3d No 1075.
From the Collector of Madura.

Sir

I have the honor to request that you will bring again to the notice of the Board Para 8 of my letter of the 3d March 1854 recommending that when Porumpoke land of Villages may be insufficient to provide sites for houses the Collector or other Officer in charge of the Talook may be allowed to allot any convenient Special land for the purpose tax free.

2. In this District some Villages contain large areas small portions of which were under Cultivation at the Survey. The Gramanutham was therefore in some instances small and very far from the portions of the waste lands. The latter cannot therefore be conveniently brought under cultivation only by the formation of Hamlets near them and it seems good policy such as would be pursued by any intelligent private owner to grant sites for such Hamlets. The same argument equally applies when the parent Village is itself to be extended.

3. To bonafide cultivators I would grant sites

Fort St. George 1st August 1856

sites rent free Persons unconnected with cultivation should I think pay the land tax for sites taken from special land, but be allowed to redeem it at so many years purchase.

4. The Board were unprepared to support this proposition when I submitted it to them on the former occasion because the general question of the redemption of the land tax had been discussed negatived. In the late communication relative to the Town of Madura I submitted the opinion that the redemption of the tax on the small portion of land required for building sites was a very different matter from mortgaging the income of Government by a general redemption of the land tax, and as the extension of cultivation in this District is being checked from want of the authority I request I hope to be excused for again addressing the Board on the subject.

Bd. No. 2133.
Proceedings thereon.

Collector

7-8

In this letter Mr Parker repeats a suggestion formerly made by him that when ground is wanted to enlarge the site of a Village or to form a new one and no poromboke land is available the local officers should be allowed to allot sheigal land for the purpose. Mr Parker further recommends that cultivating ryots should receive plots of this ground for their houses rent free, and that new cultivators should pay

Fort St. George 1st August 1856

pay assessment for the ground on which they build but should be allowed to redeem it at so many years purchase.

2. At present the rule is that sheigal or assessed land is not to be exempted from taxation when houses are built upon it and there are obvious reasons for such a course. But there may be occasions as observed by the collector when the spread of cultivation will be facilitated by the formation of a new hamlet or by the extension of a Village site so as to admit more residents. The assessment of pieces of ground for occupancy in this manner is also in accordance with ancient usage.

3. The sanction of Government is however required before assessed land can be appropriated to such a purpose and be exempted from payment of revenue Mr Parker is therefore instructed to report to the Board for orders any cases in which it appears desirable to appropriate sheigal land to this purpose. The description extent and assessment of the land should be given, with a short explanation of the circumstances which led to the application. In any instances where delay is unadvisable immediate reports may be made but otherwise periodical statements asking for assessments of land can be forwarded.

4. The Board intend that the sheigal land to be assessed for the purpose in view should be either waste or such as can be obtained without expense to Government. They also wish the applications to be confined to occasions where the formation of a new Village or the extension of an existing one is necessary to promote cultivation. They are anxious to avoid lessening the Value of private lands in the neighbourhood of towns or in populous districts.

Fort St. George 1st August. 1856.

districts by any measure which would discourage their being sought for building purposes.

5. With regard to Mr Parker's proposal that cultivating ryots should have the sites of their houses within the Nuttum areas free and new cultivators be called on for assessment the Board wish to be informed at what rate it is proposed to tax the latter and what the practice of the District now is. They agree with Mr Parker that it would be desirable to allow occupants of land within a Village Nuttum to redeem the land tax if practicable but comparatively little advantage would arise to Government unless all the land in a nuttum was redeemed and the Board do not consider the measure capable of being carried out if among other difficulties, a rule exists by which ground becomes ipso facto exempt from taxation in passing from a non cultivating to a cultivating owner

Designation

13841.

Fort St. George,

1st. August. 1850.

Designation of Office and present Salary.	Alterations which have taken place within the last 25 years in the salary allowed.	Duties to be performed.	Special circumstances which were considered, or ought to be considered in fixing the Salary.
Collector and Magistrate and Justice of the Peace— Present Salary. Rupees 2,333—5—4. per mensem as Regular Rent allowance Rs. 87—8—. Extra Rent allowance when on duty out in the District 5 7/4 Rs. per diem—	The salary of the Collector Magistrate which amounted to Rupees 2,643—7—11 as shewn below including commission was first reduced to the consolidated allowance of Rs. 2500 per mensem by Circular Order of 5th May 1836, and subsequently to Rs. 2333 5—4 per mensem by Extract Minutes of Consultation 23d November 1839 Salary 2,187—8—. Average amount of Commission for 3 Fuslies from 1242 to 1244 } 455—15—11 2,643—7—11.	The Collector and Magistrate has the general Supervision over the whole District in all Departments and the Collection of Land Revenue in the 9 Talooks forming the principal Division amounting for Fusly 1264 to Rupees 1,530,798 as also of Stamp Abkarry and the Revenue from small farms and Licenses, Has to make the Jummabundy Settlement of those 9 Talooks, the number of Puttadars residing in which amount to 7,068, and the population to 1,005,533. Has the general supervision of the salt and Land and Sea Customs Departments, though the details are attended to by the Head Assistant Collector Disposes of all appeals from the decisions of the Sub Collector and assistant Collectors in all Revenue matters. Has to decide all appeals against decisions passed by Police Officers of the Talooks under his charge conducts the correspondence in the English Department with the several Officers noted in the margin. Has to prepare the important and periodical reports including those on the settlement of Revenue sent to the different authorities at Madras as well as those occasionally called for which have lately increased to a large extent.—	I am not aware what circumstances were considered, while originally fixing the Salary and Commission of the Collector and Magistrate, or while reducing the same first to 30,000 and subsequently to 28,000 Rupees per annum but I believe that in no other Service, is so great an amount of labour and responsibility imposed on one man, for the remuneration now given. From the entry in Column 2 it will be seen that the salary has been gradually reduced while it would not be out of place to mention here, that the total revenue of the Province, which was Rupees 2,621,873—8—1 in Fusly 1244 has been on the increase except in years of remarkable adversity, and amounted to Rupees 2,983,507. 10—8 in Fusly 1264— I have no particular remarks to make on the climate expense of living travelling &c. &c.—

No. 2.

Return called for by the Commissioner for the revision of Civil Salaries in Circular No. 1 dated 28th March 1856.-

Designation of Office and present Salary.	Alterations which have taken place within the last 25 years in the Salary allowed.	Duties to be performed.	Special circumstances which were considered or ought to be considered in fixing the Salary.
Sub Collector and Joint Magistrate of Tinnevelly Rs. Salary 1166-10-8 per mensem Fixed Tent allowance Rs. 87-8 per Dk. Extra Tent allowances, when on duty within the Division 574 Rupees per diem.	None	The whole management, Settlement and Collection of the land and Extra Sources of revenue of 4 Talooks (subject to supervision by the Collector) is under the Sub Collector, also the execution of all Public works amounting to about 24,000 Rs. per annum. The Talooks are Shermadavy 208 Sq.re Miles, Population 52902, Revenue Rs. 234324 Brummadasem 431½ Sq.re Miles; Population 67270, Revenue Rupees 180148 Nangoonary 204¼ Sq.re Miles; Population 50352, Revenue Rupees 127733 Vallyoor 505 Sq.re Miles, Population 83785; Revenue Rupees 150807. The above entails a heavy correspondence with the Tahsildars of the 4 Talooks, with the Collector's Office, and with the Civil Engineers Department. The number of Petitions and letters &c. received, and answers and orders sent thereon in 1855 amounted to 10,948. The duties also include the Settlement of suits for arrears of rent, suits regarding the occupancy of land, and irrigation disputes, brought under Regulation V of 1822, and the trial of 1822, & VI of 1831 of the Madras Code. The number of Suits brought under those Regulations and filed were in 1855 eighty, besides several disposed of on a personal, and verbal, preliminary investigation. There is also the annual report of the Settlement with its enclosures, and other Monthly and quarterly returns of public Servants dismissed, suspended or fined, and of Cases disposed of under the above regulations. All propositions regarding repairs to, and improvement of existing public works, and all projected new works, with respect to their bearing on anticipated increase of the revenue, general usefulness and their effect on existing rights have to be minutely enquired into & reported on. The Settlement is ryotwary, and the revenue is called from 27973 Puttadars. The Joint Magistrate has also the superintendence of the Police of the above 4 Talooks, and all correspondence relating thereto he has to receive and decide all appeals against decisions passed by the Police Officers of those Talooks, & the appeals are very numerous. In the years 1855, the number of letters despatched by the Joint Magistrate were 47 besides the usual quarterly & annual accounts, and Monthly Statements, the number of complaints and reports received were 2724 & orders passed 2565. The Number of Cases personally enquired into, and disposed of by the Joint Magistrate in 1855 were 61.- In consequence of the shortness of hands in the covenanted department the joint Magistrate is often obliged to undertake the charge of the Police of other Talooks besides those forming his Division those at present and for above one year under his management are Strevellyputtoor 742 Sq.re Miles, and Shenkernimar Coil 876 Sq.re Miles.-	In fixing the Salary of these offices the Government doubtless had in view the burthen and responsibility of the work required to be performed the Office of Sub Collector and Joint Magistrate was also established with a view to training men for the Office of Collector and Magistrate of a District.- The Sub Division is about 50 Miles from North to South, and averages 30 miles from east to west with the Extra Talooks at present, it extends from Cape Comarine to Yellowmaddy in the Strevellyputtoor Talook. a distance of 122.- Miles in length, being, situated at the Southern extremity of India, the climate is amenable unwholesome over the whole of the Division for five Months in the year, and lying along the foot of the western ghauts, a great number of its villages are subject to dangerous fevers from January to June and Cholera is a yearly visitant. Frequent Circuits in the Division is necessary but the expenses of travelling Servants, and actual living are moderate with the exception of european supplies, which have to be brought from Madras, Bombay or Columbo, Horses are peculiarly liable to weakness in the loins which often entails heavy loss and expenses to replace those disabled.- The language in use in the Tamil private Moonshees are procurable on a moderate salary its acquisition is considered difficult by Europeans.- The Sub Collector of Tinnevelly is not furnished by Government with an Office or house, at his own expense he provides one, and also a building for his records.

Circular

Circular
To all Collectors including Sea Customs Madras and Copy to R S R

Sir,

Adverting to the list of letters addressed to you by the Board of Revenue and remaining unanswered, I am directed to call your attention to the unimportant character of some enquiries which are allowed to remain long unanswered, though requiring neither the preparation of figured Statements nor any great amount of time and attention. Such, for instance, are the Circulars regarding the Correctness of the Mess^rs Pharoah & Co^s Gazetteer, the bills required for Peons, the number of Peons employed on Maramut Works, and other matters of equally small moment. These arrears very probably are allowed unintentionally to pass out of notice, but their delay occasions inconvenience, as the disposal of the question at issue is retarded, and the Board are prevented from replying to the orders of Government with promptitude.

2. It is suggested for your consideration that an examination of your arrear list at stated intervals, say weekly, would

would prevent the accumulation of matters which, from their apparent unimportance, are likely to be overlooked.

BC No 1311

Sir,

From the Coll. of South Arcot

By Extract from their Proceedings dated 12th October last, the Board were pleased to sanction the temporary relief proposed by me in my letter of the 15th September for the Ryots of the Manargoody and Chellumbrum Taloocks of this District; I have now the honor to submit for consideration such

such measures as I conceive to be necessary in order to put the Cultivators in these two Taloocks on a permanent equality as regards the Assessment on their lands with those of the 10 Hoobas Taloocks.-

2. I find that my subsequent enquiries do not enable me to afford much if any more information regarding the revenue history of these two taloocks, than that which is contained in my letter of the 15th September

3. The following Table shows in consecutive order, the different rates of assessment which have prevailed hitherto in these two Taloocks on Nunjah land. It also exhibits the quantity of land subject to each rate and affords a comparison between them and the rates in the Hoobas Taloocks under the provisions The Board will observe that there are 14 Nunjah Turrums in these Taloocks, (Exclusive of those in to which the Nunjah land of Straiwadi is divided) whereas in the Hoobas

Hooloos Talooks there are but nine

Para 3 4. I have already explained in my former letter that the Villages of these Talooks were classed by Mr Ravenshaw into 5 classes, upon a consideration of the relative facilities of irrigation possessed by each. As these advantages have since become greatly

In Bds Pars 10th Nov 1852

greatly equalized by the improvements which have of late years been effected by Government, I can see no reason why a distinction between Villages should be hereafter kept up, any more than in the Hooloos Talooks, and I would recommend that it should be discontinued.

As the Government has already approved and sanctioned the principles upon which the revision of the assessment has been based in the Hooloos Talooks, it seems only necessary for me now to point out the manner in which I think the present rates in the Southern Talooks can be assimilated with them in pursuance of the orders from the Honorable Court of Directors contained in Para 17 of their despatch dated June 21st 1842.

6. I must however in the first place mention that owing to the proximity of these Talooks to the fertile District of Tanjore the price of Grain ranges almost invariably from 15 to 20 per Cent lower in them than it does in

Fort St George 2d August 1838.

in the other parts of the District, while the land although generally speaking, well irrigated is not more productive or rich.

7. On this account it seems right that the rates of terwah to be introduced should be somewhat lighter than they have been fixed in the Poolas taloohs where produce finds a better and more ready Market.

8 Nearly all the Punjah land in the 5th Class Villages is Munawary, and it has been usual to levy Russee under the orders of the Board dated 18th October 1838, when irrigation is obtained from Government works equal to 1/3d of the fixed terwah on the land. The average Annual income under this head comes to about 13000 Rupees. Until these lands are permanently transferred to Punjah turrums, I think Russee should be charged as hitherto.

9. What I now to propose to do is to introduce into these two taloohs the four Poolas Punjah Turrums and Rates specified in the Margin to supersede those

those at present in force. The best way by which I think the change can be effected will be by uniting the first three of the present rates under the first one of the proposed turrums the three following under the second of them, the next two under the third, and the last two under the fourth, as shown in the following table, and by leaving the lands of the 5th Class Villages rated as they now stand under the temporary remission of 10 per Cent, till they are gradually absorbed by being either transferred into one or other of the same turrums, or else into lower ones as may be found convenient. The mode by which these and Punjah lands Cultivated with Punjah crops by surface water in these Taloohs may be best transferred into Punjah turrums, will form the subject of a future communication.

10. The financial result of this remission of assessment on Nunjah lands in the 1st four Classes of Villages, if carried out as I propose will be an immediate relinquishment of Rupees 58925-4 or 21 per Cent of the present Beriz on the total number of Cawnies of Nunjah land in these Villages. The remission may however be expected, with confidence to create a very great demand for waste lands, the Cultivation of which will, before long, replace the Amount now given up. In fact the temporary remission granted for the current Fusly has already caused numerous Applications to be presented for new lands, and considering that about 3/4 per Cent of the cultivable area of the Nunjah land in the two taboks, as noticed in my former report, is unoccupied, there is good grounds to believe that the present sacrifice of revenue will be speedily made up, while the prosperity of the Country will be beyond doubt greatly increased.

*Cawnies 23470

para 8.

11. As there are no registered double Crop lands in these Taboks, it does not seem requisite

requisite to provide for the levy of an Extra tax in case second Crops are raised, and would strongly recommend that the rates now proposed should be declared at once as the fixed Assessment on the land whether one or two Crops are grown on them hereafter.

12. By the foregoing arrangements all the present Nunjah lands in these two taloohs will be brought into four of the Twelve Classes, and a very considerable Amount of relief will be afforded to the Ryots especially in regard to the best description of lands a large extent of which under the present Fasly assessment is invariably left uncultivated whenever at the beginning of the season there is a prospect of the price of Paddy being low in comparison with what is regarded as the standard rate, Viz 70 Rupees the Garce or 6 Cullums for 3-8.

13. The fluctuation in the present in these two taloohs on this account is quite remarkable, as may be seen by the Marginal Statement of the Settlement from Fasly 1250 to 1261. The difference of 17,000 Rupees between

between the Settlement of Fasties 1252 and 1256 was almost entirely attributable to the fact of the Ryots being afraid in the former, to cultivate the highly assessed lands because the price of Paddy was so low that they did not see any prospect of the sale of the Crop proving remunerative to them.

14. Including the small additions on account of the Pagoda and Royal Fees, the averaged Nunjah teerwah per Cawney in the 1st four Classes of Villages, with the present rates, is as follows:

1st Class Villages	13	13	4
2d Class Do	12	8	5
3d Class Do	11	6	4
4th Class Do	10	4	4

15 The total Area of Nunjah land in these four Classes of Villages contains 23,470 Cawnies with an assessment of 277,102 Rupees being an average rate per Cawney on the whole of Rupees 11-12-10¾. Deducting the proposed remission of 58,725-4-7 this average rate would fall to 9-4-8¾, which appears to me to be quite as high as the land should bear.

16 The Nunjah lands in the 78 Villages

Fort St George 2d August 185

Villages comprising the Streemooshnum
janum of Illanargoody are not included
in the foregoing. They bear rates of assess
:ment distinct from those on the other
lands in the Talook varying, as may be
seen by the accompanying statement, in
every village and with the class of Cult
:ivation. A good many of the land hold
are Brahmins, who have enjoyed the ben
of the reduction granted to them as a
favored class. This indulgence would be
longer accorded to them.

17. Altho' these lands are entered
in our accounts as Nunjah they are in
reality little better than Munawary
The means by which they are irrigated
is extremely defective and the soil itself
is not of a rich description.

18. The total extent of them is
Cawds
799 with an assessment of Rupees 6[illegible]
being an average of 8-1-7 per Cawdy
They adjoin the lands of the Pulliem
Beghire and are in no respect capable
of bearing a higher rate of assessment
than the latter.

19. Under these circumstances I

therefore propose that the rates of the
Palliemcottah Nunjah lands, as specified
in the margin, should also be applied
to Streemooshnum, instead of the present
ones, which are I think, decidedly too high
with reference to the productive capabili:
:ties of the soil, and the present means
of irrigation assuming that these rates
are adopted for the Streemooshnum lands,
it would involve a remission of about
2,500 Rupees or 26 per cent on the Ayacut
Beriz - This sacrifice would however
shortly, I think, be replaced by the
Cultivation of waste land, which under
the present assessment would never be
taken up.

20. To introduce these rates, it
would be necessary to examine and
classify the lands, but there would
not be much difficulty in doing this,
as the extent of them is not large.

21 There are 610 registered
Cawnies of Totacal land in these two
talooks rated at 10-15 the Cawney,
partly possessing the means of irri:
:gation and partly having none. These
lands may easily be examined and
might then be classed either as

Nunjah

Fort St. George 2d August 185

Nunjah or Poonjah as they may be f
to be and assessed with the
rates existing on the adjoining lands
the same description. Until this is
effected they might remain as they
are at present under the temporary
remission of 20 per cent, which has
reduced the assessment on them
Rupees 8. 12. ..

22 As regards the assessed
Poonjah land in these two Talooks
amounting exclusive of the Saghi
Villages, to 31,043 Cawnies. I am of
opinion that the present system of
a uniform rate of assessment is
not an equitable one, and that it
should be modified by dividing
the land into four Tarums upon
the same principle as it has been
classed in the Pallicondah Saghi

23 This might be gradually
accomplished without a minute
mensuration of the land. It would
be sufficient I think for the
fields to be examined carefully
and then to be classified accord
ing to the quality of the soil found
to exist in them, the extent of
each

Fort St. George 2d August 1856.

each as entered in the Kurinums accounts being unchanged..

24 At present the uniform Poonjah rate under the temporary remission is 3-1- the
Cawney, excepting in the Streemoosknum Vil
lages were three Tarums, with varying rates
have existed. This rate I think should be
kept still as the Teermah on the 1st Tarum,
as I do not consider that any of the Poonjah
land in these talooks should be rated higher
than this..

25 This measure would of course
involve a considerable loss of Revenue the
exact amount of which cannot be now
ascertained. As near as I can judge, it
would be 20,000 Rupees, but as there are
about 14,000 Cawnies of Poonjah land
waste in these two talooks, the
falling off would ere long be made
good by the extended cultivation which
would certainly follow..

Paras 3-4 & 5

26 In my letter to the Board
dated 13th March, I referred to the
practice by which certain commuted
fees are first added to, and then
deducted from the Beriz on the

Lands

lands for the Petty Pagodas in these two
talooks, amounting to 1946 - as p 12-5.

27 In granting the present relief
to the Ryots, I beg to suggest that the
collection and payment of these comm-
-ed fees to the small village Pagodas
should cease, and that the people
should be left to arrange the matter
among themselves as they please.

28 The Government is conceive,
is under no obligation to act as the
Medium thro' which these fees
are realized and paid, and I think
it will be an excellent opportunity
to discontinue the practice by regu-
-ing the present rates of asse-
-ment as quite irrespective of the
dues. The same thing was done
when Mr. Ravenshaw settled
the Assessment in the Hoolool
Talook.

29 I beg in conclusion to
state that, assuming that these
two talooks are to contribute
to the Road Fund, I have
included the one anna per
Cawney in the rates I have
proposed

proposed, in the same way that
it was done in the revision of the
Hooloor Talooks.

From the Coll. of South arcot

Submitting further information on certain points connected with the proposed assessment of the Lands of the Rollamalay Jaghire with three Statements appertaining thereto

Sir,

I have the honor to acknowledge Extract from the Proceedings of the Board dated 16th Instant calling for further information on certain points connected with the proposed assessment of the lands of the Rollamalay Jaghire situated in the Nunnargoody Talook of this District, and directing me to reconsider the rates which I recommended for the Nunjah Lands in my letter of the 17th May last.

2 I am fully sensible of the importance of uniformly assessing Lands possessing similar fertility of soil, and means of Irrigation, and of avoiding as much as possible, giving the cultivators residing in one Village grounds to complain of the inequality of

of the tax imposed upon them Lands in
Comparison with the rates applied to the
Lands of the neighbouring Villages but I
do not think that in the present case
it would be fair to raise the Hollamallay
Assessment to a level with what I have
proposed in my letter of the 15th May
should be the revised rates in the Ain
Villages of Mannargoody. When settling
the rates for the Hollamallay Villages
I did not, as the Board will have re-
-viewed regulate them with reference
to those I proposed for the Ain Villages
of Mannargoody but calculated them
upon the principles which guided me
when fixing the Assessment for the
Pallamcottah Jaghire in the Chellam-
-bram Talook as explained in my Ltr
of the 12th February last.

3 Since however the Board
have drawn my special attention
to the point, and have requested
me to reconsider the subject, I am
now led to recommend that the pre-

sent Nunjah Lands of Hollamal-
-lay should be fixed only one Tarum
instead of two below the modified rates
for the Ain Villages in the same Talook,
as shewn in the Margin.

Modified rates for the Nunjah Lands of the Ain Villages per Cawney.		Rates now proposed for the Nunjah Lands of the Jaghire villages per Cawney.	
Tarum	Rate		Rates
1st	10 9		9 4
2d	9 4		8 8
3d	8 8		7 1
4th	7 1		6 2

I do not think the rates on the Nunjah Lands could be fixed higher than these without a material departure from the principle upon which the assessment is based and I do not apprehend that with this variation only the Ryots of the Ain villages will hereafter feel discontented or attempt to ground a claim for further remission than what I have already

Fort St George 2d August 1856

already recommended for them in my letter of the 15th May last.

4 In Para 10 the Board requires me to state whether the rates I may be now induced to recommend are agreed to by the Ryots. It is not an easy point to ascertain whether the Ryots really consent or not I do not think they will offer any strong objection but as they would not even admit that the rates I proposed in my letter of the 12th May were low enough they would not of course express themselves as willing to pay higher ones.

5 Accompanying I beg to send + N. 1 and 2 two Statements drawn up from the old accounts, showing the comparative result as nearly as I am able to judge between assessing the Lands of + the Eight Villages of which I have received the Survey accounts from Captain Priestley, with the rates proposed

proposed in my letter of the 12th May last, and with those which I now recommend.

6 The Board will observe by N. 1 that if the former rates were adopted a trifling sacrifice of present Revenue would occur upon the Lands now actually cultivated, and that if the latter are imposed, there will be an immediate increase above what the cultivated Lands have yielded after deducting the Rewsoums which were abolished last year. Eventually there will be a further addition to the Beriz when the Ryots take up as I think they will, the waste and unoccupied Lands of their Villages.

7 As the classification of the Lands in these villages has not yet been finally settled by me, I am unable to show the exctent which will

come into each Perum under Captain Priestley Survey. The annexed table exhibits a comparison between what our old accounts make the total ayacut of each village to be and what it is now shown to be by Captain Priestleys measurements. The accounts which have as yet been prepared by the Native Tarumdars are only preliminary ones, which it will be necessary for me to test by personal inspection and Local enquiry previous to the assessment being actually imposed. All that I have yet done myself in respect to Hollamaley has been to examine carefully the seals of the four Sub into which it is proposed to divide the

the Lands, and to satisfy myself by the best means available, as to what their respective productive powers actually are.

8 There has doubtless been, as remarked by the Board in Para 9, a desire on the part of the Ryots in the villages of this Jaghire to make out that their Lands are less productive than they really are with a view of getting a light assessment put upon them, but I do not think they can have systematically neglected cultivation for this purpose.

9 The villages are scattered about among the circars of the Talook and I cannot believe that there has been a combination among the people living in them to adopt expedients to keep the collections as low as possible in order to obtain favorable rates of assessment.

10 That the Renters of these Villages, who were always residents of

of them, should have done their best to obtain Leases for the lowest possible sums is nothing more than was to be expected that they would do and this seems to me to have been all that had happended when Mr Hallett wrote his letter to the Board dated 7th October 1841.

11 In regard to the appointment of Village Officers, I beg to observe that the employment of Talleriecottah + Pallamcottah Pallamalay Tinnevelly Poligars and Nottagers at the Established Per centage rates of Pay was Sanctioned for the four revenue Jaghires, by the orders of Government dated 10th March 1847. During the last five years their Salaries have amounted on an average in the Pallamalay Jaghire to Rupees 1631-10-1. Per annum. This will therefore be the lowest sum which it will be necessary to disburse annually for their pay.

+ Palliemcottah

The

12 The allowances for Village Managers will form a charge of 2¼ per cent on the Gross revenue, as in the Ain villages, and besides them it will be desirable, and expedient to appoint Talliaries with money allowances and Grants of Land on the same scale as that which is now being adopted for the ain Villages.

13 There have never yet been any village managers in the Pallamalay Jaghire, but 10 Tarnufdars have been employed on behalf of Government at a monthly pay of 5 Rupees each making an annual outlay of 600 Rupees. These Tarnufdars would be no longer required when Puttah Managers are Established. Taking the average collections of the last five years as a criterion the aggregate pay of the latter would come to Rupees 730 being only 130 Rupees more than what is now disbursed for the Tarnufdars.

It appears by the correspondence noted in the Margin that Revenue Port. regarding which the Board call for information, was formerly collected in the Pallicmcottah and Hollamalay Jaghires to the amount of 1400-11-8-3. per annum as however the Ryots of the Pallicmcottah Jaghire objected to pay the fees none have been realized from them since Fusly 1252.

Pallicmcottah 887-12-2 Collamalay 513-2-1 1400-11-3

15

The Extra Collections known by the terms of Roofscom Bagee Kumcul and Nuzzer which were abolished by orders of the Board dated 9th October 1854 amounted altogether in this Jaghire to 1338-"-2. per annum equal to an additional tax of about six per cent on the Gross being of the Land.

16

It has never been the practise to charge Fasul jastee for Second Crops in the six Villages of Munargoody and Chellumbrum. The recommendation I made in Para 11 of

Fort St. George 2d August 1856

of my letter of the 15th May last was not that Fazul jastee should be abolished but that it should not be introduced by my proposed scheme of remission. This I did upon the grounds that there were no registered double Crop Lands in these Talooks.

In the fifth class Villages

17

Kuffer is levied under the orders of the Board dated 18th October 1838 upon Irrigated Punnavary Punjah Lands but this charge cannot be regarded as Fazul jastee, and althe reference is certainly made in Para 13 of the Boards Proceedings dated 24th October 1856 to certain Rules by which Fazul jastee was said to be chargeable on Second Crops in the fifth class villages, nothing of the Kind has really ever been done in Munargoody and Chellumbrum.

Althe' I have recommended

18.

that Fazul jastee should not be declared leviable in the Talooks of Munargoody and Chellumbrum upon the Lands as they

they now stand, I would, on no account wish the Board to infer that I am adverse to the general principle of taxing second crops when cultivated by Government Water, for such is not the case, as I have already stated in my letter to the Board dated 11th September 1854, on the subject of the best mode of treating the registered double crop and doubtful of two crop Lands in the Hoobly Taluk of this District.

I must confess with all deference, that I do not think the system lately introduced into the Hoobly Taluks, a good one, by which certain Lands have been declared liable to Fasul assessed when a second crop is actually raised upon them by means of Government Water, while other Lands have been at once

once set down as single crops and exempted from such a charge even if a second crop is cultivated on them.

The result, I anticipate

20

will be that the Ryots will manage to get Government water to cultivate extensively second crops on their single crop Lands, and will leave the registered double crop Lands without raising second crops upon them, while the periodical inspections which it will be necessary for Curnums, and other Taluk officers to make in order to ascertain whether second crops are actually grown or not on the registered double crop Lands will give occasion for undue interference and exaction.

I believe that the right

21

principle to follow in regard to second crops on Wunjah Lands is to

Fort St George 2d August 1856

to subject them to a tax equal to a fixed proportion of the assessment on the first crop and to consolidate the assessment on the Lands so cultivated whenever it is clear that the Government works furnished a permanently a supply of water sufficient for two crops allowing them the benefit of the remission rules when ever any thing occurs by which the full quantity of water is diminished or cut off and the second crop in consequence either destroyed or not raised at all. The preference in regard to the use of water for second crops must of course be strictly maintained in favor of Land bearing the double crop assessment, and Cultivators should be prevented from taking water from a Government source to raise second Crops on their single crop Lands when by doing so they

prevent

Fort St George 2d August 1856

prevent others from raising second crops on their double crop Lands.

Unless this principle is

22

distinctly acknowledged in this District, it appears to me that under the present System Government will lose a good deal of Revenue and will be frequently precluded hereafter from deriving that profit, to which they are justly entitled when they construct new works of Irrigation by which an increased supply of water is furnished to single crop Punjab Lands, and their productive Capabilities thereby rendered greater than they were before.

When Punjab Lands

23

receive a supply of Government water, and wet crops are in consequence

Fort St George 2d August 1856.

consequence raised upon them an enhanced assessment is immediately levied in the shape of Kuffer and eventually the Lands themselves are transferred to Wunjah Tarums with a consolidated assessment.

The same principle should I think be applied to single crop Wunjah Lands wherever they are permanently supplied from the Government Works of Irrigation with the assessment water for two crops.

24. I beg to forward for the information of the Board an abstract Statement exhibiting the probable result of assessing by the rates now proposed the Wunjah Lands of the whole of the Hollamalay Taylure. I must however mention that the areas of the Lands have not been taken from Captain Priestley's measurements but from the accounts in the Huzoor Records.

Bd No 2167
Proceedings
Directing the Collr to submit certain detailed information with a view to the reduction of the assessment of the Manargoody and Chellumbrum Talooks after Captn Priestly has accurately surveyed them and expressing the Boards views respecting the new plan of assessment.

From Govt 29 Augt
Subscribed 5 Sept 1855

Bds Pro. 12th Oct 1851

48-50

Fort St George 2d August 1856

Regarding the suggestions thereon. Para 1. in the first of these letters it is unnecessary for the Board to enter into detail as Government have since ordered the Manargoody and Chellumbrum Talooks to be accurately surveyed by Captain Priestly with a view to a new and moderate assessment being introduced into them and meanwhile it will be proper to continue the temporary relief recently granted to them.— on the Collectors recommendation.—

2. As soon therefore as Captain Priestly has completed the survey of one Talook or of a sufficiently large portion of one to serve as a basis for fixing the new assessment Mr Hall is requested to lay his measures before the Board with accounts showing the extent of cultivated and waste land in each Village, its future classification, and rate of assessment the financial results of his proposed rates, and the data on which the produce and its value are calculated. Mr Hall will find what detailed information is expected on these points by referring to the remarks of Government on the rates of assessment submitted

Encl to G. Govt No. 1238 Sent with Board's letter of the 11th Janry 1856 No 35.

Fort St. George 2d August 1856.

submitted by him for the Palliemcottah Villages.—

3. With respect to the new plan of assessment the Board will make a few general remarks.—

4. All lands will be classified and assessed according to their advantages of soil and irrigation and Government have directed that attention is to be paid to their situation also. there will consequently be no occasion as justly deserved by Mr Hall to continue the arrangement under which the Villages are at present grouped in 5 different classes

P. 4

5. All Nunjah land is to be rated as single crop and be liable to fusal Jasty when a second crop is raised. This system has met the general approvement of Government and agrees with that which prevails in the District of Trichinopoly to which these Talooks originally belonged.—

6 In para 10 of his letter Mr Hall proposes to dispense with fusal Jasty but the Board presume that this only arose from his considering the rates then proposed by him sufficiently high without such an addition. since in another place he

he argues in favor of levying this tax when Government supplies water. The Government have also expressed their intention of not foregoing such a demand and the Board consider it advisable that it should be fixed at 50 per cent of the original teerwah on the principle which has been followed elsewhere unless Mr Hall is able to submit a scheme for compounding the demand by means of a consolidated assessment in a manner which is acceptable to the land owners and fair towards the interests of the state.—

7. The Board will only further observe on this subject that they see no obstacle to the enforcement of fusal Jasty in these Talooks. In the Wooloos Talooks the lands were formally divided into double and single crop and exemption from fusal Jasty / except when Government made new works of irrigation / was granted to the latter. But in Manargoody and chellumbrum no such division has been made and the Wooloos assessment has not been fully and formally introduced. Mr Hall himself observes

Fort St. George 2d August 1856

para 11.

observes in his present letter that in these 2 Talooks there are no registered double crop lands, and the fact of Fusal Jasty not having been levied hitherto seems principally owing to the rareness of 2d crop cultivation. The justice of such a tax is dwelt on by the Collector

Inlons 27th Octr 1852. Mr. Hallett in his letter of 27th September 1852, and the Board alluded to it in Para 6 of their Proceedings of the 12th October 1854.

8. In framing the new rates of assessment Mr. Hall will be guided by the following instructions of Government given to the Collector of Trichinopoly for the assessment of the Dry Talooks of that District now under survey. "It is the desire of Government "that the new rates should be made really moderate "and that no reference to or consideration of "past rates should prevent their being so."

9. Provision is to be made for a road fund at the rate of one anna per cawney on the principle followed in the Hooloos Talooks.

In

Fort St. George 2d August 1856

10 In Para 26 to 28 Mr. Hall alludes to some commuted fees amounting to 1916-12-5 which are collected with the Government revenues in these Talooks on account of the Village Pagodas and paid to those institutions. Mr. Hall repeats the suggestion made in his letter of the 13th March 1855 that the collection and payment of these fees by the Government servants should cease" and that the people should be left to arrange the matter as they "please" In support of this course he observes "that the same thing was done when Mr. Ravenshaw settled the assessment in the Hooloos Talooks" Regarding the desirableness of such an arrangement the Board quite concur with Mr. Hall but before giving instructions on the subject they wish to be informed whether these fees in the Manargoody and chellumbrum Talooks consist of a deduction from the public revenue and are therefore entirely paid by Government, or whether they represent a portion of the gross produce partly belonging to Government and partly to the landowner. The heading to column

Inlons 13th Octr 1855 N° 769

4 of the statement which accompanied
Subons 15th Octr/55. Mr. Hall's letter of the 13th march 1855 seems
to imply that they are deducted from the assessment
but this would be contrary to the usual practice

11. The Board further observe on referring
to enclosure C in Mr. Ravenshaw's report of 10th
Subons 11th July 1808 may 1808. that these fees cannot then be said
to have been abolished in the Hooloos Talooks
as Government merely left the landowners
to pay them direct to the Pagodas instead of
having them collected and paid through their
revenue servants. The fees therefore still
remained a tasc on the land, paid partly
by Government and partly by the ryot as the
grain which represented them was deducted
from the gross produce before the shares belonging
to Government and the land holder were deter-
mined. The Board wish to know whether
from such information as Mr. Hall has at
command the landholders have since paid these
fees to the Pagodas with any regularity or whether
their non payment has led to complaints and disputes
especially

especially in the case of landowners who do not
belong to the Hindoo religion.

12. The Board now proceed to notice
the second of the two letters recorded above
which relates to the assessment of the Villages
of the resumed Jaghire of Kolamalay.

13 With a view to diminish the difference
which his first proposal made between these
Villages and the ain Villages of the Talook
Mr. Hall now recommends that their lands
should be fixed one turm instead of two turms
below the latter Mr. Halls, object is to prevent
the new assessment being higher than that hitherto
collected but his plan is open to the objection
that it would be introducing a wrong classi-
fication, because the lands of the Jaghire
Villages are not inferior to the lands of the
adjoining ain Villages either as respects soil
or irrigation.

14. Mr. Halls plans also are not suffi-
ciently complete to allow of their being laid before
Government since he had received the accounts of 8
Villages

Villages only from Captain Priestly and the
classification of the lands had not yet been
P.7 finally settled by him. so that it cannot be seen
what actual effect his proposed measures would
have on the public revenue The Board therefore
think it desirable that in the first instance at
least these Villages should be assessed on the same
principle and in the same manner as the other
Villages of the Talook and that detailed
accounts should hereafter be sent showing
what the result of such a measure would be
The Board consider this course proper because
they deem it doubtful whether Government would
sanction a special assessment, these Villages and
under the instructions which have been given for
fixing the new survey rates on an easy and libera
scale, the Kolamday ryots may find it ad-
vantageous to assessment to the rates which
are to be introduced into the adjoining Villages

15. From Para 16 to 24 Mr Hall discusses the
question of fusal Jasty and offers objections to the pla
now in force in the Hooloos Talooks The Board have
already given instructions that under the new survey
assessment

assessment all lands in Manargoody and chellum
brum are to continue to be registered as single crop
and that fusal Jasty is to be levied when a
second crop is grown. The Board have only there-
fore to notice the points in which Mr Hall
seems under a misapprehension with respect to
the Hooloos Talooks.—

16. Mr. Hall appears to forget that when
revising the assessment of those Talooks the
question was not simply what system was
best for taxing second crops but what was
the best system that could be acted upon
under our engagement with the ryots. We
had not then to frame new rules for un-as-
-sessed lands but had to deal with lands
which had been classed after enquiry as single
crop and formally declared exempt from fusal
Jasty. This exemption had been in force 50
years and had led the landowners to improve
their irrigation at their private expense, and the
publication of any general rule now declaring
them to be liable to fusal Jasty would therefore
be manifestly objectionable and lead to well founded
remonstrance

Fort St. George 2d August 1856

remonstrance. But at the same time there is no impediment to correcting the register in any cases where it is clearly apparent that the lands were originally entered as single crop by a fraud and of course no owner of single crop land is entitled to claim water from a Government source for a second crop. Mr. Hall is also mistaken in supposing that the owners of these lands could not be called on for fusal Jasty if they raised a second crop by taking water from a work of irrigation constructed by Government for their benefit subsequent to the period when they were classed and assessed as single crop.

° Para 22

17. With respect also to Mr. Hall's remarks in favor of a consolidated teerwah the Board will point out that on trial such a plan has not been found to answer and they observe that though Mr. Hall was authorised by them to propose the introduction of consolidated tax in any Villages where such an arrangement deemed practicable and was concurred in by the people he has not apparently been able to take any steps for

Bds Proc. 8th march 1855. P. 4.

Fort St. George 2d August 1856

for the purpose. Theoretically the Board are not opposed to Mr Halls views. but in the Hooloos Talooks one former system offers special obstacle to their being carried into execution. and elsewhere they could only be brought satisfactorily into practice with the full consent of the landholders and this consent could not the Board think be obtained except at a sacrifice of revenue which the Government would not be willing to bear.

I take this opportunity of stating that the items indicated in the margin, altho usually included in the annual Estimate appear to be of a permanent character and may properly be incorporated with the fixed Establishment, tho' perhaps the latter may remain as it is pending the general revision of the Salt Establishments, as an increase is entered in Extra Goomastahs for the reasons explained in the Statement. It will be impracticable to allot and fix the boundaries in the sandy tracts alluded to without some Extra help on this occasion in addition also to the survey Establishment for which there are demands in other quarters and when it is considered that the arrangement is to give permanency to the occupation of the lands and to be incurred this year for all the increase will not I trust be objected to.

From the Asst Collector

Submitting explanation Regarding the increased charges on account of additional Establishment with reference to Board's Proceedings dated 8th May 1856 No. 1395

Sir

With reference to the remarks of Government contained in Extract Minutes of Consultation 31st March last and communicated with the Board's Proceedings under date 8th May No. 1395 on the subject of charges on account of additional Establishments, I proceed to submit the following explanations regarding the increased charges objected to by Government.

2-1 Mg As regards the sum of Rs. 1,911.3.11. by which it is remarked the actual charges of Fusly 1263. as given in the present Statement, exceed the amount given in the Statement forwarded by the Board for the same year. The order mentioned marginally 14th March 1853 No. 263. conveyed the Sanction of Government for the adjustment by which Fusly 1263 was debited with this charge at a date long after the close of that Fusly. The difference between this sum and Rupees 1,630.6.7. being the charge on similar account for

Fuly

Fusly 1264 in due to the fact of the whole of the Sanctioned amount not being expended in Fusly 1264 from various causes, among which the principal was the reduction in the Maramut Establishment towards the end of Fusly 1264.

Rs. 1231-2-4. 3 Secondly Regarding the increase in Fusly 1264 over the Estimate of Land Revenue Charges for Masulipatam. I have not been able to identify this sum, but from carefully adding up all the items of increase and deducting all items of decrease as detailed in the Margin, I observe a net increase of Rs. 1,263-15-8

Increase.	Rs
In Hoozoor Establishment	4636-6-9
" Survey Establishment	182-11-5
" Hungama Peons	48-8-8
" Salt Peons	354-1-2

Colair Boatmen	25-14-6
Watchmen at the Soapnut Forest	2-13-5
Total	4005-12-4
Net	1263-15-8

The Main items of increase are Rs. 4636-6-9 in the Hoozoor Establishment Rs. 182-11-5 for the Survey School and Rs. 354-1-2 in the Salt Cotaur Peons The first two items were not at all included in the Estimate because the orders to do so were not received some time after the Estimate

Fort St. George, 2d August 1856.

Estimate had been transmitted The increase in the Number of Peons at the Salt Cotaurs, was owing to the necessity which arose for employing them for a longer time than was at first contemplated The Swamp Salt was produced in several unusual localities, which having to be Stored in new Platforms, required an additional guard of peons throughout the year.

Rs. 1079-11-11. 4 Thirdly, About the increase over Estimate in Police Establishment. In their order of 21st January 1854, Government Sanctioned the entertainment of 10 Duffadars, and 130 Peons, and it was explained by remarks in the Statement which forwarded 31st October 1853: that "the Estimate for Fusly 1264, was made in a very rough way, before the actual requirements could be ascertained. Hence the increase of the actual charges over the Estimate." I have now only to repeat this explanation. We repeated occurrence of gang robberies in the frontier Talooks rendered the keeping up of the Extra armed peons, very necessary At the time of Submitting the Estimate, Mr. Cushington probably thought of reducing them in the Course of the Fusly, but this circumstance did not enable him to do.

In.

Fort St. George, 2d August 1856.

5

In the Estimate for Fusly 1265, explanation is required of the increase of Rupees 330 over the expenditure in Fusly 1264. This increase is in two items: in Summunkhundy Goomastas Rupees 140 and in Batta to certain Cummums 190. With regard to the former I have only to remark what is already well known to Government, that the Establishment in this District is very inadequate to the duties, and therefore requires strengthening at the busy time of the Jummabundy. The proposition was for but 4 Goomastahs for 8 Months against 3 for 6 Months in the preceding Fusly. The other increase of Rupees 190 is neither for more hands nor a real increase at all. The Kummums of certain Estates which have reverted to Government being entitled by Custom to Batta during their attendance for the Jamabundy, the amount has been usually included in the annual Estimates. In Fusly 1264, the amount thus so included in the Estimate for Fusly 1264, was not disbursed to the parties owing to certain doubts entertained by Mr. Lushington on the subject. I included the item in the estimate for Fusly 1265 as usual.

6

With reference to the remarks of Government in para 17, I have only to observe that

Fort St. George, 2d August 1856.

that I have fully explained in my letter of the 31st October last in what charges were of a permanent nature, and in what were really only temporary. A revised Moyonzabitah for this District was submitted to the Commissioner in February last and I trust its sanction will do away with the necessity for nearly all the charges now appearing in the Statement of additional Establishments.

Submits explanation in regard to the Excess Establishments entertained in Taluks 1761/63-
Called for in Board's Proceedings dated 8th May last.

Sir

With reference to Extract Minutes of Consultation under date the 31st March last, forwarded with the Board's Proceedings of the 8th May last, I have the honor to submit the following explanation on the different points therein noticed.

2. The increase of Rupees 268-8-0 in

13915 Fort St. George, 2d August 1856.

in the actual charges in the Sea Customs of Canara, over the Sanctioned estimate, noticed by Government in para 3 is partly on account of a Preventive Establishment maintained on the Goa frontier, as Sanctioned by Government under date 21st December 1854, having been employed for a longer period than that entered in the Estimate; as it was found necessary to keep them on the frontier until the close of the trading season; (May) whilst the Sanction only extended to four months; and partly on account of the entertainment of some extra hands in the Sea Customs Department, as shewn in the Margin in the annual returns of the Trade used formerly to be sent in, in September, but the Reporter of External Commerce having directed that they should be forwarded as early as possible after the close of the Official year, Extra hands were necessary to effect this, as the fixed Establishment is not able to undertake these accounts after the close of the trading

trading season, could not prepare them at the busiest time of the year. It was therefore found necessary last year, after the usual Estimate had been submitted to appoint 2 Coomastahs in the Hoozoor, and one at the Mangalore Custom House, for a short time, which involved an expenditure of Rupees 41-12-7. The 3 Extra Hotkars, or rather 2 Hotkars and 1 Lascar for the Port of Mangalore were entertained last year after the despatch of the Estimate, as it was brought to notice that Extra hands were urgently required to examine Vessels entering the harbour in order to check the smuggling of Salt, now admissible on payment of duty. Formerly Peons were employed for the special purpose of examining vessels on arrival and departure but since the reduction of the Sea Custom Establishment, this duty does not appear to have been regularly performed. The additional amount of expenditure on this account is Rs. 316-11-

3 In para 11 the Government state that they are not aware under what authority the Survey operations have been undertaken, which have increased the expenditure of Fusly 1265 over that of Fusly 1264 by Rupees 1164-11-7. No sanction was previously obtained on this account.

account, as similar expenditure had been incurred for some years and Sanction subsequently obtained, but this excess does not arise merely from the employment of the Survey Establishment, there being other Extra Revenue charges included in it as noted in the Margin

3 It having been brought to notice that in the Wurg of Mutadevala Mogany in Sonda Taluk, Government lands were surreptitiously cultivated, it was found necessary to have these lands Surveyed. This could not be done by the Shanbogues and Taluk Servants, and therefore a temporary Establishment was employed. As soon as it will be observed, been expended on Surveying land taken up by ryots in the Talooks of Sonda, Soopah and Ankola. This money is not only well laid out in bringing to account without delay, land which would otherwise pay nothing, but in settling claims of contending parties in a Mode rate time, and in giving a stimulus to the demand for land, which was less than it would otherwise have been from the endless delay that often occurred, under ordinary circumstances, before land could be measured

assessed, and given over to the persons applying for it. The Survey of the Cubiatadevala Mogany, has led to the discovery of 2 Wurg which was surreptitiously enjoyed, and for which a Cariz of Rupees 219 was fixed in Fusly 1264. Five more wurgs in this Mogany have been surveyed, and their Cariz remains to be raised. The Establishment employed for Surveying this Mogany may be dispensed with at the end of this Fusly, tho' that employed for Surveying the Hossagany lands will still be required. The Revenue derived from the Hossagany wurgs is yearly increasing, as will be seen from the entry in the margin, and the Employment of these establishments in measuring and assessing waste lands is of equal advantage to the people and to Government; and for the present I hope they may be continued.

1262 - 1613 - 15-1
1263 - 3890 - 2-2
1264 - 1,019 - 9-5

2nd The explanation already submitted with regard to para 3 Cocktack Minutes Consultation is equally applicable to the objection raised in para 12 of the same, the circumstances of Fusly 1263 being exactly those of Fusly 1264.

From the Collector of Malabar.

Submitting an appeal Petition against a decision passed by the Sub Judge in the matter of a claim preferred by Ayencolatha Parameshooren Moospa Thoreen Mussadoo and requesting permission to file the same in the Civil Court of Calicut.

Sir,

I have the honor to submit an appeal Petition which I request permission to file in the Civil Court against a decision passed by the Snb Judge in the matter of a claim preferred by Ayencolatha Parameshooren Moospa-dos to establish a Jemmee right to some land in Betalinaad forming part of the Betat Rajahs Escheat.

2 The Original Suit was preferred in the time of my predecessor, and by some oversight, he having omitted to contest the claim, the Suit was tried Exparte. The pleadings appear to have been completed before I joined the District. The first I heard of the matter was that a decree had been passed against me I received no notice that I had been made a party to the Suit nor does it appear that my name was substituted for that of my predecessor otherwise than by a simple ministerial act of

Fort St George 2d August 1836.

of the Court.

3 The Acting Sub Judge bases his decree on the long possession of the 1st Defendant from whom Plaintiff purchased the land supported by the evidence of witnesses, the omission of the Collector to defend the Suit and the entry in a pymash account received from the Collectors Office shewing that the land in question belonged to one Kristna Nair and not to the Government or the Betutnaade Rajah.

4 That Krishna Nair was long in possession of the land there is no disputing, but he held possession not as Jemmee or fee simple proprietor but merely as a tenant. this point is clear from a bundle of accounts discovered in his house in 1831. of the 25 genuineness and authenticity of which there can be no doubt.

5 It would appear the ancestor of Kristna Nair held Office under the Rajah and thus had opportunities of becoming possessed of the annual settlement account which was obtained from the house of the 1st Defendants heir. This account is one year latter than the deed of alledged gift on which the 1st defendant

Fort St George 2d August 1836

pretends to base his right to the lands in dispute.

6 The Pymash account, or rather Extract, on which the Acting Sub Judge places such weight refers to a piece of land situated to the West of that claimed. From the accompanying plan it will be seen, that the measurement of these two pieces greatly differ, and that the measurement in the pymash account exactly represents the area of the piece of land to the west of the contested bit while the actual measurement of the contested land far exceeds those given in the Pymash account. This piece of land to the west now in possession of the Government Vakil was formerly held by Krishna Nair and is clearly the land entered in the Pymash account No 1 as Krishna Nairs.

7 Regarding the default of the Collector to defend the Suit, I can obtain no satisfactory explanation the notice of the Court appears to have been served, signed, and entered in the Office, but no further notice was taken of it, and even the Native Servants appeared to be ignorant of the existence of the Suit.

8 It also appears that 20 years ago the 1st defendant endeavoured to establish

13922 Fort St George 2d August 1836.

establish his claim to the land in question before the Managers of the escheat but the document A produced by him and which has been recognized by the Sub Court as a genuine document was rejected as a palpable forgery. The appearance and age of the Olla as clearly stamped its origin and date of fabrication.

Appeal Petition of Sir Kar Vakeel Ambos Pothoowal in behalf of T. Clarke Esqr Collector of Malabar.

The Collector appeals against the decision of the Acting Sub Judge of Calicut in O.S. No 3 of 1835 in which decree the Plaintiff Ayen callatha Para mesharen Moosados was declared entitled to the Jemmee right of the land called Cooroomanhode Nilam yielding an annual rental of Rupees 13-10-9 on the following grounds.-

Because

13923 Fort St George 2d August 1836.

1 Because though the appellant has been made a party to the decision, he never was made a party to the suit. On the death of his predecessor he was not advised of the suit pending nor did he receive any notice to answer or defend it as the practice of the Courts demand.

2 Because he denies the sale by the Betut Rajah the last Jemmee propriter of the land in question to the ancestor of the 1st Defendant from whom the Plaintiff claims to have purchased it, and with whom he has colluded to defraud the Government

3 Because the documents and vouchers on which the Acting Subjudge base his decree are unworthy of credit, and insufficient for the proof of plaintiffs claim.

4 Because the Title deed A was 20 years ago stigmatized as a forgery by the party deputed to investigate the right of parties laying claim to the Rajahs

Fort St George 2d August 1836

Rajahs property and no efforts were made by the holder of the deed to falsify or obtain relief from this Stigma the State and condition of the deed & rendering such a Step at the time & dangerous and futile.

5th Because the Title deed is proved to be false by certain accounts found in the 1st Defendants profession in 1026/1851.-

6th Because the Account in which the Acting Sub judge lays such a stress refers not to the lands in dispute but is a piece lying to the West of it.-

7 Because the Plaintiff has irregularly brought his suit for one out of the four pieces of land set forth in document A. thereby obtaining a decision on Subjects not before the Court.

The Appellant therefore requests that for the grounds set forth by him, the decree of the Sub Judge may be set aside and an award be passed in favor of the right of Government to the lands in dispute.-

accordance with the plaint.

5. The 4^th. Deft. / the Collector / against whom this suit is substantially brought because it is alleged the Revenue authorities were exercising act of ownership over the land by entering it as Government land in account prepared in 1030/1854/55 did not answer.

6. Points were recorded on the 3^d. April 1856.

Plaintiff to prove that the alleged jenm right accrued to 1^st. Deft. from Betutnaad Rajah's in 967/1791/92.

Judgment.

9. Of the sale by 1^st. Deft. to Plaintiff there can be no doubt whatever. The suit was brought simply to procure a declaration that the 1^st. Deft. had obtained from the Betutnaad Rajah, whose land subsequently escheated, a valid title to sell. The witnesses called, speak to the sale by Deft. to Plaintiff and to the sight of the document now produced as the voucher of

of the Jenm right of 1st Deft which he professed by the sale to convey stronger however than the evidence given by these witnesses that the possession of the 1st Deft has been for years in accordance with the terms of a deed of which the age dispenses with proof the fact that the Collector has not defended the suit, and that the Pymash account produced from the Collector's own Office states the Jenm as that of Krishna Nair and not as that either of the Betutnaad Rajah or of Government as his heirs by escheat. The decree therefore will be that the 2d & 3d Defts will on the receipt of the Canyom amount minus the proper due concerning which there is no dispute hand the parcel of land to the Plaintiff and so far as

as the rights of Government are concerned. the Jenm right is declared to belong to Plaintiff the parties to the suit will pay their own costs.

Sub Cons: 2d August 1856.

To The Secretary to Government. Revenue Department.

Sir,

I am directed by the Board of Revenue to submit for the consideration and orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Malabar dated 9th July 1856, submitting an appeal Petition against a decision passed by the subordinate Judge of Calicut, and requesting permission to file the same in the Civil Court.

2- The original suit was brought to establish a right to a parcel of land in the Betutnaad Escheat. Through some oversight the suit was left undefended by the Collector and the Plaintiff obtained a Judgment in his favor.—

3- The decree of the Subordinate Judge was based chiefly on the fact of the long possession of the 1st defendant from whom Plaintiff purchased the land; but the Collector urges

urges that this individual held the property merely as a tenant, and did not possess any proprietory right over it.

4. The grounds of appeal as briefly entered in the draft Petition are 1st That the Collector was not a party to the Suit 2d That the Butut Rajah the last Jemmee Proprietor did not sell the land to the ancestor of 1st dependant; and finally that the several documents and vouchers on which the Subordinate Judge based his decree, are, for several stated reasons, unworthy of credit, and insufficient for the proof of Plaintiffs' claim.

5. The Board are of opinion that there are ample grounds for preferring an appeal and recommend that the Collector may be authorized to file his draft Petition and conduct the suit at the public expense.

R. No. 2669.

From the Collector of Tinnevelly

Recommending for reasons shewn the removal of Teroomala Numby Naig from the situation of Tahsildar and proposing with the Board's sanction to take the first opportunity of employing him in some inferior appointment.

With reference to my letter of the 24th June, I have now the honor to report to the Board on the case of Teroomala Numby Naig, Tahsildar of the Vedoogramum Talook at present under suspension.

2. Since I assumed charge of this District

District in November last year, I have had fre-
=quent occasion to be dissatisfied with the co
Tahsildar for neglect and carelessness in the co
manner in which he carried on his duties parti-
=cularly in the Police and Maramut Depart-
=ments. As regards the Maramut the Acting
Civil Engineer has this year repeatedly com-
=plained of the Tahsildars indolence: and co
as regards the Police the following examples co
will satisfy the Board. The Tahsildar twice co
recommended that false complaints preferred co
before himself as Head of Police should be co
punished by the Magistrate under Section XXXV
Regulation IX of 1816. and on another occasion
he recommended that an under renter who co
refused to renew his contract, should be
punished by the Magistrate, as if for a co
Criminal offence.

3. When recommendations such as these come from a man who was appointed Tahsildar more than 15 years ago, they can hardly be co supposed to emanate from ignorance, but in co fact to proceed from sheer carelessness.

The

4. The immediate cause of the Tah:
=sildars' suspension was as follows: In the
Month of January a charge of assault accom-
=panied by robbery with open violence was co
preferred to the Tahsildar, he enquired into and
disposed of the case as one of simple assault
releasing one Prisoner and fining 2 others 2 Rupees
each. The case came before me in appeal, and
on reviewing the proceedings, I quashed the sentence
of the Tahsildar fined him 5 Rupees for the ir-
=regular manner in which he had disposed of
the case and ordered him to reapprehend and
commit the parties for trial before the Criminal
Court.

5. The Tahsildars course was here a plain one, the proceedings had been reviewed by the Magistrate and the Tahsildar had only to conform to the orders of the Magistrate. co Instead of doing this, he wrote a long Diary introducing matter which had not appeared co in his original sentence, and the whole co scope and tendency of which, was to exc-
=culpate the Prisoners and a copy of this co Diary he sent up with the Prisoners to the Court.

Independent

6. Independent of this, the Tahsildar committed other irregularities in the examination he neglected to record a return to a summons carried by a peon who could give important evidence in the case, and he examined witnesses for the defence. The Principal Sudr Ameen who tried the case, committed it to the sessions Court. There the assessors who sat on the trial acquitted the Prisoners, but the Judge refused to coincide in their verdict stating that an assault was clearly proved against the prisoners, and the trial is now under reference to the Foujdaree Udalut.

7. No corruption has been made out against the Tahsildar regarding this case, and I attribute his original proceedings to his careless negligent habits and his subsequent proceedings in recording the Diary, he did, to an attempt to screen himself.

8. Besides the above the Moozoomdar of the Vedoogramum Taloob who has lately been dismissed for malversation, brought a number of accusations against the Tahsidar many

many of them of a very general nature I directed my Head Assistant to make a personal enquiry on the spot selecting particularly those charges which were specific, and susceptible of proof, I beg to forward Copies of my letter of instructions to my Head Assistant and of his report in the charge regarding a note produced by the Moozoomdar, which he stated was sent to him by the Tahsildar, and which the Tahsildar accused the Moozoomdar of fabricating. Mr. Swinton is of opinion that as much suspicion attaches to the Moozoomdar as to the Tahsildar whom he accused and in this opinion I fully concur. The note in question purported to be an order from the Tahsildar to the Moozoomdar to withhold certain notices to be issued to revenue defaulters, the Tahsildars assertion being that the Moozoomdar had torn off a portion of one of those notices bearing the Tahsildars signature at the foot of it and fabricated thereon the order in question.

9. In the opinion expressed in the concluding

concluding para of Mr. Swintons report as regarding the Tahsildars general unfitness for the Office he holds I fully concur-

10. Teroomala Rumby Naig was originally appointed Tahsildar by my Predecessor Mr. Bird when Sub Collector of this District and the same Gentleman in July 1840 recommended his removal from Office on account of his "unconquerable indolence." The Collector of the District Mr. E: P: Thompson supported the recommendation stating Teroomala Rumby Naig "had become perfectly useless "as the head of a Talook" and the Tahsildar was removed under sanction of the Board in July 1840, to be employed in some inferior appointment-

11. He was subsequently employed as Peshcar, Sea Custom Chowkydar and as Stamp Darogah, and was again entrusted with charge of a Talook, and in July 1852 Mr. Bird recommended and the Board sanctioned his suspension for 3 months

months, for gross carelessness and neglect in the Maramut of his Talook-

12- I beg to record my opinion that Teroomala Rumby Naig is an unfit man to be longer entrusted with the Office of Tahsildar. He himself would seem to be aware of this for a few days since, he wrote and requested me to appoint him to the Office of Salt Sawabnevis, at present vacant, on a pay of 17½ Rupees a Month, I beg to recommend the removal of Teroomala Rumby Naig from the situation of Tahsildar on the ground of general unfitness, and as no corruption has been proved against him I propose with the Board's sanction to take the first opportunity, of employing him in some inferior appointment-

Encls: No. 1

To, The Head Assistant Collector of Tinnevely.

Sir, I forward to you with this letter a

a petition of complaint preferred by Letchoomana Iyer late Moozoomdar of the Vedoogramum &c Taloob against the Tahsildar together with the Tahsildars' reply to the same, and the papers that accompanied each according to the Tamil list also herewith forwarded &c I send also an abstract in English of the different charges made by the late Moozoomdar against the Tahsildar.

2. These charges you will see are of a very general nature as regards the Statement of the Tahsildar with holding certain notices, and writing a note to the Moozoomdar on the subject the Tahsildar replies that the Moozoomdar had torn off the bottom of one of those notices bearing the Tahsildars' signature, and that he the Moozoomdar had forged the note, on the back of the paper. I request your particular attention to this paper which is forwarded with the other documents.

3. The other principal points calling for

for notice are the Statements that the Tahsildar transacts business in his private house, used forced labor purchased land without previous permission, and holds it without paying revenue. There are other allegations of neglect in the transaction of general business, such as not signing the periodical accounts received from the Villages &c.

4. I request that after you have finished the Summahbundy at Sauttoor you will have the goodness to proceed with your Cutcherry to Vedoogramum and make a personal enquiry on the spot, reporting to me the result of the same with your opinion on the whole. The Moozoomdar has lately been dismissed from the public service, for abusing the trust reposed in him in inspecting certain Crops in both the Vedoogramum and Shunkerninarcoil Taloobs, he having reported as Cultivation raised subsequent to 1st January of this year, and consequently only subject to 1/4 tax Cultivation

Cultivation made last year, and which ought to have been charged with full taxation. There is much bad feeling between the late Moozoomdar and the Tahsildar of Vedaranniam, but in the cases on which the Moozoomdar was dismissed, there was the independent testimony of the Moozoomdar of Nelliembalum, and the Tahsildar of Shunkarnenarcovil.

5. Besides the heavy Press of business entailed on me at this season of the year by the annual Settlement Government have recently called on me for different reports on important subjects, the preparation of which involves much labour and which cannot be delayed, and I must therefore request you to have the goodness to assist me, by enquiring into and disposing of this case.

Sir,
I have the honor to forward the depositions and Memorandums taken when I was at Moorapparandy

A.L.

P.G.B.

II As to the Tahsildar having forced pullar coolies to labor in his garden, I was not able to get hold of any of the Coolies whom the Moozoomdar states cried out before the Cutcherry, but I have examined several who worked and they all state that they got pay and were not illtreated, some of them whom I procured without previous notice state that the pay they received was very low, only three doodies for a days work - I judge from the fact that the work at the Tahsildar's garden was not carried on by one set of work men but by Public coolies taken by turns from the Villages worked for a day and sent off with what the Tahsildars man pleased, that the Tahsildar lay upon his Official position and so got the work done at a cheaper rate than another person could have got it done and that he was blameable as a Tahsildar.-

III The Tahsildar admits that he bought some land in the Cusbah, and though the larger part of it was formerly a backyard and not taxable until he turned it into a garden joining it with another

another small bit that was before a garden I suppose it is within the orders of the Revenue Board that the purchase should have been reported. The Tahsildar states that he bought it with the intention of building a house upon it, and this may have been his intention, no tax / in amount two annas / for the little bit that was a garden was collected for last fusly, and none had been collected this Fusly either upon it or the newly converted backyard. the Tahsildar had a puttah made out and, the Accountant stated that he was going to collect the tax upon the whole at the end of the Fusly, here there is suspicion of an intention to get the whole of the land left untaxed, as a backyard but I cannot pronounce confidently, but certainly the Tahsildar instead of being more careful to have his dealings the more regular on account of his position was in fault in allowing the payment of the tax to lie over

IV As to the Chit said to have passed between the Tahsildar and Moozoomdar this is as much against the Moozoomdar whom the Tahsildar accuses of fabricating it. I could not

not get a scrap of evidence as to the hand writing or as to the person who handed it to the Moozoomdar; the line upon the signed side has plainly been written after the signature, the hand writing was either disguised / for it does not seem either the slow and common hand writing of an only clie writer or the natural hand of a man or boy / by the Tahsildar or by the Moozoomdar, I cannot suppose, had the Tahsildar sent a Chit in a disguised hand that he would have signed his name to it in full it does bear the appearance of having been written in a scrap of paper with the Tahsildars signature ready made as it is, the Chit is a noticeable one and the Moozoomdar carefully kept it, and I think would have noticed who handed it to him but perhaps he may have ascertained the messenger would only contradict him. The Moozoomdar has produced upon being suddenly asked 3 other Chits two of which the Tahsildar admits, denying the third, the third is just the sort of note that might be expected to pass between the two on an ordinary matter and upon the supposition

Fort St. George 2d. August 1856

supposition that the Tahsildar wrote it there is no motive for a disguised hand being used, the hand writing does not appear feigned but the writing of a man accustomed to the iron pen and if so it would have been written by any body ordinarily about the Tahsildar but no body that I have asked can hazard a guess by whom the Tahsildar denies the Chit in toto I cannot pronounce confidently either way regarding the Chit it has come out in inquiring about this Chit that the Tahsildar has been negligent in not using what he called strictness in collecting the Revenue, but in issuing ordinary notices to the many defaulters.-

V From what the Talook Daffadar said though to listen to him at the time he seemed to be watching for some expression of feeling on my part to guide him, I conclude that the Tahsildar was slack in his attendance at the Cutchery the two talook Sepoys say that the Tahsildar was very regular but I dont believe them.

VI It is my opinion founded upon observation of Seroomala Numby Naig when he was Tahsildar of Ottapedarum strengthened by

Fort St. George 2d. August 1856

by what I know the late Collector and Engineer thought of him that he is an unfit person to a Tahsildar, that he was put into a good berth when young and has never learned his business but is in the hands of his servants, he might do good in some such Offices that of Stamp Darogah, or Post Office writer where the duties are within a small compass and mechanical and where neglect would immediately be brought to notice.-

sentence of the Foujdaree Adalut in the case therein specially alluded to, received by me this morning from the Sessions Judge, both the Prisoners have been acquitted but still upon general grounds I think it advisable that Seroomala Numby Naig should be placed in some other less responsible post than that of a Tahsildar.

63-65

The case of robbery, in the original examination of which Seroomala Numby Naick, Tahsildar of Vedoogeamum Talook was suspected of partiality having been finally dismissed by the Foujdaree Adalut, the Board of Revenue deem it unnecessary to enter into that question.

2 The charges brought against this Tahsildar by the dismissed Moozoomdar of this Talook seem also to require no notice.

3 But as Seroomalanumby Naick is shewn to be incapable of performing the duties of a Tahsildar, and the Collector thinks him unfit to be entrusted with a Talook, the Board authorize his reduction to a lower appointment

Bd. No. 2777. From the Collector of North Arcot — With reference to para 15 Extract Minutes Consultation dated 15 Instant explains further reasons why the Summalandy could not have been commenced much earlier. submits for favorable consideration the discontinuance of the portion of Azmaishing all the Villages of a Talook & in substitution of it the selection of some 50 or more Villages only of each Talook for Azmaish —

Sir I have the honor with reference to the disapprobation expressed by Government in para 15 Extract Minutes of Consultation No. 731 dated 15 Instant at my postponement of the annual settlement to so late a date in order to introduce the new rates in the settlement of Fusly 1265. to state for the information of the Board of Revenue and of Government that the reason adverted to was not the sole cause of the postponement but that owing to the late periods at which the Azmaish or examination of the cultivation by the Talook Servants was concluded, the settlement could not have been commenced much earlier.

2 The accompanying statement shows the progress of the Azmaishment in the several Talooks of my Division up to the dates mentioned in columns 4 It will be observed that in only two

talooks

Fort St George 2d August 1856.

talook's was the Aymaish reported as concluded in one on the 30 Ultimo, and in the other on the 14 Instant. In the Palmanair Talook, there remained unexamined on the 12 Instant no less than 73 Villages.

It may be objected that the knowledge that a late settlement was in contemplation with a view of introducing the new rates, may have operated in inducing the talook servants to carry on this examination with less energy. But in answer to this objection I would beg to observe that I have not ceased from the commencement of the Aymaish in January last, by repeated orders, and the infliction of fines, to urge on its speedy conclusion, and there was in this respect no reason permitted for supposing that any delay would occur in the settlement.

With regard particularly to the Palmanair talook, in which so many Villages remained unexamined as late as the 12 Instant, I fined

Fort St George 2 August 1856.

fined the Shirastadar in charge once, and the Tahsildar no less than four times for delay in the progress of the examination besides sending repeated orders to accelerate the work. The circular order directing the commencement of the Aymaish was issued in November 1855, and many of the fines were inflicted for delay in commencing the Aymaish, which as shown in the Statement was not in some talooks begun till March and April.

3 As it appears to me of great importance that a rule which causes so much delay, and which is so inoperative in detecting concealed cultivation as is the requisition that the Cultivation of all the Villages in every talook should be reexamined by the Talook servants, I beg earnestly to submit for the favorable consideration of the Board, the suggestion that the practice should be discontinued and that in substitution of

it

Fort St George 2d August 1856.

it the Collector should be permitted to select some 50 or more villages only of each Taluk for Aymaish or examination.

4 Mr Bomedillon, when Subcollector of this District in his Summahlundy report for July 1248 dated 6 September 1839 in the 22d 23d and 24th paras thus alludes to this practice:—

"22 I beg to offer a few remarks regarding a part of the Summahlundy practice in use here. As a preliminary to it the village officers prepare and send to the Tahsildars as in other districts professedly accurate accounts of the extent and other particulars of the cultivation, which are called the Adungal accounts and in addition to this ordinary examination the lands of every Village are subjected in this District to a Second inspection by the Taluk Servants. This practice has been in use here not many years and was introduced, I believe by the late Principal Collector Mr

Fort St George 2d August 1856.

"Mr Roberts it was intended of course "to ensure a greater degree of accuracy "in the accounts, but I will propose a "few considerations which lead me "to doubt whether that object is there- "by attained."

23 "Unless an examination of "land is particular and exact I think "it cannot be expected to be useful "as a check to fraud. The number of "Taluk Servants is so small and "their common routine duties which even "at ordinary times leave them extremely "little leisure, so heavy that it is not "possible for them to give much time "to this extra work. The consequence "is that the inspection is slurred "over, and is little more than nominal- "Nothing else indeed could be expected "when there are not more than ten "persons at the utmost and leaving "all other business at a stand still "to examine from 150 to 250 Villages. "and that in reality it is so is proved "by the fact that the number of cases "of fraud detected by the Taluk Servants

"servants at this Aymaish is so small
"compared with those brought to light
"subsequently by complaints, although
"operations of the former comprehend
"every Village and every field, while
"the latter are only preferred in those
"few cases in which interest or malice
"induce some one of the parties cognizant
"to come forward with information.—

24 My wish therefore is to
"suggest the inquiry whether it would
"not better ensure the object in view to
"abandon the system of universal but
"superficial examination and adopt
"that of the thorough inspection of a few
"villages only. In the villages actually
"selected for scrutiny the security would
"obviously be greater, there would also
"be the additional guarantee for the
"integrity of the examining officer &
"that in case of fraud subsequently
"observed he might more justly be
"held responsible where ample &
"time for accuracy was allowed
"him, than when circumstances &
"compelled

"compelled him to be hasty. As
"for the other Villages the apprehension
"that his own might be among those
"selected for examination, would
"operate as a check on every Curnum.
"Forty or fifty villages might be examined
"with exactness in less time than is now
"occupied by the present loose review
"of the whole, and there could be no
"collusion where the Villages to be
"examined were chosen by the Collector
"himself, during the progress of the
"settlement of the Talook. Something
"similar to this, I believe is the practice
"of South Arcot and probably of other
"Districts also; and I would solicit
"the judgment of those more experienced
"than myself whether it might not be
"advantageously substituted for
"the system in use here."—

5 I would however with refer-
ence to the observation in para 24,
that the proposed 50 Villages to
be examined, instead of the whole
should be chosen during the
progress

Fort St. George 2d August 1836.

progress of the settlement beg to state that this course would defeat one of the objects of the proposed substitution viz the acceleration of the settlement and that it would be preferable that the selection should be made by the Collector immediately after the close of the Cultivation in December

6 In further illustration of the remark in para 23 of Mr. Bourdillons report "that the numbers of cases of fraud "detected by the Salook Servants at the "the azmaish is small, compared with "those subsequently brought to light "by complaints" I annex a statement of the extent of concealed cultivation discovered in fusly 1259 in the Salooks of Pennary and Cauvery pauk by special examination after the usual azmaish had been made by the officers named in the statement.

It will be observed that in one instance the extent of concealed cultivation discovered amounted to 134 per Cent of the cultivation entered in the azmaish amount.

The

Fort St. George 2d August 1836

The discrepancy between the Statement here given and that submitted by Mr Bourdillon in his letter to the Board of Revenue No. 70. 10 June 1830. is to be explained by the fact that the Statement of Peiz given by Mr Bourdillon includes the remissions subsequently granted which reduced the amount from Rs 1,646—15—6 to Rs 481. 13 7.

7 In reply to the suggestion of Mr Bourdillon in respect to the Azmaish as quoted in para 4 of this letter the Board of Revenue in para 22 of their Proceedings dated 18th May 1840 stated that "before "offering any opinion upon the subject "discussed and the suggestions made by "the Sub Collector they deemed to have "the sentiments of the Principal Collectors "thereon."

8 The Collector Mr. Ogilvie in his report on the settlement of the subsequent fusly viz 1249. states in reference to the subject of the azmaish that such as it is, it is better than none. but Mr. Bourdillons suggestion was not that the examination, although confessedly inoperative in detecting fraud, should be entirely dispensed with, but that a thorough examination of a part

should

Fort St George 2d August 1856

Should be substituted for a superficial examination of the whole, Mr Ogilvie does not appear to have based his recommendation for the continuance of the practice on any other grounds than that of its having been 10 years in existence.

In the concluding part of the para quoted he recommends the trial in the Sub Division of the plan suggested by Mr Bourdillon.

9 The Board in their Proceedings of the 28th July 1841 para 18 observe that the suggestion of the Sub Collector to abolish the Azmaish examination in the Villages generally and to select only the accounts of a few villages for scrutiny is obviously objectionable because the accuracy of the accounts of one Village can afford no test for the correctness of those in another.

In Extract Minutes of Consultation No 1414. 15 November 1841 Government expressed their concurrence in the view taken by the Board on this subject.

10 I would however beg with reference to the remarks of the Board above quoted, to observe that it appears to be assumed that the

Fort St George 2 August 1856.

Azmaish as now conducted, will ensure the accuracy of the accounts of the whole or the greater part of the villages of a Taluk, whereas it is on the very ground of its inadequacy to that end that Mr Bourdillon suggested the substitution of a partial measurement, that could be more efficiently conducted and in such a manner as to tend to ensure the accuracy of the accounts of all the Villages by Keeping the Curnums in ignorance till their cultivation accounts had been closed, which villages were to be selected for Azmaish.

11 In conclusion, I would beg again earnestly to recommend Mr Bourdillon's suggestion to the favorable consideration of the Board, and would request them to submit to Government, whose censure I have incurred, the explanation contained in the first two paras of this letter.

In Cons: 2d. of Augt. 1856.

I have the honor with reference to my letter of the 21st. Instant to submit a Statement of the dates on which the Azmaish was concluded in the Talooks forming the Sub Division, and reported to the Sub Collector.

2. It will be observed that it was not finished in any talook till the 23d. Ultimo, and in one, was not concluded till the 15th. Instant.

3. If it should be considered that in spite of repeated orders to expedite the Azmaish and the infliction of fines for delaying it, the belief that the introduction of the new rates, would operate in delaying the Summahbundy, tended to retard the Azmaish, it cannot be supposed that any such reason had in the Southern Talooks any effect in delaying the azmaish as it was well

13963 Fort St. George 2d. August 1856.

well known that no intention existed of introducing the rates in these talooks at the present Settlement.

To, The Collector of
North Arcot.

Dy. No. 2450.
To the Collector of North Arcot.

In Cons: 2d. August 1856.

Sir,

I am directed by the Board of Revenue to acknowledge the receipt of your letter dated 21st. Instant, explaining that the postponement of the Summahbundy was occasioned not solely by your design to introduce the new rates in conducting

conducting it, but that the progress of the Aymaish was unusually slow notwithstanding your efforts to stimulate the Talook servants to greater activity-

2- Your letter proceeds to suggest a change in the practice which has hitherto prevailed in North Arcot of extending the examination to a large Village in the District, and you propose that in future it shall be confined to a limited number of Villages to be selected by the Collector at the commencement of the Cultivating season-

3- This plan obtains, the Board are aware in other Districts and although when the subject came under discussion in No. 41. The Board as then constituted were unwilling to permit the existing system to be altered, the present members are disposed to attach more weight to the objections urged against it in the then Sub Collector's letter-

Pro: 26th July Para 18.

4- Without a much larger Establishment it is impracticable to make an efficient Aymaish throughout the District and instead therefore of attempting more than can be satisfactorily

satisfactorily performed, the Board deem it advisable that a real and thorough examination should be made in a fixed number of Villages in each Talook to test the accuracy of the Curnums account. The annual selection of these Villages may be properly left to the discretion of the Collector. You will therefore henceforward exercise this discretion in determining what Villages shall be subjected to the Aymaish-

5- Adverting to your request that the explanation now afforded on the point which called forth the censure of Government may be submitted for their consideration, the Board direct me to observe that they have not thought it advisable to forward your letter, because they are not of opinion that what you have now stated regarding the delay in completing the Aymaish is calculated to place the matter in a

more

Fort St. George 2d August 1856.

more favorable light before Government.

6. They observe that the Aymaish is always conducted on the same Scale as in the present year, but is nevertheless closed at a much earlier period, whatever therefore may be the faults of the system there is no apparent cause why they should have occasioned greater delay and inconvenience this year that they have done hitherto.-

From the Collector
of Tinnevelly

Forwarding Translation of the Decree passed by the Principal Sudr Ameen of Tinnevelly in the original Suit No 5 of 1854 and of the appeal Petition filed by the Plaintiffs in the Civil Court and requesting to procure the Sanction of Government for defending the said appeal Suit at the Public Expense.

Sir.

With reference to my Predecessor's letter to you of 10th November 1854 and to the Proceedings of the Board of Revenue in reply dated the 9th December following, conveying the sanction of Government for defending at the Public expense Original Suit No 5 of 1854 on the file of the Principal Sudr Ameen's Court of this District- I have the honor to inform you that a Decree of that Court having been passed in favor of the Supplemental Defendant, the Plaintiffs have preferred an appeal therefrom to the Civil Court- and I request you will be good enough to procure the sanction of Government for defending this appeal Suit also at the public expense.

I beg to submit as my opinion that

Fort St George 2d August 1856

that an answer in the terms of that transmitted with my Predecessors letter of 10th November 1854 above alluded to, and filed in the original suit, will do very well for this appeal Petition also.

3 Translation of the Decree passed by the Principal Sudr Ameen in the Original Suit and of the Appeal Petition filed by the Plaintiffs in the Civil Court, are herewith forwarded for the information of the Board of Revenue.

4 The term for filing an answer will expire on the 13th Proximo.

It is set forth in the Paint that

Fort St George 2d August 1856

that the Village of Saindyrmungalum which belongs to the 2d Defendant was by him mortgaged to one Ramanatha Pundeyen in the month of June 1793 or 11th Anny of Aundoo 968 that the heirs of the latter remortgaged it on the 15th June 1819 or 3d Anvany of Aundoo 994, to one Pummal Soobraya Modeliar who enjoyed it accordingly that the 2d Defendant filed a suit in No 83 of 1818 of the Adawlats Registers Court praying for the recovery of the said Village on his paying the mortgage amount due thereon and decisions were passed in his favor both in the original and appeal suits that he the 2d Defendant in order that he may be able to pay the mortgage amount as per Decree and to defray the costs of the suits vizt mortgaged the Village in question on the 5th June 1824 to the 1st Plaintiff, and one Alagappa Modeliar ancestor of the Plaintiffs from No 4 for Rupees 1956-9-" for a period of 24 years and exceuted a bond to them and they were enjoying the same, that Pummal Soobroya Modeliar abovementioned then filed

Fort St George 2d August 1856

filed a suit against the 2d Defendant for the recovery of a separate debt due to him, and a precept was issued from the Madura Zillah Court stating that the said Village should be sold by auction, and out of the sale proceeds thereof the sum due to the Mortgagees should be paid to them and the remainder given to the said Soobroya Modeliar that the 2d Defendant for satisfying the amount of the Decree, and for other purposes borrowed from the Plaintiffs viz the Mortgagees Rupees 1168-5-" and executed to them an agreement on the 22d December 1824 and that he again on the 26th April 1835 when a Settlement of the pecuniary dealings between him and the 1st Plaintiff and others was made executed an agreement to them stating that he would repay the amount of Rs 1880 due by him, together with the other Mortgage amounts, that while the 1st Plaintiff and the other Viz: Alagappa Modeliar were thus enjoying the said Village under the right of Mortgage upto the year 1838 for the total amount of Rupees 5004-14-" due to them E. P. Thompson Esqr

a

a former Collector of the District in virtue of a decree passed in suit No. 17 of 1819 of the file of the late Udalut Court preferred against the 2nd Defendant by his cousin Vayeenda Mootoocoomara-sawmy Pundarum for a division of their family property deciding the whole of the property in dispute according to the terms of the answer put in by the 2nd Defendant to belong to Nelliappersawmy Pagoda cuttay declared the disputed villages &c to belong to the said Cuttay made over the same to a contractor in 1838, that the Plaintiffs &c had then represented the circumstances to the Board of Revenue who passed an Endorsement on the 17th March 1842 directing the Plaintiffs to report the circumstances to the Collector, who referred them to the Civil Court, and the Plaintiffs request that Rupees 9995 inclusive of Principal and Interest due on the Mortgage Deeds, and the interest which accrued, subsequently may

may be recovered from the 1st Defendant under whose control the Village and its emoluments are, and from the 2nd Defendant.-

2. In the answer filed by the 1st Defendant he has stated that the Decrees in Suits Nos 17 of 1819 and 2 of 1822 declare the disputed Village to belong to the Nelliappen Pagoda and the 2nd Defendant to be a manager of the property that the circumstances of the Plaintiffs having been fraudulently enjoying the emoluments of the Village without giving them to the Pagoda conformably to the aforesaid Decrees, having in the year 1838 been brought to the notice of the then Collector Mr. E. P. Thompson by a Durkasdar, he made an enquiry into it, and it having been proved that the Village in question belonged to none but the Pagoda he ordered to be taken under circar management that the 1st Defendant has no further concerned in the Suit than by supporting the claim of the said Pagoda to property in the Village and that he is prepared to prove by the aforesaid Decrees and by other documents that the claim of the Plaintiffs was rejected

3. In the Answer of the 2nd Defendant he

a former Collector of the District in virtue of a decree passed in Suit No. 17 of 1819 of the file of the late Adalut Court preferred against the 2nd Defendant by his cousin Vayeenda Mootoocoomara-sawmy Pundarum for a division of their family property deciding the whole of the property in dispute according to the terms of the answer put in by the 2nd Defendant to belong to Velliappersawmy Pagoda cuttay declared the disputed villages &c to belong to the said cuttay made over the same to a contractor in 1838, that the Plaintiffs &c had then represented the circumstances to the Board of Revenue who passed an Endorsement on the 17th March 1842 directing the Plaintiffs to report the circumstances to the Collector, who referred them to the Civil Court, and the Plaintiffs request that Rupees 9995 inclusive of Principal and Interest due on the Mortgage Deeds and the interest which accrued subsequently may

may be recovered from the 1st Defendant under whose control the Village and its emoluments are, and from the 2d Defendant.-

2. In the answer filed by the 1st Defendant he has stated that the Decrees in Suits Nos 17 of 1819 and 2 of 1822 declare the disputed Village to belong to the Velliapper Pagoda and the 2d Defendant to be a manager of the property that the circumstances of the Plaintiffs having been fraudulently enjoying the emoluments of the Village without giving them to the Pagoda formally to the aforesaid Decrees, having in the year 1838 been brought to the notice of the then Collector Mr E. P. Thompson by a Durkasdar, he made an enquiry into it, and it having been proved that the Village in question belonged to none, but the Pagoda he ordered to be taken under circar management that the 1st Defendant is no further concerned in the Suit than by supporting the claim of the said Pagoda to property in the Village and that he is prepared to prove by the aforesaid Decrees and by other documents that the claim of the Plaintiffs was rejected

3. In the Answer of the 2d Defendant he

he has stated that the village in question and certain other Villages were endowed by his ancestors as a Cuttalay to the Nelliappier Pagoda, and from that time the Office of Manager has being held in his family, that as the Village had fallen under some arrears in consequence of the emoluments of the same not having been sufficient to cover the expences of the Cuttalay and to meet the circar demand, it was mortgaged to one Ramanatha Pundeajee and others and as this circumstance led to the institution of certain Suits, he, to defray the costs of the same, mortgaged 62 and odd Seed Cottahs to the Plaintiffs Vcja and executed the Document No 1 mentioned in the Plaint, that the remaining 7 Cottahs of the land were rented; that the two other Documents mentioned in the Plaint were not executed by him, that the claim brought forward by the Plaintiffs contrary to the decrees which declare the Village to belong to Pagoda, should be rejected, that of Rupees 7,994-8 being the income of the Village in question for

for 13 years during which the Plaintiffs had been in possession of it, the mortgage amount and the interest thereon amounting to Rupees 2,913-2-- being deducted, the remainder and the paddy Vcja due on account of the rent should be recovered from the Plaintiffs and the surplus of Swamy Chogum from the 1st to Defendant in favor of the Cuttalay.-

4. In the answer given by the Supplemental Defendant, it is stated that in Rumaloo 735 Vissvanada Naicker who was the Carnatic Ruler of this Country granted to Soobramaneya Buttasary the ancestor of the said Defendant, Sainthemungalum Vcja 12 Villages in endowment for the performance of the evening Abeeshaga cuttalay, and other charities in the Nelliapper Pagoda and executed a copper deed to him stating that the said charities were to be conducted by himself and by his Descendants, that 80 years ago his supplemental Defendants grandfather nominated the father of the 2nd Defendant to

to transact the affairs of 10, of the above &
Villages and to perform the charities in the
said Pagoda, that the 2d Defendant
having without conducting the charities &
properly, fraudulently made over to
others some of the Villages on mortgage
Vide he/the Supplemental Defendant b/s &
brought the same to the notice of
the Circar and the 2d Defendant
was consequently removed
in 1838 from the &
management

management of the aforesaid Villages, that the
circumstances of the abovementioned Villages &
belonging exclusively to the Cuttalay and of
the 2d Defendant having no title whatever
to them is mentioned in the Court Decrees
and in several Documents emanated from
the Revenue authorities and that this cir-
cumstance is also mentioned in the Moochilka
given by some of the Plaintiffs and in the
Deposition given by the 3d Defendants father,
that since the removal of the 2d Defendant he/
the supplemental Defendant/continues to &
perform the charities by means of money &
borrowed, that he the supplemental Defendant
on making an application requesting to be permitted
to conduct the charities in future and to be put
in possession of the incomes of the Villages which
are under the control of the 1st Defendant was
ordered by the Circar to come in conjunction with
the 3d Defendant and that on his frequenting
the 2d Defendant for this purpose, he executed
an

an agreement to him on the 21st January 1849, stating that he would present a Petition requesting the aforesaid money to be given to him/ the supplemental Defendant/ and mentioning the circumstances of the supplemental Defendant having the right of conducting the above charity and of his/ 2d Defendants/ having been only a manager of it. It is also stated in the above answer that the Plaintiffs claim is not a valid one being contrary to the Decrees of the Courts, that even if the Plaintiffs claim for debts were to be admitted they/ Plaintiffs/ should not be decreed to be put in possession of the disputed Village or of its emoluments in deposit and that the/ supplemental Defendant/ should not be deprived of his right.—

5 The Plaintiffs in their reply state that the fact of their not having fraudulently enjoyed the income of the Village under litigation, will be known by the

Puttahs granted to them by the Circar, that they are entitled only to 62 Seed Cottahs 18 Mercals and 1 Measure of land under the right of mortgage that they have not derived as much income from the Village as is stated in the answer of the 2d Defendant— that the objection taken by him/ the 2d Defendant/ to the 2 subsequent Documents is worthless, and that the supplemental Defendant has no right whatever to the Village in question.—

6. Rejoinders have been filed by the Defendants and the supplemental Defendant objecting to the reply given by the Plaintiffs.—

Decree -

18 The following decree has been passed on a careful Consideration of all the Proceedings Connected with this action and of the Circumstances mentioned by both parties during the Hearing -

19 Whether the 2d Defendant had a right to mortgage the Village of Sainthi: = mungalum alleged to have been mort: = gaged by him and whether he was at liberty to dispose of the Village as he wished are points to be Chiefly Considered the other points Connected with this Suit which are of an ordinary nature require a Secondary Consideration -

From

20 From the Documents No. 95 filed by the 1st Defendant and No filed by the Supplemental Defend: = ant it appears that the 2d Defend: = ant was superintending the affairs of Abeesheka Cuttalay in the Nelli: = appar Pagoda and that the Villages alleged to have been mortgaged and others were allotted to the Pagoda for the performance of the said Abeesha: = ga Cuttalay. The 2d Defendant himself has not only admitted in the said Suit that the aforesaid Villages were an endowment to the Pagoda and not his own property but it certainly appears from the Deposition No 105 given by the 3d Plaintiffs father who was examined as a witness in the said Suit that the Plaintiffs could not have been unaware of the afore: = said Circumstance -

21 From the documents No 93 and 94 it appears that the disputed and other Villages have been decided by

by the Board of Revenue and the Col:
:lector to belong to the Pagoda.

22 From the deed of gift No 32
filed by the supplemental Department
it appears that Sain Thenung alum Veea
12 Villages were in Mundoo 735 granted
to Soobramanea Buttasary ancestor
of the said Defendant by the then
Ruler Viswanada Naicker in the
form of a gift that is by pour:

and Caunthy mathy Ammen's Pagodas.

23 The Public Documents Nos 99. 101. 102
and 103 clearly shew that the aforesaid charities
were being performed by the descendants of the
said Soobramanea Butter that the grandfather
of the Supplemental Defendant employed the 2d
Defendants father on monthly pay that he accord:
:ingly had been attending to the duties of the
said Villages on receiving his pay. that the 2d Defend:
:ant succeeded him on his death that they have
been giving accounts to the circar and to the
owners of the cuttalay Viz.t the ancestors of the
Supplemental Defendant and after them to
the Supplemental Defendant and that the
net income was in the enjoyment of the Supple
mental Defendant Veea

24 The Document No 20 is an agreement
executed by the 2d Defendant to the Supplemental
Defendant declining to attend to the affairs
of the Cuttalay. This document has been fully
established by the evidence of the witnesses
examined on the part of the Supplemental Defendant
It also appears from the document No 82 that the
2d Defendant admitted the truth of the aforesaid
document

document before the Talook authorities.—

25. From the remaining public documents Nos. 81, 82, 83, 84 and 85 it clearly appears that the Supplemental Defendant is the heir of Soobramanea Butter who obtained the cuttalay in gift. that the cuttalay was being performed by persons descended from him and that it is now conducted by the Supplemental Defendant. These circumstances are also proved by the evidence of the witnesses examined on the part of the said Defendant.—

26. The foregoing circumstances shew that the Supplemental Defendant is the heir of the person who obtained the Villages of Sainthymungalum &ca in gift for the performance of the cuttalay to the Pagoda and this right of the Supplemental Defendant has also been recognized by the circar.—

27th Under the foregoing circumstances the 2d Defendant appears to be in the position of a stranger unconnected with the suit in question and consequently he and the Plaintiffs had no right, the one to mortgage the Village of Sainthymungalum and the other to receive it from him.—

Now

28. Now the subject of the Plaintiffs having obtained the Village on mortgage &ca require consideration.—

29. after it had been decided in the original and appeal Suits Nos 19 and 2 of 1819 and 1822 respectively that the aforesaid Village being attached to the cuttalay of the Pagoda is not the property of the 2d Defendant the Plaintiff says that he had obtained the Village on mortgage on the 2d December 1824 and in consequence of that mortgage he had twice afterwards paid money to the 2d Defendant.—

30. While the 3d Plaintiffs father who was examined as a witness in the suit had admitted in his deposition that the said Villages belonged to the cuttalay of the Pagoda, the Plaintiffs could not have been ignorant of the fact of the 2d Defendant not being an owner of the property in question.—

31. While the cause was under hearing the Plaintiffs Vakeel stated as an extenuating circumstance, that the Plaintiffs in receiving the Village on mortgage followed the example of Ramanatha Pummul Leajee and Pummul Soobraya Moodr. but as the mortgage was obtained by the Plaintiffs after the passing of the Decrees in Suits Nos 19 and 2 abovementioned the

the plea advanced by the Vakeel cannot support the conduct of the Plaintiffs in obtaining the mortgage

32. On considering the documents Nos. 35. 36. 37 56. 57 and 104 which the Plaintiffs filed to prove their right of mortgage, they only tend to shew the circumstance of the Village having been obtained by the Plaintiffs on mortgage and of its having been formerly mortgaged to some others, as also the circumstance of its having been enjoyed by the Plaintiffs from the time they obtained it on mortgage to that when the Villages were taken under circar management by the collector in consequence of a Petition presented by the Supplemental Defendant and are not at all sufficient to establish the right of the 2d Defendant to the Village inquestion for the Decree passed with reference to the matter at issue between the 2d Defendant and the Pundeajee &ca who had taken the Village on mortgage through ignorance cannot affect the right of the Supplemental Defendant and the charity attached to the Cuttalay of the Pagoda.

33. The Supplemental Defendant had neither any necessity nor room to interfere in the said suit and his non interference would be of no avail to the claim of the Plaintiffs.

34. As it has been proved by the evidence of the witnesses that the Supplemental Defendant is conducting

conducting the charity of the cuttalay by contracting debts he has the right of receiving charge of the aforesaid Villages and of their emoluments.—

35 When the Supplemental Defendant had come to the knowledge of the 2d Defendant making misuse of the Village &ca he immediately brought the same to the notice of the circar.—

36. The circar after ascertaining the truth by enquiry kept the Villages under its management.—

37 When the Plaintiffs preferred their claim to the Village inquestion the circar justly ordered them to have recourse to the Civil Court.

38 The Plaintiffs have stated in their Plaint that the Village inquestion is the ancestral property of the 2d Defendants but they have entirely failed to prove the point which is material to their claim, given them regarding it The Witnesses on the part of the Plaintiffs state the circumstance of the Village inquestion having been enjoyed by the 2d Defendant and of its having been mortgaged to Pundeajee and also relate other circumstances as the 2d Defendants father and after him the 2d Defendant were employed as paid servants in superintending the affairs of the cuttalay the

Fort St. George 2d August 1856.

the 2d Defendant was transacting the business of the disputed Village and his having done so cannot establish his claims.—

39. The 2d Defendant having enjoyed the Village in question is not denied by the Supplemental Defendant.—

40. The Villages in question were taken under Circar management immediately after it was known that the 2d Defendant had abused his trust and this course has nullified the right of enjoyment of the 2d Defendant.—

41. From the Official documents filed by the Supplemental Defendant it appears that Dalavoy A. Teroomalayappa Moodr. Trustee of the Pagoda has fully admitted the right of the said Defendant to the Cuttalay while so the object of the Trustee in presenting by Vakeel the Petition N°79. is that as a Trustee he should have under his charge and control the cuttalay inquestion.

42. This point has been considered and while the Supplemental Defendant who is the descendant of Soobramoneya Butter who obtained the Villages in question from the hands of the former rulers in the form of a gift with water poured into his hands and his heirs are alive how can the Petitioner to whom management of the Pagoda has been entrusted by.—

L. R.

by the Circar have a right to the Cuttalay in question.— He is only entitled to exercise the power vested in him by the Circar at the time of his appointment as Trustee and he appears to be in no way concerned in this suit which involves the dispute about right to enjoy the disputed villages and their emoluments.—

43. Consequently it is not necessary to pass any order upon the Petition above referred to.—

44 The 2d Defendant in his answer admits the truth of only one Deed, and states that the amount thereof has been recovered by the Plaintiffs and at the same time adds certain circumstances relating to his own right but he has entirely failed to establish the statement contained in his answer.

45 The 3 Deeds filed by the Plaintiffs have been proved by the evidence of their witnesses.—

46 From the foregoing circumstances it

it appears clearly, evidently, and satisfac-
-torily that the disputed and other
Villages were granted as a gift by the
former Rajahs to Soobramanea Butler,
an ancestor of the supplemental De-
-fendant for the performance of evening
Aheeshaga Cuttalay in Nellia Upper Pagoda,
that the descendants of the said Butler
enjoying them hereditarily were perform-
-ing the Cuttalay in question that the
supplemental Defendant is performing
the Cuttalay by borrowing money; that
the 2d Defendants father, and after
him the 2d Defendant were employed
by them as paid servants: that the
2d Defendant had no right to sell
or mortgage the villages, which were
granted to an ancestor of the sup-
-plemental Defendant; and that
the supplemental Defendant is the
rightful owner of the said Villages
and their emoluments Consequently
it has been decided, that
the Plaintiffs right of mortgage
is of no value and that their
having obtained the villages
in question on mortgage was
done

done through ignorance and the 2d De-
-fendant is adjudged to pay the
Plaintiffs the amount of their Plaint
Viz^t Rupees 9995 - - - and the costs
incurred by them and it is declared
that the said villages and their
emoluments cannot be held answer-
-able for the payment of the said
amount - The Plaintiffs are adjudg-
-ed to pay the cost incurred by
the 1st and supplemental Defendants
and the 2d Defendants to bear his costs
himself.

No. 2

Translation of a Detailed appeal Petition addressed to the Civil Court of Tinnevelly by Nellinayagum Pillay Vakeel in behalf of the Appellants in Appeal Suit No. 87 of 1856.

There is no necessity to speak of the document marked No. 95 Document No. 40 has been fabricated by the 3d Respondent. A reference to it will shew that there was no occasion for its execution. Had it been a genuine one, it would have been passed on a Stamp paper and duly registered. Document No. 105 is not relevant to the matter at issue; nor has it been given by the co father of the 3d Plaintiff. Whilst this suit has for its object that the 1st Defendant should be made answerable for the co debt in question the lower Court dwelling in para 20 of the Decree on the aforesaid 3 Documents which are irrelevant to the co case, is improper.

2 Documents No. 93 and 94 are not at all connected with this suit and para 21 of the Decree which makes mention of them is worthless.

3 Document No. 132 is a fabrication by the 3d Respondent. The Village of Veppandarputty referred to in this Document is stated in the

the Estimate as forming part of the Chockom-
-putty Zemindary. The fact proves the falsity
of the Document No. 132 in question. While
as, para 22 of the Decree, which makes
mention of this document, and of the 3d
(supplemental) Defendant, is incorrect.-

4 The accounts filed in Nos. 99-101
and 103 are documents now fabricated by
the supplemental Defendant. Had the as
accounts been genuine, they would have
borne the signature of any of the Public
Servants. Erodappa Pillay the 5th Witness in
behalf of the supplemental Defendant,
when doing duty in the Huzzoor Record,
having falsified certain Olavgos accounts
in 1832, the Collector passed an Order
stating that neither he nor his sons should
enter the Huzzoor record room. afterwards he
(the 5 Witness in question) who is since doing
duty in the Salook Entcheavy, and the supple-
-mental Defendant colluded together,
fabricated the 3 accounts in question, and
deposited them among the Records as
Consequently these accounts are by
no means genuine. Of these accounts, that
marked

marked No. 99 is dated Vyasy of aundoo 964.
and alleged to have been given under the
signature of Salleewateeswara Pandarum
father of the 2d Defendant. Whereas in as
fact, the Salleewateeswara Pandarum in
question had died 9 months before the alleged
transaction or in the Month of Poorataisy of
Aundoo 964. This circumstance is mentioned
in para 7 of the Plaint in Suit No. 19 of 1807.
on the file of the late Adalut Court. On as
referring to the authenticated copy of the
Plaint in question, which will be filed
in this Appeal Suit. it will be apparent
that the supplemental Defendant has
fabricated this account and forged to it
the signature of Salleewateeswara Pandarem
who had died before the transaction, lived
subsequently, and rendered the account
in question. while the Village of Veppandar-
-putty referred to in Document No. 101 forms
a part of the Chockomputty Estate, how
could its proceeds happen to be credited
in that account. Hence it proceeds that the
opinion expressed in para 23 of the as
Decree is of no value.-

5 That the witnesses deposing to
the truth of the Document No. 40 are false
witnesses the Depositions given by them
are trumped up, and that the Depanents
themselves

themselves are persons of a mean character will be apparent from the depositions themselves. Hence it would appear that the Document No. 40 is a fabricated one. Document No. 82 is also false, having been fabricated by the supplemental Defendant. There was no necessity for the execution of this Document. Had it been genuine, it would have formed part of any of the public records. In the event of the Document in question being a genuine one, and the supplemental Defendant entitled to superintend the performance of the Outlay, what necessity was there for the Circar to take the Villages under its own management. Document No. 82 does not appear to have been passed with reference to the orders of the Collector, or to any complaint preferred at the Sadr on the subject. Para 24 of the Decree is therefore incorrect.-

6 The documents Nos. 81 to 85 are irrelevant to the matter at issue. To speak of them in the Decree is therefore unjustifiable. They are also not ratified documents. Besides, Documents Nos. 83 and 84 are dated subsequent to that of the Original Plaint. Therefore para 26 of the Decree, which relates to it, is incorrect.-

7 The supplemental Defendant has <u>not hitherto</u> enjoyed either the

Village of Saindemungalum or any other Villages - and there was no necessity whatever either for connecting the supplemental Defendant with this suit, or for hearing what he had to say. Para 26 of the Decree is therefore not right.-

8 From Documents Nos. 35. 36 and 75. it will be obvious that the 2d Defendant was under the necessity of mortgaging the Village of Saindemungalum referred to in the Plaint. While these documents are judicial ones, the statement in Para 27 of the Decree that the 2d Defendant had no right to mortgage the Village does not hold good.-

9 The Document No. 37 was executed on account of the Mortgage amount due on the Village referred to in the Plaint before the date of the Decree in Suit No. 19 and on account of the debt incurred by the 2d Defendant to defray the charges of that suit. The Decree referred to in para 24 of the Decree cannot therefore absolve the Village mentioned in Document No. 37 from the responsibility of answering for the amount of that Voucher. The circumstance of the 2d Defendant having mortgaged the Villages on account of arrears of revenue, is stated in para 9 of the Decree in Suit No. 19. For these reasons para 24 of the Decree is incorrect.-

The

Fort St. George 2d August 1836.

10 The Deposition referred to in para 30 of the Decree cannot invalidate the documents executed by the 2d Defendant in order to satisfy the Decree of a Court, to repay the original amount of a Mortgage, and to defray the charges of a suit against the Village. The Deposition in question was not given by the father of the 3d Defendant. Therefore para 30 of the Decree is incorrect.-

11 While the documents executed subsequent to the dates of the Decrees referred to in para 31 of the Decree under appeal, have been for, and on account of, the amount of Mortgage of a date anterior to the dates of the above Decrees, and of the same form and tenor as that mortgage deed, and the Mortgagees authorized to enjoy the Mortgaged Villages, how could it be said that the Plaintiffs have been excluded from the right of former mortgage. Therefore para 31 of the Decree in question, which alludes to this point

Fort St. George 2d August 1836

point, is incorrect.

12 The opinion expressed in para 32 of the Decree in favor of the Supplemental Defendant which is contrary to Judicial practice, is not right.-

13 If the supplemental Defendant was entitled to the property at issue would he have remained quiet without advancing his claim, and denying their right, when the 2d Defendant and his cousins were prosecuting a suit both in Original and appeal for division, between themselves, of the property to which the Supplemental Defendant now lays a claim- Therefore, the argument advanced in para 33 of the Decree does not at all hold good.

14 Para 34 of the Decree, which entitles the Supplemental Defendant, who has not paid stamp duties in a claiming restoration of the property, and who admits that neither he nor his ancestors ever enjoyed even a small piece of land of the size of a Cow hoof from the time, at which the Villages are alleged to have been granted, till now a period of 296 years, to Villages, and their proceeds involved in a Suit perfected by a third party for the recovery of

a

a debt due to him is contrary to the Civilians Remembrancer at Volume II Pages 57 and 58.

15 What claim can the complaint preferred to the Revenue authorities by the Supplemental Defendant create in his favor. Therefore para 35 of the Decree is not correct.

16 The father of the 2d Defendant was a respectable public servant in the time of the former Government Eilbart Khan. the former Ruler of this Country purchased from the 2d Defendant a moiety of Pullicottah Village forming part of the Villages enjoyed by the father of the 2d Defendant. Of the remaining half Village one fourth was sold by auction in satisfaction of arrears of revenue. This will be evident from document No 93. If this Pullicottah Village also belonged to the Supplemental Defendant and formed part of the Villages included in Document No 132, how could he Supplemental Defendant have remained quiet when the 2d Defendant sold a

a portion of the Village to the former Ruler of the Country. and when another portion thereof was sold by auction for arrears of revenue. Hence it is clear that the claim advanced by the Supplemental Defendant is totally unfounded.

As Nagalody Nunjah land &c forming part of the Saindemangalum Village referred to in the Plaint has been sold to Pandiage, what sort of proof is necessary in the case of paternal property inherited hereditarily from father to son, other than the evidence given by the witnesses that the property is an ancestial one. To call the father of the 2d Defendant, who was an authority, the paid servant of the Supplemental Defendants ancestor is not just.— Therefore para 38 of the Decree is incorrect.—

17 As the property on the pledge of which, the amount of debt in question was advanced, as stated in the Original

Plaint,

14018 Fort St George 2d August 1856

Plaint for the following purposes Viz. to satisfy a Decree, to repay the amount of a former mortgage, and to defray the charges attendant on defending a suit brought against the Village in question, is answerable for the debt, the 1st Defendant who is in charge of the disputed property ought to have been decreed to discharge the debt in question out of the proceeds of the Village, on the contrary the 2d Defendant has been decreed in para 46 of the Decree to pay the debt. I therefore pray that this para of the Decree be cancelled and a decision passed in appeal requiring the 1st Defendant to pay the amount of Plaint with the Cost incurred by the Plaintiffs, and all the Defendants to bear their respective costs as well as the 2d Defendant.—

This suit was originally brought to recover a sum of Rupees 9,995 due on a Mortgage of the Village of Saindemungalum by the second defendant a Trustee of the Pagoda of Nelliappaisaumy.

2. The principal Sudder Ameen has decided that the Village is the property of the pagoda. that the Mortgage of it to Plaintiff is of no value and that the second defendant should himself pay the amount of the debt.—

3. The Plaintiffs have appealed against this decision and the Collector proposes to defend the appeal suit on the grounds taken in the original defence. The Board think this will be sufficient and they recommend that he may be authorized to continue the defence at the public cost.

Bd No 2922.

From the Acting Collector of Tanjore.

on the subject of the introduction of Port rules into this district under act XXII of 1855.

2. There are two ports, viz Bewanapaud and Guddalapaud too insignificant to be noticed, the latter, at which there was a peon who now does duty at Calingapatam has long ceased to be a port. It is highly desirable that some rule should be introduced, at present I doubt if I can legally fine a Master of a ship for discharging stone ballast at the anchorage the rules need be but simple, as all our ports are nothing more than open roadsteads. but if we have rules I trust we shall have Officers to enforce them at present it is impossible to expect a goomastah of 7 Rupees as at Barwah, to act with firmness and decision when opposed by a ship Captain a European - The trade of this District is increasing every year and the necessities of that trade require that our Sea Custom Establishment should be remodelled, as what was ample for a Native Coasting trade will not do now. that the trade is almost entirely in the hands of Europeans - I had several conversations with Colonel F. Cotton on his last tour through this district, he

Fort St. George 2d. August 1856.

he visited several of the ports and made himself master of our wants, and I would beg to refer you to him, should you wish to know more of the local features of each port.

3. It appears to me that to carry out the intentions of the act, there should be two Master Attendants or Harbour Masters one at Calingapatam with Poondy under his charge, the second at Munsoorcotta with charge of the other ports. An Officer of this class with the powers of an Assistant Magistrate and of justice of the peace to act when breaches of the port and boat rules occur, and keep the boat men, an unruly class, in order, and to sign protests and other legal formalities for Masters. and assist them in a number of ways would be most valuable, both to the Master and Shipper, he would also I apprehend be of great advantage to Government indeed every thing that promotes trade must eventually be of advantage to Government.

4. While on the subject of Port rules, I beg to bring to the notice of the Board, that

that even at Munsoorcottah where there is a Flag staff and lascar, there are no flags it is therefore impossible to communicate with ships except by boat, and this is often in bad weather impracticable from high surf. There is then no way to warn a Ship in danger from taking up an improper anchorage or running in too close to shore, the Cost of a Set of Marryat's signals is so small and their usefulness so obvious that I can only wonder at the refusal of the Marine Board to supply me with a Set. I hope when the new rules are brought into use that patent screw moorings, a signal post and flags will speedily be supplied to each port. At present the ship owner pays his port dues but gets little or nothing in return.-

Sir

Referring to para 2 of Extract from the Proceedings of the Board of Revenue No. 2164 under date the 12th Instant, I have the honor to state for their information that the abolition of the Dittum advocated in Para 21 of their Report to Government dated the 4th July 1855 and approved of in Para 2 of Extract from Minutes of Consultation No. 2880 of date the 11th March 1856 has my entire support. In practice the Dittum has never been conducted at the commencement of the Cultivation season as required by the Hookoommamah, and its subsequent settlement at a later period preparatory to the Jumma: bundy has been of no use whatever. Rayenamahs will therefore in future be taken from the Ryots sufficiently early in the year to allow of other parties taking the lands they wish to relenquish though, in accordance with the custom of the District, it will be necessary that the Meerasidars should be first consulted and Poyakaries only admitted after their refusal. The same will necessarily held

hold good as regards the breaking up of new waste land.

2. As regards the rule proposed by the Board that each Ryot should be made answerable for his holding of the preceding year I would beg to recommend the addition of the following clause to it. "The ryot is answerable "for his holding of the preceding year unless within "5 days he either presents a writing describing any "fields which he wishes to resign or any new lands "which he wishes to occupy." or offers satisfactory explanation at the time of the demand of the circumstances under which he has failed to bring portions of them into cultivation. This addition appears to be necessary as the Rule would otherwise be merely nominal under the existing usage of the District by which remissions for various causes are granted at the settlement in consideration of each individuals circumstances and which in the event of the Board's proposals being enforced will have to be withheld.

The Board approve the course which the Collector proposes to pursue in reference to the Bittum. It is expected however that after the revision of Assessment the clause quoted by Mr Shubrick regarding the ryots liabilities for his holding will be enforced as a general rule without the qualification which is now suggested and which is only permitted pending the revision.

No alteration

The Sub Collector has charge of three Revenue talooks including the Magistracy he has to enquire into and set-tle all revenue disputes take Cognizance of Malversation of public Money by the Village Officers and all cases falling under Regulation IX of 1822 and VI of 1831. In these three talooks he has the same power as the Collector and the same duties to perform.

This is one third greater than to the South and the supplies he is obliged to carry with him add considerably to the expense besides the breakage of Crockery table Glass &c. &c. is very great owing to there being no roads. The Collector from the position he holds is expected to entertain and generally has one of his assistants with him.

The Collector is responsible for the whole Collection of the District of whatever nature, the disbursement of the different sums and the general security of Treasuries local and general.

The local language is difficult more particularly the Telugoo spoken in the District is a mixture of Telugoo Canarese Maharatta and Hindustany many persons from other Districts even Natives experience difficulty in understanding the local language of the Country, practice alone can overcome it.

No 293, calling for certain information
regarding the Dasaunjee Enams in this
District, I have the honor to forward
a Statement exhibiting the names &c
of the present holders of the Dasaunjee

2. From enquiries instituted by the
Tahseldars in respect to the nature of
these grants, it appears that some of the
parties named in the Statement, admit
that they possess no sunnuds or docu-
ments of any description in support of
the grant, and that others have stated
that they once possessed documents
but that they have been lost. The record
in

in this Office afford no infor-
mation showing that these grants
were meant to be "hereditary", nor can
any instance be discovered, in which
they have been recognized to be so.

3 There appears to be no reason,
why these Manieems should, at
present, continue from generation to
generation, and why the present
holders should not be informed,
that at their death, the Manniems
will lapse to Government.
