25th October 1854. — Received the following pa

No 50

To B. Cuncliffe Esqre

Sub Secretary to the
Board of Revenue
in charge
Fort St. George

1

B. No. 4003.

From the Officiating Agent
to the Governor of Fort St George
in Kurnool

Sir,

I have the honor to retrans

mit the Statement of Demand Collection
and Balance from 12th to 31st July 1854, the
item Extraordinary Revenue having been
excluded from the head of Sevoy Jummah
as directed, and request that similar altera
tion may be made in the Statement of Demand
Collection and Balance for August at your
Office

Kurnool
Government Agents Office
19th October 1854

/Signed/ L D. Daniell
Officiating Agent to the
Governor.

B. No. 15.

Proceedings thereon

1-2.

The Agent is informed that
there is a clerical error in the Boards
Proceedings of 12th October 1854
to which the foregoing letter is a reply

Statement

For A. St. George — January 1855.

Statement No. 1 is written instead of State-
ment No. 2. The returns now received up
to September will therefore be amended
here, and Mr. Daniell is requested to recti-
fy his Office copy, and in future to enter
Sevoy Jummah alone and not refunds Vca. in
Statement No. 2 of the Demand Collection
Balance returns.

No. 193

(3.)

To B. Cunliffe Esqr.
Sub Secretary to the
Board of Revenue.

B. No. 4140.
From the Acting Collector
of Madras.

Sir,

With reference to the correspondence noted in the Margin, I have the honor to forward the annexed copy of a letter to the Chief Magistrate and Superintendent of Police and his reply from which it will be seen that he has fined in the sum of Fifty Rupees a certain wholesale dealer in Beer and Wine for selling by retail without a License contrary to the provision of Act XIX of 1852 and that he has adjudged the liquor found in

To Board 8th June 1853
From Do. 23d Do. Do.
To Do. 8th August Do.
From Do. 13th October Do.

For A. St. George — January 1855.

in his house not liable to confiscation on the ground of his being such a wholesale dealer.

2. As this Sentence seems to contradict the Advocate Generals' construction of the Act, as given in Paras 3 & 4 of his letter to the Secretary to Government dated 20th September 1854, I beg to be favored with the Board's instructions as to the steps to be taken.

3. The liquor is given back under the Chief Magistrate's decision and so far as the Abkarry Revenue is concerned, I do not think it of any importance to press for its confiscation in this particular case. But it does seem of very considerable importance that there should be no difference of opinion as to the operation of the law among those who have to carry it out.

Madras.
31st October
1854.

(Signed) H. Stokes
Acting Collector.

To

4

Fort St. George — January 1855.

To The Chief Magistrate
and Superintendent of Police.

Sir,

On the information of Christiana Brown I issued a Warrant against Messrs. Klyne & Co. residing in Ponamalle Road for selling Beers without a retail license for the seizure of such liquors as may be found in their possessions I beg herewith to forward the liquor seized with the parties for adjudication under the provisions of Act XIX of 1852.

Proceedings thereon.
5-6.

The Board of Revenue approve of the proceedings reported in the foregoing letter.

No. 204

To B. Cunliffe Esqre

Sub Secretary to the
Board of Revenue
Fort St. George.

7.

B No. 4546
From the Collector of Madura.

Sir,

I have the honor to request authority to make an advance to each Talook for its Saderward expences. At present these are incurred on credit, and the amount afterwards remitted from the Collectors Cutcherry; under this system disputes occur with oil dealers and others, who are not always willing to sell without immediate payment; and it seems right, that like private people, the Talook Servants should go to Market with Money in their hands to purchase what is required for the Cutcherry.

Madura,
22nd November
1854

[Signed] R. D. Parker
Collector.

B No. 3.
Proceedings thereon.
7-8.

Under the orders of Govern-ment of the 13th September 1852 No. 893, the Board

Board authorize the Collector to make the necessary advance to each Talook for Saderward expences, the account will of course be audited every month and the amount of the expenditure, after such audit, should be credited to the advance.

9.

B. No. 4568

From the Secretary to Government. } Extract from the Minutes of Consultation in the Revenue Department under date the 30th November 1854.

No. 1565.

Read the following letter from the Sub Secretary to the Board of Revenue.

/Here enter 6th November 1854/ No. 526/

The Government are of opinion that the distribution of part 1st Volume of the Tamil and Telugu translations of the Circular orders of the Board of Revenue should be limited to the number subscribed for by Government in Extract Minutes Consultation 19th June 1854. Viz.t 300, and that in part modification of the order of the 28th July following the distribution should be made to the Buzzoor Sub Division and Talook Cutcherries, for the general use of the Native Servants in those offices according

according to this scale the number required will be for.

21 Collector's Cutcherries ——— 21
16 Sub Collector's Do. ——— 16
243 Talook ——— Do. 195 + 48 for printed report — 243
The Honorable Court of Directors 10 of each ——— 20
300

The Board will arrange according to the Government have subscribed for. 150 Copies of each translation, but it is probable that the No. of Tamil and Telugu Copies required for distribution as per the above list will not be quite equal - Both translations having been published by the same parties, they will supply the Board with 300 Copies in all in such proportion of Tamil to Telugoo as the Board may require.

To The President & Members of the Board of Revenue.

/True Extract./
/Signed/ J. Pycroft
Secretary to Government.

B. No. 14.
Proceedings thereon.
9-10.

Resolved that the Proprietors of the translated Editions of the Circular

10

Fort St. George January 1855.

Circular orders of the Board of Revenue are requested to forward to this office 143 Telugoo and 157 Tamil copies 300 copies in all of each part of the Circular orders in course of publication by them as soon as they are issued from the Press - Bills for the value of the same being also submitted for payment

---

19.

Bd. No. 4649
From the Collector of Bellary — Sir.

1. For Six Months during the settlement there is an Extra Establishment sanctioned Viz.t 8 Goomastahs at 18 Rupees each Total amount 144 Rupees. From the time this Extra Establishment was sanc-27th January 1832. tioned now 23 years ago, it has been found impracticable to get through the work with only 8 Extra Goomastahs, and Collectors have used their discretion in splitting the amount so as to allow of more Goo-mastahs on a less pay, generally 23 at 6 and 7 Rupees salary a remune-ration insufficient for them. After consideration I am of opinion that at

at least 12 Goomastahs are necessary and that 12 Rupees will suffice for their allowance each and as the employ-ment of more than the sanctioned number though the amount is not exceeded is not quite regular, I have the honor to request per-mission to entertain 12 Extra Goomastahs on 12 Rupees each for the sanctioned amount Viz.t 144 Rupees for six months as heretofore, which I hope will meet with the Board's approval.—

Bellary Collectors Office 2d December 1854. — /Signed/ C. Pelly, Collector.

From the Secretary to Government

Revenue Department.

No 1599.

Extract from the Minutes of Consultation:—

Under date the 8th December, 1854.

Read the following letter from the Sub Secretary to the Board of Revenue.

/Here enter 8th November 1854. No 5725/

Para 1. The Right Honorable the Governor in Council grants authority for excluding in future from the Government demand that portion of the tax in the North Arcot District, the payment of which is contested by certain parties of the Chittoor Talook.

2. Looking however to what is stated by the Board Para 2 as to the Obeum generally, viz:, that these payments were originally voluntary contributions but on the assumption of the District were erroneously included in the Pagoda assets, the Right Honorable the Governor in Council would wish for the opinion of the Board whether, now that the error has been discovered, it might not be rectified, the amount Rupees 209. 8—10. be excluded from the Jusdeek and the collection be altogether discontinued on the part of the Officers of Government—it being left to the Pagoda Trustees themselves to realize the Obeum and to the people to give or to withhold it according as they may be disposed.—

Ordered that the following Letter be sent in reply.

To The Chief Secretary to Government.

21-22.

Bd No 5.

To the Chief Secretary to Govt

In Dy No. cons 4th Jany 1855.

Sir,

In an Extract from Minutes of Consultation of Government of the 8th December No 1599. the Right Honorable the Governor in Council while acceding to the recommendation of the Board of Revenue that the portion of the Obeum in North Arcot of which the payment is contested should be thereafter excluded from the demand, enquires whether the whole of the Collections under that term may not properly be discontinued, a corresponding reduction being made in the Jusdeek of the several Dawstanums concerned.—

2. In reply, I am instructed to request attention of the Government to the correspondence noted in the Margin in which this question was discussed.

The voluntary contributions originally constituting the Obeum were erroneously included among the fixed assets of the Pagodas; but this mistake was that of the Servants of Government. This circumstance, and the fact that the payments

to the Pagoda have conduced for so many years, even to give those Institutions a kind of claim to their continuance, and the total amount is but trifling. Strictly speaking however it can hardly be said that the course now proposed by the Government involves injustice, or that it would place the recipients of the Tusdeek in a worse position than they would now have occupied, if the Obeium had never been touched by Government Officers.-

Bd. No. 4671.
From the Agt.
Coll. of Nellore.

Sir,

Two Merchants by name Mootteredy Kursumsetty and Rungum-setty made a tank in the Village of Pada-matenam pully in Woodiagery Talook at a reported cost of Rupees 12,000, but no provision having been made to let off the Surplus water, the bank was breached

breached the first year and it has ever since remained in the same State. Mootteredy Obooloosetty Son of Kursumsetty the first of the above named parties proposes to spend Rupees 8000 more, to repair the breach, and make every provision necessary for the permanent safety of the Tank which he promises to keep in thorough repair, on condition of the Government granting him free of assessment (as Desavundum) a fifth of the 150 Goortoos of Dry land to be converted into Wet cultivation under the Tank. This Tank was inspected by Major D'Batts in February 1850, and the amount requisite to provide it with a Sluice and Calingulah was estimated by him, on a rough calculation, at about Rupees 2,000, altho' no Steps seem to have been taken with reference to a remark he appears to have recorded, suggesting that, after making the necessary enquiries, the Collector should report the result & matter for the consideration of the Board. This having been included by the Tahsildar in the List of Works to be executed in 1855, I thought it proper, with reference to the Orders of Government conveyed in the Minutes of Consultation dated

dated 20th June 1854, to call upon the said Oobaloosetty to State whether he would not rather prefer paying dry assessment for the whole extent of land to be converted into Wet cultivation under the Tank. He however adheres to his original request, Viz^t, to be allowed as Desavundum free of assessment 1/5 of the total extent actually brought under Wet cultivation, the particular Section being selected by himself — all, of course in one Spot — In this, I was on the point of acquiescing, when I was deterred by the apparently counter instruction conveyed by Minutes of Consultation dated 25th January 1844 at page 351 of Board's Circular Order Book, and have judged it proper to refer the point for the decision of the Board. —

Bd No 7.
Proceedings thereon.

(23-24)

In this letter the Acting Collector brings before the Board a proposal from Mootiereddy Oboolosetty to expend Rupees 8,000 in the repair of

of a Tank in the Padamatenainepully Village in the Woodiagherry Talook, constructed in partnership by his father Mootereddy Nursimsetty and another party named Rungumsetty provided the Government grant him free of assessment as Desavundum one fifth of the 150 Coorlos of dry land to be converted into Wet cultivation under the Tank — Before passing orders on this application, the Board request the Acting Collector will state whether the Tank was made under the Woodiagherry Nabob or under the English Government, and on what terms it was then constructed, what is the extent of land under it, and whether it is assessed as poonjah or Runjah, and at what rate — how much of it is cultivated as poonjah and Runjah respectively, and whether such land is held by aboolosetty or by others. If the Board are satisfied upon the above points, they will give the application their best consideration — (Subject to the claims of the heirs of the other original projector)

projector) under the late orders respecting private Tanks, but with reference to the order of Government of the 13th January 1844 they will not give it on Dasawundum tenure nor as a fixed Dasawundum Enam. –

From the Collr. of Bellary. (Here enter 28th " " " 32)

× × ×

Para. 1. With the Extract from their Proceedings under date 20th Ultimo, the Board of Revenue submit a letter from the Collector of Bellary reporting on the relationship between the public Servants of the Collectorate, and between them and the Servants of the Civil or Subordinate Courts. –

2. From this it appears that of

of 388 Revenue Servants in Bellary 350 or about 9/10ths are of one class the Mahratta Bramin. that these Servants are largely related or connected with each other while there is also the strong tie or bond of Caste pervading the whole. It is not surprising that this monopoly of Government employ by one class should have given extensive dissatisfaction.-

3. The Board of Revenue rightly remark that "the State of Official influence thus prohibited is not only prejudicial to the public interest but unjust to the other classes." As however the Collector expresses his readiness to carry out the wishes of Government in breaking up these family influences they propose to leave the matter in his hands, directing no immediate change, but expressing only their desire to see the introduction of all classes into public employ so as to leave no special one predominating. The Right Honorable the Governor in Council would not wish to embarrass the Collector by insisting on any specific changes. and he would therefore

therefore, with the Board of Revenue, be willing after this intimation of the views of Government to leave that Officer a discretion in carrying them out. At the same time to check these confederacies, which it is notorious are not confined to the Bellary District, the Board should lay down some general principles for regulating promotion to high Native revenue Offices to be adopted on vacancies occurring, as far as practicable, when injustice to individuals already employed will not be hazarded. Thus the Board should take measures, as opportunities offer, for introducing in all Districts where a Mahratta Bramin is Head Sheristadar a Member of another class as Deputy Sheristadar. It should also be laid down as a rule, not to be departed from unless clearly impracticable in any particular instance, that for the future the two Head Revenue Servants in the Hoozoor should not both of them be Mahratta Bramins. The Board might similarly require that a proportion of the Tahsildars in each District

the Governor in Council directs that he be dismissed from his present Office and be not re-employed in the Bellary District without the Special permission of Government. But posting to the high testimonials that he has produced, the Governor in Council will not prohibit his employment in another District.-

6. With his letter of the 28th Ultimo Mr. Kelly reports his Proceedings in the charge of murder preferred against the Merchant Guddi Rao Moodapah. The matter seems to have been fully investigated at the time, and there appears nothing to which exception can be taken in the proceedings of the Magistrate- The accusation was clearly false and malicious- and it is greatly to be regretted that its authors could not be discovered, but it is stated that it was quite impossible to prove that the persons suspected by Godagay Vencopah or his brother of having instigated the charge had done so.

To The President & Members of the Board of Revenue.

Ordered.

District should be of other classes and not Brahminical. It cannot be doubted that this would be found highly beneficial to the people generally, as well as just to the native Community and of advantage to the State.-

4. The above remarks will be communicated to the Court of Sudr Udalut and the Judges will be requested to apply to the Native Judicial Service some rules analogous to those above indicated for the diffusion of Official patronage and preventing its being Monopolized by one class whether as regards the Head Ministerial Officers of the Courts, or the District Moonsiffs.-

5. The Government have now to dispose of the papers regarding Bheema Row (Suspended) Tahsildar of the Bellary Taluk laid before them by the Board on the 2nd October last. It will not be necessary to enter at any length into this case. Bheema Row has by his own admission been implicated in discreditable underhand proceedings, and his intriguing conduct cannot pass unpunished. The Right Honorable the

To,

B. Cunliffe Esqre.
Acting Secretary to the
Board of Revenue
Fort St. George.

(29.)

Bd's No. 4758.
From the Coll'r of Madura -
Reports the death of the Naib Sheristadar of his Cutcherry and recommends Ram Row Tahsildar of Peroomangalum for his Office.

Sir,

I regret to have to report the death yesterday of the Naib Sheristadar of my Cutcherry Trimul Row an old and respectable Servant, possessed of considerable ability.-

2. Being aware that it is in contemplation to restrict the power of Collectors as regards this Office to Suggestion only, I shall abstain from making a positive appointment till the pleasure of the Board is known, but I would beg strongly to recommend Ram Row now Tahsildar of Peroomangalum, whom, being greatly in want

Fort St. George 6th January 1855.

want of assistance I have appointed to act in the interim.-

3. Ram Row is the son of Sheshagherry Row, the well known Sheristadar of Madura and Trichinopoly and inherits a good deal of the talent of his father. He did not enter the public Service early, but for some years had charge of the Villages in the Shevagungah Zemindary granted as an endowment to a Kuttay as it is called in the Madura Pagoda. In this situation he gained the same degree of experience as would be acquired by a Deputy Tahsildar, and I have always heard his administration very well spoken of. On the Office of Police Ameen being Sanctioned for the Town of Madura previously infested by burglars and thieves, I selected him to fill it, and the character of the place was quickly changed. Robberies soon became as rare as they had before been frequent, and his efficiency was further displayed by the Superior degree of cleanliness and order established throughout the Town. On the 14th January 1854, I appointed him Tahsildar of Shenkurray and

and on the 30th March 1854 to the Superior Tahsildary of Peroomungalum; both of which offices he has filled to my entire satisfaction, and I was greatly struck during the Summabundies with the confidence and respect shewed him by all the Ryots, a respect that appear from all quarters, earned by a union of great patience industry and Kindness, co with a singularly gentlemanly bearing and a high reputation for integrity.-

4. His age is about 35 and besides posessing a knowledge of Maratta and Tamil he writes & reads and speaks English with fluency: which will enable him to afford me great assistance in the Maramut and Extra Revenue Departments. His value to me will be further enhanced by a habit of exercising and general personal activity which are of so much service in an Officer often deputed to make examinations.-

Bd. No. 6

Proceedings thereon.-

Representing the difficulties the collectors will experience in rigidly carrying out the rule directing that the two Head Revenue Servants at the Hoozoor should not both of them be Maratta Bramins and enclosing a letter from the collector of Madura in illustration of the same-

Ordered that the following Proceedings be addressed to Government.-

Previously to issuing a circular order in pursuance of the order conveyed in Extract Minutes Consultation of the 11th Ultimo for the guidance of the Revenue authorities the Board of Revenue are desirous of again taking the wishes of Government upon the rule directing that "the two Head Revenue servants at the Hoozoor should not both of them be Mahratta Bramins".

2 The Board quite concur in the propriety of the general course prescribed but are apprehensive that a strict application of the rule may prove unjust to deserving men and injurious to the public service as collectors in some districts may find a difficulty under present circumstances in procuring a trained and educated individual of a caste different from that of the other Sheristadar.-

3 The Board are satisfied that, collectors will zealously carry out the wishes of Government, and will endeavour, whenever practicable to avoid for the future that monopoly of office by any one tribe, which has attracted the notice of Government and appears to them advisable to trust to the general expression of the wishes of Government, and to the effect of improved means of education in raising up qualified men of other than the castes hitherto favored

favored rather than to lay down special rules.

4 In illustration of these remarks a letter is enclosed which has been lately received from the Collector of Madura 〜 Mr. Parker's selection of an Officer for the post of Naib Sheristadar appears to the Board very judicious, and they would regret being obliged to cancel it and yet under the order of Government now under notice, this course would be necessary.—

Bd No. 1782
From the Actg Collr of Madras.....

Sir,

Messrs Gahan Eaton and Co have again applied for Nine thousand Maunds of Salt to be shipped from Ennore on private trade to Calcutta, and as this amount with that already sanctioned will exceed the quantity stated to be available for exportation as per Statements forwarded to the Board on the 15th Instant, unwilling as I am to trouble the Board, 〜 I am obliged to request their orders on the subject.

Madras..... 22nd December 1854

/ Signed / W. C. Cheshire
Acting Collector.

Bd No. 2848
Proceedings thereon

The Board observe that in the acting Collrs

31-32

Collectors letter of 7th November 1854 the Salt now ready and that likely to be available for export by Sea was stated to be as follows

In Store at Ennore	185120
At the Pans. — — —	136770
	321890
Estimated Manufacture in June	240000
Total	561890

The Government Indent recently forwarded to him amounted to but 70,000 Maunds and the Board therefore presume that after complying with that and future Indents there will still be a large Surplus available for private trade. The acting Collector will therefore supply Messrs Gahan Eaton and Co with the Nine thousand Maunds of Salt applied for by them and continue to comply with future applications as far as he possibly can without trenching upon the local demand.—

5. Letter from Secretary to Board to Chief Secretary 9th Novr 1854.

I have read with much at-
=tention the papers noted in the Margin regarding the power now vested in Collectors for the recovery of arrears of land revenue in Ryotwarry Districts. The subject divides itself into two main branches, 1st under what Regulation or Regulations are such arrears recoverable. 2d what proces is a Collector authorized to take for their recovery.-

2. Regarding the 1st point it is unnecessary for me to offer any ob-
=servations, since whether Regulation 28 of

of 1802 be applicable or not it has been decided† that the arrears in question can be recovered under Regulation 27 of the same year. The 2d point involves the important question whether the personal property of a defaulter can be attached and sold by a Collector in the first instance, and it is on this subject that I wish to offer some remarks, narrowing the question to this point - does Regulation 27 of 1802 empower a Collector to distrain and sell the personal property of a defaulter without his Consent.-

† Court of Sudr Adalut dated 12th March 1829 in Circular Order Book of Board of Revenue Page 90 et seq.

3. This point was brought under discussion by the Collector of Tanjore, and Mr. Norton in his letter of 16th October last has expressed an opinion that a Collector does possess such a power under Regulation 27 of 1802. But the arguments which may be urged for putting a different construction on that Regulation were not laid before Mr. Norton, and the principal point submitted for his Consideration was whether arrears of land revenue in Ryotwarry Districts Could be collected under

under Regulation 28 of 1802. It seems therefore to me desirable that the provisions of Regulation 27 of 1802 should undergo further Consideration.-

4. My own opinion is that Regulation 27 of 1802 authorizes a Collector to attach and sell either the personal property or land of a defaulter, with this sole restriction that if the land is attached it is to be released on the defaulter voluntarily yielding up personal property sufficient to cover the arrear. My arguments for this opinion are as follows. Section V authorizes the attachment of "the property" of a defaulter, and that this term includes personal property is shown by Section VII, which enacts that a defaulter is not to be imprisoned until his personal property as well as his land has been put up to sale without realizing a sum sufficient to make good the arrear. Is there then any enactment which neutralizes the above law? I conceive not. It is not indeed stated in Section VI that "the landed estate shall be regarded as

as the Security of the Public revenue"; it being added that it is to be at the option of the defaulter "to yield up his personal property or a portion thereof to discharge the debt in preference to the sale of his lands," but I have always construed this Section as merely making the land answerable for an arrear of revenue in supercession of any claims to it founded upon mortgages, deed of sale &c&c which may be brought forward by private parties: but at the same time reserving to the owner the power of saving his landed estate by the surrender of personal property, if the Collector proceeds against the land in the first instance. It does not appear to me that the wording of Section VII relieves personal property from liability to attachment and sale. It certainly contains no clear and positive prohibition against it's distraint, such as would I conceive be necessary to neutralise the power given by Sections V and VIII. It further appears to me plain that it was not the intention of the legislature that Section VII should have any such effect for

for if it was inserted in the Regulation to secure personal property from attachment and sale except with the Consent of the defaulter, the immediately following Section (VIII) becomes an apparent absurdity, it being there enacted that a defaulter cannot be imprisoned until his personal property (as well as his land) has been put up to sale, and it is not to be supposed that a defaulter would voluntarily surrender his personal property in order that he might become liable to be put in Gaol.-

5. The construction which I place upon Section VII seems also supported by the following Considerations. It is just that a man's entire property, real and personal, should be answerable for his debts, and while Government is fairly left to stand on the footing of a private creditor when prior claims are brought against the personal property of it's debtors, both reason and policy seem to require that it should have a

lien

lien upon the land of a revenue defaulter in preference to all other Creditors and claimants. I feel consequently convinced that Regulation 27 of 1802 was intended to bear the interpretation which I put upon it; but whether its wording permits it to be so construed legally is a point on which I cannot presume to decide, and which is peculiarly fitted for the consideration of the Law Officer of Government. Unless therefore objection is felt to the measure, I propose that the opinion of the Government Pleader be especially requested upon Sections V, VI and VII of Regulation 27 of 1802 in reference to a Collector's power of distraining personal property for arrears of revenue. The importance which the subject possesses notwithstanding an alteration of the law is under contemplation, leads me to make this proposal, as the legality of the course followed by the Revenue authorities in most, if not in all Districts during the last fifty years is involved in the question. —

J.

6. I will only add that whatever Construction may be finally placed on the Regulation under discussion, I fully Concur in the proposal for improving the law and the process against defaulters recommended to Government by the Board in their Secretary's letter of the 9th Ultimo. —

Extract from the Minutes of Consultation, in the Revenue Department, under date the 5th December, 1854.

Read the following letter from the Sub Secretary to the Board of Revenue.

(Here enter 2d November 1854 No. 539)

The Right Honorable the Governor in Council agrees with the Board of Revenue that it is desirable that the question whether Regulation VII 1831 is applicable to the Calastry and other Western Zemindaries should be brought to a Judicial decision. It is observed that in their opinion of 15th February 1837 the Court of Sudr Dewanny Adalut have ruled that the Regulation does apply to Zemindary lands. The wording is couched in general terms, and contains no reservation in favor of any class of Zemindaries. The most ready mode therefore of bringing the question to judicial arbitrament would seem to be that the Collectors of North Arcot and

Calastry — Cannattenaggar — in North Arcot
Venkatagherry — in Nellore.

Fort St. George 4th January 1855.

and Nellore should act upon the opinion as it stands without any distinction, applying it to the Zemindaries of Calastry Cavetnugger and Vencatagherry as well as to others and leaving it to the proprietors of those Estates, if so disposed, to contest the correctness of the proceeding by a Suit in Court, when the question will be fully brought to issue and finally settled.—

Proceedings thereon — 74. In their Proceedings of 23d August 1853 para 22 to which the present letter is a reply, the Board authorize the renewal and Continuance of the relief given to the wet lands of Seriporam by Mr. Stonhouse, but withdrawn by Mr. Smith — The object the Board had in calling for the explanation given in the letter recorded above, was to get the sanction of Government to it as a permanent measure; but under

Extract

Extract Minutes of Consultation 10th July 1854

"This now seems unnecessary, the Remission of £6 Rupees a Coorta may therefore be Continued under para 15 of that Extract and para 4 of the Board's Proceedings of date 31st August 1854 —

Assessment per Coorta

	By Mr. Fraser's			By Mr. Smalley			As reduced by Mr. Stonhouse		
	Rs	a	p	Rs	a	p	Rs	a	p
1st class	20	6	7	37	6	6	31	6	6
2d Do.	16	5	4	29	11	6	23	11	6
3d Do.	8	2	7	14	15	9	8	15	9

2 The Board cannot but observe however that this reduction affects the several classes of land in the Village very unequally — Mr. Fraser's and Mr. Stonhouse's rates are shown in the margin with the effect of the present relief — It will be seen that the 3d class assessment is reduced to nearly what it was under Mr. Fraser's settlement, while that of the 1st is still more than 50 per cent above it, and of the 2d nearly as much —

3 Under the order above quoted, the Acting Collector may properly investigate the operation of this reduction; and if he shall be of opinion that the 1st and 2d Classes are still too high as to Wet land rates, he may make some further Reduction under the same rule he may also examine the effects in all the other Villages wherein Mr. Smalley materially raised Mr. Fraser's rates — and if he shall find that the higher rates operate in any cases to shut out land from Cultivation, he should without delay act on the power given by that order — Mr. Ratliff should Report his proceedings under that order as therein directed —

4 The Board observe that the headings to the statement do not shew what is represented in the Columns, Viz. whether of Rupees or not from other denomination of Value, the Collector is requested to instruct the Head of his English office to be more Careful and exact in future —

Bellary Collector's Office 18th November 1854

Ex. Ex. Jst (Signed) C. Pelly

Collector

The

Fort St. George 4th January 1855.

B.d No. 52

Remarks thereon

(75-76.)

The allowance reported on in this statement is not considered by the Board of a Character requiring its Continuance in perpetuity tho' it has been enjoyed by the deceased's family for upwards of a Century, and this mein is supported by the Remarks of Sir Thomas Munro, in para 5 of his Report dated 30th July 1801- It is therefore Recommended that an allowance of 1½ Rupees per diem or Rupees 18 Rupees per annum be Continued in the name of Cundapier the son of the deceased for a maintenance during his life:—

Fort St. George 4th January 1855.

No. 100.

To,
B. Cunliffe Esqre
Acting Secretary to the
Board of Revenue,
Fort St. George.

(77.)

B.d No. 4775.
From the Collector of Bellary—
Forwards the lists of Revenue and Police Establishments called for in their Circular of the 4th September 1854.

Sir,

I have the honor in reference to the Board's Circular of the 4th September last to forward herewith 3 separate lists as follows, showing the Number of Individuals employed in Police and Revenue duties in the District, both those on Monthly Salary, and those who enjoy only Enams or Fees.

Statements marked No.1 & 2 of persons employed on Salary alone Viz.t

No. 1 Statement of Persons employed on Strictly Revenue duties.—

No. Statement of Persons employed on Strictly Police duties.—

1 List No. 3 of Cavaly Cuttoobady &c.a Servants enjoying only Enams or Fees employed both in Police and Revenue duties.—

The Monthly charges on account of the Servants drawing Salary according to these Accounts are as follows.

As per Statement No. 1 - 1390 - 12,332-7-4
Do. — Do. — No. 2 — 950 - 4158-5-4
Total — 2340 - 16490-12-4

And the allowance of the Servants who enjoy only Enams or fees per Annum are as follows:—

Fort St. George 4th January 1855.

Number.	Number of Villages.	Amount of Assessment & Quit Rent.	Amount of Deductions at present.	Remarks.
1 Cuttoladay	2,746	89,201	85,159	"
2 Cavalee	782	32,028	27,774	
3 Naud Hilary	631	11,569	1,965	
4 Village D:o	4,590	1,04,389	32,039	
Total	8,749	2,87,187	3,73,78	

Fort St. George 4th January 1855.

But some of the Enam lands are waste and the produce of others appear insufficient for the subsistence of the Enamdars. The Statement does not exhibit a correct valuation of the real amount derived from the Lands. But as I have to submit a distinct report on the subject, in accordance with the orders of the Board conveyed in their Circular of the 21st November 1853, I shall say nothing further here.

2. The Board being already aware that many Servants are employed both on Revenue and Police duties, I take the liberty of stating here that among them are included the Tahsildars, Sheristadars, Ameens, Peishcars, Zilladars, Moonshees, Duffadars, and Village Officers.

Bellary, Collector's Office
9th December, 1854.

Signed D. Arbuthnott
Sub Collector and Joint Magistrate in charge.

Fort St. George 4th January 1855.

Bellary Collector's Office 9th December 1854 } E. E. 7th / Signed / D. Arbuthnot Sub Collector in Charge

77-78. Order thereon.

Ordered to lie over

WTP

No. 103.

To

B. Cunliffe Esqre

Acting Secretary to the

Board of Revenue

Fort St. George

79.

Bd No. 12

From the Collector of Bellary.....

Sir

With reference to your circular letter of the 9th Instant

I have the honor to forward herewith the Detailed Summabundy accounts of a Village in Maratta in which language it was originally prepared for Fusly 1263.-

Bellary.....
Collectors Office...
20th December 1854 } / Signed / D. Arbuthnot Sub collector in charge

Enclosure No 1 in Maratta

Ordered

79-80.

Fort St. George 4th January 1855.

Order thereon — Ordered to lie over

Read again letter dated 8th and entered in Consultation

81. 15th November 1854.—

Bd No 49

Proceedings thereon. / The Settlement in

Relative

to the Report Fusly 1263. 31682I_8_5 Fusly 1263 exhibits a

on the manage

:ment of the " 1262 3,10043_4_7 net increase of Rupees

Extra Sources

of Revenue in Nett 678 3 10 678 over that of the

the District of previous year The Collections

Cuddapah for within the Fusly were 9839 Rupees

Fusly 1263.- below the demand but this

balance was reduced to Rupees 941_12_3 by

Subsequent

Fort St. George 4th January 1855.-

subsequent collections up to the end of October.—

2 The Increase in the demand occurred

Abkairy Increase Rs 7194 chiefly in the Abkairy branch A. Talookwar

Statement of the Rents for the previous and Current

years should have accompanied the Report.—

3 Under the head of Sundry Small Farms &c

an Increase of Rs 205 is shewn and a Decrease of Rs

2,483_12_- under that of Stamps.—

4. The Board however observe that the

sum of 2,351_13_9 credited to the former Source

of Extra Collections in Column 9 of Statement

Remarks on Statement—1 IV seems to include a sum of Rupees 2086

8—0 realised as penalities on

unstamped Deeds. If this is the case,

the item falls properly under the

head of Stamps, and its correct

entry in the accounts would have

reduced the Stamp Deficit to

Rupees 397—4 and have converted

the increase of Rs 205 in the Sundry

Sources to a Decrease of Rupees 32.—

The

5 The decrease in the Moturpha is unimportant.

6 The Board observe that the Collector's report is silent regarding the Extra revenue from Sevoy Jumma, the fluctuations in which should have been noticed.—

7 The Collector is requested

To Collector 30th November 1854. to have his future reports written on foolscap paper.—

8 The irrecoverable arrears of Fusly 1262 amount to Rupees 119—9—7 and

and occur only under the head of Moturpha, they will be recommended for sanction in the Board's general report to Government.—

Read the following Papers

Statement.—

82. Bd No 1324

Fort St George 4th January 1855.

Statement Shewing the Quantity of Salt Sold and the Wastage on the quantity Stored in the District of Chingleput for Fusly 1263.—

B.d No. 4464.

From the Collector of South Arcot

Submits Report on the Settlement for Fusly 1263 with the usual Statements and copies of the Subcollectors and Additional Subcollectors Report.—

Sir,

I have the honor to submit to the Board the usual Report on the Settlement of the Land Revenue in this District for Fusly 1263 A.D. 1853/54 and to forward with it the explanatory Statement required by the Board's Circular order dated 13th June 1853.—

2 As I did not join the District as Collector till after the expiration of the Fusly on which I am about to report, I am unable to speak, from personal observation, of its state during that period I shall therefore confine myself, as much as possible, to such remarks as seem absolutely necessary to elucidate the result of the Settlement as exhibited in the Accompanying Statements.—

3 The following table shows by whom and at what places each of the 13 Talooks comprising the District were settled.— Talooks

Talook	By whom settled.	At what place.		
1 Trealloor	Mr. Maltby Collector	Cauchbah Trecallore		
2 Viranchellum	Mr. Wood Sub Collector	1 Do. Viranchellum		
2 Bowengherry		2 Statea Tope		
3 Ellavenasore		3 Cauchbah Ellavenasore		
4 Collacovichy		4 Do. Collacovichy		
1 Tirdevanum	Mr. Forbes Additional Sub Collector	1 Cauchbah Tirdevanum		
2 Trevandy		2 Nellicoopum		
3 Villapooram		3 Palavanore		
4 Chaitput		4 Chaitput		
5 Trenomallie		5 Trenomallia		
1 Munnargoody	Mr. Banbury Asst. Head Assistant Collector	1 Cauchbah Munnargoody		
2 Chillumbrum		2 Ammapett		
3 Cuddalore.		3 Vinjacoopum.		

4 Exclusive of 1010 hamlets this District contains 3266 Villages, out of which 2979. are under the Ordinary & ryotwary Management. The remainder are held on various tenures, and are subject to different Systems of land Assessment.—

5 Among the latter, are 148 of the Villages in the renewed jaghire of Suncapoorum which is being surveyed by Captain Priestley with a view to a uniform principle of Assessment being

being introduced into it. In my letter to the Board of the 20 September 1854 I described the objectionable System of taxation which has hitherto prevailed in this Jaghire and the Board were pleased to direct the immediate discontinuance of the most vexatious modes of raising revenue and to sanction a temporary reduction in the Assessment till a uniform rate can be imposed which will be done as soon as circumstances will allow.—

By order dated 9th October 1854.

Irrigation

6 There are 2574 Tanks in the District part of them receiving their supply of water from the rivers and part of them solely dependant on the local rains. The most important ones are Veeranum under the Coleroon annicut, the Wallaja and Peroomant under the Vellaur annicut, and the Vullavenoor and Pankum connected with the Pomeaur river by means of Channels Besides these there are several other large Reservoirs of the same Kind. The Veeranum Tank is intended to irrigate about 16000 Cawnies of land, and when full is a splendid sheet of water covering an area of nearly 12 Square Miles under the Wallajah Tank there

there are about 1000 Cawnies of land.—

7 The Chief Anicuts are those across the Vellaur and Coleroon rivers in the Talooks of Bowenghurry and Nunnargoody and those at Trevady and Trevandeporum on the Gouddelumpiver in the Trivady and Cuddalore Talooks. In ordinary years a vast extent of land receives a steady and regular supply of water by means of these important works of irrigation and the cultivation under them has been both extended and improved. The advantage which would result from building such works in many other localities is hardly to be calculated. The District abounds in ancient structures of the Kind but they have mostly become useless in consequence of no attention having been paid to keep them in repair. Mr. Forbes. the Acting Additional Sal Collector, has described in his report, the ruined state in which during a recent tour in a part of his charge, seldom visited by Europeans, he found numerous old anicuts and dams

dams which must at one time have been the means of enabling the Ryots to cultivate the adjacent lands far more extensively than they have lately done. Measures are now being taken to have these works Repaired to a state of utility.—

8 Now that the reduction of the land assessment in this District is leading the people to extend their agricultural pursuits it is of vital importance that they should receive a correspondingly enhanced supply of water. which can only be done by restoring old works and by constructing new ones on a liberal scale.—

Season

9 As the District suffered severely from a failure of both the early and the late rains. the season was an exceedingly unfavorable one for the agricultural Ryots In many parts they were unable to bring their fields under cultivation and throughout the District, Crops of all Kinds withered away to a most serious extent, from want of the requisite amount of water. The North East Monsoon was at its commencement very good and the expectations of the Ryots accordingly greatly raised but the total failure of rain after the middle of November destroyed

destroyed all their previous hopes and calculations. The usual consequences followed this failure in the Monsoon by an insufficient supply of the ordinary food of the people and excessively high prices causing the most grievous distress throughout the District, but more particularly among the lower orders of the people who were in general driven to the utmost extremity of want. But for the timely aid afforded by Government in sanctioning numerous works of public utility many would have been utterly unable to have found the means of subsistence.—

10 Fortunately the drought was not followed, as it usually is by any serious sickness or disease breaking out among either the people or their cattle. Upon the whole, the season may be said to have been a healthy one, but the Cholera showed itself occasionally but its ravages were not greater than this fatal malady generally commits in ordinary years, by its periodical visits.—

Prices 11 The prices of all kinds of Grain and agricultural produce were

were excessively high throughout the Fasly but more so during the last six months of it.—

12 The following table shows separately the average prices of Grain during the first and the second halves of the Fasly under report, in comparison with the previous year.—

Average prices in Fasly 1263 during	1st half of 2nd half of											
	year.											
		C	R	A	C	R	A	C	R	A	C	R
White Paddy per Garce	Rs.	220	0	0	158	0	0	62	0	0	96	0

Average Prices in Fasly 1263. for Garce	Rs.	81	9	1	54	1	6	31	9	0	18	1
	"	125	15	3								
	"	72	8	5								

13 These high selling rates were doubtless in many instances of great benefit to the Cultivators themselves but it must not be supposed that they usually derive the chief profit from high prices It is the merchants who are generally the gainers for they ordinarily make their bargains for produce before the Crops are raised or the prospects of the season fully developed Indigo was hardly procurable, for the Crops of it altogether perished, what however, was brought to the market fetched a good price about Rs 194 the Candy.—

Dittum. 14 In a season like the one to which this report refers, it could not be expected that the people would be ready to bind themselves by engagements to cultivate a fixed extent of land as they are required to do by the Dittum rules although when these engagements were entered into, there was no

reason

reason to believe that the season would turn out such a very bad one as it afterwards did. Still there was sufficient to alarm the ryots. The consequence was that the Dittum

15 The Ryots are evidently not well pleased to have to enter into these annual engagements and I cannot say that I think that for several reasons it would be better to dispense with the system of Dittum, and to consider the puttah of one year as holding good for the next one, subject to any additions or reductions which the Ryots may give due notice, within a specified time of their wishes to have made.—

Caboolcat Bunjer

16 The following Table exhibits the extent of land (Caboolcat Bunjer) left fallow in the ordinary course of farming and all other land which from any other circumstances, the ryots omitted to cultivate although they had entered into agreements to do so. The Teerwah on the former would have been permitted under any circumstances lent for the latter, in ordinary years, the ryots would have been required to pay except where they could show that they had been absolutely prevented from Cultivating by circumstances over which they could have no control. The extent of the latter kind of land which was left waste was not so large as might have been

expected in such a year of drought. It amounted to 4,758 Cs — 2½ as in Poonjah, Nunjah, and Totacal, assessed at Rupees 21,131-9-1. In consideration of the badness of the season, the assessment on only 25 Cawnies, amounting to 198 Rupees, was brought into the Summakbundy and the demand on the remainder was relinquished, making with the amount of Teerwah given up on the land left fallow, a Total remission under this Head of 39,937-9-4.

		Cawnies. Cs	as	Teerwah. Cwn	a	p

Decrease.	40585	– 13	– 95485	– 1	– 7

19 In the dry Cultivation there was a falling off to the Extent of 40,585 Cawnies

or

or Rupees 95,485 in comparison with the year before. This decrease occurred in every Talook, varying according to the degree in which rain failed.

Nunjah	Cs	as	Rs	a	p
1262 –	125036	– 5/8	– 1190350	– 14	– 7
1263 –	118509	– 14/4	– 1145393	– 10	– 3
Decrease	8526	– 7/8	– 44757	– 4	– 4.

20. The Nunjah Cultivation amounted to 118,509 Cawnies, while in Fusly 1262 it was 125,036. The greatest falling off took place in the talooks of Rowangherry, Chaittpet and Trinomallie.

Totacal 21 There was a small increase in the actual Cultivation of Totacal land above the last year, amounting to Cawnies 107 – 13 3/8 yielding a heriz of Rupees 2,255 – 5 – 7 as this kind of cultivation is carried on almost entirely by means of water from Wells, it is, to a certain extent, independant of the season, and thus may be extended even in such bad years as the last one.

Vellaur.					
1262 —	6574	– 5/4	– 54,818	– 7	– 2
1263	5521	– 4	– 44,854	– 2	– 6
Decrease	1053	– 1/4	– 9,964	– 4	– 8

been when the people were unable to keep up the Cultivation in such favored localities even to the extent of the previous year - It must however be observed that, had these Anicuts not excisted, there is reason to believe that either the land would not have been cultivated at all, or that a large proportion of the crops would have perished for want of the late rains -

Rufser. 23. Besides the fixed Beriz on the land actually brought under cultivation, the Rufser charged, amounted to Rupees 95,420 as shown in the accompanying Statement - Of this sum Rs. 78,802 were derived from Poonjah land cultivated with Runjah Crops by means of Government water - a considerable portion of these lands will hereafter, by the revision of assessment, be permanently transferred into Runjah -

1262	93,996	12	8
1263	95,420	10	2
Increase	1,423	13	6

Remissions Deductions. 24 The total remissions which were allowed on account of the losses which the Ryots sustained from the badness of the season, amounted to Rupees 2,37,060 - 11 - 9. The greater part of

	Rs	as	p
Remission at 10 per Cent on Poonjah and 5 per Cent on Runjah	1,35,814	1	"
Do for withered crops on Shavy	84,188	15	5
Do Leerwah on Shamalat Bunjer &c	17,057	11	4
	2,37,060	11	9
The usual deduction for allowances of Village Officers &c	207,849	3	10
Total	444,909	15	7

of this sum was remitted under the special orders of the Board conveyed in their letter of the 16th March last, the remainder was granted for uncultivated portions of fields (Shamalat Bunjer) &c - Besides these unusual remissions the ordinary deductions from the Beriz on account of the allowances of Village Officers and the reduced assessment on land occupied by particular castes, came to 207,849, making a total of four lacs forty four thousand nine hundred and Nine Rupees - considering the exceeding unfavorableness of the season the amount of relief granted to the ryots was not, I think, more than was absolutely necessary -

Sugar cane Cotton & Indigo 25. The subjoined Statement exhibits the extent of land grown with Sugar cane, Cotton & Indigo, as compared with the year before -

Statement

The Board will observe the large falling of in the Extent of the cultivation of Cotton and Indigo, in comparison with what it was in Fusly 1262. The failure of the Monsoon rains after the middle of November put it quite out of the power of the ryots to rear such crops. The proper time for raising both these descriptions of produce is towards the close of the Monsoon, but as the seeds are sown on Poonjah land, a fall of rain is absolutely essential to make them spring up. There was not, however, sufficient rain even for this purpose, so that, altho' land was extensively prepared, the seeds were only sown in a very few localities. The greater portion of the Indigo Crop which was obtained in the year was the

the 2nd yield of the plants grown in the preceding Fusly.

Sevoy Jummah

1262 13228-15-11
1263 - 9376-3 1
Decrease 3,852-12-10

26 The demand under the head of "Sevoy Jummah" was 9,376 Pags. as explained in the accompanying Statement No. 23- as the items are all of the usual nature they do not seem to call for any particular remark- The amount for the fusly under report was less than that of the previous year by 3,852 Pags.

Ready Money Collections

Pags a
1262- 91246-6-8
1263- 89,414-4-10
Decrease 1802-1-10

27. The ready Money Collections included in the settlement, amounted to 89,414 Pags, being a little less than they were the year before.

28. The accompanying Statement No. 15. contains a detail of the different items, which do not seem to call for any particular explanation.

Settlement.

29. The following Statement shows, in one view, the settlement in each talook, compared with that of the previous fusly- The gross demand for the year, comprising the fixed Beriz on the land, the ready Money Collections, and Kufeer tax, amounted, in the aggregate, to Rupees 252,0522-1-6- after striking off the ordinary and Extraordinary deductions, as shewn in the Table, the

Settlement 20,75,612

Decrease 3,45,757

the Net Settlement for the whole of the District came to twenty lacs seventy five thousand Six hundred and twelve Rupees, being a falling off of three lacs forty five thousand seven hundred and fifty seven Rupees below the Summahbundy of Fusly 1262.

Sevoy Summah — Land Revenue	9,376	3	1
Sevoy Summah — Extra Do.	1,895	2	7
Total	11,271	5	8
Grand Total	25,21,385	1	10

31. Including the Revenue derived from Extra Sources, the outturn of the year amounted to 25,21,385 as specified in the Margin.

32. Out of the Settlement of Rupees 18,74,796 - 6 - 11 were collected within the Fusly and Rupees 1,71,957 - 3 - 3 have been subsequently realized, leaving on the 31st Ultimo, a balance outstanding Rs. of 28,858 - 7 - 9

33. I do not think it likely that these arrears will be collected in full, but I cannot, at present, speak positively on this point - I am now carrying on enquiries with a view of determining which cases, if any, it may be proper hereafter to

to submit for the indulgent consideration of Government.

Collections of Sevoy Jummah.

34. Of the Sevoy Jummah demand of Rupees 9,376-3-1, the Collection within the Fusly amounted to Rs 6,470-9-1; of the balance Rupees 1,631-5-7 have been subsequently realized and the remainder (Rs 1,274-4-6) is in course of being recovered.

Collections within the year	6,470	9	1
	2,905	10	1
Since Collected	1631	5	7
Net	1,274	4	6

35. The Board will observe by Statement No. 23 and 24 that the arrears of former fusslies (from 1250 downwards) amounted at the close of Fusly 1262 to Rupees 12,1000-7-6 Of this sum Rs 98,028-9-4 were recovered during the fusly under review & Rs 6,864-5-8 (Sevoy Jummah) have been written off in the accounts under the authority of Government dated 16th July 1853. since the close of the fusly. Rupees 70-12-10 have also been realized

Ain	Sevoy Jummah Rs	a	p	Total Rs	a	p

				6,864	5	8
				16107	8	6
				70	12	10
				16,036	11	8

realized, leaving a balance still outstanding, on the 31st Ultimo, of Rupees 16,036-11-8.-

36. No special enquiry having yet been made into these arrears for fuslies previous to 1262, in order to ascertain whether they are recoverable or not, I will refrain from making any recommendation regarding them till I have satisfied myself on the point, when I will submit my opinion to the Board.-

37. The process of distraining personal property for the recovery of the balances of last Fusly was not resorted to in a single instance, neither was the land of any defaulter attached, either for current dues or for old arrears.

38. The Board will observe that the sum of Rupees 1,432-6-10 is entered as irrecoverable on account of fusly 1262, in the appendix A to Statements Nos 23 & 24 partly under the head of "Sevoy Jummah" and partly under that of the regular demand. As after a careful scrutiny, this arrear is shown to be irrecoverable. I beg to solicit the permission of Government to strike it out of the accounts.-

Syen Arrear Irrecoverable	1,270	12	5
Sevoy Jummah	161	10	5
Total	1,432	6	10

There

39. There is also a sum of 815-14- standing in our Accounts as arrears due from the Village of Nadarajapoorum which Mr. Maltby requested in his letter to the Board of the 25.th September 1852 to be allowed to write off as irrecoverable; as however the Board did not include this sum in their recommendation to Government as appears from Extract of their Proceedings dated 16.th June 1853 received in reply to Mr. Maltby's letter, it still remains as an arrear- The omission appears to have occurred in consequence of the Board having been led to think that sanction had been already given for writing off this sum, which was not really the case, as the order of Government alluded to by Mr. Maltby, dated 2.nd September 1852, only gave authority for the continuance of the Village /against which the arrear stood/ on tenure called "Ardha Maniem," but did not grant distinct permission for the arrears to be written off, which I now therefore solicit may be accorded.-

40. No advances of Money were made to aid the ryots in carrying on

their cultivation, and experience is now proving that the former system of giving them has been wisely discontinued.-

41. I beg to annex a Table showing the Charges in the various branches of Revenue as detailed in Statement No.3.-

	Amount of charges		Per centage of charges.-	
	Fusly 1262	Fusly 1263	1262	1263
	Rs	Rs.		
Collecting & administering the Land Revenue	206,404	209,610	8 3/16	10 9/16
Marahmut or repair of Tanks &c.—	57,025	79,035	4 7/8	7 3/4
Compensation for resumed Offices & Privileges &c.—	140,525	145,511	5 9/16	7 5/16
For Collecting Revenue from Extra Sources—	71,639	90,877	15 7/16	20 7/8
Miscellaneous Charges.—	8,920	17,616	5/16	7/8
Total	484,513	542,650	16 1/4	22 3/8

It will be observed that the Total charges for the year under report — — — — — — amounted to Rupees 542,650 showing an increase of 58,137- or 6 per Cent higher than in the former year. The increase in the per Centage is chiefly to be attributed to the decrease in the amount of actual Collections within the year, which were 553,892- Rupees less than in the previous one- The

other

Fort St. George 4th January 1855

other items forming the increase hardly seem to require explanation. The large expenditure on the Marahmut Department for irrigation works was caused by its being necessary to make repairs to the Vellaur anicut, and by the circumstance of an unusually large Number of Tanks and Channels being put into good order. The expense of the Revenue Survey is entered under the head of "Miscellaneous Charges" which has therefore caused a considerable increase in this Item. The Remarks in Statement No. 3 will explain the reason of the increase under the other Heads.—

42. Accompanying I beg to forward the Reports received from

Fort St. George 4th January 1855

from the Acting Sub and Acting additional Sub Collectors, but as I was not in the District during the Fasly under Review, I am unable to add any Remarks upon the Assistance rendered to my Predecessor by his subordinate Officers and Sheristadars—

South Arcot,
Collector's Cutchery,
Cuddalore,

Fort St. George

4th January 1855

Ann 23 Statement shewing the particulars of the Outs it stood at the end of Fusly 1263 in

standing Sevoy Summah arrears for Fusly 1262 as South Arcot.—

Fusly	Items	Amount of arrears amanie	Remarks.
		Rs. A. P.	
	Recoverable	142 3 1	Authority is requested for writing off the irrecover-
	Doubtful being recoverable only after the Settlement of Boundary disputes.	126 4 10	able portion of this arrear amounting to Rupees 141-10-5 the remainder Rupees 268-7-11 being left for future Col- lection or adjustment
	Total	268 7 11	In the Demand Collection and Balance Statement for 11th July 1854 the Sevoy Summah arear of 1262 is entered as Rupees 552-3-3 instead of 430-2-4 as here shown. This arose from the Villapooram Talook Tahsildar carrying to the credit of 1261 a Sum of Rupees 122-0-11 due for 1262 This error was only discovered after the close of the Fusly on making the annual comparison of the Koyzor and Talook accounts and it will be rectified by carrying a Similar amount out of the Collections made on account of 1261 to the credit of 1262.—
Irrecoverable 1262.	By death	3 9 .	
	By desertion	4 8 8	
	By Poverty	145 14 10	
	Total	154 . 6	
	Suspended under order of the Collector	7 9 11	
	Total Irrecoverable	161 10 5	
	Grand Total	430 2 4

Errors Excepted Pr/ Signed/ A. Hall
Collector

To

189

Fort St. George 4th January 1835.

(No. 38.)

No. 1650.

From

A. Hall Esqre

Collector of Salem & Ascot.

To

The Honble. Sir Thomas Munro Bart. &c. &c. &c.
Chief Secretary to Government.

Sir,

1. I have the honor to report for the information of the Board of Revenue, the settlement of the Talooks of Perumandle, Chinglepet, Tindevanam, Villupooram and Tirukoyloor, for the fusly ending Sully last.-

2. The four first of these Talooks belong to the division under my charge as Collector, the last named Talook to Additional Sub Collector, the last named Talook is not in my Division, but was settled by me at the request of the late Sub Collector in charge. The Talook of Perumbore which forms part of my charge was settled by the late Collector Mr. Malet.-

3. The Jummabundy was considered at the Cutcherry station of these Talooks with the exception of Villupooram and Tirukoyloor which the villages of Villupooram and Chel: = ampattu respectively were selected, the former from its size and the convenience it afforded for

for the purpose, the latter Kellicoopum in Trevady is also an important village and was chosen for Summahbundy by the Acting Head assistant, who would, it was expected, have been deputed to conduct the Summahbundy-

4. These five talooks comprise 1506 villages-

5. The means of irrigation population, together with the number of Puttahs and Ploughs in each of these Talooks is as follows.-

Trenomallie is irrigated by 305 Tanks and 131 Channels, it possesses 30 amicuts and 5097 wells and has a population of 89367 persons inhabiting 419 Villages; the number of Puttahs held of Government is 8487 and there are 8317 ploughs-25 Villages are uninhabited, but the land attached to them is partially cultivated by Poracoodies, besides the above sources of irrigation in present operation the following exist. in a useless and ruinous state-

Viz.

Viz. 206 Tanks, 89 River Channels and 34 amicuts, I propose to address to you a separate communication on the state of these and similarly neglected works of irrigation in my Talooks which have many of them been scarcely ever visited by an Engineer Officer- The Summahbundy Beriz of Fusly 1263 is Rupees 97990-

Chaitput is watered by 488 tanks, 37 river Channels and 8831 wells; it has 13 amicuts in repair and also possesses 232 tanks 25 Channels and 6 amicuts in a partially dilapidated state, the population of the talook is 79746 in 415 Villages- 3 being without inhabitants, though partially Cultivated- The Number of Puttahs is 12590 and there are 11053 ploughs- Summahbundy beriz for 1263 Rupees 137547-

Tindevanum possesses 311 Tanks, 24 Channels, 10 amicuts and 3753 Wells, besides the following out of repair- 73 Tanks 5 Channels and 4 amicuts, the population of the Talook is 76770 in 271 Villages- two being deserted

deserted, the number of Puttahs is 13,760 and of Ploughs 12,990. The Summahbundy Beriz of Fusly 1263 is Rupees 17,187.-

Villiapooram has 245 Tanks 74 Channels, 15 annicuts and 5,600 wells, together with the following works out of repair, 76 Tanks, 38 Channels and 7 annicuts, the population amounts to 95,702 persons in 225 villages, the number of Puttahs is 14,846 and there are 14,340 ploughs- Summahbundy beriz of Fusly 1263 Rupees 2,50,110.-

In Trevady there are 94 Tanks, 98 Channels and 2 annicuts, together with 1424 wells- The following are out of repair- 27 Tanks and 35 Channels- The population of the Talook is 74,001 in 121 villages and there are 14,846 puttahs and 14,340 ploughs- Summahbundy beriz of Fusly 1263 Rupees 2,00,220.-

6- The Sanatory state of these talooks during the year was moderately good- no unusual mortality having occurred from any disease, though Cholera occasionally showed

showed itself for a short time- In many places the poor must have suffered severely from want of food owing to the high prices and scarcity of grain.-

7. The season as is well known was one of unusual draught, from the beginning of the fusly during the months when the western Monsoon usually affords sufficient rain for maturing the Cumboo, temay, and late indigo crops, very little rain fell, and both the Cumboo and other grains planted with it yielded a most deficient harvest, the rain of the North east Monsoon commencing in October, ceased suddenly about the middle of November and in some of the inland talooks even earlier, in consequence of this failure not only were the Tanks inadequately supplied for the later Crops of rice which except in favored spots yielded an inferior harvest and in many cases utterly perished, but also the 2nd Dry Crops usually sown in September, such as Kevarou Varagoo &c., and which after the Cumboo form a most important

important part of the food of the poorer classes produced from 1/4 to 1/2 the usual harvest, and in some places withered uncut and were left to be grazed down by cattle.

8. As a natural consequence of the scarcity of grain, prices rose rapidly as the character of the harvest became pronounced, and have since been maintained at a high standard, a memorandum of which for each species of grain is annexed; as usual the advantage of this state of the market was not extended universally to the producers of food, but benefitted chiefly the richer ryots and the merchants owing to the claims which these classes have generally established on the crops of their poorer neighbours by loans; in addition to this however the grain Merchants have been resolute and unanimous in maintaining high prices and some times in with holding all grain from the market, so far as to threaten

considerable

considerable inconvenience and even disorder. I allude to this subject, because it seems to me that though in the present state of communications the distant producer is too much at the mercy of merchants and the latter have it in their power by combination to fix their own prices, it would be possible without any infraction of the liberties and rights of trade, to contribute to public convenience and assist the ryot by instituting weekly markets in every considerable place and in every populous neighbourhood where they do not as yet exist, the existing fairs of the country are well attended and much valued by the people, and I cannot but think their extension would be a public boon, even in the neighbourhood of towns like Cuddalore and Pondicherry, the inhabitants of these places complained loudly of their state of bondage to the larger grain merchants last Season.

10 Per Cent on Poonjah	42,305	13	8
5 Do on Nunjah	23,142	1	6
Total Rupees	184,034	3	2

The

14 The sum remitted on Shavy does not fairly represent the Teerwa of the whole of the grain Crops lost from drought - In the Talookes of Tindevanum, Villapooram and Trevady the entry of Shavy was made with some fairness, although entered upon too late in the Season to embrace the whole, but in Chaitput and Tranomallie this duty was greatly neglected by the Tahsildars and Village Officers, and in the former Talooke great discontent and disorder prevailed during the Jammabundy - The orders of the Board sanctioned remissions on all standing Crops shewn as Shavy, but as the misconduct of the Curnums had almost debarred the ryots of Chaitput from this relief, I remitted, with the sanction of the late Collector, the Teerwah of such Poonjah Crops as appeared from the accounts not to have been reaped at all: the amount thus remitted however fell short of the sums remitted in most other Talookes.

15 The kulsur remissions were chiefly given in Cases where ryots were charged with this tax in consequence of having used, (though to a limited extent, Circar water (as the phrase is) to irrigate crops which were chiefly matured by the water of private wells; in such cases I remitted a fourth, a third, or a half of the kulsur tax according to the extent to which the party had benefited by a Government irrigation work -

16 The other items in the list of remission appear to need no remark -

18 The balance out-
-standing at the close of the Fusly
is shewn in the accompanying
account of demand Collections
and balance, the state of the
Season and the pressure of the
assessment have contributed
to this amount of balance, but
there are cases in which wealthy
Ryots have abstained from
selling their grain in hopes
of reaping a larger profit
from the state of the mar-
-ket, and I have already
issued

Fort St. George 4th January 1855

issued orders for attachment
of the property of such de-
-faulters; there are other
cases in which I apprehend
it will be necessary to
strike off the balance
due, and concerning which
I will address you again.

In

Fort St. George 4th January 1855

19 In collecting the Revenue, I know of no coercive means which have been used except detention in the Talook Catcherry and continual applications on the part of the Revenue Officers.—

20 No Lands have been sold for arrears.—

South Arcot. - - - - - - -

(Signed) A. Hall
Collector

GSF

Fort St. George 4th January 1855.

No. 34.

To A. Hall Esqre.
Collector of South Arcot.

Sir,

I have the honor to report to you the result of the Jummahbundy Settlement for Fusly 1263 of the 4 Talooks forming the Sub Division and beg to submit the usual Statements exhibiting the different items of Revenue together with the Amount of remissions granted in consequence of the Season having been so unfavorable for agricultural purposes.—

A. Aim Jummahbundy Statement
B. Abract Do
C. Comparative Do
D. Extra Collections
E. Sewoy Jummah.

2. As I joined the Sub Division after the Jummahbundy had been Completed by Mr. Wood it is unnecessary that I should go into any lengthened detail not having myself Superintended the Settlement, but I beg to refer you to Mr. Wood's letter under date the 2d of September in which he communicated to you the State of each of the four Talooks from his own personal experience.—

3. In the Talooks of Ellavanasore Cullacoorchy and Virdachellum the Settlement was made at the Cutcherry Stations and that of Bowngherry at the Vellaur Anicut (Shiatopa)

4. The Statement appended to this report shows at one view the Statistical information called for in the Board's Circular letter under date the 14th September 1854 as regards the number of Villages in each Talook and the means of irrigation, together with the number of Ploughs, amount of Agricultural Stock, population, number of Ryots, puttahs &c. This Statement has been prepared from the Talook official returns made to this Office.—

Talooks.

Fort St. George 4th January 1855.-

5. During the early part of Fusly 1263, there were occasional showers sufficient to induce the Ryots to proceed in their Agricultural pursuits with a hope of realizing a good harvest, but the total failure of timely rains to bring to Maturity the Comboo and other Crops which form the principal produce of the Division disappointed their hopes, and the consequence was that the greater portion of the Ryots labor and outlay was irretrievably lost, subjecting them to great privations, this remark is more particularly applies to the Comboo produce which is harvested early in the year and is the main support of the labouring classes- the Ryots were not backward in carrying on their cultivation as early as circumstances would permit in the hopes of being favored with seasonable showers, but from the failure of rain in the months of August and September the dry grains more especially in Comboo Crops suffered- this unexpected failure of the harvest in dry grains caused considerable alarm among the Ryots as to the ultimate result of the year.-

6. The same observations are applicable

Fort St. George 4th January 1855.-

applicable with regard to Manavaree Nunjah Cultivation, much of this description of land is dependant on local rains alone- no means of irrigation being at hand, this land is usually cultivated the same as Poonjah with Cour or Sumbah peshanum; during the months of August and September the lands are sown and frequent rains are essentially necessary to strengthen the young plants until the close of October, when the north east monsoon usually sets in the failure of these early rains in the Fusly under report seriously affected the cultivation of this description of land.-

7. The want of rain also caused a decrease in the Nunjah cultivation- generally excepting those villages under the influence of large tanks, Channels, or other substantial works of river irrigation- Some of these tanks, especially those in the Western Taloods, received their full complement of water during the heavy rains which accompanied the storm in March last year and the cultivation of Nunjah under their influence appears to have been carried on extensively in the early part of

Fort St. George 4th January 1855.

of the year, shewing an increase of Cawnies 585-11 7/8 or Rupees 7220-9-5 in the month of Audy (August), but a very great portion of the Nunjah lands were allowed to remain untouched until November when heavy rainfell in many parts of the District, giving a temporary supply of water to several tanks, when in spite of the season being far advanced and the already crippled state of their means, many of the more venturesome Ryots commenced their Nunjah Cultivation, but owing to the subsequent unprecedented drought, those crops which came to maturity were meagre and scanty and a great portion altogether withered. thus the want of rain unfortunately caused a general failure in both wet and dry crops. as a matter of course at first, the prices of all sorts of grain rose, but it is doubtful if this immediately benefitted the Ryots. in addition to all these difficulties with which the Ryots had to contend the greater portion of the Indigo and Cotton lands were allowed to remain fallow, as the rains,

required

Fort St. George 4th January 1855.

required in the months of December and January to moisten the earth before sowing the seed entirely failed. this was peculiar hardship to the Ryots, as it is in the Indigo cultivation they usually receive large advances early in the year which enables them to pay their Rists. thus the Ryots deprived of all resources found themselves in a helpless condition, and a large portion so far from being able to meet the Government demands were hard pushed for means of livelihood. Some parts of the Division were visited by Cholera, Small pox, and other epidemics and many head of Cattle died for want of forage. as the Settlement was to be made when the Ryots were suffering under the difficulties incidental to so unfavorable a season, it is not a matter for surprise to find a Decrease of Rupees 12,0481-3-4 in the four Taloos as shown below. this includes the large Amount of remission necessarily granted in the Fusly under review.

Taloos.

Poonjah	7087	13	7
Nunjah	9193	10	"
Totacal	99	8	3
Total	16381	"	4

Of this a decrease of Rupees 16,381 — " — 4 appears in the Talook of Bowngherry under the different heads of Poonjah, Nunjah and Garden Cultivation also Rupees 17956 — 2 8 in Poonjah in Vurdachellum in these two Talooks there are large tracts of Poonjah land yielding a large Revenue, and in Bowngherry, there is much "Manavaree Nunjah" which though nominally classed as Nunjah is more properly Poonjah and treated as such there being no regular means of irrigation and entirely dependant on local rains it is obvious how these lands must suffer in a season of drought the remaining amount of decrease is in Ellavanasore and Cullacoorchy both in Poonjah and Nunjah the failure of

Talook.	Poonjah		Nunjah		Total

	Net Decrease				8807	9 "

of rain and the straitened circumstances of the Ryots are the principal causes to which this decrease can properly be attributed—

10 The Podoogal waste is less this year than it was in Fusly 1262, these are lands cultivated with Varagoo in Poonjah and Sugar cane in Nunjah and are allowed to remain waste one year with a view to recruiting the productive qualities of the Soil For the sake of uniformity they are entered in the Dittum though the Teerwah is not charged in the Jummabundy The sum remitted on this account amounted to Rupees 18875 — 15 — 6 —

	Cawnies	a	Rs	a p
Fusly 1263	12288	3/8	17388	1 6

Poonjah	18461	7	8
Nunjah	414	7	10
	18875	15	6

11 The remission allowed on Putcut waste amounts to Rupees 3069 — " — 3 The Ryots from the first evinced a dislike to the introduction of the Putcut system and it was found necessary to enforce the rule by degrees and with some indulgence hitherto it had been the practice in some instances

Poonjah	3182	14	5
Nunjah	1811	15	1
Totacal	74	2	6
	5069	"	3

instances to charge the entire waste and in other cases merely a portion, taking into consideration the season, the circumstances of the Ryot and the reasons which induced him to include this land in this Patent. the Fusly now under review being one so unfavorable to agriculture throughout, it was considered inadvisable to charge for any portions of these waste lands therefore in accordance with the Collectors instructions the abovementioned sum was remitted due enquiry having first been made to ascertain that the lands remained uncultivated from circumstances over which the ryots had no control—

12. The Dittum account shews a decrease of Cawnies 10849-9/8 or Rupees 4209 3 8 7 in the Fusly under review—

Fusly	Dittum				
	Cawny		Rupees		
1262	153331	1/4	79100 4	12	8
1263	142481	8/8	74891 1	4	1
Decrease	10849	9/8	4209 3	8	7

Owing to the failure of the early rains the Ryots were naturally very back-ward to saddle

saddle themselves with any additional

Rs. as p	Rs. a p
11995 1/16	85800—11—5

lands and the fact that no lands were subsequently extensively taken up, is accounted for by the favorable appearances of the season, which led the Ryots to hope that though late there might be an abundant harvest though this hope was never realized—

13. The following Comparative Statement exhibits the several items of revenue and the deductions made, together with the net amount of the Settlement for Fusly 1263—

Brought forward after deducting Damages £ 3781 14 6 — 1492 " 6 — 88 14 3 — " " " — " " " — " " "

Fort St. George, 4th January 1855.

14. The first six items being usual deductions do not appear to require any explanation from me there vary in amount according to the extent of Cultivation there appears a small increase of Rupees 88-14-3, partly in private and partly in public Topes this would show that the people are alive to the advantages afforded them by the recent Tope Rules and we may look for a further increase under this head

Private	43	0	10
Public	45	13	5
Total	88	14	3

15. Under the head of Kattoondoo or Shamelaut Bunjer a sum of Rupees 2126-5-3. was remitted in the Sub Division

Talooks	Amount of Teerwah on Shamelaut Bunjer			Amount remitted for Fusly 1263			Sum Carried to account

hitherto it has not been the practice to remit this item but it was considered that a rigid enforcement of

Fort St. George, 4th January 1855.

of the Hookoommanah rule in this Fusly would press very hard upon the Ryots Much of this Kattoondoo arises from either the defective measurement of the Village Servants or encroachment from the Ryots own ignorance, in the Fusly under review portions of land were laid waste from the utter inability of the Ryots to cultivate from want of means the complaints of poorer Ryots at the time of Settlement pleading their inability to meet this demand were numerous Under this circumstances it was thought advisable to remit the whole

Nunjah	875	0	4
Poonjah	1243	15	11
Garden	8	5	0
Total	2126	5	3

of the Nunjah waste and such portions of the Poonjah Garden waste teerwah, which on due enquiry were found to press heavy upon the Ryots and concerning which complaints were made during the Settlement, the amount of remissions under this head though small in itself afforded timely relief to a great number of indigent Ryots and was the means of allaying much general

general discontent among the people

16. The next item of remission is that allowed on Moochilka waste, which amounted to Rupees 1432-10-0 the remission was urgently called for as from the unfavorable state of the season and other causes the Ryots who had previously bound themselves to cultivate were unable to fulfil their engagements.—

Poonjah	686	14	4
Nunjah	712	12	8
Gardens	32	15	0
Total	1432	10	0

17. Under the head of general percentage remission, a sum of Rupees 52,224-13-6 being at the rate of 10 per Cent on Poonjah lands and five per Cent on Nunjah was granted. The Restrictions conveyed in the Board's order dated the

of the land has to remain fallow for one or two years, otherwise the productive qualities of the soil would be exhausted, the Ryot to have to expend some amount of labor and money in clearing the Jungle, the people themselves are generally poor depending on their daily labour for subsistence. Under these circumstances it is not surprising that a season of drought such as that experienced this Fasly should cause such disastrous effects, and the large Remission appears to have been urgently required to alleviate in some degree the extreme distress of the people, who, in some instances, were reduced to such a state of destitution that in all probability they would have perished or left the Country, had it not been for the timely relief afforded them by employment in the numerous Maramut works in the neighbourhood.

Rufsee 21 A small sum, amounting to Rupees 434-9-6, was remitted on account of disputed Poonjah and Nunjah

Nunjah Rufsee-many of these Poonjah are charged with Rufsee in Consequence of their being situated in the immediate vicinity of irrigation Channels, and the Sirkar Servants include these lands as a matter of Course, under the impression that sirkar water was used for the purpose of cultivation-Complaints against this Charge were investigated, and in all cases where it was not shown that the Ryot had made use of the Sirkar water the Rufsee charged was remitted-

Fort St. George 4th January 1855.

No. 25

To,

B. Cunliffe Esqre

Sub Secretary to the

Board of Revenue.

Fort St. George.

92.

Br. No. 4589.

Sir,

From the Collector of South Arcot

Forwards Tabular Statement and solicits authority for the adoption of the revision of the Salaries of the servants employed in the English correspondence Department.

Para 1. As the Translatorship in this Office has become vacant by the appointment of the present incumbent to a situation in the Civil Court of Combaconum, I take the opportunity of Soliciting authority from the Board of Revenue for the adoption of the following revision of the salaries of some of the servants employed in the English Department which would, I think, be more equitable than at present, and at the same time tend to make the Establishment more efficient.-

2- As my proposal does not involve a greater aggregate expenditure than is already sanctioned, I trust the Board will see no objection to accede to it.-

3. To elucidate my object, I beg to submit the accompanying Statement, shewing the persons to whom I allude in the English Department

Department of the Office with the present salaries drawn by each, and the amount I propose giving them.-

4. The Board will observe that the Head Writer receives only 55 Rupees a Month, while the Translator and the 1st Writer in the special Agents' Department draw respectively 70 Rupees. The former has certainly the most responsible and arduous duty to perform, for the work which devolves upon the two latter is, comparatively speaking, light and easy, especially in the special agency.-

+ To the French Government.

5. The chief amount of Translations to be done is in the Maramut Department, which is not so difficult as to require the services of a first rate Translator, or to occupy all of his time.-

6. In consequence of the salaries of these two persons being higher than that of the Head English Writer, they are, in a manner placed in a position independent of him and do not necessarily render that aid in the current work which they might and would do if placed more under him.-

7. I would therefore propose that the Head English Writer should draw a salary of

of 75 Rupees a Month, and that the pay of the other two should be reduced to 55 Rupees each. The remainder of the amount so deducted should I think, be distributed, as shown in the accompanying Statement, in order to raise somewhat the pay of those Writers where it seems to me to be too small, with reference to the work they perform.-

8. This arrangement, if sanctioned by the Board, would, I feel satisfied, have the effect of rendering my English Establishment more efficient than it is now, by bringing it under the supervision and direction of one head person instead of its being divided into separate independent Departments, while the adjustment of pay would be more in proportion to the work performed by those who come under the revision, than their present allowances are.-

South Arcot,
Collector's Cutcherry,
Cuddalore,
29th November 1854.

From the Collector of South Arcot.

Sir,

With reference to my letter of the 7th November No. 199, I have the honor to state, for the information of the Board and of Government, that all the parties connected with the religious Institutions, 39 in number, where the Swinging Festival has been hitherto celebrated have signified, in writing, before me, their consent to put an entire stop to it for the future.-

I anticipate that the ceremony will therefore cease to be practised in this District.-

B. No. 3843
From the Collector of Tanjore-
Informing.-

To B. Cunliffe Esqre
Sub Secretary to the
Board of Revenue in charge
Fort St. George.

Sir,

I have had the honor to receive an

In forming that as the Combaconum school will be sufficiently afford education to the minors of Tanjore, and that there is no necessity of their being sent to Madras -

an extract from the Board's Proceedings dated the 5th instant.-

The minors now under the charge of the Court of wards in this district are Chendracasha Moopen a meerassdar holding 612 valies of land in Papanassem and Combaconum Tolooks, and Atchoodapundarathar and Ragoonathapundarathar, the Poligar of Gundracottah and his brother Chendracasha Moopen is 12 years old and is an intelligent and fine boy, he has had a tutor for some time and is able now to read English fairly and to converse with those he is familiar with. for some months he has resided at Rellum, to which place I removed him from his own village, in order that I might more frequently ascertain his progress, & prevent his being spoiled by the over indulgence with which his mother was disposed to treat him. At Rellum I associated him with the Gundracottah minors, and hoped that by placing them together, all would be stimulated to exertion. but these two boys are very backward, and

and I fear naturally dull, and I have wished that they, as well as the young Moopen, should be subjected to more constant control than I am able to afford, and be placed under a more efficient teacher than I have been able to procure. accordingly I very lately determined to place them all in the Government school at Combaconum, which, under a University man lately arrived from England, is in a very few days to be opened. Chendracasha Moopen has already gone to Combaconum, his mother entirely coinciding in my views for the future tuition of her son, but the mother of the Gundracottah boys has made so much opposition to the measures, that they have not yet departed. one of them indeed has been slightly unwell for a few days, which has prevented me from carrying out my resolution. Their mother has written to me that she shall consider her sons as disgraced for ever if they be sent to a public school, and has called upon me to maintain their exalted

rank E

Fort St. George 4th January 1855.

rank & dignity" by retaining them under private tuition. The boys are of the Culler Caste, and can cer:=tainly lose nothing in manner by associating with the many well bred sons of the native gentry of Tanjore and Combaconum who are now flocking to the public school, and the very reasons assigned by their Mother as those which should guide me in retaining them here, are exactly those which lead me to believe that it will be very much for their benefit to go. I have inform:=ed her therefore that I am unable to attend to her remonstrance & that I shall adhere to my previous determination.-

I think that the school at Combaconum will afford an education sufficiently liberal for those three boys, and that it will not be necessary to send them down to Madras.-

Tanjore Vellum, 11th October 1854. } Signed J. H. Forbes Collector

Proceedings Relative to the Report on the Extra Sources of Revenue for that district for Fusly 1263.-

Read again report from the Collector of Trichinopoly dated 22d July and Entered in Consultation 26th October 1854.- thereon.- The Net result of the year gives an increase of Rupees 5,058 over the preceding Fusly as shown in the subjoined comparison.-

	1262	1263	Increase	Decrease
Abkary	24,610	27,170	2560	"
Small farms and Licences	4269	3363	"	906
Jungle rent	"	1000	1,000	"
Moturpha	6770	6562	"	208
Stamps	23802	26415	2613	"
	59452	64,510	6173	1114
Net Increase		5058		

The Collector points out that the above result is exclusive of the Mootah of Kautoopoattoor lately added to Trichino:=poly from Salem. The Board presume that hereafter there will be no occasion for the accounts of this Mootah being kept separately and in this case wish them hereafter to be blended with the general Statements of the District.-

2. No details are given to show the nature of the items entered under the head of Small farms and licences

Fort St. George 4th January 1855.

licenses, or the number of looms and Bazaars upon which the principal portion of the Moturpha revenue is said to be levied. In future it is requested that these particulars may be given with explanation regarding any marked fluctuations which appear in the items, when compared with the returns of the preceding years.-

3. Of the total demand for the year which, omitting Kautoopootoor, amounted to Rupees 64,510-8-8, the Sum of Rupees 61,632-4-10 was realized within the fusly thus leaving a balance 2,878-7-10. Of this arrear, it is expected that Rupees 1,598-7-10 will be immediately collected & the Collector reports that the remaining Sum Rupees 1280 which is due under the head of Abkarry is irrecoverable. Before however acceding to the Collector's recommendation for obtaining sanction for writing off this arrear, the Board wish to be informed what precautions were adopted to take proper securities from the renters of the Conandtaloor whose default has led to this arrear before they were placed in possession of the farm.

4. Statement No. 3. requires alteration. Instead of showing only the Demand Collection and Balance of the year, as

Fort St. George 4th January 1855.

compared with the previous fusly, it is wished that the particulars of Collections, arrears, current, and total should be exhibited in it.-

5. It is observed that no balances are outstanding under any of the heads of Extra revenue for years previous to the one under report.-

B. No. 4178
From the Collector
of Madura

Solicits Court of Wards' Sanction for the Surrender to Madwa Row of 24 Shares in the Village of Peramanoor in the Shevagunga Zemindary and to refund to him Rs 69-13-1 the net Collection from the land after deducting Quit Rent.—

Sir,

1 I have the honor to solicit the sanction of the Court of Wards for the surrender to Madwa Row, brother of Raghavendra Row, of 24 Shares of the Village of Peramanoor in the Shevagunga Zemindary, now under sequestration.—

2 Peramanoor is an Enam Village paying quit rent, and, has now been ascertained by Examination of accounts and enquiry, these 24 shares were acquired as a private separate property of the Zemindar (Vellakragem) in the time of Chinna Murdoo, the Zemindar's Minister (afterwards a Rebel) before the Permanent settlement.—

3 In January 1834 the Zemindar Bodoogoorooswamy Taver sold them for 2,100 Rupees to Raghavendra Row, who and his brother enjoyed them from that time till Fusly 1263.—

In

4 In Fusly 1248 when the Zemindary was under sequestration, owing to the Law Suit between Ungamootoo Nachear and the Zemindar, these shares were Zufted with other grants on her motion to the Sudr Court; they were restored when the Estate was made over to the Zemindar, and again attached by my order, when on the Estate being taken under the Court of Wards in 1849 all alienations were placed under temporary sequestration pending enquiry.—

5 Raghvendra row is dead. The documents possessed by Madwa row his brother clearly prove the purchase; and the property (over and above the quit rent or which will continue to be paid) not being included in the assets of the Zemindary his right to repossession seems to be plain and decided.—

6. The Net Collections from the land after deduction of quit rent Fcs amounts to Rupees 69-13-1 which I also request sanction to refund

B. No 4414

From the Collector of Madura

Represents that the Post Master General refuses the free transmission of Public & Correspondence from Zemindars, and solicits a representation to Government in order that the Subject may receive Consideration.—

Sir,

I deem it necessary to bring to the Notice of the Board a hardship which the new Postage Act and Rules occasion Zemindars, and from which the Post Master General, in answer to a representation from me, has stated his inability to relieve them - The Board of course, are

are still less competent to direct any modification of Postage Regulations, but if they concur with me in thinking the hardship real, they will perhaps, represent the matter to Government, in order that, when any revision of these Rules is in contemplation, the case may be taken into Consideration. —

2 Prior to the promulgation of the new Postage Act, it had been the immemorial custom of this District for the correspondence to and fro between the Offices of the Collector and the Zemindars to pass free, although conveyed by the regular Dawk. It is now declared by the Post Master General that all letters &c despatched by Zemindars to Public Officers must be prepaid. —

3 As regards letters and Urzees which Zemindars write for their own purposes this does not seem inequitable; but a good deal of the correspondence with them takes place for Government objects, such as, the obtaining accounts and information on questions put by the Board - or for the purpose of nominating Village Moonsiffs. It is cuitiby on the part of the Zemindars to furnish such accounts, and reply to all questions, and it seems a hardship that in so doing they should incur a Postal charge in

in addition to trouble and expense in writing. There is another consideration which would lead to indulgence to the larger Zemindars in this respect - the Ramnad and Shevagunga Zemindars for instance - Not only does the Government enjoy the benefit of their Talook Tappals for the distribution of letters brought by the regular Dawk, but actually receives the postage on private letters carried by those Talook Tappals. —

4 Perhaps this arrangement may be deemed fair to both parties - That the answer to any communication made by the Collector for Government purposes should be sent by the Zemindar bearing. For such letters double postage will be charged by the Revenue Department. The objection to this plan is that the Zemindars may take advantage of this permission to send communications of other descriptions "bearing," that the nature of the contents cannot be known before the letter is opened - and that it is then too late to reject it. —

/Signed/ R. D. Parker
Collector

Madura ----

B No 22
105-106.
Proceedings thereon.

The Board conceive that the simplest

simplest mode of overcoming the difficulty brought to notice by the Collector in the foregoing letter is for him to authorize Zemindars, if he thinks proper, to prepay the postage of such letters on the public service, as they cannot be expected to pay on their own account; and to furnish a statement of such disbursements periodically to the Collector, who will adjust the same from the contingent account. By a system of this Kind, the double payment will be avoided, and the Collector can provide against the Government being charged with any postage which they should not properly be required to pay.

B. No. 1614

From the Collector
of Coimbatore } Sir,

Reports the sale by Mr. A.R.W. Lascelles the Forest land improperly purchased by him from the Coumbers on the Hills to Captain Gerard.—

On the 20th March and 16th June last, I reported to the Board the Circumstance under which Mr. A.R.W. Lascelles had appropriated a track of Forest land on the Coonoor Ghaut from the "Coumbers" (or rather Government) by giving the Coumbers 50 Rupees for land they had no possession of; or right to sell— the land was taken possession of, the wood there Forest partially cleared, without any authority as Read, or given. The Board in their Proceedings of the 29th May and 10th July last, repudiated Mr. Lascelles alleged purchase— he

has nevertheless sold this tract with the rest dated 13th November 1854 herewith Sent
of a Coffee Estate, to Captain Gerard for a large Sum, including (as the Board will observe from Copy of Mr. Lascelles Memorandum,) the land alluded to— Captain Gerard now begs to be allowed to occupy that land, on the ground of the large sum paid for it.— on the ground of the large sum paid for it.—

The land was no doubt improperly
2 acquired by Mr. Lascelles, but it has been now cleared, and is useless as Forest, and Captain Gerard had nothing to do with the way it was appropriated; and the Coumbers are willing to give it up— I beg therefore to recommend that Captain Gerard be allowed to hold it, and have it included in any future Survey, (one of the many waiting for a Surveyor) of his property.—

From the Acting Collector of Madras }

Requesting orders on the subject of forming a Prickly pear hedge around the Vullaor Pans

Acted by 4th October 1854 to be returned

Sir,

I have the honor to request the instructions of the Board upon the proposition contained in the accompanying report from the Superintendent of Salt for placing a Prickly pear hedge round the Vullaor pans at a probable cost of 185 Rupees. Mr. Campbell at first recommended the cost to be borne by the Manufacturers to which it seems they have at last consented. But he now is in favor of Government defraying the Charge.

2 There can be no doubt that a hedge is highly desirable, but prickly pear propagates itself so rapidly as to become a serious nuisance in a Village, and I should think some other plant preferable. As the Chingleput Manufacturers have received a large boon in the increased rate at which they are now paid,

Coodewarum former rate per garee — 3 Rs 9

No 405

To H. Stokes Esquere
Acting Collector of
Madras

Sir,

Para 1. With refernce to your Memorandum of the 29th August desiring me to quote date of former reference, and if necessary, to make a separate application stating the Estimated cast of the propo=sed Fence, or prickly pear hedge at Pullaor, and the grounds on which the Ryots should pay for it— I have the honar to enclose the accompanying Tamil Report† and Estimate framed by the Ameen at my direction, with an Agreement from contracting parties, named by myself, who consent to undertake the work for Rupees 185, to be completed within 25 days from date of order, Sundays and Rainy days excepted

2 No praposal for the hedge was previously made, that I am aware of, and I therefare quote no previous papers

† To be returned when no longer required—

Fort St. George 4th January 1855

papers. The suggestion was from myself to the Ryots, and was first mentioned in person, as a precaution against smuggling, as well as a preventive from the dust, which spoils the appearance of the salt, and was afterwards notified to them all thro' the Ameen—

3 Some hesitation having been evinced by several of the Ryots, in consenting to defray the expenses, the parties were personally spoken to by me, when they came down here for their boodewarum and they are all now convinced that if the Hedge is planted, it would be beneficial to their interests in securing their Salt from plunder, and in conducing to its finer colour, and quality— on the latter point, I need only refer to the Reports on the Manufacture of Salt in 1820/21 printed by the Board— In Nellore the preservation of Salt from dust was thought to be essential, and the finest was produced at Pans surrounded either by Jungle grass or swamps, whereas others that were surrounded by Red or black dust, which covered the Pans when the southerly Winds blew, destroyed the colour of

of the Salt. In. Covelang the beds of sea sand around the pans at one time, prevented a bad colour, and the Printed Report on Salt of the Inspector-General, in para 40 states that, where the winds prevail with violence, if there is brushwood or Jungle to afford shelter, larger crystals will be produced.—

4 Another reason for my making the proposal was to have a fixed boundary or limit to each Division of Pans, where there are at present no land marks, and no accurate measurement of the land in possession of each holder, and thereby to restrict, as far as the means in my power admitted, the undue extensions of Pans, beyond what are registered in the names of each holder.

5 These are the grounds on which I would suggest that the outlay for the Hedge should be undergone, and it was my intention after the one at Vellaar might have been raised if found to afford the benifits I anticipated, to extend the Hedge on the west of the Attipet and Poorthemauk Pans also

also for their protection.—

6 As all large works for the Salt Manufacture of Madras have hitherto been undertaken at the Ryots cost, I at first proposed that they should pay for it, and as the one now suggested will not amount to more than Annas 4-2¼ per Pan I would submit, rather than that the Circar should recour such small sums from 140 owners of 707 Pans, keeping accounts of Advance and recovery, and render them to the Hoozoor, whether it would be better to evince a more liberal spirit to the Manufacturers, and induce them after the outlay had been once made by Government, to bestow still greater care in the quality of the Salt than they have done hitherto, although that of Fasly 1263, from Vellaar, showed a marked improvement.—

Madras Cotaur, 31st October 1854 } I Signed I R. P. Campbell.

consider the planting of prickly pear hedges objectionable they also think that in the present unsettled state of the question as regards the continuance or otherwise of the Monopoly, the proposition of the Superintendent of Salt had better lie over for the present—

To

E&G

No. 221.

To,

B. Cunliffe Esqr.
Sub Secretary to the
Board of Revenue.

17

B. No. 4505.

From the Acting Collector of Madras.

Submitting Mr. Walker's further explanation on the progress of the St. Thomé Survey, and offering observations thereon.

Sir,

1. As required in your letter of the 16th Instant, I have the honor to submit herewith a further explanation from Mr. Walker on the progress of his Survey of Saint Thomé, together with the papers furnished by him.—

2. It appears that about a third of the area of Saint Thomé has been Surveyed and plotted, and that the papers alluded to by the Surveyor were his Traverse sheets which Mr. Bayley had desired to see.—

3. The Surveyor was requested from the commencement of his work to report progress each Saturday to myself. This he has not regularly done, having at times stated various hindrances to his coming here. I was also under the impression that he kept Mr. Bayley informed of his operations.—

4. In explanation of my remark which is noticed in Para 4 of your letter, I beg

to

to state that I meant to recommend an extension of the principle recognised, as concerns houses, in para 4 of the Board's instructions. The Surveyor is there directed to Survey a block of houses and fill in the details from the measurements of this Office. It occurred to me that the same might be done as regards for instance a tract of Paddy fields. I referred to the results cited by Mr. Walker as shewing that our existing measurements of lands borne in our accounts are tolerably correct. I find however I overlooked the fact that there are many discrepancies between the Office measurement and the Surveyors in the particulars, which balance each other in the total.

Dated 10th March 1854.

5. It appears from Mr. Walker's present explanation that he has departed from the rule given even in respect of houses. He says he did so, as there are invariably some holdings the area of which is not known. I do not however understand why this obliged him to measure those houses where it was known.

Madras
25th November 1854.

(Signed) H. Stokes.
Acting Collector &c.

Enc: 1.

To,
The Collector of
Madras.

Sir,

In forwarding the information required in the Board's letter of the 16th instant, I beg leave to state that I should have done so when sending in my former report had I been able to do so. As to the total area of the Division, of this I am quite ignorant, as there are portions of the northern boundary which have yet to be pointed out to me: the main Traverse area however amounts to 3,090 Cawnies 18 grounds, 1,652 feet, and as the additative and subtractive offsets will be pretty nearly equal, the area of the Division will approximate to this amount.

2. The actual amount of land measured when sending in my report (exclusive of the roads, Channels &c. which have not yet been computed) was 935 Cawnies, 20 Grounds, and 1,680 feet, in addition to 47 holdings, the areas of which were not then computed.

3. The same quantity of work was actually plotted as I make it a practice to plot immediately

immediately what has been surveyed - It has been my custom to plot my work in small portions and on my completing one of the secondary Traverses to transfer these Plots to the Plan sheets. To these plans nothing has been done beyond marking in the boundary of each holding in ink, this has been done as the work proceeded - To finish them as I go on would not only retard the work, but I should have to finish a portion of one sheet, and then a portion of another, as some part of each traverse falls on one, two or more sheets, and this system I could not follow more especially as the plan on these sheets has to be reduced to a smaller scale as the Map and by finishing the sheets my working lines would be lost or at least they would have to be drawn again which would take some time -

4. On referring to my report, I do not observe that I made any allusion to any papers which I was employed upon for Mr. Bayley, but in a former letter I believe I said, I was busy upon such papers, these papers were the Traverse sheets which Mr. Bayley had expressed a wish to see; they have (with the exception of the off set calculations) been finished for some time, but Mr. Bayley had in

in the meantime been appointed to the Board, I did not send them to him - I did not refer to them in any way as an excuse for being behind hand with my work, for with the difficulties daily met with, the delays which occur while occupants are settling boundary disputes, being detained before admittance is granted into the back grounds of native dwellings &c. I do not consider that I am in arrears -

5. Since making my report up: wards of 1100 holdings have been surveyed, and the areas computed; the extent of land however has not been great as the most of these Nos. were small street holdings in St. Thomé - Each of these have had to be taken separately, as I have not yet met with a single block that I could take in one measurement, as there are invariably some holdings the area of which is not known -

6. I herewith forward the traverse sheets for inspection, but as the plans are unfinished, I do not know whether they will be required -

Saint Thomé
23rd November 1854.

(Signed) W. H. Walker.
Revenue Surveyor.

Ordered to be submitted to Government with the following letter.—

To

To The Chief Secretary to Government.

Sir

117-118.

Bd No 60

To the Chief Secy to Govt

Submitting with reference to the order of Government of 6th January 1854 correspondence with the Acting Collector of Madras regarding the progress of the Survey of the Mylapoor Division of that Collectorate recommending that the Establishment should be continued for a further period of Six Months & that Mr Walkers Operations should be placed under the exclusive control of an Officer of Engineers & Suggesting the Adjutant of Engineers as one who might properly be selected for this duty.—

Encl 1 in From Madras 25th Nov 1854 in lieu 4th January 1855—

Para 3 of Enclose 1 in From Coll Nov 25th 1854 in lieu 4th January 1855—

With reference to the order of Government noted in the margin, I am instructed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying correspondence with the Acting Collector of Madras respecting the progress of the Survey of the Mylapoor Division of that collectorate.

To Coll^r March 16th Nov^r 1854 (No 579)
To D^o October 9th " (No 2221)
From D^o 8th in lieu 16th Nov^r 1854 (No 4218)
To D^o Nov^r 16th (No 2846)
From D^o ____ 25th Nov^r 1854 in lieu 4th Janry 1855 (No 4505)

2 It will be seen that Mr Walker has surveyed an area of 936 Cawnies out of about 3090 the supposed extent of the Division. In their letter of the 16th November the Board desired that any Maps of his work which he had made should be laid before them, but none have been sent up and it appears that the plans are in a backward state. In the same letter the Board expressed dissatisfaction at the smallness of the progress made and the explanations offered in reply are far from

from being satisfactory.—

3 The Board are of opinion that the work ought certainly to be proceeded with: and the sanction for the Establishment having been given for six Months only- they beg to recommend that it should be continued for a similar period But the previous Correspondence makes it evident to the Board that the Surveyor needs to be under more active superintendence than the present arrangements permit The work of Surveying is foreign to the pursuits of the Collector and he is not competent to direct such operations efficiently, and to an associate body like the Board, the work of superintending such details is still more strange and impracticable, even if it could with propriety thus invade the province of a Subordinates Office. It is the Boards decided conviction that any Survey ought to be conducted under efficient Professional control and guidance, and that the present operations though on a limited scale form no exception to this rule. This Survey is in one respect peculiarly important viz.t on account of the high value of the land concerned the

+ outlay up to November 8 2810 Rs. see P.3 Colr's letter of that date—

The Government are incurring a considerable expense for it+ and it is both desirable for the avoidance of needless charge that the operations should not flag and it would be mortifying to find after all that the expenditure has been wasted— In pursuance of these views the Board strongly recommend that Mr. Walkers operations should be placed under the direct and exclusive control of an Officer of Engineers. They apprehend that to such an officer the work of Superintendence would not involve the consumption of much time as Mr. Walker is believed to be fully competent as a Surveyor and that probably, therefore, the task might be devolved on an Officer already holding office at the Presidency. They beg to suggest the Adjutant of Engineers, as one who might properly be selected for this duty.—

4 To prevent misapprehension I am instructed to add that the Boards Secretary Mr. Bayley who took a personal interest in this Survey expressed his concurrence before his late departure on sick leave in the expediency of thus placing Mr. Walker under the Supervision of a Commissioned Officer, &c

adding

adding his opinion that no other kind of Supervision would be of use.—

No. 237

To
B. Cunliffe Esqre
Acting Secretary to the
Board of Revenue

Bd. No. 4713

From the Actg Collr of Madras

Requesting the Boards orders on certain items of charge on account of Salt to Messrs Bainbridge & Co at Madras—

Sir

With reference to the principles on which the Board have directed that the accounts for the sale of Salt at Madras to Messrs. Bainbridge and Co should be adjusted, I have the honor to bring to their notice that on the two occasions that Salt has been sold to them 4,00 Indian Maunds of that article were at first supplied by bringing the Salt from the Ennore store, while on their second application a further quantity of 2750 Indian Maunds was delivered to them from the store at Madras.—

2 In making up the accounts for these two

two Sales, a Doubt has arisen as to whether the charge for loading the Salt Boats at Ennore and unloading at the Madras Cotaurs should be incurred on both the above transactions

		Hire for loading Salt in the Boats at 7 As 6 Pice per 120 Indian Maunds	Hire for unloading Boats & lading carts at 8 As per 120 Indian Mds
I	1 Mds		
Charge for Shipping of Salt from Ennore	11,00	5, 7, 6	5 13 4
III	1 Mds		
Do Do of Salt from Madras	2750	10, 11, 10	11, 7, 4

3 The charge on both these items is shewn separately in the Margin. In the first case, as the charge was actually incurred, it would appear but just on the principle laid Down by the Board that it should be debited to Messrs Bainbridge & Co but in the latter it is questionable whether it should properly form an element in the account as the Salt actually sold was not brought Down from Ennore but was what was in store at Madras and originally brought from the Pans; tho' as Ennore is the station from which Salt is available for Exportation, it becomes Doubtful whether the Salt delivered should not be considered as Salt that had come from that depot.—

4 The Superintendent of Salt interpreting the orders of the Board literally, considers that these charges should not be

Debited

Fort St. George 1th January 1855.

debited to Messrs Bainbridge and Co because as he says as they were not actually incurred they could not have been saved to Government.—

5 The wording of the Boards orders referred to I conceive had reference to the particular case before them and that was the case of 1100 Indian Maunds of Salt brought down from Cumore for Messrs Bainbridge & Co and did not contemplate the supply of Salt from what was in store at Madras.—

6 It appears to me that in this case adopting the principle recognized by the Board the debit to Messrs Bainbridge & Co should include all the charges that Government incurred for the Salt actually delivered to the Shipper. If that Salt had been brought from the Store at Cumore all charges that it would have incurred should form the debt, and if from that at the Madras Store, all such as it would have cost in having been brought from the Pans.—

7 If this view be correct then as the charge for loading the Salt Boats at the Pans is borne by the Manufacturers, and not by Government it would be necessary to omit this item and include

Fort St. George 1th January 1855.

include only that for unloading at Madras which is the only charge incurred by Government.—

8 As considerable difficulty has been experienced in adjusting the accounts with Messrs Bainbridge and Co and Venkatareddy for their Salt transactions at Madras, I trust the Board will excuse the reference now made, and furnish me with early orders on the Subject.—

Bt. No. 44 Dt.

From the Military Board

Requesting to lay the enclosed Copy of a letter from Lieutenant King Ordnance Officer Vellore on the subject of Moturpha Tax levied on the Iron Smelters before the Board of Revenue and recommending that the Tax be removed

Sir

The Military Board will feel obliged to you to lay before your Board the enclosed copy of a letter from Lieutenant King Ordnance Officer at Vellore, on the subject of the Moturpha Tax levied on the Iron smeltors.

The Military Board desires me to state that the prospect of supplying Tools for the Public Works is so promising as to allow of expectation being held out to the Government that the demands for Tools on England may probably be entirely discontinued, it is therefore of great importance that every obstacle however trifling should be removed to enable the Military Board to bring their arrangements to a satisfactory conclusion

With large orders for Tools there can be no difficulty in providing Workmen if certain of constant employment and with the full expectation of 200,000 or 300,000 Tools of different Kinds being annually required for the Public Works the greatest want will be Iron

As

Fort St George 2d January 1855.

As we cannot expect to obtain Iron from England less than from £10 to £13 per ton and the cost of conveyance into the interior will add considerably to its price, whereas this Board have confident hopes that supplies of Iron in almost unlimited quantities may be obtained in North Arcot.

The great defect in the supply is the limited number of persons engaged in the Iron trade, and as far as can be ascertained, is owing to the levying of the Moturpha Tax on certain persons who devote themselves to the business, but being in an almost isolated state these people must necessarily be slow in extending their business if the trade tax could be removed, it may be reasonably hoped that other classes would enter into the Iron trade when not liable to be rated for the annual trade Tax.

The Iron is of excellent quality as reported by the experienced European Superiors in the Arsenal, but it is exceedingly defective in preparation and this can only be rectified by bringing new classes into the business.

The Military Board would submit for

Fort St George 4th January 1855

for your Boards consideration, that if the Moturpha Tax could be removed altogether, the supplies of Iron would be augmented, or if the Tax could be levied on the Tools manufactured in the Vellore Arsenal the increase of Cost per Tool would be insignificant, and more than covered by the reduction in the price of Iron resulting from competition, and this must arise if from 30,000 to 50000 Tools can be made up from Country Iron at Vellore.

To,

The Secretary to the
Military Board
Fort St George

Sir

In answer to the 2d Para of your Memorandum No 3975 and dated 10th October 1854. I have the honor to state for the information of the Military Board that Mr Sullivan has informed me that the tax levied upon Iron Smelters is under the tread of Moturpha and

is

Fort St George 4th January 1855

is on their furnaces in the same manner as upon Oil Mills and Weavers looms Mr Sullivan also states that the abolition of the Moturpha taxe is and has for some time been under the consideration of the highest authorities and that it is most likely it will ere long be abolished.

Mr Sullivan is I am happy to say exerting himself to get in good malleable Iron and from two samples I have seen I am in great hopes he will succeed; but I apprehend that the best Country Iron that can be got will give more wastage in working it up than Europe Iron however I am in hopes that the time is not far distant when we will be able to get it really good and cheap.

Mr Sullivan has several times expressed to me his opinion that by bringing the experience of some European, tolerably acquainted either by trade or by personal observation with the method of smelting Iron at home from rough ore to bear upon the very simple method used in this Country, some improvements in the way of flusing draught of furnace and cleansing iron when in a state of fusion might be taught to natives which would enable them to turn out much better

Iron

Fort St George 4th January 1855

Iron than they now do

Some such persons

of steady habits

might be found

amongst the

Military Artificers

of the

European Soldiers

of
