Petitions No. 869 of 1854 and 1683 of 1855 enclosed.

Sir,

In reply to an Extract from the Commissioners' Proceedings dated the 7th August 1855. I have the honor to report that a formal enquiry was made into the reasons which led to the dispossession of a Veerainah a Ryot of Erraveram in Surva siddy Tanah for his Jeroyaty lands - It appears that this Person was continually a defaulter

that

Fort St. George 19th November 1856.

That at the time of the Settlement he was accustomed to abscond with his Cattle and used to instigate other Ryots to withhold payment of their Rists on frivolous pretexts. For these reasons Mr. Fane, late Principal Assistant Collector thought it necessary for the quiet of the Village to lease out from Fusly 1262 the Government lands held by Veeranah to another and substantial Ryot. This person has been found punctual to his engagements and has been ever since in possession. I cannot recommend that Veeranah who is a litigious character should now be replaced in the lands.

Enclosure No. 1.

Translation of a Plaint filed in O.S. No. 23 1856 on the file of the subordinate Court of Salem by Chinnacaroppa gownden &c resident of Alumbutty attached to the Village of Haroor in the Namkal Talook &c and a Cultivator by profession against &c H. A. Brett Esqr. Collector of Salem (1) Caroppa gownden son of Coottie gownden a resident of Alumbutty Village (2) and Adaca gownden (3).

The Plaintiff sues to recover from the 2d & 3d Defendants 1/8 Vullum of a pasture land originally a Poonjah field called "Palainarum" yielding an annual produce of 2 Rupees; and paying a rent of 7 annas to the Government, and to compel the 1st Defendant to cancel a puttah issued in the names of the 2d & 3d Defendants for the above land.

2. The land referred to belongs to the Village of Alumbutty, and is situated South of the

Plaintiffs

Fort St. George 19th November 1856.

Plaintiffs field called Palamarattee poonjah &c East of a field called Pallapoonjee north of the road leading to Villaputty and west of a pasture land belonging to Caroppai gownden and Coottee gownden - This land has been &c occupied by the plaintiff and his ancestors for the last 50 or 60 years and &c it forms a portion of the field called &c "Palapoonjee" - When a Andapoornum was &c Mootah Village the Mootahdar Teroomalareddy fraudulently gave the land to the 2d & 3d Defendants about 4 years ago on puttah, on a pretext that the land belonged to the neighbouring Village of Andapoornum. Though the &c land was given to the 2d & 3d Defendants it was not in their occupation for any length of time and the Plaintiff immediately after he learnt that the land had been made &c over to the 2d & 3d Defendants by the &c Mootahdar presented a complaint to the Sub Collector under date the 30th April 1854, in which he stated that the land was attached to the Village of Aroor, and prayed that &c it

it might be made over to him and a puttah issued for it in his name-

3- The Sub Collector having directed the Tahsildar to inspect the land the Tah:=sildar inspected it accordingly and reported in an Urzee No. 162 that the land was attached to the Village of Aroor and that it was then in the Plaintiffs occupation on the receipt of this report an order was given by the Sub Collector under date the 4th January 1855 as that a puttah would be issued in the Plaintiffs name for the land at the Settlement for Fusly 1264 but contrary to the Sub Collectors order the first Defendant (Collector) who settled the Ta:=look for Fusly 1264 issued a Puttah for the land under litigation on the 2d and 3d Defendants names, and in consequence the 2d and 3d Defendants have since been enjoying the land-

4- As it was illegal on the part of the Collector to overlook the claim of the Plaintiff the holder of the land and to give a puttah to the above mentioned individuals the Plaintiff prays that the Court will [illegible] decision

Enco: No. 2.

Draft of an

Answer proposed to be filed in O. S. No. 23 of 1856 on the file of the subordinate Court of Salem by H. A. Brett Esqr. Collector of Salem and 1st Defendant in the above suit-

1- The Plaintiff Chinnacaroppa gounden sues to recover from the 2d and 3d Defendants Poonjah land, measuring acres 1-3-- and charged with a pasture tax of 7 annas, and to compel the first Defendant to cancel a puttah issued to the 2d and 3d Defendants at the Settlement of 1264 for the above land-

2- The 1st Defendant answers:-

1st that it is not in the power of any Court of Judicature to interfere with the Registry of lands-

2dly that it was right and in accordance with the usual practice to issue the puttah to the 2d and 3d Defendants-

3- The Plaintiff states that the land re:=ferred to belongs to the Village of Alumpully in the Haroor Mootah, and forms a portion of his =field called Pala Poonjah; that 4 years before the Andapoorum Agraharum in the Muttoopul:=ty Mootah was attached the Moottadar fraudulently

on a pretext that it belonged to the Village of Andapoorum-

4- The Agraharum of Andapoorum was resumed in fusly 1262. after the Settlement for fusly 1263 the Plaintiff complained to the Sub Collector that the Carkoon who surveyed the Village of Andapoorum had erroneously included in a field called for Ammer Caraya Poonjah 1/8 Vullum of a field belonging to the Plaintiff called Voolcaramboo Poonjah (attached to Pala poonjah No. 495) in the Village and that for this piece of land a puttah had been improperly given to the 2d. and 3d. Defendants at the Settlement for fusly 1263-

5- The Tahsildar was directed to measure the two lands referred to by the Plaintiff as It appeared from his report that the field called Ammencaray Poonjah, attached to the resumed Village of Andapoorum, contained 24/64ths of a Vullum in excess of the Survey measurement and that the land named as Ool Caramb

Ool Caramboo corresponded with the Survey measurement-

6- It further appeared that the land named Oolcaramboo was entered in the Hurroor Mootah accounts, in the time of the Mootadar, as containing 31/64 Vullums, and that the Plaintiff had held a puttah from the Mootadar for this extent, but it was also found, on referring to the Settlement accounts of 1244, that in that year 25/64th Vullum was deducted from the Plaintiffs Puttah, on the ground that the field in question (Viz. Oolcaramboo Poonjah) contained no more than 6/64th Vullums-

7- It was therefore clear that the excess now claimed was not included in the Plaintiffs' Puttah from fusly 1244, and in consequence the 1st. Defendant refused to include it in the Plaintiffs puttah at the Settlement for 1264- The Puttah given to him for fusly 1264 was the same as he had held

20301.

Fort St. George 19th November 1856.

held from 1244. The disputed land was co
included in the Puttah given to the 2d. and 3d.
Defendants, 1st. because they had held a co
puttah for it in the Mootta holders' time and
2ndly because the same had been continued to
them in 1262 when the Andaspooram Village
was resumed.—

8. On the foregoing grounds the 1st.
Defendant prays that the suit, so far as he
is concerned, may be dismissed with costs.

Sir,

In Consg Nov. 4th 1856
O.S. 23 of 1856 in Sub Court

I am directed by the Board of Revenue to submit for the orders of the Right Honorable the Governor in Council the accompanying letter from the Collector of Salem dated 30th October 1856 forwarding copy of a plaint filed against himself and others, with draft of an answer, and requesting authority to defend the suit at the Public cost.—

2. The Plaintiff sues to recover 8 Vullum of pasture land paying a rent of 7 annas per annum, which he alleges is his ancestral property, but which has been improperly given by the Collector on puttah to the 2d. and 3d. Defendants.—

3. In his answer the Collector enters into a detailed explanation of his proceedings in order to show that Plaintiff has no claim to the land in dispute, that the 2d. and 3d. defendants had a right to hold it on puttah, and that consequently it was made over to them.—

To The Secretary to the
Board of Revenue

Sir,

I beg to bring to your notice for the information of Government that on my arrival at the Travellers Bungalow at this place, I found that it had been converted into a private dwelling house - An Engineer Officer and his family occupied one half and two Overseers of his department the other half. the former had been in occupation from twenty days to two months (I cannot ascertain the exact period from any one attached to the Bungalow) and the latter from eight to ten days. Immediately in front of the Bungalow are pitched three tents. The fact of occupation is not mentioned in the paper bearing the Collectors seal which is presented to Travellers for the insertion of their Rank, name date of arrival &c. The paper presented to me was blank this

From the Collector of Trichinopoly

Sir,

I do myself the honor to transmit the prescribed Advertisement for the sale of certain lands of this District the property of Ryots in the Talook of Tarroor who have failed to satisfy the demand for arrears of Revenue due on account of Fusly 1265 And I solicit your Boards sanction for the sale taking place.

The arrear for the Fusly amounting in the aggregate to Rupees 6—6 is justly due by these proprietors who have shown no intention or inclination to make good the Government demand. Notwithstanding the having the service upon them of the legal notice I have therefore no other alternative than to let the law take its course.

of land in the bed of the Tank was under Cultivation. This land was a Nunjah Garden, and was cultivated by means of a small supply of water which the Tank occasionally held and partly by means of a private well. Now that the Tank has been restored, the land being within the usual water level, is liable to be submerged as often as the Tank is filled. It is therefore no longer either available or fit for Cultivation.

3 The garden contained some areca nut trees and fruit trees and had only lately began to yield a returns to the owner. The Compensation, which the owner has consented to receive, was determined by some respectable Natives appointed for the purpose, with reference to the annual value of the produce.

Resolved that the foregoing letter be submitted for the information of the Right Honorable the Governor in Council with reference to Extract Minutes Consultation dated 26th June 1856. R. D. No. 650.

Read 1st July 1856

The Government will observe that the land submerged by the Kunnamasamoodrum Tank for which a compensation of 30 Rupees was recommended to be paid in the Board's Proceedings of 20th June 1856 has been rendered permanently unfit for cultivation.

3 The loss sustained by the ryot consisted of a garden containing some areca nut and fruit

trees.

trees which had lately begun to yield and the compensation was determined by some respectable Natives appointed for the purpose with reference to the annual value of the produce but irrespective of the value of a small well.

4 Under this explanation the Board request that sanction may be granted for the disbursement of 30 Rupees to the holder of the land in question.

or

is invalid as against Government but the Enamdar would certainly be admitted to have a preferential right over all others on paying the full assessment of the land, and Section XVII Regulation I of 1820 would come into operation.

The Board presume that the entries in Column 7 are merely the fines imposed in addition to the refund of the sums misappropriated that they in fact represent half the amount to be realised from the defendants.

A Sum of Rupees 26 8 11 was collected in February last at the Barcowah and Poondy Sea Ports on the Exportation of certain articles to Moulmein, which being contrary to the provisions of Act XXX of 1854 I have the honor to request that you will have the goodness to obtain the sanction of Government for its refund.—

I regret to have to state that this Sum was not included in the Statement submitted for sanction on the 7th June last by very culpable negligence as it was brought to my notice and orders were issued by me not to carry it to account, in spite of which it was overlooked, could I fix the blame on more than one party I would not hesitate to make them pay up the amount but

but the then acting Head Sheristadar was absent at the time and the Head Goomastah desires having seen the account before it was sent to the Current Department, I have therefore, as it appears too large a Sum to levy from him and he brought it to notice in the first instance though he did not enter it in the accounts, fined the Sea Custom Goomastah who prepared the account and hope under the new Sheristadar such omissions will not again occur.—

2 Mr. Fletcher the Tutor of the Minor is prepared to accompany them

them and considers that the novelty of Travel and the sight of the Pair, the Sea, and the Exhibition will have a beneficial effect on the minds of the young Zemmindars. I agree with Mr. Fletcher in this opinion.—

3 Mr. Fletcher considers that the whole trip will cost about two thousand five hundered Rupees. and that the ayacoody Zemmindar should pay one fourth of the money.—

4 I am of opinion that this Sum will not be sufficient. I should rather put it at five thousand Rupees, which I consider will be well laid out in shewing the heirs to two five properties that there are other worlds besides the limits of their Estates.—

5 No positive Sum can be named but I think Mr. Fletcher will do the trip as economically as he can. I agree with Mr. Fletcher in his opinion that one fourth of the expence should be paid by the Ayacoody Minor the visit to extend over ten weeks including going and returning.

Replying to Boards Circular of the 7th July last on the Subject of the admission of Machinery duty free

Sir

I have the honor to acknowledge the receipt of the Circular letter from your office of the 7th July last forwarding a copy of the Minutes of Consultation of the 19th of the previous month on the Subject of the admission of imported Machinery duty free.—

A

2 A Statement is submitted shewing the Machinery imported by Sea during the past official year, the duty on which was foregone, No Serious difficulty has hitherto been felt in determining the articles to which the exemption from duty is fairly applicable. A demand was not long ago made that Iron Pipes, Iron and Brass wire, Files &c. should be admitted, but the exemption obviously was not intended to extend to such articles not forming component parts

of

20389

Fort St. George 21st November 1856

of one or more complete machines. On the same grounds duty was levied on a fly wheel imported singly. A Statement shewing the value of these Articles and the amount of duty levied is also submitted.

B

3 I am of opinion that every encouragement should be given to the imports of Machinery, and that the exemption from duty which now obtains should continue. The readiness with which imported machinery is adopted as a model in this District has been noticed by the Board in their observations on the Exhibitions for 1856.

4 I begged the Gentleman who has done most towards importing Machinery to favor me with his views on the subject, he has not replied to my communication but I can have no doubt that his opinion is in favor of a continuance of the exemption, and that he thinks benefit has & will continue to be derived from it.

From the Officiating Agent to the Governor at Kurnool.—

Sir,

I have the honor to report that a Jemadar of the Kurnool Irregular Horse accompanied by a party of picked Shikarees succeeded on the 11th September 1850 in surprising the Man-eating Tiger as it was carrying off the body of a Man (Pattra Chinna Adeegadoo) just killed. The brute dropped the body and faced the hunters, who gallantly stood their ground, level-led their Matchlocks and brought it down.— One Shikaree imprudently got too near the apparently dead tiger and died since of the wounds received from his claws before a last shot could finish it.— According to the Sanction of the Board dated 1st August 1850 No. 2429 Rs. I have disbursed the sum of 250—0—0 partly in bangles engraved with the name of the receiver and the occasion of the gift and partly

=tioned as batta had been expended the
Villagers requested they might give food
to the Shikarees until this terrible
beast was destroed to which I ac-
ceeded. -

2. The hair and teeth of a girl
Killed the day previously were found
undigested in the stomach. -

3. No one has been carried off
since the 11th. September 1856. I conclude
thereby that there was only one Man-
eater and have heard that the people
of that part of the District are resuming their
pursuits and cultivation. -

regarding the destruction of a Royal Tiger. -

2. The Officiating Agent having report-
=ed that a Tiger had taken up its abode
in the Jungles of certain Villages in the
Chagulmurry Talook of his District and
during the preceding 2 years had carried off
about 60 people Killing 4 Men within
the fortnight preceding his report, the
Pro: dated 1st. August 1856. Board without delay placed at the
disposal of that Officer a Sum of Rupees
50 to be expended as Batta for the
Shekarries employed to watch the
animal's movements, and authorized him
at the same time to offer a Reward of
250 Rupees for it destruction. -

3. Captain Rufsell now reports
that a Jemedar of the Kurnool Irregular
Horse and a party of picked Shekarries
destroyed the Tiger while in the act of
carrying off the body of a man it had
just Killed, and that one of the Shekar-
=ries, who imprudently approached

the

the Tiger before it had expired but since died from the effects of Wounds received from the Animal.

4. Under circumstances stated in Captain Ruffell's reports the Board request that their proceedings authorizing the payment of Batta and the Reward may receive the approval of Government. A portion of the Reward has been laid out in the purchase of Bangles presented to the Jemidar with a suitable inscription and the remainder has been disbursed in money. The whole of the sum allowed for Batta has been expended and the Officiating Agent will be requested to report whether the Amount has been deducted from the Reward in order that the exact expenditure may be ascertained. The Board infer from the Officiating Agent's letter that this sum has not been deducted, and if this surmise proves correct, they do not propose ordering its recovery.

5. Since the destruction of this Tiger the Officiating Agent states that no person has been Killed, and that the people are resuming their ordinary occupations.

of pay. I do not look on it as on the whole either better or worse than the same is generally throughout the Presidency but on several occasions of late years there have been instances which have demonstrated its inutility in repelling force by force.

3. I do not advocate the substitution of peons for Sepoys as Treasury Guards at Ellore Ragapore Nundigam and Juggiapettah as the inexpediency of the former has been proved in the case of Nundegam and the three last named stations are more than open to the attack of robbers but it would suffice if a Small Guad of the late Veteran Battalian were posted at each place save at Juggiapetta where I would advocate the stationing a Jamadar Guard of the same force.

4. At Ellore even this might be avoided by employing for a treasury Guard a few more active among the numerous pensioners there paying them the same Batta as they draw when in charge of Public Bungalows

Sir,

I feel much hesitation in replying to your Circular No. 2007 dated 12th August 1856 as a measure similar to that therein proposed.

Fort St. George, 22d. November 1858.

proposed was understood to have encouraged the evil disposed to rise in 1846 in the Cuddapah District a disturbance which but for a rapid movement checking its growth might have had the most serious consequences. It was deemed prudent after this to send again a whole Regiment to Kurnool.-

2. The majority of the population of Kurnool itself and a considerable portion of that of the whole of the District although Mahomedan I must say I have confidence in their good behaviour the principal families having relations in the Irregular horse the poorer in the police but the mass and the people in the province of Kurnool and neighbouring Districts is of the "Bedur" Caste, the word meaning "without fear" These were the warriors of old dynasties, who were perpetually at war with each other. They have hardly given up their best

for plunder and taken but with an ill grace and in only some instances to the more peaceable occupation offered to them under our rule of husbandry they are generally speaking the Dacoits they are debauched idle race addicted to cock fighting drinking and bullying and I have had many opportunities to notice that no dependence can be placed on their conduct, though a despicable foe to any even half disciplined troops. Their numbers are great and much irreparable mischief might be committed by their lawless bands in a very few days before they could be punished.-

3. Again we have a race of men called Chenchowars who inhabit the Nulla Mulla Hills, resembling I should think the Soathals in habits and disposition, of late the mildness of our legislation in dealing with their offences has emboldened them in their forays in the low lands;

Fort St. George, 22d. November 1856.

lands; Their numbers are not great but their power to defy authority and devastate all within the outskirts of their dense jungles is so-

4. Lastly we have on the other side of the Toomboodra or Kistna Rivers an extensive country under Moghul misrule overrun with predatory bands of Arabs and Rohillas who might at any time, should there be an opening cross over, plunder and disappear. Two years ago they plundered the Pagoda at Purvut, killed those who opposed them and recrossed with impunity.

5. From Bangalore to Hyderabad a distance of 360 odd miles there is only a small detachment at Gootty and a very few Irregulars at Kurnool, besides the 44th Regiment. To the west Bellary is 100 miles with several unbridged rivers and to the East Cumbum is the only Military Post as far as the Sea.

As

Fort St. George, 22d. November 1856.

6. As long as a Regiment of Infantry is stationed in Kurnool with some Kurnool Irregular horse remaining at Head Quarters, there cannot be the slightest grounds for anxiety, and even should the newly acquired Province of the Doab be in want of troops at any time such assistance might be given them from Kurnool.

7. I do not think it would be safe to denude this frontier Station of troops however should the Sowars serving in Bellary and Cuddapah be recalled to Head Quarters, 2 Companys of Infantry might suffice for its protection. But if Government have determined to concentrate the troops with drawing all Detachments and discontinuing all Stations of single Regiments, I beg then to suggest that an increase of the Kurnool Horse should be sanctioned to enable them to perform the duties of the Regiment now here, and a greater increase, should Government intend

continuing to supply 100 Sowars to the Bellary and Cuddapah Districts to be relieved periodically, a suitable increase might even enable me to undertake to supply a guard to Cumbum, Gootty, and Adonie.

2 What I would propose is that he should sell the Buggy and harness he now has which may be worth Rupees 150 replace it by a bandy and Bullocks and be permitted to purchase in addition a Pegue Poney for riding.

3 The bandy should be of a better description than the Guardian suggests and I think with the Pegue poney might be sent for from Madras.

4 For the latter an English Saddle would be required.

5 As regards cost there is a balance in the Treasury in the Minrs favor of Rupees 3,382—11—9 Rs increased at the rate of 10 per Cent on the Peishcush allowed him by the Court of Wards is Rupees 2876—8 out of this sum his expenses hitherto been about Rupees 2279 by a late order of the Court of Wards granting authority for the disbursement of Rupees 197—8 annually for the ceremonies incurred in the Deepavalee and other feasts they will

will be increased to Rupees 2470—8 leaving a yearly balance of income over expenditure of Rupees 399—11—2.

6 If my proposition be entertained this balance will be further reduced to Rupees 150. or the cost of maintaining the bullocks calculated at Rupees 12½ per Mensem but I think even then it will be sufficient for any contingent expences that may arise.

7 The keep of the poney is already provided for by the sum now allowed for that of the Buggy and horse which will no longer be required.

Submitting the report called for in Extract from Minutes of Consultation under date the 18th Ultimo subjoined to Board Proceedings dated 22d Idem as to the custom in respect to cases in which it will be still necessary to compel labor.

} Sir,

With reference to Extract from Minutes of Consultation under date the 18th Ultimo subjoined to Proceedings of the Board of Revenue dated the 22d Idem calling for Report as to the custom in respect to cases in which it will be still necessary to compel labor viz. that of operations in connection with irrigation and cultivation which are performed by Village communities and on which it is necessary that all should unite & and second that of Sudden emergency such as breaches of Tank, rivers & banks of Channel banks with my opinion on the question of the necessity of obtaining legal authority to enforce the requisition for labor in both cases I have the honor to state that as regards the first case the custom observed by the village communities in this District has been all along to compel laborers when the

labouring

Fort St George 22 November 1836.

labouring class viz. Pullers and Pariahs refused to attend by sending the Canilgars of the Village with special orders to exercise compulsion in bringing them to work.

2 The will know instances in which such customs has long been and is still observed by the communities of a Village or a set of Villages is such as removing accumulations of sand and diverting the river water into the channel supplying the Tanks when the rivers water does not of itself flow into the channel and clearing out supplying and irrigating channels. The latter description of repairs are generally attended to only by the respective village communities concerned.

3 Of late works of this kind are not performed with the customary facility in consequence of a general opinion among the labouring classes that forced labour has entirely been put an end to, and they can refuse with impunity.

4 In respect to the second of the two cases viz. that of sudden emergency

Fort St George 22 November 1836.

emergency such as breaches of Tank river or channel banks, it has been customary for the Moorasidars &c. of the Villages to call authoratively on Pullers and Pariahs who consist partly of their own Servants and partly of independent Labourers, as well as on other labouring classes to lend their immediate labor in forming a temporary embankment in front of breaches leaving the permanent and efficient closing up of them to be done upon Estimates that might be framed by Public Servants afterwards.

5 Since the year 1853 on which compulsory labor was dispensed with entirely put an end to, the front embankments above referred to which were being formed immediately after the occurrence of sudden breaches to prevent wastage of water have in some instances been neglected till the Public authorities did the needful owing to the refusal on the part of labourers to attend to the call made on them.

6 I am of opinion that the village communities should be allowed to continue to perform what they have hitherto been accustomed to do in both the cases under consideration

conservation by collecting work people at so many per seer Coltah as usual and at the same time that provision should be made in the proposed act prescribing penalties not exceeding a fine of one Rupee each, for proved refusal on the part of the labourers (composed of Pullers and Pariahs and other caste people as known to earn their livelihood by labour) to conform to a legal call made on them.

7 Such as the land owners may refuse to furnish labourers should I think be rendered liable to punishment for though it is the land owners interest to have the repairs done yet there may be some who are obstinate through want of forethought.

8 Adverting to Para 2 of the Board's Proceedings under reply I have the honor to state that the Custom observed in Zemindaries in this Dist in regard to emergent operations connected with irrigation and breaches of Tanks &c is reported to be similar to that obtaining in Government Villages.—

Reporting the rates at which grain is sold in this district and submitting a statement of the villages at which a weekly market is held and those in which one should be held with reference to Boards circular dated 21st November 1855.

No. 120

To J. D. Sim Esqre.
Acting Secretary to the
Board of Revenue
Fort St. George.

Sir,

Para 1. I have the honor to acknowledge the receipt of your circular letter No. 3089 under date the 21st November 1855 and in reply beg to state, that I do not feel satisfied that the returns are free from the objections enumerated in Para 6 of the Extract from Minutes of Consultation dated the 15th June 1855 No. 702. I shall endeavour to explain the method the returns are prepared for transmission to the Board.

2 Throughout the district of Cuddapah the measure in use are the same as the Standard measures forwarded from Madras in 1846. The merchants were then prohibited from selling by any other Standard and by doing so they render themselves liable to punishment by the Magistrate the charge coming under the head "false weights and measures" whether

750 in another 800 a third 440 these being measured by the same Standard measure received from Madras can easily be converted into merKals and Garce. These pootties are the old measures and on the introduction of the new Standard the number of measures were calculated so as to make up an equal quantity of grain with the old pootty this might be obviated by Government issuing an order that each pootty of grain should contain 800 Standard measures or one fourth of a Garce.

With regard to the method
4 of obtaining prices or the price list the following is the system pursued. The Thasildars upon a given day of each month receive from the merchants in the principal towns of their respective talooks a Statement showing the prices of the different Kinds of grain ghee &c disposed of and on this date the price at which it is proposed the different articles of food are to be disposed of is settled. This is however nominal varying according to the State of the market. The Tahsildar having received

whether the measures are smaller or larger than the prescribed Standard, I may here add that universally throughout the district the measures are heaped instead of being struck. Should the Board order the discontinuance of this practice I fear it will at first create some considerable discontent as it will be made a pretext by the grain merchants for depriving the poorer classes of a portion of the grain they have been accustomed to receive for their money without producing the price which they certainly ought to be in proportion to the quantity of grain between the measure heaped and struck. this will however finally find its level.

3 The Madras merKals and garce are in General unKnown in the district the simple measure and its divisions ¼ and ½ according to the Government Standard are in use, so many measures being equal to a pooty. These pootties do not consist of the same number of measures, some being larger some smaller in various localities in order to

7ds

received this forwards it to the Collectors Cutcherry when the lists for the Board are prepared and forwarded in the prescribed form after the monies have been received and the average struck. These lists do not show the whole sale price at which the merchants purchased the different species of grain from the grower, to obtain true information will be no easy task. It is not uncommon when a cultivator borrows money from a zemindary or some particular part such as a marriage in the family the lender not only charges interest on the money but insists upon the borrower paying back the principal in grain at a much lower rate than he would obtain by selling it. were he a free agent and not burdened with debt the whole sale rate at which this grain is sold cannot be ascertained. In the price lists forwarded by the Sabordinate it is generally stated what the prices as sold by the whole sale grain merchants are, as well as the retail

prices the latter is generally from two to three rupees greater than the former it thus appears that the whole sale prices therein mentioned cannot be relied upon but how to remedy this I am at a loss to know. Besides the grain merchants there are many wealthy cultivators who store the grain produced on their fields for several years these dispose of portions of it to other cultivators receiving grain as interest instead of money the principal to be paid back at harvest in grain with an addition for interest. The value of the grain thus disposed of can in no way be ascertained as it does not enter into any market. In such transactions there is no merick and it is to be lamented that any exists or is permitted as it prevents individuals from having a free traffic in grain. The grain merchants are chiefly of one caste and combine to keep up the prices for their own advantage and should one or more break through the Established merick and sell cheap they are subject to annoyance in various ways until they

they agree to raise their prices and sell according to the established rate.

5 In making the calculation I think it not improbable that errors may creep into the calculations in preparing average prices of grain as mentioned in the last part of para 6 of the minute of Consultation under date the 11th June 1853. In para 3 the Board request to be furnished with a list of towns in each taluck which may be selected for obtaining a fair average of the price of the different species of grain throughout the district, accompanying is a Statement of the villages proposed in some of which there is a Sunda a weekly market: at this larger no large quantities of grain is brought for sale or sold at one time, the cultivators who have produce bring it and the poorer classes endeavour to lay in their weekly supplies as they can: then purchase it cheaper than from the retail merchants. The sales at these weekly markets being

Chiefly

Chiefly the growers of the produce who dispose of it at what price they please without a merick.

6 The accompanying list of villages is divided into three heads the one showing the number of villages in which there is a weekly market, the second where one might be with advantage established and the third where grain in wholesale is disposed of.

7 The following list shows the different Kinds of grain referred to in Para 5 together with the centage of land in cultivation with each.

On

Fort St George 22d November 1856

On the completion of the harvest the grain being stored and the whole-sale dealers having had in their store and completed their arrangement it will not be difficult to obtain from them the whole sale price of the different Kinds of grain at which they disposed of it. The fluctuation in prices during the month will be inconsiderable as the retail dealers purchase a large quantity at one time in fact as much as they can conveniently dispose of and the whole sale price will not be so liable to fluctuate as the retail. The retail prices will be less easily obtained accurately as it is more liable to change for instance after a drought heavy rain will cause a fall in price and recurrence the absence of showers when expected will cause a rise as cultivators wishing to dispose of their grain speedily and throwing it into the market will cause a fall in these variations will be more frequent in the retail than the whole sale rates. To have the whole sale prices from the merchants I think would be more trustworthy and better to be relied upon than the retail. and the whole-sale merchants having disposed of their grain

Fort St. George 22d November 1856

can have no object in concealing the rate it was sold at.—

8 With regard to Para b and f I can offer no suggestion how to ascertain correctly the quantity of grain disposed of at the different prices as there is no data on which to faund a calculation and it is totally unknown what quantity of each species is produced a rough guess might be made by ascertaining the number of acres cultivated by the different cerals and supposing each acre would yield a certain quantity of produce this calculation if made would be far from the truth and no reliance could be placed upon it and it is impossible to ascertain the quantity of Grain disposed of during the different quantities are daily brought for sale but the number of garces or other measures cannot be ascertained without making use of inquisetorial interferance which would be objectionable by having the grain brought to a certain place in each Village then measured and the price ascertained This is a measure which I do not suppose Government would permit,—

In reply to your letter of the 7th Instant, and with reference to Extract from the Proceedings of the Board of Revenue dated 8th May 1856, annexing Extract Minutes of Consultation dated 31st March 1856 No. 347, I have the honor to state for the information of the Board that the sweeper employed in the Police Ameen's Cutcherry in the Town of Cuddaph may be brought on the permanent Establishment as referred to in the Minutes above quoted, but not on his present insufficient allowance of 6 annas a month, but on a monthly fixed salary of 2 Rupees. Hitherto the sweeper had little or nothing to do having had only to sweep the present Ameen's Cutcherry which is a very small building but as a new one is now being built on a larger scale at a Cost of Rupees 1380 the duties

of the sweeper will be comparatively greater whose services cannot, I think be secured at any sum below 2 Rupees a month.—

2 The next item to which I would advert is the kuttuddy Peon attached to the village of Akayapully in Chennoor Talook who is on receipt of one Rupee a month but as I have already written at length regarding the services &c. of this class of Village servants in my report to the Board dated 22d. May 1855 No. 52 I shall only add, that the individual now under notice may be brought on the fixed Establishment on the same emolument he now receives until the result of the above communication be finally known.—

3 I deem it also expedient to submit for the consideration of the Board the propriety of the additional Carkoons and Goomastahs hitherto entertained on annual sanction being made permanent for a short time. With regard to the Carkoons however it will probably not be long before their places are supplied by

by permanent incumbents as proposed in the minutes of Consultation which accompanied the Boards Proceedings of the 18th October 1856 No 3446; but regarding the additional Goomastahs I cannot but state the duties they have to perform especially during Jamabundy time are very great and arduous. The individual Puttahs in this district amounts to 14,000 and in every such Puttah the usual remissions and deductions common in the Ceded Districts must be gone through, which entails much labour and loss of time and the Goomastahs on the permanent establish-

4 The additional Goomastahs so employed are 12 in Number and their

salaries at Rupees 10 a month amount to
Rupees 880 for eight months in the year in the
principal division and 4 months in the
Sub Division, and I would propose to
retain these servants at once on my Establish-
ment at a reduced expence of 800 Rupees per
annum without applying for sanction as
hitherto, annually until such time as the
general revision of the system now under
contemplation by Government shall
be carried out.

To C. J. Shubrick Esqr
Collector of
Chingleput

Sir,

I had the honor to receive on the evening of the 12th Instant the letter you did me the Kindness to send on the 12th Idem.

In this letter you enquire whether I am willing to accept the Sum of Rupees 300 in Compensation for the injury done to the Church property by the filling up of the Tank in the Church Compound under the orders of the Brigadier Commanding St Thomas Mount. But being unable to reply to the enquiry without more particular information as to the circumstances connected with the case, especially as regards the cultivation, I proceeded to the Spot, and my investigations elevated the following facts.

1st That the Tank was coexistent

Coexistent with the church, and that the Protestant burial Ground opposite to it was formed very very long after supposed to be after an interval of 20 to 30 years

2d That the hedge the growth of years which enclosed the church property has been cut down, and laid bare, a circumstance that is likely to lead hereafter to disputes regarding boundary

3d That a large portion of the hedge thus cut down has died away

4th That the Tank has been as yet but partially filled up, and that for wanting material, the cultivable Ground appertaining to the church is dug up and injured, to make up the deficiency

5th That in the church Compound there is a well in addition to the Tank now dealt, that this Tank was an ancient to the well, and the Springs of the

the former supplied the latter, and that the water in the well rose or fell according to the supply that the Tank had.

6th That the well with this auxiliary at the best, only irrigated the four upper fields near the church, and the Tank water enabled paddy cultivation being raised on the remaining fields about ten in number.

7th That the Tank being blocked up the water in the well is low down, difficulty of being drawn, and hardly sufficient for its former purpose.

8th That the Cultivation of the season is altogether lost to the Church.

9th That the construction of another well of dimensions suitable

Fort St George 22d November 1856

suitable, and sufficient to keep up the usual cultivation, is from the nature of the ground to be excavated a work of difficulty, and so much expense, that it is estimated that ten times the amount offered by you would not suffice.

10th Even if such were proved the difficulty of raising water is another Consideration, and will add greatly to the usual expense

11th That besides, all these difficulties the Grounds will have to be relevelled after the pits and ditches that have been made to fill up the Tank.

Under these Circumstances as injury has been done to the church property, as is acknowledged by the offer of Compensation, I beg respectfully to request that after you satisfy yourself

Fort St George 22d November 1856

yourself on all the points I have mentioned, you will do me the Kindness to recommend to the Government that they will by means of their own officers.

1st Have a well of sufficient Capacity built to serve for the irrigation of the lands.

2d That they will cause the lands to be levelled and restored to Cultivable condition.

3d That they will replace the boundary hedge.

4th And Grant Compensation for the loss of this seasons produce and of another injury done.

As a passing remark I would mention that the fact of the Tank preserving the moisture all around so much as to interfere with the Graves dug

in

in the Protestant "burial Ground" will satisfy you, how its springs fed the well in the Church compound, and further that the nuisance complained of is to be found more in the effect on the Protestant burial ground than to other causes. Indeed from the situation of the place, at an extremity of the Cantonment little frequented there could hardly be a nuisance that did not admit of Correction, and I would note that just now there is a Tank being excavated in the heart of St. Thomas Mount in a place much frequented by the public.

It is indeed unfortunate that the Protestant burial ground which was erected long after the Church compound was laid out should not have been established on

on a better site but that is no reason that the Church property should suffer.

Begging you will excuse my intruding on your patience, so long, and with my assurance that in this matter I have no personal interest but the welfare of the Church property entrusted to my care.

Proceedings thereon. Before submitting the Reverend Mr. Lobo's reply to Government the Board wish to know whether Mr. Shubrick's views as to the sufficiency of the Compensation offered are

are in any way altered by the circumstances now alleged.

2 The sum tendered is stated to be insufficient to dig a suitable well, independently of the expenses likely to be incurred in re-levelling the land and erecting a proper boundary. On these points the Government will respect the Collector's opinion. The point however on which the question now depends is the extent of land really irrigated by the Tank Q, and the Board wish to know whether this cannot be ascertained positively for a few years past.

The Board request an early reply.

Sir,

I have the honor to acknowledge the receipt of your Circular No 2067 of 7th July 1856, forwarding Copy of the Government Minutes of Consultation, dated 19th June 1856 No 628 communicating to the Board a letter addressed to the Local Government by the Secretary to the Government of India, and requesting information on the points therein suggested for consideration.

In reply I am clearly of opinion that the total exemption from duty of Machinery imported into the Country operates to a certain extent, as an encouragement to Speculators. I have up to this time got out Machinery to the extent of 15,000 Rupees, and intend sending for more if no duty be levied. I request I have no means of ascertaining what influence its free introduction exercises on the production of native Machinists.

You will see that it is unnecessary for me to reply to the third para of Mr Secretary Bradon's letter.

In reply to the Extract from the Board's Proceedings dated 23d ultimo No. 3535 I have the honor to state that not having received any sanction for the boundaries proposed by Colonel Dudgeon for a cantonment in Kurnool I took no steps to ascertain the amount of compensation which might be given to likely to be dispossessed house owners nor indeed do I consider any necessity exists for dispossessing any but a few now residing in the Sepoy Lines themselves. Besides until the question now before Government of removing the Regiment altogether from this station or making it a Detachment post only is decided I deem it unnecessary to prosecute in the matter.

2. Since writing my letter No. 72 dated 2d July 1856 I have reconsidered the proposition of Colonel Dudgeon and forward herewith another Map in which I have entered in red line which I think less open to objection and quite sufficient

Fort St. George, 24th November 1856.

sufficient for a Cantonment and the reasons for alterations.-

3. The limits of the proposed cantonment should not include the road from Bellary to Hyderabad now that from Bellary to the Fort.

4 The boundary to the North should be confined to the lines there seems no necessity to include any portion of the adjoining Pettah

5. The town of Kurnool being confined on three sides by the rivers Toongabuddra & Hendry its only ground available to build on to meet the demand of an increasing population is in the plan from the bastion marked A I should therefore suggest that the Military limits should be removed from that bastion to the Flag staff marked B.-

6. There being most ample space between the Barracks and between the Barracks and Hospital independent of what will be acquired when the Ramparts are levelled

I

Fort St. George, 24th November 1856.

I would suggest that a straight line giving a road way behind the Barracks should be drawn to the Rampart on the river Toongabuddra over the Hospital according to these limits a clump of Pariah houses marked C will alone require to be removed besides the strange residents within the lines.-

Sir,

I In reply to the Board's Circular Order No. 2214 calling for information as to the result of the introduction of the new forms of account, I have the honor to report that their use has been adopted in every village that the Summahbundy accounts of Fusly 1265 were prepared according to them, and that no difficulty has been experienced in effecting the change.

2 The increase of expenditure for the Extra quantity of paper which will be required for the current Fusly will be comparatively small, as will be seen from

20477 Fort St. George 24th November 1856

from the following Statement.

	Fusly	Reams	Quires	Rate per Ream			Value			Difference		
				Rs	a	p	Rs	a	p	Rs	a	p
	1264	455	16	2	8	-	1,139	7	5	-	-	-
	1265	592	15	2	8	-	1,481	13	2	342	5	9
Average for	1266	635	-	2	8	-	1,587	8	-	106	10	10

3 The increase in Fusly 1265 arose from Curnums having been newly supplied with paper agreeably to the order of Government as also from the new forms of Puttahs requiring more paper than the old forms. The cause of the increase in the average of this Fusly is that blank books will have

6

Fort St. George 24th November 1856

to be furnished to Curnums to keep accounts of their daily collections which was not done last year.-

4 I will use every endeavour in accordance with the orders of Government / Para 3 / to dispense with- Hungamy Goomastahs for the preparation of the Summahbundy accounts, but I must say, that great difficulty in so doing. The ignorant race of Curnums the Moghulye days has not yet been replaced as in other more advanced Districts, by more intelligent and better educated class of men, many of the old Curnums can actually neither write nor read.

Forwarding the application of Dharwar Streenevasa Row Puntoolu Head Sheristadar of the District of Cuddapah and requesting the Board of Revenue to procure the sanction of Government for the payment of increased rate of salary to him in arrears.

Sir,
Para 1. I have the honor to forward, for the favorable consideration of the Board of Revenue, an original application from Dharwar Streenevasa Row Puntoolu, Head Sheristadar of this District soliciting an increased rate of salary from the 4th November 1855 and setting forth reasons why the period he served as Sheristadar in the Bombay Presidency and in Mysore should be included in his period of service as Head Sheristadar. From the subsequent Statement it will be shown that, should his claim be admitted, he ought to have an increase of salary amounting to Rupees 437—8—0 from the 4th November 1850, instead of Rupees 350 which he has drawn.

It

2. It appears from the Statement of services of the Head Sheristadar that he has been Tahsildar in the Bombay Presidency for 6 years 10 Months and 8 days, and this period has been disallowed by Government, which might probably have been occasioned, as stated in his application, by no precedent of the kind having been laid before Government, but as Government have allowed the indulgence to Neelacunta Row, the present Head Sheristadar of Bellary a similar concession might be granted to the present applicant. D. Streenivasa Row Puntooloo. as the three Presidencies Madras, Bombay and Bengal are under the same Government ie the Honorable the Court of Directors, and the Governor General of India, and forming one Dominion, it appears to me only justice that when a public servant has served a part of his time in one Presidency and is then transfered

to another, as in the present case, the period he has served in the former Presidency ought to be taken into consideration, when an application for increased allowances on account of long service has been presented, and as Neelacunta Row was permitted to draw the Salary as if he had been a Sheristadar for 10 years, from the date of his appointment at Salem, though the above period was passed in Bombay Presidency. The present applicant might be allowed the 6 years and 10 months he served as Tahsildar in Bombay in calculating the increased allowance for Sheristadars, as laid down in the Rules under date the 26th July 1847.

3. D. Streenivasa Row Puntoolu was appointed Tahsildar of Woodoogany in Mysore on the 20th August 1831 and held the situation for a little less than two months under his Highness the Rajah of Mysore, after which he was reappointed by the Commissioner as Tahsildar of the same Talook on the 18th October 1831 and continued to perform the duties of Tahsildar to the 7th of

Fort St. George, 24th November 1858.

In July 1838 in different Talooks as shown in the list of Service, he has been Tahsildar in Mysore for a period of 6 years 8 months and 21 days, during which he was not only appointed by but performed his duties under the Commissioner appointed by Government for the Management of the affairs of the Territories of his Highness the Rajah of Mysore, and may therefore be considered a Servant of the East India company and as such would be entitled the period of Service passed by him as Tahsildar in Mysore, Viz^t. years 6 — 8 — 21

being allowed in calculating for increased allowance as Head Sheristadar. That the Territory of Mysore was to a certain degree considered under the complete management, if not annexed to the Dominions of the East India Company, may be inferred from the order of the Governor General in Council, under date the 15th February 1845 on the abolition of the Sayer wherein the Frontier Chowkies between Mysore and the Honorable

Fort St. George 24th November 1858.

Honorable Company's Territories were ordered to be abolished, thereby showing that the Mysore Territory was not considered a foreign State, but a portion of that of the Honorable East India Company, and if so the present applicant D. Streenevasa Row Puntoolo may fairly be considered as a Servant under the East India Company and as such, the time he passed in Mysore as Tahsildar might be included in his Service.-

Should the period he served in Bombay and Mysore be permitted by Government the following is the rate of allowances he ought to draw in accordance with the Rules for determining the increased salary of Sheristadars as above quoted.-

Streeneevasa Row Peishcar from the 4th November 1855 in arrears, an indulgence which I consider he well deserves from his steady, and indefatigable attention to his duties, as will be shown from the certificate of the several public officers under whom he has served.

No. 1

To M. Murray Esqre

Collector of Cuddapah.

Honored Sir,

The humble representation of Dharwar Streeneevasa Row, Head Sheristadar of the Zillah of Cuddapah.

With profound respect and infinite submission I beg leave to represent to your goodness that from the 15th of May the date of my nomination as Head Sheristadar of Guntoor to the 14th of May 1850, five years having been completed Government have been pleased to sanction the augmentation of my Salary from the 15th of May 1850 from Rupees 280 to 350 agreeably to the rules in force in respect to the graduated increase of Salaries of Head Sheristadars.

The period of my service as Tahsildar in the different Divisions up to the 14th May, amounted to 13 years 6 Months and 29 days and according to the tenor of the rules established the

Fort St George 24th November 1856

the above period being reckoned as ⅔ of the Service rendered in the capacity of the Head Sheristedar Vizt: 4 - 6 - 10 which including the actual period of employment as Sheristedar make 10 years and this inclusive of the actual period of Service as Head Sheristedar entitled me to an increase pay, I was in consequence on the 10th August 1850 applied to the late Collector Mr Stokes of Guntoor, soliciting him to obtain the sanction of Government for a second increase of my Salary, viz from Rupees 350 to 437-8- " from the 1st November 1850 and that Gentleman had been good enough to ascertain my period of Service as Talsildar by comparing the list produced with the original in Records I professed and to forward my application to the Commissioner of Northern Circars on the 11th august 1850 with his recommendation recording his opinion that I was fully entitled to the 2nd increase of allowances viz in which opinion the commissioner

Fort St George 24th November 1856

Commissioner coincided, and brought the circumstance to the notice of Government when they on a reply being received from the Civil auditor to a reference made in my case, communicated in the Extract from the minutes of consultation under date the 11th March 1851 that the Right Honorable the Governor in Council must decline to accede of my application that I may be allowed to reckon as service entitling me to an augmentation of Salary under the rules of the 4th March 1828 the period of my employment as Talsildar in the Bombay Presidency and under the Commissioner of Mysore.

I am led to believe that the Government has passed the above minute in consequence of the Civil auditor not having furnished any precedent similar in nature to that of any claims but I humbly beg to refer to you a single instance wherein the Board of Revenue and Government have allowed Nelacum Rau Row, who was promoted by the late Collector Mr Orr of Salem to the Head Sheristadarship of his district from the office of

Fort St George 24th November 1856

of Sub Division Sheristadar of Dharwar District in the Bombay Presidency to reckon in regulating his salary the whole period of his service of Sub Division Sheristadar as that of the Head Sheristadar which is however in excess of the scale laid down in the rules and sanction his drawing Rupees 137-8 per mensem from the date of his entertainment into the office of Head Sheristadar. In support of my claim to the augmentation of my salary I respectfully beg to forward Copy of the correspondence held in the matter of the salary of Neelacunta row above referred to which was sent for from Salem by Mr Burnis the late Acting Collector of Guntoor and also a list of my services attested to the Collector of Guntoor The aforementioned Neelacunta row is at present the office of Head Sheristadar of Bellary and continues to draw a salary of Rupees 700 per mensem for conducting it will be manifest to your goodness tho' Such an indulgence has not been allowed to me the deprivation of my just

Fort St George 24th November 1856

which are consonant to the rules sanctioned by Government wherein it is ordained that the period of service of Tahsildar from 12 to 15 years may be completed as 1/3 of the service of a Head Sheristadar entitling him to an increased salary can hardly be deemed Justice.

From the 24th November 1850 above mentioned to the 3d of the same month 1855 I completed another period of 5 years service while the aggregate period of my service in my present office is 15 years under the circumstances above detailed I earnestly solicit your kind Honor intercede in my behalf with the higher authorities to extend towards me the same indulgence which has been allowed to Neelacunta row in as much as the period of my service of Tahsildar may be taken to account and procure the sanction of Government to permit me to draw the increased rate of my salary in arrears upto 3d November 1855 and from the 4th idem at the rate of Rupees 525 per mensem and thus in part Justice.

I further submit by beg to state

State that should you take into your consideration the fact of the rules Regulations enactments &c in force in the Bombay Presidency and the Mysore Territories where I have served for a considerable time are the same as in that of Madras and that no distinction should in consequence be drawn in respect to services rendered in each of these Presidencies I am rest assured that I will not be deprived of my lawful claims.

In respect to the period of Service rendered by me in the capacity of a Tahsildar in the Mysore Territory being taken to account, I submissively beg leave to State that on the occasion of the abolition of Sayer in this District the frontier Chow Kies were at first retained by order of Government in accordance with the provisions of act XI of 1844 under the impression that Mysore Province was a foreign one but subsequently on a reference being made by the Govt of Fort St George, the Government of India in their Minutes of Consultation dated the 15th February 1845 observed that the abolition

established in the Mysore frontiers under Section VII act XI of 1844 should be removed from which I am led to believe that in consequence of the Mysore territory being in opposition with the Provisions of the Section above quoted subjects to the Courts and Civil authorities the Government of India had deemed it necessary to remove the frontier Chow Kies and if this my supposition be correct it is my humble opinion that no distinction could be observed to my functionary of my description who had held the office of Tahsildar in

Fort St George 24th November 1856

in that Territory for some years

Under these circumstances I am confident that Government would recognise my claims to reckon the aforenamed period of my service for the augmentation of my Salary

Independent of the period of service in Dharwar District, in the Bombay Presidency: I was appointed Sub Collector in 1830 under the commissioner of Mysore ever since by the good will of the several Gentlemen under whom I had occasion to serve I have attained promotions

Fort St George 24th November 1856.

promotions gradually being uninterruptedly employed. I beg also to state that in token of the faithful services I have rendered under several Gentlemen, as noted in the margin in the Bombay and Mysore Provinces and Madras Presidency they have favored me with testimonials copies of a few of those which in my humble opinion appear to be important and Extracts of those paras in the Jummabundy reports wherein the different Collectors recorded their opinion in respect to my qualifications are herewith forwarded for your perusal and kind consideration

Sir.

I am directed by the Board of Revenue to bring to the notice of the Right Honorable the Governor in Council the following circumstances connected with a claim to an increased rate of Salary preferred by D. Streenevasa Row Puntoolu Head Serishtadar of Cuddapah.

2. This individual was appointed Head Serishtadar of Guntoor on the 1st May 1845, and after completing a Service of 5 years in that capacity was allowed to draw the 2nd rate of Salary for Officers of his class, viz Rupees 350 per Mensem from 15th May 1850.-

C. M. Cons: 28th May in Cons 3rd June 1850.

3. Previous to entering the Service of the Madras Government Streenevasa Row was employed as Tahsildar under the Commissioner of

of Mysore, and in the Bombay Presidency, for the undermentioned periods.-

In Mysore	6	8	21
In Bombay	6	10	8
Total	13	6	29

4. Had this Service been performed in the Madras Presidency Streenevasa Row would, under the Rules, have been entitled to reckon one third of it Viz years 4—6—10 as Service in the higher grade, and so to draw the + Rate of Salary, or Rs. 437—8—" per Mensem from the 4th November 1850.-

C. O. B. R. Vol I 6th March 1828. Page 75.

5. From the correspondence noted in the Margin it will however be seen that an application was preferred by the Collector of Guntoor in 1850, to allow Streenevasa Row to have the benefit of his Service as Tahsildar both in Mysore and Bombay. but that Government declined to grant the indulgence solicited.-

Ex. Guntoor 10th In. N. C. 15th Augt 56. Commn. to Govt 15th August 1850. Ex. Govt 11th In N. C. Cons 17th March 51 No. 24.

Since

From Cuddapah 11th Sept. inclos. 24th Nov. 1856 A. after No. 3681.

6 Since that date, Streenevas Row has been transferred to Cuddapah, and the Collector of that District now reports that he completed another term of 5 years as Serishtadar, on the 14th May 1855 entitling him to the 3d rate of Salary or Rupees 437-8-- a per Mens. from the day following, the grant of which the Board recommend. The Collector however forwards, with his strong support, a Petition from the Head Serishtadar again soliciting to be permitted to reckon one third of his Service as Tahsildar in Mysor and Bombay, in his period of Service as Head Serishtadar in the Madras Presidency. Reference is at the same time made to the case of Neelacunta Row, the Head Sheristadar of Bellary, wherein the Government have already accorded its sanction† to employment in Bom. being regarded as Service in this Pres.

*This case is not strictly in point as Neelacunta Row was offered the post of Head Serishtadar in the company's Territories, but his services could not be dispensed with in Bombay. But for this he would have been Sherishtadar in this Presidency for the period admitted by Government.

†Govt. to B. 23d Aug. Inclos. 2 Sept. 1850.

20502 For. St. George 24th November 1856.

7 The high Character and conduct of Streenevas Row induce the Board to solicit the Government to reconsider their former decision. The Board submit that the three Presidencies are virtually one Government and that it seems neither just nor politic wholly to ignore in one Presidency the faithful Service rendered to the state in another as regards minor situations in which it would often be difficult to trace and verify Service performed in another Presidency, and when the petty nature of the appointment held shews the unimportant character of the service, considerations of Economy or Official convenience may dictate another course, but lengthened and approved service in high and responsible situations the Board respectfully urge should be recognised and rewarded, although rendered under the Government of another Presidency.

In the present case the Board,

8. trust that Streenevas Row's personal merits will induce the Government to admit also his service in Mysore as a Tahsildar. The

Government

Government of that Territory is indeed conducted by British Officers under the direct control of the Supreme Government but on behalf of a Native Prince - Service under it cannot therefore strictly speaking, be regarded as rendered to the British Government, but an exception may well be made in favor of a person who has subsequently held such high Office in the Company's Provinces and acquitted himself so well in them as Streenevas Row has done.-

9. If the Service of Streenevas Row in Mysore be excluded the admission of that in Bombay will not benefit him for unless the period of employ as Sahukar exceeds 10 years, it cannot be admitted at all under the existing Rules.-

C.OBR 6th March 1828. page 75.

10 The Board therefore resolve to submit the case of Streenevas Row for the favorable consideration of Government. If his

his prayer be complied with, he will be entitled to draw his 3d rate of Salary from 4th November 1850. and his 4th from 4th November 1855 but if not, his 3d rate of pay commence only from 15th May 1855.-

11 It should be stated that if Streenevas Rows application meets with favorable

favorable consideration, the Head Serishtadar of Coimbatore will be entitled to a similar indulgence, as the Board, in consequence of the former decision of Government in

Sir,

With reference to an Extract from the Proceedings of the Board of Revenue dated 14th ultimo No. 2665 I have the honor to report for their information that it was not usual in this District to include the privilege of selling Toddy in the Alkarry Farms till the year 1849, when the orders of the Board of Revenue were obtained for the privilege of selling it being leased out to the arrack Renters.-

This change does not however appear to have led to collisions between the Alkarry Renters and the Puttadars. The former apparently not interfering with the trees situated on Puttah lands, and I have therefore no reason to consider on the one hand, that any relief in this respect is necessary, or on the other, that any material bonâ fide loss would accrue to the Renters if they were formally prohibited from having access to these trees, nor that there would

be any loss of Revenue in consequence.

3 It is however far from improbable that if the subject were mooted it might be made a handle for demanding compensation, I would therefore recommend that no alteration in this respect should be made at any rate till the present rents expire. The case seems sufficiently provided for by Section 17th Regulation of 1820, and nothing further seems required in this District.

4 As regards Rules for the occupation of Land on which trees not planted by the Ryot are situated I consider.

1st That such cases should be specially brought to the notice of the European Officers of the District before the land is occupied when if the income likely to be derived from the trees is in excess of the assessment it should be rented as a tope.

2d That the trees on such lands should not be allowed to be cut without permission.

In reply to your letter of the 12th August, No. 2006, I have the honor to state my opinion that the detachments at Ramnad and Dendigul may be withdrawn without much danger to the Public Peace. No disturbances calling for their interference have occurred within the last 10 years except on one occasion at Ramnad when I think the Police officer who sent the requisition was unnecessarily apprehensive.

At Madura however, I

consider

Fort St George 24th November 1856

consider it desirable that the Company of an effective Regiment should be retained. It is true that in the last 3 years, I have once had occasion for their services to quell a grain Riot and then the mere sight of the Sepoys advancing was sufficient; but it seems hazardous to leave a District of nearly 10000 Square miles and containing a Population of nearly Two Millions without a single Soldier. The Population though comprizing large numbers of the Shanawer and Puller castes which are supposed to be addicted to crimes of violence is I must confess, particularly quiet, but their former prowess, when opposed to regular troops is a proof that this quiet demeanor does not arise from want of spirit.

It may be argued, however, that a population so constituted, could not be excited be kept in order by a single Company no advantage as regards the peace of the District can rise from the retention of so weak a detachment and I am disposed to admit the force of the observation so far as to express my willingness to dispense with it if the Government

Fort St George 24th November 1856

Government consider that the advantage of withdrawing the detachment sufficient to compensate the moderate chance of disturbance among a population very large but peaceably disposed —

Should the Company of the effective troops be withdrawn it will remain to be considered how a substitute of the guard over the Treasury consisting of a Havildar and 12 Privates and that over the Cash chest of the Paymaster of Pensioners is to be supplied — As far as the Revenue Treasury is concerned, an increase of 24 privates, a Duffadar and a Bugle to the armed Police would do very well, but as there is a large number of Pensioners and Sepoys on Furlough to be paid, it may be thought desirable to make madura the Post of a detachment of the Veteran Battalion whose Officer could disburse the pensions — I am informed that one Company of Veterans would be unable to furnish the number of guards requisite, and if such is the case it may be deemed expedient to send — two —

In favor of posting the Veterans at

at Madura, it may be stated, that they could, for the most part be accommodated in the tiled huts built for the Sepoys.

It will be necessary to allow a small addition to the armed Police for the purpose of escorting the monthly remittance from Ramnad -

the receipt of your letter on the subject of reducing

single

Single stations and massing troops at large stations; if which be done Rufsetcon will be the only station on this district.—

The efficiency and discipline of the army is doubtless a subject worthy of the greatest consideration but the general peace and prosperity of the district is what must be my great object and after careful thought I beg leave say that in my opinion it is not advisable to reduce materially the number of troops in this district unless there is an increase of the Local troops to supply their place

It is true that with the Exception of those in Kennidy no troops have of late been called out, but the moral effect of their presence is very great— It must be remembered that this district is not to be compared with the most quiet Southern ones the people are mostly excited and accustomed to arms— It is full of petty Zemmindars all of whom have armed retainers, and villages held by peons on condition of doing armed

service

service— These men would rise in a moment at their fendal chiefs call, indeed it is even now difficult to prevent them settling their quarrels or those of their Lords by force of arms, and I have now before me a case in which two parties armed met at a disputed boundary and Exchanged several shots luckily their discretion kept them at a distance from each other and no lives were lost, but this and the spirit shown at Kautgur in the early part of the year will prove what inflamable materials I have got to deal with, were there an Electric telegraph to communicate our wants to Head Quarters and a Railroad by which troops could at once be poured into the country this would not matter so much but if the troops are at a distance a disturbance insignificant in itself might soon for want of a check become most serious.—

The Detachment in Kennidy should not for some time be withdrawn even should the Dundoseena be captured till the recollection of these disturbances has in some measure died out.—

The Detachment at Chicacole also appears to me necessary, a large Jail with

Fort St. George 24th November 1856.

with from 150 to 200 Prisoners of all descriptions cannot I think be safely left to peons even were there an Extra number of men engaged in lieu of the sepoys - Peons want the discipline and regularity of soldiers and it is almost impossible to keep them alert at night when on sentry, for this reason too I would deprecate their being used as Treasury guards at Cuddalore and Chittoor unless therefore Government are prepared to go to the expense of raising a large body of sebundies I do not think the Regiment should be moved from Berhampoor. It might be relieved from Vizagapatam grow every year and furnish Detachments to Kemidy and Chicacole thus leaving the Regiments at Vizianagram complete to take part in Brigade exercises and other duties of a station.—

Sir,

With reference to the Board's Endorsement on the accompanying Petition No. 2662 of date the 7th Instant, I have honor to report that the claims of the Petitioner to a reward would seem to be deserving of attention as he caused the seizure of 180½ Measls of Salt valued at Rupees 54-2-5. and would have been entitled to ¼ of the sale Proceeds or Rupees 13-8-7 if the Salt had not been ordered to be destroyed in consequence of its bad quantity and unfitness for use. Should the Board be willing to remunerate him it would probably lead to his exerting himself again and benefiting the legitimate trade at the expense of smugglers.-

From the Collector of Cuddapah

Reporting on Petition No. 988 of 1836 from Shaik Hoosain residing at Kundaconitta with reference to the Board's Endorsement on the same.

With reference to the enclosed petition No. 988 of 1836 from Shaik Hoosain, Son of the late Shaik Fareed residing at Kadiri complaining that certain Lands which were in the enjoyment of his father for a long period has been made over to a Village Curnum prays for the restoration of the said Lands on which the Board of Revenue gave the following endorsement Forwarded to the Collector for report with reference to the Acting Collector's letter dated the 18th of November 1840.-

I have the honor to state that the Lands under dispute form a portion of the Cumberty Land specially set aside by Government

20540 Fort St. George 24 November 1836.

Government for the remuneration of the individual who performs the duty of Curnum in the Village which apully in the Talook of Chennoor Gillah of Cuddapah, and by Section II Regulation VII of 1831 is indienable from such Offices by Mortgage, sale gift or otherwise It must here be observed that the Lands in dispute is cumberty Enam, that is Lands given in addition to the Cadeem or old Lands, the latter being considered insufficient for the remuneration of the Curnum of the village and this being the case, no Curnum can possibly make over or dispose of any portion of it to another party, it having been granted for remuneration of services to be performed.-

It would appear by the letter addressed to the Board of Revenue under date the 18th of October 1840 by the late Acting Collector Mr. Lavie that the father of the present complainant Shaik Fareed entered into a compromise

Fort St George 24th November 1836.

compromise with Venkatramiah the
Curnum, by which it was agreed that
the latter should give over the land in
dispute to the former on the stipulation
that he should pay Rupees 2 per
annum, but this decision was
displeasing to the Curnum. The
legality of this transaction and
decision is very questionable and
even supposing it was legal, it
would only be binding on the
parties during the life of the Cur-
Venkatramiah. It is there alle-
ged that Sheik Fareed was only
a Intervenor and had no legal
claim to it the Curnum had
the power either to rise the
rent or to give it to a third per-
long enjoyment by a tenant

claims the land as the cadeem
Enam is not sufficient remuneration
for his services and legally he is
entitled to it. In July 1263 the
present incumbent Soobiah preferred
a complaint that Sheik Roofsain,
Son of the late Sheik Fareed, did
not pay his rent and spoiled
the land by planting Soonkas.
& trees upon it requested the land
to be given to him. The Tahsildar
was ordered to enquire into
the case when a deposition
was taken from Sheik Roofsain in
which he stated he had been long
in possession and his father had
entered into an arrangment with
Venkatramiah and he would not
give more than Rupees 2 per annum
or would he resign the land. The
present Curnum is nephew of
Venkatramiah.

Sir,

With reference to the Rules respecting the construction of Tanks by private Individuals

Et from Proc. of Bd of Rev. dated 30 April 1856.

I have the honor to state that parties in this District, who have obtained land on Dheerkhast for that purpose claim exemption from tax till such time as they shall bring each portion of the land under the Tank into cultivation, and I request the instructions of the Board on the subject.-

To me their claim in its full

extent

extent, appears inadmissible. As regards the portion of the land which will be submerged, the Rule provide that, if waste, more than 10 Years it shall be exempt permanently, but in respect to the remainder, the rights of Government will I think, be improperly compromised, by permitting individuals to secure a proprietary right, and at the same time to post pone payment of the public assessment for an indefinate period.

3 The utmost indulgence which could be allowed is, I should say, to apply the Cowle Rules to such lands, an arrangement to which I see no other objection than that as the water spread waste above 10 Years is already tax free under special Rules, any further remission will be deemed unnecessary. It will be remembered however, on the other hand, that the extent taken under such circumstances is generally considerable and the construction of the Tank expensive, and that there may be danger therefore of impoverishing Ryots if the full Terwa is at once taken

4 On the whole I think it desirable

desirable that Cowle should be allowed for lands taken up for Tanks and Cultivation under them, any portion already cultivated being of course, excluded; and I would extend the indulgence to the water spread under 10 Years waste, as well as to the land intended for tillage.-

Travellers Bungalows

2. The number of Travellers that pass the Trunk road No 11 is so small that Mr Murray does not consider it necessary that Bungalows should be erected along that line until the Railway thro' the District of North Arcot is completed and

and the road is more frequented by European Travellers than at present.

3 Mr Whittingham's report is to the same effect though he thinks a bungalow may be constructed at Palair for the accommodation of the few Travellers now using the road.

4 His acting additional sub Collector mentions the probability of the road via Chittoor little frequented as it now is being abandoned by Travellers almost entirely on the completion of a road said to be in contemplation from company pettah on the Railway to Kaggary Ves.

5. In their letter of the 26th July last No 2348 the Board recommended the construction of a Bungalow at Ayerlumpelly and requested permission to have a Plan Estimate prepared for submission to Gover

6 On further consideration the Board say the expediency of erecting a Bungalow at the place on the usual plan.

7. They believe it has been determined by the authorities in England that a Railway

shall be constructed via Cuddapah to Bellary and if this be the case all travellers of the class for whom Bungalows are now provided will of course proceed by Rail. It seems therefore to the Board that it would be inexpedient to erect Bungalows (costing as such buildings usually do about 2,000 Rupees each in construction) on the Trunk road with the certainty that in the course of a few years they will be rendered useless and must be sold at a great sacrifice or abandoned as so many lately have been.

8. If it has been determined that the Rail shall follow this line of Road and the sites of the stations are now settled or can be with a reasonable degree of certainty, then indeed substantial Bungalows might be erected by Government with the intention of transferring them to the Railway Company, or at least with a fair prospect of renting them to private persons as Hotels.

9. If however nothing has been determined further than that at no distant period a Railway shall be constructed in that direction

then the Board recommend that if a compl line of Bungalows be considered necessary on this line of road, they should be constructed in a less expensive mode that instead of one or more being built on the usual plan, smaller buildings be erected, sufficiently durable to last for 5 or 6 or until the Railway is constructed. The number of Travellers is now small, and the Board doubt whether the number would materially crease in consequence of Bungalows being built though no doubt at present the want of such accommodation compels some Travellers either to proceed to Cuddalapah with out stopping or to adopt more convenient routes. There is also another route via Naggery from Madras to Cuddalapah part of which the Railway is or will be soon already furnished with Bungalows.

10. All that it is necessary now to do is to provide temporary shelter for a single party of Travellers at a time, for this purpose a small room of moderate size with a couple of bathing would suffice, and such a Bungalow might probably be built (of brick and mud) for 500 or 600 Rupees. Excluding Roychoty and Cuddalapah where there is a Government building which will on the completion of the road be available for Travellers 3 Bungalows seem requisite on the line under consideration, and these can probably be constructed for very little more than one building on the usual plan.

11. When the Railway is constructed private enterprise will (as now at Arcot) provide accommodation for European Travellers and the want then experienced will be accommodation for Natives in the way of Chuttrums. Meanwhile buildings such as the Board suggest will answer every purpose for the few European Travellers traversing or likely to traverse the route under consideration.

12 If the Government concur in these views the Board will communicate with the Chief Engineer and submit a specific proposition for consideration. I perfumptully appears. as

Government

Fort St. George 25th November 1856

Government have remarked, an ineligible situation. If only one Bungalow is to be built, a site about 30 or 35 Miles from Chittoor would be preferable and would divide the entire distance to Cuddapah of 99 Miles into 3 nearly equal stages conveniently located for night rest with Cearens. If a complete line is determined on the Stas mentioned by the Collector of Cudapah appear more eligible.

Sir

With reference to the correspondence noted in the Margin, I have the honor to report the death* of Cobala Rondama naik Uncle and Guardian of the minor Zemindar of Ayacoody leaving two widows but no offspring and report of the 10th June 1855 that the deceased enjoyed Rent free and permanent Cowle lands to a large amount. For ready reference I enclose a Statement.

Reports the death of Cobala Rondama naik Uncle and guardian of the minor Zemindar of ayacoody leaving two widows but no offspring and recommends that Krishnasawmy naik at present acting Police ameen of Ramood. shee may be appointed manager of the Estate on a salary of 50 Rs.	To Court of Wards 21st May 1856 From Do. 21st July 1856 * 11th August 1856

2

It will be seen from Col.

In regard to these the Court in their Proceedings of the 27th July 1855 stated that they were unwilling to interfere with them unless necessity should arise, further than to inform the grantees that with the exception of Cowles granted for the clearance of waste lands their continuance will depend on the pleasure of the present Zemindar when

3

when he attains his majority.

x 16th August 1856

4. The widows in an x kirjee translation of which I enclose, ask that the lands shall be continued to them for life, and then revert to the Zemindar. and I beg to submit the request for the decision of the Court. but am amiable to support it.

5. The income yielded by these alienations are far more than is sufficient for the support of two females and the reasons which exisited for continuing them to Obalacondama naik do not appear to obtain in respect his childless widows.

6 For these reasons I would suggest recovery to the Estate of such lands as are gally liable to resumption which description seem, without doubt to comprize all held by Viz^t the entire Village of Coombapatty and the Village of Ayagoody

7. Of 2888 Cawds 14 1/2/16 Rs As in the Village of Ayagoody by the deceased on a permanent Cowle at the Teerwah of 1018 Rs 2 As 11 Rs 439 Cawds 6/16 assessed at 692 Rs part of the assets of the Zemindary; the remainder

x Note Not it is believed by Obalacondama naik but previously to his Cowle.

reclaimed subsequently to the x Fysel. No distinction was made between cultivated and waste in that document which contains only the number of Cawnies the total stipulated Teerwah and the boundaries.

Under these circumstances it appears 8 to me that the Cowle must be looked upon as a whole and the fact of the previous Cultivation of a portion at least of the land be held to vitiate the grant of which I would recommend the resumption.

The above comprizes all the lands men- 9 tioned by Mr. Clarke. Besides these the deceased obtained at a rent of 700 Rupees per annum for 5 years the Punnay lands of the Zemindar, previously held at a rent of Rs 318 As 3 As 2 per annum by other persons. If fully cultivated these lands would yield about 1000 Rupees per annum He possessed also some ordinary Puttah land in the Zemindary giving a small profit.

I think that the widows would best 10 Consult their own interests by Surrendering these Sources of income to the Minor and accepting from him a

Fort St. George 25th November 1856

a maintenance and till very recently I understood that such was their intention their Arzee however exhibits a desire to be independent, the Punnay and the Puttah land can be retained by them for their subsistence Whether they will suffice for the purpose the information I at present posess do not enable me to judge I would request therefore to be permitted to allow that matter to lie over as a distinct question should the widow be distressed they will complain, their circumstances can then be examined and if necessary a recommendation for assistance submitted to the Court.

11. The question remains how the vacancy in the situation of guardian shall be filled The Minor has still one paternal uncle remaining, his Eldest son is of age. He has no mother alive His Step Mothers,* aunts and remaining Uncle have presented Arzees, Translations of which are enclosed proposing the eldest son of uncle and Kristnasawmy Naik as joint Guardians to have

the care of the Estate, which at present is under the care of the Tahsildar with an allowance of 30 Rupees in addition to which 7 Rupees a month is paid to the Moozoomdar.

× To Court of Wards 1st May 1854 From D: 27th D:

The Uncle and his Son have paid 12. me several visits and I am quite satisfied that without assistance they are incapable of discharging any trust - Their Conversation and even countenances betray intellects of the feeblest description The relations therefore have judged well in recommending that some other person may be associated with the Son whose name is Periadhoprasawmy alias Obalacondama Naik

Kristnasawmy Naik is at present 13 acting as the Police ameen of Ramnadhee his confirmed situation being that of a Goomastah on the Shevagungah Establishment For many years he was a Goomastah in the Tinnevelly District His age is nearly 50 and though not apparently possessed of superior talent he is a shrewd clear headed man of business.

To appoint him as joint Guardian 14 appears to be out of the question but I am disposed

Fort St. George 25th November 185

disposed to recommend that he may be appointed
manager of the Estate on a salary of 50 Rupees
a month and the Minors Cousin above mentioned
the Guardian. With the advice of the manager
and his occasional assistance in making up the
accounts he will be able to discharge this duty
15 This measure will entail in addition
expense of 13 Rupees a month on the Estate
deprive the Tahsildar and Moozoomdar of
Iyempully of 30 Rupees and 7 Rupees a month
respectively. But I [illegible] of the
sumed grants the income of the Zemindary
and the labor involved in its management
will be considerably increased; and the relatives
complain not without reason as far as I
learn that the Tahsildar is unequal to the
charge in addition to the duties of his own
Talook. It will be for the advantage of the
Estate. I think that there should be a
separate Manager.

16. It is proper that I should state that
Kristnasawmy Naik is the brother of the late
moonshee

Fort St. George 25th November 1856

moonshee of my Cutcherry. How far this
circumstance influenced the relations in their
selection I do not know, but as the Ayagoody
Estate is situated in the Sub Division, and
the Collectors Cutcherry will therefore ordinarily have nothing to do with its management
I do not see how unfair advantages could be
expected from the connexion. It is more natural I think to refer the choice to both
parties being of the Soodra Caste and well
acquainted from their having lived for a
considerable time in the same street.

17. I have kept back this letter in order
that I might again see the surviving brother
of Obalakondama Naik for the purpose of
obtaining from him a distinct declaration relative to the family being devided or otherwise.
He has now given a deposition before me to the
effect that they are not divided and stated, what
does not naturally follow he himself standing in
equal relation to the deceased and having a son, that
the Minor will be eventual heir to all the property
of Obalakondama Naik; but that the Widows
should

Fort St. George 25th November 1856.

should be left in possession during their lives
of the ready money and jewels after a list of the
same has been made The Widows of an undivi-
ded family are entitled to maintenance only
but I would recommend that the lands al-
ready mentioned and the jewels should be
left with them. As regards ready money
which there is reported to be a considerable
sum the best plan I think will be to invest
it in the new Loan and allow the Widows to
enjoy the whole or portion of the portion of the
amount according to what its amount may prove
to be The Tahsildar / Manager / has affixed
his seal on the doors of the Rooms at Ayagood
where the money and jewels are supposed to be
and which had been previously locked by
the deceased or some one else and I am
endeavoring to persuade the Widow to consent
to a list being made When I know the amount

of ready money, I will do myself
the honor to report it to the Court

Our husband died on the 14th August. The late Zemindar the minors father executed a Deed of gift in favour of our deceased husband, allotting the Village of Combapully and some other Nunjah and Poonjah lands for our maintenance and after the Zemindars death the Court of Wards was pleased to leave them in our possession. Accordingly we were up to the present time enjoying them as also 7100 goolies of Nunjah and Poonjah lands in Combay Village paying a rent of 1200 Rupees and odd on a permanent

permanent Cowl granted by the late Zemendar. Besides the deceased had also obtained a lease for 5 years of the Punnay lands of the minor, from Circar on Condition of paying annually Rs. 700. We on the 16th August addressed an urgee to the Acting Sub Collector praying to allow us to hold all the above lands until our life time, and then to make them over to the minor, requesting the appointments of Mootookrondama naicken's elder son Cbalakondama naick, and Krishnasawmy Naick the present Acting Police Ameen of Cawery an intimate friend of our husband, to the guardianship, but we received no answer while matters stood thus the Peremptorily Sahsildar having issued a proclamation prohibiting us from sowing the lands in question we have sustained a

Thereon In the above letter the Collector
submits the following propositions for the ap-
proval of the Court of Wards.—

1st. That all the lands held rent free by
the late Obalacondah Naick, as well as those
held on a permanent Cowle, should be resumed
and incorporated with the Estate of Ayagoody.—

2d. That the two widows of the deceased
Obalacondah Naick, who has left no children,
should be allowed to retain, for their support,
the Punnaj lands held by their husband at
a rent of 700 Rupees per annum, and the e-
xtra lands on the same terms as they were
held by the deceased.—

3d. That Kristnasawmy Naick, a Goomas-
tah on the Shevagungah Establishment, should
be appointed Manager to the Estate on a Salary
of 50 Rupees a Month, and Paradhirasawmy
alias Obalacondama Naick, a cousin of the e-
minor, should be his Guardian.—

4th. That the whole of the ready money
should be invested in the new loan and the e-
widows be allowed to retain the Jewellery.—

With regard to the first proposition,
the Court of Wards authorize the resumption and e-
incorporation

encorporation with the Estate, of the whole rent free and Coole lands - It will of course be optional with the Zemindar, when he attains his Majority; to restore them to the family -

3 With regard to the second proposition, the Court have no objection to the Cowle and Puttah lands being left in the possession of the Widows at all events until the account of cash and jewels left by the deceased is known - The Acting Collector will endeavour to endeuce the Widows to accept a money allowance in lieu of the lands, pointing out to them that they are legally entitled only to maintenance, and that the Court are willing to give their claims liberal consideration - The Court see no objection also to their having the use of the jewellery, a description list of which should be prepared before the articles are made over to them -

4 With respect to the ready money left by the deceased, the Court think it would be better to invest it in the 5 per Cent loan as bonds can be purchased at a large discount -

5 The Court sanction the appointment of the individuals selected by the Collector to

to fill the Offices of Manager and Guardian. The Manager will receive a Salary of 60 Rs. per Mensem, whereby an additional expense of only Rupees 13 will be incurred, the balance being now drawn by the Tahsildar and Moozoomdar of Gyempully Talook, whose services will no longer be required -

3. There are at present three Regiments in this District. The first the 31st and 43d Regiments. The two first corps form a Brigade and are quartered at Vizianagarum. The 43d Regiment garrisons Vizagapatam.

4 The ordinary force in this Province does not exceed two Corps of the Native Infantry. One Regiment usually is quartered in Wallair, and one at Vizianagarum. I approve of concentrating the troops at the latter station, a detachment only being sent to Vizagapatam for the performance of the Military duties there.

5 The extra Regiment now at Vizianagarum was sent some months back in reference to the disturbances in Gurlaverry in Ganjam District.—

The arrears stand against two Estates only, the ancient Hill Zemindary of Pauchepentah and the modern Estate of Wallair. The Balance of principal against the former is Rupees 770-8-2 and is an arrear unpaid from Fasly 1259. In reference to this default the late Agent Mr A. Robertson observed in his Report dated

dated the 5th January 1855 that the original arrear had arisen from losses sustained by the Zemindar occasioned by dissentions with the managing Dewan and the hostility of the Hill Mocassadars to that functionary, which had prevented the punctual realization of the Revenue. Under these circumstances and by reason of the poverty of the Zemindar it was recommended that the debt should be remitted. No orders were passed on this suggestions and the arrear with accumulative interest remains unadjusted.

3 An enquiry was set on foot last year into the liabilities of this Estate which is entirely situated amongst the Hills. The encumbrances with interest even found to be about 23300 Rupees which were consolidated into one sum, and interest having been foregone by the claimants generally, the whole liabilities were met by a loan advanced by the Zemindar of Vizianagrum for 11,500 bearing interest at the rate of 6 per Cent. The Zemindar has restricted himself to an expenditure of Rupees 1000 per annum for his personal expences, and a receiver has been appointed

to apply the Revenue first to the payment of the Peishcush and then to the gradual discharge of the debt.

Under this arrangement all dis-

4 -cord has ceased, the dissentions and Broils which were so rife of late years and which frequently caused much anxiety have altogether terminated, while the Peishcush is being punctually paid and all classes in this wild Zemindary are satisfied.

5 The Estate is but a poor one, and this debt will not be extinguished for several years. Circumstanced as the Zemindary now is I would beg to support Mr Robertson's recommendation. But if the Board will not support the suggestion of the relinquishment of the Peishcush I beg that the interest at all events be foregone, as much of it has accumulated by reason of the delay in disposing of the original recommendation of the late Governor's Agent. The mortgagee would be disposed to increase his mortgage discharging the principal in arrears, rather than abandon the existing settlement which has worked and is working most satisfactorily.

6 The other Estate against which a

Fort St George 25th November 1856

a balance appears is the modern property of Walter It is a nominal balance originating in an order precluding the proprietor from collecting the Motursha the receipts from which were included in the assets on which the Government demand was paid on this Estate - This impost is now collected directly by the Officers of Government - The demand including interest is Rupees 1861-12-6, and as the Proprietor has a claim for exemption to this extent it is recommended that the sum be written off in my accounts - This subject was specially referred upon at length in my communication to the late Commissioner Northern Circars under date 3rd November 1855 but the items still unadjusted.-

7 The arrears in the Government Talooks of Golcondah and Survaseddy amount to Rupees 7295-12-3 they originate from Fusly 1256 - A strict enquiry has been made into these, and it is proposed to retain in account Rupees 1285-15-11 only a portion of which it is hoped to be recovered in the Settlement of the present year.- This

Fort St George 25th November 1856

8 The amount which I recommend to be written off to profit and loss is Rupees 6009-12-4 a large proportion of which is of old standing & selfsly retained in account - It is not desired to retain any demand previous to Fusly 1262.-

9 The arrears are classed under three heads Jeroyetee, Enam Cuttoobadies, and Mocassahs - The Jeroyetee Balances are Rs 5,152-2-10 of which it is proposed to retain Rupees 847-8-10 in account and to write off to profit and loss Rupees 4,304-10-

10 The Balance on Enam Cuttoobadies in the Government Talooks amounts to Rupees 2091-1-5 of which Rupees 432-7-1 are supposed to be realizable, and Rupees 1658-10-4 are found to be due by Parties from whom no hopes of recovery are entertained - This Cuttoobady is not as often imagined a light assessment capable of being realized under all circumstances - In many cases it is a heavy perpetual rent, only payable when the seasons are favorable.

20608 Fort St George 25th November 1856

favorable, and when the Lands have yielded sufficient produce.—

11 Under the Head of Miscellaneous Balances on Government Estates is Rupees [illegible] of which it is proposed to retain as a permanent Rupees Only and to write off Rupees [illegible] to profit and Loss. The observations on this item of Balance of Cuttorady after Likewise the small item of arrear—

12 If the whole Balance of Pauchekentah and Waltair be written off recommended the amount will be Rupees [illegible] -4-4, and if the Balances on the Government Estates be added Rupees 6009-12-4 the Total sum for which Sanction is requested will be Rupees 9194-7-8—
