Circular

Sir

I am directed by the Board of Revenue to furnish for your information and guidance the following Rules in respect to female pensioners or Pensioners approved by Government in Extract from the Minutes

Fort St. George 1st July 1850.

In Cons. 17th June 1850 1314.

Minutes of Consultation dated 5th June 1850.

1st That on reasonable cause of suspicion a Collector is empowered to call on a female Pensioner to prove her identity by a personal appearance before him and that on her failure to do so within a given time, not only her Pension shall cease, but those persons who have certified her life and drawn her pension, shall be liable to the forfeiture of their own yeomiahs or Enams, unless they can prove satisfactorily that she died subsequently to the latest period for which they may have certified her life, or received her pension.

2d That the personal appearance of all females above the age of Fifty years, be insisted upon, under the same Rules which are in force in the case of male pensioners.

The Board further direct me to state that the personal inspection of Female Pensioners under the first rule, is only to be resorted to on strong grounds of suspicion and is then to be conducted in the manner the least likely to wound the feelings of the party interested.

taken under Sequestration and containing instructions on the subject also stating that Govt will forego the Interest in the event of the principal due by the Proprietor being realized.

Governor in Council is disposed to concur in the views and recommendations of the Board of Revenue in regard to the Gumtamanaickenoor Estate, in the Madura District as presenting the best means for recovering the arrears of public revenue and eventually relieving the Zemindar from his embarrassments. We therefore directs that the Estate be taken under sequestration and he suggests that as a mode of management it be made over to the Renters on the terms lately proposed by them or on the actual terms of the lease before granted to them. It is observed that in the former case, the Zemindars private cultivation is to be allowed him gratis of course for his subsistence. but it should be ascertained what is the value of these private lands and whether their produce would be sufficient for his support. In the event of the condition of the original lease being adhered to it will be necessary after providing for the payment of Current Peishcush and instalments of the arrears, to arrange from the remainder of the rent Amount Rupees 15,914 for the maintenance of the Proprietor.

Proprietor and the reimbursement to the renters of the sums expended by them on Maramut. The Board of Revenue will be pleased to settle these points with the Collector.

2. The Governor in Council will be prepared to forego Interest in the event of the principal of the Arrears being realized under this Arrangement above Authorized.

of Rupees, and on their recommendation Government authorized the Estate being taken under the management of the Court of Wards on behalf of her minor son Mayaumaur Vettil Vengy Raman. It was subsequently reported that the "personal property consisting of Bonds, Jewels, Silver and Brass Utensils" were estimated at Rupees 19,105-2-10 besides Rupees 1503-7-11 in cash which it was proposed to invest in Government Securities. The revenue derivable from lands and houses was estimated at Rupees 3680-9-5 from which charges to the extent of Rupees 1231-3-3 were to be incurred. In the Minutes of Consultation dated 11th May 1826 No 528 the Board were instructed to recover at an early period on behalf of the minor the sums outstanding on documents executed to his deceased father; and for balance of rent, represented to amount to Rupees 45,596 and to furnish annually for the information of Government a report on the management of the Minor's property and the progress of his education.

Dy 12th May 1826 No 30-31.

2. The first report on this Estate was furnished by the Sub Collector on the 26th June 1848 or more than two years

years after orders of Government, and embraced the management of its affairs from June 1844 to April 1848 or a period of nearly 4 years the information then given was not deemed by the Board to be sufficient and Government exspressed a hope that the next report would place the accounts of the Estate in a more satisfactory view.

3. The present is the second report in continuation of the above and extends from April 1848 to 13th September 1849 or a period of 17 months. The receipts within this period chiefly for Rent were Rs 9802--96¾ and added to the Cash previously in hand Rupees 4243-1-8 amounted to Rupees 14,045-2-4¾ The disbursements including Rupees 2,500 placed in the Government Securities, amounted to Rupees 8,014-3-69¾ leaving a surplus of Rupees 6,030-2-35 in favor of the Estate. The sums to be recovered for the benefit of the Estate amounted to Rs 46,240-2-17 viz

On account of Rent ... 3,318--28
On account of outstanding debt ... 42,922-1-89
4.

Of this latter sum it appears, from a separate report furnished by the

the Sub Collector, that more than one half or Rupees 34,338-1-9¾ is considered irrecoverable, and that Rupees 4,871--89¾ were erroneously entered in the original accounts that was framed, deducting these two sums there remain only Rupees 13,712-3-7 of which 500 will be recovered immediately, the remainder by means of Civil Suits.

5. The Right Honorable the Governor in Council observes that the report submitted by Mr Chaitfield upon the management of the property from April 1848 to September 1849 is exceedingly meagre being indeed confined to a mere statement of the sums collected or expended with little that time. But the demand is not given, and there is nothing to shew whether the receipts, and disbursements entered in the various columns are wholly on account of the period reported on, and if not, what proportions of those sums belong to previous years, nor, as remarked by the Board, does it appear, whether the balance shown in column 18 is current balance or includes the arrears of preceding Faslies

such

such a report is far from satisfactory and affords no accurate information in respect to the condition of the Estate or the mode in which its affairs have been administered

6. The Government desire that as already ordered a report on this property may be henceforth furnished annually for the Fusly year shewing as in the case of all other Estates under management the mode in which the revenue is administered the demand under each Name Collection and balance both of Current revenue and of arrears, with the usual account Current and full explanation in regard to all charges and disbursement entered in it. In submitting this report for the Fusly (1259) now closing which he should within 6 weeks after it has expired the Sub Collector will also forward with it a Statement shewing the Demand Collection and Balance Current and arrears charges and surplus revenue for each year since the Estate was taken under the Court of Wards with explanation on all points which may require it.

Extract from the Minutes of Consultation under date the 20th June 1850.—No 604.—

Read the following Memorial from Mr. G. F. Fischer Mootahdar of Salem.

To The Right Honorable Major General Sir Henry Pottinger G. C. B. Governor in Council of Fort St. George.

The humble Memorial of G. F. Fischer Zemindar of Salem Mootah.—

Sheweth,

That your Memorialist feels reluctant

reluctant to trouble your Honor in Council with an Appeal on a subject, which in the pecuniary interest it immediately involves, is so insignificant as it will appear to be in the following exposition of his case, but he is induced to regard a certain principle as being at stake in the controversy that has arisen, and it is therefore that he is led to submit the present reference.-

2. On the 6th July last, your Memorialist requested the Collector of Salem to allow him to pay his Kist then due (Rupees 1926-13-1) by a Bill on Messrs Binny & Co of Madras and gave as a reason for pressing the grant of the indulgence that his Ryot were two Kists in arrears to him "from the failure of rain and the cheapness of grain," and also because the Salem Treasury was shut against Bills from the Accountant General.-

3. On the 25th July a reply was written to your Memorialist (from Cossor) sanctioning his paying his Kist by such a Bill, and on the 26th he accordingly handed over the Bill, which was at 10 days sight on Messrs Binny & Co Madras, to the Tahsildar

Tahsildar of Salem.

4. On receipt for the Kist discharged by this Bill having been given to your Memorialist up to the 11th October, he on that day addressed the Collector and requested orders for one being issued to him. The reply was a call by the Tahsildar of Salem upon your Memorialist to pay a certain sum for "Interest" due on the Kist discharged by the Bill, from the 1st July to the 13th August. To this your Memorialist demurred, and a correspondence ensued, in the course of which he (your Memorialist) admitted that interest should be charged from the 1st to the 26th July in conformity with Clause second, Section II of Regulation XXVII of 1802, but objected that from that date, being the period of his handing over under permission the Bill at 10 d/s on Madras in satisfaction of his Kist, none should either fairly or legitimately run. Your Memorialist was however overruled on the point by the Board of Revenue, who quoted and adopted, as decisive of the case, an opinion expressed by the Accountant General to the effect, "that if by accepting payment of a Kist "in any but the usual mode, actual payment

Proceedings Board of Revenue January 17th 1851

"is deferred sufficiently long to constitute
"the unrealized portion or the whole an arrear
"of Revenue under Clause II, Section II, Re=
"=gulation XXVII of 1802, interest is justly charge=
"=able from the date on which it so became
"an arrear of Revenue" an opinion however
which, your Memorialist with deference
submits, is not conclusive on the point
at issue; for the Accountant General in
the above extract is to be considered
as rather laying down a starting point for interest
/the correctness of which is in no degree
disputed/ than to be defining its proper
termination.-

5. Indeed the whole question
/and relative to which it is that your
Memorialist now respectfully appeals
to the Government/ rests upon the inter=
=pretation to be put upon the term "actual
payment" as applied to the particular
case at issue. The Board of Revenue
holds/ as it is to be inferred/ that
"actual payment" can only be considered
as made when the amount of a Bill
is paid into the Treasury at Madras,
while your Memorialist on the other hand

contends

contends that the circumstances of such a
Bill make it, in every fair, liberal and le=
=gitimate estimation, a Cash payment at the time of
its being handed over to the local Revenue
Authority.-

6. Your Memorialist prays your
Honor in Council to consider what are the
circumstances attaching to payment of Hist
in Cash on the spot or by an order on Madras.
In the former case, the specie has to be for=
=warded at some expense and inconvenience
to the Hoozoor Treasury, and then to be re=
transmitted from the latter to the Treasury at
Madras, under the heavy expense and
public inconvenience of a detachment of troops
to escort it, besides the Cost of conveyance and
other unavoidable outlays add to which
that very considerable delay does and must
occur, between the time of receiving the
money in the province and its deposit in the
Treasury at Fort St. George Now with respect
to a Bill given on Madras, under the discretion
of the Collector of Revenue, all this expence,
all this public inconvenience, all this delay
is saved to the state within 16 days the
actual Cash is, or might be realized into

the

the Treasury of Fort St. George, and this with=
=out any risk being incurred, for it is obvious
that a mere fortnight to lapse could never
in any way affect the security of Govern=
=ment in respect of the ultimate realization
of any Kist that might be due.-

7. If then the "mode "pursued
in the settlement of Kist by a Bill
be thus shewn to be palpably to the
advantage of Government, it is surely not
asking too much to claim from the Govern=
=ment that the Act shall not be fraught
with a peculiar and unheard of disad=
=vantage to the Kist payer, that in
short this settlement in the province in
which form so valuable a character of
remittance to head quarters / shall not be
treated differently from any other mode of payment.

8. - Throughout the foregoing your
Memorialist has spoken only of a Bill
on Madras, such as the one he gave,
at a term namely of 10 days sight. He
does so, because he quite admits that
the fair privilege he is contending
for could not reasonably be expected
to apply to Bills at indefinitely long

terms

terms; while those at 10 days sight stand
so entirely within the category of the orders
granted by the Government itself (through
Paymasters and Collectors) on the Account=
=ant General at Madras for Cash paid
into the local Treasuries in the provinces,
that it is deemed an overwhelming reason
is presented for Kist payers not being
denied the consideration which is now sought
by your Memorialist, and which is thus shewn
to be taken by the Government as a matter
within the ordinary course of financial
business. -

9. Your Memorialist feels further
constrained to bring under the notice of
your Honor in Council, how very opposite
is the treatment which he is made to receive
according as he becomes a claimant upon
or a debtor to the State. He respectfully
invites attention to the claim, which formed
the subject of his Memorial to the Honorable
Court of Directors of the 25th May 1849,
and in which although a rent was eventually
acknowledged to be due to him and the
principal of it paid, both the Board
of Revenue and the Government absolutely

refused

Fort St. George 1st July 1850

refused to disburse to your Memorialist one
piece of the interest that had accumulated
during the seven long years that the
claim for rent had been (illegally as the
sequel proved) resisted Again, your
Memorialist is Contractor for the supply
of Salt petre to the Government. In the
early part of the month of August last
year, he completed the delivery of the
old contract, and requested that the
Balance of Money due for the same
might be paid to Messrs. Binny & Co.
on the Assay being completed. The
Assay was completed at the Gunpowder
Manufactory on the 15th September. On
12th October the Military Board sent
to your Memorialist a form of Bill
to be signed it was returned duly signed
on the 20th idem and the Board was requested
to expedite the payment of the money (Rupees
7196-1-9) through the Salem Treasury
as desired by Messrs. Binny & Co. Having
occasion to write to the Board on the
1st November, it was incidentally observed
that the above Balance still remained

unpaid

Fort St. George 1st July 1850

unpaid. On the 15th November a letter of
the 6th was received from the Board ob
serving that the Bill had been sent to
Government for sanction, and another letter
of the 10th stated that the sanction had
been given and the amount would be paid
at the Salem Treasury. Thither your Memo-
rialist repaired, but the constant answer
he met was "no instructions" and he reported
this to the Board on the 29th November. The
result of the complaint was that by the
10th December your Memorialist was in-
formed that the money would be paid
to him at the out of the way Treasury
of Trichinopoly: and thus was he kept
for between 2 and 3 Months beyond the
time at which his Balance of Money fell
due to him. but for which delay no interest
was accorded. To this your Memorialist may
add that, in respect of the new Contract
for Salt petre, although a letter from
the Military Board of the 24th December
notified that the advances stipulated for
had been authorized to be paid at the
Salem Treasury it was not until the 9th
January 1850, a delay of 16 days, that
the Money could be obtained because

no

"no instructions" had been sent by the Accountant General.-

10 On the other hand in the case now submitted to your Honor in Council, how very different has been the principle acted upon your Memorialist has exposed the Government to neither loss nor risk; nay he has made a settlement of his Kist, which is productive of positive advantage to Government. But it is supposed that the letter of the Regulation binds him to the payment of some trifle of interest on Revenue, and forthwith is the exaction carried out. Your Memorialist however appeals to your Honor in Council to interpose in prevention of such a proceeding as this; and he prays the Government to declare that Zemindars, in their contributions to the public revenue are entitled to be treated in the spirit of a fair, liberal and comprehensive regard for the Regulations framed to bind them, and not to be harassed with every petty exaction, which

a consideration solely for the interests of the state Landlord may seem to justify.-

And your Petitioner shall as in duty bound

Ever Pray.

Sir,

(18-19)

To the Chief Secy to Govt.

With reference to Extract from the Minutes of Consultation dated 20th ultimo No. 64, I am directed by the Board of Revenue to submit their Report as follows on Mr. G. F. Fischer's Memorial

Memorial, which accompanied the said orders.—

2. The practice of charging Interest on arrears of Land Revenue was found to differ so greatly in the several Districts, but the Board were induced to issue instructions, under date of 17th January 1848, to all Collectors, that the course prescribed by Clause 2 of Section II Regn. XXVII of 1802, viz.t that Interest shall be charged from the 1st of the Month following that in which the Kists fall due, be invariably pursued.—

3. It will be seen from the correspondence noted in the Margin that the question of Interest on Mr. Fischer's arrears of Kist for June 1849 was in the first instance submitted by the Collector of Salem to the Accountant General who gave it as his opinion "that if by accepting payment of a Kist in any but the usual mode, actual payment is deferred sufficiently long to constitute the unrealized portion, or the whole, an arrear of Revenue under Clause 2, Section II Regulation XXVII of 1802, interest is justly chargeable from the date on

on which it so became an arrear of Revenue"—

4— In this opinion the Board of Revenue were entirely concurred when the question was referred for their decision, and they accordingly directed that Mr. Fischer be charged with Interest from 26th July to 13th August, the date his Bill on Messrs. Binny & Co. became due in addition to the Interest from 1st to 26th July, for which he admitted his liability, and they find nothing in the arguments advanced by Mr. Fischer in his Memorial to Government, to induce them to alter their views, or to recommend a concession in his particular case— It was by Mr. Fischer's own shewing, a convenience to him to pay his Kist by a Draft on Madras instead of in Cash—

Relative to the Settlement of Land Revenue in the District of Bellary in Fasly 1258—

(Here enter 16th May 1850— No. 220—)

Para. 1— The season of Fasly 1258. in

in Bellary tho' on the whole less propitious than that of Fusly 1257, was of a similar character. In both it was favorable for the cultivation of the lighter red and mixed soils - but not equally so for the cultivation of the heavier black, and of the irrigated lands - The extent of light soils brought under the plough in Fusly 1258 was considerably more, that of other descriptions of land less than in the previous year. The result has been an increase in the quantity of land under tillage of 42,401 Acres, but as the increase in the culture of the less valuable land has not compensated for the falling off in that of the superior soils, the assessment on the whole extent cultivated is below that of Fusly 1257 by Rupees 85838.-

2- During the three hot months of April, May and June, the District was visited by Cholera, which from the proportion of deaths to cases must have been of much virulence - A murrain also prevailed among the cattle and the Crops of Wheat and white Cholum were blighted to same extent.—

Except

3- Except in Cotton the price of which has been enhanced, tho' apparently, rather from the scantiness of the Crop than from an improved demand - the prices of agricultural produce in Fusly 1258 have declined, but not to a considerable degree.

4- The Jamma of the year under report was Rupees 3102131 from which deducting Rupees 387503 as Caboolaty Burjee the remainder or actual gross Settlement was Rupees 2714628. The remission upon this amount under the usual heads were Rupees 713301 leaving a net Settlement of Rupees 2001327. The addition of Rupees 1109 on account of suppressed cultivation and Sashee Cowle, raises the net Ryotwar demand to Rupees 2002436. The entire net revenue including Quit rent on Enams† and on lands occupied for European Bungalows - and deducting ready money allowances to Pagodas, stands at Rupees 2181374 and falls short of the net Settlement of Fusly 1257 in the sum of Rupees 50151.

† Rupees 179808.

& Rupees - 723.

& Rupees - 1593.

5- Of the entire demand as above given Rupees 2154532 were collected within the fusly and the balance had been reduced by the end of February last to Rupees 6697 - 1 - 7 -

The

6- The land held under Cowle fixed or progressive during the year under report was of the full assessment of Rupees 17,300, of which Rupees 15,004 were remitted for Cowle &c. and Rupees 2,326 brought to account. Mr. Pelly has remarked upon the great decrease in the quantity of black land now taken up in Bellary under the great plough Cowle, as compared with past years.- "It averaged formerly 15,7000 Rupees annually it is now only Rupees 13,000". This falling off he ascribes in part to the too strict application of the rule requiring the land in all cases to be fully cleared, but chiefly to the high and unequal pressure of the assessment upon this description of soils- This latter reason, coupled with the restrictions now imposed upon the relinquishment of unprofitable lands, is in another part of the report, assigned as the cause of the alleged deteriorated condition of the whole district- On the subject of the assessment Mr. Pelly appears to have addressed the Board in separate communications, which have been

Para 14.

Para 20-

been apparently replied to, subsequent to the despatch of the present report- The Board have been unable to concur in his views on the grounds of their being averse to any partial or incomplete revision of an assessment which has been the recognized standard of demand for so many years- The correspondence between the Board and the Collector Mr. Mellor relative to the condition of the Bellary District and the working of the present revenue system is before Government, and the Right Honble the Governor in Council is not prepared in this place to enter upon the general question of the assessment of the Province though he wishes the proceedings of the Board of Revenue to be submitted for eventual reference- He may however observe that as the assessment is still the same as it was when the Cowle system was in its fullest operation it is not clear how this cause can have brought about the decline- With respect to the clearing of Cowle lands in Bellary a Ryot taking land on Cowle is required to retain and pay for it- not only until the expiration of the Cowle term but until it shall have been fully cleared-

cleared- It was found at the last Summah-
=bundy that under this rule, Ryots year after
year had had waste Coule Teerwah land im-
imposed upon them which they were wholly un-
unable to clear and the charge for which
"prefsed even to sum in many cases." The
Acting Collector personally investigated every
case minutely and when he was satisfied that
the Ryot had not the means of reclaiming the
uncleared portion of his Coule land / the
Coule of which had in most cases ceased for-
years / he struck it out- The amount remitted is
supposed by the Board to have been Rupees
1800- The Government however understand that
the 1800 Rupees mentioned by the Collector in
para 15 of his report as having been relinquished
was upon those lands which had arrived at
full assessment in Fusly 1258 and the three
previous years - whereas the remissions
spoken of in the preceding para were on lands
the Coule of which had long since escpired.
The amount of these latter remissions
is not stated, as it should have been,
but from the explanation furnished
by

by the Acting Collector there seems no reason
to doubt that they were urgently required-

+ Para 22.
Fusly 1257 - 41604-
" 1258 - 26480.
15124-

It is satisfactory to observe that
the amount charged upon the Ryots for waste
land was much less than in the preceding Fusly-
The Board have also cancelled the restrictions
which precluded the poorer Ryots from indulgence
on account of Wells constructed at their own
cost- The attention of the Board has very
recently been called to the importance of dispos-
=ing of the whole question of Well Cultivation
with the least possible delay-

* Contract Minutes Cons: 7th June 1850. P. 8-

8- In para 19 the Acting Collector
has given an abstract of the District Rent Roll
for Fusly 1258- There is an increase above Fusly
1257 of 403 Ryots, which increase while there is a
decrease of revenue is attributed by Mr. Pelly
to a more extended cultivation of the low assess-
=ed lands for which the season was peculiarly
favorable-

9- The Board have directed that
the Table submitted by the Collector shewing
the time of sowing and reaping the different
descriptions of produce in Bellary may be
furnished annually with the accounts of
the Settlement. In the present Table
Indigo

Fort St. George 1st July 1850.

Indigo has been omitted, a revised table may be forwarded with the addition of Indigo, and the Column "proportion of produce" may, as suggested by the Board, be verified, but when an accurate return has once been obtained it may thenceforward be taken as a standard for reference. It does not appear to Government that the annual transmission of such a table can answer any purpose. The time of sowing and harvest can vary but little from year to year, and if in any season any very marked deviation from the ordinary course should occur it may be noticed in the report. The Right Honorable the Governor in Council is of opinion that the number of Accounts at present furnished with the Settlement reports should not be increased without some very cogent cause.

## Extract from the Minutes of Consultation, under date the 25th June, 1850.- No 618.-

Read the following Exctracts from the Proceedings of the Board of Revenue.-

/Here enter 27th May 1850.- No 237/

Para 1. The season of fusly 1258 in Nellore, although not so favorable as that of the preceding year, particularly for the Nagany or Wet Crops, was on the whole an average one.- As regards the Sanatory condition of the District it is stated that small pox and other diseases prevailed to some extent from September to December and that Cholera appeared partially from January to the end of the fusly, but the mortality from the cause was not considerable. An Epedimic attacked the Cattle in some Talooks and to such a degree as to impede the Cultivation of the irrigated lands.-

2- Prices were low both in comparison with those of Fusly 1257 and with

Fort St. George 1st July 1850.

with the average of the previous ten years. They were also below the commutation rates.

3 The extent of land taken up for cultivation in the Ryotwary Villages fell short of the dittum of fusly 1257 by 1640 1/32 Goorties assessed at Rupees 27956-5-2 the decrease being attributable to the character of the season and in part likewise to the transfer to rents from Annamie of 29 Villages of the Sydapooram Talook. The deduction from the dittum on account of Calicotaty Buyjer amounted to Rupees 2134-12-11-7 leaving a gross ryotwar settlement of Rupees 120396-14 composed as follows.

| | |
|---|---|
| Actual Cultivation | 114683-12-8 |
| Cuessory or Teervah of waste land charged on account of the neglect of the parties to cultivate it | 3373-10-5 |
| Fusul. Jastee | 2954-6-4 |
| | 120396-14-0 |

The settlement exceeds the average of the past 6 years tho' is below that of Fusles 1256/7.

4. The remissions from the gross demand were Rupees 23517-0-10 or above those of the preceding year but

19,37,230 2 7

The total land revenue settlement under all heads amounts to Rupees 19,37,230-2-7 and falls short of that Tuoly 1257 by Rupees 1,76,134-5-5

The Collections of the above demand were.

| | Settlement. | Collections within Fuoly | Ditto to 15th October. | Balance. |
|---|---|---|---|---|
| Ryotwarry including rents and ready money Collections | 14,14,413 14 5 | 13,17,026 11 .. | 80,277 11 5 | 17,111 5 .. |

This balance at the end of March last had as appears from Para 11 of the Boards Proceedings been reduced to Rupees 20,916-2-5 consisting of.

Ryotwary Balance ——— 20,003 13 8

Zemindary Do due by Chittaty war Collicm ——— 455 .. 6

Russoums &c ——— 427 4 3

The above Ryotwary balance must however include the outstanding demand on account of Shotriems as the mere Ryotwary Balance as above shewn was only Rupees

From the Secretary to Government ... Reviewing the report of the Commissioner Northern Circars respecting the Measures taken for awarding Compensation to Maniemdars in Rajahmundry whose lands have been occupied for public purposes and the claims of Government for revenue from Enamdars who have been benefitted by the improvements in irrigation.

No. 1244

Extract from the Minutes of Consultation, in the Revenue Department, under date the 5th November, 1853.

Read the following letter from the Commissioner for the Northern Circars.

Here Enter 19th September 1853 / No. 91 /

In the above letter the Commissioner Northern Circars reports in reference to the call made upon him in Extract Minutes of Consultation 9th September the measures which he has taken on two subjects of great importance connected with the large irrigation works under execution in the Northern Circars 1st the Compensation to be awarded to those Maniemdars whose lands have been occupied for public purposes during the progress of the works, 2d the claims of Government for Revenue from Enamdars who have been benefitted by the improvements in irrigation thus effected at the expence of the State.

With

2. With respect to the former of these questions, Mr. Elliot states that his attention was first specially directed to it by the presentation of certain Petitions when he was passing through the country affected by the Godavery projects in February 1852 - In transmitting these to the Collector and calling his especial and early attention to the subject he requested him on the ground of the inconvenience and embarrassment to be expected from any delay undisposing of such claims to compound provisionally with the cases as they arose by making over to the parties other lands in exchange for those so appropriated, the arrangement to be subject to the future confirmation of Government when the works were so far advanced as to admit of the whole being presented under one view. This plan was communicated to Colonel Cotton who was in his camp at the time and with whom he had several conversations on the subject and that Officer concurred with him in thinking it would be perfectly satisfactory -

With

With the exception of the recital Communications above referred to Mr. Elliot has not, he states received a single reference from any quarter connected with the matter at issue, nor has one petition of a similar nature been received subsequent to those abovementioned - He had therefore been under the impression that the steps already taken were sufficient to obviate any present hardship or difficulty. On the 8th September 1852 the Collector's attention was further called to the preparation of a correct statement in the form of a register of all such cases and in his reply he stated that the Tahsildars were engaged in drawing up returns of them, the result of which should be duly reported - A further reference has been made to him the reply to which shall be submitted without delay.

+ 22d Sept.r

3. The Right Honorable the Governor in Council observes that the last communications on this question from the Collector to the Commissioners appears to have been made more than a year ago when the further reference alluded to was addressed

addressed by the latter to the former Officer is not noted. It is clearly a matter not only of justice but of policy that such claims should receive early attention and be liberally dealt with and any unnecessary delay in their adjustment is not only a hardship in itself but cannot fail to affect the popularity of the works. The Government entirely approve the principle proposed by the Commissioner and concurred in by the Chief Engineer and desire that it be acted on with promptitude and in a liberal spirit on account of the Linear land which may thus have been made over being submitted annually for sanction with the Settlement report. They also desire that all claims that may still be undecided may be settled forth with. The Board of Revenue and Chief Engineer will as requested by the Commissioner forwarded to him for redress any representations of individual grievance that may have been presented to them.

4. With respect to the second question referred to him Mr. W. Elliot States

States that considerable correspondence has taken place with the Collectors of Rajahmundry Masulipatam and Guntoor, on the terms on which private individuals are to be allowed to partake in the advantages of public improvements. Up to the present time it was only in Rajahmundry that the point called for immediate solution and in Fasles 1261 and 2 a Seeruva fasley was imposed at the rate of 1 Rupee per pooley on all wet lands receiving additional water and 2 Rupees on dry lands converted into wet on the understanding that a future definite arrangement will be made at the time of the Survey It was considered by the Collector and himself that the moderate assertion and adoption of the principle having been thus established sufficient had been done in the first instance in overcoming a difficulty which promised to provoke much resistance and opposition. It was his intention as soon as the rains are over to proceed to Rajahmundry for the further consideration of this important question and of several others which urgently

urgently demand attention.

5. A Poothie in Rajahmundry is understood to be about 8 Acres, the Maximum rate of Teerwa Jastee mentioned by the Commissioners is therefore only ¼ Rupee per Acre. It is not clear whether by the expression "private individuals partaking in the advantages of public improvements" is meant Enamdars only or generally all cultivators who derive a supply of water from the irrigation works of the Godavery. However this be the rates spoken of seem to be altogether inadequate and instead of beginning with extremely low rates to be enhanced at a future time being a means of facilitating a proper Settlement it appears to Government to be likely to impede it for the Ryots having tasted the advantages will be apt to contend strenuously for the 1st Assessment. The Teerwa Jastee in Rajahmundry on land converted from dry into wet must be well known and

and also that on wet land made capable of producing two crops whether there should be an Extra Assessment except in these two well defined cases is open to question. At all events the differences in the Assessment of wet and dry lands must be perfectly well known, also between the charge on one and two crops and from these data the proper rates of Teerwajastee it may be presumed could be easily deduced. The Government desire that the Commissioner will proceed without delay to settle a rate for all Ryots whether Enamdars or others liberal to the cultivator but just to the Government, an equitable rate, which cannot be reasonably objected to and is not to be open to future readjustment except on a large and protracted decline of prices and to report the arrangements which he may make for the information of Government. The present temporising expedient is very inadvisable. An early or immediate final and full

full disposal of the matter is highly necessary.

The Board of Revenue recommend
that Land bearing an assessment of 70 Rupees
be assigned on Enam tenure to the heirs of
Sanadee Maistry on account of the large
expenditure incurred by him in the Construc-
tion of the Collagul Tank and it is
stated by the Collector that "the good service
performed by that individual is evident for since
the Tank was built the revenue of the Village
has increased from Rupees 1,225 to Rupees 3090-

The Right Honorable the Governor

as to the maintenance of a preventive Establishment

Para 24 6. The Board of Revenue have properly remarked upon the large amount of the Pyotwary and Shotrium Balance and have repeated their instruction that the latter Villages be settled on rent in preference to Aumany. The report upon these tenures is observed to be still due as are the reports upon several other important questions connected with the land revenue of the District. Viz, on the Poolliay case the highly assessed lands and the alienations from the Sydapore assumed Zemindary. The transmission of these reports may have been delayed in consequence of the recent appointment of the present Collector but his immediate and careful attention should be given to these subjects and no more time should be lost in disposing of them.

7. Under the explanation of the Collector supported by the Board of Revenue the Right Honorable the Governor in Council grants authority for writing off from the public accounts the sum of Rs 4929-5-7 Four

Four thousand nine hundred and twenty nine, and Annas five, being the Amount of the irrecoverable balance of Fusly 1257.

8 The Right Honorable the Governor in Council concurs in the observations made by the Board Para 6 upon the Cussoorie charged during the year under review which tho' less than the amount levied in many previous years is yet higher than the charge in Fusly 1256/7 notwithstanding the more favorable nature of the seasons in those years. He also approves their instructions in Para 17 relative to the remeasurement of lands.

9. The attention of the Board of Revenue is called to the orders conveyed in Para 8 Extract Minutes of Consultation 12th July 1836 and other orders to the same effect which require that native revenue terms should be employed sparingly and that when used their meaning should be given in the Margin. The present report abounds with native expressions many of which it is believed are almost if not altogether

Reporting upon Petitions Nos 540 and 543 of 1853.

Adverting to para 10 of my letter dated the 21st Ultimo I have the honor to report upon the accompanying two Petitions therein referred to.

2 From the report of the Tahsildar of Goorumconda it appears that the petitioner in Petition No. 540 of 1853 affirmed before him that the present Trustee Meer Raja Allik khan never imposed Jaded taxes on their wells, nor were they demanded to pay the same but that as certain lands dependent on New Wells in their Village were surveyed by a Cutcherry they apprehended that extra cess will be levied upon them at the recommendation of

of the Trustee and consequently prevented the petition to the Board. From the petitioners own admission it will appear to the Board of Revenue that the complaint preferred by them is groundless and vexatious.

3 In respect to Petition No. 543 of 1853 they prefer the Board to the endorsement of the late Collector Mr. Forbes dated the 27th March 1852 on Petitions Nos 258 and 994 of 1851 and their Extract from the proceedings dated the 15th April 1852 wherein they directed "that with the exception of Nos 210 and 211 the irrigation of the remaining numbers from Petitioners Basavandum will be left optional with him" The Petitioners now claim water from the Basavandum Well in question for other numbers of land besides the two above referred to and the Basavandumdar refuses to allow water to the Petitioners land according to their demand. There does not therefore appear any good grounds on the part of the petition

From the Acting Collector of North Arcot. } Para 1

I have the honor to submit the usual annual Statements relating to the Land Revenue of the District of North Arcot for Fusly 1262 (1852/53) according to the accompanying list.—

Reports in the Settlement of the Districts for Fusly 1262

2 As I personally settled the Summabundy of the Sub Division for that Fusly, I have thought it proper to embody the reports of both Divisions of the District in one; instead of requiring the present Acting Sub Collector to draw out a separate report of the Settlement of the Sub Division with which he had nothing to do.—

3 The Board will observe from the list, that Statements according to the forms No. 2—5—7—8.9.10—13—21— and 25— transmitted with their Circular of the 13th June last, are not forwarded No. 2 (the Population Census) well as the Board have directed in their Circular alluded to

to be transmitted in Fusly 1265 – No. 5 / the Rent Roll / will be due for this District in Fusly 1264. as this return which was ordered in Minutes of Consultation dated 7th May 1850 / para 12 / to be transmitted Quinquennially was forwarded in Fusly 1259. No. 7. will be with reference to the papers noted in the Margin be submitted in Fusly 1263 – and No. 8 & 9 and 10 cannot be filled up before No. 7 is prepared No. 13 exhibits too many details to be made up for Fusly 1262. without considerably delaying the transmission of this report It will therefore be prepared from the Current Fusly 1263 – No. 21. is inapplicable to this District: as the Revenue is not collected on Kistbundy Settlement but with reference to the time when the crop is reaped. No. 23 is also inapplicable because no Succavee advances have been issued and consequently no balances on that account are outstanding.

Boards Proceedings 20th May 1850

5 The Character of the Season of the

the past year was nearly the same as that of the year which preceded it. It yielded a Revenue below that of Fusly 1261 by a small sum. The early rains in May afforded a good supply for the cultivation of Poonjah crops. The rains were favorable in June, July and August for Nunjah Kar Crops and from September to January for Sumbah and Navaray. In February and April there was no rain In the latter part of March the rains were so plentiful as to cause in many places, considerable damage to the Navaray Crops.

Cholera prevailed in almost all parts of the District with the exception of the Palmanair and Vencatagherry Cottah Taloohs. The number of deaths reported from this cause was 277. or not less than 123 above the number of the previous year. This epidemic began its ravages for the most part after the expiration of the first half of the Fusly year towards the end, fever of a very malignant nature produced a great

loss in human life - The total number of deaths from this cause was 2213 of which 1561 occured in the Talooks of Palmaneir Sentghur and Vencatgherry Collah, which adjoin the Ghauts, the remaining Number 652 belong to the 11 remaining Talooks of the District, much fever and ague prevailed in the Sub Division and though comparatively seldom fatal, caused great annoyance and distress. In some of the Villages in the Poloor Talook nearly all of the inhabitants were at the same time laid prostrate and helpless by this disease - The subjoined Statement shows in one view the Number of deaths caused by the above mentioned Epidemics in the two last fuslis.

Small pox prevailed to some extent in the District, but was not attended with many fatal consequences. As

Government

* Vide Rules for Department of Vaccination 17th 1853.

Government has evinced a laudable anxiety to promote the diffusion of the blessings of vaccination. I trust I may be permitted to tender a few remarks on this subject which my experience has enabled me to offer. Some years ago, when first placed as Acting Sub Collector in this District, I found that in many Villages in the Sub Division the practice of vaccination was almost, if not entirely unknown, and its value as a prophylactic, generally disbelieved in every where, even in the larger towns where it had been carried on successfully In order to remedy this defect, as far as lay in my power, and having no confidence in the exertions of the regularly appointed vaccinators, of whom there were three stationed in the Sub Division, I obtained through the aid of the Zillah Surgeon at Chittoor, the services of two vaccinators from the General Hospital at Madras, who accompanied me for some months when travelling through the Talooks, and with

with those assistance, I contrived to vaccinate many hundreds of Children some of whom were brought from Villages where this preventive had never been introduced previously. In addition to the notorious Supineness of the people in regard to every thing like improvement, there exist several causes contributing to obstruct the spread of vaccination in this part of the Country. The Hindus have no idea of the small pox being the effect of a specific contagion; but believe it be a visitation of the goddess Mata or Mouriatta; and consider that any attempt to forestall or counteract this dispensation must necessarily be impious and criminal. They have no notion of the difference between vaccination and inoculation; and any attempt to explain, and instruct them in the nature of this difference, such as has frequently been made in my presence by my native Dresser and hired Vaccinators, is often carefully frustrated by their Brahmins; who persuade them that we are endeavouring to mislead them for

J. J. B.

for sinister purposes; and that what we term vaccination is nothing more than inoculation; with the variolous matter causing the actual disease, which will assuredly entail divine anger. The Brahmins as well as many of the Village authorities although they outwardly evince no particular objection, secretly exert the most determined opposition to the practice of vaccination; and strive by every means in their power to dissuade the Ryots and Villagers from bringing their Children to the tents of the European authority, or allowing a vaccinator to touch them. I have known several instances where, on the approach of a vaccinator with a peon along with him, the women of Village have all fled in a body carrying their Children with them, and remained absent from their homes for some days. I at first attributed much of this opposition, to the circumstance of my hired vaccinators being both Mussulmans till I found that the endeavours of the

Dresser

13956 Fort St. George 24th November 1853

Vaccinator attached to my Cutcherry. in a Hindu, were attended with no better results. The filthy habits of the people likewise interfere with the benefits of vaccination Very many of their Children are covered with pisora and other herpetic and cutaneous disorders, by which the effects of the vaccine virus are commonly neutralized The regular vaccinators placed in some of the larger Stations I have good reason to believe are greatly wanting in deligence and attention to their duties. The reports they send, in are from all I can learn by no means authentic; and they make little effort to propagate the benefit, or to induce others to receive it. They frequently allow their supply of the vaccine lymph to fail, and afterwards perform the operation with the juice of the Common Euphorbium or Milk Hedge which being very acrid renders a

a pustule, which by an unpractised Eye may readily be mistaken for the genuine vesicle of the cow-pox. I may add that I have found that Mussulmans and Hindus of Pulinga or Gentoo families, in general receive vaccination willingly and without scruple, while the greater proportion of Hindus of the Tamul or Southern race are decidedly hostile to its introduction I am unable to say whether this is observable on other parts of the District, my experience being hitherto confined to the Taluks of the Sub Division adverting to the number of Vaccinators sanctioned for this District according to the new Rules of the Vaccine Establishment issued by Government, and amounting to nine individuals only, I regret to say, it appears to me that under the reduced scale the vaccination Department cannot be expected to be sufficiently effective

The Board of Revenue will be pleased strictly to enforce the orders above quoted and they will not for the future submit to Government any reports in which those Orders may not have been attended to. It should also be made a standing rule that in all reports from Districts in which the Cawney or the Acre is not the usual land measure the proportion borne by the Local measures to one or the other of those standards should be invariably explained either in the margin or in the body of the Report.

Para 1. The Right Honorable the Governor in Council having had under his consideration the subject of the Decree passed by the Civil Judge at Salem in Appeal Suit No 76 of 1847 from the decision of the Subordinate Judge in regard to three shots of land on which rent is claimed by the Mootahdar of Salem is not satisfied of the correctness of the judgment given by the Court. Very many of their Children are covered with pisora and other herpetic and cutaneous disorders, by which the effects of the vaccine virus are commonly neutralized. The regular vaccinators placed in some of the larger Stations I have good reason to believe are greatly wanting in diligence and attention to their duties. The reports they send in, are from all I can learn by no means authentic; and they make little effort to propagate the benefit, or to induce others to receive it. They frequently allow their supply of the vaccine lymph to fail, and afterwards perform the operation with the juice of the Common Euphorbium or Milk Hedge which being very acrid causes a

I may add that I have found that Mussulmans and Hindus of Telinga or Gentoo families, in general receive vaccination willingly and without scruple, while the greater proportion of Hindus of the Tamul or Southern race are decidedly hostile to its introduction. I am unable to say whether this is observable in other parts of the District, my experience being hitherto confined to the Taluks of the Sub Division adverting to the number of Vaccinators sanctioned for this District according to the new Rules of the Vaccine Establishment issued by Government, and amounting to nine undervaluable only, I regret to say, it appears to me that under the reversed scale the vaccination Department cannot be expected to be sufficiently effective

I am unable to say whether this is observable in other parts of the District, my experience being hitherto confined to the Talooks of the Sixth Division.

Adverting to the number of Vaccinators sanctioned for this District according to the new Rules of the Vaccine Establishment issued by Government and amounting to nine individuals only, I regret to say, it appears to me that under the reversed scale the vaccination Department cannot be expected to be sufficiently effective

The Medical Board has pronounced 70000 Souls to be an ample charge — for one Vaccinator, whereas dividing the population of this District — among the number Sanctioned, an amount of 16,5000 Souls will be — allotted to each, entailing an amount of labour which the vaccinator will not be able to get through in a satisfactory manner, at least Sixteen or Eighteen Vaccinators will be required to render the Establishment properly effective. —

price Columns of the Statement to supply similar information for the five Talooks situated to the South of Palaur, together with the Talook of Sutwaid, which were transferred to this Collectorate from the Districts of South Arcot and Chingleput respectively no record is forthcoming. In para 4 of their Proceedings of the 11th July last, the Board remark "that a different principle has been adopted for ascertaining the Current and Survey Standard rates in the new Chendragherry Talook" as for the former the average of the late Pennurry and Tripatty Talooks has been adopted "whereas for the latter the Survey rates of the Pennurry talook has been taken" they further observe that "as however the number of Villages transferred from the Tripatty Talook in which the Turrum rates are much higher, are so few in Comparison with those taken from Pennarry the more Correct average, allowing for this circumstance, would appear to be Rupees 86-4-10" I beg to explain that the view taken by the Board as

as to the mode observed in fixing the average commutation price of grain in the Chendragherry Talook, is not correct of the total Number of Villages which are comprised in the Chendragherry Talook it is true that 92 belonged to the late Tripatty Talook and 281 to the Pennurry Talook, but in 91 of the latter number, the higher turrum teerwah, Viz^t 93-5-4 of the Tripatty Talook prevails. In the remaining 190 Villages 190 in Number, it is Rupees 74-10-7. thus the difference between the Number of the Villages in which the higher and lower rates of teerwah prevail is only 7, and not 189 as assumed by the Board and for this small difference, no allowance need be made the commutation price therefore for the Chendragherry Talook is 84, as

specified in the Margin - It of Course corresponds with the Commutation price of the late Pennurry Talook because in that Talook the same two rates prevailed, and their average was entered in the accounts for that Talook.—

The fall in the average prices for Fusly 1262. amounting to 38 and 42 per cent in the Collectors and Sub Collectors Division respectively can be ascribed to no other cause than to the ryots having brought into market a large quantity of the produce of former years, which they had kept back in anticipation of a rise in the prices, and in which expectations they are continually disappointed from year to year.—

10. The settlement of the District for the year was commenced on the 1st February in the Vellore Talook and was concluded with the Palmanair and Vencutgherry Cottah Talooks a few days after the expiration of the Fusly. The total number of puttahs including Moturpha was 129944 of which 92,960 were for lands in the Collectors Division and 36,975 for lands in the Sub Division. Statement No 4 shows by what Officer and at what place each Talook was settled.—

11. The following statement shows the entire extent of land taken up at and after the Dittum in Fuslies 1261 and 1262.—

In Poonjah cultivation there was a decrease of Rupees 5,647-2-9 of which Rupees 4,456-15-1 belongs to the four Talooks of the Sub Division and Rupees 190-3-8 to the Collectors Division. The decrease is owing to the deficiency of Rain in the Southern talooks of the District in the proper season for undertaking Poonjah Cultivation.—

to be decided are whether the lands for which the rents are claimed are waste and capable of cultivation, and not appertaining to the Town of Salem or any of the Villages adjacent thereto".

2. There is no question as to the right of a Moolahdar to bring into cultivation all the lands within the limits of his Mootah which at the time the permanent Sunnud was issued were waste in the full sense of the term unappropriated to any purpose but capable of cultivation. The question is whether the same right attaches to all lands which in the accounts specifying the constituent parts of the area of the Zemindary are described not as Tarus or waste capable of cultivation but as Poromboke incapable of cultivation and especially to lands which are so described not as being naturally incapable of cultivation but as being devoted to uses which virtually make them so.

3. The term Poromboke has been defined with sufficient accuracy as meaning "Land utterly unproductive such

such as sites of Towns or Villages, beds of rivers and in some cases of tanks, roads and extensive tracts of stony and rocky ground, where no plough can go". The sites of towns and Villages and roads and the like are portions of ground which though included in the area of a Zemindary the Zemindar could not claim the right of breaking up because they are Poromboke incapable of cultivation from the uses to which they are devoted, so upon the same principle lands which though naturally capable of cultivation had never been cultivated up to the time of the permanent settlement because the use of them had been prescriptively permitted for certain public purposes, and therefore were classed as Poromboke in the Accounts upon which the permanent settlement was formed are not liable to be reclaimed for cultivation by the Moolahdar at his pleasure, merely because they lie within the area of the Zemindary either there be no special reservation of them in the Sunnud for the purposes to which they had been by custom applied. It would be deemed preposterous for a

particular explanation —

20. In Totacal or Garden cultivation on Poonjah land there was a decrease of Rupees 40-11- which needs no explanation —

21. In Nunjah cultivation on Bagayet land there was a decrease of Rupees 92-15-6. This item belongs to only one Talook namely that of Sautghur —

22. In Nunjah cultivation an achoocut land there was an increase of Rupees 127-13-8 —

23 In Beetle on Nunjah land there was an increase of Rupees 146-6-4. In the four Talooks of the Sub Division and in Vellore Talook of the Collectors Division it is usual to charge 25 per cent in excess of the turrum teerwah on Beetle Garden on Nunjah Lands —

24 In Totacal cultivation on Nunjah land there was a decrease of Rupees 128-14-7. In the Talook of Sutwaid it is usual to charge to the ryots Rupees 21-14- on every Cawny of Nunjah land cultivated with tobacco

Tobacco and Beetle whatever the survey rates on such land may be —

2. In Beetle & Tobacco cultivation on Totacal land there was a decrease of Rupees 50-14-7. This species of Cultivation obtains in Sutwaid Talook only. The totacal teerwah in the Talook is Pagodas 3/8 per Cawny but when tobacco and Beetle are cultivated on such land Rupees 21-14- are levied —

26 In Poonjah Poovashee or Cultivation of a 2nd Poonjah crop on 1 Crop dry land there was an increase only in Wandiwash Talook of the Sub-Division. In all the other Talooks of the District there was a decrease. the net decrease amounted to Rupees 1,647-11-5. It is owing to the lands in several places having been too much saturated by excessive rain at the season proper for Cultivating the 2d Crop —

28- The several items under which remissions were allowed are exhibited in the above Statement - In every case full enquiry was made at the time of Settlement of the Summahbuzdy - In Sickudpooldy Boganasty and Stullacums = =my remissions there is a decreese of Rupees 6,172-6-4. Under Boganasty, a remission of Rupees 89-2-3 was allowed from the contes = =lidated teerwah on lands in the Village of Sheelpairy in the Vellore Talook, which lands were allowed by Mr. Bourdillon to be cultivated at 5/8th of the turrum rate if it should be found that the supply of water was sufficient for only one Crop - The indulgence was sanctioned by the Board so far as the three Villages of the Vellore Talook noted in the Margin are concerned - Vide Proceedings of the Board of Revenue dated 10th October 1853 -

The remissions and sums brought to account under each of the above three heads are shewn in the subjoined Statement -

Firstly

13979 Fort St. George 24th November 1853.

29. In shavy remission there is a decrease of Rupees 112-13-8- The remission under this head was allowed to only three ryots belonging to three several Villages in the Vellore Taluk. The entire assessment on their land, on which the Crop became shavy is Rupees 26-2-3, of this Rupees 6-6-4 were brought to account according to the former custom to be discontinued in future- the remainder Rupees 19-11-11 was remitted- The instructions conveyed in the Proceedings of the Board of Revenue dated 26th September 1853 in respect to this custom will hereafter be observed.-

30- In the remission under the item of "Poumbotty" there is an increase of Rupees. 1665-2-4. occasioned by the heavy untimely rains in March- A great portion of this remission has been granted in the Taluks of Cauveripauk in the Principal Division and Triuttoor in the Sub Division, where a large extent of land being Cultivated in the beds of Tanks, was entirely swamped

and the Crops destroyed-

31- Under "Poymally Remission" there is an increase of Rupees 469-4-1 which must be ascribed to the cause assigned for the increase of remission under Paumbroody-

32- Under Cowle Remission there is an increase of Rupees 28-11-11. It is owing to a certain extent of waste land having been given to Mr. Morison in the Fusly under Report agreeably to para 28 of the Cultivation Hoskoonnanah of the District-

33. Under Bilmuctah Reyaet there is decrease of Rupees 25-4-3. In fusly 1262 a portion of land held in the Shendra = ghery Taluk under favorable terms, approved of by the Board of Revenue in para 21st of their Proceedings dated 2d September 1835, and sanctioned by Government in paras 6 and 7 of the Minutes of Consultation dated the 20th October following; was encroached upon by the Soomanooky River. The

assessment

assessment on the land thus rendered useless; Viz. Rupees 44-13-6 was deducted from the Gross Demand, and the difference (Rupees 26-5-9) between this deducted sum and the amount of Jodie usually levied, appears as a decrease under "Bilmuctah Reyact" because it has been usual to bring to account the entire extent of such lands with the full assessment and to remit the difference between the amount thus brought to account and the sum or Jodighee levied under the above head- Certain Villages of the pesumed Maumundoor Poliem exhibit a decrease of Rupees 9-8-8 and others an increase of Rupees 10-14-2 under the head of Bilmuctah Reyact, occassioned respectively by an increase and decrease in the extent of Bil= =muctah lands, Cultivated in these Villages- For an explanation as to how the reyaet or remission must fluctuate and be greater or less in amount, as the Cultivation may be con= =tracted or enlarged, I beg to refer the Board to

Decrease 35–14–5.
Increase 10–14–2.
Net Decrease 25–0–3.

Para 6 of Mr. Bretts letter dated 26th August last No 68. Thus the net decrease amounts as shewn in the Margin to Rupees 25–0–3.

34. Under the Nauthungaul remission there is an increase of Rupees 1,803–15–9. The assessment on the whole extent of land used as seed beds (Nauthungaul) in fusly 1262 amounts to Rupees 10736–10–8. Of this Rupees 73–14–10 have been brought to account and the remainder Rupees 10662–0–0 remitted.—

35. Under "Teazgary Remission" "Shotriem Remission" "General Remission of 12½ per Cent" and Chatoor Bangum" there is a Net decrease of Rupees 4081–11–10 as shewn in the Margin.— These items of Remission vary with the quantity of land brought under Cultivation or left waste, the net decrease alluded to must be ascribed to the general diminution of Cultivation.—

36. Under the head "one fifth" payable to the Poligars" there is a decrease of Rupees 1443–14–2. It is owing to the deductions from the Beriz in favor of the individuals named in the Margin for Fusly 1262 having been suspended till they are specially reported upon and sanction of Government obtained for their disbursement, pursuant to the instructions conveyed in the Circular of the Board of Revenue dated 15th November 1853. The report on this subject will be submitted at an early period.—

Poligar of Putticondah.

Do of Masanapully.

37. Under "Damashayee Maniem and Mairah" there is a decrease of Rupees 237–14–7 which is owing to the abatement in Cultivation, as these sources of remuneration to the Village Sibbendy are proportionate deductions from the beriz, and must therefore vary with the extent of Cultivation.—

38. Under "Dusbundum Remission" there is an increase of Rupees 74–13–7. It is owing to the increase of Cultivation under certain Dusbundum Tanks and Channels.— The

41. Under the items of Enam Jody, noted in the Margin, there is a decrease of Rupees 1411-15-4. It is owing to the Diminution in the Cultivation of the year.-

42. A Statement shewing the portions of the Cowle lands of Cummapully Maumundoor

Maumundoor and Baulpully cleared of the Jungle and brought into Cultivation during Fusslies 1260, 1261 and 1262 is transmitted agreeably to parae 10 of the Proceedings of the Board of Revenue dated 14th July 1853. From this Statement the Board will observe that only 1 4/16 Cawny was Cultivated in Fusly 1262.- This great decrease in tillage, or almost entire neglect of the lands, is owing, as the Board are aware, to the exetremely unhealthy climate of those Villages, in which fever is so prevalent that the habitations are now generally deserted.-

43. The several items of the whole Revenue of this District from the land and from Exctra sources, are exchibited in Statement No. 27. The annexed table is an Abstract thereof compared with the Revenue of the previous Fusly.-

44. Statement No. 19 shews the extent of the Cultivation of the Sugar Cane and Indigo in Fusly 1262. Cotton is not systematically grown in this District to supply the Market, a small number of Cotton shrubs are sometimes planted in fields bearing other Crops, usually Grain or Millet, and the produce used only for domestic purposes. From the subjoined Statement the Board will perceive that there is an increase both in Sugar Cane and in Indigo—

a Zemindar to claim the right of driving the plough across a publick road so as to break it up or through any unoccupied space in the site of a Town, altho' there is no special reservation of the sites of Towns or roads in the Sunnud. But with no more reason could he claim the right to drive the plough through a piece of land presently set aside for a public purpose, as for the encampment of Troops and Travellers, for the execution of Criminals, &c. and because of the appropriation to a public purpose classed as Corumpoke or uncultivable tho naturally capable of cultivation. "It is certain" say the Sudder Adawlut in their Decree in Special Appeal No. 37 of 1847 that Corumpoke although generally understood to mean "waste lands that have never been cultivated and are cultivable" is also applied to lands that are or can be made capable of cultivation. It is moreover obvious that it must have been the intention of Government to reserve to itself and it did reserve many spots of ground for various purposes such as those enumerated by the Special Respondent

Respondent which the Special Appellant might with equal reason claim as being fit for cultivation, but which he could not be permitted to occupy without very great inconvenience and injury both to the Government and the public, and there is no knowing what spots of ground the special Appellant might not lay claim to were his claim to be admitted.

4. It is quite clearly laid down in the Decree of the Sudder Court in Special Appeal No. 10 of 1844 which the Judge allowed to be filed as a precedent on the part of the Appellant in his case, that a Zemindar has no right to deprive the public of any use they had of Corumpoke land as for cutting firewood or quarrying stone, washing grounds and the like prior to the permanent settlement. The only point then for the Judge to decide was whether the land in question was indeed Corumpoke at the time of the permanent settlement and whether the public had a use of it as such of which they would

The sum of Rupees 65-11-7 is that alluded to by Mr. Brett in para 35 of his Report on the Settlement of Fusly 1261, as being unrealized in consequence of boundary disputes existing between certain Villages pertaining to the Circar and to the Calastry Zemindary. Rupees 59-4-8 are due from the representations of the late Mr. Groves which they object to pay on the ground that a portion of the Cowle land was taken up for public purposes. this Sum will be settled after the receipt of the orders of the Board on Mr. Brett's letter dated 29th August last No. 71. Of the Sum irrecoverable Rupees 23-2-1 is the Fuzuljanty teerwah fixed in Chendraghierry Talook by oversight on 2d. Crop Cultivated under private Wells, Rupees 24-12-4, Rupees 13-3-9 and Rupees 2-10-9. are respectively the Sums due for Fusly 1260 on account of the items of "Enam land" entered as "Circar land" "Cesses on Palmirah trees which yield no produce" and "Teerwah fixed in excess of the turum rates" explained in para 48. Under these

Circumstances

circumstances I request that sanction may be obtained for writing off Rupees 63-12-11 on account of Fusly 1260.

5.0. The balance of Fusly 1259 stated in para 36 of the last Report was Rupees 94-10-10. Of this Annas 11-3 have been since collected, the particulars of the remaining Sum of Rupees 93-15-7 are exhibited below.

| | Rs. | a | p |

| Amount outstanding on account of Boundary disputes | 90 | 4 | 10 |
| Excess teerwah irrecoverable | 3 | 10 | 9 |
| Total Rupees | 93 | 15 | 7 |

The first sum is outstanding on account of the boundary dispute alluded to in para 36 of the last Report in which Mr. Brett stated that it would be settled in Fusly 1262 as soon as he could conveniently proceed to the spot himself. Mr. Brett does not however appear to have found time to carry out this intention. The 2d. Sum is the teerwah charged to a ryot of the said Talook in excess of the turum rate. I therefore request that sanction may be obtained for writing off Rupees 3-10-9 on account of Fusly 1259.

measures.

Fort St. George 24th November 1853.

Measures have been adopted for the recovery of Rupees 46-3-4 the sum entered as recoverable. Of the Sum irrecoverable Rupees 1-10-10 are due by indigent and deceased ryots the Sum of Rupees 115-7-9 constitutes the income of the Monegars of four Villages in the Sholinghur and Trivallum Talooks brought to account for the period during which these Offices were vacant by deaths, but subsequently after Monigars who transacted the duties of the deceased incumbents claimed the Amount and the claim is one that ought to be recognized. But as explained in para 7 of Mr. Bretto's letter dated 26th August last the Amount once entered in the demand No 68. could not be remitted without Sanction, I therefore request that Sanction may be obtained for writing off Rupees 117-2-8 on account of the Sevoy Jummah balance of Fusly 1261. The last item of the balance will shortly be settled and made due mention of in a future report.

would be deprived by the land being brought into cultivation - The Mootahdar admitted that it was Communpoke but claimed the right of cultivating it notwithstanding - The question then was narrowed to the point of whether there had been such a public use of it. The very fact that the land though naturally capable of cultivation has never been cultivated for half a century is an evidence a priori of some obstacle independent of the quality of the land.

5. By Regulation 2. 1802. Section 18 Clause 4 the Courts of Adawlut are prohibited from entertaining any Suit whatever if the cause of action shall have arisen twelve years before the commencement of the Suit. When a party institutes a suit for the recovery of land in the possession of another on the ground of a proprietory title it is sufficient for the Defendant to plead and prove in bar of the Suit that his possession has continued without interruption for a period of twelve years and has been held independently of the Plaintiff - The cause of action in such or

as case is the commencement of the adverse possession which may be beyond the memory of man or which may have an assignable date, but however the case may be in that respect all that it is necessary for the Defendant to show is that it actually commenced at least twelve years before the institution of the Suit, the possession having continued in his possession or in the possession of those through whom he holds, if there has been an intermediate succession during that period - The case is the same when the possession is not that of an individual but a possession or use enjoyed or exercised by the public or a particular community - It is sufficient in bar of a private claim to show that there has been an uninterrupted possession or use of the land inconsistent with any private right to it for a period of 12 years - The Madras rules of limitation are copied from those in the Bengal Code and are of course to be construed in the same way, a reference to Marshman's Digest to the Civil Law of Bengal will show that the above is the principle of construction

construction followed by the Bengal Courts See 2nd Edition page 224 et seqs.- In the present case the cause of action arose at a time long prior to the period fixed as the limit by Regulation. The land in question has for a term much exceeding twelve years been appropriated to municipal purposes, to uses inconsistent with and adverse to any dominion or proprietary right on the part of the Mootahdar, and without any objection or opposition on his behalf or that of his predecessors. It has says Mr. Maltby been available to the public for half a Century: but he adds "I am not sure that it can be proved that it has for any very long period been used as at present". The question is, can it be proved that it has immemorially been at the use of the public without any effort on the part of the Mootahdar from the date of the permanent Settlement until the present claim was preferred to prevent or defeat that use, and during twelve years or more prior to this claim that is for a time Amounting to or

or exceeding the legal term of prescription had uninterruptedly been used for its present purposes.

6. For the reasons above stated the Governor in Council thinks there are good grounds for a Special Appeal which resolve themselves into this one point, "that the Judge has not decided the real point at issue", and he therefore requests that the Board of Revenue will instruct the Officiating Collector to appeal to the Court of Sudder Adawlut against the Decree passed by the Civil Judge, urging in his Appeal the consideration set forth in the preceding paras and those noticed in his letter to the Board of the 2nd Ultimo. The Collector will of course use his discretion in asserting a prescriptive use of the land by the public without or with an averment of the specific use of it, during a course of years, amounting to or exceeding the term of legal prescription which bars an Action for the recovery of property according to the evidence he is able to furnish on

The Right Honorable the Governor in Council is surprized to learn from the above letter that notwithstanding the orders conveyed in Extract Minutes of Consultation 3d September 1849 Mr. Davis has neglected to pay to Parthasarthy Iyengar the balance of his salary. The Government desire that the Acting Collector of South Arcot be directed to disburse the sum in question to Parthasarthy Iyengar from the Public Treasury and to report the amount which the Honorable Court of Directors will be requested to recover from Mr. Davis in England.—

2. It is observed that Mr. Davis gave over charge of the South Arcot District on the 16th February last. The Board of Revenue are requested to state on what date the Extract Minutes of Consultation of the 3d September was communicated to him and also

Parthasarthy Iyengar was reinstated in his appointment. They will also furnish a copy of the Endorsement passed under date 5th November 1849 on the Petition presented to them by Parthasarthy Iyengar.—

Secretary to the

Board of Revenue,

(38)

From the Acting Collector of Bellary.

Reporting frauds committed in the Treasuries of the Adonie and Gudakee Talooks states that 2 bags of Copper were substituted for Rupees on the March Remittance from the Adonie Talook that immediately after a further deficiency of about 1,225 Rupees was discovered in the Adonie Cash Chest that the Tahsildar instead of reporting it combined (After making good that deficiency) with the other Talook servants to conceal it from the Acting Collector and Instead of using his endeavours to discover the perpetrator of these frauds aided the real thief in escaping from justice.

Sir.

1 It is with extreme regret that I am compelled to report to the Board of Revenue three instances within the last two months in which deficiences have been discovered on the Remittance from the Talooks or in the Talook Cash Chest. The greater part of what follows respecting the deficiencies of the Adonie Talook was penned some days ago but I was unwilling to forward it to the Board until I obtained all the proof possible against the Talook Servants, and therefore as soon as I was able I proceeded to Adonie myself. I was on my way thither (after having completed the Summabundy in which I was engaged of the Talooks on an opposite side of the District) when on my arrival

Fort St. George. 1st July 1850

arrival at Bellary the May Monthly Remittance from the Yadakee Talook came in, where, in lieu of a bag of 500 Rupees, was found a stone-

2- This event and the matter of the Adonie Talook (hereunder more fully detailed) and another instance of a similar deficiency, only last year, of 500 Rupees in the Anuntapoor Talook (which was made good by the Talook servants) have made me feel it a duty at once to report the facts to the Board with a view of receiving their instructions and obtaining authority for taking stringent measures, which the frequency of these frauds of late seem urgently to call for-

3. A deficiency of nearly (Rupees 1,000) one thousand Rupees was found in the Remittance from the Talook of Adonie in the Month of March and likewise a further deficiency (but since made good) of about 1,225 Rupees was discovered in the Cash Chest of that Talook.

On

Fort St. George. 1st July 1850

4- On the 25th March the Adonie Treasl (remittance) was being throffed and counted and taken into the Hoozoor Treasury at Bellary; seventy bags of 500 Rupees each had been throffed and laid on one side, packed in rows and piled 4 deep. It appears that one of the piles fell down and the Treasury Collah in putting up the bags suspected that one from the weight and sound was not all right. It was opened and found to contain Copper instead of Silver. All the other bags (supposed already to have been throffed) were again examined and another bag of Copper was found in place of a bag which ought to have contained 500 Rupees. On each of the two bags was affixed a private marked (ꝟ) evidently for the purpose of easily recognizing them by-

5. After mature investigation. the details of which it is unnecessary to enter into, I am convinced though

Fort St. George. 1st July 1850

though there is no legal proof that the Talook Shroff managed by watching his opportunity to substitute the 2 copper bags, which he had brought with him, among the bags of Silver already shroffed. I found no cause whatever (after full investigation) to throw suspicion on any of the Hoozoor Treasury servants; yet I cannot acquit the latter of negligence and great carelessness, confiding too much to others, the Shroffs were not sufficiently watchfull, they should not have allowed a bag once Shroffed by them to have passed back into the hands of the Talook Shroff and Peons (as it appears they did.)

I am also, I regret to say, obliged to animadvert in the strongest manner upon the laziness, I may call it, of the Cash keeper Naranapah. Instead of being at his proper post close to where the Treasure was being shroffed and taken in, he was sitting and idling if not sleeping in

Fort St. George. 1st July 1850

in a room at the further end of the Verandahs, great way off, and from which he could see but little that was going on. A practice I much fear he has been given to. It is necessary to bring on this occasion the carelessness of the Cash keeper to the special notice of the Board that he may meet with adequate punishment, for if the head of the Department neglects his important duties it is only to be expected that the underlings will be but slovenly perform theirs.

Had this defalcation in the Treasury been the only fraud I might have at once disposed of the matter by making different parties make it good, failing, as unfortunately is the case, of bringing the real culprit to condign punishment. But in the course of investigation of the defalcation of 1000 Rupees another defalcation was reported, which confirms me in the impression that the Talook people, especially, if not solely, the

the Shroff Gooroorow is guilty of both.

8- This second matter is a de-
-falcation of. it is supposed to be
about 1225 Rupees which were discovered
to be missing in the Adonie Cash
Chest immediately after the report
of the fraud at Bellary reached
Adonie. But to me the most
annoying circumstance is the denial
on the part of the Tahsildar and
other Talook Officers of any defalcation
of the kind.

9- The news of the fraud of
the bags of Copper at Bellary was
conveyed to the Tahsildar of Adonie
on the morning of the 28th March.
He immediately, as it appears, proceed-
-ed to his Cutcherry and examined
his Cash Chests. The strong hold or
regular Chest had been sealed with
3 seals: the Tahsildars, the Sheristdars
and the Shroffs previous to the
departure of the Shroff with the
Kisal to Bellary. There were also
boxes outside which contained money
that had been collected from the

Villages

Villages subsequent to the departure of
the Shroff The seals were broken
open and the money in the strong
Hold Chest was counted as well as
the rest. There was found a deficiency
of the sum I have stated. This de-
-ficiency the Tahsildar it is asserted
made good by seizing the Shroffs wife
and making her give up her Jewels which
were pawned for 500 Rupees 200 Rupees
were further made good by her relative
or friend Malapah an old man
who has fully deposed to this fact.
But this is all other material points
have been denied by almost all the
parties who had any thing to do with
making good the deficiency. The Talook
servants made good the remainder.

These are the facts as stated and
which are quite notorious and though
the Talook servants have combined to
hide them from me I have not a
doubt of their being generally true.

It appears to have been
10- the determination of the Tahsildar
to

to conceal this matter from me which only came to my knowledge after several days. And I admit that for a long time I placed no credit whatever on the rumour which was spread abroad regarding it, which at first was mere Bazar news, and at length was traced to a Mootuddy whom I had dismissed shortly before for gross mismanagement, at the repeated complaints made against him by the Tahsildar of Adonie. But the rumour becoming more confirmed I examined parties, and chiefly on the evidence of the Duffadar and six Peons, whose duty was to guard over the Talook Treasury; the testimony of 2 Goomastahs and 2 Burmans, who were present, and an old man a friend of the Shroff's who procured the loan of the 200 Rupees for his wife and a few others I am satisfied that the deficiency spoken of did occur.

See Depositions Enclosures Nos 15 to 11

11 A main point to ascertain was, whether on the 26th March the

Tahsildar in the absence of the Shroff did open the strong Chest or not. This the Duffadar and Peons and one Burmun positively assert was the case. And as positively is it denied by the Tahsildar, Sheristadar and some of the Goomastahs.

12. On hearing of the fraud discovered at Bellary the Tahsildar of Adonie on the 17th March wrote saying he wished to have the Shroff sent to him as it was necessary to examine the Cash box which had his seal. This I have no doubt now was a ruse, for he had already on the day previous, viz. the 26th examined the Chest. The Shroff arrived on the morning of 1st April but was kept in guard in a separate house; and the Cash Chest was not examined till the following day the 2d April. The cause of this is stated to have been that time was wanted to make up the accounts. But this was an idle and incredible

cause

excuse for the amount left locked up in the strong Hold and which alone had the Shroff's seal, and for which alone therefore he was answerable is made out on the Talook servants State-ment to have been only Rs 951—7—0 a p besides Rs 278—9—0 a p left out (as stated by the Shroff) for current purposes. But even supposing it were necessary to have had the Shroff to examine the whole balance then remaining, including the receipts of Kists since his departure to Bellary, there had elapsed 5 clear days to make up the accounts, if such were necessary. The real fact is, I doubt not, that the Tahsildar found it necessary to come to a proper understanding with the Shroff regarding the defici-ency partly made good by his wife in his absence, and to bind him to secrecy by promises of getting him out of further trouble. A report was there-fore sent in that the balance was all correct amounting to Rupees 6,379

on

on the 2nd April. in which was mixed up without any distinction the balance in the strong Hold left by the Shroff on the 22nd March and the subsequent collections with which the Shroff had nothing to do. and to this effect have accounts I fear been fabricated.

13. The facts as stated above are quite notorious. They are disbelieved by none of the responsible native ser-vants of my Cutcherry. But unfortunately from false motives of pride I suppose for I can attribute his conduct to no other motives) the Tahsildar Ragha-vendra Rao has endeavoured to con-ceal them from me. Having taken this false step at first, he has per-sisted in it, and the Sheristadar and other Subordinates of the Talook have combined together for the same pur-pose. The consequence has been that the real delinquent, who, I doubt not, is the Shroff, has escaped. The energies of the Tahsildar if they had been properly directed would have elicited evidence which might have convicted

the

the Shroff of the frauds, but they have been throughout misdirected, and the culprit will escape the punishment due to his crime -

14. After this it is impossible to place confidence in the Tahsildar: and I am further of opinion. (taking into consideration the frequent instances of frauds that have been lately perpetrated in the Talook Treasuries) that a severe example is necessary I do not think that any punishment short of dismissal from Office of the Tahsildar. the Sheristadar and some of the Subordinate Goomastahs. (who have plotted together to give false evidence. and have thus indirectly made themselves parties to the frauds on the Treasury) will be adequate to check these frauds -

15. The Sheristadar Ramachendra Row is a very inefficient public servant and quite unfit for his Office Independent of his taking part with the Tahsildar in endeavouring to conceal this fraud he is much to blame

in not seeing the Treasure properly packed. It is his special duty to be present and see each bag filled and tied and sealed and weighed and although he pretends to have seen this, it is evident he left it too much to the Shroff, or it can hardly be deemed probable that 2 bags of Copper would have been put in for bags of Silver. without his cognizance had he done all this. But as I have no reason to suspect him or the Tahsildar of any participation in the robbery had it not been for his subsequent conduct trying to hide the defalcation of the 1,225 Rupees, it would have been sufficient to have punished him by calling on him to make good his share of the Deficiency -

16. The Shroff I doubt not is the guilty party and of course will be dismissed and I only regret that there is not evidence to put him on his trial for embezzlement or Robbery, and for this failure of evidence the Tahsildar and his party are responsible -

17. I have mentioned before that

Fort St. George. 1st July 1850

that the Hoozoor Cash Keeper Naraina-
-pah should be punished for his ex-
-cure lessness: and I would propose that
he should make good a part of the
loss of 1,000 Rupees which (in a great
measure owing to his sluggishness) was
clandestinely placed among the bags
under his care, and I further propose
to remove the Cash Keeper to a Tahsil
-dary ship as a slight mark of displea-
-sure -

18. The 1,000 Rupees to be re-
-made good should be collected from
the Shroff and his security from ex-
the Tahsildar. Sheristadar. Nagady
Gomastah and Gollah in such ex-
proportions as the Board may please
to order. The following scale I would
propose for the approval of the
Board -

| | |
|---|---|
| Cash keeper and Hoozoor Treasury Shroff | 100 |
| Tahsildar | 200 |
| Sheristadar | 100 |
| Nagady Gomastahs each 40 Rupees | 80 |
| Shroff | 500 |
| Gollah | 20. |
| | 1,000 |

I

Fort St. George. 1st July 1850

19. I do not think that any thing
will be gained by framing formal charges
against any parties. I have stated what
in my opinion should be the punish-
-ment inflicted upon the Tahsildar
the Sheristadar and others: but it will
remain for the Board to pass their ex-
orders. But in recommending the dismis-
-sal of Raghavendra Row, the Tahsildar,
I should not be doing justice to that Officer
were I to fail to express my opinion of
his past services in terms of high com-
-mendation. He has always been a most
efficient and active Tahsildar and I
shall regret his loss exceedingly: but ex-
under the circumstances of the case, I feel
that the example must be made. Of
the Sheristadar Ramachendra Row ex-
I have nothing to say particularly in ex-
his favour -

20. I shall report the result of
the investigation now on foot respecting the
discrepancy in the Nandapee Taluk Kistal
at a future opportunity. In meantime
I shall hope to be favoured with the ex-
Board's orders at an early date. The ex-
recurrence

Fort St. George. 1st July 1850

recurrence of events such as I have unhappily been obliged to report will I fear bring much discredit upon the District; and to prevent them as far as possible must be my anxious endeavour and no measures short of the severest punishment that can be inflicted will, I apprehend, be found effectual.

No. 9

Deposition of Dalal Bemashenaraw inhabitant Adonie

17th April 1850.

Self went to Bellary to see the place there heard that there had been a deficiency of 1000 Rupees in the Hirdal that came from Adonie on the 24th of March, left Bellary on the 28th and remained that night at Tullor reached Adonie the 29th at 8 O.C. A.M. and told the above to my brother while at Adonie the current report was that a deficiency of 1225 Rs (small coin) had been detected in the Talook Treasury, before the Shroff Gurrow returned from Bellary, my brother Sinevasaraw informed me that such was the case. On my return to Bellary on the 31st told the above to the Cashkeeper Narranapah left Bellary on the 3rd to go to Adonie to ascertain whether the above report was correct or not and reached Adonie on the night of the same day. While making enquiries one day (do not remember exact date) my brother Sinevasaraw Stamp Vender Ragavah Goomastah Sagaruru Beemaraw, Goomastah Parator Venkanah, and Kishnaraw, the above 5 persons told me "that on a deficiency of 1225 Rs, small coin being discovered in

This man being the brother of the late Dewan of Adonie was employed by Mr Pelly to investigate the deficiency of 1225 Rupees which was discovered in the Talook Treasury at Adonie

Fort St George 1st July 1850

in the Saloor Treasury the Amildar had caused it to be made good in the following manner, Viz., The Amildar sent the Saloor Moonshee Bujinga row and Cusbah Jillader Kishna row to the Wife of the Shroff Gurow, caused them to obtain gold from her which he had placed in pawn to amaravaty

700 Rs

200 Rs

AK Kanah for 700 Rupees. The Amildar obtained from Gollar VenKatagereyapah a bond for Rupees 60 from Nagadi Gumastah Subarow one for Rs 140 thase two bonds he Kept and himself gave another for Rs 200 to AK. Kina from whom he obtained the 200 Rs and made it good. The Sheristadar Rama-chendra row, on being asked by the Amildar for money said "he would go home procure Gold, and give it" he accordingly went and asked his wife for it, but she declined giving it, he then returned and told the amildar that he must himself get the money, the amildar accordingly procured and made good the above sum.

Rs 325

The five persons already mentioned told me that after the above had taken place the amildar sent for the Shroff Gurow to arrange matters with him

Fort St George 1st July 1850

Moreover in addition to the above my brother Sinivasarow told me, that when it was known in adonie that the Shroff was coming back his wife was afraid he would kill her for having given up the gold without his permission, if he heard of it from any other party than herself she went therefore to meet him, when she was near Kullobavi the Amildar having heard of her departure sent a Duffadar and four Peons to bring her back before she could inform her husband of what had taken place, which they did afterwards when the Shroff Gurow arrived from Bellary he was not confined in the Cutcherry but in the late amildars house, and the same day the amildar went to him and informed him of the deficiency in the Saloor Treasury and asked him for the means to make it good, which he (Shroff) said would be forthcoming were he permitted to go to his house, the Amildar refused permission but said he must give him (the Amildar) some token by which his people would know he was to have the money, the Shroff gave his seal

ning with it, the Amildar next day sealed the Treasury on hearing this self on the 13th returned to Bellary and informed the Cash Keeper of it on the 15th who desired me to tell the Acting Collector which I did.

Returned to Adonie on the 5th about 5 days after at 8 or 9 oclock A.M. went to Gumastah Beemarow's house when he informed me of what has been already stated about the manner in which the money was made good. there were not any witnesses present.

On the 10th of the Month at 8 or 9 OC went to the Salook Cutchery Gumastah Pau-catoor VenKatrow was writing Visbady accounts in a different part of the Cutchery. he then informed me of what has been already stated regarding the deficiency of 1225 Rs. there were not any other Gumastahs present some Peons, on Guard and others, were there but at a distance.

Beemarow and Kishnarow were writing in the Hoojoor Cutchery.

On the morning of the 10th at 9 OC went to the Cutchery, and on asking Kishna row he informed me that he had also heard what Lagaruna Beemarow

Fort St George 1st July 1850

and Paucatoor Vencanah had told me.

Paucatoor VenKanah was the first person who informed me of what had taken place.

When Kishnarow told me what had occurred there were only some Children present.

On my going to the Cutchery Kish-narow was alone with the exception of some Children.

(This last answer in reply to the question "how do you account for your saying that Paupatoor VenKanah was the only Gumastah in the Salook Cutchery and then saying that Beemarow and Kishnarow were also writing in that part of it called the Hoojoor" was only obtained after much delay and hesitation.)

Self questioned Kishnarow and VenKanah about the matter on account of the reward of 100 Rs which was offered they told me what they knew on account of my being in the habit of sitting in the Cutchery and writing the accounts.

On the 13th on Saturday at 10 OC A.M. he told me what has been already stated as he is a friend of mine there were not any witnesses present.

Stamp Vendor Raghanah

Remained

Fort St George 1st July 1850

Remained in adonie until Sunday evening after Raganah informed me of what has been already stated then proceeded to Bellary and reached it on Monday.

The Amildar was at adonie when self went there.

The Amildar was at Adonie until 9th on which day he left for Bellary on the 8th my brother informed me of what has already stated.

The Amildars statement that Jgaram Beemarow's daughter is the wife of my elder brother the late Pettah Moodaddy is correct.

It is also true that when my brother held the Office of Pettah Moodaddy on account of his withholding 525 Rupees paid to him on the Coircar account. two peons were by the Amildar ordered to watch both him and myself, until the money was forthcoming.

Question put by the Amildar to the Witness. You have stated that there was a deficiency of 1225 Rupees in the Treasury and that it was made good

Fort St George 1st July 1850

who brought the above sum to the Cutcherry and when was it put into the Treasury?

A. I do not Know.

at the Cutcherry. This deponent
did. Talsildar came to Cutcherry
and told the Gollah to take
the seal off the Lockup and
the boxes which were on the
top, and take out the Money.
He (the Deponent) objected that the
Shroff had sealed Lockup and was
not present. The amildar replied
that he himself was present and
he (the deponent) consented and the
Gollah Venkatagreapah took the seal
off the lockup and opened the lock
and put out the Money that was
in it as well as that which was

in the other boxes, and the sums was counted by the Gollah and the Haliree curnum Ashwatapah.— The amildar was then very angry with the Sheristadar, Nagadi Goomastah and Gollah saying they had brought their lives into danger because there was a deficiency. The Money was again placed into the places from which it had been taken, and the Amildar caused 2 Seals to be affixed and the Sheristadar's Seal and the Amildar then went home. The Amildar put a Peon Jeevan Laul over the Nagadi Goomastah Soobarow all day to 9 Oclock at night, to see he prepared an account. The Sheristadar, Nagadi Goomastah Soobarow and the Nagadi Goomastah Goondarow went to the Amildar and said some-thing and the Peon was taken off. On the 27th evening at 5 Oclock the Abkary Renter sent in 701 9/16 Rs. which was counted. Nagadi Goomastah Goondarow

Goondarow came then to Cutchery and called Nagadi Goomastah Soobarow and Gollah Venentagereapah saying the Amildar had sent for them.— He (Deponent) objected to their going as there was no one near the Money- Goondarow said he would remain- and the other two went away. They did not return till 8 oclock and the Sheristadar sent a Peon to call them. The Peon returned and said he could not find them. The Sheristadar sent him (Deponent) but he could not find them and returned to Cutchery when Gollah Venentagereapah entered by the door of the Goozoor Cutchery with 2 bags filled with Rupees and put them near the Abkary Money. He (Deponent) asked him where the money was from, Gollah said that the Amildar had caused it to be given and ordered him to put it in the Treasury. He (Deponent) told the Sheristadar. Peon Rhamsing was then on Guard.

Deposition of Dakince Mokdeen, Police Peon of Adonie Taluk, 1st May, 1850.

Deponer that news of the 1000 Rupees deficiency was brought to the Amildar on the 26th Morning. The Amildar, Sheristadar Nagadi Goomastah Gollah and others came to Cutchery and took the money out of the "Lock up" and out of the boxes on the top and examined it. The Amildar was then angry with Sheristadar and Nagadi Goomastah. The Treasury was then fastened up and they went home. On the next day evening about 5 or 5½ Clock the Abkary Money coming in, the Nagadi Goomastah took the Gollah and the Sheristadar examined it and put the bags near them. The Gollah Venkatagurpah and Nagadi took out and a short time after the Gollah Venkatagurpah returned by the door of the Hoozoor Cutchery with 2 full bags.

Deposition of Sagarum Bheemarow, Moolky Goomastah, Adonie Talook, 27th April, 1850

Have merely heard of 2 bags of Copper having been substituted for two of Silver in the March hirsal do not know how it occurred -

Was not present in the Treasury when the March hirsal was made up, according to the Amildar's order was in the Koozoor part of the Cutcherry writing accounts - On the morning of the 26th March the Amildar heard that two bags of Copper had been substituted for two of Silver - About seven or eight O'Clock the same morning the Amildar came to the Cutcherry and was examining the Treasure - Gollan Venkatagiryapah and Kolanee Cumum Aspattapah were counting the money, the Sheristadar Ramachendra Rau then called me to the Treasury about some accounts, went there, they had then examined the money in the Choubachah or Lockup, and subsequently

subsequently the Nagade Goomastah Sooba Row asked permission of the Amildar to examine the money which was in the box on the top, he desired him to do so, they then took the money out of the box and were examining it, Pauctoor Venkanah was writing the accounts - Moonshee Boojunga Row was also writing themselves then went to the Kozgoor Cutchery..

In the middle of the day - Nagadi Goomastah Gunderow and Moolky Goomastah Pauctoor Venkanah were sitting with me in the Kozgoor Cutchery, they then informed me that there was a deficiency of 1,200 Rupees in the Treasury next day Pauctoor Venkataraw and Nagadi Goomastah Gunderow told me about eight or nine A M in the Kozgoor Cutcherry that the dificiency had been made good in the following manner Viz - That the Amildar had made Casbah Zillah Casawarow go to the Sheriff's wife and get her gold and had it placed in pawn to Akkanah for Rupees 500. That Kapte Serdishai mudaliah had on account of the Sheriff's wife obtained

from

from Akkanah 200 Rupees by giving a bond - That Nagadi Goomastah Suberow had given 160 Rupees and Gollan Venkatigiriyapah had given 60 Rupees - that the amildar had obtained from the Sheristadar a bond for 300 Rupees and paid that amount into the Treasury -

While we were talking about the above the dismissed Pettah Mootsuddy came up and heard what we were saying but selfdid not repeat it to any one..

Kristnarow was also present..

It is true that the Sheristadar wrote a bond for 300 Rupees and gave it to the Amildar but whether or not the Amildars name was entered self cannot say..

The dismissed Pettah Mootsuddy is my son-in-law..

Deposition of Pauctoor Venkatrow, Moolky Goomastah, Adonie Talook, 29th April, 1850.

About the 26th or 27th of March heard that 2 bags of Copper had been substituted for two of Silver in the Treasury that

that went to the Roozoor in March, do not know how it occurred.-

Was not present in the Cutchery when the Hirsal was made up, was sitting in the Roozoor part of the Cutchery writing accounts.-

On the 26th March about 8 O'Clock A.M. was sitting in the Roozoor Cutchery then went to where the amildar was. On going there the amildar, Sheristadar, Nagadi Gomastah, Gollar, and many persons were untying the bags and with Gollar Venkatagiryapah and Solarvee Curnum - Ashatapah were examining them.-

Do not know where the bags, they were examining, were taken from.-

Was not in the Cutchery in the first instance, so did not see where they were taken from.-

About the 28th went to the Talook Cutchery, Nagadi Goomastah Gundoos and Duffadar Gouse Saib told me that there had been a deficiency of 1,220 Rupees in the Treasury, and that the amildar had caused it

it to be made good, that he (the Amildar) had caused the ornaments belonging to the wife of Gurrow to be brought and placed in pawn to Ak. Kana for Rupees 500 - That Melapah and Shechachari had an account of the Sheriff's wife obtained from Ak Kanah Rupees 200 - That Nagdi Gomastah Soobarow gave Rupees 160, & Gollar Rupees 60, and that Gollar had written a bond in favor of the amildar for Rupees 300 which amount the amildar placed in the Treasury.-

Did not write the accounts, when the examination was made, Moonshee Boojunga Rau wrote them.

Did not tell Bheemasamarau any thing about the matter.-

## Deposition of Deshayee Capatee Melapah, 30th May, 1850.

This man is an old Brahmin a Deshayee of the Adonie and Gooty Taloks.-

Deposed that Sheetamah the wife

wife of the Talook Shroff Goorasa told him that in consequence of the 1,000 Rupee deficiency and the 1,225 Rupees deficiency the Amildar troubled her by means of Zilladar Keshava Row and Moonshee Boojunga Row and demanded of her to make good 725 Rupees. She showed Deponent Gold ornaments weighing 48 Tolas, including the Lukka which she gave to her father Bheemapah. Bheemapah took the ornaments and in Company with himself (the Defendant) the Zilladar Keshava Row, Gollah Venkatageeyapah, Nayadi & Goomastah Soobarow, and Chegaly Chendapah, went to the Sowcar Akkanah's house, Akkanah looked at the Ornaments and deducting 14 Tolas for string and Lukka offered to give to the Gollah 500 Rupees for the remaining 34 Tolas of Gold. The Zilladar Keshava Row prefer Seetamah for the rest of 225 Rupees. And as there was an old friendship between them he (Deponent) wrote a bond in plain Paper to

to the same Sowcar Akkana for 225 Rupees. Who gave that money to the Gollah Akkanah, also gave 140 Rupees for the Nayadi Goomastah Soobarow, and 60 Rupees for the Gollah and 300 for the Zilladar Keshava Row, taking their bonds. in all 1,225 Rupees were thus collected. The Witnesses to his Bond were Chegali Chendapah and another name not known and Kalini Vencanah

Seetamah afterwards endeavoured to go to Bellary to make a complaint but was prevented by Nayadi Goomastah Goonadarow and Gollah Vencatageeyapah who endeavoured to persuade her not to go. but failed and the amildar told him (deponent) to go and persuade her and bring her back. which he (deponent) did. The Shroff Goorow came the same day from Bellary. The day after the amildar and Shroff and others examined the Treasury.

On the 18th May when the amildar went to Bellary he (deponent) heard that the Amildar intended to restore to every one his money. He deponent went and asked Amildar. The amildar sent him

2,334. 15 - 2

Notes.

1. The Balance on 22d is shown properly to be 2,334 - 15 - 2. It has been ascertained that the Sheriff did not go to Bellary until the morning of the 23d March - That he was at the Cutcherry on the 22d - That he actually sheriffed some of the Receipts on that day which amounted to Rs 915 - 0 - 0 and moreover his own accounts as produced show an entry of the payments made on the 22d day, three in number, amounting to 26. 13. 4 besides the Kissal disbursement Rupees 48,588. 5. 3 - But his account shows no entry of any Receipts on that day - But it seems clear that these receipts should

Fort St. George 1st July 1850.

should form part of the Cash left behind by the Sheriff - But in his Statement he said the balance only amounted to 1,230 Rupees of which 278 - 9 - 0 was left outside for current purposes - and 957 - 7 - 0 was put into the Lock up under his seal - The difference amounts to 1,104. 15. 2 and even if his Statement refers to the 21st only the account will not at all come out - In the account given by him he has made up the total of charges but not a single Total of Receipts which as before stated are entered only to 21st The account cannot be depended on at all - Neither do they show any memo: of the two accounts stated by him to have been in the Lock up and kept outside - Respecting the sum kept outside there is also a difference between the Sheriff the Gollah and the Nagadi Gomastahs Statements.

| | Rs |
|---|---|
| The Sheriff said it was | 278. 9 - 0 |
| The Gollah first said | 200. 0 - 0 |
| and then afterwards | 248. 0 - 0 |
| The Nagadi said | 248 - 0 - 0 |

but there was no account. The

The amount said to have been put in the Lock up on the 21st as stated by others is 946. 11. 8 and that the whole balance on that day was 1,400 15 - 8. The Sheristadar can say nothing to the point. The Nagadi makes the account as follows.

| | | |
|---|---|---|
| Balance on the 21st - - - - - - - | | 1,400 - 15 - 8 |
| Viz.t in Lock up | 946 - 11 - 8 | |
| in Outer box | 248. - - - | |
| Advances - not in Account | 206 - 4 - - | |
| | 1400. - 15 - 8 | |

This balance and explanation was not given till very lately - and are very unsatisfactory - and is discredited by the fact of a sum of 45 12 - 4 which was charges in February but not paid and therefore if in the Treasury should have been included in the above balance - Which it is not - but it was squeezed into the receipts on the 26th as is seen by the Book when it was found necessary to carry it again to account when the Treasury was examined and the accounts were made

made up on that day - The examination of the Treasury on that day has been denied but there is no doubt of it. and that the accounts have been fabricated seems also evident - On the 21st was a receipt of 126 Rupees included in this 1,400 11 - 8 but the Sheriffs accounts as before stated showed no receipts entered after the 20th -

3. Another point which throws great discredit on the accounts is that the Daily account kept by the Sheristadar in his own writing had every appearance of being made up at one and the same time and that lately - The book did not look like one in daily use - and the entries were suspicious - there was wanting the list of Coins &c &c and the Summabundy duties were given as the Cowle quite idle and incredible - The Summabundy was over - The Sheristadar's book of the two previous months was sent for - and neither for January

or

or February was any book found. This is conclusive that the March Book was made for the occasion.—

4 It is an impression that the receipts of the 22d March formed a part of the balance left by the Shroff. It has been shown that the Shroff was at Adonie that day. and a further mark of a very suspicious nature has come out. There were 8 Villages the remittances from which are stated to have come in on the 22d entered in the following order in the Nagadi's Book.

| | Rs | a | p |
|---|---|---|---|
| 1 Aggasanoor | 40 | 0 | 0 |
| 2. Cagait | 54 | 0 | 0 |
| 3. Pidda Cotullay | 161 | 0 | 0 |
| 4. Polecul | 502 | 9 | 6 |
| 5 Chinna Cotullay | 73 | 0 | 0 |
| 6 Moodamul | 50 | 0 | 0 |
| 7 Yendapully | 20 | 11 | 0 |
| 8 Adonie | 13 | 12 | 0 |
| | 915 | 0 | 6 |

In the 3d. 4th. 5th. and 6th. the date entered by the Nagadi has been altered. whether they were actually received on 21st and the amount 786. 9. 8 formed part of the receipt of 21st. and also made

made part of the deficiency of 1,225 Rupees discovered it is impossible now to say but the appearance of an alteration of date, in the accounts of the very day forming the subject of enquiry looks very bad. When on the other hand none of the accounts of Remittances received on the days immediately before or after have any alterations of the kind. The time that intervened before this investigation into the conduct of the Talook Servants gave facilities for making up their accounts.—The Nagadi's only explanation is that he forgot the date. but it is clearly a falsehood as he has the right date on the 2 first Villages! and 2 last. another solution for the alteration of the date may be given. The 22d May have been the right day and there may have been some intention of entering these sums in the account on the 23d. in order to show that the Shroff had nothing to do with that money but whatever solution is the

correct

correct one, the fact is one that raises much
suspicion ..

5 On the 27th March, the Tahsildar in an
urzee stated that the balance in the 25th should
be 4,296. 13a. 4a. But he did not say how much of this
was actually in hand. He pretended he had not ex-
amined it and that the Sheroff was wanted as
his seal was on the Chest. But it has been
shown that the Sheroff only left Rs 1,230 as per his
own statement of which 957. 9 .. was only in
the Lock up under his seal. The rest was en-
tirely in other Boxes. This artful conceal-
ment on the Tahsildars part was only made to
mislead The fact was that on the 26th he had
actually examined all the money and found the
deficiency. But even the sum stated by him
to be correct according to account was
not exact. as it appears to differ
from the Sheristadars account which on
the 25th makes the balance 4,357. 1 ..
or 45. 12. 4 less than the Amildars
This sum was brought to account
on the 26th as before stated ..

Thus far regarding the
accounts. The other points are
mentioned in the body of the
letter ..

From the Collector of Cuddapah ---

Sir,

Para 1 I have the honor to submit the accompanying Statements in reference to the offers that have been made for renting the Abkarry of the several Talooks of this District for the ensuing Fusly 1260. 1850/51

2. The amount of proposals now made it will be perceived exhibits a decrease in comparision with the rents of the current Fusly of Rupees 4,780- ----

3- The principal Items of decrease are in Poonganoor Chennoor, Cumbum Camalapoor and Sidhout. in the former of which Talooks this decrease is more than counterbalanced by the increase for the current Fusly compared with that preceding, while the increase is observable chiefly in the Talooks of Muddipully and Dooveoor.-

Fusly 1258- 6170
Poonganoor 1259- 8070
increase 1900.

1258- 23350
Chennoor 1259- 24400

From the Acting Collector of Chingleput

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue dated 29th April 1850, I have the honor to state, that it appears, very few persons have emigrated from this District to Ceylon, but amongst the few instances which have occurred, those who have returned, have somewhat improved their circumstances.

From the Collr. of North Arcot

Reports on the allegations of Nail Ghoolam Cawder as required in an Extract from the Boards Proceedings dated May 23/50—

Sir

1. I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated May 23rd, requiring me to report on the allegation of Nail Golam Cawder in a Memorial to the Court of Directors, that Rabia Beebee, to whom a certain Service Yeomiah of 2 Annas daily, attached to Roshenan Khan's Mosque at Arcot, was continued in 1847, on the ground that she was the Widow of the late holder Mahomed Yacoob, was never married to that individual, but was only his Concubine—

2. In pursuance of the orders of the Board I called on the Cauzy of Arcot to state whether a Nikeah Marriage was ever celebrated between the female in question and Mahomed Yacoob, as was alleged in the former enquiry before the Tahsildar. In reply the Cauzy states that on referring to

Fort St. George 1st July 1850

to his Official Register he finds that in the Hijeree year 1243 / A. D. 1818 / Rahiah Beebee daughter of Shaick Ahmud was united by a a Nickah Marriage to Mahomed Yacoob son of Nail Shaik ally, receiving from him at the same time a dower of 39 tolahs or 117 Pagodas weight of Gold. The testimony of the Cauzy seems the most authentic that could be had, and it appears decisive of the question—

3. The papers which accompanied the Proceedings under reply are herewith returned—

To The Honorable the Court of Directors of the East India Company &c &c &c

The humble Memorial of Said Goolam Cawder young Brother of Mahomed Yacoob Late Yeomiahdar in the North Arcot of Madras—

Humbly Sheweth

Humbly trusting you will be

Fort St. George 1st July 1850.

be pleased to grant a Moments consideration to the Prayers contained in the Memorial, your Memorialist begs to state as follows—

That your Memorialists Grand father the late Sheick ally Saib was a Priest in the Mosque situated out of the Principal Gate of North Arcot and received a Yomia or allowance of Rupees 3 — 12 — per Mensem in a Purwanah given by Highness the late Nabob of the Carnatic—

This Appointment Your Memorialists Grand father held for a Series of Years and until he became infeebled and infirm from Age, when, with a view of securing a provision for his family he resigned the place in question to his Son, named Mahomed Yacoob Saib who is the Elder brother by your Memorialist—

That the said Mahomed Yacoob Saib continued to support the family for several years on the said Yomiah until his demise which sad Event occurred on the 27th January 1847 when he left no Widow nor any Issue nor any blood relations save and except a younger Brother who is your Memorialist and

and a widowed Sister named Fattoo

On the 12th May 1847 Your Memorialist presented a Petition to the Tahsildar of his District requesting to be installed into the Vacant place of his Brother, the late Mahomed Yacoob Saib or upon the Son of your Memorialist Mustapha Saib, when a Concubine of his late Brother named Reyeboo, who is of spurious descent and a Woman of notoriously vicious character and who was first admitted into the family of your Memorialist as a Domestic and then was made his Concubine, this woman, set up by certain Enemies of your Memorialist presented a Petition to the Tahsildar urging a false claim as the lawful wife of the late Mahomed Yacoob, your Memorialists Elder Brother and which false claim the Tahsildar most unaccountably supported, although no Certificate of her alleged Marriage could be produced from the records of the Cazee of the District according to the Mahomedan Law, and yet the Collector has thought proper in the absence of all Evidence in support of

her Claim to sanction her being installed in the Vacant Office—

Your Memorialist being aged and weak, sent his son Mustapha Saib to Madras with a Petition on this Case, which Petition was presented to the Board of Revenue appealing against the unjust transfer of the Situation of your Memorialists Brother to a Concubine while there are legitimate heirs to the place, but the Board were pleased to Endorse the Petition with answer that they could not interfere in the Matter as it being Contrary to the orders of Government. / See annexement marked A /

Your Memorialists son Mustapha then enclosed this returned Petition in one and had presented to Government on the 20th December 1849, soliciting their interference, that either of the three representatives of the late Mahomed Yacoob Saib Your Memorialists Elder Brother that is your Memorialist or his son Mustapha, or his Sister Fattoo Bee might be placed in the Office in question in preference to the said Reyeboo Bee who is but a Concubine, but to your Memorialists misfortune—

the

Fort St. George 1st. July 1850.

the Petition was returned with an order from Government that their orders on the subject dated 11th. January 1848 were final and could not be revoked / see annexxmentex marked B /

Your Memorialist would here take the liberty to urge upon your consideration that the said Rayeboo was never married to his Brother the late Mahomed Yacoob, as according to the Mahomedan Law every Marriage that is contracted must as a matter of imperative right be registered in the records of the Cazi of the District and would besides be performed in the presence of all the relatives of the parties consummating the Marriage, whereas, by the Nadernamah or Certificate subscribed to by all Relations and Friends of the late Mohomed Yacoob and your Memorialist no such had taken place / see original Nadernamah or Certificate marked 4th. its 2 copies, marked D and E.

Under these circumstances and under the disinclination of the Madras Government to interfere in the unjust decision of the Collector, Your Memorialist earnestly

Fort St. George 1st. July 1850.

earnestly Craves your Honorable Court will grant his case your impartial consideration and pass such orders on the case of your unfortunate Memorialist as will place him in the situation rightly and justly his and which the said Rayeboo from her position can have no shadow of a claim to such an inheritance and your Memorialist as in duty bound—

The humble Petition of Moosa Saib, Nephew of late Mahomed Yacoob Saib, a Yonneyadar of the Mosque, situated at out of the Principal Gate of North Arcot—

Humbly Sheweth,

That in ancient time, the said mosque was built in the place by one Lookman Saib, to which a sufficient Yonneyam or Fund was granted by the late Carnatic Nawab Wallajah in order

Fort St. George 1st July 1850

order to employ Worshippers in it and to be continued constantly to pray according to the Law of Mahomed, when your Petitioners late Grand Father Shaikally said was admitted in one of those Duties and continued to act and enjoyed himself the said Yomiyaw till his life, but previous of his death, seeing that he being superannated and made over his Duty on his eldest son, Mahomed Yacoob said, your Petitioners late great Uncle in Register No. 563 in order to perform it and support the family by the income of the said Yomiyaw, as he had continued during his life time accordingly, he also continued to do so for some years and departed this life without any issue except your Petitioner who is legal heir of him and family, for he being his own youngers brothers son

2. Your Petitioner presented a Petition to the Tahsildar of his District stating that he is a legal heir of his late great Uncle Mahomed Yacoob said and begged him also to cause to be transferred the said Duty on him in order to maintain the family as it is his Ancestors [illegible]

Fort St. George 1st July 1850.

who investigating his case and perceiving himself by a sufficient and respectable evidences that your poor Petitioner is a legal heir of his said late Uncle, Mahomed Yacoob said and made a report to the then Collector of that Zillah Mr. Lovell, your Petitioner presented also a Petition on the 13th December 1847 to that Gentleman regarding of his legal claim of his said Uncles Duty and he is ready to act it either by himself or by his agent although he was employed as a Vakeel in the Moonsiff Court of Chengeepoorum without permanent Salary from the Government, but to his greatest misfortune that Gentleman not taking this just case into his candid consideration, but made over the said Duty on one Reyeboa who was a concubine of his said late Uncle Mahomed Yacoob said.

3. On the 4th January 1848 your Petitioner presented a Petition to your honors about this injustice of his case you were pleased to endorse on it to produce you in the first instance the Endorsement of the Collector of the said Zillah, accordingly, he presented it to the

Fort St. George 1st July 1850

the present Collector Mr. Bourdillon on the 2nd May 1848 regarding it who endorsed on it that he cannot do anything against the Order of his predecessor the enclosed is the same of it—

4. Your poor Petitioner further begs to state that is it not an unjust on the part of the Collector of his Hillah to give his Ancestors Duty to the illegal female of his late Uncle, while he is a legal heir of him, and to which he will prove you even to this day by all the Inhabitants of his country

5. Therefore, your Petitioner craves your honors will be pleased to take this case into your auspicious consideration and issue order to the said Collector to transfer the said Duty on him according to the Law of Mahomed, Your Petitioner as in duty bound

The humble Petition of
Moostafa Sail, Nephew of
late Mahomed Yacoob Sail,
a Yomadar in the Hillah
of North Arcot—

Most Humbly Sheweth

That in ancient time—

Your Excellency's Petitioners late Grand Father Shaik ally Sail was admitted as

Fort St George 1st July 1850.

as a Worshippon in the Mosque, situated at out of the Principal Gate of Arcot and obtained a Yomiyaw for his trouble in K.S 563, at the rate of 2 annas per day, which was granted to it in a purwanah by the late Carnatic Nabobs, and he continued to enjoy it to himself till many years; but seeing that he is worn out and feeble to perform his Duty for future and transferred it on the name of his Eldest Son Mahomed Yacoob, in order to support the family and then departed this life, accordingly who also continued to do so till some years

2. Your Excellency's Petitioners great Uncle, the said Mahomed Yacoob, departed this life on the 27th January 1847, and his legal Wife and Children had departed their lives previous of his death, the only heirs of him, were his own Brother, Nail Goolam Cawder, and Sister Fattoo Beebee who are Father and Aunt of your Excellency's Petitioner, and they being his personal representatives of him, according to the Law of Mahomed, had presented a Petition on the 12th May 1847,

to

Fort St George 1st July 1850.

to the Tahsildar of his District to transfer their late Brother's Duty either on their names or his Son, your Excellency's Petitioner, when one by name Reyeboo who was born by a Native Woman and Father Mooselman, whom thirty years ago, was discharged by Doctor Grant from him, upon finding her some vicious behaviour when she was kept as a Concubine, by that Gentleman, after which, she became a Public Woman and was admitted as a Domestic Servant by your Excellency's Petitioners late great Uncle, the said Mahomed Yacoob, and then she became his Concubine, this public Woman, by the instigation of some Wicked People, presented a petition to the said Tahsildar, stating falsely that she is a legal Wife of your Excellency's Petitioners late great Uncle, the said Mahomed Yacoob, if it is true, it must be entered in the records of the Cauzee to prove it according to the Law of Mahomed, all those, the said Tahsildar not investigating, thro' the means of some interest of her, had

made

To the Chief Sect. to Govt.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of the order of Government dated the

J.E.B.

9492 Fort St. George 1st July 1850.

Below 23d May 1850

the 15th May 1850 transmitting a Memorial addressed to the Honorable the Court of Directors by Naib Goolam Cauder praying that the Yomiah enjoyed by his grand-father and Elder brother unjustly & continued to Rabeal Beebee who he states was his brother's Concubine may be continued to him and directing the Board to report on the allegation that Rabeal Beebee was not the Widow of the deceased Mahomed Yacoob—

2 In reply I am directed by the Board of Revenue to submit the accompanying letter from the Collector of North Arcot on the subject, from para 2 of which it will be seen that the Nikah marriage contracted between the deceased Mahomed Yacoob and Rabeal Beebee was duly entered in the Register of the Cauzee of Arcot. The Board therefore concur in opinion with the Collector that the testimony appears fatal to the claim of Petitioner and decisive of the question—

Reporting on the conduct and general character of Anajee Row late Head Sheristadar of his District.—

Sir,

I have the honor to acknowledge an Extract from the Minutes of Consultation under date the 18th May 1850 conveyed in the Board's Proceedings of the 27th May requesting that I will furnish a report on the conduct and general Character of Anajee Row then Head Sheristadar of this District and an applicant for an increased rate of allowances.—

Since my previous letter I have had to report the death of Anajee Row but as the higher rate of Salary will be payable to his sons if sanctioned by the Government it is still necessary that I should furnish the required report.

Anajee Row had served the Government for a little more than 34 years. He held the appointments of

Fort St. George 1st July 1850,

of Peishcar, Tahsildar, Subdivision Sheristadar and Nayib Sheristadar in Coimbatore and that of Head Sheristadar in this District for more than 8 years. I believe it is sufficient for me to state that his appointment to this District arose from the character he had established in Coimbatore and that in this District until failing health interrupted his usefulness, he always succeeded in obtaining the approbation of his Employers.—

His death now enables me to state with confidence that he had established in this District a high reputation for integrity and purity and that I believe him to have been one of the Government's best Native servants.—

To the Chief Secretary to Government.

Sir,

With reference to the orders of Government dated 18th May last I am directed to forward the accompanying letter from the Asst Collector in Charge of Salem dated 18th ult. reporting most favorably on the conduct and general character of Anajee Row, late Head Shirastadar of this District, whose death has been reported subsequent to the date of the above orders; it therefore only remains for the Board of Revenue to recommend that the difference of Salary to which the deceased became entitled from the 12th March last may be disbursed to his sons in accordance with the request of the Asst Collector.

Sir

I have the honor to transmit for

Fort St. George 1st July 1850.

for your Board's Orders an Extract from the Readit of the accounts of this Collectorate for Fusly 1255. furnished by the Civil Auditor on item No. 5, as also in connection with the above, Copy of the account particular No. 2 shewing the amount of Salt Rossions paid in that Fusly namely Rupees 2,312 11 11.—

2. For the disbursement of this sum the Civil Auditor declares the general sanction of Government dated 13th February 1846 is sufficient, 15th Sept. 1846 and by a subsequent order of Government, cannot be admitted.—

From Bd. to Govt. 3 Your Board by a reference to the
26th January 1846 to 1850 Correspondence noted in the Margin
Minutes Cons. will remember that the Civil
13th February 1846 Auditor was authorized to admit

future without the necessity
of obtaining personal sanction annually.

unable to say as my records do not contain those quoted by Mr. Bruce but I would submit as there is no variation in the rates of the Rossoms and only in the names of the incumbents, a fresh annual sanction hardly seems necessary, for as matter of course, on a lapse in the incumbent occurring the next heir succeeds, and the only difference is that of the name. There may be also a change of Pans, with these exceptions the differences are immaterial.—

I request your Board will to obtain the sanction of Government for passing these disbursements for Fusly 1255, and solicit the authority of Government for similar expenditures being incurred in succeeding Fuslies without additional sanction.

Proceedings thereon. 1. From the nature of the Civil Auditor's objections on the charges for Salt Roosoons amounting to Rupees 2,312 - 11. 11. retrenched in the Accounts of the South Arcot Collectorate for Fusly 1255 as per enclosure to the foregoing letter the Board consider that there should have been a Standard fixed under the sanction of Government regulating the payment of each individual, and that it should have been specified whether the Roosoom on the death of an incumbent should be continued, without report to the Board or to the Government, to the next succeeding relative. Without such a document in his profession the Board do not perceive how the Civil Auditor can check these disbursements.

For reasons stated the Board dont feel warranted in submitting the Charges for Salt Roosoons retrenched in the South Arcot Collectorate for Fusly 1255 to Govt. as per preceding Resolution for the Continuance of those allowances without full and satisfactory explanation on the subject.

54.55

To Col. No. 19 in Cons. 22 September 1825.

2. It is observed that the Roosoondars previous to the Salt Monopoly collected certain fees at different rates in cash upon every Garce of Salt sold, but on the commencement of that Monopoly, that an equivalent in cash was granted on the average price of the Salt sold in five years antecedent to

*Under clause 2 Sec. IV Reg. I of 1805.

*to that period that such was authorized by Government and sanctioned communicated in a letter from the General Salt Agent to the Principal Collector of South Arcot on the 12th August 1806, that the Roosoons were granted to the Head Manufacturer for superintending and encouraging the sale and manufacture of Salt and that the Roosoons have been looked upon as hereditary. The Amount of Roosoons would appear not to have exceeded Rs. Pag. 20:35:50 per Annum as per abstract No. 1 of the General Salt Agent's letter of the 23d April 1806 giving a total of Rupees 873:5:1 per Annum.

In Mr. Collector Ottos letter 23d April 1806.

3 The Board are not aware whether the disbursements in recent Years as well as the amount retrenched have been regulated under the Standard fixed in 1806; but they observe that the Amounts of charge in Fusly 1252 was Rupees 1,920 10 5 and in Fusly 1255 no less than Rupees 2,312. 11. 11 and that

in

in the last mentioned fusly more than one Rossoom has been allowed apparently to the same individuals, and the incumbents instead of being the Head Manufacturers consist of Pattamongars, Curnums, Nattums, Shokerries, Measurers, Attenders, Dhoney-men, Carpenters, Ironsmiths, Potties, Talairs and Water-Pandal Men.

4 Under these circumstances the Board do not feel warranted in submitting the charges petrenched in the Collectors Accounts for fusly 1255 to Government or for requesting sanction for the continuance of these allowances without full and satisfactory explanation of the cause of these Rossooms being alienated from the Head Manufacturers or the direct descendants to the servants alluded to in the foregoing para and of the reason of so large an

increase in the branch of expenditure in recent years contrasted with that fixed at the Commencement of the Salt Monopoly.

5 The recommendation in Para 5 of the Board's Proceedings to Government of the 26th January 1840 was evidently made under the impression that altho' the Collector could not produce the Original sanction and rules of the Rossooms, the recipients were yet descendants of the Original Grantees, and that it could be proved that the rates allowed to them were those fixed in 1800, in which case the charges being incurred under the express authority of the Regulation would not require

9506. Fort St. George 1st July 1850.

require the sanction of the Board or of Government & annually; but be admitted by the Civil Auditor in the usual course of Audit.—

The Board further observe that the information called for in para 4 and 6 of their Proceedings of the 20th January 1840 has been allowed to lie over without reply, and they request that Mr Bird will not lose sight of this subject in giving his consideration to that now under reference.—

7. Copy of such part of the Minutes of Consultation of 10th September 1840 as relates to the subject under reference is forwarded for the information of the Collector.—

3- A certain extent of land was purchased some years back by Petitioner at Public sale and Pattah obtained for the same in his name, being a Brahmin he had up to July 1855 the usual per centage deducted from, the assessments on his lands In the following July however it

Fort St. George. 1st July 1850

was discovered that the alleged purchase by Venkattarayen of the land was mere nominal, and that the cultivation of the fields by Daivanaiga Reddy, though pretended to be carried on on account of petitioner and as his agent, was in point of fact conducted for his own use and benefit and with his own means and stock -

4- This was proved by the deposition given by the Village Curnom and the Petitioner though called upon to establish his assertion to the contrary by the production of his private accounts or other documents, has failed to do so-

5- Whether the alleged purchase by Petitioner was a bona fide transaction or not is, I submit, immaterial, the fact of the land being cultivated by a Soodra on his own account, subjects it to full assessment and Brahmins sub-renting their lands to Soodras or others, and receiving the Maiwaram are

Ordered that the following Endorsement be passed on Petition No. 305 of 1849.

"From the report of the Acting Collector on the subject of this Petition it does not appear that Petitioner has made good his claim to enjoy the deduction conceded to Brahmin ryots, who are entitled to such indulgence only so long as the land is under their own Cultivation."

From the Acting Collector of South Arcot - 3

Sir,

1. As directed by Extract from the Proceedings of the Board of Revenue dated 11th January 1850. I have the honor to submit

Forwarding further explanation respecting certain Inam

9511 Fort St. George, 1st July 1850

Exam lands the possession of which is disputed in Petition No. 2171 1849 forwarding translations of papers produced by both parties.

submit further information in respect of the subject brought to notice by the parties in their Petition No. 2171 of 1849 addressed to your Board.

2. Adverting to the endorsement given by the late Collector on this Petition and to the statement made by the Defendant Saudar Khan it does not appear that any claim or title is set up by the said Defendant for the right to the Inamdar land allotted for the support of the Mosque at Chellumbrum; but simply to the possession of right to Cultivate those lands, Cawnies 8, annas 13¾ situated in the Village of Comaravungalum which lands were set aside for the maintenance of the Official who should perform the daily Parish Imam and the Kateb or reading in the Mosque on the Friday.

3. At an investigation held before the Tahsildar it has been distinctly deposed by several individuals who have Cultivated the

Inamdar

Inamdar in question that they took the land on subrent from the ancestors of Cawder Khan and rendered to them the landlord's share, and that they had only some few years ago given up the lands and rent to the said Cawder Khan on his demand.

4 The Inamdar as remuneration for service has without doubt been in the profession of Cawder Khan and his family for many years and the nature of the service is a religious one as I have already stated.

5 Both parties have put in certain documents and Enquiries in support of their respective claims, but none of these papers are original, being merely copies attested by the seals of the Cauzees of Chellumbrum. I submit translations of the documents for the Board's inspection, and at the same time cannot answer for their authenticity. The Original Perwanah Petitioners dues, was delivered to Mr. Wallace the Collector of those Taloks

Taloks, namely Chellumbrum and Mayaveram when they formed part of Tanjore, and in support of this assertion a receipt is filed which bears the seal but not the signature of the Collector.

Petitioners Document No. 6.

6 The whole Manium stands registered in the Enam and Survey accounts of the District in the names of Petitioners ancestors and this of course, cannot be disturbed. I am however of opinion that the Defendant Cawder Khan has a right and title to the possession and usufruct of the 8 Cawnies and odd in Comaramangalum so long as the service of the Mosque is performed by him as the descendant of Syed Yacoob and Syed Hoossain. The original Petition and enclosures are herewith returned.

Translation of a Mohazur or appeal addressed to the Public by Ahmed Khan and Rader Khan Nephews of Laul Khan, dated 9th Zufer Hijree 1216.

We request the attention of the Cauzees Priests and all the Inhabitants high and low residing in the Purgunnahs of Chellumbrum Bowangherry Tirowdy Venkatampettah &c. to the following circumstances:-

Every

Fort St George 1st July 1858.

Every one is aware that there are 15 Cawnies of Manium land in Comaramungalum for the maintenance of the Mosque built in Curbah Chellumbrum. Appoo Mahomed Saheb to whom we had given over the Summuds of Abdool Kabeer Khan and Satoola Khan has been performing the Services connected with the Mosque until July 1210. of the said Manium he gave 2½ Cawnies in Comaramungalum to Syed Hoosaine Uncle and Father in law of Mahomed Yacoob on account of the Office of Khateb to the Mosque, and this individual had accordingly been enjoying the produce of the said 2½ Cawnies annually and performing the necessary orders. His agreement regarding the said Service is predicable but he has no sort of right to the Manium of the Mosque. He however brought a claim against me for the Manium of the Mosque during the Amil of Abdoolkhader Khan. It was proved that we are the only rightful owners of

the

the said Manium being granted for the support of the Mosque; and as regards the claim of the said pretenders, it was pointed out that there was a separate Manium of 5 Cawnies in Coomaramungalum in the name of Appoo Mahomed Fakeer to which he might lay claim and our Manium was accordingly placed in our possession. Shortly afterwards the Company assumed the Country when we were all away from our homes by reason of the disturbed state of the Country. Mahomed Yacob took advantage of this opportunity got up a party and on giving security to the Circar usurped the proceeds of the Manium. After receiving information of the same we represented our case to the authorities who gave orders in our favor, and we accordingly recovered the proceeds from the said individual. We then appealed to Mr Blair Member of Chellumbrum before whom the claim was proved to be false both the Maniums have been proved to be ours.—

We

We therefore request that such of the people as can bear testimony to these facts will put their names to this Document.—

Proceedings / Petition

The reason is stated to have been favorable though to unequal throughout the Province

to the Settlement of Land Revenue in the District of Tanjore for Fasly 1258.—

Province On the whole the Rivers were well supplied but the want of rain except in partial showers from the month of November and subsequently, had an injurious effect upon the standing Crops in the wet lands and upon the Cultivation of the Dry grain.

2 In the several classes of Sanaff Villages as shewn in Para 3 there was a considerable change. 147 Villages were added to Olungoo Rents owing chiefly to 129 Villages held under Road Rents in Fasly 1257 being carried to this Head of Settlement. 20 Villages also from amanny were added to Olungoo The other changes in the settlement of Villages of different Classes are explained. The number of Swarnamanium and Mocasa Villages entered in the Marginal Statement of Para 3 should have been separately specified and in future all Villages of every denomination should be exhibited in Statement C.

In

Increase Valies-

Punjah — 284

3 In every description of Cultivation there was a Net increase of Valies 1555 including Amanee lands above the extent of Cultivation of the last year. The Collector states that in the Talooks of Tirrapoondy and Mannargoody there was a decrease of 77 Valies but on referring to Statement C it appears that there was a decrease of 9 Valies in the Grain punted Villages of the Punjanaham Talook, and of 68 Valies in Amanee Villages which are not to be traced in consequence of the transfers which have been made from one mode of Settlement to another. On Comparing the total extent of Cultivation as per Statement No. 13.

|---|---|---|---|---|---|
| Tirrapoondy — | 11615 | 12083 | 468 | " | the total extent of Cultivation in all the Talooks with that of the previous year, there is an increase in Tirrapoondy and Mannargoody and a decrease in Kevalore and Coompal |

| Coduvajel — | 5079 | 5076 | " | 3. | |

Godavery as shewn in the Margin, the attention of the Collector is directed to this result which appears to be at variance with his Statement that there was a decrease in the 2 former Faloks—

4. The Prices of the year fell 20 ⅞ p/c below the Standard and 10 ⅞ p/c below those of Fasly 1257 and this is explained to have occurred in consequence of the large importation of Arracan Grain into Ceylon and of the diminished demand for that Market until after the close of the Fasly.

The inland demands may also affected by the favorable season

season in other Districts.

5 Compared with the Settlement of Fasly 1257 the settlement now reported shows a Net decrease of Rupees 147,018 as follows.—

Para 11

Fort St. George 1st July 1850.

6.

The decrease in the settlement is to be attributed entirely to the decline of prices which amounted actually to Rupees 20904.

Para 12.

7

Of the total amount of Remissions on account of withheld Crops & inundation and short produce being Rupees 47585 more than half were allowed in three Talooks, the Collector sustained in the Talook first named in the Margin is estimated to be the Board regret to observe that the surplus water from the western portion of the District are still beyond control, and that from the nature of the lands an effectual drainage in all seasons may not be attainable they look forward to the benefits of the works now in progress in relieving the Country from such constant floods.

the above Statement will show that the reduced Bloongoo Levy of 12 Villages in the Trichinopoondy Talook is below the average per Daly both of the revenue of Fasly 1757, and of the preceding ten years. Compared with the highest years, which the Collector especially adopted as the standard of Comparison with the reduced Grain demand the contrast is still greater A reduction seems to have been made upon Poonjah Garden lands and Topes but the particulars are not given separately the extent of Cultivation in these lands has decreased from 1181 to 947 Valies The grounds on which a reduction of the assessment on the Dry and other lands was deemed requisite, and the principles on which it was made should be fully explained and the Board desire that in all Cases in which a reduction of Demand has been made the Original assessment of wet Dry or Garden lands should be brought to account and the amount of such

In their Proceedings dated 30th April 1849 the Board took occasion to impress upon the Collector that the scale of remission in Carrying out the settlement of the Amanee Villages upon a reduced Grain assessment appeared to require modifications and he was requested to explain the result of the new mode of Settlement in some Villages which was open to objection and altho it was not then deemed desirable to disturb the arrangement in progress, they feel it incumbent upon the Collector to submit a full explanation of all those points which have been brought to his notice and this they request may be done in a separate communication. 12. The Collector observes that the Comparison of produce in which

which the future rent of the Tranquebar Villages is based, shows an increase of 18% above the ten years average, but as shown in the Marginal note this increase would be influenced by the increase of Cultivation being 69 Valies or 12% If the produce of the land cultivated in Fusly 1258 is computed according to the ten years average, it will be found to amount to Cullums 76434 and the increase in the Grain rent now fixed will be within 1% as the ten years average has been prepared by the Cunnums, The Board think it desirable that further enquiry should be made, and that it should be tested by an examination of the Gross produce of these Villages before the Nunjah Assessment is finally determined.

11. Statement No. 9 appended to the Report shows that the sum of Rupees 22832 was collected on account of arrears outstanding at the end of Fusly 1257. being Rupees 116537. the balances to be realized still amounting to Rupees 122704. This sum it appears, Comprises arrears outstanding above 15 Years, and the Board desire that they may received a separate report containing full particulars of each item of balance, with the collectors opinion of the practicability of their recovery, for Submission to Government.—

15. The reimposition of Assessment on Poonjah and Bogayet lands in the Tranquebar Villages is approved of by the Government. The collector states that the Poonjah lands in Tranquebar near the coast are of an inferior description to those nearest the boundary, and that in his opinion an addition of one Rupee on the rate fixed by the Danish

Government was a proper assessment, and that the addition of 2 Rupees above the double rate of Poonjah or 8 Rupees might be the rate of Bogayet Assessment. The rate of assessment should be regulated by the Capability of the soil and its application be determined by the rate of Assessment on lands of similar quantity in other Villages and according to these data the Board direct that measures may be immediately taken to assess the Dry and Garden lands in Tranquebar so that the Amount of Tiruwa to be paid on each description of land may for the future be fixed on definite principles—

Para 6.

16 The Board are not averse to the abatement of the ordinary Demand on lands which, from the Causes stated by the Collector, cannot be Cultivated without Loss in consequence of the water having been used previous to its reaching them as in the Case of the Occaccody and Veeramangoody Villages

3704

Villages and having been deprived of all deposit but they object to an intermediate assessment between Poonjah and Nunjah in other words, to Garden Teerwa on Poonjah land converted into Nunjah, Instead therefore of the Continuance of the Bagayet tax on the lands in question until the contemplated improvements in their irrigation is effected, they direct that the Nunjah Teerwa of land of similar description may be brought to account and an abatement be allowed therefrom for such period in such proportions as may be considered just according to the circumstances under which they are cultivated—

17 It appears that the cultivation of "cottaly" was not known prior to Fusly 1236, if this is the case, the Collector is requested to state how the land was cultivated and assessed previous to that year and

Col. 18 Collector's Statement

and upon what principle the rates of Nunjah and double Poonjah were fixed in that Fusly upon cottalay crops depending entirely upon local rains. the Statement submitted with the collectors letter shows that this description of cultivation has been carried on in 11 Villages to the extent of 91 Valies, on a total extent of 467 Valies of Nunjah lands and with the exception of one Village "Yedunguncottah" it has been trifling— It further appears that in 5 Villages the full Nunjah assessment is paid for "cottalay" and in 9 Villages 1/2 Poonjah teerwah of each Village respectively is now proposed to be fixed— In one Village Kielpathacoody while the rate of Nunjah is Rupees 8—6— the assessment proposed at 1/2 Punjah is Rupees 8—2 —— The new rates are in some instances less than 3/4 of the average Nunjah teerwah of the Village and in the 1—7— and 11 Villages

there

there is a remarkable difference between the old and new rate of assessment. Under these circumstances the Board cannot approve of an assessment which exhibits such great variation and inequality and they are of opinion that it should be revised and be determined by the Capability of the fields in which cottulay is cultivated Compared with the average produce and prices upon which the assessment of adjacent lands of a similar quality is fixed.

Submitting a Statement of receipts and disbursements of the Pathe-=rouncotay Pallam since it came under Circas Management and asking permission to place the Pallam into the hands of the Minor who has attained the age of 19 and is able to manage his own affairs.—

Sir,

By Mr Bannerman's letter of the 19th July 1832, and the copies of correspondence accompanying it, the Principal Collector of Tanjore was authorized to nominate a Guardian and Manager for the Padarumcottah Pallam, placing the same under the authority of the Court of Wards, and the enclosed Statement exhibits the annual amount of receipts and charges incurred from 1242 A. D. 1832/33 up to Fasly 1858 A. D. 1848/49 the balance in hand amounting to Rupees 9460.—

2. The Pathurumcottah Poligar has been educated under the Supervision of the several Gentle-=men at various times in charge of the District and has done much credit to the care taken of him,

him he speaks and writes English, is well grounded in accounts and his own language, and promises to be a useful man in that part of the District in which his Estate is situated. I have therefore the honor, as he has attained the age of 19 and appears competent to manage his own affairs, to solicit permis=sion for the delivery of the Estate into his hands at the commence=ment of Fusly 1260. -

3. Mr. Kindersley in his letter of the 15th June to the Revenue Board valued the annual produce at Rs. 4,278-13-11 arriving at this calculation by taking the average produce of Government lands in the Puttoo=cottah Talook, but this average was subsequently shewn to be more than the inferior lands in the Polligarry would yield, and in the charges a difference

will be observed in the actual with those estimated originally, the result on the whole being in favor of the Estate. -

Proceedings Relative to the Management of the Minor Estate of Patheramcotta in the District of Tanjore from the period it came under Management of the Court of Wards and the proposal to transfer it to its Proprietor who has attained his majority.—

63.64

thereon.— 1 This Estate came under Management of the Court of Wards at the death of the late Poligar, Vencatachella Singapooly in Fusly 1242 and was reported to consist of seven Villages containing 609 Valies of Seycal Land, calculated to yield a yearly revenue of Rupees 4,278-13-11 but which has proved to have been overestimated, as the average Summa during the time the Estate has been under Management, is shewn to be Rupees 3,574-10-4 —

2.— The total Revenue from Fusly 1242 to Fusly 1258. amounted to Rupees 60,769-2-2½ as follows.—

| | |
|---|---|
| Land Revenue Rupees | 59,077-7-9 |
| Refunds of wages for broken periods | 242-4-6½ |
| Interest on Government Securities | 1,449-9-11 |
| Rupees | 60,769-2-2½ |

3. The total charges during the same period amounted to Rupees 49,333-14-9 3/8 viz.

| | |
|---|---|
| Peishcush Rupees | 23,588-15-10 |
| Expences of the Minor & Family of late Poligar | 17,834-4-1 |
| Village Sibbendies | 4,911-5-1 |
| Maramut | 1,309-4-9 3/8 |
| Purchase of a horse & Cloths for the Minor viz. | 890-1-4 |
| For building a House | 800-4-4 |
| Rupees | 49,333-14-9 3/8 |

leaving

leaving a net Balance of Rupees 11,435-3-5/8 from which a sum of Rupees 1974-8-11 was applied to the payment of a Debt due by the late Poligar to one Mootoovear on Chitty, and Rupees 7,000 invested in Government* securities thereby reducing the cash balance in hand at the end of Fusly 1258 to Rupees 2,460-10-6/8 —

+ Note The Collector does not mention in what Loan nor at what date this investment was made.—

4— The Heir having attained his majority and being reported competent to manage his own affairs the Collector solicits permission to deliver the Estate into his hands at the commencement of Fusly 1260, to which the Court see no objection & resolve accordingly to recommend it for the sanction of Government.—

5. The Court observe that no yearly Reports of the Management of this Minors Estate have been furnished to them, an omission the Collector does not notice in forwarding the Statement for the entire period it has been under management, his attention is therefore called to the matter and an explanation thereof requested

From the Collector of Tanjore

Sir,

I have the honor to report for the information of Government that Goondappah Head Sheristadar of this District has been on the receipt of salary at the rate of 125 Pagodas, or Rupees 437-8-- as since the 1st May 1845 and has now become entitled to the increased payment of Pagodas 150 or Rupees 525 under the Rules of the Service, he having completed his 15 years as Head Sheristadar, I have therefore the honor to request sanction may be obtained authorizing the payment of the higher rate of Salary from the 1st May 1850. In submitting the application I cannot but allude to the high character maintained by Goondappah and the efficient manner in which he conducts the various arduous duties of his situation, thus fully meriting the increased salary now solicited.

From the Collr of Tanjore

Sir,

I have the honor to acknowledge the receipt of your letter of the 11th March accompanied by

by Petition No. 244 of 1850 and calling for explanation whether "the channel referred to by Petitioner has been filled up, and if so for what reason."

Petitioner claims the opening of our old channel according to the terms of a Rajeenamah executed by himself and a deceased party. But on reference to this document the terms are so doubtful that it is difficult to say with any degree of certainty whether the channel alluded to in the agreement is the now existing one by which Petitioners' lands are watered, or whether it has reference to one no longer in existence or traceable. As the Rajeenamah on which Petitioner claims the right of cutting a channel that the lands of the opposite party was drawn out 5 years ago it seems hardly probable that the execution of the work would have been thus long deferred and this point goes to confirm the supposition that the present supply channel is that alluded to in the document above mentioned. Under these circumstances and the decided opposition of the land owner that whose property Petitioner wishes to carry his water course the Sub Collector declined ordering its execution referring

From the Collr of Trichinopoly — Replying to the Board's Contract under date 6th Ultimo about the Enamdar of Collaputt regarding the proceeds of his share in that of Village for 3 fuslies.

Sir,

In acknowledging Exctract from the Proceedings of the Board of Revenue under date the 6th Ultimo I have the honor to state that as the late Enamdar did not keep regular Accounts I am only able to obtain a trustworthy Statement of the proceeds of his share in the Village of Collaputt for the 3 fuslies, 1257-1258 and 1259. The detail is as follows.

Statement of the Revenue and Collections of the Lapsed Enam in Cullooputt.

| Fusly | Settlement. Rs. a. ps. | Collections. Rs. a. ps. |
|---|---|---|
| 1257 | 98 9 6 | 98 9 6 |
| 1258 | 197 13 11 | 197 13 11 |
| 1259 | 95 15 10 | 95 15 10 |

2. Have to add that in anticipation of

S. C. B.

such a measure being approved I deemed myself authorized in the settlement of the Current fusly to deduct one third of the Pariz of the lapsed Enam on account of the allowance granted to Harreem Sakeebah and carried the remainder to the credit of Government according to the Statement entered in the Margin.

| | |
|---|---|
| Total Settlement of 1259 - | 95-15-10 |
| Deduct 1/3 as due to Harreem Sakeebah - | 31-15-11 |
| Net Settlement | 63-15-11 |

My object was to avoid the necessity of addressing the Government to request orders for the payment of an allowance already sanctioned, and I request permission to continue this course for the next 4 years when the ordinary proceeds of the lapsed Enam can be fixed upon an average of 7 years according to the instructions of Government contained in the Exctract from the Minutes of Consultation which accompanied the Board's Proceedings.

Ordered that the above mentioned letter be submitted with the following address.

To the Chief Secy. to Government

Submitting letter from the Collector of Madura furnishing the information called for by Government regarding the heavy balances outstanding on account of small Farms at the end of the two last Fusles and explaining the causes

In Cons. 1st June 1850

With reference to Para 6 of Extract from the Minutes of Consultation of the 9th May last, I am directed by the Board of Revenue to submit the accompanying letter from the Collector of Madura dated 1st June, affording the information called for by Government regarding the heavy balances outstanding on account of small Farms at the end of the two last Fusles.

2. It will be observed that the chief

causes of delay in making the Collections with the Board's observations.

item under the above head is the Revenue from Tank Fisheries, that there are no less than 462 Tanks in the District, and that the fishing season frequently lasts until May and June.

3. The principal cause of the delay in making the collections appears however to be the late period, at which Puttahs are delivered the preparation of the Summalundy accounts commencing about the 1st March in order that a considerable amount of Coday cultivation which takes place in February March and April may be included therein, and under the present Ryotwar system including the preparation of accounts of waste lands it is found almost impossible to complete the Accounts and distribute the Puttahs sufficiently early to allow time for collection of the Rents within the Fusly. The Collector will be requested to use all practicable expedition in the matter and to notice according to the circumstances of the case any remissness on the part of the Talooke and Village Authorities.

4. With respect to the concluding Para of Mr Parker's letter the Board direct me to state that he has been informed

In Cons 27th May 1850

informed that their circular of 15th March 1849 and the Extract from Minutes of Consultation of 7th May last Para 2 contain sufficient instructions for his guidance for carrying the Talook collections to account. The date now proposed by Mr Parker Sept. 30th June for closing the remittance account is the latest that under the circumstances can be expected. With reference however to the payments reported to be made from the Talook Treasury at Ramnad the Collector will be requested to explain whether they are made from the Collections received at that Treasury, and if so, under what authority.

+ 7th May 1850.

5. The order of Government on the subject of the pay of the Troops at Angole will of course apply to the present case, but no authority exists for the payment of the Salt and Sea Customs Sibbendy's wages at the Ramnad Treasury out of the Talook Collections.

From the Collr of Madura — Forwarding accounts Particulars of the Mail-warum Paddy Contracted for in the Shevagunga Zemindary for Fuslies 1255 1256 & 1257 — Rec'd 13 8th

Para 1 — According to the accompanying accounts Cullums 54,872 — 2 3/8 of Paddy and Grain belonging to the Fuslies 1255 1256 and 1257 and Valued at the price of the year at 86934 5 — 3 remain undelivered to the Contractors —

2 These Persons assert that money is due to them from the Zemindars Estate more than equal to the Value of the Grain To ascertain these and other facts relating to the Estate I have Collected accounts, but as their intricacy will render examination a work of time and the Grain is in danger of spoiling, I deem it advisable to request the instructions of the Court regarding its disposal.

3 The greater part of the Assessment being received in kind late in the year, the Government Peishcush due at earlier dates Could be discharged only by the Zemindar being so far in advance of his expenses as to be able to apply the proceeds from the Grain

Grain of one Fusly to the payment of the Peshcush of the year succeeding, or by his borrowing on anticipation of the crops. The latter system was pursued in Shevagunga, and when some of the Creditors afterwards obtained contracts for the Grain, orders were issued from the Sunnoogum to the Seenay Cutcherry to enter the Instalments falling due as paid from the Loan, and to the Talook to carry all Grain delivered as paid for. In the Seenay Cutcherry account the last Instalment was first entered as discharged and again as a Byaz Balance, to await a final Settlement of accounts with the Contractor.

4. If the Estate were in the uncontested profession of the Minor, I should feel no difficulty in suggesting that the Balance of Grain should be delivered to the Contractors on their giving an Agreement to pay any sum that may appear due on a Settlement of their Accounts. The Balance of Peshcush for Fusly 1258 is more than covered by the sum deposited by the Contractors of that year which will be carried to account at an early period on the adjustment

adjustment of their Accounts. To meet the large Balance for Fusly 1259 there is the whole Paddy Produce of the year, besides balances of former years. The claim of Ungamootoo Nachear however, is a considerable obstacle. Any Money that may not have been given for this very Grain of Fusly 1258 she may perhaps argue constitutes a private debt of the late Zemindar's not payable from the produce of the Estate.

5. In the Choice of difficulties however, I still think it expedient to make the Grain over to the Contractors on their giving the agreement above mentioned with the addition, that should the Estate be decreed to Ungamootoo Nachear they will be responsible for any Claim she may make in regard to it.

Madura Rhoverencoorchy 18th June 1850.

From the Asst Coll. of Tinnevelly

Furnishing the further information called for by the Board in an Extract from their Proceedings dated 8th Novr 1848 regarding the transfer of certain Devastanum Enams and suggesting the institution of a Central Board of Trustees to have a control over the Trustees of all the Pagodas in the District & to appropriate the Tripany income to the repairs of Pagodas &c at its discretion

Sir,

Para 1. With reference to Extract from the Proceedings of the Board of Revenue dated 6th November 1848 on the subject of the Devastanams, I have the honor to state that of the 12 Surrumaniem Villages — the 7 Sodegee and 4 Desacavil Catgottah Villages referred to in Para 2, all excepting one have been made over to the Pagoda Managers as also have the Surma and Sodegee Enams mentioned in the same para with the exception of one.

2. The difficulty in the first of the above two instances occurs in the Village of Covilpetty in Sattoor Talook, which is a Surma Manium Village belonging to the Pagoda of the said Village and whose yearly Revenue amounts to Rupees 1240. Three Trustees were originally appointed to this Pagoda, of whom two resigned their offices in 1845 in favor of Cate Appahsawmy

Naick

Naick (the 2d Dagum Cutgootadar of Elya-
:asanendal) while the other by name
Nullaseuen Pillay neglected his duties
and for some time was absent from
the Village altogether - Consequently the
said Appaksawmy Naick alone had the
management of the Pagoda for a period
of 4 years till he died in May last -
Some time previous to this event how-
:ever, Nullaseuen Pillay came forward
and demanded that the Village should
be transferred to him as Trustee of the
Pagoda - To this Appaksawmy Naick ob-
:jected saying that Nullaseuen Pillay
was an insignificant person and a bad
character, and had formerly brought a false
complaint against him, and that he held
no land whatever in the Village of Covil-
:putty and that he desired not to be as-
:sociated with him in the Office - These
objections seem on enquiry to have been
true and reasonable since the death
of Appaksawmy Naick his Brother
has been appointed a Trustee of the Pagoda with the
consent of the Inhabitants but refuses to be as-
:sociated with Nullaseuen Pillay
under these circumstances I beg

to

beg to recommend that the Village
may be made over to the Brother
of the late Appaksawmy Naick whose
heir (being an adopted child) is the son
of this Brother, and under his guar-
:dianship during his minority - The lands
of Elyasenendal are in the immediate
neighbourhood of Covilputty and the
Cutgootadar is the most influential
person there, and the family highly
respectable - It would be well if
Nullaseuen Pillay were degraded from
the Office of Trustee of the Pagoda on
the score of his neglect of duties, but
if the Board see any objection to that
course the transfer of the Village to the
other Trustee alone may I apprehend be
determined upon without violating any
principle or infringing any right.

3 The difficulty in the Second in-
:stance alluded to in the first para is of
somewhat the same kind - There is a
Mosque at Pettah in the Cusbah of
Nelliambalum Talook which has in-
:terest in certain Enams of the de-
:scription treated of in para 7 of
Mr Parker's letter of 21st December 1846
and

and to which belong also a portion of the Revenue of two Surua Enam Vil: lages in the same Talook being Nos 3 & 4 (Toolowcurcolum and Caravalancolum) of those mentioned in Paras 2 & 3 of Mr Parker's letter just quoted - The 2 Trustees of this Mosque having been at variance with each other ever since their appointment it was ordered by Mr Thomas that they should hold the Office by turns for a period of one year each, and they have continued to do so. But it would not be expedient I think (neither will they agree to it) that the management of the Lands should be thus alternately enjoyed. The average income derived from the said Enams amounts to Rupees 192. 4. 0 that from the 2 Villages to Rupees 424 - 1 - 10 making a total of Rupees 616 5. 10. The fixed allowance of the Mosque out of these sources is Rupees 304. 0. 2 and the surplus being an average Rupees 312. 5. 8 belong: to the Pundaracalum Choultry which is under Circar management.

4. Seeing no prospect of a

reconciliation being effected between the two Trustees who are cousins to each other and Grand sons of the late Ethlar Khan the founder of both the Mosque and Choultry - I beg to recommend that these lands be retained as they are at present under the manage: :ment of the Circar and the fixed al: :lowance of the Mosque Rupees 304. 0. 2. paid to the trustees alternately in their respective years of management as a Trustee.

5. Adverting to the 3d Para of the Board's Proceedings under re: :ply I beg to state that there are be: :sides the above named two Eleven other Villages which belong partly to Da: :nastanums and partly to the Circar or (in two cases) to Chattrums - These together with 5 years average amount of Revenue enjoyed by each party are shown in the annexed State: :ment.

6. The Ryots and Trustees of these Villages do not in general assent to the proposal of dividing lands on the principles laid down by the Board but state that they prefer the present system. Some however say that they are willing to consent to such an arrangement provided assignment of lands to the Pagoda be made, not with reference to the average income enjoyed by the Pagodas, but with reference to the Pagodas share of the whole lands in the Ayacut of the Village including waste.

Besides the non-consent of the parties consulted there are some difficulties in the way of partitioning the above Villages, not however insuperable if the arrangement is determined upon in spite of the opposition of the trustees and Ryots, which opposition moreover I apprehend to be rather ignorant than intelligent and might in most if not all cases be overcome. But I must observe that in all the Eleven Villages the Pagodas share is a percentage

on the Total Rents and the rule in such cases laid down in para 6 of the letter from the Honorable Court of Directors in the legislature Department to the Governor General of India dated 25th August 1841 and never altered that I can find, seems positive and renders it necessary to keep these Villages under Circar Management.

8 The two last mentioned Villages in the list Chattrapatty and Mailnumbee-poorum it will be observed pay nothing to Government but as the Chattrum which has an interest in the former is under Circar management, the same principle is applicable as in cases where Government and a Pagoda divide the revenues. But with Mailnumbeepoorum the case is different.

9. This is one of 4 Hamlets attached to a Village called Numbeepoorum in Sattoor Talook in this District, which is an endowment of Moskonda Rayer's Chattrum at Danoostkoty in the District of Madura. It pays to Circar a Cutgoattah of 500 Pons annually as well as Desacamil Cutgoattah

Cutgoottah of Pons 150 except when the ex:tent of cultivation causes the Desa:cavil Bariz to exceed Pons 150 when the excess is also paid to Circar - The charity of the Institution continues to be conducted by the heir of its founder who pays the Cutgoottah direct to Government - The Village in question has 4 dependent hamlets and the total extent of its Nunjah and Poonjah lands amounts to Seed Cottahs 712. 17. 4 1/8 and Chains 245 45/64 respectively - Its Mailnumbepoorum (the hamlet in which a Pagoda claims a share) there is no Nunjah, but Poonjah lands to the ex:tent of 1050 Chains are usually cultivat:ed and of their Bariz one half is appropriated to the Pagoda situated at the place, and the other half to the before named Chuttrum - The portion due to the Pagoda is at present col:lected every year By Government & servants and held in Deposit, and the expenses of the Pagoda are paid from this fund - But since the Pagoda has been made over to Mahajanums of the Village as Trustees

Trustees, Sashagherry Row the owner of the Chuttrum disputes its right to the share it has long enjoyed of half the Revenue of the Hamlet of Mailnumbeepoorum.

10 Some enquiry has been made into this dispute, from which it ap:pears that whether the original title of the Pagoda be good or not, the Pagoda has enjoyed the portion in question without dispute since the assumption of the District - I would therefore recommend in this case that the Pro:prietors of the Choultry should be required to sign an engagement to pay half the Revenue of the said Ham:let as usual to the Pagoda and that Government interference should then be discontinued :-

11 The Village of Keelapoolioor referred to in the para of the Board's Proceedings under notice is not includ:ed in the above list of eleven Villages as it was not in like manner under Circar management the Government half share of the Bariz only being re:ceived and brought to account - This arrangement does not involve any interference on the part of the Government Officers

Officers with the affairs of the Mosque and need not as it appears to me be altered - Annexed is a Statement showing its Ayacut and the amount of Bariz derived from it for Fusly 1257 to the Circar and Mosque respectively.

| Taluk | Village | Ayacut Bariz exclusive Poruvukoke | Bariz of Fusly 1257 Circars Share | | Mosques Share | | Total | |
|---|---|---|---|---|---|---|---|---|
| | | Cks a P | Cks | a P | Cks | a P | Cks | a P |

12. With reference to para 4 of the Boards Proceedings under reply. I have the honor to state that some hesitation has been felt about investing the Trustees of Pagodas with the power to levy Swamy bogum and the arrangement has not yet been carried out.

13. The present system is to rent out the Villages or part of Villages in which Dasastanums have right to Swamy Bogum to the highest bidder who executes a Moochilkah binding himself to pay besides the Ayen Teerwah Swamy bogum in grain at so much per Seed Cottah of Nunjah, and in money at so much per Chain of Poonjah

Poonjah land, as also at a fixed amount for Topes and Tankbunds - The Swamy bogum rent is generally given for 1-2 or 3 years and after the expiration of the term it is put up to competition a-fresh.

14. The course pursued by the Renter of Swamy bogum is, that he causes the lands to be cultivated by the Ryots of the Village and after the crops are harvested under his Superintendence, he divides the actual Nunjah produce between himself and the Ryots according to Mamool or in other words the Mailwaram and Coodiwaram are taken by the Renter and cultivator respectively - As regards the Poonjah and Tankbund the Renter gives them up to the Ryots for Cutgoottah or fixed rent - Sometimes with and sometimes without profit.

15. Now the trustees on being informed that the Circar proposes to discontinue all interference with Swamy bogum belonging to Pagodas, leaving them to realize it themselves hereafter, have stated that in such case they must collect it either by leasing it out

or

or having the lands under their own ma:nagement, and being placed in the same position as the Merasidars or proprietors of lands who receive Sammy bogum on their own account, that is they must o cause the Pagoda lands to be cultivated by Poracoody ryots and divide with them the actual produce, according to Mamool paying the Peishcush thereon direct to Government, and they declare very justly that it would be impossible for them to collect the Sammy bogum without having the lands thus put into their possession.

16. Under these circumstances the best arrangement appears to me to con:stitute the Trustees for the time being of the Pagodas having right to Sammy bogum from any Lands - Managers of those lands with the powers now entrust:ed to the Renters, reserving under C Circar management the details of Ma:ramut and Mamum as also the col:lection of the Government Revenue and taking Moochilkas from them to the effect that if they suffer the Jyen Peishcush to fall in arrear the same may be recovered from

from the Pagoda allowances and that they will not collect the Sammy bogum at more than the usual rate, I re:quest the instructions of the Board on the above point.

17. As directed in the 5th Para of the Board's Proceedings under refy the collection of 2 of the 3 Items noted in the Margin has been ordered to be made by the Trustees - The 3d Item of Rupees 16. 15. 6 is usually collected like Poapity on the Total extent of Nun: jah cultivation and should be disposed of in a similar manner.

Rice Sold at
1 Pagoda
2 Collection from Cutgottadars
3 Do. on account of musicians

18. I come now to the questions proposed in para 7 of the Proceedings under refy regarding the Teippay fund.

19. According to the Accounts the whole of this fund is the property of 72 Devastanums specified in Encl: sure No 1 where will be found ar:ranged in one view the No of Villages which contributes under the several heads and the amount so contributed to the credit of each Devastanum.

20 The No of Villages in which Poapity is collected is 727 and in general

general the Dews of a single Village is attributed in the accounts to more than one Devastanum - enclosure No 2 affords a general view of this distribution

21. The Tirpany income of a single Devastanum is frequently derived from Villages situated at considerable distances from itself and from one another - For instance the Tirpany income assigned in the accounts to the Nellaiapper Pagoda in the Town of Tinnevelly is paid by Villages / Enclosure No 3 / situated in every Taluk in the District.

22. In practise however the Tirpany revenue of the District has always been treated as a general fund - At and before the time of the assumption of the Province, the Taksildars collected and applied the Tirpany money of their several Taluks at their discretion - But in Fusly 1216 Mr Hepburne by a Takeed dated 1st Febry 1807 Enclosures Nos 4 & 5. copy and translation of which are enclosed introduced the system which has since obtained of having the whole amount remitted to the District Treasury and disbursements made from time

time to time upon special application and after due enquiry, and the receipt of sanction from Government.

23 The Board treating of Poorpitchy and Ryatoorvary desire to be furnished with a Statement shewing for the last five fusslies the amount of the Tirpany collections annually - and certain particulars of the disbursements out of it, such a Statement is therefore submitted but as no outlay was permitted during the last five fusslies in consequence of the subject being under discussion, but what was absolutely necessary to prevent the ruin of certain pagodas by threatened encroachments of the river - I have thought proper to submit also a similar Statement for five fusslies immediately preceding the last five - I also add a Statement shewing for the last 10 Fusslies the amount of Tirpany income derived from Villages and lands and the expenditure therefrom - It has been thought convenient to separate the Statements of Tirpany from these different sources as the lands have already been given over to the Trustees of the Pagodas to which they are assigned

and

and it remains to be decided how the other descriptions of Tripany Income shall be treated.

24 That Devastanums which have no Tripany income of their own have frequently been repaired out of the Fund, and that when as the disbursement was set down in the account as made out of the Tripany monies in hand belonging to some particular Devastanums, must be already known to the Board from sundry applications for sanction received from this District in such cases. such for instance as those noted in the margin.

25 The Inamdars of land in 29 Villages, and the Surra Inam and Cutgoti Villages mentioned in enclosure No 1 Letter 5 & 6 as belonging to the Tripany of particular Devastanums, have all been made over to the Trustees of those Institutions but I think the Board will agree that the portion of Tripany income which is derived from Portpatelig and Kyatenang can only be realized by an Ameny which Extends through the whole District, and that it would be most perplexing

† Vide Items 5-62-90-91 & 92 of the Tripany Estimate forwarded with a letter from this Office dated 31st May 1837.

attempt to make assignments of rent free land in lieu of the Income derived from these sources and credited in the accounts in very unequal proportions to 60 Devastanums.

26. In reply to the Board's desire that the Collector should state his own views as to the mode to be adopted in respect to the Tripany Endowments, I beg to submit the following observations which embrace also the general question of the management of the Devastanums.

27. Although the Tripany revenue according to the accounts belongs to only 72 different Pagodas situated in 59 Villages, it has always, as already observed, from before the assumption of the Province by the Company's Government been treated as a general fund for Keeping in repair the Hindoo Temples throughout the District which are in number 350, and therefore it would not be fair to make over the entire funds to the trustees of a few Pagodas leaving a very great majority deprived of the means they

they have long had in their reach, to keep them in repair. I suggest therefore a Central Board of Trustees should be instituted composed of a President and 4 members representing the principal Hindoo Sects and not being Dummakurtahs of any particular Pagodas, to whom the amount of Poruttchy and Khyatoovary realized should be annually or after each harvest paid to be applied at its discretion for repairing dilapidations, and as the experience of half a century has proved that the Tripany revenue is much more than is requisite for keeping the Devastanums in repair, I would propose that the Members of the Committee should be allowed certain salaries for themselves and for a few Gomastahs to keep accounts. I think the President and all the members should be appointed by the Collector in the first instance if not constantly, and that they should be removable by him or for misconduct. To such a Board might I think be committed the general control over the Trustees of all the Pagodas in the District the power of appointing them and the duty of bringing to

trial such as its enquiries may lead it to believe could be successfully prosecuted on charges of embezzling or misappropriating the funds of the Pagodas under their particular management.

28 It will be time enough to consider of the rules and regulations to be framed for the guidance of such a Board and other details if the general principle is not objected to. If it be, I think the only way left, as direct Government interference with the concerns of the Devastanums must be discontinued, will be to pray to the Trustees of each of the 60 Pagodas endowed with Poruttchy and Khyatoovary Tripany their respective quotas after every Jummabundy.

29 In any case it is highly necessary that some settled plan should be adopted for the appointment of Trustees to succeed to vacancies. There are now several vacancies which will not be filled up without the direct interference of the Collector. already the Collector has appointed in several cases new Trustees after the death of those first appointed for the Village communities have never attempted to exercise the right of nomination

nomination which the Board's Proceedings dated 6th October 1842 state should be left to them in the smaller Devastanams, until when by orders from the Huzzoor the Collector has caused their Votes to be canvassed and then the confirmation of the Collector has been waited for previous to the new Trustee assuming charge.

30 This was not of so much consequence as long as the Trustees had only the Ceremonies of the Pagodas to manage but now that so many of them have Lands in their charge it is of great importance that some definite rule that will work should be laid down.

31 For the great Pagodas there has been no rule at all as yet established to provide for the succession to the office of Trustees without the interference of the Officers of Government.

32. The Trustee of the Pagodas in and near the Town of Tinnevelly, the revenues of which amount to Rs. 22,629-4-11. and the Tuticorin ones to Rupees 3264-11, died on the 14th February last and the Office is now vacant. It will be absolutely necessary for me to appoint another

another and as there are several factions in the Town I expect it will lead to complaints and very troublesome investigations.

I may here observe that

33 in consequence of the orders of Government forwarded in Proceedings from the Board of Revenue dated 12th August 1848 the Collector has hitherto succeeded in avoiding any enquiry into complaints against Trustees for misappropriating the funds of Pagodas. The consequence I fear has been that many Trustees believing themselves secure from question are really making unauthorized use of the Revenues and that very soon interference will become inevitable, and then the time and attention of the revenue authorities of the District are likely to be far more occupied with the affairs of the Devastanams than they ever were before the Board of Directors resolved that we should have nothing further to do with their management.

With reference

34 to Paras 8 of the Board's Proceedings above quoted I have the honor

Fort St George 1st July 1850

honor to state that Moturpha to the Extent of Rupees 21-12-10 is collected on account of the Sripany of the following Pagodas-

| Taloork | Village | Name of Pagoda | amount of fixed allowance | Pc of Sripany Fund. | Of which Moturpha | | |
|---|---|---|---|---|---|---|---|
| Bremmadasum Shermadavy | Ambasamoodrum | Sheroomoodi-nadier | 129 | 14 9 | 26 4 | 12 7 | 15 4 4 |
| | Veeravanallore | Soormenadier | 13 | 5 4 | 10 6 | 9 2 | 3 4 3 |
| | | Venugopaw | 28 | 10 2 | 5 4 | 4 7 | 3 4 3 |
| | | | | | | | 21 12 10 |

Rupees 15-4-4- being the tax on Looms in 2 Villages and Rupees 6-8-6- being the amount of Poll tax on 2 persons are usually collected on account of the 3 Pagodas above mentioned, and deducted from the Jummabundy account

Fort St George 1st July 1850

account. The moturpha tax due to several other Pagodas and levied on Looms and Shops is likewise deducted from the Jummabundy and collected by the Pagoda people themselves. Therefore the Pagoda Trustees may very well be left to realize those taxes through the Merasidars-

35 Certain Taloork lands in the Taloorks of Shermadavy and Bremmadasum belonging to certain Pagodas were erroneously entered in the 8th Para under the Head of Sripany instead of in the 7th Para of Mr Parker's letters dated 21st December 1846. This error occurred through the inadvertence of the Taloork Servant. The Particulars of the lands omitted are shewn below. They have been made over to the Trustees-

36. I had hoped to be able with this report to forward a Statement of Devastanam Money in Deposit in the District Treasury up to the present date shewing to what establishments the various sums are stated in the accounts to belong - But the account not being ready I will not longer detain this report but forward it as soon as I can -
