B. No. 3724

Order thereon.-

Copy of Para 4 of the Court's Despatch will be communicated to the Collector of Sea Customs at Madras for information and guidance.-

Copy of Para 8 of the Court's Despatch with Para 4 of the Minutes of Consultation will be furnished to the Collector of Madura and Tinnevelly.-

Ordered

each of whom has applied for, and received a bonus in the fixed scale in Commutation of a pension. You have not confined the Commutation, (as was Originally proposed) to the case of pensions not exceeding 20 Rupees per annum many of those mentioned being greatly in excess of that limit and one of them amounting to 20 Rupees per month. We think it highly desirable to encourage a disposition on the part of Stipendiaries to obtain by the Commutation of their Pensions the means of engaging in profitable employment, as by so doing they merge in the best and most desirable way, in the general Community almost all those whose cases are here brought to notice were either already engaged or intended to engage in industrious pursuits and though such applications are likely to be chiefly made by those whose Stipends are small, we see no reason against entertaining them when made whatever may be the amount provided due means are taken, as they appear to be, of ascertaining that the character of the applicant is

respectable

respectable, that the purpose is not to squander the money, but to employ it profitably and that there is a fair prospect of doing so.-

(True Extract).

/Signed/ J. Pycroft

Chief Secretary

In circulating the above, the Board will notify that the principle of those instructions is applicable to all Pensions and Yeomiahs of whatever description. They will also direct all Collectors to bear in mind in treating hereafter with applications for the Commutation of Pensions, that there can be in future no objection to Commutation on account of the amount of the Pension, provided the object for which the Commutation is sought, be good.-

Such cases as - a exceed in the limit, as laid down in the Boards Circular Order No. 1821 of 21st July 1855. and now withdrawn.-

Should

19483 Fort St. George 6th November 1856

should be freely recommended for Commutation by Collectors, but it must be understood that all these cases are to be reported for the decision and orders of the Government.

The Board will themselves continue to dispose of all applications for Commutation of such Pensions as they have hitherto been empowered to dispose of.

Read again letter from the Collector of Nellore dated 15th Jany. and entered in Cons: 20th March 1856.

No. 179

To G. L. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

241

Bd. No. 3401

From the Collector of Nellore —

Replying to Extract from the Proceedings of the Bd. of Revenue of 20th March 1856 calling for a further report regarding certain Enams granted by Messrs. Travers and Fraser.

Bds Pro: Para 5 2

Sir,

I have the honor to acknowledge the receipt of Extract from the Proceedings of the Board of Revenue dated 20th March last calling for a further report regarding certain Enams granted by Messrs. Travers and Fraser.

The number and value of the Grants which have been omitted in the Statement already submitted as being those made under the Mahomedan Government are as noted in the margin.

No. Extent Tapum Gross Rent Rs. 18 8 Net Rent Rs. 9 8 2 10
26-74-12-½-782-11 6 1 8-7

The grounds for the opinion that they are grants of the former Government are the reports of the Tahsildars on each grant supported by a reference to the

the orders under which they were re:
:newed and checked by further refer:
:ence to the Kozoor Records.

3 The Enams transferred to Guntoor together with the Villages to which they belonged are 6 in number, comprising 16 Gortoos I have formarded a List of them to the Collector of that District.

Para 8

4 As regards the question whether the Dauastanum Enams were grants in compensation for allowances from the Grama Kurch I beg to state that enquiries have been made on the subject, and the result is that the Curnums and Ryots have stated they heard that they were so in some instances, and the assertion is supported by some expressions in a letter from Mr Travers to W. Thackeray Esqr Junior Member of the Board of Revenue Dated 30th December 1808, which was alluded to by Mr White in his report dated 9th March 1863.

Copy

copy of those parts of the letter which seem to refer to this subject, though not to these Grants specfically, are herewith forwarded Mr. Travers's reasoning shows that he considered a state endowment of these institutions preferable to a contribution levied from the people themselves, an opinion in which I cannot coincide.

5 In the cases of Chuttrum Pope and Salivendrum Enams an en:
:quiry has been made into the par:
:ticulars of the expenses of the charity, and the actual value of the Grants, the latter being assumed to be the Jarum assessment of the land/though this is rather a high standard/ The result is that in a few cases only the value of the Enam seems disproportionate to the expenses incurred, these are particularized below for the Board's inform:
:ation though not generally recommended for exemption.

The others do not seem to call for

for interference

6- N:o 56 The value of the Grant at the Turrum assessment is Rupees 493-1-6. The regular expenses of the Choultry are given at Rupees 156 per annum, but there are some extra expenses such as providing brass utensils for the Choultry, feeding Bramins &c which it is difficult to calculate; On the whole as the Choultry is on the high road, and is used by travellers, and with reference to the remarks given in the former Statement opposite this number, I do not recommend that the Grant should be interfered with

7- N:os 92-93 and 94- The topes for which the Enams in these cases were granted are not well kept up, but as they do exist to a certain extent, and the Enams are very small, I do not recommend that they should be resumed at present, but they may be taken into

N:o 92 Rs 3-1-2
N:o 93 " 4-4-8
N:o 94 " 7-1-9

into further consideration on the occurrence of a lapse.

8. N:o 57. The Enam in this case is not cultivated, the Chuttrum exists, but no servants are kept up, which could hardly be expected as the amount of the Grant is so small.

Rupees 2-9-3 per annum

9. N:o 58. This Grant was first made to plant a tope, but the Grantee subsequently intimated his intention of building a Choultry The Enam has been alienated, no servants are kept up to look after the Tope, and there is no public Choultry the building being used for private purposes. I beg to recommend therefore that the grant be resumed.

10 N:os 104 & 106 These Salivendrums have not been sufficiently kept up but under the circumstances I consider that calling the attention of the Enamdars to the fact, and cautioning them to

to keep them up better for the future, is all the interference that is called for.

11 In accordance with the Board's instructions I beg to recommend the immediate resumption of the Enams Nos. 90 and 105, being cases where the objects for which the grants were made have failed to be carried out. No. 94 is excepted on the grounds above given.

Para 11

12 With regard to No. 117 in the class of Cavaly Enams, I beg to explain that the 200 Gortos alluded to is a jungle tract, and is said to be rented by the Ryots for grazing cattle for 22 Rupees per annum. I have stated the income and the obligations of the Toorcaman Poligar, to whom the grant was made, in my Report on Poligars

Roosoomes

Roosoomes dated 12th July 1856 Paras 2 and 3.

13. No. 118 was stated on the strength of a report from the Tahsildar to have been given for Cavelly service, but on the representation of the Vakeel of the Grantee, and on reference to the Records, it is found to be a Charity grant, made by a former Government, and merely renewed by Mr. Travers, service therefore is not performed and it has been alienated by the possessor many years ago. This Enam should I consider under these circumstances be continued till a lapse occurs, and be then reported on under the Enam Rules.

Para 12

14 There are no cases among the maintenance Enams which seem to call for special consideration, beyond what the Board contemplate, Viz, continuance for

Fort St. George 6th November 1856

for the life of the present holders.

Nellore Collector's Office 27th August 1856

(Signed) F. B. Elton

Encl. No. 1

To William Thackeray Esqr.
Junior Member of the Board of Revenue

× × × ×

2d When I assumed charge of these Districts a custom prevailed of levying ransoms under the head of Gramah Curchoo from the Inhabitants of all Villages for the support of their Churches. The Collection of this Tribute necessarily gave rise to oppressions on the part of those entrusted with that duty, and to perpetual and intricate references to the Collector on the part of the Inhabitants as it was the head also under which all private assessment was made.

3d It appeared to me an extremely desirable object, to define at once what the Ryot was to pay, to produce this as well as benefit to the Company by cultivation of waste lands, I prohibited the collection of Gramah Curchoo altogether, and granted in lieu of it tracts of Beedoo land and at favourable rents, particularly for the support and performance of religious rites.

4 I would have recommended it to the consideration of Government, to free the Ryots and other Inhabitants from uncertain and therefore oppressive contributions, and to support the Religious institutions of a Country, though it might require even large pecuniary sacrifices, but when I could accomplish this end by means at the same moment benefiting the Company my measures deserve commendation whereas you seem disposed to bestow censure.

241. 242

Bd. No. 3707

Proceedings thereon.

Forwarding with observations letters from the Collector of Nellore with Boards Proceedings regarding certain Enams granted by Messrs. Travers and Fraser.

In Cons 20th March 1856

Also read again letter from Nellore dated 11th/15 January 1856 and Proceedings of Board of Revenue of the 20th March 1856 No. 865.

The Board resolve to submit the foregoing letters for the orders of the Right Honorable the Governor in Council with the following remarks.

2. This correspondence has reference to Enams granted by Messrs. Travers and Fraser and not hitherto brought to the notice of Government. The Collectors report bearing date 15th January 1856 was received by the Board in their Proceedings of the 20th March. 11th Elton had stated that some Enams hitherto reported to have been granted by Messrs. Travers and Fraser were omitted from his statement because he saw reason to believe that they were in reality ancient grants and had merely been renewed by the above mentioned Officers. The Board desired to know the grounds of this conclusion & are informed in the reply now received that

that the orders addressed to the Tassildars for the renewal of these Grants so desirable them, and that the orders in question have been duly verified by a comparison with the Huzzoor records.

3 The Board thought it also necessary to refer for explanation on the the subject of the Devastam Enams which Mr. Elton had proposed to resume. It now appears that these Enams were in all probality granted in lieu of allowances formerly made to the Pagoda from the Gramakurtah; as such they are entitled to the benefit of the order of Government dated 9th August 1853 No. 913 which leaves grants of this class undisturbed.

In Cons 25th August 1855

4 As regards the class of Enams which provides for works of public utility or charity as topes Choultries and water pundals it seemed necessary to call for a strict explanation as to the faithful application of the grant and its suitableness

to

to its proposed objects. Mr. Elton has accordingly expected that some of the grants designed for the support of Choultries or other charities should be resumed. These are No. 58, 94-96 & 105 of the Tabular Statements which accompanied the letter of the 15th January 1856, the object of the Grant had not in either of these cases been attained.

5 Other cases are mentioned as No. 6 in which there is considerable disproportion between the stated expenditure and the assumed receipts the object of the grant was the maintenance of a Choultry and Mr. Elton recommends that the full Enam should still be continued. It appears to the Board however that he may fairly call upon the holder of the Enam to improve the building if it requires additions or to provide more liberally than at present for the wants of travellers.

6. In the other cases the Enams are of very trifling value and no remark

remark seems called for.-

7. The Cavelly Enams it is proposed to treat of separate by one of those given under this head in the tabular statement as No. 118 is now found to be a grant for maintenance and is recommended for resumption on lapse.-

8 The Board refer thus cursorily to the points on which explanation was called for because their proceedings of the 20th March will be laid before Government with their present remarks and afford further particulars. They will now proceed to state how these Enams should in their opinion be disposed of.-

9. The 26 Enams which Mr. Elton speaks of in para 2 of his recent letter as the Grants of former Governments may the Board think be looked upon and treated as such under the enam rules now in force.

D/ 27th Augt. in Cons 6th Novr. 1856

10. As regards the Devastanum Grants

Grants, the Extract quoted from Mr. Travers' letter affords the strongest presumption that they were given in lieu of allowances from the Gram-kurtah and on this ground the Board recommend their continuance, they appear to be precisely similar to the cases referred to in the Minutes Consultation of the 9th August 1853.-

Encls. A in above letter

14. The Chuttrum tope and Salwendum Enams the Board would also recommend for continuance except in the cases already specified, Orders being at the same time issued to report for resumption all instances in which the object of the Grant shall at any time be entirely neglected.-

Nos. 2-4-5,

Nos. 38-94-96 & 105

12. The Maramut Enams No. 3 with the exception of No. 61 and 67 as ostensibly provide for objects which the Government employ other means to effect and have not therefore any

any claim for continuance beyond the lives of the parties respectively who now enjoy the Enams. Mr. Elton will state what objections, if any, exist to the adoption of this course. No. 61 and 63 seem to rest on other grounds. The holders in both cases it is presumed, are required to maintain the objects respectively for which the land was given, in the one case the permanent repair of a sluice and in the other that of a tank - should it be otherwise and grounds exist for the resumption of the Enams as in the other cases enumerated, Mr. Elton will bring the subject under consideration.

13 The Ferry Enams No. 6 the Board are of opinion should be continued, but the service should be efficiently kept up for the safety of travellers. The Board believe that the want of proper means of crossing rivers and Nullahs in Nellore is felt as a

a great inconvenience during the rainy season.

On the subject of the Cavelly

14 Enams (No. 7) the Board have already promised a separate report which will shortly be laid before Government. There remain the Bhuteurty and sundry Enams No. 8&9. The first of these are merely Grants of Charity based on no sort of claim, the sundry Enams were granted to remunerate or encourage boat builders, to pay baggage Coolies and support village Nurses &c. objects which the Government are no longer called upon to provide for. The whole of the Grants comprised in these two classes the Board think should be resumed as lapses occur.

15 Enams granted to Village servants the Board see no occasion to disturb. Mr. Elton speaks of them as being in proportion to the duties they are intended to remunerate.

19500 Fort St. George 6th November 1856

No. 259

To
G. S. Forbes Esqre
Secretary to the
Board of Revenue
Fort St. George

244
Bd. No. 3564
From the Collector of Timevelly
Reporting on Petition Nos 1198 & 1683 of 1856.

Sir

With reference to the orders of the Board of Revenue on Petition Nos 1198 and 1683 of 1856 directing me to report the Proceedings of my Predecessor in the matter more fully quoting the Regulation under which he acted, I have the honor to report as follows.—

2. The Petitioner states that 36 bundles of Tobacco of the value of Rupees 162, deposited by him in the house of one Palvunna Nadan were unjustly sold by the Magistracy on a false charge preferred by one Paricasamy Taven a Cavilgar in gratification of the enmity he entertained towards the said Palvunna Nadan in whose house the Tobacco in question was deposited and the Sale proceeds carried to the credit of Government, and requesting that the value thereof

thereof may be restored to him

3. On the 4th October 1854 one Pariasamy Taven the Cavilgar of the Frontier chowkey at Paroongoody hearing that certain persons were attempting to smuggle Tobacco into Travancore collected certain peons and Sepoys of the chowkey lay in wait on the Hill Passage apprehended 16 out of many persons with Tobacco and produced them before the chowkeydar of Paroongoody who forwarded them to the Tahsildar of the Tullyoor Talook That Officer entered the case in No 152 of his Police file and instituted an enquiry into it.

4. The party to the Board Petitions under notice preferred a Complaint to the Tahsildar that the said Pariasamy Taven and others robbed on the night of 20th Puratasi answering to 4th October 1854 36 bundles of Tobacco worth Rupees 162, which he had deposited in the house of Palvunna nadan at anvaracolum Village for the purpose of traffic which Complaint the Tahsildar filed in No 150 and held an investigation into the case.

5. One Samycootty a Catechist of the Village of averencolum above referred to preferred a complaint

Complaint to the Tahsildar stating that on the night of 20 Purattasay or 4th October 1854 one Soobramonien took with him his (Catechists) brother in law Ramasamy on a hunting excursion that in the way Dalawoy &ca attacked and beat him that he who interfered to disengage him was also beaten and wounded. The Tahsildar entered this Complaint as No 151 of this file and made an enquiry into the case.

6. After Completing the enquiries connected with the 3 cases above referred to the Tahsildar addressed an Urzee to the Head Assistant Magistrate who was in charge of the Talook under Date the 20th October 1854 reporting the result of his enquiries into the 3 Complaints and giving Cover to the Documents Connected with each He stated therein as regards the case No 152 above alluded to i.e. the case of Smuggling Tobacco that Ramasamy and Marthandum Son of Palvunna nadan above referred to who have been apprehended in this case had in a murder case in which Pareasamy Thaven was

was implicated given evidence against him Conse
quently that he (Parasanny Tavan) bore enmity
against them. and was intending to revenge himself
on them any how, and in the mean time, he having come
to know that Tobacco was kept in the house of marthanda
nadan Son of Palvanna nadan for illicit pur
poses and that people from Travancore were
coming there for Smuggling the Tobacco into
their Country. Collected some people, went in
a mob, took the Tobacco from the house
of marthanda nadan to the passage and
then gave out that it was seized in the way
and added that he (Tahsildar) will abide by
any orders that may be issued to him on the
subject, after the inspection of the documents con
nected with it. –

7. The Tahsildar also stated in the said
urzee that as the Complaint preferred to
him in the aforesaid case № 130 by the party
to the Petition under notice stating that the
Tobacco in question belonged to him, and he had
deposited

deposited it in the house from which it has
been robbed has not been sufficiently proved
by witness. and that as it appears that the arti
cle in question was kept there for illicit pur
poses. the Complaint of robbery should be dismissed. –

8. Regarding the 3d Case or case № 151
Viz. that of assault preferred by the catechist
the Tahsildar stated that though the wit
nesses in this case have deposed as if the
charge was true yet as there are inconsis
tencies in their evidence as the Prosecutors
Brotherinlaw Ramasamy has been apprehen
ded in the case of Tobacco Smuggling № 152.
and as the assault is stated to have occurred
at the time when he was taken up as De
fendant. the Prosecutor might have been
Concerned in the matter and recommended
that this case also should be dismissed. –

9. The Head assistant magistrate
on perusal of the urzee and the documents
which accompanied it. Sent for all the parties
connected with the 3 cases in question, and

on

on investigation forwarded to the Criminal Court the parties to the case of Tobacco Smuggling on the 15th November 1854. on Strong presumptive proof against the Defendants that they in a gang armed with Offensive weapons attempted to Smuggle Tobacco into the Travancore Country, and dismissed the 2 other cases. Vizt. one the Complaint of robbery by open violence preferred by the party to the Petitions under notice, and the other that of assault preferred by Chatechist Samycoolly, on the ground that they appeared to be counter Complaints to the charge of Tobacco Smuggling Committed to the criminal Court.—

10 On the 23d idem the Defendants in the case of Tobacco Smuggling were sentenced by the Criminal Court to take their trial before the Sessions Court, where they were released for reasons shewn in the Sentence in Sessions Case No 45 of 1854. an authenticated copy of which forms an enclosure to Petition No 1683 of 1856 also herewith returned.—

11 The Sessions Judge after deciding the

the case as above addressed a yadast to the Magistrate under date the 6th December 1854. desiring him to dispose of the Tobacco as he thought proper and again addressed another yadast on the 15th Idem. giving cover to copy of a Petition to him from Davasagayum Pillay praying for the restoration of the Tobacco and stating that it should be disposed of at the discretion of the Magistrate, after ascertaining to whom it belongs.—

12 The Magistrate Mr. Bird sent for from the Head Assistant Magistrates Office copies of all the documents belonging to the said cases and after going into them addressed a yadast to the Head Assistant Magistrate under date the 2d January 1855. (an authenticated copy of which forms enclosure to Petition No 1198 of 1856) deciding that the Tobacco in question should be confiscated, and declaring that Petitioner had no right whatever to it and requesting accordingly to have the Tobacco disposed of by auction by the Tullyoor Tahsildar

Tahsildar. and the Sale proceeds realized.—

13 Neither the Specific proofs under which the late magistrate arrived at this conclusion nor the Regulation under which he acted are quoted in his yadast to the Head Assistant Magistrate which appears to be the paper containing his decision in the matter.—

14. The Tahsildar of Vellyoor Talook to whom an order was issued from the Head Assistant Magistrates Office to sell the Tobacco. having reported that there were no merchants in his Talook to buy the Tobacco. it was forwarded to the Nelliambalum Tahsildar. who sold it /the Tobacco/ which consisted of 255 Toolams. or 19 large & 37 small bundles. for Rupees 75—13—7 and remitted to the Hoozoor Treasury Rupees 69—3—1 after deducting therefrom Rupees 6—10—6 being the hire of carts employed in conveying it.

Under

15. Under these Circumstances I can only suppose my Predecessor applied Section XIII act VI of 1844 to the case in question.—

From the Collector

of Rajahmundry

Sir, I have the honor to submit

copy of a letter from the Acting Sub

Collector bringing to notice the circum-

stances of the Village of Jeeloogoomilly

in the Taudemullah Talook.

The Village is on the road

2 Asararowpetta in the Nizams

Country into the Rajahmundry and

Masulipatam Districts, and is in such a

locality as to render the Establishment of

a substantial village at the place a

matter of considerable importance

A number of Cometies from the

town above named have lately

settled at Jeloogamilly, and erected

houses and shops.

The great difficulty the

3 inhabitants have to contend a-

gainst is the want of wholesome

water. The people have themselves

not

not the means of sinking a good well and I beg to support Mr Robinson's recommendation that sanction for a sum of 300 Rupees, may as a special case be solicited. The money to be disbursed under that Gentleman's superintendence for a well and in the improvement of a tank near the Village.

4 I am not prepared to support the proposition to grant a remission of one half of the assessment in the village for a term of years.

Encl 1
No 161

To the Collector of
Rajahmundry

Sir,

I have the honor to bring specially before you the circumstances of the Village Seelagoomilly of the Tandemulla Talook alluded

to in my report dated 11th July 1856 Para 21

The Village is one of those situated quite in the upper end of the Tandemulla Talook and within a few miles of Aswarow Petta. It is on the road from the Nizam's Country towards Masulipatam and Rajahmundry Districts. The country there, is wild and Jungly and the establishment of a substantial village will be most beneficial to travellers.

The disturbances of 4 years ago in Aswarow Petta broke up the prosperity of that place the principal market of the neighbourhood and Mr Taylor impressed with the desirableness of securing the Cometies &c of Aswarowpetta for the Company's Country arranged that a considerable colony of these should emigrate to Seelogamilly, and there about

30

30 families have settled, and if properly supported and fostered may become a great blessing to the country. They have built nice tiled shops on a well devised plan round a roomy market place, I have now ordered a market /weekly/ to be held there, which will take the place of that generally held at Asuvaram Petta.

There can be no doubt of the desirableness of holding out advantages to such Colonies in neighbourhoods like this, and these people have already laid out so much money on houses and are not likely to desert. Already many travellers find a comfortable place to put up, on the road in the Verandas I hope therefore that I may request a little assistance for them.

The greatest difficulty experienced is in getting wholesome water,

water, a most important matter in those feverish parts of the District. In the hot weather there is great distress as well to the people as to travellers. Water is found only at a depth to which the poor people will not be able to sink a well. I therefore beg that sanction for 150 Rupees for this purpose may be asked, likewise 150 Rupees for the improvement of the Tank near the Village.

Well — 150
Tank — 150
300

The spot is quite out of the beat of Engineer Officers, but if entrusted with the execution of the work I will see that great care is taken to do it well. A remission of one half of the Shist of the Village which is only Rupees 150 for 5 years would have an advantageous result.

Bd. N. 3671

Fort St. George 6th November 1856

Resolution thereon

Resolved that the letter above recorded with its enclosure be submitted for the orders of the Right Honorable the Governor in Council.

2 It appears that a number of Cometies from Aswarowpettah in the Nizams territory have recently settled at Seeloogoomilly in the Taudemalla Talook of the Rajahmundry district and have erected Houses and Shops at that place They however experience great difficulty in procuring wholesome water, and this want occasions much distress in the hot weather both to the residents and to Travellers. As the Collector and Sub Collector consider the establishment of a substantial village in this wild and and remote locality very desirable — and as the people themselves have not the means of sinking a well the Board recommend that sanction may be granted for the disbursement (as a special case) of 300 Rs for that purpose, and for the improvement of a Tank in the Village.

Well — Rs 150
Tank — Rs 150
300 —

3 The Collector will be instructed to make arrangements for the due and prompt execution of the work if the sanction of Government be accorded.

From the Asst. Collector of Guntoor

Para 12. Forwarding 2. Statements shewing the assessment on Garden and Wet lands and offering some remarks on the assessment of Krishna irrigation.

Sir,

In Extract Minutes Consultation under date 21st August 1856, the Government called for a Statement of the Garden lands in the Talooks affected by the Krishna irrigation, as this may be expected to be sent up at once, I have the honor to enclose an account in the form prescribed and to offer one or two remarks on parts of the paper above quoted which seem to require more immediate notice reserving for future consideration the subjects which can be more suitably reported hereafter.

2. In paras 9 and 10 the state of the existing wet tarums is reviewed and a revision proposed for the new lands brought under irrigation. The complexity of the rates as there noticed would seem to refer to the wet

tarums

taxums of the whole District, for those in the localities under discussion are very simple being generally only three or four in each Village and, with the exception of one Village, ranging between Rupees 9 and Rupees 3 or within the maximum and minimum rates proposed by Government. They are moreover in most cases multiples of a quarter of a Rupee, and in the exceptional cases there is only one instance of a fraction less than an anna. A Statement is herewith forwarded.

3. To revise these exceptional rates is not contemplated by Government, and to do so would unnecessarily disturb the present state of things in several large Villages and perhaps under the circumstances of the general simplicity of rates, the views of Government may be considered as complied with in the general adoption of the present rates for new cultivation, it being understood that the assessment of both old and new lands will shortly be revised / when the irrigation is perfect / and subjected

subjected to some total increase of taxation. The old lands have already the advantage of irrigation before the new ones are taken up, and to raise the standard of the assessment of the latter higher than that of the former does not seem expedient nor can the rates on the new cultivation be made perhaps with that precision which would exempt them from revision along with the rates of the Village generally. The views of Government can however be kept in mind in arranging the assessment of any lands to which the present rates of the Village may not under existing circumstances be applicable.

4. I may here state, with reference to the closing remark in para 3 that the assessment on the new lands is fixed with reference to the productiveness of the soil, the existing rates on cultivated lands in their proximity, the facility of irrigation and other local circumstances, the agency employed being that of the Tahsildars aided by the arbitration of the Ryots.

She

Fort St. George, 6th November 1858

The proposals made by the Ryots have also formed an element in the consideration as in some cases at least affording a guide as to the value of the lands.

5. In para 13 the Government do not consider the subject of the progressive imposition of the assessment in the three Southern Delta talooks to be stated with sufficient clearness. In my report I explained that I thought it would be impracticable to lay down the rules with strict precision, beyond the broad principles quoted in the para above alluded to. To have elaborated the plan by taking into account the number of years the lands had been waste and other particulars, I felt would have led to fallacious results for in some cases immemorial waste is already fit for the plough while in others it requires much labor in clearing and preparing the surface. The general estimation of the Ryots labor and the consideration of whether the flood banks and other protective works are raised at

Fort St. George, 6th November 1858

at their or the Government expense I thought a safer guide as to the indulgence to be allowed particularly as a general local acquaintance with the features of several tracts to be irrigated enabled me to check any gross partiality in the recommendations of the local offices. In some cases the ryots have themselves come forward with engagements to take land at once on the full assessment and in others on the half assessment the first year and the full assessment in the second. These are not however numerous and the classification of a progressive assessment for 2, 3, or 4 years under the circumstances above detailed has been so far easily effected the utmost limit contemplated being 5 years the period allowed for the upper delta Talooks.

6. The only other point which seems to call for present notice is the rule laid down in para 18 that enam lands lying within 50 yards of a channel or watered by a

Fort St. George, 6th. November 1856.

a well dug within that distance should be held liable to the water rate and that in all other cases the option of using the water should be left to the Enamdar, It is presumed that this applies only to the main channels and not to the branches or to the distributing channels the advantages to the Enamdar from digging a well in the immediate locality of the channel are palpable, but it is not easy to shew him how his land is benefitted without the well or irrigation by other means, and why therefore in such a case he should be taxed for the water which he does not use. If he is told that the locality affords him facility for applying the water ether directly from the channel or by digging a well this will be met by the reply that Enam lands more distant from the main channel have the same facility

J.G.B.

Fort St. George 6th November 1856

facility for irrigation by means of the branch channels, I may not perhaps have correctly apprehended the reasoning contained in Para 16, but as the rule is a new and important one. I may be excused for seeking in this discussion of it to be enabled to put it forth in an intelligent manner to the Enamdars.

Guntoor
Collector's Office

(Signed) H. Newill
Acting Collector

Guntoor Collectors' Office
22nd September 1856

19534 Fort St. George 6th November 1856

Read letter from the Acting Collector of Guntoor 22d September 1856 forwarding with reference to Extract Minutes Cons. 21st August 1856 No. 883. two Statements shewing the assessment of Garden and wet lands, and offering certain remarks on the subject of the assessment of the Kristna Irrigation.

(Here enter No. 118.)

Ordered that the foregoing letter be submitted for the information of the Right Honorable the Governor in Council.

The Statement of the Garden land called for in para 12 of Extract Minutes of Cons. 21st August 1856 is furnished by the Acting Collector

With reference to paras 9 & 10 of the Minutes of Consultation above mentioned Mr. Newill submits a Statement of the existing irrigated rates in the Talooks to be affected by the new irrigation - Adverting to the complexity of the present rates, ranging from Rupees 11 per acre to Rupees 1—12 " and to other defects noticed, the Government were of opinion that in fixing the assessments of the new land regard should be had to a future improvement of the old rates accordingly it was directed that in the new lands there should be

249.250
Bd No 3673
Proceedings thereon.
Submitting a letter from the acting Collector of Guntoor furnishing the Statements shewing the assessment of Garden and wet lands and soliciting the Orders of Government on the principle on which the assessment on the new lands is to be regulated the terms on which such lands may be held and the rule of the water rate in Enam lands.
Judl. 6th Sept. 1856 Judl. 6th Nov. 1856 4209

be no rate above Rupees 10 and none under three Rupees & that all the intermediate rates should be multiplies of a quarter of a Rupee Mr. Newills object in the present Communication is to show that these requirements are in fact nearly fulfilled in the existing rates and he concludes that Government will not therefore require any change from those rates in fixing the assessments of the new lands, "it being understood," Mr. Newill observes "that the assessment of both old and new lands will shortly be revised / when the irrigation is perfect / and subjected to some total increase of tax" The present rates in the locality under Consideration as exhibited in the Statement submitted by Mr. Newill are as that Officer justly observes simple; they differ in an immaterial degree except as regards the maximum rate from the rates of Rupees 7 6 5 & 4 suggested by the Commissioner in para 13 of his Proceedings to Government 4th June 1856 No. 63. This simplicity would facilitate the adjustment of the assessment on the new lands in the manner indicated by Government but as the present rates are not materially

Existing rates as per Statement No. 1 from the Commissioner

7	Villages at	9	per acre
3	D° at	8	"
21	D° at	7	"
18	D° at	6	"
25	D° at	5	"
10	D° at	4	"

different from those which would be thus imposed, and Mr. Newill points out that the old Nunjah land would under the proposed arrangement be more lightly assessed while enjoying at the commencement a greater degree of advantage the Board are disposed to concur with him in thinking it inexpedient to introduce a higher standard for the new lands than the existing one, pending a final adoption of rates intended to be permanent.

4. The existing rates according to the statement forwarded by Mr. Newill, which is now under Submission to Government range from Rupees 9 per acre to Rupees 3 and Comprize 42 rates. The irrigation in the Conderoo and other Marshy lands is not included, it is stated, as being unconnected with the channel irrigation; hence the rates above Rupees 9 per acre as explained in para 4 of the Commissioners Proceedings 4th June 1855 are not brought to notice. It appears also that 106 acres of land in the Rayfully Talook, at rates of Rupees 2 12 per acre and Rupees 1 12 respectively and giving an aggregate assessment of Rupees 192 are excluded probably for the reason already stated Viz as not being Connected with the channel irrigation.

5. In regard to the remark of Government relative to the progress imposition of the assessment of new lands, Mr. Newill explains in para 5 of his letter that

be no rate above Rupees 10 and none under three Rupees & that all the intermediate rates should be multiplies of a quarter of a Rupee Mr. Newills object in the present Communication is to show that these requirements are in fact nearly fulfilled in the existing rates and he concludes that Government will not therefore require any change from those rates in fixing the assessments of the new lands, "it being understood," Mr. Newill observes "that the assessment of both old and new lands will shortly be revised / when the irrigation is perfect / and subjected to some total increase of tax" The present rates in the locality under consideration as exhibited in the statement submitted by Mr Newill are as that Officer justly observes simple; they differ in an immaterial degree except as regards the maximum rate from the rates of Rupees 7 6 5 & 4 suggested by the Commissioner in para 13 of his Proceedings to Government 4th June 1856 No. 63. This simplicity would facilitate the adjustment of the assessment on the new lands in the manner indicated by Government but as the present rates are not materially

21	Do.	at 7	"	
18	Do.	at 6	"	
25	Do.	at 5	"	
10	Do.	at 4	"	

different from those which would be thus imposed, and Mr. Newill points out that the old Nunjah land would under the proposed arrangement be more lightly assessed while enjoying at the commencement a greater degree of advantage the Board are disposed to concur with him in thinking it inexpedient to introduce a higher standard for the new lands than the existing one, pending a final adoption of rates intended to be permanent.

4. The existing rates according to the Statement forwarded by Mr. Newill, which is now under submission to Government range from Rupees 5 per acre to Rupees 3 and comprize 42 rates.

The irrigation in the Conderoo and other Marshy lands is not included, it is stated, as being unconnected with the channel irrigation; hence the rates above Rupees 9 per acre as explained in para 14 of the Commissioners Proceedings 4th June 1855 are not brought to notice. It appears also that 106 acres of land in the Raypully Talook, at rates of Rupees 2 12 per acre and Rupees 1 12 respectively and giving an aggregate assessment of Rupees 192 are excluded probably for the reason already stated Viz. as not being connected with the channel irrigation.

5 In regard to the remark of Government relative to the progress imposition of the assessment of new lands, Mr. Newill explains in para 5 of his letter that

that in some cases, though they are rare, the full assessment may be demanded at once, or within two years and that he is accordingly guided by a general estimation of the Ryots labour in fixing the term during which the favorable conditions are to have effect, the utmost limit of the term being 5 years. The Board are inclined to think that if Government are unfavorable to the adoption of a general rule suited to all cases, each must be disposed of discretionally as stated by Mr. Newill.

6. Lastly Mr. Newill asks instructions in regard to the inspection of the water rate on Enam lands Government was pleased to lay down the rule that Enam lands within 50 years of a channel, or watered by a well within that distance will be in every case liable to the water rate but that for other land the Enamdar may decline to receive water and so obtain exemption from the rate. Mr. Newill supposes that this rule is intended to apply to the main channels and not to the branches and distributing channels and that it is difficult therefore to shew its propriety to the holder of Enam land within 50 yards of a main channel. The rule is new to the District and Mr. Newill is

is desirous of seeking a more full exposition of the reasons on which the orders of Government are founded to enable him to set them forth in an intelligent manner to the Enamdars.

7. The Board would solicit the orders of Government on these points indicated by Mr. Newill Viz.t the principle on which the assessment of new lands is to be regulated in the localities stated, the terms on which such lands may be held as regards the payment of the full assessment and the rule regarding the imposition of the water rate in the case of Enam lands.

To,

J. S. Sim Esqre

Acting Secretary to the

Court of Wards

Fort St. George.

257

B. No. 4467.

From the Collector of Coimbatore and

Sir,

1. I beg to request the Board's sanction for the following escpences in the 2 Polliputs of Shunnattoor and Paravepollium - I have lately visited both, in company with the Poligars, their relatives, and the Government Ameen in charge - the improvements are requested by the Poligars, and are very desirable, and necessary, to keep the Property from decay, and calculated to improve it considerably -

2. The funds now spent will accrue and return the Poligars hereafter ten fold, and much more to their advantage then lying in the Treasury without use or interest; the parties (the young Poligars) are now open to advice, and to see the prospective benefit of the escpenditure; but it is to be feared that much of the ready money which will be at their disposal when they come to the estates, will be wasted in the usual reckless and idle extravagance, so common to their class; there being in each family, a few idle and unwise individuals

individuals, likely to counsel any thing but a wise conduct or economy to the young Poligars.

3. I also beg to report that there are about 500 bullahs or 1910 Acres of jungle and Forest land on the Paravepolliem Estate; with a view to clear this, and render it hereafter productive to the Poligar, I invited tenders, to cut and clear it, reserving all the large Teak and fine Timber for the Poligar's use and benefit hereafter - wood for the Rail, and other purposes, is, just now, in such demand near Coimbatore, that a Merchant has offered, after considerable competition, the large sum of Rupees 3,450 for the privilege of cutting the jungle, and partial Forest there.-

4. The Poligars' Ryots have also come forward, and promised to Cultivate on a fair Cowle, a considerable portion of the land when cleared; altogether it is almost opportune and beneficial arrangement for the interests of the estate, and likely nearly to double its value - These improvements have been carefully examined as promised in my letter

letter of the 4th. Instant.

5. The two young Poligars both accompanied me, and returned with me from Pullachey in which Taluk their estates lie. They are both steadily attending a good Tamil school in Coimbatore, and under my constant surveillance.

6. With respect to the item of Rupees 1445-4-0 shown in the list of works of Paravepolliem for repairing an old Tank, I have the honor to forward an Estimate and Plans from the Civil Engineer, together with a Copy of that Officers letter dated 7th. July 1855, and of Mr. Martin's Diary on the subject. It may fairly be expected that by the restoration of the above Tank, a net increase of Revenue Viz. Rs. 350 a year will be derived by the Poligar.-

Coimbatore,
Collector's Office,
18th. October 1856.

(Signed) E. B. Thomas.
Collector.

No. 330

To

J. D. Sim Esquire
Acting Secretary to the
Board of Revenue
Fort St. George

259
B. No. 4396
From the Collector
of Tinnevelly

Sir

With reference to the Orders
of the Board of Revenue on Petition No. 2031
of 1856 herewith returned, directing me to ex-
plain the alleged discrepancy between the
notice issued by the Tahsildar, and the
amount for which property is attached, I
have the honor to state for the information of
the Board, that from the reports received
from the Tahsildar of the Shreevelly poolow
Talook, to which the Petitioners Village be-
longs, in reply to orders sent to him on the
subject of the Petition, it appears as follows.—

2 The party to the Petition-
under report having taken on rent for a
series of years seed Cottahs 20—20—8 of
Nunjah land under Paudy Cappan-
-calum Tank, belonging to the Pungalies
shop holders
of the Village of Vatteroyerupoo, devided it
between

Samavada Anandakistna Iyer the Petitioner ——— 1
Ramachendramien ——— 2
Veeraragavien ——— 3
Veeraragava Sastry ——— 4
and
Theraly Soobaroyer ——— 5

His brothers

between himself, his two Brothers and two others, as shewn in the Margin, and procured a general Puttah for the whole extent of land made out in his name.—

3 However, the different portions of the land in the occupation of the several Copartners are shewn in the general Puttah, and they continue to cultivate their shares, and pay the teerwah thereon respectively.—

4 A sum of Rupees 125–8– on account of arrears of Revenue for Fusly 1264 on the total extent of land in question was outstanding against the 5 Copartners including the Petitioner in the proportions set down in the Statement given in the [illegible]

Margin

Statement

Names of the Defaulters

	Amount of arrears	Extent of Land attached	
	Rs	a	Ps
Samavada Anandakistna	18	2	0
Iyer the Petitioner			
Ramachandramien	32	10	0
Veeraragavien	34	7	5
Veeraragava Sastry	15	5	11
Theraly Soobaroyer	23	13	8
Total	125	8	0

Margin - For the realization of which, the land entered as opposite to the amount of balance against each defaulter was attached, after due notice of the same had been given them individually, but in lieu of the names of the 5 defaulters, and the amount due by them respectively being inserted in the Statement of attachment sent in by the Talsildar, the name of the Puttahdar (who is the party to the Petition under Notice) along with the total amount of arrears, and the total extent of land sequestrated was erroneously entered.—

5 This error crept also into the Advertisement for sale of Certain lands including the lands in question submitted to the Board for sanction with my letter of 19th August last.—

The

6 The Petitioner having paid the arrears due by him with interest thereon, the portion of the land in his holding attached on account of the arrear against him, has been released. The remaining 4 defaulters not ex having discharged the balance ex against them, the several lots forming portions of the lands in their occupation, and attached on the above account were sold on the 30th. September under the sanction of the Board of Revenue conveyed in ex their Proceedings of 28th. August preceding.—

7 Under these circumstances, and as the Petitioner has ex without any just cause for complaint, and solely taking advantage of the error alluded to in para 4 of the letter preferred an utterly vexatious complaint, his request to restore to him the whole of the Enfield property is unreasonable, and cannot

cannot be complied with.—

Proceedings thereon

/Signed/ J. Silver
Collector

The Board are satisfied from the explanation afforded by the Collector that Petitioner has no just ground for complaint.—

The Collector however should hold the Puttahdar alone answerable for the entire holding. leaving him, if dissatisfied, to ex apply for a Puttah for his individual holding. The whole of the parties should at once be informed that if they wish their responsibility limited, they ex must procure Puttahs for their respective holdings, provided the entire holding can be thus broken up without inconvenience, but that so long as the whole is registered in one persons name, no recognition of separate shares can

19556 Fort St. George 6th November 1856.

can be admitted.

Ordered that the fol-
=lowing Endorsement be passed on
Petition No. 2031 of 1856.

The Board have satisfied
themselves that Petitioner has
met with no injustice and
they decline to
interfere.

B. No. 4401.
From the Collector of Canara Reporting upon the Land and Extra Sources of Revenue for Fusly 1265.

Sir,

I have the honor to Sub=
=mit my report upon the Land and Extra
Sources of Revenue for Fusly 1265 together with
Ord. D. 1858/50
the Accounts and Statements noted in the
margin, prepared agreeably
to the forms forwarded by
Government with their Me=
=mo. of the 23d August 1856.

2. The General Talooks were settled as shewn in Statement No. 1. All the villages in Canara are Ryotwary, and the land has become valuable private property, subject of course to the assessment thereon fixed by Government.

3. The Census accounts which become due this year have been prepared, but as directed by Government, will be given in the next Fusly together with those of Cattle and ploughs. The total population and the number of cattle as shewn are entered in the margin

General Statistics
Population
1260 — 1056333
1265 — 1120938
Cattle
1260 — 816041
1265 — 839881

Season

4. The fall of rain during the year under report has been scanty and fever and other diseases have been more prevalent than usual. The Soogee rice crop suffered in some places, but though the quantity of rain that fell, was so much below our average supply it was so season=able that on the whole the harvest has more abundant that during the previous year. Subjoined is a Statement shewing the fall of rain according to the registers Kept.-

Statement exhibits the deaths from Cholera and Small pox.-

Fasly 1264 — 15950.
" 1265 — 11945.

6. The loss of Cattle during the past year was not so great as in Fasly 1264 for although deficiency of rain in the early part of the season was much felt the latter part of it proved favorable. The loss during the past and previous years is given in the margen.-

Prices. Statement No. 2.

7. The prices obtained for the staple produce of this District generally and specially for rice, have been very favorable during the

the present year.—

8. The scarcity to the Eastward and consequent high prices affected the Market here by diverting the supplies usually received from above the Ghauts, whilst the demand on Canara produce was unusually great, crops having failed in Malabar. Prices rose in consequence higher than at any time during the past 30 years. The subjoined Statement shews the prices of the past year, as compared with the previous and the average of 5 former years.—

9. The prices of Betelnut, Pepper and Cardamums in the Balaghaut Talooks are as usual given below. They are a little higher than those of the past year. The Betelnut harvest was pretty good during the present year, and that of Pepper and Cardamum very favorable. The increased demand for these Garden products, to which improved communications have no doubt contributed has caused a rise in prices.—

11. The price of Cocoanut in the Payenghaut Taloofs has again risen during the present year, as will be apparent from the Marginal Statement. For the past 3 years the imports of Cocoanut oil from Malabar and other places have been falling off in consequence of the demand for this article in

Price of Cocoanuts per thousand.

1264	177,7100	707	117
1265	142,6000	469	97

Exports - 12. The marginal Comparative table exhibits the quantities of rice exported by Sea in the past year and in Fusly 1264. The Crop was abundant and the article exported was chiefly the produce of the district, little having been brought to the Coast from the interior, as mentioned in para 8. The exports to Arabia and other foreign Ports were less extensive than usual in Consequence of high prices and hence there is a decrease in the amount of duty.

Salt.

14. Heavy showers in May and the early period at which the rainy season commenced greatly affected the manufacture of salt and little more than 1/3d of the usual quantity was obtained from the Ryots. The ready payment of the Sirkar Dueizin the Talooks in which salt is manufactured, depends somewhat on the amount obtained by the manufacturers of salt and the arrears of Land Revenue in those Talooks, at the end of the Fusly was somewhat large. The quantity of salt manufactured and the value of it is given in the margin.—

From

Statement No. 3E

15. From what has been said above it will appear that the general state of the District during the past year has been satisfactory. The land Revenue is Rupees 12865 inexcess of that of Fusly 1264.

Land Revenue	4181
Sundry Items	8684
	12865

A great part of this increase took place in the Balaghaut Talooks and chiefly in Bopal, which is rapidly increasing in population and wealth. It must be observed however that the Revenue from Small Farms and Licenses has been included under the head of Land Revenue agreeably to the orders of Government.—

16. Though there is an increase on the whole District, there is a decrease in one Talook, Gundapoor. The Hunnere Mogany situated above the Ghauts on the frontier of the Nuggar Division, was visited by fever, which raged with great virulence and prostrated the people at the very time when they should have been at work in their fields and attending to their Betel gardens

gardens. Even where the seed was sown, the unfortunate ryots were often unable to reap the scanty crops which they had not been able to weed. From the enquiries instituted by me during the Summabundy, it was ascertained that about 285 people, men, women, and children, were carried off by this scourge, and I found it necessary to make remissions to the extent of Rupees 814.-

Wurgdars	140
Tenants	60
Labourers	84
	285

17. The assessment in this Magany is very heavy, and it is sadly behind the other garden districts of the Balaghaut. There may be, and I believe are local circumstances to which the difference may be partially attributed, but the state of the Magany calls for inquiry; and has it has been ascertained that the beriz on some wargs is as high as from Rupees 19 to Rupees 37 per acre for Garden and Rupees 8 from rice land, over assessment is the grand cause probably of the marked difference between the gardens of Hunnur and those

those of Bilghy and Soondah.

Statement No. 4.

18 No remarks appear necessary as regards deductions from the beriz on account of the various Enams.-

19. Of the sundry items, the increase in the Coomery cultivation is chiefly in the Soopah Taloote. The increase of this cultivation, must not be measured by the tax paid, double tarwa having been levied on those who cultivated Coomery in opposition to standing orders. Extensive clearings have however been made, and the circumstances stated in Mr. Robinson's report have no doubt greatly contributed to this increase in Coomery cultivation to check which every measure short of entire positive prohibition has been adopted. The extent of land cultivated, and the Summabundy thereon, is given in the margin. — The

	Rupees
1264	834
1265	5,755
Increase	4921

	Acres	Assessment Rupees
1264	15296	12735
1265	17778	17344
Increase	2482	4009

20. The following Statement of Coomery cultivation on private Estates, will give an idea of the extent to which this species of cultivation is carried on, over the whole District.—

	Betul Taloots		Other Taloots		Total	
	No. of Kools	Extent	No. of Kools	Extent	No. of Kools	Extent
		No.		No.		No.
1264	161	5,552	1,582	3,100	1,743	8,652
1265	164	8,905	1,557	3,190	1,721	12,155
Difference	Inc. 3	3,413	Dec. 25	Inc. 90	Dec. 22	Inc. 3503

21. The Extent of clearings on the sides of roads made during the year, under the orders of Government conveyed in the Board's Proceedings of the 3rd January 1852 which granted the land rent free for 14 years, is given below.—

Roads.	Taloots	Moganies	Length of clearings on the sides of roads	Extent of Cultivation.
			Yards	Acres G a
Salsoor — Merecara	Poottoor	Adoor	1,930	224 "
		Adoor		
		Sooliah	1,342	10 38 "
Singawady	Anikola	Radra	1,342	21 8 "
	Soopah	Soopah	297	6 5 "
Darwar	Sondah	Isloor Mulghee	1,611	17 20 "
Anikola. Yellapor	Anikola	Anikola	616	8 20 "
			7,144	92 15 "

The

22. The Huckle cultivation is also increasing. Up to Fusly 1264. it was usual to include the Kantherigay/ Jaxx on wild Sago Palm and Date trees/ of Badangode in Sondah Taloots, under the head of Huckle. but now it has been shewn separately agreeably to the new form, and the Huckle assessment only is exhibited in the subjoined table.—

Fusly	Total Cultivated	Exempt from assessment	Assessed Extent	Assessed Amount
	Acres	Acres	Acres	Rs. A. P.
1264	15,969	9,037	6932	4037 " "
1265	17,883	9231	8652	4728 " "
Increase	1,914	194	1720	691 " "

23 The Ryots of this District not being subject to great losses from their crops drying up and the actual resources of the Estates being unknown, it is not usual to grant

grant remissions except in cases such as those alluded to in para 16. Hence this statement has not been filled up.-

Statement No. 6A D. No. 6B.

24 The Statements appended shew the Amount of Kaidahs on Instalments due upon Hofsagamy and Kadeem Estates, according to previous settlement.- The amount that still remains to be brought up on old Estates is small.- The Hofsagamy Estates increase in number annually, those coming on the list exceeding those that go off on paying up the full Beriz.-

Sugar.

Statement No. 25. Sugar cane is cultivated in this District both in the Payenghaut and and Balaghaut but more in the latter. The extent of Sugar cane cultivation entered in the statement is that shewn in the accounts received from the Taloolks. From the Export returns however, it would appear that the cultivation is understated. Not only the produce of this District, but that also of Mysore and other places was formerly included in the above returns. This year however there are separate amounts have been shewn separately. The total quantity entered in the return for the year under report is 5977 Candies, of which 3653 Candies is the produce of other places, and 2324 Candies

Candies that of Canara. But little Cotton, and no Indigo is produced in this District. The Cotton which is grown in small quantities for domestic use in some of the southern Commeries is short in staple and brings a far better price on the spot than it would do in the great markets judging from a report received on a sample sent to Bombay some years ago. I have however great hopes that the cultivation of indigo may be introduced with success, as it appears that the plant grows wild in the jungle, and my attention has been turned to the subject.

Motarpha Statement No. 8. 26. The decrease in the Motarpha Collections to the extent of Rupees 1774-4-4 is chiefly in the tax upon sandalwood Stills. The merchants of this District purchase sandalwood in Mysore, and extract the oil in those parts of the Oodapy and Barcoor Talooks at the foot of the Ghauts where firewood is plentiful. A tax of 5 Rupees per Still is levied, and the revenue derived from this source depends on the extent of the Mysore annual sales of sandalwood.

Extra Revenue Statement No. 9 ‡ Rs. 68337- 27. The large increase appearing under Sayer Jummah, is from Kosti Kani Kayon Junglewood, and the sale of teak-wood &c. &c. This has been noticed in my report upon the forest.

The

J. G. B.

The forest revenue will in future be included in the "Land Revenue" under the head "Sundry Items" agreeably to the Board's orders conveyed in their letter of the 12th July last. Improvement in forest management and the increasing value of Timber of all kinds promises an annual increase in this branch of revenue.

Statement No. 10 Enclosures 2 in No. 10 28. Land Revenue, Moturpha, and Sayer Jummah have been already noticed, and I now proceed to make a few remarks on the other sources of Revenue included in Statement No. 10.

Salt 29. The Salt Statements herewith forwarded have been prepared agreeably to the forms received with Extract Minutes Consultation dated 20th October 1855.

30. The Statement No. 14 exhibits the particulars of Salt sales during the Fusly under report, and that subjoined will shew how little the demand for Salt varied in Fusly 1264 and 1265.

	Fusly 1264			Fusly 1265			Increase			Decrease

Total	4	3	2	0	4	25

	Increase			Decrease		
	J.	Fs.	S.	J.	Fs.	S.
	4	3	2	0	4	25

31 Statement N° 15 exhibits a great decrease in the amount of Codevaram and freight of Pattamars and boats. This arises from the manufacture of Salt during the past Season having been small, and the quantity purchased and transported being consequently less than in the previous year.

Land Customs 32 The Collections from this source during the past fusly fall short of that of the previous year by Rupees 5.150 — This is owing to the diminished import of Goa Salt consequent on the price of grain being higher in the interior than in Goa.

Sea Customs- 33 The Revenue from this branch during the present year is Rupees 32,700 — less than that of the past year. This is to be attributed partly to the falling off in the Exports of rice to Arabia during the past season, owing to high prices, and partly to the small import of Goa Salt consequent on the duty being increased from 12 to 14 annas per Indian Maund.

* Export of rice 7793
Import of Salt 24,907
32700

Abkarry - 34 The abkarry revenue shews on increase of Rupees 7826 This occurred chiefly in the Curidapoor and Honore Talooks, and in the Balaghaut, where the rents realized in Fusly 1264, had been unusually low. The

Stamps	35
Courts	27279-26663
M.ff's Courts	31219-31895
For deeds &c.	6732-8,202
Total	65230-66760
Amount of defalcation recovered	964
	66194

Value of Stamps Rs
1261 — 4,008
1262 — 5,240
1263 — 6012
1264 — 6732
1265 — 8,202

The revenue derived from this source as exhibited in the marginal Statement, shews an increase of Rupees 1530 above the past year. This marks the increasing value of real property, and the extent to which land comes into the market as a security, or in other shapes may be judged of from the marginal form, giving the sale of stamps for the execution of deeds during the last 5 years.

Anneendevi Islands 36. The revenue derived from the Anneendevi Islands exhibits an increase of Rupees 9652 when compared with the previous year, as appears from the subjoined table.

Net Increase							9,651	9	7			

The increase is chiefly owing to the value of the Coir supplied to the Commissary Department at Bombay last year having been realized in that under report.

The

Enclosure B in Statement No. 10 Exhibiting information called for in the Bd's C. C. No. 2533.

37 The Board are aware that the information called for in Enclosure B of statement No. 10 cannot be furnished from this District no general survey having been as yet undertaken.

Statement No. 11

38 This Statement shews that the revenue has been punctually realized. The balance outstanding at the close of the past fusly was ostensibly large, but this was caused by the change in the close of the fusly. This year, however, the balance outstanding is not so great. The large balance remaining in the Collections of the latter part of the fusly as compared with the previous fusly is chiefly in the Land Revenue, and is accounted for in para 14. The amount paid to the manufacturers of Salt during the past year, was Rupees 25,000 less than the average amount disbursed on this account, and the heavy rains in these Talooks being rather heavy the Collections have been some what impeded. The outstanding balance will however shortly be recovered.

Statement No. 13

39 A great portion of the arrears of revenue have been realized. In no branch are there arrears of longer standing than 3 years and the greater portion of the outstanding balance has accumulated within the past 2 years. The actual amount

amount to be recovered is small and measures are now being taken for its realization. I beg to observe that sanction has not been received for writing off the irrecoverable balances noted in the margin and brought to notice in the reports for Fuslies 1263 and 1264. I further request sanction for striking off the accounts Rupees 417-11-9 which is irrecoverable. The amount it will be observed is very small Rupees 313-10-6 is due by Ryots, and the remaining sum Rupees 104-1-3 was collected by a Shanbogue in the Buntivall Talook, but carried off by robbers, who attacked the house in which he was passing the night, and robbed him and the other inmates. Some of the parties concerned were tried before the Sessions Court, but the money was not recovered.

Statement No. 14.

43. The increase in the collections is owing partly to the change in the close of the Fusly years 1264 and partly to actual improvement in some branches of Revenue.

Charges

44 The increased charges on account of the pay of Establishment and Saderwarid, is to be attributed partly to the change in the close of the fusly years partly to the high price of oil and partly to the use of French, instead of China papers, which latter was not procurable

45 The additional Sub Collector and Head Assistant having been absent on other duty or on sick leave, during the past years, there is a decrease in the amount of tent allawance drawn in that period

Salt charges

46 In the charges under the head of Salt, there is a decrease of Rupees 25,000 in the Home manufactures, and Rupees 8,000 in the purchase of Bombay Salt. The decrease in the extra charges of Rupees 9,033 is partly owing to a smaller quantity of Salt having been transported from the Pans to the sale depots and partly to the charges for transport having been lower than heretofore.

Stamp charges

47 The increase of Rupees 5,162 in the refund of Stamp duty is owing partly to

	Fusly 1263 Rs	1264 Rs	Increase Rs
Commission	3486	3353	167
Refund	5305	10467	5162
			5329
			Dedt
Purchase of papers &c.	3731	—	731
Net increase			4,591

to the change in the close of the fusly years, and partly to a greater number of these Certificates having been produced — the decrease in the expenditure — in the purchase of papers on account of Stamps, arises from no demand having been made from Madras for papers, as was the case in the years under comparison, when the cost was debited to this District.

48 The decrease of Rupees 2052 appearing in the charges on account of ameendeni Cairs is owing to the quantity purchased having been — less by 63 Candies, than that purchased in the previous years

49 Ibeg to forward Statement of Tusdeeks of 2 Devastans which have lapsed to Government under the rules — prescribed by the Boards' Circulars of the 7th December 1854 - It having been brought to notice in the course of last year that these 2 Devastans were in ruins, and that the parties to whom the Tusdeek was paid were performing the services elsewhere, they were informed that the payment of the allowance depended on the existence of the Devastans, and as nothing has been

done to re-establish them within the last 12 Months orders have been issued for the discontinuance of the Tusdeek, and for crediting the amount in deposit (1 years Tusdeek) to Government.

50 Agreeably to the orders of — Government dated 20th October 1856 for- warded with the Boards' Proceedings under date the 30th October, Ibeg to state that Rupees 222-3-— the amount which has — already been expended, (exclusive of the value of Stamps) on account of Civil actions in the Revenue Department has been entered as a charge in the accounts. This amount together with the value of Stamps will be adjusted hereafter on the suits being decided, and the decrees carried into execution. The Board even placed to notify that a form for this account would be furnished, but Ibeg to observe that it has not yet been received

51. The annexed Statement gives the general financial Results for the Fusly under report.

52 Being closing this Report I desire to advert to a few points noticed in that of the Sub Collector, some of which call for an expression of my opinion whilst to others demand explanation.

Enclosure 6

53 With reference to the tanks alluded to in para 8 I will only now observe, that the question of repairing them is one well worthy of early consideration. Those in the Soopah Talook would apparently repay the outlay in a few years, but the subject requires further examination, before

before any plan can be submitted to the Board.

54 The rates of assessment in the five surveyed maganies of Soudah and on the Dharwar frontier generally, should be revised under the general sanction of Government, and the necessary measures could be introduced at an early date, if the Sub Collector could be relieved from double duty and be thus enabled to attend to the subject as it deserves. I should propose with the sanction of the Board to submit for their consideration a seal of remissions on the plan and under the name of those now known here as "Board's Shiparash," and if I understand the wishes of Government aright an enquiry can be entered on as soon as circumstances admit of its being undertaken.

55 I fully concur in Mr. Robinson's view of the usefulness of the Survey Establishment alluded to by him in para 32, and have recommended the re employment of these servants in my Estimate for Fusly 1266.

56 The Sub Collector has been led into error in his Statements /para 18/ regarding the deaths by cholera and small pox in the Honore Talook.

57 The fever which broke out there was praculiar and epidimic in character, and the

the deaths from it as well as from Cholera were in the first instance all entered in the general terms (Bhud Atzar) used to denote cholera. This mistake was observed and correct accounts were called for by this Office, but the Tahsildar failed to furnish the Sub Collector with the revised lists, and hence the large number of deaths by cholera appearing in his Statement. The differences between the Hatpoor and Sub Division accounts regarding small pox are not so easily capable of explanation, and they will be pointed out to the Sub Collector at once-

58 The increased sales of Salt referred to in para 49 have reference to the home manufactured article - as importations from Goa fell off, the sales at our Depots increased, but the total consumption of Salt was a little below that of Fusly 1264, as I have already stated in para 30-

59 The sums entered in para 60 of the Sub Collectors report have been included in those for writing off which I have now requested sanction-

60 As regards the Coochiload magany of the Honore Talook (para 65) there can

can I think be no question as to the propriety of introducing a Survey at as early a date as possible, but many circumstances combine to make it desirable that the survey of this magany should be the first work of the District Establishment now under the consideration of the supreme Government.

61 The lands in this magany are not private property as in generally the case in other parts of the District, but belong to the Sirkar. This affords great facilities for carrying on the Survey and the moderate views of Government will be fully exemplified in afessing such lands, whilst the employment of practiced Surveyors will ensure the accuracy and value of the work, and raise such performances in the Estimation of the people-

62 A reference has been made to Mr Robinson regarding the coomary Beriz alluded to in para 72 of his report, as there must be something peculiar and exceptional in the cases in question, which is not clearly stated. Probably the murgs are not in such a position as to enable their owners to cultivate coomery at all, in which case I should of course support Mr. Robinsons proposition. On this question - I will

again

again address the Board, but do not delay this report, the preparation of which has I regret to find taken more time than I anticipated.

63 It is pleasing to be able to lay before the Board details which attest the continued advancement and prosperity of the District. I would observe however that the quantity of land newly taken into cultivation, in no way represents the march of improvement in Canara. The effects of the capital laid out every where so freely in the soil, shows but little in the accounts. The increasing value of land, leads no doubt to the demand for waste which pour in from the less advanced Talooks in the North, but the amount and value of our exports and Imports and the returns from indirect sources of taxation, are better indications of the industry and prosperity of the Ryots of Canara.

64. During the year under report, I have had but one Sub Collector and one Assistant in the District. On Mr. Robinson has necessarily devolved the charge of both Sub Collectorates, an application to business has I am afraid interfered with Mr. Binny's studies, preventing him from passing the required examination so soon as he would otherwise have done. To Mr. Robinson's untiring zeal and energy I am greatly indebted, and

and if three Officers have been unable to dispose of business in the manner which the interests involved in the speedy Settlement of claims and disputes demand, I think I may say that every effort has been made to meet the demands made on our time and attention.

65. The Board are aware that the current business of the District is particularly heavy, and more than sufficient to occupy a full complement of Revenue Officers, and I trust that they will be pleased to press the urgent necessity of adding to the numbers employed in Canara.

66. From Boniface Fernandez the Head Sheristedar, and the Nail Soorapah, I continue to receive every assistance, and am glad to observe the strong terms in which Mr. Robinson has been able to speak of Roodrapah, the Sub Division Sheristadar, and of the aid afforded by the Nail, during the Settlement of the Northern Talooks.

Collector's

The difference between this Balance and that appearing in the Monthly statement of D & B ending 30th June 1853 viz Rs 2420 11 3 arises from the Treasury Remittances being excluded from the former statement accounts as the receipts under that head are now carried to the credit of Local Funds.

Enclosure 6.

To, W. Fisher Esquire
Collector of Canara

Sir,

I have the honor to submit my annual report on the Settlement of the land revenue for Fusly 1266 in the 2 Sub Divisions under my charge with the exception of the Cundapore talook of the Summabundy of which you were good enough to relieve me—

2. The Settlement of the several Talooks was made in the Villages and on the dates exhibited in the annexed table—

Talookes	Dates	Villages	No. of Mogamies	No. of Villages
	January 1856			
Bilghy	23d. 24th. and 25th.	Siddapore	10	48

	26th. 27th. 28th. and 29th.	Honore	7	57

Fort St. George 6th November 1856.

3 Without making account of the double share of Office work which has devolved on me for the last 18 Months there were other circumstances such as the Exhibition, Census &c. &c. tending to retard and interrupt my Summabundy operation which I was with difficulty able to bring to a termination about the close of May.

4 In the 3 Balaghaut and 2 Payenghaut talooks above named there are 999 Villages, the total number of Estates being 24,308 Of which 16,192 are held on Mootle tenure and 8116 are Gueny Wungs. In these figures are included Bunjur and Enam Wungs.

Irrigation. 5 In my last report I alluded to the "Rutt Dollar" remissions granted in the Payenghaut Division to enable the ryots to construct artificial mud and brushwood dams across some of the larger streams and thereby secure a supply of water for the Soogney or 2d. Crop.

6 These constructions as you are aware, are quite temporary and are invariably swept away by the Monsoon freshes. in the meantime however they seem to answer their purpose and it does not appear to me that the time has yet arrived for discussing the question as

as to whether they could be safely and advantageously replaced by substantial stone anicuts.

7 Two or two such small stone anicuts do in fact excist in the neighbourhood of Bhuthut and are insufficient repair to be made use of for irrigation purposes but in general our streams run in deep worn channels and are so full and impetuous during the Monsoon floods as to leave it very doubtful whether they could be dammed up with safety, and water be thus stored for purposes of Cultivation on a more extensive and permanent scale than has hitherto been attempted.

8 In the Balaghaut Division there are no Kut Dollar remission nor are the inhabitants in the habit as below Ghaut of making temporary dams across the streams, but along the eastern frontier there is a very considerable number of tanks large and small, all of them in more or less disrepair which I think claim our early attention These could I believe at no very heavy outlay be so improved as to ensure the immediate and permanent Cultivation of many

of land which under present circumstances either lie wholly waste or are in crop at long and uncertain intervals.

9 The State of these tanks has I am well aware already attracted your attention, and formed subject of comment, but the questions of their repair does not seem to have yet come under serious consideration.

10 So many representations however on the subject of these tanks were made to me on my Immumabundy tour by the ryots of that neighbourhood that I ordered the Statements hereunto annexed to be prepared for all the frontier Parishes, exhibiting the number and condition of these tanks together with the probable increase of Cultivation both on the Mooli estates and Government lands which would result from their being put into a state of repair and efficiency.

A & B

11 On the accuracy of these Statistics I do not much insist, but believe they are sufficiently correct to bear me out in my supposition that any outlay made in their repair would give a quick

quick and certain return and tend greatly to ~~a~~ the development of a part of the Country which this among other causes has conspired to keep in a somewhat backward State The subject of the high and unequal rates of assessment obtained in the 5 Surveyed frontier parishes of Buddengode Pullalu Mulgby Nugnoor and Worlgby, and of some of the other Mogannies in that direction which lie beyond the certain influence of the Monsoon has already I believe been brought to the notice of Government, but to make it more apparent how greatly the interests of Cultivation and the establishment of a resident population must suffer from this cause along the Canarese frontier I have procured a Statement of the rates at which land is held on the Darwar side under the new assessment system now obtaining there From these it will be seen that whereas our Turrums ranges from 12 annas to Rupees 6 1/2 per acre that of the adjoining Darwar Mogannies varies from 14 annas to 3 - 12 per acre only a State of things which so long as it exists must per force attract a

1962-4 Fort St. George 6th November 1856

a large body of our cultivating classes across the border to the total or at least partial abandonment of much fine arable on this side of the frontier.

17 In the Moondagode Mogany for instance not included in the Statements of the 5 Surveyed parishes above specified, are 72 Bunger Wurgs bearing a Rudeem Beriz of Rupees 387 - 12 - 3 - and containing for the most part only 3rd and 1, 4th Class lands which depends wholly on the falling rain for a supply of water. These at the present Rogagunny rates, I believe never come into permanent cultivation, but if leased out as Rude at Rupee 1 per acre would be eagerly taken up for dry grain and Oil seed crops and would even at such a rate of assessment yield a revenue of some Rupees 200 and upwards in excess of the Rudeem Beriz which they now nominally bear but never realize.

13 My object in bringing forward these facts here is rather to indicate the existence of the evil than to discuss the question of remedy in all its bearings, nor indeed have

have I had the leisure to give even to the im-
perfect statistics I already possess the con-
sideration they deserve. The necessity of some
reduction of the assessment being acknowledg-
ed it would then be time enough to look into
the question more closely and make such sug-
gestions in regard to the remedy and mode of
applying it as the reconsideration of more care-
fully prepared statistics might enable me to
offer.

General Statistics

14 A new Census having been made a-
throughout the District during the July under
report and all particulars concerning popula-
tion agricultural stocks &c. &c. having already
had full consideration in my report on the
subject for both Sub Divisions I need not say
more under this head than that the population
of North Canara inclusive of that of Cumda-
pore Talook, was ascertained to be 1,83,336
the number of ploughs and live stock being
estimated respectively at 61,532 and 3,60,893.

15 From the Statistical table sup-
plied with that report it will moreover be
seen that the agricultural population is to the
now

now agricultural population in the ratio of 5 to 1 the
actual figures being respectively 1,06,183. and 76,853.

16 The rent Roll for the
5 talooks under
consideration exclu-
sive of Beriz on
inam and lands
taken up for pub-
lic purposes is as
per annexed
table.

Talooks	Total Beriz		Remission		Balance	
	Pc	A P	Pc	A P	Pc	A P
Soopah	1,72,068	0 3	21,569	11 1	1,50,498	11 2

in

have I had the leisure to give even to the imperfect statistics I already possess the consideration they deserve. The necessity of some reduction of the assessment being acknowledged it would then be time enough to look into the question more closely and make such suggestions in regard to the remedy and mode of applying it as the reconsideration of more carefully prepared statistics might enable me to offer.

General Statistics

14 A new Census having been made throughout the District during the Fusly under report and all particulars concerning population agricultural Stocks &c. having already had full consideration in my report on the subject for both Sub Divisions I need not say more under this head than that the population of North Canara inclusive of that of Cundapore Talooks, was ascertained to be 1,83,336 the number of ploughs and live stock being estimated respectively at 61,532 and 3,60,893.

15 From the Statistical table supplied with that report it will moreover be seen that the agricultural population is to the now agricultural population in the ratio of 5 to 1 the actual figures being respectively 1,06,183. and 76,853.

16 The rent Roll for the 5 Talooks under consideration exclusive of Beriz on enam and lands taken up for public purposes is as per annexed table.

Talooks	Total Beriz	Remission	Balance
	Rs. A. P.	Rs. A. P.	Rs. A. P.

Total	142	525	1123	828	"	1675	1265	3028	2134	371

All these diseases were particularly prevalent and fatal in the Honore talook, where the mortality of the previous year has been trebled; and the ravages of fever in the Soudah and Bilghy talooks were such as to paralyse for some months all out of door operations and interfere materially with the progress of the Public Works under execution.

All

Fort St. George 8th November 1856

19 All was done for the relief of the sufferers both by Dr. Montgomery and myself that our limited means and establishments admitted of and the deseases I speak here of Fever cases more particularly generally yield: ed to care and medicine Dr. Montgomery is I believe at present engaged on a special report on the subject of this last epidemic.

20 The loss of Cattle has also been severe during the year under review attributable probably to the effect of 2 light monsoons on the supply of forage and water.

22. The imports of rice from the interior were unusually small the trade having apparently taken the direction of less favored and more precariously supplied Districts - this circumstance combined with an active export demand kept stocks low, and as a natural consequence has raised prices to consumers to their present high standard.

23. The improved prices of betelnuts peper and cardamoms afford unqualified proofs

proof of the value of the roads constructed and under construction throughout the Division as well as of the increasing prosperity and enterprise of the people generally.

24. Cocoanuts stood at the high figure of the previous year and Jaggery of every description found a ready market at an enhanced prices.

25. The marginal Table exhibits a larger falling off in rice exports for the year under review as compared with the returns of the preceding fusly. This however I ascribe wholly to the cause already noticed viz, the decrease in the inland imports of the article aided perhaps by a difficulty in

Exports from the talooks of Honore and Aukola.

27. In the Balaghaut the cultivation of Cane is in high favour and some 150 acres more than in the previous year were planted with this crop.-

28. In the two Payenghaut talooks in the other hand there is a corresponding falling off which I am disposed to attribute to the prevalence of sickness the scarcity of water and to a practice which obtains in the low country of cultivating land with cane only every three years in consequence of the exhausting properties of

Fort St. George 6th November 1856.

of the crop. But however this may be (and I place no very great reliance on these figures) there can be no question that the cultivation of the cane is becoming yearly more extended and better understood in proof of which I would beg to point to the result of the Sircy exhibition, when very numerous and excellent specimens of the article in all stages of preparation were submitted for competition.-

29. The season was in all respects most favorable to the former the outturn being good both as regards quantity and quality and prices unusually high.-

30 The extent of fresh land brought under the plough throughout the 5 Talooks under report was acres 2,496 yielding a revenue of Rupees 3,810-15-1. and a very much larger return of cane. Hosagamee cultivation might doubtless have been rendered had the talook Cutcherries been at all able to grapple with the already numerous

and

Fort St. George 6th. November 1850

and daily increasing applications for land which pour in upon them from every side.—

31. In fact the arrears under this head are so heavy and so wholly beyond the control of the regular talook establishments that I would beg strongly to advocate the retention of the Hungamy Surveyors whose employment during the last two years was sanctioned at Mr. Maltby's request.—

32. The amount of work performed by this extra Pymash establishment may appear smaller on paper than is quite satisfactory, but every exertion has been made to stir them up to activity by requiring regular diaries from them and otherwise supervising their operations and perhaps

Fort St. George, 6th. November 1850

perhaps considering the Keen opposition and jealously which meet them at every step from the proprietors of the neighbouring estates and the widely scattered situation of many of the small parcels of land which they are called on measure and estimate (I speak here more particularly of the Payenghat Division) greater despatch was scarcely to be expected

33. The remissions on cultivation fall short of those of the previous year by Rupees 171-15. those latter having for the most part been brought upon it again without difficulty.—

It

: Fort St. George, 6th November 1858.

It is to be regretted that Coomery should figure so largely among these items of increase but high prices and a dry and therefore to that kind of cultivation favorable season combined to give it more than usual attraction in the eyes of the cultivating classes and the consequence was that vast tracts of forest were cleared and cultivated along the crest of the ghauts and throughout the hills of the Soopah Taluk.—

38. For this wanton destruction of valuable timber the offenders were heavily fined besides having to pay the double assessment of Rupees 2 instead of Rupees 1 per acre a point which must not be lost sight of including from these figures the extent of forest actually destroyed.—

The

Fort St. George 6th November 1858

39 The question of Coomery cultivation is now I am aware engaging your serious consideration and will form matter of special report I need not therefore say more about it in this place than state generally that active measures were adopted for its repression and control this year and as the next returns of Coomery cultivation will I believe show with good success.—

40 The extent of Buckle cultivation is exhibited in the marginal table showing a steady and satisfactory increase in this item of revenue.

41 The large increase under this head is derived chiefly from the honey farms which were taken up eagerly owing to the abundance

Taluks	Fusly 1264			Fusly 1265			Difference Increase			Difference Decrease

Small Farms.—

abundance of the Goorgi flower which the bee of these parts particularly affects and which blowing periodically is always make account of and influences the amount of rent.

Abkarry 42 The revenue derived from this source is likewise steadily increasing and keeps pace with the development of trade and the active traffic which finds its way down all our roads and thoroughfares to the Sea Coast.—

Land and Sea Customs 43 The heavy decrease in the revenue under these two important heads amounting to Rupees 18,698-6-9 demands some explanation.

44 In both the deficiency is attributable to one and the same cause, viz, the falling off in the imports of Goa salt.

45 As you are already fully aware the receipts at our frontier chowkies depend in a great measure on the activity of the barter trade in grain and salt between this District and the Goa territory. The receipts

city of trade low prices consequent on an abundant harvest in the latter Country and probably a distrust of our recent policy in the Salt question have combined to interrupt and diminish and hence the large difficiency represented on the accounts.

46 The fact that the duty is 2 annas per Bengal maund lighter on salt imported by land than on that brought by sea might have been expected to exercise and probably would have exercised a favorable influence on our Land Customs receipts had not low prices interfered to disturb the balance in the Grain market.

Sea Customs 47 To the same inactivity in the import trade of Goa salt may be attributed the falling off in our Sea Customs receipts which are Rs. 13,511-9-7 below those of the previous year when however owing to then existing facilities the revenue derived from this source rose far above its former average.—

Salt 48 In the important item of revenue the years results contrast favorably with those of the preceding one.—

E. 49 An reference to the appended comparative statement you will observe that the home consumption within the Honore and Ankola talooks Rs was Rs 5357-15-6 in excess of that for fusly 1264 and that the value of salt exported alone ghat has again risen from 1,07,529-4-11 to 1,30,173-4-3 being Rupees 1886-11-4 beyond the receipts of 1263.—

50 Deducting the deficiency in the years receipts in the Land and Sea Customs

Customs we have a net increase for the fualy of Rupees 1871-1-9 which goes far to make good last years loss of Rupees 25,753-9-11.

51 These figures taken in connection with the circumstances pointed out when speaking of the land and Sea Customs revenue explain themselves and need no further comment.

F

52 The manufacture of Salt for fualy under review was as you will perceive by the annexed table very limited This diffuciency is attributable to the unusually early setting of the monsoon which was inaugurated by frequent heavy showers during the early part of May, when the manufacture as in ordinary years in its greatest activity.

Stamp paper

53 Under this head there is an increase of Rs 2277-4-- attributable to increased facilities in the disposal of small suits in the Moonsiffs Courts and other ordinary causes.

Forest

54 The revenue derived from this source is Rupees 69,361-10-- in excess of that of the preceding year.—

	Timber in stone	Average price of last sale.		55 Subjoined is a statement exhibiting the timber stock at our principal depots and the prices obtained for the several kinds of timber disposed of by public auctions and private sales during the fualy under
Talok Rs	Teak Logs	Single Logs	Teak per Candy	Single per Candy
Sandu Soopah	13,947	7,375	16 to 12 Rs	25 to 30 Rs
An Kala	"	"	"	"

under report. From these details it will be seen that the demand in the timber market was brisk beyond all precedent and that the prices obtained for teak and the 9 reserved kinds of Sangluwood were unusually high.

Motinpha

56 The decrease of Rs 1207-7-10 under the head Motinpak may be ascribed to the prevailing sickness which closed many of the small retail shops and to my having abstained from interfering with existing rates even in cases where it could be shown the parties were in the enjoyment of enhanced profits under the belief that the question of this tax was under consideration and likely to receive important modifications.

Sevoy Summak

57 Under this head the total revenue for the 5 Talok Rs under report is Rs 3,593-2-6 the particulars of which will found in the annexed statement which does not seem to call for further remarks.

Items	Fualy 1264 Rs	Fualy 1265 Rs	Difference Increase Rs	Difference Decrease Rs

Fort St. George 6th November 1836

59 A small arrear of Rupees 13-2-10 due on a Mooly murg No. 13 in the Cedagoonjee Magany of the Honore Talook being in excess of its ascertained produce and never hitherto realised without recourse to distraint should I think be permanently remitted to the proprietor who has no means of meeting the demand.—

60 Two trifling sums of Rupees "-8-" in the Honore Talook, and annas 4 in that of Ankola due under the head of Motorpiah and unrealizable owing to the desertion of one and the death of the other defaulter I beg to be allowed permission to write off the accounts.—

61 A balance also of Rupees 168-3-9 due on a Rofsagame estate held by one Nadkurny annappa in the Kudry Magany Ankola Talook should likewise I consider be remitted as the demand seems an enguirgumenspported by the terms of the original durkast the meaning of which several circumstances have combined to render ambiguous.—

62 This doubt has however never been finally set at rest and the land is held in clear and well defined terms.—

63 Before bringing this report to a conclusion I would beg to invite

Fort St. George 6 November 1836

invite your particular attention to the case of Cochilnand Magany of the Honore Talook where a principle of land tenure obtains which I consider a like unfair to the cause of Cultivation generally and to the Government interests.

64 I allude to the Appeyment of land by the Buffghy (as it is called) a measurement which has no definite meaning and which may represent any extent of land from 4 to 8 acres.—

65 There are in Cochilnand 480½ such Buffghy apeped at from Rupees 12 to 16 per Buffghy and making up a total Beriz of Rupees 5,824-13-7 of which Rupees 3,291 only are now collected.—

66 The Average Bijwary as may be seen from the appended table is rated differently in the 22 villages composing this mogany and varies from 3¾ to 5 Candies per Buffghy but there can be no doubt this estimate is considerably short of the real produce of such holdings which probably equals 6 Candies and upwards per Buffghy.—

67 The whole of the land in

59 A small arrear of Rupees 13-2-10 due on a Moody warg No. 13 in the Cedagoonjee Magany of the Honore taloork being in excess of its ascertained produce and never hitherto realised without recourse to distraint should I think be permanently remitted to the proprietor who has no means of meeting the demand.—

60 Two trifling sums of Rupees —-8-— in the Honore Taloork, and annas 4 in that of Ankola due under the head of Moturpah and irrealizable owing to the desertion of one and the death of the other defaulter I beg to be allowed permission to write off the accounts.—

61 A balance also of Rupees 168-3-9 due on a Koppagame estate held by one Nadkurny annappa in the Hindry Magany Ankola taloork should likewise I consider be remitted as the demand seems an enquiry unsupported by the terms of the original dunkast the meaning of which several circumstances have combined to render ambiguous.—

62 This doubt has however been finally set at rest and the land is held in clear and well defined tenure.

63 Before bringing this report to a conclusion I would beg to

invite your particular attention to the case of Coochilnand Magany of the Honore taloork where a principle of land tenure obtains which I consider a like impair to the cause of Cultivation generally and to the Government interests.

64 I allude to the Assessment of land by the Buspghy (as it is called) a measurement which has no definite meaning and which may represent any extent of land from 4 to 8 acres.—

65 There are in Coochilnand 480½ such Buspghy assessed at from Rupees 13 to 16 per Buspghy and making up a total Bereiz of Rupees 6,824-13-7 of which Rupees 3291 only are now collected.

66 The Average Bijwary as may be seen from the appended table is rated differently in the 22 villages composing this mogany and varies from 3¾ to 5 Candies per Buspghy-ent there can be no doubt this estimate is considerably short of the real produce of such holdings which probably equals 6 Candies and upwards per Buspghy.

67 The whole of the land in

Fort St George 6 November 1836.

in this mogany is sirikar property and as the soil is for the most excellent well supplied with water and interseckly a road leading direct to Coomtie from which it is only 10 miles distant there can be no question that the great bar hitherto to its rapid development has been this uncertainity in regard to the limits of these several holdings or so called Mufoghy.

68 This uncertainty it is plainly the interest of the present occupants to make the most if they can as they thereby secure to themselves the pick and choice of the land and can in fact extend and contract their cultivation as best suits their own interests.

69 In advocating an early survey of this parish I am only resuscitating a proposition made by Mr. Silver as far back as 1831 nor do I entertain any doubt of the good policy and entire fairness to all parties of such a measure if carried out.

70 Such a payment could I believe

Fort St George 6 November 1836.

I believe be easily completed within one year and the establishment to I would propose for its conduct taking that recently sanctioned for the Mutta lands as my model would consist of

1 Peishcar on Rupees 30 per mensem
1 Gomashta --- " ---- 15
2 Peons Rs 5 each -- 10
Rupees ---------- 55

Eight months would probably suffice to complete the actual mensuration after which it would not be necessary to entertain Peishcars or Peons as two Gomashtahs on Rupees 15 and 10 respectively would be able to arrange the accounts and prepare matters for final adjustment.

72 The entertainment of such an establishment allowing Rupees 5 monthly for Sanderwarid would this amount for the whole year to Rupees 620 so that in the event of your concurring in my views I beg you will give to the proposition the additional weight of your recommendation Nor must I

I omit to bring to your notice in this place the cases of 2 Gooroy murgs No. 10 and 38 situated in the Adikary Rolly and Katagum villages of the Honore taluk in which extra cesses of Rupees 4-12-0 and Rupees 19-6-8. respectively are annually claimed and realized in the former instance under the name of Coomery Kurlay Beriz.

73 The demand seems to have arisen out of an old practice of leaving annas 4 from each married and annas 2 from each single resident Cultivator when the village was held on contract but as this state of things has now long ceased and Coomery cultivation has its own special laws and restrictions and is brought to account under a separate head of its own the demand seems neither just nor reasonable I therefore request you will obtain the permission of the Revenue Board to discontinue it for the future in both instances.

74 The amount of Takavy advanced

advanced for the year under review in the 5 Taluks was Rupees 5,423 of this Rupees 5,415 have already been brought to account and the balance is in process of recovery

75 I am disposed to think that the discontinuance of this indulgence will not so far as North Canara is concerned be attended with any inconvenience to the ryot or impediment to the general interests of Cultivation.

76 Before closing this report I would beg to record my firm conviction that notwithstanding the drawback of 2 somewhat unefficient measures and the unusual prevalence of sickness both Divisions are making sure and satisfactory progress towards a high standard of prosperity.

77 From every side pour in fresh tenders for land, and along all our roads streams an ever active and most valuable trade.

78 To the results of the exhibition moreover

19653 Fort St. George 16 November 1856.

moreover would I beg to point as a further indication of that buoyancy and enterprise which are at once the cause and effects of prosperity and independance as among the general body of the people—

79 To the valuable experience and indefatigable industry of my Sheristadar Rooduppa I gladly bear testimony, with his assistance I was enabled under an unusual stress of business to bring the Summalundy of the 3 Balaghauts and Bowree Talooks to a satisfactory termination.—

8 To your Nail Sheristadar Sooriappa I am likewise under obligation for the ready and valuable aid he afforded me in making the settlement of the Anikolu Talook.—

B. No. 4525.

From the Collector of Salem

Affording the information called for in &c Board's Proceedings of the 22d October 1856 relative to the local custom &c observed in &c compelling labor-

Para 1. I have the honor to acknowledge an Extract from the Proceedings of the Board of &c Revenue, dated 22d October 1856 No. 3520, annexing Extract from the Minutes of Consultation dated 18th October 1856, referring to the draft of a proposed Act for the preservation of works of irrigation, Navigation and drainage, and calling for &c information in respect to the local custom &c observed in compelling labor in the two cases named by the Government-

2- The first of these two cases refers to &c operations which require the united labor of the &c Village community in connection with irrigation or Cultivation-

3- In the Salem District force labour is never required in any operation immediately &c connected with Cultivation.-

4- In regard to operations connected &c with

with irrigation the only work of this kind per-
=formed by unpaid labour is that of keeping the
irrigation Channels clear - In all ordinary cases
this labour falls on the people, but only on those
who carry on Wet Cultivation -

5- The mode in which this labor is
shared among the people varies in different
Villages: In some each house contributes a
certain number of labourers - In some the
land owners are required to furnish labourers
in proportion to the number of their ploughs.
In some the owners of the fields directly
adjoining the Channels are supposed to do the
chief part, if not the whole, of the work -
In almost every Village some principle is
followed in distributing the labour, that each
may have no more than his proper share, but in
this District there is only one instance in which a
principle of this kind is enforced by authority -

6- The instance I prefer to is that of
the Cauvery Channels - The holders of lands
under

under these Channels were formerly obliged to furnish
labourers to keep the Channels clear, and maintain the
corumboos or heads of the Channels in an efficient
state; but at the Survey the Government undertook
this expense, by deducting from the Assessment the
value of the fees which had been previously paid
by the Cultivators according to the present custom
the payment of these fees is enforced in the
same manner as the land assessment and a
fixed Establishment is maintained by the fees
for the ordinary duties connected with the pre-
=servation of the Channels, but the Villages are
still liable to a demand for extra aid on
special occasions -

7- For further information on this point
I subjoin to this letter a Memorandum showing
in detail by what system labor is provided
both for ordinary and special work -

8- The second case referred to is
that of sudden emergency - such as breaches
of tank river or Channel bank -

9- On such occasions all who
belong

belong to the agricultural class are liable to attend at the call of the Village Officers. This custom is a universal one and is never complained of as unjust or oppressive tho' for want of prescribed rules and penalties the duty is frequently evaded.

10. I cannot quote particular cases in which this has happened, but it should not be inferred from this that cases of this kind do not occur. I believe that numerous accidents to irrigation works might be traced to the want of timely aid from the people, and that the only reason why facts of this kind are not more frequently brought to light is the supposed uselessness of enquiry when public Officers have no power to enforce a penalty.

11. On this, as on other occasions a useful practice is allowed to drop, because there is no legal sanction for maintaining it Public Officers cannot uphold the customs of the country, however reasonable, in the same way as those customs were maintained under a more arbitrary form of Government, nor

nor is it desirable that they should attempt to do so, but in that case it is the more necessary that their authority when they are required to exercise it should have legal support.

12. In the two cases referred to by Government, the necessity of obtaining legal power to enforce the requisition of labour is distinct from the question, whether such labor might not be paid for. There seems no reason why labour so procured should not be remunerated at the same rates as other labour, tho that is not the practice usually observed.

No. 1.

Statement of the Establishment for the preservation of the Cavery Channels and the means by which each Establishment is maintained.

Ranjavoichal or Paramatty Channel.

The lands depending on the supply of this Channel were at the time of Tjasul, divided

divided into 212 Carays or shares, and the workmen required for the preservation of the Channel and its Corumboo, fixed at the general rate of one man to 2 Carays, amount to 107 men in number. Of these the emoluments payable to 30 1/8 men were awarded to the Corumboo Monigar Peons &c., leaving 76 7/8 men, who are invariably employed at the Corumboo.-

The Ryots are also bound to supply additional workmen required for emergent work, such as closing the breaches of the Channel for the construction of the Corumboo and for removing twice annually the silt accumulated in the bed of the Channel, and 4 times the shrubs &c. grown therein.-

The workmen are to be supplied in the following manner, as the state of the works may require.-

76- On the 1st Demand.
152- On the 2d. — Do. —
238.

The quantity of grain allowed to the 107 workmen permanently employed is at the

the rate of 4 Podies each.

Comarapolliem Channel.

The lands depending on the supply of this Channel were at the time of survey divided into 354 ~~shares~~ or divisions, and the payment for workmen required for the preservation of the Channel and its Corumboo, was fixed at the rate of 2 Medas of grain per share equal to 64 Podies of grain. Of these deducting 24 Podies as inserted in Column 7 for the service of Nunjamanigar &c. there remain 40 Podies.- This quantity of grain is distributed to 10 workmen at the rate of 4 Podies each per annum. These persons are employed on the Corumboo or dam.-

Besides this the Ryots are also bound to supply additional workmen when required for the extra works in the following manner, as the state of the works may require.-

78 1/2 On the first Demand.
157- On the second Demand.
235 1/2

Moganoor

Moganoor Shamel

17 Workmen were fixed for the preservation of this Shamel and its Corumboo. Of these deducting the fees payable to 2 men for the service of Neerammey there remain 15 men who are always employed on the Corumboo.

The Ryots are also bound to supply additional workmen required for the extra works in the following manner, as the state of the works may require -

10 7/4 men are supplied in the 1st instance by the Ryots of Moganoor and other Villages -

Of these the emoluments of 15 1/4 men are paid to the Corumboo Manigar &c. and there remain 92 men -

In the case of a second demand the ryots not of Moganoor &c. but of Pettapolliem and other Villages are bound to supply 86 men -

From the Actg Collector of Tanjore

Sir,

With reference to the Circular orders marginally noted, I take this opportunity to report for the information of the Board the success which has attended the efforts made in Tanjore for the commutation of all life pensions under 12 Rs. per annum - at the first outset these parties seemed some what reluctant to sell their allowances for a commutation value to Government, but they have most of them since adopted this measure as one most convenient to themselves, every one wishing to get his pension commuted at once, as regulated in the schedule appended to Para 6 of the Boards Circular of 21st July 1855. No. 1821 with special reference to the respective age of the parties -

Board Circular 21st July 1855 No. 1821.
Do Do - No. 1822.
Minutes Consultation.
10th July 1855 -

2- The number of life pensioners paid in Tanjore at the close of Fus. ly 1264, was 100, of these 58 draw above the limit of 12 Rupees per annum and 6 have died - Of the remaining 36 persons drawing 12 Rupees and under 4 have refused to get their pensions commuted and 3 are disqualified under Para 5 of the above Circular by infirmity and ill health - All the rest (29 in number) having applied for the commutation, have been already paid the commutation value amounting to Rupees 1092 - 7 - 11. as will be seen in the accompanying Statement -

From the Collector of Tanjore } 1

Furnishing information regarding the necessity that exists for having recourse in to

I have had the honor to receive an Extract from the Board's Proceedings dated the 22.d Ultimo No. 3510. in which I am requested to afford information on the necessity that

to Compulsory labor in cases of sudden Emergency such as the breach of channel or river banks.—

that exists for having recourse to Compulsory labour, in Cases of Sudden emergency such as the breach of channel or river banks.—

2 The Custom has prevailed in Tanjore from time immemorial, and altho' the able measures latterly by the Civil Engineers, and the attention that has been paid to the public works for many years past have render:ed a recourse to the practice less frequent now than formerly, its necessity on emergent oc:casions is not the less obvious to all who are practically acquainted with the wants and requirements of the Province. Before the Upper Anicut was built it was annually necessary to send some thousand people to the head of Seerungham to clear the accumula:tions of Sand, the same measures were adopt:ed at the head of the Vennor before the regula:ting) dam was erected, and the heads of many of the rivers the supply of which is now regu:lated by masonry works had, from time to time to be cleared by manual labour. The work was was never one in which those in the immediate neighbourhood were interested

their

their supply of water was drawn from some Channel taken off higher up the river, and to maintain the cultivation of the lower Villages, it was necessary that authority should be exerted to obtain labor on the spot for the work that must necessarily be done. These works however as I have said are now not as needed and the necessity for compelling labor is restricted to occasions of rivers breaching their banks.

3 I believe that in some quarters it is even now questioned whether river embankments are advantageous to a Country or not. An acquaintance of more than twenty years with the Cavery and its offshoots, and with the Godavery, has left no doubt on my mind upon the subject, but the question has been so thoroughly argued by Colonel Cotton that it would be a waste of the Boards time, if I were now to enter upon it, I will therefore only beg them to refer to an article on river embankments in the Calcutta review for October 1847, and proceed with the present subject, assuming that

that the river embankments will be at all events maintained in Tanjore where the system has been at work for more than half a century and where whole fortunes have been invested in landed estates, in full reliance that the system will be maintained.

4 In Ordinary seasons it is not often known that a river breaks its banks, but when a breach occurs the necessity for closing it is an emergent. Omitting all irrigating and surplus channels, as far too numerous to mention, there are in Tanjore not less than 105 rivers, the district is a small one and it is obvious that if a breach in the bank of one be not closed before its waters have burst into another that other unable to contain the additional flood thus poured into it, must break, and in its turn empty its accumulated contents into a third, until from North to South would be one wide scene of desolation.

5 The heavy loss of life and property that must inevitably result from the waters of a large river forsaking their accustomed course, and sweeping over the face of the Country, is by no means

all

all that is suffered, much land is permanently injured by the sand which the river deposits in its course, and the whole of the Cultivation below the breach which depended on irrigation from the river, is deprived of its supply of water.

The great emergency of the occasion arises from the rapidity with which a breach enlarges if left to the action of the water. In 1831, the Coodamoorty breached its bank to the extent of ten yards and notwithstanding that every available measure was adopted to arrest the evil, the breach had widened to eighty yards before it could be closed. On this occasion 400 trees 6000 bamboos 30,000 Cocoanut leaves and 13,000 bundles of straw were expended besides an outlay of 3,000 Rupees in the laborer's wages. The hurricane of 1853 occasioned 170 breaches, and as I was Collector of the District at the time, as I may take upon myself to assert, and I know that Major Lawford, who was then the Civil Engineer, will support the assertion, that had not authority been

been escorted to repair the general damage the Cultivation of the ensuing year would have been very generally arrested.

7 But the difficulty now felt, probably does not arise from inability to admit the necessity for closing a breach but from unwillingness to admit that it is necessary to force labor for the purpose to this point therefore I shall now briefly advert.

8 A breach may occur in the limits of a small village the population of which is wholly inadequate to arrest the progress of the evil, or in the eastern part of a large Village to all whose lands are situated above it, that is to the west, the breach is of no Concern and to give notice to those below it, whose Cultivation depends on the water maintaining its usual Course, would by delay cause such an extention of the evil, as no after efforts could retrieve. Moreover in Tanjore where the entire surface of the delta is cultivated, there is no spare labor every land owner has his own farm servants and as the time

time of the freshes is also the season of cultivation, not a man will spare his labor is from his fields if his own individual interest be not at stake, when a breach occurs trees must be felled, straw must be had and labor must be procured, those interested are at too great a distances to supply either those at hand are too selfish and, unless authority be exercised, the breach must spread, the lands must be destroyed, Villages must be swept away, and Cultivation must be arrested.

Hitherto the Collector's authority has never been questioned and the established Custom of the Country has been followed, but when the executive is transferred to the Civil Engineer it is very questionable if the same obedience will be shown and therefore it is that those who know the people and are acquainted with the wants of the Province have advocated a legislative act.

10 A Copy of the draft act as finally

finally approved by Government has not been sent to me, and should provision not have been made on the subject, I take leave to recommend that a section be added to make it lawful to take materials as well as labor to stop a river breach Cocoanut trees, leaves, and straw are as essential as labor and each individual is naturally desirous that his own should be spared and those of his neighbour taken, and if the question be asked, it is certain that no one will consent, It is not an exaggeration to say that every minute is important when a breach has been made and arbitrary as it may appear to seize the goods of individuals, the measure is absolutely necessary not for the security of the revenue only, but for the preservation of the property of

Sir,

1. With reference to my letter of the 24th Ultimo, I have the honor to transmit to you the annexed copy of a letter under date the 16th idem from the Acting Collector of Ganjam regarding the establishment of a school at Purlak Kimedy which has been referred to me by the Board of Revenue for disposal.—.

2. As the school is intended to be merely a Vernacular one, I should be disposed to question the

the expediency of fixing the expen=diture at a rate higher than that sanctioned for the Government Talook schools, nor do I see any necessity for scholarships. It will be sufficient I think that the pupils of this school and of others of the same grade should hereafter be allowed to compete for scholarships in the Zillah school to be established at Berhampore. The sum proposed for saderward also appears to be unnecessarily high.

3. I shall be obliged by your favoring me with your views as to the amount of the monthly grant that will be required for the school and the sum neces=sary for providing a building and I shall then be prepared to make a definite application to the Court of Wards. Books, slates, &c. can be furnished by me and their cost recovered.

recovered in the same manner as in the Talook schools.—

Office of the Director of Public Instruction, 13th August 1856.— } (Signed) A. J. Arbuthnot. Director of Public Instructions.

No. 122.

To,

A. J. Arbuthnot Esqre
Director of Public Instructions

Sir,

1. I have the honor to acknowledge the receipt of your letter No. 670 of the 13th Ultimo, transmitting copy of a letter from the Acting Collector of Ganjam regarding the establishment of a school at Purlah Kimedy.—

2. I think Mr. Knox is right in fixing the establishment on a larger scale than in an ordinary Talook School because instruction will have to be imparted through the medium of two Vernacular languages, and the salaries proposed do not seem more than sufficient to secure the

the services of qualified teachers. I do not see any particular necessity for scholarships. The Saderward allowance is perhaps rather liberal but it is desirable that the school should be supplied with a clock a few Maps. and other articles of school apparatus and I think the amount will not be found too high at first starting, after the first year it can be reduced if necessary.—

3 The amount asked for building a school house Viz. Rs. 500 seems unobjectionable.—

Guntoor — } (Signed) R. M. Macdonald
10th September 1856. } Inspector of Schools.

(True Copies)
(Signed) A. J. Arbuthnot
Director of
Public Instructions

B. & No. 3727.

Proceedings thereon.— The Court of Wards authorize the disbursement from the Funds

Fort St. George 7th November 1856.

+ Rs
Head Master 30
2d — Do — 25
3d — Do — 15
Saderward 5
Rs 75

Funds of the Purlah Kinedy Estate of the sum of Rupees 500 for the erection of a School Room and for the provision of articles of school furniture and of Rupees 75 per mensem for the support of the school.—

2. The Acting Agent will furnish with his annual Report on the Estate an account of expenditure and income from fees &ca and briefly report on the state of the school.—

Ordered that a copy of the above Proceedings be sent to the Director of Public Instruction and that a transcript of the same together with that of Mr. Arbuthnot's letter and its Enclosures, be sent to the Acting Agent of Ganjam with reference to his letter dated 16th July 1856. No. 141.—

In Cons 29th July 1856.—

To J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

(312)
B. of R. No. 4363.
From the Collector of Chingleput
Sir,

In acknowledging the

Fort St. George 7th November 1856.

the receipt of a Silver Medal for presentation to Cunniah Chetty which was stated in your letter No. 3395 of the 15th Instant to have been forwarded by Banghy, I have the honor to request you will be good enough to inform me at your earliest convenience what its cost is, that I may remit to you the amount for disbursement to the Parties concerned.—

Chingleput District,
Collector's Cutcherry,
Sydapet 24th October
1856

Signed/ C. J. Shubrick
Collector.

(312. 313.)
B. of R. No. 3701
Proceedings thereon.— The Board observe that Messrs Orr & Co's charge for manufacturing the Medal for Cunniah Chetty is 20 Rupees the amount of the prize awarded to him. The Engraving of the Paper Machine was separately paid for by Cunniah Chetty. The Board request that the Collector will

will forward the 20 Rupees direct to Messrs Orr & Co and obtain their receipt for the same.—

To

J. D. Sim Esqre

Acting Secretary to the

Board of Revenue

Fort St George.

Proceedings thereon

The Board of Revenue authorize the sale for arrears of Revenue of the lands alluded to in the foregoing letter, and direct the publication in their Offices of the Advertisement forwarded by the Collector. Tuesday the 16th December - next being fixed for the day of sale -

2 The Board observe that in the case of lands sold at the commencement of a Fusly the entries in Columns 8 and 9 should be identical, because the assessment is payable for the whole year, if the lands are purchased at the sale. Column 9 of the Advertisement has been accordingly filled up in the Boards Office

Office, and the Collector is requested to have similar entries made in those publish-ed in the District.-

3 Earlier measures should have been adopted for the realization of the arrears.-

To

J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

319
Bd No. 1529
From the Collector
of Chingleput.

Sir,

1. I have the honor to report on the accompanying Petition No. 2871 of 1856 bearing the Boards Endorsement dated the 16th Ultimo.—

2. The Source of Irrigation from which Petitioners Lands were watered is a Pool as stated in the Petition, but it is a Government Pool, and when the water was used by Petitioner for the Conversion of his dry land into wet, he became liable to the payment of the assessment leviable on the latter according to the rules of the Hookoomnamah. Petitioner has no doubt cleared out the Pool when the supply of water was short, but his doing so did not relieve him from the liability of paying the full assessment as he did it of his own free will without asking permission or obtaining a promise of relief in consequence his claim for remission of Teervajastee would therefore seem to be inadmissible.

The

3 The lands surrounding the Petitioners are Dry and defendant on the falling rains. There is only a small piece of dry land on one side of his, converted into wet by the aid of the Tank water, which Petitioner was at perfect liberty to use if he required it.—

321
3d No. 1,552
From the Collector of Trichinopoly } Sir,
Furnishes the

I do myself the honor to acknowledge the

information in respect of the Custom in their Province for the landed Proprietary to afford gratuitous labor in certain cases whether in connection with irrigation and cultivation or Sudden Emergencies.—

the receipt of Extract from the Proceedings of your Board No. 3510 dated the 22d ultimo and in accordance with the instructions there conveyed I beg to furnish the information in respect of the Custom in thes Province for the landed Proprietary to afford gratuitous labor in certain cases whether in connection with irrigation and cultivation or Sudden emergencies.—

2. It is beyond question the usage of the Country that the Inhabitants should perform without any assistance from the Government trifling works connected with the irrigation of their lands as the following namely.—

1st The strengthening the banks and keeping clear the beds of the branch channels taken off from the Main canals.—

2d Excavating channels of whatever description where the silt or accumulation is light and can be easily thrown up by the "Munvettie".—

3d Keeping clear all the korumbooo or

19724

Fort St. George 7th November 1856

or heads of channels from time to time during the Cultivating Season. —

4th Repairing trifling breaches of supplying channels to tanks. and keep free and clear all irrigating ducts leading from the tank sluices. —

3 This is the Established Custom and usage of the Country. Well known and acknowledged by all the Ryots and in proof of such Custom being recognised and acted up to by the Village Communities. I beg to subjoin an abstract Statement shewing the nature and Estent of repairs performed by Village labor in the District during the past five years. —

Class A. Comprehends work done before the channels and tanks fill and the Cultivation Commencies. —

Class B. those performed when the works of irrigation are in active operation. —

19725

Fort St. George 7th November 1856.

In

Fort St. George 7th November 1856

4 In like manner under sudden Emergency. such as breaches of tank, river or chamel banks. it is customary and each Village is so bound to render immediate help to the Government to secure in the first instance all sudden breaches by the supply of Labor and Even of materials as. Straw Stakes and branches of trees.

5 In proof of such right on the part of Government, and of the usage of the bountry, Ibeg to furnish a Statement giving recorded instances where such Labor and Materials were actually given by the people during the past years.—

6 I am of opinion it is essential that legal power to enforce the requisition for such labor in both the cases treated of above should be obtained, for the reason that there is at the present time working in the Minds of the people a confirmed belief

Fort St. George 7th November 1856.

belief that these former Customs and usages cannot as the law now is, be enforced, and that a quiet resistance on their part is all that is required to relieve them of these Emergent calls for Labor.—

7 When a breach occurs or is even likely to occur in a River or great Chamel and Tank the mischief and loss may be incalculable unless immediately arrested by and given by the people on the spot.— and as their interests and Stake are as great if not greater than the Government, it cannot be considered a burden that they should give prompt aid to stop such accidents which might destroy a whole District. As for example a serious breach in the bank of so dangerous a river as the Cavery which runs through this Province.

Fort St. George 8th November 1856

Read Statement of Extra Tentage drawn by himself and his subordinates for July 1265—

The Extra Tent allowance drawn by each officer for the Number of days noted in the Margin is sanctioned by the Board of Revenue—

2 The Board observe that in their Proceedings 11th April 1853 they permitted officers travelling by Dâk to draw Extra Tentage but this privilege was only intended to meet special cases— The Acting Head Assistant Mr. H. Morris appears to have travelled by Dâk on almost every occasion on which he had to quit the Hoozoor—

3 The Board have no objection to the Collector's Assistants proceedings by Dâk to Cuddapah to ship Treasure but on ordinary Tours of business except in cases of necessity they should travel with their Establishments—

To J. D. Sim Esqr.
Acting Secretary to the
Board of Revenue
Fort St. George

363

Bd's No. 4138
From the Collector
of Tinnevelly

Reporting upon the Settlement of Land and Extra Source of Revenue for Fusly 1265 & forwarding the Several accounts required by Memo from Govt. dated 23d August 1856—

Sir

Para 1 I have the honor to report upon the Settlement of the Land and Extra Sources of Revenue of this District for Fusly 1265 = A.D. 1855/56 and to forward agreeably to the instructions contained in a Memo from the Secretary to Government dated the 23d August 1856 duly filled up the set of forms of annual Settlement accounts therewith Recorded thus in Number and one Number in addition as an Enclosure to Statement No. 5 as also the Statements showing the transactions in the Salt Department during the Fusly in question making in all 18 Statements as per list accompanying—

Season— 2 The Board will have perceived from the periodical Reports from this District that the Season for both Carr and Peshanum of the Fusly under Report was unfavorable—

From

Fort St. George 8th November 1856

From May to November 1856 the Rains that fell was partial and scanty and not sufficient in some localities to enable the Ryots to carry on their Cultivation - Towards the end of December 1855 and in April 1856 Rain was abundant throughout the Dis: =trict excepting in one Talook Viz: =portion where the April Rains did not extend Though this Rain was beneficial to the Peshamum growing Crops in Several localities it injured the matured Crops Wet and Dry in other places not off the ground at that time -

Carr 3 The principal River Tambra = =poorny received freshes in the latter part of June and in July 1855 but the water was not sufficient to reach some of the Tanks situa: =ted in the Talooks of Streeny gonitum and Punchu: =mah which are last supplied - The scanty supply that was received in the subsequent Months from August to November 1855, was not sufficient to bring to maturity the whole

Fort St. George 8th November 1856

whole Cultivation dependant on the Tanks and Channels under the Tambrapoorny - The Minor Rivers did not receive a sufficient supply up to November and the Rain fed Tanks were likewise not filled upto December - Notwithstanding all this the total Cars Cultivation in this Fasly exceeded that of the previous year by 1431 Acres which is owing partly to the Ryots having raised additional Cultivation under the rain fed Tanks by the assistance of the water that Remained out of the supply received in the previous year and partly to the Cultiva: =tion in the Northern Talooks Streenilly: =portion and Shenkerninarcoil under the indulgence granted by the Board in their Proceedings of 18th April 1855 having been sanctioned in the Fasly 1265 and brought to the accounts of that year -

Peshamum 4 From the Commencement of the period for Peshamum Cultivation or from October

Fort St. George 8th November 1856

From May to November 1856 the Rain
that fell was partial and Scanty and not
Sufficient in some Localities to enable the
Ryots to carry on their Cultivation - Towards
the ends of December 1855 and in April
1856 Rain was abundant throughout the Dis:
:trict excepting in one Talook Viz: Streni[illegible]lly:
:portion where the April Rains did not
extend Though this Rain was beneficial
to the Peshanum growing Crops in Several
Localities it injured the matured Crops Wet
and Dry in others places not off the ground
at that time -

Cars 3 The principal Rivers Tambra =
:poorny received freshes in the latter part of
June and in July 1855 but the water was
not sufficient to reach some of the Tanks situa:
:ted in the Talooks of Streni[illegible]gontum and Punch:
:mahl which are last supplied - The Scanty
Supply that was received in the subsequent
Months from August to November 1855,
was not Sufficient to bring to maturity the
whole

Fort St. George 8th November 1856

whole Cultivation dependant on the Tanks
and Channels under the Tambrapoorny - The
minor Rivers did not receive a sufficient
Supply up to November and the
Rain fed Tanks were likewise not filled
upto December - Notwithstanding all
this the total Cars Cultivation in this Fasly
exceeded that of the previous year by 1431
Acres which is owing partly to the Ryots
having raised additional Cultivation under
the Rain fed Tanks by the assistance of the
water that Remained out of the Supply received
in the previous year and partly to the Cultiva:
:tion in the Northern Talooks Streni[illegible]lly:
:portion and Shen[illegible]Kerninarcoil under the
indulgence granted by the Board in their
Proceedings of 18th April 1855 having been
harvested in the Fasly 1265 and brought to
the accounts of that year -

Peshanums 4 From the Commencement of the
period for Peshanum Cultivation or from
October

October to December 1855 the season having been very unfavorable and cultivation not having been made to the usual extent I brought the subject to the notice of the Board in my letters of 18th December 1855 and 4th February 1856 and under the indulgence granted by the Board in their letters of 24th December 1855 and 18th February 1856 and owing to the abundant fall of rain subsequent to the orders in question the Ryots made extensive cultivation, still the total Fasleanum cultivation of Fusly 1265 was 25080 acres below that of the previous year inclusive of the cultivation made under the orders above quoted as acres 55532 exclusive of it—

The remission granted during the year for drought and short produce were much greater than in the previous year—

Poonjab 5 The season for Poonjab was generally unfavorable and the Result was a decrease in cultivation of 1497 Acres inclusive of the cultivation made under the

the indulgence granted by the Board above quoted as 49897 Acres exclusive of it—

6 The general State of health of the District was good there having been only a few cases of Cholera and small pox and little or no mortality among Cattle—

Sanctioned Statements for the preceding Years in the Margin

Fort St. George 8th November 1856

From the foregoing Statements it will be seen that the Settled Rates for Cash and Peshcush during Fusly 1265 exceeded those of the preceding Year by Rupees 1-2-10 and 1-4-7 respectively which were owing to the Settled Prices of the Articles which generally the Current Prices of the Articles having been raised by Proclamation of the Government of Fort St. George dated 24th April 1856 and the Convergence of Calico and the Cowries as well as to the Export of Cotton to Europe and Bengal during the Years Fusly 1263-1264 and 1265

19750 Fort St. George 8th November 1856

8 No. 2

| | | |

Fort St. George 8th November 1856

The foregoing Statement No. 2 con=
=tains the particulars of Cultivation and be=
=riz under the different Items of Nunjah
Poonjah &c.a of which the totals alone are
given in the accompanying Statement D.
Enclosure to form No. 3.

9 From the above it will
be seen that under the Head of Colongoo
there was an increase in Cast Cul=
=tivation of acres 980 and a decrease
in Peshamum of acres 21835 giving a
Net decrease of 20855 acres yielding
a Maiwaram of 58721 Grain Cottahs
valued at Rupees 176175 according to
the Nerruck of the preceding year.
This would have appeared as decrease
in the accounts but the increase in Beriz
Consequent on the Rise of the price of
Fusly 1265 amounted to so much as Ru=
=pees 550118 and that effected by Lands
paying a higher rate of Maiwaram
being

| | | |

beriz of Poroyoo lands or lands paying a favorable assessment in money is the effect of the adverse state of the season—

12 It will be satisfactory to observe that the cultivation and beriz of the Tarums or settled Villages during the Fusly under Report were in excess of the previous year by acres 200 and Rupees 570-3-4 respectively which has been caused by the cultivation raised under the indulgent orders of the Board above alluded to—

13 So upon the aggregate the Nunjah beriz of the whole District exclusive of that in Amany Villages is Rupees 1,14,916-8-6 or Rupees 4,20,506-6-10 in excess of Fusly 1264 for Reasons already Stated—

14 Owing to the unfavorable nature of the Season the cultivation and beriz

Beriz of Poonjah in Fusly 1265 fell short of the previous year by acres 5788 and Rupees 3603-9-8 respectively— Notwithstanding the increase of 105 acres in Bagayet Cultivation the Beriz is less than that of the previous Fusly by Rupees 1228-8-5 which is owing to products paying a low assessment and which would not require the assistance of water for any long time having been cultivated to a greater extent in the Fusly under report.—

15 Including the tax on Poonjah and Bagayet the Total Land Revenue Beriz of Fusly 1265 is Rupees 24,17,180-12-4 or Rupees 4,15,674-4-9 in excess of the previous year.—

16— The particulars of the amount of deduction of Rupees 4,4,769-11-5 as well as of the net Beriz from Topes and Sundry Items entered in the foregoing Statement No 2 Para 8, are given in the Statements Nos 6 and 4 appended to Paras 21 and 17 of this Report.—

Off

17 Of the 18 Villages which comprised the Chockumputty Estate 12 were under Amany Management, and the remaining 6 were rented for one year in Fusly 1264, whereas during the Fusly under report, 5 out of the 6 rented Villages reverted to Amany, in consequence of the Ryots having refused to continue the rent, and one out of the 12 Amany Villages was rented to the Ryots at their request, and consequently the Number of Villages for Fusly 1265 was 16 under direct Management, and 2 under the Head of Rents for one year. From the foregoing Statement №3, it will be observed that the Beriz of the Villages for Fusly 1265, exclusive of the revenue from Sundry Items, is Rupees 6118-13-11 in excess of that of the previous year. Of this sum Rupees 4243-8-11 occurred in Villages, which were under direct management in both Fusles, and was the effect of the rise in

in Nerruck, but for which, there would certainly have been a decrease consequent on the falling off in cultivation. The remaining Sum of Rupees 1875-5-- occurred in the other Villages, which were not under the same class, in both Fuslies. The particulars of the Total amount credited in the above Statement №3 and in №2 under the Head of Sundry Sources of Revenue, are given in the following Statement №4.--

Statement

17 Of the 18 Villages which comprised the Chockumpatty Estate 12 were under Amany Management, and the remaining 6 were rented for one year in Fusly 1264, whereas during the Fusly under report, 5 out of the 6 rented Villages reverted to Amany, in consequence of the Ryots having refused to continue the rent, and one out of the 12 Amany Villages was rented to the Ryots at their request, and consequently the Number of Villages for Fusly 1265 was 16 under direct Management, and 2 under the Head of Rents for one year. From the foregoing Statement №3, it will be observed that the Beriz of the Villages for Fusly 1265, exclusive of the revenue from Sundry Items, is Rupees 6118-13-11 in excess of that of the previous year. Of this sum Rupees 4243-8-11 occurred in Villages, which were under direct Management in both Fuslies, and was the effect of the rise in

in Nerruck, but for which, there would certainly have been a decrease consequent on the falling off in cultivation. Fort St George 8th November 1856

18- The decrease in the revenue under Items Nos 1-5-8-12 and 13- amounting in all to Rupees 3,487-12-7 has occurred in consequence of the unfavorable character of the season- The increase in Items Nos 2 and 3 is owing to the additional number of Trees that came to bearing during the Fusly, while the excess under Item No 4 was caused by an increase in the extent of land brought to account under that Head- The amount credited in Fusly 1265 under Items No 10, is the duty collected on valuable timber Trees on the Hills cut by the Ryots after obtaining permission, while that credited under the same Item in the previous year consists of not only the collections of a similar nature, but also the amount of Hill rent realized in that year up to the receipt of the Board's Orders of 25th September 1854 directing the discon-tinuance of the rent, which is the chief cause of the decrease entered opposite to the

Fort St George 8th November

the said Item-

19 In Fusly 1264 the number of Villages that were rented for one year was 6, whereas during the year under report, there were only 2 Vil-lages under that Head as stated in Para 17, which is the cause of the decrease under Item No 11-

20 The following State-ment No 5 presents at one view the extent of cultivation and Beriz of Nunjah, Poonjah, and Baga-yet both in Cloongoo and Amany Villges for Fusly 1265, in contrast with the previous year- The Revenue from Sundry Items and the Total amount of deductions of all descriptions, are also exhibited in the Statement-

Deductions from Nunjah and Bayayet Lands.

Deductions from sundry Items of Revenue

Fort St George 8th November 1856

22 In proceeding to explain the cause of the fluctuations in the several Items of remissions entered in the above Statement N:6, I beg to observe that of the increase of remissions of Rupees 12,14,22-1-2 in Item N:1, Rupees 3,279-14-8 is the amount of Seerwah or Pottom, Poroshoo &c^a favorably assessed Lands, which suffered from drought remitted to the Ryots, under the orders of the Board contained in their letter of 18th February 1856, the Talookwar particulars of these remissions are given in the

Enclosure

Fort St. George 8th November 1856

Enclosure to the accompanying Statement N:5. The remainder or Rupees 1,18,142-2-6 is the amount of remissions granted for drought and short produce in other lands according to the Centage System. Most part of which were granted on Cultivation under rain fed Tanks and Minor rivers in the 3 Talooks noted in the Margin. The adverse state of the Season caused the increased remissions under this Head.—

Streevilly poot-toor, Nanganary and Valleyoor

23 A decrease in the Cultivation of Zabitah Cowle lands, owing to the unfavorableness of the Season caused the decrease of remissions under Item N:2.—

24 The Orders of the Board dated 16th April 1855 granted for the cultivation made in the latter part of Fusly 1264 referred only to Cultivation in 2 Talooks Shenkenmarkovil and Streevilly-poottoor, and the Order was received too late to allow the Ryots to Cultivate lands during the Season to any great extent, whereas during the Fusly under report, timely application was made, and the favorable Orders of the Board were received early in the Season, and the indulgence was not confined to any particular Talook, but to the whole District, and consequently the Cultivation made was very extensive and hence the

the increase in the remissions under Item c No 3 The particulars of the total sum entered under this Item or Rupees 2,13730 — 5 — 6 are shown in the Margin:

25 Owing to the bad state of the Season, and all the Ryots having been fully aware of the Orders of the Board dated 28th September 1854 Sanctioning the levy of half tierwah on Cultivation raised on high level Nunjah lands a large quantity of this description of land was taken up during Fusly 1265 which is the cause of the increase in the remissions under Item No 4 —

26 The particulars of the total amount of remissions granted under Item No 6 in Fusly 1265 is composed of the following three items and the increased remission shewn in the Statement under this Head is attributable to a large quantity of land having been left waste —

Remission granted in consideration of the unpropitious nature of the Season, on portions of waste lands, which lands were taken

Rs as p

taken up, but left waste through the adversity of the season, by the proprietors or others under Moochilkahs executed by them binding themselves to pay the tierwah — assessable thereon, whether the land be Cultivated or not in the view in the case of Proprietors, to prevent the intrusion into their lands of Strangers; and in that of others, to acquire free possession of lands, to the exclusion of the communal owners ——— 277 — — 4

Ditto — Ditto — Ditto on Ditto taken up, but left waste through the adversity of the Season, by their Proprietors under Moochilkahs executed by them agreeing to pay the assessment thereon on condition of their Tanks &c being repaired at the public expense — 13005 — 12 — "

Ditto — Ditto — Ditto on portions of waste lands included in Zabetah Cowles — 2090 — 11 — 4

Total 17813 — 10 — 8

27 The decrease under Item No 7 is owing to the extend of Cultivation raised — in the latter part of the previous Fusly 1264 under the indulgent Orders of the Board granted

Fort St. George 8th November 1856

granted for 2 out of 13 Talooks as mentioned in Para 24 of this report, and brought to the accounts of Fusly 1265, having been less than that brought to account in Fusly 1264 from the Cultivation of the previous year. made under similar indulgence granted in that year for all the Talooks in the District.

28 Ready money Enams in Item No 8 consist not only of fixed Enams but Enams granted on a per Centage of the Net Amount of Nunjah and Poonjah Beriz in some Villages, which necessarily varies every year with the Cultivation and prices. Out of the decrease of Rupees 711-3-11 under this Item, deducting the increase of Rupees 270 in Enams in Aumany Villages granted for one year transferred to Item No 19 in the Statement under the Head of deductions from Sundry Items of Revenue, the remainder Stands at Rupees 441-3-11, which is owing to the falling off in Cultivation in the Fusly under report.-

29 The increase under Item No 9 is the effect of the rise in prices. and that under Item No 10 is owing to the same cause, in as much as it includes also deductions from the beriz of Nunjah Lands while the decrease under Items Nos 11 to 13 is attributable to the falling off in Cultivation, consequent on the adverse State of the Season.-

The

Fort St. George 8th November 1856

30 The increase under Item No 14 is owing to extensive drought and short produce and to royaty allowed for Cultivation raised under Boards Orders.-

31 The exemption from tax of scattered trees and Palmirahs Standing on occupied lands and on the boundaries of fields &c., agreeably to Orders of Government contained in Para 7 of Extract from Minutes of Consultation dated 31st May 1855 annexed to Extract from Proceedings of the Board of Revenue dated 29th October following, is the Chief cause of the increase of remissions under Items Nos 16 and 17. The above exemption has been allowed only to Ryots who are the joint proprietors of the land and the trees Standing thereon.

32 The particular Items composing the Net beriz of Rupees 2134,141-13-7 Specified in Para 20 as well as the revenue from all other Items appertaining to Land, are shewn in the annexed Statement No 7 Compared with the revenue of the previous Fusly, from which it will be observed that the Net land Revenue of the Fusly under Report is Rupees 2304,076-14- or Rupees 5-3385-2-4. in excess of Fusly 1264.

19772. Fort St. George 8th November 1856

33 The decrease of Rupees 4034-9-4 in the amount of Land Revenue, Sewoy Summah, is owing chiefly to the non-credit under this Head, during Fusly 1265 of a portion of Monieums paid by deduction from Sist-bundy, as was the Case in Fusly 1264, in consequence of the Same having been paid from Syen. The increase of Rupees 792-6-9 in the Item of Interest account is owing to larger amount of arrears of Fusly 1264 having been collected during the year under report than in the year previous.—

Statement

Fort St. George 8th November 1856

Sewoy

34 From the above Statement No 8 it will be observed that upto 30th Ultimo there was a balance of Rupees 233539-3-9 remaining to be collected out of the Land Revenue being of the Fusly under report. Of this sum Rupees 29020-10-1

Under Cirkar management	Shevaghery 19076-2-3	are Peshcush Standing in the accounts against 4 Zemendaries in the proportions set down in the Margen. As regards the balance against Shevaghery and Sattoor now under Cirkar Management most part of the Sum against the former will be soon Collected by the Sale of paddy now on hand and the balance due by the Ryots are also under Course of Collection. The revenue Collected from the Sattoor Poliapat during Fusly 1265, being less than the amount of Peshcush the balance can only be made good
	Sattoor 8848-2-9	
In possession of the Proprietors	Aluga poory 76-14-6	
	Vadimuttah 1019-6-7	

good from the revenue of the Current Fusly For the Collection of the Small Amount due against the Allagapoory Poliapat Strict Orders have been sent to the Zemindar and the Sashildar of the Taluk. The Proprietor of the 4/5th portion of the Estate of Vadimuttah, who owes the sum of Rupees 1019-6-7, having reported his inability to pay the same in Consequence of a balance outstanding against the Ryots of his Villages, application has been made to the Board for permission to sell by Public Auction one of the Villages of the said Proprietor.

35 The impoverished circumstances of many of the Ryots Consequent on the adverse State of the Season is the Chief Cause of so large a balance as Rupees 204518-9-8 against Ayen Villages. It will not be out of place to mention here that even many of the Ryots who can very well afford to meet the demands against them with the greatest ease, do not pay their

their dues till they see that their property will be really sold. Strict Orders have been repeatedly sent to the Tahsildars to attach the property of defaulters, and of which an account will be transmitted to the Board for Sanction.—

36 The demand of Land and Extra Sources of Revenue for Fusly 1265 Compared with the previous year, is shewn in the annexed Statement No 9 from which it will be seen that the total Net Beriz of Fusly 1265 is Rupees 3076647-3-10 or Rupees 110380-14-3 in excess of the Previous Fusly being higher than that of any Fusly from 1242

37 The fluctuations in the several Items are explained as follows.—

The increase in the 3d Item is owing to the effective Competition kept up at the Sale of the Arrack and Toddy rents, while the falling off in

in the Beriz under the Head of Motunpha is owing partly to a less number of Cotton Godowns, Houses, and Looms having been brought to account during the Fusly under report, and partly to several persons subject to Poll Tax having gone to other Districts in consequence of the difficulty they experienced to maintain themselves in this District in such a season of Scarcity.

38 Enhanced Sales of Salt for Home consumption caused the increase in the Revenue under the 5th Item. A decrease in the imports of Tobacco from and Exports of Paddy to Colombo is the chief cause of the falling off in the Beriz under the Head of Sea Customs, and large exports of Paddy to Travancore caused for the most part the increase under the Item of Sayer Revenue. The increase in Stamp Revenue is attributable to a great demand for Paper of higher value during the Fusly under consideration.

41 The accompanying Statement No 7 shews the particulars of Cotton, Sugar cane, and Indigo cultivation made during Fasly 1265. the abstract of which is given in the margin. The unfavorable State of the season in the cause of the decrease in the cultivation under all the 3 Items, the increase in the Teerwah brought to account under the Item of Sugar Cane was caused by the increase in Nerunel.

42 From the headings given in the Statement form No 7 it would appear

appear that the cultivation of the three descriptions of produce referred to above in Zemindary Villages also should be exhibited, as well as that in Government & Villages, but as it has not been hitherto customary for the Zemindars to render an account of cultivation of any Sort in their Estates, and as there was not sufficient time to procure the information after the receipt of the new forms for Zemindary, the Statement in question has been confined to the cultivation of the abovementioned products made in the 3 descriptions of Villages viz: Government, Surva Enam, and Cutgoottah Villages.

43 The Season, though not favorable for the Cotton cultivation was propitious for the growing crops and the consequence has been, as is reported an increase in the yield. The quality of the article is also reported to have been of a better description than the produce of the preceding Fasly. The price paid by the European Merchants for the

the 1st Sort Cotton ranged from 55 to 59 Rupees per Candy, and for that of the 2d Sort 55 Rupees per Candy.

44 Notwithstanding an increase in the yield of the Cotton crops, there is a decrease in the Exports of this article during the past year of Candies 12494 as shewn in the margin This is owing chiefly to a great quantity of Cotton purchased by the Merchants during the year under report having been for some cause or other, reserved for future shipment, and not exported within the Fasly. The Exports since the close of the Fasly have been very large.

	Candies.

Decrease	12,494

45 In April last the Merchants at Tuticorin complained to me of the Cotton dealers bringing adulterated Cotton for sale. On the receipt of this letter, I issued Proclamations to all the Talooks to be

be published by beat of tom tom pointing out to the people the advantage they derived from a good market for their Cotton, if taken to Tuticorin well cleaned, and warning them that parties detected of having fraudulently sold or offered for sale as clean adulterated Cotton would be liable to punishment for fraud under the general Regulations. I have reason to believe that these Proclamations have had a good effect.

Particulars of the Balance

Amount being arrears of quit rent due by the Travancore Circar on certain lands belonging to the Courtallum Devestanum from Fusly 1218 to 1261 deducted agreeably to the orders of Government conveyed in para 2 of Extract from Minutes of Consultation dated 14th January 1853 prefixed to the Proceedings of the Board of Revenue of 27th February following, from the amount of

Rs a p

of Tuftee collections paid to that Circar, and held in deposit. The Travancore Circar having since admitted our Claim to the Sum in question, as stated in a letter to the Secretary to the Board of Revenue dated 26th February and the Board having in their letter of 13th March 1856 permitted its expenditure on works of general utility, Sanction is requested to write this Sum off the accounts in which it is and has usually been exhibited as a balance ——— 8,270-12-5

Amount of Tarwah on certain lands formerly in dispute between the Government and certain Zemindaries, but now decided on enquiry to belong to the latter ——— 445-14-7

Value of excess quantity of Grain erroneously added to the 7 years average Mailwaram of the Village of Arumanagamungalum in the Streevygoontum Talook

R a 8

Talok, and which excess has hitherto been remitted under sanction of Government _____ 203-12-"

Amount being one third portion of the full assessment on certain lands the payment of which is objected to by the Ryots on the ground that the crops on the land in question, which were likely to suffer from Drought for want of water in the Tank having been matured by water raised from wells by manual labor, and entitled to compensation according to the custom of the Village _____ 4-14-10

Amount being the difference between the Special tax charged on certain lands under wells on the plea that the wells were within the prohibited limit of Public works of Irrigation, and the Poonjah tax subsequently ordered to be levied on the lands after examination of the localities made on complaint of the parties _____ 108-1-"

Amount

R a 8

Amount being a moiety of the full teerwah charged on certain high level Nunjah lands brought under cultivation in fusly 1264 in consequence of the result of the examination of the localities not having been reported till the close of the Immanabundy. It is now recommended for remission the lands in question having since been reported to be situated on a high level and to have been cultivated by water raised by manual labor under the orders of the Board of Revenue dated 28th September 1854 _____ 189-14-5

Do of teerwah on certain lands cultivated upto 30th April 1855 and therefore included in the Immanabundy of fusly 1264, but the crops on which were ascertained after the settlement of the fusly. to have perished entirely _____ 67-13-9

10-1-7

+ 17-2-4

Total amount recommended for remission ——— 9474-7-9

+ As this balance on account of Sevoy Jummah arrears chiefly belongs to an old date so far back as Fusly 1257 and is the revenue brought to account after the Settlement of that year was over and therefore not included in the Puttahs of that year and is besides very trifling it is also recommended for remission as adopting coercive measures at this distance of time though perhaps strictly just would appear to be harsh.

The information as

49

to

to what extent coercive process was employed in Fusly 1265 in the realization of arrears of Revenue for the previous year is given in Enclosure A to the accompanying Statement No. 13, from which it will be perceived that property to the amount of Rupees 1507 was sold by auction during the year in under report and a sum of Rupees 725—3—4 has been since recovered by sales on account of the same year. No sales of property in satisfaction of Current balance took place in Fusly 1265.

50 The new forms of accounts not containing any heading for the entry of the receipts of Tripany and Chuttrum Fund usually Credited under the head of Deposits the amount realized on account of those 2 Items is not included in the beriz of the Fusly under report. it amounts to Rupees 16,632—9—10 as shewn in the Margin.

Tripany 13,502-9-10
Chuttrum 3,130-0-0
16,632-9-10

As

51 As required by para 5 of the printed Memo from Government dated the 23d August last, I beg to offer the following explanations regarding the large fluctuations exhibited in the accompanying Statement No. 14 of Profs Collections and Charges during the Fusly under report.

52 The increase of Rupees 3,85,341 in the Collections on account of arrears of Land Revenue is owing to the balance outstanding at the Close of Fusly 1264. having been much larger than that at the termination of the previous Fusly 1263, while the decrease of Rupees 1,32,560 inclusive of about 5,000 Rupees on account of Peshcush in the Collections on account of Current revenue is owing to want of punctual payment of kists by land holders the greater number of whom are parties who can well

afford

afford to meet the demand against them but pertinaciously refuse to do so knowing too well that there is no other remedy than the tedious process of attaching and then reporting to Madras their lands for sale and after all this additional trouble imposed on the public Servants the defaulters often pay their dues with a few annas in excess on account of Interest which they care for little Compared with the time gained by them for payment.—

53. The decrease of Rupees 4066 in the receipts under the Item of Land Revenue Extra Revenue inclusive of Rupees 31—2—3, being the Collections on account of arrears is owing to the reasons assigned in para 32 of this report.—

54— The increase of Rupees 792 under the head of Interest

account

account was occasioned by interest having been collected on the large amount of balance of both Land Revenue and Peshcush of Fusly 1264 realized in the following Fusly 1265, and on portions of Peshcush on account of Fusly 1265 paid after the expiration of the time fixed for payment.—

55. The offers received for the rent of Abkarry farm for Fusly 1265 having been more advantageous than those of the previous year is the Cause of the increase of Rupees 7682 shewn under that Head.—

56. The increase of Rupees 9602 in the Collections under the Head of Moturpha is chiefly attributable to a large portion of the arrears on account of Fusly 1264 having been realized

in

in Fusly 1265. This tax is peculiarly obnoxious to the people of Tinnevelly as it is not imposed on their neighbours in the Madura District.

Moturpha Extra Revenue

57 The amount of Palaputtady yeomiah held in deposit in consequence of the non appearance of certain incumbents having been on report of their Lapse credited to the head of Extra Revenue under the Item "Moturpha" is the cause of the increase there shewn of Rupees 1350.

58. The Collections under the following 4 Items Viz.t. Salt, Sea Customs, Sayer and Stamps being usually taken as the Demand the remarks offered in para 38 of this Report for the increase and decrease in the Demand on account of the several heads of Revenue in question equally apply to the fluctuations in

in the gross Collections of the different Items under notice.

59. The increase of Rupees 103 in the Item of Salt Extra Revenue is chiefly attributable to the amount of fines levied from some of the Servants in the Salt Department, and from certain Salt Ryots, in previous years, and held in deposit up to Fusly 1264, having been credited to this Head during Fusly 1265; whilst the decrease of Rupees 206 in the Collections on account of Extra Revenue under the Head of Sea Customs is the amount of Tonnage Duty collected during the Fusly under Report.

60 The decrease of Rupees 484 in the Item of Extra Revenue under the Head of Sayer is principally owing to the amount sale of Certain Contraband goods

goods credited in the accounts of the past Fusly 1265, having been comparatively much smaller than the same, being the similar sale proceeds, brought to account in the preceding Fusly 1264.

61 The net decrease of Rupees 6846 in the Item of Collectors salary &c. is chiefly owing to the new employment of one assistant throughout the year and of another during a great portion of the Fusly under Review.

62 The charge on account of the Item of Huzzoor and District Establishment exhibit a Decrease of Rupees 2081, which is solely attributable to the Head Sheristadar having in consequence of his late appointment to the Office, drawn his salary at the lowest scale of allowance throughout the whole period of the Fusly under notice.

63 The decrease of Rupees 1635 under the Item of Extra Revenue Charges not chargeable to any particular Sources of Revenue was caused by no charges on account of Extra Establishment

Establishment for assorting and regulating the Native records having been incurred in Fusly 1265 as was the case in the preceding Fusly and by the payment of the additional Sibbendy entertained as usual for the preparation of the Jummabundy accounts of Fusly 1265 not having been disbursed within the close of the Fusly.

64. The reason assigned for the decrease under the Item of Salary is equally applicable to the decrease of Rupees 627 in the disburses-ments on account of Tent allowances.

65. The decrease of Rupees 299 in the disbursements on account of Extra Charges under the head of Salt is chiefly owing to the amount of charges incurred in Fusly 1265 for covering Salt heaps with mud and Turf having

having been less than the disburse-
-ments on that account during the pre-
-vious year.

66 The decrease of Rupees
5862 in the disbursements on account
of Salt Manufacturers share is
owing to a larger quantity of Salt
having been manufactured in Fusly 1264
than the Fusly 1265 in order to have
on hand a sufficient stock for 2
years consumption agreeably to the orders
of the Board contained in their Circular
of 10th April 1854.

67 In March 1855 my
Predecessor Mr. Bird requested permis-
-sion to alter the charge of the
Sub Collector in this District
by taking from the Sub Division
the two northern Talooks Shenkerni
-nar covil and Streevilly poottoor and
assigning

assigning in exchange the two Southern
Talooks Nangvonary and Vullyoor.
The reason assigned by Mr. Bird
was that inconvenience was felt when
questions arose about the Poligar
estates in Shenkerninar Covil and
Streevelly poottoor Talooks inconse-
-quence of the Sub Collectors
Cutcherry and Records being separate
from those of the Collector.

68 In April 1855 the
Board sanctioned the proposed change
requiring however to know how the
change was found to work In his
Summabundy Report for Fusly 1264.
Mr. Bird stated that this will be
shewn in the next settlement Report I
beg to state that I consider the change
altogether inexpedient and I recommend
that the District be immediately restored
to its former shape.

69 The general charge of
all

all the Poligar Estates within this District being solely with the Collector the objection urged by Mr. Bird no longer excists when Mr. Elton was Sub Collector of this District Streevilly pottoor and Shenkerninar Covil formed part of the Sub Division and the Collector as now had charge of the Poliput Estates. Subsequently during the Sub Collectorate of Mr. Whittingham the charge of the Poligar Estates in the two Talooks above referred to were transferred to the Sub Collector and when Mr. Whittingham left the District this Circumstance was stated by Mr. Bird as the ground for altering the Sub Collector's Charge.

70 I must say that the grounds assigned appear to me

me insufficient but whether or not they now no longer excist, as the Collector himself has at present charge of all the Poligar Estates and I intend to retain charge of them. Streevilly pottoor and Shenkerninar Covil are the two Talooks in the District the most troublesome to be managed and which most require the occasional residence of one of the European Officers and the Sub Collector has more time to devote to this purpose and to the Current details than the Collector who is hampered with the general charge of the whole District. They are also inconveniently situated with respect to the Collector's Head quarters at Tinnevelly the Cusbah of Streevilly pottoor being 60 miles and the

the Cusbah of Shenkerninar Covil being 35 miles distant from Tinnevelly while the Cusbah towns of Nangoonary and Vullyoor transferred last year from the Principal Division are respectively 18 and 26 miles distant from Tinnevelly.

71 In every point of view I consider it desirable to restore the District to its former shape and I request the early sanction of the Board to do so, by restoring to the Sub Division the two Talooks of Shenkerninar Covil and Streevilly poottoor and taking back to the Principal Division the Talooks of Nangoonary and Vullyoor I consider the Head Assistants charge the best that could be assigned in this District. His head quarters are at Tutacorin in the Ottapedarum Talook with the revenue and Police charge of that

that Talook and of the adjoining Talook Punchamahl, together with Police charge of three other Talooks comprised in the Principal Division and the Salt Sayer and Sea Customs, and I propose no change in his charge.

72 I beg to forward the Report of the Acting Sub Collector Mr. Levinge in addition to the Sub Division has had charge of the Police of the two Talooks Shenkerninarcovil and Streevilly poottoor, which I have now recommended should be transferred to the Sub Division Such portion of his work as have come before me, have been well executed. Mr. Swinton

19810 Fort St. George 8th November 1856

Swinton the Head Assistant has just been transferred to Trichinopoly. I have found him very pains taking but he wants method in the transaction of his business. I trust the Government will soon be able to provide me with a second assistant to relieve me of details in my own Cutcherry, which is much needed for the satisfactory conduct of the business

19852 Fort St. George 8th November 1856.

No 20
No 94.

To
J. Silver Esqre
Collector of
Tinnevelly.

Sir

Para 1 I have the honor to report upon the Settlement for Fusly 1265 of the four Talooks of Shermmadavy, Brammadasum, Nangoonary and Vullegar forming the Sub Collector of Tinnevelly and to forward the accounts numbered from 1 to 9 prepared according to the forms received with the Memorandum from the Secretary to Government dated 23d August 1856.

No 1 Statement Shewing the places where the Jummabundy was settled.-

Name of the European Officer	Names of the Talooks.	No of Villages	Total Cost of Land Revenue & Mottah distributed	Stations where the Jummabundy was made.	Period of Expiration of the Settlement in each Talook.

	Vullegoor	74	5110	Tirookanangoody	4
		337	16207		

2. The carr season of Fusly 1265 was tolerably favorable in the Sub Division. The rivers which have their sources in the Hills received an average supply of water from the South west Mon= soon, and the carr (1st Crop) Cultivation was extended beyond that of the last Fusly except in the sherm= =madavy Taloofs where there was a decrease of 60 acres. The increase under the Poona= =colums) rainfed tanks) was owing to the surplus water which remained in the Tanks at the commencement of the present Fusly. The total increase in the carr (first Crop) cultivation Amounted to 2653 acres, but the want of water at the close of the season caused a drought and short produce to the extent of 971 acres.—

Fusly	Carr		Peshanam

Increase	2437	216	"	"
Decrease	"	"	6370	4238

During.

During the Peshanum (2d Crop) season the rains of the North east monsoon fell in the Months of October November and December, and were beneficial for the Agrapat (river fed) Cultivation in the Taloofs of Shermmadavy and Brenmadasum in which there was an increase in cultivation of 451 acres. This was not the case with the two Southern Taloofs of Nangoonary and Vullegum and the decrease in cultivation in these two Taloofs amounted to 6821 acres. The rains of the North east Monsoon which fell in the Sub Division during the present Fusly were not sufficient to fill the Poonacolum (rain fed) Tanks, and the "Peshanum" (2d Crop) Cultivation under them fell short of that of the preceding Fusly by 4238 acres. Notwithstanding the increase in the cultivation of the present Fusly under the Board's favorable orders of the 24th December 1855 amounting to 6567 acres, the net decrease in

in

1855 Fort St. George 8th November 1855.

in the Agapat "/rivered/ and "Ponacdum" /rain fed/ tanks cultivation of the "Pedhanium" /2nd Crop/ Season amounted to 1008 acres in the Fasly under report - 4912 acres also experienced a want of water, by a total absence of rain during the Months of January and February principally in the Nangoonary and Vellayoor Talooks, and remission was granted for drought and short produce - Sufficient rain fell in the Sub Division for the Poonjah "/dry/ cultivation - so with the cultivation made under the Board's orders above mentioned, there was a small increase of 2,821 acres. -

The decrease in the garden Cultivation was caused by the unfavorableness of the season. -

During the Fasly under review, no epidemic disease occurred within the Sub Division either among men or cattle so as to inflict any severe loss.

No 2

1855. Fort St. George 8th November 1855.

No 2 Statement shewing the Commutation and Current prices of Grain.

Fasly	Description of Grain	No of Pattahs	Commutation price Computed on Rupees	Market Current prices of Grain.

10 The revenue under the heads of "Tope" orchard and "Tandbund Palmira

Palmira trees has fallen off in consequence of the remission of tax made on trees standing in cultivated lands under the Board's order dated 29th October 1855. The decrease in the 3d item was caused by a falling off in the cultivation. The increase under the 4th and 6th items was owing respectively to an increase in the No. of thorn trees and to high bids for the tank fishery. The decrease in the last item has been caused by less demand for timber as well as by the abolition of the Hill rent.

The Estate remained in possession of China

Fort St. George 8th November 1856.

China Chinnarow till his death which took place on the 25th March 1854 Peda Chinnarows son and Venkata-narsinharow the son of China Chinnarow applied for the Registry of the Estate in their joint names on the 12th July last, and the registry was made on the date reported. Some family discussions which have now been arranged amicably prevented their making application on an earlier date. These details should have been given with my first letter, but it had not hitherto been usual to do more than report the fact of Registry.

B. D. No. 4473.
From the Collr. of South Arcot ... 29th October 1856

Sir,

In forwarding copy of a letter from Captain Priestley Superintendent Revenue Survey representing that he has not yet received any intimation as to the part of the country in which Survey operations are to be carried on next year, I have the honor to solicit that the orders of Government on the point alluded to may be obtained at as early a date as possible.—

South Arcot, Collector's Cutcherry, Cuddalore, 29th October 1856. } (Signed) A. Hall Collector.

No. 1.

To, A. Hall Esqre
Collector of South Arcot.

Sir,

Not having yet received any intimation of the part of the Country in which Survey operations are to be carried on next year, I have the honor to request that I may receive instructions on that head as the process of adjusting boundaries and marking out Villages is a tedious one and should strictly speaking have

have been commenced a month ago in order to guard against delay at the beginning of the year.

I may mention that the Talooks of arealore in Trichinopoly and Chellumbrum in South Arcot will be completed by the end of the year and the Survey of the Munnargoody Talook which is in progress will only employ a limited number of the Survey Establish during part of next year.

Survey Office,
Cuddalore, 29th October 1856. } (Signed) F. I. B. Priestley
Superintendent Reveiue Survey.

(True Copy)
(Signed) A. Hall
Collector.

(376-377)

Bd. No. 3719.

Resolution thereon.

Submitting a letter & Captain Priestley's application from the Collector of South arcot with the Boards opinion that the Survey of the dry Talooks of Trichinopoly should commence immediately after those of Chellumbrum and Manargoody as it will be advantageous that the assessment and survey should proceed as nearly together as possible.

In Cons 5th September 1856.

In their Minutes of Consultation of the 28th August 1855, No. 2995 the Government desired that when the Survey of the resumed Saghires of South Arcot might be completed Captain Priestley should survey the Talooks of Chellumbrum and Manargoody in the same district, but as the immediate commencement of operations in these localities

localities was precluded by the cultivation under the Coleroon irrigation then in progress they approved by Extract Minutes Consultation dated the 14th September 1855 No. 1048 of the intermediate Survey of one of the Dry Talooks in Trichinopoly

In Cons 19th Septr 55.

2. Captain Priestley now reports that the Talooks of arrealore which was seleted in Trichinopoly and Chellumbrum in South Arcot will be completed by the end of the year and that the Survey of the Munnargoody Talook which is in progress will only employ a limited number of the Survey Establishment during a part of next year.

3. Under these circumstances it is necessary that the locality for the next operations of the Survey Establishment should be determined immediately in order that the preliminary process of adjusting boundaries and marking out villages may be at once commenced.

localities was precluded by the cultivation under the Coleroon irrigation then in progress they approved by Extract Minutes Consultation dated the 14th September 1855 No. 1048 of the intermediate Survey of one of the Dry Talooks in Trichinopoly

2. Captain Priestley now reports that the Talooks of arealore which was selected in Trichinopoly and Chellumbrum in South Arcot will be completed by the end of the year and that the Survey of the Munnargoody Talook which is in progress will only employ a limited number of the Survey Establishment during a part of next year.

3. Under these circumstances it is necessary that the locality for the next operations of the Survey Establishment should be determined immediately in order that the preliminary process of adjusting boundaries and marking out villages may be at once commenced.

If

4. If other considerations were not opposed, the Board would select Rajahmundry as the district in which a Survey is now most urgently required to secure to Government a fair return for their larger expenditure on works of irrigation and settle the land Revenue under the new state of things before the question becomes complicated by delay.-

5. But it must be borne in mind that only in Rajahmundry so distant is that considerable loss of time might be occasioned by transporting thither the Survey Establishment at the end of the year but that one of the 4 dry Talooks of Trichinopoly which adjoins the present scene of the labours of this Department has been surveyed and three others remain. It is very desirable the Board are of opinion that the Survey and assessment should go on as nearly as

possible together that is to say, that the assessing officer should commence his work as soon as the measurement of the land is completed, and while the Surveying officer is still in the neighbourhood, as the former may be expected to derive considerable advantage from the experience gained by the latter, if not to far removed for communication Thus point will be gained in the course of the Survey of the dry Talooks of Trichinopoly if it is taken up as soon as that of Chellumbrum in South arcot is completed- as Mr. Bird is now employed in assessing arrealore and will be able to proceed with the same operation in the other Talooks as soon as they are measured- It it probable also that there will be less delay in adjusting boundaries in Trichinopoly than in any other district on account of the process having been already gone through in

in arrear alone.

6. With these observations they resolve to submit the question for the orders of Government and at the same time to suggest that it may be considered at an early period in what manner provision can be most conveniently made for the survey of the portions of Rajahmundry & Masulipatam which are influenced by the Godavery and Kistnah irrigation.

Order thereon. — Ordered to lie recorded.

No. 163.

To J. D. Sim Esqre
Secretary to the
Board of Revenue
Madras

380

Bd. No. 4561

From the Collr. of Vizagapatam — Sir,

I beg to acknowledge receipt of Extract from the Board's Proceedings of the 23d October 1856, giving cover to copy of a Resolution by Government under date the 18th idem and requiring my opinion on the policy of continuing compulsory labor in certain contingencies on the formation or repair of Public works and on the necessity of obtaining legal power to enforce the requisition.

I am not informed of the nature of the penalties it is proposed to enact against parties refusing to assist gratuitously on any sudden emergency in cases of Breaches of Tank, River or channel Banks but in my Judgment it is not expedient to enact any law upon the subject. In the course of my Revenue practice I have never seen an instance in which it was required to have recourse to compulsory labor.

2.

I.

19885 Fort St. George 8th November 1856

3 I believe that the people generally on the occasion of any great or sudden calamity will voluntarily turn out to do what is practicable both to save the revenue and to protect their own interests and I am of opinion that if aid in addition to the Local exertions of the inhabitants should be required in the emergency, he needed, that assistance should be paid for.

4. Reference is made to the practice in Zemindaries in the Board's Proceedings under reply: The Collectors in their Zemindaries should be allowed to have any workmen employed on the Zemindar's lands to compleat their attendance but no authority to compel them.

5. With these explanations I cognur under- stand this reference and am of opinion that the rates proposed to be embodied in the Draft Sanctioned Collectors Circular are unnecessary.

Office, 30th October 1856. — I have &c. (Signed) W. Oliver Collector

Sir,

I am directed by the Board of Revenue to request that you will report on the present state of the Public Bungalow at Pamben the amount required to place it in proper repairs the number of bona fide Travellers which have frequented it

it from the 1st January last and your opinion whether it or any other Public Bungalow should be maintained in that Island.

2. It is believed that the present Bungalow was once a private dwelling and from its size and construction involves more expenses in repairs than such Buildings in General. To enable the Board to form a judgement on this point you will be pleased to furnish a statement of the expenditure on repairs since it came into the possession of Government referring at the same time to the correspondence which passed when it was purchased.

3. You will be pleased to furnish a ground Plan.
