Read the following letter. No. 69.

To, J. F. Thomas Esqre.

Chief Secretary to the Government of Fort St. George

Sir,

I am directed to transmit Copies of the papers noted in the Margin relating to a Memorial submitted by an influential body of the Native inhabitants of Bombay, praying that a law may be passed to enable charitable institutions to hold lands and personal property in their own names.

From Bombay 8/12 December 1849 and Enclosures
Mr. J. Cowie 8/20th December and Enclosure
Do 8/23d January 1850 and Enclosure

The

2. The President in Council is in the first place desirous to ascertain whether there is any reason to suppose that a law such as that which is asked for by the Memorialists would be useful in the Madras Presidency, and I am desired at the same time to request the opinion of the Right Honorable the Governor in Council generally as to the expediency of such a law.

3. His Honor in Council is not himself satisfied upon that point; he is apprehensive that fully as much evil as good would be likely to arise from an indiscriminate permission to create perpetual endowments for all purposes which may take the fancy of individuals. The circumstances of a Country change, and, independently of that consideration, many institutions from which great good is at first expected, are found by experience to develope evils uncontemplated by their founders. The President in Council is disposed to doubt therefore the expediency of passing such

an

an enactment; unless some distinct and well defined power of control be vested either in the Executive Government or in the Courts of Justice, which should render the institutions established or under the act not only subject to periodical examination in respect of their manner of working and their usefulness to the Community generally, but would empower the controlling Authority to make such changes in their system and management as from time to time might be deemed necessary.

Officiating Secretary to the Government of India.

A

To, F. J. Halliday Esqre
Secretary to the Government of India.

Sir,

I am directed by the Right Honorable the Governor in Council to transmit for the consideration of the Government of India, the accompanying Memorial addressed by an influential body of the Native Inhabitants of Bombay to

the Right Honorable the Governor General and the Legislative Council of India," praying that a law may be passed to enable Charitable Institutions to hold lands and personal property in their own names.

2. A Copy of the Memorial with a duplicate of this letter will be laid before the Most Noble the Governor General.

Bombay Castle,
3d December, 1849 } / Signed / J. G. Lumsden
Secretary to Government.

To,
The Right Honble Lord Falkland
President and Governor in Council
Bombay.

My Lord,

On behalf of the inhabitants of this Presidency whose names together with our own, are attached to the accompanying Memorial to the Government of India, praying that a Law may be passed to enable Charitable Institutions to hold land and personal property, we have the honor respectfully to beg that your Lordship in Council will be good enough to cause it to be forwarded to the Right Honorable the Governor General

general of India in Council.

We need not dilate on the beneficial tendency as regards the interests of the community of the disposition to endow Charities and Benevolent Institutions which marks the character of the natives of this Country, nor is it necessary to point out how greatly it would conduce to the stability of existing Institutions of that nature, as well as to the increase of endowments for charitable and benevolent purposes if the difficulties experienced in investing the Funds in a secure manner and so as to afford some guarantee against their misappropriation were removed.

We confidently hope and trust that your Lordship in Council will approve of the object and support with your strong recommendation the prayer of the Memorialists.

Bombay, 24th November, 1849.

Secretary to Government.

To, The Right Honble the Governor General and the Legislative Council of India.

The humble Memorial of the undersigned inhabitants of Bombay.

Sheweth.

That considerable sums are annually subscribed in Bombay by various classes of the community for charitable purposes, and that it not unfrequently occurs that benevolently disposed individuals are desirous of founding Charitable Institutions and devoting large sums of Money for their support.

That by these means the indigent, the blind, the lame, and those afflicted with incurable diseases, are provided for by the Community, and

and Orphans are protected, Maintained and educated, but your Memorialists humbly shew that the funds destined for these excellent purposes are exposed to the danger of being lost in consequence of the difficulty of preserving them in the present state of the Law administered at the Presidency.-

That your Memorialists are unable to invest Charitable Funds either in Lands or in the purchase of Government Promissary Notes, or in any other Security without the interventions of Trustees in their individual names, whereby the funds cease to be identified with the Charitable objects to which they have been devoted.-

That great difficulty is experienced by your Memorialists in selecting efficient Trustees, and much inconvenience is felt in the continual appointment of new Trustees, whilst in the event of any neglect in this respect, the property may become vested in the hands of a single person or his representatives, and being altogether lost sight of by the Community, may be ultimately misappropriated.-

That

That in order to exercise any control over Charitable funds it would be requisite to institute a Suit in the Supreme Court, but the Native inhabitants of Bombay are not found ready to take upon themselves individually the great burthen and expense of prolonged litigation, in order to assert rights in which they have little or no personal interests, and thus abuses of funds appropriated to charitable and benevolent purposes where once committed, are suffered to go unredressed.-

That one of your Memorialists Sir. Jamsetjee Jejeebhoy recently applied to the Government of Bombay to receive as Trustees a sum of Rupees 25,000 which he wished to appropriate in the name of Moolleechund Ameechund for the benefit of the helpless poor of Surat- but the Government of Bombay having referred the application to the Honorable the Court of Directors, has received instructions which have been communicated to your Memorialists as follows.-

"As a general rule we entertain strong objections to becoming trustees or to

"2.

"to any society or fund, since we thereby
"become involved in legal responsibilities
"and liable to be subject to the expense
"and inconvenience of legal proceedings."

"3. We fully appreciate the com-
"laudable motives which prompted
"Sir Jamsetjee Jejeebhoy to make the
"proposal and shall be glad to further
"his benevolent design by the payment
"of the interest on the notes, provided
"he will appoint Trustees to receive
"it, such Trustees to be made legally
"responsible for the Management of
"the Fund."

That your Memorialists being interested in charities both founded by individuals and supported by general contribution of a similar nature are desirous of having a Law passed to facilitate the investment of their funds and to secure them for the future.

That your Memorialists are informed that in England where the same legal difficulties are experienced, Her Majesty possesses the power of granting

granting Charities, by which charitable institutions may be enabled and are generally empowered to hold their funds in the name of the association or foundation, and your Memorialists attribute the inconvenience they suffer to the circumstance of the local Government not being invested with any power of the same nature.

That your Memorialists are also informed that many provisions have been made by the Law in England for the maintenance of the poor, and that the Overseers and Churchwardens of Parishes are empowered to hold lands and property for the use and purposes of the inhabitants of their Parishes; but in this Country where no provision is made by Law for the helpless poor, they are compelled to look to those of their own community or caste for relief by whom it is freely bestowed, and the funds for this purpose amongst others your Memorialists are most desirous of encouraging and preserving in security.

That your Memorialists have

have recently observed in the Government Gazette the draft of an Act relieving Joint Stock Companies for trading purposes from some of the inconveniences which they suffer from the present state of the Law, but your Memorialists humbly submit that as Charitable institutions and associations are no less deserving the consideration of the Government of India.

Your Memorialists therefore pray that your Lordship in Council will be pleased to pass a Law, whereby every Association and institution for charitable purposes which may be established under a distinctive name by any deed of settlement to be registered in the Supreme Court of Judicature may be at liberty to hold lands and personal property and to sue and be sued in respect thereof in the name of the institution so established or to pass such other Laws as to give effect to the

D.G.

Object

objects of your Memorialists as to your Lordship in Council shall seem meet.

And your Memorialists will ever pray.

Bombay, 24th November 1849.

To Frederick E. Jas. Halliday Esqre
Secretary to the Govt. of India.

Sir,

I have been furnished with

Fort St. George 8th April 1850.-

with a Copy of a Memorial from certain Inhabitants of Bombay to the Legislative Council of India praying that the Council will be pleased to pass an act to enable charitable Institutions to hold land and personal property and being in Correspondence upon the subject with Sir Jamsetjee Jejeebhoy, one of the principal of the Memorialists, I take the liberty to enclose an Extract of a letter from him to me, which may be of aid in further explaining their wishes.-

If my present or any further correspondence which I may receive may be considered at all likely to show how far the intentions of Government may correspond with the wishes of the Petitioners, I would request the honor of a Communication.-

Calcutta, 20th December, 1849.

(Signed) John Lowrie.

Extract of a letter from Sir Jamsetjee Jejeebhoy, Dated Bombay 4th December, 1849.

I would beg to call your attention to the Enclosed Copy of a Memorial

Fort St. George 8th April 1850.-

Memorial which some of the principal Native Inhabitants of this place have lately addressed to the Legislative Council of India, praying that an act may be passed whereby charitable Associations and Institutions may be allowed to hold Land and personal property, &c and to have the same privileges in respect to such property as private Individuals.-

This Memorial has arisen from an application which I made to Government about the latter end of last year to the effect that Government would take charge of certain funds amounting to Rupees 25,000. in Company's paper the interest whereon I wished to be appropriated at stated periods for the benefit of poor Hindoos throughout Guzerat. I request-ed that Government would take charge of the principal amount for ever reinvesting the amount in other Securities in the event of the payment of any of the Loans and paying the interest periodically to certain Trustees who were to carry out the object of the

Charity

Fort St. George 8th April 1850.-

charity which I wished to establish in connection with the name of my late partner Matichund Amichund.

My application was referred by Government to the Court of Directors, who however were unwilling to enter into any arrangement of so permanent a nature, more particularly as it might hereafter involve the Government in legal difficulties.-

To obviate all this inconvenience and to Encourge amongst the Natives the disposition to endow Charitable Institutions, an act of the Government is requisite. In this Country at present the Charitable feelings of wealthy Natives are in a measure checked from the Knowledge of the insecurity attaching to Trust property. There is no safe guard against loss or misappropriation of such property after the lapse of a few years when changes take place amongst Trustees, property often falls into the hands of a single individual, the objects for which that property was set apart are

Fort St. George 8th April 1850.-

are entirely lost sight of, and it comes to be appropriated to purposes very foreign to the original intentions of the donor.-

(A true Extract.)
(Signed) John Cowie.

To, F. J. Halliday Esqre

Dear Sir,

In continuation of my letter of 20th Ultimo, I have the pleasure to enclose a Memorandum which I have received from Sir Jamsetjee Jeejeebhoy on the Subject of the Act prayed for, for granting Charter to charitable Institutions.

Calcutta, 23d January 1850.

(Signed) John Cowie.

Memorandum respecting the proposed act relating to charities.-

A Law to enable Charities to hold property and to act under a distinctive name will not Confer upon the Charity itself, as regards its legal effect greater perpetuity than the Charity would enjoy under a deed of Settlement Executed by the founder.-

The principles on which the Court of Chancery proceeds when the objects of a Charity fail would still be

Fort St. George 8th Apr 1850.-

be applicable to a Charity having a Corporate name or existence, and in the event of a change of Circumstances rendering it no longer practicable to give effect to the intentions of the founder, the Court having Jurisdiction over the property would frame a scheme for the future application of the Funds in accordance with the established principles of the Court.-

Care should be taken so to frame the act as not to debar the Courts of Justice from interfering with a Charity when occasion should require.-

The act of the 59th George III and the other acts relating to Charities in England are not applicable to Charities in this Country as they contain provisions rendering it requisite to have the Assent of the Charity Commissioners to frame any applications, and the more recent acts are also excluded by the charters of the Supreme Court which duly introduced the English Law in force at the period when the Charters were granted.-

It.

It does not seem necessary to introduce into the act any rules re-=garding the internal constitutions of the Charities coming under its operation, even though it might be provided that the deed of settlement to be registered under the act should contain provisions for the appoint-=ment of a Governing Body by whom the Name of the Charity should be used. It is believed that the Queen's Charters frequently do not contain more than the following provisions.

Powers to hold property and to sue and be sued in the Corporate name.-

A provision for appointing a Board of Directors or governing body to Manage the Corporate affairs.-

A power to the grantees of the Charter to make Bye Laws to regulate the internal economy of the Charity.-

It is important to distinguish between legislation for the purpose of regulating Charities and for the mere purpose of obviating a technical legal difficulty in their holding property and suing

suing in respect of it. The former Embraces many considerations. e.g.
1st The constitution best adopted to se-=cure the efficacy of the charity-and this must depend upon the state of society and the intentions of the donor the feelings and habits of the people and the Circum-=stances under which the Charitable funds are to be appropriated.
2dly Upon the procedure of the Courts of Justice for the purpose of redressing abuses, but the mode in which legal difficulties in holding property or in prosecuting suits in the Corporate name may be obviated is purely a legal question.-

It may be doubted whether it is possible or expedient for the Govern-=ment to interfere in regulating charities in this Country where there is so much difference in the religion of the people, and each charity is generally restricted to persons of a particular religeon Sect or caste.

In granting to Associations the privilege of holding property and suing

Fort St. George 8th April 1850.-

suing and being sued in a particular name, it can only be essential to provide for some definite means of appointing those who are to make use of that name so that the appointment may be readily authenticated.-

The Managing body must not it is presumed, have the power of Contracting debts or of incurring liabilities on the Corporate name, and as they would not therefore be involved in responsibility as in the case of a joint stock trading Company, it cannot be necessary to introduce provisions which are intended to protect Copartners against the frauds of their managing body.-

It is of great importance that the permanent and unchangeable deed of Settlement of a Charity should contain as few provisions as possible, and that all the rules for the good government of the Charity should be contained in Bye Laws to be Modified, as occasion may require by the governing body of the Charity.

Fort St. George 8th April 1850.-

Charity- by this arrangement the charity is enabled to adopt itself to all the changing circumstances of society, and it is only in the event of the certain failure of objects, that it becomes necessary to resort to a Court of Justice to determine to what objects the funds are to be applied.-

It must undoubtedly rest with the managing body to protect the funds of the charity, but the advantages of a corporate name are somewhat lost sight of when it is supposed that it will not be a very great protection to the funds of the Charity.-

Should the trust property consist of land and be held in the corporate name, it will at once be fixed with the trust and becomes unalienable, but, when it is held in the names of individual trustees, they may after a lapse of twenty years destroy or suppress the deed of Settlement, and sell with a possessory title which, as regards the public and the Government is their own personal title- or again, should the Trust property be Government Notes held by Trustees in their own names, and should one at length survive

Fort St. George 8th April 1850.-

Survivor there is no obstacle to his trans=
=ferring the Notes as his own property: but
if the Notes were in the name of the Charity
a single surviving Manager or Director would
not be allowed to Endorse the Notes in that
name, the endorsee would immediately
demand what authority the Manager
had to sign in the name of the Charity
and it would be discovered, on referring
to the Deed of Settlement, which it is
proposed should be registered, that a Board
of a certain number of Managers or
Directors was appointed to control
the funds of the charity and that they
must all assent to the use of the corporate
name.-

But if only one of the Managers
had survived, the endorsee would immediately
object and in short any person dealing
with a man using a Corporate name
would be put on his guard, and indeed it
would be positive to the Public that
the funds were subject to an Establish=
=ed Trust:

If however the charity had
so far decayed that there were no
known Managers, persons finding
property

Fort St. George 8th April 1850.-

property unalienable in the name of a
Charity would be induced to make enqui=
=ries into the nature and objects of the
charity, more especially when all the
information could be obtained by
searching a Register in a Court of Justice
at a trifling expense, and upon the discovery
of the constitution of the Corporation, the
parties in whom the right of electing or
appointing managers might be vested
would come forward to make the requisite
election and restore the Charity to its
original state.-

It is also highly improbable
that any one having the bare Custody
of property not standing in his own
name and over which he could not legally
exercise any act of ownership would
endeavour to misappropriate it, or
would detain it from the constituted
governing body of the Charity, and in
the event of any delinquency the governing
body invested with the power of suing
in a Corporate name would be able to
recover its property by a simple
action of Trover or ejectment at
Law.

Fort St. George 8th April 1850.-

Law instead of being compelled to institute an expensive Equity Suit.-

In short by separating the power over the property from the legal Estate in it, the mischiefs which at present ensue would be in a great measure obviated.-

Though no legal provisions can be perfect protection to property and supply the want of care of those interested in it, yet in addition to the absolute legal and moral securities above enumerated, this further protection would result from the new act that where the misappropriation of charity property held in a Corporate name could only be effected by making an unauthorized use of that name, the persons concerned would clearly be guilty of the crime of Forgery, a crime which it is not probable any person becoming possessed of charity property as one of the Selected Managers of it would be disposed to Commit though he might, as is too often the case, fail to preserve it separate from his

Fort St. George 8th April 1850.-

his own Estate.-

Bombay.- - - -

Ordered that the foregoing letter and its Enclosures be transmitted to the Board of Revenue and to the Court of Sudr Udalut for their opinion respectively on the subject.-

(Signed) T. Pycroft.
Secretary to Government

3-4

Proceedings thereon.-

With reference to the first question proposed in the above letter the Board of Revenue are not aware that the introduction of such a Law as that required would be more useful in the Madras Presidency than elsewhere except in so far that it would tend to remove the difficulty that now exists with regard to Regulation VIII of 1817 which remains unrescinded though in direct contrariety to the views of the Honorable Court of Directors.-

From the correspondence forwarded

Fort St. George 8th April 1850.-

forwarded with the above letter, it would appear that it is not the intention of the Petitioners to press an actual alie:=nation of Land from Government to them:=selves and that the question is limited to the case of Individuals wishing to endow charities in their life time and not Merely by will.-

3. On the general question the Board would recognize the distinction pointed out in Sir J. Jeejeebhoy's Memorandum, between Legislation for the purpose of regulating charities, and for the mere purpose of obviating a technical legal difficulty in their holding property and suing in respect of it.-

4. The interference of Governm: in providing for the perpetual performance of Specific acts or ceremonies usually enjoined in the Charities endowed by Natives of India is doubtless inexpedient, and it appears to the Board that any controlling or superviseing authority on the part of Government

Fort St. George 8th April 1850.-

Government must involve such interference.

5. The object of the Petitioners seems to be to invest Endowment Funds (both Land and Real Property) without the intervention of Trustees in their individual names, thus implying that they would desire their Charities to be established by Charter as eleemosynary Corporations.-

6. This indulgence the Board conceive should only be adopted in the event of its being impossible to secure by law the perpetuation of Charities made over to individual Trustees, but in what particular points the law is here (as is asserted) defective they are not informed.-

7. Should the only alternative be to assume a Corporate condition the Board see objections as already observed to a visitorial power over the Governing body being vested in the Executive Governm:=ment, though such governing bodies might be made accountable to the Courts of Justice for malversation and for acts performed by

by them in contravention of the Deed of Settlement.

8. The Board would moreover propose that no Endowment be sanctioned under an Enactment 'till its specified objects as detailed in the Deed of Settlement be examined and declared unobjectionable by Government. Such Deed of settlement to be registered in the Court of the District in which the Endowment is established.-

9. It might then be arranged as proposed in the "Memorandum" that all the rules for the good Government of the Charity should be contained in the Bye laws to be modified as occasion might require by the Governing body of the charity by this arrangement the charity would be enabled to adapt itself to all the changing circumstances of Society.

10. The Enactment itself would it is concluded provide for such a case as the Dissolution of the Corporate body from whatever cause, so that the object of the Institution might not entirely fail.-

Containing the observations and orders of Government on the Board's Proceedings reporting on the management of the Extra Sources of Revenue in the District of Canara for Fusly 1258.-

Read the following Extract. No. 315 Extract from the Minutes of Consultation Under date the 26th March 1850.-

Read the following Extract from the Proceedings of the Board of Revenue.

Relative to the management of the Extra Sources of Revenue in the District of Canara in Fusly 1258 A.D. 1848-49

(Here enter 28th Feby 1850 No. 109)

Para 1

The Extra Sources of Revenue of the Canara province were settled for Fusly 1258 at

at Rupees 9,69,292-14-10 being Rupees 9,528-5-9 below the demand of Fusly 1257. The principal decrease was under the head of

Salt . . . . . Rupees 5,4,066-13-6
Sea Customs . . . . . -4,8651-9-7

In the items of Land Customs Ameendivi Coir and Tobacco there was likewise a falling off; which in the two former was to some extent, but in the last was but trifling. In the remaining sources there was an increase, that in Stamps being the most considerable.-

Rs 10,916-

2.

The decrease in the Salt Sales, was Rupees 8,034-3-4 for those for home consumption, and Rupees 4,6,32-10-2 in those for consumption in Land. the falling off in both cases is ascribed chiefly to the large stock laid in during the preceding season and it is satisfactory to observe that althi the Salt revenue of Fusly 1258 has fallen below the outturn of Fusly 1257 it is still in advance of the average of the five previous years by Rupees 23,645-15-6.

3

The results which are exhibited in the Statement given in para 7 of the report purporting to shew the

the centage of charges upon Salt sold at the inland depots compared with that on Salt sold on the Coast are evidently fal-lacious. The Collector has however cal-culated the additional expense incurred by Government on account of the Salt sold at the four newly established depots during the last two years to have been on the average Rupees 1-8 per Garce-s The average increased quantity of Salt sold for the same period in the four Taluks in which these depots are situ-ated is 102 Garce, leaving a clear profit, after deducting the cost of the Salt and additional expenses of Rupees 8376. The precise extent to which the sales have increased in consequence of the establish-ment of these new depots cannot be de-termined, but the Collector has lit-tle doubt that the increase is in no small degree attributable to this cause. The de-pots have not yet come into full opera-tion, the roads leading to them not having been opened. Mean while the price

price of Salt in the vicinity of the inland stores is stated to have been reduced It is observed that the charges in the Salt department have increased from 13 per Cent in Fusly 1256, and 20 1/16th per Cent in Fusly 1257 to 25 1/16th per Cent in Fusly 1258 without any explanation being afforded of the cause of the increase. The Collector will be careful to supply such information in future reports.

The falling off in the frontier and Sea Customs has proceed-ed from the reduction of duties on Exports and imports to or from foreign Settlements or on Foreign bottoms, and the freedom of the Port to Port trade under Act VI 1848. The circumstance most to be observed in connection with the export trade of the District is the great decline in the Shipment of Cotton which has fallen from 25,000 to 10,000 Candies. This is vari-ously ascribed, to the combination among the Merchants of Coompta, the principal Cotton Shipping port of Canara and to the diminished demand for the articles at

at Bombay. The latter seems to the Govern-
-ment to be the true cause, as it is noticed
that the rise in price at Bombay six Weeks
before the Monsoon had an immediate
effect upon the export, and that the trade
is now being carried on with greater
vigor in consequence of the same reas-
-son. The opening of the Phoondah
Ghaut now under construction by
the Bombay Government and comple-
-tion of the communication between
Dharwar and Vizadroog appears
however likely to draw the greater
portion of the Cotton export trade
to that port to the prejudice of
Coompta.

5. The revenue from Stamps was Rupees 45555-15- being above Fusly 1257 in Rupees 10916- and has arisen from the substitution of Stamps for Institution Fees in the

the Moonsiffs Court under act 17 of 1848.
The fluctuation in the other branches re-
-ported upon by the Collector do not
call for particular notice.

6. The Current Collection under all heads amounted to Rupees 9,66,111-.-6- and the balance of Rupees 3181-14-4 outstanding at the close of the Fusly was reduced by the 30th September 1849 to Rupees 185-12-6- The net revenue amounted to Rupees 6,69526-10-6- and ex-
-ceeded that of the previous year in the sum of Rupees 937-13-5-

7. The Right Honorable the Governor in Council grants authority for writing off in the Accounts of the Canara province the arrears of Motarpha revenue for Fuslies 1256 and 1257 reported to be irrecoverable amounting to Rupees (18-12-0) Eighteen and annans twelve

Fort St. George 8th April 1850.-

## Circular.

To the Commissioner, Northern Circars
Secy D. P. Works

Sir,

I am directed by the Board of Revenue to forward for the use of your Office one Copy of a new Edition of the Regulations and Acts relating to this Presidency.-

Revenue Board Office,
Fort St. George.
8th April, 1850.

(Signed) W. H. Bayley.
Secretary.

Read the following letter.

To, The Secrtary to the
Court of Wards,
Fort St. George-

15

From the Collector of Ganjam.

Sir,

With reference to the Extract from the Proceedings of the Court of Wards under date the 21st January 1850, I have the honor to request that you will at your convenience have the goodness to inform me if the amount therein stated to have been paid by the Board as fee for the renewal in favor of the Secretary to the Court of Wards Madras for the

+ One Rupees

Fort St. George 8th April 1850.-

the time being of the Promissary Note of the Government of India No. 3150. dated 1st February 1843 for Company's Rupees Two Lacs is to be adjusted in the accounts of this Collectorate to the Credit of the Court of Wards at Fort St. George or to that of the Board of Revenue.-

Ganjam District,- -
Collector's Cutcherry,- -
Chetterpore 23d March, 1850.- -

(Signed) A. P. Onslow
Collector.

Resolution thereon

15-16

The fee of one Rupee adverted to in the foregoing letter was paid by the Board of Revenue out of their Office Contingent Account. All that they wished by their orders of 17th January last was, that this amount should be recovered from the Purlah Kemedy Estate, and carried to the Credit of Government in such a manner as might seem to the Collector to be usual and proper.- Read the following letter.-

To,
T. Pycroft Esqre
Secretary to the
Board of Revenue,
Fort St. George-

17

From the Collr of Nellore- Reporting on

Sir,

1.

With reference to an Extract

Fort St. George 8th April 1850.

on the Subject of the changes of classification of the Lands of Pulcoor in the Sub Division.-

Extract from the Proceedings of the Board of Revenue dated 12th February last and my answer thereon of the 31st Ultimo Para 4. I have the honor to transmit as per annexed Memorandum the accompanying Accounts 4 in No. by Bangly relative to the changes of classification of the lands of Pulcoor in the Sub Division which formed the subject of Mr. Stonhouse's Report to the Board dated the 31st August 1843, called for in a letter from your Office under date the 2d October 1843.-

2. On a review of the Accounts of measurement and change of Classification of Fasly 1249 of the Pulcoor Village together with the correspondence in the case it appears that charges respecting the Measurement and change in the Turrums are confined principally to dry lands, though at the same time there was a trifling excess in the Managany lands. This Village appears to have been agitated by disputes for years and discrepancies appear in the Measurement Accounts of this Village between Faslies 1218 and 1234. In Fasly 1246 it appears that

Fort St. George 8th April 1850.-

that some fields were measured and a sum of Rupees 170 added to the demand on account of change of classification, though satisfactory explanation does not appear on the Record for such a proceeding.-

3. In Fasly 1249 the case was brought to a head by a charge being preferred by two Merasidors not in employ as Curnums and one dismissed Curnum - a Mr. Mathison on this charge suspended the working Curnums of the Village but instead of making the Complainants substantiate their charge against them, he appears at once to have taken it for granted that the charge was correct and put two of the Complainants in their places, when having gained an object, they had no longer any interest in exerting themselves to support their Original charges, and as was to be expected after such a course, confusion became worse and although the whole of the dry lands were measured by one Yeggony Vencatarow his measurement was open to a great many disputes and objections, the particulars of which were in detail laid before the Board by Mr. Stonhouse in his letter dated 31st August 1843. a repetition of which does not appear necessary.

‡ Curnums

On

Fort St. George 8th April 1850.-

On a reference to the accounts of Measurement made on different occasions it is no where distinctly shewn that the site of any particular field with it's particular denomination together with a detail of the limits within which it is situated was ever taken. Some of the Jareebdars and Village Servants who attended the Survey in Fusly 1218 are not to be found at the present date and there is evidently such a party feeling in this Village that any revision of measurement or classification appears hopeless, and there is no tangible ground at present in existence which would appear to me sufficient to disturb the present measurement and Turrums and saddle the Ryots at once with an additional large demand on account of a Change of Turrums. The only remedy applicable appears to exist in the contemplated Survey of the whole district and until that takes place I do not think a change is desirable. The Beriz and Collections of this Village at different periods are noted in the Margin. The Original

No. 1.-
No. 2.

To,
T. V. Stonhouse Esqre
Principal Collector of the Zillah
of Nellore.-

Arzee of Cunchanapully
Lutchmeecaunta row Sheristadar of the
Sub Division in answer to the questions
put to him relative to the excess of
measurement and the alterations in the
clasifications of the land in the Village
of Pulloor in Davagoodoor Taloot of
the Sub Division.-

I beg to subjoin the following
in answer to the questions put in the 8th
Paragraph of the Memorandum with
which you have been pleased to favor
me.-

The unnumerated Curnams
of that Village Vizt. Pulloor Nara:
=simlos and Pulloor Narasimhiah
presented in Arzee No. 1264 dated
6th June 1839 to the then Sub Col:
=lector Mr. Mathison stating that
the

Fort St. George 8th April 1850.-

the Head Coupoos and nominated Curnums of the Village of Pulcoor have secreted and not brought to circar account about 100 Gortoos of Metta and Mangauny cultivated Lands, and Jarcab Tobacco, and Chilly Lands paying a Sist of 100 Rupees, and about 200 Rupees in the Poollery & that they have made away about 350 Rupees from the Collections of the Village, and asserting that if some trusty persons were sent they would prove these circumstances. This arzee was sent to Mahomed Shaca=dadee. Tahsildar of Ongole with an Order No. 363 dated 22d June 1839 directing him to proceed to that Village and to count in the first instance the Cattle of the Village and then to institute an enquiry into the Measurement &ca. The Tahsildar proceeded to the Village and as he was getting the Cattle counted the Villagers raised a quarrel with the Tahsildar and those who accompanied him. The Tahsildar consequently wrote an Arzee No. 72 dated 1st July 1839 stating that it had not been practicable for him to count the Cattle and that he had not been able to make any

Fort St. George 8th April 1850.-

any enquiry into the other matters.-

Those Complainants instead of remaining quiet on this, presented some arzees again to Mr. Mathison. In these arzees they asserted that there were alterations in the Classification of fields in that Village. Of these the Arizee No. 463 was forwarded to Cansoolla Ramachendra row the Tahsildar of Davaga=door Talook in which the Village of Pulcoor is situated with an Order No. 183 dated 7th January 1840 directed him to enquire into and to report about the alterations in the Classifications of the fields and the decrease in the Measurement of the fields &ca &c.-

I was subsequently given to un=derstand while I was at Ramiapatam with the Sherista Cutcherry and Mr. Mathison was at Nellore with the Moonshee Catcherry that these individuals had either verbally or by an arzee represented to that Gentleman that the Tahsildar of the above said Talook had not enquired into the affairs of their Complaint, that that Gentleman has

suspended

Suspended the then nominated Curnums and Pedda Caipoos, that he nominated the Complainants as Curnums of the Village and that he issued an Order to Yagenoo Venecatarow the Mazoomdar of that Taloke directing him and the Puntoo Peishoar to measure the Metta Maugauny &ca Lands inclusive of the Coroo and Manniems that were cultivated in this year and to prepare an Account shewing the alterations that were made in the number and Classifica-tion of the fields.-

I had always been obedient to the Orders of the Sub Collector under whom I had been placed and conducted the duties of my Office. I had not Knowingly allowed the Circar property to be made away with. Neither have I used force and saddled on the Ryots heavy sists. This my conduct is known well to all the Sub Collectors under whom I had served.-

With reference to the orders of the then Sub Collector and the arzees of Yagenoo Venecata row &ca individuals to that Gentleman in compliance to whose orders they had proceeded to measure the fields of that Village and to what had appeared to me on my enquiry during the Settlement of Fusly 1249. I shall proceed to give my Answers.-

At.

At the time the Settlement of the Village was about being commenced upon Yagenoo Venecata row and Candranzoo Kistnama the Head Goomastah of Manana-melloore Taloke who had been sent to assist the former in carrying on the measurement prepared on account of the differences discovered in their measurement of the fields and represented something to the Sub Collector, but they did not deliver in an Account of the alterations in the Classification of the fields as they had been ordered formerly. The Sub Collector forwarded to me the Account of the arees discovered in the measurement together with Venecatarow &ca individuals with instructions that I should bring the same to account at the Settlement.-

After the Measurement Account that was prepared by them was received at the Sherista Cutcherry, an Account shewing the increase and decrease in the dittum of each of the Ryots was prepared in the presence of the Suspended Curnums & the Curnums who complained at the time this Account was being prepared, the Villagers themselves represented.-

Fort St. George 8th April 1850.-

represented to Mr. Mathison that Venkatarow & Co. individuals had subdivided and re-measured the fields, that there is a difference of 10 per 100 Coortoos between the measurement by taking the circumference and the Sub divisions, and that a deduction at that rate must be made with reference to the circumstance mentioned in the letter dated 5th July 1840 which that Gentleman got me to write to your Head Moonshee for the purpose of bringing this circumstance to your notice. a deduction of 10 per 100 was made. Some Ryots & Co. having reported that their Lands which had been ploughed but not cultivated, had been measured, the circumstance was enquired into, and to those to whom it appeared proper to make deductions, were made immediately and the Account was prepared for the other portion of the excess found in the measurement and included in the Jamabundy.

Every Ryot got the items that were entered in the Shist Form Account shewing the excess discovered in the measurement and the Amount of Shist with

Fort St. George 8th April 1850.-

with which he had been assessed read to him, and put down his name. None of the Ryots complained that there was not as much excess discovered in the measurement as shewn by Venkatarow & Co. individuals, but they complained to the Sub Collector that they suspected that the persons who measured the fields did so in some fields rather irregularly and that a Gentleman informed the Pedda Caupoos and Curnums that there was not then sufficient time to have those fields remeasured and the point settled before the Puttahs were issued, and that if they would receive the Puttahs and deliver a list of the fields in which there were doubts he would have those fields examined and deductions made in the Accounts. On which they appeared pleased. and received the Puttahs but such a large Amount of Shist was not assessed on the Ryots without their consent. The Ryots who stated that they suspected that they had not such a large excess, which it was stated they had, said they would go to their Village, examine their Fields and deliver a list, but they did not return again

Fort St. George 8th April 1850:-

again. Some time afterwards an examination was made on the part of the Hoozoor but nothing was done in the case.-

As it was known that this Yagoma Venkatarow during his lengthened employ in the Principal Division, had much practice in measuring fields and as it was much spoken of that he had examined many fields, and that there were no errors found in his measurements, and as the Head Goomastah Candrautzoo Kistnamah who was under him was stated to be a good hand in measuring fields, there were no reasons at the time to doubt the correctness of the Measurement made by two such respectable Servants of the Circar, or in the Measurement Account or in any thing else. No person had asserted or adduced sufficient evidence to show that this was a false Account and that it should be set aside The above said Curnums &c. when they complained before the Principal Collector gave Extract stating that they had with reference to a certain dittum cultivated only 40 Gortoos

of

Fort St. George 8th April 1850:-

of Land in excess but when Nursiah &c. individuals came to make Tanakey on the part of the Hoozoor Cutcherry they delivered an Account with reference to that dittum showing an excess of only 34 111/258 Gortoos. In the Measurement Account of Yaragoody panty Nursiah &c. individuals the excess is shown to be about double the extent of that shown by the Curnums &c. in the Accounts of the fields in which they stated there was an increase.- The number of Goortoos per Measurement of Yeggoonoo Venkatarow which was done by subdividing the fields and

the Gortoos, and the Amount of Shist. From this it appears that there is a decrease below that entered in the Settlement account which was prepared with reference to the detailed account of the fields measured by Yeggoo Vencata Row & Ca. individuals, that there are in Metta instead of 91 and odd Gortoos 33 and odd Gortoos in Maugamy instead of 6 and odd Gortoos 3 and odd Gortoos in Jareed instead of 2 and odd Gortoos 1 and odd Gortoos. that there are in all in: stead of 100 and odd Gortoos as per Mea: surement of Vencata Row & Ca. individuals 61 and odd Gortoos as per Measurement of Nursiah & Ca. individuals included under increase of Shist and that there is a decrease of 38 and odd Gortoos of Land. The amount of Shist brought to account at the settlement is Rupees 1,033 - " - 1 of which the Shist on Metta Land is Rupees 692 - 7 - 7.

The Shist of the Lands that were discovered by the Measurement of Nur: siah & Ca. individuals amount to Rupees 643 13. 5 which is below the amount included in the Bereize by Rupees 389. 3. 10, but the re: measurement of the fields has not proved

that

that the excess of Land discovered by the
measurement of the fields of that Villag
was false.

When the fields of some of the
individuals of the Villages of Buddapoo
&c.a Talooks were being measured: as
some of the Ryots stated that if their fiel
were measured by the circumference the
taken the exact extent of the field cannot
be ascertained, but that those fields must
be subdivided and measured and as du
ring Fusly 1247 the Ryots of Pulloor ha
a quarrel among themselves about the
Mangany Lands and were desirous to ha
their fields subdivided and measure
and as Measurement had accordingly
been made and as the Sub Collector
had directed that in measuring the
fields they should be subdivided, Ven
cata Row &c.a individuals accordingly
subdivided the fields and measured the
and though a deduction of 10 ₹ Cent was
made from their measurement at the
time of settlement as requested by the Ryo
yet as the remeasurement which was
made by Nursiah &c.a individuals on
the

the part of the Hoozoor was made by
the circumference of the field being ta
taken, this is the reason of the decreased
in the measurement having occurred.

If the cases of the individuals
who had complained to the Sub Collector
stating that they had not so much land
as it was stated they had under them
had been enquired into, the result of the
decrease which it was stated there was
according to the Measurement of Nursiah
would have been known at the conclusi
: on of the Measurement.

It is stated that the Measure
: ment by subdivisions which had
been made by Nursiah &c.a individuals
was less than the Measurement by sub
divisions made by Gaganoo Vencata Row
&c.a individuals who had measured those
fields formerly and who were present
with Nursiah &c.a individuals wrote
arzees to the Sub Collector relative
to the Measurement which was being
made by Nursiah and that these
arzees Nos. 1-2 and 3 were forwarded
by that Gentleman to you together with

an

Fort St. George 8th April 1850.

an English Memorandam.

The Sub Collector mentioned in his Memo: that another Goomastah should be present with the Sub Division Shekdar Head Goomastah who had been sent with Narsiah.

The Sub Collector did not direct me at the time to examine any of the fields which had been measured by Vencata Row & Co individuals and I did not therefore measure any of the fields myself, the objections &c of the Ryots to the measurement which had been made by respectable public servants were inquired into and such deductions as appeared just and practicable were made and the remainder of the fields were brought to account at the settlement therefore as the check measurement is below the orignal measurement the said Vencata Row & Co individuals must give satisfactory answer for the same.

The differences that are stated to exist in the detailed accounts which exhibit the increase Viz.t between the old measurement account and the average account

Fort St. George 8th April 1850.

account are nothing more than errors made by the Writers in writing out these large accounts, and they are not what I am to attend to.

The subjoined show the grounds and with reference to what accounts the Rupees 1,237. 14. 4 account of alterations in the classification of the fields had been assessed on the above said Village.

The Unnominated Curnums of the Village, Narasimiah and Narsimloo having complained that the classification of the fields was altered in the Village the Tahsildar of the Talook was directed to enquire into it, but he did not do so. Gomastah Vencata Row & Co who had been there to measure the Lands of the Village did not enquire into it. During the time the Village was being settled Rungapa one of the Curnums that were then suspended and Cundrauzoo who was formerly a Curnum of the Village and was dismissed the service proceeded of their own accord to the Sub Collector Mr. Mathison and informed that Gentleman that there were many alterations in the classification

of

of the Metta Lands that were brought and
Cultivation. Rungapa who was suspended
stated that his Father was a Curnam fro
the time the Country was brought under
the Company's Government, that he had kept
a regular account of the Classification
of the fields of the Village that he Rungapa
had those accounts with him and that he
would deliver up those accounts and
Condranz stated that as he was formerly
the Curnum of the Village he was well a
acquainted with the Classification of the
fields. They further stated that they would
prove the circumstance from the ac-
accounts they had with them and deliver
the old accounts that they had with them
to the Sub Collector. that Gentleman sent
those accounts and the two individu-
als in charge of a Deloyet to me at
the settlement Cutcherry with directions
that I should enquire into the circumstances
of the alterations of the Classification of
the fields which they stated they would
prove. Having with reference to in-
structions that I had received some
time before proceeded to the Gentleman

with

with Gaganoo Vencata Row, that Gentleman
told me that Rungapa one of the suspended
Curnums and Condranzoo another Curnum
had informed him, that there were many al-
terations in the Classification of the fields
in the Village of Pulkoor, that the fields classed
under high classes which were formerly
held by the different Ryots were merely made
to appear in the accounts as if unoccupied,
but that giveing them other names and bring-
ing them under lower Classifications they
are holding and cultivating those high class
lands and directed me to enquire and settle
the Complaint before the completion of the
then Settlement. I represented to the Gentle-
man that the Village was a large one that
it appears from the Complaint that there
are extensive alterations in the classification
of the fields and that the circumstance must
be enquired into in future and the alteration
in the classes assessed, the Gentleman then
sent for the different accounts to see what
was the extent of the fields that were in
the different Classes of the Goodecutt of
Fusly 1218, as also what was the extent
of Lands of the different Classes that

was

Goodicutt of Fusly 1218.

Particulars of the Metta Lands that were classified.

was included in the dittum of that Fusly and of the Sum of the different clapses the was brought under cultivation in each year from the time, and also to see what was the exctent of the Fields of different clapses entered in the Goodicutt of Fusly 1249 the particulars where of are exhibited in the Margin for your inspection. That Gentleman inspected the account and said that it appears that formerly the Lands clapsed under high clapses were chiefly entered in the dittums and brought under cultivation, but that after the famine of Fusly 1242 and commencing from Fusly 1243 the Lands of the higher clapses were being decreased and the

the Lands clapsed under the 3d and 4th clapses were being increased, that consequently there are, as stated by the Complainants, grounds to believe that the Villagers might have practised much deceit and altered the classification of the fields to a great extent that consequently the Tahsildar &ca Servants of the Talook had not enquired into the matter according to his directions, that they had in order to benefit themselves allowed the Ryots and Curnums of the Village to make away with the property of the Government, that as this Village had not been surveyed and as there is no Checkbundy accounts of the fields either in the Toogoor or in the Gybut to show the Marks or Boundaries of the fields the Circar Servants have no means unless informed by those related to the Curnums of the Village to discover the frauds committed by the Curnums in causing the Names and Clapses of the Fields to be written out, that consequently if no account of the settlement the accounts that are with them are not seized and the information that they are in possession

of

of from experience obtained and brought
to account immediately, and if as stated
in the order dated 20th January 1837 that
circumstance can be enquired into here-
after at the time of preparing the dittum
complainants were allowed time, the other
Ryots and Curnums will by some means
or other gain over the complainants and
prevent any proof being obtained in fact
that should there be any objection raised
hereafter in consequence of the alterations in
the classification of the fields having been
assessed he would answer the point that
the circumstance, that the different Ryots
who had consented to the dittum were not
aware at the time of the formation of the
dittum that there were alterations in
the classifications of the fields can-
not from what has already taken
place be helped at present, but that
enquiry can be made into the circum-
stance at the time of settlement and
the difference of the alterations of
classifications that may be assessed
can be allowed to remain uncol-
lected under the Head of Discretionary

Remissions

Remissions, that if in assessing the pre-
sent alteration of the classes any of the
Ryots should complain that wrong had
been done to him, the necessary enquiry
can be made in the next year previous
to the formation of the Dittum and the
fact ascertained, that if according to
the enquiry that is to be instituted now,
the classes of the different fields were to
be entered in the accounts of the settle-
ment, the Shist of the correct classes
of the fields will be brought to account
in the Dittum of the following year, that
the complainants and the suspended
Curnums should be both kept present
that the accounts that they may deliver
and what they may state should be compared
with the accounts in the Cutcherry, that
as Yagooroo Vencata Row &c. individuals
who had formerly measured the fields
of the Village had seen the whole of the
fields they must prepare the account of
the alterations of the classes of the fields
that I should raise no further objections
to delay this further, and that I should act

according

according to his orders. accordingly as it
the duty of the Curnums to prepare the acc
shewing the Lands that are classed high m
are under the different Ryots, Sent for t
Curnums who were suspended and the Curn
who made the complaint in order to enqui
what they had to say and to ascertain the
correctness of the Goodycut account of Fu
Travers that the enquiry regarding the al
: ations in the Classes may be made, and d
:sired them to bring the accounts of the Fa
:surement of the Fields made by the Curn
in Fusly 1212. The Curnums who made the Compl
said they had not those accounts with the
those of the suspended Curnums who were
nominated in Fusly 1211 Viz.t Polookoor
Lutchmynarsoo, Mungama, and Lutchmy
:narsoo and the Sons of the two last men
:tioned individuals Viz.t Raamiah and
Venkatarayloo who are assisting them
stated that they had those accounts and
that they would go to their Village and
bring the accounts and they accordingly
went away, after thus consulting something among themselves

they

they made excuses for not producing the Accounts-
The suspended Curnums and the Curnums who made
the complaints, acknowledged before me and before
the then Tahsildar that though they have not
those accounts with them, yet as Rungapa and
Condrauzoo who had been from the commencement
performing the duties of Curnums with them had
made the complaint and had delivered into the
Cutcherry the consecutive accounts that were with
Rungapa, they cannot now avoid giving the
information relative to the alteration in the Classifi-
= cation of the fields, that they will be obliged from
the practice they have had to state under what classes
the fields that are now in the occupation of the
Ryots were formerly, that they have with them the
detailed accounts of Fusly 1218 and 1236 and of
the subsequent Fuslies, shewing the Fields
that were in the occupation of the Ryots and the
fields that were unoccupied, and that referring to
these accounts and from the experience they have
had they would prepare a correct account of
the alterations of the classes showing what
field each Ryot had cultivated in each

Fusly

Fasly and the rate of Sheist which they had paid and in whose possession those fields are at present.

I directed Yagonoo Vencata pow 8 individuals, by whom Mr. Mathison had direct me to cause the accounts of the alteration of the classification to be prepared, to be with the Curnums, and comparing the fields the classes of which were altered which they may get to be written out with the Hoozoor accounts, to prepare a correct Accounts.

The Curnums who made the compla and the suspended Curnums, and the Peddo Caupoos of the Village jointly informed each other by whom the different fields that were classed under high classes formerly are now held under reduced classes, and comparing the accoun that were delivered by the Curnums that compla=ed with those that were with the suspended Curnums and coming to a determination among themselves, the Ryots and the Curnum got the accounts of the alteration of the classe written out by Vencata pow 8 ca individuals.

The

Turrum, 2 Turrum, 3 Turrum, 4 Turrum.
86 ——— 112 ——— 241 ——— 137.

The Margin shows the extent of the Lands of each class that was brought to account during the Settlement, the Dittum Lands of Fasly 1249 are about twice the extent of the dittum of Fasly 1218 and as the Curnums themselves stated that those Lands that were brought under cultivation were the high class lands entered in the Goodeeutt, it appears that the high class Lands brought under Cultivation were of greater extent than in former freshes. In order that the differences that existed in the alteration of the classes at the time of the enquiry, may not be lost sight of until fully disposed of in the future enquiry that was to be instituted, the alterations in the Classification were assessed with reference to the account of Fasly 1249 and there was not sufficient time for me to have inspected the fields or for the Sub Collector to have given me orders to do so at the time the particulars of the fields were decided. The Fields that existed in Fasly 1218 had subsequently during the rents undergone many changes and were again during

Fort St. George 8th April 1850.

during the Mucta settlement from the intrigues
of the Curnums altered much, one Field was
entered in the accounts as being two or three
fields and the Classes altered, the unoccupied
lands were entered under occupation and many
such frauds were committed; the name of one
Field was entered in the Dittum and another
Field was Cultivated in the Village - As it
was so, it was necessary to take the accounts of
any one Fusly and to compare them with the
accounts of the present Fusly to see that the
names of the Fields, the extent in Gortoos and
the Sub Divisions that were made in measuring
the fields &c. particulars, corresponded with
each other, but to do this there should have
been a break among the nominated Curnums
of the Village or otherwise it would have been
difficult to discover the alterations in the
Classes merely on a reference to those accounts
therefore as on the complaint of some individuals
who had performed the duties of
Curnums

Fort St. George 8th April 1850

Curnums the suspended Curnums and the Ryots
&c. acknowledged that there were alterations in
the classes of the fields in their Village and
caused that account to be written, there appeared
no necessity to make much enquiry into the
matter.

In regard to the Statement that
the alterations in the classifications of the
fields had been assessed merely on the assertion
of the Curnums who made the complaint, I beg
to state that it appears that in writing out the
account some of the other Curnums caused the
former classes of some of the disputed fields to be
written out, and that Lutchumynursoo who is a
nominated Curnum from Fusly 1211 had signed the
account.

The above said Ryots and
Curnums having represented to the Gentleman that
they were heavily assessed with the difference of
the alteration in the classification and the
Sheist on the excess of land discovered by measure-
ment was very heavy on them, and that they
had to pay on account of arrears &c. Rupees 404,

and

and that they could not pay this amount and the difference of the alteration in the classification and the Shist of the excess in land, that Gentleman stated that the arrears &ca Rupees 1404 and two thirds of the Shist of the difference of the class amounting to Rupees 825, will not be collected and directed the Peddda Canpoo, Curnums, &ca individuals to prepare a list showing the portion of the 2/3ds of the difference of the alteration in the classification allowed to remain uncollected which would fall to each Ryot, they were pleased at this and they accordingly prepared a list which the suspended Curnums and Capoos signed and delivered to the Gentleman. With reference to this list discretionary remissions were made from their Puttahs. Every Ryot got the difference of Shist on the alteration in the Classification of the fields with which he had been assessed and which was entered in the Shist Account read to him, and signed the Shist account. From this you will know that the Ryats

were

were not assessed with the difference of the alterations in the classification of the field without its having been explained to them and without their admitting it.

That Gentleman had not only intimated to you in an English Memorandum dated 5th July 1840 of the Settlement he had made in regard to the alteration of the Classification of the fields, but alluded to it in his Summabundy Report.

The alteration in the classification that has been assessed was made for lands cultivated subsequent to fusly 1218 with reference to the accounts of Fusly 1236, but for some of the lands that were classed subsequently, instead of saying as per Cultivation of or as per unoccupied land of Fusly 1236, the remark made might have been as per number Chitta of Fusly 1234 as the Account was prepared in that Fusly.

It is stated that the number Chitta Account of Fusly 1234 was not admitted by any authority. From the accounts of Fusly 1232 it appears that the settlement of the Village of

Pulkoor

Pulkoor for that year was made with reference to the
Classes fixed by Mr. Travers in Fusly 1218 and the
when the Fields were being numbered in Fusly 12
the classes of the different Fields that were entere
the Chitta of Fusly 1232, were entered in that numb
Chitta also.-

It appears that the names by wh
the cultivated Lands, unoccupied Land, Lands fit f
Cultivation and Pooleiy Lands, went in Fusly 1
were not entered in the Account that was prepare
in Fusly 1236 when the remission was granted, alt
that reference was made to this number Chitta acc
which was prepared in 1834 and the Lands that w
in the possession of the Ryots and those unoccupi
entered. From which time the practice of those
numbers being bought into use, has not been put
aside.-

It is stated that the Shist on
same Lands was assessed without reference
of any kind having been made. The Curnum
and Pedda Caupoos had a knowledge of th
Boundaries of the Fields that were made
them formerly and as a part of those
whe

which were stated as containing 2 or 3 Numbers
was taken up for cultivation by one Ryot, the
Curnums &c. might have taken the average of
the classes of those numbers and entered it in
the account in that manner, or those who had
made a copy of it, might have by mistake
made such an entry, but I have not the power
to assess any Shist according to my pleasure-

In Fusly 1236 when the remission
was granted the Shist of the above said
Cultivated lands amounted on an average to
Rupees 8-6-2- per Gortoo- The average
Shist per Gortoo derived
from that Village in each
year commencing from fusly
1236 to fusly 1249 is exhibited
in the Margin. From this
it appears that the average
Shist in every succeeding
fusly is below that of
Fusly 1236 when the Remission
was

| Number- | Fusly- | Settlement average per Gortoo- | | |
|---|---|---|---|---|
| 1 | 1236 | 8 | 6 | 2 |
| 2 | 1237 | 7 | 14 | 1 |
| 3 | 1238 | 7 | 13 | 7 |
| 4 | 1239 | 7 | 9 | 11 |
| 5 | 1240 | 7 | " | 8 |
| 6 | 1241 | 6 | 12 | 1 |
| 7 | 1242 | 6 | 7 | 10 |
| 8 | 1243 | 6 | 11 | 6 |
| 9 | 1244 | 6 | 5 | 5 |
| 10 | 1245 | 5 | 13 | 10 |
| 11 | 1246 | 5 | 14 | 10 |
| 12 | 1247 | 5 | 14 | 10 |
| 13 | 1248 | 5 | 14 | 5 |
| 14 | 1249 | 8 | 4 | 9 |

was granted and that this is occasioned becau
the classes were lowered in the Dittum. The
average Shist of Fusly 1249 is Rupees 8-4-
per Gorjoo, which is below the average Shist of
Fusly 1236 when the Remission was granted by
Amar 2.-

It was mentioned by some indi
=duals during the enquiry that the Condooroyan
Goontachanoo belonging to Palkoor Lutchmenurs
and entered in the Dittum as Field No. 297
was not actually this field, but that it was field
No. 146, consequently the average class of the
field No. 146 was taken but as Lutchmenurs
in the mean time mentioned to me that the
field he had cultivated was not the field
No. 146 called Condooroyaury Goonta Chano
but that he had cultivated a part of the
Pasture Land and that that Land was
numbered as Fields No. 297 and 298.-
I got the Chanoovaury accounts from
Fusly 1236 to Fusly 1241 examined and

as a part of the Coondooroyaury Goonta Chanoo
which was entered in the Dittum as of the 4th
Class was entered in the account up to Fusly
1241 as of the 3d Class, that field was
accordingly included under the 3d Class.-

As it was stated by some
persons during the enquiry that a part of the
Ragada Chanoo that was entered in the Dittum
of Pulkoor Condulrauzoo 8 Cas individuals was
in fusly 1218 under the cultivation of Condulrow's
Grand Father Peragadarauze 8 Cas individuals and
that it was a portion of the Pasture Land that
had not been classified, and as Condulrow
admitted this, and as it appeared from the
Account of that Fusly that the Ragada Chanoo
was then classed under the classes Viz. 1st 2d
and 3d with which it was classified in Fusly
1218, and as the Pasture Land that was not classified
at the time was brought under cultivation, the
Ragady Chanoo which in Fusly 1249 classed
under the 4th Class was with reference to the
average classification classed under

the

Fort St. George 8th April 1850

the 1st 2d 3d and 4th Clafs.

I think Yagonoo Vencata paw was not able to state the particulars from his not having retained a Memorandum of the particulars of the case that had been collected during the enquiry; Viz.t, that instead of cultivating only a field of the land which he had cultivated form he had cultivated in two or three parts.

The Gunnaswaroony Goontah Field that was cultivated by Kavooloorroo Lutchmenaraya=nayana, was not included in his Dittum for Fusly 1249. It was cultivated by him in that Fusly in esceefs of his Dittum, and it was in comparison with the neighbouring field clafsed under the 3d and 4th Clafses.-

It was ascertained that the field No. 514 called Toorpoo Garapa Chanoo under the Tandecondah Pariah was in Fusly 1218 thrown up by Baupiah and Moopeneenum Rooteya=loo; that it is situated to the East of Erra=chanoo, that it measures 10 Gortoos in eoctent and clafsed under the 3d Clafs; that this Toorpoo Garapa Chanoo entered in the Dittum of Fusly 1249. as of the 3d and 4th Clafses was entered as

D.G.

Field

Fort St. George 8th April 1850

Field No. 518; and that it should be classed under the 3d Clafs. The Chanoovanny Jadety or the Field account that was prepared then is attested with the signature of Cummum Lutchmeneesoo. The field was with reference to that account clafsed under the 3d Clafs It does not appear with reference to what account the account that was prepared in the dictation of Condranzoo was prepared.-

I beg to subjoin the following in regard to the circumstances of the Pokmara Chanoo. This field was from Fusly 1247, entered in the Dittum of Edarah Vencapah as field No. 10. measuring 3/4 Gortoos and clafsed under the 3rd Clafs during the preparation of the Dittum for Fusly 1249. besides the above said Field, the Padamara Polemara Chanoo No. 13 containing 1/4 Gortoo of Land under the 2nd Clafs and 3/32 Gortoos under the 3d Clafs was entered in the Dittum The two fields were entered in the Dittum of that Fusly separately, they were not exhibited as one field under the name of Padamara Chanoo containing 1/4 Gortoo under the 2nd Clafs and 6/32

Fort St. George 8th April 1850.

6 7/32 Gortoos under the 3rd Class making in all 6 19/33 Gortoos. In the measurement account of Yagoroo Venkata row 9th individuals there is a remark written to the effect that the Land of the Field No. 13 contained 3 11/32 Gortoos which was entered in the Dittum of Tusly 1249, was brought under cultivation, that the extent of the field according to their measurement was 7 5/16 Gortoos and that the field No. 10 measuring 3/4 Gortoos and classed under the 3d Class was cultivated with Anuvoga in Tusly 1248, but left uncultivated in Tusly 1249. During the enquiry that was made about the alterations in the classes it was stated that since Tusly 1247 when the Field No. 10 called the Polemara Chanoo was entered in his Dittum Veerapah cultivated the Pasture Land that bordered on the field called Hustaghery Chanoo and that he did not cultivate it in Tusly 1249 Though this Metta Land was left waste yet as he was the Head Coupoo and a rich man, it was retained in his Dittum. It was stated by the complainants that the field

Fort St. George 8th April 1850.

field that was entered in the Dittum during that Tusly was the Palmara field which was under this Ryot in Tusly 1218. On enquiry this has been proved to be true and consequently the 7 and odd Gortoos were classed under the average Class that existed in Tusly 1218, the alteration in the Class was not made on a mere guess. Had the result of the different Fields obtained during the enquiry been noted at the time it would have appeared that it was not only the Polemara Chanoo that had increased to 10 1/4 Gortoos and altered the Class.

Yagoroo Venkat row 9th individuals who prepared the accounts, have been from a long time employed in preparing accounts and they are perfectly acquainted with the practices of the place and are holding respectable appointments and as they stated that they had examined the Accounts which they had prepared from what the Curnums dictated, with the accounts which are now at the Hoozoor and found them correct, and as on a partial examination which I had made it appeared that the Accounts were prepared

with

Fort St. George 8th April 1850

with reference to the accounts of Fusly 1218 &c.
as I had no leisure at the time to examine
accounts myself as I was engaged in the Settle-
ment and other duties and as no person inform-
ed me of the differences that were in the
accounts I merely entered the total amount in
the settlement account thinking that the Gom-
mastah whom I had directed to assist the
individuals to prepare the Outtahs, and the
Sist accounts would have examined the accounts
well and seen that there were no errors in them

Mr. Mathison having in Fusly 1228
directed me and the Head Sheristadar of your
Honour Cutcherry to proceed to the Village &
examine the fields the classes of which were
altered and with reference thereto assessed we proceed-
ed there and the former Curnums of the Village inform-
ed both of us, that the field that was cultivated
in Fusly 1229 and entered in the settlement account
as the Padonnaty Polemara Chanoo included in
the Dittum of Edara Veerapa for that Fusly, is
not the Palemara Chanoo of Fusly 1218, that

the

Fort St. George 8th April 1850

the Polemara Chanoo is now left uncultivated and
pointed out to us the waste Land that is to
the east of the field of Bodooloo Iyana which
is to the East of the Field now cultivated by
Veerapa as the Polemara Chanoo that was former-
ly held by Veerapa. The Curnums who complain-
ed stated that the Field now cultivated by
Veerapa is the Polemara Field which he held
formerly; that that field had been measured
in Fuslies 1232–1239 and 1240. That the Sub Di-
visions of the field which were made on those
occasions and the Sub divisions of the field now
cultivated by him correspond one with another, that
the whole of the Villagers had a dispute in Fus-
ly 1237 about the waste Lands, that the Lands
in possession of each of the Ryots, and the
waste Lands were measured that on a reference to
those accounts it appears that the Palemara Chanoo
that was formerly under this Veerapa, is this
very field they accordingly brought the accounts
and proved it, with reference to those subdi-
visions of the fields. The Palemara is at a
short distance from the field which the suspended

Curnums

Fort St. George 8th April 1850

Cunnums pointed out to us it is not near to
On the west and North of the Field now
tivated by Veerapa and pointed out by the co
plainants as the former Palemara Chan
there are banks the boundary of Vekerandap

The Cottoobady Peons of th
above said Village and the Ryots of Co
dakundoor and Vekerandapett, who ha
lands near the Polemara Chanoo, have exa
by feats stating that the field now cultivated by
Veerapa was called Palemara Chanoo, that th
Palemara Chanoo was formerly cultivated by h
that he had subsequently given up the Land
and that he is now again cultivating the
land.

When I went to inspect the Field
took with me some persons who knew
how to measure fields I got the field
measured which the complainants stat
was the former Palemara Chanoo and
the number of Roads of each of the
subdivisions corresponded with these stat

Fort St. George 8th April 1850

by the complainants Vizt with the measure
ments made in Fusleis 1232, 1239 and
1240 and it is not practicable to subdivide
the Polemara Chanoo pointed out by the
complainants into more or less than 6
divisions.

At the measurement that was
made during the former fusleis, the field was
subdivided into 6 Parts the field that was
pointed out by the suspended Cunnums as
the Polemara Chanoo which was thrown up in
Fusly 1243, was measured according to the subdivisions that were made
by Arbitrators and it corresponded with the measurements that were made
only in Fusleis 1239 and 1240, but it fell short of
the measurement that was made in Fusly 1232
to make up this deficiency they pointed out a
portion of Davaroypully vanny Edoona. The
Lands that were thus pointed out at the two dif
ferent times having been again measured by
the arbitrators they were formed into 20.
Subdivisions. If another were to measure
that filed, he would subdivide it as he
thinks

thinks proper and I think it would not b
practicable for him, to subdivide the field
the same manner as it has been done now
referring to the measurement account of f
1237, which was made in consequence of
Ryots having had disputes among themselves
appears that of the field which was pointe
out by the late Curnums as the Polemar
Chanoo a part is of the Bodoloory vanny
waste Land and a part of the waste
of the Davarapully vanndla Eloor
does not appear that the whole of that wa
Land was Veerapas. If what the suspend
Curnums stated is true that the Polemar
Chanoo was under Veerapa up to Fusly
why then would it not have entered in the
surement account of Fusly 1237 as being in
occupation of Veerapa. Why would there be
difference from the 6 Sub divisions into wh
it was made in the Fuslies 1232, 1239 and
1240 the field which the complainants po
out to us as the Polemara Chanoo

was pointed out to Nursiah & Vn and they also
subdivided it into 6 portions and measured
it but this field is to the North of the Pun
devangoos. In the examination account pre
pared by Nursiah & Vn individuals, this field
is stated to be on the North of the vangoo,
but from some cause or other it is stated
in that account that the Land under the
cultivation of Veerapa is composed of
Lands as entered in the account of unoccu
pied Lands for fusly 1218 as follows. to the
South of the Vangoo 4/4 Gortoos, to the West of the
Vangoo 1/4 Gortoo in the Pasture Land, 1 3/32 Gortoos
making in all 5 17/32 Gortoos. It is to be supposed
that the 4/4 Gortoos of Land to the South of
Vangoo was numbered as field No. 11 and that
the 1 5/8th Gortoos of Land entered in the Dittum
of Veerapa was a part of this Land. The other two
parts of the fields are left waste. In contradiction to
the Statement of Nursiah & Vn individuals that the
former Polemarah Chanoo was left waste and that it
is to the South of the Land that is now cultivated
by Veerapah they pointed out to both of us

a

Fort St. George 8th April 1850

a field that is to the east of anot

I am inclined to believe
all circumstances into consideration that
field pointed out to us by the Cum
complained is the Polamara Chann

It would have appeared to
Read Sheristadar that the field point
by the suspended Cummum as the Pola
channa borders on the Vaigai, that the
whenever it receives freshes, deposits
on it and that consequently grass has
luxuriantly on it that the Spot pointed
the Cummum who complained as the Pola
Channa having been under cultivation fo
period, it had deteriorated that the fie
out by the suspended Cummum is superio
field and that the Polamara channa is me
with the 3rd Class Lands. It having appear
necessary at the time the enquiry was
in order to assess the alterations in
classifications to class the diffe
Fields under the classes they
entered in Fasly 1218, it was

Fort St George 8th April 1850.

so accordingly and you will perceive that with reference to its present conditions it would not have been convenient to class that field under a lower rate.

In making this alteration in the classes it was considered that if there were any differences in it it could be altered before the subsequent dittums were prepared and that it should not in the mean time be forgotten that the Gentleman directed it to be entered in the account in order that it might be brought into operation. While so it will be known to you that I who am to obey his orders cannot of my own accord examine it personally, obtain the necessary information and assess the alterations in the classes. I was not negligent in my duty I represented to that Gentleman that which I thought it was my duty to do - the alterations in the classes were not assessed on the mere assertion of Condrangoo without referring to any accounts of obtaining the consent of the Ryots or without obtaining a writing from the then suspended Cummums - Previous to Condrangoo &c individuals making this complaint about the alterations in the Classes, the Tahsildar of

Fort St George 8th April 1830

of Ongole was sent to that Village on the complaint of Nursimiah &co. individuals to make the nessessary enquiry and this Condhawgoo was one of the individuals who had joined the Caupoos and burnums of the Village and opposed the enquiry he was not at variance with the Village The Sub Collector should have taken into consideration the conduct of the individual on the complaint that he had made but you will perceive that it had not been practicable for me to do any thing.

Yagenoo Venkata row &co. individuals prepared the accounts as they were dictated by the Ryots and burnums but they did not prepare those accounts from a personal Knowledge they had of the Fields. As he had not while he was writing out the accounts on the dictation of the burnums, written in full the remarks in regard to some fields, that is the reason I think why he had not been able to state with reference to what the average of those fields was a

Fort St George 8th April 1830

Those Ryots who had complained either to the Sub Collector or to me that the burnums &co. individuals had in preparing the accounts of the alterations in the classes inadvertently made some wrong entries had their complaints enquired into immediately and such errors which were discovered were rectified. Besides them no other Ryot had complained at the time that any wrong was done to him. While so how can it be supposed that because a few items had been rectified on our enquiry the whole of the accounts prepared by Vencata row &co. individuals were wrong.—

Since Fusly 1246, when I was first appointed by you as Sheristadar of this Division, I conducted myself to the satisfaction of all the Sub Collectors that had been Stationed here and gained their favor. Every enquiry and every Settlement that I had made during the last eight years was conducted with great fear and attention without a single dispute having been raised and I have been anxious to gain your favor still further. I have not committed any wrong in any one instance.

You

Fort St George 8th April 1850.

You placed me in this situation and ha
me into prosperity - you are governing the C
keeping in view both the prosperity of t
public Servants and that of the Ry
and bestowing much happiness on all
persons.

The Villagers of Pulkoor thr
that unless they were to bring a heav
charge against me they would not b
able to get rid of the alterations in th
classification of the fields which th
themselves had acknowledged and wh
they caused to be written out they re
presented to you through Yaragoodd
panty Nursiah who was sent on th
part of the Shrotrot to enquire into th
affairs that a relation of mine Eswara
gada Seeta row was formerly the Vuntu
Peishcar of Pulkoor, that I had been
there on one occasion to see him - that
at that time I became acquainted wit
them, that when I was appointed as
Tahsildar of Chendalloor Taluk Ge
Venalakunty Suba Row the then Tahsildar of
Daragoodoor Taluk to speak to them

Fort St George 8th April 1850.

stand security for me that they declined to
stand security as they had not sufficient property
that after I had been appointed as Sheristadar
of the Division I proceeded once to that Village
and showed them that I had an ill will towards
them and that bearing this animosity in mind
I had of my own accord made this alteration
in the classification of the fields - they had
also presented some arzees to you inserting
further falsehood to show the animosity I have
against them.

This Village had been assessed in
that Fusly with the alteration in the
Classification in the same manner as it had
been done to some other Villages in regard
to which similar complaints had been
received but I did not do so of my own accord
because I had an animosity against the
Villagers.

When my relation Sooba Row was
the Vuntoo Peishcar of Pulcoor I had
been only once there to see him - at that time
I was not of age to conduct public dutues.
There was no occasion for me during the four
or five days that I had been in his house

to

Fort St George 8th April 1850

to see the Ryots or for them to come and see
or either for me to get some one else to speak
to them to stand security for me when I was
pointed as Tahsildar

After I was appointed as Tah-
sildar I informed the then Sheristadar Su-
dasaghery Raumanoojaraw that I would
obtain security in my own Country the
Guntoor Zillah. He informed me that
if any one in the Guntoor Zillah were to
stand security it will be necessary for
the Sub Collector and the Principal
Collector of this Zillah and the Collector
of the Guntoor Zillah to write letters
to each other, that there are many in
this Country who are able to give security
and that he would get some one or other
to procure a security for me. He accordingly pro-
cured through Venalakunty Looka row Podapa
Govindoo an inhabitant of Pokoor and Rama-
Venataraumoodoo an inhabitant of Nooka-
vanum to stand security for me and got
Venalakunty Suba Row to write to me of
having done so. Those two individuals stood
security for me. Neither spoke to Subba

Fort St George 8th April 1850

nor wrote to him to speak to the Villagers of
Pulkoor to stand security for me. He did not
inform me by word or letter that he had spoken
to the inhabitants of Pulkoor to stand security
for me but that they refused to do so. I was
ignorant of his having spoken to these Villagers
and of their having refused. While so it is
left to you to take into your consideration of
the probability or otherwise of a circumstance
which the Villagers had falsely asserted merely
to cover the irregular conduct of the Curnums
and which Nursiah had reported to you in
a manner to induce you to believe it as a fact.

It was my intention to have represented
here some circumstances which have been
represented to you without the facts of the
cases being enquired into in order to draw
your displeasure against me but I have
refrained from doing so for fear of length-
ning this too much but I have every confidence
that you will be able to discover the facts.

(Signed) C. Lutchey Khanta row

Proceedings thereon.

Reviewing a report on the subject of the classification of lands in the Pulicoor Talook of Nellore District and directing the present Collector to make a classification of them de novo without reference to the existing Accounts.

17.18

1. Before proceeding to notice in detail the subject connected with the letter above recorded, the Board of Revenue must observe that it was accompanied with a Packet of Statements and Accounts so voluminous and so ill arranged that very much time has been lost in endeavouring to ascertain from them the real state of the case. The date will shew that they were submitted by the late Collector Mr. Smith.

2. The subject under reference is the revision of the rates of assessment on certain lands in Pulicoor and other Villages in the Sub Division made by the then Sub Collector Mr. Mathison at his annual Settlement for Fusly 1249, though the discussion has been limited to Pulicoor alone.

3. The Sub Collector in his Jummabundy report† of Fusly 1249 para 8 reported that "an addition of Rupees 6,238-11-8 has been "made on account of lands discovered to "have been improperly assessed at reduced "rates". The greater portion of the sum, 4,569-1-7 was in the Dawagoodoor Talook, in which the Village

† dated 23d Septr. 1840 Encls in From Collr 26th Septr. in Cons. 5th October 1840.

J.R.

Fort St. George 8th April 1850.

of Pulicoor is situated Mr. Mathison then proceeds to say that as this increase bore very hard on some individuals, he had granted "Discretionary Remissions" equal in some cases to 2/3ds of the increased demand and thus the amount of "Remissions" in his settlement was larger than usual (para 15)

dated 23d Augt. 1841.

4. The Board of Revenue in their Proceedings* on the Nellore Settlement of 1849 (para 16) requested that explanation might be afforded regarding these lands.

5 The Collector Mr. Stonhouse in para 48 of his Report on the Settlement of Fusly 1250† stated that he is "not prepared at present to lay his sentiments fully before the Board," but that he believes the change of turnums which gave rise to the additionab assessment has been in some cases not satisfactorily substantiated, but that it was done on the supposition of the Rates having been fraudulently altered since the original assessment. Mr. Stonhouse however directed the Sub Collector to adhere to the classification and assessment hitherto in force.

dated 18th Octr. Cons. 22d Nov. 1841.

6 In the Board's review‡ of the above Annual Report (para 15) they remark with reference to the head of "Discretionary Remissions" that

dated 12th Decr. 1842.

that the sum of 825—2— allowed to
Village of Pulicoor is only nominal, b
an addition to the assessment of the
Village made without authority by the
Sub Collector in fusly 1249 to bring
up to what he believed to the the
amount of the Assessment according
the Survey Accounts.

7. In the following year Mr.
house submitted a more detailed Repo
of the whole case as regarded Pulicoor,
the talook of Davageedoor, and enclose
two Memorandas one from Mr Mathison
and another from Mr Purvis who was
Acting Sub Collector.

8. From this it would appear
that Mr Travers in preparing the Origin
Khetwary Accounts in fusly 1218/A.D. 1808
only included those lands then under cul
vation that this account shews the Name
Extent and class of each field and its
bearing from the village, but not its bou
daries. That in fusly 1234 another
Chittah was prepared the only object
which seems to have been, the subdivision

Dated 31st Augt
in Cons 2d Octr 1843

Dated 5th July 1810.

= 23d July 1812

of the Fields classed by Mr Travers which
were in general too large for one man to culti-
vate "Like the Chitta of 1218, the Chitta of 1834
"does not give the boundaries of the Numbers
"and in fact is useless as an account. Indeed
"the Curnums have admitted that it was pre-
"pared in the Hoozoor Cutcherry and that
"it had not been prepared with reference to
"the fields."

para 20

9. Mr Mathison in fusly 1249 was
led to believe that many of the cultivated
fields though the identical ones entered in the
Chittah of 1218, were entered at Turrums
different from what they then stood, he there-
fore raised their turrums to what he supposed
to be the turrums of those very fields in 1218. Again
there were some fields cultivated in Fusly 1249
which were waste in 1218. These Mr Mathison
ordered to be compared with the Chitta of 1234
and the necessary correction made.

10. The effect in Pulicoor alone was
to enhance the Bariz of the Mettah (Dry)
Lands from 2,868 Rupees to 4,108 Rupees.

Para 13.

11. The re-measurements, and re-
classification of fusly 1249 was made by

one

Fort St. George 8th April 1850

one Vencata Row, and one Condaranze, the Acting
Curnum; and Mr. Stonhouse directed their
Para 5. to be tested by a Committee of 3 Gomastahs
selected by himself, and in this duty they seem
have been thwarted in every way by those who
should have been best able to give them infor-
:ation.

12. With regard to the measurement
Para 5 that of Vencata row was shewn to have been
excessive - that he actually included land as
cultivated, which was waste, and that his
accounts and those of the Sub Division Sheris-
Para 11 :tadar under whose direction chiefly the mea-
:sion was made did not tally.

13 Before the Committee the two acting
Para 15 Curnums confessed that they knew nothing
"about the change in the Classification and
"declared their inability to substantiate the
"correctness of the Turrum tubdeel accounts they
"had given in at the settlement.

Para 16 14. Mr. Stonhouse observes that
the Sheristadar's account are very reprehen-
:sible, and he seems to have adopted a
Classification of his own.

15. Mr. Stonhouse also declares his

Fort St. George 8th April 1850

Para 19 his opinion "that the identification of present
"fields with the fields of fusly 1218 or the
"numbers of fusly 1234 is impossible" and
"it is clear that when the Original fields
"of 1218 cannot be identified, their subdivi-
"sion made in 1234 cannot be."

16. The only resource therefore
left to the Committee was to try and
Para 20. ascertain from the Curnums whom Mr.
Mathison had dismissed, and from the
Ryots, under what turrums the lands
cultivated in fusly 1249 were entered in
the Cittah of 1218 - "They then personally
"inspected such lands as appeared to have
"been unoccupied in fusly 1218, and formed
"their judgment upon the whole," "It was im-
"possible to determine the locality of
"any particular field. Soils of the 3rd, and
"soils of the 4th Class are entered under
"the same name, as also soils of the 1st & 2nd
"Turrum under one, but another name."

17. The general result of the Com-
Para 21. :mittee's examination was to confirm the
old classification, and to give a net Decrease
of 1984 (including alterations caused by
re-measurement

Fort St. George 8th April 1850

re-measurement / below the Assessment im-
posed in July 1249.

18. The explanations of Messrs. Mathison and Purvis merely go to shew that the revision made by the former was grounded on complaints made to him which he had reason to believe well founded that the Cummums and others had taken up the lands of the Village, and altered their Jurums to their own advantage, throwing the lands on which they had transferred the higher rates to the less influential Ryots that it was well known that advantage had been taken of the imperfect specification in the Chittas of 1218 and 1234 to make such fraudulent alterations and that revisions of a similar nature as that now discussed had been authorized in other cases, being merely a return to those of the Original Assessment.

19. The Board of Revenue a few weeks after the date of Mr. Stonhouse's Report called upon the Collector to forward in the native languages

2nd Oct. 1843

Fort St. George 8th April 1850.

languages detailed accounts of the measurements and classification, they also demanded from the Sub Division Sheristadar a full explanation of his proceedings.

20. Of this communication no notice whatever seems to have been taken and 5½ years afterwards × the Board again desired a reply, which was responded to by the letter* and Packet now under consideration.

× 12th Feb. 1849.

* Dated 9th May 1849.

21 The letter is from Mr. Smith the late Collector it throwns no light on the case, but he expresses his opinion that the measurement of Vencata Row is open to a great many disputes and objections and that any revision of measurement or classification appears hopeless.

22. The explanation furnished by the Sheristadar is very lengthy, and to the Board not at all satisfactory, in shewing that the Revision was made on sufficient grounds, nor do the accounts submitted with it enable the Board to form any judgment on the matter.

23 After a lapse of 10 years since the Revision took place which led to so much discussion, and which Revised

assessments

assessment was at once set aside, it is not necessary to enter into a detailed opinion on the case.-

24 It appears to the Board very probable that a fraudulent change of rates, as suspected by Mr. Mathison may have occurred. The defective method adopted by Mr. Frasers in his Land Survey & Assessment was noticed as long ago as 1803, and any amendments that may have occurred since in particular localities can only be considered as temporary expedients. But to attempt to restore the original Rates by means of persons unworthy of confidence both as to character and skill, and without any data to go upon was a measure neither conducive to the welfare of the Ryots nor the interests of Government. Not only was it impossible as Mr. Stonehouse observes to know which field was which in comparing those cultivated at the time, with those under cultivation in fusly 1218, but the measurement themselves, even of the Collector's Committee are not such as to entitle them to much weight. The very fact of

(Revenue Selections Vol I p 936.)

of placing Round and square measurement upon a par, shews that no exactitude can be hoped for.

25 The Board are not of opinion that the fluctuations in the Beriz of Pulicat have been so great as to call for any special measures in this quarter more than in others. It will be seen from the margin that the village yields a Revenue equal to what it did when the assessment Cuttu of fusly 1218 was prepared.-

| Fusly | Rs Beriz |
|---|---|
| 1212 | 8631 |
| 1218 | 5367 |
| 1234 | 7985 |
| 1246 | 4221 |
| 1249 | 7644 |
| 50 | 5916 |
| 51 | 6074 |
| 52 | 4598 |
| 53 | 5511 |
| 54 | 4535 |
| 55 | 6472 |
| 56 | 5830 |
| 57 | 6008 |

26 It is observed from the Statements that in fusly 1234 this village was under Amanny and prices were high. Fusly 1246 was the year of famine The rise in fusly 1249 is owing to the extra assessment imposed that year by Mr. Mathison.-

27. There is however a circumstance which may be considered as tending to shew that in fusly 1249 either that much of the best land was left waste or if cultivated was fraudulently entered in the Accounts under a lower class and this is the difference in the extent of high class land taken in the Dittums of fusly

1218.

1218 and 1249: The following abstract Statement has been compiled from the Accounts now submitted of Inams or Dry Lands only for the discussion has had reference almost entirely to these.-

| Taluks | Ayaut. 1218 Gantas | Ayaut. 1249 Gantas | Bottom 1218 Gooz | Bottom 1249 Gooz | Settlement of Fusly 1249. Gooz | |
|---|---|---|---|---|---|---|
| I | 216 | 2,112 | 80 | 5 | 86 | Note, the |
| II | 271 | 264 | 92 | 44 | 114 | Gantas is |
| III | 312 | 295 | 80 | 198 | 241 | about 3/10th |
| IV | 47 | 279 | " | 258 | 135 | |
| | 848 | 1051 | 252 | 485 | 377. | |

28 The Comparision between the extent of Ayaut in Fuslies 1218 and 1249 presents nothing remarkable, the increase in the IVth class has probably arisen from the reclamation of waste. But the difference in the kind of land engaged to be cultivated in the two fuslies is not easily accounted for, and the Board consider that Mr. Mathison had reason on these grounds alone to suspect fraud. No such detail of intermediate fuslies have been submitted

submitted, by which the Board might have been more distinctly guided.-

29. One of the Statements submitted is a list of 20 Ryots with the extent of land held and teerwa charged them, both by the Subdivision Sheristadar's revised Estimate, and by the Collectors' Committee. From this it would appear that the Revised assessment was actually less than that proposed by the subsequent committee. This Statement has no doubt been prepared by the Sheristadar for the purpose of exculpating himself from the charge of raising the teerwas exorbitantly. Mr. Stonhouse in his report states that on the whole the Committees estimate was 1984 below that imposed in fusly 1249 whence it is presumed that the Sheristadar has kept back the revised rates demanded from the other ryots of the Village.-

30. With regard to the detailed and very complicated explanations offered as to the Classification of particular fields, the Board can give no opinion Mr. Stonhouse has already explained the impossibility of obtaining accuracy as

as to whether any particular field now cla:
ed in a particular turrum was or was
not classed in that turrum by Mr Fraser

31. Considering therefore the
very great probability that the numbers an
classes of the lands in the village
Puleoor have been tampered with, and th
fact that it is impossible to obtain a
correct revision of these fraudulent alte
:ations by means of existing Accounts, th
Board resolve to direct the Collector to have
the whole village accurately measured and
reclassified denovo.

32 The duty is one of importan
and must be conducted under the immedia
superintendance of the Sub Collector, but
without any interference whatever on the part
of the Sub Division Sheristadar, with whos
conduct the Board are by no means satisfied

33 The Collector will furnish from
the general Establishment such native
Servants as may be required to assist
the Sub Collector.

34 The Accounts now in existence

are

are not to be referred to, at all. The mea:
:surement will be made with a chain
of 33 feet a square of one chain, each
way constituting a Goontah, and 40 Goontas
an Acre. The fields are to be numbered
in regular succession and the boundaries
of each distinctly specified, with of course
the details as to whether it is dry or Wet
Land Circar or Enam waste or Culti:
:vated. If wet land how watered, if
cultivated by whom. also the present
rate of assessment. The Ancient waste
lands should also be measured and
where practicable divided into Fields
or portions.

† Should there be any original large tracts with permanent boundaries a record of these boundaries should be preserved as well as those of the smaller Sub divisions.

35. With regard to the
Assessment the Board will lay
down in detailed rules, but will
state their opinion when the plans
adopted.

Fort St. George 8th April 1850.

adopted by the Collector has been submitted.

36. Into whatever number of Classes the Collector may divide the lands it is expected, he will give the reasons for each difference, as also for the different rates of teeruh he may propose, and what proportion the teeruh bears to the value of the Gross Produce.

37. The Collector is also desired to report to the Board as soon as he has commenced the Survey.

Ordered that a Copy of the foregoing Extract be submitted to the Collector of Salem for his information and guidance.

H.C.B.

Fort St. George 8th April 1850.

Read the following letter.

To. W. H. Bayley Esqr.
Secretary to the
Board of Revenue
Fort St. George

Sir

(19)

From the Agent to the Governor of Fort St. George

Adverting to my communication dated 14th February 1850, regarding the Lapse of certain Enams lately in possession of Bushreer Khan, a relative of the late Ex: Nawab of Kurnool.

2. I have the honor to report that although the value of the entire Enam was correctly entered in the Statement which accompanied my communication as Rupees 91-2-8, I regret to observe that, owing to a clerical error, the number of Acres was erroneously reported as 22-11-13¼.

3. I find that 1-21-9 Acre of wet land should have been added in the appropriate Column of the Enam at Goozoolapilly and accordingly have the honor to request you will obtain the Board's authority for making the requisite addition to the Statement in question.

Kurnool Agents Office 29th March 1850.

I/ Signed W. D. Phillips
Agent to the Governor

As.

disease while the total number of deaths by this Visitation throughout the District is estimated at 2,600 persons. In the Talooks of Cauveripauk, Vellore and Trivellum which are contiguous to each other, an epedemic prevailed among the Cattle occasioning considerable loss.

2. The Prices of Grain underwent a further decline in the year under report. According to the Calculations of the Collector the Current Prices were about 30 per Cent below the Tarum rates in the Principal Division and upwards of 40 per Cent below that standard in the Subdivision. This great difference, as well as the disparity observable between the rates in North Arcot and the Market and Tarum rates in South Arcot and Singleputt, as shewn in the Margin render it necessary that the Board should receive further particulars on this subject and the attention of the

Fort St. George 8th April 1850

To Collector 7th March 1850.

the Collector has been drawn to this separate communication. The Board are desirous of having before them the fullest information to enable them to decide on the propriety of preparing the Price Lists in the mode adopted by the Collector.

3. In Para 6. Mr Bourdillon explains by whom and at what time the Settlement was made

Paras 7 & 10.

4. In conformity with the orders of the Board, the Collectors attention has been given to the assimilation of his Accounts to the Forms in use in Bellary. The change consists chiefly in requiring the Accounts shewing the particulars of the Cultivation and the Account of Remissions to be prepared more in detail than formerly.

5. The personal attendance of the Ryots at the Summabundy or Cutcherry has also, it is stated, been enforced more rigidly in correction of the practice of closing the Accounts of the Settlement with the aid of the Monigar and Curnum alone, without affording the Ryots full opportunity

Fort St. George 8th April 1850

opportunity to discuss the Demand against him. The Subject has been already considered, and the Board will trust to the Collector to make such arrangements as will prevent the unnecessary detention of the Ryots.

Crop.

Paras 17 & 24. 8. The Dittum Bunjer in Fus
1257/1847/48 was Rupees 1,29,740, while in Fusly 1258/1848/49
it amounted to Rupees 1,99,069 after deduct
Rupees

Fort St. George 8th April 1850.

Rupees 684, which was included in the
Demand chiefly on account of the Land
being under River Channels, or otherwise
fully supplied with water. Dittum
Waste fluctuates with the season, and
in bad years is necessarily large - In
their Proceedings viz the Settlement for
Fusly 1256/1846/47 the Board expressed their
dissatisfaction at the large Amount
under this head, not because it was
large in itself as inferred by Mr Bourdillon,
but because the Amount, together with other
as Shikarpooldy and Still Cummy was dis-
proportionate to the circumstances of the year the
Season having been one of fair promise
with an unusually favorable
Market.

call

call for remark

Paras. 29. 30. 11. The Villages of this newly resumed Mamundoor Pollium and Anilcondah Jaghier are under rents for one year pending an assessment founded on a Survey now in progress. On the completion of the new assessment the Accounts of two Villages one North and the other South of the Palaur should be submitted to this Office together with a report explanatory of the Principles on which it was fixed.

Paras 33 & 35. 12. Certain Topes in 25 Villages of the Vellore Taluk which had been let as one Farm for many years past settled under a many in the year under report. A part of the land is properly Tope and has been settled as such a part is under cultivation and for this individual Puttahs have been issued. That portion of the former lease which was strictly House Tax has been continued as such, except in cases in which the occupants were properly liable to Motorpha, in these the Motorpha Tax has been substituted for the former House Tax. These arrangements were sanctioned by the Board in their Proceedings dated 13th July 1848.

The

Para 41. 13. The Cultivation of Sugar Cane had undergone a further decline. The Price for the Manufactured article had also fallen. The English Houses engaged in this Trade had however increased their advances in the Current Fusly and it was expected that an impluse would be again given to this description of Cultivation.

Mr.

22- Mr. Bourdillon makes favorable mention of his European Subordinates and notices the ready and useful cooperation of his Head Sheristadar, Sooba Row, whose employment in the District for so many years has given him an intimate acquaintance with its affairs-

23- In conclusion, the Board would make the following remarks on the accounts-

24- The detailed accounts of the Summabundy of the Village of Goodevary pollion accompany the Report; but, the Board are unable to judge, whether the Moozra Kyfyat or Statement of Remissions has been separately prepared- It is desirable that the Village selected in future shall be such as will admit of full details being presented to the Board in elucidation of the Summabundy-

25- Statement No. 12 exhibits the particulars of the Dittum. From the Dittum of the preceding year, Rupees 11,2,319-9-3, have been deducted and among the items composing this sum appear Rupees 49,384-11-8 for Poodoocal or Fallow, and Rupees 6,883-8-2 for waste from insufficiency of water

water. Both items appear more properly to come under the Head of Remissions, which require verification at the Settlement rather than deductions from the Dittum of the preceding year. It is desirable also that Bogajasty, or additional assessment on account of 2d. Crops should be exhibited in the Dittum as is done in the Ceded Districts.

26. The item Dittum Bunjer not being essentially a component item of the "Gross Settlement" should not be blended with the ordinary items of Remissions. The "Gross Settlement" is the Dittum less the Dittum or leaboolaty Bunjer. the Net Settlement is obtained after the usual Remissions as Shikerpooldy, Stulla Cummy &ca are deducted, as explained in the recent Circular to Collectors dated 18th March 1850.

27. The Sub Collector will be pleased to attend to this with reference to

the tabular abstract in Para 18 of his report.

28. Mr. Bourdillon is desirous that a more compendious Form exhibiting the Cultivation of Sugar Cane should be substituted for that in use. The Board wish the details for the year reported on to be embodied in the Statement as usual; but as these are furnished annually, the corresponding entries for the preceding year may be discontinued. This will reduce the Statement to half its present bulk, whilst all essential particulars will be retained.

29. The Rent Roll should exhibit the number of Puttahs and not of Puttahdars as observed by Mr. Bourdillon (Para 43). Joint Puttahs should also be

be separately entered according to Summabundy Statement A, the number of Ryots and of Puttahs in the 4 Talooks of the Subdivision is 35,426 and 33,307 respectively, while in the separate Puttah account No. III the number of Puttahdars is stated to be 38,348. Mr. Bourdillon dwells upon the amount of labor entailed by the preparation of the Rent Roll annually and suggests that it be furnished once in 10 years. This document is of great statistical utility. It is prepared, in the first instance by the Village Officers, accordeing, it is presumed, to a prescribed Form. To fill up a similar Form in the Tahsildar's Cutcherry for the whole Talook from the Village Returns and another in the Hoozoor Cutcherry for the whole District from the Talook Statements ought not to ential much labor and the Board see no reason why the Return should not be supplied annually. In

D.G.

regard

regard to the accounts generally, the Board will be prepared to consider any suggestion of the Collector having for its object their simplification. As a general rule, the Collector should assimilate his accounts as far as circumstances will admit to those in use in the Ceded Districts. It is also of importance that the Village Officers should be required to submit their Accounts in a prescribed Form so as to abridge the labor of the Talook Establishment as much as possible.

Ordered that a Copy of the foregoing Extract be submitted to Government and a transcript of the same be forwarded to the Collector of North Arcot.

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

(24)

From the Acting Collr. of South Arcot
x 18th March 1850.

Sir.

In reply to your letter I have the honor to state that the Statement of Contingent Charges for the Quarter ending 31st December last, was submitted blank on the 8th Instant

I beg to forward a duplicate of

of the same herewith.

South Arcot
Collector's Cutcherry
Cuddalore
21st March 1850.

Signed J. Bird
Acting Collector

Order thereon. Ordered to be recorded.

(24.25)

It does not appear that the Blank Statement from the Collector of which the enclosed is a duplicate was for the Quarter ending 31st December 1849. It is an Annual Statement in which the charges of 1849 are exhibited in Comparison with those of the previous year.

In Cons. 4th April 1850.

Read letter dated 5th ultimo from the Collector of Tanjore, reporting upon the condition of the Gundra-cottah Polliput in his District and submitting Statements shewing the Receipts and disbursements of the Estate for Fusly $\frac{1258}{1848/49}$.

(26)

Proceedings thereon. From the foregoing letter and its enclosures it is observed that the Demand of the year reported on fell short

Relative to the Settlement of the Minor Estate of Gundra-cottah in Tanjore District in Fusly 1258

Fort St. George 8th April 1850.

| | | |
|---|---|---|
| Fusly 1257 | Rs. 22,235. | short of that of the preceding by Rupees 464, in consequence of diminished produce of the Aumany Villages and lower rents of others arising from the unfavourable nature of the Season. Of the entire Demand Rupees 20721 were collected within the Fusly and a further sum of Rupees 581 subsequently, leaving a balance of Rupees 469 of which the greater portion, it is stated, will be realized. |
| Fusly 1258 | " 21,771. | |
| Decrease | 464 | |

2. The arrears outstanding at the opening of the Fusly under review were Rupees 11,612 of which Rupees 4,243 were brought to account up to the end of December last leaving a balance of Rupees 7,369. Of this amount the Collector believes not more than Rupees 1000 are recoverable, observing that the greater portion is due either by parties who have no means of payment being small holders of dry or tank cultivated lands which have suffered from drought or by others whose payments have been withheld under objections

M.

Fort St. George 8th April 1850.

3. At the close of the Fusly the

| | | |
|---|---|---|
| At close of Fusly 1257 | Rs. 27,049 | assets in hand to the |
| Gross Revenue of Fusly 1258 | " 21221 | credit of the Estate |
| | 48,270 | amounted as shewn |
| Deduct charges | 21686 | |
| | 26,584 | |

in the Margin to Rupees 26,584.

4. In the expenditure it is observed that Rupees 17 were added to the fixed amount of Peishcush, being the Circar portion of Extra Revenue derived from the House and Loom Tax, and that an increase of Rupees 25 on account of the Sibbundy was incurred by the Salary of the Head Nat Curnum having been raised from 6 to 9 Rupees per Mensem which item, under the explanation given by the Collector the Court of Wards sanction as a permanent charge.

5. The disbursement for the support of the Minor Poligars Family, and dependants was below the authorized amount by Rupees 10, which sum is stated to have been withheld from the party to whom it was granted as he has failed to perform the duty assigned him.

6. With regard to the additional outlay of Rupees 891 sanctioned by the

Fort St. George 8th April 1850.

the Court to meet periodical ceremonies and festivals, the Collector observes that a sum of Rupees 391 only has been charged in the Accounts, the Punnay lands formerly cultivated by the family and valued at from 5 to 600 Rupees per Annum have been made over to them at the urgent request of the late Zemindars widow in lieu of ready money payments - a measure which, Mr. Bishop is of opinion will be attended with a two fold advantage, Viz.t the prevention of constant applications for funds for the performance of various ceremonies, and the attachment of some personal consequence to the family. The Collector should have explained in whose occupation these lands have been, & whether their transference to the Family, causes a difference in the Demand on the Estate.

7. The Court notice with satisfaction the judicious Settlement of more than 2/3ds of the debts against the Polipat amounting altogether to R. 38,306-15-2 as exhibited in Statement No. 2 which accompanies the Report, the amount of claims

+ There appears to be some discrepancy between the Collectors Report and the Statement submitted with it, in which the sum of Rupees 391 is entered as "not paid".

Fort St. George 8th April 1850.

claims remaining unadjusted being Rupees 10269-14-" Of this sum Rupees 10,127-" 3 it is remarked are claimed by one individual "the original debt having been but "one half the amount, and this not satisfactorily proved being of very long "standing and mixed up with various "dealings and assignments on the Estate "which must be clearly ascertained "before a Settlement of the case".-

8. The actual amount in deposit on the 1st January last was Rupees 13700- the investment of which in the 5 per cent Loan the Court Sanction, as suggested by the Collector.

Ordered that a Copy of the foregoing Extract be submitted to Government and a transcript of the same be forwarded to the Collector of Tanjore.

Ordered also that Copy of the Court's Proceedings dated 5th February 1849 on the Settlement of Fusly 1257 be submitted to Government.

To

W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

(29)

From the Collector of Tanjore

Sir

The 2 Cotton Gins supplied by Government are found to answer very well, the Cotton passed thro' them being both well and expeditiously cleaned — I have therefore the honor to request you will be good enough to inform me if I can be furnished with 3 or 4 more, should I require them for sale in the District, if the Cost be moderate which I trust it may be otherwise, the Cotton growers will not be tempted to purchase and as the introduction of this improved machine will be of public benefit the Government will I hope be prepared to let me have them at the lowest possible price

Tanjore 26th March 1850

/ Signed J. F. Bishop
Collector

Resolution thereon — (29.30)

Proceedings

Reporting on the Settlement of the Extra Sources of Revenue in the District of Madura in Fusly 1258 —

In Cons 19th April 1850

(31)

Read letter dated 25th October 1849 from the Collector of Madura, reporting on the Settlement of the Extra Sources of Revenue in his District for Fusly 1258 — 1848/49.

/ Here enter No. 1261 /

Read also letter From Collector 8th March 1850

The subjoined Statement, attached also to Para 2 of the Collector's Report, exhibits in one view, the Comparative results of Fuslies 1257 and 1258 as regards each source of Extra Revenue, which however under the head of Salt, causing the Huzzoor Treasury Accounts to show an excess over the receipts in the Talooks, the Collector was called upon to explain, which he has done in the letter above recorded —

2. By the foot note attached to the State-ment accompanying his letter, it is mentioned, that in the Statement annexed to Para 2 of the Report, the Salt revenue is given at the collections of 11 Months, added to the receipts of the 12th Month of Fusly 1257 which being high, and 7,036 above the receipt of the 12th Month of Fusly 1258, the two Statements differ by this amount — The actual collections on Sales of Salt within the Fusly amounted to 31,6098 Rupees or 35034 below Fusly 1257 —

| | | | | | | | | | | | | |
| | | | | | | | | | | | | |
| | | | | | | | | | | | | |

3 Mr Parker explains his present system, as arising from his inability to carry to his Treasury Collections, the receipts of a later date than the 11th June, in consequence of the distant situations of the Salt pans and Custom Houses from the Huzzoor station. but as the blending of the collections of the last Month of the previous year with the 11 first of the Current one leads to some confusion, and is moreover liable to the objection of not exhibiting the results of the entire year under review, the Board would wish to instruct him to include hereafter in the Demand, all the receipts at the principal and subordinate Treasuries, but that in reporting the Collections to shew separately the sums obtained at the Talook Treasuries from the amount carried to account within the Fusly in the books at the Huzzoor—

4. This decrease is attributed to diminished Exports to the Dindigul Division and to other Zillahs, but chiefly in the opinion of the Collector to the latter. Other causes are surmised by Mr Parker, but his enquiries

have not enabled him to state confidently how far they have tended to the decrease in the sales of Salt in his District, there seem to be no grounds for believing that the sales for Inland consumption in Tanjore had operated to the disadvantage of those in Madura. The Board are disposed to consider that the increased supplies of Salt received in the Dindigul Province, and particularly from Tinnevelly into the Dyempully Talook, from whence grain was taken in return, and in which Talook the stock of former years was still on hand together with the low state of the Cotton Market on the Coast, may have contributed to the decrease in the Demand in that portion of the District. In the home consumption of the Madura Province including the Ramnad and Shevagungah Zemindaries, the difference in the sales of the 2 years under comparison is very trifling. The Board would be glad to learn if any quantity of Salt taken by the traders in the Dyempully Talook above what was requisite for its own consumption is disposed of in the neighbouring

neighbouring Districts of Coimbatore and Salem, and at what prices, and in what quantities such purchases are made, & how long such a traffic has been continued—

5. To the Manufacture of Earth Salt the attention of the Collector has already been directed in reference to the remarks of Government under date 22d May 1849— In Cons. 31st May 49

Sea Customs 6 In the Sea Customs there was a decrease of Rupees 6,108–13–8 arising from a diminution in the Export of Piece Goods to Ceylon and in the Import of Betel nut from that Island, as well as from the abolition of duties on the Port to Port trade Act VI of 1848.

Abkarry. 7. The increase from this source is attributable to greater Competition for the Rent and to the generally prosperous condition of the District. It is satisfactory to note that the balance of Rupees 1936 at the end of the Fusly was recovered in full at the date of the Report, and also the old balances under this head and under that of Small Farms and Licenses outstanding at the commencement of the

the year under review were reduced in the course of it to Rupees 895–2–2 and 86–8–11 respectively. As regards the former for writing off which authority was granted in Extract Minutes Consultation of the 24th November last, the Collector in a letter dated 4th January herewith submitted, states that of the sum of Rupees 24–6–0 realized by the sale of the Punjah land of the renters of the Pandicomboo Talook, Rupees 9–12–5 have been credited on account of balance of Jyen—Land Revenue for Fusly 1257 due by one of the Defaulters, and that the latter amount is still outstanding against the renters, for the remission of which he solicits sanction— In Cons. 29th Nov. 1849. In Cons. 4th April 1850 99

Stamps— 8. The large increase under this head of Rupees 10,670–15–0 arises partly from the operation of Act XVII of 1848 which substitutes, stamps for Institution Fees, and partly from the Number of Suits for large sums filed in the Civil Courts.

9. In the Calculation entered in Para 17 the Collections of the 12th Month of Fusly 1257 having been included, it is preferable to compare the actual Collections, Current and arrears brought to account at the Talook Treasuries. These amounted to Rs. 4,22,593–13–9 gave a Net decrease of Rs. 20,925.10.7 below the previous year—

Ordered that a copy of the foregoing Extract with the annexed comparative Statement of the Collections, Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Madura for his information and guidance—

To W. H. Bayley Esqre
Secretary to the
Board of Reve
Fort St. George

(32)

Sir,

From the Collector of Madura

I am sorry to inform the Board that there has been a very deficient supply of Rain in the Current Fusly Little, if any has fallen in the Madura Talooks since the end of October. Dindigul has been somewhat more favored owing to considerable falls on the Mountains to the West from whence the Vaigai and other Rivers are derived, the Channels and Tanks fed by them have contained sufficient Water to bring their Crops to maturity. The Poonjah Crops are below the average—

Accounts have been already received from the Talooks of withered Kunjah Crops bearing a Revenue the Amount of 47,000. These are now under examination—

I do not consider the year as Fusly 1256, nor do I seek to obtain fro

Reporting that Accounts have been received of withered Crops Amounting to 47,000 Rupees Revenue, owing to scanty rains in the Talookes since October Recommending suspension of the certain standing Rule that no shavee Remission be granted to a first Crop which perished when a second Crop be raised

Fort St. George 8th April 1850.

the Board a relaxation of the Rules so extensive as was then accorded under Mr. White's letter of the 8th February 1847, but I beg strongly to recommend that the standing Rule that no Shavee Remission shall be granted for the 1st Crop should a 2d Crop be raised, may be suspended for the Current year. Last year, and usually, if one Crop withered and another Crop came to maturity the land paid 1/2 Seerwa, the same as if both Crops came to maturity. I propose for the Current year that a second Crop of Kunjah shall pay 1/2 Seerwa only when the first may fail. The indulgence seems very necessary to encourage the Ryots to avail themselves of any Rain that may hereafter fall to raise a second Crop.—

Should this request be granted Remissions will not of necessity be granted for the first Crop which failed, but be regulated by the general principle of a combined consideration of produce and price, and if the Board will

allow

allow me discretion I would refuse applica
of the indulgence in some cases in Palo
which have suffered little.—

The Palook which stan
most in need of lenient treatment are
Meylore where the Ryots are very p
owing to the smallness of the Tank
and indifferent nature of the soil.

Proceedings thereon.

(32·33) Under the peculiar
circumstances of the current year t
Board authorize the Collector of
Madura to modify on the present occa
the Standing Rules regarding Nunja
Shares, and to permit a 2d Crop to be
raised when the first has failed
liable to a Seerwa of one half the
full 2 Crop assessment.

2 This permission is to be
limited to those cases where there
a complete loss in the first Crop inves
with reference to the Ryots other hol
stings, the price of Grain, &c. &c. In regard to

these details the Board trust to the
vigilance and discretion of the Collector and
expect a full account of his proceedings as
to these Remissions when the Annual
Settlement report is submitted.—

Collector

Proceedings thereon.

(34·35)

The case reported in the accompanying letter seems to the Board to be one in which the sudden resumption of the Manciem lands would be attended with hardship to the family, who it is stated have no other means of subsistence and before submitting the Collector's Report to Government, they wish it to be ascertained and reported, whether there is sufficient proof forthcoming from the Talook Accounts, or otherwise, that the lands are Puncha Manciem. If they are found to be so the Collector will explain on what grounds he proposes to resume such Manciems which are usually considered to be service grants.

2 Should no evidence be forthcoming on this point the Board are of opinion that as it has been ruled, that long continued possession shall positively be held to constitute a title, some portion of the Manciem should be continued as a Charitable grant to the present claimants, in which case Mr. Parker will specify the quantity of Buncha which he would propose to be continued and also make some definite recommendation in respect to the party to be preferred.

From the Collector of Madura ... 3/1

With reference to the Board's endorsement, calling for a report on Petition No. 2242 of 1849, in which the Petitioner requests the continuance of the allowance of 10 Cally fanams per diem said to have been paid from the revenue of the Peroopavanam Talook from a long time prior to the permanent settlement on account of the daily ceremony of Pilliarchary Cattalay to Poorpavanaiswara Swamy at that place, I have the honor to state, that during the attachment of the Zemindary for arrears of revenue in 1832 Mr. Lucas the then Principal Collector continued the allowance, but in 1838 when it had fallen again under attachment Mr. Blackburne refused it on the ground of the Zemindary having been assumed under the orders of the Court of Sudr Adalut in pursuance of their Decree in favor of Ungamootoo Natchiyar. In accordance with the latter precedent.

Fort St. George 8th April 1850.

Read the following letter.-

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.

44

From the Collector of Canara

Reports on Petition No 306 of 1850.-

No 306 of 1850 transmitted

Sir,

With reference to the Board's
Endorsement on the accompanying Petition,
upon which I am directed to report, I have the
honor to state that the Petitioner was formerly
Shanbogue of the Coompta Moganay which he
resigned in favor of his brother, who was
subsequently committed to the Criminal Court a
and sentenced to two years imprisonment on a charge
of rape. The appointment was confered about
four years ago by Mr. Ward, the late Sub
Collector, on Ramchendriah the present incumbent, whose
family appear to have held the office of Nad Shan
bogue in that part of the country under the former
Governments.-

2. I am not aware of the grounds upon which
this appointment was made, but I would not recom-
mend that the arrangement which has now subsisted
for nearly 5 years should be disturbed. The petitioner never

brought

Fort St. George 8th April 1850.

brought his case personally before me although I have been more than once in that part of the country when he would have had a convenient opportunity of doing so. I find also he was himself on a former occasion dismissed and although subsequently restored to office as he voluntarily resigned it. I do not think he has any peculiar claims to consideration. The Shanbogues in Canara are not all upon the same footing as the Curnums in other districts. They have no Enams but are paid by a ready money allowance and all the rule that members of the same family should be appointed on vacancies occurring is adhered to as much as is practicable, it can only be taken as a general guide which the circumstances of the District and the corrupt character of the Shanbogues has always rendered it necessary to deviate from, on occasions. It will in my opinion be sufficient if his claims are taken into consideration the next vacancy occurring.

Collector's Cutcherry, Devimanay, 18th March 1850. — Signed J. L. Blane, Collr.

Order thereon.

44-45

"Under the circumstances stated by the Collector, the Board of Revenue do not deem it expedient to disturb the arrangement now existing. The case of Petitioner will receive consideration on the occurrence of Vacancy."

J. G. (A)

Fort St. George 8th April 1850.

Read the following Papers.

In Con. 4th Jan. 1844 — From the Collector of Malabar 5th Dec. 1843 No. 149.

In Con. 11th May 1848 — From ____ Ditto ____ Ditto 2d Feby. 1848 No. 11.

In Con. 16th July 1849 — From ____ Ditto ____ Ditto 14th Dec. 1848 No. 120.

Proceedings thereon.

Requesting further information on the Nice lands of the Betutnaad Rajah's Estate escheated to Government.

1. The Board are desirous to bring this long protracted question to a close, but it will be necessary first to obtain from the Collector some explanation on the following points.

2. The last and in fact only letter now before the Board containing any details as to the proposed measure is that of the 5th December 1843.

3. In this the Collector has not stated if in any instance the landlord's share has been collected in that portion of the District formerly belonging to the Betutnaad Rajah, since it came into the hands of Government, nor has he forwarded any Taloor Kwar Statement shewing the number of Gardens and extent of land of every description.

4. Mr. Conolly has proposed to follow as a precedent certain

Fort St George 8th April 1850.

certain arrangements made by Mr Clementson on a former occasion; but the Board would desire to know how far Mr Clementson's plan has succeeded and if the cases can be considered of a similar nature, a copy of the Puttahs alluded to in para 2 should be forwarded.

5. The objections that occur to the Board and to which the Collector will give his full consideration are

6. With regard to the "fair" whether the unfluctuating additional assessment to each description of will not be considered a hardship even though the total amount of landlord's share may be much the as if the old settlement were adhered Viz: a percentage on the produce

7. There is however another objections which applies to the whole arrangement both in respect to Gardens and Rice lands, as also to the upland, and that is that distinction between the Landlord's share and the circar share would

Fort St George 8th April 1850.

be lost sight of. The system prevailing in Malabar is to specify the Landlord's share where the Government stand in this peculiar relation, and it is important to maintain the distinction.

8. The Statement in para 9 appears to be slightly inaccurate. The estimate of the whole Revenue from the upland by the process proposed by Mr Conolly would be 286 Rupees as shewn in the Margin, and not 261-14-5.

| Upland | | |
|---|---|---|
| 7 at 18 | = | 77 |
| 6 at 3/4 | = | 90 |
| 38 at 1/2 | = | 119 |
| 35 | | 286. |

9. The Board are aware that the length of time which has elapsed since the Lands became an escheat to Government during which time the Landlord's share has not been exacted, is likely to involve some difficulty in now carrying out the measures which are necessary to protect the interests of Government, but they trust that Mr Conolly is prepared to put those measures into operation and

and

Fort S. George 8th April 1850.

and that they will not meet with opposition from the Ryots.

25th Jan.y inl.o 7th April 1850

Read letter from Collector of Malabar reporting on the Extra Sources of Revenue in his District for Fusly 1258.

47

Here enter No 8.

Proceedings thereon. 1. From the subjoined statement it will be observed that the Settlement of the Extra Sources for the year under Report fell below that of Fusly 1257 by Rupees 114,400-5-10.

Reporting on the management of the Extra Sources of Revenue in the District of Malabar for Fusly 1258.

| Items | Fusly | Fusly | Increase | Decrease |
|---|---|---|---|---|
| Salt | 365,726-10-6 | 362,474-12-2 | " " | 3,251-14- |
| Tobacco | 572,814-11-11 | 543,003-14-6 | " " | 29,810-13- |
| Frontier Customs | 216-5-3 | 122-15-3 | " " | 93-6- |
| Sea Customs | 119,596-6-4 | 27,502-3-1 | " " | 92,094-3- |
| Abkarry | 63,176-8-6 | 65,844-13-4 | 2,668-5-4 | " " |
| Sundry small Farms & Licenses | 52,856-13-10 | 50,886-11-3 | " " | 1,970-2- |
| Stamps | 41,276-6- | 52,151-2-6 | 10,874-12-6 | " " |
| Moturpha | 117,001-2-10 | 116,278-2-7 | " " | 723- |
| | 13,32,665-1-2 | 12,18,264-11-4 | 13,543-1-10 | 127,943-7- |
| | | | | 13,543-1- |
| | | Net Decrease | | 5 |

Fort S. George 8th April 1850.

Items of Increase
Abkarry 2,668-5-4
Stamps 10,874-12-6

2. In the items noted in the Margin there was in the one a small in the other a large increase which in the latter was occasioned by the operation of act XVII of 1848.

Items of Decrease

3. Every other branch of the extra Sources exhibits a falling off, amounting in the aggregate to Rupees 127,943-7-8.

Sea Customs
Rs a P
92,094-3-3

4. The principal cause of so large a deficiency, occurs under the head of Sea Customs, attributable entirely to the abolition of the Port and Port. and differential duties, under the provisions of Act X of 1848.

Note - There are 24 Sea ports in the District of Malabar.

Frontier duty 93-6-
Small farms 1970-2-7
Moturpha 723-0-1

5. The fluctuations in the Revenue derived from frontier duty, small farms, and Moturpha are of an ordinary nature calling for no special notice.

Salt & Tobacco

6. The only remaining items are Salt and Tobacco - It will be seen from para 2 of the Collector's report, that the slight decrease in the Salt Revenue was owing to a falling off in the Inland sales, which was nearly

Salt
× Rs a P
3,251-14-4

Fort St George 8th April 1850

Increase in Inland consumption 1,11,1,37½ 10 0

Increase in Home Consumption 8,822 12 10

nearly counterbalanced by an augmen-
-tion in the quantity disposed of for H
Consumption. The sales in the fusly un
review exceeded those of fusly 1256 f
Rupees 15,785 — 6 —

Tobacco.

7. The Collections on accou
the Tobacco Monopoly fell below those
Fusly 1257 by Rupees 29,667 — 8 — a sum
attributed by Mr Conolly to the illi
introduction of Tobacco from Cochin.
This subject will be found discussed
in the correspondence Noted in the
Margin. In accordance with the in-
-structions of Government, the Co
-lector has been in communicati
with General Cullen, and from
the papers submitted it will
observed, that since the reduction
of price on the part of the Co
Sircar, the trade in the article ha
increased according to the Dewans
admission 41 per Cent, which has
doubtless contributed to a corre
-sponding decline in the Tobacco
Revenue of Malabar. The Board
also observe from the Coimbatore

From Coll.r 7th in Cons 25th Jany 1849.
Proceedings 18th June No
To Govt 6th in Cons 16th July No

Fort St George 8th April 1850.

Report that the sales of Tobacco to the
Cochin Sircar at 60½ Rupees per
Candy, were in Fusly 1257, 400 —
Candies, whilst in the Fusly under
review they amounted to 900 Candies.

Collections.

8. Of the Demand —
Rupees 12,18,264 — 11 — 4, the sum of Rupees
12,17,546 — 13 — 6 was brought to account
within the fusly leaving a balance
of Rupees 717 — 13 — 10 for future ad-
-justment.

Charges.

9. The gross charges for the
year rose above those of Fusly 1257 in
the net amount of Rupees 10,945 — 14 — 0
This excess in the expenditure is explained
in para 3 & 4 of the Report. So great was
the difficulty in procuring a sufficient
quantity of Salt in Fusly 1258, that it
was absolutely necessary to pay 42
Rupees a Garce for it, instead of
24 — 2 — 2 as in the previous year. The
difficulty seems to the Board to
have been unavoidable, but they
are glad to observe that the emergency
has terminated.

10 The diminished expenditure on

Fort St. George 8th April 1850.

on account of the management of Tobacco Monopoly was caused by "the low rate at which that arti was supplied from Coimbatore a the quantity purchased was 305 Candies above that bought in t past year.

† 13-13-2 per Candy less than in Fasly 1257.

Net Revenue.

11. Deducting the disbur ments Rupees 247,582-13-8 from th Collections / Current Extra and arrears amounting to Rupees 1218153-9-1 Net Revenue for the year und report was Rupees 971570-9-5 wh is below that of the preceding yea by Rupees 126146-2-7 a result tha has been shewn to have arisen chie from the large deficit* in the Sea Custom and the enchanced ⊛ charge under the head of Salt.

* 82668- net
⊛ 51135

Arrears.

4. From the concluding par of Mr. Conally's report, it will be seen that the Balance outstandi at the close of the Fasly, amounts to Rupees 352-1-5. Of this sum Rupees 213-8-9 are stated to be

D.G.

Fort St. George 8th April 1850

recoverable, the remainder Rupees 138-8-8, the Collector is of opinion, cannot be realized, and the Board beg to support his recommendation that it should be written off the accounts.-

Ordered that a copy of the foregoing Extract from the Board's Proceedings with the an= =nexed comparative Statement of the collections charges and Net Revenue be submitted to Govern= =ment and a transcript of the same be forwarded to the Collector of Malabar for his information and guidance.-

Ordered thereon
52-53

Ordered to be communicated for the information of the Collr. of Chinglepat with reference to the Court's Proceedings dated 13th Decembr

5227 Fort St. George 8th April 1850.

Resolved that the following letters be dispatched.-

54

To the Chief Secretary to Government.

Sir,

I am directed by the Board of Revenue to request that you will submit for the orders of the Right Honorable the Governor in Council the accompanying Statement exhibiting the Salt Wastage which has occurred in the several Salt Manufacturing Districts under the Madras Presidency during Fasly 1258.

Under the explanation contained in the Column of Remarks of the Statement now sent, the Board resolve to recommend that sanction be granted for writing off the Wastage of Salt Amounting to Candy 1,535 — 203 — Mercy 2 which bears a per centage of 4 15/16 on the quantity on which it occurred, and is below the proportion of wastage during the two previous years Fasslies 1256 & 1257.

Resolved that the following letters and Proceedings be despatched.—

To, The Collector of Masulipatam.

56

To the Collector of Masulipatam—

Sir,

I am directed by the Board of Revenue to remind you, that the Statements noted in the margin have not been received at this Office, and to request that you will be so good as to expedite their despatch.

Comparative Statement of the Sales of Salt for Home and Inland consumption for the Quarter ending 31st January 1850.

Statements of the value of Gold & Silver Bullion & Specie Exported & Imported for February 1850.

Revenue Board Office,
Fort St. George,
8th April, 1850.

(Signed) W. H. Bayley
Secretary.

21st inclosing 28th March 1850.

Read Demand Collection & Balance Statement for February 1850 from North Arcot.

Proceedings thereon.

57

The Board observe as stated in the Column of Remarks of the above Demand Collection & Balance Statement, that the Treasury was not examined in February last as both the Collector and his Assistant were out in the District on Jummabundy. Altho' the strict rule laid down by the Board and Government requires

requires that the Treasury should be examined once a month, by one of the European Officers of the district, yet when one of them is not available for this service, the examination should be made by the Head Sirishtadar, or other Subordinate; but this course should not be pursued under ordinary circumstances, and the reasons for resorting to it should be noted on each occasion at the foot of the report.

*28th. February 1850.

Read Endorsement of the Sub Collector in charge of Salem reporting on the claims of certain inhabitants of the Village of Codagatoor and Colagatoor shewing the state of the funds now in deposit, originally granted for the celebration of a religious festival.

Acts 1158, 1260, 1836, 1600, & 1601/1849.

58

Proceedings thereon.

The Subcollector is requested to explain in what manner the shares of each of the Villagers are registered in the original Enamy accounts, how the lands are held and by

by whom they are brought under cultivation, and why under the late orders of 15th. June 1846 they were not made over to the parties entitled to hold them.

To, The Collector of Salem.

59

To the Collector of Salem — Sir,

The same to Madura

*Madura 10th. September

With reference to their circular of the 19th. April and Proceedings of 29th. October 1849. I am directed by the Board of Revenue to request that no time be lost in forwarding the Return of all Estates which have reverted to Government & &c. since the Permanent Settlement.

Revenue Board Office, Fort St. George, 8th. April, 1850 — (Signed) W. H. Bayley Secretary.

To, The Collector of Tanjore.

60

To the Collector of Tanjore — Sir,

I am directed by the Board of Revenue to observe, that the Monthly Registers of Petitions from your District for 4 Months Viz. from October 1849 to January 1850 were

were despatched on the same day, 25th Ultimo, and to point out that the object for which documents are furnished is defeated by this delay in their transmission. The Board desire that all periodical Returns may be despatched if possible within the periods prescribed by their Circular Orders.

Sanctioning Statements of Ordinary Charges incurred in several districts in Fuslies 1256. 1257 & 1258. and the Estimated disbursements in Fusly 1269 — directing the Board to reconsider the revised standard for Sea Customs Saderwared in Malabar and to desire that Collr. to use discrimination in giving reward for the destruction of Wild Beasts.

List of Statements of Extra Charges incurred in Fuslies 1256, 57. and 58 by the Collectors and Magistrates, and of the Estimated disbursements for Fusly 1259. submitted with the remarks of the Board of Revenue under date 31st January 1850.—

| | Rs. | A. | P. |
|---|---|---|---|
| Fusly. 1256 | 69 | 9 | 10. |
| " 1257 | 3612 | " | 10. |
| " 1258 | 24669 | " | 11. |
| Total Rs. | 56380 | 11 | 7 |

5241 Fort St. George 11th April 1850.

Six thousand, three hundred and fifty, annas Eleven and Pice Seven and also the estimated disbursements for Fusly 1259. amounting to Rupees (5740-4-11) Five thousand seven hundred and forty annas four and Pice Eleven, being exclusive of the sum of Rupees 455 the value of Woollen for Deloyet Jackets and Belts which the Board have instructed the Principal Collector of Coimbatore to obtain by Indent on the Superintendent of Stationery.—

Statement No. 153 Item 5 Coimbatore District.

2. In Para 3 of the Board Proceedings it is remarked that no provision was made in the Standard estimate sanctioned on the 18th November 1834. for saderwared Charges in the several Departments of Salt, Sayer, Sea Customs and Tobacco, but this is an oversight as the sum of Rs. 794-15-2. was sanctioned for the saderwared of these Departments on the above Date. The amount now proposed by the Board Rupees 632-1-6 falls below the Standard of 1834. by Rupees 162-13-8. and corresponds with

| | |
|---|---|
| Sanctioned 1834— | 794-15-2 |
| Now Proposed— | 632-1-6 |
| Differance— | 162-13-8 |

5242 Fort St. George 11th April 1850.—

with the actual expenditure of Fusly 1257. Adverting however to the fact that the greater part, Rupees 476-7-7 of this expenditure was in the Department of Sea Customs and that Act VI 1848. which has effected such changes in this branch of revenue, did not come into operation until the 25th March of that year or nearly the conclusion of Fusly 1257, it seems to the Government that a standard of Saderwared framed on the actual disbursements of that Fusly would be too high, The Board are therefore requested to reconsider the subject and with due regard to the alterations produced of Act VI. 1848. and to any other charges which may have occurred since the fixing of the Original estimate of 1834, to sanction such a revised Standard as under all circumstances may seem to them to be required for the regulation of these charges in future.—

3. Sanction is granted for the payment

Fort St. George 11th April 1850

payment of the rent of the under-
-mentioned Buildings, as a fixed
charge, at the following rates, which
will be in force so long as the present
arrangements may continue at the
respective Ports.—

Custom House at

Atty pooram at one (1) Rupee per mensem

Quilandy Two (2) Rupees " "

Cannanore Five (5) Rupees " "

Additional Godown at

Cannanore Two and a half (2½ Rs. " ")

4. The Governor in Council observes that a charge of Rupees 5,366-8-1 was incurred in Fusly 1257. for the destruction of wild beasts in Malabar, and a sum nearly as large was disbursed in the preceding year. The Board of Revenue will call the attention of the Collector of Malabar to this circumstance and will desire him not to give rewards indiscriminately without reference to the localities in which the animals may be killed, but to restrict the grant to wild beasts destroyed in those places in

Rs. 5280-

Fort St. George 11th April 1850

in which their number, if unchecked, would be attended with danger to the lives of the inhabitants.—

Coimbatore Statement No. 3121 Item 3 Rs. 3156-3-5

5. The Charges on account of 9 Elephants for working the Anna-
-mallie Forest in Coimbatore should in future be submitted for the sanction of Government in the Marine Depart-
-ment with reference to the correspond-
-ence noted in the margin.—

F. Bd. of Rs. 24th October 1844 No. 291

Min. Cons. 14th Nov. 1844 No. 368

F. Bd. of Rs. 29th Jany. 1845 No. 67.

Mem. of Cons. Mr. Dept. 3d March 1845 No. 69

F. Pt. Coll. of Coimbatore 12th May 1845 No. 69

Order thereon 30 May 1845 No. 414

6. The Belts for the Huzzoor Jemadar and Duffadars estimated by the Collector of Salem at Rupees 39-2-" would appear to be of the more costly description provided by the Col-
-lectors of Cuddapah and Bellary to which the sanction of Government was refused. If so the Board will instruct the Col-
-lector to restrict the expenditure to such an amount as may be actually ne-
-cessary for providing Belts of the ordinary description—any charge beyond this must be defrayed by the Collector himself.—

Bellary Rs. 36-3-"

Cuddapah " 45-10-"

Proceedings

5245 Fort St. George 11th April 1850

Proceedings thereon.—

Resolved that copy of

(1-2) Paras 2-3- and 4 of the foregoing Extract Minutes of Consultation together with the Boards' remarks on the Collectors' Statement of Charges incurred without Estimate for Fasly. 1257, be communicated to the Collector of Malabar for his information and guidance. Mr. Conolly will be pleased to submit revised Estimates of Saderawad in accordance with the instructions contained in Para 2. and will omit the charges alluded to in Para 3 in his future statements to the Board. He will be careful that the future rewards given for the destruction of Wild Beasts are not paid indiscriminately and will restrict the amount as directed in Para 4.

Resolved also that Copies of Paras 5. and 6 be furnished to the Acting Principal Collector of Coimbatore and Collector of Salem respectively, for the guidance of those Officers.

(3) From the Chief Secy. to Government.

Extract from the Minutes of Consultation Public Department Dated 20th March 1850. No. 238.

Appointing a Central Committee at the Presidency and Local Committees in the Districts in connection with the projected Grand Exhibition of Industry to be held in London 1851 and directing that

Read the following letter from the Officiating Secretary to the Government of India—

Here enter 22d February 1850—

Para 1. In order to carry out the objects contemplated

5246 Fort St. George 11th April 1850.—

that Residents Political Agents and Collectors explain to all parties of influence the nature and objects of the exhibition and press upon them the desirableness of affording their best aid towards the same.—

contemplated by the Honorable Courts Despatch to the Government of India dated 9th January No. 1 of 1850, in connection with the projected Grand Exhibition of Industry to be held in London in 1851. and in obedience to the instructions contained in the foregoing letter, the Right Honorable the Governor in Council resolves that a Central Committee be formed for the Presidency and Local Committees for the several Districts hereafter mentioned, to each of whom a Copy of the Honorable Court's Despatch and of its enclosures will be furnished together with a copy of the instructions of the Supreme Government now received, to which the special attention of the several Committees will be requested.—

2. Residents, Political Agents and Collectors will be requested to explain to the Native Princes, Zemindars and other Gentlemen of influence with whom they have intercourse, the objects of the Exhibition and press upon them the desirableness of giving their best aid

Fort St. George 11th April 1850

aid towards developing the resources of India by submitting to the Local Committee specimens of such valuable products of their respective countries as may be suitable and worthy of transmission to England.—

3. Departments and all Public officers will afford every facility to the Committee in the undertaking in which they are engaged, and the Right Honorable the Governor in Council trusts that all classes both at the Presidency and in the Provinces will cheerfully co-operate with the Committees in furtherance of that object.—

4. The following Gentlemen are requested to form the several Committees and they are empowered to add to their number if necessary — the Local Committees will correspond with the Central Committee and this latter body will make their reports to Government.

3-4

5

From the Secy to Government — Extract from the Minutes of Consultation Under date the 22d March 1850 No. 300.

Containing the observations and orders of Government on the Sevoy Jummah balances of the North Arcot District and the irregular manner in which these accounts have been kept and checked. Directing that the measures-

Read the following Extract from the Proceedings of the Board of Revenue 28th February 1850 No. 108.-

Para 1. The Right Honorable the Governor in Council concurs with the Collector of North Arcot that the Head Sheristadar has

Fort St. George 11th April 1850.—

measures for the due exhibition and control of these items which the Board appear to have taken be made known to the Coll.r of Canara and to other Collectors.—

has not furnished sufficient explanation of the omission of the Sewage Summa in the Monthly Demand Collection and Balance accounts, or of his failure to bring that omission to the notice of the Collectors under whom he served. It appears, however, that the omission is not wholly attributable to the Sheristadar, but was one of many defects in a lax and vicious system of accounts which has long existed in North Arcot, but is now, it is hoped in course of amendment. It seems, too, that the Sewage Summah has been similarly excluded from the monthly returns of many other districts, and under these circumstances, and as Mr. Bourdillon represents that some improvement has been effected in this account Department since Sooba Row has been at the head of it, and as both the Collector and the Board of Revenue fully acquit him of having designedly kept the balances in question from the knowledge of the

Board's Proc.s 28th Febry P. 2.

Fort St George 11th April 1850.

Officer lately in charge of the District the Government will not notice the Head Sheristadar's conduct further on the present occasion. The Collector will however warn him that he is expected to exert himself to the utmost in reforming the present very unsatisfactory state of his Cutcherry, and that any future remissness on his part will not be overlooked.

2. The remarks of Mr. Bourdillon in Para 3 of his letter relative to the Boards Cutcherry were unasked for and the Government do not approve them, but they are not altogether prepared to admit the explanation given by the Board. The Para (12) of the Circular to which they refer does not appear to bear the construction put upon it and the circumstance of the Collections only of Sewage Summa being reported annually does not afford a valid reason for no enquiry being made as to the balances, for the entire demand could hardly be supposed to have been realized. Again

28th April 1825.

the

the fact noticed by the Board of a large portion of the balances having recently been written off by order of Government does not disprove the Collector's assertion that a considerable loss has been sustained from the irregular manner in which the accounts of this branch of revenue have hitherto been kept and checked as it is probable that a great proportion of what was ultimately remitted would have been realized had the demand been duly brought to account and means adopted for its enforcement, and there seems nothing in the character of many of the items which should have prevented this being done. The Government will not however pursue the subject as the Board appear to have taken the requisite measures for the due exhibition and control of this source of revenue for the future.

Vide Statement No. 1 in Collector's letter of 28th August 1849.
No. 1 Land cultivated after the Summalundy — 14322-12-7
20 Teervah of Reddy and Curnum Enams in excess of the amount fixed — 8562-0-2

On this point however it may be remarked that the Collector of Canara with his report on the Settlement of the past Fusly has submitted a Statement

Para 28 of the Collections of the Sewaye Jumma only observing that "it does not seem practicable to enter any balance in the Statement there being no fixed demand on account of this head of Miscellaneous revenue" It is presumed that the Board have furnished the necessary instructions to Mr Blane on this point and to any other Collectors by whom like difficulties have been experienced..

7

From the Secy. to Government - Sanctioning the disbursement by the Collr. of Tanjore of Rs. 15 the estimated value of grain damaged by the encampment of the 2d European Light Infantry.-

Extract from the Minutes of Consultation, under date the 26th March, 1850- No. 313-

Read the following letter

To J. Pycroft Esqre.
Secretary to Government
Fort St George

Sir,

In consequence of there being no - uncultivated

uncultivated land in the vicinity of Tanjore on which the 2d European Light Infantry encamped on their March through to the Coast, I was obliged to make over a spot on which grain and other grain was growing, the loss to the owners being estimated at Rupees 15 I have therefore the honor to request sanction may be given for charging this amount in my Accounts.

Tanjore, Cullum, 15th March, 1850. } /Signed/ J. F. Bishop Collector

The Right Honorable the Governor in Council authorizes the Collector of Tanjore to charge in the Accounts of his District, the value of grain damaged by the encampment of the 2d European Light Infantry estimated at Rupees (15) Fifteen. It is however observed that the application should have been made thro' the Board of Revenue.

Sir Hy. le Montgomery Bart
Chief Secretary to
Government -

Sir,

Para 1. The Collector of Rajah-mundry has submitted a proposi-tion in the accompanying letter+ for farming out the Collections of the duties levied at the frontier Chowkies surrounding the French Settlement of Yanam instead of keeping them as heretofore under direct management.

+ Dated 11th February in Fort 14th March 1850

The

2. The reasons assigned for this measure are that the charges are more than double the revenue received, that there is reason to believe the duties are largely evaded and that a renter actuated by a regard to his own interests may be expected to exercise a far more vigilant control, whatever increase is realized by the sale of the farm will be a positive accession to the revenue all charges being saved.

| Fusly. | Collections. | | | Charges. | | | Loss. | | |
|---|---|---|---|---|---|---|---|---|---|
| | Rs | A | P | Rs | A | P | Rs | A | P |
| 1256 | 606 | 1 | 2 | 1,550 | 1 | 5 | 944 | . | 3 |
| 1257 | 679 | 8 | 4 | 1,533 | 13 | 6 | 854 | 5 | 2 |
| 1258 | 883 | 12 | 8 | 1,548 | 4 | 2 | 664 | 7 | 6 |
| Total | 2169 | 6 | 2 | 4632 | 3 | 1 | 2462 | 12 | . |

Mr.

3. Mr. Prendergast's plan appears to be very deserving of attention as a revenue measure for the reasons above stated while it will be attended with the further advantage of obviating the occurrence of collision with the French Authorities which might arise from attempts to enforce a more rigorous collection of the duties under Amanie, I beg therefore to recommend its adoption from the commencement of the ensuing Fusly.

Commissioner's Camp,
Chicacole,
14th March, 1850.

/Signed/ Walter Elliot
Commissioner

/A true Copy/
/Signed/ T. Pycroft
Secretary to Government

To,
Walter Elliot Esqre
Commissioner in the Northern Circars
Vizagapatam.

Sir,

I have the honor to enclose a Statement A shewing the amount of Collections and charges at the Frontier Chowkies on the borders of the French Territory of Yanam during Fusly 1256

1256-1257 and 1258. My object in bringing this subject to your attention is to suggest that the duties levied at Neelapully and Injeeram should be farmed out. This will effect an immediate saving of about Rupees 664 per annum and will probably lead to a competition after the first rent has expired which will greatly increase the revenue derived from this source. The locality of Yanam affords so many facilities for evading our customs that unless a most unreasonable sum be allowed for the keeping up of an efficient establishment the people of that place will convey almost every thing that they require clandestinely from this territory. The Statement B exhibits the various articles on which duty both import and export was levied in those three fusleis, their quantity and their value. The

| Chowkies | Collections for Fusly 1258. Rs. A. P. | Charges for Fusly 1258 Rs. A. P. |
|---|---|---|
| Neelapully | 279-14-7 | 803-6-3 |
| Injeeram | 603-14-1 | 744-13-11 |
| | 883-12-8 | 1548-4-2 |
| Loss | 664-7-5 | |

Consumption

consumption of these goods by a population of about 4,000 or at the utmost 5,000 souls ought greatly to exceed the amount shewn in this Statement. If the Customs were rented out the vigilance of the parties interested would be much more efficacious in intercepting the clandestine traffic than a Government establishment however ably conducted and supported. Yanam has the Godavery and its creeks on three sides and the frontier line on the fourth is very irregular. At one spot stands a house half of which is in our territory and half in the French. The Village of Coompoolapollam is on the verge of it. The boats on the creek afford

on

easy mode of passing goods in and
out of Yanam - Those on the Godavery
convey tobacco and other valuable
products by night into the town. The
passes of the Chief de Service lodged
in our custom house shew that prin
goods are exported on French Ves
in much larger quantities than the wh
of Yanam can possibly manufactu
Opium and Tobacco are procurable
at a cheaper rate in that town
than in the neighbouring places in
our territory and many other article
of consumption are priced very moder
tely. The smuggling system therefor
is highly profitable to the French whilst
it is detrimental to our traders and
entails

entails on our Government a needless
expenditure of Rupees 1,548 per Annum.
If the customs be farmed for a moderate
sum the duties will be collected without
any inconvinience to the French and
when competition for the rent shall have
raised it to a sum corresponding in
some degree with the amount of
charges now incurred it will perhaps
be advisable to revert to the Amany
system..

To
T. Tyeroft Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir

(24)

From the Asst Collr. of Bellary — submitting his Report on the revision of the Assessment required for the Goodlem Talook called for by the Board under date the 11th June 1849.

I had the honor to receive the Board's Proceedings of 11th June 1849 in reply to my letter of 5th December last reporting on the revision of the Assessment in the Bellary District, in reference to which the Board have directed me to submit a Double of the reductions I would propose to make in the Goodlem Talook as a measure of temporary relief, until a more mature Scheme, may be determined upon. After the despatch of my letter in November last, I made particular and Minute enquiries during the Summundy in December and January last into the state of the Goodlem Talook especially, and prepared Accounts explanatory of the measure of relief, I think necessary to

Fort St George 11th April 18

to recommend. I shall therefor
proceed at once to submit the fig
=ation I have to make for that
giving such information as th
subject seems to call for. I can
not, I am satisfied after much
enquiry, propose any method of g
the necessary relief more effectua
more advantageous to the Gover
=ment and the tenant and in eve
way more satisfactory than th
one I now submit, and being firml
convinced that every year that
without the application of the
required remedy does but add
the difficulty by impoverishing
Ryot and endangering the Gover
=ment Revenue, I trust my prop
=sitions will approve themselves
the Board and that I shall be
favoured with their orders for
carrying them into immediate
effect—

2. A short statistical

Fort St George 11th April 1850

account of the Talook may not be
here inappropriate— The Talook of
Goollem is situated in the Centre
of the extensive Regud or Black—
land plains of the Bellary Dis=
=trict. It is almost exclusively—
regud and has scarcely any reser=
=voirs or channels for Cultivating—
Purposes— The Black lands are—
principally Cultivated with Cotton
and 2 Species of Jawary or Jonna=
=loo— The whole Assessment on the
Land, Circar and Enam, Amounts
to 6 Rupees 7,64,451— and the Annual
Government Revenue from the time
the Country was Ceded to the—
British Government is noted
below as is also the Population
according to the Censuses taken
at different periods—

There

Fort St. George 11th April 1850.

There are at the present time 4,649 cultivating Ryots holding separate Pattas from Government The farming stock is estimated to be Ploughs 4510 - Cattle 19,262 Sheep and Goats 17791 - There are no Manufactories and the Population may be called Agricultural - There is but one market Town in the Talook, but the farmers dispose of their produce generally either by taking it to the more distant Towns of Bellary, Adonie or more usually by making it over to Merchants of their own or neighbouring Villages in repayment of advances There are very few Ryots who are not deeply involved in debt -

3. During the rents or from Fusly 1219 to Fusly 1231, Viz.t. 13 years the Renters paid no regard to the survey Assessment in farming the lands - The Crops and Prices having however been favorable, many Villages were at that time, in a prosperous state, a few suffered,

Fort St. George 11th April 1850.

in consequence of the arbitrary exactions of the Renters - Under the beneficial operations of Cowle liberally allowed the Cultivation of Goollem progressively increased after it reverted to Amanee -

4. The great extent of Enam and the operation of Cowle assisted by Tuccavi together have been the saving of the Talook, but now that the latter has ceased and the Cowle become subject to full tax, the Talook is unable to bear the burden - The assistance from Enam by itself is not sufficient to counteract the pressure of increased taxation - an evident proof that the field Assessment has been made much too high in this Talook as elsewhere, the principle of a field Assessment being I believe that each field or at least 2 or 3 comprised together should be able to bear the Assessment without aid from other sources - The falling

| Amount of Tuccavi Rupees | | | 4,650 |

off

off in the price of all produce has also hastened the impoverishment of the Ryot who with high tassed land imposed on him in lieu of much land for which he paid nothing is undoubtedly sinking under the burden—

5. The Black lands of which as before said this Talook is principally composed, are distinguished into 4 different Classes Viz.—

1 Tockada Lands and Ayen Regud consisting of

Ayen Regud { 2 Kristna Regud
3 Tsowd Regud
4 Poospee Regud

The Tockada land is the black land in the immediate vicinity of the Village. The different kinds of Nutt Grass which the Board are aware rapidly spread in the black lands are of quicker growth in the Tockada lands, and consequently they

require greater care and more labour bestowed on them, and it is necessary to plough them with the heavy Plough every 2 years to keep them clean. But when the Ryot is substantial and is able to bestow this care and labour on them they yield abundantly if the rains are favorable. But the depressed state of the Ryot owing to the heavy assessment has prevented the Ryot from properly Cultivating much of this land from want of means to incur the necessary expense to render it profitable. These lands well manured and properly cleaned every 2 years will continue productive and need never lie fallow.

The 3 descriptions of Ayen Regud lands are different from the Tockada in as much as they are generally situated at a distance from the Village. The finest land is

Fort St George 11th April 1850

is the Kristna Regud which is a rich black fine mould and abounds only in a few Villages. The Tsoud Regud is mixed with soda and salts and is not nearly so productive as the Kristna. The Poopjee Regud is a gravelly black soil and poorer than either of the other soils. The Ayen Regud soils when once properly cleared with the greatest Plough of the Nutt Grass require comparatively little labour for 15 to 30 years according to their qualities, but after these periods they become exhausted and require to lie fallow for many years. The Tockada and Kristna Regud may be classed together as of equal Value in reference to Assessment. The Tsoude Regud next, and the Poopjee Regud last, being perhaps as about 8, 5 and 3

Fort St George 11th April 1850.

in comparative value.

7. The Goollem perhaps as remarked, contains the finest Black land there cannot be a question that it has been too highly rated. In Comparing the rates of this Talook Black lands with those of the same Class of lands in other Talooks it will be seen from the annexed Memorandum how great an advantage other Talooks have in respect of Assessment generally. and the difference between the Assessment in the Goollem Talook Villages bordering on some of the finer and precisely similar lands of the adjoining Talooks is very remarkable.

8. In the Abstract Decteur Statem above, the disproportion I speak of betwee Goollem and other Talooks will at once seen. I have thrown it into 6 Classes an again subdivided it into two parts eac containing 3 Classes of higher and lowe assessed lands. In the 7 Talooks there are 136,855 Acres of Regad highly assess that is above 4. 3 and 2 Rupees. Of the amount 69,582 Acres are in the Goollem Talook alone while out of 705,147 Acres of Lands assessed under 2. 1½ and 1 Rup 127,533 Acres, are in the Goollem Talo and of this even 86,000 Acres are of the two highest rates of this 2. Subdivisio I have added at the bottom the propor of the higher and lower assessment i each Talook. It will be observed tha in Goollem the higher assessed lands those above 2 Rupees are 32 per Centage 68 per Cent of the lower assessed, while each of the other Talooks the proportion is as low as 4 to 96. and in no case high than 16 to 84 and even in the lower assess lands it will be further observed, tha in Goollem the lands are equally divided between the 3 rates, while in the other

Talooks the greater proportion of the lower assessed lands are in the very lowest rate, viz. under one Rupee. This statement will I think quite bear out the assertion that the Black lands of Goollem have been comparatively far too highly assessed and may fully account with other circumstances for the present declining state of that District. —

9— And now with regard to the concluding remark in para 7 on the Comparative assessment between the Goollem Villages and those immediately adjoining them in the next Talook, if the Board will be so good as to cast a glance at the Bellary Map, they will see the following 10 Villages among others situated East of the Higgary River in the Extensive Black lands plains between the latitude of 15° 10' and 15° 30'. The 7 first are in the Goollem and 3 last in the Punchapallem Talook, all Villages containing the finest black lands. The average rates of all the Black lands in these Villages are as follows, and the difference between the rates fully accounts for those of the one Talook being in a Comparative flourishing state, while those of the other are struggling under great difficulties, the lands of both and all other advantages and disadvantages being equal. —

Rs a p
Viz.t 1-15-1 per acre on the land
cultivated and 2-1-10 on the waste
land while in the 3 Villages of the
adjoining Talook whose lands borde
on and are only divided from the
other Villages by an arbitrary borde
the assessment averages Rs a Ajacent Villages Rs a
1-5-3 3-1-2
Rs a Waste
1-8-8 per acre respectively.-

10. The Plan I propose to
adopt for alleviating the Ryot and
arresting the rapid decline of the
Goollem Talook is to revise the assess
=ment by lowering those rates which
I consider as too high - and some of
the preceding observations will I trust
satisfy the Board as to the cor=
=rectness of my opinion - To enter
upon an entirely new assessment
of Fields in every Village upon an
actual examination of the land and
enquiries into its fertility and
capabilities would, I am convinced
be a very laborious, expensive and
fruitless task. To revise merely the

existing assessment may be done
without much difficulty in several
ways - Either 1st. by giving a general re=
=duction of a certain per Centage on all
lands - This is an easy, but would
prove I fear, by no means a satisfactory
method; for the object, Viz.t a revision
of assessment, sought for would not
be obtained, the relative value of
the lands would remain the same
and remissions would be granted
where not required, while further re=
=missions in many places would
still be called for. another Plan is
to give a general Per Centage on some
particular classes of the higher
assessed lands - This is still open to the
same objection as the former method -
It would not give sufficient re=
=duction in most cases and the finest
lands would still from over assess=
=ment be left uncultivated - While
it would also have the effect of
lowering the rates of some lands
below the rates of other which are
now the lower of the two, a third
plan and the one which I propose
and

and which a minute investigation into the subject compels me to adopt as the only really good plan is to reduce all the High Rates above a certain standard with a very few exceptions, to one rate - Full enquiry into the subject has satisfied me that 1½ Rupee as a general rule is the highest assessment that ought to be levied upon the black lands in the beds of small Tanks, where there is great moisture the land will bear an assessment of 2 Rupees which I propose should stand as the maximum of lands so situated and where I have recommended 1½ Rupees it is upon the very finest lands in a very few Villages which are in a condition to pay it, and where it seemed unnecessary to sacrifice the revenue to a greater extent - It will also be observed from my Statements that I have proposed to reduce lands now assessed between 1½ Rupee to the standard of 1 Rupee - In making

my enquiries I found certain very poor lands in some Villages chiefly waste, as will be seen by the account referred to in para 16 below 1½ Rupee, the assessment of which requires alteration, and I classed them accordingly into one rate Viz.t 1 Rupee - But in carrying my plan into effect I should consider it quite necessary again to go over this ground and I should then make 2 rates, Viz.t 1¼ and 1 Rupee - And in lands now assessed below 1½ Rupee for the sake of condensing the rates I would request the permission of the Board to be allowed to raise some where it could be properly done, and with the consent of the ryot, (who would doubtless have no objection where he gained by lowering his higher assessed land) These two last mentioned propositions would reduce the amount of the anticipated loss upon my plan as now submitted which is merely a Dowle. The rates would then throughout be only

only eight Viz. 2 - 1¾ - 1½ - 1¼ - 1-¾ - ½ - ¼ instead of as now 55 in number. All rates below 1 Rupee (15 Deets in Number) being included without loss in one or other of the 3 last rates This is an outline of the measure now proposed -

11 In the generality of cases where the assessment on any particular fields was made very high at the survey it may safely be affirmed that it was so made not because of the comparative value of the land but because the individual was then in a condition to pay it - There is no other way of accounting for some of the exorbitant rates that have been imposed on certain fields and this I consider as sufficient apology for the great reduction that in a few instances will have to be made of the higher rates in bringing them down to the level now proposed. -

12 This measure fairly carried out will doubtless arrest the

decline in the greater part of the Villages and in a few years, the loss will I am satisfied be made up by bringing under Cultivation lands now left waste owing to the high assessment on them - But however satisfactory this assurance may be I do not urge it as the reason for granting the remissions now absolutely required - The Villages are many of them on the very brink of ruin - a bad season or two would entirely destroy them and therefore the greatest care is requisite not to force the cultivation - At the present moment it is kept up with considerable difficulty and I may say with confidence, that any relaxation in favour of the Ryot so as to allow him the liberty of throwing up his lands would entail an immediate loss of far more than it is proposed now to give up - and what would be the consequence? these lands once so thrown out of Cultivation could not be recovered again for many

years

The assessment is proposed is lighter in reality than in name

years even if the reduction were hereafter given instead of now; whereas if the reduction is now given the Ryots will heartily set to work not only to keep these lands but to their means improve be ready to break up the lands now waste. This should be particularly noted. For if the reduction now demanded is not granted there is but one other resource Viz.t. to allow the Ryot further or at least, for greater liberty than he now has, the consequence of which will be a heavy and irrecoverable loss to Government. Whatever loss, the contrary may be sustained by revising the assessment is not only recoverable, but there is every probability of its being soon recovered.

13 It is my intention that all the lands cultivated and waste should undergo the same revision. There will then be no seeking after easy assessed waste in preference to high assessed cultivation. The best lands will be kept in

cultivation which is evidently as much to the interest of Government as the Ryots. In some places the waste lands at the Survey were not assessed so high as the then Cultivated lands. The intrinsic value of the land might have been the same. The consequence is that the old lands being exhausted have become covered with Jungle, and the new and more easily assessed lands have under the operation of Cowle been occupied in lieu of them, and if the two were compared together and be reassessed, the new lands would be the more heavily assessed. Of course it is impossible to expect any Ryots will resume the old lands unless they are reduced in assessment. It is therefore proper that all the lands whether cultivated or waste if too highly assessed should undergo the same process.

14. The Statements which accompany this report will show in detail the result of the proposed measure. The first is a Dectwar Statement of all the lands in the Goollem Talook

Talook - It is divided into 3 parts or Schedules A B and C. In Sche: dule A are composed all the lands of those Villages (26 in Num: ber) which are considered to be in the very worst state. In B are comprised 32 Villages which the suffering more and more every year are not considered so bad as those in A, and in C are the re: maining 40 Villages which are gene: rally in a prospering state. Each part shews the rates that have al already been somewhat modifi: ed by the former Principal Collec: tor Mr. Robertson and those that have not whether in the same Vil: lage or not. The New rates which will have to be substituted for the Old, and the consequent reduc: tion, which under the operation of this Plan will have to be made on each rate is fully exhibited in detail.—

15. The accounts and in company Rupees

Rupees. The Original Survey assessment was made in Canteroy Pagodas and in Tranams and Annas. I have entered a Column to exhibit this and the equi: : valent in Rupees follows. The 3 first Columns are the Jarwar rates previous to the general Remissions established in in Fasly 1232 A.D. 1822/23 - Column 4 shows the Net Vasooli after that remission and all the rest of the Statements is Vasooli or net assessment.—

16. The Statement No. 2 is a Mouzawar account shewing the present and proposed Ayacut and Cultivation in each Village. It is classed as be: : fore into 3 schedules. These two State: : ments exhibit Deetwar and Mouza: : war the result of the proposed mea: : sure. It shows that if the reduction is carried out through the whole Talook there will be a reduction upon the present actual Revenue Viz. on Rupees 1,63,421 of lands now under Cultivation, of 33,760 Rupees (Column 36); and that on waste

lands

Fort St. George 11th April 1850.

lands amounting to Rupees 1,43,847 (Column 22) there will be a reduction of Assessment Amounting to Rupees 38,285 (Column 35). The first will be a real loss. The other will afford the means of a gradual and I apprehend, a sure increase, by enabling the Ryots to reoccupy this waste on a moderate assessment. I annex an abstract from the abovementioned Statement to shew the amount of loss in each of the 3 Schedules on each of the rates it is proposed to establish. The estimated

Statement No. 2 Col. 28.

Fort St. George 11th April 1850.

estimated loss Viz. 33,760 would be reduced a few thousands by the modification of the rates below 1½ Rupee as proposed at the close of Para 10.

The Proportions between the Land Sag and Bunjer in the 3 Schedules as also the average rates of assessment between the Sag and Bunjer is worthy of notice. There is invariably a larger proportion of waste in the Villages according to the order of the Schedules and the cultivated land in each is on the average lower assessed in the 3d. and 2d. than in the first Schedule.

The

17. The amount that will have to be reduced on the present actual Revenue of Rupees 163,421 on those Villages which are considered to be in the worst condition will be 17,575 Rupees. This amount under any circumstances in one or other mode of remission is imperatively and immediately called for, and in the 2d class of Villages the amount Rupees 9,191 tho' smaller is scarcely less unwanted and as I see no mode more preferable of granting the remission than the one I have proposed, I trust the Board will authorize me to carry it into effect, and I would not make a difference in those remaining Villages which are at present in a prospering state, as regards the highly assessed lands in them much of which is uncultivated. They will claim to be put on an equal footing with the others and it would be inexpedient to make a distinction. The loss in them would be 6994 Rupees. The principle is the same. The higher rated lands are throughout too high not only in Goodlem

but

In South arcot the reduced highest rate on Ryotpat is 6-12-0 Carry

How much?

but in all the other Talooks, and wherever found should be reduced to the standard. The Board will not fail to bear in mind that the principle is also to be applied to the waste lands, upon which as above seen the reduction will amount to 38,283 Rupees; but this is no loss. It is in fact a great move towards an increasing revenue. for the Board may rest assured that these lands with their present high assessment will never be brought under cultivation.

18. Indeed I scarcely view the whole amount of present remission in the light of "loss or falling off of Revenue." The Bariz of the Gooddem Talook under the operation of the Cowle has been so greatly increased / as may be seen by the annual Revenue Statement before annexed / that it is hardly correct to look upon the proposed reduction as a loss. It is rather

relinquishing

relinquishing a part of the gain that ought to have been given up when the large increase by Cowle many years back was obtained. (as more than the Talook was able to bear. It was foreseen by Mr. Roberts on and has ever since been demanded.—

In fusly 1210 the revenue was 67,573

1230 ——— 115,969

1250 ——— 193,837

and in the next year it rose to its highest point upwards of 2 lacs; and quite unable to bear any thing like that assessment the lands have since fallen out of cultivation and will continue to do so; The present revenue is ..... 1,85,111

the proposed reduction is ..... 33,760

leaving about 1½ lac of Rupees as the assessment that the Talook is able to bear. This is considerably more than it paid even with all the advantages of the Cowle until those new lands came under full assessment in fuslies 1243 and 1244 and in the present prospects of the country it is fully all that should

The enhancement was not retained on account of the Talook

West Cowle

should be assessed.—

19— I am afraid I shall not be able to prepare accounts of each Village from fusly 1210 to the present time embodying for each Village all the information that the Board have called for in para 5 of their Proceedings now under reply but much of the information is contained in the Statement No. 2 already referred to, and I have had the Statement No. 3 of the Annual revenue from the earliest time in each Village drawn up classing the Villages according the Schedules A B and C before referred to, and also a General Revenue Statement No. 4 of the whole Taluck from the earliest date in which are exhibited all the usual Statistical & agricultural Details. These Statements will perhaps answer the Board's purpose and render unnecessary the preparation of further details. Having given much

attention to the subject of this report, particularly as the Tummahbundy I had prepared the information I had thought necessary to communicate to the Board previous to the receipt of their instructions which were received only last Month; and I certainly would not recommend any deferring of the measure of relief which is now proposed and which has been so long called for.

20. Another subject connected with the assessment of the lands seems to demand notice. I refer to the assessment on the Enam lands. These lands which are in great abundance in the Black land Districts were assessed similarly to the Circar lands and perhaps more heavily. Now it is right to enquire what revenue is really derived from the Enamdars, for if the Cultivators are able to pay the assessment on these lands it would fairly be asked why cannot they pay the Circar assessment. But this is by no means the

Case

Case; no Ryot pays an Enamdar the assessment fixed upon the land. It is perhaps difficult to state the exact amount received by the Enamdar for his land, but I believe on the best information I can obtain, that it rarely exceeds One Rupee per acre for the best sort of Black lands and generally not more than half or a quarter of a Rupee is obtained. I would propose to deal with the Enam lands as with the Ceircar and reduce the Enam nominal assessment to the same rates that it is proposed to reduce the Ceircar lands.

21. In this report I have confined myself entirely to the Goollem Talook as directed by the Board. In the latter part of their Proceedings the Board have however most justly observed that the facts stated by me in my letter of 18th November last bear me out in my opinion that a general revision of the assessment is required, an Opinion which

which has been entertained by every revenue Officer since the Survey was made as well as by Colonel Munro himself and I may as well here inform the Board of what the result would probably be of a similar modification to that now proposed for Goollem if carried out generally in all the Dry lands of the District. I have not given my particular attention to any revision of Irrigated lands but the principle of the revision proposed for Goollem would be equally applicable to Dry lands universally throughout the District. From a Deetwar Account prepared in Fusly 1247 the following Doubt may serve to show an approximation to what would be required by following out the plan proposed for Goollem in all Dry lands for the whole District.

Fort St. George 11th April 1850.—

22 The reduction of the Survey net rates would according to the Dowle on the whole, including Goollem, amount to Rupees 3,16,331 but nearly half of this would be on waste lands capable of being redeemed. The net loss in all being about 1,70,000 Rupees on Dry cultivation. But this is a mere Dowle each Talook would have to be minutely investigated — and I trust the Board will be pleased to order such an investigation as in my letter of 16th November last, I recommended with the view of finally disposing of the revision of the assessment.—

23. In conclusion I hope the Board will favor me with their instructions at an early date for carrying into effect the revision in Goollem as herein proposed.—

Bellary District Collectors Office on Circuit Harpanhully 31st July 1849.

(Signed) C. Pelly
Asst. Collector

L. & R.

To W. H. Bayley Esqre.
Secretary to the
Board of Revenue.—
Fort St. George.—

25

Sir,

From the Acting Collector of Bellary.—

No final orders having as yet been received on the subject of the Revision of the assessment in this District reported on in my letters of 16th November 1848 and 31st July 1849. I take the liberty of again bringing the subject to the notice of the Board, because the necessity of some measure being adopted for giving the long sought for relief becomes every year more urgent.—

Requesting the Board to take into early consideration his former letters on the subject of the Revision of the assessment which after Recapitulating the measures recommended in those letters he submits as being urgently required, in which opinion he is the more confirmed by the state of the Black land Districts as exhibited in the Settlement of the present Fasly Year 1259.—

2— In my letter of 16th November 1848 I laid before the Board a full Statement of all that had been done in regard to the Revision of the assessment from the time of Colonel Munro the first Principal Collector up to the present time. I showed that there were many Villages which had undergone no revision at all. That in other Villages the assessment had been only partially revised and that the Revision that had been made could not be

be considered as permanent and I express my opinion that the whole subject of Revision of the assessment should be carefully investigated and a well digested plan should with as little delay as possible be submitted for the approval of the Board. In the mean time I solicited sanction for giving at once such abatement of the assessment as appeared necessary in accordance with the permission originally granted to the Principal Collector in 1825 but which by the Minutes of Consultation of Government under date the 23d February 1827 had been withdrawn - In the opinion expressed by me in that letter that a revision of the assessment was required

See Boards Proceedings dated 11th June 1829-

the Board were pleased fully to coincide.-

3.

But previous to the receipt of the Board's orders I had commenced a minute investigation of the Assessment of the Black Lands and more particularly in the Goollem Talook; and in my letter of 31st July 1829 I submitted a plan

for making the revision in that class of Lands specially- After mature enquiry I came to the conclusion that I could not propose any method of giving the relief required more effectual, and in every way more satisfactory than the plan laid down in that letter and being convinced that delay in granting the remedy only added to the difficulty and endangered the Revenue, I requested I might be favored with the orders of the Board for carrying my proposed measures into immediate effect.-

4.

The principle of the Plan proposed by me was to reduce, both in Lands cultivated and Lands waste, all the high rates exceeding 1½ Rupee per acre net Sycoolie; to that rate with a few exceptions where the land from peculiar circumstances might bear a rate of 2 Rupees or 1¾ Rupees and to throw all the present Black Land rates in the Goolem Talook 55 in number into 8 Deets Viz. 2- 1¾- 1½- 1¼- ¾- ½- ¼.-

5.

This measure fairly carried out would, I said, arrest the decline in most of the over assessed Villages, and in the course of time I entertained a confident hope that the

Fort St. George 11th April 1850-

the loss would be made up while at the same time I showed that if the permission was not allowed the land once falling out of cultivation, all expectation of its being again reclaimed with the present high Assessment upon it, was vain.

6 Though my letter of 31st July 1849 referred almost exclusively to the Talooks of Goollem, I showed what would be the probable result of a similar modification in all the Dry lands of the District- and I requested authority for at once making a general revision of the Assessment; the necessity of which had been admitted by the Board; and this opinion was entertained by Colonel Munro himself as well as every Revenue Officer who has had any experience in the District since.-

7 I have been anxiously awaiting the orders of the Board to this proposition and the present years Settlement has only confirmed my views that no further delay should be allowed in carrying into effect the desired revision. The Board will pardon me if I again bring to their serious notice that this is no

Fort St. George 11th April 1850-

no newly discovered want- During Mr. Robertsons able Mangement the necessity was fully felt of something being done more effectually than he had yet attempted- The necessity was brought to the notice of the Board by Mr. Mellor and no one well acquainted with the state of the District can for a moment entertain a doubt on the subject-

8 I have just concluded the Settlement of the Goollem and Adonie Talooks for the present year, and I find the same anxiety on the part of the farmers to escape from their heavy assessed farms- The season it is true was late, and the ryot has availed himself of this excuse to leave large portions of his farm uncultivated- In the Talook of Goollem the amount of Cultivation below the cabooliat was 39.104 Rupees net assessment, and after making a difficult Settlement, the decrease in the amount of Land sown below last year, in which year the revenue was Rupees 9700 below the previous fusly, amounted.

| | Fusly. 1259.- | | |
|---|---|---|---|
| | acres- | Terrim | Varoli |
| Cabooliaty | 114378 | 270509 | 190668- |
| Sown | 119474 | 215198 | 151564- |

Fort St. George 11th April 1850.

amounted to nearly Rupees 20,000 Net Rent

9. There is no disposition on the part of the ryots which arises from inability to exert themselves in keeping their Assessed lands well cultivated. There is no demand for Cowle to break up waste land and what must be the result eventually but the gradual abandonment of the fine Circar lands and the certain deterioration of the revenue without any corresponding benefit to the ryot.

10. But on the other hand if the Assessment is made easy there will be no desire on the part of the ryot to give up really good land and the state of the farmer will improve with the steady improvement of the revenue, I trust therefore the Board will not deem me unreasonably importunate in again pressing the matter upon their serious consideration.

Bellary District Collectors Office on Circuit Admiee, 22nd February 1850.

/ Signed / C. Pelly
Acting Collector.

S.F.B.

Proceedings

Proceedings thereon.

Respecting the revision of the Assessment for the Goollem Taloork in the Bellary District.

Proceedings 11th April 1850 5 Dist. Vol. 1850 Mar. vol. 119

2426

24-26.

1. In his letter of the 16th November 1848 the Acting Collector of Bellary in reference to the remarks made by the Board in their review of the Settlement of that District for Fusly 1252, furnished information regarding the partial revisions of the Assessment which had previously taken place and proposed that a more full and minute investigation should be made into the subject without further delay. In particular he drew attention to the condition of the Goollem Taloork and expressed his opinion that unless some abatement of the Government demand were there allowed, the most serious consequences might be expected to ensue. The Board in their Proceedings of 11th June last, although in advertence to the discussion respecting the Survey of the Ceded Districts at present under the consideration of Government, they deferred entering upon the general question remarked that the case of the Goollem Taloork did seem one which required to be so urgent that Mr. Pelly's representations to be so urgent that they resolved to request him to submit a Double of the reductions which he would propose to make in that Taloork, and to accompany it with the necessary Statements in illustration.

The

Fort St. George 11th April 1850

The first paper recorded at the head of these Proceedings is the plan of reduction drawn up by the Acting Collector in conformity with those instructions.—

| | Acres |
|---|---|
| Total Ain Ayacut | 225,655 |
| of which Black Land | 189,261 |
| Mixed & Red | 35,823 |
| Irrigated | 571 |
| | 2,25,655 |

|---|---|
| Extent of land Ain under occupation in Fusly 1258 | acres |
| Black land | 126,145 |
| Mixed & Red Do. dry | 19,053 |
| Irrigated | 277 |
| Total | 145,475 |

2. In this he shews that the Talook of Goollem is situated in the centre of the extensive Regud or Black land plains of the Bellary District. It is almost exclusively regud and the cultivation Cotton and Red and white Gawary — The average revenue for the nine years Fusly 1210 to 1218 inclusive whilst under Amarnie including the Jody on Enams, was Rupees 1,07,968, that of the thirteen years. Fusly 1219 to 1231 inclusive comprising the triennial and decennial leases was Rupees 1,23,819, if the years which have since elapsed be divided into two periods of 14 and 13 Fuslies. the average for the first of these series will be Rupees 1,24,430, that for the last Rupees 1,78,406. If the last 8 years of all ie Fusly 1250 to 1257 be taken the Collections averaged nearly Rupees

Encls. N:4 Col 18-21-27-30.

Fort St. George 11th April 1850.

Rupees 2,00,000 per Annum.

3. This Talook it is also represented by Mr. Pelly to contain some of the finest black land of the District. In support of his opinion it is over aspersed he has attached to para 7 of his letter an Abstract Statement comparing the Teerwas of Regud land in the Goollem Talook with those of 6 other black land Talooks. Dividing the Teerwas into 2 Classes Viz I. 2 Rupees upwards II. 1½ Rupee and downwards, he shews that in Division I the Goollem Talook exhibits 32 per Cent of the Ayacut land whilst the others are from 4 to 16 per Cent. Average 15 only and draws attention to the fact that in the 7 Talooks there are 136855 Acres of Regud highly aspersed, (ie in Division I) and out of this 60,582 (or 44 per Cent) are in the Goollem Talook and that out of 7,31147 Acres lowly aspersed (Division II) 1,27,533 only or 17 per Cent are in Goollem.

4. The next circumstance adduced is that there are 10 black land villages lying near each other & the nature of the Soil

Fort St. George 11th April 1850

soil the same. Of those, 7 are in the Goollem talook and 3 in Punchapollam the cultivation and average Regud Berij of which may be shortly shewn as follows

| | Ayacut | | | Cultivated | | | Waste | | | |
|---|---|---|---|---|---|---|---|---|---|---|
| | Acres | As per Acre | | | Acres | As per Acre | | Acres | As per Acre | |
| | | Rs | a | p | | Rs | a p | | Rs | a p |
| 7 Goollem | 36,323 | 2 | " | 5 | 19,198 | 1 | 15 1 | 17,125 | 2 | 1 10 |
| 3 Punchapollem | 22,625 | 1 | 6 | 3 | 17,774 | 1 | 4 " | 6,851 | 1 | 8 8 |

Mr. Pelly states that "the difference "between the Rates fully accounts for "those in the one Talook being in a "comparatively flourishing state while "those of the other are struggling under "great difficulties."

Para 4 Cowle in Goollem since Fusly 1204 — Acres 94876 Assessment Rs. = 140167 Tuccavi Rs. 41660

5. In noticing the present declining state of the Talook, the Acting Collector observes [para 4] that the greater tent of Enam and the operation of Cowle assisted by Tuccavi have together been the saving of it hitherto but now that the latter has ceased, and the Cowle lands have become subject to full tax, the Talook is unable to bear the burden. The depreciation of late years in the prices of Agricultural produce has

Fort St. George 11th April 1850

has also, be observed, tended to accelerate this result.

6. The plan proposed by Mr. Pelly is shortly this. To reduce at once (without entering into a scrutiny as to the capabilities of each field) all the Deets or Rates above 1½ Rupee an Acre to that rate ie 1½ Rupee Net Vasooli: with a very few exceptions where rates of 2 Rupees and 1¾ Rupee might be allowed. As for the Regud lands now assessed at and below 1½ Rupee an Acre, Mr. Pelly proposes to amalgamate the various rates into 5, so that with the higher assessed lands there may be 8 Deets in all instead of 55 as at present The 8 being from 2 Rupees to ¼ Rupee an Acre, descending with a graduation of ¼ Rupee.

7. The result as to the total amount of reduction in the assessment will be seen in the Abstract Statement inserted in Para 16. The aggregate amount of reductions will be upon the entire Ayacut of the Goollem Talook Rupees 72,045. On cultivation of Fusly 1258 Rupees 33760. On the waste lands Rupees 38,285. but the loss of Revenue under these respective heads will be in some measure diminished by the modifications to be made in the Assessment of lands ranging from 1½ to 1 Rupee per Acre.

To

Fort St. George 11th April 1850.

| Present demand on Ryotwar land | Proposed demand on Waste Whole Cultivated land | Reduction on Waste Whole Cultivated land | Waste Whole Cultivated land | Waste Whole Uncultivated land | Waste Whole Uncultivated land |

Fort St. George 11th April 1850.

"account referred to in para 16 below 1/2
"Rupee the assessment of which requires
"alteration, and I classed them accord-
"ingly into one rate, Viz.t 1 Rupee" but
this is scarcely borne out by the ab-
stract of the account alluded to, which
is exhibited in the same Para 16. On
examining that abstract, the Board
find that of the total quantity of land
now assessed at rates from 1/2 to 1
Rupee (together with the 2589 Acres
of highly assessed land already noticed)
and intended to be reduced to the latter
standard being 54,805 Acres 30491
or nearly three fourths were cultivated
in Fusly 1258. In some particular
Villages the proportion of waste may have
been larger but upon the whole the
Board do not think that sufficient
grounds have been shown for disturbing
the existing assessment, especially as
the measure is one which has no direct
connection with the object more immed-
iately in question Viz. the remission of the
assessment upon what are said to be
over taxed lands.

10. The argument for the remission
of the rates upon the highly assessed lands
is those at 1/2 Rupee and above rests
upon

Fort St. George 11th April 1850.

upon different grounds namely the
large proportion borne by the highly
to the lowly rated land in Gool-
lem as compared with that
which obtains in other Talooks.
and the great difference observa-
ble in the rating of the lands
of similar quality in the adjoin-
-ing Villages of the Goollem
and Punchapollem Talooks,
as shewn in Para 9 of the
report. The following table,
compiled from Enclosures
No. 1 A. B. C. shews the different
sects of which the Wasso-
lee or net rate after
deductions of the Show-
tayee of 1/4 remissions and
remissions granted by
Mr. Robertson and other
Collectors, exceeds 1/2 Rupee
per Acre.

Fort St. George 11th April 1850.

It will be observed that the Deets range from 4 — 6 " and downwards — "In the generality of cases when the "land bears a high Assessment it may "safely be affirmed" says Mr. Pelly — "that it was so made, not because of "the comparative value of the land — "but because the individual was then "in a condition to pay it. There is no "other way of accounting for some of "the exorbitant rates that have been "imposed on certain fields" Such a procedure was at variance with the principles of the Survey, and Sir T. Munro's instructions. With regard to the extent of Land held on Cowle, the following information is afforded. The average extent of land so held for the 15 years Fusly 1234 to 1248 was Acres 2660 7. the assessment of which was Rupees 59092. the average quantity similarly held for the 9 years Fusly 1249 to Fusly 1257 was only Acres 10003, bearing a turn Assessment

Hookumnamah to Tahsildars P. 15.

J. C. B.

Fort St. George 11th April 1850.

Assessment of Rupees 25203 and the height of this average is owing to the extent of Cowle in its earlier years. The Cowle for the last five Fuslies, 1254 to 58, has averaged only Acres 1774. The general Manool & Cowle remissions have been as follows —

| | Cowle Rs | Manool Rs | Total Rs |
|---|---|---|---|
| Fusly 1234 to Fusly 1248 | 56199 | 41203 | 97403 |
| " 1249 to Fusly 1257 | 23617 | 61211 | 84828 |
| " 1254 to Fusly 1258 | 4032 | 61128 | 65160 |

It will be remarked that the Cowle remissions for the last 5 years have only averaged Rupees 4032. Still, though the revenues have diminished it does not follow that the resources of the Talook have diminished as the Collector states. It would rather appear that the Revenue has been forced up by encouragement to take land on Cowle, and now that it has arrived at full tide = -wash it has been thrown up. Mr. Pelly in para 4 of his letter of 31st July 1849 says "the great extent of Enam and the operation of Cowle, assisted by Succavy have been the = saving of the Talook," but the Board consider that they have rather been the means of giving an Artificial and temporary = Stimulus to the cultivation.

The

Fort St George 11th April 1850.

11. The first point that the Board have to consider is the urgency of the case, and in this they cannot altogether subscribe to the strong expressions used by the Acting Collector, in reference to the condition and prospects of the Talook - Such as that "the Villages are many of them on the very brink of ruin." that "a bad season or two "would entirely destroy them." that "in Fusly 1251 the Beriz of the Talook rose to its "highest point upwards of 2 Lacs and quite "unable to bear any thing like that a "sessment, the lands have since fallen out "of cultivation and will continue to do so." That the "Ryots are sinking under the "burden" - Such assertions at least are hardly borne out by the table given in Para 2, from which it appears that tho' no year since Fusly 1251 has quite reached that standard the revenue of the next Fusly 1252 fell below it only by Rupees 1177 and that the Beriz of each of the years 1253 - 1254 - 1256 and 1257 nearly reached 2 Lacs - The Revenue of Fusly 1256 was indeed in advance of any preceding Fusly 1251 and 1252, fell but little short of the Beriz of those years - The outturn of Fusly 1258 doubtless exhibits

Note
Beriz of whole District
for Fusly 1257 — 223534
Do for Fusly 1258 — 218374
The decrease Rs 5,983 in Goothy also a dry Talook was nearly as great in proportion to its Beriz (Rs 14122) as that in Goolem -

Talook is admitted of a decrease in the Revenue, the Board do not consider that the details now furnished either sufficiently prove the Assessment to be exorbitant, or that the Revenue should be propped up by the expedients proposed -

13. The early Survey Assessments were not conducted with such accuracy as to avoid irregularities, and there is not a District where such cannot be discovered. When they arise in particular fields or can be clearly accounted for the remedy may be applied, but when there are only general facts leading to the conclusion that extensive tract have been irregularly assessed without a knowledge of the exact localities where such irregularity has crept in, the Board do not consider themselves justified in proposing to Government to

exhibits a decrease but the season was unfavorable throughout the District -

12. And though the inequality of the Black land teerwahs in the Goollum as also the prospect

to rectify these anomalies except by a bonâ fide revision of the Survey & Assessment with reference to the actual capabilities of the lands in detail. This plan Mr. Pelly discards on account of the great labour and time which it involves, and it is clear that if a reassessment is made in one Talook it must be made in all-

14. The measure proposed by the Acting Collector, viz, to reduce all the Deets above 1½ Rupees to that sum, with a few trifling exceptions, without any references to the differences that must exist in their respective capabilities is too arbitrary, nor are the Board disposed to consider ½ Rupee per Acre a fair maximum for fine Regar Land, the same kind of land pays much higher rates than that both in Cuddapah & Kurnool.

15 The Board are inclined to believe from what has been stated by the Acting Collector that the present state of affairs in the Goolleim Talook has been owing in a great measure to the fact of the Ryots taking up large tracts on lease, and now when the teerwa has come to the full, they hope that Government rather than

than submit to the impending abandonment of these Lands, authorize a diminution of the Survey Assessment. It is not to be supposed that the Ryots were ignorant of the Amount of Jummah Assessment when they undertook the Lease, and the Board cannot admit that they are now ruined by the burdens imposed upon them. The Revenue authorities have not the power of forcing them to continue in occupation of their Lease lands beyond the periods specified and there is no reason for the insinuation of injustice being exercised towards them by the Controlling Authorities.

16 There is a passage however in Mr. Pelly's letter of 31st July 1849 para 12, to which it will be necessary to advert. He says "any relaxation in favor of the Ryot so as "to allow him the liberty of throwing up his "lands, would entail an immediate loss of "far more than it is now proposed to remit." From this it would appear that the Ryots have been saddled with holdings beyond their means, and if so the Local Authorities are so far responsible for the present state of things which however

however / as before observed / has been probably overrated.—

17. The plan of lowering the Assessment would only be a continuation of this forced stimulus, to be followed possibly in a few years by a claim for further reduction on the same plea.—

18. Mr. Pelly urges that remissions of a nature similar to those now proposed have already been sanctioned in the time of Colonel Munro and Mr. Robertson—The Board have not been entirely satisfied with the efficacy of these measures in a permanent point of view. Mr. Pelly in para 9 of his letter of 16th November 1848 states "many more fields in Villages "where a remission has been made still "require revision, and moreover, the "remission already made cannot be con"sidered permanent, or at all events "enquiry is still necessary because the "accounts shew that out of 70,347 Acres "to which remission was given 45,288 "Acres are now left uncultivated" and in the present day a more definite method of proceeding is required.—

19. It is moreover observed from

from Statement No. 1 in the Acting Collectors' letter of 16th November 1848 that Colonel Munro's Amildars had proposed a reduction of 11,619 Rupees in the Goolliem Talook, on 43 Villages, and that Mr. Robertson had in 11 Villages alone made a reduction of Rupees 16788—

20. The facts adduced and information collected through the labour and perseverance of Mr. Pelly are of great value and in rejecting his propositions the Board would not wish to depreciate the laudable anxiety Mr. Pelly has exhibited to introduce a measure of relief to the existing inequalities of Rent. and they are inclined to hope that when the Goolliem

5401 Fort St. George 11th April 1850.

Godliem Kyds perceive that their demands cannot be complied with they will undertake the cultivation of other lands with the stock they must be presumed to have, when they desire to continue the cultivation of the lands that have been the subject of discussion

Ordered that a copy of the foregoing Extract be submitted to the Collector of Bellary for his information and guidance.—

Read-

5402 Fort St. George 11th April 1850

Read the following letter.—

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.

(27)
From the Collector of Cuddapah

Sir,

I have the honor to state for the information of the Board of Revenue that I have dismissed Combagererow the Tahsildar of Coilgoontlah Talook, who having been committed to the Subordinate Court on the charges of having been an accessary after the fact in reference to a most atrocious case of Murder which lately occurred at Mookkamulla in the above Talook, has been convicted before the Sessions Court and sentenced to one years imprisonment.—

Cuddapah District Collrs Office on Circuit Muddenpully, 1st April 1850

/Signed/ J. H. Cochrane
Collector.

Proceedings thereon—

(27.28)

The Board of Revenue approve under the circumstances stated of the dismissal of Combagererow Tahsildar of Coilgoontlah but would observe the the power exercised by the Collector in this case, is under the orders of Government, vested exclusively in the Board of Revenue.—

Read again Report dated 30th November last from the Collector of Chingleput

In Cons. 7th March 1850

Chingleput, upon the Management of the Extra Sources of Revenue in his District during Fasly 1258. - 1848-49.

29

(Here enter No. 78)

Proceedings thereon. The appended Abstract exhibits a comparative view of the Revenues for Fasslies 1257 and 1258, the result of the settlement being a Net Decrease of Rupees 1,15,720-15-2 in the latter year. -

Reporting on the Management of the Extra Sources of Revenue in the District of Chingleput for Fasly 1258.

| Total | 4,89,171 | 14 | 9 | 3,73,450 | 15 | 7 | 9,041 | 9 | 10 | 1,24,762 | 9 | - |
| | | | | | | | Deduct Increase | | | 9,041 | 9 | 10 |
| | | | | | | | Net Decrease | | | 1,15,720 | 15 | 2 |

Salt Decrease Rupees 1,24,762-9-0

2. The very considerable falling off in the Revenue of the year under review occurred, it will be perceived entirely in Salt, and had been to some extent anticipated by the Collector. The decrease in the sales for

for Home consumption amounted to Rupees 14,928-9-0 and in those for Inland consumption to Rupees 109834- as particularized in the Table annexed to Para 5 of the Report which shews the fluctuations under both heads at each of the Pans and in Statement No. 9 submitted with it at the requisition of this Office. From these Statements it appears that the Net diminution in the transactions at the Pans adjacent to the Presidency was 573-216 valued at Rupees 68824-14-11 being 453-380 in the Sales for Inland and 119-236 in those for Home consumption and is attributed to the opening of the Madras Cotaurs for the supply of the Inland traffic, whilst the deficiency at the more distant Depots, which occurred almost wholly in the sales for other Districts is ascribed partly to the same cause as well as to the low price of Grain preventing the resort of the Brinjaries to the Coast and to the sales having been resumed at the neighbouring pans of Mercaumum in the District of South Arcot.

| Decrease in 1258. | Inland | Home | Rs |
|---|---|---|---|
| Pans near Madras | 54,474 | 14,351 | 68825 |
| Pans Distant | 55,360 | 578 | 55,938 |
| Total | | | 1,24,763 |

From

3. From the Memorandum subjoined to Para. 7 of the Report it appears that the decrease in the sales at the Chingleput Pans is nearly counterbalanced by the increase in those at Madras and Mercanum, a fact which tends to corroborate the view of the Collector that the inland Salt trade of his District has been affected by the operation in those localities.-

4. In Paras. 9 and 10 of his report the Collector gives a satisfactory exposition of the several entries made in Statement No. 7 which exhibits the charges, the quantity of Salt in Store at the commencement of the year, the quantity manufactured and sold, and the balance in hand at the close of the Fusly.-

In Cons. 13th Augt. 1849

5 With reference to Para. 5 of Extract Minutes Consultation dated 4th August 1849 the Board observe that the information therein called for was supplied by the Collector in his letter of the 18th idem which was laid before Government with their Proceedings of the 10th September last.-

In Cons. 10th Sept. 1849

6. At the conclusion of his observations on this branch of Revenue Mr.

Mr. Freese suggests for the convenience of the people, a modification or abrogation of that portion of the Salt Rules which prohibits the sale and issue of Rowanahs for a less quantity than 40 Mercals, the conveyance of which, he states requires a strong Cart and a good pair of Bullocks, whilst the quantity carried in the common Carts of the Country seldom exceeds half that amount- The Salt Rules are now undergoing a Revision, and this proposition will be taken into consideration by the Board.-

Abkarry.- 7. All the other Extra sources exhibits an increase with the exception of Abkarry, the demand for which was the same as in the preceding Fusly, the Farm having been granted for three years Fusly 1256 7 and 8 for Rupees 76,500 per annum- The balance Rupees 15,881-6-3 outstanding at the close of the Fusly minus Rupees 7,000 remitted under the sanction of Government dated 7th September last, on account of losses incurred from Gales in Fusly 1256 (1846-47) was realized in full at the date of the Report.-

Sea Customs and Sundry small Farm and Licences

8 The trifling augmentation in the Revenue derived from Sea Customs, as well as from Sundry small Farms and Licences

Fort St. George 11th April 1850.

Licences does not call for any special remark.-

Moturpha and Stamps.

9. The remaining fluctuations requiring notice, Viz.t in Moturpha and Stamps, present an excess in favor of the period reported on of Rupees 1,426-10-0 and 7338-6-0 respectively- The increase under the latter head is attributable to the operation of Act XVII of 1848 that under the former which was partially reduced by a falling off in the items of Cloth Shops and Indigo Factories, to the discovery of some frauds and a close scrutiny into the number of Looms at work at Sydapet, and other large Weaving Villages," which were found to amount to 6604 being Rupees 1,378-2-0 above those included in the lists of the preceding year.-

10 The arrears of Revenue Rupees 869-9-5 outstanding at the close of the Fusly on account of Sundry small Farms and Moturpha were at the date of the report reduced by Collection and remission to Rupees 397-15-0 of which Rupees 159-5-2 are irrecoverable the parties by whom the sum

Statements B & S.

Fort St. George 11th April 1850.

is due, having died, deserted or become impoverished, and the Board would therefore recommend its being written off in the accounts.-

11. The charges exhibit an increase over those of Fusly 1257 of Rupees 1,502-15-10, Viz.t Rupees 1,143-3-4 in the item of Salt owing to the expenses incidental to an increase in the quantity Manufactured, and Rupees 359-12-6 in Stamps arising from greater sales.-

12. The Gross Collections current, Extra and arrears from all branches of Extra Revenue amounted to Rupees 390,215-14-9 Deducting charges, the Net Revenue realized within the Fusly was Rupees 330,636-9-0 being Rupees 11390-5-9 below that of the previous year.-

Ordered that a copy of the foregoing Extract with the annexed Comparative Statement of the Collections, Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of Chingleput.-

W. H. Bayley Esqre.

Secretary to the

Board of Revenue

Fort St. George.

30

Sir,

From the Collr. of North Arcot Solicits the Board's orders on some points connected with the Maniem to be allowed for the support of the Chuttrum built by Seeta=ram Moodelly in the Village of Totaulum.

Para 1 An application was made to the Board of Revenue from this Office on the 26th April 1848, for a grant of land for a Chuttrum lately erected by Seetaram Moodely of Vellore at Totaulum on the high western road; the application was approved, and it only remained that land should be fixed upon for the grant. The delay till the present time has arisen from the backwardness of the Durmacurta to select the land, because unable to find any suitable immemorial waste conveniently situated. he has now selected land, but as its circumstances are peculiar, I consider it proper to obtain the orders of the Board on the subject be=fore disposing of this application.

2. The Village of Mandanoor adjoins Totaulum, and in that Village a Ryot lately applied for permission to construct

Fort St. George 11th April 1850

construct a tank at his own expence. Told him that he might construct the tank, but with reference to the orders of Government of 13th January 1844, I told him also that he must not reckon on being allowed a Dus=-vuntum Maniem. The construction of the tank however is now in progress, and Seetaram Moodely wishes to have his Mani=-em in the immemorial waste Poonjah land under it; which when the tank is completed will be watered by it, and will be liable to Tirvulgaunty on that account. I am aware of no objection to the grant of this land, but it is necessary that the method in which the land shall be dealt with in the event of its being brought under Poonjah cultivation by means of the water of the new tank, should be settled before the grant is made.

3. It is stated by the Tahsildar that the work done to the Tank up to the present time is worth 367 Rupees, and if it is to be furnished with a Sluice and Calingulah (without the former of which it would be useless for irrigation, and without the second very insecure) it cannot be

be completed under a total cost of at least 1,000 Rupees. - Government have declared that no more Dusvendums shall be granted, will the Board advocate, and will Government allow any remission to Chinnatumby Naick for his outlay on this improvement; or will the full Punjah assessment be exacted on all the wet cultivation under it, just as if the 1,000 Rupees had been paid by Government. - Again, supposing the Chuttrum Maniem to be given under this tank, will it be permitted that the Poonjah should be converted into Punjah by means of its water, without any increase of demand. 2. I presume it will not, then, should the increased demand, or Fusseljasty be the same as it would be on Circar land, or less. 2. But if the land is thus liable to constant demand, would it not be better to resume a part of it, and leave only that extent of Maniem, the assessment of which will equal the sum allowed, Viz.t 60 Rupees a year.

4. On the foregoing points I would beg the orders of the Board, to enable me to deal with the question and submit hereafter a "definite proposal. - The building erected by Seetaram Moodely is "of the most

most substantial construction, and very capacious, and it provides accommodation for all classes of Native born travellers. The cost by estimation has amounted to Rs. 5707-14-4 and it is obvious that the petty annual income of 60 Rupees bears no proportion to the outlay. - In addition to the above large expenditure on the Chuttrum, the

+ July 13th 1848. + Board have required that the owner should build a Bungalow for the accommodation of European travellers, and he is ready to expend 500 Rupees on such a building - some limited accommodation of this kind is very desirable at Tetandum, that place being about midway between Puttiscondah and Amboor which are eighteen miles apart: it appears to me however more than questionable, whether the construction of this expensive Chuttrum can with fairness be required to expend a further sum of 500 Rupees on a species of building not within the scope of his views and not properly connected with a Chuttrum, and which Government seem to have regarded it universally as their own business to provide where necessary. -

North Arcot Collectorate Circuit Cutcherry, Chendragherry 28th March 1850.

/Signed/ J. D. Bourdillon
Collector

The

5415 Fort St. George 11th April 1850.

Proceedings thereon (30.31) The Board are of opinion that the land in Mandanoor selected in endowment of the Chuttrum erected by Seetaram Moodelly and watered by the Tank now under construction is liable to Fasly Jasty according to the rule of the District.—

2 Pending the result of the general question of taxing improvements in land effected at the expense of the inhabitants now under the consideration of the Board, and on which the views of the Collector as relating to his own District are detailed in his letter of the 26th January 1849, they are not prepared to state what remission should be allowed for the outlay referred to in Para 3 of the foregoing letter, unless some specific proposition is laid before them by the Collector and to enable that officer the better to do so, the Board resolve to furnish copies of the papers noted in the margin, on the arrangements under which the Ryots of the Tinnevelly District are allowed to undertake the construction and repair of Tanks and other works of irrigation at their own expense.—

In Cons. 29th Jany 1849.

To Government 1st February 1849 From Do. 19th Do. in Cons. 8th March 1849.

3. It was never intended by the Board that Seetaram Modelly should build a Bungalow for the accommodation of European travellers, but that the Chuttrum constructed by him should not be confined to the accommodation of particular classes of the community, but be open to all in the places to be allotted to each class.—

Proceedings Thereon.

(32.33)

The Board of Revenue direct the employments of the Establishments established on the Materials submitted accompanied the foregoing letter at a charge of Rs. 14, Rupees per Mensem for the management of the Cooperage to clear Accounts attached for arrears of Revenue.

Read again letter from the Collector of South Arcot 15th Dec. 1849 in Cons. 5th April 1850.

Enquiring on the Extra Sources of Revenue in his District for Fasly 1258.

(34)

(Here enter No. 85)

Proceedings Thereon.

The Revenue on the Remaining Sources for the year under Report Statement of the Extraordinary Sources of Revenue in the District of South Arcot for Fasly 1258.

Being 23,328 Rupees below that of Fasly 1257 as will be seen from the following Comparative Statement

Fort St. George 11th April 1850

| Items | Fasly 1258 | Fasly 1257 | Increase | Decrease |
|---|---|---|---|---|
| Salt Revenue | 187387 15 ~ | 199370 15 9 | ~ ~ ~ | 11983 ~ 9 |
| Frontier Customs | 27468 12 7 | 34132 13 1 | ~ ~ ~ | 6664 ~ 9 |
| Sea Customs | 21918 4 ~ | 40332 ~ 10 | ~ ~ ~ | 15413 13 10 |
| Abkarry Revenue | 82370 ~ ~ | 83730 ~ ~ | ~ ~ ~ | 360 ~ ~ |
| Sundry Small Farms | 10922 11 1 | 4040 ~ ~ | 76882 10 6 | ~ ~ ~ |
| Stamps | 15837 2 ~ | 10089 12 ~ | 5747 6 ~ | ~ ~ ~ |
| Moturpha | 38678 1 6 | 39216 1 9 | ~ ~ ~ | 538 ~ 3 |
| | 387582 11 2 | 410911 13 3 | 12630 ~ 6 | 35958 15 7 |
| Extra Items | 2178 8 6 | 2840 14 8 | ~ ~ ~ | 662 6 2 |
| | 389761 6 8 | 413752 11 11 | 12630 ~ 6 | 36621 5 9 |
| | | | | 12630 ~ 6 |
| | | | Net Decrease | 23991 5 3 |

The

Increase

2. The items of Increase as will be observed, are in Small farms, Rupees 6882-10-6 and in Stamps Rupees 5747-6-0—

3. The former is merely nominal, being attributable to the transfer of the "Tank fishery head" from the Land Revenue accounts to those of the Extra Sources. In the latter, it was occasioned by the operation of Act XVII of 1848—

Salt—

4. The Revenue derived from Salt amounted to Rupees 187387-15-2, which is below the collections of the preceding year by Rupees 11983-0-9—

| | | | |
|---|---|---|---|
| Decrease in Increase in | Home consumption | 38585-15-4 | |
| | Inland Sales— | 27219-14-5 | |
| | Difference | 11316-0-11 | |

5. This deficiency is chiefly owing to a falling off in the Inland trade has Home Sales, while the greatly improved—

6. Mr. Davis is of opinion that the decrease in the Home consumption is to be ascribed to the use of Earth Salt by the poor of the District, a cause that can hardly be supposed in a Maritime District especially to have operated so detrimentally to the Revenue. A great portion of the decrease is perhaps to

to be traced to the want of check, that apparently exists in the District, for ascertaining whether the quantity of Salt purchased for Inland consumption is not disposed of within the District—

7. Mr. Davis indeed, from his remarks in para 4, appears aware of this contingency, and with this knowledge, it was his duty to set on foot the strictest enquiries regarding the actual disposal of the Inland Sales. Communication should have been held with the several authorities, to whose districts Rowannahs were taken out, and the fact ascertained, if the periods allowed for transfer had not been exceeded. "Strict orders" to the local Native Officers would appear to fall short of the emergency; for if the sales had been irregularly disposed of, as there is much reason to fear, these officers could scarcely have been ignorant of the transaction and the localities in which the Salt has been disposed of might have been discovered. These apprehensions and the continuous falling off of the Salt Sales as shewn marginally, demand the acting Collector's immediate attention—

| | | |
|---|---|---|
| Fasly | 1253 | 187103 |
| " | 1254 | 258673 |
| " | 1255 | 265323 |
| " | 1256 | 255470 |
| " | 1257 | 199371 |
| " | 1258 | 187387 |

The

8. The explanation afforded by Mr. Davis with reference to the Board's remarks in paras 3 and 4 of their Proceedings of the 13th. August last is considered satisfactory

Frontier Customs

9. In the duties realized from Exports and Imports across the French frontier, there was a falling off to the extent of Rupees 6,563-8-9 occasioned by the abolition of double duty from the extension of the provisions of Act VI of 1848 to frontier customs, and the exemption from demand conceded to Cotton Wool Single duty only being now leviable on transit by land, the Collector states that this mode of transport is preferred by traders to export by sea a fact borne out by the putturn of the revenues under this head, shewing with single duty Collections alone, a decrease only to the above amount, upon the previous years double duties, the trade therefore appears to have increased nearly two fold.

| | |
|---|---|
| Fusly 1257 | 340.32 |
| " 1258 | 274.68. |
| Decrease | 65.64 |

Sea Customs. 10 The decrease under the head of Sea Customs amounted to Rupees 15,613 and arose chiefly on Indigo and piece goods. This is attributed to the early dullness of the trade in these articles, and partly

2,206 Rupees partly perhaps was caused by the land traffic above alluded to, for there was a large increase on the Export by land of Indigo though in Piece goods it fell off Rupees 2608—

Moturpha 11. The Revenue realized under the head of Moturpha, was Rupees 538-3 less than the settlement of the past fusly. This deficiency was occasioned by a contraction of the labors of the Loom Manufacturer, and hardly requires further notice—

Collections and Charges Net Revenue

12 The total Collections current, Extra and Arrears amounted in the aggregate to Rupees 379548-1-5 which was 25435-5-10 less than what had been realized in Fusly 1257. Deducting charges the Net Revenue for the year under Report was below that of the preceding year by Rupees 29175-6-5. The increase in charges occurred under the head of Salt and requires no notice—

5th Con Cons 17th January 1850.

13. From the Collectors letter noted in the Margin, it will be seen that the Abkarry Renters for Fusly 1258 became liable to the payment of Interest due on the sum of Rupees 26823-9-2 which they had failed to pay up within the Fusly, but which has since been liquidated, and in consideration of the losses they are alleged to have sustained, and the prompt fulfilment of their engagements, the Board of Revenue beg to support the Collectors recommendation, that they may be relieved from the payment of Interest Amounting to Rs. 802-10-6.

Ordered that a Copy of the foregoing Extract with the annexed comparative Statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be forwarded to the Collector of South Arcot

From the Collector of Tanjore.

Sir,

I have the honor to request sanction may be given for the employment of a Teacher to the Gundracottah Minor, who is now old enough to commence his education, I propose putting the same person to Gundracottah who has taught the Pathamaracottah Poligar with much care. The Salary I propose should also be the same 12 Rupees per Mensem to be increased when the Second Boy is old enough to commence his studies—

From the Acting Principal Collector of Coimbatore

Forwards with reference to the Boards Proceedings dated 24th December 1849 the further specification of 5 pieces of ground applied for by certain Parties on the Neilgherries.

Extracts from the Secretary will be sent shortly.

Sir,

In reply to the Extract from the Proceedings of the Board, dated 24th December 1849, I beg to send the Board, the further specification required by them, of five pieces of ground applied for. Three late years were first taken, because in those alone, the Parties or their agents, were at hand to give information, which could not be ascertained regarding older applications- all of which are, however, under due course of enquiry- an investigation rendered very tedious and troublesome, from many Parties leaving the Hills without any known agents, or any record of their addresses-

2. During the 15 days I was on the Hills in December last, chiefly for this purpose, I devoted several hours daily, independent of all the Current duties of the Cutcherry, to investigate with Captain Ouchterlony, the lands and claims alluded to many

were

were settled. others could not be, from one not being able to find any accredited represe: sentative of the Party. In the latter class was Mrs Ryan, who tho' having more contested limits and claims with her neighbours than any other Party on the Hills, left them, without any agent, (whether purposely or not, I cannot say,) tho' she must have been well aware of the need of doing so, and of the public requisition to that effect, posted on the Hills, in the Office of the Commanding Officer.

Coimbatore,
Principal Collector's Office,
18th March, 1850.

/Signed/ C.B. Thomas.
Acting Principal Collector

No. 1.

Memorandum.

Mr. J. H. Crawford, late of the Bombay Civil Service, applied for 7.7.2258 C.G. Sft of land within the Cantonment of Ootacamund. the application is dated in January 1843, but was received thro' Captain Cruickshank of the Bombay Engineers in 1847. It is the property of Government, and unconnected with private land. Dr. Magrath applied for it in the

the first instance, but subsequently withdrew his application. Its occupancy by Mr. Crawford is unobjectionable. The Joint Magistrate and Officer Commanding Ootacamund having certified the same in 1847. a plan of the ground is annexed. This was transmitted to the Registrar of Grants in that year, but returned in consequence of the restrictive orders of Government. The soil is gravelly, and the upset price thereof, at 8 years rent, is assumed at Rupees 67-6. calculated upon the principles laid down in the Board's Manual.

*Will be sent shortly.

Coimbatore,
18th March, 1850.

/Signed/ C.B. Thomas
Acting Principal Collector.

No. 2.

Memorandum.

Captain George Pope of the Bombay Army, has applied for a Grant for 16 Cawnies, 19 Grounds, and 736 square feet of land at Ootacamund. Of this extent 7-9-1388 C.G. Sft were purchased by him from Mr. F. Lacelles, which is supported by a regular deed of transfer. Mr. Lacelle's right to that ground resting upon the permission of the Collector

of

of Malabar, and the payment of quit rent from 1841, a period of 9 years. the net extent quantity 9. 9. 1748 is waste, and Circar Property. the first application for the ground was made on the 30th January 1847, and the 2nd and a more formal one was received in November 1848, through Lieutenant Colonel Grant of the Bombay Engineers. this was not forwarded immediately to the Registrar of Grants in consequence of the restrictive orders of Government. an Extract from the Survey is annexed to show the extent and position of the ground, the occupancy of which, by Captain Pope, is unobjectionable. The Joint Magistrate and Officer Commanding at Cotacamund having certified in 1848, that it does not interfere with any Public or Private Property. The soil is generally rocky, and wooded, and the upset price at which it can be offered for sale is assumed at Rupees 86. 3. 4, being equivalent to the quit rent of 8 years at 1. 2. 4 a Cawny as authorized by the orders of Government published in the Official Gazette for 1837, Page 760. The ground alluded to being waste and unassessed

Will be sent shortly.

The care of the wood will be provided for.

and per Boards Manual.

unassessed, the quit rent rate has been taken as the standard for the calculation of the upset price.

Coimbatore, 18th March, 1850. /Signed/ C. B. Thomas
Acting Principal Collector.

No. 3.

Memorandum.

Mrs. McAlpin applies for one and half Cawnie of land within the Cantonment of Cotacamund, and adjoining the Property of that Lady. It is the site of the old Post Office, and its occupation by Mrs. McAlpin does not appear objectionable. it is necessary to the integrity of her property, and present House, which it overlooks. the Upset price thereof calculated upon the quit rent rate for 8 years, is Rupees 13-12-- but with reference to the Centrical position of the ground, and other conveniences, it may fetch a higher value than the upset price. It is waste ground.

* but seven as annexed.

Coimbatore, 18th March, 1850. /Signed/ C. B. Thomas
Acting Principal Collector.

No. 4.

Memorandum.

1. The Reverend Mr. J. Griffiths has

Fort St. George 11th April 1850.

has applied for 30 Cawnies of land, north of the Cantonment on the 16th of April 1849. He states that it is enclosed since 1846 and is held on Puttah. by whose permission it was enclosed is not clear, admitting however, that authority was granted for so doing, Mr. Griffiths right to that cannot now be admitted, in as much as it was previous to the withdrawal of the restrictive orders of Government. It is proposed to sell this land by auction at an upset price of 5 years amounting to Rupees 171-14-0.

2. On the east, Mr. Riley's and the Government watercourse, on the north, the road from Chinna Coorstoo Cotacamund, on the west Mr. Turner's land, and on the south Captain Wallace, Captain Templer Mrs. Ryan, and J. F. Thomas Esqre. their land.

3. The land is waste. will not injure or approach any public Property, Due preservation for Roads, Water, and Wood, will be made for Government. Mr. accupation seems unobjectionable.

Coimbatore, 18th March, 1850.

/Signed/ E. B. Thomas
Acting Principal Collector.

Fort St. George 11th April 1850.

No. 5.

Memorandum.

Captain Ouchterlony has applied for land, about 5 to 10 Cawnies, situated on one of the western slopes of Dodabetta, as shewn in the annexed extract* from the survey of the Neilgherries. It is eastwards of the Cantonment of Cotacamund. and its occupation is unobjectionable. the Acting Principal Collector having personally inspected it when on the Hills. It is more or less covered with wood, which will be conserved, and added to, by Captain Ouchterlony. The upset price calculated upon the quit rent rate of 1-2-4 Rs. a. p. for 8 years, amounts, on 10 Cawnies of land, to Rupees 91-10-8 Captain Ouchterlony also states that he intends it for his Public Office and Brewery.

*Will be sent shortly.

Coimbatore, 18th March, 1850.

Secretary to the
Board of Revenue

38

Sir,

From the Acting Principal Collector of Coimbatore } I-

As many parties are waiting

No. Cawney.

Fort St. George 11th April 1850.

waiting and asking for the Form of Lease for their properties, alluded to in the Board's Manual, may I request the favor of instructions as early as convenient, or that I may be authorized, as requested in my letters of the 20th August 1849, No. 376 and 4th December 1849 No. 125 to draw out a simple form, sufficient, as it appears to me, for all practical purposes, and under which, all lands could be easily and safely held.

2. I would propose something of the subjoined form, with any additions or alterations, the Board think right, and I am of opinion, that some such simple form, understood by all, would sufficiently meet the state, and the wants, of the Neilgherries.

3. I think clause 2 of the proposed Puttah, includes all needful points, and if so, the shorter and simpler, the better.

Coimbatore,
18th March, 1850.

/Signed/ C. B. Thomas

39

Sir,

From the Acting Principal Collector of Coimbatore.

With reference to the enclosed

Fort St. George 11th April 1850.

18th March 1850.

enclosed Copy of letter from Colonel Cleveland, Ibeg the Boards permission to allot, at the usual rent, but without purchase, five Cawnies from Government waste land at Conoor.

2. Colonel Cleveland has over paid, as stated by him, for several years, and has, with much consideration, yielded some 30 or 40 Dhobies Huts, located for a long period, but without due permission, decidedly within his boundaries at Ootacamund. I have visited the spot in question, and would beg to recommend that the requested compensation be allowed to him. His Quitrent Bill will of course, be corrected in future.

Coimbatore, 20th March, 1850.

/Signed/ C. B. Thomas
Acting Principal Collector.

No. 1.

To,
C. B. Thomas Esqre
Collector &ca &ca &ca
Coimbatore.

Sir,

I have the honor to acquaint you that a descrepancy exists, in the measurement of "Kelso Land," in as much as

Fort St. George 11th April 1850.

as Captain Ouchterlony in his recent Survey, has laid it down as 17. 2. 1756 c. g. ft. whereas in my Government Grant, it is 18. 11. 528 c. g. ft. and for the last 5 years, I have paid Quit Rent Bills, Rupees 25. 4. 3 per annum in accordances with the measurement in the Government Grant. I take this opportunity to bring to your notice, another grievance, Viz. the portion of my ground, for which I pay Government Quit Rent is occupied by Washermen who have built numerous huts thereon, and it would appear, as you, I believe, are well aware, they have been located on this spot for many years, I feel in consequence, vast reluctance to file a writ of ejectment in your Cutcherry against these poor Dhobies, but I trust you will have have no objection to move the Government, in solicitation, for a portion of Circar Land being granted to me, at Conoor, say about 5 or 6 Cawnies or more, to enable me to build a House thereon, in lieu of the short measurement, at "Kelso" as per Survey, and in consideration of the ground occupied by the Dhobies which to me is unsuitable for use. If you think my request could be sanctioned by the Government, I would

proceed

5438 Fort St. George 11th April 1850.

proceed to Coonoor, and select a piece of ground which might suit me, of course, acquainting you with the same, or if you would kindly make the application to Government in my behalf, I would wait the reply.

Helsoland, Ootacamund

Acting Principal Collector.

Ordered that the following letter be sent in consequence.-

37.40

To, The Honorable Company's Solicitor

Sir,

To the Honorable Company's Solicitor } From Government 3d. in Cons. 10th September 1849.

With reference to your letter to the Secretary to Government, dated 24th August last, I am directed by the Board of Revenue to request you will be so good as to inform them, when you will be able to furnish them with the forms of Lease to be granted to parties taking lands on the Neilgherry Hills, which you were requested to prepare in the letter from this Office dated 10th May last.

2. The Board are unable to dispose of several applications now before them, for lands on the Neilgherries, in consequence of not having been furnished with these forms of Lease.

Revenue Board Office, Fort St. George, 11th April, 1850. } /Signed/ W. H. Bayley Secretary.

S.G.

Read.-

5439. For St. George 11th April 1850.

Read the following letter.-

41

To W. H. Bayley Esqre
Secretary to the
Board of Revenue

From the A. G. Pt. Collr. of Coimbatoors ..... } Sir.

1. I have the honor to acknowledge the receipt of the Board's Circular dated 24th September last, and, as therein directed, beg to return the printed form duly filled up, together with a Statement exhibiting the several descriptions of Cultivation prepared in the prescribed form.—

Returning the printed Statement filled up with another Statement of the description of cultivation and explaining the mode in which these accounts were prepared.-

2. In order to enable the Board to test these accounts, I beg leave to explain the mode in which they were prepared.-

3. The first portion of the printed form referring to the extent of Cultivation, requires no explanation.—

4. Adverting to the 2nd "Land Revenue," I would remark, that the first Column" under permanent settlement" exhibits the demand of Peishcush on the several Poliputs in the District, whilst in the 2nd "Under Lease Settlement" the demand of the Village of Cullapoorum in the Cheekragherry Talook, which was

leased

leased in previous years is entered, "under annual Settlement," the demand on Cultivated lands only is shown inclusive of Quit Rent &c., and under the "other Sources of Revenue" the several items noted in the margin, and partaking the nature of Land Revenue, are Comprised. the various branches of Extra Revenue, entirely unconnected with land, being altogether excluded from this account. The demand on pasture lands allowed to Ryots to the extent of one fifth of their entire Farm, is also included in "other Sources," such appearing to be the intention of the Board; and grass lands not capable of being entered under any head of Cultivation. —

Tax on Cattle 1
Do on Sheep 2
Parwa pillovary 3
Preparation on pasture Lands of Ryots 4
Tax on labourers 5
Bell Rent 6
Fees, Dunnah Connected with Lands 7

5.

With regard to the collection, current and arrears, the entries under the heads of "Permanent" and "Lease Settlement" Correspond with those in the Demand, Collection and Balance Statements, periodically sent to the Board of Revenue, whilst the amount exhibited in the Column "under annual Settlement" does not do so. It is not usual in this District to keep distinct accounts of the demand, Collection and Balance, of the various

various items Comprised in the "Fasel Sournadayem." all being included in Land, and consequently the annual recoveries on account of these items cannot clearly be known. No balance, however, is allowed to remain uncollected beyond the Fusly and under these circumstances, of the aggregate Collections, a portion of the amount found corresponding with the "demand of other Sources," is shewn in that Column, and the rest "Under annual Settlement" - and this will account for the difference between this entry and that in the demand, Collection, and Balance Statements. —

Vide Lithographied Rules received with the orders of Board of Revenue D.O. No. 512 dated 23d August 1849

6.

With Reference to the head "disbursed on Public Works," I beg to remark that the Cost of repairs to the Trunk Road No. 5 (Madras road via Salem) has been excluded, and all others Disbursements entered under their appropriate Columns, according to the instructions of the Board. —

7.

Should the Board approve of this mode of preparing the account, I shall lose no time in returning the two other printed forms duly filled up, together with a similar number of Statements of Cultivation in the form received with the circular letter under acknowledgment. —

Coonoor
28th March
1850.

(Signed) E. B. Thomas
Asg. Pl. Collr.

To The Revenue Board
Fort St. George

47

From the Commissary General

Gentlemen,

I should feel obliged by your Board favoring me with a Statement

Statement shewing the rates at which Columbo and Country arrack, and Toddy are sold to the Natives by Civil Abkaree Renters whose farms touch those of the Military Abkaree at and around the stations named in the margin and I should also be obliged by your Board mentioning at the same time whether those Civil rates are considered by Collectors to be adapted to check consumption without provoking illicit manufactures or sales.-

Nellore
Trichinopoly
Cannanore
Bellary
Masulipatam

2. The immediate cause of my making this communication arises from an application received from a Military Renter to lower his rates to those obtaining in the Civil Farm around: but I am extremely desirous of settling the question at all Military Stations in a sound manner and upon as correct data as I can obtain.-

Commissary General's Office,
Madras, 23d March 1850.-

} Signed A. Tulloch Colonel
Commissary General

Order thereon.-

47.48

Ordered that copy of the foregoing letter be forwarded to the Collectors of the Districts noted in the margin, with a request that they will furnish the Board with the information applied for by the Commissary General.-

Board of Revenue

(53)

From Goolam Moortooza Saib
Government Vakeel of the
Court of Sudr Udalut } I filed a Miscellaneous Petition No. 386 of 1849 in the Court of Sudr Udalut on behalf of the Court of Wards regarding the Sevagunga Zemindary in Madura and that Court issued an order to the Civil Judge of the Zillah on the 8th October 1849 to intimate to the Collector of the District that the Zemindary is released from the Courts attachment and placed under the Management of the Court of Wards in accordance to the prayer of the above Petition. Mr. Ouchterlony and Ramachendra Iyer Vakeels on behalf of Anganoottoo Natcheyar the Pauper Appellant in appeal No. 7 of 1849 in the Court of Sudr Udalut presented a Motion in English No. 15 on the 18th March this year and the Motion being long and in very rough writing I could not get a true copy made and compared before yesterday I therefore beg you will be pleased to lay the said copy herein enclosed before

before the Board for their consideration.-

27th March 1850.

/Signed/ Goolam Moortooza
Government Vakeel.

/ A true Translation/

A

To The Judges of the
Sudr Dewanut Court
The respectful petition
of Rannee Tengamootoo
Nauchear appellant in
Appeal Suit No. 7 of 1849
by her joint Vakeels James
Auchterlony Esqre and
Ramachendra Iyer.-

Sheweth,

Para 1 That your Court was pleased in its proceedings of the 30th April, to order the attachment of the Shevagungah Zemindary, your Court recapitulating that your Petitioner had complained, that "under the controul of "the person in possession, the estate was "subjected to extensive waste and dis-"sipation" and resting its order for attachment upon a conclusion arrived

arrived at, after a correspondence with the Board of Revenue, that "the arrangement entered into by the Board" did not afford, "under the peculiar circumstances of the "case, sufficient security for the due and "just management of the estate."-

2. This Decision of your Court was rescinded on the 8th of October, consequent upon a Petition from the Court of Wards, and the Estate replaced under "that Courts exclusive controul and management." In this new order it is observed that the property was before attached in consequence of your Petitioner's representation that it was being wasted and injured, and because it did not appear that the controul was "exercised by the "Court of Wards was sufficient to preserve it from injury"- but that, as it now appears that such controul is "amply sufficient" and as the order of the Court might possibly lead to confusion and even to collision between the "Revenue and Judicial authorities" it is resolved to recall the attachment.-

3- Your Petitioner has to express her extreme regret, that before the adoption of

of this step your Court did not deem fit to allow her, the opportunity of bringing substantial proof that, (in the words of the Courts former order) the Estate "under the control of the person in possession" was "subjected to extensive waste and dissipation," and that "the management entered into by the Board" (of Revenue) in other words, by the Court of Wards, did not "under the peculiar circumstances of the case" afford sufficient security for the due and just management of the Estate.-

4.

Into these particulars your Petitioner has now to enter, she craves for what she may write the close and especial attention of your Court, and she hopes to convince it of the entire propriety, for the ends of substantial Justice, of the cause, which it adopted on the 30th April last.- As a consequence she will then pray the Court for a removal of the order at that time issued, or should there be hesitation in proceeding this length, that at least measures may be taken for a thorough

investigation by a special Commissioner of the very serious matters which she now proceeds to bring under the Courts notice.-

5.

She Court will readily understand that, in a simple motion like this, and in reference to matters into which she is unable to institute a personal examination, definitive proof cannot in the great majority of cases, accompany the representations which she makes and that in respect of these, your Petitioner must be necessarily left to depend upon information conveyed to her, but she is able to satisfy herself of the credibility of such information, through the source from which it is derived, and to weigh it beside circumstances which came under her own observation, and it is only after deliberate enquiry, and under such consideration of facts alleged as remains within her power, that she takes upon herself to represent the following circumstances to

to the Court as what forcibly claim to arrest its attention and command its investigation.—

Your Court is prayed not to lose sight of the fact that the first act of the Board of Revenue in its capacity of Court of Wards, was and this at the recommendation of the Collector of Madura, to appoint Cooty Joseyer and Sabapaty Pillay / who had severally held the Offices of Samoo: gum Peshcar and Sevvai Peshcar under the late Zemindar Gowry Vullaba Tauer /, to the leading situations the first of Guardian to the / pretended / Minor and the last of Manager, and these Offices, the individuals named continue to fill and with them / as your Court must be well aware / to exercise a vital practical control over the interests and property of the Zemindary whatever checks the written regulations of the Court of Wards may be designed to convey.—

7.— Now how far with Cooty Joseyer

Joseyer and Sabapaty Pillay in charge of the Estate, there can be any real security for its "due and just management" your Court will infer from the facts which the experience of the past affords.

8. The first case that will be brought forward, and it is so because it happens to have left a record of its dark features in the proceedings of the Courts, is one touching a Village of some importance called Velleyathoor. The documents quoted in the Margin, are attached to the present petition in order that the correctness of the following explanation may be tested.—

9. As the Decree itself will shew the Village of Velleyattoor got some time since involved in litigation and the question of title to it was found to depend upon whether it was an "Ain" or a "Durmasanum" Village. This question was definitely set at rest in the above Decree in which the Civil Judge pronounces "the question as to the "Village of Velleyattoor being an Ain Village "of the Zemindary or the private property of the "appellants husband has been satisfactorily and "indisputably settled in the affirmative, the Provincial "Court

† Decree of the Civil Court in O.S. 342 of 1843 Plaint in O.S. No. 15 on the file of the Sub Court Razeenamah in Do. Dated 20th February 1848.

Fort St. George 11th April 1850.

"Court having, as directed by precept
"of the Sudr Adalut, under Date 5th August
"1839, obtained the Certificate of the
"Principal Collector that the said Village
"is one of the 1936 entered in the Summed
"-i Inkyat Istimrar, and assessed to
"the public revenue" and the Judge then
goes on to direct the 2d Respondent in
the Suit Gowry Vullaba Tauer "to bring
"an action if he pleased as Zemindar
"of Shevagungah and for the benefit
"of the Estate against the parties in
"possession, under the grant of the late
"Zemindar the husband of the appellant."
10.

This suggested action Gowry
Vullabah Tauer did accordingly bring
in O.S. No. 15 of 1847 of the file of the
Sub Court of Madura, and stated in the
plaint herewith that he went directly
upon that decree as the determinate
basis of his claim, that it established
Villeyattoor as being an Ain Village and
that it was therefore just and he accord-
ingly prayed that the same might be
adjudged to be included in the Ain of the
said Zemindary as heretofore. This plaint was
filed on the 6th July 1847.

11. Within a short period of this
Visit in February 1848 a time when it was known

Fort St. George 11th April 1850.

known that your Petitioner intended an
appeal to your Honorable Court against
the Judgment of the Civil Court of Madura
respecting the whole Zemindary Gowry Vulla-
ba Tauer came forward in the most
extraordinary manner to file in for rather
considering its contents, it should be said
to smuggle into Court a Razeenamah
which had for its purport, to give up
all claim to arrears of the said Village,
to sanction its sale by the other party,
to consent to pay his own costs in the
Suit, and to alter the Character of the
Village by a jesuitical stipulation that
the purchaser should pay annually to
the Zemindary Ain "the Coorooppoo amount
"entered in the Istimrar". This latter being
the admission of an unequivocal false-
hood in immediate contradiction of the
decree of the Civil Court and of his own
Plaint and obviously designed to effect
what could so only be accomplished, the
alienation of the Village from the property
of the Zemindary, such instance of Criminal
and wanton waste would be enough of
itself to justify the sequestration of the Estate
from such management. It was a transaction
that had fraud on the face of it, and can
only

Fort St George 11th April 1850.

only be considered that the sanction of the law was gained to it through a juggle.-

12 But it may be said that the conduct recited was the act of the late Zemindar that now the Court of Wards acting through the medium of the Collector holds his place, and that the same evil is no longer to be appre-hended.- That the Court of Wards and the Collector would restrain such con-duct, if brought under their cognizance may be left unchallanged; but their leisure, or their opportunity of detecting appliances of fraud and waste remains very questionable; and the more es-pecially so, when they are content to act, and to persevere in acting with the same tools as those employed by the late Zemindar.- Cootty Losey (or) was the late Sanoogum Peishcar of the late Goury Vullaba Tauer.- Cootty Losey is the guardian of the Minor (pretended) heir of the Estate by appointment of the Court of Wards under the recom-mendation of the Collector of Madura

Cotty

Fort St George 11th April 1850.

Cootty Losey is the professor of the really sin but falsely admitted to be Swamy Sannyasi Village of Vellyathoor.- yet Cootty Losey has himself in his deposition before the Civil Court of Madura, on the 21st July 1847, described the duty that fell upon him as Sanoogum Peishcar, as being this, I conduct every affair of the Zemindary, and therefore he must have had a guilty knowledge of the fraudulent a-lienation.- Lastly, this transaction has not once, but repeatedly been brought under the attention of the Collector of Madura, the local representative of the Court of Wards, but without inducing enquiry or notice and still is Cootty Losey left in the influential office of Guardian.-

13. Leaving now this more than sus-picious case for your Courts disposal, your petitioner will proceed to lay before your Court what forms the foundation of the most serious imputation on the late Management of the Shevagungah Zemindary, and as a consequence causes the gravest faults of the fidelity of the present.- But her remarks will by no means be confined to an exposure of past mismanagement, on the contrary a prominent feature in her present task will be to set forth the evil practices which there is every reason to believe have been and are being carried on subsequent to the death of the late Zemindary.-

14. The subjoined Account of the receipts and disbursements of the Shevagungah Zemindary from the time of its delivery to Goury Vullaba Tauer to Fusly 1258 inclusive, is drawn up from the best sources accessible to your petitioner and they are such as to give her confidence that it will, in the main, be found substantially correct. Statement

| | Rupees | | 521500 " " |
| | Leaving a balance to be accounted for of | | 751739 6 9 |
| | Rupees | | 1273239 6 9 |

From

Fort St. George 11th April 1850.

15

From the foregoing it will be seen that net ain Bareez of the Estate in five years amounted to Rupees 1053239-6-7 or on an average to about two lakhs of Rupees a year; thus confirming the statement of the Guardian in his sworn deposition before the Civil Court, that its clear annual profit was to that amount.

16.

To the above aggregate sum there is an added loan of Rupees 2,20,000 making a total of Rupees 12,73,239-6-7. Out of these receipts a sum of 5,21,500 Rupees have been accounted for by Cotty Josey in the manner set forth in the above Statement, but the disposal of the enormous balance of Rupees 751739-6-7 remains unexplained. Cotty Josey pretends ignorance of the mode of its expenditure, and asserts his non accountability for it as it was spent by the Zemindar. This can be no otherwise regarded than as a subterfuge, and one which makes him lie under the gravest suspicions. It was his own declaration that he held a post in virtue of which he managed every affair of the Zemindary; a declaration too [redacted] had considerable influence in determining a favorable decision rendered by the Civil Judge; and therefore ignorance in this matter was an improbability, and yet the Court of Wards seem content to receive so monstrous a plea as a sufficient explanation.

17.

Your petitioner, as she has said, does

Fort St. George 11th April 1850.

does not pretend to perfect strictness of accuracy in her foregoing Account of the Zemindary's expenditure, but even supposing errors to exist of the magnitude of half a Lakh of Rupees, there still remains Rupees 700000 to be accounted for by the late Samoogum Seshear. Since however he declines doing so, for that, he is really incapable is an idea that must be altogether scouted, and as the Court of Wards apparently is willing to put up with his shallow pretexts for the Omission, Your Petitioner must endeavour to supply the Deficiency which she does from her own observation, and by consulting those sources of information upon which she sees reason to rely for correctness.

18.

First, then, of the 200000 Rupees in Cash and Government paper which was delivered up with the Zemindary, no account whatever is to be found in the Zemindar's Cutcherry. One bond however was of very large Amount, and by a close investigation of the mode in which it was finally disposed of (and which it is in the power of your Court to order) a clue might be gained to the circumstances of, as well as the actors in its appropriation. But in the absence of all vouchers for the disposal of the money, the conclusion must remain inevitable, that it was improperly made away with and equally so, that Cotty Josey was privy to this. The Collector indeed himself issued an order to the [redacted]rdian on the 23d June last, to account for these 200000 Rupees, to which however, no attention, in any way has been paid. It is also worthy of remark here, that a portion of this two lakhs of Rupees went without doubt into Ramanadha Chetty's pockets, besides which there were balances owing

owing by this individual for his contract for Fusly 1255 to the extent altogether of about a Lakh of Rupees, and yet Ramanadha Chetty now prefers through the Guardian a claim of Rupees 70000 against the Estate! a circumstance obviously demanding the most rigid scrutiny.-

19. On the day of Gowry Vullaba Saver's death about 150000 Rupees were in the Zemindary Treasury- This fact is popularly known- Subsequent to the Zemindar's death no less than 130000 Rupees of this disappeared- The possession of the remaining 20000 Rupees was reported by the Guardian, and makamungs, and no one is called upon to explain the matter- There are matters which your Petitioner believes to be quite susceptible of proof under a due enquiry- The Palace accounts for Fusly 1254 and 1255 were examined in conjunction with the Guardian's people, and after comparing receipts and Disbursements, it was found that a Balance of Rupees 30000 remained in hand.- An examination of the accounts of the other Fuslies would have shewn that such balance reached the above quated sum of 150000 Rupees and yet, as observed, 20000 Rupees only was reported as being in the Treasury.-

20. Again shares in the Shembanoor Village have been purchased with the Zemindary funds- These were taken and continue in Cooty Josey's name.-

21. Lands have also been purchased in Villages of the Mayloor Talook and other Villages to an amount of Rupees 20000 which are still unaccounted for.-

22 Turning now to another feature in the management, it is to be mentioned that the Guardian Cooty Josey rendered an account the Estate to the Collector, for the period intervening between Death of the Zemindar and its

The Zemindar died on the 3d February 1849 on the 8th the Collector wrote prohibiting an Extra Expense See Packet No- The Zemindary was taken under the Court of Wards on the 5th April 1849- FOR

its being taken under the Court of Wards. by which he made the disbursements, exactly square with the receipts, these being severally in amount 360000 Rupees- The Statements by themselves furnish the means of proving gross misappropriations and an embezzlement of 20000 Rupees; a fact which has been brought to the notice of the Collector by your Petitioner, but without eliciting any notice from that functionary- This is far however from being all- Inclusive of the above period, and up to the time of the sequestration of the zemindary by your Courts' orders of 30th April the income derived from the 8 Villages released for the Minor the Velleyathoor the Seeravanoor the Patuna allemecatteum the Seeroopachayty and other Villages amounting to Rupees 30000 have been illegally appropriated and this the Village accounts alone will suffice to elucidate.-

23 It is under every consideration most deeply to be regretted, that on the occurrence of Gowry Vullaba Savers death, the

Fort St George 11th April 1850.—

the Collector of Madura did not forthwith attach the whole Estate— The consequence of his failing to do this was that when the account above alluded to with the self balancing entries of Rupees 360.000 in each side was produced and the Collector took the guardian to task for extravagant and unauthorized proceedings, this latter was enabled to excuse all under a plea of necessity and the latitude allowed him.

24 Allusion has already been made in the 16th para to the debts said to have been incurred on account of the zemindary. These have been represented by Cotty Josey to amount for the Fusly 1258 to a sum of Rupees 22,2318 - 3 - 2. It is firmly believed that this account of Cootty Joseys is a tissue of fraud and it will satisfy your Court that the idea is not entertained without good grounds, to observe that your Petitioner has within her own power the means of proving this in respect of one leading item. Amongst the creditors is set out the name of one Thavacootty Pitcha Cootty chetty for a

Fort St George 11th April 1850.—

a sum of above a lack of Rupees. A part of this is stated to have been lent by him on the 3d October 1848 for the purpose of a payment to the Yettapoorum zemindar, and the sum is entered at Rupees 30,000 The fact however is that no sum of such extent was disbursed to the Yettapoorum zemindar, and that the payment actually made was only 20,000 Rupees. It follows that in this item alone a fraud is committed of 10,000 Rupees and such a circumstance clearly establishes the necessity of a most rigid investigation of the whole account. But whether it is likely to receive this unless your Court should see fit to interfere for the protection of the interests concerned your Court will judge from the following record of Proceedings that have taken place and which are only on a par with the neglect shewn to all your Petitioners applications to the representation of the Court of Wards—

25 after the death of the late Zemindar in February 1849. the guardian and one

one Pachacotty Chetty concocted a story of the Zamindar having before his death borrowed Rupees 11750 from the latter and given him a lien /Tunnaka/ on the Paddy of the Taluk of Mungalum yemaneswarum the produce of Fusly 1258.— In the month following the Zemindar's death March one Nacheappah Chetty brought the like sum to the guardian which was received by him with one hand and with the other paid over to Pacha Cootty Chetty the lien on the Paddy being then transferred to Natchiappa Chetty.— During the first guardianship, he received 3000 and odd Rupees worth of Paddy.— The balance was claimed as a debt owing by the Zemindary your Petitioner addressed the Collector on the subject of the fraud but the only enquiry made was as to the alleged receipt and payment in March and none whatever instituted regarding the pretended Origin of the transaction antecedent to the death of the Zemindar.—

26. Next Pachaia has acknowledged having

having in her possession the gold waist band and Betle Box and Rupees 20,000 in cash of the Zemindary effects, but which she alleges to be her own property, and therefore refuses to surrender.— The waist band was sent for and examined by the Collector, who ascertained that it was a mans ornament.— He requested instructions regarding the whole of the articles from the Court of Wards, but he has been told to await the issue of the suit before your Court.—

27 Again a large quantity of building materials had been collected by the late Zemindar for a Bungalow he was building in the Palace. Since his death these have been appropriated by Mahamy Machiar for her own house and given away without eliciting any notice of such waste from the Collector

28 Prior to his death the late Zemidar had collected precious stones for some Jewels he purposed making, to the value of 5,000 Rupees. The guardian possessed himself of these

and

and on the estate being taken under the Court of Wards, he represented that the Jewels had neither been bought nor paid for and that the merchant owners were claiming them. The Collector without enquiry, at once sanctioned the transfer to these imaginary parties.

29 Your Petitioners late husbands on first acquiring the Jemindary, cleared land formed 50 new Villages, and gave the land on lowle Durmasanum tenure. The increasing Cultivation was annually examined and rated.— Thus it continued until taken under the Court of Wards, when the manager, finding a large increase in one of the new villages, reported this to the Collector, and asked to examine all the others— But the Collector did not heed this or make a Summabundy for Fusly 1258, but directed rent to be collected according to the first Puttah which entails a loss of about Rupees 1500 annually on the Jemindary.—

30 When the Jemindary was taken

taken under the Court of Wards, an account / Moothundal / of previous payments of Kist in the time of the Jemindar should have been taken the Kists Commence in November and the Summabundy is not made till February or March or even later and this should have shewn the proportion of the years revenue paid and the balance forthcoming the amount of Collections remitted to Head quarters, and the amount remaining in the Talook treasuries; and all this should have been proved by legitimate documents no such Moothundel account, however, was taken or settled by the new Establishment. the guardians own exposition was received its accuracy taken for granted, and the Summabundy of Fusly 1258 left to rest upon it— But even this equivocal document did not stand undisturbed by its framer when the Summabundy was settled on its basis some ryots pretended they had made payments to Coitty Josey and Brahamy Nawaar but could

could produce no receipts which they
alleged it was not the practice to give
Cooty Josey and Mahamy Kansheyar
however supported their statements by
Vrzees, notwithstanding that such in-
volved a falsification of their own as
Moothundal Account. These and other
inventions are also received implicitly
by the Collector and remissions
granted on them to the grievous injury
of the estate and the encouragement
of connivance to compass this end.—

31. The allowance granted to
the Minor may also be noticed, a
monthly sum of Rupees 2,000 was
recommended by the Collector but a
reduction to Rupees 800 urged by the
Court of Wards. But the Collector
without considering the reasons given
for this latter recommendation, sanctions
the full Rupees 2,000, yet when the
Ramnad Zemindary which is one
third larger and richer than that
of

of Shevagunga was under the Court of
Wards an allowance of only Rupees 614 was
then sanctioned for the Minor.—

32. In the foregoing details your Petitioner
has brought before the Court some of the
leading facts which she has been able to
ascertain regarding fraudulent and negligent
proceedings in connexion with the Shevagunga
Zemindary she would fain avoid troubling
your Court with a greater amplification of
these and with particulars of minor import-
ance but before leaving the question finally
in its hands she would desire to expose
to it the irregular and suspicious nature
of the Palace accounts of the Zemindaries
management, for which under his own
admissions, Cootty Josey is directly res-
ponsible.—

33. Four separate accounts were
kept.—1, The Summabundy account
of the revenue of the Zemindary in the
Seemai Peishcars Cutcherry—2 The
Samuggini Cutcherry account. 3 The Zemindars
private account & an account of the Jewels
and

and valuable of the State, called the Bungara attavany Accounts. These accounts are at the present moment all sealed and lodged in the Collector's Cutcherry. The course pursued in the routine of management was for orders to be forwarded to the Seemai Cutcherry from the Samoogum Cutcherry directing Money to be sent, on account of the Samoogum Cutcherry or on account of the Palace escpenses, or an account of the Bungara attavany accounts, and due entries of such disbursements were made under the proper heads in the books of the Semia Cutcherry which should of course correspond with the several accounts kept in the different departments for which the money was paid. Further orders were given from the Samoogum Cutcherry, to the Seemia Cutcherry whenever loans were taken and these directed the monies so borrowed, to be placed to the particular accounts for which they were taken as in the other case, these separate departments should contain correspondin entries But such is not the case. There are failure in the Department accounts which shew that the monies

T.B.

monies were not duly applied in those particulars instances, thus leaving the inevitable inference that they must have been in some way misappropriated. It has been found that of the orders sent to the Seemai Cutcherry for money, some bore the joint signatures of the Rajah and of Cootty Josey, but others, that of Cootty Josey alone.

24. The risk of injury and detriment to the Estate under a continuance of Management which gains so bad a reputation from the past, is not however the only evil which your Petitioner has to apprehend. The instance given by the Court of Wards at the conclusion of its addressed to your Court of the manner in which collision might come to occur between the Revenue and Judicial authorities is pregnant with dangerous meaning. It is said "Thus to give only one instance by "Section XVII Regulation V of 1804, all debts due "by incapacitated proprietors to private creditors "may be liquidated by Collectors on the permission "in writing of the Court of Wards. Now that "Shevaguinga Estate is under attachment, it is "probable that the Court of Sudder Udalut will "require to be consulted before any such

claims

"claims, or at least those to a considerable
"amount are discharged, and it is possible that
"the two authorities may take different views in
"regard to the validity of such claims, and the
"mode in which they are to be dealt with." The
very case here supposed, but without the beneficial
check spoken of, is now about to occur. This Estate
of Shevagunga with its certified two laks of
surplus annual Revenue is/as has been
notified in an early part of this petition pre:
=tended to be in debt; and a reference is made
to the Court of Wards on the subject of discharg:
=ing the Petitioner's claims; now who is to interfere
in such a matter for the real benefit of the Estate?
the Collector having shewn his faith in the late
Samoogum Peeshcar will naturally refer to the
present guardian. The guardian having a guilty
complecity in the past dissipation of the
resources of the Estate, and as there is reason=
able ground to believe, a present interest in
the admission of the demand now made, will report
favorably upon them. The reference for sanction
of

of the Board or Court of Wards may be but the
echo of this, and the result will probably be a
new waste of current means to the enrichment of
those who ought instead to be compelled to render
a full and faithful account of their Stewards=
=ship of the past.

35. Under all these considerations your
Petitioner deems herself entitled to pray for your
Court's interposition to guard the resources of the
Shevagunga Zemindary from the waste and mis=
=appropriation which however well intentioned may be
the guardianship of the Court of Wards, cannot be
adequately restrained while Cootty Josey is allowed
to hold the influential Office in which he has
been placed. This interposition, she trusts your
Court will see fit to exercise, in a renewal of the
sequestration ordered on the 30th April last;
but should your Court not deem it expedient to
take this exctreme step without an enquiry into the
various matters that have been here set forth,
then your petitioner has urgently to solicit that
a special Commissioner, wholly, unconnected
with the concerns of the Madura Province

may

may be sent down to conduct the investigation, and as an additional incentive to your Court's serious consideration of her prayer, she will here bring under its notice the fact that while the Summabundy Bareeze of the Zemindary for Fusly 1257 was Rupees 5,05,391-4-8. that of 1258 is only set down in the accounts as Rupees 3,86,464-13-10. or at a diminution of no less than Rupees 1,18,926-6-10 on a single years.

Madras, 18th March, 1850.

And your Petition as in duty bound will ever humbly pray.

(Signed) James Ouchterlony
Pleader.

Proceedings thereon-

(53.54)

The Court of Wards resolve to transmit Copies of the foregoing letter and enclosure, together with copy of the papers noted below for the information of the Collector of Madura-

To Government 26th July 1849.
From Government 23d August in Cons: 13th September
To Government Vakeel 13th Do: with Motion.
Proceedings S.W: 8th in Cons: 15th October---
To Government 15th October ---"-

Ordered that a copy of the foregoing Proceedings be transmitted to the Government Vakeel for his information-

Resolved

Resolved that the following letters be dispatched-

To The Collector of Cuddapah.

(55)

To the Collector of Cuddapah.

Sir,

In returning to you the enclosed Statement No. 17 which accompanied your Summabundy Report for the past Fusly, I am directed by the Board of Revenue to point out to you that it has reference to items falling under what are usually designated "Extra sources of Revenue", and not to the Sewoy Summah properly so called, or as it is termed in the monthly Demand Collection and Balance Sheets "Extraordinary Revenue" to which the Board's Circular of the 8th October last applies and which, as you are aware comprises the Revenue from Cultivation carried on after the Settlement, the proceeds of unclaimed Enams, of concealed Cultivation and such like items as are referrible to no particular head of account. You will therefore be pleased to cause a fresh Statement to be drawn up in substitution of the one

one now returned exhibiting in the prescribed form the several items with the Demand Collection and Balance for each item, Current and in arrears.—

Revenue Board Office,
Fort St. George,
11th April, 1850.

/Signed/ W. H. Bayley.
Secretary.

To,
The Acting Collector of
South Arcot.

56

Sir,

To the Acting Collector of South Arcot.—

The Sevoy Summah Statement, Marked **F** which accompanied your land Revenue Settlement Report for the past Fusly not being prepared in the Form furnished in the Circular from this Office dated 8th October last, I am directed by the Board of Revenue to return to you the same, and to request that you will cause a fresh Statement to be drawn up in place of it, shewing clearly the amount under each item that is due to each fusly.—

Revenue Board Office,
Fort St. George,
11th April, 1850.

/Signed/ W. H. Bayley.
Secretary.

To,

To,
The Acting Collector of
Tinnevelly.

57

Sir,

To the Acting Collector of Tinnevelly.—

†Rupees 14954—4— Adverting to the large amount of arrears, mostly of long standing, on account of the Sevoy Summah in your District as appears from the Statement No. 16 which accompanied your Summabundy report for the past fusly, I am directed by the Board of Revenue to request that you will retain in the accounts such portion of it only as upon further inquiry may be considered recoverable, and recommend the remainder to be written off.—

Revenue Board Office,
Fort St. George,
11th April, 1850.

/Signed/ W. H. Bayley.
Secretary.

Received the undermentioned
58 Miscellaneous letters and Statements.

From the Collector of Vizagapatam. Returning a Statement of charges incurred under Estimate in Fusly 1258.—

From the Acting Collector of Bellary.
59 Stating that the returns of persons charged with offences or confined under Regulation IX. of 1822 have not been sent for the months of January and February last.

From,

5487. Fort St. George 11th April 1850.

60 From the Acting Collector of Bellary. Stating that no Revenue defaulters have been either confined or released for the quarter ending 31st March last.

61 From the Sub Collector in Charge of Salem. Return of fines imposed and stoppages made from the pay of the public servants for the quarter ending 31st December last.

62 From the Sub Collector in Charge of Salem. Return of alterations that have occurred in the list of fines imposed and stoppages made from the pay of the Public servants for the quarter ending 31st December last.
