assessment loss of crops 8992 and

Miscellaneous remissions 252 Rupees. These  
 do not require to call for any particulars.

Remarks except that with reference to the 11<sup>th</sup>  
 Para of my last report to notice that the

remissions under the head of Rayam Monies  
 (Col 154) are rather more than those from last year

which has arisen from more land to which the  
 remissions for heavy assessment has been granted

in past years being cultivated this year and in  
 instances amounting to 90 Rs of land to which

I have newly allowed a remission for heavy assess-  
 ment. I propose sending an account of lands to  
 which I have during the time I have had charge  
 of these Talooks given remission for heavy assess-  
 ment.

...the final settlement of the heavy deposit land which I made allusion in my report of last year and should have been happy had the necessary authority been given me to enable me to have performed the task before the District.

The Net Settlement Report after all deductions with the addition of 1854 for supposed cultivation carried account after the Sumneraundry amount to 546,000 Rupees.

The taxes on Enam amount to 29,400 Rupees and exceed the same extent of year by 540 Rupees.

The Enam Cultivation is left last year. There is an increase in two chiefly in Madigserah where from the supply of water in the tanks 5074 Rupees land has been this year cultivated where there was waste last year. In the other 3 Talukhs there has been a great decrease and decrease is in the cultivation of Enam by 3000 Rupees to the amount of 9500 Rupees increase of cultivation by Enam Ryot is in the Madigserah Taluk.
