To

J. Sycroft Esqre

Secretary to the Board of Revenue

(63)

Fort St. George

Sir,

From the Collr of Tinnevelly.

Para 1. In reporting upon the result of the settlement of the Land Revenue of this District for Fusly 1254 A.D. 1844/45 I have the honor to forward the usual Statements Marked A to D numbered 1 to 12.—

Reporting upon the Settlement of Land Revenue of the Tinnevelly District for Fusly 1254 forwarding the usual accounts relative to it.

Season.

2. During the Cair season of Fusly 1254 A.D. 1844/45 rain was partial throughout the District, and the supply of water in the Rivers and Channels, not abundant; the consequence was a decrease in the Kunjah Wet crop. Cultivation under Agaput channel fed and Pounacolum Rain fed of Seed Cottahs 1638 - 12 - 6 3/8 Sc. M. M. and 2229 - 16 - 1 1/2 respectively below Fusly 1253 A.D. 1843/44. From a failure of rain in the Months of June July and August Drought and short produce followed, as shown in the Margin, and remission in some cases was inevitable.—

Statement B. Co.s Lv 2058 774,
Extent of Drought — 12 - 6 - 7 7/8 Ac. M.
Dr.s of Short produce — 775 - 6 - 2 1/8

Peshanum 3. The season was unfavorable for Peshanum, the rains in September and early part of October were but partial, occasioning a large decrease in Pounacolum Kunjah and Poonjah Cultivation the increase observable from the Statement No. 5 in the

Agapist was owing to the River Tambraparny the Main supply of the District, having received its full freshes in October - In January and February the supply of Water for Nunjah Cultivation, was totally insufficient, the Crops in some cases entirely perished, while in others, they yielded but scanty produce, and the extent of failure in both these cases, amounts to seed Cottahs Mds 941 - 4½ and Mds M 2371 - 7 - 2 respectively -

4. On reference to the foregoing Statement No 1, it will be observed that the increase under the head of Nunjah Ooloongoo Villages, has arisen from one Village under the head of Nunjah Pottom,

and

and two from that of Poonjah, having been added to the Ooloongoo Villages for reasons hereunder explained -

5. The Village of Nadoovacotum in the Nungoonary Talook contains both Pottom and Ayen lands, and up to Fusly 1253 / A.D. 1843/44. only the Pottom lands have been cultivated, but in the Fusly under review, the Ayen lands also having been brought under the Plough, the Village was transferred to the Head of Ooloongoo -

Improperfully and Villaencottay.

6. The two Villages in the Margin, were up to fusly 1253, entered under the head of Poonjah, the Cultivation being confined only to Dry lands, but in Fusly 1254 / A.D. 1844/45. the Nunjah lands also having been brought under cultivation, the Villages were necessarily carried to the Head of Nunjah - The decrease in the Number of Nunjah Pottom and Poonjah Villages below that of the previous year, is consequent on the transfer above mentioned -

7- On a reference to the fore-going Statement No. 2 it will be seen, that the extent of Kunjah Carr and Peshanum Cultivation in unsettled Villages for Fusly 1254/1844/45 has fallen short of that of the previous Fusly, by seed Cottahs 6,882-8-4½, adding to this, the decrease in the extent of Kunjah and Bagayet Cultivation in the 4 settled Villages, amounting to seed Cottahs 3-3-7½, the total decrease in Kunjah Cultivation below last Fusly stands at Seed Cottahs, 6,885-12-4-

The extent of land brought under Kunjah Mail Poonjah and Vampyr Cultivation in Fusly 1253/A.D. 1843/44 amounts to Seed Cottahs 1908-a-2¼, from which deducting Seed Cottahs 546-13-5½ Cultivated with the 8 Sorts† of produce and assessed up to Fusly 1253/A.D. 1843/44- at their usual, or at Kunjah rate, whichever was highest, and which according to the orders of the Board conveyed in Para 25 of their Proceedings dated 17th a October 1844 have been in Fusly 1254/A.D. 1844/45 assessed at the usual rate, the remainder comes to Seed Cottahs 1,361-7-4¾- The Kunjah Mail Poonjah and Vampyr Cultivation (excluding the 8 Sorts during the Fusly under consideration, and which will revert to full Kunjah Teerwah in the

the Settlement of the Current Fusly, (agreeably to the Board's orders of 22d December 1842) amounts to Seed Cottahs 2,167-16-4 3/8 or more than that of the previous Fusly by Seed Cottahs 806-8-7 5/8-

8- The extent of Kunjah Mail Poonjah and Vampyr Cultivation which still remains under that Head, including that Cultivated with the 8 Sorts of produce, comes to Seed Cottahs 10,056-2-2 3/8 being 1773-13-4 3/4 in excess of Fusly 1253/1843/44-

9- A comparison of the total Cultivation under Kunjah Mail Poonjah and Vampyr between Fusslies 1253/A.D. 1843/44 and 1254/1844/45 shows an increase in favor of Fusly 1254/A.D. 1844/45 of Seed Cottahs 2,580-1-4 3/8 this is owing to the Season which has been unfavorable to Kunjah, having been conducive to this species of Cultivation not requiring so much water

water as pure Nunjah. The decrease of Chains 11 61 37/64 in the Poonjah Cultivation, is attributable to the bad state of the season already noticed.—

10. The Marginal Statement No. 3 shows that the settled prices of Fusly 1254 A.D. 1844/45 have exceeded that of the last Fusly by 15 3/8 per Cent. This Increase is partly attributable to the diminished extent of Nunjah and Poonjah Cultivation, and the scanty produce of the Carr and Peshanum harvest, consequent on the failure of the rain at a period when much was required and partly to the high prices in

in the neighbouring Districts of Travancore and Madura, consequent on a similar failure there, of the usual rains.

The subjoined Statement, No. 4 exhibits in one view the settlement of the Fusly under the several branches of Land Revenue in contrast with Fusly 1253 A.D. 1843/44.

From the foregoing Statement, No. 16. it will be seen that the total extent of Land Cultivated with Nunjah Mail Poonjah and Tarnah in Fusly 1253 / a.D. 1843/44 is Seed Cottahs 771 - 12 - 3½ from which deducting Seed Cottahs 546 - 13 - 5½ Cultivated with the 8 Sorts of produce, and assessed at the Nunjah rate in Fusly 1253 / a.D. 1843/44. but in Fusly 1254 / a.D. 1844/45. assessed at the usual rate, the remaining extent of Nunjah Mail Poonjah land, subject to Nunjah tax, is Seed Cottahs 224 - 19 - 6. which, compared with the Cultivation of Fusly 1254 / a.D. 1844/45. shows an increase in favor of the year under report of Seed Cottahs 216 - 17 - 6⅛, giving an additional Revenue of Rupees 1118 - 4 - 2.

It may here be remarked that the supply of Water that remained in the several Reservoirs Tanks, during Fusly 1254 - a.D. 1844/45. though not sufficient to carry on the Cultivation to its full extent, has contributed in a great measure, to produce an increase in the Cultivation under this Head, which together with the augmentation in the Assessment has caused

the

the excess alone noticed. Under the 2nd Item there is also an increase in Cultivation as well as in Revenue, the former amounting to Seed Cottahs 589 - 12 - 1/2, and the latter to Rupees 6,603 - 7 - 8. The cause assigned for the increase of Cultivation in the 1st Item is also applicable to the increase under this Item. But the excess in the Revenue is attributable to only 1/4 of the difference between the Nunjah Teermahs and the usual Nunjah Mail Poonjah Teermah, having been remitted in Fusly 1254 / A.D. 1844/45. and partly to the high Nerruck. The Nunjah Mail

Mail Poonjah Cultivation under the 1st and 2nd Items, being added the total Cultivation comes to Seed Cottahs 2,167 - 16 - 4 3/8, which is more than that of the previous Fusly by Seed Cottahs 806 - 8 - 7 5/8 giving a Revenue of Rupees 7721 - 11 - 10.

17. Under the Head of Nunjah Mail Poonjah and Vamjyr Cultivation (taxed on the produce and not on the Soil) there is under the 1st Item, a decrease in Cultivation and Revenue amounting to Seed Cottahs 33-12-2/8 and Rupees 4817.1-⅛ respectively this decrease is chiefly attributable to the lands Cultivated with higher Sorts of products, having been less in Fusly 1254 than in the previous year A.D. 1844/45.

The increase in the 2nd Item both in Cultivation and Revenue, is owing to the Ryots, who were losers in Nunjah and Poonjah, having as the only remaining sources of profit, employed much of their

their labor and Capital on Well Cultivation, and the supply of Well water having been sufficient. The increase under the 3rd Item being small, needs no explanation.

On

18.

On reference to the foregoing Statement No. 11, it will be observed that the Revenue of Fusly 1254 A.D. 1844/45. in the 4 Settled Villages notwithstanding the trifling decrease in Nunjah Cultivation of Seed Cottahs 14-19-½ has exceeded that of the previous Fusly by Rupees 320-7-2. this is owing to the excess of land employed for a 2nd or additional Crop having been greater in Fusly 1254 than in Fusly 1253 A.D. 1843/44.

19.

The permission to Cultivate a 2nd Crop on Lands on ½ Teerwah of a 1st Crop as usual in most other Districts except Tennenelly has induced a beneficial result: whether the Teerwah on a 2nd Crop, is charged (as general in Tennenelly) at Rehaimum or on some abitrary and local Rule, higher than ½ Teerwah, the Ryot is discouraged from attempting a 2nd Crop, especially with a scanty supply of Water, but where he pays the lighter rate of half Teerwah, he is encouraged to risk his Capital and Labour, if the Season is favorable he is a gainer; if the Rains fail he probably reaps ½ a Crop, and is not such a loser as to discourage or Crippple him for the future, and the excess of land Cultivated under 2nd Crop on

at

½ Teerwah, will more than make up the loss by a lower and fairer rate, and both Government and the Ryot be eventually benefitted. It also, and which is a great point, is a great Check on the Curnums who before had it much in their power, to rate a 2nd Crop at a Rehaimum or higher rate according to circumstances. now every Ryot will know what he has to pay for a 2nd Crop ½ Teerwah.

20.

An Increase in Cultivation under the head of Ayen and Poonjah Bagayet amounting to Seed Cottahs 11-15-1 has produced a corresponding increase in revenue of Rupees 50-:-10. as shewn in the foregoing Statement. The total Wet Cultivation in Fusly 1254 A.D. 1844/45. including Bagayet, is Seed Cottahs 3-3-7½ less than the total Cultivation of the previous Fusly, but the Revenue for the same, is higher than that of the previous year, by Rupees 370-8-:-.

21.

Some of the Ryots in the survey Villages having notwithstanding the orders given at the Settlement of Fusly 1243 A.D. 1833/34. left small portions in entire fields waste, the lands thus laid waste in Nunjah and Poonjah amounting to Seed Cottahs

23.

From the following Statement of Collections for Fusly 1253, it will be observed, that the Revenue of Fusly 1254 will be 4 lakhs of Rupees, and that the Revenue of Fusly 1254 will exceed by 1 lakh of the Revenue of Fusly 1253.

2. From which deducting Rupees 44-4-4- being the decrease caused by the extent of Waste Cultivation in Cultivated Fields during Fusly 1254, the net increase amounts to Rupees 643-4-9- The increase in cultivation in these 4 Villages alone, while the decrease in Cultivation of the whole District generally has suffered, would seem to point out that the intraduction of the Survey has tended to encourage Cultivation to the Prudential Profit both of the Ryot and Government.

34. The decrease in the 1st Item of Cranam, was caused chiefly by diminished cultivation of Cranam Lands, in the Streevelly poottoor Taloo[illegible]

The

Fort St. George 24th November 1845.

The Increase in the 2nd 3rd and 5th Items, is owing to the grain in which the Enams are usually paid, having been in Fusly 1254 / A.D. 1844/45 commuted into Money at a price higher than in Fusly 1253 / A.D. 1843-44. The Increase in the 4th Item is consequent on the increased extent of Poonjah Cultivation in the Tenecauay Taluk in Fusly 1254 / A.D. 1844/45.

36. The Demand on account of the several Items enumerated in Statement No. 26, which is usually added to the Land Revenue, amounts for Fusly 1254 / A.D. 1844/45 to Rupees 3,96,484-12-9. being short of the amount of the previous Fusly by Rupees 1,078-12-5 which may be explained as follows.-

37. The Increase under the 1st Item or Hill Rent was caused by a part of the Hill produce, having been in Fusly 1254 / A.D. 1844/45 realized under Sunnuds, that under the Head of Desacavil or Serva [illegible] Villages is consequent on the grain, in which this Cham is paid, in some Villages being commuted at a higher rate than the previous Fusly

38. The trifling Increase of Rupees 1-2-5, under the Head of Company's Grant, is the amount of Jeerwah on a piece of land granted to Mr. Zachary Macauly Agent of the late Mr. Baggott of Tutacorin, under the Sanction of Government dated the 29th August 1834. The Increase under the Head of Tripany and Chuttrums, is consequent on the augmentation of the Nerruck The increase under these different Heads being added together, the total Increase amounts to Rupees 1,342-13-5 which being set

45 The advance for cultivation made to Ryots in former years and still remaining unadjusted, amounts to Rupees 2,137-5-4 for the Collection of which, all measures but that of sequestration of property have been adopted, but without effect. Some of the Ryots who owed Rupees 106-14-8 have died, and others who owed Rupees 184-1-7 have deserted and are not forthcoming; while others again who are indebted to the amount of Rupees 891-5-1 have become entirely insolvent. Under these circumstances the above sum of Rupees 2,137-5-4 is irrecoverable and I request that the necessary sanction may be obtained for writing off the same to "Profit and Loss".

Fort St. George 24th November 1845

47. As mentioned in para 51 of the Summahbundy Report as for Fuslies 1253 A.D. 1843/44 a strict examination of the Ayacut accounts of each Village, has been made, and the real extent of Ayacut, has been discovered and entered in the Statement B, of which the foregoing is an Abstract. The difference in the extent between Fuslies 1253 A.D. 1843/44 and 1254 1844/45 is owing to the recent strict examination and rectification of the accounts.

42. I beg to forward the Sub-Collector's Report, and to add that I have invariably received from Mr. Elton, the most cordial and efficient co-operation in all duties of the District. Mr. Levinge, the Acting Head Assistant continues to render me valuable aid, and since Mr. Chatfield (the Special Assistant) leaving in June last, Mr. Levinge has conducted most of his duties in addition to his own. Mr. Cator joined the District in June last, has charge of the Petition Department and is assiduous in making himself acquainted with the details of Police and other business; which, with a good and improving Knowledge of

Season. 3. The rains in april, before the opening of the Fusly were partial and very slight, but the Carr Season of Fusly 1254 under review, was not unfavorable on the whole. The rains which commenced in the beginning of June falling with some intermission on the Hills till the beginning of September, and affording a constant supply of

of water in the Channels and Agaput Tanks, the carr crops in Shermadavy and Brammadavom, to which Talooks carr cultivation in the Sub Collectors Division is almost entirely confined, came to full maturity- In the Talook of Sunkerninarcovil alone remission was granted to the extent of Rs 7-8-7-

4- The Season for Peshonum is from the beginning of September to the end of November for both Nunjah (Wet crops) and Poonjah (Dry grain) cultivation, and during this period there fell no heavy rains extending generally over the country- The cultivation under Agaput tanks (channel fed) though equal to, was not in excess of last Fusly, and owing to the falls of rain which occurred being slight and partial, some of the Ponacolum (Rain fed) tanks had a deficient supply of water, while others received no supply at all, the cultivation under these tanks in consequence fell short of that of last year- Subsequent to 20th of December it rained heavily for a few days on the western range of Hills, and filled some tanks- This supply of water enabled the Ryots to bring certain waste lands under cultivation, which yielded good produce, but previous to this the cultivation had already suffered by drought. The Peshonum season having been, as shewn above, less favorable than that of the previous Fusly, the amount of remission given for crops suffered from drought was larger this Fusly

Fusly than last, as shewn in the margin- This Remission was granted particularly in the Talooks of Sunkerninarcovil and Streevilly poottore, where a considerable decrease in Poonjah cultivation also occurred below last year, which will be further noticed under that Head, and in some places the Poonjah crops yielded a short produce- as regards the Season it remains to be added that there was an unusually heavy fall of rain at the close of the Fusly during the Month of March, but productive of but little benefit to the revenue of the year under review-

5- The Carr Nunjah cultivation has fallen short of that of last year by Sc 2364- 17- 5- which is attributable to two causes- 1st- a large portion of this decrease amounting to Sc 1977- 9- 5 1/4 has occurred in the amount of Aunymoodungun or 2d & 3d Crops on 1or 2 crop lands, the cause of which is that, this description of cultivation made in Fusly 1252, having been to a considerable extent reaped in Fusly 1253, it was as usual brought to the carr accounts of the latter Fusly- Whereas in the

the Fusly under review, the tanks not having been well supplied at the end of the Fusly preceding from the rains in April being as noticed, partial and slight few lands cultivated with Aunymoodungun in Fusly 1253, were reaped and carried to the carr accounts of Fusly 1254- The remaining Sc. 387-7-7¾ is the decrease in cultivation consequent chiefly on the deficiency of the early rains in the Talooks of Sunkernimarcovil and Streevillyposttoor, and as regards the Talook of Shermadavy, from the early rains not being so abundant as in the preceding Fusly.-

6- The Carr Nunjamel Poonjah and Vonpyre cultivation has exceeded that of last year by Sc 88-6-⅜ the cultivation under Wells having been extended owing to the want of rain.-

7- In the Peshonum Nunjah cultivation there is a decrease of S.C. 940-12-6⅝ below last year- The decrease in the regular Peshonum cultivation amounts to S.C. 1265-17-⅞ the cause of which is, as previously

The net decrease amounts therefore to S.C. 940-12-6⅝ as previously mentioned, ascribable to the unfavorable state of the season, But there is an increase in the late Aunymoodungun cultivation of S.C. 325-4-2¼ - owing to heavy falls of rain at the close of the Fusly (1254), brought as usual to the Peshonum accounts-

The Season under review has been so unfavorable, amounting almost to a failure of the N. The Talook of Brommadason Exhibits on the other hand an increase to the extent of 835 1/64 chains as exertions are being made to extend the cultivation in the former Talook, an increase on the whole Sub Division may, should the season prove propitious, be confidently expected.

15. Table No. 14 exhibits an increase of Rupees 780–11 as compared with last Fusly, attributable partly to the rise in Neruk and partly to the addition of $\frac{3}{11}$ of the difference between the usual Nunjamelpoonjah tax and the Nunjah Assessment. Of the Amount of Nunjamelpoonjah cultivation of last year (Viz. 452-7-7) S. C. 20-5-3 $\frac{3}{11}$ of land cultivated with 8 kinds of produce, on which the Mamool teerwah amounts to Rupees 166–0–5 and the Nunjah full teerwah to Rupees 226–12–2, has this year been transferred to the Head of Nunjamelpoonjah with reference to the recent orders of the Board of Revenue.

19. The increase shewn in Table No. 18 of Rupees 575—1—4 is ascribable to extended Cultivation; but the Teerwah not having increased in proportion — is owing to certain discriptions of cultivation subject to a higher rate of assessment, such as Betle plantains Safron &c. not having been raised in an extended scale.

30. Under the Head of Extra Revenue there is a decrease of Rupees 3024-14-2 below last year, consequent on a large decrease of Rupees 4259-14-11 in the Fish Rents, which is to be ascribed to the following Causes. In Fusly 1253 some Tanks which had not been rented the preceding year fetched on that account a larger sum (Vide Sub Collectors Report for Fusly 1252) while in Fusly 1254 under review, from deficiency of rain, the water did not remain that length of time in the tanks, necessary for a full supply of fish, and moreover some tanks were not rented till Fusly 1255, as it is only in certain states that they are suited for fishing. The Moturpha exhibits an increase of Rupees 1235-9 which being deducted from the decrease on fish rent leaves a net decrease of Rupees 3024-14-2 as above stated.

by them under the former Government.—

3. The Collector states that from the report furnished to him by the Tahsildar of Bokul and from the statement given by the Rajah the head of the family it appears that the deceased has left a daughter named Mahaprubha who now solicits the continuance of the pension in her name in succession to her Mother— The allowance being hereditary and sanctioned in perpetuity the Board beg to recommend that the Collectors application on behalf of Mahaprubha may be complied with.—

From the Pl. Collr of Canara— Submitting for sanction an Estimate for the conveyance of Teak Timber on account of Bombay Government for the 3 Successive years 1847-1848- & 1849.—

Sir,

Para 1 I have the honor to enclose an estimate of charges for the conveyance of Teak timber on account of the Bombay Government, in proportions of 1000 Logs or 3000 Candies a year, in 1847-1848 & 1849 respectively, amounting to Rupees 5,6,184-6-11-

2 At the suggestion of the Assistant Government

16265 Fort St. George 24th November 1845.—

Government Timber Agent at Sedasheegar, I considered it expedient to invite tenders for a three years contract for conveying the timber required by the Bombay Government in the three successive years of 1847, 48 & 49. The result has proved favorable, the lowest offer received being Rupees 5–15–9 per Bombay Candy which is 1–4–3 less than the rate of last years contract, I beg therefore to recommend the offer for acceptance. The securities offered by the contractor are unexceptionable.—.

1845/46 Rs 7-4-"
1847/48&49 5-15-9
Decrease 1-4-3.

3 It will be seen from the accompanying Estimate that an item for extra establishment to superintend the preparation and guarding of the logs in the forest, as well as on the Coast, is included in the charges. On former occasions when estimates of this nature were submitted for sanction, this item was not charged, owing to the Sub Conservator and his establishment being employed on that duty, but as that Officer will now be required to survey all the Government forests, in order that full report may be submitted, as required by the Board in their proceedings of the 2d. ultimo, an Extra Sibbendy is found necessary, and I request that the necessary sanction may be obtained for the full amount of the estimate now submitted.—

To the Chief Secy. to Government—

Sir,

Para 1. I am directed by the Board of Revenue to request you will submit for the orders of the Most Noble the Governor in Council the accompanying letter from the Principal Collector of Canara, dated 13th Instant enclosing an Estimate of Charges for the conveyance of Teak Timber on account of the Bombay Government, in proportions of 1000 logs or 3000 Candies a year in 1847, 1848 & 49 respectively, the total Amounting to Rupees 56184-6-—

In Cons. 24th Novr. 1845

2. It will be observed from the above Communication that the Principal Collector at the suggestion of the Assistant Government Timber agent at Sadashigar invited tenders for a three years contract by which means a saving of Rupees 1-4-3- per Candy has been effected. The Sub conservator and his Establishment being required to survey all the Government Forests in order to furnish the report called for by the Honorable Court of Directors will not be available for Superintending the preparation and guarding of the logs in the Forest and it will therefore become necessary to provide an Extra Establishment for this Service the expense of which is included in the Estimate now submitted.—

3 Under this Explanation the Board beg to recommend that Sanction may be granted for the proposed disbursement.—

Sir,

From the Collr. of Madras—

Submitting a conveyance prepared by the Honorable Company's Solicitor for the surrendor of the remainder of the Lease of Cochrane's Canal to Government together with a Copy of the whole of the Correspondence which has passed on the subject, and stating what amount would be payable to the Lessee, Sir. Thomas Cochrane in the event of the proposed transfer being finally carried into effect.

Para 1. With further reference to the orders of Government Communicated in the Extract from the Proceedings of the Board of Revenue dated 27th June 1839, I have the honor to report that on the 28th October 1843 Messrs. Arbuthnot & Co. furnished me with several documents, which they received from Admiral Sir Thomas Cochrane C. B. in support of his title as proprietor of Cochrane's Canal, and requested to be informed if they were considered sufficient to admit of his transferring the remainder of the Lease to Government on the terms of Sale agreed upon. I transmitted the whole, on the 31st of the same month, to the Honorable Company's solicitor, requesting his opinion as to whether they were complete, as I explained, that in that Case, I would state the precise terms on which a Conveyance might be prepared, to be executed by the Lessee.

2. After two or three more letters to the Honorable Company's solicitor, I received on the 30th November 1844, his reply observing that

16269 Fort St. George 24th November 1845

that, as Sir Thomas Cochrane purchased his interest from a party represented to be the Sole surviving Acting executor under the Honorable Mr. Basil Cochrane's will by an Indenture dated 31st January 1838 which alluded to certain legacies and annuities given to some persons resident at Madras, which the Testator directed should Continue to be paid out of the rent of his Houses and Canals, Mr. Basil Cochrane's will should be produced with satisfactory evidence to shew which of the Annuitants (if any) were dead, and, should any be still living that, then, Sir Thomas Cochrane, should procure from the Annuitants a release in respect of the Canal in question.

3. Having made a reference on the subject to Messrs. Arbuthnot & Co., they in on the 17th December 1844 sent me Exemplification of the Probate of the will and Codicil of Mr. Basil Cochrane dated 20th December 1826, and stated, in regard to the Annuitants, that there were two of them alive at the time of his death, but that they have both died since, one in July 1836, and the other in

September 1842.

4. On the 18th December, I handed over to the Honorable Company's Solicitor Copy of Messrs. Arbuthnot & Co's letter referred to in above, together with its enclosure, and on the 11th September 1845 he furnished me with a form of Conveyance of the Cochrane's and Coutpolly Canals to Government, to be executed by Sir Thomas Cochrane, with instructions as to the mode of filling up the blanks &c. but as the Deed appeared to me to require revision, in as much as the Consideration to be given for the Surrender of the Lease was not Correctly stated, and should in my opinion have been shewn on the face of it I stated my view of the Case to the Honorable Company's Solicitor on the 15th September in advertence to a previous Correspondence with Messrs. Arbuthnot & Co. After some further explanation, he sent me a fresh Copy of the Deed, leaving blanks for the sum &c. to be entered accordingly as the arrangements in progress were brought to a termination, the Amount to be paid being dependent upon the time when the Conveyance was returned with the Lessee's signature.

Messrs. Arbuthnot

5. Messrs. Arbuthnot & Co. observe in a letter dated 30th. Ultimo that if they could get the Deed in about a months from this time for transmission to Sir Thomas Cochrane, they may receive it executed by him by the 15th. of August 1846 it having been intimated to me previously that they were in some uncertainty as to his movements. The amount to be paid in august next, according to the Calculation appended to their letter, is Rupees 22197-9-3, which, added to the sums already disbursed since the transfer

With reference to the cor= =respondence in the margin, we have the honor to forward to you a packet of papers as per annexed list, which we received from Admiral Sir Thomas Cochrane C.B., in support of his title as proprietor of Cochranes' Canal, and we will thank you to inform us if they are con= =sidered sufficient to admit of his trans= =ferring the remainder of the lease to Govern= =ment on the terms of sale agreed upon.-

We beg to add the Canal property having been under the manage= =ment of our predecessors and ourselves since its construction in 1806 up to the time of its being made over by us to Government in 1837, we can certify to the fact if neces= =sary, of the late Mr. Basil Cochrane having been sole proprietor of it from its construction until its sale to Rear Admiral Sir Thomas Cochrane by the Court of Chancery in 1837 on the application of Mr. Cochranes' Executor, as appears by one of the papers now pro= =duced.-

Gentlemen,

I have the honor to acknowledge the receipt of your letter under date the 2d instant, and to observe that the statement appended to it shews that merely simple Interest at 4 p.c. Cent has been deducted from the respective sums as therein exhibited from the 1st August 1844 to the 1st December of each year when the annuities fall due, whereas the present as Value of an annuity of Rupees 14061—11—7 at 4 p.c. Cent due on the 1st December of each of the years 1844-1845-1846 and 1847, according to "Milnes "Tables," answered to Rupees 5,1042—10—5; but as the annuity of 1847 due on the 1st November of that year is reduced to Rupees 12889—14—8 the present Value will on that account stand thus.—

Rupees 14061—11—7 at 4 p.c. Cent for 1st year 1844 Rupees 13520—14—1
14061—11—7 at Do. 2d. 1845 — " — 13000—13—7

Sir,

Para 1. I have the honor to acknowledge the receipt of your letter to my address noted in the margin, and to inform you that I have perused the several Documents you forwarded to me as forming the Title of Sir Thomas John Cochrane to the Canal running from the North West angle of the Black Town Wall to Moodoolkettna Choultry, and from Caitor Gully to Caulaungee.

23d November 1845.

In my opinion those Documents are not sufficient in themselves to evidence a good Title in Sir Thomas Cochrane; but as the residue of the Term proposed to be purchased by the Honorable Company has less than 3 years to run, I think the Company may be advised to complete the Purchase on being satisfied on the point to which I will refer in the next Para.—

2. The Canal before mentioned was demised by the Honorable Company to one John Ludovicke Heefke by an agreement dated 14th October 1806, for a term of 45 years from 1st November 1802. Mr. Heefke by a Declaration of Trust declared that the Honorable Basil Cochrane was interested in the Canal and the agreement with the Honorable Company, to the extent of three fourth shares, and himself to one fourth

fourth share only, and Mr. Heefke subsequently assigned his own one fourth share therein to Mr. Basil Cochrane. Sir Thomas Cochrane purchased from a Party represented to be the sole surviving acting Executor under Wm. Basil Cochrane's Will by an Indenture dated 31st. January 1838. From the recitals in this Indenture I gather that Mr. Basil Cochrane by his Will dated 7th. June 1824 gave certain legacies and annuities to certain persons resident at Madras or its neighbourhood, and that he by his Will directed that such legacies and Annuities should continue to be paid at [illegible] of the rents of his Houses and Canals at Madras. The amounts of the annuities or the names of the Annuitants are not specified or named in that Deed, but it is therein recited that all the Legatees under Mr. Basil Cochrane's will have been paid, but that some one or more of the Annuities to persons resident at Madras or its neighbourhood, then remained payable, and by that Indenture Sir Thomas Cochrane covenanted to pay, satisfy or provide for and secure the payment of such of the annuities bequeathed by the Will of Mr Basil Cochrane to persons resident at Madras or its neighbourhood as then remained due

due and payable. In my opinion the Will of Mr. Basil Cochrane should be produced for my inspection with satisfactory evidence to shew which of the Annuitants (if any) are dead, and should any be still living that then Sir Thomas Cochrane should procure from the Annuitants a release in respect of the Canal in question; or that a sufficient portion of the purchase Money to be paid to him should be invested in the names of Trustees to be nominated by Sir Thomas Cochrane, and the Honorable Company in the purchase of Government paper, with a covenant by Sir Thomas Cochrane to indemnify the Honorable Company against [illegible] other charge on the Canal.

3. On your communicating to me any further instructions, I have the honor to request that I may be furnished with the Documents which were laid before my Predecessor, and were returned by him to your Department, as after a careful search amongst the records of this office, I do not find he kept any Copies of these Documents. —

entered in the Margin I have the honor to acquaint you that the Hon'ble Company's Solicitor, who has perused the several Documents forwarded by you as forming the title of Sir Thomas J. Sir Thomas Cochrane covenanted to pay, satisfy, or provide for, and secure the payment of such of the Annuities bequeathed by the Will of Mr Basil Cochrane to persons resident at Madras or its neighbourhood as then remained due and payable. The Honorable Company's Solicitor further observes that the Will of Mr Basil Cochrane should be produced for his inspection with satisfactory evidence to shew which of the Annuitants (if any) are dead, and should any be still living that then Sir Thomas Cochrane should procure from the Annuitants a release in respect of the Canal in question, or that a sufficient portion of the purchase money to be paid to him should be invested in the names of Trustees to be nominated by Sir Thomas Cochrane and the Honorable Company, in the purchase of Government paper, with a covenant by Sir Thomas Cochrane to indemnify the Honorable Company against such Annuities or any other charge on the Canal.

2. I therefore request that you will be good enough to procure, as soon as you conveniently can, Mr Basil Cochrane's Will, and to inform me whether you are prepared to obtain the proposed release from such of the Annuitants as may be still living, or

2. I shall enter in juxtaposition the questions put in your letter of the 18th September last. No 197. and my replies thereto,

1304 Fort St. George, 24th November 1845.

thereto, so as to render the latter sufficiently explicit.

1 At what time did this or Government on behalf of the Honble Company take possession of the Canals under the final arrangement for purchase?

1. On the 30th August 1835 the Board of Revenue informed Messrs Arbuthnot & Co. that Government were desirous of obtaining possession of Cochrane's Canals, and requested them in consequence to state on what terms they were willing on the part of the proprietors to relinquish the remainder of the lease.

2. Messrs Arbuthnot & Co observed in their reply of the same date that although they had received no direct instructions from the proprietor to dispose of the property in question, yet, being aware of his willingness to surrender the remainder of the lease to Government provided a fair equivalent was secured to him, they would take upon themselves to do so on his behalf, on the condition that Government would pay to them on account of the proprietor a sum Corresponding with the net produce of the Canals taken on the average of the previous eleven years, it being understood that the agreement was to remain in force until a final arrangement could be effected with the proprietor. It was shewn by a Statement that the average

average annual net amount realized from the Canals for the period above stated was Rupees 14,00[illegible]-11-7.

3. The Board on the 12th September 1836 recommended to Government that Messrs Arbuthnot & Co's offer be accepted, adding that it would be proper to deduct from the amount to be paid under this transfer the sums necessary to put the Canals in a proper state of repair estimated at Rupees [illegible].

4. The arrangement was accordingly sanctioned by Government on the 20th of the same month, and on the 1st April 1837, the Collector of Madras took charge of the Canals under the authority vested in him.

The aggregate amount already paid under the arrangement sanctioned by Government is Rupees 1,07,806-8-9 as follows-

Paid in February 1838 for the period from April to November 1837 Rs. 9,374-11-7.

? And what is the aggregate amount of principal which under that arrangement the Government has already paid & is to pay to Sir Thomas John Cochrane?

2. On the 5th September 1838 Messrs Arbuthnot & Co. informed the Collector that they had received a letter from Sir Thomas Cochrane dated London 5th June last, by which he consented to the conditional sale of to Government, and that under his authority, they were prepared to conclude the transfer in any way. They added that, as they were further authorized to substitute for the annual payment of Rupees 14,06[illegible]-11-7,

Sir,

Parat. I have the honor to acknowledge
the receipt of your letter to my address noted in the

the Cochranes and Cautpooly Canals under the final
arrangements for purchase on the 1st April 1837. Also
that the aggregate amount of principal which
is Rupees 10,780—8—9. and I observe that in the con-

=nally paid for the transfer will depend upon
the time when the Deed to be executed by Sir

as I should observe by your letter of date the 19th

2. I have the honor to state that
unless some specific time be fixed and agreed
to by the Venders agents and the Government for
the completion of the purchase, and an amount

the business can never be settled, as it is abso-

purchase money should be stated in the Deed.
your letter of the 19th Ultimo. to which you

refer me however so far from causing any difficulty appears to me to settle the question, provided the Government approve of the terms there mentioned, for from that letter I collect that Messrs Arbuthnot & Co. name the 1st June 1846 as the day for completing the purchase, and fix Rupees 21,773-14-5 as the amount to be then paid as the balance of the purchase money, and I also collect that Messrs Arbuthnot & Co are willing to that that sum should be accepted in full of the purchase money, whether the Deed be returned by that time or not.- If this be the case there can be no difficulty in arranging the matter by inserting the sum of Rupees 1,29,580-7-2 as the amount of the purchase money, in consideration of which Sir Thomas John Cochrane conveys the Canals.

Gentlemen, I have the honor to acknowledge the receipt

1310. Fort St. George, 24th November 1845.

receipt of your letter under date the 10th Ultimo and to acquaint you that having been obliged to make a further reference to the Honorable Company's Solicitor I have just obtained his final reply.- It will be requisite immediately on hearing from you in answer to this, to submit the whole of the correspondence which has passed on the subject to the Board of Revenue and Government- I therefore request that you will do me the favor now to state when the Deed which has been prepared for Sir Thomas Cochrane's signature may be obtained from that Gentleman, if you were to receive it in a month or so from this time for transmission to him, and whether the net price to be then paid will be more or less than Rupees 21,773-14-5 the amount specified in the letter under acknowledgment, as it is necessary that the correct amount of the purchase money should be stated in the Deed.

J. A. Hudleston Esqre
Collector of Madras.

Sir, We have the honor to acknowledge the receipt of your letter yesterday's date.

Having, in our letter of the 10th Ultimo mentioned the 1st June 1846 as the period at which we might with some degree of certainty reckon upon receiving back from Sir Thomas Cochrane Deed of conveyance once which we should receive for transmission to him about the middle of October, we would substitute for the 1st June the 15th August 1846, if the Deed should only be sent us for transmission to Sir Thomas in a month from the present time and we annex a Statement of the sum which we should consider as payable by Government on the 15th August next for its redemption of the Lease for the then remaining terms.

We

16311 Fort St. George 24th November 1845

We beg to add that, at whatever period the Deed of Conveyance may reach us from Sir Thomas Cochrane, we shall be prepared to make it over to Government for a sum calculated on the same principle-

You will observe that there is a slight variation in the principle upon which we have on this occasion calculated the amount which we conceive should be paid by Government from that on which the calculations in our letter of the 2nd November 1843 and 16th Ultimo were framed, in as much as we have now adopted what appears to us the more correct course of treating the sum of Rupees 4,166 payable by Sir Thomas Cochrane on account of Repairs as a deduction from the last payable by Government, so as to place Sir Thomas in the same situation with respect to the interest in this sum, as he would be, if the Government instead of redeeming the Lease were to continue the annual payment under the present arrangement till the 1st November 1847-

that all obstructions to the navigation as therein mentioned should be removed and that as the River from Coutoopully to Conlaungee was not at all seasons of the year navigable it became necessary that a Canal should be cut between those two places and the said John Ludovicke Beefke did propose and undertake to complete that Canal on being allowed to receive a Toll at the rate of six fanams for every Boat that sum being calculated as the proportion to be paid for each Boat on the first mentioned Canal and reciting that the last mentioned proposal was agreed to by the Right Honorable the Governor in Council of Fort Saint George and that the same was communicated to the said John Ludovicke Beefke under date the sixth day of May One thousand Eight hundred and two last as an extent of Land would thereby be cut off from Cultivation which would subject the Inhabitants to an Annual loss estimated at Ten Pagodas it was determined by Government that an indemnification to that amount should be made by the said John Ludovicke Beefke and secured to them through the Collector to whom that annual payment was to be made and the said John Ludovicke Beefke was authorized to levy a Toll of six fanams

on

on every Boat passing that Canal for the
period of the lease to be granted for the
Canal first above mentioned and also reciting
that the said John Ludovicke Beefke did
proceed to dig and complete the said two
several Canals and had then at a considerable
expence finished and rendered them navigable
It was by the Articles of Agreement now in recital
witnessed that in consideration of the premises

Ordered that the foregoing letter be submitted with the following address-

(68-69)

To

The Chief Secretary to Government

To the Chief Secy to Government-

Sir

Para 1. I am directed by the Board of Revenue to forward for the orders of the Most Noble the Governor in Council the accompanying letter from the Collector of Madras of the 3d Instant submitting a conveyance prepared by the Honorable Company's Solicitor for the Surrender to Government of the remainder of the Lease of Cochranes Canal, together with copy of the correspondence which has passed upon the subject explaining also the amount payable to the Lessee Admiral Sir T. Cochrane K.C.B. in the event of the proposed transfer being carried out-

2 From the correspondence noted in the Margin it will be perceived, that in 1837 this Canal was made over to Government for the remainder of the lease, by Messrs Arbuthnott & Co. Agents to the Lessee in consideration of an annual payment during that period of Rupees 14,061-11-7. being the average net annual receipts for the preceding 11 years, the arrangement being subject to the confirmation of the proprietors and of the Honorable the Court of Directors, and that in 1838 in communicating the consent

To Govt 24th Novr 1845 No 1335

consent of their constituent to the measure, Messrs Arbuthnot & Co. further intimated their readiness to conclude, on his behalf the surrender of all his remaining interest in the Lease for a fixed sum equivalent to the value of an annuity of Rupees 14,061-11-7- at 4 per Cent, calculated from the date at which the surrender might take place to the expiration of the Lease- with deduction of Rupees 4164 being the cost of repairs which the Lessee was bound by his covenant to execute. This proposal having been approved by Government, the Collector of Madras was charged with the conduct of the arrangement and appears to have lost no time in placing himself in communication with Messrs Arbuthnot & Co. upon the subject, but from some cause not explained, it was not until the 28th October 1843 that those Gentlemen appear to have been in a condition to Act on behalf of their constituent- On that date they forwarded to the Collector of Madras a packet of Papers received from Sir T. Cochrane in support of his title to the Canal requesting to be informed whether these would be sufficient to admit of the proposed transfer being made- reference was immediately made by the Collector to the Honorable Company's Solicitor but the correspondence with that Officer in regard to the form of the conveyance and title of the Lessee and with Messrs Arbuthnot and

† 1st November 1847

and Co. in respect to the mode in which the sum to be paid for the Lease should be calculated was not brought to a close until the 28th Ultimo, although no exertion appears to have been wanting on the part of the Collector to bring it to a conclusion.—

3. It will be seen that blanks have been left in the instrument now forwarded with a view to the insertion of the exact amount for which the Lease is to be transferred, calculated up to the date at which the transfer may be completed by the Agents of the Lessee. It is stated by the Honorable Company's solicitor (16th September and 28th October 1845.) to be necessary, that some specific sum be entered in the conveyance as the price at which the transfer has been made— and that this sum should comprise both the total amount already paid since the conditional transfer in 1837 and the balance remaining to be paid on the completion of the arrangements. Messrs. Arbuthnot and Co. writing upon the 30th Ultimo state that if they could have the deed in about a Month from this time for transmission to Sir J. Cochrane, they might be able to receive it executed by him by the 15th August 1846, at which date the Balance of purchase money to be paid would be Rupees 22,197-9-3. They add that at whatever period the deed of conveyance may reach them from Sir J. Cochrane they will be prepared to make it over to Government for a sum Calculated on the same principle.—

The

4. The Board under these circumstances would propose that the sum to be entered in the conveyance

Collectors letter 3d November 1845 Para 5 in Cons: 24th Novr 1845.

should be Rupees 144,065-13-7. Viz.—

Amount already paid to December /44	10,780-8-9.
Do. to be paid 1st December /45	11,081-11-7.
Do. payable on redemption of the Lease in August 15th 1846.—	22,197-9-3.
	144,065-13-7.

with this understanding however, that the sum to be actually paid on the final redemption shall be left for eventual adjustment according to the precise date on which the instrument may be returned— If delivered to Government before the 15th August the Amount will be somewhat less, if after that date somewhat more than the sum (22,197-9-3) above named by Messrs. Arbuthnot and Co. but the difference in either case will be inconsiderable— The Board beg to be favored with the instructions of Government on the subject.—
