Proceedings of the Board of Revenue

Monday the 18th May 1857.

Read again Extract Minutes Consultation dated 17th March and entered in Consultation 4th April 1856.

Ordered that the following letter be sent.—

(767)

To

The Revenue Secretary to Government.

Sir

In the Minutes of Consultation dated 17th March 1856. No. 311 Revenue Department the Government whilst declining to comply with the request of the Board to be supplied with a printing press expressed their approbation of the Boards' wish to print their Proceedings and stated that a future time when the obstacles which prevented their at once acceding to the Boards application should be removed, they would be prepared to entertain a similar proposal, duly supported by facts and by calculations of means and results.—

2. Upwards of a year having now elapsed since

Bd. No. 1641.
To the Revenue Secy. to Government.
Indorsg. 24th April 1857.

since this correspondence passed the Board desire me to bring the Subject again under the consideration of Government.—

3. Their present proposition is limited to a mere Office Press, similar to what every Collector almost has been supplied with but with an extra quantity of English type.—

4. The circulars of the Board are now struck off at a private press, and the average charge for printing them during the months of January, February, March, and April of this year, amounted to about 50 Rupees per Mensem.

5. If supplied with a press the Board intend to print all these and thus the above mentioned expense will be wholly saved. Tabular and other Forms required for use in the Boards Office and many of which would be very acceptable to Collectors would also be struck off and the Gazette Press relieved of that duty the Board would further, as far as circumstances permit, print any very important letters Proceedings Statistical Tables and other papers which might with advantage be circulated to Collectors.—

6. By this arrangement the Government will be put to no expense beyond the value of the material supplied, an outlay which will eventually be covered by the savings effected in the single item of printing the Boards own circulars. The Boards Establishment already includes an experienced and competent Foreman and a Compositor and they would provide the other requisite servants without any additional cost to Government.—

7. The experience gained in this limited proposal will enable the Board to judge how far a more extensive adoption of Printing would answer in their Office and would in no way interfere with any general arrangements which Government might hereafter see fit to introduce.—

8. Considering the restricted nature of their present proposition the Board have not thought it necessary to enter into detailed calculations which would under existing circumstances be little, more than rough estimates.—

9. In the accompanying Memo will be found a list of the Materials required by the Board to commence operations. If this can be supplied from the Fort St. George Gazette Press, the Board will introduce printing almost immediately. but if not, they would request authority

Fort St. George 18th May 1857

authority to purchase it in the Market or procure it either from Calcutta or England. The necessary Press Furniture can of course be manufactured here, and for which an estimate will be submitted for Sanction should Government approve of the Boards proposal.

10. The Board also request permission to make such alterations in the details of the moyen Zabitah as may be found necessary to provide for a printing Establishment without incurring any extra expense to the State.—

Bd's No. 1642
To the Acting Secretary to Government Revenue Department

Sir,

I am directed to acknowledge the receipt of Extract Minutes of Consultation dated

R.D. No. 1442 of 18th May 1857
A No. 1742

12th instant regarding the renting of Abkarry Farms generally and of that of North Arcot in particular.

Stating the views of the Board in reference to the instructions contained in G.M.C. of 12th instant on the subject of the renting of Abkarry Farms generally and detailing the mode in which they propose leasing that of North Arcot in

2. The Board understand it to be the desire of Government that public competition should be invited in all cases but by means of sealed tenders with a view to prevent the extravagant bids recklessly made at auctions. It is also the intention of Government that the Board should "make their own selection" of the Tenders.

3. The Board do not understand whether it is intended by this that the tenders should be addressed to the Board and that they should form sources of information independent of the Collector form their own judgement as to

which

which tender is the most eligible. If this
the meaning of Government they would respe
fully urge that it would be quite out of their pow
fulfil the intentions of Government in their
full spirit. They are necessarily ignorant of
character and means of the inhabitants of
Provinces likely to bid for such farms and
spondence with Collectors subsequent to the rec
of the Tenders would often preclude a decision
previous to the expiration of the Yearly Pat
offers are as easily made by tenders as by bid
and in fact the Board have now before them a
written Petition from a Party tendering Rupees
135,000 for the Northward Abkarry and in prof
his ability offering adequate security but such o
the Board would be wholly at a loss which t
party to accept and free competition would be
greatly checked if a really bonafide offer supp
:ed by adequate security were rejected merely becau
a distant authority considered that that the
sum offered was more than was likely to be o
or that the personal character of another and
lower tenders was superior. The Board's decision w

be constantly called in question and bidders might
urge with justice that so long as they executed the
documents and furnished the securities required
by Government for the due fulfilment of their
obligations it was for them and them only to
determine how much they could afford to pay.—

4 On the other hand if the Board
are to be guided by the recommendations of the
Collectors they think the best course would be to
place the responsibility on the local officers - to
allow them to receive and open the tenders and
keeping the terms secret to make such enquiry as
may be necessary into the character &c of the
bidders and then forward the Tenders with their
opinion as to the most eligible for the Boards
confirmation.

5 : As regards the general question which
of the two competition by tenders or by a public
auction if is preferable the Board feel some
difficulty in giving a reply.

6 The public auction system leaves no
opening for corruption and other malpractices to
a Collectors Cutcherry Servants The bidders may
indeed intrigue among themselves and buy off
Competitors

Fort St. George 18th May 1857

Competitors but in the highest bid above the
minimum is always accepted at once the
intriguing is limited to the parties themselves
and may occur equally under any system of
Tender Extravagant bids are no doubt made
in the excitement attending a public auction
but if the conditions of the leases are strictly
enforced and arrears realized by immediate
of the property of the renter or his securities
offers will soon cease to be made.

7 The system of Tender again
affords the great advantage of allowing the
Collector to select the renter in most likely not
only to fulfil his engagements but to abstain
from forcing the sale of liquor in every way
and doing much moral injury. extravagant
offers will still continue to be made as the
only penalty is the negative one of
possibly not getting the rent but there is the
power of accepting an offer known to be sufficiently moderate to enable the renter to
pay it regularly and to place him beyond the

Fort St. George 18th May 1857

necessity of resorting to every objectionable
mode of increasing his gains. On the other
hand however great scope is given to corrupt
practices and a selection as to be made
out of several tenders unprincipled persons
professing or supposed to possess the power of
unduly influencing the final decision of the se-
lecting authority will not be wanting and
unscrupulous bidders will not hesitate to
purchase their good will on pretended power.

8 As the Abkiarry in several
Districts has already been leased by pub-
lic auction for periods of five year a gene-
ral rule is not at present required and
probably the best plan will be to have it
an open question for the Board to
decide in each in communication
with the Collector as circumstances
may seem to warrant.

9 As the Abkiarry of North Arcot
must be settled at an early date the Board
will instruct the Collector to invite at once

1609

Fort St. George, 18th May 1857

sealed tenders for that farm, and after opening them and considering the relative claims of the parties tendering, as to competency and respectability, to forward the same, with his opinion, to that Board for their final decision. The result will be submitted to Government for approval, as required. But the Board would beg to point out that as this course is not usual except in special circumstances, when it is considered proper to solicit the orders of Government.

under the authority vested in Collector

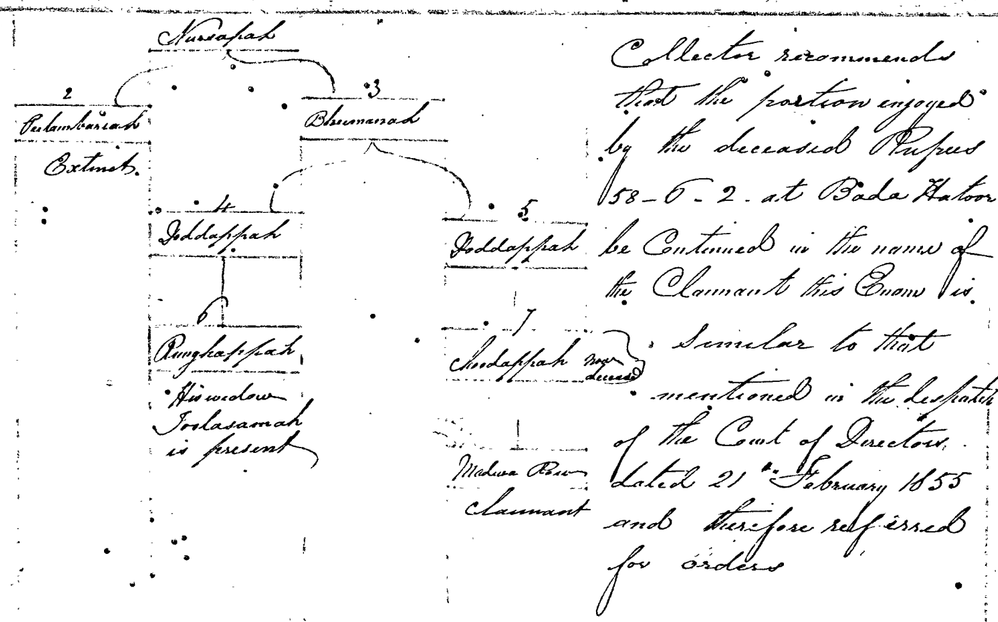

Pymaishdar Moosaribhut admits that her Husband gave the Enams in Gift to Venkajahcharry her brother about 25 years ago and that she after the demise of her husband at the request of the year Sarvary of Sucka 1702 Corresponding to A. D. 1840 executed the deed of Gift which is now produced She also states that she has no objection to the Enams being continued to the Claimant. The deed of Gift was executed about 15 years ago and the name of Soobbamah widow of the Pymaishdar is entered in the Enamthy accounts up to 1837, and that of Venkajahcharry deceased from that period. The fact of the Enams having up to 1837 been entered in the name of Soobbamah widow of the Pymaishdar militates against the alleged fact that it was given to Venkajahcharry 25 years ago and the fact of the widow making the Gift in 1840 goes to show that it was not fraudulently given in a regular and authorized manner to Venkajah charry. The Gift must therefore be considered of recent date 1840 and the deceased can only be considered as having held Enam for 11 years i e till 1851 the date of his death. and therefore the Board can dispose of it at their pleasure The Collector would recommend its being restored to the widow of Moosaribhut the Pymaishdar for her life and then resumed.—

I have the honor to forward
as per list accompanying the accounts
connected with the Settlement of this Dis-
-trict for the past Fusly. they have
been prepared according to the forms re-

from the Secretary to Government
dated the 23d August 1856.—

2 : The season of Fusly
1265 commenced tolerably favorably
for both wet and dry cultivation.
There were reasonable rains in June
and in part of July, though the total
fall in these months was below the
average. the consequence was some fall-
-ing off in the extent of early dry land

an extent as in the preceding

Moonsiffs and Pettundars

26 The increase un
this head occurred in the
following Talooks -

No.	Talooks	No. of Villages	Moonsiffs	No. of Villages	Pettundars	
1	Mogultoor	2	11 4	4	45 4	56
2	Wondy	1	8	1	17 8	26

	Total	2	1 5 4	4	48 6 8	54
		13	85 9 4	23	265 11 8	349

The increase is owing partly to an addition to the number of Pettundars at the earnest Request of the Villagers to secure the more efficient management of the internal affairs of the villages but chiefly to the augmentation sanctioned where the existing Remuneration was clearly insufficient for the duties to be performed - The increase it may be noticed was allowed on the joint Renters agreeing to add the same to the present demand so that no additional Charge is entailed on Government -

Curnums Moonsiffs Nankawaries

27 The small increase on account of the village Servants named in the Margin was allowed after due enquiry and only in Cases where the additional Emoluments were fairly due on the Resources of the Offices not hitherto employed were deemed to be necessary -

29 This increase is exclusively in the Talooks of this Sub Division the amount forming Alienated lands has been greatly Complained of as unduly

30. I now proceed to explain the Causes of the increase or decrease in the "Sundry items" as heretofore "Ready money Collections" alluded to in Statement No. 6

Index or agraharams

This decrease occurs in the Villages of Yalatoor and

Stamps

Hemjoody in the Tamvaka Talook where the quit Rent on lands taken up by Channels and embankments was struck out of the demand

Water cess on Do.

The increase is owing to the Cess having been Charged a new in Fasly 1265 on several Agraharams which had derived benefit from the anicut Channels -

Water cess on the Jeroyte and Enam lands in the Pallapore Estate

This water tase has been Charged in Fasly 1265 on the jeraytee and Enam lands in the estate noticed which re: ceived irrigation for some years past from the anicut Channels -

Sundry Small farms and Sources

The decrease in this item is owing to the deaths desertion and poverty of certain individuals liable to the tase -

Tax imposed on Enams Cultivated by ryots. also Cultivating Government Land

This increase is solely in the Village of Rajahmundry and varies in proportion to the extent of Enam land Cultivated by Ryots and others Cultivating Government Land -

Water Cess on Enams

of this increase Rupees 530-3-9 is in the Sub

Sub Division and Rs 2343-1-1 in the Taluks in the Collectors Division and arises from the increased Rate of 5 and 10 per Cent Charged in the former and of 5 Rupees per Potty in the latter on all Enams which had been irrigated from the anicut Channels for 3 years with Circumstances which as already explained forms the subject of a Separate Report

32— The decrease in the Amlapoor and Cottapully Talooks is chiefly from the Reductions made in the Rents of Certain villages where circumstances appeared to me to Require it The falling off in Bhelly is attributable partly to the assessment of Government lands taken up by Channels and of those given in exchange for the Enams taken up on the same account being deducted as well as the assessment on Lands submerged and Covered with Sand or washed away by floods and a Reduction made in the Rents of a few villages under Similar Circumstances as in Amlapoor and Cottapully—

The decrease in Tandemullah is from a Reduction in the Rent allowed in Several villages Some of the land in which depends for irrigations on the Banks or Lands on which the Lands in the Billoomilly and

and Byanagoodem Estates depends and which has not yet been restored and the Remission allowed on account of lands left waste from the impoverished Circumstances of the Ryots. The increase is mainly Caused by the under cost imposed under the circumstances which are Separately Reported upon. In Bagalcumdy the augmentation is Chiefly on account of its lands for higher proposals were received.

Increase Revenue for Fusly under Extra Revenue is Chiefly those levied in previous year Regulations IX of 1822 transferred from deposits to

the above head in the year under Review. The increase of Rs 1111 in the Commission charged on the Pittapore estates is of Course owing to the enhanced amount of the Collections on account of the same in Fusly 1264 Compared with the year immediately preceding.

Collections & Balances. 34 Statement No 11 shews the demand Collection and Balance Current and arrears of all sources of Revenue the balance on account of Current Revenue under all heads for Fusly 1265 is Rs 25875-6-11 and that on account of arrears Rs 57175 6-2 of the former sum Rs 2709-8-1 is on account of permanently Settled Estates Current as also Rs 21.08-13-11 on account of old arrears. A careful enquiry was made into the balances for
Fusly

Fort St. George 18th May 1857

Fusly 1264 during the first Summabundy as
as into the doubtful items of the previous Fusly
result was their classification as follows:-

Irrecoverable	2963-7-11
Doubtful	1179-2-5

The recoverable balance will be realized
without further delay. The portion classed as
irrecoverable comprizes Rupees 1238-13-4 due by shroff
Pyots Rupees 2094-0-6 by those who have left the
Villages and Rupees 350 Pg. 15. The outstandings
too poor to liquidate the demands against them. The
balance also includes Rupees 68-0-2-6 on account
of lands taken up by Channels and on Banks and
roads, regarding which no measurements have
been received in time to warrant the detail
of the disallowance from the Summabundy
Rupees 982-9-10 on account of lands washed away
by floods or covered with Sand, and Rupees 89
on account of lands rendered unfit for cultivation
on which the crops had been destroyed. Under
circumstances I beg to recommend that I be
authorized to write off the irrecoverable balance

39 The balance on account of

Revenue, Land, on account of Fusslies previous to
Fusly 1265 is Rupees 39 15 3 and Motumpha Rupees 3-15-6
total Rupees 43-14-9 of the former Rupees 32-14-0
have after due enquiry been classed as irrecoverable
The principal item being a Sum of Rupees 21 due
in the Samvatsar Taluk, being a fine imposed
for the trespass of cattle, but which has since been
remitted. The recoverable Amount will shortly
be brought to account. The Motumpha balance
of Rupees 3-15-6 has already in my report for
Fusly 1264 been classed as irrecoverable.

40 There are no entries to be made in
the Statement No 5 of Crops dried up and the
remission given in consequence, or in No 6 Showing
the lands held on progressive Cowle.

41 It will be seen from the
Marginal Statement that there
is a decrease of 120 Acres in
the extent of Sugar Cane
Cultivation. This is mainly
attributable to the different

there is good deal of Cane

49 It will be seen that there is an increase

increase in the Fasly under report on both Rice and Inland Consumption One of the chief Causes is doubtless the increasing prosperity of the people evinced by the increased facilities of inland carriage whereby the cost of transport is greatly diminished. The increase is perhaps in part owing to the measures taken in the Fasly for the disposal of Spontaneous salt. The included abolition of the Negapatam Salaire tended temporarily to increase the Sales at that Store. People in that part of the Country were anxious to buy salt while it still available near their homes & at that time for some time Current that the Sales at Nagapatam would be stopped for a time in order to get rid as fast as possible of the salt at Negapatam and this occasioned some rush of purchasers upon the Salt at the former named Stores The increase under recovery of advances is owing to the whole of the balance due by Purchasers for Fasly 1204 having been collected in Fasly under report while no balance of that was collected in the preceding year.

Under the head of Salt for Materials a decrease of Rupees 4[illegible] will have not yet learnt the demurrage of water [illegible]

and the difficulty of crossing the channels which now intersect the Country induces them to proceed to other Districts for their supplies. The Sales at the Stores of this District for export to Foreign States have however never been large. The decrease in Exportation by Sea on private account is I fear in some degree attributable to the inferior quality of the Salt which also prevented much salt being ordered for export on Government account

The increase in the Salaries of temporary Peons is
owing to the Salaries for June 1855 in which Months
a great number are always employed having been
disbursed in Fasly 1205 The increased quantity of
Salt received into Store during Fasly Accounts for the
increase in Storing charges The reduced Ship Sales
caused a decrease in the Shipping charges.

Wastage Rule A

53 The Statement of wastage exhibits
a loss of 5419520 Maunds in the Delta four Collaim
and the account which is attached to the Statement
shows the particulars of the same and the allowance
which may be fairly made in each case. Of the
Salt stored in Fasly 1263 and sold in this Fasly
under report 34 heaps were disposed of prior to
the 1st of October and therefore a deduction of 5 per
Cent should be allowed they having been stored
with the old Parcals and sold with the new
as explained in my report for Fasly 1204 and
my letter dated 7th May 1856 leaving an actual
wastage of 6. 38. 7 per cent of the salt stored
in same Fasly 96 heaps were sold subsequently
to the 1st of October 1855 and a double
deduction first for the loss by change of Parcals
abt 5 per Cent and secondly for that occasioned
by the change of the contents of the garce
from

* 1263

from 203 to 126 pounds at 5 per cent wastage

*Circular Letter of the Board of Revenue dated 3d June 1850

by letter noted in the Margin must be allowed during actual wastage of 2 years 1 mo 25 5 per cent of salt of same year time were Godowned to stored by measure and sold by weight on which a deduction as explained in Para 55 of the report of Fasly must be allowed leaving an actual wastage 4 - 21 - 0 per cent - The explanation of the wastage in the salt stored in the Fasly 1203 will be equally to that stored in Fasly 1205 as the salt stored in that Fasly being in fact salt produced in preceding one In the same manner that entered Salt of Fasly 1205 is the production of Fasly 1204 stored after the Commencement of the year

54 On the subject of the wastage I would beg to refer the Board to Para 55 report for Fasly 1202. I am satisfied that main cause of the wastage being formerly much less than at present is the practice & receiving more salt than entered in order to make up for wastage The wastage too in salt of some days exhibition than in that of a better description and

taken much longer to dry-

55. In the salt made in Fasly 1264, but stored by measurement at the Commencement of Fasly 1265, and therefore entered in the accounts as the salt of that year, at the Pettapoor Cottaur the wastage is shewn at 7 mds 26 srs 1 c per Cent Two heaps one of the produce of Fasly 1264 and one of that of Fasly 1265, the latter stored but 25 days previously were lately carefully examined by my Head Assistant. The result shewed a wastage of 11 per cent in the former and 4 per Cent in the latter The salt stored and sold by weight is that which was exported to Calcutta on account of Government shortly after its having been stored. It exhibits a wastage of 6-24-1 mds srs c which is very great Considering the short time it has been in store, and I made it the subject of personal enquiry during a visit which I made shortly afterwards to the Stores, but I was unable to discover that any party was fairly liable to blame, or that any fraud had been perpetrated. This salt was re-weighed for exportation under the superintendance of two persons unconnected with the salt Department and it is not impossible that the salt which was reweighed in a hurry may not have been so correctly weighed as at the time of storing. It necessarily too got lighter

lighter as it became drier.—

56. The new forms of account for the Salt Department have been introduced. The Pittapore Sub will hereafter be denominated the Carapaud Division

Attempts to improve the Manufacture.—

57. In the Extract from the Minutes of Consultation under date the 7th February 1856 forwarded with the Extract from the Board's Proceedings dated 15th Idem, sanction was granted to increase the price of Salt manufactured in this District to 7 Rupees per Madras Garce on condition that the Salt only was taken, and inferior destroyed, a report was to be made at the end of the season of the effect of this measure. I was also required to report what means appeared to be practicable for preventing the influx of fresh water into the Salt Creeks.—

58. At the commencement of the season under report I sent for two people from the Nellore District well acquainted with the process of manufacture followed in that part of the Country for the purpose of instructing the manufacturers of this District. The latter however doubted whether the Nellore plan was applicable. To prove that it was so I caused 3 or 4 pans in two different parts of the Pittapore Taluk to be prepared by the Nellore men and the result was the production of Salt of a very superior quality. One individual more enterprizing than the rest manufactured

manufactured salt on the Nellore plan at his own expense, and produced an article quite equal to that made by the Nellore people. Up to this point therefore the results have been satisfactory and it is hoped that in next Fusly a very material improvement will be effected in the manufacture. The ryots all fully admit the superiority of the Nellore plan, and the system has been carefully explained to them in their different Villages so that they all now perfectly understand it, and appear willing to do their best to manufacture good Salt. In the Fusly under report a general improvement was observable, though the Season was most unfavorable for the Salt Manufacture. We had constant falls of rain and the regular Monsoon also set in when but a comparatively small quantity had been produced. As the Salt was on the whole of the somewhat better description I thought it advisable to allow the ryots some increase up the price of last Fusly promising them the full rate when they made Salt equal to that produced under the Nellore System. The prices payable have been accordingly settled as follows.—

The full price sanctioned by the Govt. 7-0-0

Add at 6 Rupees per Cent as per Board's Circular 6-8-4

q-6-4

For the small quantitity of Salt manufactured at Mogultoor the full rate has been paid at the recommendation of the Acting Sub Collector.-

59 As regards the influx of fresh water into the creeks I requested the Civil Engineer to give the subject his immediate attention suggesting also for his consideration a plan of retaining the flood tide water at its full height by means of Gates which being shut when the tide was at the highest level, would secure a supply of pure salt water. I have not heard whether this plan is considered practicable, but the measures adopted to prevent the flow of fresh water were to some extent successful

Fort St. George 18th May 1857.

The subject is engaged the attention of the officers of the Engineer Department, and they promise that the flow of fresh water into the Creeks shall be put a stop to early next month, so that I hope the Manufacture may be commenced at a much earlier date than has hitherto been usual.-

Do. The instructions contained in your Circular letters dated the 3rd June and 18th July 1856 directing the receipt of 424 Marcals hereafter per Madras Garce and the adjustment of the accounts by reducing 2 m 5/8 s per Cent from the quantity in hand at the old equivalent, and by writing off the wastage hitherto entered in accounts in consequence of the difference of 24 Marcals according to the new equivalent at which Salt was sold from the 1st of October 1855 have been duly carried into effect.

The increase in the Export duty is namely in consequence of larger shipment of grain to France, London, and the Mauritius and Gingelly oil seeds to the former Country. The decrease in the Exports on British Bottoms is mainly to be attributed to the duty on articles exported to and imported from Moulmein, Pegu and other ports, now of the British Territories in India having been given up under Act XXX of 1854.

62 In the charges of the Department there is a Net increase of Rupees 4125-13-8 as under particularized.--

The decrease has arisen from the abolition of duties on the Frontier of the Nizam's territory under authority of the Supreme Government dated 25.th July. There is a slight increase both on Exports and Imports

across

across the French Frontier principally in piece goods and Tobacco.

64. The following are the Frontier charges

65. The increase of Rupees 26-3-6 in the head of Establishment is caused by those for the month of June 1855 having been disbursed in the Fasly under report.—

Abstract- 66. The following statement exhibits an increase of Rupees 17911-"-" in the Abstract Sayer Revenue.—

Items	Fasly 1264	Fasly 1265	Increase	Decrease
Demand on Country arrack	81130	98992	17862	"
Licences granted for the sale of foreign Spirits	240	280	40	"
	81370	99272	17902	"
Extra Revenue	26	33	9	"
Total	81396	99307	17911	"

The last Triennial rents expired with Fasly 1264. The increase is owing to higher proposals having been obtained at the sale of the farms for a new term.—

67. Of the total demand Rupees 96489 were realized within the Fasly and a further sum of Rupees 1958 up to 15th August leaving a balance of Rupees 825 which will shortly be brought to account. The arrears outstanding up to the date of my report for Fasly 1264 were as in the margin. The balance due for Fasly 1264 has been subsequently recovered as also Rupees 14-14-7- on account of Fasly 1263. The remaining balance is the amount held in deposit pending the disposal of the Sotapally Mamulahdars claims as stated in Para 65 of my report for Fasly 1264.—

68. There is a net decrease of Rs. 548-1-11 in the Moturpha Revenue the details are exhibited in

Moturpha	
Fasly 1264	5174-6-3
" 1263	5246-4-4
Decrease	548-1-11

in Statement No. 8. The net decrease is the result of a decrease of Rupees 5852-12-10 by deaths desertions and by a falling off of trade partly Counterbalanced by an increase of Rupees 2804-10-11 from increased trade and newly opened shops.—

69. The decrease of Rupees 3232-12 entered under the head of diminution in trade occurred as follows.—

Amount remitted to the shepherds in addition to Rs. 174-1-6 allowed in last Fusly holding Cultivation as per instructions from the late Commissioner dated 28th March 1854	607-1
Falling off in Looms	215-12
Struck off from individuals who have entirely given up trade	861-15
Remitted in Consideration of reduced circumstances	1060-12
On account of deaths among Horses and Bullocks let out for hire	142-8
Deaths among Cattle	344-4
Total	3232-12

70. Of the demand Rupees 47991-8 were realized within the Fusly Rs. 42783 up to 15th September leaving Rupees 6911 outstanding the greater portion of which will shortly be brought account.

71. The arrears in this branch of Revenue is as follows.

No.	Fusly	Arrears outstanding against the commencement of Fusly 1265	Collections in Fusly 1263	Subsequent Collections up to 15th September 1858	Total Collections	Balance Remaining
1	1263	707-6	16 13 3	1 12 6	18 99	51 6 9

Sanction was requested in the Settlement report for Fusly 1264 for writing off the arrears of Fusly 1263. Of those for Fusly 1264 but Rupees 8-10-are recoverable. Of the remainder Rupees 16-10-u are outstanding against parties deceased, Rs. 86 against those who have left their Villages and Rupees 4-1-1 against those too poor to pay. A Sum of Rupees 170-12-u is outstanding against shepherds holding Cultivations in the Proprietary Estate of Cottaum who are entitled to a remission of the demand under instructions from the Commissioner of the 28th March 1854. Sanction is requested for writing off from the Accounts the total Amount of Rupees 257-1-1 as just detailed.—

Stamps.

72. The following Comparative statement of sales of Stamps exhibited a net increase of Rupees 8177-u-u in the Collections in this branch of Revenue for the year under report owing chiefly to the increased sales of Stamps for the institution

Gross Collections

73. The particulars of gross collections and charges under the several different heads of Revenue are exhibited in the statement No. 14. The causes the increase or decrease in the gross collections of each branch or item have already been detailed. There was some delay in settling a portion of the Motumpha demand which occasioned the collection of a part to be postponed till after the close of the Fasly as stated in Para 70 the greater portion has since been realized. -

Charges.

74. The increase in the Salaries & " of Collectors is owing partly to only 11 Months Salary having been disbursed in Fasly 1264 partly to the Office

Fort St. George 18th May 1857.

of Assistant Collector having been vacant from 1st November 1854 to 30th March 1855, partly to deputation allowance not having been disbursed to such an extent in Fasly 1264 as was the case in the following Fasly and partly to an extra allowance of 175 Rupees having been disbursed to the Assistant Collector for 17th December 1855, he having passed the second standard of examination. -

75. The Salaries of the Establishment for June 1855 not having been paid till after the close of Fasly 1264 is the main cause of the increase under the head of Huzzoor and District Establishments

76. The decrease in the Sunderwarah is owing to greater economy having been exercised and in the Extra Revenue Charges to the practice of employing Mahadoolars or temporary peon during the season of Collections having been abrogated, to temporary Goomastahs not having been employed to measure the Godavery Islands to a diminished expenditure on account of travelling Charges and other Extra charges connected with the moving of the Revenue Officers. -

77. The increase under the head of

medical

Fort St. George 18th May 1857.-

medical Revenue charges is owing chiefly to the Civil Surgeon of Cocanada having been absent on leave from 11th June 1854 to 16th February 1855, during which time an allowance of 100 Rupees per Mensem was disbursed to the officer officiating for him.

78. The Law charges were incurred in defending a suit brought against the Collector by Rajah Wooppalapaty of Juggunnadharauze and thereafter by sums repaid to the renters of the Islands of Tantapoody and Rajahmundry

under the sanction of Government conveyed in Extract from 30th January 1856 of Consultation of the dates noted in the 28th March 1856. Margin, and to the Proprietor of certain land taken up for the new Pettah at Ramapatam under Sanction dated 19th March 1856.

Sir,

Bg. No. 3142
Transmitt Collectors
of Rajahmundry Cossr /

I have the honor to
furnish the further explanation called for in your
letter No. 3178 of the 29th September last
Letter to the principles on which the Amount
Inclosed to be remitted from the Peishcush
of the Zemindary Jeypore Villages on account of
Lands occupied by the Light House Western and Eastern
Sands Roads in the Distrct has been
calculated and will be found in the Statement
No. 2 from Columns 3 and 4 of Statement
No. 1 will be seen that the Permanent
Demand of the Village of Mamidavalasa
Rs. 958-14-4 for the Expenditure
of which the Proprietor has means available to the
extent of Rupees 441-13-0 or in other words
out of Rupees 441-13-0 withheld by
the

the Village yields him on an average he pays to Government Rupees 358—11—4 and gains a profit of Rupees 82—15—2 or 18—12—4 p.c Cent for his Capital and labor as will be seen from Columns 6 & 7 This profit on the whole estate being thus ascertained, it was next calculated what this profit would be on the Assessment of the lands taken up for public purposes. To explain it more fully calculations were made to know what portion of the Assessment of the lands Viz. Rupees 31—11 he paid to Government and what he kept to himself, and the results arrived at shewed that he paid Rupees 25—11—10 / Column and retained the difference Rupees 6 difference was accordingly deducted from Beriz of the lands, and the remain only was proposed to be remitted from Peishcush.

3. It may be here observed that the Board ruled in their Proceedings of the 6th September 1855 that the Board

by which the permanent Assessment fixed on the estate fell below its Beriz should be deducted from the Assessment of the lands occupied by the roads and the remainder remitted from the Peishcush. Under this rule the Assessment on the lands taken up in Thundlum No 3 being Rupees 22—8—7 Column 18 and the entire Per centage Column 7 by which its permanent Beriz Column 4 falls below its average Produce Column 3 being Rupees 31—6—9 the latter should be deducted from the former. But it cannot be done, as the sum to be deducted exceeds that from which it has to be deducted. Under these circumstances and in accordance with the rules of proportion the per Centage rate alone could be deducted as marginally exemplified and which has accordingly been done.—

4 ——— Adverting to Para 3 of your letter under reply I beg to state that the "average produce" in Column 3 of Statements No 1 & 2 only means the

† Percentage of assessment
100 : 31 8 7 :: 22 8 7 : 7 14
i.e. if 31 8 7 is the profit on
Rupees 100 — Rupees 7 14 will be
profit on Rupees 22 8 7

the Proprietors' receipts on an average during the last 10 years. The information regarding it was necessarily procured from the Curnums of the Zemindary Villages but this Office has no means of verifying its correctness - On this subject it would appear that the late Mr. Cochrane addressed a letter to the Board on the 5th August 1852 urging the expediency of requiring the Curnums of the Zemindary Villages to furnish the Collector annually with the accounts of their Village but as they did not then approve of his proposition nothing has been done towards rendering the accounts of private Estates faithful records of their productions. It being a matter of importance, I would take this opportunity of soliciting the Board's attention to it again

5 The average produce entered in Columns 9—12—15 of the Statements shews the produce yielded on the extent of lands entered in the Columns immediately preceding them Viz. the lands taken and

and the Beriz entered in Columns 10—13—16 and 18 is what the Proprietor actually receives for the lands entered in Columns 9—12—and 15 on an average computation.-

6 In explanation of the "Heading" difference of Percentage between the permanent Beriz and the produce," I beg to state that it only means the difference between the amount payable by the proprietor to Government on account of Assistance and that which he actually derives from the produce of the Village on each hundred Rupees

7. The Statements returned with your letter under acknowledgement are herewith retransmitted duly amended with reference to the observations contained in Paras 2 and 7 the information called for in Para 5 not being procurable from the Records of this Office.-

8 Since writing the above I have been favored with your letter No. 4105

of

7711. Fort St. George 18th May 1857

of the 6th Instant, and with re-
ference to the enquiry therein made
I have to state that with the excep-
tion of the lands taken for the Railway
the other lands had been taken posses-
of for Public purposes with the
consent of the proprietors before Act
No XX of 1852 was brought into force
No pledge whatever was made as to
the rate of compensation to be
granted them, but a

Proceedings thereon. 1. In their letter to Government of the 11th August 1855 the Board proposed that a deduction equal to the assessment of certain Lands taken from the Northern and Western Roads in the District of Chingleput. should be made from the Peishcush of the Mootahs and Shotriem Villages in which they are situated as compensation to the Proprietors.

(795.96)

2 In Extract from the minutes of Consultation of the 27th August 1855 No. 985, Revenue Department, however Government expressed an opinion that the calculation was made on a wrong basis. and that the remission should be of a part only of the assessment proportioned to the terms of the original settlement of the Villages. Fresh accounts were accordingly required.

Inform. 6 Septr 55

3 These are submitted with the letter now recorded sent the Collector

Fort St George 18th May 1857.

Collector has misapprehended principle of the intended calcul the desire of the Government ving to the Boards construction of their order and that the remission should bear the same proportion to the assess of the land tax as the Peish did to the Benjy of the perm settlement Wherein instead of latter Mr Shubrick has tak the average of the Income as it is called in the statem Gross Produce for 10 years.

4 Such being the case Statements will not answer the purpose and if the Principle down by Government in the Min of Consultation granted above be maintained it will be nec to return them for correction.

5 As however the Boa in their Proceedings noted in Margin have solicited a reconsid

reconsideration of the Rule there propounded they resolve before calling for fresh statements in this case to submit it again for the orders of the Right Honorable the Governor in Council with a view to its being decided whether with reference to the arguments offered by the Board in the Proceedings adverted to at the commencement of this Para compensation shall be granted according to the calculation submitted with their letter of the 11th August 1855 or that prescribed by the Minutes of Consultation of the 27th of the same month.

Sir,

From the Coll.r of Coimbatoor...

In acknowledging the receipt of Extract from the Proceedings of the Board of Revenue No. 886 dated 4.th Ultimo, I beg to assure the Board that as the amelioration and encouragement of the Orchards of Coimbatore is considered a closed subject I shall not refer it. The existing old Orchards / Drapire / will gradually die out, and no new be made / as Sixteen years testify / in these

The

Fort St.a George 18.th May 1857

2. The Board however write under a fallacy when they assert and the Government suppose, that the relief to the wells of Coimbatore supersedes the need of any relief requested to the orchards, it in no way affects the Orchards. No orchards can be made under wells in this dry District all are on Runjah land only - there is not a single well orchard in Coimbatore the Board are probably referring to the statistics of some other district, such as North Arcot, which do not apply / the Board are not aware / to Coimbatore.

3. The rule however for North Arcot quoted in para 4 of Minutes of Consultation 21.st February 1857. No. 192. will be a considerable boon so far as it goes in Coimbatore and I shall act on it as regards all new Orchards. It in

Fort St George 18th May 1857

point of fact carries whole principle asked for in Coimbatore. Viz.t that the land, and not the crop should pay.t though I think it would have been a fair, liberal, and safe policy, to allow the rule / if at all a correct one / to apply to all orchards, and not new only- in as much as the relief to the new, adds comparatively the present burden on the old and ensures there being gradually thrown up.-

But as he holds this property as well as that specified in suit No. 2 of 1854 from the very party who has obtained them on Revenue for Government. he gave his answers to this effect declaring at the same time that the lands &c. belong to the Bettitnaad Escheat above adverted to upon this the Plaintiffs included me as a Defendant in the suit

3 That the property actually appertained to the Bettitnaad Rajahs Estate is beyond question but the difficulty and delay which unavoidably attends the search made for the required information among the old records precluded the possibility of the Defts answers being submitted to the Board within the period allowed by the Court. which expired on the 6th Instant. I have therefore in anticipation of the Boards sanction directed the Vakeel to file the answer.

Answer of W. Robinson Esqr. Ag. Collector of Malabar 3rd Defendant in Suit No. 150 of 1854 on the file of the Tellicherry Commissioners Court by Government Vakeel Ambon Paduvad. The 3rd Defendant the Acting Collector

Fort St. George 18th May 1857

Collector states that the Government is the Jenmee of the land No. 2 sued for; called Kattil padom and not the Plaintiff Ambalavaverry Chegaren Ramboory because it appertains to the Betuttnaad Rajahs Estate which has reverted to Government from want of heirs. This grounds is composed of a corner of a large waste land denominated Parapery Head and is marked A in the Plan of ground to this answer. It was at a very trifling cost cleared and converted into a paddy land by the 1st Defendant Mootantalah Coonjossa. but the Plaintiff having gained over this individual who is a tenant of his - managing as he does other lands belonging to him fabricated a Document upon the strength of which he has brought this Suit.-

The truth of this case will be evident from an inspection of the ground itself shewn by the plan hereunto produced.-

I pray therefore that the suit may be dismissed with costs.-

From the Collector of North Arcot.

Submits for the favorable consideration of the Board Copy of a letter from Mr. Bunbury Esq. Addl. Sub Collr. requesting under the Reasons adduced that he may be allowed to draw the monthly undisbursed portion of the pay of the office.

Sir,

I have the honor to submit for the favorable Consideration of the Board the Request contained in the accompanying Copy of a letter which I have received from the Acting additional Sub Collector.—

2 Whether Regarding the onerous duties hitherto performed by Mr. Bunbury or those which he is about to undertake, I consider that his claims to the additional emoluments he solicits are founded in justice and I would very earnestly request that the Board would submit with their support, Mr. Bunbury's Request to the favorable Consideration of Government.—

3 When Mr. Bunbury first joined this District, I entrusted to his charge the Supervision of the

13 Police officers of my Division and the Revenue duties of 3 Talooks Reverting to myself, that of 2 talooks I found Commer. Hall charged with the Division of the Assessment and with duties which I could not delegate, such as English Correspondence, accounts Appeals, and the general Superintendence of the District, I could not efficiently undertake the Revenue Supervision of even two talooks and I therefore devolved this additional work upon Mr. Bambury who became thus Charged with the Revenue duties adverted to in para 4 of his letter The transfer of Pongamoor to this District added the 14 Police officers to his charge.—

4 The manner in which Mr. Bambury has performed this onerous Revenue and Magisterial duties has merited the most ample acknowledgement on my part

part and indeed both the Government and the Board will have been enabled to judge from the original papers I have had frequently to submit from Mr. Bambury, how efficiently he has performed whatever duty was entrusted to him.—

5 Should the Board consider that they are precluded by the terms of the Rules which Regulate acting allowances from supporting the present application, I would beg to solicit their support on special grounds and as a Special Case—

To C. Whittinghame Esqre
Collector of North Arcot

Sir

I have the honor to
Request you will, should you think
proper,

7762 Fort St. George 18th May 1857

Sir I respectfully submit the following subject for the consideration of the Board of Revenue.

2 In my last I was nominated to act as additional Sub Collector of this District (an appointment sanctioned as you are aware) for a period of two years (Mr. Paumefote being the Confirmed Incumbent after three months had elapsed Mr. Paumefote obtained sick certificate to England for 15 months apparently preferring this course to taking his furlough which was then due, thus making my term as of acting in the appointment to be 18 months. For the reasons hereafter adduced I trust that the Board will meet with favorable Consideration, the Request I am now to be allowed to draw the monthly undisbursed portion of the pay of the office, for the time of my officiating therein which will make my salary nearly equal to

7763 Fort St. George 18th May 1857

to that of a Sub Collector.

3 Firstly, I have lately been nominated by Government to Conduct the Revision of the Assessment and instructed to make personally local investigations as the work proceeds this is doubtless a duty of Considerable Responsibility will entail a good deal of exposure and Residence in tents during the hottest months in localities noted for their great heat and will involve me in the expence of keeping up two separate establishments.

Secondly. Whilst my Contemporaries are acting in permanent appointments (as those not already Confirmed are now doing) their position is Considerably better than mine, as they are raising for themselves Claims to being Confirmed in those appointments when they become vacated, whereas in my case after 18 months acting I shall be displaced by the Return of Mr. Paumefote and

Fort St George 18th May 1857

and in three months from that time the addi-
tional Sub Collectors office ceases to exist
My long term of acting will consequently be
fruitless as far as Regards the chance of
Confirmation and I must expect a further
period of officiating in some other District
a permanent appointment before I can obtain
a Sub Collectorate-

4 Thirdly- I think you will not say I
exaggerating my case when I urge that the
work which has hitherto fallen to my
has been considerably heavier than that
any other Sub Collector Viz Revenue
Salaries & Police officers and the
usual duties done by the Assistants
have been my share for the
greater portion of the time
I have been in North Arcot for
a few weeks Mr Arbuthnot
relieved me of the latter items
but his promotion to Trinchinopoly

Caused

Fort St George 18th May 1857

caused them to dissolve again upon me-

Fourthly- I cannot of course venture
to predict what Government may think
proper to do with Regard to my promotion
but it appears to me not improbable
that after having been engaged in the
duties of the Revision and having after a
time gained experience therein they
might not wish me to be removed
therefore if any permanent vacancy
occurred before Mr Pannington's Return
I should feel doubts as to the propriety
of my applying for it-

5 Fifthly- As the amount of
the additional Sub Collectors salary
has been sanctioned for a Special
duty and for a Special term
I do not think Government
would object to that amount
being actually disbursed in
in the performance of that
duty

7766

Fort St. George 18th May 1857

duty but during the long period of my acting a portion of the sub Collectors salary will remain monthly unexpended and be carried to the credit of Government unless my application be favorably received -

Secthly - By Mr. Pannecfoter absent on sick certificate there is a monthly saving of Rs. 150 - - - as shewn below -

In this letter Mr. Whittingham submits the claims of his acting Additional Sub Collector Mr. Banbury to receive the portion of the salary of that office which remains undrawn after deducting his own deputation allowance and the absentee allowance paid to the permanent incumbent Mr. Pannecfoter now in England on sick certificate -

2 The appointment of Additional sub Collector was sanctioned for two years for a special purpose Mr. Pannecfoter was appointed to it on 18th May 1856 but never took up the office as he was detained at Madura till he ultimately left the Presidency on leave and Mr. Banbury was nominated on the same date (10th May 1856) to officiate for him -

3 Under the absentee Rules Mr. Pannecfoter draws Rs. 583-5-4 monthly Mr. Banbury receives Rupees 233-5-4 and the Acting Head Assistant officiating for the latter Gentleman Rs. 200 a balance of Rupees 150 Remaining thus undrawn out of the full allowances of the Additional Sub Collector -

1 to 4 These figures are supplied by Mr. Bombay

4 Mr. Banbury requests that he may be permitted to draw this amount and that the Board submit his claim for the consideration of Government because it appears to them that if a departure from the letter of the Rules is permissible under any circumstances it may be allowed in a case like the present where a certain

Fort St. George 18th May 1857

Certain sum has been granted for the performance of a special duty and unforeseen Circumstances have prevented the person who has been actually performing the work from receiving the Remuneration specially assigned for it—

5 Mr. Whittingham speaks in high terms of Mr. Banbury's Conduct and qualifications and even if his claim be deemed inadmissible it seems to the Board but just that Government should be made aware of the position Mr. Banbury has occupied and the satisfactory manner in which he has Conducted his duties

6 The Board cannot but express their disapproval of Mr. Whittingham having assigned such onerous duties to the additional Sub. Collectors—

7 It appears that Mr. Banbury has for a Considerable period held charge of 5 Revenue Talooks and the Police Divisions besides apparently the usual duties of an Assistant Mr. Whittingham then devoted himself entirely to the detail management of the Principal Division of the Collectorate and imposed on Mr. Banbury an amount of work and responsibility much in excess of what should have been assigned to an officer of his standing with a Comparatively limited Establishment— To

The yeomiaholar Silaur bee succeeded to her husbands pension in 1823 and continued to enjoy it till July 1848, when in consequence of doubts, her identity, her allowance was stopped. These doubts were removed in 1849, but no order was issued for payment of the pension, and in the following year the rule requiring the personal appearance of female yeomiaholars above 50 years of age came into operation, Silaur bee claimed exemption as Gosha female and refused to appear until May 1856 she has now appeared personally before the Acting Head Assistant Collector and her identity has been clearly established, the Board therefore recommend that the arrears amounting to Rupees 454-5-10 be paid and the pension of Rupees 51-7 per annum continued to her.-

2. When I received the papers alluded to above, which I kept in my own possession, there was a report that the Collector Zemindar was going to make arrangements to give him up first a portion then, when that was paid for the remainder of the Estate. I did not I confess put much faith in this report, believing it was sent on

I may here state that I have told the Rajah of Callicotta that I did not think Government would sanction any such arrangement.-

3. I sent for both the Rajahs and when I asked the Callicotah Rajah his intentions he at once said he would not give up any part of his Estate, that he had made no such promise. If the Vauttghur Rajah who had been living with him for 5 or 6 months chose to return he would again receive him, but that was all.-

4. This was a great disappointment to the Vauttghur Zemindar who also came to me directly after he had been with me a few days before and seemed certain of regaining his Estate which he was most anxious to do. I then told him of the liberal intentions of Government, but though he expressed himself most grateful it was evident the a great blow. I have advised him to live at Berhampt

His habits as is well known are such that his example would probably be most injurious to the young Zemindars, a personal allowance will I am satisfied be the best arrangement for him as I do not think he has energy of mind or body enough to manage an Estate. A short time after this he wrote to me that he was about to appeal to the Court of Directors and that he could not give any definite answer at present but begged of me not to send in my report till he heard another interview. Since this he has laid claim to 50 Mocassah Villages in Vauttghur which he says he purchased some time back. I have not yet had time to look into this, but hope to do so as soon as I can bring the heavy Homicide cases now under trial to a close, and will report the result without delay.

2. Intimation was made to the different Tahsildars

Tahsildars immediately on the receipt of Extract Proceedings of the Board of Revenue No. 813 dated 16th March 1857 that "enquiries as to ownership might be allowed to lie over, and could be settled as the claims were preferred," yet the removal of this alleged difficulty in the way of an early preparation of the accounts has not enabled more than 2 Tahsildars to submit them. The Poloor Tahsildar informed me on the 12th March that he had completed the account with the exception of 5 Villages, but that the Statement was so voluminous that it would occupy much time in copying. He was at once directed to forward the original but has not yet done so.

3. The Gummahbundy Settlement interferes at present with the preparation of these accounts. I have however completed the Settlement of the Talooks of Sholinghur and Conjeeveram and these Tahsildars will be required to submit their Statements without further delay.

I hope to finish the Settlement of the Northern Talooks by the end of the present year. I fear that the accounts for all the

the Northern Talooks cannot be ready before that date.

4 With reference to the Southern Talooks, I anticipate still further delay- Not only does Mr. Sullivan require the attendance of the Curnums for the Settlement of the Sub Division, but their services are indispensible to Mr. Bambury who is now at Tiruttoor in the Sub Division engaged in revising the Assessments.

5 The information required on the subject of the Scattered trees involves much labor and must occupy much time, and can only be undertaken by the Curnums at a season when they are not engrossed by their usual duties.-

J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St George

Sir,

823
Bd No 1643
From the Collector of Tinnevelly...

The Talsildar of Streevellyputtoor Talook reported that some of the Ryots in his Talook presented to him Complaints stating that the Nunjah crops raised by them under Tanks during the Peshanum Season of the Current Fusly are in a languishing state from want of water in the above reservoirs, and that the continued unfavorable weather

of the season during the last 2 or 3 years has sunk them so much in their circumstances as not to be able even to provide seed to sow their wet lands and that they therefore to secure at least a supply of seed, are endeavouring to mature a portion of the above cultivation, by raising water from wells, and requesting remission to be given them of the cost of raising water.-

2. Though there was no instance on record of remission of any portion of the assessment or of the cost of raising water from wells having been ever granted, in the Taluk strictly speaking. In cases where Nunjah lands dependant on channels or Tanks have been partially supplied from wells yet as the adverse character of the season of the last 3 years, and the prospects of the present year appeared to call for such a measure, an order was issued to the Tahsildar under date the 4th December last directing him to allow the Ryots, who may be desirous of doing so, to save their crops by supplying water from

wells. The Tahsildar was also directed to obtain from the Ryots a fieldwar account of such lands as they wished to save from drought by raising water from wells, to inspect the crops thus brought to maturity, and to report if they had all been brought into bearing by water supplied from Wells.

3. The Tahsildar in his reply states that he communicated the purport of the above order to all the Ryots by means of a Proclamation, and received Petitions from them giving a fieldwar account of the lands that have been irrigated from Wells and prevented from suffering from drought. The Tahsildar in forwarding a detailed Statement of the above lands states that he personally inspected a part of them, and caused the rest to be examined by the Moozoomdar and other servants of the Taluk

4. I beg to forward a statement shewing in addition to other particulars the amount of remission which I recommend should be granted at 20 per Cent of the estimated value of the Government share

share, which is a little less than 1/3 of the gross pro-
duce, at which latter rate remission on account of
compensation for raising water from wells is generally
allowed in certain Villages of the Vellayoor Talook in
this District similarly circumstanced.

5. The above Statement exhibits the extent of Culti-
vation brought to maturity by the irrigation afforded
by wells, the Estimated Amount of Teerwah thereon,
and that of remission recommended to be granted,
as the exact amount of these two items cannot be
ascertained before the fixing of the Nerruck, and
the Settlement of Revenue takes place. The lands
which have received their irrigation mostly from
Tanks and partly from wells have, as will be seen
from the above Statement, been deducted from
the Extent entered in the account forwarded by
the Tahsildar.

6 As no reliance can be placed upon the Statements that
might be furnished by the Ryots of the amount expended
by each in raising water to his fields, and as the Talook
Servants, who are already over loaded with a multiplicity
of business, cannot be expected to test the expenditure for
raising

raising water in each case, it was deemed unnecessary, to
determine the amount of remission after obtaining accounts
of expense from the Ryots. All the wet lands in Stree-
villy poottoor Talook are not depending both upon
Tanks and wells for their irrigation. There are only
a few lands depending upon both and even in cases
of these lands, it was not hitherto customary, to
grant remission of the cost of raising water from wells.

7 Under the above circumstances, and as most
of the lands of the Ryots, which have no wells of their
own, have this year been cultivated, and the crops
brought to maturity from water supplied from 3 to 18
times, during a period of from 9 to 90 days, from wells
Vizt situated at a distance from the lands, and have thus
been saved from drought, I am of opinion that the liberality
of Government should be extended to all the
Ryots who have saved the crops on their lands, by
means of irrigation obtained from wells without
showing any distinction, with reference to the
number of times, during which their lands
have obtained supplies of water from Wells, such a
distinction would lead the Ryots to set up a claim
to remission always.

Sincerely &c
18th May 1857.

Collector
Statement

Fort Saint George 18th May 1857

thereon In the above letter the Collector states that owing to the failure of some of the Tanks in the Streevilly poottoor Taluk a portion of the Nunjah Cultivation during the Pesharum season was only saved by water drawn from wells, and recommends that a remission of 20 percent on the value of the Government share of the produce should be granted in consequence.

2. The grant of remissions on the ground assigned by the Collector is universal and the Board are averse to establishing a precedent for future applications of this nature. But as the Collector appears to have given the ryots a pledge that they would receive a remission this year, and as the tanks evidently have failed and the disastrous character of previous seasons has seriously affected the means of the ryots the Board permit the Collector to make the proposed remission which so far as can now be ascertained

7789 to 7793 Fort Saint George 18th May 1857

ascertained will amount to Rupees 492 10- on a demand of Rupees 24 63-2-3.

The Collector will be careful to explain to the people that this indulgence will not form a precedent for future applications.-

4 The Board requests information regarding the practice of granting remissions as compensation for the expence of raising water from wells in certain Villages of the Vedlyoor Talook, where alone, the practice seems to prevail:

5. In forwarding the present application the Collector should have refered to the remission accorded by the Board in their proceedings dated 17th March 1857 and shown that the ryots in whose favor the present indulgence is sought, would not be sufficiently compensated thereby.

2. Mr. Thomas states that the Arrack shop at Coonoor was closed at the Request of the Officer Commanding Jackatallah and that the present Abkarry Contractor was fully Cognizant of this when he took his Contract-

3. There is a Beer Shop now at Coonoor and the Residents are averse to the Re-establishment of one for the Sale of arrack.-

4 The Board concur with

with the Collector that the Contractor has no claim to the privilege he seeks, and do not see any necessity to open an arrack Shop at Coonoor against the wishes of the Respectable portion of the Community-

5. Mr Thomas Recommends that such number of Arrack Shops, as may be considered necessary at Jackatallah, should be opened within the Military limits and in the expediency of this course the Board also concur-

From the Collector of South Arcot

Sir

I have the honor to acknowledge your letter No 1345 dated 30th Ultimo calling for information regarding the Survey under Captain Priestley.

2. By the accompanying copy of a letter dated 1st Instant from Captain Priestley it will be seen that it will take about two months more to complete the mensuration of the Mannargoody Lalook and that the Accounts and Maps will not be ready for delivery to the Collector till towards the close of the year.

3. I beg to annex a statement shewing the monthly outlay on account of the Survey from 1st of last November up to 1st Instant including the disbursements for last month (April).

4. The balance on hand on the 1st November was 18262, so that the aggregate expenditure up to the 1st Instant including the outlay for last month has exceeded the sanctioned amount

1813.

amount by 1637–13–4 leaving no means to pay for the tents which have been ordered from the Commissariat Department.–

5. In my letter of the 30th March I stated that the probable balance after discharging the abstracts for that month would be 1613.4 proved however to be 1635–10–8–

6. Since an additional Sub Collector was first entertained, this Officer has been actually employed up to the 30th Ultimo, for thirty eight months and fifteen days.–

7. This leaves a period of 9 months and 14 days during which such an Officer can still be attached to the District under the sanctions of the Supreme Government dated respectively 3rd Sept. 1852 and 6th September 1854–

2. It will be observed that there is a small
increase in the charge for Punkahs, owing to the
substitution (as safer and more durable) of brass
for Iron works which last were provided for
in the original estimate. The Board regret also
to find that they omitted from their lists Pun-

B.d No. 1677

Proceedings thereon

(846)

The Board are not satisfied that the Petitioner's claim has been properly rejected and it would appear that the requirements of Regulation VI. of 1831 as regards the mode of investigation as explained by C. O. 23d March 1857 have not been complied with.

2. If the land in question originally formed part of the Enam of Petitioner's husband and was made over to Defendant till her sons become of age the Board are of opinion that enjoyment by the Defendant for 20 years particularly as Petitioners sons would seem to have been minors during a part of that time does not of itself constitute a sufficient ground for deciding in favor of the Defendant.

3. Defendant however pleads here- ditary right and as no regular decision has been passed

Fort St. George 18th May 1857.

passed on the case the Board will restrict their order on the present occasion to a request that the Collector will investigate the Case in the manner pointed out by the C. O. quoted in the 1st Para and pass a decision from which any party dissatisfied can appeal if he thinks proper.-

Ordered that the following Endorsement be passed on Petitions Nos. 2207 and 2640 of 1856 and 712 and 911 of 1857.-

"Petitioner is referred to the Collector who has received instructions on the subject of her Petition."

The Collector of

North Arcot

Sir

With reference to the Board's proceedings dated 2d March 1857, I am directed to request that you will instruct the additional Sub Collr. to furnish monthly Statements of the progress of his work for transmission to

Fort St. George 18th May 1857.

the Board through you.-

2. The Statement should show the means of the Villages with the extent of land dealt with in the course of the month distinguishing the area Completed and that under investigation.-

3. A brief notice should be appended of the various references made to you by the additional Sub-Collector and of your replies thereto, so that the Board may be in a position to judge both of the actual progress of the work and of the difficulties experienced in its Course.-

To the Coll.r of South Arcot.

May No. 995 dated 5th Inst. Con. 7th May 1857

To,

The Collector of South Arcot.

Sir,

I am directed by the Board of Revenue to return the Statement of Gold and Silver Bullion &c. for the months of April 1857 and to observe that the total Value of Silver Imported into Porto Novo from Mauritius if the items are correctly entered amounts to 1300 Rupees instead of 180 as given by you. You are are therefore requested to make the necessary alterations and retransmit the Statement with as little delay as possible.
