Proceedings thereon - Para 1. The supply of rain in 1252 Fusly was much more scanty than in the preceding year. During the Monsoon few heavy falls occurred tho' there was no want of slight Showers which even continued so late as April and May and by their unseasonable character did considerable mischief - The effect of this was to leave the Tanks insufficiently furnished with the means of irrigation, thereby diminishing the extent of wet cultivation, particularly in the southern Talook of Madagascrah, to curtail the produce of the dry crops, much of which was burnt up, and to damage the Cotton, which was in full bearing when the unusually late showers occurred towards the close of the season. Disease too seems to have been as prevalent as the preceding year particularly in Sub Division. The cases of Cho —

The Collector has instituted a comparison between the present and several former periods. Of these five years between 1210 and 1214 Fuslies were marked by the occurrence of one of the most terrible famines on record, which prevailed more or less during the three last of them, over a great part of Southern India. The prices given by the Collector for this period do not tally altogether with those of the Nerick lists in the Boards Office

The cultivation somewhat exceeded that of the preceding Fusly in extent but this was occasioned by the occupation of an inferior description of land, the lower assessment on which coupled with the relinquishment of more valuable cultivation occasioned a decrease in the amount of the Revenue undertaken at the commencement of the season. The Decrease in the Superior black Lands and in the wet cultivation is not attributable to the season, because the nature of the Monsoon cannot be foreseen

But as the proportion is not large the usual casualties by death emigration and the effects of the state of the market on the poorer classes of inhabitants may afford a sufficient explanation.—

The decrease under the head of Lands irrigated from Wells is 1283 acres at Rs 9413 to which if there be added a subsequent deduction made at the settlement of 330 acres yielding 3004 Rupees we have a total decrease on the year of this description of cultivation amounting to Rupees 12417 when the privileges on the construction of Wells at the expense of the Ryots were promulgated under the orders of Colonel Munro, they were coupled with conditions which it was believed would prevent the relinquishment of the Lands irrigated by old constructed Wells and in reply to the Board's enquiries whether this result had not ensued Mr. Robertson in his Report on the Settlement of 1244 Fusly declared that the

had carefully guarded against the occurrence of any such consequences. In looking back to this head of Revenue the Board observe that it has been subject to considerable fluctuations of late years. It is very necessary that the Collector should keep his attention fixed on this subject and that he should explain the causes of the annual increase and decrease. The great advantage it possesses consists in its independence of the circumstances of the season which should prevent any great change in its amount.—

The loss in the Principal Division is rendered less conspicuous by the additional Revenue received from the Lapsed Villages of the Harponhally Devan now first brought to

to account. It is observed that credit is taken for the recovery of a larger Revenue from these 4 Villages notwithstanding the general remission of 25 per Cent since allowed, than was usually realized by the Zemindar but the grounds of this belief are not shewn and without access to the Zemindars accounts it is not easy to pronounce on its correctness.

6. The Board received a Report from the Sub Collector in Charge of the Lands held on Cowle, but were unable to dispose of it in the absence of the Statement alluded to in this Para. That document has since been received and the whole subject has been reviewed in separate Proceedings. It will be suffecient to state here that the system appears on the whole to have been productive of much benefit and to have occasioned a considerable addition to the Revenue and that although at first the large quantity of waste taken up led to a failure on the part of some of the Ryots in the fulfilment of the conditions of the Leases the attention which has since been directed to the

explanation of the reductions from the original Survey rates to which the Board's attention was again attracted in the Proceedings of the preceding Settlement by the circumstance of their constant recurrence and their growing amount. In these it was observed that tho the item called cutta Jowkaf

Towards doubtful sums due by poor Ryots, deducted at the settlement from the Jummah and if realized ultimately credited to Extra Collections) which had been previously mixed up with reductions of over assessment in the survey had as Mr Robertson stated been discontinued since 1216 Fusly, yet that the annual remissions under the latter head alone had subsequently exhibited no diminution but rather the reverse. The Board therefore requested Mr Mellor in future to enter the various items of which this sum was composed in separate Columns distinguishing those on account of over assessment from the others of a temporary nature common to all Districts, which has now been done accompanied by an explanation of the origin of the former. From this it is seen that Colonel Munro in reporting the conclusion of his survey stated that as a final measure he had examined all cases of over assessment of particular fields brought forward on the complaints of the Ryots and had found that many of them were well founded. He had therefore considered it necessary in such to grant remissions of from ½ to 1½ per

per Cent. But as any interference with the original Survey rates might have created an impression injurious to the permanent character of the new assessment, he proposed that the original Settlement should stand unaltered and the requisite deductions be made annually. This arrangement however was only carried out by him in the Talooks settled in 1215 Fusly and he stated that those settled in Fusly 1216 would be rectified in Fusly 1217 and those in Fusly 1217 in 1218 — a sum of about 10,000 Contaroy Pagodas. In consequence however of Colonel Munros return to England in October 1807/1217 this design appears to have been only practically executed. Mr Gahagan the Collector in 1217 Fusly made them according to Colonel Munros list in the Gooty Talook for that year only, but not in Raidroog for which the same account had been prepared, and it was believed that besides Raidroog no steps had been taken to extend the same measure of relief to the 5 Western Talooks nor to the Adwanie Division. The Board considered it only a measure of justice to admit these Talooks to participate in the benefits of the remission and they

they therefore desired the Collector to make a distinct representation on the subject. When however they subsequently recurred to the subject Mr Robertson explained that his enquiries had been interrupted by the extraordinary nature of the seasons and of the markets ever since 1236 Fusly which had made it difficult to ascertain where the survey pressed hard upon the people whether it was owing to these temporary causes or to over assessment. Something however according to Mr Mellor had been done in the meantime and he classes the various reductions under the heads of those granted before the general remissions of 25 and 33 per Cent and those granted subsequently. The former under the term Bharee Jirm Kummee are stated to amount only to Rupees 2,581 the latter granted by Mr Robertson to Rs 24,927. The latter have been calculated on the true principle of deducting the general and permanent remission granted in Fusly 1231 from the old survey rated first, and then reducing the inequalities afterwards instead of vice versa as has been the

the case in the Bharee Jirm Cummee remissions which were made before the general ones. Practically the result is the same however. But for a due understanding of the accounts and for judging correctly of the Survey by a comparison of results, it is desirable that all the adjustments should be made on a uniform and that the correct principle.

The extent to which these re-
9
ductions have already proceeded exceeds the limit contemplated by Colonel Munro. It has been shewn that he looked upon 19,000 Contaroy Pagodas or Rupees 29,166-10-8 as quite sufficient for the whole ceded Districts they appear to have now reached nearly that sum (Rupees 27,508) in Bellary alone. But the detailed Statement of them embodied in the 26th Para does not appear as the Board understand it to be correct. The deductions made before the grant of the Permanent remissions are there stated to have been confined to the Taloote of Hum-
ptee and amount to 1729 exclusive of 852 Rupees on Lands still under Cowle tenure and not demanded
until

Fort St. George 5th. December 1844

until the Lands are leable to the full Assess But the returns of Bharee Jirm Kummee for a series of years from 1232 to 1245 Fusly varied from 568 to 1356 Rupees annually and never exceeded the latter sum. How then do they come to be 1729 in a sin-gle Talook. The Board do not find any mention of the circumstances of this particular Talook as alluded to by the Collector and they are desirous that explanation of the facts of the case should now be laid before them. It is clear that Colonel Munro's corrections were not confined to a single Talook but embraced all those settled by him in 1216 Fusly, two of which are named incidentally by Mr. Robertson as in the enjoyment of their quota of reductions which were not included by Colonel Munro in the report last transmitted by him, yet having subsequently been made under his authority they have never been questioned. confined to actual cases of over assessment. It is hardly possible that such a change in the occupation of lands can have taken place in one year as to reduce the cultivation of the reduced fields to one tenth of what it had been in the previous season.

11 The importance of this subject makes the Board very desirous to have these points fully cleared up. They wish at the same time to ascertain whether any portions of the District have not yet undergone the necessary Revision ordered in 1826 and whether in those in which it has taken place, the deductions have all been made on proper principles. They resolve therefore to call on Mr. Mellor to prepare a report of the Taloks in which the remissions were made before Colonel Munro left the District and those for which the accounts had been prepared under his orders; the Taloks subsequently examined and by whom, the remissions granted in every Talok on each occasion and whether those once determined are permanent or are liable to fluctuation. But as such

such questions do not properly come within the scope of the annual Settlement it is desirable that Mr. Mellor should submit his sentiments on them in a separate communication.

12 The Settlement amounted to 23,08,148-12-7 being Rupees 30,614 below that of the preceding fusly. Of this Rupees 22,86,346-13-- were collected within the year and Rupees 16,486-6-10 have been realized subsequently leaving the balance outstanding on the 30th of September last Rupees 6,315-8-9.

13 Paras 36 @ 39 contain Mr. Mellor's reply to the Board's observations on the effect that the permanent remissions of 25% and 33% may be supposed to have had on the general prosperity of the District the purport of which is that the decrease caused by lowering the assessment has been compensated to the extent of nearly 87 per cent by increased cultivation and that the present demand would have been nearly equal to that of 1218 Fusly but for the unfavorable character of the seasons, while by

by adding the authorized remissions the advance of cultivation is shown to have been equal to nearly 12 per cent above that of the same year. But the fluctuations of the Berij having as the Board had observed varied remarkably in different Talooks. Mr. Moller has distributed them into four instead of three clases as they have been variously affected. The improvement in the two black soil Talooks of the first class seems attributable to the liberal grant of Cowles in them, that in the third to improvements in the sources of irrigation. the prosperity therefore of this class depends on circumstances unconnected with the remissions. the two classes which have been more stationary have not elicited any remark but several reasons are assigned for the decline of the three Talooks constituting the 4th. class; such as the poverty of the Ryots, the indifferent character of the soil, the inferiority of the produce, the small quantity of Enam land available for cultivation, the recurrence of epidemic

disease. On the other hand it must be

From Colr. 30 Sept. 1823 Para. 55.

observed that the assessment on them is very light so much so, that Mr. Campbell was induced to saddle the cultivators with a large proportion of waste, and to deny them the benefit of the authorized remissions in their Garden lands. But these impediments having been removed by Mr. Robertson and the Tanks put into a state of repair it does not appear what more is required. still though the Gardens have been admitted to the privilege of the authorized remissions and also to the usual deduction for old and decayed trees. Mr. Moller adds that they have not been relieved from the tax called "Rivay Sasthee" according to the intention expressed by Mr. Robertson in 1236 Fasly. This tax is imposed on trees planted in place of those that have decayed and seems quite in conformity with the principle of granting remission on those fast bearing. But referring to Mr. Robertson's report it is clear that he only proposed remission to those Gardens created subsequent to the survey by the Ryots own Capital and that he distinctly recognizes the propriety of the tax on the old Gardens formed under Circar Cowles which he considers to be entitled to the authorized remissions alone. The demand on account of

of this item in the 3 Talooks for the year under review was 14,095 that of 1236 Fusly amounted to 14,424 so that it has rather decreased in the interval. The question of the quit rent of the Village Officers in the same talooks is distinct from the above. Shortly after the Survey Government* were pleased to sanction the reduction of the Sodiger to the standard of the survey rates wherever it was found to exceed them and under this authority Mr. Robertson deducted the sum of 4,486-3-2 from the three Talooks of the sub division comprising those in question. It must be admitted that this relief does not go far enough for the profession of Sodee land ceases to be a privilege when held on terms not more favorable than the Khalisah land, but it does not appear how this circumstance affects the bearing of the Assessment on the latter.

Ordered that a Copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be transmitted to the Collector of Bellary for his information and guidance.

Endorsement on Petitions Nos. 7790 of 1842 & 7190 of 1844

Petitioner is referred to the Collector of North Arcot to whom instructions have been sent on the subject.—

51

Proceedings thereon,

Certain punished Sepoys and others being in occupation of some land near the Fort at Chittoor which was required as building ground for the troops under the orders of Government dated 10th August last. The Collector has permitted them to occupy some Manniam Poonjah land belonging to a Choultry, which was the only ground procurable fit for building on. The land measures Acs. 2—11 3/4 Rds and is assessed at Rupees 12—0—6. and the Collector

requests that a spot of Nunjah land of the same Value and measuring 8 Acs 72 Rds may be granted in lieu of it.—

No charge will be incurred by the arrangement as the parties occupying the manniam land will pay the assessment thereon. The Board therefore request the sanction of Government for the above spot of Nunjah land to be granted to the Choultry in lieu of it.—

Read again letter from the Collector in the Northern Division of Arcot dated 17th inst. and entered in Consultation 25th Ultimo.

Ordered that the above mentioned letter be submitted with the following address.—

To the Chief Secy to Govt.

Submitting a letter from the Collector of North Arcot recommending that sanction may be granted for continuing to Syed Mahomed the Pension of Enam enjoyed by his late father in Law Mahomed Esmael with a distinct intimation that the grant is for life only.

Ft St. George 5th February 1845

To The Chief Secretary to Government.

Sir,

1. With reference to a letter from the Department dated the 18th January 1836 and to the orders of Government thereon of the 4th February of the same year sanctioning continuance to Mahomed Esmael the Brother, and Mahomed Jaffer the son of Mahomed Rufeah certain Enam land granted in A. D. 1797 by the Nabob Sondut ool omarah to one Mahomed Tuckey. I am directed by the Board of Revenue to submit for the consideration

In Con. 25th Nov. 1844

Consideration and orders of the Most Noble the Governor in Council the accompanying letter from the Collector of North arcot dated the 14th ultimo recommending that the portion of the Enam enjoyed by Mahomed Esmael who died in November 1841 may be continued to his son in law Syed Mahomed.

2. It will further be seen from this communication that Mahomed Jaffer having died in 1840, the portion of Enam held by him had been continued to Gosland Mahomed Sucky his grand son and Shaik Hossain his son in law without any reference being made to this office on the occasion, the order of Government for continuing the Enam to Mahomed Jaffer and Mahomed Esmael seeming to having been constructed as conferring sanction for the continuance of the Enam to the descendants of these persons.

3 The Enam was originally granted in charity and consists of Poonjah Cawnies 7—5/16 assessed at Rs. 5—7 and Punjah Cawnies 7. assessed at Rs. 20—9— and would seem not be hereditary — But as the relatives of the late Mahomed Jaffer are already in possession of his portion of the Enam the Board would beg to recommend that Sanction be granted for the continuance to Syed Mahomed of the portion enjoyed by his late father in law Mahomed Esmael with a distinct intimation to both parties that the grant in question is for life only.

The Board think it would scarcely be consistent with the object for which the maniem referred to in the foregoing letter was granted, namely the Subsistence of the Village Blacksmith, that the present Maniemdar should be permitted to exchange it for other land to be converted into a Topo. To answer the purpose of the grant the Maniem should be cultivated or fit for cultivation. The Board observe also that it has not been usual and would be found inconvenient to allow exchanges of this kind at the solicitation of individual Maniemdars without reference to the permanent maintenance of the Office.—

From the Principal Collr of Salem
Submitting Summahbundy Settlement of the Salem District for Fusly 1253 A.D. 1843-44 —

Sir,

I have the honor to forward for the information of the Board the undermentioned Statements explanatory of the Summahbundy Settlement of this District for Fusly 1253. —

No. 1 — Revenue from Mootahs. —
" — 2. Settlement of the Government Lands. —
" — 3. Abstract of the above two State = ments. —
" — 4. Statement Comparative of the Revenue of the present and preceding years. —
" — 5. Detailed Summahbundy State = ment in Hindoovee only. —
" — 6. Comparative Statement of Do in Detailed — Do —.

Abstract.

Fort St. George 5th December 1844.—

No. —7.— Abstract Statement of cultivation with explanation of the causes of Increase and Decrease.—.

No. —8.— Statement of waste lands included in Settlement.—.

" —9. Abstract Statement of Lands held on Cowle.—

" — 10. General Abstract of Land and Extra Revenue.—.

" — 11. Average price of Grain

" — 12. Statement of New Settlers in the District.—

" — 13. Statement of Emigrants in Fasly 1253-

" — 14. Statement Comparative of Coravun=door Village recently transferred to this District from the District of Trichinopoly.—.

" — 15. Statement of Gross Collections.—.

" — 16. Do. — of Gross Charges.—.

2. The Settlement of Fasly 1253 appears to have been conducted in the usual manner, the four Talooks comprising the Sub Division were Settled by Mr. Britt — whose report accompanies this and the remaining Talooks with the exception of Salem and Wonalore, by the late Acting Principal Collector

Fort St. George 5th December 1844

Collector, these two Talooks were settled by myself after my return to the District in May last.—.

3. In consequence of my absence from the District — during the period of Settlement under report, it only remains for me to furnish the Board with the usual Statements of account.—.

4. The under written — Statement shews, that during the past Fusly, One Village and Six hamlets have been added to the original number of Amany Villages by the transfer of Coravundoor from the Trichinopoly, to the Salem District, agreeably to the instructions contained in the Minutes of Consultation under date 18th December 1843.—

5. The marginal Statement exhibits the number of houses, population and cattle, compared with those of the preceding Fasly — Of the increase in houses 462 are included in the newly acquired Village and 242 is the number erected by the inhabitants of the Salem District —. The increase of population shews 1062 inhabitants belonging to Coimbatore and the remainder to the other portions of the District — the account of cattle during the present year exhibits an increase of 15,763 Bullocks, Cows and Buffaloes, and 4256 Sheep — this increase however, does not make up the loss of the former year which amounted to 22,755 head of Cattle —.

8 The season for the cultivation of Fusly 1253 is reported to have been even less favorable than that of the preceding year in April and May — Sufficient

sufficient to commence the Poonjah Cultivation were received in the lower districts, but of these Supplies, the Baramal received little or none.— In June, the rains fell more generally and small supplies were received which enabled the Ryots in some quarters to prepare the Nunjah land in July, with the exception of partial showers in Shenkerrydroog no rain was received, consequently portions of the Nunjah Cultivation were parched and the remainder much stinted in produce.—

9. In the Month of August, excepting the Talooks of Shenkerry Paramutty, Wonatore and Kistnagherry slight showers fell, and the lands irrigated by the Cavary Channels, shewed prospect of good Crops.— The September and October supply was general, but no rain was received in the succeeding Month- in December a very favourable supply was received, which prevented any fears for the Crops then under cultivation, but it came rather late to cause any great extent of increase in the Cultivation.—

10. The wet and dry Cultivation in the different Talooks for Fasties 1252 and 1253 is exhibited in the undermentioned Statement.—

Excluding

Fort St. George 5th December 1786

12 Excluding the cultivation of the newly acquired Village of Coravandoor, the extent of poonjay cultivation for the present year was acres 6,19,407-9-3, the phyasl teerwah on which was Rs. 8,50,843-7-2 and the Settlement Beriz Rs. 8,20,411-4-1 that of the former year extended to Acres 6,27,854-33-5 the Assessment on which amounted to Rupees 8,69,373-7-7 and the Settlement to Rupees 8,29,143-3-8 — shewing a decrease in the present years' Settlement on the poonja cultivation of Acres 8,447-24-2 Rupees 8,731-15-7. This decrease has been general over the District, with the exception of the Talooks of — Paramutty and Tengaracotta, wherein a small increase has occurred. in Tengaracottah the increase in favor of the present year is acres 2,174-2-12 Settlement Rs. 1,633-3-2 but this Talook in the former Fusly, shewed a large decrease of Cultivation amounting to acres 6,289-10-1 Rupees 6,736-2-10 In Paramutty, the increase in the present fusly amounts to acres, — 2,636-13-1 Rupees 1,327-14-4 but on inspection of the accounts, it appears, that the increase in

Fort St. George 5th December 1786

in the grass lands taken up for pasture — during the present fusly within that Talook, amounts to acres 3,153-36-3 Settlement — 1528-14-7. from which it would appear that the actual cultivation in this Talook has been less as well as in the others.—

13 The only reason for this decrease was the unfavorable state of the season during the Monsoon in July and August, in which the principal poonja Cultivation takes place.—

In the poonja Garden — lands during the present Fusly, Acres — 17,871-35-6 were brought under cultivation, the assessment on which amounted to Rs. 83,553-9-11 and the Settlement Rupees — 82,403-7-3 the extent cultivated during the preceding Fusly was Acres 17,952-4-2 with an assessment of Rupees 84,493-11-4 and — Settlement of Rupees 82,363-7-6 and shewing a decrease on the cultivation of the present year of Acres 80-4-12 Summah 960.—.—3.—

14 With the exception of the

over the whole of the remaining Talooks, but it appears chiefly in Raizepoor where it amounts to Acres 107-32-5 the teervah on which is Rupees 1,453-12-10.—.

16. The Nunjah cultivation for Fusly 1253 appears to have been a little more favorable than that of the preceding year, the extent brought under cultivation amounted to Acres 5,820-4-8, the Assessment to Rupees 3,53,970-11-5 and Summah Settlement to Rs. 3,51,987-8-2 The Nunjah cultivation for Fusly 1252 was acres 5,0651-12-11 Assessment Rupees 3,50582-10-3, with a Settlement of Rupees 3,46,617-13-3 exhibiting an increase in favor of the present year of Acres 1,168-27-13— Rupees 5,369-10-11.—.

17. In the Talooks of Salem, Shenkerrydroog, Raizepoor Wonaloor, Dirampoory and Tripatore, the Nunja cultivation shews a decrease in all the other Talooks an increase is exhibited, more particularly in the Northern Talooks in Kistnagherry, Ossoor and Denkenesttah. The Nunjah garden land also shews a small increase in favour of the present year, of Acres 18-7-7 Teervah Rs. 164-7-4 had the rains, which fell in December, been received a Month earlier, these two last

last items of account would have exhibited a very different result, these, it appears, keeping out for the sake of comparison the Village of Oorawndoor the whole extent of land cultivated during the present year Amount to acres 9,1407-11-13, the Assessment on which was Rupees 1,30,295-3-11, the settled Jerz 1,27,229-8-11 that there was a decrease comparedwith with Fusly 1252 of acres 8,527-28-14 Rupees 9,091-15-10 in the dry land, and an increase of acres 1,150-29-4 Rupees 5,534-1-11 in the wet land cultivation, leaving a Net decrease as before stated, of Rupees 4,187-13-11.—.

18. But if to the extent of land above mentioned be added Acres 27-2-12, Summah Rupees 2,708-2-7 being the out-turn of Village of Oorawndoor, the total amount of the cultivations for the present fusly is acres 9,2324-17-9, Summah being Rupees 12,74,737-13-6.—

19. The subjoined Statement shews the outturn of the Nunjah and Punja Crops during the year under review, from which it would appear that the dry lands have yielded but a scanty produce, and the wet an average return.—

last items of account would have exhibited a very different result, thus, it appears, keeping out for the sake of comparison the Village of Coraumdoor the whole extent of land cultivated during the present year amount to acres 19,407-14-13, the assessment on which was Rupees 1,30,295-3-11, the settled being 1,27,239-8-4 that there was a decrease comparative with Fusly 1252 of acres 8,527-28-14 Rupees 9,091-15-10 in the dry land, and an increase of acres 1,150-29-4 Rupees 5,534-1-11 on the wet land cultivation, leaving a Net decrease as before stated, of Rupees 4,187-13-11.—

18. But if to the extent of land above mentioned be added Acres 217-2-12, Summah Rupees 2,008-2-7 being the out-turn of Village of Coraumdoor, the total amount of the cultivations for the present fusly is acres 19,232-17-9, Summah being Rupees 12,74,737-13-6.—

19. The subjoined Statement shews the cultivation of the Nunjah and Poonja Crops during the year under review, from which it would appear that the dry lands have yielded but a scanty produce, and the wet an average return.—

N.B Remark

38. The grazing tax shews a small decrease during the present year of Rupees 63–8.

39. In the Enam Jodigy a decrease has occurred during the present Fusly of Rupees 7–. this is occasioned by the following circumstance.

40. In Enam of Acres 14–20–8 of Poonjah and Nunjah lands, the Assessment of which is Rupees 11–2–9 was held at a Quit rent of Rupees 7–. by the Permah Davestanum in the Coopengherry Village in the Darampoory Talook. For many Years this land remained uncultivated, the rent having been made good by a collection among the Inhabitants of the Village during the latter years they refused to continue their subscription, and in consequence the persons belonging to the Church requested permission to relinquish the lands, on which subject I request the orders of the Board.

41. The increase of Rupees 68–11–2 in the Amount of Quit rent is occasioned by the sum payable by Captain Hill which was in last year entered in Perogjumanah being now brought to the Ayen Account.

42. In the Account of Fuzubjusty there is an increase of Rupees 11–12–6 and on account of Peercooly a decrease of Rupees 130–7–11.

Total Increase — 1448 5 7

as per Jamabundy to Rupees 31,202 — 3 — 4, that of the preceding Year to Rupees 32650 — 8 — 11. being an increase in favor of Fusly 1253 of Rupees 1448 5 7. The increase is entirely to be attributed to the Collections made

made in the Talook of Tripatore.

44. On the Hills in that Talook the Collections are made according to the number of Ploughs and Mamatties used during cultivation, these have hitherto been assessed at different rates, but the Tahsildar, during the Fusly under report, apparently without instruction, and without enquiry, raised the whole to the same rate, and the revenue is as under written. The only enquiry which took place at the Summabundy appears to have been whether the Ryots of their own consent, signed the Cittum Statement. this appears to have been done under a threat from the Tahsildar, that he would ascend the hills and enquire into the state of their cultivation: had the Tahsildar had any knowledge that the state of cultivation was such as to demand enquiry, he ought immediately to have proceeded to the Hills, and done what was necessary: the mode adopted of setting aside the Classification, without enquiry, was improper, and probably in many Cases, unjust. The difference in the Classification made by the Tahsildar, and its

its effect in the revenue, is as under.—

57. The demand for fusly 1253, on the permanently assessed portion of the District, amounted to Rupees 468,489 1 3. of this, the Amount collected within the Fusly was Rupees 454898—11—7. leaving a balance of Rupees 13590—5—8. being an increase of collection during the present year Rupees 11073—1—6. The above mentioned balance Rupees 13,590—5—8. was reduced at the end of September to Rupees 6,292—1—2 and since then, the whole of this Amount has been collected. There, therefore, remains at present, no outstanding balance for Fusly 1253 against the settled portion of the District.

52. Of the Amauny demand Amounting to Rupees 12,98,270—12—11, Rupees 12,65,076—13—2. were collected within the Fusly, leaving, at that time, an outstanding balance of Rupees 33,194—9—9 exhibiting a decrease collection of Rupees 15,270—11—4. Up to the end of September, the above balance of Rupees 33,194—9—9 was reduced to Rupees 13,738—15—9. Since then, Rupees 3,698—8—4 have been brought to account, the actual balance at present outstanding being Rupees 10,040—7—5.

53. Of the above amount Rupees 4,769—1—4 are

are supposed to be of difficult realization, and are made up to the following items.—

The remainder Rupees 5,271—6—5 will Although be brought to account.

51. The demand for Fusly 1253, on the permanently assessed portion of the District, amounted to Rupees 4,68,489–1–3. of this, the Amount collected within the Fusly was Rupees 454898–11–7. leaving a balance of Rupees 13,590–5–8. being an increase of collection during the present year Rupees 11,073–1–6. The above mentioned balance Rupees 13,590–5–8. was reduced at the end of September to Rupees 6,292–1–2 and since then, the whole of this Amount has been collected. There, therefore, remains at present, no outstanding balance for Fusly 1253 against the settled portion of the District.

52. Of the Amauny demand Amounting to Rupees 12,98,270–12–11, Rupees 12,50,976–12–2. were collected within the Fusly, leaving, at that time, an outstanding balance of Rupees 33,194–0–9 exhibiting a decrease collection of Rupees 15,270–11–4. Up to the end of September the above balance of Rupees 33,194–0–9 was reduced to Rupees 13,738–15–9. Since then, Rupees 3,698–8–4 have been brought to account, the actual balance at present outstanding being Rupees 10,040–7–5.

53. Of the above amount Rupees 4,769–1–6 are

54- Although the balance outstanding during the present Fusly is somewhat larger than usual, yet when we take into consideration the great reduction which has taken place in the price of produce and the less than average Crop which was derived from the Poonjah land, I confess the Collections shew a more favorable result than I anticipated when I joined the District in May- a reference to the Summary in will shew that the entry of Cusgar land in Account, has also been considerably greater than usual-

The

16828 Fort Snelling 5th December 1828

Sir

I have the following Statement to submit to your Excellency's Consideration, which I have the honor to transmit from the Sub Collectors report, shewing the comparative Rent of the Peoria Village which is now transferred to the Richmond Village agreeably to the instructions received from the Secretary of War

Dated 15th December 1828

Sir

1830 — Fort St George 2nd December 1830

74 The Lt Collector reports that lands yielding a Duty of Rupees 150-0-0 were left uncultivated. Of these lands Nos 35 & 36 measuring 28 Rupees 285 were brought to account and permission given for the remainder. He requests for entering the quantity of cultivable & assessed rupees of the above lots for future lands whether cultivated or not, no other being left to the Crown to provide cultivators for the Burgher lands. I must say it is hard to be obliged to pay and the Crown has a right to assess the full assessment on the whole of the enclosed land, whether cultivated or not. From the continual pernicious drought which appears to have been great as when the Pagoda was not in operation to fill the Village in a few Rainy Seasons, and if not as the Crown has an equal share in the loss with the Ryot it does not appear just towards the Government that they should be deprived the right of putting a Cultivator and the Ryot are seeking the Crown's share the cultivators annually & the Ryots have no wants than being the

1831 — Fort St George 2nd December 1831

I beg leave to suggest there
75 for the Boards approval that it be
open for the Ryots of Annamalore that
intend to take the Ryots of Annamalore that
if they look for permission on the lands
left uncultivated the Crown will excuse the
eight of paying for hereby Ryots for the cultivation
as far as possible of the enclosed lands.
In para 28 of his report
76 the Lt Collector states that Rupees 158-0-0
have been brought to account for lands
this year I think ought to have been permitted
and I request the sanction of the Board
for writing it off.
I also submit to the Board
77 consideration that of the people consent to
the terms mentioned in Para 74 that the
sum of Rupees 285-11-0 entered in this
year's account on account of waste land
to be remitted. New selections cannot be made
without injury to the people.
In the latter part of Para 77 of the
Board's Proceedings dated 5th September 1805

1832 — Fort St. George 1st December 1832

on the settlement of the Land Revenue for July 1832 it was stated in Letter No 2 dated 15th Novr that instructions with the Board's Proceedings of 18th July last had been issued to the Collector of Salsette to withhold the additional assessment of Rupees 1,00,000 levied on the lands of Bandora and Mahim respectively to that of Gamdevi. The reasons of the suspension are stated to be explained. It may have been that the lands were included in Mahim since restored to Bandora as shown in the Statement accompanying the report which ought to exhibit all details &c.

10. You are requested to state the reasons which induced the suspension of the full assessment on the Bandora as well as on other lands of the Collector.

11. On referring to the Settlement of Land Revenue for July 1832 it does not appear that the Lands under survey of the 4th and 5th Districts

1833 — Fort St. George 5th December 1833

the original assessment of the lands and on the general Survey was imposed, and that portion of the remaining Salsette Lands that should relate to the remaining Salsette lands particular accounts should be prepared and produced for adjustment at the settlement for July 1832. How are the accounts that Mr Dickinson adverts to in para 13 of his report on the settlement for July 1832. The amount so collected are referred to Statement No 6, no separate Statement having been considered necessary

12. Proceedings under date 3rd September last at paragraph 7 of the accounts and Statements show the extent of land newly surveyed by the Agts constructing new Mauls the additional assessment which is the condition entering thereon and the amount collected. Together the Board are at a loss how to reconcile the assertion that the additions were only imposed by the survey that the additions were issued to the Salsette Renters which was issued to the Salsette Renters which was issued after the report for only on the 29th March 1833 and after the report for July 1832 had been transmitted and its effects — should be known before the Settlement of July 1833 — cannot be known before the Settlement of July 1833 —

13. The above condition for letting Mahl Lands at a fixed rate for the term was I believe not a part of the original terms of the land without but imposed subsequent to the Survey of the Lands and the effect of the Board of Revenue Proceedings

to

to prevent altogether the encouragement of private
settlers if a decrease of cultivation were to bring
to the Crown the profits the ryot looked
forward to, when he extended his capital
on improving his land there is no doubt it
will be a very great bar to his laying out
any of his money in that way and on
the other hand the decreased condition of the
Ryot is to make the rent the permanent
property of the Crown the bar to improvement
will be more effectual & yet to this period it
has generally been considered that the fourth
terms for cultivation were awarded to the Ryot
as a return and encouragement for the outlay
in improving his land & practical during the
period of Sir Frederick Adams government that
Circular orders were issued to all Collectors pointing
out the importance of Well cultivation, as the best
preventative of Sterility and ordering that
no impediments should be put in the
way of the construction of Wells &c &c &c
No encouragement was given to the Ryots

to extensive for Salem, with Coimbatore, have
the effect of putting a stop almost entirely
to this species of improvement, and I would
earnestly solicit the reconsideration of the
points now mentioned.—

With reference to the Board's

remarks on the extent of concealed cultivation
in Salem and Coimbatore, I beg to state
that of the sum stated Rupees 2156 Rupees
only was from concealed cultivation of this
231 Rupees 150 was from lands attached in
last account brought to account in December 1832-3
January 1833 Sixty acres of Inam lands in the two
Talooks of Hosteng hang and Sulpatore in con-
sequence of my perusal of Circular regulations
brought to notice of the former Inamdar and
the above amount of Rupees 1250 was the amount
of lands not entered in the accounts as reported
by them as however the Ryotwar accounts last
not have been made out it can scarcely be called
concealed cultivation it was entered in the Current
accounts of the following Fasly Rupees 1250 being
the full extent of the lands whose only profits
were brought

1836 Fort St. George 5th December 1844

[illegible] had been cultivated Rupees 32 2 1 as an Extra charge on Ryots who cultivated new lands, less than the portions allowed by Rottimmamah to be Untilled and Rupees 70 as a profit on unassessed mensawmoot 84. From the nature of the accounts I convey I am not surprised at the irregularities in this District. I am aware that much irregularity exists not only in Kudmayalum and Pyhatoe, but also in Sengamattah and I believe if a year of grace was given to the Cumums in order that they might be [illegible] cultivation to account without being liable to punishment or loosing their Meerassy much might be done; but these delinquencies in fixing standing and mostly owing to the cultivation of other lands than those entered in the public Accounts I think chiefly to be attributable to the imperfect nature of the accounts. No cultivation is yearly inspected by the Tahsildar Shroffs but also Stile the Board that for 1843 Rupees 20 Less only is Kuttoomy they will be aware that the inspection cannot be completed without eight times 85 Sayers in forming with the Tahsildar Shroffs

so not wanted on Salem - most of your holdings are small, and the ryots afraid one another whom Tuccavee is given, it is generally Collected before the Crops are cut, at a time when the ryot is as little enabled to produce the amount as when he received the Advantage, and I am well convinced, that the ryot if in want would rather borrow of his neighbour, who will wait his convenience for payment, than take from the Circar to pay again before he has the means.-

Fort St. George 5th December 1844.

Fallow lands of Coraverndoor included in the Settlement.

26. In the present Fusly lands assessed at Rupees 573-6-annas 11 Pice were left waste, of these lands measuring 34 acres-33 Goontahs-14 annas and assessed at 285 Rupees 11 annas 10 Pice were included in the settlement, and the remainder excluded - This has been done, in consideration of the tenure on which the lands of this Village are held. The land being divided into a number of shares, it is not the custom for the shareholders to resign their lands and no option being given to the Circar to provide means for cultivating any that may be left waste, it is considered that the shareholders are responsible for the total assessment of the Village. But as it was found on reference to the accounts of preceding years that a discretionary remission had been made of some times 1/2 or 3/4 a deduction was made to the extent above stated on the ground of a partial failure of water owing to considerable damage having been done by the river to the head of the Moyanoor channel on which the Coravendoor Channel

Channel is dependent.—

27. The gross decrease for the Village of Coravundoor for fusly 1253 is 285 Rs. 11 annas 1 Pice while the gross increase is 22 Rupees 5 annas 4 Pice which leaves a net decrease of 263 Rupees 5 annas 9 Pice the particulars are shewn below.—

Survey lands of Coravundoor.

28 In the settlement for the present fusly lands assessed at Rupees 158—8 annas—8 Pice on which the crops have

have failed for want of water were also included. But as it appears for the reason above stated that the loss of the crops was unavoidable, it is necessary to leave this sum uncollected.—

Kerecoly or hire for water.

29. Rupees 24-8-annas—a Pice has also been deducted from the collections of Coravundoor and carried to the Head of receipts from this Village, on account of a payment annually made by this Village to the Salem Treasury for water from the Moga=noor Channel.—

Extra Revenue.

30 The Revenue derived this year from Extra sources is 63,881 Rupees 1 anna—7 Pice, which compared with last fusly shews a net decrease of 7735 Rupees 4 annas 10 Pice. Under the Head of Moturpha there was an in=crease of Rupees 1,488—2—11 and of Rupees 387—10—annas—11 Pice under that of Sundry small farms, and up to the 9th April 1844 the date on which the sayer collections ceased in the Sub Division there was an increase in the sayer

Channel is dependent.—

27. The gross decrease for the Village of Coravundoor for fusly 1253 is 285 Rs. 11 annas 1 Pice while the gross increase is 22 Rupees 5 annas 4 Pice which leaves a net decrease of 263 Rupees 5 annas 9 Pice the particulars are shewn below.—

Submitting the claim of Chinnasoo Bramania Iyer to succeed to the Priesthood of a "Mutton" in the Village of Bommiahpolliam in Villapooram Talook together with a copy & Translation of an Enaytnamah on the Subject.

On the demise of Pullyosawmy Pundarum, Enamdar of the Village of Bommiahpolliam in the Talook of Villapooram, on the 12th Ultimo, one Chinnasoobramania Iyer having laid claim to succeed to the said Enam Village under a Will left by the deceased, in his favor, I have the honor to submit his claim for the orders of the Board and Government.

2. The proceeds of the Village in question have hitherto been paid annually to the deceased Priest for the support of the Muttom.— On an enquiry made on the subject it is proved by the Village Officers and Ryots of the same persuasion that the claimant was selected by the deceased as his Successor to be the Priest of the said Muttom, who left a Will, bearing date the 28th August last, to that effect, &

and

and made over charge of the Mutton to the claimant during his life time.

3. I further beg leave to forward copy and translation of an Enoyetnamah from the record of this cutcherry, attested by the late Collector Colonel Graham, issued by the Nabob Ezam Moolk a short time before the assumption of the carnatic.

4 Although the Village was originally recognized* as a life grant, yet, from the correspondence noted in the margin the proceeds of the Village in question having been appropriated for the support of the Mutton, and it having been sanctioned by Government, I believe, under the provisions of Regulation VII of 1817 for the same object, in favor of the deceased incumbent, I beg to recommend, with reference thereto, that the sanction of Government be obtained for the renewal of the grant in favor of the present Priest Chinna Soobramania Iyer, who has succeeded the deceased in the management of all the affairs connected with the Mutton

The Petition presented by the Jungamars of Dommyah Pallyem attached to the Ayaporr Talook, stating that the Hamildar of that Tallook offered certain opposition respecting their Cheultry which exists for a length of time in the limits of Cattoomadoy is sent inclosed herein, and you are hereby directed to enquire respecting the reasons

of such opposition, and to issue order to the Hamildar to withdraw the same, if the statement of the Petitioners appears to be correct.

Purport of the Petition,

addressed by 40 families, being Pundarseems, enjoying the rights descended to them from their ancestors is as follows,

In the limits of Cautoomodo in the country of Coonymodoo in the Tallook of Ayaspoor, adjacent to Pondicherry, our houses were built, and we are living therein, that place is called Bommyah Pallyem, and abounds with jungles, and is Sandy, close to sea, in which we keep flower garden for religious purposes, as well as cultivate Cavarcroy Solum, and Cumboo, for our livelihood; praying for your prosperity. The charitable allowances are continued in the Chouttry during 200 or 300 years, and similar molestations were never made by any Hamildars. As Meer Ysattoolla Khan the Hamildar of Ayaspoor Talook objects to our enjoying the said Chouttry and the lands, the charitable allowances are discontinued, we therefore humbly pray for an order to the said Hamildar to continue the said Chouttry and lands to us as usual.

In the first case, therefore, as the Appellants permitted the grain to be removed without payment, and in the second, as they have given credit for the amount devoted to Village expenses, they cannot be permitted to divest themselves of their responsibility on either score, and the Board consequently direct that whatever portion of the sum /104-11-/ outstanding on these items, may not be recoverable from the other parties concerned, may be made good by the appellants, in addition to the amount Rupees 95-1-5 awarded against them by the Collector.

Independently of the precautions above referred to, the Curnum and his Gomastah are shewn in the papers under perusal to have omitted to enter land to a considerable extent, in the cultivation accounts, to have given more favorable rates of Warum to one Ryot than to another and to have connived at the clandestine removal of the Sircar Grain, and on one occasion to the amount of not less than 3 bags

2. The Board do not gather from the correspondence before them, from what date the Tahsildar had been suspended, but you instructed Mr Elliot on the 27th August in reply to his reference dated 23d Inst. to restore the Tahsildar provided there was no other case pending against him except the one then noticed, Mr Elliot therefore abandoned the charge which had been the subject of his reference, but still retained the Tahsildar under suspension pending the investigation of other charges which he had entertained against him until the receipt of your letter of the 14th October last. Under the instructions therein conveyed Mr Elliot has now restored the Tahsildar but requests you "to lay the matter before the Board with a request" from him "that Davids Row may be further suspended during the present investigation" or "part of which Mr Elliot" hoped to decide in a few days and the remainder would

would be "completed" as soon as possible

3 It appears that the Tahsildar remained still under suspension for a further period of about seven weeks after the case particularly referred to in your first letter to Mr Elliot had been finally disposed of: so that ample time would appear to have been afforded for obtaining evidence or even completing the inquiry if the charge had been susceptible of proof at all. In these circumstances the Board consider that your interference was necessary but as the Joint Magistrate had stated that he had further proof to adduce against him it would have been more satisfactory if you had called up the case and examined into the nature of the evidence yourself - They would suggest the propriety of this course being

5 In your letter of the 4th October you instructed Mr Elliot that the hoy of Dames Row then in deposit might be kept till some decision should be passed in his removal suspension against the Tahsildar. The Board are of opinion that as Dames Row has been restored his salary cannot be longer withheld and that the amount in deposit should be paid to him as soon as you have satisfied yourself that he is not criminated by the further inquiry that may be brought against him -

Reporting the death of the Zemindar of Sennelgoody.

Sir,

I have the honor to report the death of Sinnavelly Tallapaiyah Nayaken Zemindar of Sennelgoody in this District. This event took place on the 18th August last. The deceased has left no sons or daughters surviving him, but 5 Widows. These have unanimously requested that they should be acknowledged as Joint heirs to the Estate. Their request as in the absence of any heirs male and rightful claimants appears reasonable, and knowing that

by full and personal enquiry as to the justice of their claims to succeed to the Estate. I have, pending the orders of the Board, placed the 5 Widows in possession of the Zemindary. The whole 5 appeared before me to express in person, as well as by writing, their joint wish, intending to carry on the management of the Estate through one of their Male relations.

The two Poligar of Colaur, putty and the Zemindar of Munnerottay have set up claims to the Estate, on the ground that their forefathers were related to those of the deceased Zemindar about 2 Centuries ago, as their claims at this distant period appears to be fruitless and untenable, these claimants were referred to the Civil Court. Under the above circumstances I request the sanction of the Board to recognize the 5 Widows as successors to the Estate. The annual Peishcush of the Estate is Rupees 4650 and there is no balance against it.

stock of Tobacco under his charge should have been 257869 bundles, in value Rupees 33,314-5-5½

On an examination having been made it was however found that of sorted Tobacco there were only 255903 bundles valued at Rupees 32993-9-10 the deficiency being thus Bundles 1966 bearing a value of Rupees 320-11-7 This defect was the result of a decrease in the 1st 2nd & 4th Sorts and in the Kolebundies counter-balanced partially by an encrease of the third sort.

Besides the sorted there were further found 2067 bundles of unsorted Tobacco some apparently not packed at all the rest packed in wrappers with two or more marks of without any marks to indicate the sort under which they should be classed. These 2067 bundles were in consequence sorted by a Punchayet and the value ascertained to be Rupees 275-8-10

Taking therefore the total quantity of Tobacco found in the Godowns both sorted and unsorted the whole will amount to 257970 bundles worth Rupees 33268-13-2

3 In adjusting his accounts the Superintendent would appear to have been allowed credit for the whole of the originally assorted Tobacco of the first and second sort and for as much of the other sorts of the same as would make good the deficit on the corresponding classes of the Sorted Tobacco - the remainder with the whole of the excess on the sorted Tobacco of the third class has been carried to the credit of Government under this mode of adjustment the deficit charged against the Appellant amounts to Rupees 225-13-1 which has been recovered from him, and he has been removed from his Office.

4 The Board are not prepared to acquiesce in the mode in which as above stated the balance has been struck against the Superintendent. It would they think, be but equitable to take the entire stock of Tobacco as found in the Godowns at the time of examination, making the head of the department responsible for the difference between this and that borne

in his returns. The amount for which Appellant will remain answerable will thus as shewn in Para. 2 be reduced to Rupees 45-8-3 which sum they direct to be retained and the remainder Rs. 180-4-10 returned to him: in so doing it will not be necessary as apparently supposed by Mr. Wroughton in his letter of 2d September 1844 Para 1, to write off any sum to profit and loss in the Public Accounts as the value of the whole stock found in the Godowns with the amount Rupees 45-8-3 made good by the Appellant under the Board's order, will correspond with the value borne in his accounts of May 15/43 and leave no further deficit for adjustment.

5 The state in which the Godowns are shewn to have been kept and the very lax notions of his duty and responsibility evinced by Venkata Reddy in different parts of his appeal Petition are in the opinion of the Board amply sufficient to warrant his dismissal from his appointment which is accordingly confirmed on a careful review however of all the circumstances of the case and adverting particularly to the very small amount of actual deficit (Viz. 45 Rupees

It would they think, be but equitable to take the entire stock of Tobacco as found in the Godowns at the time of examination, making the head of the department responsible for the difference between this and that borne in

in his returns. The amount for which Appellant will remain answerable will thus as shewn in Para. 2 be reduced to Rupees 45-8-3 which sum they direct to be retained, and the remainder Rs. 180-4-10 returned to him; in so doing it will not be necessary as apparently supposed by Mr. Krroughton in his letter of 26th September 1844 Para 1, to write off any sum to profit and loss in the Public accounts as the value of the whole stock found in the Godowns with the amount Rupees 45-8-3 made good by the Appellant under the Board's order, will correspond with the total value borne in his accounts of May 15/43 and leave no further deficit for adjustment.

5 The state in which the Godowns are shown to have been kept and the very base notions of his duty and responsibility evinced by Venkata Kistnyen in different parts of his appeal Petition are in the opinion of the Board amply sufficient to warrant his dismissal from his appointment which is accordingly confirmed on a careful review however of all the circumstances of the case and adverting particularly to the very small amount of actual deficit (Viz. 45 Rupees in

in Rupees 33,000, little more than one-per Mille) in the stock under his charge, the Board tho' they consider the Appellant to have been careless and negligent in the performance of his duty, acquit him of all fraudulent or dishonest purpose. It does not appear to them that any thing has been elicited in the late enquiry — to affect his integrity or which should prevent his being reemployed either in Coimbatore or in any other District.

6. In Para 2 of the Principal Collector's letter, it is stated, that, the — Petitioner having tendered a Razeenamah, and requested to be relieved from his — Office, "the unpleasant nature of his duty, "the many irregularities which were report-"ed to exist in the Tobacco Department, "and the sudden desire of relinquishing Office "on the part of "the Petitioner rendered a "direct examination of the Accounts and — "Godowns necessary." The Board can — hardly suppose but that under any — circumstances on a Tobacco Superin-tendent quitting his Office a thorough scrutiny into his Accounts and examination

of

of his Godowns would be made as a matter of course, and, that he would — not be suffered to leave until the state of both had been ascertained. If such has not hitherto been the practice they direct that it be made a standing — rule of the Department in future —

7. In Para 1 the present case is stated to have been forwarded — to the Board under Section VII Regu-lation VIII 1828 as an appeal from the decision of the Assistant Collector — the proceedings of Assistant Collectors — being by clause III Section III of that — Regulation "subject in all cases and in — "the fullest manner to the control and revision "of the Collector" the appeal from the sentence passed by Mr. Goldie would lie only to the Principal Collector by whom it should have — been formally annulled, revised, or confirmed — In the event of the party still remaining dissatisfied, he would then have been at liberty to apply to the Board in the

mode

mode prescribed in Section VII Regulation VIII 1828 the appeal being not from the decision of the Assistant but from that of the Principal Collector, as however in the case under comment, it appears from his letter that the Principal Collector who has made himself master of the subject, fully concurs in the view taken by his Assistant, it is now only necessary to point out the informality above alluded to.

8. The Board would further remark that in his disposal of the case before them, the Assistant Collector appears to have altogether overlooked their orders of 13th April 1826 and 31st December 1835, which require that in all investigations held under Regulation IX 1822 a summary of the evidence and of the presiding Officer's sentiments on the case be recorded in English. The Board have recently had occasion to call attention to these orders to which they attach great importance and which they request may be strictly complied with in future.

ordered

Ordered that a copy of the foregoing Extract from the Board's Proceedings be forwarded to the Principal Collector of Coimbatore for his information and guidance.

Ordered that the following Endorsement be passed on Appeal Petition A No 326 of 1844

End.

The Board of Revenue consider the dismissal of the Petitioner to be quite proper and therefore confirm it, but they have seen reason to reduce the amount for which he has been held responsible from Rupees 225-13-1 to Rupees 45-8-3, the difference Rupees 180-4-10 will be repaid to him on application to the Principal Collector of Coimbatore. The Board are further of opinion that the Petitioner has been careless and negligent in the performance of his duty, but they do not see reason to charge him with fraudulent or corrupt practices and will not object to his reemployment in the public Service should an opportunity offer. Proceedings thereon Recording observations on the Reports from the Principal Collector of Canara relative to the Settlement of the Land Revenue for Fasly 1252 (1842-43) on the subject of the decayed Gardens in the Balaghaut Talooks in that District.

Para 1.

The season was not so favorable as that of the preceding year principally owing to an excess of rain in the beginning of the season which proved more injurious below than above the Ghats. The market for agricultural produce still continued in a depressed state particularly in the Balaghaut where the fall was 11½ per cent below that of Fasly 1251 (1841/42) whereas in the Maritime provinces from which the export of rice somewhat exceeded that of Fasly 1251 (1841/42) it averaged about 6 to 8 per cent only except from a visitation of Cholera and Marasin in one Talook. Butwait the season was generally healthy.

Para 13 & 16.

2. It might have been expected from the preceding observations that the Settlement would have fallen below that of Fasly 1251 but on the contrary it exceeded it by 31,50 Rs. 3. Chiefly owing to the resumption of the Cowles allowed to Estates that had fallen below the standard. This item amounted to

amounted to 134.85-12-1 but has been counterbalanced by the amount of remissions granted on account of the Season being extraordinary. This was 19,034-13-10 to which must be added some further sums which the Principal Collector thinks should not be demanded on account of Grain destroyed by the ravages of insects ascertained after the settlement was closed and which he proposes seeking for sanction to write off to profit under loss. a considerable number of petitions on this subject have been presented to the Board and they will be prepared to support such recommendations as the Principal Collector may think it necessary to bring forward.

3- The following Statement of the particulars of increase and decrease has been prepared from the Statement transmitted with the Principal Collector's Report marked E on the principles and for the reasons stated in the Proceedings on Settlement of 1251 Fasli 1841-42. It exhibits the full demand according to the settlement for Fasli of the Mr Harris with the nominal deductions made from it in the Settlement 1/17th those of a permanent nature

4. The full demand Exhibits an increase over that of $\frac{1251}{1841/42}$ Fasly caused by an addition of 88 private Estates newly brought to account with an assessment of Pagodas 561-13-11 which is counterbalanced by a decrease of 138-14-3. in the Government Tanjore the number of which continues the same as observed in the Proceedings on the preceding settlement that a similar item in that year's accounts corresponded exactly with the amount of Mosagami or unassessed cultivated land brought to account. The same proves to be the case now. The newly cultivated lands are put down at 422-15-8. which with the decrease in the Government Estates exactly make up the sum in question. From this the Board are unable to draw any other conclusion than that at which they have arrived on former occasions Viz. that private Estates appear to have been augmented at the expense of those belonging to Government or of those for which no proprietors are forthcoming for cool annuity.

The whole amount of this difference however has not apparently been brought to account for the increase of revenue under this head is 50-11-4 the rest being deducted perhaps as Cowle on for some other reason not explained. The remission granted from the full demand. The land newly taken up for cultivation is given at 2671-4. In another Statement the full assessment of the land so taken on Cowle is entered at 3884-13. 10 of which 1029-15-11 are retained, leaving 2854-13-11 to be brought to account when the estates arrive at full bearing instead of the sum first mentioned, the difference between the two being 183-9 11. 17. The Board having gone so fully into the subject of these paras in their General report on the assessment of the district are hardly called upon to repeat their views in this place. They have shewn that the remissions originated by Mr. Vivedash was framed hastily upon very imperfect data, that the improvement in the revenue is only apparent from the oversight of including with the Collections of the purgunnahs recently acquired from Coorg, and that it would have been exactly ordinary if some improvement had not been manifested corresponding with the more favorable character of the seasons for the last five or six years the effects of which have been exemplified in the increased revenue of almost every district under this Presidency. A glance at columns 7 in the tabular statement No. 8. of the Principal Collectors Report containing the Collections of those Talooks to which the Board's observations more particularly relate exclusive

exclusive of the accessions from Coorg, will show how very slight the improvement has been upon which so much stress is laid by the Principal Collector. The Collections, it will be seen have seldom fallen below the lakhs except under particular circumstances. In 1835 / 1825-26 1236 / 1826-27 and 1237 / 1827-28 much sickness prevailed and the deaths among the inhabitants and their Cattle particularly in the two first years were very great occasioning the grant of large remissions. In July 1240 / 1830-31 and the succeeding years were seasons of unusual scarcity aggravated by the popular commotions and discontent of the ryots. In the following table two Comparisons are instituted, one between the 17 years from 1209 / 1799-1800 to 1225 / 1816-17 July, on which the Jarow was fixed and the last 17 years from 1236 / 1826-27 to 1252 / 1842-43 and the other of the first ten years of British rule from 1209 / 1799-1800 to 1218 / 1808-9 and of the last ten years from 1243 / 1832-34 to 1252 / 1842-43.

In both these there is a decrease in the more recent periods of the Salookes in which the Jarow has been fixed and to which Mr. Vivean's revision more particularly refers, while in the same periods there is an increase in those Salookes where no such revise has taken place, but which have been surveyed and the lands more accurately registered.

8. The Principal Collector was prevented from entering on the consideration of the late Sub Collector's proposition for the recovery of the decayed garden lands in the Balaghat provinces adverted to in the concluding para of the Board's Proceedings on July 12th 1841-42. But he has stated his views in a subsequent communication. In these the Board entirely concur. It will be remembered that Mr. Lushington's plan consisted in allowing the proprietor to convert their Garden into rice land and in granting them a proportionate decrease of assessment to which he now adds a recommendation for the liberal grant of Tuckavi. Mr. Blair on the other hand advocates the issue of Cowle on particular Gardens requiring renovation. There is no doubt that this is the correct principle. But care must be taken to ascertain the

the existence of a necessity in each case. The deteriorated Gardens are probably not very numerous and it is not likely that all the lands belonging to a proprietor are in the same state. In his

report on the Wastul duties the Principal Collector has observed, that not only has the Garden cultivation not decreased but that many of the ryots have been desirous of late years to convert their rice lands into betel plantations. The Board are of opinion therefore that a discretionary power should be vested in the Principal Collector to grant Cowles in particular cases the terms of which together with a Statement of all the circumstances should be exhibited in the annual Cowle Statement accompanying the Settlement report.

Para 42 & 48.

9. It was observed in the Proceedings on 12th July 1841-42 that 129 Estates raised after due enquiry to the class of Shurtee or capable of paying the full Assessment had again been placed in the Shurtee Class with a deduction in the previous demand of 8 Rupees and enquiry was made into the circumstances that had occasioned the change. The explanation

Fort St. George 5th December 1846

explanation shows that the above decrease
of 3 Rupees refers to two Estates only & to
have been of the nature of an annual
remission for which a change of deno-
mination appears to have been ne-
cessary the other 127 Purgues which had
been entered as Bhuntee were subse-
quently discovered to have appro-
priated Koolanusht land and a pro-
portionate increase of assessment was
therefore imposed on them raising

their Jarow from
1500 to 2318 Rupees or
an addition of 818 Ru-
pees, which being too much to demand
at once 112 Rupees only were brought to
account in Fasly 1250. A.D. 1840-41 The Board have
been glad to have had fuller informa-
tion on this subject particularly with
reference to the circumstances under
which the concealments were brought
to light and the mode in which the exa-
cess was established in these 8 Villages.
The fact of their discovery goes far to
strengthen the doubts entertained by the
Board of the insufficiency of the revision
now in progress and they have always
stated their belief that a more careful
examination into the present condition
of the Purgues would establish the correctness
of

Fort St. George 5th December 1846

of the present Registry of the land. The
extent to which such error may be carried
without detection by the means now in
use is apparent from the English State-
ment J this accompanying the Principal
Collector's Report. A single ryot entered
hitherto as in possession of 1 Rupees
worth of land is found to hold 25 Rupees
worth, 60 persons in another Village who
have been paying only 7½ Rupees are
now found to be liable to 274 Rupees ad-
ditional, in a third 11 persons assessed
at 53 are proved to be in possession of an
extent on which a further sum of 201 Ru-
pees is due. These are considerable ad-
ditions to have been overlooked in a
scrutiny professedly made to establish
the Demand on a permanent footing.
It must be remembered that in a Coun-
try where the rights of property exist in
such perfection as in Canara, and where not
a foot of Ground is unappropriated, encroach-
ments cannot be made with the same facili-
ty as in other districts where Government is
the landlord and it is therefore fair to suspect
that where they do exist they must have been
effected at the expence of those lapsed
Estates.

Fort St. George 5th December 1846.

Para 49. Stat. T.

Estates of which the Mulli right is vested in Government. The Principal Collector seems to anticipate much difficulty in furnishing information of the matters above mentioned, but the ground of his apprehension is not apparent, the whole of the return above mentioned only occupies half a Sheet of paper, and the materials from which it is drawn must all exist in his Office. The insight afforded by it into the working of the System of Revision is most important and the Board desire that on no account should it be omitted.

50. 10. The explanation of the 132 Estates transferred from the head of Board Sefarish to Bhurty at an apparent addition of 8. 12. 7. 9 is that the difference between their full Sarow and that at which they are now entered is in reality 199-12- the assessment of land occupied by public roads, and that they were transferred as above stated in the last instalment, less this amount becoming due. The Board think that the better way is to bring the whole amount of assessment to account under the head of Bhurty and to deduct the loss on account of roads annually as a permanent remission on that ground.

52. 11. Mr. Blair account for the decrease

Fort St. George 5th December 1846.

decrease in the number of Puttahs by the suspension of their issue to the Proprietors of the Bhurty Estates with a view of imparting a character of permanency to the present revised assessment. The Board consider that it is far from desirable to create such an impression in the present state of the discussions regarding the Land Sase of the District. It is moreover a standing order that every ryot paying tase to Government should be furnished with a puttah, and the practice should at any rate not have been discontinued without reference to higher authority.

P 53. 12. The number of escheated Estates is here shown to be 12429 the Sarow of which is 29,6723 Rupees but the present settlement only 188157 Rupees Mr. Blair still advocates the transfer of the lapsed Mulli right by Government to the present occupants, but the Board continue of opinion that such a cession would be premature at present. In the event of Government determining to have a Survey made of the lands of Canara no objection can be urged to its introduction into these Estates at least, and the information thus obtained might serve

to

Fort St. George 5th December 1844.

to show the necessity or otherwise for its further prosecution.

13. It is observed that a proposition of the Sub Collector for the permanent reduction of the Beriz of 14 Estates in his Sub Division has not been noticed by the Principal Collector. The Soondah Talooke has been surveyed but no assessment has yet been definitively fixed on it. The Board desire however that no reductions in the present may be made without a special reference to them thro' the Principal Collector.

From the addl. Sub-Coll. Encls. I para 17.

Ordered that a Copy of the foregoing Extract from the Board's Proceedings be submitted to Government and a transcript of the same be forwarded to the Acting Principal Collector of Canara for his information and guidance.

To the Chief Secretary to Government

Submitting a Letter from the Collector of Malabar forwarding Copy of a correspondence with Lieutenant Wylde of the 19th Regt N. I. on the subject of giving up the tusks of an Elephant destroyed by him in order to entitle him to the Govt reward - stating that the Bd are of opinion that a party claiming the Govt reward may fairly be called upon to give up the tusks as the condition on which the reward is to be granted & that if the Govt concur in this view the Bd will issue instructions to that effect to the Collector.

Received 13th Dec 1844

Sir,

Para 1. I am directed by the Board of Revenue to request that you will lay before the Most Noble the Governor in Council the accompanying letter from the Collector of Malabar submitting Copy of a correspondence with Lieutenant Wylde of the 19th Regiment N. I. on the subject of giving up the tusks of an Elephant destroyed by him in order to entitle him to the Government reward.

2. The very large disbursements of late on account of rewards for the destruction of wild Animals induced the Collector to introduce in his District the practice prevailing in Coimbatore of demanding the tusks of every Elephant destroyed in exchange for the reward. But Lieutenant Wylde objects to the demand on the ground that the Elephant was killed by him

him in a forest the private property of a re-
pair, whereas in Coimbatore the land is Govern-
=ment property—

3. In the opinion of the Board it is open to question whether the tusks might not in every case be claimed on account of the Government as a Royalty whether the animal is destroyed in forests the property of Government or of private individuals—but under any circum-
=stance a party claiming the Government reward may fairly be called upon to give up the Tusks as the condition on which the reward is to be granted. Should the Most Noble the Governor in Council concur in this view, the Board will issue instructions to that effect for the guidance of the Collector of Malabar—

Sir,

I beg to know whether or not Beer

Beer or Wine passing thro Mysore en route to the Neelgherries should pay duty on its entry into or exit from the Company's Country when a Certificate is not produced to shew that the same was originally imported by Sea—

Beer or Wine, passing thro Mysore, en route to the Neelgherries should pay duty on its entry into, or exit from the Company's Country—The Circular order of the Board, under date the 12th August last, directs that no duty be paid on goods which can be proved by the production of a Certificate to have been originally imported by Sea—But a Gentleman or Trader who gets Europe liquor which must originally have paid duty at Madras, hardly ever thinks of getting a Certificate to prove the fact and in many instances indeed could hardly do so—I have a case now before me in which an Officer on the Hills sends for some dozen of Beer and Wine from the Artillery Mess at Bangalore. It seems hardly reasonable that he should pay a duty for these articles which no doubt tho' there is no written proof produced;

From the Collector of Malabar

Submitting with reference to the Board's letter of the 21st Ultimo his opinion as to the alterations which will be required in the Act No X of 1842 in order that its provisions may admit of application to the local exigencies & Municipal Condition of the Chief towns of this District

Sir,

I have the honor to acknowledge the receipt of your letter of the 21st Ultimo desiring me to submit my opinion as to the alterations which will be required in Act X of 1842 in order that its provisions may admit of application to the local exigencies and Municipal condition of the Chief towns within my district.

2. It seems to me that in order to make the above Act operative in any of the towns &c in Malabar, it will be necessary to make a change in the prominent spirit of the Enactment, and to leave it to the discretion of the local European Authorities to judge when and where it is desirable to determine & levy rates for the better provision of means for repairing, cleansing, lighting draining or watching of any public Streets, roads drains or tanks or any like local purpose.

3. I know of no place in Malabar exc- where there is any probability of getting one third, not to say two thirds, of the Householders to apply to Government for leave to raise an assessment for these purposes they themselves being subject to a similar burthen to that imposed on their neighbours.

Proceedings thereon

Relative to the Settlement of the Land Revenue in the Madras Collectorate for Fusly 1252 = A.D. 1842/43

The demand for the Fusly under review was Rupees 62,913-8-7. exceeding that of the preceding year by Rupees 992-11-1. This increase is attributed to the assessment of certain lands formerly uncultivated, and of houses on the Northern Esplanade of the Black Town hitherto exempt from demand although properly subject to it under the rules framed for the land occupied on the Boatmen's Village at Rayapooram.

5. The Settlement of the year having been made almost entirely according to established custom it does not call for any detailed remarks on the Several Sources from which the revenue has been collected. The item which chiefly attracts notice is the reduction of the Assessment on certain lands with the view of inducing the holders of them to bring under cultivation lands which principally from the Amount of Assessment have been allowed to lie either

partially

partially or entirely uncultivated. Lands to the
agregate extent of 289 - 23 - 141/4 bearing a
fixed assessment amounting to Rupees 1621 -
3 - 9 per annum have been allowed a reduc:
tion of assessment the remission
amounting to Rupees 932 - 11 - 2

Fixed assessment 1621 - 3 - 9
Reduced assessment 688 - 8 - 7
932 - 11 - 2

From Statement No. 1 submitted by the Collector
it is observed that he recommends in moste
cases a temporary and in others a permanent
reduction, But the periods for which it is
proposed that the temporary reductions
should be allowed is not always stated.

The Board observed that in the lands
No. 8-39-54-66 of the numbers noted in the Margin the reduc:
and 69- tion of assessment is recommended to be con:
tinued until the Cocoanut trees therein planted
shall yield fruit which does not appear ne:
cessary as the land is not heavily assessed
and the profits from the produce will here
after be considerable. -

Original assessment	83 - 14 - 5
Deduct proposed reduction of one third	27 - 15 - 6
Remaining assessment	55 - 14 - 11

In No. 75 the amount of assessment
must, as would appear by
the remark, be two thirds or
Rupees 55 - 14 - 11 instead of
No. 23 - 15 - 6. The difference should be explained. -

8 Without the particulars being stated re:
garding

regarding the period for which temporary
reductions are proposed the Board are pre:
precluded from recommending the confir:
mation of the Collector's Proceedings for any
period beyond the Current Fusly in the
cases now before them. As a general rule
the Collector should recommend no permanent
reduction unless the land is of such a description,
and is so situated, as to render it highly impro:
bable that it will hereafter be converted to more
lucrative purposes than at present either by
the improvement of the soil for agriculture,
or for the construction of buildings.

9. The average assessment of
No. 2130 - 6 - 2316 the total extent cultivated

The Board request that the Collector will submit a report as soon as possible on the arrears still outstanding, in order that any which he may think irrecoverable may be taken into consideration. —

Noting with reference to his letter of transmitting on Petition No 799 of 1844 that the Board case of the ryots that the Ryotwar Ryots from whom part who have taken on Cowle certain land should be held to the terms of their agreement if they had given security or if not that the party who purchased their engagement should be called on to fulfil it and that the Collector should only be empowered to make good the deficiency from such persons property as may be attached by him

Sir

I am directed by the Board of Revenue to acknowledge the receipt of your report on Petition No 799 of 1844 from which it appears that the Petitioner and 3 other Ryotwar Ryots from Chinglepet received a Cowle for the Cultivation of three hundred Cawnies of waste to be taken up by stated proportions in four successive years that in the 3rd year three out of the 4 Ryots returned to their original district having disposed of their share of the Cowle by sale that Petitioner requested to have his own portion distinguished from that of his partners and to be relieved from responsibility on their account which was granted and that subsequently at the same time he was induced to undertake the whole

2. The Board find occasion in their Proceedings on the Settlements of 1250 and 1251 to animadvert on the indications of a departure from the provisions of the Cowle towards

in the accounts. The present case shows that these apprehensions were not unfounded. It is opposed to the sanctioned rules in almost every particular in the encouragement held out to withdraw labour and capital from other districts by permitting the occupation of such a large amount of waste by parties not permanently residing in the District or holding fully assessed land in the extension of the terms of the lease over a succession of years; in allowing some of the parties to evade the conditions and to sell their shares and finally in imposing on the sole remaining part- ner a greater responsibility than he can apparently discharge. Under these circumstances the Board are of opinion either that the other Co-partners should be held to the terms of their agreements or they should have given security or if not that the party who purchased their engagements should

should be called on to fulfill it and that Petitioner should only be compelled to make good the proportion to which he is now immediately liable.

Referring to an Endorsement passed by the Acting Collector Babington on a Petition from the Mirassidars of Gadamurry &c. 4 Villages in your District under date 6 November 1843 and confirmed by the Board's Endorsements of 27th March and 30th July last on Petitions Nos 319 and 568 of the current year. The Board observe that the cause of complaint would seem to come properly within the scope of Regulation VI of 1831, and that a regular decision ought to have been passed between the contending parties. The terms of Mr Babington's Endorsement however leave it doubtful whether such was the case and the Board request therefore you will have the goodness to inform them on what grounds, the orders stated to have been given by Messrs Agilone and Bourdillon "in an absolute manner" were founded.
