To The Register of the Sudr Udalut

To The Register of the Sudr Udalut Sir

From Govt 28th in Con. 30th July 1829
From D. Govt con. 20th Dec. 1830

With reference to the orders of Government noted in the margin I am directed by the Board of Revenue to transmit to the Judges of the Sudr udalut for the information of the Zillah Court of Chingleput an account furnished by the Collector of that District shewing the state of the revenue for Fasly 1253 of the Estates placed under his charge by that Court.—

Enclosure No 3 in a letter from the Coll. of dated 23d Nov. In Con. 9th Dec. 1844.

2 The above account has been compared with the accounts furnished by the Collector to this Office and is certified to be correct.

From the Actg Chief Secretary to Government

With reference to para 3 of Extract Minutes Consultation under date the 16th Ultimo N.o 1188 and the 10th Instant N.o 1296, I am directed by the Most Noble the Governor in Council to request, that you will submit to Government without further delay, a Report upon the several points to which the attention of

Fort St. George 16th December 1814

of the Commissioner to Guntoor should be primarily and chiefly directed, and the instructions you would propose for their observance and that of the acting Collector, with the view of carrying out the object of Government at the earliest date.

Fort St. George
11th December
1814

/Signed/ J. F. Thomas
Actg Chief Secretary

Ordered that the following letter be submitted in reply.

7.8

To The Acting Chief Secy to Govt

Reporting the several points to which the attention of the Commissioner to Guntoor shall be chiefly directed and submitting the Instructions the Board would propose for his observance and that of the acting Collector.

To. The Acting Chief Secretary to Government.

Sir.

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 11th Instant, desiring the Board with reference to Para 2 of Extract Minutes of Consultation 16th Ultimo to submit without further delay a Report on the several points to which the attention of the Commissioner to Guntoor should be primarily and chiefly directed and the instructions they would propose for his observance and that of the Acting Collector.

2.

In the 2d Para of the Extract Minutes Consultation above mentioned to which the Boards attention is particularly directed, it is stated that the Most Noble the Governor in Council will consider it sufficient for

Fort St. George 16th December 1814

for the Commissioner to cause the survey and settlement to be made as an example in one or two divisions or Talooks and to place the affairs of one or more of the five Zemmudarees in a state of adjustment &c.

3

In accordance with these views the first duty of the Commissioner will be to take steps for commencing the Survey. For this purpose the Board consider the instructions prepared by Sir Thomas Munro when Principal Collector of the Ceded Districts to be quite sufficient. These are contained in Enclosures No. 1. 2. and 3 of the Principal Collector's letter of the 26th July 1807. The circumstances of the Zemmudarees are sufficiently similar to those of the Ceded Districts to admit of the application of these, without any particular modification that the Board are at present aware of.

In Cons. 24th August 1807

4

In forming the assessment in the Ceded Districts, the Head assessors were required to fix the demand of each class in detail as they proceeded. The comparatively perfect condition in which the Village accounts were kept in a Rayetwar District under the

the immediate superintendance of the Officers of Government admitted of this being done without much difficulty. These were examined and checked by the Assessing Officer in presence of the assembled Village Officers and Ryots of the District about to be settled. He first fixed the sum of the whole revenue of the District from a consideration of past Collections compared with the present resources ascertained during the survey, and then he subdivided the Accounts so ascertained on Villages and Classes. The result was seldom found to differ materially from the Estimates of the assessors the general effect being to lower them from 5 to 15 per cent. In Guntoor a different course must be pursued. The assessors must still form an Assessment simultaneously with the classification, for experience has shewn that the Ryots are not sufficiently alive to the mere classification of the different kinds of soil unless the effects of such an arrangement are presented to their view in the more intelligible

intelligible shape of its corresponding Assessment. But the Assessors will only be able to estimate this value from an inspection of the land itself for no accounts will be forthcoming but such as the Zemindars may think fit to furnish. These will be prepared in accordance with the general Accounts annually furnished to the Collector since the Estates have been placed under sequestration which have never been considered worthy of Credit. Nor can the Village Accounts be expected to afford more accurate information. The protection afforded to the Revenues of permanently settled Districts under Section V Regulation XXIX of 1802 by rendering them in some degree independent of the Proprietors renders the latter averse to inspecting their and the consequence is that in many cases the Accounts are kept by their own immediate servants or dependants. To these must be added the obstructions occasioned by the succession of Calamities that has visited the District during the last 12 years drought, disease, inundation and famine. The population has been diminished by one third the agricultural

agricultural Stock by one sixth and the cultivation has fallen off in proportion- while more recently the advantages of a return of more favourable seasons have been neutralized by an unprecedented fall in the price of grain- The proprietors beset with these difficulties and overwhelmed with debt, have been unable to pay their regular Pushcush much less to attend to the maintenance of the means of cultivation- The few sources of irrigation have not been kept up, and their necessities and the desire to derive as much revenue as they were able have driven them to restort to Collections in money or in kind as circumstances rendered the one or other the most favorable.-

From Collector 29th October 1839 Para 43 From D.o 28th April 1843 Para 5

5 From these observations it will be seen that great care and circumspection will be required to determine what the just limit of taxation in a Country so situated should be- so as to avoid over assessment on the one hand and the undue sacrifice of the public revenue on the other.-

6 The Board are satisfied that the best and most accurate data for

for this purpose will be furnished by the survey itself- From the exact registry of past and present cultivation, and the Statistical returns of the inhabitants, Cattle, Stock, &c.a compared with the accounts of the Circuit Commissioners and such other sources of information as may be forthcoming a tolerable estimate may be formed of the Amount of revenue the whole District will bear. This should then be divided by a similar process on the several Purgunnahs and Divisions the sums so obtained being subdivided among the Villages, and contrasted with the results previously obtained by the Assessors. A memo of instructions prepared for the Collector of Chingleput and appended to the Boards Proceedings of the 7th December 1835 appears to be very applicable to this part of the process and is herewith submitted. As this is the most important matter to be determined, the Board are of opinion and they are convinced it will be more satisfactory to the Commissioner himself that the Berij proposed at this stage should be examined in the Board's Office before it is acted upon.-

Enclosure A

Once

Fort St. George 16th December 1844

Once confirmed on sufficient and satisfactory grounds. there will be no difficulty in determining the grada of classes and fields.—

7 The views now expressed are confirmed by experience of the ill effects that have ensued from the adoption of an opposite course in Chingleput. It was with reference to an early stage of that settlement that Government alluding to Mr Smalley's plan of first ascertaining what the whole District should pay pronounced an opinion "that a settlement formed without reference to past collections would be merely speculative and if this be true as a general rule how much more so in a case where the means of forming an estimate of the Berij of single Villages are so much more defective. It is for this reason the Board are persuaded that the settlement of a detached portion or portions of the lands under consideration would prove uncertain and perhaps end in failure and disappointment.—

From Secretary to Government Genl Dept 15th May 1823.

8.— The remaining points to which

Fort St. George 16th December 1844

which the Board's attention is directed is that of placing the affairs of one or more of the Zemindaries in a state of adjustment on such principles as may enable the acting Collector in following them up to complete the survey and whatever arrangements the Commissioner may dictate throughout the District as salutary and expedient." It has already been stated that as soon as the District and Village Berijes have been determined the arrangement of the field assessment will be a work of little difficulty. There remain then for adjustment only the arrears and debts outstanding against the late Proprietors. These may easily be settled whilst the survey is in progress the former by the Commissioner making a Circuit of one or two of the Zemindaries assembling the Ryots at convenient places and making a vivâ voce examination into the items of revenue said to be due compared with the Kowlwar settlements the latter by summoning the creditors of one or more of the Proprietors and effecting such arrangements with them as circumstances may dictate. No particular rules can be laid down for effecting such compositions which

Arrears 67,65,002
Debts 14,19,666
Fs Gaz. 28 Nov. 1844.

which must depend on a variety of circumstances best left to be treated at the discretion of the Commissioner shall suggest, but it is not apprehended that any difficulty will be experienced. The arrangement concluded by the Collector of Masulipatam for the debts of the hereditary Zemindars and those entered into with the creditors of the Bungarapilly Jagheerdar show that no particular obstacle to a satisfactory adjustment need be apprehended.

From the Collector of Masulipatam 8th in Cons. 30th Novr. 1843

To Govt. 4th January 1844

From Do. 16th 9th in Cons. 29th February 1844

From the Commissioner on Khurnool 20th October in Cons. 19th November 1840

Board's Proceedings 4th December 1840

From Govt. 9th in Cons. 28th March 1841

9. The Board are not aware of any other points on which their opinions are required. Their observations are necessarily of a general character and it is obvious that much must be left to the judgment of the Commissioner who will direct his enquiries according to such information as his presence on the spot may elicit.

10. In conclusion I am directed to submit the accompanying Draft of instructions prepared with reference as to

No. 1.

to the foregoing remarks.

Revenue Board Office
Fort St. George
16th December 1844

(Signed) E. B. Lovett
Acting Secretary.

No. 1. Draft of Instructions

1. The Commissioner on arriving at Guntoor will take immediate steps for effecting the survey and assessment of the permanently settled lands according to the rules laid down by Colonel Munro for the survey of the Ceded Districts in his letter of 26th July 1807.

2. As soon as the Establishment is properly organised, he will employ himself in procuring such statistical information as will enable him to form an Estimate of the past and present resources of the District with a view to the formation of a fair and moderate assessment.

3 Whilst the measures necessary for procuring this information is in progress, he will select one or two of the assumed Estates for the purpose of effecting a composition with the Creditors of the proprietor, in such a manner as he may consider just and equitable to both parties.

4 On the completion of these arrangements he

Fort St George 16th December 1846

he will make a Circuit of these or of any other Estate he may desire to select and assembling the Ryots at convenient spots make a thorough & close investigation of the outstanding balances and adjust them accordingly.

5. If the Survey has proceeded sufficiently by the time these proceedings are completed he will proceed upon the data thereby obtained in conjunction with the statistical information that has been obtained compared with such accounts of Cultivation, Settlements and Collections as are forthcoming and with the accounts on which the Circuit Commissioners determined the Permanent Settlement to frame a fair and equitable Berij for the whole District from which in like manner must be prepared the corresponding demands of Pergunnahs and Villages, in the manner set forth in the accompanying Memo:

Enclosure A

6. When this is completed the accounts should be transmitted to Government for examination in the Board of Revenue together with all these in detail for two or three Villages shewing the mode in

Fort St George 15th December 1846

in which the calculations have been framed and the grounds on which the Berij proposed is based.

7. All these various operations should be conducted in communication with the Acting Collector with a view to his carrying out the same measures in the remaining Estates.

A

Memorandum.

The Board are of opinion that the Collector should confine himself at first to the settlement of the great Berij of the Sheyed lands of Villages, leaving the adjustment of the field assessment and other details for after consideration until he has gone through a whole Taluk and that having ascertained the general result of this process for the whole Taluk and tested its correctness by all the comparisons directed by the Board and by any other means that occur to himself, with reference particularly to the information obtained by him in his progress through the Villages of their relative condition on the

whole

whole at present and in former periods to which the comparisons apply and to the differences resulting from the Survey measurement, he should then determine the Gross Berij of the Talooks, confirming, adding to, reducing the Berij resulting from the first process; returning to the assessment of the Villages, the Berij of each should be revised and adjusted accordingly. Having proceeded thus far in one Talook, the Collector should lay the results before the Board in the Forms which accompanied their Proceedings dated 19th May 1820. separate Statements should be submitted for each Villages. The Statements should be accompanied with a full and particular report containing every information necessary to enable the Board to understand upon what grounds the assessment has

been determined with reference to the assessment recommended by the Sir Surveyor and the proposals of the Ryots. The Collector will not be able in these Talooks to call in the assistance of Ryots of neighbouring Villages in which a fixed assessment has long obtained, but he should always take the opinion of the inhabitants of other Villages upon the proposals of the Ryots of the Villages under consideration and the valuation of the assessors, and it seems advisable that Columns should be opened in the Statement to exhibit the rates recommended by them.

While the Statements for

Fort St. George 16th December 1844.

for the first Taluk are under the consideration of the Board the Collector should proceed in the same manner to determine the assessment of Villages in the next one, the results of which should likewise be submitted to the Board with a report from the Collector

The final adjust-

=ment of the field assess-

=ment will be the last work

of the Collector and his

Cutcherry after receiving the

Transmitting Extract from the Proceedings of the Foujdaree Udalut on the Criminal Reports for the Second half of the year 1842 with the orders of Government thereon.

Extract from the Minutes of Consultation under date the 7th November, 1844.

Read the following Extract from the Proceedings of the Foujdaree Udalut.

Submitting the Criminal Reports for the second half of the year 1842.

(Here enter 17th June 1844. No. 70)

Para 10. Referring to the observations respecting the inefficiency of the Village Police in Tinnevelly, and the measures of re=form necessary, the attention of the Board of Revenue will be called to the correspondence noted in the Margin; and they will be requested to sub=mit on an early date, the report, which the Government were led to expect from para 3 of their =

Judicial Extract Mins: Consultation 12th May 1843. No. 223 Nos. 1 and 2. From Acting Secy. Bd. of Revr. 30th October 1843 No. 533.

Acting Secretary's letter of the 30th October 1843.

Nos. 1 & 3 Magistrate's Report 11th Feby. 1843.

11. From the Report of the Acting Magistrate of Tinnevelly a decrease of Crime of the more aggravated

kind

kind is observable. In "Murder" there are only 6 Cases, being 5 less than in 1841, and of that number only two stood committed for trial by the Court of Circuit, while under the head of "Robbery and Murder," there was only one case, and no case of "Gang robbery with aggravating circumstances"

12. The proposition in the 7th and subsequent paragraphs of the Acting Magistrate's report, to make the Village Police responsible for losses, in default of the discovery of the offenders, is altogether impracticable of adoption, and open to serious objection on principle; and needs not to be now discussed. The financial result of the arrangement for paying the Bandigass direct from Government, and resuming their Fees and allowances has not been stated: but it is presumed, that this subject will be fully entered into in connection with the survey of the District, and the reference made by the Board of Revenue regarding the Police, and that

that it will then be brought in all its bearings under the notice of Government through that authority. It is satisfactory to observe that there is less crime in Tinnevelly, than in most Districts.

20. The remarks of the Acting Magistrate, on the general inefficiency of his Police Officers may not be without foundation, but their removal without specific grounds of offence would be a harsh measure, which could not be countenanced and would be opposed in principle to the Circular letter of Government dated 19th May 1835, in the Revenue Department. The proper course under the circumstances stated would be to employ the Native Officers according to their respective energies, and the exigencies of the Service - reporting fully on the cases of those who may be found altogether unequal to the discharge of their duties. The Government also resolve to request the Board of Revenue to obtain a Statement of the names, ages, and periods of service of the Tahsildars or Heads of Police employed

Cons: 19th May 1835. No 3. Rev. Des. 11th Sept. 1835. No 15 pp 30-35.

employed in North Arcot, with their opinion of the efficiency or otherwise of each, whether for Revenue or Police functions.-

Cuddapah Para: 48 & 49.

21. His Lordship in Council has perused with much satisfaction the valuable report furnished by Mr. Arbuthnot, on the causes and state of Crime in Cuddapah, and on the Police maintained in that District. The evils arising from the partition of Service Enams, have often been the subject of discussion with the local authorities, and have frequently come under the notice of Government. In their Proceedings dated 12th October 1843, in reporting upon the measures in contemplation for improving the Cuttoobady Enams and Village Police of Cuddapah, the Board of Revenue referring to the principle advocated by the Judges of the Foujdaree Udalut, held, that under Regulation VI. of 1831. the Collector had the remedial power vested in his hands. They then observed that various officers had framed Rules for the express purpose, and the Government were

were, from the concluding para of their Proceedings, led to expect that the Draft of an enactment for carrying out the proposed measures of reform would be submitted at an early date. As this expectation has not been yet realized, the Board will be requested to expedite their report. The Judges of the Foujdaree Udalut will in the meantime be furnished with a copy of the correspondence, which has taken place on this subject.-

Ex: Rs: Bd of Rev. 12th October 1843. No 495. Ex: Proc. of Consultation 21st November No: 76.

The proposition to divide the

24. Canalapoor talook between Shemoga and Poolwendalah making Cudree a separate Talook, would appear from the representations of Mr. Arbuthnot to be a desirable arrangement both as regards the Revenue, and for the maintenance of an efficient Police. and as the change will involve no extra charge on the State, the Board of Revenue will be requested to consider the subject, and direct its adoption, unless they see some decided objections to the measure.-

His Lordship in Council

25. entirely concurs in the remarks recorded in paras 66 & 68 on the importance of maintaining on a permanent footing, the small Extra Establishment

Establishment, which under the orders of the 7th April 1840, was entertained as a temporary measure for the suppression of Gang robbery in the District of Cuddapah at a Monthly charge of Rupees 150- As it is certain that the Establishment cannot be abolished, nor reduced with safety; and as it has proved most salutary, a recommendation will be submitted to the Government of India to sanction its permanent entertainment-

J. D. 7 30th Jany 1844 Nos 13 & 14.

31 The improvement of the Village Police of the District of Nellore formed the subject of reference to Government in the Proceedings of the Board of Revenue dated 21st December 1843, and His Lordship in Council expects a further report, which will enable him to recommend the necessary arrangements for that end, to the Government of India for sanction-

Reports of the District Heads of Police p 96 and 97.

32- The Judges have in these paras referred to the generally unimportant character of the Reports furnished by the District Heads of Police, and recommended that authority should be granted for dispensing with them- His Lordship in Council is not prepared to assent to this proposition

proposition, but would suggest that the causes of their barrenness should be investigated, and it should be ascertained, whether it proceeds from ignorance or indifference, or from being overburthened with work- If it is believed, that the selection of persons to fill the Office of Tahsildar or Head of Police is made with some care, and there can be little doubt that a person of intelligence after a short continuance in his range, would, if rightly directed, be able to afford useful local information on the state of the Police, and offer some general observations of value-

Paras 10 to 12; 20, 21, 24, 25, 31 and 32.

39- Ordered that the paragraphs of these Resolutions noted in the Margin, with the corresponding paragraphs of the Proceedings of the Foujdaree Udalut and of the Magistrates reports, be communicated for the information and guidance of the Board of Revenue-

Extract from the Proceedings of the Foujdaree Udalut under date the 17th June 1844-

Tinnevelly Para 22- In common with his predecessors, the present Magistrate of Tinnevelly, Mr. E. B. Thomas has noticed the prevalence in that District of false complaint and fabricated charges, even of murder and serious crimes-

23- The Foujdaree Udalut are not prepared - as the law now stands - to suggest the adoption

Fort St. George 16th December 1844.

adoption of any system better calculated for the suppression of so heinous an offence; than that which has been inculcated in para 40 of the Extracts from the Minutes of Consultation 27th July 1843 and which if perseveringly acted upon, will not fail, the Court consider, to Check a practice so that can have gained ground only from the omission on the part of the local authorities, in every instance to exert the powers vested in them for bringing the false accusers and the witnesses concerned in supporting their false charges, before the tribunal competent to inflict punishment: In order to the future strict enforcement of the law- the Court have issued to the Judicial and Magisterial authorities Circular instructions based on the suggestions by the Government, above noticed.

24- Mr. Thomas has also offered some pertinent remarks on the inefficiency of the Police of the Tinnevelly District exposing its evils and the wants of the present system, and, as a remedial measure has advocated the resumption of all fees and allowances now paid to Cauilgars, substituting instead regular remuneration direct from the Government.

The

Fort St. George 16th December 1844.

25- The Judges of the Foujdaree Adalut entirely concur in the view of the subject which the Magistrate has taken and would, with respect, have again pressed its importance on the attention of Government, had it not been declared that the Government would "not at present enter on a review of the Reports for the 2nd Half Year of 1841 from the Magistrates of Tinnevelly and Trichinopoly- and the Courts observations thereon which should more properly be brought under consideration whenever the reform of the general Policies of those Districts is before the Government.

Mins of Cons 27th July 1843 para 37.

26- Adverting, however, to the concurrence in opinion between the present Magistrate of Tinnevelly and many of his predecessors as regards the extent of the evils Mr. Thomas has commented on, the Foujdaree Adalut would with respect submit that the subject should receive early consideration- It will be observed to have been discussed in the Foujdaree Adalut proceedings noted in the Margin extending over a period of ten years.

17th June 1830
30th November 1831
27th December 1832
30th October 1833
13th May 1834
27th September 1834

20th December 1841
20th October 1842

Mr

Fort St. George 16th December 1844.

46- Mr. Babington further remarks that the Police Officers in the District are not generally very efficient, most of the Heads of Police being very old men, who exhibit a slackness in the discharge of their duties, more from the want of energy attendant on advanced years, than from wilful negligence and although such is the usual result of their labours, Mr. Babington finds that it is not easy to obtain the concurrence of the Board of Revenue for their dismissal when only general negligence and no specific offence is charged against them.

Cuddapah.

48- Adverting to the fact that it is often shewn by the result of enquiries into cases which come before the Police and Magisterial authorities, that the Charges preferred are at variance with the actual occurrences on which they have been founded, or that they are grossly exaggerated, the Acting Magistrate requests he may be informed whether the mode in which the Statements are now prepared is correct.

par. 7

The

Fort St. George 16th December 1844.

49- The Court of Foujdaree Adalut see no reason to doubt the propriety of the present mode of preparing the Criminal Statements submitted by Magistrates.

par. 14

50- The Foujdaree Adalut observe with gratification, Mr. Arbuthnot's Statement that in several instances "the Villagers have turned out and driven off the robbers and thus preserved their property" and that he has done all in his "power to foster such a spirit, which if generally exhibited, would soon put a stop to gang robberies altogether."

51- The Court consider Mr. Arbuthnot to have correctly explained the origin of the gang Robberies which were so prevalent in the Cuddapah District. There can be no doubt, however, that the good seasons which have prevailed of late in the district have had a tendency to diminish the quantity of crime.

52- In recording his approval of the system of Village Police which obtains in the Cuddapah District, the

Acting

para 18.

Acting Magistrate attributes its present inefficiency to the Sub division of the emoluments attached to the different offices of Potail, Curnum and Village Peon "which prevails to so great an extent."

para 26.

53. The Acting Magistrate in this para expressed his opinion that "the partition of Service Enams ought to be declared illegal, and that no portion of the emoluments of an Office should be bestowed on those who are not either personally or by means of a Goomastah employed to perform the duty." Mr. Arbuthnot admits however, that such a declaration would be an innovation in the Ceded Districts but cannot "help thinking that too much importance has been attached to the customs which were found prevalent when we assumed the Country."

54. The Court of Foujdaree Udalut consider it would be advisable to establish the principle that the actual holder of the Office is entitled to its perquisites and no other person, and they know not of any Regulation which sanctions a contrary practice. It

It appears to them that the Regulations on the contrary, clearly inculcate the principle that the performer of the duty is the person entitled and they would uphold that principle in spite of the irregularities which they are aware exciet in every District, of the nature pointed out by the Acting Magistrate.

55. A suggestion of the nature of that made by Mr. Arbuthnot in para 28 of his Report that a Committee be appointed, composed of Judicial and Revenue Officers, in order to bring under consideration the necessity of the Establishment throughout this Presidency of an uniform system of Village Police, will doubtless not be considered to require adoption with reference to the opinion expressed by the Government in para 6 of the Extract from the Minutes of Consultation dated the 27th December 1841 when noticing the Circuit Report of Mr. M. Lewin, submitted with the Courts proceedings of the 23d January 1841 and, indeed under the improvement which has taken place in the general Police of the Cuddapah District, the Court of Foujdaree Udalut would not feel justified in recommending

Fort St. George 16th December 1844

recommending its adoption, altho they concur
in its expediency.

para 29. 56. Adverting to the indifferent and
negligent manner in which their duties
appeared to the Acting Magistrate on re-
joining the District to be performed by
the Heads of Police, Sub Officers and Ta-
-look Peons" that Officer remarks that "it
seems extraordinary that in a District
where the servants have gained, and justly
so high a name for their ability in re-
-venue affairs, they should be so wan-
-ing in this very important branch of
the duty;" explaining that this incongru-
-ity appears to him "to have arisen in a
great measure from the very stringent or-
ders issued to the Police for the appre-
-hension of offenders and to the little
attention paid to their Proceedings pro-
-vided the parties apprehended were sent
to the Criminal Court." Mr. Arbuthnot
reports that he has "insisted on
the Heads of Police forwarding to
the Magistracy their proceedings
in all cases, whether the parties
are sent to the Court or released,

Fort St. George 16th December 1844

and he is sanguine that by immediately and
strictly noticing all defects apparent in
them the Police Officers will soon be brought
to devote more attention to the correct per-
-formance of their duty." the Acting Ma-
-gistrate further observes that the consequence
has already been, that "although as great
a number of persons have been brought
before the Police in the past as in preced-
-ing Years, fewer have been sent to the Court-
-but of those sent, in proportion, a considera-
-bly greater number have been convicted."

57. The Court of Fouzdaree
Udalut consider Mr. Arbuthnot's endea-
-vours to be very satisfactory and ju-
-dicious entailing on him as they
unavoidably must have done, a great
increase of labor in the Magisterial
department of his duties.

para 31 58. The Acting Magistrate
has further adverted to the general pre-
-valence of an "impression throughout
the Country that there is rather too good
an understanding between the Talook
peons and the thieves" and that he
can

can readily believe this though he has not positive proof of it. Mr. Arbuthnot has added that all these evils may however be corrected by the local Magistracy, and that no exertion on his part shall be wanting to place matters on a more satisfactory footing".

paras 33 to 35. 59. In these paras the Acting Magistrate deprecates a strict adherence to the rule laid down in the Circular Order of the Foujdaree Udalut No. 30, that "the confession of a Prisoner in the Talook though satisfactorily proved in addition to proof of the commission of the offence is not sufficient to authorize the Criminal Court even to hold to security" it being however decided in the same Circular that such cases are to be sent up to the Court as "it is possible that although a Police Officer may not be able or may neglect to discover corroborative evidence, a full examination of the Prosecutor with the matter in the confession may furnish to the Criminal Judge a clue to further evidence which may lead to conviction".

Mr

60. Mr. Arbuthnot observes that he has never known an instance of this discovery being made by the Criminal Court and states his opinion that the effect "of the present system is most prejudicial to the administration of justice".

61. Admitting the justice of the arguments used by this Court as to the "bad effects of too much importance being attached to Talook confessions" the Acting Magistrate concludes by recommending that the Police be prohibited "from sending cases to the Criminal Court unless there is some evidence corroborative of the confession of the Prisoner, if the Court of Foujdaree Udalut see reason to adhere to their opinion that a Talook confession, satisfactorily proved and supported by proof of the commission of the offence does not authorize a Criminal Court to hold a Prisoner to Security".

62. The Court of Foujdaree Udalut would not alter the present course of proceeding although there is much in Mr. Arbuthnot's argument. They consider it

Fort St. George 16th December 1844.

it would lead to concealment of crime if acted upon.

paras 36 and 37. 63. In paras 36 and 37 the Acting Magistrate adverts to a proposition which he submitted to the Board of Revenue to divide the Canalapoor Talook between Chennoor and Doolevendlah and to make Cuddrees a separate Talook having in view in the arrangement suggested to that authority to remedy the inconveniencies resulting both to the inhabitants and the Government servants of the Talook in both the Revenue and Police departments from a range of hills which intersects the Talook and from its position has been reported by previous Magistrates and is deemed by Mr. Arbuthnot to afford great facilities to the operations of gangs of robbers.

64. The arrangement recommended by the Acting Magistrate does not seem to have been approved by the Board who observing that the Collector had "chiefly in view the improvement of the Police of the Doolevendlah Talook declined to submit it for the sanction of Government stating, that the

Fort St. George 16th December 1844.

the Board were informed that "the Magistrates in the Ceded Districts have submitted for the sanction of Government such an addition or alteration in the present Establishment of their Districts as they may consider necessary to put down Gang Robbery pending therefore that arrangement it would appear that no other change is necessary".

65. It does not appear from the communication of the Acting Collector to the Board that the arrangement which he advocated would have entailed on the Government any additional expense. The Court of Foujdaree Udalut are not of opinion that they are called upon to express their sentiments the question appearing to them to belong to the revenue department.

para 38. 66. In conclusion the Acting Magistrate strongly recommends that the present additional Establishment for which sanction is obtained monthly may be made permanent.

67. We remarks that it has done

done good service in protecting the Ghauts or mountain passes most frequented by travellers and which used to be the scenes of constant robberies and that as a body he doubts not it will be found very useful when aided by a few Police Peons from the other taluks in repressing any gangs which the unfavorable circumstances of the present season may induce the poorer classes to endeavour to organize.

68. The Court of Fouzdaree Udalut consider the observations of the Magistrate to be just and appropriate and under the circumstances stated, they have no hesitation in supporting that Officer's proposition and recommending the permanent entertainment of the Establishment shown in the margin, the cost of which is now specially sanctioned Month after Month on a communication being addressed by this Court to the Government.

69. The Judges deem it necessary here to record the gratification they

have derived from the perusal of Mr. Arbuthnot's report which clearly shows the interest taken by that Officer in the welfare and prosperity of the District confided to his charge and management.

96. The Judges have not deemed it necessary to lay before the Government the translations of the annual reports received from the district Head of Police which have been transmitted to the Fouzdaree Udalut by the Magistracy, as none of them contain information of any value, or suggestions for the improvement of the Police, requiring in the opinion of the Court, any separate notice.

97. Adverting to the general emptiness of these Reports the Court would with respect again press upon the attention of the Government the recommendation contained in para 135 of their proceedings dated 1st. November 1837, that the Authority of the Honorable the Court of Directors be solicited altogether to dispense with them.

Minutes of Consultation 19th January 1838.

Annual Statements of Petty Offences and Misdemeanors from 1st July to 31st December 1842 Shew the honor to remark that by the Marginal Statement it will be observed that the ... cases in Head of the crimes are considerably less than last Year

Of the six cases of Murder one alleged to have occurred at Cail pattam in the Pun jamall Talook was duly investigated and dismissed by the Head of Police the Charge having been proved to be utterly false. The Complainant in this case was committed to the Criminal Court charged

with false complaint where he has been sentenced for imprisonment for 6 Months. Of the remaining 5 Cases, one appears to have been investigated by the Judge on Circuit at the last sessions, 10 out of 11 Offenders have been released, and the other one sentenced to find two securities for 100 Rupees each for good behaviour for 3 Years, two cases have been dismissed by the Joint Criminal Judge for want of proof, and the other two stand committed for disposal by the Court of Circuit.

2. Only one case has occurred under the head of Robbery and Murder in this year. It was committed by a party of 8 persons on one Pamboolo Naicken formerly a Canilgar in the Village of Sevalarpully in the Ottapedarum Talook, after having led him to a Poonjah field out of the Village under a pretext that the Natamagar wanted to speak to him. they robbed him of Gold earrings and cloths and murdered him. It appears that an enmity subsisted between the deceased

deceased and some of the prisoners. The case was fully investigated by the Head of Police and referred to the Joint Criminal Court where the Prisoners have been committed to take their trial before the ensuing sessions.

3 None have occurred under the head of "Gang Robbery attended with aggravating circumstances," but a few cases under that of "Gang Robbery without aggravated circumstances." The parties in 5 out of the 13 Cases have been released by the Police Officers for want of proof, and of the remainder, 2 Cases occurred in the Principal, and 3 in the Sub Division. The perpetrators in the 2 former numbers have been apprehended and forwarded to Court, the prisoners in the one case have been released by the Auxiliary Court on the grounds of a variation in the evidence of the prosecution. 4 out of 13 persons in the other, have been sentenced by the Court of Circuit to find security for good behaviour for a fixed period, releasing the others for want of proof. Three cases yet remain undiscovered.

7. In cases of robbery, whether of

of serious or less extent I fear the Cavilgars or Village watchers are in 9 Cases out of 10 consenting to, or themselves committing - Where the Cavilgars of a Village are alert, tolerably honest, an on good terms with the Villagers, few Robberies can occur; if occurring, escape detection but where the Village Watchers are ill paid or disagree with the Inhabitants, thefts and robberies infallibly happen by the Watchers themselves, or neighbouring Cavilgars screened for the occasion; if a bad management or accident appears likely to disclose the real perpetrators, restitution is made to the Villagers and a compromise effected; if undiscovered, the booty makes up for the inadequate allowance of the Cavilgars. I am free to confess that however repugnant to our English ideas of propriety and justice, I believe the old system of the Country (still tacitly adhered to in a considerable degree) is practically efficient, tho' theoretically indefensible, namely making the Village Watcher responsible for losses, and binding him to trace the Offenders or make good the property

under forfeiture of his fees, proceeding on the supposition, and I think a well founded one, that few Robberies can happen, but thro' either his connivance or indolence.

8. This system is not consonant to our ideas of law and Police, and has been prohibited by the Regulations, and therefore publicly laid aside tho it is still acted on to a certain extent by the inhabitants themselves. The chief remuneration of the Cavilgars are stipulated yearly allowances in grain paid them by the inhabitants at the Chief Harvests, where robberies have occurred in a Village and neither restitution or discovery has followed, the Villagers, if strong enough, withhold the allowances, while the Cavilgars again are often sufficiently powerful to exact them by force.-

9. I see but 2 modes of meeting the evil; either by upholding the Villages in their own system of keeping back the fees where restitution or discovery has not followed: or by resuming all fees and allowances and paying the Cavilgars regularly, direct from Government, which would

would then have a hold on them not now existing, and the power of punishing negligence or connivance. The remuneration should liberal, sufficient to induce a desire to retain their post; the Magistrate should have the power of dismissal where necessary, without replacing (as now bound) a convicted rogue by his next heir, for a new appointment and a mixture of casts may sometimes be absolutely necessary and advisable. The arrangement of payment by Government would also equalize many fees now totally disproportionate to the duties. In some Villages for instance, the Village Watchers amount to several Hundreds; in many, they enjoy enormous profits; while in others again the watchers and the fees are both inadequate: such should be transferred and equalized, there is little doubt but that the Village community would still seek to retain some hold on the Cavilgars by continuing small voluntary additional presents of grain at

at the harvest where the Watchers were diligent, a practice unobjectionable, and likely to be a bond for natural benefit.

10. It was my intention to have adverted to this system and proposed some amendment during the approaching survey of Tinnevelly, in which all interests, rights, and peculiarities will come under notice, but believing to the best of my judgment and experience that the above are the chief features of the Tinnevelly Police, and its practicable remedy, I deem it my duty to notice it here.—

11. It will be observed that the Native Heads of Police (who must be supposed to have some experience as to the practically best mode of preventing robbery and theft in their own Country) nearly all agree in three points; 1st that the chief depredators are the Cavilgars themselves, or their own Caste, the "Maravers;" 2d that they are not sufficiently responsible either to the Village community, or to the public authorities; and 3d that some rule should be enforced compelling them either to make restitution, or discover the Offenders; and

and however dubious and objectionable this opinion of the Native Police may at first sight appear, I believe that with some modifications it is suitable to the present state of the Country, and has formerly worked well - I am persuaded that in many of the Cases of robbery and theft appearing in the returns as undetected and unpunished, compromise and restitution has been privately made, and the property or greatest part of it has returned secretly to its rightful owner; whose self interest is but too naturally, more powerful than his public spirit, and who therefore prefers the recovery of his property to prosecuting and punishing the Offender -

Extract from a Precept from the Acting Magistrate of North Arcot Dated 1st November 1843.

Para 3. In the District at large the Police Officers are certainly not generally very efficient. They are most of them, especially the Heads of Police, very old men, and their slackness in the performance of their duties

duties appears to the Acting Magistrate to result more from the want of energy attendant on advanced years, than from wilful negligence. The Heads of Police being most of them Thasildars, the Magistrate has no power to remove them without the concurrence of the Board of Revenue, and it is not easy to obtain their concurrence, when the complaint against them is for general negligence, and no flagrant specific offence is charged against them. The late Collector Mr. Ogilvie systematically abstained from ever recommending the dismissal of a Thasildar. In one occasion only during the six Years he was in the District, he deviated from this rule at the request of the Sub Collector and his recommendation was not attended to - A Collector is told that common faults of negligence should be punished by fines not by dismissal; but it is no use fining men for the inefficiency occasioned by old age: An attempt to get rid of an efficient Thasildar if unsuccessful has a mischievous effect, for it encourages.

Fort St. George 16th December 1814.

encourages not only that particular individual, but all the other Thasildars in the District in to hold the Collector and Magistrate's Authority light.-

Extract from a Report from the Acting Magistrate of Cuddapah Dated 1st March 1813 No. 74.

Para 7. The number of cases of heinous offences brought before the Police in the year under review, Amounted to 1,049, in which 3,212 persons were supposed to have been concerned - It must be observed, that in the Catalogue of offences entered in Statement No. 2 under the denomination of heinous is included every offence beyond the very limited jurisdiction of the Magistrate, and also that as the Statement in question is prepared more with a view to exhibit the operations of the Police, than the state of Crime, many cases are entered in it which never occurred at all. Thus for instance a charge of murder is preferred; on enquiry it is ascertained that the party alleged to have been murdered died a natural death, still as the case came before the Police

Fort St. George 16th December 1814.

Police it is entered as a case of murder - again charges of robbery are frequently preferred which turn out to be nothing more than assaults or a dispute in regard to property in which the parties are eventually referred to the Civil Court. These cases also entered in the Statement No. 2 as Gang robberies. This however has not generally been the case heretofore, I should be glad therefore to know whether the mode in which the Statements are now prepared is considered correct. I may also add that when cases of Gang robbery do occur the number of persons supposed to have been concerned in them, is inserted with reference to the reports of the Village authorities, which are generally much exaggerated.

4th There has been a great deficiency of rain during the latter half of the year 1812 which has led to an Increase in the number of depredations, but they have been mostly to a small amount, unaccompanied by any circumstances of aggravation, and have generally been committed by the inhabitants of the hill Villages, who assembled for the purpose and immediately dispersed. The largest Amount of property robbed in any one case

Fort St. George 16th December 1844.

case in the past half year amounted to
more than 800 Rupees even by the report of
sufferer and this is probably a good deal
beyond the actual value of the property. I am hop
also to be able to state that in several instan
the Villagers have turned out and driven off
the robbers and thus preserved their property.
I have done all in my power to foster such
a spirit which if generally exhibited would
soon put a stop to gang robberies altogether

18. The system of Village Police
in this District is admirable, and I cannot
help attributing its inefficiency to the debas
of the emoluments attached to the different
offices of Potail Curnum and Village Po
which prevails to so great an extent. I
the effects of such a system [illegible] with
that 50 Pagodas are appropriated in law
to the person who performs the d
of Potail. He has [illegible] in the
one is selected to perform the
but he receives [illegible] of the

Fort St. George 16th December 1844.

The remaining ¾ being enjoyed by his brethren
who are liable to be called upon to perform
the duty of Potail in cases of necessity but
who unless that necessity exists do nothing.
If the effect of this system is so striking
in one descent, what must it be when
continued for a series of generations. It is
but too apparent in the inefficiency if not
the corruption of the Police.

26. I am of opinion that the
partition of service Enams ought to be declared
illegal, and that no portion of the emoluments
of an Office should be bestowed on those who
are not either personally or by means of a Gomastah
employed to perform the duty. That this would
be an innovation in the Ceded Districts I
readily admit, but I cannot help thinking
that too much importance has been attached
to the Customs which were found prevalent
when we assumed the Country. The native Govern-
ments were celebrated for their liberality in the grant of
Endowments

endowments, but what was so liberally given was as summarily taken away or transferred to another as convenience suggested.—

28. I feel confident that to place the Village Police on a satisfactory footing which is most important to the welfare and prosperity of the country some change in the mode of remuneration is absolutely necessary but as the question is one of general interest as I believe improvement is required in every Zillah and as it is very desirable that an uniform system should be established throughout the Presidency I would respectfully suggest the appointment of a Committee composed of Judicials and Revenue Officers for its consideration.—

29. In regard to the Zillah Establishments I was greatly struck on joining this district by the indifferent and negligent manner in which their duties were performed by the Heads of Police, Sub Officers and Establishments. It seemed extraordinary that in a district where the

the servants have gained and justly so high a name for their ability in revenue affairs they should be so wanting in this very important branch of their duty. This appears to me to have arisen in a great measure from the very stringent orders issued to the Police for the apprehension of the offenders and to the little attention paid to their proceedings provided the parties apprehended were sent to the Criminal Court. It was I conclude supposed that all irregularities or omissions on the part of police in such cases would be brought to the notice of the Magistrate by the Criminal Court. I have however insisted on the Heads of Police forwarding to the magistracy their proceedings in all cases whether the parties are sent to the Court or released and I am sanguine that by immediately and strictly noting all defects apparent in them the Police Officers will soon be brought to devote more attention to the correct performance of their duty. The consequence has already been that although as great a number of persons have been brought before the Police in the past as in preceding years

Fewer

fewer have been sent to the Court but of those sent in proportion a considerably greater number have been convicted.—

31 In a Taluk which I lately visited I found that a large portion of the best land in the Cutnah Village was in the occupation nominally of relations of the peons but in reality of themselves. As the rains have been very deficient this season. Complaints were loud that these peons had appropriated to their lands far more than their share of water, and such was the fact. It may also add, that there is a very general impression throughout the Country that there is rather too good an understanding between the Taluk peons and the thieves. I can readily believe this though I have not positive proof of it. All these evils may however be corrected by the local Magistracy and no exertion on my part shall be wanting to place matters on a more satisfactory footing.

33 The Court of Foujdaree Adalut has ruled that the confession of a Prisoner in the Taluk though satisfactorily proved in addition to proof of the commission of the offence, is not sufficient to authorize the Criminal Court even to hold to security but it has also been

been decided, that such cases are to be sent up to the Court as it is possible that although a Police Officer may not be able or may neglect to discover corroborative evidence, a full examination of the Prisoner with the matter in the confession may furnish to the Criminal Judge a clue to further evidence which may lead to conviction.

60 A. 30

34 I have never known an instance of this discovery being made by the Criminal Court, and the effect of the present system is most prejudicial to the administration of justice. Should a party and forwarded him to the Criminal Court, notwithstanding any orders that may be issued to him, he considers that the case has been finally disposed of, so far as he is concerned and that the release of the Prisoner is the fault of the system. In ordinary cases he ceases to take any further trouble in the matter. So well are all bad Offenders aware of this that they invariably confess, and that is the consequence. The Prosecutor and attesting witnesses as well as the Prisoner have to proceed frequently a considerable distance

distance to the Criminal Court. In a few days they return to their Village the prisoner exulting in the success of his scheme and ready to commit any fresh violation of the law in the full confidence that he has discovered a ready mode of evading its penalties. The example thus held out to the rest of the Community cannot but be most injurious.—

35 I am fully sensible of the justness of the arguments used by the Court of Sanjdaree Adalut as to the bad effects of too much importance being attached to Cutcha confessions, but I would strongly recommend that the Police be prohibited from sending cases to the Criminal Court unless there is some evidence corroborative of the confession of the prisoner, if the Court of Sanjdaree Adalut see reason to adhere to their opinion that a Cutcha confession satisfactorily

the commission of the offence does not authorize a Criminal Court to hold a Prisoner to security.—

36 The exact extent of the Cutcha Salook in this District had attracted the attention and formed the subject of representation from almost all my predecessors, and it appeared to me to have a baneful effect both in regard to the Police and the Revenue administration of the District. I therefore considered it my duty to bring the subject to the notice of the Board of Revenue. They were however of opinion that sufficient reasons were not advanced to justify the change as regarded the Revenue administration. It would be a needless waste of time to go over the same ground again, but I beg to annex a copy of the correspondence

Fort St. George 16th December 1844.

correspondence on the subject as an appendix to this report in order that the Higher Courts may be enabled to take into their consideration how far the change recommended would improve the police of the district.—

37. It will no doubt be observed that the arrangement contemplated by me provided also a considerable addition to the Police establishment in the town of Cuddapah without any additional cost to Government.— This is very much required, and if any proportion is finally rejected there will be no alternative but to incur the additional expence which is required to make the Town Police Establishment effective, which at present is not the case.—

To The President & Members of the Board of Revenue.

I have the honor to be Sir, Your most obedient Servant, (True Extracts) (Signed) S. F. Thomas Sec.y to Govt.

9-10

Order thereon. Ordered to be brought forward at a future meeting.—

Read

Fort St. George 16th December 1844.

Read the following letter.

To C. C. Lovell Esqre. Acting Secretary to the Board of Revenue. Fort St. George.

11

From the Asst. Collr. of Ganjam, Sir,

Reports on the Boodarsingy Zemindary.

*Dated 17th Octr. 1844.

Para 1. I have the honor to acknowledge the receipt of your letter directing that the Zemindary of Boodarsingy shall be made over to Gourichundar Neshunk since the Board do not think fit to pass over the just right of any one on the ground of convenience and expediency.—

2. I lament very much and beg leave to apologize for the scanty information and details furnished in my letter of the 19th September 1844 which I beg permission now to supply.—

3. Mr Bannerman on the 26th March 1839 reported the demise of the Zemindar Petambara Nishunk leaving 3 widows and a daughter. He stated that all the widows united in proposing that Gopenad Deo, son of a maternal uncle of the deceased should be recognized as Zemindar, in which he concurred.—

4. The Board hereon in a letter dated 29th April

April 1839 inquired whether persons connected only with the wives of Zemindars had any right to succession, in answer to which Mr Bannerman stated that Gopenad Deo was not the son of a maternal but of a paternal uncle, whereon the Board on the 6th June 1839 permitted the Estate to be registered in the name of Gopenad Deo "his succession being reported to be agreeable to all parties interested in the Zemindary".

5. Gopenad Deo and Gourachunder Deo are the sons of Ram Chendra Sanio who murdered or caused to be murdered his brother the Zemindar Sri Cristna Chendra Deo the father of Petambara Nishunk the predecessor of Gopenad. The murderer fled to Kimedy and there married a daughter of a Concubine of the family of Kimedy and had the two sons abovementioned. The eldest of them Gopenad Deo having made himself acceptable to the widows was by them proposed as Petambara Deo's successor. he never claimed it of his own right nor did any one ever claim it for him. On attentively considering the Boards Proceedings of 6th June 1839 and their previous letter of 29th April 1839, it seems to me that while they demurred to conferring the Estate on the son of a maternal uncle, they, on learning that he was the son of a paternal and not of a maternal uncle, consented to his recognition not on account of his own right of succession but because the widows had applied in his favor and because the objection of his total disconnection by blood with the family was removed.

On

6. On Gopenad's death even if he had left male issue it appears to me that the widows should be consulted regarding the nomination of a successor his dying without issue restores I submit to the widows the right of nomination which only because he conciliated them they had exercised in his (Gopenad's) favour.

7. The murder of the Zemindar Sri Croshna Chendra Deo by the father of these young men Gopenad and Gouri Chender destroyed his right of succession and by consequence that of his sons and descendants, and I would respectfully submit that if Gopenad Deo whose right of succession had been totally forfeited by his father's crime acquired the Estate solely by the good will and nomination of the widows that cannot confer a right on his brother to succeed to the Estate against the expressed protest of these widows.

8. There is moreover the right of the daughter of Petambara Nishunk to be considered she is just married to Gouri Chender Narrian Deo of the Kimedy family and any male issue she may have, will be, I submit, the lineal heir of Petambara Nishunke with far superior rights of succession to any which Gopenad and Goure Chender could ever have had.

9 It is known that there are no strict laws of succession in these Oriya Zemindaries

Zemindaries and though Gopeenath and Gouri Chender if unattainted might, being able men of mature age at hand, have had a prior right to that of the daughter of Petambara Deo their right being extinguished by their fathers crimes which common justice and the usages of these families equally rule her right and that of her probable issue are in fact the sole legal lineal rights now existing. There is also the ultimate right of Government in case of lapse of heirs which right might be seriously affected by installing as hereditary occupant a young man like Gouri Chunder Deo.

10. I am aware of the objection to placing a Zemindary like Boodarsinghy in charge of 3 females, as observed by Mr Bannerman in his letter dated 24th May 1839 but as observed by the Board in reference to Gouri Chunder Deo their just right and those of Petambara Nishunka's daughter should not be passed over on the ground of expediency or convenience, and I therefore venture most respectfully to submit the matter again for the Board's consideration.—

J.

11. I beg to remind the Board that the measure of placing the Zemindary in the hands of the chief widow which I propose is merely temporary, and should the management be found to be bad it can be altered by appointing a manager acceptable to all parties and to the Sirkar, an appointment for which the husband of Petambara Nishunka's daughter might be perhaps well fitted should the birth of male issue to the daughter of Petambara Deo give him a strong interest in the welfare of the Zemindary. He bears a good character and is 20 years of age at present, and is a pensioner of Kimedy receiving 200 Rupees per month.—

12. I think it my duty also to state that Gouri Chunder Deo is not a character fit to be entrusted with the care of an Estate, and that should such be attempted bad consequences might follow.—

Ganjam District.
Collectors Cutcherry
Ganjam 8th November 1844

/Signed/ T. A. Anstruther
Asst Collr and Agent to the Governor

Resolution thereon.— The Board request that the Acting Collector will be good enough to explain further whether under the customs prevailing in the Boodarsinghy family and generally among the class to which Gouri Chunder Nessinhk belongs, he may be regarded as the nearest heir to the Estate, and if so whether the apprehensions entertained by the widows of the late Zemindar are well founded.— Read.

11-12

Fort St. George 16th December 1844.

Read the following letter

To C. C. Lovell Esqr
Acting Secretary to the
Board of Revenue
Fort St. George

13

From the Collr of Vizagapatam } Sir.

Para 1. I regret to have to report for the information of the Board of Revenue that the principal crops throughout the whole of this District, have almost entirely failed from the very inadequate supply of water.

Reports for the information of the Board of Revenue that the Principal Crops throughout the whole of the Vizagapatam District have almost entirely failed from the very inadequate supply of water.

2. From the commencement of the season the rain were light and partial. At the extremities of the District rather more fell than in the centre, and what is most unusual, the villages situated in the neighbourhood of the hills fared little better than those on the coast.

3. The only general falls that we have had were in the early part of September and October, and these were not sufficiently heavy to fill the [illegible] bring down the [illegible]

4. The large tanks have not now more water than usually remains in them at the end of the hot season and the smaller tanks are altogether dry.

5. The price of every description of every produce is rising, but as there was a large stock of grain in store and as the season, especially the early part of it, has been more favorable in the adjoining Districts I trust there will be no actual scarcity of food.

6. I anticipate that the greatest loss of Revenue will be in the Vizeanagrum Zemindary, which in the centre of the District has been peculiarly unfortunate.

7. Large tracts of land usually fully cultivated have been left waste, and it is only in the most favorable localities that the crops have come to maturity.

Vizagapatam District,
Vizeanagrum Collectors Circuit Cutcherry
4th December 1844

From the Pt. Collr of Madura

Sir,

I have the honor to forward a Statement Comparative between fuelies 1253 and 54, upto the 15th November, of cultivation, &c shewing a decrease of Rupees 1,25,672-3-8 in the Current below the preceding year. very little rain fell during the Month of June July and August for Poonjah cultivation, on the last day of September heavy showers fell throughout the district, and continued till the 4th and 5th October, since which period there has been none. a fresh came in to the Vegay river with the rains at the beginning of October and continued for some days.

2. The decrease in Madura in Nunjah is chiefly in Madacolum Talook, and in Poonjah in Shivvonungalum, the Total decrease is Rupees 103,834-6-6, and in Dindigul District it is Rupees 21837-13-2, the latter seems to have been some what more favored than the former district but I am afraid if rain does not fall in a few days much of the Nunjah Cultivation will perish. The Poonjah crops have already greatly and generally suffered.

Madura
Poodoocolay 2d Decr 1844

[Signed] J. Blackburne
Pt. Collector

From the Collector of Masulipatam. } Sir, Para 1.

No 182.

I have the honor to acknowledge the receipt of your letter of the 30th September last, and to forward two Statements shewing the Establishments as they stood on the 30th March last, for collecting the Land frontier and Sea Customs duties in this District, and the Establishments at present employed, prepared according to the Form furnished with the above letter together with two Inoyen Zabitahs of the Establishments for the same purpose requiring the sanction of Government according to the form circulated with your letter of the 21st March last.—

No 5944.

2. I beg also to forward two Statements shewing the Actual Charges incurred on account of the above Establishments from 1st April to 11th July last, for which the sanction of Government is also requested.—

No 5946.

Masulipatam. Zillah Collector's Circuit Cutcherry, at Chullapully. 7th December 1844.

I have the honor to be Sir Your most obedient Servant

1612

Fort St George 16th December 1744.

Read the following report

To

E. C. Lovell Esqr.

Acting Secretary to the

Board of Revenue

at Fort St George.

Sir,

22

From the Collr of North Arcot.

Jamabundy Report on the settlement of Land Revenue for Fasly 1253 or A.D. 1743-44.

Para 1. I have the honor to submit for the information of the Board of Revenue the following Statements of the Revenues of the Northern Division of Arcot for Fasly 1253/1743/44 with a comparison of the proceeds of the preceding year.—

A. Jamabundy Statement.

B. Comparative Statement Contrasted with Fasly 1252/1842/43.—

C. General Abstract Comparative Statement of the whole Revenue of the Land and Extra Sources.—

No 1. Account Particulars shewing the amount of Remission granted to the Ryots on account of Crops perished.—

2. Statement shewing the Land granted on Cowle-

3. Abstract Statement of Ditto.

4. Statement shewing the Cutcheries Peerwah and Bogajastee on Poonjah, Nunjah and

Fort St George 16th December 1844

and Total Cultivated Lands:

No 5. Abstract Statement of Ditto.

" 6. Statement shewing the Augmentation or loss of 2d Crop.—

" 7. Statement shewing the Beriz of Rented Villages.—

" 8. Statement shewing the amount of Charges.—

2. The following is an Abstract Statement of the whole sources of Revenue of Fusly $\frac{1253}{1843/44}$ exhibiting a Net decrease of Rupees 19623—13"—— below that of the preceding year.——

	Decrease	-	-	-	-	-	-	-	-

Season. 4. After the 19th of May, the periodical rain commenced and was favorable, the Poonjah lands were ploughed and Measures taken for the cultivation of the Nunjah lands, the tanks having received a Supply of water equal to from 1 to 3 Months consumption; thus Bajeerah, Raggy and Codroo &c. in Dry land and Kar in Wet were raised to a Considerable extent - The rain in July and August was scanty; the Dry cultivation (Pulse) was however carried on, with the seeds of the season. The water in the Tanks at this time was insufficient for forwarding the sumbah (Wet) Cultivation, but seed beds were prepared and sown, in anticipation of future rains - The rains in September and October aided the Cultivation of the sumbah Cultivation, though not to the full extent anticipated - In November there was no rain, at the Commencement of December a very heavy fall took place - this was of service to the Crops on the ground, but in some places inundation was experienced - a little rain fell in January and February - On the whole the season was favorable and the Cultivation during the year under report, is above that of the preceding -

Cultivation of Dry Lands.

5. The rain though generally favorable as regards the Dry Lands was rather less so in the Talooks

Fort St. George 16th December 1844.

Talookes of Trivellum, Sautghur, Cuddapa-nuttum, Pennuary and Veneatagherry Cottah, then in the other parts of the District. On the whole District there is an increase of Cawnies 10536-7 11/16 bearing an assessment of Rupees 22196-9-9 above the preceding fusly.—

Wet Lands Kar. 6. In Kar the cultivation exceeded that of the preceding year, but the Lumbah and Nuvah fell below the whole Wet Cultivation of the year exceeded that of the preceding in Cawnies 566-1 2/16 assessed at Rupees 547-10—15-3.—

Garden Lands. 7. In the Garden Lands there is a decrease of Cawnies 49 3/4—2/16 assessed at Rupees 1232-7—11. below the preceding year owing to the rain having been too abundant in some places for this description of Cultivation.—

8. On the whole Cultivation, Dry, Wet and Garden there is an increase during the year of Cawnies 16147 3/4. 11/16 bearing an assessment of Rupees 75675—1—1. above Fusly 1252/1842-43.—

9. A sum of Rupees 23058-13-2 above the preceding year has been obtained as Fazul-jasty as particularized in Statement No. 5 the Cultivation of Nunjah in Proonjah, and of 2nd Crop in Nunjah 1 Crop land being extensive. The

Fort St. George 16th December 1844.

10. The rains, though favorable as to quantity during the whole season, were deficient at the time the Crops were coming into Ear. The Dry Crops in consequence yielded a return much below an average Crop: The return of Wet Crops was about 5/8 of a fair Crop.—

11. Annexed is a table of the Prices of Paddy in the Collectors and Sub-Collectors Divisions.——

Item.	Average Commutation prices of Paddy per Garce.	Average market Price of Paddy per Garce.	Differince	Per Centage
	Rs As	Rs As	Rs As	Rs As
Collectors Division——	84 5 2	64 15 2	19 6.	22 15 7
Sub Collectors Division——	87 8.	64 12.	22 12.	26 . .

12. The revenue under the large Cavery-pauk Tank in Fusly 1252/1842-43. was Rupees 40263-3-1. in the Fusly under report it is Rupees 44473-14-2; being an increase in the latter above the former of Rs. 4210—11—1— or. 7 Rs. 657—12—5. above Fusly 1251/1841-42.—

13. The annexed Statement exhibits the increase and decrease of the Gross Cultivation and the usual deductions under distinct heads.—

Of

Chickerpoldy.. 14. Of the whole land tilled and prepared for Cultivation, land assessed at Rupees 1053-4-10. remained unsown. Of which Rupees 116-12-2 the portion wilfully neglected by the Ryots were brought to account, and the remainder Rupees 2,936-8-8 remitted being Rupees 2718-10-7. below the remission granted in the preceding year.—

Stullacummee 15. Land bearing an assessment of Rupees 27,948-10-1 remained uncultivated under this head, part of which Rupees 1035-6-8. were brought to account under the provisions of the Summabundy Hookoomnamah for neglect, on the part of the Ryots, and Rupees 2693-3-5. were remitted, being an increase on the remission of the preceding year in the sum of Rupees 41-11-1.—

Shavy &c. The remission on account of wet thereof Crops is to a very small extent. Certain lands in the Village of Vellore in the Vellore Taluk and in Aryoor and Mancoopum in the Sholinghur Taluk situated on a high level were deprived of water and perished, of the loss thus sustained amounting to Rupees 120-3-8 Rupees 35-7-10. have been included in the Summabundy and Rupees 84 remitted, being Rupees 430-11-9. below the remission granted in the preceding year.—

Savay Boorty. 17. Rupees for Crops lost

from being covered with water amounted to Rupees 1736-11-2. in fusly 1252/1842-43. and Rupees 1679-10-8. in the fusly under report, being a decrease of Rupees 107-—6 in the latter the loss occurred in the Cultivation raised in the bed of Tanks.—

Peeramalee.. 18. Rupees 257-—2 were granted for Crops destroyed by inundation in fusly 1252/1842-43. and in the year under report Rupees 749-10-3. being an increase of Rupees 498-10-1 in the latter, which was owing to the bursting of several tanks in the Sub Division.—

Boganushty. The loss under Boganushty or nonCultivation of one of 2 Crops in two Crop land amounted to Rs. 3594-3-8. in fusly 1252/1842-43. and Rupees 22408-1-7. in the fusly under review being a decrease of Rupees 13535-14-1 in the latter. The particulars are as follows.—

The

Coole Land.

20. The remission for Lands held on Coole during the last year $\frac{1252}{1842\text{-}43}$ amounted to Rupees 1070. 8- - and in Fusly $\frac{1258}{1843\text{-}4}$ to Rupees 1027. 14 — — being a decrease of Rupees 42-10- — in the latter Fusly. The total Quantity of Land taken up on Coole is Cawnies 405. 8 6/12 Assessed at Rupees 1408. 12- 8. Of this amount Rupees 1027-14- — Comprises the remission according to the terms of the Coole and the remainder Rupees 380. 14. 8 is included in the Jummah. Of the Quantity of land above mentioned Cawnies 86. 6 as is the extent taken up in the Fusly under report. —

Oolvadah Lands.

21. The remission granted under this Head was as usual Rupees 6012. 12. 6. —

Teasgary.

22. The remission granted under the Head of Teasgary in Fusly $\frac{1252}{1842\text{-}43}$ amounted to Rupees 12,304 - 6 - 1. And in Fusly $\frac{1253}{1843\text{-}44}$ to Rupees 14,131 - 14 - 7. being an increase in the latter of Rupees 1827-4-6. which occurs in the Vellore Talook and in those forming the Sub Division. The increase is owing partly to the Cultivation by the favored classes of individuals having been more extensive than in the preceding year and partly to the rule introduced since 1842 which allows the transfer of lands of this description from

* Extract from the Proceedings of the Board of Revenue dated 31st. October 1842 Para 6.

from one to another of the same class on the terms held by the party by whom the transfer is made. —

Chantoo Bangaroo and Purchurnisah.

23. The remission granted under these heads is Rupees 1-14-3. below the preceding year Viz.

Shotreum Ryaet.

24. The remission under this Head was in the preceding year Rupees 115- 8 — — —

Dusbundoon Remission

25. The remission granted as Dusbundoon in Fusly $\frac{1252}{1842\text{-}43}$ amounted to Rupees 1006. 10. 11. and to Rupees 1154 - 10 - 9. in Fusly $\frac{1253}{1843\text{-}44}$ being an increase of 147. 15 - 10 in the latter occasioned by an increase of Cultivation. The Dusbundoon remission amounted to 1/4 th. for Cultivation made under tanks, and 1/5 th. for Cultivation under channels. —

Tenuk Cumma

26. The sum granted under this head in Fusly $\frac{1252}{1842\text{-}43}$ was Rupees 17 - 7 - 2. and in Fusly $\frac{1253}{1843\text{-}44}$ Rupees 136 — 2. being an increase in the latter of Rupees 118 - 9 — the Particulars are as follows —

Remission

Fort St George 16th December 1824.

	Rs.	A	P
Remission on the Nunjah land cultivated by Mr Grimes under the Adekanee aree without the assistance of Circar water. Poonjah teerwah only being collected as per instructions contained in the Extract from the Proceedings of the Board of Revenue dated 17th December 1820	23	3	0
Remission on the land cultivated with Nunjah Cultivation under the Indoneer Tank for Cultivation raised by Mr Grimes beyond the usual extent, 1½ of the Poonjah assessment being levied thereon as per letter from the Board of Revenue dated 25th July 1824	105	7	0
Remission on Appoo Moodely's Topes of Cocoanut Trees, it being on high ground where the channel water cannot flow, Poonjah teerwah being levied thereon as per instructions from the Board in letter 14th August 1823	7	62	
Rupees	136	2	

Ryotwar Rayet of 12½ per Cent.

27. The remission under this Head during fusly 1252 / 1842-43 in the Talooks North of the Palar amounted to Rupees 1040 2 - 12 - 4. and in 1253 / 1843-44 to Rupees 1099 6 - 3 - 6. being an increase of Rupees 58 7 4 — 12 - 2. in the latter above the former which arose from an increased Cultivation.

Fort St George 16th December 1824.

Malayalum or Hill Villages.

28. The revenue under the two Hill Villages Viz.t in the Vellore Talook and the other in the Polore Talook amounted to Rupees 1578 - 1 - 9. in fusly 1252 / 1842-43 and Rupees 1616 - 13 - 2 in fusly 1253 / 1843-44. being an increase of Rupees 38 — 11 — 5. in the latter. The particulars of this source of Revenue are explained in the report of the settlement for fusly 1257 / 1847-48.

Sunnadayem or ready Money Collections.

29. The Revenue under this Head amounted to Rupees 87610 - 7 — 6. in fusly 1252 / 1842-43. and Rupees 88600 — 4 — 10 in fusly 1253 / 1843-44. being an increase of Rupees 989 - 13 - 4. in the latter, owing to the Collections on account of certain Indees and the rents of Topes being large. —

On

Proceedings of the Board of Revenue 15th October 1844 on the Summabundy of Fusly 1252 / 1842-43 Para 4.

38.

On the subject of Poonjah Poovashee the Board observe that a sum of Rupees 45 - 8 - 10 was brought to account in the Canvery paunk Talook in Fusly 1252 / 1842-43 of which some explanation should have been given. This occurred in certain Villages transferred from the District of Chingleput in Fusly 1244 / 1834/35. It appears that in Chingleput Poonjah Poovashy is demanded under the following rules, a 2d Crop raised on Poonjah land by means of the falling rains, is assessed at ½ the Poonjah Teerwah.-

If no Poonjah Produce is grown, but Raggy &c. cultivated under private Wells the Nunjah Teerwah is demanded after deducting the Poonjah Teerwah; but if a Poonjah Crop has been reaped one half of the Nunjah Teerwah is taken.-

The foregoing rule also applies to Poonjah land sown with Garden Produce. The number of Villages transferred to this District was ten. Since the date of

this District the Chingleput practice was laid aside and Poonjah Poovashy has been assessed at ½ the Poonjah Teerwah and Poonjah land cultivated as Totacal pays the Totacal Teerwah. If the Chingleput practice was to be deviated from, the practice of North Arcot, (which made no demand for Poonjah Poovashee except to make good as far as it would go, the assessment of Putent Poonjah left waste and which also is now given up) ought to have been followed. In Fusly 1253 / 1843-44 orders were given to recur to the Chingleput practice. This again was unnecessary. The Ryots complained against this and request that the practice since the date of transfer may be followed. Out of the 10 Villages which were transferred in 2 Viz. Colampauknum and Coopum, Poonjah Poovashy almost entirely occurs. The aggregate amount is small. In Fusly 1253 / 1843-44 it is about Rupees 175 fixed according to the Chingleput rates. I beg to recommend that the demand for Fusly 1253 / 1843-44 be fixed according to the practice observed since the date of transfer and that from Fusly 1254 / 1844-45 the demand be altogether given up, as in the other Villages of the District.-

Poonjah.

39. Ponjah Poorashy may be Cultivated

the Board apprehend to the injury of the Ponjah Cultivation. They trust that due care has been taken not to extend the indulgence to Ryots leaving Ponjah to Cultivate additional Produce under their private wells: Ponjah Poorashy is derived either from the favorable circumstances of the season or from private wells. In the former case it is entirely contingent on the season and as it cannot be anticipated it is not likely that a contraction of the Ponjah Farm will recur. In the latter case the additional Produce is obtained at some expense and labor, and calls for every encouragement affording the means of irrigation in bad seasons - If a portion of the Ponjah Farm is left, it will be with the view of concentrating labor and Capital on the remaining portion - Generally speaking however the Poorashy is something additional which the Ryot seeks in order to Augment his resources for the year, to enable him to meet with more ease the demands upon him for the whole Patent or Farm. The subject as noticed by the Board calls for attention

and the state of the Ponjah Cultivation will be watched with reference to the rule which gives to the Ryot all Ponjah Poorashy.

Para 5 It is also remarked by the Board that the Cultivation under the Caverypauk Tank has not reached the Amount it stood at previous to the ecstensive Repairs made in Fuslies 1247/1837-38 and 1248/1838-39. This large reservoir the Board observe "should render the landowner it independent of the partial drought of any single year." The Revenue in Fusly 1244/1834-35 before the Repairs took place was Rupees 46,973. 12. 2. In Fusly 1253/1843-44 the Revenue amounted to Rupees 44473- 14- 2. being a difference of Rupees 2,499- 14 against the latter Fusly. The difference occurs in small portions in most of the Villages under the irrigation of this Tank, and arises from various causes, as lands situated at a distance from the Tank and imperfectly irrigated, Poverty of Ryots, high Assessment of some lands which, with the present low Prices of Produce will not yield a remunerative return also a small extent of land here and there assessed at about Rupees 152- in the aggregate was taken

taken for the High Western Road. To these is to be added the deficiency arising from a second Crop not having been cultivated in certain instances as well as certain land which is unproductive except with seasonable rain.-

61- The remission of the assessment on one Crop in certain Lands in the Trivellum Talook is alluded to by the Board in Para 8 of their Proceedings above noticed. The amount remitted is for the second or reduced assessment. The lands in question are peculiarly situated. They are assessed as 2 Crop land under Wells which according to the terms of the Cultivation Wurkoonmanah, are liable to pay the whole assessment whether cultivated with 2 Crops or otherwise. It sometimes happens as in Fasly 1252 (1842-43) and again it has occurred in the Current Fasly 1254 (1844-45) that the Wells are dry when irrigation is needed for a first Crop. The Ryot must either pay the whole assessment which he is unable to do or leave the land uncultivated. He is unwilling to follow the latter alternative as his subsistence depends

upon the land but he is compelled to do so unless the Government meet the case by a relaxation of the rule as laid down in the Wurkoonmanah. The rule presupposes that water is always ready in the Wells for 2 Crops. This however is not always the case and as the assessment was not regulated with reference to the probability of an occasional failure of Water, an exception to the rule has become necessary.

Para 1- 62- On the subject of 2 Crops the Board observe that "in the Native accounts "for the Vellore Talook the assessment of the "wet lands has been distinguished as pertaining "to the first and second Crop for many years past "and they are desirous of being informed how "this peculiarity arose and whether there is "any difficulty in acting upon it." The 2 Crops are not separated in the accounts, but the wet lands of the Vellore Talook being entered under the head of 2 Crop land and 1 Crop land, the Board have been led to infer that the 1st and 2d Crops are separated as in the other Talooks North of the Jon Palaur; but this is not the case.

In Fasly 1213 / 1803/4 it appears as regards the Vellore Talook that land of the 1st and 2nd sorts under large Tanks and under River channels were classed as 2 Crop land, but the Assessment of each Crop was not specified. Also land of the 3d and 4th sorts under the same irrigation and land under imperfect irrigation as small Tanks, was classed as 1 Crop land. Since Fasly 1232 / 1822-23 the Form of account received from the Board shews the extent and assessment of both One and two Crop lands and as a distinction between one Crop & 2 Crop land as above explained was made in Fasly 12 13 / 1803/4 in the Vellore Talook, the same has been followed in the accounts sent to the Board. As no separation of Assessment Shewing the Assessment of the 1st and 2nd Crops respectively took place at the time and as the assessment itself is not possible it is not practicable to introduce the practice called Rhoganee and Bogazady without a revision of

In Para 10 of the Proceedings
63. of the Board of Revenue, the Board advert further to the subject of collecting the Ryots at the time of the Immahbundy and express their opinion that a certain "number only of Ryots from each Talook "should be sent for to the Collector's "Immabundy Cutcherry to be present when "the Settlement is finally fixed by the "Collector and the Hoozoor Cutcherry to "hear the various items read over and "discussed and to have all disputed "points arranged with their Concurrence."

The practice of the District in this respect appears to be much in accordance with the opinion of the Board here expressed. In my report on the Jumabundy for Fasly 1254 / 1844/52 the method pursued was mentioned. The Mongars and Curnums are collected for the preparation of the Accounts; when the accounts are ready the whole body of the Ryots are assembled, their Accounts are explained to them and the signature of each individual is obtained to his Moochilkah.

Para 39.

The Moochilka shews the total extent of Dry, Wet and Garden with the total Assessment thereon. The Puttah is more in detail shewing each field with the Assessment thereon according to the Jamabundy Chittah.

The

Puttah contains all the details it is not considered necessary that these should be recapitulated in the Moochulka - This saves much trouble - The Puttah however the document given to the Ryot contains every particular -

The Puttah is the counterpart of the Moochulkah - each individual has thus full opportunity of knowing what the demand is against him - They know this very well before hand and hence those who have objections to make come without being called at the time the accounts are under preparation through the Amuns and Mongars - The whole body when assembled are detained from 1 to 3 days only unless in some particular Cases - The Board are aware that the Jamabundy is a matter of account only - The rent of each field is already fixed and the Assessment is demanded under fixed rules as promulgated in the Yeckumnamah - The main point to look to is that the account of each individual should be fully explained to him, when the whole Body are assembled, and that the Collector or Her Revenue Authority

should be present to see this attended to -

44. Mr. Shubrick's report on the Settlement of the Talooks of the Sub Division is herewith submitted, the attention paid by that Gentleman in the discharge of the Public Duties will be apparent to the Board -

45. Mr. Binning the Head Assistant has charge of the Penmurry and Tripatty Talooks in lieu of Sutwaid - He has also the charge of the Police of these Talooks with that of several other Talooks - His discharge of public Duty is characterized by ability and Zeal -

46. The Head Sheristadar Soobarow maintains the testimonials borne in his favor in former Reports -

North Arcot. - - -
Collectors Cutcherry, -
Chittoor, - - -
9th December, 1814. -

Signed J. Goldingham
Collector -
General

December 1844.

Total 16th December 1844- E.E. Excepted/ Signed/ J. Goldingham

Collector.

Fort St. George 16th December 1844

No. 9.

To,

J. Goldingham Esqre

Collector of North Arcot.

Sir,

Para 1.

I have the honor to explain the particulars of the Land Revenue Settlement of the Talooks under my charge for the late Fusly 1253 (1843/44) and to furnish you with the requisite accounts as noted in the Margin.

I Comparison of Cultivation between Fushes 1252 (1842/43) and 1253 (1843/44) .....
II Do. of Revenue and of Remissions between Do. Do. .....
III Do. of the Malayalam Villages
IV Do. of Moturpha .....

2.

I conducted the Summabundy on the plan of last year, commencing with the Poloor Talook in February, and concluding at Arcot in July. The Puttahs, amounting altogether to 300 were nearly all distributed in my own presence, a few were left for delivery with the Tahsildars, and the number refused amount only to 112.

3.

Though superior to Fusly 1252 (1842/43) the season has not been more than an ordinary one. The rains which fell very favourably at its commencement and led to a considerable quantity of land being taken up, by diminishing in August and failing in September, put an almost immediate stop to the labours of the field

Fort St. George 16th December 1844.

field and in October were in such quantity as to induce the Ryots to discontinue their Dry, and devote themselves entirely to their wet cultivation. Though the entire fall was very abundant it generally occurred at unseasonable periods, and in December was the cause of considerable loss to the standing crops, as well as to several Tanks which burst.

4. In regard to health the season was very sickly. Sporadic cases of cholera occurred frequently, until the disease broke out in an epidemic form in Wundavash and its immediate neighbourhood during the very rainy and boisterous weather in the early part of December. Sparing a few places here and there its ravages extended over most of the Villages in the sub Division and prevailed with greatest violence in the Towns of Poloor and Arcot, where numbers of the Inhabitants were carried off. In the former town so great was the dread occasioned by this afflicting visitation, that the Inhabitants were afraid of venturing out of their houses, and all business was interrupted by the closing of the shops for nearly a week. In the latter though the same extent of alarm was not perceptibly shown, the Disease lingered for a longer period

period and has but lately left it.--

5. Enclosure No. I is a comparative Statement of the cultivation in Fuslies 1252 and 1853 (1842/43 / 1843/44) agreeably to the classification of crops. The Cuddalore or Dry white Crops (or these grains which ripen in the ear) shew an Increase of Rupees 11,692-15-7- and a decrease of Rupees 625-3-11. The decrease was all in Poloor. The Cayee or Dry Green crops (or those which ripen in the pod) shew an increase of Rupees 6380-4-4 without a decrease in any one Talook. and the separate Item of Indigo shews and Increase of Rupees 396-10-4 and a decrease of Rupees 1062-3-7. The increase being in arcot and Poloor and the Decrease in Trivatoor and Wundiwash. The Total amount of Dry cultivation was cawnies 44494 66/84 and Seerwah Rupees 123349-3-4 against Cawnies 37,335 12/84 and Seerwah 103,616-12-7- of the preceding year, making a net increase of Cawnies 7159 44/84 and Seerwah Rupees 19732-6-9 in favour of the present Fusly.--

6. The Crops were scanty, the want of rain in August and September hindered the proper growth of the plants and those that had not been cut which were chiefly Cayee or Green were considerably injured by the excessive

rains of December. The returns on the whole may be said to have been about half their proper quantity.--

7- The Principal wet crops are the Kar and the Sumbah. The former shews an Increase in each Talook amounting in all to Rupees 66,111-6-7 and the latter an Increase of Rupees 5863-9-6 and a decrease of Rupees 31582-10-10. The Increase is all in Wundivash & is more apparent than real, being chiefly caused by comparison with the great diminution of the previous year. The outturn was rather better than that derived from the dry lands.--

8- The Navaray was a full Crop and shews an Increase of Rupees 7527-14-3 and a Decrease of Rupees 8446-14-5. The increase was in Poloor and Wundivash and the decrease in arcot and Trivatoor. The Increase was caused by the Ryots bringing fresh lands under the plough, in consequence of their Kar crop having been proportionably small, and the Decrease to the Lands cultivated with Kar in arcot and Trivatoor having been cleared of their crops and reploughed, and prepared for sowing when the rains fell in December.--

9- In Madungal there was an increase of Rupees 803-10-6 in Trivatoor and Poloor, and a Decrease of Rupees 451-13-8 in arcot and Wundawash. In Plantains the increase was

Rupees

17792

Fort St. George 16th December 1844.

Rupees 340-8-8 and the disame Rupees 58-1-2 and
on Betel Gardens Rupees 19-14-0 and Rupees 198-
5-7 Assessed thereby.

10.

The cultivation of Sugar has increased
by Rupees 1160-11-9 this description of cultivation
is carried on chiefly in the Kistnah District
more particularly about Condavedu and
Consederable profit to the Ryot engaged in it.
The exportation of Sugar from the Madras Presidency
Shipment to England amounted during the Fasly
Almanac 1200 1/4 which at 1 1/4 Rupee per Candy
may be valued at Rupees 1500 of Canies 3977 4/16
12.

The extent of Land

Land

Fort St. George 16th December 1844.

14.

Land to the extent of
Cawnies 809 24/64 assessed at Rupees 5,609-13-
was ploughed and left unsown (Chicken Pox
die) being less than in Fusly 1252/1842-43 by cawn
366 24/64 and Rupees 1439-6-6. The total quan
-ity of Land of all sorts taken up for cult
-vation was Cawnies 84329 24/64 bearing with
the Item of Fussal Fausly an assessment
of Rupees 5,65,007-4-10 being a net Increa
over the previous Fusly of Cawnies 10351 40/64 and
assessment Rupees 59,887-4-
15.

The Ryots have suffered
considerably by the falling in the price of
grain. The Diminution in arrest has been
the rate of Rupees 8-3-4 per Garce, In
Privatoor Rupees 7-0-8; In Poloor Rupee
6-0-2 In Wundiwash Rupees 4-11-10.
The average fall has been 26 per cent
below the commutation rate. In Poloor
from December to the end of the year
it amounted to as much as 40 per cent
The following Statement exhibits the
average Prices realized for Kar and Sumbah
in the Cusbah Towns.--

Ops.

17796

Fort St. George 16th December 1814.

Sir,

I have the honor to transmit herewith a Statement of the sum of Pagodas 320,364-12-8 Leaded and Land Revenue Rupees 819849-7-2 one derived from the Cultivation of Circar Land, Rupees 1540-10-3 from different Items affected as remitted at certain fields Payments on Leady Money Rupees 772-8- - - -

17799

Fort St. George 16th December 1844.

It will be observed that in the previous Fusly $\frac{1252}{1842/43}$ the Revenue derivable from Cowle lands amounted to Rupees 114-14-6 and that in the present Fusly $\frac{1253}{1843/43}$ the privilege of Cowle has ceased on lands paying a full assessment of Rupees 12-13-8 leaving a Balance of Cowle Seerwah Rupees 102-2-10 on the lands previously Cultivated, to be gradually raised to full assessment. The exctra Demand for the present Fusly on this Balance was Rupees 195-5-- making a Total of Rupees 297-5-10 demandable on the lands under Cowle--

The Statement further shews

19.

that Cawnies 55 3/4 assessed at Rupees 193-4-2 (the whole of which being the first year of Cultivation was remitted) were newly brought under Cowle during the Fusly. Cawnies 10 56/64 assessed at Rupees 28-8-8 lie in Mundivash and Cawnies 44-22 assessed at Rupees 184-11-6 in Poloor. The Cawnies in Mundivash form part of a Cowle-

Notes

Fort St. George 16th December 1814.

Cowle granted by Mr. Bourdillon in Fusly 1250 (1840/41) which from various Causes the Cowledars have been unable fully to act up to among others their insufficiency in numbers and means with reference to the quantity of the Land, and from being Roman Catholics the umbrage they have given to the other Inhabitants of the Village by their intrusion into it. So great was the dislike they created that after opposing them in every possible way the Villagers endeavored to get rid of them altogether by purchasing them out. They succeeded without difficulty with a few who took their departure in the early part of the year, and the others who held out and remained till the Summabundy are now also reported to have absconded. Before their departure they represented their inability to bring their lands under cultivation on the terms they had agreed upon and requested that the privileges of their Cowle should be calculated on the lands brought to account in the previous year, and those newly Cultivated in the present year, and that such lands as had not been brought to account and remained uncultivated should be struck out. This was acceded to, and the following Statement shews the particulars of the arrangement.

Fort St. George 16th December 1814.

In Taloke Wundiwashum		Cawnies	Seerwah	Remission assessment
		Cawn at	Rupees a P	Rupees a P	Rupees a P

Fort St. George.

(26)

From the Coll.r of Trichinopoly. 1.

Sir,

In reply to the Extract from the Board's Proceedings dated 11th. Instno. I have the honor to state for the information of the Board, that the Jemiah alluded to in my letter of the 6th. Instant is as stated by Mr. Lushington, "a service Jemiah" and Mr. Blair also stated it to be so in the list No. 2 submitted by him with his letter of 11th. February 1837. but in the column of remarks of that list it was stated by him to be "for life" according to the instructions contained in the 17th. Para of the Board's letter of the 7th. September 1844. which prescribe "That no "succession to any pension should be allowed "without the express authority of Government and "that whenever lapses occur they should not "be filled up until such authority be obtained "upon special reference for that purpose" This Jemiah is

Forwarding a translation of the Original Sunnud alluded to in the Extract from the Board's Proceedings dated 11th Novemr. 1844.-

Fort St. George 16th. December 1844.-

Jemiah appears from the original Purwanah granted by the late Nabob Mahomed Ghouse Cawn, and a Sawal Dusturee from Nabob Wallajah, to have been granted in remuneration for the service of Kateebs and Desh emaun in the Jamia Mosque which is situated within the Palace of the Nabob in the Fort of Trichinopoly and was subsequently continued under the orders of the Board, in their letter dated 15th. April 1822 to two Individuals named Syed Sellamon and Syed Tippoo, the latter a person having died on the 25th. December last his two Sons are now performing their father's duty in that Mosque and the Continuance of the Jemiah is I think proper.-

2- A translation of the original Sunnud is herewith submitted.-

To the Public Servants at Trichinopoly

In remuneration of the service of Sateel and Emoluments performed in the Sumah Mosque within the Fort by Syed Abdool Samad a daily allowance of Six annas has been granted, that allowance should be given him every day from the Sayer collections. He should enjoy that allowance and continue to pray God for the prosperity of our Government

According to the above order it should be continued.

Sawal Duskatta to Nobob Wallajah.

Six annas, and an increase of 2 annas total 8 annas, has been ordered to be paid daily from the Sayer Collection to Syed Abdool Samad. Reference of Samah Mosque what is your order on the subject.

Nabobs

Voucher No. 2.
