Sir,

Bd. No. 2859-

From the Collector of Cuddapah

Submitting the information called for in the proceedings of the Board of Revenue dated the 11th of July last-

I have the honor to submit the information called for in the proceedings of the Board of Revenue dated the 11th of July last-

2. The question of assessing teeruvaram Jaatee on lands irrigated from wells sunk at the Ryots expence does not appear ever to have been definitively settled in the Ceded districts- There are some broad rules which cannot be mistaken, but there are also minor points which are still open to question and the Garesa wells form one-

3 The general understanding in Cuddapah appears to have been that the lands under wells lined with basket work, and therefore properly called Garesa were liable to teeruvaram and that those so under

under wells the sides of which were faced with stone were exempt. The distinction probably arose not from any intention of making a difference between wicker and stone facing, but from the fact that the wells most generally lined with wicker work were such as were sunk in sandy soils, near the beds of Channels, where water was procurable at a high level, and where the escpence was consequently trifling. Such wells are often sunk at an escpence of one Rupee and a half and from their vicinity to a Channel afford an abundant supply of water. This general principle appears to be reasonable and has not been objected to but from it arise three questions of first, whether land under a well once lined with wicker work and subjected consequently to a teeruajaste is to be exempted if the same will be subsequently lined with Stone. Second whether land under a well sunk for the first few feet through a Sandy soil supported with wicker work and at a greater depth dug through Stone, or hard soil where no support is needed, should be assessed with a teeruajaste. Third

third whether the question of teeruajaste should be decided by the cost of the well, some limit of exemption being fixed by the nature of the materials used in its Construction, or by the soil through which it is sunk.

4. I requested the Collector of Bellary to give me information of the practice in his division of the Ceded Districts and he supplied me with a Copy of Certain rules he had formerly submitted for the Board's sanction, on the whole question of well Cultivation, from which I gathered that in Bellary lands under wells which have cost less than fifty Rupees are Charged with a teeruajaste, and that all others are exempt. Supposing of Course that the well be dug at the Ryots escpence, not in purumpoke land and that he retains his whole puttah lands.

5. Mr. Murray in his letter to the Board of the 27th of June on the subject of those wells adduces as arguments in favor of the extra assessment first, that the escpence of their Construction is a mere trifle second, that as

as the annual escpence of keeping up a wicker lined well is ten rupees and facing it with stone costs about forty rupees, the Ryots make up the whole escpence of the latter process by four years saving of the annual expenditure on the former, and third, that it is hardly fair to charge teeruajaste on the poorer Ryots or those who cannot command the immediate Capital to line their wells with stone and to exempt those who can. In the abstract columns of the statement which accompanies their letter, the Board will see that out of the total number of three hundred wells on which the extra assessment was for the first time charged last year, seven only cost less than thirty Rupees, and only sixty one less than fifty Rupees; the limit allowed in Bellary, within which must come the cost of all wells, irrigation from which is to subject land to teeruajastee of the whole number, therefore it is not many that can be said to have cost a trifle.

6. From the information I have received I am inclined to think that Mr. Murray has estimated too highly the annual cost of keeping up

up a wicker well which he states it to be ten rupees and that Consequently his Calculation that a Ryot is reimbursed in four years his additional outlay for stone work is too favorable a Conclusion, particularly when it is observed that out of the total number of three hundred wells now brought under discussion only twenty nine Cost the Ryots less than forty rupees. Indeed it is not very easy to understand how a wicker work frame to his well should Cost the Ryot annually ten rupees and the supposition is inconsistent with Mr. Murray's Calculation of the profits to be derived from well Cultivation. In paragraph 9 of his letter to the Board he submits that the profit to the Ryots is very small when a second Crop is not raised; if the present minimum rate of teeruajastee be levied having shown in paragraph 6 that the gross value of a single Crop raised on an acre of land under well irrigation would be Rupees thirteen, that from this must be deducted

W. P. 9-4- as the dry assessment 6-6-9- and as the teeruajastee deducting one fourth, and ten Rupees the annual escpence of keeping up the well. so that

Rs. A. P.

with the usual escpences of Cultivation, the Ryots

Fort St. George 8th December 1851

Ryot would suffer a heavy loss on a single Crop, and receive but little profit on a second.

7 The third argument adduced is the unfairness of charging the Ryot without Capital to line his well with stone while the richer Ryot is exempt, but this would appear to be an objection inseparable from the present state of Society over the whole world, Capital will have its advantages and I for one, am not prepared to say that it should not. the rich Ryot can pay the assessment on his land from his Capital while the poor Ryot is forced to borrow at a high interest. the former can hold his grain until prices rise, while the latter must sell when the day comes round for his Kist. the rich Ryot can profitably lay out Capital in manure, and derive a profit which for want of Capital the poorer man must forego, and it appears to me to be hopeless to attempt so to regulate the assessment on land in India as to put rich and poor on a footing of equality and deny to the Capitalist the advantages which he every where else enjoys.

8. In the Statement to which reference has already been made the Board will find full particulars of the wells now in question. I find it

Fort St. George 8th December 1851

it difficult to recommend a rule that shall be universally applicable and am of opinion that the nature of the soil in which a well is sunk and the depth at which water is found are points which should be allowed to enter more into the discussion than the nature of the wells facing - In rocky or hard gravelly soil, stone is not required, but the labor of sinking the well may be great and the expence heavy, in loose light soil which is easily excavated the sides will want support, but in order to build them up with stone, a large excavation must be made to prevent the soil from falling in and filling up the well - Sand will generally be found in the vicinity of rivers and Channels and into wells sunk in their vicinity water will readily percolate - If the Board should be disinclined to allow the question to remain without an authoritative decision binding in all cases, and that each Case should be settled on its

merits

Bd No 2415

Proceedings thereon- The general question of

(17-18) taxing improvements in lands under the Madras Presidency effected by the Construction of Wells, &c. at the exepence of the Ryots having recently been fully reported upon by the Board to Government who have referred the matter for the orders of the Honorable the Court of Directors, the Board resolve to direct the Collectors to abstain from levying Teeruvaijostee on Wells which have hitherto been exempt and to treat all cases in which Wells are newly Constructed with every Consideration to the interests of the Ryots by levying Teeruvaijostee only on such new Wells as may receive Water from some fixed Channel or other Source of irrigation

From the Collector of Chingleput.

Sir,

Adverting to the Extract from the Proceedings of the Board of Revenue under date the 30th August last, giving Cover to transcript of a letter from the Collector of Madras dated 29th Idem No. 81, requiring me to complete the supply of Salt authorized to be made to the Madras Cotaurs from the Vullore Vepe Paus, with a view to the resumption of the sale for Inland Consumption of Salt at that Cotaur, I have the honor to report that agreeably to the instructions of the Board of Revenue, orders were issued to the Peishcar at Vullore and Voyaloor for the manufacture of the full quantity of the 2,000 Garces of Salt Authorized and that 1,264-268 had been manufactured up to the 2d May last. In Consequence however of the Gale experienced on the 3d May, which causing the

inundation of the Pans, the manufacture was discontinued for a Month, when on being resumed a further quantity of 290 - 104 was manufactured under the exertions used, making in all 1554-372. Of this however 474 - 162 were destroyed by the Gale of the 3d. May, as well as by the wastage occasioned in the transport of Salt in Boats to the Madras Cotaurs; the remainder 1080 - 210 was duly delivered at the Madras Cotaurs. The further quantity of 919 - 190 still required in Completion of the full quantity authorized, the nature of the season rendered it impossible to supply.-

2. I take this opportunity of informing the Board that in consequence of the wholesale dealers and others who have hitherto been in the habit of getting supplies at Madras having of late resorted to my Cotaurs the sales in this District have considerably increased.-

Board of Revenue,
Fort St. George.

Sir,

Referring to an Extract from the Proceedings of the Board of Revenue of 23d. June, and to Para 9 of their Proceedings of the 10th. March last, therewith Communicated and in which they recommend that the Enam Village of Areyoor be transferred to an individual chosen as representative of the present incumbents among themselves. I beg leave to represent that the coproprietors of the Enam in question exhibit the greatest repugnance to such an arrangement, dreading a repetition of the quarrels which formerly distracted them. The Board are aware that at present the Enam is divided into 4 Shares, which are held by five Share holders - and to these five persons Collectively I would

now-

now beg leave to request that I may be empowered to make over the village, as instead of to an individual chosen from amongest them.-

2. The wandering habits of the community interested in the Byraghy Mutt at Sholinguer of which the Village of Somasamoodrum (referred to in para 4) forms the endowment, renders the choice of an individual by them to manage its affairs a matter of difficulty, but steps are in progress towards that end, and I hope soon to be able to report that the village has been duly made over to a Competent party).-

Bd. No. 2594
From the Acting Collector
of North Arcot;

Sir,

Adverting to an Extract from the Proceedings of the Board of Revenue of

of 23d. June, and to para 10, of the Proceedings of the 10th. March last, therewith Communicated, I have the honor to inform you that there are at present no sums in deposit on account of any of the Dehant Enam Villages referred to. The enclosed Statement will shew the sums so held up to Fusly 1256 but afterwards carried to the public account with the surplus from Fusly 1257 to 1259, and detailed accounts will be furnished should the Board require them.-

Pros: 10th March 1851.
From 13th in Cons.
23d June 1851.

2 In para 5 of Extract minutes of Consultation 13th June 1851, the Government do not seem to have concurred in the Board's suggestion that the Dehat Enams of Arcyoor should be made over to one individual chosen by the others, but that it should be restored to the parties (Collectively) who held possession prior to its temporary resumption.

3. From the Statement received with the letter last recorded it would appear that at present there is no surplus rent from any of the Dehat Enams in North Arcot, but that the sums so held up to Fusly 1256 were afterwards carried to the Credit of Government together with the surplus from Fusly 1257 to 1259.

4. In the case of the Arcyoor Dehat Enam it would appear that there never was any surplus and until the Village of Somasamoodrum has been made over to some Competent person the Board do not deem it necessary to call upon the

Fort St. George 8th December 1851.

the Acting Collector for the details of the surplus which has already been carried to account on account of that Village Amounting to Rupees 6,303-10-7- which can be paid with the permission of Government when the Village is made over as anticipated by the Collector.-

Sir,

Referring to the Proceedings of the Board of Revenue dated 3d. July last, Communicating the sanction of the Government of India to the remuneration of the Village officers of this District by grants of land I beg leave to inform the Board that in anticipation of their Consent I have taken upon myself to make over to the Curnum of the Village of Paukum Pallium in the Vellore Talook - 8 annas or half a Cowny of Land which has been

been thro' inadvertence omitted from the Statement No. 1 Submitted with Mr. Babington's Letter of the 22d April 1843, and in which the Curnum's Maniem of the Village was set down at 6-13¾ as instead of 6-9¾ as the mistake occurred in the Talook in adding up the several numbers of the land of which the Curnum's allotment was to be made up. The Teerwah is correct and there can be no question as to the Curnum's title to the missing Cawny of land.—

From the Actg. Collector of North Arcot—

Affords the further explanation required by the Bd. in their Pro. of 29th Septr. last respecting the cause of dismissal of Vurdachaary and Vurdareddy Monigars of Nullore in Wundawash Talook.

Sir,

Para 1. Adverting to an Extract from the Proceedings of the Board of Revenue dated 29th September last requesting further explanation of the cause of the dismissal of Vurdachary and Vurdareddy late Monigars of the Village of Nullore in the Wundiwash Talook, I have the honor to state for the information of the Board that Vurdachary and Vurdareddy were appointed Monigars of the above Village on the 8th June 1840, and the 9th September 1845 respectively and are now, and have for some time past been residing in other Districts, Vurdacharry at Serungham in

Fort St. George 8th December 1851.

in Trichinopoly (where he has been for the last 10 years) and Vurdareddy at Pancha-
=lum in the Tindivanum Talook of South Arcot. When first appointed (as they) were incapacitated by reason of their Youth for the efficient discharge of the duties of their Offices and there-
=fore Gomastahs were appointed (and for them, but this Cause has long) ceased and there has been for some time past nothing) to prevent their assuming charge of the Manigary, had they been so minded. This however they have never as yet (it appears) made any attempt or expressed any wish to do, and in the mean while the Gomastahs appointed during) their Minority) have been allowed to continue in office.

2. Under these Circumstances it cannot with propriety be objected against Vurdacharry) and Vurdareddy that they) have absented themselves without leave; for it was the duty of the Government Officers to have called upon them, when they came of age, to assume charge of their offices, or assign some good reason why Gomastahs should be

Fort St. George 8th December 1851.

be still allowed to perform them on their behalf and their having) neglected so to do must be taken as a tacit admission that the arrangement was not disap-
=proved of.

3. But the case is different as regards the misbehaviour of the Gomastahs, the second ground assigned. These the Acting Sub-Collector reports have for some time past systematically neglected their duties in the face of repeated warnings, and have thereby justly laid themselves open to punish-
=ment and it is quite right that their principals should be held answerable for their transgressions tho perhaps a temporary deprivation of office might have sufficed as a punishment. But as yet they have made no remonstrance or appeal and therefore nothing) has been done, towards lightening the Sentence).

4. The period given in Col. 6 is that for which the Name of Vurdacharry and Vurdareddy have been borne on the Register. As men-
=tioned above they) have never actually served. The periods are explained by

by the Acting Sub. Collector to have been erroneously given at 11 and 13 years, and ought to have been as noted in the Margin.-

Bd No. 2806

From the Collector of Salem.---

Sir,

Adverting to the Communications marginally noted which convey your Board's opinion

Requesting the Board's further instructions regarding the right of succession to a Cumbum Mearasidar

From Bd May 29th 51.
To " June 3d "
From " July 21st "

opinion that the widow of an elder brother who was the 1st incumbent of a Curnum-ship has a right to registry, and the nomination of a Goomastah, preferable to that of the widow of a younger brother who was the more recent incumbent of the Curneckum. —

2. I have the honor to state that in a case which has come before me for decision since your Board's instructions were received, I have felt embarrassed as to the extent retrospectively) to which application should be given to the Board's view of the right to succession as above shown.

3. It is not clear to me (or whether, passing beyound the limit of brotherhood, I am to consider myself at liberty to set aside the claims of the widows of brother meerassidars who may have been registered, when the widow of their father, also a registered meerassidar may be alive and a claimant for the registry; — or whether the enforcement of the rule prescribed by your Board, shall have effect only in regard to the widow of the sons of a former registered Curnum

4. (If priority) of service and

and primogenitureship be recognized as establishing the most valid claim to the registry) it is obvious that the interests of daughters-in-law must be set aside for those of their husbands mother but going farther back, it is possible that a Grand mother may also appear and demand the Concession to herself of rights which under your Board's view should be conceded to the widow of an elder male member of the family).

5. So far as I can learn it would seem to have been the practice of the District to look mainly to the fact of who was the last registered incumbent and proceed in regard of the registered succession to hereditary as if no right were vested in the immediate relations of a former incumbent when such relatives of a later one are forthcoming); and the adoption of a contrary Course is no doubt likely to create considerable disturbance in the relative position of parties interested.

6. (In submitting) these observations I beg to disclaim even a remote intention to distrust the propriety of

of your Board's recent determination which I have proceeded to enforce; and I make them only in consequence of the bearing of a case being complicated by the necessity of my again enforcing that determination.

To the Collector of Salem.

To the Collector of Salem

Sir,

With reference to your letter of the 15th November 1851 I am directed by the Board of Revenue to inform you that in their opinion the general rule to be observed is this, that when a Cummum dies leaving 2 sons, and the elder succeeds, and subsequently dies leaving a widow and no male issue, the younger brother succeeds to the Mierassee. He becomes a bonâ fide Mierassidar and his widow (supposing) he leaves no male children) becomes his heir, with a better right than the widow of the elder brother.

Passing remarks in the case of one Athamal relative to Certain Cummum Mierassee in his District.

See Cons 8th Dec 1851 No 2416

2. But this rule has its exceptions. Circumstances may occur where on the death of the elder brother, the Collector may see fit to Register the Cummumship in the name of the Widow, and allow her to nominate a Gomasta, or even at a later period to recommend the widow of the elder brother in preference to the widow of the Younger, though the latter held the Mierassee.

3. In the case of Athamal referred to by you it appears that the deceased Cummum was the Gomasta or Nominee of his elder brother's widow and did not hold the Cummumship in his own right and there were probably reasons for this departure from the general rule though the Board can give no decided opinion on this case as the Petition is not on their Records.—

4. This case however is no precedent, and the Board would wish you whilst supporting the general rule to bring to their notice any case on which you may be embarrassed and dif-

will be taken into consideration on its own merits.-

From the Collector of Salem - -

Affording Explanation on Petition No. 1664 of 1851. addressed to the Board by one Pareya Goundan and Thingoda Goundan Complaining of the levy of excess Cenwah on certain Paramboke land alleged to be unfit for Cultivation.

Sir,

I have the honor to reply to your Board's communication dated the 11th. September last desiring further information regarding the circumstances detailed in my Endorsement to Petition 1664 of 1851, it appearing to the Board that if as the Petitioner alleges, the land through which the channel built by him is carried be Puller Parumboke, not hitherto taken up and the demand newly imposed in Fusly 1259, there would seem some hardship in levying so high a rate as that which I have applied.-

2. The channel in question leads from a dam constructed by the Petitioner on Government land, without authority some thirty years ago, since when he has, by means thereof but as without

without making any extra contribution to the State, converted into Nunjee certain Pagayut which he holds in the neighbouring Jarce Mootah.-

assessment W.a R
+ Pagayut which he holds in the neighbouring Jarce Mootah.-
+ Acres. 3-9-1. 10-1-6.

3 The land through which the channel has been excavated, is not Puller Parumboke. The anna cut was built in the passage made for itself by the surplus water of a Cirkar Tank. The channel which the dam is the means of supplying with water, was dug subsequent to the construction of the dam.

A.Q.a. Rea.s No. 29-2-15-9=3-2-6

On one side of the site covered by the annacut and in it's close proximity is land fit for conversion into Nunjey and some actually under cultivation as such. On the other side is some poonjey, bearing a Jaisul rate of assessment. It is in one of these poonjee fields that the channel has been carried. The field in question formed the Puttah holding of one Rungaiya Goundan until Fusly 1258 since which

which it has remained fallow-c-o but it is obvious that the digging of the channel cannot have been undertaken unless with the consent of Rungaya Gounden and the knowledge and connivance of the Village authorities. The Petitioner has been held liable for the assessment of the poonjee field through which his channel passes; and such parts of the parumboke as have been found adapted to wet cultivation by the tank water have been assessed with a mirasi tirwa fixed on reference to the rates prevailing in the neighbouring nunja fields.—

4. The extent of nunja land appropriated as the site of the

the annaicut and encroached upon by the water which it collects, is estimated to be Acres 3-18-8 c-o. The unauthorized acts of the Petitioner in thus occupying and using for his own special benefit, what might otherwise have been disposed of for the advantage of the Government and its ryots were brought to light during an enquiry into a matter of concealed cultivation.

From the Collector of South Arcot.

Sir,

I have the honor to forward an appeal petition, with translation, presented by the Puttah Monigar of Woodyoor in the Manargoody Talook against a decree passed by me under Regulation IX of 1822. As I made my remarks on this case in my letter of the 5th Instant when forwarding the appeal of the Curnum of the Village, it is unnecessary for me to offer any further observations here.—

No. 1.

Translation of a Petition.—

To,

The Honorable Board of Revenue.—

I Mooroga Pillay, Monigar of Woodeyoor, attached to Manmargoody Talook, beg to appeal under Clause I, Section

Fort St. George 8th December 1851

Section VI, Regulation VII of 1828, from a decision passed by the Collector under date 29th August 1851, with which I am dissatisfied:

1. The evidence required by Clause I, Section III, Regulation IX of 1822, was not at all taken in this case, nor did the Agimashdar conform to the practice of conducting the Chuppavany examination in the presence of the Land-holders &c. the Ryots addressed remonstrances to the Collector and the Tahsildar on 4 or 5 occasions bringing the above circumstances to notice with details of accounts and soliciting that the Proceedings might be conducted in accordance with the Regulations; no notice was taken of them. Myself presented a Statement of my case to the Tahsildar on the 1st Instant which was not listened to, that no attention was paid to these representations in forming the decision will be apparent from the Decree itself.—

2. In the Decree the Circar is considered the prosecutor and yet a Servant in it's employ that is Arnachellum the Agimashdar, and the peon who followed the

Fort St. George 8th December 1851.—

the measurement without being able to speak to particulars of Numbers, Turns, &c. are treated as Witnesses, out of the sum of Rupees 360-10-2- represented by Arnachellum to have been concealed by us, Rupees 280-5-5. is established in the decree as the Chuppavany, the rest being disallowed, but the Collection-list sent to the Village shews Rupees 302-2-2. as the amount recoverable, this is not at all regular, is it proper to use as a witness a Circar Officer who was sent for the Agimash of the Village while the Circar itself is the prosecutor? and is it right at once to receive as correct the accounts submitted by an individual? The Regulations do not authorize the Collector to constitute the enquiring Officer, both the Plaintiff and Witness, and to order the recovery of the amount given in by him, nor does such a practice prevail in any Court of Justice under this Government- On due consideration and perusal of the decree the Board will be convinced none of the requisitions above specified was attended to in my case.—

As.

that neither the Ryots who were to make good the Chuppavany amount nor myself who was to be subjected to a penalty were allowed to be present during the Agumash.—

6. It is mentioned in the Decree that we admitted Chuppavany to the extent of Rupees 53 and odd. The Village is a large one containing 400 Cawnies assessed at Rupees 4000 and it is not easy to find out the exact fields. At the time of Cultivation the rod could not be conve=nently used and in the Months of Tye and Masy when orders were received for Adungal examination, the fields bore full crop and could not therefore be measured with the rod, entries were consequently made on rough estimates. At the Chuppavany inspection, the lands were bare, and uncultivated, and were therefore capable of perfect measurement. excesses were consequently discovered to the amount alluded to. there was no intentional conceal=ment but as the portions of fields left out were properly chargeable with Teervah we admitted the amount befor the Collector.—

A.

7. A perusal of the Proceedings held by Mr. Collector Cunliffe in certain Chuppavany cases and of the Board's order in the case of Madapoorum Chuppavany in Fusly 1242, will show that the present enquiry should have been conducted on similar principles.—

Under the foregoing circum=stances I pray that the Board will fully consider the subject of my Petition in connection with the Appeal Petition of the Curnum Cullianaramien and the represenia=tions of the Ryots and pass a just decision according to Clause 2nd, Section 6, Regulation 7 of 1828, and also that orders may be sent to the Collector for my restoration.—

3. The fall of rain in August was partial but more general rain fell at the commencement of November and again early in December, but the North East Monsoon was but scanty and unfavorable. The consequence was that the Poonjah crops suffered much, whilst owing to the failure of the later rains, the Paddy when in ear did not obtain its full size. The Candarunbum Villages as might be expected suffered more severely than the Veerarunbum, in the latter the season may be on the whole pronounced tolerable, but in the former it was decidedly unfavorable.

† Depending on local rain.

* River irrigated

4. Cholera made its appearance, but not to any great extent in January in the Western and Southern parts of the District, but soon disappeared. The North East Monsoon had been so scanty that in the Candarunbum Villages much distress for want of drinking water for men and cattle was felt between January and April. The storm at the beginning of May extended to about 30 Miles inland, beyond which

distance

distance the fall of rain was moderate, and the relief thereby experienced was great, on the whole the season was a healthy one.

7. One village "Rented but not affected by price" (Viz.t Cullimoad has reverted to Amany in consequence of its cultivation having severely suffered from want of rain.—

8. The Amany villages are less by 4 than in 1239: 8 having been transfered to Olungoo and 4 (Viz.t 3 from Olungoo and 1 from Olungoo rented but not affected by price) having reverted to Amany.

9. The annexed Statement shows a net increase of 174 Valies in the different descriptions of cultivation above those of the last year.

Poonjah	346
Bagoyet	38.
Net increase	174.

1 Valy is equal to 6 acres 224 $\frac{56}{127}$ Goolies.

10. There is a net decrease of 210 Valies in Nunjah the difference between a gross increase of 706 Valies (in the Olungoo gross settled Vm villages) and a decrease of 916 Valies; of this decrease, 828 Valies has arisen from land left unploughed or entirely parched from want of rain in the Cardarumbum Villages "Rented but not affected by price" situated in the Talooks of Kewalore and Tritrapoondy on the coast. Of the remaining 90 Valies (in the Amany class) 12 are in different Villages and the rest (78) in the Tritrapoondy Talook; 47 Valies of the latter (78) are in the Villages of Toolajapooram and Gopenathapooram, which have no other means of irrigation than from a tank, and

and as both rain and freshes failed in November and December (the season for cultivating the crops called Chittrakar here generally raised) the whole extent of land as per standard was left waste.—

11. The gross increase in Poonjah is 525 Valies but from this, 179 Valies decrease have to be deducted which makes the net increase 346 Valies. The particulars of the above 179 Valies decrease are as follows Viz.t 64 are in Olungoo rented and gross settled Vm Villages, owing to the conversion of Poonjah into Nunjah, and to the damages occasioned by breaches in the rivers banks, the remaining decrease (115 Valies) is in the Amany Villages, but chiefly (105 Valies) in the Candarumbum Villages of Kullimoad in Tritrapoondy.

Increase	525
Decrease	179
Net increase	346

12. The decrease of Poonjah cultivation in the Candarumbum Olungoo villages rented but not affected by price would have formed an entry somewhat corresponding to the decrease of their Nunjah, but that under this system it is not usual to allow remissions for Poonjahs waste. It is however most probable that the balance of Rs 4,827 outstanding on account of Candarumbum Twis will not be able to be recovered.—

13. In Bagayet there is an increase of 38 Valies as compared with the preceding year.—

22. Old balances to the amount of Rs. 57460 have been collected in 1260 Viz. Rs. 49498 on account of the arrears of Fasly 1259 and the rest (Rs. 1962) for years previous.

23. The amount of this Fasly's Tuccavee advances were 38600 of which Rs. 38202 — 13 — 7 were recovered within the Fasly and the balance 297 — 2 — 5 has been since collected with the exception of Rs. 13 5 4 due by Krishnaswamy Naick the Merasidar of Neethaloor in Paupanaseny who claimed remission on the plea that his produce was not 70 per cent of the standard grain amount but a careful estimate framed by the Tahsildar on inspection showing that it was above 70 per cent his request to have the crop harvested under circar Management was refused; when he obstinately allowed the standing grain to be totally destroyed rather than reap it himself; subsequently

subsequently he has neither repaid the Tuccavee advance or his Kists, and has I hear lately filed a suit against Government with the view of making out that the Courts have Jurisdiction over the question of whether Ryots are or are not entitled to remission for alleged short produce. His object in preferring a plea so manifestly untenable is evidently only to delay the realization of his arrears and I propose to recover the same by the sale of his property and will submit a separate report on the subject.—

24. The following table exhibits the particulars of the 3 Amany villages settled this year at a reduced grain demand till a fresh settlement is effected. The Nunjah Beriz now settled is 16 5/16 per cent below the standard of Fasly 59 but exceeds the average of the preceding 10 years 15 3/8 per % and is only 3 7/16 below the highest year. No alteration has been made in the Poonjah &c.—

28. As required in Para 13 Board's Proceedings on the settlement of Fasly 1259 I submit a detailed Statement No. 15 exhibiting the assessment on the total extent of waste in the Field assessed villages only, the amount actually permitted, and that included in the Summabundy. It shows the total amount of waste to be 22,113 of which it was thought necessary to permit 11,473 which term has been struck off the demands against the Ryots and the rest carried to account.

reference to the capability of the soil and the tax borne by lands of a similar quality in the neighbourhood. Mr. Bishop replied that these instructions should be complied with but remarked that the nature of the soil of these lands which were of trifling extent could not bear comparison with those of the neighbouring Talooks, and he has subsequently after ascertaining their capabilities prepared the enclosed Statement exhibiting the rates with which he thought fair to assess them, with reference to the Tax borne by lands in the vicinity and

No 141.

To. T. W. Goodwyn Esqre
Acting Collector of
Tanjore.

Sir.

I have the honor to forward
Para 1.
the usual Statements shewing the result of
Nos 1 and 2. the settlement of Land and Extra Sources of
Revenue connected with the sub Division for
Fusly 1260 A.D. 1850-51.

On my assuming charge of this
2.
division I found that the Settlement of the
Six Talooks was concluded.

The marginal note will shew
3.
the places where the Puttahs were distributed.

The supply of water in the
4.
rivers was steady and abundant. In July
the freshes were so high that the south bank
of the Coleroon in Shcally and some rivers in
other Talooks were flooded. which caused the
Meerassedars of a few Villages in all the
Talooks except Mayaveram to sow again
their Nunjah lands which were washed
away. Want of rain was felt in the early
part of November / when the paddy
plants were coming to ear / and
might have caused a deficient produce
in high levelled lands. On the whole the
season

season may be considered to have been a favorable one both as regards Rain and Freshes.

5 The current selling price of the Fusly under Report has advanced a little to that of Fusly 1259 by 2 7/15 cash or 2 3/8 per cent.

6 The total number of Villages comprizing the sub division is as shewn below.

Total	48,046	9	20	48,041	3	28	78	4	83	83	10	75
							Net			5	5	92

In

In the first item there is an increase of 78 Valies arising from a gross increase of 344 and a gross decrease of 266 Valies, the increase is owing to the Poonjah and Bagayet lands converted into Kunjah and to the lands the teervah of which was remitted in last year, brought under cultivation in the year under review. The decrease chiefly consists of the lands become unfit for cultivation and of those lands whose plants have perished by excessive wet.

There is a net decrease of 82 Valies in Poonjah resulting from a gross increase of 36 and a gross decrease of 118 Valies, the former is owing to the Porumpoke &c. lands brought under plough, most part of the latter is owing to the lands converted into Kunjah and Bagayet, and the remainder has become unproductive.

Oloongoo rented Villages.

8. The total number of Villages under this head in Fusly 1259 was 436. Of these 2 villages were brought to Amanny, thus 434 remain. one village from Amanny makes the total 435 Villages. Of these, 3. received in exchange from H. H. the Rajah

Rajah paid the full assessment without reference to the current selling price, and 14 suffered by drought and were reaped by Government servants, there remain 418 Villages. In 110 no reduction was allowed as the current selling price did not fall below 5 per cent of that of the standard-

+ Standard Beriz ——	2,31,907-3-3
At actual selling rates ——	2,12,470-2-1
Difference ——	19,437-1-2
Of this ——	7,841-11-5

is borne by Government and the remainder by Meerassee-dars.

while in 308 Villages a remission of Rupees 7,841-11-5 was granted, the selling price being below 5 per cent of the fixed rate. The total Beriz of these 418 Villages is Rupees 3,32,585-2-6. which if compared with Fusly 1259 shews an increase of Rupees 17,941-15-9.

Field Assessed Villages.

Nadoottittooneayekenteroovoo a Village received from the Trichinopoly district and which was hitherto entered in the Statements under a separate head, has agreeably to the Board's orders been incorporated with this class of Settlement which makes the number 919 instead of 918 as in Fusly 1259. The subjoined comparative statement shews the Beriz of these 919 Villages and exhibits a net decrease of Rupees 486-1-7. resulting from a gross increase of Rupees 417-2-8. and a

and a gross decrease of Rupees 903-4-3. attributable to the unfavorable nature of the season. The excessive wet having destroyed much of the young paddy plants and prevented other lands from being cultivated. A remission was granted under the head of Surshee and Nattapall to the amount of Rupees 5,350. Of this a sum of 5,120 Rupees is granted in Shreally Talook alone where some of the Meerassee-dars have thrown up their Cowl lands when they reached to the full assessment.

Amanny

10- Of the 13 villages in Fusly 1259 one was rented in the year under review and 2 Villages were transferred from Oloongoo rent- thus the total number of Villages is 14:—12 of these were the same as in last year- The Meerasseedars of the 2 remaining Villages urged vain objections- It was therefore deemed necessary to place them under Amanny- The Beriz of these 14 Villages when compared with that of last year shews but a trifling decrease of Rupees 4-9-5-3- below Fusly 1259 or 13/16 per cent-

Villages suffered by drought-

11 In the fusly under review 29 Villages suffered from drought, inundation &c^a. Of these 14 in Oloongoo rented- 6- in one year rented and the remainder in Mottumfysel Villages- The lands of those Meerasseedars whose produce did not exceed 70 per cent of the standard Grain amount have been carefully examined and brought under this head of settlement- The standard Beriz of these Villages is

Rupees—21,919-8-.

Actual Beriz— 15,025-15-8-

Remainder or loss— 9,893-8-4

Per centage — 39 45/64

In some instances the full assessment has been collected

collected where the Meerasseedars neglect was the cause of deficient produce-

Mottumfysel Villages

12 There is a net increase of Rupees 1,648-6-3- in these classes of Villages above Fusly 1259 as shewn in the following Statement—

General Abstract-

13- The increase in the first item is chiefly owing to the favorableness of the season- The following Abstract shows at one view the total amount of Land Revenue of all the descriptions of Villages as contrasted with Fusly 1259 and exhibits a net increase of Rupees 16,012-7-2- a result almost attributable to the increase in the current selling price in Oloongoo rented Villages-

14- There is a net increase of Rupees 4,376-14-" in the Extra Sources of Revenue as will be seen by the marginal Statement. The increase in the last item is owing to the competition in obtaining the rents. The difference in the other two items is small and needs no remark.

Demand Collection and Balance-

15- Of the total demand Rupees 16,21,004-12-2- there was a balance of Rupees 2,05,14-4-10- at the close of the Fusly which is reduced to Rupees 13,331-14-" by the subsequent collections upto the 15th of September which bears a per centage of 1 3/16 on the demand- Of this a sum of Rupees 7,595-12-5 is to be paid by

by Anacondy Iyaroopillay whose circumstances you are well aware of- The Iron company at Porto Novo have been requested to liquidate their dues for the Fusly just expired, the remainder 4,796-1-10 is in train of collection.

*1000 Rupees.

Arrears- 16. Former arrears to the amount of Rupees 34,178-6-3- have been collected in the Fusly under report-

Sir

From the late Sub Collector of Tanjore.....

I have been favored with an Extract of Proceedings of the Board of Revenue dated 10th November 1851 in reply to a reference from the Acting Collector of Tanjore on my account for Extra Tent allowance due to me in which it is intimated "that the Board cannot admit a retrospective claim to Extra Tent allowance after the lapse of nearly 4 years."

Stating reasons as to the delay in drawing the Extra Tent allowance and requesting the Board to admit the same.—

2 With reference to this remark I beg to call attention, to the fact in the first place of my absence on Furlough from the Country, for a period of 3 years of this time and in the next that I have been in constant communication with various authorities ever since my return, for the fair adjustment of my claims for Salary &c. &c. drawn by my Agents during my absence in England refunded by them at the request of the Sub Treasurer or Civil Auditor (being authorized to meet all claims against me on the part of Government which was construed as no permission to

Civil Auditor
Secretary to Govt.
Collr. of Tanjore.

Fort St. George 8th December 1851.

to draw unsettled claims in my favor due by the Government) and again in part drawn by me on my return to the Country last March.—

3 This very subject of Extra Tent allowance has been constantly agitated & with my other claims and I maintain that I have a fair cause for complaint that the same have been unadjusted to the present day tho' the whole has been at length acknowledged except in the present instance, by the authorities to whom I have applied.—

4 I trust therefore that the Board will not any longer hesitate to admit the validity of my claim for Extra Tentage preferred to them by the Acting Collector of Tanjore (trifling as the amount may be) as the fault of the delay can in no way be attributed to me at the same time under any circumstances I beg respectfully to maintain that a lapse of years, such as in the present case cannot bar my claim to allowances to which I am entitled by the standing Regulations of the service, any more than a lapse of years can be pleaded successfully, to bar any Retrenchments ordered by the Civil Auditor against a Member of the Service.—

Reporting upon the Management of the Extra Sources of Revenue in the District of Madura for Fusly 1260

a D 1850/51

Demands.

The following Abstract exhibits in one view the Demand of each source of Extra Revenue in Fusly 1260 Compared with that of the preceding Fusly 1259, resulting in a net Decrease of Rupees 16,503-8-1.

	Demand of Fusly 1259.	Demand of Fusly 1260	Increase	Decrease

Total	4,26,721-9-4	4,14,218-13-7	19-13-6	34,223-5-7
			Deduct Increase	19-13-6
			Net Decrease	16,503-8-1

The

Salt

2 The Decrease of Rupees 30172-12-9 under the head of Salt occurred in the following proportions—

In Sales for Home Consumption Rupees 25374-4-9
In Sales for Inland Consumption " 4857-"-"

30231-4-9

Deduct Sales for Foreign States, of which there were none for the previous year. 58-8-"

Net Decrease Rupees 30172-12-9

3 This result is in consequence of the removal of former restrictions that Carts from the District of Madura which had conveyed Cotton into Tinnevelly should not bring back Tinnevelly salt and the abolition of the Custom apparently obtaining in the latter District of refusing salt for conveyance to the Coast Districts. Orders having been issued to the Salt Chowkeydars in Tinnevelly to sell Salt to any one desirous of purchasing it appears that a large quantity was sold for consumption in Madura and conveyed on return Carts which had previously taken Cotton. The restrictions having been properly abolished in both Districts the Salt Revenue of Madura may be materially affected when the roads for the transit of Cotton are

+ See Statement annexed to para 4 of Collectors report.

Completed through Tinnevelly and Ramnad a fluctuation in the Madura sales from such causes however cannot but be viewed with satisfaction.

4 The Board do not think that the Manufacture should be materially lessened in Madura, at least for the ensuing season, as the recent rise in the Tinnevelly sales may exhaust the entire stock and so leave that District in some measure dependant on Madura for its supply.—

Sayer 5 The Decrease Rupees 50-8-10 in Sayer is trifling.—

Seacustoms 6 All the other Extra Sources of Revenue exhibit an Increase. In Sea Customs the Increase of Rupees 2983-1-10 is in consequence of larger exports of Chillies and Paddy to Ceylon and of greater imports therefrom of Raw and Boiled Nuts.—

Abkarry 7 In Abkarry the Increase of Rupees 4435 is owing to enhanced offers consequent on the gains derived by the

renter in the preceding year.—

Small Farms 8 The increase of Rupees 7450 1 2 in Small Farms is in like Manner owing to better offers of Fish rents in consequence of a larger supply of Water in the Tanks.—

Stamps 9 The increase of Rupees 3845 10-6 in Stamps is caused by the sale of Stamped paper of higher value.—

Collections Charges & Net Revenue. 10 The Gross Collection Current Extra and Arrears within the Fusly amounted to Rupees 44456—5—3 Deducting Charges of Rupees 6700—5—1 the Net Revenue realized in Fusly 1260 was Rupees 36375 1 2 or Rupees 1198—4—7 below that of the previous year.—

Arrear. 11 The only arrear outstanding at the close of Fusly 1260 on account of previous year was Rupees 12—11 under the head of Small Farms which it is expected will be recovered.—

Ordered that a copy of the foregoing Extract with the annexed comparative Statement

Statement of the Collections charges and Net Revenue be submitted to Government and a transcript of the same be furnished to Collector of Madura.—

Bd. No. 2756.

From the Collector of Tinnevelly. Sir, Para 1

Reporting on Petition No. 2121 of 1849 herewith received.

In retransmitting Petition No. 2121 of 1849 received with your letter of 17th October 1850, I have the honor to report on the particulars noted therein.

2. And first with respect to Meturpha the rates have varied in the Village of Anu. basamoo. drum very much in different years as will be perceived from the Statement in the Margin but the present rates are not higher than those levied

levied formerly when the Province was first assumed. No certain information can be obtained to account for the fluctuations which has occurred but it seems likely that they were influenced by the transactions of the Commercial Department in which Vengoo Moodeliar mentioned in the Petition was for many years the Head Salvs Servant.

3. It will be in the knowledge of the Board that the Weavers generally of this District have for many years been making strenuous efforts to have their burdens lightened and it is to be hoped that some indulgence will eventually be accorded to them. But until the whole subject is disposed of under the orders of the Court of Directors to whom it has been referred it would be exceedingly dangerous to the tranquillity of the District to make any partial alterations in the Loom tax. I beg the Board to look back to Mr. Thomas's letter of 24th November 1843 respecting the conduct of the weavers of Mailapollium. These persons have more than once assailed me since I have been here and should

it come to their knowledge that the request of the Ambasamoodrum weavers for reduction of tax has been favorably disposed of it will be impossible to collect the present demand any longer at Mailapollium and other weavers would soon follow their example.

4. With respect to the fire mentioned in the Petition now returned, the facts stated are quite correct. 162 Weavers houses were burnt at Ambasamoodrum in June 1849 and 25 lives were lost. The houses were soon rebuilt without even a request for Tuccavy being made and the Cloth Manufacture of that Town proceeds with its usual activity.

5. In conclusion I trust the Board will see good to support my former Endorsement on this Petition to the effect that the present rates of Moturpha in Tinnevelly cannot be altered until the orders of the Court of Directors before whom the subject now is have been made known.

B°. N°. 2861.

From the Collector of ..... Madras } Sir,

I have the honor to bring to the notice of the Board that Mahomed Moideen a Superannuation Pensioner and Yeomiahdar on this Establishment, informed me by a Petition dated 24th March 1851, that he had lost his Pension and yeomiah Certificates, which were alleged to have been stolen from the Box in which they used to be secured, and requesting that fresh Certificates might be issued to him

Recommending that a fresh Yeomiah Certificate may be issued to Mahomed Moideen whose original Certificate is stated to have been lost.-

N°. 1290

2. The Endorsement that I then deemed it necessary to pass on his application was to the following effect.-

"As it appears that the Petitioner is a resident of Aroombankunn in the Chingleput District

District, and that the alleged robbery, took place there, he should apply to the Collector of that District in order that an enquiry may be made by the local Police or revenue officers and a certificate obtained in proof of his statement, to admit of a reference being made to Superior authority.-

3. In the month of August Mahomed Moideen submitted the accompanying report from the Tahsildar of the Sydapet Taluk from which it will be observed that it has been satisfactorily proved that the alleged robbery did actually take place, and that strong suspicion rests on the Servants of the Applicant.

4 Under these circumstances I have the honor to recommend that authority may be granted for the issue of a new yeomiah Certificate to Mahomed Moideen and that his allowance due from the 12th January to the 11th October 1851 being Rupees 30 — " — " may be disbursed.-

5. A similar application will be made to Government for the issue of a fresh Provision Certificate in lieu of the one that is

is lost.-

Proceedings thereon.- Under the circumstances represented in the foregoing letter the Board seems objection to a fresh yeomiah Certificate being granted by the Collector to Mahomed Moideen in lieu of the old one lost by him- a note being added explanatory of the cause why it is issued.-

2. The arrears due to that individual from 12th January 1851 are payable without special sanction any time previous to 12th January 1852 under the general authority conveyed to Collectors in the Board's Circular Orders 15th February 1847.- C. O. Book page 416.

From the Collector of Nellore.

To D. White Esqre
Collector of Nellore.

Sir,

Having heard that the Government object to grant me the 20 days leave I solicited on the 26th November last I have now the honor to request that you will be so good as forward my application for 10 days leave to visit the Presidency on private affairs under Section XI (amended) of the absentee Rules.-

In making this request I venture respectfully to submit that I was informed last June by the Civil Auditor that it was conformable to the absentee Rules for a Civil Servant to apply for the whole months leave at once under Section XI (amended) or to ask for it in detached portions.-

In conclusion I would beg to state

1386 Fort St. George the December 1857.

State that I have special reasons for re:
-questing leave at this time and I trust
that upon the above explanation the
Government will be pleased to grant it.

Bd. No. 2945.
From the Secretary to Government
Reviewing the Proceedings of the Board, relative to the Extra sources of Revenue in the District of Tanjore for Fusly 1260.

Revenue Department

No. 1186.

Extract from the Minutes of Consultation, under date the 2nd December, 1851.

Read the following Extract from the Proceedings of the Board of Revenue.

(Received 13th November 1851. No. 4991)

Para 1. The total demand on account of the Extra Sources of Revenue in the District of Tanjore, amounted for Fusly 1260, to Rupees 99,567, being Rupees 60,114 above that of the previous Fusly - The Current Collections amounted to Rupees 95,726, leaving a balance at the close of the year of Rupees 37,841 which was for the most part nominal (the money being in the Talook Treasuries though not remitted to the Hoozoor) and has subsequently been reduced to Rupees 1-10-3.

2. Compared with the preceding Fusly, each of the heads of revenue exhibits an increase, more particularly Salt and Stamps - The increase of Rupees 29,640 from the sales of Salt, which are represented to have been the largest for several years, is attributed to the ameliorated condition

of

of the agricultural population, to the check placed on the export of Earth Salt from Poodoocottah, and to the new Road recently constructed between Adrampatam and Trichinopoly; besides other improvements in the local communications.

3.

The Sale of Stamps for the year amounted to Rupees 69,240 or Rupees 13,686 above the previous Fusly which the Acting Collector attributes to increased litigiousness in the District; but which in the opinion of the Board of Revenue, is owing partly to the operation of Act XVII of 1848.

4.

The revenue under the head of Sea Customs amounted to Rupees 188,823 being Rupees 6,939 above Fusly 1259, represented to have arisen from large shipments within the year of Rice to Colombo and the Mauritius, and of Tobacco to the Eastern Islands. The increase under the other heads of revenue calls for no remark.

5.

The Gross Collections within the year, including arrears and Extra items, amounted to Rupees 9,81,837 deducting charges Rupees 74,242, the net Revenue Rupees 9,07,594 exceeded that of the preceding Fusly in the sum of Rupees 50,363.

No. 1187.

Extract from the Minutes of Consultation, under date the 2d December, 1851.

Read the following Extract from the Proceedings of the Board of Revenue.

/ Here enter 10th November 1851 No. 4877 /

The demand on account of the Extra Sources of Revenue in the Tinnevelly District for Fusly 1260 amounted to Rupees 591,202 being Rupees 57,158 above that of the previous Fusly. The current collections within the year amounted to Rupees 589,265, leaving a balance at its close of Rupees 1,937—9—4, which has subsequently been reduced to Rupees 49—5—5.

2.

With one exception the Moturpha, in which a decrease of Rupees 1191 occurred in consequence of a falling off / Rupees 1,970 / in the Loom Tax, all the heads of revenue produced an increase above the revenue of the year preceding. The sales of Salt which are represented to have been

Statement No. 15.

the

the highest on record were Rupees 36,983 above Fusly 1259 and Rupees 68,569 above the average of the past ten years. The increase was both in the sales for Home consumption and in those for Inland traffic, in the former the revenue of the year under review exceeded the average of the preceding ten years and in the latter was Rupees 48,541, above that of Fusly 1259, owing to larger quantities exported to Madura and Coimbatore on return bandies which had conveyed Cotton to Tutacorin for shipment.

3. The increase under each of the heads of Layer, Sea Customs, Alkarry, small Farms and Stamps is sufficiently explained by the Board of Revenue and calls for no special notice from Government.

4. Including arrears and Extra items, the gross Collections amounted to Rupees 5,92,075, deducting charges in which there was an increase of Rupees 5,202, or chiefly in Salt, owing to the greater quantity manufactured in the year, the net revenue Rupees 5,33,211 exceeded that of Fusly 1259 in the sum of Rupees 31,744.

Inoculation indeed is scarcely known in Bellary though it is believed some instances have occurred. A Legislative Enactment prohibiting it is therefore under existing circumstances unnecessary. Fort St. George 11th December 1857

the receipt of your Circular letter dated 12th June 1857, Calling for an opinion on the proposition of Legislating for the prohibition of inoculation in the Madras Territories.-

2- Not having any data before me I feel it quite impossible for me to report on a subject so foreign to the duties of this office

3. Speaking however only from what I have heard it does not appear that the practice of Inoculation is prevalent in this Collectorate or that the natives are opposed to Vaccination, no legislative interference seems therefore called for at present.-

No. 88.

Bd. No. 2980

To W. H. Bayley Esqre.
Secretary to the Board of Revenue,
Fort St. George.

From the Collector of Vizagapatam.

Sir,

I have the honor to acknowledge the

the receipt of your letter under date the 27th. Ultimo, directing that excepting in cases of emergency, or in those in which special authority may be granted, no disbursements are to be made from the Collections in the Talook Treasuries.-

2. In the Golgondah Talook, are stationed a detachment of Native Infantry and the local sibundy Corps, the former at Golgondah pett distant from Vizagapatam about 58 Miles, the latter Nursepatam a few miles nearer. To obviate the necessity of a guard being sent every month, which must always be attended with some inconvenience, I beg leave to recommend that special permission be granted for the pay of those troops being disbursed from the Collections in the Talook Cos Treasury whenever there are funds there sufficient for the purpose. Of course the detachment of Native Infantry would

would be paid only after the Paymaster had lodged in the Hoozoor Treasury a sum equal to the amount of their pay.

Vizagapatam, Collectors Office, 1st. December, 1851.

B. No. 2983.

From the Collector of Caddapah -- } Para 1. I have the honor

Submitting the report upon the extra Sources of revenue for fasly 1260 together with the English and Marattah accounts connected therewith.--

to report upon the extra sources of revenue for fasly 1260 and to forward the accounts connected therewith numbered from 1 to 6.--

2. The following is a general comparative statement of the past and the preceding fasly.--

Net decrease Rupees — 3,261 2 8

from.

16149

Fort St. George 11th December 1851.

from which it will be seen that the general outturn of the Fusly is a net decrease of Rupees 3261-2-8 Reductions are intended to collection under the heads of Abkarry and Stamps and a decrease under those of Abkarry and small farms.—

Abkarry-

The total demand under the head of Abkarry was Rupees 11,882 1 2 being Rupees 4,780 less than that of the preceding year. The balance in which the decrease was chiefly apparent were Cuddapah Chingleput and Coimbatore, where losses in the preceding year are said to have ceased Lower effort for the rents of Fusly 1260.—

4.

Of the above demand Rs 11,349-10-8 were collected within the Fusly, and the balance had since been brought to account.—

Sundry small farms and licenses.—

5.

The enclosed Statement No 2 shews the settlement of each item, under the general head of Sundry small farms and rents from which it will be seen that there has been a decrease of Rupees 232-15-— in the amount received for the rents of toffed and orchards arising chiefly from a failure in the produce of the Pranga

Mango trees - an increase of Rupees 45-12-- in the Money rents, and of Rupees 45-5-- in the collection on the sale of palmira trees, two items which call for no particular remark, and a decrease of Rupees 318-11-9. in the amount of daty levied on Red wood, teak, &c. which is accounted for by a reference to the Collector's remarks in his last report, wherein the increase in Fusly 1259 was shewn to have arisen from extraordinary causes.—.

6. Of the total demand under this head Rupees 11,873-7-11 were collected within the year, and Rupees 2,546-7-1 have since been realized leaving a balance of Rupees-163-3-—.

Moturpha. 7. The demand under the heads of Veesabady and Bagur Veesabady amounted to Rupees 1,52,057-11-10 or Rupees 507-11-1. above that of the year preceding, and the increase was thus divided.—.

Veesabady	197-4—10
Bagur Veesabady	310-6—3
	507-11—1

8. The increase in the Veesabady collections has arisen from a general improvement-

improvement in trade, and that from the bagurvees abady may probably be traced to the settlement of this source of revenue having been made in the Hoozoor Cutcherry at the time of the revenue settlement, when accounts were closely scrutinized and frauds were immediately exposed - There was a small falling off in the tax on looms, and a rise in that on houses - The enclosed statement No. 3 will afford the Board information on the several items of which these branches of revenue are composed.—.

9. Of the whole demand under these heads, Rupees 1,43,194-—-8 were collected with the fusly - and Rupees 7,872-1-10. have since been realized.—.

Stamps- 10 The total amount for which stamps were sold in fusly 1260 was Rupees 27,587-8-- being Rupees 1,471-12-- in advance of the previous year.—.

11. A general Statement of the balances now outstanding will be found among the enclosures, No. 4 - I am not of opinion that much will hereafter be realized, but I shall be prepared

prepared to speak more confidently upon the subject after I have made more particular enquiries on the spot in the progress of the ensuing Settlement.—.

12. I have attended to the instruc=
=tions of the Board and the Government in their review of the report for Fusly 1259, and have kept figured Statements out of the report= I have also reduced the numbers of the State=
=ments hitherto sent to the Board, and as directed by the Government have made them general, instead of Talookwar.—.

13. In the report for Fusly 1259, it was stated that there were 177 Sugar manufactories in Cuddapah and in review the Government expressed a doubt whether so great a number of Establishments could really deserve the name of manufactories. In a subsequent letter in explanation, the acting Collector maintained the propriety of the designation, and drew a distinction between the mana=
=factories and simple boiling houses - of the same description of establishment there are now 234, but I believe that they can

can hardly be said to deserve to be called manufactories - There is no other term by which we can designate large and important concerns like those in Rajahmundry, Vizagapatam and Ganjam, where steam is extensively used, and hundreds of tons of Sugar are annually made, and there ought therefore to be some distinctive name applied to the small Sugar factories of Cuddapah which are generally mud walled, and mud roofed open buildings, with only two compart=
=ments and which cost in erection a=
about 100 Rupees.—.

14. The following is the quantity of land which was culti=
=vated with sugar in Fuslies 1259 - and 1260 respectively, with the assess=
ment payable thereon.—.

15. Certificates under act XV of 1839 were granted for the export of 3,32,000 Maunds of Sugar - at 25 lbs each.

each maund, and the diminu=
=tion of 84,200 maunds which
appears in comparing this quantity
with that certified in the pre=
=vious year is to be explained
by stating that the Collector
did not reside for so long
a time in the Muddenpully
Taluk in Fasly 1260, as in Fasly
1259 and that exporters had not
therefore the facilities they had
usually enjoyed of obtaining
certificates on the spot. In
the early part of the current
Fasly certificates were granted
for 154,000 Maunds, which under
the usual circumstances would

have been included in the exports
of the past year.—

Bd. No. 2877
From the Collector of Chingleput.

Sir,

Para 1. Adverting to the Extract from the Minutes of Consultation under date the 2d September last, transmitted with the Proceedings of the Board of Revenue dated 11th Idem, with the papers therein referred to, requiring me to report on the several points upon which information has been called for by Government relative to the Meenjoor and Sriruoil Shotriem Villages, I have the honor to state that in accordance with the instructions therein contained, I summoned the Meerassidars, the Curnum and the Agent of Umbojee Unnall and Unnoyee Unnall at present in the enjoyment of the Shotriem Villages in question, and held an investigation in the matter. The Meerassidars and the Curnum have deposed that no division of property has taken place between Streenuasa Moodely, the

Reports that in accordance with the instructions of the Board of Revenue dated 11th September last he has placed Streenuasa Moodely in possession of the Shrotriem Villages of Meenjoor and Sriruoll.

Govt. Min: Cons. dated 2d Sept. 1851 Para 3.

Fort St. George 11th December 1851

the present claimant to the Shrotriem and his late brother Somasoondara Moodely or Appa Moodely and Damaskamony Moodely, the sons of the last mentioned Incumbent. The Agent likewise gave his deposition to the same purport in reference to the family being undivided, but in addition stated that Somasoondara Moodely having been adopted by the widow of Appa Moodely the original Grantee, he enjoyed the Shrotriem Villages exclusively, while Streenevasa Moodely his Brother inherited the property of their natural Father consisting of a house &c. at Porasawakum in Madras.

It appears also from the depositions that Streenevasa Moodely lived with his brother Somasoondara Moodely, and on his death with the sons of the latter, until the demise of both, the Father and both sons having died within the period of 5 years. Subsequently however owing to family dissentions, he went and resided with his father-in-law at Tulloor. The evidence adduced shewing that the family are undivided, and that no division of

Property

Fort St. George 11th December 1851

Property has been effected, I have in conformity with the instructions of Government placed Streenevasa Moodely in possession of the entire Shrotriem.

2 As the Board may be desirous of obtaining information regarding the present condition of Somasoondara Moodely's family, I beg to state that his two daughters Umbojee ammall and Ummoyee ammall are at present in possession of 1/4th share of the Meerassy lands valued at about Rupees 500 in the Shrotriem Villages of Meenjoor and Arinvoil, and in the Circar Village of Colattee, as also 2 houses valued at about 1,000 Rupees at Meenjoor and Madras the whole of which will under the decision now passed revert to Streenevasa Moodely from the date on which the Shrotriem was made over to him.

3. The younger daughter Ummoyee ammall is unmarried, and lives with her sister who is stated to have married (before the death of her brother Damaskamony in 1844) one Moonesawmy Moodely

now

now employed at the Master Attendants Office, Madras, on a Salary of Rupees 14 per Mensem. The Younger Sister is otherwise quite unprovided for.

4. I take this opportunity of stating that there is a balance of Rupees 85. 3. 3 outstanding against the parties who have hitherto been in the enjoyment of the Shrotriem for Fusly 1260, with interest aiming to Rupees 15. 3. 10 consequent on their failure to pay the balance according to the Kistbundy fixed for the Shrotriems. There appears little prospect of this sum being recovered from the late Incumbents, as they do not possess any property in the District and as it would press with severity towards Streenevassa Moodely if he were made liable to the payment of Peishcush due before he came into possession of the Shrotriem I request to be favored with the instructions of the Board in reference to the adjustment of the balance in question.

Proceedings Intimating that Somasoondara Moodely the deceased Shrotriemdar of Meenjoor and Arenvoil in the Chinglaput District and his brother Streenevassa Moodely were undivided approving of the Collectors having placed the latter in possession of the entire Shrotriem and recommending that the balance of Rupees 85-3-3 be written off to Profit & Loss.

No 536

This letter seems to be conclusive as to the party entitled to possession of the 2 Shrotriem Villages, Meenjoor and Arenvoil, in the Chinglaput District.

2 The details of the question are given as papers 2, 3 and 4 of the letter of the Register of the Court of Sudder Adawlut, to the Secretary to Government. The Enclosure in Extract Minutes Consultation 2d September in Cons. 11th September 1851.

:dow of the original Grantee had selected one of her grand sons Somasoondara Moodely to succeed to the Shrotriem, it passed first to one of his sons, then to another and then back to his wife on whose death his two daughters Ambujee Ummall and Ummoye Ummall received possession of the Shrotriem. But it appeared that Somasoondra Moodely had a brother who had a legal claim, if undivided, from Somasoondra Moodely or his two sons and should not have been passed over on his (Somasoondra's) death.

× Streenevassa Moodely

3. The Government in the letter marginally noted above directed the Board of Revenue to ascertain if the Brothers

Brothers had been divided; and if not, to place Streenevasa Moodely in possession of the entire Shrotriem.

* Proceedings 11th September 1851

4 The Board having called upon the Collector to enquire and report on the above point, and the result is the letter now under consideration.

5. The Collector summoned the Meerassidars and Curnums of the Shrotriem Villages, and the agent of the two female claimants (Sisters) Neices of Streenevasa Moodely. They all agreed that Streenevasa Moodely was never divided from his brother or nephews, but the agent urges that Somasoondara Moodely was really adopted by the original Grantee's widow, and that Streenevasa inherited the property of his natural father. It is shewn however that the brothers lived together, and also after the one brother's death, the surviving brother and his nephews resided together till the latter died.

6. As no claim to a legal adoption has ever before been set up, it is clear to the Board that no division between the brothers or between the surviving

surviving brother and nephews has taken place.

7. There can be no doubt therefore that Streenevasa Moodely is legal heir to the entire Shrotriem, and to all other property though it is not the province of the Board to place him in possession of such of the latter as is at present in the hands of others. The Collector points out that the 2 female claimants are now in possession of 1/4 of the Meerassy lands of the 2 Shrotriem Villages, and also of the Circar Village of Colattee, as also 2 houses.

8. The younger of the 2 Sisters is unmarried the elder is married to a person employed in the Master attendant's office @ 14 Rupees a Month.

× Pcs a 85. 3. 3

9. There is a balance of Sodee× against the parties that have hitherto been in possession of the Shrotriem, but who will now have no means of paying it.

10. The Board approve of the Collector having (in accordance with the order of Government) placed Streenevasa Moodely in possession of the entire Shrotriem, who should also be informed that he

he is expected to see to proper maintenance of his neices.

Resolved that copy of these Proceedings be submitted for the information of the Right Honorable the Governor in Council with the recommendation that the balance of 85-3-3 be written off to Profit and Loss.

From the Collector of North Arcot,

Referring to Mr. Pycroft's letter of the 22d February 1849 sanctioning the charges (Rupees 556-5-") incurred on account of Extra Establishment employed in Fusly 1257, I have the honor to inform the Board of Revenue that in the statement submitted from this office under date the 17th August 1848 a sum of Rupees 2-4-1 being the amount of wages due to a Goomastah was by an oversight omitted from the sum inserted in Column 7. This sum the Civil auditor has

has now retrenched and I therefore beg leave to request that the sanction of Government may be obtained for it. The sum actually paid was 558-9-1 instead of 556-5-" and was 1. 8. 11 within the sanctioned Estimate.

Sir,

of your Board dated 31st July 1851, communicating an Extract from the Minutes of Consultation of the previous 24th and requesting to be informed whether an arrangement cannot be made for the discharge of the Toty duties of Thaculputty by uniting it to an adjoining Village.

2 I have the honor now to explain that my former recommendation for the rent free assignment in Thaculputty of waste lands bearing the annual value of 12 Rupees had immediate reference to a resident in that Village who for some time past has discharged the sundry duties required of a Toty by the Ryots, from whom, he has received such fees as they have chosen to give him, without, however, being in the enjoyment of that public remuneration which alone can ensure a regular and responsible performance of the duties connected with the collections and other affairs of the Village. It would therefore appear somewhat unjust to supersede him in favor of any other individual

Para 1

I am directed by the Board of Revenue to acknowledge the receipt of Extract from the Minutes of Consultation dated 24th July 1851, observing, with reference to a proposal of the Collector of Salem to assign land of the yearly value of Rupees 12, to the Toty of Thaculputty; that the average annual Bariz of the Village for the last 4 years amounted

amounted to Rupees 170, and that as it seems scarcely necessary to entertain a Toty for so small a charge, whether some arrangements, such as uniting Thaculputty to an adjoining Village, may not be made, for the discharge of the required duties.

2. In reply I am instructed to submit for the information of Government a letter from the Collector of Salem, dated 19th ultimo, stating that his former recommendation for the rent free assignment in Thaculputty had immediate reference to a resident of that Village, who for some time past has discharged the sundry duties required of a Toty by the Ryots, and received from them such fees as they have chosen to give him, and that it would, therefore appear somewhat unjust to supersede him in favor of any other individual of the Toties of the vicinity even if such arrangement were feasible.

3. Mr Phillips intimates also that the joint Toties of the three Villages adjoining Thaculputty have declined to receive any additional charge, on the score of their duties already pressing heavily on them.

4. Under the above explanation the Board beg to repeat their former recommendation for the employment of a separate Toty for Thaculputty and the grant to him of an assignment of rent free land of the value of Rupees 12 per annum.

Bd No 2868

From the Collector of Salem.- } Para 1

Requesting authority to make unimportant disbursements for clearing the boundaries of certain Coffee Estates when the Survey operation may be impeded by brushwood or other natural obstacles.- Dated 25th October 1851.

Sir,

Accompanying I have the honor to transmit a Copy of a Communication to my address from the Head Assistant Collector, Mr Dykes, bringing to notice certain difficulties connected with the clearance of a space along the boundary of Mr Cockburn's Estate sufficient to lay the Chain in use by Mr O'Hara, who in conjunction with Mr Dyke's is now surveying the Coffee Estates on the Shervaroy Hills.-

19th December 1849 Revd Cs Order Book page 587.

2. If the Stipulation contained in the XIIIth Section of the Rules sanctioned by Government, had been enforced on the Shervaroys from the time when ground was first taken up for Coffee cultivation, there would be no difficulty in requiring present occupants to lay down their boundaries, the making of which by themselves would, I apprehend, save all further trouble to the Officer who is now surveying the different holdings

holdings, but this rule, I found has never been applied by the revenue authorities subsequent to the Shervaroys coming under Aumany; and as Mr. Cockburn and most of the old planters, obtained their lands from the Malleealies, and had received Puttahs for them prior to the Circulation of the Government rules, it is obvious that we cannot now call on Mr. Cockburn to do what is required for survey purposes.-

3. In the instance under remark, I have instructed the local Tahsildar to provide Coolies to do what may be wanted, the cost of which will be submitted for sanction in the usual course; and I should not have felt justified in specially troubling your Board with any mention of the matter, were it not for the probability of similar outlay being hereafter necessary in the cases of other planters, when it would, under any circumstances, call for explanation. I have therefore to beg I may be authorized to disburse such trifling sums as may be required from time to time to clear away trees or brushwood when

when Mr. O'Hara's labors are impeded.-

4. The planters are aware that the result of Mr. O'Hara's operations will saddle them very generally with assessment for much more land than that for which they have hitherto paid.- They will also find themselves restricted, to a great extent, to their own boundaries, which, especially in the matter of grazing Cattle, has not heretofore been the case- Under such circumstances it would be idle to expect any assistance from them. However, the cost of marking in the manner proposed by Mr. Dykes, what is now difficulty of access, will be the merest fraction of the increase of revenue which Mr. Boyne and Mr. O'Hara's operations have secured.-

Sir.

I have the honor to forward Copy of

20th October 1851.

of a letter from Mr. R. Cockburn, declining to clear his boundaries sufficiently to allow of the chain being run along and have to request that I may be favored with your instructions thereon.-

The lands measured hitherto have required little or nothing of the kind, much being under cultivation, and the Jungle on the remainder comparatively light, now how the work will have to be carried on in more difficult ground, and I understand that others similarly situated with Mr. Cockburn will also object when called on. Some of their lands retained for grazing will probably never be cleared, and there is much intended for Coffee, which, it may be years before the Planters, find themselves in a position to bring under Cultivation.-

As stated by Cockburn the lands in question have been long in his possession and it is not probably intended that the expense in such cases of clearing the grounds to allow of their being measured again, should be borne by the Planters; nor do I think that such a claim could be made good against them.- Cutting

Cutting away the jungle sufficiently to allow of the boundaries being chained would probably on the average, and employing Malleyalies, not exceed two Annas per hundred yards; but from the varying nature of the ground it is difficult to form a correct estimate.-

Pending the receipt of your reply, I have directed the Hill Ameen to afford the required assistance, rather than that the Surveyor's operations should be retarded, and have intimated the same to Mr. Cockburn.-

Sir,

I have the honor to acknowledge the receipt of your letter of the 18th Instant, requesting to know my reasons for declining to clear away jungle round the boundaries of my Estate to allow of Mr. O'Hara to run his Chain along for survey of the same. In compliance with your request I beg to state, that

that I do not think it could ever have been the intention of Government to put the settlers to the expense of clearing their Estates in order that a second measurement might be made for the further satisfaction of Government. The lands in question were measured and put in my possession 10 or 11 years ago, and I would respectfully submit that having already pointed out the boundaries, I have done all that can now be expected of me. -

Furnishing as required the price of each garce of salt. -

Sir,

With reference to your letter of the 20th November I have the honor to state that the cost of salt to a Government is 10 Rs per Garce as a Warum / or manufacturers' share / and 3 Rs per Garce the proportion of the expences of the salt establishment in Tanjore

Fort St. George 11th December 1851.-

Tanjore, as the pay of the whole Sibendy amounts to Rs. 13200 per Annum and 4000 Garcs is yearly manufactured. The total cost is therefore Rs. 13 per Garce, which is the Amount Charged to the French Government as the bonâ fidé price of its manufacture.-

2. A small quantity of Spontaneous salt is also collected at Vadarneum, the cost of which to Government is merely that of its collection, and averages some Rs. 3½ per Garce, so that including the cost of Sibendy, it is not quite one half the Amount of the espence attending the common manufactured Salt.-

3. Hence salt might be admitted at an import duty of Rs. 110 per Garce without much danger of Government suffering loss of Revenue, but it appears to me that it would be impossible for Foreign Traders to introduce salt at this rate of customs duty, without they could import salt of a quality so superior to the article supplied by Government as to command a considerably higher price than Rs. 120 per Garce, this I do not believe can be done, and hence I think that the only advantage of reducing the Customs

Fort St. George 11th December 1851.-

Customs duty from Rs. 360 to Rs. 110 per Garce would be that mentioned in the conclusion of Para 16 of the Honorable Court's letter Viz.

Sir,

The

2. The total cost per Garce, it will be seen, is nearly Rupees 15 and the profit to Government about Rupees 105 whence it follows that the duty on foreign Salt should be reduced to 14 Annas a Maund to render the Government as interest equal on both Kinds.-

3. I think it likely that salt would in this event be imported by the Vessels trading between Tutacorin and Ceylon, and as Government could not be expected to relinquish any part of the supply in favor of foreign Speculators, the end would probably be the necessity for reducing the Monopoly price.-

Sir,

Para 1. In the present season, there was nearly a total absence of the usual rains in August, September and October. On the 6th November some rain fell, and a larger quantity in the middle of the Month, which would suffice for the cultivation of wet Crops or Nunjah mel Poonjah, but the Ryots are deterred by the fear of being made responsible for the Teerwah for 2 Crops in Cases where a first crop has been cultivated and perished, under the Rule of the District, which desires remission for withered Crops, where one crop has been brought to maturity within the year.-

2. Under these circumstances, I have the honor to recommend, that as a Special case, a single Crop Teerwa only (Nunjah or Nunjah mel Poonjah as the case may be) may.

With reference to Mr. Thomas's letter of the 19th September 1851 stating that the remarks in his previous communication of the 14th July 1851 relating to certain allowances for the performance of Hindu religious ceremonies apply equally to those in support of the Mahomedan Festivals adverted to in the latter communication, I am directed by the Board of Revenue to request information from you on the following points connected with the allowances for the Mahomedan Festivals in question before submitting the subject for the orders of Government.-

1st That you will state to whom the money is paid, in each case, and whether the party to whom it is now paid is the same, either personally or by Office or position,

position, as he to whom it was paid previously to payment being withheld in 1834.-

2dly That you will forward a detailed List of the several payments of which the sum of Rupees 260-6-7 payable for Mahomedan Festivals is composed, with the names of the recipients and their Offices, previous to 1834, and when the Trustees were appointed, noticing each case in which the person selected as trustee differed from him to whom it was before paid, and the particular cause of change, such as from death or unwillingness to accept Office or from the Tahsildar having selected another party as Trustee.-

3dly That you will specify whether the payment in each case was made regularly in each year. or whether it was sometimes paid and sometimes withheld previous to the year 1834; also whether, before that period or since, it was discretionary with the Tahsildar to

to submit the application for payment.-

4th Duty That you will explain what objections, if any there would be, to the payment in each case being made regularly and without reference to the Trustees who, it appears, from Mr. Thomas's last letter, are generally the Cauzees of the respective Towns.-

Para 2. I am at the same time desired to take this opportunity to forward to you for report a Petition

From the Collector of Coimbatore — Sir

I have the honor to forward the Statements of the Revenue Settlement of Shanmattoor and Cottampetty Polliems in the Pulachy Talook in this District for Fusly 1260-

Forwards the accounts of the Revenue Settlement of Shanmattoor and Cotampetty Polliams for Fusly 1260 shewing a decrease of Rs. 442-11-10 and reports on the state and resources of the Estate.

2. Both the Monsoons were of an ordinary character, and the cultivation was carried on to the usual extent. Some of the waste lands were also cultivated, but those in the occupancy of the Minor Poligar for the support of his family nominally entered in the Jummahbundy accounts in every year, having now been deducted, shows a decrease of Rupees 442. 11-10 in the Amount of Settlement as will be seen from the Memorandum below-

Bo. No. 2580.

Sir,

From the Collector of Coimbatore — Forwards the Statements connected with the Settlement of Poravepolliem Estate in Pullachy Talook for Fusly 1260 exhibiting an increase of Rs. 924-10-6. and reports on the state and resources of the Polliput —

I have the honor to transmit five Statements explanatory of the Revenue Settlement of Poravepolliem Estate in the Palachy Talook in this District, which has been conducted under the Management of Government in Fusly 1260 under the sanction of Government of the 30th August 1850 —

2 The season was favorable as regards this Poliput, which is within the influence of the South west Monsoon and the Cultivation of every description of land was carried on successfully — this, added to the investigations made by the Goomastah employed protempore to ascertain the state and resources of the Poliput, has produced an increase of Rupees 924-10-6 above the amount assumed to have been the settlement of the past year the total Summa for 1260 exclusive of the pay of Village Establishment, is Rupees 6,083-3-2 and deducting Peishcush (Rupees 2804-12-6) leaves a surplus of Rupees 3278-6-8 —

Fusly 1250 — 3358-8-8
Fusly 1260 — 6083-3-2
Increase — 924-10-6

3 The Statement No. 1 exhibits each item of Settlement, of which the following is an abstract —

Items

Fort St. George 11th December 1851.

Items	Bullahs		Assessment			Settlement

Poligars Peishcush			2804	12	6			
Village Subbendy			324	11	-	3129	7	6
			Net Revenue			3278	6	8

4. The demand for the year under review amounts to Rupees 6083-3-7. Collections within the year were Rupees 3736-10-. Subsequent recoveries have reduced the balance to 1814-1-2 of this 1043-6-11 are on lands in the occupancy of the Minor, for the support of the Family and which can never be realized the residue 770-10-3 due by Ryots, is in course of adjustment.

5. The Grand Uncle of the Minor, who formerly managed the affairs of the Estate was called into my Office, and a strict examination made of the accounts of the Poliput in his presence. As previously reported, no correct accounts of receipts and disbursements were forthcoming, and after a prolonged and careful enquiry, it was ascertained that a sum of Rupees 1984-3-6 due by 11 Ryots for five years, had been collected and misappropriated by the parties in the proportions set down against their names, this was recovered from them, and held in deposit as will be seen from Statement No. 3.

Fort St. George 11th December 1851.

Names of Persons	Amount per annum			Total amount misappropriated for 5 years		
Parea Gopana Munnaddy	133	4	4	666	5	8

Permagounden	20	4	4	101	5	8
Total	396	13	6	1984	3	6

6 The lands bearing the assessment of Rupees 1043-6-11 are in the enjoyment of the persons indicated in Statement No. 5 a great portion of it Viz. 1010-15-4 continued to be so occupied for the last 50 years- no rent was paid thereon, the proceeds being applied to their support. The Grand Mother of the Minor accedes to this arrangement and considers it requisite- and as a similar arrangement exists in the Shamallaor and Cotampully Estate, I have allowed that in Poravepolliem to remain unmolested, and request the Courts permission to deduct the lands from the Samabundy accounts.

7. Lands subject to a demand of Rupees 32-7-7 were alienated to one "Summien" on free gift tenure this is a grant of 50 years standing. He is a Bramin, and unconnected with the family of the Poliput- but as the Enam appears to have been given as an Act of grace by a former Poligar I have not resumed it pending the orders of the Court, which I solicit accordingly.

Bd. No. 2724
From the Collr. of Canara
Reports upon the difference of the Salt measures used at Bombay and Canara and requests that the Bombay measures may be allowed to be used in certain localities in Canara.

Sir,

I have considerable difficulty having arisen in importation of Bombay Salt from the use in this district of a measure different from that of Bombay, it is very desirable that the measures should be assimilated either by requesting that Salt may be issued at Bombay for the service of this district by one Marcal or by receiving the Salt here by the Bombay measure. It appears to me that it will be preferable that the Salt should be received here by the Bombay measure as giving rise to the least inconvenience.

2. The measure used on Bombay is a Para of 2950 cubic inches computed to contain 3200 tolas or one Indian Maund. The

Fort St. George 11th December 1857

3. The measure of this district is the Marcal established by the Board of $828\frac{1}{3}$ Cubical inches, 400 Marcals being equal to one garce or 120 Indian Maunds. Therefore by Bombay measure one garce contains $2960 \times 120 = 354,000$

By Canara measurement it contains

$828\frac{1}{3} \times 400 = 331,333\frac{1}{3}$

4. The Board will thus see that there is a discrepancy of some importance which it is exceedingly inconvenient to adjust in the certificates supplied to the Merchants who import the Salt, and a great deal of difficulty has practically resulted from it.

5. It will be far easier to receive the salt by Bombay measurement and if necessary to make the change to our measurement on delivery at the selling Cutty of Buntwall.

6. But in preference to any such adjustment I would beg to request the sanction of the Board for both purchasing and selling the Bombay Salt by the Bombay parakie this district as is now done under their orders in Malabar.

7. There may be some trifling objection to the use of two different measures in the same district,

but

but the dealers in the two Kinds of Salt are so distinct and the sale of Bombay Salt is so entirely confined to one or two localities that this will not form any serious objection to a measure which has otherwise great advantages-

8- I beg the early instructions of the Board on this subject as the Bombay Salt of the season may be expected shortly to arrive and I would recommend that even if the Board object to the sale of the Bombay Salt by the parah, they will allow me to purchase by that measure to avoid the difficulty now experienced in the accounts of the two Presidencies-

The Board would prefer having one uniform Measure in receiving and disposing of Salt in the same District, as it seems to them that the use of two different measures, tho' it might diminish the difficulty experienced in adjusting the Certificates for Bombay Salt, would probably complicate the transactions and accounts in other respects, particularly those of wastage-

2 They request therefore that the Collector will state whether the difficulty he complains of could not be met by making an allowance in the Certificate of 6½ per Cent which is equal to the difference between the Bombay parah and the Madras Measure of 828½ Cubical Inches shewn in para 3 of the Collector's letter-

Bd's R° 2818.

Sir,

From the Collector of Canara - - - } I have the honor to acknowledge your Circular letter of the 27th Ultimo directing that it be a standing order that no sum however trifling shall on any account be paid from the Talook Treasuries out of the Collections except in an emergent case or in instances where I may have received special authority to discharge drafts drawn by Military or Civil Officers and then only by a special order under the signature of myself, or in my absence of the Officer in Charge of the District-

Acknowledges receipt of the Circular letter from the Board of Revenue dated 27th October directing that no sums be paid from the Talook Treasuries out of the Collections, requesting under Causes stated permission to continue that practice which has hitherto been observed in his district with much advantage-

2 The strict enforcement of this order will be attended with such serious inconvenience and will so much disturb the arrangements which have been

been made in this district and which have proved in so many respects highly advantageous that I beg to lay before the board the following instances in which I trust that the present practice may be allowed to continue-

3. II Large remittances are made to Bombay by money paid into the Treasury there for Bills on this Collectorate. These are presented at my office but it is often convenient to the parties to receive the money in one of the talooks or at the Subordinate Treasury at Honore. It has hitherto been the practice to give an order on the Talooks that is if the collections in the talooks are sufficient to meet it - no money is allowed to be retained for this purpose -

4 The practice is as advantageous to the Government as it is to the Merchants - The Bills is considered as cashed at the Treasury and the money is entered as paid into the Treasury in exchange for an order on the Talooks. The amount is then remitted to the treasury free of expence to Government, and the Merchants is saved the risks and delay of sending bags of Rupees a distance of perhaps 150 miles. Trade is improved and our local remittances and those to Bombay are aided by conceding this advantage to the

the Merchants -

5 II Is the same way it has been the practice to allow the parties to pay Cash into the Huzoor Treasury and to receive orders on the talooks - This is an equal saving of local remittances and is only allowed when there is money to be remitted, none is retained for the purpose. Printed advices are sent to the Talooks, and the practice is in every respect advantageous - It aids our local trade, hastens the remittances, and I have had occasion to quote it as one of the means by which the temptation to crime is diminished in this district -

6. III. The pay of the Talook Establishments have hitherto been paid by orders on the local treasuries - They average about 10,000 Rupees a month and the greatest inconvenience will be experienced if this sum is brought down every month, and sent back in every direction / through the Soopah Jungles for instance / and the delay will be very seriously felt by the public servants -

7 III. It has been usual in the execution of public works to give to the Tahsildars orders on their own treasuries. It will be most inconvenient to remit Cash from the Huzoor to remote parts of this district - In addition

to

to this it will lead to increased balances in the Talsildars hands for it will be necessary in order to prevent the suspension of the work that large sums should be sent whenever a remittance takes places whereas now the Talsildar is only permitted to take the sums actually necessary -

8 V The Paymasters drafts amount to about 27,000 Rupees a month payable at 6 Several stations. These have been made payable under a standing order at those stations and this practice has proved most Convenient -

9. VI The Revenue Officers at a distance from the Huzoor have been permitted to draw their pay in their own taloks, giving at the same time an order to the Treasurer to pay the Amount or into the Huzoor Treasury -

10 I can safely say that these arrangements are of advantage to the services of Government - They expedite the public service, they assist trade, they render property more secure and they save the services of a vast number of persons who must otherwise be constantly employed in Conveying money all over the Country - The Board will judge of the difficulty that will be experienced in sending money from this to Nullial for the Roads to be Constructed or there or for the Sub Collector's pay or the Engineer Officer's allowances -

H

It is a months march - If it be remarked that it may be sent from the Subordinate treasury at Honore I beg to observe that there is far less risk to me in giving an order direct on the Taloks

11 I therefore earnestly trust that in this District the cases I have mentioned may be Considered as emergent and that I may be authorized to Continue the practice hitherto prevailing and which has never proved any thing but advantageous.

12. I also find that there are many other payments occasionally made in the Taloks which it would be impossible to stop suddenly without giving rise to great inconvenience - It has been usual to pay them from the deposits in the Talsildars Cutcherries - They are such as petty sums for the Carriage of Tobacco for Stationery for the Carriage of Duffers, for Rewards for killing wild Beasts, &c. &c. Regarding the latter I beg particularly to remark that unless they are paid promptly, and in the presence of the European Officers half their value to the poor Villagers is lost -

13. While endeavouring therefore to carry out the orders of Government as far as I possibly can

I have

Fort St. George 11th December 1857

I have found it necessary to place the sum of Rupees 300 at the disposal of each Tahsildar of the Sub division Heristadar and of the Head Mouzilla of the additional Sub Collector's Establishment - This if approved of by the Government will render it practicable to forbid the Tahsildars to draw any sums from the Collections or deposits in their hands without express orders from myself - This will effect a considerable improvement in our account for it is desirable that the deposits and the Collections should be equally unexpended except for their legitimate object -

14. To this measure I have to request the sanction of Government and I am compelled to state that without some such measure I do not see how the order of Government can be strictly adhered to and the Service of Government carried on in this district -

15. On these two several heads I have the honor to request the instructions of the Board of Revenue

Bd. No. 2842.

From the Collector of Malabar. } Sir,

Submits information called for in Para 6 of the Extract from the Minutes of Consultation dated 18th February last on certain points connected with the rates of assessment upon the Trees in the Government Gardens as well as Rice Lands situated at Manapooram a Subdivision of the Chonghat Talook. -

In Para 6 of the Extract from the Minutes of Consultation under date the 18th February last, I am called upon to furnish information on certain points connected with the rates of Assessment upon the Trees in the Government Gardens as well as Rice Lands situated at Manapooram, a Subdivision of the Chonghat Talook. -

2. In reply, I have the honor to state that the rates introduced by Mr. Clementson in 1835 have continued in force ever since, and do were not intended to be revised, in the proposed new survey the object of which was merely to ascertain the actual condition of the Trees and the number liable to public demand, a measure that seemed desirable in advertence to the length of time (16 years) that has elapsed since Mr. Clementson's Survey. -

3. With respect to the discrepancy between the share proposed to be taken on account of Rice Lands -

† 33⅓ per cent. of the gross Produce

Lands, by Government, inclusive of their proprietary right, and that allowed to private Proprietors involving a decrease of 6⅔ p.c/o below the Pattom. I beg to observe that Mr. Clementson would appear to have been led to propose this arrangement from a conviction that private Proprietors do not always get the full amount of the 14 Parrahs (out of a gross Produce of 100 Parrahs) reserved, in account for the unfavourable seasons or partial failures of crops more or less subject both the Proprietors and Cultivators to some defining in their estimated receipts, whereas the Government share is collected in full as the Lists fall due.—

Vide Para 22 of Coll: Clementsons letter dated 18th March, 1836.

4. The majority of the Holders of Government Lands are Jenmees, or Proprietors of other private Lands, and the greatest portion of Lands of both descriptions are given out for cultivation to Pattomkars or simple tenants, so that the only profit derivable by Holders of Government Lands after deducting the Cultivator's share, expenses of cultivation, &c. amounting in all to 60 p.c/o and the proposed Government consolidated demand of 33⅓ p.c/o of the Gross Produce is 6⅔ p.c/o.—

5.— I do not purpose to commence this chowgha survey until the inquiry connected with the escheated Estates of the Betutnaad Raja is completed. This latter work proves to be more arduous than was anticipated and requires the undivided attention of the best part of my Establishment. The progress already made is I am happy to say, satisfactory and promises

more favorable results than were supposed in my letter of the 5th December 1843.—

Calicut, 13th November, 1851. } /Signed/ H. V. Conolly. Collector.—

B. No. 2472. No. 538.

Proceedings thereon. Resolved that the foregoing letter be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to para 6 of Extract Minutes of Consultation of 18th February 1851.—

In Cons 2d May 1836.

74-75

In Cons 25th February 1851.

3. The rates of assessment upon the Trees in the Government Gardens at Manapooram introduced in 1835 by Mr. Clementson still continue in force. It is stated that it is not intended to revise them in the ensuing Survey, but that it will be merely necessary to ascertain the actual condition of the Trees and their number liable to public demand as more than 16 years have since elapsed.—

3. The Grounds on which it has been proposed to restrict the consolidated demand on Rice lands in that Estate, of which Government hold the proprietors share to 1/3d of the available produce at 6⅔ per Cent below the Pattom of the private land, and the position and rights of the holders of these Government lands are detailed in paras 3 and 4 of the Collectors letter.—

4. From para: 20 et seq: of Mr. Clementsons letter of 18th March 1836 it would appear that the old estimate of Government share on Rice lands belonging

belonging to private individuals was thus obtained

Gross Produce ——— 100 parahs.
Deduct seed and expenses of Cultivation 20
Net produce 80.
Cultivators share 1/3 of Net Produce —— 26 2/3
Patam —— 2/3 of —— Do. —— 53 1/3.
Government share 60 per Cent of Patam —— 32 Parahs.

But Mr. Arnuntson proposed.

Gross Produce ——— 100 Parahs
Seed and expences and Ryots share —— 60
Patam —— 40
and Government share 65 per Cent of Patam —— 26 Parahs.
Proprietors —— 14.

5.

In the case of Government lands Mr. Arnuntson proposed to consider 33 1/3 out of wery 100 parahs the standard demand of Government including both the Government share and their share as proprietors which together is called the Patam. This Patam being therefore 6 2/3 parahs in every 100 of Gross produce less than the Patam on the private lands. This lower rate Mr. Conolly thinks was proposed inconsequence of a conviction that the private proprietors did not actually get 14. parahs in the 100, or in other words that the Patam was not in practice as much as 40 per Cent of the Gross produce. When therefore

therefore Government lands are held on lease the Holder after deducting 60 per Cent for expences of Cultivation and 40 for the Government demand (including Government share and Proprietors share) would have no profit.—

6. The Board therefore would recommend the rate of 33 1/3 per Cent so as to leave 6 2/3 per Cent of the Gross produce to the Holder of Government Lands.—

7. With reference to the latter part of para 6 of Extract Minutes Consultation 18th February 1851, Mr. Conolly, it is observed does not propose to commence the Chowghaut survey till the enquiry concerning the Betutnad Estates is completed, the latter the Board conceive to be the most urgent matter of the two.—

Proceedings thereon.

Resolved that these communications from the Superintendent of Stamps be submitted with reference to the correspondence in the margin for the consideration of the Right Honorable the Governor in Council.

Submitting a correspondence with the Superintendent of Stamps relative to the proposed increase to his office Establishment & stating that the Board are of opinion that the employment of the Translator might be dispensed with but that the Extra Writer or assistant accountant seems necessary as also the raising of the Salary of the Manager to 1,500 Rs.

Proceedings To Govt. 20th Sept. 1849.
From Government 30th July in Cons.
8th August 1850.

The object of Mr. Bruce's application in the present instance is to obtain an increase to the pay of the Manager of 30 Rupees, and the employment of an assistant accountant on 30 and a Translator on 50 Rupees a Month.

2

3

When Mr Bruce first brought to the notice of the Board the utter inability of his office to meet the duty then recently imposed on it by the operation of act XVII of 1848, he proposed that the pay of the Manager should be raised from 87½ to 150 Rupees per mensem, and that an assistant accountant on 30 Rupees should be employed.

time from the Government of India to withhold all extra expenditure called on Mr. Bruce to modify his proposal, and the situation of assistant account-ant was omitted in a subsequent letter, and not alluded to in the Board's Report to Government* wherein they recommended that the Manager should have 120 Rupees (para 7) and this was eventually sanctioned

5. Mr. Bruce had in his letter above noted marginally (para 8) pointed out that the modifications which the Board had called on him to make were such as might oblige him at a future time to bring the matter before them again and now states that experience has verified the anticipated effect.

6. He especially notices the increase in the number of "certificates" granted in conformity with Section III of act XVII of 1848, which have greatly added to the duty of auditing the refunds; the auditing being conducted in the Stamp Department by the Manager, whose pay he again proposes to raise to 150 Rupees (from 120)

The

Fort St. George 11th December 1851.

7 He also urges the employ-ment of a Translator, to be a Writer also, on 50 Rupees a Month and an Assistant Accountant on 30, in consequence not only of the increase in the Certificates, but the necessity of having the Endorse-ments (which are in the Native lan-guages) compared and translated. He points out that several Collectors give no English endorsement, and has submitted several Certificates for the Board's inspection. He has also pointed out that he has often had occasion to object to payments of Certificates from inaccuracies which have been discovered by the Manager.

From Supt. of Stamps 11th Oct. 1851
From Supt. of Stamps 27th Oct. 1851.

8 In the opinion of the Board, the employment of a Translator might be dispensed with if the Collectors be instruct-ed by the higher authorities to have the Certificates correctly endorsed in English: though the Government may not consider the Collectors endorsement suf-ficient to warrant the passing of the voucher without a scrutiny of the whole contents. The extra Writer or Assistant Ac-countant on a pay of 30 Rupees appears necessary.

Considering

Fort St George 11th December 1851.

9. Considering the increasing importance of the duties which have devolved on the Manager, and the desirableness of fixing the Salary at such a standard as may secure the permanent services of an experienced person, the Board would strongly recommend that the Salary be raised to Rupees 150
