Proceedings of the Board of Revenue

Monday the 12th October 1857.

431

Read the following Papers

B. No. 1399.

From the Acting Secretary to Government — Extract from the Minutes of Consultation in the Revenue (Department under date the 17th April 1857.—

Noticing the State of business in the Board's office on the last day of 1855 and the corresponding period of 1856. directing the insertion of certain additional columns in the Board's future arrear Lists and remarking on the List submitted by them of the orders of Government remaining unanswered on the 31st December 1856.—

See No. 356 in Separate Volume

Order thereon. Ordered that the following letter be sent in reply.—

To,

431-32

The Acting Secretary to Government.
Revenue Department.—

B. No. 3113

To the acting Secretary to Government — Sir,

In forwarding the accompanying Arrear List I am directed by the Board of Revenue to submit the

15792 Fort Saint George 12th October 1857

In Cons 16th Oct/57 1399 —

the following explanations with reference to Extract minutes Consultation 17th April last Revenue Department No 356

2. In para 3 of those Minutes Government compare the arrears on the Board's file on the last days of the years 1853 and 1856 respectively.—

Years	Letters &c received	Letters &c despatched	Total	Petitions	Grand Total
1852	4,997	2,675	7,672	2,667	10,339
1853	5,363	2,817	8,180	2,693	10,873
1854	6,895	2,850	9,745	2,788	12,533
1855	10,057	3,470	10,127	3,815	13,942
1856	8,676	4,410	13,086	3,903	16,989

3. An inspection however of the marginal abstract of the whole correspondence of the Board during the last five years will show that the general business of the Board has very largely increased of late and that their correspondence with Government alone is not a fair criterion of the extent of work in their Office.—

4. It will be seen in the above marginal abstract that in the year 1856, 13,086 letters &c were received and despatched against 10,127 in the year 1855—the increase in letters "despatched" alone being nearly 1,000.—

5. During the first half of the current year (1857) 4115 letters have been "received" and 2237 "despatched" The number of Petitions presented to the Board has also largely increased being now about 1,000 per annum.

&c &c

15793 Fort Saint George 12th October 1857

The object of the marginal Statement shewing the number of Revenue letters received by Government is not apparent to the Board.—

6. The papers noted by Government in paras 4, 5 and 6, most of which as Government observe, await the replies from the various Collectors till which time the Board are unable to forward them, of the Extract Minutes Consultation under reply have now been disposed of, with the following exceptions.—

No 747—18th July 1856 ——— In hand.—

No 743—5th July 1853 ——— Collectors reply not received

No 1132—of—1853
—" 856—of—1854
—" 716—of—1855
—" 1227—" —" —" } In hand.—

—" 538—" —" 1855
—" 1102—" —" —" } Collectors replies not yet received.—
—" 321—" —" 1856

—" 463—" —" 1856 ——— Under preparation

No 797 of 1855 has been transferred to the Secretary to Government for disposal in connection with the new Manual of Sea Custom Rules which is being prepared in his office.—

No. 31.

To,

I. Goldingham Esqre
Commissioner for the
Northern Circars
Vizagapatam

441

B. No. 3150.

From the Collector of Rajahmundry

Sir,

I have the honor to acknowledge the receipt of the Extract from your Proceedings of the 10th December last forwarding copy of Para 36 of an Extract from the Minutes of Consultation of the 8th September last, and requesting that the information called for in regard to taxes or rents for cutting fire-wood as regards this District may be supplied.—

Replying to Comm'r Ro: of the 10th Dec: last regarding taxes for cutting fireword &c in this District.

2. No tax similar to that which obtains in the coast Villages in Guntoor is levied in this District but there is a tax realized from cutters of wood in certain of the Hill Talooks, which I think should be brought under consideration.—

3. In the Cottapilly Talook the right of levying a tax on all wood of whatever description whether for building or firewood including bamboos, and also Charcoal and thatching grass, cut in the Jungles of the Cottapilly Moottah and what is called

the

Post Saint George 13th October 1857.

the Lickonda Sheima, and brought down to the low Country by certain fixed routes, is annually rented out. The renter is not authorized to levy the tax from the inhabitants of the Talooks who cut wood for household and other purposes, but only when it passes certain limits duly laid down. The tax is as follows.—

Per candy, that is load drawn by two bullocks without cart	— — 4
Per Bandy load	— — 2 —
Per Bullock load	— — — 2
Per Ass's load	— — — 1
Per Man's load	— — — 2
each Candy of Charcoal	— — — 1

Fusly 1260	40	
1261	44	
1262	50	
1263	50	
1264	50	
	234	
Average	46-13-9	

The amount of the rent taking the average of the last 5 years is Rupees 46-13-9 per annum —

4. A similar tax is rented out in the Sud dunghy Mootah, now forming a part of the Lingumpotty Talook, at the following rates

Per

	R. A. P.
Per Candy, as above	— — — 8
Per Bandy load	— — 2 — 8
Per Man's load	— — — 4
Per Ass's load	— — 4

The amount of rent is Rupees 370 — — per year.—

5 Ostensibly the tax is only levied on wood passing certain limits in the way to the low country, but in practice I have reason to think that the renters are not very particular, and that the levy of the tax is pretty general. It is a good deal complained of by the people of the Talook, especially those who reside just below the lines on passing which the duty is levied and as the amount annually realized from these taxes is so small I am induced to recommend that they should for the future be foregone. There is but little really valuable timber in the Jungles under observation and it is an object to encourage the cutting and clearing of it as much as possible.—

Lingumpotty

The

15800 Fort Saint George 13th October 1857.

6

The Cattapilly Renter

is a Brahmin and resides at Sentla-
-varum in the same Talook. The
party who at present holds the Sin-
-gumpurtty rent is a Soodra and
belongs to the Village of Singumpurtty.-

Pl. No. 3149
From the Sy Collr
of Ganjam

To

John Goldingham Esqre
Commissioner Northern Circar
Vizagapatam

Sir,

With reference to the Extract from your Proceedings under date the 10th December last No. 965 I have the honor to inform you that there are no jungle rent classed under that name in this district In Goomsur the Moturpha tax includes Purpose 129-4-0 under jungle tax. This tax is imposed on the lower classes of people who earn their livelihood by selling fuel, as the washerman, arrack distillers, and Shep-herds who generally require more fuel than the other classes of people, the people generally resort for fuel to the jungle nearest their Villages. They bring it down for the most part on their heads, altho some few employ bandies for their purpose.—

2 As a general rule the firewood in this district is not taxed by the Government, the great breadth of land under

jungle

15802 Fort Saint George 12th October 1859.

jungle and the moist climate which ensures a speedy growth of underwood prevent there being any scarcity of fuel. It would be a difficult matter to lay down any rule for the preservation of the brushwood used for firewood without causing much petty annoyance, but I would strongly advocate the propriety of some attention being paid to the forest timber thro' the district, it was at the mercy of any speculator till Mr Prendergast gave an order that no timber should be cut without his permission, but you will see how easily this may be avoided, when you consider the extent of the Jungles and the part of those being no watchers or care takers.—

445

B. No. 4117.

From the Collector of Canara ——

Submits with reference to B.r letter dated 9th instant, the information in regard to Salt wastage for 1858—

Sir,

In reply to your letter of the 9th Ultimo, I have the honor to state for the information of the Board that the Salt wastage Statement for Fasly 1268 does not represent the wastage on Salt actually sold, but the wastage brought to account during that period, on Salt sold or transferred from one depôt to another, during, or previous to, that Fasly.—

2. Some Cotaurs contain partitions, but others do not, and the wastage account of any particular Cotaur or partition, can only be made up when it is emptied. Thus altho' a large portion of the contents might have been sold or removed in Fasly 1268, if that Cotaur or partition was only cleared in the following year, the wastage on the whole quantity of Salt it contained would appear in the accounts of Fasly 1269.—

Column

15804 Fort Saint George 15th October 1857.

3. Column 4 represents the quantity of Salt stored in Cotaurs emptied in Fusly 1264, and Column 5 the outturn of that Salt whether removed to other depots, or Sold.—

4 Though Salt may be entered more than once in Column 4 it is only entered a second or third time in Such quantities as are actually forthcoming, the wastage being always deducted—Thus a Lac of Maunds cleared for transport at any Cotaur, on which a wastage of 10 per Cent was apparent when relanded, would only appear in the accounts of the recieving Taluk at its actual value 90,000 Maunds.—

5 With reference to para 5 of your letter under reply, I have the honor to state that full explanation was submitted regarding the heavy wastage account for both Honore and Ankola in the first part of my letter of the 17th November last Honore Salt, particularly that of the Bylon sorts is better firm and hard in the grain, than any other, and the wastage noticed by the Board which is very little above the average of former years is chiefly to be attributed to this cause—A Comparison of the Samples of Salt forwarded for the inspection of the Board will probably shew this to be the cause

Average of 3 years—1015

Order thereon.

Ordered to be recorded.

No. 137.

To,

The Secretary to the

Board of Revenue.

Fort St. George.

449

B. No. 5324.

From the Collector of Canara.

Sir,

I have the honor to submit for the sanction of the Board the accompanying Statement of Salt wastage for Fusly 1265.

2. As compared with the last fusly, the total wastage has slightly decreased during that under review, but it has been greater in particular instances, especially in those tanahs where the loss is always considerable.—

3. A Comparative Statement of the wastage in these tanahs for the last 5 years is given in the Margin. From it, I think, there appears at first sight reason to suspect the honesty of the shambogue at Byloor but then the wastage at Burghy has varied nearly as much as at the first named tanah, and this depôt is under the

	Percentage of wastage Byloor Tanah—	Burghy Tanah—
1261	8 3/4	10—
1262	10 1/2	14 1/2—
1263	7 3/4	17—
1264	13 1/2	10 3/4—
1265	18 1/2	15 1/2—

Fort St. George 12th October 1857.

the eye and immediate management of the best paid Officials in the Salt department.

4. Both tanahs are damp; the Salt produced at the pans attached to them is of inferior quality, and has been long in store. So far the circumstances in both cases are the same, but only so in degree. Whilst the Burghy tanah is the worst of the two in position, the Salt of Byloor is of very inferior quality, and so light that 580 Marcals are required to make up 120 Indian Maunds, whereas 480 Marcals is the average quantity of Canara Salt equivalent to a garce of that weight.—

5. Though the Byloor Salt was stored and delivered for transport by inferior servants on receipt of but small salaries these processes were performed at Burghy by the best paid officials in the Department.

6. The loss by wastage is always large at these tanahs. This year it has been greater than usual, as above stated, and the only cause which I arrive at, is that the Salt had

Fort St. George 12th October 1857.

had been longer in store than that disposed of in last year, and the Monsoon was exceedingly heavy and likely to exert extra influence both on these low lying tanahs, and the inferior Salt in them.

7. The Board have been furnished with samples of the Salt produced in this District, and I hope to be favored with the result of any experiment made in comparing them with others obtained on the Eastern Coast. It might perhaps be worth while to attempt to improve our System of manufacture by engaging a few skilled Salt makers from the best Establishments in the neighbourhood of Madras - but on this point, and also on that contended for by my Predecessor, the necessity of a 10 per Cent allowance for wastage, I shall be better able to judge when favored with the information now asked for - At present I have assumed that Mr. Maltby's calculations are (as they appear to me to be) correct, and I have not therefore offered any explanation where the wastage has been less than ten per Cent.

To B. of R. 9th Feby. 1855.

8- The loss incurred in sales entered at

Fort St. George 12 October 1857

as 17 per Cent on 7480 Indian Maunds sold resulted partly from selling by weight at Guntapalle and Kutgholl depôts 4194 and 470 being the respective number of Marcals found equivalent to 120 Indian Maunds at these tanahs;

From 03rd 16 a/c 55 No 56
To B. of R. 23rd Cons. 156 No 59

and partly to 480 Marcals having been sold as the equivalent of 120 Indian Maunds on receipt of the Board's orders to sell that quantity / 120 Indian Maunds / as a garce at 1 Rupee per Maunds.

To de 23rd aug. 155 No 90

From de 13th aug. 155 No 2301

9 This was rectified on receipt of the Boards orders, fixing 4274 Marcals as the equivalent of 120 Maunds, received a few days after I had taken the Step in question in anticipation of Sanction, the Boards having

COBR 7th Sept. 156 No 2325

Fort St George 12th October 1857

having been already informed that 480 Measals of Canara Salt was the equivalent of 120 Maunds in this District.

10 It must be added that we were already selling by weight at two depôts, and that Goa Salt which is much of the same consistency as that of this District was being introduced by weight also.

11 Until Salt can be sold by weight instead of by measure, I see no hope of ascertaining clearly the cause of the wastage which is found to take place.

12 The Board are aware that nothing can be done to change the present System, until proper weighing

Fort St George 12th October 1857

Machines are brought into use; and as I believe a number are being made up in Madras, I trust that this District may be furnished with them at an early date.

Bo No 3157
From the Collector
of Vizagapatam

Sir,

With reference to the Ex-
tract from your Proceedings of the 10th Instant,
I have the honor to state that in the
Government Taloks on the Coast the
Jungles are not rented. The villagers
supply themselves at their pleasure
in point of Fact in Surviskiddy
Talook there are no exclusive Jungles
to rent.

In Palcondah from a re-
2
mote Period it had been usual for
the Zemindar to rent out Jungles to
Parties desirous to contract in one
or two localities. The firewood is cut
and sent to the villages and Towns
for sale on Carts. The Villagers in
these Places pay a tax for the privi-
ledge of cutting wood The amount
of these Rents is only Rupees 133
per annum. It is a matter of
indifference

Fort St George 12th October 1857

indifference in my judgment whether the practice is continued or abandoned.

Bd N° 46. Sir,

From the Collector of South arcot

With reference to Extract from the Proceedings of the Board of Revenue dated 15th Instant, N° 4252, I have the honor to submit herewith a revised scale prepared by reducing the rate of Salt wastage to the actual loss on an average of the last 5 years.

2 I beg to state that I have pointed

Fort St George 12th October 1857.

pointed out to the Servants at the Salt Pans that wastage should not, for the future, exceed the average rate calculated in the scale in question and that they will be held answerable for any undue proportion of wastage.

3 I have also taken an opportunity of informing the Manufacturers that the Salt which they make hereafter should be of the finest quality and that impure and inferior Salt will be rejected.

455

B. of No. 3424
From the Collector of Bellary.

Sir,

I have the honor to acknowledge the receipt of your letter of the 10th Instant, requesting me to state briefly what scale of remuneration Col. Munro laid down for the villge Officers and to explain the difference observed between the value of the land to be replaced and that of the land to be given in lieu of it in the Taloks of Adoni and Gootty.

2. In reply, I beg to send the scale Established by Col. Munro for the information of the Board and in explanation of the Cause of difference between the value of the land to be replaced and that of the land to be given in lieu of it, to state as follows. The Curnum of Maraotta in the Gootty Taloks proposed to

15825 Fort St. George 12th October 1857.

to exchange his wet land measuring A G A
3 — 18 — 4 bearing an Assessment
of Rupees 10 — 15 — 4 the average rate of
which amounts to 3 — 2 — 6 per acre for
a New wet piece of ground measuring 3-30-13-
with an Assessment of Rupees 5 — 8 — 4
the average rate of which amounts
to Rupees 1 — 7 — 4 per Acre, and the
difference is thus attributed to
the rate of the New land being
lower than that of the damaged
field. The Potail of Kundaccoor
in the Adonie Taluk proposed to
exchange his wet land measuring
3 — 11 — 6 bearing an assessment of.
Rupees 47 — 14 — 4, for a Dry land
Measuring 10 — 19 — 9, assessed at.
Rupees 21 — 2 — 4 which causes the
difference of Rupees 26 — 12 — 4
as shewn below. —

15826 Fort St. George 12th October 1857.

Land which had been rendered Waste
uncultivable.

Parish of Glenmore Barony of Clonkee County of Cavan.

Examined & Allowed this 21st day of August 1837.

Clements C. Tithe Collector.

Fort St. George 12th October 1857.

B. of R. 3437.

Proceedings thereon:-

(455-56)

With Extract from their Proceedings dated 3d July 1856 No. 2014, the Board of Revenue submitted for the Sanction of Government a Statement received from the Collector of Bellary, of lands proposed to be granted to certain Village Officers in exchange for their Enams which had been occupied or rendered uncultivable by Public Works. The new lands aggregated Acres 3,063-12-6 assessed at Rupees 5,517-15-u and subject to Quit rent amounting to Rupees 2,050-15-u-

2. Of this extent Government objected to the grant of acres 147-14-3 to Cuttoohadies, directing that the Servants should be treated as pensioners; and Sanctioned the grant to other Officers of acres 1196-4-14; but erroneously stated their value to be Rupees 1,380½ which is the Quit Rent payable on them and not their Assessment- the latter being Rupees 2,061-5-u-

The

Fort St. George 12th October 1857.

The error evidently arose from the Column at page 47 of the Collector's Statement not having been ruled so as to accord with the headings: the Collector has however inserted the Correct value in his orders to the Talookdrs.-

3. On the remaining lands

	Extent of land entered in the first statement as occupied by or rendered uncultivable by Public Works	Value	Fresh lands proposed to be given in lieu	Value	acres 2319-33-5 which comprised grants to Cur:=mans and Po:=tails, Govern:=ment defer:=red pay:=ing
	Acres 3151 38 25923 3 u		3063 12 6	5517 15 u	
Deduct Cuttoohadies	84 39 11	232 6 u	147 14 3	218 11 u	
Remainder	3066 38 7	5692 13 u	3215 38 3	5294 u	
Deduct Sanctioned by Government	903 19 7	2171 14 u	1196 4 14	2061 5 u	
	2163 19 u	3520 15 u	2319 33 5	3232 15 u	

any orders and directed that further and stricter enquiry should be made as to whether the lands represented to have become uncultivable, were so in fact, and whether the old lands remaining unenjoyed were considered as affording insufficient remuneration. The latter consideration had not been overlooked by the Board as will be

seen

Fort St. George 12th October 1857.

Seen from their letter dated 20th July 1852.

4. In the first of the two Communications recorded at the head of these Proceedings, Mr. Pelly states that a further examination by the Tahsildars themselves or by some of the superior Talooki Servants, has been made, and that the revised Statements submitted by them shew that their investigation has been made with care. Some lands formerly entered as uncultivable being now excluded. The lands in the Talook of Royadroog were re-examined by the Assistant therein as the report of the Tahsildar was not considered satisfactory, and the result proved that this scrutiny was necessary, several pieces of land having been passed by the latter Officer as uncultivable which were only deteriorated. The Board presume the Tahsildar's default has been duly noticed by the Collector.—

5. Comparing the Collector's former Statement with that now submitted it appears that of the Acres 2163-19-11 first shewn as uncultivable it has been ascertained that

Fort St. George 12th October 1857.

that Acres G a 22-28-3 were entered improperly by mistake, and that Acres 381-30-8 were Cultivable, but on the other hand there appeared an excess of Acres 19-38-10 which was not included in the former Statement of uncultivable land, thus making a net decrease of Ac. G a 384-20-1. in the original extent as indicated in the Margin.

Extent originally shown as uncultivable — —		2,163-19-11
Entered improperly or by mistake —	22-28-3	
Found to be cultivable —	381-30-8	
	404-18-11	
Found to be uncultivable	19-38-10	
Net decrease — — — —	384-20-1	
	1778-38-15	

6. In determining whether the lands remaining uninjured, formed a sufficient remuneration to their respective proprietors, Mr. Pelly has been led to adopt a scale of remuneration laid down by Col: Munro calculated according to the revenues of the Villages. A Copy of this Scale was called for by the Board and is herewith forwarded as an enclosure to the 2d Communication recorded above. It will be seen that the rate of remuneration graduates from 1 to 8% to Reddies and 1 to 12% to Curnums. The maximum rates

In Cons: 10th Aug. 1857.

Fort St. George 12th October 1857.

rates being intended for Villages with a revenue of Rupees 146 - a - a and the minimum for Villages yielding Rupees 17,500 - a - a -

7. Guided by this Scale Mr. Pelly has disallowed Claims for remuneration on acres 822 - 14 - 12. So that only acres 956 24/3 assessed at Rupees 978 - 6 - a require fresh lands of equivalent value in exchange, and Mr. Pelly proposed, as shewn in his Statement, to give acres 838. 39. 12. assessed at Rupees 931 , 8 - a -

8. Regarding the sufficiency of this Scale the Collector remarks that the rates of remuneration to Patails and Curnums in his District, vary so greatly that he found it difficult to say in what cases the remuneration was sufficient, and that although the Scale he has now adopted is small, it is the only authorised one, and as such may be adopted in the present instance and until a

* Remaining Lands shewn in Margin of Para 7 above - 1778 - 38 - 15 -

Remaining Camps &c - - - 955 - 24 - 3.

Fort St. George 12th October 1857. -

a new one is framed applicable to the whole District. -

9. The Board do far concur in this view that they recommend that the Collector may be authorised at once to make over the lands entered in his revised Statement. They would however with Mr. Pelly to prepare a Scale of remuneration for Village Officers as a guide for future arrangements. It is not necessary they think that there should be so many rates as 44. - The minimum should be such a sum as the Collector considers sufficient to secure the services of a suitable person - the maximum on the other hand enough also to enable the Moonsiff or Curnum to employ the necessary number of assistants - The Collector would of course be guided not merely by the Revenue of each Village but by the number of its inhabitants,

the

15834 Fort St. George 12th October 1857.

the Character of its populations and other such considerations - Once the Scale was fixed in this manner &c: = Rangements could be made for Securing an adequate remuneration for the Officers either from Government Lands or from the shares of those who now participate in the Enam though they do no duty - according as may be deemed advisable. It is however absolutely essential that whatever may be granted to each officer shall be reserved exclusively for the person doing duty and not be subdivided or transferred on any consideration. —

10. The instructions conveyed in para 3 of the Board's letter dated 21st July 1855 will be Countermanded with reference to Extract In Bm's 26 July 57. Minutes Consultation dated 21st January 1857 R.D. No 79 with Copy of which and of para 5 of the Board's Proceedings thereon dated 8th October 1857 - the Collector will be furnished

Dr No 2746

From the Acting Collector of Madura

Sir,

In a case pending before me I found, that a Mootaligaan Enam in which there are 4 Share holders, all descendants in the female line of the Original Grantee has been almost wholly mortgaged. —

2 The question brought before me is a dispute as regards possession between a Step mother & her half Son, and the parties have entered into a Compromise which I have not yet recognized as I thought that I could not pass the point of mortgage unnoticed on which I request instructions of the Board for my guidance.

3 According to the Rules the Enam ought to have been resumed long since but it has been allowed to remain in the family for a period of about 98 years as it appears the grant from the enclosed Copy and translation of the Purwanah was made in Fusly 1171 A.D. 1758

Agreeably

15836 Fort Saint George 12th October 1857.

A geneological tree of the descendants of the original grantee is also enclosed.—

The Extent of the Enam is

Proceedings thereon:-

(457-58)

All that the Board can gather from the above letter is that a Mootabiguan grant of old date now in the enjoyment of 4 share holders has been alienated and that possession is disputed between a Step Mother and half son. The information supplied is so scanty that it is impossible for the Board to express any opinion on the subject.—

2 Mr Sullivan will state, the extent and value of the Enam mortgaged whether the Mortgage is of recent date and what evidence exists of the transaction. He will also mention who the present holders are, how long they have been in possession, and whether any lapse has occurred since the date of the Enam rules. The Board must have full explanation on all these points before they can issue any instructions

3 The Acting Collector will of course decline to recognise the Mortgage pending further instru =:—

Acting Secretary to the
Board of Revenue,
Fort Saint George.

(459)

Bd No 3495
From the Coll r of North Arcot

Sir,

Para 1. I have the honor to forward for submission to the Board, the accompanying Copy of a letter dated August 1857 from the Acting Additional Sub Collector submitting the modified scheme for the revision of the assessment of the Northern Talooks.—

2. In para 4 Extract Minutes of Consultation 20th February 1857, Government noticed that the inequalities between the talooks in the last scheme submitted by me had not been removed In para 5 they direct that the Nunjah rates in Chittoor, Chendragherry, Trivalum and Sautghur, and the poonjah rates in Chendragherry, Trivalum and Sautghur, should be still further reduced.—

3. Mr Bonbury has affected these reductions, but inequalities between the Talooks still remain. Their removal is in fact impracticable, for even greater inequalities exist between village and

and Village as shown in the annexed Statement. Whether these inequalities are just or not can only be satisfactorily determined by the Classification which will accompany the Scientific Survey in contemplation. I concur however with Mr. Banbury in considering that local advantages justify the imposition of higher Nunjah rates in the Talooks of Chendragherry and Chittoor.

4. Mr. Banbury has also carried into effect the instructions of Government in reducing the poonjah rates formerly proposed for the Talooks of Chendragherry, Caveripauk, Trivalum and Sautghur, but the inequalities between the Talooks have not been and cannot be removed. It will be observed, by the Statement annexed to this letter, how unequal the mean rates are in those Villages included in it, which were taken at random, and how high in some instances the mean rates are. These inequalities can only be rectified where not justified

justified by circumstances, by a careful reclassification which does not appear ever to have been intended to form a part of the present work of reducing the assessment.

5. The orders of Government in para 6 of the above Extract Minutes of Consultation have been most satisfactorily carried out by Mr. Banbury by assessing at 2 Rupees per Cawny with the consent of the ryots, all the lowly assessed Nunjah.

6. The orders of Government on the other points noticed in the Extract Minutes of Consultation appear to have been satisfactorily carried out by Mr. Banbury, and as the Government in that Extract Minutes of Consultation have stated that the scheme need not be again submitted to them for approval. I trust the Board may find themselves able to approve of the scheme now submitted, and will authorize its immediate introduction.

7. Mr. Banbury's letter is not dated, but was received by me this day.

North Arcot, Collector's Cutcherry,
Chittoor, 31st August 1857.

(Signed) H. Whittingham,
Collector.

To

H. Whittingham Esqr
Collector of North Arcot.

Sir,

Adverting to the honor to forward for
submission to the Board of Revenue the accounts
of the Chittoor District for the month of August
last, I have the honor to report that the Collector
has not drawn upon the Treasury for any sum
on account of the Chittoor District during the
said month.

I have the honor to be
Sir
Your most obedient
Servant
(Signed) J. Whish
Collector

Fort St. George 20th October 1857.

Ordered, That the Collector of North Arcot be informed that the Board of Revenue have received his letter of the 31st ultimo, reporting that no sum has been drawn upon the Treasury on account of the Chittoor District during the month of August last, and that the Board have no observation to offer upon the subject.

2. The Government in Minute of Consultation dated 20th October 1857 have ordered certain modifications and alterations to be made in the Revision Scheme, it was drawn up by the Board of Revenue, in the month of July last, that the mean Mungalkate in the Talooks of Chittoor, Khandraghery, Trivellum, and Puttoor, was too high, and that some extra indulgence should be conceded to those Talooks, in accordance with the decision laid down in para 2 of the above quoted

Fort St. George 12th October 1857.

quoted Minutes.- this has now been done; the plan proposed by Government of granting these Talooks a more favorable scale of remission than the others having been strictly adhered to.- Vide Enclosure No. 46.- The result of this proceeding is as follows.

The mean rate by the former scheme stood thus.-

	Mean rate by 1st Scheme			Percentage of reduction-		
	Rupees	As.	P.	Rupees	As.	P.
Chittoor	9	3	3	33	3	8
Chendragherry	9	9	6	37	11	8
Trinellum	8	1	1	30	6	7
Santghur	8	12	9	31	9	6

after the application of the method laid down by Government the mean rates appear thus.-

	Mean rate by present Scheme			Percentage of reduction		
	Rupees	As.	P.	Rupees	As.	P.
Chittore	8	11	10	36	9	7
Chendragherry	9	1	5	40	13	4
Trinellum	7	10	9	33	12	11
Santghur	8	2	4	30	14	6

It may be urged that the mean rates

Fort St. George 12th October 1857.

rates of Chendragherry and Chittoor are still high and I endeavoured to reduce them, but for the following reasons I was unable to do so, by granting a greater measure of remission to these Talooks, and thus reducing the mean rate per Cawny- I found that we reached the authorized percentage reduction sanctioned for the whole District, Viz- 30 per cent on the Ayen Kunjah Bariz and left no margin for the southern Talooks- it is true that we might heighten the mean rates of the other Talooks and thus be enabled to grant more favorable remissions to the four Talooks under discussion, but I am averse to disturbing the rates of those Talooks which have already received the favourable opinion of the higher authorities; the Chendragherry Talook possesses considerable local advantages, the soil is generally good, the means of irrigation most favorable, abundant pasturage for cattle

cattle is obtainable all the year round, and the neighbouring Jungles afford an unlimitted supply of leaves (tayay) for manuring the rice lands and causing them to yield thereby a rich and abundant crop; finally Tripatty centrally situated in the Talook, offers a ready market for all descriptions of agricultural produce; the adjoining Talook of Chittoor is similarly naturally favored, and Chittoor Cushah affords a good market, two Trunk roads pass through this Talook, so that grain and straw fetch remunerative prices; in support of the above assertions, I may add that the conditions of the Ryots of these two Talooks is generally considered to be somewhat flourishing and that they are in tolerably comfortable circumstances, it must also be admitted that the average percentage reduction, Viz.

	Rs	A	P.
Chittore	36.	9.	7.
Chendragherry	40.	13.	4.

are very liberal. I shall also hereafter shew that the Ryots are perfectly contented with the arrangements now made for their amelioration.—

3. Next as regards the Ayen Poonjah lands in the Talooks of Chendragherry, Cauveripauk, Trivullum and Sautghur, as noticed in the latter part of para 5 of the above mentioned Minutes of Consultation. By closely adhering to the system laid down for the Nunjah lands and granting thereby more indulgence to only certain old rates in each class, I found that the mean rate per Cawnie was not sufficiently reduced, and consequently adopted a course by which more old rates were brought to the favorable new ones, and the average assessment per Cawnie, consequently more liberally reduced. thus.—

mean

	Mean rate per Cawnies ashy for. emer en scheme.	Percen: tage.	By present scheme	mean Percen: tage.
Chendraglieury	2 1 5	24 5 1	1 14 4	30 13 10
Cauneryputtee	1 14 6	17 6 7	1 10 9	27 9 1
Trinullum	2 5 2	24 10 3	2 1 4	32 5 9
Santghur	2 . 6	20 5 .	1 13 7	28 . 7

See Statement No 42

The mean rate of Trinullum is still high but the same reasons which prevented my reducing more in Nunjah, apply with equal force in Poonjah, and I should have exceeded the authorized amount of remission had I been more liberal, the present per: centage of reduction granted to Poonjah throughout the Northern Talooks being only the scheme now submitted 24 Rs. 6 a. 1 p. on the 4yen Poonjah Bariz. 25 per cent being the authorized limit. It must also be borne in mind that the Trinullum Talook

Talook, as regards Poonjah lands, is favorably placed, the soil is naturally good, limes, tobacco, chillies and plaintains are grown in considerable quantities, and can be advantageously disposed of either in the large neighbouring towns of Wallajahpett, Arcot, Vellore, and Ranepett or sent up to the Madras Market by Rail road.

4. Although the Board may think, notwithstanding the above representations, that the mean rates of one or two Talooks may yet be reduced in either Nunjah or Poonjah, I would beg to represent that there is an additional argument against this measure. By your first scheme for the Northern Talooks, excepting Suttiraid, which was not equally benefitted owing to its already somewhat favorable assessment, the old rates of each Talook were made to fit in to one new standard scale of reduction. thus making one set of rates available for all the 8 Talooks, and it was, I confess with regret, that I found this uniformity could not possibly be maintained when the old rates of some Talooks were to be brought to lower standards than those of other Talooks.

The

Fort St. George 12th October 1857.

The uniformity and simplicity of the former plan in having but one reduced Scale would have been very advantageous, but as it could not be carried out wholly, I have endeavored to mitigate the unavoidable evil as much as possible, and have applied one similar Set of reduced rates to those Talooks which are to be more benefitted than the others, so that now we have two systems of reduction in the 8 Northern Talooks, one for those ordinarily reduced and one for those extraordinarily benefitted.—

thus Nunjah

Palmanair,
Vencatagherrycottah,
Sholinghur,
Canverypauk.

} one similar system of reduction = Chittoor, Chindraghurry, Trimullum, Satghur. = one similar system

In Poonjah.

Sholinghur,
Chittoor.

} one system = Chendraghurry, Trimullum, Satghur, Canverypauk. = one system

Should

Fort St. George 12th October 1857.

should greater indulgence be still shewn to any Talook, or Talook, a third or fourth plan of reduction must be introduced, thus creating confusion and increase of labour..

5. In conformity with the instructions contained in the next Para No. 6 of the Minutes of Consultation before mentioned, I have had the necessary local enquiry made regarding the lowly assessed Nunjah lands; and these lands have all been brought to Nunjah paying two Rupees per Cawny- the Ryots and Village Officers both preferred this course as the owners of these fields are now enabled to cultivate whatever crops they like, and make use of Circar water without any charge for Kuffeer or interference on the part of the Government Servants which they could not do were the lands classed as Poonjah. Statement No. 47 shews

shew the result of this enquiry.-

6. As regards the Poonjah rates in the Chingleput transferred Villages, in those of the late Anvilcondah Saghire and in the three Villages of the Vellore Taloo/, the enquiries made tend to shew that they are really too excessive and that considerable tracts of land are waste in consequence I have therefore reduced the rates in the above Village according to their several requirements and have thereby brought their mean rates more in accordance with those of the Northern Taloo/s than was formerly the case - Statement No. 42 shews the result of this measure.

7. The instructions given regarding the reductions to be made in the Puttadah Nunjah have been carried into effect and in the four favored Taloo/s the reductions under this head are similarly with Tank and Channel Nunjah more benefitted than in the other Taloo/s,

Puttadah

Puttadah Nunjah is granted one rate lower on the scale than irrigated Nunjah so that when the latter is more favorably treated in one Taloo/ than in another, the former likewise comes in for a corresponding indulgence.-

8. Nothing having hitherto been done regarding the Atchoocut and Hall Bagayet lands in the Satghur Taloo/, I proceeded lately to Gooreattum and after ascertaining the necessary information from the Village Officers and Ryots the lands were transferred to Ayen Nunjah or Poonjah, and a fair reduction granted on their hitherto existing rates. For Nunjah this reduction was fixed at one rate higher than that conceded to the Ayen Nunjah in the Satghur Taloo/ for the following reasons, the Atchoocut and Hall Bagayet lands are already somewhat more leniently assessed than the ayen lands, although scarcely any perceptible

perceptible difference exists in their respective productive powers, ayen Nunjah and Atchoocut Nunjah often coming alternately in a tract of cultivation the two kinds of land lying in fact side by side - besides this by bringing the Atchoocut lands to Ayen Nunjah the charge of half a Pagoda on Kolsur levied thereon when Nunjah crops are raised will cease, so that it would not have been fair to reduce them similarly with Ayen Nunjah lands - With regard to Atchoocut and Hall Bagayet lands brought to Poonjah these were assessed from 5 Rupees (the highest Poonjah rate) downwards, a fair measure of Remission being granted where it was deemed necessary See Enclosure Nos. 11 & 12 - with the understanding that Kulsen should be paid according to the esta: = blished rates for Poonjah - Hall Bagayet, when transferred to Nunjah was treated similarly to the Tank and Channel Tolacal formerly transferred

transferred to Nunjah, and as the former Teerwah was a consolidated cess, two thirds of this were taken as the first crop assessment, the proper rate of reduction applied thereto, & then half of the reduced rate added as the second Crop Teerwah to be paid in future, the Ryots appeared perfectly satisfied with the arrangements thus made regarding Atchoocut and Hall Bogayet lands, and it appears to me that a considerable point has been gained by sweeping away the numerous petty details and annual investigations to which this system gave rise. -

9. I must next proceed to say a few words regarding the plan proposed of fixing the reduced assessment for the Northern Taloocks by means of Punchayets. - This measure has already formed the subject of correspondence and I have endeavoured to act with

with regard thereto as far as possible in conformity with the last order of the Board given in the latter part of their Proceedings dated 26th June 1857. in order to do this I have personally visited each of the 5 Talooks in which the rates were ordered to be reduced, have explained to a Punchayet of respectable Ryots what the assessment would be hereafter according to the revised scale, made the subject known to the Ryots and stated that I was prepared to receive any complaints, Petitions, or representations that might be made regarding the assessment. the result was as follows. they seemed fully to appreciate the liberality of Government, declared that the waste would soon be brought under tillage and appeared chiefly anxious upon two points, Viz. what would be the reduction on the highly assessed Nunjahs, and whether the same remission would be granted

granted to lands now waste as to those now cultivated; from this I augur most favorably and it shows that the two chief objects of the revision, Viz: reductions on the highly assessed Nunjah and Bunjer lands, were the boons most earnestly desired by the ryots at large. In Chittore Talook, one Brahmin represented that the Nunjah land in his Village was composed of fuller's earth (Shavadoo) and the reduction not sufficient; but the persons whom I had appointed as Punchayetdars said that the present remission given (about 40 per cent) was ample and that he ought not to expect more for the land in question. It is I think a subject of congratulation that the Ryots have urged no objections to the existing classification of lands, when the opportunity was afforded them for so doing, and thus enabled us to

retain

Fort St. George 12th October 1857.

retain it fully as over basis of reduction as advocated by Mr. Boardillon in para 38 of his Report dated 23d October 1854- has permitted as to have but two sets of reduced rates for the 8 Northern Taloks, has caused the work to progress speedily and satisfactorily- & has finally saved entirely the sum of Rupees 3,510 which had been sanctioned for the necessary expenditure to be incurred in carrying out the Punchayet System- During my visit to the Taloks above mentioned some representations were made to me regarding the reduced value of Manigems, Dusaundum grants, & &c, but these will form the subject of a separate communication, as some enquiries are necessary before I lay the several subjects before you in a proper manner, and I do not like to delay this report on account of those questions which can be hereafter disposed of.

J.

Fort St. George 12th October 1857.

10. I now proceed to shew the financial result of the above operations, and the percentage of reduction granted thereby- I must beg to remind you that all the calculations have been made with reference to the Tarum Berizof Fusly 1262, this Fusly being a most favorable one to the Circar; it was considered to afford the best basis for carrying on our operations, and it will hereafter shew most satisfactorily the real result of the revision, the Statistics of this Fusly were also selected by Mr. Boardillon for the preparation of his details- In Nunjah, including every description of land brought under this head, the reductions conceded to the Northern Taloks by the scheme now submitted amounts to Rupees 1,74,057 or 20-13-4 per Cent

Col: 5 Statement No 46.

on the cultivation Beriz- in Para 2 I mentioned that there did not remain any surplus to enable me to reduce more in the Taloks of Chittoor and Chendragherry and I think you will agree with me that the small

Margin

Fort St. George 12th October 1857.

Margin of Rupees 3-2a-8 remaining to make up the authorized 30 per cent of Poonjah remission will be required for the Southern Talooks wherein it was intended we should be more lenient, it would not consequently have been expedient to reduce more in the Northern Talooks.—

11. With regard to Poonjah the details submitted, with enclosure No. 42, shew that the reductions on Col. 5 Statement No. 42. all items under the head of Poonjah, amount to Rupees 5,809 or +Rs 24-12a-9 per cent on the revenue derivable from the lands thus benefitted. This remission is high, but is caused by the large reductions which Government wished to be given to the Tatacal willingo- Col. 5 Statement No. 39. tion, amounting to Rupees 39-14a-8 per cent and by the remission of Rupees *800 altogether to the Suttinaid Talooks agreeably to the opinions Conveyed in Para 48 of Mr. Bourdillon's Report dated 23rd October 1854 but which was not taken into account when Mr. Bourdillon fixed the Poonjah deduc- tions at 25 per cent, this calculation being made exclusive of Suttinaid. The rate of Poonjah per centage remission being thus increased it was not practicable for me to reduce the Poonjah mean rate of Trivallum Talooks.

*See Statement No. 42.

1583

Fort St. George 12th October 1857.

Talook more than I had already done, as matters now stand we are within the authorized limit, and leave a small margin in reserve for the Southern Talooks.—

I may finally request

12. that should the Board see fit to require any alterations or modifications of the present scheme, that they will pass orders thereon as speedily as possible in order that I may do what is required without delay, as the earlier the sanction for the long expected remissions is made known to the Ryots, the greater will be the amount of waste land brought under tillage, during the present Fusly.—

Rd 12th October 1857

In Extract Minutes Consulta. from 20th February 1857 No. 189, Revenue Department, the Government approve generally of the scheme of revision that has been devised for the Northern Talooks of North Arcot but notice a few points which require further investigation. In the letter now before the Board the Collector forwards Mr Bonbury's report as to the mode in which he has dealt with these points remaining for correction, and recommends that his proceedings should be confirmed.

2. The arrangements which Government, in the Extract Minutes Consultation above referred to, required should be made in order to Complete the scheme of revision were as follows:- I some further reduction of the Nunjah Assessment in the 4 Talooks marginally named and of the Poonjah also in the first 3 and perhaps in Cauvery pauk, in order to bring the mean rates of these Talooks nearer to those of the others:- II The transfer of land now classed as Nunjah at a very low rate, to Poonjah.

Sholinger	6	"	4	5	15 8
Palmanair	6	2	3	5	11 2
Vencatagerry	6	10	5	6	2 "

The Nunjah rates of the Talook of Chendragerry and Chittoor are yet higher than the others as shewn in the Margin B — but the Board think Mr Bantury has given good and sufficient reason for the difference, and that it would be inexpedient to push the reductions further — It seems quite impracticable to make the mean rates of all the Talooks in any District agree, unless it is admitted, which can never be the case, that the land throughout is of equal fertility — It is for the Officer who conducts in person the local enquiries necessary for the purpose of assessment, to satisfy himself as to the varying nature of the land, or other advantages of

the

15942 Fort St George 12th October 1857.

the several Talooks, and Mr Bunbury is now able to speak from his own knowledge, that Chittoor and Chendragerry have real advantages, which make the imposition of a higher rate of assessment quite reasonable. It will be seen from the marginal statements given above that the reduction of Nunjah assessment in the 4 Talooks noticed by Government is from 33 1/4 to 40 1/2 per cent. In the other 4 Talooks it has been from 15 1/4 to 22 1/2 per cent.

5. With regard to the 4 Talooks in which the Poonjah assessment appeared to Government too high, the 3 first are the same which, when referring to the Nunjah assessment, have just been shewn to have real local advantage. The rates on the cultivated land of Fasly 1262 are shewn in the margin. The percentages are calculated in the difference made in the whole Poonjah Cultivation

	Average Poonjah assessment as proposed	on Nunjah assessment	on Poonjah cultivated land	Reduction	Percentage of reduction
Chendragerry	2 11 11	2 1 5	1 14 4	30 8	
Trivellum	3 1 4	2 5 2	2 1 4	32 3	
Santgur	2 9 1	2 0 6	1 13 7	28 0	
Canveripauk	2 3 11	1 14 6	1 10 9	27 6	

15942 Fort St George 12th October 1857.

cultivation of the Talook. Thus in Chendragerry land that in Fasly 1262 paid 14,671 Rs would, under the assessment now proposed, pay 19,143 Rs or 30-8 per cent less.

6 The above calculations are based on the Poonjah cultivated land. The proposed rates per Cawnie for the whole ayacut cultivated and waste are shewn in the margin.

Chendragerry	2—1—10
Trivellum	2—11—4
Santgur	2—7—11
Canveripauk	2—3—7

7. The mean rate for the Talook of Trivellum is yet the highest, though the percentage of reduction has been greater than in any other of the Northern Talooks. In the other 4 Talooks noticed in the margin above, the reduction proposed is from 16 1/2 to 21 per cent, and considering the description given by Mr Bunbury of the Trivellum Talook, the Board cannot urge any further reduction.

8. The next modification required by Government was in regard to Nunjah land assessed under 2 Rupees per Cawnie, and it was directed that rather it should be classed as Poonjah

or

Fort St George 12th October 1857

or else brought up to Nunjah at 2 Rupees a Cawnie. This last course has been adopted, it being preferred by the ryots to the other, as though they pay a little extra assessd herewith they will not be subject to the additional tax which as Poonjah they would have to pay if they availed themselves of water from Government sources. The lands referred to are chiefly in the Saluvaid Taluk, and some in the Chingleput, with a little elsewhere. The total ayacut is 1432 Cawnies of which 1120 were cultivated in Fusly 1262 on a Nunjah Assessment of 1842 Rupees. The Assessment proposed and assented to is 2240 or 2 Rupees a Cawnie. The 312½ Cawnies of waste is in like manner assessed at 2 Rupees a Cawnie.—

7. Next in regard to the Poonjah land in the Villages transferred from Chingleput, A. the 3 Villages of Vellore assessed by Mr Nisbett and those of the late Arcotda Jaghire C. Mr Bamber found

	Ayacut Cawnies		Old rates				Proposed
A.	1425	—	2	0	1	1	11 3
B.	252	—	3	10	1	1	15 3
C.	1382	—	2	2	11	1	6 7

In A only 801 Cawnies were cultivated in Fusly 1262 In B and C. about ½ the Ayacut

Fort St George 12th October 1857.

found on enquiry that the rates were too high, and that land was left waste in consequence. The proposers therefore do to reduce these rates as to bring them more in accordance with the Poonjah of the Northern Talooks, and the Board consider the proposed rates as shewn in the margin sufficiently low.

10. The last point referred to by Government, in Extract Minutes Consultation 20th February 1857 was respecting the Nunjah land under wells. The additional relief has been afforded by Mr Bamber in the way proposed, namely by the substitution of the next lowest rate throughout so as to have them a rate below the Tank and Channel Nunjah. The whole Ayacut of the well Nunjah is 1730 Cawnies, of which about half is cultivated. The present assessment is 1711 12 Rupees, and the reduction will bring it down to 1025 2 The land is chiefly situated in the Chingleput, Trivellum and Sautghur

Enclosure 39

11. Having disposed of the points

15942 Fort St George 12th October 1857

points especially adverted to by Govern-
ment. Mr Bunbury adverts to the ar-
rangements he proposes for the land
described as Hull Baglay et and detach-
ed in the Tanjore Talooks

12 As recommended by Mr Bour-
dillon in para 60 of his report of 23d
October 1854, these lands will now
be considered and classed permanent-
ly as Nunjah or Poonjah according as
they may really be considered as Irrigated
or Unirrigated. Those now proposed
to be classed as Nunjah will not have
their assessment so much reduced as
the lands of the other Nunjah of the
Talook, because they are already assess-
at an exceptionally low rate. Those pro-
posed to be classed as Poonjah will
not have any higher rate than 6 Rupees
a Cawnie, which is the maximum
Poonjah rate of the Talook. The
measures proposed by Mr Bunbury
seem reasonable.

13. It appears from Enclosures
11 and 12 that the atchoocut and Hull
Baglay et transferred to Poonjah is
about 170 Cawnies, of which 1/3 is

waste,

15942 Fort St George 12th October 1857

waste, that transferred to Nunjah is about
2400 Cawnies of which 1400 are cultivated.

14. In para 4 of his letter Mr
Bunbury explains why he has not been
able to make out Table of Rates suit-
for all the 8 Northern Talooks, as was
originally contemplated. In consequence
of this being directed to reduce some of
the old rates in some Talooks more than
in others, the scale was broken into.
He states that he has "applied one Reduc-
"tion of rates to those Talooks which
"are to be more benefitted than the others,
"so that now we have two Systems of
"reduction in the 8 Northern Talooks,
"one for those ordinarily reduced, and one
"for those extraordinarily reduced."
Thus in Nunjah land - Palna-
-nair, Vencatagherry, Sholinger and Cauvery-
-pauk, received the same scale of re-
-duction, but Chittoor, Chundragerry
Trivellum, and Tanjore, another.

15. Mr Bunbury has not explain-
-ed himself very clearly, but the Board
suppose him to mean, that in some
Talooks, instead of lowering the
old

Nuggat.

old rate and Staff, to has been obliged to lower it two in order to meet the direc-tions of Government as to approxi-mating the Mean rates of each Taluk

16. There does not however appear to the Board to be any practical incon-venience in the result. There are still 22 grades of Nuggat as shewn in the margin, and what is No. 3 in one Ta-luk is No. 5 in another, and the latter pay 9 Rupees a Cawnie. The fact that in some Taluks there is no No. 1 and in others no No. 4 &c. &c. is not a matter of importance.

17. The same remarks apply to the Poonjah, of which there are 37 Classes from 6 Rupees to 3 Annas.

18. In Extract Minutes Consulta-tion 3rd June 1857 No. 515 Revenue Depart-ment the Government at the recom-mendation of the Board of Revenue, sanctioned an Expenditure of ₹ 3,510 Rupees for the purpose of preparing de-tailed accounts, supposed to be requisite before the mean rates of the Taluks could be equalized. It was also supposed that to carry out this

Do Con. 11th June 57.

this scheme a system of punchayet valu-ation would be necessary in each Village. It subsequently appeared that the Collector did not intend to urge this plan for the Northern Talooks though it certainly was prest on the Board by his Head She-restadar who was deputed by him to lay the matter personally before the Board. In consequence of representations made by Mr Bunbury, the Board resolved, in their Proceedings dated 26th June 1857 (copy

1st August 57 of which was sent to Government) to dispense with the services of the Puncha-yets and the detailed accounts in the Northern Talooks, and Mr Bunbury has consequently been able to bring the revision of the Assessment in those Talooks to a more speedy conclusion, and as it appears to the satisfaction of the people. The 3,510 Rupees, sanctioned by Government, will therefore not be required.

19. The financial result of the pro-posed reductions in the 8 Northern Talooks, including the Villages transferred from Chingleput those of the Moomadoor Pollium, and the Darlcondah Jaghire

and

15942

Fort St George 12th October 1857

::Poonjah.

Total ayacut ——— 337787 Cawneys
Present assessment ——— 698731 Rupees
Proposed Do ——— 535298 Rupees
Reduction ——— 23¼ per Cent
Present rate per Cawney — 2—1—1
Proposed Do Do ——— 1—9—4

Cultivation of Fusly 1262 ——— 115378 Cawneys
Present assessment ——— 263438 Rupees
Proposed ——— Do ——— 179629 Rupees
Reduction ——— 24·8 per Cent
Present rate per Cawney — 2—4—10

Translation

15944 Fort St George 12th October 1857.

Encl: 1

Translation of an Endorsement passed by the acting Joint Magistrate on the Petition of Permal naik and others manufacturers of Salt petre residing in the Talook of Tyempully Madura District dated 23rd January 1857-

"The acting Joint Magistrate sees no reason to interfere in the matter of this complaint. It does not appear that the Petitioners posess any right to the land from which it is alleged they obtain Salt petre, should they even pay a duty to Government for the Article raised from the land it does not therefore follow that they have a right to that land. It does not appear however that they pay such duty. They remained in possession so long as the Government did not object to it, and moreover such possession was held without any authority. Government may therefore resume the land when they consider such measure necessary. In the present instance it may be inferred that the land has been required and accordingly resumed by Government for a revenue is about to be derived from it in Consequence of one Palangandy Monegar having engaged to take it up for cultivation. This therefore establishes the right of Government to the land in question.

Dindigul, 22nd April 1857.

(Signed) J. B. Cockerell
Joint Magistrate

(True Translation)
(Signed) R. G. Sullivan
Asst Collr

15945 Fort St. George, 12th October 1857.

Bd. No. 3436

Proceedings thereon. (481-82)

The Petitioner Mr. G. F. Fischer with his first address forwards a letter from his Gomastah at Palany to his manager, representing the Acting Sub-Collector to have given an order to level all the Salt-petre Kuttoos in the Balasamoodrum Village and that the manufacturers, if they wish should form other Kuttoos or Perumpoke land, since the Circar derived no profit from the manufacturers.-

2. A subsequent Petition No. 1802 of 1857 purports to give cover to the Acting Sub Collector's order but no enclosure seems to have been received with it.-

3. The order which the Board proceed to consider is that contained in the enclosure to the letters now recorded, which purports to be an endorsement passed on the Petition of Permaul Naick and others Manufacturers of Salt-petre and is dated the 23rd January last.-

4. It states that the Acting Joint Magistrate saw no reason to interfere in the matter of the complaint, and lays down the rule, that the extraction of Salt-petre from land gives no title to it when it is required for other purposes if it be held without authority and without payment of land tax - and that Government may resume it when they consider such a measure necessary - In the present instance - the endorsement adds - "it may be inferred that the land has been required & accordingly resumed by Government for a revenue is about to be derived from it in consequence of one Palany andy Mongar having engaged

to

to state it up for cultivation."

5. There is no allusion to an order having been given to level all the Salt petre Huttoos in the Balasamoodrum Village, and from the extract from an arzee from the Gomastah to Mess.rs Fischer and Co. given in the Extract Minutes Consultation under date the 14th July 1857 No. 701 Revenue Department, it seems that the real subject of complaint was the enclosure by a hedge of certain Salt-petre mounds by the abovementioned Palany-andy Monegarem.

Jul.os 25th Aug.t 1857

6. There are thus two points for consideration - the propriety of the general doctrine laid down - and the justice of the decision in the dispute between the Ooppillars and Palany andee Monegarem.

7. On the first the Board concur with the Acting Sub Collectors in opinion that the occupation of land for the manufacture of salt-petre without payment of land tax and without express permission is no bar to its resumption by Government. They do not think that if such land were required for Public purposes the unauthorized occupants could either maintain their possession or set up a valid claim for compensation.

8. But the Board differ from Mr. Cockerell in respect to his argument that the enclosure by Palany andee Manegarem, which seems to have been equally unauthorized, was tantamount to a resumption by Government although he was willing to pay tax for the land. It is not stated whether it belongs to the cultivable ayacut or Perompoke in the former case if it really contained Salt-petre mounds and was in the actual possession of the Ooppillars, the option of holding it on the fixed assessment should they think have been first given to the Ooppillars and the same course should have been pursued if the land was

Perumpoke

Perompoke, if it was thought proper to make it over to any one for their private use.

Encl.re
T. Madura
30th June & Cons.
25th Aug.t 1857

9. There is a difficulty however in passing definite orders in the case owing to the uncertainty as to whether or not the land taken by Palany andee Monegarem was occupied by the Ooppillars or not. in Mr. Cockerell's letter to the acting Collector under date the 25th June last it is stated that according to the report of the Tahsildar of Tyempully "no such encroachments as that complained "of had taken place, and that all Palany andy Monigar "had done was to take the earth from the low land "under his garden which was only 1 3/4/16 of a Gooley in "extent and had no connection with the Salt "petree Huttoos for the purpose of raising "a bank round that Garden." If this be correct, the decision as between the Individuals should stand, but as no personal enquiry had been made in the matter, the Board before forming their judgement resolve to direct that this shall be done and the result reported to them. At the same time it should be stated whether the land was arable or Perompoke.

10. Ordered that copy of these Proceedings be submitted to the Right Honorable the Governor in Council in compliance with the direction contained in Para 2. of Extract Minutes of Consultation of Government, under date the 14th July 1857, No. 701, Revenue Department.

Jul 25th Aug.t 57

To I D. Sim Esqre
Acting Secretary to the
Board of Revenue
Fort St. George.

(43)

Bd. No. 3846.
From the Collector of North arcot.

Sir,

Para 1. I have the honor to acknowledge the receipt of an Extract from the Proceedings of the Board of Revenue dated 29th June 1857. No. 2225 circulating Extract Minutes of Consultation dated 15th May 1857. No. 946 and requesting me to state specifically what class of Servants are charged with the distribution of water from Government Reservoirs in this District and whether it would be desirable to place them under the entire or partial control of the District Engineer and to specify the contributions which under existing rules are obtained from Enamdars towards the repair of tanks &c.

2. The distribution of water from the tanks and Channels in this District forms a part of the duty of the Irongars of the Villages in which the Tanks and

Channels

Fort St. George, 12th October 1857.

Channels are situated. They are assisted by the Mathoogoomoozoogies and the Neerenttiers or Cumboocuttiers who are remunerated by land which they hold as Inam. These Officers are hereditary. The duty of the Mathoogoomoozooglay is as his name implies to open the Sluices at the direction of the Irongar, and that of the Neercutty to turn off the water from the irrigating Channels to the fields. In some Villages where there are no Mathoogoo Inoozoogies the duty of opening the Sluices is performed by the Neercuttiers. In many Villages there are no Neercuttiers, and their duties are performed by the Totties.

3. The Servants charged with the distribution of water are in general revenue Servants having other important duties to perform in addition to those connected with irrigation. They could not therefore be conveniently placed under even the partial control of the District Engineer.

4. These observations applies only to those cases in which the distribution of waters

is

Fort St. George 12th October 1857

is not the sole duty of the Servants charged with its performance- Where Servants are entained for that purpose alone they have beeen already placed under the entire control of the District Engineer special irrigation Establishments have been provided for the Cauvery pauk and Doosy Vaumundoor Tanks, with their supplying Channels, and for the Cheyaur and Poinay Anicuts with their dependant channels over these Establishments the Collector has no control.-

5. With reference to the contributions obtained from Enandars, if the Enam be a Dasabundum tank or Channel, an estimate is framed for the requisite repairs by the Engineer's Department and the amount is paid either entirely by the Dasabundum Enandars, or partly by him and partly by Government according to the tenure of the Dasabundum most of these Enandars pay the whole expense- The required repairs are executed under the superintendence of the Officers of the Engineer Department- If the Tank

Fort St. George 12th October 1857

Tank or Channel belong to a Shotriem Village the cost of repair is borne partly by the Shrotriendar and partly by the Government, the former pays in proportion to the extent to which he is benefitted by the use of the water of the tank or Channel- The sundry small Enams under tanks &c. pay no contribution towards their repair- There does not appear to be any necessity for altering the rules in force on this subject in this District-

B. No. 3975
From the Coll.
of Coimbatore

Sir,

With reference to Extract from the Board's Proceedings dated 22d May 1856 No. 1566, I have the honor to forward copy of a Statement showing the progress of Public Works in this District during the Fusly 1265 or 1855/57 of irrigation and not of irrigation, furnished by the District Engineer the

465

result

result of those works is stated below shortly.

Irrigation Works.

2. Construction of a new Headsluice and other improvements to the Kalingo Royen channel will greatly benefit both the Ryot and Government, by better supply of water for the cultivation under it. The new permanent sluices sanctioned by Government on the 1st August 1854, will, when constructed, add much to the above advantage by regulating the flow of water from the Channel for irrigation where there is so much waste at present.

3. The excavation of the branch channel from the main Arackencottah Nullah, has been since completed, and the Poonjah lands under it have been given for cultivation on usual Cowle tenure the total amount of revenue that can be derived by the Circar from conversion of dry lands into wet, by the irrigation of the new Channel, will be about Rupees 540—"—" on a rough calculation.

4. A few of the new permanent sluices have been built on the Arackencottah

Channel but the Ryots seem a little dubious whether the arrangement will give them sufficient supply. I however hope that the change will by degrees prove both advantageous and acceptable to them.

5. The extension of Tadapully channel has not as yet been commenced the ordinary repairs to the works of irrigation have been executed on different sources of irrigation for preserving the old works. Its amount up to the date of transfer of the executive to the District Engineers or up to 30th November 1856, is Rupees 20,807-5-10 as detailed in the margin. No other important irrigation works have been executed during the year under report.

Roads and Bridges 6. The 5 works marginally

marginally indicated have been completed,

	Rs.
1 Construction of a Bridge at Yalaroomapullum	8,000
1 Altering the Trichinopoly Road near Malempollium	2,230
1 Construction of a bridge near Avenashy	3,169
2 Cairoor & Coimbatore Moonsiffs Courts	3,141

during the year under review with the exception of Yalaroomapullum bridge, which is nearly finished. this dangerous stream crosses the road from Coimbatore to Mysore. People and carts were often detained on both sides for a day or more during the time of freshes. The construction of the large bridge one it, adds therefore much to the convenience of travellers. &c. in that important Road.

7. The Malliempollium new road lately completed leads from Errode to Trichinopoly. It is a much straighter line, by the present alteration, than the old circuitous one. the road affords convenience for the passage of bandy traffic during the monsoon in as much as it goes over Poonjah lands, and is therefore free of mud instead of wet land as before.

8. The want of a bridge over the Jungle stream which crosses the Trunk Road No. 5 near Avenashy, was much felt the present bridge is a great conve-

-nience

-nience. The 2 Moonsiffs Courts one at Coimbatore, and the other at Cairoor, have been nearly completed, and will be brought into use in a few days. The buildings are convenient ones, and afford sufficient space for the Moonsiffs Cutcherry &c.

9 All other works in the list will greatly tend to the benefit of the community and Government when fully completed. there are no other main works of non-irrigation executed in the official year 1856/57.

10 Certain extensive works already sanctioned but not yet commenced upon such as bridge over Amraouttij River near Cairoor, are of an important nature, and therefore render their early execution advisable.

	Rs.
1 Construction of a bridge over Amraouttij River	63,850
1 Do. do. Do. on the Road to Melapollium	62,40
7 Do. 7 Do. on the Road from Melapollium to Trichinopoly	11500
1 Do. 8 Do. from Sultanmungalam to Bennary	21,600
1 Repairing Road from Collegal to Hassanore	8500

Constructing 2 Bridges on the road from Coimbatore to Metapolliem	6240	None	None		3000 Rupees were allowed for the latter half of the year, but no Superintendence could be spared.
Makeepolliem 1100 and from Polachee to Dharapooram 2,000.	3,100	3,100	3,100	Completed 33 miles of road, repaired and drained	

Fort St. George 12th October 1857.

channel but the Ryots seem a little dubious whether the arrangement will give them sufficient supply. I however hope that the change will by degrees prove both advantageous and acceptable to them.

5. The extension of Tatapully channel has not as yet been commenced the ordinary repairs to the works of irrigation have been executed on different sources of irrigation for preserving the old works. Its amount up to the date of transfer of the executive to the District Engineers or up to 30th November 1856, is Rupees 20,807-5-10 as detailed in the margin. No other important irrigation works have been executed during the year under report.

Constructing out offices to Oodoomulcottah Travellers Bangalow	360	None	None			
Constructing European Infantry Barracks at the Neelgherries with the subsidiary works	140,624	3,14,469	64,741	Permanent Hospitals completed 1 Block for 2 Companies / Barracks nearly completed and three parts inhabited - 3 Blocks built up to level of upper floor and upper joists laid on staff 2nd Block 1 Block up to roof, married 2p's site excavated.		
Improving Civil Dispensary at Coonoor	2370	742	1291	Walls of new wards finished, and wood work of roof up.		Was stopped till July by order of 19th May 1856.

15958 Fort St. George 12th October 1857.

Improving the Hoozoor Cutcherry at Coimbatore	950	183	183	Materials prepared.	Was stopped by the order of 26th August, but delayed since in consequence of the Collector not being able to spare the room.
Constructing a porch and altering the roads leading to the Church at Ootacamund Rs. 1,680 D°. Supplies 920	2,600	2,779	3,156	Walls and arches and terrace completed, plastering remains to be done.	This work was delayed by want of time caused by an extreme mortality among the Bullocks used to carry it up the Ghauts.
Works not completed as expected up to 30th April 1856.					
Trace of a new line of road from Ootacamund to meet the rail near Sreemooy sanctioned 12th October 1855.	2,000	1,567	1,627	Trace 50 miles in length has been marked and approved by the consulting Engineer for railings awaits the decision of Government.	
Road from Ootacamund to Jackatalah sanctioned 3d September 1853, 6th October 1853, 19th October 1855.	34,478	35,698	36,284	Completed with the exception of a little blasting, about 6,6000 Cyds of rock blasted at 2½ Rupees per C yd. about 40,000 C yds of earth work in side cutting about 4,000 C yds of revetment &c, built about 9,000 C yds of earth removed from the Kaitee cut by water after being loosened completed greatest depth 75 ft. Total excavation about 120,000 C yds.	This road is about 4 miles in length and includes a very heavy cut of about 40 feet in depth some excessively high, revels and a great length of solid rock blasting, its object is to do away with the steep, and different Kaitee Ghaut the gradients are about 2½ miles at 1 in 40, and ½ miles at about 1 in 20.
Elk Hill cutting sanctioned 19th July 1853, 18th September 1855.	17,750	15,96	19,001		The object of this cost was to do away with the excessively steep approach to Ootacamund it includes also in the expenditure about ½ mile of new road and heavy bund across the valley forming a small artificial lake. This road forms a portion of the great line connecting Madura with Paulghaut the traffic is enormous.
Polachee and Ambravutty Road sanctioned 27th May 1853, and 5th February 1856.	40,909	27,28	40,068.	49 Miles of road completed and metalled, in the parts estimated for 10 bridges built and a number of road tunnels and a few road turned remain to be built.	
Road and Bridges on the road from Bennary to Mysore frontier sanctioned 30th June 1853.	9,543	None	None	None	Delayed by order of 19th May

15959

Fort St. George 12th October 1857.

Sadampollium Tank executed on emergency	1650	480	1365	Completed.	This Tank has burst thro its deepest part.
Record Room to Collectors Cutchery sanctioned 24th February 1855	1418	502	1536	Walls finished roof half finished.	
Coimbatore Post Office sanctioned 24th February 1855	300			Walls completed.	
2d Assistant Collectors Cutchery sanctioned 24th February 1855	405	692	800	Terrace being put on, Road has been opened, but several tunnels have to be built.	
Constructing road from Hafsanoor Ghaut to Velamoondy sanctioned 27th May 1853	6364	97	5401		This has been under the Collectors charge since the 1st December there has been no efficient superintendence to complete it.
Constructing a Chuttrum at Collegal sanctioned 3d January 1853	991	None	None	None	Delayed by order of 19th May 1856.
Constructing Chuttrum at Blowany sanctioned 16th November 1853	3156	11	2919	Completed	
Head Sluice to Caling aroyeny Channel sanctioned 1st August 1854	4571	2894	5717	The cut stone for this work has been laid down in the ground and materials are prepared.	There has been great delay about this work, the channel is only closed for 40 Days, in this year a temporary channel has been made to that the building might go on but whenever used a cry has been raised by the Revenue subordinates for want of water, and at the request of the Collector the work has been stopped again.
Constructing a new road between Melarumpollium and Noyel river, on the Trichinopoly road sanctioned 27th May 1857	2236	1308	2236	Completed.	
Constructing a Bridge of 1 Arch and a Drain across the Poodoorcurray pullum sanctioned 15th Dec. 1853	1273	295	1061	Completed.	
Constructing 2 Bridges over the Oodapullum, and the other over the Chintamony Pullum sanctioned 19th December 1854	1131	570	705	Completed.	
Moonsiffs Court at Carroor	1059	1016	1131	Completed.	
Bridge across the Jungle stream on the road from Avanashy to Karamuttumputty sanctioned 15th December 1857	3169	807	2357	3 arches 2 piers abutments and wings.	

15900 Fort St. George 12th October 1857.

Alteration in the Ootacamund Post Office sanctioned by Director General 29th November 1855.	600	350	600	Completed.	
Repair of Kullaur Bridge, supplemental sanctioned 3d June 1856.	1560	1560	1560	Do.	This supplemental Estimate was sanctioned to repair the effects of a storm which almost destroyed the Bridge when half rebuilt.
New Court house at Neilgherry sanctioned 28th February 1856.	4100	4100	4100	Do.	This was converting the former Jail into a Court houses.
Coonoor New Post Office, sanctioned 20th July 1856.	502	404	502	Do.	These are very inferior buildings, the allowance granted by the Director General not being sufficient for pukka buildings on the Hills.
Kotagherry Post Office sanctioned 20th July 1856.	502	404	502	Do.	

Constructing of a Piece of the Soogoor Bridge sanctioned 5th May, 1856.	560	560	560	Do.	This is a lattice bridge of 70 feet span the work done in an unhealthy place was very bad, and the compartment sunk so much that an additional pier had to be built.
Do. Agueduct to the Poogaloor Channel emergent	680	680	680	Do.	
Privys to the Dispensary at Ootacammund, emergent	100	100	100	Do.	
New trace into Malabar sanctioned 12th July 1856.	2000	2000	2000	About 18 miles out from Ootacammund are traced approved, about 12 miles on the Carcoor Ghaut are satisfactorily traced, also 7 miles up from the Pandy river the intermediate portion has to be traced.	
Accommodation Bridge at Coonoor, sanctioned 3rd June 1856.	1250	1050	1050	Trusses up platform have to be laid.	This work was delayed by a contractor it is intended to communicate between the principal portions of the Coonoor Village separated by a rapid stream.

15901 Fort St. George, 12th October 1857.

New trace to the foot of the Seegoor Ghaut sanctioned 1st December 1856.	200	200	200	Completed. This is almost a level trace between Seegoor and Pappacadoo, 10 miles to be instead of present road which has ascents and descents of 2,400 feet.	
Improving the Road Serjeants Building sanctioned 25th January 1856.	1100	1100	1100	Completed.	
Macadamizing cantonment roads at Ootacamund sanctioned 5th September 1856.	6500	7439	7439	About 2½ miles done out of the 6 estimated for, the data proved altogether insufficient.	These roads form the great traffic lines thro' the Cantonment from Seegoor to Jackatallah during the monsoon they are often for many weeks quite impassible for carts & the stores for the troops are delayed indefinitely.
D° road from Ootacamund to the head of Seegoor Ghaut sanctioned 22d October 1856	5750	3776	3776	The portions of the road which are not to be changed in direction almost finished.	

New channel from Chairing Cross to the Lake, 30th July 1856.	1050	1050	1050.	Completed.	This channel drains the Swamp it passes thro' and lowers the water several feet which used to stand in several compounds it has reclaimed a good deal of land which is held in small tolls by Government.
Improving Kothutty Bungalow sanctioned 23d October 1856	3300	681	681	Delayed from want of line on account of the great mortality amongst the carriage cattle.	
Cutwals' Choultry at Jackatallah sanctioned 13th Novr 1856.	1500	None	None	None	
Ganapatha road Tunnel and 710 yards of new road sanctioned 28th April 1856.	425	317	317	This road has been cut, and the Tunnel is being built.	
Improving Moonsiff's Court at Cheyoor	570	300	300	The walls have been built.	Delayed by a change of Executive Officers and want of superintendence.
Repairing Lungamoor Nullah emergent	4100	4100	4100	Completed.	

15902

Fort St. George 12th October 1857

Repairing Moosafirkhanna at Coimbatore, 27th September 1856.	150	136	136	Completed
Improving Chuttrums at Walliar, sanctioned 1st December 1856	500	295	295	Materials only collected and old walls pulled down.
Price of Captain Ludlow's house to convert into District Engineers Office sanctioned 11th October 1856	1000	1000	1000	
Repairing road from Polachee to Meengarny sanctioned 20th May 1856	900	900	900	Completed
Price of a house for Soldiers' shed at Coonoor and for its repairs sanctioned 11th August 1856	580	513	513	The sum of 300 Rs has been paid for the building, the remainder is for alterations which are nearly completed.
Repairing Police Chavady at Coonoor, sanctioned 27th September 1856.	130	88	88	Completed
Valantavalom Bridge	5,140	2,000	2,000	Two abutments and 2 piers built, materials collected for the arches.	The Cochin Circar pay half of this Bridge, this was transferred to my District from the Malabar, budget.
Topes and Avenues 31st July 1856.	4,500	"	2821.

Fort Saint George 15th October 1857.

Resolved that the following letters be despatched.

To,

468

Bd. No. 3114

To the A.g. Secy. to Government

Reporting on the Settlement of the Land and other Revenue of the Madras Presidency for Fasly 1263 A.D. 1855/56

The Acting Secretary to Government.

Revenue Department.

Sir,

I am directed by the Board of Revenue to submit the accompanying Statements of the Revenues of this Presidency from land and other sources for Fasly 1263 1855/56 or from July 1st 1855 to July 1st 1856. The distinction between the Districts under the Board and those under the Commissioner for the Northern Circars has ceased in consequence of the discontinuance of that commission at the end of June 1856 and this report embraces all the Districts of the Madras Presidency. The Statements from the several Collectors are drawn up according to the new forms circulated on the 23d of August 1856.

2. The names of the Districts with the number of Talooks in each, are given below. The names of the Officers in charge and of the Head Sirishtadars added as in last year.

Statement

Fort St. George 13th October 1857.

The

Fort Saint George 13th October 1857.

3 The rains of the South West monsoon were scanty generally. The River freshes were also affected by this cause. The North East monsoon varied. In some Districts as in the Northern Circars, Nellore and the Central Districts, it was favorable, while in the Southern Districts the rain which fell during this period was rather scanty. Still the season was not altogether unfavorable. The Dry Crops yielded a fair return on the whole. The want of rain was chiefly felt in irrigated lands though such as draw their supplies of waters by means of anicuts formed an exception. The condition both of the Revenue and of the people, where irrigation is thus supplied with certainty so far as human arrangements can ensure such a result, forms as usual a striking contrast (as will be seen in the course of this review) with that which is presented where the same favorable circumstances do not exist.

4. In the five Districts composing the Northern Circars the out-turn of the Dry Crops with the exception of the Somma in certain parts of Rajahmundry (which was injured by excessive

rain

x Ganjam
Vizagapatam
Rajahmundry
Masulipatam
Guntoor

Fort Saint George 15th October 1857

rain in the month of October) was favorable to Junlows however the season was suited to the Summer Crops which, though affected by the want of rain in August, recovered afterwards and yielded a good return - The Wet lands generally in the Northern Circars were less productive - In Ganjam the rains, which had been abundant before, failed at a critical time, when the Crops were in an advanced state of maturity. In Vizagapatam, (in the South Western parts of the District where the Government Villages are situated) the early rains were scanty while heavy falls took place late in October. The deficiency of the early rain in this District led to a contraction of the cultivation as well as a loss of produce, but the season, from the copious rains of the North East Monsoon was on the whole prosperous - In the Districts of Rajahmundry, Masulipatam and Guntoor, the cultivation of lands under tanks and River Channels, not possessing the

continuous

Fort Saint George 15th October 1857

Report on the Settlement Para 3

continuous supply of water which an anicut secures, was deficient - For many years, the Collector of Rajahmundry observes, there has not been a season in which the failure of the Godavery was so marked - One fresh only, desiring the name, occurred at the latter end of August, - In like manner there was a want of water in the Sheetnah causing an entire failure of supply so far as regards those

Ag. Collector of Masulipatam's Report Para 3 -

Channels which are not connected with the Anni-cut - It was far otherwise where the two anicuts regulated the supply - Thus in the Delta Taloks of Rajahmundry the Wet cultivation was carried on to the full extent of the water available and followed by good Crops - There was a partial failure of the harvest in Nundapoor a Delta Talook of Rajahmundry, from want of seasonable rains and the loss would have been much greater had not anicut water been made use of, for the first time to any extent in this Talook - The benefit of the Sheetnah anni-cut was experienced in a marked man-

ner

manner in the Goodwodah Tslook in Masulipatam, where large remissions would have been necessary this year, but for the supply of water placed at the command of the ryots by this work. As it was the Kisteum was punctually realized and the ryots reaped an abundant harvest, the value of which was much increased by the enhanced prices which prevailed. The Acting Collector of Guntoor also notices the marked advantage of the irrigation being uninterruptedly sustained by the head of water at the Annicut across the Kistnah at Bezwada. In the Western Talooks of that District the rains did not afford a timely and sufficient supply generally to the Tanks In like manner the numerous Tanks in Repully one of the Talooks of Guntoor bordering on the Kistnah and supplied by means of shallow channels from that river were left half dry through the freshes not having

From Ag. Coll.r Para 7

having risen high enough to enter them. On the other hand within the influence of the Kistnah Annicut the supply of water was timely and abundant. With a trifling exception the Annicut water has not been led to any new tract of cultivation in Guntoor; its operations hitherto have been confined to securing a larger and more certain supply to existing works. These are the old Poongatundra and the Commamoor branch channels which are now very efficient.

5. The main features above described are more or less applicable to the Central and Southern Districts. In all the early or S. W. monsoon was scanty, but ample falls of rain occurred in Nellore, and the central Districts during the N. E. monsoon, and saved the ryots from heavy losses to which they would have been otherwise exposed. In Chingleput, South Arcot, Tanjore, Trichinopoly Tinnevelly, and Coimbatore, the N. E. rains were either late or more

or

or less failed The crops
in the Southern Districts as in the North-
-ern were deficient. Those[a] of the Cole-
-roon and Cauvery were late and
unusually low throughout the year.

The Vegay[b] in Madura received no water
in the early months when it was
most needed, and only a low freek in August.

[b] Do of Madura Para 7.

The Tambraparny in Tinnevelly[c]
was unable to furnish a supply to the dis-
-tant Tanks in the Talooks of Shreevygoon-
-tum and Pinchamal and so scanty was
the quantity of water in this River
from August to October that a portion
of the Crops dependant upon it could
not be brought to maturity Similar

[c] From Collector Papra 3.

failures

failures occurred in Coimbatore, the
irrigation of which is drawn from the
Cauvery the Bawany the Noyel and
other minor Streames.

6. The rains in Canara,
though much below the average quan-
-tity were seasonable. In some places the
rice Crops suffered, but on the whole
the harvest in this District was
more abundant than in the previ-
-ous year. Malabar was not so fort-
-unate. The first Crop was by no means
an abundant one and the second,
which is reaped in January, and
February suffered severely
in some parts of the District.

7

The Statement entered in the Margin shews the quantity of Rain reported to have fallen in the Fasly under report in each District, but the Board have great doubts if the Gauges are properly attended to, especially in Vizagapatam and Salem. The fall of rain, as reported in Malabar and Canara, is much below what is supposed to be the average of the Western Coast.

Sanitary Condition of Presidency.

8. Fever is particularly mentioned by the Collectors of Madura and Canara, as having been prevalent, and Small pox by the Collector of Malabar. This Offi-

cer

Fort Saint George 13th October 1857.

Officer deputed his own Dresser specially to do what he could in alleviating Suffering in the Talook of Coonmenaad where the disease was chiefly raging. In Dindandy, the Chief town of Coonmenaad, the deaths from Small Pox at one time were from 10 to 15 per week. With these exceptions the Sanitary condition of the country generally was favorable, presenting little difference from ordinary years.

From Collr Para 7

Prices

9. Prices, though in some Districts slightly below those of the preceding year, shewed little disposition to recede from the high standard they have preserved during the last two years. In the Northern Circars the price of Paddy maintained its ground, partly apparently from there being little of this description of grain in store and partly from an unabated demand for it in the markets

of

Fort Saint George 12th October 1857

of Europe - The prices of Ponna and Horse Graw fell in consequence of an abundant Harvest, in both these kinds of Grain, arising in the former case from the dryness of the season during the early months and in the latter from the favorable rains of the North East Monsoon.

10. As regards the other Districts, the price of Horse Graw fell considerably every where, but other descriptions of produce for the most part bore higher rates than in the preceding year. The current prices having been so much higher than when the assessments generally were originally fixed, were highly remunerative, and enabled all to discharge their rents with ease notwithstanding short produce in some cases as noticed above the more substantial Land holders profited largely - The enhanced prices, which have prevailed of late, might have been expected to give way in South Arcot where so much fresh land has been occupied in

Fort Saint George 12th October 1857.

in consequence of reductions in the assessment, but it was otherwise and Mr Hall the Collector is of opinion that the demand for all sorts of produce is so far from being satisfied, that increased production, other things remaining the same, is not likely to effect prices for some years to come -

11. In Canara the prices of grain were higher than at any time during the past 30 years - This is attributed by the Collector to the circumstances of the supplies usually brought into the District from above the Ghauts, having been taken to places where there was scarcity, and to the produce of Canara having been exported to Malabar, where the crops had

had failed in some degree. All Garden products, including cocoanuts were in increased demand and obtained enhanced rates. The price of cocoanuts was influenced by the demand for the oil of this

nut in Europe. Betelnut, Pepper, and Cardamoms stood high.—

13 In Malabar the wholesale price of Rice was about 10 per cent above the high rate of the preceding year and 48 per cent above the average of the five previous years. With a comparatively short harvest Malabar was also subjected to the obstruction of a considerable quantity of its Home produce from the Western part of the District to fill up the

the vacuum occasioned by the scarcity in Coimbatore and Cochin, but prices were regulated in its Bazaars by very large importations of rice from Canara, and Bombay, chiefly from the former place.— The trade was almost entirely in the hands of Native Merchants who are represented as keenly alive to the state of the demand and supply in the several localities within the sphere of their operations.— The price of Cocoanuts in Malabar was also very high, during the season in consequence of an unfavorable character of the season as from a brisk foreign demand for Cocoanut Oil.—

13 Statement No 2 accompanying shews the average wholesale prices of grain in the several Districts for Fasly $\frac{1265}{1855/56}$ Statement No 2 A exhibits in like detail the retail prices.— The

following

Extent of land under occupation — 14.

The practice of taking formal engagements

engagements from the Ryots at the commencement of the season as to the extent of land to be occupied in the ensuing year, or the "Pattum" as it was termed, has as the Government are aware been discontinued — These formal engagements, apart from the evils attending the system such as forced occupation of land, and occupation of unprofitable land to be afterwards deducted at the settlement have been found to be altogether unnecessary — The extent of land occupied during the preceding year, with deductions for land relinquished and additions for such land as may be newly taken up, forms the bases on which the current settlement is made — Thus the extent of land in occupation in the year under Report, exclusive of Canara, Malabar and Madras,

in

Note — The details for each District are shown in Statement No 3.

15981

Fort Saint George 12th October 1857

in which the extent of land is not entered was 12,205,313 acres assessed at Rs. 304,04,710 With the three excepted Districts the assessment amounted to Rupees 343,94,218 The particulars, shewing the relinquishments of land and the additional land newly occupied, are as follows:-

	Acres	Rupees
Land in occupation in the preceding year	121,82,614	291,46,408
(Deduct		
Land given up	9,01,407	16,45,312

Assessment of Waste charged		8,96,850
Add		
Land assessment of Canara		22,76,593
Do of Malabar		16,48,438
Do of Madras		70,471
Total		343,94,218

15 At first sight it would appear that there has been a great relinquishment of land

15982

Fort St George 12th October 1857

this year such however is not really the case, as much of what may have been given up at the commencement of the season, and thus brought under entry is occupied afterwards if the season, as it advances, becomes more favorable and is then entered as land taken up- This was experienced in a considerable degree in the present year- again a large extent of land was given up that it might lie fallow for a time, but such relinquishment is in a great degree made up by applicants for land in other parts of the Villages These two causes, viz: doubtful prospects of the season at its commencement and the necessity of fallows will always affect this item of "relinquishment"- Again in Bellary the old practice of allowing Ryots to retain land which they did not intend to cultivate and the Assessment of which it was customary subsequently to remit at the annual settlement, was this year abolished to some extent and the Ryots were

Fort St. George 12th October 1857

were informed that they would be held liable for the assessment of all land actually occupied.

This accounts partly for the entry under the head of Land relinquished.

16. The value of fresh lands occupied was very considerable, amounting to about 35 lacs of Rs. This was produced in part by the two first causes mentioned in the preceding para, but the main increase is to be traced to the improved condition of the agricultural resources of the Country particularly in those Districts where pressure from excessive assessment has been lately relieved by special reductions of assessment—North Arcot, South Arcot and Trichinopoly are particularly instances of the result of this policy. The extent and assessment of new lands taken up in each of these Districts are shewn in the margin—The Collector of North

Statement No 3

	Lands newly occupied Extent acres	Assessment Rupees
North Arcot	98,768	3,44,330
South Arcot	2,31,018	6,43,326
Trichinopoly	80,153	2,24,338

Fort St. George 12th October 1857

North Arcot notices the subject only briefly—The Collector of South Arcot draws attention particularly to it as highly satisfactory, and observes that this extention of Cultivation is mainly to be attributed to the liberal reduction which was made in the rates of assessment in Fasly 1264—1854/55. In this District the cultivation of irrigated lands has risen from 25 to 35 per Cent of the cultivable area—In lands that are irrigated the increase is also very considerable while in lands yielding 2 Crops of rice where the annual extent cultivated prior to the reduction of Assessment, was 13223 acres on an average—the extent was 25315 acres in the year under report—The Collector of Trichinopoly also notices the increase as highly encouraging particularly when it is considered that the early part of the season was unfavorable.

17. The assessment of the actual cultivation of all the districts amounting as stated in para 14 to 34,94,218 Rs includes also Rupees 8,90,850 on account of

Fort St. George 12th October 1857

of waste land charged in the Ryots Puttahs—This item appears large, but it embraces the waste lands in Masulipatam and Rajahmundry where joint rents prevail the entire waste being included in these rents.

18. The particulars of the cultivation in the several Ryotwar Districts are exhibited in statement No 4—as this system has peculiarities in Tanjore, Tinnevelly, Canara, and S. Madras—three separate enclosures to that statement are forwarded explanatory of the details of the settlement in these four Districts. The peculiar feature of the settlement in Tanjore, at least in those Villages where the field assessment is not observed, and in Tinnevelly is the adjustment of the Demand on the Ryot in each year with reference to current prices. A standard price as it is termed and a standard grain assessment were fixed some years ago, but the actual demand in each year is regulated with reference to the average of the prices that

No 4 A
" B
" C

Fort St. George 12th October 1857

may prevail during the year, the grain assessment remaining invariable—This in these two Districts, owing to the land in occupation during the season under report, the excess in price amounted to Rupees 1,35,436 according to the rules of the settlement, 10 per cent of this sum or Rupees 2,45,207 is struck off and the remainder or Rupees 14,19,228 is collected from the Ryots—In Canara the extent of land in the occupation of the several land holders, is not recorded in the Revenue accounts—Each holder of land pays to Government a consolidated sum for the aggregate land in his holding which is composed of distinct isolated plots situated either in different parts of the same Village or in several Villages—

No 4 A

The peculiar features of the system in this District as well as of that observed in Tanjore and Tinnevelly were explained in the Proceedings of the Board reporting on the settlement of the Land Revenue for Fasly $\frac{1262}{1852/53}$—The Land Revenue in

17th August 1854 No 1710 Paras 7 & 9 and 32.

the

Fort St George 12th October 1857

the Collectorate of Madras, as shewn in A. & C, consists for the most part of gurt rent and does not call for special remark.

19- The general result of the settlement of the Land Revenue exhibits an increase of Rupees 12,15,731 above the preceding year as explained in the following tabular statement.

Statement No. 5

	Fusly 1266 Extent Acres	Assessment Rupees	Increase or Decrease Acres	Assessment Rupees
Unirrigated	94,77,455	12,38,630	+ 180,167	+ 6,77,210

Remainder		29,51,328		+ 13,97 67
Add Sundry items		17,759		- 18,023
Total		31,29,087		+ 12,97,34

Fort St George 12 October 1857

20- Referring to the foregoing table it will be seen that the net increase of Revenue on the Cultivation, before Remissions and Sundry items are considered, was Rupees 17,37,739 which is composed of a gross increase of Rupees 20,51,633 in 16 Districts and a gross decrease of Rupees 3,13,910 in 5 Districts—the decrease occurs almost entirely in Bellary and is nominal, arising from the circumstances stated in the latter part of Para 15 on the actual cultivation—it appears from Para 14 of the Collector's report that there is an increase of Rupees 11,502.

Decrease Bellary—2,74,827

The Districts in which the increase has been considerable are Nellore, North Arcot, South Arcot, Tanjore, Trichinopoly, Tinnevelly, and Salem—In Tanjore and Trichinopoly the increase of Land Revenue arises from enhanced prices of grain as already shewn. In the other Districts as mentioned it is for the most part

	Increase
Nellore	1,92,201
North Arcot	1,88,783
South Arcot	5,36,695
Tanjore	3,65,565
Trichinopoly	1,16,046
Tinnevelly	4,15,674
Salem	12,377

the

Fort St. George 12th October 1857.

the result of the stimulus imparted by reductions of the Assessment - thus fulfilling as already observed, the expectations entertained of increased land revenue with a mitigation of the assessment, though the concurrence of high prices has no doubt contributed to this result.

Remissions

21. In the abstract table above the "Remissions" are entered at Rupees 4,81,690, but this sum does not include the Poollay or tax on cattle in Guntoor which, under the orders of Government, has been finally struck off with this item added the Remissions during the year amounted to Rupees 49,33,329 as shewn in statement No. 7 and consist of.

Extract Mss of Cons 18th July 57 No. 747 R.D. Supt 23rd July 1857

Statement No. 7.

	July 1256	Increase or Decrease Compared with July 1264
Occasional Remissions	21,31,428	+ 2,49,451
Fixed Do.	23,33,282	+ 2,15,287
Payments to certain individuals at the Settlement	74,619	+ 4,972
	49,33,329	+ 5,03,710

Fort St. George 12th October 1857.

22. The occasional remissions were large owing to the unfavorable character of the season for irrigated lands generally. Portions of fields not cultivated, and the assessment of second Crops not grown, are included in this class of remissions, but the principal items requiring notice in this place are the usual remissions given for withered crops and a special relaxation of the ordinary assessment in Tinnevelly, found necessary under the circumstances of the season. The power amounted to Rupees 4,85,660, exceeding the amounts granted in the preceding year by nearly two lacs of Rupees. The Districts in which this increase chiefly occurred are noted in the margin.

Statement No. 8.

	Increase Rs.
Chingleput	76,317
Tanjore	71,234
Trichinopoly	19,107
Madura	11,370
Tinnevelly	121422
Malabar	22,840.

In Chingleput, Tanjore, and Tinnevelly, the remission was principally given for Crops partially or totally withered. In the first mentioned District the total sum struck off for withered Crops was Rupees 1,21,453.

In

Fort St. George 12th October 1857

In Tinnevelly the remission on this account amounted to Rupees 13,82,32, but a further reduction of Rupees 2,13,730 was allowed in this District on account of land cultivated towards the latter end of the season when to prevent a scarcity it was deemed expedient to provide an extraordinary stimulus to protection special indulgence was accordingly offered in the form of a remission of 3/4 of the ordinary assessment of irrigated and 1/2 of that of unirrigated land for all land that might be cultivated after the promulgation of the order. A similar indulgence had been given in the preceding year, but it was then restricted to two Taluks only in which adversity of season was chiefly felt. The effect of this inducement in the year under report was to bring under cultivation 85361 acres of land which would have ordinarily borne an assessment of Rupees 2,97,559 of which Rupees 83,829 were collected and

Fort St. George 12th October 1857

and the remainder, or Rupees 2,13,730 remitted. The sum collected would have been lost to the Revenue and the produce to the people, but for the Special remissions which have been stated.

23. The fixed Remissions, as the Government are aware, are chiefly permanent reductions of the original assessment in certain Districts. The reduction is made at fixed percentages, and the amount struck off fluctuates with the extent of land cultivated. Thus in North Arcot, owing to increased cultivation, there is an increase of Rupees 30,040 in the total amount reduced, and this mode of adjustment will continue till the revision of the Assessment now in progress in this and some other Districts, shall be completed. This Class of remissions was further augmented in the year under report by the inclusion of the permanent reductions which followed the revisions of the assessment in several districts where the old rates

	Rupees
Salem	56038
Nellore	65921
Cuddapah	3211
Coimbatore	15057
Trichinopoly & Dry Taluks	35120

sales were found to be burdensome and to have the effect of keeping good lands ant of cultivation.-

24 The third class of deductions, Viz^t. those which are ordinarily made at the annual settlement in payment of allowances to Village Servants and others, call for a passing remark only. The increase of Rupees 46,972 under this head is almost entirely on account of the payments to Village Servants whose salaries are adjusted by a percentage on the amount of settlement. So that with an increase in the Revenue of the year there is also an increased disbursement on this account.

Statement N^o. 9.

25. Besides the extensive occupation of fresh land in South Arcot already noticed the Values of land hitherto waste, but newly taken up on Cowle or progressive payments, was in the year under report Rupees 11,270. This item occurs largely in Coimbatore and Salem but

Coimbatore Rupees 2,384
Salem 4,914.

but the cause is not distinctly explained by the local authorities. Statement N^o. 9 A has been prepared to exhibit this item in the Wurgs or Estates in Canara and a further statement N^o. 9 B shews the Estates in the same District in which the full amount of assessment on the entire Estate is payable only after stated periods. At the commencement of the year the number of Estates last mentioned was 118. Five Estates were added during the year, but 28 having reverted to full assessment and 6 having been struck out of this class in consequence of their having been relinquished by their owners. the total number of Estates of this description at the close of the year of report was 86.-

Statement N^o. 10.

26. The "Sundry items" of Revenue, such as quit rent on Enams, Tax on Palmyra Trees, Poollary or Pasture Tax, &c. amount to Rupees 1,17,059. Statement N^o. 10 exhibits the particulars in comparison with the preceding year

year. The item Inst rent is swelled in consequence of the imposition of a water cess in certain Agrahar-rums in Rajahmundry which received water from the annicut in Channels while on the other hand there is a considerable decrease under the head of Pasture Tax owing to two thirds of the demand on this account in Guntoor having been struck off under the orders of Government already noticed. It was the wish of Government that the proceeds of timber sales in Canara the Amamalays and other places should be brought under this head from that of Extra Revenue. This has not been fully attended to in the years under report. The Collectors of Coimbatore and Canara notice the omissions and state that the orders on the subject will be carried into effect next year.

Statement No. II.

27. In the cultivation of sugar cane there is a small net

net decrease below last year though in the gross there is a decrease of 1512 acres in Cuddapah. This and the decrease in land occupied for Cotton which occurs in most Districts, are owing to the unfavorable character of the season. In the cultivation of Indigo there is a decrease of 1883 acres in Cuddapah while in North and South Arcot there is a considerable increase amounting to 13212 and 31018 acres respectively. These fluctuations are ascribed primarily to the character of the season, but the Collector of Cuddapah further states that a preference was given to the cultivation of corals partly as affording fodder for Cattle and partly in consequence of the higher prices obtained for Grain.

	Inch 1265	Increase or Decrease
	acres	
Sugar Cane	36987	- 220
Cotton	7,97,504	- 79,705
Indigo	199771	+ 29040.

General Result

28. The general result is an increase of Rupees 12,44,045.

in

Fort St George 12th October 1857

in the "Land Revenue" above the preceding year, Considering the character of the Season and the large sums given up during the year in the shape of permanent reductions of the land assessment this result will be considered very satisfactory, Compled as it is (as shewn in the review contained in the foregoing paras) with a healthy and buoyant condition of the agricultural resources of the Country. Two causes, it will have been seen, have mainly contributed to this favorable state of things, viz. the assessment in those instances where it was found to be burdensome and the high

D.

Fort St George 12th October 1857.

high prices obtained for all descriptions of agricultural produce - In the "Sundry Sources of Revenue" there is also an increase of upwards of 7 Lacs of Rupees.

29 Thus the total increase from all sources above the preceding year amounts to Rupees 20,55,747 - The actual Revenue of the year from all sources was Rupees 4,83,92,775 which on reference to the Marginal table will be found to be higher than any of its predecessors during the last 12 years.

Fusles	Land and Sundry Sources of Revenue	Sewai Jamkah including interest account		Total

Land Revenue

Sundry sources of Revenue

31 The decrease under the head of permanently settled Villages arises from the reversion to Government by purchase of the small estate of Bra manachaye in Ganjam of the Moolahs of Mathoor and Mettapolam in Chingleput and by escheat of eracheekanaikanoor in Madura - A small reduction was also made in the Peshcush of Wallair in Vizagapatam as compensation for the resumption of the Moturpha previously collected by the Proprietor.

32 The increase in the Ryotwar Districts has been fully explained already

Abkarry 33 The increase in the Abkarry Revenue occurs chiefly in the Districts of Rajahmundry South Arcot Tinnevelly and Madras and is partly owing to Competition at the Commencement of a new term of rent - In Madras the increase is as much as Rupees 39204 and is ascribed by the Collector in part to the

Consumption

Consumption of Arrack instead of Brandy (which is not included in the abkarry) by the poorer classes of Europeans and East Indians in Consequence of the high price of the latter article.

Motunpha 34 The decrease in the Motunpha is partly owing to the remission of the tax on Sheep and Goats in Guntoor in accordance with the orders of Government dated 18th July 1856 and partly to a failing off in Bellary and Coimbatore in consequence of the trying character of the season

Salt

Statement No 14
do 14 A
do 14 B

35 The increase of Rupees 370839 in the Revenue from salt is the result of a gross increase of Rupees 518981 and a gross decrease of Rupees 148340 - There is an increase under each Head Viz Home sales, Inland sales and exportation by sea. The increase occurs chiefly in Nellore South Arcot, Tanjore, Canara Malabar and Madras and the Decrease in Vizagapatam Guntoor and Chingleput - Both arise from ordinary fluctuations of Trade. The falling off

Increase	Rs
Nellore	108785
S. Arcot	63972
Tanjore	50348
Canara	57149
Malabar	86936
Madras	56840

Decrease	
Vizagapatam	28350
Guntoor	84614
Chingleput	22479

off in Vizagapatam was also partly owing to a deficiency of stock on hand. In Malabar the Collector is further inclined to attribute the increase to the knowledge that changes in the price of salt were about to take place in that District and that the import Trade of salt would be abandoned by Government the supply being furnished in future by local manufacture about to be newly revived and importation of the article by means of private enterprize. The increase in Madras arises almost entirely from sales for exportation by sea.

36 The actual sales under each Head with the increase above the preceding year are shewn in the following table.

	Fasly 1263 Sales	Increase
	Rs	Rs
Home Consumption	2493973	202478
Inland Do.	2823881	174508
Exportation by sea	1190127	208031
Sold to the French Government	57872	12914
	6565853	597929

The

Indian Mds
To Calcutta 881180
Chittagong 286477
Penang 22470
1190127

37 The quantity sold for exportation by sea was 1190127 Indian Maunds of which 960653 Indian Maunds were exported on Government Indent and 429474 Indian Maunds on private Trade.

38 The quantity of salt on hand at the beginning of the year, the quantity received during its progress and generally the salt transactions of the year are as follows:-

I. Maunds

On hand at the Commencement of Fusly 1265-		929962
Manufactured and purchased during the year		628263
		1558185
Sales	656853	
Wastage	76300	
		733153
On hand at the close of the year		825032

39 The Wastage appears large but of the entire quantity 192851 Indian Maunds only are properly wastage the remainder or 567649 is a nominal Loss being the difference between 400 and 424 Maunds the latter having

From Govt 12 in Cons 31st July 1838 AR 120 / C.O. 7th September 1855

having been constituted the equivalent of 120 Indian Maunds in the sales of salt since October 1855 under the orders noted in the Margin.

Sea Customs 40 The net increase in the Sea Customs is to be mainly ascribed to increased Shipments of Rice and oil seeds to Europe. In Canara there was a falling off in the export of Rice to Arabia owing to the high price this article bore and a diminution in the import of Goa salt as the duty had been raised from Annas 12 to Annas 14 per Indian Maund altogether the decrease in the Revenue from Sea Customs in Canara Amounted to Rupees 32701.

Frontier Customs 41 The duties on goods crossing the Nizam's Frontier having been abolished there is a decrease under the head of Frontier Customs in Masulipatam Guntoor Bellary and Kurnool as shewn in the Margin In the importation of Goa salt by the land Frontier into Canara there was also a falling off the traders having found more profitable employment in the conveyance

	Rs
Masulipatam	1554
Guntoor	121
Bellary	334
Kurnool	338

of

Fort St George 12th October 1857

of Grain The increase in the Net Revenue is owing partly to increased export of Paddy from Tinnevelly to Travancore and partly to an increase in the trade between South Arcot and the French Settlement of Pondicherry the principal article of increase was Indigo for which there was a great demand in Pondicherry where it is used extensively in dying. It appears that much of the Indigo was brought from Cuddapah its superior quality enabling it to compete with that produced in South Arcot notwithstanding the long land carriage to which it is exposed

Stamps

42. The increase in the Revenue from Stamps is attributed to an extension of Business in the Courts The increase in the District of Malabar alone was as much as Rupees 25705.-

Extra Revenue or Savoy Jumma

43 This head of Revenue was augmented in the year under review from its including (as a temporary arrangement only till made over to the parties) the land assessment as the emoluments of offices for the village Talians in South Arcot from a large sum having been realized as the sale proceeds of the Government Topes any right in certain cocheated gardens and lands in Malabar formerly belonging to the Betutnaad Rajah from penalties on account of Stamp papers and from the sale proceeds of timber in the Government Forests in Canara

Interest

44 The decrease under the head of interest on arrears of Revenue is owing to the circumstance of an unusually large amount of arrears of interest having been realized in the previous year from the Vizagapore Zemindary in Rajahmundry

Fort St George 12th October 1857.

45 Statement No 16 is intended to show the average assessment per acre of the different descriptions of land in each of the Field assessed Districts - the permanent remissions, including those recently given in South Arcot, having been previously deducted in conformity with the instructions of Government Contained in Extract Minutes Consultations 11th March 1856 - The Requisition from the Board on this subject to the several Collectors has not been fully attended to, but it is believed that the present Returns of the rates per acre will not be found far from the truth - the average Rates,

Unirrigated 1-3-6 per acre
Irrigated — 6-3-4 — "
Garden — 4-1 — " — "

taking all the districts together, are shewn in the Margin the average rate in each District is exhibited in the following table.

Current Demand Collection and Balance Statement No. 17.

46. Of the entire Current demand from all Sources amounting to Rupees 4,83,92,775 the sum of Rupees 4,35,41,098 were Collected within the Fasly. leaving an outstanding balance of Rupees 48,51,677 at its close - This was reduced to Rupees 7,1,930 at the end of January 1857 and is Composed of -

	Rs
Land Revenue	6,64,045
Sundry Sources of Revenue	32,107
Exctra Revenue (Sayer Income)	15,778

47. The balance appertaining to the Land Revenue Consists of Rupees 71,206 Peishcush and Rupees 5,92,839 Ryotwar with the exception of Rupees 8,848 due on account of the Sattoor Poliapat in Tinnevelly under the Collector's management (in which the produce of the year fell short of the Peishcush) and of Rupees 15,000 due by the Beebee of Cannanore - the Peishcush Balance above exhibited was expected to be speedily realized - The five Islands in the Laccadive Group, belonging to the Beebee

Fort St. George 12th October 1857

Bedies, are now under sequestration on account of her debt to Government.

Current Land Revenue Balances
Tanjore — 306781
Trinnelly — 70871

18. The greater part of the Ryotwar balance occurs in Tanjore and Trinnelly — about two thirds of the balance in the former district has been recommended by the Collector for remission and in the latter District the adversity of the season impeded the punctual realization of the demands —

49 The balance on account of "Sundry Sources" is partly due by the Alkarry Renters of Chingleput and partly by the Ryots of Trichinopoly generally — The entire balance as well as that on account of Exctra Revenue will be realized in due Course —

50. In most Districts the Revenue was Collected with difficulty after it became generally known that under a recent Construction of the old law Collectors had not the power of distraining personal property for arrears of Revenue. This defect was Remedied

Fort St. George 12th October 1857

Remedied by act XXIII of 1856, but on the other hand a fresh obstacle has been created by this Enactment which as it limits Coercive process to the provisions of Regulation XXVII of 1802 prevents the attachment and sale of the lands of the defaulter except with the interven-tion of the Civil Court — The Removal of this obstacle, which does not exist in the Bengal Code, is as the Govern-ment are aware under Consideration —

51. The actual value of the property sold for arrears of Revenue was only Rupees 44776, although Coercive process issued in 42232 Cases involving property estimated at Rupees 125064 shewing that Ryots frequently withheld the dues of Government till they find that the provisions of the Law will be enforced against them — The small amount of property sold shews that the fault from real inability to discharge the rent is not frequent —

(Statement No 18)

The

Arrears of Revenue Statement No. 19.

52.

The arrears of former years are exhibited in Statement No. 19.

53.

Ganjam	2,801
Vizagapatam	771
Nellore	6,824
Chingleput	446
Tinnivelly	1,746
Malabar	12,366

The arrears of Peishcush occur in the districts noted in the Margin — In Ganjam the Balance is outstanding against the late Proprietor of Bramee

charge

charge and is in abeyance pending the settlement of a Claim Regarding Enams raised by that individual — the Report of the Collector on the Subject has been received and will be speedily disposed of — This Zemindary was sold for arrears and is now the property of Government.

51.

The balance outstanding in Vizagapatam is against the ancient Hill Zemindary of Panchepentah and accrued in Fusly 1259 / 1249/50 in Consequence of losses sustained by the Zemindar, occasioned by dissensions with the Managing Dewan and the hostility of the Hill Mocasadars to that functionary — Under these Circumstances and in Consideration of the poverty of the Zemindar, Mr. Robertson, the agent at the time, when the balance accrued, recommended that the Zemindar should not be pressed to pay it — The balance has however remained in the accounts unadjusted and Mr. Smollett, the late Agent, reiterates

Reiterates the Recommendation of his predecessor in favor of its Remission The Zemindars private encumbrances amount to about Rupees 23300 including interest - the Zemindar has restricted himself to an expenditure of Rupees 4000 per annum for his personal expenses and a Receiver has been appointed according to arrangements made by the parties themselves to apply the Rents first to the payment of the Peishcush and then to the gradual discharge of the private debt which however cannot be liquidated for several years as the Estate is a poor one - Mr. Sinclett urges strongly that this arrangement should not be disturbed - Concurring in the views of the local authorities and in Consideration of the poverty of the Zemindar the Board have included the balance in question amounting to Rupees 778 as well as the interest thereon amounting to Rupees 159-8-10 in the irrecoverable balances to be written off -

55. Of the arrears of Peishcush in Nellore the sum of Rupees 1,350-4-7 is Irrecoverable - Rupees 3,937-2-8 were Recommended for Remission in the general Report of last year which has been sanctioned, and the Remainder or Rupees 1,536-11-5 is due by the Chittet-mar Poligar - This individual formerly enjoyed certain Rowsoomes which are now Collected on behalf of Government when the Collections on this account fell short of the amount due as Peishcush the difference is usually Recommended to be struck off - this course has been followed this year in Regard to the balance of Rupees 1,536-11-5 abovementioned -

56. The Balance of Peishcush in Chingleput is Classed as doubtful - The balances in Tinnevelly and Malabar are left for future adjustment in the former District the realization of the sums due depends on the Resources available in future

and

and in the latter it is Contingent on the arrangements with the Beebee of Cunnanore as already explained-

57- The Ryotwar Balances are for the most part Recoverable-

58. Those due on account of Sundry sources of Revenue occur chiefly in Chingleput in Consequence of the default of the abkarry Renters and will be eventually realized-

59 The balances of Sayer Jummah occurs for the most part in Masulipatam and is nominal having been already included in Balances Recommended to be written off-

60. The Balance under the head of Interest amounts to Rupees 90,187 nearly the whole of which or Rupees 89,805 stands against the Zemindar of Cunetinggoo The Board will make the adjustment of this item the subject of a separate Communication-

Deducting

Arrears Recommended to be written off- 15th Feby 1857 No 139 & 2.

61. Deducting Rupees 223,056 the amount already sanctioned by Government, to be written off- the actual arrears at the end of January 1857 amount to Rupees 1,00,670 and are Classed as follows-

Note- The difference between this sum and the amount actually sanctioned Viz. 224,091-6-4 is owing to subsequent Collections, &c.

Reconcrable	619,558
Doubtful	178,900
