B. No. 186

From the Collector of Madura
Reporting on the Settlement of his District for Fusly 1261.

Sir,

I have the honor to report on the Settlement of the land Revenue of this District for Fusly 1261, and to submit the prescribed accounts according to an enclosed list with the Report of the Sub Collector Mr. Clarke on the Settlement of his Division.—

2. Of the 4 Talooks of the Principal Division, Vizt. Madacolum Teroomungalum, Maylore and Rangherry the two last were settled by my Head Assistant Mr. Hodgson and the two first by myself with the exception of one Village in which the final adjustment of the demand was made by the Sub Collector after my departure on leave of absence - a previous Settlement being prevented by some questions which could not be immediately decided.—

3. The Summabundy of the year inclusive of Peishcush amounted to Rupees 1,78,279-10 P falling short of that of the preceding Fusly by Rupees 108534-3. and exceeding that of Fusly 1259 by Rupees 4382-10-1.

4. The large decrease below Fusly 1250 which was the highest on Record was owing to a very unfavorable season

Note

Up to Fusly 1259 inclusive the price shewn refers to the old Madura Measure containing 124 Rs. 6 as. weight. From 1260 reference is made in Column 1 to the Madras Measure of 120 Rs. weight. In Col 3 to the same measure heaped as is the practice of the Shopkeepers.—

The Survey Rate entered last year was given without consideration of the difference of Measure From a Memorandum discovered in the Cutcherry it is ascertained that the Survey Measure weighed 380 Pagodas whereas the Madras Measure weighs 400 Pagodas. The necessary correction therefore has been made in the present account.—

9 The Settlement of the Ayen Talook for the year inclusive of the Revenue of Cullymonthay Mootah which was acquired by purchase under the orders noted in the Margin amounted after deduction of remissions to Rupees 100,279—1—1 and was less by Rupees 98,678—6—5 than that of last year excluding Revenue of Cully Monthay Moottah, the decrease was Rupees 1,601—11—8. I annex a Comparative Statement of the Beruz of each Talook.—

H.S.B

10. In Fusly 1260 there was a large increase in Teroomungalum as noticed by the Board in their review of my Report. The further increase in the present year therefore will be considered satisfactory evidence of the steady progress of that Talooks towards its former state of prosperity from which it was thrown back by a series of bad years, and consequent emigration and growth of a noxious description of grass (Arroogum Pillo).

11. The subjoined statement exhibits the allotment of lands, remission and Net Settlement.

13. The excess in the Amount of Caboolcat Remissions was the natural consequence of the adversity of the season and it must be borne in mind that the preceding year had been more than ordinarily favorable. The failure of rain being generally a sufficient cause for non Cultivation-Waste to the Amount of Rupees 2896-8-9 only was retained in the Settlement being less by Rupees 3605-13-2 than the same Item last year - The particulars thereof are shewn below.

J. G. B.

Report. From the remainder a deduction of 154-2-0 is to be made for a small Money Tax levied in addition to the Malwaram Share of produce in Sittanaindul Vcu. resumed Villages in Ramnad for Straw which in this year is shewn seperately. The remaining Decrease arose from Trees having become fruitless and from cases being brought to light of tree tax being levied in addition to the Assessment on the land.—

Note. The small sum levied in Fuslies 1259 and 1260 was on account of a single Village where the Tax had always been usual.—

26. The grass Tax was discontinued in the Sub Division in Fuslies 1259 and 1260 in consequence of the Proceedings of the Board dated 30th July 1849 and reimposed under their sanction of the 9th June 1851. Hence an increase of Rupees 2,795-0-6 in that Division above 1260. The comparison in para 48 of the Sub Collectors Report is made with Fusly 1858. when the tax was formerly in operation. In the Ramgerry Talook of the Principal Division there was a decrease of 3,235-12-7 owing it will be observed to few offers being received for tracts of Grass land lying away from the Cultivation of the Ryots. These pastures were little in request being dried up from want of rain. Land is frequently taken up at the Cabooleyat as

Fort St. George 14th March 1853.

as if for cultivation but subsiquently used for grazing. If the Settling Officer were satisfied of the Ryots ability to pay such land might fairly be subjected to the full assessment and appear in the accounts as waste retained in the Settlement, but from fear of impoverishing Ryots it is generally assessed with the Grass Tax of 1/4 or somewhat less as shewn below:-

27. I consider this Tax just in its principle, and I do not think it oppressive in its operation. The main objection to which it is subject is the difficulty in carrying it out so that the engagement of grass land shall be apparently as well as really a Voluntary act - such is the combination among the Ryots, that persons who have been accustomed to graze certain lands near their cultivation will continue to enjoy them unopposed though they may refuse to offer for them; and in respect to the large tracts of pasture at a distance from cultivation persons who really require them make no offer in reliance on the difficulty amounting to almost an impossibility the Talook Servants will experience in protecting them against their cattle, I feel no doubt of the ability of the Ryots to pay the grass tax with a profit to themselves, nor that it is needful to protect cultivation. Both in Rangherry and the Sub Division cattle are raised for sale, and Grass land is appropriated by Ryots for adjustment of the cattle of traders passing thro the District, and

and if nothing is paid the profit thus arising would have a natural tendency to promote grazing at the expence of cultivation and the Government Revenue.—

28. I have recommended the Board to assign Rangherry to the Sub Collector in exchange for Tenkurray in view to the Grass tax and Police being more efficiently superintended than they can be by an Officer of the Principal Division having his chief station as must be the case, at Madura. The whole of the Talook is nearer Dindigul than to Madura, and this is so much the case as regards that portion of it in which pasture most abounds, that the nearest road to it from Madura is thro Dindigul 38 Miles being thus needlessly traversed It is desirable also for the purpose of securing uniformity of system that all the tax paying Grass lands should be under one Officer.—

Owing

32. Owing to the adverseity of the season and the suspence consequent on the examination of withered Crops, the Revenue was not Collected with the usual punctuality. The only considerable sums still due are in Madacolum and Meylare. Of the Balance in the former the greater part is for land formerly occupied by the Fort Ditch, and now laid out in streets on which owing to its having been intermediately cultivated to tax is levied of 9 Rupees per Cawny. Payment of this was long resisted, but will now be realized without further difficulty. In Meylare Rupees 382-6-9 are chiefly due for the quit Rent of one Village which has been sequestered for its recovery. I am not prepared at present to recommend that any portion of the Balance in the Principal Division be remitted.

33. For the reasons stated in Paras 77 and 79 of the Sub Collector's report I beg to recommend that the following Balances in the Ayempilly Talook be written off ₹ 339-9 against Palany Coadenben 70—"—10—" Rama Coadenben and I would extend the same indulgence to Veerapen who owes 63—8—"—on account of Fish Rent but is stated to have sustained heavy loss and to be a man of no substance.

43. A difference of 1,213 will be found between the number of Puttahs entered in the Rent Roll (Jr 19) and those given in (Jr 1) of the Sub Division accounts.

These relate to 2 classes of Ryots.

1st. Those whose entire lands were left uncultivated owing to death, desertion or poverty, and the demand thereon was remitted.

2d. Those whose entire lands consisted of Nunjah, the Crops whereon withered and the demand was consequently excused. It seems necessary that the Nr of Puttahs in the 2 Statements (1 & 19) should correspond. & I think that Puttahs for Class Nr 1 might be omitted & those for class Nr 2 retained in both.

Topes. 44 No land was granted for Topes in the Principal Division in Fusly 1261 but 4 applications were received of which 2 have been subsequently granted and two are still under consideration. In the Sub Division it will be observed

Fort St. George 14th March 1853.

observed from Paras 53 and 54 of the Sub Collectors Report that the applications were 38 and the Number granted Six.

The difference between the Divisions in this respect is owing I think to the prevalence of Nunjah in the Principal and of Wells in the Sub Division and in part also to the Sub Division being in a progressive state while the Principal Division (Ranghierry excepted) has comparatively already attained to the highest state of improvement of which it is susceptible.

45. As required by the Board's Proceedings of the 9th June 1851 I subjoin a Statement of the Sugar Cane Cultivation in the year under report exhibiting a decrease of 42-12- below last year owing to the adversity of the Season. In a Dindigul this Produce which for some years had been subjected to an Extra Tax of 80 per Cent was in the present Assessed simply as single Nunjah as sanctioned by the Board of Revenue under date the 15th September 1851. It is to be expected that this indulgence will operate to extend the Cultivation in future Years.

47 With reference to Para 13 of the Board's Proceedings of the 2d August last, I have the honor to inform them that I am daily expecting an elaborate report by the Sub Collector in regard to the Hill Villages. That Officer's remarks on the question raised by Mr. Dent relative to the accuracy of the statements in regard to Wells will be found in Para 57 to 65 of his report. It will be observed that he does not consider the number of new Wells exaggerated, but explains that they are not necessarily an addition to the total number as those which have gone to decay are not deducted. It is desirable, I think, that the latter also should be shewn, as the account is otherwise incorrect and the impression on the mind of a Reader of the Report would probably be that the total of Wells had been increased by the Number exhibited as newly dug, and an erroneous idea thus formed of the resources of the District. I will therefore request the Sub Collector to call for returns of old Wells against his future Report.

48. For the explanation regarding the Kistbundy required in Para 15 of the Board's Proceedings

To B. 2d Jan.y 1854
From D.o 20th Jan.y D.o

Proceedings of the 2d August last, I have the honor to refer them to the papers noted in the Margin. It was settled thereby that the A day Koday Crop though first in time should from it's being the lowest in value be considered the Extra Crop subject to Fussul Jastee. Thus Fusul Jastee being half the full Teerwa is represented by the half Cent or 50 which being divided by 4 gives 12-8 for each Kist as entered in the Kistbundy. The Board also directed that the 1st Kist for Kalum which is the chief Crop should be considered due in March as was previously the case.

49. With reference to Para 19 of the Board's Proceedings of the 2d August last and the Minutes of Consultation of Government dated 20th September following, Para 9, I have the honor to state that previously to the receipt of the sanction therein contained for writing off the Balance of 70-12-11- that Sum had been collected with the exception of 18 6. I entered in my letter of the 17th April last. I have therefore confined my orders to the Talooks for remission to this latter Sum. The amount due by the Notagar of Mangolum has been realized.

50. The Civil Engineer will be consulted in regard to the Maylore Tanks noticed in

in Para 2 of the Minutes of Consultation of Govern-
=ment above mentioned as soon as a Statement
required from the Tahsildar has been received.

51. In Statement No. 1 which have accom-
=panied the Summabendy Reports since Fasly
1251/1841/42 the area of the Ayn Talooks alone has
been entered at 10,692.¼ which is the same as the
extent assumed by the Board in their late Lenten
Report to Government as the area of the whole
District including Ramnad and Sivagunga
which comprize more than ⅓d. of it. The entry
in No. 1 hitherto is evidently wrong. In the
account No. 1 now sent I have therefore adopted
for the total of the Ayn Talooks, the areas
obtained by the Assistant Civil Engineer
by measuring the trigonometrical Survey
Map with threads. The detail for each
Talook was not furnished to me by that Officer
and as he made the Number of Square Miles in
the whole District less than that assumed by
the Board, his area for the Ayn Talooks is
probably less. I should be glad to be informed
on what data the Board's area of the District
is founded. It is to be observed that the
average per Square Mile given in the printed
Statement agrees with the area of the Assist-
=ant Civil Engineer not that of the Board.

An explanation of the large apparent
Increase in the Census of 1260 above that of Fasly
1247 was afforded by me on the 22d November 1852.

52. I subjoin a Register of the lands
acquired during the Fasly in the Principal
Division in which Public servants have an
interest. It is out of my power to certify
that my permission was previously obtained,
for in each of the two cases, the fact of
purchase was ascertained after it had
occurred. In excuse for the failure to
apply for permission it was stated
by the Naib Sheristadar that his brother
made the purchase without his knowledge
while he was absent from home on duty,
and by Audeyapah Pillay that he construed
the Rule to apply only to the Talook in which
the Public Servant is employed. The necessity
of stricter attention to the order was im-
=prest upon each.

The acquisitions by Public servants
in the Sub Division are Certified by the Sub
Collector in his report. I would wish to be informed
whether a general Register for both Divisions
should be Kept in the Collector's Cutcherry
and extracted for each year in his Report or
whether the plan adopted on the present occasion
may be continued.

Bds Pro: 2d augt 1852 Para 16
Min of Cons. of Govt 20th Sept. 1852. Para 13.

The general Register is under
translation from Maharatta and will be
forwarded at an early date.

53. Of these there are four in the District, Vellyagoorudum, Ayacoody, Rammad and Enadachnarikoor. The first is at present under sequestration for arrears of Revenue. Ayacoody is reported on unfavorably in Paras 67 to 70 of the Sub Collector's Report and I would recommend its being taken under the Court of Wards. Rammad is in possession of a female Proprietor, the Ranee Purvudhavurdhany Nachearu who manages it by means of her brother Kotasawmy Taver. The size of this Estate being almost equal to one of the Divisions of the District, it is impossible for the Collector to have a minute knowledge of all that is done in it, but it is notorious that two great defects of administration which I have noticed in former Reports and on which I have remonstrated with the Zemindar still continue to exist. Viz:- Neglect of the sources of irrigation and irregular payment of the public servants. There is also a dispute between the Zemindar and the Ryots of one of the Talooks in question on which the Board

Zemindaries in the possession of incapacitated Proprietors.

Board recorded their sentiments at length in Proceedings dated 21st April 1826. Viz. the rate at which the Ryots should receive credit for the payment in Rupees of their Rists which are expressed in the Zemindary accounts in Cully Fanams. The Board considered that the Zemindar should receive from the Ryots at the same rate of conversion as was fixed for his own Peshcush in the Istimirarree Account Viz. 1 Star Pagoda or 3½ Rupees for 18 Cully Fanams. No arrangement to this effect however seems to have followed the declaration of the Board's opinion and I find traces on the Records of the prayer of the Ryots for the Establishment of this rate having been subsequently rejected by the Principal Collector and the Board. They now renew the same claim and I am engaged in searching for all decisions on the subject. The Zemindar pays her Peshcush with regularity and except on the points noticed above the Complaints are not numerous or important considering the large extent of the Zemindary.

54. The Sub Collector having omitted + observation regarding Errasakanaikoor which is also one of the Estates of incapacitated Ryots mentioned in the Statements submitted with my letter of the 25th September 18[illegible]

+ Note since furnished and forwarded herewith No 23 of this packet.

he has now been requested to furnish the report which will be submitted to the Board as soon as received.

55. The Rent Roll of the present year compared with that of the preceding exhibits a decrease of Puttahs between 750 and 1000. 1 Principal Division. 500 and 750 — 5. Principal Division. 2. Sub Division. as well as in other high Numbers. All are attributable to one cause Viz. the adversity of the Season which in some cases contracted Cultivation and in others caused the Crops to wither.

56. As required in the Proceedings of the Board of the 20th August 1832 a Statement is appended of 4 Classes of Charges compared with the Revenue for the whole District. A similar Statement for the Dindigul Division is embodied in the Sub Collector's Report with the addition of Inamems granted to Village Servants, as these Inaumums are not included in the Summah, I have omitted them in this place. In Statement No 15 the charges under this Head for the whole District will be found entered at Rupees 1,31,761-9-5. a P.

57. I have omitted in the proper place to request the Board's attention to the question put in Para 55 of the Sub Collector's report Viz.t whether Poonjah or Garden Tax should be imposed on lands taken up for Topes as Poonjah; but on which the Planters have subsequently dug wells. I think it expedient that Poonjah Bagayat Teeruvah should be levied in the Case supposed in order that the Principle of taxing all products alike may be preserved.

58. The subject of the Cultivation of the Wheat seed does not properly belong to the Fasly and will be reported on separately. The experiment may be said to have succeeded on the Hills and failed in the low Country.

59. The Sub Collector notices his Sheristadar with commendation and the Head Sheristadar exerted himself to the best of his abilities in the Settlement of the Talooks under my care

Poruvoy Kovil Villages.

The original Enam of the Sultanary of Tiruvadi being suspended for Cultivation, after having been granted by Proceedings dated 1st March 1835 Upon examination it being proved that the Enam Poruvoy &c. on the Village of Peddapattu, had been resumed & the Amount was carried to open Accounts. The Manigam Land, enjoyed by an individual in the Village of Veiyapperumbuly, was resumed on Commutation & account of Commencement of Cultivation. The Nelli Land was let upon a Sultanary Mamool & the Land thereafter upon an Enam Cadcan to the Village of Tiruvadi (Tondon and Vivasayee) Upon Examination of the Complaint of Certain Inamdars of Cottanatham Village regarding the difference of Jamma (or classification) of Lands, it being proved that by mistake Pounds Land of that Village had been entered as Enam Lands, the same have been restored.
