No. 89.

To
G. S. Forbes Esqr.
Secretary to the
Board of Revenue
Fort St. George.

1197

Bd. No. 3066
From the Collector
of Bellary

Sir

I have the honor to Return herewith the Copy of the Gazetteer which accompanied the Extract from the Proceedings of the Board of Revenue, dated 4th September 1855, my notes as far as concerns this District being duly entered in the blank pages as directed.

Bellary
Collector's Office,
5th August 1856
Bd. No. 2767
Resolution thereon.
1197-1198

I have &c
/Signed/ C. Pelly
Collector.

Resolved that the letter recorded above with the copy of Thornton's Gazetteer to which it refers, be forwarded to Government with reference to Extract Minutes Consultation 15th August 1855 No. 1122.

Infd 4th Septr 1855.

1199 B. No. 3041

Fort St. George

28th August 1856

Tabular Report on the lapsed Enams in the District of North Arcot for the 2d Quarter ending 30th June 1856

Taluk and Village Extent Case and Value of the entire Enam.	When and by whom granted Name of the Original Grantee Sunnuds or other documents in Support of the grant.	Nature of the grant charity or service If service nature of the duty prescribed by the grant	Name of the last holder date of his decease and the relation ship in which he stood to the grantee	Share enjoyed by the deceased and that held by the other members.	Family left by the deceased Name and age of the parties. Their circumstances and the means of subsistence possessed by them.	Recommendation of the Collector and the grounds on which it is made
1	2	3	4	5	6	7	8
Coondrapaktum in Chendragherry Talook. Nunjah 2-13-80-7-1 Deduct Jody 29-15-8 — 50-7-7. Original with translation herewith transmitted.	Original purvanah is not to be found. From the Enam Register of the Hoozoor Record Office prepared in Fasly 1219 it would appear that the Enam was granted to Manadaya Ramachurry by Moottiah Streenevasa chany. Original deed of sale executed on stamp paper dated 2d Vysaky of the year Plavah corresponding with 13th May A.D. 1841 by Pagoonatha Chany and others grand sons of the Original grantee to Dery Janakeeram puntoolu.	Bhutwurty or Charity	Cuncamah Wife of the grand son of the Original grantee (died) / Streenevass Pagavah Chany son present / Pagoonatha Chany grand son of the original grantee.	Wole	Delhi Janakeeram puntoolu purchaser of the Enam from the 3 persons specified in Col. 5.	This is an alienated Bhutanurty Enam without Sunnud, and was entered in the Enam account of this District in Fasly 1219 in the name of Krishnama Chary the son of the original grantee Ramachurlu the latter's grandson's wife, Amallamah great grand son Streenevasa Pagavah Chary, a grand son Pagonada Chary sold the Enam land amounting to 2-15-a-15 to Janakeeram puntoolu for Rupees 175 in the year 1841 since which period he has enjoyed it; the purchaser now claims the registry in his name of the 3 persons who sold the land in question Streenevasah Pagavah Chary alone remains, he admits the purchaser's right and previous enjoyment but urges a claim for Rupees 25 of the purchase money still due, this demand however appears upon enquiry to be unfounded. Should the Board deem proper to continue the alienated Enam it may be registered in the name of the purchaser Janakeeram puntooloo. 12th June 1856 /Signed/ G. Banbury Asst. addt. Sub Collector /True Copy/ /Signed/ C. Whittingham Collector

B No. 2775

Proceedings thereon. The Board observe that the Butwarty Enam reported on has not lapsed, and that with reference to the Circular Orders dated 22d May 1845, 27th July and 18th September 1848, a report should be made only on the occurrence of a lapse. In the present case the Board do not consider it necessary to interfere.

No. 175.

To J. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

Sir,

With reference to the correspondence noted in the Margin, I have the honor to report that the lease of

13501 Fort St. George 28th August 1856

Bd. No. 2753
Proceedings
(1203-1204)

thereon The Board of Revenue authorize the Collector to issue the usual Notice to the Shrotriemdars in arrears to the effect proposed by him in the foregoing letter—

No. 163.

To

G. L. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

(1205)

Bd. No. 3239.
From the Collector of North Arcot

Sir,

With reference to the Extract from the Proceedings of the Board of Revenue dated 11th August 1855 calling for fuller explanation in regard to the wish expressed by the inhabitants of Polore to tax themselves to raise a fund for the employment of an Extra police force, I have the honor to State for the information of the Board that the readiness to tax themselves for the above purpose is not felt throughout any one Talook—

2. The petition which was addressed to Mr. Benning and which contained an application for an additional police which the parties expressed

13500 Fort St. George 28th August 1856

| | | |

expressed their willingness to support, was signed by a part of the inhabitants of 26 Villages in the Poloor Talook. The people of 25 of these Villages now decline to maintain the proposed Extra force and only one individual in the Cumbah of Poloor Consents to pay an annual Subscription of one anna for the purpose in question. those who decline to subscribe do so on the ground that they are too poor to Contribute, and that it is the duty of Government to provide for the Security of person and property. The people of Wallajahpett express a readiness to Contribute to a fund of this nature provided Government would be responsible for their losses and make good all stolen property.

In the Sutteeaid Talook which contains a hundred Villages the Inhabitants of 25 of them have expressed a willingness to Contribute Rupees 1/-0-0 per annum for the object in question.

North Arcot Collectors Cutcherry Chittoor 18th August 1856 } (Signed) C. Whittingham Collector

The

B.d N.o 2786
Proceedings thereon
(1205-1206)

The Board resolve to call upon Mr. Whittingham to state his opinion as to the necessity for continuing the Extra force in the Poloor and Chendragherry Talooks. It is believed that the prevalence of robberies at the time when Mr. Binnings letter was written and for some time previous was in some measure referible to the Scarcity which then prevailed, as however the population owing to the favorable change in the Seasons are now fully occupied with the Cultivation of the land, it may be found unnecessary to keep up an Extra Police Establishment.

No. 1165

To
G. S. Forbes Esqr.
Secretary to the
Board of Revenue
Fort St. George

1207
Bd No. 2845
From the Asst. Collector of Ganjam

Sir

I have the honor to report that the Map of the District in Bharoah's Gazetteer has not very many mistakes

many

15504 Fort St. George 28th August 1856

many of the names of places have been badly spelled, they are copied from the large Map. In some instances the Name is quite wrong, thus the Chief town of Teekkaly is put down as Teekkaly it is Ragoonadapoor.

The boundary of Kemedy is not correct and does not show several of the Forts and passes entered in some of the later editions of the Survey Maps, the Kemedy hill Country does not run up so far to the North the Jeypore territory comes in between it and the Khond Malahs. The Goomsur frontier is more correctly marked.

I am preparing a list of Names misspelled in the Trigonometrical Survey Maps which will apply to this Map. The names of some large places have been left out, Viz. Buttely situated where Paulcaveghe is marked in Kemedy. Palaseezingby is on the other side of the river Gharra near Calingapatam.

Chingleput District
Collector's Cutcherry
the 19th August 1856

E. E. J. / Signed / Le. I. Newbrick
Collector

15507 Fort St. George 28th August 1856.

Bd's No. 2782
Proceedings thereon

1209

Resolved that the foregoing Collr's letter and its enclosure be submitted for the information and orders of the Right Honble the Governor in Council with reference to the Circular letter of Government dated 21st September 1855 No. 236.

2 The Board recommend that Sanctions be granted for the sums paid by the Collector during the second quarter of 1856 on account of Compensation for lands &ca taken for the purposes of the Madras Railway in the Chingleput District amounting after deducting Rs. 620-10-4 disbursed in the 4th quarter of 1855 which has been already sanctioned to Rupees 2232-4-6 as particularized in the Collector's Statement.

3 It is observed that there is a striking decrease in the price paid per Cawny for the land in the last Villages entered in the Statement. The Collector will be requested to explain why the value of land in this Village is so much less than that of the other Villages in the list.

15508 Fort St. George 28th August 1856

1208-1210

Bd's No. 2769
To the Collector of Chingleput

Encd 28th augt 1856 — 3241

Ordered that the following letter be sent in reply.

To The Collector of Chingleput.

Sir

With reference to your letter dated 19th August 1856 transmitting a statement of sums disbursed for lands taken for Railway purposes during the second quarter of 1856 I am directed by the Board of Revenue to request that you will explain why the price paid per Cawny for land in the last village is so much less than that of the other villages in the list.

Bd's No. 3271
From the Collr. of Tinnivelly

No. 252

To G. S. Forbes Esqre
Secretary to the Board of Revenue
Fort St. George

Sir

I have the honor to forward an advertisement for the sale of certain lands in the 6 Talooks noted in the Margin for the recovery of arrears of Land Revenue due by the holders for Fasly 1264 amounting in the aggregate to Rupees 1546-11-5.

Tinnivelly
Sheriff's Office
Circuit Cutcherry
Tencasey
Tallyoor
Shenmadavy

2 As it has been ascertained by enquiry that the arrears are really and fairly due by the parties and that there is no prospect of recovering the same unless it is shewn that active measures will be taken I beg to request that you will be pleased to procure the sanction of the Board authorizing the sales in question.

Tinnivelly Collectors
Circuit Cutcherry
Tencasey
19th August 1856.

A True Copy

(Signed) G. L. Forbes

Secretary

15532 Fort St. George 28th August 1856.

B. No. 2756
Proceedings thereon.
(1219-1220)

The Board of Revenue authorize the sale for arrears of Revenue of the lands alluded to in the foregoing letter and direct the publication in their Office of the Advertisement forwarded by the Collector Friday the 10th October next being fixed for the day of Sale.

15533 Fort Saint George 28th August 1856.

No. 164.

To
G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort Saint George

(1221)

B.d e No. 3284.
From the Collector of North Arcot

Sir,

I have the honor to forward a statement together with Twenty one Notices prepared in the form which accompanied the Board's Circular dated 30th April 1855, shewing the lands attached and proposed to be sold for arrears of Revenue due from certain Ryots of the Villages of Canvary paukTaloak, and to request that the Board of Revenue will sanction the sale of their lands in Satisfaction of the arrears. The 1st of October 1856 is the day fixed on for the sale.—

North Arcot.
Collector's Cutcherry,
Chittoor, 22d August 1856.

(Signed) C. Whittingham
Collector.

No. 124

To G. S. Forbes Esqr.
Secretary to the Board of Revenue
Fort Saint George

Sir

I have had the honor to receive an Extract from the Proceedings of the Board dated 5th Instant No. 2468.

2 The Board remark that they do not understand from my letter of the 19th July last "why the full amount of "allowances less the sums deducted for "the Dispensaries Lungerkhanahs supply "of medicines &c. is not annually "given, and why since the management "of pagoda property has been resigned, "Annual allowance have not been claimed "and if claimed why they have been withheld."

The allowance in question are as follows -

	Rupees
Ordinary or monthly allowance	2298
Payment in commutation of the grain allowances originally made	3,253½
Satnutrum Mamiem	28,243

The

The first of these allowances was due for fusly 1264. It could not have been wholly disbursed within the month of June ending that fusly because it was not due till that month had expired, and it has been with the exception of one Rupee paid in the next fusly 1265. The causes of the non-payment of the allowances under the two other heads will be found explained in the 4th para of this letter.

Paras 4 & 5

3. The Board wish to know, if the accounts that are Kept of the sum now in deposit show any detail of the particular pagodas, to which they have been originally due. This detail is among my records, but I beg to observe that excepting the 56413 rupees forming the 7th and last item, none of the allowances which were entered in column 6 of the statement that accompanied my letter of the 19th July last under 7 distinct heads are in deposit; but they were all entered in the account, merely to show how much

much was due to the institution from the Circar it being the rule to charge them on the Ayen revenues only, while actual payment is made, after the same manner that I mentioned in my former letter in respect to the allowances in commutation of the Original grain. I further beg to remark, that the only item above excepted Viz. the pagoda share of the revenues from lands under the Collectors management / which the Board are aware are at present solely Tariff lands / remains in temporary deposit, till the accounts of the year are adjusted, and it is paid in the next year to the Institutions. Under this head, however has all along remained a sum of Rupees 2999, which from various causes has not been disbursed. As much time would elapse before information on these causes could be gathered from the old records I will if so ordered, address the Board separately on the subject.

Vide Col. 7 of Statt accompanying

The

4. The Board will comprehend after what I have stated above, that the sum of Rupees 132819 is not now in the treasury, that consequently it cannot be appropriated to works of general public utility; and that there is no profsibility of a similar or nearly similar sum accruing in any future year. The accompanying statement, which I beg to furnish as requested by the Board in para 5 of the letter under reply, will shew that on deducting the allowance [*] paid since the close of fusly 1264, and in course of payment out of the sum of Rupees 132819 the balance stands at Rupees 51,509. This last mentioned sum, is given under two heads. The allowance entered in Column 49 is the amount due to Institutions where the festival have been discontinued, and it is to this amount that the remark of the Board in the first part of para 2 of their letter under reply applies and not to the whole sum of Rupees 11889 mentioned that sum being composed not only of the allowances to pagodas where the performance of the festivals for which the allowances were granted

[*] Vide Col: 23 of the Statt

[o] Vide Col: 79 of the Statt

Col: 49 & 64

No. per Col: 1 of Govrs Statement &c.
Particulars (Col: 23 Read) Rs. 11889
subsequent payment as intended in Col: 3 of the accompanying Statt 346
Belonging to Pagodas where festivals

Amount in favor of charges
still unpaid in Col: 64 of do: 3 10956 11889

granted, has ceased but also of the remaining portions of those allowances to pagodas, whose festivals are still performed, which have from various causes been only partially disbursed. The causes of such partial disbursement as well as of the non-payment of the rest of the items forming the 50652 Rupees mentioned in Column 64 / with the exception of the 2999 Rupees referred to in para 3 / are as follows:

1st In pursuance of the orders of Government in the Revenue Department dated 12th June 1841 No. 790, the control over the internal arrangements of the religious Institutions in respect to the application of these allowances, after their disbursement from the public treasury, was left to the Trustees, and the management of all the lands and other sources of Revenue appertaining to them reserved by the Circar. A scale for the disbursements to be made to the larger Institutions for defraying the expenses of the pagoda Ceremonies &c., was then framed with reference to the average expenditure of the past ten years and the surplus which remained after the disbursement made

made according to that scale, was retained for eventual payment when any unusual contingency, such as repairing the pagodas, buildings, Vca arose. When the management of the pagoda lands, other than Tarriff, was subsequently relinquished, the same system was followed.

2nd. It had been usual in old times for the trustees of the several institution professed both of small money allowances from the Circar and also endowed with some lands, Inams, to defray their current expenses, out of the income derived from the latter source, and in consideration of the scanty amount of the former, to wait till it accumulated to any considerable extent, and then to draw it at intervals, of say 10 or 15 years, whenever any important improvement / such as repairing the pagodas, buildings Vca / was required.

But in later years, a difficulty was found by them in securing such payments for long periods, which will be explained. Where the allowances remained unpaid to any

any institution for more than one year, it appears that it has been customary to hesitate in authorizing the renewal of the payment, and it was observed as a general rule, never to authorize it, without making enquiry as to the necessity of it. This course of procedure discouraged applications for payment, and parties, though knowing their rights, refrained from pushing their claims on behalf of the institutions partly from the circumstance of the small amount of these annual allowances being inadequate to the trouble and loss of time, with which the process of establishing their claim to payment was attended, and partly from their despair of success. It rests with the Board to determine on the mode in which these allowances are to be treated, but I may submit that in my opinion Government should pay up at once to those institutions where the Poojah is performed, the current allowances with arrears, except those due up to Fasly 1258 and in cases where the ceremonies have been discontinued, for a period of

of more than 12 years that the allowances so should be struck off the sanctioned settlement. The Board will observe that this plan involves no more indulgence than is conveyed in their Circular orders of 5th February 1852 and 7th December 1854 for cases where the ceremonies may be discontinued. Whatever be the order that the Board may pass on the subject, they will find that at present the only sums which may be considered as available for works of public utility are (in Column 65) Rupees 7773, but it is clear that there is no ultimate gain in the appropriation, for it is the same thing whether they be charged anew on the public revenue on account of the pagodas and then the funds so derived applied to public works, or whether they be not charged on the revenue at all, it being in neither case paid to the institution. It would be as well to take the sums from the exchequer direct for the public use.

As per Col 65 — 10113
Deduct sum included in the 2999 Rupees referred to in Para 8 — 2340
Remainder — 7773.

Para 6

5 The Board are perfectly right in thinking that the Devastanam Establishment

Establishment has been considerably reduced of late. But the debit made in fusly 1263 was for fusly 1261 and that made in fusly 1264 was for fusly 1262 and the debit for Fusly 1262 was slightly higher than that for fusly 1261, owing to the proportionate increase in the collection in the former year (fusly 1262) as shown below

Fusly	Collections	amount debited	Centage
1261	37790	1779	10
1262	39160	3916	10

I beg to explain that these debits are not the payments actually made to the Establishments under the Inogenzabitah but the sums which were retained out of the collections for meeting the charges. I regret that I am unable at present to furnish a statement of the actual payments required by the Board owing to the delay that would be incurred in collecting it from the old records, but as far as the papers now in my hands enable me to meet the call, I beg to append a statement

statement shewing the amount of the actual payments for fusles 1263 and 1264 from which it will appear that there is a decrease in the latter year.

Fasly	Actual payments
1263	4137 00
1264	2994 "
Decrease	1133

para 7 6 Referring to the remark made by the Board in para 7 of their letter, I beg to explain that the current monthly expences of the dispensary at Combaconum are paid out of the grain annual allowances, while the supply of medecines for it, as well as the allowance sanctioned for the Negapatam Lunger Khanah, is paid from the pagoda share of the revenue from Tariff lands. The apparent discrepancy between paras 7 & 11 of any former letter, is thus explained.

para 8. 7 The Government order for communicating the sale revenues for money payment was communicated by the Board in their letter dated the 17th November 1806. The date of the order for commuting the grain allowance cannot be ascertained from the current records but will be furnished should it

it be discovered among the old records at Tranquebar, but the application for sanction seems to have been made to the Board in a letter from this office under date the 25th March 1802. The sanction for defraying the expense of Civil dispensaries and Lungerkhanahs from the Pagoda funds, is contained in extract from the Minutes of Consultation dated the 11th June 1839.

Tanjore 15th August 1856

(Signed) J. W. Cherry
Acting Collector

Statement

Fort St. George 29th August 1856.

Statement shewing the annual amount of the unpaid portions of Pagoda allowances up to fusly 1264 and the amount disbursed from which accompanied the Collector's letter to Board dated 16th July 1856.

(Signed) J. W. Cherry
Acting Collector

15582

Fort St. George 29th August 1856.

(1242-1243)
B.R. B.P. 27921

Proceedings thereon

Submitting with the Board's observations letters from the Actg Collector of Tanjore affording information with respect to the control exercised by him over the expenditure of the surplus Devastanum funds of the District.

This correspondence arose from an explanation offered by the Collector of Tanjore regarding the surplus expenditure in Fusly 1263 on the Linger Khanas in his District, above the sanctioned amount from which it appeared that the disbursements were made from the Devastanum funds and not from the Ayen revenue and from an application made by the same Officer for leave to repair the Civil Dispensary at Combaconum also from the Pagoda funds.

2 The two letters from the present Acting Collector with their enclosures appear to afford all the information that the Government have required in the Extract Minutes Consultation No. 119 and in forwarding them the Board do not consider it necessary to occupy the time of Government by recapitulating all that Mr. Cherry has said.

3 Any control that the Collector has exercised over the Pagoda funds it will be observed has been before and not after their disbursement to the trustees, the expenditure on account of Establishment it will be seen has been greatly reduced of

of late years, and the last link of connection will be severed if the Government should accede to the Board's recommendation But the tariff Lands of the Pagodas should be now made over to the management of the Trustees.

4 With reference to the Acting Collectors remarks in the 4th. paragraph of his letter of the 15th. December, the Board believe that the reason why hesitation has been felt to pay to the Trustees the accumulated arrears of allowance due for many years is that experience has shewn that money so paid has rarely been expended on the repairs of the Pagodas or on anything connected with the institutions but has been generally appropriated by the trustees to their own individual benefit. The Board are of opinion that the Collector of Tanjore has exercised a sound discretion in declining to aid the trustees in practicing these misappropriations, and they are not disposed to second Mr. Cherry's recommendation that the arrears due from Fusly 1260 should be now discharged. ———

To The Honorable Company's Acting Solicitor

D. No. 2789
To the Honorable Company's Acting Solicitor

Sir,

I am directed by the Board of Revenue to forward Copy of Extract Minutes Consultation dated 11th August 1850 No. 849 having reference to certain changes which it is the intention of Government to introduce in the Sale of Salt to wholesale dealers.

2. Paras 4 & 5 of the Minutes Consultation will sufficiently explain the nature of the proposed arrangements and you will observe that the Board are directed to obtain your opinion as

Sd Genl. 29th Augt. 1850

as to the expediency of requiring from parties who are permitted to deposit securities in lieu of money payments on an agreement binding them to observe certain conditions necessary to secure the Government from loss:—

3. On the nature of these conditions and the form of the agreement the Board will be glad to be favoured with your opinion.—

4 The points which it seems desirable to keep in view are as follows—

1st. That the power of realizing should be secured to the Government in the event of the depositor of the Securities failing to redeem them by paying the value of the Salt he has received according to the terms of his agreement.—

2d. That the Officer with whom the securities are deposited should be empowered to draw the interest on behalf of Government crediting the depositors Salt account with the Amount.—

3dly. That the depositor should bind himself to pay to Government the full value of the Salt received and should therefore undertake to pay any balance which might remain on the securities being disposed of by Sale and

15580 Fort St. George 29th August 1850

and not fetching their expected value.

5. The Board will be glad to receive a reply from you at your earliest convenience as the Government are desirous to introduce the new System at once.

Read

Read again letter from the Collector of Canara dated 30th October and entered in Consultation 9th November 1854.

1252

B. R. 28-27.

Proceedings thereon.

Reviewing the Report on the Summabundy Statement of the Canara District for Fasly 1265.

The draught which caused such injury in other parts of the Presidency did not extend to this favored District. Crops were good, and the scarcity which prevailed elsewhere brought the landholders very remunerating prices for their produce. Rice, the staple product of the District, rose in Value from 12 to 74 per Cent above the previous year, and the Collector remarks that the improvements in the markets took place so early in the season as to benefit not only the rich landholders, but also the poorer ryots who cannot afford to house their grain.

2. The export of rice was larger than in any previous year, and there was an important increase also in that of pepper and Betelnut. The garden products and more especially Cardammums, have commanded greatly increased prices to the Cultivators, since the abolition of the Inwlut. duties, thus shewing that the measure has had a highly beneficial influence on the welfare of the District.

3. The land revenue Settlement amounted to Rupees 19,19,283. The excess over the preceding fasly is Rupees 1843. and would have been larger but

but for some remissions which it was necessary to allow on account of losses caused by floods in the Honore and Hurdah rivers. This result is the highest on record and the gradual but steady advancement of the land revenue which has now continued for some years is the more satisfactory because, as observed by the Collector, the cause which leads to it, viz the reclamation of land from the jungles is permanent while the causes which occasionally check its rate of progress are the accidents of season and only temporary. The Board remark that in the land revenue heads of the Sunnud there was an important increase of Rupees 68,918 arising from the successful working of the Forest conservancy.

4. Under the prosperous circumstances of the year the Collections were made with regularity, and a demand exceeding 19 lacs of Rupees, was realised without recourse to the distraint of property except in the instance of some small Sums amounting altogether to only Rupees 2037. The balances of former years are very trifling, and the irrecoverable portion has been recommended to Government for remission according to the Collectors suggestion.

5. The details of the Settlement have been included in the Boards general report, and the only observation which it is necessary

necessary to make on the manner in which the Jemmabundy was conducted is to express approval of the course pursued towards some of the Honore landowners as described in Para 64 of the Collectors report. After Government has fixed in perpetuity a light and favorable assessment and given up to the landholders the full enjoyment of all improvements which they may make, the owners of estates are not to expect remission when they prefer a general claim in a body, and the claim is founded upon alleged loss to a part only of their lands. Each land owner who seeks remission must bring forward his case separately, and show during the Tahsildars and Collectors enquiry, that the general outturn of his estate is so diminished as to give him a claim to indulgence.

6. The Statements and accounts which accompanied the Collectors report call for the following remarks.

7. On comparing the details of the Villages given in Statement No. 1 for 1262 & 1263 the

the pyotwar Villages are found to have increased and the Maturpha Villages diminished by one in the latter fusly - The cause of this should be explained and the Board wish to know what number of Villages remained under the head of "deserted" in the year under review -

8. The Statement No. 3. which gives the details of irrigation, the Columns for wells are blank though the Collector observes in Para 10 of his report that wells are extensively used for garden Cultivation - As however the revenue records have never shewn the Number of wells, and contain no information regarding them the Collector has used a proper discretion in leaving the Columns blank instead of endeavouring to collect returns for filling them up. Such an attempt might be misunderstood, as and the information would not have the

the same value as in other Districts where wells both new and old have a practical influence on the Assessment, and where the increase or decrease of the Sources of irrigation is an object of importance and solicitude -

9. The Board observe that in the present year the Beriz on Salt pans amounting to Rupees 11719-7-11 is entered in Statement No. 14 as an item of remission, in the Settlement while in 1261 it was deducted under the head of Ayacut Bunjur - As the Assessment on this land is not brought into the Settlement, and the Salt produced on the land is credited to a distinct branch of revenue, the proper Course is to deduct this Sum under the head of Ayacut Bunjur as before -

10 The Board wish Statement No. 12 to be expanded in future so as to shew the Total Beriz as per Statement 13 and the remissions entered in Statement 14 - The Board will then be able to see how the remissions

are

Looks
Report 4,009
Statement 4,900
Difference 9

are distributed over the different talukas.-

11 There is a small discrepancy of 9 in the number of Kools. or persons carrying on Coomery Cultivation between the marginal entry attached to P. 34 of the Collectors report and Statement No. 15 Col. 11.

12. The Board observe with satisfaction the favorable terms in which the Collector speaks of the assistance afforded to him by his subordinates in the management of the District.-

Bd. No. 2820

Proceedings thereon.

The general features of the settlement having been disposed of in the Boards report to Government dated the 1st July 1855.- They propose in these proceedings to record only the observations that occur on an examination of the statement and accounts that accompanied the Collectors report.-

Para 7

2 To this paragraph is annexed a statement of the various irrigation works in Coimbatore as existing in Fusly 1263, and when comparing it with the separate gunguenial statement Number 3 submitted for the previous year the Board find that there are discrepancies which they find it difficult to account for.- the

Fusly 1262 98 Fusly 1263 66 four channels are represented as less by 32 in Fusly 1263 than in Fusly 1262 the 126 springs channels enter-ed in the statement for the former year have disappeared altogether from account and a new head of Sungle stream is entered for Fusly 1263.

but

Fort St. George 29th August 1856

but they number only 107, or 19 less than the co
spring channels of the previous year The head
of annicuts which showed 134 works for Fusly
1262 is blank in the statement for the year
under review and the tanks have in one year
decreased from 233 to 200 The increase in the
number of wells calls for no other remark
than one of satisfaction at the readiness
shewn by the Ryotts to avail themselves of
the new rules which leave to them the profits
of agricultural improvements but river &
channels Anicuts and tanks are Government
property, and are permanent works and the
difference in their number ~~noted~~ specified
out by the Board require explanation
from the Collector. The discrepancies are
~~more~~ marked when the Comparison is made
for particular Talooks. in Carvor for instance
in Fusly 1262 it was represented in the
separate statement No. 3 that there were
41 river-channels and 27 spring channels
the

Fort St. George 29th August 1856

the total being 68 were as in the statement
for the Fusly now under review the total
number is represented as only 16 connected with
the statement annexed to paragraph 7 of
the report the Board have noticed a diffe-
rence in the ayacut assessment as entered
there and as shewn in seperate statement
No. 1 transmitted with the report for
Fusly 1260 The assessment appear to
be Rupees 762675 according to the for-
mer and Rupees 788977 according to the
latter the extent being however the same
in both. —

Para 10 3 Paragraph 10 contains Marginally
two figured statements of the Number of Puttas
dars in the districts but they do not in their details
at all agree with each other the total number of
Puttahs given for land and for Dutt Rent according
to the first by the two statements is 195271 while accor-
ding to the first it is 160225 and so while in the se-
cond statement the number of Puttahs under the Mo-
turpha and sundry small farms and rent is entered as
66501 in the first the entry is 61158 the difference in
each

each case being the same Viz. 350.6 the discrepancy arises from some error of arrangement but as comparative statements have their value if they will not bear examination the point is here adverted to.

Para 13 4. In this Paragraph the number of wells in the district is shewn and the number newly excavated by the Royts The Board would wish in future for a seperate Column to shew the number made under their sanction from advances made to poor Royts from the Chultrum funds.

Para 23. 5 The Board notice a discrepancy between the statement annexed to this Paragraph of the report and the separate statement No. 11 which will be conveniently shewn as follows:-

	Fusul Cummee	Turwah Cummee	Total
By report	35637	77694	
By statement 11	35973	77774	
Defference	336	80	416

Caboolaty waste

By report	21399	
Statement 11	20983	
	416	

Para 30. 6. In statement No. 11 under Columns 16 and 17 is entered the land with its assessment that was left uncultivated for want of water and the collector in this paragraph explains that cultivation was impossible under these circumstances the Board are of opinion that the item should not have been brought to account at all instead of being charged in columns 16 & 17 and remitted at the foot of Column 23.-

Para 32 & 37 7. The Board approve of the Collectors Proceedings as recorded in these paragraphs.

Para 50. 8. In statement No. 9- 10 & 12 is shewn the cultivation at the survey and subsequent to it and in columns 3 & 7- Teerwajastee is included with the tarum assessment for the future it is desirable that in those columns the tarum assessment only should appear and that Teerwajastee should be entered in columns 4 & 8 The Beriz of the wet cultivation in statement No. 9 should agree in amount with the total Berizun statement No. 10 and the sum total of remission in statement No. 10 it would be the same at the corresponding entry in statement No. 12 and as the entry in columns 4 & 7 of statement No. 12.

Para 60 9 The Board desire to be informed of

Fort St. George 29th August 1856

of the amount realized from the tax of Pack bullock
in the amount already remitted and the reasons
which actuated the collector in retaining a portion
when on a conviction of the impropriety of
the impost he caused another portion to
be remitted.-

Para 6. 10 The Board have already
in their proceedings dated the 31st July 1856
conveyed to the Collector the decision of the
Government upon the question raised
in this paragraph which it is not there-
-fore necessary now to discuss.

Para 7. 11 As regards the separate Memorandum
referred to by the Collector to shew that not-
withstanding sundry remission the Peris
of the district had increased by Rupees 22.52 on
when comparing Fusly 1259 with Fusly 1263 the
Board remark that of the total increase Rs.
274 only result from the land and the remainder
wholly from the sundry Forms and Licences.-

Read again letter from the Collector
of Tanjore dated 14th September and entered in
Cons. " October 1855.

Fort Saint George 29th August 1856

1254

Bd. No. 2512

From the Collector of Tanjore

No 118

To

G. S. Forbes Esqr.
Secretary to the Board of Revenue
Fort Saint George

Sir

I have the honor to reply to the Boards
proceedings of the 25th of June last in review of the report on
the settlement of the extra Sources of revenue in Tanjore for
Fusly 1263-

para 9 2 In Tanjore the sundry small farms include no
other item than the fish rent-

para 11 3 In the quarterly return of salt sales the collections
are brought to account only after they have reached the Huzzoor treasury
while in the statement that accompanies the annual report all
sales effected at the several Depots within the year, are included
and hence arose the discrepancy between the quarterly and annual
accounts which the Board has noticed.-

para 12 4 The differences noted by the Board in the sales
of salt for inland Consumption as entered in Statements I & J
arose from the figures in the former representing the amount received
on account of the sales at the Huzzoor treasury within the year;
and those in the latter the amount realized at the depots and
the former is higher than the latter because it includes money
received on account of Fusly 1262 amount received on account Rs
of inland sales as entered in Col. 5 of Statement I ——— 116113
Deduct collected on account of Fusly 1263 brought to
account in the Huzzoor treasury in Fusly 1263 ——— 7882
108291

Add Collections made in Fusly 1263 but not received at the
treasury within the Fusly ——— 2933
Accounting to the entry in Col. 2 of Statement J ——— 111214

5 The difference between the annual sales as entered in
Statement I, and in the quarterly Statements arises from the former
including only money actually received into the treasury while in the
latter is included the value of salt measured to the French
Government of Karreal altho payment has not been received.

In the annual Statement I is entered all salt actually
manufactured in the pans but in the quarterly returns only
the quantity heaped at the plat forms, and hence arises the
difference noticed by the Board.

	Indian Mds.
Manufactured in the pans	973.230
Heaped on the plat form	909-331
Difference	63.899.

The

para 13

6- The course directed in this paragraph has been followed in fusly 1264-

para 14

7 Clayroot cultivated in the province and the land on which it is grown is assessed at Rs. 126-6- - the valy but the collections to which the Board now refer were not the teeruah on land but the amount paid for the privilege of gathering the wild Clayroot which grows spontaneously on the Sandy tracts bordering the sea coast- The Board will find reference to the matter in the second paragraph of Mr. Harris report of the 20th December 1800-

Tanjore Negapatam

No 125

To

G. J. Forbes Esqre
Secretary to the Board of Revenue
Fort Saint George

Signed/ H. Forbes
Collector.

1255
B. No. 2608

Sir

I have the honor to reply to the observations made by the Board in their Proceedings of the 4th of June last in review of the report on the settlement of Tanjore for fusly 1263-

From the Collector of Tanjore
Replying to the observations made by the Board on review of the Samalsundy report of 1263

In fusly 1202 and subsequently a clause has been entered in every Rayots puttah, to the effekt that the puttah would hold good until altered at the Rayots instance

para 3

3 The rent roll as prescribed by the Board has been prepared for fusly 1264 and will be always forwarded in future and it is not in substitution for but in addition to this that I have this year supplied another form to show the total beriz paid in all the talooks by any meerasdar who possesses as much as or more than 30 Valies in any one talook-

para 4

4 The equivalent in annas and price for the prices in double fanams and cash has been given in the accounts prepared for fusly 1264. The village prices appear under their proper head in Statement C. and Statement No. 6 contains the town prices only- The average of the village prices was given in 10th paragraph of my report on the Statement as Rs. 5-4 37/64 or as 12-10 and was obtained in the following manner- The average current price in all the villages of each magnanum is fixed as the price for each village in the magnanum and is applied to all amanie Woolungoo rented grain rented and Vanalachadum villages- The total beriz of all those villages calculated according to the price thus obtained is divided by their Standard Maldivanum produce and the result is entered in the Samalsundy report

report as the settlement price for the whole district- This was explained to the Board in the last paragraph of my letter of the 16th of May last- The town prices are obtained as follows the selling prices in the large towns of each talook are every month added, and their sum divided by the number of towns the result being the town price for the month the town prices thus obtained for twelve months are added and divided by twelve and the result is the town price for the year in the talook and finally the town prices thus obtained for each talook are added and divided by sixteen the number of the talookes and the result is entered as the town price in the Samalsundy report and so entered in Statement No. 6 The Board appear to have obtained their average of the town prices by adding the town monthly prices together dividing the result by the number of talookes and their adding together the twelve monthly average that obtained and divising the result by twelve The difference in the results is accounted for by the fact that for the five months during which high prices ranged there were no returns from two talookes and altho therefore the monthly averages which were struck only from the returns received were duly high, the years average from the two talookes whence returned were only partially received were low-

para 5

5 In the accounts of Fusly 1265 the wishes of the Board as expressed in this paragraph have been attended to-

para 6

6 The entries referred to in this Column refer to dittum and not to cultivation-

para 7

7 The difference of Rs. 6455 between the amount entered in the abstract appended to para 15 and that given in para 11 arises from the former shewing the remissions granted in rented villages alone while the latter includes the loss on the amany villages-

Amany villages in Fs. 1263
Standard — 11791
actual — 5336
difference - 6455

para 8

8 The Board in this paragraph notice a discrepancy of Rs. 15782 between the abstract Statement in para 20 of the report and the entries in Statement C. This is to be accounted for thus abstract Statement entered in the report on the settlement the amount of remission granted on account of taxes and Natapaul to the meerasdars who agreed to reap the remainder of their land in the rented villages is entered under the head of taxes and natapaul while in Statement C

C the same amount is included in the amount of remission under Varalachadum - and the reason for this was that it has always been Customary to enter in Statement C under the head of Tarus and Nataspaul only whole villages raised by the meerasdars after the demand on unproductive land had been remitted and to place poghul villages, or those in which the corpor part of the land was raised by the ceircar and on part by the meerasdars after receiving remission on their unproductive land under the head of Varalachadum.—

para 11

9 The Board have notice that the reduced grain demand and cultivation in the Nunjah land of four villages in the Tritrapanny and Cottalum talooks rented for three and one year is below the averages of the last two years - The Board had so often expressed an opinion against the Continuance of the amany system that great endeavours have been made to avoid it The two villages in Cottalum were rented by the sub Collector at a reduced grain amount lower than the past ten years average but the rents were given for the Current year only and had special reference to the season In Tritrapanny the rents were given for three years and the first years demand was 1091 Cullums below the past ten years average the rent provided for the addition of 1958 Cullums in the second year and 1047 Cullums in the third in the additional Cultivation 18 and 10 villages of land so that the total demand for the whole term of the rent was not below but 1616 Cullums in excess of the past 10 years average—

para 12

10 The following is the description of villages from which the lands referred to by the Board were struck out of the settlement

Wokkangoo rented villages which suffered from drought in the past and present fusly 1262 and 1263	39	1	27	1159-6-7
One year rent in both fusslies				
One year rented and suffered from drought in last year (Fs 1262) on which taxes & Nataspaul were remitted in this year (Fs 1263)	45	—	—	1786-1-11
	19	7	—	69-3-5
One year rented and suffered from drought in both years Fs 1262 and 1263	55	—	—	766-4-6

11 The first, third and fourth items were entered in account in Column 136 of the Statement A the first included in the sum of Rs 17,717—16—4 entered under the 9th head Ufs injured by drought in the last as well as in this year the third included in the 32d head Ufs injured by drought

drought in the last year but taxes and Nataspaul remitted in this and the fourth included in the 34th head Ufs Varalachadum in both years of the second item Rs 87-15-3 were entered in the 174 Column of Statement A under the 30th head Ufs rented in both fuslies and the remaining Rs 695-2-6 were entered in the 178 Column of Statement A and were included in the sum of Rs 747—3-7 under the 30th or the same head as the last. I regret that I should have misunderstood the Boards opinion on the matter as said in my report I was under the impression that it was on many accounts impolitic to return in account against the meerasdars lands which for want of irrigation and drainage had and never could cultivate, and I regret to have to say that though only to a trifling extent. I had acted on this impression in fusly 1264 before the proceedings under reply were received - It will be my care in future to retain all such lands in account

para 13

12 The particulars required by the Board have been supplied for fusly 1264—

para 14

13 The particulars required by this paragraph could not be given for fusly 1263 I endeavoured to explain this to the Board in the 10th paragraph of the memorandum which accompanied my letter of the 12th of July 1853 and I understood that in the 4th paragraph of their proceedings of the 30th of September in reply the Bd had

Fort Saint George 29th August 1856

had accepted what I said a Commencement was made to prepare the required accounts in making the settlement for Fusly 1264 and it will be contained in the current year but I fear that the accounts will be partial and that they can be completed only gradually —

para 15

11 In the 35th paragraph of my letter of the 12th of February last I offered some remarks on the practice followed in Tanjore of allowing no remission on poonjah waste in Veeravarumbum Villages and recommended a modification of the rule In Fusly 1263 the season was so bad that it was considered advisable to depart from the usual practice and to remit Rs 21501 charged on account of poonjah waste the amount is included in the Sum of Rupees 98931 referred to in the 22d paragraph of my report on the settlement for Fusly 1263 —

para 18

12 The wishes of the Board as expressed in these paragraphs have been attended to in the preparation of the accounts for Fusly 1264 —

para 19

16 The Statement No 16 was prepared with reference to cultivation including Fusulpastee and Teenvapastee but the particulars of each could not be shewn for the reasons which presented the preparation of statement No 9 The Roolangoo Veriz peishcush &c have been entered in the gross this year, according to the Boards wish —

para 20-21-22

17 The Boards wishes have been attended to for Fusly 1264 the form No 23 appearing to require specification of items only so far as to separate Ayen and extra revenue further details were omitted altho in previous years they had been forwarded —

Tanjore Vandackenny
7th September 1856 —

[Signed] F. Forbes
Collector

Proceedings

No 2820

Proceedings thereon Reviewing the Report of the Collector of Tanjore on the Settlement of the Land and extra Revenue of his District for Fusly 1264

The Board proceed to record such remarks on the above report as have not found a place in their general report submitted to Government on the 23d of July 1856 — These remarks will chiefly have reference to the accounts and statements which accompanied the Collectors report —

2 The Board are gratified to find that in the Fusly under review there was an increase in the land revenue of Rupees 194280 and in the extra sources of revenue of Rupees 29307 notwithstanding that the Fusly was twelve days shorter than the year with which it is compared These results afford satisfactory proof that the measures which were adopted in Fuslies 1262 and 1263 to meet the depression which the interests of the Province suffered from the storms of the former, and the droughts of the latter years, were effectual that the District has suffered no permanent injury and that

Land Revenue Fusly	Rupees
1263	4289445
1264	4483725
Increase	194280

Extra Sources Fusly	Rupees
1263	935785
1264	965092
Increase	29307

that in the first year after two of almost unexampled difficulties, its resources are found to be still buoyant and its permanent prosperity, but slightly checked.—

Para 7

3 The Board remark with satisfaction the favorable working of the system commenced in Fusly 1202 of not requiring any Meerassidar to attend the settlement unless some alteration had taken place in the extent or assessment of his holding: no less than 16,177 puttahs remained them unchanged since the previous year, and the holders of none of them will be ever again called upon to attend the settlement unless by his own act he should make his attendance necessary.

4 The remarks which the Board have to make on the accounts which accompany the Collectors' reports are as follows.—

Para 3

5. In the statement added to this paragraph, the number of villages under the Wooloongoo rent is not given as intelligibly as it might be.—9 villages rent in the previous year and under Amanmie in the year reported on, 1586 villages rented in the previous year, and 1 village under amanmie in the previous year and rented in fusly 1268 - and placed as if

if for addition, and the result is given as 15-78 which is less than one of the items. In 15-86 villages said to have been rented in fusly 1263, it is presumed one also rented in fusly 1264, and the following will be a proper method of exhibiting the numbers in future.—

	Village
Rented in both years	1586
Rented in last year and under Amanmie in this	9
Remaining rented villages	1577
Under Amanmie in last year and rented in this	1
Total rented villages	1578

Para 13

6 From the marginal entry a discrepancy will be observed between the Statement subjoined to this paragraph and Statement C as regards the first item "standard gross dittum". This discrepancy appear to have arisen from the exclusion of Tope and jungle rents from the statement in the report while they are included in Column 293 of Statement C. It is advisable that these two items be brought to account under the

	Land ₹	assessment ₹
Total dittum as per table subjoined to para 13 of report	142139	4386046
D°. as per statet C Cols 292-8293	145405	4449683
Difference	3266	63637

Fort St. George 29th August 1850

the head of ready money collection in State-
-ment C. and that the total dittum assess-
-ment be entered in it exclusive of them.-

Statement C

The total dittum assessment entered in Column 293 of Statement C does not appear to be the correct account-pe-
-rmission on account of taxes and Nut-
-tupaul in fixed assessed villages being included in the total, while they are left out of the items which compose it. Thus adding up the items the result is Rupees 44,21,000. while the total given in the statement is Rupees 44,49,083. so that the difference re-
-sulting Rupees 28077 is equal to

	Rs.
Remission on account of taxes and Nuttupaul	26067
Waste, dry, and garden land in Amanie villages.	2010
	28077

Para 27

8 Of the three villages referred to in this paragraph as having been rented below the standard, one usually rented came under Amanie in fusly 1264. From Statement G it appears that this village is in the Trivalore

Talook

Fort St. George 29th August 1850

Talook and the following tabular state-
-ment shews the particulars of its assess-
-ment.-

Fusly 1263	Land	Produce			Heriz			Increase on price			Total		
	Ds	Gd	Cubs	Mls	Rs.	As	Ps	Rs.	As	Ps	Rs.	As	Ps
Nunja standard	29	12	16	6843	8	1505	13	4	1054	.	8	2559	14	.

Average of 10 years from Fusly 1253 to 1262	29	12	16	6133	10	.	.	.	.	.	.	1360	14	5
Highest year	29	12	16	6843	8	.	.	.	.	.	.	.	.	.
Settt. for fusly 1264	.	.	.	.	.	.	.	.	.	.	.	.	.	.
Standard for 1263	29	12	16	6843	8	1505	13	4	.	.	.	.	.	.
Deduct remission	.	.	.	922	.	199	11	2	.	.	.	.	.	.
Net Settlement	29	12	16	5921	8	1306	2	2	.	.	.	.	.	.
Actual for fusly 1264	29	12	16	5921	8	1684	4	9	.	.	.	.	.	.

as it appears that the standard heriz would have been more than covered by the value of the produce at the prices which ruled in fusly 1264. calculated even on the reduced grain heriz of 5921. 8 Cubs M the grounds for renting the village below the standard are not apparent. the Board further remark that the

the pent affected was more than the average of the previous ten years. The Acting Collector is requested to lay before the Board the particular circumstances which made it expedient to rent this village below the standard beriz.—

Statement D

9 The Board remark that in this statement are entered two jaghire villages in the Codovassel taluk, in which the cultivation nearly reached the standard and the actual produce exceeded the standard it is presumed that these villages were offered on rent to the Meerassidars in the early part of the season, and were finally retained under Amanie, only when it became obvious that the outturn would exceed the standard grain beriz.

10 There is a discrepancy between the statements D and No. 1. in the latter the number of Amanie villages and hamlets is given as 19 and 9 respectively, while in Columns 2 and 3 of the former the number of villages is entered as 19. and of jaghire villages as 11. By jaghire villages the Board understand divided villages part being under Amanie and part being

being rented, but it does not appear on what account 2 villages are entered in No. 1. in excess of the entry in Statement D.—

No. 1 11 Columns 6 and 7 of this statement shew the number of villages and hamlets, under "woloongoo &c.", and the Board consider it desirable that a foot note should afford detailed information of the general terms etcetera. the same remark applies to Columns 12 and 13 of the same statement.—

No. 3 12 In this statement of the details of irrigation, the particulars of the works out of repair are not given as required by the Board's [illegible] it is probable that this has arisen from there being no works in Sanjore permanently out of repair, and the form was of course not intended to include those which may in each year be subject to ordinary repair in future a foot note will shew if this assumption of the Board be correct.—

13 The Collector has omitted to send for fusslies 1203 and 1204 the detailed accounts of the settlement of a village, and copy of a Meerassidars puttah as required by their Circular order. and he is requested now to supply the omission, and to see that

9 Dec. 1846 COB Vol. 3 p. 104
21 Oct. 1839 COB Vol. 1 p. 274

that the order be attended to in future.—

No. 7 4 In this statement which shews the Ayacut of the fixed assessed talooks. the particulars of dry and wet land, which are given for the cultivated lands, are not given for the total Ayacut — the Board further remark in the statement referred to, no mention is made of one year rented villages, and they conclude that the 70 wooloongoo villages are all rented at the standard beriz.—

No. 13 Pro: Dated 4th June 1855. 15 In the Board's Proceedings on review of the settlement for fusly 1263 it was directed that in future this statement should be prepared for the field assessed villages only. but it was not the Board's intention that tarus and nuttapal should be excluded from the statement as appear to have been done in the present year.—

No. 14 16 This statement should in future include cowle remission, which should also be entered in statement No. 18.

No. 23 17 In this statement of the demand Collection and balance on account of Sevoyjumma, the premium on exchange is given but

but it is not exhibited in statement No. 2 of the salt revenue. the latter however contains an entry of the amount of fines, which does not appear in the former, it is desirable that uniformity should be henceforth observed, and fines should be always included under sevoyjumma, and not be incorporated with the Ayen revenue.—

No. 27 18 Of the total amount entered in Column 2 of this statement Rupees 31434 only appear to have been actually collected on account of peishcush or permanently settled beriz, the remainder, being quit rent, which should have been incorporated with shrotriem jodi &c. in Column 8 of the same statement.—

Para 12 19 In this paragraph of his report the Sub Collector announces his having remitted the poossamy and sadeerwared cess in the village of Veeroyakum seroocess transferred from Trichinopoly to Tanjore on account of its bisecting the lower Coleroon annicut which work is under the charge of the Tanjore authorities but the amount thus remitted is

is not stated, and the Board require information upon the subject.

Para 16 20 The sub Collector in this paragraph remarks that the remissions granted in fusly 1264 were less than those in the previous year by no less a sum than Rupees 242.305 but this appears to be an error The remissions were contrasted with those of fusly 1263 over those granted in the field assessed villages only while those with which they are

Para 11 compared were those granted generally for all descriptions of villages compared with the sums remitted in field assessed villages in fusly 1263 the remissions granted under the same head in the year under review were less by Rupees 85.309. and not by Rupees 242.305.

Remissions in Field assessed villages	
1263	86891
1264	1582
Difference	85309

Para 18 21 The Board remark that while in Column 6 of statement No. 22 the sum realized within the fusly in the Sub Collectorate was Rupees 13,38,45-8. the Sub Collector

in para 18 of his report sets it down at Rupees 15.74.983. the latter sum probably includes some subsequent collections, but in so simple a matter more accuracy is desirable.

Difference Rs 2365-25

Collector to Board 31st of August 1855 Inlosn 29th August 1850

22 The only point which it appear to the Board necessary to notice in the Collectors reply to their remarks on his settlement of the extra sources of revenue for fusly 1263 is his explanation in para 3 of the difference noticed by the Board between the amount entered in the quarterly and annual returns of the sale of salt. The Board request that in future both the quarterly and annual return may shew the receipts at the several depots a foot note explaining

15618 Fort St. George 29th August 1856

explaining what proportion of the receipts have been credited in the Collectors treasury.

Ordered that Copy of these proceedings be for= warded to the Acting Collector of Tanjore for his information and guidance.

Bk. No. 1813
From the Collr.
of Nellore

Reporting on the outstanding Balances of the Nellore District for fuslies 1263 & 64 & submitting the further information required by Government.

Sir,

With reference to the 11th para of Extract from the Minutes of Consultation under date 27th September last communicated with the Board's Proceedings of the 16th October following I have the honor to report on the outstanding Balances of this District for Fuslies 1263 & 1264.

Part I
No. 1

2 The accompanying Statement, exhibits the particulars of these arrears they amount in the aggregate to Rupees 27,011-12-4 viz. for fusly 1263 to Rupees 15,903-14-4 and for fusly 1264 to Rupees 11,110-14-0. Of which Rupees 8284-13-0 are due upon Jaroa Shotrums or those in the possession of their Proprietors and the remaining Rupees 18,729-15-4 upon Lefty or those under attachment which are either rented or under the direct management of the Officers of Government. The total number of Villages comprised in

in the Statement is 102 the arrears are heavy owing to the unfavorable seasons of the Fushes in which they accrued. The Balances will be noticed seriatim below.

Survapully Talook.

3 Of the balance outstanding on the Shestrums of the Survapully Talook Rupees 1599-1-5, accrued under Government Management on the villages noted in the Margin in the greater portion of it in the peculiarly unfavorable Season of Fusly 1263. The whole resources and has accordingly been classed as such. Of the Jarce Balance Rupees 947-5-7 that outstanding on the Village of Cusnoor is in process of liquidation. The Balance of Tullapoody must be recovered from the proceeds of the present and future years the village being under attachment.

1 Arnapully pand
2 Nallakulla
3 Pangolaroovum
4 Tullapoody
6 Purla pand
7 Hoodipapully
8 Poongolaroo pand.

Cusnoor - 833-9-10

Tullapoody 69-5-10.

4 The remaining Balance of Rupees 44-6-9 due on Arnapully pand the Shestrumdars demur to pay alleging that a portion of their land has been appropriated under the North Arcot Trunk Road, and

a

and a subsiding channel. This subject is under enquiry and will be reported on separately as regards the Compensation if any to be given to the Proprietors pending which I propose to retain the arrears in the accounts.

Total Talook

5 The balance in this Talook is but small and is outstanding upon two Villages both in the possession of their Proprietors. The arrear due on Pannavole has been reconciled. That on Uddapully is very nearly equal to the amount of the Go-de. The Proprietors have offered to liquidate it by three instalments and it is consequently classed as reconcilable.

The Jarce balances due upon the Villages in this Talook noted in the Margin may be expected to be collected hereafter. The arrears on Anantapooram are not considered recoverable in consequence of the loss stated to have been sustained by the Shestrumdars on account of which the late Acting Collector Mr Ratcliff suspended their collection and recommended

a reduction of the annual Jodee of Rupees 283-4-6- Of the Fusly arrears of Rupees 206-9-8- on Ambenpooram for fusly 1263 Rupees 1-9-2- is recoverable being the balance due on the actual outturn, the remainder is irrecoverable for want of resources- The Jamee balance for fusly 1264 Rupees 4-10-- may be expected to be shortly recovered- The balance outstanding on Daivanapollam is what accrued when the Village was in the possession of its Proprietor and is little short of the full Jodi owing to the adverse season of fusly 1263- The Village is now under attachment for this balance but as the outturn does not appear likely to exceed the annual fixed demand the Balance is classed as Irrecoverable.

N: 13.

7 The balances due on the remaining Villages noted in the margin N:s 15 to 20 have accrued / with the exception of the Gungavarum balance for fusly 1263 / while the properties were made Zuft, and have been classed as irrecoverable from want of

N:s
15 Gungavarum
16 Ogoorpaud
17 Gundlapollam
18 Vissavanbaty-paud
19 Pallipaud
20 Rendavissa Vanibaty paud

of resources, excepting small sums due on the actual outturn which may be expected to be recovered- All these Villages are now under Circar Management /except Vissavanmibaty paud which has been recently released/ There is little prospect of their current resources coming even up to the amount of the current demands against them, and there consequently seems no use in retaining these arrears in the accounts-

8 The Jamee balance of Rupees 961-15-7 for fusly 1263 on Gungavarum is also classed as Irrecoverable the Village is under attachment and the outturn of the current year an favorable season being estimated to fall short of the Jodi there seems no prospect of the arrear being realized-

9 The Proprietors of Ogoor paud and Rendee Vissa Vanmillaty paud have declined to receive possession of the Villages in their present Jodi and they have consequently been Kept under Government Management under the directions conveyed

conveyed in para 8 of the Extract Minutes Consultation.

Talammacherry Talook

1st Woochagounta pollem
3d Hanthum Butta Hundrega.
4th Vellpodoo
5th Khanata Poutta do.

10 The small balances on the 1st 3d 4th & 5th Villages noted in the margin and the balance of fusly 1263 on the 2d have been collected since the 31st December last to which date the Balance are brought down in the Statement. The balance of fusly 1264 on Woolavanpolla is outstanding in consequence of disputes among the Sharers, but may be expected to be shortly recovered. The other Villages Nos 6 to 13 are what accrued under Circar Management and are classed as irrecoverable with the exception of the balances still due on the actual outturn which may be expected to be collected.

+ No 2.

11 Very nearly the full amount of the Jodi is outstanding in the Villages of Toonmargounta for fusslies 1263 and 1264 in explanation of which I beg to state that the Tank of this Village was destroyed by the Pennar inundations which occurred in 1852 and

land has not been since restored. The Village has been abandoned and the Proprietors have lately requested that it may be resumed and incorporated with the Government Villages. Measures have been adopted for putting the Tank in repair, and the Village will be managed under the instructions conveyed in para 8 of the Government Minutes. The Shrotriemdars of Anbor pand and Pulla pole have declined to receive possession of the Shrotriems on the present Jodi.

Dungum Talook

12 The first village of this Talook in the Statement is generally. This is one of the 21 Villages on which Mr Ratcliff recommended a reduction of Jodi and pending the orders of higher authority he suspended the collection of a portion of it equal to the amount of the loss [Rs 170-10-9] as ascertained by Mr Goodwin examination and made over the Village then under attachment to the Proprietors. The balance outstanding for fusly 1264 is accordingly very nearly equal to this amount. That of fusly 1263 is somewhat larger but the difference will be collected hereafter. The

Shrotriemdars

Fort St George 29th August 1856

Shrotriemdars now plead their inability to pay the remaining balances of these two Fusslies. The decision of Government regarding the proposition to reduce the Jodi has been communicated to the Proprietors and a failure to pay the full demand hereafter will involve the forfeiture of the Shrotriems, under the terms of that decision I request instructions, as to whether the outstanding arrears the collection of which was suspended by the late Acting Collector should now be enforced or not.

13 The arrear of Fusly 1263 on Valagiri Tapollem having accrued under Circar management is classed as irrecoverable of that fot fusly 1264 Rs 21-1-6 may be expected to be recovered the remainder the Shrotriemdars state themselves unable to pay. Their case is similar to that of the yearly Shrotriemdars above stated, and the orders that may be passed regarding the balance due by the one will be applicable also to the other. The same remark also applies to the Balance of Rupees 158-1-8 outstanding

Fort St George 29th August 1856

+ No 5

outstanding against Sujjapooram.

14 The small balances on Jungle Cumdrega, Woolpooloor and Buttoolaypully -pand will be collected hereafter.

+ No 7

15 The arrear upon Seroovee + the pand for fusly 1263 having accrued under Bust is classed as irrecoverable except Rupees 121-4-7 which is the balance on the actual outturn nearly the whole amount of the Jarsee Balance of Rupees 182-15- has been recovered.

8 Moonalapoody
9 Punchaty Cumdrega

The balances on the two most 16 Villages No 8 & 9 having accrued under Circar Management are classed as irrecoverable for want of resources. That on Tenl poor pand has been collected.

+ No 10

Cavaly Talook
1 Mullumpollem
2 Siddavarum Venkatesapollem
3 Woomamma Narsiarapooram

The arrears on the 1st 17 and 2d Villages have been collected The 3d Village is under attachment and the Sub Collector considers it questionable if it continues so whether any portion of the balance can be collected. The owners have agreed to pay one third of it if the

+ No 4

the Village be restored to them, and the rest is classed as irrecoverable. Of the arrears on Allemadoogo, that of Fusly 1264 may be excpected to be collected hereafter, that Fusly 1263 is the full amount of the Judge. The Shrotriemdars state themselves unable to pay it, owing apparently to the adverse season of the year for which it is due and it is recommended by the Sub Collector to be written off.

5 Nuragunapooram
6th Dummagyy Dummy

18 The Balances on the remaining two Villages Nos 5 & 6 being Fusly balances are classed as irrecoverable.

Sommulkatpoor Talook
1st Shecham
2d Malichadoo
3d Calchedoo

19 The arrears outstanding on the 3 Villages in this Talook have been partly recovered and the remainder may be excpected to be realized shortly.

Ravoor + Talook No 1

20 + Timmiapollem in this Talook is another village on which Mr Ratliff recommended a reduction of Jodi and pending the orders of the Board suspended the collection of a balance equal to the amount of

of the ascertained loss viz: Rupees 121-3-. the arrear actually outstanding however [Rs 155-6-8] for each of the two Fusleis somewhat exceeds this amount and is equal to the amount of the remission originally recommended by the Talook Officers. The difference between the two sums should certainly be recovered and has been classed accordingly as regards the remainder the orders passed respecting the other three Villages already noticed similarly situated will apply to this also.

+ Yellakully Valegumtapollem Singapooram

+ No 2

21 The small balance on Cheravala Cundrega may be excpected to be recovered hereafter.

Calagherry Talook + No 1

22 The balance of Fusly 1263 on + Stumpand having accrued under Circar Swanagement is classed as irrecoverable that of Fusly 1264 has been subsequently collected. The balance on Dorbagoontah this appearing in the accounts as for Fusly 1264 is in reality due for Fusly 1263 certain payments made by the Shrotriemdars on account of the demand for Fusly 1264 having been

Fort St George 29th August 1856

been carried to the credit of Fusly 1263
The Jodi of the village is large and the
Proprietors represent themselves unable
to pay the outstanding balance because
of the unfavorable season of fusly 1263
as I see no prospect of recovering the
balance except by Bufting the village
which is of very doubtful expediency
it is classed as Irrecoverable The balance
+ N° 3. on Book Kaporum is Irrecoverable
being the amount erroneously charged
in the accounts on account of Rot-
-toomes.

23 Of the balances on the three
remaining Shrotriums N^os 4-5 & 6
those on the first two have been
collected and that on Bedagoda
-pond may be expected to be
collected from the resources of
the current Fusly.

24 The small balance
in the Woodinghenny Talook has been
lately recovered and that in Sydu-
-poot may be expected to be
collected

4° Chendrapadega
5° Lengalapand
6° Bedagodapand

Woodinghenny &
Sydapoot Talooks

Fort St George 29th August 1856

Collected Shortly

25 The Sub Division Balances
remain to be noticed These are outstand
-ing on 30 Villages and amount for the
two Fuslies under report to Rupees 1955-
5- 10- The Sub Collector considers Rupees
460 - 5 - 3 - of this to be recoverable and
the remainder Rupees 1495 - " - 7 - irreco-
-verable on the Grounds set forth in his
+ N° II communication of the 10th December 1855
of which is herewith submitted
a Copy

26 The total aggregate balance
for fuslies 1263 and 1264 thus amounts to
Rupees 27014 - 12 - 4 - of which Rupees -
4295 - " - 10 - is classed as recoverable
Rupees 1300 - 5 - 6 - as Doubtful, -
pending the decision of the Board and
Government and the remaining Rupees
21419 - 6 - " - as Irrecoverable and I have
the honor to solicit sanction for writing
off this latter sum in the accounts.

Part II 27 I now proceed to submit the
further

Fort St George 29th August 1856.

further information required regarding the still remaining balances to the end of Fusly 1262 after deducting the sums already allowed to be remitted.

28. The amount of the arrears to the end of Fusly 1261 engaged to be paid within Fusly 1264 was Rupees 4017-3-5-4. Of this Rupees 2854-5-4 have been collected to the end of December last leaving Rupees 1162-14-- outstanding on the Villages noted in the Margin as shewn in the enclosed Statement.

+	
1 Yelawunchy pand	
2 Valegumtapollam	
3 Yerrabully	
4 Cutchadoo	
5th Stumpand	
6th Nellorepollam	
7th Pydepand.	

29 The balance on Yelamunchy pd is due this Fusly, and may be expected to be collected that on Valegumtapollam has been recovered. The arrear on Yerrabully has been subsequently collected with the exception of 9 Annas but having been credited in the Sabah in liquidation of the balances of Fusles 1262 and 1263;

Fort St George 29th August 1856.

For fusly 1262	54	13 9
" fusly 1263	99	7 --
	154	4 9

3

in the proportions noted in the Margin the Amount still appears as an arrear in the accounts and is Irrecoverable.

The Cutchadoo balance will be recovered from the excess of the rented Beriz over the Jodi. The arrear of Rupees 76-3-11 on Stumpand has been collected. The balances on the remaining Villages of Nellorepollam and Pydepand are of old standing being due for Fusles 1223. 1230. 1251 and 1254 respectively. The Proprietors plead their inability to pay them and as there seems no prospect of realizing them except by uprooting the Villages they are now classed as Irrecoverable.

Not.

Cumdrega
Obanapollem

The

No. 4-6-9
Est. Mr. Com. Para 11

34 The balances on Yerrabully Sygapooram and Tummiapollem remain to be noticed.

35 The arrear in Yerrabully elapsed by Mr. Ratliff in his last report as Irrecoverable was Rupees 71—1—8 but the amount now outstanding in the accounts is only Rupees 16—3—11 the difference Rupees 54—13—9 paid by the Shrotrimmdars on account of the balances previous to Fusly 1261 having been credited in the Jaloo R on account of Fusly 1262 as already stated above. The arrears outstanding on Sygapooram and Tummiapollem are what were recommended by Mr. Ratliff to be written off as Irrecoverable, and the ground of the recommendation in these cases as in that of Yerrabully was that certain lands Wet and Dry in those Villages had been rendered unfit for Cultivation. On this point the Government adverting to the defective Survey and Assessment of this District desired to have before them some more certain information as to the extent and value of the lands thus represented to have become unprofitable.

Para 29

36 On referring to the records of inquiry in each of these cases it appears with regard to Yerrabully that on the Proprietors preferring a

a claim to compensation in consequence of the damage alleged to have been occasioned to their lands by the inundations of 1852 the Tahsildar was directed to examine the lands and report. The result of his inquiries shewed that G. 44-15-5 of Dry land valued at Rupees 229-14-10 had been cut up, and rendered unfit for Cultivation. There was afterwards a Check examination by a Hoozoor Goomastah deputed for the purpose whose report gave the loss at G. 36-5-0 Valued at Rupees 188-12-0.

37 There was a third and further examination by the 2d Assistant & Shereistadar, and the exact extent of the loss as ascertained by him by actual measurement was G. 36-8-4 of Dry land apeseed at Rupees 170-10-0. which was the amount recommended by Mr. Ratliff to be reduced from the Jodi. The above valuation is according to the rates at which the lands had previously been given for Cultivation by the Shrotriumdars, and seems moderate compared with the average rate of the surrounding Villages according to which the apeesment of the land in question would amount to Rupees 229-6-9

Rs. 6-7-0 as per G. Gorlu

38 In the case of the next Village viz Sryyapooram the Tahsildars report was verified by two check examinations. The loss occasioned to the lands of this Village by the Pennar inundations of 1852 as ascertained by the Tahsildar, was Rupees 367-6-6 and it was confirmed by two subsequent inspections by a Shereistah Goomastah and the 2d Assistant Shereistadar Deputed from the Hoozoor Considering however, that the Dry and Wet lands this much damaged, could gradually be reclaimed at a future time, and rendered fit for Cultivation again, the Acting Collector confined himself to recommending the remission from the Jodi of the loss on the Mooloom lands. The apeesment entered in the Margin Rupees 367-6-6 is calculated at the low rates at which the lands were rented out by the Shrotrimdars for Cultivation. The fixed demand on this Village was formerly Rupees 573-13-9 but as some lands were lost under a River channel excavated through the Shrotrium fields the Jodi was reduced in 1851 to Rupees 383-2-1 under the sanction of Government noted in the Margin.

Dry	36	15	0

Extract from the Minutes of Consultation 11th Dec. 1851

39 In the case of the remaining Village Tummiapollem the Tahsildars Statement of the loss was G. 8-5-8. apeseed at Rupees 155-10-0.

A.

No. + III
+ dated 9th March 1855

A subsequent examination by the Head Assistant Collector reduced this amount to Rupees 121—3—4 which is the sum recommended by Mr Ratliff to be remitted from the Jodi Copy of Mr Morris'+ report on the subject is herewith submitted.

40 under these circumstances the balances in the three Villages above noticed seem irrecoverable but pending the decision of the Board and Government are classed as Doubtful. Should Government eventually resolve to sanction any reduction of Jode on these Villages with reference to the concluding part of Para 11 of the Extract Minutes of Consultation under reply, it seems but fair that the other Villages which have also suffered from the inundations and for which reason the Acting Collector recommended a reduction of Jodi, but on which Government have passed the decision recorded in para 8 of the same Minutes, should also receive similar consideration.

41 Thus the aggregate arrears to the end of Fasly 1262 outstanding on the 31 December last amounted to Rupees 28788—13—10 of which Rupees 5763—4—4 have been classed as recoverable, Rupees 1867—1—6 left for the disposal of the Board and Government and the remaining Rupees 21158 11—0 classed as irrecoverable under the circumstances referred to in the foregoing paras

Balance previous to Fasly 1262 } 1162—14—0
Fasly 1262—611—3—6
" 1263—15903—15—4
" 1264—11110—14—0
28788—13—10

paras. I beg accordingly to recommend that the sanction of Government may be obtained for writing off this last amount in the accounts.

Extract Minutes of Consultation Para 7

42 Referring to Mr Ratliffs recommendation for reverting to the former Jodi on the Munningky dimay Sirotrum the Government remark, that "as no reason "appears to have been recorded by Mr "Travers for raising the Jodi it seems not "improbable that the amount fixed "by him, and which it must be observed "had been paid in former years was consider- "ed to be the equivalent of 200 Pagodas and "before acceding to the recommendation they "call for some accurate information on "this point and as to the current value "of the Pagoda in use in Nellore at the "close of the last century On referring "to the Official records of the time it is "found that in Fasly 1208 the Village was "abandoned by its owners in Consequence "of an unfavorable season, that in Fasly "1209 the tank having breached from "excessive rain the Village yielded "nothing and that in Fasly 1210 it was rented "out for 250 Pagodas that this being in "excess of Mr Brightons Jode was fixed by "Mr Travers as the future Demand the "equivalent of this sum in Company's Rs "being 962—8—0, at the rate of 385 Rupees

Vide Mr Travers Jamabundy Report for Fasly 1211 para 12.1

pes

Fort St. George 29th August 1856.

per 100 Pagodas which was the authorized rate of conversion at the time as appears by an order of Mr. Traners dated 16th August 1803 The value of the Madras Pagoda was thus assumed at 385 Company's Rupees; tho the Bazar rate would appear to have been 4 Rupees as at present

43 In the 9th Para of the Govern: ment Minutes explanation is called for on certain points relative to the four Villages under Rents. Referring to the Statement of the particulars of these Villages submitted with the Acting Collectors Report the Government remark that on Mulchadoo Gottlupollem, and Vencanapoorum no arrears are shewn prior to 1262 being the first year of the lessees in the first two cases. In reply I beg to explain that at the date of renting out these Villages there were no balances outstanding against them as shewn in the Margin but as they were subsequently written off in the accounts under the Sanction of Government dated 2d June 1854 the arrears which were due on them at the date of Mr. Ratliffs report were alone shewn in Statement C. which accompanied it.-

44 Mulchadoo was rented by the Proprietors themselves, tho only for 3. and not for 4 years as shewn in Mr.

	Fasly	Rent
Mulchadoo	1263	253 — 0
Gottlupollem	1263	1270 — 8
	1264	5796 — 11

	1264	8573 — 7 — 10

† Mulchadoo 2 — 8 — 0
Gottlupollem 4 — 8 — 0

Fort St. George 29th August 1856.

Mr Ratliffs statement this term having expired the Village has been lately made over to the owners. The Shrotrium of Gottlupollem also was rented with the concurrence of the Proprietors at the Renters security having died and the renter being unable to find another competent one and having requested that the lease might be cancelled the Village was again taken under Amany and is now under the direct management of Government. The Shrotrumdars have offered to take it back from the ensuing Fasly and is abide by the orders that may be passed by Government respecting the unfly balances of Fasles 1263 and 1264 now reported on. The Village will accordingly be made over at the Commencement of the ensuing Fasly:

45 The rent of Vencanapoorum was concluded with the Consent of the Shrotrumdars and will expire with the Current Fasly:-

46 In respect to the remaining Village Culchadoo I beg to explain that in consequence of disputes among the different sharers of the Shrotrium it

Fort St George 29th August 1856.

Shotrum it was necessary to rent out the Village as the most eligible arrangement that could be effected, and the only means of recovering the balance outstanding as owing to internal disputes. There was no prospect of otherwise realizing the dues of Government. The rent Rupees 318-10-6 in excess of the Jodi will expire at the end of the next Fusly 1266 but there still remains a balance of Rupees 563-10-4 due on the Village for former Fusles. The Collections for Fusles 1263 and 1264 are shewn in the Margin in the balances remaining uncollected under the lease are owing to outstandings between the Renters and the Shotrumdars who have Rhas Cultivation in the Village. Measures are being taken for realizing the balance of Rent and when the arrears of Jodi amounting as above stated to Rupees 563-10-4 are liquidated, the Village will be released and made over to the Shotrumdars subject to the conditions subsisting between the Government and the Renters if the rent has not by that time expired.

Fort St George 29 August 1856

47 The course followed in renting Shotrum Villages under attachment is to invite tenders and accept the most eligible Offers.

48 As regards the Principal Division these rents are invariably settled by myself in person. They are not literally put up to auction which Course would not I consider be desirable in itself or in accordance with the instructions received from the Board which will be found in the correspondence noted in the †Margin, but the principle of competition enters largely into the System. Though I should not hesitate to rent the Village to one or more of the head inhabitants whose offer might be equal or very nearly so to that of a Stranger rather than hand over the Village and its ryots to the latter to be made the most of by him.

49 It appears from the accompanying Copy of a Communication from the Sub Collector that he has lately endeavoured to dispose of the attached Shotrums by public auction but that Considerable

considerable difficulty is experienced even

50 For the reasons above stated I do not approve of disposing of Villages by public auction where an eligible offer can be otherwise obtained.-

51. The information required in the first part of Para 9 of the Board's Proceedings under reply not having been completely furnished by the Sub Collectors in whose Division 3 of the Shotrums alluded to are situated this Part will be answered separately hereafter.-

52 In conclusion I beg to state that there were 11 Villages under suit at the date of the receipt of the Extract Minutes of Consultation under reply to which the orders of Government conveyed in Para 8 were applicable. Of these the Proprietors of 11 Villages have either already taken possession of them or have stated themselves to be willing to do so from the Commencement of the ensuing Fasly. The owners of 4 more have declined

15645

Fort St. George 29th August 1856.

+ Toonniagoontah

declined to receive back the Villages on their present Jodi while in one case the Shrotriem + dars have given up the Village, and requested that it may be resumed and incorporated with the Government lands.-

Nellore, Collector's Office, 23d May 1856.

/Signed/ F. B. Elton.
Collector.

Fort St. George 29th August 1856

No 102

To

J. B. Elton Esqre

Collector

of Nellore.

Sir,

I have the honor to forward a Statement of the Shrotriem Balances in the Sub Division as called for in your yadast of the 2d Ultimo forwarding Extract from the Proceedings of the Board of Revenue under date 16th October and from the Minutes of Consultation under date 27th September 1855.

In adding such information as appears necessary to support the recommendations for remission made in the enclosed Statement I will first advert to the case of those Villages in which small arrears for fasly 1262 were in the last year recommended by me to be written off, and on which explanation is called for in Para 12 of the Minutes of Consultation under reply.—

The

15657

Fort St. George 29th August 1856

Abstract

| | | |

3 The first of these Villages is Razzoopolem in Buddapudy Talook. Though the arrears for fusly 1262 were in themselves trifling it will be seen that none of the Jodee was paid in the succeeding year on account of there having been no cultivation of any kind which in this Village is chiefly wet. In fusly 1264, its Tank also received a very poor supply of water, not sufficient to bring the crop to maturity. The village is now under attachment for the arrears of fusly 1264 but I think it doubtful whether even the Rupees 20 I have entered as recoverable can be realised in addition to the Jody of the current Fusly while the village is under Circar Management.-

4 The next village with arrears for Fusly 1264 is Peerapuram Manadalavari Kandriga in Dawgudoor Talook. The Jody of this Village is not high but it suffered much from the floods in Fusly 1263 and the drought in Fusly 1263, and on enquiry into its condition last year I was fully convinced

convinced that the recovery of the arrears for those two years was impracticable. This village is now under attachment for the further arrears of Fusly 1264 which ought to be recovered.-

5 The two remaining Villages with arrears for Fusly 1262 Viz. Moopalakasaramvary Kandriga in Dawgudoor, and Volanapalem in Emamanamelloor Talooks have both been under attachment for many years, and as the arrears have accrued under Circar management they must be unquestionably considered irrecoverable. Neither of these villages would the Shrotriemdars take back without some reduction on the present demand.-

6 In the Report on the Shrotriem balances which I forwarded to the late Acting Collector on the 7th of April last, the arrears of Fusly 1263 were included and almost entirely recommended for remission. From the tenor of the Minutes of Consultation under reply, I fear that such a recommendation

recommendation on my part may be considered as too sweeping and would have record the reasons which influenced me at that time as after informing the Shrotriemdars that I had recommended those arrears for remission I should not feel justified in now recording a different opinion.—

7 Fusly 1263 was as is well known a most disastrous season for the Agriculture of this District. The wet cultivation was a Complete failure, and even in the Dry very large remissions had to be made in all the Government Villages the demand on which for that year having been reduced at least one third below its average amount in the Sub Divn.

If the Shrotriems in this District were lightly assessed it would be very reasonable not to include the Shrotriemdars in the general remissions granted in such a disastrous season as that in question, but as this is notoriously not the case, and it was the intention

of

of Government on sufficient reason being shown, to reduce the Jody on such villages as were heavily assessed and to place the whole of them on a satisfactory footing if possible I felt it my duty to recommend for remission the Balances of that Fusly, when it was evident from the enquiries I made, that in almost every village more money had been paid to Government on account of Jody than had been realised by the Shrotriemdars from their Tenants, I have since seen no reason to alter the opinion I then formed.—

8 Fusly 1264. which succeeded it was not a very favorable year for Agriculture, at least not to an extent sufficient to enable the Shrotriemdars in general to pay off heavy Balances that had accrued during the previous year of Scarcity. Experience has shewn, that unless by at once forcing the Shrotriemdars to pay up a Balance to free their lands, their resumption does not tend to the recovery of old arrears which on the contrary rather accumulate under

Fort St. George 29th August 1856

under Circar Management which has
hereto fore been attended with Extra Expenditure
Under these circumstances I have thought
it but just to recommend for Remission
those arrears for Fusly 1263 which have
accrued from the Misfortune, and not
from the fault of the Shrotriemdars.

9 The above reasons do not extend to
the arrears for Fusly 1264 The principles
on which these Shrotriums should in future
be managed is fully laid down in Para 8
of the Extract Minutes of Consultations with
reply, and there is no reason why these principles
should not be acted upon with respect to the
arrears for this Fusly, although not a
very favorable season it was not, generally
speaking the reverse, though one or two ex-
ceptions occur- in villages in which the
chief wealth consists in wet cultivation
which will be referred to separately. The
great mass of the Shrotriums however es-
pecially in the Danagudoor Talook
depend

Fort St. George 29th August 1856

depend chiefly on their Dry cultivation
which was certainly successful in Fusly
1264, and I cannot but attribute the great
amount of arrears in that Talook to a
mistaken notion amongst the Shrotriumdars that I should be willing to abandon
the just claims of Government because
I had exhibited leniency towards others
in a very different position. I consider that
all the arrears for Fusly 1264 ought to be
collected, and that in cases of non payment
the principles laid down by Government
should be at once carried out. Leniency
now, would only lead to the necessity of
acting on these directions next year,
and any delay in the matter appears
quite uncalled for.-

10 The villages of Bayyapalem and Va-
lanapalem with arrears for Fusly 1264 either
partly or wholly irrecoverable have been referred
to in previous paras, another village Singavaya
Konda has also arrears for this Fusly a part of which
I have entered as irrecoverable.-

15665 Fort St. George 29th August 1856

This Shrotrium has been most unfortunate in its cultivation both for fusles 1263 and 1264 and I believe that great efforts have been made to pay its Jody and preserve it for the Pagodah to which it belongs. It is now under attachment for the arrears of Fusly 1264 and if it remains under Circar Management I do not think that there is much chance of any of the arrears being recovered. Of however all the arrears except Rupees 50 be written off there is a probability that the Shrotriemdars would again make an effort to redeem this village especially as the present season is a favorable one for wet cultivation I need hardly state that a far greater Revenue can be raised from any village by the exertions of its owners, than is possible under the management of the Talook officers.—

11 I have not thought it necessary to make minute enquiries into the condition of the various Shrotriemdars who have fallen into arrears

15666 Fort St. George 29th August 1856

arrears for the last Fusly, which would take much time, and cause delay in the despatch of this Statement. There are some villages that from the weight of their Assessment must always remain in arrears, which will certainly not be cleared off by their attachment But if such arrears were now written off as Irrecoverable before any attempt were made to realise them by the attachment of the Village the same thing would be renewed next year, without a reduction of the Jody, a temporary leniency in such cases appears to be a questionable kindness.—

No 3

To J. Pattisse Esqre
Acting Collector of Nellore

Sir, I have the honor to inform
You

Fort St. George 29th August 1856

you that I have been to the Shrotriums of Timmanapollem in the Ravur Talook in accordance with your request expressed in the Telugu yadast No 130 from your office, and that I have seen the lands reported by the Tahsildars as unfit for cultivation.—

2. The Tahsildars opinion as recorded in the Statement which I have marked A, is correct with the exception of the remarks referring to Nos 3 and 4 of that paper.—

3. The dry lands referred to under the latter of these numbers can again be brought under cultivation, if the proprietor is disposed to do so and of the 3 Goorsoos of irrigation land referred to under the former 1/4 of a Goorsoo in one place, and a little more than 3/4 of a Goorsoo in another have been sown with horse gram, &c and can still be cultivated as dry land, while a little more than 1/4 of a Goorsoo can be again converted into Magane.—

The

Fort St. George 29th August 1856

4. The remainder of the land in question is utterly destroyed. The greater part of it was, I am informed, mullum which is now covered with sand and has formed part of the river Pennar since the inundations of 1851 and 1852.—

Memo

In acknowledging the Collectors Memo No 52 of the 16 Instant the Sub Collector has the honor to report that until recently the course followed in the Sub Division in the Renting of Shrotriums under attachment, was for the Tahsildar to invite Durkhasts for the Shrotriums and when he had succeeded in obtaining any thing like an eligible offer to report the same to the Huzzoor, when the matter was considered by the Sub Collector in Consultation with the Sheristadar and the

15669 Fort St. George 29th August 1856

the highest offer obtained was finally accepted or rejected according to the circumstances of the case.

Since the views of Government on the question of adjourned Sales, has been published the Sub Collector has endeavoured to follow as far as possible the system laid down by the Government and to conduct the sale of attached Shrotriums by public biddings in his own Cutcherry.—

In this as in all other cases of Sales of any kind the difficulty is to obtain the presence of bidders at the time prescribed. Punctuality in such matters is a thing not understood by the Natives in these parts, and there exist very great difficulties in carrying out strictly the views of Government in this matter.—

It is easy to advertise a sale on a certain date but in this District, Bidders have to be sought for and personally applied to, to come forward, and without some such efforts as being made, the attempt to hold a public sale is passive from the first, by the absence not merely of competition but often of a single Bidder.—

No. 120

To G. S. Forbes Esqre
Secretary to the
Board of Revenue.
Fort St. George

1258

B. No. 2152.

From the Collector of Nellore.

Sir,

With reference to para 51 of my Report of the 23d Ultimo on the subject of Shrotrium Balances in this District, I have now the honor to reply to so much of para 9 of the Boards Proceedings of the 13th August last as still remains to be answered.—

2. The Board enquire why 4 of the Shrotriums entered in Statement B which accompanied Mr. Ratliffs letter of the 13th April 1855 do not appear in Mr. Travers's Register Books. It has not been clearly ascertained what Registers are alluded to, but it is found that Munnungy dinnay and Kristnapoorum are entered in a List of Shrotriums submitted to the Board by Mr. Travers with his Jummabundy Report for Fusly 1211. The payment of the Jodi upon the latter, however, having been shortly afterwards alienated by that Officer to

× Munnungy dinnay
Peddacholavaury
Cundrega
Kristnapoorum
Janardanapoorum.

Vajella

Fort St. George 29th August 1856.

Vajella Lutchmenursimmaraze a descendant of the former Zemindars of Goodlur in this District, the Village in question ceases to appear in the Accounts as a Shrotrium from that time to Fusly 1236, when it was again brought under that head by the payment reverting to Government. In the interval referred to Kristnapoorum appears in the accounts as a Surva Enam.

Vide Summadundy Report for Fusly 1236 dated 28th June 1827 para 32.

3. The other two Villages Viz. Peddabhutlavaury Cundrega, and Janardanapoorum are not strictly speaking Shrotriums, but Cundregas or portions of entire Villages, and probably from that cause were not included in the Shrotrium Register, tho' other Cundregas were included. The precise cause of the omission therefore of the two under reference cannot now be traced.

Nellore, Collectors Office, 10th June 1856.

(Signed) F. B. Elton
Collector.

B. R. 2791

Resolution thereon.

1257-1259

Resolved that the letters above recorded and the enclosures

Fort St. George 29th August 1856.

of the first be submitted for the information and orders of the Right Honorable the Governor in Council with reference to Extract Minutes Consultation dated 27th September 1855 No. 1890.

In Cons. 16 Oct. 1855

2. From the Statement furnished by the Collector it will be seen that the total balances outstanding against 102 Shrotriums 172 of which are in the principal, to 30 in the Subdivision & which bear an annual Jody Berij of Rupees 49068 — 2/ for Fusslies 1263 & 1264 amounted to Rs. Rupees 27,014-12-4 27,014 — 12 — 4 Of this sum Rupees 4295-0-10. are classed by the Collector as recoverable Rupees 1,380 — 5 — 5 as doubtful and Rupees 21419 — 6 — as irrecoverable only Rupees 8284 — 13 of the aggregate balances are due on Shrotriums in the possession of their Proprietors, and the remainder Rupees 18729 — 15 — 4 on those under attachment The Board have added red ink notes to the Statement showing the reduced Berij which the Acting Collector Mr. Ratliffe proposed for some of the Shrotrium Villages in his letter of

As. Fusly 1263 — 15903-14-4 1264 — 11110-14-4

In Cons. 21st May 13th April 1855.
1855

Trinl. St George 29th August 1855.

3. The sum entered under the head of "doubtful" is due by the Proprietors of the following Shetarums.

Dist. Div.

Gerrabelly	Rs	340	12	5
Polegantapallum	"	258	9	1
Sujjapooram	"	458	10	"
Timmayapallum		242	6	"
		1,300	5	6.

These balances accrued in consequence of the late Acting Collector having suspended the Collection of a portion of the Jody equal to the amount of the assessment of certain lands rendered unfit for cultivation by floods pending the orders of Government on the recommendation for a permanent reduction of the Quitrent of these Estates. The difference between the sum thus left uncollected & the arrears will be recovered hereafter. but the remainder the Shetarundars plead their inability to pay. as the Shetarundars were led to believe that some reduction would be made in the Jody of their Estates. the Board are of opinion that the balances due by them should be remitted. The

Trinl. St George 29th August 1855.

1. The Board approve of the Collector retaining in the accounts the arrears / Rs 44-6-9 / due by the Shetarundars of Anoopully pond. pending the result of the enquiry being instituted into the allegation that a portion of their land has been taken up for the Northern Trunk Road.

para 3 @ 25 Letter 18th Oct 1855 Encl 2 in Mad. Pub. 23 May 1856 Cons 29th Augt 1856

5 For the reasons assigned by the Collector and Asst Collector for the remissions of the arrears outstanding against the several Shetarundars in their Divisions & as the several Items of Jodies 1263 & 1264 were unfavorable & the greater portion of the balances accrued while the Estates were under Circar management the Board recommend that sanction be granted for writing off in the accounts of the District the doubtful as well as the irrecoverable arrears, amounting together to Rupees 22719-11-6. as the Government have declared their intention of exacting the full payment of Jodi in future pending any changes arising out of the Inam Survey

Collectors Statement that of the Sho-
=trium balances of Fasly 1262 not
sanctioned by Government amounting
to Rupees 728–5–3 / to which must
be added Rs 2–8–7 on account of
the arrears against the Sungala Ca-
=lachadoo & Poolapooram Shetriems
which were omitted by an oversight
Rs. 159–6–10 have since been collected
leaving Rupees 590–7–6 still outstand-
=ing. Of this sum Rs 149–1 due by the
Shetriemdar of Ponjoor pand is
classed as Recoverable Rs. 174–10
as irrecoverable and Rs 366–12
as doubtful.

8. The balances entered as "doubt-
=ful" are due by the Ryotwars of the
Yerrahilly, Sujjapooram and Tiru-
=maya palliem Shetriems. Regarding
which Government called for fur-
=ther information in para 11 of the
Extract Minutes Consultation under
reply, since then the balance against
the first Village has been reduced
from Rupees 71–1–8 to Rs. 16–3–11 by
the payment of Rupees 54–13–9.

The Collector explains that

para 34 @ 40.

*The amount given in the Collectors Jumma Statement Rs 611–3–6 subsequent Collections have reduced it to the figure here given.

Dated 27th Sept 1856
Cons. 16 Oct 1856
N. Nos.

Surrey, this course seems advisable in
order that those Shetriemdars who have
contented to undertake the Manage-
=ment of their Villages may commence
free from embarassment.

6. A Sum of Rupees 2854–5–4 has
been collected of the balance of Rs
4017–3–4 to the end of Fasly 1261 en-
=gaged to be paid within Fasly 1264
by the Proprietors of the Shetriems
marginally entered, leaving Rupees 1162–
12–– still outstanding. Of this amount
Rupees 798–3 is stated to be recover-
=able and Rupees 364–11 irrecoverable
in which latter sum is included
Rupees 154–4–9 paid by the She-
=triemdars of Yerrahilly on account
of the balances pursuant to Fasly 1263
but credited in the Talooks to the
arrears of Fasslies 1262 & 1263. under
the explanation afforded by the Col-
=lector the Board recommend that
sanction be granted for the remit-
=tance of the irrecoverable balance
amounting to Rs 364–11.

11.— The total Remissions recommended for the Sanction of Government in the foregoing paras amounts to Rupees 23,625—12—6, as particularized below.

Arrears for Fasly 1263 & 64	Irrecoverable Rs	21419	6
	Doubtful	1300	5 6
		22719	11 6
Arrears to the end of Fasly 1261.	Irrecoverable	364	11 0
Arrears for Fasly 1262	Irrecoverable Rs	174	10 0
	Doubtful	366 12 0	541 6 0
	Total Rs		23,625 12 6

12. The Collector reports that of the 16 Shrotriems under attachment to which the orders of Government are applicable the Proprietors of 11 have either already taken possession of them or have expressed their willingness to do so from the commencement of the ensuing Fusly. The owners of the Shrotriems of Pijoorpaud Poudoor Hissa Vasit-tapaud Auloorpaud & Dallapole have declined to take the Villages on their present Jody and those of the Tormagoontah have requested that it may be returned. Measures have been adopted for putting in repair the Tank in this Shrotriem which was destroyed by the Diluvian inundations in 1852 & the village will be managed by the Collector in accordance with the instructions of Government.

Current

13 Adverting to para 7 of Board's Proceedings dated 13th August 1853 the Collector explains that the Government sanctioned the reductions of the Jody of the Sujjapooram Shrotriem

Ep. Mis. Court 11 in Cons. 13th Sept. 1854 No 1234

Shrotriem from Rupees 513-13-9 to Rupees 383-2-1 on account of the loss sustained by the Shrotriemdar by the excavation of a river Channel through their lands.

Ep. Mis. Cons 27th Sept. 1856 No 1090
Judl. 16 Oct. 55

14. With reference to the information required respecting the Mannargbydina Shrotriem it appears that the Jody of the village was raised by Mr Travers from 200 Pagodas viz. or Rs 800 to Pagodas 250 or Rs 962-8 because it was rented for this sum in Fusly 1210 the authorized value of the Pagoda at the time of the increase was 385 C Rs. per 100 Pagodas. though the Bazar rate was 4 Rupees per Pagoda as at present. The Board therefore again recommend that the Quit rent of 800 Rs fixed by Mr Brighton be reverted to.

Mis Cons 27 Sept 1856
Judl 16 Oct 55
No 1090

15. With regard to para 7 of the Extract Minutes Outturn the Collector explains that when the Shrotriems of Malechadoor Gattapollum and Pencanapooram

more

	Jasso	Fusly	Total
Mulchadoor	Rs 253-8-3	1276-8-1	1529-8-11

17 The Board approve of the course hitherto followed for renting Shrotriems under attachment

18 In the second letter recorded at the head of these Proceedings the Collector

15083 Fort St George 29th August 1856.

Collector replies to para 9 of Board's Proceedings dated 13th August 1856 respecting the omission of the Shrotriems of Mummughy Linga Reddy Bhattavaroo Kuttapooram & Sanavadapooram from Mr Travers's Register Book. The Board observe that the Register to which they alluded is dated 24th December 1814. Appears that although these Shrotriems were not entered in this Register the first & third appear in Lists submitted by Mr Travers with his Immaburdy Report for Fusly 1211 (Dated 5 June in Cons 15 July 1802) From this time the Kuttapooram village was entered in the accounts as Surva Enam because its Jody was alienated by Mr Travers to a descendant of the former Zemindar of Goodaloor. In Fusly 1236 the payment having reverted to Government the village was again classed as Shrotriem. The reason why the second & fourth Shrotriems were not entered in Mr Travers's Register cannot it seems now to be explained, but the (Julies & Jany 1815.)

15084 Fort St George 29th August 1856.

the Collector supposes that these Villages might have been excluded from that Document because they are not strictly speaking Shrotriems but Condregas or portions of Villages. In concluding these proceedings the Board must observe that an examination of the Statement of Shrotriem arrears for Fasslies 1263 and 1264 sent by the Collector increases their wish that the Zuftod Villages should at an early period be surveyed & settled. Both those years were undoubtedly unfavorable but allowing liberally for the effects of adversity of seasons the arrear Statement satisfies the Board that the interests of Government & of the landholders also suffer by the Shrotriems remaining under their management without trustworthy accounts of their lands & without the Government demand being fixed at an equitable & well defined rate. In support of this remark the Board would point to the instances of the following Villages which have been selected from the Statement No 1 which accompanied the Collector's letter of the 23rd May last. From the Collector
of Madura

Sir,

Agreeably to the instructions contained in the Board's Proceedings of the 31st May 1856 No. 1665, I have the honor to submit a Tabular Statement in the prescribed Form relative to a Yeomiah of 2 Cully Fanams continued to Kristnah Charry under the sanction of Government dated the 3d July 1832, but suspended by me pending further instructions in consequence of the renewed grant having apparently been made on erroneous information.—

2. I beg also to enclose the original Purwanah and translation with Copies of Mr. Vivea's letter of the 11th June 1832, and the entry in Mr. Hurdis' List.—

3. The date of the Purwanah is the 5th of Jamadee awal, but it is erroneously entered in Mr. Hurdis' list as the 6th.—

Madura

Remarks theron.

From a translation of the Purwanah dated 5th Jamade-awul Hejri 1169 / A.D. 1756 which accompanied this report, the allowance appears to be neither conditional nor hereditary and ought to have terminated at the death of the grantee It was however continued to his son Soobah Chetty till his death in March 1832, when it was renewed in favor of Kistnamachetty a grandson of the grantee who is still living The sanction of Government was based on the representation of the Collector Mr Vieash that this allowance was granted "for reading the Shasters" and that this duty was performed by the grandson Kistnamachetty but as this statement is not borne out by the Purwanah and the payments of the allowance has been suspended since December 1855 when it was found to be "personal and for life only" the orders of Government are solicited in the case

From Govt Sec Intns 9 July 1832 No 577

From Coll 11th Intns 31st June 1832 Enclosure

In the opinion of the Board the Collectors recommendation to continue this grant during the life of the claimant who has hitherto enjoyed it should be adopted the Jeamah reverting to Government on the death of the holder.

Plaint of Lekumma Ca Sherry Aliyar Leheriamanah and her Son Veerapa Coorapa of the Perrumanna Desham of the same Tuns how in the Calicut Talook against Thomas Clarke Esqr Collector of Malabar and Chemmalacherry Poodiapatta Lembatha Ramasamy Coorapa

Our Jemmom Lands named Vunnadadum Nilum Yeka assessed in the name of our Karnaven Chenna Coorapa were transferred in 1006 by him to the 2d Defendants Subsequently on the 2d Defendants neglecting to pay the Sirkar Rumm for the Vunnadadum Nilum which annually amounts to Rupees 68-4-7 Representations were made to the Talook where the 2d Defendant deposed that he would pay the assessment which he accordingly continued to do till the year 1024 since which time he has again

again neglected to pay the whole amount of Rumm-

The late Collector Mr Conolly directed Contrary to usage and previous orders that I (the Plaintiff) should pay the arrears of the said Rumm and injustly Realized the same by Causing the Talookdar to dispose of the undermentioned my property valued at Rs 408-8-0 x

When this matter was brought to the notice of the Board of Rumm they directed that me should have Recourse to the Civil Courts-

We pray therefore that the Defendants may be sent for and examined and the value of the property as well as the interest accruing thereon hence forward with the Costs of the Suit caused to be given to us-

Answer of Ambo Pattoomal Government Vakeel in behalf of Thomas Clarke Esqr Collector of Malabar 1st Defendant in Suit No 7 of 1856

Under Section XXVIII Regn XVII of 1802 the Collector is not in suits of this nature "liable to prosecution for the acts of his predecessor"-

The 1st Plaintiff admits she is the Jenmi proprietor of the land no transfer of Pattoo has been made in the name of 2d Defendant she is Consequently answerable for the taxes due on her land

The holdings in Malabar are of Estates and not of fields or Remissions having been granted on the Plaintiffs Estate she pays the assessment imposed upon the portion under Cultivation by the 2d Defendant here the disputes between her and 2d Defendant a dispute to be settled by arbitration the Courts or the Collector under Regulations V of 1822 and not by withholding the Revenue-

The arrears is extending over six years, Plaintiff became liable to interest on the sums due the payment of this interest has not been enforced

The Plaintiff has exaggerated the Value of her property which realized only 288-7-8 having been valued at 222-5-7 the grain in Reality affording Rs 250-6-1 of the amount realized-

The 1st Defendant is not amenable on the grounds above stated, and prays the Suit may be dismissed with Costs so far as he is Concerned-

(Signed) T. Clarke
Collector

15701 Fort Saint George 29 August 1856

Enclosure No 3-

Translation of an order from the Huzzoor Cutcherry to the Tahsildar of Calicut Dr 218 dated 11th August 1854-

I have examined the Jemabundy Records and the Paymash accounts furnished by you Regarding the lands situated in the Peranamma Tirumbum which embrace that named Vennecerpundum Nelum the owner of which Aliengal Coroopa is stated to have declined to pay the established Kanom alleging that it was high, Having observed that the amount of Revenue Collected from him is less than that settled at the Jemabundy I have also sent for the account which treats of the actual amount assessed-

After a deliberate examination of all these Records and the necessary enquiries into the subject of the difference of the fixed and Realized amounts of Revenue I find no Records or Reasons sufficient to convince me of the necessity of diminishing a sum of Revenue which had been Collected for more than 50 years-

Attempts were often made to decide the matter of these arrears thro' General

several Sirkar Servants but they proved in-
effectual-

Cheriamanniah

The present head member of the family who has the Jemm Right to the land promises to pay the arrears if the land be restored to her, but the holder does not Consent to this being done-

It is clearly evident that the latter is in possession of Certain lands the Jemm property of the former on the strength of a mere Veroo inputam Deed but Considering the length of time the same have been thus situated it is not more quite practicable for me to interfere and Restore them to the Jemmers- The fact of the Revenue having been Realized from a party who holds the lands on the tenure of Veroo-putam is in itself an act of disobedience to my orders and the same appears to have been done with the Connivance of the Sirkar Servants, whom the man had gained over to his side with a view to establish such a precedent-

When a large amount of Revenue is being paid by a Ryot the Sirkar Can by no means find any occasion for interfering with

with or passing orders on a Representation that the Revenue on one or more of the lands is somewhat high and that it should be modified-

You are therefore Required to acquaint the said Cheriamanniah with these Circumstances and inform her that she should sue the man in the Courts for the Recovery of the lands as their Anubhogum and that she should necessarily pay both the arrears of Revenue and what right of enjoyment may hereafter become due for the land called Vennerpudam Nilum in Conformity with former orders and that the Revenue of all lands will be Recovered from her she being the principal member of the Family or Tarawood- If she will not pay the arrears accordingly you will attach such of her moveable property as will suffice to meet the demand and forward an account of the same- As it is not practicable to allow the arrears to remain in the account as uncollected as hitherto for so long a time the subject of this order should be distinctly made known to the aforesaid persons in writing the matter brought to a close and the Result Reported to me within 10 days from the date of this order

15704 Fort Saint George 29th August 1856

One Mooputty Veerabaroo Numboory has presented an Urzee stating that three pieces of land named Nedoompady Nilam &c. have been transferred to him from the said Tarawood or family & become his exclusive property that the Revenue thereof should be entered in his name in the Sirkar accounts and that it should be diminished in proportion to any modification that might be made to the whole amount of Revenue & Cheapa Cooroopa son of Cheriamanamah has also preferred a similar petition

On examining the Records and duly considering the merits of this case also it is found that the amount of Revenue previously collected corresponds with that settled by the Sirkar, and that the same had been paid for a long time with out any question on which account the Numboory who holds possession of the lands should pay the said amount I can find no grounds for granting the indulgence prayed for, you should therefore bring this to the knowledge of the Numboory and Recover from him the arrears immediately and the settled amount of Revenue in future as it becomes due -

As it appears that both the parties are willing to have the transfer made you are directed to prepare and submit the usual account for carrying the same into effect Commencing from the year 1030 -

15705 Fort St. George 29th August 1856.

No. 4.

Translation of a reply to Miscellaneous Petition No. 1877 of 1854, from Cherrimammah dated 29th Chingum 1029.

It is not my business to interfere with and judge of the merits of the disputes between the Petitioner the owner of a large property and Ramoonny Cooroopa stated by the Petitioner herself to be one holding a piece of land out of that property on Veroompatom Tenure. Although Simple Mortgage Ramoony Cooroopa holds the land on Veroompatom, yet he is a male member of the family or Tarawaad to which the Petitioner belongs. As the Sirkar realizes an amount of Revenue less than that entered in the Sirkar account, he consents to pay that reduced amount of Revenue, and he is justified in making this statement if the Revenue be demanded of him merely as a Veroompatacaren. and as the Petitioner does not allow this being done. I can do nothing further in the matter.

In cases of this nature the owner of the property alone is to be held responsible for the Revenue, wherefore I have directed collection of the Revenue of the land from the Petitioner, and can find no ground for remanding that order.

If

15706 Fort St. George 29th August 1856

If the Petitioner resorts to the Court and obtains a decision that she is entitled to the whole amount of Patom on the land, her having taken upon herself the responsibility of the Revenues, would not but be just and proper.

2nd Cunny 1030.

No. 5.

To

The Members of the Honorable the
Board of Revenue
Fort St. George
Madras.

The Petition of Cheriah Mammah inhabitant of Peroomanah Amshom and Desham in the Taloke of Calicut

Most humbly respectfully sheweth.

That your Petitioner appealed to your Honorable Board under date the 30th Kanny 1030 against the order of the Collector of Malabar dated the 14th August 1854, directing your

15707 Fort St. George 29th August 1856

your petitioner to pay the arrears of revenue due on the "Vaneer pand" Land, which is not under your petitioner's management. that no order has been yet received from your Honorable Board on the said appeal. that since it your petitioner has been subjected to further grievances which she begs to detail hereunder, and to which she requests your Honorable Board will deign to bestow a merciful consideration, and pass an order redressive of her grievances as early as practicable.

1. That since dispatching the said appeal, the 3rd Goomastah deputed by the Taloke authorities having come to attach petitioner's moveable property inorder to satisfy the arrears of revenue, your petitioner presented a petition to the Collector under date 10th Toolam 1030 stating that she had preferred an appeal against his order, and requesting him that pending the

Fort St. George 29th August 1856

the disposal of the said appeal, petitioners moveable property might not be attached, that if this could not be done, that Ramoony Cooroop's property might be attached, in as much as the arrears are due by him, and he is the conduct of the Land, or if this was also impracticable that the Land on account of the revenue of which the arrears are due and the crops thereon might be attached - that the Collector hereupon said that an order would be passed after due consideration of the same.-

That

Fort St. George 29th August 1856.

2. That no order having accordingly been passed your Petitioner again petitioned the Collector under date the 4th Vrishigum praying that a final order may be passed on her Petition of the 10th Toolam or otherwise it will be a great grievance to her &c. to which also no order has been yet given but on the Contrary the aforesaid 3d Gomastah has now attached her moveable property.-

3. That when an appeal has been preferred against an order the authority passing that order is not authorized to enforce it pending the final disposal of the appeal is a practice in usual observance whilst so the Collectors proceeding in attaching the property as above and passing orders to Petitioners petitions is contrary to all practice as your Honorable Board will observe that it is an incontestible fact that Ramoony Cooroop is in the conduct of the land and has left the revenue in arrears and that he does not pay your Petitioner the rent due thereon as allowed by

For. St. George 29th August 1856

by the Collector himself that such being the case the attaching of petitioners property was quite irregular in as much as Ramoony Cooroop having paid revenue of the land up to 1024 in full and partly to 1029 it was but just and equitable that the same should be recovered from him alone but instead of pursuing this course which Common sense would point out as the right one the attaching of Petitioners property or if this measure was deemed expedient the non-attaching of the land or the crops thereon is a source of great grievance and disgrace to petitioner.

4 That the 3d Goomastah having without Petitioners Consent forcibly opened the door of the room by a blacksmith and attached the vessels in ordinary use jewels and grain stored for the daily maintenance was a procedure which has caused deep regret to Petitioner and Children that Petitioner brought this circumstance to the notice of the Collector by means of two petitions to which no order was passed and

which

For. St. George 29th August 1856.

which is inconsistant to Common justice and reason.

5. That in Consequence of revenue left in arrears by a party your Petitioner (who enjoys no benefit by the land on which the revenue is due) should be subjected to the above grievances merely on the score that she has a proprietory right thereon is a hardship which has no parrallel that the tenant Ramoony Cooroop does not admit that he pays the rent of the land in question that this single Circumstance if taken into Consideration with the fact that Ramoony Cooroop paid the revenue of the land in full up to the year 1024 your Honorable Board will see that there was no reason to attack Petitioners property and subject her to the above grievances.

6. That the appeal already preferred to your Honorable Board against the Collectors order contains full particulars of this case supported by documentary

Fort St. George 29th August 1856.

documentary evidence which accompanied it that on reference thereto your Honorable Board will be satisfied that the arrears of revenue need not be recovered from petitioner nor was it requisite that her property should have been attached hence petitioner considers it unnecessary to state any thing further in this petition she prays therefore that the said appeal petition together with the documents therein mentioned may be referred to the foregoing Circumstances Considered the Collector's order reversed the attached property released and an order passed as prayed for in appeal petition and your Petitioner will as in duty bound.

Ever Pray

Collector

J.G.B.

Fort St. George 29th August 1856.

B. No. 2794.
Proceedings thereon.
(1265-1266)

In the above letter the Collector reports the institution of a suit against himself and another in the subordinate Court of Calicut, with a view of recovering the value of certain property sold by order of the Collector, amounting to Rupees 408-8-...

2 The Plaintiff states that certain of her Jenm lands were transferred, in 1006, to the 2d defendant, who paid the Revenue due thereon from that period to 1024 since the latter year he failed to pay and the Collector, instead of realizing the money from him, proceeded to the sale of her property.

3. In his proposed answer, the Collector after pointing out that by section XXVIII Regulation XXVII 1802, he is not liable to prosecution for the acts of his predecessor calls attention to the admission of Plaintiff that she is

Fort St. George 29th August 1856.

is the Sworn Proprietress of the land, No transfer of puttahs has been made in the name of 2d defendant, and consequently she is answerable for the tax due.

4.

A remission was granted on the Entire Estate. Plaintiff refused to allow 2d defendant his share on the portion cultivated by him, and he in return refused to pay his quota of the assessment. There is a proper course open for the adjustment of such disputes but as the Revenue must be paid and Plaintiff was liable for it, it was recovered by distraint and sale of her property.

5.

The above are the main features of the case. The Board consider that the answer prepared by the collector is sufficient, and they recommend that he may be authorized to file it, and to conduct the defence in the first instance at the public cost.

Bd. No 3070
From the Collector
of Malabar

Forwards translate of a Plaint filed in the Dt. Sudr Ameen's Court of Tellicherry against the Collector of Malabar and the draft of the answer and requests instruction to defend the suit at the public expense.

Sir

I have the honor to forward translate of a Plaint filed in the Principal Sudr Ameen's Court of Tellicherry by the Individuals noted in the margin against the Collector of Malabar.

No 7 of 1855.

1 Cheekayen Vakeel of Thuruvangaparas Swamiyar nemmeth Radoovilay Nambiathil Sree Hristna Dasa Bharathigul of Trichoor in the Cochin Sircar & 2 others Managers of the affairs of the Tirunally Pagoda.

This suit was originally brought in the District Moonsiff's Court, but Mr. Conolly considering that the interests of Government were involved in the case, appointed to be admitted as a Defendant and the suit was transferred to the Principal Sudr Ameen's Court.

3 Mr. Conolly left no record nothing which could guide me towards arriving at the conclusion which he had formed that the grounds in dispute was Government property. He, from his knowledge of the

District

District seems to have had good grounds for disputing the Plaintiff's claims, but though I enquired of all my Subordinates I could ascertain nothing more satisfactory than what I have pleaded in my answer

4 Simultaneously with his application to the Court to be admitted a Defendant, Mr Conolly sent an order to the Tahsildar of Wynaad to furnish him with proofs that the ground was Government property.

5 The Hill in dispute forms, I believe, indubitably a part of the Pychee Rajahs escheat, but our records furnish no means of establishing this, that I can trace. At the time of the death of the Rajah, the matter was so notorious and unquestionable, that no pains seem to have been taken to record our right; all that was done, was to ascertain & make a list of the Cultivated & Cultivable lands, but the Hills and Forests were not of value and therefore deemed not worth the cost and labor of a Survey.

6 A copy of deposition from a native officer employed at the time of the

the Rajahs death as Tahsildar in the Wynaad Talook, clearly shews that the Hills in general were Royalties and the letters from Mr Chatfield submitted to the Board reiterate this.

7 The difficulty and delay that took place in searching for the required information amongst the older Records, precluded the possibility of the draft answer being submitted to the Board within the period allowed by the Court; and although it has been already filed, I request under the grounds therein advanced the Board will be good enough to procure the required authority for me to defend the suit at the public expense.

Calicut 29th August 1836

Collector.

To The District Moonsiff Court
Wynaad.

Petition of Vythianathayen Vakeel of Munjaparam Swamyar named Nadooviley Madathil Shree Sristuar Dasa Bharathigal of Trichoor in the Cochin Circar, who has the Paraynua right to and Poorshpanthily control over the Trinanilly Pagoda situated in the place of the same name in the Cloonemad aurshom.

Fort St. George 29th August 1856.

amchoor of the Wynaad Sabok and of Seekoo Moothanen and Vadakoo Moothanen, Corayma kars of the said Pagoda.

One Mr. J. C. Grant residing at Manantody of the said Munshoor commenced on Dhanoo 1029 (December 1853) Searing for a Coffee Plantation or other purposes, the Hill called Cothicalla situated within the following boundaries, without the consent of the Plaintiffs the Corayma cars (Managers) of the Pagoda to which the Hill belonged as Devasom property on this the Plaintiffs objected to that Gentleman medaling with it, but he has failed to listen to their objection, and continues his works.

As the Hill is of use to the Pagoda and its being transferred to any party is degradatory to it, the Plaintiffs pray that the Defendant may be sent for and examined, and the Hill restored to the Pagoda, the Peuga Value of which amounts to Rupees 150.

The Hill is bounded on the North by the territory of Coorg, on the West by the lands called Manyulla Paily, on the South by the Vagery Cundum and the publics road, and on the East by the Rock Mrandaparah As the Hill is over grown with Jungle thereon was no opportunity for measuring it.

Sellicherry.

Petition of Shashayen Vakeel of Munjapara Swamyar named Nadovilay Madathil Stree Kristna Dasa Bhagathigul of Trichoor in the Cochin Sirkar, and two others managers of the affairs of the Tirunelly Ishatraun or Pagoda, Plaintiffs in O.S. No. 7 of 1855 of the said Court.

Whereas the Plaintiffs requested the District Moonsiff of Wynaad in Suit No. 12 of 1854 to restore to them a Hill called Cothikalla the Peumum property of the said Pagoda valued at Rupees 150, from one Mr. J. C. Grant who had taken forcible possession of it, the Collector of Malabar Mr. Conolly presented a miscellaneous petition No. 404 of 1855 desiring to be made a Defendant in the case. The Plaintiff accordingly applyed an urzee on the 6th Chingom 1030 (20th august 1855) nominating that Officer as a supplementary Defendant in the case No. 7 of 1855. The said Collector having been murdered lately

lately by some Moplays, the Plaintiffs are put to the necessity of praying that his successor T. Clark Esqre may be made a supplementary Defendant in the case, and a decree passed according to the compliant, ejecting from the Suit the Supplementary Defendant Mr Richmond, as they are now ignorant of the place where he now resides.—

(Signed) T. Clark
Collector.

To, The Principal Sudr Ameen's Court
of Tellicherry

Answer of Erawatha amboo Podoowal
Styled Mootha Podoowal-Government
Vakeel of the Civil Court of Tellicherry
on behalf of T. Clarke Esqre Collector of
Malabar, supplemental Defendant in
Original Suit No. 7 of 1855.

The Supplemental Defendant denies that the Hill referred to in the plaint is the Jenmom property of the Piroonelly Pagoda, nor has the Pagoda any right in or title whatever to the said land.

The Plaintiff of course will be required to

Establish

establish his claim by something more than mere assertion or grants and receipts of his own which can be got ready at any time & he will doubtless be also called on to show how & when he became possessed of this primeval forest and uninhabited jungle from which as yet he can have derived no profit.—

The Hill in question belongs to the range of the Brummagherry Hills and is 5½ miles from Piroovelly Pagoda from which it is separated by another Hill of considerable eminence. The Hill it is reasonable to conclude formed part of the Royalty of the late Rajah of Pychee and on his death in open rebellion escheated with the rest of his property to the Government, a list of such parts only of the escheat as were under cultivation or were cultivable was made. The great jungles and barren Hills were not entered in this list. The tenure of land in Wynaad is very different from what it is in the rest of Malabar. For some time this Talook formed part of the Rajah of Mysore's territory and then doubtless it lost all those distinctive and peculiar rights of property obtaining in Malabar even had they ever existed in it. The whole of the waste lands in Wynaad there can be no doubt belonged to the Rajah. The evidence of title which is invariably deduced from the liberality or necessity of the Rajah is proof of this and it is highly improbable that the Lord paramount except in cases of except in cases of extreme favor or extreme exigency ever made an absolute disposal of this

right

15722 Fort St. George 29th August 1856.

right, his prejudice and interest would oppose his doing so in one case, and the absurdity of bequeathing a wilderness of useful forests would present his doing so in the other.—

The tract of land under litigation could have been of no use to the Pagoda it yielded no revenue, and no Pagoda or house is shewn to have been erected there. There was as little reason therefore for the Pagoda to ask for, as there was for the Rajah to grant this large track of unproductive ground to the Devasom, and unless the Plaintiff can by some clear and incontrovertible evidence shew the grant was made, the supplemental Defendant feels confident the Court will not be satisfied in such a case as this with the bare assertion of the Plaintiff that he has enjoyed the land for years and generations.—

There can be no question therefore that the Hill in question formed part of the Estate of the late Pychee Rajah and having by Escheat become in 1805 the property of Government, the supplemental Defendant prays that the Plaintiff's claim may be rejected and his suit dismissed with costs.—

15723 Fort St. George 29th August 1856.—

Bd. No. 2793 Proceedings (1267-1268)

With the above letter the Collector thereon.— forwards copy of a Plaint filed in the D.S. ameens Court of Tellicherry in Suit No. 9 of 1855 wherein he has been included as a supplemental defendant.—

2. The subject matter of the suit is the proprietary right to the Coothecallar Hill. The Plaintiffs. who are managers of Teroonelly Pagoda claim it as the Jeum property of their pagoda,— whilst the Collector contends. that it formed part of the royalty of the late Rajah of Pychee and escheated to Government in 1805 with the rest of his property on his death in open rebellion.—

3. The Board are of opinion that the alleged right of the pagoda should be contested in the manner proposed by the Collector. and they recommend that he may be allowed to conduct the defence in the first instance at the public expense.

The Draft answer has been already filed.—

to file a Plaint of which the enclosed is a Draft in the Subordinate Court of Madura on account of the Shevagungah Estate.—

Madura 8th August 1856 } /Signed/ R. D. Parker Collector

Translate of a proposed Plaint to be presented to the Subordinate Court of Madura.—

Plaintiff	Vers	Defendant
Ramier Guardian of the minor Zemindar of Shevagungah in the District of Madura		Sevangamum Pillay son of Sudumarraina Pillay of Cusbah Nattarasum cotty in Shevagungah Zemindary and a carnum

The object of this suit is to obtain the dismissal of the Defendant from the office of Curnum of 3 Villages hereunder mentioned, the emoluments of which amount to Rupees 52 1 7 delivery to the Manager of the Zemindary or a person delegated by him of all the accounts in his possession, and also an award against the Defendant to pay Rs 167 1 3 being value of paddy embezzled by him.—

1. The Defendant is the Curnum of 3 Villages

15725 Fort St. George 29th August 1856

Villages in Shevagungah Zemindary Viz 1 Nattarasum cotty 2 Sooracoolum and 3 Poodoocottah. He misappropriated to his own use 131 Cullums, 5 Mercals and 1 measure of Paddy out of the Melwarum or Zemindars Share for Fusly 1260 and gave a false account debiting the same against the Ryots.—

2. Further the Defendant on several occasions has failed to pay into the Talook Treasury money collected from the ryots and to furnish periodical accounts at the prescribed period. and has acted in this and other particulars contrary to orders. Such being the case, he has shewn himself unfit for the responsible situation of Curnum.—

Proof will be adduced of the foregoing charges.—

Political Agent

Sir In reply to your Memorandum of the

the 27th Febuary last No 53 with an Extract
* dated 15th July /56. from a letter from the Inspector* of Schools. I have
the honor with the permission of His Excellency to
state that an annual sum of Rupees 1500 can be
assigned from the surplus funds of religious and
charitable institutions of this state it being the only
fund that was found available after reserving
something to meet Emergencies.

A site has been selected in the vicinity
of Poodoocottah in its western entrance for erecting
the School building so as to afford accommoda
tion to at least 100 boys, the cost of which together
with the furniture required may probably amount
to Rupees 2500 which should be disbursed from the
same funds. A Memo. shewing the particulars
of the Amount funds and the amount available
for Educational purposes is annexed.—

E. E Pr

(Signed) R. D. Parker
Collector.

15746 15747 Fort St. George 29th August 1858.

B. No. 2800

Proceedings thereon

(1275-1276)

The Board of Revenue authorize the sale, for arrears of Revenue of the lands alluded to in the foregoing letter, and direct the publication in their Office of the advertisement forwarded by the Collector, the sale taking place on the dates and at the places mentioned.

LB.

15748 Fort St. George, 29th August 1858.

No. 105

To G. S. Forbes Esqre.
Secretary to the
Board of Revenue
Fort St. George.

(1277)

Bd. No. 3310.

From the Collr. of Salem.....

Sir,

With reference to an Extract from the Proceedings of the Board of Revenue dated the 4th June last No. 1694 authorizing the sale for arrears of Revenue of certain lands situated in the Trichengode Talook, I have the honor to report that the lands referred to were put up at auction before the Tahsildar of Trichengode at Trichengode, on the date specified in the advertisement and sold for Rupees 91—"—"—

† 7th July 1858

2. I enclose a Statement shewing the particulars of the land sold and, I request that the Board will be pleased to confirm the sale.

3. The Board will observe that the 2nd land entered in the Statement fetched a far higher price than I was valued at, and that the rent in arrears bore a very insignificant proportion to the sum realized by the sale.

She

15749.

Fort St. George 29th August 1850.

4. The 1st point has been noticed in the Column of remarks. In regard to the 2nd point. as soon as I received the Tahsildars report on the Sale I took steps to ascertain how it happended that the owner of a field which so far exceeded in value the trifling sum in arrears had permitted it to be sold, rather than discharge the claim I suspected that the local authorities had failed to apply for payment or that due notice of the attachment had not been given but on enquiry it appeared that no one was to blame but the owner himself:— This person was fully aware that the land had been attached but in consequence of some dispute with a mortgagee who was in possession he would not pay even the small balance for which the land was sold.—

Salem Coll.rs Office
22nd August 1850.

/Signed/ W. A. Brett
Collector
Statement

B. No. 3258
From Chief Engineer... D. P. W.

To, The Secretary to the Board of Revenue

Sir,

With reference to Para 4 of Extract Minutes of Consultation of the 26th June 1856, I have the honor to request you will do me the favor to move the Board to expedite and to furnish to this Office at as early a date as possible the list of Villages in the approved form of the Zillah of Trichinopoly or that of Tanjore as the Lithographic Press is awaiting either one or the other to commence the Lithographing of the Maps of those Provinces.

Govt. Litho Press... Central Office... D. P. W. Fort St. George 22d August 1856.

Chief Engineer D. P. W.

15752 Fort St. George 29th August 1856.

1279-1280

No. 2798.
To the Collector of Trichinopoly...

Ordered that the following letter be sent

To, The Collector of Trichinopoly.

Sir,

I am directed by the Board of Revenue to request that you will furnish with as little delay as practicable a list prepared in the annexed form containing the Tamil names of Villages in each Talooke of your district written in a plain and legible hand. The Revenue and population of each Village should also be shewn in the Columns assigned to them in the form. The list should be submitted as soon as it is complete for any one Talook without waiting for the lists for the rest of the district. This information has been required by Government for submission to the Chief Engineer to enable him to adopt a correct system of orthography in the new district maps about to be engraved.

E. M. 6 26th June in 9th July 56 No. 656

2. The Chief Engineer has intimated that he is awaiting the receipt of this list to commence lithographing the map of your district.

To Chief Engineer 22d August in 29th ditto 56. 3258.

Proceedings thereon.

Reviewing the measures proposed by the collector of Tanjore for modifying the Government Demand on the Meerassidars of his District

Copied 3d Sept 1856

1283

On the receipt of the Extract Minutes Consultation dated the 10th of July 1854 No. 806 the Board circulated copies to all collectors, pointing out to the Officers in charge of Bellary, North Arcot and Trichinopoly the parts that more particularly referred to their Districts, and calling the attention of all to the important principles laid down, that the assessment should be on the land, and not on the produce, and should not depend on the class or caste of the cultivator. that the classification of soil should be simple and every where alike, that the assessment was to be fixed so as not to exceed forty per cent of the Gross produce for wet land, and one third of the same for dry lands, that no tax was to be imposed for a second crop on dry land, and that all extra cesses were to be cleared away, the demand of Government being

Para 11

being limited to the fixed rent on the land. The Board desired all Collectors to bring to their notice all changes that might be deemed requisite with reference to the principles enunciated, requesting them at the same time to state their views as to the best way of collecting the tax for the second wet crop on two crop lands, so as to give as little occasion as possible for the interference of the Servants of Government, and to state what in their opinion would be the result of a rule abolishing any Extra cess when a second crop sown on wet land, did not consist of rice, and required but little water.

Dy. 12th Febry. in Dy Cons 23d. apl. 1855.

2. The report from the Collector of Tanjore which the Board now propose to review was written in reply to his call, it was taken into consideration very soon after its receipts, and explanation was called for on some points in the letter quoted at the head of these proceedings the reply of the collector supplying this explanation will now be considered together with his original report.

From Collr. 21st in Dy Cons 23d April 1855.

From Collr. 16th May 1855 in Cons 13th Augt. 1856.

3. After recapitulating the points to which his attention has been directed by the Board the Collector with reference to the principle laid down by Government

From Collr. 12th Febry. in Dy Cons 23d Apl. 1855 para 3.

Government and quoted by the Board that the assessment on wet land should not exceed 40 per Cent of the gross produce; remends the Board that the public demand in his District is fixed at 50 per Cent of the produce of the land after deducting Soluntrums and proceeds to question whether the principle referred to was intended to apply, in its integrety to Tanjore; where the revenue from wet lands amounts to upwards of 36 lacs of Rupees and were consequently reduction of the warum from fifty to forty per Cent would entail an annual sacrifice of more than Seven lacs.

4. Some of the Soluntrums of Tanjore will presently be more particularly noticed they are thirteen in number nine of them being deducted from the total gross produce at nine per Cent, and four of them being taken from the remainder at three per Cent, and as the particulars of them are given in the Collectors letter of the 16th of May 1855 they need not be recapitulated here.

In Cons 13th Augt. 56 Para 2

5. But while the Collector expresses doubt as to the application of the principle of limiting the demand to forty per Cent of the produce, and admits himself to be unprepared to recommend that it be applied without limitation to Tanjore, he still advocates

12th Febry. in Dy Cons 23d Apl. 55.

advocates a reduction of the demand on the general principle that fifty per Cent of the produce of the soil is too large a proportion to be taken as a tax by the state. he argues that although Tanjore is a finely irrigated District, its landowners are not wealthy men, that though many of them hold large estates, they are understood to be generally involved, he says that there is certainly a preference for investing money in land, but that he believes this to arise more from the position in society which is obtained by being a landowner than from the fact that large profits are really made by farming and on general grounds he recommends that the warum be reduced from fifty to forty five per Cent of the gross produce which would he says involve a sacrifice of revenue to the esctent of about 3,63,800 Rupees.

6. The question of the warum to be allowed to the Merasidars of Tanjore was under discussion soon after the British assumption of the Country. During the reign of the Rajah Serfojee the adoptive father of Seefojee by whom the Country was ceded the warum to the Merasidars was

was generally only thirty five per Cent of the produce exception being made in favor of head landowners being Bramins, who enjoyed sixty per Cent, but without holding any sunnud granting them exclusive privileges. In 1801. Mr. Charles Harris, respecting only those lands which were favorably assessed under sunnud, equilized the warums and granted forty per Cent to all, but finding this insufficient to restore the prosperity of the District, in the following year he raised the warum to fifty per Cent on all lands within Eight Miles of the Sea, and to forty five per Cent on all beyond that distance. In 1804 another change was made, and Mr. Harris classed the different villages according to the rivers by which they were irrigated, and fixed the Meeraze warum at rates from fifty to sixty per Cent of the gross produce.

para.s 15.
In Cons.s 3d Oct.r 1805
1st para 20

7. In a letter to the Board dated the 8th of September 1805. Mr. Wallace proposed again to alter the rates of warum, and to make them dependant on the quantity of grain produced on each description of land so that fifty two per Cent of the gross produce should be allowed to the Meerasidar when

when his land produced 200 Cullums to the
valy fifty four per Cent when the produce was
between 100 and 200 Cullums, and fifty six
per Cent when less than 100 Cullums was
produced, but the proposition appears to
have met with no favor and on the 9th
of November 1805 the Government in addressing
the Board directed that existing arrangements
might be adhered to. No further change
was made until the Woloongoo System
was introduced, when a uniform warum
of fifty per Cent was allowed on all the
delta lands.

In Cons. 2d Jany. 1806

8. The Board are ready to admit
that as a general principle the state cannot
in sound policy take as a tax half the
produce of the land. In the 15th paragraph
of the Extract Minutes Consultation of the
26th of June 1854 No. 7148 in reviewing the
proposed reduction in South Arcot the
Government "held in common, it was believed
"with all authorities of any weight that a
"general assessment of fifty per Cent of the
"Gross produce must of itself constitute a
"tax which neither South Arcot, nor any other
"district in Southern India could bear & the

Vide C.O.B. Vol 3 page 62.

ryot

"ryott at the same time prosper. The single
"fact of the land tax in South Arcot reaching
"fifty per Cent of the gross produce afforded"
"fifty per Cent of the gross produce afforded."
the Government believed "strong grounds for
reduction" But the Board would observe
as regards the case of Tanjore that before
any argument for a reduction of assessment
can be founded on the proportion of the
gross produce that is demanded by the
state, it must be shewn whether the assumed
gross produce on which the demand has
been fixed really represents the actual
outturn of the soil, or whether having been
originally assumed on untrustworthy data,
and circumstances having since very materially
altered, there is not reason to doubt of the
tax now derived from the land in reality
bears to the gross produce the proportion
which is supposed.

8th In Cons. 24th Decr. 1821

9. When laying before the Board
the rules under which he proposed to fix
the standard grain Beriz the Principal
Collector Mr. Cotton said that it had never
been the custom during the rents in Tanjore
to require accounts of the produce, and that
none were to be had that could be in

para 4.

any

any way depended on although if called for accounts would doubtless be forthcoming compiled for the occasion on purpose to shew a decrease rather than an increase of produce of late years. From this it appears evident that the standard grain beriz was not even supposed to have been fixed on any reliable account of the actual produce of the land. The rules under which it was determined are detailed in the 9th paragraph of the Collectors letter of the 16th of May/55 quoted at the head of these proceedings, and although professing to be based in part on the ascertained result of four aumanie years, the frauds that were perpetrated under the aumanie system, in which as the Meerassdar was to pay at so much per Cullum for grain threshed and measured, it was his interest that the outturn of his land, according to the accounts of the harvest should be as small as possible, make it very doubtful if a correct estimate of produce was arrived at. But even supposing that the standard grain beriz fixed in Fusly 1232 correctly represented the proportion of fifty per Cent upon the

In Cons 13th Augt/56

the gross produce at the time at which it was formed it is evident that considerable allowance must be made for improved irrigation in the thirty three years that have elapsed since that time. The construction of the Upper Annicut alone has had a very great effect in improving the irrigation and consequently of decreasing the cost of cultivation and increasing the produce of the District and in the period embraced between Fusly 1236 and Fusly 1263 upwards to 25 Lacs of Rupees were expended on works of irrigation only so that the Board can entertain no doubt that the Government demand bears a smaller proportion to the gross produce of the land than it did at the time when the standard grain beriz was fixed. In the letter from Mr. Cotton already referred to the sums annually advanced as Tuccavie in the four Fuslies 1228-9-30 and 31 immediately preceding the introduction of the Woolongoo System are given as noted in the Margin, and when compared with the advances made under the same head of late years are

Fort St. George 29th August 1856.

are in themselves an argument to shew that the Meerassidars derive now a better return from their land than they did at the time at which Mr. Cotton wrote. If further proof of this were needed, it would be found in the increased and yearly increasing value of land as was lately shewn by the Collector, when addressing the Board on the comparative prosperity of the Meerassdars in fixed assessed and wooloongoo rent villages, and as in Tanjore one chief end which reduction of assessment in other Districts is intended to bring about, has been already attained, and land is not only saleable but annually increasing in Market value, the Board are of opinion that the question of a reduction of the assessment of Tanjore does not rest on the same arguments that support it in other Districts.

To B. 13th Feby. infors 10th May 1855 para 16.

10. Tanjore is peculiarly situated, almost the whole extent of the delta is highly cultivated, and there are no large tracts of Country, as in other Provinces, kept permanently out of cultivation by

Fort St. George 29th August 1856.

by the pressure of a too high assessment a wise and liberal policy has led the Government to adopt measures for improving the resources of the Country by large reductions of assessment in different districts in the anticipation that the amount of revenue sacrificed will be compensated by extended cultivation, and those anticipations are now in course of realization, but in Tanjore the question bears a different aspect and a general reduction of assessment would entail a permanent loss of revenue which the resources of the state cannot at present bear. It is true, as the Board believe, that there are in some of the delta villages, particularly in those wooloongoo rented, detatched pieces of land which are now waste in Consequence of their inability to produce a crop that shall bear the present assessment this arises in the Wooloongoo villages from the peculiarity of the settlement for as the grain beriz was fixed on the gross beriz of the whole Village without any reference to the productive powers

powers of each particular field land newly brought under cultivation, is assessed according to the Village average, and as it is the worst land in the Village that has thus been left waste it of course cannot afford to pay the average of the assessment borne by the other and better land, the question of how these lands should be assessed without departing from the principles of the Wooloo rent has lately, under the orders of Government been referred to the Acting Collector, and his reply, when received will be brought to the notice of Government.

Exct Mins Cons dated 9th July 1855 Inl Cons 19th June 1856.

11 After discussing the question of a general reduction of assessment the Collector next adverts to the case of particular villages, both waram settled and wooloongoo rented, in which the standard grain beriz are originally fixed too high and which are comparatively with other villages, now over assessed. The standard grain beriz was, as has been said above fixed

Paras 8-9.

in Fusly 1232 by Mr. Cotton and was not materially altered when the Jaram assessment was introduced the Board have shewn above that it was not fixed on any reliable data, and although generally moderate it is very possible that in a few individual cases it may now need to be reviewed the Collector does not specify any particular instances, and the Board propose to instruct him to bring to their notice any that in his opinion may call for consideration laying before them at the same time the data on which he assumes that the present assessment is high, and those on which he proposes that a revised assessment shall be formed. The Board believe that very accurate accounts are kept by the Meerasidar of Tanjore of the annual outturn of their land, and these when wholly free from suspicion would afford valuable and reliable data as to the productive powers of the soil, but great care would be necessary to guard against deceit and to prevent false accounts framed for the purpose, being palmed upon the authorities.

Dft Coll.r to Bd. 26 May in Cons 9 June 1830 para 9

12 In the case of the Hill grain

gram rented villages of Meratoor, audengoody and Padrepoor lower, it does not seem necessary to delay the introduction of the measure, proposed by the Collector the Meerasadars of these Villages having been offered the rent of their lands by Mr. Cotton on a certain standard grain assessment declined to accept the rent on the ground that the assessment had been fixed too high and although the Collector states that there is nothing on record to shew that the facts were connected it is probable that the limit fixed to their warum of forty five per Cent. was in consequence of their rejection of the proffered terms of rent. However that may be, there appears to be no reason for continuing to refuse to the Meerassidars of these three Villages a participation in the terms enjoyed by all the rest of the Province and the Board recommend that from Fusly 1266 the Collector be authorized to grant them a warum at fifty per Cent of the fixed gross produce of their land. Meeratoor is a very fine Village containing upwards of 4300

4300 acres of irrigated land, and although on it is annually rented before the harvest it is still throughout the early part of the year closed as an Amanie Village, and there can be little doubt that on being placed on an equality with the rest of the District the Meerasidar will at once consent to take a permanent rent.

Para 10

13. As regards the question of what shall be the standard commutation price with which current prices shall be compared in Ooloongoo Villages and according to which a money basis was fixed in the Villages under a tarum settlement,

dated 13 Feb.y in Cons 10th May 1855
Pro.s to Govt. 10 May 1855. No. 1176
Ext. Mon.y Cons.y 9th July 55
in Cons.y 19th June 1856 No. 821

the Collector has already addressed the Board and his letter has been laid before, and been disposed of by Government. Mr. Forbes was of opinion and the Board consider with reason that the present was not the time to open a discussion on the question in

Standard price per Column	as Fusly 1263	Rs as	as 1264
	" 7 8 10	" 7	8 7/8
Current selling price per column	" 12 10	" 10	6 1/2
Increase	" 5 1 12/16	" 2	10 1/16
Decrease	" "	" "	"
Percentage	66 "	" 37	" "

Fusly 1263, prices were 66 per Cent above the standard in Fusly 1264 these were

were 37 per Cent above it, and for Fusly 1265 just closed, the Board learn that the Commutation rate for the year is 67 per Cent above the standard price. There is therefore evidently no immediate cause to diminish the public revenue by a reduction in the commutation rates in Tanjore, and it is inexpedient to disturb the minds of the people by entering on a discussion of the question.

paras 11. 12. 14. As regards an extra demand for a second crop raised on dry land, the practice varies in Tanjore, in the Villages in which a money Cerzy has been fixed the assessment is on the land, which is not subject to any further demand when a second crop is raised to this rule, otherwise general in this description of Villages there are some trifling exceptions in the two Talooks of Paupanassum and Combaconum, where a second dry crop on wet Values of land, having been, from an oversight entered in account in one year, the demand has been permanent, and has ever since been realized the revenue will be affected only in the amount of

of 282 Rupees, and the Board support the Collectors recommendation that it henceforth be forborne-

15. In the Woolungoo rented Villages the practice however differs from that which is followed in those under a tarum settlement; and not only is a second dry Crop assessed but the assessment is permanent, and is continually collected whether the second crop be again raised or not; the Collector represents that this is injurious to the Meerassidars without being to the advantage of the state; and in any way the Board are inclined to go further, and to say that any rule that wantionly and unnecessarily restricts production, must, at all events indirectly act injuriously on the Government. The Collector recommends that the rule be abolished, but in anticipation of the early completion of the Warum settlement, he suggests that the full extent of the boon be not at once given, but be reserved until the new settlement be proposed. The question of a continuance of the Tarum settlement was decided for the present at least in the Extract Minutes

In Cons 19 June 1856

Minutes Consultation of the 9th July 1855 No 821 and there is no such prospect of its early completion as was supposed by the Collector when he wrote. The Board recommend that the liability under which the dry lands of the Woolungoo villages at present are of paying an extra cess when a second crop is raised, be removed from the present Fusly the sacrifice of revenue as shewn by the Collector, in the 11th paragraph of his report will be only all 2742, but this by no means shews the extent to which the abrogation of the present restrictive rule will benefit the ryot meer assidar the knowledge that the cultivation of a second dry crop in any year when the season might be favorable would entail on them a permanent tax, must certainly have had a considerable effect in checking cultivation, and although it appears by the Collectors figured statement, that only 37/ Values have hitherto been liable to the tax, it by no means follows that a greater extent of land would not have been cultivated with a second crop, if the fear of a permanent tax had not restrained cultivation to

that

Ft St. dated 12 July in Cons 23d ult 1855

that a greater extent will not be cultivated when the liability to the tax is removed.

para 13 16 In this and following paragraphs the Collector refers to the extra cesses collected in Tanjore, over and above the assessment on the land, under the head of Sotantarum The Sotantarums are a remnant of the native Government. On our assumption of the Country extra cesses collected were numerous and heavy. they alluded the allowances to Pagodas and Brahmins, Cavilgars Village Artificers and certain demands under the head of Chillera Casdoodue, the items of which are entered in the Margin. All of these last mentioned which were called Government Sotantarums were abolished by order of Government dated the 27th of December 1800, and on the 24th of January 1801 those that remained Saderwarad to meet Offices were sanctioned by the Board at the following rates

	Cottage on the Grain produce
Hire to reapers	4 1/6
Callaveddy, or sweepings of the threshing floor given to women who plant the young paddy	2
Cavilgar	2/3
Talaars	1/6
Curnum	1/12
Washerman & Barber	1/12 — 7 1/8

Coll.r to B.d 23d June in Cons 7 Aug.t 1800 para 4

Putty bundu, from 4 to 10 Gold Fanams on every 100 Cullums of Grain produce

Mugunna formerly Collected on account of the Pagodas afterwards taken by the Government

Gounspretty, taken on account of the Cirkar's Share of the Straw

Olagada added during the administration of the Nawab Saderwarad to meet Office expences

Passumallah at first a tax on certain villages held on Jaghire & continued as a permanent item of revenue on the villages reverting to the Circar.

Kapanah Ingeram a tax of 6 Golle fanams collected on every 10 chuchrums of revenue paid

paras 61 to 64

para 65

Fort Saint George 29th August 1856

In a letter dated the 31st of January 1803, the Collector Mr Charles Harris recommended an enhancement of some of these Sotuntarums and they were finally fixed as follows.

	Centage on Gross produce 4/6
Hereto reapers	
Calavuddy	
Cavilgar	3
Taliars	2/3
Curanum	1/6
Washerman & Barber	1/6
Doctor & shepherd	1/6
Village poor	1/6
	1/2
	9

Mr Harris explained the reasons which led him to recommend these alterations, and then proceeded as follows. "the only entire innovation is the allowance of half per Cent "to the Village poor, those who from youth, age, sickness, "lameness or blindness are unable to work, and from want "of relatives can subsist only on charity. This made "of maintenance will be far easier than that "at present sanctioned by Government" which was by a daily distribution of food at certain Cir Rar or Chuttrums, under an annual sanction allowance of 2161 Star Pagodas.

17 Besides the Sotuntarums above described

Fort Saint George 29th August 1856

described. Knowing generally as cooly Sotuntarums, and deducted from the Gross produce at 9 per Cent, there are others called Maunium Sotuntarums, deducted at the rate of 3 per Cent from the Gross produce remaining after the cooly Sotuntarums had been deducted the following is a statement of them

	Centage
Pagoda and Bramins	2/3
Cavilgar	1/3
Carpenter Smith Keranikum	5/
Vettyan Totee	2

Mr Harris in Fusly 1210 found it necessary to extend and alter these rates, and they were finally settled as follows under sanction of Government granted on the

In Cons. 2 Novemb. 1801

17th October 1801.

	Centage
Pagodas and Bramins	2/3
	1
Cavilgar	1/3
Taliars	1/3
Carpenters	

And at these rates they have continued to the present time

18 The Sotuntarums sanctioned on account of the Cernum the Village poor and

and the Pagoda and Branjins, were resumed in Fusly
1215. the Board have examined their records and have
not succeeded in finding any order for the resumption, but
Dft to Sn Cons 25th July 1808 in Mr Wallaces report on the settlement of Tanjore for
para 18 to 22 Fusly 1217, he informed the Board that he had included
the amount of all the Sotuntarums in the Jumma of the
Districts, because "of the manifest propriety of bringing
"to account the total amount of the demand upon the
"meerasidars" and because "the portion originally allotted
"on account of Curnums and Pitchay both of which had
"been resumed remained at the entire disposal of the Collr.
The plan pursued was approved by the Board in their
para 27 Proceedings dated the 19th of September 1808, although at
the same time they called for more information regarding
From Govt to Bd in Cons 28 Novr 1808 the resumption, as did also the Government, when reviewing
paras 15-16 the Boards Proceedings. The call was repeated on
the 27th of November 1809 but the Board are unable to
find that the information desired was ever furnished
by the Collector.

Curnums. 19 In Tanjore there are two classes

of

of public Servants under the denomination of Curnum,
one the Nat Curnum to whom the Board will presently
more particularly allude, and one the Vuttum Curnum to
whom the Sotuntarums now in question was paid. he
was a servant of the state, paid partly in rent free
land, and partly by his Sotuntarum allowance, both
of which have however long since merged in a monthly
salary from Government, the Sotuntarum being still
collected from the landowner and credited on an
ordinary item of revenue. The Collector
para 16 writes as follows- "The Curnum is essentially a
"Government Servant and I can assign no reason
"for any part of his salary being charged upon the
"meerasidars. the present system is a remnant of
"the native rule, and has probably remained so long
"unchallenged, because it was seen that on whatever
"argument the Curnum Sotuntarum might be remitted
"on precisely the same argument the remission of other
resumed Sotuntarums should follow, but as the
matter

Fort Saint George 29th August 1856

"matter has now been brought forward by order of the
Board, I have nothing to urge in favor of its continuance
"and recommend the remission of the item." The amount
of the Sotuntarum is about 14,800 Rupees a year half
of which only however is a charge upon the land, as
the deduction is made from the Gross produce before
it is divided between the Government and the
Meerasidar it forms but a small part of the whole
salaries of the Curnum, and the Board agreeing
the Collector that no sound reason can be assigned
for the continuance of the charge agree with him also
that it should henceforth be abandoned.

Ormpitchay 20. When the Province of Tanjore was assumed
7563 Rupees by the British Government a sum of 2161 Star Pagodas
was annually allowed for the support of the poor in
the District and it was expended in the gratuitous distribution
Coll.r to B.d 31st Jan.y 1806 para 66. of food at certain Government Chuttrums Mr. Harris having
found that "even so scanty a pittance, and so benevolent
"an object did not escape the avarice and absurd dependants
"of the head people who drew to themselves or

Fort St. George, 29th August 1856

"on various pretences or wasted on idle religious
"rites what was sacred to the support of all the
"labor and distress of the Country." He therefore
ceased to draw the Government allowance, sub-
stituted this Sotuntrums for it, and ordering that
lists of the poor in every Village should be
prepared, directed that they should from its
proceeds be paid a fixed money allowance.
the balance of the Sotuntarum being expend-
-ed in providing them with Clothes, repairing
their houses, or "any public object" the Sotuntrums
was resumed in 1805, and has since that time
like the Sotuntrums for the Vuttum Curnum been
credited on an
para 10 Collector thus writes. "It is not necessary now
"to consider the propriety of the principle which was
"then established, and subsequent circumstances
"have made it equally unnecessary to consider whe-
"ther the principle should be maintained. the Oorco-
"pitchay Sotuntrum was never distributed as its
"founder proposed, after the year 1805, and has ever since
"that period been carried to the credit of Government as
"an ordinary item of revenue. As regards the question
"of the retention of the demand against the Meerasidars
"it seems sufficient to state that it was first instituted
"by Government and acquiesced in by the people as
"a means of providing food for the helpless and
destitute

"destitute poor, that for fifty years no such day
"has been supported from the fund, and that the whole
"has been credited to the state". The Board have nothing
to add to these remarks but their acquiescence in
their propriety and their recommendation that the
item be forgone the amount of the Sotuntarum
is about 44,600 Rupees, half of which, as explain
-ed above when speaking of the Curnum Sotuntarum
is a charge in the landholders of Tanjore.

Cavil

21. When Tanjore was ceded to the British
the Police force was composed of Cavilgars and
Taliaries - the former received an allowance
from the Gross produce of the District, and were
bound to produce all stolen property, or to make
good its value in money, a System which was declar
-ed by the Police Committee in 1814 to be replete with
evil and inadequate to the protection of the Country.
The origin of the Cavil System has the Board believe
never been satisfactorily traced. In the opening paragraph

Report 5th May 1814. para 81.

Vide Selections of Papers from the Records of the East India House 1820. Vol. 2 page 214.

of Colonel Munro, report from the Ceded Districts of
the 10th of April 1806, he says that he has used every
endeavour, without the smallest success, to discover whe
-ther there was anciently any general Police System in India
and all the information he had been able to collect rested
on the authority of a few summuds and on vague tradition
It appears probable that the Cavil system was originally
much of the same nature as that under which the low
Landers of Scotland paid black mail to the Highlanders

a remnant of which system still remains at Trin
-chinopoly where private individuals even now pay
the Cavilgars a fee as compensation for the losses
they sustain in not robbing their houses.

Reg I of 1816.

22. In 1816 a regulation was passed declaring
the contribution that had up to that time been paid in
support of the Cavil Police in Tanjore applicable to the
new force which was then appointed and paid by
Government and up to the present time the mee
-rasidars pay a special tax in support of the Police
from which however they receive no special protection
or advantage on this matter the Collector says, "the
"protection of life and property by the maintenance of

From Tanjore 12th Feby in Ds Cons. 23d april 1855 para 17.

"an efficient police would appear to be one of
"the very first objects to which the ordinary revenues
"of the state should be applied, and if those revenues
"be insufficient for the purpose, the deficiency should
"be made good on some general System of taxation to be
"applied to the whole Country."

Para 18

"It is worthy to remark that while the resumed Cavil
"Sotuntarum amounted in Fusly 1203 to Rs. 1,84,162, half
"of which, or Rupees 92,081 was Collected from the land-
"owners the entire annual charge to Government for
"the Police establishment according to the present
"Moyanzabtah is Rupees 68,292 and the remark acquires
"force from the fact that the same regulation which declar
-ed the Cavil Sotuntarum applicable to the expences
"of the new Police force, declared the House tax to be

so

"So also, so that, to meet a particular and
"special charge of Rupees 68,292 a tax of
"Rupees 117,081 has been imposed on the
"Province of Tanjore" Mr. Forbes recommend
the abandonment of the item reminding
the Board at the same time that a consider-

	Rs.
Survamaniendars	10,053
Mocasadars	7,351
Shrotriendars	1688
ardamaniendars	852

able part of it is contributed
by Enamdars, who otherwise pay
some but little and some nothing
towards the general expenses of the state.

23. In other parts of the Country where the Cavil system obtained the Cavilgars were remunerated by the grant of Enam land, with some small fees on shops and looms, on passing goods, and on those who attended Markets - in addition to which, it appears by the 5th Paragraph of Colonel Munro's report referred to above, that the head Cavilgars received an allowance of ten per cent on the gross Collection of the revenue. Excepting the small fees therefore, the expense of the Police was borne wholly by the Government and when the system was abolished, the resumption of the Enams and the cessation of the per Centage on the revenue, was naturally

accompanied

accompanied by a discontinuance of the
payment of fees, so that the people and the
Government were both alike relieved - In
Tanjore alone was the payment of their contri-
-bution to the expence of the Police made legal
-ly binding on the people notwithstanding that,
as the Collector shews, the sum thus assessed upon
them was considerably in excess of the expences of
the force it was avowedly intended to support - In
determining the claims of the Tanjore Meerassi-
-dars to be relieved from this demand it is worthy
of notice that no consideration was shewn to them
on account of it, when the standard berij of
ain land, was fixed by Mr. Cotton in 1822 -

24. The Board do not consider that the
arguments they have adduced in favor of a re-
mission of this charge upon the Meerassidars
of Jaricit lands, apply with equal or indeed with
any force to enamdars - their Enams were granted
to them burthened with the Cavil fees, and the
Government will do them no injustice, in leaving
them in their present position, although from
liberal motives of policy they may resolve to
free from an extra cess those who already

contribute

contribute largely to the expenses of the state deducting therefore Rupees 35,110 the amount of Cavil fees paid by Inamdars from the total Cavil Sotuntarums of Rupees 1,84,182, and dividing the remainder by two, to obtain the sum contributed by the Tanuff Meerasidars it appears that Rupees 74,526 will be the sum to be henceforth relinquished if the Government should allow that the cess may be hereafter forgone.

25 The House and the loom taxes are the only items of Motorpha levied in Tanjore and although the Government has by law declared that the former shall together with the Cavil fees, be applied to the expences of the Police force, the Board do not consider that the two demands are in any way connected or that it is at all necessary to abandon one, because it is considered inexpedient to continue the collection of the other. The House tax as an item of Motorpha revenue, will be considered and dealt with, whenever the general question of that source of the income of the state may be decided on. As regards the Cavil Sotuntarums however the Board must support the recommendation of the Collector

Collector. They can find no ground for collecting from the Meerasidars of Tanjore, the whole, and more than the whole expense of the Police in addition to a land tax calculated at half the Gross produce. they consider that the maintenance of the peace, and the protection of life and property are among the first objects for which the state collects taxes at all and to tax one fraction of the people to the extent of what when the tax was fixed was supposed to be half that they produced and in addition to call upon them to pay for the protection of what remains, a force which the former tax it is collected to support, appears to the Board to be indefensible in any sound principle. If the resources of the state be insufficient to support a Police Force out of the general revenues it may be very right to levy an Extra Police tax, but the Board submit that such a question must be considered Imperially, and that one Province cannot in justice be selected out of all, and called upon to pay for what all other Provinces enjoy out of the general resources of the state. If the Government should decide on the

the abolition of this demand the repeal of Regulation I of 1816 will be necessary—

Pagodas & Brammin Chuttrums.

26.— These Soluntrums manifestly originated with the Native Government and have probably never been unpopular—to pay a per centage of his produce to support the Pagodas of the religion in which he has been brought up, to feed the class he is taught from Childhood to revere, and to contribute to the support and comfort of the traveller and the poor have probably always been considered duties by the Hindoo, but yet it is very questionable if these are duties which the Government does right by its interference to enforce—

Pagodas.—

27. Endowments were originally made by the Native rulers for the support of religious and charitable institutions, and on the country coming under the British Government the endowment were respected, but were put on a more regular method of realization, the grants not being the produce of separate lands but of various per centages on the produce of some Villages, and the land of others to—

obviate

obviate the confusion arising from the various rates which obtained under the native rule a fixed per centage on the produce of the Zillah was adopted and was credited to Government and a general fund thus made from which the allowances were paid, all surplus being credited to Government up to Fusly 1252 a standard made in Fusly 1217 was that above which no payments were made the surplus being credited to the head of Sevoy Jumma, but in that year it was directed that the whole should be incorporated with the ayen account, and the sanction of Government was given to a fixed sum not to be exceeded in

in each year.

28. The proportion of the Sotuntarums, allotted to the different Pagodas does not, it appears vary, the buildings remain much the same in number from year to year, and but a small proportion of the whole seem appropriated to their support, remains in the coffers of the state but were the proportion smaller than it is, or were even it nothing whatever to remain, the Board would consider themselves constrained to recommend its abandonment in future. They agree with the Collector that the Pagodas should be supported by the free

J.F.B.

with

with offerings of the people and they are unable to support the continuance of a System under which the Officers of Government Collect from the landowners a tax expressly for this object over and above the taxes due to the State. At the same time the Government should be reminded that for more than fifty years they have paid to the Pagodas their own share of the Sotuntarum and that on abolishing this item and leaving the people to make over offerings consideration will be requisite as to the best mode of making up to the Institution the loss of the Government share. The sum remitted by Government if this item be sacrificed will be about 11,700 Rupees.

Brahmins

29. The allowances made to Brahmins from this Sotuntarum is as objectionable in principle as that made to the Pagodas the Board conceive that the British Government acts inconsistently with its professions of perfect neutrality in respect to the religion of its Asiatic Subjects when it collects from one class a tax for the support of another, whose claim to support

support rests solely on a claim to supposed religious superiority. It appears by the

para 22 Collector's Statement that the total sum credited to Government on account of the Brahmins Sitantarum is about 22800 Rupees and that of this in consequence of death it was in 1852 when arrangements were made for incorporating the item with the ryen revenue necessary to sanction the payment of only Rupees 3152 this latter sum being further reduced when actual payments were made to Rupees 1754 for which sum alone till any claimants come forward as lapses year by year occur; this allowance will gradually diminish and at no distant date will be extinct and the Collector recommends that in consideration of this fact and of the large aggregate sum which the Government have received as the surplus of the Satantarum the State should charge itself with the disbursement of all existing allowances and at once abolish the extra cess now collected from the Ryots. In this recommendation the Board entirely concur remarking that the concession will involve a loss of 1140 Rupees

Rupees per annum besides the payment of present pensioners whose claim appear to be advanced with very little regularity.

Chultrums 30. The last item of excluded Cess collected from the meerasadars of Tanjore as a

para 24 Satantarum, to which the Collectors report refers is that collected on account of the Chultrums the amount is small being only about 5000 Rupees, and the sum actually disbursed is smaller still Rupees 3969. The objection which may be made to the allowances made to Pagodas and to Brahmins do not apply so forcibly to enforce charity is not the part of Government. The item is so small that it seems very inadvisable on its account alone to maintain any part of a system of extra cess when all the rest is swept away and the Board agree in the Collectors recommendation that the Government should charge itself with this small item of expence viz Rupees 1984 per annum or the amount of the meerasadars contribution and for ever free the land from any charge but that of the Government tax. The abolition of

of this voluntarium will involve a loss to Government of only 2500 Rupees a year.

31 In concluding their remarks on these presumed voluntariums the Board desire to remark that they are not as are all the other voluntariums in Tanjore and those in other Districts, deductions made from the gross produce for the benefit of the landowners - the Soliary, the totie, the Vetty and the Village Artificers are of essential service to the inhabitants and some argument may be adduced why the inhabitants should pay them but the Curmum is a Government servant, the Police is a Government institution, the Village poor are not supported by the State, and from the allowances to pagodas Bramins, and Chuttrums, the Meerassadars derive no advantage. But it appears to the Board that there are also other grounds on which the abolition of these voluntariums should be advocated. The spread of the Christian religion among the people has already given rise to complaint that converts are made by the contribution to support a religion they

do not profess, and the complaint will be heard more loudly as European landowners gradually increase in the Provinces the Board are of opinion that advantage should be taken of the question having now been prominently brought to notice to remove the grievance from the one party, and to prevent its occurrence to the other.

32 Having disposed of the question of the presumed voluntariums, the Board will go back to paragraph 14 of the Collector's report and briefly notice the allowances made to the Class of Servants termed Rat Curmums. They formerly were the Village accountants paid by them to look after their interests they gradually became more and more useful to the Government Officers until they have become an indispensable part of the revenue establishment of the Province. Up to Fusly 1230, this Class of Servant drew their support directly from the Meerassidars, but in that year the Principal Collector Mr. Cotton changed the System which had up to that time obtained, made their salaries a charge upon the State, and

State and collected it, amount from the land owners. In reply to a call to inform the Board of the authority under which the change was made the Collector has replied that it appears to have been done by the Principal Collector himself that no correspondence passed and that Mr. Cottons order to the Tahsildars to effect the arrangement is the sole thing on record. The Board are not prepared at present to advocate the abandonment of this demand they believe that the Nat Cummus could not be dispensed with in Tanjore while at the present moment the Government of India would be indisposed to sanction so large an increase to the District Charges as must be made if the pay of the Nat Cummus were to be undertaken by the State independent of the Cess from which it is now derived The Board admits the principle contended for by the Collector and under more favorable circumstances will not object to support it.

Rupees 30794

33.

Among other points to which the attention of Collectors was directed was the consideration of the principle on

which a tax of 50 per Cent on the fixed Teerwah is demanded for a Second Crop and they were requested to report their opinion as to the practicability and propriety of substituting a smaller fixed cess so as for ever to free land from inspection and examination by the public servants to ascertain whether a Second Crop had been cultivated or not However desirable the Board may still consider such an arrangement, they are satisfied from what the Collector has said that it cannot be introduced into Tanjore. That District although affording the finest example of artificial irrigation in this presidency and probably in the world, has on but a comparatively small extent of land producing two Crops of piece and this arises partly from the fact that the soil is not a very rich

para 20

Fasly 1267
Punjah Cultv. Values 197390.
Second Crop 3159

pick one, and partly from the land being almost all under rivers and not under tank irrigation water is not stored in Tanjore. it is conducted to the fields from the rivers, and the supply ceases wholly when the rivers cease to flow. Those practically unacquainted with the Province are apt to consider that its means of irrigation are boundless, and if they are to be judged by the quantity of water that passes the head of Seringham no doubt they would be rightly so considered if the surplus water could be husbanded there would be sufficient for the irrigation of more than one District, but this cannot be done, and each time a freshe comes down the Cauvery, as much water as is needed is any

J. G. B.

appropriated, the surplus passes to the Coleroon sea, and in a fortnight after wards perhaps there is a general cry for water. It is only therefore in the most interior parts of the Province, that is first visited, and latest left by the freshes, that generally speaking is supplied with water sufficiently long to yield a second Crop. The uncertainty of a second crop ever coming to maturity is so great that few of the Ryots are to be tempted to raise one, and the Collector expresses his conviction that no man would agree to a permanent enhancement of his liabilities however trifling, to free his land from the uncertainty of irrigation on the part of the public servants, when ever in a moyen a concurrence of favorable circumstances he might be encouraged to attempt to raise a second Crop."

From Tanjore dated 12th July 1855 Cons 23 Apl. 1856 p 26.

The next question discussed by the Collector is, the propriety of adopting the Boards suggestion to allow a crop of dry grain to be raised on Punjah land without subjecting the right to any extra demand on account of

para 27.

it the practice in this respect varies in Sangore. When the tarum settlement was in course of introduction by Mr Kindersley he represented to the Board that under the Woolooongoo system a dry grain crop raised on Kunjah land, after the rice crop had been cut, was always assessed that permanently at 50 per cent of the average village assessment "an impo=sition which precluded it's ever being "attempted except in the hope of sur=reptitious engagement. It was a dog "in the manger system which diminish=ed the profits of the Royalty with=out advantage to the Ryuts and "what is worse encouraged corrup=tion & fraud." at the time this was written the annual revenue from this source was only 3027 Rupees but this does not show that an extent of land from which that sum would have been the appropriate return was annually cultivated with dry grain as a second crop since under the Woolooongoo System land once so cul=tivated was permanently charged and the sum therefore shewn only the assessment fixed on the land for a

Pol. Cons. to B. of Rev. 26th May 1830 para 47 7th June 1830

second crop of dry grain in a long series of years and not that for any one year Mr Kindersley took upon himself to do away with this demand altogether in all villages that came under a tarum settlement, and allowed that a crop of dry grain might be raised on Kunjah land without enhancement of the ordinary Kunjah tarum.

Of this the Board did not approve they "considered that upon the same general principle that a second crop of Kunjah land assessed for one crop "should be subject to an additional tax, "so also should an additional as=sessment be imposed upon a crop "of dry grain grown upon the same land "instead of a Kunjah crop. This was "the case" the Board remarked which "was laid down after mature considera=tion in the Ceded Districts" and they were of opinion that "if the custom were "not maintained lands upon which such "crops were grown would not be assess=ed in proportion to their real capabilities nor

Do. B. of Rev. 2nd May 1831 para 29

"not equally with other lands. the
"two crop punjah land they thought
"would not be cultivated as here
"tofore with two crops of paddy will
"an additional assessment upon the
"second crop but at a disadvantage"
The Board further remarked that "the
"privilege of raising a second crop of
"dry grain without additional tax could
"hardly in fairness be denied to the
"holders of two Crop land and that
"consequently would they thought pro-
"bably be a substitution of dry grain
"for paddy, to the general detriment
"of the Revenue". The Government of
from Govt 29th Nov. Ind. 5th Dec 1831 para 15. — Fort St George had of the Board's remarks on the subject, and directed the resumption of the assessment which had been abolished by Mr Hinderley, remarking that his arrangements were objectionable, inasmuch as they allowed the Circar water to be used without payment of any extra cost, and discouraged the cultivation of regular dry crop land.

36 The present Board remark

that the Principal Collector appears by
says in the passage of his letter
already referred to that the dry
grain crop was raised only "when
"sufficient moisture remained in the
"ground" and he no where refers to
the crop being assisted towards
maturity by water taken from
any public source of supply. and
they are therefore of opinion that
in referring to Circar water being
used in aid the Government had
misapprehended the question as
regards too that part of the Board's
remarks which are above quoted,
and which refer to the injustice
that would be done to holders of
two Crops wet lands, if they were
not admitted to a participation
in the benefits granted by Mr.
Hinderley to others, and allowed
to substitute a second dry crop
untaxed for their taxed second wet
crop, it appears to the present Board
that the two cases are not at all
analogous. The analogy would have

here

has been a fair one if the Principal Collector had proposed to allow the holders of one Crop land to grow dry instead of wet grain on their land paying a dry grain assessment but the question as proposed by Mr. Kindersley in favor of holders of one crop land was the same as regards the holders of two Crop land as if it had been proposed to allow the latter to grow a third Crop of dry grain, untaxed after they had reaped two wet Crops.—

Para 27

37.— The Board learn from the Collectors present report that notwithstanding the expressed disapprobation of both the Board & the Government with the proceedings of the Principal Collector in respect to a dry grain crop grown on wet land after the wet crop had been reaped, the practice introduced by Mr Kindersley has continued to obtain in all the taxed settled villages, and that it is in the villages, moolungoo settled alone that a demand of 50 per cent is made

made when this dry crop is raised. The Collector is not able to state the extent of land which were employed to produce this dry Crop, because in taxed settled villages as no demand on account of it is made, no account is kept & in moolungoo villages as the demand is the same as for a second Crop dry grain crop it is credited under that head. But there can exist no doubt of the destructive action of the rule when Mr Kindersley wrote in 1850, the total demand on account of the second dry crop on wet lands amounted to only 3000 Rupees and as he carried on his taxed settlement to a later period, & there is now a another extent of land under the moolungoo rent & the demand on account of a second Crop of dry grain must now be another still.

38.— The Collector informs the Board that he had made enquiries of many of the Mocuddums of his District as to the rates they would set upon the abolition of the rule which now subjects land in a Moolungoo settled village to

Fort St George 29th August 1850

to the same demand for a second crop of dry grain on Punjah land, as for a second wet crop, the information which Mr Forbes received appears to have varied probably in consequence of the different degrees of fertility of the land owned by his different informants but it is worthy of particular notice that the Collector offers his opinion founded on the information given him in personal communication with the landowners that were the restrictions to the cultivation of a second crop of dry grain that now exists withdrawn, many would cultivate hemp & other fibrous plants, which might form the commencement of a valuable export trade

39. The Board have already expressed an opinion not in unison with that recorded by their predecessors & by the Government, when this matter was formerly under discussion at they believe that the present rule deprives the Mussulmans of a means of gain, which might assist their forming ope-rations, and check a cultivation which might

Fort St George 29th August 1850

might be the means of extending the production of a valuable article of export, and as they are of opinion that the Mussulmans of Malabar villages should no longer be placed at a disadvantage with those of the same district settled villages of the same district who have enjoyed for more than five & twenty years the privilege now in question they recommend that the Collectors views be adopted and that the whole Province be placed on the same footing as regards a second Crop of dry grain raised on Punjah land not under tank irrigation. It will be necessary as the Collector remarks that land already entered as two crop land & capable of producing two crops, be not allowed exemption under this rule from the Tarnah Jodty at present allowed upon it.

40. The garden lands of Tanjore are peculiar as for the most part situated immediately on the banks of the numerous rivers within the

the

the artificial embankments, contain a rich but
irrigant soil formed by the river deposits through
which water oozes to the roots of substance
planted in them they thus derive moisture from
the rivers although they are not irrigated from the
surface and hence not arisen a system under
which land is assessed as garden according to the
crop it bears, and not in consequence of the crop has
been raised by irrigation supplied by manual
labor no trees are allowed on these padoogays
in order that nothing may interfere with the free
course of the stream and endanger the safety of
the banks from a quotation was made by the Collr
from a former report by the Principal
Collector dated the 25th May 1855
" The Board learn that up to Fasly
1217 all land on which any of the
articles named above are cultivated
be bungayet and not assessed
with the Taurnal entered against
each article in Fasly 1217 the aver-
age assessment of the different
articles of Garden produce which had
proved to have been cultivated in
each village in the three preceding
years was substituted and an
uniform assessment was thus
established for each village
without reference to any future va-
riation in the Crop on the intro-
duction of the woolloogoo system
a minimum extent of garden land
was fixed according to former ac-
counts of cultivation at the diffe
and the assessment fixed in
Fasly 1217 are maintained.

any Poonjah or other land which might in any year be
cultivated with any of the product named above
was assessed and that permanently, at the same rate
41. In introducing the Taram Settlement
Mr Rindersley changed the mode of assessing
Garden lands, and introduced the following rules.—
1st That those lands only should be consi-
dered Bungayet which had the means of irrigation
by manual labor or otherwise and that on such
lands any kind and number of Crops might be
cultivated without enhancement of the Demand.
2d That no addition to the demand on two crop
munjah land should be made on account of its pro-
ducing three crops or on account of any crop other
than rice being cultivated on it
3d That if any of the following crops
should be raised on one crop munjah land
an extra cess at the rate of 50 per cent should
be charged.

Chayroot Tobacco.
Sugar cane Betel
Plantain Poonah

That

Fort St. George 29th. August 1856.

4th That if any of the above named crops should be raised on Pooyah Land an additional demand as follows should be made when the Pooyah assessment is

From		to within		
chins 1		chins 10	50	per cent
10	–	15	37½	
15	–	20	25	
20	and upwards		12½	

with the above exceptions any number and any kind of crop was to be raised on nunjah or Pooyah land without extra tax. Mr. Pringle explained that in the selection of the six crops to be taxed he had been guided more by the Demand they were in the market than by their intrinsic value, and admitted that some decrease of Revenue might follow on the adoption of the principle he recommended of classing land as Garden according to its means of irrigation instead of according to the crop it might produce – this however he considered would be compensated for by the further plan he proposed to adopt, of classing land hitherto assessed as garden altho without the means of irrigation

in

Fort St. George 29th. August 1856.

in that class of Pooyah the rate of assessment of which should be nearest to the rate borne by the land as Garden.

Pro 2d May 1831 para 31 41

42 The Board of Revenue disapproved of these changes, they remarked para 36. that in Tanjore as elsewhere throughout Southern India there had always been a distinction between irrigated and unirrigated land, and it appeared to them that if this great distinctive principle were to be abandoned, the only intelligible rule by which the assessment could be regulated would be set aside. the Board further thought that not only was the additional tax just and reasonable in itself but so long as it continued to be collected in all other Districts it would be an act of injustice to abolish it in Tanjore where the assessment is low, and labour and expence of cultivation less than elsewhere, and where irrigation being abundant Garden Cultivation would if untaxed, be extensive as the markets of neighbouring Districts would be injuriously affected by the change.

To Bd 29th Novr inclos 5th Decr 1831 para 17 18.

43 The Government concurred in the Board's views and directed that the former practice of the District should be maintained but the system introduced by Mr Kindersley has continued to prevail in all the Villages into which he introduced it, and it is only in the

Coll.r to Bd 16th May 1855 Inclos 13th Sept 1856 para 16.

Villages

Fort St. George 29th August 1856.

Villages Woolooroo settled, and in some few Grof settled Villages in which the new System was never acted on, that the old plan is followed.

15. From the above it would appear that the land cannot, as in some other Districts be divided into irrigated and unirrigated since a great extent of the most valuable land is not subject to surface irrigation although it produces the fruit Garden crops. the rates of Garden and Poonjah assessment at present obtaining in the District are as follows.

	highest Rs A P	per acre lowest	average
Poonjah	5 4 1	"	3/1
Garden	12 3 8	" 7 7	3 9 8

	Rs	A	P
Chingleput	4	11	2
Salem	5	6	5
Madura	5	8	7
Nellore	8	8	3
North Arcot	12	9	10
South Arcot	13	1	9
Trichinopoly	3	12	6
Tinnevelly	1	11	1
Bellary	6	15	10
Cuddapah	8	3	9
Coimbatore	3	11	11
Kurnool	8	3	9
Ganjam	1	2	3
Vizagapatam	3	9	7
Rajahmundry	7	6	"
Masulipatam	1	15	"
Guntoor	6	6	4

The assessment of the Garden land of Tanjore is lower than in almost any other District - Rupees 3 - 10 the acre is the average, while elsewhere it is as marginally noted. The total extent cultivated as garden by the accounts of Fusly 1264 was 41170 acres with an assessment of Rupees 152021 - 8 - 11 - The Padoogay or lands within the artificial banks of the rivers on which Garden crops are chiefly raised, is the richest and finest in

Fort St. George 29th August 1856.

in the Province, and produce crop heavier and more valuable than the choicest Poonjah land to assess it at the present first class Poonjah rates would be a needless sacrifice of Revenue and it does not appear to the Board that any general reduction is needed nor does the Collector recommend any. it may be assumed from what Mr Forbes says on the subject of assessing Dry land when converted into garden that he is of opinion that in individual cases the garden tax has been fixed too high, and to these individual cases the Board will be prepared to give attention on their particulars being laid before them.

Para 31.

15. The Collector thus describes and illustrates the System under which in field assessed Villages the assessment is fixed when Dry land is converted into wet or garden.

"In the field assessed Villages of Tanjore "where dry or Garden land is converted into wet "it is assessed on the following System all the "lands in the Village having been classed according "to their productive powers at the time of the "introduction of the field assessment dry or Garden

land

"Land when converted into wet is assessed with a
"nunjah teeruah class for class with the proviso
"that no land newly irrigated shall be admitted
"to any class of nunjah lower than the eighth
"and that if there should be in the Village no
"nunjah land in the class corresponding with
"that in which the dry or garden land stood be-
"fore it was converted into wet it shall be
"assessed with the rate [illegible] land next
"above it in whatever class it may be and when
"there is no land in any class above that which
"corresponds with the class in which the dry or
"Garden land stood then the assessment of the
"first class Nunjah land shall be put upon it
"The following Statement will make my mea-
"ning clear."-

Village

JJ

15827. Fort St. George 29th August 1856.

"If any of the Dry land in the third class assessed at Eight chuckrums or twelve Rupees were converted into nunjah under the general rule it should be assessed at 280 Cullums the Valey that being the rate of third class nunjah land but as there is no third class nunjah land and also none in the second class the third class dry land would be assessed at 300 Cullums the valey or the assessment borne by the first class Nunjah land [illegible] so also if any [illegible] land assessed at five chuckrums or 7½ Rupees the Valey were converted into Nunjah it would be assessed at 230 Cullums or at the rate borne by the Eighth class nunjah land under the rule which prohibits the admission of any newly converted land to any rate lower than the Eighth"

The

15822. Fort St. George 29th August 1856

46 The Collector expresses

para 33. his opinion that this system needs modification and he believes that in the Trivadytion Taluk alone, about 6500 acres of dry land would be at once brought under irrigation if the rules of the District admitted a less rigorous mode of fixing the teerwajasty he would desire that without any fixed rule, the extra demand should be determined by the Collector on a consideration of the position of the land, its means of irrigation and its productive powers, and should this be conceded, he then proposes that poonjah land converted into Nunjah, should pay double it, poonjah Assessment, and garden land so converted, an additional tax of one half of what it bore as garden, provided however that no newly converted land be admitted to any rate below the lowest nunjah rate of the Village, and that a discretion be allowed in the case of some of the most highly assessed garden lands which would not bear an addition of 50% if converted into Nunjah.

The

47. The Board are satisfied from what the Collector has said that the present system pursued towards dry land converted into wet is faulty, and must restrict the extension of Nunjah Cultivation, its operation must be most unequal, since the additional cess fessed on the newly converted land does not depend wholly on the class in which it is entered, or the Nunjah class with which it corresponds, but also upon the question of whether there be any land in the corresponding Nunjah class. This is a consideration which can have nothing whatever to do with the question, and must act very differently in different villages. The Board believe that in most of the Districts the usual practice has been to assess Dry land when converted into wet, with the assessment borne by the surrounding Nunjah land, but they do not consider the system so unexceptionable as to be induced to introduce it where it does not now prevail. They consider that it also must act unequally in as much as it is reasonable to

suppose

suppose that the land last cultivated is the least valuable, and therefore cannot fairly be assessed at the average of surrounding lands which have been first taken up from being better irrigated, or more productive, are consequently more valuable.

48. Of the two plans proposed by the Collector the Board prefer the first and they consider that by leaving each piece of land to be assessed according to its means of irrigation its productive powers and natural advantages the best security is given that all lands shall bear their proper burthen.

49 The average Nunjah assessment of Tanjore, is 34 Rupees the Collectors anticipation that 1000 values of land will be brought under Nunjah Cultivation in the Trivady Taluk alone were the present restrictive rules relaxed the Board find sufficient to warrant them in expressing an opinion in favor of the change proposed by the Collector

even

even in a financial point of view, and in soliciting the orders of Government for its introduction.

50.

para 34 The next matter connected with the revenue system of the District in which the Collector desires alteration is the mode of giving remission in field assessed villages where remission is necessary the present mode is this - the demand on all land either waste or unproductive is remitted, such lands only coming under the latter head as may have produced less than ten Cullums of grain to the Vally. The quantity of grain produced is ascertained by estimate on actual inspection, and as the Collector remarks the Cumanie system has made the public servants of the produce familiar with the practice of estimating standing crops. The Board agree with the Collector that the limit is too restricted and an old report of Mr. Wallaces corroborates the Collectors statement that ten Cullums of grain is the quantity of seed usually sowed on

Coll.r to Board 15 May 1855
Govt. to Bd & Lieut. viz. on 13 Aug. 1856
Govt. to Bd & Lieut. viz. on 25 Oct. 1810 para 12

on a vally of land and that the expences of ploughing planting weeding &c.a demand at least ten Cullums more is that under the present rule remission is refused to the Merasidars even when his crop does not reimburse him for the expences of cultivation - If Merasidars make a profit on land that profit must bear some proportion to the extent of their cultivation They must therefore suffer a diminution of profit in proportion to the extent which from want of water they are prevented cultivating and must sustain an absolute loss on that which, having been cultivated, has proved unproductive even if the whole demand on it be remitted -

57. The Board are prepared to support the Collectors proposal that henceforth the minimum of produce that shall entitle a Meerasidar to remission, when remission may on general considerations be necessary, shall be extended to 25 Cullums the Vally. It is to be understood that this rule is not to be

Fort St George 29th August 1856.

be of universal application but that as hitherto, on a demand for remission being made, the general circumstances of the claimant shall be considered the escient of his total holding. its outturn, the selling price of grain, and the causes which have led to the land on which he may claim remission having yielded short produce.—

52. The Board are aware that no objection has been taken to the grant of remission on the ground that the assessment has been fixed on an average of produce and price, the Ryot having the advantage of a good year should suffer the losses of a bad one and this principle they would admit with a moderate land assessment but with an assessment based on the principle of taking half of the gross produce they are of opinion that so little remains to the poorer class of Ryotts above the reimbursement of their expences and the discharge of the public demand that it

Fort St George 29th August 1856.

it will always be necessary that some indulgence shall be shewn to them when a part of their land may have proved unproductive. But besides this it was stipulated in the agreements made by the Meerasidars and in the puttahs given to them at the time the turrum Settlement was introduced, that "should the crop fail "from too much or too little water in any "fusly, the Collector shall make a just "remission"—On the introduction of the turrum Settlement, the grain demand was on three years prices have from peculiar circumstance been high there is no doubt that the Meerasidars it is true, under the turrum Settlement, were to enjoy all the benefits of price above the standard, but they were likewise to forfeit all privilege of remission when prices fall and although in the past it will always be necessary that some indulgence shall be shewn to them when a part of their land may have proved unproductive. But besides this it was stipulated in the agreements made by the Meerasidars and in the puttahs given to them at the time the turrum Settlement was introduced, that "should the crop fail "from too much or too little water in any "fusly, the Collector shall make a just "remission"—On the introduction of the turrum Settlement, the grain demand was on enjoyed under the Vooloongoo system cannot be held to have become unnecessary under an enhanced grain berij— The Meerasidars it is true,

doubt that under ordinary circumstances there is a tendency in prices to fall below the standard.—

53. The large proportion of Nunjah to Punjah in Tanjore cannot be advanced as a reason why it should be excluded from the privilege of remission for when a nunjah and a Punjah crop fail the proprietor of the former is a much greater sufferer than the owner of the latter, even if the whole demand be remitted, from the much greater expense of Nunjah seed and cultivation much more than the whole demand is exacted from each for the disproportion of the demand is at least equal to that of the expense. It is impossible when the proportion of Nunjah is large but that remission must be made to poor Ryotts under any Settlement the foundation of which is properly half the average produce of the soil.—

para 35 54. The Collector reverts to the question of Dry and Garden land left waste in Woolooongoo printed

rented villages on which the present system of the province does not admit of the grant of any remission and he shews that of late years from 40 to 65000 Rupees have been annually brought to account as the assessment of the lands left wholly uncultivated.—

Fusly	Rupees	Centage on total Dry and Garden Demand	
1259	58164	17	
1260	60472	17 1/2

1263	117509	30 ex	

exceptional year

55. When the Nunjah crop does not exceed 30 per cent the Woolooongoo Meerasidars of

of Tanjore are obliged to conduct the harvest of their lands at their own risk & paying however for the whole standard Grain levied at 10 per cent below the current price of the years produced are naturally co-existent and the peculiar Settlement of the Wooliongoo villages in Tanjore therefore at times oblige the Meerasidars to pray at a

an enhanced rate for grain which they never reaped such being the position of the Meerasidars as regards partial loss of their Nunjah crops it is the more important to see that they are not unduly lightened by the loss of their dry crop also. In reporting on the extreme drought of July 1263 the Collector said that he doubted if the Poonjah cultivation was at any time "very profitable to the Meerasidars of his district, and that to obtain that the produce reimbursed the outlay, and meet the Government demand was probably near the truth. Indeed it is believed that the landowners very generally make over their Poonjah lands to their cultivators on a portion equal only to the Government demand. The Board are of opinion that Poonjah wastelands should not be charged when it bears any considerable proportion to the extent of the cultivated Nunjah, and they see no objection to accepting the Collector's proposal and to fix 10 per cent as the limit beyond which Poonjah waste shall hereafter be admitted to remission. The principal now admitted by the Board was sanctioned by Government in Extract Minutes Consultation of the 11th of March last No 285 when they said that "having unavoidable waste from clear circumstances of season occupancy of land should involve payment of assessment" for cultivation in Tanjore is so extensive and

Para 38

In Cons 12 July 1850. P 3.

and has for long been so general that not an acre of land is ever left waste if there be any reasonable hope of its producing a crop of grain.

Para 39

56 In this paragraph of his report the Collector has brought prominently to notice a system which is quite peculiar to Tanjore. In Tinnevelly, where the Woolungoo rent is found the Cultivated land only is in each year brought to account. In Tanjore under the Woolungoo system land once cultivated is permanently added to the dittum and no deduction is ever made even when from circumstances which the ryot cannot control any portion of his holding becomes wholly unfit for cultivation that land does thus become unfit from various causes the Board have learnt from the Collector, such as changes in the irrigation sending more water than is required on any low field and thus making it a swamp the breaching of their banks by the Rivers which these cover, neighbouring land with sand from land becoming as is sometimes the case impregnated with salt, and from its producing lime kunker at a little depth below the surface of the soil.

Coll to Bd 16 May/55
" 24
Ln Com 13 Aug 1856

57. The Collector states the origin of the rule to be the fact that when the Woolungoo system was introduced it was the gross berez of each village only that was settled, the proportion in which the several fields contributed to make up that berez being left unascertained. When land newly taken up for cultivation it is assessed not according to its intrinsic value but at the village average per valy and were land to be deducted from the dittum it has been supposed that a deduction from the berez must be made also at the village average as follows. "if in a village where there was some land producing 300 Cullums to the valy, some producing 200, some 150, and some 100, so that the average was 187½ the land yielding 100 cullums was to be thrown up and a deduction to be made from the village berez at the average rate of assessment in 187½ Cullums the sacrifice on the part of the state would be considerably more than the occasion at all demanded." And Mr. Fox proposes that in future it shall be allowable to the Collector to deduct from the dittum land that he may ascertain to be unfit for cultivation, deducting from the village

village bears at the rate of only 50 per cent on its average assessment per vary on the principle that "land which has never yielded an average share of the whole village produce is not entitled to a deduction at an average of the whole village assessment."

Coll. to BP. 16 May/55 Para 24. Inl. 13 Aug/56

58- The Board remark that the principle of the charge advocated by the Collector has been already admitted, although hither to it has been extended only to those villages which had been long under anmanie and which it was found impossible to rent as long as land unfit for cultivation was included in the dittum. In reviewing the Settlement of the District for 1255, the Board when discussing the best means of renting the anmany Villages proposed to exclude such land as had been improperly included in the dittum and referred particularly to the opinion expressed by Sir H.G. Montgomery when acting Principal Collector that "the main cause of the Merasidars of Tanjore refusing to accede to the terms of the Woodungoo rent was that land unfit for cultivation was included

BP. Pro. 19 Aug/47 para 4

Coll. to BP. 5 Aug. & 2 Sept. 1851. P 13-14

Firstly

in

in the Standard dittum" and in reviewing the part

BP. Pro. 15 May 1857 Para 14

on the settlement for Fasly 1259, they formally confirmed the proceedings of the Collector in having deducted from the standard a dittum of certain villages which having been long under anamie were then first rented, such lands were either unfit for cultivation or beyond the ability of the Merasidar to retain.

59- Owing to the comparatively low rate of assessment in Tanjore to the cultivation of a Cumut, the entire area of its delta, and of the high saleable value which its lands now command in the market the Board have not considered it expedient at present to propose any general reduction of its assessment but they are quit prepared to recommend to the Government to relay any rules which at present have hardly equally and unequally upon the Merasidars.

They considered the question now brought forward by the Collector to be a case that call for consideration and they resolve to commend it to the Government with the exception of their opinion that the limit proposed of remitting half only

only of the average assessment of the Village on such land as may be found on examination to be unfit for cultivation will be sufficient to prevent the proposed rule being allowed to affect land other than that to which it is intended to apply.

para 40. 60. In land once taken up for cultivation in a Woolungoo rented village or in one on which the gross berij only has been fixed has hitherto never been deducted from the dittum however sterile it may have proved. So land once assessed for a second Crop, is permanently so assessed, notwithstanding that save for the single year when the extra cess was fixed on it, it may never have been capable of producing a second crop of grain and the Collector recommends that this rule also be relaxed. It appears to the Board that it must act injuriously on the Government revenue as well unjustly on the Meerasidar and they cannot doubt that in a year when the freshes are abundant and the land owner would under other circumstances be willing to attempt to raise a second Crop, they are restained by the knowledge that they would thereby be entail on the land so cultivated a

a permanently enhanced cess the Government loses the Teermah jaste it might in time be years otherwise receive, the Meerasidar is deprived of a profit he might otherwise make, and pro- fit to the produce of the province is restricted. All parties lose and no careful object is attained. The Board support the Collectors recommendation that land now assessed as two Crop and which on enquiry may be found not capable of producing a second Crop of paddy may be re- lieved from the extra cess, and that hereafter a Teermajaste shall be assessed on land not entered as two Crop land in the dittum for those years only in which a second crop may be raised.

para 41 61. In this paragraph the Collector refers to the rate of remuneration paid to the

the labourers who reap and thresh the grain in villages, the harvest of which is conducted under aumanie and he shews that as the rate is on the quantity of grain measured, and as generally speaking, land comes under Aumanie only when its produce is small, labourers are brought together from several villages and receive for their work less than a day's subsistence.

K B

1/10 of a measure of paddy
1/32 of a measure of rice

instances being adduced from the fusly in which the Collector was writing when only 1/32 part of a measure of rice was the remuneration which under the rules at present in force was awarded to the labourer who reaped certain lands. Mr. Forbes recommends that in future the present rules shall hold when the outturn from each valy is as much as 100 Cullums of grain and that whenever it may be less than that for Cullums of grain be given for each valy of land reaped the Board admit the justice of the proposed change and concur in the collectors recommendation.

para 12

62 The collector next adverts to the fish rents collected in Tanjore and recommends their abolition. The fisheries of the rivers channels and tanks are annually farmed out the former to speculators and the two latter generally to the inhabitants of the village within whose boundaries they may be situated. The interests of the renters and the land holders are different. the one can take fish only when the water

water is low, and the other for the irrigation of his land desires to keep it high. Disputes are said to be constant, and claim to remission are annually made by both parties on account of the alleged fact that the other either let off are persisted in needlessly keeping up the water as regards the river fisheries too another objection is taken and in a subsequent letter the Collector transmits a copy of a communication he had received from Major Lawford the Civil Engineer bringing to notice the injurious practice which prevails in the Province of constructing strong fishing dams in irrigating and draining river and channels Major Lawford remarked that it was little known how much injury was really occasioned by these works that he was persuaded it was considerable and such as to outweigh the pecuniary benefit derived from the inland fisheries be added that year after year he had pointed these evils out to the Tahsildar and had caused many dams to be removed in his presence probably however to be renewed as soon as the Civil Engineer departed

8th March 1855
In Dleons 23 April 55

3 March 1855
Encr. in above letter.

The

63

The Collector continues "that while the Sea fisheries can lead to no disputes and to no injurious results they remain wholly untaxed - the inland fisheries alone are taxed, and from them both dispute and injury arise. The Board can suggest no middle course between abolishing the rent and allowing the renters the latitude they at present have to erect fishing dams to rent the privelege of fishing. and at the same time prohibited the adoption of the means by which fish can be taken - does not appear escpedient -

In the margin the Board have placed the amounts received in Fusly 1264, in the several districts then under their supervision on account of the fish rents - Tanjore it will be observed was the highest of all and are these the amount was short of 21,000 Rupees - The Board consider that the opinion escpressed by the Civil Engineer as to the injurious results to the river banks which arise from the means adopted by the renters to profit by their farms render the abolition of the taxe desirable and they resolve to recommend it on this ground without entering

on

on a discussion of the other arguments adduced by the collector.—

Para 14 6th. The last matter to which the collector addresses his attention are the enlargement of rent free sites for houses and certain alteration in the System of taxing trees. the latter subject will be disposed of when the Board receive and take into consideration the report from the several Collectors on the points referred to them by order of Government and need not be dwelt upon here. as regards the sites of houses there appears by the Collectors report to have been changes made since the country came under the British Government. In 1800 the following were the esctent allowed rent free for building purposes.

E. M C 31st May 1855 N. 655 Lisbons 29th October 1855.

	Goontahs
Meerasidar	120.
Paracoody or field labourer	100

Cashawingum or those in connected with agriculture	60

a goontah contains 144 Square feet. It was a rule that the backyards should adjoin the houses, and all those that were found to be situated at a distance and all

15834 Fort St. George 29th August 1856

all sites the houses on which had become ruined were subsequently resumed, and on new sites being given the grant for a backyard was limited to 40 Goontahs independent of the site of the house. This limit was again curtailed in Fusly 1250 when the Principal Collector ruled that the site of the house should be included in the 40 Goontahs granted as a backyard.—

6th. The collector now seeks to revert to the former practice and to receive sanction for granting backyards of 40 Goontahs in esctent. It does not appear that the change introduced in 1250 was effected under orders from the Board. The Board observe that it is of more importance to the people of Tanjore that a tolerably sized backyard should be attached to their houses than to the inhabitants of other districts in consequence of the generally almost and in many villages entire absence of any uncultivated ground on which cattle may be turned out from June to March as cattle cannot be on the paddyfields and must be kept and fed within the enclosure of their owners houses. The Board are willing to admit the Collectors recommendation based on local knowledge

5760 Square feet is about 25 yards Square

15835 Fort St. George 29th August 1856.

knowledge and esperience and they resolve to commend it to the consideration of Government.

68. In these proceedings it has been recommended that the following item of revenue be abolished

		Rs
On 2d Crop dry land in Pampanaje and Combaconum		282
On 2d Crop Cultivation in dry land in Poloongoo rented villages		2742
On the Curnum Sotumtrums		7439
On the Coroopitchy	Do	22318
On the Covil	Do	74526
On the Paad and Bramin	Do	25716
On Fish rent		23100

amounting in the aggregate to Rupees 156423-

The sum is large and the sacrifice will probably be permanent as far as direct revenue is concerned for the items are none of them such as admit of any compensating benefit occurring directly to Government But the Board are satisfied that in their proceedings regarding the assessment of Provinces the Government have not been guided by interested motives only but that they have been desirous of substituting a just and moderate system of taxation for one that was found to be oppressive and to clear away for ever the many petty items of demand which as remnants of Native rule have continued even to this late date to embarrass the owners of the land.

69. They resolve to forward a copy of these proceedings to the Right Honorable the Governor in Council with the reports from the Collector of Tanjore which have given rise to them.

15836 Fort St. George 29th August 1856

Bd's No. 2861 Proceedings to Malabar. 1287

Communicating to the Collectors of Malabar the observations of the Bd on certain points embodied in his Report on the Summary Settlement of this District for Fusslies 1263 and 1264.

The result of these two Settlements has been embodied in the Board's general reports for those 2 years, and it is only necessary therefore on this occasion the advert to a few points connected with the accounts submitted by the Collector

It appears that in Statement No. 1. Moturpha Puttahs are mixed up with Land Revenue Puttahs. as the Sub Collector observes in his remarks on the Settlement of Fusly 1263 that out of the 1864 Puttahs distributed in his division 3273 only belonged to the land. This Statement was intended to apply more especially to the Land revenue settlement and the Board wish it to show the number of Puttahs distributed to the holders of land. This is to be attended to in future and a separate Column can be opened to shew the Moturpha Puttahs.

On scrutinising the number of Villages noted in the Collector's reports the Board observe that in Fusly 1263 there

	Amshams.	Villages.	
1262	432	2599	was a decrease of 1 amsham or

No assessment is payable on those Lands for the Current Fusly as they have not been brought under the plough owing to their having been under attachment.

Revenue Board Office
Fort St George
28th August 1856

True Copy
(Signed) G. L. Forbes
Secretary

The

Fort St George 28th August 1856.

Bd No 2770

Proceedings thereon.

(1215-1216)

The Board of Revenue authorize the sale for arrears of Revenue of the Lands alluded to in the fore-going letter and direct the publication in their Office of the advertisement forwarded by the Collector Friday the 10th October next being fixed for the day of sale.

2 It is observed from Columns 9 of the Advertisement being in some instances left blank that it will be inferred that the Current years Revenue is paid if this is not the case the amount shall be entered.-
