2. The number of persons charged was in all 270, or 129 in excess of the previous half year, the increase being in the Northern Circars 101 in the other Districts 28.

3. Of the 149 persons brought to trial in the Northern Circars, 135 were arraigned in the District of Rajahmundry alone, of whom 120 or more than Seven-eighths were acquitted for want of proof. The reasons assigned by the Collector in his letter to the Commissioner of 16th February last, for this great disproportion of the number convicted to that brought to trial seem altogether unsatisfactory. It is however observed

that

that the orders of Government 16th July 1853 had not reached the Collector when his present return was made. It is trusted that these orders will be duly attended to for the future.

4. In the Districts under the Board of Revenue, the trials were most numerous in Cuddapah 29, and North Arcot 32. There were no cases in Nellore and Malabar. One Offender has been forwarded to the Criminal Courts.

5. The number of Appeals preferred to the Board was 3, on which the decisions passed by the Collectors were confirmed. Of the 53 Appeals to the Commissioner, 12* were confirmed and 6 reversed, leaving 35 cases on the file on the 1st July 1853, of which 20 were received during the half year under review from persons who had been convicted in the previous half year. Of these 35 Cases, 18 have since been disposed of, leaving 17 cases, some of which were at the date of the Commissioner's report undergoing examination.

* 6 with modifications.

The

The Government would wish to be informed whether these 17 include the Appeals from the decisions of the late Special Assistant at Masulipatam, if not, how many of those Appeals are still before the Commissioner, and in either case, when those Masulipatam Appeals will be disposed of by him.

The letter above recorded conveys the orders of the Supreme Government upon the proposal made to them by the Madras Government under date 11th July 1853 for the relinquishment of the hill and Jungle farms in certain districts of this Presidency-

2 The Government of India object to confirm the orders already issued by this Government for the abandonment of the farms marginally noted or to accede to their application for the relinquishment of the further farms recommended for remission-

3 The Right Honorable the Governor in Council observes that the reasons which have actuated this Government in advising

advising the abandonment of these taxes, do not appear to have been fully appreciated by the supreme Government, and he resolves again to bring the subject under the notice of that authority. The general grounds on which their reconsideration of the question will be solicited are the wretched and debased condition physically and morally of the hill and Jungle tribes, by whom the produce is collected and the inability of Government adequately to protect them from ill usage and oppression either on the part of a Renter if the Contract system be maintained or of the inferior Revenue Servants if Amanie management be substituted for it –

From Collr. 13th Decr. 1852 –

4. These objections will not however, it is believed, apply to the Honey Wax, and other farms in the District Canara. The evil of these taxes would appear to lie not in the oppression to which any Jungle men are subjected, but in the annoyance occasioned to the Ryots and obstruction to travellers proceeding by the Arbyle Ghaut. The Right Honorable the Governor in

Council is not however satisfied that these abuses do not admit of being remedied under a better mode of management. He would therefore invite the Board of Revenue to communicate further with the Collector on the subject, and to ascertain from that officer and Report whether some means might not be taken, such for example as were proposed by Mr. T. D. Lushington in regard to the Honey and Wax farm or that of confining the Contract strictly to the Government Jungles and exempting from its operation all private lands, or by keeping these taxes under Amanie which would divest them of their objectionable character. Meanwhile these will not be included among the Hill and Jungle farms now for a second time to be Recommended for Remission to the Government of India –

From the Collector of Masulipatam—

Forwarding a statement shewing the number of Enamdars and the Extent of Enams assumed to be under two Cawnies, and also the whole Extent of Enams in the District prepared according to the form received from the Commissioner's Office, as well as a Talookwar statement exhibiting the results of the present investigation in each Talook.—

No. 86.

To The Secretary to the
Board of Revenue
Fort St George

Sir,

With reference to an Extract from the proceedings of the Board of Revenue under date 21st April 1853, Calling upon me to report in obedience to the orders of Government under date 9th March 1853, "whether all Enams entered in the public accounts to an Extent below two Cawnies might not hereafter be wholly exempted from interference on the part of Government, either in respect of their present enjoyment or future disposal." I have the honor to forward herewith a Statement showing the number of Enamdars and the extent of Enams assumed to be under two Cawnies, and also the whole extent of Enams in this District prepared according to the form received from the Commissioner's Office.

2 From this Statement, the Board will observe that the assumed extent of Enams under 2 Cawnies amounts only to Acres C V 1860-18-4, held by 1,040 individuals, the Supposed Revenue from which if not Rent free estimated according to the average

rates of assessment upon the Government land in the Villages in which they are situated would be Rupees 4,756-..-.. It will also be seen that the proportion borne to the whole assumed Goodcut of Charity Enams is less than 1/2 per Cent—

3 In my letter to the Board under date 16th December 1853, I referred briefly to the utter absence of all really satisfactory accounts of the various Enams in this District and for the preparation of the accounts now transmitted I was Compelled to call upon the Tahsildars, who in their turn had to Call upon the Curnums. Repeated orders have been issued for its speedy preparation and fines inflicted for delay, but it has only now been possible to put the Talook accounts at length Received into any form—

4 The assumed extent of land in the District is entered in Cutties in the accounts of 13 Talooks and in Poottties in those of 2 Talooks. In preparing the present statement, these rude District measurements have been Commuted into acres, and thence into Cawnies, and the accounts although entered in acres framed

thereon -

5 It is however necessary that I should remind the Board, that in my letter under date 8th June 1853, reporting upon the land measures in use in this District, I showed that, even where the Cotties, each consisting nominally of 32 Coontahs the area of Cotty varied in different Talooks from nearly 7 acres to 11 acres from the difference in the size of the Coontahs, while in other Talooks the Cottie containing 35 Coontahs ranged from 12 to 18 acres according to the size of the Coontahs in use in different Villages. The Potty containing 20 Coontahs was found to vary similarly from 10½ to 8½ acres. The Commutation into acres has been prepared with reference to these fluctuating land measurements -

6 Under such circumstances, I cannot but feel that there is a want of certain and fixed principles in the Masulipatam measurements, contained in our accounts nor can it now be clearly declared on what principle and at what period the Goodicut extent now entered in our accounts was originally computed. Our present

accounts, such as they are, do not correspond with former ones. The limits of the fields are utterly undefined. There is no authentic field Register, Villages contain a nominal amount of Enam land, but in several we believe that the best land of the Village has been taken as the Enam land with the collusive aid of the Curnums, when the lands originally granted become barren, saline or unproductive.

7 In this state of things it is impossible for me to feel any confidence that the present accounts are accurate, and until some efficient and accurate examination can be instituted into the actual extent of the lands held as Enams, I am inclined to think that it would undesirable to apply to this District a principle which may be judicious in regard to districts in which the Extent of Enam land has been regularly registered on some known and approved principle, and is therefore sufficiently known -

8 A Talookwar statement, exhibiting the results of the present investigation in each Talook, is forwarded. It will be observed therefrom that 881 acres or nearly ½ of the whole extent of Enam lands entered as being under 2 Cawnies are in the Kalunghy Talook, which has become the property of Government in the year 1851 -

(Signed) T. D. Lushington.

Sir,

I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue under date the 16th March last, calling on me to Report whether any Manniums are held in this District on account of the Swinging Festivals, and in reply to state that 12 Manniums + are at present held in this District which were originally granted to the holders on Condition of their performing the so called Ceremony of Swinging and are so entered in the accounts. The total extent of these Manniums is 87 - 38 (Acres Centahs) and the annual value of the same is estimated at Rupees 140-2-11. In some of the villages in which the Mannium is still held, the Custom of swinging

has been discontinued. In my reply as acting Magistrate, to the first Requisition of Government on the subject under Reference, I gave it as my opinion that but little difficulty would be found in putting a stop to the practice altogether, should Government see fit to authorize the adoption of Measures to that end. The Manniums might be continued in the enjoyment of the present holders during their lives, to be Resumed as lapses occur. I have under the means Contained in a

From Do 25th Augt.

Sir,

1 With reference to the correspondence noted in the margin, I have the honor to submit herewith 4 statements of Mr. Travers alienations for the support of Choultries and water Pandals, for the establishment of new Villages and for subsistence framed with reference to the information required and the principals laid down in the Boards' Proceedings under date 9th June 1825 -

2 The total number of grants as per statement submitted by Mr. Smalley under date the 31st October 1824 is 96 of which 43 Grants to Pagodas were reported upon by my Predecessor Mr. White under date 9th March 1853, and the statements now transmitted

Contain reports on 42 Grants, the remaining 11 having been resumed and incorporated with the Government lands under the orders and Circumstances mentioned at the end of the same.

3 The following Statement shews in one view under what heads these 53 Grants are included—

Nature of the Grants	No. of grants as per Mr. Smalley's Statement	Deduct: No. of grants subsequently resumed & incorporated with Government lands	Deduct: No. of Grants transferred to other heads with reference to the original intent of the grant	Total	Remainder	add transferred from other heads	Total

1890 " "	1038 8 "	Wages of a Brahmin Employed in the Choultry — —	36 " "	The Choultry was built 2 or 3 years before the grant of the Cundriga. It was then a mere thatched building. The founder of the Choultry Rented from the villagers the same Cundriga which was subsequently granted by Mr. Fraser, and the income from it was appropriated to the use of the Choultry. The present Choultry was Commenced building in 1822 and Completed in 1823—	The Choultry is in want of repairs and it leaks in parts but it is used by Travellers—	Fulfilled—	1. It is included in a Statement of proposed grants to Choultries submitted by Mr. Collector Smalley with a letter dated 26th November 1827. As the Cundriga does not produce any Surplus income and is under attachment for arrears, it is recommended to be resumed with the exception of the Enams to Curnums, Carpenters, &ca and the Choultry to be endowed with 60 Rupees of waste land under the present rules—

500 „ „	200 „ „	Wages of a Sweeper	6 „ „	This Choultry was built about 60 years ago which was before the grant was made, when the Choultry was supported from the Maniums acquired during the Nabobs management, and from the private resources of Calapeddy the founder of the Choultry.—	The Choultry is in good repair and is generally used by Brahmins, but not by other Classes, for whom there is no other building available-	Fulfilled-	1.. The value of the grant judging from the assessment according to the average rate of the Village appears disproportionally large in comparison with the Cost of the Choultry and the expenses of keeping it up.— There seem no special grounds for continuing the grant as the Choultry has other sources of income and it has passed out of the family of the founder it is therefore recommended to be resumed.—

It is generally used. The Bramins in the Choultry say that it underwent no repairs during the last 10 years and that it is intended by a Labury's Son of the original founder to repair it this year	Fulfilled	1 The Value of the grant as judging from the assessments according to the average rate of the Village appears disproportionally large in comparison with the cost of the choultry and the expenses of keeping it up. It is recommended to be resumed.-

Buttermilk	6 - -	The water Pandal existed previously and used to be supported by means of Surva Enam manium sowable with one Tim of seed.—	The water Pandal is generally used and kept in repair..	Fulfilled	The Value of this grant is in reality but Rupees 4-3-7 being the difference between the proper Assessment of the Cundriga and the Jodee payable thereon. This does not seem more than sufficient to defray the small expenses of the water Pandal even including the other small Manium attached to it. The Grant is therefore recommended to be continued, the excess found on measurement alone being resumed—

A Bramin resides there for 4 Months Vizt. from April to July and supplies Buttermilk to Passengers.— Passengers put up in it during those Months.—	Fulfilled	The Value of this Grant does not seem disproportionate to the Cost of the building and the expense of repairing it, and keeping up the water Pandal it is therefore recommended to be continued—

Remarks

1 This Cundrega when first granted was charged
with the payment of 30 Rupees. Being one of Mr. Fraser's
alienations. it was resumed in August 1825 with reference
to the orders of the Board noted in the Margin and
Settled in Fusly 1235 under Aumany. In consideration
however of the land having been unfit for cultivation
when originally given, and of the Cundregadar having dug a
Tank and reclaimed a portion of a land at a considerable
expense Mr. Smalley restored the Cundrega in December 1826.
rating the Dry and Wet lands already brought under culture
at Mr. Travers' lowest rate of Dry Teerwah on the adjoining
lands Vizt. Rupees 4-2-6 a Goortoo, and thus fixing the
Government demand at Rupees 113-15-- including Rupees 39-2--
Poollary or Pasture land. It appears to have been the intention
of the Collector at the time that if any portion of the Poolary
land was cultivated, whether by the Cundregadar or others, it should
be assessed at the same rate Rupees 4-2-6 per Goortoo, the excess
brought under cultivation since should therefore be so
charged to the Revenue.-

18th July 1825

2. Of the present incumbents the first is employed
as Tahsildar of Ongole in this District, the second as Cash Keeper
in the Cuddapah Collector's Cutcherry and the third is without employ.

3. With reference to the circumstances under which
this land was assessed by Mr. Smalley I do not think it should
be resumed.-

B.R. No. 1541

Proceedings thereon (21-22)

The grants made by M Travers and Travers to the Pagod in Nellore were reported on the Board in their Proceedings of 16th June 1853 and disposed of by Government in Extract Minut of Consultation 9th August 185

Ex. Cons. 25th Augt 1853

2 The alienations for th purposes alluded to in the lett recorded, were detailed by M Smalley under date the 31 October 1824 to be 53 in numb Eleven of these have been subsequently resumed and the remaining were reported on.

Ex. Cons 29th Novr 1824

Statement 1 Grants for the Support of Choultries

3 These are 6 in number the Board see no objections to the recommendation of the Collector in respect to them, except in the instance Brundavolu in the Trumbalpore The grant according to the survey ment of the Village is, as the Collector ob disproportionately large and the alle of principle being furnished by thei themselves can scarcely be considered The Board suggest that the Enam be resumed Choultry [illegible] the amount of

---

land and that the levy of fees be discontinued

4. The Board do not distinctly learn from the term "generally used" that these Choultries are open and available to all Comers. No 3 it appears is used only by Bramins. Any future maintenance which may be granted by the Government will of course be conditional on the Choultries being accessible to all classes and the Collector will see that this stipulation is fulfilled.

Statement 2 Grants for the Support of Water Pandals

5. Of these there are 7. of which 5 are recommended for resumption, a money allowance being granted to 3, and the other two to be continued

6 The Board concur in the Collectors recommendations regarding 1-2-5-6- and 7 but Consider that No 3 should be resumed and 15 Rupees granted yearly for its expenses as in the case of No 1. The amount of alleged receipts cannot be depended upon. The value of the Enam according to the proper assessment would be but 4.3.7 and according to the Statement of the Curnregadars but 8.4. Yet seven individuals are said to be dividing the proceeds in 3 shares and the expences are given at Rupees 12. No 4 might be resumed the Surva Enam and grain fee being sufficient for the expenses of the Pundal

Here

7. Here again it will be neceſsary to take care that the intentions of the grant are fulfilled these buildings when permanent are often turned into the residence of the attendant Bramin and aſsistance rendered only to a few favored claſses. The large extent of some of these grants has not failed to strike the Board for though much of the land was originally waste its subsequent Cultivation on rent free tenure would have led to an improper alienation of the public revenue.

No 3 Grants for the formation of new Villages

8. Seven alienations are reported on as made for this purpose. Two Nos 5 and 7 the Collector proposes to continue permanently one (No 4) for the life time of the present incumbent who is the original grantee and four are recommended for resumption, the late Enamdars receiving the benefit of any improvements which they may have made in their lands without additional aſseſsment. The Board beg to support the Collector's recommendation in each case but would not require the construction of the [illegible] in No 5.

The

No 4 Grants for subsistence

9. The fourth Statement relates to the grants made for subsistence regarding which detailed information has been furnished by the present Collector after repeated calls made to his predeceſsors

10. The grants remaining to be disposed of are 24 in number. In one instance No 3 the Collector observes that under the terms on which the land is now held it could at once be deducted from the head of Cundrigas and Claſsed with the Puttah lands, an arrangement which the Board approve. In five other instances Nos 4 - 9 - 13 - 19 - and 23 the Collector recommends that the lands should be allowed to continue on their present footing and for the reasons detailed in Statement submitted by him the Board beg to support that recommendation. The Board also propose to continue undisturbed Nos 7 and 15 the first is a petty holding of leſs than an acre which has long been enjoyed by a Calendar or Punchangum Bramin to whom it was aſsigned and its proceeds seem to be little in exceſs of the Muktah shist. In the second the Muktah

exceeds

exceeds the average assessment of the Village and the Cundrigah contains no waste or grass land to be brought hereafter into cultivation. It seems therefore advisable to leave these two properties undisturbed. Deducting the above Cundrigas there still remain for orders 16. (Nos 1-2-5-6-8-10-11-12-14-16-17-18-20-21-22 and 24) and the Collector while acknowledging that their resumption would be just expresses a hope that liberality will be shown towards them on the ground of long enjoyment. In support of this recommendation he urges the advantage to the Country of having substantial proprietors and respectable families raised somewhat above the level of the Ryotwar peasantry and points out that the average of the Village rates which are entered in the statements are generally so high that they could never be realized by the Cundrigadars by underletting the lands. The Board must feel that the holders of these grants have no claim "for subsistence" on the state but as the grants have been held for a long series of years and their sudden resumption

would

would cause distress, the Board are not disposed to any harsh measures. They beg therefore to recommend that half Teerwah calculated at the average of the Village rate or according to the teruvas of the adjoining lands of similar quality be levied during the lives of the present incumbents and the full resumption of the Cundrigas be postponed till their decease, and they further recommend that in consideration of the extent to which Nellore suffered from failure of rain the levy of half teerwah be deferred till Fusly 1265. In fixing the teerwah those lands which have been brought under irrigation of the expense of the Cundrigadars should continue to be classed as Poonjah in order that the holders may enjoy the benefit of their improvements.

11 With reference to the concluding Para: of his letter the Collector will as soon as practicable communicate the particulars of the other alienations still not reported upon.

Sir,

Bd. No. 2271
From the Collector of Nellore

+15 of 1854
herewith returned

1. I have the honor to report on the Petition noted in the Margin+ from Syed Gouse Ally Khan, Bahader son of the late Jagheerdar of Oodiagherry praying that he may be permitted to reside at that place

24th February 1842
sent in the secret Department

2. I find on reference to the records that Mr. Stonhouse the late Magistrate has communicated his views at some length to Government on this point, giving at the same time the opinion of the late Commissioner Mr. Casamajor, and that they both concurred in being decidedly opposed to permitting either of the sons of late Jagheerdar to reside, for a time at least, within the Nellore or Cuddapah Districts Mr. Stonhouse moreover was of opinion that the wisest measure as regards all interests involved in the matter whether of the Government, of the people of the District, or even of the individuals themselves, would be an interdict against their ever residing again in the Country which was the scene of there treasonable proceedings. Upon this
Government

Government directed in Extract from the Minutes of Consultation under date the 7th March 1842 that Gouse[×] Sahib and Ali Hoossein the sons of the late Jaygheerdar of Oodiagherry and Noorla Saib their foster brother, be released from the surveillance of the Police, and that they be strictly interdicted from entering or residing within the Nellore and Cuddapah Districts on pain of immediate arrest and imprisonment

[×] The Petitioner

3. Under these circumstances I do not consider it would be safe to permit the Petitioner Syed Ghouse Ally Khan Bahadoor to return to Oodiagherry, as there is no saying what mischief might be the result. I do not mean that any general rising is to be feared, but the recollection of past greatness, and the sight of the inheritance that the family has lost, might excite feelings of anger and revenge towards individuals, and disaffection towards the Government, any occasion for which I consider had far better be avoided

The deceased Lutchmakah's name is entered in the Enamity accounts from fusly 1234 and she has enjoyed the Enam for a period of 30 years. As neither the claimant nor his father ever enjoyed the Enam, the case is referred to the Board of Revenue for decision, for except the entry in the Survey accounts of the claimant's grandfather's name, he does not appear to have any claim to the Enam. It appears that the deceased gave the Enams in gift to Venkumbhuttoo the present Claimant in AD 184 from which period the latter performed the Punchan-gum duties referred to in Col 7 and enjoyed the produce of the Bhutwurthy Enams conjointly with deceased.—	1 Deceased's Nephew Venkumbhuttoo Claimant. Besides the Enams mentioned in this Report, the deceased enjoyed other Punchangum Enams assessed at Rs. 24-14-2 which the present claimant enjoys performing the duties.— Besides these Enams the claimant enjoys other Enams assessed at Rs. 34-4-8.	Soobbiah Curnum of the Illoor states that Kristumbhuttoo No. 4 was Grandson or daughter's son to Hemavunthabhuttoo whose name is entered in the Pymaish Accounts for the Illoor and Canumpully Enams, and that during the drawing up of the Pymaish Accounts neither deceased nor his Ancestors dwelt at Illoor, but that Hemavanthabhuttoo did which has probably led to 2 Enams being entered in his name, he further states that the Ancestors of the deceased have enjoyed the Enams from 10 years previous to the Pymaish and that he on ascertaining the relationship they bore to Hemavathabhuttoo Viz.t grandson or daughter's son entered Kristnabhuttoo's and Seetharambhuttoo's names in the Enamity Accounts of fusly 1234. The claimant has produced the deed of gift referred to. The present Claimant is second son of Lutchmamah younger sister of the deceased. The above mentioned Soobbiah states that the deceased and Venkatumbhuttoo conjointly enjoyed the Enams from 1840, and on this rests Venkatumbhuttoo's claim. The deed of gift is attested with witnesses, but the fact of the deceased giving in favor of the present claimant a deed of gift and continuing to himself enjoy the Enams conjointly with him shews that he considered the claim of Venkatumbhuttoo would not be recognized on the grounds of relationship. The Collector is precluded from recommending that the Enams be Continued to the Claimant as it is an alienation of a late date. 7th September 1853

D:	D:	The 3 fields situated in Hossoor are entered in the Survey accounts as "Circar land" they were conferred in gift on Cunjoroonkoo-chandra swamooloo (No. 18) in 1822 by Somasaikera Naik Poligar of Hurponhully. The Governor in Council having ordered all Enams thus obtained from the Poligar to be regarded as life grants only the Collector would have requested permission to resume these Enams but the subsequent order of Government (No. 838 dated 22d July 1853 contained in the Proceedings of Board of Revenue dated 15th August 1853) which sanctioning the continuance of Enams alienated more recently than 20 years may affect alienation of this period and therefore the orders of the Board of Revenue seem to be necessary. The Collector would observe the claimant is the disciple of the deceased Priest of certain Muttums situated in quite a different and distant part of the District the Enams allowed to which are entered above. There is therefore no good ground for submitting his claim to these Enams to the favorable consideration of Government– 23d September 1853–

Kurrarnamah executed by Vellaloo Vencamah to Gopaulapah the Grandson of her husbands brother on the 5th of Magha-Shoodah of the year Rackthatchee.–

You having come and disturbed my enjoyment of the Neelalamee Jimmapoorum enam of the Butwurthy Enams under the Oorvacondah country, we went disputing about it to the Village authorities of Vidapanacul, where I having in their presence said that you possessed a large extent of landed property while I was but a woman, and that you were both son and Grandson to me, the Village authorities

authorities took it up and said I was right, and also said that you were a great person and able to attend at public places, such as Courts, &ca, and that you were not one to be advised by them, that you ought to consider the matter and that it was proper you should give the Butwarthy enam to me, and you having accordingly acceded to my request, I execute this Hurrarnamah with my free will and consent. You propose that I should take up my lodging with you, and promise to regard me as more than a Mother, this I have no doubt you would kindly perform being a man, but my female relatives (my Sister-inlaw and others) will not agree to it, I shall therefore live separately in the enjoyment of the subsistence you have allowed me, blessing you and praying for the prosperity of your family - I am not at liberty to let this enam go to the enjoyment of any others, nor to sell the same, it is to revert to you alone after my death, and no other can have claim to it, this Hurrarnamah I execute with my free will and consent.-

It appears that half the Gollanaganahully Enam was conferred in gift by one of the descendants of this family on one Narsapah son of Raro Bheemapah whose name appears in the Enamaty accounts from fusly 1247, and that portion is now enjoyed by him.

As the deceased left no Male issue, China Kristnamah and Bheemickah his daughters claim the portion of this Enam enjoyed by him. Though the Elder daughter Kristnamah is married, it appears that they both dwelt with the deceased and now supported by him out of these Enams. The younger is still unmarried. This family has no other means of subsistence than these Enams. A great part of which is left waste and

No. 320.

Bd No. 1516

Recommending the resumption and continuance of certain lapsed Enams in the district of Bellary -

28.

Remarks thereon :- The Board of Revenue are of opinion that para 4 of the C.O. dated 29 September 1851 is applicable to this case without reference to the fact of the adoption having taken place before it was passed, and as the claimant and his adoptive mother are said to be in possession of Curreekum Enams of the value of Rupees 508-5- it is recommended that the lapsed Enams be resumed.

No. 2 The Board observe that by Extract Minutes Consultation of the 25th January 1854, (C.O. 9 February 1854) Government have recognized the heirship to lapsed Enams of daughters and their descendants. Hence the claim of Streeramoodoo to succeed to the Enams involved in this case would appear to be good without respect to the deeds of Gift put forward by him, and the Board accordingly recommend that the Enams in Yerragoontiah Parakacherlah, and Moontimudgoo may be continued in his name for life, and the Duchundum Enam in Kathremala

with the Agraharum without limitation

No. 3 As neither the claimant nor his father enjoyed the Enam, the Board are of opinion that the claims preferred are inadmissible and recommend the resumption of the Enams.—

No. 4 Under the circumstances stated, the Board think that the Enam should be continued in the name of Gopalapah who, it is shown, granted to the deceased only a life tenancy in the same for her maintenance.—

No. 5 The Board concur that the adoption in this case was illegal, and therefore recommend that the Enam be resumed as suggested by the Collector.—

No. 6. As the claimant who is an aged widow, is stated to have no other means of subsistence besides these Enams, the Board recommend that she may be permitted to enjoy during her life, the whole of the 5 fields mentioned under this number, measuring in the aggregate A. G. a. 43—11—4 with an assessment of Rupees 103—10—7.—

The

No. 7. The Board recommend that one half of the share held by the deceased be continued in the name of his sons for subsistence during life; and that the other half be immediately resumed.—

No. 8 The whole of the Enams comprised in this number, are of the value of Rupees 275-5-1, of which it appears that an extent of the value of Rupees 143-4-8 was in the enjoyment of the deceased and the remainder in that of other individuals. The Collector recommends in the name of Beemakah, the widow of the late incumbent, and that the remainder be resumed—a course which the Board recommend.—

No. 9 This being a Vaudgond Enam should be treated according to the orders of the Honorable Court as conveyed in Extract Minutes Consultation of the 9 August 1851. The Board recommend that 1/2 of the Enam or Rs. As. P. 118-14-10 be continued to the sons for life.—

No. 10 Under the circumstances explained, the Board are of opinion that the decision of

the Punchayet in 1823 should be carried out. They therefore concur in the Collector's proposal for the resumption of the shares decreed to Timmanagaund and Gooroosathapah (the former of whom has left no heirs and the representative of the latter waives her claim) and for the continuance of the shares decreed to Chennareddy and Veeranagowd (the deceased) in the name of Rungareddy, nephew of the former, and Veerabuddranagawd, eldest son of the latter.—

No. 11. In consequence of the advanced age of Ragapah, the claimant who is now said to be 70 years old and his having been accustomed to look partly to these Enams for support, the Board recommend that they may be left in his possession for the remainder of his life.—

No. 12 The Board concur in the recommendation for the continuance of the share enjoyed by the deceased in the name of his widow for support during life. They are of opinion, for the reasons stated in their remarks against

against No 8, that the field in the Carka mokla village should also be so continued.—

No 13 In the absence of heirs to the last incumbent the resumption of this Enam is recommended.—

No 14 As the deeds of gift put forward by Venkumbulloo show the alienations to have taken place within the period specified in the orders of Government dated 22d July 1853 (C.O. 15th August 1853) and as he moreover possesses other Enams to the amount of 59-2-10- The Board are of opinion that his claims are inadmissible, and therefore recommend that the Enams be resumed.—

Page 163.

No 15 Independently of the adoption in this case being disputed by the cousin of the deceased, it would appear to be inadmissible under para 4 of the orders of Government, dated 18 September 1851, (C.O. Supp. page 38)- The Board therefore recommend that the share held by the deceased in these Enams be continued in the name of his widow for life, with

the exception of No 566 of the Muddekerra Enam, which, being stated to be a village service grant, should they think, be restored to the Madeegahs, who perform the service to which it was originally assigned.—

No 16 Under the orders of Government quoted in the preceding case, the adopted son's claims to a succeed to these Enams, cannot be recognized; and as the family are stated to have other means of subsistence, the Board recommend with reference to para 28 of the orders of the Honorable Court in regard to Desai Enams, communicated in Extract Minutes Consultation 9th August 1851, that the share enjoyed by the deceased be resumed.—

No 17 It will be seen from para 33 of Extract Minutes Consultation dated 13 January 1852, that intimation was ordered to be given to the holders of Enams alienated by the Poligar of Harponhilly, that those grants would be resumed on lapses occurring under these circumstances, the Board do not see how they can recommend the

the further continuance of this Enam - altho' the fact of the sons of the deceased being poor and having a large family to maintain, would seem to render them fit objects for the bounty of Government, especially as they have had actual enjoyment of these Enams since 1845.

No. 18 As the adoption cannot be recognized and both the claimants have other means of subsistence the Board recommend the resumption of the share enjoyed by deceased.—

No. 19 As the mother of the deceased is aged, the Board recommend that the Enams held by the latter be continued in the name of the former for life, as suggested by the Collector.—

No. 20 It is observed that by Circular Order of the 27 July 1848, paras 5 and 7, Enams for the support of Muttoms are authorized to be continued by the Collectors without reference to higher authority, provided that the service for which they were originally conferred continue to be duly performed. Under these

circumstances, the Board see no objection to these Muttom Enams, of which a detailed account is given in column 3, being registered in the name of Curry Bussava Swamooloo, successor to the deceased, in lieu of their being entered in the names of the Head Priest, which practice the Collector states has caused much trouble and delay in his investigations connected with the present lapse.—

Hoodlighee Talook Hoſsoor Enam
10-12-11 Rs. 199-12-8

With reference to the orders of Government quoted in case No. 17, the Board see no reason for recommending the continuance of this Enam.

Bellary Enam
1-14-9 Rs. 9-15-„

The Board do not concur in the Collector's recommendation for the continuance of this Enam, as they think that the principle of the orders quoted in case No. 17 applies equally to grants conferred by the Chitivail Rajah. The Enam should, therefore, in the opinion of the Board, be resumed.—

Gooly Talook Orravacondah
20-30-7 Rs. 24-3-4

As the alienation in this case is of 47 years standing, the Board recommend

recommend with reference to the orders of Government, dated 22d July 1853 / C.O. Supp p 163 / that the Enam be continued in the name of Currybussava Swamooloo as suggested by the Collector.-

Paulloor Enam
1-40-0 Rs 46-10-8

Considering that this is a Desai Enam, the resumption of which class of Grants has been ordered by th Honorable Court / See Extract Minute Consultation 9 August 1851 / the Board are of opinion that it shou now be resumed.-

Paultoor Enam
1-40-0 Rs 35-0
Chekkilgoorkee
29-3-4 Rs 82-11-7
Veddapanoonl
50-0 Rs 68-8-8
Godahaloor
66-8-3 Rs 15-2-1.

The Board support the Col lector's recommendation that the Enams being service grants, may b applied to the purposes for wh they were originally granted.

B No 1515.

No 321

Further Remarks No 1   Under para 9 of th Circular order 27 July 1848 and Ext Minutes Consultation dated 2 January 1854, circulated to the Collectors on the 9 February 18 the Board of Revenue recommend that the shares held by the deceased be

between his two daughters, and be reported on at the death of each for further orders.-

No 2   The deeds of gift made by the late incumbent in favor of his daughters were obviously executed with the hope of preventing the lapse of these Enams to the State at his death, but the recent orders of Government dated 25th January 1854, recognising the title of daughters to succession on failure of male heirs, renders it unnecessary to discuss the validity of these gifts as the daughters may claim without them. The Board therefore recommend that the Enams held by the deceased be continued in the names of his daughters in the proportions granted to them during his life time.-

No 3   The Board concur in the recommendation of the Collector for the continuance of these Enams in the name of Akkamah, the widowed daughter in law of the deceased for her support during life. It is presumed that she has no children.-

No 4   Under the opinion of the Pundits of the Sudr Adalut dated 27th March 1854, which was submitted for the

the information of Government on the 11th May 1854, the Board of Revenue recommend that the share enjoyed by the deceased may be continued to the present claimants Themmaya charloo and Goorraya charloo.—

No. 5 For the reasons stated in their remarks against the preceding case, the Board recommend the continuance of these Enams to the present claimant

No. 6 The Collector's suggestion in this case is concurred in by the Board, but they think that the Enam should be registered in the name of the deceased's grandson, he being, by representation, the head of the family.—

No. 7 The Board recommend that all the Enams held by the deceased with the exception of the portion originally assigned for Village service may be continued in the name of the widow for subsistence during her life. The Curnumkum Enam should be appropriated, they think, to the purpose for which it was at first intended.—

No 16 Will stand retrenched until the Copy of the order under which the two Tappal Peons in excess were entertained on the Establishment is furnished to this Office by the Agent.—

No 16 There were 6 Tappal Peons in the Pauneem Talook and 5 in Nundycootcoor up to the end of July 1846, during which period the Talook Tappal from Nundeal to Kurnool was conveyed via Pauneem and Tammaraz pully. In August 1846, the late Agent Mr Scott abolished that line and the mails were conveyed via Gudavamul this arrangement necessitated the transfer of 2 Peons from the Pauneem to the Nundicotcoor Talook. These changes having taken place in order to effect a more convenient line of Talook postal

			postal communication sanction is requested to authorize the Civil Auditor to admit the charges retrenched and to pass the payment made to the Peons in the subsequent fuslies.—

The allowance was paid up to Fusly 1254 in the name of Hoosainee son of the late Marsoom, but from Fusly 1255 it appears that the allowance has been paid in the name of Bundoomah, the Agent is therefore requested to state in his reply the reason for the allowance being paid to the latter individual [illegible]

No. 115 In the list sanctioned by Government on the 28 March 1843 an allowance of Rupees 9-12-0 per annum is entered for the Family of Marsoom without the name of the member of the Family to whom the Yeomiah was to be paid being specified. The Yeomiah was at first paid to Hoosainee son of deceased and on enquiry the late Agent Mr Scott issued in 1844 a certificate in the name of Bundoomah his Mother, the present Yeomiahdar, and continued the Yeomiah to her. She has hitherto enjoyed the Yeomiah and the receipts of payments have been in her name. Sanction is requested to authorize the Civil Auditor to pass the charges in the name of Bundoomah above mentioned —

Proceedings thereon—1.

(30-31.)

Resolved that the letter above recorded together with the Statements that accompanied it, be submitted for the consideration and orders of the Right Honorable the Governor in Council.—

2. Of the three Statements forwarded, the first exhibits the items retrenched from the accounts of Fuslies 1255 to 1259; the second the items of the accounts of Fusly 1260, to which exception has been taken, and the third, is merely a continuation of one of the items of charge embraced in the first Statement.

3. In this case, the substitution of the name of Senkarappah for that of his Son Masoom through inadvertence in the list sanctioned by Government on the 28th March 1843, has led to the retrenchment. The Board therefore recommend that the charge may be sanctioned and that the usual allowance may be continued to Masoom, subject to report at his death as already directed in the order above quoted.—

The sums constituting these items were arrears of Revenue collected from certain Villages and paid to Jaghiredars agreeably to existing orders in years subsequent to those of the collections - The objection of the Civil Auditor to these items, seems to be founded on the fact of their having been once credited to Government, and subsequently paid out without special sanction - Under these circumstances, it is recommended that they may be passed -

Bd. No. 2513

From the Acting Collector of Chingleput

Sir,

It was my intention to have brought under the consideration of the Board of Revenue the state of the Abkarry balance at an early

early date when I received this day your letter of the 17th Instant, requiring an early reply to the Extract from the Board's Proceedings of the 2d. March last:-

The unsatisfactory state of the Renters' payments was noticed when first I took charge of this Office, and I have, on two several occasions* called on Mr. Kenrick to submit any accounts he possessed in reference to his claims for remission preferred to the Board of Revenue under date the 20th February last, I have had no satisfactory answer from Mr. Kenrick, his only reply is a short note dated the 1st instant, Copy of which is sent herewith.-

x
10th June 1854
28th Do. Do.

The Balance due by Mr. Kenrick up to the 5th July is Rupees 53,825-$\overset{as.}{5}$-$\overset{p}{3}$. to meet which there is in deposit security in Company's Paper valued at Rupees 15,005-$\overset{As.}{—}$-$\overset{P}{10}$. The Balance due by Mr. Kenrick for which there is no security is therefore Rupees 38820-$\overset{as.}{4}$-$\overset{p}{5}$.

In my Judgment a demand should be made upon Mr. Kenrick to pay ought to supply it, could not be trusted but a rough or general estimate of the state of the harvest throughout the Collectorate and of the extent of land under crop with the probable quantity of grain grown on it could readily be framed, at all events this could be done in reference to the Rice Crops on which the food of the population mostly depends. The quantity required for home consumption might in like measure, be estimated, and the Balance available for export might be noted with at least an approximation to truth.—

Dealers in grain in fact make calculations of this nature. Their correspondents give them information of the state of the season, and the quantity of grain that may be expected for sale in the Markets of the several Districts in which they deal. In the event of a failure in the Districts round Madras, they immediately apply themselves to the Markets North or South as the case may be Government might be kept informed of the season in like manner. In point of fact this information is generally afforded by the Officers in Charge of Districts to the Board of Revenue in the periodical Returns.—

Any thing like correct statistics with the present Establishments is not to be expected but a general idea of the state of things in a District is even at present a matter of general notoriety.—

Bd No. 7581.

From the Acting Collector of Chinglepat — Replying to the queries having reference to the Bearing of the commutation rates on the condition of the People.

Sir,

I have the honor to submit the following replies to the queries transmitted in a Circular letter from the Board of Revenue dated 8th November 1852, having reference to the bearing of the commutation rates on the condition of the people, my answer must of necessity be short or imperfect, as I have so recently assumed charge of this district, and have had personally no acquaintance with the working of the system that prevails in it.—

The total number of Villages in which the Survey field money assessment obtains in this district is 1652 and which may be thus classed.—

		Villages
Settled by Mr. Hepburn in Fusly	1262	99
" by Mr. Ellis "	1266	1
" by Mr. Smalley "	1233	144

" by Mr. Freese "	1259	25

In the fifteen hundred and fifty two Villages respectively settled by Meſsrs Smalley, Vireash, Maclean and Freese, the commutable price of Paddy in fixing the Aſseſsment on wet lands was aſsumed at a Uniform Standard of 18 Mercals per Pagoda — The average prices in the district in a series of years preceding the introduction of the Settlements were somewhat higher Vizt. from 14 to 17 Mercals per Pagoda but the standard of 18 Mercals was taken as a fair one and advantages to the Ryots — Mr. Smalley's proposal was somewhat higher in the first instance, but to satisfy the Ryots he made a number of discretionary remiſsions which had the effect of reducing the commutation rates to 18 Mercals per Pagoda — In other words the commutation price of Paddy in calculating the aſseſsment to be fixed on wet land in this district was fixed at 77 Rupees per Garce in all the Villages of Chingleput except in those aſseſsed by Meſsrs Hepburn and Ellis. In one hundred Villages settled by these Gentlemen the commutation rates were fixed at from

from 14 to 17 Mercals per Pagoda or from 125 to 103 Rupees the Garce, But though the commutation rates of Paddy have been taken at one rate and that not a high one, The Survey Aſseſsment varies considerably in different Villages, because the produce of the fields was calculated by all those Gentlemen on different data —

The Aſseſsment on Dry and Garden land was not fixed upon a commutation price of the various grains produced thereon these grains were so frequently changed on the same Soils, and the value of each sort differs so greatly in price, one from the other, that it was reckoned inexpedient to base the Aſseſsment altogether on returns so obtained — The dry land Aſseſsment was therefore fixed on the average collections of preceding years, corrected and checked by other standards, Vizt., the permanent or Mootah Beriz and the collections of Fusly 1210 and 1232 reference also being had at the same time to the rates at which dry Cereals were sold in the Markets of the District — The

The Prices of Wet produce were calculated on the rates prevailing in the Villages of the several Talooks of Chingleput Mr. Maclean calculated these averages on a series of twenty three years and Mr. Smalley's calculations were based upon a term of 16 years (excluding five years of high prices) preceding their respective Settlements

The proportion of Groſs produce taken for the Government aſseſsment was the same that was found to prevail under the Mahomedan Government. The shares vary in different villages, but the rates previously in force were taken as the basis of the Survey aſseſsment. These shares were recorded in the accounts of 1801 framed for the introduction of the permanent Settlement. The Government shares fluctuates from 39 to 50 per Cent of the groſs produce, The dues of village Servants &ca also vary and may be estimated at from 10 to 24 per Cent of the produce. The rest is the Ryots share. Generally speaking, it is calculated that the Circar share of the groſs

x Inclusive of fees to the Ryots Servants

x A

groſs produce is on the average 42 per Cent that the Cultivators share is 44 per x Cent and the Village fees and Rossooms are 14 per Cent of the Groſs produce—

A Statement x is herewith submitted shewing the Revenue realized on the different descriptions of produce in this District in Fusly 1262, The preparation of the Statements exhibiting the extent of cultivation of each description of Grain at the time the commutation rates were fixed in comparison with what it now is would occupy much time and perhaps be of little value when done. It may be remarked however that the course of cultivation has varied very little in this district that the same description of produce as formerly is now raised with one exception, Vizt., Indigo which however is only cultivated to a small extent and which is besides a crop of a very precarious character in the Chingleput district, The poorer and wealthier Ryots grow the same description of produce almost invariably—

for twenty years are herewith furnished + one is the price Current of this district and the + other is the price list of the Madras Market. the Statement of this district is compiled from the Monthly Demand Collection and Balance Statements submitted to the Board, and the prices there exhibited are the average rates obtained by the grain dealers at the Stations of Conjeeveram, Trivulloor and Chinglepet, There is a considerable decline of price in Paddy during the second series of years in the seasons from 1251 to 1260 inclusive but both sets of averages considerably exceed the average rate per Garce on which the Ryotwar Settlement was based. The agriculturalist in his Village of course, is unable to get the price quoted in the Town as Current among the Merchants but after making a considerable deduction for the cost of transport to Market, it does not strike me that the Ryots in Chinglepet have reason to complain that the Current price of produce has fallen below the rates at which the Assessment on the land was originally calculated.

Under

9957

Fort St. George 24th July 1854.

Under these circumstances I am not prepared to make any proposition to relieve the Ryots by a general reduction of the Assessment in Chinglepet. No doubt that Assessment at present is unequal and so heavy that in most cases the rates cannot be enforced in other than favorable seasons without remissions which involve a constant scrutiny into the private means of thousands of people, the issue of which is generally unsatisfactory both to the recipients and to the Officers engaged in the enquiry but I do not consider myself qualified to discuss the subject with my short experience in this District and doubtless any recommendation I might make would have very little weight with the Board I have purposely refrained from entering into any lengthened notice of the Survey Assessment of Chinglepet, that subject has been so often reported upon that nothing new could possibly be said upon it. The various principles on which that Survey was conducted formed the subject of a most elaborate disquisition

disquisition in the Extract from the Boards proceedings of the 26th August 1844 and the result was a condemnation of the whole as most unsatisfactory, altho' the Board considered that the measure had been undertaken with the most benevolent intentions and dictated by the wisest views.—

Sir,

Para 1. On the 6th January 1854, the Government granted the usual sanction for temporary Gomastahs for preparing the Jummabundy accounts in this District for the Court Fusly 1263, being 24 Goomastahs at 10 Rupees a month each for four months, making a total of 960 Rupees. The Gomastahs were entertained accordingly on the 1st March and the sanction expires with this day.—

2. I regret however to have to inform the Board that from the peculiar character of the season the settlement is not yet nearly completed. The delay in the Settlement has been chiefly caused by the time taken up in the inspection of the large quantities of Shavey in several Talooks, and the increased work thrown on the Gomastahs is mainly owing to the detailed individual accounts necessary in granting remission for deficient produce

in

in Poonjah-Sue Talooks still remain to be settled, and although their accounts are partly ready, and they contain little Shary, compared with the Talooks already finished, yet the settlement of the whole cannot be completed at the least in under two months from the present time.—

3. I am therefore compelled to request sanction for continuing the temporary Gomastahs for some time longer, and under the unusual circumstances of the year, I trust the Board will support this recommendation. I beg that I may be authorized to entertain eight of the Gomastahs for a further period of two months, and the remaining sixteen for a further period of a month and a half. I enclose an Estimate in the usual form. I beg to add that I shall continue the Gomastahs pending a reply, as I could not dispense with them without almost wholly suspending the operations of the settlement.—"

Resolved

Bd. No. 1520
Proceedings thereon. —
42-43.
In Cons: 18th January 1854.

No. 322

Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council. —

2. In Extract Minutes Consultation 6th January 1854 para 2 Government accorded its sanction for the estimated expenditure on account of temporary extra establishments in all the Districts, in which was included an item of 960 Rupees for North Arcot, being the pay of 24 Goomastahs at 10 Rupees per mensem each for 4 months. These Goomastahs were entertained on the 1st March 1854; the sanctioned period for their employment consequently expired on the 30th June. —

3. The Collector however reports that in consequence of the peculiar character of the season the settlement has not yet been completed, and that two months more at least will be required to bring the work to a conclusion. He therefore solicits that he may be permitted to keep on the temporary Goomastahs for a further period. —

4. The Board being satisfied that the character of the season is such as to prolong the usual period occupied by the settlement in consequence of the many claims for remission on account of deficient produce &ca. that will have to be enquired into, beg to recommend that the proposition of the Collector for employing 8 of the Goomastahs for a further period of 2 Months, and the remaining sixteen for 1/2 months longer at an aggregate expenditure of Rupees Four hundred may receive the confirmation of Government. —

To, B. Cunliffe Esqre.
Sub Secretary to the Board of Revenue
Fort St. George

Sir,

I have the Honor to acknowledge a circular Order from the Board of Revenue dated 13th Instant (received yesterday) directing

directing that till further orders a brief report on the prospects of the season should be made every 10 days, in continuation of that sent to Government, in reply to their direct circular of the 4th Instant. I apprehend that it is intended that these reports should be sent through the Board of Revenue, and I accordingly address this to you. —

2. Since my last report to Government, dated the 10th Instant, there was a trifling fall of rain on two days, Vizt. the 11th and 15th, in a few parts of the District. This was sufficient to refresh the young dry crops, but scarcely enough in any places to bring any water into the tanks. In places to which these showers did not extend, the Poonjah crops are much in want of rain. —

3. The Nunjah cultivation too is still very backward as stated in my last report. Some lands irrigated by river and spring Channels and by wells have been cultivated; but the extent is much below that usual, at this time of year. —

4. The prices of food still continue very high, scarcely any reduction has yet taken place from the highest point. Nor will there be a fall till rain comes. There is no improvement in the condition of the cattle. —

Bd. No. 2547
From the Collector of South Arcot

Sir,

I have the honor to submit the following replies to the Queries contained in the Board's Circular dated 5th Ultimo regarding the Manufacture of Salt in this District.—

I The term "Set of Salt Pans" would be applied in this District to any number of Pans connected together in one locality, without any reference to their extent. Pans only exist in 21 Villages and out of them those of 8 Villages have not been worked for many years. The Pans at these 13 Villages are placed under four separate Chokies as shewn in the statement submitted by Mr. Maltby with his letter of the 10th May last. There are no recognized divisions into which Pans are grouped, but they are allowed to remain according as they may happen to have

been originally formed without reference to their extent.—

II No Salt is supplied from this to the Nizam's Territories, but our accounts show that for the last ten years there has been an average export of 306 Garce from this District to Mysore.—

III There is no Establishment kept up or any particular measures adopted to guard the sea shore in order to prevent Salt being clandestinely landed, and there is very little to impede such an importation on some parts of the Coast if there were parties desirous of effecting it.—

IV The accompanying Statement contains the information required in reply to this Query; I have only to observe that a "Pan" in this District is taken to be about a quarter of a Cawny in extent, being supposed to contain the amount of Salt one workman can manufacture.—

Bd. No. 2145
From the Collector of North Arcot —

With reference to Extract Minutes Consultation dated 14th March 1854 received with Board's Proceedings dated 27th Idem points out that the forms of Rum certificates under revision —

Sir,

With reference to the Extract Minutes of Consultation of Government of the 14th March 1854 received with an Extract from the Proceedings of the Board of Revenue dated 27th idem, in which the intention of Government is expressed to take measures for the repeal of Acts XV of 1839 and XI of 1842 I beg to call the attention of the Board of Revenue to the Forms of the Certificates of origin, now required to be given for Rum and

and Rum Shrub —

2 Those forms are prescribed in Schedules **C** and **D** of Regulation XXIII of 1841 and in both of them it is certified that the importation of Foreign Sugar into the District wherein the Spirit was manufactured is prohibited I beg to point out that on the repeal of the above quoted Acts of 1839 and 1842, this part of the certificate will be untrue and will require to be omitted and as I am frequently called upon to give certificates for Rum Manufactured at Palmanair and Vencatagherrycottah I beg to be furnished

Bd No. 2282
From the Collector of North Arcot

Sir,

Para 1. On the 6th January 1854, the Government granted the usual sanction for temporary Gomastahs for preparing the Jummabundy accounts in this District for the Court Fusly 1263, being 24 Goomastahs at 10 Rupees a month each for four months, making a total of 960 Rupees. The Gomastahs were entertained accordingly on the 1st March and the sanction expires with this day.–

2. I regret however to have to inform the Board that from the peculiar character of the season the settlement is not yet nearly completed. The delay in the Settlement has been chiefly caused by the time taken up in the inspection of the large quantities of Shavey in several Talooks; and the increased work thrown on the Gomastahs is mainly owing to the detailed individual accounts necessary in granting remission for deficient produce

in

in Poonjah-Sue Talooks still remain to be settled, and although their accounts are partly ready, and they contain little Shany, compared with the Talooks already finished, yet the settlement of the whole cannot be completed at the least in under two months from the present time.

3. I am therefore compelled to request sanction for continuing the temporary Gomastahs for some time longer, and under the unusual circumstances of the year, I trust the Board will support this recommendation. I beg that I may be authorized to entertain eight of the Gomastahs for a further period of two months, and the remaining sixteen for a further period of a month and a half. I enclose an Estimate in the usual form. I beg to add that I shall continue the Gomastahs pending a reply, as I could not dispense with them without almost wholly suspending the operations of the settlement.

Bd. No. 1520

Proceedings thereon.

42-43.

In Cons: 18th January 1854.

No. 322

Resolved that the letter above recorded be submitted for the consideration and orders of the Right Honorable the Governor in Council.—

2. In Extract Minutes Consultation 6th January 1854 para 2 Government accorded its sanction for the estimated expenditure on account of temporary extra establishments in all the Districts, in which was included an item of 960 Rupees for North Arcot, being the pay of 24 Goomastahs at 10 Rupees per mensem each for 4 months. These Goomastahs were entertained on the 1st March 1854; the sanctioned period for their employment consequently expired on the 30th June.—

3. The Collector however reports that in consequence of the peculiar character of the season the settlement has not yet been completed, and that two months more at least will be required to bring the work to a conclusion. He therefore solicits that he may be permitted to keep on the temporary Goomastahs for a further period.—

4. The Board being satisfied that the character of the season is such as to prolong the usual period occupied by the settlement in consequence of the many claims for remission on account of deficient produce &ca. that will have to be enquired into, beg to recommend that the proposition of the Collector for employing 8 of the Goomastahs for a further period of 2 Months, and the remaining sixteen for 1/2 months longer at an aggregate expenditure of Rupees Four hundred may receive the confirmation of Government.—

To, B. Cunliffe Esqre.
Sub Secretary to the Board of Revenue
Fort St. George

Sir,

I have the Honor to acknowledge a Circular Order from the Board of Revenue dated 13th Instant (received yesterday) directing that till further orders a brief report on the prospects of the season should be made every 10 days, in continuation of that sent to Government, in reply to their direct circular of the 4th Instant. I apprehend that it is intended that these reports should be sent through the Board of Revenue, and I accordingly address this to you.—

2. Since my last report to Government, dated the 10th Instant, there was a trifling fall of rain on two days, Vizt. the 11th and 15th, in a few parts of the District. This was sufficient to refresh the young dry crops, but scarcely enough in any places to bring any water into the tanks. In places to which these showers did not extend, the Poonjah crops are much in want of rain.—

3. The Nunjah cultivation too is still very backward as stated in my last report. Some lands irrigated by river and spring Channels and by wells have been cultivated; but the extent is much below that usual, at this time of year.—

4. The prices of food still continue very high, scarcely any reduction has yet taken place from the highest point. Nor will there be a fall till rain comes. There is no improvement in the condition of the cattle.—

Bd No. 2547
From the Collector
of South Arcot

Sir,

I have the honor to submit the following replies to the Queries contained in the Board's Circular dated 5th Ultimo regarding the Manufacture of Salt in this District.—

I The term "Set of Salt Pans" would be applied in this District to any number of Pans connected together in one locality, without any reference to their extent.— Pans only exist in 21 Villages and out of them those of 8 Villages have not been worked for many years.— The Pans at these 13 Villages are placed under four separate Chokies as shewn in the statement submitted by Mr. Maltby with his letter of the 10th May last. There are no recognized divisions into which Pans are grouped, but they are allowed to remain according as they may happen to have been originally formed without reference to their extent.—

II No Salt is supplied from this to the Nizam's Territories, but our accounts show that for the last ten years there has been an average export of 306 Garce from this District to Mysore.—

III There is no Establishment kept up or any particular measures adopted to guard the sea shore in order to prevent Salt being clandestinely landed, and there is very little to impede such an importation on some parts of the Coast if there were parties desirous of effecting it.—

IV The accompanying Statement contains the information required in reply to this Query; I have only to observe that a "Pan" in this District is taken to be about a quarter of a Cawny in extent, being supposed to contain the amount of Salt one workman can manufacture.—
