Fort St. George 13th August 1857

Proceedings of the Board of Revenue Thursday 13th Augt 1857

Read the following letter

No. 55.

To

J. D. Sim Esqre.

Acting Secretary to the

Board of Revenue

367

Fort St. George

Sir

I have the honor to submit for the consideration and orders of the Board my recommendation that Syed Isauk the present Tahsildar of Chittoor should be removed to a second class Tahsildaree in some Talook of less importance on the following grounds.

2. Ramasawmy Moodelly an inhabitant of Chittoor presented to the Board a petition containing several charges against the Tahsildar, which petition was on the 15th September forwarded to the Collector for disposal. These charges have been investigated by the acting additional Joint Magistrate, who has forwarded to me the letter of which a copy is enclosed, on the subject.-

The

3d No. 968
From the Collector of North Arcot

Forwards Copy of a letter from the Asst. Sub Collector reporting the result of the enquiry instituted by him into the charges brought against Syed Isauk Tahsildar of Chittoor by M. Ramasawmy Moodily & recommends that Syed Isauk should be removed to a 2d class Tahsildaree in some Talook of less importance

3. The Plaintiff in this case does not bear an unblemished character He was not long ago convicted before the Joint Magistrate in charge of the District of using obliterated postage lables, and tho the sentence was, on appeal to the Sessions Judge reversed; it was so, not on the merits of the case, but on the ground of informality, the fine having been levied without the previous Concurrence of the Post Master General as required by the act.-

4. A perusal of the record of the case has not enabled me to coincide in the opinion expressed by the Joint Magistrate, that the Tahsildar should be suspended until he can be provided with some situation of less trust, but I consider that, taken in conjunction with the undoubted fact adverted to in para 11th of Mr. Banburys' letter, that the Tahsildar has

has been building a house at Chittoor, on such a scale as to create temptation to meet the great outlay by improper means, the record shows the espediency of the removal of the Tahsildar to another Tahsildaree of less emolument and influence.-

5. Syed Isauk was, when I arrived in this District, Tahsildar of Wandavash, and was promoted to the Tahsildaree of Chittoor, not on account of any particular fitness for the appointment, but because I found that almost all the principal Officials both in my Cutcherry, and in that of the Chittoor Tahsildar were of one caste of Bramins, and therefore thought it espedient on the death of the Bramin Tahsildar to introduce a Moosulman.-

I have never ceased to regret the appointment- Syed Isauks' Conduct in police matters has been repeatedly noticed by the Sessions Judge, and I have found him very inefficient in revenue

revenue business, his inefficiency always creating great delay in the Summabundy of that Talook.

6. In an enquiry affecting the Conduct and character of a public Servant, that exactness of legal proof, which is necessary to conviction in a court of Justice, is not required to justify the conclusion that his conduct has been unbecoming his situation, and I think it is impossible, on considering the circumstances detailed in the 11th para of Mr. Bambarys' letter, to feel satisfied of the Tahsildars innocence of the charges therein adverted to.

North Arcot .....
Collectors Circuit Cutcherry
Wandavash 12th March 1857

/ Signed / C. Whittingham
Collector

Enclosure N°1.

To

C. Whittingham Esqre
Collector of North Arcot

Sir

Para 1. As requested in your Tamil memorandum dated September 10th 1856. I have the honor to report the result of my enquiry into the charges against Syed Isauk Tahsildar of Chittoor, brought by

by Ramasawmy Moodely, whose original petition to the Board, and the records of my investigation 38 in number are herewith forwarded.—

2. The charges entered in the Boards petition are ten in number but two others were subsequently added by Ramasawmy Moodily, which have also been investigated; thus making in all 12.—

The 1st charge is with having made away with a letter written by the Complainant and falsely accused him of having put a postage stamp thereon which had been already used— This is a matter long since settled— Complainant was fined 100 Rupees by Mr. Binning for having used an obliterated stamp on the letter in question which letter is now with the records of the case I may here mention that the above order was reversed by the Foujdary Adalut owing to some technical objection, but this seems to be the cause of the enmity rankling in Complainants mind against Syed Isauk.

The 2d charge is, that one Kristna Row a dismissed Police Goomastah, does duty in the

Fort St. George 13th August 1857

the Talook Cutcherry and is the mediator through whom the Tahsildar receives his illegal gains; 5 Witnesses /Ryots/ are cited to prove this latter point, four attend, but one is not to be found. of those present the 1st Anky Reddy states that when the Tahsildar came to his Village he supplied rice fowls &ca to the value of 28 Rupees, and two Sheep priced at Rs 3 as 8 for which he has never been paid. of anky Reddy's witnesses four in number, only one knows any thing about the supplies, and he cannot say whether they were paid for or not.

The second Ryot named Appah Reddy states that he had to pay Rs 35 to the Tahsildar in order to get his name registered as a sharer in certain Pullykut Money lands, and deposes that two persons were present when he paid the money; they testify to their having seen the Rs 35 given and differ in their depositions only as regards the place in which the money was paid this discrepancy,

one

Fort St. George 13th August 1857

one saying the Recipient was setting in the Stable another, that he was standing therein, and Appah Reddy saying that it was given in front of the varandah, may be considered sufficient to disqualify the evidence in a legal point of view, but you will be able to form your own judgement regarding this upon perusing the 3 depositions; the Tahsildar was present at the time those were taken, and put what questions he thought proper to the witnesses. Appah Reddy in his deposition affirms that he borrowed the money from one Siddapan who upon being examined states that he lent the sum in question to Appah Reddy, and produces the bond receipted; the date of the deed agrees with the verbal evidence, but the lender is not aware for what purpose the money was borrowed. The accused in answer to this charge urges that the discrepancies in the evidence are so great that no one could believe the statement of the deponents; and that as after due investigation he had to write to the Huzzoor reporting

reporting against Appah Reddys' claim to the manyem in dispute, the said appah Reddy has now brought this charge against him through spigue and vescation.

The remaining two Villagers. Booddah Reddy and Chengama Naidoo state, that they have never given any thing to the Tahsildar either as fees or bribes- It will be seen that appah Reddy the only one of the above four persons who says that he paid money to the Tahsildar, mentions nothing about Kristna Row as a medium, but declares he paid it direct. Ramasawmy Moodely the Complainant upon being questioned regarding this point, says, he heard that Kristna Row was the agent for these kind of transactions and therefore stated that he had been concerned in the ones now under enquiry- with regard to the former part of the Second charge it appears. Kristnarow was formerly a Police Goomastah but since dismissed, and that being

being a very clever hand he has done work as an Comadwar in the Talook Cutcherry.

3. The third charge is with having appropriated a Site for building granted to the Complainant. There does not appear any necessity for investigating this charge as the Subject has already been reported with an account of the Sites in question, to the Collector by an Aryee from the Tahsildar dated 12th March 1855 & 159. It seems that the Complainant failed to build his house within the time stipulated and agreeably to the prevailing rules, the Site was forfeited, being Subsequently transferred to the Tahsildar.

4. The fourth charge is with having collected Palmirahs, and Timber for the erection of his dwelling house without either paying for the Same, or for the Bandies which conveyed them to Chittoor. the Complainant has no witnesses to substantiate this assertion.

5. The fifth charge is with having appropriated for his own brickkiln 10 bandy loads of loppings of Circar trees. Cut by the Jail Convicts, as the branches of the Same overhung the road and

caused

Fort St. George 13th August 1857

Caused inconvenience. Five witnesses are examined on this point and I state, that they saw the boughs carried away by the Tahsildars orders; one of the two further deposes that they were used for burning the Tahsildars own hitherto. The other three, who are Chittoor Town Peons, depose that the trees were cut and the boughs placed in a heap. that the matter was reported to the Tahsildar, and orders to put them up to auction solicited. but no answer received from him. In reply the Tahsildar states that upon the Cutwall reporting the circumstance to him, he directed a Royasagar since deceased to write an Arzee to the Hoozoor, requesting permission to sell the lappings at auction, but that in the hurry of business it was forgotten that he never took the trees, and cannot tell what has become of them.

6th The sixth point is, that the Tahsildar employs a Talook Peon named Venkatasawmy to drive his Bullock bandy; this assertion is not corroborated by the witnesses cited.

The

Fort St. George 13th August 1857

7th The seventh charge urged by the Complainant is, that the Tahsildar instead of fairly distributing the notices to be served on Revenue defaulters amongst the Cutcherry Comaidoovars &c., selects three or four favorites, to whom a large number are monthly given, and that these persons thus favored, employ dependants, Coolies &c. to serve them actually on the parties at a very reduced rate, thus netting a monthly stipend by the transaction without trouble to themselves. Upon looking over the Cutcherry accounts relating to the Revenue notices, it appears that three persons have been thus specially favored, and upon making personal enquiries two of them admit that they have not served all the notices themselves, but entrusted them to their dependants &c. to deliver them at about one third the regulated rate, thus appropriating the difference themselves. One of these

two,

two, is the Damaad near Kistnarow above referred to- The Thasildar in answer replies that he was not aware until lately, that the practice alluded to obtained in his Talook- that immediately it came to his knowledge he took steps to prevent it, that he never made any profits himself by the system- and that he has reason to believe this kind of Brokerage has existed in several other Talooks.-

8 The 8.th accusation is, that cattle, found grazing and straying in the public throughfares, private gardens V.ca and forwarded by the Cutwall for pounding and fine, to the Head of Police, are released after payment of the fine, but the proceeds embezzled by him and not brought to the credit of Government- Upon Comparing the accounts Kept by the Cutwal, with those

those of the Thasildars Cutcherry, for the last five months, it appears, that 101 head of cattle have been sent to the latter Officer by the former, but only 65 entered in the Talook Cutcherry, and fines amounting to R.s 10-6-a levied thereon, nothing being mentioned regarding the other 37, upon which fines amounting to 9-4 R.s should have been collected- In answer, the Thasildar affirms that frequently the cattle of poor persons and Travellers are pounded and that the owners have no means to pay, that on other occasions the cattle of influential people those of the European residents servants V.ca are found straying and that he has been obliged to release these without payment of any fine- this answer is, I consider sufficient, and explains what really happens in practice, V until the proposed Trespass act is passed, the subject will always be attended with doubt and difficulty.-

In

9. In the 9th. instance, the Shasildar is accused of having procured, for his own use, sheep, fowls, rice &c.a, from the different Villages at which he has halted during his visits in the Talook, and never paid for any of these supplies - no witnesses are cited to prove this charge.

10. The tenth charge is, with having privately sold a stray she buffalo for two pagodas to a friend, when the animal was worth four pagodas, and should have been put up to public auction - this accusation appears quite false, the buffalo was without owner (bewaree), and after the usual period had elapsed, orders were issued by me to sell it by auction; the witnesses examined prove that this was done fairly, and openly in the Talook Cutcherry: the list of bids also shows this is to have been the case, the animal sold for 2 Pagodas, and it appears worth about 3 pagodas, this low sale however was no fault of the Shasildar, as the bidders went no higher than the price it sold for -

11 The eleventh charge against the Shasildar is

is the gravest of all, and is as follows - Ramen Chetty Monigar of Kallaveredoo, deposes that the Shasildar came to the above Village in July for the purpose of making the yearly Jamabundy and asked him for a gratuity as he was at great expence in building his house at Chittoor that he replied he was only a small shareer in the Maniem Office, and could not comply with such a demand, whereupon the Shasildar said, Take it from the Circar Collections now in your charge and make it good afterwards - that fearing he should lose his Moniagarship if he refused, he paid the sum of Rs.a 80 from the Village Collections received at the end of Asvi and the beginning of Adi; that 5 witnesses were present when the money was paid - that he made good the 80 Rs.a in the following manner, 18 by subscriptions from Ryots, 42 by loan from Vencummah Chetty 10 by Do. from Jerappah Naik, and 10 by Do. from Calingarah Moonesawmy, thus making up the sum required - that he paid the above amount

in

in two instalments into the Talook Cutcherry- that he also had to provide the Thasildar and his followers with food, supplies &c.a to the amount of Pg.a 30, which he has never been paid. Of the 5 witnesses cited, 3 depose to having seen the money paid by Rama Chetty, and differ but very little in their evidence, the fourth says that he knows nothing about the sum having been paid, but the manner in which he gave his deposition and his reluctance to take the usual oath, impress me with the idea that he knew more than he really stated. The fifth witness, Papah Reddy states, that he knows the supplies were made by Ramachetty as above shewn, and heard him say that he had never been paid for the same- In answer to this charge, the Thasildar urges that the witnesses differ in their evidence, and that he was not in the Village in question on the 2.d of Adi i.e. the 15.th July, as stated by the Prosecutor and witnesses the difference in the testimony of the witnesses is trifling, but the latter is a point of considerable importance, the Hoozoor records and other accounts serve

serve to shew that the Thasildar had left the Village about twenty days before the date on which the money was said to have been given, and that he had not since returned there- This I confess causes one considerable perplexity and I cannot understand how Rama sawmy Moodily and his Colleagues, if, as the Thasildar says, they were bent upon ruining him by framing and urging these fictitious charges, could have overlooked so important a point as this, the verry first precaution that they would naturally take would be to get the place and date proper, so as to leave no room for an alibi- although the accounts of the Village and the bonds held by the abovementioned parties for seems borrowed by Ramacharry for the avowed purpose, corroborate his statement, it seems but fair that the accused should have the benefit of the alibi, which he has certainly established.

12. The 12.th Charge is with having received 15 Pg.a from one Narranappah Naick at Kallajanedoo, in order that 5 Tamarind trees might be entered in his puttah- two witnesses are cited to substantiate the accusation, one is a Cousin of the Complainant Narranappah Naick, and the other unconnected with him, they both depose to the fact and their testimony is free from discrepancy- The Thasildar pleads

Fort St George 13th August 1857

pleads in his answer, that the Complainant is annoyed with him for not having entered the trees in his patta, and therefore brings this fictitious charge against him, and that the story is completely false.

13. Upon reviewing the evidence in support of the charges thus brought against the Shasildar, it appears to me, that grave suspicion attaches to him of having received as a bribe the Rupees 35 from Appah Reddy as mentioned in the 2nd charge. that he was certainly guilty of neglect and not improbably of dishonesty regarding the toppings of the Government avenue trees which should have been put up to and vide 5th charge. That he is also blameable for not having distributed the Revenue notices fairly, and for that they were actually served by the persons who were to receive the Batta. That the 12th charge of having received the sum of Rs 15 from Narrana appah Naikis fully established, there appearing no reason to doubt the evidence adduced. The other accusations are not in my opinion substantiated.

14 Syed Isack's service extends the time over a period of nearly 23 years. He was when Head of Police of Cangoundy charged with some irregularities and suspended during investigation, but subsequently acquitted and stated since however his appointment to this Talook he has commenced building a house in Chittoor, his native place, the expences attending which must, it appears to me have proved more than he could undergo fairly. he has thus been led into temptation, and endeavouring to meet the outlay by dishonest means. Considering his previous service I would recommend that he be suspended for the present, and provided on this favorable opportunity with some situation of less trust, and less responsibility than the one he now holds.

(Signed) C. Bamburry
Asst to Sub Collector

(True Copy) (Signed) C. Whittingham Master

Fort St George 13th August 1857

Bt No 2706

Proceedings thereon.

(367-368)

There is nothing in the charges reported on by Mr Bamburry that would justify the removal of the Tahsildar. The 12th charge is stated to be proved but Mr Bamburry has not noticed the plea put in by the Tahasildar, which if true, renders the Statement of the Plaintiff in this case improbable.

2 Mr Whittingham states that Syed Isack was brought to Chittoor not on account of superiorities, but in order that a Mussalman might be introduced where all the principal officials were Brahmans Mr Whittingham regrets having adopted this step as Syed Isack is really very inefficient both in Revenue and Police matters. This if fully explained, would justify the removal of the Tahsildar to a Talook with less salary.

The

12845 Fort St George 13th August 1857

The Board however observe from a subsequent communication that it has been thought expedient to transfer him to the Chingleput Talook.

Read again letter from the Acting Collector of Ganjam dated 31st March and entered in consultation 20th April 1857.

B. No 2266 From the Actg Collr of Ganjam

Sir.

In continuation of my letter of 31st March last No 23 reporting the death of T. Venkatashen the Manor Proprietor of Chakepilly and Konoosola Kottoor, and with reference to the correspondence noted in the margin I have the honor to report that on taking a strictly legal view of the case it appears to me that the Estate in question is an Escheat to Government. The Estate was purchased and registered in the name of T. Rungarow and T. Kondalrow cannot now reclaim it. The adoption was not for want of sons to perform his funeral rites and the adopted being of a different caste from the adopter did not become entitled to a sons share of the fathers property it was to make him independant that the Estate was made over

Collectors letter to the Commissioner N. C. dated the 11th February 1855 No 26 Extract from the proceedings of the Commissioner N. C. under date the 12th April 1855 No 246.

over to him and as Rungarow had not the status of a son the Estate does not revert to the father as it otherwise would have done both Rungarow and his wife also are adopted Child of T. Kondalrow having died without issue.

As however the Estate was bought with T. Kondalrow's money for the praise worthy purpose of providing for two children of his adoption I beg leave to recommend that the Estate be made over to him leaving him to dispute the title should any one claim it as heir of T. Rungarow or his wife. This appears to me the course most likely to meet the views of a liberal Government.

Proceedings thereon.
(369-370)

Resolved that the foregoing communications be submitted for the consideration and orders of the Right Honorable the Governor in Council with reference to Section

In R.C. Cons: 12th April 1855

minutes. Consultation, dated 20th March 1855, No 340, Revenue Department.

2 Under the circumstances stated by the acting Collector the Board of Revenue support his recommendation that sanction be granted for the registry of the Estates of Chackapilly and Konvasola Kottoor in the Ganjam district in the name of T. Kondalrow leaving him to maintain his title should any one claim them as heir of T. Rungarow or his wife T. Venkatashem.

3 The Government are aware that these properties were purchased by T. Kandalrow (a Brahmin of property in the Ganjam district) for the maintenance of V. Rungarow whom he had adopted and who was the son of a Soodra woman. Rungarow died, his wife committed suicide.

Their

12849 Fort St George 13th August 1857

their infant daughter was re-
cognized by Government as
heiress to the Estates and was
placed under Kondalrow's
guardianship. The daughter to
died on the 21st March last.
and though legally the Estate
may probably be considered
an escheat, the Board are sati-
fied that Government would not wish,
under the circumstances, to pre-
their claims.

12850 Fort St George 13th August 1857

From the Collector of Canara ---

4 Scales with 4 3/4 Inch chains and boards complete @ Rs 130 each	520-0-0
56 Iron weights of 56 lbs each @ Rs 2 14/16 each	161-0-0
Boat freight from Bombay Packing &c	33-0-0
Premium of Insurance on Rupees 850 @ 13/4 per Cent	11-3-50
Commission @ 5% on Rs 728-3-50	36-1-77
	765-1-27

I have the honor to request the sanction of Government for the purchase of the Scales and weights noted in the Margin for the use of the Ports of Coompta and Tadry.

2. In doing so I must observe that the articles in question were forwarded to my predecessor by Messrs Ewart, Latham & Co of Bombay in Compliance with an order for Scales and weights of a specified description suited to weighing Salt. They were not however of the kind ordered or at all calculated for use in the Salt Depôts being of the common sort used for weighing in bulk according to the English standard, but Messrs Ewart, Latham & Co declined to take them back and they have remained on hand up to this time.

Madras.

Sir,

On the 2d January 1857 we paid duty 11—8—0 on a case pr. Steamer Bentinck containing a Watch belonging to R. R. Cotton Esqre. C.S.—

Mr. Cotton has informed us that the watch was not new, but one that had been sent to England to be repaired.—

As a proof of this, Mr. Cotton has forwarded documents, which we now enclose, and request that you will return them to us after perusal.

We have now the honor to request that you will cause the duty paid on the above Watch be refunded.—

379

Pd. No. 3199
From Acting Collector of Masulipatam

Sir,

I have the honor to report that, in obedience to Extract of Proceedings Board of Revenue, dated 23d July 1857 No. 2486, I presented a motion to the

Fort Saint George 13th August 1857

the Civil Court praying that an exten
of time to enable me to enter an app
might be obtained.

2 This motion was r
jected as, according to the terms of
clause 2. Section 1. Act IX of 1855, i
should have been addressed to the
Sudder Court. I accordingly prese
another motion which has been pa
on to the Sudr Court by the Civil

3 This, the Board will
observe, is a simple motion asking
leave to enter an appeal petition
and I beg the Board will instruct
Mr Dale to attend in the Sudr
Court and support it. it would
have been much better had Mr Da
himself presented it in the
Court

4 I beg also to point
out to the Board that probably long
ere this, the appellant has fo

Fort Saint George 13th August 1857

filed his ground of objection, in which
case it would be desirable Mr Dale
should not allow the 4 weeks allowed
in clause 1, Section VI Act IX of
1855, to pass without moving as
Respondent.—

5 I will, in a few days when
some translations are ready, send
the necessary Stamp and all other
papers as directed to Mr Dale, but
I beg to remind the Board that the
pleadings are already in Mr Dale's
office, if, as I suppose, he succeeded
to Mr Nortons records.

6 I beg again to urge on the Board
the importance of Mr Dale himself
attending in the Sudr Court, and learning
what the Appellant has done and what is
the answer to my motion.

399

B. No. 1551.

From the Collector of Trichinopoly - Furnishing the information required in Extract Proceedings of the Board dated 20th Instant No. 1246 in respect of Certificates issued under Act 17 of 1848 for refund of stamp duty.

Sir,

1. I have the honor to acknowledge the receipt of your Boards' Proceedings No. 1246 dated the 20 Instant and as directed thereby beg to furnish the information required on the subject of the frauds perpetrated upon me by one Tumboo Saick in respect to many Certificates for refund of stamp duty under Act XVII of 1848.-

2. Prior to the Circular issued by the Superintendent of stamps in May and June 1856, it was not the System to examine the Court Registers of Certificates issued in Suits, or to look into the Statements of sale of Stamp papers previous to passing a Certificate for refund of duty under Act XVII of 1848. The Check observed in all Collectorates was previous to the issue of an order for paying a refund claimed, to examine whether the Certificate is presented

presented within the legal period- Then enter the
date of presentation- And on being satisfied
the genuineness of the Court issuing the Certificate
to order payment of the Amount of refund de
whole or half as the case might be-

3. With me, all Certificates were
received in my presence, and passed in my pre
on the same day of receipt- And the date of
presentation entered in my own hand writ

4. The Deputy Revenue Sawbu
of my Cutcherry, Vencatachella Naick, since
had this duty of passing the Court Certificat
And although, now that these interpolations
figures, and alteration of amounts of suits
refunds of stamp duty, are pointed out,
I am free to acknowledge them to be glaring
and that my Native Subordinate Officers
not been so vigilant as they ought to have
yet at the same time I must exonerate them
from all participation in these frauds, and
any intent to defraud the Government-

5. Beside the scrutiny of the

Monthly Court Registers of Certificates issued
for stamp duty refunds, and of the Statements
of sales of paper for the suits claimed on, I
have resolved not to pay the amount of refunds to
any Vakeel or Agent- The parties claiming
must appear before me- And I have long since
requested the Civil Judge to direct his several
Judicial Officers to cause the amounts to be
Entered in Columns 3- 4 and 5 of the Cer-
-tificates to be in writing- And the date in
Column 8 also to be in writing-

6. I trust on this explanation your
Board will not hold my servants answerable-
If they are chargeable. so am I, for no Certificate
was ever passed except in my presence-

No. and year of the Suit-	Legal amount.	Amount Paid-
728 — of 1854	1	8
25 — of 1855	1	32

No. 1.

Extract from the Proceedings of the Sudr Udal...
under date the 4th February 1857.

Read letter Dated 17th ... 1857 from the Civil Judge of Trichinopoly-

1. The subject of the above comm...
-nication is the discovery of certain frauds comm...

Fort St. George 14th August 1857.

by one Tumboo Naick alias Sooba Naick son of Narrainsawmy Naick, third Goomastah of the Torriore Moonsiffs Court by which the Government have been defrauded of the sum of Rupees 587.

2. The non detection of the forgeries by which that individual was enabled by obtaining the Moonsiffs signature to certain false Cer-tificates, and altering the figures in others to receive from the Collector sums equal in the aggregate to the amount above mentioned, as re-fund of the value of stamps, is attributed partly to the neglect of the Moonsiff and the negligence or connivance of his Goomastahs, and partly to the carelessness of the Collectors sub-ordinates- The frauds appear to have been first detected in the Office of the Superintendent of stamps-

3. Concurring in the suggestion of the Collector as to the punishment of the Ministerial Officers of the Torriore Moonsiffs Court, the Civil Judge has dismissed the 3d Goomastah as personally inefficient and as responsible for the Misconduct of his son, and has resolved to transfer

transfer the Aher Goomastahs to similar situation
the Courts of other Moonsiffs - The Civil J
also supports the recommendation of the Coll
that the Torriore Moonsiff and his head Go
should be required to make good the amount
which by their negligence the Government has
been defrauded -

4. It appears from the Corresp
enclosed with the Civil Judge's letter that thou
warrants accompanied with the offer of a rew
have been issued by the Collector in his Magist
Capacity against the said Soobba Naick, he h
not yet been arrested, and that the direct
perpetrators of these frauds has therefore as
escaped the punishment he deserves -

5. The Court of Suds Udalut o
observe that the party primarily responsible
the sum obtained from the Collector under
false pretences is the delinquent Soobba
Naick and that should he be arrested an
brought to trial application should be mad
to the Court by the Government Vakeel when

conducting

conducting the prosecution, for the enforcement
of the provisions of Act XVI of 1850, which
authorizes the imposition of a fine equal to
the amount of loss sustained, in cases, in
among others of cheating, under which head
the present offence would fall - There are
also other legal means by which the amount
in question might be recovered from the
said Soobba Naick in the event of his
being apprehended -

6. With respect to the liability
of the District Moonsiff, the Court are
of opinion that, though blame certainly
attaches to him for having neglected to
exercise such general superintendence
over the conduct of his Ministerial Officers
as would have tended to prevent such
systematic fraud, some allowance must
be made for him in consideration of the
number of papers to which his signature
is daily required, and the impossibility
of

of going deeply into all of them - The C
consider that a fine of 50 Rupees will
suffice both as an adequate punishmen
the neglect of which the Moonsiff has
guilty and as a warning to himself and
Moonsiffs for the future - They therefo
resolve to direct the Civil Judge to im
a fine upon the Torriore Moonsiff to
amount -

7. The fault of the Head Goo
has been viewed by the Collector and Ci
Judge in the same light as that of the
siff, but the Court of Sudr Udalut
it as one of a much graver character
Officer in his position cannot be allo
to plead that he depended upon the r
of those below him - It was his duty
have examined every Certificate before
testifying that it was correct and h
failure to do so was the more culpa
because it had the double effect of

an easy way for the commission of fraud, and
of misleading the Moonsiff who looked co
upon his signature as a safeguard co
against such fraud considering the co
offence of the Head Goomastah one
for which amercement or suspension would
not be a condign punishment, the Court direct
that he be dismissed from the public service -

8. It does not appear that the co
Collector has it in contemplation to punish
his subordinates for the negligence of
which they have been guilty in this co
matter - In the second para of his letter
to the Superintendent of Stamps Dated
31 st December last, the Collector acknowledges
that the interpolations and alterations of
figures

Fort St. George 14th August 1857.

figures in the Certificates per refund of the Value of Stamps are most glaring and his native Subordinates have exhibited gr carelessness and want of vigilance - The Court are of opinion that these delinquenc should be duly punished -

9. The Court of Sudr Adalut requ that the Civil Judge will inform them of th details of the measures adopted by the Collec for the prevention of similar frauds for the fu in order that they may be circulated with nece modifications as may appear necessary for the in -formation and guidance of the Civil Judges of other Zillahs -

Ordered that Extract from these Proceedings sent to the Civil Judge of Trichinopoly by precept returna within XV days from and after its receipt -

notes Marginally, and copies thereof herewith transmitted will put you in possession of a System of fraud and forgery that has been for some length of time carried on in the Combaconum District Moonsiff of Porriore in respect to the issue of certificates under Act XVII of 1848 for the payment to parties of refund of Stamp duties on suits dismissed on application made by them

2. The Chief perpetrator of these gross frauds and enormities has been one Shunmoogum Naik alias Soobah Naiken, the Son of Narrain Sawmy Naik the third Gomastah of the Court of this individual I have full proof - But as you will see he has eluded me, and you may observe I have not been able to procure his apprehension although every possible endeavour has been used by me, both in this District and in the neighbouring Provinces, as well as at Karical, Pondicherry, and Madras -

3. In connection however with these transactions I deem it my duty to place the following papers before you, namely, Two depositions given by the Porriare District Moonsiff - One deposition given by the Head Gomastah of the Moonsiffs Court and one Statement shewing the several dates upon

Fort St George 4th August 1857.

upon which certificates for refund of Stamp duty under the Act. XVII of 1848 have been issued, with the amount of refund actually paid from my Treasury to the party presenting the certificate -

4. On a perusal of this statement, which I furnished, you will at once observe that not one of these certificates could legally be granted to the parties, by reason that the several Suits for which they purport to be issued were either dismissed on Razeenamah or Decrees of Court, or as struck off the file - Contingencies which at once bar all claim to refund of Stamp duty - The amount thus fraudulently obtained from the Government aggregates a sum of Rupees 587 -

5 The statement will also shew you that this money has been obtained from me by Soobah Naiken, the person already mentioned, who presented himself on each occasion as the constituted Attorney of the Party claiming, and signed his receipts accordingly for payments made him at my Treasury -

6. Both the District Moonsiff and the Head Gomastah in their depositions freely acknowledge their signatures attached to these several certificates as perfectly valid and true

Fort St George 14th August 185

true; and in extenuation of their conduct plead press of business, and implicit confid in the good faith of the subordinate Gomas of the Court, inducing them to sign whatever certificates were placed before them without check, or in fact any, the commonest scrutiny

7. From all I can learn, as well as fr the depositions of the Moonsiff himself and t Head Goomastah, it has heretofore been the du of Narrainsawmy Naik the third Goomastah to prepare the certificates for But this man being lame and not over efficie almost the whole of his duties were allowed to undertaken and transacted by his son, this Tom Naik alias Sobah Naiken, who is represented so being a man of great talent and shrewdn who by his cunning obtained the perfect confi of the Moonsiff and the Head Gomastah was trusted by them implicity - and permitte to prepare almost every certificate issued of the Court

The District Moonsiff has stat in his second deposition that merely the whole the Certificates now exhibited are written and prepared by this Sobah Naiken

8. I am not in a position to attribute

Fort St George 14th August 185

fraudulent participation in these transactions either to Krishna Row or to the Head Goomastah - On the contrary, I believe them to be quite free from taint, and to have been the dupes of a designing cunning miscreant - But there has been gross and culpable carelessness in the matter, by which the Government have been defrauded of a large sum of money and I am bound by my duty to urge upon your consideration the justice of declaring the District Moonsiff and the Head Goomastah of the Torriore Court must forthwith make good this sum of Rupees 587 by paying the amount into my Treasury

9. It is also my duty to recommend to you the immediate dismissal of the third Goomastah Narrainsawmy Naik and to suggest the expediency of all the Subordinate Servants of this Torriore District Moonsiff Court being changed to other Courts.

10. A Copy of this letter

of

Encl. 4.

To,

W. S. P. Morris Esq
Civil Judge of Trichinop

Sir,

I have the honor to acknowledge
receipt of your letter No 76 of the 9th Instant
Extract from the Proceedings of the Sudr
but dated the 4th February 1857

2. In the 5th Para of these Proce
ings the Court observe that it does not appear
plete to punish my subordinates for the negligen
which they have been guilty in the
ter of the frauds committed in respect of

12889 Fort St George 14th August 1857

Certificates - I would beg with all respect
to submit that however remiss my Office
may have been in regard to other Certificates - They
cannot be so charged in reference to the several
Certificates enumerated in the list which ac
companied my letter to your address No 5 of the 12th
Ultimo -

3. The most careful scrutiny would
have failed to detect any fraud in these Certificates
They had not been tampered with in any way - They
simply ought never to have been issued as the Suits
for which they purport to belong were
already disposed of on Razeenamah, or
Decree and on being struck off the
Court's file - Contingencies which my
Office could not then possibly detect for
the reason that the System of examina
tion of the Court Registers and
Statements of Sale of Stamp paper
had not at that time been ordered.

4. I deem it due to
myself and to my Office ser
vants to state for the infor
mation

12890 Fort St. George 15th August 1857

Vide letter No 20 dated 19th Decr 56 to Supdt Stamps

information of the Sudr Wala that if we had not brou
these very Certificates to
notice of the Superinten
dents of Stamps the whe
might have remained

12891 Fort St George 15th August 1857.

Br No 2713

Proceedings thereon. The Superintendent of

(399-400)

Stamps in a letter dated 4th April 1857 in-
formed the Board of Revenue that
several frauds in certificates issued by
the judicial authorities under act 17 of 1818
for the refund of Stamp duty had been
discovered in his office from a close examina-
tion of the certificates received from the
Collectors of Trichinopoly, South Arcot, Salem,
Madura, and Chingleput and that he
apprehended the existence of similar mal-
practices in other districts also.

2. The circumstances which led to the detection of these frauds are briefly as follows.

In May 1856 it occurred to the Superintendent to enquire what checks were adopted in the Collectors, Cutcherries in making payments on the certificates above referred to. The Collector of Salem while affording this informa-
tion mentioned a fraud which had been committed by a Vakeel of the Salem
Moonsiff's Court who

in

in order to obtain the full amount
of Stamp duty in a case in which
client was entitled to only half, substit
the word "before" for "after" in the c
-ficate. The fraud was discovered
Vakeel punished with five years impris
and hard labor.-

3. Suspicions being thus aro
Mr Pushington instructed the Collect
future to call for Monthly Registe
the authorities granting these Certificates an
make no payment on any Certificate unless it has first been
with that Register. The Superinten
was at the same time indu
Serutinize the Certificates already receive
into his office the result of which
-amination is stated in para 1 of the
Proceedings.

4. The Superintendent in
letter brought under the Board's con
-ation only the frauds in the Vizia
District and stated the interpolat
and erasures were sufficiently ob
-vious to justify the attachment
Claims to the Collector's establish

and holding it answerable for the
loss which had accrued to Government
from its want of vizilance.-

5. The whole of these frauds
appear to have been committed by one
Sooboo Naick the Son of the 3d Gom
-mastah in the Tarriore District
Moonsiffs Courts Sooboo Naick is said
to have been allowed to assist his father
in the latters Official duties most of the
Certificates issued were prepared by him
and he drew the Money as Agent to
the parties interested Sooboo Naick by
his position was no doubt enabled
to carry out his schemes more boldly
and extensively than he could otherwise
have done but still many of the
false certificates on which payments
were made were so clumsily prepared
that ordinary care in the Collec
-tor's Office would have led to
immediate detection.- The frauds
referred to are of three kinds 1st by
Certificates

Fort St. George 11th August 18

certificates issued in cases in wh
refunds of stamp duty were not le
claimable. 2d by forged certificate
3d by Certificates altered and wit
-dated previous to presentation for
-ment. As regards the 1st Class of
the responsibility lies on the Dist
-Moonsiff's establishment as the
evidently had no means of know
whether a refund of duty is claim
Law suit. The forgeries having
committed on the District Mo
-siff's detection in the Collector's Off
was equally impossible. The remainin
frauds, however might have been det
in the Collector's Office.

6.

On reply to the refer
made to him on the subject Mr B
states that until lately the gener
practice in all Cutcherries on pres
-tation of a Certificate for refun
was to see whether document was

Fort St. George 11th August 18

presented within the prescribed time, to
make an entry of the date and on being
satisfied that the certificate was issu
-ed under proper authority to order
payment of its Amount. In this
Cutcherry all certificates were received
and passed in his presence on the
same day and the date entered by
himself. The Deputy Jamalvanees who
was entrusted with the passing of
the Certificates when these frauds
occurred is stated to be dead. No
comparison was made with any
return or account from the Courts
whence the Certificates issued.

Mr Bird admits that

7.

the alterations are glaring and that his
Subordinate native Officers have proved
themselves less vigilant than they ought
to have been but he believes them
to be innocent of any intention to
defraud Government or of col
-lusion with the party who

has spitted

Fort St. George 14th Augt

benifited by the fraud and he
they may not be held responsi
the lost arms certificate was
except in his presence

8.

From a statement
the Margin of Pay it appear
12 Certificates were tampered
payment to the amount of Rupees
obtained where only Rupees 8 were
due to that
24 will have to be written off
profit and loss.

9.

The other frauds
which in the Board's judgment
District Moonsiff and his Est
-ment are above amenable and
to Rupees 587

10.

With regard to the
Board learn from the correspo
-dence accompanying the Collec
letter that by order of the Lt. C
the Moonsiff has been fined
and the Head Gomastah dismiss
the Court being of opinion that alth

Fort St. George 14th August 1855

Moonsiff was obliged in a great degree
by the numerous papers requiring his
signature daily to depend upon the
head Gomastah for the correctness of
the certificate issued there was still
great want of Vigilant general Superin=
=tendence on his part. The third
Gomastah whom as the father of
the delinquent Soobroo Naick was
dismissed by the Civil Judge as per=
=sonally incompetent and responsible
for his Son's misdeeds

11.

Soobroo Naick has absconded and was not apprehended at the
date of the Collector's letter but a warrant
had been issued against him and a
reward offered for his apprehension
The Court observed that should he be
arrested the Government Vakeel ought
to be instructed to apply for the enforce=
=ment of Act XVII of 1850 against him so
that a fine equal to the amount defraud=
=ed may be imposed or that other legal means
should be employed to reimburse to
Government

Fort St. George 14th August

Government by recovery of the a
from Looboo Sahib-

12. The Board consid
great carelessness and want of
have been manifested by the vario
subordinates of the Collectorate
-cherry but as the Deputy Collect
to have so employed in passing
certificate and to be primarily
-ble for their correctness it does not
are unable to attach direct respons
on any other of the Collector's Serv
They therefore recommend that
Collector be authorized to write off
-fit and lop the total amount lost
the frauds after verification by the
auditor-

13. To prevent similar fra
in future Mr Bird proposes check
the Certificates which may be
to him with the Monthly Register re
from the Courts and with the State

Fort St. George 14th August 1857

of sales of stamp paper and paying the amounts
due only to the claimants and not to their Va=
=keels or Agents- He has also directed that
the amounts liable from their importance to
alteration in the Certificates should be
written in the Registers and not entered in
figures-

14. The Board deem it unnecessary to
require the personal attendance of each claimant
and they observe that in the Rules which the
Sudr Court have since published Extract
Proceeding Sudr Udalut 28th April 1857 provision
has been made under sufficient safe guards for
parties receiving their refunds thro their agents-

15. The Rules alluded to above have
been circulated by the Sudr Udalut to all Col=
=lectors and if strictly enforced will prevent the
Commission of such frauds-

16. The Board remark that it is a
standing rule that the totals of all bills &c.
should be entered in words as well as figures-

17. The frauds practiced in the other

Districts

12900 Fort St. George 14th August

Districts referred to by the Superintendent in
letter and in the first para of these Proce
will be reported to Government when they
before the Board with the necessary escrip

Proceedings thereon. The Acting Collector is requested

401-401A to give his own opinion explicitly on the propriety, or otherwise, of complying with Mr. Shamel's request.

2. The Board have no means of judging whether two shops are sufficient for the Town of Nellore.

Resolved that the following Statement be despatched to Government.

Statement

12902

B. No. 2707

Fort St. George 14th August 1857.

402 Statement shewing the state of the season in the undermentioned Districts for the Month of July 1857.

District and date.	Rain fall.	State of the Crops and the Cultivation operations.	Prices whether high or low rising or falling &c.a.	Further remarks.
Chingleput dated 1st in Consultation 3d August 1857. No. 1578.	Seasonable & occasionally copious. The tanks have received about a Months supply of water.	The Nuneray Crops are being reaped wherever arrived at maturity. Indigo has improved in appearance. The rains enabled the Ryots to plough their Poolicical and dry lands.	Have not varied materially Cars paddy sells on at ——— 14 Sumba — 13 and Raggy 10 Measals per pagoda.	Cholera prevails to a considerable extent in Ootramaloor and Murrain amongst Cattle
Nellore dated 5th August 1857 No. 1679.	Little rain the end of the Month. The average fall near the Coast was 1. Inch High table land in centre of District was 3.55 This appears to be the average for the whole district but all the Talooks have not yet reported.	Since the rains the dry cultivation has been actively resumed. Some of the dry Crops sown in the early part of June have been parched the Indigo and Sujjaloo are expected to thrive.		parts of the district in the Town of Nellore where some cases have proved fatal.
Bellary dated 1st in Consultation 6th August 1857 No. 1683.	Copious and seasonable showers towards the end of the Month	The Crops were suffering before the rains. The Moongary Crop is in a healthy condition and in some places Cultivation operations are going on. Wherever	Compared with last Month the price of wheat has fallen 15% and of 1st & 2d sort indigo risen 26% and of cotton 17%. The other articles are stationary or have varied but little in price.	Fever ague and Cholera are partially prevalent. Cattle still suffer from disease.

12903

Fort St. George 14th August 1857.

District and date.	Rain fall.	State of the Crops and the Cultivation operations.	Prices whether high or low or rising falling &c.	Further remarks.
Tuticorin dated 3d in Consultation 6th August 1857 No. 1682	Heavy but partial on the 19th and 23d the average on the former day being 2 In: The freshes in the Cauvery and Colerroon are steady and rose a foot and a half on the 31st July.	Wherever rain has fallen Cumboo Cholum and other dry grains have been Cultivated and the young crops look well. The gardens are for the most part being Cultivated with the usual products. The lands under river irrigation have plenty of water Cauv Paddy Cultivation is nearly completed. The bearded paddy is being cut a few tanks have a good supply of water compared with the Cultivation during the corresponding period of last year 1,24,629 acres assessed Rupees 1,24,629.	Almost stationary grain is being exported to Coimbatore Salem and Madura.	Pasture is left scarce since the rains Murrain among Cattle is still continues Cholera has made its appearance in three Talooks.
Madura dated 4th in Consultation 8th August 1857 No. 1701	Rather copious throughout the District at Ramnad near the Coast — 3½ Inches in Madura. 2½ Tenkurray close to the Hills Nine.	The late crops of last fusly's Cultivation are being reaped. Dry Cultivation is in progress and wet lands are being prepared.	High and Stationary.	Cholera is partially prevalent.
Vizagapatam dated 3d in Consultation 8th August 1857 No. 1699.	A heavy and general fall throughout the District of 4½ Inches. The tanks and Channels have sufficient water for the 1st Crop.	"	Almost stationary. Gingly seed and rice are being largely exported.	Cholera has disappeared and the District is very healthy.

B. No. 2773
From the Supt. of Stamps

To J. D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George

Sir

I have the honor to acknowledge Extract from the Proceedings of the Board dated 8th Instant referring for my report Copy of a Correspondence in which has passed between the Government the Accountant General and the Collector of Cuddapah respecting a deficiency of Stamp Papers in the District of Cuddapah amounting in the aggregate to the value of Rupees 369-5- . In reply I beg to State that the Collector of Cuddapah forwarded to this Dept. on the 3d August 1855. Forty Rolls

Fort Saint George 15th August 1857

Rolls of Stamp Paper reported to have been destroyed by white ants the aggregate value of which was Rupees 240-12-" and not Rupees 240-4-" as stated by that Office — The Value of this paper having been included in the item of 1522 Rolls to the aggregate value of Rupees 12591-14-" entered in the Credit Side of the account Current No 4 for Fusly 1265 Submitted to the Board the Stamp Revenue for that Fusly in a letter from the Department on the 17th September 1856 the Sanction of Government was obtained for writing off this value of profit and loss and was Communicated to this Department on the Boards Proceedings of the 19th November 1856. It is obvious therefore

Fort Saint George 15th August 1857.

therefore that the Collector must have inadvertently Stated that the value of Stamps destroyed and returned to this Office amounted in the aggregate to the Value of Rupees 240-4-"

2 On referring to the Statement annexed to the Collectors letter to the accountant General dated 18th April last, the Board will perceive that the difference Rs. 3.5-8. is the value of Certain Sayer Rowannahs which were returned never returned to this Office and as this item has ever since the year 1849 Continued as a balance on hand in the accounts of that District and as the Rowannahs were not forthcoming Mr. Porter thought it necessary that

Fort Saint George 15th August 183

— that the item should not any longer remain unadjusted He accordingly addressed Mr. Murray the Collector on the 20th July 1853 on the subject requesting that the Sanction of Governm might be obtained for writing off the amount to profit and loss which was done by that Office thro' the Board on the 12th Octob 1853 and which sum was adjus=ed in the accounts for Fasly 1263 as will appear on a reference to the account Current No. 4 for that Fasly forwarded to the Board with the Co letter from this Office da dated 17th February 1855.

The

Fort St. George 15th August 1857

3 The value of Stamps issued to Public Servants are regularly adjust=ed in the accounts of the Collector with this Department Consequently I am un=able to report on this point.—

Fort St. George — — — Gen.l Stamp Office 10th July 1857 — } Signed F. Cushington Superintt of Stamps

Bd No 2722 Proceedings (413-414) thereon—

In Mr. Murrays letter and the Correspondence accompanying it which were referred by Government in the Esctract Minutes Consultation recorded above for the Report of the Board of Revenue the Collector requests Sanction for writing off Rupees 369-3-= to the Head of profit and loss— In explanation he states that the above amount comprises Rupees 240-4-= the aggre=gate value of 40 Rolls of stamps re=turned to the Supt as damaged by white ants and Rs 129-1-10 the difference between the value of the Stamps received by the present Darogah since

Fort St. George 13th August 1857

Since fusly 1256 and 1846/47 properly accounted for to the Supt. of Stamps and the value shown in the accounts of the Collector as remaining yet to be adjusted Mr. Murray states that he is unable to trace the origin of this difference as it existed long before the present incumbent took charge of the Office and arose from less Credits having been taken in the accounts.—

2 The Collectors letter &c. were forwarded by the Board for the report of the Supt. of Stamps whose reply is the second communication entered above.—

3 It appears that Mr. Murrays statement that damaged stamps to the value of 240-4 were returned to the Superintendents Office is not quite accurate as paper to the value of only Rupees 204-12 was received and the Sanction of Government for writing

Exc. Mins Consn. 1174 dated 4th Novr. 1856 In Con. 19. Novr.

Fort St. George 13th August 1857

writing this amount off to the Head of profit and loss was obtained in November last.—

4 The difference however Viz. Rupees 33-8-0 is the value of Certain Sayer Rowanahs which were not forthcoming and under the Sanction of Government were written off to profit and loss in fusly 1263.—

Exc. Mins Consn. 1135 dated 12th Octr. 1853 In Con. 20 Octr.

5 The Correspondence quoted by the Supt. Confirms his Statements but it appears that that portion of the order of Government Sanctioning the adjustment of the larger amount was not Communicated to the Collector by the Board tho' the order relating to the smaller amount was duly furnished to him.— The Board now supply this omission.—

6 The Supt. is unable to afford any information as to the discrepancy between the value of Stamps shown in the Collectors accounts

(12912 Fort St. George 15th August 1857

accounts and that actually in charge of the Darogah as in the Collectors account with the supt. the value of the stamps issued has been regularly adjusted -

The Board do not understand what Mr. Murray means by "less Credits" nor do they see how he has ascertained that the deficiency Rs. 129-1/ occured previous to the present Darogahs appointment if stamps to this value do not appear in the accounts of the Darogah otherwise than as having been received

The Board require fuller information as to the nature of the Enquiry held before they can submit the case to Government -

To, J. D. Sim, Esqre
Acting Secretary to the
Board of Revenue,
Fort St. George.

(425)

B. No. 2450

From the Acting Collector of Masulipatam.....

Requesting, to obtain from Government, the declaration required by section II. Act VI of 1857 for taking possession of a piece of ground for the encampment of Troops &c. at Bezoara, as proposed by the acting Sub-Collector Mr. A. B. Chase.

Sir,

I have the honor to submit for the consideration of the Revenue Board, Copy of a letter and its enclosures from the acting Sub-Collector.

2. Mr. Chase's letter is so full that it is only left for me to solicit the Board to obtain from Government the declaration required by Section II Act VI of 1857, and the appointment of Mr. Chase under Section III Act VI of 1857.

3. I deem it my duty to take this early opportunity to point out to the Board that under Section VI of this Act, if the Officer appointed and the parties interested, cannot agree as to the amount of compensation, the dispute must be settled by arbitration, and it appears to me that if this Act is to be carried into force, it would be desirable to have some explanation

Fort St. George, 15th August 1857

explanation of the order of Government conveyed in Commissioner's Northern Circar's letter dated 2d February 1854 in which the Collector is ordered to assign, without further reference, Mauyem lands of equal value for those destroyed by Public Works.

4. It is not for me to remark on the orders of Government beyond remarking that as this act only provides for a money compensation and the Government have ordered compensation to be made in land in exchange, a difficulty arises whether on the matter going to arbitration, the arbitrators must award money, or may with the Government permission, award lands.

5. In my humble opinion, they must award money and that the simplest and best way, is always to abide strictly by the act, and warn the Public Works Department that "compensation for lands required, must be an item in the estimate

Fort St. George, 15th August 1857

estimate for a work." In the present case, I believe the parties will willingly take any land offered them. but there is another case coming forward in which, I expect to be driven to arbitration and therefore solicit instructions beforehand.

(Signed) T. J. Knox,
Acting Collector.

Masulipatam
Collector's Cutcherry,
18th June 1857.

No. 1.
No. 44.

To, T. J. Knox, Esqre
Acting Collector of
Masulipatam

Sir,

Para 1. I have the honor to forward enclosed a sketch of a piece of ground which I propose to form into an encamping ground for the use of the Regiments and numerous detachments of

of troops, and for the native travellers constantly passing through this station - should you approve of my scheme, I have the honor to request you will forward my proposal for sanction to the Board of Revenue -

2. The necessity of a piece of ground set apart and appropriated to the sole purposes of encampement, is one much felt in Bezoorah by both European and native communities

3. The piece of ground, the sketch of which I have enclosed, is made use of in this manner during the hot months viz, when the ground is not cultivated, and the 1st and 4th Regiments of Native Infantry encamped upon it recently, but during

during several months of the year, it is cultivated with cholum, and as there is no other piece of ground suitable for encamping except at Vidiadharapooram, a Village about one mile distant from Bezoorah, Detachments and natives proceeding in bodies on pilgrimages, make use of the sides of the road and every small available piece of ground within the town and Bazar as halting stages, causing not only great inconvenience to the community, but in the event of the prevalence of any epidemic likely to prove a serious source of evil.

4. The proposed encamping ground contains 19½ acres and may be considered to be unnecessarily large, but I propose that it be appropriated not for the sole use of Regiments and Military Detachments - but as a general encamping ground for the use also of the numerous Native travellers and pilgrims who resort to Bezoorah as a place of sanctity - A portion may also be made available for building purposes as a strip either along the Ellore or Masulipatam roads

road, for the Town has so greatly increas
=ed since the commencement of the con=
=struction of the anicut, and its situation is
so peculiar, hemmed in as it is, by the
river and the channels on two sides, and
by isolated hills on another that it has had
no room to spread, and is now greatly so
cramped for want of space.

5 This ground is admirably adapted
for the purpose I propose, it is distant only
about 400 yards from the Town so that sup
=plies are easily procurable, and the chan
=nels occurring between it and the town will
lessen the risk of infection in the event of
epidemic, it is well supplied with water
and its limits are well defined being bound
=ed on two sides by the Masulipatam and
Ellore roads and on the third side by a
plantation of Palmyra Trees.

6. At the apex of the triangle I pro
=pose to build a small native chaultry
from a part of the proceeds of the Ferry fund
in lieu of a small choultry I propose to re
=move from the Bazar, which will encou
=rage natives to settle on that side and cause
travellers

12924. Fort St. George 15th August 1857.

travellers to encamp on the proposed ground
instead of on the streets and thoroughfares
of the Town, but this will if necessary, form
the subject of a separate communication.

The ground in itself is of small va=
=lue, and only capable of yielding one dry crop
annually - but a portion as per margin is claim=
=ed as enam and free land, this the owners are willing to give up in exchange for an equal quantity of land on the same tenure elsewhere, as bounded as the ground is by two roads it is rendered less valuable owing to the difficulty cultivators experience in prevent=
=ing drones of Banjary Bullocks and cattle from trespassing upon it.

Coby of
dy to Hon.
Collector

12926 Fort St. George 15th August 1857.

Bd. No. 2516

Proceedings thereon. 1. The Board see nothing

(425-426) in the provisions of Act VI of 1857 to prevent land being given in compensation, if the parties interested desire it. In other cases the Act would seem to contemplate money payments.

2. With reference to the more immediate proposition for an encamping ground at Bezoorah, the Enamdars being willing to exchange their land for others, the arrangement made be made amicably without bringing the Act above quoted into operation.

3. The Acting Collector is requested, when submitting the proposition in due form for the sanction of Government, to state whether the contemplated encamping ground or any portion of it is liable to be flooded during the rains, whether both travellers and troops can be accommodated on the spot without inconvenience.

4. The Board presume that no services are attached to the enams in question and in that case it is immaterial whether lands or money be given in compensation.

Bd. No. 2518.

From the Collector of Cuddapah — — Sir 1.

I have the honor to forward copies of correspondence that has passed between me and the Accountant General on the subject of a deficiency that had occurred in the value of Stamp Papers, and to request you will be pleased to obtain the sanction of the Right Honorable the Governor in Council for writing off in the Public accounts the sum of Rupees 369-5-* Three hundred and sixty nine and annas five as suggested by the Accountant General.—

The sum of Rupees 240-4-" which is the aggregate value of 40 Rolls

2.

* Value of papers damaged by white ants - 240-4-"
Difference between Rs. 1,007-13-"-8
Rs. 878-12-" - 129-4-"
369-5-"

12928

Fort St. George 15th August 1857.

Rolls of stamps destroyed by white ants in the District Monsiffs' Court at Nun-Lealumpett and included in Rupees 369-5-" above alluded to, was duly reported to the Superintendent of Stamps and the damaged papers returned on the 3d August 1855. That Officer, on the 8th idem, in granting authority to credit the amount in my accounts as "Dam-aged from stock and returned to this Office," promised to obtain the sanction of Government in due course for writing off the said amount which has not yet been received.—

Cuddapah District,
Collector's Office on
Circuit, Muddenpully,
24th June 1857.—

/Signed/ M. Murray.
Collector

Encl. No. 1
No. 286.

To
G. L. Prendergast Esquire,
Accountant General.

Sir,

12929

Fort St. George 15th August 1857.—

the value of stamped Papers actually on hand and that shewn as remaining in the quarterly Demand Collection and Balance Statement sent to your Office.—

From a Statement prepared by the Stamp Darogah by my order, commencing from Fusly 1256. when he took charge of the Office, I find that the quantity of papers in his hands at the end of October last amounted to the value of Rupees 14,001-12-" whereas, the balance on hand exhibited in the quarterly Statement ending October 1856 is Rupees 15,009-9-0 thus shewing a sum of Rs. 1007-13-0 in excess of the value of papers actually on hand which arises from the value of Stamped papers issued for securities, and Government Law Suits, &c. not having been credited in the Journals. The value of papers entered in the Statement furnished by the Darogah, as having been issued for Securities &c. amounts only to Rupees 878-12-0 — but the difference between this amount and Rupees 1007-13-" above shewn arises from the Darogah's Statement having been prepared only from Fusly 1256. whereas

2.

Fort St. George 15th August 1857.

whereas Rupees 1007-13-- the excess above the value of the paper actually on hand, is the result of Ist credits having been given in the Journals from the beginning or long prior to the Darogah assuming charge of his Office, which it is impossible now to trace or account for, and as the Statement of the Stamp Darogah (Copy of which is herewith sent for your information) corresponds with the annual Statement submitted to the Superintendent of Stamps - I beg to request your instructions for adjusting the present difference, as well as for future adjustments of the value of papers that may be issued for securities &c&c.

Cuddapah, Collectors' office, 18th April 1857.

/Signed/ M. Murray, Collector.

No. 286.

To,

M. Murray, Esquire

Collector of Cuddapah

Sir,

Para 1. With reference to your letter of the 18th Ultimo, No. 286, and to the Statement received therewith, I am desired by the Accountant General to acquaint you that the difference Rupees 1007-13-- between the value of stamp paper actually on hand on the 31st October 1856. and that exhibited in the Memorandum. appended to the Abstract for the quarter ending 31st October 1856. as balance remaining on account of stamps on that date, should be adjusted as follows.-

Fort St. George 15th August 1857.

The sum of Rupees 495--0--0

2. being the amount value of Papers issued on account of Security Bonds as shown in the Statement in question, should be adjusted in your accounts to the debit of proper heads of charge by crediting "Stamp Revenue" - The sum of Rupees 143-8-- also shown in the said Statement as the value of Paper issued on account of Government Law Suits, should be adjusted under an entry of "Law charges of the Revenue Department Dr. to Stamps Revenue". But the sum of Rupees 240-4-- exhibited therein as the amount value of papers damaged by white ants, and the difference of Rupees 129-1-0 (between Rupees 1,007-13-- and Rupees 878-12--) accounted for in the above Statement, which in the 2nd para of your letter you state it is impossible to trace or account for, should be written off in your accounts under an entry of "Profit and Loss of the Revenue Department Dr. to Stamps" on your obtaining the sanction of Government for the same.--

& If supplies for the Revd. Department to "Extra Revenue charges" Inst. if for the Judicial Dept. to "Contingencies" charges as the case may be.

For St. George, Accountant General's Office, 18th April 1857.---

To J. D. Sim Esqre

Acting Secretary to the Board of Revenue

Fort St. George

Bd. No. 2693 Sir,

From the Acting Collector of Guntoor

The Subject of the assessment of the Garden lands of this District has been noticed in the correspondence quoted in the margin and in my letter of the 31st July 1856 it was intimated that measures were in progress for affording relief where it was most required and that the subject would be reverted to again at a future date.—

2. The Garden assessment on the Coast Villages of Bapatla Repally &c. has already been

been abolished and a dry assessment substituted under the sanction of Government dated 7th February 1857. The assessment on the garden lands and Mungalagherry has also come under the general revision made for that Talook.

3. The Current Fusly's Summabundy which has been brought to a close has afforded me an opportunity of scrutinizing the working of the assessment of this description of land and I have now the honor to submit a proposition for its revision where such appears necessary in other parts of the District and to enclose 2 Statements giving particulars of the same.

4. I would however premise that so far the rule of the 25th November 1852 authorizing the imposition of the ordinary dry assessment only on lands irrigated under wells and tanks made at the ryots private Cost. has not caused the relinquishment of the garden lands usually occupied and that with small exception the extent of waste land fit for Cultivation is inconsiderable showing that the present assessment is easily paid and also that the sacrifice

sacrifice of revenue in any reduction of assessment on these lands is not to be expected to be made up directly by the occupancy of waste garden lands.

5. The Garden lands are generally most conveniently situated near the Village and have thus the facility of application of labor and artificial improvement where they have been brought to a high state of Cultivation so as to pay the higher rates of assessment, it has been effected at the cost of the ryots. The advantage they afford for raising Tobacco chillies Turmaric and other valuable products has rendered them often the subject of warm Competition and they possess frequently a saleable value even under the present tax and are generally the last lands the ryots would think of relinquishing.

6. It is not however to be denied that in some cases the assessment is virtually a tax on the labor and industry of the cultivators and Considering the views on the subjects that have of late years been entertained by the Honble

Honble Court of Directors and the Government it will readily be conceded that some relief should be afforded here particularly as such has been accorded in some other Districts.

7 The Garden rates as they now exist in the Palnaud have been framed on so many different principles under the Zemindars management and are so very unequal in different localities that it is impracticable to adopt any one universal System of reduction. The character of the soils and other Circumstances which are so widely different in the Delta and western parts of the District, require also consideration in regulating the Standard of assessment.

8 The several localities may be conveniently Considered in divisions of one or more Talooks I may first notice the Western Talooks of Inacondah Nursarowpett Coorapaud and Mantoor where the soil is of a Comparatively light nature and often rocky and the facility of water not nearly so good as in the Delta In this locality wells are the chief means used for irrigation while a portion of the garden lands is dependent on the rains

rains in the same manner as ordinary dry lands.

9 The Garden land without means of irrigation will be first treated of This is frequently more favorably circumstanced than the lands of the 1st dry tarum of the several villages in which they are situated and it does not seem necessary to incur the loss of revenue that would arise from reducing them indiscriminately to this standard 3 Rupees is the maximum dry tarum rate in the Inacondah Talook and may be taken as a similar Standard for the Nursarowpett western Villages and also for many of the Coorapaud villages which closely resemble those of Inacondah in the character of the soil and other features It is proposed therefore in these 3 Talooks to reduce all higher rates on inirrigated gardens to 3 Rupees except in Villages where the 1st dry rate exceeds 3 Rupees where they will be reduced to such highest dry rate This arrangement provides for the greater fertility of the soil in some localities where the dry rates exceeds 3 Rupees, and

at

Fort St. George 15th August 1857

at the same time guards against the Standard for the whole being kept unduly high in consequence of the more advantageous Circumstances of a few exceptional Villages in those Talooks In Maurtoor where the circumstances of Soil are some what better the highest dry rate of the Talook viz. Rupees 5 has been retained as the Standard to which the higher garden rates are to be reduced.

10. The Garden lands irrigated by Wells &c. in some instances at least may be assumed to be better in quality and situation than the unirrigated though they have been brought to their present high State of Cultivation at the cost and labor of the ryots The assessment on these, is proposed to be reduced to Rupees 5 an acre the highest dry rate of the District where it exceeds that Standard, and to afford some relief in the middle rates as well as to get rid of fractions it is proposed to reduce all exisiting rates between 5 & 4 to 4 Rupees and all between 4 Rupees and 3½ Rupees to 3½ and all between 3½ and 3 Rupees to the rate of 3 Rupees an acre All rates below 3 Rupees on irrigated as well as unirrigated gardens

Fort St. George 15th August 1857.

gardens to be retained as at present.

11. In a few cases the present garden assessment varies both with the description and number of Crops raised These distinctions will be done away with in the present revision.

12. The following figures abstracted from the general Statement show the results of the above proposal in these 4 Talooks The reduction is Rupees 1185 on the present Cultivation or about 11 per cent. In 3 out of the 4 Talooks there is scarcely any waste while in Innacondah there are about 300 acres much of which has been thrown out of Cultivation by the impoverishment of the land by inundation from the Nullahs which have washed the rich surface soil off the rocky substratum.

The

Fort St. George 15th August 1857

13 The Guntoor Talook requires separate notice as the rates are in places very high and resemble those which existed in Nungalagherry before the recent revision in which they were clased between the maximum and minimum of 10 and 4 Rs The dry garden lands of this Talook are proposed to be reduced to 5 Rupees an acre the highest Talook rate where they esceed that. The irrigated gardens present some Difficulty in the present high rates and the absence of any waste land by the Cultivation of which a reduction of revenue might be made up they have however the advantage of being watered from public Tanks in the several Villages and Consequently should be retained at a higher standard of assessment than the lands irrigated from wells kept up by the ryots. In Gollamoody and partly only in Cancany, the lands have not the advantage of water at the Goernment Cost and on these Rupees an acre is fixed where the rates exceed this.

14. In Some of the Villages of this Talook the

Fort St. George 15th August 1857

high rates have been imposed by the former Zemindars in consequence of the demand in the Guntoor Market for vegetable and other products raised on the ground; in one case the highest rate has been raised by Competition as high as 28 Rupees an acre and the others in proportion during the period of former rents. It appears proper therefore to make discretional reductions on Consideration of the Circumstances of each village in the Same Manner as was done in the Nunga: lagherry Talook, and accordingly the rates from 15 to 5 Rupees have been adopted. Even with the retention of these Comparatively high rates the total reduction on the ayacut is Rupees 1065 or 26 per cent and that on the Cultivation amounts to Rs 930 or about 26 per cent of the assessment reduced, while there are only 55 acres of waste on which the reduced assessment is about 378 Rupees The proposed Standard in Guntoor will remain much the Same as that to be retained for Tenally and Repully and the advantages of the Kristna water will be available in the highest assessed lands in Nunboor Pca of Guntoor in the Same manner as in those Talooks.

15. In the Condaveed Talook the garden lands

lands are altogether only 4 acres a part of this is classed under the 1st dry tarum and for the remainder an additional dry tarum of 5 Rupees is opened so that the whole will merge in the dry assessment.

16. The Puttipaud Talook possesses this peculiar feature that large tracts of garden crops are raised on lands charged only with the dry assessment. There is an exception to this in 6 Villages. In 2 of these the rates do not exceed the highest dry tarum of the Talook and cannot remain unaltered in one of the other villages only the land is irrigated and the trifling quantity of ½ an acre assessed above Rupees 5 is proposed to be reduced to that sum. In the other 3 Villages the lands are not irrigated and there is no sufficient reason for their being assessed on a different principle from the generality of lands in this Talook cropped with garden produce. The extent of this exception is small and it is proposed to reduce the rates to Rupees 5. the maximum of the Talook. The deficiency will be by Rupees and the reduced assessment on the waste which may possibly

possibly be cultivated is Rupees 30-

17 In Mungalagherry the whole of the unirrigated garden lands were in the recent revision of assessment of that Talook classed under the 1st dry tarum of Rupees 4, where they exceeded this, with the exception of 2 Villages, which did not come under revision. The extent of these exceptions is only trifling and as there are no peculiar circumstances to warrant a deviation it is proposed to bring them under the general rule and to reduce all above 4 Rupees to that sum and to strike out some fractions of Rupees in some of the other rates. The deficiency is Rupees 43-

18 The garden assessment of the Coast Villages of Banputta and Repully has recently been

12945 Fort St. George 15th August 1857.

been revised and the measure approved of in Extract Minutes Consultation dated 7th February 1857.—

19. The remaining 3 Delta Talooks of Tenally Pomier and Repully may be treated of collectively. Although some of the rates are unduly high it is not proposed to make any reduction in these Talooks as there are peculiar circumstances (in the mode in which the assessment was formed, which renders a) revision impracticable or at least unsuitable without a full consideration of the whole assessment of the Villages dry as well as garden many of the

12946 Fort St. George 15th August 1857.

the Villages of these Talooks were formerly were under share and in converting them to the Ryotwary tenure, the total assessment was fixed on the Village with reference to past averages and other circumstances and the ryots proceeded to distribute this amount on the dry and Garden lands by classifying them under taroms which they thought most convenient. In many cases those of the Garden lands were kept very high in accordance with the rates of the value of the crops on these, and those on dry lands, and often the dry lands were assessed at comparatively low rates. It is evident therefore that a part of the original settlement should not be disturbed without revising the whole embracing dry as well as garden lands. To do this, would involve a considerable amount of labor and time and tend unnecessarily to unsettle the present state of things while the assessment is found to work generally well, particularly in the Tenally Talooks where it is perhaps lower on the whole than elsewhere. — In

20. In illustration I may give the Village of Govada in the Tenally Taloo[k]. The Ayacut is classed as follows:-

	Rates Rs. A. P.	Acres	Dist. Rs. A. P.
Dry 1st Taram	1-3-11	413-16-	575-13-"
2d Do.	1-"-5	1,322-28	1,358-2-5
3d Do.	"-12-1	1,053-17	828-"-1
Cuttoobady Zufted	"-12-4	84-34-	75-8-"
		2874-15-	2,777-7-6
average	"-15-5	" "	" "
Garden 1	18-12-5	6-24-	124-2-6
2	14-14-10	10-"-	139-10-6
3	9-"-"	17-"	153-2-"
4	7-10-"	23-32-	181-8-3
5	4-4-"	7-18-	31-8-4
6	3-2-1	21-37-	68-7-4
		86-21-	698-6-11
average	8-"-9	" "	" "
Total		2,961-6-	3475-14-5

The higher Garden rates are doubtless enormous as the lands in this Village is entirely irrigated, but at the same time the dry rates are unduly low as their average forms the minimum of the Taloo[k]. There is not a portion of these garden lands left unoccupied & comments with the ryots on the subject at the Jamabundy who seemed perfectly satisfied with the present state of things here as well as elsewhere where similar circumstances exist, and even admitted that they could manage to pay the high assessment as the land yielded valuable Tobacco crops with the improvement they

had made to the soil.-

21. From the accompanying statement prepared for these 3 Taloo[k]s it may be seen that in Tenally Taloo[k] all the rates of irrigated and dry gardens are under Rupees 15 an acre except 6 acres assessed at 18 3/4 Rupees in one Village. Many valuable betel gardens are also assessed at the higher rates which are much below what existed in the Zemindar's time. In Ponnaur the highest rate is Rupees 15-4-9 but Comprizes only 4 acres, the next being Rupees 12-15-" and under this again there are only 3 acres. In Repully also, the maximum is much about the same viz[t]. Rupees 15-11-4, there being 8 acres under this, while altogether the land paying more than 12 Rupees is only about 12 acres. In all these Taloo[k]s the present assessment is readily paid and there is scarce any waste.-

22. Another important consideration is to be borne in mind that in the rules sanctioned in Extract Minutes Consultation under date the 21st August 1856 for the imposition of Peerwajaty on gardens irrigated by the

the Kristna water in those Talooks sell lands assessed at Rupees 9 and upwards will have the water gratis which will virtually lower the tax on them, as the Channel irrigation is very considerably cheaper than the previous mode of watering from the wells.

23. In the two Palnaud Talooks of Datchapully and Timmerecotta the garden assessment was fixed on better principles and has formed the subject of discussion in the correspondence noted in the margin. It was originally Rupees 4-8-9 per acre without distinction. In Extract minutes of Consultation dated 16th January 1829 the Government sanctioned the levy only of dry rates on gardens made under new substantial wells dug at the Ryot's expense and proposed that relief should be afforded to the old well Cultivation if eventually found necessary. It would however seem from the Collector's letter dated 7th July 1840 that these orders were not carried out regarding new lands till 1838, when also a reduction was made on the lands under the old wells viz. those irrigated from Nullahs were assessed at Rupees 2-7-9. the

13-14-15 and 16 -

the highest dry rate in the Palnaud, and those under old wells were classed under the highest rate of the village in which they were situated.-

24. Exceptions however in accordance with the views of the Board contained in para 18 of their Proceedings of 22nd December 1828 were taken, where any part of the ryot's usual holding was relinquished in order to take up land under the new rules, and in these cases the original rate of Rupees 4-8-9 was retained liable however to be reduced to the favorable rate on the ryots resuming the land, the relinquishment of which involved the penalty of the higher rate. It has also been usual to charge the higher rate of Rupees 4-8-9 whenever paddy crops are raised under the wells.-

25. These conditions involve inconvenient charges in the accounts and are inconsistent with general freedom of cultivation and the principle of assessing land without reference to the crops grown, and as no

no inconveniences is now anticipated from the removal of these restrictions. I propose to reduce all the lands assessed at Rs. 4-8-9. to Rupees 3-7-9. This will create a deficiency of Rupees 72---- in these two Talooks and place the Garden lands on a satisfactory footing - garden lands irrigated from Sircar tanks will, as usual, pay Nunjah Assessment.

26. The assessment of betel gardens in the District generally has been reserved for consideration in this place. The particulars at the end of statement No. 1 shew that the whole ayacut of lands thus used amounts to 64 acres assessed at various rates from Rupees 45-8-- per acre downwards to 6-5-4, and amounting in the aggregate to Rupees 1,096, and averaging about 17 Rupees an acre, of this only 2 acres remain uncultivated in the present fusly. The higher rates may be in a measure accounted for on the old principle of taxing the land with reference to the value of its product, and perhaps with reference to other circumstances such as the demand in the neighbourhood &c.

The

27. The betel crop requires the application of so much labor and capital as to place its growth beyond the reach of ordinary ryots and a kind of monopoly may be said to exist, the cultivation being regulated by the requirements of the District. The valuable nature of this produce enables the ryots to pay the present tax and it is not likely that any extended cultivation will result from even a considerable reduction of the Assessment on these gardens, the value of which may be estimated by the fact of their not being relinquished for new lands, which might have been taken up on dry taram assessment under the rules of 25th November 1852. To do away with the distinction of the betel crop in these gardens and place them on the same footing as other garden lands in the Talook to which they belong it would be necessary to reduce the rate to Rupees 5 the maximum dry rate of the District, as no garden rates are retained above this in the Talook in question, but this reduction would be excessive and under the circumstances above described does not seem necessary.

The

1853 Fort St. George 15th August 1857.

28. The highest rate of garden assessment proposed to be retained in the Salem Paramahal in which Triplicane is included, is 15 rupees, above.

Fort St. George 15th August 1857

30. Of the total garden assessment of the District amounting on the cultivation of Fasly 1266 to Rupees 42,409 that in Mungalagherry and Banputta has already been revised leaving Rupees 38,116 for the remaining Talooks, in 3 of which the garden assessment amounting to Rupees 18,411 - - - is left untouched for the reasons above given — In the remaining 9 Talooks including a Village or two also of Mungalagherry the total garden assessment is Rupees 19,704 of which Rs 13,295 comes under revision and been reduced to 10,699 or about 19½ per cent leaving a deficiency of 2596 Rupees on the revenue

Fort St. George 15th August 1857.

revenue of present cultivation which is the whole of the loss involved in the revision. The waste lands coming under revision were assessed at Rupees 2,065 which is reduced to Rupees 1,700 or about 17½ per cent leaving a deficiency of Rupees 365 under this head, so that the whole deficiency supposing these lands to be taken up, would amount to Rupees 2,960.

31. In conclusion I may observe that in preparing this revision the object kept in view has been to afford relief where it seems to be more particularly called for, and to accord it with reference to the many varying circumstances under which the garden assessment has been formed under the different systems pursued by the former Zemindars the deficiency of revenue involved amounting only

Fort St. George 15th August 1857.

only to about Rupees 2600 will, I have no doubt, be considered moderate and is less than I anticipated as the result of the application of the principles of reduction above described.-

22- To have attempted a more arbitrary revision according to any universal scale more theoretically perfect would not have met the call in its practical bearing, at least without an unnecessary sacrifice of revenue, and considering the elements of which the present assessment is composed it is in every respect more suitable to have the desideratum of more minute uniformity to be attained at the future survey and assessment of the District.-

I

Fort St. George 15th August 1857.

33. I trust that I may be favored with early orders upon the present measure so as to bring it into operation for the fusly now commencing.-

Guntoor District,
Collectors Office ----

Typefounding in Europe in the 15th century

Early Printing Types

Early printing types were cast in moulds made of two pieces of metal, which could be opened and closed. The letter was cast in the lower piece, which was then closed with the upper piece, leaving a narrow channel for the molten metal to flow in. After cooling, the mould was opened and the type removed.

Gothic Types

Gothic types are characterized by their angular, broken strokes and their dense, compact appearance on the page. They were modelled on the handwriting of the scribes who had previously copied books by hand.

Roman Types

Roman types, which are rounder and more open than Gothic types, were first used in Italy. They soon spread to other countries and eventually replaced Gothic types in most books printed in Latin.

Italic Types

Italic types, which slope to the right, were also first used in Italy. They were often used for short passages of text, such as quotations or titles.

Punches and Matrices

The punch is a piece of steel with the letter cut in relief at one end. The matrix is a piece of copper in which the letter is struck by the punch. The matrix is then placed in the mould for casting.

Adjustable Matrices

Adjustable matrices were used to cast letters of different widths. The matrix could be adjusted to the required width before each letter was cast.

Composing and Printing

The compositor set the type in a composing stick, which held a few lines at a time. When a page was complete, it was transferred to a galley and then to the press.

Inking and Printing

The printer inked the type with a leather ball and then pressed the paper against it. Two pressmen usually worked together, one inking and the other printing.

Proofreading and Correction

Proofs were taken before the final printing so that errors could be corrected. Corrections were made by removing the faulty letter and substituting a new one.

Errata Lists

Errata lists, which listed the corrections made after printing, were sometimes added at the end of a book.

Paper and Ink

Paper was made from rags and was relatively expensive. Ink was made from lampblack and linseed oil.

Binding

Books were usually sold unbound. Binding was done by the purchaser or by a bookbinder.

Illustrations

Illustrations were printed from woodcuts or engravings on copper. They were printed separately from the text and then inserted into the book.

Woodcuts

Woodcuts were made by cutting away the wood between the lines of the design, leaving the lines in relief.

Engravings

Engravings were made by cutting lines into a copper plate with a burin. The plate was then inked and wiped, leaving ink in the lines.

Publishers and Booksellers

Publishers financed the production of books and sold them to booksellers. Booksellers sold books from their shops and also at fairs.

Fairs

The great book fairs of Frankfurt and Leipzig were important centres of the book trade.

Censorship

Many books were subject to censorship by the church or the state. Books could be banned or burned.

Indexes

Lists of prohibited books were published from time to time.

Libraries

Libraries were mostly private collections. Public libraries were rare.

Monasteries

Monasteries had libraries of manuscripts and later of printed books.

Universities

Universities had libraries for the use of students and professors.

Printers

Printers were often also booksellers and publishers.

Apprentices

Apprentices learned the trade by working for a master printer.

Journeymen

Journeymen were skilled workers who travelled from town to town.

Women

Women were sometimes employed in printing houses, but rarely as compositors or pressmen.

Widows

Widows sometimes carried on the business of their husbands after their death.

Conclusion

The invention of printing with movable type was one of the most important events in the history of civilization.

N. 02.

Some slight discrepancies will be found in the Calculation of the former Sist on the former rates Specified owing to the accounts having formerly been kept in Coochels, and Fractional part of Coontah being omitted in their conversion to the acre Standard, while the actual Sist remained exactly as it was.

Fort St George 15th August 1857

Bd. No. 2714

Proceedings thereon - 1 -

Submitting with the Bds remarks for the favorable Consideration of Govt the measures proposed by the Ag. Collr of Guntoor for the revision of the assessment of the garden lands in certain Talooks of that District

M. 28 February 57

429-430

The revision proposed in the foregoing letter is in continuation of proceedings already reported on and sanctioned by Government. The substitution of an dry assessment for the Garden rates in the Coast villages of Bapetla Repully &c was effected under the sanction conveyed in Extract Minutes Consultation dated 7th February 1857 No. 148 Revenue Department, and the garden assessment of Mungelgerry came under the general revision made for that Talook. The proposition to be now considered has reference to the Garden lands in the other Talooks of the District.

2 It is not proposed that on the present occasion any more than before as regards the revision already accomplished, to adopt a standard of rates general applicability to which the existing assessment may be brought. Such a mode of proceeding is stated to be impracticable owing to the diversity of principles observed in fixing Garden rates during the management of the Zemindars. The method adapted by the Acting Collector in the revision now following under review was to consider one or more Talooks together according to the character of their soils and facility of obtaining water and to

to bring the existing Garden rates to the standard of the highest unirrigated rate in the Village which would involve an unnecessary Sacrifice of revenue, but of the highest rate in the Talook with some modification of this rule in certain cases as will be shewn presently.—

3 Thus the Western Talooks of Inundcondah, Nursarowpet, Coorapaud and Martoor where the Soil is comparatively light and often poor and the facility of water not nearly so good as in those were Considered together. The Garden lands are of two Kinds, viz those irrigated by wells and those on the falling rains alone. In a few Cases the present Garden assessment varies both with the description and number of crops raised.—

4 From the Similarity of Soil and other features in Innaconda, Nursarowpet and Coorapaud, 3 Rupees per acre, which is the highest dry rate in Innaconda, is considered to be a fair assessment for the most part for garden lands without means of irrigation, all higher rates are accordingly to be reduced to this standard, the

These 3 Talooks, except in villages where the first dry rate exceeds 3 Rupees. In Such cases the highest dry rate will be retained. In Martoor the circumstances of Soil are somewhat better and Rupees 5 per acre which is the highest dry rate of that Talook, has been taken as the standard to which the higher garden rates are to be reduced.—

5 The garden lands irrigated by wells &c. are assumed; in some instances at least, to be better in quality and Situation than the unirrigated but on the other hand they have been brought to their present high State of Cultivation at the Cost and Labor of the Ryots. It is proposed to reduce the assessment on these to 5 Rupees per acre which is the highest dry rate of the district where it exceeds that Standard and to afford some relief in the middle rates and to get rid of fractions by reducing all existing rates between 5 and 4 Rupees to 3½ Rupees and all between 3½ Rupees to 3 Rupees to 3 Rs. an acre, all rates below 3 Rupees whether in irrigated or unirrigated gardens to be retained as at present.—

6 The aggregate reduction in the four Talooks

Taloohs above mentioned will amount to Rupees 1185 on the Cultivation of Fusly 1208 / 1856/57

7 In the Guntoor Talooh many gardens receive their irrigation from Tanks and high rates are imposed in some villages by the former Zemeendars in Consequence of the demand in the Guntoor market for vegitables and other products raised on the ground in one case, in the village of Namboor the rates has been raised by Competition to upwards of Rupees 28 per acre. It is found best to receive the garden assessment in this Talooh for each village Separately according to its circumstances in the same manner as was done in the Mungalgherry Talooh and the rates adopted range from Rupees 15 to Rupees 5 per Acre. The revised Standard will be much the same as that to be retained for Tenally and Repelly.

8 In the Condaveed Talooh the Garden lands scarcely exceed ½ acres. for these the proposed rates are Rupees 5 and Rupees 3-2-1. The odd pie in the latter rate should be struck off. In

9 In the Ruttenpaud Talooh the highest Garden rate is Rupees 13-2-7 per acre but the lands except in one village viz Moottoor are in lands without means of irrigation. It is proposed to reduce the present varying rates to Rupees 5 the maximum of the Talooh. The present rate in Moottoor is Rupees 6-4-2 for an extent of land less than an acre. This will cease on the introduction of the proposed general rates for this Talooh of Rupees 5 an acre.

10 The villages of Sandecondah and Soalloor in Mungalgherry did not come under revision on the former occasion when the garden Assessment of that Talooh was under Consideration. The gardens in these villages are unirrigated and it is now proposed to bring them under the general rule adopted for that Talooh and this to reduce all rates above 4 Rupees to that Standard.

11 The garden assessment in the Coast villages has been revised and the measure approved of by Government as already stated.

12 The remaining Delta Taloohs are Tenally Conaur and Repelly. It is not proposed to make any change in these localities, as for reasons stated the dry and garden assessments should be revised together

With

With a few exceptions the rates are not burdensome. The lands are fully Cultivated and the Ryots are satisfied with things as they are—

13 The original Garden rates in the Palmanair Rupees 4-8-9 per acre but this was relinquished a few years ago as regards old garden lands for the highest dry[x] rate in the 2 Talooks Composing this portion of the District, for all lands irrigated from Nullahs and for the highest village rate for lands under old wells. Land newly Converted from dry to Garden was to bear the ordinary dry assessment of the land. It was provided however that if any portion of the Ryots ordinary holding was given up the original rate of Rupees 4-8-9 per acre should be imposed. This rule is inconvenient and as correctly observed by Mr. Arnold inconsistent with the general freedom of Cultivation which obtains at present. No inconvenience is anticipated from the removal of the restriction and it is proposed therefore to reduce such lands as are assessed at Rupees 4-8-9 per acre to Rupees 3-7-9 The arrangement applies to Well lands only. Garden in the Palmanair irrigated from Tank are liable to the rates of assessment fixed for irrigated lands

[x] Rs. 3-7-9 per acre

14 The assessment of Betel gardens is separately considered by Mr. Newill. The rates range from Rupees 10-8-4 to Rupees 6-5-4 per acre

As

As the Betel Crop requires the application of much capital and labor its growth is placed beyond the reach of small Ryots and in some degree a

10 monopoly may be said to exist. The extent of land occupied for this product is 63 acres bearing an assessment of Rupees 1096 which is readily paid, as the article bears a high value. Mr. Newill proposes to make Rupees 15 the highest rate for these gardens in future all rates below that amount remaining as they are

Statement No. 2 from the Agt. Coll.

The assessment of these lands will thus be assimilated to the maximum rate prevailing in other parts of the District the village of Govadah alone in the Tenally Talook excepted, where the maximum rate which is to remain untouched, is Rupees 18-12-5 per acre.—

15 The total relinquishment of Revenue involved in the arrangements above described will be Rupees 2596-9-4 on present Cultivation and Rupees 364-9-4 on the waste, a great portion of which has been thrown out of Cultivation by the impoverishment of the land by inundations from the Nullahs which have washed the rich surface soil off the rocky substratum. The extent of Waste fit for Cultivation is thus small and as the present

Fort St George 15th August 1857

present Revenue is readily paid it is not to be expected that the proposed reduction will be immediately made up by the occupation of fresh land - The measure is however considered one of justice to the holders of these lands and relief is confined to cases only where it is particularly called for a more Complete arrangement being left to the Survey.

16 The Board have carefully reviewed the details of the proposed revision and considering the grounds on which it is made, that it is only a Continuation of arrangements already carried out and under the Sanction of Government, and that the loss of Revenue will be inconsiderable they beg to submit the measure for the favorable Consideration of Government. —

Read again letter from Captain Priestley Superintendant Revenue Survey dated 29th July and entered in Cons: 7th August 1857.

B. N° 2723

Resolution

Resolved that the above letter with its Enclosures (2 maps) be submitted to Government with reference to the Board's Proceedings of the 1st Instant N° 2585 on the communication from Captain Shuldham Extract Minutes Consult. dation 25th July 1857 N° 741 Revenue Department.

Encl. 1st augt 1857.

2 Captain Priestley has been able to try the accuracy of his work by a most satisfactory test, namely the connection of portions of his Traverse with some of Colonel Lambtons Trigonometrical points. In one instance the length of the portion tested was about 4,0000 feet or more than 7½ miles, and in the other 84,000 feet or 16 miles. In the first instance the error is nearly 27 feet in a mile, and in the latter only 6½ feet. The Board have since been informed by Captain Priestley that he considers the error in the first mentioned line to have arisen from defective chains made in the Country. He has since been supplied with others received direct from a good maker in London.

3 In the North West Surveys the errors ranged from 1½ to as much as 33½ feet in the Mile and

Page 306 of Manual. New Edition.

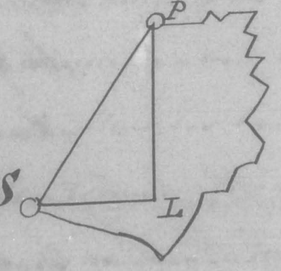
and in "recent operations" only 7 feet. This led the Board to believe that Captain Priestley's method may be brought to close in on the Trigonometrical points as correctly as the Survey of the North West Provinces.

4. The method adopted for making the Test is simple and complete. The Triangulation Points are joined by direct measurement (or else by calculation from sides of a Triangle) to the nearest "station point of the Survey Traverse. In the instance before the Board Traverse Stations were found within 1000, 5000 and a few hundred feet of Trigonometrical Stations.

5. The recorded Traverse lines with the said junction lines form a complete Traverse of which the whole computation work excepting the little additional for the junction lines, is already on record. From the perfect Traverse, beginning at one Trigonometrical Station and working round to the other can be obtained the difference of latitudes and also the "departure" between the two Points. These form the two sides of a right angled triangle, of which the distance between the two points is the Hypothenuse. This distance is then found by Plane Trigonometry from the 2 other sides, and if the result agrees with the computation of

of the Trigonometrical triangle, the Traverse is correct.

6. For instance, the Traverse work (including the small lines joining the Villagoody and Perivance Stations to the Survey Stations) results in giving a difference of latitude PE = 83094 feet a Departure LS = 11936 feet. From these data the side PS is calculated viz: 83,921 feet.



Whereas from the angles of the triangles recorded in Colonel Lambton's operations (which triangles are shewn in the 2d map) the side PS is 84,046 feet or a difference of 105 feet in 84,000 or 1 in 800; or 6½ feet in a mile; a difference almost inappreciable in a map two feet square and quite so in a map of a mile to an inch such as Major Thuillier proposes for the Peninsular Map.

+ The side PS is not given in the Triangle sheet because the angle PNS was not measured by Colonel Lambton. But deducting the other angles of which N (observed) is the centre, which were measured, from 360; leaves PNS = 84°58'56" and since the sides NP, NS, are recorded in Lambton's operations, these are data for computing the side PS = 84046 feet

7. Captain Priestley has informed the Board that he has the calculations prepared for other similar tests which he will submit shortly.

(438)

Bd No 3749.

Sir,

Tirouvelle Asst Collector of Tanjore } Reporting upon Coody Mavaram labor.

1- I have had the honor to receive the Circular from your Office dated the 5th of March last No 691, accompanied by an Extract from the Minutes of Consultation relative to an arrangement under which permanent Establishments have been substituted for the laborers hitherto contributed by the Landholders for the purpose of opening the heads and doing other work to the Calgoody Channels in the Trichinopoly District, and calling for my opinion as to how far the plan is applicable to the District under my charge.

In Tanjore all repairs to minor irrigating channels, the construction of Cummoor or temporary dams at the heads of channels for turning the water of the Rivers during low freshes, and all repairs, even to the main supplying channels where the cost is within 1½ per

2-

per cent of the Revenue affected by such labor and repairs, are left to be performed by the Meerassidars, who, with the Agricultural laborers at their command, have always the means of readily executing these petty works. From March to May is generally the season for cutting the Coody Maramut and it is also the time when, the harvest of the year being almost over, the Meerassidars and their tenants are diverted from labor in the field and find time to clear out the channels, close petty breaches, level their fields and in short putting everything in train for resuming the round of agricultural operations of the coming year. The laborers thus employed of being hereditary tenants attached to the Farms, the Coody Maramut work is done at very little extra expense to the Meerassidar, and it is also well performed being done under his immediate supervision.

3. There are no tanks in Tanjore in which the water brought by the channels can be stored and drawn off for use when required, and knowing therefore, how entirely the success of his crop depends on the state of the channels as to the

the Meerassidar is not so blind to his own interests, but that generally speaking he renders with as readiness what by Custom he is bound to contribute towards keeping the channels in order.-

4. There are no professional Bankers in this District and we consequently look to the Meerassidars for the supply of the labor necessary for the execution of even the works undertaken at the expence of Government. Under the contemplated arrangement, tho a permanent corps of Coolies might be employed it will still be necessary, I imagine, to depend to some extent upon the Landholders for workmen, but the commutation of their liability in respect to Coody Maramut for a money payment, is apt to be viewed as an exemption from all further obligation to render the aid which they now feel they are bound by the Common Law of the Country to afford — and which they willingly give seeing how much their own interests depend upon the efficiency of the Irrigation works.-

5. The cultivation both Garden and Dry Land in Tanjore amounts in Fasly 1265 to 1357 to 6 Crores of values —

valies or 68,530 Cawnies deriving their supply of wa-
:ter by returns obtained from the Talooks, from 46,421
Channels and 904 Tanks. The average annual cost
of work done under Coody Maramut during the
5 years ending 1856. is stated to have amounted to
Rupees 8,92,6. but this I think is very far from
representing the quantity really performed as
Maramut of the description in question being
as already stated executed by the laborers at-
:tached to the Meerassidars Estates, it is pro-
:bably not correctly recorded and certainly not
fairly valued. Considering at all events how
much more cheaply such work is done under
private individuals than under the agency of
Government servants I do not think that the
same or nearly the same quantity of work could
be performed for the same sum under the alter-
:ed System proposed to be introduced. Adverting
to the numerous irrigating channels in this
District very large Establishment would be re-
:quired to be maintained for their conveyance in said
Talook (and they would have no work by the kind provided
they

they are intended during the greater part of the year)
whilst the expence of the whole arrangement would
be out of all proportion to the work required to be
done and to the cost incurred by the Meerassidars
in the way in which they now get the work perform-
:ed, and after all, I apprehend it would not be
done as well as it is, under the present system.-

5. The extent of Coody Maramut required
in particular Talooks and in individual cases varies
extremely in each year, and a uniform unvarying cess
of, say 2 anas as a Cawny, would be felt as a hard-
:ship. There are not wanting Meerassidars in this
District holding 400 and 500 valies of land i.e.
2,000 and 2,500 Cawnies whose contribution would
consequently amount to 250 and 300 Rupees per
annum, which addition to their yearly payments
could not but be viewed as a burden, especially
where the present contribution of labor is by no
means felt, the work being done by tenants on the
Estate at far less cost than would be done under
Government Superintendence.-

7. For these reasons, I am clearly of
opinion that the measure introduced in Tinnevelly
is wholly unsuited to Tanjore and that a time when
it

it is considered important to clear away existing
extra cesses to impose, nervous, is to my mind
inexpedient and unnecessary.

8. It is true that in what are called Dalabhoyem villages or those owned by more
than one Meerasidar some difficulty is experienced
in getting the usual works performed, but a rad-
ical change such as that proposed is not required
in Tanjore at least to meet the difficulty. The case
would be adequately met by the contemplated en-
actment for legalizing compulsory labor in
certain cases. Such an act would greatly strengthen
the hands of the executive in enforcing on the part
of the Ryots the customary attention to the
minor irrigation works, whilst the moral
effect produced by the mere existence of the
power to press labor would, I think, be such
as to render the instance of calling for its actual
exercise comparatively rare. -

Tanjore Collector's Office, 11th August 1857. } /Signed/ W. D. Phillips

Bd. No. 2715 Proceedings thereon / Submitting for the consideration of Government with the Board's remarks thereon an application from Ameer Daulah Bahadur and Nazeem Ching Bhadoor for a grant of waste land inclined upon certain terms specified.

Resolved that the following Proceedings be despatched.

The Petitioners point out the distressed condition of the poorer classes of Mahommedans and observe that agricultural pursuits alone will supply them with the necessary means of subsistence. With this view the Petitioners propose to take up land themselves and to engage labourers of the Mahommedan class to bring them under cultivation.

The petitioners ask for 1000 Cawnies of waste land fit for cultivation in the District of Chingleput and in the event of this quantity of fit land not being procurable, the deficiency to be made up with immemorial Waste. The period of Cowle is to run for 15 years, viz 10 years free of assessment and the assessment, which it is solicited may be moderate, is to be gradually made up during the remaining 5 years. An advance of Rupees 10,000 as Tuccavy is required for the purchase of Stock implements of Husbandry and other incidental expenses during the first year till some return shall have been received and the works of irrigation

irrigation are to be constructed and maintained at the public cost.

3. The Board attach much importance to the object in view, and are of opinion that the ordinary terms of Cowle are insufficient for its accomplishment. Ten years of complete exemption from assessment as proposed by the Petitioners is on the other hand unnecessary. Periods of 15 years, according to circumstances, will probably be found sufficient, the assessment being made gradually payable during the next 15 years. For immemorial Waste the terms will be more liberal. The Board are averse to a permanently reduced assessment, but it does not appear that the Petitioners apply for any thing more than a fair moderate lease on the land. The construction of works of irrigation, where such are required, would have to be considered in the Department of Public Works, and if irrigation is to be introduced, the irrigated rates of assessment will of course be imposed. Where applicants for land are persons with capital advances of money in the form of Tuccavy are not required. Where it is otherwise these advances will be necessary, but should be made under arrangements

arrangements for their eventual repayment.

4. The present project if successful will furnish the means of subsistence to a considerable number of persons, but adverting to the great importance of finding occupation of the nature in question to as many of the class referred to as may be desirous of obtaining it, the Board would wish that the arrangement should be placed on such a basis as would secure, under suitable rules, the accomplishment of that object.

5. The Board resolve to submit the present application, together with copy of these Proceedings, for the consideration of Government, and should Government be pleased to concur in what they have suggested they will communicate with the Collector of Chingleput as to the best mode of giving practical effect to these suggestions. They are of opinion that the arrangement, to be successful, must be systematic and its execution, so far as regards putting applicants in possession of land, specially confided to an intelligent and trustworthy individual of the Collectors Establishment.

Bd. Js. 2730
Proceedings thereon.

(456-457)

The Board do not fully understand the first case entered in the Return. The neer cutty is said to yield Rupees 18—11—1 by a deduction from the Ristbundy Beriz but the proceeds of the Cutty appear to have been only Rupees 18—1 more over it does not appear whether the whole is unprofitable or only the portion entered in Column 2 nor how the Differences between 7—9 and 18—1—1 the value respectively of the new and the old land is to be fixed. It is also not apparent how the Enamdar will be entitled to a deduction of 1 anna and 2 pice from the Todgie.

2. The Board request the Collector's opinion as to whether payments in money subject to the usual audit of the Civil Auditor would not be a preferable mode of remuneration for these class of Officers.

To J. D. Sim Esqr.
Acting Secretary to the
Board of Revenue
Fort St. George

(458)

Bd. No. 2454

From the Acting Collector of Masulipatam

Sir

In reply to the extract of Proceedings of Revenue Board dated 29th April 1857, I have the honor to state that the Extract of Minutes Consultation dated 18 July 1856 therein alluded to doth not apply to this District because as the entire area of a Village is under the present System made over to the renters. Poollary does not exist here as a direct source of Revenue to Government.—

Submits his reply to Board's Proceedings 29th April 1857 No. 1337. certain observations as regards the present system of levying Poollary Tax on the Colair islands & proposing that the annual amount of Rupees 500 may be foregone under the circumstances stated.—

As regards the Colair Pastures, while I admit

2

the present System of levying a tax on cattle is very complicated I am of opinion that a tax on the land, would not afford a better System.—

From the undefined limits of these islands which

3

vary after every flood, and from the total absence of a resident

resident population it would be difficult to fix an assessment on the land and thus the whole must be rented by one man, and the monopoly would be more injurious than in former days.—

4 The necessity of pasturage for cattle is daily pressing the ryots whose live Stock is increasing, but as wet cultivation also increases, dry pasturage ground so necessary for cattle is diminishing and it is of great importance to arrange such a System as will meet the wants of the people.—

5 It is very unlikely cultivation will ever again be carried on in these islands the irrigation canals having fast rotted away the few ryots to raise Summer Crops in more convenient Spots in their own Villages. and these islands must now be treated of as purely pasturage ground.—

6 My own opinion is that the present practice is too complicated, and affords great

temptation to ryots inclined to evade duties or to Servants to levy extra cesses for their own benefit and this evil effect is not balanced by the 500 Rupees a year Government realizes.—

7 I would propose that these lands be thrown open to all did I not fear that an unlimited number of Cattle might in a few years so entirely eat up as to destroy the vegetation and this barrenness would be a very Serious misfortune but I am of opinion that the pasturage might be allowed free to any ryot of the 2 Surrounding Talooks and I would trust to the selfishness of the favoured few to enforce either a prohibition against all other cattle or an order that those sent to graze pay hard money.—

8 It is however only my fear of creating a waste that urges me to propose any restriction over Such undefined and extensive lands a Sufficient and honest Establishment to Circuit the

the cattle would cost more than it would collect.

9 So rent it to one man would cause a monopoly. and I feel convinced it is wise policy to forego the 500 Rupees a year under all circumstances of course till I receive the Boards orders. the present system will be maintained.—

Masulipatam

B[d] No 2728

Proceedings thereon 1.— The orders of Government 18th July 1856 No 747 directed that the Motturpha on Sheep and Goats in Masulipatam amounting to Rupees 4565 Should be abolished. Mr Jones in his letter dated 31st July 1856 B[d] No[s] stated that the Motturpha on Sheep & Goats amounted to Rupees 4470—10 and he recommended that it might be struck off. In reference to this the Board pointed out in their Proceedings 29th April 1857 No.

458-459

* which appears to have been written before the receipt of those orders

No. 1537 that the Subject had been disposed of by the orders of Government above mentioned and they requested to be informed in what manner those orders had been carried out. Mr Knox in reply to this in his letter recorded above states that the orders referred to did not apply to his District. The Board must again call Mr Knox's attention to the Subject with a request that he will inform them in what way the remission of Rupees 4,565 above mentioned has been adjusted in the accounts whether Motturpha on Sheep and Goats above belonging to all classes of cultivators or otherwise or whether other Cattle are included. Mr Knox will also state with reference to the same orders of Government whether other Cattle taxes of the nature contemplated by Government still exist.

The Toolluty will remain.

2

as it is as directed by Government.—

The Board are not prepared to

3

13026 Fort St. George 17th August 1857

to recommend the relinquishment of the tax on the Calair pastures. They would be glad to see tax placed on a better footing, as pointed out in their Proceedings 29th April 1857

Board of Revenue

Fort St. George

B/ No. 3120

From the Collector of North Arcot

Sir

I have the honor with reference to my letter of the 29th July 1857 No. 180 to report for the information of the Board the result of my application to the Civil Court on the Subject of the ruling of the Subordinate Court in the matter of the Dust rent then due on the house and ground lately belonging to Mrs Dacre.—

2 The Board will perceive from the accompanying Copy of an Extract from the Proceedings of the Civil Court that the Civil Judge declares the

13027 Fort St. George 17th August 1857

the opinion of the Sub Judge objected to by the Board to have been extra Judicial and irregular though he declines to decide upon its correctness or incorrectness.—

North Arcot
Collectors Cutcherry
Chittoor 1st August 1857

Signed C. Whittinghame
Collector

Encl.

Extract from the Proceedings of the Civil Court Chittoor under date the 24th July 1857.—

Read M. P. No. 252 of 1857 presented on the 22nd Instant by the Court Vakeel Codeyalum Ragavacharry on behalf of the Collector of North Arcot stating that on a Petition being presented to the Subordinate Judge under date the 2nd March 1857 praying that the Sum of Rupees 428-11-2 being the Amount of Dust Rent due on the Bungalow and Garden belonging to Mrs Dacre for Fusly 1263 may be recovered from the income derived from the above property which was held under attachment on account of a debt due to Captain Speed that Officer passed an order under date the 2nd April 1856 to the effect that the amount in question

question due for the above Family should have come
from Mrs Dacre and not from Captain Speed the
on a Copy of the above order of the Sub Judge
being forwarded by the Collector to the Board of
Revenue they observed that the Government have
a lien on the property in preference to all other
claims and that the transfer of the same from
Mrs Dacre to Captain Speed does not release
it from its liability to the public assessment
or Quit Rent. That on a Petition being presented
to the Sub Judge to this effect that officer passed an order
under date the 30th June 1857 refusing to alter his former order and
to hold Captain Speed responsible for the balance of Quit Rent. The
Petitioner therefore prays that on perusal of the Papers herewith presented
the Sub Judges order may be reversed.

Order

The Civil Judge observes that the property in question
is not in the custody of the Zilla Court

Court and therefore the Collector of
the assessment alleged to be in arrear is
not within that Courts province. The
Sub Judge appears to have given an Extra
Judicial opinion in the case which
was irregular but it is not the Civil
Judges duty to decide whether the said
opinion is correct or not.

Ordered than an Extract
from these proceedings be sent to the
Subordinate Judge for his information
and that a Copy of the same be granted
ed to the Petitioner on his applica-
tion.

Collector

Order thereon— Ordered to lie over.

462-463

464

Bd. No. 2739.

Remarks thereon—

Remarks of the Board on the Estimates of Extra charges proposed to be incurred in Fusly 1267 in the Districts of Masulipatam Guntoor Nellore South Arcot Canara Tanjore and Malabar

Read Estimate of Extra charges proposed to be incurred in Fusly 1267 in certain Districts—

Under the Circular orders of the Civil Auditor regarding Contingent, Extra and variable charges, the Board have excluded from the Masulipatam Estimate the charges for the manufacture of Salt as the disbursements on this account will be passed by that officer on ordinary Audit—

Masulipatam Dt. 6
Guntoor Dt. 19

2. The items entered in the Guntoor Estimate have been included as rules will shortly be passed for

for the supply of Peons Belts in all the Districts.

Nellore Rs. 20 — —

3. The sum of Rupees 20 entered in the Nellore Estimate for the purchase of an American Clock has been omitted, on the ground that if this charge were passed similar applications would have to be entertained from other districts. The expense for a Single district, it is observed, is trifling but if calculated for all would be considerable. The Board are of opinion that a Ghurry and an hour glass are sufficient for the purposes of the Cutcherry.

South Arcot Rs. 3½ — Canara Rs. 9¾

4. The charge for making a brass mounted arm chair, entered in the S. Arcot and items Nos. 2, 5 & 14 in the Canara Estimates have been omitted, and the attention of the Collectors of those districts is again called to paras 2 & 5 of Extract Minutes Consultation, dated 1st October 1856 No. 1047.

Minute 11th October 1856.

Rs. 15

5. For the reasons stated in para 2 of these remarks item No. 18 has

has been also excluded from the Canara Estimate.

Tanjore Rs. 21

6. The charge incurred for paper for preparing lists of the paper and Cadjan Records of the Trivalore Talook has been excluded from the Tanjore Estimate. This expenditure should have been submitted for sanction in a separate communication which will now be done.

Malabar Rs. 16 — —

7. Item No. 7 has been excluded from the Malabar Estimate as sanction for the proposed charge should be obtained thro' the Superintendent of Stamps.

8. Deducting the charges above noticed, the Board recommend that under the explanation afforded by the Collectors in the accompanying Estimates, that sanction be granted for the proposed disbursements amounting to Rupees /3124/ Three thousand one hundred and Twenty four

vation of the early dry crops was limited. The river freshes threw a good supply of water into many tanks.

that of the same period of last year.

demand and sold at from 50 to 55 Rupees per Candy. no transactions in Indigo as the manufacturers are not satisfied with the prices offered.

Stationary with a tendency to rise. Sugar has been unusually high.

Fever, Cholera, and small pox, prevail in several parts. Cattle diseases among Cattle.

Cuddapah dated 3d. Inl. and 2d. August 1857. Mds. Nos. 1883.

Seasonable but partial. The average fall in some Talooks was as follows.

	In Inches	In Tenths
Madanapilly	2	5
Ayachety	1	4
Chamoor	—	7
Chitwail	—	4
Cumbum	—	7
Cudamtah	—	3

Oil seed plants Sujja and Arekalos have shown symptoms of decay from want of moisture.

Irrigated land where water is available are being ploughed and some sown.

Grains under well cultivation are thriving and promise a fair field.

The first cuttings of Indigo were beyond expectation, and the vats are fully employed.

The old Sugar cane has been cut and manufactured and the young crop is healthy. The season for Cotton sowing has not yet arrived.

Salem dated 1st Inl. and 3d. August 1857. Mds. Nos. 1702.

There was rain throughout the District except in two talooks.

	In Inches	In Tenths
Talaghat	1	3
Bacamahal	2	3
Balaghat	—	9
Shevaroys	10	8
Average	3	8

The Dry Crops are in general doing well. Cholum has been partially reaped, those sown in garden lands have been all gathered. The Cumbu Crops have partly failed for want of seasonable rains, those sown in garden lands are in good condition. Last year's cotton is yielding a good outturn. this years plants are thriving. Indigo is in a fair state and ploughing of dry lands is going on extensively.

Tobacco is being planted in many places in garden lands. The gingelly oil seed crop is partly reaped. Wet lands have been largely ploughed and the crops sown are in good condition in many places. Sugar Cane is thriving.

Slight rise in the prices of grains especially in 4 Talooks owing to the failure of timely rains and disease among Cattle in those talooks.

Agues and Cholera have been prevalent in parts of the District, but not attended with great mortality.

Guntoor dated 4th. in Cons. 8th. Augt. 1857. Mds. Nos. 1720.

The total fall of rain has been as follows.

	In Inches	In Tenths
Ootchapully (Palnaud)	1	8
Nursarowpet (West)	3	9
Bapatla (Coast)	—	4
Guntoor (Central)	4	8
Ponnoor (East)	2	5

Sonna, Sojja, dry Paddy and other early dry crops are in thriving condition. The recent rains have proved beneficial to the dry and Magany lands which are under preparation for sowing. All the Tanks are more or less well supplied with water.

The cultivation of Indigo is likely to increase this year.

The early crops are most promising.

Have risen above last month about 5 per cent. Exports by 35 V. Imports from 13 Vessels have taken place.

No diseases prevalent among the people or among the Cattle.

Kurnool dated 4th. in Cons. 10th. Augt. 1857. Mds. Nos. 1708.

Copious rain from 23d. to the end of the month throughout the District. In Kurnool

	In Inches	In Tenths
	7	

Tanjore dated 5th. in Cons. 10th. augt. 1857. Mds. Nos. 1705.

Copious with a steady supply of water in the rivers the fall in places selected according to the recent instructions of Government is as follows.

	In Inches	In Tenths
Negapatam	1	3
Tritrapoondy	—	5
Puttoocottah	3	5
Vullum	7	4

The prices of all the grains have risen except that of veragoo which is stationary. Sea salt has fallen from 225 to 215 Rs. per Garce.

In the Delta Talooks the sowing of the Sumbam seed and the transplantation of the Car seed plants are progressing as is also the cultivation of dry crops.

In the dry parts of the Distt. agricultural operations are somewhat impeded by deficiency of rain.

Somewhat above those of last month ranging from 11 — 9 — to 15 as per cullum of paddy.

The District is healthy.

There has been great loss of Cattle from disease.

Fort Saint George 15th August 183

— that the item should not any longer remain unadjusted He accordingly addressed Mr. Murray the Collector on the 20th July 1853 on the subject requesting that the Sanction of Governm might be obtained for writing off the amount to profit and loss which was done by that Office thro' the Board on the 12th Octob 1853 and which sum was adjus=ed in the accounts for Fasly 1263 as will appear on a reference to the account Current No. 4 for that Fasly forwarded to the Board with the Co letter from this Office da dated 17th February 1855.

The

Fort St. George 15th August 1857

3 The value of Stamps issued to Public Servants are regularly adjust=ed in the accounts of the Collector with this Department Consequently I am un=able to report on this point.—

Fort St. George — — — Gen.l Stamp Office 10th July 1857 — } Signed F. Cushington Superintt of Stamps

Bd No 2722 Proceedings (413-414) thereon—

In Mr. Murrays letter and the Correspondence accompanying it which were referred by Government in the Esctract Minutes Consultation recorded above for the Report of the Board of Revenue the Collector requests Sanction for writing off Rupees 369-3-= to the Head of profit and loss— In explanation he states that the above amount comprises Rupees 240-4-= the aggre=gate value of 40 Rolls of stamps re=turned to the Supt as damaged by white ants and Rs 129-1-10 the difference between the value of the Stamps received by the present Darogah since

Fort St. George 13th August 1857

Since fusly 1256 and 1846/47 properly accounted for to the Supt. of Stamps and the value shown in the accounts of the Collector as remaining yet to be adjusted Mr. Murray states that he is unable to trace the origin of this difference as it existed long before the present incumbent took charge of the Office and arose from less Credits having been taken in the accounts.—

2 The Collectors letter &c. were forwarded by the Board for the report of the Supt. of Stamps whose reply is the second communication entered above.—

3 It appears that Mr. Murrays statement that damaged stamps to the value of 240-4 were returned to the Superintendents Office is not quite accurate as paper to the value of only Rupees 204-12 was received and the Sanction of Government for writing

Exc. Mins Consn. 1174 dated 4th Novr. 1856 In Con. 19. Novr.

Fort St. George 13th August 1857

writing this amount off to the Head of profit and loss was obtained in November last.—

4 The difference however Viz. Rupees 33-8-0 is the value of Certain Sayer Rowanahs which were not forthcoming and under the Sanction of Government were written off to profit and loss in fusly 1263.—

Exc. Mins Consn. 1135 dated 12th Octr. 1853 In Con. 20 Octr.

5 The Correspondence quoted by the Supt. Confirms his Statements but it appears that that portion of the order of Government Sanctioning the adjustment of the larger amount was not Communicated to the Collector by the Board tho' the order relating to the smaller amount was duly furnished to him.— The Board now supply this omission.—

6 The Supt. is unable to afford any information as to the discrepancy between the value of Stamps shown in the Collectors accounts

(12912 Fort St. George 15th August 1857

accounts and that actually in charge of the Darogah as in the Collectors account with the supt. the value of the stamps issued has been regularly adjusted -

The Board do not understand what Mr. Murray means by "less Credits" nor do they see how he has ascertained that the deficiency Rs. 129-1/ occured previous to the present Darogahs appointment if stamps to this value do not appear in the accounts of the Darogah otherwise than as having been received

The Board require fuller information as to the nature of the Enquiry held before they can submit the case to Government -

To, J. D. Sim, Esqre
Acting Secretary to the
Board of Revenue,
Fort St. George.

(425)

B. No. 2450

From the Acting Collector of Masulipatam.....

Requesting, to obtain from Government, the declaration required by section II. Act VI of 1857 for taking possession of a piece of ground for the encampment of Troops &c. at Bezoara, as proposed by the acting Sub-Collector Mr. A. B. Chase.

Sir,

I have the honor to submit for the consideration of the Revenue Board, Copy of a letter and its enclosures from the acting Sub-Collector.

2. Mr. Chase's letter is so full that it is only left for me to solicit the Board to obtain from Government the declaration required by Section II Act VI of 1857, and the appointment of Mr. Chase under Section III Act VI of 1857.

3. I deem it my duty to take this early opportunity to point out to the Board that under Section VI of this Act, if the Officer appointed and the parties interested, cannot agree as to the amount of compensation, the dispute must be settled by arbitration, and it appears to me that if this Act is to be carried into force, it would be desirable to have some explanation

Fort St. George, 15th August 1857

explanation of the order of Government conveyed in Commissioner's Northern Circar's letter dated 2d February 1854 in which the Collector is ordered to assign, without further reference, Mauyem lands of equal value for those destroyed by Public Works.

4. It is not for me to remark on the orders of Government beyond remarking that as this act only provides for a money compensation and the Government have ordered compensation to be made in land in exchange, a difficulty arises whether on the matter going to arbitration, the arbitrators must award money, or may with the Government permission, award lands.

5. In my humble opinion, they must award money and that the simplest and best way, is always to abide strictly by the act, and warn the Public Works Department that "compensation for lands required, must be an item in the estimate

Fort St. George, 15th August 1857

estimate for a work." In the present case, I believe the parties will willingly take any land offered them. but there is another case coming forward in which, I expect to be driven to arbitration and therefore solicit instructions beforehand.

(Signed) T. J. Knox,
Acting Collector.

Masulipatam
Collector's Cutcherry,
18th June 1857.

No. 1.
No. 44.

To, T. J. Knox, Esqre
Acting Collector of
Masulipatam

Sir,

Para 1. I have the honor to forward enclosed a sketch of a piece of ground which I propose to form into an encamping ground for the use of the Regiments and numerous detachments of

of troops, and for the native travellers constantly passing through this station - should you approve of my scheme, I have the honor to request you will forward my proposal for sanction to the Board of Revenue -

2. The necessity of a piece of ground set apart and appropriated to the sole purposes of encampement, is one much felt in Bezoorah by both European and native communities

3. The piece of ground, the sketch of which I have enclosed, is made use of in this manner during the hot months viz, when the ground is not cultivated, and the 1st and 4th Regiments of Native Infantry encamped upon it recently, but during

during several months of the year, it is cultivated with cholum, and as there is no other piece of ground suitable for encamping except at Vidiadharapooram, a Village about one mile distant from Bezoorah, Detachments and natives proceeding in bodies on pilgrimages, make use of the sides of the road and every small available piece of ground within the town and Bazar as halting stages, causing not only great inconvenience to the community, but in the event of the prevalence of any epidemic likely to prove a serious source of evil.

4. The proposed encamping ground contains 19½ acres and may be considered to be unnecessarily large, but I propose that it be appropriated not for the sole use of Regiments and Military Detachments - but as a general encamping ground for the use also of the numerous Native travellers and pilgrims who resort to Bezoorah as a place of sanctity - A portion may also be made available for building purposes as a strip either along the Ellore or Masulipatam roads

road, for the Town has so greatly increas
=ed since the commencement of the con=
=struction of the anicut, and its situation is
so peculiar, hemmed in as it is, by the
river and the channels on two sides, and
by isolated hills on another that it has had
no room to spread, and is now greatly so
cramped for want of space.

5 This ground is admirably adapted
for the purpose I propose, it is distant only
about 400 yards from the Town so that sup
=plies are easily procurable, and the chan
=nels occurring between it and the town will
lessen the risk of infection in the event of
epidemic, it is well supplied with water
and its limits are well defined being bound
=ed on two sides by the Masulipatam and
Ellore roads and on the third side by a
plantation of Palmyra Trees.

6. At the apex of the triangle I pro
=pose to build a small native chaultry
from a part of the proceeds of the Ferry fund
in lieu of a small choultry I propose to re
=move from the Bazar, which will encou
=rage natives to settle on that side and cause
travellers

12924. Fort St. George 15th August 1857.

travellers to encamp on the proposed ground
instead of on the streets and thoroughfares
of the Town, but this will if necessary, form
the subject of a separate communication.

The ground in itself is of small va=
=lue, and only capable of yielding one dry crop
annually - but a portion as per margin is claim=
=ed as enam and free land, this the owners are willing to give up in exchange for an equal quantity of land on the same tenure elsewhere, as bounded as the ground is by two roads it is rendered less valuable owing to the difficulty cultivators experience in prevent=
=ing drones of Banjary Bullocks and cattle from trespassing upon it.

Statement

12903

Fort St. George 14th August 1857.

District and date.	Rain fall.	State of the Crops and the Cultivation operations.	Prices whether high or low or rising falling &c.	Further remarks.
Tuticorin dated 3d in Consultation 6th August 1857 No. 1682	Heavy but partial on the 19th and 23d the average on the former day being 2 In: The freshes in the Cauvery and Colerroon are steady and rose a foot and a half on the 31st July.	Wherever rain has fallen Cumboo Cholum and other dry grains have been Cultivated and the young crops look well. The gardens are for the most part being Cultivated with the usual products. The lands under river irrigation have plenty of water Cauv Paddy Cultivation is nearly completed. The bearded paddy is being cut a few tanks have a good supply of water compared with the Cultivation during the corresponding period of last year 1,24,629 acres assessed Rupees 1,24,629.	Almost stationary grain is being exported to Coimbatore Salem and Madura.	Pasture is left scarce since the rains Murrain among Cattle is still continues Cholera has made its appearance in three Talooks.
Madura dated 4th in Consultation 8th August 1857 No. 1701	Rather copious throughout the District at Ramnad near the Coast — 3½ Inches in Madura. 2½ Tenkurray close to the Hills Nine.	The late crops of last fusly's Cultivation are being reaped. Dry Cultivation is in progress and wet lands are being prepared.	High and Stationary.	Cholera is partially prevalent.
Vizagapatam dated 3d in Consultation 8th August 1857 No. 1699.	A heavy and general fall throughout the District of 4½ Inches. The tanks and Channels have sufficient water for the 1st Crop.	"	Almost stationary. Gingly seed and rice are being largely exported.	Cholera has disappeared and the District is very healthy.

/Signed/ J. D. Sim.
Acting Secretary

From

Fort Saint George 15th August 1857

Rolls of Stamp Paper reported to have been destroyed by white ants the aggregate value of which was Rupees 240-12-" and not Rupees 240-4-" as stated by that Office — The Value of this paper having been included in the item of 1522 Rolls to the aggregate value of Rupees 12591-14-" entered in the Credit Side of the account Current No 4 for Fusly 1265 Submitted to the Board the Stamp Revenue for that Fusly in a letter from the Department on the 17th September 1856 the Sanction of Government was obtained for writing off this value of profit and loss and was Communicated to this Department on the Boards Proceedings of the 19th November 1856. It is obvious therefore

Fort Saint George 15th August 1857.

therefore that the Collector must have inadvertently Stated that the value of Stamps destroyed and returned to this Office amounted in the aggregate to the Value of Rupees 240-4-"

2 On referring to the Statement annexed to the Collectors letter to the accountant General dated 18th April last, the Board will perceive that the difference Rs. 3.5-8. is the value of Certain Sayer Rowannahs which were returned never returned to this Office and as this item has ever since the year 1849 Continued as a balance on hand in the accounts of that District and as the Rowannahs were not forthcoming Mr. Porter thought it necessary that
