No. 388.

To, I. F. Thomas Esqre.
Chief Secretary to Government.

Sir,

With reference to the Extract from the Minutes of Consultation No. 815 dated the 28th August last, transmitting the Promissory Note of the Government of India noted in the Margin, in favor of Rajah Sree Jagunnada Gazapaty Narain Deo, for Company's Rupees 1,200,000

No. 3150 of 1842/43 dated 1st February 1842 for Rs. 200,000

Fort St. George 11th January 1850

Two hundred thousand, for the purpose of being exchanged for a fresh Note in the name of the "Secretary to the Court of Wards for the time being" or his order, and to have the Interest on the new Note as well as upon the old one made payable at Madras. I have the honor to report, for the information of the Right Honorable the Governor in Council, that the Promissory Note in question was accordingly forwarded by me to the Deputy Accountant General to the Government of India for that purpose, with an explanation of the reason why a new Note was required to be issued in favor of the Secretary of Wards, as continued in the correspondence which accompanied the Extract from the Minutes of Consultation alluded to above, and to state, that the Note has been returned to this Office renewed in favor of the Secretary to the Court of Wards Madras for the time being and with the Interest thereon made

Fort St. George 11th January 1850

made payable at Madras, of which due notice has been given by me to the Board of Revenue.

Sir,

From the Agent to the Governor at Kurnool } 1. Adverting to the intimation conveyed in para. 16 of your Board's proceedings dated 2d August 1847; I have the honor to report that under the circumstances of the present season, it appears to me unavoidably necessary that I should be allowed to exercise a wide discretion in regard of remissions for certain dry lands which have been wholly unproductive though not Bunjer, in the usual acceptation of the term, and I therefore beg I may be favored with authority to that effect.

Requesting Board's permission to exercise a wide discretion in regard of remissions for certain dry lands which have been wholly unproductive under the Circumstances of the present season.

"Here it must be observed that remission on account of Poonjah Shavy so far from being countenanced by the provisions of the Rootroonnamah of the District, is expressly prohibited in para 9 of its provisions. so great a deviation from the rule ought not to have been ventured upon without the previous sanction of the Board having been obtained."

2. The early rains commencing about the 25th June last, were so heavy and continuous, that the usual

Fort St. George 14th January 1850

usual period for ploughing and sowing the first crops was lost to the Ryots by some weeks. There was then a break in the weather of which they generally took advantage; but the rains unexpectedly recommenced and with brief intervals lasted far into the month of October, when under ordinary circumstances, the early dry crops should have been well and strong above ground. These intervals of dry weather were, however, productive of considerable hardship and eventual loss in the greater part of the Goodoor and Nundicootcoor Taloocks, inasmuch that the cultivators availed themselves of them to sow what the subsequent rains at once rotted and destroyed - when finally the weather cleared up for good and sowing operations were resumed throughout the District, the unusual heat of the sun acting on ground more deeply saturated than it is supposed to have been during the last 40 years, soon rendered the

the soil so hard, that the ordinary bullock power was insufficient for turning the soil and the period for sowing was thus considerably contracted. Added to this inconvenience, in very many villages of the above mentioned Taloots; in some of the Paumiem Taloots; in a few of those in Nundial, and, I am given to understand, here and there in Servail and Chagulmurry, as well as in Atcoor - the white Jowary seed no sooner sprouted and became visible in the fields, than it was destroyed by clouds of grasshoppers. I have been a good deal about the District during the last six weeks and have been at much pains personally to ascertain the real state of the fields thus attacked. I have in consequence no doubt that where the Jowary sowing was thus affected, the fields now remain as fallow as if nothing had been done beyond merely turning them with the plough.

3. Your Board will observe that under these circumstances, the

the Ryots whose putta lands have thus suffered, are in fact worse off than if their dry sowings had yielded crops which were eventually dried up. There have been in most cases of the kind referred to, several purchases of seed, several sowings - and the waste of time and labor consequent thereon; - but withal, there is not an ear of withered grain or it's stalk to feed even cattle with - I therefore submit, that remissions are more urgently called for in these instances, than in those for which Poonja shavee is ordinarily allowed.

4. The local Amildars did their best at the proper period to induce their Ryots to substitute chenna in fields where the white Jowary had been destroyed - But as chenna is comparatively an expensive grain, they very generally preferred, late as it was in the year, to make other attempts with Jowary. Indeed, many fruitless fresh attempts were made. Nevertheless, where the Ryots had means, they were ultimately compelled to resort to chenna; and so much was the substitution felt, that the increased demand for this grain soon created an enhancement of it's price, the original difficulty being by this result materially augmented.

5. Having seen enough of the state

of

Fort St. George 14 January 1850

of the District for the present year, to feel satisfied that I am not anticipating imaginary difficulties. I feel bound, for the reasons above stated, to solicit your Board's permission to be more than usually indulgent at the Jummabundy of the Talooks before specified, and if with my explanation before them, the Board are pleased to grant it, I beg it may be communicated to me at an early date.

Purnool District Agent's Office on Circuit Mundial, 5th January, 1850.

/Signed/ A. D. Phillips
Agent to the Governor.

Proceedings thereon.

9.10

The circumstances stated by the Agent in the foregoing letter satisfy the Board of Revenue that it will be necessary to be more than usually indulgent in the settlement of the dry lands of Purnool for the present Fusly. They therefore authorize Mr. Phillips to grant such remissions as may be actually necessary on account of the failure of Poonjah Cultivation. In his report upon the Jummabundy he will be careful to explain the principles upon which he has proceeded in affording relief under the discretion now vested in him, and will submit a separate Statement showing the particulars of the remissions allowed.

From the Collr of Salem

Regarding the balances of the Pedavadoo and Comara-polliem Estates.

Para 1. With reference to Extract from the Board's Proceedings under date the 26th November last requiring me to report whether any further communication regarding the balance against the late Proprietors of Padavadoo and Comara polliem was received from Mr. Maltby, and whether the fact of Government having no claim against the Proprietors of the above estates rests only upon the document sent with the Sub Collector's letter of the 7th November 1849. or may be proved from the accounts of the Collector or Sub Collector's Cutcherry, I have the honor to inform you that what has been stated regarding the Mootah of Padavadoo in the 1st & 2d Paras of my report dated 20th November 1849. appears to be correct.

Para 3.

2. From the Treasury account it appears, as pointed out by the Board, that the balance against the Mootah of Comara pollem

Comarapolliem for Fusly 1230 at the time of sale, amounted to Rupees 2,888-9-7 from which deducting the proceeds of sale Rupees 2,810, there remained a balance against the proprietors of Rupees 78-9-7; but that this balance was paid up in the Month of August of Fusly 1231, conaquently I stated in the 3rd para of my report quoted above that there was no balance against the Estate of Comarapolliem.—

3. The late proprietors of the said Mostah, Vijia Pootien and Narayen of Cavairyputty, died some years ago, but the son of the former named Lingarazia is one of the joint Mootahdars of the Samoodrum estate, which being at present under attachment and no one being yet appointed as Guardian to the heirs of the deceased Gopaul Chetty (one of the joint proprietors), Lingarazien the son of Pooteen, one of the late proprietors of the Mostah of Comarapolliem, should also be held responsible for the balance of Rupees 3956-10-2 at present standing against the Samoodrum Mostah.- Therefore I beg to suggest that it would be proper to keep the amount of the

shares of the Giddegavel Collection in the Comarapolliem estate due to Lingarazien, in deposit, until the balance of Samoodrum Mostah should be fully liquidated so as to enable the Circar to carry it, in cases of any failure, towards the liquidation of the balance.—

4.— Copy of the Sub Collector's further report is herewith submitted.—

No. 1.

To W. E. Lockhart Esqre
Collector of Salem

Sir,

I have the honor to acknowledge copy of an Extract from the proceedings of the Board of Revenue dated the 26th of November and to furnish the information therein called for.—

2.— The Jaheildar of Shenkerrydroog has reported under date the 8th November that there do not appear to be any farther claims against the Mootahs of Padavadoo and Comarapolliem nor is there any claim against any of the proprietors on any other account with the exception of Linga Raja the son of the late

late Mottadar of Comarapollium.-

3. Linga Rajia appears to be entitled to one half of the sum payable on account of the Comarapollium Pheidagaveil lands as heir to his father who held a half share of the Mottah. He also is the Registered proprietor of one third of the Samoodrum Mottah which is now in attachment for an arrear of Rupees 4,014-3-4.-

4- It would appear therefore to be desirable that Linga Rajia should be required on receiving the money due on this Estate to give security for so much of the arrear which has accrued on the other Mottah as he is responsible for, but as the other Estate is involved in much perplexity I must beg you to decide whether this course is to be adopted

5. With reference to Para 3 of the Board's proceedings I beg to state that the account I referred to was prepared when the question of Moturpha was under consideration and was quoted by me as confirmatory of the accounts now prepared- I find that I was inaccurate in stating that the sale of the Comarapollium Estate [illegible] realized the arrear due upon it- There was as stated by the Board an arrear of Rupees 78-9-7 but this was collected from the proprietors in August of Fusly 1231 and the whole arrear was thus adjusted.

6. A Copy of the Urzee from the Tahsildar of Shenkerydroog is sent herewith for your perusal.

Ordered that the foregoing letter be submitted with the following address.-

To The Chief Secretary to Government.

Sir,

With reference to Para 6 of a letter from this Office to Government of the 17th January 1848, and to Para 3 Extract Minutes of Consultation 4th February of the same year, I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council, the accompanying letter with its enclosure from the Collector of Salem dated the 20th September 1849, in which that Officer requests sanction for the refund to the former proprietors of the Puddavaidoo and Comarapollium Mootahs in his District, or to their representatives, of Rupees 5,214-4-10 claimed by them as amount irregularly collected by Government from the Jeddacawal lands of their estates- I have also to forward the subsequent correspondence which has passed on the subject noted in the Margin.-

2. The particulars of these claims were fully explained in Paras 8-9-14-15 of a letter from the Sub Collector of Salem under date 7th June 1847 Enclosure No. 1 in a letter from the Collector of the 23d ideм, which was laid before Govern=ment on the 17th January 1848. The Geddacawal lands from which the collections in question were made, were among the waste lands included in the Toolas Chit or sale schedule granted to the purchasers at the time when the Mootahs were sold and intended to show the extent of lands conveyed by the sale. These lands were therefore part and parcel of the respective Mootahs and the proprietors have a valid title to a refund of the Collections made from them, according to the principle sanctioned by Government upon 7th August 1835 and which has been acted upon on some subsequent occa=sion. The demand is from Fusly 1217 to Fusly 1230 when the Estates reverted to the Sircar.-

3. The Comarapollium Mootah was sold in Fusly 1231 for arrears of revenue amounting to Rupees 2,888-9-7 and was purchased by Government for Rupees 2,810. the balance Rupees 78-9-7 was subsequently recovered from the proprietors. The Paddaveedoo Mootah also brought to sale about the same time for a similar cause, was brought in by Government at price left by Rupees 143-9-3 than the arrears outstanding - of this sum however Rupees 23-4-9 was recovered from the Mooturpha Collection due to the Mootadar

Fort St. George 14th January 1850.

for Fusly 1230 Rupees 119-7-1 was remitted under sanction of Government dated 4th December 1835 the remainder 13-5 due on account of interest is still out=standing. There is thus, with the exception of the inconsiderable balance last noted, no demand against either of the Paddaveedoo or Comarapollium=Mootahs but Singarayjer who, as representative of his Father Pattiyah deceased, is entitled to Rupees 859-14-2 or half the Geddacawal due on the latter estate, is also part proprietor of the Samoodrum Mootah, on which a large arrear is due to Government.-

In Cons. 10th Dec. 1835.

4. Under these circumstances I am instructed to request the authority of Government for the refund of the Gedda=cawal Collections in question or Rupees 5,214-4-10 of which Rupees 4,354-6-8 will be disbursed to the several parties entitled to receive it according to the Statement furnished in the Collector's letter of 20th September last, and the remaining Rupees 859-14-2 due to Singa=rayjer will be retained in deposit, pending the adjustment of the balance owing by him upon his other property.-

the holder is now encumbered with debt
and the land is likely to be sold in
satisfaction of the judgment, he has
greatly neglected its cultivation, inco
consequence of which, the produce which
both the garden and rice land now yield
is not sufficient to cover the sircar deman
upon it.-

4 In Fusly 1256 (1846/47) owing to the
neglect of the holder of the land to pay the
arrears of revenue of the previous years,
was let on rent to tenants and arrang
=ments made for the realization of the
assessment of that Fusly but the tenant
the subsequent year refused to cultivate
by laying out a sum to improve the conditi
of the garden and rice land, belong
to another party. Without cancelling
therefore, the proprietory right the hold
has to the land, which can only be
effected, by a public sale for arrears
revenue, no individual will undertake
cultivate it, nor is there any pro

collected hereafter, without having reco

for any Fusles previous to that of 1258, will
be accounted for by the following facts.

6- These two estates were formerly
Bhurthy estates, and paid the full assess
=ment, but afterwards on account of their
only partial cultivation, they were trans
=ferred to the class of Cumburthy estates,
and were gradually, after investigation
into their capabilities brought among the
class of Bhurthy estates in Fusly 1258,
for which they fell into arrear.-

7. These Wurgs are capable of paying
the Summabundy fixed upon them, if
they are fully cultivated. The object of
the wurgdars, in neglecting their cultiva
=tion, to the full extent, would appear to be,
in order to deter others from attempting to
cultivate them, and thereby force the
Collector to allow them to be held on a
reduced demand. It is consequently ine
=expedient in such cases to make a re

Notice

Fort St. Geo.e 4th January 1850.

Notice is hereby given that the undermentioned lands will be sold at public auction to the highest bidder at the Office of Collector of Canara at Mangalore for liquidation of the arrears of Revenue due by the several defaulters hereunder named. The sale will commence on Thursday the 28th February 1850 and will continue until the whole of the lands shall have been sold. The purchasers will not be put in possession of the lands till the sale has been sanctioned by the Board of Revenue, but in the mean time a deposit of 15 per Cent of the purchase money must be made on the spot and the remainder of the purchase money should be paid into the Huzoor or Taluk treasury within 20 days after notice of the confirmation of the sale. In failure whereof the land will be sold at the risk of the first purchaser.-

Institute this suit against Hatad

Ratead Krishnen Menon. Tahsildar of the Palghaut Taloork on the following grounds.

Part of the assessment of my Pandarapadom and other lands for 1017/1841/42. amounting to Rupees 37—8—7 as P. having remained in arrear owing to the late Valeya Numbiar in whose name the revenue registry stood having appropriated the same, the crop of the above named land was sequestrated in 1018/1842/43 thro' the Taloork Officers for its recovery, on the ground that the land being under my management, the arrears should be discharged by me. Accordingly I paid into the Taloork Treasury Rupees 41—11—8 as P. Viz. Rupees 37—8—7 being the amount of the arrears and Rupees 4—3—1 as P. interest thereon from the Kist in which it became due to the 10/21 Meenom/March 1018/1843 - But as the Tahsildar has not yet returned the paddy though I applied for it by Petition I pray that that Officer may be sent for and examined by the Court, and the said paddy measuring 610 Parras and interest from 11/22d Meenom/March in which the arrear was paid to this Zaid at 1/4 Ca

cent amounting to 467 Parras and 6½ Edungalies total 1077 Parras and 6½ Edungalies, the value of which at the current selling price, namely 1½ Parra for gold fanam is 718 gold fanams and 7 Vishoms may be recovered and paid to me together with interest thereon to the date of Decree and costs.

I beg to produce herewith under a separate cover 5 Exhibits Viz. Order from the Tahsildar dated 25th. those Sections, yet the provisions thereof are in my opinion applicable also to them If my construction is correct, the suit must, under the aforesaid provisions be thrown out without any enquiry into its merits.—

I find moreover from the papers connected with this case certain circumstances which tend to shew that the Suit is litigious, and I beg to state them for the information of the Board.

In 1017 / 1841/42. Manirapally Nair having declined to pay part of his Assessment amounting to about 40 Rs. the then Tahsildar Rama Menon acting to the course usually adopted in such cases to effect a speedy realization of arrears, ordered the Village Officers to hold temporarily under attachment the crops of the Ellikodan Pundarapaddom lands which were considered to belong to that individual. The crops when measured 591 Parras and 9 Edungalies were accordingly left in charge of two Mediators Koondakuttil Velloo and Koonatapoorakkal Kelly. The arrears having been immediately

discharged a written order was sent on the 27th. March 1843 to the Revenue Officers of the Village to release the grain from attachment when Manirapally Nair the reputed owner received charge of the same. It is manifest from various circumstances the Plaintiff was aware of and tacitly submitted to his taking charge of the grain in consequence of his being his Karnavan and of the position they stood in mutually at the time. If it really rested with Plaintiff and not with Pittakoman Nair to take charge of the grain it is not probable that he would, immediately on discharging the arrears for which it was distrained, have remained silent without pressing for its restoration.—

The omission of the Plaintiff who is acquainted with the Regulations and rules and who is a litigious character and spends the best part of his time in Cutcherries to represent his case to the Revenue Authorities for 3 or 4 Years is itself a sufficient proof that he was aware that he had no cause for Complaint.—

It

Fort St. George 11th. January 1850.

It appears to me that the institution of this Suit arose from some difference which occurred subsequently between the Plaintiff and his Karnavar regarding the Plaintiff's private concerns.

This action has been instituted
2.
to recover the value of some grain which was distrained by a previous Tahsildar of Palghaut in the year 1018/1842-43 on account of arrears of Revenue due by the complainant, but which he avers was not returned to him, altho' the arrears were forthwith discharged.

In his proposed reply the
3.
Tahsildar rests his defence upon two pleas, first that he is not legally answerable for the acts of his predecessor, and secondly, that the grain in question was immediately on the arrear being paid put in possession of the Plaintiffs Karnawer or Head of the family, its real owner, that the Plaintiff was cognizant of and acquiesced in that arrangement as is evinced by his having forborne to make any representation so many years.

The Board of Revenue

do not approve the first of these pleas and they would advise that it be omitted and that the defence of

of the action be confined to the second of the grounds taken which seem to them to constitute a sufficient answer. With this modification they would beg to recommend that the draft be put in and the suit be defended at the public cost.

Answer of Government Vakeel Amboo Pottual on behalf of R Chatfield Esqre. Sub Collector of Malabar Defendant in O. S. No. 338 of 1849.

The undermentioned circumstances will convince the Court of the groundless nature of the suit instituted by Kooran depravem Pydeb under the said number.

1. The Senior Rajah of Kotiote from wi Cartenaad preferred a Police Complaint on the 22d. 6th. Wrischigom December. 1023 1847 before the Tahsildar of that place charging the Plaintiff in this Suit with having forcibly felled 6 Jack trees Viz. 1 from his the Rajah's Jemm paramba and 5 from 5 parambas of the Iringanoor Pagoda which are under his management, and in the enquiry instituted by the Tahsildar it having appeared that one log belonged to the Rajah and five

Fort St. George 14th. January 1850.

five which were made into 12 pieces to the said Pagoda which is to be made an Escheat to Government, an order was given to hold all the logs under attachment. On an appeal being preferred by the Plaintiff the Joint Magistrate sent for the proceedings and after a reference thereto issued an order to the Tahsildar to the effect that the tree which appeared to have been cut from the Rajah's Kostangolly paramba should be given to him and the 5 cut from the Vanatamkandy and Taikandy parambas belonging to the Iringanoor Pagoda from Ekra: tot Numbady's Vadeyarkoono and Vadeyarkandy parambas and from Koonolly Numbady's Palakoolangara paramba should be sold and the proceeds held in deposit.

2. The sale of the logs was ordered because cut as they were from the property of Koonolly Numbady and Chatot Numbady and from that of the Iringanoor Pagoda they could not be given up until the inquiry which is being instituted regarding those properties with

with the view to their being made an Es: cheat to Government was brought to a close, and because wood is a perishable article, hence they were ordered to be sold and the proceeds kept in deposit.

3. The Plaintiff's assertions in the Plaint that the purchased one tree from an unknown Moplah, that one was presented to him by Heyeke data Num: bar, and 3 were cut from his own Jenm parambas, are false, as the Court will be convinced of from the fact that he omitted during the Police inquiry alluded to in para 1 to adduce proof as regarding his pretended purchase of one tree from the said Moplah, that Heyeke: data Numbiar the alleged donor of a tree made a report to the Talook denying having given any tree as present; that the Plaintiff stated in his Talook Kyfiut that he holds two of the above parambas only on Kanom and Koonykanom tenure and that it appeared during the trial from other papers that the other para: ramba which he alleged to be his Jenm

is

is not his Jenm.

4 Appeals from the Tahsildar's awards are usually looked into and appropriate orders passed thereon under the Magisterial capacity. This case moreover underwent a revision by the Sessions Court and the appeal decision was confirmed by that authority. The Sub Collector has not yet pronounced on the Jenm title of the property alluded to in para 2, the object of the said inquiry which is still going on being merely to ascertain whether that property should devolve on the Sircar or not, hence the Court will perceive that there is no reason to entertain the suit against that Officer at present. I therefore pray that the suit may be dismissed with costs.—

Para 1. I am directed by the Board of Revenue to forward for the purpose of its being laid before Government, the accompanying letter under date the 29th Ultimo from the Collector of Malabar, reporting the institution of an action in the Principal Sudr Ameen's Court of Tellicherry against the Sub Collector of the District, and enclosing the translation of the Plaint, and the draft of the answer which he proposes to file in reply.

2. This suit has been brought to recover the value of some timber which was sold and its proceeds kept in deposit by order of the Joint Magistrate pending the issue of an enquiry now in progress. The Plaintiff alleges that the timber was his property, but it seems to be sufficiently shewn in the proposed answer that this claim is untenable and that the Plaintiff at least, has no ground of action against the District authorities. The Board therefore beg to recommend that the answer of which a draft has been submitted by the Collector may be put in and the defence carried on at the public expence.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract from Minutes of Consultation under dates the 12th May last and 4th Ultimo, calling upon them, under a requisition from the Government of India, to furnish information respecting the different Trades on which the Moturpha taxes are at present levied, and the average annual amount which has been recently realized from each.

2. The Moturpha taxes collected under the Madras Presidency fall not only upon Trades but upon professions and a considerable proportion is levied in the shape of Loom and House tax - with a view therefore to furnish the fullest information upon the points referred to by the Government of India, the Board of Revenue, on the receipt of the first of the Extracts now acknowledged, requested the

Remarks.

The sums returned by the several Collectors except Nellore under the different heads are the Settlement not the actual Collections on account of the various items of Moturpha; but the difference is inconsiderable as nearly the whole of the Demand has been subsequently realized. In the return from Nellore the Collector has given both the Demand and Collections and the latter has been entered in this Statement.

The rents in Rajahmundry for weighing and measuring and for Gold Dust carried to account as Moturpha being considered objectionable were abolished under the orders of Government of India Vide communication in Extract Minutes of Consultation 4th January 1848 in Cons 16th March 1849 and from the items shown under the head of sundry Moturpha Sist on Fishery averaging Rupees 27-1-4 in Masulipatam and Nellore Districts in Fasly 1257 have been entered under their respective heads and the sums of Rupees 1004-2-1, 1012-1-1, 1012-10-3 deducted in Fuslies 1255-56-57 respectively as Commission to Curnums have been omitted from the total

The Bilmuctu Sist on Fishery averaging Rupees 51 allowances for Village Servants has been deducted from the total in Cols 22-3-4-5.

The taxes levied in the Village transferred to Guntoor from the Masulipatam and Nellore Districts in Fasly 1257 have been entered under their respective heads and the sums of Rupees 1004-2-1, 1012-1-1, 1012-10-3 deducted in Fuslies 1255-56-57 respectively as Commission to Curnums have been omitted from the total

The taxes on Trades in Bellary are levied as Veesabady under Regulation IX 1818 and are shewn by the acting Collector in the separate Statement No 1. The greater report of the amount entered among the Sundry taxes is derived from the Manabab or Tax on the heads of Castes. The abolition of this Tax is recommended. The taxes on Trades are collected in this District like Bellary as Veesabuddy. The Sundry Moturpha Taxes are for the most a Poll Tax on Coolies.

In Chingleput Rupees 9-5-4 annually deducted as Curnum Meerah has been omitted in the Total.

In South Arcot Rupees 4,559-1-5, 4,608-1-2 and 4,479-8-7 were deducted from Moturpha Revenue in Fusly 1255-56-057 respectively as an allowance for Village Servants and have been omitted in the Total.

The Sundry Taxes are taxes on the heads of Castes. The Bandy Tax Rs. 3551 included in the Collectors Statement in the Beriz of Fusly 1255 is not proper-ly referible to Moturpha, being a Self imposed tax originating among the people themselves, the proceeds of which are devoted to the repair of roads.

The Moturpha in Tanjore is all collected in the Shape of House or Loom Tax.

The Chillara Goota payable at a fixed rate by persons collectively in Jinnevelly form the item entered as Sundry Moturpha Taxes and the deductions from the Moturpha on account of Cnams Rs. 6824-6-7 Rs. 664-4-1 Rs. 6545-11-10 in Fuslies 1255-56-57 respectively have been deducted from the Total.

The Ferry Farms in Coimbatore have usually been classed as Moturpha but it is to practise in other Districts to carry them to account under the head of small Farms and Licenses. That rent has therefore been exhibited in this Statement under the head of Sundry Moturpha Taxes.

The average of the Taxes on Trades and Taxes on Professions have not been correctly struck in the Collectors Statement. The Board have rectified the error in their Statement.

The Taxes called "Manan Jenmen" "Teeya Tooran" and "Anaka" form the items entered under the head of Sundry Moturpha Taxes. The former was very objectionable and was discontinued in Fusly 1259 and the Collector considers the remaining two as objectionable, and proposes to abolish them from Fusly 1259. Manan Jenmen was an allowance given by washermen to the former Rajahs from the profits realized by them in their profession. Teeya Tooran was an allowance granted to the former Rajahs by Teers in deaths and Marriages for performing Ceremonies. and Anaka is an allowance to those who have a number of adyans or shaves under them.

Extract from a General Letter from the Honorable the Court of Directors dated 22d August 1849, No. 10. (from the Minutes of consultation under date the 11th December 1849, No. 1192.-)

Requesting a supply of Grains seeds, &c. for cultivation in the Neilgherry Hills, also forwarding Ten printed Copies of a Geographical and Statistical Memoir of a Survey of the Neilgherry Mountains by Captain Ouchterlony.

2. A supply of Wheat, Barley Oats, and a variety of Vegetable seeds, together with a quantity of hop roots, have been forwarded by Dr. Royle (W.D.R.) direct

3 Copy of these paras will be furnished to the Board of Revenue with reference to their Proceedings

direct to Mr. McIvor the gardener in charge of the Public Garden at Ootacamund

Proceedings dated 10th June 1848 No. 336 forwarding communication to Captain Ouchterlony.

3 We have received the two Copies of the Memoirs of the survey of the Neilgherry prepared by Captain Ouchterlony and we consider that it does great credit to that Officer.

Forwarding a Memorial from C. Comara Mylappa Moodeliar praying for a consideration of his claim to certain Shotrimum Villages in Chinglaput

4. The Memorialist claims these Villages as the heir by adoption of the late Shotrimdar Coopana Moodeliar, as the Government has always reserved to itself the right in all cases, of refusing to recognize the claims of an adopted son to succeed to a Shotrimm, and as the prayer of this Memorial has been already negatived by your Government and by us, we must decline to alter our former decision

4 The Board of Revenue will instruct the Collector of Chinglaput to communicate the decision of the Honorable Court to Comara Mylappa Moodeliar

The

Forwarding a Memorial from Kateeja bee, widow of one Kosmund of Nellore advancing claims to certain land in that District.

6 The property to which the Memorialist lays claim is part of the service Mauniam attached to the Office of Town Cazee of Nellore, and the improvements to which she refers, were effected by her husband as adoptive Father, while holding that Office. Under these circumstances, the prayer of her Memorial cannot be complied with.

6 The Board of Revenue will cause the decision in this para to be communicated to the Memorialist

Forwarding proceedings relative to the disposal of the Shotrimm Village of Chotrapollem in Nellore.

7 It appears that this Village was granted on Shrotrimm tenure, subject to an annual payment of 60 Pagodas, by a Zemindar of Sydapore in the year 1790, two years previously to

to the assumption of the Country by the British Government. In the accounts of the permanent settlement of Sydapore the Village of Chootroopollum is entered as a Shotrium, and it has remained in the enjoyment of the family of the original grantee, until July 1845, when the last Shotriumdar died, leaving a Widow, and Mother, but no Children.

8. The grant was from the first unauthorized, never having received the sanction of Government, or of any of its Officers, and the lands are consequently liable to resumption, but as the Widow, and Mother of the late Shotriumdar are stated to have no other means of subsistence, we authorize you, as an act of Grace, to allow them to continue in possession of the village during their lives, after which it

it will be incorporated with Government lands.

9. Even had the grant been valid, the claim of Gopal Row to succeed to the Shotrium could not be admitted, that person not being descended from the original grantee

Forwarding Statement exhibiting the result of the administration of the Salt Revenue from July 1251 to 1257 inclusive

10. We shall defer the consideration of this subject until we are in possession of the general report on the operation of the Salt Monopoly which was called for in our Despatch of the 31st December (No. 29) 1847 paras 27 & 30, and which you inform us, the Board of Revenue propose shortly to submit.

8. In communicating this para the Board will be reminded that their promised report on the operation of the Salt Monopoly has not been received

Stating that in the opinion of Government the time has arrived for assigning to Mr Cochrane Collector of Cuddapah [illegible] and to Mr Stokes Collector of Guntoor the higher scale of allowances

warrant to them in looking for promotion elsewhere, so as to secure for those Districts the advantage of the local knowledge, and experience which their residence within them had enabled them to acquire. Both Mr. Cochrane, and as Mr. Stokes having completed an official residence of upwards of six years in their respective districts. we authorize you to assign to them a personal allowance of Rupees 2000 per annum, in addition to their present salaries of Rupees 28,000 per annum, such allowance to commence from the Late on which they shall have respectively completed a service of six years in their respective Districts

of Rupees 2,000/ Two thousand per annum to Mr. D. M. Cochrane Collector & Magistrate of Cuddapah and to Mr. W. Stokes Collector and Magistrate of Guntoor in addition to their present salaries of Rupees 28,000 per annum such allowance commencing from the date on which they shall have respectively completed a service of six years in their respective Districts. 10 a Copy of para 11 with the above order will be transmitted to the Board of Revenue for communication to the Officers concerned, and copies will also be

Forwarding a further Memorial from certain parties in Trichinopoly styling themselves the Tengala Community of the Street Irungum Pagoda, Complaining of the infringement of certain privileges enjoyed by them in that Pagoda, by people of the Vadagala sect.

13. We refer you to Para 39 of our Despatch of the 29th November / No. 19 / 1848. in which we directed you to inform the Memorialists that we could not interfere in the matter of their complaint, and that, if they deemed themselves aggrieved by the acts of other parties, they must apply to the Civil Courts for redress.

11 The Board of Revenue will be requested to cause the decision of the Honble Court in this para to be communicated to Shree Devasa Iyengar and others of the Tengala community who Memorialized that authority

Forwarding a Memorial from Meenatchee Sundaram the present holder of the Shotrium Villages of Meenjoor, and declining to sit in Chingleput praying

17. The Memorialist in this case is the Mother and Widow of the two last holders of the Shotrium - she has

has two daughters, one of whom is married, but she has no male heir.—

18. On the decease of her Son, who was the last holder, the Shotrium was resumed, and a Pension of Rupees 35 per Mensem was assigned for the support of the Memorialist. You subsequently however restored the Villages to her for her life but declined to recognise the claim of her daughters to succeed her, and it is against this decision that she now appeals in her Memorial to us.—

19. The Shotrium was originally granted in the year 1806, and by the terms of the Perwannah, the Villages were conferred on appoo Moodely and his heirs for the support of himself and his family, and for the annual expences of the two Pagodas in the Village of Meenjoor and appoo Moodely and his heirs were authorised and empowered to hold them in perpetuity.—

by them allowed the two daughters of Memu Tchetty Soorummal to hold the shrotrium Villages of Meenjoor and adoption in succession to their Mother and to retain possession of them during their lives. The Right Honorable the Governor in Council directs that the above Villages be registered according to their names and made over to the Collector thereof with the

20. As this grant was in part given as an endowment for religious purposes, we shall not object to the Daughters being allowed to succeed to the shotrium and to retain possession of it during their lives. The question of permitting either the Memorialist or her Daughters if they should have no issue to adopt a son for the purpose of continuing the shotrium in the family must be decided hereafter under the discretion given to you by the Notification issued under our orders of the 19th November / No. 23/1845 which declares that Government reserves to itself in all cases the right of refusing to recognise the claims of an adopted son to succeed to a shotrium

Note Collection which may have accrued from the date of resumption.— It is observed that under date the 18th May 1849 — No. 24— A Memorial was transmitted from one Moonesawmy Moodely praying for the continuance of the Shrotrium to the family which under the present orders will need no notice as well likewise as the Memorial from one Streenavasa Moodely which was forwarded to the Honorable Court on the 31st July 1849 No. 40 in which he laid claim to the Shrotrium as the legal heir.—

Forwarding proceedings relative to the claim of Rungasawmy Moodeliar to the restoration of certain Estates in Chingleput formerly held by his Father Nellatomby Moodily, also transmitting a further memorial from Rungasawmy Moodeliar.

23. We have carefully considered the information furnished by you, under the Instructions conveyed in our Despatch of the 31st December, No. 30, 1847 and although we are not of opinion that Rungasawmy Moodeliar has established his claim to the restoration of the Mootahs formerly held by his Father we nevertheless consider that there are circumstances in his case which entitle him to consideration.

24. The following facts appear to be clearly established, Viz.ts. that on the introduction of the permanent settlement into Chingleput in the year 1802, six Mootahs bearing an aggregate assessment

16. Under the authority of the Honorable Court of Directors conveyed in these paragraphs the Right Honorable the Governor in Council is pleased to confer on Rungasawmy Moodeliar, an annual pension of Rupees 600 six hundred per annum of the assessment of Rupees 18070 were purchased of the Government by Nellatomby Moodelly for the sum of Rupees 45000 that the fixed assessment was regularly paid up to his death in 1814 leaving his son Rungasawmy Moodeliar a Minor that the family requested permission of the Court of Wards under whose management the affairs of the Minor Mootahdar were placed to resign four of the Mootahs retaining only those of Annarumbaid & Coottumbankum and that this permission was refused that under the administration of the Court of Wards, the Estates fell heavily into arrear that on Rungasawmy's attaining his majority in 1823 the Estates were ordered to be sold for the balance which had thus accrued under a construction of the Law which has-

of 1831 but subject to the following reductions, Viz.ts to Rupees 1400 four hundred per annum on the accession of the next heir and to Rupees 200 Two hundred per annum to the third on whose demise the allowance will absolutely cease. The Governor in Council further directs that payment of the above pension be made to

has since been declared to be erroneous that the Estates were actually sold for a Balance including interest of Rupees 1,37,960- and purchased by Government for the sum of Rupees 30,700 that this sum was not paid to Rungasawmy but carried to account in diminution of the balance due from the Estates and finally that party of Rungasawmy complained against these proceedings that his complaint was on three 17th November 1826 several occasions referred 29th June 1827 to the Board of Revenue with 7th October 1828 instructions to take the whole case into their consideration and report the result for the information and orders of Government but that the Board having neglected to reply to this call the question was ultimately allowed to drop.—

to Rungasawmy Moodaly in arrear from the date on which the commissioner became the proper party of Government which the Board of Revenue will be requested to communicate to the Officer of account and Audit 17 A copy of these paras & the Resolution of Government thereon

Under

25. Under these circumstances we are disposed to think that the most expedient mode of meeting the claim of Rungasawmy Moodelly will be that suggested in the concluding Paragraph of our Despatch of the 31st December 1824 Viz.t by assigning a moderate pecuniary allowance to the family.—

26. In accordance with your suggestion we therefore authorise you to confer on Rungasawmy Moodely an annual Pension of Rupees 600, for the support of himself and his family to be secured to him under the provisions of Regulation IV of 1831 the pension to be reduced

thereon will be furnished to the Board of Revenue who will make the necessary communication to the Collector of Chingleput and cause to be intimated to Rungasawmy Moodely that this decision is final and that no further appeal on the same subject will be received.—

reduced to Rupees 400 per annum on the next heir & to Rupees 200 per annum to the third on whose demise it will absolutely cease considering moreover that Rungasawmy has repeatedly represented his case to you from the time of his dispossession in 1824 but that he has failed in obtaining that consideration which it deserved, and which was required from the Board of Revenue in the years 1826 1827 and 1828 we authorize you to pay the Pension now assigned to him, in arrear from the date on which the Mootahs became the property of Government.—

27. You will inform Rungasawmy Moodely in reply to his Memorial transmitted with your letter of 28th November No. 85/1848. that this decision is

is final, and that no further indulgence can on any account be conceded to him.—

Forwarding a Memorial from Ramasawmy Pundit, Head Sheristadar of Coimbatore praying to be relieved from a Retrenchment of his Salary from 11th December 1841 to the 5th January 1842 amounting to Rupees 264-3-1.

35. We cannot comply with the prayer of this Memorial under which a double charge against the State in respect of the same Office would be incurred we observe that Ramasawmy Pundit's Salary was increased from Rupees 315 to 350 per mensem by his transfer from Masulipatam to Coimbatore.—

22. The Board of Revenue will be requested to communicate the decision of the Honorable Court to Ramasawmy Pundit.—

To The Acting Secretary to the Government of Fort St. George

Dated Fort William the 13th Dec. 1849.

Sir,

I am directed by the Honorable the Deputy Governor of Bengal to acknowledge the receipt of your letter No. 1073 dated the 9th ultimo, and in reply to transmit Copy of a communication from the Superintendent of Marine, stating the quantity of Coir required by the Marine Department at this Presidency.-

(Signed) W. Seton Karr
Under Sect. to the Govt. of Bengal

To Major General the Honorable Sir John Hunter Litter, G. C. B. Deputy Governor of Bengal

Honorable Sir,

I have the honor to acknowledge the receipt of Mr. Under Secretary Seton Karr's Memorandum No. 815 of 29th ultimo, forwarding for

Fort St. George 17th January 1850

for my report, a letter, with enclosures, from the Acting Secretary to the Government of Fort St. George, No. 1073 of 9th Ultimo, to Secretary to the Government of Bengal, relative to the quantity of Amendevi Coir in Store at Mangalore.-

2. It appears that there is at present 1080 Candies of Coir at Mangalore, and that a further quantity is expected, for which there will not be Store-room there, and therefore it is proposed to dispose of all at present in Store above the quantity required by this Department for the current year.-

3. In reference to the above, I beg to inform your honor that this Department will not require more than the usual yearly supply or at most 500 Candies, having still a good supply of Amendevi Coir in Store. It would therefore seem advisable to dispose of all at Mangalore above 500 Candies, for which quantity this Department will indent in the usual way.

From the Collr of Cuddapah—

Furnishing the information called for on the several points noticed by Government in Para 2 & 5 of the Minutes of Consultation under date the 25th October 1849 agreeably to the orders contained in Extract from the Proceedings of the Board of Revenue dated 1st November 1849-

Sir,

Para 1. Agreeably to the orders contained in Extract from the Proceedings of the Board of Revenue dated 1st November 1849 I have the honor to furnish information on the Several points noticed by Government in paras 2 & 5 of the Minutes of Consultation under date 25th October 1849 with reference to my letter dated 12th October last.—

2. From the accompanying statement it will be perceived that the Extent of Laick Bunjer in Ballarapett as exhibited in the Village Accounts is 1067-29-b¼ assessed at Rupees 507-b-1. of which 76-12-c-6a the Assessment being Rupees 72-2-b- have been brought under cultivation within the last three years.—

3. The Village of Chinna Chouk is 7½ Miles from the Choultry and 2½ miles from the Town of Cuddapah.—

4. The favorable rate of Teervajasty of 1-3-" ca. f. a was fixed about 24 years ago

ago on the Lands adjoining those that are assessed for in consideration of the labour and industry applied in levelling the same and rendering them capable of irrigation, and this rate has been continued ever since, about one half of the holders of these lands being Ryots whose ancestors took up portions of the same on lapses without Heirs of those to whom the indulgence was first conceded, and of their descendants. The rate may therefore be considered perpetual.-

5. The practice of fixing 3 Pagodas as the minimum rate of Teerwajasty for dry converted into Wet under Circar Sources of Irrigation, has prevailed in this District since Fusly 1243 (1833/34) under the Rules introduced by Mr. Lacon the then Collector, but it does not appear from the Records of this Office that this rate has received the Sanction of the Board of Revenue as a General Rule.-

6. Of the lands proposed to be given as Endowment for the Choultry 12½ acres appertain to No. 85 and ¾ acres to No. 72 - Of the former 11½ acres have been left waste for the last 16 years, the

1 Mottala Paddumnah 1 Setteveate appiah

the last occupants, two in Number, having relinquished the lands in Fusly 1243, e having cultivated their respective shares of the same, the one for one year, the other for two years - and the remaining acre has been held and cultivated for a series of years by one M. Appiah until last Fusly when he surrendered the same by Razeenamah. Of the latter No. 3/4 acres were taken up by one Somum :nah in Fusly 1253 who cultivated the same for that year and threw up the lands during the last Fusly having left them waste during the intervening 4 years.-

7. Under existing circumstances in reference to the present application, as the Outlay has been considerable, and as the lands belonging to Ba Rarapett are unprofitable for dry cultivation, I have been induced to recommend the favorable rate of additional Assessment on the lands sought for in the event of their being converted into wet, and this in consideration of these lands equally requiring to be levelled as those adjoining them

them. and the more particularly as noticed in my former letter as the lands in question are to be ir:

=rigated by a channel dug at the expence of the Proprietor -

8. The Rules as at present in force for fixing the rate of Seer:

=wajastay on dry Lands being in like manner converted into wet by the construction of a Channel do not Iconceive apply to the present Case, in which under the circum:

=Stances detailed, the indulgence might Iventured to hope be acceded

Subject

Subject to the Conditions specified in respect to the Source of Irrigation being derived by the Channel to be newly constructed at the Cost of the Enamdar. -

Proceedings thereon.- From Para 2 of the foregoing letter and from the accompanying Statement it appears that there are in Ba Karapett, after deduction of 76 Acres - 12 - 6 cultivated in the three last Fuslies, acres 991-17-¼ of Laick Benger Viz. 986-3-1- of dry and 4 - 26 - 15¼ of Garden but in para 7 it is stated that the lands belonging to Ba Karapett are unprofitable for dry cultivation.- This discrepancy should be explained and it should be shown why the endowments for the Choultry could not be made from the Ba Karapett lands.-

Requesting the Collector of Cuddapah to furnish further information regarding certain Teerwah Jastee land the assessment on which he proposes to reduce.-

13.14

2. Referring to Para 4 the Collector is requested to submit a Statement showing the Ayacut of the Village of Chinna Chowk and the cultivation for the past ten Fuslies, setting forth also the extent of land to which the favorable rate of Teerwah jasty is applicable.- the dates when the several portions of it which have been cultivated were taken up.- those now held, respectively, by the first cultivators or their heirs and by those to whom they have been subsequently alienated.- He will further state by whom the favorable rate was first fixed, under what

what authority.- and whether all parties of late years raising wet produce in the Village with the aid of Sircar water are entitled to similar terms and will submit Copies of the orders under which the concession was originally granted.- It should also be explained whether considering the length of time which has elapsed since the indulgence was allowed, it might not terminate, and the rate of Teerwah jasty usual in the District be levied either immediately or after a further period.- The Board would likewise wish to know whether there are any other villages in the District besides Chinna Chowk in which similar favorable rates of Teerwa jasty obtain, and if so to be made acquainted with such particulars as are above noted in respect to them also.-

3. In Para 7 the favorable rate of additional assessment upon the lands sought by the Sheristadar is said to have been recommended in consideration of the lands requiring to be levelled, and because he will have to construct a

a Channel for their irrigation, but from the preceding para it seems that these lands have been already under cultivation and therefore it is to be presumed must have been levelled. and provision made for supplying them with water. Explanation is needed upon these points. and the Collector will at the same time State what would be the enhanced demand an account of Sircar water which would be payable upon the land, if calculated according to that falling upon lands of like quality and enjoying similar advantages in other villages.

4. Mr. Cochrane will also furnish copy of the rules referred to in Para 5 of his letter as having been introduced by Mr. Lacon fixing the minimum rate of Teerva jasty for dry lands converted to wet from Government sources of irrigation at 3 Pagodas per acre, and state whether any communication was at the time made to the Board upon the subject. It is observed that in the Hoosnum namah forwarded to this Office with the Principal Collectors letter of 11th. October 1842 it

In Cons 28th. November 1842.

D.G.

it is directed that if the first rate of land in any village is below three Pagodas the land brought from dry to wet cultivation should be assessed at the same first rate." The Collector will state what is this first rate in the village of Chinna Chowk and will furnish a Statement showing the extent of land in the Cuddapah District charged with Teerwajasty under rule above quoted, distinguishing the quantity charged at the "first rate teerwah" from that charged at 3 Pagodas.—

The deceased was a Bard. no service was performed by him beyond the mere recital of the praises of the ruling power or those of the idols in village temples; but the Enam appears to have been in the enjoyment of his father prior to the grant of the Sunnud now produced. Sir,

1.

I have the honor to submit for the consideration of the Board copies of the correspondence noted in the margin relative to Interest payable by Land Holders, Contractors &c. and request you will be good enough to favor me with their instructions with regard to the objections raised by Mr. Fischer in his letter of the 2d. November 1849.

2. Although, according to the strict letter of the Regulations interest can be charged from the 1st. of the month following that on which it becomes due I am of opinion, as the Accountant General allows Rists to be paid by bills on him they may be considered cash payments from the date of the bill, provided it is within

Sir,

In the Districts of Madura and Tinnevelly the Zemindars are allowed to pay their Rists by Bills on Madras. May I request the same indulgence may be extended to me and I be permitted to pay the Rist now due by me, the last, by a Bill on Messrs. Binny & Co. the more especially as my Ryots are two Rists in arrears to me from the failure of rain and the cheapness of grain, and your Treasury is short against Bills from the Accountant General.

Sir,

With reference to the accompanying Original Petition* received from Govinda

*to be returned.

Fort St. George 17th. January 1850.

Govinda Raj Moodelly who paid the Amount of Kist due by him up to 11th. August last by a Bill on Messrs. Binny & Co. for Rupees 1,786 (which sum was recovered by the Sub Treasurer and credited to me in his Accounts on the 3d. September last) declining to pay the usual interest on the above sum from the date it became due up to the date of the receipt of the amount into the Treasury, I have the honor to request you will be good enough to inform me, whether Interest is to be charged on money paid on account of Revenue due to Government by Bills on Houses of Agency at Madras up to the date of the receipt of the Bill, or as usual up to the date of the receipt of the Amount, as objections of this nature are often likely to occur, I request your specific instructions thereon.

To,
W. E. Lockhart Esqre.
Collector of Salem
Sir,

In acknowledging the receipt of your letter of the 13th. Instant and its enclosures

Fort St. George 17th. January 1850.

herewith returned.

enclosures, I have the honor to observe that the Bill on Binny & Co. in payment of the Kist would appear to have reached you on the 11th. August, the date on which his Kist became due as your letter transmitting it to this Office is dated that day. There was thus no delay on your part in forwarding the Bill to me, but it did not reach this Office till the 16th. and upon enquiry there seems to have been two or three days unnecessary delay in forwarding it to the Sub Treasurer for realization. The Bill it is to be observed was at 10 days sight.

The delay in realization is of course, not justly chargeable to Govind Raz Moodelly, consequently it would not in my opinion be fair to charge him with Interest; but there is another consideration to which I would advert, Viz. that interest is only chargeable on what is in law "an arrear of Revenue," and an arrear of Revenue is declared by clause II Section II Regulation XXVII 1802 to be such portion or the whole of a Kist which shall remain unpaid on the 1st. of the month following that on which the Kist falls due. In the present case the Kist seems to have fallen due on the 11th. Aug. and

Fort St. George 17th. January 1850.

and it seems to me that any portion of it unrealized could not became an arrear of Revenue chargeable with the Interest prescribed by Section VIII Regulation XXVII 1802, till the first of September, and the Amount of the Kist was actually realized on the 3d. of that month.

In regard to the general question, I am of opinion that if by accepting payment of a Kist in any but the usual mode, actual payment is deferred sufficiently long to constitute to the unrealized portion or the whole an arrear of Revenue, under clause II Section II Regulation XXVII 1802 interest is justly chargeable from the date on which it so became an arrear of Revenue.

Sir,

The Tahsildar of Salem has called upon my Mootlah Ameen, under orders of the Huzzoor he states, to pay Interest from 1st. July to 3d. September upon the Bill I gave him with your sanction on

Messrs.

Fort St. George 17th. January 1850.

Messrs. Binny & Co. at 10 days sight on the 26th. July last for my June Kist. As this is a most extraordinary and unprecendented demand, may I request you will have the goodness to inform me on what grounds and upon what principles it is made. I hope it is not a prelude to our being called upon to pay interest on all the Revenue of the Country, while it lies idle in the Mofussil Treasuries and pending its transmission to the General Treasury as one amongst the other means agitated for making up the deficiency between income and expenditure of the Country for if so, I must beg to protest against it on my own behalf and on behalf of my already overburdened co brethren.—

To,
G. F. Fischer Esqre.
Zemindar of Salem.
Sir,

With reference to your letter of the 5th. Instant relative to the Tahsildar of Salem having demanded Interest on your June Kist from 1st. July to 3d. September

Fort St. George 17th. January 1850.

I have the honor to inform you that no Interest has been charged on the Kist which fell due on the 11th. of June, for the remainder of that month, which is allowed to be paid in free of Interest, but from the 1st. of the following month Interest is usually charged up to the date of payment, agreeably to Clause Second Section II Regulation XXVII of 1802.

The Bill on Messrs. Binny & Co. was given by you on the 26th. July and received & and forwarded from this Office on the 31st. idem which in due course must have reached the Accountant Generals' Office on the 3d. and being at ten days sight the amount could not have been realized before the 13th. consequently Interest is due and is charged up to that date, Viz: 1 month (July) and 13 days in August. But in the present instance, as the cause of the amount of the Bill in question having been realized on the 3d. September was owing to references having been made to the Accountant General on the subject the Tahsildar has been directed to receive the Interest only for the above period.—

I have further to inform you that in all future cases of Bills being given

given on Madras in payment of Kist, Interest will be charged from the 1st. of the month following that on which it becomes due and for the number of days at which the Bill is drawn on also for the time required to forward it to the Accountant General.

To,
W. E. Lockhart Esqre.
Collector of Salem

Sir,

I have the honor to acknowledge the receipt of your letter of the 13th. Instant.

I freely admit my liability under the Regulations to pay Interest on my Kist from the 1st. to the 26th. July (the day of my giving the draft on Messrs. Binny & Co.) and am ready to meet your demand; But it appears to me that you have taken an erroneous view of the transaction in the nature of the settlement which I made, when you further claim interest from the latter date up to the day of realization at Madras of the Bill on

on Binny & Co. Had this bill been drawn at any unreasonable term, I will concede that the case might have worn a different aspect, in respect of a certain amount of extra interest being demdable; but in the actual case the sight at which the draft was passed was precisely that which in the provinces the Government (its Paymasters drafts on the Accountant General) treats as a Cash transaction on the spot of sale-10 days, when therefore the Govt. allowed me to defray my Kist by a Bill on Madras and I gave you one at 10 days sight I reasonably concluded that it would according to the invariable practice with such Bills be taken as a cash payment; and I think you must on reflection admit that I might even more reasonably put forward a claim for remission on the ground that such a mode of payment had saved to the Circar the expence of Carriage, of Guards, and all the risks of travel in sending so much specie down to Madras, than could you claim from me, that all this saving to the state shall only entail an additional charge of interest for the ensuing

lapse

Fort St. George 17th January 1850.

lapse of time ere the Bill is cashed at Madras.

I hope therefore you will recognize the justice of withdrawing your present claim but should you still entertain your former view I will then ask you to refer the question to Government.—

Proceedings thereon.

The point involved in the above reference appears to be whether drafts upon the Presidency particularly at short sights given by parties in the Provinces in discharge of public revenue are to be regarded as Cash payments or whether they are to be credited only on the dates at which their proceeds may be actually realized, and interest is to be charged for any period that such date of realization may be beyond the time at which the Government demand becomes an arrear under the provisions.—

2.

This question seems to have been submitted to the Accountant General by the Collector in his letter of 13th October, and to have elicited the following reply. "In regard to the general question I am of opinion on that if by accepting payment of a Hisb in any but the usual mode, actual payment is deferred sufficiently long to constitute the unrealized portion or the whole an arrear of Revenue under Clause II Sec. II Regulation XXVII 1802 interest is justly chargeable from the date on which it so became an arrear of Revenue." In this opinion the Board entirely concur and they therefore direct that the Remindar of Salem be charged with interest upon his June Hisb from 26th July to 15th August in addition to the interest from 1st to 26th July, for which he admits his liability.—

in the habit of allowing the Toliy a Mara or fee annually which ceased from the death of the Enamdar, As the services of a Toliy are essentially necessary in the Village, and as the present enam land bearing teerwah Rupees 2-4- granted to Boodah is quite insufficient for his maintenance, I beg to recommend that a spot of waste land, bearing teerwah Rupees 6 at least, should be allowed at the rate of half a Rupee per Mensem, consequently a spot of waste land valued at Rupees 3-12- should be added to the present allowance Rupees 2-4- to raise his emolument to Rupees 6 per annum.

3. In fusly 1254 the Summah Bariz of the Jagheredar (excluding enam) was Rupees 72-9-11 but for fusly 1259 under the Circar management, the Bariz amounted to Rupees 62-7-11 excluding enam, this gives a centage of Rupees 1-1-5 to the Carradar and Rupees 1-6-5 to the Curnum, I therefore request the Board's instructions either to continue the Enam lands to the above individuals or grant money allowances in lieu of the Enam lands. In the event of the Enam being allowed to continue as heretofore the Goundan Enamdar should be ordered to perform the duties of Curradar.

Sir,

From the Collector of Salem, dated 20th Ultimo.

Representing the unfavorable state of the season in his District and soliciting sanction for the grant of remissions to Ryots.

I have the honor to report for the information of the Board on the unfavorable state of the season of the present fusly 1259 and of its bad effects which has so blighted the Crops of all sorts of grain in general.

2. The showers of rain which fell in the Months of April in all the Talooks, enabled the Ryots to prepare their lands for Poonjah cultivation; and in some places as Cumboo, Till, Vca. were also sown. but the Tanks received no supply of waters. There were partial rains in the Talooks from May to July which brought the Till, Cumboo, Cholum, Varagoo Vca. crops to maturity in some places. The produce

produce was in some places 3/4 or 1/2 but in others only a 1/4 in many Villages the Poonjah crops were completely parched up. In the above Months some of the Tanks received one or two Months supply of water, which induced the Ryots to sow their Nunjah lands in hope of getting a further supply sufficient to bring the crops to maturity. The Rains from August to October were very scanty and partial, not even sufficient for the Poonjah crops then on the ground, such as Raggy, Saumay Coolly, Tovaray, Colon Chenna, Oil seed, and which produced 1/2 or 1/4 crop in all the Talooks, except Ofscor and Denkencottah where these crops thrived some what better than in the other Talooks. In some places the crops were completely parched up, owing to the total failure of the Monsoon.

3. The pulse grain at present on the ground such as Avaray Coolly, Tovaray Colondoo, Grains and Oil Seeds also received no rain in the Months of November in the Seven Talooks noted in the Margin, but those in the remaining Seven Talooks, viz Ahtoor, Nameul, Paramutty, Sendrayadroog, Raizepoor, Trichengode and Ofscor received

received a few partial showers in that Months. There was no rain in all the Talooks in December, which proved injurious to the crops which received no rain in November.

4. The Grain first sown may yield 1/2 or 1/4 crop, but those which were afterwards sown will I think in some places totally fail, and in some yield a scanty produce. Poonjah Grain was extensively cultivated, but Poonjah lands are generally twice sown in the year. Different Kinds of Grain are sown together at the same time in a field of Poonjah. Although the present crops in these lands are dried up in some places, yet the first crops may have yielded some small return. Consequently it cannot be correctly ascertained what loss a Ryot has sustained from his cultivation. As every one at time of the approaching settlement will claim a remission on account of the loss of his Poonjah crop. I beg to suggest that all Poonjah lands should be entered in the Summahbundy as usual, and that any portion of the Candayem which may stand against the poorer Ryots uncollected should be remitted in proportion

to

to their circumstances. Nunjah lands under Tanks, though they may have yielded a scanty produce are not entitled to remission, but those that totally failed from the Tanks and Wells being dried up would necessarily require a remission as the Ryots will be unable to pay high Nunjah Teeruah on Shavy lands. I therefore request the Board's permission to grant remission on Shavy Nunjah lands, taking at the same time the circumstances of the Ryots into consideration.

5. As I am about to commence the settlement for Fusly 1259, I request the Boards' early instructions on this subject.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter of the 9th Instant, describing the

the unfavorable character of the past season in your District both in respect to Nunjah and Poonjah lands, and suggesting the measures of relief which you would propose for adoption.

2. With regard to the dry lands you suggest that "these be entered in the Summabundy as usual, and that any portion of the Candayeem which may stand against the poorer ryots uncollected should be remitted in proportion to their circumstances." Such remission can of course only be made under orders of Government. but at the close of the Fusly the Board will be prepared to support your recommendation for writing off such balances of Poonjah Kist as cannot be realized without causing distress to the Ryots and cramping their resources for future cultivation. Meanwhile you will deem yourself authorized at your discretion to suspend the enforcement of the Government demand in whole or in part in any instances in which the necessity for such indulgence be clearly established to your satisfaction.

It must be well known to the Board that althō the abkarry Farms of this District for Fusly 1258 sold for Rupees 1360 below Fusly 57, it was considerably higher than the highest rent derived in former years occasioned by the unusually high competition created by the bidders from Pondicherry.

From the Collector of South Arcot ... Affording further explanation regarding the Patte valum of Peishcush

Sir

In reference to your letter of the 24th Ultimo on the subject of the Cattavalum Peishcush I have the honor to state that on reference to the Kistbundy account prepared in Fusly 1218 for all Shrotrum Villages the same noted in the Margin appear to have been fixed as the ayen Dawnstamum and Cavelly Peishcush for the Village of Vasmta-Kistnapoorum which have also been annually procured ever since. This will also account for the difference noticed in your letter

Shrotrum rent ayen	350	— —
For Cavelly income	35	— —
For Dawnstamum	35	11 —
	420	11 —

It would seem that in the year 1754 the then Poligar gave the Village in Jaghire or Suvamanium tenure to Brahmins apportioned into 18 Shares but in 1799 the grant appears to have been

been changed into Shotteim tenure by Poligar Vanaderoyen Bundary who moreover fixed the Jodi at 100 Pagodas & required that the sum be paid to the agnteeswara Pagoda at Vaittanalam the amount so fixed appears properly given.—

3. The Board also wish to know whether the Davastanum has been resumed & if so what Sunnuk has been granted in lieu of it this information is given in Statement No. 2 sent on the 20th August 1808. wherein also the estimated assets of the Seeva & Vishnoo Pagodas at Vaittanalum may be seen. But those detailed accounts thereof not being on the records it is out of my power now to state what portion of the Davastanum precipton on account of the Village had been included in that Statement. The Poligar having in 1799 resigned his right to the Village of Vasantakistnapooram & it does not appear that he resumed the one third of those

amount therefrom it may be concluded that for this as well as for the reasons given above it was not included in the assets of the Pollium upon which the arrangement of 1816 was based.—

of the Peishcush payable by the Vaitumullum Poligar in his District.—

2 From this it will be perceived that in his letter of 10th October last the Collector represented that "it had been discovered that on the occasion of conferring 13 Villages in perpetual Zemindary tenure on the Poligar of Vaitumullum under orders of Government noted in the margin instead of the sum of Star Pagodas 10 or Rupees 35 as therein directed to be the annual Peishcush Rupees 70 appear to have been levied from the Poligar according to a Sakeed issued by Mr. Hyde dated 27th July 1817. This amount has been paid into the Treasury ever since July 1226 and the sum so overpaid amounts to Rupees 1155—" as indicated in the margin. The Board [illegible] November recalled for some further explanation upon certain points connected with the case which has been supplied by Mr. Davis in his communication of the 27th Ultimo

From

15th July 1815
to 25th July 1816.

From July 1226 to 1258 at 35 Rs. each = Rs. 1155.

3 From a perusal of these papers and reference to the records it seems to the Board that there can be no doubt that Star Pagodas 10 or Rupees 35 is the correct Peishcush. The Vaitumullum Pollium was originally attacked by Captain Graham in 1802 and the proprietor remained for several years in enjoyment of a pension equal to one third of the net proceeds of the property. In the year 1816 it was proposed to commute this Pension into a grant of rent free Villages of a value equivalent to the Pollium. The Poligar assented to the arrangement, the value of one third of the Pollium was calculated at Star Pagodas 1417-33-71 and in lieu of it 13 Villages reckoned to yield inclusive of a Cannelly & Dawnstannum Pagodas 1419-3-27 were conferred upon him upon Zemindary tenure this no Permanent Zemindary seems to have been issued. of any Peshcush but the Board recommended the imposition of a nominal Peshcush of Pagodas 10 as an acknowledgment of the British sovereignty. The Government 15th July 1816 concurred in the views & orders were in consequence sent to the Collector to carry out the arrangement. The Board can only account for the enhancement in the Peshcush by supposing with Mr Davis that it must have proceeded from some mistake or oversight on the part of the then Collector Mr Hyde.—

Bd to Collector 25th July 1816.

In Under these circumstances the Board therefore desire me to solicit the sanction of Government for suspending to the Poligar the sum of Rupees 1155—0—0 being the Amount at 35 Rupees per annum collected from him in excess of the true Demand for 33 years from the commencement of July 1720 when his estate was conferred upon him to the close of the past July 1758 and for the reduction of the nominal Peshcush in future to

10 Pagodas 10 annually.

5 It will be seen that in the course of their Correspondence with the Collector the Board were led to inquire why the Garrison of Vasundakotta upon one of the Villages originally belonging to the Pollams was not included among the assets upon which the Arrangement was made with the Poligar in 1816. It would seem that the Village in question which in 1754 was alienated by a Predecessor of the Poligar to certain Brahmins on service Inamm tenure was in 1799 charged with a yearly Quit rent of 100 Pagodas which however was assigned for the support of a Pagoda at Vaitta-vallum as the Peshcush of the Village had thus long ceased to be enjoyed by the Poligars family it was not taken into account in determining the value of

Note There seems to have been a further charge upon the Village of Rupees 35—11 for Dawuttas: mum and Rs 35 for Cawelly the whole Rs 420—11 has been resumed by Government under the General arrangements for the Assumption of the Pagoda and Land endowments in South Arcot and substitution of a fixed Faudeek and Police establishment.—

of the Estate to be granted him in lieu of his previous pension. The matter has however no bearing upon the question immediately under submission regarding the Poligars Peishkush.

Sir. With reference to the Proceedings of the Board of Revenue under date the 18th Ultimo I have the honor to state that it was found impracticable to reduce the number of Extra Goomastahs owing to the preparation of Individual accounts of land left waste which

which was not done in July 1852
nor in any July prior to July 1857
I do not see how it is possible to dis-
criminate between the Cabooleatwaste

labour and Sean therefore hold out
no expectation of the charge for Extra

have

have the honor to state that the Petitioner
seeks recurrence to the practice of ab-

below the Estimate which under
the sanction of the Board dated
26 April 1839 obtained during the

was again enforced, and as the

came under my charge and there
had therefore been no opportunity
of Compensating for the Gratuitous mode
of preventing fraud by the stricter
supervision which may be supposed

to exact under Government administration I did not consider it just to the Estate to dispense with the responsibility for the Estimate in that Fasly but in the one now current the responsibility will not be exacted.

From the Asst Collector of Tinnevelly. } Para 1.

Sir

Reporting upon the Settlement of Land Revenue of the Tinnevelly District for Fasly 1258 and forwarding the usual Accounts connected therewith.—

Carr Season.

I have the honor to report upon the result of the Settlement of Land Revenue of the Tinnevelly District for Fasly 1258 A.D. 1848-49 which was completed before I received charge of it and to forward the several Statements marked **A** to **D** and Numbered 1 to 16.—

2 There was no rain from the beginning of May when the season for Carr Cultivation Commences to the end of August & September it fell in all parts of the District but in small quantities and proved beneficial chiefly to Poonjah Crops. The showers of the South West Monsoon

Fort St. George 17th January 1850

Monsoon having been confined to the Hills, the River Tambraparny received but a scanty supply and the height of water in it at Tinnivelly was, according to a Register kept in this Office only from 3 to 5 feet from the 9th to the 25th of June and 4 feet on the 20th August from which date till the end of September there was very little water flowing. The Cultivation under Ayaut fell off to the extent of Seed Cottahs 5,865 or 18⅝ per Cent upon the Total Ayaut Cultivation of fusly 1257. Of this deficiency in Cultivation a small portion occurred in the 2 Talooks of Sreevygoondum and Punjahmall situated towards the termination of the River Tambraparny and the

major portion of the remainder in the Talooks of Tullyoor, Nangoonary, Tencauvey and Sunkerniarcoil deriving irrigation from the Chittraundy and other Rivers. The decrease under Ponacolum Taikal was still larger in the Talooks of Nangoonary, Tullyoor, Sreevellypootoor, Sunkerniarcoil and Sreevygoondum and amounted to Seed Cottahs 7215 or 78 31/32 per Cent below the Total Ponacolum Cultivation of fusly 1257. The decrease in Cultivation both under the Head of Corr, Ayaut and Ponacolum being added together, exhibits a Total decrease in Corr of Cottahs 13,110. The extent of Cultivated land which became either totally or partially unproductive from drought in Corr was less in Fusly 1258 than in the previous year and it amounted to Seed Cottahs

Fort St. George 17th January 1850

Cottahs 221 under Agaput and to Seed Cottahs 20 under Ponacolum Column or both together to Seed Cottahs 241. Of which a large portion occurred in the Talooks of Vullyoor and Nungoonary. On the whole the extent of loss of Crops by drought in Carr is little, compared with that of fusly 1257. The large decrease in the Carr Cultivation of fusly 1258 is chiefly owing to Inundations & other causes as noted in para 2 of last year's report made towards the end of fusly 1256 by the aid of water remaining in the Tanks filled by the heavy rains of April 1849 and harvested in fusly 1257 having been to a considerable extent brought to the Carr accounts of the latter fusly which was not the case in the year under report.

Fort St. George 17th January 1850

Peshanum Season.

3 The season for Peshanum also was unfavorable from the latter end of October to the early part of November the rain fell in all parts of the District but not so plentifully as to fill the Ponacolums to their fullest extent. The November and December rains having likewise proved light, a want of water was greatly felt which occasioned a decrease in Cultivation of Seed Cottahs 5,912. and Seed Cottahs 6583. under Agaput and Ponacolum Tanks respectively or both together Seed Cottahs 12,575. The extent of dried up and deficient Crops in Peshanum was from the same Cause as very much more than in fusly 1257 as shown in the Margin.

Drought

" 1258	7947

These effects were most severely experienced in the Talooks of Tiruvanvey, Nungoonary, Vullyoor Tirunellypootoor and Tinkarinarcoil-

In

In the Talook of Tullycoor alone/on the state of which my Predecessor Mr. Elton reported to the Board of Revenue under the 2d June last/ the decrease of Bariz amounts to Rupees 67795 as exhibited in the Margin. The Talooks of Sankeminar Coil suffered next in degree from the effects of the bad season. In Bariz having fallen off to the Amount of Rupees 54,906—

" 1258	106,736.
Decrease	67795.

4. The total decrease in the Land Revenue Bariz for Carr and Peshawum of the Fusly under report is Rupees 352,675.—

5 The Season though unfavorable for Wet Crops was less unpropitious for the dry, Consequently there is but a slight decrease under the Head of Poonjah

amounting only to Chawis 468. There was an increase of Seed Cottahs 1506 in Bagayet or Garden Cultivation which is owing to the Ryots having on the failure of their Punjah Crops chiefly directed their attention to the Cultivation of their Lands under old Wells. Notwithstanding the adverse state of the Season and the consequent diminution in Cultivation, the selling prices did not rise to the degree that might have been anticipated, the Carr Nerack having fallen short of that of Fusly 1257 by 7-39/78 Rupees per Cottah or 13 7/32 per Cent and that of Peshawum having exceeded the Current selling price of that year by only 5 11/32 Pie per Cottah as shown further on in Statement No. 3. The falling off in the Nerack is partly attributable to the supply of Grain in Madura having been abundant consequent on the favorableness of the Season there and partly to the large importation of Grain from Tanjore and other Districts to the extent of 60,000 Cottahs.—

the Cowle cancelled and the Village transferred to the Head of Oloongoo.

1 Canarpully
2 Voosoolumpully

The other three Villages of which the names are noted in the Margin were at the July 1257 entered under the Head of Poonjah, the Cultivation having been confined only to dry lands, but in July 1258 Some of the Poonjah lands having been converted into Nunjah, the Villages were necessarily carried to the Head of Nunjah.

8. On a reference to the annexed Statement No. 2, it will be seen that the extent of Nunjah Cars and Peshanum Cultivation in July 1258 in all descriptions of Villages excluding the 4 Experimental Villages has fallen short of that in

in the previous July by Seed Collahs 25,635-19-1/2 deducting therefrom the Increase in the 4 newly proposed Villages Amounting to Seed Collahs 7-11-4-1/2 the Net decrease stands at Seed Collahs 25,628-4-9/16.

9. The Extent of Land Cultivated with Nunjah and Punjah produce in July 1258 Amounts to Seed Collahs 11,251-20-1/2 being an increase of Seed Collahs 1,606-6-4 above July 1257. the reasons for which are detailed in the remarks on the Statement No. 9 further on.

12. The revenue derived from Nunjah Warapat & full taxed wet lands in Olungoo Villages Amounts for Fusly 1258 to Rupees 12,11107-4- which being compared with that of the previous year, shows a decrease of Rupees 225/454 12-7 against the year under report attributable to the large decrease in the Carr and Peshanum cultivation already noticed Vide Statement No. 5.

14- Under the Head of Pollam- there is a decrease of Rupees 17,211- 4- which is chiefly owing to the extent of Pollam land Cultivated and the rate of assessment which it bore as also the price at which the Pollam Grain was commuted into money, having been less in Fusly 1258 than in the previous Year-

15- The causes assigned for the Decrease under the Head of Pottom are also applicable to the defalcation of the Revenue derived from Poroopoo lands, vide Statement No. 8.

16- From Statement No. 9 it will be observed that in Kunjahmail Poonjah and Vampyr there is notwithstanding the Increase in the rate of Peerwah, a decrease in the 1st Item of Rupees 2765-7-7 in consequence of diminished Cultivation caused by the unpropitious nature of the season and an increase under the 2d Item of Rupees 280-2-1 owing to the extent of land employed for the cultivation of products not requiring much irrigation having been greater than in the previous year.

The

Fort St. George 17th January 1850.

The increase of Rupees 2926-11-9 and 3,604-14-2 under the 3d and 4th Items respectively is attributable to the Ryots having from want of water to raise Kunjah Cultivation extended their Well Cultivation beyond what they made in the previous year. Decreased Cultivation of the 5th and 6th Items it will be observed has had the effect of Notwithstanding the increase in the Average rate per Seed Cottah resulting from lands paying a higher rate of Peerwah having been chiefly employed in Fusly 1258) of reducing the Revenue from them to the trifling Amount of Rupees 3-2-11.

17 On reference to the Subjoined Statement No. 10 it will be seen that there is an increase in the total of Kunjah and Bagayet Cultivation, of Seeds Cottahs 7-14-4½ which has produced a corresponding increase in

in Revenue of Rupees 26-1-10 in the 4 Settled Villages which is ascribable to the extent of land applied to the cultivation of Poonjah products not requiring much water having been greater in Fusly 1258 than in the previous year.

21 The Increase in the 1st & 2d Items amounting together to Rupees 1904-10-" was caused by additional trees having been brought to account as bearing in the fusly under report Deducting therefrom the decrease of Rupees 89-12-10. and Rupees 2-2-" in the 3d & 4th Items respectively, the former owing to a fall in the price at which Tamarinds were sold and the latter to certain trees paying Cuttoogottah in the Village of Maramary having been resumed and taxed in full, on the demise of the Cuttoogottadar who had enjoyed the Village under the title of Maumool and without a grant in support of the favorable tenure, the Net Increase Stands at Rupees 1812-11-2.

25. The above Statement No. 16 will exhibit the improved state of the Plantation therein referred to.

26. Since the receipt of the Board's Proceedings dated 22nd April 1844 down to Fusly 1257 Palmirahs were planted on Lands occupied by Sand drifts to the Extent of Seed Cottahs 32–2–4 3/8 in Munjah and Chains 635 9/32 in Poonjah. In the Fusly under report Lands measuring 478 31/32 Chains of Poonjah were employed for the above Plantation in addition, making the total extent occupied by Palmirah Plantation Chains 1114 1/4. The Seerwah on the under Cultivation has fallen short of that of the previous Fusly by Chains 3-11-7.

Mr. Thomas deemed it expedient to put down seeds of the several kinds of trees noted in the Margin on the above lands as well as the Palmirah seeds and those that failed to come up or died after germinating were replaced by new ones. The living trees of the above named kinds and Palmirahs at present amount to 489.

and 4,47,633 in Number respectively and care is taken to have them watered and protected from injury by cattle. Of the trees planted on the River banks in the limits of Streeygeantum Taloork up to Fusly 1256 amounting to 3340, 2400 have since died and 940 only remain.

28. I am not able at present to reply to the question put in Para 7 of the Board's Proceedings dated 6th August last whether any means can be devised for the restoration of the land covered by sand. I fear no artificial means would be effectual to answer the purpose and I am inclined to doubt whether the plantations now rising about these sand drifts are not calculated or rather to augment the nuisance than to abate it by obstructing the dispersion of the sand after it has been brought there from other places by

by the wind. The effect must be watched and should hereafter be reported to the Board.

33 On reference to the State-ment No. 21 it will be found that a failure of Crops on Nunjah lands either in whole or in part has occurred in all the Talooks excepting Punjahmal and that the Loss sustained by the Ryots amounts on the Total Bariz due by them to from 56 to 88 per Cent. The Amount of Remissions granted for drought and Short produce in the Talooks of Vullyoor, Sautreminarcoil, Streevygoontum Pootoor and Naugoonary is considerable compared with the Bariz of these Talooks. In the 2 former Talooks above Remission was granted to the amount of Rupees 42,348 which is more than half the total amount of remission for the whole District while in the 2 latter it amounts to Rupees 28527 and is more than 1/3 of the aggregate amount of remissions In 4 of the Remaining 8 Talooks Viz.

Fort St. George 17th January 1850

Kelliambalums, Vedagrummums, Sharemmakilany and Brummuda: =Sums, the remissions allowed is a Return 1 per Cent on their Bariz while in the other 4 Talooks Viz. Tencauvey Sattoor Streevygoontum and Cottapedarum it does not exceed 6 per Cent. My Predecessor Mr. Elton has already reported to the Board the state of the Talooks. The loss sustained by the Ryots in general by failure of Crops is great compared with that caused to Government.

34. With reference to Para 8 of the Board's Proceedings dated 18th October 1848, I have the honor to state that the land therein referred to having been covered with Sand, the whole tax amounting to Rupees 372-6-3 was remitted in Fusly 1258. In Fusly 1258 a great portion of the same land was restored to its former state

Fort St. George 17th January 1850.

at the expense of the Ryots who cultivate them and the remainder amounting to Seed Cottahs 9-3-13 situated in the Village of Vasudanam =nellore in Sunkerminarcoil Talook having been reported as incapable of cultivation unless a considerable sum should be allowed for its restoration, Jahitah Cowles were granted to the proprietors on the following terms.-

35. The above course was adopted because the amount required for its repair would have been greater than that of remission allowed in the progressive rate of assessment.

Fort St. George 17th January 1850

Drought – 1873.
Short produce 3541.
5214

I last have the honor to state that the remission of Rupees 5,214. therein referred to was granted for withered and defective Crops as noted in the margin showing an excess in the amount remitted on account of short produce. This Excess is owing to the Ryots having cultivated in Cars of Fasly 1257 more Lands than there was water for, and also in Consequence of a great portion of these Lands being situated on levels too high for irrigation from Panacolums, which occasioned entire or partial failure of Crops and Government considered remission of taxe necessary to the Amount of Rupees 4,072 in Car as described in the Margin.

	Cash
Drought –	1,131
Short produce	2,941
	4,072

The remission allowed in Peshcaums of Fasly 1257 for like reasons amounted to Rupees 542 and 608 respectively or both together to Rupees 1,142. Thus the total amount of remission granted for Car and Peshcaums was Rupees 5,214. which does not seem Excessive Compared with the Aboongum Punjah Bary of the District amounting to 11 Lacs of Rupees –

10. The demands on account of the several Items Enumerated in the Statement No. 25 which are ex- usually added to the Land Rev- =enues amounts to Rupees 1,01,387-13-6 being in excess of the Amount of the previous year by Rupees 15,45-3-4 the Cause of which may be Exp- =plained as follows-

11 The decrease under the 1st Item is owing to lower proposals having been received in Fusly 1258 than in the previous year- That under the Head Devaccaum on Sircar & Enam Villages is Consequent on diminished Cultivation of the Lands paying Devaccaum fees and that under the Head of Tirpany was caused as shown in the Margin & partly by certain Pagoda entire Villages and Chillera lands and their Revenue having been ex- under

under recent orders from the Board of Revenue made over to the Trustees and partly by diminished Extent of Cultivation- & falling off in ex- Cultivation in the Chuttrums Villages is the cause of the deficiency in the Chuttrum Funds- The decrease under these different Heads being added together the total amounts to Rupees 9,710-7-5 which being deducted from the increase of Rupees 11,255-10-9 in Esctra Revenue the net Increase remains at ex- Rupees 1,545-3-4 as Exhibited in Statement No. 25-

46- The extent of land employed for the Cultivation of Common & M. M. Sugar Canes in Fusly 1258 exceeds that of the previous year as shewn in the Margin which is chiefly owing to this species of Cultivation which does not require constant and much irrigation like Nunjah having been undertaken on an extended scale in the Brumma-dasum Talook. The cultivation of Mauritius Sugar Cane is so little altogether that the decrease of it requires no explanation.- The excess in the Estimate produce is the result of the increase in cultivation abovementioned. Sugar from Country and Mauritius Canes was in Fusly 1258 manufactured in 22 places none of either kind was exported to England, the produce being insufficient even for Home Consumption.-

Chapter xxxvi. An Act for the Relief of Insolvent Debtors.

The amount of security to be given by insolvent debtors applying to the Court for their discharge.

Be it enacted by the Queen's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, That from and after the passing of this Act no Insolvent Debtor shall be entitled to take the benefit of the said Act, or of any Act for the Relief of Insolvent Debtors, unless he shall, at the time of his application to the Court for his discharge, or within such further time as the Court shall allow, enter into a bond, with sufficient sureties, in the penalty of not less than fifty pounds, conditioned for the appearance of such Insolvent Debtor in the Court in which he shall apply for his discharge, on the day in that behalf appointed, and from time to time afterwards, as the Court shall direct, and to render himself a true prisoner in the prison of the said Court, and to abide by such order as the Court shall make concerning the costs of the opposition to his discharge, in case the Court shall be of opinion that he ought not to be discharged by reason of any of the matters to which the opposition relates, or in case he shall not obtain the consent in writing of one moiety in number and value of his creditors, or in case he shall not file his schedule in the manner directed by this Act, or in case he shall not, within the time limited by this Act, or such further time as the Court shall allow, apply to the Court for his discharge, or in case he shall not pay into the hands of the Provisional Assignee, within the time limited by this Act, or such further time as the Court shall allow, the amount of the sum or sums of money which he shall be ordered to pay by way of gratuity to the wife or children of such Insolvent Debtor, or in case he shall not execute such conveyance or assignment of his property as the Court shall direct, or in case he shall not deliver up his books, papers, and writings, and a true account of his estate and effects, in the manner directed by this Act, or in case he shall not submit to be examined touching his estate and effects, in the manner directed by this Act, or in case he shall not attend the Court from time to time as he ought to do, or in case he shall not in all things conform to the directions of this Act, then and in every such case the bond entered into by such Insolvent Debtor shall be forfeited, and the penalty thereof may be recovered by any creditor who shall sue for the same, and the money when recovered shall be applied in the manner directed by this Act with respect to the property of such Insolvent Debtor.

Amount of bond to be given by Insolvent Debtor applying to the Court at the time of his application.

The amount of security to be given by Insolvent Debtor applying to the Court within such further time as the Court shall allow.

Amount of penalty in bond to be given by Insolvent Debtor applying to the Court at the time of his application.

Amount of penalty in bond to be given by Insolvent Debtor applying to the Court within such further time as the Court shall allow.

The

3 The Carr season of the year under report was not altogether so favorable as that of the preceding year. The rains of the South west Monsoon fell on the Hills during the Month of June and July in average quantity and the Aganut lands in the Talooks of Shemadavy and Bremadasem irrigated by the Sambraporney river were in consequence well supplied with water. In the Carr Aganut Cultivation of Shemadavy there was an increase of seed Cottays 21—11—6. in that of Bremadasem a decrease of seed Cottays 105—6—3/8 This decrease in the Bremadasem Talook was caused by some lands watered by Gadamanddee and Wardamddee rivers having been left uncultivated, as the water in these streams was not sufficient to reach these lands which from their situation are the last supplied. These lands have in previous Fasleis been occasionally left uncultivated with Carr from want of water. But it was with respect to the Carr Ponycolum cultivation that the season was not so favorable. This description of cultivation depends upon a timely fall

of rain before the commencement of the South west Monsoon in the Months of April and May by which the tanks are filled. In the Fasly under report there was a Deficiency of rain in these 2 Months and the extent of Carr Ponycolum cultivation is less than in the previous year. In the Talook of Shenkerninarcoil there is but little, in Streevilliputtoor no Aganut two Crop land, but a second Crop is cultivated or not, according to the supply of water hence the extent of Carr Cultivation in these two Talooks is always fluctuating. In the Talook of Shenkerninarcoil there is a decrease in the Carr Aganut cultivation to the extent of seed cottays 832—6 3/8 in Streevilliputtoor, a decrease of seed cottays 80—17 3/2 attributable partly to the insufficient quantity of rain that fell in these Talooks, but principally to the circumstance that in Fasly 1857 the year previous to that under report, a

considerable

considerable extent of Anny modum gunn cultivation of Fasly 1256 was as is the usual practice, carried to the account of Fasly 1257 because reaped within that Fasly. This unusual extent of anny modungunn cultivation in Fasly 1256 is attributable to the remission of 3/4 of the usual tax on the second crop which was granted in that year

4 The decrease in Carr cultivation on Pongolum Lands amounts in the 4 Talooks of this Division to to seed cottays 4503 6 4 3/4 as shewn in Table No 2

6 The Peshanem season has been unusually unfavorable. With the exception of the Agaput Lands in the Shermadavy and Bremadavem Talooks which are watered by the Sambraporney river every description of Peshanem Punjay Cultivation in this Division has suffered greatly, and the extent of land left uncultivated was considerable. In the Talooks of Shermadavy and Bremadavem so highly favored with preference to means of prigation, there was an increase in the Agaput Peshanem Cultivation amounting to seed Cottays 158 10 4/14 but in Ponycolum Cultivation depending upon rains falling on the spot, the failure of the Monsoon has caused a decrease in these two Talooks, amounting to seed Cottays 737 14 3 3/14 In the Talooks of Shenkenmia coil and Steven Nipootoor less favored in point of irrigation, the Agaput Cultivation has suffered as well as the Ponycolum. In Agaput the decrease is seed cottays 198 5 4/15 in Ponycolum seed Cottays 3137 16 7/8 The total decrease of Peshanem, Agaput and Ponycolum

Fort St. George 17th January 1830.

Cultivation in this Division caused by the unusually unfavorable season, amounts to seed cottays 5698 5 13/15 as shewn in Table No. 4

7 The continued drought caused a great failure of the Peshanem crops, to the extent of dried up crops and short produce was seed cottays 3867 4 1/2 and the permission necessarily granted on that account amounted to Rupees 40444 1 8 exceeding that of last year by Rupees 10151 13 3 as shewn in the Margin.

8 The season was not on the whole unfavorable to the dry grain Cultivation. The rain which fell in the Months of August, September and October though insufficient for the Peshanem Ponycolum Cultivation, enabled the Ryots to cultivate the Punjah lands to a greater extent than in last year, except in the Talook of Shenkenmia coil in which the rain fell more partially and in which there is in consequence a decrease in the cultivation of this description of produce amounting to Kunglies 355 55/64 There is a Net Increase in the 4 Talooks of Shamo 1032 79/128 as shewn in Table No. 5.

From Ft. St. George 17th January 1850.

9 The favorable Peshanem season in Fusly 1257, and the consequent abundance of grain produced a fall in the Carr prices of the year under report of 11 21/32 per cent below last year. The exceedingly unfavorable nature of the season of the Fusly under report and the consequent deficiency in cultivation and produce, would have caused a considerable rise in the Peshanem Rencknext for the abundance of the Poonjah harvest on which the majority of the people in the Northern Talooks of this Division depend for food and the frequent importation of grain from the neighbouring Districts. The Peshanem prices are however higher by annas 1 and pice 10 21/64 than in last Fusly as will be seen from Table No. 6. —

11 The revenue obtained from the Nunjah Warapat lands of the Money rented Villages for the past Fusly exhibits as compared with the preceding one a Net Decrease of Rupees 122206-12-1, as shewn in Table No. 7. The causes of this Decrease have been before mentioned, Viz., a falling off in the extent of cultivation and the grant of considerable remission on failed crops. The increase in the average rate of mailwarem arises from the circumstance, that in consequence of the unfavorable nature of the season, cultivation has been chiefly confined to lands of a superior description, bearing a higher rate of Mailwarem. The decrease in the average rate of the Nerruck, is owing to the depreciating causes referred to, in Para 9.

12 Table No. 9 shews a decrease of Rupees 13,609-9-1 in the Revenue obtained from the Nunjah warapat lands of the Aumany Villages for Fusly 1258. This deficalcation is attributable to the lands in question being principally situated under Poonacolum Tanks in the Shenkerninarcoil Talook to which description of land the Peshanem season was peculiarly unfavorable. The harvest of these Aumany Villages was as usual superintended by public servants deputed for the purpose.

The

16 The unfavorable nature of the Pesharam season for Nunjay Cultivation induced the Ryots to extend the Nunjamelpoonja cultivation under old wells, and the lands held under Cowlenamahs. The increased cultivation under the former of these heads amounts to Seed Cottas 732 — 4 — $1\frac{5}{8}$ and under the latter to Seed Cottas 6 — 11 — $7\frac{5}{8}$. The increase in the revenue derived from these two items collectively amounts to Rupees 2,296 — 3 — 0. If from this Sum be deducted Rupees 906 — 6 — 4, being the decrease in the revenue obtained from the 8 kinds of produce, the Net increase

Sir,

From the Collr of Tinnevelly Reporting on Petition No. 1501 of 1849.

Para 1. With reference to the Endorsement on Petition No. 1501 of 1849 herewith returned I have the honor to enclose Extract from Mr. Cotton's Register of Chuttrum Jeemiahs prepared in 1818 in which the one claimed by Petitioner is entered. The incumbent there named Cosamanally was Father of the present claimant.

2. This Chuttrum fund Established by Ittarkhan was the subject of a report to the Board by Mr. Depburn under date 15th June 1813 in which it is stated that a portion of it was appropriated to the support of Choultries and Mosques, and a portion also to Jeemiah settled upon poor and infirm people

Mr.

Fort St. George 17th January 1850-

Mr. Cotton's register however does not show any such distinction of cases.-

3. Petitioner has no way of proving that this Jeemiah was granted for the service of the Mosque in Pettah of Tinnevelly, but it is true that when his Father gave a Mookhtiar namah under date 28th April 1821 to one Syed ally to draw the Jeemiah in his absence the care of the Mosque was also transferred with it.-

4. The holder of the Mookhtiar namah having died in 1838 in the absence of Cossmanally the Jeemiah was held in deposit until 1840 when Mr. Thompson resumed it, the rightful claimant not having come forward and the son of Syedally not being thought entitled to receive under the Mookhtiarnamah held by his Father.-

5. The Petitioner now supports the Mosque in Pettah & appears to

Fort St. George 17th January 1850-

to me to have a just title to the Jeemiah whether the services of the Mosque which are said never to have been discontinued, are to be considered connected with it, not.-

The last payment of the Jeemiah was made up to 15th February 1838 being the date of the death of Syed ally.-

The Acting Collector is requested to state why no earlier application was made by the Petitioner Sharck Rowter for the renewal of the Yeomiah, which appears to have been discontinued in 1838 or 12 years since - and what is the value of the allowance 6 Chuckrums per Measure in the present currency.

He will also explain whether Mr. Cottons' Register of Chuttrum Yeomeahs is silent in regard to the objects for which the allowance was bestowed as respects all the cases contained in it as well as that under reference, and will state whether this latter Yeomiah is entered in any other of the District accounts, and if so in what manner.

Ordered also that the following Circular be sent in consequence

From the Asst. Collr. of Coimbatore

Forwards a Statement of the land cultivated with Cotton in the District of Coimbatore in Fusly 1258 Exhibits the estimated quantity of produce and the extent of Export and home trade

1. Adverting to the Extract from the Proceedings of the Board of Revenue dated the 18th January 1849, I have the honor to forward a Statement exhibiting the extent of land appropriated to the cultivation of cotton in this District in Fusly 1258 / 1848/49 with the amount of Assessment and Settlement thereon.

The Board will observe from Columns 33 and 34 of this Statement, that the Assessment of lands so applied Amounts to Rupees 1,308 14 0

3. The chief products of this District are "Dopum" or the Annual indigenous Cotton and the "Nadum Purtee" a triennial Crop the quantity produced in the year under review was estimated at 32,200 Candies of which deducting 9,600 Candies as consumed by the Growers the net

net quantum, 22600, bandies, — appears to have been brought to the Market—

4. The price paid by the Home Merchants for a bandy of wool is about 38 Rupees who again sells it at 41 Rupees either by retail or for Export—

5. From the information obtained from the Bombay Native Merchants engaged in the trade of this Article, it seems that no less than 4052 bandies of Wool were exported to the several places indicated in the Margin, which may be considered equivalent to 18000 bandies of Seed Cotton, leaving the remainder (4600 bandies) for the internal trade of the District—

Proceedings Reporting upon the settlement of Land Revenue in the District of Canara for Fusly.—

1. The rains were not as abundant as usual in the Months of August and September but the deficiency was not in a degree to injure the crops, and the season may be said to have been favorable. Cholera was experienced in the Talooks of the Balaghat bordering on the Dharwar Collectorate, and fever to some extent prevailed in the Buntwal Talook towards the close of the Fusly. The loss from disease among the cattle exceeded that of the preceding year, the deaths for the two years being 5021 and 8910 respectively—

2. The Statistics of the Population are the same as in the preceding year when a new Census was taken, the total number being 991,656. The Census will be taken in future once in 5 years and

and not every 3 years as heretofore, and this practice will be adopted generally in all Districts on defined and uniform Principles as ordered by Government.—

3. The Prices of the different kinds of Rice do not exhibit much change. That for Betel nut has further improved. The rate obtained for this article was 2 per cent higher than in the preceding year and exceeded by upwards of 12 per cent the average Price of the past five years. The rise is ascribed to the removal of restrictions on Trade by the abolition of the Hawkut Duties. concurrently with improved Prices for this article it is also satisfactory to observe an augmentation of Produce, Pepper continued depressed, and Cocoanuts in consequence of an abundant Home

The settlement exhibits an increase in all the Talooks, aggregating Rs. 10,549-4-10 above the Settlement of the preceding Year- The increase occurs chiefly in the Talooks of Honore, Buntwal Soopah and Soondah, and is the result chiefly of waste Cultivated, and of increased Produce- In the Kumbury Wargs of Soopah and Soondah, which with Ankola were formerly surveyed, the extent of fields cultivated was tested by the actual Area as recorded in the Survey accounts, as was done in the Settlement of Fusly 1257/1847-48

From Coll.r 30th Oct.r inclosing 11th Dec.r 1848 Para 15.

The process is one of labor, and delay as the Fields are not renumbered in the Survey accounts but a tolerably accurate account has been obtained- The increase of produce in these two Talooks was for Soondah Rs

Remissions- 270-7-11-5.

The items of additions and Remissions do not call for particular remark- The latter are below the amount allowed in Fusly 1257/1847-48 which was noticed by the Board in last year's Proceedings, as being below the Remissions in any of the five preceding years- These results are satisfactory and shew that claims to indulgence have undergone strict scrutiny- The loss of property and Crops in consequence of Fire in 8 wargs of the Subdivision was large and the Subcollector acted properly in making small temporary remissions-

To be realized by instalments—	6863	3 1

The total number of old wargs in which instalments/Vydahs/ have been fixed are 553 assessed at Rupees 25,115- 5-11 Of this Rupees 18,252- 2-10 have been brought to account in the Settlement of Fusly 1258/1848-49 leaving Rupees 6,863-3-1 to

to be realized by instalments extending over a period of 15 years, the Amount of instalment in some instances being merely nominal. In some cases shewn in the Margin the Amount already realized is small and that left for future collections is comparatively large. The Waste Cultivation Hoskaganny held on Cowle consists of acres 970—2—2—8 assessed at Rupees 3710—10—3¼ of which Rupees 1335—8—3 are included in the settlement under report, and the remainder will be realized by instalments, extending in the case of the old Pourgs to distant periods. In their Proceedings on the settlement for last year, the Board noticed both the lengthened period allowed for the instalments and the insignificant amount of the unrealized portion of the Demand in many instances. It is only necessary to call the Collectors attention generally to their remarks.—

In regard to the remissions recorded

accorded to Hydah Pourgs, the Board observe that the necessity for granting such abatements will sometimes occur. The remission is however for the occasion only, and not such as to affect the instalments except when land is altogether withdrawn from the Pourg on sufficient grounds or ceases to be productive. The Board have not failed to remark the diminution in the amount allowed as Remission under this head.—

the Balance on the 1st October 1849 was Rupees 1869-14-10 or 1-7 A. P. per cent only of the Demand, a result, in the opinion of the Board, reflecting great credit on the management of Mr. Blane and his subordinates.-

Paras. 19-20. 9. The arrear outstanding at the date of the Collector's Report as shewn in Statement No. 12 was Rupees 907-8-10 Mr. Blane solicits sanction to write off Rupees 318-6-3. The particulars composing this sum were enquired into at the Settlement and it was found that the demand was in most cases absolutely irrecoverable and could not be enforced in any without distress. The Board beg to support the Collector's recommendation.-

Para 23 to 26.

12. The concluding Paras of the Report under consideration call for the following remarks.-

13. Statement No 1 being drawn up in the manner prescribed, the necessity for statements No 2 and 3 shewing the distinction between Bhoorty and Kumbhorty Burgs ceases, but these should not be discontinued at once & will be furnished as usual, pending further instructions.

14. The Remissions made at the Tarrow Settlement are entered as "Permanent" in the Tabular Form exhibited in Para 6 of the Board's Proceedings on the Settlement for last Year. These do not vary from year to year and in this sense are permanent, but not having been finally sanctioned, may be designated "deductions" as suggested by the Collector.-

15. The particulars of the item designated "Board Separesh" should be entered in the accounts: It is observed that the amount is nearly the

Board Separesh.	Rs	A-	P-

the same in each Year. The Board would enjoin a strict scrutiny into this item with reference to the decided opinion expressed by Mr. Hall Sub Collector in Para 10 of his report. That Officer observes "I am persuaded that in many instances these recommendations must have been obtained by wilful misrepresentations" and again "it would be found that many of these recommendations might very justly be rejected by the Board of Revenue". It would be desirable as suggested by Mr. Hall that a careful survey of the land should be made and its capabilities determined not only in these Mowrys but generally in all Kumbhoty and Government Mowrys & the Boundaries definitively laid down with the aid of a few good Amins of the fixed Establishment properly instructed. the object in view might perhaps be attained without additional expence to the state. Generally the existing Establishments are on a

liberal scale and it is only necessary by suitable arrangements to render them more fully effective.

16 The requisition for stulwar details from the Shombhogues though imperfectly carried out as yet, is a decided improvement on the former System. Under ordinary supervision & check these accounts may at last be made to exhibit with tolerable accuracy the area and boundaries of the different Mowrys and fulfil the useful purposes of similar accounts in surveyed Districts with a closer scrutiny. Conducted in the manner suggested in the preceding Para, these Accounts would form a valuable record of the land and the Revenue from it. The term "Shamilat Bunger" in Ryotwar Districts is applied to portions of a Field left waste. In Canara it appears to have a more extended meaning and embraces the entire waste in a Kumbhoty Mowry.

Para 29- 17. The Board in their review of the settlement for Fusly 1255/1845-46 / 21st May 1847 Para 9

Fort St. George 17th January 1850

W noticed that in consequence of their instructions in previous Proceedings the custom of issuing Puttahs to all Mungdars, had been reverted to, but they pointed out the omission in the Puttah, forwarded to them of the Clause declaring that the assessment was to be paid "until the Sarrow should be sanctioned." The insertion of this clause had been usual and its omission appeared to them objectionable an account of the discussion to which the state of the assessment had given rise. The cause Mr. Blane states has given offence and a considerable number of Ryots have refused to take their Puttahs. The conduct of these parties should not excite surprise when it is considered that the Sarrow assessment is unequal, that it is too low in many Estates and that extensive encroachments of land have taken place. This perhaps sufficient to account for the unwillingness noticed, but the rights of

Fort St. George 17th January 1850

Government would not be in any way compromised by the omission of the clause, and whether fraudulent appropriations of Land free of assessment exist or otherwise, the Character of the Sarrow assessment is as Mr. Blane observed in his report on the settlement for Fasly 1256 (1846-47) fully declared by the insertion of the clause in the last Puttah issued to the parties respectively. They consider their right to their lands to rest upon other grounds than the receipt of an annual Puttah & altho' they are aware from the Puttah before them that the present Demand is dependant on the Sarrow being sanctioned, they know that it will not be increased or lessened without some special order to that effect. With this clear understanding of the rights of Government and the Mungdars, the Collector acted discreetly in not attaching an undue importance to the refusal of the Land Holders to receive their Puttahs and as it is a standing order that every Ryot paying tax to Government should

should be furnished with a puttah" the Collector should endeavour to overcome their reluctance by pointing out to them its use in preserving the holder from unauthorized demands.-

Para 30

18. The Board are glad to observe that there are not sufficient grounds for the apprehensions expressed by the Sub-Collector Mr. Hall that the Tenants on the Frontier to any material extent are tempted by the alleged slight assessment in Darwar to withdraw their stock and labour from Canara to that District. Adverting however to the decided manner in which Mr. Hall expresses himself that "a good many tenants from both private and Government Estates" have passed across the Frontier and that numerous complaints were made to him at the Summabundy at Bunwassy, the Board would wish the subject to be again specially noticed by the Collector in his next Report.-

19. In Para 8 of his Report Mr. Hall refers to certain Jungle along the road side-

side in the Soondah Talook which the Board allowed to be cleared and to be held rent free for 7 years. The Collector will be pleased to state in his next report what has been done with the Cowl expired land and on what Principle the assessment is calculated.-

20. The Collector has not explained the reason of the increase & decrease in the number of Villages noticed in Para 10 of the Boards Proceedings on the settlement for Fusly 1257.- 1847/48.-

Ordered that a copy of the foregoing Extract from the Board's Proceedings be submitted to Government and transcript of the same be forwarded to the Collector of Canara for his information and guidance.-
