Bd's No. 887
To the Actg Secretary to Government
In Cons. 13th March/57

Sir,

With reference to paras 8 & 10 of the Extract Minutes Consultation, dated 11th February 1857, No. 160, Revenue Department, I am directed by the Board of Revenue to submit, for the inspection of Government, a Specimen of the abstract Index of the Boards Office, to which the Collector of Nellore alludes and to report that the Statement of actual Charges on account of

of Extra Establishments for Fusly 1265 have been all received, excepting those from Ganjam, Cuddapah and Tanjore — The Collectors of these districts have been called upon to furnish the Statements without further delay.—

Revenue Board Office

To
J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

(728)
Bd. No. 4858
From the Collr of Nellore

I have the honor to submit two Statements. One of lands proposed to be given to Village Officers in lieu of their Emams which have become unprofitable or have been

taken up for public purposes, and another of lands proposed to be given to the Towns Cauzy on the former grounds, and to request that the sanction of Government may be procured for the lands proposed to be given in exchange being made over to the parties.

2 I have thought it better not to wait for the Statements from the Sub Division, which are not yet ready, as it is important that sanction for the proposed arrangements should be obtained, and the Cases are already very numerous.

Nellore
Collectors Office
19th November 1856

/Signed/ H. B. Elton
Collector

The Board observe that these Statements do not show the extent and nature of the entire Enams held by the parties - The mere fact of a portion of an Enam becoming unprofitable is not a sufficient ground for a fresh grant as the remainder may afford adequate remuneration for the office, or the neglect of the Enamdar may have been the cause of the portion becoming unprofitable - Thus in the case of the Town Cauzee a portion of his Enam is said to be over-grown with Nuth grass, but if this was not always the case with the land, it must be now owing to his own neglect - Again, in Enclosure No. 1, some fields are said to be "high land beyond the reach of water," it is to be presumed that they were always so, and unless the

The Board observe that these Statements do not show the extent and nature of the entire Enam held by the parties - The mere fact of a portion of an Enam becoming unprofitable is not a sufficient ground for a fresh grant as the Remainder may afford adequate Remuneration for the office, or the neglect of the Enamdar may have been the Cause of the portion becoming unprofitable - Thus in the Case of the Town Canjee a portion of his Enam is said to be over-grown with Nuth grass, but if this was not always the Case with the land, it must be now owing to his own neglect - Again, in Enclosure No. 1, some fields are said to be "high land beyond the reach of water," it is to be presumed that they were always so, and unless the

the Officers' Remuneration is, on the whole, insufficient, the Board see no ground for the grant of fresh lands in such Cases. The Collector will review the statements carefully, showing in a Separate Column the total Emoluments of the various Officers.

2 The total emoluments of the Town Cauzeyand his duties should be stated.

The question submitted by the Collector in the foregoing letter being purely one of financial arrangements the Board of Revenue are of opinion that it should have been submitted for the consideration of the Accountant General.

2. If the proposed arrangement can be carried out without material inconvenience or risk the Board consider that its adoption generally in every District would be a great advantage not merely as lessening one of the existing temptations to high way robbery, but also as facilitating Mercantile transactions and lessening the expense incurred by Government in conveying Treasure from the Talook to the Huzzoor Cutcherries.

To

A. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

Sir,

In your Board's orders marginally quoted, fuller explanation is required than the late Acting Collector's endorsement has furnished. I have the honor to annex an Abstract of the proceedings taken in the matter under the Collector of the District in 1855, from which it is clear that only suspicion attaches to the Petitioner, it is equally clear that the character of every public Servant is liable to be impugned in the manner in which this has been. If accounts said to be a record of improper transactions, are to be brought forward and acted on.-

2. It is however, every difficult for an Officer in my position, now to have to deal with a matter of this kind, because the manner of

of the witnesses and parties, and the way in which the alleged bribery came to light, would materially affect the decision given at the time of the enquiry. I therefore by no means wish to doubt the propriety of the Petitioner's removal from employ.

3. I would observe that he seems chiefly to complain of the way in which the one removed Officer has been reemployed, whilst he is still kept out of the public Service. There is not more against the Petitioner than there was against the late Ex Moozoomdar, who is now working as a Huzzoor Goomastah on 17½ Rupees a month.-

4 It will remain for your Board to determine what should be done. I am quite willing to regard the Petitioner as a person who should be reentertained on a fit opportunity offering or to restore him to Office, if so directed.

Memorandum

The Petitioner and several others were appointed to conduct the excavation of a Channel with a head sluice &c. for the benefit of 4 Villages, the estimate being Rupees 1102. Five persons contracted for the supply of materials. During the course of the work, this petitioner complained to the Tahsildar on several occasions of the slackness of the Contractors in the supply of materials. The Tahsildar went to the spot to expedite the supply and when there got informed that the contractors had paid bribes to the Government Officers and that there were accounts to that effect in a certain house, The Tahsildar called for the accounts and examined them and found that 50 Rupees to the Petitioner, Rupees 35 to the Moorgamdar, and smaller sums to lower Officers amounting to about 135 Rupees were debited. In the examination one Ramon Solaghan contractor said that he had paid the money accordingly. three denied all knowledge of the transactions

transaction, and the fifth said that he had been told to that effect, by the said Solaghan

The Moorassdars of three of the 4 Villages say that they did not give their shares of this extra expence, as they would have done, if that expense had really been incurred.

The Officers disown having received any thing. the Petitioner further says that as he had been rather strict with the Contractors one of them had fabricated such false accounts. The Tahsildar made a report of the above said facts and said that the work has been satisfactorily completed.

The accounts and the parties / the Government Officers excepted / were sent for to the Huzzoor and an examination took place but no more proof could be obtained than that above given. A Tamil order was then issued by Mr. Collector H. Forbes dated 5th September 1855 which is as follows

Fort St. George 20th March 1857

follows.-

"Tho' the evidence is inconsistent and contradictary as to the Officers having received money from the Contractors it is plain referring to the Accounts / those taken in a certain house / that it would not be proper by keeping them in the Service to afford scope for the said Moozumdar who received 35 Rupees, and Bootzunga row / Petitioner / who received 50 Rupees to continue their improper practices, they are both hereby dismissed, two Carnums, one Sawalmivies, one Goomastah, One Maistry and one Peon are fined, and the temporary Maistry and Peon shall no longer be appointed."-

2. The Board observe that Mr. Sullivan does not however state what impressions the investigation has left on his own mind as to the fitness or otherwise of Seeka Ram for the trust confided to him.

3. The impression left on my mind is, that Seeka Ram Thobajee is a weak but not a dishonest man as to his fitness for the trust confided to him.

4 I find that for 11 years he performed the duties of his Office and gave satisfaction.

5. In Paras 2 the Board remark that the complaints against Seeka Ram having been formally preferred, the usual procedure must be followed in their disposal. The Board therefore consider it essential that the Acting Collector should formally record the acquittal of Seeka Ram of each of the charges preferred against him.

6 I beg to observe that if the charges were formally brought they were as formally withdrawn.

7. In my former letters dated 25th November 1856, No. 276 and 277 and 21st January 1857 No. 11 I have detailed the whole matter to the Board.

8 I would most respectfully bring to the notice of the Board that such grave charges as those brought against Seeka Ram cannot legally be made, dropped and taken up again.

9. If ordered by the Board I will take up the cases seriatim examine witnesses Dca and record my opinion on each charge. But as I have already expressed a very decided opinion on them and as I have shewn above that the charges have been as formally withdrawn as made I cannot but think it would be useless labor.

10. The argument that the charges were withdrawn for a consideration which consideration was evaded will not avail as Magistrate I should not have been justified in receiving any withdrawal of charges of such a nature had I not been

been quite satisfied that they were not supported by evidence.-

2ndly The averment is not true. The consideration was rendered as shewn in my letter dated 25th November 1856, I consider the best arrangement under the circumstances will be to continue Seeka Ram in the Management until the Minor Zemindar of Shevagungah comes of age in two years when Seeka Ram will I have no doubt resign in his (the Zemindar) favor.-

3. It is for the Acting Collector to Judge whether he should take evidence in all or some of the cases but it is essential that he should in the manner usual in judicial proceedings place his dismissal of the charges (if he considers them unfounded or untenable) on the records of his Office with the papers connected with the cases, and not merely satisfy himself with an expression of his opinion on their merits in letters addressed to the Board.-

From the Collector of Coimbatore

Sir,

With reference to para 2 of the Extract from the Minutes of Consultation under date the 20th January 1857, conveyed in the Board's Proceedings of the 31st Idem No 359, I beg to explain that the actual charge and expenditure of powder necessarily varies as the Tahsildars apply for it and there are probably more Elephants, and other wild animals, in Coimbatore, than elsewhere, the other public purposes referred to, besides those already mentioned, are the blasting, and deepening, of public drinking wells, some of which have quite dried up in this, and the last dry season.-

From the Acting Collr of Salem

Sir,

With reference to the Board's Endorsement on Petition No 3506. of 1856 calling upon the Collector to report the result of the enquiry into the charge of illtreatment brought against the petitioner, whether conviction or acquittal and to state the grounds for dismissing the petitioner if the charge was not proved I have the honor to submit the following explanation.-

2. It appears from the Records of the office, that a female named Chinnay preferred a complaint before the Tahsildar of Denkencottah representing that when she was going to

Daramapoory

Darampoory under the charge of one Maneyan, she was prevented from proceeding further by certain Otherparters, and that in an assault which ensured the petitioner Moonar Naicken Moonsiff of Polam and Nunjay Gounden Moonsiff of Punjaully, took the part of the Defendants and illtreated her the Complainant by binding together her arms behind her with a rope and keeping her in Custody

3. The Tahsildar has held the preliminary enquiries into the matter, and it appears from the records of that enquiry, that the Complainant and witnesses deposed before that officer to the Moonsiffs having illtreated the female in the manner described.—

4. When the case was forwarded by the Tahsildar to the Magistrate for personal examination the woman withdrew her complaint, and stated that she had no charge to prefer against the Moonsiffs while her witnesses who had deposed before the Tahsildar

Tahsildar in support of the charge declared that they knew nothing about the matter. This circumstance naturally tended to throw strong suspicion against the Moonsiffs as having subsequently prevailed upon the female to withdraw her complaint in order to secure themselves from being punished. added to this the depositions given before the Tahsildar shewed clearly that the charge of illtreatment brought against the Moonsiffs was established.—

5. Under the above circumstances the Magistrate thought it proper to dismiss the Moonsiffs from their Offices.

From the Secretary to the Board of Examiners

To,

The Secretary to the
Board of Revenue.—

Sir,

The Board of Examiners having permitted my inserting Lithographed specimens of Official Telugu writing in the new Edition of the Telugu Selections which they have commissioned me to carry through the Press I have the honor to request you will lay the following request before the Board of Revenue— It appears to me, that by the method I propose, I should be enabled to obtain specimens of writing from each District at the expence of only 5 or at most 10 Munsiffs Cutcherry Gumastahs in each Cutcherry.—

2. There are 5 Districts of the Official writing in which I wish for specimens; Guntur, Vizagapatam, Masulipatam, Nellore and Bellary— There are 20 Arzees to be copied altogether those in Morris Selections; and I solicit the Board's permission to each of the Collectors of the above named Districts being requested to cause 4 Arzees to be copied by 4 different Gumastahs in their Offices, the distribution

From the Acting Collector of Madura } I

In reference to the Proceedings of the Board dated the 29th October last, I have the honor to forward the Statements relative to the proposed reductions of assessment therein referred to, and to observe that having so lately taken charge of the District, I am not in a position to add to the arguments advanced by my predecessor Mr Parker, and I therefore confine myself to pointing out to the Board the reduction proposed by Mr Blackburne when he was called upon to report on the discretionary permissions granted by Mr Peter as shewn in Column 9 of Statement A with a view to shew the extent to which that gentleman was inclined to make reductions although his proposition was rejected by their Proceedings of the 23d January 1843.

To Board 29th August 1836

2 I also enclose a Statement of the examination of Crops made by Mr Parker in the Villages of Madacolum and referred to in Para 4 of his letter above quoted.

3 If the present recommendation be acceded to there will be a temporary sacrifice of Revenue of Rs 5,600 according to the cultivation of fusly 1264.

Bd. No. 904

From the Acting Collector of Madura — — —

Sir

Not having received any reply to my letter of the 22d. December last applying for Copies of certain reports therein stated I beg to be furnished with them with a view to ascertain on what principle the succession to the Ramnad Estate descends and to recommend the Civil Judge to strike off the suit instituted by one Sevasawmy Tavan which Suit is prejudicial to the interest of Government.—

2 The Pleadings on that Suit are fully closed, and the Witnesses on behalf of both parties have been examined by the Civil Judge consequently the Suit has been taken into consideration for a Judgement.—

3 The Board may understand by the previous correspondence that Sevasawmy Tavan has founded his

his Suit merely on the relationship that he bears to the great grand sons of the Coheirs of Ramasawmy Tavens husband of Mungalaswara Nauchear Istimrar Zemindar while in fact there were no Brothers or Co-heirs either to the said Ramasawmy Tavan or to his father Ragasooria Poolar Taver they being the only sons of their respective fathers.

4 If Messrs. Hulbach or Pushington submitted to the Board any Report or Pedigree on the subject I shall feel obliged by a Copy, these papers being likely to throw great light on the present suit of Sevasawmy Taver.

5 I have likewise applied to the Collector of Tinnevelly to make a search to his record and to send any Papers which may be found relating to the subject.

6 I have this day requested the Civil Judge to postpone the consideration of that suit till I have received

received answers to the above applications as this is a matter of very great importance which requires a deliberate consideration of all the papers.

7 I have the honor to request that I may get an answer as soon as possible.

From the Acting Collector of Salem

Sir

With reference to Section III Act III of 1857 relating to the trespasses by Cattle, I have the honor to request your Boards instructions as to the particular fund, from which the expenditure is to be met, on account of any pound or pounds that may be found necessary to be established from the 1st. of May next, the date on which the Act will come into operation, I have been induced to make this reference both in consideration of the early date on which the Act will be enforced, as well as the necessity which has appeared to me for the Establishment of such pounds in several of the principal Towns thro' which I have already passed during the present Summabundy.—

Resolution
(784-85)

thereon— Resolved that the above letter be submitted for the consideration and orders of Government.—

2 In this communication the acting Collector of Salem requests instructions as to the fund from which he is to defray any expences which may be incurred in the construction of such Cattle pounds as may be found necessary in order to give effect to Act III of 1857.—

3 The Board observe that the fines imposed and the unclaimed proceeds of Cattle sold under the Enactment referred to will form a fund for the payment of these and other escpences incurred in carrying out its provision that until such a fund is created by the accumulation of these receipts the necessary means must, they conclude, be supplied by Government.—

4 The escpense will not, the Board presume be heavy as many pounds already exist but it is necessary to provide soon for the due fulfilment of Act III of 1857 which is to take effect from

from the 1st May.

5 The Board therefore request the instructions of Government on the question raised by the Acting Collector It seems to them that the best course will be to authorize the Collectors as Magistrates to incur such expenses on this account as may be really necessary on their own responsibility and to submit a statement of such charges periodically for sanction of Government a limit being imposed as the maximum cost for each pound. This course will obviate the necessity of keeping a separate special account and of all sums realized under the act.

6 The Board also wish to be informed by what Department Government desire such arrangements to be carried out.

From the Collr of North Arcot

Sir

I have the honor with Reference to Extract Minutes Consultation under date 13th October 1855, forwarded with letter from Board of Revenue dated 27th idem to submit the accompanying Copy of a letter dated 25th Instant from Mr Pocklington in charge of the Sub division from which it appears that although the Jaghiredar lays claim to the land in and about the Fort of Arnee he professes no documents to substantiate his claim.

2 The title on which the land has been held by Government cannot be ascertained from the records of this office but as the transfer of the land to Government was made by the Jaghiredar previous to the annexation of this district of the Talaks South of the Palaur the information might obtained from the Records of the Collectorate of

Fort St. George 24th March 1857

of South Arcot.

3. The present Jaghiredar states that the land was given to Government not in perpetuity, but to be held so long as required for the Fort and Military buildings; but he has no evidence to prove the correctness of this statement. As the right of the Jaghiredar to the land before its occupation by Government was undoubted, it would seem that the onus of proving a purchase of gift from the Jaghiredar rests with Government, and if this purchase or gift cannot be proved by any records in the Office of the Collector of South Arcot I would beg to recommend that the materials of the Government buildings should be sold and the land on which they are situated be restored to the Jaghiredar.

letters Nos. 258, dated May 16th 1856 and No. 14 dated 1st November 1856, I have the honor to forward to you the documents received by me this day from the Jaghiredar of Arnee noted in the margin with reference to the Arnee Fort.

2. It appears from the reply of the Jaghiredar that he considers that the Fort of Arnee is part and parcel, as it were of his Jaghire, but as he has no documents &c. to, in any way substantiate his claim it naturally falls to the ground.

if the land was subsequently transferred to Government by the Jaghiredar, the transfer was absolute or conditional.

2. The Government have resolved on selling the public buildings at Arnee, and the above information is required to enable them to judge whether they can sell the sites with the buildings or only the materials of the latter.

3. The Collector of North Arcot will also be requested to ascertain whether the Jaghiredar is willing to purchase the Government buildings at a fair valuation if he is prepared to do this, further enquiry into the title of Government to the land will be unnecessary.

From the Collector
of Chingleput . . .

Sir,

With reference to Extract from the Board's Proceedings No. 3500 dated 22d October 1856, I have the honor to inform the Board that having heard the inhabitants of the Coorvi Madoo hamlet before me, I learnt that their principal objection to moving to a greater distance from the Pans was the low and swampy position of the ground pointed out to them by the Superintendent of Salt under the Collector of Madras as the place where they could newly build their houses and that there was no part of their Village where they could move to which was in any degree elevated, or likely to be dry and healthy. An inspection of the ground however having been made by the Nazeer Tahsildar, and Superintendent

of

of Salt Conjointly, a spot has been found which appears to be raised sufficiently to secure it from damp and render it fit for the new houses being built. It is situated 400 yards from the present Village, and would therefore be more than a quarter of a mile distant from the Pans.-

2. The inhabitants were exceedingly averse to moving until informed, that if required to do so, they would receive the full value of their houses to be built on the estimated amount which those they were living in hand cost, with Compensation at 25 per Cent over and above for the trouble and inconvenience they were being put to by the exigencies of the state requiring them to move.-

3. The estimated Cost of their houses or the sum that would be required to build them has been calculated at Rupees 693-10 which, with Compensation at 25 per Cent will require a disbursement of Rupees 868-10 making

making, with the sum spent by the Villagers in raising and levelling their present Village site, Rupees 180-14as which they ask may be made good to them, a total expenditure of Rupees 1049-8 should the Government consider that the object to be attained is worth the Cost, I request I may be permitted to disburse the amount, and enter into early arrangements for the removal of the old, and construction of the new Village.

4 The materials of the old houses could be put up to auction and the proceeds carried to the credit of Government.-

5 No arrangements on narrower principles than those I have stated, would, in my opinion, be honorable to the Government or fair to the inhabitants, and it was only on a consideration of the liberality and justice of the arrangement that the latter were

Sir,

In returning the accompanying Petition No. 1816 of 1856, bearing the Board's endorsement of the 14th July last, I have the honor to report that the amount of Compensation due to Petitioners for the lands taken up for the use of the E. C. Canal has been disbursed to them excepting Rupees 65-7-5 which at their request has been held in deposit in the Talook Treasury pending the settlement of a dispute among themselves relative to the right of one of them to receive the amount as the owner of a portion of the lands.

2 The lands entered in Column 9 of the Statement which accompanied

accompanied my letter No. 41 of this date will be given in exchange for the Maniums enclosed in the Canal as soon as the necessary sanction for the same is received at this Office.

3 The Petitioners application for the construction of branch Canals to be carried across the Coast Canal cannot be complied with, but measures will be adopted to secure to them an ample supply of water by clearing out a spring in their lands to which they have agreed and declared in writing that their complaints have been fully satisfied.

Proposal of free transit of articles thro the Ellungee Chowkies in Travancore.

Sir,

With reference to Extract from the Proceedings of the Board of Revenue dated the 13th December 1856 calling

calling for information on certain points connected with the proposal of free transit of articles through the Ellunjee Choukey, to and from Villages belonging to the Shencottah Talook in Travancore. I have the honor to forward two classified Returns the one shewing the names of the various articles carried to the Travancore Villages east of the Pooliary Pass, for local consumption and petty trade, with the rate and amount of Export duty collected thereon, at the Ellunjee Choukey, in Fuslies 1264, 1265, and up to 30th November of Fusly 1266, and the other exhibiting the articles brought from the said Shencottah Villages to Tencausey &c. on payment of Import duty at the Choukey in question during the above

above period, with the names of other articles on which duty is leviable which have not passed through the Choukey during this period given in both the Returns as required.

2 I have also the honor to forward in addition to the above Accounts two other classified general Returns of the different articles exported into, and imported from Travancore Proper, during the Fuslies above referred to, inclusive of those articles for local consumption and petty trade which passed from Tencausey and its neighbourhood through the Ellunjee Choukey to the Shencottah Villages east of the Pooliary Pass and vice versa.

3 From the general Export Returns, it will be seen that the bulk of the Export duty collected on

Fort St. George 24th March 1857

on manufactured articles in each of the Fusilies from 1264 to 1266, is realized as shewn in the Margin, chiefly from one article, viz^t Piece Goods, the staple article passing from Tenciassy to Travancore Proper through the Poolary Pass, and that the amount yielded by the duty on the remaining manufactured articles, is very insignificant.

4 Under these circumstances, and as the Board approves of a general exemption of

of duty to a limited extent rather than a system of certificates from the local Officers that the articles are intended for use in Villages east of the Pass, from the difficulty of testing the correctness of such certificates and also that they might be made the means of ejaction I beg to propose that in addition to the exemption of raw produce, not including tobacco, or betel nut cut, all manufactured articles liable to Export or Import duty other than Piece Goods subject to duty on Exportation, and yielding a great portion of the Revenue as above mentioned be allowed to pass free in as much as the Revenue obtained from them is very trifling.

5 I have excepted betel nut cut, and tobacco, and as regards tobacco the amount collected on that article has hitherto been small, but it is always in great demand in Travancore and to allow it to pass free at Ellunjee, would be giving an

an undue preference to a trade in tobacco, which would soon rise in amount and importance through the Pass, and I would therefore make an exception as regards tobacco, and continue to collect duty on it. The same remarks apply to betel nut cut, imported into Tinnevelly.

6 Adverting to Para 6 of the above quoted Proceedings, I have the honor to state that though the boundary line recently laid down does not appear to have been followed in the sketch Map herewith returned yet the Original Map in the Presidency Records from which it / the Sketch Map in question / has been copied appears from the enclosed † Copy of a letter received from the Resident of Travancore in reply to one addressed to him on the subject, to have been the great guide for the recent revised survey

To

J. Silver Espe

Collector of Tinnevelly.

Sir.

I have the honor to acknowledge the receipt of your letter No. 1826 of the 29th ultimo together with the Extract from Lieutenant Roberts' letter and the small sketch Map of the Shencottah District.

*Herewith returned by Bangby

2. The Original of this sketch Map was sent to Lieutenant Roberts for his inspection but was not meant to be copied as an authority, for although it has been the great guide for the recent revised survey of the Boundary, some slight errors were discovered in one or two places, but all of which were adjusted by a reference to Lieutenant Conner's Memoir, and in communication with Mr Bird the then Collector.

3. This sketch Map was made by Lieutenant Conner in 1818 at the same time the great Survey of the whole line of Ghauts was under execution, but it is not a guide now in opposition to the recent revised Map which I had the honor to make over to you in September last.

Fort St. George 24th March 1857.

Board's Circular No. 3470 of date the 24th December 1855, I have the honor to submit for approval a Statement exhibiting the proposed Minimum upset price at which the Ahkarry Farms of three Talooks and other smaller farms and licenses of this District may be disposed of at auction on rents for five years.

2. Your Board will remember by reference to my letter of the 2d June 1856 No 91 that I was unable to get these Farms taken last year on a five years term, and they were of consequence rented for one year only.

I have made the Minimum upset price for the Ahkarry Farms equivalent to last years rent. And that for the Topes the same as was proposed last year as the Minimum.

3. As soon as your Board's approval is obtained I will transmit the Notice of sale for publication in the Official Gazette. The date of sale being fixed for the 20th of June, by which period I hope to return to Trichinopoly from my Summa kundy duties.

Sir

I beg to inform your honor that the Dhoney "Stree Rathakrishnasawmy" No. 221. arrived again. The Sea Customs authorities at the Port of Ganjam entered by oversight in the Export Manifest and Clearance, 214 Tons instead of 244— The Bill herein enclosed dated 6th March 1856. clearly exhibits that anchorage duty has been paid on the Vessel upon 244 Tons the only difference are 30 Tons— the name of the Vessel & Syrang agrees.

Under this circumstance I beg to request your honor will be pleased to order to exempt the anchorage duty & enter the Vessel.

2 Copies of that communication were forwarded to my subordinates who are in charge of different divisions of the District They have sent the replies of which copies are annexed.—

3 The existing practice is fully detailed in those letters and I do not consider that any relief is necessary. The Board directed that whether exemption were advocated or not. the financial effect of an exemption such as that proposed by the commissioner should be approximately stated. but I trust that under the circumstances stated in the letters of my subordinates. this information will not be still deemed necessary The subordinate revenue Officers have so much

5 I do not however consider it necessary on this account to further detain a reply from this Office to your letters under reference the more so as the Tahsildars who have replied appear to have misapprehended the object of the reference made to them.

6 Not having in this Office any records from which to ascertain the exact position of the Abkarry renter as regarded trees on the puttah lands of ryots

previous

previous to carrying out the rules under Para 7 of Extract Minutes of Consultation of 31st May 1855 I am of opinion that this part of the subject can be better dealt with by you as a general question concerning the whole district and that it is unnecessary for me to touch upon it further than to state that in the District I believe from those Palmyra and Date trees on puttah lands for which the ryots formerly paid a seperate assessment. they were entitled to manufacture Jaggery. gather fruit and cut leaves &c. but that they had not licence to draw toddy except with the permission of the Abkarry contractor and that such toddy could only be sold at places appointed by him and specified in his Moochelika throught him.

7 The fact of such trees being so separately let out by the circar to ryots

ryots irrespective of the lands on which they grew. enabled this system to prevail and was I believe unattended with inconvenience but under the new system, where the trees have been made over to the ryots on whose lands they grew such a system might give rise to inconvenience. though I am not of opinion that it would as the new system does not materially alter the position of the Abkarry renter and the ryots, or rather the trees on their lands. always supposing that to him (the renter) is reserved the monopoly of drawing and selling toddy.—

8 Under the present system the proprietors of the trees are so to say only charged and it is true a ryot might now warn the Abkarry renter away from his trees. which the fact of their being called Circar trees before might have prevented. but I do not think this at a probable course for events to take or that even under the old system it would have been competent for the Circar to compel the ryots

ryots to allow the renter to draw toddy from trees for which he (the ryot) was paying a separate tax to Government.

9 Under the old system the renter made his own arrangements and under the new containing armed with his monopoly he cando the same.—

10 My impression is that the new system is likely to be rather beneficial to the renter than the reverse in as much as there is at any rate with drawal of Government interference about the trees which may be considered a protanto concession to free trade as regards the relations between the renter and ryots—

Para 1 In reply to your letter of the 26th

26th August forwarding Extract from Minutes of Consultation dated 18th July 1856. I have the honor to state that the practice at present prevailing regarding Palmyra and date trees on Ryots holdings in the Talooks under my charge is that the Ryots has exclusive right thereto and either draws and sells toddy himself from the trees situated on his puttah land paying for permission to do so to the Arrack renters, or lets his trees to the latter who extract toddy therefrom giving the owner some small remuneration about 2 annas a tree per annum. In many cases the Ryots prefer retaining Palmyrah trees for the benefit of the produce and obtain Jaggery, fruit (Noongoo) and nuts which being buried for a time throwout roots something like potatoes and are much prized the above products are not obtainable when toddy is extracted

and

and as it is optional with the Ryots to make their own arrangements regarding the toddy drawing many keep the trees in their own enjoyment entirely as above shewn.

2 The System thus in vogue works satisfactorily and complaints either on the part of the Ryots against the Abkarry contractor or vice versa are almost unknown. relief or change appears therefore to be unnecessary. As the orders lately issued by Government regarding trees on puttah lands rule that no extra Teerwah is to be charged thereon, the trees may be said to belong exclusively to the holder of the land on which they are situated and it it is the prevailing practice to permit any ryot taking up new land to become also the professon of trees growing thereon. Altho' large tracts of waste land with Palmyrah and date trees might become private property by this means there does not

not appear any ground for believing this would effect the arrack renters injuriously as by the present system he only draws from trees and topes which are rented by him from other parties with whom he makes arrangements and does not interfere with those growing on waste land. Consequently trees on lands newly brought under cultivation would either be let to him at so much a piece or the newly become owners would pay him the usual fees for permission to draw and sell toddy. It would not effect his arrack manufacture if the owners of topes and trees refused to allow him to extract juice as arrack is here made from Juggery and Velumpatty, not from toddy as in Guntoor, and I presume it is on account of the difficulty he would experience in that District should interference with the trees be withheld that has caused the subject to be

be mosted.—

Proceedings thereon It appears from the in-
formation furnished by Mr. Banbury that so far as regard the Talooks under his charge the right of owner ships to Palmyra and Date Trees on Puttah lands is fully exercised by the occupants of such lands. so that while under the Abkarry Laws the owners of these lands are precluded from drawing Toddy for sale unless licensed as the Abkarry renter on the other hands has no right to the Toddy from the Trees in question. except with the con-
currence of the owners and on such terms as may be mutually agreed on. The Board

Board do not see why the information called for may not in like manner be furnished for the other Talooks of the District. They desire that the omission may be supplied without further delay according to the order No. 2565.

on Mr. Barter for further information, regarding his importation of Colombo Arriack and I have beg to forward copy of Mr. Barters letter to me of 12th December. In order also that the Board may have before them at one view, the correspondence that has passed between Mr. Barter and myself on this subject, I forward copies of all the letters that have passed from the beginning and beg to offer the following remarks on them.

2 The Board will see from the tenor of my reply to Mr. Barters first letter, that I referred solely and expressly to the Abkarry renter of Tinnevelly. when therefore Mr. Barter had not entered into engagements with this renter, but with the renter of another district, I consider he ought to have said so. The tenor of Mr. Barters subsequent letters of the 27th September and 8th October to which I request the attention of the Board was certainly not such as to undeceive me on this point and the manner in which Mr. Barter referred to "the renter", could lead to no other conclusion than that this was the renter referred to in explicit

explicit terms in my letter of 28th April.—

3 It now appears that the arrack renter of Trichinopoly is the party whom Mr. Barter had engaged to supply with Colombo arrack; that the quantity was not fixed, but was to vary with the requirements of the renter; that the selling price was to be Rs. 1 3 - per Gallon being after including prime cost and expenses of importation less than the duty, to which the article is now declared to be liable; and that Mr. Barter has entered into no engagements with other parties

4 I need not enter into the question raised by Mr. Barter in his letter of 12th December regarding dealings between the arrack renter of Trichinopoly and the Commissariat Department, as with that I have nothing to do. On a full consideration of all the circumstances of this case, and the explanations given by Mr. Barter, as it appears, that to whichever Government renter Mr. Barter may sell his arrack it must be at a price, less than the duty now declared, I would beg permission to recommend, that he be allowed, as,

Front St. George 25th March 1857

as a special case, to import the 2300 Gallons which he says he has contracted in Colombo, at a duty of 5 per cent on the Tariff price informing him that the whole of this arrack must be disposed of to some Government renter possessing the privilege of selling the same and leaving it to him under the circumstances set forth in his letter of 12th December either to import the arrack or get rid of his engagements in Colombo for this quantity as he may think fit, himself.

Sir I have the honor to acknowledge your letter of the 25th Instant and much regret to find from it that your answer to my application for the rate of duty leviable on Colombo Arrack, as Contained in yours of the 28th of April, should have been an error.—

I have been supplying the Renter, at a rate below the actual duty you now advise

as

Fort St. George 25th March 1857

as the Correct one, Vizt. Rupee 1 1/2 per Imperial Gallon; my transactions in this article were entered into, on the distinct understanding that Ceolombo arrack was subject to a duty of no more than 5 per cent on tariff price, when imported on British Bottoms and it now becomes to me a serious matter, as I have Contracted in Ceolombo, for a further supply of 3000 Gallons, which on arrival here, will become liable to a duty of Rupee 1/2 per Gallon a sum Considerably more than I have agreed to sell it to the Renter at; so that leaving out of the question the Cost and escpenses on the arrack payment of duty alone will come to more, than the selling rate. Will you be good enough to advise me, what I had better do in the matter, and whether on representation of these facts, Government would allow me, or the Renter himself, to import this quantity at the former rate of duty or take it from me at the tariff price as

Fort St. George 25th March 1857

as paying duty at Rupee 1/2 per Gallon, is out of the question.—

I duly received your last letter concerning any further importation of Ceylon Arrack, on receiving your former Communication apprizing me of the duty being leviable at the rate of Rupees 1½ per Gallon, I wrote to Ceylon to send no more, and try to cancel the contracts; I have succeeded in cancelling a contract for 700 Gallons, but am unable to get rid of the others, to the amount of 2300 Gallons, without incurring Considerable loss. facts connected with the subject of importation of Colombo Arrack by you "the Government would allow you, or the Renter himself to import the Article in question, to a given extent at the former rate of duty charged, or the Government take it from you, at the tariff price"

2 On looking into the Correspondence which has taken place between you and the late Head Assistant Collector, it appears that you applied to, and obtained from that Gentleman, two permits, to export 158, and 322½ Gallons of Colombo Arrack respectively to the Arrack Renter at Trichinopoly.

3. In replying to the question put in your letter of the 17th April I expressly informed you, that you could "import Arrack from Colombo on account of the Arrack Renter of this District, to whom the privilege of purchasing and selling Bathayee or Colombo arrack at Tutacorin, has been rented included in the general Arrack rent of this District" under

4. Under these Circumstances I request you will at your earliest Convenience afford me information, on the following points Viz.t

Who is the renter with whom you have contracted to supply Colombo Arrack, his name and residence? Is he the Sub renter of Tutacorin? And as in my letter of 28th April I expressly informed you that the Arrack renter of this District, was the party, for whom you could import the Article at Tutacorin, how came 1180½ Gallons of Arrack to be sent to the Arrack renter of Trichinopoly as I now find from the Correspondence that was passed between you and the late Head Assistant Collector? also, on whose account the 2979 Gallons which appear from the Chunkey accounts, to have been imported by you between the month of April in which you addressed your first letter to me on the Subject and that of September, have been imported, the renter of this District being the party, for whom you were informed by me, you could import the Arrack? and on whose account the 2300 Gallons Specified in your letter of 8th October are to be imported? It is necessary I

Sir

I have the honor to acknowledge your letter of the 3d Instant I was applied to by the Arrack renter of Trichinopoly in April last, requesting me to inform him at what rate I would supply Colombo Arrack, and was subsequently advised, that on the arrival of the Cavalry Regiment at that Station, that he should require a large quantity monthly; before answering him, or making any arrangements for

Fort St. George 25th March 1857

for the Securing of the Article in question, I wrote to you for the following information Viz.t whether it was legal and unobjectionable for me to import Colombo Arrack for Sale to the Arrack renter, and if so the duty it would be liable to, the answer received from you under date 28th of April, was considered, and taken by me as quite Satisfactory, and Conclusive on the points on which I sought your advise.

In my Correspondence with you on this subject, you will not I think find, that I have ever alluded to any particular Arrack renter, nor did I ever think of doing so as my attention was directed to supply any Government Arrack renters, that would send me orders, precisely in the Same manner as I should act in any other trading transaction Now you draw my attention to the fact, I observe that you particularize this District Arrack renter, I surmise however that there cannot be two rates of Import duty on the Same article under the Same Government, one to suit the wants

of

Fort St. George 25th March 1857

of Timevelly, the other of Trichinopoly and the natural inference to be drawn is that if it is unobjectionable to import and sell to the one, it becomes equally so as regards the other both having purchased their right to sell from the same Government; had I for a moment Conceived a different idea, I should instantly have applied to you for further information, as I did in the first instance, instead of applying to your Head Assistant for permits. With regard to any Contracts I may have mentioned in my Correspondence, you seem to have misunderstood me. I have only contracted to be supplied and agreed to supply at a certain price. The Trichinopoly renter is the only party I have yet supplied with Colombo Arrack the Arrack now Contracted for in Colombo would go to him, or any other party (being a Government Arrack renter) who sends me orders, provided you will allow the

Fort St. George 25th March 1857

the importation.

That the duty should be 5 to 10 per cent is a most natural inference to be drawn from the general tenor of Schedule A. Act IX of 1845, and you will find it week by week so quoted in the Price Current printed in the Madras Athenæum

Sir Collector of Tinnevelly

I beg to acknowledge your letter of the 5th Instant calling on me to supply further particulars regarding my engagements to supply Colombo Arrack to the different Renters. In reply I have to inform you that I found the monthly quantities required by the different Renters, excepting the Renter of Trichinopoly / Mootoo Samai Pillay / so small as not to be worth my while to open an account for. I therefore only agreed to supply the Renter above alluded to, in quantity from 1 to 2000 Gallons monthly as he may direct at a charge of Rupee 1 3 a per Imperial Gallon inclusive of all expenses, Leakage &ca since my last Communication, I regret to find through my Agent at Trichinopoly that

that the Commissariat Department, there have offered and sold 19 casks of Colombo Arrack to the Renter, at Rupee 1 .. .. per Gallon; whether the Gallon is an imperial one or what the quality of the Arrack supplied, I cannot at present say, but I much fear that such an act on the part of the Commissariat Department, in the face of my engagements will prevent the Renter taking his supplies from me as agreed to, and the result be a heavy loss to myself; if the Commissariat Department had been accustomed to supply Colombo arrack to the Renter, I should have had nothing to complain of, but it was not until the Renter alluded to agreed to obtain his supplies through me, that the Commissariat Department stepped forward and under sold me; I cannot conceive that it has been done to do me an injury, or as a source of profit, which the selling price prohibits; but I am at a loss to account, why a trader dealing honestly and in good faith, should

should be so thwarted by any portion of that Government, whose welfare his capital and labours tend to increase I am well aware, that neither yourself or the Board of Revenue have had to do in this; both are probably ignorant that the Competition has sprung into existence, and I only mention it now, to show you another Cause for anxiety, if not loss, that I have to contend with. I have at present on hand imported and awaiting importation 4,800 Gallons of Arrack all of which would have been sold ere now, had not an unfortunate misunderstanding arisen. — If you and the Board oppose and refuse my application, and the Commissariat is allowed to enter into Competition with and under sell me, before my Arrack has been taken off my hands, by the Renter, I must be a severe loser, and the Government no gainer. Had I acted in a clandestine or irregular manner I should have deserved no consideration but acting on an error, and in error myself, I hope it may not be thought necessary to inflict on me a loss; I have to the best of my judgement acted in an unobjectionable manner throughout, and I therefore look

Fort St. George 25th March 1857

look to the justice of the Board to allow me to close my dealings in this matter, without detriment. The mere fact of my having applied to your Head Assistant for permits, will I trust be taken as sufficient to show, that I conscientiously believed in selling to the Trichinopoly Renter, that I was only acting in conformity with the spirit of your answer to my application, bearing date 28th April 1856; it is true the same letter alludes to the Arrack Renter of this District but I submit that this cannot in itself be held to affect the

Fort St. George 25th March 1857

the question if you and the Board read the Correspondence and decide the matter on that liberal basis, which I trust will not be found prejudicial to the real interest of this Government for whose consideration I would suggest the permanent easier rate of duty on Colombo Arrack, the adoption of which would very materially increase the value of the Government Rentals.

From the Acting Magistrate of Malabar. } Sir,

Submits Extract from a Petition from certain individuals at Cannanore and correspondence with Captain Rolston on the subject of his objecting to the blanking of private Gardens &c with the view of carrying out the Sanitary reform of the country and suggests his opinion thereon—

1 Dated 3d Instt 1032 — 15th December 1856.
To Do dated 16th Dect/56.
From — 22d Do

In submitting the accompanying Extract from a Petition and Correspondence with Captain Rolston, Police Superintendent of Cannanore, I would venture to suggest, that it is not improbable that the persons so aggrieved may have recourse to the Civil Court. I almost fear, notwithstanding the order of Government relied upon, that as the land is the private property of individuals, and not of the Government, the right of Government Officer to enter on it and remove trees, without compensation, or the prevent the free use of their private land may be successfully litigated in the Civil Court.—

2 You are aware that the native land tenures of Malabar would probably throw on the public Officer the onus of proof of a legal title to interfere.—

3. The prevention of the burial of corpses, I consider can be enforced, despite the Civil Courts, but I think that a legislature enactment

enactment is emergently required to enable the Magistracy to put a stop to all sepul-
-tures within the towns of India, as is now the case in England.—

In Malabar the more populous the place, the more numerous are the Mosques around which the dust of generations of dead is heaped up, and is daily being added to. It is a common practice with the Hindus to bury in their garden and back yards, and Com-
-pounds, sometimes even in their houses. The deadly effect of the practice on the lives of the living can scarcely be exaggerated es-
-pecially in Mophla Bazaars, and Cholera and small pox often disseminate a Mo-
-pha population living close around mounds of dead.—

I dated 13th Decr 1856 & From — 15th Do —

4. I append a recent correspond-
-ence with the Superintending Surgeon on the subject.—

5. Land ought to be taken up under act XX of 1852. for the purpose of forming cemeteries. I can conceive no more urgently called for step in sanitary reform.—

The aforesaid Sallop Deslom of

the Poyalty Kundotty lies beyond the limits of the
Parish
Cantonment and in the Cherical Taluk, but Captain Rolston, under the plea that that Deslom is situated within the limits of the Cantonment, has caused the Cocoanut Trees we planted during the last ten years, and all other older trees — such as Jack, Areca &c., also planted by us, with much expense and labor, and which were highly useful to us as a means of support to ourselves and families, and were stand-
-ing on the grounds which we, the inhabitants of the place, have for a series of years been uninterruptedly dwelling upon, and enjoying on Jenm or fee simple, as well as on Mortgage and various other tenures, and which were as-
-sessed to Government Revenue to be forcibly cut down, and the mud walls &c. appertaining to the gardens to be broken down, and levelled to the ground, and has moreover directed, that in future no trees of any kind whatever, nor even Plantain trees, or vegetables, of a tempo-
-rarily profitable nature, should be planted, and that if such be planted by any party, it will render him liable to a fine of 100 Rupees and imprisonment.—

Besides this the said gentleman has

ordered

ordered that we should pull down our houses and rebuild them with tiled roofs, and that if we fail to do so, they will be taken down and razed to the ground.—

That we are not permitted to plant any trees &c. in the gardens, and enjoy them, is a matter of great grievance to us.—Besides this, as the Trees paying Government tax have been cut down, it is not possible for us hereafter to pay such tax, and maintain ourselves.—

Moreover it has hitherto been the practice for the corpses of Jews and Nairs being buried in the gardens belonging to themselves, but Captain Rolston has now commenced to enforce in our Village, which lies beyond the limits of the Cantonment, and where we dwell in gardens which are private Jemin property, the same Proclamation which he has carried out within the Cantonment, Viz.t. that no corpses of men and children, nor foetus discharged from abortion, or even secondine, should be buried in our gardens, and that any person infringing this rule will be severely punished.— This is a source of great grievance to us.—

It would be encroaching too much upon your time to attempt to refute in detail the allegations advanced by Petitioners, whom I have ascertained have been instigated by the whole body of Seirs to act in this manner, from a sole desire to give trouble, as the orders of Government regarding the planting of trees and burials (copies of which are attached for your information) have been repeatedly published by beat of Tom Tom within the Military limits, and have been explained by me personally to the whole Seir body.—

Cultivation in gardens has not been prohibited, but the planting of trees has, and under cover of a luxuriant brushwood, several hundred trees were planted (in direct contravention of the orders of Government) which I have caused to be rooted up, and the brushwood cleared away, and have thus excited the ire of the people.

Proceedings thereon (865-66) B. No. 938

The Board are unable to find on their records any correspondence with Government on the subject of the orders which Mr Robinson refers to as having been complained of by the parties affected, and is likely to be litigated in the Courts.

2 There seems to be no doubt that the lands alluded to are within the Military limits of the Cantonment and that the Cocoanut Trees which Captain Rolston caused to be removed were planted subsequently to the issue of the prohibitive order of Government, what right the Courts might give to this consideration cannot of course be predicated. The only thing the Board can do in the matter is to lay the question before Government if the Acting Magistrate wishes it. It appears to them however that the preferable course will be for Mr Robinson to explain to the Military authorities the grounds on which he doubts whether the order of Government can be strictly enforced in Cananore. These the Board presume are simply that the land

land is private and not Government property and that in consequence Government cannot restrain the owners from the free exercise of all proprietary rights though it may render them amenable to police regulations. Should the Acting Magistrate desire it the Board will submit the matter for such orders as Government may see fit to pass, but the question does not appear to be within their jurisdiction.

3 As regards intermural sepulture the Board concur with Mr Robinson as to the disability of its prevention. A legal enactment would however be necessary for this purpose and before entertaining a proposal for the enactment of a Law, Government would expect fuller information as to the light in which the people generally would regard such a violation of their prejudices and customs.

4 In all measures of this nature it is an object of importance to secure the concurrence and cooperation of the people as much as possible. On learning the acting

Acting Magistrates opinion on this subject and as to the practicability of obtaining land for cemetries in suitable and convenient localities the Board will give the subject careful consideration as they fully recognize its consequence as an important step in sanitary reform.

Bd's No 360 From the Civil Auditor

Sir,

The Collector of Canara in reply to an objection made by me in the audit of the Pensionary allowances of his District for Fusly 1264 has furnished me with an Extract from the Proceedings of the Board of Revenue dated 11th September 1854 sanctioning a revised Statement regarding religious grants amounting to Rupees 2151-4-0 submitted with his letter to the Board dated 10th August 1854, I have

have the honor to request that you will be so good as to inform me at your earliest convenience under what authority the Board saw fit to record their sanction to the Collector's proposal.

2 I take this opportunity of informing you that in the Extract from the Proceedings of your Board dated 17th January 1857 No. 205 furnished for my guidance the the name of the Pensioner has not been given in those orders, an omission which renders that Document a useless record in my Office. I request that you will therefore forward a Copy of the Statement submitted by the Collector of North Arcot referred to in the above Proceedings to enable me to check the Pension in question and I beg that in all future Extracts from the Proceedings of the Board on the subject of Pensionary allowance the name of the Pensioner and the amount to which he is entitled may invariably be given, as it is important that this Office should have accurate information on both these points

Under the circumstances stated, the Collector must make the arrangements which in his judgment are most likely to ensure the efficient despatch of business, and involve the least inconvenience to the people.

2 The Palmanair Talook is rather distant from the Head Assistants Cutcherry at Vellore and the only good road from it to the latter place is through Chittoor the station of the Magistrate and of the Courts. In this respect therefore the proposed

From the Collector of Nellore — submitting for the approval of the Board a proposal for filling up the office of Head and Nail Sheristadar of the Nellore District.

With reference to the 2 Extracts from the Proceedings of the Board of Revenue dated March 16th 1857 Nos. 799 and 806 the former sanctioning the retirement of the Head Sheristadar of this District, and the latter authorizing the appointment of V. Ramiah the Nail Sheristadar to the Office of Head Sheristadar of Sangiri. I have the honor to submit for the approval of the Board the following proposed arrangements for filling up the two situations in question.

2 The wants of the District, as the Board must be aware are under such circumstances great and urgent and the difficulties in which I shall be placed are likely to be very considerable unless I can promptly make arrangements to secure the services of some intelligent man

4 In deference to the wishes of the Board as expressed in their letter of the 7th Instant I beg to propose that A Krishnarow their Head Goomastah should be appointed Nail Sheristadar. I should have preferred for this post an educated Native like

like V. Ramiah and there is a person possessed of Considerable advantage in this respect among the Subaldars of this District of whom the Sub Collector Mr Minchin has the highest opinion But if the arrangements proposed above are sanctioned in their integrity I hope I may obtain his services as Head Moonshee though he would get no increase of pay thereby and that the interests of Government and the efficiency of the Department may be found to have been duly provided for.-

V. Ramiah was actually engaged in preparing the accounts of the Nellore Talook the settlement of which was to have been commenced immediately Two other Talooks in the Principal Division will still remain to be settled besides those under the Head Assistant who has gone out for the purpose Under these circumstances

The Board of Revenue having approved of the retirement of the Head Sheristadar of Nellore and of the appointment of the Taik V. Ramiah as Head Sheristadar of Tanjore the Collector proposes the following arrangements to fill up those Offices Viz.

Bar Venkat Row to be Head Sheristadar and a Pistna Row the Head Goomastah of the Board's Cutcherry to be Taik though in the latter post he would prefer P. Chenchal Row Tahsildar of Cavelly.

2. The Board remark that they have lately recommended to Government the appointment of 3 Deputy Collectors to the Nellore District. If this proposition is acted on, the pay of the Head Sheristadar will be fixed at Rupees 200 per Mensem and the Office of Taik will be abolished. The subject has been for some time under the consideration of Government and pending the receipt of their instructions the Board do not

feel

feel at liberty to make permanent arrangements in those situations which may be effected by their decision.

3. Apart from this consideration the Board would have required further information regarding the Collectors nominees.

4. Bar Vencata Row is the Board believe a connection of the Agoor family whose influence in the district though now greatly diminished might still be inconveniently strengthened by the appointment of one of its Member to so high a position; Moreover he has never been a Tahsildar nor apparently was he ever been employed in the Sheristah Department. Further both he and Krishna Row are Bramins and their appointments would thus be opposed to the orders of Government as regards P. Chenchül Row the Collector does not state his period of service, attainments &c. It is where high educational attainments and approved service though both are combined that the Board waive the other considerations which influence them in

in the confirmation of a Collectors nominees to be high Offices of Read and Naib Sheristadar.

5. The Board however will not at present require information on the above points. For the reasons stated in para 2 they cannot authorize any permanent and the best temporary arrangement seems to be merely to fill up the Office of Naib Sheristadar Vacant by the promotion of V. Ramiah leaving the conduct of the duties of the Read Sheristadar to the present incumbent pending the decision of Government.

6. Mr. Elton can appoint either Bar Vencut Row or P. Chenchul Row to act as Naib on the distinct understanding that the office may shortly be abolished. It will then be for consideration whether either of them or some other individual should be nominated Read of the Collectors Cutcherry on the new footing.

It has not been possible to trace in the records of Major Boileau's Office any Official data to show that the Talook boundaries as they now appear were revised by him or under his directions but I have reason to believe that the requisite alterations were made whilst it was in his hands excepting however the boundary between the two most southern Talooks.

The latter duty has been executed under my orders and I have no doubt that the divisional lines are at present correct. The cobalt blue boundary mark of the Tritrapoondy Talook is intentionally thick and dark as

3 As regards intermural sepulture the Board concur with Mr Robinson as to the disability of its prevention. A legal enactment would however be necessary for this purpose and before entertaining a proposal for the enactment of a Law, Government would expect fuller information as to the light in which the people generally would regard such a violation of their prejudices and customs.

4 In all measures of this nature it is an object of importance to secure the concurrence and cooperation of the people as much as possible. On learning the acting

Acting Magistrates opinion on this subject and as to the practicability of obtaining land for cemetries in suitable and convenient localities the Board will give the subject careful consideration as they fully recognize its consequence as an important step in sanitary reform.
