Para 1 In the foregoing Proceedings the Board of Revenue furnish the information requested in para 3 of the Minutes of Consultation of the 1st June last, regarding the average of the allowance

allowance paid to Moodoo Vencatachella Reddy from the proceeds of the Moolay Pullyputty Village in the Salem District during the last ten years—

2. The average of the disburse=ments to the Jaghiredar from Fusly 1252 to 1261 inclusive, amounts to Rupees 83–1–9 but the Board, in consideration of the gradual improvements effected in the resources of the Village by the exertions of the Jaghiredar in causing waste land to be taken up for cultivation, recommend that the allowance proposed to be assigned to him may be fixed on the average of the last five years disbursements or at Rupees 110–4–9—

3. The Right Honorable the Governor in Council is pleased to extend to the Jaghiredar the indulgence recom=mended by the Board, and accordingly directs that his future allowance be from the commencement of the present Fusly fixed (omitting fractions of a Rupee) at Rupees (110) One hundred at Ten

Para 1 The Season of Fusly 1260 in

Fort St. George 4th October 1852

of Land Revenue from Fusly 1253 to 1259 and directing that the Collector may be instructed to inspect the Gardens in a Talook on a certain number of Amishom in his own range & of that of his Sub Collector and Head Assistant with a view to discover whether any trees are exempted from Assessment

a Rs. 2789

in Malabar is reported to have been favorable to all species of cultivation. The fall of rain was 12 inches above the average of the five years from 1845 to 1849. The paddy lands were indeed swamped in some localities, and remission had to be given in consequence, so that the Nunjah revenue is somewhat (Rupees 581) below that of the antecedent year. There was an improvement both in the [a]Poonjah and in the [b]Garden Rents.

2 The outturn of the two regular crops of rice was considerably above the produce of Fusly 1259 from which cause, as also it would seem from large importations into North Malabar from Mysore and Coorg prices fell, notwithstanding a very marked increase in the export trade. The prices of Garden produce were much higher than in the year before. The Board's remarks on this subject in Paras 2 and 3 of the Proceedings deserve the Collector's attention.

3. The District is said on the whole to have been healthy, but there were exceptions, and in some places

Fort St. George 4th October 1852

places of the Sub Division Cholera and small pox, the latter especially raged with great virulence.

4. The subjoined figures give in Abstract the Settlement of the year compared with that of the preceding season.

	Fusly 1259	Fusly 1260	Increase or decrease above or below Fusly 1259
Nunjah	1131179	1130897	581

	1642176	1644842	+ 2666

Showing a Nel increase of Rupees 2666 above Fusly 1259 which however had been Rupees 1483 below that of Fusly 1258.

5 The Collections current and arrears were.

of

Of this balance nearly the whole or Rupees 19750 is due by the Bebee of Cannanore—

6. The Right Honorable the Governor in Council grants authority for writing off in the Accounts of the Malabar Collectorate the balance of Land Revenue from Fusslies 1253 to 1259 reported to be irreconcilable, amounting to Rupees 1295 . . 11) Two hundred and Ninety five and pice Eleven.—

7. The annexed Abstract shows the demand of land revenue and of that derived from Extra Sources for the two years 1259 and 1260—

	Fusly 1259	Fusly 1260	Increase or Decrease
Land Revenue	1642176	1644842	+ 2666
Extra Sources	1196945	1184538	12407
	2839121	2829380	9741

There is an increase in the land Revenue of Rupees 2666 and a falling off in the Extra branches of Rupees 12407 The latter was caused wholly by the deficit in the Tobacco Monopoly, notwithstanding a

from Rs 1,32,820 to Rs 1,06,065

a large decrease in the charges on the whole the Settlement of the year under all heads falls short of that of Fusly 1259 in the sum of Rupees 9741—

8. In Paras 9 to 13 of their Proceedings, the Board of Revenue discuss in some detail the state of the Gardens in Malabar as exhibited in the Accounts, and the apparently stationary condition of that description of cultivation Their remarks show good ground for concluding that these Accounts cannot be excepted as trustworthy and that if not fallacious they furnish but a very imperfect idea of the extent to which planting is really carried on. The Government think it highly probable that as supposed by the Board a reinspection of the Gardens would result in the discovery of a large number of trees at present exempt from Assessment and they desire that the Collector be instructed to select one Talook or a certain number of Amshooms in his own range and in that of the Sub Collector and Head Assistant and to institute at

at once a strict inquiry whereby to test the value of the accounts submitted.

9. The Board have reviewed the Collector's report with much care and have pointed out to him those particulars in which the report and the accompanying Statements are defective. The Governor in Council sees nothing to add to the Board's remarks except that they should receive the careful consideration of the Collector in the preparation of his future reports and Statements.

In acknowledging the receipt of an Extract from the Board's Proceedings of the 12th Instant, regarding the difference between the Collections exhibited in Columns 8 and 11 of Statement No. 1 and the Total receipts of Cash and Transfers Rs. exhibited in the notes in Statement No. 2 of the Demand Collection and Balance of this Collectorate for June 1852, I have the

Submits explanation as called for in Extract Proceedings of Board of Revenue of the 12th Instant for the difference of 3 annas between the Statement Nos. 1 & 2 of the Demand Collection and Balance for the month of June last which mistake he begs the Board will be good enough to rectify by deducting the 3 annas from the amount of advances Rs. in Col: 11 of the Statement for the

the said month adding them to the similar item in the accounts for May.

the honor to explain that the Bill of actual charges incurred for repairs of Roads amounting to Rupees 650-3-" having been sanctioned by Government on the 8th April 1852, it was necessary to debit the amount to the proper head in May last, crediting the same to the "Advances" to which head the amount was originally debited as usual, but in doing so 3 annas were inadvertently omitted in the Statement No. 1 in May. This Omission having been discovered during the entry of transfers in my Journal for the same month, which was prepared subsequent to the despatch of the Demand Collection and Balance for May, the correct amount was entered in my Monthly accounts transmitted to the Civil Auditor and Accountant General. The sum of 3 annas was therefore, in the month following added in Column 11 of Statement No. 1 of the Demand Collection in order to make up the deficiency since the difference in the Treasury Receipts.—

I therefore now request the Board will be good enough to have the sum of 3 Annas deducted from the amount of advances Rs. in Column 11 of the Statement for June and

Bd. No. 2283.

From the Collector of Bellary—

Requesting permission of Board to take security from the Hoozoor & Talook Gollahs for reasons assigned.—

Treasury Goomastahs from giving Security, to represent to the Board of Revenue that the Talook Gollahs have to take charge of the Cash in the Talookis when the Shroffs proceed with remittances of Treasure to the Hoozoor Treasury /which the Shroff and Gollah accompany alternately/ and the daily receipts and disbursements pass thro' their hands till the return of the Shroffs it would therefore I think be advisable that the practice of taking Security from them should be continued. The Gollahs of the Hoozoor Treasury are constantly employed in taking out money from the boxes and replacing it thus money is constantly passing thro' their hands and I would recommend that Security be taken also from them. The amount I would recommend is Rupees /1000/ One thousand from the Gollahs of the Hoozoor Treasury and 500 Rupees from the Talook Gollahs, unless this wholesome check is continued as heretofore, it would be difficult in case of malversation on their part to recover any sum embezzled by them.—

2. Security is authorized to be taken from Deputy Shroffs, and the Gollahs of Bellary may,

may, considering the duties they perform, be ranked in that class.—

1. I have the honor to report upon Petition No. 1730 of 1852.

Reporting upon Petition No. 1730 of 1852 presented to the Board of Revenue by Vharrainraw late Head Goomastah of Muddenpully—Talook.

2. In the month of May last a young brahmin was murdered in the town of Gamalapoor under circumstances which led me to attach very great suspicion to a particular family as having perpetrated the crime they were rich and influential & I found that the Crime would not be brought to light

light as long as they remained in the Village, I therefore called them up to my Office and detained them there while the enquiry was in progress—During the time they were thus under detention I received information that a Goomastah of my Cutcherry, and his brother the Head Goomastah of Muddenpully where my Office then was both relations of the family I had summoned, had received a jewel from a member of the family, for the purpose of dividing its value between two servants of the Cutcherry to induce them to exert their influence to obtain the discharge of the parties under detention.—

3. It is not necessary that I should detail the enquiry that ensued, as the Board will probably be satisfied to learn that I entertaining no doubt of the truth of the alleged facts, I removed both the Goomastahs from my Office, and committed them to the Criminal Court.—

4. They were acquitted by that tribunal, but my experience will not allow me to admit that to be satisfactory proof of their innocence, and I am not willing at all events for the present, again to place these

Explaining the grounds on which the omission to report of the minority of the Serianoor Mootah was based.

From the Acting Collector of North Arcot ..... } Sir,

Reporting the objections made by the families of Mahamed Hussain and Mohideen Bee lee deceased Dehatt Enamdars to receive their allowance according to the commutation rate sanctioned by Government requesting the Board's decision in this case.

Para 1. Adverting to the 2d case in the Tabular Report of Lapsed Enams for the 3d Quarter of 1850, and to the Government order conveyed in Extract from the Proceedings of the Board dated 21st August 1851, I have the honor to state that the families of Mahamed Hussein, and Mahadeen Beebee, have preferred a claim to the payment annually of the precise sums specified in the order of Government above referred to, and object to having their allowances adjusted to the share they are entitled to take in the commuted allowances, which Government sanctioned for the Village of Mailcoopum, and other Dehatt Villages in the order conveyed in the Extract from the Proceedings of the Board dated 23d June 1851.-

2. In the Government order conveyed

conveyed in the Board's Proceedings of the 21st August 1851, the amount of each share for the members of Mohomed Bufsein's family is stated to be Rupees 33, and for the family of Mohadeen Beebee Rupees 16—8—. The gross amount of the shares for each family, or Rupees 132, as entered in the Tabular report, is calculated on the Net proceeds for fusly 1258. But if the shares be calculated on the average of 10 years, as sanctioned in the order conveyed in the Extract from the Board's Proceedings of the 23d June 1851, the gross amount for each family is Rupees 110—8— and the share to each member of the two families respectively is Rupees 27—10— and Rupees 13—13—

Recd. C. in for North arcot 11th September 1852 No 2216.

3. The ground on which the parties object to an adjustment are that a specific sum is stated in the Government order conveyed in Extract from Proceedings dated 21st August 1851 and that this order is of a later date than that which sanctioned the commutation allowances.

I

4. I think that these objections are ill founded but as the parties will not be satisfied till the case be submitted to the Board, I request that the Board will favor me with their decision on the question at issue.

From the Collector of Salem ..... Para 1

Requesting to be informed what items are considered to have been omitted in the Sevoy Jummah accounts which accompanied the Jummahbundy Report for Fusly 1260 and suggesting new forms to be furnished of the Monthly Statement of Demand Collection and Balance

Sir,

I have the honor to state that not feeling satisfied that I correctly comprehend the wishes of your Board, as conveyed to me in their letter of the 19th July last, relative to the Sevoye Jumma accounts which accompanied my Jummahbundy report for Fusly 1260, I regret being under the necessity of requesting you will favor me with information as to which are the Items referred to in their intimation that different items composing the Land Revenue have been omitted

2. In this district the items included under the head of Land Revenue in the Ayen Jummahbundy accounts are as below stated.-

1 Assessment on lands, Poonjah, Nunjah & Bagayet
2 Tax on Trees
3 Enam Jodigy
4 Fasul Jasty and Enam Fasul Jasty
5 Neercooly
6 Teerwah on Pasture land
7 Hill Revenue &c.

Those

Those which are classified as "Extra Revenue" are,-

1 Motorpha inclusive of the Ayen Motorpha and the Loom Tax.
2. Abkarry
3. Sundry small Farms and Licenses
4. Stamps.-

and so far as I am aware and believe all the items connected with the abovementioned heads of account, have been duly entered in the Statement which I submitted to the Board.-

3. The Sevoye Jumma account which I had the honor to forward, was intended to exhibit in general terms only the Demand Collection and Balance, and in thus drawing it up, I had conceived that I was meeting the instructions communicated to me. If it be your Board's desire that Poonjah, Nunjah and other particulars be entered in the account, I submit that it is necessary I be further instructed whether the field assessment, and Jummahbundy should be particularized or only the different sums actually realized. If however, such be not the intention of the Board, I submit that it will be

be convenient if I am informed what items are to be included in the account and under what heads they should be ranged.-

4 As it is the practice of the district to collect Interest on both Jaury Mostah and Sodiggy Agraharums in "Land Revenue," and on "Abkarry and sundry small Farms" in "Extra Revenue," it will be necessary, I infer, to separate the sums so realized and enter the Interest derived from the first mentioned source under the head of "Land Revenue" and that from the latter one under "Extra Revenue."-

5. The Sevoye Jumma return for the 11th. July alluded to in the 2d. paragraph of the Board's letter, being, I apprehend, the Demand Collection and Balance Statement for the last month of Fusly 1260. and its enclosures, A. B. C and D being the accompaniments of the above Statement, I beg to submit that as the Demand, Collection and Balance statements are prepared for monthly transmission to the Board on printed forms supplied

supplied from the Board's Office in which the different heads and the items composing them are duly entered it will be convenient if new forms be furnished in which the alterations now apparently required shall have been introduced- Otherwise confusion of figures will, I fear, arise, when obedience is yielded to the present instructions of the Board, on the printed papers now on hand.-

Explaining to the Collector of Salem the Board's Proceedings of 19th. July 1852 regarding his Demand Collection & Balance Statement with reference to his letter of 8th. September 1852.

(31.32)

The Board in their proceedings of 19th. July when stating that "the different items composing Land Revenue have not been specified, and those falling under Extra Revenue and Interest have been "omitted" did not refer at all to the Jyen Land Revenue or Jyen Extra sources. This was evident from the words preceding the above, but they called on the Collector to amend the Sevoy Jummah Statements N°. 21 and 22 accompanying his Jummabundy Report and to specify what portion of the Sevoy Jummah

Summah came under Land Revenue and what portion under Extra Sources" for instance, under Land Revenue Sevoy Summah would come such items as Cultivation after Summabundy" Cultivation of Zufted Enams" "sale proceeds of unclaimed cattle." "Fines on Revenue Servants" inclusive of interest under the head of "Land Revenue," whilst under Extra Revenue Sevoy Summah would come Taxes on Bazars &c. not included in the Jummabundy.

each under its own head, whether Mootapha. abkarry Stamps &c.

Para 19th July 1852.

2. In para 2d it was the wish of the Board that in the 11th July Demand Collection and Balance statements and their Enclosures the item "Sevoy Summah" should be distinguished into "Land" and Extra revenue" in the Gross and that in the Enclosures A, B, C, D only Sevoy Summah proper inclusive of interest under that head, should be entered without

clubbing

clubbing together Sevoy Summah proper refunds of advances and all the other items of Extraordinary Revenue, as has been done in the Enclosures of the 11th July Statements for Fusly 1260.

Para 1 Replying to the Board's order relative to the adoption for the future, of a form of advertisement for the sale of lands.-

Adverting to the order contained in your Board's proceedings of the 2nd Instant, in regard to the future submission of advertisements in the form prescribed by the Circular Order under date the 10th August 1826.-

2. I do myself the honor to represent that that form seems hitherto to have been adopted in Advertisements issuing from this Office when the sale of an entire Mootah has been involved to which cases the several conditions entered in the form in question are applicable.-

In

3 In those cases however where the land brought to sale is only the miscellaneous holding of a cultivator in arrear for rent due on one or more fields occupied by him in an Amany Village, it has been the practice, I find, to lay before the Board an Advertisement of the kind which accompanied my letter of the 30th ultimo, and adverting to the provisions of section XI XII and XIII Regulation XXVI of 1802, I would submit that the requirements of the law affecting such sales appear by that form to be sufficiently fulfilled.-

4 Should your Board deem it advisable strictly to adhere to and adopt the form of the 10th August 1826, it occurs to me to suggest for consideration, whether certain parts of the conditions annexed to the former, are not inappropriate and redundant when the sales to be made affect, not entire estates

estates held on the Mootahdaree tenure, but sundry plots of Amany puttah land belonging to one or more individuals who possess no interest in the terms of a Sunnud-i-Istimrar.

Bringing to notice a difficulty in giving effect to the decision of Government regarding the enjoyment by the widow of the last incumbent of certain Enam lands in the Village Calumdra, Talook Tripatoor.

Board's Proceedings 4th January 1849 No. of Cons 12th December 1848.

No. 103.

To,

W. H. Bayley Esqre
Secretary to the
Board of Revenue,
Fort St. George.

Sir,

I have the honor to bring to the notice of your Board that difficulty is experienced in giving effect to the decision of Government regarding the enjoyment of certain Enam land in the Village Calumdra, Talook Tripatoor, of this District.

2 The final instructions of the Government in this matter, assigned to the widow of the last incumbent, one half of the cultivable land as a provision for her during her life. It has, however, been ascertained that the actual occupants of those lands are unwilling to relinquish possession of them, though quite prepared to pay to the widow in question, any portion of the established land Tax which it may please the authorities to declare her entitled to receive from them. Any arrangements of the kind is not acceptable

acceptable to the widow, who, being a "Gosha female and in-experienced in money affairs, seems to distrust the regularity of payments coming to her direct from the cultivators, and accordingly desires that she may be allowed to receive what has been granted to her, at the hands of the local revenue authorities.-

3. Whether it be resolved to let her seek her dues from the cultivators themselves, or be paid them at the Taluk Treasury it is obvious that in the course and fluctuation of seasons, she may find herself entitled to claim as the moiety of the assessment on the cultivated lands of the Enam less than the fixed rent at which the entire Enam is rated; and therefore that she will occasionally have to receive a sum below that, Viz.t, Rupees 22.6.8 which in their liberality, the Government would appear to have intended to assign to her.-

4. Under these circumstances, I beg to request that I may be furnished with instructions whether in the event of the usual and prescribed Remissions being granted on

any part of the Enam which has now been incorporated with the Government lands a proportionate reduction is to be made in the widow's allowance: or whether it is to be regarded as unchanging: and as in no-wise dependent on the state of the fields resumed.-

5. I further beg to report that owing to the absence of the widow from the Taluk; to her being apparently occupied in prosecuting an appeal at Madras, for the assignment to her of the entire Enam, to the doubts which have arisen and required Settlement, relative to her obtaining possession of the ground; and to other causes, no disbursements of any kind have been made to her since Fusly 1259, when the lands were again assessed to the revenue.-

6. She thus seems entitled to receive for that and the two succeeding Fuslies, the half granted to her; but I find myself unable to direct that the requisite disbursement be made, even at the rate of Rupees 22-6-8 per annum, as the entire proceeds of the late Enam lands

lands have been carried to the public account.

7. The actual proceeds of the whole Enam during the three years in question amount to Rupees 228-4-6, I therefore have also to solicit instructions respecting the portions of that sum to which the Board consider the widow to have a claim, and whatever it be, beg to request I may be authorized to disburse it.

Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to the papers noted in the Margin.

assessed at Rupees 44-13-4 to Moideen Bee the widow of the last incumbent and the Collector points out that the actual occupants of the land are unwilling to relinquish possession though they are prepared to pay her such portion of the established land assessment as the Collector may deem her entitled to, but the Widow is unwilling to accept payment from the cultivators as she distrusts them, and desires to receive her allowance thro' the local Revenue authorities.

3. The Collector requests instructions whether the sum to be allowed to her is to be variable in proportion to the proceeds of the cultivated lands in the course of fluctuating seasons or whether it is to be regarded as unchanging and in no way dependant on the state of the Field. He also points out that no payment has been made to the Widow since Fusly 1259 in Consequence of her absence at Madras.

From the Collr of South Arcot.
Reporting on the Old outstanding Ain Balances up to Fusly 1269 as called for in Board's Circular 11th March 1852.

Sir,

Para 1 I have now the honor to forward my report on the Old Balances of land Revenue outstanding in this district for the years ending with Fusly 1259 in accordance with the instructions given in the Board's Circular letter of the 11th March last.—

2 As the Arrears up to Fusly 1269 were written off under the sanction of Government received with the Board's Proceedings of the 8th February 1847 the period embraced in the present report commences with the

with fusly 1250 and includes the 10 years ending with 1259. The report upon the Settlement of the land revenue for 1260 and the last Demand Collection and Balance Statement for that fusly shew that on its close there was an arrear of Rupees 40,865-4-7 outstanding for the preceding years, but as Rupees 3771-14-2 have since been realized the outstanding balances regarding which I have now to afford explanation is reduced to Rupees 37093.2.5.

3. The portion of the above arrear which belong to each of the ten fusles are shown in the Marginal Statement, and I find on reference to the records that in some instances temporary Causes of an unfavorable nature impeded the full realization of the revenue. Thus in the fusles 1250. 1251. and 1258. the prices of grain fell considerably below the average rate on which the Assessment is based, while in the first of those years the Villages in the Munnaar: goody Taluk under the Wadawar suffered from a flood and in Fusly 1252 a severe Storm Caused extensive damage in the District

District as reported in the collector Mr Hallett's letter of the 11th November 1842 But even when no such adverse circumstances occur some failures requiring indulgence and remission must be anticipated among the poorest class of cultivators in a large ryotwarry district where the annual Settlement averages twenty one lacs and the land is divided among one hundred and twenty eight thousand holders.

4 The accounts of these balances have undergone a minute investigation by myself and the Sub Collector, and the result is that I find the amount divisable into the following 3 heads.

		Rs	a	p
I	Recoverable	4,830	4	5
II	Doubtful of recovery	7,089	7	6

Enclosure No 1. a Statement of this balance drawn out in the prescribed form accompanies this letter and I request that the authority of Government may be obtained for writing off the irrecoverable portion amounting to Rupees 25,183-6-6.

5 The following abstract Statement will shew the Board the fusles to which the arrear belongs as divided into the above 3 great heads regarding which I shall now proceed to offer some more detailed explanation.

Fusly

6 The recoverable portion amounts to Rupees 4,820-4-5 and is expected to be realized without resorting to the sale of property. It is mostly due for the more recent fusles and that portion of it which belongs to the earlier years has not been recommended for remission in consequence of its being out standing against Village Officers and substantial ryots

ryots whose influence prevented the timely enforcement of the demand.

7 The doubtful of recovery portion amounts to Rupees 7089-7-6 and consists of two heads the first of which comprises those defaulters whose landed property is under attachment by the Civil Courts. The realization of this arrear amounting to Rupees 2,859-8-2 can only be expected when the Courts proceed hereafter to sell the attached property; and as the relinquishment of the demand would not benefit the defaulters, I have thought it proper to retain it in the accounts at least for the present. The 2d head comprises a sum of Rupees 4,229-15-4 which is entered as realizable only by the sale of the defaulters land. I do not propose in all instances to resort to this measure, but as the greater part of this sum is due for recent years by parties who appear substantial and whose default in some cases arises from contumacy it may be necessary occasionally as an example to make use of that mode of recovery. I have therefore retained this balance for further enquiry together with that which is due by defaulters

defaulters whose property is under attachment by the Courts, and hope in the ensuing year to make a final report and clear the accounts of these items.

8 The irrecoverable arrears for inviting off which sanction is now requested amounts to Rupees 25,183-6-6 and consists of the following items:

		Rs a p

It thus appears that the remissions recommended under the ordinary heads (Items 1 to 4) amount to Rupees 17,143-7-4. The 5th Item has remained uncollected in consequence of objections made by the ryots and the Board not being satisfied of the justice of the demand - but as a report was submitted by me regarding this arrear on the 28th July 1851 and regarding the 6th Item on the 23rd idem it appears unnecessary to enter into further detail here. The 7th Item consists of an annual sum of Rupees 54-15-4 remitted to the Honjamedoo Shotrumdar in compensation for lands taken for irrigation channels and the

the remission has already met the approval of the Board.

In the 10 fasilies to which the present 9 arrears belong the Land Revenue settlements amounted to Rupees 21,27,087-4 of which large sum Rupees 21,25,923-13-1 have been actually collected - Deducting therefore two small remissions amounting to Rupees 1801-7-10 - which were sanctioned by Government on the 6th April and 10th June 1847 there remains a present outstanding balance as already shown of Rupees 37,093-2-5 The portion of this arrear now reported to be irrecoverable is Rupees 25,183-6-6 and as this sum although including the extraordinary items detailed in the preceding paragraphs does not amount to ⅛ per cent. or 2 annas in each hundred rupees of the original demand, I trust that the realization of the revenue will be deemed satisfactory and that the sanction of Government will be granted for writing this amount off the accounts - In this case the prescribed measures will be taken to make the remission known and protect the defaulters from being called upon to pay it by the Subordinate Talook Servants -

Sir.

In returning the Extract from the Proceedings of the Board of Revenue relating to the land applied for by me on the Coonoor Ghaut I would briefly remark, that whilst I am perfectly prepared to take 40 or 50 Cawnies on the same terms as land is already held by late Mr. Staines and myself a little higher up the Ghaut, Viz on Puttah I do not wish to become the proprietor of land so inaccessible and rough, at such a sacrifice as the payment of from 8 to 10 years assessment you are perfectly aware that the land is almost useless to Government, the Timber on it is not worth the removing

removing and its peculiar situation and present state, would render a considerable expenditure necessary before it could be brought into cultivation unless therefore you should be authorized to make over the land to me on the abovementioned terms, you will please consider my application withdrawn.

From the Collector of Madras - Reporting the measures taken by his Office to carry out the objects alluded to in Major Smith's Communication relative to the observations of the Drainage Committee

Sir,

With reference to Extract from the Board's Proceedings dated 26th July 1852, I have the honor to state that the 600 yards to the North of the Black Town Wall is under the Superintendence of the Chief Engineer, who is always extremely careful to prevent encroachment on the part of private individuals within these limits. No encroachment has I learn been made within the last four years. A Map of the North Esplanade is in this office which I beg to forward for the Board's inspection which, it will be seen, contains the sites of all the private property within the 600 yards limits.-

Bd. No. 2240.
From the Collector of Madras.-
Requesting the Board's Orders on the case of a Mr. Leonard of Royapettah who has applied for a Certificate to the property he now occupies.-

Sir,

I have the honor to request the orders of the Board of Revenue on the case of a Mr. Leonard of Royapettah who has applied to this Office for a Grant to his property.-

2. Mr. Leonard in his application dated 24th June 1852. states that he has lost all the papers connected with his title to the premises he now occupies. and prays for the renewal of the Grant on which his house and ground has been held.-

3. The account that Mr. Leonard gives of the acquisition of the property he now occupies, is that it was originally mortgaged to

to him by Goolam Ally Khan, who, being unable to redeem it, allowed him to take possession of it in lieu of the debt.-

4. He has, as he alleges, been in possession of the property since 1837, or about 15 years, and his title to the same was never called in question. His Witnesses, as well as Mazernamah, signed by a few respectable inhabitants in the neighbourhood, also tend to corroborate his long possession and title to the House and Ground.-

5. Since however the publication of a Notice by this Office for 60 days, consequent on Mr. Leonard's application for a New Grant of the premises, several objections have been started both to his title to the property itself, and to his alleged claim to a back Yard attached to the House.-

6. The first person who has objected to the issue of a Grant to Mr. Leonard is a Musselman youth named Goolam Zainoolabdeen who states himself to be the son of Careem-nessah Begum in whose name the original Grant for the property acquired by him, stands.-

7. Goolam Ally Khan is said to be the step brother of this person, and it is alleged that he usurped the property during the minority

Minority of the party now objecting to Mr. Leonard. He therefore now prays that the Collector will stop the issue of the Certificate as he has lately filed a suit in Court for the recovery of his rights.-

8. In investigating these points Mr. Leonard alleged that the person declaring himself to be the son of Careemnissah Begum, is illegitimate and that when his Grandmother and Guardian attempted some time ago to assert a claim in the Supreme Court in his behalf, the case was nonsuited by that tribunal.-

9. It did not appear to be the business of this Office to determine on the legitimacy or otherwise of the party now objecting, as the long undisturbed possession by Mr. Leonard of the property in question is of itself a sufficient ground for me to issue a Certificate in his name. It appears to me that if the opponent has suffered wrongly in the sale of his land by Goolamolly Khan, his step-brother, his proper remedy lies against that individual, and that he should therefore be directed to establish his title in a Court of Law.-

The

10. The other individuals objecting confine themselves to asserting that Mr. Leonard has no title to a backyard now occupied by him. They state that the said backyard has for a long period been used as a thoroughfare by the persons in the neighbourhood, and they produce several Witnesses to prove this. One of them alleged that the Certificate of his House in the neighbourhood describes the said backyard as a Lane forming one of the boundaries of his property. Indeed it must be admitted that in the Grant made to Careemunnissa Begum, this alleged backyard is described as a Street and the western boundary. The Grant is dated 1834. In further support of their objection it is stated that Mr. Leonard failed to obtain redress in a case of trespass brought by him, and that he was once fined 1 Rupee in the Police. Mr. Leonard in his reply stated that the reason he failed in his trespass case was that he was unable to produce any papers to prove his title to the ground and that he was never fined by the Police but his Horsekeeper, and that simply because he had assaulted one of the persons who attempted

attempted to pass through the back yard.-

11. My Assistant Mr. Ellis some time ago called and inspected the spot in dispute and his Memo on a Petition from Mr. Leonard is to the following effect.-

"The Assistant Collector visited the ground at this back yard. It is clearly not a thoroughfare being a "cul de sac" bounded by a Wall. The back of a house gives into this and these are the people who commit the alleged tresspass."-

12. From the Correspondence noted marginally it would appear that this strip of land must have originally belonged to Government and was intended to have formed a thoroughfare, but for a long period was never used as such. It was on this ground that a portion of the passage was allowed to be blocked up by Phyauz Hoosain Khan. The considerable length of time that it has ceased to be used as a thoroughfare may perhaps be allowed to plead on behalf of Mr. Leonard's request to have this portion also included in his Grant.-

To B. 22d October 1838.
From do. 29th Dec. Do.

13. On consulting Mr. Hill's Map of Madras, no trace of a Land on

on the back of Mr. Leonard's House appears while the Map of the Justices in sessions shews a passage but not one joining the opposite street.-

14. The land adjoining Mr. Leonard's House is of no use to any other person, the individuals in the neighbourhood having a separate ingress and egress for their habitations.- I should at once have decided in Mr. Leonard's favor, having a precedent in the case of Phyauz Hoosain Khan and Mr. Ellis's report on the nature of the passage but I was unwilling to do so without a reference to the Board as the Ground appeared to belong to Government and I would solicit the Board's Orders whether the same course may be followed as was done in 1838 in the case of Phyauz Hoosain Khan above alluded to.-

When the right to the Land for which a Certificate is applied forms subject of a dispute in Court, the Collector should the Board think follow the usual practice of withholding

withholding such Certificate, issuing a Grant on the adjustment of the dispute or in accordance with the decision of Court.-

2. Under the explanation in regard to the strip of Land sought to be included in Mr. Leonard's Certificate the Board will not object to the same course being followed as in the case of Phyaz Hoosain Khan on his establishing long continued possession and prescriptive right.-

Ordered that the following Endorsement be passed on Petitions Nos. 1845-b-7-1860 and 1867 of 1852.-

"From the report of the Collector of Madras it appears that the Land in question is of no use to any person but Mr. Leonard as the Petitioners have separate ingress and egress for their Houses. Orders have therefore been issued to include the Land in the grant to Mr. Leonard on his establishing long continued possession and prescriptive right".-

From the Secy. to Government Forwarding a letter from the Agent at Kurnool and enquiring whether there is any objections to a compliance with the application on behalf of Goolam Khader Khan for the payment to him of the balances outstanding against the Ryots of certain Villages at the period of their resumption.—

Read the following Extract—

Extract from the Minutes of Consultation in the Revenue Department under date the 21st September 1852.

Read the following letter—

No. 6.

To Sir H. C. Montgomery Bart

Chief Secretary to Government

Fort St. George.

Sir,

1. Ghoolam Khader Khan Bahadoor one of the Surviving brothers of the late Nawab who is in receipt of a Stipend in lieu of the Villages held by him in Jagheer under the late Administration which were resumed in 1841 has made a claim to certain balances outstanding against the Ryots of those Villages at the period of their resumption

resumption which balances have subsequently been recovered, and carried to the credit of Government.

2. At the period of the Assumption of the Territory, Mr. Blane took under Amanee Management the Jagheer Villages which he found in possession of the various Members of the late Nawab's family and the proceeds thereof were paid to the holders until ready money allowances were allotted to them, as recommended by Mr. Blane in his letter of the 16th June 1841.

8th Sept. 1841.

3. The accounts of Fusly 1249 show that Ghoolam Khader Khan received the Revenues of his Villages in full for that year but it appears as is shown in the annexed Statement, that the demand for Fusly 1250 was not fully realized within the year, and that after deducting the collections made up to December 1851, an outstanding Balance of Rupees 270-13-10 on account of that year, was not recovered until Fusly 1256; which is the sum now claimed by Ghoolam Khader Khan.

Considering

Fort St. George 7th October 1852.

4- Considering that the revenues derivable from the Villages in question for Fusly 1250 were recognized as belonging to Ghoolam Khader Khan and that the payment of his stipend did not commence until after the expiration of that Fusly- I am induced to submit the claim for the favorable consideration of the Right Honorable the Governor in Council and I beg to explain that in submitting a claim connected with the Revenue direct to the Government, I have done so as the Settlement Reports of the period to which the claim refers, were not transmitted thro' the channel of the Board of Revenue-

5- Ghoolam Khader Khan has explained that the delay in submitting his claim, arose from his thoughts having been occupied for a long period as to the issue of his frequent appeals for an increase to his stipend, but now that he sees no hope of obtaining an increase, and as he is about to

Fort St. George 7th October 1852-

to marry one of his sons and and the sum he claims is an object to him, he has been induced now to advance the claim-

Sir,

With reference to your letter of the 29th July I have the honor to forward Statement of actual charges incurred on account of the Establishment of this Agency for Fusly 1259 amounting to Rupees 3912-2-10.

These charges it will be observed.

observed do not correspond with the actual charges for the same Fusly noted in the Estimate of charges for Fusly 1260 forwarded on the 27th July 1250 by the Officiating Agent Lieutenant Frye and sanctioned by Government on the 30th September of the same year. The discrepancy is noted in the other side and arises I believe from the careless manner on which the accounts of the Agency were kept by the Assistant Moonshee in charge, and about that period dismissed by Lieutenant Frye.

3. Appended is a Statement of the Bills which have already obtained the sanction of Government for Fusly 1259, according to the practice which formerly prevailed but which are now included under their respective heads in the Statement of actual charges for Fusly 1259 now forwarded according to the Form prescribed in the proceedings of the Board of Revenue of the 21st October 1850.

Net Increase	Rs 110865 13 3	

5- The increase is chiefly in the Inland Sales and occurred in all the Divisions with the exception of Pahala- The increase in the Pandarty Division is owing to Salt heaps which suffered from the gale and rains of November last having been sold on Muctah inventive heaps after immediate measurement- This mode of sale drew the attention to the Cotaur of an additional number of Merchants usually proceeding to the Pans

Pans of Chennagerjam and Peddagerjam in the Guntoor District- The increase in the Eshapully, Kistnapatam, Doogarazpatam and Toda Divisions, is owing to the Bunjarries from Kurnool, Cuttoor, Chinglepet, Cuddapah and Bellary Districts, having purchased a larger quantity of Salt in the year under report than in the preceding- The Decrease already stated to have taken place in the Pahala Division is ascribed to some of the Bunjaries from Kurnool who resorted to this Division on July 1250 as well as some others from Bellary having proceeded to the Pans of Eshapully Division, in consequence of an Epidemic among Cattle in the former- The net increase on the whole is however Rupees 110865 13 3.

6- The increase in the Ship Sales is particularized in the Margin and is attributable to the exportation of almost the entire quantity of Salt indented for from Chittagong which was not the case

case in the previous Fusly, in consequence of the loss of certain vessels loading at Kistnapatam with Salt. The quantity shipped to Calcutta in this year exceeds that of Fusly 1261.

Sunday and Interest brought under the head	224 2 9		
Read as per Boards orders dated 29th July 1852			

7- The particulars of Increase in Extra Collections are exhibited in the Margin. The decrease arising from the sale proceeds of samples of Salt and Salt stolen, Sunday and fines, being small in as the Fusly under report, call for no remark. The increase in the recovery of advance for the Manufacture of Salt arises from a larger amount advanced for that purpose

purpose in Fusly 1260 than in Fusly 1259 having been realized in the Fusly under report, as also from a portion of the advance made in Fusly 1261 (1851-2) having been collected before the expiration of that Fusly. The increase in the Refunds of Servants wages is owing to a substitute having been employed for a Velly in the Pandarly Cotaur during a portion only of the time he was absent. The increase of Rupees 18-12-2 in Extra Charges is owing to a number of unserviceable gunny bags used in weighing Salt for exportation having been sold and brought to account under the head of Extra Collections. The decrease in the refunds of Manufacturers' share is owing to the amount not having been reduced in reference to the inferior description of Salt produced as was the case in the preceding Fusly.

7 The Class of people employed in measuring the Salt.

8- In the accompanying Statement No 1 it will be observed that the Net Increase in the Total Amount of Salt Charges is Rupees 8984-10-2 as shewn in the Margin. The increase in the first item

item is owing to a large quantity of Salt having been received into Store raising proportionately the amount paid for Manufacturers' Share. The increase in the Shipping Charges is on account of the increased exportation of Salt to Chittagong and Calcutta. The increase in advances for Salt Manufacture is owing to the necessity for making advances to Manufacturers in reference to their circumstances. The increase in the item of Salt Roofsooms is owing to the same not paid in Fusly 1260 (in consequence of the absence of the party) having been paid in Fusly 1261. The decrease in Servants wages is ascribable to the circumstance of the salaries of

The Decrease of Rupees 5,596-3-5 under the head of Extra Charges is particularized in the Margin.

In the first item under this head are Charges for hire for conveying Salt from the platforms to the Beach amounting to Rupees 5557-4-10 The decrease of Rupees 5,287-1- is owing to the smaller

smaller quantity of Salt received into Store reducing proportionately the Charges for hire for conveying Salt. A saving of Rupees 270-3-10 was also effected by reducing the prices of Mats and Gunny bags and the hire of weighing as appeared consistent with economy. The increase in the Charges for remittance and the decrease in the Charges for Huts in Platforms and Sundry others are small and call for no remark.

10. In the accompanying Statement No. 1 it will be seen that there is a Net increase of Rupees 173-6-9 arising from an increase in the exports and a decrease in the Imports, the former arising from the exportation

exportation of Salt petre from Cotaspatam to Pondicherry, and the latter from there being no imports of Rice and Paddy from Arracan. The decrease observable in the Extra Collections is owing to no fines having been levied as was the case in Fusly 1260.

11. The decrease in the item of servants wages is attributable to the reductions in the Establishment sanctioned by Government under date 11th September 1850 which was carried into effect only for a part of Fusly 1260 but continued throughout the whole Fusly under report. Deducting from that amount the value of Stamps and Saderwared Charges there is a Net decrease of Rupees 209-0-4.

Stamps. 19. The Net increase in the Stamp Collections is detailed in the Margin. The increase in the sale of Stamp papers is owing to an increased number of Civil Suits filed. The Decrease in the Extra Collections arises from

The increase in the Charges under this head amounting to Rupees 643-11-9 is owing partly to Commission in the sale of Stamps and partly to the Refunds of Stamp Duty.—

Sir,

In the course of the last eight years upwards of two thousand counterfeit Rupees have been received into the Cuddapah Treasury but as they were all detected by the Shroff, no loss has been sustained by the Government — The Silver and other Metals contained in these bad Coins is valued at 365 Rupees and in consideration of the circumstances under which they were obtained, of the wretched state of the Communications in the district, and that even if sold their value would form no item of usual revenue, I have the honor to request the Board's sanction to their sale and to my appropriating the Proceeds to the repair of a part of the Madras road between Cuddapah and Buckarapett —

Sir,

I am directed by the Board of Revenue to submit for the orders of Government the accompanying letter from the Collector of Cuddapah - dated 27th ult. on July 1852.

2. It appears that upwards of two thousand Counterfeit Rupees detected by the Shroffs on presentation have-

have accumulated in the Cuddapah Treasury, the Collector requests authority to sell these, which are valued at 385 Rupees, and to appropriate their proceeds in repairing a part of the Madras Road between Cuddapah and Back Karapett.

10th ult. and 17th Jan.y 1848.-

3. On a former occasion the Government authorized the application of a sum of Money obtained by the Sale of old Building Materials in Kurnool, to the improvement of the Town.-

4. In the present instance the Board would recommend that the Counterfeit Coins be cut into halves or melted down, so as to prevent any further attempts to pass them, and that the Metals be sold, the amount realized being applied to any public improvement. They are aware of no objection to its appropriation in the manner proposed by the Collector.-

The

Fort St. George 7th October 1852.-

Ab Karry. 2. The Ab Karry demand was Rupees 1,23,402. or Rupees 4,581 above the previous year and is attributed to the great competition for the rents of the Talooks of Gooramcondah, Muddenpully and Poonganoor.-

Sundry Small Farms & Licenses 3. In Sundry Small Farms and Licenses, the revenue was Rupees 14,101-7-4. being Rupees 481-10-8 less than that of the preceding Fusly. The net decrease arises from an increase of Rs. 127-11-4. in the duty levied on Red Wood, and a decrease of Rupees 609-6-0 on Orchards. Honey rent and Palmyrah trees. the fall in the Orchards is attributed to the failure of the Mangoe topes, which yielded hardly any thing, and in that of Palmyrah trees, to the small demand which existed for building purposes.-

Stamps. 4. The sale of Stamps for the year was Rupees 27,221 or Rupees 366-8-0 below that of the previous one.-

Moturpha 5. The demand on account of Veesabady and Moturpha, under the two heads of Veesabady and Bagar Veesabady was Rupees 1,52,060-8-1 or a trifling

increase

increase of Rupees 2-12-3- over Fusly 1260 and calls for no remark.-

6. Of the Arrears Viz. Rupees 18,098-12-5- outstanding at the commencement of Fusly 1261 Rupees 17,214-15-6- were collected within the Fusly, leaving a balance of Rupees 883-12-11- respecting which the Collector promises shortly to submit a separate report.-

7. The Gross Collections for the year, including Current Extra and Arrears Amounted to Rupees 3,34,425 from which the charges viz. 2,818-13-8 being deducted there remained a Net revenue of Rupees 3,31,606-2-4 or Rupees 22,988-4-4 above that of Fusly 1260.

8. Of the 234 buildings alluded to in the report for Fusly 1260 as Sugar Manufactures, it appears that only 201 were made use of during the year and there has consequently been a considerable reduction in the quantity of Sugar Manufactured.

9. The extent of land taken up for the Cultivation of the Sugar Cane, was acres 5,022 assessed at Rupees

Fort St. George 7th October 1852.-

Rupees 48,397 and gives a decrease of acres 278 and assessment Rupees 3,388- Owing to the low prices ruling at Madras for this Staple, Mr. Forbes states that many of the ryots were induced to convert their produce into Jaggery, which was very largely consumed in the District.-

10. The quantity of Sugar for which Certificates under Act XV of 1839 were granted in the year was 4,41,964 Maunds of 25 lbs each, but as 1,54,000 Maunds properly belong to the last fusly, the actual Export for the year was 2,87,964- Maunds, being 1,98,036 Maunds less than Fusly 1260.

Ordered that a Copy of the foregoing Extract with the annexed Comparative Statement of the Collections Charges and Net Revenue be submitted to Government and a transcript of the same be furnished to the Collector of Cuddapah.-

(21)
Bd. No. 2375.
From the Collector of Cuddapah—
Forwarding copy of a letter from the Acting Sub Collector of Cuddapah and affording the information required respecting the only wild tribe inhabiting the hills in Cuddapah.

Sir,

Para 1. On receiving the Board's letter of the 1st of July last enclosing an Extract from some notes by Lieutenant Michael, respecting the oppressions exercised on the hill tribes in the Annamalay forests I requested the Acting Sub Collector to institute enquiries into the condition of the Chenchoos, the only wild tribes inhabiting the hills in Cuddapah, and to gather for the Board's satisfaction as much information regarding them as he could. I now forward a Copy of Mr. Wedderburn's letter in reply and from it the Board will perceive that the oppressions brought to notice by Lieutenant Michael are not complained of here. It is true that one man of the Chenchoo tribe represented that his

he believed he could obtain in the Market a better price for honey and wax than was given to him by the renter, but the renting system admits a Monopoly and is an acknowledgment that the renter is to derive the profits of his farm and although the cases described by Lieutenant Michael have from their extravagance induced the Government to place the hill produce of Coimbatore under Amanie, the Complaint of a single individual of a whole tribe when complaints were specially sought for appears hardly to call for the adoption of a similar measure here.-

2. I have not hitherto seen an individual of this tribe, they very seldom descend the hills, and it would probably alarm them much to be sent for to the Collector's Cutcherry, they are represented as leading a very uncivilized life, covered only with bark leaves, and living on the produce of the woods- they are expert hunters, and are believed even by the most intelligent of the public.

Fort St. George 7th October 1852.

publice Servants to poſsefs the power of charming wild beasts, so as to be able to approch a tiger without the animal having power to molest them.-

3. In the year 1835 the honey rents of the Koilgoontla talook were abandoned, and the privilege of collecting the produce of the Jungles was given to the Chenchoos, on condition that they guarded the Nundy Canama as far as it lay's within the talook, and protect-ed travellers from any attacks by robbers.

4. This duty they have ever since effectually performed but it will serve to shew the wild state in which they live, and their entire ignorance of the ways of civilized life, to mention that a robbery having been effected very soon after they had accepted the charge of the paſs, they pur-sued the robbers, forthwith killed them and cutting off their heads and hands hung them up to the trees in the paſs as a warning to others for the future.-

5. The Sub Collector makes

no

Fort St. George 7th October 1852.

no mention of the paſs being insecure within the range of the Cumbum talook, and I would defer any proposal for making an arrangement with the Chenchoos there similar to that already made in Koil-goontla until the new paſs which has been sanctioned has been completed and its requirements have become better known.-

6 I shall endeavour to indnce the Chenchoos to engage in the work of the paſs as their knowledge of the localities their being inured to the climate, and their dexterity as Shikaries, will give them great advantage over the people of the plain, whose fear of fever and of tigers makes it very difficult to indnce them to undertake any work in those jungles and who cannot remain in them at night without an almost certainty of sickness.-

7 I do not recommend the adoption of Mr. Wedderburn's proposition to give advances to the Chenchoos to aid them in cultivating the land. It is not probable that the desired end would be attained, and the recovery of the money would be hopeless. It appears to me that the

the wish to cultivate on their part should
precede the supply of means on ours.
and that some intercourse with civilized
men, and some experience of the advantages
of civilized life are necessary before an
untamed Chenchoo will engage in the labors
of husbandy Such people do not act with
much reference to the future and require
that the end of every action shall be
attained at once to climb a tree and
take the honey or to shoot an arrow and kill a
deer keep cause, and effect sufficiently near
together, but to clear the Jungles, to weed,
to plough, and to sow, in the hope that
after some months they shall reap, affords
a prospect of advantage too distant for a
wild mans mind to grasp; and seem
inclined to prefer to the advance of ready
money, the hope that the opening out of the Rundy
Canana will bring the Chenchoos into
communication with others and by degrees
induce them to adopt a more civilized
mode of life.—

No. 95

To.
H. Forbes Esqre
Collector of Cuddapah.—

Sir In accordance with your letter
of 22d Ultimo transmitting an original
letter from the Board of Revenue with
enclosures and requesting that I should in-
form you of the state and condition of
the inhabitants of the Nulla Mulla Hills,
with reference to the oppressions said to be
exercised by the Hill renters of Coimbatore,
I have the honor to submit the result of
both personal and referred enquiry which
I have made on the subject.—

The number of the Chentsoowar
or jungle people inhabiting the eastern side
of the Nulla Mulla Hills is about 410 Souls.
They live in small huts of which 101 have
been counted. Their general character is timorous,
they usually hide themselves on the
approach of any person with whom
they are not acquainted— Only 4 indivi-
duals have taken puttahs for cultivating
land and of that a very small extent.

Two

Two individuals said that they would try to cultivate and thereby better their condition but they do not like other Pyots who have security to offer, obtain credit so as to procure the implements &c of agriculture, I made particular enquiry of several of this tribe from different parts of the Hills whether they were subjected to any Kind of oppression. Only one individual stated that he met with injustice in consequence of the existence of the Honey &c. contracts the tribe inhabiting a particular locality are allowed to dispose of the jungle produce only to the petty renter of that place they are thereby prevented from getting the full price which the forest produce commands in the market. The instances given were Honey, and wax, my informent said he was obliged to take 3 Sales of grain for one Sale of Honey whereas the Article was exchangeable at 4 Sales of Grain per Sale of Honey.—

Hegt ½ anna ½ pice for a Seer of wax and understood that if not restricted, he might have sold

+ 24 Rs. weight

sold this for 4 annas 8 pice. but beyond this restriction he could complain of no oppression or injustice on the part of the contractor or others— The contractor did not send them out to gather the produce but visited their huts and bartered grain for it. There is no obstacle of any Kind to prevent this tribe from engaging in agriculture placed in their way by any class— I have mentioned that a people living remote from civilization and having no assets cannot get credit which performs a great part in the agricultural operations of this Country. There is another not less formidable obstacle in the long established habits of these ignorant people. They have a no theory that they are to be confined to the forests by the pleasure of Government, but apparently prefer the easily earned wages occasionally gained by watching and driving birds and wild Animals from a pyots field on the border of the jungle, to engaging in severer toil— They live from hand to Mouth and do not store the grain they acquire, and when that is finished and were not procurable,

assuage

assuage their hunger with Honey and roots—Considering their somewhat precarious livilihood the specimens I have seen were not in any way emaciated. In stature they are small. the Honey contract of Doopaud was in Fasly 1250 only Rupees 34— that of Cumbum Rupees 40 0 0 and in Budwail Rupees 93—7— The Doopaud Chensoowars are not restricted by any contractor. In Cumbum they are to the extent I have mentioned—The relinquishment by Government of this petty sum of Rupees 150 obtained by the lease of the Honey &c. contract would tend to raise these people to a higher grade of humanity and lead to the extension of cultivation and the clearing of the forest but if it is not deemed advisable to incur the loss of this item of Revenue I consider that the present contract system should be continued To Place such a small source of Revenue spread over so widely extended a space, under annany does not appear a feasible project,

project, and would perhaps subject the Chenteowars to oppression by the neighboring Heads of Villages against whom they would be afraid to complain not to mention the avenue that would be opened to peculation which it would be very difficult to detect I have endeavoured to ascertain if there was any thing peculiar in the habits of these people, except their attachment to their present wild life but I can find little worth recording. They worship stones (called after various names as Mullalumma Linganaga Potaray, and Bayana) smeared with saffron or turmeric and placed under trees They have no belief in sorcery are acquainted with no traditions affecting their origin are not injured by the Malaria of the jungle, attain the usual period of life are not exposed to many diseases live in small communities of 10 to 20 huts. the males wear hardly any clothing. The women are dressed like the lower castes. They are not regarded by the highest castes

castes with the contempt shown to the Mala and Madeiga castes Their usual weapon is a bamboo bow with which they shoot deer on which and on white ants squirels &c they occasionally subsist Their language is Kloogoo differing in no respect from the dialect spoken in the plains By their more civilized neighbours they are generally thought to be of a thievish disposition. One person assured me his tribe would not be happy except among the hills they would feel the confinement of a civilized life in the plains yet he showed no disinclination to undertake some cultivation in the hills if he had the means It had not, he said, struck him before that he might as well cultivate grain for himself, as procure it from others He promised on his return to his Village to talk over the matter with the rest of his community. In this manner some may be induced to begin cultivation and others would in time follow their example Some are of a sanguine but others of a pathetic disposition

disposition who say that they must lead the life their fathers led &c In order to introduce a little cultivation and partial civilization among these people I would recommend the expenditure of a small sum by Government as Taccavy say Rupees 100 to be advanced to such individuals as will undertake or extend their cultivation The very sending for these people will show that their welfare is cared for and would embolden them if oppressed, which I have no reason to think that they are to come and state their grievances. There would be some risk in making the advances which established money lender is not prepared to undertake, but for the benevolent object of in future bettering the condition of those poor people I would venture to recommend the submittal of this proposal for the consideration of the Board of Revenue & Government

Reporting upon the Cultivation of american Cotton in this District for Fusly 1261.

Sir,

I have the honor to report for the information of the Board of Revenue that the Cultivation of american Cotton in Fusly 1261 was carried on in fifteen Villages of the fourtalooks of Koilgoontla, Goonnutkondah Kruddenpully and Poolevendla

In the Dry land 569 tolas weight of seed was

acres contas annas Rs. A. P.
sown in 3. 20. 15 assessed at 6 11 3 and

the produce was 720 tolas weight of Cotton and 1397 tolas weight of seed — The seed was sown at different times from July to October and the produce was diminished partly by blight and partly by heavy rain so that with the exception of a small piece of land measuring 35 Coontahs on which the crop having been watered from a well the return was good, in no instance was more than half a full crop realized —

In

2 In Garden land a 2 as 6 12

of land was cultivated the assessment on which was Rupees 1 4

6 4 the quantity of Seed sown was 170 tolas weight and the produce realized was 480 tolas weight of Cotton and 980 tolas weight of seed. The Seed sown in October came to nothing as the plants were blighted when only a few inches high, but that sown in July and watered every eight days gave three Crops, the combined weight of the seed and the Cotton of which was 240 tolas for the

the

the first gathering 480 for the second
and 720 for the third.—

3 I have received a fresh
supply of seed through Dr. Wight
and have distributed it
in the Talook with direction
to the several Tahsildars to
use their best endeavours to
encourage its extended culti-

The

4 The Settlement of Chitwail was made by the acting Head Assistant Collector Mr. Blair, and as the Sub Collectorate contains but three out of the fourteen Talooks which compose the district, I requested Mr. Wedderburn to undertake the Settlement of Sidhout, which is conveniently situated adjoining the Sub Division while in the remaining nine Talooks I undertook the Settlement myself. The Jamabundy commenced on the 22d of November 1851, and was concluded on the 3d of May 1852.

5 Fever and ague prevailed in the usual season and there was cholera in some parts of the district particularly in Summulmudgoo and Doovoor. there was no great mortality among the cattle and on the whole the year was not an unhealthy one. The Cutcherry was accompanied by a vaccinator throughout the Jummabundy and opportunity was taken of the assemblage of the people to vaccinate 1234 persons.

6 Many of the tanks received water in the storm of May Fasly $\frac{1260}{1850/51}$ and although several burst their bunds, the cartteckum crop in some Villages was commenced with the water which was supplied at that time. In June and July rain fell very generally over the district, but was more partial in august and September, in October and November again the fall was heavier, the cartteckum crop was brought forward, the tanks in Chitwail and Goorumcondah were supplied for the Vysakum Crop, and the Jonna crops were raised in the black soil in Talooks.

7 The state of the Tanks in Fasly $\frac{1260}{1850/51}$ and $\frac{1261}{1851/52}$ respectively is shewn in the following statement.

8. The Board will observe that the great difference in favor of the past year was in the Goorrumcondah Talook, which contains a far greater number of Tanks than any other Talook in the district they are however generally speaking very small works, and an increase in this number fully supplied there, by no means compensates for a deficient supply in an equal number of tanks elsewhere. There appear to have been in the Collector's division of the district 308 tanks fully supplied with water in Fusly 1261 (1851/52) in excess of the number so supplied in Fusly 1260 (1850/51) but as the excess in Goorrumcondah in the past over the previous year was 334, allowance being made for the small size of the Goorrumcondah tanks, the comparison is unfavorable to the past year in like manner although there were generally 69 tanks which received more than three quarters of a full supply, and 101 which received more than half a full supply, in Fusly 1261 (1851/52) more than in Fusly 1260 (1850/51) 61 of the excess number in the former class, and 135 in the latter were in the Goorrumcondah talook —

9. The cotton and the Jonna crops in the black soil talooks gave good returns to the ryots, as did also in many places the dry grains raised on the red soils the paddy

paddy and ragee crops were likewise generally good and although only short crops obtained in some Villages they were exceptions to the general state of the district, some of the Tanks however in Chennoor, Cumbum and Budwail, having failed to supply sufficient water for the crops, it was necessary to grant remissions Amounting to Rupees 1,375 and also the small sum of Rupees 24 for a similar reason in Doovoor, and Sidhout in all cases the proper preliminary enquiry was made into the circumstances of the ryots claiming the indulgence —

10. The price of all the produce of the land was low that of cholum, ragee and suzjaloo was slightly in advance of the previous year, but all descriptions of grain, as well as indigo have fallen in value when their prices are compared with the average of those that obtained in the five previous years notwithstanding this the kists were paid with unusual regularly, and the balance due at the close of the year was smaller than in any year since Fusly 1253 (1843/44) —

A.

12. A small decrease in land agreed for appears under the heads Gardew, Roonasa and Turrybagayet, under the two former heads it was owing to the non-acceptance by others of land which had belonged to ryots who had died or who had relinquished their entire Puttahs-In Chitwail Goorrumcondah and Muddenpully lightly assessed lands having been agreed for, while a smaller portion of those more heavily taxed in other talooks were given up, an increase appears in the number of acres of dry and wet land agreed for without a corresponding increase of assessment. Under the head of Teervajasty the sum of Rupees 8830 laid in Fusly 1260 / 1850/51 on certain lands as watered from basket wells and subsequently remitted by the Board's orders accounts for a part of the decrease, and the remainder can be traced to the damage which many of the tanks and Channels received in the May storm which it was not possible to repair in time for last year's cultivation. Incessant exertions have been made since

since January last to place all the maramut works in an efficient state, and I hope that the present season may be such as that the current years revenue will justify me in having expended the large sum I have in the ordinary estimates of the district.-

13. Below is a Statement which shows under the several heads the quantity of land actually cultivated in Fusly 1261 and the assessment it bore & a comparison with the previous year.-

14. The decrease in the cultivation of Garden, wet, and Poonasah lands arose very much from the damage done in May 1851.- to the tanks and Channels in Poolevendalah and Summulmudoo, and from land in those and other talooks having been rendered temporarily unfit for cultivation by deposits of Sand from the overflowing rivers. Poolevendalah and Summulmudgoo sufferred on those account more than other talooks from their position under the line of the western range of hills. to these causes is to be added a deficiency of water in the tanks of other talooks particularly in Doopaud, were highly assessed wet land being left waste, while that lowly assessed in Chitwail and Goorrumcondah was cultivated more extensively than in Fusly 1260 a disproportion appears when comparing the decrease of land with the decrease of assessment- There was also decrease in the quantity of dry land cultivated, although a small increase in the amount of assessment which this class of the cultivation bore, and this arose from some of the more lightly assessed lands in Doopaud Muddenpully, Poolevendalah and Royachoty having been left uncultivated, while a smaller quantity of

of more highly assessed land was cultivated in other talooks. The decrease in the teeroajastee has been in accounted for above.-

Para 12.

15. There was an increase in the cultivation yielding a fusuljasty assessment in Chitwail, Muddenpully, Goorrumcondah and Royachoty, owing to the supply of water in their tanks from the rains in May enabling the ryots to cultivate the Cartee Kum crop, while the latter rains of October and November refilled their tanks, for the Vysaut Kum crop, the larger increase was however reduced to the net Amount of Rupees 3573.- chiefly a heavy loss in Cumbum, where the water in the large tank was let off for several weeks while the Civil Engineer was repairing the damage which one of the sluices had sustained. It was perhaps not necessary that so much cultivation should have been abandoned, but the ryots were uncertain what would be the result of opening the banks of their great reservoir and were unwilling to sow their land when they might possibly never reap a crop. The cabooliaty is only an estimate of what it is expected will be cultivated, and consequently the entries in it much often differ from those of actual cultivation.

17. These remissions were given on the established principles of the District, that on shamelat bunjer was larger in Fasly 1261/1851/52 than in the previous year, because the season was not so favorable. those termed established and usual remissions depending on the extent of cultivation, rise and fall in Amount, as that is greater or less. and the remissions under the head of bunjer cowle were larger from a greater extent of land having been taken up both from the Jungle, and from the Ayacut bunjer on what is termed burra Naugur cowle, and from terms having been given under Colonel Munro's cowle to ryots who applied for indulgence, while clearing from their lands the sand deposited in the floods.—

19. I am not aware that the above calls for any further explanation than has already been given above, excepting the item of concealed cultivation brought to account subsequent to the Jamabundy, and its large amount probably arose from the earlier completion of the Settlement having afforded time to the Servants employed more thoroughly to examine the Villages. On the subject of waste within ten per cent of the ryots whole puttah upon which subject the Board have desired information, I shall address them in a separate letter.-

20. The Board will observe that the peishcush from the Poongenoor estate has now reached the sum of Rupees 62,000, and that consequently the present arrangement with the Zemindar will be at an end at the close of current Fusly.-

21. The Settlement of the District was then divided on the several taloots which compose it.-

27. The demand Collection and balance of the land revenue for Fusly 1261 / 1851-52 were as follows.—

Demand	2158600	3	3
Collected	2124511	1	11
Balance	34089	1	4

Rupees 23697-10-6 have been since Collected leaving a balance due at the present date of Rupees 10391-6-10.—

28. The following Statement of the balances due at the close of each year from Fusly 1251 / 1841-42 will shew that the Revenue was paid in Fusly 1261 / 1851-52 with more than ordinary punctualty which was probably in great measure owing to the Settlement having been Commenced and Concluded at an earlier period than usual. the Jummabundy of the talook last settled was over more than two months before the close of the year, so that the Ryotts had all ample notice of their liabilities and time was afforded them to make their arrangements for payment.

29. The balance now outstanding is due first on land entered in account as likely from the state of the means of irrigation at the time the Settlement was made, to be brought under Vysakum cultivation; but which was not actually cultivated. Second on the lands under the Cumbum tank the crops on which were not brought to maturity for want of water, and third, by some of the poor ryots the demand against whom it has been thought necessary to suspend. These are all matters which will be more throughly enquired into during the approaching Settlement.—

31 The sum of Rupees 17---1 entered as owing for each of the five Faslies 1254-55-56-57- and 58- was explained to the Board in the report on the settlement of Fasly 1260/1850-51; but as the sanction of Government has not yet been received for its abandonment, it is still retained in account of the sum the realization of which is entered as doubtful, a part is owing by Ryots whose property is under the attachment of the Civil Courts, to which application has been made for the balances due to Government from the proceeds of the sale whenever it may take place- payment will however be made only from landed property, or from what may have been raised from the land and what amount may be hereafter realized is at present uncertain.

32- Particular enquiry was made during the Settlement into the balances due by each Ryot and the sums entered as recoverable and irrecoverable have been entered after very full consideration, although the interests of Government have been consulted, the question has not been decided on the short sighted policy of obtaining all that was possible at the moment without reference to the means

means that would be left to the ryot for the future cultivation of his land- Of the amount thus entered as irrecoverable the sum of Rupees 12,821-2-6 appears against the year 1260/1850-51; but of this Rupees 4,399-7-6 is the Seerwayastee laid on land watered from what were then considered basket wells, and remitted by the Board's order of the 8th December 1851 the sum having been brought to account in the Settlement of that year, requires the sanction of Government for its removal. A further sum of Rupees 2,573-10-9 is owing by ryots who lost their whole crops in the storm, Rupees 1802--11 by those whose houses, cattle, and property were then carried away or damaged, and Rupees 4,045-15-4 by the poorer ryots, or those who have emigrated, or are dead- The particulars of these balances are entered in the Statement 9-B, and I have to request that sanction may be obtained for my writing off the accounts, the whole sum of Rupees 16,195-9-5- the greater proportion of which can never be collected at all, and no part of which can be collected without resort to the harsher revenue laws, and detriment to future means of production.-

33 In obedience to the Board's order of the 27th February 1845 a Statement is added of the amount of advances for cultivation uncollected at the close of Fasly 1261/1851-52 from which it will however be seen that the balance has since been realized.-

The

The items under the head of par-
-ticulars of Collections sufficiently explain
themselves.-

1 The increase in the charges for
Collector's salary arose from the late Collector
Mr Freese not having drawn his salary
for June, and his personal allowance
from November to June 1260 until the following
year, and from a similar delay in the pay-
-ment of the June salary of the Assistant
Collector Mr Smith, also from one Sixth
of Mr Freese's salary for Fasly 1260/1850-51 having
been undrawn during his absence on leave.

2 The decrease in the sum drawn
as deputation allowance is accounted
for by there having been an acting Col-
-lector for more than half of Fasly 1260/1850-51

3 The increase in the tent al-
-lowance drawn in Fasly 1261/1851-52 arose from
there having been no Sub Collector in
the District during part of Fasly
1260/1850-51 and no Assistants during another
portion of the year- as also from the
acting Collector having made the
settlement of more than one Talook
at Cuddapah.-

5- The pay of the district-
Servants

servants for June 1260/1850-51 not having been
disbursed before the close of the year
while that for June 1261/1851-52 was paid
within the Fusly accounts for an increase
in the charges for the native Establish-
-ment- The pay of the Talook Esta-
-blishments amounts to about 7029 Rs
a month and the receipt and examin-
-ation of the accounts make it ge-
-nerally about the 15th of the month
before the order for payment is receiv-
-ed in the Treasury- while the Huzzoor
Cutcherry having been divided in July,
part being with the Head Assistant
Collector at the Settlement of the South-
-ern Talooks, and part with the Collector
at Cuddapah, caused a delay in
the delivery of their salaries.-

6 The increase in the Sounderwared
charges for Fasly 1261/1851-52 arose from their con-
-taining some of the contingent expences of
May and June of Fasly 1260/1850-51 and the cost
of some of the paper used for the Coola-
-wary Chittahs and Suttahs of that year
and altho' the same has occurred in
all

all preceding years it had been customary to charge the sum on account at once, place it on deposit and actually disburse it at some future time. this system has been abolished since I assumed the district and a differ-ence in the charges appears in account accordingly.-

7 The extra revenue charges were higher in the past than in the previous year owing to the batta due to servants for June 1260/1850-51 having been paid in July 1261/1851-52 and also the additional cost incurred in moving the records &c of the Cutcherry more frequently than usual owing to the Settlement of each Talook having been made within its limits.-

8 The damage done to the Tanks and channels, in May 1260/1850-51 rendered necessary extensive repairs, and I have reason to hope that the works are now all in a state of efficiency. very heavy rains, and very heavy freshes have been received within the last few days without the report of any serious accident having reached me. The percentage on this item has been calculated from the revenue derived from all irrigated lands.-

9-10-11- The sums due under the first two items for the quarter ending 30th June and all that due under the third Item for the Months of June 1260/1850-51 as well as some for previous Months having been charged in Fusly 1261/1851-52 accounts for the increase. and to these items apply the remarks made to No 6.

12-13-14-16-17-19 and 20 call for no particular remarks.-

15- Some arrears of pension having been paid in Fusly 1260/1850-51 this item was raised for the year while the death of some pensioners lowered the charges for [illegible]

D.G.

18- This item explains itself.-

35- The Sub Collectors report on the Settlement of his division is enclosed.-

Cuddapah,
Collectors Office,
28th September 1852.
