At a Meeting Present

and
S. Goldingham Esqr. Acting Third Member

Minutes of the last meeting read and approved.

Read again Extract from the Minutes of Consultation dated 13th ultimo and entered in Consultation 14th Instant.

Ordered that the following letter be sent in consequence.

To

The Collector of

Masulipatam.

Sir

1

To the Collr. of Masulipatam — Forwarding with reference to his letter of the 7th February last on the subject of the Davencottah Zemindary a correspondence with Govt. and requesting him to state whether there are any other cases in which items of land revenue included

With reference to your letter of 7th February 1845 on the subject of the Davencottah Zemindary in your District, I am directed by the Board of Revenue to forward for your information the accompanying correspondence as noted in the Margin.

Extract Minutes of Cons. 2d January — 1845
Do. Cons. 2d April — "
Govt. to Govt. 11th April — "
Extract Minute of Cons. 11th July — "
Do. Cons. 11th Augt. — "

2 — From this you will perceive that the Supreme Government in the letter of their Officiating Secretary of 5th October 1844 have determined that the compensation to be granted to the Davencottah Proprietor for the discon-

tinuance

included among the apets upon which the permanent settlement of an estate was calculated has been discontinued by the officers of Government, and in which compensation has been granted in consequence.

Fort St. George 12th August 1845.

tinuance by the Collector in Fusly 1230 of the Desmook Rupoom and Durbary Kurchaloo should be calculated not as recommended by the Board and Government upon the proportion (2/3rds) of that item of the Zemindar's apsets included in his Peishcush but upon the entire value of that source of his revenue less 10 per Cent on being the estimated cost of collecting it. The annual compensation to be made to the Zemindar will thus be raised from 12,696 Rupees to Rupees 17140.

3. You will further perceive from the letter from this office to the Chief Secretary of the 14th April last that the Board fully concurring with you in opinion as to the impracticability of the Zemindar ever again realizing the Durbary Kurch referred to, and considering that the compensation to which he must be entitled for the future in consequence of the virtual abolition of this source of his Revenue by the act of a Government Officer must be calculated upon the same principle as that already granted for past years by the Supreme Government, have recommended that a permanent reduction be made in his Peishcush equal to the entire Net value of the Durbary Kurch or 17140. thus lowering the Public Demand upon the Davercottah Zemindary to 85550 per Annum. In their remarks upon this proposal in Extract Minutes of Consultation 11th July 1845 in Cons. 8th Augt the Government have expressed their apprehension that if this decision be applied to all other Zemindaries where the collection of items included in their apsets have been

Fort St. George 18th August 1845.

"been abandoned or prohibited" (that is as the Board understand under the act of the Government Officers)" and a readjustment of Remission "made on the same principle, serious loss to "Government will be the consequence." The Government have therefore called for a Special report of "the cases in which Remissions have been adjusted "on a different principle to that laid down by the "Supreme Government, and the amount that will "be payable on a readjustment on the new principle".

4. In order to enable the Board to comply with this Requisition, they direct me to request that you will inform them whether there are any other cases in your District analogous to that of Davercottah, in which items of land Revenue included among the apsets upon which the permanent settlement of an estate was calculated have been discontinued by the officers of Government, under such circumstances, as to render their revival impracticable on the part of the Zemindar, and in which compensation has been granted to the Proprietor in consequence, in what manner the compensation has been calculated, and what amount will be payable in the event of a readjustment being made on the principle laid down by the Supreme Government in the instance of Davercottah.

Should

Fort St. George 18th August 1845.

should there be any cases of the above discription in which no compensation has hitherto been granted. You will further be pleased to state what will be the result in the event of compensation being now made to the Proprietor upon the principle above referred to.

5. You will observe that the information called for in the foregoing Para has reference to items of land Revenue only and not to the Motuphas or other extra Sources specially reserved to Government under Section IV Regulation XXV 1802.

2. The large decrease in Salt is accounted for by the overstocked state of the inland Markets, and by the panic which act VI of 1844 created amongst the dealers.

Para 6-7. 3. The additional information called for by the Board regarding the enhanced price in excess of Rupees 130 per Garce, at which Salt was sold at the different Golahs in the district will be furnished to Government on receipt

of the same from the Collector.

4. The charges under this head exceeded those in the previous year by Rupees 2357. "—which was almost entirely owing to the increased price at which it was necessary to purchase Salt from Bombay. The net revenue after deducting the charges was Rupees 210826—"—" exhibiting a decrease of Rupees 31,659—"—" compared with Fasly 1252.—

5. The revenue from Tobacco was lower than in the preceding year by Rupees 6104—" and the charges were likewise less by Rupees 9882—" in consequence of the reduced price at which the article was purchased and therefore when comparing the net revenue of the two years there is an increase of Rupees 3763—"—" in favor of the one now reported upon.—

6. The decrease in Sayer was occasioned by the operation of act VI of 1844, and the large falling off in the Sea Custom Collections was partly the consequence of the same act which reduced the duty on Pepper, Cardamoms, Sandal wood &c. and of the badness of the Foreign Markets.—

7. The falling off of Rupees 10,479 in abkary is owing to the Neilgherries having again reverted to Coimbatoor and therefore is not a real, but a nominal decrease. The abkary Revenue in the other parts of the Collectorate exceeded

exceeded the settlement of the preceding year by Rupees 2854—"—". and of the demand under this head amounting to Rupees 62,663 there was a balance only of Rupees 173—"—" outstanding on the date of the Collectors report.—

8. The decrease of Rupees 2673 in the Gross Collection under the head of Stamps, was chiefly owing to the less demand for Law papers, but the charges having likewise diminished the net falling off was only Rupees 4 and a fraction.—

9. In the Moturpha revenue there was an increase of Rupees 3152, and of the demand amounting to Rupees 116066 there was an uncollected balance of Rupees —"—8 on the 15th February 1845.—

10. Of the old outstanding balance amounting to Rupees 1448-2-9, the Most Noble the Governor in Council grants permission for writing off Rs. 171-4-10 as irrecoverable, and desires that those under the head of recoverable, and doubtful may receive the early attention of the Collector with the view of their speedy adjustment.—

11. His Lordship in council observes in the 4th Para of the Collectors Report, that the charges under the head of Salt were considerably increased, in consequence of the

average

average rate of purchase having been raised from Rupees 31 – 1 – 7 2/100 to Rupees 35 – 11 – 9 2/100 per Garce, making a difference of Rupees 4 – 10 – 0 on each Garce and in some cases it appears to have been as high as Rupees 47½ a Garce, and this was necessary to secure a supply for the District.

12. Malabar it would appear produces no Salt for the consumption of the Province but draws its supply from Bombay, whilst Canara the adjoining District, relies in a great measure on its own resources, and could in good seasons manufacture more than it requires.

13. The subject of supplying Malabar with Salt from Canara has the Lordships in Council is aware, been frequently agitated, and as it is one of considerable importance to both Provinces and to the Revenues of the Country, he requests the Board of Revenue will furnish a concise report on what has already passed, and after communicating with the local Officers, submit their opinion on the desirableness or otherwise of discontinuing the present arrangement, and drawing a portion of the quantity required for the provinces from Canara or from our other districts.

From the Actg Collector of Ganjam —

Sir,

Stating in reply of 16th Instant that Narsapatam Sugar Factory has not caused any increased cultivation of cane and reporting full explanation will follow immediately thereafter

In reply to your letter of the 14th Instant received this day, I have the honor to state that Sugar cane has long been extensively cultivated in this District principally in the Zemindaries in the Northwest tracts — It is however impossible to give the extent of land occupied therewith because the Estates are held by the owners. Up to this time the Sugar Refinery established at Ashta has had no effect upon the cultivation; because it has never yet been in working order. But large Purchases of Jaggery have been made during the past season to be refined into Sugar for this work, and for other factories established in Vizagapatam. These purchases I should say exceed two Lacs of Rupees and this demands of contract will doubtless lead to extended cultivation and increased production.

Porter

Fort St. George 18th August 1845

Jurisdiction expelled and in a position to judge I am informed me that the cultivation might be increased at least one third — and having given the matter some attention, being greatly inclined to encourage my assistant collectorship and to turn Sugar Boiler myself, I have no reason to doubt the fact —

2 The factory at Cuba not being in working order the Sugar heretofore exported has been principally of Native manufacture, the production of which is necessarily limited —

3 Land fitted for cane cultivation must have a supply of water throughout the year It must be dry situated above the reach of floods, and low Rice lands therefore will not answer for Sugar canes — Admit all the cane cultivation in Ganjam is upon the Banks of the Rivers and Streams which here intersect the land — The water is obtained by manual labour raised by Baskets of very early primitive construction The land on which sugar is grown pays no enhanced tax only the ordinary money assessment of dry land — As to respect the Zemindars as land Lords greatly exceed the Government in liberality —

4 The cultivation of Cane is very much as in Java but as the cane is two months before coming to maturity, the safe season for

Fort St. George 18th August 1845

considerable capital is requisite, and much labour and industry must be expended upon the crop — at harvest time the Ryot erects a cane mill on the corner of his field, with a small boiling house and furnace adjoining — Here he expresses the juice of the cane and manufactures it into Jaggery — I have myself often witnessed the process —

5 Jaggery is of two sorts tempered and untempered — Jaggery tempered with lime is a dirty Raw Sugar full of Molasses. To turn it into Sugar fit for the English market, it must be drained, reboiled, and the scum removed by a skilful process — and afterwards cured, dried and packed in Bags

6 Native Boilers do this in a small way and produce very excellent Sugar. The European works established here are intended to do the same only on a great scale

7 The Ryot sells his coarse Jaggery to the Boiler and to the European merchant. Prices have constantly advanced both for the Raw and the Manufactured article of late years, and they will still further advance —

8 And now Sir, I believe I have answered all the Board's questions and told them nearly all I can about the Sugar trade —

Sir,

Para 1 I have the honor to acknowledge the receipt of your letter of the 15th July desiring that with reference to Mr. Anstruther's letter of the 21st November last, I will report what further progress has been made in the Survey of Ganjam, and submitting my opinion on the matters therein connected -

2 No further progress whatever has been made in the Survey. The Board of Revenue announced their approval that the progress of the work had been suspended. Mr. Anstruther in reply to that communication under date the 3rd November stated his opinion that the whole work would be useless by reason of the inaccuracy of the measurement - with that letter unanswered up to the date of your communication under reply, I could hardly be expected that I should proceed to give effect to a work that might be wholly condemned -

3 I am requested to give my opinion of the quality of the work. I believe the Measurements are as correct as those of any other Revenue survey in the Madras Territories, made with chain and other imperfect instruments. Both Inspectors and Shroffs have in the hands of Mr. Ingram

10100 Fort St. George 18th August 1845

and Assistants now on uneven surfaces of Hill and dale, the superficial extent of the land would doubtless be ascertained with much more minute and perfect accuracy - Even on the most level sands - Chains will twist and the Measurements of fields will never, if twice made exactly correspond. But this minute accuracy is not wanted -

4 The Measurement in Ganjam has been made exactly as in other districts of the Madras Presidency - Some land Surveyors from Bellary having been present in Ganjam lately, who had been employed in Kurnool - I set them to measure two Villages from curiosity. Their Measurements corresponded within one or two per cent on the entire Village with the accounts of the Survey furnished to this office. I see no reason, therefore, to consider with Mr. Anstruther that the whole work must be done over again - On my arrival in November last, of course, I cancelled that Gentleman's order for the poles and other expensive instruments -

5 The Board ask whether in my judgment the survey is likely to be practically useful or otherwise. I am one of those who think that all Revenue Surveys with an apportionment of money assessment fixed upon each field & the land to be left waste if not taken up by the Ryots & the survey rates and the Ryots to be collected by a Peon & his staff direct from each Ryot are likely to cause loss of Revenue to Government and dissatisfaction to their Authors and Ryotgans. The system I consider generally

defective

10101 Fort St. George 18th August 1845

defective, and one which if I were a Landlord I would
never myself adopt nor permit to be introduced on my
Estate, but I look upon it that it will prove more particularly
hurtful in the Northern Circars, where the People
greatly dislike it, are unaccustomed to it, and where no
Village Establishments exist to aid the Officers of Government
in order to carry out in detail its practical working. Those
who regard the ryotwar Settlement System under a
Survey as approaching to perfection, as a method of raising the
land tax with its fixed Rules of throwing up good
and bad soils together, & like united to a Cowle
and fitted at once to secure the dues of the State
and to promote the welfare and prosperity of the Ryots
are laboring in my humble mind under an awful delusion

6 But on the other hand excellent Settlements
may be made annually on Villages and collected by
if the Officer in charge knows his duty, the Ryots apportion
their own shares of the Settlement on themselves with
fairness and with infinitely more satisfaction than
can be it for them. In the season just concluded
Settlements on three very Extensive Talooks of Ganjam
have made by myself in this manner, and the Collection
altho the season was very unfavourable are by far the
have been for many years past and there are no Arrears of
Revenue and there were no Complaints —

From the Acting Agent to the Governor in Ganjam } Sir

I have the honor to forward a Copy of a letter from the Acting Principal Assistant Agent dated 29th Ultimo, together with the original Indent for two Regimental Tents required for the use of the Selundy Corps, supported by the proceedings of a Committee on the two Tents now in use, which accompanied the same communication —

The tents now in use were supplied under the Authority of Government in an Extract from the Minutes of Consultation dated 22d January 1839, and are now, it is observed, entirely unserviceable —

I therefore request the Board of Revenue will have the goodness to order the Indent now submitted to be laid before the Government for sanction —

Fo

10110 Fort St. George 18th August 1845

Season 3 The season of Jusly 1253 as 1843/44 might be expected varied in different parts of the District In Vinnacottah and Goodewadeh the showers which fell in the months of July and August, the most important period of the cultivating season were but partial, by reason of which the cultivation of both dry and wet lands was obstructed. The evil was moreover aggravated by the unexpected rise of the Godavery which inundated these Estates as well as the lands in its immediate vicinity and particularly injured Goodewadah which is situated in the neighbourhood of Colair dependant on that large river for its supply. The consequence of this was that serious damage was sustained by nearly the whole crops raised for transplantation and the season was then so far advanced that any further attempt to purpose a crop for that purpose appeared hopeless. In some dry places however the surviving crop was made available for transplantation, but the rate of produce fell below that of the preceding Jusly owing to the late period at which this was done.

4, In Ellore and Cuvelly the season was particularly favorable for wet lands from the setting in of periodical rains in July and August, and the supply received by tanks from

10109 Fort St. George 18th August 1845

Statement of Jusly Crop

Collectorate of Ellore

| | | |

from the Sommelair. The cultivation of dry lands was very contracted from the same cause.

5. In Daurecottah the rain which fell in July, August, and September, was only sufficient for the cultivation and rearing of the black paddy crop, but the cultivation of wet crop was obstructed in consequence of the tanks not having received any supply of water from the sources of irrigation on which they are dependent or from copious falls of rain during the period. Heavy rains fell in October, but these only obstructed the growth of Jonna, the principal Dry crop in the Estate by which the produce became scanty.

6. In Chanoobundah the extent of Cultivation, and the quantity of produce of wet lands exhibit a decrease, while in the cultivation of dry lands there was an increase but the return was inadequate the cause of which is to be traced to the very moderate falls of rain.

7. In Innagadapah also, the revenue from wet lands does not exhibit any improvement from a scarcity of rains and tho' the extent of cultivation on dry lands exceeds that of Fasly 1252, the return 1842/43 is in the case of Chanoobundah was scanty.

8. The Colair Lake on which the Estates

Estates of Kykaloor and Bhoopatapatam are dependant for irrigation received abundant supply of water from the freshes of Godavery.

9. The cultivation of Sunnah and Dalwah Crop was carried on to a considerable extent and the result was equally favorable from the seasonable falls of rain.

10. In Toommedyand Chena Pondrace the cultivation of wet lands of which they are principally composed, as well as that of Dry lands was below that of Fasly 1252/53 owing to the overflow of Godavery by which they were inundated the returns from the former taken on the whole exhibit an increase from the subsequent favorable-ness of the season, in the latter however there was a falling off both in extent of cultivation and produce.

11. In Vatavadum there was an increase in the Dry and wet land produce consequent on the favorableness of season to both and owing to the sources of irrigation which this Estate professes.

12. The wet lands in Vasantawadah and Padapandoo Estates were productive from the favorableness of season and the supplies of water received by tanks in Ellore and Condily to which they are contiguous.

13. The revenue of the Village of Pamarrungeroo exhibits a slight improvement over

over that of fusly 1252 (1842/43) and that in Vundatlapolly has fallen off in consequence of the failure of rain which caused a decrease in the cultivation

14. In the Westcoar Estate situated in the frontier of the District the season was favorable owing to seasonable falls of rain and an increase of revenue was the result

15. Statement No 3. will shew the extent of cultivation, the quantity of produce and the value there of according to the Immemabundy prices in the several Estates comprehended in this report to which the Board are referred for detailed information

From April 1844, these Estates have been managed on account of and the net revenue credited to Government. Thus these Estates were managed for broken periods of fusly 1253 (1843/44.) partly on account of the Zemindar and partly on account of Government, and as a part of the collections of that year were received and carried to the credit of the Estate before the date of sale it has been deemed advisable to include this Estate in this report especially as the produce of the year had come to maturity by that period tho' from the circumstance of the Collections having been received after the Estates were purchased, it was found necessary to consider them as Government Collections and to credit them accordingly in the accounts.

18. It will be observed from the foregoing that in all the items of revenue under Aumany there was a decrease of Rupees 15941-14-6 but an increase of Rupees 1615-15-9 by the leaving out of certain Villages in the two Estates.

19. In these Estates 29 entire Villages consisting of both dry and wet lands were leased out, of which 19 were rented for fusly 1253 only as shewn in the margin, and the remaining 10 Villages for 5 years commencing with that year as reported to the Board under date 25th Ulto. the Peria for fusly 1253 the first year amounted to Rupees 10283-13-2.

20. The causes by which a deficiency in the revenue under Aumany had occurred were the unfavorableness of the season for the Cultivation of wet and dry lands and the damage done by the inundation of Godavery as already noticed in the effects of which caused a decrease both in the extent of Cultivation and the quantity of produce in fusly 1253 1163/4th on both Estates.

21. There was also a decrease in the Seroovaput and Garden lands of Rupees 1019-5-1 as also Rupees 1458-2-4 in the ready Money Collections the particulars of which will be found in Statement No. 3. The cause of this falling off is attributable in the former case to the lands of these Estates being inundated by which the cultivation of Poonaca Mockajonna, and Tobacco was obstructed and in the latter to the item of "Poatty Doogalums &c. being collected with reference to the quantity of produce, which in the fusly under report had fallen off from the causes already explained.

Abstract Summary Statement of Peramboor Division for Fasly 1253

| Estates | Name of Peramboor | | |

25 The increase in the wet lands above shewn is owing to the periodical rains having been favorable and to the improvements made to the sources of irrigation by which the extent of land brought under cultivation in Fusly 1253 exceeded that of the preceding year by 286 b. cultivation which gave an adequate return, the average rate of produce per cully being little less than 8 Candies it was about 5 p. Candies. This being converted into money at the average Summa Fusly prices raised the Demand to Rupees 1,587-10-9. It will be observed however from Statement No 3. that under the head of Dalwa produce, there was a decrease of Rupees 595-3-1. which is owing to the lands situated in the vicinity of Clair and in which these crops are sown at an advanced period of the season not being within the reach of irrigation from that taken from the position of those lands but this decrease was made up by the increase in the Sawa or white paddy as above shewn.

27. The demand on account of ready money collections in the Fusly under report amounted to Rupees 4,968 5 1. exceeding that of the preceding year by Rupees 2698-10-3, the cause of which is attributable to the large quantity of produce with reference to which they are collected.

28. The Settlement on all the above items in the two Estates amounted to Rupees 21294-7-a of which the sum of Rupees 19,271-7-11. was collected up to October 18th and Rupees 535-3-6 since up to May last, leaving a balance of Rupees 1,487-11-7. This balance is principally due on account of Nazur Cotay, Sadeerwaree &c. items with which the Ryots are charged and which they have failed to pay adverting a claim to a remission thereof a special report on the subject of these items was submitted to the Board under date 29th May last.

29. The Settlement compared with the Purchaseth

Fort St. George 18th August 1845

Peishcush exhibits a deficiency of Rupees 18089-7 which is mainly owing to the falling off in the produce and prices compared with the former years on the Collections of which the Peishcush was fixed.-

It will be seen that in the payments in Fusly 1253 1843/44, there was an increase of Rupees 12700- above those of the preceding Fusly. The realization of the arrear depends on the future improved resources of the Estates.

Dauercattah &c.

The Settlement of Dauercattah on the Villages under Aumany and under rent as shewn in the following Abstract amounts to Rupees 107400 1 4.-

32. It will be observed that the rent amount of Dry lands settled on a quinquennial lease including the Villages of Rogeredypully, Irayaroo, and Cattapully is Rupees 106850 15-4- The wet lands in these Villages as also the Dry Village of Ramanapettah and the two Agraharums of Irumpoody and Takoomully continued under-

under Aumany in Fusly 1253. 1843/44. the cultivation in these entirely failed and the revenue derived was only from dry lands which amounted to Rupees 569-2-4, inclusive of ready money collections and extra revenue shewing a decrease of Rupees 3451-9-3. below that of last year arising from the same cause.

33 Of the total amount of Settlement Viz. Rupees 187400-1-11, which exceeded the Peishcush by Rupees 4770-1-11, the sum of Rupees 90121-15-2. was collected up to October 1844, and Rupees 5353 6-7 since up to May last leaving a balance of Rupees 1924-11-7.

34. This as well as the arrear of Rupees 3675-6-6. which was outstanding at the date of my report dated 30th November last which has been reduced to Rupees 4328-9-1. is due principally from the Villages of Kaveraveelum, Mofseelary, Yarlagidda &c. the non realization &c. of it is owing to the unfavorableness of season of Fusly 1253. 1843/44. for Sunna.

35 An Abstract shewing the Demand Collection and Balance of Peishcush as given in the margin wherein shews that the Collections in Fusly 1253. 1843/44. on account of Current and arrears exceeded those of the preceiling year by Rupees 8663-12. The adjustment of the large arrear outstanding against this Estate must depend on the view taken by Government of the arrangements proposed in my letter dated 7th February last.

This Crop which in other Estates is settled on money rent on land termed the Teeruvaram put in which it is cultivated, is here settled on a diversion of produce. The prices of the several species of Crop fell likewise below those of fusly 1252, as enumerated in Statement No. 3.

39. Of the total demand of this Village amounting to Rupees 1,040-2-0, the sum of Rupees 761-14-0 was collected up to October 1844, and Rupees 88-12-5 since that date leaving a balance of Rupees 189-7-7, which is in course of collection.

40. The Settlement of this Village exceeded the Peishcush by Rupees 252-10-0. The Current Peishcush was paid in full, and there was no arrear due from it.

41. The Suit brought by Swapully Veera-valen under charge against the Collector and L. Rajagopaul has been decided in favor of the Collector by the Sudr Court. Copy of their Decree will be hereafter submitted to the Board, when their orders will be solicited as to the future disposal of

Estate

Fort St. George 18th August 1815.

48. These Estates being situated in the vicinity of the Colair are mainly dependent on that reservoir for irrigation, and as in the year under report an abundant supply was received from the Godawary by the improvements made to the works of irrigation viz. the Assparowm Calwah and Wyaroo, and the season also was favorable, the Ryots were enabled to bring much land under cultivation with Sarwah and Dalwah Crop which gave an adequate return. The increase in the extent of Cultivation and quantity of produce compared with the preceding year is shewn in the Margin. It will be observed that in the Bhoojabalapatam Mootah there was a decrease of revenue from Sarwa produce of Rupees 2,483-1-6 owing to a superabundance of water which covered all the lands in this Estate so that cultivation could not be carried on till the season was too far advanced.

50. In the ready Money Collections there is an increase of Rupees 907-2-9 which is owing to the large quantity of produce with reference to which the items under this head are collected. Of the total demand amounting to Rupees 38191-10- the sum of Rupees 36964-13-3 was collected up to October 1814, and Rupees 436-6 since. There is a small balance of Rupees 790-10-3, which will be collected in the current fusly.

51. In these Estates the Settlement exceeds the Peishcush by Rupees 20786-5-7. The cause of this increase, as already observed, is not only attributable to the improved means of irrigation and the goodness of the season, but also to the indulgence which has been extended to the Ryots by a remission of a portion of the Cutlo tady on the Dalwa produce, and in the rate of charges which encouraged the ryots to use their best exertions to extend cultivation as already noticed in paras 37 to 42 of my report for fusly 1252 dated 30th November last. 1842-43.

52. The annexed Statement shews the Demand, Collection and Balance of Peishcush of the two Estates and it will be observed that not only

54. These Estates are situated in the neighbourhood of Masulipatanm and are composed of Sandy Soil depending on rain for irrigation. The season of fusly 1253 (1843/44) as already observed, was on the whole favorable for wet produce in these Estates the quality of which with the extent of land cultivated is shewn in the Margin. In the extent of wet cultivation there was a decrease but an increase in produce, whilst on the other hand in Dry land, there was a decrease below fusly (1842/43) in extent and produce.

64. The affairs of this Estate were so fully reported upon in my letter dated 19th April 1844 that a few remarks to the general result of the management. The Estate was let out on a decennial lease as already reported to the Board, but owing to the failure of the renter to fulfil his engagement it continued under management for fusly 1253 / 1843–44.

65. The actual Settlement under Amaney amounted to Rupees 3080–10–8, which is less by Rupees 1126–9–10 than that of the preceding year, and Rupees 889–5–4 below the rent Amount for the fusly under review.

66. The decrease of Rupees 1126–9–10 which occurred in the principal items composing the Settlement as shewn in the subjoined Statement was owing to the unfavourableness of the season

24 -mitting Statements of Contingent charges made up from 12th.e July to 31st.e December last.-

Proceedings thereon- The Board observe that the
24-25 Statements which accompany the foregoing letter contain items of Sadarwaud and other charges closed to the 31st.e December 1844.- which were before usually submitted for Sanction at the end of the Fasly year.- By their Circular dated 14th.e November 1844 it was not intended that any change should be made in the mode of submitting the above charges for Sanction.- That circular has reference only to Statements of Contingent charges incurred under 20 Rupees each, which instead of being prepared as before with reference to each Quarter of the Fasly was directed to be furnished for each Quarter of the Calendar year.- The Board request that this may be done and that at the close of the Calendar year a Statement of the Contingent charges Sanctioned by them Quarterly may be furnished.-

The Statements received with the above letter not being required are herewith returned.-

From Gov.t 19th
Inl.s 28th April 1845

Sir,

With reference to Extract Minutes of Consultation 28th March 1845 I am directed by the Board of Revenue to request that you will submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Acting Collector of Chingleput / with its enclosure / reporting that a French subject is about to be placed upon his trial before the Cour Royale at Pondicherry as a party to the forging of a will alleged to have been executed by Mahomed Fakeer late Jaghiredar of Codumbakum in the Chingleput District, but that as the parties interested in the will are British subjects, and the landed property of the deceased is situated within the Company's Territories His Excellency the Governor of the French settlements in India has intimated his readiness to make over the entire case for trial before the English Courts, should the Government wish this course to be adopted.-

6th Encls 14th Aug.t 1845

The Board quite concurs in the opinion given by Mr. Walby that for the reasons stated at large in Paras 6-7- of his letter it is not advisable to disturb the Proceedings now in progress before the French Tribunals, but upon this point they beg to be favored with the instruction of the Most Noble the Governor in Council.-

Para 1 Sir,

In returning the petition from Aufeezabdool Ghuffoor which accompanied your letter of the 21st Instant, I have the honor to state that it is true that Madar Bee has ceased to draw the portion of the pension in question which was allotted to her and that for the reason mentioned in my letter of the 10th June 1842 it would appear right that it should revert to the petitioner. I request that sanction may be granted accordingly - The arrears not drawn by Madar Bee amount to Rupees 24-8-- Viz. from the 1st December 1844 to the end of June last at Rupees 3 and annas 8 per mensem. -

Sir,

Para 1 I am directed by the Board of Revenue to request you will submit for the orders of the Most Noble the Governor in Council

Submitting a Letter from the Principal Collr of Madura forwarding therewith a Petition of the Durmacurtahs of the Sreerungum Evil praying to be allowed to repair the Drains of the Pagoda from the Surplus Funds in the hands of the Collr

Fort St. George 18th August 1845

in that District against himself and certain other parties complaining that the rent of Plaintiffs lands in the Jemindary of Ramnad has been raised and recommending that the Principal Collector may be permitted to file the defence proposed by him and to conduct it at the public charge.—

31st Aug. Judl. Cons. 14th Aug. 1845

Council the accompanying letter from the Principal Collector of Madura forwarding transcripts and translates of the Plaints in 6 Suits filed in the subordinate Court in that District against himself and certain other parties, as also the draft of an answer which he proposed to put in.—

2. The grounds of action in the whole of these 6 Suits are the same and admit of the same answer. The Plaintiffs state, that in Fusly 1244 they were compelled by the 4th Defendant the then Manager of the Ramnad Estate to pay 5 Fanams per koorcum in the place 4 which they had hitherto paid— that in Fusly 1245 "some ryots connected with them" complained separately to the 1st Defendant as Principal Collector of the District on the subject, by whom as they were referred to the Civil Court— they have therefore brought the present suit and have included the Principal Collector among the Defendants as being the Agent of the Court of Wards under whom the Ramnad Estate is now placed.—

3 In his proposed answer the Principal Collector states that the rent upon the Poonjah lands alluded to was originally paid in kind as fixed in Fusly 1211 but that in Fusly 1225 this case was, under an arrangement between the Principal Collector Mr. Ker / the Estate being at that time

Fort St. George 18th August 1845

time under management / and the Ryots converted into a Money tax at 4 Fanams per Koorcum. In Fusly 1244 when the Jemindary was under the Management of the 4th Defendant Vijaya Ragoonatha Mootoo chella Taver= =ant and some years previous to its being taken under the Court of Wards the Manager raised the Money rent to 5 Fanams in which rather than revert to the former System of payment in kind as they must otherwise have done, the Ryots acquiesced— among them were the Plaintiffs who, the Principal Collector states have continued for the last 19 years to receive the Money rent to the present time have made no complaint.—

4 From the accompanying letter from the Principal Collector dated 7th November 1839 and submitted to Government 20th February 1840 it will be seen that under the instigation of an intriguing Member of the Ramnad Family some complaints of the same nature as those contained in the present Plaints were at that time preferred to the Principal Collector and disposed of by him under Regulation V 1822. From the answer of the Principal Collector it would however appear that the Plaintiffs were not among those who presented complaints on the occasion referred to their Statement that some ryots connected with them com= =plained is probably a subterfuge.—

In Bd's 28th Nov. 1839

The

Fort St. George 18th August 1845

57 The Board consider the defence proposed to be filed by Mr. Blackburn to be satisfactory and recommend that he may be permitted to file it and to conduct the defence at the public charge They however propose to direct him in addition to the grounds of defence which he has already taken, to plead non-liability in as much as he had no share in the imposition of the new rate in Fusly 1244 the estate not being then under the Court of Wards nor was any complaint preferred to him by the Plaintiffs under Regulation V. 1822 and any action which may now be brought will therefore the Board conceive be not against him, but against the manager by whom the rate complained of was imposed or under Section XXIII Clause I Regulation V. 1804 against the guardian of the Minor Heirs.

From Pt. Coll. of Madura

Sir,

Para 1. In acknowledging receipt this day of the Board's proceedings of the 24th Instant, I regret to perceive they still think me deserving of the censure they passed on me on the 27th February notwithstanding the explanation I offered

offered on the 18th April.

2 And in reference to the new grounds on which they maintain it I take the liberty to remind them the Sheragunga Zemindary has not been in Wardship; and that tho' I could not with propriety have sent the Security for the one Lac invested I did not err so far as to keep it in the Madura Treasury but forwarded the Money itself, by a draft on the Accountant General, in favor of the Register of the Sudr Adalut, as the Estate was both kept in sequestration and released by order of that Court.

Proceedings thereon.-

Recording observations

The Collector explains in paras 3 to 5 of

observations and orders on a letter from the Collector of Madras Containing his replies to the remarks of the Board and observations of Government on his Settlement report for Fusly 1253-

of the letter recorded above, the steps which he has taken in Communication with the Law Officers of Government with a view to the recovery of the Sum of Rupees 785- 11-9 which was embezzled by Sabapatty Moodeliar out of the Collections on account of Quit rent for Fusly 1253- It appears that this individual is still in existence his Security Ponnapah Moodeliar having died and that owing to some disputes having arisen among the surviving Members of his family relative to the Deed of Assignment it had been found necessary to take the further opinion of the Advocate General on the Subject- In the Succeeding 7 paras of his report Mr. Hudleston enters with great minuteness into the System and rules in force in his Office for the guidance and Control of the Conco= pollies entrusted with the realization of the Quit Rent Revenue- The Board deem it unnecessary to follow the Collector through all those details, but would observe generally that they see no objection to the present arrangements, and approve of his proposal to reestablish the practice of the rule referred to in para 13 which would appear to contain some wholesome provisions well calculated, if rigidly enforced, to check mal= versations in this department-

2. It appears however to the Board that a more strict Scrutiny and examination into

into the Bills and accounts should be instituted than would appear to be at present the case with a view to ascertain that the full amount collected has been paid into the Kootzoor Treasury, and they accordingly direct that the remittances which should invariably be forwarded to the Cutcherry the day following their Collection, should be accom= panied by an Account Particular bearing the sig= nature of the Collecting Conicopily, shewing the number of the Bills in full or in part, and the number of those remaining in his possession unadjusted- and further that a weekly examination of the Bills and Accounts should be made at the Collector's Office in presence of the Conicopillies when they should be required to furnish explanation and assign reasons for the non-realization of the unpaid Bills.

3- Adverting to the outstanding ba= lances due at the close of the Fusly 1253 under the respective heads of "houses and Gardens occupied" and Paddy Fields in a state of productiveness which amounted in the aggregate to Rupees 5844- 10- 9 it is satisfactory to find that the collections since that period have reduced this arrear to e= Rupees 2286- 13- 10. and the Board trust that every effort will be made on the part of the Collector to realize as far as practicable all demands on the above heads within the year in which they fall due, as noticed by Government in Para 3 of the above Extract Minutes of Consultation.

4. The circumstances connected with the case No. 91 referred to in para 20-21-22 will be taken into consideration when the Collector shall have furnished the information required respecting the temporary reduction of Quit rent referred to in para 23 of his report.-

5. The Board remark in conclusion that they have not yet received the report on the arrears of Quit Rent outstanding in this Collectorate which they observe was promised to be submitted in a few days on the 30th of June last, and they accordingly request that he will be pleased to expedite its transmission as soon as practicable.-

This price, the Board beg to observe, is that already reported to Government in the letter from this Office of 30th June 1842 as the lowest at which it could be supplied without loss to Government -

The

10th July 1845. The Collectors were at the same time called upon for Settlements of the Salt available in their Districts for sale on private trade, without prejudice to the Stock required for home and inland consumption.-

3. The replies of the Collectors having been received the Board have drawn up the accompanying Statement exhibiting the quantity of Salt available for private trade at each of the several places of export and specifying the terms on which such Salt is permitted to be imported into Bengal and they beg to request that should it meet the approval of His Lordship in Council this Statement may be published for general information in the Official Gazette. The Board would also propose to publish from time to time in the Gazette similar Notifications shewing the Stock of Salt remaining in hand in the several Districts and available to parties purchasing for export to Calcutta on private trade.-

Resolved that the following Circulars and Letter be despatched.-

Circular.-

64

Circular to the Collrs of Ganjam, Vizagapatam, Rajahmundry, Guntoor, Nellore, Chingleput, N. Arcot, Madura, Salem and Tinnevelly.-

Sir,

I am directed by the Board of Revenue to request that you will inform them whether any cases have occurred in your District in which the realization of any item of Land Revenue included in the assets upon which the Permanent Settlement of a Zemindary was originally calculated has been discontinued under the orders of an Officer of Government, and in such case whether any compensation has been made to the Zemindar or Proprietor in consequence, and on what principle that compensation has been calculated.-

You will observe that this requisition has reference to items of Land Revenue only and not to Motarpha or the other Extra sources specially reserved to Government by Section IV Regulation XXV 1802.-

In reference to the Return of Jahsildars of the Chingleput District which accompanied the Collectors letter dated 18th September 1834 it appears that Bhoojunga Row who at that time held the Office of Jahsildar of Nayer was dismissed from his Office for gross neglect of his Police duties. The Board of Revenue wish to be informed of the exact circumstances which led to his removal from that situation. You will therefore be pleased to furnish any further information on the subject which it may be in your power to offer.-

You

You will also be pleased to state whether Bhoojunga Row had been employed in the Chingleput District prior to his appointment to the Nayer Tahsildarship and if so how long and whether any notice of his conduct in his previous employment is to be found on your records.—
