To J. Tycroft Esquire
Secretary to the
Board of Revenue
Fort St. George

Sir,

From the Acting Collr of Ganjam

21

The small Zemindary of Malagunn was publicly exposed to sale in my Office on the 3rd Instant agreeably with orders conveyed in the Extract from the Board's Proceedings of the 18th September—

It was bought for Rupees four hundred and twenty five 15 annas and 1 Pice by one Jeenapa Reddy Dendalanah Naidoo, being a small advance upon the Sicca Balance—

The Purchaser has paid the Money in full, and has been placed in possession. The advanced state of the season rendered this expedient, subject of course to the Board's sanction of the Sale—

Sanction is likewise requested for payment of the Balance of 5 Rupees to the last owner—

Read the following letter from the Post Master General.

No. 1

To J. F. Thomas Esqre.
Chief Secretary to Government
in the Public Department.
Fort St. George.

Sir,

With reference to the 4th. Para of the Extract from the Minutes of Consultation, Dated 26th. Augt. 1845.

Dated 12th. Septr. 1845.

Dated 27th. Septr. 1845.

Dated 20th. Octr. 1845.

I have the honor to transmit herewith Extract of a letter from the Collector of Bellary to the Post Master at that station, Extract of one from me to the Post Master, Bellary, and of his reply thereto with its enclosure, regarding delay in the payment of the hire of the Cooly runners employed for the conveyance of the Extra Dawk and Banghy Mails and Overland Packets.

The payment of the hire of the Cooly Runners immediately after their employment appears to me of great importance and the only means of securing

securing their services whenever required, and delays in the discharge of their hire after several days subsequent to the performance of their work according to the present system, seems to me decidedly objectionable, and calculated to render their services unavailable when re = quired for Tappal in as much as they would always prefer getting employment at other places where they are certain their daily wages would be discharged at the close of the day.—

The proposition of Mr. Mellor that of placing the Post Master of Bellary sufficient funds in the hands of each Amildar as a float = ing deposit from which to pay the hire im = mediately when the work is performed by the Runners appears also objectionable as the range of the Post Master Bellary on the direct line of road to Bombay extends from Tauputtry to Dawoor a distance of 179 Miles, and that it would be impossible for him to keep a floating deposit for the payment of the hire of the Cooly Runners on this and other line of road, the difficulty of remitting the amount to Amildars from time to time is another objection to Mr. Mellor's proposi = tion and as the Collectors have the means in their disposal to disburse the hire of the Cooly runners immediately that the work is

is over thro' the Tahsildars and other revenue Officers, I beg leave to request, you will be good enough to obtain the sanction of the — Most Noble the Governor in Council for the requisite instructions being issued to all Collec = tors under the Madras Presidency to disburse the hire of the Cooly Runners, immediately that their work was over, and at the close of the Month or at the beginning of the following Month to forward a statement of the amount of hire paid to the Cooly runners during the Month, to the Post Masters of the District, who will be instructed to remit the same without delay to the Revenue Treasury and to submit the Statement to this Department — Monthly for the sanction of Government as — heretofore.

Read the following Extract from a General Letter from the Honorable the Court of Directors dated 17th June 1845 No. 15.-

(2 to 4) Settlement of the Land Revs. of Tanjore for Fusly 1251.

Settlement
Fusly 1250 Rs. 36,31,834-
" 1251 " 34,05,226-

3. The Settlement of this year exhibits a Decrease below that of Fusly 1250 of Rupees 2,26,608, which however is not attributable to adversity of season or a Decrease of Cultivation, but to a diminution in the price of grain, by which the settlement was affected to the extent of Rupees 2,53,006. The Collections within the Fusly amounted to Rupees 30,80,132, leaving a balance of Rupees 3,25,094, which by the 1st December was reduced to Rupees 2,53,035; of this amount, however, the sum of Rupees 2,35,918 consisted of Demands, the realization of which had been under

special.

Close of the Fusly no less a sum than Rupees 393,917 remained uncollected. It is true, that in the course of the succeeding Fusly this arrear was reduced to the comparatively small amount of Rupees 23,493, and we trust that, from the facts stated in the 21st and 22d paras of the Collector's Report, dated 17th October 1842, the objections which must generally attach to the realization of the arrears of one year from the resources of the next, did not apply to Mr. Freese's arrangements in postponing the Collection of the latter kists in Fusly 1251, which were similar to those adopted by the acting Collector of Tanjore in the same Fusly and for the same reasons.

(16) Management of the Extra Revenues of Salem for Fusly 1252

Net Revenue

Fusly 1250 Rs. 303367

10. Will be communicated to the Board of Revenue.—

(17 & 18) Management of the Extra Revenues of Tinnevelly for Fusly 1252.

Net Revenue

Fusly 1250 Rs. 596090
1251 .. 590773
1252 .. 625907

18. The increase in the net Revenue of this district was in great measure occasioned by a Decrease to the extent of Rupees 23990 in the charges on account of Salt owing to diminished manufacture during the year:—

(264) Settlement of the Land Revenue of Tanjore for Fusly 1251.—

21. The state of the revenue in the Government Talooks appears to be satisfactory a considerable settlement. Collections. Subsequent increase having with Fusly Collection taken place in the amount

realized. We observe with regret that the report on the survey of the District, which has been so long in progress, has not yet been received, but the Collector promises that it shall be submitted at an early period.—

12. The attention of the Board of Revenue will be drawn to the observations in these paras.

22. We notice with much satisfaction the account given of the extension of Cultivation by the Khonds, who, it is stated, have considerably enlarged their settlements below the Ghauts. We entirely agree in your opinion, that for the present at least, your treatment of these People should be regulated by considerations altogether irrespective of any possible increase to the revenue, and that your exertions should be directed to promote their civilization by encouraging their intercourse

intercourse with the Inhabitants of the low Country and by creating in their minds an attachment to their new locations.—

[6 to 8] Proceedings relative to the right of settlers on the Neilgherries to apply the waters of the Mountain streams to the irrigation of their farms and to the mode in which applications are to be preferred for lands on the Hills submitted.—

25. We entirely agree in the opinion expressed by the Board of Revenue, that the Settlers on the Neilgherries are entitled to use the water flowing in or near their Lands, subject of course, to the usual control of the revenue authorities, so as to prevent one Cultivator on the Hill from encroaching water to the prejudice of another, and to ensure to all a fair and equal proportion of this necessary element of Cultivation.—

14. In Communicating these paras to the Board of Revenue they will be required to state when the survey of the Hills referred to is likely to be completed.—

The

26 The Manual of instructions prescribing the Conditions on which Land is hereafter to be granted for building or for agricultural purposes on the Neilgherry Hills, is founded on the instructions contained in our dispatch to the Government of India of the 23d February 1842. and in that to your Government of the 21st June 1843, and appears to be unobjectionable in its provisions, but we observe that you have deferred giving it your formal sanction until you shall have been furnished with the survey and Map of the Hills, which you had ordered to be prepared.—

16. Will be Communicated to the Board of Revenue.—

29. Approved.—

The

16. Correspondence with the Government of India relative to the proposed enactment of a Law for legalizing the Sale of rum for home Consumption — Transmitted —

31. The Law as regards this subject appears to be very anomalous, for while Act XXIII of 1841 prohibits the importation of foreign Rum into the Madras Territories, Regulation I of 1820 interdicts the sale for home consumption of that manufactured in the Country — The sugar manufacturers being thus unable to turn to account the Molasses and other residue resulting from the manufacture by selling the rum which is produced from it for home consumption, and as from its inferior quality it cannot compete with West India rum in the British Market the whole cost of production consequently falls on the Sugar alone, enhancing its price, and thereby limiting the demand for it —

32. This state of things must necessarily offer an impediment to the extension of the sugar manufacture under your Presidency, and we observe, that on its being represented by you to the Government of India

18. The observations in these paragraphs will be communicated to the Board of Revenue — The Honorable Court will learn from para 4 of the Revenue Letter dated 21st June 1843 that a Draft Act for modifying Regulation I of 1820 was transmitted to the Government of India on the 20th September 1844 —

India, you were directed to submit for their consideration a Draft Act for modifying the Abkarry — Regulation I of 1820, so as to legalize the sale for home consumption of all spirits manufactured by European process, under such restrictions as may be necessary for the security of the revenue —

17 A Report of the Board of Revenue on the Moturfa and Visabuddy Taxes which has been furnished for the information of the Government of India together with a Minute of the Governor on the same subjects — transmitted —

33. We have not yet been apprized of the result of the deliberations of the Government of India on the subject of these Taxes — We observe, that, in your Residents Minute the attention of the Government is directed to the sentiments contained in paras 20 to 27 of our Despatch dated the 11th December No. 5. 1833, with reference to the Visabuddy Tax; and with respect to the Moturfa we have in our Despatch dated the 23d April No. 7. 1845 paras 11. 12. signified our full concurrence in the views entertained by the Government of India as to the objectionable Character of the Loom Tax, which of itself constitutes the principal portion of that branch of revenue —

19. These paras will be communicated to the Board of Revenue. The Honorable Court will observe from Para 18 of the letter to their address in this Department dated 21st June 1845 No. 38 that the Chokies on the Mysore Frontier have been removed.

18. Correspondence relative to the importation of sugar the produce of the Island of Seringapatam transmitted.
19. Withdrawal of the orders prohibiting the admission of Mysore Sugar into the Madras Territories reported.
20. Reference made to the Govt. of India as to the levy of duties on the Mysore Frontiers. - - - - - - -

34. It would be altogether inconsistent with the claim which we have successfully urged on Her Majesty's Government, as to the right of the Province of Mysore to be in all respects treated and considered as a British possession, that we should ourselves treat it as foreign territory, by continuing after the general abolition of Transit Duties throughout your Presidency, to levy duties on goods crossing its frontier. We therefore desire that unless the measure should have been already taken under the orders of the Government of India, you will lose no time in withdrawing any Checkies which may interfere with the free transit of Merchandize within and out of that Province.

2. The results of the management of the Polipat for the period under review are on the whole satisfactory the first two years presenting a progressive improvement in the revenue and the last a decrease of Rupees 571 below the Settlement of the preceding Fusly owing to a failure of rain. The total Demand on account of Land Revenue, Moturpha and [†] Sornadayum for the four years including Fusly 1250 amounted to Rupees 34409-11-6 from which deducting sibbendy Charges Rupees 2331-8-11 and

3. It appears that of the Collections Viz Rupees 15891-4-3 there was a sum of Rupees 2453-5-8 realized by the Grand mother of the minor in Fusly 1250 to be accounted for. After paying the charges noted in the margin there was a surplus of Rupees 11217-3-4 in favor of the Polipat - a result which is considered very satisfactory. Proceedings thereon:- 1. In these papers the Board have before them the settlement of the Government Talooks for fusly 1253 / 1843/44 and 1254 / 1844/45 For two consecutive years viz. Fuslies 1252 / 1842/43 and 1253 / 1843/44 it devolved upon officers to report upon the out-turn of the year, without personal acquaintance with the details of the Management during the same period Mr. Bannerman the Collector embarked for the Cape of Good Hope at the close of 1843 (Fusly 1253) and it fell to Mr. Anstruther, Acting Collector to report upon the Settlement of fusly.

Relative to the Settlement of the Government Talooks in the District of Ganjam for Fuslies 1253 / 1843/44 and 1254 / 1844/45

fusly 1252/1842-43 Mr. Smollett succeided Mr. Anstruther as Acting Collector in November 1844 / Fusly 1254/1844-45 / and it became his duty to draw up and submit the report upon the settlement of the previous / fusly 1253/1843-44 Mr. Smollett was in charge of the District throughout the greater part of the past year / Fusly 1254/1844-45 /

2. In Para 9 of his Report upon the Settlement for fusly 1253/1843-44 Mr. Smollett having expressed his intention in advertence to the large amount of uncollected demand in each year, to "change the system" the Board called upon that officer to explain the nature of the change he was desirous to introduce and to desist from alterations of any moment without their previous sanction. In explanation Mr. Smollett observes "instead of fixing the Settlement on the amount of Durkhast or Caboolliats, I caused a strict examination to be made of the Land under Crop in the Month of December. I investigated every claim to remission and defined its amount and fixed the Summa, not leaving this as heretofore discretionary and fluctuating with the laxity or energy of the Ameens. The Settlement thus made was collected punctually." That is the Acting Collector has modified after personal

personal investigation of the actual condition of the lands the Durkhasts or Caboolliats entered into before the commencement of the year, thus making the settlement to represent what the Ryots are called upon to pay in Ryotwar Districts with reference to season and other circumstances, generally considered in fixing the Settlement of the year. The Acting Collector appears to have followed out generally in Fusly 1254/1844-45 the Principle adopted by Mr. Bannerman in the Talook of Poobacondah in Fusly 1251/1841-42. The Principle and its application will be further noticed in these Proceedings.

3. The season of fusly 1253/1843-44 commenced with much promise. An excessive fall of rain in September was attended with some injury, an abundant Harvest however was reaped and secured in many Villages. A severe storm with heavy rain occurred in November which caused much damage to many Villages in the Poobacondah Talook. Goomsur suffered to a considerable extent from inundation, and difficulty was also experienced in that Talook in disposing of the crop from a want of demand for Grain.

The

5. The disproportion between the Demand and the Collection was also very considerable the latter having fallen short of the former in the sum of Rupees 108737-0-5. Again the Collections including arrears during the fusly under consideration were Rupees 71315-8-3 below those of the preceding year.

6. The defalcation occurred principally in Poobacondah and Goomsur-and as regards the latter, making due allowance for the effects of inundation and a sluggish demands for Grain, the result of the fusly under review, the Acting Collector observes, is "inexplicable, except from mismanagement." This view is also shewn by Captain Mc Pherson in his Report from which it appears that the "settlement was virtually a simple sale of produce which it

Para 12-

was necessary to complete without delay under penalty of heavy loss in reaping and housing Crops not under the supervision of Renters". This "Settlement" or "Sale of Produce" took place it is stated in December when "the earliest Crops were already gathered in, the rice was ripe and two Kists were due". The Board apprehend that the arrangements for securing the resources of the year in Goomsur were defective and that the losses were aggravated from this Cause.-

7. In para 11 of his Report for fusly $\frac{1253}{1843/44}$ Mr Smollett points out the decline in Goomsur, and in Para 16 he observes, "I have taken the Goomsur Country under my personal supervision- I trust by doing so, I shall put an end to the Cabals that have operated so mischievously of late, and I hope the results will prove beneficial even at this late date in the present season". The Acting Collector attributes in reference to the Ameen the mal-administration of this Talook to "causes beyond his control and to a want of support the Ameen in Charge received from Head Quarters."

The Zemindary Balances of the District, current and arrears, at the close of fusly 1253 were Rupees 7,17,280 - 8 - 5.-

Settlement of Fusly - 1254 / 1844/45

Para - 2-3.

9. The season of fusly 1254 was not uniform throughout the District. In some places abundance of Rain fell while in adjacent Villages there was a complete failure - Notwithstanding the apprehensions of losses expressed by Mr. Smollett's Predecessor, the season appears to have been on the whole favorable - Prices had improved and though not high "were remunerating to the agriculturist".

From Jy. Coll. 30th January 1845 in Con. 10 Feby. 1845

10. As observed in the former part of these proceedings Mr. Smollett took charge of the District in November 1844 or about 4 months after the commencement of the fusly year (1254) Mr. Smollett's first object was to correct the defects

of the system he found in operation "Immediately "on taking charge I determined" he says "to put "an end to the system of Settlement I found in "operation which was in my judgement disastrous "in a financial view, ruinous to the people and "destructive to the morals of the public servants" the engagements made for cultivation before the season commenced were accordingly modified with reference to the actual results of the year and claims for remission and deduction for lands uncultivated were examined and a Settlement concluded "while the crop "was on the ground and before the Harvest "was removed" - These measures appear to have been pursued with energy and decision.

Para 5.

Fusly 1254 - Settlement No 1.

11. With a trifling exception as shewn in the margin, two modes of Settlement obtain in the Government Estates, Viz - Ryotwary and Rent - In both Kinds engagements are entered into at the commencement of the year and in both it is expected that the amount stipulated for shall be paid for the most part except under peculiar circumstances. This condition of the Settlement presupposes great

great accuracy in regu=
=lating the demand for
the year, but as such
accuracy from various
causes has seldom, if
ever, been attained
the engagement in
practice so far as
regards this fundamental point is a mere
form, notwithstanding the issue of Puttahs
and it has been necessary generally to give
up a portion of the amount contracted
for so long as it rests with the Ameen
without suitable check to determine what
portion of the aggregate demand shall
not be enforced, it is obvious that much
malversation may ensue. To obviate this
Mr. Smollett at once met the several
claims for remission and while the Crops
were on the ground, when the verification
of the Statements of the different parties was
of easy attainment, he has fixed after personal
examination the proportion of the total de=
=mand, which, under the circumstances of the
season was to be given up.-

12- The Board approve generally
of the measures adopted by Mr. Smollett,
but his report is defective on two material
points

point to- 1st as to whether the remission was given
indiscriminately to both Ryotwary and Rented
Villages or to the former only and 2dly the several
items of remission are altogether omitted. The
general principle however being approved
and Mr. Smollett having apparently exhi=
=bited both decision and judgment in the
adoption of what appeared to him to be a
sound measure, notwithstanding the opposition
he experienced, the Board are satisfied that
in affording the Ryots relief, there has
not been any unnecessary deviation from the
leading principle on which the agreements
for the year are based.-

Para 6. 13. The agreements for Land
taken up in Fusly $\frac{1254}{1844/45}$ Goomsur and
Sooradah not included, fell short of those
of the previous year in the sum of Rupees
11776-9-1 and the difference between the
engagements for the
year and the actual
Settlement was Ru=
=pees 33,600-11-5. As
already observed the
Report and the state=
=ments which accom=
=pany it, are defective in not shewing the
particulars which compose this difference.-

This.

This important point should be attended to in future Reports.

14. The decrease Rupees 11776-9-1 in the amount of engagements occurs almost entirely in the Poobacondah Talook and arises from certain "lands never really occupied" having been inserted in the Demand of fusly 1253 / 1843/44, but struck out of the settled Beriz of that year, owing to the depressed state of the Ryots. These lands were not generally taken up in Fusly 1254 / 1844/45.

15. The Demand in Goomsur for fusly 1254 / 1844/45 was fixed by Mr. Austruther at Rupees 120604-2-5 after visiting the Mootah. Mr. Smollett, was satisfied that this demand was excessive and it was accordingly reduced to Rupees 109306-14-5. The actual Settlement of Sooradah in both years does not exhibit any material difference.

16. Mr. Smollett has omitted to offer explanation in detail shewing upon what data the Demand in each Village of of Goomsur was reduced.

the amount of Settlement and Collection, as observable in former years, is not apparent. In every Talook with the exception of Sitchapoor, which suffered greatly from drought, the increased Collection is considerable. Goomsur was under the immediate superintendence of the Acting Collector and the improvement in the revenue from this Talook as well as the satisfactory state of the Collections reflect much credit upon Mr. Smollett's Management. Mr. Smollett is dissatisfied with the conduct of the Tasildar of Goomsur, who had pledged himself to collect the full amount of the actual Settlement which was considered fair and equitable and

and is of opinion that he ought to be dismissed. The Board are prepared to receive further explanation from the Acting Collector regarding the conduct of the Tahsildar the exact grounds on which this functionary has incurred dismissal should be stated.

On the same day of the preceding year the amount uncollected of the previous Settlement was Rupees 97434-11-4.

Para 32. 19- The Acting Collector has noticed the facilities which exist in Ganjam for carrying out sound Principles of Settlement- "Every field" he observes "has its assessment and every Village its computed measurement- The same facilities exist for giving remissions in Ganjam that are

"are to be found in Cuddapah I do not know where "lies the difficulty- But at the season of Harvest "whether the Villages be held individually or rented, "the demand should be accurately defined and "any remissions that are required should then "be granted after that the Tahsildar is kept "to his work will do the rest" In connection with these observations and generally with the remarks of the Acting Collector on the subject of Settlement contained in his report the Board would call his attention to the observations of Sir T. Munro quoted in the Margin and point out to him that the stability and increase of the Land Revenue and general prosperity of the District depend upon individual wealth which is attainable only by a full recognition of individual rights Intermediate agency is admissible only under special

If the Board hold that the full appointment was virtually conferred upon Petitioner when Sir H. Le. It may be objected to his claim that he never received a Summud of appointment and it may be urged in his favor that he performed the duties of the Office for 6 years and a half; I therefore request that the Board will be pleased to decide whether he is entitled to the Salary he claims or not.

Proceedings thereon, viz.

Relative to the Settlement of the Zuft estates in the District of Masulipatam for Fusly 1253 A.D. 1843/44.

The Collector reports that the season was variable throughout the district In the estates of Vennacottah and

1.

Goodewadah, Davercottah, Chanoobundah and Ingadapah the showers were partial and insufficient for the ordinary Cultivation and in the two first Estates serious enquiry was sustained from the inundations of the Godavery river. Decrease 560-15-4

24. This property which is now incorporated with the Government Estates was under attachment during the period under report. The settlement exhibits a decrease of Rupees 560-15-4. The cause of this deficiency is stated to be a contraction of dalwa Cultivation and failure of the Jonna Crop. There is a slight increase under the head of Bagayet occurring in the Cultivation of Garlic but a decrease in every other species of Garden produce.

the late Head Sheristadar Shashagery Row and requesting their instructions in regard to the answer to be given to him.-

2. In reply I am directed to state that it will be sufficient to inform Shashagery Row that the grounds on which the Board have ordered his removal from his late Office are that he has encouraged and connived at the neglect on the part of the Talook and Village establishments to realize the dues of Government in Fusslies 1252-1253; that by misrepresenting the resources of the Villages leased out in Fusly 1254. he has procured their being rented on terms greatly below their real value; and that he lies under the strongest suspicion of having knowingly disregarded the orders respecting the acquisition or holding of land by public servants issued by the Board 19th June 1826- and of having received bribes from the Ex-Zemindar of Vaparedy Ramanadha Baba.

3. It may be well that you should intimate to Shashagerry Row that as his recent dismissal took place under the orders of this Office - any appeal which he may be desirous of making must be preferred to Government direct.-

From the Acting Coll[r] of Cuddapah } Sir,

Reporting the demise of Butcha Row the late Head Sheristadar of Cuddapah District and Shrotrumdar.

I have the honor to report the demise, on the 17th Instant, of Butcha Row late Head Sheristadar of this District and Shrotrium dar of five Villages made over to him on Shrotrium tenure on the conditions recited in the Board's letter of the 3rd August 1835, and in Paras 9 and 11 of the Dispatch from the Honorable the Court of Directors dated 8th February 1837. The terms of the grant to the late Butcha Row being that the Shrotrum (the annual value of which is Rupees 5,600) should be extended to his two nearest heirs subject to a quit Rent which shall reduce the Emolument to half the Amount, I beg to solicit instructions as to whether the quit Rent is to be levied from the Commencement of the Fusly or from the date of Butcharow's decease. The Shrotrum was made over to the late Butcha Row from the Commencement of the Fusly although he did not retire from his Office of Head Sheristadar until the 22nd November 1837, 1247 up to which period he was allowed to draw his full Salary. I therefore entertain a Doubt as to the views of Government in the present

present instance. The period that has elapsed from the Commencement of the Fusly up to the date of Butcharow's death is 3 Months and 5 days, and it would make a difference to his son of Rupees 737-10-1 in the transfer to him of the Shrotrium subject to this quit Rent, being considered to take effect from the former instead of the latter period; whereas the Government, by their liberality towards his late Father, gave up the whole amount value of the Shrotrium without deducting the average of its Emoluments from the Commencement of the Fusly up to the time it was actually made over to him. A period exceeding the present which the son would have to make an allowance for if decided that the transfer to him is to take effect also from the Commencement of the Fusly) on the calculated average of only half its annual Emoluments, by one Month and five days.-

" B. Detailed Statement of the Survey assessment of each description of Land and the remission allowed for.

14 Statement of Average prices of Grains.

15. Statement of the Particulars of Seerwd: Cummee.

2. Previous to my joining the District Mr. Inglis the late Acting Collector superintended the Settlement of Cheroor, and Conalapoor Talooks, that of Jummulmudgoo, Doovoor, and Koil: gonttah had been conducted by Mr. Mayne the Head Assistant the settlement of the remaining 6 Talooks Viz. Chitwail Sidhout, Goorrumkondah Muddenpilly, Poolevaindla and Royachoty was superintended by myself.

3. In the three Talooks forming the

Fort St. George 24th November 1843.

the Sub Division Viz. Cumbum, Doopaud and Budwail the Settlement was conducted by Mr. Knox the Sub Collector.

4 In the Months of June and July rain fell in fair quantities in some parts of the District, while in others only from 1/4 to 3/4 of a full fall. This enabled the Ryots in the Southern Talooks Viz. Goorrum: Kondah, &c. to sow their Red and mixed lands.

5. The rains which were received in the Month of August were insufficient and the Crops Viz. Sujja, Arekas, &c. were nearly on the verge of failing however the rain that fell in September and October throughout the District revived them, and also enabled the Ryots in the Districts to sow the black, red, and mixed lands. The Tanks &c. also then received water from 1/4 to full supplies and the Ryots began to cultivate the wet lands.

6. The want of rain in November somewhat threw back the Crops on Dry lands, but the fall of it in December was not only favorable to these Crops but also to the Cultivation of the Tyaukhum the 2nd or principal wet Crop as the Tanks in all the Talooks.

Talooks in the District except in Doopaud received at this period further supplies of water.-

7. From the foregoing remarks it will be apparent that the Tanks in Doopaud Talook having received but very scanty supplies of water, there was a great decrease of revenue chiefly in that Talook and in Budwail and five other Talooks in proportion to the varying results of the season.-

8. The rains in September and October enabled the ryots to cultivate their black lands with Chitta Jonna and Cotton Crops but they failed generally from want of rains in November.-

9. The heavy fall of rain in December proved injurious to the above Crops as well as to the pulse Viz.t Horse Grain, Castor Oil plants, Bengal Grain, Cundoo-loo, Pusaloo, Vca. causing loss of blossoms & consequent on the attacks of blight. These Crops however yielded fully in some places and in others from 1/4 to 3/4 of a full harvest.-

10. The Crops of Dar Corn consisting of Lujja, Areka, Corralloo, and the pulse Viz.t Horse Gram, Oil plants, Pasaloo Vca. cultivated in Red and mixed lands & failed

failed in some measure, also from the deficiency of rain after they had been sown in August. Nevertheless they also yielded fully in some localities while in others from 1/4 to 3/4 of a full harvest.-

11. The lands dependant on Tanks, Nullahs and Wells yielded both the Cartee Kum and Tysan Khum Crops in full in some places but in others only from 1/4 to 3/4 of a full harvest according to the sufficiency or otherwise of water and the attack of blight they more or less suffered from.-

12. The Wet Crops which were cultivated in some places in anticipation of the Tanks receiving further supplies of water perished, the hopes of the Cultivators not having been realized and there being no wells Vca. or other means of irrigation.-

The remission granted under this head was as follows.-

In Coilcontla Talook in the Principal Division	30- 14- 0
In Cumbum Doopaud and Budwail Comprising of the Sub Division	1460- 7- 1.
Total Rupees	1491. 5- 1.

13. The Ryots who cultivated Sugar Cane

Cane in the Fusly under review
in Goorumcondah and Muddenpully
Talooks derived some benefit and profit
thereby, there having been an increased
demand for Sugar chiefly for exportation.

14. The year was not by any
means a healthy one in comparison
with the last. Fever, Ague and small
Pox were prevalent throughout the
District, and several Casualties occured
subsequently and towards the
end of the Fusly Cholera prevailed
in Cumlum, Budwail, Zummulmudgoo
Chitwail, Cailcoontla &
and Poolevendla Talloks,
and the number of persons

that

that have fallen victims
to this disease is computed at 3,000.

15. The loss of cattle and Sheep
by diseases incidental to them have
been considerable in the year under re-
view in all the Talooks, especially in
those of Goorumm Condah, Poolevendla, &
Royachoty and Doopaud.

16. The following Statement
shews the extent and description of

the season, and the assess-
ment thereon.

Comparison

Net Increase ——— 267 35 3/4 Net Decrease ——— 8807 13 2

17. From the above Statement it will be observed that in Comparison with the preceding Fusly there has been a decrease amounting to Rupees 16,064-4-10 in the Assessment of the following 5 descriptions of lands Viz.t dry garden, wet, Tary, Bagayet and Ponassa; this decrease is attributable to the failure of seasonable rain, which damaged the Crops; the Poorer ryots were induced to abandon their Cultivation either wholly or in part while others died, emigrated &c. and although a portion of these lands which had been thus given up were subsequently distributed to such Ryots as were anxious to take them, yet the remaining portion was left waste - Upon complaints preferred by Ryots certain Putta lands which were unfit for Cultivation having been washed away by inundation as well as those overflooded with water were excluded from the Vilavary Accounts their complaints having been preferred on good grounds.-

18. The increase under the Head of Teervajasty levied according to the new rules on lands irrigated by new wells under Tanks, Channels, and those situated

situated in the Beds of Tanks, and on dry and Garden lands converted into wet, amounts to Rupees 6852-9-- and that under the Head of Jaendjasty Rupees 104-3-1 making a total under these two Heads of Rupees 7256-3-8. the Net decrease being Rupees 8807-13-2.-

19. In looking into the whole extent of land of every description agreed for in comparison with the preceding Fusly, there appears to have been a decrease under every head with the exception of "Dry" the increase under which however exceeds by Acres 267-35. the aggregate amount of decrease under all the other Heads- Upon the whole there has been an increase in the number of Acres agreed for though a decrease in their Assessment. This arises from Ryots who were in reduced circumstances in some Talooks in which dry Cultivation is carried on having abandoned a great portion of highly assessed lands in full as explained above, and from the Ryots in other Talooks having agreed to cultivate a large quantity of lands lightly assessed from the ayacut Bunjer.-

20. The following Statement exhibits the extent of land actually cultivated and the Assessment thereon for Fusly 1254 1843/44.

15842 Fort St. George 24th November 1845.

21. From the above statement it will be observed that there is a decrease in the assessment of all Lands actually cultivated and in Fusuljasty amounting in total to Rupees 25,560-11-5 and an Increase of Rupees 6852-10-5 under the Head of Teerajasty or additional assessment, and Jurry Bagaiet cultivation making net decrease of Rupees 18,708-4-0

22. The insufficient supplies of water in Tanks in Doopaid and other Taloks has Chiefly caused the decrease of Rupees 15,064-6-0 under the Head of wet land Cultivation and Fusuljasty and the abandonment of Cultivation, as I have already explained above, by Ryots in consequence of their reduced circumstances, has also led to this decrease.

23. With respect to the decrease in the Assessment of dry garden and Pondsa lands amounting to Rupees 10,496-8-3 the explanation given for decrease in lands being taken up for Cultivation is applicable.

24. The subjoined Statement exhibits the remission granted in the past Compared with the preceding Fusly.

25. The increase of remission granted under the head of Caboolaty Bunjer and loss of Crops in the past compared with the preceding Fusly is owing to the defici=ency of Water in the Tanks and small re=servoirs, Goountahs &c. that under the head of Poinboodty arises from lands town being overflooded when the Tanks filled and that under the Head of usual remissions and Enam Viz. is for lands which had been left waste in the pre=ceding Fusly having been cultivated this year, in consequence of the Tanks on which they are dependant receiving some supplies of water.—

26. The decrease of remission under the Head of Bunjer Cowle is owing to the expira=tion of the lease granted to the Ryots in some Talooks.—

27. The decrease of remission under the Head of Established remissions Seerva Cummie and Pyrash Cummie is ascribed to the failure of seasonable rain and to the reasons assign=ed in Para 17 regarding the lands agreed for Cultivation.—

28. The following Statement exhibits the Gross assessment, the different remissions and the Net Revenue for Fusly 1254 / 1843/44 in Compari=son with the preceding year.—

Fort St. George 24th November 1845.—

31. From the above Statement it will be observed that there was a decrease in the Collections in the following Talooks Viz.t Summulmudgoo, Doovoor, Koilgoontla, Poolevendla, Budvail and particularly in Doopaud.—

32. The decrease in the five former Talooks arises from the Ryots in reduced circumstances having thrown up their Puttalands either full or in part, and in the latter Talook from the Tanks not having received supplies of Water sufficient to carry on the Cultivation.—

33 Annexed is a Statement of the different Items of Increase and Decrease in the past compared with the preceding Fusly.—

In

35. In the past compared with the preceding Fusly there has been a decrease in the Beriz in all the Items except Motarpha alluded to in the above Statement.-

36 The Decrease in the Sayer and Stamps is chiefly attributable to the abolition of the Inland and Frontier duties since 1st April 1844 and 23d March 1845.-

37. The Demand Collection and Balance of Revenue of the District of Cuddapah for Fusly 1254 (1843/44) are as follows.-

	Rupees. A. P.
Demand	2,43,384. 10. 6.

Balance at the close of	
Ditto	46,237. 10. "
Collections up to 31st	
October	42,688. 7. 1.
Remaining Balance	3,549. 2. 1.

38. Of the above outstanding balance only one fourth is considered recoverable for the following reasons.-

39. Some of the Ryots of Onkoo Village in the Coilcoontla Talook having neglected to cultivate the Veysaukum Crop tho there was sufficient Water in the Tank, they

were made answerable for the assessment of lands left waste by them- A portion of this sum has been realized and the remainder is still due- Some Ryots elsewhere were unable to satisfy demands against them altho the produce of their Putta lands was sold- The Amount of irrecoverable balance also consists partly of the certain sums on account of Seerwastey and Peersaraggy disputed by some Ryots after the conclusion of the Settlement as having been justly demanded on the grounds of their never having irrigated their lands with Cirkar Water, on which account this additional assessment was levied- On investigation subsequently made their complaints appeared reasonable and not without grounds.-

40. The following Statement exhibits the details of the Arrears outstanding in this District from Fusly 1248 (1837/38.) up to the close of Fusly 1253 (1842/43) and the Collections therefrom.-

Pk

Fort St. George 24th November 1845.—

44. It will be seen that the extent of Enam Cultivation compared with that of Circar Lands cultivated is in the rates of Rupees 74—6—2. to Rupees 54—7—8. In comparing the Cantage of Circar and Enam lands respectively between the past and preceding Fusly the cultivation of Government land falls short by Rs. 7—3. while that of Enam lands is increased by Rupees 1—5—10— From the Statement No. 6 it will appear that there has been an increase of Rupees 33,706—7—1. in the Wet cultivation of Enam lands of which a large portion is dependent on Tanks, and a small decrease in Dry and Garden cultivation, the Net Increase being Rupees 29,945—3—6.—

45. There are reasons for accounting for a greater portion of Enam lands than those of Circar being cultivated in proportion to the respective Ayacuts of each Viz. the great quantity of Anadee Bunjer or Lands consisting of Wood and Jungle, in proportion to those that are fit for Cultivation, having come under assessment in

Fort St. George 24th November 1845

in the Pymash accounts and Ryots cultivating nearly the whole of their dry Lands and a portion of their wet Lands with dry and Garden Crops when there is an insufficiency of Water in the Tanks.

46. The Remissions that have been withheld from Ryots this year for having abandoned their Putta lands for Enam and from those who having certain Enam lands have left their Putta lands uncultivated, as well as from those who have wilfully and without reason neglected to cultivate Circar lands agreed for, though there was no want of water for their irrigation, Amount to Rupees 13,850-14-11 being Rupees 3,078 in excess of that disallowed in the preceding Fusly.

47. The following Statement exhibits the extent of each description of Enam lands in the District and the portions of them which have been cultivated in Fusly $\frac{1254}{1843/44}$ in comparison with the preceding Fusly, and shews also in details the extent of each description of land cultivated.—

50. There has been a rise in the prices of Dholl and Bengal gram while all other descriptions of grain particularly wheat still continue at low prices.-

51. The continued depression of the price of grain has been noticed in the last few Reports and has attracted the attention of the Board, who have remarked that the prices Compared with past Fusles are far from satis= =factory as regards the just remunera= =tion of the agriculturists labour and Capital - In the Collection of the Govern= =ment rists severe measures have been avoided as much as possible and every Consistent Consideration shewn to those Ryots whose means were mate= =rially effected by the low state of the grain market or by other Causes Combined.-

52.- This depression of the prices of grain is attributable to plentiful Harvests to the supplies exceeding the Demand for the Consumption of the District, and to the neighbouring Districts being so well supplied that there has not been sufficient encouragement for the

the exportation of the surplus produce of the District.-

53. The Government in Para 6th of Minutes of Consultation 19th July 1845. having required information in the report regarding the extent of Cotton and Indigo, and the proportion the produce of these Crops bears to the grain produce of the District, I now beg to supply it - The Cotton cultivation is carried on chiefly in Cum= =mulmudgoo, Doovoor, Coilgoontla and Camalapoor, and in some of the Villages of Poolevendla - In the other Talooks the cultivation of this description of produce is trifling - The Cultivation of this Arti= =cle is Calculated to be about 10 Fos Cent on the whole Cultivation of the District, and the proportion which the produce of Cotton bears with the grain produce of the District is 8 Fos Cent - The Ryots used to derive a Considerable Profit in Cultivating this description of produce, but there has been a great decline in the price of this Article since Fusly $\frac{1250}{1839-40}$ ...

54. The Indigo Cultivation is carried on dependent Chiefly on Tanks and Wells - but also in Dry lands in all the Talooks of the District, but to the greatest

greatest extent in those of Budwaik, Sidhout, Chitwaik, Doovoor, Chennoor and Cumalapoor. The proportion these crops bear to the produce of the District is under 10 ₱ Cent. There are a great number of Factories erected throughout the District for the purpose of manufacturing Indigo, by the merchants, European and Native, who advance money to the Ryots for the supply of the leaf in quantity according to contract entered into. which is of great assistance to the Ryots, not only enabling them punctually to discharge the Rists due to Government but from the Competition there is for the leaf they derive a considerable Profit on the produce of their Crops which they cut 3 or 4 times during the year. The manufacturers of the Indigo however derive a still greater profit on their outlay of Capital.-

55. I beg to state with reference to your letter of the 27th February last that the advances on account of Taccavy made in this District have been recovered in whole.-

56. I have the honor to forward the Report of the Sub Collector on the Revenue Settlement of his Division on which I

I have no remarks to offer.-

57.- It will be unnecessary for me to expatiate on the merits of Mr. Knox, the Board will have already had opportunities of appreciating the same and I must not omit to make mention of Mr. Wayne the Head Assistant Collector who has taken his part in the settlement of the District. He is a most zealous and indefatigable servant one whose services I was truly sorry to be deprived of on his being transferred to the Judicial line.-

58.- In conclusion I beg to state that the Head Sheristadar Appoorow affords me the same satisfaction in his Public Capacity which he has invariably done to my many Predecessors.-

Abstract

15981. Fort St. George 24th November 1845.

No. 17.

To J. H. Cochrane Esqre
Acting Collector
Cuddapah.

Sir.

I have the honor to submit the following report on Conasamoodrum a Village of Budwail and one of those whose assessment was first reduced at the recommendation of Mr. Morehead in his letter of 19th May 1832 and of Mr. Arbuthnot in 1842. the sanction for the same being dated 13th February 1843. agreeably to which a reduction of 6 Pagodas 187-0-15 was made in the following proportions Viz. 1st Class land from Pagodas 9 to 7 per acre. 2nd from 8 to 6 P/2. 3rd from 7 to 6 but Fussuljasty was in no future to be levied when a Second Crop was cultivated. The remaining classes have always paid fussuljasty and no complaints have been made about it.

In fusly 1252 the ryots after much demur were prevailed on to take up the land at these rates but owing to the low prices of grain it was with greatest difficulty they paid their Cist, and last year though there was no lack of water in the Tank but very little land was cultivated. when on circuit I visited this Village; and regret to state that it bears evident marks of poverty this it has a fine Tank and the land seems to be well

well adapted for cultivation particularly for Indigo, and I know that the merchants of Budwail would gladly give the ryots advances as they formerly did, if there was any prospect of the Crops paying the cultivator. Annexed is a Statement shewing the classes of land in the abovementioned Village, and those adjacent to it together with the average quantity of grain produced in each and selling price.

You will observe that owing to the great fall in the value of agricultural produce since the settlement of these lands was made a ryot holding 1st class lands derives little or no profit from it, but as they all hold low assessed land as well as high the average on both lands pays them. one great cause of complaint and it seems to me a well founded one among the Conasamoodrum people is, that the highly classed lands bear so large a proportion to those assessed at low rates that the ryots cannot afford to cultivate the former-

From the year up to last year the Fusseljasty has always been remitted on the 1st 2d and 3d class land to these ryots and they now pray that their land may be permanently rated at that Cist without Fusseljasty- I hope you will agree with me to recommend to the Board of Revenue that their request

* Viz. 1st Class per acre 9:

3d " " 7-

request be granted as it appears a reasonable one and I see no chance of getting these lands cultivated at the present Cist. I directed a Punchayet to go over and assess the land and the result was that they assessed the 3 first classes as follows-

Class.	1st Crop	2d Crop
1st	6 — " — 4	3 — " — 4
2nd	5 — 5 — "	2 — 7 — 8
3d	4 — 5 — "	2 — 2 — 8

But the former rate appears the most advantageous to Government as it is payable without reference to the number of Crops- The Tahsildar's reports and Punchayet valuation papers accompany this-

No. 18

To

J. H. Cochrane Esqre

Acting Collector

Cuddapah.

Sir,

I have the honor to forward herewith the annual report for fusly 1254 of the land revenue of the Talooks attached to the Sub Division.

The Settlement was made agreeably to the rules in force last year. The total number of Villages settled exceeds that of the former fusly by 2, the Village of Solavanpully and Davelootee in Doopaud Talook, which were included in the 18 deserted Villages in last fusly, having been brought under cultivation in the present fusly.

The ryots commenced sowing the usual Crops in May and June, but the supply of rain was very scanty. In Budwail and Doopaud none of the Tanks receiving any great quantity of water, and in no case did more than three quarters of a padoonoo of rain fall, a full padoonoo being as much rain as sinks a span depth or as far as the plough share penetrates. In Cumbum the rains in these months were sufficient for the sowing, and about 2 months water came into the big tank and into others near the

15986 Fort St. George, 24th November 1845.

the Nulla Mala Hills.

In July no rain fell in Budwail, no fresh seed could be put into the ground and the early crops began to fail. In Cumbum and Doopaud a little rain fell which though not enough for the growing Crops, or to fill any Tanks yet enabled the ryots to get on with their sowings. the big tank received a small supply this month.

In August there were partial rains in Cumbum and Budwail and some water again came into the large tanks and into those near the Hills. In Doopaud there were no showers to speak of, and the Coosh key land being all of a stoney gravelly nature, the Crops failed to a very great extent, and the ryots could not be induced to sow fresh land. No paddy was sown for the first Crop, for want of water in the tanks, it being the custom of the Talook to transplant the paddy whereas in Cumbum and Budwail much is sown broad cast on the field, and then does not require the same quantity of water until the grain begins to form.

In September rain fell in Cumbum Budwail, and in parts of Doopaud by this the Ryots of the last Talook got about 15 days water into most of their tanks and were enabled to sow their Cotton &c. In the other two the supply was much more abundant.

In October there was a good fall of rain in Cumbum and Budwail, and the Tanks received some water, but very little fell in Doopaud, this rain tho' of much use to the Pyra, Jonna and Paghee Crops did some damage to other Crops, which were then ready for reaping.

In November the season for sowing wheat Black gram and Bengal gram, is reckoned in some Villages of Doopaud not exceeding three quarters of

This Statement shows the number of ploughs and puttahs of ryots Compared with those of the past year. An increased quantity of land having been this year cultivated in Cumbum there was a proportionate increase in ploughs and puttahs. In Budwail the land sown was less, but several joint puttahs were divided between the owners, and some large single holdings which had been thrown up, were distributed to several ryots, thus increasing the number of Puttahs. In Doopaud again, owing to the unfavorable seasons less land was agreed for consequently there was a decrease in ploughs as shown above.

Fort St George, 24th November, 1845

Altho there was a net increase of 2189 acres of land there has been a net decrease in the assessment of Rupees 2,818-10-5 after deducting the trifling increase in Peervoja-tee. This decrease is owing to the heavily assessed lands being thrown up and lands of a lower rate being agreed for by the ryots. Orders were issued in October last to the Tahsildars on the receipt of the Board's proceedings dated 12th September 1844, directing that heavily assessed lands should not be taken off from the ryots without their taking up land of the same class, but as the Velavarce was then nearly finished they could not be generally carried into effect.

In Mr Ashton's order for Settling the cultivation of 1253 Tahsildars were directed to take out all such land, as was annually left waste, on account of its being flooded, or otherwise unfit for cultivation and for which remission was yearly given, much of this was highly assessed several ryots however were unable from poverty to take up fresh land, and in some Villages there was no land of the same class uncultivated and then the ryots took up larger quantities of land paying a Cist equivalent to that of the land thrown up, this was also the case in

Fort St George, 24th November, 1845.

in some Villages where from constant Cultivation without sufficient manure or rest the 1st Class land had greatly deteriorated. In many cases however much of this sort of land was kept in the accounts pending further enquiries as to its capabilities and it was explained to the ryots that this in the present unfavorable season this indulgence had been granted, yet they would be expected to take up the high land this year and strict orders have again been sent to the Tahsildars on the subject.

The following statement will show more fully the quantity of land of each description agreed for in each Taluk as compared with the year before.-

The

15995 Fort St George 24th November 1845

The Cumdum Talooke shews an increase in all lands except Bagayet, in which there is a slight decrease if Festigister too, there is a decrease of 1693-11-10 caused by the want of water in the tanks adjacent alls in the large Cudah Tank. Chy Doo/Brand there was do little rain that they would not agree for Cumdum Brudward this much Land and thrown up as being unfit for cultivation, and left waste by the death or desertion of the Cultivators, yet owing to the fortunate fall of rain in December the Teenagistee and Fidugistee brought it up the sum total to 64-2:10 above the former year.

Owing

15999 | Fort St. George 24th November 1845

Owing to the want of rain as before noticed the Enamdars were unable to cultivate as much as in the former years there is however a great increase in the quantity of Enam land cultivated by others than the Enamdars, owing to the strict measures taken to insure an accurate account of this from the Curnums.

There is a point connected with the Enam Cultivation to which I beg to draw attention, it is this, many numbers are entered as half Enam half Circar, without any definite division. so that it is most easy for the Enamdars in connivance with the Village Servants, to take whichever portion suits them best, In Cusbah Cumbum for instance there are 35 Nos paying a Cist. of 546-7-. half of which are Enam Lands, as I had hoped to have reported fully on this subject before leaving the Sub Division but owing to the difficulty in getting in the accounts from the Curnums objecting to assemble at the Cusbah Stations during the prevalence of the Cholera, I have had to leave it to my Successor.

The subjoining Statement shews the remission granted under the several heads in this fusly compared with that of the preceding one.-

Left remission to the amount of Rupees 352-3-2 in Kayamally Khamicut and Tamicherdicite was granted this year chiefly because much of the land on which these remissions were usually given were taken up by the Poyettahs towards agreeably to the Directions order and also as some Lands in the beds of emptied tanks were cultivated this year which were under water the year before.

The decrease in the collection of Tarry and Poonaca Leg to an increase and of the remission granted under the head of Bunjer. The remission under the head of Kanavakoodicite was chiefly for Crops failed in the Large Cumbum tank in those of Budwail and Pommamettah. The Large remission in Bandoo and Vettoopaudo was owing to the failure of the rains a Large portion of the Bandoo both at Cumbum and Budwail was examined by me and the rest by the Tahsildars.

Under Enamrayah is the equivalent paid for Kayment made to certain Village Authorities who have no Enams.

The Corle granted in the Budwail Talook has expired and the fields will this year be cultivated.

The increase and decrease under the remaining heads are in proportion to the quantity of Land cultivated but under the head of Khattiem Enams there is an increase of Rs 174-- % as an examining Serveral Villages of a Large increase of Cultivation was discovered on which the usual remission was granted.

This Statement shews the amount of remission in each Talook and for all description of Land.

The remission in Budawail and Doorpaud are a good deal above those of the former Fusly, but considering the unfavorable State of the season, Considered it better to shew some indulgence to the Ryots than to leave them burdened with demands, that would probably not have been met, or if met would have crippled their resources for future years.

For the same reasons the amount of Bunjer Gyer unremitted is left in the year to be carried forward as shewn in the following Statement.

The

Fort St. George 24th November 1845.

The above Statement shows a net decrease of Rupees 13,547—10—9 after deducting Rupees 773. 3. 3. increase on Enamty Tuffereek and Neersaurghee. Under Tanekeejastee there is a decrease of Rupees 1355—11—11 because Knowing that great advantage would be taken of the badness of the Season every possible exertion was used to have most of the Villages examined before the settlement and from what I have seen I am almost sure that were a larger number of Sungamey Servants employed each year, so as to have most of the Villages of each Talook examined, before it was settled, the result would be greatly in favor of Government, for until the Summah bundy Accounts are given in there would be less culpability attached to the non entry of land, and consequently less inducement would be offered to the examining Officer to connive in concealing the truth.

The Settlement for fusly 1254 has fallen below that of last Year by Rupees 13,547 10—9 and taking the average of the last ten years. There is a still greater decrease of 2288—8 The increase in Cumbum and decrease in the two other Talooks is shown in the following Statement the reason for which have been already given.

The

Fort St. George 24th November 1845.

The small balance outstanding in Cumbum speaks well for the activity and zeal of the Tahsildar, particularly when it is considered that his talook suffered much from Cholera in May and June. In Doopaud to the demand has been nearly realized, But in Budwail there is still a large outstanding balance, the Summabundy of this talook was the last done, and besides the actual loss sustained by the ryots from the want of rains, the backward state of the remaining crops, particularly of Indigo, prevented the Cist being paid up as regularly and as early as usual, the ryots too have suffered much from Cholera ever since the Settlement was made, The greater part of these demands will, it is hoped, be soon realized, but there remains a sum of 86-2-4 which from all the enquiries I have been able to make cannot be recovered and will I hope be remitted.

The following Statement shows the heads under which the outstanding balance has been classed.

Fort St. George 24th. November 1825.

For the Abkarree no higher bids could be got: at the annual auction. There is an increase in the Moturpha both in Veesabadee and Baghyer Veesabady, of which however Rupees 371-- 1 is owing to the change in the rate of exchange of the Pagoda, and is merely apparent, having been entered under a different head, as gain by exchange in former years, there has been an increase also in the tax on beams and wood for building, on looms and on Sheep as explained in my extra source report.

The past year has been a very trying one for the Sub Division there has been much small pox prevalent in it and Cholera raged with great fury in and about Cumbum in May and June Causing a sad loss of life - it spread over the whole of the taluk and afterwards broke out in Budwail and up to the present time there are still cases occurring tho it has greatly subsided.

There has been a great Mortality among the Cattle & Sheep by disease such as Pedda Rogam or a very dangerous kind of dea or hoa Galicoontloo, or boils and worms in the legs. Surcookoganloo disease in the bowels, and also from want of Grass and water.

In conclusion I have much pleasure in noticing the ability Zeal and attention to business shown by my Sheristadar Cunchenipully Kristna Row since he joined the Sub Division at the beginning of the fusly, under review.

To The Acting Collector in the Zillah of Chingleput.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of 21st. ultimo requesting their sanction for the confiscation of 210½ Marcals of Salt seized at Chingleput.

In reply the Board instruct me to state that before passing orders upon your application, they would wish for further explanation in regard to the places in which, and circumstances under which, the Salt was discovered, and to be informed of any other particulars connected with the case, besides the non production of due Rowaneahs which lead you to suppose the Salt to have been smuggled. They also wish to

Sir,

From C. Mallby Esqre
Acting Collr
of Chingleput

Reporting the seizure of some smuggled salt near Cheyoor and requesting authority for its confiscation

I have the honor to inform the Board that the Acting Head Assistant Collr has reported to me the seizure of the salt mentioned in the margin, which was being conveyed from the Cheyoor Kotaur by a party of dealers, of the class called Korawahs.

Marcalls Good salt 370
Inferior Do 370½
Gunny 136½

2.

The Defendants produced 2 Kowanahs for Mercalls 395, but were obliged to admit that the remainder or Mercalls 365½ was smuggled salt, and had been clandestinely obtained by them from the Villagers near the pans.

3.

It is further to be observed that the Kowanahs produced by them were dated the 6th October and allowed 45 days for

for carrying the salt to Salem, and yet the party was found more than 3 weeks afterwards within one stage of the pans. The Kowanahs do not thus seem to belong to this salt, and there is reason to believe that the Defendants were following a method which seems now frequently adopted and often with the connivance of the public servants, to defraud the Government. The method is to obtain a Kowanah ostensibly to carry salt to a distant place, for which due time is allowed; the salt thus purchased is sold in an adjacent Town, and the Kowanah is then made use of to protect smuggled salt.

Mr Cadell recommends

3.

that as the attempt to convey away smuggled salt is clearly proved, and the Defendants are traders well acquainted with the Government rules, the whole quantity of salt should be confiscated. This recommendation I beg to support as necessary for the protection of the revenue, and request sanction for distributing the usual rewards to the parties who made the seizure.

I have given directions for

4

the 39½ Marcalls of inferior salt to be destroyed, as it was not of sufficiently good quality for public sale, and appeared to consist of the scrapings of the pans.

The

16017 Fort St. George 24th November 1845.

The quantity of Salt for the confiscation of which sanction is requested amounts therefore to 370 Marcalls, valued at Rs. 111.

Resolution thereon.

(42-43)

The Board sanction the confiscation of the 370 Marcalls of Salt referred to in the foregoing letter, and the distribution of the usual rewards to the parties who made the seizure. They likewise approve of the directions for the destruction of 390 Marcalls of inferior Salt.

Para 1.

Sir,

I am directed by the Board of Revenue to forward the accompanying letter from the Collector of Salem under date the 24th Ultimo, and to submit for the consideration and orders of the Most Noble the Governor in Council the enclosed

Submitting a letter from the Collr. of Salem forwarding Copy of a Plaint instituted in the Subordinate Court of Salem No. 72 of 1845 by one Seertagherry Iyen agt. the Collr. Potter to have the Costs of a Assessment of Rs. 32.8.0 recently imposed on his Manaseal Cowle land struck out

16018 Fort St. George 24th November 1845.

Laid before Board & granted & letter to the Collr. of Salem & Copy returned to the respondent's Pleader with a Copy of this Proceeding stating that the Board consider the answer proposed to be filed by the Collr. good and sufficient & see no reason why it should not be filed on the part of Govt.

Allyen Cairmans of the Village of Vellagrounam dur Jaghir Sheerastadar of Salem.

enclosed copy of a Plaint instituted in the Subordinate Court of Salem No. 72 of 1845 by one Seertaghierry Iyen against the subordinate native officers named in the margin and the Collector of the District together with copy of the answer proposed to be filed in defence of the Suit, and to solicit the sanction of Government for defending the action at the Public expense.

2. It is alleged by the Plaintiff that he obtained from the late Collector Mr. Cockburn an extent of waste land on the annual reduced rate of Rupees 36-11-9 and that he has continued in the enjoyment thereof from the time of the original grant now extending to 23 years having duly discharged the above Seerwale, but that in consequence of an increased demand of Rupees 32. 6. 8 being the full survey assessment of the land in question having been recently entered in the Cuttums account and demanded by the defendants, he has demurred to the payment of the enhanced rate and sues the Court to have the extra assessment

of

of Rupees 32.6.8 struck off from the land and a Puttah granted to him for the payment of the Original Cowle assessment only viz. 36 Rupees 11.4.90.

3. She Statement of the Plaintiff that he obtained the land in dispute from Mr. Cockburn on discretionary Cowle and at the rate asserted by him would appear from the proposed answer to be true, and altho' this indulgence was irregular on the part of that Collector it was deemed expedient by the Board in their proceedings quoted in the Margin, to continue the Cowles so bestowed undisturbed "so long as the original grantees "have possession of them and pay the reduced assessment "punctually but there did not appear sufficient reason "for continuing them longer." In these views the Govt. intimated their concurrence in para 5 of the Extract Minutes of Consultation dated 6th of June 1837 No. 7601.

Board's Proceedings 11th May 1837 relative to the Settlement of Fusly 1245 Para 31 & 32.

In Cons. 22d June 1837.

4 It having however been ascertained during the settlement of Fusly 1253 that the land mentioned in the Plaint had passed from the possession of the Plaintiff to other parties on mortgage the full Teerwah assessed upon the land was ordered to be imposed and collected in future.

5. It will thus appear that the Plaintiff having failed to conform to the conditions required by the Board as laid down in the Proceedings referred to above and the Govt Remuneds of the District has virtually annulled his Cowle, and rendered the land in question liable to the full assessment of Rs. 69.2½ and under these circumstances the Bd consider that the proposed answer is good and sufficient, and they beg to support the Collr. request that the suit may be defended at the expence of Government.

6. The Board having had occasion to apply to the Collr. for additional information relative to the second suit mentioned in the above letter, will, on its receipt submit the Plaint and answer therein referred to for the orders of Govt.

of 6 17/64 Cawnies of Nunjah and Poonjah lands
situated in the village of Sittalaray, in the fol-
lowing Fusly 1253 by defining its boundary &c.
which was waste for a Century. That Gentleman
endorsed it directing the Tasildar to hold an
inquiry on the subject of the land, to measure
it and to place me in possession thereof, who, in obe-
dience to the above orders, caused the land to be
measured by the 3d Defendant, Curnum of the Village
and another Puttahmongar Mooteyalo Reddy according
to the boundary mentioned in the said proposal, and
ordered the same to be made over to me by fixing the
Haits and Turnus or Sorts. The following are the

3 The accounts were thus prepared and
the lands delivered to me - Of the abovementioned
Nos. I have cultivated Nos. 108, 456, 440, 328, 436, 438, 439, 457, and
437, as well as 1/32 Cawnies included in the 7th Turnu
and unmeasured, after undergoing great expense in
cutting jungle, levelling and improving the ground;
such being the case, the 2d & 3d Defendants with the
support of the Sheristhadar of the said Taloork who
acted during the Thasildar's absence at Munjacoupum
caused a proposal to be made by the 1st Defendant
for the Hoits Nos. 456 and 457 as well as 1/32 Cawny being
the excess of measurement, making in all 2 1/16 Cawnies
of land, obtained & taked in their name for the
delivery

deliviry of the said land to the 1st Defendant, and measured the same - I had not only made objections against this illegal delivery to others of the land given to me upon my proposal, and cultivated by me already but also brought this fact to the notice of another Puttahmonigar named Mooteeyaloo Reddy, and some other ryots, who declared the impropriety of the measure and the former handed over to me a Cadjan letter to the address of the Taloote Sheristhadar, which the latter, without perusal on my delivering it to him -

4. On my representing the above fact to the Shasildar, after his return, he, on ascertaining the same from the Duffadar, and Karkoon who went to the spot for that purpose under the former's orders, cancelled the Sheristhadar's order, and the 1st Defendant's Durkast as being illegal, and ordered that as I was the first Durkastdar and was cultivating by actual possession of the land - I had a right to it - The Shasildar took subsequently from me a Vicheeka, or special mochilka stating that I bind myself to discharge the Circar Kist whether I cultivate the above extent of 6 17/64 Cawny of land or leave it waste -

5 The Shasildar having been possessed of the information respecting the 2d and 3d Defendants fraudulent intention to upset the 1st proposal he brought it to light by taking a Deposition from the 3d Defendant in which his frauds were found out - Moreover at the Jummabundy settlement of Fusly 1253, a Teerwah was fixed on the aforesaid 6 17/64

6 17/64 Cawnies of Nunjah and Poonjah including Cultivable and waste land in my name, and Puttah granted to me at the time - I have in accordance with the terms mentioned in that Puttah, discharged the Circar Teerwah according to Kistbundy due before and after the said Jammabundy -

6. While my right stood thus I was given to understand that on the 1st Defendant making a representation to the Collector that his second Durkast was objected to, that Officer gave him a Puttah for the three Kauls of land described in the 3d Para of his Durkast which was entered in my name - I have presented a Petition to the Collector on the 8th Chittaray of the above Fusly but that Gentleman only endorsed that a report should be made to him regarding it - It does not appear whether that endorsement was forwarded to the Shasildar or a reply submitted by him - for, that Officer never sent for me, nor instituted an inquiry into the case, and on my presenting another Petition on the 20 July 1844, the Collector instead of holding an inquiry passed an Endorsement upon my first Petition that the second proposal was admitted, that I was absent notwithstanding a notice that was served on me, & that the amount of Kist due upon the land cultivated by me should be collected and credited to the Puttah of the 1st Defendant - On the 2d Petition also an endorsement was made with reference to the above - No Notice was ever sent to me nor was I absent at any time, nor was there any cause for a notice to be issued while I was freely carrying on cultivation The above

false report appears to have been made by the said Lalook Sheristhadar to the Collector.-

7th " While I was made answerable to pay a Teerwah on waste, and executed a Moochilkah to that effect to the Cirkar, the Defendants took illegal possession of the 3 Kaits of land which is the best than the rest, and made me liable for the loss that might have occurred in the cultivation of the other land, and the Collector's approval of this transaction is quite unjust - It is moreover evident that the Collector would not have passed such an order had he been fully informed of the whole merits of this case that the real fact of the case had not been reported to the Collector, and that some fraud had been practiced in this case is prefectly clear - That the Defendants having taken an illegal and fraudulent possession of the 3 Kaits of land cultivated by me leaving only the waste out of that which was in my enjoyment according to the proposal, and Puttah this suit is brought against them for the recovery of the same - The remaining land having been laid waste on account of the mischievous acts of the Defendants, a separate suit will hereafter be filed for the loss sustained thereby - Under these circumstances I pray that the extent of land hereunder detailed which the Defendants have illegally obtained possession of, may be restored to me and that the Puttah granted in the first Defendants name cancelled.-

Supplemental Plaint presented by Munnaroo Reddy, Plaintiff in Suit No. 52 of 1845.-

The suit which I preferred against Rungappa Reddy, Ramakistna Reddy & Narain Pillay the 1st 2d and 3d Defendants for the recovery of 2 7/64 Cawnies of Kunjah land obtained by me upon a proposal of which they (Defendants) took illegal possession, is now under investigation before you - In the original Plaint 2 7/64 Cawnies were entered by oversight instead of 2 5/64 Cawnies - which error, I beg may be rectified - On my presenting a proposal to the Collector for the 6 and odd Cawnies of land mentioned in the Plaint that Officer sent an order to the Shasildar on the subject, who on making it over to me in compliance thereof, I cultivated some part of it after cutting jungles and clearing the

the land such being the case, the 1st & 2d and 3d Defendants thro' the influence of the Talook Sheristhadar who acted for the Shasildar during his absence on leave at Cuddalore, caused the aforementioned 2 5/64 Cawnies of land which underwent considerable improvement, and was then fit for cultivation to be entered in the 1st Defendants name, as if the land was not in that state, and, as if he had given a second proposal for the same, which subsequently the 2d Defendant obtained possession of. After the arrival of the Shasildar in the Talook I brought the circumstance to his notice, who, on perceiving plainly that the acts of the Sheristhadar were unjustifiable, commenced an investigation against the Curnum for his misbehaviour, took a deposition from him, and obtained a special Moochilkah and security from me for the whole Kist that was due according to my first proposal and ordered me to carry on my cultivation by making the usual entry in the cultivation account. A teerwah was thereupon fixed on the land which I cultivated, as well as on the waste land, and a Puttah accordingly prepared during the Jummabundy settlement of Fusly 1253, but at the time of its distribution, the 2d Defendant caused various objections to be raised by the 1st Defendant and the Collector without holding a full and impartial inquiry into the circumstance, struck off the said 2 5/64 cawnies of land from my Puttah and gave it to the 1st Defendant. My object in obtaining possession of the

Fort St. George 24th November 1845.

the whole land was only on account of the fine quality of the 2 5/64 Cawnies now in dispute, and while I have given a special Moochilkah to the whole 6 and odd Cawnies including the said 2 5/64 Cawnies too, how could the latter portion which was cultivated by me, and which was of the best of all, be made over to the 1st Defendant. The Collector cannot insist on me to pay teerwah on the remaining waste lands in accordance with the conditions of the said special agreement or Moochilkah, nor to make over the said portion to others as I had already cultivated it. The condition of the special Moochilkah being, that the 6 and odd Cawnies of land therein mentioned, should be in my enjoyment, how can the Collector in opposition to the said condition make over the best portion of it to others binding me alone to pay Kist on the remaining portion which is waste? If the Court will therefore take into consideration the above circumstances as well as the reasons adduced in the Plaint it will be convinced that the transfer of the land in question by the Collector was quite irregular, and that he (the Collector) had no power to oust me from the possession of the said 6 and odd Cawnies of land; I therefore pray that Mr. Davis the Collector of this Zillah be also included as a Defendant in this suit.-

Answer of the Collector of South Arcot / the supplemental Defendant in Suit No. 52 of 1845 / to the Plaint preferred by one Munmaroo Reddy for the recovery of certain lands annually yielding Rupees 26-2-4-

It is true that the Plaintiff gave Proposal on the 1st May 1843 for a certain quality of waste land, but nor land was put in his possession by the Shasildar, as mentioned in the plaint, and the Plaintiff having neglected to take possession of the land after giving the usual Moochilkah notwithstanding the promulgation of an Istyar and a Notice to him by the Shasildar, his Proposal, as well as those of some other individuals on the same grounds, were rejected by an order from the Collector, dated 18th September 1843

1/ 1st Sept 1843

Then there being no claimers against the land in question and the 1st Defendant Rungappa Reddy having given a proposal on the 22d November to cultivate a portion of it, after ascertaining by the accounts that it was classed as "Anady Waste," it was regularly made over to Rungappa Reddy: on the 30th of the same month by the Saloot Sheristhadar in charge, on taking a special Moochilkah for the payment of the regulated Seerwah.

The Shasildar having been absent at

Fort St. George 24th November 1845.

at the time, the land in question was made over to the 1st Defendant, the Plaintiff, on the Shasildar resuming his duty, appeared before him, to renew his claim when the former, without considering the order cancelling the Plaintiffs proposal improperly and thro' partiality, set aside the decision of the Sheristadar, and taking from the Plaintiff a special Moochilkah for the whole lands mentioned in his cancelled proposal, put him in possession thereof.

The 1st Defendant appealed against the illegal act of the Shasildar to the Collector, who confirmed the decision of the Saloot Sheristhadar, after making a full and personal enquiry into the case during the Jummabundy, and ordered the lands in question to be entered in the first Defendants Puttah, and issued a Sakeed to the Shasildar, to make over to him only the portion to which he was entitled at the close of the Fusly year, and to leave the rest undisturbed, also to collect from the Plaintiff the Seerwah of the whole lands for the year which the latter illegally took possession of, and enjoyed the produce thereof.

In conclusion the Collector begs to state, that as the above fact will be proved by evidence and Documents, he trusts the Court will dismiss the suit with Costs.

To the Collr of Sd Dt of Arcot
Requesting him to furnish additional information regarding Suit No 52 of 1845 on the file of the Sudr Ameens Court at Cuddalore

Sd Court's letter of the 17th Inst 1845.

To
The Collector in the Southern Division
of Arcot.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter under date the 17th Instant submitting Copies and traslations of an original and supplemental Plaint No 52 of 1845 on the file of the Sudr Ameens Court at Cuddalore, and also draft of an answer which you propose to put in in defence of the Suit.

Before taking any further measures, the Board wish for some additional information in regard to the facts of the case. It appears from the Plaint submitted to the Court by the Plaintiff Nunnaroon Reddy that agreeably to terms of the engagement entered into with the Shanbogue for the land in dispute he was in actual possession and carrying on cultivation and was responsible under the condition of the Morchilka for the full assessment whether the whole extent of the land in question was cultivated or not - on the other hand however it is stated in the proposed answer that no land was put in his possession" and that after giving the usual Morchilka he "neglected to take possession of the land notwithstanding the promulgation of an Istyar and a notice sent to him by the Tahsildar.

The Board instruct me to request that you will be so good as to ascertain and report whether the land or any portion of it was, as asserted by the Plaintiff, in his occupancy and whether any labour had been bestowed upon it for the purpose of clearing or cultivation and that you will further explain the nature of the Istyar and notice alluded to in your answer, and also furnish Copies of the same with translation, at your early convenience.

Relative to the Settlement of the Extra Sources of Revenue in the District of Tanjore for Fusly 1254.

Here enter A-1

The demand on account of all Sources of Extra Revenue amounted in the year under Report to Rupees 8,42,054-12-1. being Rupees 89,649-4- below the Settlement of the previous Fusly should however the Sayer duties Viz Rupees 1,99,375-2-11 be deducted from the out-turn of Fusly 1253, the receipts for the period under review would exhibit an increase of Rupees 109725-14-11 as shewn in the Statement annexed to para 2 of the Collectors Report and abstracted in the Margin.

The gross Revenue derived from the Sales of Salt exceeded that of Fusly 1253 by Rupees 38899-7-5. Although there were no exports by Sea, and a falling off in the quantity supplied to Tranquebar and Karrical, yet the great improvement in the Sales for Home and Inland consumption counterbalanced these losses, and yielded the Increase noted above. In para 6 of his report the Collector has quoted the effect of prices on the Sales of Salt, he observes that for the short period

period that the enhanced rate of Rupees 180 per Garce continued in force in the year under review Viz.t up to 16th August the quantity disposed of for Home and Inland trade was less by 63-205-6- than in the corresponding period in Fusly 1253, but that on the prices dropping from that date to Rupees 120 per Garce the upshot of the sales as contrasted with the same Months in the former year exhibit the large excess of 388-349-1-

The recent transfer of the Danish Settlement of Tranquebar to the British Government renders any notice of the remarks of the Collector in paras 7 and 8 unnecessary-

Paras 9 to 12

4-

The export Frontier duties exhibit an increase of Rupees 13,397-13-2 arising from a more extensive traffic in Grain and other commodities and the enhanced rate of duty- the Imports exhibit a decrease of Rupees 2,446-7-3- caused chiefly by the transfer of the Manufacture of certain piece Goods to the English Villages which had previously been made in the French Territories, the high rate of Frontier duties together with the abolition of transit duties rendering the change of locality beneficial to the Manufacturers-

Under the head of Sea Customs is exhibited a very considerable increase on Exports Viz.t Rupees 76,681-13-3- the Imports however shew a decrease of Rs.10033-6-7- the net increase in this item of Revenue is therefore Rs.66,648-6-8 the

the increase in the former is stated by the Collector to have arisen chiefly from the extensive demand in Ceylon for Grain and he attributes the decrease in the latter to the diminished Importation of Sundry Merchandize, combined with a reduction of duty from 8 to 3½ per Cent- of the whole collections- from this source it is stated that no less than Rupees 86,034 were received at the port of Negapatam where there was an increase in the receipts over the previous year of Rupees 31,919-14-5- The Board are gratified to find that so considerable a trade is carried on at this port and that the business already established there is likely to be augmented and improved-

Para 18 6-

The Abkarry Settlement exceeds that of the year preceding by Rupees 2,130 arising from the more favorable rents received- The demand on account of Moturpha also exhibits a small increase of Rupees 5-8-14-2-

The abolition of the transit duties and a falling off in penalties caused a reduction in the Stamp Revenue to the extent of Rupees 13,429-11-11- which has been partly counterbalanced by an increased Sale of Rupees 5,632-4-7 in Money papers and Sea Custom Rawanahs- the net decrease is therefore Rupees 7797-7-4- as shewn in the Margin.-

9- The total Collections on all the branches of Extra Revenue for the year amounted to Rupees 8,42,648-14-10 and the charges to Rupees 68,270-6-9- being a net Revenue of Rupees 7,74,378-7-3- which is below the Collections of the previous Fusly Rupees 77,461-10-3- and taking into consideration

consideration the loss occasioned by the operation of Act VI of 1844 the Board are glad to observe the very great improvement in the Revenue derived from Extra Sources in the District of Tanjore-

P. 22- 10- Sir H. Montgomery in the last para of his letter states that the whole of the balance at the end of the Fusly Viz. Rupees 24,095-8-11- had been subsequently realized, leaving nothing outstanding for Fusly 1254 on the date of his report- a result which is considered highly creditable to the Collector and his Subordinates.-

Ordered that a copy of the foregoing Extract from the Board's Proceedings with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government, and a transcript of the same be transmitted to the Collector of Tanjore for his information and guidance.-

Resolution thereon—

55-56

Under the explanation furnished in the foregoing letter it appears that the large increase of Rupees 2,318-7-6- under the head of Charges in the item of Stamp Revenue in the District of Trichinopoly for Fusly 1254 A.D. 1844/45. was occasioned by an order from the Court of Sudr Adaulut for the refund of the value of certain Stamp Papers in an appeal Suit.—

Ordered that the information now supplied by Mr Onslow be submitted to Government, with reference to the remarks of the Board of Revenue in Para 9 of their review of his report on the Management of the Exctra Sources of Revenue in the above District for Fusly 1254 A.D. 1844/45.—

To J. Pycroft Esqre
Secretary to the Board of Revenue
Fort St. George.

Sir,

From the Collr of Trichinopoly ---

The

Resolution thereon.

57-58

The Board authorize the purchase by the Jemindar of Delayets in the Collectorate Huzzoor Cutchery of the lands mentioned in the Statement which accompanies the foregoing letter.

Read again letter from the Principal Collector of Madura dated 22d Ultimo and entered in Cons: 17th Instant.

Ordered that the following letter be sent in reply.

To, The Principal Collector of Madura.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 22d Ultimo requesting instructions in regard to certain questions arising from the transfer of an Ambalom Meerassee recently made by you under orders of the Subordinate Court.

2. The particulars of the case are not stated, but the Board presume, that as in the instance to which the enclosure in your letter refers, the sale of the Meerassee must have taken place in consequence of some transaction which came under the cognizance of the Civil Courts prior to the promulgation of Regulation VI. 1831. If it be otherwise the Board request that the actual circumstances may be explained.

3. In regard to the points submitted in Para

To the Principal Collector of Madura.

Communicating instructions in regard to certain questions arising from the transfer of an Ambalom Meerassee recently made by him under orders of the Sub. Court.

In Cons: 17th Nov. 1845.

59

Para 2. of your letter, the party to whom the late transfer has been made having as the Board understand purchased the entire Meerassee with its fees, Maneum lands, and emoluments of all kinds, must they apprehend be held to have succeeded to all the duties and liabilities of the former holder. They are also of opinion that it is not competent to him to sell divide or in any way alienate the emoluments of the Meerassee - all such alienations subsequent to the passing of Regulation VI. 1831. and not arising immediately from transactions pending at the time that that Regulation was passed, being peremptorily interdicted by its provisions. It does not appear to the Board that this can bear hardly upon the late purchaser who brought the Office in its present state and subject to all the conditions of the existing law.

Revenue Board Office,
Fort St. George,
