Bs. No 2785

In the first of the cases submitted by the Collector of Salem in his Tabular

Fort St. George 27th November 1851.

Tabular reports of the 28th August last, it is observed that the celebration of the Festivals for which the Enams are said to have been assigned by Capt. Munro, has been discontinued for the last 21 years, and the proceeds of the lands appropriated to the personal benefit of the inhabitants of the Villages. Under these circumstances the Governor in Council concurs in the proposal to resume the Enams; and desires that the Collector may be instructed accordingly.

2. As the Circumstances in the other 3 cases are represented to have fallen to decay and the Relatives of the original founders have failed to restore them, the Board of Revenue advise the resumption of the Enams granted for their support, and that the proceeds in deposit, which have accrued from the lands attached to the Buildings at Poja-cottah, be carried to the public accounts. They however suggest in regard to the third case, that should it appear that the lands

forming

forming the endowment of the Chuttrum, at Chittracoondy are under cultivation, and that the widow of the late holder derives any maintenance from them, a portion of the Enam valued at or about 100 Rupees per Annum may be continued to her for Life. To this latter part of the Board's proposal, the Governor in Council will not object; but before authorizing the resumption of the remainder of the Enams he would wish to know whether the several Choultries are likely to be useful to the public, and if so, whether they might not be repaired and kept up from the Revenue yielded by the Enams and from the proceeds in deposit.

B.D. No. 2503.

From the Collector of Bellary.

Sir,

In reply to your letter of 9th Instant requesting me to report on the result of the working of the Dharwar Cotton Gins in this District I regret to be obliged to state that the experiment made this year with them has not been successful. But I attribute the want of success partly to the great difficulty always experienced in obtaining the cordial Cooperation of the Ryot in any new experiment and partly and chiefly to their not understanding properly how to use the machine and to correct any thing when going wrong. I have been in communication with the Collector of Dharwar on the subject and at his suggestion I have determined to give the Gins another trial during the Cotton season early in next year and to confine the experiment to one or two intelligent Ryots and I wish either to procure Carpenters from Dharwar to

States in reference to the Board's letter of the 9th instant that working of the Dharwar Cotton Gins in this year has not been successful owing to the ryots not understanding how to use the machine and to correct them when they go wrong, states his intentions to give them further trial during the Cotton season in next year, states that it will be necessary to employ Carpenters instructed in the working of the Gins and requests sanction for the employment of two for six months on a total salary of 35 Rs. per month and expects by adopting this method to send a more favorable report of the Gins next year and encloses copy of a letter from the Collector of Dharwar.

to superintend the working of the Gins and and to be on the spot to correct any part of the machinery that may get out of order or to employ men here after being instructed at Dharwar and I hope the Board for this purpose will be so good as to obtain sanction for the employment of two Carpenters for six Months on a salary of 35 Rupees per Month for the two, 5 Pagodas each I am quite satisfied that the Gins will succeed in proper hands as I know that a net saving of from 25 to 30 per Cent may be effected in using these Gins But they must be introduced very gradually, and the success in the hands of one or two Ryots only must be fully established before attempting to distribute them more generally as done last year and by now adopting this method I hope to be able to send a favorable report of them next year.

Trusting the very favorable and not exaggerated report of the Dharwar Cotton Gins I had procured several for the more wealthy Ryots who paid for them but they have from want of skill in using them been disheartened I have still

still the 5 sanctioned by Government in hand which I propose next year to give a fair trial to.

I beg to send Copy of a letter on the subject of these Gins from the Collector of Dharwar with its enclosure from Mr. Frost the Superintendent of the work at Dharwar. I shall perhaps at a future time take into consideration the propriety of recommending to the Board the employment of one or more of the apprentices mentioned in that correspondence. at present the employment of a couple of instructed Carpenters to visit all the Gins distributed this year and which failed for want of this assistance is all that is needed, for which I request early sanction.

No. 1551 of 1851.

To,
C. Pelly Esqre
Collector of Bellary

Sir,

In reply to your communication dated the 28th Ultimo, I have the honor to forward for your consideration the accompanying Copy

Copy of a letter from the Superintendant of Cotton experiments dated the 8th instant No. 151.

2. As some of the Districts of your Collectorate appear to be peculiarly well adapted for the cultivation of New orleans Cotton which cannot be freed from the seed without saw Gins, I think it would be very much to be regretted if the experiments there were discontinued and I trust therefore that you may be disposed to adopt Mr Blunts suggestion.

3. The Government of Bombay has recently sanctioned the appointment of four apprentices at Rupees 50 per Mensem to be placed under Mr Frost the Mechanic of the Gin factory here, who as soon as they are sufficiently acquainted with the work are to be employed in other Collectorates. Perhaps on your representation the Government of Madras might be induced to sanction the appointment of at least one such apprentice who after being duly instructed here might be stationed in your Collectorate and might be expected in time to train up a body of natives

workmen capable of making all needful repairs to the Saw Gins.-

Collector of Darwar.

Sir,

1. With reference to the letter of the Collector of Bellary dated 28th August 1851 received under cover of your Endorsement No. 1495 September 1851, I regret to learn that the Gins have not been succesfully worked and that Mr Pelly despairs of the successful introduction of these Machines amongst the Ryots in his District.-

2. The only difficulty in the way of their introduction appears to be the inability of the Ryots to alter or correct the Machine when going wrong- This difficulty might have been expected with a people so unacquainted with Machinery as the Ryots, and has often happens in this District, but as the people are getting more used to the management of the Gin is not of so frequent occurrence, as formerly I suppose there is some prejudice also existing

to

15513. Fort St. George 27th November 1851.

to the use of the Gin as was the case here, but by a perseverance in the use of the Gin I have no doubt both objections will be overcome.

3. I would therefore propose that Mr. Pelly be requested to give the Gins a further trial as I am confident the Gins will be approved of when seen properly at work.

4. As the Gins are out of order & need repairs I will as soon as the Monsoon is over, if requested send a workman from this Establishment to do whatever is needful and put them to work and to remain there for a Month, or longer and during that time if a clever workman is put with him he will instruct him how to put up repair and work a Gin.

5. I am very anxious that the Gins should have a further trial as I am certain they will be found to answer as well as in this District where there are now owned and worked successfully by the Natives 70 of these small Gins.

No. 73.

20

To, W. H. Bayley Esqre.
Secretary to the
Board of Revenue
Fort St. George.

B. No. 1745.

From the Collector of Cuddapah ... 1.

Reporting on the working of Saw Gins received from Dharwar and Coimbatore.

Sir,

I have the honor to reply to the Extract from the Proceedings of the Board of Revenue dated the 27th February 1851.

2. Six iron Cottage Saw Gins have been received in this District from Dharwar, two of each kind have been sent to each of the two Talooks of Jammulmadoogoo and Koilgoontla, and the rest are in the Cuddapah Cutcherry.

3. During the late Settlement in each of the two Talooks abovementioned, the acting Collector took the opportunity of all the Ryots being collected to shew them the working of the Gins and offered to obtain any number of either sort for their use, if they expressed their willingness to have them and to pay for them they were also subsequently shewn

shewn to all the people at the Talook Cutcherry.

4. I cannot learn that any disposition was shewn by the Ryots to avail themselves of this offer, and on the contrary they appear to have been averse to the introduction of the new machines, objecting to the heavy extra expense they would be put to in working them.

5. Since I have been at Cuddapah, I have personally shewn the Gins now in the Cutcherry to Cotton Merchants, to Ryots and to others and endeavoured to explain to them that although the extra labour of working a Saw Gin may be some drawback to its use, the higher price they would obtain for better cleaned Cotton would more than counterbalance the loss. Of this however they do not seem to be convinced, and I failed entirely in my endeavour to induce them to give the question a trial.

6. The people further object to the Gins that they tear the thread, and render it useless for the weaver, and on comparing the

outturn of the Saw gin and the churka, there appeared some ground for their objections, they also complained that the gin did not clean the Cotton off the seed nearly so perfectly as the common churka, from which they said that they lost about one sixth in quantity — and that owing to the mass of Cotton left adhering to the seed, their cattle would not eat it and that this was therefore an additional source of loss.

7. at present I do not see any prospect of the introduction of the gin by the mere force of argument, the people are strongly attached to their own ways and to old customs, and have in the present case some objections to urge, which are practical and if they stood alone would be sufficient — their insufficiency would be shewn if any capitalist were on the spot to give the Ryots a practical proof that well cleaned cotton would bring a higher price than that which was dirty, and until they are thus led to feel that their interest are at stake, although any efforts shall not be relaxed

I,

I am not sanguine of prevailing over prejudice by argument alone

Ordered that the foregoing letters be submitted with the following address.-

No. 572.

To, The Chief Secretary to Government.

B. No. 2387.

To the Chief Secretary to Government. } Sir,

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes of Consultation 11th February 1851 enclosing copy of a communication from Dr. Wight the Superintendent of Cotton Farms contrasting the working of the Dharwar Cotton Saw Gins with the more favorable operation of those of Coimbatore and directing the Board to furnish copies of that report to the Collectors of Cuddapah and Bellary and call upon them to state the use made of the Dharwar Cotton Gins which they have been previously [illegible]

Submitting with reference to Extract Minutes Consultation of 11th February 1851 the report of the Collectors of Bellary and Cuddapah, on the subject of the Dharwar Cotton Gins expressing the Board's regret to notice the unfavorable results attending the operation of them in those Districts: and supporting however Mr. Pelly's application is for a further trial

(Signed) 27th Nov. 1851

trial for one year more.-

the results of their working in their respective Districts.-

2. In reply I am directed to submit the replies of those Officers to the reference made to them upon the subject.-

From Cuddapah 23d July in Cons 27th Nov. 1851.
" Bellary 18th October in Cons 27th Nov. "

3 In Cuddapah Six Iron Cotton Gins were procured from Coimbatore and Five wooden ones from Dharwar two of each were sent to the Talooks of Immumdmudoogoo and Koilgoontla and the remainder retained in the Collector's Cutcherry. The Acting Collector during the late Settlement, took measures publicly to show the working of those in the two Talooks mentioned, and offered to comply with any requisition for them, and Mr. Forbes has himself also exhibited the working of the Gins in his Cutcherry to Cotton Merchants Ryots and others and explains to them that the higher price they would obtain for better cleaned Cotton would counterbalance any outlay in the purchase of the Gins.-

The inhabitants are however stated

4.

stated to be averse to the introduction of the Gins 1st on account of the extra expense they would be put to 2nd because the Gins tear the fibre and render it useless for weaving which is not so much the case with the use of the Churka and 3rd Because the Gins do not clean the Cotton wool off the seeds so perfectly as the Churka, but leave it adhering to the seed which their cattle will not in that case eat.

5. Mr. Forbes is of opinion that until some Capitalists settles on the spot to give the Ryots practical proof that well cleaned Cotton will bring a higher price than the dirtier sort and so induce them to feel that their interests are at stake there is no prospect of substituting the Gin for the Churka generally throughout the District.

6. The Collector of Bellary attributes the failure of the experiment in his District partly to the want of cooperation on the part of the Ryots, but chiefly to their ignorance in using the Gin or in repairing it. Previous to the sanction of Government for the Five Dharwar Gins, which

which he has received but reserved for trial next year for one or two intelligent Ryots, the Collector would appear to have procured some Dharwar Gins for the wealthier Ryots who paid for them, but who from their want of skill in using them have since been disheartened. Mean time that Officer requests early sanction for employing Two Carpenters for six Months each at 17½ Rupees per Mensem to superintend the working of the Gins in the ensuing year, and to repair them when out of order, being quite satisfied that the experiment will be attended with successful results if the Gins are placed in proper hands, and that they will yield a net saving of 25 or 30 per Cent. Mr. Pelly encloses copies of letters from the Collector of Dharwar and the Superintendent of the Gin Factory there, on the subject of these Gins in which it is suggested that he should apply for an Apprentice from the Factory to train up persons to repair the Gins when out of order on this point Mr. Pelly promises to address the Board if necessary.

The Board regret to notice the

the unfavorable results which have hitherto attended the operation of the Dharwar Gins in both the Districts of Cuddapah and Bellary but are unwilling to abandon the experiment without giving it every reasonable trial - they therefore support Mr. Pelly's application for a further trial for one year, and for his employing the two Carpenters for six months at a cost not exceeding Rupees 210 - - -, and would suggest that the Gins in Cuddapah be retained pending the issue of the further trial in Bellary.

Sir,

In the Boards Endorsement on petition N°. 2241 of 1851, I am directed to report if it be my opinion that the conduct of petitioner be such as to have required his dismissal from office under the orders of Government dated the 22d of May 1851.

2 Petitioner was a Goomastah in the Treasury when the defalcations which have been lately investigated took place and could not have been ignorant of the late Cashkeeper's proceedings, with which indeed he was so far mixed up that one of

of the fraudulent endorsements on a Government bill was made by him, and another by his son, at the time a volunteer in the treasury.—

3. Although it has not been considered expedient to prosecute for forgery in this case, I am very clearly of opinion that Petitioner's removal from Office, was a just punishment of his conduct, and that his restoration would have a very evil effect upon the public service.—

Sir,

I have the honor to acknowledge the receipt of your letter of the 4th Instant requiring me, with reference to the copies of correspondence therewith transmitted, to forward to the Board of Revenue Mr. Fullerton's receipt for the balance of Cash in the Treasury when he took charge of the District, and to explain why I have not applied for leave of absence on Medical Certificate.

from Mr. Fullerton on the occasion of his assuming charge of my Office during my late temporary indisposition, the nature of which did not, it was considered, rendered necessary that my Head Assistant should formally take charge of the District, or that I should apply for a Medical Certificate I was under the impression, my illness being an attack of fever, that the usual course of procedure was to guard against the ordinary duties of the District remaining in abeyance during the period I might be rendered unable to attend to them myself, a period which my Medical Attendant did not anticipate would be protracted and I trust under these circumstances that my view are in accordance with the views entertained by the Board of Revenue.

The Board observe that the fact of the Collector having made over the charge of his District to the Head Assistant Collector should have been duly notified to them with the usual receipt of the Cash in the Treasury and that if it was necessary for him to transfer his duties to his assistant, he should have applied for leave of absence. They desire that this course may be adopted in future.

B. No. 2848.

From the Collector of Chingleput.

Reporting on the settlement of Land Revenue of the Chingleput District for Fusly 1260 A.D. 1850-51. and submitting the usual Statements connected with it.

Sir,

1. I have the honor to forward herewith the Jummabundy Statements of the Land Revenue of this District for the past Fusly 1260 A.D. 1850-51. and to submit the following remarks on the Settlement, and the nature of the Season and consequent results.

*English Statement	*Mahratta Statement
from No. 1 to 23.	from No. 1 to 20.

2. The Talooks of Carangooly and Chingleput were settled by the Head Assistant Mr. Fullerton, and the Jummabundy of the remaining 8 Talooks was conducted by myself. The places at which the revenue settlement of the several Talooks was made are marginally noted.

3. From the remarks inserted in the Monthly Demand, Collection and Balance Statements, the Board are aware that

that although the nature of the season during the July under review was generally speaking unpropitious, it must be viewed as being on the whole not so unfavorable as compared with that of the preceding July The rains during the South West Monsoon in July and August having proved beneficial to the dry cultivation, it was carried on to a greater extent than in the preceding July, and the fall of rain experienced during the North East Monsoon in October and November, on which the wet cultivation (bearing as it does so great a proportion in the produce of the whole District) mainly depends, having in a great measure failed, the result has been productive of unfavorable consequences The decrease under this Head would have been still more considerable, but for the sudden freshes of the Palaur and Cheyar Rivers in October last, consequent on the heavy rains received in the Western part of the Country, by which certain Tanks in the Conjeveram and Ootramalore Talooks benefitted. The wet Cultivation in these Talooks was carried on in the July

July under review to a greater extent than in the preceding year.

4 - In consequence of these unpropitious circumstances of the season, much Nunjah land usually under cultivation remained unsown, and great loss was also sustained owing to Crops having been totally or partially burnt up from want of sufficient moisture. In addition to this, the occurrence of the late Gale in the commencement of May; the effects of which were felt throughout the District, has done considerable damage to the Betel and Plantain Gardens, and to a great portion of the Navaray Crops. The Bunds of several Tanks and Reservoirs throughout the District, but particularly in the Peddapollam and Nayer Talooks were likewise injured on the occasion. The unusually heavy freshes of the Cortillar and Araniee Rivers flowing through the above Talooks caused an inundation in certain localities, by which certain Heaps of Paddy, which had been deposited at no great distance from the Banks of these Rivers were

washed

washed away. To this Gale may also be attributed the very great mortality which has occurred among Cattle -

5. In conformity with the observations of the Board of Revenue as contained in the 2d Para of their Proceedings on the Settlement Report of the past Fusly, a Price List* showing the price at which the different sorts of Paddy were sold in the Towns and Villages accompanies this Report. The Board will from this observe that although the price has somewhat advanced as compared with that which maintained in Fusly 1259, the produce having nevertheless fallen considerably short of the Estimate upon which the survey assessment was based, the Prices that have prevailed during the last two Fuslies cannot be considered sufficiently favorable in respect to the adequate

remuneration

Remarks

Fort St. George. 27th November 1851.

From the foregoing Statement it will be seen that 2 Villages which were included under the head of Mutta or permanently rented Villages on the past Fusly were in Fusly 1260 brought under the Ryotwar Settlement, their leases having expired with Fusly 1259. These Villages were rented in Fusly 1230 for a period of 30 years, their survey assessment having been fixed in Fusly 1247 by Mr. Maclean, the then Collector of this District. It will also be observed that 3 Villages which were held under Amany management in Fusly 1259 have been rented out on Dowle or on Estimated calculation of the actual produce, to the Merassidars of the respective Villages in Fusly 1260. It is necessary to state for the information of the Board of Revenue that a sum of Rupees 77 a. 5 p. 8 being the Circar share of the proceeds of certain Inamm lands reverted to Government some years past from Saury Zemindary and Shrotriem Villages will be found entered under the head of Amany.

Under

Fort St. George. 27th November 1851.

Under the Head of Quit Rent in the Saury Zemindary Villages an increase of Rupees 1-2-5 has resulted as hereunder explained. The sum of Rupees 3-12-" newly leviable on 2 Gardens at the Mount agreeably to an Extract furnished by the Register of Government Grants with his letter of the 6th February 1851, and Rupees 2-10-5 being an increase of Quit Rent levied in Fusly 1260 on 2 Gardens at the same place in accordance with the Grants furnished by that Officer under date the 7th December 1849, exhibit a total increase of Rupees 6-6-5. It having however been ascertained that of the above amount Rupees 5-4-" had been erroneously levied on 1-21-1375. which had been included in a Grant comprizing 10-11-1075 burdened with a Quit Rent of Rupees 50-5-" per annum, the necessary deduction was made leaving as the increase a balance of Rupees 1-2-5 as above stated.

From

Fort St. George 27th November 1851.

9. From the annexed Statement it will be observed that in the wet Cultivation of the 1011 Villages under the Ryotwar Settlement, there was a decrease of 4182-14 7/8 of single crop lands cultivated with a first crop, with decrease in the Beriz leviable thereon of Rupees 17090-0-0 while there was an increase of Cawnies 1131-2 7/8 bearing a Teerwa of Rupees 3,953-2-2 in the same description of lands which were cultivated with 2d Crop. In the Cultivation of wet land assessed with a consolidated two crop Teerwa, there was an increase of Cawnies 170-12 1/8 as the assessment on which amounted to Rupees 2221-4-9. In the Poonjah Cultivation there was likewise an Increase of Cawnies 5,200-9 1/4 as bearing an assessment of Rupees 10,328-0-1. The accounts of the Garden Cultivation shew a decrease of Cawnies 11-7 as assessed at Rupees 278-5-8. The decrease under the Head of Ready Money Collections amounted-

amounted to Rupees 515-10-0. The increase on the several Heads above exhibited has been more than Counterbalanced by the remaining Items of decrease leaving on the whole a decrease of Rupees 1,321-3-2 as marginally indicated. The Remissions under the usual Heads for the Fusly under review fall short by Rupees 72,139-3-2 of the amount so granted in the preceding year; and the net Increase in the Total Revenue Collections of the District therefore amounted to Rupees 70,818-0-0 or 10 3/4 per Cent.

The same Statement likewise exhibits an increase of Rupee 1-4-6 in the Item of Quit Rent in the Taravary Villages viz: 8 annas levied in the Fusly under review on a piece of land found to have been entered in a certain Garden at Trissoolum in the Sydapet Talook in excess of that specified in the Grant, and 12-6 the rent of a portion of a Garden taken last year for the High Western Road but subsequently relinquished.-

11. Statement No. 6 which gives the Cultivation under each source of irrigation and exhibits an increase under the heads of Double Crop Wet land irrigated by Tanks and Wells as also in Single and Double Crop Wet land irrigated by means of Rivers and Spring Channels.- These Items of increase are mainly attributable to the Freshes of the Palaur and Cheyar Rivers as alluded to in Para 3.-

My

12. My Predecessor in the 11th Para of his Report for Fusly 1259 has stated that in average years the average Beriz of the 25 Villages in which the Survey Assessment was introduced in that Fusly would amount to Rupees 20,000 per annum. The Beriz realized from these Villages being Rupees 338-4-1 it appears only necessary to observe that the year under review in reference to the nature of the season cannot be considered to come under the denomination specified. This amount falls short of the Permanent Beriz by Rupees 1150-15-5, and exceeds by Rupees 3296-11-10 the Beriz of the preceding Fusly.-

14. The Beriz of these Villages has considerably fallen off in the Fusly under review, a result which can alone be attributed to the unpropitious nature of the season. The Beriz derived from Khanw was also greatly below the Permanent Beriz as marginally noted.

15. In accordance with the Instruction of the Board of Revenue dated 19th November 1849. a Statement marked DD shewing the Cultivation &c. of the late Mootah of Muppadoo is subjoined

M.

Fort St. George 27th November 1851.

Mr. Freese having in the 15th and 16th Paras of the Settlement Report for Fusly 1259 entered minutely into the Conditions of these Villages, it is only necessary to observe that the Wet and Dry Cultivation of these Villages has greatly fallen off owing in like manner to the adverse nature of the season. The total Beriz of these Villages shews a deficit of Rupees 327-24 in comparison with that of the preceding Fusly, and of Rupees 997-10-2 a/k in reference to the Permanent Beriz

18. The Remissions granted on account of Shavy or Crops burnt up and injured by drought amounted in the Fusly 1260 to Rupees 64,671-7-8 In granting these remissions care has been taken to the various claims to indulgence preferred by Ryots at the Settlement, and remissions were confined to Cases in which the loss was proved to exceed 10 per Cent of the amount to which Ryots were liable according to their holdings. The general circumstance of each applicant the produce which he derived from other Cultivation, and existing prices were also taken into consideration, and every attention was likewise paid to the instructions of the Board of Revenue as contained in their letter of the 27th January 1851 prescribing the course to be pursued in reference to the grant of this indulgence. The Assessment of the lands the Crops of which were entirely burnt up amounted to Rupees 44,722-12-3; of this sum Rupees 41,724.5.2 were remitted. The Remissions allowed for partial Crops amounted to Rupees 22,947-2.6 the assessment on the lands the produce of which so failed being Rupees 26,602-13-9 In a few cases however in which the Ryots were ascertained to be in unpoverished circumstances and totally unable to meet the demand against them

them, remissions were allowed to them, notwithstanding that the losses they experienced in the failure of their Crops fell short of the prescribed percentage in reference to the Beriz or demand against them, the sum thus remitted amounted to Rupees 1020-5-0

An increased Remission of Rupees

19.

582-6-9 was allowed in Fusly 1260 on account of Crops inundated, and of Rupees 439-15-8 for Crops which were overflooded during the late Gale; the remissions under these 2 Heads were confined to cases of absolute necessity as ascertained on due enquiry held at the time of Jummabundy-

Under the Head of "Teerwah Coumy"

20.

Rupees 70-15-3 were remitted in the Fusly 1260. These remissions have not reference to the Cultivation of dry products on Wet lands, which were under the orders of the Board permitted in last year, as a special case, but were granted under other circumstances which I beg to explain. Prior to the introduction of the Survey assessment in the Sydapet Taloob Cowles were issued to certain Ryots for Garden Cultivation on fixed Money rents; but subsequently in Fusly 1248 on the introduction of the Survey assessment the rates having generally exceeded those fixed on money rents, the Cowle Ryots it appears were required to pay the former; upon which they petitioned the Board of

Revenue

Revenue in respect to the severity with which the demand pressed on them. The Board having then issued instructions under date the 3rd June 1839 to continue the money Rent until the Paravary Settlement shall have been finally confirmed by them, the amount of difference between the money rent and the Survey assessment has consequently hitherto been included under the Head of "Pymash Cowny" but as the term Pymash Cowny relates to the deficiency in the extent of land surveyed, the amount in question has been transferred in the Fusly under review to the Head of "Teerwah Cowny". The amount thus brought under this Head amounts to Rupees 35-11-6. I beg to state for the information of the Board that another Item of Rupees 35-3-6 is likewise included in the same Head under the following circumstances. Mr. Juran having some years since purchased + Cs. 16-9 as. 5/8 of Nunjah land bearing an assessment of Rupees 53-4-8. in the Village of Cotoor formed a Garden, and planted it with young Cocoanut Trees. The lands in question seem to have been assessed as Nunjah under the impression that they were irrigated by a Tank belonging to that Village, which however is ascertained not to have been the case as they are situated on too

+ In Fuslies 1249 and 1253.

high a level to admit of their deriving their means of irrigation from the above source. The Proprietor dug two Wells in the locality, but from the stony nature of the soil met with disappointment in his undertaking, in consequence of which most of the plants have proved unproductive, and he has consequently been unable to pay the full amount of the assessment levied on his lands. The Balance outstanding against him for the Fuslies Marginally noted amounted to Rupees 296-7-5, and as there appeared no prospect of recovering the amount, it has been annually remitted under the Head of irrecoverable balance, under these circumstances and in consideration of the peculiar nature of the case as above explained, my Predecessor in Fusly 1259 directed that Punjah Teerwah should be levied on the lands in question at the rate of Rupees 1-1-6 per Cawny, remitting the difference between the Wet and Dry Teerwah as Marginally noted under the Head of "Teerwah Cowny". The circumstance does not seem to have been alluded to in the Settlement Report for Fusly, probably because the amount has been included among the Items remitted

remitted on account of the Cultivation of Dry products on Wet lands, under the instructions of the Board of Revenue dated 7th January 1850. This added to the former Items forms the amount of Rupees 70-15-3 as noted above under the Head of "Teerwa Cummy".

21. In the Statement of the Tarawary Villages a sum of Rupees 60 is entered on account of a fixed remuneration granted to the Curnum of the Villages of Chengaud and Cundammungalum in the Manemungalum Talook for the services required of him; but a special application on the subject will hereafter be forwarded for the sanction of the Board of Revenue as required in the 17th Para of their Proceedings dated 10th March 1857.

22. The Statement No. 4B shewing the mere Ayacut extent of the 58 Villages settled by Mr. Hepburn has been dispensed with in the Fusly under review, the Survey rates of assessment having been applied to the immemorial Waste lands in those Villages brought under Cultivation, in accordance with the instructions of the Board of Revenue as contained in the 18th Para of their Proceedings-

25. The total amount realized on account of land Revenue within the Fusly amounted to Rupees 7,31,423-6-1, leaving a Balance of Rupees 191569-2-6 or 20 3/4 per Cent; of the above sum Rupees 161609-8-6 have been realized up to the 31st October last, leaving a Balance of Rupees 29959-10-- The realization of the Revenue has during the past year been attended with some difficulty consequent on the consecutively unfavorable seasons of the past Fusles which have occurred,

26. I now beg to subjoin a State=ment G of the old Balance of Land Revenue outstanding for Fusles 1257 and 1258 amounting to Rupees 3298-3-3. In the 31st Para of the last years Summahbundy Report, my Predecessor stated that a balance of Rupees 922-1-11 a p due on account of Fusly 1257 would be realized; Of this sum Rupees 713-5-- have alone been recovered, leaving a Balance of Rupees 208-12-11, of which Rupees 152-6-1 it is expected will be realized, the remainder Viz. Rupees 56-6-10 being due by persons who are in

in impoverished circumstances, or who have left their Villages is considered irrecoverable. There is a Balance of Rupees 3089-6-4 due for Fusly 1258, of which Rupees 1358-13-9. can alone be realized, the remaining sum of Rupees 1730-8-9 is totally irrecoverable, being due by persons who have deceased, absconded, and in impoverished circumstances. The total Items entered under the Head of "irrecoverable Balance" amount to Rupees 1786-15-5, as the realization of such portion of this large Balance from those who are present would no doubt entail, distress I would beg to recommend the abovementioned sum of Rupees (1786-15-5) one thousand seven hundred and eighty Sicca annas fifteen and Pice five be struck out of the accounts.

From the Acting Collector of Coimbatore

Sir,

In reply to the Extract from the Proceedings of the Board of Revenue dated 19th ultimo I beg to inform the Board that the Burghers sold 1 Cawny of Land to Captain Reilly with their own free Consent just before I left the District on Medical Certificate. No Money had been paid, nor was the arrangement fully completed or in a condition to be reported on, the arrangement between Captain Reilly and the Burghers was subsequently concluded in my absence after I left, and the whole has since been set aside by order of Government and the land has been returned to the Burghers.

1. In their Proceedings dated 19th ult. the Board desire that I will submit my opinion upon the points adverted to by the Beebee of Cannanore in her letter transmitted with my letter dated 29th March last.

2. I have the honor to state that in my opinion the Beebee of Cannanore has made out her case in her letter of the 20th March last, and shewn that whatever the wishes of the authorities might have been in 1795 on the subject of abolishing the Monopoly of trade between the Laccadive Islands and Cannanore by the +treaty entered into by the Government with the Beebee a year later, the Monopoly was virtually conceded.-

3. The letter of the Honorable Court of Directors of the 1st March 1797, in which they "very much approve of the measures that have been "taken for relieving the Inhabitants of the "Laccadive Islands from the oppressions of the

+ "To pay Government "Rupees 15000 per annum "being the Gumma on the "Havages, Purranni &c. "Situated at and "near Cannanore on "my Trade with the "Laccadive Islands, "and on my Sehm "Property on the said "Islands."

"the Beebee of Cannanore, and allowing them the
"same freedom of trade as is enjoyed by our
"subjects in the provence of Malabar," must, I
think, have been written before they had
cognizance of the treaty contracted only four
months before.

4.

No one can be more desirous than
myself that this injurious Monopoly should be
at an end, but I do not see that it can fairly
be estinguished without the consent of the
Beebee.

5.

The Board remark in this
letter that Laccadive boats if not allowed
free entrance in Canara will go further up
Coast, to Goa for instance, and thus defeat
Beebee's Monopoly. I doubt if boats such
are used by the Islanders would make this
estended voyage - but at all events I doubt
whether this contingency should prevent the
application of a remedy to a present wrong -
wrong it be decided there is.

Para 15.

2.

The Board do not concur in the
opinion that the Monopoly of the Trade between
the Laccadive Islands and Cannanore by the
so called Treaty of 1796 was virtually conceded
to the Beebee of Cannanore and in their separate
letter of the 10th May 1852, the Board have
noticed the ambiguous terms of that document as
applying to the Laccadives, but as, according to
the Collector's view, it gives the Beebee a Mono-
=poly of the Trade from the Laccadive Islands-
they think that this objection forms an additional
reason for dissolving the said Treaty.-

3.

Besides that part of the document
quoted in para 2 of Mr. Conolly's last letter they
find the following in the third article of the 1st
Clause of the document. "This article of agreement
"is not to do away nor is it meant to do away in
"any shape the Right which the Government have

From the Collector of Madras } 1.

From Board 29th March 1852.

To, W. H. Bayley Esqr.
Secretary to the Board of Revenue

Sir,

I have the honor to report that no such Takeed as was alleged to have been sent authorizing the transfer of 26 Garces and 2 Mercals to the head of wastage was ever issued from my Office.

2. With regard to the two daily Memorandums Mr. Ellis states it as his opinion that, that which contains the account of G. 34 – M. 238 as the quantity received was that which was first sent up to the Hoozzoor. This was returned and the other Memorandum containing the account G. 8 – M. 236 was sent up in its place. Both these are genuine in-as-much as they are both signed by the persons whose signatures they bear, but the first is the Memorandum which states the true quantity of salt received on the date, February 23rd 1849. namely G. 34 – M. 238 and which

which agree with the Marcal Alwoo Dafs of that date.-

Proceedings thereon.- 1 The charge of fraud is made by Adenoola Chitty late Boat contractor for the conveyance of Salt from the Attiput, Vulloor & Ca. pans to Madras, against I Vencata Soobiah then Sheristadar of the Madras Cutcherry (now retired on a pension) II. Ramiapah the present Salt Superintendent. III. Mooneapah Moodelly the present Salt Peshcar and IV. Ramakistna Pillay the present Head Sumpretty at the Madras Cutcherry.-

2. The two charges most distinctly made are I. That on the 23rd February 1849, 26 Garce and 2 Mercals of Salt were embezzled, and II that during August and September of the same year 15 Garce were made away with.-

3. The latter case having been investigated by Mr. Taylor the former Assistant and not proved, Mr. Ellis proceeded to investigate first, the charge No. I.-

From Collector to Board 6th March in Cons: 3rd April 1851.

The

4. The Cutcherry Salt accounts referred to, to make good the charge, are 2, Viz.t I the Alavoo Dab, or Measurement account. II. The Daily Memorandum prepared. The 1st is a Tamil Document on Cadjan at the Salt Cotaws, in which on the receipt of a boat of Salt, an entry is made of the No. of the Boat. The No. of the Heap whence the Salt was taken. Its estimated quantity when shipped. and its actual quantity when received.

5. The 2d. is a Tamil Memorandum on Country paper despatched every evening to the Hoozoor Cutcherry from the Salt Cotaws, shewing the quantity of Salt in store when the day began. The amount received during the day. The Home and Inland sales of the day and the Balance remaining at the close of the day.

6. These two Documents, Viz.t. the Alavoo Dab[x], and the Daily Memorandum[o], for the 23d of February 1849. were at once taken from the Records, and examined.

7. They are both signed by Ramiapah the Superintendent, Moonegar Moodely

[x] Enclosure C.
[o] Enclosure B.

Moodely the Peshcar, and Davasaja Pillay the then Neesindar, and who is now a Chief witness against the 2 former.

8. Of course these 2 accounts should correspond in that item which specifies the quantity of Salt received during the day, but they do not for while the Alavoo Dob shews an entry of Salt of Fuslies 1256/57 received from Vulloor, as follows.

	G.	M.
Estimated quantity sent	41.	385.
Actual quantity received	34 -	238.

the Daily Memorandum sent to the Huzzoor shews, "received from Vulloor for Fusly 1256. G. 8— M. 236." Hence the Salt servants are charged with having received on that day G. 34— M. 238. and reporting to the Huzzoor only G. 8— M. 236, which would amount to an embezzlement of G. 26— M. 2.

9. It appears that both the Alavoo Dob, and Daily Memorandum are when received at the Huzzoor kept under the charge of Ramakristna Pillay the Sumpretty at the Huzzoor Cutcherry, the 4th person charged with embezzlement[+].

[+] Parat. of those Proc.

10. The next thing was therefore to

to examine the Sumpretty's Duftor, or the account prepared by him from the "Oopoo Iroopoo" account* (which is a counterpart of the Daily Memorandum but does not state the estimated quantity of Salt brought by each boat) furnished and signed by the 3 Cotaur servants mentioned in para 7 of those Proceedings.-

* Oopoo Iroopoo "Salt in hand"

11. This Oopoo Iroopoo account is written daily on a Cadjan, and that for 23d February 1849. enters as follows:-

	G.	M.
Stock in hand	277	25?
Received from Vulloor	8	236

The Sumpretty's Duftor account prepared from the above corresponds exactly with it.-

12. Next the English account books was examined.- This is prepared from the "Daily Memorandum" before spoken of, the entry for 23d February 1849 is "Salt received from Vulloor 8 — 236.-"

G.	M.
8	236

13. It will be seen therefore that while the Alavoo Dob account states that 34 — 238. were received on the day in question, all the others record i-e "the Daily Memorandum." "The Oopoo Iroopoo" "The Sumpretty's Duftor" and the English account all enter 8 — 236 only.-

G.	M.
34	238.

14. The Sumpretty's Duftor is compiled from the Oopoo Iroopoo, and the English account from the Daily Memorandum, and should agree.-

15. The late Head Seristadar is implicated in-as-much as his own Goomashtah+ prepares the English account from the "Daily Memorandum," and makes a daily comparison with the Head Sumpretty's Duftor prepared from the "Oopoo Iroopoo" account and it is their duty to compare the "Daily Memorandum" with the "Oopoo Iroopoo-" It is the Sumpretty's duty to give notice to the Seristadar, of any discrepancy that may be observed, and it is he that has charge of the "Alavoo Dob" accounts as they come in, which it is also his duty to compare also with the other vouchers.-

+ The Goomashtah of that time is now dead

16. To prove that the "Alavoo Dob" account recorded and which differs from the rest was a correct entry+ and that the others are false altogether, Adeemoola Chitty produced another, suppressed "Daily Memorandum" of the same day (23d February 1849.)* which Certifies as follows.-

	G.	M.
Salt from Vulloor of 1256.	8	236.
Do. Do. of 1257.	26	2-
	34	238.

× G. M. 34 — 238.

* Enclosure A.

It

Fort St. George 27th May 1852.

17. It would appear from this that trusting to the Alavoo Dob for that day's being overlooked, an arrangement was made for entering in all the other accounts the 8—236 only, and getting credit for the rest as "wastage."

18. Abstracts of the two "Daily Memorandum" (A the suppressed one, and B. that filed in the Office) are given below. It will be seen how the quantity 26—2 received in the Alavoo Dob, the former is made to pass into "wastage" in Enclosure A, and is omitted altogether in B.

19. The existence of two Daily Memorandum for the same day is explained as follows:-

Adeemoola Chitty declared he received the one in his possession and now produced from Devaraja Pillay (then Peesindar, but since dismissed) and whose signature (as stated in para 7 of these Proceedings) is seen to the Daily Memorandum on the Collector's record, as well as the one produced by Adeemoola Chitty.

20. Devaraja Pillay being called on stated that the Daily Memorandum produced by Adeemoola Chitty is the one originally prepared

prepared by him but that the then Sheristadar was so averse to the entry of G 26 — M 2- as wastage that he came personally to the Cotaurs, and ordered another Daily Memorandum to be prepared and signed in which instead of entering G 26 — M 2. as wastage its receipt was struck out altogether, both from the Daily Memorandum and a fresh Oopoo Jroopoo account prepared for the Sumpretty to correspond - That he (Witness) retained possession of the original Daily Memorandum, and gave it to Adeemoola Chitty but the corresponding Jroopoo account Ramiapah Superintendent took.-

21. It still remained to ascertain how it was that with all these precautions to make every account tally, the Cadjan Alawoo Dob filed in the Record comes to shew a receipt of G 34 — M 238. instead of G 8 — M 236.-

22. Mr. Ellis states (para 29) that it is not a daily account, but sent up every 10 or 15 days, sometimes several in a bundle at the end of the month. Every detail being given in the other daily accounts, it appears that it was not thought necessary to alter these Vouchers

* The above Dob refers especially to the contents of each boat - both its estimated and actual out-turn - It is only kept during those months that the manufacture and supply to the Cotaur is going on -

Vouchers, being seldom tested, or perhaps it was forgotten-

23. The only other accounts that could have thrown light on the transaction are the Boat Chits or receipts given to the Boatmen on landing and measuring the Salt - They are finally given up to the Office by the Contractor as Vouchers when his accounts are sent in, but those for the period in question are not to be found-

24. In his Defence the Superintendent Ramiapah states, that the Daily Memorandum produced by Adeemoola Chitty is the genuine one, and was sent to the Huzzoor; that as the Peshcar informed him that he had obtained permission to deduct in the accounts the excess of 26. Garce he ordered the Seesindar to make the entry. He does not know how the Daily Memorandum on the Record came there, or how his signature was attached - He also urges that it was in the Inland sales that defalcations by wastage took place, and that he had received a written order from the Collector himself previously that he was to attend to the Home sales but

but that the Peshcar Mooneapah Moodely was to attend to the Inland sales.-

25. The Peshcar Mooneapah Moodely acknowledges his signature to the Document but states that he never perused the accounts trusty to Devaraja Pillay.- He admits that he was cognizant of 26 odd Garce being written off as wastage by order of Mr. Dewaz late Head Writer (now dead) and therefore the Daily Memorandum produced by Adeemoola Shitty is correct.-

26. These two defendants simply state that the Daily Memorandum Marked **A** was the one they sent up, but that Devaraja Pillay wrote and (**B**) and got it substituted in the Record.- They cannot however deny that <u>both</u> bear <u>their</u> signatures.-

27. The late Sheristadar states he he exercised no supervision over the Head Sircar pretty who prepared the Hoozzoor accounts from those furnished by the servants at the Cotaur but that he depended on his bringing to his notice any discrepancy.- He denies that the Cotaur servants ever did (as they affirm) bring the Wastage in the Inland sale heap, to his notice or that he gave any order to substitute a

a new Daily Memorandum.-

28. The Head Sircar pretty denies that the Daily Memorandum produced by Adee=moola Shitty was ever received at the Hoozzoor, but allows that he did not compare the one from which he prepared the Hoozzoor accounts, with the Alavoo Dob which is different.-

29. With regard to the latter portion of Mr. Ellis's Report relative to the frauds said to have taken place in August and September 1849. to which Mr. Taylor directed his attention and reported on, the Board still think that though there are the strongest grounds for sus=picion against the Cotaur servants, yet, that the fraud is not fully proved.- The case against the Salt servants is no doubt much strengthened since Mr. Taylor made his investigation by circumstances which had not come to that Officer's knowledge.-

30. The Board however consider that it will not be necessary to enter further into this matter in-as-much as the events of February are quite sufficient to enable them to form a judgment on the conduct of the Salt servants.-

Besides

31- Besides Mr. Ellis's Report, they have before them Petitions from Ristnah the late Salt Ameen, Devarajah Pillay the Neesindar, Ramiapah the present Superin=tendent and Mooneapah Moodely the present Peshcar - The first of these is not concerned in the case examined by Mr. Ellis, the 2d is a party concerned but admitted as a witness, the other 2 are of the 4 charged with fraud-

32- It appears clearly to the Board that gross irregularity has prevailed in the Salt Department, that the parties have quarrel=led and that some have informed against their colleagues -

33- In the present case the in=former Devaraja Pillay late Neesindar bore a most conspicuous part in the tran=saction himself* and Adeemoola Chitty the prosecutor (late Boat Contractor) does not come forward as a disinterested character

34- The chief evidence however is in the written accounts themselves and the admission of the parties, and thus compensates for the very little credence to

to be given to the Statements of the accusers where not thus supported -

35- From all that is presented before them the Board do not see that there is any evidence adduced to shew that the 26 — 2 G M of Salt was actually embezzled as stated in para 46 in Mr. Ellis's report, but they perceive such a tampering with the accounts, as must at once shew the parties concerned to be unfit for Public employ -

36- The Board are inclined to believe the true state of the Case to be much as is admitted in the Defence and Petitions, that with a view to compete with and get in advance of the Shingleput market, the late Mr. DeVaz urged an excessive and unauthorized measurement to the Inland sale purchasers - It is well known to the Board that much rivalry has existed between the two Districts, and over-measurement is generally the plan resorted to at the expense of Government to obtain purchasers -

37- The consequence was that there was a continued and increasing deficit in the Outturn accounts even beyond the usual average, ad=verted to in para 45 of Mr. Ellis's Report -

This

31- Besides Mr. Ellis's Report, they have before them Petitions from Kistnah the late Salt Ameen, Devarajah Pillay the Neesindar, Ramiapah the present Superin= tendent and Mooneapah Moodely the present Peshcar- The first of these is not concerned in the case examined by Mr. Ellis, the 2d is a party concerned but admitted as a witness, the other 2 are of the 4 charged with fraud-

38. This Wastage Book has been inspected by the Board. It appears that the Wastage is entered as taken from the Daily Memorandum. It occurs almost every day. On February 21st 1849. Wastage G 1 M — 250. (on a 20 Garce heap) February 24th G 1 M — 270. In this interval no Wastage is entered. This Wastage is that which is supposed to take place after the Salt is stored, and varies from 8 to 24 Garce, a month. It averages about 5 per Cent, an amount of Wastage which considering the short time the Salt remains in store, the Board consider next to impossible and when this deficiency had attained so large an amount that it could no longer be concealed, it was thought advisable to clear it all off, at once by entering it all as "Wastage" and that an opportunity offered on the 23d February, when a quantity of Salt G 26 M — 2 was received from Velloor and which probably was about the quantity deficient. The Board cannot doubt that the Daily Memorandum,* produced by Adeemoola Chitty is the one that was originally drawn out on this occasion and in the 26–2 is entered as "Wastage."

39. It then appears that fearing so large an amount of Wastage at once would be noticed (and observing probably that the quantity received, and that entered as Wastage on the same day coincided too closely to pass without suspicion) it was thought better to say nothing about Wastage – which might call for enquiry, by writing a fresh Daily Memorandum, and at once strike off the G 26 M — 2. from the Receipts of Salt – The omission to alter the Alavoo Dob was one of those mistakes which so often occur in cases of fraud, and through which such cases are often brought to light. This Cadjan account was probably thought so little of as to escape the notice of the delinquents, and there is every reason to believe that the discrepancy never would have been discovered had it not been for the part taken by Devaraja Pillay who not only was the chief actor in the fraud but kept the 1st. Document to play off against the others in the event of any subsequent misunderstanding arising between them.

In thus preferring to

account for the deficit by attributing it chiefly to wastage arising from unauthorized measurement the Board do not wish to leave the impression that a portion of that Salt does not represent actual embezzlement- It may be so, but there is nothing to shew this, whereas there are many incidental circumstances to support the former explanation as offered by the parties-

41. The Salt servants are still guilty, which ever way it is, and the Board see nothing in their defence to exculpate them- On this point they quite agree with what Mr. Ellis states in para 43 to 51 inclusive-

42- The abstraction of the Boat notes from the Office- and also the Depositions taken before Mr. Taylor (as mentioned in paras 3 and 53 of Mr. Ellis' Report) call for a searching enquiry and they expect the Collector will make further investigation as to the abstraction of the Records and point out to the Board who are the responsible parties-

43- It is not proved that the late

late Sheristadar Vencata Soobiah personally ordered the fabrication of the account, although the suspicion that he did so is strong, but the remissness of that Officer in the supervision of so important a branch of his Duty and the fact that he knew of the fraud in the Daily Memorandum some months before the present investigation, are circumstances that gravely implicate him-

44- The Superintendent Ramia-pah. The Peshcar Mooneappah Moodelly and the Head Sumpretty Ramakistna pillay should be dismissed- The Board would strongly urge upon the consideration of Government what is stated by Mr. Ellis in para 64 of his Report regarding the inadequacy of the pay of the Superintendant- The Salt Revenue of Madras is 5 lacs and is increasing- The article is manufactured at various Pans distant 12 and 15 Miles from the Cotaur or store- It is liable to constant plunder, waste and fraud, means for combining to deceive Government are at hand, the temptation to pilfer, smuggle and

and embezzle is very great and the risk of detection small. The Board consider it their duty to represent that this important Branch of Revenue at Madras should be as Superintendant an Uncovenant assistant at such a salary as would secure the services of an efficient man, who would devote his whole attention to it. They are convinced that it would be an eventual saving to Government even if the salary were 250 or 300 Rupees per Mensem.—

Resolved that the above proceedings be submitted for the consideration of the Right Honorable the Governor in Council.—

The discrepancies enumerated in the present Statement between the Registers of Grants and Certificates and the Register of Rent Bills are confined to Pedda Naick's Pettah

3.

On the Certificates marginally noted there is a Loss of Rupees 62-14-4 apparently from clerical errors or omissions in the Rent Bills and it is from the Collector's remarks to be the intention to recover that amount from the proprietors. The Board are however of opinion that limitation of six years, as the Period for which arrears of rent are recoverable, under Section X Act XII of 1839 bar the recovery of the greater portion and they think that if against the Loss of Rupees 62

B.R. No. 1128

From the Collector of Madras,
Reporting on the complaint of Mooneappa Granny regarding his having been charged for the excess number of trees found to have been in his possession.

Sir,

With reference to the letter received from the Board of Revenue dated 3d May 1852 enclosing two Petitions Nos. 839 and 857 I have the honor to state for the information of the Board the following circumstances.

2. By the enclosures A and B it will be seen that in August 1851 the Petitioner Mooneappa Granny had the full number of trees for his 1st and 2d Class shops, one tree only being in excess for the 2d Class shop.

Upon

3 Upon a subsequent examination in November 1851 he was found to be enjoying certain trees for both his shops in excess of the number allowed by his Moochilka. He was ordered to attend at the Cutcherry to be made to pay the arrears of Jasti Tirvai upon these trees as per Moochilka enclosed. Vide Para II. He delaying attending till the middle of January 1852.

4. It is necessary to state for the information of the Board that Toddy Shopkeepers who wish to evade the payment of Jasti Tirvai (for trees in excess of the allotted number) according to the rate as in Para II of the Toddy Moochilka always make a similar delay in appearing. They draw Toddy from the excess trees during this interval. Before appearing at the Cutcherry they cut off the Palays or Spathe of the excess trees which renders these trees untreable and then make their appearance to demand re-examination of their Gardens.

5. To guard against this fraud it is the practice of the Office to charge Jasti Tirvai for excess Trees found untit the Shopkeeper appears; when he comes to the Cutcherry if he demands a reexamination and upon such reexamination being made there

does not appear any reason to doubt the former examination he is made to pay the arrears and the double is adjusted according to the condition in which the Gardens may be found upon this last examination.

6. This course which is necessary to guard against serious losses of Revenue was followed in the case of Mooneappah Gramny. Enclosure C shows the amount charged against him on the different dates.

7. This amount the shopkeeper has refused to pay and upon his refusal application has been made to the Superintendent of Police to withdraw his License.

8. The resistance made by Mooneappa Gramny is an attempt to revive a claim made by the Toddy Shopkeepers formerly and decided by the Board against them, that those trees only should be taxable which are Calayam i.e. are actually producing Toddy at the time of examination.

11th April 1851.

9. This having been decided against them after mature consideration it is of importance to this Office that the Board should pass such decision upon Mooneappa Gramny's case as may appear proper to them to serve as a guide to this Office in similar cases.

Mooneappah Grammy has two shops one in Black Town, the other in Tondiarpett. The Black Town shop is 1st Class allowed 330 Trees.

The first examination of the gardens belonging to this shop was made on the 7th August 1851. The result of this examination was that there were 330 Trees the proper number of Taxable Trees.

The Second examination took place upon the 3d of November 1851.

Upon this examination being made there was found to be of Taxable Trees 394 or 64 above the number allowed. he refused either to pay the extra Tax according to his Moochilka or to deduct the trees, disputing their being Taxable because they were not at the time producing Toddy. This resistence was not made as it should have been immediately after the examination in dispute, but in January 1852, about the middle of the month. at his request another examination was made on the 17th January. The result of this examination was that of Taxable there were found 336 or 6 Trees in excess.

August 29th 1851. The result of this examination was that 166 Trees were found, being 1 Tree in excess for which 1 Tree he has always paid extra Tax.

This Garden was again examined on the 3d November 1851. on which date 181 Trees were found, being 15 Trees in excess.

This examination he disputed but only in the middle of January 1852.

Upon a re-examination being ordered on the 17th January, 183 Trees were found, being 17 Trees in excess.

Bd. No. 1132.
From the Collector and Regr. of Govt. Grants. Sir,

I have the honor to state in reference

to the information called for in the Board's Proceedings of the 3d May 1852, relative to the title of the Petitioner Ragaviah to a certain extent of land in this Collectorate that it appears from the Register of Government Grants kept in this Office that a Certificate was originally issued in 1804 for 1 Ground 540 Square Feet in the name of Ponapah Grammy — which was renewed by another Certificate in 1805 to the extent of 1 Ground 820 Square Feet in the name of Cunidapah Grammy who sold the Spot to Ragaviah by a Bill of Sale which was registered in this Office.-

No. 3969 dated 1st Febry. 1804.

1. Another portion of the land 1249 Square Feet claimed by the Petitioner was held originally by one Rutnavaloo Vencata Narraina Naiken who sold 936 Square Feet of it to Mahomed Khan and Mahomed Ismal Khan, who again disposed of the ground to Ragaviah by a Bill of Sale registered in this Office on the 15th January 1825.-

2. It will thus be seen that the title of the Man Ragaviah dates so far back as 1826 and that he acquired his ground from parties who had derived theirs from the year 1804.-

3. The quit rent for both spots of Ground has been hitherto paid by Ragaviah up to

4 the

Fort St. George 27th May 1852

the year 1850 and 1851; and I feel that it will be a matter of considerable difficulty to interfere with rights that have been acquired so long.

5. The Petitioner before this Board however appears to have been in possession for a very long time, and I don't believe that if he could prove his title to the lands in question before the small cause Court the mere fact of Ragaviah's holding a registered Bill of Sale from this Office would operate against his right to the land in question.

Bd No. 2831.
From the Collector of Salem---

Reporting upon Petition No. 778 of 1851 addressed to the Board by one Nullan and others Complaining that a Certain party has been associated with them in their Toby Meerassy

Sir,

I have the Honor to report upon the Petition noted marginally as required by your Board's Endorsement

No. 1778 of 1851.

From Nullan and others, Tobies residing at Rajapoorum in Zillah Salem.

Complaining that a Certain party who has no right has been unjustly associated with them in their Toby Meerassy and pray for redress.

Board's Endorsement. Referred to the Collector for report with reference to Section V Regulation VI of 1831. 25th September 1851.

dated 25th September 1851.

2. Kylen the late incumbent of the Toby Meerassy of Cusbah Razeepoor, to which Petitioners now lay claim having demised without male issue, his wife Colundachee Continued to perform the duties devolving on the Office by means of people whom She herself Employed. Previous to her death She had petitioned the local Authorities praying that the Meerassy which She held might be registered in the name of one

Atty

Fort St. George 27th. November 1851.

Atty. her grand son in the female line, who is the Petitioner's opponent. The necessary enquiries were instituted by the local Tahsildar, from which it appeared that the said Atty was related to her in the manner alleged, and that he had for some time been discharging the duties of Toty. My predecessor thereupon issued orders dated the 26th. April 1849, for the registry of the Meerassy in the name of Atty and for the performance by him of the prescribed duties.

3. These orders seem to have called forth a Complaint from Petitioners declaring themselves to be Cousins of the deceased incumbents Kylan and his wife, and asserting that they had performed their funeral ceremonies; consequently that they possessed a claim to the Meerassy preferable to that of Atty. This Complaint was also referred to the Tahsildar for enquiry but in consequence of the numerous Complaints received from the Petitioners impugning the correctness of the Tahsildar's reports my predecessor, as it would appear, did not feel himself at liberty to pass any decisive order

Fort St. George 27th. November 1851.

orders on the data afforded by the Tahsildar's Statements, and therefore called on the parties concerned to submit their claims to arbitration. They agreed and executed Moochelekas signifying their consent to their adjudication in the manner indicated, and selected arbitrators who together with the arbitrator nominated on behalf of the Circar, were assembled in the usual manner. A decision favorable to Atty was passed by three members of the arbitration and the one appointed by the Circar. Their decision was duly transmitted to this Office, but

13th. July 1851. before it had been disposed of, an address was received from the Petitioners within the time prescribed by the Regulations

Clause first Section IX to Regn. XII of 1816 charging the members of the arbitration with gross partiality and with having been influenced by the hope of a bribe. The Petitioners were cited before me and personally examined, but failed to substantiate their Complaint. Under these Circumstances their petition was

16th. August 1851. rejected, and the decision given by a majority of the Punchayet Confirmed by

Fort St. George 27th. November 1851.

by me with reference to Act VIII of 1840.-
4.

It is proper here to add that the award of the Punchayet goes to shew, that the Petitioners are but distant Cousins of Kylan. the late incumbent of the meiraasy, and that many years ago a division of their respective rights was effected by which Kylan obtained the Taby meiraasy of Cusbah Razeepoor now in dispute It moreover appears from that award that Petitioners opponent Atty is a grand son of Kylan in direct descent by a female branch of the family.-

Bd. No. 2883

From the Collector of Tinnevelly--- Para 1.

Reporting upon the Cultivation &c. of Cotton in the District of Tinnevelly for Fusly 1260.

Sir,

With reference to the order contained in para 13. of Extract from the Minutes of Consultation under date the 5th December 1848 prefixed to the Board's Proceedings of 18th January 1849; I have the honor to submit a special report on the Cultivation &c. of Cotton in this District for Fusly 1260

2. Annexed is an abstract statement shewing the extent of land employed

15693 Fort St. George 27th November 1851.

employed for the Cultivation of indigenous and foreign Cotton in Fusly 1260, in comparison with the preceding year, Fusly 1259- On referring to which it will be seen that there is a net increase in the Cultivation during the Fusly under report to the extent of Chains 1,358 2/64. Composed of a gross increase, of Chains 1,706 1 in Country and of Chains 297 in Foreign varieties- The increase in the Cultivation of Country Cotton is attributable to the steady demand for Exportation from Tuticorin to China and in small quantities to England also, the increase in the foregoing varieties is the result of the Experiments undertaken on the Coast of this District by Mr. Lees with a view to proving the Capability of India to produce profitably Cotton fit for the use of English Manufacture

15695 Fort St. George 27th November 1861.

From The Collector of Cuddapah dated 9th Instt.

I have the honor to forward herewith the Cotton Cultivation Statement for the Fusly 1260 as required by Circular No 1235 dated 29th August 1861.

2. The Cultivation of Cotton in this District during Fusly 1260 amounts to 117727 41/64 acres as per Margin, which is an increase of 17358 21/64 acres on the Cultivation of Fusly 1259 which amounted to 100369 5/16 acres.

3. The Cotton Cultivation for Fusly 1260 is chiefly confined to the Taluks of Cuddapah, Rayachoty, Kadiry, Proddatoor and Jammulamadugu. The Taluks of Gandicotta, Cumbum and Pulivendla are not favorable for the cultivation of Cotton.

4. The Merchants at Pulivendla are in the habit of purchasing the Cotton brought to that place by the Ryots and selling it to Merchants at Cuddapah, Proddatoor and Jammulamadugu. The Cotton is then packed in bales and sent to Madras for exportation.

5. The Cotton Cultivation for Fusly 1260 is nearly double that of Fusly 1259. The Ryots are desirous of extending the Cultivation still further, but are prevented from doing so by the want of Capital. They are willing to pay the Government Assessment on the land they cultivate with Cotton, but are unable to do so, as they require money to purchase Cattle, Seed, Implements of Husbandry and to support themselves and their families during the time that elapses between the sowing of the Seed and the gathering in of the Crop.

6. The Ryots are in the habit of borrowing money from the Merchants at Cuddapah, Proddatoor and Jammulamadugu, who charge interest at the rate of 2 Fanams per Cent per Month, or 24 per Cent per Annum. The Ryots are also in the habit of borrowing money from the Merchants at Pulivendla, who charge interest at the rate of 3 Fanams per Cent per Month, or 36 per Cent per Annum. The Ryots are also in the habit of borrowing money from the Merchants at Pulivendla, who charge interest at the rate of 3 Fanams per Cent per Month, or 36 per Cent per Annum.

7. The Ryots are also in the habit of borrowing money from the Merchants at Pulivendla, who charge interest at the rate of 3 Fanams per Cent per Month, or 36 per Cent per Annum.

8. The Ryots are also in the habit of borrowing money from the Merchants at Pulivendla, who charge interest at the rate of 3 Fanams per Cent per Month, or 36 per Cent per Annum.

9. The Ryots are also in the habit of borrowing money from the Merchants at Pulivendla, who charge interest at the rate of 3 Fanams per Cent per Month, or 36 per Cent per Annum.

productions of American Cotton than those of the tracts where Native Cotton flourishes best, I requested Mr. Lees to favor me with information regarding the produce. He has gathered from his fields and called upon Mr. Caxton the Superintendent of the Government Farm at Sevacansey, for a similar return. The Government fields were sown rather before Mr. Lees's who did not Commence operation till the beginning of 1850 yet it will be seen in the annexed Statment that the out-turn hitherto on the coast has far exceeded that in the interior. The experiment however has not been carried on long enough to pronounce decisively whether American Cotton can profitably be Cultivated on a large scale on the Coast, but another party from England besides Mr. Lees having now embarked in the speculation the question will soon be thoroughly put to the proof.—

and is ascribed to the proceeds of the sale of the Sundalwood by the Collector of Sea Customs at Madras in 1846. having been adjusted in the accounts of Fusly 1260. and to the payment by Captain Williams in that year for Timber previously supplied for the use of the Bombay Government—

Moturpha 4. The Increase of Rupees 1,029-2-11 in Moturpha occurs from a larger number of Professions taxed, and apparently, tho not noticed by the Collector, from a larger number of Looms of the better Class having more than covered the falling off in the entire number which was 59 less than in Fusly 1259.

From the Collector of Canara — Sir,

Para 1. I have the honor to forward Copy of a letter† received from Mr Silver the Sub Collector requesting that the encouragement offered to parties making clearances on the Sides of certain roads of the Ballaghat may be extended to a road which Mr. Silver has nearly completed from Sirey to the town of Banawassy.—

2. The advantages which have resulted and may be expected from encouraging these clearances by the Sides of the roads which have lately so greatly improved this province, have been Shewn in a previous correspondence, so that I beg to forward Mr Silvers recommendation for the favorable consideration of the Board.—

3. On a tour which I have lately made by the two great lines of road in the South of the District, those of Sampajee and

and Manjarabad, I was much struck with the advantages which might be expected from granting the same indulgence to settlers on the sides of those roads, each of which passes through many miles of jungle. The sacrifice of Revenue is most trifling, while every clearance made is an improvement to the road in preventing the fall of trees and in many other ways.—

4. I am therefore induced to request the Recommendation of the Board for making the rule general or rather I should say for granting discretionary power to the Collector to apply the rule to any localities through which the new roads pass in which he thinks that this encouragement is necessary and desirable.—

Sir, You are already aware that

that with the aid of the few convicts at Sirey and the help of the annual Sanctioned Sum for roads, I have been able to open out the line of road from Sirey to Bunawassy for about two thirds of the distance.

2. Several ryots have now petitioned to be permitted to make Coomery clearings on the sides of this road, under the same indulgence that has been granted for similar clearings on the Dharwar and Sirey road, and on the roads in Soopah. For a part of the way from Sirey to Bunawassy the road runs through a dense jungle. I am anxious to promote any undertaking likely to encourage traffic on this line, the direct road to Hurry hur, and I have the honor to solicit you will submit with your favorable recommendation to the Board of Revenue my request that a similar indulgence to that granted in Soopah may be extended to parties making clearings on the sides of this line of road. Viz that they may hold the ground free of assessment for the period of 14 years. The Sacrifice of Revenue on the part of Government

Government is very trifling, and the encouragement given to traffic in good encamping grounds and freedom from attacks of wild Animals, and of robbers, by encouraging these road side clearings is very marked.—

the Zellapoor and Wallaul road.

3. The Collector himself bears testimony to the great advantage which have attended the previous grants of rent free land, as an encouragement to settlers, contrasted with the trifling sacrifice of revenue thereby, and requests that it may be left discretionary with him to apply the rule to any localities in which it may be necessary and desirable to have settlers on new roads.

4. It is the Government appear disposed to grant similar, or if necessary more favorable, terms for clearing Jungles in all such localities, and as the Collectors proposal would obviate the necessity of a special reference on every occasion of making these grants, the Board recommend that that Officer be vested with general authority to make grants from time to time, and to exhibit the same in an abstract statement to accompany his Annual Settlement report.

4th Do Chavendra	5718	76-39	
	2,10,000	2163	

2 From delay in the preparation of the Sub Division accounts which were confirmed only on the 31st December 1849 the Settlement of the Moturpha remissions has been in abeyance, and an adjustment of the accumulated amount requires to be made in the case of the two former Sub Divisions from Fusly 1254 and in the two latter from Fusly 1253.—

The Right Honorable

3 the Governor in Council sanctions the Moturpha remission of the entire Nedadavole Estate being apportioned on the four Sub Divisions as shewn above, and grants authority for Credit being given to the several proprietors in those proportions up to Fusly 1259 and hereafter.—

Under

2328 Fort St. George 17th February 1851.

4 Under the Sanction now communicated the arrears of Inaturpha remission which have accumulated in favor of the several sub divisions to the close of fasly 1259 amounting to Rupees /13591-3-6/ Thirteen thousand five hundred and ninety one, Annas three, and Pice Six, will also be adjusted in the manner — — following, on account of — —

B.R. 303

From the Collr. of Vellore

Reporting more fully on Petition No. 1836 of 1850.

1. I have the honor to acknowledge receipt of your letter dated 17th October 1850 calling upon me to report more fully on Petition No. 1836 of 1850 and to explain the reason why Mudvapatyar should receive compensation out of Petitioners lands while the obvious course would be to give that individual an equivalent from Circar land—

2. In reply I have the honor to state that Petitioner thought he at first expressed his unwillingness to part with his land, subsequently gave a Kyphent before the Tahsildar in the presence of witnesses agreeing to do so—upon being called upon now he represents that he signed the Kyphent but that his signature was extorted from him the attesting witnesses state that the deposition was given — voluntarily

voluntarily and that no compulsion whatever was used. Petitioner himself acknowledged in his deposition given before me that he is unable to prove that his signature was extorted but expresses his unwillingness to occupy other land in lieu of that given up.

The reason why Petitioners land was given in exchange instead of Circar land was simply that the Madvapaty family requested it and made it the condition of given up their own lands for the road.

3— I have however now ascertained that Petitioners land is not conveniently situated in respect to the Madvapaty family's garden which was not before explained to me and as there is no other circumstance connected with it to show why it should have been selected in exchange instead of Circar land, I am inclined to think it would be just to restore the land to Petitioner which with the concurrence of the Board I propose to do. The Madvapaty family cannot I presume, have any right to claim the restoration of their own

own land which has been occupied by Government for the high road but must be required to select other Amanut land. If the Board are however of opinion that they are justified in reclaiming their own land it must be again resumed from the new road and each party be put in possession of its original holding.

Nellore District Canaly Collrs Cutcherry 4th February 1851.

Ordered that the following letter be sent in consequence.

To The Collector of Nellore

B. of R. 367

To the Collector of Nellore

Sir.

The Board regret to find from your further report of the 4th instant on Petition 1836 of 1850 that Petitioners land had been taken from him under the particulars stated, which are opposed to the supposition that he willingly ceded it.

(17-18)

The Board desire that it

Fort St. George 17th February 1851.

it be immediately restored to him, and will pass no opinion on the matter of the Madavapaty lands, leaving to yourself its adjustment, though they request that if it is found necessary to exchange lands with that family, the transfer may take place under a due regard for the rights of others. It appears to them also that great and unnecessary delay has occurred in the disposal of the Petition referred to

Revenue Board Office
Fort St. George 17th February 1851 } Signed W. H. Bayley Secretary.

Ordered that the following Endorsement be passed on Petition No. 1836 of 1850.

"Petitioner is informed that instructions have been sent to the Collector on the subject of this Petition."

No. 83.

Read letter from the Collector of Bellary dated 25th October 1850, respecting the Management of the different sources of Extra Revenue for Fusly 1259.

Ordered that the same be recorded and that a Copy thereof be forwarded to the Board of Revenue.

Ordered that the Collector be informed that the Board are glad to find that the Revenue of the District has increased during the past year, and that they trust that the Collector will continue to exert himself to improve the

the Merchants carrying their goods into the Nizam's District from the Western part of the Mysore Provinces through the Bombay territory and thus evading the tolls.

Ab Karry 3. The Ab Karry demand is shewn to be Rupees 1254 below that of last year, owing in some measure to great competition in previous years.

4. Of the Amount outstanding (Rupees 13272 3 -) at the end of the Fusly under report Rupees 7342 have since been collected leaving a balance of Rupees 5930, due entirely by the renter of the Adoni Talook. It appears that the rent for this Talook has been raised to an Amount which has proved ruinous to the contractor and that there has been a diminished consumption of liquor by the Weavers, caused by their reduced means in consequence of a decline in the demand for Cloth. That the rent had been unduly

unduly advanced may be gathered from the fact that "the utmost sum that could be obtained" for the Current year was 50,000 Rupees being less by 4,050 Rupees than the Contract for the preceding one, the Collector solicits the indulgence of a remission of Rupees 2,000 in the renters favor, which, under the circumstances stated, the Board recommend for the favorable consideration of Government.

Sundry Small Farms and Licences. 5. In this branch of Revenue the fluctuations occur chiefly in the rent for Topes the old realizing a less sum than in the former years, and the new a greater Amount in consequence of more trees having become productive. the net decrease was Rupees 352.

Moturpha 6. The Moturpha consists of two Classes, Veesabady and Baghyre Veesabady, in the former there is a decrease of Rupees 88, and in the latter an increase of Rupees 2307.

7. From Statement No 4, the fluctuations appear to be as follows.

Taxes.

	Increase	Decrease
Taxes on Merchants	1369 — " — 8	1457 — 11 — 8
" " Professions	2574 — 10 — "	28 — 10 — "
" " Houses	" " "	1165 — " "
" " Looms	1074 — 15 — "	" " 8 — "

	5193 — 5 — 8	2974 — 14 — 8
	2974 — 14 — 8	
Net	2218 — 7 — "	

8. With reference to the remarks contained in para 11 the Board do not think it expedient that any alteration should be made in the existing mode of Settlement but its details should receive as far as practicable the personal attention of the European authorities. The views of the Board with regard to the data on which the Veesabaddy proper is framed were laid before Government in their letter of 31st October 1850.

Stamps

9. The increase of Rupees 4,162 — 12 — " in Stamps, is ascribed to the operation of Act X. VII of 1848.

Balances outstanding

10. Of the balance of Rupees 6,127 — 5 — 9, due on account of Motupalee Revenue at the end of Fusly 1258,

Rupees

Rupees 98 — 13 — 6 have been recovered to the end of September, and Rupees 146 — 14 — 1 will it is expected be hereafter realized, thus leaving an irrecoverable balance of Rupees 196 — 10 — 2, which the Collector recommends may be written off. The Board request that the necessary sanction may be accordingly granted.

11. The total receipts from all Sources of Extra Revenue — amounted to Rupees 6,22,870 — 8 — 2 and the charges to Rupees 5,581 — 12 — 11, leaving a net revenue of Rupees 6,17,288 — 11 — 3 or Rupees 3857 — 6 — 7 about that of the preceding Fusly.

12. The letter of the Collector dated 26th September 1850 referred to in para 19 of the present report, on the subject of Earth Salt, will receive separate attention.

In Cons 3d Oct 1850

Ordered that a Copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government and transmitted to the Collector of Bellary.

I am required in the Circular letter from the Secretary to the Board of Revenue dated the 6th April 1848 I have the honor to forward herewith a Statement shewing the number of Topes planted both for public and private purposes in the District of Cuddapah up to the end of July 1759. 1819-59

2. From the above Statement, it will be shewn that the rules for the propogation of Topes throughout the District has been favorably received which has encouraged their plantation to a considerable extent I have not heard of any objection being raised to the rules promulgated, and they appear to me well adapted to carry out the views of Government with regard to there being a great supply of wood in the Country.

(Here enter Sp: a. P. No. 124 of 1850)

1. In this Petition the Officer in Charge of Salem prays that a Special Appeal may be admitted from the above Decrees on the following grounds.-

That the Civil Judge has not decided the Case on its true merits.-

and.

That the Suit was barred by the Statute of Limitation.-

2. It is urged in support of the first ground that "there is no question as to the right "of a Mootahdar to bring into Cultivation all "the lands within the limits of his Mootah "which at the time the permanent Summud was "issued were waste in the full sense of the "term unappropriated to any purpose but

by a particular Community, and
that in the present instance the
lands in question has for a term
much exceeding twelve years been
appropriated to municipal purposes,
and uses inconsistent with and
adverse to any proprietary right
on the part of the Mootahdar,
and without any objection or e-

B. No. 330.

From the Collector of Salem.

Sir,

Solicits under circumstances stated the instructions of the Board for enforcing the Decree of the Sudr Adalut declaring the ground within the limits of the Salem Fort to be the property of Government.-

Title of Subordinate Court 108 of 1848.-

1. A Suit was instituted in 1848 before the judicial authorities of this District by the Mootadar of Salem Mr. Fischer, against Mahomed Ruffee Oodeen, a Pleader of the Subordinate Court, to recover with interest retrospectively for ten years, from 1837 to 1846, the rent of some ground long since in the occupancy of the Pleader, who had built on part of it a house in which he had usually resided.-

2. The Defendant acknowledged the Mootadar's right to the ground, but contended that Interest was not due on the Principal claimed as back rent. I beg to transmit an abstract translation of the pleading.-

3. The action was originally tried and decided in the Subordinate Court. The Civil Judge, however, ordered a fresh investigation and required that the Collector should be included by the Mootadar as a Defendant, it having appeared to the Civil Judge that the spot in dispute was within the limits of the ground to which, under a late decree of the Sudr Adawlut, the Government has a paramount claim.-

Appeal 37 of 1849.-

4. A requisition to the above effect was accordingly recorded by the Subordinate Judge, with an additional

additional point calling on the Plaintiff to establish his own right to the ground referred to in his plaint. The Mootadar however declined to comply with the injunction of the Subordinate Judge.

5. My attention having been drawn to the subject by a communication from the Government Vakeel, informing me that the Subordinate Judge had directed him to bring forward and assert the right of Government in the land, if it possessed any, I did so by means of a Miscellaneous Petition, after ascertaining that the land specified in the Mootadar's Plaint was, in truth, part of the Glacis of the Salem Fort, and therefore that any proprietary interest in it which the Mootadar may have considered himself to possess, was necessarily nullified and barred by the result of the special Appeal in the Sudr Court.

37 of 1847.

6. The Subordinate Judge has recently thrown out the Suit, on the ground that the land in dispute is obviously and beyond doubt the property of Government.

7. My object in now reporting these circumstances to your Board is, with respect to submit that it seems desirable a check should be applied to litigation of the description between the Mootadar and the Pleader, and to suggest that it's prevention may

may be ensured by your Board deciding whether it may not be expedient now to assert and enforce all such rights over the ground embraced in the Decree of the Sudr Adawlut, as, under the effect of that judgment, belongs beyond dispute to the Government.

8. Your Board in reply to the communication of the Sub Collector lately in charge of the District, have stated that they could not advise any steps being taken in the matter of rent levied by Mr. Fischer on the ground on which the London Mission Premises are built, until after the expiration of the period limited for an appeal against a late judgment in a Suit between the Government and the Mootadar, referring, I conclude, to the decision of the Civil Judge of Salem, from which your Board are now aware that a special Appeal has been filed on behalf of the Collector of Salem and admitted* by the Sudr Adawlut.

30th May 1850.

*18th Nov. 1850.

9. The plot of ground under Mr. Lechler's occupancy as Mission Premises, being specially affected by a judgment of the old Zillah Court in the case of Fischer versus Walton, it may, I am aware, be advisable to exempt it, at least for the present, from the operation of any general rule which your Board may think proper to adopt; but in respect of other ground not so affected, I submit that a sufficient bar does not

exist

exist for staying the assertion of such and all rights as belonging to the Government, as have hitherto lain dormant.

10. As it is not the practice of the District to realize any revenue on land occupied by dwelling houses and back yards, I do not wish to advocate the imposition of a high quit-rent on the ground that constitutes the Glacis, but simply to suggest that I be empowered to demand a nominal or an extremely light rent from parties holding within the limits adverted to in the Sudr Adawlut's decree, or at least to intimate to the occupants that it is possible the Government may deem it necessary to demand the quit-rent payable to itself and to no one else, and that if payments be made to other parties they will not be exempt from a responsibility to Government. By this step, the privileges of the Government will be secured against infringement or encroachment whether by real or collusive litigation, and individuals meeting that demand, will have a ready answer to all requisitions from another quarter.

11. It will be obvious to your Board that if the Civil Judge had not remanded the suit in question for trial de novo with the instructions above mentioned, the plot of ground in Ruffee Ooddeen's occupation

occupation might have been adjudged to the Mootadar as that one was which the Revd. Mr. Walton on a former occasion, unsuccessfully strove to shew belonged, as no doubt it really does, to the Government.

12. Your Board will, I submit, also observe that any decision which may be passed by the Sudr Adawlut in the special Appeal now pending before them, will not touch the rights conveyed by their judgment in appeal 37 of 1847, in which it has been acknowledged that ground constituting the Glacis of the Salem Fort is the property of Government, whereas the determination of the still undecided special Appeal will go to declare only whether the three spots of ground referred to in that action are or are not available to the Mootadar as a means of revenue, under the comprehensive and forcible arguments used in the special Appeal Petition framed on the Extract from Minutes of Consultation dated 25th. June last.

13. I beg to add that I should have deemed myself at liberty on my own responsibility to convey to the occupants of land constituting the Glacis of the old Fort, the last of the intimations preferred to above, had not the Sub Collector lately

para 5. lately in charge submitted the subject for your Board's consideration in his letter dated the 8th May 1850.

Translation of an Answer filed in the Subordinate Court by Vakeel Mahomed Ruffee Ooddeen Ahtchan, defendant in O- S- No 108 of 1848.

1. The rent bearing lands* mentioned in the Plaint as liable to an assessment of Rupees 2-3-- on the two pieces of ground, have been in Defendant's enjoyment during the 3¼ years; they were under a many prior to the formation of the Plaintiff's Mootah, and Defendant received a Tooloo-chit for the lands from the then Tasildar of Salem Aroonachelliah, and paid rent to the Circar. After the formation of the Mootah Defendant received Puttahs from the Plaintiff, and paid rent to him as stated in the Plaint. But defendant having erected a house on a portion of the above land, Plaintiffs' Manager Sambiah distinctly assured him that he would get a Puttah issued exempting him from rent for the above portion as well

* Note They are detailed in the Tamil answer.

as for the rest of the lands, and was for that purpose awaiting the decision in the Suit then in progress for the Salem Fort lands between the Circar and the Mootahdar- It is from this cause alone that the payment of the small amount of rent has been delayed- But neither did the Plaintiff as stated in the plaint demand the amount nor did the defendant evade its payment- Defendant is not therefore legally liable to interest on the above amount-

2dly Further, if Defendant had really as stated in the Plaint evaded the payment of rent, Plaintiff would have issued notice in the respective years for which rent was due and collected it according to the provisions of the Regulation, and would not have allowed the amount to stand over as a balance for so many years.-

3dly Defendant therefore requests that the Court would consider the above explanations and non- Suit the claim for interest, and direct the Plaintiff to receive the

principal

principal of the rent only-

Under the circumstances stated by the Collector in the foregoing letter, the Board of Revenue authorize him to collect a nominal or pepper Corn rent from parties holding land within the limits embraced in the Decree of the Sudr Udalut in appeal No. 37 of 1847 which under the effect of that judgment, belongs beyond dispute to the Government-

Sir

In forwarding the enclosed notice of a proposed sale of land for an arrear of Fasly 1259 I have the honor to state that the defaulter Pullaby Ramasastry is one of the parties whose balances were recommended by me for remission in my letter of the 22d Ultimo. Since addressing the Board on that occasion I have learnt that this defaulter possesses a Cawny of Punjah land which is said to have been given to him in charity for his subsistence, and the sale of a moiety of it will realise the arrears — unless the Board deems it proper under the circumstances to remit the amount. The defaulters family was once of consequence in the Village by Talook and possessed of lands in the Village, but it has all passed from their possession and the defaulter is reduced to such poverty that the present Cawny of Grounds appears to be all his property. —

Sir,

I. With reference to Extract from Minutes of Consultation of the 30th August, and to the Courts

2389. Fort St. George 17th February 1851.

made for the management of the Peroor-pollium Polipat and the difficulty of obtaining correct accounts of receipts and disbursements in previous years - Requesting sanction for a Monthly allowance for the support of the Minor Yea and for the Establishment which has been entertained.

Courts Proceedings of the 9th September last, I have the honor to report that the Polipat of "Paroor-pollium" in the Pulachy Talook, was taken under the management of the Court of Wards, under Regulation V of 1804; and a respectable Manager for the care of the Property as well as a Teacher for instructing the Minor Poligar have been appointed on a Salary of 14 and 7 Rupees respectively per mensem from the 7th October 1850.

2. The Revenue of Three Fists, amounting to Rupees 1980-3- has since been collected by the Manager, but adverting to para 2 of the Minutes of Consultation above referred to, I am yet unable to afford satisfactory information as regards the mode and results of the Management of the Estate, since the death of the old Poligar in 1844 - In consequence of the confusion and misrule into which this Polipat had fallen in late years no account of collection or expenditure is forthcoming and the Curnum of the Village is able to give little or no explanation the chief management having rested with one Balcunda Gopana Menuady / Grand uncle of the Minor / during the time the Estate was nominally under the charge of the old Grandmother "Vellaammall"; the uncle has since absconded to the Cochin Territory.

3. As far as I can yet learn it is to be feared that Baulacunda Gopana Menuady has fraudulently

Fort St. George 17th February 1851.

fraudulently appropriated to himself some thousands of Rupees from the Revenues of the Polliput, which he is said to have expended in establishing a large private Farm of his own within the Coelan limits, just beyond the Government Territory and his absconding immediately he found a strict enquiry of expenditure was commencing shews how necessary the assumption of the Estate to Government control, was for the sake of the Minor I have adopted measures for the apprehension of the said Munniady, and the requisite enquiries will be instituted, and the result communicated to the Court in due course.

4. Some of the lands appertaining to the Polliput appear to have been held Rent free by certain Members of the Polygars Family for their subsistence - the exact and revenue thereof will be ascertained and reported upon at the close of the Current Fasly. viz the meantime, I have considered it inexpedient to interfere with the existing arrangement.

5. In consequence of a requisition from the mother of the Minor, that the allowance required for the maintenance of the Family, should be disbursed from the surplus Revenue of the Estate, an Estimate was framed by the Manager under my orders, amounting to 62½ Rupees per Mensem, as indicated in the Margin - The Sum considering the number of persons in the family, appears, on the lowest scale absolutely necessary for their support, and is moreover

moreover just in that the Court sanctioned in the case of the Minor Poligar of "Shanadhore and Cotamputty" in the same Taluk. Out of this sum 12 Rupees will be paid to four Peons whose services are much required for the Security of the property of the Estate.

6. Adverting to Clause 2d Section XIV Regulation V of 1804, I would remark that the prescribed allowance of 10 per Cent of the permanent assessment does not exceed 280 7 8 per annum which is quite inadequate for the maintenance of the Minor and others, and I would therefore beg leave to request under Clause 5th of the same Section that sanction may be granted for the proposed monthly allowance of 62 Rupees which I have no hesitation in saying has been calculated upon the lowest possible scale.

Assuming the Collections of the first three months as fair data it appears to me that the Revenue of the entire Estate may probably be about Rupees 3938 and deducting the permanent assessment to leave a surplus of about 1133 Rupees per Annum.

As observed in para 3 of my letter to the Court of the 5th July 1850 No 271 no permanent Establishment beyond the Government Burmans of the locality is necessary, but as I have reason to believe that the actual extent of cultivation in the Polliput has undergone

no

no examination for a very long time, and that lands have been given to Ryots on discretionary assessments, and without reference to Survey rates, I considered it expedient to appoint a Goomastah, pro tempore, for four Months on a pay of 5 Rupees per Mensem, with a view to ascertain more satisfactorily and clearly the real resources of the Estate and the frauds or alienation which may have taken place — the late mismanagement of Balaund Gotanda-=mundy — Two peons at 3 Rupees each will be employed if required to assist the Goomastah, and I trust that this temporary and small expenditure will be amply repaid by the results of the examination —

The aggregate expences chargeable to the Estate would be 83 Rupees a Month independent of the Temporary Sibbendy to be continued for 4 Months at a cost of 44 Rupees, but inclusive of the allowance of 50 Rupees to the Minor, and this arrangement has been carried out in anticipation of the Court's approval —

Para 2 Board's minutes of Cons. 30th Augt 1850.

Minor the Acting Principal Collector represents his inability to afford at present satisfactory information regarding the resources of the Estate as called for by Government —

2. This person has, since a scrutiny into the accounts commenced, absconded to the Cochin Territory whence it is said he has established a large farm at the expense of the Polliput — Measures have been adopted to cause his appearance for the purpose of making the necessary enquiries the result of which Mr Thomas promises to lay before the Court.

3. The Revenue realized from the Estate from the date of its assumption by the Acting Principal Collector comprizing three Kists amounted to Rupees 1180-3- and calculating from the data furnished by the three months collections the income of the Polliput is estimated at Rupees 3938 — Deducting the Government Peishcush Rupees 2804-12-0 a surplus of Rupees 1133- is left to meet the necessary disbursements.

4. No permanent Establishment will, it is stated, be necessary beyond the Government Curnum but the Acting Principal Collector has proposed an allowance of Rupees 62+ per Mensem for the expences of the Minor and his family which the

The Court sanction. This sum the larger than what is allowed by Clause 2 Section XIV Regulation V of 1804 is considered absolutely necessary and calculated on the lowest possible scale.

In addition to these ordinary charges Mr Thomas recommends the appointment of a temporary Establishment as shown in the Margin for the period of four Months and the Court approve of the measures as an examination of the accounts, after so long a period of misrule appears to be highly desirable.

From the Collector of Madras. . . .

Submitting the printed Statement of the Gross Collections Charges and Net Revenues of the Extra Sources of revenue together with its several accompaniments A to H as well as a separate report from Mr. Assistant Collector Saylor on the Salt Revenue for Fusly 1259.

Sir.

I have the honor to submit herewith for the information of the Board and Government in triplicate, the printed Statements of the Gross Collections, Charges and Net Revenues of the Extra Sources of Revenue in the Collectorate of Madras together with its accompaniments A to H for Fusly 1259 and my Assistant's report on the Department under his immediate control.

Salt. 2. From Mr. Saylor's Report it will be observed that the gross revenue from the sales of Salt in Fusly 1259 was Rupees 1,13737 - - 5 exceeding the revenue of the past year by Rupees 14923 - 5 - 11.

Abkarry.

4. Nearly the whole of the Demand of the Current Revenue for Fusly 1259 Rupees 5,72,067-12-10, was collected within the year leaving a balance of Rupees 129-1-3. As this balance is merely nominal arising from the failure of two Shopkeepers to purchase liquor from the Government Stores to the full extent of their bonds in consequence of a fall in the demand I beg leave to recommend that the sums may be written off to profit and loss for the proper adjustment of the accounts.

5. Including the several extra collections enumerated in the margin the aggregate Abkarry Revenue amounted to Rupees 5,72,796-14-5 being below the receipts of Fusly 1258 by Rupees 910-4-11.

will shew that this falling off in the revenues of Fusly 1258 occurs entirely under the head of Arrack Puttah and Columbo - The causes assigned in para 5 of my report of last year in reference to the sales of Columbo Arrack, coupled with the unfavorable nature of the season have operated in producing the decrease now adverted to - A portion of the decrease occurred in the sales at St. Thomas' Mount — which is owing to the removal of a — certain number of the troops stationed at that locality.-

7. The Board will have seen from the Marginal Statement appended to the preceding para that the revenue derived from Toddy was much larger in the year under report than in the past

1259	1134-9-"	Sales of Brandy also exceeds those

It is also worthy of remark that the — actual Collections under this head — amounting to Rupees 2,35,466-2-10 are in excess of the estimated revenue as given in my letter to the

this Board dated 1st July 1849 by Rupees 4,208-4-2.

8. The entries in respect to the — Collections of the Abkarry revenue for Fusly 1259 correspond with those in the Statements of Demand Collection and Balance with the exception of the — several items of Extra revenue the whole of which are included in the sums of Rupees 709-8-4 and Rupees 148-10-6 in Columns 12 of Statement No. 1.

9. The charges of the Abkarry Department are as follows.-

11 The decrease in No. 3 was occasioned by the purchase of a smaller quantity of

Small Farms & Licensees.

16. This small decrease in the charges does not require particular remark.-

17. Deducting these charges from the aggregate receipts the Net revenue amounted to Rupees 8726-7-8, being less than that of the preceding Fusly by Rupees 21-13-9. The percentage of charges in Fusly 1258 was $22\frac{34}{64}$ in Fusly 1259. $22\frac{30}{64}$.-

of the past Fusly by Rupees 161-5-9.

19. The principal portion of this revenue is realized as duty on Firewood and Shells which may be seen from the Statement IIe submitted in compliance with the Board's orders in their Proceedings of the 26th March 1849 the Collections on the former article suffered from a decline in the demand while the enhancement in the revenue from Chunam Shells was occasioned by large sales at the Basin.

20. The fluctuations in the duty on grain and articles included under the general name of Sundries, do not appear to call for any particular remark, as their supply was regulated by the demand at Madras, while the augmentation in the receipts on account of Salt is explained by the larger quantity brought down the canal in the year under report.

21. The revenue on Cochrane's Canal corresponds with the entry in the Statement of Demand Collection and Balance. The

		3561-10-11-	3939-3-6.

23. The only item requiring explanation is that of Extra Charges the increase under which head in Fusly 1259 was occasioned by certain repairs made to the Canal.

24. The charges as shewn above being deducted from the collections there remains a net revenue of Rupees 27,695-13-9. which is less than the like revenue for Fusly 1258 by Rupees 216-2-10,

From the foregoing Statements it will appear that the Grand Total of the Gross Collections for the year under report amounted to Rupees 1038391-13-8 or Rupees 14968--9 beyond the receipts of the past year from which if the charges under every branch of the Extra Sources be deducted the Net Revenue for Fusly 1259 will be found to exceed that

Report.—

Certificate of Bill of Sale Number	Village or Division	Street	Names	Extent	annual Quit Rent as per Cattle	amount Quit Rent as per Register	Difference	Remarks.
								1–1–2 being the annual Quit Rent thereon Rupees 1–1.2 were entered omitting 1 anna thereon and so it was collected from him for that period therefore the difference
								of 1. anna will be recovered from him for the last 7 years and it shall be added in his Bill for the Current year.—
								This Bill of Sale No.e 5247. was issued in 1823. in the name of Vurdapen Ch.a and afterwards on the 20.th July 1824. in the name of M. Mottoo Chetty under No.e
5531	5	Ditto	Ditto	Mandaveram Moottiah Chetty	1090	1 3 11	" " " "	5,531. as above stated but the annual Quit Rent thereon at Rs.– 1–3–11 was not collected from them but from D. Karekistna Chetty by mistake for 29 years from 1814. to 1842. as stated in the above remarks. The Bill on this property was afterwards omitted for the last 7 years from 1843. Consequently a Quit Rent Bill should be prepared for the recovery of the arrears Rupees 8–11–5. from him for the last 7 years in the name of the present holder on this property and the Bill shall be continued from the Current year.—

6494	10	Peddoo Naik's Pettah	Varada Mootaspen Street	Streene = vaps Pillay	1	990	5	7	7	12	2	54	When this Certificate was issued in 1827. after cancelling the original Quit Rent Bill No. 10. on which was paid annually Rupees 7-12-5 the property was assessed at a reduced rate of Rupees 5-7-1 upon the then valuation but instead of this latter sum being entered in the subsequent Bills the original amount of Rupees 7-12-5 was entered and it was continued to be collected accordingly from 1827 to 1850 the difference of Rupees 2-5-4 per year over collected is Rs. 56-- It appears in this case the over collection was made by oversight and therefore it is necessary to enter the actual assessment of Rs. 5-7-1 in the Bill to be prepared for the next year and to collect it accordingly hereafter from the proprietor.--
4550	12	Ditto	Shautha Mootaspen Street.	T. Manes = gunda Moodely	"	2149 3/16	3	14	3	3	19	126	When this Certificate was renewed in 1823. it was assessed at Rupees 3-14-3 which sum is entered in the Register of Certificates but Rupees 3-1-9 was erroneously entered in the Register of Quit Rent Bills and continued to be collected from 1823. to 1849. at that rate. The difference of annas 12- and Piece 6. per year thus omitted in the Bills during the period of the last 27 years is Rupees 21-1-6. This balance ought to be recovered from the proprietor by giving a Bill for it and the actual assessment of Rs. 3-14-3 should be entered in the Bill to be prepared for the Current year and continued to be collected.--
