To

G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George

Sir

B. No. 2934

From the Collector of Chingleput

Para 1. With reference to Mr. Cunliffe's letter of the 18th January last I have the honor to forward herewith a statement shewing the fees claimed by the Curnums of Conjeveram Cusbah from the payers of the loom tax, Moturpeah on shops and houses, as well as from other sources.

2. These fees are not general in this District, but are confined to the Pettahs or hamlets forming the town of Conjeveram, where in the absence of any Land Revenue, the Curnums have no other means of deriving an income. Their right to the fees is founded on long usage and is supported by the accounts of their emoluments prepared in the year preceding the permanent settlement which state that they were entitled to a fee of two fanams on each weavers house. But since the revival of the loom tax in Fasly 1252, the

Recommends that 4 per cent on the annual Collections from Moturpha may be given to the Conjeveram Curnums in substitution of the fees levied by them from the Moturpha payers.

Fort St. George 13th February 1856

the Curnums would seem to have claimed the same rate of fee on each loom several of which are worked under the same roof.

3. At a time when the Moturpha had but a partial operation and was inconsiderable in Amount these fees may have been paid with ease. But now when its is generally and strictly enforced and forms a considerable sum and a uniform money tax is also fixed on the trees, in lieu of their produce being divided as formerly, these fees are regarded as a peculiar hardship, and it will I think be but fair to abolish them in Conjeveram where they alone prevail any Remuneration considered necessary for the Curnums in addition to the backyards which they enjoy rent free as shewn in Col. 15 of the Statement, being borne by Government as charges of Collection.

4. The duties at present devolving on these Curnums in the preparation of the numerous Moturpha Puttahs, receipts Tendal, Populations, statements &c. are very heavy and are performed by them with the aid of additional hands. I would

Fort St. George 13th February 1856.

would therefore beg to recommend that a remuneration equal to 4 per cent of the annual collections from the Moturpha and the tax on trees be deducted from the Gross Beriz and paid to them. This would give them on the average of the last five revenue years Rupees 526-4-4 a sum nor more than sufficient for the laborious duties they have to perform. It is some what less than the amount claimed by them, but it must be remembered that their claims are not altogether well founded as stated in Para 2 and they have never been able to realize them fully. The proposed arrangement would therefore be sufficiently in their favour a proposition to this effect was submitted to the Board by Mr. Maltby when acting Collector of this District in his letter dated 23d June 1847; but the Board were not at the time prepared to take it into their consideration. I may here explain that in the statement which accompanied Mr. Maltby's report the Curnums fees on the looms were apparently omitted by oversight which occasions the difference between it and the one now submitted.

Deduct backyards which will still be enjoyed } 808-10-5 / 64-4-7

Remaining claimed } 744-5-10.

Trick Collector

Fort St. George 13th February 1856

Bo. No. 424.

Proceedings thereon

Submitting with the Boards observations a letter from the Collector of Chingleput regarding the payment of the Curnums fees in the town of Conjeveram and recommending for the favorable consideration of Government the arrangement of paying these Curnums 4 per cent on the gross Collections of Motarpha and Tree tax.

To Collector 18th January 1855.

3556

In the above letter the Collector furnishes the information required by the Board regarding the payment of the Curnums fees in the Town of Conjeveram which are defrayed by the payers of Moturpha and have been the subject of frequent complaint—

2. The Collector states that this arrangement is limited to the Hamlets forming the town of Conjeveram where there is no land Revenue (strictly so called) and the Curnums have no other emoluments than these fees on the Moturpha and on the Tree taxes— Their claims are founded on long usage and are supported by the accounts of their emoluments prepared in the year preceding the permanent settlement in which it is stated that they are entitled to a fee of two (2.) fanams on each weavers house, since Fasly. 1252. however they have claimed the same amount on each loom several of which are worked under the same roof—

3. The greater strictness with which

Fort St. George 13th February 1856

which Moturpah is now levied and the substitution of an uniform money tax on the trees instead of a division of their produce make the payment of these fees much severely felt by the people than formerly, and they regard the change as one of great hardship— Mr. Shubrick furnishes a statement of the Curnums fees as claimed by them and in consideration of the onerous duties they perform proposes that they shall receive 4 per Cent on the gross amount of the revenue realised from the Moturpha and tree tax and that these payments shall henceforth be made by Government—

4. The Board observe that the duties of the Curnums will hereafter be lessened to some extent by greater simplicity in the accounts and by printing the pattahs and receipts— But the duties will even then be heavy and are now only performed, the Collector states, by the Curnums employing extra hands—

5. They also remark that the statement of the Curnums fees as given by

From Chingleput 23d June in lieu 8th July 1847.

Fort St. George 13th February 1850.

by Mr. Shubrick differs considerably from that furnished by his predecessor Mr. E. Maltby. This is ascribed to the accidental omission in the latters calculation of the fees from Looms but Mr. Maltby states that the fees on Looms and shops depend on local usage and the agreements of the parties and do not appear in the public accounts. Mr. Maltby stated the Curnums emoluments at Rupees 260 and proposed to assign them hereafter 4 per cent on the collections or Rupees 413 per Annum.

6 The Board observe also that Column 7 headed "Rate per Loom" whereas the Curnums are entitled only to that fee on each weavers house. The Government also would seem to have no concern with Column 4 Viz.t the fees on Cocoanut Gardens but the total amount is very small Viz.t Rupees 17. The Board presume that the rate of Rupees 4—6—. Monthly per loom in one case is a clerical error.

The

Fort St. George 13th February 1850.

7 The Marginal Abstract shows the present emoluments of the Curnums and those they would receive under the above arrangement with one exception of backyards Valued at Rupees 64. and these the Collector proposes to continue to them.

Nos	½ per cent on Collection	Back yards	Present Total fees.	
1	13 7 2 11	7 8.	144 10 11	187 6 6
2	119 11 4	7 9 2	127 6	136 7 1
3	107 13.	20 13.	128 10.	224 2 10
4	46 15 3	. .	46 15 3	63 11 4
5	90 11 4	23. .	113 11 4	138 5 9
6	23 8 7	5 6 5	28 15.	56 8 11
	526 4 5	64 4 7	590 9.	808 10 5

8 The Board concur in the propriety of these arrangements and resolve

resolve to recommend them to the favorable consideration of Government. The proposed rates of payment appear to the Board to be reasonable on the average of 5 years from Fusly 1259 to Fusly 1263 will be Rupees 526—1—1 and though with the value of backyards the total amount will be less by amount 200 Rupees than the Curnums claim it will probably be more than they have actually received of late and they will also receive it regularly without difficulty or delay. There can be no question that the charge should be borne by Government as the duties which the Curnums perform are entirely on behalf of Government a similar arrangement in Trichinopoly has already been sanctioned in the Resolution of Government No. 799 of 10th July 1851.—

9 If the Government accord their sanction the Curnums of Conjeveram will annually receive 4 per cent on the gross Collections of Moturpha and tree tax so long as those

those sources of Revenue exist in lieu of all claims on the people from either source. They will also retain their backyards for the present.

No.3.

From G. S. Forbes Esqre

Acting Secretary to the Board of Revenue

Fort St.e George

(359)

B.d No.259

From the Asst Coll.r of Canara

Submits with reference to Para.7 from the C. in C. dated 20th June 1855 Observations on the papers relating to the revised Village accounts forwarded by the Board with an Official Memo from Government dated 11th Sept.r last.

Sir,

With reference to para.7 from the Extract of Minutes of Consultation dated 20th June 1855, I have the honor to submit a few observations on the papers relating to the revised Village accounts forwarded to me with an Official Memo from the Government Office bearing date 11th September last.

2. It appears from para 112 of the Memo by the late Special Assistant, Board of Revenue that it was supposed that the forms he submitted would not be found applicable to this District without alteration, and that a far more simple system of accounts than could be used in most Districts would suffice in Canara.—

3. The object aimed at by Government is the substitution of a clear, simple and uniform System of Village account in the place of voluminous, intricate and ever varying forms and the collection and arrangement of all necessary information without useless details and repetitions.—

4. Some of the forms now furnished might be introduced in this District in part or in whole with advantage. The greater portion however cannot be

Fort St. George 13th February 1856

be applied at all, and the information to be filled in in others, our own accounts of Course already give, The forms that can be used here are given Seriatim below shewing the extent to which each could be adopted. The Village Hatha radaj and averyy accounts of this District were described by Mr. Blane in his letter to the Board under date the 23 May 1850.—

5. It will be observed that the forms which can be filled up here are very few, those only indeed of the most simple description, and that uniformity to any useful extent with reference to other Provinces can hardly be attained, when our System is as simple as others are complicated and the information required elsewhere cannot be furnished if it was even desirable to do so.—

6. The adoption of any part of the accounts now furnished would not simplify those in use, though in several instances it would be an improvement.—

7. In Canara the Board are aware no Village Curnums are to be found. The work already imposed on the magany Shanbogues is greater than they can perform and to add any thing to their present duties would therefore be impracticable or without result, and I would therefore solicit the permission of Government to adhere for the present to the System in Vogue here, adopting such of the forms as may be deemed of advantage hereafter, when the proposed augmentation of Village and magany Officials may have been sanctioned, and afford me means of carrying out the wishes of Government as regards this District which I do not at this moment possess.—

No. 10.

To G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

363
Bd. No. 345
From the Collector of Salem.
Reporting upon Petition No. 765 of 1855.

Sir.

Referring to the endorsement of the Board on Petition No. 765 of 1855 under date the 23d May last, calling upon me to report with reference to the order of Government whether the desired permission might be given to the Petitioners to file a Suit for the recovery of certain Enam lands I have the honor to submit the following Explanation. —

2 Petitioner represents in his petition that Sashagherien (Defendant) mortgaged to Petitioner his share in the Jodigy agraharam of Pootoor for a sum of Rs. 100 and that the Defendant failed to put the Enam land in questions in the Petitioners posession according to the tenor of the mortgage and deed. With his petition he submitted an endorsement given him by the Collector under date the 28th February 1855, referring him to Section II Regulation IV of 1831 together with copy of a Decree passed by the Civil Judge of Salem in A. S. No. 5 of 1853 purporting that the permission of Government is essential to his suing for

Fort St. George 13th February 1856

for the recovery of Enam Lands, and he prays that the required permission may be given him for proceeding against the Defendant by a civil action.

3. It appears from the records of this office that after the incorporation of the Village of Pottoor agraharum with the Mootah of amadanumputty in the Salem Talook the Jodighy amounting Rs. 1481—13—1 was paid to the Mootadar of the above amadanumputty that the whole Village was divided into 36 Shares which were again divided into 9 Carays or Shares each containing 4 Shares that the agraharum Shareholders' each exchanged Lands, one with the other once every twelve years that of the 36 Shares into which the whole Village was divided, a Share paying a Jodigy of Rs 38 belonged to one Sunjeevee Row at the time of the Survey and was subsequently held by Ramachendra Row and Appajee Row, Sons of the above Sunjeeva Row that Ramachendra Row & Appajee Row sold their share in the year Veerootee, corresponding with Fusly 1239, to one Runga Row, Uncle of Sashagherry Row the individual who is said to have mortgaged the share in question to the Petitioner for Rs. 400 that about 16 years ago, the said Runga Row and

Fort St. George 13th February 1856

and Shashagherry Row divided their Estates equally between themselves, and the Enam in question fell to the share of the latter (Sashagherry Row) who on the 23d Chittry of the year Parevedary (3d May 1852) borrowed from the Petitioner the Sum in question Rs. 400 and mortgaged his share in the Jodighy Village in Consideration of that Sum with the stipulation that the Petitioner was to enjoy the share thus pledged till the principal and interest accruing thereon should be paid that the Petitioner having proceeded to cultivate the enam land according to the conditions of the mortgage deed above alluded to he was prevented from so doing by Sashagherry Row (the mortgager) that a Complaint was made by the Petitioner in Consequence to the Head of Police of Salem who after investigating the case forwarded a report to the Joint Magistrate and that the Joint Magistrate decided that the mortgager should be maintained in possession, on the ground apparently that the Petitioner had failed to prove the transfer of possession to himself.

4. Petitioner Sued the above Sashagherry Row in the Moofty Sudr Ameens Court at Salem in O.S. No. 317 of 1852 for the recovery of Rupees 14 being the value of the grain rent for one year, to which

which he was entitled by virtue of a Memo given to the Petitioner by the above Sashagherry Row /mortgager/ but the Moosfty dismissed the Suit with Costs, on the ground that the Petitioner /Plaintiff/ had failed to establish his claim to the said produce.—

5. Petitioner appealed against this decision to the Civil Court of Salem in A.S. N° 5 of 1853. but the Civil Judge dismissed the appeal with costs on the grounds that the Suit should have been brought either for the amount mortgaged, or for possession of the pledged land in which latter case to render the Suit for the recovery of Enam lands cognizable by the Civil Courts the Special Sanction of the Government referring the party to the Court was declared essential under Regulation IV of 1831.

6 Under the foregoing circumstances I am of opinion that Sanction may be given to the Petr to Sue in the Civil Courts for the recovery of the Sodighy Enam land pledged to him—

From Mejr. Commiadr. Martin & Co. Madras.

Sir,

We beg to acknowledge the receipt of the Extract from the Board's Proceedings dated 30th Ultimo, transmitting a printed copy of their circular order dated 12th April 1855, advising the Collectors to introduce the use of French paper more extensively in the provinces, if a full and regular supply can be depended on.—

2. If the Board see no objection we beg to request that for the sake of uniformity they will be pleased to circulate this our tender to supply each Collectorate with the quantity they may annually require of either of the accompanying 3 qualities of paper at the following rates.—

No 1 at 2 Rupees and 2 Annas per Ream

" 2 at 2 " and 4 " D.

" 3 at 2 " and 4 " D.

3. At these prices we undertake to incur the

Fort St. George 13th February 1856

the risk and expense of delivering the paper at the Receivers Stations on the receipts of advice from the Collectors, with whom we will correspond direct hereafter on the Subject.—

4. At these rates the Board will observe that there will be a saving of about 10 per cent between the price of the French and Goa paper at the rate named by the Collector of Coimbatore and 12 per cent on the price paid for country paper generally inferior in quality to the Stationery we offer.—

5. Should our proposal be favorably entertained, we promise to import and keep on hand always a large Stock of the most approved kind of paper to meet the orders of the Collectors.—

Bd. No. 3707

From the Collector of Bellary.... Submitting a General Report on the Settlement of Land Revenue and on the Cotton Cultivation in his District for Fusly 1264.—

See List enclosure No. 42.

Sir,

Fort St. George

I have the honor in accordance with the Boards Circular Letter of the 21st June 1855, to submit a general report on the Settlement of Land Revenue, and Extra Revenue, and on the Cotton Cultivation of the Bellary Division of the ceded Districts for the past Fusly year 1264. 1854/55. accompanied by the annual Statements for the year: those relating to Land Revenue prepared according to the forms received with the Boards Circular dated 13th June 1853 those to Extra Revenue in the usual Forms and the Statements of Cotton Cultivation according to the Form furnished by the Board on the 25th July 1852:—

Villages at which the Summabundy was made. See Statement No. 4.

2. The Summabundy Settlement of the year under report was commenced in the Month of December, and completed within the 17th of June. the following is a Memorandum of the places where the settlement was made.—

Division

2444

Fort St. George 11th February 1856.

Division Number	Names of the gentlemen who made the Settlement.	Number of Talooks	Names of Talooks	Where Settlement made and Puttahs given
		1	2	3	4
	1 Mr. Pelly Esqre Collector	1	Hurponhully	Cusbah Hurponhully
		2	Koodleghee	Hoopett of the Talook
		3	Koovinhudgaly	Do of Koodleghee Do
		4	Adonie	Cusbah Adonie
		5	Goolliem	Do
		6	Punchapolliem	Puttecondah of the Talook
		7	Gooty	Cusbah Gooty
		8	Raidroog	Cusbah Raidroog
Principal	2 The Honorable D. Arbuthnot Sub Collector	1	Muduckseerah	Cusbah Muduckseerah
	3 Mr M. C. Chase Head Assistant Collector	1	Bellary	Cusbah Bellary
		2	Kumpty	Camalapore of the Talook
	4 Mr J. W. Breeks Assistant Collector	1	Yadakee	Cusbah Yadakee
		12		
Sub Division	1 Mr. Pelly Esqre Collector	1	Anantapoor	Cusbah Anantapoor
	2 The Honorable D. Arbuthnot Sub Collector	1	Penagondah	Cusbah Penagondah
		2	Codecondah	Kindoopoor of the Talook
		3	Tadapaty	Cusbah Tandapaty
		4	Dhurmavaram	Cusbah Dhurmavaram
		5		
		17		

Fort St. George 14th February 1856.

The Settlement of the Hoovinhudgaly Talook was made in the Roodleghee Talook and that of the Goolleem Talook at Adonies as it was very inconvenient to divide my Cutcherry and as many of the Villages of those Talooks are adjacent to the places where the Settlement was made no inconvenience was sustained thereby. In conformity with the orders of the Board I made the Summabundy of one of the Sub Collectors Talooks. Viz^t Anantapoor myself this year. and Mr Arbuthnot took the Talook of Madukseerah of the Principal Division.—

Number of Villages & tenure under which they are held.—

3. There are 2525 Moutyas with 1659 Mujrahs or hamlets dependants upon them All of which are held under the Ryotwar Tenure Besides these there are in the District 233 Shrothriem &c. Villages with 36 Dependant hamlets. Settled also Ryotwary.

See Statement No 1.

In all there are 2758 Villages and 1695 Hamlets Total Villages and Hamlets 4453. of which 38 Villages are Bacherah or not inhabited. The whole occupy an area of 7333670 Acres. the Talooks in which the uninhabited Villages are Situated

* Acres
Cultivable 6975686
Parumboke 357990
Total 7333676.

Fort St. George 14th February 1856.

Situated are shewn in the Column of Remarks in Statement No 1 in accordance with the Boards instructions.—

Extract Proceedings Dated 9th Augt. 1855 Para 3. Nature and extent of Principal Sources of Irrigation.

4. The Sources of Irrigation are as follows. The principal Rivers are the Toombadra. the Huggery and the Cumar.—

Number	Works of Irrigation	No. of works repairable at Government least.	No. of repairable by the Ryots	No. of Dupsa mundum Works	Total.	Besides these there are out of order
1	Tanks	1071	32	145	1248	153
2	Rivers and Nullahs	218	3	4	235	29
3	Spring Channels	1285	191	17	1493	253
4	Anicuts	283	"	"	283	48
5	Wells	12793	3309	150	16252	2628
	Total	15650	3535	326	19511	3111

Of the Total number of Wells Viz^t 3309 Shewn in Column 3. 1654 were constructed by ryots at their own least and are free from Extra Assessment. The extent of land under the above Sources of Irrigation is entered in the Survey Accounts inclusive of New Ayacut as 223707 acres with a gross Assessment of Rupees 1810529.

Fort St. George 14th February 1856

1810529 The actual cultivation from them will be shewn in a future paragraph.—

5 The Board in the 15th Para of their Esctract of Proceedings of the 9th August 1855 observed that the estent of land Viz.t 223707 Acres under the influence of the Sources of Irrigation corresponded with the estents entered in Column 22 of the Statement No 7 for Fusly 1262. but that the Assessment esceeded that entered in Column 23 by Rupees 154774 and remarked that if it was owing to Fufsul yasty being included it should have been esplained if all the difference was owing to it I have the honor to state that the difference is not on account of Fufsul Yasty being included but on account of Teerwah yasty shewn in Statement No. 16 for Fusly 1263 and Reway yasty charged on Dhroopire lands are shown below.—

6 In conformity with the injunction of the Board expressed in the latter part of the 4th para of their Proceedings dated 9th Augt. last the Board espress an opinion that it will be of advantage to shew in the Annual reports whether the river freshes have been favorable to the Nunjah lands under channel irrigation. I believe the Board allude to the benefit that the lands may receive from the deposits of rich moulds made in the freshes But as the river seldom over flow their banks this benefit is

Fort St. George 11th February 1856.

is not obtained the freshes are favorable in as much as they give a good supply of water in the channels for the cultivation.—

Rent Roll

8. The Rent Roll being a Quinquennial Return, and having been drawn up last in Fusly 1262 has not been prepared in this year.

Seasons & Sanitary State of the District.

9. After the disastrous year Fusly 1263 it was hoped that the rains of Fusly 1264 would

Fort St. George 14th February 1856

would have been early. But they entirely failed until towards the end of July and August. great distress was felt and the fearful consequences of a famine succeeding the great scarcity were apprehended. great numbers (exceeding 100,000 persons) were employed in famine roads who should have been engaged in cultivation. But at length the rains fell abundantly and agricultural operations were actively resumed The early Crops were generally lost but the later crops were remarkably fine almost every where though some apprehension was at one time raised by the appearance of blight which injured the Cholum Crops in a few Villages. and some Cotton and other Crops suffered from rain having fallen unseasonably in the month of February. Hail stones in may also destroyed some Wet Crops. The Tanks were well replenished by the September rains. and the District having received such valuable relief by the employment of the poor to so large an extent during the preceding 11 Months was fast recovering itself but was again thrown back by another failure of the early rains for the year Fusly 1265 which is not comprehended in this Report. It is thought that the General outturn of the Produce did not much exceed

Fort St. George 14th February 1856

exceed half an ordinary Crop.—

Though Cholera continued in the year under report it was not so disastrous as in Fusly 1263. There were 2252 Deaths only reported. Much Cattle also perished from want there being no pasture during the early part of the year.—

I beg to subjoin a Statement shewing the supply of water received by the Tanks in this year and an abstract shewing the fall of rain ascertained by the raingages as taken from the returns sent Monthly to the Board.—

Fort St. George 14th February 1856.

Prices of Grain &c. Duties on Imports &c. Re-exports &c. Tonnage &c.

Price of Grain to be continued only till the end of October

They began to fall in November last while remained high. The rains ended in the Mofussil, Nov. 1855 & the Carnatic early in December. The 12 Months ending the 31st December 1855 were the dearest & cheapest of the Famine. The Imports of Grain during the Famine were chiefly from Bengal & Burmah. The Exports were chiefly to Ceylon & Mauritius.

Fort St. George 14th February 1856.

Fusly 1264

Fort St. George 14th February 1856.

The Board remark in the 2d para of their Extract of Proceedings dated 22d January 1855 that the Merchants wholesale prices in Statement 6 shew the prices at which they purchased produce from the Ryots, instead of exhibiting, as it ought the prices at which they sold. The wholesale prices it has been customary to denominate in the Native accounts as the Purchase Prices. But it is in reality the wholesale selling Prices and the Prices denominated selling Prices are the Retail. There is a difference of 1/16 between the two generally observed in this District.

Dittum

11 The Dittum or Cubicalty is 195,768 acres assessed at 28,46,458 Rs which according to the following abstract taken from Statement No 9 will be seen to be in extent below the Dittum of the preceding year by 46055 acres but in assessment above last year by Rupees 40,51

Total of Dry and Wet Cultivation	2003823	28,06,707	195,768	28,46,458	"	40,751	46055	"

It will be observed there was an increase of 38810 acres assessed at Rupees 68282 in the Regud or Black soils and a decrease of 85004 acres bearing an assessment of Rupees 36,957 in Mansab and red soils making a net decrease of 46,194 acres in the extent and a net increase of Rupees 31,325 in the assessment of the dry cultivation, a large quantity of Mussub and Dal lands of low rate were relinquished, partly owing to the failure of the early rains necessary for the Moongary or early cultivation and partly to some Tank-bed lands having become submersed after the fall of the latter rains while on the other hand the higher assessed Regud lands which had been relinquished the previous year were taken up on the fall of the latter rains. The average rate of the regud lands retained is 1½ Rupees per acre and that of the lands newly taken up this year 1¾ Rupees and the average of the Mussub and Dal lands retained is 8 annas and of that relinquished 7 annas. Two thirds of the increase is in the lands of the Goollem Taloob

Taloob where the failure of rain in the previous year had been most severely felt and a great extent of Land had been left unoccupied the remaining portion was in the Billary and adonie Taloobs In the irrigated cultivation there is an increase under Tank lands attributable to Tanks having received a good supply of water and a decrease in the Nullah and well cultivation owing to Tank bed lands having become submersed, and to the failure of the early rains- and also in consequence of the inability of the Ryots to undertake the cultivation.-

12. According to the Boards instructions as expressed in the 3d para of their extract of Proceedings of the 22d January 1855 fields of which only portions had been cultivated have been brought into the settlement in their full extent and entered in Statement 10 and the remission

Granted

Fort St. George 15th February 1856.

granted on the uncultivated portions, are shown under the head Shamilat Bunjer in Statement No. 4 In the 13 para of the same Extract of Proceedings the Board express a wish that care should hereafter be taken to make the Statement No. 9 exhibit with correctness the Dittum or Caboolaty according to the agreements made by the Sahsildars with the Ryots. I beg to state that there is always a great disparity between the Tahsildars Caboolaty beriz and Summabundy beriz in this District, owing to the means of irrigation not being certain but dependant on the rains which frequently fail after the Dittum is concluded and the lands entered in the Caboolaty if unoccupied in consequence of the Tank not filling are if the whole Puttah of the Ryot is

Fort St. George 14th February 1856.

is unsown, struck out of the Caboolati in the Summabundy accounts as also the Extra sums in account of Teerwah Tasty and Fussul Tasty and the remainder is entered as the Tahsildars Caboolati or Dittum from which the deduction for parts of the farm left unsown is made under the Heads of Shamilat or Caboolati Bunjer. The practice of this District was established by the late Principal Collector Mr. Robertson it was reported on to the Board of Revenue by Mr. Robertson himself in Fusly 1237 and also by myself in my Summabundy Report for fusly 1251 and was approved by the Board as expressed in their Proceedings of the 7th February 1843 the accounts for this year have been prepaired as usual. But in the event of the Board requiring the Dittum according to the agreements made by the Tahsildars with the Ryots to be entered for the future in the Statement No. 9 what

see Summabundy report dated 20th October 1828

Fort St. George 11th February 1856

what with Teerwah Jasty and Fussul Jasty the amount of remission to be granted will be increased to a much larger extent under the head of Caboolaty Bunjer. The difference between the Tahsildars Caboolaty Estimate for fusly 1264 and the amount determined by the Hoozoor at the Jummabundy as entered in Statement No 9 was as follows.—

Item	Acres	Assessment including Teerwah Jasty and Fussul Jasty
Caboolaty Estimate by the Tahsildars	2069560	3123692
Dittum as determined by the Hoojoor as entered in Statement No 9	1957168	2846158
Decrease	111392	277234

On this Point the Board in the 5th para of the Extract of Proceedings of the 9th August 1855 wish for explanation as to why the amount Viz.t Rupees 178141 on account of lands left unsown from failure of rain was struck out of the Dittum instead of being struck off as remission under

Fort St. George 14th February 1856

under the head of Caboolate Bunjer. the explanation already given regarding the practice of determining the Dittum affords this information, it is the practice as already observed to deduct from the Tahsildars Caboolate whatever lands in whole puttahs are left unsown there being nothing to demand as also Teerwa Jasty and Fussul Jasty Extra Items; and not to strike off the same as remission under the head of Caboolate Bunjer - and in reply to the observation of the Board in the same para, that the details of the Munjah and Poonjah lands struck out of the Dittum have not been shewn I take the liberty of furnishing the particulars for fusly 1263 which are as follows—

Assessment

Fort St. George, 14th February 1856.

Item	1	Assessment of Dry lands 2	Assessment of wet lands 3	Total 4
1	Lands struck out at the Ryots wish	68035	36970	105005

Fort St. George 14th February 1856

The causes for the fluctuations in the cultivation have already been given the increase has chiefly been in the six Black Land Taloks of Gyoolkum and Bellary in which much land was in the previous year left unsown. There was also a considerable increase in the Tank Lands.—

Caboolati waste charged to the Ryot. 15 To shew the amount of waste made payable it will be necessary first to deduct all the remissions according to the practice in this District. The gross assessment of Lands actually cultivated I have shewn was 2,41,183 Rupees. The total amount of Remission granted was Rupees 69,950 leaving the demand or net Settlement Rupees 1,70,233 which is classed as follows—

	Rupees
Land Sown	1,26,178
Waste imposed	7,161
Vysack Double or Second crop	36,944
	1,70,233
to which must be added Sadyor Quit Rent on Enam Cultivation as per Statement No. 15.	68,183
Making the total Demand	1,98,416

The

Fort St. George 14th February 1856.

The waste imposed is for the three causes shewn in the following Abstract, which as compared with the preceding year will be found to be very small and bearing a pericentage of only 6 annas on the whole revenue—

And

Fort St. George, 14th February 1856

And the last is an Abstract of State=ment No. 31 shewing the state of the Coudie Teerwah or Lands that have reverted from Coudie to the full Assessment—

As per Statement No. 31.		Acres	Assess=ment
Col. 131 and 132.	Lands which reverted to full Assessment in fusly 1264 and in the 3 previous years	8736	10832
137 & 138.	Deduct on account of Burjen not entered in Puttahs	403	808
109 & 110.	Lands in the Ryotee held=ing in fusly 1264	8333	15824
	Thoroughly cleared	6047	12189
Half cleared.	In the holdings of the Ryotee who enjoyed the coudie	2226	3534
	In the holdings of other Ryotis	60	101
		2786	3635

The remissions granted for loss of crops &c. in the last year amounted to Rupees 13,362 it was found necessary to grant remissions to the amount of Rupees 35976 only in this year, The Items

Fort St. George, 14th February 1856

Items of Remission are detailed in the Statement No. 14 and do not need further explanation, The further particulars of the Shavy remissions granted to 1897 Ryots to the amount of Rupees 8290 in this year being 13 per Cent on their holdings are shewn in the Statement No. 18. the following Abstract exhibits the extent of Shavy granted on account of both Dry and irrigated lands—

Item.	Demand on account of Shavy 2	Amount thereof remitted 3	Per Centage 4
Dry Lands	13,833	4,204	30 6.
Irrigated lands	7143	4086	57 3.
Total	20,976	8290	39 8.

I have separated from the Iyen Puduvst Remission the amount of remission granted on account of decayed Cocoanut Trees which is a

Fort St. George, 14th February 1856.

a deduction from the Extra tax of Rewaz Jasty that is chargeable on Drophyre and garden lands and entered it in Statement No. 18. under a separate head but I have excluded it from the Shavy Statement No. 18, in which only the remissions granted to lands on account of loss of crops are entered, The Miscellaneous remissions require no explanation—

17. In the 11th para of the Extract from the Proceedings of the Board of Revenue dated 22d January 1855. the Board desire that the 2 items of Pannecboodly and Pajamilche shewn separately for the future in Statement No. 11. which has accordingly been done:—

In the 6th para of their Extract from the Proceedings of the 9th August 1855 the Board observe that explanation should be given for the difference of Rupees 650 that exists between the amount of Rupees 112380 of remissions on account of Shavy entered in para 13 of my Summubbundy report for fusly 1263, and that of Rupees 111730 entered in Statement No. 18 and that it would also have been advisable if details of

Fort St. George 14th February 1856

of the remissions granted on this account to day. and wet lands had been given, I beg to state that the difference of Rupees 650 is, as in the preceding para explained the amount of remission that was granted on account of decayed Cocoanut Trees from the Rewaz Jasty that is chargeable on Drophyre and garden lands it being an Extra tree tax was not included in the Statement No. 18, as that Statement only exhibits the remissions granted on lands on account of loss of crops the details of the total amount of Shavy remissions granted according to Statement No. 18 are as follows—

Item	Demand on account of Shavy	Amount thereof remitted	Per centage		
Dry lands	155386	104140	67	"	.
Irrigated lands	11213	7590	67	11	.
Total	166599	111730	6	1	.

The Board in the 7th para of their Extract of Proceedings of the 9th August 1855 remark that lands held on Cowle for half Tirvah in fusly 1262 were allowed to remain on the same terms in the following year also

I

Fort St. George 14th. February. 1856

I would explain with reference to that observation that the term of Cowle for half Teerwah always extends to two years, so that the land taken on such Cowle in fusly 1262 does not become liable to a higher Teerwah until fusly 1264 - when it is assessed at the full rate —

18. The demand for the year after the above deductions was as follows—

Net Demand Ryotwary —	1602830
" Gooshy or Partnership —	173312
Total —	1776162

From this amount entered in the Puttahs has to be deducted from the Village Berij the following items included in the remis=sions already noticed —

Shrotriem —	14121
A Dreissaimed of a Village in the Hovendudgaly Taluck included in the sum of 1086 item 5 Statement No. 11 —	16
Payments to Village Servants/item 25 J —	1792
	15929
Net Demand on Circarland as per Statement No. 10 —	1760233

The

Fort St. George 14th February 1856

The amount of Demand against Coolwar Ryots shewn above is Rupees 1602,850 and is payable by 85,229 Ryots-

Ibeg to subjoin the Statement usually entered in the Reports of these Ryots.

Ryots who held puttahs in Fusly 1263 — — —	85392

Enam Cultivation 19

The Enam Cultivation for the year is shown in the following abstract:-

Item

Fort St George 14th February 1856

12th January 1855

The Board in the 12th Para of their Proceedings on my Land Revenue Report for Fusly 1262" observe that in State "-ment 7. besides the detail of the Enam "land given in Columns 6 and 7, 19,782 "acres with an assessment of Rupees 35,413 "are stated in a foot- Note to Column 30 "; to have been given in Enam for vari- "-ous causes out of the Circar ayacut- But "as the dates and causes of these grants "are not given they wish for information "on the subject"- This amount is the results of variations that have taken place in the ayacut at different periods since the Survey but I regret I am unable to give the particulars as the accounts of past years are not forthcoming- I will however endea- -vour to have an account prepared and submit the same to the Board- I will here observe that of the amount 35,413-15- the sum of 26,299-4- was transferred previous to

Fusly

Fort St George 14th February 1856

Fusly 1236- One Item 10,159-5-, was the amount of Jaghire granted to Ramachendra Row late Head Sheristadar of the Board and the rest was for the most part- exchange of Circar Land for Enam under Tanks when Mr Robertson had expended large sums in repairs of Tanks and took the Land of Enamdars within the influence of the water in exchange for Circar Land which could not be watered from the Tanks-

The net increase of this year on account of the Quit rent fee was Rupees 9247 as follows-

Fusly

Fort St George 14th February 1856

Sugar Cane Cultivation.

20. In Statement No 19 the extent of the Cultivation of Sugarcane, Cotton, Indigo, and Wheat is exhi-bited. There were 4835 acres of Cane assessed at Rupees 79344 grown in Fusly 1264 being below the previous years extent by 2741 acres bearing on assess-ment of Rupees 20086. This decrease is owing to the demand for Sugar and Jaggery in Fusly 1263 not having been good as also to the Ryots having in consequence of the Scarcity directed their attention to Paddy cultivation the decrease may also be attributable in part to the deficiency of water in Tanks.—

The following Memorandum shews the previous of Sacharine produce for the Six last years.—

Cotton

24 87

Fort St George 14th February 1856

Cotton Cultivation.-

21. Cotton owing partly to the facilities of the rains favorable for its Cultivation which should fall in July, August and September and partly to the Ryots having directed their attention more to the Cultivation of Corn for which the Demand was very great was down to a much less extent than in the last Fasly 1259- the decrease was and Increase of 47333 acres leaving an Establishment of Rupees 69759- the following abstract Cultivation from No 19 will shew the Cotton for the year-

	270257	222432	241529	250116	248008	214581	167250
Average rate at which Cotton sold per Canoy of 20 Maunds —	Rds	Rs a	Rs a	Rs a	Rs a	Rs a	Rs a
	40-3	36-12	50-2	42-6	38-11	49-3	50-3

Fort St George 14th February 1856

The foreign Cotton was cul-tivated to a very limited extent and generally failed about 85 acres only was sown with it about 30 Maunds were put down and the yield is stat-ed to have been only 4 Maunds of Cotton.-

Indigo 22 Indigo also was less cul-tivated there were only 1992 acres assess-ed at Rupees 3781 sown in this year being below last year by 3246 acres assessed at Rupees 9344 - The decrease is attributable partly to the failure of the seasonable rains and partly to the Ryots attention having been di-verted to the Cultivation of Corn as most needed in a season of famine.-

The

Fort St George 14th February 1856

Wheat-

Fusly	Acres	Assessment
1263	1450	3656

The

Fort St George 14th February 1856

The amount of the outstand-
-ing balance of arrears is Rupees 713-8-10;
I requested in the 20th Para of my Land
Revenue report for Fusly 1263 that Sanction
might be obtained for the remission of this
sum of Rupees 186-2-- but have received
no order in regard to it as yet- the re-
-maining sum which is on account of
Fusly 1263 is not recoverable owing to the
causes shewn in the Statement. I therefore
request that the Sanction of Government
may be obtained for the writing off of
this sum also together with the former sum
amounting in the aggregate to Rupees 713-
8-10. The amount of balance of Current
Revenue outstanding up to October of
Fusly 1265 was Rupees 981-4-11 of which
Rupees 531-7-11 appears at present to
be irrecoverable regarding which how-
-ever an enquiry will be held at the
ensuing Summabundy and reported upon
in

† Rs 527-6-10

Fort St George 14th February 1856

in my next Settlement report.

Ready money Collections Statement No 15

25- The ready money Collec-
-tions for the year under report
amount to Rupees 1,68,182 which is
above that of last year by 9,246 Rs.
this increase is in the Taxes on
Exam chiefly attributable to the season
having been more favorable.
The Statement No 13

Gross Increase and decrease

26 contains in detail an account shew-
-ing the gross increase and Ryot-
-wary of Land Revenue compared
with last year of which the
following is an Abstract.

Items

	Items	Acres	Assessment	Net Settlement
	1	2	3	4
	Fusly 1263	2003823	2805707	1502810
	Fusly 1264	1959768	2846458	1760233

The

Demand Collection and Balance current.

28. The Demand on account of Land Revenue for Fusly 1264 as per Statement No. 22 was Rupees ——— 192816

The Amount Collected within the Fusly was ——— 182223

Collected Subsequently to the end of October ——— 2093

Total Collections — 184136

Balance upto the end of October of Fusly 1265 ——— 14280

Of this balance Rupees 8317 is expected to be realized and Rupees 5963 appears at present to be irrecoverable but will be enquired into as usual at the ensuing Jummabundy and the Amount that may then be ascertained to be quite irrecoverable will be reported. The Balance though not excessive would have been reduced considerably below what it is, had the early rains of the year 1265 not again failed us which calamity has tended no doubt to hinder the speedy realization of the balance of the year 1264 now under report and at present I am not able to state what is the Amount of Balance that may fairly be attributed to the inability of the Ryot

Fort St. George 14th. February 1856.

Ryot to discharge but the amount stated above will probably have to be remitted—

Arrears.— 29. In Statement No. 24 are shewn the Collections and Balance on account of arrears the balance of arrears still outstanding to 31st. October last is Rupees 10,452—

Collector

Asst Collector

J

Fort St. George, 14th February 1850.

I request that the Sanction of Government may be obtained for the writing off of this Sum of Rupees 5056—3—8 it was ascertained to be irrecoverable by enquiry made at the Summabundy of Fusly 1264. The arrears of 1263 Fusly bear a proportion of only 5/16" of a Rupee per cent on the Total Beriz of that Fusly Rupees 1661746-

In the amount of Rupees 2176-11-11 in Column 5 of the above Statement is included the Sum of Rupees 105-12-7 which was embezzled by Lutchmapah the Circumm of Vellore in the above Talook for which he was imprisoned & under the provisions of Regulation IX of 1822 and his Exams have been resumed as directed by the Board in their Proceedings of the 31st May 1855 the Sum is not recoverable and should be struck off—

Advance for Cultivation

32. Tuccavy was issued to the Amount of Rupees 8983 on account of the cultivation of Fusly 1264 of this the Sum of Rupees 7027 was recovered within the Fusly and Rupees 1145 upto October of Fusly 1265 leaving a balance of

Fort St. George, 14th February 1850.

of Rupees 811, of this balance the repayment of Rupees 679 is not yet due and the remainder Rupees 132 is still unpaid tho' the time of repayment has expired. The Balance due on account of arrears of past years upto the date of this report is Rupees 162 of this Sum the repayment of Rupees 60 is not yet due and the remaining Sum Viz:, Rupees 102 for which the time of repayment has arrived will be recovered Shortly—

Fusly 1263.

Sayer.

Fort St. George, 14th February 1856

34. Customs duties were levied only at the Frontier of that part of the District which adjoins His Highness the Nizam's Territories, the Collection of Sayer duty was abolished from the 12th of August in this year according to the orders of Government of the 8th idem passed in Accordance with the orders of the Government of India dated 25th July 1854, and communicated by the Board of Revenue in their Extract of Proceedings of the 8th August 1854. The Statement No. 5 exhibits in detail the Collections Amounting to Rupees 334 made up to the date of the abolishment of this duty. The decrease in the Board of Revenue is consequently Rupees 1852 the wages of the Sayer establishment and Contingent Charges up to the date of its abolition amount to Rupees 105.

Abkarry

35. The abkarry Settlement of Fusly 1264 in the whole District exclusive

Fort St. George, 14th February 1856

exclusive of the Military Abkarry Farms at Bellary amounts to Rupees 24,75,25 and 23 Rupees extra on account of the Garrison of Gooty — Total Rupees 24,75,48 the Beriz of Fusly 1263 was Rupees 28,70,36 the Net decrease was therefore Rupees 39,488 this decrease is attributable to their having been less Competion in consequence of the Con= tractors having experienced Considerable

Fort St. George 14th February 1856.

considerable loss in the unfavorable preceding year. I beg to refer to my report to the Board on the 11th June 1854. regarding the Abkarry Settlement for the year which received the sanction of the Board on the 26th of that Month.

Sundry small Farms & Licenses.

36. The Settlement of this branch of Revenue in the fusly under report was below that of last year by Rupees 4219. The particulars of the Revenue were as follows.

	Items.	Revenue of Fusly 1263.	Revenue of Fusly 1264.	Comparison. Increase	Comparison. Decrease
Government Plantations	Rent of Old Topes	12,385	8,322	"	4,063
Other items.	Rent of Forests Called Geda Cavaly	938	765	"	173
	Rent of Hills and Wood called Conda Cavaly and Ramanacondah Cavaly	732	639	"	93
	Rent of pasture grounds and Trees called Jally Poolavary	2,486	2,386	"	100
	Rent of pasture grounds called Guddy Poolvary	289	273	"	16
		4,445	4,063	"	382
Rent of Fisheries		136	124	"	12
River Toll Collections		6,702	6,940	238	"
Grand Total		23,668	19,249	"	4,219

With the exception of River Toll Collection, in which there is a small increase, there is a decrease in all the items, the decrease of Rupees 4,063 in the item of rent of

of old Topes is owing to the Tamarind and Mangoe Trees having been very unproductive in this year, the decrease in the other items is owing to the general failure of rain throughout the year 1263, and in the commencement of Fasly 1264.

I brought to the notice of the Board in my Exctra Revenue report for fasly 1263, the want of uniformity that existed in the accounts owing to the revenue from rivers Toll Collections (which the Board on the 24th January 1853 directed to be transferred from the head of "Exctra Revenue" to that of Sundry small Farms and Licenses") having to be entered under the former head in the accounts that are sent to the Accountant General and Civil Auditor, according to the directions of the Accountant General given in his letter of the 2d September 1853, and in the Monthly Statements of Demand Collection and Balance and in the report on the Settlement of Exctra Revenue (Submitted to the Board) under the latter head; but the Board have again in the 3d para of their Exctract of Proceedings dated 21st June 1855. directed the Revenue to be carried to the head of "Sundry small Farms and Licenses" and not to "Exctra Revenue". But the Accountant General in his letter of the 8th Septr. last has desired that the Revenue on River. Toll Collections be exhibited under the head of "Local Funds" in the Monthly Journals. Thus the orders of the Board and those of the Accountant General not being in unison leads to confusion, this revenue however is at present entered under the head of "Sundry small farms and Licenses" in the Statements of Demand Collection and Balance &c. that are forwarded to the Board, and in the Monthly Journals &c. that

Confid.

are sent the Accountant General, it is exhibited under the head of "Local Funds". But I trust the Board will see the expediency of communicating with the Accountant General on the subject, with a view to determining some arrangement to admit of the entry of this item of Revenue in the Public accounts in such a manner, that the Talook and Hoozoor accounts and those submitted to the Board and the Accountant General may all correspond with each other.

Moturpha- 37. The accompanying Statements Nos 3 and 4 afford full information on this branch of Revenue comprised under the two heads of Veesabady and Baghire Veesabady the aggregate Settlement of these two items for the fasly under report amounts to Rupees 238638, being a net decrease of Rupees 18205 in this year as shown below.

	Revenue of Fasly 1263	Revenue of Fasly 1264	Comparison. Increase	Comparison. Decrease
Veesabady	105136	98358	"	6778
Baghire Veesabady	151707	140280	"	11427
Total	256843	238638	"	18205

The Veesabady Estimate for the regulation of Veesabady Tax according to Regulation IV of 1818 in the Bellary District as sanctioned by Government in their Minutes of Consultation under date the 3d December 1850 is Rupees 111000 and the actual Settlement of Fasly 1264 amounts to Rupees 98358 being below the Estimate by Rupees 12642. The decrease under both heads is owing to some of the Moturpha Ryots having left the District and to others relinquishing their professions, compelled to do so by poverty. The Gross decrease occasioned by the desertion of Ryots is Rupees 13116 by the reduction of tax of the remaining Ryots Rupees 12363 and by deaths, poverty and the relinquishing of profession Rupees 4521 Total Rupees 30000.

The following abstract from Statement No 3 will shew the increase and decrease in this branch, and the causes thereof.

Extract from Minutes of Consultation dated 11th March 1854 communicated in Extract of Proceedings of the Board of Revenue dated 6th April 1854.

38. It might have been expected that the order of Government Sanctioning the discontinuance of Sheep Tax upon farming ryots would have caused a large decrease in item 12 of the Bajhuie Veesabady Taxes, but such is not the case, the decrease is only Rupees 1311. I mentioned in my report on the Settlement of Exctra Revenue for Fusly 1262, which was the occasion of the above order that the amount Collected from Cultivating Ryots was Rupees 5017 and from other Ryots Rupees 9272 but did not specify the Classes from whom the Tax was levied, this Tax however it appears is paid Chiefly by the Koorooba and Gollah People who are Shepherds by caste and who, whether they Cultivate land or not, exact a money payment from Cultivators for supplying manure for their fields and I did not intend it to apply to these Classes of Ryots, and accordingly they have not been exempted from the Tax, but only the regular Cultivating ryots who do not belong to this Class, hence the decrease has not been so great as expected. If however it should be the intention of Government that these Classes also should be exempt on the ground of their being Cultivators of land, I request I may receive further orders. They Cultivate lands only to a small extent generally not even to the amount of the Motursha Tax demandable for their sheep.

J

Extract from the Minutes of Consultation 19th September 1854, with Board's Proceedings 26th October 1854 & Board's Circular letter 18th June 1855.

39. I had occasion to submit my opinion in obedience to the orders of the Board noted in the Margin on certain points connected with Motursha Revenue in my letters of the 20th August 1855, and in September last upon which I await the Board's instructions.

Stamp Revenue.

40. There has been a decrease in the sale of Stamps in this year to the amount of Rupees 1429. as below.

Item.	Beriz of Fusly 1263.	Beriz of Fusly 1262.	Comparison Increase.	Comparison Decrease.
Amount of sale of Stamps carried to account	22,185	20,818	"	1367
Value of Stamps supplied gratis to public servants for executing Security Bonds	167	105	"	62
Total	22352	20923	"	1429.

The following Statement exhibits the amount of the Jyen and Exctra Stamp Collections and the Charges thereon.

	Items	Amount of Fusly 1263.	Amount of Fusly 1264.	Comparison Increase.	Comparison Decrease.
True Revenue of Fusly 1264 Collected & credited this year	Sale of Stamps	22352	20923	"	1429
	Exctra Collections as penalty on unstamped deeds recovered by the Courts	1257	1537	280	"
		23609	22460	"	1149
Charges	Commission	1162	1105	"	57
	Refunds of Stamp duty	1944	1636	"	308
		3106	2741	"	365
Proportion of the Charges on the Collections	Proportion of the Commission	Rs 5-3-0	Rs 5-4-0	"	"
	Do of Refunds	8-11-0	7-13-0	"	"
		13-14-0	13-1-0	"	"
	Net Revenue	20503	19719	"	784

The

2517. Fort St. George 14th February 1856.

The amount of Stamp Revenue of this year compared with last year is shown in the Statement No. 1 as directed by the Board in their 7th para of Extract of Proceedings of the 21st June 1855.

Government Plantations.

41. The Settlement of this branch in the fusly under review is Rupees 1841 and is below that of the preceding year by Rupees 271 as shewn below.

Items.	Beriz of Fusly 1263.	Beriz of Fusly 1264.	Comparison. Increase.	Comparison. Decrease.
1	2	3	4	5
1 Rent of Topes	1909	1694	"	215
2 Do of Trees on the banks of Tanks	140	132	"	8
3. Do of Trees on the sides of roads	56	8	"	48
4 Do of Palmyrah Trees	7	7	"	"
Total	2112	1841	"	271

The decrease is owing to the unfavorable state of the season.

The following account exhibits the particulars of the Beriz from the Government Plantations and the Charges incurred in this

fusly.

Fort St. George 14th February 1856.

I have the in the 24th para of this report referred to that portion of the balance that is outstanding, which is due on account of Seway Jummah, and shall in the 44- para refer to the portion due for arrears of Iyen Collections so all that need here be noticed is the balance due on account of Iyen current Collections for Fusly 1264. The Total Amount of balance as shewn in the 14th Column of the foregoing Statement is Rupees 3935- Of which Rupees 2315 is recoverable and the remainder Viz. on Account of River Toll Collections under the head of Sundry "Small Farms and Licenses" Rupees 60 and on account of Moturpha Rupees 1560 Total Rupees 1620 at present appears to be irrecoverable.-

As regards the balance on account of Moturpha, enquiry will as usual be held at the Jummabundy for Fusly 1265, and reported in the report for that year. In respect to the balance of Rupees 60 due on account of River Toll Collections I beg to state that the Contractors for Fusly 1264 of River Toll for the Taloke of Adonie complained that a ferry had newly been established at

Fort St. George 14th February 1856.

at the Villages of Hadiganahal in that portion of the Nizams Territory which has been transferred to the Management of the Officers of the Company's Government opposite to his Ferry at Hutcholee. And that it had occa-sioned a loss to him I communicated with the Commissioner of that Division and ascer-tained the fact of a ferry having been newly established there and ascertained thro the Tahsildar that the loss the Contractor had sustained was great, and promised to give his case due consideration. the Sum Collected from him is Rupees 1365 leaving a balance of 60 Rupees the Amount of his Contract being Rupees 1425- I request that the sanction of Government may be obtained for the remission of the 60 Rupees in Compensation for the loss he sustained by the New Ferry.-

43. The following is a short state-ment of the Net Collections after deducting the charges of all the branches in question for Fusly 1264 and the two preceding Faslies.-

The

Fort St. George 14th February 1856.

There was an increase of Rupees 21726 in the Collection of arrears being on account of Ab Karry and Moturpha Revenue In the Collection of Current Revenue there has been a decrease of Rupees 69458 owing to a decrease from the abolition of the Sayer and in the Ab Karry and Sundry Small Farms and Licenses and Moturpha Peruz. The increase of Rupees 770 in the Extra Collections need no explanation. the decrease of Rupees 3111 in the Charges is attributable in the abolition of the Sayer Establishment from 16th August 1854.

44. In Statement B it will be seen that the Total demand on account of balance of previous years is Rupees 2444. Of this the sum of Rupees 227 was collected up to the end of October of Fusly 1265 leaving a balance of Rupees 2217. under the following heads.

Moturpha		2209

and the Amount that is not recoverable under the head of Moturpha id Rupees 1938 as follows.-

For Fusly 1262 ——— 680
——— " ——— Do " — 1263 ——— 1258
1938

Of this irrecoverable Amount I recommended in my Extra Revenue report for Fusly 1263 that the sum on account of Fusly 1262 being Rupees 679-9-2 should be remitted, and the Board in the 6th para of their Extract of Proceedings dated 25th June 1855 intimated their intention of recommending the same for sanction. The Amount of Balance Viz:- Rupees 1258 4-11- on account of Fusly 1263 having been ascertained at the Jummabundy of Fusly 1264 to be irrecoverable I request that the sanction of Government may be obtained for it being struck off the Accounts. The following statement exhibits an account of the same.-

Abstract shewing Land Revenue & Extra renenue.-

45. I have nothing to say in regard to the preparation of Sugar.-

46. The following is an Abstract shewing the Agen & Extra Collections of Land Revenue and Extra Revenue for fusly 1264 Compared with the previous year.-

Items.

Fort St. George 14th February 1856

The decrease Rupees 2,968 in Extra. collections of Land Revenue was in the heads of Number Thunky and Moolky fines under Ordinary circumstances.

Collections within the year.

47. The following is an abstract Statement of the actual Collections of all branches of Revenue both arrears and Current under Ordinary and Extra Ordinary within the year as Compared with the preceding year.

Items.	Fasly. 1263	Fasly. 1264.	Comparison: Increase	Decrease
Ordinary Receipts. Land and Extra Revenue	2,97,763	2,10,255	2,12,492	"
Sayer Ditto	9,385	8,005	"	1,380
Total Ordinary	2,207,148	2,18,260	2,11,112	"
Extraordinary Receipts. refunds of Marramut & servants wages	34,947	88,487	54,440	"
Total	22,44,095	25,06,747	2,65,552	"

The causes for the increase under the head of "Ordinary Receipts" have been already explained the net increase of Rupees 54,440 under the head of "Extraordinary Receipts" is attributable chiefly to refunds of the unexpended portion of the amount that had been advanced for the famine roads to the Superintendent of Roads consequent on the discontinuance of those works from the end of November 1854.

Charges Extract Minutes Consultation 6th August 1852. Extract Pro: Rent 26th Do.

48: The charges arranged according to the instructions of Government are exhibited in the following statement.

Items

Fort St. George 14th February 1856.

Total		Total Charges	1286589	979994	"	306595
		Percentage of the Charges on the Gross collections	58—5—"	40—8—"	"	"

For St. George 14th February 1856.

From this it will be seen that the total amount of charges for this year is Rupees 9,79,994 and that it bears a proportion of Rupees 40-8 per cent to the Gross collections it is below last years amount by Rupees 306,595. The amount expended on famine roads from July to November Viz:- Rupees 5,34,688 is included, the amount of charges exclusive of this extraordinary and occasional item is Rupees 4,45,306— which bears a percentage of Rupees 18—6—6 to the Gross Collections.—

The decrease in all the usual items is attributable to the alteration made in the July year in accordance with the Extract from the Minutes of Consultation dated 12th April 1855. The decrease of Rupees 26672 under the head of Repairs of works of Irrigation is attributable to less charges incurred in this year than the last on account of the works that had been injured by the floods in the years 1851 and 1852.—

The conduct of the subordinate European and Native Officers.

49. I have the honor to enclose the Sub Collector's Mr. Sebastian's Report

For St. George 14th February 1856.—

Report which enters in full detail on the settlement of the Talooks of the Sub Division under his charge. Mr. Chase joined the District as Head Assistant as the settlement commenced, and superintended the settlement of two Talooks. Mr. Breeks undertook the settlement of Yadakee and was then removed from the District to the Accountant General's Office, and I lost his services which were just becoming valuable to me. Mr. Horsley assisted me generally in the settlement, and I have much gratification in reporting that I have received from all the above named gentlemen cordial cooperation in the discharge of all the duties entrusted to them. Mr. Charles Raymond Pilly was promoted and removed to Canara as Head Assistant at the commencement of the settlement. It is but due to that gentleman to state in this place that I highly appreciated his services during a period of six years in which he served as an Assistant in this District.—

My Head Sheristadar —

Neelacanta Row

For St. George 14th February 1856.

From this it will be seen that the total amount of charges for this year is Rupees 979994 and that it bears a proportion of Rupees 40.8. per cent to the Gross collections it is below last years amount by Rupees 306595 the amount expended on famine roads from July to November Viz:- Rupees 534688 is included, the amount of charges exclusive this extraordinary and occasional item is Rupees 445306 — which bears a percentage of Rupees 18—6—6 the Gross Collections.

The decrease in all the usual items is attributable to the alteration made in the July year in accordance with the Extract from the Minutes of Consultation dated 12th April 1855; the decrease of Rupees 26672 under the Heads of Repairs of works of Irrigation is attributable to less charges incurred in this year than the last on account of the works that had been injured by the floods in the years 1851 and 1852.

The conduct of the subordinate European and Native Officers.

49. I have the honor to enclose the Sal Collector's Mr. Arbuthnot's Report

For St. George 14th February 1856.

Report which enters in full detail on the settlement of the Talooks of the Sub Division under his charge. Mr. Chase joined the District as Head Assistant as the settlement commenced, and superintended the settlement of two Talooks. Mr. Breeks undertook the settlement of Yadakee and was then removed from the District to the Accountant General's Office, and I lost his services which were just becoming valuable to me. Mr. Horsley assisted me generally in the settlement, and I have much gratification in reporting that I have received from all the above named gentlemen cordial cooperation in the discharge of all the duties entrusted to them. Mr. Charles Raymond Pilly was promoted and removed to Canara as Head Assistant at the commencement of the settlement. It is but due to that gentleman to state in this place that I highly appreciated his services during a period of six years in which he served as an Assistant in this District.

My Head Sheristadar —

Neelacanta Row

2531

Fort St. George 14th February 1856.

Neelacontarow has continued to devote himself to the public duties with his well known fidelity to Government; but I regret to observe that increasing years after a very long service of half a century are evidently impairing the efficiency of this valuable Officer and seem to recommend an early retirement from the toils and responsibilities of the office of Head Sheristadar, which situation he has held for 22 years with so much credit and honor. Whenever Neelacontarow may seek for retirement into private life I hope I shall be permitted to exercise the pleasing duty of bringing his claims to the favorable consideration of the Board and Government in a fuller manner than would be proper in this report.

It will be seen that Mr. Arbuthnot speaks in high terms deservedly of his Sheristadar Lekcumbaraiow - and it is due to the other two sheristadars Shamrow and Narrainrow

2532

Fort St. George 14th February 1856

Narrain Row to report that they have given me much satisfaction by their laborious and zealous attention to their duties.

Bellary Collectors Office 12th November 1855

/Signed/ C. Pelly
Collector.

Bellary Collector's Office
12th November 1856

E. E. & S. / signed C. Pelly
Collector

No. 71

To

C. Pelly Esqre
Collector of Bellary.

Sir.

1 I have the honor to submit my report regarding the Settlement of Land Revenue of the five Talooks of the Sub Division for fusly 1264 together with the accompanying Statements.

2 In accordance with the views of the Board of Revenue conveyed in their Circular dated 3rd October 1853 the Settlement of Anantapoor Talook one of the Talooks of the Sub Division was conducted by the Collector and the Jummahbundy of Madugerah in Collector's Division was settled by me in Cusbah Stations of each Talook. The Settlement of the other four Talooks in the Sub Division was made by me

within

within the limits of each Taloohs as particularized in Statement No. 1, From Statements No. 1 and 4 you will observe that the number of Ryotwar and Shrotriem Villages with the exception of Kayem Jody, Surva Enam, and Service Sahageer Villages is 594 and (as) that there is no uninhabited Village in the Sub Division. —

3. In conformity with the orders of the Board of Revenue conveyed in the 8th para of their Proceedings dated 9th August 1855. I have the honor to submit a report on the Settlements of Land Revenue of Madegerah Taloob in Collector's Division which was made by me in the Fusly under review.

4 Subjoined is an abstract of Statement No. 1 shewing the number of Villages and the tenure under which they are held. —

Fuslies

Fuslies	Ryotwar Villages	Shrotriem Villages	Kayem Jodee Villages	Surva Enam Villages	Service Sageer Villages	Total
1263	528	66	12	13	2	621
1264	528	66	12	13	2	621

5 The following Statement shews the increase and decrease of Cultivation under Tanks which are the principal Sources of Irrigation in the Sub Division. —

Fuslies

Fort St George 14th February 1856

From the above Statement it will be observed that the Cultivation under Tanks in the year under review exceeds that of the preceding fusly which is attributable to a more abundant supply of water having been received in all the Talooks of the Sub Division with the exception of Dharmaverum Talooks in which there was a decrease in this Cultivation.

The following is an abstract exhibiting the extent of Cultivation under Tanks in Madugserah Talooks

Fuslies	Cultivation Acres	Assessment
1263	5,180	47.293
1264	7.386	61.446

6 In Para 4 of Extract of Proceedings dated 9th August 1855 the Board Remark that it will be of

8 The Tusildees in the above Statement No 2 shewing the details of Puttahs and Pattahs for Fasles 1263 and 1264.

Fort St. George, 14th February 1856.

The cause of decrease in fusly 1261 is in consequence of decrease in the Cultivation of dry lands and in the beds of Tanks.—

9 The Statement regarding rent roll will be Submitted Quinquennially as directed by the Boards in their Circular dated 13th June 1853.

10 The year under review was unfavorable for dry Cultivation. In May and June there was a slight fall of rain and a small extent of land was then brought under Cultivation but the crops perished from want of timely rain. Subsequently from the latter part of August to ends of October there was a heavy fall of rain and a great extent of land was then Cultivated. The yields of the dry crops was generally favorable with the

Fort St. George, 14th February 1856.

the exception of grain which having been attacked by disease the yields was poor. Tandjatty is the only Taluk in my Division where the soil is black. The yield of the crops in some Villages of this Taluk was less favorable than that of the preceding fusly owing to the crops having been attacked with blight. In Madugeerah Taluk there is a decrease in the Cultivation of dry land to the extent of acres 3767 as compared with preceding fusly owing to the failure of the early rains.—

11. Cholera Regret to report prevailed in all the Taluks of the Sub Division from July to November. The number of persons attacked with the disease amounted to 2578 of whom only 818 recovered. Subjoined is a Statement shewing the casualities and the number of cases in each Taluk.—

Notwithstanding

2019

Fort St George, 14th February 1850

Notwithstanding the failure of part of the Dry crops the Ryots were glad of the consequent rise in the prices of Grain as their profits on the wet Cultivation were thereby enhanced. The former Rates of the Roads until November appeared to Ryots sensible of and grateful for the liberality of Government. The Board also in the 9th para of their Cobrah of Proceedings dated 22d January 1855 observed that the Merchants wholesale sale prices in Statement No 1 shew the rates at which they purchased Produce from the Ryots viz Rice of 1st sort per Candy of 560 lbs Rice 2d sort Gram Cotton per Candy of 784 lbs Ragy per Candy of 560 lbs Gingelly Oil per Candy of 560 lbs Cocoanuts per 1000 Jaggery per Candy of 560 lbs Tamarinds per Candy of 560 lbs Salt per Candy of 560 lbs Chillies per Candy of 560 lbs Coffee per Candy of 560 lbs Pepper per Candy of 560 lbs Cardamums per lb Sandal Wood per Candy of 560 lbs Ginger per Candy of 560 lbs Turmeric per Candy of 560 lbs Betel Nuts per 1000 Cloves per lb Cassia per lb Nutmegs per lb Mace per lb Camphor per lb Benjamin per lb Gum Arabic per lb Myrrh per lb Olibanum per lb Aloes per lb Assafoetida per lb Rhubarb per lb Senna per lb Ginger per Candy of 560 lbs Turmeric per Candy of 560 lbs Betel Nuts per 1000 Cloves per lb Cassia per lb Nutmegs per lb Mace per lb Camphor per lb Benjamin per lb Gum Arabic per lb Myrrh per lb Olibanum per lb Aloes per lb Assafoetida per lb Rhubarb per lb Senna per lb

Irrigated Lands.
(1) Description of Lands.
(2) Sources.

Thus

Fort St. George, 14th February 1856

This statement is caused by the difference which are merely all rent bale in four Taluks of the Sub Division) having been kept waste in consequence of the failure of the early rains, and the seeds of Dry, which were entered under last year, could not be cultivated in the present Fusly for want of water to supply it. The latter rains. The decrease in the cultivation of Lands depended on the Nullahs and wells is owing to there being a supply of water in those Lands which are kept when dry are cultivated by means of Nullahs and Wells and also from the scarcity of Rain. — See the 13th Para of the Colrals of Proceedings dated 22d January 1853 the Board of Revenue stated that care should be taken hereafter to make Statements No 9 exhibit with correctness the (1) item or Calculate accurately the (2) item by the Collectors with the Reports. Sheriffs to report that there is always a steady

Fort St. George, 11th February 1856

great discrepancy between the Caboo-
-laty Beriz and that of Jummah-
-bundy in this District inconsequence
of the means of Irrigation being de-
-pendent on the rains which often
fail after the Caboolaty is completed
The Fusul Jasty and Teerwa Jasty
for lands entered in the Caboolaty if
left uncultivated from want of water,
and all Puttah lands left unsown,
are struck out of the Caboolaty in the
Jummabbundy accounts, and the re-
-mainder is the amount of the Tah-
-sildar's Caboolaty from which a de-
-duction is made under the heads of
Shamilab or Caboolaty Bunjar, for
parts of farms left uncultivated
This practice of Dittum has been ap-
-proved by the Board as expressed
in their Proceedings dated 7th February
1843 on the Jummabbundy report of
the Collector for Fusly 1251. If the
Board required the Caboolaty or
Dittum according to the agreements
made by the Tahsildars with the

Ryots

Fort St. George, 14th February 1856

Ryots to be entered in future in State-
-ment No. 9 the amount of Remissions
to be granted in the Items of Fusul
Jasty and Teerwah Jasty will be
increased to a great extent.

15 In accordance with the
Board's Circular dated 14th September
1854 the particulars of Caboolaty Bunjer
entered in Statement No. 9 are specified
in the following Statement:-

		Fusly 1263	Fasly 1264	Comparison Increase	Comparison Decrease
Dry Lands		54,237	53,039	"	1,198
Irrigated Land	Under Tanks	73,274	51,095	"	22,279
	Do Nullahs	14,269	14,150	"	119
	Do Wells	16,884	15,889	"	995
	Total	104,427	81,034	"	23,393
Grand Total		158,664	134,073	"	24,591

This decrease is owing to some lands both Wet and
dry which were left uncultivated last year having
in Fusly under review been brought under cultivation.

16 The subjoined is an abstract
of Statement No. 10 shewing the net
Settlement of Fusly under review as
compared with the preceding year.

Fort St. George, 14th February 1837

The decrease in acreage in attributable to the decrease of Cultivation in dry Lands. Although there is a decrease in the Cultivation of Lands under wet wells in the Fasly 1264 the increase in Cultivation of Lands under Tanks has more than counterbalanced that decrease. The particulars regarding the Cultivation of Lands dependent on Nullahs & Wells in the Fasly of Lands are given in the following abstract. —

From Fr George, 11th February 1856.

The causes of Increase and Decrease is attributable to the reasons mentioned in the foregoing Head. I have formerly to the order of the Board contained in the 8th Para of their Proceedings dated 22nd Jan: ary 1855 the amount of Assessment for is inserted in Statement No 10 of 14 inclosed as in Statement No 9.

2 The following is an Abstract of Statement No 11 exhibiting the amount of Sunjeer charged on Pools & Cuts Completed with that charged in July 1263.

only where profitable Land.				
Total	7127	1420	"	5707

This

This decrease arises Ryots having been charged with only a small extent of Benjer in fusly under review.—

18 The reasons for the difference in the items of remissions granted on the actual cultivation as particularized in Statement No. 14 are specified below.—

1st The decrease of Remission Rs. 245 in the Item of 33 per Cent is owing to some of the lands cultivated last year by Wells having been brought under cultivation by Tank water in fusly under report.

2d The increase in the remission of 25 per Cent. amounting to Rs. 4,705 is owing to an increased Cultivation in the lands under Tanks.—

3d The increased Remission Rupees 106 in the Item of Cumdachar and Cuttoobadey Peons is to be attributed to some of their lands which were left uncultivated last year, having in fusly 1264 been brought into Cultivation.—

Inside.

5th Small decrease in Dasaiundum Remissions.—

6th The decrease Rupees 20 in the Remission of Shotriem Villages arises from the decrease of Cultivation in these Villages.—

7th The decreased Remission Rupees 333 in the Item of Shamilat Payamaly for lands destroyed by flood is inconsequence of these lands having been given up by Ryots in fusly 1264.—

8th The Statement No. 29 prepared according to the note mentioned at the foot of the Boards form No. 17 exhibits the fixed Cowle granted in conformity to the Cowlenamah issued in fusly 1216. by which it will be observed that the amount of Rupees 118 for lands held on Cowle up to end of fusly 1263 Rs. 46 has been deducted for the expiration of Cowle and the remaining amount Rs. 72 is still under Cowle.—

The Statement No. 17 gives all particulars regarding progressive Cowle and the following is an abstract thereof.—

Items

2031. Fort St. George, 14th February 1850.

Although there was a decrease in Assessment of Rupees 306 from the expiration of Cowle on lands held on Cowle up to end of last year, and also from some Cowle lands Cultivated last year having in fusly under review been left waste from failure of rain yet the increase Rs 310 derived from lands newly taken up by Ryots for Cowle in fusly under report does more than cover this decrease and hence an increase of Rupees 92 in the remission of the progressive cowle has taken place.—

11th Subjoined is an abstract of Statement No 30 Shewing the details of Cowle granted in accordance with the order of the Board dated 17th July 1851 for lands which were damaged by the Storm in May 1851 and by the heavy rains in 1852.—

2033 — Fort St. George, 14th February 1856

The decrease in the Remission Rs. 1892 arises from the expiration of Cowle on lands held on Cowle upto and of Fusly 1263 and also from the Cowle lands cultivated last year having in fusly under review been left waste from failure of rain. If the increase of Assessment Rs. 667 derived from the lands newly taken by Ryots in fusly 1264 is deducted from the decrease of Rs. 5,260 there remains a net decrease of Rupees 4,593.—

12th The decrease Rupees 176 in the Item of Cayem Moonasib Cummi is to be attributed to a decrease of Cultivation in highly assessed lands.—

13th The cause of decrease Rupees 59 in the Item of Moonasib Cummi granted to poor Ryots is owing to a decrease in the Cultivation of their lands.

14th	Carisal	88
15th	Crops withered	2,543
16th	Cadalee	170
17th	Loss of Produce	370

The decrease in the Remissions of the above Items is to be attributed to a better produce of Crops in fusly under review.—

18th The increase Rupees 326 in the remission of Tufsul Cummi is owing to some of the highly assessed two Crop lands having in

fusly.

The

Fort St. George, 14th February 1856

1st The decrease of Acres 614 and Assessment Rupees 2390 exhibited in the Sugarcane Cultivation is to be attributed to a deficient supply of water in the Tanks in the month of April at which time this Cultivation usually Commences. The prices of Jaggery and Sugar are specified below.—

Taulucs.	Jaggery per Maund			Sugar per Maund		
1203	"	12	"	1	12	"
1204	"	12	"	1	12	"

2d The increase in Assessment Rupees 2762 in Cotton Cultivation is owing to an increased Cultivation having taken place during the Later rains in Sandpatry Talooks where the Soil is nearly all black and the decrease in Acres 6.57 is attributable to the decreased of this Cultivation in the other

Fort St. George, 14th February 1856

four Talooks of the Sub Division (where the Soil is red) owing to the failure of the early rains.—

3d The decrease in the Indigo Cultivation is chiefly owing to the failure of first rains and the Ryots have cultivated other crops during this unfavorable Season to procure fodder for their cattle.—

4th There is a Small increase in wheat cultivation what is carried on only to a Small extent in the Talooks of the Sub Division.—

20 The Statement No. 23 Shews the particulars of Demand and Balance on account of Sevoy Summah and the following is an abstract of the Same.—

Of

Of the balance of arrears amounting to Rupees 88-9-2 a sum of Rupees 16-2-18 was recommended by me in my last report to be written off but no Sanction has yet been received. The Remainder Rupees 72-8-6 appears to be irrecoverable, I therefore request you will recommend this amount to be written off.

× By Poverty of Ryots	88-10	
	57-9	
For loss of crops & for withered crops as well as for Carcasall	15-7-9	
	72-8-6	

With regard to the balance of Rs. 7-9 I shall after holding an enquiry at the Immanahbundy of Currumb fully make a full report on the Subject.

21 The Subjoined is an abstract of Statement No 15 exhibiting the details of ready money collections made on Enam Lands.—

Items.		Fusly 1263	Fusly 1264	Comparison Increase	Comparison (D)ecrease
Cist Enam Lands.	Jody on Enam Lands	21168	20839	"	289
	Mayem Jodees	126	126	"	"
	Neersarghee	1863	1863	"	"
	Enam Suffrich	315	246	"	69
	Neik Rent on lands occupied by Houses & Gardens &c.	11	11	"	"
	Total	23768	23410	114	358
	Net Decrease				244

1st The decrease Rupees 289 in the Item of Jody is consequence of some lands liable to Jody having been left waste from failure of Rains.—

2d The decrease Rupees 69 in the Item of Neersarghee arises from the Dry Enam lands, which were cultivated last year by Tank water, having in fusly under review been left uncultivated from deficiency of water.—

3d The increase Rupees 114 is attributable to the increase of Cultivation in Wet Enam lands under Tanks.

22 The Statement No 8 Shewing the Enam Cultivation in Circar Villages will be forwarded quinquennially as directed by the Board but a brief account of this Cultivation in fusly 1264 as compared with that of Fusly 1263 is given in the following Abstract.

Items

Fort St. George, 14th February 1836.

The increase in the Cultivation of irrigated lands is to be attributed to a larger supply of water in the Tanks under which the Cinam lands have been cultivated and the increased cultivation in Dry Cinam lands is owing to lands having been brought under cultivation in Sadapatty Taloks during the latter Rains. —

23 The following is an abstract of Statement No. 13 exhibiting the particulars of gross increase and decrease.

Gross Decrease

Decrease of Assessment

Nil Fusly 12 Bi

Do Lands of Landlords

The causes of increase and decreases are mentioned in Paralh of this report & the details thereof are specified below:

1st Mem. Increase of Cultivation. Assessl. Demand 53179 - 36384

Details thereof

By Ryots who had no Puttahs in last year ——— 20,600 - 12,216

By Old Ryots ——— 32,579 - 24,002

53,179 - 36,218

The amount of Rupees Assessl. Demand 4.679 - 1984 mentioned in the foregoing Statement arises from exchange of Items in consequence of Dry lands in Ryots Puttahs having been Cultivated with such Crops & from some of the dry lands having been planted with Cocoanut and Betelnut Trees & from some of the Dry lands converted into Wet having been Cultivated with dry Crops and from some of the Garden lands having been cultivated with

with rice, as well as some of the Garden lands converted into wet having been Cultivated with Garden Crops & from some lands entered in Survey accounts as wet in some Villages of Pongondala Taloob having been erroneously entered in Ryots Puttahs under Garden lands. If this amount is deducted the remainder is the amount of increase in Cultivation.

2nd Mem increase of Rent ——— " ——— 37,227

Particulars thereof

From Cultivation of lands which were not sown last year — 33171

From lands Cultivated both in last and present years ——— 4.056 Viz.

From reduction of 1/4 remission made in the year under review instead of 1/3 given in last year and from savings in remissions in Shotriums Villages in which Cultivation fell short of last year, as well as from savings in Customary remissions — 1,214

Fort St. George 11th February 1856

Savings from Cheddily from
expired Cowle lands as well
as from Savings in Pagamaly
lands for which Cowle was
granted ——— 1,913

Savings from Remissions
given in last year for loss
of crops ——— 2,316

Savings from a decrease
in ready money allowance
to Village Servants ——— 73

1,956

Gross decrease 37,227-33,179-731/5

1st Item decrease of Cultivation ——— 7,289-36,739

Details thereof

By Ryots who gave up their
entire farms ——— 1,086 : 29,361

Amount given up by Ryots
who have relinquished only
a part of their lands ——— 31,203-153/5

7,289-36,739

Particulars thereof,

For want of water and
from lands in the beds
of tanks which could
not be cultivated — 387/89-23,193

From other causes — 2,796-11,503

Lands given up in ex-
change for other lands 1,375-1,688.

From resumed Enam
lands given to Village
Servants in accordance
with the order of Govt.
dated 10th June 1834 } 19-15

7,289-36,739

Fort St. George 11th February 1856

2d Item decrease of Rent. ——— 29,421

Details thereof

From Deductions made on lands
left waste in the year under re-
ference owing to insufficiency
of water ——— 26,579

From Remissions given in the year
under review on lands Cultivated
both in last and present years. — 2,822 Viz.

From 1/3d Remission having been
granted in the year under review
instead of 1/4th given last year and
from the increased deductions
made in the year under review
in Shrotriem Villages in propor-
tion to the Cultivation as well
as from the Customary Remissions. 613.

From Cowle having been granted
on lands damaged by the Storm
in May 1851 ——— 4

From Remissions given for loss
of crops ——— 2,169 Viz.

From discretionary Remissions
granted to poor Ryots —— 42

From Remissions given on
two crop lands which
yielded only one crop —— 924

From Remissions made
on

Fort St. George 14th February 1865

our enquiry for loss of crops from insufficiency of water ——— 1.203 Vizt.

For Carisal ——— 153.
Do. Withered crops ——— 613.
Do. Cudeebee ——— 77.
Do. Loss of Produce ——— 370
1.158

For crops destroyed by water in the beds of Tanks ——— 45
1203 ——— 2.169

From the decrease of yearly money allowances to Village Servants ——— 30
2.822 ——— 29.471

Deduct the amount of Crops increased ——— 53179.73475 ——— 11789.66150

Net amount 18.110 — 7.295

(Decrease. Increase.)

24 The Statement No. 27 gives all particulars regarding the lands and Extra Revenue in the Sub Division for Fusly 1264, and the following is an abstract of the same shewing the comparison thereof.

	Items.	Revenue of Fusly 1263	Revenue of Fusly 1264	Comparison Increase	Comparison (Decrease)
Land Revenue	Ryotwar	5.27.371	534.925	7.331	"
	Rayam Jody	426	426	"	"
	Total	5.28.000	535.351	7.351	"

	Stamps	1.322	3.163	"	1.039
	Government Plantations	772	780	8	"
	Total	125.333	112.032	"	13.301
	Grand Total	653.333	647.383	"	5.950

Fort St. George 14th February 1865

The cause of increase in the land Revenue is already mentioned in the foregoing paras.—

2d The decrease in Abkarry Revenue arises from the unfavorable season.—

3d The decrease in Sundry Small Farms and Licenses is owing to a decrease of Produce in Topes.—

4th The decrease in Moturpha is to be attributed to poverty, deaths and desertion of Ryots.

5th The decrease in Stamped papers is owing to a less number sold in fusly under review.—

6th The Small increase in Government Plantations is owing to an increase of produce.—

The Subjoined abstract exhibits the Land and Extra Revenue in Madugserah Taloks for fusly 1264 as contrasted with that of preceding year.—

	Items	Revenue of Fusly 1263	Revenue of Fusly 1264	Comparison Increase	Comparison Decrease

The irrecoverable balance Rupees 1170-11-6 bears a percentage of annas 3 on the Lands Revenue of Fusly 1263 and the balance of Rupees 184.15.4 in Motarpha Revenue bears a percentage of annas 6 on the total Revenue of this Item and I request you will recommend these amounts to be written off.

29. The following is an abstract of Statement No. 25 exhibiting the Tuccavee or advance made to Ryots on account of Cultivation and the Collections thereof.

Fusslies	Amount Sanctioned	Amount transmitted to the Talooks	Amount distributed to the Ryots	Collections made Within the Fusly year.	Collections made Upto the end of Septr. Fusly 1855	Collections made Total	Balance
1263	7,000	5,300	3,401	2,250	1078	3331	70
1264	7,050	5,500	3,412	2502	123	2,975	187

Fort St. George 14th February 1856

In accordance with the views Government conveyed in the Minutes of Consultation dated 6th January 1853, care will be taken that Tuccavee is not granted except in cases of necessity and real distress but in all the Talooks of Sub Divisions with the exception of Tandapatty Talook there are many poor Ryots who could not undertake their Cultivation under Tanks without this aid. The Balance exhibited in the foregoing Statement will be recovered within the limitted time.

30 The Statement No. 31 prepared according to the Board's Order dated 28th August 1849. exhibits the particulars Regarding the Lands newly acquired during the year under review by public Servants.

2055

Fort St. George, 14th February 1856

Servants in the Sub-Division and Lands previous by held by persons who have this year entered the public Service The amount of lands newly acquired this year is Acres 86 and Assessment Rupees 19.—

Sheets	No. of Persons	Land acquired prior to employment: Circar Acres	Circar Assessment	Canam Acres	Canam Assessment	Lands acquired in July 1261. Acres	Assessment
Old Servants	3	"	"	"	"	86	19
New Servants Employed in the years under review	1	"	"	131	18/	"	"
Palook Varunda	4	"	"	131	18/	86	19

2056

Fort St. George, 14th February 1856.

The red dry lands acquired by old Servants are exchanged for other lands once in 3 years according to the practice of this District but the extent of land exchanged is not shewn in the above Statement.—

31 No Cnam of Pagodahs abandoned for a period of 12 years has been resumed in the Sub Division in fusly 1264. in conformity to the instructions of the Board contained in their circular dated 7th December 1854.—

32 I have much pleasure in acknowledging the great assistance I have received from my Serishtadar Chetumbur Row whose great experience coupled with great ability & application to business renders him a most valuable public Servant. Chetumbur Row entered Government Service as a Flunigary Goomastah in fusly 1228 & has risen gradually through the various grades of Palook Goomastah, Hoozoor Goomastah

2057

Fort St. George, 14th February 1835

Goonnastah, Head Hoozoor Goonnastah till he was appointed Tahsildar of Codecondah in Fusly 1243 He was then promoted by late Collector Mr. Robertson to Raidroog which Talook he managed with great ability and in Fusly 1250 he was appointed to his present Office which he has held for 15 years, and should an opportunity occur he hopes to obtain his promotion as Head Sheristadar of this District, and I trust he will not be disappointed in obtaining what by his long and faithful service he so well deserves I am well aware that you are better acquainted with Chelumber Row's character and abilities than I am, and I make these remarks merely that his claims may not be overlooked should an opening occur.

Read the following Papers.

401
Bd. No 383
From the Secy. to Government

No 99
Extract from the Minutes of Consultation in the Revenue Department under date the 29th January 1856.

Read the following letter from the Acting Secretary to the Board of Revenue.

(Here enter 18th December 1855 No 3358)

In the above letter, the Board of Revenue request the permission of Government to retain for use in their own Office the Iron Printing Press designed for Coimbatore, but which the Collector states himself as not ready to receive. The Board mention several uses to which they could put a Press, and state that they could provide the necessary establishment out of the sanction for their general establishment. They submit also an estimate of the cost of the requisite type and press furniture among to Rupees 643—1—.

2. The Right Honorable the Governor in Council has carefully considered this application but feels obliged to refuse assent to it. The Government had recently under their consideration the question whether

whether it would be better economy to allow the various offices at the Presidency to maintain Presses of their own, or to strengthen the Government Gazette Press so as to make it capable of doing the work of all the Offices, and they were brought to the conclusion that it would be far better to adopt the latter plan of a single Printing Office on a large scale in preference to having several minor ones. In accordance with this decision, sanction has been obtained from the Government of India to enlarge the Gazette Press at a considerable outlay, and that Press, so soon as it shall have completed its Establishment and have obtained the required materials will be in a condition to do all the work of the Boards' office.

To Government of India in the Public Department 6th July 1855 No. 898.

To the President and members of the Board of Revenue.

(A True Extract)
(Signed) J. D. Boardillon.
Secretary to Government.

Ordered that the following letter be sent in consequence.

To

The Secretary to Government
Revenue Department.

Sir.

I am directed by the Board of Revenue to acknowledge the receipt of Extract Minutes of Consultation dated 29th January 1856 requesting sanction for the Boards retaining a Press for

401-B
B. No. 438.
To the Secy. to Government Revenue Depat.
Read 15th Feby 1856

for use in their Office, as the Government Press, on its enlargement, will be in a condition to do all the work of the Boards' office.—

2 In reply the Board desire me to state that they readily acquiesce in the above mentioned arrangement in so far as it relates to the forms, Statements, and other matters, which it is usual to have printed at a public printing Office, but they think that an exception must be made in the case of the current letters and Proceedings which they lay before Government. If these are to be printed it should be done under the surveillance of their own Secretary, and in his own Office for it is obvious that to submit communications of importance designed for the information of Government for prior cognizance in a public printing Office, and by persons not under the controul of the Board would be objectionable in many points of view. In fact it would be just as inconvenient and impracticable to send the Boards current correspondence to be printed in the Government Press, as it would be to transfer the copying work of their current Department, to the Government Office for transcription.—

3. Under these circumstances the Board would submit their request for the further consideration of Government. Their proposal if complied with would involve but little expence and it would be a convenience even to the Government and their Secretariat, if several copies of the bulky Proceedings of the Board can be sent up in print, instead of a single copy in manuscript as they think must be done as heretofore unless the printing is carried on in their own Office.—

4 Under this arrangement the printing of the Boards' Proceedings will not in any way interfere with the operations of the General printing office.—

5 Should the Government on further Consideration accede to the Boards propositions I am directed to solicit sanction as previously requested

To Government 18th December 1855 p. 5

requested for making such changes in the details of the Moyen Zabetah of this Office as may be found necessary.

The Estimate for Type V.cc previously submitted amounted to Rupees 64-3-1-- The Board at first intended only to print such of their Proceedings as it might be thought desirable to set up in Type, upon further consideration however it occurs to them that it would be preferable to commence on a larger scale and to print at the onset all their letters and proceedings- A calculation has accordingly been made of the quantity of type which would be necessary to print these papers on taking them at their average Volume; it is estimated that 900 lbs of type will be necessary and I am desired to solicit sanction for the following larger outlay Viz.t

900 lbs Type procurable at Calcutta at Rs. 1-1. per lb. 956-4-

Cases and other Materials 355-5

1311-9

Or say fourteen hundred Rupees, which sum the Board would wish to be placed at their disposal for printing purposes.

From the Chief Secry to Govt.

403

Extract from a General letter from the Honorable the Court of Directors dated 19th September 1855 No. 10

18 Revenue of the Village Police System

Para 23. We entirely Concur in the conclusions at which you have arrived on this subject so vitally important to the welfare of the

of Society. The Foujdary Adawlut had in substance recommended that the Village Taliars should be superceded by a stipendiary Police The former establishment has constantly been recognized as adapting itself to the Customs of the people and to the scheme of polity by which society is held together in India and as thereby securing general Co-operation in its support- The only question at issue, regards the means by which its efficiency may be best secured without any heavy additional charge. We approve of your having called on the Board of Revenue for specific information on that point and of your having laid down the principle that the remuneration shall always be fixed partly in land and when the land is insufficient the remainder in money- The increased allowance of course will be limited to the number of taliars necessary for the discharge of their Village duties and it may be found practicable in some cases to transfer the supernumeraries with

the Foujdaree Udalut and the Board of Revenue It is observed that since the date of the Review adverted to by the Honorable Court the Government have had under their consideration the reform and improvement of the Village Police of the Trichinopoly Coimbatore Canara and North Arcot Districts. The correspondence relating to the Trichinopoly police,

from the Collectors of Cuddapa Madura South Arcot Malabar and Tinnevelly noted in the margin regarding the exaction of a petty tribute in kind from the Hill tribes be laid before Government in continuation of the Board's Proceedings 22d January 1855 No. 190.

In Cuddapah the Hill produce has been made over to the Chenchoowars (who were previously employed by the Renters in collecting it) on condition of their watching the Ghauts. The Collector states that they have accepted badges as Government servants and that it is consequently unnecessary to require any tribute from them a similar arrangement was made in 1835 with the Chenchoowars in the Koilgoonta Taluk

as

Fort St. George 15th February 1856.

as mentioned in para 6 of the Board's letter dated 6th June 1853 No. 1150.

3. The Collector of Madura has experienced great difficulty in carrying out the orders he received. Three individuals representing themselves to be Heads of families were induced to go to the Collector and agreed to pay ¼ Rupee each for themselves and their families and Mr. Parker proposes levying a similar sum for other Heads of families as they are met with. The Board think it will be preferable to adhere to the plan adopted in other Districts and will instruct the Collector to require a small quantity of the Hill produce in lieu of a money tribute.—

4. In the remaining three Districts the order of Government have been carried out and the Collectors' letters require no remark. The object of the tribute being merely to reserve the rights of Government the Board have not attempted to proportion the tribute to the rents formerly received.

5. The Board regret the delay which has occurred regarding these letters amid the unusually numerous questions

of

Fort St. George 15th February 1856.

of pressing importance which have lately occupied the Boards time, the transmission of these letters to Government was inadvertently omitted.

Bd. No. 453

From the Secry. to Government

Authorizing the arrangement proposed by the Collector of Nellore for the transfer of the Cavelly Talook from his own to the Sub Division &c.

Extract from the Minutes of Consultation in the Revenue Department under date the 5th Feby 1856.

Read the following Extract from the Proceedings of the Board of Revenue.

(Here enter 8th January 1856. No. 63)

With these Proceedings the Board of Revenue submit a correspondence with the Collector of Nellore respecting the enquiry made by Government in para 4 of Extract Minutes of Consultation 12th October 1855. in the Judicial Department as to the place of residence of the Sub Collector of that District. The Board submit a suggestion made by the Collector to transfer the Cavelly Talook, lying South of Ramiapatam, from his own to the Sub-Division as a permanent arrangement, the effect of which, it is stated, will be that the Collector will be relieved of some heavy work, and that Ramiapatam will be more nearly in

Fort St. George 15th February 1856.

in the centre of the enlarged Sub-division. The Board on these considerations see no objection to the arrangement.

2 The Collector also recommends that Ongole should be the Sub-Collectors Head Quarters from 1st November to 30th April, and Ramiapatam for the remaining portion of the year. To this also the Board see no objection, provided it is understood that the Sub Collector is not to confine himself to those two places, but to pass half the year in the three Northern Talooks of his Division, and half in the Southern, moving on emergency to any place where his presence may be required.—

3. The Right Honorable the Governor in Council observes that the addition of the Cavelly Talook to the Sub-Collectorate will not in any degree bring the Northern Talooks nearer to Ramiapatam, but will on the other hand strengthen the plea for the Sub-Collector residing in the Southern part of his charge. He however authorizes the arrangement, on the distinct understanding that the Sub Collector is to reside, as proposed by the Collector and the Board,

Fort St. George 15th February 1856

Board from November 1st to April 30th in the Northern Talooks, and from May 1st to October 31st in the Southern. The Governor in Council desires that it may be distinctly understood that the six months residence in Ongole or the Northern Talooks is to be a bonafide residence and he directs that this be particularly intimated to the Sub. Collector.

4. Ordered that a copy of this resolution be furnished to the Judicial Department with reference to the Extracts from the Minutes of Consultation in that Department dated 12th October and 27th November 1855. Nos. 748 and 863 where the proposition to vest the District Moonsiff of Ongole with Criminal jurisdiction under the provisions of act XII of 1854 will receive consideration.—

Extract from the Minutes of Consultation Revenue Department, under date the 7th February 1856

Read the following

Extract from the Proceedings of the Board of Revenue

Here Enter 28th January 1856 No. 258

With these proceedings the Board submit a letter from the Collector of Rajahmundry reporting on the causes to which is to be attributed the bad quality of the Salt of that District. These causes appear to be partly natural in the character of the soil and the mixture of fresh water in the creeks where the Salt is made and partly accidental in the carelessness or unskilfulness of the makers Mr Purvis has sent for two salt makers from the Nellore District to instruct the people of his District in preparing the salt beds; and he also recommends a change in the mode of paying for the salt. The price is now only 5½ Rupees a Garce at Pittapore and 6½ at Mogultoor but these prices are stated to be too low under the lately increased ratio of wages current in the District, and it is proposed to raise them to 7 Rupees the Garce at both places with the proviso that no salt is to be taken except such as comes up to a certain standard of quality

all

Fort Saint George 15th February 1856

all other to be thrown back into the pans. The Board support this proposition.

2. The Right Honorable the Governor in Council is gratified to find that Mr. Purvis's attention has been given to the improvement of this important article of consumption and of commerce, and he regards the measures adopted as likely to produce a good result.

3. The price or Coodevarum now paid for Salt in the Rajahmundry District is lower than in any other with a very few exceptions and under the circumstances stated the Governor in Council sanctions the increase of that price to 7 Rupees the Garce on the condition that only good salt is to be taken and inferior to be destroyed. He requests that the Collector may be directed to report at the end of the present season what has been the effect of these measures; and he hopes that a material improvement in quality will be found to have resulted.—

3 The Governor in Council will be glad to learn what means may be practicable for meeting the other difficulty noticed by the Collector, viz. the mixture of fresh water in the creeks. Unless this inconvenience can be corrected it may be necessary to change the locality of the pans; for whatever the effect on the quality of the salt, the quantity obtainable from a given quantity of water must certainly be affected.—

In reply to para 5 of your letter of the 5th March last, calling for further information

on

2086 Fort Saint George 15th February 1856.

on the subject of the Drink allluded to in Mr Maltby's letter to your address dated 26th October 1854. I have the honor to state for the information of the Board that I cannot discover that there is any fixed price in the bazaar either for Tobacco or any other article. All are charged for at the rate of the day, and according to supply and demand.

2 The state of things described by Mr Maltby existed perhaps before the abolition of the monopoly as regards Tobacco but other articles were sold as at present.

3 That every thing in the bazaars capable of being tampered with is more or less adulterated by most of the shopkeepers, I donot doubt, but this unfortunately is very much the case in our own Country as well as in India. Here as elsewhere, there are respectable shopkeepers who have a character for supplying articles of good quality, and they obtain as I am informed better prices than less reputable dealers for goods nominally of the same quality and descriptio

422

Bd N. 282

Sir,

From the Collector of Tanjore } Para 1. I have received from the Board four petitions, Nos 2610-2611-2778- and 2852 of 1855.

2 The first brings general charges of corruption against the Head Sheristadar, and of immorality against the Head Tahsildar of Tiruvady; and purports to have been written by an individual of the Tanjore District. — There are upwards of a million and a half of people in Tanjore, and I submit to the Board the impossibility of my discovering the writer of this libel, with nothing to guide me but

his

2692

Fort St George 15th February 1856.

his name. It is so evident that the petitioner never intended to be discovered that I think the petition may be fairly treated as an anonymous one.

3 The second petition charges the Sub Collector with corruption, and although the Board's order endorsed upon it is that, it should be enquired into by me, I take leave to request a reconsideration of the order. The character of the European Officers of Government are surely sufficiently above suspicion to be in themselves a refutation of such loose charges as those, brought forward by an unknown individual, who to avoid detection conceals his name and village name, and a formal enquiry by me into the truth of an allegation that the Sub Collector of the province has been bribed to a large amount, will in my opinion, be attended with very evil results.

4 The remaining two petitions are written in the name of a dismissed peshcar of Keevalore and are very nearly copies of other petitions lately presented by him

to

Fort St George 15th February 1856.

to Government, by whom, after receiving a report from me, an endorsement was given that they were evidently "a tissue of gross and malignant falsehoods, deserving no attention". I beg to be allowed to consider that they have been already disposed of and require no further notice in my part.

5 The four petitions are enclosed.

Tanjore
Vellum 7th February 1856 } (Signed) H. Forbes
Collector.

Ordered that the following letter be sent in reply.

(422-23)

To, The Collector of
Tanjore,

B4 No 439 Sir,

To the Collr of Tanjore } I am directed to acknowledge the receipt of your letter, No 19 dated 7th February 1856 regarding the Petitions noted in the Margin.

2 The Board instruct me to inform you that the charges preferred against the Sub Collector in No 2611 escaped attention, and the Petition was forwarded to you by unoversight. The Board approve

Fort St George 15th February 1856.

approve of your having at once returned the Petition and they leave it to you to inform Mr Cadell that it was transmitted to you solely on error. The Petition will now be recorded as unworthy of notice.

3 With regard to the other Petition I am directed to inform you that as a general rule such addresses are forwarded to the Collectors who are left to deal with them as they deem right. Petitions containing charges against native officers are numerous and many of them are no doubt malicious as well as false. But the Board cannot refuse to receive such Petitions though necessarily ignorant whether they proceed from a real or fictitious party: and as the least invidious course they forward them to the local officer who is conversant with the circumstances of each case knows the character of his employers can generally ascertain what degree of credit should be attached to the complaint. It is left to him to enquire into the charges formally to report in

Fort St George 15th February 1856

on them or to disregard them entirely as he may consider proper and it is not to be assumed that in thus forwarding the Petitions to him, the Board implicitly credit their contents or wish him against his Judgment to enter upon a formal investigation.

Ordered that the Petitions be recorded as unworthy of notice with reference to the Collector's report.

No. 88.

Pd. No. 3713

From the Secretary to Government } Proceedings of the Board of Revenue Saturday the 16th February 1856. — No. 925

Reviewing the Report of Captain Horsley Civil Engineer 8th Division on the improvements effected during the 15 years he has held that charge and his views of the further projects to be undertaken recording their high sense of that Officers labors in his Division and resolving to print the Report for the use of the Officers of the Department and calling on the Collector of Timevelly for information as to the ordinary nature of agricultural labor in that part of the Country where the Cotton wood passes —

Extract from the Minutes of Consultation in the Public Works Department under date the 18th December 1855.

Read the following letter from the Chief Engineer in the Department of Public Works. —

(Here enter 5th November 1855, No. 2449)

Para 1. With this letter the Chief Engineer — forwards copy of a report drawn up at his request by Captain Horsley, Civil Engineer of the 8th Division. — Captain Horsley has held this Division for nearly — fifteen years; and this report contains a summary of the improvements effected during that period, and — his views of the further projects to be undertaken. It is designed chiefly for the use of Captain Horsley's successor, for which purpose it is likely to be very serviceable.

426

2. During the period included in the Report — no projects of great magnitude have been brought forward; but a steady attention has constantly been paid to the improvement of existing works of irrigation, as well as to the gradual development of a system of roads. As a consequence of his efforts under the first head, — Captain Horsley was able in his report for 1851, to — give

give a Statement of the Punjab Cultivation and Revenue of the Division in the preceding fifteen years, which shewed that in the last 5 years of the period, the Cultivation exceeded that of the first five by 60,518 acres, while the Revenue in like manner had increased by 360,963 Rupees, being an increase of 37 per cent. in the former, and of 25 per cent. in the latter. This result which must undoubtedly be ascribed almost wholly to the improved condition of the works of irrigation, is highly creditable to Captain Horsley's diligent and skilful care of those works. As the consequence of his attention to the roads, considerable improvement in there state can be appeal-ed to; and all this it must be added, respecting the works of both kinds has been effected with a very insuffi-cient subordinate agency. —

3. The prospective plans for the improvement of the two Districts are set forth in detail in Captain Horsley's report, the works already submitted or in proposed for entry in the Budget of 1856-57 being given in the two Lists which accompany

Bridge on Shunmooganuddee	15,425

accompany it. Of the latter, it is observed that those for Madura are almost entirely for complet-ing present lines of communication, and perfecting others by the erection of Bridges. The principal of these are the two Bridges over the Shunmooga-nuddee and Vigay Rivers, estimated at Rupees 57,085, and the completion of various lines of road at a cost of about 3½ lacs of Rupees. —

4. In the Tinnevelly district, a new anicut across the Tambrapoorny at Streevigoontum esti-mated to cost 384,172 Rupees and the construction of four different lines of road at an outlay of Rupees 171,934. as well as a Jetty at each of the two ports of Tuti-corin and Collasha-garapatnum are the only important works actu-ally proposed. But among the items of prospect-ive improvements in that District, Captain Horsley mentions the construction of a Reservoir in the valley of the Tambrapoorny river above the falls of Paupanassum. The Government believe that

Fort Saint George 15th February 1856.

that a work of this kind would be found easy of execution, and that it would be of great utility for the irrigation of the country below, and they request that the Chief Engineer will give his consideration to it.—

5. On the whole, the Government have pleasure in recording their sense of the value of Captain Horsley's labors in the 8th Division; and they resolve to direct that the report be printed for the use of the Officers of the Department and particularly of those to be hereafter employed in the districts reported upon.—

6. It remains to notice Colonel Taber's own remarks. With respect to what is styled the unhealthy state of the labour market, the Government must observe that aversion on the part of the labouring classes to employment on Government works, is the natural consequence of the system of driving and compulsion hitherto in use. The penalty for that abuse must now be paid in the difficulty which will be encountered in effecting the substitution of free labour.—

This

Fort Saint George 15th February 1856.

This difficulty will be of greater or less intensity and of longer or shorter duration, according to various circumstances; and in particular according to the tact, knowledge of Character, and care to prevent abuse, which may be displayed by the Officers who under the new system will be the employers of labour in the various localities. In some instances, it has been overcome almost instantaneously; and even in others, free labour is now abundant where but a few years ago it was stoutly maintained that none could be got. The Right Honorable the Governor in Council trusts that the Engineer Officers henceforward to be employed in the Innevelly District, will not be found deficient in that very important qualification for there work, tact and temper in dealing with bodies of labourers, and in securing their confidence.—

7. Adverting to the high rates of hire stated by Captain Horsley to be necessary on the Cotton road, the Governor in Council resolves to call on the Collector for information as to the ordinary price of agricultural labour in that part of the country. In other districts, such a labourer cannot earn

earn more than from 15 to a maximum of 20 Rupees a year; and unless the usual wages in Tinnevelly are much higher, there is a great disproportion in that district between the ordinary rates and those paid for labour on the roads. This difference, so far as it is real and bona fide, measures, after some deduction for uncertainty and for the necessary absence from home, the dislike for Government work. All that kindness and considerate treatment can effect should be done to diminish that dislike; and every means should also be taken to insure that the rates charged do actually reach the labourers without deduction. In reporting the present actual wages of ordinary field labour, which should be ascertained with all possible care and accuracy, the Collector will state also the causes which in his opinion operate to make the necessary wages on Government works so much higher as they seem to be. It is requested that he will give his most careful consideration to this question, which the Government regard as one of much importance, and that he will report on it at an early date. The Chief Engineer, will obtain an answer also from the acting Civil Engineer if he thinks proper.

Colonel

Exc. Mins. Con. Mily. Dept. October 30th 1855 No. 2907

8. Colonal Faber has mistaken the meaning of Government in the order to which he refers in the opening of his 2nd Para. * The Right Honorable the Governor in Council has no objection whatever to the merits of deserving Officers being pointed out, and the remarks in question were not at all intended to apply to the Chief Engineer's praise of Major Cotton for having exceeded the duties assigned him. But in the letter referred to in that order, encomiums lengthened out by numerous laudatory adjectives were passed not only several times on Major Cotton, but on every Officer mentioned in the letter. It is this undistinguishing use of high encomium to which the Government objected, and the Chief ground of this objection is, that such a practice wholly destroys the value of praise, and neutralizes its own object by rendering those most deserving of praise indifferent to it when scattered about with so little discrimination. It must be added that the Course now adopted by Colonel Faber, places Government in the dilemma of either ungraciously refusing a favor which he recommends, or of bestowing praise when they do not

not think it necessary. In fact, it makes it impossible for Government really to bestow any praise or approbation to all; for all that they could have said is already been not only anticipated but much exceeded, by the Chief Engineer.—

Ordered that the foregoing Proceedings be printed and circulated to the Officers of the Public Works and Revenue Departments, together with Captain Horsley's report and its enclosure and the Chief Engineer's letter.—

To,
The Secretary to Government,
Department Public Works.

Sir,

I do myself the honor to forward for submission to Government a set of papers* which Captain Horsley of the Engineers, and late Civil Engineer

* 4. Enclosures.—

Engineer in the 8th Division has been good enough to draw up in compliance with my suggestion. I think that his final report on the provinces of Madura and Tinnevelly will be perused with considerable interest by the Right Honorable the Governor in Council, who will not fail to notice the present very unhealthy state of the labour market in Tinnevelly as affecting the measures that might be taken with great advantage for the improvement of the Districts, particularly that of a capacious supply reservoir situated in the Hills amongst the main feeders of the river Tambraporny which Captain Horsley does not consider feasible in the present condition of the people; and His Lordship will doubtless also observe how greatly the want is practically felt of suitable legislation for the care and management of works of irrigation, and of the available supply of water, so much of which is now wasted and misused.—

2.— It was my misfortune to incur a very

magnitude or extensive influence, the result of a careful, assiduous, and skilled attention to the duties of annual repair and improvement to no one locality more than another, but to the steady patient maintenance of efficiency throughout all the numerous works of irrigation in his range, is an increase in wet cultivation during the last five years of his incumbency over the first five, of no less than 60,000 acres, with a corresponding revenue in excess of £30,000/ three lac and sixty thousand Rupees. I believe I do not err in reporting that in no other Division of the Madras Presidency are the hydraulic works of every kind in a state of equally general efficiency and good repair, owing mainly to Captain Horsley's professional management; and I think it is impossible to contemplate his long service without arriving at the opinion that the beneficient intentions of Government have been admira-

bly

very severe rebuke from the Government in the 7th Para of the Extract Minutes of Consultation, No. 2907 of the 27 October 1855, for using the language of praise in speaking of an officer of the Department who had apparently gone beyond the strict limits of the duty that had been assigned to him; and I should much regret to call forth renewed representations by injudicious expressions of approbation towards the officer whose closing labours I have now done myself the honor to bring to your notice. I hope however that I shall not be considered to again exceed the proper limits of my office, when I solicit the attention of Government to Captain Horsley's zealous and successful services as Civil Engineer in the 8th Division for a period of very little less than fifteen years, hardly broken by a day's absence from duty. It is a peculiarity attaching to the long labours of this officer, that without having brought forward any new projects of notable

magnitude

2707. Fort St. George 16th February 1856.

-bly carried into effect by one of their most conscientious and diligent public servants. The improvement of the communication in the Madura and Tinnevelly Districts has gone hand in hand with the measures for increasing the produce; and numerous large bridges and several important roads now open to the growing traffic of the Province, attest both the liberality of the Government and the industry and ability of the professional officer whose long employment has now drawn to a close.—

3. I venture, in conclusion, to express a hope that such public notice may be taken of Captain Horsley's labours on leaving India, as may evince both to himself and to the Department Public Works generally, how justly his long and useful services have been appreciated by the Government.—

No 107.

To,

Lieutenant Colonel C. C. Jacob

Chief Engineer Department
of Public Works.
Fort St. George.

Sir,

1. As directed in your letter No. 1207, dated 24th September 1855. I have the honor to furnish you with a list of projects already submitted and of such as are with the Collectors of Madura and Tinnevelly, respectively, for their approval and counter signature previous to submission for sanction.—

2. As respects the drawing up of a general report for the guidance of my successor both of my past labours and prospective plans, indicating what I consider the most profitable direction of future efforts at improvement in Madura and Tinnevelly, I will gladly do all that lies in my power to a-

meet

Fort Saint George 16th February 1855.

meet your wishes, but I really do not see that I can add much to what has been already said in the annual reports on important works executed in this division for many years past, nor can I suggest any thing with regard to prospective plans that I have not already suggested in my letter to the Chief Secretary to Government No. 170 dated 9th May 1853. Copy of which was forwarded to the Board of Revenue in the Department Public Works with my letter No. 36 dated 17th idem. —

3. With reference to the 3rd para. of your letter under reply, I regret to say that it has not been in my power to follow up the investigations in the Hills above Pauparapum with a view to the formation of supply reservoirs for the safety of the crops dependent upon the Sambrapoorney river irrigation. My own time has been so completely taken up with the ordinary duties of the division, which year by year are becoming more onerous, and with the

long

Fort Saint George 16th February 1855.

long delayed project for improving and esctending the irrigation to the Eastward of Streevigoontum, that I really could not undertake the further investigation of the Sambrapoorney reservoir project without neglecting current work. It appears to me that if the Civil Engineer is required personally to investigate large projects of this nature he must be relieved of the correspondence and ordinary duties of the division, for both cannot certainly be carried on together. —

4. As mentioned in my diary / general observations / 16th September 1854. I believe it to be perfectly practicable to form an extensive reservoir in the valley of the Sambrapoorney in the vicinity of Shoragmooten Coil, provided the requisite labour be forthcoming; but I foresee great, I may almost say, insurmountable difficulties in procuring labour for a work of this magnitude, situated as it would be in the midst of jungle and far removed from all villages and markets. If it is with difficulty that 500 coolies are collected in the vicinity of Tuticorin for the Trunk Cotton road work, with wages varying from 2 to 3 annas per

List

No 244.

Fort St. Georgé 16th February 1856.

Report of Captain W. H. Horsley for Labours and Inspection Roads for the quinquennial Term ending 8th October

Sir

Having been requested by the Chief Engineer, in the Department of Public Works, in a letter No 1301 dated 24th September 1855, to draw up a general report for the guidance of Government on the subject of my four labours and Inspection during which I constructed the undermentioned Roads and Bridges, and completed the Jetty at Sutacorin, I have the honor to submit herewith a Statement of the Roads and Bridges, Commenced, Completed, and Repaired by me, during the above period, with the Estimated Cost, and Date of Commencement and Completion of each work.

2. Of the Roads and Bridges commenced, and completed, as well as those since undertaken and Repaired, in the Madura District, the Original Estimates, and Plans for their improvement, had been done by the late Government Engineers, and the Estimates for the whole of my Executive Labours, may be considered strictly correct.

2. Of the Roads and Bridges commenced, and completed, as well as those since undertaken and Repaired, in the Madura District, the Original Estimates, and Plans for their improvement, had been done by the late Government Engineers, and the Estimates for the whole of my Executive Labours, may be considered strictly correct.

3. The Jetty at Sutacorin, was commenced in the year 1852, and completed in the year 1854, at a cost of Rupees 4,380, and has been found to answer the purpose for which it was intended, namely, that of affording a safe landing place for Boats, and Passengers, during the Monsoon, when the Surf is too heavy to allow of Boats approaching the Beach.

4. The Bridge across the supplying Channel of Monaloor Tank, on Road No 2, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 499 12 0, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

5. The Bridge across the Vaigay, at Madura, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 2,620, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

6. The Bridge across the Vaigay, at Madura, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 2,620, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

7. The Bridge across the Vaigay, at Madura, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 2,620, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

8. The Bridge across the Vaigay, at Madura, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 2,620, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

9. The Bridge across the Vaigay, at Madura, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 2,620, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

10. The Bridge across the Vaigay, at Madura, was commenced in the year 1854, and completed in the year 1855, at a cost of Rupees 2,620, and has been found to answer the purpose for which it was intended, namely, that of affording a safe passage for Carts, and Foot Passengers, during the Monsoon, when the Water is flowing over the Bridge.

belonging to that Zemindary in the vicinity of Vellelnuddee; but it would appear that formerly the tanks of Andiputty, belonging to Government were supplied by it, and on the 12th September 1854 I submitted an estimate of Rupees 7,898 for restoring the Andiputty channel, as well as the tanks formerly supplied by it to an efficient state; to the Collector of Madura for his consideration, stating at the same time that I did not recommend the outlay unless it could be shewn that it would be repaid in 5 years by increased cultivation. Up to the present time no answer has been received from the Collector on the subject, and I conclude, therefore, that he does not consider it likely that the increase in cultivation would be proportionate to the expense. The next in order is the Coonoor Anicut. This work was in a ruinous state when I first saw it, and was restored in the years 1847 and 1848 at a cost of Rupees 1975-0-0.

Below the Coonoor Anicut are the Pareanai and Chittanai Dams, both valuable works to Government

of stone laid in steps, with a front wall of brick in Chunam. The height from the crown of the work to the bed of the river in rear varies from 3 to 5 yards; and during very heavy freshes it frequently happens that these stones are displaced by the action of the water upon them. I have endeavoured to remedy this by coating the upper layer of stones with broken stone jelly in Chunam, so as to fill up the interstices between the large stones and give a tolerably smooth surface for the water to flow over. This has answered very well in several instances but it would be better, when esctensive repairs are required, to rebuild the Anicut throughout with stone in Chunam on a proper section. The Vegay river itself is crossed by 4 masonry Anicuts. The first is situated about 4 miles South of Vellelnuddee, in the Thenkerry Salook, and has been rebuilt within the last 7 years by the renter of the Gunjapandickenoor Zemindary. At present it serves only to supply the lands belonging

Government. They have had considerable outlay on them from time to time for repair, and within the last 2 years I have had a portion of the crown of each faced with cut stone, as nothing else will stand against the strong currents in this river. It is highly desirable that the remaining portion should be treated in the same manner. Head sluices are required at the head of the channels / Vuddakurray and Shenkurray / proceeding from those Anicuts, to regulate the quantity of water thrown into their respective tanks. There are no Anicuts on the Vigay river below the Chittamai, but numerous channels are taken off it by means of temporary Coorumboos for the irrigation of the lands on either bank, and it is seldom that any surplus finds its way into the sea. These channels have all received attention from year to year, and the Nellyoor channel, in particular, has had a large outlay upon it for masonry sluices as well as for deepening and widening. — The

3. The principal tanks in Madura are those supplied by channels from the Vigay river, viz^t Vuddagarry, Shenkurray, Maudacolum, Cottagoondu, Shencaul, and Vundyoor, in the Mundacolum Talook. —

4. In the Shiroominglum Talook also, there are some large tanks supplied by the Goondaur and Shevaracotta Rivers, of which may be enumerated those of Shundaly, Naysanairy, Shevaracotta and Crayoor. All these tanks have had constant repair under the head of Ordinary, and are in tolerable order at the present time. —

5. In the Meyloor Talook, the tanks are in general small. There are two, however, which are exceptions, viz^t the Coonatoor and Angadymungalum Tanks. For the supply of the latter a new arrangement has lately been sanctioned, which will, it is hoped, be attended with benefit to the Cultivation under it. —

6. In the 4 Talooks forming the Sub-division, the principal irrigating rivers are the Munjalaur, Venkatadriancotay, Codavenaur, —

Mongangeaum

Fort Saint George 15th February 1856.

Nanganeeaar and Shunmoogamuddee. All these rivers are crossed by numerous Anicuts formed of large masses of stone, packed together in layers, with a front wall of Brick in Chunam, and in some instances coated with Jelly in Chunam over the crown. They are very liable to get out of order, and therefore require constant attention.—

7. The tanks in the Sub-division are tolerably numerous, but nothing particular as respects dimensions. They have been repaired from time to time as occasion required, and are at present in a tolerably efficient state.—

8. The reports on important works furnished annually to Government shew the particular works which have been undertaken from year to year in Madura, and the general results as respects increase in cultivation and revenue.—

9. As regards new works or important improvements to old ones connected with irrigation I do not see that there is much room for

Fort Saint George 15th February 1856.

for such in Madura, except it be by damming up some of the mountain streams flowing from the Pulney range of mountains, so as to form extensive reservoirs at their foot. If this could be effected, there is no doubt the wet Crops dependent upon these streams would be rendered more secure, and probably a greater extent of land might be brought under cultivation.—

10. The principal irrigating rivers in Tinnevelly are the Tambrapoorney and Chitta-ur. The former is crossed by 7 Anicuts, two of which are formed of rough stone boulders, and the remainder of solid Masonry. They are all very important works and require, with the channels proceeding from them, constant attention. The Cunnadien Anicut was rebuilt throughout in 1842, and that of Sootoomullay has twice had extensive repairs, viz. in 1842 and 1855. A great deal also has been done to improve the Mailacaud and Keelacaud channels thrown off by the Murdoor Anicut below Palamcotta.

Several

Fort Saint George 15th February 1855

Several thousand cubic yards of rock have been removed and their beds widened to 14 yards. A better arrangement also has been effected of the supply of the Streevigoontum Peracolum, and the tanks dependent upon it to the East-ward, from which a large revenue is derived to Government. A head sluice is much wanted for the Mailacaud channel, and it was my intention to have prepared an Estimate for it for insertion in the Budget of 1856-57. but I have not been able to take the necessary measurements. For want of a work of the kind the channel banks are liable to be breached in high freshes. The channels from the Tambrapoorney and the tanks supplied by them require constant attention. Some stringent regulations are much wanted to prevent the ryots encroaching on the channel banks, and the channel establishments should be placed under the orders of the District Engineer. The Anicuts across the Chittaur are much more numerous

Fort Saint George 15th February 1855

numerous than those on the Tambrapoorney, but not nearly of the same importance: They are all built of solid masonry and some of them have received extensive repairs during the last fifteen years. Considerable improvements are under progress at the present time to the Maunoor channel, in continuation of work performed in the years 1853 and 1854, with a view to secure a better supply of water for the Maunoor Tank. Dam stones have been fixed in the Anicut and furnished with Plank shutters, to be opened or closed as occasion requires, to increase the head of water at the Anicut. These improvements should be fully carried out. The Maurandy channel also is worthy of attention. From 1837 to 1841 it had a considerable outlay upon it at the recommendation of the then Civil Engineer, but the estimate was not sufficient to secure all the good hoped for. A further estimate, accompanied by a report

and

Fort Saint George 15th February 1856.

and levels, was submitted by me in 1844, but was not sanctioned. Even in its present inefficient state, it is of considerable service by receiving the drainage of the high lands to the southward and conducting it to the Mousandy Sank. What it wants is, that the first 4 miles in the Potamullay Jemindary limits should be widened to double its present breadth, and the left bank raised and strengthened. Below this several sandvents are required opposite Jungle streams, which bring down quantities of sand and cause breaches in the channel bank. A few more Calingu bunds also are wanted to let off surplus. And lastly, the bed of the cannel between Myinancoorahgy and Karumboly-oath requires deepening. A return of cultivation furnished to me by the Collector of Tinnevelly shews that after deducting the first cost and subsequent repairs, amounting in the aggregate to Rupees 11,122, the gross return to Government in 15 years since the influence of the work was

Fort Saint George 16th February 1856

was felt amounts to Rupees 6,235. I would strongly recommend, therefore, that my supplemental estimate for putting the channel in an efficient state should be again submitted for sanction.

11. The principal tanks in Tinnevelly are those in the Sheveygoontum Talook supplied by the channels from the Murdoor Anicut before spoken of. There are others, however, of considerable size and capacity in nearly every Talook, supplied by channels taken off smaller Rivers and streams, and a few that are simply "Ponay," or rain tanks. It has been my object from the time I first took charge of this Division in February 1841, to search out those tanks which either from want of repair, or an insufficient supply, did not irrigate within 50 per cent. of their Ayacut and to put them in thorough repair. I have also from time to time recommended the restoration of breached tanks, which had been out of use for a long series of years. In this way the irrigation of the District has been improved, and extended, and the revenue to Government increased. A very important work in

Fort Saint George 16th February 1856.

the previous 5 years with fusly 1263, and shewed that the cultivation and revenue was still on the increase. I would beg to refer my successor to these reports for further information on this head.—

12. As respects prospective improvements connected with irrigation in Tinnevelly, I have nothing to add to what has been already stated in my letter to the Chief Secretary to Government No. 170, dated 9th May 1855. An outline of the projects therein suggested is therefore all that need be given here.—

1. Reservoirs in the vally of the Tambraporney River above and below the falls of Paupanasum.—

2. The Construction of an Anicut across the Tambraporney River at Streevigoontum, with channels from it to Suticorin on the North and Colasagaraputnum on the South. An Estimate of Rupees 3,84,172. 5. for this work is now with the Collector for his approval and report in reference to the probable increase in cultivation.—

These Estimate was received back from the Collector on the 31st Inst. and will be forwarded shortly

3. Turning some of the streams on the Ghauts

Fort Saint George 16th February 1856

in the Nanjoonairy Talook. The restoration of the Carumbandien channel on the Calacaud Hills commenced in my predecessor's time, was completed in 1843, at an aggregate cost of Rupees 5,655. It supplies about 50 Tanks in the above Talook, the principal of which is the Nanjoonairy Peracolum. Deducting the first cost and repairs up to 1853 inclusive, amounting in all to Rupees 7,338, the gross increase to Government in 10 years was Rupees 92,420. A similar, though much smaller, work was executed in the Hills above Punnagoody in the Vullegoor Talook in 1841, and with proportionably good results. A list of the more important works performed in the 8th Division from 1837 to 1852 was given in my report for 1853, and in that for 1857 I gave the average wet cultivation and revenue in the Districts of Madura and Tinnevelly for 15 years ending fusly. 1267, and shewed that the increase in the last 5 over the first 5 years amounted to 69,578 acres, and 3,69,963 Rupees. In my report for 1853, I compared the average of the

Channels which now run waste into Travancore for the irrigation of the North-western portion of Tinnevelly. —

4. The restoration of old and breached Tanks in the Sautoor and Cotapedarum Taluks, in particular one near Sevellapoury which was formerly supplied by an Anicut across the Chittaur below Gaingoondam. —

13 As respects Roads and Bridges the principal outlay has taken place on Roads Nos 2, 4, 13, 14, 15 18 and 27 in Madura, and upon Nos 4, 5, 6, 10, 11, 12 and 18 in Tinnevelly. My chief attention has been given to the High Road No 4 from Trichinopoly to Madura and Palamcotta and through the Aramboly Lines to Travancore; which is by far the most important thoroughfare in the Division. —

This road will shortly be bridged throughout its whole length of 185 miles, the Vigay River at Madura excepted, for which an estimate of Rupees 41,000 is about to be forwarded † for insertion in the Budget of 1856-57. The following are the principal —

Bridges

† Forwarded on the 16th October 1855.

Bridges that have been constructed in my time on this Road viz.t.

1. Bridge of 11 arches of 60 feet span across the Sambraporney River between Palamcotta and Tinnevelly. Cost about Rupees ——— 5,985-0-0

2. Bridge of 7 arches of 45 feet span across the Chittaur at Gaingoondam Cost about Rs. 20,000-0-0

3. Bridge of 5 arches of 45 feet span across the Copaur between Gaingoodam and Alytaur. Cost about Rupees ——— 10,000-0-0

4. Bridge of 8 arches of 30 feet span across the Nully Oday between Coilpulty and Sautoor. Cost Rupees ——— 2,987-0-0

5. Bridge of 7 arches of 30 feet span across the Venkatasapooram Oday Cost Rupees ——— 5,096-0-0

6. Platform Bridge of 23 vents across the Katalumputty Oday and Channel. Cost Rs. 3,934-0-0

7. Platform Bridges of 30 vents across the Vurdoputty River. Cost Rupees ——— 8,243-0-0

8. Bridge of 4 arches varying from 4 to 32 feet across the Goundelundolee at Sheva-racotta. Cost about Rupees ——— 5,500-0-0

9. Bridge of 6 arches of 30 feet span across the Goondaur at Thoroomun-galum, nearly completed. Cost Rupees ——— 5,386-0-0

The

for A Saint George 16th February 1856

14. The whole of the above are situated on Roads No. 4 between Madura and Palamcotta and there are in progress at the present time. —

1. A Bridge of 15 arches of 40 feet span across the Sanstaur River estimated at Rupees _____ 24,620-10-0

2. A Bridge of 7 arches of 30 feet span across the Vaypilley putty River estimated at Rupees _____ 10,313-4-0

3. A Platform Bridge of 6 vents across the Oday Cara putty Oday estimated at Rupees _____ 1149-3-0

4. A Do. of 4 vents across the Assoor Oday estimated at Rupees _____ 2570-7-0

5. A Bridge of 5 arches of 40 feet span across the Numbeeaur South of Palamcotta, estimated at Rupees _____ 8857-7-0

15. In the Madura District, Road No. 4 may be considered as made throughout, but in the Sinnevelly District there are still about 13 miles requiring to be made between Sirdooputty and Sautoor, and 7 miles from Gamgoondan to Shady Khan's Chuttrum - estimates for a portion

for A Saint George 16th February 1856.

portion of the former and the whole of the latter were submitted for sanction on the 24th July 1855.

When these portions are made and the Bridges completed there will be no obstacle whatever to traffic on this road at any season of the year. —

16. In Sinnevelly, the Trunk Cotton Road (No. 6) has been completed for a distance 38½ miles, and it is expected that the remainder will be finished early next year; the Branch and Cross Cotton Roads are likewise completed, — and so is the portion of the former in the Madura District. It is highly desirable that a certain sum per annum should be allowed for keeping these roads in order now that they are made and opened to the public. A Statement shewing the length of made roads in Madura and Sinnevelly, and the amount required to keep them in order was forwarded to the Board of Revenue in the Department of Public Works under date the 30th December 1854; and it is hoped that some arrange-ment

Fort Saint George 16th February 1856.

=ments will shortly be decided upon. In addition to the bridges enumerated above, I should also mention one of 5 arches of 60 feet span across the Chittaur, on Road No. 2 in Tinnevelly built by subscription in 1853, at a cost of Rupees 9,459, and another of 5 vents, each 9 x 16 across the Hurreehurranuddee, on Road No. 9, near Shencausee, also by subscription in 1852, at a cost of Rupees 2,205-0-0.

17. In Madura, a bridge of 5 arches varying from 32 to 24 feet span was built in 1848 and 1849 across the Kistamanuddee on Road No. 26 between Sirooppovanum and Shiroochuli; and subsequently, viz. in 1853-54, 3 bridges were built on Road No. 14 from Madura to the Port of Tondi, and paid for from the funds of the Sheagunga Zemindary. A bridge of 11 arches of 40 feet span, sanctioned on the 27th February 1855 to be constructed across the Amaravutee river, on Road No. 2 between Dindigul and Palghaut, will be commenced after the sauns, and another of 6 arches

Fort Saint George 16th February 1856.

arches of 40 feet, across the Shunmooganuddee, near Pulney, on the same road, in the official year 1856-57, as per sanction of Government dated 5th July 1855.

18. I have very lately forwarded a report upon the measures required to create or improve the communications on the Pulney Hills and between them and the plains, and furnished an Abstract Estimate of the probable expense amounting to Rupees 47,040. This work, if sanctioned will probably lead to the extension of cultivation on these Hills by affording easier means of transit to the low country, as well as intercommunication between the upper and lower ranges. Within the last two years a new Ghaut, averaging 2¼ yards in width, has been made, leading up from Peracaulum on the South to Perumbow Kaud. The length of the ghaut, reckoning from Krishnapaniacken topee, is 10 miles 3 furlongs, and the slope about 1 and 12. The first cost was about Rupees 4,500 and for keeping it in order an annual allowance of Rupees 786-14 was sanctioned by Government on the 24th May 1855.

19 For my views regarding prospective improvements to the roads in Madura and Tinnevelly I must refer my successor to my letter to the Chief Secretary to Government No. 170 dated 9th May 1855

Fort Saint George 15th February 1856

1855. He will there see what new lines of road are in contemplation and estimated for in each district, as well as those which I consider the most important of the present lines. —

20. There is one project connected with irrigation in Tinnevelly which remains to be mentioned, and that is the draining of the Tharavery Lake, in the Punjamahl Taluk, for which an Estimate of Rupees 32,53 was submitted for sanction on the 12th June 1855. Should this project be found to answer it will be desirable to carry the excavation 4 or 5 feet deeper, so as to drain off the waters of the Lake to the depth of 9 or 10 feet below the highest water mark, and thus enable the ryots to bring more land under cultivation. A full report on this project will be found in my diary / General Observations / of the 15th and 16th May 1855. —

21. The project for the Madura town water supply is another work which I have not

Fort Saint George 16th February 1856.

mentioned as yet. An Estimate of Rupees 28,505-9-0 was sanctioned for this work in 1851, but for want of the necessary superintendence it is only now about to be commenced. It is intended to supply the town with good river water for household purposes, and at the same time to furnish a reservoir from whence to flush the street drains in the town of Madura. —

22. For constructing Setties at the Ports of Tuticorin and Colasagarapatnum in Tinnevelly. Estimates have been framed in obedience to the orders of Government No. 237, dated 1st June 1855. and are with the Collector for his approval and counter signature previous to submission for sanction. —

23. Having now said all that need be said in reference to past labours and future plans for the improvement of the 2 Districts forming No. 8 Division, I will conclude with the expression of my best wishes for my successor, that he will have all needful

health

2735 Fort St. George 15th February 1855.

health and strength given to him for the performance of his duties, and that he may be able to carry into effect, not only what I have suggested, but much more that he himself may propose for the benefit of the country.—

In Cons 18th February 56

2. This pension is one of the number granted to the Satumpauk Jaghiredars family in the letter from Government dated 20th March 1821. It was granted for three lives, the first having been Murtiza Hussain Khan. On his death and at the recommendation of the Collector and the Board Government sanctioned the Subdivision of his pension among his widow and children in the proportion of Rupees 2-12-5 to each for life.—

In Cons 26th March 1821

From Madras 31st May in Cons 3d June 1844

To Government 10th June

From Government 28th June in Cons 8th July 1844

3. The original grant as has been stated was for 3 lives and it is not clear from the above quoted order that there was any intimation to alter its character no special announcement to that effect having been made, the expression for life may have been used by oversight. With reference to the resolution of Government in Extract to Minutes

Minutes of Consultation 20th October 1848 declaring the undivided children of a family to constitute jointly a single life, the Board observe that the case under consideration is precisely analogous except in the circumstance that the children here enjoy their shares of the pension separately while in the former case they received the pension jointly.—

4 They recommend therefore that the present family of children be considered to constitue one life, and that their children collectively should be treated as the third and last life. under this arrangement the child whose case is now brought forward and who has no other means of subsistence should receive the 1/2 of her father's share with arrears (19-1-4) from the date of his death.—

Sir,

Having given my best consider-

ation to the subject referred to in the Extract from

Fort St. George 16th February 1856

from the Proceedings of the Board of Revenue under date the 28th Ultimo regarding the application to this District of the several rates of Fusful Jasty and Teerwajasty levied in North Arcot. I have the honor to state for the information of the Board that the printed Rules forwarded with the Proceedings under reply are applicable to the circumstances of this District and will I have every reason to believe give great Satisfaction to the Cultivators and be advantageous to the Revenue.—

2. The advantages of uniform and fixed Rules to prevent fraud and abuse in levying Teerwah Jasty and Fussul Jasty are so obvious I trust the Board will give early sanction to the introduction of these Rules into this District.—

No. 233

To

G. S. Forbes Esqre.

Secretary to the Court of Wards

Fort St. George

(4334)

Sir,

Bd. No. 3609
From the Collector
of Madura

I have the honor to submit for the orders of the Court of Wards a claim on the Shevagungah estate by Veerapah chitty son of Chinna Chetty to Rs. 2485-7-1 Principal and Rs. 2090-9-6 interest to the 20th December 1855 on account of diamonds supplied by his father to the late Zemindar.-

2 The claim is supported by a bond executed to Chinnam Chetty son of Curpen Chetty under date 28th Carteyay of Reelakah 11 December 1848 by the late Cotee Joseyer who was the Sumoogum Peshcar (the Hoozoor Peshcar) of the Zemindar which states the purchase for Rs. 3239-1-0 and promises payment of the amount within the Month of Maseemeat with interest at 1 per cent per Mensem Commencing from the Month of Sye. It is also entered in the list of debts furnished by Cotea Joseyer to my Cutcherry and during the Zemindars life time an order

Fort St. George 16th February 1856

order Signed by the Sumoogum Peshcar and having the Zemindars Seal affixed was sent to the Predhanee to credit the Chetty with the price of the diamond in the account of the Paddy from certain Villages assigned to him on Durkhast credit was given accordingly for a quantity valued at Rs. 753-9-11 received before the estate came under the Court of Wards. The Predhanee now manager and Dasega miengar & Sawabnwies affirm the purchase.-

3 On the other hand Pechemah Kachear widow of the Zemindar has addressed a Note to my Head Sheristadar denying the purchase because the diamonds are not entered in the Bookooshum (Treasury) accounts of the Zemindar. This is true and the Bokoosham Superintendent Rangyum Pillay cannot testify to their receipt though he heard it said that some diamonds had been brought to the Zemindar for the purpose of being set in a dagger sheath and there is an unfinished and unsigned Memorandum in the hand writing of the Bokooshum shroff of the following purport as stated by Bokooshum Pillay diamonds (description given) to the aggregate value of Rs. 3239-1-0 which were

brought

Fort St. George 16th February 1856

brought and given by Cullah Vadiaga Ruthen-a Chetty. The diamonds are not contained in the Sheath of any dagger found in the Zemindars Treasury.-

4. The transaction is not so clear as I could wish but as I think the proof of delevery would be accepted by a Civil Court and it is desirable to stop accumulation of interest I would recommend payment of the debt. The Zemindar finding his end approaching may have given away the stones or, suppose they were appropriated without his leave by his attendants the Merchants is not concerned. neither will the new entry in the Bokooshum signify if the bond-holds is considered good. I am informed by the Zemindars servants that some bonds of the kind held by the claimant were signed by Sumoogum Seshear who was his head Servant.-

5 There is no Balance of Seshcush and upwards of a Lac of Rupees in hand.-

Madura

Collector

Proceedings

Fort St. George 16th February 1856

Pet No 447
Proceedings thereon.
434-35

they cannot authorize payment of the demand of Chinnen Chetty. The demands alleged to have been sold to the Zemindar are not now forthcoming the Board does not bear his signature and the debt is disputed by his widow. The Board are not aware whether it was usual for the Sumoogum Peishear to sign all Bonds on account of the Zemindar merely affixing his principals seal to them. They would wish to have further information on this point.-

2. The Collector in para 4 refers to some other Bonds held by the claimant and signed by the Sumoogum Peishear. The Board desire to know whether these have been settled and whether other people have similar unadjusted demand.-

3 If Pitchamal is willing to refer the claim to arbitration the Board will have no objection to that course being followed. They cannot take cognizance of the claim in any other way unless it is proved to be genuine before a Court of Law.-

To

(436)

G. S. Forbes Esqr.

Acting Secretary to the

Board of Revenue

Fort St. George

Pt No. 31

From the Acting ... Collector of Guntoor

Sir,

In reply to your Circular letter of 18th June last I have the honor to inform you that Moturphafax is charged on the previledges of sifting ashes for the Goldsmiths furnaces in only one village in this District and amounted to Rupees 8-8... for Fusly 1263

2 A Statement of the particulars of the Moturpha tax was forwarded to the Board on 24th May last in answer to their Circular of 26th October 1854. Of the total of Rupees 4991 the tax on shops is shewn to be Rupees 1103 and that on Looms Rupees 21989. These it is presumed will be continued pending the issue of the question of the abolition of the Moturfa generally. The tax on cattle amounting to Rupees 1254 has since been abolished under the sanction of the Commissioner Northern Circars and that on sheep and Goats amounting to Rupees 10238 has also been doomed by Government in

Fort St. George 16th February 1856

on Extract Minutes of Consultation under date 8th September 1855 to the same treatment.

3. Besides the above items there remains still Rupees 5129 Collected in trifling sums from petty professions as particularized in the annexed list. These items are a source of much vexation and annoyance and it would be a great boon to these petty traders who belong to the poorer classes to relieve them altogether of the tax should not the Government be prepared to adopt this step, I would recommend specially for abolition the following items most of which are exceptions existing in a few Villages. The tax on iron forges which is the chief item has been included as it appears very desirable that every encouragement should be given to the manufacture of the articles.

	Rs a P
Privilege of Collecting ashes of Gold smiths furnaces	8-8-0
On wandering basket makers	9-4-0
	17-12-0
Itinerant iron Smiths	3-0-0

Enclosure

Encl: No. 1

No. 10

Memo.

In returning the Extract from the Proceedings of the Board of Revenue under date the 17th January forwarded with the Collector's Memo: No. 7 of the 17th instant, the acting Subcollector is unable to explain how the last Column in the advertisement alluded to was left Blanks.—

Supposing the advertisement referred to to be that for the sale of lands in Woosputtapad Village in Dowagoodoor Talook, forwarded from this Office on the 3d Instant, the Acting Subcollector finds the total amount that ought to have been entered in the last Column to be Rs. 149-1-7 as entered in Para 2 of the advertisement.

As no English Copy of the advertisements forwarded is kept in this Office, a practice which would entail a great deal of useless labor on the only writer the acting Subcollector is in aware what errors of transcription may have crept into the

the one in question, as would appear to have been the case.—

The present practice is to prepare a further Vernacular advertisement for publication in the Village, after the sanction of the Board has been obtained for the sale, and all those previously prepared are forwarded to the Collector's Office.—

The error is fortunately of no importance, as the only parties, for whom the information in the last Column is intended, are those attending in the Village for the purpose of purchasing the lands.—

2 Circulars 8th March 1855 and 24th January 1856.

In originating these exhibitions the Government designs not only to encourage industry by rewarding those who produce the finest samples of the staples of the country but to bring to light its capabilities of contributing to commerce those rarer productions

Fort Saint George 16th February 1856.

productions which have not yet been recognized as available for the trade of the East Indies.

On examining the accompanying lists many such articles will doubtless attract the notice of the Chamber such as fibres Gums, Vegetable Oils &ca. The madras Exhibition it may be concluded contained the great majority of such productions as the Country is at present known to yield but the Board are impressed with the belief that many of them will be presented in these local exhibitions under circumstances more favorable to an appreciation of their value as articles of Commerce. They will be exhibited by the persons who have collected or produced them and who can afford full information regarding the quantities in which they may be obtained and their average local prices, the opportunity of verifying

Such

Fort Saint George 16th February 1856.

such information will be favorable as they are the growth of the immediate neighbourhood or at least of the same district in which they are exhibited and lastly the Ryot will have the advantage and encouragement of being placed in direct communication with the practical Enquirer and thus learn the Commercial value of his produce,

4

Past experiments have proved in the most Conclusive manner that all attempts to foster the growth of any new or little cultivated product are futile even under the most marked encouragement, if the ryot is not brought into immediate contact with European enterprise and Capital on the other hand the Chamber will not fail to have noted the successful stimulus afforded to any specie of cultivation when these essentials have been present.

5

The results of these

Fort Saint George 16th February 1856.

provincial exhibitions will therefore be little more than superficial if they do not attract the notice of the mercantile community and especially of its local representatives - Under this conviction the Board desire me to invite the cooperation of the Chamber in furthering the object they have in view - They will be glad to receive any suggestions for turning to account the valuable information which these occasions are calculated to afford to Competent observers and will readily aid any scheme in which their assistance may be of use specimens of such articles as the Chamber may desire to see will be forwarded for their inspection.

Proceedings of the Board of Revenue

Monday the 18th February 1856.

Read the following Papers.

No. 140

(455)

B. No. 508.

From the Secretary to Government Revenue Dept.

Revenue Department

Extract from the Minutes of Consultation under date the 9th February 1856.

Read the following letter from the Secretary to the Board of Revenue Submitting a letter from the Collector of Malabar forwarding the Decree of the Principal Sudder Ameen of Cochin in favor of the Collector in O.S. No. 180 of 1853 together with an appeal Plaint and draft answer and stating that as Government authorized the original suit to be defended they have directed the Collector to continue the defence in appeal also—

(Have entered 31st Jany/56. No. 306)

The Right Honorable the Governor in Council confirms the authority Granted by the Board of Revenue to the Collr. of Malabar to defend appeal Suit No. 328 of 1855 instituted against him by Bagavantha Siketty Caushee in the Civil Court of Calicut.

Order thereon

(455.56)

Ordered to be Communicated to the Collector of Malabar, with reference to his letter dated 17th Inst. No. 4414.

(457)

Bd. No. 3418

From

The Secretary to the Military Board.

Indent Department

To.

The Secretary.

Revenue Board.

Sir

Referring to the Indents for scales and weights passed by your Board, I am desired to state that if your Board approve of Cast Iron weights for weighing Salt they will obtain supplies of the weights from Porto Novo.

The weights appear to be as follows.

82 1/4 lbs weight ——— 12.

41 1/8 lbs ——— 24.

20 9/16 lbs ——— 24.

and the Board advise that 20 sets of these be at once provided unless your Board anticipate any charge and this will require.

240 of ——— 82 1/4 lbs.
480 of ——— 41 1/8.
40 of ——— 20 9/16.
} Weights

If any other weights be necessary the Board will

will obtain them on your stating their denomination.

No. 2357 Ordnance Department

To

The Secretary to the

Military Board.

Sir

With reference to the Extract from the Proceedings of the Military Board No. 4412 under date 21st Instant intimating that the Board propose Casting certain weights, required by Revenue Department, at Port Novo, I have the honor to state that in one of the Indents from the Revenue Board No. 2969 it is requested that the weights &c may be of other Metal than Iron this request as I understand is made owing to the corrosion which Iron weights are so liable to suffer from, when constantly brought in to contact with the salt.

No. 17

To

G. S. Forbes Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

461
Bd No. 186
From
The Collector of Sea Customs

Sir

I have the honor to bring to the notice of the Board of Revenue that Pine Boards and Deals are now imported from the United kingdom apparently the produce of America, the United kingdom and Sweden, the following importations have taken place from London.

256 No. Deals
820 " Pine Boards
87 Pieces Dealwood.

2 I have reason to believe that other consignments have been shipped and that the importation of this Description of produce as Dunnage is likely to increase from the United kingdom, those hitherto imported being from America.

3 Deals in the Tariff from whencesoever imported are valued in the Tariff at Rs 2 per piece

plank

Fort St. George 18th February 1856.

blank whereas the value of "Pine Boards" in the Tariff is restricted to "America".

4. They to recommend that as respects "Pine Boards" the word "America" be struck out and all "Pine Boards" as well as "Deals" of the description contained in the Tariff, be valued at the Tariff rate, whatever Country they may come from.

5 At present "Pine Boards" from America would be valued at 45 Rupees per (1000) one thousand square feet, and Pine Boards from any other places would be valued at Rs 65 Consequent upon the word "America" being entered in the Tariff opposite "Pine Boards" therefore all Pine Boards from other places will be valued at Market value Under Section XXI. act VIII of 1844.

Sea Customs House
Madras - - - - -
12th January 1856 - -

[Signed] W. E. Underwood
Collector Sea Customs.

Bd No 456
Proceedings thereon.
461.62

Fort St. George 18th February 1856

Resolved that the foregoing letter be submitted for the consideration and orders of the Right Honorable the Governor in Council.

2. The Board of Revenue agree with the Collector of Sea Customs that Pine Boards imported from the United Kingdom as well as from other Countries should be admitted at the same rate of valuation as those from America. They therefore recommend that as suggested by Mr Underwood the word "American" may be struck out of the Tariff so as to place pine boards whence so-ever imported on an equal footing.

(463.64)

Bd. No. 453

To A. Hunter Esqre M. D.
In charge of the School
of Industrial Arts

Sir.

In their letter of 14th May 1855. requesting your assistance in procuring for them samples of each of the most promising kinds of fibrous substances for exhibition in the several Collectorates the Board suggested that the value of these would be enhanced if accompanied with remarks from yourself on their mode of preparation &c. since then the Government Agent at Kurnool has requested to be furnished with a description of the manner in which those already forwarded by you were prepared.

2. I am therefore instructed to solicit that you will favor the Board at your earliest convenience with such observations on the

the most successful mode of preparation as you may deem useful. These the Board will transmit to the Exhibition Committies for circulation among the people.

3. The Board also direct me to request that the remaining specimens of Fibres may be transmitted to them at an early date.

Bd. No. 459

From the Acting Collector
of Tinnevelly

Sir

I have the honor to request with reference to the concluding part of Para 7 of Extract from the Proceedings of the Board of Revenue dated 21st June 1838 that I may be allowed for this year to grant full remission for shavy withered Crop on Pottom Poroopoo and other lightly assessed lands the Government demand on

Fort St. George 18th February 1856

on which amounts to not less than half the Ordinary Sevarum rate as was done in Fusly 1263 under the sanction of the Board of Revenue dated 13th March 1854. and also remissions for Shavy and Manipaddy (Shavy short produce) on progressive Cowle lands subject to the conditions alluded to by Mr. Bird in the concluding part of his letter dated 17th February 1854.

2. In this very adverse season I am satisfied that both the eventual benefit of the Government and the interests of the people will alike be promoted by the measure now advocated.

Tinnevelly
1st February 1856
