Bd No. 1010.

From the Collector of Masulipatam — Sir

Reporting on the Agricultural exhibition &c &c

Para 1 I have the honor to information you that I have returned here today from Bezoarah where the agricultural exhibition for this District was held on the 11th & 12 Instant and closed yesterday.—

2. A report with a detailed list of the Prizes awarded by the several committees and distributed will be forwarded to you hereafter.

3 It is however with much gratification that I at once report that on the whole the result of this first years experiment was far more satisfactory than had been generally anticipated. The number of articles sent for exhibition was very large. From almost every Taluk many of the principal Ryots attended, and the Crowds who were attracted to Bezoarah were very great.

4 To enable the work to be completed within reasonable time I arranged

Fort St George 1st July 1856

I arranged that there should be 4 committees of examination —

1st for Live Stock of all Kinds
2d for Fibres and grains &c
3d for Drugs Oils Dyes Paints &c
4th for Miscellaneous articles

Mr Knox acting Civil Judge kindly presided over the first Mr Fraser Sub Collector over the second Assistant Surgeon Miller over the 3d and Mr Merrall Civil Engineer over the 4. The Committees were composed partly of European and partly of native gentlemen, all of whom took much interest in the work assigned to them and exerted themselves very laudable in furtherance of the good work. The names will be given in the detailed lists hereafter.

5 The result has certainly proved that I judged rightly in substituting Bezoarah for Cellore There was of course dissatisfaction visible among those exhibitors who had taken up the idea that all were to be prizes and no

Fort St George 1st July 1856

no blanks especially among those from a distance but I have no hesitation in saying that the general result was most satisfactory that every thing which was done was calculated to remove the erroneous ideas about so much an experiment which many had in their ignorance taken up and that I anticipate that many who have been indifferent to the objects of the exhibition on the present occasion will enter in to it hereafter with interest. The ancient and the works connected with it on the abundant supply of water flowing even at this period of the season through the main channel were objects of great interest to hundreds who had only before heard of them so from report and I am convinced that to many this visit which except for the Exhibition they would never have made has brought before them to an extent which they cannot if they would dispute the fact that the Government and their servants are earnestly

earnestly intent upon the amelioration of the circumstances of the Ryots, and that a noble work has been so successfully carried out no less for their benefit than for that of the Government.

6. On the present occasion I will only add that I am much indebted to Captain Orr and all the officers of the Engineer Department stationed at Bezoarah for their active and cheerful cooperation on this occasion. Mr. Merrall as already reported to the Board was the Secretary and I was very glad that Mr. Fraser was able to come in from his Talook to Bezoarah 4 or 5 days before the opening of the Exhibition and to afford to Mr Merrall his valuable aid in the preliminary arrangements for separating and classifying the great variety of articles sent in. The Vellore zemindar was the only native gentleman of that class who responded to my invitation by coming as requested to

to the Exhibition I regret that the Poozeed and Davercottah zemindars should have absented themselves. No less than 10 Jahsildars were present. I had directed many of them to attend on this first occasion and I do not doubt that the knowledge that the Heads of the Talooks were going to Bezoarah encouraged many Ryots to go from long distances who might otherwise have declined to do so.—

7. In all the arrangements, and in personal and friendly communication with the Ryots in view to making them fully understand the real intentions and objects of Government my active and able Head Sheristadar Amarauttty Sashiah exerted himself greatly. If the Ryots wanted a contract to lerning before them the altered state of things of such extreme importance to them. they could scarcily have had a more forcible one than that presented by their memories of the days of Ramanooja Row on

on the spot where his Choultry was built through contributions forcibly wrung from them by his agents and the sight of present Head Shereistadar standing on the same spot energetically labouring to carry out and explain the objects of Government for their benefit, and thoroughly interested in the work.—

Masulipatam Collectors,
Circuit Cutcherry at,
Goodewadah, 11th March 1856

(Signed) T. D. Lushington.
Collector

P.S.

12019. Fort St. George 1st July 1856

Charged 3½ per Cent on importation.—

Sea Custom House, Madras, 24th June 1856. } Signed W. E. Underwood, Collector Sea Customs

B.d No. 1992.

Proceedings thereon. The Board having ascertained

14-15

that Pine Spars not yet made into masts are passed through the Madras Custom House as timber on a duty of 3½ per Cent and considering that this classification of such spars is correct resolve to forward the letter of Messrs. Gahan Eaton & Co. together with the reply received from the Collector of Sea Customs for the orders of the Right Honorable the Governor in Council with a recommendation that the amount of duty levied from Messrs. Gahan Eaton & Co. in excess of the duty payable under the existing practice of the Madras Seacustom House may be refunded to them. The total amount paid by Messrs. Gahan Eaton & Co. was Rs. 59-1-3 and the sum to be refunded will therefore be Rupees 38-6-5.

16

B.d No. 2189

From the Collector of Nellore — } Sir,

No. 236 of 1856. With reference to the Board's Endorsement on the Petition noted in the Margin herewith returned I have the honor to report as follows.—

2. The Petitioner's claim

Vide Telugoo original Petition.

to a reward in reality refers to a Copper Vat used in Indigo Factories alleged to have been recovered by him from the River during the Pennar inundations of 1852.—

3 Four other persons represented at the time that they had saved the Property, but from the want of evidence neather of these conflicting claims were proved, and as the owner was not forthcoming the Vessel was after due notice sold as unclaimed property, and the proceeds amounting to Rs. 70-10-0 as per carried to the credit of Government.—

Under

12021 Fort St. George 1st July 1856.

4. Under the circumstances I do not consider that there is any necessity for granting Petitioner a reward.—

Nellore Collector's office 12th June 1856.— } /Signed/ F. B. Elton Collector.

Sir,

From the Collector of Malabar.

With reference to Extract from the Board's Proceedings under date the 6th Ultimo, No. 1387. I have the honor to report that the Rules which have obtained in this District for guarding against the receipt of counterfeit Coins, are to hold the Shroffs responsible for such deficiencies when they arise from Remittances from the Talooks and the parties themselves, when any money is received direct from any private individual in either case the Counterfeit Coin is never returned; but cut up and retained under the joint seals of the Cash keeper and Shroff of the Huzzoor Treasury.—

When there is a large accumulation the whole is sweated down and sold as Copper or Silver and the proceeds carried to the Credit of Government.

Beliut Poodiangady 23d June 1856.

Sir,

From the Collector of Oudelapah.

Para 1. With reference to the Circular Extract from the proceedings of the Board of Revenue under date the 15th Ultimo, No. 1464, annexing an Extract from the Minutes of Consultation dated the 7th Idem, I have the honor to state that the French paper of the enclosed specimens can be obtained in the principal bazars at the Cusbah stations and has been made use of since the receipt of the Circular dated 12th April 1855. for orders issued to the several Tahsildars and drafting out letters, but the Country paper being stronger is used for accounts, this paper is of a good quality and Manufactured in Jail. The French paper answers the purpose for which it is applied, when the writer has a table and something soft to put under it, and a quill made use of in the writing, but in the preparation of accounts where

Fort St. George 1st July 1856.

where several sheets require to be pasted together, &c and the Goomastahs write upon their knees &c and in taking down depositions where reeds are used and the point sharp and hard, the Country paper is found preferable-

2- The specimens of paper forwarded by the Board appear to me from 1st to 3rd to be thin - The price of the specimen of French paper herewith sent is Rupees 2-11-11- &c per ream, and it would appear that the muster formwarded by the Board are between Rupees 2-2-11 and Rupees 2-4-11- The &c average quantity of French paper used per mensem is 6 reams; the value of the 1st Sort Country paper manufactured in the Jail, &c specimen of which is herewith formarded is Rupees 2-11-11- per ream or Rupees 1-7/3 per quire-

Bd No 2438.

From the Collector for Secretary to the Exhibition Committee of Chingleput.—

Requesting sanction for Rupees 1134-6-4 being amount of expenditure on account of the Exhibition held at Chingleput on the 21st April 1856.—

Sir,

I have the honor to forward the Report of the Committee of the Chingleput agricultural Exhibition held on the 21st April 1856, together with a list of the Prizes awarded amounting to Rupees 975, which with the sum of 459—6—4 spent on the buildings and other charges agreeably to the enclosed Statement, I request may obtain the sanction of the Board.—

2. The buildings were mere temporary sheds removed and sold after the close of the Exhibition. Their erection cost Rupees 478—14—2 which the sale of the meterials afterwards, reduced to Rupees 313—7—8.

3. The Members of the Committee desire me to state that they feel themselves very

very much indebted to their President Mr. Dowdeswell, and would beg to notice his exertions in introducing the manufacture of Rope into the Zillah Jail from various Indian fibres of which he exhibited some very good specimens and shewed how rapidly the Fibre could be worked by cutting some leaves of the "Seema Kuttalay" and preparing, and drying it in about six hours - They also beg to remarke upon the machinery for the manufacture of cloth the common loom in use in England which Mr. Dowdeswell was kind enough to bring from the Jail, and set up at work in the Exhibition shed for the gratification and instruction of the Native Visitors and which he offered to exhibit for any person desirous of having a loom for his own use, and praying

necessary outlay -

The Committee are further desirous of testifying to his kind and valuable services preparatory to the opening of the Exhibition, and if permitted to do so, would beg to recommend that he may be presented with a Medal in commemoration of them -

Chingleput District,
Collector's Cutcherry,
Sydapet, 26th June -
1856.

/ Signed / C. J. Shubrick

Secretary, Vice

No. 1.

Report of the Committee on the Exhibition of agricultural and other products held at Chingleput on the 21st April 1856 -

President

W. Dowdeswell Esqre Civil & Sessions Judge

Members.

C. J. Shubrick Esqre Collector

R. K. Puckle Esqre Acting Head Assistant Collector

J. A. Ratton Esqre Zillah Surgeon -

Lieutenant A. S. Moberly District Engineer

S. Alagiah Pillay Esqre Principal Sudr Ameen

V.

Fort St. George, 1st July 1856

V. Vurdachariar Acting Head Sheristadar
Chinnambut Arcamooga Moodelly
Covoor Yacambra Moodelly.

In consequence of P. Alagiri Chetty Esqre and Yacambra Moodelly being prevented from attending on the day of the exhibition E. Narasimha Loo Naidoo Joint Sheristadar; C. Moottoosawmy Moodelly, and P. Moodoo Venatarama Reddy two respectable ryots were added to the Committee.

2. The Committee must first observe that the orders for the Exhibition to be held at Chinglepet were not formally issued till the 18th December 1855. that the natives had never seen any thing of the sort before, the season had been most disastrous and lastly that the period fixed was somewhat too long after the principal and most important time of Harvest. In addition to all these disadvantages a report had been spread abroad

Fort St. George 1st July 1856.

abroad originated by some foolish and unguarded persons in an adjoining District that the object of the Government was to ascertain the resources of the District with the view of increasing the present or of imposing additional Taxation. Every exertion however was used to make the object of the exhibition known- the Collector issued proclamations in all the Villages and took advantage of the opportunity which the Immamabbundy settlement of 4 Talooks afforded him of previously entering into personal communication with the Ryots and inducing them to take an Interest in the Proceeding by pointing out

Fort St. George, 1st July 1856

out the advantages they would derive from it. The other Members of the Committee also exerted themselves and used such measures as they considered likely to lead to success; and which resulted in a more favorable issue than they could at first have reasonably expected.

3. Notwithstanding the adverse circumstances thus mentioned.- The number of lots of all sorts amounted to 582, some from the furthest extremities of the District and were very good specimens of the productions, and the Committee would

Fort St. George 1st July 1856

more especially particularize the Chillies Jack fruit, and various kinds of Paddy.- The Jack fruit although not equall to that grown on the western coast was remarkably fine and shows that this tree can be cultivated with success even in this District the Paddy was also fine, altho' the season as before mentioned had been adverse to every sort of crop.-

4. The Committee must further mention the large Collection of Gums and Resins and Medical Plants produced by Assistant Surgeon J. A. Ratton, and also a number of specimens of minerals, clays &c. together with various sorts of fibres, in all the products of the District, These were well arranged and carefully labelled and it was evident great care and trouble had been taken in making the Collection and showed there were many useful articles to be found in the District, the existence

of

of which was hardly known.

5 They would also remark upon the "triple coulter plough" exhibited by Mr. Fitzgerald who holds a farm under Government in the Sydapet Talook. This plough requires two pairs of bullocks to draw it and they consider that the furrows made by it with one cross ploughing would be sufficient for any ordinary land while with the common Native plough with one pair of bullocks six or eight cross ploughings are required and even this number would not break up the land so effectually.-

6. The next article that the committee consider should be noticed was a model of a suction pump with two pipes worked by one handle and the original of which the Tahsildar of Sydapet reports as being in use in the irrigation of lands the name of the exhibitor is Arroomugherry

Auchary

auchary of Oddapollium. This pump was not brought to the exhibition until the 22d April and when the prizes were being given but considering that the man should be encouraged and having satisfactorily tested its powers before a great number of Natives they granted him a reward although he was so late.-

7 The Specimen of American cotton exhibited by pensioned Drummer William Hayden; who holds some lands in Terroppagoody in the conjeeveram Talook was very fair and though the quantity sent was small being the produce of only a few plants- yet the Committee considered that a reward would show that a value was attached to the article and might conduce to a further introduction of it in the District.-

8. It is unnecessary to notice any more articles that were sent but the enclosed list of prizes awarded will show the amount

Fort St. George, 1st July 1858

amount disbursed and the character of the articles exhibited.

9. She Committee would also draw attention to the exertions of C. Arumoogha Moodelly who succeeded in obtaining no less than 9 prizes, and was the only landed proprietor of influence in the District who evinced any interest in the undertaking - No other Zemindar Shrotriemdar, or Mootadar attended and the agricultural exhibition was entirely confined to the labouring class.

10. The Committee cannot close this report without returning thanks to Dr. Hunter for his kindness in forwarding several useful articles for the inspection of the Natives that they might endeavour to compete with his pottery &c. on a future occasion. He also sent

Fort St. George 1st July 1858

sent specimens of clays &c. mentioning where they were to be found.-

11. In conclusion, they would mention that the Right Honorable the Governor and the members of Council did them the honor of being present, the former of whom delivered the Certificates of prizes adjudged, and they expressed their entire satisfaction with the exhibition and that as a first effort and the short notice that had been given, it might be considered as very successful.

[Signed] W. Dowdeswell

Secretary to the
Board of Revenue

38.

Sir,

Rec'd 2 Aug.

From the Collector, dated 19th March 1856, I have the honor to submit that there are 32 Heads and 34 dalayets, who are, and should continue to be, furnished with cloth Belts:—

2 The eight Head Peons include Duffadar

3 = dar & Sepoy and the 24 dalayets, consist of 18 in the Collectors Office, and 6 in the Registrar Department.

Suitable cloth may at present be obtained in Madras for Rupees 3-12 a piece: three yards of which with 8 Head Peons, and 12 dalayets' Belts, the cost of each Belt therefore, with one annas for making, will be Rupees 1-7-6 Each Belt is 4 yards long.

I have been the practice hitherto to provide all the Peons of the Collectorate, 214 in number including 81 Tengalarry, with cloth Belts but there, as elsewhere if the 32 above mentioned, may now properly be provided with leather Belts.

5 Belts should last about two years,—

I have in store 3 yards of orange coloured, and 5½ yards of green cloth, suitable for belts, which will be credited against

12056 Fort St. George 1st July 1856

Read Petition No. 1746 of 1856 presented by Sawmy Dawson Pillay late Tahsildar of the arrealore Talook in Trichinopoly.

41.

B. No. 2003

Proceedings thereon. 1. In this address Petitioner brings his distressed circumstances to the notice of the Board and requests that the Collector may be instructed to carry out the orders of Government for giving him some suitable employment or that he may be allowed to retire from public service on a pension.

Submitting a Petition from Sawmy Dawson Pillay late Tahsildar of arealore Talook in Trichinopoly petraying that the Collr. may be instituted to provide him with a suitable employment according to the orders of Government or to permit him to retire on a pension and recommr. that his case may receive the favorable consideration of Govt. on the Pension Dept. as his age and state of health preclude his reemployment.

In Cons 19th March 1855

2. Petitioners case was noticed by Government in Extract Minutes of Consultation dated 9th March 1855 Public Department No. 318 Sawmy Dawson Pillay was recommended by the Collector for a pension on the ground of old age and unfitness for further service. He came to Madras and remonstrated so strongly against this measure that Government directed the Medical Board to examine and report on his state of health. The Board did not see cause to declare that Petitioner was unfit for all further employment, and Government therefore refused to grant a pension. But as there were doubts as to how far Petitioners mental faculties had became impaired Government directed the Collector to employ him in such an Office as he was equal to instead

12055 Fort St. George 1st July 1856

B. Statement of the Value of Gold and Silver Bullion and specie Exported by sea in the Month of April 1856 from Madras and its Subordinate Ports to Ports and places not subordinate to Madras

Presidencies	Exported to	Silver Value in Company Rupees	Gold Value in Company Rupees	Total Value in Company Rupees
Bengal	Calcutta	17,500	2,067	19,567
Bombay	Calcutta	5,600		5,600
	Chittagong			
	Ports Galle & Point de Galle	30,050		30,050
Madras	Total	10,4150		10,4150
	Grand Total of Exports			155,817

instead of ordering his restoration to the Tahsildar-ship.—

3 Petitioner now represents that he has been reduced to great distress by no permanent employ having been given him and by his having had to suppor himself and family during the 2 years which ha elapsed since his removal from his Office of Tahsildar. He states that subsequent to the order of Government he was nominated once by the Collector to act for 4 months as Police Ameen of Tarriore an Office which he accepted to avoid displeasing the Collector, and that he recently been offered a temporary Ameenship to take charge of an attached estate but as the pay of this Office was only Rupees 15, and the Office was unsuitable to his late position and as service in it did not count for pension, he was obliged to decline it. The Petitioners character leads the Board to place reliance on this Statement; and they regret that the Collector has not been able to provide him with some permanent suitable employment and thus save him from distress which it was

was not the intention of Government that he should suffer

4 Petitioner further represents that he did not refuse to accept a pension from any desire to remain in public employ longer than was necessary to complete 30 years, which purpose a few months only were wanting. He now produces a Medical certificate from the Garrison Surgeon at Trichinopoly shewing that his health has become further impaired and he now requests the Board to supply him with means of subsistence, either by directing the Collector to confer upon him some suitable office or procuring him a superannuation pension.—

5 Surgeon Davidson's certificate and the Knowledge which the Board possess of Petitioner age and state of health make them deem it inadvisable to direct the Collector to place him again in active employment and they therefore resolve to submit his present Petition with the Collector's endorsement and its accompanying Medical certificate for the consideration of Government in the Pension Department as the Collector felt himself precluded from doing so by the orders contained in the Extract Minutes Consultation above referred to.—

To G. S. Forbes Esqre
Secretary to the
Board of Revenue

61

Bd No. 1085
From the Collector of Chingleput.....

Fort St. George

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue under date the 28th Ultimo annexing Copy of Extract from the Minutes of Consultation No. 153 of the 11 Idem, and calling for information on certain Items noted in the Statement of actual charges incurred without estimate for July 1854.

2. The Batta for 11 days noticed in Para 3 of the Minutes of Consultation under reply would appear to have been disbursed to the Record Keeper in July 1854 on the occasion of his having removed with the Records in his custody to Sydapet from Pullecarney where they had been hereto fore lodged. No batta is drawn now by the Hoozoor servants during their stay at Sydapet the Sudr station of the District and the charge in question was only incurred

at

at a time when it was not settled that the Cutcherry was to be located at that place.

3. Accompanying is a Memorandum explaining briefly the circumstances under which carriage and Cooly hire was incurred from time to time for conveying sundry articles from Madras to Sydapet and vice versâ which I trust will be found satisfactory and induce the Board to obtain the sanction of Government for the amount standing retrenched in the accts of this Office.

(61-62)

thereon.- Resolved that the letter above recorded and its enclosure be submitted for the information of the Right Honorable the Governor in Council with reference to para 2 of Extract Minutes of Consultation dated 11th February 1856. No 153.-

2. The Collector Explains that 11 days Batta was paid to the Huzzoor English Record keeper in Fusly 1264 for Travelling in charge of Records removed to Sydapett from Pulicat where they had been previously lodged, and that when this charge was incurred it was not settled that the Cutcherry was to be located at Sydapett No Batta is now disbursed to the Huzzoor Record during their stay at Sydapett.-

3. From the Memorandum submitted by the Collector it will be seen that the sum of Rupees 2-6- was incurred for the Carriage and Cooly hire of various articles from Madras to Sydapett and vice versa, and not for the conveyance of Records. This charge should not have been entered in the accounts Particulars of Carriage hire for Cutcherry accounts, but should have been included in the quarterly Statement of Contingent Charges. The Collector will be requested to adopt this

this Course in future.-

4 The explanation of the Collector regarding the use of Silk Belts is contained in his letter of 12th December 1855 which was submitted to Government with the Boards Remarks dated 23d January 1856. No 188.

Under the authority conveyed in Extract Minutes Consultation dated 10th June 1843, No 615 the Board of Revenue Sanction the Drawback paid by the Collector of Malabar during Fusly 1265. amounting in the aggregate to Rupees (5019-7-4) Five thousand and Nineteen Annas Seven and pies four, the details of which are exhibited in the foregoing Register.

Read

Fort St. George 2d July 1856

Read again return from the Collector of South Arcot dated 18th and entered in the Consultation 23d June 1856 of Persons Charged with Offences under Regulation IX of 1822 for May 1856.—

(65)

B. No. 2009

Proceedings thereon

The Board request information as to the grounds on which these Cases were tried under Regulation IX of 1822. The mere "omissions" charged might have been punished without recourse to the Regulations unless indeed fraudulent intent was apparent, a supposition which is not gained by the petty fines imposed in both instances.—

(66)

B. No. 2405

From the Collector of Sevr.

Coimbatore

With reference to Extract from the Boards Proceedings dated 13th September 1855. No. 2384. Shave the honor to forward 2 Statements in the prescribed form showing the number of persons fed in the Dungerkanah at Coimbatore, and the amount of charges incurred on their account in the Official year 1855/6 and also in 4 months from January to April 1856

Forwards Accounts of expenditure in the Dungerkanah at Coimbatore for 1855 and affords explanation with reference to the increase of 302-11-7 than the preceding year

Fort Saint George 2d July 1856

Proportionate sanction for 4 months from January to April 1855.—

1855-39-15-6

amount of expense for the above period—700-11-7

Increase 302-11-7

amount sanctioned Rupees——1193-11-5

Do expended during 1855/56 Rupees 1496-7-0

Increase 302-11-7

2. The expences for 4 months from January to April 1855, shows an increase of Rupees 302-11-7 above the proportionate amount of sanction for that period, and those for 1855/56 or up to 30th April 1856, exceed the sanctioned amount by Rupees 275-14-4 in consequence of an increase in the number of persons admitted on the Institution during the said periods and of the high price of grain owing to the adversity of the season.—

3. The total increase of expenditure for the year under report amounts to Rupees 578-9-11 and the same was disbursed from the surplus sum held in deposit from the collections of the Village of "Modavandy sattimungalem" in this District, allotted to the above purposes the amount on hand up to the end of April 1856 was Rupees 896-12-11.—

4. With a view to confine the expenditure to the sanctioned amount, as directed in the Boards Proceedings of the 13th September 1855, I thought it proper to limit the number of persons, to be fed in the Dungerkanah, to a fixed number of 30 per day from January 1856. and by this arrangement,

I

12071 Fort. Saint George 2nd July 1856

I have every reason to believe that future expen-
diture will not exceed the sanctioned standard
tho under this restriction, a good many a sick
unavoidably refused relief.—

5 Very few of the persons admitted under
the same Rules as detailed in my former Report
are allowed to remain in the Institution for
some time, particularly in cases of sickness and
entire inability to subsist even on Alms and
the rest are replaced by similarly circumstanced
objects, as occasion may indicate.—

6. The aggregate number of persons fed in the
Institution during the periods under review was
24728 and the expense amounts to Rupees 2170-4-0
being 1 anna and 4 3/4 pice per head which with
reference to the state of the season and prices
is on the lowest practicable scale.—

7. No disease prevails in the Pinjore but generally, but in a few cases in which slight swelling
occurred, from inattention was paid by the Medical
Officer

Bo No 2281
From the Consulting Engineer for Railway

Sir,

I have the honor to return the Sheets of the Indian Atlas (received with your letter No 677 of the 4th March last) with the line of Railway marked as requested

2. I regret to observe however that the Chief Engineer of the Railway who was requested as the safest authority to lay these lines down for the Board appears to have misunderstood or gone beyond their wishes and to have marked (by double red lines) certain lines of Railway not yet sanctioned, and several of which as being merely alternative lines never can be sanctioned.

3 I allude especially to lines leading towards Cuddapah from Madras, and others which have been similarly shewn South of the Salem and Coimbatore line.

4. I am not sure however that these lines had not been for other purposes

Bd No 2420

From the Collector of Masulipatam

Sir,

With reference to an Extract from the Proceedings of the Board of Revenue dated 19th Ultimo No 1520, and Extract Minutes of Consultation dated 17th Idem No 484, I have the honor to forward a Statement, prepared in the form prescribed Embracing every Covenanted Officer in Revenue Employ in this District.

Masulipatam
Collectors Cutcherry
24th June 1856

/ Signed / I. Fraser
Acting Collector

Statement

Statement Embracing every Denanted Office in the Revenue Employ in the District of Masulipatam.

Designation of office and present Salary	alterations which have taken place within the last 25 years in the Salary allowed.	Duties to be performed.	Special Circumstances which were considered or ought to be considered in fixing the Salary.
Collector of Masulipatam in force, the present Salary Rupees 2333 3. 4	In 1830, under the rates then the Collector of this District was allowed a Commission at 1½ per Cent on the Revenue of Government Estates and of the Extra Sources besides a fixed Salary of Rupees 16,500 — The receipts from this Commission used to range between Rupees 7000 and 11000 per Mensem In 1836 this District was placed on a par with the most Distant in respect of the Salary of the Collector & it was raised to Rupees 26250 By the Order of Government of the 21st March 1836, the Commission was discontinued and the Collectors was consolidated to Rupees 30,000, from which it was again reduced to Rupees 28,000 per annum in 1839. which has remained undisbursed since. From before the year 1830, the Collector has been entitled to Tent allowance at 87. 8. " per mensem fixed and 5. 4. " per diem while actually absent from his Head Quarter Station on business in the District.	It is superfluous to do more than allude to the great differences between the actual duties appertaining to the important and responsible post of a Collector of a District in India, and the popular notion regarding them in England Viz: that they are simply those of a tax gatherer. In Masulipatam, the Revenue System being what is called joint rent with several taxes, the Collector fixes the Land Revenue Demand on the Government Estates annually Pottiahly, this does not involve an inevitability of increase or it matters the Collector to lower the rent of a Village when circumstances have demonstrated it to be too high, and to raise the rent when increased Cultivation & improved means of irrigation &c. shew such increased demand to be fair. the interests of Government and the ryots in the amount of rent of course require careful consideration on the part of the Collector. He Collects also the Revenue derived from Extra Sources Viz: Salt, Abkarry, Motirpha Stamps, Sundry Small farms (Such as ferries, fisheries, topes &c.) and Sea Customs exercising the Special powers regarding these branches which are detailed in the Regulations referring to these Subjects. He Superintends and directs the manufacture, Storing and Sale of Salt. Under Regulations IX of 1827 and VII of 1828. he possesses judicial powers for the punishment of all cases of Revenue Malversation. Under Regulation V of 1822. he takes Cognizance and disposes of all cases of a Summary character relating to occupation of Land, Seizure of Crops or payment of Revenue &c.	The climate of Masulipatam is the hot generally healthy. The expense of living is moderate. Such Stations such as this we have there are a good many residents the Collector is expected to entertain liberally and frequently, and his Social position demands it. The Collector is usually from 3 to 6 Months in Camps and while there absent from Head Quarters he keeps up two Establishments, one for himself & family and one for his Camp equipage the expense of travelling is moderate. There are no Special responsibilities other than those inseparable from the onerous and very important Office of Collector

as Ex Officio Collector of Sea Customs. he has the Superintendence of all Marine matters connected with the ports of the District such as their conservancy or improvement the framing of rates for them &c. Under the various Regulations relating to Duties, he has exclusive jurisdiction over the great number of rent free or favorable tenures. Under Regulation VIII of 1817 he has Superintendence over escheats and charitable Institutions. He is also the agent of the Court of Wards under Regulation V of 1804. Besides these specially prescribed duties the calls on his attention on account of miscellaneous business are numerous, such as furnishing information in regard to the Topography, the Commerce Statistics the Vegetable and Mineral resources of the District under his charge giving his opinion on the advantages likely to be derived from all Engineering projects whether directly remunerative &c.

He is referred to for information on all schemes proposed for the benefit of the District in general, such as the remission of any particular tax and substitution of another in its stead changes in the mode of taxation generally. alterations in the Revenue System alterations in the forms or modes of keeping accounts introduction of new agricultural products &c.

The charge of the Revenue Treasury devolves upon the Collector and as Treasurer he has to attend to and control a variety of payments for all which he has to render a strict account to the several authorities at the Presidency.

The Collector is Ex officio the Magistrate of the District and is always a Justice of the Peace. The whole Police is in his hands and all suggestions for its improvement either in organization

or

Fort St. George, 2d July 1856

or working are expected to emanate from him. It is superfluous to detail all the duties which devolve upon him in these Capacities but they may be summed up thus. The cognizance of all crimes in the first instance; The tracing them and punishing them within certain limits. The responsibility of working the Police force and directing municipal improvements. He has also to provide supplies and carriage for all Troops passing thro' the District, and bearers for all travellers requiring them. His combined duties as Collector and Magistrate constitute him, in effect the guardian of life and property.

The area of this District is Estimated at 3,000 Square Miles.

The Revenue about 15½ Lacs (Fasly 1263)

Population about 3,25,000

Treasury Receipts about 16 Lacs (Fasly 1263)

General Treasury Receipts 18 Lacs.

The mode of Settlement pursued, is the Joint Rent System which has been but recently introduced into this District. To administer it requires great care and tact. The engagements for the Public Revenue are made annually with each Village community Collectively but the Collector thro' his agents the Tahsildar, Superintendent the distribution of the Demand among about 25,000 ryots and in this respect the System very much resembles the Ryotwar.

Sub Collector

Salary Pags 1166.10.8 with Extra and Fixed Tent allowance at the same rate as the Collector.

The Sub Collectorate in this District was only Sanctioned in the year 1834, on the Scale usual in all other Districts Vizt. that mentioned in Column I.

The Sub Collector in this District has Revenue and Police charge of 4 Talooks, and the Police charge of 2 more in which the Revenue has been permanently Settled on a Zemindary Tenure. The functions of the Sub Collector are identical with those of the Collector, the difference lying simply in the extent of his Revenue work. He has nothing however to do with the charge of

Bd No 2412

From the Collector of Cuddapah.- - - } Para 1.

Stating with reference to the Extract from the Proceedings of the Board of Revenue under date the 13th of March 1856, the number of Peons that could be transferred to the Civil Engineers Department on the introduction of the new System under contemplation.

Sir,

I have the honor to acknowledge the Receipt of the Extract from the Proceedings of the Board of Revenue under date the 13th March 1856, annexing an Extract from the Minutes of Consultation dated 31st of January 1856 and with reference to Para 4. beg to state that no account of any kind can shew the number of peons on the whole employed on the average in connection with Maramut works. The Engineer on entering the district was supplied with two Deboyets and generally as many Talook peons as he considered necessary consisting of from 6 to 12 peons with one or two Duffadars. The present Engineer has called for 6 Talooks peons and a Duffadar which cannot be well spared as the Revenue and Magisterial Departments require their constant attendance, their number as well as the whole of the Cuddapah Establishment has been fixed upon the lowest scale. In the Maramut de -partment, the Tahsildars, Sheristadars and Goomastas all superintended the repair of Tanks and Channels as

Fort St George 2nd July 1856.

as they were in progress and peons were only placed
upon works of considerable extent the speedy comple-
-tion of which was deemed urgent. The number of peons
required for the conveyance of the pay of the Mov-
-ment Establishment is considerable as on the re-
-ceipt of the Banaverd from the Engineer of the di-
-trict, he forwards a Memorandum shewing
the different sums making up the whole amount
is to be disposed of One portion may be sent
Cumbum the northern part of the district ex
to the furthest south a third to the furthest East
and so on throughout the whole of the District. A
one time three and four peons are required to
convey the Civil allowance of a single Overseer em-
-employed on the Bellary road and at another
Military as for instance where an Overseer is empl
on the Bellary road in the Jummulmadgoo Taluk
four peons are required to convey it to him. It
first paid out from the treasury according to
Memorandum from the Civil Engineer to
Chennoor Tahsildar from thence it is forwar
to Camalapoor thence to Doorvoor lastly to
-madgoo from whence it is sent to the Over

Fort St George 2nd July 1856.

thus four peons are required. One peon cannot
be sent all the way as it would deprive Chennoor
and Cuddapah of the services of many peons who
cannot be spared. The same takes place to every
Overseer, Surveyor, Executive Officer, and Engineer.
What the method of payment of the Engineer Esta-
-blishment will be in future. I have no means of
knowing, but one thing I do know is that it requires
the services of a number of peons who can with
great difficulty be spared. I would therefore
propose that not more than two peons from each
Taluk be taken from the Revenue Establish-
-ment and transferred to that of the Engineer
making a total of 28: this I should think ample
for the necessities of the Engineers Department.

Sir,

Para 1.

I have the honor to acknow-
-ledge the receipt of the Extract from the Proceedings
of

Stating with re-
-ference to the
Extract

Extract from the Proceedings of the Board of Revenue under date the 11th of August 1855 that none of the parties were willing to commute their ready money allowance Granted for the support of the Mosques and Pagodas into equivalent grants of Land under Sarva Canmeneare and that the Land which were formerly appropriated for the maintenance of those who performed the Services of institutions prior to and up to the date of the Cession of the Provinces are not traceable

of the Board of Revenue under date the 11th of August 1855 annexing an Extract of a letter from the Secretary to the Board of Revenue to the Chief Secretary to Government dated the 27th February 1854, and also an Extract from the Minutes of Consultation dated 15th of August 1854, and in reply beg to state that on receipt orders were issued to the several Tahsildars to ascertain and report whether any and which of the parties therein referred to were willing to commute their ready money allowances granted for the support of the Mosques and Pagodas into equivalent grants of land under Sarvaloan tenure; from their replies I regret to say the result has been most unfavorable and not a single person has agreed to accept the commutation. This is not surprising as the payment in ready money is more certain than the remuneration which would be derivable from lands, the latter being liable to be deteriorated by floods or the rising of spontaneous Salt or Alkali and the Emolument derivable from the crop being dependent on the favorableness or otherwise of the Season.

The

2 The people themselves that is the holders of the Tusdeek object to having lands granted to them in lieu of their present allowance as above stated, and it will not be an easy matter to allot such portions of land as will be equivalent to the amount of Cash allowances. Should parties agree to accept the commutation Such lands will probably be estimated in accordance with the taram they were assessed at during the time of the preparation of taramary accounts. Some of those lands may be over assessed, and should this be the data on which the commutation be effected in lieu of the Cash payments, the equivalent thus allotted will not be equal to the amount of ready money payments and in unfavorable seasons such as these for the last three years supposing the value of the land granted be proportionate to the Cash allowance, the equivalent will not be on a par as the lands will not produce the usual crop on account of the unfavorableness of the Season thus the holders of the Tusaddeek will be losers by giving up their ready money allowances for Lands or giving up certainty for a contingency, as they know whatever the nature of the season may be, they will receive the emoluments fixed by Government. The best and most remunerative lands in the neighbourhood of the Pagoda are already in the possession

of

of others and those assigned in commutation will p-
-bably be at some considerable distance from t
Villages, which will in some measure prevent
ryots from taking them up for cultivation. I
-sume the Government do not intend to g
up the lands now under cultivation in lie
of the ready money allowances, but will ord
waste lands to be made over to the Trustees
place of their present payments, and this t
holders will not agree to should cultiv
lands be made over, it will come to the sa
thing as paying ready money, in one ca
the assessment will not come into the Tr
-sury as it has been made over to the Trustees
and in the other, it has received into the Tr
-sury and again paid out for the same pur
-pose which appears to be arriving at the
same point.-

3 From the accounts in this
province it cannot be ascertained what
extent of land, what the tarum, or the a
-bers that were originally attached to the Sy
a

and Mosques- all that can be ascertained is that
on the cession of the country the Enam Lands
were attached when the holders of the Enam
lands together with the Ryots at the time
of the Settlement by Colonel Munro, petit-
-tioned him to the effect that there were
no emoluments for the support of their
Pagodas and Mosques, and that if the usual
services were not performed the Villages would
become depopulated and the people be af-
-flicted with various kinds of sickness. He
upon this representation took their petitions
under his favorable consideration grant-
-ed to them Jaradeek allowances amount-
-ing to Rupees 31,000 and odd but what
extent of lands were attached and
their value cannot be ascertained from
any of the accounts now extant- It

is

is therefore out of my power to form any statement of the Lands which were formerly appropriated for the maintenance of those who performed the different services in the Mosques and Pagodas prior to and up to the date of the Cession of the Province.-

Bd. No. 427
From the Collector of Chingleput.

Sir

I have the honor to acknowledge the receipt of your letter of the 12th February last requiring me to propose my arrangements in detail for locating the Hoozoor Cutcherry at Guindy or Sydapett - as supposed by the Board, I contemplated the entire transfer of the Records and Treasury as any other arrangement would fail to attain the advantages anticipated by the measure.-

2. I am unable to state what the cost of a new Cutcherry may be but am of opinion it should be Constructed on a liberal Scale fit to accommodate the existing establishment of all kinds, and allow for the

Continued

Continued growth of Records Regard should be had to ventilation as Conducive to the health of Public Servants when employed within its precincts. I am told that a building in every way suitable might be built for 12,000 or 15,000 Rupees but I have no means of Judging whether such is the case. I do not think that the expense should in any way interfere with the erection of the building its necessity in a public point of view having been recognized. That alone suffices for construction. The Civil Engineer will be asked to frame the necessary Estimates on receiving the requisite authority.

3. The removal of the Cutcherry to Sydapett will of course vacate the Old Cutcherry at Conjeveram, but I do not think it advisable to force the immediate Sales of those buildings. They might be converted into Dispensaries or Schools under the Board of Public Instruction for which their former

in the centre of the town would render them peculiarly applicable. They would not therefore yield any immediate Funds towards the Construction of the new Cutcherry though they may render future disbursements for the purposes, I have specified above unnecessary. There is therefore only the old Sayer Cutcherry which could now be sold and the proceeds available for the Cost of the new Cutcherry. This building is in the heart of the town in the midst of the Bazars, a situation in much request and for which an Offer of Rupees 1,020 has been received - as the building is of no use to Government and never will be. I beg that this Offer may be accepted and the Sum Carried to account.-

4 I had at one time thought that the Cutcherry and the Talook Cutcherry might both be sold the latter being afterwards located

in

Fort St. George 3d July 1856

in the present Treasury but it has been b
to my notice that without a Military Gua
the Treasury would be in too open a po
of the Town to be used as a Talook kutch
as it might be suddenly attacked and lo
before the Peons could be gathered for r
sistance and I have therefore been obliged
lay it aside and to be short of the immed
Funds which I had hoped to have had a
support of my proposition. I have however
shewn that the buildings may be retained
made available to the State for other purpos
and forestall and expenditure which might
otherwise become necessary.—

5. Since writing the above I have ins
ted a house and grounds at Sydapettah
to Syed Taha Saib which appears to me
every way suitable for the purposes of a
affording ample accommodation in itself and

Fort St. George 3d July 1856

houses securely built and well adopted for
a Treasury with the foundations of buildings
laid which could be afterwards used should
additions be required.

6. The grounds attached measure about
20 Cawnies of which a Considerable portion or
12 Cawnies might be sold and would find
ready purchasers either among the Cutcherry
Servants or others for building purposes and
Gardens The Sum expected to be realised
would probably be 1,000 Rupees

7. The house and grounds as they now
stand may I think be got for 8,000 or 10,000 Rupees
The owner is desirous of parting with them but will not
at present fix any particular price. If the measure is
sanctioned, I have no doubt about his coming to terms
and of my making a favorable bargain for Government
Should the Government prefer building a Cutcherry
on purpose it must necessarily be delayed for some
time and the inconvenience now felt from existing
arrangements continue till it is reported fit for use a
period of perhaps two years or more as the estimate would
have

have to be entered in the budget of 1857/58 and buildings would not take less than a ye to erect.

8. The house I refer to could be ma almost immediately. An inspection of the Di Engineer would shew what little was to be d and beyond erecting gratings for the Security of the treasure which could be brought from Conjee and clearing away a terrace from the front of house and converting it into a carriage approa I do not see that it would call for much of thes ces. It would be advisable for him to insp and value the buildings before their transfer accomplished.

9. The importance of locating the Cutch Sydapett or Guindy has been so frequently exp is so self evident that I need not further enhance Iwill only add that it will be a measure rea ably accepted by the Cutcherry Servants and been lately endeavouring and with some de have succeeded in establishing an English in Sydapett where there children can be educated and which will be very much further measure as it will induce them to continue their criptions from the certainty of their not being thrown

Proceedings thereon. Para 1

96-97.

Stating the Boards views on the subject of Establishing the Treasury and Huzoor cutcherry of the Chingleput District at Sydapet, and detailing reasons to show why such a measure seems desirable.

In the above recorded letter which the Board resolve to lay before Government Mr. Shubrick repeats the recommendation made by his predecessors for establishing the treasury and Huzoor Cutcherry of his District at Guindy, or Sydapet, and gives a general idea of the cost at which the arrangement could be carried into effect. Before entering on this latter part of the subject, the Board will briefly notice the changes which have been made in the Head station of this District.

2. For some years Carangooly was the Huzoor Station but in 1828 the Treasury and Cutcherry were removed to Conjeveram on the recommendation of the Collector, Mr. Vincash- Buildings to accommodate the Collector and his establishment were built by Government on this occasion on an estimate of Rupees 9,204—8—6 but the real expense of the arrangement may be taken at Rupees 3,600. as the Carangooly Cutcherry would have required extensive repair at a cost of Rupees 4,000 if retained for its original purpose and a saving of about Rupees 1,600 was effected by making use of it for a Traveller's Bungalow.

Letter of Collector 29th Novr. 1827
Insos 3d December 1827
Board's Proceedings 3d Decr. —
Chief Secretary to Board 2 May 1828
No. 348.

*Letter from Collector Mr. Vincash to Inspector General of Civil Estimates 19th March 1828.

The

3 The inconvenient situation of Carangoly at the southern extremity of the District, and the want of suitable accommodation for the Collectors Servants, made a change very necessary, but the selection of Canjeveram was injudicious. Mr Vincash's letter shows that this place was principally recommended at the wish of his native Establishment who were glad to move to a large town of much celebrity among the Hindoo community and possessing well supplied bazaars. The chief public ground of the recommendation was that Conjeveram is more central than Carangoly, but it may be observed that this arrangement has only force when the District is considered in its length from North to south. Canjeveram is situated close to the western frontier which circumstance and its remoteness from the Presidency are serious disadvantages in point of situation.

Sec. Chingleput 29th May inCons. 3d Decr. 1827.

4. The unsuitableness of Canjeveram for the head station, in reference to the comfort and health of the European officers and the general public convenience soon became

became apparent - and the expectation of another change has deterred the various Officers from building so that no houses are to be found there. Thus Mr. C. Cotton in his letters of 23d April 1830 and 3d September 1831 explained why little of his time was passed at Canjeveram, and pointed out the advantages which would arise from the Collector and his treasury being near the Presidency. A following Collector Mr. A Maclean strongly urged the same course and after naming several places in the neighbourhood of Madras suggested Poonamalee - but the Board was then unwilling to take up the question - The subject was next prominently brought forward in the time of Mr. Freese and on his representation authority was given for the Collector to reside at Pullecarney in the vicinity of Guindy, on the understanding that accommodation was to be provided by him for his establishment, without any expense to the state.

In Secy. 26th April 1830
In Cons. 5th Sept. 1831.

6th March 1835.
In Secy. 19th March 1835.

+ From Chingleput 13th in Cons. 16th March 1843.

Extract Minutes of Consultation 20th in Cons. 22d June 1843. No. 648.

5. Accordingly Mr. Freese built a Cutcherry at Pullecarnee which continued to

be

be the head station of the District during his time and that of his successor Mr. Cochrane. But the Poozoor treasury has remained at Conjeveram and is visited periodically by one of the Covenanted Officers.

6. After Mr Cochranes death the house at Pullecarney ceased to be the Collector's residence and the two Gentlemen who have since had charge of the District Messrs. Smollett and Shubrick, have resided at Sydapet in its vicinity having a small house at the public charge for temporary accommodation of their Cutcherry and records and Mr Shubrick now repeats the recommendation which was urged by Mr Cochrane for bringing the Poozoor treasury from Conjeveram to either Guindy or Sydapet and establishing there for and on a proper footing the head station of the District - at the same time the Government have called for explanation on the Minutes of Consultation noted at the head of these Proceedings, why a charge should have been incurred for house rent to accommodate the

Letter of 14th January 1853.
Letter from 25th April 1853.

the Collectors servants at Sydapet.

7. The entire subject has thus come under the Boards consideration and it appears to them that the public interests require that the Collector with his cutcherry and treasury should be permanently fixed in the vicinity of the Presidency - all the Officers who have lately had charge of the District have been unanimous in this opinion and in addition to those already named Mr. Smalley may be quoted as he proposed Sydapet when pointing out the unsuitableness of Caroongooly for the Head District station. The measure thus so generally recommended appears to the Board supported by strong and convincing reasons.

Letter of 18th Inform 21st February 1820.

8. It will be observed on referring to the map that the Chingleput District is greater in length than breadth - as respects length Madras is nearly the centre and with respect to breadth no other place has equal advantages both as regards the interests of the state and the public convenience and security. Here all the principal post roads meet so that access to the Collector and Magistrate is easy and information can reach him speedily from

all

all directions active supervision can be kept over the main roads leading from the Presidency and the Magistrate is at hand to cooperate with the police authorities of Madras. The state of population and crime round the Presidency, and the vicinity of the Military Cantonments of Palaveram, St. Thomas's Mount and Poonamalee make it highly advisable in the Board's opinion that the chief Magisterial officer of the District should have his office in this part of the District. It may be added that the number of Europeans who reside in or traverse this part of the District might cause serious inconvenience to be felt if an experienced Justice of the Peace was not at hand.

9. The pecuniary considerations appear to the Board equally strong. Most of the chief landed proprietors live at Madras or in its vicinity, and no other situation gives equal facilities for access to the Collector from all parts of the District. The great salt Depots on the coast at Covelong and Summenjerry come there under more effectual supervision, and the general transaction of business is facilitated

facilitated by the Catcherry being near the Presidency and in a populous part of the District. This consideration is of peculiar importance when lands and the revenue farms have to be disposed of by public auction. The Collector of Chingleput is necessarily in frequent official communication with the various authorities at the Presidency, and the advantages which arise from his being within prompt and easy reach are too obvious to require detailed remark. The Board have already alluded to communications between the Magistrate of Chingleput and the Police authorities of Madras and they may here draw attention to the Departments of the Railroad, the Electric Telegraph the Chief Engineer the coast Canal among other offices at the Presidency which send business materially advanced - by the Collector being able to give prompt information and aid instead of having to be referred to at a remote station. The various plans for improvements at the Presidency with which Chingleput is necessarily connected make this a point of yearly increasing importance.

The

10. The Board would here remark that in their letter to Government dated 30th March 1843 No 168 Chingleput is spoken of as the most advisable station for the Collector - But since then the increase of population round the Presidency and the concentration of trade and activity in the neighbourhood inconsequence of the construction of the trunk roads and the railway which connect the interior with the principal part on the coast have produced an important change - at Chingleput no interests of nearly equal importance call for the presence of the chief authority of the District, and the opinion of the present Board is strongly in favor of his office being fixed near the Presidency in the centre of commercial activity intelligence and population and where may be added in the vicinity of some the largest irrigation works of the Dis

11 The particular spot in which the Cutcherry might be placed is a point of comparatively little importance Pallicaw appears to be no longer available for the Collectors residence and this is not to be

regretted on public grounds since compared with other places it has serious disadvantages any populous precinct of Madras to which good roads give easy access would attain the object in view and the Board consider that the neighbourhood of Sydapett might be fixed on in accordance with the Collectors recommendation - This station in addition to other advantages would bring the Collector near the Presidency authorities on the one hand and the cantonments of St. Thomas Mount and Palaveram on the other - communication with Poonamalee and its neighbourhood would also be prompt and easy by means of the new and direct road which now leads there from the Mount cantonment.

12. If Government concur in the opinion that the Collectors Cutcherry should be established in the populous part of the District adjoining the Presidency the Board deem it advisable that in the arrangements made on the occasion the Auzoor treasury should be brought from Conjeveram to the Collectors station Besides the obvious

advantages

advantages of having the treasury under the
Collectors immediate inspection the genera
convenience of the Public and of Governm
would be thus advanced. Remittances pas
sing between the Talooks the Salt depots
and the Puzoor treasury would be facilitate
and the sums required for the various pu
poses of Government including the Road an
Engineers Departments, would be more eas
procured. It has already been observed tha
most of the Mootahdars and leading
landowners live at and near Madras
and the same may be said with respect
the Civil and Military Pensioners and
Yeomiahdars to whom periodical disburse
ments have to be made no necessity woul
also then exist for occasionally calling
Military escorts to accompany remittan
from the District to Madras. The Cou
pons would form a sufficient guard be
Sydapet and the general Treasury.

13. The Board can only at presen
make a rough calculation of the expe
which the proposed change of station
would entail. If a new Cutcherry is to
build

built the cost would probably be Rupees
10000. but if Government purchase the house
and ground alluded to by Mr. Shubrick
the outlay would apparently fall within Rs.
8000. The only immediate set off against
this expense would be the sale of the treasury
building at Conjeveram, as the Board propose
retaining the Collectors Cutcherry there, at least
for the present, in case it should be required
for a Dispensary or for use in the Education
Department, or for an office for one of the
convenanted or Uncovenanted Assistants.
There would however be a saving to Govern
ment in the cost of remittances, and the
charges attending the periodical visits of
the Collector and his subordinates. But the
Board recommend the measure for its generial
beneficial effects on the administration of the
province and for the promotion of public con
venience and they cannot doubt that the
advantages which would result from the
Collector and Magistrate being established
permanently in the most important part
of the District would make the measure
a source of profit rather than an expense
to the state.

In

12117 Fort St. George 3d July 1856.

14 In Para 3 of his letter Mr Shubrick proposes to sell the old Sayer Cutcherry or custom house at Conjeveram with a view to meeting the expense of moving the head Sta to Sydapett and mentions that an offer of Rupees 1020 has been made for it. The Boa concur in recommending the sale of this building either on a valuation by the Engineer or by public auction but this measure has no connection with a chan in the Collectors station, and the proce should be carried to the general accou of Government.

15. On learning that Governme sanction the Collector's Cutcherry and tha being stationed at Sydapett the Board w instruct Mr Shubrick to obtain plans & necessary buildings from the Civil En gineer and to report that officers of the value and suitableness of the house which Mr Shubrick mentio as available for purchase.

B. No 1240

From the Collector of Chingleput

Para 1

Sirs

I have the honor to report on the accompanying Petition No 542 of 1856 from the Board's endorsement dated the 27th February 1856.

Reporting on Petition No 542 of 1856 from Jovvadi Pillipal Bhodilly Vadiel to Mahomedoo Meeapabbee Enamdar of Cavoor and in the Sydapet Taluk &.

2 The Parties in whose names Petitioner complains of certain Inamms having been registered in this Office as Co-partners with her are not the illegitimate offspring of her grand father as represented by her, but his legitimate heirs as will be seen from the annexed Genealogical Table, Hafiz Syed Abdool Wahab

Fort Saint George 3d July 1856

Whil the original Enamdar had one shaudy and two nicka wives. On his demise, his son by the shady wife succeeded to his Estate taking his nicka wives under his protection and continued in his enjoyment till Fusly 1264 when he died leaving a daughter of his own /Petitioner/ and a daughter of his father by one of his nicka widows, and also the Nicka widow surviving the latter the present claimants to his legacy.—

3 Petitioner set forth her sole right to the property to the exclusion of the others on the ground that they were not the nicka widows and children of her grand father as represented by them; but his concubines and illegitimate off spring and as such could have no claims whatever on his estate she however produced no evidence either oral or documentary in corroboration of her statement while they averred that their connexion with the Enamdar was indisputable and produced documents from the Cazees of Chintadrepetta and the Sudr Court certifying to their nicka

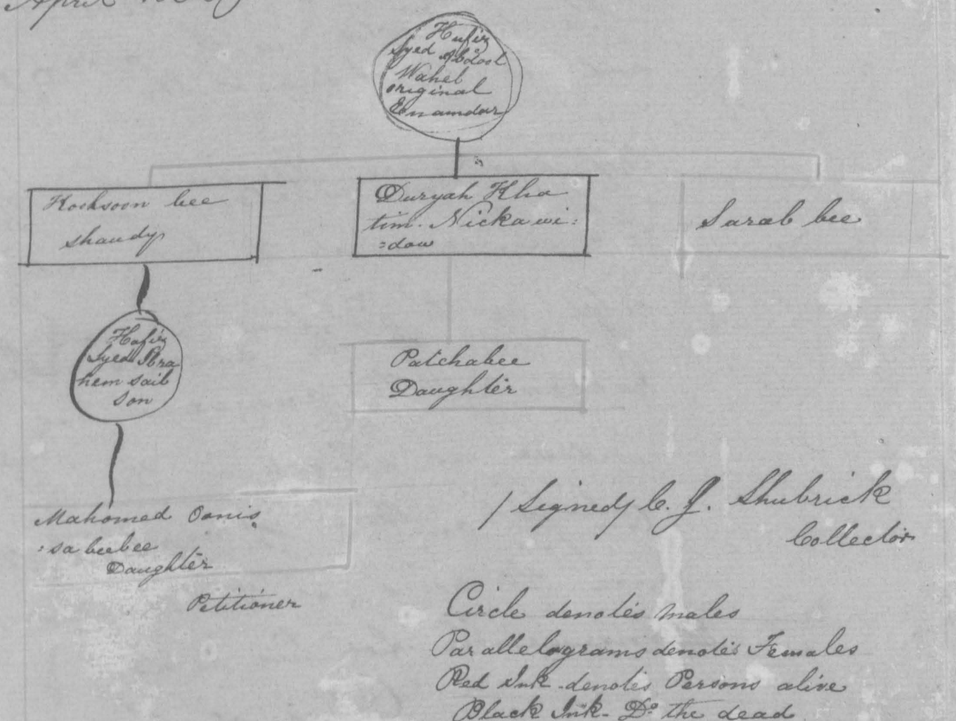

nicka union with him and further that they had been allowed certain stipends from His Highness the late Nabob of the Carnatic in virtue of such union Refer-ences were accordingly made to the Govern-ment Agent at Cheapak in view to as-certaining the genuineness of the Docu-ments produced by them and the fact they had averred which resulted in the entire confirmation of their statement as above setforth. Under these circumstances as the allegations of the Petitioner were shewn to be disproved the Enams in dispute were ordered to be registered in the names of the several Parties and the objections of the Petitioner to the same are therefore clearly inadmis-sible. The Decrees of the District Moonsiff cited by the Petitioner do not fail to recognize the connexion of the mesne widowes as alleged by the Petitioner. On the contrary they declare that they are the heirs of the Enamdar and answerable for his Debts

Copies of the Documents

applied for by the Petitioner could only be furnished to her from the originals, these being with the Parties themselves and their transcripts alone having been filed in this Office, duplicates thereof could not be granted though their genuineness is undoubted. Copies of the English correspondence between this Department and the Government Agent at Cheapak which were also solicited, could not be furnished without the authority of the Board.—

Remarks thereon

103-104.

In Cons 3rd July 1856

1532

This Statement has been drawn up in accordance with the Form and on the principle prescribed in the Board's Circular Order dated 14th June 1855, founded on the instructions of Government conveyed in Extract Minutes Consultation No 661 dated 1st June 1855, and the Board forward it for the consideration and Orders of Government as therein directed.—

2 It gives a list of 252 Enams in the 20 Collectors and 110 Enams in the Sub Collectors 20 Division which have been taken for public purposes or rendered uncultivable and are sought to be exchanged for fresh lands.—

3 The Old lands comprise an area of acres 3151—38—2 originally valued at Rupees 5925—3—4 in place of which it is proposed to give acres 5663—12—6 valued at Rupees 5517—15—4 being acres 511—14—4 in excess of the Old Enams, but Rupees 407—4—4 below them in Value.—

4 The Board are of opinion that considering the numerous small areas for which it was necessary to find lands of corresponding Value

Board of Revenue

Fort St. George

(105)

After No. 1587

From the Collector of North Arcot } Sir

With reference to the Rules granting gratuities to discharged Public Servants, published in the Fort Saint George Gazette of the 15th. May 1851, I have the honor to request, you will be so good as to inform me whether in the opinion of the Board of Revenue these Rules are applicable to Hoozoor Deloyets and Talook Peons, and if not to what description of public Servants the rules are intended to apply.

2 An enquiry into the efficiency of the Establishment in the Talook Cutcherry has shewn that

12152 Fort St. George 3d. July 1856

the fact that several are incapacitated from age and infirmity from further service, and that in some instances there is no male relative to whom a Belt could be given in lieu of the disqualified party.

Proceedings thereon

(105-106)

The Board observe that it is not within their province to construe the pension and gratuity rules, which are applied by the Government in communication with the Civil Auditor but they may state that peons and Deloyets are eligible for gratuities, as a Deloyet of their own Establishment was lately granted a gratuity upon his discharge for incapacity.

To

G. S Forbes Esquire

Secretary to the

Board of Revenue

Fort St. George

(107)

B. No. 1997

From the Collector of South Arcot -- } Sir,

In reference to Extract from the

the Proceedings of the Board of Revenue dated 23d. April last No. 1213 calling for further information regarding the Chunam Quarries of this District, I have the honor to state that I am unable to judge of the extent of the three existing Quarries, and that I have not the means of ascertaining the quantity of Chunam annually derived from them

2 Lime stone is found, in small quantities, in many other parts of the District besides these Quarries, but it is not regularly worked at any other spot.

3 The demand for Chunam for Public Works has during the past year, been larger than usual and has been chiefly supplied from the Quarries at Poovaly.

4 No great rise in price has however taken place although considerable difficulty has attended the endeavours which have been made to secure the requisite supply.

5 I beg to forward Copy of a letter from Lieutenant Foord 1st. Assistant Civil Engineer in charge of this District containing his opinion

of the probable effect of constituting the Quarries into Farms for the purpose of leasing them out to renters, in which opinion I fully concur.

South Arcot ...
Collectors Cutcherry
Cuddalore ...
2d. June 1856.

(Signed) Authur Hall
Collector

Enclosure No. 1
No. 129

To The Collector of
South Arcot

Sir

In reply to your letter of the 23d. Ult.
25th. I have the honor to state that I think the renting the shell Chunam quarries will have a prejudicial effect on the public works, inasmuch as it will throw an impediment in the way of persons contracting to supply Chunam to works These persons now give a great deal of trouble and are very slow in executing their agreements and if they have to make bargains and pay all to renters of quarries, the supply for public works will come in more slowly than ever.

It may be said that it is somuch
2 for the benefit of the renter that there should be

be as large a sale of Chunam as possible, that he will do every thing he can to promote it. The renters and proprietors of lime stone quarries in England act in this way they compete one with another in price, to the great benefit of the public; they advertise their goods, & provide convenient depots in all parts of the Kingdom and in short, make a regular business and livelihood of their quarries.—

3 But it is hardly to be supposed that the renter of quarries in this District will take any such trouble, or in any way facilitate the supply of Chunam or even take precautions to keep the pits clear of water, but he will put as high a toll as possible on the article, not caring whether purchasers are driven to seek it elsewhere.—

4 Another objection to renting the quarries seems to be that the chief consumption of Chunam is on public works, very little being used in the wretched domestic architecture of

the Country.—Therefore whatever the Government gains in the shape of rent from the quarries, must be more than lost in the shape of tax taken by the Contractor.—

5 Another thing that I would point out is, that the quarries it is proposed to rent are by no means the only places in the District where Chunam is to be had for instance, the excellent hydraulic lime used at the Vellaur Anicut, comes from elsewhere, and indeed there is no Talook in the District I believe where Chunam would not be found if sought for, and it appears to me & hardly fair to tax two or three quarries and leave the others free.—

/Signed/ E. A. Foord
Assistant Civil Engineer
5th Division

Cuddalore
May 30th 1856

/True Copy/
/Signed/ Arthur Hall
Collector

107-108.
Order thereon The Board are of opinion that the very trifling amount of Revenue to be gained by farming these quarries would not compensate for the additional trouble and delay which the

the Officers of the Department Public Works could experience in procuring supplies of lime for them for the prosecution of district Works. They resolve therefore to record the foregoing letter.

To

G. S. Forbes Esquire
Secretary to the
Board of Revenue
Fort St. George

(109)

B. N. 2065

From the Collector of Chingleput } Sir

Under the practice existing in this District of issuing orders on the Talook Treasuries for sums required for meeting expenditure of every description, and of giving credit to the Hoozoor Treasury for the same at the beginning of the month following that in which it had been incurred, the charges of any one month are not debited in the accounts of that month but in those of the next. The system having been repeatedly objected to by the Accountant General, I have on mature consideration deemed it expedient to issue orders for making all future disbursements at the Hoozoor Treasury

and debiting them in the accounts of the same month, but as this will create some delay in the payment of the revenue, Civil and Military Pensions in the Talooks which are required by the Civil Auditor to be disbursed without pre audit and otherwise in the discharge of the Drafts drawn by the Military Paymaster which do not amount in all to any large sum in each Talook, and as the sum of Rupees 100 lodged in the Talook Treasuries for meeting expenditure of an emergent nature under the Board's Orders of the 16th June 1853 is not sufficient for the speedy discharge of the demands above adverted to, I beg to request that an additional sum of Rupees 100 may be allowed to be kept with the Tahsildars to enable them to make payments from time to time on the above items, They will be required to render accounts to the Hoozoor Treasury for the actual expenditure at the end of each month when the amount can be deducted under the head of "Advances on account of the service of Government," and debited to proper heads. The system is calculated not only to ensure regularity

regularity of payments in cases where desirable, but also to render the accounts of the Hoozoor more faithful and correct, while the comparatively small amount placed at the disposal of the Tahsildars for defraying demands of the nature adverted to is not likely to be diverted to other purposes.—

2 The monthly advance of Rupees 122 heretofore drawn at my separate Hoozoor Cutcherry at Sydapet was considered sufficient for all ordinary demands under the practice of indenting on the Talooks from time to time for sums required for extraordinary expenditure at the Hoozoor, but as this practice has been discontinued, and the above amount is not enough for making advances on account of batta to Prisoners for the Sanderward charges, for advances to Peons deputed on duty to adjoining Districts, and for Cart and Coolly hire when moving on Circuit &c. I beg to request that I may be permitted to draw a monthly advance

of Rupees 500 inclusive of the above amount from the Hoozoor Treasury and to furnish accounts of the actual expenditure at the end of each month to be debited to the proper head, and the accounts rendered thereby complete in every respect. I am induced to submit this proposition for the favorable consideration of the Board as my Cutcherry is at a distance from my Hoozoor Treasury, and I have no means of meeting the demands I have above described without having cash in hand.—

3 The total amount of monthly advance recommended to be made from my Hoozoor Treasury irrespective of the 1000 Rupees now lodged with the Tahsildars and Rupees 122 at the Hoozoor is Rupees 1378 for which sanction is requested.—

/Signed/ C. J. Shubrick
Collector

Chingleput District Collectors Cutchery Sydapet 6th June 1856
Bd. No. 2032
Proceedings thereon
109-110

As the advance now drawn in the Hoozoor Cutcherry and the sums lodged in the Talook Treasuries are represented to be insufficient for the calls they were intended to meet, the Board, with reference

Bd. C.O. 30th September 1852 V. 2 P. 86.

12161 Fort St. George 3d. July 1856

reference to the sanction of Government conveyed in Extract Minutes Consultation 13th. September 1852 No. 892 authorize the Collector to draw an additional sum of Rupees 378 for demands on the Hoozoor Cutcherry, and to lodge an extra sum of Rupees 100 in each of the Taluk Treasuries subject to the monthly audit prescribed in former orders, the additional sum now sanctioned is Rupees 1,378--- making with the former amount a total of Rs. 2,500---

From the Collector of Salem.

Sir,

With reference to my letter of the 11th Instant No. 63 reporting on the Local Funds of my District for the year 1855/56, I have the honor to state that the income from the Salem Cart Tax during the year ending 30th April 1856 amounted to Rupees 5,490-2-9 and the expenditure to Rupees 4,854-7-3 which leaves a balance of Rs. 635-11-6 in hand on the 30th April.

2. As the Board may require this information and the means of affording it has just reached me, I think it best to furnish it at once tho' the Cart Fund has not been carried to account as a part of the "Local funds" for 1855-56.

127

Bd No 2302 Sir.

From the Collector of North Arcot } I have the honor to report for the information of the Board of Revenue that of the total Peishcush due by the Zemindar of Calastry for Fusly 1265 payable by three instalments as noted in the margin the first two instalments have been duly discharged, but in regard to 3d instalment the Zemindar submits a request that he may be allowed to discharge part of it by the 15th June viz: the sum of Rupees 33462, and the remainder 30,000 Rs without interest by their instalments payable in addition to the 3d Instalment of Fusly 1266.

1st Instalment in December 63,465-8-0
2d Do in March 63,465-8-0
3d Do 15th June 63462-0-0

1903-3-0

@ Rs 63,462
† dated 4th May 1856

2

As the Zemindars proposal to defer payment of the 2d and 3d instalments of the arrears due by him

by him till March and June 1857 — seemed unreasonable I suggested to him that he should limit his request to the permission to pay his arrears with the first instalment of next fusly payable in December next, — — — — but the Zemmindar has stated his inability to ensure payment of his peishcush under any other arrangement than that first proposed by him, his inability being the result of the unfavorable nature of the season of fusly 1264 & 1265

3 I have the honor therefore to submit this request of the Zemmindar for the consideration of the Board of Revenue and to request their instructions on the subject.

North arcot
Collectors Cutcherry
Chittoor 20th June 1856

/ Signed / C. Whittinghame
Collector

Bt No 2035

Proceedings thereon:

(127-128.)

In consideration of the unfavorable nature of the late season and

and as the Collector recommends that some indulgence should be allowed to the Zemmindar the Board resolve to permit the payment of the balance of Peishcush due by the Carvetnugger Zemmindar for fusly 1265 in two instalments of 15000 Rupees each to be paid with the 1st and 2d Kists of the opening fusly. A Petition has reached the Board from one Balasoondaram Moodelly stating that the effects of the Zemindar had been misrepresented by the Carvetnugger Zemmindar with a view to obtaining time for the payment of his Peishcush this Petition will be separately forwarded to the Collector for consideration with reference to his present recommendation should there appear cause to suspect the accuracy of the report regarding the Calastry Estate. Mr Whittinghame will at once communicate the circumstances to the Board.

131

Bd No 2332 Sir,
From the Collr of
South arcot

I have the honor to acknowledge receipt of Extract from the Proceedings of the Board of Revenue of the 13th Instant No 1834 forwarding Copies of Extracts from the Minutes of Consultation of Government dated respectively 10th May and 2d June, and calling for information on certain points connected with the Salt Department

Submitting information on certain points connected with the Salt Department of the District with two Statements in reference to Board's Pros: 13 Instant No 1834

I beg in reply to submit the accompanying Statements marked A and B shewing the number of places in this District at which Salt is manufactured and sold, the usual quantity made annually and the fixed Establishment maintained at each place.

2

The Board will observe that there are but four Pans in this District, and I am of opinion that more

3

of

of them can be abolished without causing inconvenience to the community who are dependant upon them for their supply of Salt.

4 Formerly Salt was manufactured and sold at two other spots viz: at Madalapet between Cuddalore and Pondicherry and Arraghesty near Portonovo but owing to the facilities which these localities afforded for smuggling they have been abandoned since 1833 and 1839 respectively.

5 Mr E. Maltby when Collector of this District entered very fully into the subject of the manufacture and sale of Salt in his replies to the Queries of the Commissioner which be forwarded to the Board with this Letter of the 21st April 1854.

6 The length of Coast along with the four Pans of this District are situated is about 70 miles, and there is considerable interval between each of the places so that one does not interfere with the other and all are very well frequented by purchasers.

7 It would, I think, be better if the Salaries of the servants attached to the Salt Department were higher than they are, but as I am not authorized to propose any changes involving a direct increase to the total charges I refrain from making any suggestions on this point.

8 Frauds and Smuggling are undoubtedly carried on, but it is chiefly by the illicit manufacture of Earth Salt that the Revenues of Government suffer, and these practices would not be put a stop to more than they now are, by reducing the number of places of legal manufacture, or by raising the pay of the Establishment but on the contrary it appears to me that by taking away the means of people getting their supply of Salt close at hand, an additional inducement would be offered for their clandestinely making what they require.

9 Under the circumstances, therefore of this District, I do not feel myself able to recommend any alteration in the present arrangements.

/Signed/ Arthur Hall

Bd No 2354
From the Collector
of Nellore

Sir,

With reference to Extract from the Proceedings of the Board of Revenue dated 11th April 1856, and to para 4 of their Circular of the 24th December 1855 I have the honor to forward herewith a Statement shewing the result of the sales of the abolished Farms in this District for the ensuing 5 Fasleis

2 With the exception of some of the Stations in the Sub Division where the offers received did not come up to the upset price fixed by the Board all the rest have been rented for 5 years. The total amount of the offers accepted is in excess of the upset price fixed by the Board by Rupees 1,858 - - - and of the last years Revenue by Rupees 1727 - 3. 3.

3 No difficulty was experienced at Nellore the Farms were put

put up one after another before the Head assistant Collector and at once disposed of to the highest bidder, but considerable delay has occurred in the Sub Division from the want of suitable offers, and the Farms not being able to be settled for 5 years, and in one instance from the renters wishing to withdraw; which has prevented my reporting the result sooner to the Board.

No. 69.

From the Collector of Canara

To G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St George.

Sir,

B. of No. 2409.

Reports on the collection and expenditure of the Local Funds during the official year ending 30th April 1856.

Circular No. 1392 and No. 1880.

With reference to the Board's instructions dated 7th May last and those of the 2d Instant, calling for a report on the Collection and expenditure of local Funds during the year ending on the 30th April last, I have the honor to submit the following report together with an account current showing all transactions.

No. 1

I must here observe however that this report is not, and cannot be drawn up according to the Rules furnished with the Board's Proceedings of the 7th May last, as it necessarily embraces a period prior to the 1st May 1855 and I am not in a position to include the Statement required by rule IV, having had no opportunity of meeting Lieutenant Goddard the District engineer, and time not admitting of my arranging future proceedings with him at the moment, he being in the northern extremity of the District.—

Nothing

Bellikerry

2 Nothing can now be undertaken in Canara in the way of road making before September, and I shall shortly do myself the honor of submitting a statement of proposed operations that orders of Government may be received before the opening of the next Ring season.

3 The Local Funds of Canara as defined in Rule 1 for the management of the same consist of the Ferry rents and Cart tax.—

4 The proceeds of the Ferry rents were granted in Extract Minute of Consultation under date 9 January 1833 and the Cart tax levied during the years 1833. 1834. and 1835 was incorporated with the Ferry Funds by order of Government Conveyed in Extract Minute Consultation under date 11 June of the same year.—

5 The expenditure of a portion of these funds in Keeping up Ferries and paying the charges incurred for toll houses, and establishments on the Bhaunars and Comptahs does not seem to call for remark, being clearly given in the accounts current

Items Nos 5 to 11 and 21, 22, 23.—

Current appended; and I shall proceed at once to show in what instances and to what extent these funds have as yet been used to improve our Communications I take them in the order in which they are entered in the account.

6 On receipt of the sanction of Government placing the Ferry funds at the disposal of the Collector, a line of Cart road South of Mangalore was Commenced

Work No. 2 and a train run from the Southbank of the Nativaty to the Town of Coomblah in the Betul Talook a distance of 21½ miles. This was moreover marked by an avenue, young trees being planted on each side for the entire distance — By taking the line a little inland the difficulties of the sea shore, and constant back waters were avoided though this course involved the necessity of Coping the valleys intersecting the high laterite Downs which stretch along the Coast.—

7 A commencement was subsequently made from the Bank of the Mangalore river and a substantial embankment was carried across the valley of Ahykale byle - This work is

is 780 yards in length has a roadway 21 feet in breadth, and is revetted on one side with Cut stone to the height of four feet. It is also pierced with fine drains A quantity of rough stone has also been Collected for embanking a tidal Nullah, and several small embankments have been made at different points on the line, 4½ miles of which have been completed to the full width, whilst it is available throughout for foot passengers on loaded bullocks. The Mungulpady Nullah is crossed by a temporary bridge and the chief difficulties on the line traced may be said to have been overcome.—

Cuyargode Work No 1. 8 This road is less than 100 yards in length, and Conceals the higher Coast road with the harbour and the Salt Stores, formerly this point was approached by a narrow gully, and great inconvenience was experienced by the Salt dealers in Consequence now there is Complete and easy

easy access to the Salt Depot from the Salaver Coomblah and Hospdroog roads.

9 No further improvements having been made in this part of the District with these funds I pass on to Nonie Salork and the Coast road between Byndoor and Bnttkul.—

Work No 12 and 13. 10 There the Construction of the Soolgeny Bridge and the approaches to it have made Bhutkul, a Considerable Coast Town hitherto almost cut off from the surrounding Country by the very difficult rocky and broken ground around it thoroughly accessible. The plan and estimate for this bridge were furnished by the Civil Engineer and that Officer himself decided on the necessity of this undertaking The bridge (3 spans, Centre arch 30 feet side arches 20 each) is not quite finished, but sufficiently so to be open for traffic and to render it Capable of standing the monsoon a little Chunnam work alone remains to be done.—

Work No 14. 11 The Monsoon repairs on the coast line between Byndoor and

and Nunikoole a distance of 16 miles have been charged to this fund This road is in first rate order and the whole line from Gundapoor to Konna will be open next season.

Items No 15. 12 Now pass on to the Ankola Taluk noting here however that Rupees 75 as per account has been charged for Taal to the above roads entering Ankola from the south Substantial repairs have been made to a portion of Sandy road in the village of Hunnyhully between Gokurn and Ankola and the nullah passing through the Byle land South of the village of Ankola has been bridged in a rough but substantial manner with Timber the roadway being supported on piles. This bridge is 90 feet long Work No 17. Work No 16. but is only 12 feet broad. and with the approaches was Constructed for the trifling sum of Rupees 189-15-6 of which Rupees 150-3 were it seems paid by the Talookdar himself who was further assisted by the willing labour of the people of the neighbourhood who

cut and brought to the spot all the timber required.

No 19 13 The sum of Rupees 20 entered in the account as an advance is part of Rupees 1763—15—0 which it is proposed to expend at the Port of Indre in erecting a Pier. This Port has increased in importance of late and bids fair to be the first place in Canara which will maintain a direct shipping Contract with Europe Mr Brice has a large establishment there and is setting up Cotton screws. Great as may be the future prospects of Beitcole Bay-existing Communications have doubtless given Indre which possesses no mean natural advantages, a great start, though it is to be deeply regretted that one of its principal feeders the Arbyle line is still imperfect the Gungawally river not being yet bridged.

16 The plan and estimate for the proposed Pier alongside which vessels drawing 12 feet of water will be able to load or discharge Cargo, were drawn up by Mr Muller (now in the Forest Department) and have been submitted to the Civil Engineer.—

Lieutenant

Lieutenant Walker has not only approved of the projected undertaking but has suggested some improvements in the shape of the Pier with the view of affording greater accommodation to vessels coming along side and has given his decided opinion after visiting the spot that no injury to the harbour need be apprehended from a structure of the above Kind The materials have been partially collected and the Pier will it is hoped be commenced as soon as the season permits & workmen can be obtained.

Sale Funds Ryder Ghaut Work N. 24.

15 Here a considerable work has been executed from the proceeds of this Fund any one who has traversed the old road between Ankola and Sedasheegur via Bungy Ghaut. whether on foot or horseback or indeed in any Country Conveyance or mens shoulders, must have been struck with the extreme difficulties and discomforts of the route, if not with the apparent hopelessness of any attempt at improvement.

16 In Ryder's time even the spot seems to have escaped the

mountain range which here approaches the sea at another point, and as it now appears took the best line of Country that presented itself.—

17 The Civil Engineer recommended the application of District funds on the opening of this Ghaut, and had the traces on both north and South ascents made under his own eye Subsequently Lieutenant Law took Charge of the Ghaut and the whole was marked out under overseers Milton and Harrison to a breadth of 14 four yards.

+Miles I. 5—6

18 It now remains to connect this line with the Ageoor road and Ankola on the South and with Sedasheegur on the North.

19 The Board are aware that at Kutgal, a point just below the old town of Dopimputnam on the Inddry river, at which salt cotahs have been built since the Dewmunny Ghaut was constructed, has of late years been coming prominently into notice as the spot from which all goods coming down the Ghaut for transmission to Coompta or Inddry by water, must be embarked.

As

20 As facilities for doing so increase larger number of Carts Cattle and other pack bullocks stop at Kistigal. either on account of forage being dearer as the Coast is approached or for the sake of the salt purchasable on the spot. Latterly Mr Bruce a merchant who has established himself in north Canara built godowns here, where as yet there was little more than a right of way from the Salt Kotaurs to the landing place, already built at the mouth of the Creek.—

Work. No 25. 21 With a view to meeting the increasing wants of traders, it now became necessary to obtain the land on the banks of this Creek, and prior itself and to arrange for the orderly approach of loaded Carts or bullocks to the river banks and their return to the point at which all could conveniently encamp, without interfering with those following them. This and the marking out a new line of road from the Salt Kotaurs towards the foot of the Ghaut have engaged Mr Robinson's attention and his arrangements as the accompanying

No 2 accompanying pencil sketch will show have been highly judicious. It may seem perhaps that more might have been done, but on due Consideration of the importance of having the Quays and Wharfs well planned and substantially built the Sub Collector came to the wise determination rather to wait until scientific aid was available than attempt too much with the means at his disposal.—

22 The works now necessary to form convenient means of shipping goods at this spot, up to which the Inddry is navigable for native Craft will form matter for the early Consideration of the District Engineer and with the number of European assistants at his disposal. I hope to see rapid advances made during the Coming Season in these works to the Commencement of which all difficulties have been removed by the arrangement already made.

Work. No 26. 23 This is a mere substantial repair of the quay opposite the present Coompta Custom house, which ought to have been attended

Fort St. George 3d July 1856.

attended to earlier, but was put off under the impression that it would not be required at all in Consequence of the plans already existing for building a new Custom House elsewhere. Circumstances have postponed the execution of this sanctioned work, and as the difficulties hitherto experienced are not likely to be immediately removed, the old quay has been put into a proper state of repair—

24 Having enumerated these works on which the Ferry Funds and Cart tax have been expended as it appears that these only are Local Funds I cannot but regret the disjointed and unsatisfactory character of the report arising from the manner in which this expenditure has been scattered over the District. I shall shortly however be in a position to furnish the Board with a report on the expenditure of the annual grant for the last 18 months and I shall then be able to shew clearly I hope the advantages the District has derived from the liberality of—

Rs 20000

Ordered to lie over
No. 59

137

To G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St George.

Bde No 2391
From the Collector
of Cuddapah

Sir,

I have the honor to acknowledge the receipt of your letter of the 12th Ultimo forwarding five Specimens of Bengal Indigo to be exhibited on behalf of Government at the agricultural exhibition in this district and at the same time requesting that Specimens of the best Indigo may be forwarded to them. I regret to say that from the very great demand for Indigo none of the first quality was exhibited, but I have procured a few specimens which are herewith sent of the 1st class which have brought very large prices in the English market, and the quality of which is little if any inferior to the Specimens from Bengal. Should the Board desire specimens of the finest Cuddapah Indigo, I shall procure and forward them after the

Fort St George 3d July 1856

the present crop has been manufactured and the Board will then be able to judge of the quality produced in this district. The samples received from the Board together with these manufactured in Cuddapah, are forwarded by bandy

From the Collector of Tinnevelly

Informing for reasons within mentioned that the Tahsildar of Vedovgramum Talook Tirumalanumby Naik has been suspended under date the 11th Instant.

Sir,

I have the honor to inform you that the Tahsildar of the Vedovgramum Talook, Tirumalanumby Naik has been suspended by me under date the 11th Instant.

2 On a review on appeal, of a case of robbery by open violence, suspicion attached to the Tahsildar of his having shewn partiality in the disposal of it, by his examining witnesses for the defence, and releasing one out of the three Prisoners apprehended, and imposing on the remaining two a trifling fine of 2 Rupees each, and on my cancelling his decision, and ordering him to commit the case for trial before the Criminal Court, the Tahsildar without confining himself to simply obeying my order, wrote a long Diary insinuating that proof was wanting against the Prisoners

Prisoners, which Diary he sent to the Court.—

3. The Prisoners have now been committed by the Criminal Court to take their trial before the Sessions Court where the case is still pending.—

4. Unconnected with the above and other irregularities and neglect in Police business, the late Moozoomdar of the Talook has preferred against him several charges of fraud which are under investigation by my Head Assistant who has not, as yet, made his report On the receipt of his report and the sentence of the Sessions Court in the case above referred to, a full report will be submitted to the Board.—

No. 1.

Circular.

Sir,

I am directed to call your attention

Fort St. Georges 4th July 1856.

attention to the Board's Circular Order of 26th February 1855, No. 420, expressing the desire of Government that Village officers should be relieved from unnecessary attendance at the Talukdar's Cutcherries and from all needless inconvenience in the discharge of their duties.

2- Those orders referred principally to police proceedings, but the spirit of them is equally applicable to revenue business, and Government rely on your aid in their endeavour to make the office of Head of the Village respectable, and an object of laudable ambition.

3- Government and the Board feel that this important end depends chiefly on Collectors themselves, by the example they set of considerate forbearance towards their subordinates, and by the care they take in selecting persons of education and character for the Office of Talookdars, in making known to them the instructions of Government, and seeing that those instructions are acted on with a willing and effective obedience.

4 The subject is not one on which precise rules can be laid down, or are necessary since circumstances may so continually that much discretion must be left to the local officers, but the principles

Fort Saint George 1th July 1856

principle to be kept in view is that Heads of Villages are not to be summoned away from their homes without absolute cause; and that on all practicable occasions, especially in matters of much importance, information or explanation is to be obtained from them by sending a taheed (written order) instead of requiring their personal attendance.

5— It is also to be understood that it is not necessary for the Head of a Village always to accompany the Village remittance to the Talook Treasury. It is his duty to see that the collections are fully made, and that the remittance is despatched with a correct and detailed Invoice, under a trustworthy and sufficient guard. But if the Collections are not equal to the current Demands, or nearly so, and no circumstances call for extra precautions during the transit of the remittance, the Head of the Village may act on his discretion in omitting to accompany it. In this case the remittance is to be examined and receipted in the Talook treasury immediately on its arrival

Fort Saint George 2th July 1856

arrival in the same manner as if the Head of the Village was present.

6— Under this arrangement a Head of a Village will still be liable to dismissal if loss occurs by his despatching a remittance without taking all due precautions for its safety, and he will be equally so responsible as before for any difference or deficiency which may be found on examining the remittance at the Talook Cutcherry.

The Board desire also to call the particular attention of Revenue Officers to the 6th Para: of the Circular Order of 1st March 1855, which directs that on important occasions his personal attendance may be at once required by the Talook Sheristadar, or other Native Officer deputed to furnish explanations. On others an order should first be sent calling on him to give a written explanation.

Read again letter from the Collector of Cuddapah dated 8th and entered in Consultation 20th September 1855-

165

Bd's No 2037-
Proceedings thereon-
Dated 25th June 55

In this letter Mr Murray replies to the Board's Circular calling for information regarding the extent and method of Sugarcane cultivation and the system under which it is traced-

2- From Mr Murray's account land intended for cane cultivation, is not previously sown with rice, although the cane is not planted before January. He states that the time between August and December is employed by the ryot

ryot in repeatedly ploughing the land otherwise preparing it for the reception of the young plants.

3 The crop remains on the ground about 12 months, and therefore reaches maturity towards the close of the following fasly. In that second year the ordinary assessment and fusul jasty are levied.

4. Mr. Murray is of opinion that the demand for assessment should be abandoned in the first year because the ryot incurs expences and labour in preparing the ground for the cane and receives no crop.

5. The Board are however unable to support this recommendation. In the first place they are led to believe from the example of Bellary and other Districts that a grain crop is often raised before the cane is planted, and in the second they do not consider that Government should lose the assessment due on land under occupancy because the owner prefers to raise sugar cane instead of rice, or other produce. The two crop taram is levied in the second year in consequence of

of the larger quantity of water which the cane is supposed to require in that fusly.

6. Mr. Murray's letter shews that the cultivation of Sugar cane has considerably increased under the present system of taxation that the assessment of the land on which it is grown is not excessive, ranging as it does from 1 Rupees 8 and to 1 Rupees 4 per acre, and that his District has now those advantages as respects the taxation of this product which were granted to Bellary, on the Collectors recommendation in the Board's Proceedings of 12th April last. The Board therefore resolve not to alter the system in force in Cuddapah unless the general principles on which the land assessment has been fixed should be hereafter changed.

Read again Letter from the Agent at Kurnool dated 15th and entered in Consultation 23d October 1835.

(166)

Bd. No. 2036. In this Letter the Governor's Proceedings thereon — Agent replies to the Board's Circular calling for

dated 25th June 55

for information regarding the cultivation and taxation of Sugar Cane.

2. In Para 28 of their general report for fasly 1263, the Board noticed the very high Assessment levied on land cultivated with this product in the Masulipatam District, and proposed taking steps for immediately modifying the rates, under the supposition that such heavy taxation must be peculiar to this particular cultivation and attributable to the idea of its great profitableness which the late Mahomedan Government entertained.

3. The Agent however reports in this letter that all extra and distinctive taxation has been already abolished and that sugar cane now only pays the Assessment chargeable for two rice crops according to the system which prevails in other Districts.

4. Government have expressed their disinclination to alter this system, and the remedy for the present high rates must therefore

S. Mg. C. No 234 11th March 1856 Pts 5 and 6.

therefore be looked for on a remodelment of the land Assessment of the Province. This measure has been long in contemplation and the Board hope that its accomplishment may not be far distant.

Read the following letters.

No. 28.

To G. S. Forbes Esquire
Secretary to the
Board of Revenue
Fort Saint George.

P.B.d No 1264.

From the Collector of Cuddapah } 3 Paras.

Sir,

With reference to yours &c. Circular letter No 2383, under date the 11th &c. September last, I have the honor to state that in the District of Cuddapah there are no rent free backyards for which grants have been given - at the time of the Pymayesh, certain quantities of land were appropriated for the formation of Villages, hamlets &c called "Grainanuttums", upon which the ryots and others built their houses, to most of

167

of which there is a very small portion of backyard attached, on which no teerwah is collected. The only produce in these backyards is one or two Mungo, Tamarind &c trees for shade, and some times pumpkins or a kind of beau is planted which covers the houses. In localities where the people are more wealthy and have a large space some few vegitables such as Bringals &c are grown for household purposes these backyards are generally used by the occupants of the house for bathing, keeping their grain, straw cattle &c and have upto the present day been exempt from all assessment and the quantity of land thus occupied by the different backyards cannot be ascertained as no measurement has ever taken place or register kept of them. To prepare one now, it would require that the houses in each village should be measured and entered into the account but this I consider unnecessary as the premium was set a side at the Pymayesh for the express purpose of affording room for

12225 Fort St George 4th July 1856

the cultivators and others erecting their houses.

2- In some localities where formerly the villages were large and grammanittum extensive, but have subsequently decreased in size, a portion of the land has been deserted and taken up by other ryots for cultivation, on which teerwah is levied, in other parts ryots, whose backyards were not sufficient, and who have no place for the straw &c, have appropriated portions of this but no tax is levied. In some villages where the grammanittum has been insufficient, the ryots have represented to former Collectors that as they held puttahs to a considerable amount and possessed no backyards or convenient spot for beating out their grain, stacking their straw &c the Collector upon enquiry remitted the assessment which they had formerly paid upon the small quantity of the Ayacut no longer appropriated by them for the purpose but where it is ascertained that the parties have extensive backyards and still retain Ayacut no longer lands, the quantity so used is included in their puttahs and assessment charged.

Secretary to the
Board of Revenue
Fort Saint George

169

Bd No 1265.
From the Collector of Cuddapah } Sir, I have the honor to acknowledge the receipt of the Circular letter No 293 under date the 30th January last, and in reply beg to state that the Sasayee Enams have up the present time been considered hereditary and were obtained in the former Mogul Government, but in the General heading "Zemindary Enams" they are included along with "Congayee" The amount of the Enams under the general head amounts to acres 7926-29-1/4 assessed at Rupees 11,750-12-2 but the total amount of Sasayee is not entered; this however can be obtained from the Pymaish and Enamah accounts by a goshwara account being prepared from the different villages in which these enams exist. The Sasayee Enams were granted for services performed

12227 Fort Saint George 4th July 1856.

performed, and in my opinion the holders may again be called upon to perform the duties for which the Enams was originally granted and as the Sibbendy of this district is small, it might be advisable to employ either the Enumdar or his Goomastah in assisting the Establishment in the taloob Cutcherry. The Government have already declared that 20 years uninterrupted possession will constitute a right to the Enam lands thus occupied and as "Sasayee" and "Congayee" Enams have descended from father to son, from a period prior to the cession of the Country, I do not think they can be resumed, but at the same time I see no objections to the holders being compelled to assist in the preparation of the public accounts.

Cuddapah Collectors } (Signed) M. Murray
Office 11th April 1856 } Collector.

169-170 Order thereon - Ordered to lie over.

No 27.

To G. S. Forbes Esquire
Secretary to the
Board of Revenue
Fort Saint George

171

Bd No 1266.
From the Collector of Cuddapah } Sir, Para 1- I have the honor to acknowledge the
Reporting on the adequacy

12071

12228 Fort Saint George 4th July 1856.

adequacy or otherwise of the remuneration of the Village Officers, their ability in regard to education and intelligence, and the effects of the hereditary tenure on which the office is held V.

the receipt of the Extract from the proceedings of the Board of Revenue under date the 18th December 1855 annexing an extract from the minutes of consultation dated the 8th idem, wherein they call upon Collectors generally to report on the adequacy or otherwise of the remuneration of village officers, their ability in regard to education and intelligence and the effects of the hereditary tenure on which the office is held and on the efficiency of the Same - and in reply to state that throughout the province of Cuddapah in general the allowances in lands for the support of the office of village Moonsiffs and Reddies, there being none in ready money, is sufficient (though there are some few exceptions) for the duties they are called upon to perform, provided the whole of the enam lands entered as their share in the Mirasibundy books were enjoyed by the persons who fill them. this however is unfortunately not the case, as the lands have been divided and subdivided into very small portions according to the number of the family, and each member claims a share by hereditary right. On

12229 Fort St. George, 4th July 1856.

In some cases the Moonsiffs allowance as entered in the books, is apparently sufficient in accordance with the scale laid down by Colonel Munro, but when narrowly scrutinized, it is found there are undersharers who receive a portion of that allotted to the Moonsiff, which being deducted leaves him a mere pittance, and should the brothers or undersharers not receive what they consider their hereditary right, jealousy and enmity spring up in a family which had for years lived together in peace and comfort, and when once these evil passions are roused, they are not easily allayed as the men of Cuddapah particularly, those taking the surname of Reddy, are a bold and independent set of men, not overscrupulous in the means they resort to, in order to obtain their ends even carrying their rancour as far as bloodshed and murder. In the margin are noted one or two instances to shew how the enams are subdivided, and I think it will be very advisable to have the whole lands set

Name of the Villages	No. of Reddy in Mirasi	amount of enam enjoyed by them			No. of parties in their Mirasi	Amount of enam enjoyed by them			Total Red'y enam of the Village		
Cosoor Carepully	5	36	1	17¼	111	118	8	9/16	155	6	
Dassaly Cooplah	3	10	5	3¼	37	75	1	13/16	85	6	5

Fort St. George, 4th July 1856.

set a part for the support of the village Moonsiffs and Reddies for the efficient performance of their duties, to be enjoyed by those who actually fill the office provided it is not in excess of a proposed scale in villages where the Reddy enams are considerable and enjoyed by a number of shares a scale might be drawn out specifying the exact sum considered sufficient for the remuneration of the Reddies and Moonsiffs and means ought to be taken to secure to them the full allowance set aside for the purpose, should any sum remain after that considered sufficient for the office holders, the ghair Missuldars or relatives might enjoy it according to their shares as formerly. It would make them more independent and a better class of men might soon be introduced into the situation. A Moonsiff who has a large tract of land to cultivate and who pays a large sum to Government has not much time to perform the Civil duties of his office: he is often one of the most wealthy in the village and by it obtains great influence over his fellow villagers. We as Reddy can easily make arrangements for collecting the Government revenue and

Fort St. George, 4th July 1856.

revenue and transmit it to the Tahsildar, which to him is no difficult task, on account of the influence he possesses he is at the same time the creditor of many of the poorer classes, several of whom cultivate his land for "varum". Should any of his dependents bring a Civil action against an opposite party who is not connected with the Moonsiff, a decision is more likely to be in favor of him who is the dependent than the other party. This is not to be wondered at as there are no moral or religious principles instilled into them. Individuals in general prefer making their complaints to one totally independent of the Village, who will patiently listen to their grievance and grant them redress.

2. In my opinion the Sub division of Village enams is a great hinderance to a better class of men being obtained to fill the office of Moonsiff and Reddies. It is not infrequent when it is discovered that the emolument enjoyed by the head of the village is so small that the remuneration is not adequate to the duty performed, a portion of that enjoyed by the ghair Missuldars is taken & made over to the Missuldars

to

to make up his allowance to the maximum standard this in general leads to great discontent amongst those who lose their enam but it cannot be helped as there is no other method of proceeding.

3. Many of the lands set a side for the maintenance of village officers are apparently very large, but on enquiry it is found that a portion is out of cultivation or unfit for the purpose, so that they do not receive the full benefit of the emolument derived from the lands set a side for their remuneration; this is a subject which will require attention and consideration during the time of the new Pymaish.

4. With regard to the abilities of the village Moonsiffs in respect to education, I regret to say it is at a very low ebb, not more than 10 per Cent of the whole village reddies being able to read and write. those who cannot have been ordered to supply themselves with seals which they affix to the documents written by the Curnums required to be forwarded to the Head of Police or Sahsildar, but they are entirely in the hands of the Curnum who writes what he pleases and reads a different version to the Moonsiff or Reddy who affixes his

his seal or mark to it - as to intelligence as far as it goes, there are none, of the class, more so than the cultivators of Cuddapah there are no better agriculturalists and none understand better how to work their land, make their bargains and carry on the duties of common life - but in education they are sadly behind, and it requires only this to bring out their dormant abilities - many of them have become rich and deal largely in grain. Indigo &c. but are quite ignorant of letters and have been so for such a length of time, they do not seem to have any desire either to learn for themselves or have their children taught. I am very much inclined to believe the Curnums are the great hinderance to education, as it is for their benefit that ignorance should prevail and that they act the part of the jesuit and wish to keep all the affairs of the village in their own hands; until Government make a stir in the matter and insist that reading and writing be absolutely necessary for the individual who holds the village Moonsiff or Reddyship, and at the same time give them the means of education, I fear it will be long before it is generally introduced and its benefit felt.

5. With regards to the hereditary descent of

12071

Fort St. George, 4th July 1856.

of village Officers. I think it would be far better to have them partly elective and partly hereditary as in some cases, the old families have fallen into reduced circumstances from various causes and have lost the influence they formerly possessed with their fellow villagers, and it appears to me very desirable that those who hold the Office of Moonsiff and Reddy should not only be looked up to with respect, but posess the confidence of the villagers; having this, they would in case of an attack by robbers immediately turn out at his request and headed by their Moonsiff or reddy would speedily put to flight the depredators. but where the villagers have not confidence in their chief, they will not render the necessary assistance when called upon. The Head of the village being thus respected would have it in his power to do much good and decide petty quarrels and disputes without their being known to the authorities and they might take up Civil suits under 10 Rupees as laid down by regulations, but no one will apply to them unless they have confidence in them. I would therefore suggest that on the demise of one of the heads of the villages his fellow townsmen might be

consulted

Fort St. George, 4th July 1856.

consulted who they preferred to fill the office, giving the preference to the nearest heir should he be found competent; but if not the wishes of the villagers ought to be attended to, and the heirs of the deceased upon qualifying themselves might be chosen on the demise of him who was placed in the Missul, on account of the heirs of the deceased not being qualified.

N.o 172

Sir,

I have the honor to forward the Statements called for in the Board's Circular N.o 791 of the 17.th ultimo, prepared in the form which accompanied it.

2. There has been no export of Salt during the past 10 years.

3. The amount exhibited in Statement N.o 2 has been calculated upon charges incurred in the present year in the export of Salt to Bengal by merchants and the sums given in Columns 3 and 4 thereof are exclusive of the cost of Permanent Establishment employed for measuring and heaping the articles.

4. The average as given in Statement N.o 2 can hardly be considered a fair criterion of the cost as it is calculated upon small exports in a single year.

To
G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George

Sir.

With reference to the Extract from the Proceedings of the Board of Revenue dated the 4th February annexed to the Minutes of Consultation under date the 22d of January last calling for explanation in regard to the check exercised as to the kinds of snakes for the destruction of which rewards are paid, I have the honor to state that the duty of paying rewards for snakes destroyed is entrusted to the Tahsildars and Officers in charge of Police and Salt Divisions and care is taken to examine the accounts sent in by them and ascertain that none but venemous snakes are paid for. The amount disbursed on the same account during the two last Fasalies is shown in the margin × I have now had a list of the different kinds of venemous snakes prepared and instructions will be issued that the destroyers of such only are to receive the reward. The Snakes are as soon as the reward is paid decapitated in the presence of the local Officer.

× In Fasly 1263 15 15 6
" 1264 8 12 "

2. Government being of opinion that the reward paid for stray dogs ought to be reduced I propose to fix it for the future at 2 annas for each bitch, and 1 anna each dog.

In

Fort St. George 1th July 1836.

3 In regard to the rewards for wild beasts I beg to state that under the orders of the late Collect who had reason to think that the rule was made use of by the Village Officers as a means of extortion the ne cessity of producing with the Skin &c. of the animal a paper from the Head of the Village was done away with. The Board will not fail to observe a Considera ble increase in the amount disbursed on account the Salve are common in Fasly 1264 over Fasly 1263 No reward is of course paid unless the Skin is produced before myself or the Sub Collecto or in a few instances, before my Head Assistant or Care is taken so to mark the Skin by cutting off a portion of it, as to render it impossible the reward should be claimed twice for the same animal The Skins are moreover as soon as the reward is paid, handed over to be cured and Save such as are required for Peons belts, Sold from time to time to the highest bidder. The only way in which fraud can be perpetrated is by parties bringing in Skins of animals killed beyond the frontier tho' as careful enquiry as to the locality and circumstan ces of the death of the animal is made before pay ment. I do not think this plan if adopted is likely to

Bd. No 2137
From the Collector of Bellary
Enclosures Nos 1 and 2

Sir

I have the honor to submit a Tabular Statement and an original Summud with its translation* respecting the claim to the share of the Kayem Sodee Village Mullicarjoonahal in the Goolliam Talook, which had been in the enjoyment of Ahboothoorahone of the Shareholders of the Village who died on the 22d October 1853.—

2. The kamil bariz shewn in the first Summud entered in Column 2 to be Rupees 1,500 is the old assessment previous to the time it was granted in gift and the amount Rupees 373—2—" is what the Village was then valued at but at the time of the Survey assessment under the Honorable Company's administration, the ayacut of this Village was entered as Rs 2617—12—6 of which the lands in the enjoyment of the Enamdar bear an assessment of Rupees 1,653—11—" the remainder being the share of other Enamdars such as Village Servants and Pagoda and charitable allowance &ca

3. It appears from the records that this Village was originally granted as Surva Enam and that was enjoyed as such up to the British assumption Colonel Munro fixed a Kayem Sodee or Quit Rent of Rupees 122—7—" at the Commencement of the British administration.—

4. The share of the deceased is claimed by his two surviving Sons and Mahomed Sahib the Son of his deceased Son Goolam Mohodeen—who appear to be an undivided family and to have no other means of support and though the Summud does not shew the grant to have been hereditary—yet on the ground of uninterrupted enjoyment for a period of 67 years under both the present and former Governments I beg to recommend its continuance in the name of Syed Kahdre the Son of the deceased and head of the family subject to the payment of the usual Sodee Quit Rent.

From J. Puchterlony Esqr. Civil Engineer 5th Division

Sir,

In pursuance of Circular rules from the Chief Engineer directing that all correspondence whatever connected with Public Bungalows shall in future be addressed to the Board I conclude I am right in doing myself the honor to transmit to you for Consideration the accompanying two Estimates.

1. Amounting to Rs. 230. for repairs and alterations to the Public Bungalow at Beypoor the amount of which was originally Rs. 290. but subsequently altered on my finding from examination that the roof timbers were not nearly as much injured as Captain Selby appears to have conceived.

2. For small repairs stated by the Tahsildar to be needed to the roof of the Public Bungalow at Gannoth on the Connabady ghaut road & Sair road Rs. 5 Amounting to Rs. 30.

Sir,

B. No. 2289
From the Collector of Madura.
Petition No. 11424 of 1856. is also sent herewith

With reference the Board's endorsement on the accompanying Petition No. 3079 of 1855. I have the honor to enclose translation of an Urzee from the Manager of Shevagungah shewing the circumstances under which the rent of the Singara Tope at Tripatore was given to Monikem pillay and Trimulsamy Roden for 5 years at 500 Rupees a year. They refused when they came to the Hoozoor to increase their offer. The Petitioners made no offer till that of Manekem pillay &c. had been accepted.-

Madura
Collector's Cutcherry
Vullanady
13th June 1856.

(Signed) R. D. Parker
Collector

No. 1.

Translation of Urzee addressed by the Manager of Shevagungah to the Collr. of Madura dated 19th June 1855.-

I beg to state that Manikem pillay and Trimulsawmy Setty residents of Madura under took &

to Rt the Contract of the Singara Tope at Tripatoor for 5 Fuslies Vizt. from 1260. to 1264 at the rate of Rupees 990 per Fusly. As the present Fusly (1264) is about to Close I adopted measures thro' the Ameen to proclaim the Sale of the rent for the ensuing Fusly 1265. I sent also Proclamations on the 23d Ultimo, to the Tahsildar of Madacolam and the Ameen of Tripatoor to be published in their Talooks notifying that the Sale will take place on the 13th Instant. Moreover a Similar Proclamation was made at this Cutcherry Station and the rent was put up accordingly with reference to the Amounts of Fusly 1259 and the following Fuslies in presence of the above said Mani Kumpillay and others but no bidders Came forward. With reference however to the Hurizee presented at the Hoozoorly Vacheray Chooraghur Rawter of Shevagungah the Sale was renewed

beginning

+ Rs. 675 and 990 respectively

+ No. 236 of 55.

beginning at Rupees 350 per Annum when finally this man made an offer of Rupees 405.

Mani Kempillay & Trimulsawmy Rotan the above mentioned individuals have in the meantime given in a Durgast Offering to take the Tope on a rent of only 500 Rupees per Annum for 5 Fuslies on the ground that some of the Cocoanut trees in the tope are past bearing and the branches there of stumbled whereby they sustained a loss of 2,000 Rupees during the last 5 years and promising to make good the arrears due by them for Fusly 1264 Vizt. Rupees 980. by giving a Hoondee for Rupees 500 and paying the rest in five years.

+ From Fusly 1265

It is true that it was by Competition alone that these two individuals raised the rent to Rupees 990 before. The rent was.

was never so high previously that is to say up to Fasly 1259. The tope used to be rented out for Rs. 350 per annum previous to Fasly 1246 when the Zemindary was in the hands of its Proprietor and there was no change even till 1250 after the Zemindary had been taken under Management. The rent was subsequently augmented to 700 Rs. 611 & 675 respectively Consequently the offer of Rs. 500 per annum now made by Manikum pillay and another person is Comparatively a reduced Amount. -

Under such Circumstances I requested them to take the Tope on the same Rent as for Fasly 1259, and to Discharge the arrears within 2 years but they would not Consent to this. Should however they agree to the proposal in your honors presence the rental of the Tope may be given to them. -

† Rs. 675

I beg therefore to forward the two Individuals to your honor, herewith and also the Durgast Vcha & documents with a list

Jann

I am given to understand that the said Manikumpillay enjoyed only the Rife branches that fell off the Cocoanut trees and that he did not cut away the green ones as the former Contractors used to do. -

(Signed) in Tamil
Sabapaty Pillay
Manager.

189-190

B. No. 2048.

Proceedings thereon -

The Court observe that the Petitioners are stated to have made no offer for the farm until the Durkhast of Manikum pillay Vcha had been accepted. -

2. It is not clear however on what way this is to be understood or how it is Compatible with the explanation given by the manager which leads the Court to understand that the sale was public that it was adjourned owing to the absence of offers, and that on its being resumed the Petitioners Offer was the highest of those received or possibly the only one.

3. It appears further that the offer of Manikumpillay Vcha was in writing

writing and was not tendered at the open sale and if it had already been received when the resumed sale took place, it was clearly not notified to Petitioners.-

4. The Court Consider the title of the Petitioners to the Farm to be superior to that of Manisrampillay &c as the sale was public and the latter persons fail to appear or bid on the occasion, while the Offer of the Petitioners seem to have been the highest bid and to have been made in due form. They resolve therefore to instruct the Collector to make over the Farm to the Petitioners on their Conforming to the terms of the sale.-

From the Collr. of Coimbatore.

Sir,

I beg to forward a letter from the Committee of the Coimbatore Agricultural Exhibition, and to request under the circumstances therein represented, that the Meeting may be allowed to be postponed to the 1st December next.-

Coimbatore Collector's Office, 25th June 1850.

(Signed) E. B. Thomas
Collector.-

No. 1.

To The Secretary to the
Board of Revenue.-

Sir,

A meeting of the Committee of the Agricultural Exhibition was held here on the 24th Instant at which there were present.-

E. B. Thomas Esqre — Captain Shand
J. B. Roupell Esqre — J. A. C. Boswell Esqre
Captain Francis Esqre — H. S. Thomas Esqre
H. E. Sullivan Esqre — A. D. Rofs. Esqre
Geo: MacKayd M. D.
and several influential Native Gentlemen.-

After due consideration it was resolved

resolved that as the exhibition proposed to be held on the 1st September is the first of the kind which has ever taken place in the District and as the natives do not yet seem fully to understand or appreciate it, it is desirable that the time of Meeting be postponed to the 1st December next and the Committee trust that the Board will approve of this alteration. Notices have already been circulated throughout the District but at the above meeting it was resolved that further explanations be printed and distributed and that letters regarding the objects and utility of the Meeting be sent direct to influential Ryots in the District. By these means and by altering the date of Meeting which not only gives more time but brings it to a more favorable season of the year, the Committee trust that the exhibition will fully answer the object for which it is intended.

Coimbatore
25th June, 1856.

(197)

Bd's No. 2034
Proceedings thereon

In the Endorsement referred to above the Government desire to have a more detailed explanation of the circumstances under which petitioner was refused a refund of certain Collection made from him at the assessment on the lands he holds.

2 Petitioner is a Meerassdar in Tanjore holding lands in the Munnargoody Taloke which is wholly under the Coloongoo System under the leases of that settlement remission on account of short produce is given by a division of the crop between the Government and the land owner the share of the former being 53 per cent and of the latter

12266. Fort St George 4 July 1856

latter 45 per cent of the produce the difference of five per cent being made on account of the expense the state is put to in conducting the harvest—

3 In July 1262 Petitioner claimed remission on account of the produce and his claim was admitted by the Collector as regarded the lands on which full teerwah was due—but he rejected the claim on certain lands recently taken up by Petitioner on cowle and which under the leases of the Cowle was in the year in question liable only to half teerwah

4 In acting thus the Collector followed the established practice of the District and the Board when an appeal was made to them were not of opinion that Petitioner's case was one which called for a departure from the ordinary rules of this province.—

Bd No 2043

Proceedings thereon stating the opinion of the Bd with reference to the disinclination of Govt to alter the system at present in force in respect to the taxation of Sugar Cane Cultivation and annexing a Circular containing the sentiments of the different Collrs as to the applicn of the above system in their respective Districts.—

As great differences exist in the system under which Sugar Cane cultivation is taxed in different Districts, and the levy of a second crop assessment might possibly have the effect of checking its extension a Circular was issued to Collectors calling upon them to state their opinion on this point and to explain the system in force both in the Government lands and in those held on Mootah Shotriem or Emam tenure. They were also desired to furnish details regarding the quantity of water

water required by a crop of Sugar cane as compared with a single rice crop and to point out any circumstances which appeared to them to check the cultivation of the cane.

2. Since this Circular was issued Government have expressed their disinclination to alter the rate under which a crop of sugar cane growing on land irrigated from a Government work is taxed the same as two crops of rice. Government expressed an opinion that it would be found on enquiry that a cane crop consumes as much water as two crops of rice, and wished measures of reform to be confined to a remission of the assessment in those particular localities where it is found to be so high as to check the cultivation of this product.

3 The replies received to the Boards circular will therefore be made use of solely as the basis for local reforms where these are found necessary instead of forming a foundation for proposing any new general scheme of taxation. In Bellary the mode of taxing

E. M. of C. 11th March 1856 No. 285 P. 5 reviewing Bd's General report for 1263.

cultivated with Sugar Cane has already been

Bd's Pro: 12th April 56 rectified on the Collectors recommendation.

Separate instructions will be sent to the Collector

Pt. Cuddapah 4th July 56
Pt. Turnool 4th July 56 of Cuddapah and the Governors Agent at

Kurnool in answer to their communications.

2 The replies from the other Collectors will

be recorded.-

4 On Summing up the information

thus obtained the Board find that they

have received no accurate data, showing

the Comparative quantity of water required

for a crop of rice and of Sugar Cane

opinions also vary much on the subject,

and those expressed by the Collectors may

be arranged with the following 3 classes as far

as can be gathered from the different replies.-

1- a crop of Sugar Cane and of rice requires nearly the same quantity of water — Nellore. Kurnool. Chungleput. Tanjore. Rajahmundry. South arcot.

2- a Crop of Sugar Cane requires more water than a Crop of rice — North arcot. Tinnevelly. Ganjam. Madura. Vizagapatam.

3. A Crop of Sugar Cane requires less water than one of rice.— } Vizagapatam, Salem, Trichinopoly, Coimbatore, Bellary

4. No opinions were received from the other districts.—

5. The opinions of the local officers vary equally as to the effect of taxing Sugar Cane as 2 rice crops. Thus the Collectors of Coimbatore, Trichinopoly, Nellore, & and South arcot advocate the abolition of this extra assessment while the Collectors of Chingleput, North arcot, Tinnevelly, and Madura advocate its retention as just and unexceptionable. This variety of opinion joined to the disinclination of Government to alter the present system induce the Board to refrain from pursuing the subject and though they feel that the additional tax must have not unfrequently a prohibitive effect they must admit that the stationary condition of Sugar

Sugar Cane cultivation in Districts and parts of Districts where no extra cess is levied prevents any assurance that it would increase on the abolition of the tax in those localities where it now exists.—

Sugar Cane was no extra cess or 2d Crop tax in Ganjam, Vizagapatam and Rajahmundry as also in parts of Coimbatore, South arcot, Madura, Tanjore, Salem

12279. Fort Saint George 5th July 1856

P.C. No. 2334.

From the Secretary to Government

211

Extract from the Minutes of Consultation Revenue Department dated 23d June 1856

Communicating the views of Government on the subject of the assessment of Garden lands in the Canara District and the principles on which it is proposed to carry out the reduction of the same.

/See No. 639 in separate Volume/ P. 12

211-212

P.C. No. 2062

Proceedings thereon Para. In these Minutes of Consultation

Submitting explanation in regard to the observations of Govt on the Board's Proceedings relative to the assessment of Garden lands in Canara.

Government review the Board's Proceedings for revising the assessment of the Garden lands of Canara and observe that they "cannot give their assent to the General "changes advocated and of which the Board have "already signified their approval to the Collector. The main ground for this disapproval is that Government suppose the Board "to disregard entirely "the advantage of the situation of the land and "to charge it at the same rate as land only fitted "for the commonest dry crop i.e. about a rupee "an acre or less:—

P.C.

2 As the Board's proposed measure has thus been entirely misunderstood, and the decision of Government would perpetuate a system of taxing industry by fixing taxation on particular produce instead of on the land, a system which have been

12280. Fort Saint George 5th July 1856.

been condemned and abolished in other Districts the Board are led to bring the subject under reconsideration:—

3 It will be found on referring to their Proceedings that the aim of their measure was to abolish the objectionable system of fixing a special tax† on lands when taken up with the intention of planting Cocoanut trees. Instead of this System it was proposed to assess waste land whenever cultivation according to its quality and inherent advantages. If it had means of irrigation the value of its produce was to be estimated in rice, the main staple of the District if unirrigated one of the ordinary dry grain crops was to be assumed.

† the plan had been to fix a tax per tree and to assume a certain number of trees to an acre—

4 This distinction of irrigated and unirrigated runs through the Board's Proceedings as /See Paras 3. 7. & 10/ and they have therefore observed with regret that Government should have thought it could be their intention to disregard entirely the advantages of the situation of the land and to propose to tax all land alike at the lowest rate as of the commonest quality.

Dated 7 April 1856

5 This misapprehension appears to have arisen partly at least from a passage in their proceedings having been misread. In Para 2 of the Extract Minutes of Consultation "rice is

Fort Saint George 5th July 1856

is mentioned among the products of some lands used for gardens in the Baleghaut Talooks while in the original "Betel palms pepper and cardamoms" alone are specified. In that part of the District there are no Cocoanut trees and the Board alluded to it only to shew that the principle upon which they proposed to assess waste land in lower Canara was applicable to upper Canara also; Taxation was to depend on the quality of the land and on its being supplied with irrigation or otherwise. Again the degree of irrigation was to be considered. Land professing irrigation for part of the year only was to be taxed as one Crop rice land, and land supplied with water all the year, and therefore capable of being cultivated with Betel Palms pepper and Cardamoms, was to be taxed higher on the principle of two Crop rice land.

6 This procedure being strictly in accordance with the principles which Government had approved and ordered to be generally introduced was directed to be substituted for the erroneous system heretofore in force and the Board trust that this explanation will satisfy Government of the propriety of the orders which they gave to the Collector. Those orders applied only to unassessed lands newly taken up for

Fort Saint George 5th July 1856

Cultivation. In the case of lands once Cultivated but now lying waste from over taxation Government had already given the Collector power to Modify the assessment at his discretion. No alteration whatever was made by the Board's order in the assessment of the occupied lands of the Province.—

7 The Board deem it right to observe that the two Members who passed the Proceedings under discussion are thoroughly acquainted with Canara from long service in it. Their local experience showed them the result of the present System of Assessment and made them aware that the Cocoanut

P. 3. plantations to which Government allude as "very profitable" have not sprung up on lands taxed on the principle which the Board were desirous to abolish, but on riverside lands bearing a Moderate Assessment which have been converted from rice fields to Cocoanut gardens under the encouragement given to the ryots by the practice of leaving all improvements untaxed. The present System actually discourages the planting of those inferior lands which alone remain unoccupied in the healthy parts of the District. If an equitable Assessment was placed upon them they would be gradually enclosed and occupied

occupied to the comfort of the people and the increase of the public revenue.—

8 With a view to illustrate the subject under discussion the Board will observe that Canara is essentially a rice producing province This product forms the basis of its assessment and may be said to be almost universally cultivated. It is grown even on the sides of hills, wherever the petty streams which flow during the Monsoon and for a brief time afterwards make a sufficient addition to the irrigation supplied by the falling rain. The rice lands thus comprize all qualities from the rich alluvium of the Valleys to high and comparatively sterile tracts which find only occasional Cultivators though assessed as low as one rupee per acre.

9. The lands which cannot produce rice are of still inferior value, and their assessment ranges from one rupee downwards but their quality and value differ so little that there is seldom more than one rate of assessment for them in the same part of the District. They are classed under the term of "Nakal" and so produce petty crops of Oil seeds and some inferior dry grains.—

10. On these Nakal lands and on the inferior rice lands trees can only be brought to maturity when this is possible at all by great labour and expense, and it is a manifest and injurious anomaly that such lands should be saddled with a garden assessment for exceeding the rates which rich rice lands pay. Government had condemned this injurious System elsewhere and ordered its general discontinuance. The Board could not therefore doubt that their orders would be approved of directing its abolition in Canara where its effects were found so detrimental to the public interests as the letters of the Collector, Mr. F. A. Mallby described.—

11 But instead of disregard being shown to the advantages of land in carrying out the new System as supposed by Government the instructions which the Collector prepared for his subordinates and which the Board approved expressly state "In assessing the lands which P. 4 "is capable of bearing this crop (rice) no change "from the established practice is necessary "The assessment is already fixed with sufficient accuracy according to the varieties "of the land from the alluvial soil to the highest

12285 Fort Saint George 5th July 1856

"highest Bambell" which pays about one Rupee per acre. Thus the rates in force for the various descriptions of land from the best to the worst were ordered by the Collector and the Board to be enforced according to the "quality and advantages" of the land when applications were made for taking up waste land, and the Board adverted to the care with which these advantages were to be investigated on each occasion.—

Fort St. George 5th July 1856

for their immediate discontinuance.-

3. It is a matter of Surprise to me how the excistence for so many years of these taxes has apparently escaped all observation up to this time. They have certainly never been brought to my notice, otherwise I should ere have immediately recommended their abolition

4. The amount of Revenue involved in the question is but trifling as the aggregate of the sums realized in Fusslies 1263 and 1264 Came respectively only to Pr. a 111-7-3 and Rs 109-7-7 but I feel sure that the Board will readily recognize the Soundness and Justness of the principle, as indeed they have already done on several other occasions. Of doing away with such objectionable taxation as the extra cesses now brought before them.-

5 It appears that from the period of resumption up to Fusly 1230 the Villages of this Sajhire, with the exception of two which were given on easy rent to the late Kavilgar Rundyappah Seerapie of Bundary

x yen that Pattarcoorchy

Fort St. George 5th July 1856

Bundary, were rented out and that from Fusly 1231 they were annually settled without any change being made in the Customary taxes which were levied in the time of the late Sajhiredar.-

6. In Fusly 1236 the additional taxes now referred to were all entered as Moturpha in the Jymash accounts of the 23 Villages which were under our direct Management, but I find that they have nevertheless been always brought to Credit as Land Revenue under the desisnation of "Katchy Varey" from Fusly 1231 to the present time.-

7 The Chuttrum alluded to by the Sub Collector was endowed, by orders of Government Communicated by the Board of Revenues letter dated 20th January 1840, with a grant of rent Free land to the value of 60 Rupees per annum So that nothing further is needed for its maintenance.-

8 Under the circumstance of the case I trust the Board will be pleased to

to authorize me, agreeably to the principles enumerated by Government at the close of Para 15 of Extract from the Minutes of Consultation dated 10th July 1854, No 806, to discontinue the levy of all the taxes enumerated by the Sub Collector in his report.-

South Arcot Collectors Cutchery....
Cuddalore 7th December 1856.... } Signed A. Hall Collector

Enc No 1

To, A. Hall Esqre
Collector of South Arcot

Sir,

I have the honor to acknowledge the receipt of your Tamil Memorandum dated the 28th of September giving Cover to a petition No 1074 of 1855 presented to the Board of Revenue by Vencatapathy Naick and others ryots of Poodicoor in the Talook of Verdachellum Complaining of the charge of extra cesses Collected on account of Chuttrums the

the tax levied on their herds. I lost no time in instituting an enquiry into the Subject matter of the petition the original of which together with the Tahsildars report thereon are herewith forwarded for your perusal.-

2. Although the petitioners Confine themselves to Complaining of the above two taxes, as these are of the same nature which appear to me to be in many ways objectionable I take this opportunity of bringing to your notice the different petty taxes existing in Several of the resumed Mangalore Saphire Villages of which Poodicoor petitioners residence is one.-

3. With a view to perspicuity I will arrange the taxes in the following order recording a few remarks regarding each in Succession.-

1st The Chuttrum Varee or tax
2d Tax on herds of Cattle
3d Tax on Village Carpenters

Tax

4th Tax on Village Blacksmiths

5" Tax on Village Washermen

6th Tax on Village Toties

At the same time I beg to enclose a Statement shewing the amount of Collection under each head for the last two Fusles in the twenty three resumed Mangalore Villages.—

4. It is not easy now to state in what way or for what purpose these taxes were originally imposed These Villages Langago formed a portion of the Rungunjuddy Jaghire and the Revenue Management of these was solely under the control of the Jaghiredar who was at perfect liberty to raise the revenue in any manner which best pleased him and new modes of taxation were

were annually adopted as circumstances required and however unjust and oppressive the measures may have been they were submitted to without a murmur as the incurring the displeasure of the Nabob the people considered tantamount to their own ruin, which would assuredly follow. These taxes appear to have been levied in the time of the Jaghiredar and to have been continued to be collected by us since the resumption regularly as by Mamool and without any special authority the imposition of some of these taxes appears so absurd that it is a matter of surprise to me that their existence has hitherto not attracted attention

No 1 5. As regards the Chuttrem Varee it appears as its designation shews that it

it was originally intended for the purpose of defraying the necessary expenses for the annual support of a Chuttrum. One of the former Sashiredars built a chaultry or rest house for travellers at Orunghoor on the old road leading to Trichinopoly and for keeping up this same tax was levied at the rate of [illegible] R. A. P. 6 per Cawney on all Nunjah lands Cultivated, due care being taken that there should be a proviso that all lands Cultivated by the Sashiredar and his immediate defendants should be held free from the operation of this tax and this was practically carried out even after the resumption of the Sashire. When these lands Commonly known as "Cumbuttum" paid only half turwut to Government the sum annually collected under this head amounts to Something under 57 Rupees, and although this Sum is but trifling, the Collections of it opens many ways of fraud to the Village Officers and the people themselves are exposed to oppression. The now recognized principle of taxation is

is that the land should bear a single consolidated assessment only, the tax now under notice is Collected over and above the fixed amount of land tax. Under these Considerations I beg to recommend that I may be permitted to discontinue the Collection of this tax. It is proper here to mention that Manium land amounting to Pt. 60 has been allotted by the Circar for the Special support of the Orunghoor Chultry.-

No 2

6. The next tax to be noticed is that levied on the herds of Sheep and goats this arbitrary tax takes its origin in the time of the Sashiredar and is still in force in those Villages which formed the Mungalore Saghire The practice of taxing flocks of sheep and goats directly or indirectly, that is to say either on the head of Cattle or on the pasturage has, I believe been found to obtain in all

all Zemindaries it is however open too much abuse, the Village Servants on the one hand trying to extract as much as possible from the owners, who in their turn have recourse to every subterfuge to evade payment. This tax on Cattle is peculiarly open to abuse from the fact that from native prejudice owners are most averse to allow their flocks to be counted Considering it unlucky and they would willingly pay more than the regular tax to purchase exemption from this overhauling by the Government servants this tax does not appear to be now uniformly collected it is fixed at the rate of 10 annas and 6 pice per flock, sometimes with and sometimes without reference to the number of head of Cattle that Compose the flock. Many of the owners of

of these herds have small holdings and pay land tax in their respective Villages. These herds in Common with others belonging to adjacent Villages are grazed on the uncultivated portion of waste land, and in the Jungle tracts in the western Talooks. The greater portion of these flocks may be said to form a part of the agricultural stock as they are kept Chiefly for the purpose of manuring the land. In Extract of Minutes of Consultation under date the 8th September 1855 the Government express their views as follows Viz.

That the taxing of Cattle whether of Cultivating or non Cultivating ryots shall entirely cease.—

That the tax on sheep and

and goats whether Called Poollery or Motunpha shall be abolished.—

The tax Collected under this head amounts to about 20 Rupees a year, on its discontenuance the pecuniary loss to Government would be nothing, but it would benefit the owners of these flocks who are all Shepherds and in the most reduced Circumstances. the unpopular practice of Counting the Cattle would cease, and all the Evasions and exactions to which it gives rise would be put a stop to.—

Nos 3 to 5 7. Numbers three to five inclusive Standing in the list these are taxes imposed on the houses of Village Carpenters, blacksmiths, washermen varying from ¾ to 10½ Annas leviable on each house this Class of persons are essentially necessary

every Village for the benefit of its little Community. The Services of the Carpenter, and Blacksmith in particular are indispensably required for the manufacture and repair of all implements of husbandry; however setting aside their importance as an aid to agriculture, there seems no valid reason why these Villages should be put on a worse footing than the other Villages, which is the case by the imposition of this tax The sum Collected under this head annually is 14 Rupees and I would suggest the advisability of abolishing this tax not so much on the ground of its being burthensome as that its Collection subjects the parties in many ways to petty annoyances.

No. 8 8. This tax now levied on Village Tatties or watchers appears to me most unfair. This Class of persons are considered amongst the most useful of the petty Servants of Government they are employed Chiefly in looking after the rusal Concerns of the Village, receiving for their Subsistence a small portion of rent free land from Cowar, in addition to some trifling perquisites given in kind by the Cultivating ryots of the Village. this tax has been continued up.

Fort St. George, 5th July 1856

up to the present time though doubtless it did not originate with our Government. Still Collection has hitherto been enforced, this tax is fixed at the rate of 3½ annas per every Toty when a Village has more than one registered Toty every one of the assistant Toties are assessed at the same rate.

9 These poor wretches are of the lowest caste poor to a degree and treated generally with the greatest Contempt from their Social position. The amount of Revenue annually Collected under this head amounts to about 18 Rupees.

10 Under these circumstances and as in no Village out of the resumed Saglate are Toties taxed (I believe) I have no hesitation in asking permission to be allowed to put them on the same footing as their brother toties and free them from this tax for the future I have in vain endeavoured to trace the origin of this tax.

Fort St. George, 5th July 1856

11 In fusly 1226 these Villages were resumed and a ready money pension granted to the late Saglieredari and it would appear that on the resumption the Village accounts were prepared by our Servants, taking as their guide the last years accounts in the time of the Saglieredar thus all the items of revenue then in Collection were indiscriminately entered in our accounts. and their propriety or legality were not Considered. at the time and having failed to attract attention, the Collection of these taxes has Continued up to the present time.

12 With the exception of the "Chettiram Varai" these same entries are to be found in the Pymash account Carried to the credit of Government under the head of Land Revenue

revenue. The reason for the omission of "Chittirum Varei" is obvious Viz. that the amount had to be Collected according to the number of Cawnies of Nunjah land cultivated by the ryots, varying from year to year, Consequently there were no data to determine the amount until the final adjustment of the annual accounts in when the amount of Nunjah Cultivation being ascertained "Chittirum Varei" was Calculated upon it at the rate of Rs 2 - 3 - 6 per Cawney.

13. In order to realize this amount a "Samayee Puttah" or one Cawney to the Village is made out in the name of the Monigar or some leading ryots. This gives them some brief authority which is very generally used to serve their own individual interests.

14 In conclusion I beg for permission to be allowed to give orders for the discontinuance of the Collection of these taxes in all amounting at present to about 110 Rupees annually and to

to declare at once by beat of tom. tom in the Saghire Villages that the taxes now noticed are no longer to be Collected.

15. The Board of Revenue not long since authorized the discontinuance in the Shunkarapooram Saghire of the Collection of Several vexations items of taxation pretty much of a Similar nature to those here noticed such as Nazor &c. and with the view of placing the ryots in these Saghire Villages in as advantageous a position as those of other Villages in the Sub Division, I have taken the liberty to bring this matter to your notice for consideration.

Under the circumstances explained by the Collector, and with reference to the views expressed by Government in Para 15 of Extract Minutes Consultation dated (31st May) 1st June 10 July 1854 No. 506, the Board of Revenue authorize the abolition of the extra cesses levied in twenty three Villages of the resumed Mungalore Saghire under the following heads.

Chettrum Fees.
Cattle ——— Do.
Blacksmiths Do.
Washermens Do.
Sales ——— Do.

These taxes are shewn to have amounted in Fasli 1263 and 1264 to Rs. 111-7-3. and Rs. 109-7-7 respectively, and as observed by the Collector and Sub Collector belong to a class condemned by the Government and abolished in all cases where their existence has been brought to notice.

Sir

B/ No. 2032 From the Collector of North Arcot — Para 1 I have the honor to submit for the consideration of the Board of Revenue Copy of a letter from the Acting additional Sub Collector Mr. Banbury —

2 The sanction for Contingent Charges Referred to by Mr. Banbury amounting to Rs. 1500 appears to have been given to enable the Collector to meet the Contingent expenses incident to a Revision of the assessment for which purpose that sum is not sufficient —

B/ No. 2030 Order thereon

(221-222)

Ordered that a Copy of the letter with the Indent which accompanied be transferred to the Chief Secretary to

2 The Board observe that the Indent should have been sent to the Chief Secretary in accordance with notice published at page 835 of the Fort St. George Gazette for the year 1855 for 30 lbs of Gunpowder for Similar was passed by Government in Consultation 3d May No. 1824 Revenue

Dated 13th May 1856

Fort St. George 5th July 1856

dated 12th January 1856 the additional Sub Collector temporarily appointed to this Division is allowed 9 Delayets on a salary of 7 Rs. each and upon making enquiries regarding the cost of the silver badges to be worn by them, I find it will amount to Rs. 112-8-0

2 As this sum appears rather a heavy one to be defrayed from the Contingent charges of 1500 Rs. sanctioned in the above quoted Ecotract I have the honor to request you will kindly inform me whether this charge could be brought under any other head.

3 Should you consider the expenses of silver badges too considerable I could manage to have them made in brass of a different and handsome shape than those worn by the Police Peons, but if they are made of silver the intrinsic value still remains and they can be sold at a small loss when the additional Sub Collector's Establishment is done away with.

Bd No. 2055.

Preceding & Interior. 1 Resolved that the foregoing letter and its enclosures be forwarded for the information of the Right Honorable the Governor in Council with Reference to Extract from the Minutes of Consultation No. 1473 and 735 dated Respectively 2d April and 20th May 1856.

227-228

Salem 9th April 1856
Salem 2d June

2 The Board observe that the Statement shows that there were 60 applications for fresh lands and nine for Surveys and Plans of old Estates Comprising in the aggregate an area of upwards of 1100 Cawnies which required the services of a Surveyor in 1854 and 1855.

3 Mr Thomas Reports that he is unable to furnish an Estimate of the time that this Case would have occupied an intelligent Surveyor but states that many of the Cases were Complicated some of the new Plans large and intricate & that there was cases of disputed boundaries Calling for care and accuracy of Survey. The opinion of the Board has been called for by Government as to the expediency of the proposed arrangement which wills divide the time of the Surveyor equally between two different Departments.

As

12319 Fort St. George 5th July 1856.

4 As six months of the year are to be devoted to the duties of each department the Board see no probability of any great inconvenience arising from divided Cognizance but they must observe however that applications for land and Cases of dispute in which the Surveyors Services may be required must under the proposed arrangement lie dormant during the latter six months of the year and they think that this delay will probably give rise to dissatisfaction.

5 If it can be arranged that the Surveyor shall devote the alternate years of the year to the duties assigned him by the Collector and Chief Engineer Respectively this disadvantage will be partially obviated and it does not occur to the Board that there are works on or around the Hills of a character to require the uninterrupted attention of the Surveyor for a longer period than such a division of time would permit - on this point however the Board would hesitate to offer a decided opinion as this can be only done by the Chief Engineer -

It

12320 Fort St. George 5th July 1856.

6. It will be seen from Dr. Thom
letter to the Chief Engineer that sever
cases are now awaiting Survey and
that it would be desirable to pla
Mr. Williams services at the disp
of the Collector for the first t
months of his entertainment o
this duty although the first half
of the year has already exp
-ired -

From the Collector of Malabar. }

Sir

With reference to para 2 of my predecessor's letter of the 23d October 1855 which I submitted for orders on the same date, I have the honor to bring to the notice of the Board that I have been unable to carry out the arrangement anticipated by my predecessor, nor do I find any means of collecting the sum due by Codyangot Eroman on the decree obtained against him in the Sub Court.

2. Mr. Conolly anticipated that a brother would pay the debt but it appears this brother was under the impression that Codyangot Eroman would be provided with a Peons situation and that his Salary would go towards liquidating the sum advanced on his behalf.—

12324 Fort St. George 5th July 1856.

3. On my declining to sanction such an arrangement the brother on whom Eroman has no claim whatever declined to make any such and shewed he was unable to do so.

4. The money due by C Eroman Rs a p amounts to Rupees 127-13-5 and is particularized in the margin, this individual had entered into a contract with Mr Conolly to excavate certain parts of the Canal. he failed in the terms of his Contract the work was Completed by others & C Eroman called on to pay the sum disbursed in excess of the Contract, failing to do so, the Collector brought a Suit & obtained a decree against him in the Sub Court. C Eroman is a man of straw and possess no property whatever. His character also is not good.

Amount of the Suit Rs 118-8-0
Costs of Ds 7-0-0
Penalty on Stamps 2-0-0
Total Rs 127-8-0
Deduct amount Received 50-0-0
Balance due Rs 127-13-5

5. Under these Circumstances I solicit sanction to write off to Profit & Loss the sum due by C Eroman and which evidently an irrecoverable balance

B. N. 2473
From the Actg Secretary
Marine Board

Sir,

With reference to your letter of the 3d instant forwarding 6 Packages of Printing Materials for the Collectors of Masulipatam, Rajahmundry, and Ganjam. I have the honor by desire of the Marine Board to request you will be good enough to favor me with a memo of their tonnage for each port to enable me to arrange for their freight by the "Amelia" which vessel will sail on Monday Evening for Masulipatam, Cocanada and Vizagapatam.

If no objection exists the Packages for Ganjam might be shipped on the "Amelia" for Vizagapatam and from thence forwarded on to its

12337 Fort St. George 5th July 1856

destination.

Madras
Marine Board Office
4th July 1856
B. N. 2061
Proceedings thereon
239-240

(Signed) W. Thomson
Acting Secretary

Copy forwarded for the information of the Collector of Sea Customs with reference to the Official Memo. from this Office of Yesterdays date.

The Board think that advantage might be taken of the "Amelia" to forward to the Collector of Ganjam, the articles to his address which might be sent to the care of the Collector of Vizagapatam.

Resolved that the following Official memo be despatched.

241.

B. N. 2050
Official Memorandum
to the Commissioner
of Northern Circars.

Official Memorandum

The Secretary to the Board of Revenue has the honor to inform the Commissioner of the Northern Circars that the salary of P. Kistna Row I Class Clerk on their Establishment has been increased from 50 to 55 Rupees from 1st July 1856.
