Fort St George.

B. No 530
From the Collr
of Salem

Sir.

Referring to Paragraph
1 of your Board's Proceedings dated the
9th Instant authorizing the sale of certain
20th Feby 1852 lands in the Village of Vayloor, I have the
honor to forward Copy of a Communication to my
address from the Acting Sub Collector for your
Board's consideration and orders.

Salem District
Darampooray
25th February 1852

/Signed/ H.D. Phillips
Collector

No 1.

To H.D. Phillips Esqre
Collector of Salem.

Sir.

Para 1. I have the honor to
acknowledge the receipt of the Board's letter

Fort St George 1st March 1852

with reference to your letter to them of
16th January 1852 authorizing the sale of
the lands in the Village of Vyloor and
altering the date to the 15th March.

I should feel obliged by
2.
your requesting the Board to defer the
sale I am at present in the Northern
part of the Sub Division, and it would
be inconvenient for my Cutcherry
to be at the extreme South of it by
that date, and moreover, I have received
reports of Sickness prevailing at
Vayloor and in the Paramutty Talook.
and should wish to settle that Talook
at a later period of the season.

Although I mentioned in
3
my letter of 18th December that I deemed
it advisable that the sale of the lands should
take place at the Villages, but under the circum
stances above mentioned I request that
the Board may be pleased to sanction the
sale of those Villages at Salem.

Salem District, Sen Kerrydroog
Sub Collrs Office, 20th February 1852

/Signd/ W.E. Cockburn

/Signed/ H.D. Phillips
Collector
Under

B° N° 116

Proceedings thereon

8-9

Under the circumstances stated in the letter from the Sub Collector which accompanies the foregoing - one the Board of Revenue authorize that the sale of the lands in the Village of Vaigoor be postponed from the 15th March to 15th April 1852 and that they be put up to auction at Salem as requested by Mr Cochrane - If however that Officer is of opinion with reference to his former Communication that the sales should take place in the Village at a later period of the season, Mr Phillips will bring the same to the notice of the Board in order that the date of sale may be altered accordingly.

Read the following letters

No. 20/52.

To W. H. Bayley Esqre
Secretary to the
Court of Wards
Fort St George

Sir

I have the honor to

10

B° N° 323

From the Collr of Madura

Report on

on the Desacauk Enam lands in the Shevagunga Zemindary

request that you will procure for me the instructions of the Court of Wards as to the disposal of certain land, consisting of 78 Chays Nunjah and 36 Coorroo Runs Poonjah in Serooppavanum and other Villages in Shevagunga together with Swatontrums which are under Sequestration under the following circumstances.

In 1842, when Shevagunga

2.

was under attachment Mr Blackburne was informed that the Pudmattoor Zemindar subordinate thereto had included some Ayen in his Desacaul land; and as he was unable to prove his right by Documents the whole land and Swatontrums (3/4) of which was in possession of the Pudmattoor and 1/4 in that of Nattagoody Zemindar) was sequestered by Mr Drury the Commissioner on the 28th February 1843, pending enquiry - Before any report was received the Zemindary of Shevagunga was delivered over to the late Zemindar, who gave up 8 Chays

Fort St. George 1st March 1852.

Chays 1/4 of the Swatantrums with arrears to the Polligar of Nattacoody and retained the rest.

3 Since Shevagungah came under the management of the Court of Wards the Pudmattoor Zemindar has applied for restoration of the Cranm, and I have endeavoured to obtain clear information of the facts connected with it.

4 In the abstract account furnished to the Collector by the Zemindar of Shevagungah in Fusly 1225, as boys of the Istimrar Accounts of Fusly 1211. there is no Specification of Desacavul land but 179 - 3 - 2. Calls Mun of paddy are first deducted as the produce of Desacavul, and Kolkryam Cranis of Oya Saver, of Pudmattoor, and afterwards recredited, and included in the Total the Swatantrum is not shewn.

5 In the detailed accounts of the Settlement of the above mentioned Fusly 1211. obtained from the Zemindar's Cutcherry, I find the land entered as follows.

Roya

Fort St. George 1st March 1852.

Roya Roya Saver Ombalum	Chays	a.
Desacavul Cuttay	31.	6
Kolkryum Cuttay	6.	3 1/2
Total	37.	9 1/2
Cultivation		
Desacavul	27	5
Kolkryum	4	11
	32	"
	Calls Mun	M. m
Double	420.	" "
Kundoomoodul (actual produce	422.	4 - 2 1/2
Padee Selavoo (common Charges)	108.	11 - 5 1/2
Remainder	333.	4 - 3
Melwarom	166.	8 - 1 1/2
Sevay Jimmah	15.	6 - 5
Total	179.	3 - 1/2

which agrees with the sum entered in the Abstract.

6 I can obtain no accounts of a Date intervening between the above Fusly 1211 and Fusly 1222 (the Tamil year Angeerasah) From that Fusly to Fusly 1240 it is entered at extents varying from 17 Chays to 28 - 5 Chays as

In

7 In the accounts for Fusly 1241 the Enam is suddenly entered as 78 Cheys Punjah and 36 Coorookums Poonjah. The Curnom of that year is dead. The present one states that he has heard, & that the Head Tahsildar (the Zemindary being then under Zuft) verbally directed that the whole Ayen as well as the portion thereof cultivated should be distinctly shown, whereas previously the Cultivation only has been exhibited. The entries of subsequent Fuslies are to the same extent. He further states that although the cultivation of no single year had amounted to 78 Cheys and 36 Coorookums all had been cultivated at one time or another some in one year and some in another.

8 It appears to me, that owing to Government having undertaken the Police of the Country, Mr. Lushington resumed the landed Enam in question as no longer necessary; but that it was afterwards continued by the Istimrar Zemindar, Gowry Vallabha Taver from affection towards the Padmattoor

J.L.B.

Padmattoor and Nattacoody Zemindars who were the first his elder Brother and the second a relative. From the Correspondence between the detailed Summabundy Accounts of Fusly 1211 and the Abstract furnished to the Collector in Fusly 1226. it is evident that the produce of so much of the land as was cultivated in the former Fusly was included in the assets on which the Peshcush was fixed and is therefore legally Ayen. The Swatentrum was not resumed probably from its being included in the general Head of Podoo Selavoo (Common Charges) and thus escaping notice.-

9. Under these circumstances and as Desacamul Enam Lands were granted for service which is not now performed, I think that the extent of land now under resumption, Viz. 70 Cheys Nunjah and 36 Coorookums Poonjah, should be definitely included in the Ayen land of the Shevagungah Zemindary and the portion given over to the Nattacoody Zemindary again resumed

Fort St. George 1st March 1852.

resumed. It is most probable that the determination will produce a Civil Suit which I mention, that the case may receive the most deliberate consideration of the Court.-

10. I consider that the full extent of the Enam enjoyed prior to Fusly 1211 was 37-9-1/4 only and the rest is a usurpation beyond what was allowed by the Zemindars. Mr. Lushington does not seem to have discriminated between the Desacavel and Kolerayen; and as subsequent Accounts make no distinction between them the whole land may be taken as Desacavel. The extent of 8 Cawnies restored by the late Zemindar of Shevagungah to the Nattacoody Zemindar was fixed as 1/4 of the cultivation in the Fysul year.-

11. With regard to the Swatontrums it is not so easy to determine the course to be pursued. They do not form part of the Assets on which the Peshcush was fixed and therefore do not belong to the Zemindary. If in consequence the

Fort St. George 1st March 1852

the discontinuance of the Desacavel System, the deduction of this Swatontrum from the Odawerum or Gross produce has been discontinued at the time, it is evident that 1/2 would have gone to the Ryots and 1/2 to the Sirkar or it's representative the Zemindar, the paying Peshcush thereon. As it is, the Swatontrum has been received by the Desacavel Kars without regular Service and readjustment is so difficult that I would propose they should be allowed to continue in enjoyment on the understanding that when called upon they shall assist the Police. Another arrangement which suggests itself, is to sequestrate the Swatontrums and apply them to the maintenance of Vecharepoo or watching Peons.-

12. I enclose a Statement shewing the amount collected from 3/4 of the land and Swatontrums respectively since they have been under Assumption from which it will be seen that the receipts amount to Rupees 3,000-3-7 as P. and that there is a Balance outstanding against

against the Ryots of 1/81-10-4. I
request instructions also relative to this
accumulation.-

Madura, }
31st January 1852. } (Signed) R. D. Parker.
Collector.

Collector.

Bd. No. 410.

Proceedings thereon.- (10-11)

Paras 8 & 9. It is stated that the Desacavel Enams consisting of 78 Chegs Kunjah and 36 Cooroo Kums Pun=jah were included in the assets on which the Peshcush of the Zemindary of Shevagungah was fixed and that they therefore legally belong to it whil the Soluntrums did not form part of the Assets of that Zemindary and do not therefore belong to it. The Court would wish the former point to be further considered as the fact of the resumption by Mr. Lushington noticed in Para 8 appears to be incompatible with the view that the lands referred to formed part of the Assets on which the Peshcush was fixed.-

Para 11.

Para 2. 2. As the 8 Chegs of Desacavel and 1/4th of the Soluntrums were made over to the Poligar of Nuttacoody by the Zemindar of Shevagunga before his Estate came under Management of the Court of Wards, the Court consider that his portion should not be interfered with during the life time

time of the present incumbent but that he should be distinctly informed that this permission to hold it must not be construed as an admission of his right thereto.

3. Before issuing instructions as to the disposal of the other Desaccavel Enams and Totuntrums the Court of Wards would wish to have before them a distinct and concise statement of the nature and extent of the claims advanced towards these by the Proprietor of Pudmattoor, and a more clear exposition of the Collector's objections to recognize the demands of that individual.

(12)

B. No. 352.

From the Collector of Madura. — 3

Sir,

I have the honor to acknowledge

acknowledge the receipt of the Proceedings of the Board dated the 15th Ultimo.

2. The measures specified in Column 2 of the Statement enclosed in my letter of the 13th December last, are those of the Madras Cawney and Ground.

3. The Gooly adverted to by Mr. Clarke is the square of a chain of 160 feet in length 2¼ of which make a Cawney.

4. The general measure of a Poonjah in the Madura District was a chain 152 - 2½ Inches in length the square of which is 23,059 sqr. ft. and a fraction (by my Calculation) and is called a Gooly or Goontah By order of Mr. Viveash the chain in Dindigul was increased 160 feet and the Gooly resulting therefrom is in the proportion of 2¼ to the Cawney.

5. The Standard measure of Runjah is a Bamboo rod of 24 feet the square of 10 of which is called a Cawney. The Term "Gooly" is not in

in common use as applied to Nunjah but the square of 1 Rod is a Gooly and amounts to $\frac{1}{100}$ part of a Cawney which the Board state to be the Gooly in North and South Arcot & Chingleput.-

6. There is no ground between the 2 Missionary Compounds which could be taken up by other parties.- They form the Crests of a Semi-Circular Hill rising out of a Swamp which occupies the space between them. All the buildings on the two sites do not occupy as much as a Cawney.-

7. I feel a difficulty in recommending that land should be granted on the Pulneys, 5 years rent free and on and after the 6th year for One Rupee an Acre without reservation; as there is already much Nunjah, Garden and Poonjah land there which has been under Cultivation from times preceding the Fysul on different terms; and because under the general term Pulney Hills is included lands of various descriptions.

and

and at various elevations. Wherever there is a command of water Villages have been established, and much land cultivated with Onions and other garden produce. If a Notification were issued simply to the effect suggested for my consideration, there would be great danger, I think, of that water being interfered with. There is land certainly to the Cultivation of which some encouragement beyond what is usual might be advantageously given. Such are the wide spreading Downs on the undulating table land of the upper range. Pasturage is, the purpose to which, I think, these for the most part would be best applied. Horned Cattle thrive on them exceedingly well; and they would also most probably grow Wheat, Barley, and Potatoes with little or no irrigation. Some situations would perhaps answer also for Coffee.-

8. Instead of issuing any Notice at present, I would recommend

that

Fort St. George 1st March 1852.

that Mr. Clarke may be informed that the Board are willing to grant some encouragement to the extension of Cultivation on the Pulneys, and he is desired in his forthcoming Report to suggest such measures as he thinks will have this effect without interfering with the Cultivation of the Low Country or of the Villages already established on the sides and lower ranges of the Hills:-

9. I have conveyed the acknowledgments of the Board to Mr. C. D. Baynes.

Madura
4th February
1852. } (Signed) R. D. Parker.
Collector.-

In Cons. 15th Jany. 1852. (12-13)

Bd. No. 414.

Read again letter dated the 13th December 1851 from the Collector of Madura and its enclosures.

(Here enter No. 172)

Proceedings thereon.

Issuing certain instructions on the subject of Lands on the Palaney Hills.-

Under the explanation contained in the first letter above recorded and its enclosures and the further explanation now entered into

Fort St. George 1st March 1852.

From the Coll. 12th Sept. 1850 & 11th Nov. 1850 para 5.

C. O. Book Page 584.

into by the Collector the Board concur in opinion that it will be best for the present to change an uniform rate of 1 Fanam per Goolee or 2¼ Fanams per Cawney of 2½ Goontahs on land in excess of the 1st Cawney chargeable at Rupees 5-4- situated on the Pulney Hills and taken up as compounds for buildings instead of the rate of Rupees 11 2-4 leviable on such land in the Neilgherry Hills under Section IV of the Manual.-

2- The Collector will however be careful to make known to all parties that this rate is only temporary and so will be liable to revision and change on the introduction of a regular Revenue Survey.

3- Under paras VII & VIII of the Neilgherry Manual the Board now direct that the several Spots of land on the Pulney Hills applied for as noted in the Margin but more particularly described

Applicants	Land applied for			Upset price		
	Cawns	Gds	Sq. Feet	Rs	a	p
Mr. R. D. Parker	9	12	900	74	8	"

W.H. Bayley Esqre. Secretary to the Board of Revenue.

(16)

B. No. 368.

From the Collr. of Madras. Requesting the Board's instructions in regard to the instructions of

Sir,

I have the honor to submit the following suggestions in regard to Act No. 12 of 1851 intituled an Act for Securing the Land Revenue of Madras

of certain parts of the Madras Revenue Act No. 12 of 1851.

Madras for the orders of the Board of Revenue.

2. Section II of the Act states that Lakhiraj tenures of land in Madras of which uninterrupted possession has been held under alleged Grants exempt or partially exempt from Assessment for Sixty years shall be deemed valid.

3. In proceeding to institute an enquiry into the rent free tenures at the Presidency under the provisions of this Section it will be necessary to understand what is intended by the expression "alleged grants" whether it refers to Grants of a suspicious character or merely to tenures said to be held on grants which are not forthcoming. If the latter, whether a tenure for less than sixty years, supposing a party to have been in possession for 30 or 40 years would be deemed valid as in the provinces.

4. In reference to Section VII I would beg to point out that this Office appears to be empowered in the

Fort St. George 1st March 1852.

the case of a party holding immediately from the East India Company (i.e. a Proprietor or Lessee) refusing to pay the rent on his land after a written demand has been served on him to levy the same by distress and sale of the goods and Chattels wherever found while the distress in the case of tenants and occupiers, is confined to the goods and Chattels found upon the land.

4. The Calcutta Act VIII of 1847, which has been extended to Madras by Section 89 Act IX of 1850, limits to the powers of his Distraint to goods and Chattels on the lands itself and not as in this Section of the new Act for Madras to goods and Chattels "wherever found"

5. I am not sure however whether I have rightly interpreted the provisions of this Section, as the Government in para. 9 of Extract from the Minutes of Consultation dated 18th July 1850, appear to have considered that the Calcutta Act VIII of 1847, applied to arrears of Assessments generally

+ An Act to regulate Distresses for Small Rents in Calcutta.

Fort St. George 1st March 1852.

generally and not to distraint on the goods of a tenant or occupier.

6. If the provisions of the Calcutta Act were intended to regulate the manner in which distresses on account of arrears due either by a Proprietor or tenant indifferently should be executed, the powers of this Office are them distinctly limitted to the seizure of goods and Chattels on the land on which the arrears are due and not as in the preceding portion of Section VIII of the Madras Land Revenue Act to goods and Chattels wherever found.

7. This difference is of considerable importance at the Land Revenue of this District. The Board are aware that the greater portion of the Balances outstanding in this District under the head of Land Revenue is due on account of Houses unoccupied, and lands uncultivated and that it has been repeatedly reported by this Office, that the circumstance of there being nothing on

on the land which may be seized on account of the Quit Rent was the cause of the Annual recurrences of arrears under these heads.

8. As a question connected with the foregoing remarks I would take the liberty to state that a considerable portion of the Land Revenue is every five years given up as the grounds on which the tax is due is declared to be waste land. The question for consideration now is whether this practice is to be continued. It appears to me that this would be an unnecessary sacrifice of the Public revenue as under the enlarged powers given in Section VII this Office might distrain the goods of the Proprietor wherever found although there is nothing on the land itself.

9. Another question of great importance to this Office connected with Act No. 12 of 1851 is whether in investing the Collector of Madras with the powers of a Judge of Small

Small Causes agreeably to the provisions of Act IX of 1850, it is intended merely to limit these powers to cases of distress and Sale or whether the Collector may not under the concluding portion of Section VII exercise the Commissioners power in summoning witnesses and taking depositions on Oath &c. as specified in Sections 42, 47, 49 of the Madras Act for small Causes No. IX of 1850.

10. Section 9 of the new Act states that "the claim of the East India Company for land revenue or rent has priority over all other claims upon the land or to which property distrained upon the land may be liable". In the Board's Proceedings of the 1st October 1849 it is stated that the omission of any clause providing for the sale of the land itself can hardly have been otherwise than intentional it remains therefore to be considered whether under the provisions of this Section, the claim of the Company being prior to all others, this Office would be authorized

in staying the execution of a decree in favor of any private individual against lands on which a quitrent is due to Government.

11. Another point on which I am anxious to have the opinion of the Board has reference to Section II which states that Arrears due to Government are recoverable within Six years next after the same are due or next after an acknowledgment of the same in writing has been given.

12. It is the practice of the Office to charge lands which have escaped notice, and have therefore been unassessed for an indefinite period with a demand for Arrears of Quit rent for five years and it is desirable therefore to ascertain whether the period of Six years mentioned in this Section is to be extended to such cases.

13. When the demand for Quit rent has been made but the recovery of the balance has been found impossible under the old rule may

the

the extended power of seizing property wherever found be employed or does the limit of Six years in Section XI apply to these cases of "outstanding balances"

Madras 12th February 1852. } (Signed) J. A. Hudleston Collector

B. No. 413.

Proceedings thereon - Explaining certain Sections of Act XII of 1851.

(16-17)

The "alleged grants" asserted to in Section II Act XII 1851 may be understood to mean all lands said to be held on Grants which are not forthcoming. The validity of these "alleged Grants" should not at once be recognized by the Collector on the ground of 12 years possession for any period within 60 years as in the Provinces, but such claims submitted in due course to the Board who will dispose of them on their merits under Section XII. Where undisturbed possession for a period of 60 years can be shown during which time the land has been wholly or partially exempt from assessment the claim can be admitted by the Collector as valid under Section II.

In

Fort St. George 1st March 1852

2- In regard to the interpretation of Section VII the Board consider that upon the refusal or neglect of the proper owner of the land to pay the rent due upon it his property wherever found is liable for the Government dues- If he should subrent the land it will be optional with the Collector to demand the Government dues from the Tenant and to distrain each of his property only as may be on the land and in the event of the seizure and sale of the Tenant's property there found, the Tenant has his remedy with his Landlord as specified in Section VIII-

3- Where the demand is due upon Houses unoccupied or lands uncultivated relinquished or newly taken up, but which have escaped detection and have therefore paid no assessment, the property of the owner is liable wherever found--

4- The Board also consider that the Collector is invested under Section

J.B.R.

Fort St. George 1st March 1852

Section VII with all the powers of a Judge of the Court of Small Causes as to the power of summoning witnesses, taking deposition &c. agreeably to the provision of Section XLII XLIII & XLIV Act IX/1850. They are of opinion that the Collector might under Section IX Act XII/1850 stay the execution of a decree in favor of private individuals against lands on which a Quit rent is due but this course should be avoided as far as circumstances will permit, to suit the convenience of the public, as the Lands sold would still bear the Quit rent due upon it, which might be recovered from the purchaser in due course.

5. With due vigilance on the part of the establishment of the Collector there should not be an instance where the Demand has been allowed to lie over for an indefinite period, but if perchance it should occur the arrears will be limited to the 6 years provided for in Section XI.

No. 1.

The Decree of the Court of Sudr Adalut. Before the Subordinate Court of Salem. Original Suit No. 274 of 1842 Before the Civil Court of Salem. Appeal Suit No. 76 of 1847. Court of Sudr Adalut. Special Appeal Suit No. 44 of 1850.—

Special Appellant		Special Respondent.
F. N. Maltby Esqre. Collector in Charge of Salem	Versus	G. F. Fischer Esqre. Moottahdar of Salem.
Vakeel		Vakeel
Goolam Moorjah		J. Duchterlony Esqre.

/ Signed / G. S. Hooper.
" E. P. Thompson. (L. S.)
" T. L. Strange.

The Plaintiff, as Moottahdar of Salem, brought this Suit in relation to three pieces of land occupied by the Government whose interests are represented by the Defendant, namely one as an encamping ground, another as a place of execution, and the third as the site of a Travellers bungalow, and he sought either to obtain rent or possession of the lands—

2 The Defendant affirmed that

that the said lands formed no part of the Plaintiffs Mootah, but had been excepted from it as Porambake, or lands not available for Cultivation.—

3.

The Acting Subordinate Judge considered the Defendants plea to be established, and dismissed the Suit.—

4.

The case came in Appeal before the Civil Judge, who remanded it to the Subordinate Judge in order that certain further inquiry should be held with the view of determining whether the Plaintiff was barred in his claim by the statute of limitation.

5.

The Subordinate Judge by a revised decree, entered upon this question, and disposed of it in the negative, and further more decided that the lands in dispute belonged to the Plaintiffs Mootah giving an award accordingly in his favor.—

6.

The Suit came again in Appeal before the Civil Judge, who confirmed the Subordinate Judges decision as to the two first pieces of land

land, but allotted the third to the Defendant.

7.

From this decree, upon the motion of the Defendant, the Court of Sudr Adalut admitted a special appeal in order that it might be determined "whether or not the Original Plaintiff be not "barred by the Statute of limitation from "obtaining any remedy through the Courts "in the alleged usurpation of his rights "as maintained by him in this present Action."

8.

The Court of Sudr Adalut find it admitted on both sides that the spots of land involved in this appeal were occupied by the Government in the year 1820. The Suit not having been filed till the year 1842, it becomes apparent that the Plaintiffs claim to these lands is barred by the statute in question unless cause of exception can be shown to prevent the said statute coming into operation none such appear to the Court. The occupation was made neither coverdly, nor by sufferance, but the lands were taken possession of, and made use of openly and in the evident assertion of

right

right thereto, and the Plaintiffs' title to them has at no time been acknowledged. The Subordinate Judge, in coming to the conclusion that the statute of limitation should not be brought to bar against the claim, was influenced by the consideration that the previous Mootadar was a Native female, who could hardly be expected to press her claims against the Government, and that the mootah was under the management of the Government from 1829 to 1834. These considerations appear to the Court of Sudr Udalut to be of no weight. A Native female could ensure a hearing of her claims and enforce them against the Government as readily as any other, and the management of the Mootah by the Government, when under attach-ment in no way interfered with the prosecution of such claims. The occupation was of a nature to invite remonstrance if the former Mootahdar could have thought that her rights had been invaded, but none was made. The Plaintiff became professors of

of the Mootah, of course with all its attendant advantages or disadvantages. The lapse that accrued in his predecessor's time bears therefore against him.

9. In the Plaintiffs answer in this special appeal it is urged that the Plea of limitation is a novel one, not brought before the lower Courts, and therefore not now entertainable. This is not the case, the Suit having been remanded to the Court of Original Jurisdiction for the express purpose of having this question entered upon. But even were it otherwise and the defect in Plaintiffs claim had only now attracted attention, the Court of Sudr Udalut would have been quite justified in adjudicating upon it as whether pleaded or not pleaded the Courts are bound to maintain the integrity of the law and where they may see that it operates must give it effect.

10. On the foregoing grounds the Court of Sudr Udalut reverse the Civil Judge's decree so far as brought under review by this

this Appeal, and decides that the Plaintiff has no title to the two pieces of land involved in this appeal, his claim thereto being barred by the statute of limitation—

(Signed) G. S. Hooper Gootam Moortyah

" E. P. Thompson (L S)

" T. L. Strange

1. A Special Appeal has been admitted by this Court of Sudr Udalut in this case from the same decree that led to the Special Appeal in No. 44 on their file for 1850. The Plaintiff in the Suit moved for the Appeal, objecting to such part of the said decree as was disadvantageous to him—

2. The Court of Sudr Udalut admitted it because it was of opinion "that

"that the grounds urged by the lower Courts
"as bearing them out in their refusal
"to award arrears of rent to Special Appel-
"lant for the two Spots of land decreed
"to him, were untenable and opposed to
"the usual practice of the Courts"—

and, Secondly, as it seemed desirable
"that the question involved in the Special
"Appellants' claim to the spot of ground
"occupied by a Government Bungalow, si-
"tuated, in the Glacis of the Salem Fort,
"should be fully and finally disposed of"—

3. When the Suit came on for
"hearing the Court saw grounds for
amending the above Certificate by provid-
-ing that "in dealing with the Special
"Appellants' claim to the Spot of ground
"involved in this Appeal, the question of
"limitation, bearing upon this claim, should
"also be disposed of"—

4. This Amendment became
necessary since without it, the Court
might have been held bound to adjudicate
on a claim, in inattention to a law,
which upon the face of the proceedings
was Calculated to bar it out—

The

5.

The two spots of land, the rent sought for which forms the subject of the first point of the certificate, having been disallowed to the Special Appellant (Plaintiff) under the Counts decree in Appeal No. 44 of 1850, the right to the said rent becomes of a consequence negatived—

6.

As regards the spot of ground to which the second point of the certificate, with the Clause of amendment, relates, the Court of Sudr Udalut find it admitted on both sides that the Govmt assumed occupation thereof in the year 1824, the suit having been brought in 1842, The circumstances of the case in respect of this piece of land are precisely the same as those attaching to two other pieces forming the subject of the aforesaid Appeal No. 44 of 1850, and under the reasons which guided the Court in their decision given in that case, they decide in like manner in this, that the Plaintiffs claim to the spot of land now in question

question is shut out by the statute of limitation.

7 The Appeal is consequently dismissed with costs.

No. 78

(18-19)

To the Chief Secretary to
Government

By No. 422

To the Chief Sec'y to Government

Sir,

In Extract from minutes of Consultation dated 17. November 1851. The Board of Revenue were authorized to retain a European Pleader to conduct on the part of Government, Special Appeal Suits No. 44 of 1850, and 6 of 1851 on the file of the Court of Sudder Udalut respecting

respecting three spots of land in the occupation of Government and claimed by the Moolahdar of Salem.

2. Immediately on receipt of the above orders the Board secured the services of Messrs Dale and Boyson, and in their Proceedings dated 22d December 1851 and 5th February 1852 it was reported that both Suits had been decided in favor of Government.

3. I am now instructed to submit the accompanying letter from Messrs Dale and Boyson dated 21st February 1852 enclosing Bills to the amount of six hundred Rupees, Viz. one Bill for 300 Rupees for conducting the prosecution of Suit 44 of 1850 and another for a like sum for conducting the defence of Suit 6 of 1851.

In Cons 1st March 1852

4 The Board solicit sanction of Government for the payment of these Bills.

To Lieutenant General W. Cullen
British Resident
of Travancore

Sir,

I have the honor to submit herewith a Memorial from Ananda Rama Deet chatter, Chief Spiritual adviser

Adviser attached to the Palace of His Highness the Rajah to your address, and another to that of the Board of Revenue Madras respecting certain Manyam lands granted to the Memorialists Ancestor and his heirs as a gift by His Highness the Nabob Wallajah of the Carnatic in consideration of the above high Religious Office, which is hereditary in the Memorialists family.

As the Memorialist holds a high position in the Palace and cannot therefore properly transmit the above addresses direct, he has forwarded them to me with a letter requesting me to hand them to you. He has at the same time solicited my interposition in his behalf and from the enquiries I have made, I find that the grant was made solely on account of the above said Office and as such the Memorialist and his heirs would appear to be entitled to it so long as they continue to

to hold such Office, I therefore take the liberty to request you will have the goodness, if you deem it fit, to recommend the prayer of the Memorialist for the favorable consideration of the Board, Viz.t, that the original tenor of the grant may be restored allowing the Manyam land to be enjoyed in perpetuity instead of during the Memorialists life time only as it seems to have been lately decided.

In Cons.n 5th Feby 1852

No. 450
From the Coll.r of Ganjam. Read Statement of Charges
7 incurred under Estimate in the Revenue
7-8 Department for Fasly 1260.
B.R. No. 438
Proceedings thereon

Before submitting the foregoing Statement for the sanction of Government, the Board request the Collector will afford explanation on the following points—

In

In Column 4. Estimate for
2 Fasly 1260 the Saderwarad on account of the Sibbendy Establishment of Goomsoor and Sooradah, is entered at Rupees 540, while those for Faslies 1258 and 1259 are given at Rupees 300 for each year. On a reference to the Statement of Actual Charges for Fasly 1258 in the Column of explanation it is stated that the Saderwarad Charges under this head are incurred under the sum of Rupees 480, and sanctioned by Government on the 11th April 1837 for the repairs of Arms, Accoutrements, Stationery, &c.a— Mr. Onslow will be pleased to state the date under which the additional sum of Rupees 240 was authorized—

3 Mr. Anslow will likewise explain the difference in the Estimate for oreses to the Sibbendies— the amount sanctioned in Extract Minutes of Consultation 11th April and 5th July 1837, being only Rupees 883—8—2—

Read the following letter.

No 5 of 1852.

To,
W. H. Bayley Esqre
Secretary to the
Board of Revenue,
Fort St. George.

15

Bd No 156.

From the Collector of Cuddapah

Sir,

Para 1. I have the honor to report upon the revenue Settlement in Cuddapah for Fusly 1260 (1850/51) and connected therewith to forward the usual accounts numbered from 1 to 19.

Reporting upon the Revenue settlement in Cuddapah for Fusly 1260 1850/51 and forwarding the usual accounts connected therewith numbered from 1 to 19 together with Mahratta Statements &c

2. The Settlement of the following talooks was made by the late Acting Collector at the Villages named opposite to each.

Talook.	Settlement where made
Jummulmudgoo	Jummulmudgoo.
Doovoor	Jummulmudgoo and Poddatoor
Koilgoontlah	Jummulmudgoo and Rojeum
Chitwail	Cuddapah and Mundalore
Sidhout	Cuddapah and Kontemettah
Cheenoor	Cuddapah
Canalapoor	Vaimpully
Poolevaindlah	Vaimpully

3. On joining the district on the 1st of July I found the settlement of Goorrumkondah Muddempully and Royachoty still unfinished, and

and requested Mr Wedderburn, the Head Assistant, to proceed and complete the duty which he did at Cholapully, Muddenpully, Royachoty and Neelakuntarowpett. The settlement in the Collector's Talooks were commenced on the 28th of December 1850 and completed on the 29th of July 1851.

4. Mr Wathaway while Acting Sub Collector settled the Dorpand Talook at Inarkapoor, and commenced the Talook of Budwail, but he was relieved of the Charge of the Sub Collectorate by Mr Wedderburn who completed Budwail and also settled Cumbum. The Summalaundy of the Division commenced on the 20th of January and was concluded on the 23d of June 1851.-

5. Fever was prevalent as usual during the Cooler Months, in the talooks bordering on the hills, and Cholera was also present, and is said to have carried off more than 2,600 persons. The violent storm in the Month of May, besides the damage it did to the Crops and lands was also destructive to life. no less than 505 persons were drowned in the Single Village of Chowtepully of Dummalmudgoo on the banks of

of the Pennair river, 77 in Parainapully of Poolevendlah and 30 in other Villages. the storm also destroyed 1126 houses, killed upwards of 2300 head of Cattle and 5,400 Sheep.-

6. In the early part of the season in June and July the rains were very general over the whole province and many of the tanks received water, in August and September the rain was more partial, but of great value where it did fall, in giving an additional supply of water to the tanks, some of which were at that time three quarters full in October again there was a seasonable fall of rain, and partial showers in November and December. In May as the Board are aware there was a very unusual fall of rain, and the rivers came down in high flood overflowing their banks and doing a great deal of damage to crops which were destroyed, lands which were covered with sand, Channels and wells which were choked up tanks which were burst, and Villages which were carried away. a list of the works of irrigation then damaged has been already sent to the Board.-

7. The following Statement gives a Comparative view of the quantity of water the tanks received in the two Fusilies $\frac{1259}{1849/50}$ and $\frac{1200}{1850/51}$.- Talooks-

The

8. The net Cultivation of the district was enlarged in consequence of the better supply of water the tanks received in the past, as compared with the previous years, but the Statement above shews that the great increase in the number of tanks well supplied was in Goorumkondah, Inud-dendully, Royachoty and Poolevaindlah where the works are generally small, and each irrigates but a small quantity of land. The yield would have been heavy but that the Crops suffered much from blight, and on the whole about five eighths of a full Crop was probably received by the Ryots. The Dry crops on the black soil were not so full as those on the red and mixed lands, of the former, some, particularly the Cotton and Chitta Jonna, suffered from too much rain, and others from blight - of the latter, the return to the Cultivators was on the average some-what more than half a full Crop.-

	Rupees
Sidhout	1117
Budwail	741
Cumbum	128
Doopaud	100
Chitwail	21
Chennoor	11
	2118

9. Remission to the extent of Rupees 2118 - was granted in Sidhout, Budwail, Cumbum Villes for Paddy Crops which totally failed and Rupees 1710 in Doopaud, and Rupees 422 in nine other talooks for crops entirely washed away by the bursting of some tanks in October, the Case of each Ryot was investigated at the settlement, and remission was granted only after its necessity had been satisfactorily ascertained - In the great Storm in the Month of May lands assessed at about Rupees 11100 were flooded, and their Crops destroyed, but the loss was chiefly in talooks the settlement of which had been already concluded and remission was not therefore given at the Summahundy - the amount of remission which each Ryot may fairly claim will be carefully ascertained in the Current settlement, and stated to the Board in the next annual report, in the mean time the Collection of the sums has been partially suspended.-

10. The following statement shews the prices of grain and other produce in each of the past ten years, with a comparison between Fusles 1259 / 1849/50 and 1260 / 1850/51 and also between Fusly 1260 / 1850/51 and the average of the last five years - Paddy and rice have fallen off while other produce has risen in value in the Comparison between the last and the previous years, while the value of all produce except-ing Cotton and Indigo has fallen from the average of past years.-

11. In the Sub Collectors report the Board will observe that the price of Indigo is stated to have fallen off in the past year but I have ascertained from Mr. Wedderburn that a Clerical error exists in his figured Statement, and that instead of Rupees 303-9-9 having been the average price during the Fusly, it was really Rupees 653-9-9 so that the rise over the price in Fusly 1259 / 1849/50 is Rupees 113-0-11 the error appears to have arisen from the price in the Doopaud talook having been entered in the detailed Statement from which the general average was deduced as Rupees 57-8 instead of Rs 1 P 507-8-0

As per Statement No 1. Dry. Wet.

Do.

The

13 The total increase of assessment on land finally retained, Rupees 45,719- is composed of the assessment on land taken on bowle in the previous fusly amounting to Rupees 15,696 of that on lapsed Cowls amounting to Rupees 7,300, hitherto brought to account under the head of extraordinary revenue, and now incorporated with the ayen revenue under the orders of the Board and of Rupees 22,723 the assessment on land brought under cultivation from the Ayacut Bunjer. Of the increase entered under the head of teervojastee Rupees 8,800 was the amount laid upon wells under the impression that they were liable to the tax as Garesa or basket wells. this subject has already been separately reported on, and I have received the Board's orders to relinquish the demand.

14 The actual cultivation in the year is shewn in the following Statement which also gives a comparative view of the quantity of land and the amount of assessment thereon, cultivated in Fusly 1260 and in the previous year 1850/51.

Here

15 There appears a small decrease in the extent of Dry land cultivated, but an increase in the assessment arising from some of the poorer red soils having been left, and the cultivation of the richer black lands in Doorvoor, Koilgoontlah and Summul-mudgoo having been extended - The decrease under the head of Garden land is owing to the non cultivation of the beds of the large Cumbums, and other tanks, which were too full of water to admit of it - and the small falling off under the head of Poonjaa arose from a failure of Water in the Tanks in Budwail-

16 The increase in the assessment on the black soils is large compared with the increase of the land cultivated, and arises from land to the extent of 4,484 acres assessed at Rupees 17,491 having been taken up on Cowle and 2,597 acres on assessed at Rupees 4,668 having been left waste owing either to the death or poverty of the former holders or to its having been overflowed by the water of the Cumbum and other tanks - The decrease on the lands of red and mixed soils arises from a proportion of them having been brought under the head of Teerwajastee as watered from basket wells from some of them being in the beds of tanks which could not be cultivated owing to the quantity of water and to some having been left waste for want of seasonable rain - The increase shewn under the heads of Wet cultivation under tanks and channels and of Teerwajastee and Teerwajastee, is sufficiently accounted for by the favorable nature of the season -

17 The remissions granted under the various heads usual in this Province are shewn below -

This

18 This Statement requires little remark the chief items of Established remissions, bunjer bowle, and usual remissions are not discretionary but are given on a fixed and known principle, and an increase of cultivation is naturally accompanied by an increased amount of remission under these heads. the nature of the season explains the decrease in the amount granted under the head of Shamelat Bunjer and the loss of crops by inundation has been already referred to in paragraph 9. a sum of Rupees 5593. was granted as remission in Fusly 1259 / 1849/50 for crops destroyed in the bed of the Cumbum tank, but in the past year, the tank was full too early in the season to allow of extensive cultivation and a decrease under the head of remission on account of inundation appears accordingly.

19 The Statement which follows shews the gross assessment of the year the deductions to be made under the several heads of remission and the net berry of the district as compared with Fusly 1259 / 1849/50

Remission

20 Remission was not given on waste lands the assessment of which was within 10 per cent of the Ryots whole puttah nor on such wet lands as were left waste after having been agreed for, when there was water sufficient for their cultivation, nor to such Ryots as cultivated only their lightly assessed lands, and left the remainder waste. The total settlement for the year appears by the above Statement to have been Rupees 2,189,541- or Rupees 112,137 in advance of the previous years, and was divided on the several talooks as follows.

Fort St. George 4th March 1852.-

24. Of the total demand, Rupees 20,36,842-10-1- were realized within the fasly, Rupees 1,34,665-2-11 have been since collected, and the balance on the 31st of December was Rupees 18,033--2-25. I have already stated that great losses both of standing crops of houses, cattle, grain and other property were sustained in the storm of last May, and on this account Rupees 6,000 have been hitherto uncollected. I propose to examine into the circumstances of each Ryot during the present settlement, and hereafter to report to the Board my opinion as to what amount of the present balance the Ryots should be permanently relieved from - about 4,500 Rupees Assessed on certain wells have been remitted by the Board's orders of the 8th of December 1851 and the remaining balance is due by some Ryots whose property is attached in satisfaction of decrees of Courts and whose balances will be collected whenever the sale takes place, and others, whose poverty will probably render it necessary entirely to relinquish the demand against them. All these particulars are now engaging my attention in the Talooks.-

25. Subjoined is a Statement of Arrears now due Amounting to Rupees 5,059-- 11-

Fuslies

Fort St. George 4th March 1852.

27. Of this sum Rupees 85..5 or Rupees 17..1.. for each year from Fusly 1254. 1844-45. to Fusly 1258 1848-49 are due by the Revenue Mr. Whitford as the assessment on the land wherein is situated a bungalow he formerly held at Cuddapah. The house has since passed into other hands, and Mr. Whitford has been removed from the Government Service and has I believe returned to England. I would therefore ask that I be allowed to write this sum off the accounts at once, and to report upon the remaining arrears at the close of the present Fusly..-

28. The state of the Indigo and Cotton Cultivation is shewn in the following Statement..-

Cuddapah, 11 July 1852. H. Forbes Collr

Agreeable to the Statement of Jamabundy

Fort St. George 4th March 1852.

3305

To,
H. Forbes Esqre
Collector of Cuddapah.

Sir,

1. I have the honor to forward herewith the following report of the Settlement of Land Revenue in the Sub Division for Fusly 1260.-

2. Mr. Murray, the Sub Collector, having been appointed to act for the Collector of this District, Mr. Hathaway assumed the charge of the Division, in the month of December 1850, made the Settlement of Doopaud Talook, in Markapoor, and also 16 Villages of Budwail Talook in Cusbah of Budwail. On his appointment as acting Subordinate Judge of this zillah, I assumed charge on the 29th March last, and completed the Settlement of the rest of the Villages of Budwail, and Cumbum, in the respective Cusbahs of those Talooks.-

3. The Villages and hamlets of the Sub Division are the same as in the previous year.-

4. Rain, favorable for the Cultivation of the dry crops, fell partially in the month of May in the 3 Talooks of this Division, some small Tanks of Cumbum and Budwail received water sufficient for 1 or 2 months' Cultivation, while those in Doopaud received none. The rain in the month of July proved favorable to the dry crops of many Villages, but

but a sufficient supply of water was not received by the Tanks. There being no rain at all in the first week of August, reports were received from the Tahsildars, that the crops then in existence were perishing - but the heavy rain in the second week, and in September, rendered the whole lands of Cumbum and Doopaud Talooks fit for ploughing. Some tanks received a full supply of water, and some 1-2 or 3 months; while some of the tanks of Budwail received a scanty supply of water. By the heavy fall on the 25th and 26th October, and in the commencement of November, many tanks and reservoirs in Cumbum, and Doopaud Talooks received a full supply of water, some tanks in the latter Talook were breached, nearly all which were subsequently repaired - In Budwail Talook some small tanks received a full, and some a small supply. No rain fell in December, January or February. The showers in the 3d and 4th weeks of March were in some degree beneficial to the 2d Crop of wet lands. The Cumbum large

large tank had 1/4 supply of water remaining at the end of Fusly 1259. and received 3/4 in the Current fusly. From the seasonable rain in Cumbum and Doopaud, in September, October and November, a greater revenue has been derived from these Talooks, and from want of rain the reverse is the case with the Budwail Talook.

5. Statement shewing the number of Tanks which received full, and partial supplies of water during the fusly, compared with the previous.-

Of

6- 1st. Of the different kinds of small dry grain sown on dry lands, Corraloo, Arakaloo, Ragooloo, and bullers, sown in Cumbum Talook, yielded a good return- In some places the said crops, and Sujjaloo, green gram, Tomaloo or millet, and Bengal gram &c. were partially injured by draught, insects and blight, however they produced at 1/16- 1/2 and 3/4 of a full crop- The average of the whole dry harvest of the Division may be stated at 9 1/2 16 of a full crop-

2 dly Sujjaloo, Tomaloo, Chillies, Tobacco, Indigo &c. depending on wells, and which were sown in Carteekum or 1st Crop, Ragooloo, Palapoojomaloo, and Corraloo, which were sown in Vysakhum or 2d Crop in Budwail Talook, yielded in some places, a good return. Sujjaloo, Tomaloo &c. sown in Carteekum in Cumbum were injured by an excess of rain at the time when the Crop was coming into ear, a full crop therefore was not produced while Ragooloo, Tobacco, and Corraloo of the 2d Crop yielded a good return- In Doopaud Talook, Chillies and Tobacco suffered from blight but Ragooloo of the 1st and 2d Crops produced abundantly.

abundantly- The average amount of produce may be estimated at 15 4/16 of a full crop-

3 dly The crops dependent upon Nullahs, were abundant in many places.- In others, they were injured by blight.- The whole produce may be estimated at 15/16 of the full crop.-

4 thly In some places Sugar Cane, Turmerick, Betel, Indigo, and the Sumbhava rice, depending upon Tanks, produced a favorable return, whilst some crops in Budwail Talook suffered much for want of rain and from blight, Sujjaloo and Corraloo sown in wet lands in Cumbum and Doopaud Talooks suffered much from esceps of rain - The whole produce may be stated at 11 3/4 16 of a full crop- The whole discriptions of grain throughout the Division may be estimated at 13/16 of the full crop, the same as in the preceding year-

7- Statement shewing the prices of the different kinds of grain compared with the five previous years-

The

3311

Fort St. George 4th March 1852.

8.

The decrease in the Revenue of Indigo is considerable to be lamented, and the small demand manufacture, and the unfavourable for exportation. The increase in the Prices of all Kinds of Grain, was occasioned by a full crop not being produced, and a smaller importation of them from Bengal than usual.

9.

The season was not entirely favourable to the Cultivation and Cattle. Manufacture of Indigo.

The annual Tax on the Cattle employed in Agriculture, is levied from distressed Ryots and their cattle from diseases.

There

Fort St. George 4th March 1852

11- There is an increase in the land agreed for in the present, above the previous Fusly, of Acres 3,372, assessed at Rupees 2,702-7-4, the Ryots having agreed for a great extent of waste land out of Ayacut Punjer. The increase of Rupees 1082-11-11 in Feerasajasty is owing to a great many tanks in Cumbum and Doopaud having received more water than in the preceding fusly, and consequently into wet and garden land, the increase of Rupees 1,932-6-4 in Fusilyjasty in Cumbum Talook and Rupees 186-13-6 in Doopaud Talook, this cause, the decrease of Rupees 1,747-10-11 in Fusulyjasty in Budwail Talook, is on account of the deficient supply of water in the Tanks which leaves a net increase of Rupees 371-8-11 in the Division.

12- There is an increase of Rupees 3,383-13-11 in net Cabooliaty in Cumbum Talook and Rupees 1,743-3-3 in Doopaud, but though there is an increase under some heads in Budwail Talook yet the decrease of Rupees 1,747-10-11 in Fusuljasty leaves a net decrease of Rupees 970-5-11 in that Talook. The net amount of increase in Cabooliaty in the 3 Talooks is Rupees 4,156-11-3.

13- The increase of 147 acres in black soil, and decrease of Rupees 3-2-7 in its assessment was owing to the higher assessed dry lands being charged with

× Waste land not before taken up
× Extra tax for Govt. water.
× Extra crop raised on 1 Crop wet land
× Land agreed for

Fort St. George 4th March 1852

× Crop raised by means of Irrigation

with Feerasajasty, and entered under the head of Keeraarumbhum, and in its place dry land of lower assessment being agreed for-

14- The amount of remission granted in the preceding fusly was Rupees 50,688-11-6 under the head of numbers of land left wholly waste, and in the current fusly Rupees 51,874-2-3 leaving a net increase of Rupees 1,185-6-9. Explanation of this increase- In some places dry lands were not sown in consequence of there being insufficient rain at the cultivating season, some of the Tanks in Doopaud Talook were breached by the heavy rain on the 25th and 26th October, and in the commencement of November, and the Dorovoo- wells situated on the Goondlacummah and Teegalair rivers, having been out of repair, the lands under them were left uncultivated. The dry and garden lands in the bed of the Cumbum large Tank were left waste in consequence of there being water of the preceding fusly. By the failure of rain in Budwail Talook a diminution in the whole cultivation took place Consequently the remission of Rupees 8479-14-1 above the preceding fusly was granted on all but wet cultivation. From the favourable nature of the season in Doopaud Talook, extensive wet cultivation was carried on, there therefore appears a decrease of Rupees 7,294-7-4 under the latter head as compared with the preceding year

15- Statement shewing the Tookvoorazee or lands sown in comparison with the preceding fusly-

There

3317

Fort St. George 4th March 1852.

16- There is an increase of Rupees 7,072-14-4 in wet land sown, and in Teeruvaram and Pusulgasty and decrease of Rupees 8517-4-6 in dry, gardeen, and Poonjasa lands leaving a net decrease of Rupees 1,444-6-2-

x Gardeen land depending in Tanks

17- The above decrease of Rupees 8517-4-6 in the lands sown is to be ascribed to all the reasons assigned in para 14, and to the poverty death and desertion of ryots, and also to loss amongst the Cattle and to the neglect of some of the ryots of Cumbum Talook to sow the wet lands, though the tanks received a sufficient supply of water, but an increase of Rupees 7,072-14-4 in Cumbum and Doopaud Talooks, in wet land, and in Teeruvajasty and Pusulgasty by the favorable rains, and extensive cultivation leaves a net decrease of Rupees 1,444-6-2.

18- With to reference to the decrease in Poorvomrajee of Rupees 1,487-9-" in black soil, Rupees 366-3-6 in mixed soil, and Rupees 2,705-15-4 under wells and increase of Rupees 6,385-15-" in the lands dependent upon Tanks, the reasons given in the preceding para are applicable.

19- The increase in acres, and decrease in assessment, in red soil under the head of Caudarumbhum and increase in assessment, and decrease in acres, in the lands depending upon Nullahs, are attributable to the diminished cultivation of the superior description of red soil in Cumbum Talook, and the extensive cultivation of the aforesaid lands at a lower rate in Doopaud and Budwail Talooks, and in the latter case owing to some wet lands in Cumbum Talook being cultivated with two crops, and some lands of that description being left entirely waste-

x Dry land

20- The annexed Statement exhibits the remission granted in the Fusly under review compared with that of the preceding one-

Fusly

3318

Comparison

Fusly 1260 — Increase / Decrease

| | | |

Fort St. George 4th March 1852.

× Part of the numbers of land being left waste

21. In Shaumelatheny jer when there is some waste land fit for cultivation, and some the reverse, remissions of Rupees 1676-7-8 above the preceding fusly were granted, in the former case in consequence of there being no rain at the early part of the season, and of a great extent of land having been left waste, on account of the poverty, death, and desertion of the ryots, as stated in paras 14 and 17.

22. With reference to the loss of crops in

Fort St. George 4th March 1852.

in Budwail Taloork, the extensive lands, depending upon Tanks, in Gopauarum, were sown in hope of rain, but by its failure, the crops having been destroyed, a remission of Rupees 613-3-0 was granted whilst in Doopaud Taloork, from insufficient rain at the commencement of the season, the crops perished before they could be benefitted by the later fall, Rupees 100-7-0 was remitted, total amounting to Rupees 713-10-0 above the preceding fusly, but in Cumbum Taloork the decrease of Rupees 47-2-3 being deducted, leaves a net increase of Rupees 666-7-9.

23. A piece of land being planted with a Tope in Veerlapally in Budwail Taloork for Charitable purposes, a remission of annas 13-1 above the preceding fusly, was granted, according to Circular Order of the Board of Revenue

24. Established remission of Rupees 745-15-5, casual remission 884-8-1, and Teerma Cummee 24-8-, total amounting to Rupees 1654-15-6, above the former fusly, are ascribable to the more extensive cultivation of lands on which the said remissions are granted.

25. The decrease of Rupees 24-13-6 under

*Waste land taken up

under the head of Bunjer cowle, is on account of the expiration of the time fixed in the Cowles.

26. With reference to the decrease of Rupees 3,915-5-4 under the head of Pauneebooddy or crops flooded and Poyamaly or crops washed away of the Sown Lands of Cumbum and Doopaud Talooks, which were overflowed and destroyed in the preceding fusly, some having been Sown, and some left waste in the Current fusly, an amount of remission of Rupees 5,603-12-0 less than the preceding fusly is given, but in Doopaud Talook not only did the heavy rains in the end of October flood the crops in the bed of Tanks and reservoirs, but also the Goondlacummah &c. rivers washed away the dry crops, and those in garden lands, depending upon Doroovoo wells; consequently a remission of Rupees 1,688-7-0 was granted above the preceding fusly, leaving a net decrease of Rs. 3,915-5-4.

*Land found to be less than in the Survey Accounts.-

27. The decrease of Rupees 63-14-5 in the Pynaeish Cummee is attributable to the lands, on which remission of that description is granted, remaining uncultivated.

28. The following statement exhibits the gross assessment, the different remissions, and net Beriz for fusly 1260 in comparison with the preceding year fusly

	Fusly 1259.	Fusly 1260.	Comparison. Increase	Comparison. Decrease

† Differential tax imposed on a ryot cultivating Enam Land.

29 The decrease of Rupees 100-1-8 under the head of †Enamaty Tapeeck, and increase of Rupees 4123-3-5 in all other heads, leave a net increase of Rupees 4023-1-9 including which the whole revenue of the Division is Rupees 360844-13-2.

30. In Cumbum Talook there is an increase of Rupees 617-10-7 under the head of Tookromrazee, in consequence of some of the lands flooded and destroyed in the preceding fusly, being sown in the current year. In Doopaud Talook the increase of Rupees 3191-12-2 is from the good season and extended cultivation, total amounting to Rupees 3809-6-1. In Budwail Talook the decrease of Rupees 2980-15-5 leaves a net increase of Rupees 828-7-4.

31. The increase of Rupees 2148-2-1, under the head of Waste land paying tax, was owing to no remissions having been made to such ryots as left the land waste when there was sufficient water in the Tanks, and who cultivated the profitable dry lands &c. and left the unprofitable land waste without proper cause.

32. There is an increase of Rupees 382-15-3 under the head of Tanekejasty, or concealed cultivation

cultivation owing to the discovery of the lands concealed by the Villagers, and to the collection of wet land for the 2d crop after the Summabundy.

33. There is an increase of Rupees 424-12-11 under the head of Sodee or Zuit rent, on account of the extensive cultivation of the lands, on which exctra quit rent is levied.

34. There is an increase of Rupees 338-13-10 above the preceding fusly under the head of Enamaty Seermajasty and Neeroodsareghee on account of a greater extent of dry land being converted into wet and garden land, and of the use of the water of Tanks and Nallahs in the garden and wet lands of Enams.

1 Enam Land raised to a higher class by Circumstances
2 Simple Tax for Ditto Ditto.

35. There is a decrease of Rupees 100-1-8 under the head of Enamaty Tapeeck on account of Enams formerly cultivated by Ryots in the preceding fusly being cultivated by the Enamdars themselves in the current year, and some Enam lands being left uncultivated.

36. The following statement exhibits the different items of increase and decrease in each Talook compared with the preceding fusly and the centage of the same.

Talooks

N.	Talooks.	Fusly 1259.	Fusly 1260.	Comparison Increase	Comparison Decrease	Centage for 3-5 and 6 Columns.

45 The large outstanding balance in the Talook of Budwail up to the end of October is owing to the rate of Sodee or Quit rent which is higher in this than in the other Talooks to a dificient produce and the poverty Vizt of the Enamdars and Ryots. consequently the said balances were not collected at the proper time.-

46 The amount of Rupees 252 8 3 under the head of Be-ommaid or irrecoverable Vizt cannot be collected, on account of the poverty Vizt of the ryots. The amount under other heads, being undisputed will be strictly collected

The

47. The subjoined Statement exhibits the details of arrears outstanding in the Sub Di-vision from fusly 1257 to 1259.-

48 Strict attention will be paid to the re-covery of the amount of Rupees 526 6 3 under the head of Oommaid or recoverable.-

49. 1st One Chenchooramunnah a Missul reddy and Curnum of some villages in Budwail Talook, brought a claim of Rupees 510, as having been paid by him on account of Revenue, to the late Tahsildar Bhaskerrow. Of which amount Mr. Murray, the late Sub Collector reported to the Board of Revenue his opinion that Rupees 50 had been paid by Chenchooramunnah as a bribe to the Tahsildar

therefore

therefore that this amount should be collected from the late Tahsildar. The Board however did not concur in considering that there was proof of the payment of the sum, which therefore remains to be collected from Chenchooramunnah. On a strict demand the said Cumum executed an agreement for the payment of Rupees 510. by instalments, and so paid Rs 107-10-3, but has failed to discharge the balance. He has no property whatever but some puttah lands. Strict orders were issued to the Tahsildar for the recovery of the balance, yet as it is not known whether it can be finally recovered or not, the remaining sum of Rupees 402-5-9, is entered under the head of Doubtful

2 dly. The amount of Rupees 18-14-3 outstanding against one Basireddy a ryot in the Village of Singumpully in Cumbum Talook is also entered under the head of Doubtful because he has no property except the proceeds of Dasavundum sum, and the case is still under enquiry.-

The

50 The amount of Rupees 425-1-11. entered under the head of Be-oommaid is to be ascribed to the death, desertion and poverty of the Ryots and is recommended to be written off the accounts, with the sanction of the Board of Revenue.-

51. The annexed Statement exhibits the particulars of the extent and assessment of the lands cultivated with Indigo and cotton in the Circar and Enam lands, compared with the preceding year, and the centage of the same.-

The

Fort St. George 4th March 1852.

52. The increase of acres 577 (3876 — 2) in Cumbum Taluk, and acres 134 (646 — 5 — 8) in Doopaud Taluk, in the cultivation of Indigo, is ascribable to the recent construction of Vats by Merchants Vm and to the repayments of advances made by them to Ryots, for the culture of Indigo, a crop which is advantageous to the ryots by its earlier maturity, less laborious culture, and the receipts from its sale enabling them to discharge the Government demand, upon their other lands. In Budwail Taluk the decrease of acres 501 (3240 — 3 9) is owing to a failure of the seasonable rains.

53. The increase of acres 1073 (1716 — 13 — 10) in the cultivation of Cotton, is to be attributed to the now-importation of this article into this Division, leading to the production of a supply adequate to the local demand, and to the accidental circumstance of its more extensive cultivation as a rotation crop, it may be noticed that owing to the exhausting nature of this produce, and the consequent deterioration of the crop, the ryots are not in the habit of sowing it perennially on the same lands.

54. The annexed Statement exhibits the extent and assessment of land applied to the cultivation

of

Fort St. George 4th March 1852.

of Sugar cane in the Fusly under review, compared with the preceding years.

		Fusly 1259.				Fusly 1260.			
		Land	assessment			Land	assessment		
1	Cumbum	84	1516	4	8	151	2,758	11	6
2	Doopaud	4	65	15	-	4	64	12	5
3	Budwail	42	665	14	11	78	1,261	3	11
	Total	130	2,248	2	7	233	4,084	11	10
	Net Increases	"	"	"		103	1,836	9	3

55. In Carteekum (1st Crop) of the preceding fusly the an insufficiency of water for the irrigation of the cane, led to the cultivation of other produce in its stead, the fuller supply of water, at a later period, could not therefore advantageously affect this plant. The reverse being the case during the present Fusly, a greater extent of Land was cultivated with Sugar cane and consequently there is an increase of acres 67 (1242 — 6 — 10). In Budwail Taluk, Sugar Cane is some times cultivated under wells situated in wet and Garden lands, particularly when there is an insufficiency of water for the proper irrigation of other produce, which has been the case in the Fusly under review, and is the cause of the increase of

acres.

acres 36/595-5-1/ under this head.

56. A detailed account in the form annexed to the Circular letter from the Board of Revenue dated 8th October 1849 exhibiting the several items comprizing the Sey of Inumah has been prepared and forwarded.

Strict

57 Strict attention will be paid to the recovery of the amount of Rupees 3,729-"-6 under the head of recoverable.

58. Mr. Murray the late Sub Collector stated the reasons, in para 49 of the Jamabundy report of last Fusly, of the difficulty in collecting the amount entered under the head of irrecoverable these reasons still exist, and the amount of Rupees 13,005-1-5 under that head awaits the sanction of the Board of Revenue to be written off.

59. From experience of my acting Sheristadar Narrainu Row in the capacities of Head Mooneshee and Tahsildar, since my arrival in this District and my recent short acquaintance with his services as Sheristadar, I have reason to think that he will conduct the duties of his present situation with zeal and ability.

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George

Bd. No. 207

From the Collr. of Salem

Sir,

1. Adverting to the proceedings of your Board dated the 8th Ultimo authorizing the sale on the 26th idem of certain lands belonging to one Pulla Nyman a renuence defaulter of Talook Trichengode, I have the honor to state that in consequence of the prevalence of Cholera at Yalour, where your Board had directed the sale to take place, the lands in question were on the report of the acting Sub Collector dated the 20th Ultimo, put up to auction by that Officer at Mr Donald's Poultry in the Trinchengode Talook, after notice of the intended change had been duly given to the people of the former Village. I have to add that of the two fields sequestered, only one was bid for and purchased and that the other, owing to the absence of competition, has reverted to Government at the upset price Viz. one Rupee.

2. I beg to enclose a Statement shewing the particulars of the lands &c. and request your Board's sanction for the sale reported.

No. 10.

To W. H. Bayley Esqre
Secretary to the
Board of Revenue
Fort St. George.

(21)

Bd. No. 395.

From the Adg. Collr of Tanjore in Fusly 1253.

Sir,

I have the honor to state that No. 2-30 of Puddagay land in the Coleroon was cultivated in Seepaly over Coottalum Taloke and the yearly tax of Rs. a. p. 2-4-6 (levied thereon from Fusly 1253 to 1256) has been carried to the Sevoy Jumma Account under the erroneous impression that the land belonged to Tanjore.

But after some correspondence with the Collector of South Arcot the error was detected and the tax was struck out of the Tanjore Accounts subsequent to Fusly 1256.

Thus as the tax of the said land Rs. a. p. 2-4-6 has been levied for 4 years (ie from 1253 to 1256) in Tanjore and South Arcot - I have the honor to request sanction for writing off the sum of Rs. a. p. 9-2- from the Sevoy Jumma Accounts and returning it

3346 Fort St. George 4th March 1852.

it to the Ryots from whom it has been improperly collected.

Tanjore 11th February 1852. (Signed) T. W. Goodwyn
Acting Collector of Tanjore

Ordered that the foregoing letter be submitted with the following address.
No. 82.

To the Chief Sec. to Government

Sir,

I am directed by the Board of Revenue to forward for the orders of the Right Honorable the Governor in Council a letter from the Acting Collector of Tanjore, requesting sanction for writing off Rupees 9-2- in the Sevoy Jumma Accounts of his District, being the Amount of tax levied from Fusly 1253 to 1256, on certain Puddegay land on the bank of Coleroon, on which an equal Amount of tax was levied in the South Arcot District also for the same period.

The Board recommend that the sanction sought for by Mr. Goodwyn may be granted.

Bd. No. 398
From the Ag. Collr.
of Tanjore

Sir,

I- In reply to Extract from the Proceedings of the Board of Revenue dated the 20th November last I have the honor to state that my application on behalf of Soobramania Tumberan was made under para 2 of the Tope rules P. 443.

This individual has erected a Choultry Costing 1600 Rs for the accommodation of travellers on a frequented road and for public utility and convenience as well as in endowment thereof has planted a Tope on adjacent Seigal land and has agreed to make up the tax thereon 6-5-2 by cultivating other waste land. Unfortunately however, being unaware of the necessity under Tope Rule I P 443 of first communicating with the local European Revenue authorities and obtaining their sanction for planting this Tope, he has neglected so to do and consequently according to the strict tenor of Rule I his Plantation should be liable to be taxed at the rate chargeable for Private Topes, but in consideration of the expense he has voluntarily undertaken in building his Choultry &c. and of his taking up other land equivalent to the tax on the Seigal, I trust that his case will meet with liberal consideration and that the ground be permitted to be entered as rent free &c. under Rule II.

(Signed) T. W. Goodwyn
Ag Collector.

W. Gorlis 16-58½

Tanjore 11th February 1852

Bd. No. 425- Proceedings thereon- The Acting Collector will report whether Soobramanias Tumberans Tope has been planted on waste or Sheical land, and whether the plantation was formed before or after the issue of the Rules of 6th April 1848. He will likewise furnish a plan of the Building marking off the extent of accommodation which it affords to the various Classes of Travellers.

Bd. No. 505
From the Collector
of Madura

Sir,

I have the honor to transmit translate of a Plaint preferred by certain Brahmin Ryots of the Village of Athoor in the Tandicombo Talook of the Sub division of this District against certain Mahomedan Ryots of the same Village and the Sub Collector as supplemental Defendant, with the draft of an Answer prepared by the Sub Collector and Copy of his letter forwarding the same to me.-

2 The letter renders it unnecessary for me to do more than to express my opinion that Mr. Clarke's answer is not only most satisfactory but forms also a valuable disquisition on the great question of Meerassy right. and I have the honor to request sanction for the defence. being conducted at the public expense.-

It is unfortunate as regards time for putting in the defence, that

Fort St. George 4th. March 1852.

that I should have only received the draft on Sunday 15th. at Poodoocottah, and having no writer with me, must send the Papers to Madura to be Copied; but I will present a Motion to the Court, explaining the Circumstances and requesting an extension of 6 weeks.—

Madura,
Poodoocotay,
16th. February, 1852.

Signed R. D. Parker
Collector

No. 1.

Translate of a Plaint preferred in O.S. No. 9 of 1850 on the file of the Subordinate Court at Madura by Shamiaun Vakeel on behalf of

Plaintiffs

Sobaroyasastry,[1] Sanapathiah,[2] Vengadakistnin,[3] Sorbarya[4] Iyen, Anunthein,[5] Sevaromien[6] Sevaromavathaney,[7] of Akloor in Tandicombo, Streeneevassien[8] gar of Madura, Lekhmyummaul guardian and mother of Sadaseviena Minor,[9] Sobum maul widow of Ponatha[10] voodoo Iyen, Romasvbien and Cawder Mohedeen Rowthen[11] of the Said Akloor—

Defendants

Meerahorssain Lebby[1]
Mahomed Pathen Ummaul[2] guardian and mother of Amavasel powthen, Peer[3] Mahomed Rowthen, Nelly[4] Coondel powthen, Caulee[5] Mahomed Saib powthen,[6] Cawder Meeralebby,[7] Syed appahawder Meerah Lebby[8] Mahomed Cavah,[9] Pullos Nynar, Hoossain Meerah[10] Lebbay, Syed Lebbay[11] powthen, Cranieevaibo[12] alias Mohomed meerah Lebbay[13] powthen and Vengadasawmy[14] Naiken of Sotteencottay hamlet of the Said Akloor Village—

This

Fort St. George 4th. March 1852.

This is an action praying for a Decree for recovery from the Defendants of 23 5/16 Goolies of Mulgoozary Nunjah, the ancestral property of the Plaintiffs forming part of their Kurray lands and yielding an annual income of Rupees 268-3-11 and taxed at Rupees 61-12-3 unjustly taken possession of by the Defendants; for issue of Puttahs by the Cirkar in the names of the Plaintiffs according to Custom, instead of in the names of the 1st. and the husband of the 2nd. Defendants as newly obtained them; and for recovery from them of Rupees 523-3-1 being loss of produce for 5 years.—

The entire Village of Akloor according to its Calapramanamvor Survey accounts Consisting of 20 Kurrays of Nunjah and Ponjah Vca. lands Subdivided into 80 principal or 160 Minor Pungoos or Shares together with its Tank and Channel and also 80 House grounds situated within its boundary were granted in donation to the ancestors of the Plaintiffs from 1 to 11 and Certain others by Rogambah one of the former Carnatic Rulers of the Country to be held by them hereditarily but subject to the payment of tax to Government. From that time forward down to the Mohomedan Government they enjoyed them by hereditary succession with power of making

making alienations by sale &c. and with entry of their names in the accounts according to the Custom of those days. Ever since Honorable Company took possession of the Country the grantees as well as the Plffs: &c. have held possession of the Village with the same previlege and with Puttahs in their names from the Fysul year 1212. The 12th Plff: who had since purchased Certain quantity of the land also continues to hold it in the same manner.—

2. From a long time since the Village came under the occupancy of the Plffs: ancestors, extensive repairs have been made by them at the expence of a vast sum of money and Cultivation made, classing them as Kurray lands in proportion to the supply of water received each year, with the benefit of remission of tax by Government on Monipidy on short produce and withered crops but in consequance of the prevalence of an eruptive fever and Diarrhoa to men and Cattle respectively for 4 years from 1838 to 1841 an immense number of men and Cattle lost their lives as

as may be seen from the monthly accounts of Casualty on the public records, notwithstanding the pains taken by the native Doctor deputed by the Cirkar to restore them to health— Moreover many inhabitants emigrated to other Villages for refuge, a Circumstance duly brought to the notice of the Board of Revenue by the Collector of the District.—

3 Two of the Defendants all of whom are of a different religion from that of the Plffs: and who were residents of Sethiencottay, hamlet of the above Village and who, are long standing enemies to the Mahajanoms of that Village, Viz: the 1st. and the husband of the 2nd. Defendants taking advantage of certain lands in the Village having been left waste owing to the accidental circumstances above stated gained over the Tahsildar of the Taluk by some fraudulent means or other and obtained from him an allotment of 42 12 3/4 / 16 goolies out of the waste lands in the Village, and got him to write an Arzee to the Hoozoor at an unseasonable period of the year stating that they require lands for Cultivation, which should be granted them by the Cirkar

in

Fort St. George 4th. March 1852.

in Cowle. This request of the Tahsildar was complied with, and the Plffs: being informed that under orders from the Tahsildar the lands in question were entered in the periodical accounts of Cultivation for Fusly 1253 A.D. 1843 in the names of the above Defendants and subsequently that attempts were made by the 1st. and the Husband of the 2nd. Defendant to have Puttahs made out in their names for the same, presented a Petition to the Sub Collector under date the 24th. May 1844. Stating that the above mentioned Defendants who had undertaken to cultivate the lands in question had left them fallow and had resolved to pay the tax for the purpose of securing them possession thereof, and pointing out the impropriety of giving the lands for Cultivation to the Musselmen who had nothing to do with it or making out puttahs in their names inasmuch as the land in question appertains to their Kurrays; but the Petition met with no success. The Plffs: thereupon appealed to the Principal Collector under date the 7th. October 1844. setting forth the above particulars and adding that the Village

Fort St. George 4th. March 1852.

Village being erroneously treated as Pundaravaday, puttahs were illegally issued to the Defendants without their, Plffs: consent for waste lands appertaining to their Kurrays which had been left fallow for reasons shewn in para 2 of the Plaints; and requesting that the original proceedings should be reversed and they (Plffs:) allowed to Cultivate the land for Fusly 1254. It was endorsed on the 14th. Idem to the effect that if Petitioners were willing to give a Paramanah agreeing to pay tax whether they Cultivate the lands or not, they should represent the matter to the Sub Collector and produce his endorsement and that any delay on their part cannot be allowed to be twisted into a plea that the cultivation season was over.

On the 19th. of that month the Plffs: presented a petition to the Sub Collector submitting the endorsement of the principal Collector and expressing their readiness to

Fort St. George 4th March 1852.

to give a Karnamah agreeing to pay tax whether they Cultivated the waste lands or not, and received an endorsement under date the 29th Ulto refusing to grant their re-quest on the ground of their having been given last year /1253/ to the Musselmen for cultivation and puttahs issued to and tax paid by them, and adding that the land could not be given to others it being Cultivated by the 1st and the husband of the 2nd Defendants for the current Fusly 1254 and that should they leave them waste in toto the matter would be taken into consideration.-

On the 30th of that month the Plffs renewed their appeal to the Principal Collector submitting the above endorsement and requested that an order should be issued to the Tahsildar direct with reference to his endorsement referred to.- Her endorsed

Fort St. George 4th March 1852.

endorsed it on the 15th November simply stating without particulars that a letter had been sent to the Sub Collector on the subject and referring the Petitioners to that authority for decision in the matter.-

In conformity with this order the Plffs renewed their petition to the Sub Collector on the 9th February 1845 who issued no orders thereupon to the present date but made a report to the Principal Collector shewing some groundless objection or other and then directed that out of the Cowle lands in question 1 7¾/16 Goolies should be made over to Vencatasawmy Naik, a Pensioned Subadar and 2 2/16 Goolies to one Romasawmien on the ground of their having obtained them on mortgage tenure from the 1st and the husband of the 2nd Defendants or to give them an equivalent in the Poonjah lands converted into punjah which lie waste and form part of the Kurray lands

Fort St. George 4th March 1852.

lands of the Village. The Sub Collector further endeavoured to issue puttahs in their names for the same in Fusly 1254 under date the 10th May 1843 but the Plffs: complained of it to the Principal Collector and requested that the Puttah should be made out in their own names and received an endorsement under date the 23d Idem declining to give any further orders on the subject for after writing a letter to and receiving an answer from the Sub. Collector he has informed that authority under date the 22nd March of that year that he should act in this case on his own responsibility. Again on the 7th August of that year the Plffs: presented a Petition to the Principal Collector which met with an order conformable to the one of the 23d May above alluded to.

7. The Petitioners thereupon addressed a Petition to the Board of Revenue on the 20th September of that year Submitting the above orders which was returned with an Endorsement dated

Fort St. George 4th March 1852.

dated 21st March 1846 referring them to the Principal Collector's orders dated 8th August and 14th October 1845.

The Petitioners brought

8. their case again before the Principal Collector when in charge of the Sub Division in connection with the endorsement of the Board of Revenue who thereon issued an unjust order under date 3d July 1846 to the Tahsildar of the Taluk fully opposed to his former ones stating that if the lands in question were waste from a period prior to Fusly 1247 the 1st and the husband of the 2nd Defendants were entitled to continue possession to exclusion of any title to the Plaintiffs and that if they were waste from Fusly 1247 the Plaintiffs had a right to them as appertaining to their Kurray lands.

Thereupon the Moozoomdar of

9. Pandicomboo Taluk who was then doing duty for the Tahsildar after inspection of the proceedings in the matter obtained a Kararnamah from the 2d Plaintiff

binding

binding to pay the tax on the whole 42 12/16 Coolies for Fusly 1256 whether Cultivated or left fallow and issue an order to the Nattamagar and Curnom of the Village under date the 1st September of that year to let the land be Cultivated by the Mahajanoms and their names entered in the Tavanay and other accounts, reporting the result for his information. In accordance with this order the lands in question were entered in the names of the Mahajanoms in the Tavanay and other accounts of Fusly 1256/1845 and the whole tax paid and stamp receipts obtained by the Plffs.

10. Meantime the Musselmen addressed a fradulent Petition to the Board of Revenue which was referred to the Principal Collector for enquiry and disposal who on careful inspection of the same together with the previous Petition of the Plaintiffs and the English Correspondence on the subject passed an endorsement under date the 15th Decr. 1846 stating that there was considerable extent of waste land fit for Nunjah Cultivation in the Defendants Village from Fusly 1253 -

DF

that

that the interference of the Mussulmen with the Bramins Village was improper. that taking into consideration the circumstance of the considerable reduction of men and cattle owing to the late dreadful event in the Village and the fact of an extensive land having been left waste in consequence he thinks it advisable to direct the Mussulmen to cultivate the waste lands in their own Village if they wish it and that the lands in question should be restored to the Bramins from Fusly 1250 if they undertake to pay the tax thereon -

11 On a fraudulent complaint of the 5th and the husband of the 2d Defendants to the Sub Collector accusing the Plaintiffs Wife of an attempt at carrying away the produce of Fusly 1254 of lands for which Puttah was made out in their names an order was issued by that authority on the 22d January 1847. to hold the produce of the 42 12 3/4/16 Coolies of land in dispute, which was done. Thereupon the Sub Collector addressed a letter to the Acting Principal Collector on the subject and has received an answer under date the 11th May 1847 - stating that the instructions contained in his (the Principal Collectors) order dated 3d July 1846 should be carried into effect Afterwards an order was issued by the Tahsildar with reference to one received by him from the Hoozoor under date the 16th July 1846 stating

that

that of the 43 12 3/10 Goolies of land under litigation 19 6 1/2 Goolies should be put in posession of the Plaintiffs &c and the remainder 23 6/10 in that of the Mussulmen and directing that the produce in deposite should be delivered to the respective parties and first realized from them accordingly.

12 Before passing the above order the Sub Collector verbally intimated to the Plaintiffs his intention of giving such an order: But the Plaintiffs in anticipation preferred an appeal to the Collector under date the 9th July showing reasons for seeming to them posession of the whole 43 12 3/4 10 Goolies of land in dispute, but without success. The Plaintiffs thereupon renewed their appeal to the Collector under date the 17th Idem. On the same day the Sub Collector was requested to state what had passed in reference to the order of the late Principal Collector on the subject of the dispute between the Plaintiffs and Defendants. To a further appeal made by the Plaintiffs to the Collector under date the 5th August of the same year an order was issued by that authority under date the 17th November following confirming the order of the Sub Collector as conformable to a previous one of the Principal Collector, and cancelling that of the Moozumdar.

13 The Collector who gave such an indorsement gave also a verbal order that he would write to the Sub Collector to say that from the English correspondence and orders passed prior and subsequent to the order of the 3d July 1850 he was of opinion that the Plaintiffs

Plaintiffs &c Brahmins were entitled to exclusive &c possession and to request that authority to inform him under whose occupancy were the 73 6 1/2 10 Goolies of land in the current Fusly independent of the land of which the Plaintiffs &c Brahmins were put in possession under the order of the 3d July above referred to and directed the Plaintiffs &c to appear before that authority Meantime the Sahsildar of the Talook obtained and forwarded all the indorsements and other papers from the Plaintiffs &c he having received orders from the Sub Collector to transmit them to him for the purpose of deciding the question &c himself. and also directed them to go and appear &c before the Sub Collector which they obeyed, and waited for 4 or 5 Months Meanwhile that Gentleman proceeded to Europe on furlough without &c making any settlement and without even &c returning their papers.

14 Several Urzees were addressed to his successor and with great difficulty the Plaintiffs were able to get their papers back in November 1849 date not recollected, but not any order on the subject.

15 The ancestors of the Brahmin Plaintiffs [the 12th accepted] obtained lands in donation from the ancient Rulers of the country and have held them during the Carnatic and Mussulman Governments, and also from the time of the

the assumption of the Country by the Honorable Company with power of making alienations by sale &c. The pleader of inability (from drought) on the part of the Mahajanams to cultivate the Nunjah and Ponjah lands which have been held and enjoyed by them as above stated and which appertain to the Nuseys of the Village could not constitute a ample cause to transfer them to the Ryots of other Villages without their consent - notwithstanding their long & continued objections against it - The acts of the Sub Collector to the contrary in this respect, and the issue of Puttahs in the names of the 1st and the husband of the 2d Defendants were therefore inconsistent with justice -

16. Upon the demise of the 2d Defendants' husband in 1818 ninth and Late not known his heir, the 2d Defendant sued in No. 117 of 1849. in the file of the District Moonsiff of Sheroopatengoondom for recovery from Meekanaiah ramettan cultivator of 1 Chey of land of Stull No. 1358 called Mradady consisting of 5 10/16 Goolies and forming part of the 42 12 1/2/16 Goolies aforesaid notwithstanding a part of the former Viz. 3 1/2 Goolies form part of the 19 7/16 Goolies transferred to the occupation of the Plaintiffs by order of the Collector - The suit was referred to the Sudr Ameen's Court where it was filed in No. 132. of that year and the usual notice issued - Whereupon the 5th Plaintiff presented a Petition under date the 7th July 1849

Shewing

Shewing the rights of the Plaintiffs to the above lands and the circumstance of the 3 1/2 having been transferred to them by the Collector and adding that both parties in that Suit had nothing to do with them and proved the same by evidence parole and documentary, and the Suit was then dismissed as a fraudulent one and no appeal was preferred against it -

17. Although the Defendants got the Revenue authorities to issue such an order as in the case of a Pundaravaddy Village without enquiring as to which of the parties had a right to the land in question and to the fact of the land appertaining to the Nuseys of the Mahajanams or without even obtaining the necessary Razeenamah from the Nuseydars; Yet it would seem to be of no avail from the Spirit of the Circular order of the Sudr Adalut dated the 17th September 1832 which declares "that "the act of obtaining a Register or Puttah "from the Collector should be invalid "as respects the Government - that a "possession of such a document will "not constitute a right to the holder, "that the absence of a Registry or "Puttah will not invalidate a legal "right - that the Revenue authorities are "not vested with the power of "determining the propriety or otherwise "of making a Register, and that "the power of enquiring into "proprietary rights is exclusively vested

in

"in the Civil Courts" and though in the present case the 1st and the husband of the 2d Defendants procured a Puttah in their names by some fraudulent means or other it cannot however be considered of any weight by a Court of Law who pass their decisions after a full investigation of rights and titles, since it is the effect of orders passed by the Revenue authorities who have no power of interference in it. The parties who took a lively interest in procuring such orders being the 1st and the husband of the 2d Defendants the Officers of the Government do not seem to have any concern in it. The Plaintiffs therefore brought this suit against them and also against the other Defendants the lands in question being cultivated by them and the produce enjoyed in common for recovery of the above mentioned land appertaining to the Shrotrium of the Plaintiffs and of its net produce being the Land holders mailwaram share, after deducting the

Sirkar paid to the Circar for Fasli's $\frac{1254}{1844}$ to $\frac{1258}{1848}$ and the cultivators share for and for an injunction that Puttahs may be made out in their (Plaintiffs') names for the land in question instead of in the names of the 1st and the husband of the 2d Defendants as newly obtained by them.

Abstract of particulars to be procured from the Defendants.

23.

23 6/16 Coolies of Nunjah land situated within the boundaries described in the original praying an annual tax to Government of Rupees 61-12-3 together with Rupees 523-3-1 being the Net income of the land in question for the 5 years from Fusly 1234 to 1238 also specified in the original.-

No 2

Draft of answer in Original Suit No 9 of 1850 in the file of the Subordinate Court of Madura.

1 This suit has been brought to recover possession of 23 6/16 Coolies of Nunjai land of which the Plaintiffs allege they were deprived by an order passed on the 3d July 1848 by the late Principal Collector Mr Blackburne, while in charge of the Sub Division together with Rupees 523-3-1 the produce of the same land for 5 years.

2 The Plaintiffs claim this land as the hereditary Rania land of an Agrahar Vadakai Village bestowed on their ancestors by a Hindoo Prince of the name of Raganambah.

3 The Supplemental Defendant trusts the Plaintiffs will be called on to establish the fact of this gift; at present it is assumed without the least title of proof and is evidently fabulous or at best rests on vague traditionary report unsusceptible alike of being proved or refuted, the proof of this gift is the more necessary in-as-much as the Plaintiffs allege it was conditional, the condition being that they

they cultivated their lands and paid their Kists. If the Plaintiffs have failed in the performance of the condition on which the lands were bestowed, what forfeiture follows? that of their lands? It is to be assumed so if the Hindoo Law at all bears on the case as will be seen hereafter.

4 Nor is their statement, that it is an Agrarai vada Kai Village much more satisfactory

5 Reporting on the Southern Pollams including Sheragungah and Ramnad in December 1800, the Right Honorable S. R. Lushington explains that the tenure of Agraharam vada Kai "takes its name from the Bramins, not "only from their being inhabitants "of the Superiors caste, but from the "Village being originally bestowed on "them and because they possess the "Chief authority among the inhabitants" and after detailing the probable origin of this tenure, he says "The right of property "in the proportion of those shares is "ascertained in the Village Kosham, "which is an accurate register of the "property in the same manner as the Sjaram

"Sjaram account of its land - The "right of Carai rarely conveys a right "to any proprietor to any specific spot "of land in perpetuity and wherever this "practice prevails, it seems a departure "from the original institution; the "property of the whole Village is com- "mon to the whole number of Proprie- "tors - "Every transaction of revenue, "every matter of loss and gain is "common to them all, to the extent "of their respective shares; and as "they are all jointly and separately "responsible for the revenue of the "Village, according to the strict con- "struction of their tenures, so they "are all alike equally entitled to "any emolument or advantage which "may arise therefrom - So tenacious "indeed are they of this established "right of every Village benefit — "being in common, that a sort of "lottery takes place at stated times "to make a new distribution of Village "lands by which they change owners for "a certain period until the lottery is "renewed - By these means they generally

Continues

"continue to pass from one Proprietor to
"another, so as to exclude effectually indeed,
"the right of any particular spot but to esta-
"blish the right of the general body to the
"whole Village in common".

6. The state of things herein described is not to be traced or recognized in Ahtoor

7 No deed of gift has ever been or can be produced - Its' exsistence has always been denied - The earliest detailed accounts on the Collector's records, shew that the wet lands alone of the Village were ever divided into shares, and that the Poonjah lands are not included in their shares - This fact must be construed either to falsify the statement of the Plaintiffs as to the deed of gift for they say that the Poonjah lands were included in the gift; or, if true it proves most incontestibly that before the Village of Ahtoor was under the management of the Company the conditions of alleged gift were materially altered if not entirely nullified, the accounts further shew that the Village was divided into five shares - In fusly 1207 the Bra-mins held 352½ out of 452½ Cheys of land, the rest being divided as follows - 70 Cheys among three Sudra share-holders, and 30 Cheys were held by our Mahomeden share holder - In 1268 fusly the

Cheys in possession of the Bramins had increased to 355-4, and those in possession of the Sudras to 73-8, while those in possession of the Mahomedens were 30-8-"..

8 It is further to be observed that not only have the Poonjah lands of Ahtoor never been included in the account as form-ing a part of the Karai lands but also the Nunjah lands converted from Poonjah and the Nunjah resumed Cavil lands, as well as certain other Nunjah lands measuring 133 7/16 Coolies in possession of Sudras have also been kept distant from the Karais.

9 After the survey was com-pleted and before the Villages were rented out by Mr. Hurdis to the Zemindar of Cunnevady it appears that in 1213 the Bramins Share of Nunjah had dwindled down to Cheys 213 8¾/16 containing 878 13½/16 Coolies while that of the Sudras had increased to Cheys 72-14½ containing 292 11¾/16 Coolies, the Share of the Mohomedens had also de-creased to Cheys 28-4 containing 114 6½/16 Coolies

10. There is no proof that the Karais were held in common, and that they periodically underwent any new — Destribution

11. Nor are there any boundary marks

marks or stones generally found in Pundaravadakai Villages.

12 Nor is there any Village Rosham or register nor any Jyaram accounts of its lands, nor any ancient deeds of transfer

13. Nor in fact any of the distinctive marks which constitute an Agraravadakai Village

14. It is clear therefore that the Village at the time of the assumption of Dindigul was not so far as our records allow us to trace it, an exclusively Bramin Village on an Agraravadakai Village

15. Having submitted these preliminary remarks and assuming for the sake of argument that the Plaintiffs are able to satisfy the Court that their lands are meerassy lands the supplemental defendant would ask, 1st are there any rights appertaining to the meerassy tenure which allow meerassydars to retain meerassy land which they will neither cultivate themselves nor provide for its being cultivated, but which they can compel even the state itself to abandon the cultivation of, or, in other words, is it prohibited to the Officers of Government to provide for the cultivation of the lands which meerassidars neglect or contumaciously refuse to

to cultivate.

16. This is a point of the utmost importance. It applies not only to the property under litigation but to a large portion of the valuable wet lands in this District. The Sub. Collector believes that the records of the zillah Court contain no instances in which the right of the Government to alienate meerassy waste, when the parties refuse to cultivate it has ever been impeached. It is known that Decisions have been passed admitting the principle between subject and subject, but this by no means decides that such a rule prevails between the subject and the Government, which depends on the prerogative attaching to the Government as paramount Lord of the soil, and not upon the tenure or the status of any particular individual

17. The point at issue then is the right of the Plaintiffs, as meerassydars, to retain possession of lands which they not only refuse to cultivate themselves but for which they will neither provide tenants nor allow of tenants being provided by Government.

18. Is there any enactment, common Law, practice or tenure, which allows of so anomalous and,

and to a Country where the Revenue is almost entirely derived from the land, so destructive a right as that contended for by the Plaintiffs.

19. The Law Books of the Hindoos shew that the Sovereign claims to be Proprietor of the soil, and that he founds his claims on the right of conquest.

20. "By Conquest the earth became the property "of the holy Parasaram, by gift the property of the sage Casyapen "& was committed by him to Chatreyar (the Military "caste) for the sake of protection because of their "protective property, successively held by power- "-ful conquerors and not by subjects cultivating the "soil: But annual property is acquired by subjects "on payment of annual revenue, and the King can- "-not lawfully give sell or dispose of the land "to another for that year - But if the agree- "-ment be in this form you shall enjoy it for "years, for so many years as the property is "granted, during so many years the King should "never give, sell or dispose of it to another, "yet if the subject pay not the revenue, the "grant being conditional is annulled "by the breach of the condition - "But if no special agreement be "made &c. and another person &c desirous

See Colebrookes Digest of Hindoo Law Vol. I. Pg 66.

"desirous of obtaining the land, stipulate "a greater revenue, it may be granted to "him on his application".-

21 Here we see it clearly laid down in the Hindoo Law that every ordinary grant of land was saddled with a con- -dition the breach of which annulled the grant and left the Sovereign, the Proprietor of the soil, at liberty to con- -fer the land on others.

22 Again the property of the Sovereign in the soil is adverted to in commencing the title, "partition of patri- -mony" where Juggana the Tered/panchanana enters into a disquisition on the nature of property in general, and the investigation of it by heritage in the relations of the de- -ceased owner. See from Page 502 to 520 Vol: X of Colebrooke's Digest. He ends with the following example and conclusion "When a principality is sold the Prince has "property entitling him to receive revenue, "but the property of the occupant entitling "him to enjoy the produce of the land subsists "in full force - When the produce is sold by "the occupant the purchaser acquires a right to

"to enjoy it, but the King retains his title
"to receive revenue - Hence he who cultivates
"land for which he pays revenue to the
"King and who enjoys the produce obtained
"from that lands is acknowledged to
"possess property as cultivator of the
"soil - If he sell the land the purchaser
"acquires similar property in right of which
"he enjoys the produce after paying revenue
"to the King".

23 The justice and expediency of such a law is self evident. All Village privileges may be traced to expediency and the mutual accommodation of the Government and the Ryots and may have originated as suggested by Sir Thomas Munro in the great number of Tanks and water courses constructed at the public expense for he argues: "As the Circar
"could be reimbursed for the expenditure
"upon those works, only by the regular
"cultivation of the lands for which he had
"provided water, he might have thought
"it advisable to grant the occupants
"certain privileges to enable them to keep up
"the cultivation as high as possible - A moderate

"moderate rent and a hereditary right in
"the soil were two of the most obvious
"means of effecting this object"

24 If the Government protects the Meerassydar, the Meerassydar must fulfil the obligation for which such protection is given, Unless the Government exacts the fulfilment of these obligations, it cannot collect its revenue, maintain its armies, and continue to protect the Meerassydars, and therefore when the Meerassydars fail to perform the service and pay the revenue for which those rights were originally granted and have been since continued, the compact between the Meerassydars and Government is broken and the Government must look to some other person for the discharge of these obligations so necessary to its own existence.

25 If this reasoning is correct, it is clear Meerassy can convey no right to persist the keeping waste such lands as can be cultivated and for the cultivation of which the Government are prepared to provide in default of the Meerassydars.

And

26 And that this is no new and isolated position taken up by the supplemental Defend-ant, he is prepared to shew by Extracts from the reports of all the Collectors first ap-pointed to the Districts in the South of India, such as — Mr Place, Mr Ellis, Mr Hodgson, Mr Wallace, Mr Harris, Mr Lushington, Mr Campbell, Mr Thackery, and Sir Thomas Munro, and who were called on by Go-vernment to direct their particular attention to the different land tenures in — esxistence, and the rights and claims which existed under them.

27 To introduce — these Extracts into his answer

E.B.

answer would be the supplemental Defend-ant fears, to extend it to an inconvenient and improper length; but the facts elicited by which Mr Mill has termed "that late perfect investigation shew that by custom the possession of the Ryot became a per-manent possion, whence he could not be removed except when he failed to pay his assessment or rent.—

28 It has indeed been — stated by Mr Ellis that "Meerassy right is "not" forfeited by the discontinuance of "cultivation for a single year or a longer "period during the life of the Meerassydar, "his son or his Grand son.— It would be-"come forfeitable, that is, the claimant — "would not regain it if it had passed "into the possession of another by the Kind-"Law, after the third generation or after the "lapse of the period of memory determined "to be one hundred years. If however by "the word forfeited it be intended to ask "whether by omitting to cultivate, the Meerassy-dar renders his lands liable to confisca-tion by Government, it may be answered "that by the implied compact under which these

"these lands and the various Meerasy pro-
"-vileges are held, he is bound to culti-
"-vate his full proportion of the Varapat-
"lands according to the share he holds
"in the Village and the wilful neglect
"or refusal to do so is a breach of this
"contract, necessarily entitling the state
"to provide for the maintenance of its
"revenues by other means; but I do not
"think that either instinct right or ac-
"-cording to the general practice of
"the Country the permanent forfeiture
"of Meerasy would ensue from dis-
"-continuing merely the cultivation
"either for one or any determinate number
"of years. If a Meerasydar be so reduced
"in circumstances as not to be able to
"bring under cultivation his share of the
"Varapet, or if he should have abandoned
"agricultural for other pursuits, it is in-
"-cumbent on him to provide for its cul-
"-ture by granting to Poyacaries such
"terms as will induce them to bestow
"on it the advantages of their stock and
"labour. If he do not do this the State
"has then a right to employ Poyacaries
either

"either for the current year, or for a fixed
"not an indefinite number of years."

29. In this same answer however
Mr Ellis tho' so strenuous a supporter of
the rights and claims of Meerasydars, ob-
"serves that when the Settlement was made
in Madras in 1802-3, "there were in some
"of the Madras Villages spots of waste
"lands for which they refused to take
"certificates, which have been since con-
"-sidered the property of Government, but
"this is a case he adds in which the Mee-
"-rasydar, on the option offered of taking
"the varapat lands on a fixed money
"payment or not preferred resigning them
"retaining all his other privileges, and
"he cannot therefore be said to have
"forfeited them from neglecting to cul-
"-tivate."

30 Mr Ellis' opinion in re-
-gard to the right of a Meerasydar
to reclaim his lands within the fourth
generation is opposed to that of his
Sheristadar of whom Mr Ellis writes
that when their replies differ as to facts,
the

the Superior authority must be allowed to the native, who having served for thirty years in various situations in the Revenue and Judicial Departments, both in the North and South Provinces under this Presidency, has had greater opportunity of making himself acquainted with the subject on which he writes than usually falls to the lot of either Europeans or Natives."-

31- This Native Officer states that.

32- "The Meerassy right is not forfeited to the Circar from the circumstances of the Meerassydar having failed to cultivate for a year, but in case the inhabitant absents himself from his Meerassy lands for a long period, neither cultivates nor rents them, and in other respects acts with determined opposition to the interests of the State, it has become customary for the Circar to select a person to enjoy the Meerassy and to

to confirm him in possession by Cowle. Frequent instances of this took place during Mr Place's time in Chingleput, and in Tanjore, the Rajah has trasferred by sasanum Villages to others not Meerassdars."

33- In regard to Mr Ellis's opinion it may further be urged that if a Meerassydar fails to cultivate his land, the Government must provide for its cultivation in order to get a rent for it; but if the grandsons of the Meerassydars, who have neglected it, could obtain it after 99 years and oust the Ryot who had been put in possession by the Government and who had cultivated and paid the rent of it so long, confidence would be shaken and the interests of agricultural would suffer. And tho' this measure may seem harsh and is hardly ever resorted to it is still necessary as a last resource in case of contumacy. In most cases no new Ryot would be found willing to take the deserted land for one year only

only, and the Public revenue would there-
-fore suffer from the contumacy of the
Meerassydars especially Bramins —
Meerassydars, of whom it has been —
observed by the Board of Revenue —
"that it is difficult to get them to
"come to any reasonable terms."

34 It must not be omit-
-ted to be observed further that under
the Regulations, whatever land the —
Meerassydar may decline or be un-
-able to cultivate, the Zemindar may
grant the occupation of that land
to another.—

35 It is admitted that
section X Regulation XXX of 1802 has
been by Regulation V of 1822 modifi-
-ed, that this latter Regulation did
not deprive the Zemindar of the power
granted him by the former enactment
but was framed to introduce checks
to his illegal and improper use of it.

36 Now it has been laid
down

down by the Sudr Adalut in their Decree
in ct. S. N° 10 of 1814. that "by the act of
permanent settlement the Government
"transferred to Zemindars the proprietary
"right exercised by itself it could not
"do more without infringing the rights of
"others."—

37 In granting therefore to
Zemindars the power to oust refractory
Ryots from their lands, it is implied that —
such right was inherent on the Government,
and if it is lawful for a subject deriv-
-ing its right from Government to exercise
any such power a fortiori is it not law-
-ful for the Government to exercise it?—

38 Without entering into an
elaborate disquisition as to whether the —
Mohomedans suffered the Hindoos to
rule themselves by their own laws or intro
-duced their Mohomedan law and
if the latter, how far the Meerassy rights
were affected by it, as the Plaintiffs —
claim to found their rights on a —
transaction

transaction previous to the date of the Mohomedan invasion, it may be well to remember that Dindegal was, for many years under the sway of an intolerant nation, who looked on and treated the Hindoos with much severity, and who it is known never acknowledge the rights of Meerassydars to the extent claimed by them.—

39 It is known, that under the Mohomedan law, if the land were settled on the inhabitants of conquered Countries they were regarded as the permanent tenants of the soil, but only on this one condition that they paid the kharay and so long as they paid this tax they could not be legally dispossessed of it without consent.—

40 However much self interest therefore might prompt the Mohomedan conquerors to pay respect to the claims of land holders to remain in possession of their lands, so long as they punctually paid their Rists, is it reasonable to suppose

suppose from what is known of their character, that they would recognize any such preposterous pretensions as those set up by the Plaintiffs, so much at variance with their own law of which they were zealous maintainers, with their interests, and with the dictates of common prudence if not of common sense.—

41 And this view is supported not only by History for we find Mr A. D. Campbell on his remarks on the Meerassy tenures in the Tamil Country, writing thus, "that most of the Meerassydars in that part of the Country were thus reduced "to a situation which except in name differed little from that of "Ooloovady Poyacarries or permanent farmers, and the Mahasalman Government by absorbing the whole of the landlords rent became not only "the Sovereigns but the landlords of "the Country enforcing in practice their

"their favorite Maxim that the state is the
"exclusive Proprietor of the Soil."

42 The accounts and re-
-cords of the District do not shew that
the previleges claimed by the Plaintiffs
were ever admitted or recognized, as
far as Dindigul is concerned, nor in
fact that they were ever asserted.-

43. In the early reports we
find it stated, in the year 1808, by Mr
Hurdis that on the first assumption of
the Country the revenue was collected
according to an ancient custom which
may be explained under the follow-
-ing heads.-

1st "The Puttoocut Ryots
"were those who having an hereditary
"interest in the Village were considered
"the owners of the land and responsible
"for the payment of the revenue. They
"paid the highest land tax under the
"denomination of Cuttoogoottages, at
"fixed rent, without reference to the
"extent of Cultivation. 2nd and 3rd Vella-
-vursay and yernaddies, who were non
"residents and non-hereditary Ryots to the Poora-
-goodies or newly established Ryots. If by
death

"death or emigration any of the Puttoocut
"lands should fall to their occupancy
"they paid the Seerwai of the Puttoocuts."

44 Thus in fact they became
Meerasdars by occupancy and this
is the only right belonging to Meerasdar-
-dars known or acknowledged in the
Dindigul District Viz^t permanence
of occupancy so long as the occupant
pays the Government Rists.-

45 The Kookoonmanah
of the District issued at different times
and more particularly that issued by
the late Principal Collector Mr
Blackburne dated 4th July 1843 and
which was based on the orders of the Court
of Directors of the 28th July 1841 and Board
of Revenue 31st January 1842 distinctly asserts
the right of the Government to the Revenue
to be derived from the conversion of waste
land into arable, and that when Meerasdar-
-dars fail to cultivate or to give security
for the revenue, to alienate the waste lands
to Poaracoodies. In doing this the Court of
Directors and the Government and the
Board of Revenue require that the rights
of

of the Meerassydars should be respected, and that all Durkhasts for waste should invariably be communicated to the Meerassydars in the first instance.-

46. If the supplemental defendant has succeeded in shewing that the right in the land termed Meerassy renders it incumbent on the Meerassydar to provide for the regular cultivation of his land under occupation, and that on his failure to do so, not only the security of the public revenue and every known law and tenure justifies the Government in making over those lands to others, who will fulfil the conditions under which the occupancy was conferred and confirmed.-

47 He is in a position to proceed to shew in the 2nd place that in making over the lands of the Plaintiffs to others, the Sub Collector was only acting in conformity with this known and just principle: and that in so acting he exercised towards the Plaintiffs every consideration that he was bound to exercise.-

48

48- In accordance with the terms of the orders above quoted Mr Blackburne on 4th July 1843 issued a proclamation and the Defendants Mohomedans of Siddencottai a Hamlet of Athoor under date the 7th August 1843 presented a petition on in which referring to the Proclamation and large extent of Punjah land lying waste in Athoor and to the fact that they had, both before and after the survey up to 1819, professed punjah lands in the Village, they requested authority to cultivate some of the waste punjah lands-

49- This Petition was on the 21st September 1843 referred to the Tahseldar, who in the month of November proceeded to the Village to make the Puttadoopoo and receive the agreement of the Villagers for the lands they were willing to bind themselves to cultivate in the then Current Fusly 1253-

50- After the Bramins and other regular Cultivators had agreed for the lands they wished to occupy, the Mohomedans were called in to point out the lands they had asked for- They accordingly gave in a Dhurkast for 258 2½/16 Goolies of punjah land, but, before their proposal was acceded to, it was made known to the Punjafsidars present in the Village, who appraised their willingness to

to cultivate 127 6/16 Coolies of this land and also asked that 72 1/16 Coolies might be reserved for the Meerasy dars not present, rejecting the remaining 58 11/16 Coolies which they refused to take up -

51- At first the Mohomedans demurred to enter into any engagements for this residue of land, which they stated in would require great outlay to fit it for cultivation, and demanded that the whole land that they asked for should be conceded to them, but when informed by the Sub Collector, by an order dated 30th January 1844 that their request could not be listened to, they bound themselves; on the 8th May 1844 to cultivate 42 12 3/4 / 16 Coolies out of the 58 11/16 rejected by the Bramins of this land, they were, on the 19th idem put in possession, in accordance with the orders of the Sub Collector dated 16th May 1844 -

52- On the 28th June 1844 the Tahsildar forwarded a Petition from the Bramins of Ahtoor dated 9th May of the year corresponding with 20th June 1844, praying for a remission of the Tax of the lands they had deprived the Mohomedans of, and protesting against Puttahs being made out in the names of the Mohomedans for the lands granted to them which they (the Bramins) promised to

to cultivate in the following Fusly 1254 -

53- To these requests a reply was sent by the Sub Collector under date the 16th July 1844 declining to grant the remissions requested, or to make over the lands to the Bramins, who he observed, had always failed in keeping their engagements -

54- On this the Bramins appealed to the Collector, under date 7th October 1844, and received an endorsement dated 14th idem, the purport of which is correctly set forth in the 3rd Para of the Plaint -

55- In forwarding this endorsement to the Sub Collector on the next day, the Collector remarked on "the seeming injustice of depriving a Cultivator of his lands without reference "to the labor and expense he may have "undergone towards its purchase and "improvement;" and observed "that it "was not surprizing that non resident "Ryots offered to undertake the responsibility even at the risk of paying tax "without expectation of any return for "one year, as they are amply benefitted "by the fit and improved state of the Ground" and directed that "since the Mussulman "Ryots seemed to have cultivated a portion "for the current Fusly, they might be secured "in the enjoyment of it for that year, but that

"it

"it be eventually returned to the Bramins
"if they were willing to take the responsibility
"of it."

56- In reply to this the Sub Col-
=lector, under date 21st November 1844, asked
if he could be furnished with an account
shewing to what expense the Bramins
had been exposed in purchasing and
improving their lands; and argued that as
the Bramins had been first offered the
Land and refused to take it, it could
not have been in a very improved state -
He doubted also whether depriving the
Mussulmans of the land by force, was
not as much at variance with the
Regulations, as it was with the general
Rootoomamah of the District -

57- Again in a letter dated 11th
March 1845 he shewed that the Land
had been unoccupied by the Bramins
from Periods varying from 3 to 11 years -

58- In the interim, on the 19th
October 1844, the Bramins had Petitioned
the Sub Collector and, on the 29th I Sew
had been told that the land being in
possession of the Mohomedans could
not be given to others, unless the
Mohomedan voluntarily resigned it
or ceased to pay for it -

59- They again therefore, as stated
in the 5th Para of Plaint appealed, on the
30th October to the Collector, who referred them

to the Sub Collector to whom, they were
informed, a letter had been sent -
After a further correspondence
60- the Collector informed the Sub Collectors,
under date 22d March, that he left him
to act on his own responsibility, observ=
=ing that he strongly objected to the intro=
=duction of strangers into a Village, those
strangers being of a religion diametrically
opposed to the Original inhabitants, and
also their avowed personal enemies, and
though he was aware Meerasy right
did not as a general Rule, exist in the
District, he could not say how far the
Bramins might be able to establish
their pretension to such a right in a Court
of Law, nor how far the Grant of the
Lands so late in the season might affect
the claims of Government -

61- And the Bramins were
told in reply to two further Petitions
from them that the Principal
Collector declined further interference
in the Case -

62- On the 21st March
1846 the Bramins appealed to the
Board of Revenue -

63- And submitted the
endorsements they received to the
Principal Collector in charge of
the Sub Division, who on

the

the 3rd July 1816. after distributing the Put=
=tahs of the Village, passed the order
which forms the subject of this suit.

84. In that order Mr Blackburne
has shewn the same consideration for the
interests of the Brahmins which marked
the whole of his proceedings towards them=

85. After adverting to the argu=
=ments urged by the Brahmins, the Col=
=lector observes that I have ascertained
"that from Fusly 1249 to 1257, the Inhabitants
"of the Village of Ahtoor suffered from fever,
"the Cattle from disease, and hence the
"land fell waste - If the land from
"any cause became waste, and any one ap=
"=plies for the same to cultivate, it
"should be given to the applicant; after
"reference to the owner and ascertaining
"that he does not require it; but if the
"owner agrees to cultivate it, it is not
"just to give it to another; yet, under
"such circumstances, the Mahomedans
"have obtained Puttahs for 1253 and
"1254 Fusles. As the Mahajanums who
"own the land have objected and ap=
"=plied for it, the Mahomedans should
"obtain Puttahs for the lands cul=
"=tivated by them in the present
"Fusly, and the Teerwa be collected
from

"from them, and as it is notorious the land
"became waste because the Ryots fell sick
"in 1849, the right to land, which became
"waste one year before that Fusly belongs to them Therefore is much
"of the disputed lands given to the Mahome=
"=dans on pote 1 pote as was cultivated
"by the Brahmins upto 1247, inclusive, and
"was left waste only from 1248, and
"for which they are willing to enter into
"agreement to pay Teerwa whether cul=
"=tivated or not, must be made over
"to them, the same being entered in
"in their names in the cultivation
"accounts and Puttahs granted them
"for it - As regards the land which
"may have been left waste prior to
"1247, they, the Brahmins, can claim no
"no such right, and, if cultivated
"by the Mahomedans, may be continued
"in their possession"

86. This order, by some extra
ordinary interpretation of it, was con=
=strued by the Moosroondar in charge
of the Talook to mean that the
Mahomedans were only to be kept
in possession of such lands left
waste by the Brahmins previous to 1247, as they
the

(the Mahomedans) may have enjoyed previous to that year, and as it did not appear that they had enjoyed these lands prior to that date, he ordered the whole to be made over to the Bramins-

69- This order the Mahomedans resisted subsequently the error of the Moonsiadar was rectified and the order of the 3d July 1840 carried out, and

* 19 63/4 Coollies made over to the Bramins-

68- The present Punjah of the Village of Ahloor amounts to Coollies 20 20½ which is assessed at Rupees 8783-10-2-

69- During the 5 years, from 1833 to 1837 inclusive, the average amount of this land left waste was 334-4 a occasioning an average loss of Teerwaray to Government of Rupees 1937-6-6 during the next 5 years or from 1838 to 1842. which included the years of the epidemic alluded to in the Plaint, the land left waste had increased to an average of 528 Cools 6½ as occasioning an average annual loss of Teerwa to Government of Rupees 3329-13-9. of nearly double what it was in the preceding five years. During the next five years, the average annual quantity of Land left waste was 316 Cools and 5¾ as occasioning an average annual loss of Revenue to the amount of Rupees 1635-9-6-

With

* Leaving with the Mahomedans 23 6/16 which form the subject of the present suit-

With this immense quantity of waste Punjah land, which the Bramins are unable to cultivate, it evidently be-comes the duty of the fiscal Officer to secure the Government dues by making over to others such portions of it as they were willing to cultivate-

70-

71- The Plaintiff have laid great stress on the Fever and the mortality which prevailed both among the Cultivators and Cattle during the years 1838 to 1841. and have attributed their inability to cultivate the lands to these circumstances, but these causes are not shewn to have operated previous to those years, and it is only the land that was lying waste previous to those years, that forms the subject of litigation-

These lands have been fallow, calculating from the time of the Survey for periods varying from 28 to 11 years, if the whole period that they have been fallow be calculated, while, in some cases they were not cultivated, for between 23 and 5 consecutive years previous to the breaking out

of

Fort St. George, 1th March 1852.

of the Epidemic. It cannot therefore be said that the Epidemic led to their being neglected. It is rather to be traced to the utter wrecklessness and neglect of the Brahmins.

72 Again, they urge that the application of the Mahomedans was attended to, at an unseasonable period of the year. It was in the midst of the most busy season of sowing and planting, the early part of November, and immediately on the close of the Puttadapoo of the Village, and the fact of the Brahmins having at this very season, engaged for no less than Goollies 199-7½ of the land applied for by the Mahomedans, clearly proves it could not have been so unseasonable as the Plaintiffs would desire to make it appear. The Kooshoommanak of the District required that if possible, the Puttadapoo should be completed by-

Fort St. George, 4th March 1852.

by the end of August; but it does not limit the time within which offers for waste land shall be accepted, since it is presumable that a ryot will take up as much land as he is able to cultivate at the proper season, and all that he leaves waste is declared to be the property of Government; and their Officers are bound to make the best provision they can for the cultivation of those lands. In this case the Meerasidars had the option granted

Fort St. George 4th March 1852.

granted them of taking up the land offered for by the Mahomedans, but they rejected it so far as the lands in dispute are concerned, tho' they readily accepted it in regard to other more fertile and better situated lands.

73 Another point the Plaintiffs dwell upon is that the Mahomedans were strangers and their enemies.

74. Siddiencottai is a Hamlet of Ahtoor and the lands offered for by the Defendants are situated as near

S.V.R.

Fort St. George 4th March 1852.

near their Village as to Ahtoor. It is also to be remembered that the ancestors of the Defendants at the time of the assumption of the Country possessed 114 6/4/16 Goolies of the wet lands now in possession of the Bramins and of which they would appear to have been deprived in a manner similar to that by which they have now become possessed of the lands of the Bramins, Viz. by the lands being left waste. They cannot therefore be properly called strangers and foreigners.

Neither is it true that

75. the Mahomedans possess Nunjah lands which they can cultivate, all that they once had has fallen into the hands of the Bramins who are always ready and alive to prevent the occupation of such lands by large promises which they as invariably fail to accomplish when the application for it has on their promise been rejected. In proof of this the Supplemental Defendant would request the attention of the Court to the subjoined Table shewing the proportions of the cultivation and fallow of 199 7½/16 Goolies of which the Bramins deprived the Mahomedans in 1253.

Table

3405

Fort St. George 4th March 1852.-

Table

Fuslies.	Number of Persons-	Particulars of the land taken up by the Brahmins in Fusly 1253.- Extent-	Tax-	Brought under Cultivation.- Extent-	Tax-	Left waste.- Extent-	Tax-	Remarks-
		Goolies at 1 CRs a 0		Goolies at 1 CRs a 0		Goolies at 1 CRs a 0		
1253	21	199 7½	1,665 4 4	136 15¾	403 10 4	62 7¾	261 10 4

Fort St. George 4th March 1852.-

To.

The Statements in the 6th Para in the Plaint regarding Venkatadauny Naik being immaterial to the points at issue in this case the Supplemental Defendant will not take up the time of the Court to shew their utter falsity

The Court will not fail to observe that the efforts of the Plaintiffs Vackeel are confined to any of the lands in which Vackeel being given to the Brahmedans are a rendered mugalcory by the fact that the Officer after a full consideration of all the circumstances of the case and a patient hearing of the arguments of both parties pronounced a decree against the Plaintiff whereby rights he had most strenuously asserted and declared that they had no right to the lands now under litigation.-

In Conclusion, if the Supplemental Defendant has satisfied the Court that under no known principle of law or equity the Plaintiffs any right to claim to have the Plaint lands of the retained the Rent of the Village of Pallicon in their possession without

Fort St. George 4th March 1852.-

To.

The Statements in the 6th Para in the Plaint regarding Venkatadauny Naik being immaterial to the points at issue in this case the Supplemental Defendant will not take up the time of the Court to shew their utter falsity

The Court will not fail to observe that the efforts of the Plaintiffs Vackeel are confined to any of the lands in which Vackeel being given to the Brahmedans are a rendered mugalcory by the fact that the Officer after a full consideration of all the circumstances of the case and a patient hearing of the arguments of both parties pronounced a decree against the Plaintiff whereby rights he had most strenuously asserted and declared that they had no right to the lands now under litigation.-

In Conclusion, if the Supplemental Defendant has satisfied the Court that under no known principle of law or equity the Plaintiffs any right to claim to have the Plaint lands of the retained the Rent of the Village of Pallicon in their possession without

fulfilling the implied and oftenpublished compact under which they hold those lands; Vizt., the payment of the revenue fixed on them.-

79. That considering the claims of Government as the Sovereigns of the Country who depend on the cultivation of the lands for the revenue out of which the charges of the State are defrayed and who have been subjected to, and are still exposed to espences for the repairs and construction of water courses and Tanks in Ashtoor, they have a right to see that the lands on account of which they have incurred such heavy charges are not without ne=cessity left uncultivated or exempted from the share of the public burthens.-

80. That the orders of the Court of Directors, the Government and Board of Revenue make it incumbent on every fiscal Officer to provide for the security of the public revenue by taking care that the cultivation is duly carried on and extended when practicable, and that every indulgence and consideration which could justly be demanded from the Officers of Government were shewn to

to the Plaintiffs before depriving them of the land which they contumaciously re=fused to cultivate.-

81. Then he hopes that his Official Acts will be maintained and that the Plaintiffs will be nonsuited and will not be permitted to take possession and turn out the Mahomedans who for nearly 8 years have been cultivating and paying the rent with regularity, and have expended considerable sums of money in the improvement of the land, in the possession of which they considered them=selves to be secure.-

82. Should however the Court resolve to grant the prayer of the Plaint=iffs the Supplemental Defendant would solicit permission to prove that the yield of the land during the period it was under the Management of the Mahomedans or from Fusly 1256, was not more than 135 Cullums, 4 Mercals and 4 Measures; and that therefore the profits arising from it during that year could not have been more than 9 or 10 Rupees.-

further

Fort St. George 4th March 1852.-

further, the teerwai of the land is not more than 57 Rupees 12 as. -and 11- Pice. It is clear therefore that the assumed profits of the Plaintiffs are far in excess of the reality, they cannot be fairly estimated at more than 50 Rupees.-

Fort St. George 4th March 1852.-

Enc. 3.
No. 122.

To,
R. D. Parker Esqre
Collector of Madura.

Sir,

I have the honor to forward for your consideration a Draft of an Answer I propose to submit to the Plaint filed in O. S. No. 9 of 1850 on the file of the Subordinate Court of Madura, to which I was not originally a party but have, by an Order of the Subordinate Court dated 11th November 1851 been included as a supplemental Defendant.-

2. The grounds of this Order of the Court are known to you and are set forth in the accompanying correspondence.-

3. The 23 6½/10 Goollies of Malgoozary Nunjah land, the subject of this suit, form part of 42 12¾/10 Goolies which were, in 1843, granted to certain Mohomedan Ryots of Siddiencottay a hamlet of Athoor, in consequence of the Brahmins, who claimed them, and to whom the Offer of the Mohomedans had been communicated, having refused to cultivate, or be charged with them

them.-

4. Mr. Blackburne the Collector was at first averse to making this transfer permanent, until the Bramins had had a renewed offer of the lands made to them in the season succeeding that in which the lands had been made over to the Mohomedans.-

5. Further acquaintance, however, with the merits of the case, led to a modification of his original opinion; and in 1846, Mr. Blackburne passed an order, in which he directed that any land left waste by the Bramins previous to the prevalence of the Epidemics in 1838, and which had fallen to the Mohomedans should be continued to the latter, and that lands left waste, only after 1838, should revert to the Bramins.-

6. This Order was not carried out till 16th July 1847 after I had been appointed to the District, when 23 6½/16 Goolies, in possession of the Mohomedans, were restored to the Bramins.-

7. Considering the circumstances of the case

* Accidental error for 19th See Para 6 of the Draft of answer and Para 1 of the Petition.

case and the important question involved in the Suit, I trust, I may obtain sanction for conducting it at the Public Cost.-

8. The date fixed for filing the answer expires on the 19th of next Month I regret it has not been in my power to submit the Draft earlier, but the difficulty in obtaining the necessary Accounts, as well as the heavy load of Magisterial work thrown on me by the Order of the Fouzdaree Udalut, which requires that all Complaints against every class of Police Officers shall be investigated by a European Officer have compelled me to post-pone the preparation of it to this date.-

9. A translation of the plaint accompanies the Draft of the Answer.-

Proceedings thereon.

Submitting a letter from the Collector of Madura and

No. 81.

Resolved that the letter above recorded.

and recommending that sanction be granted for filing the Sub Collector's proposed defence to the Plaint in Original Suit No. 9 of 1850 and directing the Collector to apply for an extension of 6 weeks time for filing the answer &c.—

recorded together with its enclosure & be submitted for the consideration and orders of the Right Honorable & the Governor in Council.-

2. This action is brought to recover possession of 23 6/16 Goolies of Mulgoozary Nunjah land in the Village of Ahtoor of which Plaintiffs allege they were unjustly deprived by an order of Mr. Blackburne while in charge of the Sub Division, and for the payment to them of Rupees 523-3-1 the estimated produce since they were deprived of the land.-

3. The Plaint sets forth that the land is the Plaintiffs ancestral property or Karai land, granted to their Ancestors by a Hindoo Prince named Rajavumbah, that the land was left waste, owing to the desertion of many, and the destruction of Humans life by fever, and of Cattle by Murrain which was prevalent during the years 1838 to 1841, that the land was made over to the Mussulmans and other occupants and cultivators who are defendants in this Suit, that claims for the recovery of the land were preferred to the Principal and Sub Collector and Board of Revenue without avail, that the registry of the land in the name of, and the grant of Puttahs to the Defendants cannot invalidate Plaintiffs proprietary rights, and that the power to enquire into such rights is vested in the Civil Court.-

From

From the Sub Collectors letter

4. it is observed that he was not originally a party in the Suit, but that he has been included as a supplemental Defendant by an order of Court. In his Draft Answer it is argued that Plaintiffs should be made to prove that the land is Karia land of a Agraarai Vadakai Village bestowed on their Ancestors by the Prince named by them, the nature of the Tenure is explained and it is asserted that no Account, register, deed or distinctive marks can be produced to show that the Plaintiffs' tittle was ever recognized in the Ahtoor Village. Even in the event of Plaintiffs being able to show a simple Meraasy right it is affirmed that this right in the land renders it incumbent on the Meraasidar to provide for the regular cultivation of it, and that on his failure to do so, not only the security of the public revenue, but every Known Law and Tenure, justifies the Government in making over the land to others, who will fulfil the conditions under which the occupancy exists. It is urged that the claims of Government as Sovereigns of the Country depend on the cultivation of the land for the revenue,

out

out of which the charges of the State are defrayed, that they have been subjected to and are still exposed to expences for construction and repairs of Tanks and Water-courses in Ahtoor, and that they have a right to see that the lands on account of which they have incurred such heavy charges are not, without necessity, left uncultivated or exempted from their share of the public burthen. It is also shown that in ousting Plaintiffs from the land every consideration was given them that the land after having been unoccupied from 3 to 11 years was offered to them before it was given over to Defendants, that the land in dispute forms only a small portion of what was left waste of the entire lands of the Village, some of which have been fallow, calculating from the time of the Survey, for periods varying from 11 to 28 years, while in some instances they were so between 5 to 23 consecutive years previous to the breaking out of the Epedimic, and that it cannot therefore be said that the Epidemic led to their being neglected.—

5. It is therefore urged that the acts of the Sub Collector be maintained, that Plaintiffs be nonsuited, and not allowed to oust Defendants who

who for nearly 8 years have cultivated the land, and expended sums in their improvement and paid assessment regularly, but should the Court resolve to grant the Plaintiffs prayer it is urged that the assumed profits have been over stated & that they cannot be justly estimated over Rupees 50.—

6. The Board consider that the Draft proposed by the Sub Collector constitutes a good and sufficient defence, except para 36, for they do not think that the appeal suit there referred to bears on the case in point. With this exception they recommend that sanction be granted for filing it, and conducting the Suit at the public cost.—

7. The Board believe that the sentiments of Government in regard to Meerasidars refusing to cultivate Waste land are in accordance with the arguments used in the Draft answer and beg to refer to Extract Minutes Consultation 1st March 1849, Revenue Department No. 214, and Extract Minutes Consultation 24th July 1849, Revenue Department No. 740.—

C. O. Book Page 321

8. The date fixed for filing the answer expires on the 19th of March 1852 but the Collector will request an extension of Six Weeks.—

---

No. 49/52

To, W. H. Bayley Esqre.
Secretary to the Board of Revenue.—
Fort St. George.—

B. No. 524.
From the Collector of Madura.—Para 1.

Sir,
I have the honor to enclose copy of a

a letter from the Sub Collector soliciting authority to assure the Ryots who take the Wheat Seed supplied by Government for Cultivation that should the experiment fail they will not be charged with the tax of the land employed, and I beg to support the request.-

2. Mr. Fischer of Salem has mentioned to me that if a sack of the Wheat should be given to him he would try the experiment on the Shevaroy Hills, and acquaint the Collector of Salem with the result, and as the quantity supplied seems to be more than is likely to be required in this District, particularly as it has arrived during the driest season of the year, I would recommend compliance with his application.-

Madura; } (Signed) R. D. Parker
25th February 1852. } Collector.

No. 1
No. 26

To, R. D. Parker Esqre
Collector of Madura

Sir,

1. Having in compliance with the instruction contained in your letter of the 19th Ultimo No. 70, called on the Tahsildar of Tenkarry to report the names of parties in Cumbum and Goodalore and Sandicoody Hills, to whom the Bengal Wheat

Wheat Seed might with most advantage be distributed, I have been informed that no one can be found in those parts willing to undertake the trouble and hazard of the experiment.-

2. I have learnt by a personal conference with the Tahsildar that the reference with the Tahsildar that the repugnance arises from fear as much of the expense of a fruitless experiment, as of an increased tax.-

3. I have endeavoured to remove the unfounded scruples of the people on the latter point and now have the honor to solicit authority to assure them that should the experiment fail, they shall not be charged with the tax of the land employed to raise the Wheat.-

4. This request may not appear reasonable, but considering the benefit likely to arise from the spread of the cultivation of good Wheat in the District and the state of civilization of the people, I trust it may be acceded to.-

Ammiancai Enoor, } (Signed) T. Clarke

31

Bd No. 513.
From the Collector of Canara.
Collectors Cutcherry, On Circuit
Goakarny 19th February 1852.

Read the following letter.
No. 14.

To W. H. Bayley Esqre
Secretary to the Board of Revenue,
Fort St. George.

Sir,

I have the honor to acquaint you for the information of the Board that a Return of the issue of Grants of Waste Land for the support of Choultries built for the accommodation of Travellers in this Zillah for fusly 1260 has not been sent, as no such Grants (1850.51.) were issued during the past year.-

(Signed) F. N. Maltby
Collector.

Order thereon.

Ordered to be recorded.-

31-32
